

Campus Master 1071

Chapter 1071

After sitting in the cafe for a while, White Spider stood up.

“Young Ji, I’m going out for a walk and will be back soon.” She said in a soft voice.

Ji Feng waved his hand and smiled, “Don’t go out, we’re also leaving soon, let’s go together later.”

He knew that the white spider couldn’t sit still and wanted to go out to see where her opponent was hiding. And indeed it was, as a bodyguard, having a potential danger nearby made the White Spider a little uneasy, and she had to find out about this potential threat before she could put her mind at ease.

“I’d better go out and have a look, just in time to call for a car in advance as well.” Bai Spider said.

Seeing that she insisted, Ji Feng no longer stopped her, so he nodded and said, “That’s fine, then you be careful.”

Rong Suyan then laughed lightly and said, “Young Ji, no need to be so careful, the law and order in Yuezhou is actually still very good, and it’s broad daylight again, and there’s a security post at the park police station in front, no one dares to mess around here.”

Ji Feng nodded with a smile, while in his heart he said, “No one dares to mess around here? In fact, there are already people who are ready to mess around, you just don’t know it!”

Afterwards, Ji Feng unobtrusively pulled the curtain open again by a crack and looked outside, but he still didn’t find any strange situation, everything appeared normal outside, there was no suspicious person at all, so he could only give up probing.

Although he didn’t know exactly where the threat was, Ji Feng wasn’t too worried. Unless the other party used a gun to snipe from a distance and suddenly attacked with a killer, it would be difficult to pose much of a threat to him. And even if the other party used a gun, as long as it was not too sudden, he would be able to sense it in advance.

Therefore, Ji Feng then calmed down as usual and chatted with Rong Suyan.

“Suyan, I have a question for you, it might be a bit presumptuous, I hope you don’t mind.” Ji Feng deliberated for a moment and smiled.

“What questions do you have, young Ji, just ask, as long as I know, I will definitely know everything.” Rong Suyan smiled lightly.

Ji Feng nodded, weighed his words and asked, “It’s like this, I know that you and Wu Zhihe were once university classmates, moreover, you also had some encounters with Wu Zhiyong, of course, what I mean is that Wu Zhiyong is Wu Zhihe’s elder brother, you should have gotten very close to him before, right?”

As soon as this was mentioned, the smile on Rong Suyan’s face disappeared. She nodded slightly and said, “That’s right, I can’t say that I was close to Wu Zhiyong, but I had quite a lot of contact with him, just not too deep contact and interaction, basically every time I met Wu Zhiyong, I went with Wu Zhihe. Young Ji, why do you suddenly remember to ask this?”

“Oh, it’s actually nothing, except that I have indirectly dealt with Wu Zhiyong a few times, and am wary of this person’s methods and scheming.” Ji Feng laughed: “I think, you also know some of the grudges between the Wu family and our family, so I just want to know if there is anything ..... underneath Wu Zhiyong.”

“Young Ji, what exactly do you want to ask?” Rong Suyan asked strangely.

The grudge between the Wu family and the Ji family was actually not something she knew too well, as far as she knew, it was because Rong Baogang had used his internal guard to kidnap Kang Yuan, the chief engineer of Xiao’s pharmaceutical factory, which resulted in the Ji family sniping Wu Zhiyong’s father in a fit of anger, clinging to the matter.

It is said that there were also some forces in the military in this matter, which also intervened, making the price of goods lose a lot of money.

Of course, Rong Suyan didn't say it, because according to what she knew about this, the cause of this matter was that Rong Baogang got into trouble, but the Ji family was unforgiving, so strictly speaking, it was not possible to say who was right and who was wrong, so she couldn't comment on it.

After a pause, Ji Feng only said with a smile: "In your last few contacts with Wu Zhiyong, did he ever talk about how he planned to target our family for the layout? In fact, what I mean is, before you fell out with Wu Zhihe, how did Wu Zhiyong instruct you on how to deal with the Ji family?"

This, was what Ji Feng had always wanted to ask.

Wu Zhiyong's layout, Rong Suyan might not know all of his intentions, but for part of the plan, I believe she definitely knew. Because if one wanted to snipe the Ji family's right-hand man from the economic aspect, it would have to be implemented through the Rong Peng Group.

And once the Rong Peng Group was used, then Rong Suyan would definitely know about it.

"Young Ji, are you trying to understand Wu Zhiyong's plan, and then be careful to guard against it, or even dig a pit in advance and let them jump into it?" Rong Suyan was still very smart, and in just a few moments, she guessed Ji Feng's thoughts.

"Frankly speaking ..... it is indeed like that!"

Ji Feng nodded, "In fact, even if I don't say it, you should know that I have a close relationship with the Tengfei Group, but it's really difficult to stop the Wu family with just one Tengfei Group. Because the Rongpeng Group is really too big, and after this giant falls into the hands of the Wu Family, the threat it will pose to me, and my family, I shouldn't need to say much, right?"

"Although it is said that there is a great possibility that your father will fight for the equity that belongs to him and pull the funds away from the Rong Peng Group. But even so, the assets that will end up in the hands of the Wu family are really huge and scary."

Ji Feng spoke very sincerely about the trouble he was currently facing as he said, "If the Wu family attacks regardless and goes around making trouble, then the financial resources of the Tengfei Group

will definitely not be able to keep up and will only be exhausted and finally overcome by the Wu family in one fell swoop!”

Rong Suyan couldn't help but nod her head, indeed, she knew too well how terrifying the energy of the Rong Peng Group would explode once it was all in motion, although it was far from enough to attack the Ji family with this, but if you add the Wu family's energy in the political sector, the two, one in the court and one in the field, the combined energy would be enough to give the Ji family a headache.

“Young Ji, what you say has some truth to it, however, I do think you are a bit over worried.”

Rong Suyan said softly, “Once my father takes away a large number of management staff, even if it can't shake the group's foundation, it will definitely make the group's vitality greatly injured, at least for a short period of time, the Rong Peng Group definitely doesn't have the strength to strike out in all directions, and can only choose to recuperate and recover its vitality. Besides, Wu Zhiyong hasn't told me anything about the plan, so I can't really answer you on this question.”

“How long can they recuperate?” Ji Feng shook his head and laughed: “Rongpeng Group's base is too thick, said recovery will definitely be quick, by then it can be the time when they sharpen their fangs and show their sharp claws, if I prepare by that time, it will be too late!”

It's a joke, Ji Feng naturally won't wait until the Rong Peng Group has recovered before thinking about how to deal with it, to plan ahead for everything in order to be invincible.

Ji Feng thought that Rong Suyan's reluctance to talk about Wu Zhiyong's plan might be due to some unspeakable secret, but this matter was too important to him, so he still pursued it.

“Young Ji, you're saying this, that's because you don't know much about the Rong Peng Group.” Rong Suyan laughed lightly, “If my father could take away some of the important personnel, it would take at least a year or so for the Rongpeng Group to regain its vitality and for the new team to grind together successfully.”

Ji Feng, however, shook his head, “A year's time? I don't think so, if you were to clean up this mess, how long would it take you?”

“If we just stabilize the group, then at most half a year will be enough, because my father only plans to take away the management staff, so I just need to promote the management staff directly from below upwards, and the management staff of each department, they will be promoted from the staff of that department, in this way, they are proficient in business and can easily get started, if it is fast, it might even take it may take less than half a year.”

“However, this way the group is stable, but there is no offensive power, it is good enough to keep all the current industries.” Rong Suyan said, “So I dare to assert that the Rong Peng Group will need at least a year before it has the strength to launch an attack.”

“That’s why, ah, I have to take advantage of the time they have to rectify the Rong Peng Group to set up in advance, so that when the Rong Peng Group regains its strength to launch an attack, I will have the strength to fight.” Ji Feng laughed.

Rong Suyan then nodded understandingly and said, “Young Ji, frankly speaking, it’s not that I’m deliberately hiding it, Wu Zhiyong really didn’t tell me about any plans, he only told me that he wanted to go to the east, saying that that’s where your family’s roots are, but the more specific plans are with Wu Zhihe.”

“Oh?” Ji Feng couldn’t help but raise an eyebrow.

“Frankly speaking, although this man Wu Zhihe is not very capable, he is after all Wu Zhiyong’s own brother, and compared to him, Wu Zhiyong naturally trusts him more.” Rong Suyan shook her head and smiled, very self-deprecating: “In fact, to put it bluntly, I am just a tool, a hitman or something like that, even if I go to Huahe County to invest, it was also arranged by Wu Zhihe.”

“So that’s how it is .....

Ji Feng could not help but nod thoughtfully, it seems that this Wu Zhiyong is really shrewd and suspicious, even his brother’s lover is not trusted, to know that at that time, Rong Suyan was still a very powerful fighter for the Wu family!

This shows that Wu Zhiyong is a gloomy character.

However, what Rong Suyan said was close to Ji Feng's previous guess, that in order to snipe the Ji family's great general, it was definitely necessary to go to the eastern region. But the problem lies in that Ji Feng wanted to know who Wu Zhiyong's next target was, and the eastern region was so big that defense would definitely be impossible .....

"Ji Shao, I'm really sorry, I actually didn't really agree with this kind of attack plan at that time, so I just stifled Wu Zhiyong's orders and didn't ask too much about it." Rong Suyan said apologetically.

"It's not a problem, if you don't know, you don't know, this way, it's also just more challenging ..... but also interesting!" Ji Feng shook his head unconcernedly and laughed.

However, when his gaze inadvertently swept over the window, his brow instantly furrowed and the smile on his face instantly disappeared .....

Chapter 1072

"Humph!"

Ji Feng's eyebrows tightened as his gaze looked out the window through the slit in the curtain, unable to help but coldly snort and his face turned gloomy.

"Ji Shao, I really don't know Wu Zhiyong's plan, you're .....?" Rong Suyan immediately noticed the change in Ji Feng's demeanor and couldn't help but feel apprehensive.

Did he think that he knew about Wu Zhiyong's plan and was deliberately concealing it from him?

If Ji Feng really thought this in his heart, this would undoubtedly displease him and might even cause a misunderstanding between them. But in reality, Rong Suyan really did not know about Wu Zhiyong's plan, but the more this happened, the more difficult it was to explain.

"As Wu Zhihe's lover, the most important 'hitman' of the Wu family, would she not know about Wu Zhiyong's plans?" What Rong Suyan was most worried about was that such a thought would arise in Ji Feng's mind.

And in fact, the fact that he could ask himself was proof that he was actually already thinking this way.

Ji Feng, however, did not return his head, just stared straight out the window, and said with his mouth, "Suyan, don't worry too much, of course I believe you ....."

"Then ....." Rong Suyan's heart suddenly moved, Ji Feng looked out of the window, is there something outside the window?

She reached out and was about to pull open the curtain, but was stopped by Ji Feng.

"Don't move!"

Ji Feng didn't even roll his eyes, he just directly grabbed Rong Suyan's hand, "Once you pull open the curtain, the people outside might see us, it's not safe."

Rong Suyan's pretty face changed slightly at once and she asked cautiously, "Young Ji, what's happening?"

