

Campus Master 1191

Chapter 1191

“Do you understand?”

Looking at Ji Feng’s meaningful look, White Spider finally nodded and said, “Young Ji, I understand.”

“Well, that’s good!” Only then did a smile appear on Ji Feng’s face, “Then, in that case, how do you plan to select the team members?”

“Personnel-wise, I won’t interfere, it’s better to listen to Ji Shao!” White Spider said with a smile, “Frankly speaking, I know very few people, and the vast majority of them are still abroad, they don’t even know I’m called that”

“Hmm!”

Ji Feng nodded his head, he certainly understood what White Spider said. In the past, White Spider was an assassin, at that time, it was definitely not possible to tell people their real names, and it was even likely that they would all just use a code name.

Moreover, in that line of work, one had to beware of others taking revenge, one had to conceal one’s whereabouts, and one could not let this face of his be familiar to others

All these restrictions dictate that the white spider will definitely not know too many people, and is unlikely to even have friends.

“Since that’s the case, then I’ll decide on the personnel.” Ji Feng nodded, and then, he stood up violently and slapped his thigh, “Go!”

“Go?” White Spider was slightly stunned.

“Isn’t it about picking the team members? Can we still sit here and wait for people to come to our door? There’s no such thing as a pie falling from the sky!” Ji Feng chuckled, a cold light flashed in his eyes, “Besides, it’s time for some things to be settled, let’s go!”

“Yes!” As soon as the White Spider heard that, he immediately nodded and answered. There was no need to ask for more words, the white spider knew his duty very well, to follow honestly and protect Ji Feng’s safety, that was the most important thing.

Ji Feng picked up the recliner and sent it back to the storage room, and after he simply changed his clothes, he went to the garage with the white spider.

However, just after arriving at the garage Ji Feng was dumbfounded.

He suddenly realised that he actually had no car at home!

The Volvo had been driven away by Xiao Yuxuan and Xiao Ying, the BMW X6 had been driven by Zhang Lei to Zheng Yuanshan, and the only remaining Audi had been beaten into a sieve in that fierce gun battle yesterday, and was finally sent to the 4S shop by Ji Feng for repair.

“Young Ji, otherwise, I’ll go outside the district and call a car back, then we’ll go again?!” Bai Spider asked.

Ji Feng shook his head and said, “Forget it, we have to run to many places today and it’s inconvenient to take a taxi, I’m afraid it will take a whole day

Speaking here, he spread his hands, “It looks like we’ll have to be extravagant today too.”

Seeing the puzzled look on the white spider’s face, Ji Feng casually pressed the remote control.

Buzz~~!

At once, one of the garage doors on the far side slowly rose up, and gradually, a blue-grey sports car revealed its true appearance.

Luxurious, atmospheric, and wasteful!

Adequate five.2 super large displacement, this day run down, just the gas money are let Ji Feng feel headache.

But now there is no other way, there is only such a car left in the family, so even if it is more wasteful, Ji Feng can only drive this car.

“Is this” White Spider asked.

“Oh, it was given to Yu Xuan by a friend, but this car is a bit eye-catching, so Yu Xuan has never driven it.” Ji Feng laughed, “But now we need to use the car, we can’t always walk to Right, you know how to drive this kind of sports car, right?”

“Will drive!” White Spider nodded.

“Then let’s go!” Ji Feng smiled, “Let’s go to Well, we’ll go to Tengfei Pharmaceutical Factory first.”

“Okay!” White Spider nodded and sat on the passenger seat, first checked the fuel level and after finding that everything was fine, she then started the car, but it wouldn’t start.

“What’s wrong?!” Ji Feng frowned slightly as he turned on the one-button start system, but it still didn’t work.

“Young Ji, this kind of high-grade car has encryption and special settings, do you see if there’s something you haven’t thought of?” White Spider asked, “Like voice control, or fingerprint control?”

“Pop!”

Ji Feng snapped his fingers and laughed, “I just remembered when you said that, yes yes, it seems to be fingerprint encrypted.”

And then, he pressed his right index finger on the start button, and at once, all the dashboards inside the car immediately lit up, and the car started.

“This kind of advanced gadget is really a bit uncomfortable for a while!” Ji Feng couldn’t help but shake his head and laugh.

White Spider also pursed her lips and smiled lightly, she simply simulated the maneuvering a few times, then stepped on the accelerator and directly drove out of the garage

.....

The actual fact is that you can find a lot of people who are not able to get a good deal on a lot of things.

This time using the white spider as the leader of the battle group, which for Ji Feng, this is actually just a very helpless move, because Ji Feng really does not have many available people around, so, he can only use the white spider for the time being.

But Ji Feng also knew that this was definitely not a long-term solution.

After all, White Spider's style was suitable for commanding a small detachment, but she was definitely not suitable for commanding an entire battle group!

In fact, the one Ji Feng liked the most was Zhang Lei, but when he thought about this guy's status and the restrictions he was subjected to, Ji Feng could only shake his head helplessly.

"What about Yi Xingchen?!"

Ji Feng frowned slightly and secretly pondered, "White spider command a small detachment, with Yi Xingchen's ability, he can definitely command a small detachment as well, in this way, white spider is in charge of the shadowy style detachment, can walk between the darkness and give the enemy a defensive and deadly blow, this will definitely give any enemy a headache."

"And in this way, Yi Xingchen can be responsible for commanding a straightforward sub-unit, this sub-unit, to be strong in unparalleled combat power, no matter what kind of hard battle, can beat the enemy to death, no matter how strong the opponent is, can cut the opponent down in a head-to-head hard fight!" Ji Feng's thoughts quickly came alive, "However, no matter whether it's this incredibly strong squad or the White Spider's squad that walks among the darkness, neither can oversee the big picture, so ultimately, someone who can take charge of the two squads is needed to take charge of the whole situation!"

Originally, Zhang Lei should have been the most suitable candidate, but now he could only bear to rule it out.

Then the rest, Ji Feng really didn't know who to use.

"It's time to think of a way to find someone who is both trustworthy and capable to take charge of the whole bureau!" Ji Feng secretly sighed, such a person, it is not easy to find.

.....

The first thing I did was to go to the general manager's office to see Liang Chunhui.

But unexpectedly, Liang Chunhui was not at the Tengfei Pharmaceutical Factory at this time, but went to inspect the transit station, so Ji Feng went directly to the Security Department.

Fortunately, Yi Xingchen's main job was to protect the security of the Tengfei Pharmaceutical Factory, so his workplace was in the factory and he did not go out. When Ji Feng came, he was leading someone to check the various cameras in the factory, as well as some other monitoring facilities.

"Boss!" Seeing Ji Feng, Yi Xingchen felt very cordial.

"Old Yi, I've come to ask for your help!" Seeing Yi Xingchen, Ji Feng didn't have any unnecessary nonsense and went straight to the point.

Yi Xingchen suddenly became solemn and said, "If you have any orders boss, just say, I will definitely not be the least bit ambiguous if I can do it."

Ji Feng then nodded in satisfaction and said, "Good then, let's go to the office and talk about it in detail."

Afterwards, the two of them went to the security department, and the white spider then stood guard outside, leaving only the two of them, Yi Xingchen and Ji Feng, in the office.

"Old Yi, this matter is a bit complicated to talk about, I won't introduce the exact process now, let's make it short!" After the two of them sat down, Ji Feng threw a cigarette to Yi Xingchen and then went straight to the point, "To put it simply, I'm in trouble, there is a group of enemies of unknown origin hiding in the shadows, they will strike me at any time, well, yesterday afternoon I even met an attack, I almost didn't even come back alive!"

Swish!

A cold light flashed in Yi Xingchen's eyes, and he immediately said in a deep voice, "Boss, what do you want me to do?!"

For Ji Feng, Yi Xingchen not only admired him from the bottom of his heart, but also had a feeling of gratitude. This was because ever since Ji Feng had taught them body-building exercises, they could clearly feel that their physique was improving by leaps and bounds.

Yi Xingchen then realised that this set of aerobics, which looked like yoga, had miraculous effects!

The value of this set of body-building exercises, then, naturally spoke for itself.

However, Ji Feng could teach them the gymnastics without any reservation, and this kindness was enough to make Yi Xingchen grateful and loyal to Ji Feng.

Now when he heard that Ji Feng had been attacked and killed, and had even almost lost his life, Yi Xingchen was instantly shaken with anger.

"Right now I still don't know exactly who is dealing with me, so there's nothing we can do right now, let alone talk about revenge." Ji Feng waved his hand and said, "But with this lesson, it has given me a wake up call and made me realise that one person's power, after all, is limited, or at least in many specific circumstances, the energy one can exert, is very limited."

"That's right!" Yi Xingchen nodded, having been a mercenary, he naturally knew that no matter how powerful a single person could be, it was nowhere near as effective as teamwork.

For example, there were some very strong warriors in the mercenary army, they were known as sharp knives, but, in front of a small team that fought together, even the sharpest of knives would have to break!

“That’s why I’m planning, to form a squad!” Ji Feng said, “This squad, the main task will also be to do security work, to protect me, and my family, as well as to aid the Tengfei Group when necessary. However, outside of security work, if there is any task that requires combat, this squad must also be able to handle it, and it must either wipe out or crush the opponent in the shortest time possible, depending on the situation, of course.”

Chapter 1192

After hearing Ji Feng’s words, Yi Xingchen fell silent, carefully considering the meaning of Ji Feng’s words.

Now, it sounds like Ji Feng is only forming a security team that can respond to various emergencies, but Yi Xingchen knows that in fact, the Tengfei Group already has a security department, and there are quite a few elites, so why would Ji Feng want to form a new security team?

I’m afraid that is definitely not just to protect his own safety!

“Then what does the boss mean?” Yi Xingchen looked at Ji Feng.

“It’s simple, you’ll be the leader of this, pick the most credible team members, and use the shortest possible time to create a strong battle team that can be held up!” Ji Feng said.

Sure enough!

Yi Xingchen secretly said in his heart, Ji Feng’s words still revealed an important message – a battle team!

Moreover, it was a tough battle team!

Yi Xingchen knew that Ji Feng definitely wasn’t as simple as forming a security team, after all, a security team that could protect the group’s safety, as well as the personal safety of the boss and his family, that would be enough, so why would he come to him specifically?

Now when Ji Feng said so, Yi Xingchen understood that the boss had come with a murderous spirit!

What he wanted to set up was definitely not some security team, but an armed force with strong combat power, that is, a war team!

Yi Xingchen’s fist couldn’t help but clench, that feverish blood in his heart boiled for a moment, but soon, he calmed down again and said, “Boss, frankly speaking, forming a battle team isn’t too much of a problem, but, I still have one more doubt.”

“Go ahead!” Ji Feng said, “Any questions you have, you can just say it.”

“Boss, forming a battle team isn’t really complicated, the players don’t have to be excellent, after training, even stupid people can become elite soldiers. However, among a battle team, there can’t just be combatants, there must also be other team members, for example, there must be those who are

responsible for information and intelligence, and there must be those who are proficient in the medical arts, these two aspects, are the most important, of course, the more talents in other aspects, the better

As soon as he talked about the issue of forming a war team, Yi Xingchen immediately came to life and spoke incessantly.

