

BOOT CAMP 1851

## Chapter 1852: Not One Less

'Not one less' was their promise to each other and also to themselves.

However, they were special forces soldiers who walked on the sharp blade of a knife. One day, they might fall off and the cold blade would pierce through their hearts... At that time, it would be eternal.

K7 muttered this promise in his mouth and remembered it in his heart. He looked at his comrades hugging each other and felt his cold heart burning.

Some people said that he was too cold and inhumane. It would be best if he went to the army to be reformed. He might be able to regain his emotions if he were to fight alongside the other soldiers.

He did not say no. A week later, someone sent him to the army.

How many years had passed? It had been eight years since he graduated from medical school at the age of 19. He had already turned 27.

So many years had passed, but he had never thought of leaving the army. He had never thought of returning home... The figures in front of him were so lively and loyal, so why would he leave?!

These were his comrades! Comrades who went through life and death with him!

After retrieving his hands, he stood far away and looked at his comrades hugging each other from afar. There was a smile in K7's eyes at first. Then, there was a smile on his pale face. Ultimately, his lips, which rarely curved up, were also raised into a smile.

He walked very quickly as if he was chasing something. When he reached a member of Storm Commando, he suddenly reached out and hugged him tightly. "See you next time, Brother!"

It was just the most common farewell hug. However, the Xueyu unit members who saw it looked like they had discovered a new world. They stared at K7, who had never hugged his comrades before.

The person being hugged was Big Whale. He didn't know much about K7 or his habits. He hugged him back and said, "Definitely!"

"Okay." K7 let go. The big smile on his face really blinded the eyes of the Xueyu unit's teammates!

His bad habit was gone?

He even took the initiative to hug his comrades now?

F\*ck! When did he recover?

How could they not know?!

Ye Jian didn't know either. However, she noticed that the expressions of Xia Jinyuan and the rest were weird. She asked softly, "K7 hugged Big Whale. Why are you all shocked? Isn't it normal?"

"It's not normal. K7, who graduated from medical school at the age of 19, never hugs anyone. It's the same in the military unit and it's the same in the Xueyu unit. He has psychological trauma. Everything is normal but he doesn't like to hug people." Xia Jinyuan smiled and explained in a low voice, "He's taken this step, which means that he has overcome his psychological trauma."

Hearing this, Ye Jian thought about it carefully and realized that K7 had never hugged his comrades before this. When she saw him hugging the other members of Storm Commando now, Ye Jian felt happy too.

Defeating one's psychological trauma was not an easy task!

"Azure Bird, I'm afraid it won't be easy to meet you again after this. You're a female soldier, and you're also the female soldier I admire the most." Big Whale walked over. He couldn't hug the female soldier tightly, so he only gave her a light hug before letting go. He let go and stared at her with bright eyes. He smiled at her gently and reluctantly. "Our team is also your team. We welcome you to come and train often in the future. The demon king will also be very happy to see you."

Xia Jinyuan heard the first part of the sentence very clearly. The last part made him raise his eyebrows.

Why did it sound like there was another meaning?

Ye Jian replied seriously, "I still have many skills that I haven't learned yet. As long as there are arrangements, I'll definitely return to the team."

"Hahaha, sure, we'll be waiting for you!" Big Whale's laughter became even clearer.

### **Chapter 1853: Don't Be Reckless, Brother**

At this moment, they were all looking forward to meeting again so they could train together again. The sea, the mountains, the highlands, the Gobi Desert... They went through all of it together. If there was a chance, they were willing to go through it again!

Big Whale didn't know about the relationship between Ye Jian and Xia Jinyuan. Now that they were done with the training, there weren't so many rules. Seeing that she agreed readily, he shouted at Li Jinnian, "Captain, do you like the idea of Ye Jian coming over?"

His voice was loud and penetrating. With Big Whale as the center, his voice spread out in all directions. Basically, the members of both teams could hear him clearly.

Big Shark, who knew a little about the truth, raised his hand and rubbed his forehead... 'How dare you steal Azure Bird in front of Q King?!'

When the members of Storm Commando heard that, they burst into laughter and continued their fearless teasing. "Of course, our captain likes it. Big Whale, do you still need to ask?"

