

Campus Master 1251

Chapter 1251

When he saw Xiang Yongzhan's name on the caller ID, Ji Feng's eyebrows frowned slightly, and immediately, he hung up the phone directly.

When he looked at his face again, it did not change in the slightest, as if it had never happened.

Bai Spider, who was sitting next to him in the driver's seat, couldn't help but have the corners of her mouth move, but as if she remembered something else, she didn't speak again and drove seriously.

In fact, Bai Spider saw the caller ID on Ji Feng's mobile phone screen. Since she had practiced body building exercises, her six senses were also gradually increasing, so even while driving, Bai Spider only needed to slightly turn her head sideways to see the caller ID on Ji Feng's mobile phone.

When she saw that Ji Feng wasn't answering his phone, she couldn't help but giggle in her heart and secretly said, "Oh no!

From the looks of it, Ji Feng was really angry!

This was really troublesome, but White Spider knew that people like Ji Feng were not like children who got angry in the morning and got better in the afternoon.

Ji Feng was not angry anymore, but should be called angry.

Once he really gets angry, it's not that easy to get him to stop.

The best example of this is the fact that Ji Feng hung up on Xiang Yongzhan.

The first time I saw this situation, I wanted to persuade him, but when the words came to her mouth, she suddenly remembered what Xiao Yuxuan had told her yesterday.

Immediately, the white spider stopped talking.

What Xiao Yuxuan said was right, she was Ji Feng's bodyguard, at least for now. Then, even if she would only be a bodyguard for one day, she had to be absolutely loyal for that one day, especially for someone like Ji Feng, perhaps he could tolerate your inability, or your faults and shortcomings of such and such, but there was one thing that the higher-ups would never tolerate.

—Disloyalty!

Originally, Ji Feng had been vaguely upset yesterday, and if White Spider said anything else now, she was afraid that she would make things even worse because of herself, she believed.

"Crazy, who's calling, why isn't he answering?" Zhang Lei sat back and asked curiously.

"I don't know, I'm afraid it's a wrong number!" Ji Feng laughed, "White spider, let's take the outer ring later, otherwise there might be a traffic jam ahead!"

"Yes!" White spider nodded, to Ji Feng's 'wrong number', but in his heart, he couldn't help but laugh bitterly, Ji Feng was really angry.

“Ding” Ji Feng’s mobile phone rang again.

Ji Feng shook his head and smiled, but this time he did not hesitate and directly answered the phone:
“Hello”

“Ji Feng, have some time, come to the military district guest house, looking for you for something!”
Xiang Yongzhan’s voice came through, only that, compared to his usual mid-air, he now looked a bit tired.

“I’m going to pick up my girlfriend, I’ll come over when I have time, okay!” Ji Feng laughed.

“..... is fine!” Xiang Yongzhan nodded and said, “Try to make time, there is an important situation to discuss with you”

Ji Feng grinned, “Sure, I’ll try to make time!”

“What I told you is true.” Xiang Yongzhan said, “Don’t think I’m joking, make sure you try to make time, and as early as possible.”

“I mean it too!” Ji Feng laughed.

“..... Then so be it, call me in time if you have time!” Xiang Yongzhan said.

“Good!” Ji Feng smiled.

After that, Ji Feng simply closed the line, put the phone in his pocket and leaned back in his seat to close his eyes.

Only after a moment of contemplation did Ji Feng suddenly ask, “White Spider, those few fighters sent by Xiang Yongzhan, you arranged them, right?”

Ji Feng was asking about the few warriors that had been exchanged over with White Spider at the beginning.

At the beginning, Ji Feng had taken a fancy to White Spider’s talent and ability, so he had found a way to ask for her from Xiang Yongzhan’s hands. This, however, was not without conditions.

According to the agreement they reached, the White Spider would come to Ji Feng’s side as a bodyguard, but at the same time, the White Spider would also be responsible for helping to train the few soldiers in the special operations brigade, or at least, make them learn the most accurate body-building exercises, as well as the method of controlling the biological currents in their bodies, and of course, the method of using them.

After they have learnt these techniques, they will then go back and teach them to the other soldiers in the brigade. In this way, the soldiers of the Special Operations Brigade could fight against the transformers and could occupy a powerful position.

Only, at that time, after the white spider came over, Ji Feng did not ask about this matter anymore. Later, White Spider told him that those few warriors were coming over, and at that time, Ji Feng’s own troubles and many problems around him had not yet been solved, and he had no time to take care of

this matter, so he said that he should let White Spider arrange those few warriors for the time being, and when he was done with them, he would take time to train them.

Now, it was time for this matter to come to an end.

The White Spider was slightly stunned, and then nodded, "Yes, I didn't let them come over directly, so they are still living in the barracks for the time being, waiting for you to take the time to instruct them."

"Mm, I see." Ji Feng nodded thoughtfully, "In that case, this matter has been left long enough, you can inform them now that they can come to my home in the afternoon or tomorrow morning In addition, when we pick up Lei Lei and come back, I have something to say to you, we will talk about it then"

"Hmm?!" White Spider was slightly stunned.

"It's not a big deal, it's just to talk about where you're going!" Ji Feng couldn't help but smile slightly and said indifferently.

Swish!

In a flash, White Spider's face changed, Ji Feng wanted to drive her away?

"Pay attention to the front!" Ji Feng's voice rang out again, Bai Spider hurriedly stabilized her mind and drove while turning her head to look at Ji Feng from time to time, but she found that at this moment, Ji Feng had already started to close his eyes and had no intention of speaking again.

Bai Spider's heart could not help but feel a little apprehensive, even if it was the long-established cold heartedness she had developed in the past, she could not help but have some fluctuations.

Ji Feng wanted to drive her away, this was undoubtedly extremely unhappy with her!

Was it just because she had said a few words for Xiang Yongzhan that made Ji Feng so angry?

The white spider felt that it should not be just this reason, because during the time she had been by Ji Feng's side, she had some understanding of Ji Feng's character, he was definitely not such a petty person, so the white spider could be sure that there must be another reason.

What exactly was the reason?

Bai Spider thought carefully for a long time but could not come up with a reason. With this apprehensive mood, the car accelerated and sped past on the road.

Zhang Lei and Shen Jingyi, who were sitting in the back row, were likewise quite stunned, and of course they could hear that Ji Feng was displeased with Bai Spider and wanted to get rid of her.

"Crazy!"

Zhang Lei leaned forward slightly and quietly poked Ji Feng, but when he didn't get any response, Zhang Lei understood that Ji Feng didn't want to continue talking about this topic right now, or rather, there was something he couldn't conveniently say right now.

The next few people did not say anything else. The car drove fast, although it was still in the rush hour, but several people took the outer ring road, so it was relatively much better, although there were also many cars on this outer ring road, but with Bai Spider's driving skills, he could completely let go of the speed.

In fact, from this aspect, we can also see that Jiangzhou's urban planning is actually still very reasonable, if like those cities with unreasonable planning, the pressure of traffic will be crowded on a certain or a few main roads, while other roads are sparse with cars, which is very unreasonable planning.

As Ji Feng commented on the traffic in Jiangzhou, a few people arrived at the airport more than an hour later.

Bai Spider drove the car to park it against the roadside and then went to the parking management office to get a placard.

At this time, Zhang Lei looked at White Spider's absence, so he took a few steps over and asked in a low voice, "Crazy, what's wrong with you just now, you sound like you want to drive White Spider away?"

"It's not so much that I want to drive it away, nor can I talk about it!" Ji Feng said, "I just feel that her heart has never been able to settle down in my place, if that's the case, I don't intend to force her to stay, let her choose freely on her own."

"What the hell are you up to?!" Zhang Lei instantly glared, "Crazy, I say you kid are alright? You know more about White Spider's skills and abilities than I do, right? This is a talent that others can't even ask for, but you're so kind as to drive it away? You're playing with a child's temper, aren't you?"

"Fuck off!"

Ji Feng cried and laughed, "Do you think I'm that immature?"

"Then what are you up to?!" Zhang Lei was very puzzled, someone like White Spider could be extremely useful at critical moments, this yesterday at the dinner gathering, Ji Feng still said that thanks to the credit of White Spider's dispatching in the middle, he was able to defeat the Zhao family so smoothly, bring down Zhao Guosheng, and send Chang's Group and Chang Chongwei to the limelight.

But in the blink of an eye, Ji Feng plans to let the white spider go This is not bullshit!

The actual fact is that you can find a lot of people who are not able to get a good deal on this.

The reason why I can only do this is because she is very capable and smart, because once a person like this is going to play something fishy, it will cause a lot more damage than an ordinary person, and even cause some irreparable damage! "

"You are referring to" Zhang Lei seemed to have heard something.

"You don't need to guess randomly either." Ji Feng waved his hand and said, "Actually, going through the Zhao family's matter was kind of an unpleasant experience for me, as far as you know, the two brothers of the He family came to block me from dealing with Chang Chongwei, and the family wasn't going to help, as well as the fact that Xiang Yongzhan also hid out! "

The smile on Ji Feng's face is more and more brilliant: "I clash with Chang Chongwei this matter, let me see a lot of things, and my previous certain views, now also must be adjusted, and with other people get along with the way, attitude, as well as the bottom line, this also need to reconsider, Lei Zi, understand what I said, right? "

"..... I understand!" Zhang Lei nodded his head, his face, on the other hand, was gloomy.

Chapter 1252

"In that case, White Spider is determined to leave?" Zhang Lei couldn't help but shake his head with some regret, "Seriously, White Spider's ability is really quite good, even those inner guards I've seen have a certain distance to go compared to her."

"It depends on her own choice!" Ji Feng said.

"Yes, how she chooses will also depend on herself." Zhang Lei nodded and said, "If White Spider is really single-minded, that's really good news."

Ji Feng laughed: "You also said that it was if many things should have turned out well originally, the most fearful thing is if, and isn't that the case with this one? If you and Xiao Ying hadn't gone in time"

He smiled and shook his head, did not continue to say.

Zhang Lei then nodded his head, he understood what Ji Feng meant.

Absolute loyalty!

This is what Ji Feng values the most, especially after experiencing what happened to Chang Chongwei, Ji Feng values loyalty even more.

And the white spider should not have helped Xiang Yongzhan to defend himself.

In fact, Zhang Lei understood Ji Feng's mind very well, if the white spider just pleaded with Ji Feng, saying how Xiang Yongzhan was so and so, so that Ji Feng would understand, then Ji Feng might not even have such a mind. But unfortunately, the way the white spider spoke and did things was not to plead for mercy, but to directly help defend Xiang Yongzhan

The anger in Ji Feng's heart was instantly stirred up!

And the words that Ji Feng said just now made it even more clear what he meant.

In this world, many things originally turned out to be good, but what is most feared is the word 'if'.

Xiang Yongzhan was able to hide out this time, but what about the next time?

If there's one, there's two!

Especially on such matters of principle, as long as one retreats once, then the next time one encounters such a thing, it will be hard to say that one will not retreat.

Therefore, Ji Feng already had no trust in Xiang Yongzhan's reliability.

So, what if the white spider's heart is still with Xiang Yongzhan?

Not to mention the 'what if'..... if this is really the case, then later if there is a conflict between Ji Feng and Xiang Yongzhan, who will the white spider help?

