

Campus Master 1097-

Chapter 1097

In fact, although the three days originally given by Zheng Yuxiu had passed, it did not mean that this matter could be dragged on forever. The Rong Peng Group was a giant, and the Wu family would definitely not let go of it that easily.

Although they are in a passive position this time, but, the compensation and concessions that should be given, they have already made, now just wait for them to stabilize, should be immediately to Rongpeng Group, after all, such a large group is not in their hands to grasp, no one will be at ease.

It was with this in mind that Ji Feng also incidentally raised the issue of vesting one-fifth of the Rongpeng Group's equity, and according to his father, the Wu family seemed to have agreed to do so.

This way, Ji Feng is also relieved that Rongpeng got one-fifth of the equity, he just needs to withdraw his shares, it will definitely cause a lot of damage to Rongpeng Group, the next not short period of time, the Wu family will be busy cleaning up the mess, no longer have time to toss.

.....

In the blink of an eye, the time came to the third day.

In these three days, Ji Feng finally circled the talent he needed.

In fact, this selection process was extremely painful, because the information that Rong Peng gave to these managers, when you look at them, they are all talents, no matter which one, Ji Feng did not want to let go, he even wanted to take them all away.

But in the end, he didn't have the good sense to do so, so he endured the pain of eliminating a large part of them, leaving only less than a hundred talents.

These people, basically, were all experts in management, and when the time came, they would only have to adapt to the Tengfei Group for a few days, and then they would be able to get started immediately, so they were definitely rare treasures.

In order to avoid long dreams, Ji Feng immediately contacted Han Zhong and Xiao Yuxuan, as well as Xu Yuan, and told them about the situation of Rongpeng Group, and when they heard it, they were naturally overjoyed. After several people had agreed, Ji Feng immediately informed Rongpeng and told those managers to start heading to Jiangzhou.

There were more than two hundred managers who had promised to go to Jiangzhou. These people went to Jiangzhou in batches, and Han Zhong and Xiao Yuxuan were responsible for receiving and settling them.

The rest of those personnel were the ones from the Tengfei Group.

But even so, it made Han Zhong and Xiao Yuxuan happy. These were people that money might not even be able to invite all at once, and there were still such a large number of them.

However, Ji Feng was not happy so early, because in addition to these managers, Rong Peng also promised that the technical staff of the Rong Peng Group were also at Ji Feng's disposal. According to Rong Peng's idea, he was going to empty the Rong Peng Group's technicians!

Then Ji Feng had nothing to be polite about, he immediately nodded his head and agreed to do so.

Afterwards, Rong Peng immediately called another meeting with those technicians, telling them about his intention to go to Jiangzhou to explore a new career and asking who was willing to go with him.

Of course, in the middle of this, Rong Peng played a sloppy game, he did not say that he was about to leave Rong Peng Group, but only said that he wanted to explore the market in Jiangzhou. As a result, many of those technicians who originally did not intend to leave Rongpeng Group also nodded their heads in agreement.

Immediately afterwards, the list of these technicians who were willing to leave Rongpeng Group came into Ji Feng's hands.

"Phew~~!"

Ji Feng let out a long breath, leaned back in his boss chair, and couldn't help but shake his head: "The personnel is finally settled, the following is the time to arrange for these technicians to go to Jiangzhou"

With so many managers in front of us and the addition of these technicians, it was definitely an opportunity for the Tengfei Group, as long as we could get these people to adapt to the Tengfei Group, it would explode with amazing energy.

"Knock knock knock!"

Just at this moment, there was a knock on the office door.

"Please come in!" Ji Feng said.

Rong Peng pushed open the door and quickly walked in, his face full of smiles, "Little Feng, good news, just now Wu Zhiyong called me, a representative will come over tomorrow, and by then I will be able to get back my one-fifth of the equity."

Ji Feng nodded with a smile and said, "Uncle Rong, with this one-fifth of the equity, it will be much easier for you to rise again!"

"Being able to get back the equity that belongs to me, I'll have the confidence to rise again in the east!" Rong Peng nodded excitedly, "Ji Shao, this is really"

"Stop it!"

Ji Feng reached out and laughed, "Uncle Rong, if you are trying to say thank you, then it's better to stop."

Rong Peng gave him a deep look and nodded, "That's right, we're not outsiders after all, Little Feng, it's still too early to say anything, when we get to Jiangzhou, we'll talk about cooperation!"

Ji Feng nodded and didn't care much because he hadn't found the most suitable position for Rong Peng's father and daughter, so he couldn't promise anything now.

However, he did not know that in Rong Peng's heart, he had already made up his mind, but he just did not tell him now. In fact, Rong Peng knew very well that whether it was him or this one-fifth of the equity, it was all earned by Ji Feng. Without Ji Feng, I'm afraid that their family would not even be alive now, so where would there be any cooperation?

However, Rong Peng is not a person who likes to make promises, what he values is practical action. Therefore, he did not say anything to Ji Feng now, but only secretly decided that when he waited until he got to Jiangzhou, he would tell Ji Feng with practical actions what his decision really was.

"By the way, Little Feng, I have already arranged for someone to transfer the equipment of the various laboratories." Rong Peng suddenly said, "Some large equipment can't be transferred away for the time being, but those small but precise instruments are the ones that must be taken away and can definitely be used in the future."

Ji Feng nodded and smiled, "Uncle Rong, if you really want to transport it away, you must move quickly, otherwise, once the equity transfer agreement is signed tomorrow, it will be illegal for you to pull that equipment again."

"Of course I know that." Rong Peng laughed: "I've been preparing for the past few days, today we'll transfer it out overnight and then load it up and transport it away."

Ji Feng couldn't help but smile, talent, equipment, Rong Peng was not going to let go of any of it. It seemed that he was really starting to execute the strategy of destroying the Rongpeng Group with his own hands. From this, we can also see that Rong Peng has gotten back on his feet from the original blow!

.....

The next day, the representatives sent by the Wu family arrived to sign the equity transfer agreement, Ji Feng did not go because, in addition to the equity transfer agreement, the top management of the Rongpeng Group had to meet and also go to the relevant departments to do the formalities, none of which had much to do with Ji Feng, and he did not like such a cumbersome procedure.

More importantly, at this time, Ji Feng was working with Rong Suyan to entrust the equipment that Rong Peng had transferred overnight to a logistics company to Jiangzhou, while arranging for Han Zhong to send someone to receive it.

As for those technicians, they were arranged to take a plane and fly directly to Jiangzhou. Because the time was too urgent to charter a plane, these people still left in batches

When all the work had been done and the time came to the afternoon of the fourth day, after making sure there were no problems, Ji Feng took the white spider, together with Rong Peng's family, and finally boarded the plane to Jiangzhou.

Some officials in Yuezhou, as well as those who were keeping a close eye on Ji Feng's movements, could not help but breathe a sigh of relief when they knew that Ji Feng was on the plane.

They all secretly said, "This scourge, finally gone!"

The huge furore caused by Ji Feng, but almost everyone who was better informed had heard about it.

Ji Feng, alone, had almost caused a full-scale confrontation between two big factions, which scared many people and kept many people awake.

Qian Hongda, a senior official in Yuezhou City, is one of them.

If the two factions really turn into an all-out confrontation, he will definitely be the one to suffer the brunt. Not for any other reason, just because he is the right-hand man of the Wu family and, at the same time, a top city official in Yuezhou. And Ji Feng, it was here that he was assassinated!

Fortunately, Elder Ji was too strong, so that the Wu family had to back down and compromise, and only then did the two big factions not confront each other, and he, Qian Hongda, did not suffer from the pool of fish as a result.

However, Qian Hongda's heart did not drop because Ji Feng, the scourge, was still in Yuezhou.

As long as he didn't leave, Qian Hongda would have to keep his nerves taut. God knows if this little tze of the Ji family would suddenly go crazy again, and if something happened again, it might even lead to a huge fiasco!

Now that Ji Feng has finally left, Qian Hongda is really a long sigh of relief, and people who are as relieved as he is, don't know how many

As for Ji Feng, up to this point, the trip to Yuezhou is also considered to have come to an end.

In fact, when it comes to this trip to Yuezhou, Ji Feng also has a lot of feelings. Although he had only been in Yuezhou for a few days, less than a week, there were too many things that happened in between.

When he first came here, he thought that he was just trying to dissuade Rong Peng from doing something stupid, and that was all.

However, things developed in a way that did not depend on one's will. Zheng Yuxiu's foolish behaviour involved Ji Feng, which in turn led to the chain of events that followed.

It was also because of this that Ji Feng made huge gains in Yuezhou, technicians, management talent, equipment and even, he seized the opportunity to create an advantage for the whole family, making both the Wu and Zheng families pay a certain price

However, now that all of this is all past, now that the talent and equipment are available, the Tengfei Group, it is time to take off once again.

As for the Rongpeng Group, Ji Feng believes that in the near future, he will join forces with Rongpeng and bring it down!

As Ji Feng had said before, Rong Peng had already decided that he would destroy it with his own hands!

Chapter 1098

Jiangzhou in the late night is still bustling. But Ji Feng, who had just returned to Jiangzhou, did not have the heart to feel the prosperity of this metropolis.

At this moment, he was embracing Xiao Yuxuan and Tong Lei, warming up in his room.

After being separated from them for almost a week, Ji Feng missed them a lot, while Xiao Yuxuan and Tong Lei also missed them a lot. Therefore, when Ji Feng embraced them upstairs after dinner, although they were also quite shy in their hearts, they did not laugh and run away like before, but were half-heartedly pulled into the room by Ji Feng.

Soon, that blush-inducing flirtatious moaning sound came out faintly, causing Xiao Ying and Han Zhen to blush once again, hurriedly finish cleaning up, ignoring even the customary routine of watching TV for a while, and fleeing directly into the bedroom, covering their heads with the quilt, shy as ever.

White Spider was the only one who sat on the sofa in the living room, quietly watching the television. It was only when a high moan suddenly came from upstairs that a flush of scarlet swept across her pretty face, her body subconsciously moved slightly, and her legs couldn't help but clench

But after a few moments, she took a few deep breaths and regained her composure.

However, there was a hint of an inexplicable look in her eyes, which became watery. She looked upwards slightly, and a soft smile flashed at the corner of her lips, then she shook her head and laughed, and wrinkled her nose in a rare way, before she got up helplessly, and after turning off the TV, she went back to her room and turned on the computer, put her headset on, and went surfing on the Internet.

What was strange to her was that it was late at night again, but she didn't feel the slightest bit of silence, listening to the blushing sounds coming from upstairs.

The White Spider felt that she could relax completely here, and that she didn't need to be on guard at all, except to prevent outsiders from sneaking into the villa, she didn't need to guard against anyone at home.

Although she could not figure out Ji Feng's mind until now, but with this period of time together, she could feel that Ji Feng was still very casual towards her, not treating her as a bodyguard at all, but like a friend.

The two little girls are just like two little sisters, almost without any heart, which is very cute.

But it was this feeling that made the white spider wonder, when had he ever been so relaxed?

This is so strange

.....

And at this time in the bedroom upstairs, Ji Feng's ambiguous entanglement with the two women, Xiao Yuxuan and Tong Lei, was still going on.

It was the end of June, Jiangzhou was in the heat of summer, the bedroom even if the air conditioning was on, the heat wave outside would keep coming. What's more, Ji Feng didn't turn on the air conditioner at all, so the temperature in the bedroom was even less.

However, because they insisted on practising aerobics, Xiao Yuxuan and Tong Lei's physique did not have to be afraid of such temperatures at all, let alone at night.

Yet they were still sweating profusely

The two women were both in a daze and their naked skin was flushed with red. The two of them are in the same position as the other two.

Tong Lei was still suffering from Ji Feng's torment, and from time to time, her seductive red lips let out a whisper that was seductive and made people's blood boil.

"Oooh...!"

Finally, as Tong Lei's breathing became more and more rapid, and finally suddenly let out a high moan, the room was considered quiet, leaving only a burst of gasps still rising and falling.

Tong Lei's body was however trembling continuously, her two snow-white and slender legs, tightly wrapped around Ji Feng's waist, erupted with amazing strength, seemingly wanting to rub Ji Feng into her body as if she was in spasms all over.

"Phew~~!"

It was only after a few minutes that Tong Lei let go of her strength, and she was as if all her strength had been drained out of her body, and she fell softly onto the bed, her red lips lightly opened, exhaling like an orchid, her eyes dazed

And her tender white skin, now also turned flushed red, covered with crystal beads of sweat, seductive to the extreme

Ji Feng smiled heatedly and gave Tong Lei a kiss on her red lips before rolling over and coming down.

The moment the two of them separated, Tong Lei couldn't help but let out another body tremor and subconsciously let out a whimper.

Ji Feng laughed twice before he picked up the towel quilt next to him and gave the two girls a brief wipe before covering their bodies. The thin towel quilt covered their bodies, it was almost as if they were wearing nothing but a silk nightgown, half covered and half exposed, full of temptation

The room, finally, fell into peace.

It had been most of an hour before Xiao Yuxuan exhaled a long breath and whispered poutingly, "Little rascal, just as soon as you come back, you make bad, the white spider is down there, how can I and Lei Lei meet people!"

Ji Feng laughed in a low voice: "What's wrong with that, the normal life of a couple, no one can say anything."

Xiao Yuxuan then pinched him and pouted, "Just you so many excuses, I can tell you ah, if the white spider laughs at me tomorrow, you will give me a good lesson for her!"

“Don’t worry, she won’t laugh at you, no matter what, you are also considered her proprietor, she dares to laugh at you?” Ji Feng laughed, “But if she dares to laugh at you, I will definitely reprimand her severely, is that alright?”

“That’s more like it!” Xiao Yuxuan scolded, “You, you’re making me and Lailai lose any face, especially in front of Zhen Zhen and Xiao Ying.”

Ji Feng laughed and said, “Didn’t I tell you guys that they can definitely understand, so why dwell on this issue, right? As long as we have a happy and joyful life isn’t that all that matters?”

“Yuck!”

Xiao Yuxuan spat lightly and said, “You’re the only one who’s happy, right?”

At this time, Tong Lei also seemed to have slowed down, she turned over and also pillowed on Ji Feng’s arm, pressing her face to Ji Feng’s chest, exactly face to face with Xiao Yuxuan.

“Sister Yu Xuan, it’s not like you don’t know what kind of virtue he is, why are you still torn up about it now?” Tong Lei asked with a light laugh.

“You girl is open-minded, we are sisters, but let outsiders hear our voices” Xiao Yuxuan’s pretty face was scarlet, “It’s all because of this little rascal!”

“Hiss...!” Ji Feng was pinched backwards sucked a breath of cold air, although not much pain, but he always have to do to match Xiao Yuxuan well.

Tong Lei, however, laughed lightly, “Sister Yu Xuan, in fact, the more you dwell on this issue, the more you can’t let go, maybe no one else is looking at you, you just keep thinking that people are looking at you yourself and put some peace of mind, then everything is calm too.”

“Ee?”

Ji Feng laughed: “Lei Lei, when did you start studying philosophy too?”

Tong Lei pursed her lips and smiled lightly, “My personality is a bit cold and not very suitable for dealing with people, so I’ve been reading some books on this recently, hoping to enlighten myself with this. After reading so many books, I have come to understand quite a lot of truths”

“Oh?”

Ji Feng and Xiao Yuxuan both couldn’t help but be slightly stunned, Ji Feng smiled and asked, “Lei Lei, isn’t it great that you have such a personality? Why do you still have to change, did someone say something?”