“How good is their coordination training? How good is their chemistry? How much do they like working together?”

Major Xia finally understood that these soldiers were trying to matchmake his little fox with the demon king!

When the members of the Xueyu unit heard that, they were unhappy.

“Brother, you guys aren’t being too kind! This is a female soldier in our team you’re talking about. How could you think of snatching her away? Brother, let’s have a good chat about this!”

“Which of the brothers spoke the loudest just now? I didn’t expect them to have such thoughts! Come, let’s find a quiet place to have a good chat!”

The people who said this were the Xueyu unit brothers who did not know the details. The few who knew, like G3, J5, Z7, and Liu Ruoyao, looked at Q King with sympathy.

How pitiful. His girlfriend was being poached, but Q King couldn’t do anything.

Z7 was different from the others. He loved to watch the show and was enjoying the change in Q King’s expression. That’s right, it was because he was ‘jealous’ that Q King could see his girlfriend every day.

Xia Jinyuan knew how bad his friend was. He glanced at him and raised his eyebrows. After a few seconds, Major Xia looked at Han Zheng again.

This time, his gaze was a little provocative. His thin lips curled up slightly... Even his smile was provocative!

That smile was really annoying. He seemed to be telling Han Zheng, ‘Don’t think that you can watch this scene just like that. Give up!’

“This is too much. It’s a little abnormal.” Z7, who was provoked, muttered to himself. Then, he looked at Ye Jian. Q King was so calm. He even looked at them so provocatively. Was he not angry because of Ye Jian?

Was it because Ye Jian would do something to make him happy after this so he didn’t mind? Or was he really angry?

Z7 and Han Zheng understood Xia Jinyuan very well. After clearing his thoughts, Xia Jinyuan immediately straightened his expression and pretended that he hadn’t seen anything.

J5 immediately walked over and said in a low voice, “Calm down. They don’t know about you and Azure Bird. Those who don’t know are not guilty. Don’t put on airs, and maintain your composure. Don’t make things unpleasant.”

As a man, watching his girlfriend being matchmade with another outstanding man made him feel awkward and aggrieved.

## **Chapter 1854: Hormones**

Encountering this kind of situation was indeed awkward. However, Major Xia Jinyuan was not an ordinary person. Nothing that could make him feel awkward had ever happened before.

If another man wanted to snatch his girlfriend, it would depend on whether that man had any feelings for her or not.

Li Jinnian didn't have any feelings for Ye Jian. Since he knew this, he didn't have to do anything.

Of course, the most important thing was that his girlfriend had no feelings for other men!

All in all, there was no need for him to do anything.

If he really made a move, things would get truly awkward. He would make everyone feel awkward, and his little fox wouldn't be able to get away from the attention.

It didn't matter if he lost some dignity. He was a man, after all. What was there to be afraid of if he was thick-skinned?

However, this matter had to be settled properly. He didn't want to make things difficult for his little fox.

As for himself, he wasn't angry. But other than feeling a little depressed, he was a little worried.

He was worried about when his identity could become more open.

However, he still had to put on an act. He had to let his little fox know how aggrieved he was as a boyfriend.

When he heard this, he said, "Don't worry, I still have this bit of grace. Those who don't know are innocent. When they find out one day, I naturally have a way to have a good chat with them about the past."

"We'll talk about it in the future. Bear with it for now," J5 said. He wanted to laugh. "There's nothing you can do about it. You have to understand that rare things are more precious. Besides, Azure Bird is extraordinary. Her talent and looks are top-notch. The hormones in a man's body would naturally act up. There'll be some fantasies. You... Cough, why don't you take a breather?"

Major Xia felt that his comrade was too good at attacking people with his words. He hadn't thought about anything else but his good comrade had already thought about everything!

What did he mean by 'There'll always be some fantasies'?

"Didn't you come over to comfort me? Why are you stabbing me with your words instead?" The expressionless Major Xia stared at his comrade who was trying hard to hold back his laughter.

"Fantasies? I could still accept it if you had said 'fantasize about finding a girlfriend like Azure Bird'."

J5 laughed when he heard that. He patted Xia Jinyuan's shoulder and laughed until his shoulders shook.