If White Spider helps Xiang Yongzhan, and Ji Feng is now foolish enough to keep her around, then it is like leaving a time bomb around, and maybe one day, this bomb will boom and blow Ji Feng to pieces!

Especially this kind of backhanded stab from the people around him, it can simply stab people directly into their hearts, which is extremely harmful!

Ji Feng would definitely not tolerate such a thing, so now that the white spider had just shown a hint of such a thing, Ji Feng took note of it and even started to do it without hesitation.

He would not leave any hidden danger for himself, or for those around him, especially, this hidden danger is also someone whose heart is not on his side, Ji Feng will not be soft.

"Then what are you going to do? Send her directly back to Xiang Yongzhan?" Zhang Lei asked in a low voice.

To put it mildly, White Spider was really not easy to deal with, as her identity was too sensitive.

Ji Feng pondered for a moment before saying, "I thought about it all night yesterday and finally decided that I'm going to make a trip to Yanjing!"

"What do you mean?" Zhang Lei was slightly stunned, what did dealing with the White Spider have to do with going to Yanjing?

"It's not just the White Spider, I think, Han Zhen should also be observed again." Ji Feng said, "In that case, there will be no one around me, I must go to Yanjing and ask for a few people from the Central Police Station or from the Red Arrow Brigade, so that Lei Lei and Yu Xuan's safety will be guaranteed and I can rest assured!"

It then dawned on Zhang Lei, Xiang Yongzhan's avoidance, White Spider's defence of him, this series of actions made Ji Feng wary of all those who were related to Xiang Yongzhan.

He wanted to change people!

"As for White Spider, if she chooses to leave, then it doesn't matter to me where she goes." Ji Feng said, "However, there are some things that she can't say when she goes outside, or else"

A cold light flashed across Ji Feng's eyes!

Many things that Ji Feng had done were things that could not be said to the public, and although even if they were exposed, they would not have fatal consequences for him, it was undeniable that being known by certain people with ulterior motives would certainly have an extremely bad impact, or worse!

And a lot of these things were known to the White Spider, so even if she left, she had to keep her mouth shut and keep all that stuff rotting in her stomach!

"Too ruthless, isn't it?" Zhang Lei frowned slightly, he could cripple those bastards who were looking for a fight with one punch, but it was a bit hard to accept this kind of thing.

“Yeah, if you really do that, it’s indeed a bit harsh!” Ji Feng nodded and smiled helplessly, “But, from a poor boy with nothing to lose, he has come to this point now, something has to change before he can do it. What’s more, there will be something even more important that will attract more people’s attention in the future, so some tactics are necessary!”

Zhang Lei shrugged, “I still like to be more direct, punching someone head on and blowing them up, that still feels quite good!”

The implication was that he didn’t like this way of doing things that was calculating in nature.

Ji Feng chuckled: “That’s why I didn’t give these things to you to do, just because I know you’re of this character However, in the future, there might really be this kind of fighting and killing things that you need to help with, so it will depend on you then.”

“That is certainly no problem, other we are not good at, fighting and killing problems well” Zhang Lei heatedly smiled, “I still prefer it!”

Ji Feng also can’t help but shake his head and smile: “Okay, don’t talk about this. By the way, what you said today, you just have it in your heart.”

“Do you think I’m stupid, and go around saying it!” Zhang Lei said.

Ji Feng then smiled and nodded, if there was anyone else in this world that Ji Feng could trust 100% just as a friend, it would be none other than Zhang Lei!

The friendship between Zhang Lei and Ji Feng, although not a life-long one, was not much worse.

Ji Feng rarely had friends, which was determined by his character and origin.

The poor background made Ji Feng’s character very rigid, but it happened that the people he came into contact with were all guys who were just a little bit better off than him, and they didn’t have any common language with each other.

Ji Feng was also at odds with a lot of people as he strove to get ahead.

Zhang Lei was the only one!

When Ji Feng was down and out, Zhang Lei helped him, without any intention, let alone any scheme, just out of friendship!

This kind of affection was stronger than other forms of friendship or friendships.

That’s why Ji Feng told Zhang Lei what he thought without reservation, because he knew that when it came to danger, or any other troublesome matters, He Hongwei might try his best to discourage and not let Ji Feng get involved in the danger, and Xiang Yongzhan might protect himself knowingly, although strictly speaking, Ji Feng could be said to have a The reason for this is the fact that they are not the only ones who can help.

But Zhang Lei will not!

The actual fact is that you will not be able to stop yourself. On the contrary, as soon as he knew about this matter, he would definitely pick up a knife and be the first to rush up and fight with the other party!

This is the difference between a brother and a friend!

Some people say that in one's lifetime, one may only have one and a half true friends.

That one friend, in the most critical moments, will trade lives for lives with you, this is the friendship between the two of them.

The half-friend, on the other hand, will do everything possible to save your life in times of crisis.

The rest of them cannot be called true friends, because once in times of crisis, the first thing a person thinks of is to protect their own safety, so it becomes their best choice, and at the same time almost the only choice!

For Ji Feng, Zhang Lei is that one friend, of course, he is more used to calling this relationship a brother. As for that half friend perhaps He Hongwei can barely be considered, but it is also very barely, at least, Ji Feng does not agree that He Hongwei can be called that half real friend.

From what He Hongwei has done before, he is not enough!

As for Xiang Yongzhan

The first thing you need to do is to take advantage of this incident and see the faces of some people clearly.

With this kind of people, Ji Feng will not be foolish to take sincere treatment that is a foolish thing to do!

You can't see, whether in real life or in TV shows or novels, the kind of people who wholeheartedly think of others, are very much at a disadvantage?

Although they are given a happier ending at the end in order to be educational, those sufferings in the middle are enough to make the audience frown, and some even crack up.

What's more, this isn't a TV show, this is real life!

"Ding" Just then, Ji Feng's mobile phone rang once again, he didn't even look at it, he just put on his headset and connected it: "This is Ji Feng, who is it?!"

"Ji Feng, where are you guys? Xiao Ying and I have arrived at the airport"

"Yu Xuan?!"

Ji Feng was slightly stunned: "Didn't you go to work? Why did you come over again?"

"There's not much going on in the company today, so I came over Let's not talk about that, Xiao Ying and I are at the airport, where are you guys?" Xiao Yuxuan asked.

"In the car park!" Ji Feng laughed.

There was still some time before the plane arrived, so they were not in a hurry to get in.

Not long after, Ji Feng saw Xiao Yuxuan's red Volvo, and he wondered if he should give Xiao Yuxuan a better car.

It's not so much about luxury or enjoyment, but as the boss of the Tengfei Group, Xiao Yuxuan must have a set of clothes that corresponds to her status, otherwise, people will look down on you when you go out, and if you want to mingle in the mall, you have to obey some laws, which can't be helped.

"Just give her the sports car in the garage to drive, in addition, also give Lei Lei a better car,," Ji Feng secretly mulled.

By now the white spider, too, had come over

Chapter 1253

"Sister Yu Xuan, why are you here too, don't you have to work?" Asked a brittle voice.

Outside the exit of the airport, the few people of Ji Feng received Tong Lei without any problems.

Seeing that Xiao Yuxuan had also come, Tong Lei was immediately happy to hand her luggage directly to Ji Feng, and then held Xiao Yuxuan's hand, she didn't have many friends originally, and was naturally very happy to see Xiao Yuxuan.

"Great Grandma is coming, how dare I, as a young one, not come to greet you?" Xiao Yuxuan laughed softly and delicately, "If you, the great house, feel that I have shown some disrespect, you will not be able to give me small shoes when the time comes, right?"

Tong Lei knew that Xiao Yuxuan was joking, and did not say anything, but only pursed her lips and laughed lightly. In fact, she was not a good speaker in the first place, so she naturally heard Xiao Yuxuan's good-natured joke.

Zhang Lei was next to him and pretended not to hear, this kind of thing, he is not good to interfere.

Ji Feng likewise ignored it, sometimes it was better to pretend not to know about the topics between women, so he called Xiao Ying to the side and explained a few things in a low voice.

"A ticket to Yanjing?!" Xiao Ying couldn't help but be stunned. Tong Lei had only just returned, and did Ji Feng want to go to Yanjing?

"Shhh"

Ji Feng glared at her and made a silent gesture, "Keep your voice down."

Xiao Ying then couldn't help but cover her mouth and smile, nodded and said, "I know, then I'll book it for you in a few days!"

Ji Feng then gave her a thumbs up, thought about it and felt a bit uneasy, so he whispered comfortingly, "So what, this matter must be kept secret first, no one must know, remember?"

"Yes!"

Xiao Ying suddenly looked straight and nodded seriously, agreeing. Since Ji Feng had arranged her so solemnly, it was obvious that it was not an ordinary matter, so Little Shadow immediately became serious.

Seeing Xiao Ying's serious look, Ji Feng nodded with a smile. In the end, among these guards around him, the one who could really be trusted was still Xiao Ying.

In addition to that, Yi Xingchen and the others were also trustworthy.

As for the white spider and Han Zhen Ji Feng couldn't help but shake his head, no matter if they were suspected or not, at least in the current situation, Ji Feng didn't dare to trust them easily, at the very least, some important things can't be given to them to do.

And the things that Ji Feng explained this time are also very important, at least, the secrecy must be done well. So when Ji Feng thought about it, he could only give this task to Little Shadow.

On the way back, Xiao Yuxuan and Tong Lei sat in the Volvo, while Ji Feng and the others still returned the same way in his BMW X6.

Looking at the two of them sitting happily in the car, Ji Feng couldn't help but scratch his head a little, there was still a Xu Yuan problem that hadn't been solved ah.

Moreover, it seems that Xiao Yuxuan also knows something

The three of them were sitting together, what kind of scene would that be?

The three of them are the only ones who have the right to be in the same room.

The three of them are the only ones who are not very good at socializing with others. Xiao Yuxuan, on the other hand, is shrewd and flirtatious, like an incomparably beautiful siren that can charm people to the point of not knowing where they are.

Xu Yuan, on the other hand, is a woman who has been through a rough patch but is quite capable, she is the kind of woman who well, is a combination of striving, strong and beautiful.

However, to say that Xu Yuan has any flaws, that is, she has some wind and dust in her body.

Ji Feng is not sure what kind of scene it would be if Xu Yuan stood with Tong Lei and Xiao Yuxuan.

Not to mention anything else, it was hard to say if Tong Lei could accept Xu Yuan.

The reason why Tong Lei can accept Xiao Yuxuan is because they already knew each other, plus they knew each other a bit, and later in the university is also after a period of time together, and only then Tong Lei accepted Xiao Yuxuan.

The first thing you need to do is to get to know each other.

Ji Feng wouldn't dare to take the risk, otherwise, in case the backyard started a fire, it would be simply unmanageable.

No matter what, Ji Feng could not look at Tong Lei and be sad. Therefore, he felt that this issue should be postponed for the time being.

On this issue, Ji Feng had been hesitating for a long time, but just could not make a decision, which was a miracle for Ji Feng, who had a decisive personality.

During Ji Feng's ruminations, the car had already entered the rolling traffic

.....

