

Campus Master 1271

Chapter 1271

In the blink of an eye, two days had passed. During these two days, Ji Feng did not go out again, but accompanied Tong Lei to school normally. As for Liu Xin's place, Ji Feng did not ask much, he just let Liu Xin and the others settle down and familiarise themselves with the environment of Jiangzhou first, Han Zhong had already arranged for staff to accompany them, which was very convenient.

The business of the Tengfei Group was booming, and Tengfei Electric was on fire. Just the issue of the distributorship of the 3D TV set was already being fought over by the distributors, which made Han Zhong and Li Xin, as well as many staff of Tengfei Electric, both dizzy and smiling.

Of course, the final decision on who will be the agent and whether there will be a national agent or a sub-regional agent has yet to be made.

In Li Xin and Han Zhong's opinion, everything cannot be based on subjective assumptions, but must be based on the results of market research, so that the judgment made is the most accurate and reasonable.

However, according to past experience, if we want to maximise the benefits, it is better to divide the agency by province, so that each province can get a large amount of agency fees, in addition to this, we can also take the opportunity to cultivate our own sales channels, which is good for the long-term development in the future, as well as the immediate benefits.

But nothing can be finalised yet. We have to wait until the final results of the market research are known before we can make a decision!

All in all, no matter whether it is the Tengfei Group or Tengfei Electrical Appliances, or the other companies under the Group, it can be said that everything is flourishing and full of vitality.

It can be said that the current Tengfei Group has huge potential and full of energy. If we calculate the potential and market value alone, the Tengfei Group will have a market value of at least tens of billions of dollars.

Of course, the market value looks very impressive, but in fact it does not turn into real assets, but this also shows from another aspect, how huge the potential of the Tengfei Group is, this is a kind of capital.

Even if Ji Feng were to sell the Tengfei Group now, any buyer would have to offer at least several times, if not ten times, the current assets of the Tengfei Group before they could start negotiating terms.

This is the current Tengfei Group, which has grown to this point in just two years, and can be said to have truly achieved take-off!

However, Ji Feng still felt that it was far from enough, and that it could not be considered as taking off at all now.

However, Ji Feng still felt that it was far from enough.

That is, industry, and weapons.

Hover fighter, laser cannon

The vast amount of mechanical knowledge in Ji Feng's mind, as well as the weapons aspect, is just too much, but it's not that easy to achieve, and with such huge assets as the current Tengfei Group, it can actually only be considered as laying the economic foundation for the Tengfei Group's upcoming entry into these two industries!

As for the future, there is still a need to work on it slowly.

But all in all, it can be described as a prosperous scene now, which is very pleasing.

However, there are a few happy families and a few sad families. The prosperity of the Tengfei Group has caused some other electrical appliance manufacturers to have great worries.

After all, it goes without saying that the market prospect of 3D TV sets is not at all promising, and the impact it will have on the existing TV production industry is clear to all who have the slightest vision to see it.

Even, some manufacturers with huge strength have started to move their brains

In fact, the situation at the moment of the Tengfei Group is still a shock to an unknown number of people.

.....

Jiangzhou, Rong's venture capital, inside the general manager's office.

Rong Peng and Rong Suyan father and daughter are looking at the reports on the news with shocked faces, looking at that TV screen, which is filmed 3D TV set broadcasting the images.

Although the filming technology and the machine could not really present that kind of three-dimensional feeling, but people could also see what it would be like if they really faced a 3D TV set.

"This Ji Feng, when it comes to" After reading the news, Rong Peng couldn't help but shake his head slightly, his tone was full of sighs, but what he wanted to say, he couldn't say it.

"Yes, at first he said he was going to give the red light company a blow, I still did not realize what was going on, but now it is understood!" Rong Suyan also nodded with emotion, "Ji Feng once said that even if I was still in control of the Rong Peng Group, it would still be useless in the end, and this heel of the Red Light Company was a sure thing! At that time I was still a little surprised, now I finally know"

"It's been most of the year, right?" The company's capital has been poured into the project, and the project is halfway through, so the Tengfei Group immediately threw a heavy punch, leaving the company in a dilemma. The company was in a dilemma, unable to move forward or backward.

Father and daughter looked at each other, both could not help but see the shock in each other's eyes, this move, powerful.

"In fact, recently I've been thinking, Ji Feng has come all this way, it seems very ordinary, but without realising it, he has risen to an unsurpassed peak." Rong Peng said, "Look, back then, how powerful the

Rong Peng Group was, if they wanted to bring down the Tengfei Group, it wasn't impossible, at most, they would just lose some of themselves."

"However, at that time, Wu Zhiyong did not agree, but chose a roundabout strategy, saying something about knocking out the cadres of the Ji Department!" Rong Peng shook his head and said with emotion, "And Ji Feng, on the other hand, got up step by step, no matter it was by means or by chance, anyway, during the confrontation with him, Rong Peng Group was greatly wounded, while Ji Feng got a large number of talents, and Teng Fei Group was also rising rapidly... .."

"When you think about it, isn't all this like Ji Feng climbing a mountain step by step, his opponent is that big mountain, but he ascends it step by step calmly, and only when his opponent reacts does he realize that the mountain has been stepped on by him, and he doesn't even have the ability to resist a bit, and in the end he can only hope that he can show mercy under his feet and trample a few times less!" Rong Peng was overwhelmed with emotion: "Awesome!"

Rong Suyan also could not help but nod her head lightly and said, "Yes, underneath his seemingly ordinary methods, what is actually hidden is a heavy punch, and it is ridiculous that those of his adversaries always thought that they could crush him or be evenly matched with him, but they never thought how foolish they were!"

Father and daughter can't help but once again feel, this Ji Feng's rise trajectory, the more carefully you study, the more you will find, is really too how to say it, can be described as in the silent place to hear the thunder, in the flat ground to raise waves!

Putting aside those proud products of his, just his means alone are worthy of others' shock.

The 3D TV technology in his hands, but Ji Feng has been holding back, until the time when the Red Light Company is riding a tiger, then suddenly strike, both to save the Huahe County De Xing Electronics Factory, but also gave the Red Light Company a heavy punch, hit them dizzy eyes.

The most shocking thing is that people from the Tengfei Group didn't even fight with the Red Light Company directly, so you couldn't even find trouble with them if you wanted to!

This is what makes Ji Feng so brilliant!

In fact, this was not the only point, Rong Peng was a person who liked to study others, and during this period of time, he did not rush to rise again, but was observing Ji Feng, as well as observing the Tengfei Group.

In Rong Peng's opinion, Ji Feng was definitely an incomparably strong person, not daring anyone to be his opponent to have a headache, and he was afraid that he wouldn't be able to sleep at night.

His tactics are simply too unpredictable and unpredictable to keep you on guard.

The most crucial thing is that he never does any underhanded tricks, just the right moves, one move after another, all under your nose, so you can clearly see people's moves, but you just can't defend yourself, you can only be broken teeth to swallow in your stomach!

I think, now Wu Zhiyong and the Wu family are not very good, Ji Feng just this move, is enough to make the red light company's vitality, without a year or two, do not want to recover, if the operation is not good, I'm afraid it will take a longer time. And at that time, how far is the Tengfei Group going to go?

Rong Peng suddenly thought that the original Rong Peng Group, now renamed as Brilliant Group, was simply like a stepping stone for Ji Feng.

For every step forward Ji Feng took, one branch of the Brilliant Group might be stepped on.

So, where will Ji Feng's eyes be next time?

And which branch would be bruised and battered by this heavy punch from Ji Feng across the mountain?

Rong Peng couldn't guess.

But one thing he was sure of was that Ji Feng's methods were definitely more than that. Not to mention Wu Zhiyong, probably the entire Wu family, would feel a million headaches because of Ji Feng's growing power, but would be unable to stop him!

Unless directly take Ji Feng out!

But would that be possible?

"By the way, Su Yan, didn't Ji Feng say he invited you to invest last time? Wasn't he talking about a 3D TV set?" Rong Peng suddenly asked. He vaguely remembered that Ji Feng had once invited his daughter, but what exactly was going on, he didn't know, there were many things his daughter wouldn't tell him in detail, after all, his daughter had grown up and had her own privacy, it was not good for him, as a father, to ask.

Chapter 1272

"Yes, it was once said!" Rong Suyan couldn't help but blush slightly on her pretty face, and she was a little hesitant when she spoke.

"Indeed it was for you to invest in a 3D television set?" Rong Peng was slightly stunned and asked in consternation.

"Mm!" Rong Suyan nodded her head slightly.

Rong Peng was immediately stunned: "Then how come you you didn't participate in the investment?"

Not to mention that Tengfei Group's 3D TV set had supposedly started to officially go into production, and the orders on the market had long been flying over like snowflakes, in fact, if you wanted to participate in the investment, then you would have to participate before Tengfei Electric was established, but Rong had never heard Rong Suyan talk about this matter, so obviously, Rong Suyan did not invest.

This makes Rong Peng very strange, according to reason, Rong Suyan to participate in the investment of the Tengfei Group, that is absolutely and Ji Feng to draw closer to the most important step, but Rong Suyan is not involved

The company's main business is to provide a wide range of products and services to the market.

Perhaps, there was only this one possibility.

The reason why his daughter did not participate in the investment of Tengfei Electric was probably because he had made some unacceptable request to her.

Once he thought of this, Rong Peng couldn't help but shake his head slightly and let out a soft sigh.

If you want to rise again, it is so difficult, and your daughter is beautiful, as a parent that is naturally a very happy thing, but if you want to do business in society, a woman who is so beautiful, and is involved in a storm, and contact with people who simply can not afford to mess with, it is more of a disadvantage.

In the end, if you want to succeed, you always have to belong to one side, otherwise, it is almost impossible to get out in one piece, unless you leave this place of right and wrong immediately and go far away from home!

Thinking of this, Rong Peng sighed, "Suyan, if it really doesn't work out, you should leave the country, or go to the countryside, grow some flowers and plants, and find a good man to marry. As for here, it's enough to have me alone!"

"Dad, where are you thinking of!" Rong Suyan couldn't help but blush pretty and said, "Ji Feng didn't mention any request, it's me who doesn't want to invest!"

"..... for, why?!" Rong Peng was stunned at once.

It was actually the daughter herself who didn't want to invest?

This was too much for him to be surprised, since Ji Feng didn't mention any request, then why did his daughter still not want to invest?

If you know, there are many people who want to climb up with Ji Feng but can't. Su Yan actually took the initiative to pull back, why is this?

Rong Peng was a bit puzzled.

Looking at her father's dismayed gaze, Rong Suyan's pretty face became even redder, but a complex look flashed through her beautiful eyes, and only after a long time did she spread her hands, revealing a very difficult smile, very reluctantly, but did not speak.

Rong Peng suddenly felt a burst of heartache and quickly said, "Since you don't want to say it then forget it, dad won't force you, if you are tired then go to rest early."

Originally, when his daughter followed Wu Zhihe, that son of a bitch, Rong Peng was already distressed enough, and now seeing his daughter in this state, Rong Peng was naturally even more distressed and

stopped asking questions. No matter what the reason was, as long as his daughter was happy, then everything would not be a problem.

Big deal, just give up on revenge and stop fighting with the Wu family, as long as one's child could be safe and sound, everything would be fine.

"Dad, you've got it wrong!"

