117. Breaking The News

Bonus Chapter – Breaking The News

LIAM

Two hours had passed, and I was still stunned... I vaguely heard Damon tell the doctor to not pass the news onto anyone, that Raven and I would do that ourselves. I can't believe I fucking fainted... but it still can't be real right? Five pups? 2

Goddess.

"Are you ok?" Raven asked me, cupping my face as I sat on the hospital bed.

The sparks from her touch rippling through me. I closed my eyes, pulling her between my legs and resting my head against her breasts for a moment.

"Yeah... Fuck, I mean, I should be asking you that." I looked up at her concerned, my eyes skipping over her tiny frame; how the fuck was that even going to work?

I ran my hands down her waist, despite the shock there was a spark of excitement inside of me. Raven and I were actually having a pup together, scratch that -PUPS.
1

I looked up into her gorgeous eyes, raking my fingers through her hair.

"How the hell are you going to carry five?" I asked, tugging her close and kissing her softly.

"I'm sure I'm capable. I told you; I might be small, but I'm tough." Raven said smiling at me. "I guess... We're going to be parents pretty soon huh...?"

"Yeah... soon." I pulled her onto my lap, wrapping my arms around her tightly.
"Are you really ok?"

She raised an eyebrow.

"I am, I'm shocked... but I'm more worried about you." She replied, caressing my jaw.

| sighed.

“One kid is hard, five.... But we’ll manage somehow...”

“We will!” She replied confidently. “So how about we go and share the news with your family! And I want to tell Taylor too.”

I nodded, kissing her again. Although she seemed shocked, the excitement was there. Even though I was a mess of emotions about having children, I still could imagine having our pups in my arms, it didn’t sound too bad...

“What is it?” Mom asked looking concerned.

Her gaze flitted between us both as she stood up from where she had been sitting, ruffling her hair. We had come straight to their home from the hospital to break the news.

“We have a gift for you.” Raven proclaimed, holding out the envelope with the scan image inside.

“A gift?” Mom asked, taking it and about to open it when Raven waved her hand, stopping her.

“Open it together.”

“Yeah, a gift. Good luck.” I added jokingly. 1

I hope they were ready for grandparent’s duties...

They exchanged looks before Azura came running over.

“Is it a present for me too, Waven?” She asked, as Dad lifted her onto his lap, kissing her forehead.

“Yes, it is!”

Mom slid the image out, tilting her head, a frown creasing her face as Dad’s eyebrows shot up.

Yup... slowly processing it....

“Uncle, Aunty, congratulations! I’m pregnant with five pups.” Raven announced, placing a hand on her stomach. 2

Her words made my heart thud and I tugged her into my arms, placing my hand over hers. My tiny bite sized Luna...

“Holy...” Dad’s eyes widened as Raven’s words registered, whilst Mom’s eyes blazed silver as she stared at Raven and then back at the image in her hands. 2

"FIVE BABIES! FIVE SMALL WIYAM'S AND WAVEN'S! I LOVE IT!" Azura screamed, making Mom and Dad both snap out of whatever shock they were in. 2

"Oh, my goddess!" Mom jumped up, pulling Raven from my arms and hugging her. "That's just- That's amazing! I mean, oh my goddess. Five?! How is that even possible? It's so rare! Oh goddess, what did the doctors say? It can't be safe, we need Kiara, or you need to go to Kiara. She needs to make sure all six of you are safe. Oh, my goddess, six of you! You are a family of seven now! Oh my..." 2

I smiled slightly at Mom's panic and excitement. Whilst Dad sat there stunned, not even bothered by Azura's jumping on the sofa whilst screaming and laughing like a crazy lunatic.

"Five... good luck." He now spoke, smiling slightly. "Congratulations."

He stood up, giving me a hug and I couldn't resist smiling back as we stepped back. Mom was still smothering Raven with hugs and kisses.

