

Campus Master 1001

Chapter 1001

The journey back was uneventful. The group arrived at the beach and quickly inflated their rafts. They travelled in three inflatable rafts for about an hour in the sea and then met up with the submarine that came to meet them. They then took the submarine and headed straight for China.

Only, while riding on the inflatable raft, Ji Feng could vaguely see through the binoculars that there seemed to be ships out in the sea in the distance, but because the distance was too far away, he could not see the people and weapons and such on the warships too clearly, but the outline of the warships could still be vaguely seen.

“Ji Feng, come and see.” On the submarine, Xiang Yongzhan called Ji Feng to the front of the submarine’s radar and said, “See, there are at least a dozen warships coming in the sea around here, and there are three warships closest to the deserted island where we fought.”

Ji Feng couldn’t help but sneer, “Since they’ve sent out such a big formation, why don’t we just launch a few missiles and blow up that deserted island?”

Xiang Yongzhan laughed, “It’s not as simple as you say, there are still their people on the island, among those armed people, there are obviously regular army people, I also saw regular army people when I attacked that base, they wanted to launch missiles, but they even killed their own people together.”

Ji Feng shook his head slightly and said, “I don’t think that’s the case, I’m afraid they didn’t dare to launch the missiles, nor were they afraid of killing their own people by mistake, but because, they didn’t know that I had already rescued you.”

“How so?!” Xiang Yongzhan was stunned.

Ji Feng laughed: “If my guess is right, maybe your identity, your relationship with me, and some habits of your actions have been figured out by others long ago, since the moment you were poisoned and retreated to that deserted island, a trap to surround the spot was waiting for me”

He quickly said what he had learned, as well as his guesses all over again.

Xiang Yongzhan’s face instantly sank, “You mean to say that they are trying to wait for you to arrive before making their move and then wiping us out?”

“Isn’t there that possibility?”

Ji Feng asked with a smile, “The two of us, one of us is the head of the special operations brigade, the main force against the dynasty, and I, on the other hand, am a thorn in the side of some people in the dynasty, I’m afraid some people even dream of getting rid of me, so do you think that for the dynasty, we are considered important enemies?”

Xiang Yongzhan nodded thoughtfully, and then asked in a deep voice, “Then, do you think this matter of my poisoning”

“This is not easy to say, because up to now, I still don’t know exactly how you were poisoned.” Ji Feng shook his head slightly and said, “Although now we all suspect that it was the biological bomb inside

that self-destructing transformer that was poisoned, but after all, I haven't seen it with my own eyes, so it's hard to say!"

Xiang Yongzhan pondered for a long time before asking in a low voice, "Then what if it wasn't because of that Transformer?"

Ji Feng laughed, "What do you think then?"

Xiang Yongzhan then fell silent, if it wasn't the biological bomb in that Transformer's body that contained the toxin, then how did they get poisoned?

There was no unusual condition during the operation, they were not exposed to the toxin, they only stole some information, and it was only a few warriors who were in charge, not all of them were involved, in fact there were a few warriors who went to prepare the explosives.

The only time there was a little situation was at the end when dealing with the modified man, if even this modified man was ruled out

Xiang Yongzhan snapped his head up, stared at Ji Feng, and slowly uttered two words, "White spider?!"

Ji Feng shook his head slightly, "It's still too early to draw a conclusion, but it's better to check it out when we get back."

In fact, from the very beginning, Ji Feng had some doubts whether this matter was related to the White Spider or not, only that there had not been any strong evidence to prove his suspicions, moreover, there were many other doubts that made Ji Feng not sure whether it was the White Spider or not.

For example, a dozen people in the special operations brigade were poisoned, but only the white spider was intact, was this a normal situation?

If it was really the white spider who had poisoned her, then her best option should have been to pretend to be poisoned as well, in which case no one would have suspected her, but she didn't do that!

For example, since she knew she was coming, White Spider had plenty of chances to signal the enemy and all they needed was a missile to send them all to hell, but so far the other side's warships were still cruising and didn't seem to notice that they had rescued Xiang Yongzhan.

This would suggest that the White Spider should not have signalled the other side.

But it could also be because the other side had given the White Spider another order to continue lurking down?

Or there are other factors

There are just too many questions here, the white spider is both the most suspicious and seems to be the least suspicious person, which makes both Ji Feng and Xiang Yongzheng a little confused.

Therefore, a thorough investigation of this matter after returning has become a very necessary step, otherwise, the next time the white spider says where there is a dynasty's base, who can still attack with confidence? What if there was a huge trap waiting for one ahead?

“Check, it is definitely necessary to check. Yet, it can’t be checked straight away, in case the White Spider isn’t a mole, will the White Spider have a grudge then?” Xiang Yongzhan frowned and said.

Ji Feng hummed, “Having a mustache is better than having a potential threat, how about this, leave this matter to me, I will personally investigate.”

This time, the other party clearly wanted to hit the rabbit with the grass, not only to destroy Xiang Yongzhan, but even wanted to send him to hell as well, Ji Feng then recalled all the grudges he had with the dynasty, he knew that a showdown with the dynasty was already inevitable.

Since that was the case, it would be better to strike early.

“I’ll be the villain for this, and even if the white spider has a grudge in his heart, he definitely won’t blame it on you.” Ji Feng said.

Xiang Yongzhan nodded: “In that case, I’ll be obliged to you.”

This was something that offended people, and Ji Feng took the initiative to take it down, so Xiang Yongzhan was a bit overwhelmed, “How about this, I’ll do Bai Spider’s job first, we can’t let you get too stiff with her.”

“Fine!” Ji Feng nodded noncommittally and did not continue this topic, but suddenly said, “Right old Xiang, besides this matter, I have a big gift for you, are you interested in hearing it?”

“What big gift?” Xiang Yongzhan was slightly stunned, “What else can you do all day long besides trying to get guards from my men?”

“Just forget it if you don’t want it, and don’t dog bite Lü Dongbin.” Ji Feng snorted, “Since that’s the case, then I’ll only be able to give this big gift to my little uncle alone, in the future, the combat missions against the dynasty ah, I’m afraid that only the Red Arrow Brigade will be able to carry out, your special combat brigade is no longer enough.”

“What do you mean?” Xiang Yongzhan asked.

Ji Feng waved his hand, “Nothing meaningful, so what, I’m going to go talk to those two reformers, those two guys actually dare to calculate me, have to clean them up properly.”

“Wait!” Xiang Yongzhan hurriedly pulled him, “What exactly is the big gift, you have to tell us about it, right?”

Ji Feng smiled heatedly and lowered his voice, “It’s nothing really, it’s just that I accidentally found a way to deal with reformers, since you’re not interested in hearing it, forget it.”

“What?” Xiang Yongzhan was instantly shocked, “What did you just say?”

Xiang Yongzhan was really astonished and at the same time overjoyed, what did Ji Feng just say? He had found a way to deal with the reformers?

If what he said was true, then this news would be really exciting for China.

The terrifying nature of the Transformer could not be appreciated by those who had not fought against it. Xiang Yongzhan had really fought with a Transformer, and the strength and speed of that kind of fight

was shocking. What's more, ordinary firearms could not actually make much of an impact when hitting their bodies.

Only with heavy weapons, or weapons with more power, such as grenades, or artillery or something like that would work.

However, with the speed of that Transformer, even if they were bombarded with grenades or artillery, they would still be able to dodge in time, and would not be able to do much damage to them at all.

Therefore, it was too difficult to deal with those transformers.

It was precisely for this reason that once Xiang Yongzhan heard that Ji Feng had actually found a way to deal with the reformers, he was immediately extremely excited, this was really a great gift.

"Ji Feng, tell us quickly, what is this all about!" Xiang Yongzhan asked eagerly.

Ji Feng waved his hand, "You'll find out if you come with me."

"Go!" Xiang Yongzhan immediately nodded, the way to deal with the Transformer was indeed very important, and now that the suspicion of the White Spider could not be ruled out, it was only natural to avoid her.

However, the place where Ji Feng went was out of Xiang Yongzhan's expectation, he actually came straight to the active area inside the submarine, where the two captured transformers were tied to the iron ladder. Next to them were two special forces men looking on here, especially the Red Arrow Brigade, who were not looking at these two guys with a very gentle look.

In fact, it was no wonder, the Red Arrow Brigade had suffered a big loss from these two reformers before, and now that they were captured, how polite could the Red Arrow Brigade be?

Ji Shaoyun and White Spider were all present, they were responsible for guarding the two reformers, as well as the few captives, only the few wounded from the Red Arrow Brigade were arranged to the rest room, everyone else was concentrated here, so it looked very crowded.

But Ji Feng didn't bother about that, his gaze, fell on the two reformers.

At this moment, these two guys' hats had been taken off, revealing their real faces, which could be described as ugly.

The flesh on their faces drooped as if it might fall off their faces at any moment, and they were so loose and flabby that it made people feel a little uncomfortable and reminded them of goose bumps.

When the two reformers saw Ji Feng and Xiang Yongzhan approaching, they had a frightened look in their eyes and subconsciously tried to hide backwards, but their bodies could not move at all.

Chapter 1002

There was no doubt that this was a senior reformer!

Previously, when he was in Jiangzhou, Ji Feng had fought with a senior reformer, that guy was there to assassinate the White Spider, but he was taken down. But helplessly, not long after capturing them, that fellow died.

However, regarding the characteristics of this advanced transformer, Ji Feng and the others remembered it very clearly.

Ji Feng and Xiang Yongzhan glanced at each other and both saw the cold smile in each other's eyes. This time the dynasty had really put in a lot of effort, actually sending two senior reformers to deal with them at once, really willing!

The White Spider had once said that there were not many advanced transformers in the Dynasty organisation, and from their appearance, it could be seen that the Dynasty's technology for advanced transformers had not yet reached true maturity, otherwise, they would certainly not be so ugly, at least in appearance, they would be the same as ordinary people.

This also meant that the current advanced transformers must all be very valuable resources for them, but the dynasty had sent two at once in order to deal with Ji Feng and Xiang Yongzheng, which was considered a big deal.

Ji Feng couldn't help but secretly say, "After this lesson, I'm afraid that the next time the dynasty will send out even more advanced transformers, and the dynasty won't be willing to do so until they eliminate themselves."

"Snap!"

Ji Feng untied the rope from one of the reformers and lifted him up as he turned his head to Gu Chao and the others, "Keep an eye on the others, remember, none of you should go near them unless they make any strange movements. As for this guy, I'll bring him over for interrogation."

"Yes!" Gu Chao and the others immediately answered.

Ji Feng nodded, carried one of the senior reformers in one hand, and left with Xiang Yongzhan one after the other.

They once again arrived at the monitoring room, and Ji Feng casually threw that Transformer on the ground, that Transformer had long since been controlled by bio-currents in his body, and did not react to being dropped this time, except that his eyes were jealous rage, but with fear.

He really hated and feared Ji Feng at the same time.

What he hated was that Ji Feng actually treated them like this. Ever since they had been transformed, it was always others who were afraid of them, who else dared to treat them like this apart from the organisation? But Ji Feng was carrying them around and throwing them away as he wished, it was simply too hateful.

However, they were also afraid of Ji Feng.