Rong Suyan cicada lightly shook her head and said, "In fact, it's not that Ji Feng is making any demands, nor am I tired, but how to tell you, I just feel that after what happened to the Wu family, I don't want to have monetary dealings with acquaintances now, that's why I didn't participate in the investment in Tengfei Electric. "

"Don't want to have monetary dealings with acquaintances?" Rong Peng was stunned for a moment, he didn't react to what Rong Suyan meant for a while, to know that this business, is not to deal with people, to have money dealings?

If you have to deal with strangers for a long time, they will become acquaintances, and if you just deal with strangers, it's a bit unjustified.

Seeing her father's stunned expression, Rong Suyan's pretty face became even redder as she lowered her head, "Dad, I'm tired, I'll go upstairs to rest first, you too get some rest early."

"Hey!"

Rong Peng nodded and answered.

Rong Suyan then stomped off and hurried upstairs, at this time, her pretty face was red all the way to the roots of her ears, looking rather vain.

"This child" Rong Peng couldn't help but be slightly stunned, glancing back at his daughter, but still having some difficulty understanding what her words actually meant. After thinking about it for a long time and not understanding it, Rong Peng could only shake his head and stop thinking about it.

"When a child grows up, she will always have her own ideas" Rong Peng could not help but feel a sigh of relief in his heart, but suddenly, he was struck by a sudden shock, as if he had suddenly remembered something. The first thing that happened was that he looked back at the stairs and his daughter was already going upstairs quickly.

Rong Peng's face couldn't help but be flooded with an odd look, and only after a long time did he mutter to himself in consternation, "This child shouldn't really be in love with Ji Feng?"

When you think about it, it is really a possibility.

If we compare Ji Feng and Wu Zhihe, these two people are simply one in the sky and one in the ground. If we say that Ji Feng is a representative of outstanding youth, then Wu Zhihe is definitely a typical representative of the golden jade and the corrupted, these two people, are simply two extremes.

In the past, Rong Suyan did not see Wu Zhihe's true face, so she stayed with him for a few years, but now that she knows what kind of a bastard Wu Zhihe is, Rong Suyan naturally has no reason to stay with

him anymore, and at this time, Ji Feng appeared in Rong Suyan's life, he is so excellent, handsome, tough, martial and extraordinary... ..

There were few women who did not love such a young man.

What's more, later on, Ji Feng's performance was even more wise and atmospheric, even those sassy worldly gentry could definitely not compare.

In that case, it was only natural for Rong Suyan to fall in love with Ji Feng.

Every woman has a prince charming hidden in her heart, no matter if the woman is charming, or if people are afraid to avoid her, how they look on the outside cannot determine if they have a desire for love in their hearts.

"This silly girl" Rong Peng couldn't help but shake his head and sigh, if his guess was true, then this girl obviously has a shadow in her heart because she was hurt before, so now even though she likes Ji Feng, she doesn't dare to express it easily anymore.

Or perhaps, she wanted to have a simpler relationship with Ji Feng and not be distracted by other things.

"In this world, how can there be any simple relationship?!" Rong Peng shook his head, "Even between brothers and sisters, there are still times of conflict, between others, how can it be that simple?"

Su Yan was scared because she had been hurt!

Rong Peng looked back upstairs, the empty stairway, he could not help but shake his head, looks like, should let the old companion go to talk to that girl, can not have anything to keep inside ah.

"Ugh"

Rong Suyan, who had returned to her room, could not help but let out a soft sigh inwardly as well.

It is undeniable that she does have feelings for Ji Feng, she is no longer that 17 or 18 year old girl in her early twenties, so she no longer has that hazy shy feeling, yet she is not like those women who have reached middle age, seeking only a peace of mind, wanting to find a man to live with.

At Rong Suyan's age, she actually wants to have both, but inevitably she is involved with various factors, such as money and grudges

She is no longer at that age of innocence, so she cannot have an innocent love either.

As such, Rong Suyan had to bury this feeling in her heart, not daring to reveal it easily for fear of being hurt again.

Her father wanted to take revenge on the Wu family, and Rong Suyan was also very angry in her heart, while she knew that Ji Feng also wanted to crush the Wu family and destroy the Rong Peng Group.

If she cooperated with Ji Feng at this time, they would undoubtedly be comrades on the same front, with a common purpose, but from then on, the relationship between them would no longer be pure, as it was likely that love would be added to the relationship in the future.

Therefore, Rong Suyan rejected Ji Feng's proposal and did not invest in Tengfei Electric.

"I also don't know if this decision of mine is right or wrong,," Rong Suyan murmured with a soft sigh in her heart.

.....

Buzz~~~!

At this time, Ji Feng, on the other hand, was driving his car and taking Tong Lei towards home.

They were returning from watching a movie, Tong Lei's originally clear and pretty face, with a sweet smile, although very light, but very refreshing, so people can never get tired of looking at it.

The two of them were alone in the car, and both White Spider and Han Zhen were left at home by Ji Feng, who used only one excuse: the need to enjoy the world for two.

He only used one excuse: he needed to enjoy the world for two. White Spider and Han Zhen then had nothing more to say, and neither could insist any more.

In fact, White Spider felt Ji Feng's distancing, and she knew exactly what the reason was, as Xiao Yuxuan had already reminded her before, but she had already done it, and now she couldn't change it.

Therefore, the current White Spider was like a prisoner awaiting trial, if Ji Feng was determined to kick her out, she could only go.

What was a pity was that it dragged Han Zhen with it.

When Ji Feng returned home, he happened to see Bai Spider who was standing at the door, not knowing what she was thinking about.

"Lei Lei, you go in first, I'll go and park the car!" Ji Feng said.

"Mm!"

Tong Lei didn't care about this, even though she also knew that Ji Feng was wary of Bai Spider and Han Zhen, she wouldn't ask too much so as not to influence Ji Feng's decision.

Because she knew that there were many things she was not clear about, so she did not comment easily.

"Ding"

Just at that moment, Ji Feng's phone rang, but it was from Xiang Yongzhan.

"Grand Duke Xiang, what can I do for you?" Ji Feng picked up the phone and asked with a smile.

"Ji Feng, don't beat around the bush, come to my place, there are some things that must be said clearly." Xiang Yongzhan's voice was low, and he said directly to the point.

Ji Feng looked back at Bai Spider who was standing in the doorway, her face calm but with a hint of gloom, then said with a smile, "Good, I also have some things to tell you, See you tomorrow, I'll go directly to your place then."

It's time to settle the matter of the white spider. Ji Feng secretly said.

Chapter 1273

The next day, Ji Feng took the white spider and Han Zhen to the guest house of the Jiangzhou military district, this time the white spider also took on the role of driver, Han Zhen sat in the passenger seat, while Ji Feng sat in the back row with his eyes closed.

After dragging on for so long, the matter of the white spider had to come to a conclusion after all, which is why Ji Feng agreed to meet with Xiang Yongzhan.

Frankly speaking, Ji Feng did not want to let the white spider leave.

Ji Feng couldn't let the white spider leave, not because of her outstanding abilities or because she was pretty, but after spending a lot of time together, Ji Feng gradually got used to having the white spider around.

In fact, even if you have a small dog or cat, you will have deep feelings for it after a long time, and if you lose it suddenly, you will be quite upset, not to mention that it is such a big living person.

Although he did not have the same kind of feelings for the white spider, often times, a person's habits are extremely frightening and can cause a person to develop a kind of inertia.

From Ji Feng's heart, if you put aside the fact that White Spider would often tell Xiang Yongzhan some things, this woman was still extremely nice.

With the white spider by his side these days, there were many things that did not require Ji Feng to worry about.

For example, when Ji Feng went to where he was going, there was no need for Ji Feng to ask about some of the daily chores, the white spider would take care of them. When he encountered some minor troubles, the white spider could also handle them directly. This alone saved Ji Feng a lot of trouble, allowing him to have more energy to think or to rest his mind.

All of this was good for the white spider.

The same was true of Han Zhen, and as far as Ji Feng could see, with Han Zhen around, Tong Lei even talked a little more than usual. It was indeed much better to have a friend around you.

So Ji Feng actually did not want White Spider and Han Zhen to leave just like that, at least, Ji Feng did not want them to leave because of a small matter.

But the truth is so helpless, Ji Feng is not an ordinary person, he does a lot of things that cannot be explicitly said to the outside world, for example, his relationship with the Tengfei Group, although many people have speculated, but not many people can really know exactly, but Bai Spider and Han Zhen know.

Then, for example, some of Ji Feng's habits, his pattern of action, and what people he usually has contact with and what he is doing

These things may not seem very important and banal, but in reality, once someone with an interest knows, it becomes extra important.

If someone wanted to attack and kill Ji Feng, then his movement patterns and habits would become a situation that the other party would have to know about. Perhaps just because of some small habits, Ji Feng could be in great danger. These are situations that there is no way to explain to the public, but they are crucial.

The most important thing that Ji Feng needed to keep secret was still the existence of the wise brain, the white spider had been with him for a long time, there was no guarantee that one day he wouldn't notice something!

You know, there are a lot of important people, they even keep their itineraries strictly confidential, so you can see how important secrecy is, and Ji Feng naturally can't just stand by and watch a loud speaker around him, who may leak secrets at any time.

With such a person by his side, and someone he trusts extremely much, I'm afraid no one's heart would feel good.

Plus, Ji Feng will definitely have more secrets in the future, so naturally, he can't leak them to the public even more. Therefore, even if Ji Feng doesn't want to part with them in his heart, the white spider must leave, there's really no way around it!

"Young Ji, is there something that Captain Xiang wants us to go over?" Han Zhen is not as sensitive as White Spider, even though she feels something is wrong, she does not know exactly what it is because of, so instead, she is very curious, usually there is no intercourse between her and Xiang Yongzhan, the only one who has intercourse is her big brother

Ji Feng laughed: "It's nothing, it's just that I haven't seen you guys for a long time, so I miss it a little I think it's something like that!"

"..... Oh!"

Han Zhen nodded, feeling a little strange, but didn't think much of it.

But in her heart, White Spider couldn't help but shake her head, she had clearly felt that this time when she went to look for Xiang Yongzhan, Ji Feng had directly brought both of them along, then it was obvious that the purpose of this trip must be related to the two of them, and in connection with Ji Feng's previous attitude, that was enough to explain the problem.

Ji Feng wanted to return them to Xiang Yongzhan!

This was most likely!

Although she knew what Ji Feng was planning to do, Bai Spider was helpless and even felt a little helpless, now she was like a prisoner awaiting trial

The actual fact is that you can't be sure that you're going to be able to get the best out of the actual situation.

The actual decision is in the hands of Ji Feng. Because she knew very well Ji Feng's character, what she said, Ji Feng might understand, but, Ji Feng could not tolerate it, it was no longer a mere question of right or wrong, but it depended on what Ji Feng's final thoughts were.

Even if his idea is wrong, but as long as he wants the white spider to stay, then the white spider can stay, but if his idea is right again, as long as he doesn't nod, the white spider can't stay

Three people in the car, three minds, running fast into the distance with the roar of the engine.

.....

Jiangzhou Military District Guest House, Xiang Yongzhan was sitting on a sofa in the lobby, waiting for Ji Feng to arrive.

On the sofa next to him were the duo of Ji Shaolei and Xiang Yurou.