"Let her breathe, kitten." Dad murmured, tugging Mom away from Raven before he smirked at us both. "I thought I had it bad with two, but we have an entire pack ready to help out and of course, Red and I won't mind helping. Liam wasn't a bad kid so hopefully, Karma won't come back to bite you two in the ass... But then again, Raven on the other hand...All I'm going to say is may the goddess help you both." 2

"Uncle, that's not nice." Raven pouted as Dad hugged her, planting a kiss on her forehead.

"You were a little minion, an adorable little devilish one though." He smirked, looking down at her as she stuck her tongue out. "See, you haven't changed."

He didn't let go of her as Mom hugged me tightly, saying how excited she was.

"Azura baby, are you excited to become an aunty?" She asked her.

"I a big girl, I take care of your babies, ok?" She said with such determination that I felt a little worried. 1

"You sure can." I said, although I think she was just going to lead the little army to mischief. 1

She smiled up at me and I picked her up. Regardless of how naughty she was, I loved her, and I knew I was going to love these five too. I glanced over at Mom asking Raven how she was feeling, what to avoid and how she was going to be there for her every step of the way.

We were going to be ok. Mine and Raven's eyes met, and she blushed, lightly smiling.

'I love you darling, and I know you are going to be an amazing bite-sized mama.

'Love you too... We will be ok, baby.'

I nodded at her reply as Mom hugged her again, happiness and excitement clear in her eyes...

It was evening and we were about to video call Kiara. We had told Zack and Taylor, Taylor had been so shocked before it had turned to excitement, whilst Zack just looked stunned, saying he was glad Taylor wasn't a woman.

"I wonder how Kiara will take it?" Raven whispered, her oversized jumper sliding off one of her shoulders. I kissed her neck softly just as the call was answered to reveal not only Kiara, but Alejandro, his arm around her shoulder as he smoked a cigarette.

I never would have ever thought that the Lycan King would be my brother-in-law...It's still weird that he's mated to my sister.

"Hey, guys." Kiara said, smiling at us both whilst raising her eyebrows at Raven. "What is it?"

"Yeah, make it fast." Alejandro added coldly, wrapping his hand that was holding his cigarette around Kiara's neck before he kissed her ear.

"Well... I'm pregnant." Raven stated, looking at me.

Goddess, she was beautiful.

Kiara gasped, her eyes sparkling with excitement.

"Oh, my goddess! Aah!" She screamed, bouncing on her seat as she clamped her hand over her mouth. "I'm so happy!"

"Told you it's going to be that shit. Welcome to the world of no fucking privacy." Alejandro remarked with a smirk.

"Listen here, big boy, that's not even the main news." Raven pouted.

Alejandro raised an eyebrow, whilst Kiara couldn't stop smiling.

"Is it twins?" She asked suddenly, looking at me and smiling happily.

"No... It's quintuplets." Raven blurted out. :

Kiara's smile vanished, her eyes widening, and even Alejandro looked shocked, although he covered it up fast.

"Wow, guess you guys are actual fucking animals, that's a whole fucking litter." He snickered and I frowned at him. 5

"Alejandro... Be nice!" Kiara scolded. "Guys, that's amazing! But hun you need to take it easy; I'm going to visit and I'm going to check up on how you're doing, I'm going to be there. Dustin, one of our Deltas, his mate had quads and it was amazing! This is even more mind-blowing... Babe, I need to see them! Do you have a picture!?"

"Now all night she's going to be fucking gushing about these pups, although I'd rather you be gushing." Kiara slammed her hand over his mouth, her cheeks flushing, and I sighed. Seriously this guy had no filter, I did not need to know that.
2.

"We have a picture." I changed the subject smoothly, picking it up and holding it to the screen.

"And I'll send it to you too." Raven chirped in.

"That looks fucking strange, makes me wonder if I have trypophobia or some shit like that." Alejandro

remarked as Kiara frowned at him, before admiring the image. +

"They are gorgeous!" She cooed.

"Aren't they?" Raven smiled happily.

"Um, they're just beans..." I added, confused as to what they were finding cute. 1

.