“No!” Tong Lei pursed her lips and laughed lightly, “I just think, we are looking at our junior year, and there basically won’t be many courses left in our senior year, and we will have to walk into work by then, so”

“You ah, think too much!” Ji Feng smiled and pinched her cheeks, laughing: “In fact, your character is very good, you don’t need to change at all, otherwise, instead, you might end up getting an incestuous

one. When you graduate, you can do whatever you like, then go ahead and do it, there's absolutely no need to worry about other people's eyes!"

"So what if I want to start a training course?" Tong Lei asked.

"A training course?"

Ji Feng couldn't help but be slightly stunned, "What kind of training course do you plan to open?"

Tong Lei's pretty face reddened slightly as she said, "I just see that there are more and more foreigners in Jiangzhou, but they all speak Chinese in an unpleasant way, and many foreigners even sign up to want to come to our school and learn the Chinese language, but we don't have such a class, so I just want to... .."

"Lei Lei, you want to open a class that specialises in teaching foreigners to speak Mandarin, right?" Xiao Yuxuan asked, "There are quite a few such training institutions nowadays"

"Those institutions are basically training for adults, actually what I want to open is a training course for these foreigners' children." Tong Lei said, "I can't teach those adults, however, it's okay to teach children."

"Mm!" Ji Feng nodded, "Rei Rei, this is a good idea of yours."

Tong Lei then nodded and smiled lightly, saying, "Actually, I just think that it's easier to deal with children. Besides, there aren't too many foreigners bringing their children here, only a small percentage, and it just so happens that I'm not good at taking charge of much of a training class, so I thought it would be just right for me to teach those foreign kids to speak Chinese!"

"Good idea, let all those foreigners learn to speak Mandarin, Lei Lei, you should work hard, if our Mandarin becomes the world's lingua franca in the future, you can take a lot of credit for it!" Ji Feng laughed.

"Nasty!" Tong Lei gave him a whack.

Xiao Yuxuan, however, laughed, "However, this idea of Lei Lei's is indeed a good one. She has a cool personality and doesn't like to talk to people much, and she is studying a foreign language herself, so it would be useful to start a training course, and it just so happens that it's not a waste of what she studied!"

Ji Feng nodded thoughtfully and said, "That's right."

"It's too early to say all this, I just have the idea" Tong Lei said, "Ji Feng, are you going to school tomorrow?"

Chapter 1099

"Tomorrow"

The first thing I need to do is to go to the Tengfei Group.

The equipment transferred from Rongpeng Group was still on its way, but the talents had arrived one after another, which was definitely a great opportunity for Tengfei Group to inject fresh blood and a very important moment, so Ji Feng could not rest assured.

Talent is here, but how to arrange them is also an important issue, and most importantly, how to retain them!

These were all issues that needed to be carefully considered and could not be half-hearted, so Ji Feng decided that he would go to the Tengfei Group tomorrow, discuss with Han Zhong and listen to his arrangements.

“Oh.” Tong Lei nodded her head.

Ji Feng asked, “Lei Lei, is there something you want to do?”

“It’s not anything urgent, it’s just that I saw my brother yesterday, and I looked at him and he seemed to be a bit out of sorts, so when I asked him if something was wrong, he just said it was nothing, so I thought I’d ask you to ask him and see if he was having any difficulties.” Tong Lei said, “You should talk more casually to each other, maybe he has something he is too embarrassed to tell me”

Only then did Ji Feng drift off, just after listening to Tong Lei, he realized that Zhang Lei most likely appeared to have some preoccupations because of Shen Jingyi’s matter, right?

But he couldn’t help with this kind of thing, and at that time Zhang Lei had already made it very clear to him that he would handle it himself. In fact Ji Feng is more or less worried, Zhang Lei this guy’s temper he knows, if there is really big trouble, then Zhang Lei will definitely not look for his own

So, what exactly is Zhang Lei’s situation now, Ji Feng is really not quite sure.

Thinking about that arrogant guy who drove a sports car back then, Ji Feng couldn’t help but frown slightly. As Ji Feng’s interactions became more and more extensive, he learned more and more about this world, and what surprised him the most were two aspects.

The first aspect was the development of technology, especially the level of technology of the dynasty, which would definitely stagger people. In particular, the power of the advanced transformers created by the dynasty, that was really extraordinary!

This was something that surprised Ji Feng.

And the second aspect was that he was gradually coming into contact with the martial arts, according to the common parlance, that is, those martial arts novels or what the TV called Jianghu.

If it is said that the dynasty is because of the extremely advanced technology at its disposal to make some modifications to the bodies of ordinary people, making them possess extraordinary attacking power, this technology is admirable and frightening because but those who have been modified, in fact, can no longer be called human, strictly speaking!

Compared to this cruel method of human transformation by the dynasties, then, the method of making people stronger by means of cultivation by the martial artists is somewhat mysterious.

Of course, whether it was this method of the dynasty to transform the human body by means of technology, or the kind of cultivation method of the martial artists, for Ji Feng, he could not make an accurate evaluation, let alone say which method was actually better.

Although from the current situation, it seemed that once the dynasty had transformed a person, it would make the person being transformed, in the end, become unlike a human being and unlike a ghost!

But no one is sure what level of technology the Dynasty has at its disposal.

Once the dynasty improved its technological means of transforming human bodies and was able to create that kind of flawless transformed human, it would definitely shock the whole world.

But if it is really like what is said on TV or in novels, that one can reach the level of flying on the wall and fetching things in the air, then it is really hard to distinguish whose method is better between the cultivation method of martial artists and the transformation of the human body by the dynasty.

But unfortunately, Ji Feng now for the martial world is not really too much understanding, the most contact is also with the Qiao family has a close connection with the Xuan Yin door, and he and the other side is still hostile, simply do not know their cultivation methods, and cultivation to the highest degree will reach what step and so on

From there, back to that arrogant mysterious expert who drove a silver sports car and tangled with Shen Jingyi, what exactly is his origin, how powerful his family is, how much trouble he can bring etc etc.

All these questions, Ji Feng is not too clear.

Therefore, how much trouble Zhang Lei is facing, or how much pressure he is carrying, Ji Feng is also unable to understand, which makes him feel vaguely not too good in his heart.

So after careful deliberation, Ji Feng couldn't help but say with a smile, "Lei Lei, don't worry, you should know very well what kind of character Lei Zi is, right? He's in a bad mood right now, maybe he had a fight with Shen Jingyi, or he's being pursued by some girl again or something like that, it's not a big deal."

"I hope so, that brother of mine, there's never a peaceful moment, Ji Feng, if you can, you should take care of him more, he usually looks like he listens to me, but that's only because he doesn't see eye to eye with me, in fact he doesn't even take my opinion to heart." Tong Lei said, "But you are good brothers, he must listen to your opinion."

"That's natural." Ji Feng chuckled, pinched Tong Lei's tender face and laughed, "You, just don't worry about it, I'll go to Tengfei Group tomorrow, and after that I'll go to school, I'll definitely find Lei Zi and have a good talk."

"Mm!" Only then did Tong Lei feel relieved.

She didn't know that Zhang Lei had indeed gotten into trouble, but it wasn't that he had taken the initiative to get into trouble, but that trouble had come to him.

Even Ji Feng didn't know where this trouble was coming from.

What's more, Ji Feng hadn't come up with a good solution to this trouble. After all, the key to solving this matter would depend on Zhang Lei's attitude.

Ji Feng felt that it was time to communicate with Zhang Lei properly, it was always bad to have such a potential threat.

From Tong Lei's words, Ji Feng could hear that Zhang Lei had indeed been a bit off lately, otherwise, with his character, he certainly wouldn't have shown it so obviously.

Perhaps, between Zhang Lei and Shen Jingyi, something seemed to have happened again.

Only, these things Ji Feng did not say to Tong Lei, there is no need to let her also follow the trouble, with her character, any little thing that makes her worry, that is to cause heartache, Ji Feng still hope that she can be happy, this is already enough.

It was Xiao Yuxuan, who seemed to have seen something and took a thoughtful glance at Ji Feng, and then at Tong Lei, who had a sweet light smile on her face, she understood what Ji Feng was thinking.

A girl as clear and beautiful as Tong Lei is like a fairy who doesn't eat earthly fire, even if it were herself, she wouldn't be able to bear to let Tong Lei follow and worry.

She gently touched Ji Feng and smiled, "Ji Feng, go to bed early, you still have a lot of work to do tomorrow."

.....

Early the next morning, Ji Feng took the white spider, together with Xiao Yuxuan, and went to the headquarters of the Tengfei Group. Of course, Little Shadow also followed Xiao Yuxuan's side for close protection.

"Ji Feng, a big shot, you are really a big shot!" In the office of the headquarters of the Tengfei Group, Han Zhong laughed happily, "So many talents, ah, originally the group still had many empty positions that needed to be filled urgently, but now, these people are still far from being used up, haha"

Ji Feng laughed: "We have to use them even if we can't use them all, these people are all treasures, we have to keep them all and we have to find ways to create opportunities for them to bring their talents into play!"

"Don't worry about that, I naturally won't drive people out."

Han Zhong said, looked down and took out a document from the drawer, handed it over and smiled, "Take a look, this is the draft plan for the cooperation between Tengfei Group and Mingguang Electric, after I discussed with Li Xin, I initially decided to jointly fund another company with Li Xin, with us holding at least fifty-one percent of the shares, Li Xin also agreed. "

"Is that good?" Ji Feng asked.

It was certainly fine for the two sides to cooperate, but if it was a case of both sides holding separate shares, it would be a troublesome matter once strife arose in the future.

Originally, Ji Feng also intended to cooperate with Mingguang Electric, but it was the way of cooperation that was open to question. In fact, he was hoping to acquire Mingguang Electric, and then also let Li Xin be the general manager of Mingguang Electric, in this way, the Tengfei Group not only harvested talents, but also acquired an electrical factory.

“Ji Feng, I know what you mean, Li Xin is indeed a talented person, but he is not willing to be controlled and does not like to be constrained, so how can he not agree to sell Mingguang Electric, in the end, it can only take the form of cooperation where both parties contribute separately.” Han Zhong of course understood Ji Feng’s mind, in fact, any boss, would like to be both people and money, but this also depends on the other party’s wishes ah.

“However, I also considered the possibility of strife in the future, so when we were negotiating, Li Xin did agree to a condition that the cooperation between the two parties, as long as one of them does not agree, the other party cannot withdraw its capital.” Han Zhong suddenly said, “In fact, I see that Li Xin’s attitude, not agreeing to the acquisition, is only unwilling to be bound, but in fact, he is still very enthusiastic about the cooperation.”

“With this condition, to the point that it is also possible to do so!” Ji Feng nodded and smiled, “There is no perfect thing in this world? Li Xin there, we still slowly do the work, this can be left to you.”

“I will continue to do his work, in addition, you look at this plan, I plan to take the extra talent, all put into the new company, let them start from scratch, get started faster for sure.” Han Zhong said.

Ji Feng nodded thoughtfully and looked at it carefully.

Chapter 1100

After carefully reading Han Zhong’s plan, a stone in Ji Feng’s heart finally fell to the ground.

Although it was only a rough plan, Ji Feng could still see some clues from it, Han Zhong had obviously put special care into it and had also considered almost all possible situations.

For example, considering that those talents transferred from the Rongpeng Group might not be too comfortable with the new working environment, Han Zhong intended to keep them away from any of the existing businesses of the Tengfei Group for the time being, whether it was the pharmaceutical industry or the Tengfei Network Company.

All they had to do now was to rest and take a good rest.

And then, Han Zhong intended to let these people start forming the new company immediately, as the pharmaceutical industry of the Tengfei Group had now stabilised, so now Han Zhong could also take time out to lead these people together and start recruiting talents and carrying out various preparations for the new company.

These people were already talented enough, and now that they are allowed to grow with the company, they will obviously know the company best once it is formed.

In this way, they will all be able to find the most suitable positions and know what they should do without creating confusion.

Because the current location of the headquarters of the Tengfei Group is still in the office building of the Tengfei Pharmaceutical Factory, and there are still many empty rooms in this building, so it is perfectly possible for the new company to be set up directly at the headquarters.

As for the accommodation of those people, there are staff dormitories in the pharmaceutical factory, and the frontline production staff live in four rooms, while the management staff, live in double rooms or single rooms. These dormitories were all built in the past when Xiao's Pharmaceutical Factory was built, so there was no need to worry at all.

Accommodation, work, there would be no problems in any of these areas.

"In the process of forming the new company, we can also take the opportunity to see who is suitable and who is not."

Han Zhong laughed: "Ji Feng, there are some things I can say up front, although all these talents came from the Rongpeng Group, but there is still a big difference between our place and the Rongpeng Group after all, even if they are more talented, but if they can't adapt to the work here, I still have to think about it."

Although Ji Feng was actually the boss of the Tengfei Group, Han Zhong, as the general manager, would naturally have his own considerations.

In fact, Han Zhong's meaning was already very clear, he was clearly and unmistakably stating that as the general manager, he had to think about the whole group. It did not matter where these people came from or how much talent they had, but the most crucial point was whether they could bring benefits to the Tengfei Group!

If you can bring benefits, then even if you are just a primary school graduate, I will still use you, moreover, you will also get the treatment and salary that is in line with the benefits you bring, this point is not said.

However, if you don't bring enough benefits to the group, then I'm sorry, no matter what you are, it won't work. Even if you are a top student from a world renowned institution, I will still not use you because you are just a waste of food with me, that's all.

"That's of course, what people to use and what positions to give them, it's all up to you, I won't ask questions." Ji Feng nodded and smiled, "I only have one request, as long as they are useful talents, you should try to keep them and let them give full play to their energy and create value for the group."

"With this word from you, then I can let go of my hands and do my work." Han Zhong laughed.

Ji Feng put the documents in his hand on the table and said, "Form a new company as soon as possible, or hang it under Yu Xuan's name, now that the illusory three-dimensional light screen technology has matured and the program has all been written, it's time to get started."

Han Zhong nodded and said, "It's already in progress, now Mingguang Electric's side has already started trial production, as long as the assembly line and all technical parameters and indicators are adjusted, it can be put into production at any time."

"Mm!"

Ji Feng nodded with satisfaction and said, "That's good. Right, there is one more point, the secrecy measures must be done well, because once the news about this technology gets out, when the time comes, I don't know how many people with a mind to visit ah, Han Zhong, in terms of technical secrecy means, there is definitely no problem, and security aspect, also need to be strengthened!"

"Don't worry, I know what to do." Han Zhong nodded his head.

Afterwards, the two talked about some more details, and suddenly the issue of Kang Yuan's slimming powder being copied came up again.

Han Zhong said, "Li Xin has some unique views on this issue, Ji Feng, why don't we find a chance to sit down together and discuss it in detail then?"

Ji Feng then smiled, "Good, for this Li Xin, it's really time to find an opportunity to talk to him properly."

As soon as Han Zhong finished speaking, Ji Feng understood what he meant. Han Zhong wanted Li Xin to participate in the affairs of the Tengfei Group, so that he could form a sense of belonging to the Tengfei Group in a subtle way.

The fact that Li Xin's ability is not needed to be mentioned anymore, having such a great talent join the group will definitely be of great benefit to the Tengfei Group.

"That"

The company's main business is to provide a wide range of products and services to the market. That woman is also a very capable person. And as far as I know, her Rong's Ventures isn't running any business right now, do you think you can think of a way to get her over here as well?"

Sweat!

Ji Feng instantly let out a bitter laugh, "Han Zhong, you know Rong Suyan too?"