Ji Shaolei's face obviously had a hint of reluctance on it, but being pulled by Xiang Yurou's hand, he could only sit with his head hanging in defeat, as if he was a defeated rooster, a hundred times reluctant.

Ji Shaolei was indeed very upset, and it was directed at Xiang Yongzhan.

His dissatisfaction was mainly twofold. Firstly, this guy Xiang Yongzhan was unethical, at least in his opinion. Some time ago, everyone thought that San'er had gotten into big trouble and offended the Zhao family, so it was very tricky, and he might even fall on his face.

Especially after Ji Feng had moved Chang Chongwei, but almost everyone who knew the inside story thought so.

But no matter what, as Ji Feng's friend, even if he can't help, then he shouldn't just avoid it, right?

The fact is that the company's business is not just about the same.

The company's main business is to provide a wide range of products and services to the public.

But this guy Xiang Yongzhan is

This bastard would definitely be a first-rate deserter if he were in a war! This is the evaluation that Ji Shaolei gave him, as soon as he saw that there was trouble, that ran faster than anyone else, really

what a piss!

This is where Ji Shaolei is most dissatisfied.

Secondly, it is to Yongzhan said to invite the three children over, some words to say clearly, let him Ji Shaolei do intermediary, Ji Shaolei is not willing to go to this muddy water, at least he is not willing to Ji Feng because of his relationship, so the dilemma, that is not Ji Shaolei do things.

Who knew that this son of a bitch Xiang Yongzhan, actually directly did the work of Xiang Yurou, so that he personally ran to the Jian'an Group's office, dragged Ji Shaolei over.

The first thing you can do is to get the best out of it, but you can't do that to Xiang Yurou. Xiang Yurou was softly begged and coerced, so he had to nod and agree.

And so, again, is the second dissatisfaction of Ji Shaolei.

Now sitting here waiting, Ji Shaolei can't help but have some burrs in his heart, but he smilingly asked: "to the grand duke, I heard that you went abroad some time ago? The environment outside is good, right? After a sightseeing trip, are you in a good mood?"

Xiang Yurou then squeezed his hand and glared at him with her beautiful eyes, she would die if she didn't tease her big brother!

He wanted to see how thick this guy's skin was, and how he had the nerve to invite San'er over.

"How is the environment outside, I am not too clear, did not have time to sightsee." Xiang Yongzhan, however, was not moved by anger, but just said, "If it was you, who almost lost your life there, I am afraid that you are not in the mood to go sightseeing either"

"Oh?!"

Ji Shao Lei raised his eyebrows, "So powerful?!"

"Kid, I know what you're thinking, I'm telling you, I'm not as nasty as you think Xiang Yongzhan!" Xiang Yongzhan said forcefully, "Now I won't say much to you, when Ji Feng comes, I'll tell you all together"

The reason is not straight and strong! Ji Shaolei disdained in his heart.

"Of course, to say this matter, I also have done something wrong wait for Ji Feng to come and say it!" Xiang Yongzhan said again.

Ji Shaolei then skimmed his mouth, still knows he is not right, huh?

"Zee-!"

Just then, a sound of sharp brakes came from the entrance, and immediately after that, several people saw that Ji Feng got down from the car with the two girls and came towards the guest house with big steps.

Ji Feng was habitually dressed in a jacket, casual trousers and casual leather shoes, his entire body was sturdy and spirited, and he definitely looked like a completely charming man. He was followed by two more stunning beauties, which was really eye catching, so Ji Shaolei and the others saw him at a glance.

The first thing that happened to him was that he had a lot of money to spend on his own. ...

"Grand Duke Xiang, long time no see!" Ji Feng walked over with a big smile on his face, extended his hand and shook hands with Xiang Yongzhan, appearing both warm and familiar.

But those who were familiar with Ji Feng knew that once Ji Feng really got polite with you, it meant that he had already kicked you out of his heart.

Xiang Yongzhan was not stupid, yet he did not say much, but just said, "You guys come with me!"

With that, he turned around and headed for the stairway, and then went upstairs.

Ji Feng smiled, "Second brother, you are also here ah let's go!"

Several people arrived at the fifth floor, which was a conference room, and Xiang Yongzhan pushed open the door and said, "Please come in!"

Ji Feng frowned slightly, but still went in, as soon as he entered he immediately found that in this conference room, there were more than twenty young men sitting, five or six of them, with bandages on their bodies, and a few, with bandages on their heads, the rest were intact.

"What, want a group fight?!" Ji Shaolei said grimly, "A fight can't be won just by seeing who has more people!"

"Shut up!" Xiang Yurou was so angry that she pinched him, this man, always talking without a straight face.

"Including me, a total of thirty people, it took ten days, from North Africa all the way to France, went to six countries, and took out eight branches of the Cobra Mercenary Corps!" Xiang Yongzhan looked at Ji Feng, "This gift, is it substantial enough?!"

Chapter 1274

"Counting me, a total of thirty people, it took ten days, from North Africa all the way to France, went to six countries, and terminated eight branches of the Cobra Mercenary Corps!" Xiang Yongzhan looked at Ji Feng, "This gift, is it enough?!"

Xiang Yongzhan's words immediately silenced the voices in the room for a moment, and Ji Shaolei was even slightly stunned.

Ji Feng's eyebrows also couldn't help but jump a few times, the corners of his eyes twitched slightly as he squinted at Xiang Yongzhan and smiled, "Captain Xiang, what does that say?"

Xiang Yongzhan did not rush to answer his words, but pointed at the twenty or so young people in the conference room.

"These are some of the soldiers who took part in the operation with me at that time, there are still a few who are still recuperating in the military hospital today due to their injuries" said Xiang Yongzhan, "These brothers of mine have taken part in no less than I don't know how many times I've participated in dangerous battles, but there has never been a time when the losses were as heavy as this one today!"

Ji Feng gave a non-committal smile and did not say anything.

"I know, you must think that I am exaggerating a bit by saying this, later you will know that I am telling the truth and not half exaggerating!" Xiang Yongzhan said.

Ji Feng's eyebrows were raised and he wanted to say something, but in the end, he just shook his head and smiled, saying nothing.

In fact, after hearing these glorious achievements from Xiang Yongzhan, Ji Feng just wanted to ask him, since there had never been such a big loss before, then what was it when a small detachment was all besieged on a deserted island in the southeast China sea before?

..... also said what never had such heavy losses fooled who?

However, seeing so many people present, considering Xiang Yongzhan's face, as well as the relationship between the two sides, Ji Feng did not say anything. In fact, Ji Feng did not want to say it, there is another reason, if he mentions this matter, that is undoubtedly some sense of charity, Ji Feng is not that snobbish!

"All of you, stand at attention!" Xiang Yongzhan suddenly bellowed.

Swish!

All the people in the meeting room jerked up and stood straight, more than twenty people, standing in two rows, spirited and sharp-eyed, worthy of the title of elite division, and even more worthy of being a special force!

"You can see, these brothers of mine, almost all of them are in colour, only some of them only have a little superficial wound, which has healed in the past few days, but these few, at that time, almost gave up their lives outside!" Xiang Yongzhan pointed at those soldiers, looked at Ji Feng and others, and said, "How about that, is that enough weight?"

Ji Feng couldn't help but shake his head and laughed, saying, "Grand Duke Xiang, what exactly are you trying to say?"

Warriors getting injured, that was absolutely commonplace, this was not the least bit unusual in Ji Feng's eyes, however, what made Ji Feng puzzled was, what exactly was Xiang Yongzhan trying to say by doing this?

It's a good thing that you've got a lot of time on your hands and that you're thinking of ways to get revenge for yourself?

Or is it that

All this that he led the warriors of the special combat brigade to do was actually a great favor for himself to know and remember!

At this moment, Ji Feng suddenly remembered the words of the white spider who once defended Xiang Yongzhan before, the white spider said that he misunderstood Xiang Yongzhan, at that time Xiang Yongzhan did not just hide out, but went to do something else.

However, at that time, Ji Feng was still angry, so he did not listen, and the white spider also did not elaborate.

Now it seems that during this period of time, Xiang Yongzhan was really not idle, but what did it matter if he was idle or not? What was the significance to Ji Feng?

"Let's come out and talk!"

Xiang Yongzhan waved his hand and let those soldiers sit down before he said to Ji Feng and the others. And then, he first walked out of the conference room and went to a room next door.

“San’er, what’s this guy up to?” As he was leaving the room, Ji Shaolei leaned close to Ji Feng and asked in a low voice.

Ji Feng shook his head and smiled, “I don’t know, but whatever he’s up to, let’s take a look first.”

“That’s right!”

Ji Shaolei nodded and smiled, then added, “But why do I always feel that Grand Duke Xiang is like a transformed tour guide, leading us around this military district guest house?”

Ji Feng lost his smile.

But to put it in perspective, there was something to see in this guest house.

Don’t think that the name of the guest house is the same as that of the guest houses in the 70s and 80s, that’s just a preconceived idea.

In fact, nowadays, the guest house of the general state unit is only using a rather old-fashioned name, but some of the facilities and services are even better than some star hotels.

Therefore, people who have never been in this kind of place before, when they suddenly arrive here, they really have a feeling of being unable to find their way.

The corridors are all covered with very soft carpets, and there is a feeling of lightness when you walk, so it’s no wonder that your legs are a bit weak when you first come here.

For example, some of the rooms here are controlled by room cards, while others are controlled by magnetic cards or even code cards, fingerprints, etc. If you have never been here before, you may not know how to open the door of the room for the first time

If it is from this aspect, this place is really something to see, but obviously, Xiang Yongzhan will not be bored to this extent, he did this, there must be his intention.

The fact is that this is just a joke.

The reason for this dissatisfaction is naturally because of Ji Feng.

The reason for this discontent is naturally because of Ji Feng. Thinking of this, Ji Feng’s heart could not help but be slightly warm, no matter how others are, at least the second brother is still quite good, righteous, responsible, although on the surface is rude and reckless, but in fact is very shrewd, but usually he is too lazy to use this shrewd mind to calculate it.

Having such a second brother, that was Ji Feng’s blessing!

“Hiss~~!”

Ji Feng was thinking when he suddenly heard the sound of hissing and sucking in cold air, he couldn’t help but be slightly stunned, fiercely turning his head to look, he immediately found that the face of his second brother, Ji Shaolei, was ugly to the extreme, those five features were almost twisted together, looking extremely painful, Ji Feng was stunned, his gaze shifted down fiercely, immediately, he was so stunned that he almost didn’t burst out laughing.

It turned out that Xiang Yurou's hand, was resting on Ji Shaolei's waist, although there was Ji Shaolei's body in the way, so that Ji Feng couldn't see the exact movement of Xiang Yurou, but seeing the exaggerated to the extreme expression on the second brother's face, he could also figure out what exactly was happening!

"Get going!"

Seeing Ji Feng's gaze fall on his hand, Xiang Yurou suddenly blushed slightly on her pretty face and pinched Ji Shaolei as hard as she could.

"Hiss...!"

Ji Shaolei immediately sucked in a breath of cold air once again and exclaimed, "How did you play for real?!"

"..... are dying you, what are you shouting for!" Xiang Yurou was even more ashamed and anxious, pulling Ji Shaolei away with quick steps.

The two of them are really a pair of happy couple, a perfect match, but also to say, these two people together, say it is not possible.