After returning home, Ji Feng's life finally returned to peace, in the middle of which he made a phone call to his second uncle and prepared to visit him.

The reason is that when he came out of the interrogation room of the Jiangzhou Municipal Bureau, the second uncle had told him over the phone that he would be back the next day, so Ji Feng felt that he had to pay a visit, at least, to verify his suspicions about the matter with the Zhao family, so that when he encounters similar things in the future, he can deal with them properly.

But after Ji Feng called, he realised that Second Uncle had temporarily changed his trip to visit somewhere before he returned to Jiangzhou, and Ji Feng could only wait for the time being.

Two days later, the new school term finally arrived as scheduled.

From this day onwards, Ji Feng, Tong Lei and others, all officially became junior students of the United University, this is already his third year after coming to Jiangzhou

Only, on the first day of the new semester, Ji Feng once again skipped class.

This is because it happened to be the day that Tengfei Electric was officially established.

The head office is located in the office building of the Tengfei Group, and the production base is in the factory of Mingguang Electric, while in terms of technology, the R&D department is formed by Tengfei Electric and a laboratory is established, and at this time, a group of technicians poached from the Rongpeng Group, also come in handy.

As for the software program, it was provided by Tengfei Network Company. Wang Xin's and Yang Yu's skills naturally went without saying, and the team they led was certainly not much worse.

In this way, the newly established Tengfei Electric has become a place where the best of the best gather!

At the suggestion of Han Zhong, Li Xin became the general manager of the new company and was directly responsible to both the Tengfei Group and Mingguang Electric.

In other words, Li Xin would only be responsible to Han Zhong and Xiao Yuxuan, as he himself was the boss of Mingguang Electric, and even if he was responsible, it would be enough for him to be responsible only to himself.

As for the other management staff, apart from the people transferred from the Tengfei Group and Mingguang Electric, many of the management talents originally poached from the Rongpeng Group have also been filled into the newly established Tengfei Electric.

It can be said that as soon as Tengfei Electric was established, it had a team with strong fighting power, strong technical support from Tengfei Network, and strong capital from Tengfei Group as backing.

What's more, there was the 3D virtual light curtain technology, which had never existed on the market before, as the most powerful punch to hit the electrical market!

All the ingredients for success were already in place, and the strong rise of Tengfei Electric was already unstoppable.

What was even more unexpected was that after the ribbon cutting, at the press conference for the establishment of Tengfei Electric, General Manager Li Xin also gave everyone a dose of fierce news that, in a flash, shook the entire household appliance industry.

“Dear journalists, today is a great day for the establishment of Tengfei Electrical Appliances. In the future, our Tengfei Group will be committed to developing the most technologically advanced, cheapest and most practical household appliances to provide to the majority of consumers, so that everyone’s life becomes better, more environmentally friendly and more modern ”

In the lobby of a star hotel near the headquarters of Tengfei Group, the press conference about the establishment of Tengfei Electrical Appliances was held here.

Looking at the nearly one hundred media reporters sitting on the stage, Li Xin’s face wore a calm and relaxed expression, without the slightest hint of nervousness, as he spoke in a calm yet clearly-spoken manner to introduce the situation of Tengfei Electric.

Han Zhong was also sitting on the stage, he was the general manager of the Tengfei Group, so naturally he had to attend.

Ji Feng, on the other hand, was standing on the corridor on the first floor, leaning against the fence and looking at the press conference below, he couldn’t help but smile slightly. From the moment Li Xin sat down as the general manager of Tengfei Electric, he was not far away from truly becoming the man of Tengfei Group.

It was a good move indeed.

“Pharmaceuticals are already on the right track, and the breakthrough in the electrical industry is already expected, so it’s time for heavy industry next, right?” Ji Feng said secretly.

In his mind, he had an unknown amount of knowledge about machinery, and if all that knowledge was turned into physical objects, it would definitely give a great impetus to the take-off of China’s heavy industry, and there might even be other more far-reaching effects.

However, Ji Feng knew that it was not that easy to enter heavy industries such as machinery.

At least, with the existing technical conditions and foundation in China, it would be very difficult to turn a lot of the mechanical knowledge in his head into a physical object.

Not to mention that a lathe alone needs to be imported from abroad, and the ones that come in are the obsolete products of others, always a generation, two generations or even several generations behind others!

Without technical and quality machine tools, it would be a nightmare to produce good machinery.

A machine tool is a machine that processes metal blanks into machine parts. In simple terms, a machine tool is the machine used in the manufacture of other machines.

So it follows that the importance of machine tools can be seen.

But unfortunately, China’s technology in this area cannot be said to be too backward, but it is far inferior to those of developed countries.

This is not to flatter foreigners, but it is a fact!

So if you want to enter the machinery industry, Ji Feng has to first find a way to get the more advanced machine tools from abroad, and right now, it's time to start preparing

Chapter 1254

"On the occasion of the establishment of Tengfei Electric, we will launch our first product – the newly developed 3D television set for home use." With a faint smile on his face, Li Xin paused slightly for a moment after finishing these words, as if he had anticipated that they would cause some stir.

He was simply too clear about the broadcasting effect of 3D TVs.

And sure enough!

As soon as Li Xin finished his words, some small commotion rose from the stage, and buzzing chatter came from the audience.

A 3D TV set?

This is a new thing, I've only seen 3D movies before, but when did it become possible to watch 3D on TV? And more importantly, when you watch a 3D movie, it's in a cinema and you have to have a big screen and wear 3D glasses to do it. How big is a TV screen? Can it give that kind of three-dimensional and immersive effect?

This was the suspicion of all the journalists present, and everyone was talking about it, even some of the hotel staff who were responsible for keeping the venue in order, couldn't help but be amazed.

"This 3D TV set that we have launched uses the more leading 3D virtual light screen technology for the time being. Strictly speaking, this is not exactly the same as 3D movies in cinemas, and it is not easy for us to compare who is better, but because our 3D virtual stereoscopic technology is specially developed for TV sets, even a small television set, it is perfectly capable of presenting pure stereoscopic vision that can only be seen in a cinema!"

The smile on Li Xin's face thickened some more: "What's more, this 3D TV set that we have launched does not require any special device and does not need to wear 3D glasses"

He gave a brief introduction to some of the technical parameters, and some of the features of the 3D TV set, and the chatter on stage was getting louder and louder, because Li Xin's seemingly light-hearted introduction had a great impact, and the journalists present had realised that if what Li Xin said was true, then this would definitely be a very eye-catching news, and once this news got out, it would definitely cause a sensation!

Many people have seen how effective 3D movies are. The immersive feeling, where the characters seem to be right in front of your eyes, might scare you, might make your blood boil, is really addictive to watch.

It's a pity that you can't see it more often, because it can be too much for the eyes and you can get vaguely dizzy if you watch it for too long, due to the visual contrast and some other factors.

But even so, the excitement and thrill of a 3D film is incomparable to that of a normal type of film.

Normally as long as the movie is not too rubbish, between an ordinary movie and a 3D movie, many people will choose to watch a 3D movie of course, without considering the ticket price!

However, the general manager of Tengfei Electric said that the 3D TV they launched could surprisingly achieve this effect as well, and it did not require any special facilities, not even 3D glasses, just turn on the TV, any programme is a 3D stereoscopic image, the viewer is watching the TV as if they are in it.

Watching a TV show, it is as if the characters are right in front of you and you seem to be a character in the show.

What about joining the animal world?

It's more visual and immersive than watching it in a zoo

Is this true?!

"Of course, with a verbal introduction, people may not find it very intuitive." Li Xin, who was sitting on the stage, smiled slightly, "Then, the next step is to conduct a physical demonstration for you, so that you can experience it more visually and personally to verify whether our presentation is accurate"

"A physical object?"

"You can show it now?"

"Tengfei Electric isn't speculating that they have developed such a TV set?"

.....

For a while, the reporters at the bottom were talking, all of them were amazed, with both a kind of not quite believable foxiness and a hint of expectation.

And at this time, Li Xin had already directed the staff, pushing a table onto the stage.

It was a table about the size of a computer desk, and on it was a television set, which, if you just looked at it from the outside, was not much different from any other television set on the market.

Only, this TV set was made, it seemed to be a bit more exquisite and had a beautiful appearance, if we put aside the quality, it should be considered a medium to high grade TV set just from the appearance.

"Fellow journalists, we're here to show you in kind what a 3D TV set is!" Li Xin made an inviting pack, and all eyes, then, followed his hand and looked towards the TV set on the table.

"Of course, since we can't connect a signal line in this hall, so we'll use an antenna to receive the signal, and simply demonstrate it for you!" Li Xin smiled.

The journalists below then couldn't help but smile, how could it be impossible to connect a signal line in the hotel, this was obviously because Tengfei Electric was particularly confident in their product and wanted to use an antenna to receive the signal to verify it, that's why they made such a little joke, in this way, the crowd was even more excited.

Because as we all know, when an antenna receives a signal, it will be interfered by other signals and definitely not as clear as the signal transmitted by a signal line. Tengfei Group dares to do this, so it is undoubtedly extremely confident!

“Please pay attention to” said Li Xin with a smile.

The reporters below were instantly refreshed and their eyes were glued to the television set on the table, they all realised that there was a good chance that big news would break today, so they didn't dare to miss a second.

Pop!

The television was turned on and a zippy sound came from inside as the TV screen was blanketed in snow.

“Of course, I'm certainly not going to invite everyone to watch this!” Li Xin said with a smile.

The reporters below laughed lightly, they all still had a good feeling about this humorous and witty general manager of Tengfei Electric, especially some of the girls, they couldn't help but have their hearts beating a bit violently, Li Xin was good looking and not too old, yet he was already the general manager of a company, he could be considered a typical representative of a diamond king... ..

“.....”

Suddenly, a voice came from the television, and everyone's spirits lifted as the signal was received.

The next moment, the stereoscopic image appeared as if it had emerged from the TV screen, and it just appeared alive in front of everyone's eyes

This is not a stereoscopic image, it's like a person from the TV coming out alive!

It was so realistic and immersive

that it was like a dream!
This is the first reaction of everyone, as for what program is actually playing in the TV, that no longer matters, what matters is this kind of image, is really too shocking.

It's even more realistic than watching a 3D movie in the cinema!

Big news!

This was definitely big news, this kind of picture, this kind of three-dimensional feeling, was something they had never experienced before.

In fact, some well-informed journalists know that there are already some large home appliance manufacturers who are also developing 3D TV sets and have already achieved certain results, except that those 3D TV sets require special reception boxes, special 3D glasses and other equipment, etc.

The scene before us was a shock to everyone!

Even, there are a lot of nimble brains looking at the three-dimensional figure that seems to come to life in front of them, immediately thought of the scene of Stark doing research in the laboratory in “Iron Man”

Of course, that is only the plot of the movie, have seen just forget it.

However, this is real, and the difference is not that big compared to the scene in the movie

So, what kind of impact will this TV produced by Tengfei Electric have on the scientific research industry?

“Pop!”

The staff changed the station again.

“You’re heartless, you’re cold, you’re irrational”

“You’re the heartless one, you’re the cold one, you’re the unreasonable one!”

.....

As soon as the channel changed, there was a man and a woman arguing there on the TV, emitting this dialogue.

