

Campus Master 1261

Chapter 1261

Ji Feng did not rush to get his gun, but bent his body slightly down and hid at the entrance of the stairs, waiting quietly.

He wanted to determine if there were still hidden enemies around here.

Although Ji Feng didn't know where these gunmen had come out from up to now, he felt that these people were very tricky.

Not to mention anything else, just from the location of their ambush and the angle they took with each other, this was a team that worked well together and was even proficient in coordinated combat. At least, this kind of team that cooperated with each other and had such an excellent grasp of human psychology was something Ji Feng had only seen in the military.

Soldiers?

Once he thought of this, Ji Feng suddenly remembered that Little Uncle had asked him to come here to find the men he had prepared for him.

If that was the case, then what had these people gone crazy and why did they want their own lives?

Ji Feng quietly half crouched at the stairway, all these thoughts flashed through his mind quickly, he frowned, but still somehow could not understand, but he knew that there must be some kind of change in the middle, perhaps the people assigned by Little Uncle were unreliable, or perhaps they were controlled by someone .....

The only way to go is to break in and get to the bottom of it!

After crouching at the stairway for a while to make sure no one was around, Ji Feng slowly stood up, and then he came to the guy whose life he had just killed with a key.

Good guy!

Ji Feng could clearly see that what he was holding in his hand was a fully automatic rifle, which could also be said to be an assault rifle. The biggest advantage of this rifle was that it was simple to operate, only needing to pull the bolt and pull the trigger, and could control the number of bullets fired, harsh and dense.

Not only that, this fully automatic rifle can also fire point blank, so whether it's a fierce charge or a fierce battle, it can be extremely powerful.

“Ka ka ka~~!”

Ji Feng pulled on the bolt, and from the dead man, he felt two more magazines, which he also held directly in his hand.

Whirling around, he snapped back and swept a glance, and the next moment, he was seen doing a very surprising action – he bent straight down and rolled down the stairs!

Suddenly .....!

Just as soon as he re-entered the hall, he went directly behind the stone pillars in the hall, raised his gun at the same time, and jerked the trigger towards the door leading to the basement of the clubhouse and that access door at the back. Although the power of the automatic rifle's bullets was not too great, the distance from him to the door at the back was only about 20 metres, and the power of the bullets was sufficient for such a close distance.

As expected, as Ji Feng finished his burst of bullets, he keenly heard the sound of falling to the ground from behind the gate!

Ka ka ka~!

Ji Feng quickly replaced a new magazine, and then, holding his rifle, he began to fire point blank towards the gate.

There was a cold smile on his face, without the slightest bit of sympathy. The other side simply wanted him dead, and when he had entered just now, if he hadn't originally been on guard, then it would have been him who was dead now.

What's more, if the other party hadn't shot directly from behind the gate, then Ji Feng couldn't have known that the bullets could actually go through this big iron gate, which looked both thick and secure!

Moreover, the timing of the other party's shooting was so unmistakable, no doubt it was entirely the work of those surveillance cameras in the hall, someone was monitoring his every move and then fed the news to the gunman who was ambushed here before the other party knew he had reached the door, so he fired too .....

These thoughts had already occurred to Ji Feng after he hid at the stone pillar.

So, he lit the tablecloth so that the glare interfered with the infrared camera, he managed to grab a rifle and, also, quite a bit of information!

—the other side was going to keep him here!

It was obvious, as long as Ji Feng went out, then there was no chance of this clubhouse surviving. That was why the other side closed the door, closed the doors of the two passageways, and played all these tricks against him.

But those people were unaware that the more they did so, the more information was revealed.

For example, the stairs were closed and the doors were closed, so where did the man who closed the gates come from? Did he come out of the ground?

Bang! Bang! Bang!

Ji Feng hid behind the stone pillar, first avoiding the gunman behind the other passage gate, just firing point blank towards that passage gate at the back, with his incomparably keen sense of hearing, he just shot point blank at the gate, but whenever there was the slightest movement behind the passage, he couldn't escape his gun!

The moment Ji Feng got his rifle, the situation had already started to change. Those who had not fought with him would not understand how terrifying Ji Feng with a gun was.

Even if it was just a rifle in his hand, Ji Feng could even use it as a sniper rifle, and that precise shot was more terrifying than many snipers, not to mention that it was in the dark, and his vision was not affected at all, while the other side still needed to monitor the information feedback, and the gap between the two sides was further widened.

So at this moment, it was as if Ji Feng was the one who was ambushed.

One man, one gun, and the other side couldn't hold up their heads!

If this were to be said out loud, I'm afraid no one would believe it, after all, this is just a bit too amazing .....

The actual fact is that you can find a lot of people who have been in the business for a long time.

It wasn't him who should be anxious now, it was the other side!

You know, no matter how soundproof this door is, there is no guarantee that anyone outside will hear the gunshots, so the best way is to get a quick fix, but unfortunately, the other side doesn't have that ability .....

Stomp, stomp, stomp .....

A sharp and dense sound of footsteps suddenly came from upstairs.

Ji Feng's eyes suddenly flinched, the people upstairs had finally come down, but this time was not very advantageous for Ji Feng, because the people behind those two access gates had not been solved, and if the people upstairs shot him, then he would have nowhere to hide!

突突突突 .....

Ji Feng flung a pike at the stairs and instantly, the sound of footsteps above disappeared.

Ji Feng's face was ancient and unruffled, and he was deliberating quickly.

Obviously, the camera was destroyed, making the people upstairs is not so sure anymore, at this time, they want to use intensive bullets, to take themselves out in this hall, and, although that shuttle just now has stunned the people upstairs, but it can not delay for much longer .....

Zizi~~!

Just then, a small fire rose up from behind the stone pillar, but it was Ji Feng who broke off the head of a bullet raw, poured out the gunpowder inside, and used the barrel of the gun, which had already been beaten to a very high temperature, to ignite the gunpowder, which in turn set the tablecloth on fire!

As the fire flourished, the corners of Ji Feng's mouth wore a cold smile as he simply took off his own jacket and ignited it as well, and the two large balls of fire were just thrown straight down the hall.

The next moment, Ji Feng rolled violently on the ground, swept past a few tables with unbelievable speed, pulled some tablecloths back, and then, set them all on fire!

Ji Feng kept throwing the tablecloths, which were burning violently, into the hall, and the more curtains there were, the more he threw, and if it wasn't for the fact that he had so few clothes on him, Ji Feng would have even wanted to take off his trousers and set them on fire too!

In just a few moments, some of the tables, chairs, plastic, etc. in the hall of the Royal Club began to burn, and the fire gradually increased, and even had a vague tendency to become uncontrollable.

The whole hall was already in flames!

The choking smoke continued to rise, causing the sounds from upstairs to be noticeably chaotic.

Ji Feng was also covering his nose, but he stood up straight away, and taking advantage of the firelight interfering with the possible hidden cameras, he quickly went to the front door, casually pulled over a plant of some kind from the tall vase at the front door and wrapped it around the electric gate of the front door.

At the same time, he was tugging at the other end, dodging four or five steps away and hiding in a corner, frowning tightly.

After all, he was flesh and blood too, and the smoke was a little too much for him to bear, but he could only endure it, and this time he had made up his mind that he was going to get rid of all these people, or catch one or two of the main ones!

The last time he had to hold back, there was no way he could repeat that!

The sound of footsteps upstairs increased rapidly and also gradually became chaotic, all of which Ji Feng heard clearly, his hand tugging at the unknown plant as he counted silently in his heart.

One, two, three .....

Snap!

Ji Feng's hand gave a violent tug.

Buzz~!

The big iron door outside the clubhouse was opened and was gradually rising, a ray of light shining directly in.

All of a sudden, the sound from upstairs was high, the sound of footsteps was dense and incomparable, and they rushed straight down and started shooting at the door.

Bullets~~!

At this time, Ji Feng was not even next to the door, instead he had somehow gotten around to between the stone pillar and the stairs, the assault snatch in his hand, aimed at those who rushed down but were unaware of it.

Burst burst burst .....

"Ah ....."

Ji Feng fired without mercy, that came down a full six or seven people, directly by Ji Feng not a single one left to take out, the screams also only just sounded, and then abruptly stopped!

Ji Feng got another six or seven magazines from these people on the ground, he couldn't help but smile slightly, these bullets, enough to use!

Immediately, he turned around violently and fired again towards the stairway.

Burst .....!

After all the bullets were shot, Ji Feng then smiled coldly and dashed towards the entrance of the clubhouse in a lightning-like manner, hiding behind a stone pillar at the entrance.

The gun, still pointed at the stairway on the first floor!

.....

Second shift.

Chapter1262

If you look from outside, the entire building of the Royal Club is surrounded by smoke. The pungent smoke was coming out of the windows and the gradually opening doors of the upper floors, which was really alarming.

Some people had already called the fire brigade, but for a while, the fire engines could not arrive in time, so people were talking outside, but they did not dare to rush in easily.

Among the crowd of onlookers, there were a few people who looked very special, their faces were serious, their eyes were grave, and their bodies had a kind of toughness that could not be concealed.

If you look closely, you will see that there are seven or eight such people around the Royal Club, some standing together in twos and threes, others alone, and without exception, their eyes are fixed on the Royal Club, which is billowing with smoke.

Moreover, if one looks down from above, one can clearly see that these several people are standing not far nor close to the Royal Club, and that they are each standing at different intersections around the Royal Club.

In other words, if they were all very tough, they could have blocked off the entire area around the Royal Club!

And at a junction about a couple of hundred metres away from the Royal Clubhouse, there were two men who were talking in low voices.

"Something's wrong!" One of them said in a low voice.

"Yeah, something must be going on inside, you heard the gunshots just now, right?" The other man said, "I reckon it's not a small thing!"

"What should we do? Should we go in and have a look?!"

Another man shook his head and said, "No, the orders we received were to block off all the intersections to prevent even a single fly from coming out of the Royal Club! At the same time, to stick around and pick up a man ....."

The first one could only nod, he also knew that once they went in, the intersection would be unguarded, then in case someone slipped away, then this mission would also fail, as a soldier, when obeying orders as the natural duty!

"The person we're meeting is the one who just went in, right? He's still inside ....."

"Strictly carry out the orders! The chief explained us this way, that must be the intention, as for other things, after solving this matter, then we will talk about other things!"

"..... Yes!"

Conversations like this were going on at other junctions at the same time, but in the end, they all chose to strictly carry out their orders and put the mission first!

What's more, when they were on their way here, the chief had repeatedly instructed that their task, was to pick up a young man and protect the rest of the crowd as far as they were able, and otherwise to carry out the orders strictly!

The fact is that they don't quite understand, since the chief asked them to meet the person, it means that this royal club is definitely not a good place, and the person before still broke in single-handedly, is the chief so sure that the person will definitely come out intact?