Moreover, not a single word he said was nonsense, but every word was to the point, all of which was Yi Xingchen's experience. He even analysed which aspects of a battle team must be composed of talents in order for it to be considered a complete battle team.

Logistics, this was needless to say, with the Tengfei Group as the backing, even if one were to raise an army, there would not be too much of a problem, and this was something that Yi Xingchen simply brought up without saying much.

Medical treatment, that was a problem!

But this problem, too, was soon ruled out by Yi Xingchen, after a simple training, a person with a little common sense could learn the medical aspect of first aid work, coupled with the special effects current produced by the Tengfei Pharmaceutical Factory, even if one was injured, but definitely not in danger of life!

Intelligence, this is the top priority.

But from the current point of view, Yi Xingchen did not have any good solutions yet, he only had Liu Zejun and Yao Zhijian around him, Guo Tao was still working as the manager of the security department in Xiao's pharmaceutical factory.

And those recruited security guards, even though many of them were some ex-soldiers, were powerless in terms of intelligence.

If you want to spy on intelligence, on the one hand, you need to have extensive contacts and extremely well-informed sources, on the other hand, you also need to take the initiative and be able to find the intelligence you want at any time

All these things are not something that can be done by ordinary people and, moreover, are definitely not something that can be accumulated in a short period of time.

There is also an equally important point, which is the fighting strength of this battle group.

Of course, this is not something Yi Xingchen is too worried about, training a battle group with strong combat power is not difficult, as long as it is pulled out for a few more fierce battles, those guys will naturally learn how to kill the enemy and how to save their lives.

After a few more times like this, the combat power will naturally come out.

For leading soldiers, Yi Xingchen still had a lot of experience!

The more Ji Feng listened, the more he felt that he had found the right person. At least, Yi Xingchen was more than capable of leading such a small team.

What's more, Yi Xingchen was a smart man.

Ji Feng didn't need to explain all the so-called problems to him, he would understand them himself.

For example, the formation of this battle team, although Ji Feng only slightly mentioned the battle team, other times he talked about the formation of the security team, but Yi Xingchen was accurately grasping Ji Feng's mind, only talking about the construction of the battle team, this is enough to explain the problem.

After listening carefully to Yi Xingchen's analysis and his worries, Ji Feng couldn't help but smile: "Old Yi, these problems are all very well solved, it's up to you to decide how this battle team will fight, how to train and how to conduct the battle, I won't interfere with these issues, what you are worried about now is the intelligence problem, right?"

Yi Xingchen nodded, "Yes, before the troops move, intelligence comes first!"

As the saying goes, before the troops move, food and grass are first, originally it meant that the issue of supply in terms of logistics was important. But now that logistics was no longer a problem at all, the issue of intelligence, which was just as important as food and fodder, became particularly prominent.

"You don't have to worry about this, the intelligence problem, I'll solve it!" Ji Feng laughed.

Seeing Yi Xingchen's puzzled look, Ji Feng laughed, "Old Yi, although we have formed this battle group, it is not all about fighting, moreover, the intelligence aspect is not a problem, you will know it later. Besides, I won't harm you after all, right?"

"Hehe" Yi Xing Chen also laughed.

Immediately, he stood up sharply and said forcefully, "Boss, in that case, then I'll take this mission!"

"Wait, don't be in a hurry!" Ji Feng waved his hand and asked with a smile, "Let me ask you, where do you plan to choose the personnel for this battle team?"

"I still have quite a few ex-soldiers under me, there are also a few good seedlings, it's still not a problem to form a battle team of seven or eight people!" Yi Xingchen said.

"No, those people are already familiar with the work of the Tengfei Group, at this time they may not be willing to leave such a privileged environment to join some kind of battle team!" Ji Feng waved his hand and mused, "Besides, right now, the Tengfei Group also needs some quality security personnel, so the candidates for forming the battle team can't be beaten from the Tengfei Group's security team."

"Then what the boss means is" Yi Xingchen hesitated some before saying, "If it really doesn't work, I still know some good mercenaries abroad, I can contact them"

"No way!"

Ji Feng shook his head and said, "Since you've already returned to China, those previous lives, forget them if you can!"

According to Ji Feng's understanding, in the past, Yi Xingchen appeared to be the head of a mercenary group in a foreign country, but since he had returned, it meant that he did not have a very pleasant life

outside, since that was the case, why should he be allowed to contact those people he did not want to contact again for his own sake?

Besides, foreign mercenaries entering the country would be too conspicuous, because the environment at home and abroad is extremely different, and the personalities and behavioural habits of those mercenaries would appear to be out of place with those at home.

For example, when Yi Xingchen's four people first arrived in the country, Ji Feng could tell at a glance that they were different.

"Then where does the boss think this personnel should be selected from?" Yi Xingchen asked.

"I can't be sure right now, wait for my news." Ji Feng patted his shoulder, "Old Yi, you might have to fight around again in the future, if you have any ideas, you can speak up."

"Get used to it."

Yi Xingchen smiled and said, "This year or so, I've been idle, my body is getting rusty, it's good to move around now."

"Thanks a lot!" Ji Feng said seriously.

He knew that since the moment he agreed to form a battle team, Yi Xingchen had crossed over from his originally calm and leisurely life to the coming fishy storm all of a sudden, and Ji Feng was grateful that Yi Xingchen had agreed to do so readily.

"Boss is too polite." Yi Xingchen said with a smile.

"Good then, wait for my news!"

By this time, the two squads' leaders had been selected, and the next thing Ji Feng had to do was to select the team members.

This was also extremely important, in the future, these two squads, would be the two most elite teams, they would have the strongest fighting power, sweeping all opponents, including the dynasty!

.....

After leaving Xiao's Pharmaceutical Factory, Ji Feng took the White Spider and rushed to Tengfei Network Company again.

On the way, Ji Feng dialed Xiao Ying's phone number.

"Little Chief?" Little Shadow looked a little surprised when he received Ji Feng's call.

"Little Shadow, you are a guard of the CPS, so do you know those guards who have retired?" Ji Feng asked directly.

"Retired guards?" Little Shadow was slightly stunned and shook his head, "Little Chief, those guards' files are encrypted and they are all in the bureau, so we can't get access to them!"

Ji Feng guessed the same, so he wasn't the least bit disappointed when he didn't get the information he wanted.

After closing the line, Ji Feng couldn't help but ponder, it seemed that if he wanted to find the right team members for the White Spider, he still needed to think about it from above.

For the White Spider style, apart from those agents who were proficient in assassination and good at performing various shadowy tasks, Ji Feng couldn't think of anyone else who would be suitable, so he intended to collect a group of retired agents and guards for the White Spider, which still needed to be thought of again.

However, the most important thing now, however, was to get the intelligence issue sorted out first.

And the most suitable people around Ji Feng for intelligence work, apart from Wang Xin and Yang Yu, there was no one else who could do the job!

“Phew~~!”

Ji Feng leaned back in his seat and couldn't help but let out a long breath, secretly saying, “When I finish forming the battle team, I'll slowly settle the score with you guys! No matter who is standing behind you or what your origins are, I won't just let it go, no one can stop me!”

Chapter 1193

Since the moment he decided to form a battle team, Ji Feng had never had the thought of retreating.

No matter who was backing those people, whether it was a family or a martial arts expert, even if it was some hidden forces, Ji Feng didn't care.

Even the dynasty Ji Feng has never been afraid of, so why should he be afraid of these clowns who don't even dare to show their faces?

Of course, both father and second uncle called, not allowing Ji Feng to act recklessly and let him hold back for the time being, but Ji Feng did not have the slightest idea of changing his mind.

Although up to now, Ji Feng still did not know who had attacked him and for what reason, but in fact Ji Feng understood that the situation was now very clear, and it could be said that there was only a thin layer of paper between Ji Feng and the truth, which would break with a simple stab.

Obviously, the fact that both father and second uncle called to stop it means that they have realized who did this, or rather, they guessed it, but now it is not advisable to be reckless and impulsive, but to take it one step at a time.

That means that the person behind the curtain, in fact, Ji Feng does not even need to go to great lengths to find it everywhere, as long as he can get a little information from his second uncle and father, it will be enough.

Moreover, Ji Feng realized one thing at the same time.

Since the other party could make both father and second uncle so cautious, it was obvious that the guy who had struck out at himself was definitely not an ordinary person.

So, involving such a prestigious figure, this matter happened to be on Ji Feng's body, he could definitely easily find out who was dealing with him!

The reason why Ji Feng is not in a hurry to find out now is that he is just not ready for it!

Even if Ji Feng really found out who was secretly dealing with him, what if he couldn't fight the other side, or if once the matter was made clear, the matter was not easy to handle because of the elders' faces, and Ji Feng wouldn't retaliate?

Therefore, the most important thing now is not to find out who is actually doing it to themselves, the first thing to do now is to grow their own strength and be prepared for anything!

Since the other party has taken the means to strike in secret, then Ji Feng has nothing to worry about, you can come to this kind of underhanded move, I will be more underhanded than you!

At this point, Ji Feng couldn't help but think of the phone call he received this morning.

It was not the first time he had spoken to that guy. At that time, the result of Wang Xin's investigation, that guy should be in the waters of the boundary tent, and Ji Feng had connected him with Dynasty at that time. Only, Ji Feng never had any evidence, and even whether it was directly or indirectly, Ji Feng had never crossed paths with that guy.

It was unthinkable that that guy called just as things came out this time.

This made Ji Feng think that the matter of his being attacked and killed was not something to do with this shady guy who seemed to have a grudge against his father.

However, after the two of them spoke, instead, this doubt in Ji Feng's heart was alleviated by a lot.

The fact is that the person who was attacked and killed yesterday did not seem to have been sent by him, otherwise, that person would not have had a gloating tone, but should have been full of complacency and threats. Last time he was not full of threats!

But

Ji Feng couldn't help but shake his head, whether or not the attack yesterday afternoon was related to that guy, Ji Feng had to be on guard.

This is a poisonous snake hiding in the shadows!

As long as he found an opportunity, this viper would definitely bite himself without mercy!

Moreover, it seemed that this guy had a son who had been victimized by himself. Although Ji Feng had no idea when he had victimized his son, listening to the guy's tone, it seemed that his son had been stomped into hell by himself!

So it was conceivable that that guy's son would likewise have no good feelings towards himself, and it was good enough that he didn't hate him so much that he wanted to eat his own flesh.

Such an old viper, and a small viper, both lurking in the shadows, Ji Feng could not help but touch his neck.

..... This backbone is a little chilly!

Ji Feng couldn't help but shake his head and cursed: "What the fuck is all this, how the hell am I all enemies? Seems like besides the Wu and Qiao families, and the dynasty, I don't have many enemies ah!"

Calculating carefully, apart from these hostile forces that were on the surface, Ji Feng really couldn't think of exactly who had enemies with himself.

The Qiao family, now gone, Qiao Rong joined the dynasty, now seems to have gone abroad, where exactly Ji Feng is not clear. It seems that Wang Wengao, Qiao Rong's husband, was also implicated after the Royal Club was cleaned up, and later left the country in disgrace to do business abroad.

Nowadays, there are only a few second-generation sons left in the Qiao family, but they are already insignificant.

There was only one Qiao Gakai, whom Duan Peng had met in Rice some time ago, and this kid, he should be connected to the dynasty.

Other than that, there was nothing more.