This young man was really terrifying, and in front of him, the speed and strength they prided themselves on, they couldn't gain any half-way advantage at all. What's more, this young man seemed to carry something extremely odd on his body, causing them to feel a kind of pain all over their bodies when they touched him slightly, simply a hundred times more painful than when they had just been transformed.

Moreover, when Ji Feng hit them, the part of their body that had been hit had a paralyzing and out of control feeling, as if that part didn't belong to their own body anymore, it was just too bizarre.

In fact, although these people have been transformed, their bodies are still sentient, it's not like they don't have any sentience left. Only, their sentience was very different from ordinary human sentience, for one thing, they couldn't feel pain!

Ji Feng, on the other hand, could make them feel pain, and pain that was almost unbearable to humans!

Naturally, they didn't know that when they were transformed, a lot of their body's composition had actually been destroyed, technically speaking, it should be altered, otherwise, where did they get so much strength in their bodies? Where did they get that fast speed?

The bio-current in Ji Feng's body, however, could repair these damaged body constitutions, such as the nerves, which were extremely sensitive to the bio-current, so that they could feel pain.

However, once they felt pain, it was proof that the damaged structures of their bodies were gradually repaired by the bio-current, so that some of their original abilities would gradually disappear, leaving them with a broken body that was worse than an ordinary person.

Of course, the repair process was slow and also required a large amount of bio-current, while the bio-current that Ji Feng used in the battle was not strong enough to completely repair their bodies, but could destroy what they had been transformed into.

So it could be said that this bio-current was the nemesis of the transformed people!

Only, these principles were not completely understood by Ji Feng right now, and this Transformer naturally had even less understanding of what was going on.

Therefore, he just felt fear.

With a smile on his face, Ji Feng squatted down in front of this reformer and said indifferently, "Knowing my name, still waiting specially for me to come, and moreover, speaking Chinese so fluently this is so easy to wait for me, don't you plan to introduce yourself first? "

The reformer, however, stared at Ji Feng with resentment and didn't say a word.

"Aha!"

Ji Feng flung his hand and laughed, "I gave it a forget, you can't talk even if you want to now!" He laughed and slapped at the reformer's body.

"Well!" The reformer instantly muffled a sound, then gritted his teeth and stopped making a sound.

Ji Feng shook his head slightly and laughed, "Don't pretend to be a tough guy, you have fear in your eyes, you can't pretend no matter how much you pretend, if you are willing to cooperate, you can still suffer less, what do you think?"

The reformer simply closed his eyes and didn't even look at him anymore.

Xiang Yongzhan was happy next to him, "If you interrogate him like this, he won't tell you in eight lifetimes."

"Then there's no way out, if you don't eat the soft stuff, you can only come to the hard stuff!" Ji Feng shook his head a little, and then, he used his finger to tap on that reformer's arm.

"Well!"

The reformer was like being burned by fire, he hastily curled up his arm and stared at Ji Feng in shock and anger, that look simply wanted to eat Ji Feng up.

"Pop!" Ji Feng slapped him on the leg again.

"Ah..." The reformer immediately screamed miserably, his whole leg trembled, and his teeth were even clenched.

"Still not saying anything?" Ji Feng smiled, but his two hands kept nodding at that reformer's body, going up and down for dozens of times in a row.

It was as if he was undergoing some kind of torture, his body was trembling continuously, his eyes were protruding outwards, and his teeth were about to gnash, enough to see how much pain Ji Feng had inflicted on him with these few strokes.

At this time, Xiang Yongzhan, who was standing next to him, changed his face, he could see something famous.

Ji Feng had just nudged the reformer's body a few times, it didn't seem like he was exerting any force at all, but it would actually cause him so much pain?

"Could it be that this is the way to deal with the Transformer?" Xiang Yongzhan's heart instantly moved, and seeing that Transformer's wretched appearance of being in pain but unable to dodge, a wave of ecstasy instantly filled his entire body.

The Transformer, who was so strong in single combat, had a day!

This was a real gift!

Xiang Yongzhan finally understood why Ji Feng had to bring this Transformer over for interrogation, knowing that the suspicion of the White Spider had not yet been cleared up; he was explaining to himself the method of dealing with the Transformer, and it had also proved that the Transformer really feared this tactic.

Just

Xiang Yongzhan was a little confused again, how come Ji Feng was nodding left and right, and that Transformer was in such pain?

"See?" Ji Feng turned his head to look at Xiang Yongzhan and smiled, "This gift I gave you, it should still hold up, right?"

"You brat!" Xiang Yongzhan was overjoyed, "It's not just a gift, it's a gift that no amount of money can buy! Ji Feng, you kid has really made a big credit ah!"

“Merit or not merit is another story, now I want to ask this guy something!” Ji Feng smiled faintly.

Having found a way to deal with the Transformer, Ji Feng was also very pleased. When he had fought with the Transformer before, Ji Feng hadn't really paid attention to these details, and at that time he only sought to defeat the Transformer, so the Transformer's cries of pain were treated as if he had beaten himself.

This time, if it wasn't for Xiang Yongzhan's careful account of their encounter with the transformers, Ji Feng wouldn't have thought in that direction, nor would he have discovered that, as it turned out, it was the bio-current that really caused damage to these advanced transformers.

Of course, whether those ordinary transformers were also afraid of bio-currents, Ji Feng did not know yet, and this likewise needed to be verified.

Right now, however, Ji Feng had to ask this Transformer something.

“Are you willing to talk now?” Ji Feng asked with a smile.

The reformer was panting sharply, his body was trembling and he looked extremely painful, but his eyes were filled with resentment.

Only after a long time did he say in pain, “You, don't be complacent, someone will come to deal with you!”

“It's not for you to worry about that.”

Ji Feng smiled indifferently, “Others will come to deal with me, but at least they can't save you, you'd better answer my questions honestly, so you can also suffer less.”

“.....” The reformer, however, gritted his teeth and just didn't say anything.

“Since that's the case, then don't blame me!” Ji Feng shook his head slightly and suddenly asked with a smile, “Have you heard of neurotoxins?”

Swish!

The reformer's eyes snapped wide, a flash of panic, and he hurriedly closed his eyes, pretending to look fearless, but in reality, he was afraid that Ji Feng would see that he was weak-minded.

But Ji Feng's heart thumped, this guy had really heard of neurotoxin, which meant that there must be something like this in the dynasty!

What exactly is there that people from the dynasty wouldn't have?

From all the traces, it seemed that the strength shown by the dynasty was too powerful, and even their technological level in many aspects was so high that many countries could not catch up.

Ji Feng couldn't help but think of what the people of the dynasty were looking for in Jiangzhou at the time.

If that was the case, then the Dynasty could be much more difficult to deal with than one might think!

“It seems that you’ve heard of it.” Ji Feng said indifferently, “In that case, are you going to answer obediently yourself, or are you going to wait for me to inject neurotoxin into you?”

Chapter 1003

When faced with Ji Feng’s questioning, the reformer did not say a word.

This is the first time I’ve ever seen a man who has no guts, so how come he’s so tough-mouthed? He really thought that he didn’t dare to lay a hand on him?

In fact, Ji Feng did not know that this reformer was not tough-mouthed, but because he knew very well his own situation, he was dead even if he said so, and he was dead even if he did not.

Rather than starving to death alive, it would be better to die in Ji Feng’s hands now.

However, remembering what Ji Feng said about the neurotoxin, this reformer was still a bit frightened.

“You chose this yourself!” Seeing this look on his face, Ji Feng understood his desire to die, this guy would rather die than answer his question.

He couldn’t help but let out a light sigh, “Old Xiang, you brought back a reformer and gave it to the top to study, it should be considered a credit, right?”

Xiang Yongzhan couldn’t help but be slightly stunned and gave Ji Feng a deep look, Ji Feng was really going to kill this guy?

Ji Feng laughed, “You might be able to take this one away too, but he might turn out to be a fool. But if he doesn’t make it through, then you’ll just have to take his corpse.”

The effects of neurotoxin were clearer to Ji Feng than anyone else. Although there was no neurotoxin in Ji Feng’s hands now, he could completely simulate the effect of neurotoxin by using bio-currents. With this method, it might be even more devastating to the reformer, and maybe by the time he finished asking, this guy would be dead.

Xiang Yongzhan smiled, “Bringing one back is also a merit.”

As for what to do with this reformer, he didn’t say, but Ji Feng understood what he meant, Xiang Yongzhan had a way to report to the top.

Since that was the case, then Ji Feng had nothing to be polite about. He fiercely grabbed that Transformer’s wrist and a bio-current was slowly inputted into the latter’s body.

“Umm...!”

As soon as their hands came into contact, the Transformer’s eyes instantly widened and his eyes jutted outwards like a dying fish, and his body trembled violently.

While inputting bio-current, Ji Feng communicated with the intelligent brain in his mind, imitating the effectiveness of the neurotoxin with bio-current as much as possible.

“Master, this method of yours is not right!” The intelligent brain suddenly said.

Ji Feng was stunned, “How?”

“Master, the nerves in this person’s body are already necrotic for the most part, using bio-currents to imitate the neurotoxin will directly destroy his last nerve centre, leaving his brain and heart dead.” The intelligent brain said.

Ji Feng couldn’t help but be stunned, this guy was so miserable, he had actually been transformed so badly, the nerves all over his body had actually necrosed for the most part, only the nerve centres were left?

“What should I do then?” Ji Feng hurriedly asked, while stopping the input of bio-current.

“Master, you can use a small amount of bio-current to stimulate his nerve centres and put him into a muddled state, so that the interrogation can also be conducted!” The intelligent brain said.

Ji Feng couldn’t help but slap his forehead, how could he forget this method, this is also a way of interrogation, he had learned it himself!

He immediately followed the method mentioned by the intelligent brain and carefully fed a ray of bio-current into the transformer’s body in order to stimulate his nerve centre.

In a flash, the Transformer’s body jerked a few times and the light in his eyes disappeared, replaced by a dazed look, as if he was dumb.

Next to him, Xiang Yongzhan looked astonished, he looked at the transformed man and then at Ji Feng, his heart was very shocked.

What exactly had Ji Feng done to this guy?

How come as soon as he grabbed this reformer’s wrist, this guy immediately became muddled?

At this moment, Ji Feng didn’t have the time to pay attention to Xiang Yongzhan’s reaction, he had already completed the final step and was going to start asking this Transformer questions.

“What’s your name?” Ji Feng decided to start with a simple question first, to instantly try if this method had any effect.

“%#\$#@.....,” the transformed man replied dryly, his eyes muddled and confused.

Ji Feng frowned slightly at once: “What is it?”

Xiang Yong strategically pondered for a moment before saying, “It seems to be a set of numbers, he was speaking in Boundary Tent language, I couldn’t hear it too clearly exactly.”

“Numbers?” Ji Feng couldn’t help but laugh, “It couldn’t be this guy’s number, could it?”

“Most likely!” Xiang Yongzhan couldn’t help but say.

Ji Feng nodded thoughtfully and asked again, “Then the reformer with you, what’s his name?”

“.....,” still whimpered the reply.

“That’s still a set of numbers, it seems, they really are named after numbers!” Xiang Yongzhan said from the side.

Ji Feng couldn't help but hum: "These people don't even have a name anymore, just a number like that, and they're still so dead set on working for the dynasty who sent you!"