.....

The interior of the Royal Club at this time was even worse than it looked outside.

The whole hall has burned into a sea of fire, originally placed in the hall of tables, chairs and benches and so on, that are flammable things, soon the fire began to spread, all the way to the first floor, the third floor .....

The fire was already so full of smoke that it was impossible to see anything, and it was even very difficult to breathe.

However, Ji Feng was still crouching steadily behind the stone pillar next to the doorway, the rifle in his hand held steadily in the air.

This was his mastery, the smoke was rolling in the hall while he was at the doorway, and although he was equally choking uncomfortably, it was no big deal because he could breathe in the fresh air from the doorway!

And by crouching, he was avoiding the vast majority of the smoke and breathing much more smoothly than when he was standing.

..... Anyone who has seen a fire scene will know that when there is a fire, the smoke rises upwards and often the air is best where it is close to the ground instead.

The actual fact is that you can find a lot of people who are not able to get a good deal on a lot of things.

Ji Feng, on the other hand, was crouched in the doorway, but there was no big problem!

In the training space, the training about escaping from a critical situation, Ji Feng did not know how many times he had experienced, so he found the safest place in the shortest time.

As for getting out .....

If it was just about escaping, there would be no need for Ji Feng to make such a big show.

What he wanted, was to kill all the people in here, no matter who the other party was, he would not allow himself to experience another humiliation!

Ji Feng just crouched in the doorway, his eyes blazing.

The people upstairs, now there are only two choices, either, try everything to get out, or, stay up there and be burned alive or choked to death, there is no more third way out!

“Stomp .....”

The sound of hurried footsteps rang out, and finally, someone couldn't hold it in and started to rush out.

“Bustle .....” Dense gunfire rang out, but these people were not stupid, and kept firing as they rushed outside, just in case someone made a surprise attack on them.

It was only a few dozen meters from the stairs to the front door, if they ran through, then they would live!

By the light of the fire, one could see four or five figures rushing down from the first floor and dashing outwards in a playful manner.

“Bang!”

In a flash, the sound of gunfire rang out, and the first person fell head first to the ground, this person was shot in the head.

However, the others did not even pause for a moment, as if they did not even see their companions being shot, and dashed hard and fast to the outside. It wasn't that they were terrified, but because they all knew that they had no semblance of a counterattack here and had to rush out!

Bang, bang, bang, bang .....

Shot after shot rang out in a very rhythmic manner, dense but not messy.

As the crisp gunshots rang out, those few remaining men, without even taking a few steps, all fell headlong to the ground – all killed with a single shot!

Immediately, the sound of gunfire came to an abrupt halt.

Ji Feng knelt down on one knee, holding the rifle in his arms, his eyes not even half wavering, his body full of the aura of killing!

Since the moment he got the gun, this ending had already been predetermined.

These people should not have played with Ji Feng in such a small space. If it was in the wilderness and so many people were shooting at Ji Feng, then even if Ji Feng had three heads and six arms, he would have to retreat and run for his life!

But now it was different, in this small space, Ji Feng was a god of killing, whether he had a gun in his hand or not, his body was terrifyingly scary!

“Charge again! Cough .....

Once again, a low roar came from upstairs, at this time, it was necessary to rush, because even the upstairs had burst into flames, and that electric wire was burning along with it, it was simply uncontrollable, and it was necessary to escape.

Stomp .....

At once, several more people rushed down, at this time, Ji Feng did not even give them any chance, directly a shuttle past, all down.

Two consecutive groups of people were taken out so cleanly, instantly, the sound upstairs was silent, almost everyone was subdued!

However, this time Ji Feng did not give them any more time to react, the moment he finished off the second group of people, he had already taken a deep breath and rushed towards the stairs with his gun in his hand.

“Burst ..... burst .....

In the thick smoke, Ji Feng but whenever he saw a human figure, he was absolutely unambiguous and pulled the trigger straight away.

Ji Feng’s speed was frighteningly fast, when he held his breath and returned to the hall, the entire first floor had been swept by him!

“Phew~~!”

Ji Feng crouched at the doorway and took a few deep breaths, his whole body calmed down again.

He looked up at the stairway, there was no movement above, he couldn’t help but sneer, still not rushing down? Do you want to wait for the fire engines to come, or do you want to wait for someone else to rescue you?

Let’s see who can consume more energy than who!

At this moment, Ji Feng could no longer go to the third floor to continue his attack, the time for a breath was too short, it was simply too late.

Ji Feng secretly snorted coldly and directly pulled down the electric gate of the main door with one hand.

Buzz~~!

The clubhouse's gate began to descend, and Ji Feng swept his palm across it, instantly sweeping off the switch of the electric gate!

Ji Feng rolled on the ground and flashed out from under the slowly descending gate. When he saw that the crowd was almost all watching in the distance, he instantly frowned slightly, and then quickly flashed through and dived into the crowd and soon disappeared.

Dang!

The doors of the clubhouse were completely closed!

At this time, it would not be so easy to open the door again.

At this time, Ji Feng was carrying his rifle and darting through a residential building opposite the clubhouse, directly arriving at the rooftop and aiming his gun at the Royal Club again.

In a flash, Ji Feng's face suddenly changed as he suddenly noticed that on the other corner of the rooftop, there was another person holding a gun, also pointing it at the Royal Club!

Swish!

Ji Feng directly aimed his gun at that person first, because, that person was holding a sniper rifle, which was much more dangerous than all those people in the clubhouse!

Just at the moment Ji Feng shifted his gun, that man also found him and instantly his face changed, but it was too late to react.

Ji Feng pointed at his gun and then pointed at the man, who instantly understood and directly put his gun on the ground, with both hands slightly raised.

Ji Feng waved his hand again, gesturing for him to come over. At the same time, his brain was running at a rapid pace.

Who was this man?

He was here holding a sniper rifle, what exactly was he doing for? Was he in cahoots with those people in the clubhouse?

Or maybe .....

The first thing you need to do is to get a good idea of what you're doing.

The more he thought about it, the more complicated Ji Feng felt.

Right now the only thing he finds simple is this guy in front of him, no comment, this guy is a threat to stay around, knock him out first!

.....

Third shift.

Chapter 1263

The fire at the Royal Club continued, and the smoke was getting thicker and thicker, and it was now obvious that the smoke was increasing on the upper floors, and it was clear that the fire had spread to the floors above.

Ji Feng was watching from the rooftop across the road and couldn't help but secretly shake his head, he could really be considered a typical representative of both killing and setting fires, so to speak.

Only, he did not feel the slightest bit guilty.

If the people in the club wanted to kill him, he could only fight back, and since he had already done it, he would never show any mercy. The previous incidents had taught Ji Feng enough lessons, and he would not be foolish enough to take his own life to receive another lesson!

Moreover, although this place is quite prosperous, it is not known because when the Royal Club was built, in order to highlight its high-class and extraordinary status, so when it was constructed, it obviously appeared to be a bit more independent, with a short distance from the buildings on both sides, and, with the residential buildings on the opposite side, it was also separated by a two-way six-lane road, so as long as there was no strong wind, the buildings next to it basically would not. As long as there are no strong winds, the buildings next to the building will not suffer any damage.

The most that can be done is to damage some cables such as power lines, but that is already insignificant.

It was because of this that Ji Feng was able to stand on the rooftop and keep a close eye on the Royal Club below.

Now it was not a matter of caring whether it was daytime or not, the other party could be so blatant in their attacks on him, so why should he show mercy?

After experiencing so many things, especially after the conflict with Chang Chongwei, Ji Feng became even more determined in his thoughts.

Other people had bullied him, but he was still blocking left and dodging right, just backing off.

There is absolutely no such reason!

At Ji Feng's feet, a young man was lying, this was the sniper from before, but he ended up being down because of Ji Feng's sudden appearance and ended up being directly knocked out by Ji Feng.

Ji Feng did not harm his life, as it was impossible to determine whether this man and the people from the Royal Club were in cahoots or not.

Although Ji Feng's character had become somewhat cold, he was not a butcher who killed indiscriminately, and if the other party had not been bent on forcing him, Ji Feng would never have wanted to hurt anyone!

Only, many things are not transferred by one's will .....

Boom~~~!

A muffled sound suddenly came, the smoke in the Royal Club was thicker, and it was not known what had exploded inside.

Ji Feng's eyebrows were slightly wrinkled, he found that it had been a full ten minutes since he came out, but he hadn't seen any of them escape, which made him feel a bit unreasonable.

Had they all smoked to death inside?

Ji Feng shook his head, this is obviously impossible, because this club Ji Feng had been here before, he knew, the club out of the lobby and the first floor rarely have windows, the third floor up to the fifth floor, there are many windows, and the corridor also has fire extinguishers and so on, moreover there are some first aid equipment, the people inside are not so easy to die.

So, these people were hiding inside, trying to stall for time and take advantage of the confusion to escape?

This is probably the case!

Thinking of this, Ji Feng's eyes became even more stern, staring down without the slightest relaxation, he was worried that the people in the club would mix with the crowd and escape, just like he had escaped and left just now, when he was so fast, I'm afraid no one saw his appearance, right?

"Ee?!"

Just then, Ji Feng's gaze quickly swept around, he subconsciously wanted to see if there was anyone around here who had escaped ..... but with just a glance, he suddenly found that on the periphery of the crowd of onlookers, there were a few people who were very striking.

This is a few young people, standing at different intersections. In fact, to say that they were striking is a bit of a generalization, to be precise, they caught Ji Feng's attention.

These few people looked very normal, just like the other onlookers, and were dressed in ordinary clothes, but even from such a distance, Ji Feng could tell at a glance that these people were extraordinary, they were definitely not ordinary people!

Could they be people related to the Royal Club?

Ji Feng immediately thought of this, but now he was not sure, moreover, after just a few glances, those few people immediately turned around and left, and soon turned a corner and disappeared .....

The matter is getting more and more complicated, Ji Feng's brow is tightly folded, but he did not move, the Royal Club must still have people, this is certain, Ji Feng can be sure, at that time when he came out, there are at least three other places inside is someone.

The gunmen ambushed behind the gate of the first passage, the people in charge of surveillance above, and the gunmen on the floors above .....

But until now, the people in these three places were still missing, and Ji Feng did not dare to have the slightest relaxation. In fact, at this time, Ji Feng's heart is more or less helpless, or a single force, if today he has seven or eight people around him, he can definitely blockade all around, at that time, no matter what method the people in the club want to use to escape, it is absolutely impossible.

But now it was different. If the other party escaped through the back window, Ji Feng could only judge whether someone had come out by the reaction of the crowd gathered around him, and this judgment might not be accurate.

However, up until now, those onlookers were still talking, and it seemed that no one inside had come out yet.

Time went by, and after another ten minutes, the fire engines arrived.