The Wu family naturally did not need to say much, although everyone was fighting with each other, but this kind of tactic of sending people to attack and kill, as long as the people of the Wu family were not stupid, they would definitely not do so. Last time in Southern Guangdong, Zheng Yuxiu's foolish act was enough to teach them a lesson.

Wang Dynasty, that's a pain in the ass and there's also a hidden little prince who knows himself very well, this is a formidable enemy hiding in the shadows.

..... Well, there's also the martial arts side of Xuan **** and the Tan family.

But a careful count of these enemies, there is not yet any of them, which matches the guy who made the threatening phone call to himself.

So up until now, Ji Feng hadn't figured out where he had offended such a person!

Of course, to say that Ji Feng had offended quite a few minions, from the father and son Xu Mo who had offended him at the beginning in Mang Shi County, until now, I don't know how many unenlightened guys had been slapped by him with a slap to their eyes, and many of them had to leave in disgrace or were thrown into prison.

But by definition, those people don't fit in either

"Forget it!" Ji Feng shook his head and secretly said, "No matter who that guy is, he's ultimately a formidable enemy hiding in the shadows, and that's quite a lot of trouble!"

"Young Ji, we're here." White Spider's voice pulled Ji Feng's thoughts back.

"So soon?" Ji Feng turned his head towards the outside and saw that he had indeed arrived at the entrance of Tengfei Network Company on Tongzhou Road.

After parking the car, the two of them got out of the car and entered the Tengfei Network Company.

Ji Feng went straight to the manager's office on the first floor, where Wang Xin was crackling her keyboard in front of the computer, a thoughtful look on her pretty face as she was working seriously.

"Wang Xin!"

Ji Feng shouted and walked over with big steps.

"Boss?" When Wang Xin saw Ji Feng, her pretty face was immediately pleased, "Why did you suddenly come, and didn't call me in advance so I could prepare a bit!"

"Make what preparations?" Ji Feng smiled and walked over, sat down on the sofa in the office and smiled, "I just came to take a look, it's not a surprise inspection, I'm still more at ease with leaving the Tengfei network to you."

Wang Xin pursed her lips and smiled lightly, hurriedly made tea for Ji Feng, and then, she looked outside the office and asked, "Boss, shall I invite that lady in too?"

"No need."

Ji Feng waved his hand and said, "Wang Xin, you have one more favor to do for me, track down a phone"

He took his mobile phone out and pulled out the number that had called him this morning from the call log, and then placed it on Wang Xin's desk.

"Hold on a second!"

As soon as she entered her work, Wang Xin immediately got serious, she glanced at the number, and then took out a data cable from the drawer, connected it to the computer, and crackled on the keyboard.

Ji Feng wasn't in a hurry, he just quietly sipped his tea.

Not long after, Wang Xin stopped and she said, "Boss, it's found out."

"Oh?!"

Ji Feng immediately asked, "Where is this number calling from?"

"According to the coordinates, it's within the Boundary Canopy area." Wang Xin said, "It's not far from the location of the number you asked me to check last time."

"In the Boundary Canopy again?!" Ji Feng frowned slightly, then shook his head and laughed, "I told you so"

It seems that the guy was in the boundary tent all along, and combined with the tone of his voice, Ji Feng was basically sure that the attack and killing incident had little to do with that guy.

In fact, Ji Feng had already guessed it before, and now it was just verified.

"Wang Xin, apart from asking you to help me investigate this call, there's something else I want to tell you today." Since he was basically sure that it had nothing to do with that guy, Ji Feng stopped thinking

about it and said, "You are now the manager of Tengfei Network Company and your job is not easy, but there is still one more thing that I need to trouble you with."

"Boss, please give the order!" Wang Xin said immediately.

"You ah" Ji Feng shook his head and smiled, Wang Xin also learned to be playful, "You and Yang Yu discuss, you two, at least half of the time, to collect some information, when necessary to hack into some servers and steal some information."

"Boss, is this what you're doing?" Wang Xin couldn't help but be slightly stunned, this thing that Ji Feng ordered, but it was against the law, did the boss encounter any difficulties?

"Let's put it this way, if I make a move on my side, I must ask you and Yang Yu to provide intelligence support." Ji Feng said, "So when necessary, you have to monitor some of the opponent's dynamics via satellite and provide the most accurate intelligence."

"Boss, you're going to war?" Wang Xin asked in astonishment.

"Pretty much, it's all going to be dead, and it's pretty much the same as fighting a war anywhere!" Ji Feng said, "I know that it is definitely a bit wrong to let you do this, but I will help you get rid of all the other troubles, you don't need to have worries, however, this is not a good thing after all, so you think about it, if it is really difficult"

Chapter 1194

"No need to think about it!"

Before Ji Feng had finished his words, Wang Xin spoke up, she stood up at once and said solemnly, "Boss, I promise!"

"..... You promise?" Wang Xin promised so quickly that Ji Feng did not really react for a while.

Ji Feng was aware that what he had instructed Wang Xin to do was not only illegal.

More importantly, hacking into some servers as well as taking control of certain aspects of satellites, which could cause certain countries to hunt her down, was no joke.

Although Ji Feng has promised that if anything goes wrong, Ji Feng will definitely protect her, but this is only a guarantee after all, when the matter comes to the fore, anyone else would have to think it over. However, Wang Xin was so quick to agree, without the slightest hesitation at all.

"Wang Xin, you'd better think it over, don't have any worries!" Ji Feng pondered for a moment before saying seriously, "You can't let any emotions sway your thinking, because this matter is not a trivial matter after all, if you mess it up"

"Boss, you don't have to say it, I've thought it through very clearly." Wang Xin said firmly, "Actually, to be honest, it's not like I haven't done things like invading another country's satellite before, I'm not arrogant, but yet I can say this, as long as I'm doubly careful, I don't think there are many people who can catch me on the internet!"

"That's not a reason!"

Ji Feng shook his head and said, "Whether you can catch it or not is another thing, the fact that you agreed to do it and are going to do it is another thing, you should think about it!"

"Unless the boss can't see my skills!" Wang Xin said.

Ji Feng then shook his head and laughed, couldn't see Wang Xin's skills?

Even the real experts sent from above were unable to do anything and were helpless in the face of Wang Xin, so who would dare to say that her skills were not good?

Even Yang Yu held Wang Xin's skills in high esteem, so how could Ji Feng not trust them?

What Ji Feng was worried about was that Wang Xin would have a desire to repay him and agree to his request, which would not be good, because from the bottom of his heart, Ji Feng did not want Wang Xin to repay him, although he had indeed taken a fancy to Wang Xin's skills, but the rescue of the orphanage was not an attempt to make Wang Xin grateful to him, it could only be considered a righteous act.

Ji Feng stared at Wang Xin, as if he wanted to see what she really thought, but what he saw in Wang Xin's eyes was a determination.

"Wang Xin, you" Ji Feng wanted to say something else, but he was interrupted by Wang Xin.

"Boss, to say a self-aggrandizing word, I can be sure that not to mention in Jiangzhou, even in the whole of China, it would be very difficult for you to find someone with such skills in hacking like Yang Yu and me." Wang Xin's face wore a confident look as he held his head high and said, "When I was in university, the professor who taught me computer technology once said that it would be a great loss to the computer industry in China if I didn't continue my education, but in reality, I have privately taught myself a lot of courses and, also, I have helped some graduate students and PhD students with projects in order to make money, and my skills is much better than theirs!"

"Of course I know about your skills, the key is that it's not just a matter of skills" Ji Feng shook his head, yet he didn't know what to say.

When he came, he hoped that Wang Xin would agree, but now that Wang Xin has readily agreed, he himself is hesitant again, and is afraid that Wang Xin has agreed because he wants to return the favor.

But when he thought about it, Ji Feng couldn't help but shake his head and laugh bitterly, why should he think so much?

Even if Wang Xin really had the idea of repaying her debt, so what?

If you don't give her this opportunity, then Wang Xin may still be holding it in her heart, and she won't have the chance to repay her kindness.

Now she can both help herself and realize her idea, isn't that great?

So, Ji Feng nodded and smiled, "Good then, Wang Xin, the intelligence system in the future can all depend on you."

"And Yang Yu!"

Wang Xin laughed, "Frankly speaking, although I am very confident in my skills, but in front of Yang Yu, I have to discount this confidence, that really is a genius, too powerful! Especially when it comes to procedures, Yang Yu is much better than me!"

"Mm!" Ji Feng nodded with a smile and said, "Well then, count Yang Yu in, but then, you won't be able to hold this manager's position."

Once the battle team really had an operation, say a field battle, then at this time, it would be necessary for Wang Xin and Yang Yu to do their best to provide information about the other side, in this case, Wang Xin would be too busy to hold the position of manager of Tengfei Network Company again, she would not be able to keep busy at all.

"It's good to be able to help the boss!" Wang Xin pursed her lips and smiled lightly, "Besides, even as a manager, you can still have an assistant, and on the technical side, apart from me, there's Yang Yu. So, there is no conflict between the two."

After studying hard, Wang Xin now had some insight into the management of the company, she could now easily manage the whole company and would also set aside a lot of spare time to delve into the technical side, so the time conflict between the management and technical side, Wang Xin could arrange it very well.

"Good, good!" Ji Feng nodded his head.

He subconsciously wanted to physically pat Wang Xin's shoulder, but when his hand reached the top of Wang Xin's shoulder, he suddenly froze again.

Because at this point he had already realized that Wang Xin was different from his other men, this was a very beautiful and well-behaved girl, and he could not do these affectionate actions at will.

Who knows, Wang Xin only pursed her lips and smiled, and took Ji Feng's hand and placed it on her shoulder.

Looking at Ji Feng's stunned expression, Wang Xin said softly and playfully, "Boss, if you're so constrained, you'll make me think I'm an outsider."

..... Khan!

Ji Feng was really stunned, then he shook his head and smiled bitterly and said, "Wang Xin ah, I can't imagine that you also learned However, it's great that you can be so cheerful, compared to the previous tranquility and shyness, now you are more generous."

Saying that, he patted Wang Xin on the shoulder.

At this time, Ji Feng's mind could not help but recall a joke on the internet, some leaders, who like to pat the shoulders and small hands of their female subordinates, would be known as 'shoulder pat XX', and if this leader was a director, he would be known as the shoulder pat director

In fact, this 'shoulder pat XX' is just a harmonic, the real meaning, then, is 'guilty of bitching XX'.

This is actually a sarcastic reference to those lustful leaders, saying that they are committing cheapness!

So if we follow this saying, then wouldn't this action of one's own now make one a shoulder patting boss?

Bitchy bosses

Ji Feng couldn't help but shake his head and laugh, withdrew his hand, and then said: "Wang Xin, since you promised to come down, I won't be polite with you. From now on, you have to figure out if you and Yang Yu, the two of you, can get the intelligence we need in the shortest time possible at a critical moment, if you need an assistant or something like that"

"I'll make a plan out of it!" Wang Xin said.

"Don't ever!"

Ji Feng immediately laughed, "This plan really can't be done, once it leaks out, the consequences are serious!"

"Boss please don't worry, I know what to do!" Wang Xin said with a smile.

Ji Feng then felt a bit strange, this Wang Xin's change was a bit big, every time he saw her, she would have a new change, from being restrained, shy, introverted and uncommunicative when he first saw her, later on, she became quiet, meek and still didn't talk much.