"Little, little gongzi"

"Little Duke?" Ji Feng immediately asked, "What's the name of the little gongzi you're talking about?"

"Little Gongzi"

Ji Feng was then a little helpless, it seemed that this guy didn't know what the so-called little gongzi's name actually was, and with no choice, Ji Feng had to ask other questions instead.

Next, Ji Feng asked a few more vital questions. For example, the origin of that little prince, his position in the dynasty, as well as the distribution of some of the dynasty's bases, why they were so sure that they would definitely go to save Xiang Yongzhan, etc. Of course, he also focused on asking about some other situations in the dynasty.

Some of these questions were answered, while others were not, as what this guy knew was also very limited.

"Let me ask you again, where is the headquarters of your dynasty, who is the leading boss and which power does he belong to?" Ji Feng asked again quickly, he found that something seemed to have changed in this guy's body and his vitality was rapidly draining away, so he could only speed up his questioning.

After all, this guy refused to cooperate, and Ji Feng had intended to interrogate him to death, so he didn't care too much.

"The headquarters is in the north latitude", this reformer answered a coordinate, but the following question was unanswerable.

Ji Feng was just about to ask again when he saw his body suddenly twitch a few times and his eyes dimmed.

He was actually really dead!

Ji Feng immediately frowned: "How did he suddenly die? Could it be something wrong with my operation?"

"It shouldn't be a problem with you." Xiang Yongzhan said, "The Transformer we caught last time died the same way, he should have starved to death! It's a pity that even the army's experts haven't worked out what these monsters usually eat, otherwise they would have been able to keep them alive in order to ask for some useful information."

"Even if they were hungry, they wouldn't have starved to death so quickly, right?" Ji Feng frowned. What kind of person would starve to death so quickly, it was a joke.

It had only been a few hours between when they caught this guy and now!

"I don't know much about the exact situation, but according to the army's experts, it seems that they died of starvation because there was a substance that disappeared quickly from their bodies." Xiang Yongzhan said.

"So evil?" Ji Feng was still more or less unconvinced, "There must be some reason we haven't discovered yet, to say that they died of starvation, I don't believe it!"

Just as he said this, he suddenly remembered something and said in a panic, "Hurry up and check the other one!"

Xiang Yongzhan also reacted, this one was out of order, then the other reformer, could it be equally out of order?

The two of them quickly rushed over, but they ran into Ji Shaoyun who was walking over quickly.

Seeing Ji Feng, Ji Shaoyun immediately said, "Third brother, that monster seems to have a problem, you should hurry up and check it out!"

"Go!"

The three of them came to the last Senior Transformer and immediately found that this guy's condition, like the Senior Transformer in front of him, was practically identical, and his vitality was rapidly draining away.

"Could it really be that he died of starvation?" Ji Feng couldn't help but think to himself.

Suddenly, the white spider next to him said, "Young Ji, captain, he should need to replenish his nutrition, I seem to remember hearing back then that this kind of advanced transformer seems to replenish something after having performed some kind of exertion seems to be some kind of nutrition!"

"Really? What kind of nutrition?" Xiang Yongzhan hurriedly asked.

The white spider shook her head slightly, "I'm not too sure about the specifics, because these advanced transformers, I usually can't come into contact with them."

"Search him and see if there's anything on him!" Ji Feng said immediately.

"Yes!"

Ji Shaoyun and the others immediately felt around on that Transformer's body, and suddenly, Ji Shaoyun stood up, "Third Brother, found a bottle!"

Ji Feng immediately took the bottle, but found that it was a steel bottle, about two fingers thick and about ten centimeters long. He immediately opened it, but saw that there was some silvery-white sticky thick liquid swirling around inside, which looked like mercury.

"Could this be his food? Or is it a liquid bomb?" Ji Feng couldn't help but hesitate, "Old Xiang, what should we do? Should we try it?"

Xiang Yongzhan was also a bit embarrassed, it would be a pity if he tried it wrong and this transformer died as well. This transformed man, but it was to be handed over to the experts in the army to study, it was still very useful.

“Hurry up and decide, this guy is dying.” Ji Feng said.

He could clearly feel that the transformer on the ground, his life was rapidly passing away, it was almost exactly the same as the first transformer.

Xiang Yongzhan hesitated for a moment, then fiercely gritted his teeth, “Do it! If we don’t try this guy is dead anyway, if we try there is still a fifty percent chance of surviving try!”

Ji Feng immediately handed that steel bottle to Ji Shaoyun: “Be careful, feed it to him!”

Ji Shaoyun took the bottle and immediately did as he was told.

The group of people all stared closely at the transformed man on the ground, both hoping that this monster would just die and avenge those brothers he had injured, but not hoping that he would die and be handed over to the military alive, maybe they could still get a lot of useful things from them and be a little more sure of dealing with the dynasty in the future

Chapter 1004

Ji Feng, however, kept sensing the condition of the transformer in front of him, and he found that after Ji Shaoyun fed this transformer the liquid in the steel bottle, the vitality in the transformer’s body, immediately began to recover.

“It’s working!” Ji Feng immediately said, “Shaoyun, feed a little more, and remember not to finish it.”

“Yes!” Ji Shaoyun nodded and answered.

Next to him, Xiang Yongzhan’s face also finally revealed a smile, “This is good!”

Having found a way to deal with the transformers and knowing their food, this operation, just knowing this was a huge gain, not to mention that they had also destroyed one of the dynasty’s bases and brought back a lot of information from that base.

It could be said that this time, the harvest was quite rich.

“Feed a little less!” Xiang Yongzhan said, “Leave some of it behind and go back for research purposes.”

Knowing the food of the Transformer, but after all, it was only such a small bottle, there was always a day when it would run out, so they had to go back and study and analyze the ingredients in it, in order to ensure that this Transformer would continue to live.

Ji Shaoyun fed that Transformer about a third of it and then stopped, after which the Transformer slowly recovered and his eyes gradually got refreshed.

Only then did Ji Feng say, “Alright, keep an eye on him and report back in time if there are any problems!”

The others immediately nodded their heads.

Ji Feng and Xiang Yongzhan went back to the observation room. Looking at the dead reformer on the ground, Ji Feng couldn’t help but shake his head: “Why do you think this guy is suffering, he would

rather starve to death than say anything? It would be fine if he was a tough guy, but it's just that he's still fearful."

Xiang Yongzhan mused, "Maybe he thinks that if he falls into our hands, there is only one way to die."

"It shouldn't be, he should know that we are interested in him and didn't say that he must die!" Speaking of this, Ji Feng suddenly had a movement in his heart and couldn't help but ask, "Old Xiang, do you think that he would think that we don't have the means to create the food he needs and that he would still starve to death in the end, that's why he gritted his teeth and didn't say anything?"

"There's that possibility!" Xiang Yongzhan thought about it and nodded his head.

"If that's really the case, then it's really a bit of a problem!" Ji Feng frowned slightly, "We need to study that bottle of liquid as soon as possible, otherwise, the transformer that's alive will be starved to death sooner or later!"

"Don't worry, when we get back, I'll immediately hand that thing over to the lab for analysis and research." Xiang Yongzhan said.

Ji Feng, however, shook his head and laughed, "How can I rest assured? It's not enough to just study and analyze the ingredients inside that liquid, you have to be able to make it. Look, for example, the drink, anyone can only get the ingredients of Coca-Cola, but how many people can actually make it?"

Analysing the ingredients in it should be easy for a professional laboratory, but analysing the content of the ingredients is not so easy, not to mention, there is the production process.

"This is like making medicine, a variety of raw materials are placed there, but when processing, which one to put first and which one to put second, trying to study this order and recipe, do you think it's possible?" Ji Feng said, "I think, that poor guy, may not be able to escape from being starved to death in the end!"

"Don't be so pessimistic yet, how can we know if we don't try!" Xiang Yongzhan said.

Ji Feng smiled, "Let's hope so!"

"Then again, this dynasty's level of technology is something one has to admire." Xiang Yongzhan said with emotion, "To be able to make such a drastic transformation on the human body, and to be able to create this liquid food specifically for transforming people, it's unbelievable!"

Even if that liquid was a highly concentrated nutritional fluid, but if it was placed on an ordinary person, just drinking the nutritional fluid would cause problems after a long time. However, the dynasty has made it this far, which is amazing.

"If it wasn't for their high level of technology, I don't think they would dare to be so arrogant." Ji Feng hummed.

"Yes!"

Xiang Yongzhan nodded with emotion, suddenly he remembered something else and couldn't help but ask, "By the way, what you used before, was the method to deal with the transformers?"

“That’s right! What the transformers are really afraid of, is bio-current.”

Ji Feng said, “You and your men, all seize the time to practice body building exercises diligently, the bio-current in your body will gradually thicken actually now you all have bio-current in your body, this is also the reason why the Transformer that you fought with, was so afraid of you, but because you bio-current in your body was still too thin, so it eventually forced him to blow himself up, otherwise, you would have been able to capture him!”

“So that’s how it is,” Xiang Yongzhan then suddenly realized, “This body building exercise of yours is really amazing, I say, it shouldn’t be called body building exercise, but a method of practicing kung fu, right?”

“What method of practicing kung fu?” Ji Feng was stunned.

“Your supernormal abilities, did you practice them using this method?” Xiang Yongzhan asked.

Ji Feng then understood, when he thought about it, what Xiang Yongzhan said really made sense, this was not any kind of body building exercises, according to martial artists, this was a set of super body building exercises that could bail an ordinary person to the Ascendant realm!

“You guys keep practicing, the longer you stick to it, the thicker the bio-current in your body, one day you can all become martial artists, oh, that’s what you call supernaturals!” Ji Feng laughed.

“Great!” Xiang Yongzhan was overjoyed, “I should be clear for the next period of time, I’ll urge those boys to intensify their practice, the next time we encounter reformers again, it’ll be them who run away.”

Ji Feng shook his head, “That’s only if your strength reaches a certain level, otherwise, you can at most cause a little damage to the reformers, but people can just take your lives! Look at those four warriors from the Red Arrow Brigade, they also practiced body-building exercises and were even earlier than you, but in the end, they were still injured by the transformers’ sneak attack?”

Xiang Yongzhan, however, was undaunted and smiled, “Of course I know this, but we have plenty of time to build up, and will always reach the point where we can go head to head with the reformers.”

Ji Feng then nodded, this kind of mentality was the best, he was worried that once Xiang Yongzhan and the others heard that practicing bodybuilding exercises could deal with the reformers, they would be in a hurry. But now it seemed that this worry of his was superfluous, and that was good.

Next, the two of them discussed some other matters, the focus was still about the Dynasty, especially some information they got from the dead reformer, and the two of them came to some conclusions after discussion.

First of all, in the organization Dynasty, there was indeed someone who had eyes on Ji Feng.

And it wasn’t just Ji Feng, I’m afraid that even Xiang Yongzhan was also on their radar, because he was such a threat to Dynasty that it would be strange if the other side didn’t want to get rid of him.

Secondly, this mysterious person who was called Little Gongzi by the reformers was very familiar with the situation in China, moreover, he was familiar with the relationship between Ji Feng and Xiang

Yongzhan and others, moreover, he should be familiar with their family as well, otherwise, the other party could not be so sure that Ji Feng would come to their rescue.