“..... haha!”

The whole room was silent for a moment before bursting into laughter.

That staff hurriedly changed the channel, but the people below were already laughing too, not expecting that old aunt’s classic dialogue to appear at the launch, what a surprise

“Hehe”

Li Xin also laughed: “I’m very sorry, due to our staff’s mistake, we accidentally transferred to this stage, so I hope you’ll be sorry for the shock!”

“Boom~~!”

The reporters below also burst out laughing, indeed, they were originally shocked, and then suddenly this kind of dogged dialogue came out, it really made people break down.

“But we’re a press conference, not a line seminar, so let’s just ignore this little tidbit!” Li Xin laughed, “Below, if you have any questions, please ask”

After the crowd laughed, they all calmed down as well, their curiosity about this 3D TV set dispelling the meltdown rush from the dogged lines.

All of a sudden, everyone discussed enthusiastically, this is definitely a major breakthrough, but anyone with a little vision can already predict what a huge sensation this TV set will cause once it is put on the market!

“May I ask Manager Li”

At this point, one of the reporters stood up and asked about the timing of the launch of this TV set into the market, as well as the price, which was of concern to everyone.

“Please rest assured, everyone, we have a sufficient supply of goods and will officially take orders from tomorrow” As for the price, it is definitely the most reasonable” Li Xin smiled and said a price.

The price that Li Xin said was similar to the price of many medium-sized TV sets on the market, and with such leading technology, the competitiveness of this, there is simply nothing to say.

Next, several journalists asked other questions, such as who developed the technology, whether there was any intention to cooperate with other companies, whether there was any intention to sell the technology, the long-term plan of Tengfei Electric and so on.

As soon as the press conference was over, the news of the launch of the most advanced 3D TV sets by Tengfei Electric was spread, together with the footage recorded by the journalists and some stenographic text reports.

At once, the whole of Jiangzhou was abuzz, and with it, the whole country.

Almost all eyes, both inside and outside the industry, were on Jiangzhou, and once again, the Tengfei Group and Tengfei Electric were in the spotlight.

Chapter 1255

Tengfei Electric breaks new ground with the launch of 3D TV sets!

A groundbreaking breakthrough, the newest household appliance – 3D TV sets!

The leader of home appliances in the digital age, Tengfei!

.....

In just half a day's time, many media outlets have reported on the launch of Tengfei Electric, with the focus, of course, on the new 3D TV sets launched by Tengfei Electric.

Novelty, technology, breakthrough, industry leader

All these words, even if they were applied to the 3D TV set launched by Tengfei Electric, would not be enough to describe the shock and sensation brought by the launch of the 3D TV set.

In this increasingly fast-paced and technologically advanced society, the level of technological content is often one of the most important signs for consumers to decide whether to buy or not. For example, there are many cars, computers, mobile phones and some other products with extremely high technological content, playing the technology card, which can be described as the most popular in the market and become the most beloved thing for many young people.

Some people have even gone to the extent of saving money to buy their favourite technology products, and have even done things that are extremely damaging.

This shows how attractive technology can be in today's society!

The same is true of the 3D TV sets launched by Tengfei Electrical Age.

As soon as the news report came out, it immediately aroused great interest in the market, especially among young people, a group of immense size, and the search terms on many news portals changed from some popular events and popular people to terms such as Tengfei Electric and 3D TV sets in a very short period of time.

In just half a day's time, the 3D TV set launched by Tengfei Electrical Appliances spread throughout the north and south of the country.

For a while, the market attention was frighteningly high!

In contrast, there was a wailing sound in the electrical appliance industry.

Many manufacturers of household appliances were shocked by the news, and were so skeptical that they went online to check out the physical demonstration at the Tengfei press conference. After watching it, everyone was silent.

Although the 3D television set in the video was not as spectacular as the physical demonstration, due to the filming technique and angle, the illusory yet three-dimensional image was clear and could be clearly seen.

And that's enough!

The 3D TV set was a shock to the entire household appliance industry!

At a time, the entire household appliance industry could be said to be shaken, and many manufacturers of household appliances, all exclaimed, "The wolf has come!"

Against this background, those distributors of electrical appliances were able to smell the huge business opportunities contained therein. Anyone with some vision has realised that this is definitely an epoch-making change, especially when 3D movies have become so popular that 3D TV is easily accepted by everyone without any advertising at all.

There are many people who have already left comments online asking when this technologically advanced 3D TV set will be available and when they will be able to buy it.

Even, many consumers who originally went to shopping malls to buy home appliances, after hearing this news, asked the malls if they had 3D TV sets for sale, and after receiving a negative answer, they actually gave up their intention to buy them and decided to come and grab them at the first opportunity when the 3D TV sets were precisely in the market.

"What? There are no 3D TV sets for sale yet? Aren't you the most comprehensive and cheapest in the industry? Why don't you have any?" A young man looked at the manager of the mall with great impatience.

"Yes, what the hell, 3D TV sets are so cheap, you don't think you can make money, so you don't sell them, right?" Others also complained.

The manager of the mall could only smile bitterly and explain to these desperate consumers that Tengfei Electric's 3D TV sets had only started to be launched, and even if they were shipped immediately, it would still take a few days

"Then we'll come back to buy them after a while, once the 3D TV sets come out, all other TVs will become old-fashioned, buy them back home and wait for their value to appreciate?"

"That's right, we'll buy it when it comes out!"

The crowd of consumers complained as they left the electrical shopping mall and supermarket.

The manager could only watch them leave with a bitter smile, and looking at the rows of ordinary TV sets on the counter, he could only hurry to call his superiors to report the situation, otherwise it would be impossible to do business in the future.

From that day onwards, the turnover of almost all electrical stores in major cities across the country dropped drastically, especially the sales of TV sets, which were almost completely unsold.

Even if there were people who bought them, it was only those who did not want to buy new ones, or those who were older, who, unlike young people, wanted peace of mind and insurance.

Who knows if the new TV sets are harmful to the human body?

Besides, they don't have the same energy as young people.

But who are the biggest consumers of these household appliances? Young people, of course!

These issues are not on the minds of young people at all, and the 3D TVs from Tengfei are like a pair of extremely gentle hands that tickle their itch.

The question of whether or not there is a problem is put aside, this kind of TV set, which contains advanced technology and is new and stylish, is the best choice for them!

As for those so-called HD TVs, ion, LED, etc. that originally appealed to them let them all be called antiques!

So it goes without saying that those manufacturers of household appliances called up the external contact number of Tengfei Electric within the shortest possible time, asking questions about orders.

Some of them even sent people to Jiangzhou to visit the headquarters of Tengfei Electric in order to seize the business opportunity, and to discuss agency and other related issues.

Within such a short period of time, Tengfei Electric's 3D TV sets became hot, like a hot tide that swept across the north and south of the Yangtze River and all over the country

Even Ji Feng, Zhang Lei and Li Xin, the three people who planned and promoted the launch of the 3D TV sets, thought that the 3D TV sets would definitely cause a sensation once they were launched, but they didn't expect that the sensation would be so intense that people were incredibly caught off guard!

"I can't stand it anymore!" Looking at the stacks of reports on the desk, Li Xin was really both happy and distressed, these were some information provided by electrical appliance sellers who were interested in cooperating, as well as some cooperation intentions, or applications to get the agency rights for 3D TV sets

Zhang Lei and Ji Feng could not help but laugh, this kind of hot scene is indeed unimaginable beforehand, which also confirms from the side, the powerful charm brought by technology.

It is conceivable that as long as Tengfei Electric can continue to innovate, continue to lead in other areas, and keep playing the technology card, then at least in today's increasingly technologically advanced world, sales will certainly not decline.

Of course, in addition to technology, there must also be a certain level of quality assurance.

Otherwise, it could be like a domestic brand of car, playing the technology card, saying how high the technology content, but the performance of the car itself is very ordinary, noise reduction and other aspects of the performance is very unsatisfactory, sales will not go up.

This is the experience and lesson that can be learned, Ji Feng urged Li Xin, must pay attention to this aspect of the problem, first of all, the quality must be guaranteed, and then with the advanced technology as a backing, then there is absolutely no worry about sales can not go up.

Li Xin naturally understood this, and there was no need to say much, so there was no need to say much at all, Li Xin would naturally pay attention to these issues.

“Good then, the rest of the sales and laying out of goods and other aspects will continue to be hard work for you guys.” Ji Feng smiled and patted Li Xin’s shoulder, “When we’re done with this, we’ll have a celebration party!”

“That’s great!” Li Xin laughed, “If we have a celebration party, we’ll have to increase our salary.”

Han Zhong laughed next to him, “I say Li Xin, you’re not very calculating, you still have a share in Tengfei Electric, you’re half the boss, why are you so happy to give your employees a pay rise?”

Li Xin burst out laughing: “I’m too busy!”

Ji Feng couldn’t help but smile, but he knew that Li Xin really regarded herself as a member of the Tengfei Group, although it was only subconsciously, but what Ji Feng wanted was this kind of subtle effect.

I believe that in a short time, Li Xin would really become a member of the Tengfei Group, and as long as nothing unexpected happened, it was only a matter of time!

“Ding”

At this moment, Ji Feng’s phone suddenly rang, he took it out and found that it was Xiang Yongzhan calling.

After a slight hesitation, Ji Feng still picked up the phone, “Hello”

“Ji Feng, do you have time now to come to the guest house and sit down?” Xiang Yongzhan’s voice came over, “It just so happens that a friend on my side is looking for you for something, I’ll introduce you to him”

“Introducing a friend again,” once Ji Feng heard that, he couldn’t help but smile and shook his head, he didn’t want to continue. The last time He Hongwei had a serious intention to introduce a friend to himself, he ended up introducing a contraption like Chang Chongwei, and now it’s a good thing that Xiang Yongzhan is introducing a friend to himself again.

“How about it, when do you have time?” Xiang Yongzhan didn’t seem to hear Ji Feng’s muttering to himself and asked with a smile.

“It’s a bit busy right now!” Ji Feng greeted the two people in the office, Li Xin and Han Zhong, before walking out of the office and into the corridor, saying, “If that friend of yours wants to see me about something, just say it directly on the phone, how can I say that this is also a special phone for the military, confidentiality is said to be okay!”

“You kid, it seems that there is still resentment in your heart Then good, I’ll tell you briefly!” Xiang Yongzhan laughed, he also knew he was in the wrong, so he didn’t argue with Ji Feng, but lowered his voice and said, “Ji Feng, the Tengfei Group has launched a 3D TV, right? Some people are interested in that unique 3D virtual technology of yours

Chapter 1256

“Hehe, yeah, once this 3D TV comes out, I’m afraid that there are a lot of people who are interested in Tengfei Group’s 3D virtual light screen technology.” When Ji Feng heard this, he couldn’t help but nod and laugh, “But what does this have to do with you, Grand Duke Xiang? Could it be that your Special Combat Brigade also wants to seek some sponsorship and have the Tengfei Group send you some 3D TV sets?”

“.....”

The most elite special forces of the Jiangzhou Military Region, but they still need to go for sponsorship? This is not bullshit!