"Nothing, someone was following us, but they were pulled out by the white spider." Ji Feng pointed his other hand outside and said indifferently, "Look, this time, that guy shouldn't be able to get away."

Rong Suyan was instantly startled, she hurriedly stood up slightly, padded her arms on the table and reached her head to look through the gap in the curtains. The sunlight outside was a little blinding and Rong Suyan didn't see anything special for a while.

"Look at that big tree by the road in front of the Olympic Park, the white spider is standing there." Seeing Rong Suyan's somewhat bewildered eyes, Ji Feng couldn't help but laugh.

Rong Suyan immediately looked in the direction Ji Feng said, and soon, she was stunned to find that under that tree, White Spider was standing in a pavilion, and the sunshade she was holding was closed, while she herself was standing there motionless, just like a statue.

"Young Ji, is Miss Bai here ....." Rong Suyan was a little stunned.

The white spider was standing alone under the big tree, so close to the road, vehicles passing back and forth would splash a dust from time to time, and it also brought over a wave of heat, in this hot summer day, that was not a good place, what was she doing standing there?

“You look further up the tree!” Ji Feng said.

Rong Suyan’s gaze immediately moved upwards, and in a flash, she covered her mouth for a moment, but she still couldn’t help but let out a cry of surprise.

“Ah! Miss Bai she, how did she .....

On the branches of that large tree by the roadside, there was actually a person squatting!

The trees in this city are generally not very tall, such as this roadside French sycamore, it was artificially pruned not very high, but the canopy is very luxuriant, if you do not look carefully, really can not see that this tree will squat a person!

“See? It’s this guy who’s following us.” Ji Feng said, “Su Yan, to be on the safe side, you must be extra careful in these few days before you leave Yuezhou.”

Rong Suyan asked in shock, “Young Ji, do you mean to say that this person is coming for me?”

Her face turned a little ugly, according to Ji Feng, this guy had followed himself and the others over, which meant that this guy wasn’t just staring at her temporarily, but had a premeditated plan to do something to her .....

If that was the case, then she had more or less a clue in her mind as to who had actually sent this guy.

Except for Zheng Yuxiu and the Wu family, no one would do this!

The company’s main business is to provide a wide range of products and services to the public.

“In the end, it’s still hard to say who is coming.” The first thing you can be sure of is that he should be a bit hostile to me, so maybe he’s coming for me. Of course, it’s better for you guys to be careful, after all, it’s better to be careful, don’t get into trouble when you’re about to leave!”

Rong Suyan nodded, but her face was still very ugly, because she had already concluded that the guy was definitely targeting herself, Ji Feng had just arrived in Yuezhou for less than a day, who could he have offended?

Even if Zheng Yuxiu saw Ji Feng at Rongpeng Group today and then sent someone to retaliate, then she would be harming Ji Feng and bringing the Rong family along with her.

The reason is simple, once Ji Feng had an incident at the Rong family and it was because of the Rong family, when the time came, their Rong family would definitely not be able to get away with it. With Ji Feng’s status and position, I’m afraid that after his accident, powerful reprisals from all sides will immediately follow, and will instantly destroy the Rong family to the point of no residue left!

Therefore, even if this guy was sent by Zheng Yuxiu, then she is still deserving of punishment!

However, Ji Feng didn’t think so, in his opinion, this guy crouching in the tree at this moment was most likely coming for him. Because when he was near the cafe, he could obviously feel some coldness at his back, which means that the other party was looking at him, not Rong Suyan .....

However, Ji Feng was unaware that the person crouching in the tree at this time was not actually the one who was staring at him earlier, but the one who really had malice towards him was the one who had a problem with him, Tension Qin!

Of course, this guy crouching in the tree now also had malice towards Ji Feng, so he didn’t guess wrong.

I don’t know if Rong Suyan was too lucky, originally the other party only came for Rong Suyan, but now, by mistake, even Ji Feng was implicated, becoming a common trouble for both of them. In this way, Rong Suyan’s pressure was much less, while her safety, however, was much improved.

“Young Ji, then Miss Bai is standing there alone, will she be in danger?” Rong Suyan couldn’t help but ask with some concern.

But Ji Feng waved his hand with a smile and said, "It shouldn't be, didn't I tell you before when I introduced you guys, White Spider is my bodyguard, if you don't have two skills, you can't be a bodyguard!"

Only then did Rong Suyan understand and nodded slightly, but she was still a little apprehensive in her heart. No matter how powerful the white spider was, she was still a girl, but the guy in the tree looked like a stout man. Although Rong Suyan could not see clearly because he was crouching in the tree and was too far away, she could deduce from common sense alone.

A girl who knew kung fu was up against a man who was extremely vicious, and it was hard to say who would win or lose!

During the moment when they were talking, the white spider under the tree outside didn't move, while the man crouching in the tree also didn't move at all, the two of them just quietly confronted each other, no one took the lead, but Ji Feng could clearly see their expressions.

—Like an enemy!

This was a feeling that Ji Feng saw on their faces, and he immediately frowned and cackled in his heart that he had misjudged!

Given the current situation, it was obvious that the White Spider had met an opponent, and a very strong one at that!

At the very least, the White Spider definitely did not have a certainty of victory.

Otherwise, she definitely wouldn't have stayed standing there and not made a move.

Ji Feng's frown tightened, this person who was spying on him was actually so strong that he made the White Spider feel this kind of tension and gravity like an enemy, which was something he hadn't thought of before. Now it seemed that the White Spider might not be able to hold this guy!

His gaze fell back on the guy crouching in the tree, a guy with a sturdy body and a huge physique. Even if he was squatting, Ji Feng could still see his sturdy body and the high bulging muscles on his exposed arms, which contained great explosive power!

If we simply counted on this physique, this man should also be a master. In a real fight to the death, any one of the three – skill, experience and strength – could be fatal.

But to be able to make the white spider so cautious, Ji Feng still gave this guy a rating of an expert.

It was really because, Ji Feng was a bit far away from there, so he couldn't draw an accurate conclusion, nor was it good to judge the guy's strength.

"Go! Go over and take a look!" Ji Feng no longer waited, he directly took out a few notes from his wallet and put them on the table, took Rong Suyan's hand and walked out in big steps.

Once that guy's strength was really much higher than the white spider, then the white spider might be in danger. Ji Feng did not want White Spider to be lost here for no reason, otherwise, not to mention how the two of them had gotten along for a few days and were considered half friends, just to mention White Spider's talent, losing her would be a huge loss for Ji Feng.

"Miss, the money is on the table!" Rong Suyan hurriedly shouted to the waiter, before being pulled by Ji Feng to quickly walk outside.

Just after leaving the cafe, Ji Feng's gaze immediately fixed on the sturdy man crouching in the tree, and to his slight relief, this guy also had a similarly stony face, perhaps because it was too stuffy in the canopy, making his face all a bit flushed, but he didn't dare to move a muscle, obviously, he didn't have a grasp on beating the white spider either!

#### Chapter 1073

Seeing that the white spider was confronting the stout guy in the tree, Ji Feng then put his heart down slightly, so he didn't rush to lean over, but took Rong Suyan with him and quietly crossed the road from the cafe entrance to the Olympic Park fence and slowly walked forward.

“Young Ji, should we call the police immediately?” Rong Suyan asked with some concern, at this time they were less than a hundred meters away from the white spider, at this time, Rong Suyan could already approximately see what the man in the tree looked like.

It was a very sturdy man, wearing a denim vest, and at first glance, he was a very stout and strong man. What’s more, the White Spider was standing under the tree without even raising her head. If that man suddenly jumped down from the tree and attacked the White Spider, then she would definitely be defenseless and might fall into the man’s hands at once.

Even if the man wasn’t powerful, but he just jumped down and hit the white spider’s body, with his body, it would still be enough to hurt the white spider!

“What’s the use of calling the police? When the sirens go off, they immediately scare people away .....” Ji Feng shook his head and led Rong Suyan quickly to the front, “Let’s go over, capture him and ask him about his identity and purpose.”

“That’s good .....” Rong Suyan nodded, she was only slightly relieved, two more people going over that is always safer, especially Ji Feng is also considered tall and big, when the time comes, once the fight really starts, with him helping the white spider, that bad guy can’t take much advantage. The fact is, Ji Feng’s body is not that big.

In fact, Ji Feng’s figure is not too sturdy, it’s just the kind of person who is tall and seems to have a relatively regular figure, in fact, if you look at it from the outside, Ji Feng’s body really doesn’t have many muscles, so in Rong Suyan’s subconscious opinion, it should be Ji Feng helping the white spider, not the white spider helping Ji Feng .....

“Ee?” Rong Suyan suddenly exclaimed, “Young Ji, they’re fighting!”

“I saw it!” Ji Feng said indifferently.

In the front, the guy crouching in the tree finally couldn’t hold back a bit and suddenly jumped down from the high tree and directly kicked the White Spider’s chest from top to bottom, the kick was extremely harsh and powerful!

But when Ji Feng saw this scene, he only smiled faintly, this time, the white spider had an advantageous position.

Originally, there was a standoff between the two of them, that was because they both felt the other's strength and neither felt sure of winning against the other, that's why neither of them moved. However, now it was different. The stout guy's move proved that he had no confidence and was equally impatient.

The white spider had been an assassin, and patience was the last thing he lacked, and when comparing the two, the difference between the two was obvious, especially when the two were about the same strength, the slightest difference was especially important.

Hoo~~!

The white spider only took a step back, while the sunshade in her hand was thrown out violently towards the man, directly blocking his line of sight.

The man was still in mid-air and had no way to shift his position at this point, so he could only reach out and knock the parasol away. However, in this short moment of time, the white spider caught on sharply. She grabbed the sturdy man's ankle and brought it forward.

The next moment, White Spider's entire body actually flipped upside down in an instant, with her hands on the ground and her two feet upwards, her entire body stood completely upside down. At the same time, with her two feet, she viciously kicked the stout man in the waist, instantly sending him flying!

"Ugh!" A muffled sound came out of the man's mouth. The strength of the White Spider's kick was not small, but the man was caught by the ankle of the White Spider and thrown away at that moment.

At the same time, the man was sent flying by the White Spider's kick, and then fell to the ground.

Bang~~!

The man fell to the ground in a very wretched position and couldn't help but let out another muffled cry, but he quickly rolled over and put up a horse stance, standing firmly, but the expression on his face was not too relaxed, obviously the kick from the White Spider just now had made him feel very bad.

However, the white spider did not give him a chance to catch his breath, just as he landed, the white spider had already attacked, those two long and slender legs, but at this time, they were incomparably harsh, simply more flexible than human hands, hit the strong man was overwhelmed.

But Ji Feng was frowning as he watched, although that strong man was busy with his hands and feet, but, except for the first time when White Spider kicked him and made him suffer, this intensive attack later on did not cause any damage to this strong man, this guy's resistance to hitting was very unusual.

"We can't wait any longer!" Ji Feng secretly said, the white spider couldn't trap that guy at all, if he waited any longer like this, that guy would probably run away.

He immediately pulled Rong Suyan and quickly rushed over.

"Bang~~!"

The white spider kicked the strong man in the chest again, but the latter's hands shielded his chest, taking off a lot of the force of the kick, but he still stomped back a few steps and reached the middle of the road at once.