If Ji Feng was a child of an ordinary family, he wouldn't have had the chance to come to the rescue even if he wanted to. That young gongzi obviously knew this.

The other thing is that Xiang Yongzhan's fall was not the result of a deliberate calculation by others, but a coincidence.

He destroyed several dynasty bases in a row, which caused the dynasty to strengthen its defences against other bases, and even sent out advanced transformers, and as a result, Xiang Yongzhan crashed headlong into them, so he was badly hit.

The armed men who appeared on the deserted island were also temporarily sent in to strengthen the defence. They took turns to be in charge of guarding the several small islands around the base, and this was how they were able to gather so many people in a short period of time.

These, then, were the conclusions that Ji Feng and Xiang Yongzhan had come to.

However, there was no way for them to guess who the mysterious young male was, but there was one thing they could roughly guess: this young male, must be someone who lived in China for a long time!

Because it hadn't been too long since Ji Feng had become friends with Xiang Yongzhan, if the other party wasn't in China, it was impossible for them to learn about these circumstances.

What's more, it had only been two years since Ji Feng rose to prominence, and even if he had offended someone, it would have been within those two years.

"Yanjing, the Royal Club!" Ji Feng and Xiang Yongzhan coincided and uttered such a name!

Analyzing from these circumstances, that young male, most likely came from that stronghold of Dynasty in Yanjing, China, the Royal Clubhouse!

However, now that the Royal Club had been cleared out, and the Dynasty's people inside had fled and been arrested, there was no way to find out who this young male was, and whether he was a man or a woman. Even if we go back and re-read the information about the Royal Club now, we may not be able to find out any clues related to this young male.

Xiang Yongzhan laughed, "This is good, He Hongwei has offended the king in the dynasty, while we have offended the young duke, I think, ah, we are kind of in trouble with the dynasty."

"Isn't that good? Since our enemies are all dynasties, let's fight together side by side!" Ji Feng laughed.

"Yes, fighting side by side is the only way to bring out great power!" Xiang Yongzhan nodded, "Ji Feng, if you want me to tell you, you kid should join the army, with your ability, if we fight side by side, the dynasty will only be able to retreat!"

Ji Feng laughed and said, "Won't you be fine in the army? I'd better hang around outside, maybe I can be of some use too."

Xiang Yongzhan couldn't help but shake his head and laugh, he knew Ji Feng's temper and stopped persuading him. Only, when Ji Feng did not join the army, Xiang Yongzhan still felt very sorry for him.

The two of them chatted for a few more minutes before Xiang Yongzhan suddenly asked, "Ji Feng, where is the white spider, how do you plan to investigate? We'll have a briefing in advance, so we can have something to say about your ideas!"

Although the white spider is someone who came from the dynasty, but, now she is also very important to the military, so Xiang Yongzhan must be cautious, can't just because people used to be enemies, just haphazardly suspicious of people everywhere, that's not right.

Chapter 1005

The first time I saw this, I was able to find out that there were still a few warriors in the special operations brigade who hadn't fully recovered. There must still be toxins in their bodies that have not been cleared, so after we go back and extract these toxins and compare them with the White Spider's physique, everything will be clear!"

But Xiang Yongzhan shook his head and said, "That's not right."

"How so?" Ji Feng asked with a smile.

"Checking like this may not be able to find out anything I mean, if there is really something wrong with the white spider, what you are doing, should not work as well as it should."

Xiang Yongzhan lowered his voice and said, "Imagine, if the poisoning of us was really done by the white spider, then, after we retreated from the dynasty's base to that deserted island and stayed on that deserted island for a short period of time, in the process, any evidence would have been disposed of, and any breakdowns would have had enough time to make up for it!"

In Xiang Yongzhan's opinion, if the poisoning was really the work of the white spider, then, from the time they evacuated the dynasty's base to now, a full twenty hours, almost a day and a night, what evidence wasn't destroyed long ago?

It would be really hard to find out.

"What you said makes sense." Ji Feng nodded and smiled, "However, what I want to investigate is not her evidence, but her suspicion. As long as we compare the poison you were poisoned with the White Spider's physique and find that she has little immunity to these toxins, then we don't need to prove anything else evidence, we never need it!"

"A trumped up charge?" Xiang Yongzhan shook his head, "This is not proper, frankly speaking, even if the white spider did it, I am a bit reluctant to lay hands on her, not to mention just suspecting that I have to lay hands on her, that is even more improper."

Ji Feng suddenly lost his smile: "What, have a meaning for her?"

"I have a fart of a meaning!" Xiang Yongzhan waved his hand and laughed: "My family has arranged a marriage with me, and I might be engaged in a while, so how can I still be messing around outside? Do you think everyone is like you?!"

“Engaged? That’s good, I’ll have to ask for a cup of wedding wine when the time comes.” Ji Feng chuckled.

“There’s no shortage of wine for you.” Xiang Yongzhan laughed: “Don’t interrupt, the method you just said is not suitable, to be fair, White Spider is definitely a talent, and quite good in combat, especially good at sneaking and assassination, in this regard, very special forces are no match for her, such a person, how can you just press a charge and deal with it? It’s simply bullshit.”

“Then hand her over to me!” Ji Feng said, “Anyway, if she stays in the army, she might be a threat, so let her stay with me, and I’ll keep an eye on her. If she has no problems, let her go back after a while, if she really has problems, then there’s no need to go back either.”

“Good, you kid are waiting for me in this place?” Xiang Yongzhan finally came back to his senses, “I said how come you kid is so generous and took the initiative to be this villain, dare I say that you kid has an idea, huh?”

This kid is really bad, he really sees the stitches, this random opportunity to hit the white spider’s idea, simply bastard ah.

“How can you say that!”

Ji Feng said, “I’m not removing the threat for you guys, how come it’s become so bad when it comes to you!”

“Cut it out!” Xiang Yongzhan grunted: “You have already taken a Han Zhen from me, this is still through saving the white spider from me in exchange, now you take the white spider away again here and outside, you kid is earned away two people from me for nothing, I advise you to dismiss this idea before it is too late, I will not say anything to agree!”

“Xiang Yongzhan, you kid don’t take my good intentions for an ass’s lungs!”

Ji Feng said in an unkind tone, “Let me ask you, what if there is really something wrong with the white spider? The time in case something goes wrong again in the operation, you kid to die first not to mention, if the brothers under your hand, you heart to feel sorry for? You really think I’m stealing people from you? I am helping you!”

“Hey! Then thank you for your kind words.” Xiang Yongzheng snorted, “But I can’t afford this kindness, let’s stop this topic, okay!”

Ji Feng secretly shook his head and couldn’t help but curse, “You brat!”

This time, Ji Feng was more or less reluctant not to ask for a white spider. As Xiang Yongzhan said, White Spider was indeed a talent, and what Ji Feng valued most was that she had been an assassin and the head of Dynasty’s branch in Western Xia, all of her experiences were what Ji Feng needed most at the moment.

At present, the Tengfei Group has been set up and has started to operate, but the security force is still a bit weak, just a few of them, Yi Xingchen, are recruiting people and folding, but it is not enough.

What Ji Feng needed now was someone with management skills, and Bai Spider, who had been the head of Xixia, was undoubtedly a very suitable candidate.

Of course, with Yi Xingchen overseeing the security work of the whole bureau, then Bai Spider could train the people below in management, and in this way, there would be more and more talents in security.

But seeing the scowl on Xiang Yongzhan's protective thing's face, Ji Feng had to put this topic aside for the time being, anyway, he was fixated on the white spider, how to get the person back later, there were plenty of opportunities, and there was no hurry for this moment.

After all, White Spider has not yet been completely ruled out as a suspect, and cannot be given full credit. However, although White Spider was still a suspect, the suspicion was not too great, and he knew it in his heart.

The reason he said that just now was actually just to get the white spider out of Xiang Yongzhan's hands.

"Ji Feng, let's drop that topic just now." Xiang Yongzhan hurriedly changed the topic, he knew how smart this brat Ji Feng was, a little inattentiveness would have to be taken advantage of by him, on the contrary, this brat's vision was also very poisonous, no matter who or what he looked at, it was as if he was cutting meat from Xiang Yongzhan's body, this brat was just too bad.

"Good good" Ji Feng laughed, "Change the subject, let's change the subject!"

"That's more like it." Only then did Xiang Yongzhan nod in satisfaction and said, "Say, apart from the method you just mentioned, what other ways are there to find out if the white spider is a suspect or not."

Ji Feng deliberated slightly for a moment before saying, "Actually, that method of mine is the best you kid don't stare first, what I said is true."

"Say!"

Xiang Yongzhan looked at Ji Feng warily, now that he knew that Ji Feng was playing with the idea of the white spider, Xiang Yongzhan had to play it safe, if he was not careful, he would be exploited by this guy.

Ji Feng chuckled and said, "It's the method I just mentioned, extract some toxins from your bodies and compare it with the White Spider's physique, if she will be poisoned, then there will be an 80% suspicion, if she is not poisoned, then there will only be a 10% suspicion left."

"How can I compare it? We can't just inject the toxin into her body, can we?"

Xiang Yongzhan frowned, "If she's really fine and knows we're testing her like this, how can we still meet in the future? Ji Feng, this army is not like the society, those ways and means you have will not work here"

Ji Feng laughed: "That's why I said, you hand over the white spider to me"

"Stop it!" Xiang Yongzhan immediately waved his hand, "Come on, I'll figure this out on my own, so don't worry about it along with you, okay!"

"Then of course good, but, it will be hard for you!" Ji Feng said with a heated smile.

“It’s not hard work.” Xiang Yongzhan hummed, “It just so happens that after I go back this time and recuperate for a while, I have nothing to do and plenty of time to figure out these problems, so you kid just die this heart!”

Ji Feng laughed, but in his heart he was thinking about how to get the white spider back from Xiang Yongzhan.

In fact, Ji Feng knew very well in his heart that when he was treating Xiang Yongzhan and the others for poison, he had already discovered that the White Spider’s physique was very different from Xiang Yongzhan and the others.

Ji Feng had both removed the biological bomb from the white spider and treated the poison from Xiang Yongzhan, so he knew both of their physiques very well.

Naturally, there was no need to say much about Xiang Yongzhan; among ordinary people, his physique was quite excellent, plus he had practiced body-building exercises, so it could be said that even a very good soldier might not have as good a physique as he did.

The White Spider, on the other hand, was not like that at all. I should say, the White Spider’s physique is very special!

This is an indescribable feeling, but Ji Feng is certain that the white spider’s physique is not quite the same as that of ordinary people, and it is entirely possible for such a physique to be unafraid of that kind of toxin.

Therefore, just as Ji Feng had said earlier, the suspicion of the white spider had been ruled out by 90%, as for the last 10%, it would need to be carefully observed later to see if any clues could be found from her body.

After all, one to twenty hours had passed since Xiang Yongzhan and the others were poisoned, so even if she had really done the deed, I think some evidence had already been cleared away by her.

It would be too difficult to find out the exact evidence of her poisoning at that time.

The reason why he asked for someone from Xiang Yongzhan was because of this. If White Spider was really a mole, he naturally would not have opened his mouth.

The problem is that Xiang Yongzhan is a very smart guy, so it’s too difficult to get someone from him, so we have to think of another way.