"Women are weird as fuck." Alejandro added, and for once I kinda realised that I actually do agree that women can be a little strange...

I nodded as the girls talked about some vitamins or something.

"Make sure you get Elijah to look after them, he ain't got nothing better to do anyway with his time." He snickered.

"Or are you just sad uncle got to retire when you're only six years younger than him?" Raven piped in.

"Na, I'm definitely not as fucking old as him."

"Well, we are definitely coming down, because girl I need to see you in person." Kiara said before she smiled at me. "They are going to be perfect."

I nodded. Yeah, regardless of everything, I knew they were going to be fucking perfect.

chapter 118- The Struggle Bonus Chapter –

The Struggle FOUR MONTHS LATER .

RAVEN

Pregnancy was hard . I felt exhausted , I could barely walk , sit up , or anything . My back ached continuously and I was actually going to be leaving for Kia's pack in a week or two as I was nearing the end of my pregnancy and everyone agreed I needed her by my side . For her to come here was a lot harder , so Liam and I would go there whilst Uncle El and Aunty Red would run the pack in our absence .

News had spread that the Blood Moon Pack's Luna was going to have quintuplets , and I knew it was more of a spectacle than anything else . I refused to go to events , I didn't want to see anyone . Goddess ! I'm not something to stare at ! I looked over at Robyn , with her normal sized bump , she was due around the same time as me . She was further along than I was , but due to mine being a multiple pregnancy , I was probably going to have them first .

" You ok , babe ? " She asked me . I nodded , although I couldn't even see my lap ... I had liked my belly when it was smaller , but now it feels like all I was , was this big round hot air balloon .. " Hey ladies . " Damon said coming over with some ice cream cones . He passed Robyn one , kissing her lips before smiling at me and passing me the second cone . I frowned taking it . Wasn't I already fat ? " It's not poisoned , Raven . " He said with a smile , caressing Robyn's stomach as he kissed her again .

" I didn't say it was . " I replied , knowing I sounded snappy . " Sorry " " It's all good , I'm used to it . " He winked at me until Robyn turned her head sharply to him . " Excuse me ? What do you mean used to it ? ** " Oh hey , I didn't mean it like that . " He said making her frown deeper . " You insinuated that you are used to being snapped at .

" She replied icily , I nodded in agreement . " She isn't wrong . " I added before leaving them to their argument . We were currently at our place and Liam was cooking , but he was taking forever ! A knock on the door made me turn . " I'll get it . " Liam called . Well , obviously , I hated getting up . My eyes followed him to the door , my eyes on that sexy ass of his .

I hated how we weren't able to have sex as much anymore . I just felt horrible ... No matter how doting Liam was towards me , I still felt so big and uncomfortable . He opened the door to reveal Taylor and Azura . " Hey , our princess wanted to come over , s o I thought I'll pop in to see my favourite girls . " Taylor said as Azura ran over to me and I smiled .

" Waven how are my babies ? " Azura , asked , hurrying over and kissing my belly five times . I smiled , giving her a hug " They are completely fine . " I replied . " And how are you , Waven ? " She asked , her eyes full of concern . " Mama said not to bother you today , so I promise I won't . " " You never bother me Zuzu . I'm great and so are the babies . "

I gave her a cuddle as she turned to Robyn .. " Hello , Wobyn . " She waved and quickly planted a kiss on Robyn's stomach too . " Hello , princess . " Robyn smiled at her , and I didn't miss Damon's look of relief that Robyn was distracted . Taylor gave me a cuddle before sitting down next to me . " Want me to massage your shoulders ? " He asked . I know seeing me pregnant made them all sympathise with me , but I was ok for most of the time and I didn't want them fussing over me .