However, Xiang Yongzhan also knew that it was indeed impossible to get Ji Feng to speak nicely to him now, so he didn’t mind, but said, “Ji Feng, I’m telling you the truth, there are indeed people who are interested in the kind of 3D virtual technology you have, and they think that this technology in your hands is very different from the 3D technology currently on the market

“Let’s make it simple, who are you lobbying for!” Ji Feng asked directly.

What is very different from the 3D technology on the market and so on Ji Feng is not interested in listening to it at all, this technology itself is what he learned from the intelligent brain, he understands it better than anyone else, and how could he not know how advanced and unique this technology is, naturally there is no need for Xiang Yongzhan to help introduce it here.

“.....” Xiang Yongzhan choked for a moment, he laughed bitterly, “Can your kid’s anger be less, I admit, in that matter of Chang Chongwei, what I did was a little wrong... ..”

“What Chang Chongwei matter?!” Ji Feng asked at once, “How did you know about it?”

“..... of course, I learned about it through investigation, of course, this matter can’t be said clearly over the phone for a while, I told you before, try to take time to come to my place, I will definitely tell you the original story... I will definitely tell you the whole story...”

“It was the white spider that told you, right?!” Ji Feng suddenly asked.

“What?!” Xiang Yongzhan couldn’t help but be slightly stunned.

Ji Feng rubbed his chin and poked his head out of the corridor window, looking at the White Spider sitting in the car in the courtyard below, his mouth tilted with a smile if not a smile as he asked, “Grand

Duke Xiang, who did you hear say that I was angry with you over the matter of Chang Chongwei? You're a god, you can pinch and calculate, huh?!"

"Hehe" Xiang Yongzhan let out a laugh, "Ji Feng, this matter cannot be said clearly over the phone"

Pop!

Ji Feng hung up the phone straight away, he was really too lazy to go on with Xiang Yongzhan's nonsense!

In fact, under his pressing, Xiang Yongzhan's reaction was obviously not right, so there was no need to ask any more questions at all, Ji Feng had already gotten the answer he wanted.

Obviously, the white spider had told Xiang Yongzhan quite a few things

Ji Feng coldly swept a glance at the BMW X6 below, could not help but slightly shake his head, for the white spider, he had high expectations, but now it turns out that the white spider's loyalty can not just be his Ji Feng alone, that

Ji Feng shook his head and smiled, and didn't really care anymore.

He has never been a person who is a deadbeat and likes to be extravagant. Originally, when he asked for White Spider from Xiang Yongzhan, he only saw her talent and ability, so he ignored whether she was loyal or not, and now since this is already the case, there is no point in continuing to stay.

Since there was already a gap between them, Ji Feng had no choice but to let White Spider leave, but as long as White Spider didn't talk nonsense, Ji Feng wouldn't hurt her.

After all, even small dogs and cats have feelings after spending a lot of time together, and Ji Feng is not a cold-blooded animal, not to mention that he is so familiar with Bai Spider, so how could he possibly do anything to her?

When Ji Feng was angry, he did move to be ruthless, but when he calmed down a little, he shook his head and gave up again.

Since her heart is not here, then just let her leave

The first thing you need to do is to get a good idea of what you are doing. Or is it someone else?

.....

At this time, within the barracks of the Jiangzhou military district, several people in military attire were sitting in their offices.

Seeing Xiang Yongzhan hanging up the phone, one of them couldn't help but ask, "Captain Xiang, what does this matter say?"

"This kid" looks like he's still angry!" Xiang Yongzhan shook his head and smiled, putting the phone away before saying, "I'm sorry, you guys still need to wait a bit!"

“Captain Xiang, we can’t wait any longer, now we first need to determine if this technology is still in the hands of the Tengfei Group, if we go late, in case someone else gets it first, then perhaps it will be a great loss to our country’s scientific research career!” A middle-aged woman said somewhat eagerly, “We heard that through your matchmaking, our military has a cooperative relationship with both the Tianyao Group and the Tengfei Group, so we must also ask for your help and must meet the owner of this technology as soon as possible

“Director Liu, don’t be in a hurry, I can assure you that I will definitely put my heart and soul into this matter.” Xiang Yongzhan hurriedly said, he can know that these people engaged in scientific research are all very serious, and do not like to drag, so he pondered for a moment, then said, “How about this, give me a day, whether it is successful or not, within a day, I will definitely give you an answer, what do you think?!”

“Well then, I’ll trouble Captain Xiang,” said the middle-aged woman who was known as Chief Liu.

Xiang Yongzhan shook his head and smiled, “Director Liu is very kind, this is also what I should do, for the cause of scientific research of our army, it is right to do my best

I send Director Liu!”

“Captain Xiang stay!”

After sending off Director Liu and the others, Xiang Yongzhan could not help but shake his head and smile bitterly: “This is really troublesome, it seems that Ji Feng is really going to alienate the relationship

From the tone of Ji Feng’s speech, Xiang Yongzhan heard a feeling of estrangement, as if it was the kind of way different from each other!

Obviously, Ji Feng does not want to have anything to do with the special combat brigade, or with him, Xiang Yongzhan, anymore.

The actual fact is that you’ll be able to get a lot more than just a couple of days to get a lot more than just a couple of days.

The fact is that the company’s business is not only a good one, but also a good one.

If it was in normal times, the white spider told himself some things about Ji Feng, it did not matter, it seemed to be irrelevant. But now, when Ji Feng is in the midst of his anger, this kind of action by the white spider can appear to be very harsh.

In all fairness, no matter who you are, you definitely don’t want to let others know everything about you, even if you are a good brother or friend, there are some privacy that you can’t tell people.

The way the white spider did it, it undoubtedly touched Ji Feng’s bottom line, and at such a sensitive time!

Xiang Yongzhan could not help but frown slightly: “It seems that White Spider is in trouble!”

He gritted his teeth and immediately casually picked up his jacket and his car keys, striding out of the office. The most important thing now was to prevent Ji Feng from making a move on the white spider!

The most important thing now is to prevent Ji Feng from doing anything to White Spider.

The fact that Ji Feng is now in a state of rage and knows that the White Spider has really revealed his information, it is possible that he will really strike at the White Spider!

Save the White Spider first!

Apart from that, they could also take this opportunity to get some things off their chests.

As for the problems with Liu and the others, they would have to wait until these things were said away before they could be resolved, otherwise, once Ji Feng really wanted to break up with the special operations brigade, then there would be no need to talk about anything.

.....

Ji Feng stood in the corridor and looked through the window at the BMW X6 parked below, his face was calm and his gaze was very flat.

It was only after watching for a while that Ji Feng let out a faint, untraceable sigh, and then turned around and went back to Li Xin's office at Tengfei Electric again.

As soon as he entered, he heard that Li Xin and Han Zhong were discussing something about stars.

"What stars are you guys talking about?" Ji Feng asked with a smile, and at the same time, he took out a cigarette and threw it to Li Xin and Han Zhong, and the three of them lit up and smoked beautifully.

"What Li Xin means is to take advantage of this fierce trend brought about by 3D technology to divide our 3D TV sets into is high, medium and low grades, targeting different groups of people respectively, and also to invite a star to advertise!" Han Zhong laughed, "We're discussing who would be better to hire."

"Yes, the division into high, medium and low grade is to prevent people from copying our products in the future. Everything we can do to seize the market!"

Li Xin said, "This is also to learn from the lesson of Kang Yuan Slim Powder being copied, in addition, asking celebrities to endorse us can indeed greatly enhance our brand awareness, especially some celebrities with high popularity, there is no denying that they are not small!"

"Hmm!"

After listening to this, Ji Feng couldn't help but nod and smiled, "This business matter is entirely up to you guys, I won't interfere, if necessary, you can discuss it with Yuxuan, I won't be involved in making decisions."

"Good then, we'll take care of this matter!" Han Zhong said. Li Xin also nodded beside him.

"Then who are you guys planning to hire as an endorsement?" Ji Feng asked.

"I haven't thought about it yet, but I'm leaning towards hiring some more innocent stars, such as a jade master like" Li Xin hadn't finished his words when he saw Ji Feng burst out laughing, and he couldn't help but be stunned, "What's What's the problem?"

"Cozy? She's innocent?!"

Ji Feng's face was oddly incomparable as he hesitantly asked, "What you're talking about, but that Yanjing's warm and fuzzy?"

There's actually someone who says that warm and pure, they've all been fooled by her! Ji Feng couldn't help but shake his head.

Chapter 1257

"Anyway, you guys watch what you do!" Ji Feng said with an odd expression, "But if you want me to say it, it's best not to use warmth, don't be fooled by her appearance forget it, I reckon ah, pretty much all stars are the same, you guys watch what you do!"

"What, you know Cozy?" Han Zhong asked with a smile.

He was aware of Ji Feng's status, and with a status like Ji Feng's, knowing warmth wasn't something to be surprised about.

But Li Xin, who couldn't help but laugh slightly at these words, took Han Zhong's words as a joke.

Although Ji Feng and Ji Shaolei were cousins, but it was said that the origin of warmth was likewise not bad, and it was the time to be popular, many big tycoons' faces were not thrown away, and even heard that many big bosses did not dare to hit warmth, the possibility that Ji Feng knew warmth was too small.

"Met a few times, sort of know each other!" Ji Feng said.

"Did she offend you?!" Once Han Zhong took a look at his expression, he knew that he must be a little less than satisfied with this warmth, could it be that Ji Feng wanted to play with the actress, but it turned out that she didn't want to, so Ji Feng became ashamed and angry?

Han Zhong is full of bad taste thought

"She did not offend me, only some of her behavior" Ji Feng could not help but shake his head, remembering the first time he saw warmth, that spiteful and arrogant look, where is half of what youthful jade girl pal?

The actual fact is that you can find a lot of people who have been in the business for a long time.

Only when you have really come into contact with those people and seen with your own eyes the disgusting appearance of those so-called stars in front of rich people and rich women, will you really realize what kind of virtues and qualities your favorite stars have!

At least, in Ji Feng's impression, he had never seen a so-called spotless star, and in the dyed-in-the-wool world of entertainment, how can one really be spotless?

How can one really be spotless in this big, dirty vat of the entertainment industry?

Especially when Ji Feng met many female celebrities at the commercial salon at the Linjiang Club, it was said that many of them were the most famous figures on the TV screen and the big screen, and even some of them had a very strong status in the circle, but what was it like at that kind of salon event?

Each and every one of them is swaying, with a false smile on their faces, saying things that even they don't believe

Later, after Ji Feng came out from the interrogation room of Jiangzhou Municipal Bureau, when he was having dinner with Ji Shaolei and He Hongwei a few people, he also once talked about this topic, when Ji Shaolei and He Hongqiang couldn't help but sneer.

Especially He Hongqiang, that was even more disdainful.

If according to him, those so-called celebrities were in fact not much different from the waiters in the hotels, at least, in their eyes.

This also confirms the words of a certain once hugely popular actress in Hong Kong, who said, "Don't look at the stars on stage, being sought after by millions, but in reality, they are all goods on the shelves, waiting for the customers to pick them up, only that some customers pay a high price and some pay a low price, but that's all!"

You should know that the person who said this is also a former starlet who is very popular, and her status in the circle is of the big sister level, and she also has great influence and appeal in the society, people like her can say such things, so it can be seen that the living environment of these people

People who live in this kind of environment, whether you want to or not, you have to make such changes to adapt to this circle, otherwise, you should not be in this circle, do what you should do!