"I'm honest. Don't panic. Be more forgiving. An honest person will never lie to his conscience!"

It was good that Xia Jinyuan was not angry. He was really worried that there would be a dispute because of this.

After laughing, J5 said seriously, "But this also shows a problem. As long as the relationship between the two of you is not known by everyone, something like this will happen again. Q King, if you want to solve this, you have to forbid comrades from making jokes.

"It doesn't matter to us men. We're thick-skinned, but Azure Bird isn't. She's a female soldier. If she makes jokes like that often, not only will it affect her mood but it'll also ruin her reputation."

"Yes, I'll express my stance after they leave." Xia Jinyuan nodded lightly. His gaze landed on Ye Jian. She had to settle this herself. He still needed to wait for Demon King Li to stand up and express his stance before he could make a move.

Although the two teams were training together, they were two different teams, after all. They were both team leaders, so Li Jinnian had to be the first to step up when Storm Commando members started fighting.

Xia Jinyuan, who came from a military family, knew how to get along with his colleagues. He wouldn't allow himself to make any mistakes.

Major Xia wouldn't let himself be taken advantage of. Since he wanted Ye Jian to know how frustrated he was, his current expression made J5 stay away silently.. Xia Jinyuan was indeed a soldier king. He really knew how to act!

### **Chapter 1855: We're Thick-skinned, So It Doesn't Matter**

As for Ye Jian, she didn't really understand what they meant until she heard their teasing. She didn't feel shy at all. They were just teasing each other.

She did not take it to heart, but what about her boyfriend?

Ye Jian understood what was going on and immediately looked at her real boyfriend. She turned her head and saw her real boyfriend, Major Xia, looking at her with 'resentment' in his eyes. When he saw her looking at him, he sighed heavily and looked like a 'wronged husband'.

Ye Jian felt her scalp turning numb. 'Captain Xia, you're really not suitable to be a 'wronged husband'. I should comfort him.' If she were in his shoes, she would feel uncomfortable if someone teased him with another woman.

Although she did not have any experience in love, she knew that love was mutual respect. They should put each other in their hearts and always think for each other.

Besides, although the members of Storm Commando were joking, such jokes should still be banned... She did not like them.

“How bold of you to tease your own captain. Your captain is a demon king! I can foresee that you won’t be able to escape after we return.”

As soon as Ye Jian finished her sentence, all the members of Storm Commando immediately looked over.

No way, it was just a joke!

With one look, those bold team members were so frightened that their hearts were trembling... Their demon king captain had a cold face to begin with, but now, he looked so cold that he was expressionless!

Everyone knew that an expressionless demon king was the scariest!

Xia Jinyuan was already laughing. It was not easy to swim across tens of nautical miles.

Sigh, they only knew about the little fox’s ability and character, but they didn’t know that the little fox didn’t like to joke around, especially when it came to love.

Li Jinnian’s expression turned extremely cold. This was getting out of hand. Even if they wanted to tease him, they had to know their limits.

His handsome face was cold as he walked to Big Whale’s side. Big Whale knew that he was in trouble at first glance. He lowered his head and immediately apologized, “Sorry, Captain, I was wrong.”

He had to admit his mistake immediately! And his attitude had to be sincere!

Not a single member of Storm Commando continued fooling around anymore. Seeing this, he directly grabbed the neck of a comrade with both hands. “I’ve been screwed by your foul mouths! I’m supposed to have a few days of leave after we go back, but now it’s all gone!”

Just as he was about to finish his sentence, he heard the demon king’s cold voice. “I originally planned to give you three days of rest. Now it seems like there’s no need for that. Go back and challenge the 30 nautical miles of the pool.”

The soldiers could not say too much. The punishment was very clear. Whoever dared to make such a joke would be severely punished!

The members of Storm Commando stood straight and accepted the punishment without any objection.

Xia Jinyuan walked beside him. His usually smiling handsome face was now the same as the demon king’s face. It was cold and sharp. “You can joke, but you have to remember to practice limits. We can sit together and chat. We’re men and we’re thick-skinned, so it doesn’t matter.

“Azure Bird can joke around too, but you all made an amateur mistake.” Xia Jinyuan didn’t just say this to the navy soldiers but also to all the special forces of the Xueyu unit.. “You’ve all forgotten that Azure Bird is a female soldier. You’ve forgotten that although we’re comrades, there’s still a difference between men and women!”