At that moment, a car drove by and Rong Suyan let out a cry of surprise and subconsciously covered her mouth.

However, the strong man was not hit by the car; instead, he jumped up and landed on the roof of the car with a flourish of his feet, just as far away as he could.

The white spider immediately went over the guardrail and was about to chase after him.

"White spider, don't chase after it!" Ji Feng immediately shouted, and only then did White Spider stop, slightly out of breath, and came to Ji Feng, saying apologetically, "Young Ji, I'm sorry, I didn't catch him!"

Ji Feng smiled and waved his hand, "It's alright, it's already great that you were able to find him, this man is not simple and it's not that easy to catch him. By the way, you weren't hurt, were you?"

The white spider shook her head slightly and said, "I'm fine, but that man's power is a bit surprising, it's almost like ....."

"Just like what?" Ji Feng asked.

"Just like ..... just like the two people you and Captain Xiang captured back, extremely strong!" White Spider said.

Transformed people!

Ji Feng immediately understood that what he and Xiang Yongzhan had captured were not those two advanced reformers!

"Are you sure that guy is the same as the one I caught before?" Ji Feng asked with a frown. That guy just now, could he be a Transformer?

Ji Feng had just observed the fight between the white spider and that guy, he didn't find that guy had any characteristics of a reformer, just the one characteristic of great strength, it was not at all certain that he was a reformer, there were many people with great strength in this world, there were even people born with divine strength!

Besides, that guy was covered in lumpy muscles, he must be very powerful.

"Young Ji, I can't be sure, but this man's strength is simply too great, much stronger even than the warriors of the Terra Battle Brigade, so I suspect that ....." said the white spider hesitantly.

"Let's put this matter down first and wait until we get back." Ji Feng looked around and found that quite a few people had gathered nearby to watch, so he said.

“I’ll go get a taxi!” White Spider immediately nodded her head.

The three of them then left the Olympic Park quickly in a taxi, in the middle of which they made one more transfer and finally arrived at the hotel that Ji Feng had booked.

On the way back, Rong Suyan was a bit shocked, and she, who was originally cheerful, didn’t even talk much.

It was only when she got back to the hotel that Rong Suyan asked with some trepidation, “Young Ji, what exactly was the origin of that guy just now? I heard you and Miss Bai conversing, you seem to know?”

“We’re just guessing too, it’s too early to tell.” Ji Feng laughed, while gesturing for Rong Suyan to sit down, telling her to steady her mind.

Rong Suyan then got worried: “I can’t imagine that person is actually so powerful, not only is he scary fast, but he can actually jump onto a fast driving car, if he is targeting our family ..... my goodness, just with those bodyguards of our family, how can we cope oh .....”

“Young Ji!”

Rong Suyan suddenly looked at Ji Feng, “I have a request, it may be a bit presumptuous, I wonder if Ji Shao can agree?”

“Say it and listen.” Ji Feng smiled.

“Ji young, if that person before was coming for our family, then when the time comes, our family’s bodyguards definitely won’t be able to stop it, and Miss Bai is so powerful .....,” Rong Suyan said with some hesitation, “I was just thinking, is it could ask young Ji and Miss Bai to stay at my house?”

“Stay at your house?” Ji Feng was slightly stunned.

“Yes, we won’t be staying in Yuezhou for too long anyway, just a few days at most, and the guest room at my house is perfectly adequate .....” Rong Suyan looked at Ji Feng with some expectation.

The strong man just now really scared her, especially when she remembered how cold and vicious Wu Zhiyong was, and how ruthless Zheng Yuxiu was, Rong Suyan became even more worried, if that person was really sent by the Wu family or Zheng Yuxiu, then the Rong family would really be in danger, Rong Suyan could only pin her hopes on Ji Feng and the white spider.

At least, she had seen the performance of the white spider just now, which gave Rong Suyan a glimmer of hope.

Ji Feng deliberated before saying, “Then how about this, Suyan, you don’t need to be afraid, I’ll let the white spider accompany you back.”

“What about you?” Rong Suyan asked.

“You won’t need to worry about me.” Ji Feng waved his hand and smiled.

“That won’t do!” Rong Suyan immediately said, “Young Ji, your safety is just as important!”

Ji Feng shook his head and said, “It’s settled, no need to say anything more.”

“This .....” Rong Suyan couldn’t help but shake her head and wanted to say something else before being interrupted by Ji Feng: “Suyan, actually you don’t need to worry, if that person is coming for you guys, it’s safer for me to stay here instead, if it is directed at me, then if I go to your house, I might have dragged you guys into it .....”

#### Chapter 1074

In the end, it was Ji Feng who made the decision to let White Spider follow Rong Suyan to the Rong family, while he himself stayed in the hotel, with both sides moving separately. The reason he did this was because he did not want to involve the Rong family.

Because from the very beginning, Ji Feng already knew that the other party, even if they were not coming for him, definitely had full hostility towards him, which he already felt very clearly.

And before that, the white spider said that she felt that the guy she had fought with was somewhat like a reformer.

Then, Ji Feng was almost certain that that guy was coming for himself.

Of course there were other possibilities as well, but those were extremely unlikely and almost negligible. However, just in case, Ji Feng still let the white spider go with Rong Suyan, so that if he was wrong and the other party really came for the Rong family, with the white spider around, the Rong family wouldn't be able to say that they didn't have the slightest resistance!

But in fact, Ji Feng has already decided that this is someone who intends to make a move on himself .....

The fact is that the other side is really after the Rong family, and that is why he made such a judgment.

In fact, the other party really came for the Rong family, as for the kind of hostility that Ji Feng felt, it was actually just one of the guys, who happened to have a problem with him, and he happened to be with Rong Suyan, all these coincidences combined together, and as a result made Ji Feng's judgment extremely biased.

And Ji Feng didn't know the inner workings of this, which is why he had to stay alone and wait for the other side to arrive, while also leaving a backhand to let the white spider go and protect the Rong family's people .....

"Young Ji, I really don't know what to say, thank you!" Seeing that the decision made by Ji Feng was irrevocable, Rong Suyan said no more, only that her heart was very grateful. In her opinion, these people were coming for her, and to say that they were coming for Ji Feng would not make sense.

But Ji Feng did not care and sent the white spider to his side, so that she could protect herself and her family. What's more, in order not to cause too much of a burden to the white spider, Ji Feng actually had to stay here alone .....

If he knew, I'm afraid he could only shake his head and laugh bitterly, the so-called world coincidence is just like that.

The lunch was served directly by the waiter in the hotel, but not even half an hour after eating, Ji Feng noticed that Rong Suyan was more or less sleepy, and her upper and lower eyelids were fighting all the time.

"Tired?" Ji Feng asked with a smile.

Rong Suyan couldn't help but blush slightly and nod slightly embarrassed: "Maybe because I didn't rest well last night, I'm a little sleepy ....."

But this is not the case, Rong Suyan has always had the habit of napping, especially in such hot weather conditions, she would prefer to drink a glass of red wine and take a nap afterwards.

However, in front of Ji Feng she was embarrassed to say so explicitly, and did not know if this very petty lifestyle would make Ji Feng feel a bit that way ..... so she just made a haphazard excuse, and her hands were somewhat unnaturally gathered in her hair.

"Then go and rest for a while!"

Ji Feng smiled and pointed to one of the rooms, laughing, "White spider, you should rest too."

After saying that, he went straight to the other room, leaving only Rong Suyan, whose pretty face was slightly red, and Bai Spider, who looked bashful.

.....

"Transformer ....."

One of the rooms in the suite, Ji Feng half lying on the sofa, more or less frowning, a contemplative look in his eyes, "To say that the reformers appeared in Yuezhou, this is not strange, after all, the dynasty

also has many years of accumulation in China, so far there must still be remnants of people not caught, or, there may also be reformers sneaking in, this is all very normal. ”

Ji Feng sat up, lit a cigarette and took two quick puffs, “But, to say that this reformer can grasp his whereabouts at any time and anywhere, then the other party’s ability to obtain information is really terrifying.”

If that was the case, then one would really have no secrets left, people could find oneself whenever they wanted. What he had done, who he had contacted, where the people around him were and what he was doing ..... Ji Feng really didn’t dare to imagine how powerful the Dynasty’s intelligence network had become if his guesses came true.

What’s more, once Ji Feng’s guesses came true, it would mean that his kind of arcane perception of danger wouldn’t be working as it should. Or rather, Dynasty didn’t know what method he had used to fool his perception!

“Dynasty, has it really become this powerful?” Ji Feng couldn’t help but frown darkly.

How a person felt was not something that an outsider could control at all, if there was danger, then Ji Feng would feel it, unless the other party really didn’t have any malice at all.

“Could ..... this just be a coincidence?” Another possibility came to Ji Feng’s mind.

He thought back to the burly man who fought with the white spider today, and he always felt that the guy didn’t look like a reformer. At the time of seeing him, Ji Feng did not have any feeling of seeing a reformer at all.

How to say it .....

Whether it was a low-level reformer or a high-level reformer, Ji Feng would be able to recognize it at a glance whenever he saw one.

It's like, the Chinese and the Boundary Tent are both Asians, and they are two countries that look extremely similar within the Asians, of course, it is said that the Boundary Tent is still the offspring of the Chinese who went overseas back then and the local natives, and it is also said that they are the offspring of 500 virgin boys and girls .....

But in any case, it is an indisputable fact that the Chinese and the Kaitopans are very similar in terms of looks.

However, if a Chinese and a Kaitou stand together, both wearing the same clothes, and both of them are about the same age and height and so on in all aspects, and then a random Chinese is asked to identify them, they will definitely recognize at once which one is a Chinese and which one is a Kaitou.

This is a feeling and a conclusion based on the subtle differences between the Chinese and the Canopy people.

Ji Feng, likewise, was able to distinguish between ordinary people and reformed people at a glance based on this difference.

Therefore, in his opinion, this guy he met today should not be a reformer. He did feel that the aura on that guy's body was something he had seen before .....

"That's right!"

Ji Feng's eyes suddenly lit up and he fiercely exhaled a mouthful of smoke, he finally remembered why that guy gave him such a familiar feeling, that feeling, very similar to a person he had seen once.

That person was the tough fighter from the Xingtai Hotel in Jiangzhou. At that time, he and Shen Jingyi had a brief encounter, and both sides seemed to recognise each other's origins.

And this guy he saw today fighting with the white spider was that kind of feeling.

Brawny, with a sense of power, and not just that pure physical` strength, his moves, that sharpness when fighting, compared to that fighter from Xingtai Hotel, all had a similar kind of feel to them!

“In that case, that guy today, is actually a martial artist too?” Ji Feng was smoking a cigarette, and his heart became somewhat curious, since his rise to power, the only martial artist he had dealt with was someone from the Xuan Yin Sect, other than that, there was no one else.

But today, there was a martial arts expert who was inexplicably hostile to him, which was somewhat evil.

“Who could it be?” Ji Feng extinguished his cigarette and rubbed his hands, “No matter what his origin is, as long as he dares to come, then don’t even think about leaving!”

.....