“Old Xiang, white spider with whom the matter we do not say first, after going back, I suggest you ask the army experts to give her a thorough physical examination, frankly speaking, her physique and others not quite not quite the same!” Ji Feng didn’t know how to describe White Spider’s physique, so he could only speak vaguely.

“What do you mean? How do you know that?” Xiang Yongzhan asked.

Ji Feng said, “Don’t forget, I once removed a biological bomb from a white spider, so I know more or less about her physique!”

Xiang Yongzhan immediately reacted, "You kid, you mean to say that she is not very suspicious?"

What kind of person was this Xiang Yongzhan? Being able to command a special operations brigade, and being one of the several most elite special forces in China, how could he be a fool?

So as soon as Ji Feng said it, he understood: "You kid, so you already knew that she was almost suspicious? I told you, you brat is really bad!"

Ji Feng snorted, "That's nothing, I just remembered."

"Cut the crap, I still don't know you!" Xiang Yongzhan snorted, and the two of them looked at each other and laughed at the same time.

These two people, one thinking about how to get the person over and the other thinking about how to keep the person, could be said to have their own agenda.

For Ji Feng, such a talented person as White Spider, although in the army can also play a considerable energy, but the army is so big, there are many talents, but he does not have many talents under him, so he very much wants to ask White Spider over.

The company's main business is to provide a wide range of products and services to its customers.

The two of them fought with each other.

So, these two fought with each other.

But I don't know how it happened, but the more Ji Feng and Xiang Yongzhan took advantage of each other, the better this relationship became. Perhaps, this is also the so-called heroes cherishing each other.

This kind of fight between them, instead of affecting each other's relationship, will also promote their friendship.

That is why there is always a difference between men, especially between good men, and others.

The battle with the enemy on the deserted island was extremely fierce, but on the way back, it seemed uneventful. Ji Feng and Xiang Yongzhan discussed many issues with each other, and then, Xiang Yongzhan could not support himself any longer, because the effects of the special effects current gradually passed, and his body, began to weaken.

Noticing this change, Xiang Yongzhan immediately went to rest, and so did the other soldiers of the special operations brigade, all of whom went to the rest room to rest.

In fact, even if they stayed, they wouldn't be of much use, after all, it was in a submarine, nothing would happen, moreover, there were still fighters from the Red Arrow Brigade around, so if there was a problem, there would be no need for the men from the Special Combat Brigade.

Ji Feng arranged for Gu Chao and the others to take turns guarding the few captives, as well as the advanced reformer, who was likewise on duty. Apart from that, the four wounded warriors of the Red Arrow Brigade were already resting.

At this time, however, White Spider took the initiative and also wanted to participate in the guard rotation, but was rejected by Ji Feng.

On the one hand, there was enough manpower now, and the people left behind were all from the Red Arrow Brigade, who worked well with each other, so it would be difficult for the White Spider to blend in with them if she stayed behind. On the other hand, it was also because, there was still that hint of suspicion about the White Spider, and this Transformer was very important to the military, so he naturally would not be careless, and any possible danger had to be eliminated.

The White Spider also seemed to realise what was going on, and did not insist any further, but went to rest with Xiang Yongzhan and the others.

Next, the men first took a car directly from the pier to the coastal airport, and then they flew to Yanjing on a military plane.

This time, the top was extremely concerned, not only because of the identities of Xiang Yongzhan and Ji Feng, but also, it was about how much loss the warriors of the two special forces had, which was likewise of great concern to the military brass above.

The two special forces have a couple of thousand people each, but each of them is a valuable asset to the force, a few thousand people does sound like a lot, but, compared to the country's million troops, that is simply a drop in the ocean, the proportion is amazingly small.

This is the reason why special forces soldiers are so valuable, from so many troops in the country, to select so many thousands of people, this is really one in a thousand, one in a million!

At the same time, the head of the military is concerned about the dynasty.

On the surface, it appeared that the dynasty was just an organisation hidden in the dark world, and compared to a country, the power of the dynasty was simply not enough.

But in reality, if one were to do serious calculations, the power of the dynasty is somewhat frightening.

There is no need to say much about the economic power. According to the information that Ji Feng has, the dynasty controls many large groups and even large consortia, and its wealth is absolutely unparalleled.

The level of science and technology also does not need to waste too much breath, not to mention the others, just the transformation of human beings alone, I am afraid that all the countries in the world can not look up to it!

As for the force

The company has a huge economic power and advanced science and technology, so how bad can the force be?

The dynasty is such an underworld organization, I'm afraid it's much stronger than a medium-sized country. And this organisation has shown a wolf's ambition, and actually keeps infiltrating towards the interior of China, so imagine how could the top management not pay attention to it?

So to fight against the dynasty, to fight against it non-stop, this is definitely not a trivial matter, and it is not that the top brass is worrying about the sky, but that they really and truly see the threat of the dynasty!

The high level is still very discerning, and the height they stand on determines that their vision is to look at the world, rather than being limited to one city and one place.

If they did not have this kind of vision, they would not be able to stand at the top.

It was for these reasons that as soon as Ji Feng and Xiang Yongzhan returned to the military base in Yanjing, the head of the military hurriedly came to ask about the situation.

However, Xiang Yongzhan had just passed his weakest moment and could not even stand up, let alone report on the situation, so the task had to fall on Ji Feng.

However, Ji Feng did not participate in the previous operation, so he could only report what he knew in detail.

As for the rest, that would have to wait until Xiang Yongzhan recovered and then report back.

After reporting the situation to the chief, Ji Feng also became a free man, he was not a soldier in the first place, and this time he was also temporarily caught on an errand, now that the mission was completed, then he naturally had to go back.

“Little Feng, well done this time.” Ji Zhenping personally sent Ji Feng out of the underground base, this time Ji Feng did such a beautiful job and took great credit, as an uncle, Ji Zhenping also had a glowing face, which made him very pleased.

“But whenever a task is given to you kid, there is nothing that can’t be accomplished, awesome!” Ji Zhenping patted Ji Feng’s shoulder vigorously and said admiringly.

“Little Uncle, it was also luck for me, the other side was trying to surround the enemy and wanted to eliminate Xiang Yongzhan and me in one go, so this gave Xiang Yongzhan a chance to catch his breath, otherwise, I wouldn’t have been able to save him even if I had just flown there.” Ji Feng smiled and waved his hand.

Ji Zhenping laughed, “No matter what, you’ve not only made a great achievement this time, but also, you’ve made the Xiang family owe us a huge favor.”

The status of Xiang Yongzhan in the Xiang family was self-evident, just like the status of Ji Feng and Ji Shaodong in the Ji family. Ji Feng saved Xiang Yongzhan this time, that significance was different from the ordinary, this favor, the Xiang family could not easily repay ah.

Ji Feng nodded with a smile and said, “Little Uncle, about that little male, you should put more effort into it.”

He reported all the circumstances to Ji Zhenping, especially the mysterious young male in the dynasty, which he was focusing on. With such a mysterious black hand behind him and being so familiar with him, Ji Feng could be a real manacle, this was definitely a potentially huge threat, the sooner it was exterminated the better.

Ji Zhenping nodded and said, "Don't worry, I'll turn around and investigate immediately, you be more careful too."

Now that the matter was done, Ji Feng planned to leave the military camp and go straight back to Jiangzhou.

After coming out of the underground base, Ji Feng realized that the underground base was connected to the military camp, which he hadn't noticed before.

Ji Zhenping was arranging a car to send Ji Feng out, when Ji Feng overheard that Bai Spider was actually alone, casually skulking around the playground in the barracks, he was slightly moved in his heart, greeted his little uncle, and quickly walked over.

"This brat, he can't walk when he sees a pretty girl" Ji Zhenping looked at his back and then looked at the white spider in the distance, he couldn't help but scold with a laugh.

If Ji Feng knew that he had landed such a comment in front of Ji Zhenping, I'm afraid he would sweat to death.

In fact, he was definitely not looking for the white spider to talk about love, but had another purpose.

Ji Feng quickly walked over and greeted him, "White Spider, why are you strolling around the playground alone? Are you bored?"

"Young Ji?" Bai Spider was slightly stunned, then shook his head, "Not really bored, just thinking about something."

It was still a bit boring, if she had something to do, she would have time to think about other things?

Ji Feng smiled, "White Spider, if possible, would you like to come to my side?"

"Hmm?" White Spider was slightly puzzled.

"Oh, it's like this" Ji Feng smiled and said, "Frankly speaking, I have my eye on you, of course, I mean your ability, with the experience you had, you can play a big role on my side"

The white spider then understood what Ji Feng meant, she was more or less surprised, she didn't expect Ji Feng to be so blunt, blatantly running here to dig his feet out.

The actual fact is that you'll be able to get a lot more than just a few of these.

"It's not difficult, it's just that" White Spider hesitated slightly and suddenly asked, "Young Ji, do you really want me to go work for you?"

"Of course, you have been an assassin and the head of the Western Xia, naturally there is no need to say much about your abilities, someone like you may not be able to find one for any amount of money, who wouldn't want one?" Ji Feng said very frankly.

However, the white spider asked meaningfully, "What, is young Ji so relieved about me?"

"What do you mean?" Ji Feng was slightly stunned.

Chapter 1007

“Young Ji, you have saved my life, and you have done so twice, by all rights, I should indeed repay you for saving my life.” White Spider said softly, when not being ruthless, White Spider’s voice was still very gentle, and within this gentleness, there was a hint of competence, very idiosyncratic.

Ji Feng waved his hand and laughed: “You don’t need to thank me either, the first two times I saved your life, that wasn’t for nothing, basically I was rewarded, so you shouldn’t say the word thank you either.”

The two times White Spider said she saved her life, of course Ji Feng knew, the first time was when White Spider was lurking in the United University as a teacher and ended up being assassinated by a senior reformer, on the way Ji Feng captured the reformer and saved White Spider once.

The second time, on the other hand, was when he later removed the biological bomb from her body, which also saved her life.

In fact, as Ji Feng said, he basically got a reward for both times, the first time because the White Spider fell into their hands and thus got a lot of information about the dynasty. This second time, it was in exchange for a Han Zhen, which was why Ji Feng said that he had been rewarded both times.

Bai Spider couldn’t help but purse her lips and smile lightly, “Ji youngster is frank and honest!”

The first thing you need to do is to be honest. You don’t have to worry about old Xiang there, if you decide to come to me, old Xiang there I’ll go talk.”

“Ji Shao, I just said that I should have repaid Ji Shao, but” White Spider shook her head slightly, smiled bitterly and did not continue.

“But what?” Ji Feng asked with a smile.

He knew that the white spider probably wouldn’t go with him. No matter what words were said, it was useless to say how nice the front sounded, what was feared was the ‘but’ that followed, as soon as the but was said, the previous words were all nonsense.

The white spider said in front that he should repay himself, that is to say, he should go with himself, and as a result the next sentence but, that is not to go!

However, Ji Feng would like to hear her reasons.

Bai Spider gave Ji Feng a meaningful glance, pursed her red lips and suddenly asked, “Young Ji, if I go with you, do you dare to guarantee that you are completely at ease with me?”