"Miss Rong Peng Group, suddenly came to Jiangzhou and opened a venture capital company, of course such things spread fast, I don't know how many people are staring at her, I heard that there are even a few big bosses that want to work with her." Han Zhong laughed, "I'm thinking, since you can get so many talents from Rongpeng Group, you have some friendship with her more or less, right? How about"

"Let's talk about it." Ji Feng laughed.

Han Zhong then laughed heatedly and said nothing more, he knew that Ji Feng must have a plan in mind.

After staying at Han Zhong's place for about two hours, and after that, Ji Feng went to Xiao Yuxuan's office and saw that she was seriously reading documents, so Ji Feng didn't bother her much, he just said hello to her and left the headquarters of the Tengfei Group, took the white spider with him and drove to the United University.

Since Tong Lei could see that something was wrong with Zhang Lei, Ji Feng wondered if something else had happened in between after he left Jiangzhou.

“Ding”

On the way to Union University, Ji Feng’s mobile phone suddenly rang, he took it out and looked at it, but found that the caller, was an unfamiliar landline number, and looking at the area code it was local to Jiangzhou.

Ji Feng picked up the phone and asked, “Hello, this is Ji Feng, who is this?”

“.....” No one spoke on the other side of the phone, only the very faint sound of breathing came through, occasionally there was some movement, but it wasn’t the other party talking, it seemed to be the TV playing.

“Hello, which one?!” Ji Feng aggravated his voice and asked in a deep voice.

He was also alert at the same time, because at this time, he suddenly recalled the threatening phone call he had received from the Boundary Canopy area, and the spiteful words coming from the other end of the phone were still fresh in Ji Feng’s mind even now. Now that he had received such an unfamiliar phone call again, he could not help but think more about it.

Ji Feng was just about to signal Bai Spider to pull the car over and prepare to quietly manoeuvre with the other party when the sound of talking suddenly came from the phone, but that voice, however, made Ji Feng unable to help but be slightly startled.

“Hello, is that dad?” What came from the phone was surprisingly a very childish voice, brittle and soft, it sounded like this voice was full of innocence, as if it was from a carefree little child, and it also sounded, so familiar.

In Ji Feng’s mind, a young figure immediately emerged, and he instantly smiled, “It’s Yao Yao, right?”

“Mmm! It’s me, you’re really daddy!” The voice on the phone suddenly cheered up, “Daddy, your voice was so scary just now, I thought I had called the wrong number!”

Ji Feng couldn’t help but laugh dumbly, the person who called him was actually Qin Shuyi’s daughter, Qin Yunyao.

Thinking of that little girl’s cute appearance, Ji Feng couldn’t help but smile, “Yao Yao, why did you want to get up and call me? Is there something going on?”

“No, daddy, I just miss you, why haven’t you come to see me and mommy for so long?” The little girl’s voice was childish, full of childishness and innocence, which would put anyone who heard it in a cheerful mood.

Ji Feng smiled, “Well, I miss Yao Yao too, but daddy is busy with work, so I’ll go see you when I’m free, okay?”

“Daddy has to keep his word, no lying!” The little girl was instantly happy.

“Mm, no cheating!” Ji Feng laughed.

“Then daddy, you work, remember to come and see Yao Yao!” Little girl said in a crisp voice.

“I’ll definitely go.” Ji Feng said.

The little girl immediately said sweetly, "Mmm! Bye Daddy!"

"..... Bye!"

After closing the line, Ji Feng couldn't help but smile faintly, this little girl was indeed very cute and understanding, it was really endearing.

It's just that

Thinking about Yao Yao, Ji Feng couldn't help but think of her mother, Qin Shujie.

He then had more or less a headache. Through the last contact, Ji Feng certainly understood Qin Shujie's feelings. But the question was, could he accept her generosity?

The first thing you need to do is to take a look at the situation. From the initial misunderstanding between the two of them on the bus, to the later seeing Qin Shujie in the kindergarten to the later further friendship all the way to the present

Chapter 1101

With a somewhat melancholy mood, Ji Feng arrived at the United University, Bai Spider parked the car and asked, "Young Ji, let me go in with you too."

Ji Feng smiled, "Forget it, there's no danger in this school, you can drive out for a stroll and pick me up when school ends in the afternoon."

White Spider had been a teacher at United University for a short time, but, with her looks, she had long attracted the attention of many people and had even become the dream girl of many boys. For example, when the new semester started last year, it happened to be the day when the new students reported to school, and Bai Spider had just appeared not long after that, attracting many boys to look around.

It was at that time that Ji Feng first met the White Spider up close and personal, so his impression was very deep.

If Ji Feng walked into the campus now with the white spider, it would definitely cause an immediate stir and he, Ji Feng, would definitely become the focus of conversation among these students immediately.

Although Ji Feng himself didn't care much, he still didn't really want to be in the limelight, being a human being, it was better to keep a low profile.

"Then I'll wait for you here." Bai Spider said.

Ji Feng shook his head helplessly and laughed, "It's only morning, I won't come out until after school in the afternoon, you can find something to do on your own, you don't have to wait here, okay?"

"It's okay, I can practice aerobics here!" White Spider said.

"..... Then how about this, you just drive the car in and I'll find a place for you to practice." Ji Feng said.

It was still hot outside, so it wasn't appropriate to let Bai Spider wait in the car alone, and he was helpless to Bai Spider's insistence, so he could only think of another way.

Only then did Bai Spider nod and agree, and drove into the campus.

On Ji Feng's side, he started to practice with Han Zhenfeng, the president of the Martial Arts Association, hoping to borrow their training hall.

"Ji Feng!"

As soon as Ji Feng and the two of them arrived at the Martial Arts Association's venue, Han Zhenfeng walked over with a smile on his face and shook Ji Feng's hand, "You're a rare guest, you couldn't even be invited in the past, why do you remember to come to my place now instead?"

In the past, there was a conflict between the Martial Arts Association and the Taekwondo Association, and during the competition, Ji Feng and Du Shaofeng saved the day, sweeping the entire Taekwondo Association, and even crushed the black belt expert from Kerry in one move, which was an eye-opener for Han Zhenfeng and the others.

From then on, Han Zhenfeng immediately invited Ji Feng to join the martial arts association, calling several times and trying to get through to Ji Feng through Du Shaofeng, but in the end, Ji Feng politely refused.

But now, Ji Feng was the one who took the initiative to come, so Han Zhenfeng couldn't help but make a couple of jokes.

"Alright, General Assembly President Han, there is something to trouble you today." Ji Feng laughed, "Does your venue have any kind of small separate venue? For example, the kind of arena where only a few people train alone, not with other members, is there one?"

"What, you want to come?" Han Zhenfeng immediately asked.

Ji Feng smiled, "No, it's a friend of mine who has nothing to do, so he plans to find a place to exercise, you have it here"

As he spoke, Ji Feng pointed to the white spider beside him.

"Of course it's no problem!"

When Han Zhenfeng saw the white spider, he was slightly stunned, then he smiled, "Now our martial arts association is not what it used to be, the venue has doubled in size, and even the ground floor has been rented by us, there are several small venues above that are partitioned off and are specifically for some people to train alone, it just fits your requirements, come with me!"

"Oh, thanks a lot then." Ji Feng smiled.

The duo followed behind Han Zhenfeng and went straight from the corridor on the ground floor of the complex to the Martial Arts Association's hall, where Ji Feng saw that there were indeed several compartments almost the size of a room.

"Ji Feng, right from the time you and Old Du swept through the Taekwondo Association, the fame of our Martial Arts Association spread through the school and the membership increased dramatically, soon that training hall in the basement was no longer able to accommodate, so we took on the lease of these rooms up there as well."

Han Zhenfeng smiled, "The rooms are not very big, are they satisfactory?"

"It's enough, Chairman Han, thank you." Ji Feng said with a smile.

Practicing aerobics didn't need much space, because those movements in aerobics were basically some in-situ movements, even the area of a bed was already enough.

"Still so polite with me, huh?" Han Zhenfeng waved his hand and laughed, "You take a large part of the credit for the Martial Arts Association being where it is today!"

Ji Feng shook his head with a smile and greeted Han Zhenfeng and Bai Spider separately before turning around to leave.

And then, he called Zhang Lei directly.

"Crazy person, what are you looking for me? There's an exam coming up, no need to revise, huh?" Zhang Lei's voice came over.

Only then did Ji Feng breathe a slight sigh of relief, from the sound of it, Zhang Lei's voice did not sound different, it seemed that not much had happened during this period of time, Zhang Lei was not someone who liked to disguise his emotions, if he had any unhappiness in his heart, he would have said it long ago.

"I'm back from Yuezhou, now I'm near the pool in front of the complex, come out and talk!" Ji Feng said with a smile.

"Be there in ten minutes!" Zhang Lei said and hung up the phone.

Ji Feng couldn't help but shake his head and smile, "This guy, still has such a breezy look!"

A few minutes later, Zhang Lei arrived at a quick jog all the way.

Seeing that he was slightly out of breath from running, Ji Feng couldn't help but laugh, "Why are you in such a hurry?"

"I'm not in a hurry, I'm seizing every possible opportunity to exercise!" Zhang Lei laughed heatedly.

"Why?" Ji Feng was a little surprised, "Isn't your physique good enough? I see that even those athletes in the sports department may not be able to match you, right?"

"Can't help it, can't do without exercise!" Zhang Lei couldn't help but shake his head and said, "I'm under heavy pressure now, if I don't work hard, my daughter-in-law might have to run away with someone else, do you think I have to work out hard?"

"Wait!"

Ji Feng was slightly stunned and immediately asked, "What does that mean, why don't I understand it?"

Is there any necessary connection between exercising and a daughter-in-law?

If it was that Zhang Lei's body was too fat and he wouldn't be able to find a girlfriend if he didn't lose weight, then Ji Feng could still understand. However, now Zhang Lei's physical condition was already quite good, if he took off his shirt, those eight-pack abs were not even a cover, and his hands and strength had also grown significantly, so how was this related to his daughter-in-law?

“Is that what Shen Jingyi said about the martial artist rank that you must attain? I seem to remember that she told you to have to reach the middle Houtian stage, right?” Ji Feng suddenly remembered something and couldn’t help but ask.

He remembered that back then, on the day he last encountered Hu Xuehui, the day Xiao Changhe suddenly became ill and was taken to the hospital, Shen Jingyi told Zhang Lei that she wanted him to reach the middle Houtian stage as soon as possible.

It was from that time that Ji Feng learned that in the martial arts world, there were still gradations among martial artists. And he also learned that this set of body-building exercises that he practiced was actually a magical body-building exercise that could bail a person straight from an ordinary person with no kung fu whatsoever all the way to the Ascendant realm!

Now when Zhang Lei said he was under pressure, Ji Feng couldn’t help but think of this matter, other than that, Ji Feng really didn’t know what else could cause pressure to Zhang Lei.

As expected, Zhang Lei smiled bitterly and nodded his head when he heard what he said, saying, “It’s not just this matter! Crazy, you don’t know, I’ve been so worried these past few days, I can’t figure out how to understand, what she said about the middle Houtian stage, is it really that important?”

Ji Feng laughed, “Shen Jingyi asked you to reach the middle Houtian stage, this is probably what her family asked of her boyfriend.”

Zhang Lei couldn’t help but shake his head and said, “To say that her family is really foolish, what era is it now? The age of hot weapons! Granted, having good hands is attractive to any man, but how good can they be?”

He spread his hands and said, “Can you live forever if you cultivate the way they do? After a hundred years, they will still be a handful of yellow earth? Practicing martial arts and having super strong hands, that can only be a hobby for amateurs, especially for me, martial arts can protect myself and save people at critical moments, that’s enough, why do I have to pursue to reach the middle stage of something or other!”

Ji Feng nodded, in modern society, martial arts indeed did not play much of a role anymore, especially as far as Zhang Lei’s status was concerned. He loved martial arts, but didn’t necessarily have to make a living out of it, when the interest turned into a profession, it was a responsibility and pressure.

“Then why do you still work out so hard?” Ji Feng asked with a smile.

Zhang Lei scratched his head and said helplessly, “A few days ago, Jing Yi told me that her family already knew about the two of us, and it was said that they were very unhappy that Jing Yi had found a boyfriend who didn’t know martial arts, and seemed to want to let Shen Jing Yi go back.”

“Not letting her go to school anymore?” Ji Feng asked in surprise.

“Who knows!”

Zhang Lei hummed, “I guess it’s about the same, Jing Yi guessed that once she went back, it would be hard for her to come back, even if her family let her continue to go to school, I’m afraid they would let her go to another school, or just study abroad.”

“So, what is Shen Jingyi’s attitude?” Ji Feng asked.

Zhang Lei said, “Of course she is unwilling to leave, but she can’t disobey her family’s words, she is caught in the middle and it’s difficult.”

“Then what purpose can your frantic practice here serve?” Ji Feng asked with a frown.

“First, we should train our hands well, and try to meet her family’s requirements, if we can’t, we can run away with respect if we have a good body!” Zhang Lei laughed.

“You guy” Ji Feng lost his smile.

“Crazy, how far do you think I’m from the middle Houtian stage in terms of my current body?” Zhang Lei suddenly asked.

Chapter 1102

Ji Feng was slightly stunned, then shook his head and laughed, “I’m not too sure about the ranks of those martial artists, other than hearing Shen Jingyi talk about the names of those ranks, but exactly how they are divided, I’m hard to catch.”

“Wouldn’t you say that’s pretty fucked up!” Zhang Lei couldn’t help but curse, “Those what martial artists are also very bullshit, it’s not like practicing martial arts can lead to immortality, at most it’s more powerful than ordinary people, how can they still go to heaven and earth? You have to do so many tricks to make yourself look so noble”

The first thing you need to do is to get a good idea of what you’re doing.

However, Shen Jingyi’s family was so good that they had to choose her boyfriend based on the level of her martial arts skills, why didn’t they say that whoever could live forever was worthy of being Shen Jingyi’s boyfriend? This is bullshit!

“People, they can earn money if they don’t have it, and they can fight for other people’s approval if they don’t have status, and they can get all these things through their own efforts.” Zhang Lei said, “But, this kung fu”

Ji Feng laughed, “That is no trick. However, the daughter is someone else’s, what kind of rules they want to set, that is all their freedom. You are unsuitable, but there will definitely be someone suitable ah, the Shen family’s people will definitely not let Shen Jingyi not be able to get married.”

“I say madman, you brat came over here today just to flirt with me, right?”

Zhang Lei instantly glared as he bared his teeth, “Shen Jingyi is my girlfriend, no one else will try to steal her away, or else I’ll play with them!”

Ji Feng instantly laughed, “Then since you have this determination, what else is there to be afraid of?”

Since Zhang Lei dared to go against all odds, there was no one who could stop them, no one. Not to mention the Shen family, even if Zhang Lei’s parents opposed it, I’m afraid it wouldn’t help. As for Zhang Lei’s character, Ji Feng still knew it very well, this guy would really look like a madman if he got crazy!

Who knows, Zhang Lei couldn't help but shake his head slightly and said: "In other matters, I might be able to be crazy, but in this matter, I really don't dare to mess around. Because no matter how messy it is, the one who ends up caught in the middle is still Jingyi."

Ji Feng couldn't help but secretly nod his head, today's Zhang Lei is indeed slowly maturing, moreover, he is getting more and more calm in his actions, this is a good sign!

If Zhang Lei really wanted to go crazy, not to mention that Shen Jingyi came from a martial arts family, even if the people in his family were all half immortals, Zhang Lei would dare to gather his men and horses to fight his way in without a care in the world, this kind of thing, he would definitely do it!