" It's ok , Liam did that not long ago . I smiled at him " Where's Zack ? " " Working . " Taylor replied with a pout . " So are you guys not going to find out the genders ? " " We already have . " Damon said , caressing Robyn's thigh . " But we are keeping it a surprise for now . " Robyn replied . Taylor pouted . "

You won't even tell me ? " Robyn smiled slightly . " Nope , it's a surprise until the baby shower . " F I had a feeling Liam knew because he and Damon didn't have secrets , but I had not asked Liam , knowing that he would tell me and I wanted to respect Robyn's wish . " That's unfair , I love babies . " Taylor said , looking at me . " And I know you said you're keeping them a surprise , still sticking to that ? " " Yes , we are . " I replied , looking over at Liam who was plating the food .

Goddess , he looked so sexy working in the kitchen . He turned and gave me a sexy wink . ' Looking beautiful , love . ' I gave a small smile ; I didn't feel beautiful . " Oh no , Waven , why are you not wearing makeup ? " Azura said suddenly . " I'm too tired . " I replied . She looked at Liam over in the kitchen before shaking her head , her eyes full of worry . " But Wiyam said you need make - up because you look ugly with no make - up . " She told me . The clang of something falling in the kitchen area made my eyes snap to Liam . " Did he now ? " " I only said that to get her to stop wearing make - up .

" He said quickly , his eyes wide a s he stared at me . I frowned unhappily .

" Yeah , nice . " I said coldly . " Taylor babe , A help me up . " " Raven ... " Liam came over as Azura simply shook her head , sighing " Don't . " I suddenly felt really emotional . I already felt awful and unsexy , this didn't help matters . " I sorry Waven . " Azura said realising I felt upset . " Oh Zuzu don't be , you did and said nothing wrong .

I just need to go lay down for a bit . " I replied as Taylor helped me off the sofa . " Love . " " Liam tugged me into his arms , glancing at Taylor , who refused to let go unless I said so . I smiled at him , now that was a good friend . " I'm tired , Liam . I

want to go lay down until dinner . " I said quietly as Taylor let go of me . " Not when you're angry at me .

" He said softly , lifting me up bridal style with ease and carrying me to the bedroom . I didn't reply , knowing the tears would come if I spoke . He placed me down on the bed as if I was the most precious thing to him . No matter how huge or weird I looked he still looked at me with adoration . " Talk to me , love . " He whispered , kneeling down by the bed he took my hands and kissed them tenderly .

" I'm fine , I just , how could you say I look ugly without make - up when I feel ugly as i tis ?! " I pressed my lips together , refusing to cry . " I really just wanted Azura to stop messing with your make - up , it happened months ago , before you were pregnant ! I don't even know how the hell she still remembered that . " He replied with annoyance . " Hey , don't blame her , ok ? " I scolded , he got up claiming my lips in a passionate kiss not giving me even a moment to breathe . " I don't care what you think , but you are far from ugly , goddess . Baby girl , you are a miracle right now .

" . " He whispered huskily , moving back and caressing my

hair . " You are carrying our little pups , carrying one child isn't easy and you're here with five . You are still the most breath - taking woman on this planet , and you're mine . " My heart melted at his words and suddenly I hugged him , turning my body so my stomach that was carrying our babies wasn't in the way .

He was right , this moment was special . I just felt so emotional at times ... " Thanks , Liam . " I whispered . He wrapped his arms around me and kissed the top of my head . " Not long left and then it's going to be a hell of a lot crazier , but I promise it'll be easier . I'll do my best to take the load off you , because right now I can't that .

" He placed a hand on my stomach and I felt a movement inside . Every time he touched my stomach , and the sparks of the bond coursed through me , the pups would react to his touch . " I know you will , and you have been so amazing . Don't think I don't notice you massaging my back or legs when I'm asleep . "

I said , caressing his face before kissing him softly . " I do appreciate you , blue eyes , even when I'm annoyed and irritated . " " I know . Now , how about we go back out there and I give you an amazing foot massage after we eat ? " He suggested . I nodded and he gave me that gorgeous smile of his , lifting me up bridal style and carrying me back out to the living room ...