“That’s for sure!” Ji Feng laughed, “There is certainly nothing to be said for suspicious people”

“Will trust me a hundred percent?!” White Spider interrupted him and asked.

“.....” Ji Feng was choked up.

White spider then revealed a ‘really so’ look, she lightly shook her cicada head and sighed lightly, “Ji young, even though you guys didn’t say it, but I do understand, I went out on a mission with the special operations brigade, and as a result, they all got poisoned, but I was the only one who was intact, is this normal?”

“So what” Ji Feng coughed dryly and before he could speak, he heard the white spider speak again.

“And then there were those two transformers that we met later, they knew your name, and it looked as if they were waiting for you there specifically again, I’m afraid they laid out a pocket formation, waiting for you to drill into it How many of them would be so familiar with you? And how many people know that you and Xiang Yongzhan will have such a deep friendship?”

“It’s not that no one knows, people who are familiar with me know!” Ji Feng laughed, “There are also people who have investigated me with care, they should all know about it too, after all, the relationship between me and Xiang Yongzhan is not a secret.”

“But the only one who knows that it is Xiang Yongzhan who is carrying out this mission and knows that you have the ability to save him is me!” White Spider said.

Ji Feng then choked for a moment, how could he say this, what White Spider said did make some sense, and his and Xiang Yongzhan’s previous suspicion of White Spider was also because of these reasons.

What’s more, the white spider is too smart, these problems, she actually thought of all of them

“So yeah, I’m the most suspicious, right?” White Spider said calmly, that calmness, as if she was talking about someone else, but Ji Feng could feel the fluctuations in her heart, there was some sadness in her heart.

“So young Ji, you’d better think about it and let someone like me who hasn’t been cleared of suspicion around, for you, this risk, you’re not worth taking, the people around you and the military, won’t let you take this risk either.” White Spider shook her head and said softly.

Ji Feng couldn’t help but be silent, and had to admit that what White Spider said was very reasonable.

Let alone the fact that White Spider’s ability was valued by the military, saying that just the fact that she was still under suspicion alone would make it difficult for the military to release her, especially if they still wanted her to come to their side.

In fact, if Ji Feng insisted, he could of course let Bai Spider come to his side, but looking at Bai Spider’s current attitude he knew that it was impossible for Bai Spider herself to agree. At least, she would not agree to it until she was cleared of suspicion.

The first thing you need to do is to get a good idea of what you’re doing.

The status of himself compared to Xiang Yongzhan is still vastly different in Bai Spider’s heart, ah.

“I saved your life alright!” Ji Feng secretly said, his heart’s enthusiasm for recruiting White Spider was much lighter, he wanted someone who was absolutely loyal, someone who had to be completely loyal to himself and not just obey orders.

Although the white spider’s performance was even better than he imagined, he also had to carefully consider the way and means

Thinking of this, Ji Feng shook his head and smiled, saying: “Since this is the case, let’s pretend I didn’t say anything. By the way, I have already told Xiang Yongzhan that your physique is different from others’, so it is possible that you are not poisoned, and you are much less suspicious. Also, he will arrange a checkup for you to see if this physique of yours has any effect on you That’s all, I have some business on my side, so I’ll take my leave first.”

“Many thanks to Young Ji!” White Spider nodded.

Ji Feng also had no interest in staying any longer, he waved his hand, “Goodbye.”

After saying that, he left with a big stride, he secretly said in his heart, “It seems that just saving Bai Spider’s life is not enough, without having worked together with each other, we can’t cultivate any tacit understanding and loyalty, we still need to slowly find opportunities later, there’s no rush.”

“Young Ji!” At this moment, the voice of the white spider suddenly came from behind, “When the white spider is cleared of suspicion in the future, if Ji Shao is still willing to take it, then naturally I won’t have any half-hearted excuses.”

Ji Feng turned his head back and smiled, “That’s good, I’ll wait for that day!”

After that, he left the barracks with big strides.

Looking at Ji Feng’s back, Bai Spider’s red lips opened slightly, wanting to say something, but she wanted to say something but stopped, after a long time, a complex look flashed across her beautiful eyes, and she let out a light sigh, but said nothing.

The actual fact is that you can find a lot of people who are not able to get a good deal on this.

.....

The first thing I did was to go home and look around, my father, Ji Zhenhua, was not at home, while my mother, Xiao Sumei, and my third aunt seemed to have just returned.

Ji Feng couldn’t help but look brighter.

Today’s dressing of mother and third aunt was somewhat new and trendy. The mother, Xiao Su Mei, was wearing small leather shoes on her feet, a unique lady’s casual dress, slightly curly hair that had obviously been purposely permed, plus she had insisted on practicing aerobics for a long time, her demeanor and physique were excellent, the whole person showed a noble and graceful air, a complete noble lady.

The third aunt was equally brightly dressed, with her hair coiled on her head, and her whole person was also a full-fledged beautiful woman.

“Mom, third aunt, you guys are really bright in this dress. When outsiders see it, they won’t imagine that you all have such big kids, you are simply a young woman of about thirty!” Ji Feng chuckled.

“Brat, you really dare to say anything!” Third Aunt giggled softly, knowing full well that what Ji Feng said was false, she was still very happy.

Xiao Su Mei, however, cursed with a laugh, “You can’t spit ivory teeth out of a dog’s mouth, I’m an old woman, and I’m still a young woman! Even your mother and your aunt dare to tease, I think you brat is in need of a beating brat, why did you suddenly come back at this time?”

The female guard following next to her had no expression on her face, but the slightly twitching corners of her mouth revealed her heart, obviously amused by what Ji Feng said.

Ji Feng heatedly smiled and said, "Nothing, just came back to do some errands and stopped by home for a visit, I haven't seen my mum for a long time, I really miss it."

As soon as she said this, Xiao Su Mei couldn't help but have a little red in her eyes, Ji Feng had never left her side since he was a child, and now he was often away from home all year round, how could she, as a mother, not miss her son?

Ji Feng took a look and knew it was bad, he hurriedly changed the subject: "So what, mum, where's my dad?"

"What else could he have besides going to work and being busy with work?" Xiao Su Mei shook her head and said, "Your dad is busy all day long, sometimes he is woken up by phone calls in the middle of the night, and he can't eat peacefully at dinner time, when your dad comes home later, you have to persuade him properly!"

Ji Feng said with a bitter smile, "You know my dad's current position, his work is so busy, it can't be helped, a lot of things have to be decided by him, wait for two years after the change of term, it will be much better By the way, my dad is so busy, there is nothing wrong with his health, right? Do you still insist on practicing aerobics?"

"There's nothing wrong with his health, thanks to your aerobics, sometimes your dad comes home exhausted, but after practicing for an hour or two, he's immediately refreshed." Xiao Su Mei said.

"That's not true, I also followed the practice." Third Aunt said next to her, "Little Feng, this gymnastics is a health maintenance technique, right? The effect is really good!"

"It's good that it's effective, it's good that it's effective, make sure you keep practicing without stopping!" Ji Feng admonished.

The health of his parents and relatives, happy and safe, this is the most important thing, Ji Feng attaches great importance to it, because once the words are lost, only then will he know the sadness, then it will be too late to say anything else.

The painful feeling of watching something happen to a loved one but not being able to do anything about it can be experienced even by those who have not experienced it first hand.

Time passed in a flash, and when he heard that his son had returned, Ji Zhenhua came back from work early.

When he saw Ji Feng, Ji Zhenhua couldn't help but pat him on the shoulder and said gratefully, "Little Feng, well done, today an old friend from the military commission called me specially to praise you for the beautiful job you did and for the great work you did."

Chapter 1008

Although Ji Feng's rescue operation seemed to have saved only one person, Xiang Yongzhan, in fact, it had made the Xiang family owe a big favour.

In fact, this was not the most important thing, but for the military, the most important thing was that Ji Feng had captured a high-level reformer alive, and had also brought back the food needed by the reformer, as well as the methods to deal with the reformer.

These were what the military valued most.

Since the fight with the dynasty, the military had destroyed basically all the dynasty's bases, occasionally capturing a few prisoners and killing some minions, which did not make much difference at all, at most, it would only keep the dynasty busy or slow down their attack.

The military had very little knowledge of the Dynasty's top brass and important figures, and had no idea how to deal with the incredibly powerful and fast transformers.

However, this time was very different. The modified man that Ji Feng captured alive allowed the military to understand the modified man and the technological level of the dynasty at a deeper level. At the same time, Ji Feng had found a way to deal with the transformers, which was even more important. In the future, these ordinary soldiers would not be at a disadvantage when they encountered a Transformer again.

This was all extremely important for the battle between China and the dynasty.

Mastering the method of dealing with the reformers was like mastering a sharp blade, and from now on, the reformers could no longer be as invincible as before.

It was because of this significant contribution made by Ji Feng that the military's top brass gave him an appraisal: A tiger's father has no dog's son!

When Ji Zhenhua found out, he was naturally very happy.

Ji Feng, however, gave a heated smile and brushed the matter aside. He was afraid that his parents would pursue the details of the operation again, in case they knew that there was a mastermind behind the operation targeting him, they would definitely be worried.

After spending the night at home with his parents, Ji Feng exchanged some more matters about practicing aerobics with them, especially for some precautions, Ji Feng repeatedly urged them to stick to the constant practice, which was very important for their health.

"Good, good, your mother and I will definitely insist on practicing." In the face of his son's admonition, Ji Zhenhua nodded his head smilingly and agreed.

Ji Feng knew that, given his father's character, he would agree to do so, but once he got busy, it was uncertain whether he would be able to think about practicing gymnastics.

"Mom, you must remember that no matter how late my father comes back, he must practice aerobics for two hours, which is more adequate rest than lying in bed and sleeping." Ji Feng pulled his mother and whispered, "You also want dad to get healthier and healthier, right? With that personality of his, he may not be able to listen to my words, so you must arrange this for him."

"Don't worry, I'll keep an eye on him." Once Xiao Su Mei heard this, then naturally she immediately nodded her head in agreement. She was naturally very concerned about her husband's health.

"Mom, you yourself should also keep practicing, this body-building exercise is likewise greatly beneficial to you." Ji Feng laughed: "Today I was not wrong when I said you were young, if you practice for a long time, you dare not say that your youth will last forever, but to slow down aging, or to remove some toxins and impurities from your body, that is no problem at all."

He laughed in a low voice, "As long as you are persistent, you will have at most half a year to go before you can continue practicing the second set of body-building exercises, by then, you will definitely look much younger than you do now, and you will also be so charming that my father will definitely be dazzled by you. By then, it's a case of the king not going to have morning court from now on"

"Pah!"

Ji Feng received a slap on his head.

But I saw Xiao Su Mei blush slightly and glared at her son, "Brat, what are you talking about, the more you talk, the more serial you are."

Ji Feng rubbed his head and laughed heatedly, not daring to say any more. However, he could clearly see a strange color in his mother's eyes, it was obvious that his words had moved her heart.

In fact, if you think about it, once a person reaches middle age, the couple's attention may be placed on the family, children and career, and they are less concerned about the couple's love and life. The first thing is that Ji Zhenhua is so busy all day long that he can't even eat well, so I'm afraid that the couple's life will be even less regular.

Now Ji Feng said this method, Xiao Su Mei is naturally very interested.

But in fact, Ji Feng was a great injustice, God forbid, he definitely did not mean it.