These are the words of experience of Ji Shaolei and He Hongqiang who have seen a lot of things, and Ji Feng has seen a lot of such things, so he still believes in them.

"I'm not too familiar with stars and the entertainment industry, so you guys just watch the selection anyway." In the end, Ji Feng waved his hand helplessly, the more he thought about these issues, the more he found them to be very breathless and made him very appetizing, so he simply did what he had to do: "You guys have full authority to handle it, as long as it's a normal operation, I won't interfere!"

Han Zhong then smiled, "Then we can choose our own spokesperson! But let's make it clear in advance, you don't want to wait until we've chosen someone and then suddenly remember to take care of someone and then shove them over, we don't want them then!"

"Nonsense! Would I do something like that?!" Ji Feng instantly laughed and cursed.

This guy, Han Zhong, thought of himself as one of those gentry boys who liked to play with female stars

"Hehehe, " Han Zhong laughed heatedly, "Then I'm relieved."

It was only until this time that Li Xin gradually worked out some flavor, it seemed that the origin of this Ji Feng was not just as simple as Ji Shaolei's cousin, otherwise, Han Zhong would not have spoken with this tone.

"That's all for now, you guys are busy!"

Ji Feng finished smoking and put out his cigarette in the ashtray on his desk, then waved his hand directly, "If there's anything you can't solve, just call me directly, I'll help you guys out!"

"That's for sure!" Han Zhong instantly laughed.

Ji Feng then nodded and smiled, turned around and walked out of the office with big strides. In fact, he had wanted to shake hands with Li Xin to say goodbye, but thought better of it.

After all, he was too familiar with Han Zhong, and the two of them only needed to say goodbye, so if he shook hands with Li Xin alone, it would inevitably be a bit too close and too distant, which could easily lead to misunderstandings, so he just nodded and left.

In fact, Ji Feng did not have any intention to be close or distant, but he was more familiar with Han Zhong and understood his temperament better, but he would not alienate him because he did not know Li Xin.

There is a process to everything, a gradual process.

In fact, very often, it is that small detail that, if noticed, may have an unexpected harvest, but of course, there may be no effect at all. But if you don't pay attention to it, it will definitely have an impact.

Details determine success or failure, this saying can be more than just words.

.....

Subsequently, Ji Feng left Han Zhong's office and turned around to go to Xiao Yuxuan's office.

"Why are you coming over?" Xiao Yuxuan saw Ji Feng come in and couldn't help but ask.

In the past, Ji Feng was very careful to avoid suspicion and rarely appeared at Tengfei Group under normal circumstances, let alone coming to her office, but today he came straight over.

"Came to get something from Xiaoying, and by the way, I want to tell you something" Ji Feng smiled and winked at Xiaoying.

Xiao Ying instantly pursed her lips and smiled lightly before taking out a colorful piece of paper from her bag, "Little Chief, this is the airline ticket for this afternoon"

"Air ticket?!"

Xiao Yuxuan was instantly stunned, "Ji Feng, you're going out?"

"Mm!"

Ji Feng nodded and said, "There's something that requires a trip to Yanjing."

"Lei Lei has just returned, and you're leaving?" Xiao Yuxuan couldn't help but frown slightly, "Ji Feng, if things aren't too urgent, you can stay here with Lei Lei for a few days and then go out again!"

Xiao Yuxuan was still very thorough in her consideration, knowing that the whole summer holidays Tong Lei was in Yanjing while Ji Feng was with her, Tong Lei was definitely a bit lonely on her own, if at this time Ji Feng was still running east and west without home, then Tong Lei might be a bit upset in her heart.

"I'll be back in a day or two at most when I get there, it'll be quick." Ji Feng smiled, "When I come back, I'll be with you all the time."

“Then you go and return quickly, don’t let us worry.” Xiao Yuxuan said, “By the way, bring the white spider with you too.”

“No need, just let the white spider stay at home for now, I am going to look for my little uncle, it’s not convenient to bring the white spider with me.” Ji Feng shook his head and said, “Also, don’t tell White Spider where I am going for now, I will arrange for her!”

“How” Xiao Yuxuan gave Ji Feng a surprised look, he seemed to be on guard against the white spider ah.

Ji Feng waved his hand, “You shouldn’t ask too many questions, wait for me to come back and talk about anything.”

Regarding the matter of the white spider, Ji Feng did not intend to talk to Xiao Yuxuan and the girls yet, it was not too late to wait until things came to a head.

Seeing that Ji Feng did not say anything, Xiao Yuxuan did not ask more questions, she also knew that many things Ji Feng would deal with in private and would not let her worry, so she naturally would not go after him, that would only add to Ji Feng’s worries.

And then, Ji Feng left Xiao Yuxuan’s office and left the Tengfei Group by car.

.....

“White spider, you can drive the car back first, I still have some personal matters that need to be dealt with alone!” On the road, Ji Feng told White Spider to pull over and said.

“It’s better to let me follow, if we really encounter any danger, I can also help!” Bai Spider said.

Ji Feng shook his head and said with a smile, “Go back, practice more aerobics while you have time, maybe the warriors in the Special Combat Brigade will still need you to instruct them in the future.”

“..... Alright then, you be careful alone!” White Spider did not hear the meaning of Ji Feng’s words and agreed.

Ji Feng smiled, “I’ve been alone before, and I haven’t had any major problems!”

Bai Spider then nodded and drove away after letting Ji Feng get out of the car at the roadside.

As Ji Feng watched the car go away and disappear at the end of the road, he couldn’t help but shake his head. Frankly speaking, Bai Spider was indeed a talented person, with good understanding, willing to work hard, and also had the experience of commanding Xixia, it would indeed be a pity if such a person left.

However, Ji Feng did not want to have someone else’s sounding board by his side, then he would really have no secrets to keep.

After looking at the ticket in his hand, Ji Feng casually hailed a taxi and went straight to the airport.

On the way, he first called Tong Lei and told her that he was going to Yanjing, and Tong Lei was very understanding, only gently urging to be careful on the way.

Ji Feng couldn't help but smile faintly, just hearing Tong Lei's voice, the original mood that was a bit irritable, was also much calmer.

"Battle team, must be set up as soon as possible" closed the line, Ji Feng pondered for a long time, said in his heart.

Chapter 1258

In the evening, Ji Feng stepped onto the land of Yanjing.

The sky here was a dark red, as if there was a roaring fire burning outside the sky, and anyone who lives here often knows that this is a precursor to an imminent major change in the weather.

In recent years, the weather in Yanjing has become more and more bizarre, with sandstorms, hailstorms and other weather becoming more and more frequent, especially in autumn, when the autumn tiger may still come out to play a powerful game during the day, and then start raining at night, or when the temperature plummets

This is the case now, Ji Feng came out of Yanjing airport and could feel that the weather was gradually turning cooler, and it was very obvious, especially after getting into a taxi, then it was even more possible to feel this change.

Before he had gone half way, a drizzle was already falling from the sky, which made Ji Feng slightly want his head, just in time to also put off his intention to go to the military camp and go straight home instead.

"Little Feng?!"

Seeing his son back, Xiao Su Mei suddenly could not help but be slightly stunned, and then said joyfully: "Come in, see you drenched all over" how suddenly came back, also did not say hello in advance, I let people to pick you up"

As she spoke, Xiao Su Mei pulled Ji Feng closer to the house and hurriedly said, "Xiao He, hurry up and get a towel"

"Yes!"

A girl in the room answered, quickly brought a towel and handed it to Xiao Su Mei.

"You kid, you're such an adult and still the same as before, you never know how to take care of yourself, that Yu Xuan kid too, she didn't say call me in advance when you came, you rarely call me either, I don't even know how you're living over there"

As she spoke, Xiao Sumei took a towel and wiped Ji Feng's head and then his body.

Listening to his mother's rambling words, Ji Feng did not feel nagging at all, but instead felt very dear, making him feel as if he was back to the old kind of time when he lived in a small private house to see that he spent his days.

At that time, the mother was also the same nagging, only, instead of talking about these contents, she told Ji Feng to study well at school, not to have conflicts with others, and not to have low self-esteem, but to do well

I don't know how, but Ji Feng suddenly had a sour feeling in his nose.

It's also that after being used to seeing outside, the kind of 'friends' who can calculate each other for the sake of interests, and also after being used to seeing all sorts of deceitfulness and fighting, after returning home, Ji Feng only felt that the whole person completely relaxed at once.

"Mom, don't be busy, where's my dad?" Ji Feng said, walking into the living room, and saw a girl greeting herself.

"Little He?!" Ji Feng asked with a smile, "Hello!"

"Hello, young Ji!" Xiao He said immediately.

At this time, Xiao Su Mei said next to her, "Xiao He is a guard equipped by his superiors, this kid is very good, as good as Xiao Ying, both are good kids"

Ji Feng then smiled and nodded, this little He is also in his early twenties, also has short hair with floppy ears, also looks somewhat small and delicate.

However, Ji Feng was able to tell that Xiao He was small in stature, but her body contained great explosive power, so once she really started to fight, she would be similar to Xiao Ying in the past.

Of course, compared to the current Xiao Ying, that was definitely a bit of a distance, because Xiao Ying had already started practicing body-building exercises long ago, and her body was superb.

"Little Feng, has it been a good time?" Xiao Su Mei pulled Ji Feng to sit down, "But don't get into trouble with Yu Xuan and the girls, the two girls are following you, it's already very aggravating for them, you can't be so heartless again like again!"

"Mom, don't worry, definitely not!" Ji Feng said.

In his heart, he couldn't help but laugh, obviously, just now his mother was trying to say, can't be so heartless like your father again except, it may be that his mother felt that now his father was in this capacity anyhow, and in front of the children, naturally, he had to save some face for him.

For the mother's teaching, Ji Feng also just nodded repeatedly and kept agreeing.

No matter what the old mother said was right or wrong, first agree to it!

If there was something wrong, he could slowly discuss it with his mother again, as for the matter of refuting it on the spot, he absolutely could not do it.

Next, Ji Feng learned from his mother that his father had been late from work the last few days and sometimes had impromptu meetings, and today he also called ahead and said he would not be back for dinner.

After that, Xiao Su Mei hurriedly went to cook for Ji Feng. When her son entered just now, he said that he hadn't eaten yet, so naturally, being a mother, she took it to heart.

Looking at his mother's busy figure, Ji Feng could not help but smile faintly

After eating, Ji Feng first called his younger uncle and made an appointment with him to meet him at the military camp tomorrow, and after that, Ji Feng sat on the sofa and chatted with his mother.

It could be seen that because of Ji Feng's return, Xiao Su Mei was in a good mood and the smile on her face was almost unbroken.

Such a time lasted until after 9pm, when Ji Zhenhua returned home.

"Brat, you still know to come back?!" The first thing he said when he saw Ji Feng, Ji Zhenhua couldn't help but reprimand, "I thought you forgot there was this family!"

"You old man, what are you talking about, Little Feng can't easily come back for a trip, why are you scolding him?!" Xiao Su Mei immediately defended her son.