It's a pity that, coming from such a big family, with its own intricate interests, it's really hard to want pure love.

Therefore, Ji Feng can only hope that between the second brother and Xiang Yurou, they can try to have less entanglement with interests and more simple feelings, which is the most enviable.

Suddenly, Ji Feng jerked his feet and paused for a moment.

It suddenly occurred to him, how could second brother suddenly appear here? Wasn't this the reason why Xiang Yongzhan had called second brother over as well?

Xiang Yongzhan was trying to get himself to take a step back for the sake of Ji Shaolei and Xiang Yurou, or to be able to think about it and stop holding on to certain things, this was really a good calculation!

"This Xiang Yongzhan, it's really sorry for his big and thick body, his heart is even thinner than a woman's!" Ji Feng didn't know whether he was ridiculing or complimenting, and the White Spider and Han Zhen beside him could only pretend that they couldn't hear.

As they spoke, several people had arrived at a room not too far from the conference room, which was a small meeting room.

"A few of you all please sit down!" Xiang Yongzhan greeted several people and sat down: "Seriously, such hospitality, for me that's really a first"

"Feeling aggrieved? Then we can go!" Ji Shaolei opened his mouth and took over.

Xiang Yongzhan immediately shook his head and laughed bitterly, "This mouth of your Ji Second Younger ah"

Ji Feng just hugged his arms and leaned back in his chair, watching Xiang Yongzhan get up and pour tea for several people with an odd smile at the corner of his mouth.

This Xiang Yongzhan, what did he want?

“Pah!”

When Xiang Yongzhan poured tea for Han Zhen, she hurriedly stood up and snatched the teapot from Xiang Yongzhan’s hand as she poured it for the others, Xiang Yongzhan had once been her elder brother’s captain, so how could she dare to let Xiang Yongzhan pour water for her?

However, when Han Zhen was about to pour water for Ji Feng, Xiang Yongzhan took the teapot and laughed, “Han Zhen, this cup can only be poured by me personally.”

Han Zhen was stunned.

But Xiang Yongzhan had already poured the tea for Ji Feng and held it up, saying with a sincere face, “Ji Feng, no matter how I put it, I’m sorry for the matter with Chang Chongwei, no matter how I justify it, there’s no reasonable excuse, it can’t be justified this cup of tea, even if I thank you, as for the rest words, wait until you finish this cup of tea let’s talk, can we?”

Chapter 1275

Pouring tea and admitting his mistake?

Looking at this scene in front of them, everyone present couldn’t help but be stunned beyond belief, including Ji Shaolei and Xiang Yurou, and even Han Zhen and Bai Spider, who were all stunned beyond belief and found it somewhat unbelievable.

Xiang Yongzhan actually poured tea for Ji Feng and admitted that he was wrong?

This was indeed a little too hard to accept!

What kind of person was Xiang Yongzhan?

He was the captain of the Special Operations Brigade, the eldest son of the Xiang Family, and could be said to be the leading figure of the third generation of the Xiang Family. But now, this eldest son of Xiang, actually poured tea for Ji Feng to admit his mistake?

Not only were White Spider and Han Zhen and the others unable to understand, but in fact, it was even more difficult for the two of them, Ji Shaolei and Xiang Yurou, to understand.

They understood what Xiang Yongzhan’s status represented even more, it represented the face of the Xiang family, moreover, it represented the status of having to mingle in this circle of top gentry, as well as the dignity of gentry!

If this matter today spreads out, then outsiders will think that Xiang Yongzhan bowed down to Ji Feng, also represents, the third generation of the Xiang family, bowed down to the Ji family, which in the future, even if they go out again, can not mix, and even, the family will also say something.

Although the elders may not care about face as much as the juniors, but the juniors’ face is also important. I believe that no parent will watch their children bow down to others without doing anything, even if they don’t say anything on the surface, I believe that the elders will have some burrs in their hearts.

But Xiang Yongzhan did just that!

Not only did he do it, but he did it with an open face, as if it was a matter of course and there was nothing wrong with it.

“Big brother!”

Xiang Yurou exclaimed, what was happening in front of her was somewhat out of her expectation, she immediately realized that this would not be a case of big brother wanting to fall out with Ji Feng, so he used this method to force Ji Feng, to corner him and get off the stage!

Ji Shaolei, however, frowned slightly and did not stop Xiang Yurou, but did not open his mouth to persuade him either.

He felt that this matter seemed to be something that could not be understood so simply, and, since Xiang Yongzhan had already lifted his cup of tea, it was impossible to put it down again so simply.

“Grand Duke Xiang, you are making it a bit difficult for me to do so, I dare not!” Ji Feng didn’t bother to take the teacup, but held his arms, frowned slightly and said indifferently.

Instead, Xiang Yongzhan said, “Ji Feng, this cup of tea of mine is something you must drink. Now I’m not the eldest son of the Xiang family, just Xiang Yongzhan, frankly speaking, you’re a person worth making friends with, I think I still need you as a friend, don’t you think?!”

Ji Feng’s frown then tightened, frankly speaking, Ji Feng really did not expect Xiang Yongzhan to play this game, which made him quite surprised and even more a bit surprised.

The first thing you need to do is to set up a table and sit down together for a drink, and the matter will be over from the surface, as for what will happen in the future, we all know what’s in our hearts, and it’s okay not to cross our hearts.

However, Xiang Yongzhan directly picked up a cup of tea and poured tea to admit his mistake, which made Ji Feng surprised.

Ji Feng’s gaze gradually became sharper, staring straight at Xiang Yongzhan, he wanted to see, Xiang Yongzhan play like this, what is the intention, or, he wanted to use this to express what?

“Huh

Ji Feng just stared at Xiang Yongzhan, after a long time, he suddenly laughed and said, “Then, I’ll drink this cup of tea!”

After saying that, Ji Feng took the cup of tea from Xiang Yongzhan’s hand and tilted his head and drank it down in one gulp.

A smile finally appeared on Xiang Yongzhan’s face as he slammed the teacup to the ground with a crash!

The floor was carpeted and soft, but Xiang Yongzhan shattered the teacup in one fell swoop, which showed how strong his arm was, and it also showed his determination and his bravado.

“Ji Feng, since you have drunk this cup of tea, then I can have a good talk about the following words.” Xiang Yongzhan gestured for Ji Feng to sit down, and he himself sat down on the chair and said, “To be

honest, after I received those people from you, I then handed them over to Director Zheng of the Jiangzhou Municipal Bureau and did not care at the time. However, when I was investigating this matter, I realized that it turned out that the matter involved Chang Chongwei!”

Ji Feng just listened quietly and did not speak.

Xiang Yongzhan added: “I just simply investigated Chang Chongwei’s background and found out about He Hongwei, and at first I thought

“You thought it was He Hongwei who was going after San’er, so you ducked out?!” Ji Shaolei immediately asked.

“Oh, if that was the case, it wouldn’t have been enough for me to dodge away!” Xiang Yongzhan frankly admitted the fact that he had dodged away, without the slightest hint of artifice at all, “I could tell something was wrong from He Hongwei’s reaction, and was later about to continue investigating when I received news that the Zhao family had intervened!”

“At that time, I knew that this matter must have a very close relationship with the Zhao family, and as expected, I found this out as soon as I investigated, and also vaguely knew the relationship between Chang Chongwei and the Zhao family.” Xiang Yongzhan shook his head and laughed: “Later Zhao Guosheng found me again and told me to try to avoid no way, I could only jump out, I can’t let people say that our old Xiang family old man is not educated when he’s not around

Ji Feng and Ji Shaolei then frowned slightly, especially Ji Shaolei, his eyes narrowed slightly.

The old Xiang family’s old man is long gone, but, the Zhao family’s old man once helped the Xiang family’s old man again, so in that case, the younger generation under this Xiang family, likewise owes the Zhao family, there is no doubt about it.

In this way, if Xiang Yongzhan still insists on investigating Chang Chongwei, he will indeed be said to be uneducated.

Of course, the people who said this were definitely from the Zhao family.

As for others

No one had dared to say that about the Xiang family yet.

However, Ji Feng was not much moved, these explanations from Xiang Yongzhan could not move him yet. Even if you can’t intervene, can’t you just say hello in advance and say, that Chang Chongwei is a son of the Zhao family, Ji Feng you have to think twice before you decide what to do

think, this is not much of a difficult thing, right?

“Of course, in the way of many reasons, I did not inform you in advance, this is indeed what I did wrong, for this reason, I am sorry, this is also why I poured tea to admit my mistake!” Xiang Yongzhan said frankly.

Ji Feng smiled, this statement, more or less seemed a bit light-hearted. Even if Xiang Yongzhan had poured tea and admitted his mistake just now, it was still a bit inappropriate.

If it is said that just because Xiang Yongzhan did not inform in time, which made Ji Feng planted a big heel, then what should be said about this matter?

So many things can't be solved with a light apology, and not everyone is that generous.

At least, Ji Feng is not a generous person, and even if he is generous, it depends on what the matter is!

Seeing Ji Feng's bemused expression, Xiang Yongzhan knew that it would be a bit difficult to get Ji Feng to relent on this point alone, so he said something else next that finally moved Ji Feng.

"It's true that I did wrong in this matter of Chang Chongwei, and I never hide my mistakes." Xiang Yongzhan said, "So then, since I couldn't do anything about the domestic matter, I couldn't do nothing, so I took people abroad!"

He looked at Ji Feng and said, "Since I found out about the Cobra Mercenary Corps, I always had to do something According to the information I learned, the Cobra Mercenary Corps had a total of nine branches and one headquarters. These nine branches, I ended eight, there is still one left, the weaponry is too well equipped, there are also a lot of heavy weapons, moreover, there is also a certain country's military forces intervened."

"We went too hastily and were not prepared enough, so we didn't fight it down." Xiang Yongzhan said, "It was also during that battle that many soldiers were injured. If we hadn't withdrawn in time, I'm afraid we would have all been killed!"

Ji Feng finally moved!

It wasn't that Xiang Yongzhan had done nothing, only that he had abandoned the place that put him in a difficult position and instead went to take out his hatred on the Cobra Mercenaries!

In fact, from an onlooker's point of view, Xiang Yongzhan could only say that it was a bit inappropriate for him to do so, but it definitely could not be said that he was not righteous.

To say that the only thing that Xiang Yongzhan did wrong was that he did not explain to Ji Feng in a timely manner the identity of Chang Chongwei and all the connections of the Zhao family, and that was what caused Ji Feng to feel like he had been sold out, and that was the source of his irritation.

Not enough, within ten days, ended eight branches of a mercenary corps, this is what kind of combat intensity, Ji Feng that really knows too well. Because he had fought with the Cobra mercenaries and knew how well-trained they were!

It was not easy for Xiang Yongzhan to achieve this, no matter which way he looked at it.

What's more, Ji Feng didn't have the right to ask everyone to die to himself, Xiang Yongzhan told him about the Zhao family, it was out of friendliness, and if he didn't tell him, Ji Feng had nothing to say.

"As a friend, I think, I have done the right things and wrong things, but in general, I am a person, I can still be a friend, what do you think?!" Xiang Yongzhan asked.

Ji Feng was silent for a long time before he smiled faintly, "That's my opinion too!"

"Hehe" Xiang Yongzhan burst out laughing.