A Miracle Bonus Chapter

– A Miracle LIAM " That's it , Raven you got this hun . " Kiara encouraged , holding her hand , her purple aura swirling around her as Raven breathed steadily , pain contorting her face as she pushed . " And again ! Almost here , babe , you're doing amazingly . " My own heart was racing and seeing her i n this much agony was tearing me to shreds inside .

She was going to have to do this five times ? Fuck this wasn't fair . " I'm ok . " Raven whispered to me ; her face scrunched in pain before she pushed once more . I caressed her clammy forehead , my other hand holding hers tightly . Her nails dug into my skin , drawing blood , but I wished I could take away the pain she was in . "

Almost there , Luna . " One of the midwives added . We were in Kiara's pack , having spent the last ten days here . Raven let out a scream as she pushed with all her might , and the sound of a cry filled the room . I kissed her forehead as her head dropped back on the pillow , my attention turning to the first of our pups .

" It's a boy , congratulations . " The midwife said . " A boy . " Raven whispered , smiling weakly . " He's beautiful . " Kiara murmured softly , her eyes like Raven's filled with tears of happiness . The nurse brought our little pup over to Raven , despite her wincing as another contraction ripped through her .

She kissed our son softly and I quickly gave him a kiss ; he was gorgeous , so tiny and his head was full of black hair . He was taken away and wrapped up in a blanket . My gaze followed him until Kiara told Raven to push once more . " The next one is ready to come out , hun you are doing amazingly . " She encouraged softly . Raven nodded as she began to push , stopping when Kiara told her to .

" I'm so fucking sorry you are going through this . " I whispered , trying to push away the pain in my chest at her agony . She didn't reply , trying to give me a smile , only to bite her lip as pain shot through her . Four more to go ... " Push Luna , you got this . " The midwife encouraged as Kiara held her hand , I know she was waiting for any dip in Raven's stats to heal her . Our hearts were pounding with : nerves , and no matter how beautiful this moment was , it was also painful .

I didn't like seeing her in such agony . Goddess , please make it easy for her . " Liam Liam ! " I snapped my gaze to Kiara only to realise my own aura was swirling around me dangerously . " Sorry ... " I said , reigning it in as I kissed Raven's forehead , brushing her hair back but unable to ignore the tears that streamed out of the corner of her eyes . I brushed them away as she let out a half scream , half – groan , and then , the sound o f another baby crying . I heard Kiara laugh softly . "

Another gorgeous baby boy ! " I turned as she brought the baby to us , a head full of light hair . He instantly stopped crying when Raven pressed her lips to his cheek gently . I smiled , reaching over and caressing his cheek before he too was taken away . Three more ... " You got this . " I encourage softly , pressing my lips to hers .

She kissed me back weakly , but she still nodded with determination ... Another twenty minutes later the cry of our fifth child filled the room . " Another boy . " Kiara announced , a huge smile on her face as she placed the boy in Raven's arms , kissing her forehead . " You did amazing hun , I'm so proud of you . " Raven smiled up at her , her eyes glistening with tears . " Thank you ... for being here with me for the last two days . " She said softly .

I watched them , glad of the bond they had . My hand never left Raven's head , even when she took her hand from mine to hold our youngest son . " Always . " Kiara replied , " I'll get the ** others over here for you . " " How you feeling , Love ? " I asked her . " Kia's healed me , I just feel exhausted . " She replied . "

Thank the goddess . " I whispered , pressing my forehead to hers for a moment . " Two for you , Liam . " Kiara said , passing me two wrapped up babies . I knew one was the firstborn , but I wasn't sure about the second . They all looked different from one another , yet there were some similarities . " I think this one is going to have blue eyes Raven murmured , looking down at the youngest , his hair as dark as Raven's . Can we name him Renji ? "

" Her question took me by surprise , but I smiled softly , " " Yes . She returned my smile with a beautiful one of her own . " Thank you . " She whispered . We had a few names of both genders , but we did not have five boy names . I don't think either of us thought we'd have five of one gender and Raven had said she wanted Mom and Dad to choose one name each too . " No , thank you for being such an incredible woman and mate .