A large number of fire fighters started to put out the fire, that high pressure water gun went straight through the window and into the Royal Club, followed by the gun cutting the door .....

It took about half an hour or so for the fire at the Royal Club to be finally extinguished, but until the end, Ji Feng did not see anyone come out of the Royal Club, and he also paid attention to the fire fighters who were putting out the fire, and there was no difference between them, so the possibility that someone had knocked them out and changed into their clothes to come out could be ruled out, which basically did not exist!

“It seems that those people escaped from the back window, or from another passage .....” Ji Feng couldn’t help but shake his head, today’s intention of trying to finish the job in one go was kind of a lost cause.

He could not help but shake his head and smile, he is not a god after all, the other side is limited by the environment, and how can he not be?

He had to be assisted in his battle, even if he was a great fighter!

After taking a look at the man lying at his feet, Ji Feng shook his head and threw the sniper rifle and the original rifle on the rooftop, only to feel away a pistol from the man’s body before quickly going downstairs.

Since it had been determined that the people in the club had escaped, there was little point in Ji Feng staying behind, it was better to tell his father, or his younger uncle, about this matter as soon as possible.

Ji Feng hurriedly went downstairs, he came to the road and watched as people were crowding around, Ji Feng left quietly.

Woo woo woo woo woo woo~~~!

At this time, the police also arrived and were dispersing the crowd of onlookers, so Ji Feng pretended to look like he was watching and left along with the crowd.

However, before he could walk much further, he suddenly stopped in his tracks. It was because his afterimage saw a shadow flashing into a nearby alleyway.

Ji Feng immediately walked over, it was a not too old alley, mainly because the buildings on both sides were built too close together, making the middle passage just narrow enough to pass two cars side by side at most.

At this moment, there were indeed three cars parked in the alleyway, and several young men were hiding behind them, holding guns and pointing at the corner of the alleyway.

Obviously, there was something dangerous or someone in front .....

Ji Feng deliberately increased the sound of his footsteps, and at once those few people were alerted, and one of them fiercely pointed his gun at Ji Feng.

Hoo~~!

But Ji Feng directly dodged to him, a hand clasped his wrist, the gun pointed at the guy's head, the others suddenly changed their faces and all pointed at Ji Feng.

But when they saw clearly that the person coming was actually Ji Feng, their expressions were relieved again.

"Little Chief?!" One of them asked hesitantly.

Ji Feng, however, could not help but be stunned and asked in a deep voice, "Who are you people?"

"The chief sent us here to meet you, the chief said that you will take revenge here, and ordered us to wait for you to come out and be responsible for meeting you, and at the same time, not to let the people in the Royal Club escape!" One of the young men said.

"The chief you guys are talking about ..... is Ji Zhenping?" Ji Feng asked with a frown.

"Yes!" The young man immediately nodded his head and said.

Ji Feng immediately asked, "What the hell are you guys up to? What the hell is going on here?"

These guys were really something, knowing that there might be danger inside, but they were still here to pick up the pieces? What the hell, waiting to collect their own corpses?

"Sorry, we were just following orders!" The young man said.

Ji Feng's eyebrows furrowed up, but quickly stretched out again as he shook his head and said, "Forget it, we'll talk about this later, what are you guys doing here?"

"In the alleyway in front, there are people who escaped from the clubhouse, they are surrounded, but the other side is armed, we can't attack them for a while ....." the young man said.

"How many people are there?" Ji Feng asked.

"There are at least three, or more!" The young man said, "It's just around the bend in front, it's a dead end, there are tall buildings on both sides, they can't climb up!"

Ji Feng smiled faintly, "That's easy then!"

He casually snatched the gun from the other young man's hand and then walked forward with big steps.

"Be careful ....."

Ji Feng smiled, then his face straightened and his two feet lashed out wildly.

Pop!

Ji Feng kicked on the wall next to him, and his body, with the help of recoil, jumped onto the roof of the car and once again jumped towards the wall on the other side.

Snap!

He kicked the wall once again and his whole body was like a big bird flying up in the air. At this time, he reached the end of the alleyway exactly where the corner was.

Ji Feng shot directly from above .....

Boom! Boom! Boom! Boom!

He fired four shots in a row before his body twisted and landed firmly on the ground!

Swish!

Ji Feng stood up straight, pointed to the corner and said with a smile, "I've already put the man down, come over and arrest him!"

..... It's that simple!

.....

Chapter1264

At the end of this small alleyway there was a small bend in the road, caused by the fact that the two buildings were built at different distances.

Just around the bend in this alleyway, there were three men lying crooked on the ground, bleeding, motionless and unresponsive, looking like they had simply passed out. In front of them, there were three pistols scattered around and a few bags next to them .....

When they saw this scene in front of them, the young men were dumbfounded and looked at each other, unable to help but look at each other.

This scene is really a bit too unimaginable!

Especially the series of movements that Ji Feng made just now, he was able to use the power of the wall, as if he was flying, and his speed was so fast, that was really unpreventable!

Several young people asked themselves that they would never be able to reach such a point, not only them, in fact in all these years in the military, they probably had never heard of such a skill, it was just too shocking.

This time, these few young people only vaguely understand why the chief asked them to come, just let them be responsible for receiving, not to go to the rescue when this little chief is in danger, obviously, he simply does not need, himself these people go, that instead is still a burden!

At this time, thinking about the time when Ji Feng broke in single-handedly and came out intact, it didn't seem so shocking anymore.

It was clear to them at this point that this young man, codenamed Little Chief, had full battle prowess and was very terrifying!

This made them admire it!

“Take it away!”

Ji Feng waved his hand and said, “By the way, on the rooftop of a residential building opposite the Royal Club, there is another armed man of unknown origin, he was knocked out by me and should not have woken up yet, you guys send someone over and bring that guy over as well!”

“Ah?!”

Several people immediately exclaimed in shock, looking at Ji Feng incomparably stunned.

“Little, little chief, what you just said, is that residential building directly opposite the Royal Club?” A young man couldn’t help but ask, “The one you knocked out was a man of about twenty-five or sixty, and he was holding a sniper rifle?”

“That’s right!”

Ji Feng nodded, and then he worked out a little taste, “What, you guys know each other?”

The young man instantly smiled bitterly, “That’s also one of our companions.”

Ji Feng then drifted off, he waved his hand and said, “So what, I didn’t know at the time, this is a mistake, hurry up and send someone to get him back.”

“Yes!”

The young man immediately sent two people over, and only then did he say to Ji Feng, “Little chief, where are we going next?”

“My little ..... how did your chief arrange for you?” Ji Feng asked.

“Return directly to the military camp!” The man said.

Ji Feng pondered slightly for a moment, then nodded and said, “Then do that! You guys search around and see if there are still any fish that have slipped through the net.”

“Don’t worry, our brothers have all guarded all the surrounding intersections before, it’s definitely impossible for anyone to escape!” The young man said, “And before that, we have also investigated clearly the underground exit of the Royal Club, which is connected to the sewers .....”

He gave a general overview of the situation.

“Then good, bring the people, let’s go!” Ji Feng immediately nodded and said.

These soldiers were indeed very efficient, in just under ten minutes, everyone was all assembled, including the guy who was knocked out by Ji Feng, they were a total of nine people.

After stuffing the three guys in the trunk, Ji Feng and his group drove directly to the Yanjing Military District.

On the way, Ji Feng also learned the name of the man in charge, which was also a very common name, Liu Xin, twenty-six years old, was the leader of this squad, while the guy who was knocked out by Ji Feng was named Lu Gang.

Through the conversation Ji Feng could tell that these two people were both the kind of people with straightforward personalities, not so much bent, and according to what they said, the other team members were almost all of the same character, or at least, none of them had bad intentions, which made Ji Feng secretly nod his head.

According to Ji Feng's guess, these people should be the squad that Little Uncle had prepared for himself, and the members inside this squad, how their personalities and heart tempers were, this was directly related to how this squad's fighting ability would be in the future, so Ji Feng was naturally very concerned.

"How is the situation at the Royal Club being handled?" Ji Feng asked.

The Royal Clubhouse was on fire and so many people had seen it, it was not easy to cover up this matter. Besides, what was more important was that there were quite a few corpses inside, and that was the most important thing.

"We've notified the police, they'll wait until the evening to deal with it, right now it's just cordoning off the scene and cleaning up inside ....." Liu Xin said.

"What's going on with this Royal Club? Wasn't it a clubhouse before, how come it seems to have turned into a den of thieves now?!" Ji Feng frowned and asked, "Also, who the hell are these guys?"

Liu Xin shook his head and said, "Little Chief, we don't know about that, we're just following orders!"

Ji Feng then nodded and smiled, it seemed that there were many things that Little Uncle had not told them, and of course, he had likewise not told himself.

It seemed that if they wanted to know these things, then they would definitely have to go to Little Uncle in order to ask for an order.

Along the way, several cars raced away and soon arrived at the Yanjing Military District.

Those three guys were taken directly to the interrogation room ..... Don't ever think that there are no interrogation rooms in the military barracks, in fact, the interrogation tools here can be much more powerful than those in the police station, and also, more terrifying!

Ji Feng and Liu Xin, on the other hand, went to younger uncle Ji Zhenping's office, there are many things that Ji Feng has to ask about, especially today's matter, younger uncle actually did not say hello at all, and even, did not even mention a warning to himself, this is a bit too much.

"Back?!"

Seeing Ji Feng and Liu Xin come in together, Ji Zhenping couldn't help but say with a smile, "I knew it, there must be no problem with you kid coming out!"

"Pa!"

Liu Xin saluted and said loudly, "Chief, I'm back to hand in my mission, please give instructions!"

"Sit down!"

Ji Zhenping waved his hand and said with a smile on his face, "Liu Xin, you've worked hard this time, well done!"

"Chief overpraised me!" Liu Xin stood up again and said.

"Sit down, sit down!" Ji Zhenping smilingly waved his hand, "Let me introduce you, this one is Liu Xin, the leader of the alternate squad ..... this one, is my nephew, Ji Feng, you should have already dealt with each other!"

Liu Xin's face immediately revealed a surprised look, no wonder the chief told himself and the others to call Ji Feng as Little Chief, originally he thought it was just a code name, after all, when carrying out missions, code names are often used and can change at any time, only those who are absolutely tough like to use the same code name ..... It turned out that Ji Feng was really Little Chief, he is the nephew of the chief!

"Captain Liu, I can still look up to you in the future!" Ji Feng smiled and shook hands with Liu Xin.

"Where where, should, should!" Liu Xin said.

It could be seen that this was a person who was not too good at words, and such a person, on the other hand, could win Ji Feng's goodwill the most.

"Liu Xin, take a seat outside first, I'll have a few words with Ji Feng!" Ji Zhenping said.

"Yes!" Liu Xin immediately stood up, turned around and went out.