But by now, Wang Xin's personality has gradually become playful and lively and cute!

"Could it be that this is what it is called, a woman who has changed 18 times?" Ji Feng muttered in his heart.

Whirling around, he couldn't help but shake his head with a smile and said, "Well, you should deliberate on it first, I'll go and talk to Yang Yu, and then you guys will communicate afterwards."

"Okay, boss, let me take you there!" Wang Xin said, with some anticipation in her eyes.

"Come on you!"

Ji Feng couldn't help but laugh at once, "I'm letting you, the manager, lead the way for me? I'm not that big, that's all, just wait for my call!"

"Okay!" Wang Xin nodded her head.

"Well, that's it then" Ji Feng waved his hand and was about to walk out the door, but he took a few steps and then jerked his footsteps.

Ji Feng turned around sharply and asked in a low voice, "Wang Xin, how sure do you think you'd be if you were allowed to hack into the City Bureau's archives now?"

Wang Xin held up a finger and pursed her lips as she smiled softly, "One minute is enough!"

"Good!"

Ji Feng's spirit lifted, "Then you help me investigate one thing and one person. The matter is simple, it's the gun battle that happened in the eastern suburbs yesterday at five or six o'clock in the afternoon, this should be able to be found in the city bureau, I want a detailed account of what happened and all kinds

of information. Also, that individual, his name is Chang Chongwei, male, probably about thirty years old, medium to a bit taller in stature, about one meter seventy-seven to one meter seventy-nine or so

He carefully recalled Chang Chongwei's looks and some of his basic features.

"Right, this person is probably not a local of Jiangzhou, he should be an outsider, if you really can't, you can check the immigration records on the airport side, I think that if a person like him goes out, he should take a plane" Ji Feng said.

"Boss, don't worry, I will definitely help you find out this person as soon as possible!" Wang Xin said firmly after writing down all those characteristics that Ji Feng had mentioned.

"Mm! Thanks for your hard work!" Ji Feng nodded his head.

"It's not hard at all to serve the boss!" Wang Xin said with a smile, her beautiful eyes all smiling into a pair of crescent teeth.

Ji Feng nodded and smiled, then went straight to Yang Yu's office and said his intention to put him and Wang Xin in charge of the intelligence side.

As a result, to Ji Feng's surprise, Yang Yu acted even more excited than Wang Xin!

"Boss, you want Wang Xin and me to set up an intelligence team? This is too exciting, I'll do it!" Yang Yu said excitedly.

Chapter 1195

What turned out to be unexpected for Ji Feng was that Yang Yu acted even more excited than Wang Xin!

"Boss, are you asking me and Wang Xin to set up an intelligence team? This is too exciting, I'll do it!" Yang Yu said excitedly.

"..... You, why are you so excited?" Ji Feng asked in consternation.

Yang Yu scratched his head somewhat embarrassedly and laughed heatedly, "It's just that I'm too bored staying in the office, thinking about how to write programs all day, so I want to find something else to do to change my brain. Boss, you may not quite understand the fun of setting up an intelligence team, it's a really good feeling to be able to have a go at other computer experts and compete with them in the unreal world of the internet!"

So that's how it is!

Ji Feng couldn't help but shake his head and lost his smile, "I really can't imagine that you kid actually has such a militant side."

If he hadn't seen Yang Yu's current appearance with his own eyes, Ji Feng really couldn't imagine that the original Yang Yu, who was mute and introverted, would actually be in such a combative state.

Perhaps, no matter what kind of person one is, there is a line of work that he loves the most. This has nothing to do with what kind of personality one has, because it has become almost an instinct to strive for advancement.

It is in the world of computers that Yang Yu is able to make the most of his enthusiasm, which in turn becomes the driving force behind his progress!

To play against other computer experts, that's what interests Yang Yu!

Of course, this is only his interest, not his goal.

This is like a person who may be interested in playing games, but his goal may be to achieve a certain position in the company, how much money he makes, or how big a promotion he gets, etc.

So there is no conflict between interest and goal.

But Ji Feng was a little worried, he couldn't help but admonish, "Yang Yu, you like to fight others in the unreal online world, there's nothing wrong with that, well, at least for you, it's not a mistake, but just a sort of fun game! "

"That's right, it's a fun game, it's not only fun, but it also exercises one's skills, it's sort of an educational game!" Yang Yu said with a nod.

Ji Feng nodded and smiled, "I can understand this kind of thinking, but there's one thing I do have to remind you of, Yang Yu, for example, if you cross paths with the other party in the process of searching for information, then you should never delay your business because you want to compete with the other party. Also, no matter how you fight with others, but there is one thing you must keep in mind, absolutely, absolutely no exposure, got it?!"

"Boss, I understand what you mean, don't worry!" Yang Yu nodded, of course he understood what Ji Feng meant.

"Well, that's a relief for me." Ji Feng nodded and said.

As a matter of fact, the so-called high art people are bold, whether in the online world or in the real world, there is never a shortage of people who are very talented but bullying and rugged, they are likely to delay great things and even get themselves into it because of a momentary spirited fight.

There is a saying – those who drown are those who know how to swim!

If Yang Yu had delayed business because he was fighting with someone else, it would likely have caused a chain reaction

For example, because of the untimely arrival of information, it caused the war party to suffer a huge loss.

Another example is that Yang Yu, because he was so focused on fighting with others, ended up exposing himself and thus caused great trouble, all these things, can be very likely to happen, so Ji Feng had to remind Yang Yu.

"Boss, in fact, fighting to win or lose may not necessarily mean that we have to fight each other, if I fight with the other side, I will use the ability to obtain information as the ultimate victory criterion, if I obtain the information, then I win, if I do not, then I lose" "Yang Yu said, "I must get the intelligence, and the other side must keep the intelligence, so in the process, the win or loss will have a result!"

Ji Feng then understood that Yang Yu was treating stealing intelligence as a mission.

If he completed the mission, he would be winning, but if the other party succeeded in stopping him, then he would be considered a loser!

“Since that’s the case, I won’t say much more, but you must have a number in your own mind before you do.” Ji Feng said, “Let’s do this first, you go and communicate with Wang Xin, how exactly to do it, you two discuss it, I don’t want the process, just the result!”

“Yes!”

Yang Yu replied loudly with excitement.

He did not think that there was anything wrong with stealing information.

But in reality, it was indeed very wrong, but Ji Feng was no longer bothered about that. From the moment he was attacked and killed, Ji Feng was no longer willing to be bound by a lot of rules and regulations, how others treated him, he had to return ten times a hundred times, never ambiguous!

But now he doesn’t have that ability, so he must try to do it.

Stealing information is just one of the steps, no big deal.

“If stealing information is worth making a fuss over, then I’m afraid that once my two battle teams come out, some people will curse even more fiercely!” Ji Feng sneered, “You are allowed to attack and kill me, and you still don’t allow me to fight back?”

..... No such reasoning!

The moment Ji Feng walked out of Tengfei Network Company, he looked back.

From this moment on, the intelligence team headed by Wang Xin and Yang Yu had been formed successfully.

The intelligence team formed by these two people did not dare to say that it was the best in the world, but in China, it was definitely the top intelligence team, especially in terms of network and communication, these two people were definitely more powerful than a strong battle team.

The intelligence team formed by Wang Xin and Yang Yu, as well as the sub-teams led by Yi Xingchen and White Spider respectively

It can be said that today, under Ji Feng’s command, a battle group that is incredibly strong, both in terms of combat and intelligence capabilities, as well as in terms of overall strength, has already taken shape!

In Ji Feng’s heart, a wave of pride and ambition surged up.

As long as the battle group was completed, no matter what opponent he encountered, Ji Feng would be able to fight it!

Moreover, there was a great deal of certainty that he would win the battle!

No matter what dynasties or forces hidden in the shadows, they would all become stepping stones and cannon fodder on the way of this team’s rise.

Ji Feng believed that under his own leadership, no opponent could stop this team's advancement.

Even, Ji Feng could faintly see that this fledgling team was already sharpening its bayonets and narrowing its eyes, as if it was a beast revealing its sharp fangs and tearing any opponent that stood in its way into pieces!

"So far, the intelligence team has been formed successfully, then, remember down to do, is to select team members for Yi Xingchen and White Spider respectively" Ji Feng waved his hand: "White Spider, let's go!"

"Young Ji, where are we going?" White Spider asked.

"Where to go" Ji Feng's fingers tapped on the car door and mused, "How about this, you contact Xiang Yongzhan first, if you get in touch, we'll go directly to the barracks, if not" then go home!"

"Yes!"

White Spider nodded, took out her mobile phone and started to contact Xiang Yongzhan.

However, Ji Feng did not report any hope, because since he had sent a message to Xiang Yongzhan last night, he had not received any reply from him, thinking that he must not be convenient to contact the outside world yet.

So while Bai Spider was on the phone, Ji Feng simply got out of the car, lit a cigarette and smoked.

It wasn't that Ji Feng was going to give the White Spider space to call, but that right now he hadn't decided exactly where he was going.

Moreover, where and how should Yi Xingchen and the White Spider's team members be selected from were questions that Ji Feng had to deliberate on.

"Young Ji, Captain Xiang's phone is not working!" Ji Feng hadn't even finished one of his cigarettes when White Spider stuck out his head and said, "I just called the base dormitory directly, and a soldier said that Captain Xiang was busy, so he didn't say anything more specific."

"I knew it!"

Ji Feng hummed, he wasn't even surprised to hear what White Spider said, but said, "To say that things are unreliable, Xiang Yongzhan can definitely be counted as number one, this guy has never been reliable!"

White Spider could only purse her lips and smile lightly, Xiang Yongzhan was once her captain and Ji Feng was her current boss, she was caught in the middle and could not say anything about anyone.

Ji Feng had originally just made a casual remark to vent his frustration.

Afterwards, he stubbed out his cigarette and pulled open the car door and was about to sit on it, when a person from Tengfei Network quickly ran out.

"Sir, this gentleman, our manager asks you to come over!" The man said.

"Invite me over?" Ji Feng pointed at himself.

Hula~~!

Just then, the corridor window on the first floor was suddenly pulled open, and Wang Xin's smiling face showed up, "Old"

Before she could shout out, she was interrupted by Ji Feng: "Wang Xin, what's looking for me?"

Wang Xin instantly reacted, she playfully spat out her tongue and said, "Old that what, that person you asked me to check out, I found out some information, do you want to come up and take a look?"

The person I was checking out?

Found out?

Ji Feng was slightly stunned, then he reacted, he had indeed asked Wang Xin to check, and, it was to ask her to check Chang Chongwei. It seemed that Wang Xin was working efficiently and now had the results.

Thinking of this, Ji Feng immediately shouted, "I'm going up."

After saying that, he turned his head to the white spider and said, "White spider, we are not going back first, get off, go up together, this car is too hot, you don't want to wait here"

He was anxious in his heart, Chang Chongwei that son of a bitch, now he finally found out about this guy, he wanted to see, which way is this god!

Chapter 1196

"What results did you find out?" Ji Feng asked as he quickly arrived at Wang Xin's office with great excitement.

He was sure that the attack on him yesterday definitely had something to do with Chang Chongwei, and there was even a group of people who were probably sent by Chang Chongwei.