**Chapter 1856: Wouldn’t Be Here If I Were Scared**

“I hope I won’t hear jokes like today again. I also hope that everyone can be considerate of Azure Bird and not make her too embarrassed. After all, she’s the only female soldier in our team.”

With the two captains expressing their stance, the soldiers of the two teams realized that they really shouldn’t be like this. They only cared about keeping Azure Bird in their own team but didn’t consider whether or not Azure Bird would accept them.

Big Whale apologized first, and Ye Jian accepted it gladly.

After what happened today, Ye Jian knew that in the future, neither of the two teams would make fun of her and the demon king anymore. Similar problems wouldn’t happen again.

Ye Jian was very satisfied with the outcome.

The helicopter was already in position. The wireless communication device informed them that they could board the plane. It was time for the two teams to separate.

Li Jinnian, who had a cold expression on his handsome face, walked to Ye Jian’s side. A faint smile appeared in his eyes. “There’s an exam when we get back. Do your best and don’t worry.”

There was no need to mention anything else.

She wanted to join the Xueyu unit for the amphibious operations. She still needed to improve in maritime operations. There was a great chance of her returning to Storm Commando.

Ye Jian saluted this excellent commander. “Demon King, I look forward to the chance to join Storm Commando and undergo your demon-like training.”

“It’s good that you’re not afraid.”

“I wouldn’t be here if I were scared!” Ye Jian replied quickly.

Wouldn’t be here if she were scared. She’s quite arrogant!

After scrutinizing her expression and confirming that she wasn’t afraid, the smile on Li Jinnian’s face slowly spread to his eyes. It was like a warm spring breeze, making his handsome face even more beautiful.

A female soldier like her was really admirable and breathtaking. They sighed and said, “So there are such female soldiers too.”

Li Jinnian nodded slightly and praised, “You’re pretty good. You’ve never disappointed me.”

She had never disappointed anyone before... It was not that she only had to do a good job every time but that she had to do it better than expected. That was why she had never disappointed anyone.

In the end, Li Jinnian gently hugged the female soldier who used to be in his team. He hugged her slender body that was like a proud pine tree that would never bend. The softness that belonged to a female made his calm heart soften. "Work hard. Don't waste your talent."

"I'm looking forward to having you in the international competition."

The male soldiers would be proud to have such a female soldier with them.

The helicopter picking up the Storm Commando team would arrive in half an hour. Li Jinnian looked at the time and pointed at the rifle Ye Jian was carrying. "Before we leave, we need to confirm one last thing. We want to see how you shoot."

It was related to the mountain combat competition 'Search and Shoot' and 'Precision Shooting with 100 Bullets Within 300 Meters'. When Ye Jian's shooting data was released, it turned out she was 0.003 seconds faster than Demon King Li.

It was equivalent to Ye Jian taking her second shot when Li Jinnian was only done with his first.

"Due to the restriction of 300 meters, I discovered that you didn't need to aim at the target position in advance to make a precise shot. Commander Dong received your data and wished to come over and watch you do it in person. We're even more curious and want you to teach us."

When it came to training, Li Jinnian spoke more than usual.

After hearing that, Ye Jian took down the rifle on her back. "Sure, no problem at all. There are still 14 empty cartridges here.. After I shoot 14 rounds, you should be able to find the reason."

### **Chapter 1857: Shocked**

The members of the Xueyu unit who had gone on missions with Ye Jian knew that ordinary people wouldn't be able to learn her skills. They were all very interested when they heard that Ye Jian wanted to complete 14 blank cartridge shots.

Instead of specifying the shooting target and then completing it, it refers to the target that needs to be shot at the last minute. For example, the order would be something like, "Four meters away, seven o'clock, the second tree, the bird's nest."

Or, "Five meters from the ground in a straight line, one branch."

As long as the Xueyu unit reported the target, Ye Jian would be able to find it. Just like what Li Jinnian saw before, there was no need for her to aim. After loading the gun, she would just pull the trigger and shoot.

Bang bang bang...