" I replied , sitting on the bed next to her , as Kiara gave two more babies to her without their blankets so they could get some skin to skin . Seeing Raven with three kids was crazy , and then there were the two in my arms ... " I can't believe I have five nephews ! " Kiara exclaimed as she came over to me and wrapped her arms around my shoulders . " Thanks Kia . " I whispered , kissing her cheek . " Anytime , brother . " She replied , smiling happily .

" After a short while , we'll switch skin to skin for these two . Then you can get cleaned up . Mom and Dad are on their way . I nodded , knowing Raven needed her rest too . " I'll give you two some time alone and I'll break the news to Alejandro . " Kiara added as the midwife took away the bloody towels and sheets that had been placed under Raven . We were soon left alone with our five pups as I sat on the bed next to Raven and she kissed the top of the three boys ' heads she was carrying . " Can I see them two ? " She asked . I placed them closer to her and she broke into tears , alarming me .

" Love ... " " They're so beautiful . " She whispered . I wanted to reach over to wipe her tears away , but damn both my arms were full . " Yeah , they are ... Is it weird that I can't even imagine having even one less right now ? " " " No , I feel the exact same way ... " I leaned over to kiss her lips . chuckled . " I think we're done though , forever . " I " Never say never ! I want a girl too . " Raven murmured , her gaze on her pups as my eyes widened in shock .

What ? I guess she'll change her mind in a few months . We were in a new room , which was a lot bigger and now held five cribs . Mom and Dad had just popped in , and although Raven breastfed each one for a short while , they were all topped

up on formula before Raven went to shower , leaving us with the five pups . " Five boys ... that's something . " Dad said , smiling as he held two of our pups . " Yeah ... " I said , smiling down at Renji . " Any names ? " Mom asked .

" Just this one , he's Renji . " Mom and Dad smiled . " It's perfect . " Mom murmured , softly kissing our first – born pup on his forehead . " Don't worry about how you will manage . Apart from the Omega's help , you will have us there too . " " " I can't believe I'm admitting this , but I'm definitely happy to help .

" Dad added . " They're all Alphas ... I can sense their aura's . " " Well , they are Liam's boys . " " I think you forget that we made Liam and Kiara . " Dad smirked . " I actually haven't forgotten that , making kids- " Mom , dad , I really don't want to hear that . " I groaned . Mom laughed just as Raven re – entered , looking gorgeous as ever and to my relief , a lot fresher . I got up , instantly placing our pup on the bed , and pulled her into my arms , hugging her tightly .

She hugged me back and I bent down to kiss her passionately . She cupped my face , kissing me back . Pleasure coursed through me at her touch , and I won't lie , being able to crush her completely against me without her tummy in the way felt great . I held her tighter , never wanting to let go , but when she needed air , I had to pull away . " I love you . " I whispered . " Love you too , blue eyes . " I pressed my forehead to hers , never wanting to let her go . My world .

" How are you feeling , Raven ? " Mom asked . " Just a little tired , but Kiara has fixed me up perfectly . " Raven replied , brushing a strand of her wet locks out of her face . " That's good . " Mom replied , as Dad smiled at Raven . " You looked damn cute when you were pregnant , like this huge round thing with legs and a head , but I'm glad to see you back to your usual self . " " Thank you for that description , uncle , I felt like I had been inflated .

" Raven pouted . Dad smirked . TE " You kinda were . Raven stuck her tongue out and Dad did the same , displaying his pierced tongue that I often forgot he had . I smiled , looking between them . They had a good bond . Dad stood up and coming over pulled her into his arms , giving her a tight hug . " You did amazingly , I know how hard twins were to carry for Red and raise , yet here you are beating that record with five . He said , giving her his trademark smirk .