It was only at this point that the atmosphere in this room was suddenly relieved, and the faces of all the people showed smiles and couldn't help but let out a sigh of relief.

Even Ji Shaolei could not help but secretly give a thumbs up to Ji Feng, who was talking about Xiang Yongzhan. As the eldest son of the Xiang family, he was able to make it this far, that was indeed already very good, despite his previous mistakes, but his frankness was still very admirable!

Although one still has to listen to his words and observe his actions, but at least from the looks of it, this friend can be made!

Chapter 1276

To say that Ji Feng's heart was completely relieved would definitely be a lie. When it comes to things like this, mustiness will definitely be there, but it is only because of Xiang Yongzhan's actions that this mustiness is much less.

At least Ji Feng knew that Xiang Yongzhan was not a completely unsociable person.

At the very least, there was no hatred between Xiang Yongzhan and the Cobra mercenary group, but he led his men to wipe out most of a mercenary group, leaving only a branch and a headquarters in the end, this favor alone is a heavy weight.

When dealing with Xiang Yongzhan in the future, this point could not be disregarded.

Of course, Ji Feng will no longer trust a person without reservation like he did before, because any unexpected situation can happen, and apart from your parents, there is no one else in this world who will treat you well without reservation, and if there is, that kind of person is worth cherishing for the rest of your life!

Understanding this truth, then when going out with people again, Ji Feng's mindset became more peaceful.

Because the relationship between Ji Feng and Xiang Yongzhan has finally loosened up, everyone else here is also smiling, except for the white spider who still has some apprehension in her heart, everyone else can't help but breathe a sigh of relief.

If Ji Feng and Xiang Yongzhan had clashed, it would have been a real Mars collision!

These two people were both dragons and phoenixes among men, the most outstanding young juniors. Once they competed against each other, it would definitely be a series of battles, and even the previous generation would have to look sideways at them.

Fortunately, both of them were wise, and together with the fact that Xiang Yongzhan had put himself in an extremely low posture, the relationship between them finally eased up completely.

Although they were unable to return to the unreserved trust they had before, at least it was better than the tense relationship they had after the Chang Chongwei incident.

"Right, Old Xiang, you said that when you were attacking the last branch of the Cobra Mercenary Corps, you encountered the intervention of another country's military forces, do you know which country it

was?!" Since the business had already been discussed, Ji Feng asked about something that he was more interested in.

"At that time, based on reconnaissance satellites, we detected a large number of armed men moving towards us and, moreover, there were alerts of being targeted by missiles. Based on the geographical location where we were at the time, we deduced that there was only one country that could drop level forces to swoop over and have missiles in such a short period of time," Xiang Yongzhan wrote a few words on the table before wiping them away with his palm.

Yinggili!

Ji Feng instantly frowned, a cold light in his eyes: "This old empire? It's all fallen into this state now, and they dare to?!"

"What's so daring about it?!" Xiang Yongzhan shook his head and smiled, said: "When we went out, one did not sign up for the number, two did not let the top greet, just pretended to go out as mercenaries, even if they were all destroyed outside, our side can't say anything, not to mention, Yinggili for so many years, has been very close to Rice, set up the Mi-British alliance, they naturally have a lot of guts! "

"What gutsy, now they just know to follow Sam's ass, picking up some small sesame benefits that people throw away and don't want, but they follow their lives like a fart!" The British Empire is a so-called old-fashioned empire, but it's just a donkey that doesn't fall down, it's nothing!"

The others then all laughed, indeed, over the years how the performance of the Anglo-Japanese, we all see in the eyes, who knows what is going on, to say that it is an old empire although it is right, but also considered to give him face.

"That last battle we had, a few hundred kilometres away nearby, there was an Anglo-Jewish military base, in fact, when you say it was Anglo-Jewish, you can also say it was Mi-British allied forces!" Xiang Yongzhan said, "In case we were completely locked in by their missiles, it would be a problem, and we had no choice but to withdraw!"

"That's what we should do!" Ji Feng nodded, retreating was not something to be ashamed of, foolishly rushing upwards to send people to their deaths, that was what was shameful.

If people died, there would be nothing left.

"What about the headquarters?!" Ji Feng remembered something else and suddenly asked.

"The headquarters that's naturally even more needless to say." Xiang Yongzhan shook his head and said, "As you know, there are two things that are most confidential about the mercenary corps, one is the action plan and the other is the location of their headquarters. It's almost difficult to find out where their headquarters are without thorough investigation."

Ji Feng's brow then frowned slightly, although he had expected this result, but when Xiang Yongzhan said it at this moment, Ji Feng was still a bit helpless.

Who exactly had hired the Cobra Corps to attack and kill him!

This had always been a doubt in Ji Feng's mind, but with his current ability, he was unable to find out, so this time when he heard that Xiang Yongzhan had pulled out eight branches of the Cobra Corps in a row, Ji Feng wondered if he could find out something from those guys' mouths.

But now, it seemed obvious that other than wiping out some mercenaries, the other gains should not be very big.

So at the moment, the only thing Ji Feng could count on was the few remaining Cobra members who had been captured by himself, and perhaps from their mouths, he could know something.

At the very least, they were personally involved in the operation to attack and kill themselves, and they definitely knew a bit more than others.

"What, there's a problem?!" Seeing Ji Feng frowning slightly, Xiang Yongzhan immediately asked.

Ji Feng rubbed his eyes and sighed softly, "Big problem, I don't even know how many people I've offended, I'm afraid some people are dreaming of getting me killed, trying to find the mastermind behind it, it's hard!"

The last time Ji Feng asked him to help find the mastermind, the result was the incident with Chang Chongwei, which in turn caused a lot of unpleasantness between him and Ji Feng, so at this time, Xiang Yongzhan was wise to shut up.

The next few people chatted for a while, and then they all planned to leave.

Since it was still early, they didn't know what to do if they left now, so Xiang Yongzhan suggested that they go to a nearby club to have some fun.

Ji Feng and the others were in no hurry anyway, so they nodded their heads and agreed.

When they went, a few people still drove over, and Ji Feng still took the white spider and Han Zhen with him.

Looking at Bai Spider, who was looking ahead with a serious face, and then looking at Han Zhen, Ji Feng couldn't help but secretly shake his head, these two girls were actually really good, but unfortunately, they were wrong, and, wrong in a very outrageous way.

However, now that the relationship with Xiang Yongzhan had eased, Ji Feng was no good at outright driving them away again.

But if you keep them around, they may become a huge hidden problem, so for a while Ji Feng was a bit embarrassed, not knowing what to do.

After thinking for a long time, Ji Feng said, "White Spider, there's something I need to ask your opinion on."

Buzz~~!

The next moment, Ji Feng suddenly felt that White Spider's hand suddenly shook violently, even the car was slightly shaking, and the roar of the engine was also a little unstable.

Ji Feng immediately frowned slightly, silent for a moment, he said: "White spider, frankly speaking, you follow me, or very good, at least, my personal feeling is this, with you, there are many things do not need me to worry about, also save a lot of energy, seriously, I really want to thank you!"

"Actually, it's nothing really, it's all what I should do!" The White Spider said somewhat embarrassed.

In fact, to say the least, Bai Spider is also a girl who is not good at words, and even worse at communicating with people, especially when it comes to communicating with Ji Feng, she is a bit uncomfortable with the tone of Ji Feng's speech now, not to mention, she also knows what Ji Feng wants to do

"Tell people about a lot of my habits, and some of my whereabouts, that's what you should do!" Ji Feng said.

Swish!

White Spider's face suddenly went white, she was promiscuous, but she couldn't say anything.

Ji Feng then couldn't help but let out a light sigh and said, "You used to do a certain line of work, so you should know how terrible it would be if a person's whereabouts and habits were known by others, once that person had malicious intent towards you, but you"

He didn't go on, just shook his head.

"I'm sorry!"

The white spider said, "I was unintentional."

Next to him, Han Zhen looked at Ji Feng in surprise, then at the white spider, and seemed to understand something, and his face couldn't help but change slightly.

"Let's not talk about that, I should say that the very act of me asking you over should have been ill-considered, not taking into account your feelings, and not consulting your exact opinion"

"Squeak-!"

A sudden sharp braking caused Ji Feng's words to be interrupted at once.

"Young Ji, I know I'm wrong!" White Spider stopped the car and looked back at Ji Feng, "Don't drive me away, I know I'm wrong!"

Ji Feng was stunned, "Bai Spider, why are you doing this?!"

He had never thought that Bai Spider, who had never said much, would actually say such words as if she was pleading, which really surprised him.

"Young Ji, I really didn't mean it before, if I knew you weren't happy about it, I definitely wouldn't have told anyone about anything about you, even Captain Xiang, I definitely wouldn't have said anything!" White Spider's pair of beautiful eyes stared intently at Ji Feng, and there were even crystals shimmering in her eyes, "What I said is true!"

At this moment, White Spider's true feelings were flowing.

Bai Spider really didn't want to be driven away by Ji Feng, the period of time she had been by Ji Feng's side could be said to be the most reassuring period of time Bai Spider had ever lived.

She had to always be on guard against being backstabbed, not to mention not needing to worry about living that kind of displaced life, not needing to drift

More importantly, it was here that she seemed to have found a home.

But now, because of her mistake, making Ji Feng no longer trust her, these days she can obviously feel Ji Feng's distancing, heart as if it is like losing the most loved ones that hard.

Now, Ji Feng is really going to drive her away, and it's as if Bai Spider's heart is empty all of a sudden.

Chapter 1277

"Let's go!"

Looking at the crystal glittering in the beautiful eyes of the white spider, and then remembering all the things she had done before, finally, Ji Feng nodded and said, "The next time will not be an exception!"

"Really?!" White Spider was instantly delighted, but was still a little hesitant and asked again.

"Tell others more about me in the future, so that they can get a better grasp of my situation again, or attack and kill me a few more times never give me more trouble again!" Ji Feng did not have a good temper and said.

Hearing Ji Feng say this, the white spider was instead sure that Ji Feng really did not intend to drive himself away, and she instantly had a sour nose and almost did not shed tears on the spot.

It was only at this point that Bai Spider finally understood that she had actually long since gotten used to this life of having a home, and was used to thinking of that villa as her home!

It turned out that knowing that she might be kicked out of this home would be so hard to bear!

At this moment, Bai Spider finally understood what she was thinking in her heart, she was actually not a homeless person with no one to rely on, Ji Feng and Xiao Yuxuan, were her family!

Of course, especially Tong Lei.

Although Tong Lei seemed to be usually cold and indifferent, both to people and to things, she carried a bit of indifference. But in reality, that was her character, and inside her heart, she was actually extremely good, and the weight she held in Ji Feng's heart was also the heaviest

"Young Ji, I promise there won't be a next time, or else I will leave on my own without you rushing me!" White Spider said immediately.

"All right!"

Ji Feng shook his head and laughed, "Don't drive yet, or else you won't even be able to keep up with them later!"

“Yes!” Bai Spider was immediately delighted, and a gorgeous smile appeared on that already beautiful and incomparable pretty face, which immediately caused the car to light up, and she was beautiful, but she was also city-dwelling.

“So, what about me?” Han Zhen suddenly spoke up, only to see some timidity in her gaze as she looked at Ji Feng, “Young Ji, don’t I have to go too?”

“Have you also revealed the news about our family?” Ji Feng asked rhetorically.