In the afternoon, Rong Suyan, who had taken a nap, woke up in much better spirits, and she first called her family, telling them about the situation she had encountered and urging her mother and others to be careful. And then, she called her father, Rong Peng, and told him what had happened to her and her speculations.

“Bastard!”

When Rong Peng heard this, he burst out in anger, “I have long since learned how ruthless some people can be. Whether this matter was done by the Martial Family or the Zheng Family, they were a little too sexual! Hmph, originally I was planning to take away only a portion of the management staff, but now ..... well, since they are so desperate and have to have my Rong family broken before they are willing to do so, then I have nothing more to say!”

“Dad, what are you going to do?” Rong Suyan couldn’t help but ask in shock.

“Do what? If they can do the first day, then I can do the 15th!” Rong Peng sneered, “I will not only take away the management staff, but all the laboratories under the Rong Peng Group, the senior technicians, I will take them all away!”

“Ah?!” Rong Suyan was stunned.

“I’m having a meeting with the middle and senior management, you and Ji Shao should both be careful, remember to come home tonight, we’ll discuss these matters then .....” After saying that, Rong Peng directly hung up the phone.

Obviously, the bad and underhanded behavior of certain people was thoroughly enraging Rong Peng, and this time, he was planning to show his power to certain people.

When Rong Suyan talked to Ji Feng, she couldn’t help but smile bitterly: “..... Under the Rong Peng Group, there are ten advanced laboratories alone, among them medicine, physics and other laboratories, all built according to the most advanced level in China, and the talents are all at the top of their game, my father is preparing to screw up the group, even his own that one-fifth of the shares!”

Ji Feng laughed: “Don’t worry, Uncle Rong will definitely have a sense of proportion, moreover, since he has decided to destroy the Rongpeng Group, naturally he can’t be soft! Besides, taking away the lab technicians and some equipment won’t have much impact on Rong Peng Group in the short term, but in the long term, it’s a good move!”

Rong Suyan nodded and sighed softly, “I just hope my father’s anger won’t be too strong, and that he must keep his measure .....”

#### Chapter 1075

Taking away the lab technicians, as well as some lab equipment, this move by Rongpeng is really ruthless.

In the short term, the Rongpeng Group is still a huge corporation, untouchable, with or without the lab, not to mention the technicians who only know how to stay in the lab and do research.

But if you look at the long-term development, that kind of view is extremely stupid.

A company, especially one in business, without the best technology to back it up, will eventually be lost to the world and will have no future.

Any product, no matter what it is, has to have a popular selling point. But if you are not ahead of other companies in the same industry in terms of technology, then you will face fierce competition from other companies, and when everyone is in the same position, Rongpeng Group’s supremacy will not exist.

Just having a huge amount of money is also lame.

So Ji Feng could see from this point how sharp Rong Peng’s vision was in business, this man, who could see the most essential things at a glance, and when he applied this ability to business, he achieved the glory of the Rong Peng Group.

And later, he will apply this extraordinary vision to the confrontation with the Wu family, which is definitely a very rare and great help for Ji Feng, and for the Wu family, they will have one more sharp-eyed and smart-witted enemy!

But the more this happens, the more Ji Feng also positions himself against him. This was a matter that would need to be weighed slowly only after he returned to Jiangzhou.

When the time came in the evening, Rong Suyan received a call from her father, Rong Peng, saying that the meeting had finished and that she should take Ji Feng and the white spider and go home for dinner together.

Ji Feng originally did not intend to go out with them, because if someone was really watching him outside, once he went out with Rong Suyan, even she would be watched together.

However, after consideration, he nodded his head and agreed, which made Rong Suyan very happy.

Only, Ji Feng still did not go out with Rong Suyan, but one after the other. He let Rong Suyan and White Spider walk in front, while he lagged behind by about 20 to 30 meters, just following behind the two of them, but acting without the slightest trace, so that people who didn't know each other wouldn't know that the three of them actually knew each other!

After the three of them left the hotel, they took two taxis, one in front of the other, and rushed towards Rong Suyan's home.

While sitting in the taxi, Ji Feng's gaze was constantly surveying the surroundings, especially for the vehicles and pedestrians around the hotel.

"Master, follow that car in front, but don't follow it too closely." Ji Feng admonished.

The taxi driver replied back to Ji Feng in the local dialect, but what exactly he said, Ji Feng could only make out a rough idea, the driver seemed to be asking him if he was a police officer. Ji Feng could only understand this, and more was still unknown, so he just nodded his head and gave a hint.

The driver then gave him a strange look, but seeing Ji Feng's extraordinary bearing, the driver didn't say anything else, just stepped on the gas and quickly followed.

"Master driver, please keep an eye out to see if there are any vehicles following us at the back." Ji Feng said another sentence. Because the rear view mirror in the car was only for the driver driving to observe the outside environment, Ji Feng was sitting in the passenger seat and couldn't see the situation behind him clearly at all.

When he said this, the driver became even more strange, and gave him a rather wary look, as if he wanted to ask something, but opened his mouth, but in the end, he wanted to say something but stopped.

Ji Feng also treated it as if he didn't see it, and just paid close attention to the situation in front and on both sides.

The car had been driving for about twenty minutes, but nothing had happened yet, and Ji Feng did not see anything different, nor did the taxi driver see any cars following behind him, so Ji Feng let out a faint sigh of relief. At least, it was possible to send Rong Suyan home safely.

Since it was his first time in Yuezhou, Ji Feng didn't know how far his hotel was from Rong Suyan's home, so he didn't care anyway as Rong Suyan and Bai Spider were leading the way in the taxi.

After another almost forty minutes, Ji Feng saw that there were fewer buildings on both sides of the road, becoming somewhat sparse, so he knew that he had come to a place near the suburbs.

Soon, a cluster of villas came into Ji Feng's sight, and the taxi that Rong Suyan and White Spider were in ahead of him had already started to slow down, so Ji Feng realised that Rong Suyan's home should be near here.

Rows of villas were soon left behind as the taxi entered the villa area, and Ji Feng's brow couldn't help but frown, he shouldn't follow them any further, otherwise, in case someone was really following them, they could easily be taken to Rong's house.

However, just at that moment, a black car suddenly caught Ji Feng's eye.

It was a black Buick with a Yuezhou number plate. At this moment, this car was driving past the main gate of the villa area, stopping at the entrance for a while before entering the villa area.

It was nothing special really, however, Ji Feng saw at a glance that the man sitting on the passenger seat was the one who had fought with the white spider this morning, although it was still some distance away and it was still in the evening, Ji Feng still saw it very clearly.

"Master, stop the car!" Ji Feng immediately shouted.

The driver gave him a look, then stopped the car and said something else, Ji Feng didn't care, he glanced at the meter, then quickly paid and got out.

Afterwards, Ji Feng stood at the side of the road and waited quietly for the black Buick to come over.

However, in the taxi that was leading the way, Rong Suyan was looking back from time to time, and she noticed it as soon as Ji Feng got out of the car. She then quickly paid to get out of the car as well and walked over with the white spider.

"Young Ji, there's still some distance to go before we reach home, why did you get off early?" Rong Suyan walked over quickly.

Ji Feng immediately frowned and waved his hand to the two of them without a trace, signalling them not to come over. If the person in that black Buick had a weapon in his hand, Ji Feng might not be able to protect their well-being.

However, the streetlights in the villa area weren't too bright either, so Rong Suyan and White Spider couldn't even see Ji Feng's movements clearly and were rapidly approaching.

"This is really ....." Ji Feng couldn't help but shake his head slightly, and then quickly walked towards Rong Suyan and the girls.

"Ji Shao, how do you advance ....."

"Don't say so much right now, you guys go home immediately, hurry up!" As he spoke, Ji Feng's sturdy body happened to block Rong Suyan and White Spider.

“Young Ji, is there a situation?” White Spider immediately realised that something was wrong, Ji Feng’s words were in a hurry, which was obviously not normal.

“There’s no situation, you guys go back first, I’ll go out and buy a pack of cigarettes .....” Ji Feng made a haphazard excuse.

Rong Suyan and Bai Spider looked at him with some suspicion, especially Bai Spider, who did not believe this excuse of Ji Feng, but she did not insist, but said, “Young Ji, you take care of yourself.”

And then, she pulled Rong Suyan away.

Ji Feng glanced at the black Buick sedan and found that the car had stopped not far from the entrance, so he let out a slight sigh of relief, swept a glance towards the surroundings, casually found a fork in the road, and then walked over in stride.

In his opinion, the people in the Buick must have come for him, so if he and the White Spider women did not take the same route, the car would definitely follow him, and only when the White Spider and Rong Suyan were safe could he let go and have a good time with the guys in the car.

“Boss, it’s that woman!” In the Buick, the burly man in the passenger seat stared at White Spider’s back and said, “This woman is very tricky, if we fight head-on alone, there’s no way I can win against her!”

“She’s that strong?” That skinny monkey boss was taken aback, “Lao Er, where’s that kid, how’s his kung fu?”

“I don’t know, I haven’t seen him fight.” Old Two shook his head, “But that woman beside Rong Suyan, you’ll have to have me and Old Three join forces to deal with her.”

“Well then, let’s follow her first and wait until the night is late and quiet before we strike.” The skinny monkey boss immediately said, “Old Two, Old Three, you two can deal with that woman and that kid, no problem, right?”

“As long as that kid isn’t as hard to handle as that woman, there won’t be any problem!” Second, who was sitting in the passenger seat, said.

“Don’t worry, I’ve dealt with that little bastard before, he’s only a bit taller and a bit stronger, no big deal!” Tension Qin, who was sitting in the back row, said, “Even if ten of him were tied up together, he wouldn’t be a match for you, Second Brother!”

“Then it’s no problem.” Lao Er said.

“Good, let’s follow, Lao San, drive.” Boss Slim Monkey said.

“Boss, that kid just now seems to have gone somewhere else, who should we follow?” Old Three, who was in charge of driving, asked.

“Of course we’re following the main target!” Boss Skinny Monkey said.

“Oh!”

Old Third nodded and immediately stepped on the accelerator and chased after Rong Suyan and the White Spider in the direction they had left.

Besides, Ji Feng, he walked along one of the forked roads for a while, but found that the Buick didn't follow, he couldn't help but raise his eyebrows, was this an attempt to cover up? Or was it trying to hide?

He was just about to go back and take a look when he saw that the black Buick drove past from the road, but was rushing off in the same direction that Rong Suyan and the girls had left.

"They are ..... coming for Rong Suyan?!" Ji Feng was stunned, his gaze fixed on the black Buick that drove by, but was shocked to find that in the back seat of that car, there was a very familiar-looking person sitting there.

It was the same Tension Chin that he had seen on the plane!

Ji Feng immediately recognised this guy, and he couldn't help but frown, how come there was still a share of this guy?

Afterwards, Ji Feng returned directly to the original road and followed the Buick from afar, he wanted to see what the people in this car were all about, how come there was still a feeling of mixed fish and dragons?

#### Chapter 1076

Although night had fallen, and also through the window glass, the car drove past a flash, Ji Feng could clearly see that there were four people sitting in that black Buick sedan, of which the one sitting in the passenger seat was the man who fought with the white spider today, and the one man in the back seat of the car was the one who was the one who was the tensely diligent in the plane with ill intentions towards the white spider!