" So , any names for the other four ? " " Not yet ... but we wanted you and Mom to choose one . " Raven said smiling up at him . I glanced at Mom , seeing the smile on her face and the beat of her heart , I knew it wasn't because she was getting to name one of her grandsons but because of Raven calling her mom . Something Mom had gently asked her months back but she often still said aunty . However , the times she'd slip and say mom , she truly cherished those .

" Hmm , I'd actually like that . " Dad nodded with approval . " Which one do I get to name ? " " Any you like . " I smiled as Dad walked back to the bed , whilst Mom stared down at the baby she was now holding . " Ares ... Ares Westwood . " She said , her voice thick with emotion . " If you like it of " course . ** " She already had that one picked out ... in hopes she could suggest it to you guys . Dad smirked , making Mom glare at him . " It's perfect .

" Raven smiled . " Jayce . " Dad stated , picking up our firstborn . " The future Alpha of the Blood Moon Pack . " I smiled at Raven who wrapped her arms around me , resting her head against my chest . " It's perfect . " She replied happily . " So we have a Jayce Westwood , an Ares " 1 Westwood , a Renji Westwood .

Two left Mom smirked . " Goddess five .. " I think their daddy and Kiara should pick those two . " Raven said kissing my chest , as she smiled up at me . " Well , I like Theo . " I mused . " This one's Theo . " . Just then Kiara entered after a light knock . " Right on time ! " Raven smiled . " We want you to name the last one . "

She motioned towards our last unnamed pup and Kiara's eyes widened in shock . " Me ? " " Yes for everything you have done for us . " Raven replied softly . I nodded in agreement as Kiara walked over to the little one , picking him up she kissed his forehead , her eyes full of emotion . " Carter ... if you like it ? "

" Absolutely . " Raven said smiling at her before looking at me . I gave my nod of approval before kissing her softly . And there we had it , the Westwood Alpha quintuplets.

Home & Family Bonus Chapter –

Home & Family ROBYN The Westwood quintuplets were born eleven days before our little princess . Artemis Luna Nicholson . She was beautiful , with grey – blue eyes , black hair and lashes that curled up perfectly . My beautiful little baby girl . She was a good baby who slept well , I often had to wake her up to feed her myself . Damon was the perfect partner to have . He willingly took care of her and me , it never felt like he didn't want to do it or let on that he was tired .

Even after a long day of work , he didn't let it affect his care for me or our baby . Being a new Alpha , there were many on the council who didn't like it . He was the second non – alpha born to take the title of ' Alpha ' and it was something he had to prove that he was good at . I know the king didn't like him due to his involvement with Kiara , however at the council he was fair and just , not letting any of his personal opinions blind his judgement of seeing Damon's capabilities . In fact , he'd even questioned the council as to why Damon wasn't efficient and if they wanted to test his strength to battle it out .

Plus , the king had stated that Damon was a better Alpha than half of them there . Damon was strong and he had worked hard , plus he was given the title by a powerful Alpha , one whose position on the council remained . I knew he would have to constantly prove he was capable , but I had no worries because he was more than capable .

As for our little princess , despite her birth making us both so happy , it gave way to more questions and criticism . If Damon was a true Alpha , then he would have had a male born first . Of course , this was shut down by the first Alpha female herself , Luna Scarlett , stating she was a firstborn and if any Alpha wanted to battle it out on the field , she was willing to show them what an Alpha female was capable of . My little angel was going to be protected by her family and pack . We may be two packs now , but we were still one .

Azura , that little princess doted on Artemis and was so happy she had a name starting with A. She also asked Liam why he didn't have any baby girls ? And finished by stating that next time Waven should bring five girls . Goddess , I hoped not . Raven had gone through so much , it had been so hard to see her with her huge belly knowing I had it so much easier .

Today we were having a small get together at the Westwood's mansion . Raven and Liam had moved in with them , due to having five pups it wasn't really ideal to remain at the cottage , and although they were getting their own place made , they wouldn't be moving there for a few years .