“No! No!” Han Zhen immediately shook his head straight.

Ji Feng instantly smiled, “That won’t do, of course, if you want to leave, just tell me directly, but don’t follow the example of the white spider, good riddance!”

“Mm!”

Han Zhen nodded, but her heart was a little timid, just now Ji Feng gloomy face, that look but made her very afraid.

However, after thinking about it, Han Zhen said, “Young Ji, I think sister Bai Spider is also extremely good, she may also be inadvertent to make a mistake”

“And you’re pleading for her?!” Ji Feng immediately lost his smile.

Han Zhen then smiled embarrassedly and lowered her head, through such a long time of contact, she already knew that Ji Feng was not like what she imagined, he was not a fop, but very wise and authoritative, that’s why she was a bit timid when Ji Feng spoke with a sullen face just now.

So at this time, when facing Ji Feng again, it was as if she felt like she was facing her big brother and could not help but reveal her little daughter posture.

And at this time, the white spider, likewise, was slightly red in the face, very embarrassed.

However, the fact that Ji Feng could not kick her out was already very pleasing to her, so when she was flirted with twice by Ji Feng, she was not angry at all, but was even more embarrassed.

“Let’s go!” Ji Feng smiled faintly, then his gaze looked out the window and stopped talking.

Ji Feng didn’t know whether this decision was right or wrong, but he was sure of one thing: in the future, these two girls would definitely learn from their mistakes, and they would either do something even more outrageous and leave, or they would always follow the rules and never make such mistakes again.

Ji Feng hoped that it was the latter, after all, he still liked these two girls very much, not only because of their talent and ability, but also because they had been together for such a long time and had some feelings for each other.

Moreover, Ji Feng could certainly see that with Han Zhen by her side, Tong Lei’s mood was obviously cheerful and, in general, she was gradually talking a lot more.

If Han Zhen were to be sent away hastily, Tong Lei would definitely be a little uncomfortable.

Don't look at Tong Lei as a cool natured person, but once she gets attached to something or someone, she will be very persistent, and her character, Ji Feng knows very well.

This was why Ji Feng didn't outright kick out White Spider and Han Zhen in a fit of rage, but intended to let them choose for themselves.

Because from the bottom of his heart, Ji Feng did not want them to leave either!

Next, the atmosphere between Ji Feng and Xiang Yongzhan and the others was much more relaxed. Although the relationship between them could not return to the previous state of unreserved trust, at least, it was developing in a good direction.

At this point, the negative impact of the conflict between Chang Chongwei and the Zhao family and Ji Feng had come to an end. After this twist and turn, Ji Feng was able to understand more about how people get along with each other, while Xiang Yongzhan and the White Spider and the others also understood more about Ji Feng's character and temperament.

This is a person with firm principles and bottom line, usually as long as his bottom line is not touched, then do anything is good to discuss, but once touched his bottom line, Ji Feng is extremely tough, rarely back down!

The fact is that the company's business is not only a good one, but also a good one.

After this storm, I'm afraid that no matter if it was Xiang Yongzhan or White Spider or He Hongwei, they all had a further understanding of Ji Feng's tough and rigid character.

In the future, when they get along with Ji Feng, they will all understand what to do.

A storm that passed!

.....

Time passed day by day, and in the blink of an eye, nearly a month had passed, and there was less than a week to go before the November long vacation.

In these days, White Spider and Han Zhen once again resumed their former bodyguard status, and Ji Feng also honestly went to class, while taking time to pay attention to the development of the Tengfei Group, especially the newly established Tengfei Electrical Appliance, which was the focus of Ji Feng's attention.

Han Zhong and Li Xin did not let Ji Feng down, and faced with that extremely hot 3D TV market, they were not swept away. When the detailed market research report came out, they worked out a thorough marketing plan, as well as a long-term market strategy, after discussion.

The agency rights were still distributed according to provinces in the country, with one agent in each province. As for the distributors below, Tengfei Electric also had the right to supervise them, thus ensuring that there would be no confusion in the product market, and more effectively avoiding cross-border and malicious bidding behaviour among distributors.

This is indeed necessary!

In Ji Feng's memory, the market of a famous domestic health care product, Gold XX, could be described as chaotic, with distributors underneath crossing borders and even directly across provinces, and there were countless such acts.

This leads to, those honest to goodness distributors, this side just arrived, he contracted the area, has been full of goods, making his own hands of goods simply can not be sold, but the problem is, these well-known products, distributors in the contract to get the agency, there is a commitment, every month at least how much goods to go, or will be fined, or should have gotten the discount, you can't get it

So, many dealers may work hard for a whole year, the result is because a month of goods did not lay down in a timely manner, it will be granular, in vain a year of hard work.

There are so many things like this.

Not only one kind of health product, but also other goods have similar cross-border phenomena, which is bad.

Therefore, Ji Feng mentioned it to Han Zhong and Li Xin, who naturally noticed the problem, so this aspect of market supervision also became one of the priorities of the marketing department of Tengfei Electric.

Only by preventing minor problems can we establish a market with a reasonable mechanism and healthy development, and only then can we have long-term development.

With the ability of Han Zhong and Li Xin, the market for 3D TV sets became even hotter within a month. The agency fees paid by the agents alone made it possible for Tengfei Electric to make a large amount of money soon after its establishment.

Subsequently, large orders were like snowflakes, almost filling up the marketing department of Tengfei Electric, and large quantities of TV sets began to be shipped to all parts of the country.

The Mingguang Electric and Dexing Electronics factories, which were producing at full power, were unable to meet the huge market demand.

Although everyone knows that this is only the beginning, the market is in a blank state, that's why there are so many orders, when the market is gradually saturated, the orders will be much less and the sales volume will also start to fall, but that doesn't matter anymore.

How big is the whole Chinese market?

Even if Mingguang Electric and De Xing Electronics were to produce at full power day and night, it would take at least half a year to a year to meet the current demand for orders, is this not enough?

As for the smooth down after, that is naturally better, can give Tengfei electrical more time to develop new products, work and business will also enter the right track.

As for the full revival of the Dexing Electronics Factory, that was all incidental, but Ji Shao Hong was overjoyed and made a special call, that kind of extreme excitement was really overwhelming.

Although I already know that once the 3D TV set is really put on the market, it will certainly be a hot incomparable, but, Ji Shaohong but also did not expect that the market will actually be hot to this point, just the revival of the De Xing Electronics Factory, for Ji Shaohong, this is a heavy political achievements.

Not to mention, the red light electronic components production base has become a bad project, the current large base inside, can not even see a worker.

With this, Ji Shao Hong's prestige in Huahe County has increased by a large margin!

No way, this is a political achievement, and it is real, no one can deny, who is not convinced, also to take over the mess, and then turn this mess on the verge of bankruptcy, into today's red-hot to solve the employment of thousands of people big factory?

With this, plus the secretary of Huahe County is looking at retiring, Ji Shaohong promoted to secretary, that is already a sure thing!

Ji Feng get rich, Ji Shaohong get political achievements this can really be said to be promoted and get rich together!

The first cooperation between the son of the first line and the son of the side line, win-win!

And at this time, Ji Feng, but is accompanied by Tong Lei, in the school near the cinema, leisurely watching movies.

Chapter 1278

"Years from now, when you remember that you once rejected someone, will your heart, will it ache vaguely?"

"At that time, will you regret it?"

.....

On the big screen of the cinema, a romance film was playing.

In fact, Ji Feng was not very interested in this kind of movie, whether it was before or now, he was equally so.

In Ji Feng's opinion, what was in the movie could only be taken as a kind of spiritual support, or, sort of a transfer of emotions in his heart.

For example, I don't know how many teenagers in China like to watch Kerry's romantic drama, that kind of pure and beautiful love, many people aspire to, but after seeing it, the life is still life, the busy running, or still the same.

This society, your life, will not change just because you have learned something from TV.

When a person can't even fill his stomach, love is a luxury for him, especially in today's materialistic society, that thing is definitely a luxury.

However, Tong Lei was watching with great interest.

As she watched the man and woman break up on the big screen, Tong Lei's eyebrows would furrow slightly, and in the darkness, her beautiful eyes were shining with something bright.

And when some funny or sweet love shots appeared on the screen, the corners of Tong Lei's mouth would have a slight smile, as if she was also happy for the male and female leads, and as if she remembered something, she turned her head to look at Ji Feng, and then went back to watching the movie.

Ji Feng then smiled faintly and also concentrated on watching.

.....

After an hour or so, the show broke up.

Ji Feng and Tong Lei walked out of the cinema hand in hand. Tong Lei seemed to be still immersed in the movie, just leaning close to Ji Feng, not saying a word.

"Lei Lei, what's wrong?" Ji Feng asked with a smile.

"Ji Feng, do you think if we were in a situation like theirs, would we have to break up too?" Tong Lei suddenly asked.

Ji Feng shook his head and lost his smile, "How is that possible, you know my temper, unless you are leaving by then, then is not right, even if you are leaving, I will not let you go!"

"Mmm!"

Tong Lei smiled sweetly, a pair of small hands grabbed Ji Feng's arm: "Then you have to remember what you said, no matter what time it is in the future, you are not allowed to forget!"

"Of course!" Ji Feng laughed.

"It's good that you remember!"

Tong Lei then happily took his arm and the two of them walked together towards the car park, "By the way, you don't seem to like watching romance movies too much!"

"Who said that, of course I like to watch them!" Ji Feng said immediately. Although he knew that the plot in the movie was fake, it was good to talk about it, not to mention that some of the beautiful feelings in the movie were indeed very touching.

"I know you guys all like to watch some hot movies and watch blockbusters, like a few of our housemates in the dormitory, their boyfriends are all like that!" Tong Lei said.

At this time, Ji Feng suddenly smiled strangely.

"What are you laughing at?" Tong Lei asked.

An odd smile flashed across Ji Feng's face as he moved to Tong Lei's ear and lowered his voice, "Lei Lei, do you still remember the first time we watched a movie together?"

"Of course I remember you bad egg!" Tong Lei's pretty face instantly blushed and her small fist hit him, "Rascal!"

Ji Feng instantly laughed out loud.

The first time they watched a movie, it was still in Mang Shi County, when Ji Feng was still the first time to go to the cinema, Tong Lei also did not know too much, the result when they went in, only to find out with dismay, the original big screen played, actually is the children's inappropriate movies.

At that time, both Ji Feng and Tong Lei were still young people, so they had never seen the legendary 'action movies', so they were stunned.

Soon, they were also influenced by the environment and did some ambiguous things

The first thing you need to do is to think about the ambiguous scene at that time, Ji Feng can't help but smile badly, it is said that young couples come together in old age, he and Tong Lei, can really be considered a teenage couple.

The two people from the acquaintance has been to come together, that all kinds of experience, as if it was yesterday, really let people sentimental and nostalgic.

Ji Feng couldn't help but feel a sense of emotion and put an arm around Tong Lei's slender waist.

It seems that Tong Lei also remembered the hazy and beautiful feelings they had at the beginning, and leaned even tighter in Ji Feng's arms.

In Ji Feng's heart, no matter what time it is, Tong Lei will always carry the most weight.

When he met Tong Lei, it also happened to be the time when Ji Feng's time came. This girl, who seemed like a genie, was really the best gift from the old heavens to him!

"Ding"

Suddenly, Ji Feng's phone rang, and he immediately took it out of his pocket, only to find that it was actually Liu Xin calling.