But if Zhang Lei really did this, it would be Shen Jingyi who would be most upset, there was no doubt about that.

Unless the parents really don't want what's best for their children and have to force them to do something they shouldn't, no child would have a reason to hurt their parents.

Not Zhang Lei, and the same could not be said for Shen Jingyi.

"Then what are you going to do?" Ji Feng couldn't help but ask, "Are you going to continue to exercise and try to reach whatever Houtian middle stage soon, or are you going to reason with Shen Jingyi's parents and move them"

"Let's take a step and see, if possible, I certainly hope to reach the requirements of Jing Yi's family so that I can also be with Jing Yi in name only." Zhang Lei said, "Like what you said what to reason with and so on, that is all bullshit, to put it badly, that is to beg people in a lowly manner, if that is really the case, in the future in her family I can still hold up my head ah?"

"Well, good for you, you have ambition!" Ji Feng gave a thumbs up and smiled wickedly.

"Crazy, give me an accurate answer, if I keep on exercising like this, can I reach the middle Houtian stage?" Zhang Lei asked.

Ji Feng asked, "How long have you been practicing aerobics? What level have you reached nowadays?"

"It's been more than a year, and now with the second set of body-building exercises, I've almost mastered a quarter of it." Zhang Lei said, "It's mainly because I didn't stick to it too much even before, so my progress is a bit slow"

"It's not slow anymore!"

Ji Feng laughed, "This speed of your practice is not much worse than when I was practicing!"

"Then"

"Keep practicing consistently, in half a year at most, I guarantee that you can easily pass the test!" Ji Feng laughed, "By then, you can definitely scare Shen Jingyi's family's jaws off, but only if you stick to it!"

"Really?!" Zhang Lei looked at Ji Feng with some suspicion, "It's that simple?"

Ji Feng nodded, "I haven't lied to you, have I? is true!"

“Good!” Zhang Lei immediately waved his fist and said, “Crazy, then I’ll stick to practicing!”

“Mmm! Stick to practicing!” Ji Feng said with a nod.

He held his arms and looked at Zhang Lei’s combative look, but in his heart, he secretly said that he was ashamed. In fact, Ji Feng didn’t know what kind of strength was the middle Houtian stage that Shen Jingyi was talking about.

However, there was one thing that Ji Feng knew very well, and that was, if he was classified according to the ranking of martial artists, he himself should be an expert of the Innate Realm, and, back when he had not yet fully learned the second set of body-building exercises, he was already an expert of the Innate Realm.

At that time, when he fought with Tian Guodong of the Xuan Yin Sect and others, there was no doubt that the words ‘Innate True Qi’ had been shouted out of their mouths.

And just in terms of the progress of practicing body building exercises, Zhang Lei was now just a little bit worse than the Ji Feng back then, but, Ji Feng had also received training in fighting, assassination and so on in the training space of the intelligent brain, and, for the use of bio-currents, he was also much more proficient than Zhang Lei.

Right now, Zhang Lei had only practiced body-building exercises to the second stage, but he had never learned how to use bio-currents.

Therefore, if Zhang Lei fights with others, what he can use is only his strength and flexibility that he has gained from practicing aerobics, as well as his previous experience in fighting, and as for bio-current, he can only passively defend.

It is also because of these factors that Ji Feng said to let Zhang Lei continue to practice, with his current progress, at most half a year’s time, the bio-current will be able to operate in his body on its own, by then even if he does not know how to use it, he can still use the power of bio-current.

By that time, I think Zhang Lei will be enough to reach that so-called middle Houtian or whatever

In fact, for this martial artist, Ji Feng also shares the same view as Zhang Lei to some extent. You yourself can like martial arts and be intoxicated with cultivation, but there is no need to necessarily ask everyone to be like you.

What’s more, by making contact with the guy in the silver and white sports car once, plus having dealt with the people from the Xuan Yin Sect, it made Ji Feng become incomparably disappointed with those so-called martial artists.

These people, were they still the legendary chivalrous people who did righteousness and served the country and the people?

At least in Ji Feng’s view, these so-called martial artists really did not have any connection with such imposing words as serving the country and the people and practising chivalry and righteousness.

The two guys from the Qingshan Gate who met Hou Youde in Yuezhou were almost all of them with a high and mighty look, as if they were martial artists and had to be superior to others.

The two of them are the same.

So, what standard Shen Jingyi's family set for their daughter's boyfriend was their freedom and no one could say anything, but Ji Feng's impression of martial artists was getting worse and worse.

Now Ji Feng was waiting to see what kind of shock Zhang Lei would give the Shen family when he insisted on practicing!

"Lei Zi, be sure to keep practicing, it won't take long, you will definitely reach the requirements of Shen Jingyi's family!" Ji Feng patted Zhang Lei's shoulder, "Let those so-called martial artists see how good you really are!"

"As long as I can reach it, I'll die of exhaustion!" Zhang Lei said.

Ji Feng nodded and smiled, but in his heart, he couldn't help but think of that guy who was tangling with Shen Jingyi, he always felt that this guy might bring some kind of trouble.

.....

The time has entered the end of June and the final exams in the university are about to begin. At this time, even those students who don't usually come to school to attend classes have become diligent and have started to pick up the lights and fight at night.

As a result, the Internet cafes and restaurants outside the university are much less busy.

Sometimes it's good to be in the student business, but at certain times of the year, it's hard to make money. For example, during the holidays, during exams

Although the university town may seem incredibly prosperous, with several or even a dozen universities gathered in a small university town and a population of hundreds of thousands. However, once all of these people go home for the holidays, the entire university town suddenly cools down.

The difference and contrast is so obvious.

Now, for example, with exams coming up, the number of people hanging around outside the school has dropped dramatically, and the food stocked by many restaurants has only been fed to the flies.

However, there are exceptions to the rule. Right now, in front of a restaurant near Union University, there was a silver and white sports car parked in front of the restaurant, and in addition to that, there was a student, following the man in front of him, walking into the restaurant together.

They were led by the waiter, opened a private room and ordered drinks and food.

If Ji Feng was here, he would have immediately recognised that the student-like boy walking in front of them was the one he had seen before, the arrogant guy who had gotten involved with Shen Jingyi. Of course, this arrogant boy was also an expert, and even Shen Jingyi was no match for him.

Chapter 1103

"This runt of a man, is he Zhang Lei?"

In the restaurant's box, the young man driving the silver and white sports car was looking at the phone in his hand, his brow furrowed tightly as a look of disdain flashed across his eyes, "With such a look, how dare he want to be with Jingyi? It really fucking pisses me off!"

In this young man's hand, he was holding a mobile phone, and on the screen of this phone was a photo, and from that angle, it was a stolen photo.

And the people in this photo were Zhang Lei and Shen Jingyi.

Looking at the scene, it seemed that Zhang Lei and Shen Jingyi were walking together and were secretly photographed, and apparently neither of them had any notice of it.

"Young Tan, it's not just this one, there are a few more at the back, they are all taken very clearly, take a look." A student-like young man sat opposite, full of smiles as he invited credit: "This was taken when Zhang Lei and Shen Jingyi were walking in the playground, I hid in the crowd, there were quite a lot of people, they didn't find me"

The young man known as Tan Shao smiled and immediately frowned, asking in surprise, "Walking in the playground? Are you sure they were just on the playground and didn't go anywhere else?"

"This" The young man opposite him was slightly stunned at once, "I can't be sure about that, but I've been watching Zhang Lei at the entrance of the boys' dormitory for several days, and every time I've seen him probably after dinner, before going to The playground accompanied Shen Jingyi for a walk, and when they went to a less crowded place, I didn't dare to follow them over for fear that they would find out!"

That young Tan's face became a little ugly as he flipped through a few more photos, a cold glint in his eyes. In these photos, Shen Jingyi was holding hands with Zhang Lei, with a happy smile on her face, and, there was actually a photo taken when they were playing around!

"After they left the playground, you didn't dare to follow them down"

Young Tan's face was gloomy, his gaze fixed on Zhang Lei and Shen Jingyi holding hands together, and he couldn't help but snort coldly, "You all eat dinner at five or six o'clock, right? They always go for a walk only after dinner, and after the walk it happens to be dark, so where do they go next and what do you don't even know?"

The young man sitting opposite him shook his head and said, "That's not known."

Bang!

The phone was dropped on the floor in one fell swoop, instantly scaring the young man.

"Motherfucker!"

Tan Shao, however, cursed angrily with a grim face, "This bastard Zhang Lei, he's simply deceiving people too much! What qualifications does he have to be with Jing Yi? Who is he? Jing Yi too, she doesn't know how to respect herself, nor does she know how to love herself!"

He was furious, his chest heaving violently, just feeling full of anger with nowhere to vent it.

“And you, it’s no use at all. You followed them, why didn’t you follow them to the end? Even if they found out, so what?” Tan pointed at the young man’s nose and scolded him angrily, “I gave you so much money, just to let you take a few pictures and that’s the end of it?”

The young man was scolded, but he didn’t dare to say a word back.

“You remember, now you go back immediately, just follow Zhang Lei all the time, you can’t leave him for a moment, otherwise, not to mention giving you money, you kid will spit out the money you had before!” Young Tan said angrily.

“Yes, yes, yes!”

The young man nodded his head in a panic, but then he said hesitantly, “But Young Tan, the exams are coming up soon, and I don’t have that much time

“Examinations?”

Tan Shao was stunned, then he couldn’t help but coldly snort and said, “I’m so mad at you bastards that I forgot that the holidays are coming soon Okay, let’s forget about the exams for a few days, you keep an eye on that bastard Zhang Lei first, and after your holidays, you go back a few days later and keep an eye on Zhang Lei for me. Remember, as soon as Shen Jingyi leaves school, you inform me!”

“But Young Tan, I can’t keep an eye on him during the exams!” The young man said.

“Bullshit!”

Young Tan immediately opened his mouth to scold, “What are you doing for exams? It’s not to find a job and make money later? As long as you do a good job and do all the things I’ve entrusted to you, the slightest leak in my fingers will be enough to earn you for the rest of your life.”

A hesitation flashed across the man’s face, and he wanted to say something else, but Tan Shao’s face sank, “What, do you think I’ll only give money, but not punishment?”

“Humph!”

Tan Shao coldly snorted, stretched out a finger and knocked on the dining table in one go.

Dang!

The young man was dumbfounded, and without seeing Tan Shao’s strength, a piece of the tabletop that his finger had struck was knocked off with a thud, and the tabletop, which was two to three centimeters thick, was knocked into a hole!

A look of shock and fear flashed in the young man’s eyes, this was just a light finger, what if it was a punch?

What if it had been a punch to the head?

What if it had hit his head?

In this instant, that young man's face changed, and there was no longer any hesitation on his face as he immediately nodded and said, "Don't worry, Young Tan, I will keep a close eye on Zhang Lei and definitely follow your arrangement!"

He realised that this was an opportunity.

This young Tan in front of him was definitely not an ordinary person, driving a sports car and being so powerful, this young Tan might be the young master of any family, if he could really reward him with a meal, it would be better than finding any job!

He nodded in satisfaction and said: "That's right! Remember, if you follow me well, you'll definitely be better off than going to school. You see, I'm not going to school now, am I? If you have money and power, it's better than anything, remember?"

"Yes!"

The young man immediately nodded, "I remember."

"Well!"

Young Tan waved his hand, "Go on."

That young man looked at the table of good wine and food and secretly swallowed his saliva before he turned to leave. But he had just taken a few steps when he turned around again, a look of hesitation on his face.

"What's wrong again?!" Young Tan asked impatiently.

"Young Tan, I, I don't have this mobile phone, instead how can I contact you?" The young man took a look at the broken phone on the ground and was secretly distressed, although it was only a second-hand product bought for a hundred dollars or so, it was still something he had managed to get, and it was like a treasure when he bought it, but now it had been broken by Tan Shao at once.

"Look at you!" Tan Shao took out a few notes from his wallet and threw them at his face, "Take it and buy a new one!"

"Hey hey! Thank you, Young Master Tan!" The young man hurriedly nodded his head and joyfully picked up the banknotes, adding, "By the way Young Tan, when that exam comes, Zhang Lei and I won't be in the same class either, so I won't be able to get into his exam room by then"

"Get lost!"

Young Tan suddenly shouted angrily, "Don't bother me here!"

The young man also realized that he had asked something wrong and hurriedly picked up the phone and banknotes on the ground and left in a mess.

"This stupid bastard!"

Young Tan couldn't help but shake his head and curse, "To think that I, Tan Tianfeng, am so wise, why did I find such a stupid bastard! If it wasn't for the fact that there was no one else available within the

United University, how could I have used him! It's also all the fault of that deputy director of the United University heck, what is this all about!"

He couldn't help but shake his head and grunt coldly in exasperation.

This young man, was a deputy director of the United University that Tan Tianfeng had approached through his connections, asking him to introduce a boy from a poor family for himself to use to investigate people related to Shen Jingyi. It was because people from poor families were better to manage, as long as they were paid.

At least, this was what Tan Tianfeng thought.

But he didn't expect that the deputy director would find such a stupid person for himself.

Immediately, Tan Tianfeng remembered the photos in that phone, and his face became even more gloomy.

"Zhang Lei"

Tan Tianfeng couldn't help but sneer, a cold glint in his eyes, "All still holding hands? Hmph! You just go ahead and hold it, I won't move you now that you have Jingyi with you, wait for a few days after your vacation, when Jingyi is no longer in your way, I'll let you hold it properly again Humph! I'll see how you can still hold hands when your hands are broken by then"

"Not only will I break my hands, I'll stomp you to death so that Jing Yi can see clearly that you're just a worthless useless thing!" Tan Tianfeng sneered, "..... Wait for death you!"

.....

The day passed in a flash and the time came to the afternoon, when the last bell rang, all the classes for the day were over.

Once again, Zhang Lei and Shen Jingyi came together to walk and chat on the playground.

However, ever since they arrived at the playground, Zhang Lei had never been honest, and he was bouncing and jumping when he walked, stretching his arms and kicking his legs from time to time, and finally, he said hello to Shen Jingyi and ran straight away.

"Zhang Lei, we are out for a walk, not for sports, why have you turned into a runner?" Shen Jingyi asked in amazement as she also followed behind.

"I'm not trying to seize all the free time to exercise, so that I can reach the level your family requires as soon as possible!" Zhang Lei laughed as he ran, "Besides, even if I can't reach your family's requirements, then if I practice running well, won't I still have an advantage if I take you on an elopement in the future?"

"Bah!"

Shen Jingyi spat lightly and snapped, "Is that the best you can do? Only thinking about eloping"

Zhang Lei heatedly smiled, "Jingyi, I didn't have much talent in the first place, you know that, and besides, you don't necessarily see me for my talent, right?"

Shen Jingyi stopped and looked at Zhang Lei's back as he gradually ran away, and she smiled gently.

She seemed to be saying to Zhang Lei, and seemed to be saying to herself, "Of course not, you fool who forced you to have to be brilliant ah, I just want to save face for you, I don't want people to bully you"

"This pair ah"

At this time, Ji Feng but also in the playground, he looked at Zhang Lei and Shen Jingyi figure, can not help but shake his head a smile, looks like, Shen Jingyi to Zhang Lei is still very good, this is good!

Suddenly, Ji Feng's brow was but a slight frown, he saw a figure very strange?

Chapter 1104

The figure that Ji Feng saw was a male figure who was not very tall. At this moment, this person was constantly cutting through the crowd, holding a mobile phone in his hand, which he seemed to be picking up from time to time to take pictures.