Continuous gunshots rang out. The members of Storm Commando saw that Ye Jian was shooting directly as though she was aiming at a 'huge monster'.

...

After 14 blank cartridges were fired, the members were shocked into silence.

What kind of shooting technique was this?

Were they all unqualified special forces soldiers?

14 bullets. It would take some time for each bullet to be aimed and fired, right...? It was like Azure Bird was blindly shooting. After shooting for a while, it was over!

The targets were hit, and all the bullets were fired!

"You really didn't aim properly at all. How did you do it?" Li Jinnian vaguely realized that Ye Jian's shooting skills weren't something they could learn easily. "Without aiming, your accuracy is still 100%. Azure Bird, how do you do it?"

"With this gun in my heart, I can see the target with my eyes. With this gun in my heart, I have already taken aim. From the moment I raised the gun and pulled the trigger, the rifle in my heart was alive. I could already feel the bullet being ejected from the magazine. The shell jumped out and the bullet went straight into the target."

It was the same explanation as before as it was Ye Jian's truthful answer. As for whether they believed her or not... it was up to them.

Her inconceivable explanation and having witnessed the fact for himself made Li Jinnian, who had always been calm about everything, find it hard to accept.

She had the rifle in her heart?

"But you didn't use this rifle when shooting in the mountains before." When he asked this question, the calm marine major got a little anxious again.

Ye Jian smiled. "Yes, as long as it's a gun that I'm familiar with, I can do it."

Li Jinnian knew that this was the right answer.

After a long time, he said slowly, "I think we won't be able to learn this."

"In the past, we all wanted to learn her technique. We tried but gave up in the end." Xia Jinyuan smiled. "It's because the gun is in her heart. Only she can do it."

It made sense. As Ye Jian was a special forces soldier of the Xueyu unit, the people in the unit would be the first to know about her skill. They were familiar with the battlefield, so they wanted to learn it too.

Unfortunately, no one could do it.

"Indeed, I won't be able to do it. I don't need to try it to know," Li Jinnian said with a helpless smile, "Commander Dong told me that since Azure Bird can't become a navy member, I should learn her shooting skills." He paused for a moment before adding, "I'll report this to my superiors. Commander Dong will be in a lot of trouble again."

After hearing her explanation, the shock on the navy soldiers' faces did not fade for a long time. They tried to think it through and even raised the rifles in their hands... In the end, their first move was still to aim!

### **Chapter 1858: When We Meet Again**

She had the gun in her heart?

Yes, they all had a gun in their hearts, but their gun was dead, not alive. It wasn't like what Azure Bird had said about the 'gun' in her heart being able to aim and shoot!

They could not learn this ability!

Li Jinnian originally wanted to ask about how she could so quickly reload the magazine, but he felt that it was no longer necessary. He was afraid that he would have more doubts after asking.

Suddenly, Ye Jian said, "Because I have the gun in my heart, I know how many bullets I've shot and how many bullets I have left in the magazine. When I have three to four bullets left in the magazine, I'll change the magazine with one hand.

"During the process of changing the magazine, three to four bullets would be fired. I'll remove the old magazine and reload the new one. I don't need to wait for the tracer to appear or pay attention to the magazine."

She explained the last question in his heart. Li Jinnian nodded his head. "I understand. It's all because you have a live gun in your heart." As he spoke, he looked at Xia Jinyuan and lowered his voice slightly, "Luckily, you joined the military and weren't buried."

Luckily, she was a Chinese soldier and was one of them!

If such an enemy were to appear on the battlefield, they would tremble just thinking about it.

Ye Jian nodded. "You can say that. The commander-in-chief of the navy told me that he wants all my comrades to learn it too. However, Q King and the rest have tried it but it didn't achieve the desired effect."

"As we can't do it, we'll never be able to achieve it," Xia Jinyuan said helplessly. He was very interested back then and thought that he might be able to do it too.

As it turned out, he was thinking too much!

The navy soldiers of Storm Commando touched their faces. Alright, it was time for them to wake up. They shouldn't think about learning Azure Bird's shooting skills. They were all delusional!

The sound of propellers could be heard from above the forest. The shocked navy soldiers were pulled back to their senses as they looked at the sky.

The helicopter that would bring them back to South Island arrived.