Only Ji Zhenping and Ji Feng were left in the office.

"Little Uncle, I've been so screwed up by you that I almost couldn't come back today!" Ji Feng sat on the sofa on his butt and tugged at his shirt, "See, I even lost my jacket, how messy is this? But, I still don't even know just what the hell is going on ....."

"Huh ....."

Ji Zhenping instantly laughed: "Brat, you're selling yourself short after getting a bargain! I can tell you, the reason why I didn't tell you today is because on the one hand, I want to see how strong those people really are in battle, on the other hand, I also want to give you a surprise!"

"Surprise?!"

When Ji Feng heard that, his eyes almost stood up: "Little Uncle, you have to find a better excuse to fool people, okay? Also surprise ..... I was stunned, where is the joy?!"

"And ah, what you just said, to try those people's battle power ..... little uncle, you are not confused, right? Those people are holding guns, themselves are elite, you let them try my ability is almost, now instead say let me try them ....." Ji Feng really cried and laughed, little uncle also really look up to himself!

Ji Zhenping laughed: "Little Feng, the reason you think this way is because you haven't recognized your own ability, or rather, you don't know yet, how strong you really are! Let me ask you, since you know kung fu until now, have you ever been injured?"

"..... seems to have been injured, right?" Ji Feng was stunned by the question, and immediately, he said with some hesitation.

"Seems?!"

Ji Zhenping shook his head and said, "Western Xia, the southeast deserted island, and the sniper battle in the wilderness of Jiangzhou ..... Think carefully, but all the battles you participated in, when did you not return with a full body? Have you ever been wounded? You don't even know how strong you are, but I know it in my heart! In a situation like today, it's hard to beat you!"

"Fine, fine, count on you being right, fine!" Ji Feng shook his head, he knew that there must be more reasons than what Little Uncle had said, but it was pretty much the same, and there was no need to think about the rest, "Then what is this surprise you speak of, what is it again?!"

Ji Zhenping smiled faintly, "Remember the incident where you were attacked and killed in Jiangzhou?"

"Remember, there was the factor of Chang Chongwei, there was also a gang from Southern Guangdong, and there was also the foreign mercenary army called something like Cobra, right ....." Ji Feng nodded, "What's wrong? This has something to do with surprise?"

"Of course it has something to do with it!" Ji Zhenping laughed, "Those people who quietly gathered in the Royal Club today are the remaining people from the Cobra mercenary corps that infiltrated into China last time, in short, they are the group of people who survived after they attacked and killed you last time!"

Swish!

Ji Feng stood up at once: "This is true?!"

"How else can you say it's a surprise!"

.....

Chapter 1265

"How else can you say it's a surprise!"

Ji Zhenping laughed, "I knew it, you kid have been holding fire in your heart since the last incident without venting it, and you're all set on finding someone to settle the score ..... You kid don't even think about it, whether it's your father, or me, who would stand by and watch you being attacked and killed without doing anything about it?"

"Then these people today ....."

"These guys, they've been coming to Yanjing for a while, only at first they lived in more scattered places, so to avoid alerting the snakes, we didn't move, we just secretly monitored, but never thought that they would all actually converge on the Royal Club!" Ji Zhenping shook his head and smiled, "The outside

world all thought that the Royal Club had changed its owner and was operating miserably, so it didn't attract attention anymore, it's a joke!"

Ji Feng then understood that after these Cobra Mercenary Corps people converged on the Royal Clubhouse, it was just the right time to wipe them out, that's why Little Uncle sent himself over .....

"How about it, when they attacked and killed you, now that you've taken out almost all of them with your own hands, let off some steam, right?!" Ji Zhenping asked with a smile.

"Little uncle, thanks!" Ji Feng hemmed and hawed, frankly speaking, to be able to personally finish off this group of guys who had once caused Ji Feng great pressure and suffocation, it really felt like a long sigh of relief, very nice!

No wonder Little Uncle said this was a surprise, yes, it was indeed a surprise!

"Brat, still so polite with little uncle?" Ji Zhenping chuckled and added, "You've met Liu Xin too, how do you feel about them?"

"Not bad!"

Ji Feng nodded and said, "Although they're not as tough as those fighters from the Red Arrow Brigade, they're already very good in their own right, moreover, they're not even too old, they're just right for it!"

"Brat!" Ji Zhenping couldn't help but scold with a laugh, "You still want fighters from the Red Arrow Brigade? Let me tell you, just this squad of Liu Xin, this is still because all of their ages have reached the line, but their ranks haven't gone up yet, so they can only be transferred back home. If that wasn't the case, I'd even want to give you the chance to go to the militia reserve and pick up a few people! Still want people from the Red Arrows?"

Ji Feng couldn't help but laugh out loud, going to the militia reserve to choose people? That's better than Ji Feng going directly to those social punks, no matter how you say it, people are at least often fighting, barely considered to have combat experience.

Those militia reserves .....

The actual fact is that you can find a lot of people who have been in the business for a long time.

The actual fact is that there are almost no more militia reserves in many places, and even if there are, they are only a formality .....

Of course, Ji Feng also knew that Little Uncle was just joking, but frankly speaking, if Little Uncle was willing to give up, then Ji Feng really wanted to pick a few people from the Red Arrow Brigade to take away. Only he also knew that this could only be a luxury hope, and having that squad from Liu Xin would be good enough.

"Right, Little Uncle, there's a problem I don't quite understand!" Ji Feng suddenly remembered something else and couldn't help but ask.

"What's the problem?" Ji Zhenping asked.

Ji Feng pondered for a moment before asking, "Since it is said that those people I took out were the remnants of the Cobra Mercenary Corps, then how did they go to the Royal Club? Does the current owner of the Royal Club have any connection with Dynasty? Is there any connection in between?"

In fact, this doubt had been in Ji Feng's mind since the moment Ji Zhenping first said that those people were the remnants of the Cobra Mercenary Regiment.

This was because Ji Feng knew very well that that Royal Club was formerly a stronghold of the Dynasty, which was true.

Now this Cobra mercenary group's people actually converged here again, so wouldn't that mean that there was a connection between the two?

But that doesn't make sense!

Because everyone knew that the most powerful killer in the dynasty was the reformer, so reasonably speaking, if there was a connection between the Cobra Mercenaries and the dynasty, and the relationship was still so close, then no matter what, the dynasty should have equipped the Cobra Mercenaries with a few reformers, right?

But Ji Feng did not see a single reformer, otherwise, he would have known that this matter must have a great deal to do with the dynasty.

The first thing you should do is to get the information you need to know. Of course, even if there is really a relationship between these two, that relationship is certainly not too close."

"How so?" Ji Feng was slightly stunned.

"In fact, since the last incident, there hasn't been much connection between the Royal Club and Dynasty, at least, according to the information we have, the Royal Club has been transferred to a foreign owner .....", Ji Zhenping briefly introduced the matter a bit.

It turns out that, according to their investigation, the identity of that owner is not suspicious, or at least, it is certain that this person should have no connection with Dynasty.

In addition, there was another point that could again rule out some suspicion of the Royal Club.

That is, according to the investigation, the owner of this Royal Clubhouse seems to have more 'intimate' ties with the Rice side .....

The first thing you need to do is to get a good idea of what you're doing.

So, now we can basically rule out the relationship between the Royal Club and Dynasty. Then in other words, the members of the Cobra Mercenary Regiment gathered here naturally couldn't have much of a close relationship with Dynasty either, and when combined with some other bits and pieces of information, it would be easy to come to such a conclusion.

"So ..... this Cobra mercenary group, why did they attack me?" Ji Feng frowned and asked, "In my memory, it seems that I have never dealt with people in this area, and I have never even left the country, so how could I have offended them?"

“The mercenary corps, it’s not necessarily because you’ve offended them that they will deal with you, these people just work on commission, they live this kind of life of licking blood from the mouth of a knife!” Ji Zhenping said, “It looks like someone contacted the Cobra Mercenary Corps through their foreign connections, and that’s why they went after you .....

“Then, why are they assembled at the Royal Club again?” Ji Feng asked with a frown.

“It should have something to do with the person who sent them, or maybe they want to find another opportunity to strike?” Ji Zhenping said, “Of course, this is just a guess on my part.”

“Slap!”

Ji Feng slapped his hand on the table as he sneered, “No matter who sent them, once we interrogate them, everything will be clear. Little Uncle, why don’t I personally interrogate those guys, so many people died inside the Royal Club, but only the three of them escaped, I believe they must be important people, I’ll try to get some more information from their mouths .....

“You’re here to interrogate?!” Ji Zhenping was slightly stunned at once.

“That’s right, I’ll interrogate!” Ji Feng nodded, “Don’t worry, I’ve learned a lot about interrogation psychology, and then again, I’ve seen movies, right? Just that what, give a person a small straw, then throw the person into the water, can only breathe through the straw, let him produce despair and fear, then honestly explain .....

“No, you can’t interrogate!” Ji Zhenping was all set to agree, but, he saw Ji Feng when he talked about interrogating the guys, he actually had a cold glint in his eyes, Ji Zhenping immediately realized that Ji Feng’s interrogation methods, I’m afraid it won’t be peaceful and .....

This is not in line with the rules, anyway, who interrogates the final result is the same, then why should fall into the mouth truth?

Hearing that little uncle refused himself, Ji Feng could only shrug his shoulders: “Then fine, but tell me first when you have news, and, if you can’t interrogate down, then it’s best to replace me .....

“Can’t interrogate down?!” Ji Zhenping could not help but laugh, and did not argue.

In fact, he was secretly amused, this kid still thinks it’s watching a movie, right, think that the interrogation are at most is also to slap the table and glare, but also rely on evidence to speak ..... to the military interrogation room, even if you grew up to be a three good students, but also can make you peep at the sister-in-law next door bath thing as a child are said out .....

..... The military interrogation rooms in every country are basically the same.

Only, the more technologically advanced ones will inject neurotoxins and the like, and the technologically backward ones will rely entirely on violent means!

“Is there anything else? If not, I should go back too!” Ji Feng asked.

“Go and call Liu Xin over.” Ji Zhenping said.

Ji Feng nodded, he knew that little uncle was going to arrange some things for Liu Xin, or some notes or something like that, from today onwards, Liu Xin and this squad, were going to follow him .....

The first thing I did was to call Liu Xin, who was waiting in the outer room, and then Ji Feng stayed outside, sitting on a chair and thinking quietly.

What happened today was really too sudden, but yet it was just like is little uncle had said, it was a surprise!

Especially knowing that those guys were actually the remnants of the Cobra mercenary group, and the same group that participated in the attack on himself, Ji Feng could really let out a long breath.

Doggone things, let you run wild again!

Ji Feng couldn't help but secretly coldly snort, last time he let you guys get away, this time, it was a fire that burned all of you!