The man who fought with the white spider in the morning, Ji Feng guessed that he should be a martial artist, because this guy had a very similar aura to the fighter Ji Feng had seen in the Xingtai Hotel in Jiangzhou back then.

Of course, it didn't mean that the two had the same moves or anything, what Ji Feng thought was the same was just their auras, at least from the moves they used, you could tell that they should both be martial artists, but definitely not from the same school!

As for that Tension Chin, naturally, there was no need to say more. Based on his behaviour on the plane and what Ji Feng had seen him carrying, it could be judged that this guy, was definitely a professional rogue.

And, Ji Feng could also be sure that he was also a professional hooligan who specifically targeted women!

Just by the fact that when he was on the plane, Tension Qin was waiting outside the bathroom door, and by looking at his movements, his look, one could tell that this guy was definitely not the first time he had done this kind of thing, he was just too natural, as if he was eating and dressing in a natural way.

That's why Ji Feng said that this guy was a professional hooligan.

A professional hooligan that people despise, and a martial artist that can even be considered a martial arts master, plus two people who still don't know what their origins are, four people in this car, it's really interesting!

If there is another thief and another crook, then they are really all five poisons!

Ji Feng was moving quickly at the edge of the flower garden by the roadside, keeping an even distance from the black Buick car in front of him. After turning a few corners, Ji Feng saw the taxi parked in front of the gate of a villa, Rong Suyan and White Spider had just gotten out and were walking towards the villa.

The Buick did not stop, but drove straight past and disappeared around the bend in front of it.

Ji Feng hesitated slightly for a moment and did not follow them, but turned around and entered the villa. Now that people were coming and going in the villa area, it wasn't too convenient to catch those few guys, so it was better to wait until they started to act.

"Young Ji!"

Seeing Ji Feng come in, a joyful look passed over Rong Suyan's pretty face, and then she asked warily, "Is it that Buick just now?"

Ji Feng nodded and said, "That's right, it's them."

Rong Suyan couldn't help but frown slightly and said angrily, "They are really deceitful, these people just keep staring at us, they must not be impromptu, someone must have sent them here."

"Don't worry, with me and White Spider around, no one will be alright." Ji Feng smiled and said comfortingly.

"Mm!"

Rong Suyan nodded and said, "Young Ji, come on in, my dad is home too!"

Ji Feng followed Rong Suyan into the villa's living room and saw Rong Peng sitting on the living room sofa, wearing glasses and holding a folder in his hand, looking at it carefully.

"Dad, Young Ji and Miss Bai are here." Rong Suyan first greeted Ji Feng and Bai Spider and sat down, then began to work on pouring water for the two of them.

"Uncle Rong!" Ji Feng greeted Rong Peng with a smile.

Only then did Rong Peng raise his head and asked straight to the point: "Little Feng is here, I heard from Suyan that you guys ran into trouble during the day?"

"It's a little trouble." Ji Feng nodded, "Now that they've entered the villa area, I'm afraid that the trouble will come again when it's late at night."

"Do you know what's coming?" Rong Peng frowned slightly, but did not look half panicked, he had fumbled around for most of his life, what kind of storms had he not seen? Even if someone were to put a knife to his neck right now, he would not be afraid.

You know, although Yuezhou is prosperous, it is also a mixed bag of fish and dragons, and if you want to rise here, then naturally you have to eat both black and white, so for these things, Rong Peng has been exposed to too much.

Ji Feng shook his head and said, "I don't know yet."

"Humph!"

Rong Peng couldn't help but sneer, "This person na, must not fall down, once you fall down, all kinds of cats and dogs dare to shit and piss on your head, many dog-like things in the past, now they all dare to be horizontal in front of you."

Ji Feng laughed: "Uncle Rong, why so much emotion? You're not really down and out now, are you?"

Rong Peng shook his head and laughed, and let out a long sigh: "I can't help but be emotional. In the past, when I first started my business, some hooligans knew I had some money and would often cough outside my house. But that was only the beginning, and in the past ten years or so, no one dared to mess around with me anymore. But look at it now ....."

"These people may not be here to ask for money!" Ji Feng said.

"Yes, in the past, the hooligans came over to ask for cigarettes and money, now, they want my life!" Rong Peng laughed coldly.

Ji Feng laughed, "They're not that capable yet."

"It's not that easy to want my life! Alright, let's not talk about that!" Rong Peng smiled and waved his hand, "Little Feng, today I called a meeting with all the middle and senior management and communicated with some important people ..... According to the preliminary statistics, I should be able to take away around two hundred people."

"Two hundred people?" Ji Feng was slightly stunned.

"Yes, this is only the employees in Southern Guangdong, there will be other branches' employees who will go to Jiangzhou one after another later, together, there should be around a thousand people." Rong Peng smiled, "In fact, there are still many employees who want to follow me, but after consideration, I still screened out some relatively more outstanding talents, the others, let them stay in Rong Peng Group."

"Uncle Rong, then these two hundred people .....", Ji Feng asked with a smile, "are they still at my disposal?"

The people personally selected by Rong Peng, that naturally need not be said, absolutely all are talents, if these people are filled into the Tengfei Group, will certainly make the Tengfei Group strength increased dramatically.

"Of course, but you can't pick them all, you have to leave me some of them, right?" Rong Peng said with a smile.

"That's natural." Ji Feng then smiled.

“In addition, there are also the technical staff under the Rong Peng Group, I have a detailed list here, you can take a look at it, but any talent you can use, you can bring it up, I will go and talk to them, if you can’t use it, you can also put it in your group first and reserve it, there is always a time when you need it in the future.”

Rong Peng smiled and handed over the folder in his hand, laughing: “Management personnel can still be trained, it just takes a good amount of time, but this technical staff can’t be trained in a day or two.”

Ji Feng nodded, took the folder and smiled, “Then I’ll deliberate in detail this evening and get back to you tomorrow.”

“Make haste, not counting today, we’ll only have two days left.” Rong Peng laughed, “After two days, I will no longer be the chairman of Rong Peng Group, by then, it can be a situation of internal and external problems.”

Ji Feng smiled and nodded, admiring in his heart.

Looking at Rong Peng’s face full of smiles, if he didn’t know, he would have thought that he was experiencing some happy event. But the truth was that now the Rong Peng Group, which he had created with his own hands, was going to be given away, which was his hard work for more than ten years. And just now, there are potential threats out there that are life-threatening without knowing when.

However, Rong Peng is still acting like nothing is wrong.

Not to mention how broad-minded Rong Peng is, just this openness and calmness alone makes Ji Feng admire.

If this were to happen to him, Ji Feng doesn’t think he would have such a calm mind, not to mention that Rong Peng is just an ordinary person, but outside he could be a vicious hooligan.

“But anyone who achieves great things will have advantages that ordinary people cannot!” Ji Feng couldn’t help but think of this saying, and at this moment, it really seemed to be true.

While eating dinner, Ji Feng met Rong Peng’s wife, that is, Rong Suyan’s mother. This was a very plain middle-aged woman, if you just looked at her dress, you couldn’t tell that she was the wife of a big boss.

However, what impressed Ji Feng the most was Rong’s mother’s appearance and honesty. Looking closely, Rong’s mother was seven or eight percent similar to Rong Suyan. However, when Rong’s mother spoke, she was very sincere and did not say much, so she looked like an honest woman who was not that fancy.

It is clear that Rong Suyan inherited her mother’s beauty and her father’s wisdom.

.....

The time passed quickly, and in the blink of an eye, it was late at night. At this time, it was already early in the morning, and the empty villa area had long been quiet, with an occasional bark or two, not knowing if it was the beloved dog kept by a rich man who had noticed any movement.

Under the dim streetlight in the villa area, several figures could be seen vaguely, gathered together, whispering something.

“Old Two, Old Three, remember, after entering the villa you must put the bodyguards down first, of course, if you can do so without alerting them that would be best, but if you can’t avoid it, you must strike first!” The skinny monkey boss was explaining, “You two must not separate, so that you won’t be attacked individually, you must know how to join forces, got it?”

“Yes!” Older two and older three, who were both very tall, nodded, “Don’t worry boss, we know what to do.”

“Well, to be on the safe side, Old Four also gave you all the ecstasy’s he brought with him, so if you can charm them with drugs, it’s best to use them, and then do it when necessary, and try to do it as unnoticeably as possible!” The skinny monkey boss said, “Old Four, you should also be careful, you are more resourceful, you should know how to improvise, know it?”

“Boss, don’t worry, I understand!” Zhang Liqin immediately nodded his head.

“After we finish this job, we brothers can go abroad and get away with it, we must be careful and also successful ..... go ahead, I will meet you outside.” The skinny monkey boss waved his hand and said in a low voice.

#### Chapter 1077

“Young Ji, do you want me to go outside and keep watch?”

Inside the Rong family villa, Ji Feng and White Spider were sitting on the sofa in the living room, quietly waiting.

Ji Feng shook his head and said, “No, we’ll just wait here, those people will definitely come to the door.”

“What if they leave?” White Spider asked.

“Go?”

Ji Feng couldn’t help but laugh, “They’re stalking and following, you think they might just leave?”

Bai Spider nodded thoughtfully and suddenly said, “Young Ji, I think it’s strange.”

“How so?” Ji Feng asked.

“On the way, we didn’t find anyone following us, so the other party didn’t tail us to the villa area, that means they knew the Rong family’s address from other sources, these people, they should be coming for the Rong family.” White Spider said, “But if that’s the case, then there are plenty of opportunities for them to strike, so why do they have to come to the house to do it?”

The people living in this villa area were all rich and famous, and the security work must be very well done, so if they did it here, the chance of being discovered was obviously much higher than outside.

If you take advantage of Rong Peng going out to socialize, or when you are going to and from work, it will definitely be much easier to do it, so why would these people want to sacrifice the easy for the difficult?

“Who knows!” Ji Feng lost his smile and said, “Maybe, they think it’s more secure to do it here, or they are brave, or else, they don’t have enough manpower, so they have to wait until everyone in the Rong

family has gone home, and then they come to a pot of ..... possibilities, but what exactly is going on, or we have to ask those Only then can we ask those people!”

The white spider nodded and smiled lightly.

Just then, the sound of light footsteps came from the stairway.

In the darkness, Rong Peng carefully walked down and asked in a low voice, “Young Ji, you and Miss Bai should go upstairs to rest, there are bodyguards guarding this guest room, and there are also bodyguards in the side room outside the door, as long as there is movement, they can definitely handle it.”

Ji Feng laughed, “I’m afraid those bodyguards of yours won’t be able to handle the people who are coming this time, Uncle Rong, just don’t worry about it, go up and rest.”

“I can’t sleep either!”

Rong Peng laughed in a low voice, “I’d like to see with my own eyes who really wants me dead.”

“Pop!”

Just then, a loud bang suddenly came from the courtyard, even Rong Peng, who had the worst ears among the three, heard it, so it was evident that the sound was not low.

Immediately afterwards, a rush of footsteps sounded, the door of the side room was opened and several figures rushed out quickly, these were the bodyguards of the Rong family. These few bodyguards were carrying torches and electric batons, searching around the courtyard.