The direction of that phone, however, was always towards Zhang Lei and Shen Jingyi.

Ji Feng then couldn't help but raise an eyebrow and secretly said, "Is it because too many things have happened during this period of time, making his nerves tense up as well?"

It was reasonable to say that there should not be anything like being followed in school, although schools nowadays were not the pure ivory towers they were back then, and the students inside were all influenced by some of the money worship in society, and of course, there were also some other bad habits, such as judging people by their appearance, laughing at the poor, and so on... ..

However, this is all just a social pattern, to say that when it comes to stalking, there is really very little of it. In particular, although this guy Zhang Lei has a hot temper, he honestly doesn't have many enemies, so why would people want to stalk him?

Considering these, the suspicion in Ji Feng's heart dissipated quite a bit.

When he looked at the slightly skinny boy again, he found that he had already turned around and seemed to be watching someone else play basketball on the playground, and applauded from time to time, nothing unexpected appeared.

Ji Feng couldn't help but shake his head and smile, it really looked like he was being too paranoid, perhaps this was also a kind of weak hearted feeling.

In fact, Ji Feng was the one who really followed Zhang Lei and Shen Jingyi.

When he arrived at the playground, he didn't tell Zhang Lei.

It was because he wanted to secretly see how far Zhang Lei and Shen Jingyi had gotten, and if it was really like Zhang Lei said, that their relationship was as good as ever. Therefore, after class, Ji Feng also secretly came to the playground, because he knew that Zhang Lei and Shen Jingyi had the habit of coming to the playground for a walk at this time every day.

As expected, today he likewise saw Zhang Lei and Shen Jingyi again, and looking at them, not only were they talking and laughing without the slightest difference, but Zhang Lei was also behaving the same way in front of Shen Jingyi as he was in front of himself, all with that sports fanatic look.

In this way, Ji Feng was also relieved.

In fact, what Ji Feng was most worried about was that Zhang Lei would get some radical idea because of what happened to Shen Jingyi and end up hurting himself again. After all, he didn't know exactly what Shen Jingyi had told Zhang Lei in the first place, and he didn't know how much Zhang Lei actually knew.

What's more, there was that guy in the silver and white sports car, and if he suddenly came looking for Zhang Lei's trouble

From the way Zhang Lei is acting now, Zhang Lei even though he has heard himself say that there is a guy in a sports car pestering Shen Jingyi, he so did not put that guy in mind, instead he looked at the request of Shen Jingyi's family very seriously.

However, Zhang Lei did not know that even though he had passed the hurdle of Shen Jingyi's family, the guy in the sports car might be even more troublesome than Shen Jingyi's family.

Exactly where the trouble is, Ji Feng can't say for now, but one thing is certain, at least in terms of force, there should still be a certain gap between Zhang Lei and that guy now. What was especially important was that Zhang Lei was now fighting people, relying on the experience he had accumulated during his previous fights, with very little real skill.

"When this guy practices aerobics for a while longer, he should be taught some fighting skills" Ji Feng deliberated secretly.

He glanced at Zhang Lei and Shen Jingyi who were jogging along and couldn't help but shake his head with a smile.

Being able to help his brother, Ji Feng was happy, there was nothing better than watching everyone around him live happily ever after.

He raised his hand to look at the time, it was almost six o'clock, so he planned to go to the Martial Arts Association's training venue to pick up the white spider, and then go home together, but as soon as he turned around, he was suddenly slightly stunned.

Ji Feng noticed that the skinny figure he had just seen had disappeared again, and he immediately turned around and looked around, but still no sign of this person.

"Just now, he was watching someone play basketball, and in the blink of an eye, he suddenly disappeared?" Ji Feng's eyebrows could not help but frown slightly, the vigilant habit he had developed from his long training in the training space made him immediately notice that something was wrong, although he could not say exactly what was wrong, but he just had this feeling.

Suddenly, Ji Feng's heart stirred, Zhang Lei!

Just now that person seemed to be following Zhang Lei and Shen Jingyi, then staring at Zhang Lei, could he not see that person?

Thinking of this, Ji Feng immediately searched for Zhang Lei's figure.

Although the playground of Union University was huge, and there was even a regular football field and several basketball courts, Ji Feng still followed the plastic track and quickly found Zhang Lei and Shen Jingyi's figures.

He immediately followed this direction and searched for the skinny figure around Zhang Lei and them

"..... So, you're actually here?!" Ji Feng couldn't help but be stunned that he had finally found that skinny figure. However, what made him laugh and cry was that the kid was actually squatting in the ditch pool under the playground toilets!

Because the playground of the United University was too big, and for the sake of more convenience for the students, the school had created the bleachers, one step at a time, to be hollow when they built this modern playground. Below the bleachers are the toilets, just a step away from the playground, next to the plastic track.

And just beyond the parapet of the plastic track was the last step of the bleachers, below which was the vent of the toilet, which was a trench pool just wide enough for a man to squat in. That skinny guy, who was squatting in that spot at the moment, was holding a mobile phone, pointing it at the backs of Zhang Lei and Shen Jingyi, and seemed to be filming?

Ji Feng couldn't help but have his scalp tingling a bit, this guy was really a talent, there was the vent of the toilet, where all kinds of smells in the toilet would circulate from, this guy was squatting next to the vent, he could actually hold his mobile phone with a calm face and play secret `filming?

"One has to admire that!" Ji Feng couldn't help but lose his smile, even though he knew that this guy was most likely following Zhang Lei and Shen Jingyi and was stealing `filming from time to time, he couldn't get angry at all.

Anyone who came across such a superb guy would probably not be able to get angry, but would instead be happy.

The first time I was in the training space of the intelligent brain, he also received training in this kind of harsh environment, that kind of taste, really not too good.

In fact, not only him, just say now some countries in the world's special forces, these soldiers in many cases will carry out some very cruel tasks, sometimes the environment is unimaginable, for example, in the mud lying motionless, how long to last.

Or, even more brutal environments.

And in order for them to adapt to this environment as quickly as possible, and also, so that they can maintain their full strength even in even harsher environments, often during training, those instructors even let them learn to live normally in such environments.

For example, next to a cesspool that stinks to high heaven, yet these soldiers are made to eat and sleep normally

That kind of stench simply makes one's stomach churn and want to vomit just thinking about it, yet, those soldiers have to eat here.

This is the only way that they can maintain the most physical strength and be able to complete their tasks no matter what the circumstances are!

It's just that that kind of training is really hard to complete without perseverance and fighting spirit beyond that of normal people, not to mention the danger of losing one's life at any time while carrying out the mission

This is why Ji Feng had to admire this guy hiding in the toilet vent, in terms of the bit of stalking and stealing `filming, this guy can actually endure the kind of special forces are somewhat unbearable pain, such a person, can really talent ah!

The first thing you can do is to see what such a talented person is up to!

"Is this guy having a crush on Shen Jingyi, or is it because he has a weird fetish of stealing `photographs of girls? Or is he actually coming after Zhang Lei?" Ji Feng's face was tinged with a smile as he secretly pondered.

In fact, the school was big and the number of students was so large that it lived up to the saying that when the forest is big, there are all kinds of birds.

Therefore, in some universities, there would be a lot of 'strange people and strange things'.

For example, some students will have some psychologically abnormal thoughts, such as stealing girls' underwear, peeping, stealing `filming' and so on, or some, have some kind of thoughts that are almost perverted in general, these are not very uncommon.

So now Ji Feng is not able to determine which kind of situation this guy belongs to, if he is just a pervert in his heart, then it's not a big deal, just be a little more on guard.

However, if this guy was really after Zhang Lei and Shen Jingyi, then it would be worth being wary.

The first time I saw him, I saw him coming out of the toilet vent and followed him as if nothing was wrong.

Zhang Lei and Shen Jingyi jogged along the plastic track for a total of about ten laps, and the guy went back and forth, one moment among the spectators on the basketball, and the next skating around the football field

But no matter which direction he was in, it must have been somewhere not far from Zhang Lei nor close to him.

The first thing you need to do is to take a look at the actual story of the man you're following.

It's also really hard for this guy.

After that, Zhang Lei finally stopped running, he walked another half lap side by side with Shen Jingyi, and only then did he leave the playground and walk towards somewhere else.

The man also immediately followed, but did not dare to follow too close, hanging on from afar.

At this time, Ji Feng couldn't laugh a bit, he guessed that this guy was most likely not a psychopath, but really came for Zhang Lei and Shen Jingyi

Chapter 1105

If this stalker was just a psychopath, wanting to play some sneak`filming or something, then he certainly would not have followed only Shen Jingyi and Zhang Lei and the two of them.

It is true that Shen Jingyi is indeed more beautiful, especially in this summer, girls usually wear less, like Shen Jingyi, only wearing a simple t-shirt and hot trousers, wearing trainers on her feet, tied in a ponytail, all over her body is full of youthful atmosphere, indeed very outstanding.

However, Shen Jingyi was not the only girl who stood out.

As far as I can see, there are a lot of girls moving around in this playground, and girls of this age, as long as they are not congenitally defective, look pretty good, and many of them even wear very revealing clothes, and some even dress up in a very sultry way.

Especially when a group of girls stand together for activities, that is a bright scenery, very eye catching.

I believe that those guys who have a mental condition prefer such places. Instead of just following a particular girl alone, if they were found out, I'm afraid they would be disciplined by the school, and if it was more serious, it would even affect their studies!

Especially since Zhang Lei and Shen Jingyi had already left the playground and the two were taking a leisurely stroll along the path, following them at this time would actually be easier to be discovered.

However, this skinny guy, on the contrary, had really followed them, so wouldn't this make Ji Feng feel strange?

Of course, it could be that this guy had a crush on Shen Jingyi, so he was specifically following Zhang Lei and the others. Under normal circumstances, this reason would make sense, but now it was a little less certain.

According to Ji Feng's observation, when this guy saw Zhang Lei and Shen Jingyi together, his face did not change much, even if Zhang Lei and Shen Jingyi occasionally hugged, this guy not only did not show any unhappiness, he acted very strange instead.

Whenever Shen Jingyi and Zhang Lei made any affectionate moves, this guy hurriedly raised his mobile phone to take pictures

If this guy was really secretly in love with Shen Jingyi, he should have been very angry when he saw Shen Jingyi making out with another man, but this guy was not.

So, Ji Feng then basically ruled out both of these possibilities. This skinny boy who was stalking Zhang Lei and Shen Jingyi should not be a psychopath, and likewise, he probably wasn't crushing on Shen Jingyi.

Since neither of these two possibilities were true, what was he doing following Zhang Lei and Shen Jingyi?

Ji Feng was instantly intrigued and just hung behind this man unhurriedly, he wanted to see what, exactly, this guy was up to.

While following this sneaky guy, Ji Feng took out his mobile phone, he also followed this guy's example and filmed all these actions of the other party, to save him from not admitting it when he was caught.

Zhang Lei and Shen Jingyi left from the playground, walked through the complex in front of the playground, and bypassed the canteen to a lawn near the library.

This lawn is not small and has some slope, next to it is a wood, in spring and autumn days, the grass on this lawn will wither away, many small couples like to sit on it, or some people who are bored with nothing will simply come here to say sunbathing.

As for the grove next to it, there were even more students coming, especially in summer, when the direct sunlight on the lawn was too hot, and this grove became the best dating spot for many couples.

Obviously, Zhang Lei and Shen Jingyi had come to this grove for a date.

And after they entered the grove, that stalker suddenly had some more hiding places, he casually stood behind which big tree, Zhang Lei and Shen Jingyi may not be able to find.

Ji Feng filmed this guy stealing` and stalking for a while longer, and took a few more photos of this guy, before he saved the videos and photos taken. Finally, Ji Feng took one of the photos that was a bit clearer and could see the guy's front side to the greatest extent possible, and prepared to send it to Zhang Lei.

"Lei Zi, do you know this guy?" Ji Feng attached this sentence to the photo and finally sent it out.

After a few moments, Zhang Lei's text message came back, "I don't know him, but it seems to be a guy from the same dormitory building as me, I have a slight impression, but I don't know exactly who he is, why are you asking this?"

Seeing this text message, Ji Feng laughed, he directly dialed Zhang Lei's number.

"Hey, crazy, what are you asking that guy for, is there something wrong?" As soon as he got on the phone, Zhang Lei asked, "Why do I look at the background of that photo and it looks a bit familiar? It's our school, right?"

Ji Feng suddenly lost his smile, "So what do you think? You just walked past it and you don't remember?"

"..... what?" Zhang Lei didn't react for a moment, "I just walked past? Crazy, I don't quite understand what you mean!"

Ji Feng laughed, "You're with Shen Jingyi now, right?"

"Yes!" Zhang Lei said, "Jingyi and I just finished our run and are now in the grove next to the library No, madman, how did you know? Are you you really following me?"

"Don't turn around!" Ji Feng immediately said, "Lei Zi, you listen carefully, no matter what I say you don't turn back."

As he spoke, he kept a close eye on Zhang Lei, and sure enough, he found that he only gave his body a slight lurch, and then continued to listen to the phone as if nothing was wrong.

“Crazy, say it, what is it that you are so secretive about?” Zhang Lei asked.

Ji Feng said in a low voice, “Lei Zi, now not only am I following you, there is another person who is also following you and Shen Jingyi, see that photo I sent you? That kid up there has been following you guys since the playground, and now he’s right next to the grove”

He told Zhang Lei what he had seen from the beginning until now, “Lei Zi, I think this kid is up to no good, you pretend to walk back, I’ll block this end, let’s catch him and ask what this kid is really up to.”

“Good!”

Zhang Lei immediately said, “I’m having a hard time holding back this time, so someone is coming to touch the bad luck, I’ll catch him!”

After saying that, he immediately hung up the phone and said something to Shen Jingyi.

After that, Zhang Lei and Shen Jingyi turned around talking and laughing, and seemed to be preparing to leave the grove. Immediately, the guy who was following them behind, said that he was so scared that he immediately turned around and hurriedly had to go outside first.

“Pop!”

Before this small and skinny boy could take a few steps, he was suddenly startled and hurriedly stopped in his tracks. He found that a tall boy, holding his arms, was standing not far away looking at him with a smirk.

Ji Feng laughed and stepped over, the boy’s face immediately flashed with a hint of panic, almost subconsciously, he wanted to turn around and run away, but as soon as he turned back, before he could run two steps, he felt a blackness before his eyes, immediately after that, he heard a bang, a sharp pain came from his chest, and his whole body directly flew up.

Bang!

The skinny boy landed heavily on the ground at once, and was thrown with a woosh.

“Humph!” Zhang Lei coldly snorted, casually hitting his shoes, his eyes staring at the boy in confusion, looking puzzled.

Ji Feng was immediately just slightly stunned, and he couldn’t help but shake his head and laugh bitterly, “Lei Zi, your boy is also a bit too violent, isn’t he? You don’t know how strong your own strength is, what if you hurt someone?”

Although Zhang Lei was still a bit short of a real expert, but against ordinary people, he could beat several people by himself, especially this boy’s figure was still so skinny, only about 1 meter 6.7 at most, Zhang Lei’s kick on his body, surprisingly, directly sent him flying, he must still be injured?

"I was in a hurry, I didn't grasp the strength properly!" Zhang Lei laughed and then said, "But this guy deserved it, he was sneaking around behind us and when he saw us spotting him, he turned around and ran away. You have to choose a good direction to run, right? Just run back and forth, huh?"