Thinking about the last time when he was pressured and almost killed, and then watching the other side leave in a big way, and now thinking about what happened to them, Ji Feng was so much more relieved!

This surprise from Little Uncle was indeed not small!

But soon, Ji Feng's thoughts went back to those mercenaries, who had sent them here? Who had he offended that would make the other side go to such great lengths to put up such a big front that they must want his life?

.....

Chapter1266

"Liu Xin, originally, with your age and ability, if you were in the regular field unit, you would have had a chance to get into the military academy if you studied hard, but because you had to attend the selection for the Red Arrow Brigade, you missed the best time, and from that point of view, it's more or less a pity ....."

Looking at Liu Xin who stood straight in front of him, Ji Zhenping was more or less emotional, whether in the military or in society, there will always be many people who miss the opportunity in vain because they want to pursue something unsuccessfully.

This was undoubtedly the case with Liu Xin and others, who were thinking of entering the Red Arrow Brigade and taking part in the selection process. Those who are qualified to participate in the selection are the more outstanding soldiers in the various units, or at least, they have excellent qualities so that they can participate in the selection, and whether they can enter the Red Arrow Brigade is another matter.

But even so, there were many people who almost squeezed their heads to join the Red Arrow Brigade.

However, in the end, only a very small number of people were able to join the Red Arrows Brigade. And some other warriors who are overqualified may become candidates, a special group of existence.

Practically every special force has a reserve force alongside it, so that it can be replenished at any time.

Often, however, many people, until they retire from the army, do not have the opportunity to be replenished into the special forces.

Liu Xin and others are in this category, it's not that they don't have excellent military qualities, it's just that ..... how to say it, there are various reasons for it.

Finally, it has been delayed until now, to the time of their retirement.

This is really a waste, put this kind of extremely good talent not to use, can only watch them this sadly leave the army, indeed anyone's heart is also not good.

But this is the army, in order to ensure the combat effectiveness of the special forces and a constant supply of soldiers, there must be some people sacrifice something .....

"It is true that these years in the army have delayed you, but it can't be helped." Ji Zhenping sighed lightly, "Now that you're finally retiring, don't go for a transfer assignment, and you don't have to go out into society to make a living on your own, I've already told you guys before, just follow Ji Feng, I believe he won't treat you guys badly!"

As the former captain of the Red Arrow Brigade, and now the leader in charge, Ji Zhenping did not want to see the soldiers under his hands after leaving the army, not mixing as well as they should, living a miserable life, or being sullen. However, even Ji Zhenping is sometimes unable to cope with some of the policies and complexities in society.

Now that there is such an opportunity, Ji Zhenping naturally wants these children to mix well!

"Of course, if you want to return home, or if you want to do something on your own after you leave the army, that is also your freedom." Ji Zhenping said, "Since you've left the army, you'll be completely free after that ....."

"Chief, we are willing to listen to your arrangements and resolutely carry out orders!" Liu Xin immediately said, "No matter what time it is, we will still be your soldiers!"

"Good! Bravo!"

Ji Zhenping is also quite emotional, as the so-called iron camp, running water soldiers, seeing these soldiers are about to leave, there will always be a lot of feelings, "follow Ji Feng, he will certainly not treat you poorly, of course, in the middle of this if you do not feel suitable, you can also leave ....."

"Many thanks to the chief for cultivating!" Liu Xin saluted.

"Go on!"

Ji Zhenping waved his hand and sighed lightly in secret, frankly speaking, he thought he could afford this salute, when he led the Red Arrow Brigade in the previous years, he put almost all of his heart and soul into the Red Arrow Brigade and the reserve members, they all underwent the same training, they were just treated differently during normal combat.

It can be said that he cultivated these children with great care, and Ji Zhenping thought to himself that he had a clear conscience!

After Liu Xin left, Ji Zhenping called Ji Feng over again.

“Little Uncle, what else is going on?” Ji Feng looked at Ji Zhenping’s state, which seemed a bit not too good, his mood wasn’t too high, he couldn’t help but ask.

“Little Feng, I can explain to you in advance, Liu Xin and the others have already given a lot in the army, when they go to the local area, you have to give them the best treatment, when my soldiers go to the local area, they can’t be bullied by others and by their own people!” Ji Zhenping said, “Do you remember that?!”

Ji Feng immediately nodded and smiled, “Little Uncle, just rest assured, I will remember, and I also guarantee that we will never take the initiative to provoke others, let alone bully them, but whoever dares to bully my people, I will get him killed!”

“Brat .....” Ji Zhenping was instantly amused, “Alright, I’ve already explained to Liu Xin and the others, go ahead!”

“Wait a minute, little uncle, then what .....” I still have one more thing I want to discuss with you!” Ji Feng heatedly smiled and said, “You see, I also learned that they are all alternate members of the Red Arrow Brigade right, there should be quite a few people like them, right? I mean, there should be a lot of people who retire every year as well, do you think you can allocate them all to me?”

“What are you thinking, brat?!”

As soon as Ji Zhenping heard Ji Feng finish speaking, his eyes immediately shot up, “There are indeed soldiers who retire every year, but after they leave the army, they are free men, how can I make arrangements for you? Besides, do you think everyone is still going to go through that kind of fighting and killing life after leaving the army? Only those whose families are not well off or those who are active by nature will go. Just a few of them, Liu Xin, are also the ones I picked out by a thousand choices!”

“..... That’s true!” The first is to let the army discipline the children, and the second is to give the family one less mouth to feed.

But now it’s different, the better off the family is, the more they become soldiers, as for those whose families are not well off ....., want to become soldiers, the money for gifts is not enough, how to become?

In between, it’s still a ‘money’ word at play, because the benefits of being a soldier now are really much better than before .....

“Treat them well, go ahead!” Ji Zhenping waved his hand.

Ji Feng nodded thoughtfully, and then he took Liu Xin and the others out of the office building.

Because although they had already retired, their luggage was all still in the barracks dormitory and there were still some formalities to be completed, so Ji Feng made an appointment with them that he would return to Jiangzhou first, and after that, Little Uncle would arrange for someone to send them air tickets so that they could go to Jiangzhou after completing the formalities.

Before leaving, Ji Feng made another trip to his home to accompany his mother to play cards and have some casual fun, after which Ji Feng went to the quadrangle on East Sixth Street to visit the old man.

The old man was still looking as good as ever, with Aunt Hong's careful care, plus the fact that there were bio-currents in the old man's body itself, so Ji Feng didn't have anything to worry about.

The old man didn't say anything about what was happening around Ji Feng, he just patted Ji Feng's shoulder.

This fully demonstrated how fond this old man, was of the grandson in front of him.

At the same time, the old man was fully convinced that Ji Feng would be able to solve these troubles and would not need him to bother about them!

There are people who say that the three sons of the Ji family are like wolves and tigers.

In the old man's opinion, having a little monkey like Ji Feng is enough to make a lot of people sleepless.

How could his grandson be a tiger?

That is a dragon and a phoenix among men!

.....

After staying at the old man's place for a few hours, Ji Feng left. After all, the old man was too old to talk for too long, and he should pay attention to rest.

What's more, if he stayed for a long time, even if the old man wasn't tired, Aunt Hong would definitely not approve of it if she was watching from the side.

With such a dedicated person like Auntie Hong by his side, Ji Feng and the other juniors were very relieved. They knew that Auntie Hong didn't just treat the old man as a head, but as a father!

The old man likewise treated Aunt Hong as his daughter, especially since his younger daughter had been abroad, and the old man had only such a caring person by his side, Aunt Hong.

On the plane back to Jiangzhou, Ji Feng also remembered this matter. Although the old man had been a hero all his life, no matter what, he was also old now. As the saying goes, beauty is late and heroes are at the end of the road, this is the most lamentable thing.

Around the old master, he indeed needs a few people who know how to be cold and warm, not only to take care of him, but also to relieve his heart .....

"I also don't know why that little aunt, whom I've never met, never came back!" When Ji Feng thought of this, he couldn't help but think of that little aunt who is said to be far away in Rice, seems to be called ..... Ji Nan Yue?

At the beginning, the equipment of the pharmaceutical factory was still brought in from abroad through the little aunt. However, Ji Feng did not contact with this little aunt, moreover did not meet, this middle is still through the second brother Ji Shaolei around busy work, at that time Ji Feng also did not care too much, thought little aunt also just outside business is more busy.

But now think about it, is there something wrong in between?

Otherwise, even if one is usually busy with business, one should always come home for a visit at New Year's time, right?

What's more, there's still the old man at home, and he's so old, he doesn't come to visit?

"Could there be some problem in between that one is not aware of?" Ji Feng secretly said, "I have to ask when I have the chance, if it is convenient, in the future, little aunt in Rice, but can play a great role, at least, if the Tengfei Group wants to enter the heavy industry, then absolutely must introduce machine tools and other equipment from abroad, at this time, can rely on the little aunt in foreign countries!"

With this doubt, Ji Feng returned to Jiangzhou, and at this time, the 3D TVs produced by Tengfei Electric, however, had already become a hit in the north and south of the country, exploding .....

.....

## Chapter 1267

Although Ji Feng, Han Zhong and Li Xin were all psychologically prepared for the sensation that the 3D TV sets would cause after they were introduced to the market, they could not help but be stunned when they saw the explosion of the scene.

Of course, the hot scene that Ji Feng and the others saw was not the kind of customer frenzy in electrical shopping malls or some big supermarkets, but in the headquarters of the Tengfei Group, the floor of the office building belonging to Tengfei Electric, which had already been filled with big bosses from all over the world, or some bosses' spokespersons, or people from the marketing business department .....

The corridors of this floor were almost too full to stand, and even the girls in charge of hospitality were all red with excitement and secretly complaining.

There were so many people that they couldn't even carry tea and water, let alone serve them.

In the marketing department's office and hospitality room, there were even more people sitting there. Those who were qualified to come in were not by virtue of their wealth, but by virtue of the fact that they had come early, so they were entertained into the office, and those who were standing outside were all those who arrived later.

They had no choice but to stand here, as the reception room had long been full. At this time, it was impossible for the people from the Tengfei Group to kick people out and invite some big bosses outside in, right?

Although even if they did that, no one would dare to say anything, however, they were definitely uncomfortable in their hearts.

Those big bosses' business is business, but we, the smaller ones, are not business?

As long as they come to talk about cooperation, they will all be treated equally.

The big bosses outside are equally unhappy. If this is just a newly established company, then they naturally don't care about it, and even if they are talking about cooperation, they can just send a team at most.

Newly established companies are all about making money, otherwise who would be working?

But this is not just a newly established company, there is also the Tengfei Group behind Tengfei Electric, and this is what makes people pay attention to it!