After hearing all the explanations, Li Jinnian smiled at the female soldier who surprised him once again. He turned around and faced the navy soldiers behind him. His voice was extremely cold and firm as he said, "Everyone, gather!"

After smiling, Li Jinnian turned around. He was the cold and indifferent young navy major once more.

The 22 members of Storm Commando gathered in one minute. The last seat in the first row was empty. This used to be Ye Jian's seat.

Without Ye Jian, they became 21. The empty seat reminded them that Azure Bird wouldn't follow them back to South Island.

Their resolute gazes landed on Ye Jian. Even though they were reluctant, they had to say goodbye.

"Attention, salute!"

As Xia Jinyuan's awe-inspiring voice was heard, all the comrades straightened their backs like steel plates. They raised their right hands and saluted the leaving figures.

As long as the green mountains did not change, there would be a day when they would meet again!

"Sigh, if Azure Bird were in our team, she would probably be sitting opposite me right now." Big Prawn boarded the helicopter and looked at the empty seat across from him. He was reluctant to leave.

When the other members of the assault team heard this, they sighed without saying anything. Their gazes fell on the empty seat opposite them.. If Azure Bird were to come up, she might just sit on the same helicopter as them.

### **Chapter 1859: Fortunately, She's A Chinese Soldier**

Soon, the empty seat was taken by the other comrades who boarded the helicopter. Sea Anemone looked at Big Prawn who was staring at him with a strange expression. "What are you looking at?"

"I see you're taking Azure Bird's seat."

...

Upon hearing this, Sea Anemone turned to look at the cabin door. He remained silent until the cabin door closed before he retracted his gaze. "She didn't come up, and she won't be coming up either. After all, Azure Bird isn't a soldier on our team. She can't come up with us."

"Also, we did something stupid just now. I was shocked when Q King finished talking. We really didn't consider Azure Bird's standpoint at all."

"She's a female soldier worthy of our respect. We shouldn't say anything like that in the future."

“Her shooting skills can’t be taught to us even if she wanted to. She doesn’t need to aim to shoot accurately. It was the first time I heard her say that and I was a little shocked.

“But it’s not that she doesn’t aim. It’s just that she does it in her heart. She also said that as long as it’s a gun she’s familiar with, that gun will live in her heart.” Big Whale’s eyes were filled with admiration, and he still found it unbelievable. “Just from this point alone, it shows that she’s more familiar with guns and ammunition than we are. I suspect that she’s very familiar with all the known guns in the world.”

His words made the navy soldiers take a deep breath. “If that’s the case, her skills are indeed frightening!”

“Yes, she’s very scary. The most terrifying thing is... I’m just glad that she’s a fellow Chinese soldier and not an enemy.” Big Shark sighed. There was only deep admiration for Ye Jian in his tone. “A female soldier like Ye Jian is absolutely rare!”

“Indeed. Fortunately, she’s a Chinese soldier. I can rest assured now.”

“We can rest assured. In the future, she won’t have to worry about the enemies she may meet during her missions. Sigh, why isn’t she a female soldier on our team?”

“Stop dreaming! That’s impossible!”

The navy soldiers spoke one after another. From their expressions, one could tell that they admired Ye Jian.

The female soldier, Ye Jian, had the code name ‘Azure Bird’. She was a female soldier who was more valiant than a male soldier and had incredible shooting skills.

The more they interacted with her, the more attracted they were to her unyielding spirit. The more attracted they were to her, the more they would discover her various merits. In the end, they were convinced by her and admired her.

This was probably the so-called ‘charisma’.

Li Jinnian was the last to board the helicopter. When he reached the door, he turned around and returned the salute to all the Xueyu unit members. He then retracted his right hand and boarded the aircraft.

If there was a reunion, there would be separation. If there was separation, there would be a reunion. One day, the two teams would reunite.

The two helicopters that took away the Storm Commando team flew from the sky to the sea before disappearing from their sight. They looked down at the members of the Xueyu unit until they could no longer see them.

Xia Jinyuan, who was standing at the front, turned around and faced all his comrades. He reorganized the team and gave instructions to them one by one. “One, everyone has a training report and a combat report to do. You can submit the reports in groups.