He knew that from the conversation with Zheng Yuanshan, Ji Feng could hear that Zheng Yuanshan also knew about this Chang Chongwei. However, Zheng Yuanshan did not say so, but just vaguely said it and coped with it.

At that time, Ji Feng just did not want to pursue the question, after all, he also knew that even if he pursued the question, he would not be able to ask any satisfactory answer from Zheng Yuanshan.

However, this did not mean that Ji Feng had forgotten about this Chang Chongwei.

After being attacked and killed for no reason, and almost losing his life, Ji Feng would not be dissuaded from taking revenge just because anyone had persuaded him twice.

As long as he found an opportunity to find the right target, Ji Feng would definitely not show any mercy.

No matter who is standing by, Ji Feng will find a way to give the other party a thunderous blow, and, now that Ji Feng has learned his lesson, he will definitely not give his enemy any chance this time, either not to move, to move, then he will directly kill with a stick, and definitely not give the other party any chance to resist.

..... definitely not give!

“Boss, you sit down and rest first, listen to me slowly tell you.” Wang Xin saw Ji Feng’s fiery appearance and couldn’t help but purse her lips and smile lightly, “If you’re in such a hurry, you won’t be able to hear me even if I talk to you.”

“Pop!”

Ji Feng lit a cigarette, nodded his head and said, “Well then, you start from the beginning, say it carefully, don’t even leave this guy’s ancestors behind, introduce them all!”

“Boss, this might not be as good as you want it to be.” Wang Xin smiled and could not help but say apologetically.

Ji Feng was slightly stunned: “How so? Didn’t find out?”

“Found out yes, but, not as detailed as you said, rather some” Wang Xin shook her head, sat down in front of the computer, and said, “I’d better introduce you to it.”

After tapping her hand on the keyboard a few times, she stared at the computer display and said, “This Chang Chongwei’s information is actually, in fact, very little”

“It’s better for me to read it myself!” Ji Feng directly stood up and came behind Wang Xin.

However, when Ji Feng saw the information on the computer, he was stunned by it, “Wang Xin, how come there is so little information?”

On this computer display, there was only so much as a resume-like form, which was a simple information registration form, and Ji Feng scanned it and found that it was the rank filing information on the airport side.

“Boss, the city bureau’s archive I have entered, did not find any information about Chang Chongwei at all, then I entered the Jiangzhou International Airport’s network as you said, and found some records” Wang Xin said: “I originally intended to go directly into the police archives, trying to find information on Chang Chongwei thoroughly, but because time was a bit tight and the firewall of the archives was set up okay, so”

“I understand what you mean.” Ji Feng nodded and said, “Being able to find out this information is already very good.”

“I’m sorry!” Wang Xin knew that she didn’t find out the information that Ji Feng wanted, and she was a little embarrassed that she hadn’t done a good job for the first time Ji Feng gave her the task of gathering information.

She secretly decided that she would definitely hack into the police archives and find out information about Chang Chongwei!

Ji Feng, however, shook his head and said, “You’ve done a good job, if it wasn’t for you, I’d be in the dark about everything except that guy’s name right now, I wouldn’t know anything!”

His eyes, fell on the table on the computer display.

The photo on top of this file sheet was indeed the same Chang Chongwei that Ji Feng had seen. Although the Chang Chongwei on top of this file sheet looked very young and his touch had more or less changed, Ji Feng could still be sure that this was the same guy!

Only, there was only some simple information about Chang Chongwei on it, this guy came to Jiangzhou three days ago, and there was his ID card information on it.

“Jiangnan Province” read Ji Feng, his brows slightly furrowed.

According to the information on the ID card, this Chang Chongwei was from Jiangnan Province and his specific address was in Tongzhou, Jiangnan Province.

But, unfortunately the information shown on the ID card was too little, apart from knowing the address, which was the year and month of birth, other than that, nothing was known.

“Wang Xin, since we know that this person is from Tongzhou City in Jiangnan Province, it’s a good thing to do.” Ji Feng said, “You can access the archives of the Jiangzhou Municipal Bureau, so I guess this Tongzhou City archives must not be difficult for you either, right?”

Wang Xin nodded beside him and said, “That’s right, I can access the Tongzhou City Bureau’s archives and check the details of this person.”

Ji Feng nodded and said, “Alright then, take the time to check it out and contact me when you have any information.”

“Boss, I can access the database of Tongzhou City right now!” Wang Xin said.

Ji Feng, however, shook his head and said, “Wang Xin, you don’t need to be so hasty first, everything is planned before you move, think about it first, use the safest way to check, don’t expose yourself just to check the other party. Moreover, I also need to think about how to investigate the safest”

“Yes!” Wang Xin nodded her head.

“Alright then, you go ahead and get busy, I should go back too.” Ji Feng comforted, “Don’t have any psychological burden, the investigation, it was supposed to be carried out gradually, you first found out the identity information of Chang Chongwei, then through the address shown on his ID card, you can access the archives of the Tongzhou City Bureau, only you are in a hurry to give me the results, that’s why you are so frustrated... ..Don’t rush, take your time!”

“Mmm!” Wang Xin nodded her head.

Ji Feng comforted her a few more times and urged her to take her time to investigate and protect herself first, and only then did he leave the Tengfei Network Company.

“Young Ji, where are we going now?” Sitting back in the car again, White Spider couldn’t help but ask.

“Let’s go home!” Ji Feng said.

Xiang Yongzhan couldn’t be contacted and didn’t know if he was in the barracks, so it wasn’t good to go directly to him. Zheng Yuanshan’s side was naturally not to be counted on, and besides, with second

uncle and father giving the word, Ji Feng couldn't even go to put pressure on Zheng Yuanshan There was basically nothing left to do now, and there was only going home and waiting for news!

.....

The next nearly a whole day, Ji Feng have nothing to do, he also no longer to think more, save thinking more annoying.

So, after eating lunch, Ji Feng lay down on a deck chair in the backyard of the villa and boiled telephone porridge with Tong Lei, until the phone ran out of battery.

It was already half an afternoon after this phone call.

Bai Spider was also in the backyard, but instead of resting, she was taking the opportunity to practice aerobics.

It was rare for Ji Feng to have a leisurely moment like this, and it was so rare that Bai Spider naturally had to seize this opportunity to let Ji Feng instruct her.

Moreover, White Spider had promised to lead a small team, so naturally she had to be even more diligent.

Ji Feng didn't hide anything, and he instructed Bai Spider without reservation, telling her all about his experience in practising gymnastics, correcting some of her postures, and telling her some precautions and habits to follow when practising.

This was all that Ji Feng could do now. He felt that although practising gymnastics was easier than the so-called cultivation of martial artists, in reality, there was not much difference between the two in essence.

Whether it was the practice of aerobics or the cultivation in the martial arts, both required hard work and, at the same time, both required enlightenment, which were all figured out.

So, Ji Feng had already told Bai Spider all his experiences, so it was not up to Ji Feng to decide which step she could reach, it depended on Bai Spider's own enlightenment, as well as whether she had worked hard.

However, even Ji Feng had to admit that Bai Spider was working very hard, so hard that it could almost be said that she was trying her best!

At this moment, Bai Spider was even more diligent than when Ji Feng was practicing aerobics!

Huffing~~huffing~~!

With a movement that seemed like yoga, Bai Spider landed on one leg, her body was sweating like rain, her short hair was soaked with sweat and stuck to her forehead, her face was red and her body was already shaking, but she didn't have the slightest intention of stopping, instead she was gritting her teeth and holding on.

Looking closely, there was a hint of ruthlessness in the eyes of the white spider, which made Ji Feng look a little strange, what was she being ruthless about?

In fact, since he had known Bai Spider, Ji Feng hadn't even gotten to know her.

This woman, or rather, this girl, she always closed her heart tightly, not allowing outsiders to understand, and she also never easily showed her true inner thoughts.

So up until now, Ji Feng still didn't know what was really going on in Bai Spider's mind.

For example, now she was obviously being ruthless, but Ji Feng didn't even know what she was being ruthless for.

Yet he knew that White Spider was very bitter in her heart.

"It seems that communication is still needed!" Ji Feng said in his heart, the two of them were now getting along much better with each other, and Bai Spider and Xiao Yuxuan were also getting along much better, but Bai Spider hadn't really integrated into the family yet.

It would take time!

Perhaps by that time, Ji Feng would understand what kind of past this woman who had been a killer and joined the dynasty and had been implanted with a biological bomb had.

A person who had been implanted with a biological bomb would definitely not be much happier or more pleasant in her heart.

This is also a woman with a heartbreaking past!

"Ding"

Ji Feng was thinking when his mobile phone suddenly rang, he scanned it but was shocked to find that it was actually He Hongwei calling.

This was a rare character, if there was nothing going on, this guy still rarely contacted Ji Feng, now he was calling, he must have something to find him.

Ji Feng casually picked up the phone, however, he was just about to pick it up when he saw the screen snap out.

"..... Shit!" The corners of Ji Feng's eyes jumped wildly a few times, "How nice, the more critical it is, the more it drops the chain, what kind of military phone, with such a little storage capacity?!"

The phone ran out of power and automatically shut down!

Chapter 1197

Ji Feng looked at his mobile phone speechlessly, this was the second time in two days that it had run out of battery, he was so angry that he casually threw the phone on the ground and said angrily, "What kind of bullshit military mobile phone, it's not like it's running out of battery!"

Seeing Ji Feng's bad mood, Bai Spider couldn't help but purse her lips.

Although she didn't know what exactly had happened to Ji Feng, she understood that to make Ji Feng so annoyed, it was obviously not something worth being happy about.

Especially since Ji Feng actually wanted to form a battle team, this made Bai Spider realise that Ji Feng was in big trouble.

She couldn't help but think back to yesterday afternoon when Ji Feng and Zhang Lei returned in that mess, and then through Ji Feng's words and actions over the past day or so, she could conclude.

Ji Feng had been attacked by someone yesterday afternoon and had suffered a loss.

Otherwise, how could Ji Feng, who had always been steady and wise, have been so overjoyed?

Seeing that Ji Feng did not have the slightest intention of picking up the phone, Bai Spider planned to end the practice and go help Ji Feng charge his phone, but just as she tried to make a move, she was stopped by Ji Feng.

"Just concentrate on practicing aerobics, don't worry about anything else for now!" When Bai Spider was practising aerobics, Ji Feng could clearly sense the bio-current in her body, and when it fluctuated slightly, Ji Feng noticed it.

He shook his head helplessly, stood up, picked up the phone from the ground and said, "You keep practicing until you don't feel tired anymore, and it will be over for today."

At this point White Spider's whole body was in an odd position, she couldn't speak or even nod her head, so she could only blink to show that she had heard.

In reality, there was a big difference between practising aerobics and a normal workout.

In normal exercise, when the body is strained to a certain level, it can also be finished. Then when the body gradually recovers, it will gradually be stronger and more powerful than before.

The more tired you are, the more effective it is, the more you have to grit your teeth and get through the numbing process, and then the more you start to gather strength.

The strength gathered in this situation will not dissipate even when you finish the exercise, and your strength will continue to increase, so persevere every day, week after week, this is the process of practicing body building exercises.

Now that the white spider is exactly in this most strenuous state and has not yet reached the peak of her exertion, how could Ji Feng spoil the results of her hard work?