We don't know the background of the Tengfei Group, but one thing is certain: when the Tengfei Pharmaceutical Factory under the Tengfei Group was opened, the secretary of the Jiangzhou Municipal Party Committee was personally present, and more than that, the Tengfei Group has a very stable partnership with the Tianyao Group, and is said to be related to the military.

In addition, Xiao's pharmaceutical company's Kang Yuan slimming powder, is now definitely a giant in the domestic weight loss products market, dominating the country, no one weight loss products can shake the Kang Yuan slimming powder status.

Even some foreign businessmen have come to talk to Xiao's Pharmaceutical Factory about the introduction of Kang Yuan slimming powder, especially in this year, Xiao's Pharmaceutical Factory launched a new Kang Yuan slimming powder, specifically for a variety of different groups of people, sales are even hotter than before, really let people not amazed can not.

And in this case, as the headquarters of the Tengfei Group, how could it be any worse?

They are all people who have been in the market for many years, and they naturally understand that it is not just a matter of having a great product that can make it this far, but obviously, connections are also extremely important.

So it goes without saying that everyone understands that the Tengfei Group has an extremely wide range of contacts, which is obvious.

So in this case, as long as one is not stupid, one would not choose to offend the Tengfei Group, let alone put up a show in front of the Tengfei Group, showing off how they are, that would only make a fool of themselves!

It was for this reason that the scene before us emerged, with many of the company's powerful bosses having to wait outside, while in the courtyard outside, people were constantly coming in, and one after another, quite a few more people were coming.

This kind of hot scene, really let Li Xin and Han Zhong are a bit dumbfounded feeling, they have long thought that the scene will be very hot, but, hot to this extent, that is really out of everyone's expectation!

In fact, there was a reason for this, the impact of the 3D TV set launched by Tengfei Electric was so strong that even Ji Feng, who started the whole thing, didn't realise that once the news of the 3D TV set was released, the sales volume of TV sets in major shopping malls actually showed a significant drop. How much do you expect from 3D TV sets?

The results of the survey showed that 90 per cent of those asked said they wanted to buy a 3D TV set, while only the remaining 10 per cent were not interested, or felt they needed to wait and see, or already had a TV at home.

Of the 90 per cent, nearly a third said they would sell their TVs and buy a new one.

Or, to just give the TVs they have at home to the elderly, or donate them, or give them to Project Love ..... There is only one thing, and that is that they must buy a 3D TV!

It's too rare to see a hot scene, 3D TV sets, really hit it big!

So much so that those electrical appliance dealers can still sit still?

It was no longer enough to just call and ask, sending someone over, directly over, which was the only way to hope to take the local distributorship of 3D TV sets.

No matter what the matter is, what is most feared is the formation of a tide, and this is also the case with the grabbing of agency rights.

Even if there are one or two people who think calmly, they will be drowned in the tide and disappear in the blink of an eye, unable to make any big waves.

For example, if there is a certain period of time when there are rumours going around in society about the efficacy of a certain product, or that the state is going to raise the price of a certain product, well, the next day a rush to buy it will form. Sometimes people know it's fake, but they go out and buy it anyway... that's the fad!

That's what's happening now!

There is no stopping the rush to buy 3D TV sets, it has become a trend.

.....

“.....”

When Ji Feng drove outside the door of the Tengfei Group and saw such a hot scene in the courtyard, he couldn't help but be dumbfounded, “These guys ..... they really know that this is the headquarters of the Tengfei Group and not some large shopping mall that is doing a special promotion?”

But after looking for a while, Ji Feng finally determined that these people were, indeed, all here to talk business.

“It's so crazy!” Ji Feng's face was thick with joy as he took out his phone and dialed Han Zhong's number.

“Ji Feng, what's the word?” As soon as the phone was connected, Han Zhong's slightly urgent voice came through.

“How come there are so many people at this headquarters? Where are they catching up?” Ji Feng asked.

Han Zhong laughed bitterly, “Don't mention it, I'm so busy, all these people are coming all at once, we can't even entertain them, the marketing department is busy over there, there are some big bosses who need me and Li Xin to receive them, now the whole Tengfei Electric is in a row .....”

“Haha!”

Listening to Han Zhong's complaining voice, Ji Feng couldn't help but laugh, “That means business is good!”

“That what, I’ve asked people to prepare the venue to go, ready to hold a short investment briefing later, to inform some of our investment conditions and requirements and so on, and then receive it separately ..... this can simply drive people crazy!” Han Zhong laughed bitterly, “By the way, what did you call for?”

“Originally, I came to find Yi Xingchen, but looking at this situation ..... forget it, you’d better let him maintain order first, besides, the more at this time, the more attention should be paid to security issues, especially the side of Tengfei Pharmaceutical Factory, make sure he pays attention!” Ji Feng said.

“Don’t worry, I’ve already made arrangements for all these issues!” Han Zhong said, “Is there anything else, I’ll hang up if there’s nothing else!”

“You go ahead and get busy!” Ji Feng shook his head and laughed.

Pop!

Han Zhong hung up the phone straight away without a single more word of nonsense, it was obvious that this guy was busy.

Ji Feng lost his smile and looked at the time, he could only turn around and go back for the time being, looking at the situation in front of him, without a day, he would definitely not be able to finish.

In fact, Ji Feng came to find Yi Xingchen, asking him to arrange for Liu Xin and the others who would be coming from Yanjing, and when they arrived, at least their accommodation and meal problems should be solved.

This problem was left to Yi Xingchen, and that was naturally more than appropriate. And their positions in the Tengfei Group would still need to be taken care of by Han Zhong.

And after that, there was their families, which was also a big problem, just that there was no rush now.

It’s just that Ji Feng didn’t expect that he would encounter such a hot scene as soon as he arrived at the Tengfei Group, so he was really happy and speechless at the same time.

However, there was one thing that was the biggest gain for Ji Feng.

After seeing this scene, Ji Feng suddenly had more confidence, he learned from the intellectual brain of those knowledge, as long as gradually into physical, then Tengfei Group will grow more and more, and eventually will definitely grow into a super giant.

What Brilliant Group, what private giant ..... Ji Feng is confident that he can surpass them!

Thinking about that large group that was taken over by the original Rongpeng Group and eventually renamed Brilliant after being taken over by the Wu family, Ji Feng couldn’t help but think of the last encounter with an attack and his expression went cold.

Those three sets of enemies encountered last time, one of them was a small gang from Southern Guangdong, was there really no relationship between this and the Brilliant Group .....?

Ji Feng had some doubts!

Looking back at the scene that was still going on in flames, Ji Feng said darkly, "This account, I will settle with you guys sooner or later! Right now, you guys should think about how to save Red Light!"

.....

## Chapter1268

Red Light was indeed facing a huge problem!

Meanwhile, far away in Chang'an, the provincial capital of Northern Shaanxi, Wu Zhiyong was sitting in his office, his face also extremely ugly. It was clear to everyone now that Red Light was in trouble, and might even go bankrupt at any time!

According to the feedback from Huahe County, we can know that for such a long time, Red Light Company has been striving to build an electronic component production base in Huahe County in northern China, striving to become a star in the central region, and the money invested in it has now reached at least 100 million.

This is only the first and second phases of the construction, if all the expected works are done, then the investment should definitely reach more than 500 million.

Of course, this is only a general statement, in fact, from the completion of the first phase of the project, this electronic components production base can be put into use, this time, investment, or direct production activities by the red light company, settled here, then you can use the first phase of the project to raise funds, and then continue the second phase of the project construction.

And then, of course, the same method can be used to carry out the following projects.

So strictly speaking, according to the agreement signed between Red Light and Huahe County, all they have invested so far is the money for the first phase of the project, as well as various other costs.

But even with this, the Red Light Company has already spent more than 100 million on the project.

However, not even halfway through the first phase of the project, Tengfei Electric came out of nowhere with the latest technological product that has exploded on the market in just a few days – 3D TV sets!

This product alone triggered an extremely powerful chain reaction that shook many industries!

First of all, the introduction of 3D TV sets will lead to a technology-based trend in the home appliance industry, which will have a huge impact on other traditional home appliance manufacturers!

Of course, for the time being, the biggest impact will be on TV manufacturers!

The people's perception of consumption will also change!

This will be followed by the periphery and downstream of the electrical appliance chain, such as electronic component manufacturers, as well as transport, plastics ..... and so on, all of which will have a huge impact.

It is clear that traditional TV producers will be hit like never before, and that their production will certainly be compressed, or even stopped. As a result, the manufacturers of electronic components for TV sets will also be hit hard.

As for the impact on other industries, Red Light has no time to care, but even so, the leaders of Red Light are so frazzled that they want to run over themselves.

They have already spent more than 100 million in Huahe County alone, and now the first phase of the project is only halfway through, and the rest still needs a lot of money.

In this way, Red Light's move in Huahe County to establish the largest production base for electronic components in the entire North China region is a joke, which seems both absurd and ridiculous.

People's 3D TV sets have already come out and exploded the national market, but here Red Light is still burying its head in its ass and working hard to establish the largest electronic components production base in North China, to put up a banner .....

What does this mean?

The people at Red Light are simply rats!

It's like, people have gone on to specialize in making aeroplanes and cannons, and your side is actually still burying its head in the sand, building blacksmith furnaces and blacksmith shops and such, and it's actually for making big swords!

Isn't that ridiculous?

Not to mention the impact of Tengfei Electric on the whole electrical appliances and those industries related to electrical appliances, and what impact it will have, just right now, anyone can see how stupid Red Light's decision is, so who would be willing to work with such a person?

So don't say that Tengfei Electric has brought a huge impact to the electrical industry, even if the impact is even a little smaller, this Huahe County Red Light electronic components production base, will be affected by a huge impact, and an impact that is difficult to undo!

All kinds of circumstances, just in a very short period of time, will be red light company to the desperate situation.

The large amount of money invested, which also included a large loan, was a huge hardship in itself. You know, there are few companies that are really big nowadays that do not owe money to the bank.

Borrowing money from the state to invest and make money for themselves is what the vast majority of businessmen are doing.

Of course, this is naturally the best way to go when no questions are asked, but the problem is that things do go wrong right now.

So, Red Light can jump on the bandwagon!

For the moment, for the red light company, there are only two options, first, this admitted, from where it came directly back to where, Huahe County, this mess here to stop, the loss of money to pay the money, the debt to pay the debt, no longer continue to entangle.

The consequence of this is that the red light company is greatly wounded, but if you dive into recuperation for a few years, you may still be able to slow down, and if you have the help of the headquarters of the brilliant group, you can also recover slightly faster .....

The second is to continue to grit your teeth and continue to build the electronic components production base, but at the same time, there must also be products that can withstand the attack of Tengfei Electric, otherwise, even if the base is built, no one will come.

..... Obviously, these two, which one is not a good choice!

“Pop!”