"Hello, this is Ji Feng!" Ji Feng immediately picked up the phone.

"Little Chief, this is Liu Xin." Liu Xin's voice came over the phone.

"I know, calling at this time, is there something going on?" Ji Feng asked.

"No no, it's just" Liu Xin said with some hesitation, "Little Chief, it's been a month since we arrived in Jiangzhou, we've rested a long time ago, do you think it's time for that confrontation match to take place?"

"Really well rested?!" Ji Feng asked, "How's your practice going?"

"It's all fine!" Liu Xin said immediately.

"Good then, just wait for my call!" Ji Feng smiled at once.

After hanging up the phone, Ji Feng couldn't help but shake his head and smile.

At first, for the sake of fairness, Ji Feng didn't let Liu Xin and the others play against the four Yi Xingchen as soon as they arrived in Jiangzhou, although at first he was thinking of putting the battle team

together as soon as possible, but considering that Liu Xin and the others might not be too accustomed to the climate in Jiangzhou.

Of course, for the alternates of the Red Arrow Brigade, it was a joke that they couldn't adapt to the climate, many times their combat environment was extremely harsh, if they didn't adapt, they would die!

But since it was now a confrontation match, it was natural that both sides had to be prepared.

Therefore, after Ji Feng's permission, Liu Xin and the others could train in the staff gymnasium of the Tengfei Group, after everyone else had finished work, so that they could familiarise themselves with each other as soon as possible and achieve the best level of tacit understanding, as well as being able to fully adapt to the environment of Jiangzhou.

And at this time, Yi Xingchen and Guo Tao, the four of them, had not worked with each other for a long time, so they could also take advantage of this opportunity to get familiar with each other again.

So it dragged on like this, and nearly a month had passed.

If Liu Xin hadn't called, Ji Feng would have wanted to let them rest for a while longer, but now it seemed that they couldn't wait any longer.

Since that was the case, then Ji Feng didn't intend to wait any longer.

The sooner the battle team was formed, the sooner Ji Feng could also save his mind.

So after thinking about it, he dialed Yi Xingchen's number.

"Hello, boss?" Yi Xingchen's voice was a bit out of breath, and it looked as if he had just done some strenuous exercise.

"Old Yi, how are the preparations going?" Ji Feng asked with a smile.

"No problem." Yi Xingchen immediately said, "We even rehearsed cooperating in combat just now, and the previous tacit understanding is still there, so there's no problem at all!"

"Since there's no problem, then let's set the time for tomorrow, and I'll notify you guys of the location." Ji Feng smiled.

"Then I'll trouble the boss to make the arrangements." Yi Xingchen laughed.

After closing the line, Ji Feng couldn't help but deliberate, he frowned slightly, "Military camp, field club where would be the best place to go?"

After deciding to let Liu Xin and the others and Yi Xingchen and their rivalry, Ji Feng deliberated the issue of location, there is a special field club in Jiangzhou, for those who want to try the excitement, the equipment inside and such, are very realistic, only the bullets in the guns are all the kind of colorful bullets, which will have colours when they hit your body to prove that you were hit... ..

In the barracks, there were also places for training and for exercises, and obviously the equipment was more professional.

It's quite different when you compare them.

"Let's go to the field club!" In the end, Ji Feng made his decision.

These people would be his personal battle group, so it was better to keep a low profile. Although there was nothing wrong with borrowing the military district's exercise venue, if someone with an intention to trace it, it would more or less take a lot of words.

Ji Feng didn't want to get involved with certain people on such matters, so going to the field club was the best option!

"Lei Lei, do you want to see a fight?" Ji Feng suddenly turned his head and asked.

"A fight?!"

Tong Lei couldn't help but be stunned, "What war?"

Ji Feng chuckled, "How about this, tomorrow I'll take you to see the fun, well let White Spider and Han Zhen go along too, they need to follow along and learn properly."

"But I have to go to school tomorrow!" Tong Lei said.

"It's okay to go one less time!" Ji Feng laughed.

"You're instigating me to skip school, " Tong Lei pouted, "It's even better if you don't learn yourself, you want to bring me down too!"

"It's not that serious"

The duo joked and laughed as they got into the car and drove into the rolling traffic.

.....

The next morning, Ji Feng and the others all got up early and simply cleaned up a bit.

"Boom boom boom!"

A few people were eating breakfast when a knock sounded on the door, the white spider immediately casually pressed the remote control, the door gradually opened and an excited Zhang Lei then walked in with Shen Jingyi in stride.

"Crazy, when does it start?!" Zhang Lei asked excitedly, yesterday Ji Feng told him that he was going to take him to see the exercise in the field, he was so excited that he might not have been able to sleep last night if he didn't have to insist on practicing aerobics.

Ji Feng smiled, "We'll go after breakfast!"

"You won't starve to death with one less meal!" Zhang Lei said with a big grin, "What's so good about a meal that's catchy!"

Tong Lei then instantly glared at him, "I had even prepared breakfast for you, but it seems you don't need to eat either, Jing Yi, come and eat breakfast!"

“Who said I won’t eat?!” Zhang Lei instantly hemmed and hawed, not at all aware of being a guest, hemmed and hawed at Tong Lei and Xiao Yuxuan, and sat down at the table, picking up a doughnut and taking a big bite.

Tong Lei glared at him, but there was nothing she could do about it, her big brother, he had such a temper!

“Crazy man, the next scene must be exciting, right?” Zhang Lei asked as he chewed and turned his head.

“Well, it’s hard to say if it’s a big scene or not, but it’s wonderful for sure!” Ji Feng laughed.

On one side were the alternates of the Red Arrow Brigade, on the other side, were tough mercenaries who had experienced life and death for an unknown number of times, the confrontation between them would definitely be exciting!

Chapter 1279

Jiangzhou, a wilderness club called Wild Forest.

When Ji Feng and the others parked the car, they found that both Liu Xin and Yi Xingchen had already arrived, and at that moment they were sitting separately in the lobby waiting.

Although they lived together in the Tengfei Group, because Ji Feng had not made any deliberate arrangements, Liu Xin and the others, and Yi Xingchen and the others did not know each other yet, and at most, they had only met each other, and I am afraid they had not said a few words.

Plus, they were about to hold a confrontation match today, so the two sides were sitting in what could be described as a clear separation.

When they saw Ji Feng and his group arrive, both sides immediately stood up.

“Go in!”

Ji Feng waved his hand with a smile and didn’t say much. The group of them all looked formidable, and they were more or less sticking out in this hall.

When he came to the front desk, Ji Feng checked in the venue he had reserved in advance and got his hand tag. And after that, he led the way through the hall and went to the outside venue.

Since it is a field club, it has to be as realistic as possible, so the general field club covers an area that is not small, and there are also various terrain settings inside, such as mountains, deserts, Gobi beaches, and even underwater environments, etc.....

The majority of field clubs are built on the outskirts of the countryside, or in the local area, such as a small mountain contracted to develop in which the mountain and jungle terrain is ready-made, the rest just need to get a man-made lake out, or some other terrain, fenced around, set up a guard post and monitoring equipment... ..

That would be enough!

The Wild Forest Safari Club they came to today is built on a hill, go through the gate at the foot of the hill, enter the lobby, then after checking in, walk through the lobby again and it's only about a ten minute walk to the safari site.

There are several other rows of houses here and they are all marked with numbers that correspond to the numbers on the guests' hand tags.

In the first row of houses, there is mostly field equipment and so on, and further ahead are changing rooms, luggage storage and so on

The most important thing is that the front of the house is divided with wire mesh down to a block of area, which is prepared for different guests, if not so separated, then all the guests who came to play field war ended up mixing together, not knowing who hit who.

Ji Feng and the others chose area number two, which had the most complicated terrain, mountains, jungle, Gobi beach, and there was also a factory

Of course, the factory mentioned here, that was just a model, the things inside were fake, but it looked presentable and very realistic.

"Everyone, the location we have chosen is here." Ji Feng looked at the two teams in front of him, Liu Xin and Yi Xingchen, and said with a smile, "The rules are simple, within the time limit, take out the other side all, even if you win, other than that, there is no excuse or reason, no limit on the way of action, no limit on the number of people to work with, no limit on the weapons

anyway, just one principle. The only principle is to kill each other by any means possible! Is that all right?"

"Yes!"

"Good!"

Ji Feng nodded with satisfaction, looking at the warlike gazes of both sides, Ji Feng smiled faintly, raised his hand to look at the time and said, "It's eight forty in the morning, our area is not too big, give you four hours, that's enough, right?"

Liu Xin and Yi Xing Chen looked at each other and nodded at the same time, "That's enough!"

"The fighting spirit is high!" Ji Feng laughed, "In that case, then we'll give you twenty minutes to change your clothes and equipment, and at nine o'clock sharp, we'll start on time!"

"Yes!"

Everyone answered at the same time.

"Go on!" Ji Feng waved his hand with the same intent.

Regardless of who lost or won these two pairs, just looking at this kind of spirit of theirs was enough to see that this was definitely an elite squad, and moreover, it was his own squad, so Ji Feng's mood was naturally good.

"Crazy people, different from the rest!" Zhang Lei was likewise watching with excitement.

This is really the first time he has experienced this kind of scene, and while it is new, it is also heartfelt, can't wait to join in immediately, just looking at the momentum of these two teams, it is very exciting, if his own men have such a force

The two teams are very exciting, if you have such a unit under you.

Ji Feng couldn't help but smile slightly: "This is still just the beginning, when we train them all up later, then they will be the real elite, definitely a division of tigers and wolves!"

"Tsk!"

Zhang Lei couldn't help but bare his teeth as he listened, although it seemed a bit taboo to have such a team in your hands, but no matter what, to be able to command such a team, it would definitely feel extraordinary.

What's more, if you don't use this force to mess around, with Ji Feng's status, the top will definitely not say anything.

Besides, even a bastard like Chang Chongwei could use people from the special department to attack and kill Ji Feng at will, and now Ji Feng is just looking for a few people to protect himself, so he can't?

It doesn't make sense!

The fact that he had a calm look on Ji Feng's face, Zhang Lei knew that this kid was not afraid of people gossiping.

With the power of the Ji family, if Ji Feng is really determined to do something, I'm afraid it's useless for anyone to say anything. The first thing you need to do is to ignore what you are saying.

Many officials nowadays, isn't that how they do it?

The officials who have fallen because of various problems, but in the end, they are still high up and gently put down, deal with just give a warning ah, ordered to apologize ah and so on, you how the public discontent, how to talk, people ignore you, what can you do?

The company's main business is to provide a wide range of products and services to the public.

The white spider next to her also looked quite unsettled.

When she saw this scene in front of her, she understood what Ji Feng meant – Ji Shao was not going to let her lead a team, whereas originally, Ji Feng had intended to make her the captain!

All this, of course, had to do with what had happened before, because she had told some of Ji Feng's information to Xiang Yongzhan, so it had caused Ji Feng to reserve his trust in her.

White Spider couldn't help but sigh softly in her heart, to gain Ji Feng's unreserved trust again, I wonder how long it would take!