The company's main business is to provide a wide range of products and services to its customers.

Taking the phone and leisurely returning to the study, Ji Feng plugged in the charger and casually left the phone there to charge.

Now he didn't want to talk to anyone, even if it was He Hongwei calling, Ji Feng didn't want to answer it.

After the events of the past two days, Ji Feng's state had not been too good, so he knew very well that what he needed now was not to rush about this and that, but to calm down and adjust his state before he could start his next move.

So, Ji Feng didn't even turn on his computer when he was charging, instead he just turned on his computer, got on the internet and casually found a comedy movie to watch.

Time was passing quickly, and in the blink of an eye, it was already after 5pm and the movie was over.

Ji Feng turned off the player and was about to browse the web again when he heard a 'ding-dong' sound, an email came in.

Ji Feng immediately opened the email, but found that it was from Wang Xin, but the file was encrypted and could not be opened at all. In desperation, Ji Feng had to send another one back, asking for the password.

"Boss, your phone couldn't be reached, so I had to send the information to your email first." Wang Xin's email quickly replied, "I found Chang Chongwei's information from the archives of Tongzhou City, the password is the date of the establishment of Tengfei Network Company"

Ji Feng immediately smiled and replied with a few words, "Wang Xin, hard work, thanks."

Afterwards, he quickly opened the email that Wang Xin had sent earlier, entered the password, and the content inside was displayed.

"Chang Chongwei, from Tongzhou City, Jiangnan Province, born in a single-parent family, has a mother, father's identity unknown" Ji Feng read the contents of the email softly, these were not anything substantial, coming from a single family was not something strange, nowadays There are too many people who come from single-parent families.

What surprised Ji Feng was the following paragraph written by Wang Xin: "There is nothing strange about Chang Chongwei's family, however, through the investigation of Chang Chongwei's mother as well as several uncles, it was found that one of Chang Chongwei's uncles, is the boss of a group, that group, named Chang's Group, is a family-owned enterprise with huge assets. "

Ji Feng continued to read: "It is noteworthy that the Chang's Group from the formation to the rise of just over five years, it has become a local Tongzhou number of large groups, business and scale of development are fast"

Below this, were the names of some companies that had close cooperation with the Chang Group, and, on the names of some key companies, Wang Xin had added red lines.

Suddenly, a name caught Ji Feng's eye – Tian Yao Group, Tongzhou Branch!

"Tianyao Group? He Hongwei?!" Ji Feng's eyes were cold, could it be that something had to do with He Hongwei?

Thinking about the phone call that He Hongwei made to himself just now, Ji Feng's heart couldn't help but rise up with a chill, if if yesterday's attack was really closely related to He Hongwei, then this He Hongwei was really too scary, if he just attacked himself behind the scenes without a sound... ..

Phew~~!

Ji Feng let out a long breath, first calming himself down, and then, he continued to insist on looking down.

No matter what this matter is all about, one must first read through the information Wang Xin found out before making a judgement, then the conclusion reached might be 8`9.

Ji Feng's eyes skimmed over the names of the companies that had cooperated with Chang's Group one by one, taking them all down in his mind one by one.

And then, Ji Feng continued to read on, this below, is the Chang's Group's equity distribution: "Chang Chongwei holds fifty percent of Chang's Group's equity"

As soon as he saw this, Ji Feng understood.

This Chang's Group is simply Chang Chongwei's, although this guy himself is not the chairman of Chang's Group, but holds half of Chang's Group's equity, in secret control of Chang's Group.

"This Chang Chongwei, he's really quite a big deal!" Ji Feng sneered, from this information, he could tell that Chang Chongwei and others, must be very powerful in the local Tongzhou area. Moreover, some of the local leaders, including people from other forces, must also have connections with him.

Otherwise, how could the Chang Group have gone from starting with nothing to having a huge family fortune today, but in just five years?

Obviously, there are only two possibilities for this to happen.

The first possibility –

Someone in the dark was looking after Chang Chongwei and his family, allowing them to have an unhindered journey and thus a rapid rise to prominence.

The person who is looking after Chang Chongwei is obviously not ordinary, although it cannot be said that he can overshadow the world, he is at least a very powerful person. One could even say that he was a powerful person!

The other possibility is that this Chang Chongwei and his uncle are both gifted and talented business wizards, which is why they could set up a sizeable group in just five years, but how likely this is, Ji Feng is not sure.

The next step was to pull down the email again, and he found that the following was Chang Chongwei's personal information.

Ji Feng's eyes immediately lit up, the personal information Wang Xin gave to Chang Chongwei looked like it came directly from the archives, which recorded some of Chang Chongwei's documented matters.

It was only at this point that Ji Feng realized that this Chang Chongwei was really a repeat offender!

This guy's record of being detained alone was eight times, each time for different but similar reasons.

Fighting and brawling, disturbing normal law and order, bullying and hurting

"Motherfucker, this is simply a small gangster!" Ji Feng frowned slightly, looking at these antecedents of his, this was definitely a hooligan.

Even more so, this Chang Chongwei, most likely, was still a gangster!

He carefully looked at them, these previous records were basically from seven or eight years ago, and since then there was not a single previous record, instead, he had won many social awards.

Take a look at

'Top Ten Outstanding Youth of Tongzhou City', 'Outstanding Entrepreneur', 'Caring Person'

There are really quite a few awards like that.

"This is really a legend, from a rogue to a business tycoon, really impressive!" Ji Feng sneered sarcastically, "It really fucking disgusts me!"

Ji Feng couldn't help but shake his head, yet he also keenly found out a lot from this.

The time when Chang Chongwei first won the award was very close to the time when the Chang Group rose to prominence, just a year before and after, so it was obvious that it was from this time that Chang Chongwei had gained the support of certain forces and started to rise.

Only, this guy didn't show his head on his own, but let his uncle take the front seat, while he stood behind and took control of the whole situation.

"Awesome!"

Ji Feng sneered, and then remembering the grim look of Chang Chong Wei when he met him, and the way he called himself Brother Chong, Ji Feng had some vague guesses.

The email ended here, and it seemed that this was all that could be found out from certain sources.

However, Ji Feng was already very satisfied, and finding out this information in less than a day was already remarkable. She is not a god, to get more detailed information, it will have to be obtained from other channels.

For example, sent someone directly to Tongzhou.

It is believed that Chang Chongwei rose so quickly in Tongzhou, it is impossible that there are no rumors, the people who know must be there.

And then, Ji Feng's gaze, and fell on the four words of the Tian Yao Group

Chapter 1198

"Tian Yao Group"

Ji Feng hugged his arms, his gaze fell on these four words, an inexplicable light flickering in his eyes, not without an eerie chill in it.

"How much of a relationship is there between the attack and killing yesterday afternoon, and the Tian Yao Group, and He Hong Wei?" Ji Feng looked at the words Tian Yao Group and couldn't help but murmur softly.

Frankly speaking, when Ji Feng saw these four words, he instantly associated them with this fellow He Hongwei.

After all, the rise of Chang Chongwei and the Chang Group was really a bit bizarre, and it was obvious that Chang Chongwei was getting help from someone, so the only person that Ji Feng could think of at first was He Hongwei.

If Chang Chongwei was really sent by He Hongwei, then these two Wei

The first thing you need to do is to get a good idea of what you are getting into.

If you think about what Zheng Yuanshan said, the two people who took the gun at the entrance of the amusement park yesterday afternoon seemed to be people from the special department, the suspicion in Ji Feng's heart thickened a few points.

The question is, how many people can be able to mobilize people from the special department to do things for them?

At least He Hongwei was definitely one of them!

So, in that case, the clash with Chang Chongwei at the playground yesterday over a small matter was certainly not a chance encounter, but a deliberate arrangement by Chang Chongwei?

But, it didn't look like that either!

If Chang Chongwei was really powerful and wanted to move himself, there was no need for him to deliberately come into conflict with himself.

The only way to find out is to ask Chang Chongwei directly, or to ask He Hongwei!"

However, going to ask them directly, that would undoubtedly be extremely stupid.

Not to mention the fact that we don't know where Chang Chongwei is yet, even if we were to ask He Hongwei, it would still be very inappropriate.

If it was really He Hongwei who did it, then going to ask him directly like this would undoubtedly make him suspicious, or even do something unexpected, and Ji Feng would be even more passive at that time. If He Hongwei didn't do it, then rashly going to ask him like this will certainly also make He Hongwei's heart unhappy, or, it will affect this stable and long-term cooperation relationship now, so that whether he did it or not, Ji Feng can't go directly to ask him!

"It looks like it's time to find a chance to find out!" Ji Feng said in a soft voice.

Although he couldn't go and ask directly, it wasn't impossible to detour through other channels. For example, meet with He Hongwei and see how he would react when he saw him, or, what he would say or something like that

Apart from that, one can also investigate the movement of the Tianyao Group, and so on

The first thing you can do is to find out how much connection there is between He Hongwei and Chang Chongwei, and also be able to speculate if there is any connection between He Hongwei and the attack yesterday.

The first thing you need to do is to take a look at the computer monitor in front of you and freeze in place.

.....

At the same time, in a hotel package suite in Jiangzhou, there were two young men sitting in the room.

The two of them, with a facial resemblance of seven or eight points, and their age difference is not too big, at first glance, they are two brothers.

At this moment, a slightly older imposing young man was holding his mobile phone with a bitter smile on his face, listening to the burst of busy sounds coming from the phone, he could only shake his head helplessly.

“Big brother, what’s going on, Ji Feng’s phone can’t be reached?” Another young man frowned and asked, “This guy is a bit too much of a spectacle, isn’t he? What’s the matter, he hung up straight after calling before, and this is almost two hours later, and he won’t answer the phone?”

“This kid, maybe he’s busy with something.” The slightly older young man frowned slightly and said, “Hongqiang, you are not young now, but you should pay some attention to what you say in general, don’t be so stammering all day, no proper shape at all remember?!”

“Yes yes yes, big brother, I remember everything you said.”

The latter kept nodding, “I just think that this kid Ji Feng is posing a bit too much. Big brother, according to reason, you and Ji Feng’s elder brother, Ji Shaodong, and the old Xiang family’s Xiang Yongzhan, you’re only at the same age level, aren’t you three known as the three Yanjing Jiejie? Then look at him Ji Feng, what kind of virtue does he have, not only does he sit on an equal footing with you guys, but now he even hangs up on your calls as soon as he says, not giving any face at all I think ah, this kid just deserves a beating!”

The two young men’s identities were naturally self-explanatory, and yes, they were the two brothers of the He family, He Hongwei, and He Hongqiang.

The young man holding the mobile phone with an extraordinary air was naturally the leading figure of the third generation of the He family, He Hongwei.

Hearing his brother say this, He Hongwei couldn’t help but shake his head and smile, “You came to beat him up, huh?”

“What, what?” He Hongqiang grunted, “How can I say that I have practiced Taekwondo for so many years, there are really not many people in Yanjing’s circle who can surpass me in terms of fist and kick kung fu.”

“Hmph”

He Hongwei lost his smile at once: “Hongqiang, don’t say I didn’t warn you, you better not make a move with Ji Feng, otherwise, when the time comes, you won’t even know how you’ll get beaten up, and once he does, I can’t even help you.”