I had my little angel dressed in an ivory lace dress , a little matching hairband on her head and she was good to go . I was in a matching ivory colour , although mine was a bandage dress with an under – boob cut out . Goddess , these things had grown since I was breastfeeding , something I realised Damon didn't mind at all . " There's my beautiful girls . " Damon's sexy deep voice came , coming over and wrapping his strong arms around me as he kissed my neck .

" You look beautiful , " I Ryn . " " Thanks . " I turned my head , kissing his lips as I tried not to press into his package . Sex . Something that we were surprisingly still finding time for despite having a baby . Artemis was three months old now , and I would say we had it easy . I wonder if that would change when she gets older ,

but I'll enjoy whatever I can get .. We had now arrived at the Westwood mansion . Luna Scarlett was wearing a thin -strapped satin red dress , I often thought red hair and red clothes would clash , but she was just someone who could pull it off with perfection , right down to her red lipstick . Raven , on the other hand , looked gorgeous in a two – toned dress I had seen her wear ages ago at her housewarming dinner . It was the dress Liam had gotten for her for their first date . Looking at her you wouldn't think she'd had five kids , guess the werewolf gene helped get us back into shape fast .

" Hey guys , come on in ! " She said as she met us both . Damon gave her a hug and kiss , I am proud to say I never felt jealous of their bond . He was mine regardless of the past . The house was a bustle , Zack and Taylor were having a moment .

They were a sexy couple , and well Taylor , who doesn't love him ? He actually admitted I scared him a little , to begin with , but now we were good friends . Liam's new delta was here , one I still held a teeny grudge against for taking my place , although I realised it was because I was meant to be Luna . Monica and Channing were together , and I am happy that Anna left the Blood Moon pack when she met someone , then a few weeks later Channing's mark vanished .

Monica actually got a tattoo of Damon's dad's mark done on her collar bone before Channing marked her . So her two mates ' marks were not far from one another . I'm happy for her because she deserved every ounce of happiness she could possibly get . She was great with Artemis too . After hugging Rick , I stepped away from everyone greeting each other and looked

at the five little Westwood princes who were laid out on the floor on a large playmat , with several thick blankets placed beneath them . They were absolutely adorable ; Jayce , the eldest , had black hair and green eyes , whilst Theo , the second one , had blond hair with blue eyes .

Then there was Ares , he had a darker shade of blond hair with hazel eyes . Carter had hair the exact shade of Alpha Elijah's , with green eyes , and then there was Renji , with his black hair and blue eyes . Each one looked different and each one had a different personality . Jayce was the most demanding and got angry quickly , whilst Renji was the gentlest and softest . Theo was the type to smile and baby talk when you called him . I planted a kiss on each of their foreheads just as Azura came rushing over . " Wobyn ! I wear the same colour as Artemis ! " " Yes you are and you look stunning . " said giving her a hug .

" I want a picture with her . " " We will surely get a picture . " I promise , stroking Theo's hair . Raven came over , holding my little princess , and knelt down next to me . " Goddess , she is breath - taking . " She complimented softly . I smiled , as I looked around . " Life's great , right ? " I whispered to Raven . Her eyes sparkled as she nodded .

" It sure is . " She replied , placing Artemis in the middle between Theo and Ares . The future of our packs ... our legacies . " Come on , let's get a mocktail . " Raven offered , taking my hands as she tugged me up . Once upon a time , I didn't really have friends or anything , and now I had family , friends , the love of my life and my baby girl ... " I don't trust her with them .

" Damon said , staring down at the five boys who were as innocent as babies could be . " Damon ! " I scolded while Raven giggled .

" Oh , you should be worried . She's too adorable to be ignored . " She teased as Liam shook his head , frowning deeply . " I hope they're nothing like their granddad ... " He mumbled . Ah ... The original Alpha was known for his playboy ways ... Well , I would make sure my girl was a badass queen who took no crap from anyone ... Liam quickly picked her up as if worried his boys would attack her , making the rest of us burst out laughing . " Don't worry little one , Uncle Liam's got your back ... "