Trust may take years to build up, or even longer, but to undermine someone's trust in you, then I'm afraid all it takes is a small, insignificant incident, or a simple sentence, a second or two is enough

A few minutes later, both Liu Xin and Yi Xing Chen both came out of the changing room quickly, each fully equipped and armed, only, Yi Xing Chen and the four of them wore the kind of green with red camouflage uniforms, while Liu Xin and the others wore, the green with white camouflage uniforms, this is to distinguish the personnel of both sides well.

“So fast?” Ji Feng smiled, “Giving twenty minutes seems to be too generous. In that case, I have two more maps of our area here, so if you guys need them, you can take them and study them to see how you need to play to win this confrontation the fastest!”

Yi Xingchen smiled slightly, but did not go up to get the maps, and Liu Xin did the same.

“None of them need it?” Ji Feng asked.

“If we rely on the map, then there would be no point in playing this rivalry.” Lu Gang said.

Ji Feng then smiled and nodded, satisfied with the reactions of both sides in his heart.

He saw a touch of caution in both Yi Xingchen’s and Liu Xin’s eyes, and it was clear that both sides realised that the other side was not as simple as they had originally imagined, and that a connoisseur could tell when he or she had made a move. ...

This time, they had met a formidable enemy!

Ji Feng once again looked at his watch and said, “Since you guys are changing clothes quickly, let’s make it as quick as possible and start ten minutes early Everyone start entering the area! The time to show your skills is here, it’s a mule or a horse, pull it out and skate around!”

“Yes!”

Ji Feng waved his hand, “Let’s go!”

Both sides, Yi Xingchen and Liu Xin, entered the area through two different passages, and the locations they arrived at in the end were likewise separated by a long distance.

From this point on, the confrontation was exactly where it started!

“Let’s go up to the watchtower!” Ji Feng said.

This field club had also set up a special viewing area on the roof of the building for the convenience of some guests who were not participating in the battle, and of course, this club had set up all-round monitoring equipment, making it possible for the guests to see every move of both sides in the area on the screen from their rooms.

However, Ji Feng still preferred to be able to observe visually, many things could not be seen from the monitoring equipment.

The group went to the rooftop of the building, found seats and sat down, on the rooftop hung a rack of binoculars

“Ji Feng, what are all these people?” Tong Lei looked alarmed, she lowered her voice: “How do I see they all seem to be regular army men? What are you up to?”

“These people, ah, will all be our guards in the future.” Ji Feng laughed, “Even if I go out one day, with them and the White Spider and the others around, there won’t be any problems with your safety.”

“Then with them around, you won’t need to fight for your life with others many times in the future, right?” Tong Lei asked.

“..... won’t be!” Ji Feng smiled faintly and shook Tong Lei’s small hand, of course he could detect the concern in Tong Lei’s words and could understand her worry, this girl

“See, our family’s great grandmother how worried about you, usually have anything still have us away!” Xiao Yuxuan also said next to her.

Ji Feng then couldn’t help but shake his head and smile.

“Look, they’re all getting into position, it’s about to start!” Zhang Lei, who had been impatiently watching with binoculars, suddenly shouted.

Chapter 1280

There are uneven paths underfoot, with occasional weeds and some vines twisting around, and a thick canopy of trees overhead. The autumn tiger is still raging, which makes the temperature in the jungle even more stifling and unbearable.

Don’t ever think that because the sun doesn’t shine in the jungle that the temperature should be lower and cooler. Those who have experienced it first hand will not think so.

In this dense jungle, the temperature can be even higher than outside, and there is a steaming feeling, like a big steamer, if you stay inside for a long time, you may sweat and pass out.

The denser the woods, the more such a feeling there is inside, while if the trees are sparse, it is obviously much better

Unfortunately, this area chosen by Ji Feng, the woods are all very dense, looking at the eyes appear lush, as if they have suddenly arrived inside a primitive forest.

The four of them, Yi Xingchen, were walking through this dense jungle.

Liu Xin and the other nine people were different, as they had just entered the field and started from in front of a group of buildings. These buildings looked just like those low houses in the countryside, with no tall buildings.

What is worth mentioning is that these buildings are actually made of wood

The area chosen by Ji Feng, just from the shape of the words, appears to be somewhat long and narrow, is north-south, this area across the habit of many terrain, such as Gobi Beach, such as artificial lake and factories

Yi Xingchen and Liu Xin their two sides, various from one end to the middle of the sudden, wait until the middle section, there will also be an encounter.

The location of this encounter may be the Gobi beach, inside the factory, or near the artificial lake

Anyway, it depends on how fast both sides are moving forward and where they intend to pick for the battle.

“Crazy, look, I see people moving, the ones to the north are moving fast, it’s the few guys to the south who are in the jungle and can’t see too well” Zhang Lei muttered under his breath as he grabbed his binoculars “Tsk, these guys are really handsome, look at their fully armed look, if they make another sudden run, boy, handsome!”

Ji Feng laughed and didn’t reply.

Perhaps to outsiders, Liu Xin and the others appeared to be very heroic and handsome as they moved forward quickly in full armour, but only they could appreciate the taste of it.

The weight alone was enough to make even an adult feel overwhelmed.

For example, the most simple equipment, a long rifle, usually weighs more than ten pounds, and there are also spare magazines, grenades, climbing tools and so on, adding up to several dozen pounds.

The actual fact is that you’ll be able to get a lot more than just a few of the most popular and popular items on the market.

Ji Feng but personally experienced this kind of taste, and when he was trained in the training space, he carried not only these things, but even a mobile laser cannon, and a first aid kit, etc.

Without strong physical strength, these things alone would be enough to make a person start panting after running a few hundred meters.

Then there’s no need to talk about fighting people to the death!

So for Zhang Lei’s praise of being handsome, heroic and so on, Ji Feng didn’t say anything at all, because this stuff was hard to understand that kind of hard work if one didn’t experience it first hand.

Next to them, Xiao Yuxuan and Tong Lei were also holding binoculars and watching with rapt attention. They didn’t know where the highlights of this kind of raid were, nor did they know the level of hardship involved, but they were both novel about those people carrying such heavy things on their backs and still being able to do fast running.

It was the first time they had seen such a duel.

Even Tong Lei, who had never said much, couldn’t help but ask Ji Feng a few times, “Are they really that strong? If it was a real war in the field and these warriors were injured, how would their people get him back?”

Such and such questions were asked by Tong Lei.

Ji Feng was not the least bit impatient, but smiled and replied one by one, while Tong Lei still looked somewhat puzzled, after all, it was still somewhat difficult to get a girl who had never been exposed to these to understand the various points of war.

The two people next to him, Bai Spider and Han Zhen, could not help but look at Ji Feng twice after hearing his answers.

Although the words Ji Feng explained to Tong Lei were very concise, he hit the nail on the head and got straight to the point, which made them surprised that Ji Feng was also so proficient in field combat?

The company's extraordinary physical skills, even the army has to ask him for training methods, and is also proficient in the essentials of combat, but also in business is also very talented, under the talents of a lot of people

The actual fact is that there are a lot of people who are not able to get the job done.

This is the first time I've ever seen a man from a big family who knows so much, and not just a little, but a lot?

This made both White Spider and Han Zhen curious.

"Look, they're making contact!" Zhang Lei suddenly shouted, "Ee? How come there are only two people to the south, where did the remaining two go? Did they fall out of line?"

Several people immediately focused their attention and took their binoculars to look.

Only to see that at the edge of that dense jungle ahead, there were two figures in camouflage uniforms, also advancing rapidly, if not for their fast movement, several people might not have been able to spot them, the camouflage uniforms were really well camouflaged in the woods.

It should be Yi Xingchen and Guo Tao!

This was the judgement Ji Feng made from their figures, the two people who were missing were naturally Yao Zhijian and Liu Zejun.

Ji Feng couldn't help but raise an eyebrow, it looked like Yi Xingchen had used a tactic this time just after he came up.

"The north side is likewise missing three people, and they disappeared in a flash" Zhang Lei suddenly spoke again, "How did they disappear?"

Ji Feng and other people's eyes immediately looked towards the north, and sure enough, they only saw that the original nine people, in the blink of an eye, only six people were left, at this time they were already on the Gobi beach, basically it was hard to hide, but they just couldn't find those three people, it was as if they had disappeared into thin air

"It's a bit interesting!" Ji Feng laughed: "All pay attention to watch, the exciting is coming!"

When a few people heard this, they instantly perked up and watched.

At this moment, the two sides were already only a few hundred meters apart, seeing that the encounter was about to arrive, everyone had their eyes wide open said watching.

Judging by their running speed, they would end up encountering each other near the abandoned factory in the middle

"BOOM!"

A shot rang out, seemingly out of nowhere.

Splat!

Only to see Liu Xin's side fall straight down a warrior, hit!

The others were instantly aghast, there was a sniper!

The next moment, the remaining five men immediately scattered, and the one who fell down, just lay on the ground motionless, even if the blazing sun was above his head, he did not move. Because if it were a realistic engagement, he would be dead by now, and if he were to move around now, it would undoubtedly interfere with the combat between the two sides

Ji Feng couldn't help but nod slightly as he watched, just from the quality alone, Liu Xin these people deserve praise.

Ji Feng knew that the ones that little uncle had picked for himself were really quite good fighters, with a little training, they could create an elite force!

"Snipers?" Zhang Lei was stunned, "Didn't see the two people from the south shooting ah were the two that disappeared?"

"It's Yao Zhijian!" Ji Feng secretly said, can have such a shot, directly from the edge of the jungle shot, a shot to take out the other side a warrior, also only Yao Zhijian has this ability, Liu Zejun can not even.

Boom!

The sound of gunfire rang out again.

POW!

Another warrior was hit in the arm, it was Guo Tao who had raided with Yi Xingchen!

He was hit in his right arm, so he rolled on the ground and switched his gun to his left hand, his right hand dropped straight down Since it was a sparring match, there had to be rules, and in reality being hit in the right arm, the same could not be used.

When Yao Zhijian took out one of the other fighters, the sniper over there immediately returned the favor, thinking that if he missed a little more, Guo Tao would have been taken out as well.

Boom! Boom!

Two more shots rang out, but this time, no one was hurt again, as everyone was on guard.

In the blink of an eye, several people had encountered each other near the abandoned factory.

If you were to engage in a gun battle in a small space, you would need the fastest reaction, the most accurate shot, and the calmest state of mind to deal with it, and of course, a little bit of luck, otherwise, the one who would end up falling down would definitely be you!

As expected, Yi Xingchen and Guo Tao, all of them hid inside an abandoned factory, and a few moments later, Liu Xin and five others also went in.

At this time, Ji Feng's attention, however, was focused on the five people who still remained outside.

Yao Zhijian and Liu Zejun, as well as the three people from Liu Xin's side.

It was certain that they both had snipers on both sides, and as for who the snipers were, Ji Feng could guess a rough idea, but the only thing he couldn't be sure of now was why Liu Zejun had stayed outside!

This was Ji Feng's biggest doubt, because he knew very well that Liu Zejun was not a good shot, or at least, not a good sniper, and his staying outside would not play a big role.

Besides, Liu Xin and the others were also elites, if they relied on Yi Xingchen and the injured Guo Tao alone, eight out of ten `9 times they would not be able to defeat Liu Xin and the five of them.

What did Yi Xingchen want?

The three people Liu Xin left behind, who were they again? Was it just snipers?

Ji Feng felt that the most interesting place had appeared, and probably, the most suspenseful place in a normal rivalry match, had arrived!