“..... is that evil?” He Hongqiang said somewhat unconvincingly, only, his tone was not as arrogant as it was just now.

“Remember what happened at the Wanli Club in Yanjing more than a year ago, right?” He Hongwei skimmed him, “How was Qiao Gakai’s fighting skills? Back then, he was also known to be a good fighter, right? In the end, he was still kicked away by Ji Feng and fell in a mess, you shouldn’t forget this incident, right?”

The corners of He Hongqiang’s mouth couldn’t help but twitch a few times, his mouth opened a few times, but no words came out.

How could he possibly forget what had happened at the Wanli Club at the beginning?

Ji Feng and Ji Shaolei were two powerful brothers, especially Ji Feng, who was such a pervert that he had kicked a living man of more than a hundred pounds.

There was another guy who was forced to kneel down and kowtow to them just because he provoked Ji Shao Lei!

The point is, that guy was also arranged by He Hongqiang!

“Cough cough that what, big brother, let’s not talk about this past matter.” He Hongqiang’s face was slightly red, this was also very humiliating for him ah.

He Hongwei then laughed as he said, “So that’s why ah, letting you kid stay in Yanjing is a mistake in itself, Hongqiang, you’re not young, aren’t you considering doing something, or else, how about you come to help me in the group?”

“That, let me think about it again.” He Hongqiang said with a bitter face.

“As soon as this matter is mentioned, you are always thinking about it!” He Hongwei shook his head helplessly, then he stopped talking and just picked up his phone to dial Ji Feng’s number again.

“Duh”

Listening to the busy tone that came again, He Hongwei couldn’t help but shake his head and frowned, “What the hell is this Ji Feng doing, every time he called in the past, he could definitely get through, what’s wrong today? It can’t be that he knows I’m coming and is deliberately avoiding me, right?”

“Big brother, since you can’t get through, then don’t contact him for now.” He Hongqiang said, “We are not the only one who knows Ji Feng in Jiangzhou, isn’t it the same to contact others?”

“Contact who? Ji Shaolei?” He Hongwei asked directly.

“.....” He Hongqiang then stopped talking.

Damn it, mentioning Ji Shao Lei, the veins on He Hongqiang’s forehead couldn’t help but jump wildly a few times, he had absolutely no half-hearted feelings towards Ji Shao Lei.

This is the guy who stole Xiang Yurou, so how could He Hongqiang have any good feelings towards Ji Shaolei?

It would be good enough if he didn’t go to fight with Ji Shaolei with a knife!

And still go after Ji Shao Lei?

“Huh” Seeing his brother like this, He Hongwei couldn’t help but laugh.

“Hongqiang, Chang Chongwei is coming to Jiangzhou to develop, and since that one has also asked for it, we naturally have to do our part. Then you say, in Jiangzhou who only has that much energy, that is, Ji Shaolei and Ji Feng, Ji Shaodong is in Jinling, Li Weidong that guy does not do proper work all day, Li Weibing, right, also in the field, not enough”

He Hongqiang nodded helplessly and said, “This I understand. Damn, this old Ji family but more and more bull, let’s say Ji Shaolei and Ji Feng, the two of them in Jiangzhou is TZ master, majestic, but back to Yanjing you should always restrain some, but look at them, after going back still rampant, even the two bastards of the Wu family, also fell in the hands of Ji Feng, words, the children of the old Ji family, can not afford to mess with ah!”

He Hongwei couldn’t help but be silent, indeed, originally, the Ji family is most valued by outsiders, is the first grandson Ji Shaodong, that guy is very talented, and very wise, is a powerful person.

However, because the guy is in the system, so many behaviors are extremely restrained, have tasted his great, I’m afraid that only the political arena his opponents, as for the rest of those gentry now Ji Shaodong simply do not mix this circle.

However, what people can’t expect is that the Ji family has emerged another first grandson of the eldest house, Ji Feng, plus a dude in the boss Ji Shaolei, these two brothers in the wild, actually stirred up the world’s storm clouds, heavy fist, hitting one after another opponent nose-to-nose, surprisingly, in just over two years, created a hefty reputation, so that many people in Yanjing mention the Ji family, will first recall a phrase.

..... The three sons of the Ji family are like wolves and tigers!

The old Ji family, can’t afford to mess with ah!

Chapter 1199

“Brother, why does Chang Chongwei have to come to Jiangzhou when he’s doing well in Jiangnan? With that guy’s character, of course he can get along in Tongzhou, but he may not be able to get along in Jiangzhou!” Although He Hongqiang was also a playboy, he was not stupid either. Of course he could see that Chang Chongwei’s personality was too cold, and it was too much for him to be a buddy, let alone a businessman.

He Hongqiang had also heard about how that guy had risen in the past few years, and it was evident just by looking at Chang Chongwei’s style of action.

“Humph! People are all unaware of their own abilities, and, again, there are not many people who can see clearly what they are capable of.” He Hongwei said noncommittally, “Chang Chongwei is doing well in Jiangnan, but because of the issue of his means, certain people always have to be concerned about some influence, right?”

“So he just wants to come to Jiangzhou?” He Hongqiang shook his head, “How can Jiangzhou be that easy to mix with?”

“Oh, in the eyes of many people, Jiangzhou is the economic centre of China, the eastern centre of Asia, so many people want to take Jiangzhou as the origin, radiate in all directions, and then cover the whole country” When it comes to the business side of things, He Hongwei that simply The actual fact is that you will be able to get a lot more than just a few of these.

“Chang Chongwei can develop well?” He Hongqiang asked.

“Hmph!”

He Hongwei shook his head with a non-committal smile and said, “What outsiders see is the prosperity of Jiangzhou, but they have never seen how much blood and tears are behind this prosperity. The more prosperous a place is, the more fierce the competition is, and very often the shopping malls are often more fierce than the battlefield. You can look around and see how many people go bankrupt every day, and how many people go from being originally rich and famous to living on the streets overnight?”

“In a place like Jiangzhou, where you can’t even chew your food and have to squeeze it in, the pace is so fast that your adrenaline spikes every day. Intelligence, timing, verve, timing and location, one of these things is missing!” He Hongwei said, “Even if you take a crooked path, that still requires verve, you’ve had more contact with Chang Chongwei, do you think he has the verve?”

“Bullshit!” He Hongqiang bristled.

“Be careful what you say!” He Hongwei frowned slightly and said something to him.

He Hongqiang heatedly smiled and said, “I’m used to talking to those kids Then what, big brother, since you also think that Chang Chongwei may not be able to develop in Jiangzhou, then why do you still help him introduce Ji Feng? If something happens to him then, or if he does something that is difficult to end, isn’t it still your responsibility in the end? Besides, we have a relationship with the Ji family”

“You ah, only know one thing but not the other.”

He Hongwei shook his head and smiled, saying, “Chang Chongwei himself is at most a reckless hero, to be precise, at most a reckless lord, but you also know his identity so there is no way I can’t help this favor. However, if something happens to him in Jiangzhou, he won’t be able to find me, the water in Jiangzhou is too deep, as you can see, and I’m afraid that only someone who is extremely shrewd by nature like Ji Feng will be able to mix well!”

For Ji Feng’s wisdom and talent, He Hongwei really had to admire it. And what surprised him was that this first grandson of the Ji family’s eldest house was actually a wizard of both literature and martial arts, such a person is really rare nowadays!

“Besides, we and the Ji family, Hongqiang, your usual behavior, also need to restrain some, many times, a momentary enemy, may not be a lifetime enemy, but, a lifetime enemy, certainly once became a momentary enemy!” He Hongwei said, “What I said, do you understand all of this?”

“Roughly understood it!” He Hongqiang scratched his head and said with some uncertainty, “So what, what big brother means is that we may not be lifelong enemies with the Ji family and let me not take the initiative to destroy the relationship, is that right?”

“That’s basically what it means.”

He Hongwei couldn't help but smile as he nodded in satisfaction and said, "As long as you don't try to sabotage the relationship, then it's natural for the elders at home to worry about how far we can go with the Ji family, you just need to live your life."

"I just said it, why did you go straight to Ji Feng as soon as you arrived, dare I say your relationship has long since eased!" He Hongqiang said.

He Hongwei, however, just smiled and didn't say anything more.

In fact, how could the relationship between these great families be clarified in just one or two words?

However, He Hongwei did believe that the relationship between him and Ji Feng would never be too stiff, both of them were smart people, and most importantly, they had the same temperament, and when they interacted with smart people, everyone was in a happy mood!

"Alright, just have it in your mind." He Hongwei stood up and said, "Now go and arrange for the hotel to prepare the meal, I'll contact Chang Chongwei and have a meal together tonight."

"What about Ji Feng's side? Aren't you going to continue contacting him?" He Hongqiang asked.

"Can't get in touch." He Hongwei shook his head and laughed, "This kid is also playing mysterious now, since we can't contact him today, let's do it another day, we're not in a hurry now anyway, and there's a business salon gathering in a couple of days, it's not too late to contact him then."

"Alright then, I'll go and arrange it!" He Hongqiang nodded his head.

.....

Naturally, He Hongwei would not know that Ji Feng, who he and his brother He Hongqiang were talking about, was currently sitting on a chair in his study with his arms wrapped around him and his eyes closed in contemplation.

The computer monitors on the table had all gone dark, and the light outside was also somewhat dim. However, Ji Feng was motionless, his hands clasped around his arms, as if he was asleep.

Next to the computer, was his mobile phone being charged with a flash

Now Ji Feng's heart is very calm, he is interested in thinking about the history of Chang Chong Wei's fortune. This pondering, he really found some problems!

If you look carefully, Ji Feng found that Chang Chongwei and he were really similar in some ways, both came from single-parent families, both did not know who their fathers were, both rose quickly in a very short period of time, and, both also took the business path

When Ji Feng thought of these, he suddenly associated with a problem.

The reason for his own rise is because he got the intelligent brain, then what is the reason for Chang Chongwei?

To say that Chang Chongwei also got a product of shape technology, which Ji Feng thought was somewhat pathetically unlikely, then what this guy got, might be support from above!

Ji Feng then thought with interest: "Could it be that this Chang Chongwei was also an illegitimate child in the first place? Also found by his father?"

If that's the case, then Chang Chongwei's history of making a fortune can be well explained, and everything also becomes reasonable, why would Chang Chongwei go from being a hooligan, to suddenly becoming an outstanding young man, a brilliant young entrepreneur, how could the contrast in between, be so great?!

So, Ji Feng felt that this guess of his was still full of reliability!

"..... Holy shit!" Ji Feng suddenly thought of something and was so shocked that he almost didn't fall out of his chair, "Chang Chongwei can't be He Hongwei's brother, right? Otherwise, why would such a big Tian Yao Group have to run to Tongzhou to cooperate with a company that is insignificant to the Tian Yao Group?"

"Hmm! This possibility is not small!" Ji Feng closed his eyes, but the corners of his mouth twitched a few times, and it looked like it would be a good idea to find He Hongwei to confirm this question.

Of course, Ji Feng certainly wouldn't be in a hurry, he would have to find some more evidence and go to He Hongwei when he had full confidence.

"Tic-tac-!"

The sound of a car horn sounded, and Ji Feng snapped open his eyes, a brilliant aura flashed from his eyes, and immediately, he came to the window, only to see that his BMW X6 was parked outside the door.