Ji Feng is also crying and laughing, to say that this kid is also really an extreme, was Zhang Lei found, and turned around and ran, saw himself not far behind him, then turned around and ran again, how come he didn't know to run in both directions ah?

"Ah"

The kid got up from the ground with difficulty, bared his teeth and covered his stomach to draw cold air, but did not dare to look at Zhang Lei and Ji Feng, did not even dare to say a word of resistance, which further confirmed the fact that he was a thief.

"Say it, why are you following me?" Zhang Lei saw that this kid was not hurt, so he was slightly relieved, but his tone was tough: "Don't think that I won't beat you just because this is in school, you saw it just now, if you dare to be dishonest, I will beat you just as much in the headmaster's office!"

"I, what did I say?" The boy said in a panic, "You don't bully people like that, do you? Just because I'm small, you can just beat me up!"

"Yoo-hoo!"

Zhang Lei laughed, "You're biting back first? If you don't, I'll dig a hole in the woods and bury you today, believe it or not!"

I have to say, this guy Zhang Lei was really fit to be a villain. Even after he arrived at the university, he hadn't changed much in terms of dressing, he still looked like that dangling punk, plus he was so tall and big that when he glared, he looked fierce and fierce, this boy was instantly scared.

"I, I was just walking around too, and, and not following you" The boy's words ended abruptly before he could finish.

Ji Feng had already held his phone up to him, and what was playing on the screen was exactly what Ji Feng had recorded earlier of this man stalking and secretly filming Zhang Lei and Shen Jingyi together.

Chapter 1106

"Well, it's time to talk, isn't it?" Ji Feng laughed.

He thought that this kid was really quite interesting, and didn't seem like a much bad person, and as Zhang Lei had said before, this kid seemed to be living in the same dormitory building as Zhang Lei, so he was just a student. That's why Ji Feng didn't use much drastic means, he just took out the evidence and forced him to admit it.

For ordinary people, Ji Feng wouldn't have that feeling of being above them, and as long as the other party didn't come to mess with him, he would never take the initiative to bully others.

So even when interrogating this kid, his methods were gentle.

This skinny boy hesitated for a moment, but seemed to have thought of something, and in the end, he didn't say anything.

"Kid, think carefully, if you don't say anything, then you won't have to go back today!" Zhang Lei had a fierce smile on his face, the two of them, Ji Feng, one singing white face and the other singing red face, scared the boy full of fear, but he just didn't open his mouth.

"Since you don't want to talk so much, we won't force you, don't worry, with me here, he won't do anything to you!" Ji Feng then couldn't help but shake his head and said, "But, your stalking Zhang Lei and Shen Jingyi for no reason has already caused them great stress, and it might affect their normal studies and lives in the future, so we can only tell the school leaders about this matter and let them deal with it!"

The skinny boy's face suddenly turned pale.

Ji Feng immediately struck while the iron was hot and sneered, "I think you should also remember that there was a university in Jiangzhou last year where a student was not only expelled from the school but also went to jail because his perverted behaviour caused a lot of disturbance to other students, remember? Your behaviour wasn't enough to go to jail, but a warning was definitely given to you, and your family will be notified!"

"Huh?!" The skinny boy exclaimed at once, his face flushed red.

"Well, I remember this matter, it seems that a student from the University of Economics and Business often stalked a girl and kept writing some extremely excessive letters to this girl, and he also" Shen Jingyi nodded beside her at once and said, "This behavior of yours is this behavior, very similar to him ah!"

"Really, will you really notify your family?" The skinny boy finally spoke up.

"You're not talking nonsense!"

Zhang Lei's face sank as he scolded, "Why is this brain of yours not enlightened? Think about it, you're following us, and when the time comes, if you can't say what the reason is, then it'll prove that there's something wrong with you psychologically, and that won't be enough to inform your family and make them take you to the doctor? Also, by then the whole school will know you're a pervert and I'll see how you can still hold your head up in school!"

The skinny boy obviously did not seem to be a person with too much heart, being so cajoled and frightened by Ji Feng's trio, he was at a loss for words and his whole body was in a panic.

"Say it!"

Ji Feng seized the moment and drank at once.

"Ah!"

The boy was suddenly taken aback and blurted out, "It was Young Tan who gave me money to do it!"

"Who is Young Tan?" Zhang Lei immediately asked immediately afterwards, not giving the boy any time to react, leaving him too late to make excuses.

However, Ji Feng was beside him and noticed that when this skinny boy said the word Tan Shao, Shen Jingyi's face suddenly changed, she opened her mouth and was almost about to make a sound, but in the end she held it back.

This scene fell in Ji Feng's eyes, making him frown secretly, it looks like things are not simple!

"I, I don't know who Young Tan is, it's just that the vice headmaster called me over a few days ago, saying that there were students from a different school that wanted to look into our school, and told me to listen to him." The boy said, "Then, Tan Shao just, just gave me money to investigate the boys who had contact with Shen Jingyi"

"What did you say?!" Zhang Lei immediately frowned, his face sank with a swish: "Investigate Shen Jingyi?"

The boy was instantly startled again and said in a panic: "Yes, it's what Young Tan asked me to do, I've never done anything else other than investigating."

"Haven't done anything else?" Ji Feng asked with a smile, "Then what's going on today?"

"Also, it was also ordered by Young Tan, after I told him about Shen Jingyi's situation at school, he got very angry and said, said", the boy stammered, somewhat afraid to say.

"Say what! You do say it!" Zhang Lei but some impatience, things involved Shen Jingyi, and out of what Tan Shao, these situations, seems to make Zhang Lei realize what, his temper also began to be a little annoyed.

"Tan Shao said that you are not worthy of Shen Jingyi, that's why he asked me to spy on you" the boy said.

"Ha?!"

Zhang Lei was suddenly exasperated as he pointed at his nose and coldly snorted, "I'm not worthy of Jing Yi, then who is? You? Or that bullshit Tan Shao?"

"That, that's what Young Tan said, I didn't say that!" The boy said in a panic.

"Humph!"

Zhang Lei coldly snorted, "What bullshit Tan Shao, I've been called Tong Shao since I was a kid, and I've been called that until now, and I haven't said yes to a single word, what is that Tan Shao, and how dare he call himself Shao?!"

"I, I don't know, it was the vice headmaster who told me to go over there!" Seeing Zhang Lei's appearance, that boy was scared in his heart and hurriedly said.

"That Tan Shao's origin, don't you deserve it at all?" Ji Feng asked with a frown.

The boy shook his head, "I don't know!"

Ji Feng asked several more questions about that Tan Shao in succession, and the skinny boy shook his head, he knew very little.

“So, what does that Tan Shao look like, you should know, right? I mean, does he have any striking features?” Ji Feng asked.

“He drives a sports car

“A silver and white one?” Ji Feng immediately took over and asked.

The boy nodded, “Yes.”

Ji Feng then understood everything, and his fears were really fulfilled. That guy in the silver and white sports car, that so-called young Tan, really brought trouble.

He couldn't help but glance at Shen Jingyi, but he saw that she too had a torn face and seemed to be in a difficult position.

Ji Feng wouldn't know what to say, things came to a head, he was somewhat unable to intervene, at least, if Zhang Lei and the three of them are really that what love triangle, then Ji Feng is certainly not going to intervene, maybe even directly a hand will Zhang Lei to drag back.

Then said to Zhang Lei: “Love triangle this kind of new trendy thing, not our brothers can play!”

However, as the exact situation was still unknown, Ji Feng could only wait and see what would happen.

Since it was inconvenient to intervene on this issue, and worried that Zhang Lei would ask himself in front of Shen Jingyi, Ji Feng immediately asked, “The vice headmaster you mentioned, which one is it?”

“It's the vice headmaster in charge of poor students, I, I approached him for a special hardship student qualification, so he knows me,” the boy said.

“Looks like this vice headmaster is not a good thing either, also Tan Shao” Ji Feng couldn't help but snort coldly.

The boy did not dare to answer, but he did not know that this cold snort from Ji Feng would probably cause the vice headmaster, who was in charge of the work of poor students, to step down from the class.

“That young Tan asked you to spy on me? How much money did he give you?” Zhang Lei suddenly asked, “You were able to find him, right?”

The boy immediately nodded and said, “He, he gave me two thousand, plus the money to buy the phone”

“I'll give you four thousand, you tell me where I can find him!” Zhang Lei said.

“Lei Zi, don't be impulsive!” Ji Feng said at once, he knew that Zhang Lei was angered by that young Tan's actions, but now was obviously not the time to be angry, or at least, not too impulsive, because, the current Zhang Lei should not be a match for that young Tan, especially if he had not learned any fighting skills yet!

“Zhang Lei, calm down first, I'll explain this matter to you later, okay?” Shen Jingyi was also startled, although Zhang Lei had not lost his temper in front of her, she could tell that Zhang Lei was definitely a stubborn and fiery temper.

But Shen Jingyi knew too well the strength of that young Tan, if Zhang Lei clashed with him, it would only be Zhang Lei who would suffer.

However, she could not say this explicitly, otherwise, she was afraid that Zhang Lei would not be able to save face and would instead insist even more on finding trouble with Tan Shao, and then things would be even more impossible to end.

“Don’t worry, I’m not looking for trouble with him!”

Zhang Lei said, “I’m just going to show that so-called bullshit Tan Shao that I’m not worthy of Jing Yi!”

“And what can you do if you go?” Ji Feng frowned and said without mercy, “I’m not afraid to tell you, I’ve met that Tan Shao, you’re no match for him, going there will only be self-defeating, he can beat you with one hand, why are you still arrogant? You think you’re great, how capable you are?”

“Ji Feng!” Shen Jingyi looked at Ji Feng in shock, how could he say that about Zhang Lei?

However, Ji Feng had no intention of showing mercy under his mouth, he sneered, “So what if you, Zhang Lei, are from the Tong family? So what if you mobilise people to besiege them? Or are you thinking of other underhanded tricks? If they challenge you, what will you do? If you meet the challenge, you will be humiliating yourself, and if you avoid fighting, this matter will be a stain on you for the rest of your life, and your face will be burning hot every time you think about it!”

In Shen Jingyi’s stunned and somewhat angry gaze, Ji Feng said indifferently, “If I were you, I would stay and honestly train well in bodybuilding first, when I have enough strength, at that time, who dares to harass my girlfriend, I will slap one by one and slap those motherfuckers to death!”

“Zhang Lei, you, you do not listen to Ji Feng here nonsense, he, he is confused” Shen Jingyi nervously pull Zhang Lei is about to leave, can not let Ji Feng say further, he is completely stimulating Zhang Lei ah, this let Zhang Lei’s self-esteem where to put?

Chapter 1107

Shen Jingyi was really furious, this Ji Feng even claimed to be Zhang Lei’s best brother!

But what was the result?

The result was that, in front of Zhang Lei, Ji Feng said a lot of things that he shouldn’t have said, and those words would be too much for anyone to bear, not to mention that Shen Jingyi also knew that, especially in front of girls and outsiders, men were the most important when it came to saving face.

If Ji Feng said this now, where would Zhang Lei’s face go?

It wasn’t that Shen Jingyi didn’t understand that Ji Feng was saying these words, most likely to calm Zhang Lei down, so that he wouldn’t be so impulsive.

But how come Ji Feng didn’t think about it properly, what kind of face would Zhang Lei have if he said these words so directly?

He’s not discouraging, he’s badgering!

“And always say how smart this person Ji Feng is, now look, he is just such a brainless dude, just slightly different from the average dude likes to pretend to be deep!” Shen Jingyi fiercely glared at Ji Feng and secretly said in her heart.

With that, she pulled Zhang Lei to leave.

However, Ji Feng did not have the slightest worry, after he finished these words, he just stared straight at Zhang Lei, with a faint smile on his face, waiting for Zhang Lei’s answer.

In fact, Ji Feng didn’t even think that what he said would make Zhang Lei lose face, nor did he think that Zhang Lei would be infuriated by it.

Admittedly, what Ji Feng said about Zhang Lei was indeed not leaving the slightest bit of mercy, especially when both Shen Jingyi and the skinny boy were present, and these words were more likely to embarrass Zhang Lei immensely.

However, Ji Feng still said it without any scruples.

The reason for this was that he believed that the brotherhood between him and Zhang Lei was not at all comparable to this so-called face or pride or anything like that. He knows Zhang Lei and knows that this guy can definitely tell what is more important and he definitely understands who is good for him!

If this kid Zhang Lei couldn’t even stand such a bit of sarcasm, what the hell would he be doing?

“Zhang Lei, let’s go, I’ll make things clear to you!” Shen Jingyi pulled Zhang Lei and was about to leave.

However, something unexpected happened to Shen Jingyi.

Not only did Zhang Lei not follow her, instead, he casually pulled her back.

“Huh” Zhang Lei suddenly laughed.

“Zhang, Zhang Lei, are you okay?” Shen Jingyi looked but worried badly, and she immediately asked nervously.

“What can happen to me? You think that if Ji Feng says a few words about me, I’m going to do something about it, right?” Zhang Lei laughed, “Jingyi, it’s not strange for you to think that way, mainly because you don’t know Ji Feng yet.”

He pointed at Ji Feng and laughed, “Given this kid’s character, he’s already saying these words now, so what good things can you expect him to say?”

Shen Jingyi was stunned, “You mean that sincerely?”

“Oh” Zhang Lei nodded and smiled, but he didn’t dwell on the issue any further, he said, “Crazy, I believe in what you’re saying, since you said that there’s a big gap between me and that young Tan, then there must be a gap I will continue to work hard on my aerobics!”

“Zhang Lei!” Shen Jingyi wanted to say something, but eventually gave up.

In fact, she wanted Zhang Lei to practice their Shen family’s internal gongfu, but once she thought of how obsessed Zhang Lei was with Ji Feng’s set of bodybuilding exercises, she was at her wit’s end.

Because she knew that Zhang Lei wouldn't be able to practice her family's internal gongfu at all.

"If I practice your internal gongfu, can I reach my level in such a short period of time?" On that question from Zhang Lei alone, Shen Jingyi could not answer it.

But she was tempted to say that perhaps Ji Feng's body building exercises were very powerful, but that the internal martial arts were the most authentic, because as a martial artist's cultivation improved, the more it came to the end, the more the power of true qi could come to the fore, and at that point, mere physical strength would be irrelevant.

But on second thought, she could certainly not convince Zhang Lei, so she could only give up the idea.

Just

For Zhang Lei's reaction, Shen Jingyi still felt very strange.

He was reprimanded so unmercifully by Ji Feng in public, but he actually managed to laugh, the friendship between them, is really so good ah?

In reality, Shen Jingyi this just didn't know what kind of friendship between men, was really like.

Especially Zhang Lei and Ji Feng, the friendship between them is even more extraordinary, although the two of them have not experienced life and death together, not that kind of life-long friendship, but it is almost the same.

So, not to mention that Ji Feng gave Zhang Lei a hard time in public, even if they fought today, they could make up tomorrow.

That, is the friendship between men!

"Lei Zi, practice aerobics properly, you're only lacking that little bit now, just a little bit." Ji Feng said, "As soon as you reach a certain level, I'll immediately hand over your fighting skills, by then, you can trample that so-called young Tan under your feet anytime!"

"Good!"

Zhang Lei said at once, "I'll hold off for a while, just in time to take advantage of this summer vacation and practice!"

Ji Feng nodded and smiled, "That's the best! As long as you practice well, when the time comes, no matter what methods they use, they won't be able to stop you, no one! If Jing Yi's family wants to think about you, you can also rest assured. If at that time, that so-called young Tan dares to find trouble with you again, you can always stomp him to death!"