Wu Zhiyong fiercely slapped the pen in his hand on the table, the cold light in his eyes flickering eerily: “Ji Feng, you are very good! Your counterattack, coming so quickly, good!”

In reality, Wu Zhiyong was unwilling to admit that he had fallen into the bureau made by Ji Feng a long time ago.

Ever since the collision in Huahe County, no, strictly speaking, ever since an earlier collision, when Wu Zhiyong commanded the then Rongpeng Group to enter North China, he had already fallen into Ji Feng’s hands.

Whenever Wu Zhiyong jumped up and down, Ji Feng only needed to release the killer app in his hand – the illusory three-dimensional light curtain technology, and he would give Wu Zhiyong a hard slap!

Only, Ji Feng had waited until the red light electronic components production base was halfway through construction before he made his move, this blow was even more vicious and stronger!

Of course, Wu Zhiyong would not admit that he did not believe that Ji Feng had this kind of foresight, all of this, was a coincidence, it just so happened that that happened again, that’s why Ji Feng started to fight back ..... and that’s all it could be, if Ji Feng could have foreseen today’s situation a long time ago, then he would have been too good for Wu Zhiyong to believe!

Only, this alone was already enough to annoy Wu Zhiyong.

“Hmph!”

Looking at the continuous reports against the 3D TV set on his desk, Wu Zhiyong snorted coldly, quite distracted: “Ji Feng, we’ll see!”

.....

The third day back from Yanjing, Liu Xin and other nine people, also arrived in Jiangzhou, Ji Feng from the second brother Ji Shaolei, borrowed a long business car, of course, strictly speaking are considered a minibus, so that only to pick up all the people from the airport at once.

“Liu Xin, there’s something I need to ask your opinion on in advance.”

After picking up Liu Xin and the others, Ji Feng then directly asked the driver to drive to the Tengfei Group, this driver was also one of Liu Xin’s comrades, although he was not familiar with the reasoning of

Jiangzhou, but with a navigator, naturally there was not much of a problem. On the way, Ji Feng, on the other hand, was prepared to tell Liu Xin some things in advance.

“Little Chief, if you have any questions, please speak!” Liu Xin said immediately.

“Mm!”

Ji Feng nodded and said, “It’s like this, I know that you and your comrades are definitely well-trained masters, but then, there might be some deficiencies in practical combat ..... Of course, if there’s anything I said that’s wrong, you can tell me later ..... And your mission after you come here is a bit complicated, so I’m going to send someone to lead you for the time being, what do you think?”

The other people in the car had an odd look on their faces, and a few of them even showed obvious reluctance, making it clear that they were not willing to follow the command of an outsider and felt that Ji Feng’s proposal was not good.

Liu Xin, however, did not have much obvious indication, he just pondered for a moment before asking: “Little head, what you say is indeed reasonable, we are indeed somewhat lacking in practical combat, but not absolutely nothing, moreover, this command combat, likewise need to have practical combat experience, that ..... ”

Ji Feng laughed: “Let’s put it this way, this person I intend to send to lead you has extremely rich combat experience and, moreover, experience in leading soldiers, only, what he used to lead, was mercenaries.”

“Mercenaries?!” Liu Xin was slightly stunned.

“That’s right, originally he was the head of a mercenary corps before returning to the country.” Ji Feng nodded his head.

“Little Chief, to be honest, to say that we have combat experience, we also have, despite being alternates, we have experienced a lot of actual battles, and have also had brothers sacrifice ..... actual battles, the mercenaries and our regular army not to mention the difference in combat power, just this way of fighting, and the discipline aspect, all There is a big difference, this completely belongs to the cross-line command!” Before Liu Xin could speak, a soldier next to him spoke up, this soldier was no other than the sniper who had been knocked out by Ji Feng, Lu Gang.

This guy spoke in a somewhat unkind tone, and it was not clear whether it was directed at Ji Feng or because Ji Feng was going to send a mercenary to command them.

“Lu Gang!”

Liu Xin’s face instantly sank, “How can you talk!”

“I’m telling the truth!” Lu Gang said in a sullen voice, and looked at Ji Feng.

“Huh .....”

Ji Feng then chuckled, his fingers tapped his arm and laughed, “I do see that you’re still a little hung up on the fact that I knocked you out, right?”

.....

## Chapter 1269

“Huh .....

Ji Feng then chuckled, his fingers tapping his arm as he laughed, “I do see that you’re still a little hung up on the fact that I knocked you out, right?”

Lu Gang, however, nodded his head without hesitation and said, “That’s right!”

“Lu Gang!” Liu Xin instantly glared and shouted lowly, “What are you talking about!”

“Liu Xin, don’t stop him, let him talk!” Ji Feng waved his hand with a smile and said to Lu Gang, “Lu Gang, since we’re going to work together from now on, and there are no outsiders now, anything you want to say, you can say it straight!”

“Then I’ll say it .....

Lu Gang said, “I’m not holding a grudge against you for knocking me out, missed a mission, it’s my responsibility, I won’t shirk it, a failure is a failure! But little chief, I just hope that you can’t think that our squad is not capable of fighting just because I failed this one time, frankly, at that time I was on the rooftop just in case someone rushed in from the Royal Club, not to fight .....

Ji Feng nodded: “I’m listening, keep talking.”

“Little chief, you were able to knock me out, this is an indisputable fact, but in that situation at that time, you actually took the lead by surprise, if neither of us had a gun in our hands at that time, the one who ended up being knocked out may not be me, don’t you think so?” Lu Gang said.

Ji Feng couldn’t help but smile, “Sort of, after all, there are many possibilities in everything, and that’s normal.”

“Then that’s it!”

Lu Gang spread his hands and said, “Since the little chief also agrees with me, that means that the victory or defeat between the two of us at that time doesn’t actually represent how strong our squad is in battle!”

“..... can say that!” Ji Feng nodded and smiled. He had already realized what Lu Gang was going to say.

“Then in that case, I would like to ask, does the little chief know that there is actually a huge gap between the regular army and the mercenaries, the regular army’s method of combat, the mercenaries simply don’t know, and the mercenaries’ set of things, the regular army can’t see!” Lu Gang said, “Therefore, this matter of commanding combat, I still hope that the young chief can consider it carefully again.”

“Oh .....

Lu Gang’s meaning would be clear, to have a mercenary commanding them, which is unacceptable to them because they consider themselves much better than mercenaries!

There was also the fact that Lu Gang thought that Ji Feng knocking him out on the rooftop at that time could actually be described as a sneak attack seemingly. Ji Feng suddenly appeared on the rooftop and pointed a gun at Lu Gang, which made it impossible for him to use his empty kung fu, and he was finally knocked unconscious by Ji Feng so simply, it was not that he was not capable, it was that Ji Feng did not play by the rules.

Even the best kung fu is easily killed by bullets when it comes to the battlefield, that's what Lu Gang said.

In fact, when he thought about it carefully, Ji Feng could quite understand Lu Gang's thoughts.

No matter what, they were all retired from the regular army, and at one time, they were all alternates for the Red Arrow Special Brigade, or rather, they were reserves for the Red Arrow Brigade.

Usually, training and so on, they are almost no different from the Red Arrow Brigade's soldiers, except for the combat experience, and their own strength, perhaps there is still a certain gap.

If a soldier of the Red Arrow Brigade dies while carrying out a mission, the reserves will be sent to replace them, but of course, the replacement will be on the basis of merit. Perhaps it is their turn, perhaps not, will be drawn directly from the troops below those top recruits who have emerged to supplement .....

The actual fact is that you can find a lot of people who have been in the business for a long time.

Now, Ji Feng actually asked a mercenary to command them, which made them more or less uncomfortable.

"Lu Gang, what are you talking about!" Liu Xin saw that Ji Feng only smiled but was silent, he couldn't help but frown slightly and glared at Lu Gang, "Keep your mouth shut, no talking nonsense!"

Lu Gang, however, said with a stiff neck, "Captain, I'm just telling the truth."

"That's right!"

Ji Feng nodded with a smile beside him and said, "Liu Xin, this is not good for you, brothers can say anything directly, Lu Gang is doing a good job, if everyone hides something, then it won't be good to cooperate in the future, don't you think so?"

Liu Xin could only smile awkwardly, the key was that this Lu Gang's speech was really too straight and his tone was very hard, even while resisting the mercenaries, he also directly wound Ji Feng in, which was more or less inappropriate.

The company's main business is to provide a wide range of products and services to the market.

The company's main business is to provide a wide range of products and services to the public.

But Ji Feng has said so, Liu Xin can only use his eyes to suggest Lu Gang, hope that this guy does not have a hot head, all the words pour out, even if the most generous person, in front of so many people was refuted, the heart is always a little upset.

Ji Feng also ignored what Liu Xin was really thinking, he just looked at Lu Gang who looked unconvinced and laughed: “Lu Gang, what you said is correct, the mercenary corps is indeed no match for the regular field army in terms of field combat, but there is one thing I have to remind you, you must not forget that even you were in the army, you were never a field army, although you were a regular army, but you were Red Arrow Brigade alternate, of course, I am not saying that you are not capable, but I want to say that you are equally not capable when it comes to the regular army field army!”

Lu Gang couldn't help but pale slightly, and just as he wanted to speak, he was instantly interrupted by Ji Feng: “Don't rush to refute first, listen to me finish.”

In a flash, Lu Gang couldn't help but look resentful, but didn't grab to speak again.

Ji Feng's gaze swept over the faces of Lu Gang and Liu Xin and the others, and he knew that these people were all alternates of the Red Arrow Brigade, and even when facing the regular army in general, they were very proud of themselves, and could even be said to have a peculiar sense of superiority in their hearts, which was quite normal.

After all, even the alternates of the Red Arrow Brigade were selected from various units and were the top group of people. Although they were not as good as the soldiers of the real Red Arrow Brigade, they were still very good compared to those of the field army.

But here in Ji Feng, this superiority complex was not to be allowed.

“The combat methods of the field army, you have likewise not experienced, don't look like you were selected from the troops below, but you have likewise not experienced real life and death battles, to say combat power, this is something that cannot be seen in training, at most you are just a bit stronger looking and more agile than others!”

Ji Feng said, his tone gradually stern: “Look down on mercenaries, fine, of course that's fine. But there is one thing I have to remind you, a mercenary corps can sometimes dominate the victory or defeat of a small war, if there was no war, the mercenary corps would not survive, you can think about what kind of life these mercenaries lead every day, how much experience they have in combat!”

“And look at the Red Arrows Brigade, isn't it also a small unit operating alone? Sometimes they all have to go thousands of kilometres deep alone, without backup, maybe even without a guide, without anything ..... In a sense, the only difference between those mercenaries and the Red Arrow Brigade is that they are all wild children, the Red Arrow Brigade is our baby in China, it has a father and a mother, isn't that what it's all about! ” Ji Feng spread his hands, “But when it comes to the way of fighting and such, isn't it very similar?”