Soon, the figure of Bai Spider appeared in the courtyard, and she took the remote control and opened the gate, letting Zhang Lei drive in.

What made Ji Feng a little surprised was that at this moment, Bai Spider, who was wearing an apron and a white sanitary cap on her head..... her, she appeared to be cooking?!

Ji Feng immediately went downstairs, and when he saw that after placing the remote control on the coffee table, Bai Spider went to the kitchen again, and soon, the sound of pots and pans clashing came from inside, Ji Feng couldn't help but freeze.

White Spider had also started cooking?

The corner of Ji Feng's mouth, pulled up a slight curve, good, Bai Spider was really starting to treat herself as a member of this family. The fact that she could take this action meant that she had made a great transformation, and this was not far from her truly integrating into this family.

"Crazy!"

Zhang Lei parked the car and walked in with Shen Jingyi in stride, "Why can't you get through on your phone?"

"It's out of battery!" Ji Feng said.

“.....” Zhang Lei looked at him speechlessly, “If I were you, I’d go and buy another phone right away, otherwise, what if I can’t reach you in case of an emergency?”

“I’ll buy it tomorrow!”

Ji Feng smiled and asked, “What’s the result of your run?”

Zhang Lei didn’t have that patience to wait, so he drove straight to Zheng Yuanshan’s house, and looking at him, he should more or less have some results.

“This is what I’m talking about!” Zhang Lei said, “My second uncle said, the case trial has come up with some results, but, he refused to talk to me alone, he had to ask you to go before he would talk, but your phone couldn’t be reached”

“Outcome?” Ji Feng raised an eyebrow, “Are you sure it’s not that they discussed the results, but that the interrogation came out?”

“You have words in your mouth, huh?”

Zhang Lei looked at Ji Feng and asked with a frown, “Crazy, you don’t think my second uncle is fooling me, do you?”

“It’s hard to say, by definition you are also one of the parties involved, so if there are results, there’s no influence to tell you, right?” Ji Feng spread his hands and said.

He guessed that the reason why Zheng Yuansan had to tell him was actually just thinking of an excuse to appease him.

“There’s really a problem?” Once Zhang Lei heard this, he was also a bit suspicious.

“Tomorrow we will go to the city bureau together, and after we meet your second uncle, it will be clear whether there is a problem or not.” Ji Feng said, “Besides, I happen to have some things to find him as well.”

Chapter 1200

“Chong Wei, come on, let’s go for one!”

Inside an elegant box in a hotel in Jiangzhou, three men were sitting at a wine table, eating and drinking. These three men, the two brothers He Hongwei and He Hongqiang, and a man in his early thirties, who had a somewhat hostile expression, were none other than the man who had once clashed with Ji Feng in the Jiangzhou amusement park, Chang Chongwei.

“Hong Wei, Hong Qiang, thank you so much for your hospitality!” Chang Chongwei lifted his wine cup and clinked a glass with He Hongwei with a smile.

When He Hongqiang heard these words from Chang Chongwei, he couldn’t help but frown slightly, but quickly stretched out and couldn’t see anything else. The actual fact is that you will be able to get a lot more than just a few of these.

This is the most basic thing, especially when it comes to guests, and it is not difficult for He Hongqiang to do this.

But He Hongqiang's heart is still a bit unhappy, damn, in terms of age, my elder brother is not much younger than you, your age is about the same, in terms of status, status, and even in terms of ability and comprehensive quality in all aspects, which point can you Chang Chongwei compare with my elder brother?

If it wasn't for the fact that someone had greeted him, there wouldn't know how many people like Chang Chongwei in Yanjing, and He Hongqiang wouldn't even look at him!

..... What a thing!

The actual fact is that you can find a lot of people who are not only a good person, but also a good person who is a good person.

However, despite the displeasure in his heart, He Hongqiang still did not show the slightest sign on the surface, but when he was drinking, he just dipped his glass and put it down.

With this kind of person, it was enough to save face, and He Hongqiang felt no joy in drinking with him!

Even if he was facing an enemy, he would still have the strength to fight, but when facing such a pretentious guy, He Hongqiang was really not in the mood to drink at all.

It's a shame!

This can also be seen, although this He Hongqiang is a playboy, but in fact, he is still a relatively straightforward person, like is like, do not like how not like, no one can change.

Looking at He Hongwei again, he was very different from his brother He Hongqiang, from his face, there was not even a hint of unpleasantness to be seen.

He held up his glass of wine and took a sip very blandly.

"Chong Wei, where are sister-in-law and my nephew? Why didn't you have them come over?" Putting down his glass, He Hongwei asked with a smile.

"Hey! Don't mention them!"

When Chang Chongwei heard this, he could not help but waved his hand and said, "A woman's family, people from a small place, have not seen the world, after this came to Jiangzhou, either shopping or taking your nephew to play what amusement park ah, what zoo ah, you say this shopping what is there to shop for? If you want to buy things, just build a shopping mall!"

"That's true!" He Hongwei nodded his head with a smile on his face.

"To say ah, I also have two commercial buildings in Tongzhou, in the whole Tongzhou that is one of the best, but also did not see your sister-in-law shopping or anything, now came to Jiangzhou, right, she instead came to the interest!" Chang Chongwei couldn't help but shake his head and said, "I just wonder, it's just shopping! What difference can there be in Jiangzhou except that the floors are higher and there are more cars than in Tongzhou? You say so, right? Hahahaha"

“That’s right, no matter what the place is, that’s three meals a day, isn’t there a saying, even though there are millions of houses, you only need three feet of bricks to sleep, it’s the same in any place!” He Hongwei nodded and said with a smile.

“That’s right!”

Chang Chong Dai nodded his head, and he was deeply convinced by what He Hong Wei said: “What big city or small city, as long as you have money, you are a master everywhere you go. I’ve been going to every place for the past few days, and when I see the tips, the women’s eyes are all straight.

“Puff ~ ~ cough” He Hongqiang is lifting up the cup of tea to drink a mouthful of water, the results directly a spurt, almost did not choke to death, coughing face red, “Yes, sorry sorry! ”

“Hongqiang, don’t be so anxious to drink water!” He Hongwei face unchanged, said indifferently, he also turned his head to Chang Chongwei said, “Chongwei, you see Hongqiang this careless, sprayed you all over, hurry to wipe, do not mind ah, this brat eating is not honest!”

Chang Chongwei said with a smile, “It’s not a problem, young people eat quickly, it’s understandable!”

He Hongqiang’s forehead couldn’t help but jump wildly again, but he could only say with a smile, “That’s all, brother Chongwei, don’t mind, I’m sorry!”

“Hey! What’s wrong with that, once I had dinner with a vice mayor of Tongzhou, guess what, blew five bottles of beer at that time, drank too much and vomited all over him directly, hahahahaha” Chang Chongwei laughed cheerfully, “This is all a small point, it’s fine, it’s fine! ”

“.....”

He Hongqiang wiped his mouth and said, “Then what, I may not be in a good state to drink today, it’s better to forget it, big brother, Chongwei brother, you guys drink!”

“That’s fine, you’ll just eat!”

He Hongwei naturally knew exactly what his brother was thinking, so he came out to round things up, “Chongwei, come on, let’s continue!”

“Come come!” Chang Chong Wei said with a smile.

He Hongqiang’s elbows were propped up on the table, he rubbed his forehead, listening to Chang Chongwei talking to his elder brother, his face looked a little odd, eventually, he was a little tired of listening, so he stood up.

“Brother Chong Wei, your bodyguard is still standing outside, I’ll go and invite him over too, let’s eat together!” He Hongqiang found an excuse and wanted to leave.

“Hongqiang, don’t mind him!” Chang Chongwei waved his hand and said, “A bodyguard, he should find his own place, we are all at this level, of course the people under him should also be more disciplined to do so”

“I’d rather die!” He Hongqiang groaned in his heart and sat down on his butt.

“By the way, Chong Wei, I was going to introduce you to someone for you to meet today!” He Hongwei hurriedly said, “But he’s busy and still a bit inconvenient, there’s a business salon gathering in Jiangzhou in two days, so I’ll introduce you then!”

“Oh? What kind of person are you talking about?” Chang Chongwei asked as he lit up a cigarette.

“It’s someone called Ji Feng.” He Hongwei said.

“Ji Feng?”

Chang Chongwei frowned slightly, “I think I’ve heard of that name, what does he do? Very powerful? Or a local snake in Jiangzhou?”

“If you want to come to Jiangzhou to develop, this is someone you have to know.” He Hongwei laughed, “He is also considered a local snake in Jiangzhou, even though he has only been in Jiangzhou for two years, he has accumulated an extremely large amount of energy and is very powerful!”

“Oh?!”

Chang Chongwei instantly lit up, “From what you’re saying, this Ji Feng is a local boss in Jiangzhou, right? Well, then it’s indeed time to pay respect to the dock, after all, to develop in Jiangzhou, getting to know a few more bosses is not a bad thing after all, besides, I am a person who likes to make friends.”

“..... This Ji Feng is not a big brother!” The corners of He Hongwei’s eyes twitched a few times, but he kept a smile on his face, “However, he is indeed a very energetic person. Of course, if you don’t worship the dock, he won’t deal with you because he doesn’t have the need to, but if you’re in trouble, he can help you out!”

“He helps me?!”

Chang Chongwei frowned, “I still need his help?”

“There are times when Uncle Shi is inconvenienced!” He Hongwei said.

“That’s true!” Chang Chongwei thought for a moment, then nodded: “Well then, when the salon party, you introduce me to him, yes, with your status, you should also know a few gentry in Jiangzhou City, introduce them to me too, they are all on the same level, it’s good to make friends ”

“..... okay!” He Hongwei nodded his head.

He Hongqiang stood up straight away and after saying sorry, he turned around and went out, if he listened any longer, he really wanted to run his head into the ground.

.....

Time passed quickly, and in the blink of an eye, two days had passed.

In the middle of this, Ji Feng once again received an email from Wang Xin, which was some business secrets that she got from the Chang’s Group’s database.

These were some of the various companies with which Chang’s Group had cooperation, as well as the various businesses that Chang’s Group was involved in, and a lot more detailed information.

What surprised Ji Feng the most was that there were even some of Chang's Group's internal accounts!

"There's something wrong with these accounts!" Wang Xin called to tell Ji Feng after sending the email, "Boss, I'm not a finance and accounting major, so I can't see exactly where there's a problem, but after just a brief look, I think there's something wrong, boss if you have talents in this area, you can ask them to help take a look!"

Ji Feng then listened dumbfounded, and only after a long time did he say, "Wang Xin, thank you."

After putting down the phone, Ji Feng couldn't help but let out a long breath, secretly wiping a cold sweat, and in his heart, he couldn't help but secretly thankful that he had recruited Wang Xin and let her and Yang Yu form an intelligence team, which couldn't have been a wiser decision.

With Wang Xin and Yang Yu, as long as there was an internet connection, nothing could stop them!

This is just too backbreaking. Just imagine, if there are two people like this at the rival, what secrets are there to be kept, whether it is the Tengfei Group or the branches below?

Two people like that were simply worth an elite army!

A strong intelligence team, a strong line-up! This is Ji Feng's most genuine feeling, the future battle team with these two people providing intelligence, no matter what opponent, there will be absolutely nothing to hide!