In fact, his original intention was to have his parents both stick to practicing body-building exercises so that both of them could reach their healthiest state. As for arranging a conjugal life for his parents, holy shit, how would he dare, in case the old man found out, it would be strange if he didn't beat him up.

However, now that he saw that his mother had some misunderstanding, but was very much interested, Ji Feng felt that he was hitting the right note.

Well, this was not bad, he smiled in his heart.

The next day, Ji Feng went to see the old man again, and there was no doubt that the old man also knew about Ji Feng's trip to save Xiang Yongzhan, and the result made him very happy.

When the old man was happy, he actually accompanied Ji Feng to talk all morning again, until Aunt Hong, the old man's personal special nurse, came to urge him, Ji Feng only hurriedly helped the old man to rest, and after that, he took a plane and returned to Jiangzhou.

.....

It was already after 4pm when he returned to Jiangzhou, Tong Lei was at school and Xiao Yuxuan was busy with her work at the Tengfei Group, so when Ji Feng saw that it was still early, he drove straight to the Tengfei Network Company on Tongzhou Road in Jiangzhou.

On the way, Ji Feng first called Xiao Yuxuan, Tong Lei and Xu Yuan to tell them about his return. Afterwards, he asked about the company's situation from Han Zhong and others, and basically there were no problems in the past two days, so he was relieved.

He had only been gone for two days, but it felt like he had been gone for a long time, which made him feel strange.

When he thought about it, I was afraid that it was because too many things had happened in the past two days, which made Ji Feng feel like he couldn't stop.

Soon, Ji Feng stopped thinking about this boring issue and instead put his mind on the Tengfei Group.

At present, the operation of the Tengfei Group was very stable, basically it was on track, its Tengfei Pharmaceutical Factory, Xiao's Pharmaceutical Factory, and Changhe Pharmaceutical Company, were all running stably. The only thing that has changed is the Changhe Pharmaceutical Company. This means that in future, the distributorship of all medicines produced by the subsidiaries of the Group will be given to Changhe Pharmaceutical Company.

This has led many overseas pharmaceutical distributors to contact Changhe Pharmaceutical Company, either to enquire about new drugs or to negotiate for the distributorship of other drugs.

In fact, the Xiao Pharmaceutical Factory is now the only one producing civilian drugs, and there are very few varieties, except for the Kang Yuan slimming powder, there are only a few commonly used drugs. These few medicines are being produced by an unknown number of pharmaceutical factories in the country.

So reasonably speaking, those pharmaceutical distributors should not be too interested in it.

But in fact, they are not thinking in this way.

Getting the distributorship of other commonly used drugs now was actually a warm-up for the relationship with the Changhe Drug Company company, who knew when Xiao Pharmaceutical Factory would suddenly launch a new drug later on?

If we wait until then to compete for the agency, it will be too late. It is better to hold onto the Buddha's feet temporarily than to burn incense more often.

If we establish a partnership with Changhe Drug Company now, it will be much easier to get the agency rights from Changhe Drug Company when Xiao's new drug comes out.

For these reasons, the Changhe Drug Company has recently been a marketplace, with an unknown number of pharmaceutical distributors from all over the country coming to discuss business, making all the employees of the Changhe Drug Company work almost continuously, and this is still somewhat too busy.

Therefore, Lin Shengping gritted his teeth and decided to recruit talents immediately!

The expansion of the Changhe Pharmaceutical Company began with a bang, while at the same time, the production of Xiao's Pharmaceutical Factory was in full swing.

Apart from the Kang Yuan slimming powder, all the other medicines actually started selling like hotcakes. The snowflake orders made everyone at Xiao's Pharmaceutical Factory a bit stunned, and then overjoyed.

But anyone who has some vision knows that this is an opportunity for the sales of other kinds of drugs to skyrocket, and it is also the only opportunity, because this is a blowout, after saturation, I am afraid that there will not be such a hot situation.

Therefore, Xu Yuan decisively seized the opportunity to temporarily add two more production lines, specifically for the production of other types of medicines.

Frankly speaking, these ordinary medicines, on the contrary, are more profitable than Kang Yuan slimming powder, just that the sales volume is not as big as Kang Yuan slimming powder, now there is such an opportunity, then naturally we must seize it.

When Ji Feng learned about these situations, he couldn't help but be a little stunned, this is perhaps the pulling effect.

Now that a few other companies are developing so prosperously, Ji Feng, for the Tengfei network, is starting to care. Since the other companies were already developing rapidly, it was time for the take-off of Tengfei Network to be put on the agenda.

Ji Feng gave the first takeoff of the Tengfei network, positioned in the Tengfei Group ready to launch the 3d TV.

The market for the promotion of 3d TV sets will undoubtedly be very hot, with unlimited prospects, and with the cooperation of Tengfei Network, they will undoubtedly earn their first bucket of gold, and moreover, this bucket of gold will be very lucrative.

“Ding”

Ji Feng was pondering when his phone suddenly rang, he took it out and saw that it was Rong Suyan calling.

Slightly stunned, Ji Feng picked up the phone, “Suyan, this is Ji Feng”

“Young Ji, is it convenient now, I want to see you” Rong Suyan said softly, “Someone is driving my father to death!”

Squeak—!

Ji Feng slammed a sharp brake and subconsciously asked, “What?”

Chapter 1009

“Suyan, what did you say?”

Ji Feng felt that he shouldn't have heard too clearly or misheard: “Repeat it again!”

“Young Ji, my father is about to be driven to death!” Rong Suyan's voice raised some more, and her tone also became urgent, “Where are you now, I want to see you” The only one who can help me now is you.”

“How could this be?!”

Rong Suyan suddenly called, let Ji Feng shocked almost did not bite his tongue, Rong Suyan just said what, her father, Rong Peng, is about to be forced to die?

This joke was a bit too outrageous!

The Rong Peng Group, with assets of tens of billions of dollars, was a giant of private enterprises in Southern Guangdong, and even compared to many large state-owned enterprises, it was no worse than those really huge state-owned enterprises.

As the chairman of Rong Peng Group, who would dare to force Rong Peng to death? That's a joke!

The chairman of such a large group is definitely the focus of the news media, such a person, not to mention forcing him to death, even if there is some conflict with him, or take some measures and tactics against him, once reported by the media, or stirred up by someone, then it is enough to make a fuss.

Therefore, even some powerful families would never dare to go so far. The bigger the person is, the more they have to pay attention to social opinion and influence.

If you want to deal with someone like Rong Peng, there are only two ways, the first one, is to directly find evidence of his crime, and even then, that must be handled in a low profile, not to cause too much impact, otherwise, once the impact is bad, I am afraid that even a feudal official, will definitely have to carry a great deal of pressure.

The second way, which is also the best way, is called a soft knife to kill, draw a soft knife, that is really a direct stab to the people's waist pole, painful to the heart, but let the other party can do nothing.

This is called boiling a frog in warm water and making a slow move!

The first is to make sure that the person does not commit a crime or break the law, so who can force him to die?

Could it be the Martial Family?

Ji Feng is a little unsure, the Wu family may not dare to do such a thing, his Wu family can't cover the sky with one hand yet!

"Ji Shao, Ji Shao" Rong Suyan's eager voice came over the phone, causing Ji Feng to snap back from his contemplation.

"I'm listening, go ahead." Ji Feng said.

"Young Ji, it's not clear over the phone, are you free, I want to see you." Rong Suyan said.

Her voice was a bit eager, making Ji Feng realise that this matter might not really be simple, so he immediately nodded, "Yes! Where should we meet?"

"I'm not too familiar with Jiangzhou, so you should decide the location." Rong Suyan said.

Ji Feng pondered slightly and immediately said, "Then how about this, let's meet at that cafe opposite Rong's Ventures, you can always find it there, right?"

"Okay, give me a call when you arrive"

After closing the line, Ji Feng looked at the road signs next to the road and couldn't help but shake his head slightly, this was looking at Tongzhou Road, but then he received a call from Rong Suyan He stepped on the gas and went straight to Tengfei Network Company.

The thing about Rong Suyan is that it is not urgent, but since the Tengfei network company is already in front of it, it is necessary to go and see how.

When he came to the Tengfei network company, Ji Feng found that the place was completely free of the previous chaos, and several offices were in order.

When he thought of this, Ji Feng was suddenly struck by the fact that he didn't seem to know who the manager of this network company was until now!

The original manager of the Tengfei Network was pulled out because Han Zhong wanted to set up the headquarters of the Tengfei Group. Later on, it was said that a new manager had been assigned, but Ji Feng had not met him yet, and he didn't even know whether this manager was a man or a woman, or what his name was!

"Xiao Si'er, it's your turn to be on duty today, this is the password conversion method for the LAN, as usual, the password has to be converted before you can enter it." A voice suddenly came from the stairway of the facade.

"Got it!" Inside, in front of one of the computer desks, a young man wearing glasses looked up and made an ok gesture.

By this time everyone else had started to pack up and get ready to leave work.

"How is this password converted?" Ji Feng smilingly walked in and asked the young man called Xiao Si.

That young man was instantly taken aback, and then looked at Ji Feng with incomparable caution, "Who are you? This is our office place, how can you just come in?"

Ji Feng smiled, "I'm looking for Wang Xin and Yang Yu from your company, are they here please?"

"Worker Wang and Yang are busy, if you want to find them, please enter through the next door,", the young man named Xiao Si'er said warily.

Ji Feng nodded with a smile and said, "Okay, thank you very much. However, I am still very interested in that password conversion method you guys just mentioned, can you talk to me about it? I think this password conversion is not something too important, right? But for you Tengfei Network, it is a manifestation of strength."

"Sorry, no comment!" Xiao Si'er gave him a wary look, "What exactly are you here for? If you don't leave, then I'll have to call security!"

The others also noticed Ji Feng and looked at him warily.

"Very well!" Ji Feng smiled and nodded, "Your vigilance is good, however, it is the security aspect that needs to be strengthened, I can walk in at will, let alone others, although it is during office hours, but this is ultimately bad,",

“I said who the hell are you? What are you doing?!”

“Yes, please hurry up and get out.”

The others listened to him here head to head critiquing the security of Tengfei Network, which made the others a little angry, in other words, whoever is here working well, only to suddenly barge in a stranger and criticize this and that, what is this ah?

“Oh, I’ll leave now!” Ji Feng waved his hand and walked out with a smile.

However, just as he went out, he saw two tall men standing in front of him, very calm and intimidating, but they were Wang Hu and Du Shaofeng. Behind them, there were a few security guards.

“Yo-ho, you guys are still reacting quickly!” Ji Feng laughed.

Wang Hu and Du Shaofeng, however, were slightly stunned and immediately reacted, “Boss (Ji Feng)?”

Ji Feng laughed, “Your reaction speed is good, however, the security arrangement is still a bit lacking, such an oversight may cause big trouble, this has to be corrected.”

The duo immediately blushed and hurriedly nodded their heads and said yes.

Wang Hu hesitated for a moment, but still explained, “Boss, it’s like this, they all work in the front room, with the current weather, it’s inevitably a bit stuffy, and it’s also a bit inconvenient to go back and forth, that’s why the door was opened, it won’t be like this in the future

The first thing you need to do is to take a look at the door, which is made of steel, and if it is closed, the ventilation and light is not very good.