Lu Gang opened his mouth, wanting to retort, but after thinking about it for half a day, he couldn't come up with any good reason, and in the end, he could only shut his mouth.

It was true that many of the operations of the Red Arrow Brigade were also operations of small units, which were really very similar to mercenaries in form, except that the difference between the two was that one was paid to work and the other was to eliminate enemies for the country, that was all.

In fact, they also know that in some special cases, in order not to reveal the identity of the Red Arrow Brigade, those soldiers will also make themselves up as mercenaries when they go out on missions, so

strictly speaking, between the Red Arrow Brigade and mercenaries, there is really not much difference, especially in the form .....

Not only Lu Gang, but even Liu Xin and the other warriors, after hearing these words from Ji Feng, also gradually had some subtle changes in their expressions.

Obviously, they took Ji Feng's words into account, only now Ji Feng did not speak, they also do not know how to open up, and moreover these people originally character is not the kind of treacherous people, are more naive, a time also some transformation.

The other side is four, whoever wins at the end will be more capable and will be in command!"

He looked at Liu Xin, Lu Gang and the others and said with a smile, "This time, there is no more excuse, right? When the time comes, no matter what the situation is because of, or what accident, only to lose, we are ugly words in front, lost, we have to admit defeat, do not three objective two reasons, a word, lost there is no excuse ..... no problem, right?!"

Lu Gang couldn't help but look at Ji Feng in surprise and asked hesitantly, "Little chief, are you sure you want to use four people against our nine people?"

"That's right!" Ji Feng said indifferently, "Don't underestimate those four people, it'll be great if you guys don't lose when the time comes!"

"Bottoms up!" Lu Gang said at once.

.....

And for those who play microblogging, you can search for 'Anshan Fox' on Teng`xun microblogging, uh, I'm not certified yet, so don't get me wrong ..... Finally, I'm begging for votes.

Chapter1270

"Fuck it!" Lu Gang said at once.

After hearing Ji Feng say so much, Lu Gang was originally a bit bad at refuting, but he didn't expect that Ji Feng would actually say something wild, and actually let four people come against nine of them, which was clearly looking down on their ability!

Ji Feng immediately smiled slightly, he could see that this Lu Gang had a straightforward temper, could not turn a corner, and was also a rather hot tempered person.

Such a person usually has no bad intentions and is very good to get along with. Don't look at Lu Gang as somewhat unconvincing, but Ji Feng likes such people instead. If it was those who were feminine and had one thing behind the surface, then Ji Feng would really have to guard his hand.

He looked at Liu Xin again, "What do you guys say?"

The others nodded their heads, some said, "Captain, no comment, do it!"

"Yes captain, or else we should also put up four men, against four of them, we won't take advantage of this!"

“Or else we’ll put up three men, three against four, or even less .....

“Just the three of us, Captain!”

“Count me in!”

.....

Once they heard that Ji Feng actually wanted to transfer four people to fight against them as a squad, these warriors were immediately stirred up and asked for battle.

“Good!”

Liu Xin also nodded and said, “Little Chief, since you have proposed it, then we won’t push back, however, four from the other side against nine of us is indeed a bit of a disadvantage, so we will also send four people from our side to fight against them in a four-on-four match .....

But Ji Feng waved his hand and laughed: “Forget it, if it’s just four against four, I’m afraid you won’t be convinced if you lose, let’s do it this way, all nine of you go on .....

Don’t rush first, if you win, then this question of who commands who, will not exist, by then if the other side loses, people And also embarrassed to command you again, right? But if you guys lose .....

“Impossible!”

The other people have not spoken yet, Lu Gang suddenly stiffened his neck and said, “Little chief, do not bring you to look down on people like this, we nine against four, how can we still lose?”

“Haven’t heard of winning with less?” Ji Feng asked.

“.....” Lu Gang choked for a moment, and then said in a very defiant manner, “Then in that case, let’s see the real thing underhand!”

Ji Feng looked at Liu Xin: “How about it?”

“Good! We’ll see the real thing underhand!” Liu Xin’s temper was also aroused by Ji Feng, and he immediately nodded and said, “If we lose, then no matter what arrangements the young chief makes, we have no problem with it!”

Ji Feng then smiled, “Very well!”

When the deliberations had come to a conclusion, the car was also almost at the headquarters of the Tengfei Group.

Through the conversation along the way, plus the initial acquaintance in Yanjing before, Ji Feng had a general understanding of the situation of the squad led by Liu Xin.

These nine people basically did not have any fancy ideas, and to say that they did, it was Liu Xin.

Only, his fancy is also very different from those in the society, just because the leader of this squad, so he again has a touch more stability than the others, and also likes to think more before doing things.

As for the others, although their personalities vary, some are gentle and some are fiery, without exception they are all very naive, and that’s good.

When dealing with people like this, you don't need to have too much heart, you just need to bring sincerity.

What's more, they were once soldiers, and they were soldiers who had strict rules for themselves, and they would be of great use in future operations.

What Ji Feng is most concerned about right now is whether or not those four guys, Yi Xingchen, are Liu Xin's opponents!

Those guys, don't be scared to death once they hear that it's a confrontation with the special forces, and then lose badly, that would be a laugh.

However, in Ji Feng's opinion, even if Yi Xingchen and the four of them lost, they certainly wouldn't lose too badly, otherwise, all the many battles that the four of them had experienced there abroad would have been for nothing.

For them, Ji Feng still had great confidence.

Besides, the four of them were not the same as before, especially after practicing body-building exercises, their combat power was obviously much stronger than before, plus their rich combat experience, the possibility of losing to Liu Xin and the others was really not very big.

Those who have not really experienced the life and death test in real combat would find it hard to understand the kind of keen sense and harsh tactics honed between life and death.

A veteran who has been in battle and a new recruit standing together, even an amateur can tell the difference between them at a glance.

And although Yi Xingchen and the others are mercenaries and do not seem to have the same strict military discipline as the regular army in China, in reality, they are not bad either.

.....

However, when Ji Feng told Yi Xingchen about this confrontation, it left Yi Xingchen all dumbfounded.

At the headquarters of the Tengfei Group, in the manager's office of the security department, Ji Feng and Yi Xingchen were smoking a cigarette while talking about something.

"Four against nine?!" Yi Xingchen looked at Ji Feng in consternation, "Boss, are you sure you didn't make a slip of the tongue? Or did I mishear you!"

"You didn't hear wrong, and I didn't say wrong, it's about the four of you, against the nine of them!" Ji Feng took a puff of his cigarette before saying, "Old Yi, I can already boast about this, when the time comes, you have to show your real skills, if you lose, then I will lose all my face, and by then you few won't want your salary!"

"There is no such thing!"

Yi Xingchen burst into tears, "Boss, you can't force people, if you call in nine ordinary people, then we might still have a hope of winning, but what you're calling now, are nine retired regular soldiers, how can we win?!"

Ji Feng did not tell Yi Xingchen that Liu Xin and his nine men were all alternates of the Red Arrow Brigade, an identity that was to be kept strictly confidential. So, Ji Feng just said that they were retired from a certain field army unit.

Even this is already very impressive, you know, the real field army, the chief's hands that are death quotas, that is to say, the top allows you, each year, or within how long, can train how many people to die.

Of course, there's a proviso that it's a real training death, no matter who it is, and you can't kill people indiscriminately!

But that would be amazing, to be able to train people to death, think of the intensity of such training, and how horrible it will be when it is sustained, that fighting power, is also really a bit too amazing!

"How you guys win, I don't care, I only know one thing, this time you have to win!" Ji Feng said very irresponsibly, and then he stood up, patted Yi Xingchen's shoulder and laughed: "Old Yi, if you win, then they can be your soldiers under your hands from now on, if you lose ..... hehehe, I think, you surely don't want to accept someone else's command, right? "

Yi Xingchen suddenly laughed bitterly: "You're rushing a duck onto the shelf!"

"It's definitely a good duck to be on the shelf then!" Ji Feng harrumphed, "Alright, I know your skills, don't pretend!"

"Then I'll just have to try my best, when will we start?" Yi Xingchen asked.

"We always have to settle them down first, these are all precious lumps, don't condemn them!" Ji Feng said smilingly, "You can give them a name in the security department first, I'll go and give them a place to stay ....."

Watching Ji Feng stride away, Yi Xingchen couldn't help but shake his head and laugh bitterly, how could there be such a rogue boss .....

However .....

"Regular army?"

Yi Xingchen couldn't help but smile slightly, "The number of times I've fought with the regular army over the years is almost too many to count, but it's true that I haven't fought with the regular army of China, so I can give it a try! Only, it would be better if we could compete with the Special Combat Brigade or the Red Arrow Brigade ....."

Being given such a hard time by Ji Feng caused Yi Xingchen's battle intent to gradually rise up as well.

After deliberating slightly for a while, Yi Xingchen immediately picked up his mobile phone and dialed a number: "Zezun, call Yao Zhijian and come to my place, I have something to say to you."

After coming out of Yi Xingchen's office, Ji Feng arranged for Liu Xin and the others to go to the staff dormitory of the Tengfei Group. Of course, this was only temporary.

Ji Feng said, "Liu Xin, you guys are staying here for the time being, now the Tengfei Group is buying land and expanding its scope while building its own building, although it's only a dormitory building, but by then the conditions will definitely not be bad, you can also bring your families over ..... but before that, you guys have to Commiserate a bit!"

"Little chief, no aggravation at all!" A soldier was quick to speak and laughed heatedly, "We're all used to it in the army, besides, the conditions here are much better than in the army, thanks a lot Little Chief!"

In the army they lived in six-person dormitories, but now Ji Feng had arranged for them to live in single and double dormitories, which were fully equipped with air conditioning, heating, television and internet connection, etc. Moreover, both the furniture and other equipment were much better than in the army, so they were naturally very satisfied.

These people were already used to a hard life, so they naturally didn't ask for much.

"Then you guys will rest for the time being, someone will arrange for your food, clothing, accommodation and transportation and other issues later on, if you have any requests, you can just ask for them then!" Ji Feng smiled, "Remember to rest well, don't forget the confrontation!"

"Little Chief, please don't worry, we will definitely do our best!" Liu Xin said immediately.

Ji Feng then smiled and nodded, "Alright then, that's it for now!"

Liu Xin and the others then nodded and said, "Take care, Little Chief!"

After Ji Feng left, Liu Xin and the others immediately talked, especially Lu Gang, who sounded even more excited.

"Brothers, this confrontation must be taken down, the little chief can command us, but to send a random mercenary to try to command us is too much of a drop!" Lu Gang said.

"Yes, we must take it down!"

"We have to show the little chief that although we are not in the brigade, we are not comparable to ordinary mercenaries!"