"You've already said that once, I understand it all!" Zhang Lei nodded his head.

Ji Feng smiled, "But there's one thing I haven't said yet, you practice without worry, I'm here for everything else, nothing will go wrong, if that Tan Shao dares to be too arrogant, we brothers will fight together to their home! When the time comes, you'll step on him, and I'll block all his helpers for you!"

"Ha!"

Zhang Lei instantly laughed and said, "That dares me, well, keep it, make sure to keep this bullshit Tan Shao for when our brothers go stomp on him together, haha"

Shen Jingyi in the side dumbfounded looking at Ji Feng and Zhang Lei gabbing, she listened almost to cover her face and go, how previously did not find, these two guys so good at bragging?

What did Zhang Lei say that he would be able to casually step on Tan Shao after a while? The two of them are going to fight together into the Tan family, Zhang Lei to step on Tan Shao, Ji Feng to block the others

In her heart, she even had a feeling of wanting to cry, Ji Feng this is clearly taking Zhang Lei to the ditch ah!

How terrifying are those experts of the Tan family, and how can they be understood by Zhang Lei and Ji Feng, two brats who have not even been exposed to the martial arts?

Not to mention them, even they, the Shen family, had to be cautious when facing the Tan family! Not to mention the Tan Family's current family head and a few elders, whose kung fu skills were at most similar to those of their own father's generation.

However, the elders of the previous generation of the Tan family, as well as the previous generation of the family head, were all still alive. Their skills could not be described as terrifying, they were unfathomable!

Shen Jingyi seemed to have heard her father say that several members of the Tan family had crossed into the Ascended Realm, and that their old family head had been an Ascended Realm expert many years ago!

Such a family, and these two fellows, Ji Feng and Zhang Lei, actually dared to beat them to the door?

Shen Jingyi admitted that Ji Feng's body was indeed very powerful. But in her opinion, that was just practicing that body building exercise, making his body more coordinated and powerful However, how could pure physical strength be compared to the power of true qi?

This is like a firefly competing with the sun for glory, is that possible?

The two of them, that is really a bullishness, ah.

Now Shen Jingyi can only pray that the standard set by Ji Feng for Zhang Lei is a bit higher, so that he does not meet the requirements so quickly, so that he can still have more time to think of a solution, otherwise, these two guys will really be unlucky ah!

While at this time, Ji Feng and Zhang Lei had both finished their 'grand words', the two of them looked at each other and laughed, both feeling very happy.

At least, the troubles that that young Tan had brought, no longer existed.

"May I ask if I can go now?" At this time, the skinny boy was the one who suddenly asked. In his opinion, Ji Feng and Zhang Lei were equally demented, or these two guys were crazy!

How powerful Tan Shao was, he had seen it with his own eyes, just with a finger, just that lightly, that thick table top was knocked out of a hole, that power, simply too terrifying.

But look at these two guys in front of him, although they are tall and big, but even if their bodies are hard, how can they be harder than the table top? They were definitely not hard enough for Tan to knock with one finger!

“Go away!”

Zhang Lei glared at him, “You took money from others, did this kind of thievery, and now you want to leave so easily?”

He snatched this man’s phone over and casually flipped through the photos inside, his brow instantly furrowed as he glanced at this skinny boy. Inside this phone, there were all pictures of him and Shen Jingyi, and all of them were stolen’s photos.

“You, you’re casually looking through people’s phones, it’s against the law,” the boy said in a small voice.

“Shit!”

Zhang Lei slapped the guy on the head and cursed, “I’m breaking the law, so you’re not breaking the law by stealing `taking’ so many pictures of me? I think you just need to be beaten up, you don’t even remember after a beating!”

He was too lazy to deal with this kind of person, and casually deleted all the photos from his phone, before returning it to him: “You say you have to do this instead of something else! If you can do this kind of thing with that kind of money, then you can kill people if you are paid to do so in the future!”

“You wear good clothes and eat good food, of course you don’t know the difficulties of poor people,” the man muttered in a low voice.

“Bullshit!”

Who knew that Ji Feng, who had never been too harsh, suddenly burst into a rage, and gave everyone a jump!

Chapter 1108

“I... What’s wrong with me again?” The skinny boy was taken aback by Ji Feng’s roar and subconsciously asked.

“What’s wrong?”

Ji Feng sneered, “Is the fact that your family is poor a reason why you can take a crooked path?”

He really didn’t want to be general with this guy, but the kid’s words made Ji Feng’s fire rise up.

“Kid, listen to me carefully!”

Ji Feng yanked the guy by the collar and almost lifted him up, “The fact that your family is poor is not an excuse for you to do these things! You should not think that we are all rich people, I was probably even

poorer than your family, have you ever lived a life of collecting rubbish for a living? Have you ever had the experience of wearing a pair of slippers on New Year's Day when it's freezing cold and everyone else is wearing new clothes and shoes?"

Looking at the skinny boy's somewhat frightened expression, Ji Feng sneered, "I've experienced those days! But did I go down the wrong path? I was helping my mother pick up scraps and help her sell vegetables!"

He pushed the boy away and shook his head, "Going down the crooked road is not because your family is poor, but because you yourself have no ambition, you don't know how to fight for yourself! If you really have ambition, there are many ways to earn money, and the Tengfei Group is cooperating with the United University for talent training, why don't you apply? Why don't you go and fight for it?"

"Now you're saying that your family is poor, there are so many work and study opportunities inside the school, why don't you go?!" Ji Feng said with a sneer, "I see that you are simply a set of cheap bones, good for nothing, like the way to get money fast, don't care what the way is!"

The skinny boy looked at Ji Feng in a daze, as if he still didn't understand why Ji Feng was so furious.

"Listen to me, don't use your poor family as an excuse, you're already over twenty, why don't you go find a way to change if your family is poor, and still come here to whine!"

Ji Feng sneered, "Look at what you look like now, just for such a little money, making it look like a dog, if you hadn't sold your dignity and done something wrong for such a little money, now that I scolded you, would you not talk back?"

"..... Roll!"

Ji Feng bellowed angrily, "Go tell that so-called Tan Shao that he's blind for finding someone like you to work for him! Also, if he dares to come after my brother, I will destroy him! If he dares to rely on his family's power to bully people, I'll exterminate his whole family! Get out!"

The next moment, the skinny boy, who had already been scared out of his mind a bit, immediately pulled his legs out and ran away, not even daring to turn his head back.

"Get lost! Get the hell out of here, don't let Laozi see you again, you worthless piece of shit!" Ji Feng yelled from behind, his face cold and frightening.

Shen Jingyi looked at Ji Feng in astonishment, secretly saying, "He, what is he mad about again?"

However, Zhang Lei was calm, just looking at the direction the skinny boy was running away, and couldn't help but shake his head.

Ji Feng stood at the same spot, silent.

In his heart, however, a sadness rose up. Was it really that terrible to be poor? Using poverty as an excuse, you're not afraid of losing face!

"Crazy, is everything alright?" Only after a moment did Zhang Lei ask.

Ji Feng shook his head and said, "Nothing, just a little uncomfortable in my heart, you say how some people are"

"Crazy, I can actually understand your thoughts, but everyone's attitude towards life will not be exactly the same." Zhang Lei said, "You can't expect everyone else to be as positive as you are in the face of difficulties, precisely because everyone is different, so everyone's situation and final achievement is different as well."

"That kid just now is just because he has no ambition, that's why he ended up in this state!" Zhang Lei stretched his hands, "Crazy, there's no need for you to drill the bull's-eye on this issue."

"It's not like I'm taking a bull by the horns, it's just that my perceptions haven't changed yet." Ji Feng also couldn't help but shake his head with a smile, "I've always thought of myself as a poor person, and have never felt much richer guess it's because my experiences as a child have made too deep an impression on me."

"I see, ah, your perception really needs to be changed." Zhang Lei said, "Crazy, in fact, many of your concepts are still stuck in the past, this is not good, you need to change slowly."

Ji Feng couldn't help but shake his head and smile bitterly, "No wonder everyone says that a person's upbringing can even affect that person's whole life, it seems that it's the experiences I had as a child that had too much influence on me!"

Nowadays, when people look at Ji Feng, what they see is also his successful side, able to toss and turn, in just two years, he has tossed a multi-billion dollar conglomerate, his family has villas and luxury cars, and more importantly, he is also the eldest grandson of the Ji family, a grandson of a big family.

However, he himself knew very well that he had never actually forgotten his origins, that he had a poor origin, that he had been a farmer's son and had always been proud of his origins as a farmer. Although he had never been a farmer himself for a few days, his mother had been one!

What's more, he rarely ever took his status as the eldest grandson of the Ji family to heart; in his bones, he still felt that he had just followed his mother from collecting rags to being a small vegetable vendor.

It was also because of this experience that Ji Feng had always struggled and his fighting spirit had never weakened half a bit, even when he encountered any difficulties or setbacks, he had never thought of giving up.

Because in his perception, once he gave up, it could mean that he would have to go hungry, which was also influenced by his experience as a child.

But it was also because of this that Ji Feng had been able to persevere so much all this time!

But this guy he saw today made an unspeakable anger rise in Ji Feng's heart. There was nothing shameful about being poor, perhaps because of various reasons, limited ability to earn that much money, like when his mother Xiao Sumei, a woman who had to pull up her children and support her family, how much money could she earn?

He felt that it was not shameful for his mother to keep the family poor, but rather she was very great.

But to use poverty as an excuse for that bad thing, it made Ji Feng feel that that boy had insulted the word struggle!

“Forget it, don’t talk about it” Ji Feng shook his head, what Zhang Lei said was also very reasonable, he could only control himself, he couldn’t control others at all, he was angry here, people also fall down as usual, everyone has their own different situation and creation

However, Ji Feng does not intend to change this perception of himself.

He feels that it is this notion of struggling hard because of poverty that supports him along the way and keeps on struggling.

In fact, Ji Feng is not such a great person, even if everyone disagrees with this idea, but as long as he thinks it is right and can make him continue to keep struggling, this is enough

It can be said that that skinny boy’s unconscious remark even caused some rather obvious changes in Ji Feng’s mindset, which I’m afraid no one had thought of beforehand.

“Lei Zi, practice well, it’s getting late, I should go back too.” Ji Feng shook his head and shook all these thoughts out of his head, he looked at the time, it was almost seven o’clock and the sky was already starting to get dark, he had to hurry to pick up the white spider and go home together afterwards.

“What’s the hurry to go back.” Zhang Lei laughed, “It’s already time for dinner, let’s sit together. Anyway, Jingyi is going to tell me about that what’s-his-name Tan Shao, so you just listen to it too?”

Ji Feng deliberated slightly for a moment before nodding and smiling, “It’s fine, I’ll talk to Lei Lei and the girls about it.”

And then, he first called Tong Lei, explaining that he was going to have dinner with Zhang Lei and would be late, and then he called Bai Spider and asked her to wait at the entrance of the school.

When Zhang Lei saw the white spider, but he couldn’t help but open his mouth wide, he stammered and asked, “Crazy, she, she”

“She’s White Spider, my bodyguard!” Ji Feng introduced with a smile.

“Nonsense, of course I know she’s the White Spider!” Zhang Lei waved his hand, pulled Ji Feng over and asked in a low voice, “Crazy, isn’t this a teacher from our school? Since when did he become your bodyguard?”

“The other day” Ji Feng laughed, “Actually, White Spider’s real identity is not a teacher, and she came to United University only, well, for to carry out a mission.”

“She is from the mysterious department?” Zhang Lei immediately asked.

“Yes, she is from the mysterious department!” Ji Feng forced a smile and nodded, “It just so happens that I’m still short of a bodyguard by my side, and I have some dealings with her boss, so I asked her to come.”

“You kid are good!”

Zhang Lei gave a thumbs up, not sure if it was a compliment or sarcasm, "Crazy, you really specialize in going after teachers, really good!"

"Average!" Ji Feng said modestly without changing his face.

"I pooh!"

Zhang Lei said conspiratorially, "I'm telling you, you can't hurt Lei Lei, or else I'll beat you up!"

"Sure, sure!" Ji Feng nodded his head repeatedly.

Having given Ji Feng a warning, Zhang Lei was relieved, he believed that Ji Feng should have a good idea of what he was doing, so he did not continue with the topic and instead suggested going to a barbecue restaurant nearby.

"This barbecue is really well done, it's such a hot day, have some barbecue and some beer tsk!"

In a barbecue stall, Zhang Lei clinked a glass with Ji Feng, tilted his head and drank it down before saying admiringly, "This is a wonderful life!"

Ji Feng also ignored him, but turned his head to look at Shen Jingyi and asked with a smile, "Jingyi, if it's convenient, can you tell us what exactly is the origin of the Tan Shao mentioned by that guy? Of course, if it's not convenient to say, then forget it, just pretend we didn't ask!"

Chapter 1109

Shen Jingyi laughed lightly, "There is nothing inconvenient about it, I didn't mention him before just because I didn't think it was necessary, since you guys want to know, it's actually nothing to talk about it."

In fact, even if Ji Feng didn't ask, Shen Jingyi was prepared to make this matter clear to Zhang Lei. Because Zhang Lei's performance in the school grove today had already made Shen Jingyi very worried, she was worried that Zhang Lei would suddenly become impulsive again one day, and when Ji Feng was not present in time, there would be no one who could persuade him.

The first time I saw him, I was able to see that he was a very strong and agile person, but compared to Tan Shao, who has been practicing martial arts since he was a child, there is still a big gap, so it is Zhang Lei who will suffer.

However, Shen Jingyi can also see that Zhang Lei is not a person who is willing to suffer a loss, if he suffers a loss, when the time comes, in case Tan Shao has two more sarcastic words, he may really do something stupid, then it will be too late to regret.

So ever since she saw Zhang Lei's impulse in the grove just now, Shen Jingyi had decided that she would tell him the original story.

"That young Tan, what's his real name?" Zhang Lei asked.

"This person's name is Tan Tianfeng, in fact he is the fourth young master of the Tan family." Shen Jingyi said, "Because he is the fourth oldest in the younger generation, so everyone else calls him Tan Fourth Younger too."

“Fourth Young Master Tan is still called Young Master Tan?”

He sounds like a stinky guy, he’s also from a martial arts family, right? I haven’t heard of this character before!” Zhang Lei asked.

“That’s right, the Tan family itself is an ancient martial arts family, martial arts have been passed down from generation to generation, until now the Tan family is still one of the more powerful families in the martial world!” Shen Jingyi nodded and said, “The head of the Tan family, is said to be an expert of the Innate Realm, and the elders below are all late Houtian, or even peak Houtian experts, the family has many children and is very strong!”

“What is this called!” Zhang Lei spread his hands, “And martial arts family the more I hear, the more I feel like a gang on the road?”

“What are you talking about!” Shen Jingyi gave him a blank look and said, “People from martial arts families don’t kill or set fire to people, and they don’t dare to do anything illegal, how can they be the same as those gangs in the Dao?!”

Ji Feng then laughed as he asked, “So how do people from martial arts families survive? I mean, what do they all do to make a living?”

When he was in Yuezhou a few days ago, Ji Feng learned from those two guys from the Qingshan Clan that many of the sons and daughters of the Qingshan Clan were policemen and soldiers, and some were even bodyguards should I say guards for some big leaders.

Ji Feng preached and felt that this was actually a relatively good way to make a living, and even if time goes on, such a sect may develop into a big power.

Just imagine, the military, the police and the guards around the leaders are all their people, so who wouldn’t give a few face?

If they want to do anything, then it’s not just a matter of words?