“That’s something I didn’t consider, and I’m wrong to blame you guys.” Ji Feng knew his mistake and frankly admitted his mistake, “In this way, I’ll go and meet your manager, change the place into a security door only, and add an extra layer of defense.”

Du Shaofeng, however, did not say a word, his relationship with Ji Feng was not ordinary, but the more this was the case, the more he could not speak, regardless of whether Ji Feng was right or wrong in his criticism, he would listen carefully.

If Du Shaofeng explained this and that to him as soon as he saw Ji Feng’s criticism, this would be bullying and arrogance, and if this fell on the eyes of other employees, sooner or later they would get ideas. Although Du Shaofeng is straightforward, but he is not stupid, even if sometimes Ji Feng deliberately let him suffer a bit, he is willing.

His own people, well, if Ji Feng can do it to his own people, then it means that he is not good at doing it to outsiders or doing it to outsiders

No matter what the reason is, Du Shaofeng has to listen carefully.

“All right, I’ll go find your manager, you guys get busy first!” Ji Feng laughed, “By the way, who is your new manager? What’s his name?”

“Boss, you don’t know? Our current manager is Wang Xin ah!” Wang Hu laughed.

“It’s Wang Xin?” Ji Feng couldn’t help but be stunned, then he laughed, “She’s actually the manager now? She seems to be doing quite well, good, I’ll go and find her now!”

Ji Feng didn’t expect that Wang Xin was actually the manager, and looking at how well the staff was doing, Wang Xin was obviously managing very well, which was a great improvement compared to the past.

Ji Feng went straight to the manager’s office, but saw that the office door was open, and when he looked through the door, he could see that Wang Xin was in front of the computer, his fingers tapping rapidly on the keyboard, not knowing what he was working on.

“Knock knock knock!” Ji Feng knocked on the door.

“Please come in!” Wang Xin said softly with her head also per desk.

“Manager Wang, busy!” Ji Feng smiled as he walked in, “It’s closing time and you’re still so serious?”

“Boss?”

As soon as Wang Xin saw Ji Feng, her small face was filled with a smile and she hurriedly stood up, “Boss, why are you here all of a sudden? Quickly have a seat!”

“This isn’t a surprise inspection, I just took the time to drop by and take a look, I never thought you’d become a manager, not bad!” Ji Feng laughed.

Wang Xin couldn’t help but blush slightly on her pretty face and said somewhat shyly, “I was too unsuccessful in managing before, so I followed the previous manager for a while, and read some management books on my own, I’m still figuring it out now too, I’m still not doing enough”

As she spoke, she hurriedly stood up to pour water for Ji Feng, but did not even dare to look at Ji Feng more than once.

Chapter 1010

Ji Feng was really surprised, Wang Xin followed the former manager to learn, read the book by herself, and now she actually managed in a decent way?

This girl really had such an outstanding talent in management?

Naturally, he did not know how hard Wang Xin had worked in order to learn how to manage well. Where she had learnt from her previous manager, she had secretly and quietly learnt from her previous manager’s management in secret, which was completely stealing from him.

On top of that, she also reads those management books seriously after work and asks Han Zhong for advice from time to time.

Fortunately, the company is very small, with only a dozen staff members, so she gradually got the hang of it.

She did all this to live up to Ji Feng’s expectations!

The two of them had just met and now she was no longer dressed as a girl. At that time, she was wearing sports and casual clothes and her long hair was tied in a ponytail behind her head.

Now, Wang Xin is wearing a dark blue checkered professional suit, a white shirt, her hair is tied up behind her head and stuck with a hairpin, and she is wearing black high-heeled shoes.

These transformations should all be made to match her position, it seems that hers is really very attentive.

Seeing Ji Feng staring at herself, Wang Xin couldn't help but be a little shy, afraid that Ji Feng would continue to ask questions, she hurriedly changed the subject: "Boss, that encryption program you ordered, as well as the excitation program, we've done it all, as well as the 3d browser that we developed on our own, it's all done."

Ji Feng nodded at once and said, "Good, hurry up and show it to me."

"Mm!"

Wang Xin immediately opened the safe in the office, took out a storage device from it, connected it to the computer, and after a few quick operations, some windows appeared on the computer.

"Boss, this is the encryption program we wrote, using the simplest encryption method, but there is no password." Wang Xin said while operating it, "This encryption method, which is calculated by itself, must have the date as one of the base numbers in the algorithm"

Listening to Wang Xin's detailed explanation, Ji Feng couldn't help but nod his head and said, "This algorithm is good, the encryption method is different for each day, even if others want to crack it, they can't figure it out, there's no way to do it!"

"Apart from the algorithm on its own, there are other encryption operations, if I were to crack it, without knowing the way the operation works, I would also need to put in a great deal of effort, and I would only be fifty percent sure." Wang Xin said.

"Good!" Ji Feng nodded and smiled, "Even you are not sure of cracking it, let alone others, I believe in your ability!"

"Boss overpraised!" Wang Xin smiled shyly and said, "Boss, this one is the excitation program written according to your instructions, please take a look to see if it meets your requirements?"

"Mm!"

Ji Feng nodded his head and quickly looked at the program on the computer screen once before briefly testing it a few times, "No problem!"

"That would be great!" Wang Xin couldn't help but say with delight.

Ji Feng smiled, "This is also thanks to you guys."

Wang Xin's pretty face reddened slightly, "Boss, you're flattering, this is all what we should do."

"Let's not talk about that." Ji Feng waved his hand and smiled, "By the way, didn't you guys also develop a 3d browser?"

“Mm!” Wang Xin hurriedly nodded and said, “Boss, please see”

She tapped on the computer a few times quickly, and then clicked on a browser on the desktop, and immediately, the image on the display changed, from the original flat image, it became three-dimensional, although the three-dimensionality was not too obvious, there were still traces of flat images, but compared to the original image, it looked quite comfortable and much more three-dimensional.

“Boss, this is the 3d browser we developed.” Wang Xin said, “Originally, we were going to schedule a time to launch this browser after we had asked you for instructions, but now, we have changed our mind.”

“Why?” Ji Feng asked, “This browser is very good, why did you change your mind?”

“Because we were very unsuccessful in developing it!” Wang Xin was a bit shy, “Originally we thought we would be leading in our industry by developing a 3d browser, but, since watching that 3d TV you developed, boss, we realized that the 3d browser we developed was nothing at all”

Ji Feng suddenly smiled: “This is different, I was, that what, you guys can achieve this step, in fact, is already very impressive, you are right, this browser of yours, in the same industry, is definitely in the leading position, I was just a blind cat met a dead rat. ”

Wang Xin naturally didn't know that that 3d TV was actually not strictly speaking developed by Ji Feng, but was the work of the intelligent brain, but Ji Feng had no way to explain it to her, so she assumed that it was the result of Ji Feng's research and development, and admired it even more in her heart.

“Boss, we have an idea, I don't know if it's possible!” Wang Xin suddenly said.

Ji Feng immediately nodded: “You can say anything you want, there's nothing you can't say here with me, there's no need to be so formal in the future.”

“Mm!” Wang Xin's small head nodded and said, “Boss, Yang Yu and I discussed, can we take that 3d TV trigger that you developed and apply it to the computer, in this way, we are only responsible for writing the program, we can also develop the real 3d browser, and the 3d computer respectively”

“That's a good idea!” Ji Feng couldn't help but brighten up, “Not bad!”

Previously, because he wanted to save the De Xing Electronics Factory in Hua He County, Ji Feng had only thought of developing the illusory three-dimensional light screen technology, but now it seemed that this had limited his vision and made him not think of other aspects.

Wang Xin proposed this idea, which was obviously very good. If this illusionary three-dimensional light screen technology was applied to computers, it would definitely take the country, and even the world, by storm.

After entering the Internet era, people might not watch television nowadays, but they would definitely not not use computers. Computers are making people's lives more and more convenient, and they are also making people more and more inseparable from them!

So once the Unreal Stereoscopic Light Curtain technology is applied to computers, the firestorm that will follow is completely predictable!

“But” Ji Feng thought of another problem, he shook his head and said, “Now we don’t have any foundation or experience in the it industry, this needs to find a partner and also needs to conduct market research in all aspects immediately for computer applications, it’s still too early, it’s better to develop the browser first!”

The browser is developed, want to promote is very simple, and as long as it can be promoted, immediately can be profitable, this is definitely a high return low investment in the short term, worth doing!

“How about this, after I go back, I will write out the principle about the trigger and the program in it, when the time comes, you guys will study it and see how it can be applied to the browser.” Ji Feng clapped his hands on the board.

“We won’t let you down for sure!” Wang Xin said immediately.

After finishing the business, Ji Feng chatted with Wang Xin for a few more minutes, and when he looked at the time, it was already past closing time, Wang Xin hesitated for a moment before asking cautiously, “Boss, you haven’t eaten yet, right?”

“Yeah, right, you should hurry up and eat too, you forgot the time when you got chatting” Ji Feng laughed.

“..... Oh!” Wang Xin nodded with some loss.

Ji Feng obviously felt her change in mood and couldn’t help but ask, “What’s wrong? No appetite?”

“No no!” Wang Xin’s pretty face suddenly turned red and she shook her head in a panic.

Seeing her shy and cute look, Ji Feng couldn’t help but smile. She didn’t look like a manager, she looked like a little girl who had just entered the workplace.

“Okay, hurry up and go eat, I should go too!” Ji Feng couldn’t help but shake his head with a smile and patted her head.

Wang Xin then wrinkled up her nose, “I’m the manager~”

Ji Feng suddenly laughed, “Yes, you are the manager, the manager”

Wang Xin was shy and angry and lost in her heart, she wanted to tell Ji Feng that she was already a manager and not to treat herself like a little girl, but her shyness made her not have the courage to speak up again, and she could only watch Ji Feng leave with a big smile.

Looking at Ji Feng driving quickly away, Wang Xin was stunned, and did not know what she remembered, her pretty face was red, looking both a trace of mature `woman’s charm, and the youthful energy of a young girl.

It’s a pity that Ji Feng didn’t see

.....

The company has been delayed for a short time in the Tengfei Network Company, so Ji Feng increased his speed on the road. About half an hour later, he arrived under the office building where Rong's Ventures is located and called Rong Suyan.

The two of them met at the cafe opposite the office building. It was only a while since they had seen each other, but Rong Suyan had become much more haggard.

Her face was wearing light make-up, but Ji Feng could see the haggardness in her eyes at a glance.

Only then was Ji Feng sure that Rong Suyan was really in big trouble. Otherwise, Rong Suyan wouldn't be so worried, knowing that she hadn't even been this worried when she was breaking up with the Wu family.

"Suyan, what is going on?" When the two sat down and each ordered a cup of coffee, Ji Feng immediately asked.

"The Wu family has sent someone to take over the Rong Peng Group, they are very strong and want the entire equity of the Rong Peng Group, or the lives of our whole family!" Rong Suyan said angrily.

"The Wu family is doing this, a bit too much, right?" Ji Feng frowned at once, "But since they are so strong, wouldn't it be better to give them all the shares of Rongpeng Group? This Rongpeng Group was originally owned by the Wu family anyway Do they have any other excessive demands?"