“Secondly, we have to write down the suggestions for the exoskeleton power equipment that we wore to the Gobi Desert, as well as jot down the problems we faced when using it. The equipment experts are still waiting for our feedback.”

Marching and fighting were not a problem. The only problem was that writing these reports was a headache for these special forces soldiers who were from science and engineering backgrounds. They could already feel a headache coming on. Everyone, including Xia Jinyuan, didn't want to write reports.

Ye Jian wanted to laugh. “You were the one who said that you wanted to write the reports. However, you're now acting like you don't want to write them.. You'll affect the entire team.”

### **Chapter 1860: Intention To Return**

“I was influenced by the veterans. In the first year I joined the team, do you know what J5's first words were? He said, ‘Finally, someone who can write reports. I don't want to write any more’.”

Xia Jinyuan, who was a little tired, closed his eyes and spoke. They didn't leave by helicopter like the navy soldiers. Instead, they took a military truck. They arrived at the military airport before flying back to the base.

The training in the mountains this time did not alert the local troops. They had deployed four trucks from the local troops. With sufficient fuel, they drove the trucks into the mountains back then. Now, they naturally had to leave in the same trucks.

Ye Jian, who was driving, saw him and said softly, “Stop talking. Sleep for a while.”

Xia Jinyuan, who was both mentally and physically exhausted, stopped speaking. His head was tilted to the side of the window, and his thin lips were slightly pursed. He had already fallen asleep.

Ye Jian sized him up quickly. Seeing the fatigue between his eyebrows, her heart ached.

The car drove steadily. Xia Jinyuan didn't wake up until K7 came over for his shift.

“Drive on flat ground. He's quite tired.” When Ye Jian handed the car keys over, she whispered, “Let him have a good sleep.”

K7 smiled and made an 'okay' gesture.

After Ye Jian got to the back, he glanced at Q King who was sleeping soundly and chuckled. “It's not a bad idea if you want to be in a relationship with Ye Jian.”

He did not care that the person who was asleep could not hear him and started the truck.

After arriving at the airport, Ye Jian flew to the city where the school was located. She took a private flight with Xia Jinyuan and flew straight to the capital city. Principal Chen was still in the hospital. She wanted to visit this person who still thought about her even when he was on the verge of death. She didn't allow Commander Liu and Commissar Yan to inform her relatives.

When the plane arrived at Beijing Airport, it was already past two in the morning. It was already 3:30 am when they arrived at General Military Hospital.

Ye Jian didn't have the time to change her clothes. She didn't even walk when she got out of the car. Instead, she ran toward the main hall. After looking at the hospital's map, she passed through the main hall and ran toward the sanatorium.

As Xia Jinyuan ran with her, he contacted the sanatorium. They couldn't visit Principal Chen just because they wanted to. The guards needed to receive orders to let them in.

Even though the Southern Province People's Hospital found out that it was indeed a nurse's mistake, the military did not let down their guard because of this. A world-class sniper almost died in a medical accident. The Southern Province People's Hospital should be destroyed!

Ye Jian ran all the way. It took her less than five minutes to reach Principal Chen's ward.

"The former squad leader is resting. After a week of recuperation, he's been sleeping quite well. His meal volume has also reached the standard, and all of his bodily functions have reached the discharge standard. He can be discharged after another half a month of treatment."

The guard knew that the female soldier in front of him was the only family member of the old squad leader. He didn't need Ye Jian to ask him anything and knew what she wanted to know. "The old squad leader wanted to be discharged half a month ago but he was stopped by the commander-in-chief. After that, the old squad leader stopped bringing it up. However..."

"What is it?" Through the glass window of the ward, Ye Jian looked at Principal Chen, who still had a drip attached to his arm. His face was much thinner. Ye Jian didn't even know that she was shedding a lot of tears at this moment. The guard paused. Only when Ye Jian opened her mouth did she feel the tears flowing into her mouth. They were salty and bitter.

The guard quickly looked at the tearful female soldier and lowered his voice, saying, "The old squad leader agreed, but one night, he wanted to leave secretly. After he was discovered, the commander-in-chief sent six guards to keep an eye on him."

This was indeed Uncle Chen's style.. Ye Jian smiled with tears in her eyes.