Ji Zhenhua then grunted and went straight into the bedroom to change his clothes, he was never one to argue with Xiao Sumei, whether it was in front of people or when it was just the two of them.

Ji Feng, however, smiled secretly, he had already known that he would definitely be criticized upon his return, and had long been mentally prepared.

Joking aside, whether the old man of the Zhao family was still alive or not, that Zhao family could be said to be the benefactor of the Ji family, or at least, the current Zhao family, could be considered the descendants of the benefactor.

But Ji Feng had no qualms about directly launching an onslaught on the Zhao family's descendants, regardless of the outcome of this matter, but at least, in the eyes of the older generation, this was still a bit out of line.

The Zhao family's other sons and daughters were transferred out of important positions, while those with talent were kept in service.

If this can be done, even if outsiders want to pick bones out of eggs, they can't say anything.

But Ji Feng was different, he didn't care about this at all, since Chang Chongwei had messed with him, then he didn't need to say anything, he did it first before speaking, even if there were very serious consequences, Ji Feng was absolutely not ambiguous.

"You come into the study with me!" After changing his clothes, Ji Zhenhua said to Ji Feng.

"Little Feng, don't be afraid, he dares to discipline you, mum will take it out for you!" Xiao Sumei immediately gave her son a pep talk, making Ji Zhenhua really cry and laugh, and Ji Feng was even happier in his heart.

With his father coming to the study, Ji Feng immediately ran over with a smile and poured water for his old man, "Dad, you have some tea!"

"Mmm!"

Ji Zhenhua took the cup and said with a nod, "Sit down."

Ji Feng then sat down honestly on the sofa next to him, his body straight and all tough!

Ji Zhenhua nodded secretly, this kind of hardness in Ji Feng's body was also the root cause of his fierce character, and only a person with such a character could have this kind of hardness, these two were complementary.

The lines on Ji Zhenhua's face softened when he thought about the fact that perhaps it was because of the kind of hard life he had lived in the past that made Ji Feng become so tough.

"Little Feng, this time you have been a bit reckless in your actions." Ji Zhenhua said, "If all the factors hadn't coincided together, you might have gotten into big trouble."

Ji Feng shook his head and smiled, "Dad, I just don't want to be bullied."

With that one sentence, it made Ji Zhenhua's following prepared belly full of words, how could he not say them out.

There was nothing more moving than this kind of scene.

If Ji Zhenhua remembered correctly, this was the first time Ji Feng had said such weak words to him, this was a son who had drifted away for more than ten years, the only son, telling him that he didn't want to be bullied!

"When I encountered that kind of situation and my family couldn't give me support, I wanted to use my own fists to tell the other side that I wouldn't let people just bully me anymore!" Ji Feng's face was calm, but the words that came out were forceful, "From the time I start my senior year, I won't let people bully me casually anymore, no one can say a word about me!"

Ji Zhenhua then nodded and said, "Well, but when it's time to put up with it, you can still put up with it!"

"Why aren't they the ones who put up with it?" Ji Feng asked.

"You brat, " Ji Zhenhua then couldn't help but laugh and curse, this was clearly a raised bar.

But even if it was a raised bar, what Ji Feng said was very serious: "Dad, I want to form a guard unit."

"What?!" Ji Zhenhua was slightly stunned.

"I have offended too many people, and there are quite a few people who hate to take me apart, so I want to find a few more people to protect me and form a guard team, or rather, a bodyguard team, which can also be called a security team." Ji Feng said, "This security team can nominally belong to the Tengfei Group, while in reality, it will belong to my own guard team"

"Not like that!"

Ji Zhenhua couldn't help but frown slightly, "In what capacity do you want to form this security team?"

"No need any identity ah, is the security team of the Tengfei Group, my girlfriend, that what, is that Yu Xuan is worried about my safety, send someone to protect me, this should be said, right?" Ji Feng touched his nose and said with some embarrassment.

Just now when he talked about his girlfriend, he suddenly remembered that here in Pops, girlfriend means Tong Lei at least, for now.

“Then how do you plan to form?” Ji Zhenhua asked.

Ji Feng was immediately delighted in his heart, Pops didn’t object? He immediately said, “I’m going to find my little uncle and see if I can find some retired soldiers from him

“Go out!” Ji Feng hadn’t even finished his words when Ji Zhenhua suddenly said.

“.....” Ji Feng was stunned, “Then what you mean is

“Go on, rest early at night.” Ji Zhenhua waved his hand, the lines on his face were very soft.

“Mm, dad, I’m going out then.” In this moment, Ji Feng felt a sense of fatherhood from his body, and no longer an elder, a parent, this was a father who loved his son.

Ji Feng knew that it was very likely that Pops was acquiescing!

Then, next, as long as the work of the young uncle is done, this battle team can definitely be formed

Chapter 1259

Early the next morning, Ji Feng first accompanied his mother to have breakfast. Ji Zhenhua just ate a little and rushed off to work, saying that the ministry had something important to deal with, it was said that there was a nest case somewhere, implicating many people

It is also fortunate that both of them have been insisting on practicing aerobics, Ji Zhenhua can also adapt to this kind of high intensity work, Ji Feng is not too worried.

There is no way, the higher the status, the more things to worry about, the main political party, may only need to worry about the construction and development of a city, but standing at the height of the father, we have to look at the whole country, and also constantly concerned about the situation in the world, there are many things even four hours a day eight hours may not be enough.

Next, Ji Feng accompanied his mother to have breakfast, listening to the nagging words, Ji Feng did not have the slightest impatience, but was very affectionate.

That guard of his mother, Xiao He, was likewise at the dining table.

Only, this girl seemed to be because she was not too familiar with Ji Feng, or because this girl was already very outgoing, anyway, at the table, she didn’t talk much, only when Xiao Sumei was giving her food, she would say thank you, other times, she just ate sullenly.

Ji Feng looked quite amused, not for any other reason, from this girl, he seemed to see the shadow of Xiao Ying, all the same not too fond of talking, but the same alert, very good.

With such a guard following his mother, even if he went out shopping in private, there would be no problem.

“Little Feng, you’ll be graduating in just over a year, have you thought about when you’ll get married?” While eating breakfast, Xiao Su Mei suddenly asked.

“Huh?”

Ji Feng couldn't help but stare at once, getting married?

“Ah what ah, you are already twenty-two this year, looking at twenty-three, when you graduate you will also be at the age to get married!” Xiao Su Mei said, “Isn't it time to think about it?”

“.....”

Ji Feng was sweating, he coughed lightly and cleared his throat before saying, “What, nowadays, it's all about late marriage and late childbirth, besides, I think I'm still a kid, what's the point of getting married in such a hurry?”

“How can you not get married? If it was in Mang Shi County, people as old as you would already have children if they didn't go to school, how much longer do you want to put it off?” Xiao Su Mei couldn't help but glare at him, “I can tell you, you can't have any more bad intentions, those two children following you is already aggravating enough, if you mess up again, you won't enter this family in the future!”

Ji Feng cried and laughed: “Mom, I just think that the age is still young, it's not time to get married yet, why are you pulling away again.”

“Don't tell me so much, what three objective reasons!” Xiao Su Mei reprimanded, “I can tell you, when you graduate, try to get married early, otherwise the face of other girls is more important than anything else!”

“.....”

Ji Feng then understood, old mother this on the one hand is want to let himself early family, while on the other hand, but also want to let himself finalize the belonging, or rather, is warning himself not to make any mess.

However, this kind of thing Ji Feng really can't say yet, in fact, when to get married, he really doesn't care.

But the problem is, if possible, Ji Feng would rather put the date of marriage backwards, after all, if he and Tong Lei get married, Xiao Yuxuan will not say anything on the surface, but that heart, naturally, will not be too good, it is clear.

Ji Feng couldn't not take care of her feelings!

“Mom, don't worry, I'll definitely take care of it!” Ji Feng said.

“Then think about it first, get married as soon as possible, and then have a child.” Xiao Su Mei said.

“.....” Ji Feng hurriedly lowered his head and ate, he was afraid to talk to his mother any further, otherwise it was possible that she would say something shocking again.

Think about the fact that you are only in your early twenties now and you are actually going to have a child?

If it were a child of a normal family, in his early twenties, he would still be a child, how would he want a child to be taken care of?

Seeing that Ji Feng did not speak, Xiao Su Mei could not help but glare at him, helplessly shook his head, also did not say.

What to laugh at ah also know, now the young people is very difficult to control.

.....

The actual fact is that you can find a lot of people who are not able to get a good deal on a lot of things.

In order to avoid traffic jams, Ji Feng suggested that the driver could take a longer detour, but try to go faster, after all, a good time can't always be wasted on the road, right?

More than an hour later, Ji Feng met his younger uncle Ji Zhenping.

At this time, Ji Zhenping was no longer the brigade leader of the Red Arrow Brigade, but had become the chief of staff of the Yanjing Military Region, which was the chief of staff of the garrison, a senior cadre of deputy military rank.

So his office location had also changed, and Ji Feng was still led by the guards before he arrived at his little uncle's office.

"Little Uncle!"

When he saw Ji Zhenping, Ji Feng immediately had a smile on his face and smiled and gave his little uncle a hug.

Although Little Uncle was now a general and had started to officially enter the strategic work of the unified army, and the majesty of his body was growing day by day, but in Ji Feng's eyes, he was still the same Little Uncle who seemed like a child king, and the eldest person Ji Feng felt closest to.

"Brat, I haven't seen you for a while, you've grown quite strong again!" Ji Zhenping smiled and gave Ji Feng a punch, "Not bad, a bit of a mighty feeling no wonder he was able to beat both Chang Chongwei and Zhao Guosheng with three punches and two kicks"

Ji Feng then blushed a little, little uncle this is obviously not praising himself.

"Sit down!"

Ji Zhenping waved his hand, "your intention of coming, your father has already told me, I do have a group of fighters in my hands that are of excellent quality and have reached the age of I can give you, there are only such fighters, those who are in their right years, every one of them is the wealth of the country, you don't even think about it. "

Ji Feng then said delightedly, "That's good enough."

This was indeed very unexpected for Ji Feng, originally in his opinion, although last night his father sort of acquiesced to what he had done, but after all, this was somewhat out of order, so I'm afraid that he would have to go through a lot of trouble with Little Uncle to come here today, but he didn't expect that Little Uncle had actually prepared it for himself a long time ago.

Obviously, this was specifically explained by his father.

Ji Feng couldn't help but secretly feel a wave of warmth, don't look at old dad that usually doesn't care too much about himself, but in reality, he does a lot of things, just, he might not even know it.

This was something that Ji Feng could still imagine.

"Don't be happy yet, your mouth is splitting like a lotus flower" Ji Zhenping instantly glared at him and said, "Let's say the ugly words first, this group of people can follow you, but, you have to treat them well, you can't treat them as These are my soldiers, if you dare to do so, I will be the first to not forgive you!"

Ji Feng immediately said with a straight face, "Little Uncle, you can rest assured that your nephew is not that bastard!"

"Mm!"

Ji Zhenping nodded and added: "Apart from that, these people's family situations are not too good, originally they would have been able to find a job at the local level if they were transferred and demobilized back home, but it's still difficult after all, since you kid can't finish your words if you have more money now, then give them a better deal."