“White Spider, you stay here and protect Uncle Rong, I’ll go out and take a look.” Ji Feng said.

“Little Feng, I don’t need ..... here,” Rong Peng had just opened his mouth to speak when he was suddenly interrupted by a few muffled sounds, “Wha-! Well-!”

Ji Feng’s face instantly sank and he instantly rushed out. Just as those few muffled cries came just now, he heard the sound of bones breaking, so obviously, someone outside was injured, and not lightly at that.

What’s more, apart from these few muffled cries and the sound of bones breaking, there was no other sound. This meant that the one who was injured must be Rong Peng’s bodyguards, if it was an infiltrator who was injured, he would definitely let out a scream and those bodyguards would also have a drink .....

“Bang Bang Bang!”

A fluttering sound came, as if someone had been dropped hard on the ground.

Ji Feng instantly opened the door to the living room and immediately saw that there were several people lying motionless on the ground in the courtyard, and Ji Feng clearly saw that the chests of these people, were deeply sunken, and it was obvious that their sternum had been shattered.

One of them was also a man whose neck clearly showed an abnormal twist, his neck, had been broken! Those few bodyguards on the ground, all of them had actually been killed!

All of a sudden, a burning anger rose up in Ji Feng's heart, and even his hands and feet were a little cold.

These people, they really wanted to wipe out the Rong family, didn't they?

But even so, they killed without even asking if they were killing the Rong family, which was too cruel and simply not half human!

Just before dinner, Ji Feng had seen these bodyguards, and at that time they were still alive and well, and were doing their best to protect Rong Peng and the Rong family. But now, only a few hours had passed, and they had already turned into corpses lying on the cold ground .....

"White spider, block the doorway, don't let anyone in!" Ji Feng roared angrily, at the same time, he instantly rushed out and stood at the bottom of the steps at the entrance to the living room, coldly looking at the murderer who had already disappeared into the darkness, his gaze swept around the courtyard and saw no one.

"Hoo~~!"

Ji Feng immediately ran to the side of those few bodyguards, checking their injuries, while drinking, "Uncle Rong, come to my side, White Spider, you go upstairs, when you see suspicious characters ..... kill them all!"

The white spider's heart suddenly flinched, even when he was escaping outwards on the desert island, Ji Feng had never given such a ruthless order!

Obviously, Ji Feng had become furious to the extreme.

White Spider whirled and shouted, "Yes!"

At this time, Rong Peng had also run to Ji Feng's side and asked in a low voice, "Little Feng, what is going on? Do you want me to turn on the torch?"

Rong Peng also realized that they were under attack, so he didn't dare to turn on the flashlight when he came, just because he was afraid of exposing his and Ji Feng's exact position, when he was attacked that was no big deal, at most it would be a death, but he couldn't drag Ji Feng down with him.

"Turn it on, it doesn't matter!" Ji Feng said in a deep voice, "Uncle Rong, these few bodyguards of yours ..... are all hopeless, I'm afraid."

"What?!" Rong Peng was instantly shocked.

"They were all hit with a deadly blow to the fatal part, and now their vitality has basically disappeared, they ..... died on the spot!" Ji Feng let out a light sigh, "I checked, there should be no hope of saving them."

He had just checked the situation of several bodyguards and found that they had all suffered fatal attacks, even if they were given bio-currents now, there was no chance of survival, it was obvious that the ones who had attacked and killed them must have been experts, all of them had been deadly, vicious and extremely fast!

Rong Peng couldn't help but shake his hand at once, he hurriedly turned on his torch and shone it on the few bodyguards lying on the ground. Only then did he realize that several of his closest bodyguards had been beaten beyond recognition at this point, some with deeply sunken chests and some with necks that actually had the feeling of being folded.

One of them, in particular, had a broken hand, and the ghastly white bones had actually pierced through the flesh and pushed out.

"Bastards! All of them are beasts!" Rong Peng roared in anger, his body trembling with rage, "You beasts, if you have any means to come at me, why do you have to do such a poisonous thing to others!"

Ji Feng stood up, patted his shoulder and said, "Uncle Rong, don't feel too bad, I will make all these brutes kneel before you and let you do with them!"

"..... beasts!" Rong Peng just cursed angrily and turned his head to look around, but found no trace of those murderers.

"Go in first." Ji Feng said.

Since the opponents had come but were not in the courtyard, they must be waiting for an opportunity to enter the villa, so the most dangerous ones now should be Rong Suyan and Rong's mother who were living upstairs.

Rong Peng snorted coldly with hatred and slapped his thigh in annoyance before he turned around and followed Ji Feng into the living room.

"Uncle Rong, you have a backyard here, right?" Ji Feng asked.

"Bang!"

Just at this moment, there was a sudden movement from upstairs, and Rong Suyan's face suddenly changed, "They're upstairs?"

Before his words could fall, he suddenly felt his body lighten, and in the blink of an eye, his entire body had gone up the stairs to the first floor!

The next moment, Rong Peng saw that, in the darkness, there were several figures fighting fiercely, dodging and moving around, with thumping sounds coming from time to time.

"You beasts!" Rong Peng cursed angrily and casually smashed the torch over, but was caught by Ji Feng, and then suddenly threw it over again.

"Bang~~!"

A crunching sound came, and all of a sudden, a miserable scream suddenly sounded out.

Pop!

The lights in the living room on the first floor were turned on, and all of them were instantly lit up, and everyone was startled by the blinding light and jerked back two steps, creating a confrontation.

It was not until this time that Rong Peng could see the situation in front of him.

The white spider was standing by the wall, holding a short dagger in her hand, a stern look shooting out of her beautiful eyes, staring warily at the two men opposite her, her body steaming with killing intent. Perhaps her face was a little red from the fierce fight she had just had, and her hair was slightly dishevelled, but her strong murderous intent was unmistakable!

Opposite the white spider, there stood two tall men, one of them, the same strong man who had fought with the white spider in the morning. The other man, whom Ji Feng also recognized at a glance, was the driver of the Buick!

But no one noticed that in the bedroom behind these two burly men, the door had been opened and a man was lying on the floor, his body twitching a little.

“Second Brother, what should we do, the point is a bit solid .....”

“Let’s join forces and finish her off!”

The two men exchanged quick words before simultaneously letting out a low bellow and lunging violently towards the white spider.

“Kill!”

Seeing this, White Spider was not the least bit afraid, her eyes flashed with a stern look, then she shouted, her athletic body showing off.

The dagger in her hand was extremely sharp and her attacking stance was so severe that the two men, who originally had the advantage over her, had to be afraid and their attacks were not as severe.

Ji Feng’s hand was taken off the light switch on the wall, and as if he did not see that the white spider was fighting furiously with those two men, he came to Rong Peng and patted him on the shoulder.

“Uncle Rong, you can wait in the bedroom first.”

“Go to the bedroom?”

Rong Peng was suddenly slightly stunned, and looked again at the two guys who were fighting fiercely with the white spider, “What about them?”

“They ..... they’re about to become dead.” Ji Feng smiled, only that smile was a bit cold.

## Chapter 1078

Indeed, Ji Feng already saw these two guys as dead people.

Not to mention, they did not ask for a reason, nor did they distinguish the reason, they came up and killed all of Rong Peng’s bodyguards, this alone was enough to make Ji Feng move to kill.

After all, this society is not all bright side, on the opposite side of white, there is black, and between black and white, there is grey!

But there should be rules for everything!

Like these two bastards, this kind of cruel way of acting, this was what Ji Feng could not tolerate.

Such people, must be killed!

Besides, Rong Peng, who was sticking to the wall, avoiding the fighting white spiders and those two bastards, quickly arrived at the bedroom and was stunned to find that on the floor in front of the bed, there was actually a man on the floor, moaning in a low voice, appearing to be in pain.

Rong Peng was instantly shocked and exclaimed, "Su Yan?! Is that you?"

"Dad, I'm here with Mum!" The wardrobe in the room suddenly opened and Rong Suyan and her mother came out of it, "Dad, this man is a bad man, he just burst in ....."

Snap!

Rong Peng hurriedly turned on the light and instantly found that Rong Suyan's mother and daughter were standing in front of the wardrobe with frightened faces, looking at the man on the floor.

It was a man wearing a flowery shirt, he seemed to be injured, quite a lot of blood was dripping from the floor, and he himself was holding his head and rolling around from time to time groaning in pain.

"Are you all right?" Rong Peng hurried to his wife and daughter and asked worriedly.

"Dad, we're fine, just now we heard a rattle in the lock of the door and rushed to hide in the wardrobe, then we saw this guy knocking on the door and walking in." Perhaps because she was too nervous, Rong Suyan spoke quickly, "But I don't know what happened, this guy just walked to the bed and suddenly fell to the floor with a miserable scream ....."

"Bastard!" Rong Peng cursed angrily, and his gaze inadvertently fell back on a small bottle next to the man, with a white handkerchief beside it.

He hesitated for a moment, but still picked it up .....

Bang Bang Bang Bang .....

In the living room on the first floor, the white spider and the two burly men were still fighting furiously. Frankly speaking, those two guys were very strong when they joined forces, and if the white spider was only empty-handed, he would definitely not be a match for the two of them, because both in terms of strength and in terms of moves, the white spider was somewhat inferior compared to them.

However, the White Spider had two advantages.

The first is that she is slightly faster, and as a woman, she is very soft and can easily perform many moves that ordinary people cannot do, which allows her to strike some unexpected attacks, which makes those two guys not dare to take them lightly.

The second advantage is the dagger in White Spider's hand. This dagger may look ordinary, but in the hands of the White Spider, it is a sharp weapon that can take a person's life, so sharp that the slightest touch will result in a broken bone.

It was for these reasons that the two guys were unable to defeat the white spider despite having the advantage.

Ji Feng stood by the side and just watched quietly. However, his eyes were incomparably stern, and a murderous intent kept flashing past.

At the same time, his heart was somewhat amazed. Looking at these two guys' stances, they were very coherent, one after the other, with a very natural and smooth connection in between. It was obvious that they were fighting a set of punches, a set of kung fu, which was very different from free combat and the like.

This meant that these two were definitely from some martial arts family, or some sect, or at least they had a master martial artist.

Now Ji Feng could already be sure that these two guys, should have nothing to do with the dynasty, moreover, they should also be coming for the Rong family.

With these guesses in his mind, Ji Feng didn't intend to watch any further as he jerked forward a step.

"Bang!"

Just at this moment, a loud sound suddenly came from the bedroom in front of him, followed by a harsh and miserable scream that suddenly came out.

"Ah...!"

The man screamed wretchedly, "Second brother, third brother, hurry up and save me!"

"How dare you scream?!" Rong Peng's angry bellow came, "I told you to scream and save your life, today I want your life!"

All of a sudden, the thumping sound of blows rang out continuously, accompanied by a burst of miserable screams, the person being beaten was obviously miserable.

Hearing this cry for help, the two guys who were fighting with the white spider looked at each other and simultaneously shouted, "Strike the ultimate move, kill!"

"White Spider, back off!" Ji Feng bellowed.

When White Spider heard this, the dagger in his hand slashed across, forcing the two guys to hurriedly take two steps back.