“In fact, when you mention martial arts families nowadays, you must think that it’s like what’s shown on TV, where all the sects are in the mountains, relying on their own land or doing something else to make a living, right?”

Shen Jingyi pursed her lips and said, “In fact, the martial arts families nowadays have developed differently, the vast majority of them have gone into business, while some will send their sons to join the military or the police. For example, the Tan family, their family runs both a business and a martial arts school, while also having a large number of their sons and daughters join the military and the police!”

“In that case, the power of these martial arts families is really not small, and they can really exert a lot of energy at critical moments!” Ji Feng nodded thoughtfully.

“Yes, many martial arts families are very strong, of course, there are also some small martial arts families, but also just a small fight, and their own family also does not have any decent strong people sitting in the town, such is also equivalent to a complete decline.” Shen Jingyi said.

“These martial arts families are doing business and joining the military, so aren’t they just not doing their jobs?” Zhang Lei laughed and asked, “Why is this still called a martial family? Wouldn’t it be better to simply call it an ordinary family?”

“It’s still not the same.” Shen Jingyi shook her head, “If there are masters in the family, at least those people on the road will give face and not dare to come and cause trouble, so there will be less trouble in doing business. Moreover, since it is a martial arts family, there will definitely be a part of people who are not doing other things, specializing in martial arts and hitting higher realms, these people, too, are the most intermediate power of each family!”

Ji Feng nodded and said, “In that case, in fact, these martial arts families are nothing mysterious, they also have to eat, just that kung fu is better than ordinary people, in fact, they are also all ordinary people, and they are not noble, is that right?”

“..... can say so!” Shen Jingyi nodded, but felt that, Ji Feng’s words were a bit uncomfortable to hear, in his words, he seemed to be a bit repulsive to martial arts families ah.

“Ha!”

Zhang Lei then instantly harrumphed: “In that case, that what what young master and so on, how did this name come about? To put it nicely, this is just some bosses, only the family has a larger population, and some kids also like to dance with guns and sticks, so if outsiders come to bully, these kids will go and beat people up, and save having to hire security guards and fighters again.”

“But if we put it more harshly, this is a group of martial artists who want to turn into businessmen and think about making money too, right?” Zhang Lei laughed heatedly, “Jing Yi, don’t be thankful, I’m not talking about you.”

Shen Jingyi glared at Zhang Lei in good humour and amusement, but a bitter smile appeared on her face, how come both Ji Feng and Zhang Lei seemed to have a rejection of martial arts families, as if they were happy to belittle them!

“Ji Feng, Zhang Lei, why do you both look down on martial arts families?” Shen Jingyi asked suspiciously, “Why exactly is that?”

“That’s not true!”

Ji Feng shook his head and laughed, “It’s not that we look down on martial arts families, but we feel that when people from martial arts families come out, they all do things too openly, and are really not much different from those criticized fops. This feeling is like martial arts families are all like gods hidden in the deep mountains and forests, and when they come out, we, the mortals, have to kowtow and bow to them.”

“But the problem is, the parents and families of those fops, well at least they are capable, they either make achievements in the business field, or in politics, but, those martial arts families, what have they done?” Zhang Lei took over, “Fops are criticised, and people like that so-and-so Tan Shao and the like should likewise be despised!”

Shen Jingyi then had nothing to say, she had to admit that what Zhang Lei said did have some truth to it, as far as she knew, there were many sons and daughters of martial arts families who acted with an arrogance that was even more excessive than those fops.

“Alright, the topic has gone too far again.” Zhang Lei waved his hand and asked, “Jingyi, what’s going on between you and that Tan Tan Tianfeng?”

As soon as this issue was brought up, a helpless look sprang up on Shen Jingyi’s pretty face.

She shook her head and said, “When it comes to this matter, it is still my second master’s fault, I was just born, my family set up a baby marriage with the Tan family under the second master’s great efforts, although it was only verbal back then, it was not too formal, but because our two families have a good relationship, so”

“So both families also acquiesced, you are both a doll’s marriage and a childhood friend!”

Zhang Lei nodded and said in a serious manner, “Well, it’s similar to what we guessed before, but it’s usually hard for people who are childhood friends to be together.”

“Why?” Ji Feng asked with a smile, “Or is it that protagonist theory of yours? What female protagonist ends up liking the male protagonist?”

“Yes! Isn’t that what they all do on TV?” Zhang Lei laughed, “In Shen Jingyi’s life force, I’m the real male lead, specializing in stealing her away from her childhood friend, and, I’m still on the side of justice!”

Shen Jingyi could not help but give him a blank look, but did not say anything, obviously acquiescing to Zhang Lei’s words.

“Actually, there are other differences between a martial family and an ordinary family, such as the family rules are particularly strict, and people in martial families value old traditions, and are concerned about the right family and so on!” Shen Jingyi said, “That’s why I told Zhang Lei to hurry up and practice, hoping to have a stunning performance, and then my parents would beg for mercy, and the family wouldn’t object too much. But”

“There’s no buts or nos!” Zhang Lei harrumphed, “Jing Yi, just rest assured, the madman has already said that in half a year’s time at most, I will definitely be able to reach the middle Houtian stage as you said, by then no difficulty will be a difficulty anymore!”

“I hope so” Shen Jingyi nodded her head, but in her heart she couldn’t help but let out a soft sigh.

In half a year’s time, how could one possibly reach the middle Houtian stage from an ordinary person who hadn’t practiced domestic gongfu?

This was obviously impossible!

From the very beginning, Shen Jingyi had never had any confidence in the set of body-building exercises that Ji Feng had taught Zhang Lei, even though she was amazed by Ji Feng’s hands, but the division of the level of the middle Houtian stage was not only based on the strength of his hands.

Yes, Ji Feng was very powerful now, and if he were to just wheel his body hands, he should be able to reach the mid-Hind Heaven level.

But what about in thirty years, what about in fifty years?

When his hair is grey and he is old, will he still be so powerful?

And those internal masters of martial arts families, there are many who are still very powerful in kung fu even when they reach their 60s and 70s! And the older they are, the more profound their internal kung fu becomes, even many young people are no match for them.

In the martial arts world, the ranking of a martial artist is based on one hand, and on the other hand, it is also based on the profundity of internal strength.

Of course, generally people with profound internal strength were absolute experts as long as they weren't fools and learned practical combat techniques!

"Ji Feng, tell me the truth, how far can Zhang Lei practice that body building exercise of yours in the end?" Shen Jingyi looked at Ji Feng and asked frankly, "Zhang Lei and you are the best of brothers, I hope you can give me a bottom line, can you?"

Chapter 1110

"To what kind of point?"

Ji Feng smiled, couldn't help but shake his head and smiled, saying, "Frankly speaking, I don't know myself exactly what kind of point I can reach. However, for that middle Houtian stage you mentioned, I think it's still very easy to reach!"

"You want to?"

Shen Jingyi said with some bitterness, "Ji Feng, this is not a question of whether you want to or not, but to give me an affirmative answer!"

"Then I can't say." Ji Feng spread both hands and said with a smile, "The same kung fu, different people go to practice it, then in the end they may not all achieve the same thing, don't you think so? Anyway, I do think that the set of body building exercises that I practice is very good, look at those so-called martial arts masters, weren't they also beaten down by me in three punches and two kicks?!"

"That's because you haven't met a real expert!"

Shen Jingyi said helplessly, "Ji Feng, I already told you just now, a real martial arts expert is not that the younger you are, the more powerful you are, nor is it that the more muscles you have on your body, the more powerful you are. Inner martial arts masters, all grow deeper and deeper with age, and that's when they are most powerful!"

This was what Shen Jingyi was most worried about, if a person didn't have internal strength, then as soon as he passed his peak age, the whole person would start to decline, so if Zhang Lei didn't know how to use internal strength, his family basically wouldn't even consider it.

"I know, you've just said it!"

Ji Feng nodded, "However, I really don't know exactly what can be achieved by practicing body building exercises, but there is one thing I can be sure of, as long as Lei Zi keeps practicing so persistently and constantly, in half a year's time at most, he will definitely be able to reach the middle Houtian realm."

"Are you really so sure?" Shen Jingyi asked.

"Definitely!"

Ji Feng nodded, "Moreover, as long as Lei Zi keeps insisting, a higher realm is not impossible, maybe after a few years, he will accidentally reach the innate realm you mentioned"

"....." Shen Jingyi wouldn't want to say anything, she could only laugh bitterly.

The Innate Realm, was it that easy to reach?

If a family could have a few experts at the Innate Realm, they would be treated like ancestors, moreover, which one of those who could reach the Innate Realm was not a person of amazing beauty? Even so, it would take them decades to cultivate before they could finally reach the Ascendant realm, and that was not always the case.

There are many who even work hard for a lifetime and still cannot reach the Ascendant realm.

But such a profound realm was actually so easy to say in Ji Feng's mouth, this was really ignorant and fearless!

Looking at Shen Jingyi's speechless expression, Ji Feng hesitated slightly in his heart and couldn't help but say, "If I tell you guys that I'm an innate expert, then do you believe me?"

"No!"

Shen Jingyi shook her head straight away, not to mention whether Ji Feng had that qualification and potential, just looking at some of the current innate experts, which of them were not even white in the beard? Occasionally there are a few who reach the Ascended Realm in their middle age, and their families or sects are like a treasure.

Ji Feng is a Xiantian master?

Please, don't make such a joke, okay it's not even funny!

"It doesn't matter if you don't believe it, the key is whether I have the strength!" Ji Feng laughed.

In fact, he himself really did not want to talk about his own strength, especially in front of Zhang Lei and Shen Jingyi, although the two brothers can almost say that they have nothing to say, but now Zhang Lei is most eager for strength, after all.

A pair of friends, in terms of what both of them need the most, it is best not to have too big a gap, especially if this need is still something that cannot be given away.

Otherwise, it is likely that inadvertently, the kind of gap between the two will appear, when the heart will always subconsciously feel some unnatural, and over time, the divide will come out.

It is for this reason that Ji Feng has never mentioned his true strength, just to avoid such a situation.

But now, he felt that it was time to give Zhang Lei and Shen Jingyi some confidence.

So he asked, "Jingyi, how powerful are the innate experts in your martial arts world?"

"How powerful?"

Shen Jingyi couldn't help but be stunned, her eyebrows knitted and she thought for a moment before shaking her head and saying, "I really can't describe it to you, just intuitively speaking, but all the experts who have reached the Innate realm, the true qi in their bodies can be released externally, because the direction of cultivation is different, so everyone's strength is also different, for example, those who are good at light body kung fu can fly the eaves and walk the walls, although it is a bit exaggerated! but it's not impossible!"

"Can they break a rock with one punch?" Ji Feng asked.

"That's certainly no problem, not to mention the stone, their speed, strength, are terrifyingly scary specifically I can't describe it to you, but, they are very scary, there is no doubt about it!" Shen Jingyi said.

Ji Feng nodded thoughtfully and then laughed, "Then what, I might actually be an innate expert already"

"Eh?"

Zhang Lei and Shen Jingyi froze at the same time, and then the two of them lost their laughter.

"Alright madman, hurry up and drink!" Zhang Lei laughed, "Let's not talk about whether you become an innate expert or not."

"Yes, let's eat!" Shen Jingyi also laughed.

"....."

The first time I saw a person who was an expert in a martial arts field, I didn't know how powerful they were, but if we go by Shen Jingyi's standard that an expert in the innate realm can automatically absorb energy from the outside world and release his true qi, he was really an expert in the innate realm!

However, Shen Jingyi and Zhang Lei did not believe, and Ji Feng could not do anything about it, because they did not give Ji Feng a chance to argue, and Zhang Lei directly picked up a cup and drank with him.

"..... Bottoms up!" Ji Feng shook his head helplessly and clinked a cup with Zhang Lei, before tilting his head and drinking.

On the contrary, Bai Spider, who was next to him, had a surprised look flash in her beautiful eyes when Ji Feng said that he might be an innate expert, and then, she seemed to have a dawning feeling.

Zhang Lei and Shen Jingyi did not believe that Ji Feng was an innate expert, however, White Spider believed his words.

This was because White Spider had seen, more than once, with her own eyes, Ji Feng's battle with a high-level Transformer, the kind of fierce battle where the slightest carelessness would kill him on the spot. No one knew better than her how terrifying the transformers were.

However, Ji Feng was at ease, his fist hitting that Transformer's body could even kill those Transformers who were so powerful that they could easily lift a car, on the spot!

With such terrifying power, could he not be considered an innate expert?

Even now, White Spider still remembered very clearly that when she and Xiang Yongzhan and the others were trapped in the isolated island, Ji Feng led his men to rescue them.

In particular, Ji Feng had fought two senior reformers alone and eventually captured them alive, a strength that White Spider had never seen before.

At least within the dynasty, White Spider hadn't found anyone who could compete with Ji Feng in terms of single combat ability.

If we go by Xiang Yongzhan's words, Ji Feng was a guy who was so strong that he was perverted!

These were Xiang Yongzhan's exact words!

From this, one could see how strong Ji Feng really was.

Could such a person still be no match for those so-called innate experts in the martial arts world? White Spider didn't quite believe it, she had come into contact with people who knew internal martial arts before, and she didn't find them that powerful!

However, Shen Jingyi would not say these words, she was Ji Feng's bodyguard, so she would definitely not talk too much.

All the way until the four of them were full of wine and food, Ji Feng didn't have the chance to make a defence, seeing that both Zhang Lei and Shen Jingyi didn't believe it, he wasn't going to say much more, as long as Zhang Lei still insisted on practicing body building exercises, then there was nothing to worry about.

As time went on, Zhang Lei's strength would definitely get stronger and stronger, and by then he would understand that he should not be lying. And by that time, maybe Zhang Lei had even entered the innate realm directly, and I'm afraid that would scare Shen Jingyi's jaw off!

When he thought of that scenario, Ji Feng couldn't help but secretly shake his head and smile, he was quite looking forward to seeing that scene.

After dinner, Ji Feng got up and went to settle the bill, and then he sent Zhang Lei and Shen Jingyi back to the school dormitory together with the white spider. After sending Shen Jingyi back to the dormitory, Zhang Lei planned to go straight back to the dormitory.

"Lei Zi!"

Ji Feng called out to him, patted him on the shoulder and said, "Make sure you stick to practicing gymnastics, also, if that whatever Tan Tianfeng is looking for trouble with you in the near future, avoid him if you can, there's no shame in giving in for now. If you really can't avoid it, then call me immediately, I should stay in Jiangzhou for the near future."

"Don't worry, I know what to do!" Zhang Lei laughed.

Ji Feng, however, could not possibly be at ease, he knew this guy's temperament too well, don't look at his words of promise, but in reality, once this guy encountered Tan Tianfeng's provocation, even if he knew that he couldn't beat the other party, he would definitely not give in to softness.

So after deliberating for a moment, Ji Feng said: "Forget it, you also do not call me, let's do this after the exam, I will go with you to send Shen Jingyi, and then I will directly take you to my home, of course, you want to go back to Yanjing can also be, anyway, this period of time you do not stay in school! "

Zhang Lei couldn't help but be stunned, "Crazy, it's not that serious, right? Is that Tan Tianfeng really going to come looking for trouble with me?"

"What do you think?!"

Ji Feng asked rhetorically, "Since he can find someone to follow you, what else can he not do? Since he's already investigated you and still found someone to follow you, what else is it if he's not trying to get at you?"

In fact, ever since he had caught the guy who was following Zhang Lei and asked for some information, Ji Feng had already had this guess.

In fact it wasn't hard to guess!