"No problem!" Ji Feng nodded his head.

"In addition, this group of soldiers, have experienced real battles, and stay in the army for a long time, may be a little difficult to adapt to some of the environment in society, which all need you to help them gradually adapt"

The actual fact is that you can find a lot of people who have been in the business for a long time. Because he could see that Little Uncle was a general who loved his soldiers, and, with these people's abilities, they deserved to be treated very well.

Perhaps like those retired soldiers with great skills, many of them did not mix too well in the society, that is not because they are not capable, but they did not adapt to the social hustle and bustle, or, did not meet the opportunities.

Even if some soldiers are transferred to the local police force, the official world is also very complicated, and they are also very quick to adapt, and maybe that tough character makes them offend the leaders without realising it, so most of them do not mix well.

But if these soldiers are put in a place where they can play to their strengths, then they are a sharp knife, sharp and invincible!

What Ji Feng needs now is such a person!

"That's all I have to say, this is the address above, you go straight to this place, they are all waiting for you here!" Ji Zhenping finished, tore off a piece of paper from his notepad, wrote the address on it with a swish, and then handed it to Ji Feng, "Remember, don't disgrace me, or else I'll be the first to clean you up, not even if the old man protects you!"

"Little Uncle, don't worry, I won't disgrace you!" Ji Feng stood up sharply and said forcefully.

“Well, go on!” Ji Zhenping waved his hand.

“Goodbye little uncle!”

“This brat

Looking at Ji Feng’s back as he strides away, Ji Zhenping stood at the window and couldn’t help but shake his head with a smile, then sighed softly, “Following this brat, it’s not like I’m condemning those kids

The army will have many people retired every year, and not too many of them can really be arranged for employment, and, in some cases, even the transfer fees will be deducted by certain people on the local level, Ji Zhenping, even as a general, there is nothing good to do, so, Ji Feng came to ask for people, and not to pick and choose, that is naturally no better.

Anyway, that boy has money, it’s not too much to keep a few more.

Chapter 1260

“Royal Clubhouse?!”

When Ji Feng went out of Yanjing Military District, got into a taxi, took out the note given to him by his little uncle and took a look, he was stunned at the lack of people, it could be here?!

For this Royal Club, of course Ji Feng was more than familiar with it, yet not because of how many times he had been here.

In fact, the first time Ji Feng came to this Royal Club, was to save Xiao Yu and warmth, and here, he also had a conflict with Qiao Rong, and it was from that time, Ji Feng kind of knew that Qiao Rong and Dynasty must have a relationship. Because, this Royal Club, itself, was one of Dynasty’s strongholds in Yanjing.

As for what happened afterwards, Ji Feng had no personal experience, but only heard from Xiang Yongzhan that when they started to strike at Dynasty, all the people here had already withdrawn, and very few useful clues were left behind.

Further on, Ji Feng was not too sure, thinking that such a clubhouse, and being in a still prosperous area, could not just be left empty.

But Ji Feng was not expecting that little uncle had actually arranged for that group of people to wait in this royal clubhouse.

Does little uncle have any other special intentions?

With this suspicion, Ji Feng let the taxi driver bring himself to the entrance of the Royal Club. As soon as he got out of the car, he found that there were only a few cars in the car park of this clubhouse, other than that, he basically couldn’t see many people coming here, it seemed very cold.

Ji Feng frowned slightly and was a bit wary. The reason is that he felt that there was something wrong with this place, why did it give people a chilly feeling in the middle of the day?

He paused slightly at the entrance, and then, he walked in with big steps.

Hum~~!

The automatic door sensed that someone had entered and immediately opened automatically to both sides, and Ji Feng did not hesitate to enter with big steps. In fact, as soon as he entered the door, he saw three well-hidden cameras, and he knew that the people inside must already know that he had entered.

After walking up a few steps inside, Ji Feng realised that the arrangement here had changed greatly from the last time he came. Originally, there were two long passages, one leading upstairs and one leading to the basement and the back, but now, gates had been added to both passages and they could no longer be accessed freely.

Moreover, there was no one in the hall, and only a light bulb was lit at intervals, while all the other lights were out, making the clubhouse somewhat gloomy.

Ji Feng turned slightly sideways, and his vigilance was immediately raised to the highest level.

By now, he could already be sure that something was really wrong here, because there were surveillance cameras at the entrance, originally, as long as there were people inside, then they would definitely see themselves, but none of them had come out yet, so it would be strange if there was no problem.

“Could it be that Dynasty’s people have come back?” Ji Feng frowned slightly, but soon he dismissed his guess, if it was Dynasty’s people who had come back, how could Little Uncle not know? And would he not let himself jump into the fire?

“Could it be that”

Ji Feng suddenly thought of a possibility, could it be that those people wanted to test themselves? That’s why they staged a suspicious situation and wanted to play with themselves?

This possibility is still very high!

Because little uncle seemed to have even said at that time, “Don’t disgrace me!”

Now that I think about it, these words were extremely meaningful, Ji Feng couldn’t help but shake his head and smile, wanting to call in talents, it turned out that there was still a test to go through

The first thing you need to do is to get a new one.

Just at this time, the lights in the entire hall were extinguished, followed by a “buzz~~!” sound rang out as the doors of the clubhouse suddenly closed. What was now closed was not a glass automatic door at all, but the layer of iron doors on the outside.

Swish!

Ji Feng didn’t even turn his head back, a key appeared in his hand at some point and he flung his hand and struck it backwards.

Swoosh~~poof~~dang!

“Umm-!”

Only a muffled sound suddenly rang out, in the next moment, the doorway did not disappear, Ji Feng was not nervous, the corner of his mouth, on the contrary, even pulled up a slight curvature. On the automatic glass door, a key was inserted on the glass, and there was still a bit of blood on it.

Ji Feng then secretly sneered, thinking that the person at the door just now, should have been pierced through some part of his body, and then the key impulse did not diminish, and hit the door again!

From this, it could be seen how strong the force contained in the key that Ji Feng had struck with his hand, which was even more terrifying than the bullet fired from a pistol!

When Ji Feng entered the door just now, he had already discovered that there were two levels of doors, the first was the iron door on the outside, which was embedded, and even if it was to be controlled automatically, the electric switch was on the inside side of the door. The automatic glass door, on the other hand, is automatically inductive and does not need to be controlled.

So as soon as the electric gate of the iron door was closed, Ji Feng flung his hand in that direction and struck a key, and as expected, the other party was hit!

In the darkness, Ji Feng's eyes were like lightning, the night could not block his vision, everything in the hall of the club was clear to him, as if it was daylight!

After striking a key, Ji Feng stood still, just quietly observing, especially paying attention to the three cameras.

However, this time Ji Feng did not see any results.

Originally, he wanted to see if the three cameras were the kind of infrared cameras that could take pictures even in the dark, but he found that it was basically impossible to tell from the outside and could not be determined. What's more, these three cameras happen to present a 'pin' shaped angle, which is a handful, and there is hardly any dead angle unless one walks out of the door, but there are cameras outside the door as well

So Ji Feng can be sure that if this is an infrared camera, then no matter where he hides, he will not be able to avoid it.

The first thing you need to do is to be more open-minded about it, or at least, calm and collected, so you can make a more accurate judgment.

The key to the door was pulled off and played with in his hand before he turned around and looked around, then he walked on.

Ji Feng did not rush upstairs, but came to the passage that led to the back door and the basement, and looking at the tightly closed iron door, he shook it with his hand.

Just then, a feeling of danger suddenly struck him, a cold light flashed in Ji Feng's eyes, and the next moment, he rolled violently on the ground and hid behind a marble pillar.

Chirp!

A slight ringing sound, with a harsh strong wind instantly attacked, the door of the back passage was instantly pierced!

..... was a pistol with a silencer installed, there was someone behind this door!

The other party had actually fired, and if he hadn't sensed the danger in advance and thus rolled on the ground to dodge it, he would have had to die here today!

There was something wrong with the situation!

Ji Feng immediately understood that this was definitely not a trial and test by those people, it was very likely that something had gone wrong. However, Ji Feng was still unable to know what had happened here, but there was one thing he could be sure of: the people hiding here definitely had ill intentions towards him and were afraid that they wanted his life, but it seemed that the other party did not want to make any big noise

Once again, he himself has been attacked and killed, this is the conclusion Ji Feng has come to!

"Since that's the case, let's play along with you guys!" Ji Feng couldn't help but give a cold laugh, a strong murderous spirit rose from his heart, the last time he was attacked and killed one after another in Jiangzhou, but in the end, he could only watch the other party leave, that kind of suffocation, Ji Feng still remembered it clearly even now.

This time he encountered such a situation again, really thought he was easy to bully?

His face was as gloomy as water, he looked around and casually pulled a tablecloth from the table next to him and quickly folded it into an irregular shape almost half a person high.

And then, Ji Feng looked at the passage door that led to the back and threw the tablecloth towards the other passage door with a flip of his hand.

Poof poof poof!

With three consecutive shots, the tablecloth was instantly sent flying and the bullets hit the wall with an ear-piercing sound.

Sure enough!

Ji Feng's eyes were cold, there were people ambushing behind the two access doors, the other side was really good at calculating, they had calculated that once in danger, people's first reaction was to flee, and that was definitely to escape by taking the door, so the other side directly sent people to ambush behind the door, as long as they were close to the door, they would definitely not be able to hide, and would be shot on the spot!

Another expert!

At least, it was a veteran who was very experienced in action.

Ji Feng's mouth held a cold smile, in the whole hall of the clubhouse, apart from hiding behind the stone pillars, the only way to avoid being ambushed by the two gunmen behind the access door was to take the stairs, because from the stairs to the access door, it was almost flat and the angle was not enough for the other party to shoot.

“This is forcing me to take the stairs!” Ji Feng’s eyes were cold and fearless, and in the darkness, he was holding a tablecloth in his hand, which was the one that had just been sent flying, with a few holes torn in it.

Ji Feng casually touched it and fished out a lighter on his body, then tore off a piece of the tablecloth, lit it, threw it over the staircase handrail, tore off another piece and lit it again He stood behind the stone pillar, recklessly, because this was a dead end, neither from the stairs nor from behind the two access doors could he be attacked!

Just then, in the surveillance room of the clubhouse, there came a low, angry curse: “****! Into the glare, the infrared cameras are not working, each be careful”

Looking at the display again, however, Ji Feng’s figure had been lost.

After affecting the camera with firelight, Ji Feng had extremely quickly reached the stairway on the first floor, but had not yet gone up, where he heard the sound of breathing, obviously, there was someone up here

Swish!

Ji Feng took the lighter in his hand and smashed it against the wall of the stairway entrance.

Bang~~!

That violent impact instantly set off the lighter with a thud.

Clack~~~!

In a flash, the sound of the gun’s bolt being pulled up suddenly rang out, and at the same time, the key in Ji Feng’s hand struck out once more, just like an incomparably sharp dagger, that cut a bitingly bright light in the darkness!

Poof!

At the entrance of the stairs, a figure fell down softly, with a clatter, and the gun in his hand fell to the ground!

At this time, the smile on Ji Feng’s face became even bigger, after he got the gun, the positions of the attackers and defenders should be switched!