Taking advantage of this opportunity, White Spider broke away from contact with them and held the dagger across her chest, looking at the two men warily. Because of the fierce fight just now, she was slightly out of breath and her face was a little red, but her eyes were as stern as ever.

Snap!

Ji Feng took a step forward, and instantly, those two guys inexplicably felt a kind of palpitation, their hearts jumped wildly, and they subconsciously took two steps back, looking at Ji Feng warily.

The two could not help but glance at each other, but both saw the kind of shock in each other's eyes, this young man in front of them, who looked plain and unexceptional, actually gave them a kind of inexplicable pressure, as if they were facing a supreme expert seemingly .....

“You, who are you?” One of the strong men asked out loud.

Ji Feng gave him a cold look and said in a deep voice: “To be able to dent the chests of the Rong family’s bodyguards, you are very impressive, good kung fu!”

He had checked out those few bodyguards of the Rong Family before, especially since their chest bones were all broken and deeply dented in, that was obviously not something that could be done with ordinary strength, it was almost as if they had been hit head-on by a big truck coming at a rapid speed.

The impact of such a huge force is definitely not something that ordinary people can achieve, especially in the dark, and these two guys had to deal with several bodyguards in such a short time.

So, that was definitely a fatal blow!

But Ji Feng’s words were definitely not a compliment to them, these two bastards had already angered Ji Feng by laying a deadly blow on whoever they were dealing with!

“Who are you people and who sent you?” Ji Feng asked coldly.

“Humph!” Those two guys coldly snorted at the same time and had no intention of answering Ji Feng’s question, only that their eyes were all spinning, as if they were contemplating the situation in front of them.

“Since you guys don’t intend to say .....” Ji Feng couldn’t help but shake his head, “then I’ll just have to grab you guys and force you to say it.”

When those two heard that, their faces changed slightly, and they realized that the tricky part was not just the white spider, but the young man in front of them, who was not taken seriously by them, was afraid that he was even more tricky than the white spider.

But they didn’t give in, and one of the strong men couldn’t help but snort coldly, “Don’t you come and meddle, or else I’ll kill you too!”

“That’s right, all of you will die today!” Another man also said fiercely.

They forced themselves to calm down and were no longer influenced by Ji Feng.

In their opinion, they were afraid that Ji Feng was just bluffing, and even if this young man really had some kung fu, he would definitely not be a match for the two of them together! They had to know that the woman with a weapon in her hand just now was similarly forced back by them and was about to be taken down.

This young man, likewise, could not!

However, Ji Feng didn’t give these two guys any more time to think, as he suddenly launched himself with both feet, and his entire body instantly reached the heel of one of them, swinging his fist and smashing it. At the same time, his body snapped to one side, and one leg was like a big thick pillar, sweeping straight across.

The two immediately subconsciously raised their hands to block, and the next moment, Ji Feng collided with them without reservation.

Bang~~!

Those two men just instantly flew backwards, and from the mouths of both of them, a groan that was both painful and low came out at the same time: "Uh-!"

Bang Bang!

The two men hit the wall heavily and then slid back down.

With just one move, these two experts, who could fight viciously with the White Spider and could kill those few bodyguards in a very short time, were rendered defenseless in an instant. These two fellows struggled on the ground, trying to stand up, but after trying several times, they were unsuccessful and fell to the ground once again with both arms going limp!

At this time, a painful whimpering sound came from their throats, as if they were growling, or as if they were gnashing their teeth in a low roar, but the sound was all held in their throats, making an extremely strange sound and appearing extremely painful!

The two of them had fear in their eyes, especially when they saw that Ji Feng was walking towards them step by step, they became even more afraid, lying on the ground and struggling to keep backing up, but with the wall behind them, they were unable to escape at all.

The white spiders were shocked by this scene, and an incredible look appeared in their eyes.

Ji Feng's strength was really beyond her imagination!

This person was really too terrifying!

In the past, although White Spider knew that Ji Feng was powerful and had seen him fight against the transformers, she had also always thought that Ji Feng was at most a bit more powerful than those advanced transformers and that he had mastered the way to deal with them, which was why he was so strong.

But this scene in front of her made her completely understand that she absolutely couldn't even walk in front of Ji Feng in one single shot! Because, with just one move, Ji Feng made those two guys, whom she couldn't even help, unable to get up.

"Since you guys opened your mouths and wanted to kill us all, then, today I will send you to hell first to make amends to those few bodyguards!" Ji Feng looked at the two guys on the ground and smiled coldly, "Go to hell and repent!"

"Slowly, slowly ....."

Chapter 1079

"Slowly, slowly ....."

Seeing that Ji Feng's eyes showed a killing intent and was about to make a move, the two guys who fell on the ground were really frightened, one of them didn't know where he got the strength from and jerked his head up and roared in a stern and stern voice.

"You, you dare!"

“Hmph .....” Ji Feng sneered, “Why wouldn’t I dare? I’m going to kill you guys, it’s easier than crushing two ants, just like you killed those few bodyguards!”

“You, if you dare to touch us, you will be dead!” One of the guys said angrily.

“Is that so?”

Ji Feng nodded and smiled, then his face swished and sank violently, his right hand raised high and suddenly slapped him fiercely.

“Pa!”

A slap without reservation hit the guy’s face, immediately hitting his head directly on the ground, dizzy.

“I’m still moving, what can you do?” Ji Feng asked indifferently.

The two guys’ faces turned red and veins rose high on their foreheads, the other guy struggled and yelled lowly, “Son of a bitch, if you’re a man, don’t torture people like this!”

“Slap!” Ji Feng slapped him hard on the face again, “If I’m a man, I don’t need you to judge me! If you’re a man, don’t ever beg for mercy if you have the guts!”

He looked around and found a pair of flip-flops under the sofa in front of him, so he casually took one over and slapped the two guys’ faces fiercely, and slapped them loudly, humiliating them in any way, hitting the two guys with a roar of rage, but they couldn’t dodge it.

Slap!

“Ah...!”

One of the guys was just trying to block his face with his hand, when he was suddenly hit on the bottom of his hand, and all of a sudden, a pain came from his hand, which instantly spread all over his body.

However, as soon as his hand shivered and he dodged, the sole of the shoe landed on his face once again, causing his face to swell up!

It was hard to describe how fast Ji Feng was, but the two guys only felt that the soles of the shoes were like raindrops constantly hitting their faces, so dense that they could not even catch their breath.

The two of them were suffocating in their hearts.

This young man was so vicious that when he hit them with the soles of his shoes, it was with the most natural force, just one blow at a time, but once they blocked with their hands, trying to protect their faces, as soon as they reached out, the soles of their shoes seemed to suddenly explode with a terrifying force that seemed to smash their hands, making their bodies twitch in pain!

Snap!

Ji Feng gave another fierce blow with the sole of his shoe, and then, he finally stopped his hand. And by this time, both of these guys had been beaten up with their faces swollen high, blood flowing from the corners of their mouths, and their eyes were even swollen so much that they couldn’t open, only barely showing a slit!

..... blood and flesh!

“Well .....” These two guys were almost numb from the beating, even their miserable screams became extremely low, their bodies were constantly shaking, and their entire bodies were almost falling apart.

Ji Feng casually threw the flip-flops to the side and looked at the two badly beaten guys and sneered, “What, still not going to say anything now?”

“You ..... hello .....” one guy spoke with difficulty, “You dare to do this to us, you are dead!”

“I think you will be the ones who die first!” Ji Feng sneered.

“You won’t live long either!” The other guy gritted his teeth and said, “We won’t suffer these humiliations in vain, our division will definitely avenge us!”

“Oh?”

Ji Feng couldn’t help but sneer, raised an eyebrow and asked, “You still have a master discipline? What division? In what place?”

“Humph!”

One of them gritted his teeth in resentment, “Kid, I’m not afraid to tell you, both of us brothers are from the Qingshan Sect, if you treat us like this today, the Qingshan Sect will definitely not let you go, you’ll wait for death!”

“Qingshan Sect?” Ji Feng grunted twice: “What bullshit Castle Peak Sect, do you really still think you’re in the Jianghu era? Let me tell you, this is a society under the rule of law, it’s useless for any sect to come, and a sect ..... I think it’s an illegal gang!”

“Kid, you are a frog at the bottom of the well, just by you, how can you know the sects in the martial arts?” A guy laughed fiercely, “But I can tell you, as long as you still dare to treat us like this, you will be dead, our disciples of the Castle Peak Sect, those who are policemen, those who are military officers, that are many, they want to get you killed ..... hum, you should understand yourself!”

Green Mountain Sect!

Ji Feng pondered for a moment and couldn’t help but ask, “Then ..... what do you want me to do?”

“Immediately send both of us brothers, as well as the person in the room, out together!” The guy said, “As for what to do about it later, someone will come and talk to you!”

“Then if I don’t do this as you guys say, that so-called Castle Peak Sect will send people to deal with me, is that right?” Ji Feng asked, “Since the Castle Peak Sect you mentioned is another martial arts sect and so powerful, it would be easy for them to deal with me, you guys think so, right?”

“Of course!” Seemingly regaining some strength, one of the guys sneered, “Don’t think that just because your kung fu is great, you can run amok, let me tell you, in the eyes of martial arts masters, you are nothing!”

“Hmm!”

Ji Feng nodded his head and suddenly smiled, "Is there anything else you plan to tell me about the Qingshan Sect?"

The two couldn't help but be stunned at the same time, but they saw that the smile on Ji Feng's face had disappeared and he was staring at them coldly: "Maybe if you guys introduce it in more detail, I'll be scared ..... If it's tightly just what you guys said, then I'm sorry, it won't scare me, you'll still have to die!"

Both of them blushed at the same time.

"Say!" Ji Feng coldly snorted.

"Kid ....." One of them was just about to speak when Ji Feng couldn't help but shake his head and said impatiently, "Forget it, I'm too lazy to bullshit with you guys anymore, Uncle Rong!"

Rong Peng in the bedroom smiled and immediately came out, "Little Feng, what is it?"

Ji Feng pointed at the two guys who were almost paralyzed on the floor and said, "These two guys are now at your disposal, do you want to take out your breath first?"

"Of course I do!"

Rong Peng instantly said angrily, he came to the front in three or two steps, looked at the two guys whose faces had changed drastically, and instantly kicked up fiercely, one after another, continuously kicking at the two guys' bodies. These two guys had been beaten badly by Ji Feng before, and now that they were being kicked hard by Rong Suyan, they only grunted lowly in pain, and could not even utter a loud scream.

Rong Peng kicked for four or five minutes in a row before he stopped panting and said in a hateful voice, "Little Feng, call the police, these two brutes killed my bodyguards, I'll make sure they pay for their lives!"

"Call the police!"

Ji Feng nodded, paused again and said, "But before the police arrive, I still have a few questions to ask them."

Saying that, he stretched out his hand and put it on the head of one of them.

"Well!"

This guy instantly widened his eyes and groaned in horror, "True, true qi?"

When the other guy heard this, he was also immediately shocked and looked at Ji Feng in horror, "You, you're also a martial artist?"

Ji Feng didn't even pay attention to him, he just tapped the other guy's head a few times in succession, and this guy's body suddenly jerked violently, and immediately afterwards, his eyes became cloudy.

..... Of course, no one else could see it, because his eyes were swollen to a slit.

Only then did Ji Feng withdraw his hand and asked, "Where is the Castle Peak Sect?"

“..... In the southwest of China, Castle Peak.”

“Qingshan?” Ji Feng frowned slightly, he hadn’t heard of this place, “How many people are there in the Qingshan Sect?”

“..... ten elders, there are many disciples under the sect .....”

The man looked completely muddled, whatever Ji Feng asked, he answered very honestly, which made his companion look horrified.

“Lao-san, what’s wrong with you? Lao-san!”

“Shut up!” Ji Feng flung his hand and slapped him across the face, and the latter instantly didn’t even half react, he just passed out.

Ji Feng then continued his question, “What kind of sect is the Qingshan Sect?”

“.....”

.....

As Ji Feng asked one question after another, and the man answered them all, Ji Feng then gradually understood this so-called Qingshan Sect. However, this scared Rong Peng and White Spider who were present.

The two of them could see clearly what happened from the beginning to the end. Ji Feng just tapped this guy on the head a few times, and the man suddenly became muddled and said whatever he was asked, as if he was hypnotized, but it wasn’t hypnosis either, because his companion had just yelled at him a few times, but he didn’t even react.

This tactic ..... is also too amazing!

Rong Peng and White Spider’s eyes both fell on Ji Feng, their hearts were shocked and incredulous, if Ji Feng wanted to know anything, just slap a few times on someone’s body, then who could still keep the secret?

This tactic is really unheard of and unseen!

“..... What is the purpose of your visit to the Rong family this time?” Ji Feng finished asking about the Qingshan Gate, and then asked about the purpose of these people.

“Someone paid us to deal with the Rong family ..... we deal with Rong Peng, old, old death deal with Rong Suyan, and Rong Peng’s wife .....” the man answered honestly, however, the content of the words, but let Rong Peng instantly face changed dramatically, a pair of eyes deadly glare up.

“Bastard!” Rong Peng roared in anger, the veins on his forehead rose high in anger, and his body was trembling.

And at this moment, Ji Feng asked a few more questions, then he slapped the guy on the head, and the latter rolled his eyes and passed out.

“Uncle Rong, call the police!”

Ji Feng raised his head and said in a deep voice, "I'll go out and invite that guy outside too!"

What happened, Ji Feng already roughly knew, the behavior of these few people, is simply worse than beasts, when killed .....

Chapter 1080

"Why haven't these three guys come back yet?" Inside the villa area, Boss Skinny Monkey, who had come with Tension Qin and the others, sat in the Buick with both feet on the steering wheel, half lying on the backrest, raised his hand to look at his watch and couldn't help muttering a few times.

Looking from a distance, from this angle of Boss Skinny Monkey he could clearly see the situation in Rong Peng's house, and he noticed that there was already a light in his house.

The skinny monkey boss couldn't help but feel a tightening in his heart and muttered secretly, "The light is on ....., Is it that a few of them guys have been found out? Or have they already got it and are now making their move?"

Because they were worried about being suspected, the skinny monkey boss parked their car at a location far away from Rong Peng's house when they started their operation. At that time, even if the guys missed, no one would suspect Boss Skinny Monkey, and this would be conducive to their escape.

But now, there was an obstacle to this insurance arrangement, the distance was a bit far, he couldn't see what was going on inside at all, and he couldn't even hear a bit of the sound.

The skinny monkey boss hesitated for a moment, but could only wait patiently, now that the action had all started, the car naturally could not be moved. Otherwise, in case Lao Er and the others came back at this time and couldn't find the car, it would be troublesome.

In the course of the operation, as long as there were no surprises, the original plan could never be changed, otherwise, any small oversight could have extremely serious consequences.

He had no choice but to wait patiently in the car.

He did not notice that at this time, not too far away from the car, a figure was rapidly approaching, and in just the blink of an eye, this figure was already less than fifty metres away from the car.

"They shouldn't have any problems, right?" The skinny monkey boss was still a bit uneasy and couldn't help but sit up straight again, and then he gave a self-deprecating smile, "How come the older I get, the less daring I get? Since we are going to shoot something as a souvenir, it will naturally take longer, besides with that nature of Old Four, I'm afraid he won't come out until he has had enough ....."

Thinking about this operation, the skinny monkey boss couldn't help but nod in satisfaction. The money was really generous, as the deposit alone was a million. If they could finish the job, the benefits would be enough for them to live a free life abroad.

With three young men at their side and a large sum of money in their hands ..... could there be a more comfortable life than this?

The skinny monkey boss thought beautifully and couldn't help but hum a little tune in his mouth, looking happy.

“Knock knock knock!”

The company’s main business is to provide a wide range of products and services to the market.

“Who is it!” The skinny monkey boss’s heart tightened and he immediately checked the safety of the car door and found that the door was closed, he was then slightly relieved and asked aloud. However, at this time, he did not open the car door either, instead, his body was all tensed up.

Because he knew very well that they didn’t have a torch, and it was obvious that the person outside the car was a stranger!

“I’m a security guard in the neighbourhood!” The man outside waved his torch and gestured for him to open the car door.

The skinny monkey boss was a little unsure and looked over into the blinding light, and could vaguely see the uniform on the other party, he then lowered the window and the other party turned off the torch, and then he could see clearly that it was indeed a young man wearing a security guard’s uniform.

“Sir, why are you still in the car at this late hour? What can I do for you?” The security guard asked politely.

The skinny monkey boss waved his hand and said, “No no, I had a fight with my wife at home, I had no choice but to sleep in the car ..... I’m fine here, you go and do your job!”

“..... Okay!” The security guard took a look at the windshield of the car and found that it did have a pass for this community, the security guard was then reassured, nodded at the skinny monkey boss, and then turned around and continued to go on patrol.

The security guard went in the opposite direction of the Rong family’s villa, and only then did the skinny monkey boss breathe a sigh of relief. He looked at the dashboard, which was still glowing, and after a moment of deliberation, he pulled the keys out.

The car was no longer lit, only the faint light from the street lamp, and certainly would no longer attract attention.

Ji Feng was standing under a tree a few dozen meters away from the Buick car, watching the man in the car talking to the security guard and pulling out the keys, he couldn’t help but sneer.

He had been thinking that he would get to the car as fast as he could, punch through the window and grab the guy inside, so that he wouldn’t sense that something was wrong and drive away immediately. But now that he had pulled out the key, he didn’t even have the last chance to escape!

Ji Feng sneered and walked over with big steps.

“Motherfucker, getting down in this upscale neighborhood is trouble, the security guards are patrolling so diligently .....

The skinny monkey old man was half lying on the backrest, just shaking his head and cursing, when he suddenly heard a ‘bang’ sound coming from his ears, he was startled, he subconsciously turned his head to look, he suddenly saw a hand actually reaching in from the car window and snapped his neck.

“Uh-!” The skinny monkey boss rolled his eyes as he was strangled, and the next moment, he felt a strong force on his neck yanking him over.

Bang!

The Skinny Monkey Boss just slammed his head against the car window, and his whole body was dazed and dizzy as he was yanked out of the car window raw.

“Pop!” Ji Feng choked the skinny monkey boss and punched him in the back of the head, directly knocking him unconscious, and just carried him and left quickly.

.....

“Well .....”

The skinny monkey boss slowly opened his eyes, his consciousness was still a bit dazed, however when he saw the scene in front of him, his eyes suddenly widened and his face changed dramatically. Immediately afterwards, he jerked and instantly woke up.

In front of him, his Sango companions were all beaten half to death and lying side by side on the floor, looking miserable.

Beside them, there were several men, looking at him angrily!

Among them, Rong Peng and Rong Suyan, who they had set as the targets of tonight’s operation, were both listed. Apart from them, there was also the young man who was hated by Old Fourth, and the woman who made Old Second feel very difficult to deal with, as well.

“You, you .....” the skinny monkey boss was terrified, he had realized that he had missed this time, not only that, but they had all fallen into the hands of others without running away.

“Hou Youde, tension Qin their boss, the four of you are a gang, specializing in accepting commissions from others to do something illegal in the dark .....” Ji Feng looked at him and said indifferently, “How about it, I didn’t say wrong, right?”

The skinny monkey boss Hou Youde’s body suddenly shook, he looked at Ji Feng in shock, and then looked at his three companions who were knocked unconscious, his face was ashen. He knew that he had planted himself this time!

“What do you want to do when you come to the Rong family today?” Ji Feng’s voice gradually lowered and became colder and colder, “Also, who actually told you to come? In other words, who commissioned you guys?!”

Earlier, Ji Feng had used bio-currents, simulating neurotoxins, to interrogate one of the guys and got quite a lot of information. However, neither the two brawny guys nor that rogue Tension Chin had revealed the most crucial thing – who the employer was!

According to that guy’s explanation, this order was personally taken by this skinny monkey boss Hou Youde, and apart from Hou Youde, no one else knew who the employer really was.

“Say!”

Rong Peng bellowed angrily, "Who exactly sent you!"

Hou Youde sat on the ground, his face pale and his eyes rolling, but he just didn't say anything.

"It seems that you're also a bastard who doesn't see the coffin and doesn't shed a tear!" Ji Feng sneered and turned his head, "Uncle Rong, fight first, I'll ask after the fight."

As he spoke, he slapped on that skinny monkey boss Hou Youde's body, and the latter's eyes immediately glared, his body shook twice, a look of panic suddenly appeared on his face, and his mouth made an umph sound, but he couldn't say anything!

He felt as if his throat and mouth had gone numb and were not listening to him at all!

"Good!" Rong Suyan immediately nodded, picked up the baton that was already prepared, and angrily walked towards Hou Youde, the skinny monkey boss.

"Bastard! Killing my bodyguard, today I'll also let you feel what it's like to be beaten to death!" Rong Peng shouted angrily, looking at Hou Youde's terrified eyes, he raised the baton in his hand and smashed it down fiercely.

In a flash, the muffled screams of whimpering misery were incessant .....

Hou Youde was beaten to death, but he couldn't even scream, his voice reached his throat and turned into a muffled sound, which scared him and made him almost want to hit his head on the floor in pain.

But now, he couldn't even kill himself, his body seemed to have stiffened, except for the pain he could feel from Rong Peng's blows, he couldn't even move, this extremely painful torture made Hou Youde feel like he was in hell!

The bodyguard's tragic death made him so furious that if he didn't know that this beast was still useful, he would have wanted to smash Hou Youde to death!

But even if he kept his hands to himself and didn't hit the vital parts, after he had struck him so hard, Hou Youde had fainted for an unknown number of times.

Bang!

He looked at Rong Peng, whose eyes were full of anger, and his heart was terrified to the extreme, and at the same time, he was also in extreme pain.

His body could not move, his mouth could not speak, and he was in the hands of Rong Peng again .....

There is no situation that is worse than now, Hou Youde doesn't know how many times he wants to die, but he can't even move his fingers, let alone kill himself!

"Can we talk now?" Ji Feng helped Rong Peng to sit down next to him, and turned to ask indifferently.
