

Campus Master 1281

Chapter 1281

“Can’t see anything ah!” Zhang Lei was a bit anxious, “If I had known this, I might as well just go to the surveillance room, then although I can’t see the whole picture, but at least I won’t mess up so much that I can’t see a single person What kind of telescope is this, it can’t even penetrate the walls... ..”

On the rooftop of the field club, Zhang Lei held the binoculars and looked east and west from time to time, but he just couldn’t see a single figure. Occasionally he saw one, and that was still someone from another area, not at all from both Yi Xing Chen and Liu Xin, which made him feel bored and tickled in his heart at the same time.

To say that this other people are fighting to the death inside, but they can’t see it at all outside, this is really too anxious.

Ji Feng couldn’t help but smile slightly: “If you want to see life and death fights, you can go and see black boxing, or you can just go to the cinema and see an action movie. Bringing you all here to this rooftop is so that you can see the full picture”

Partial fighting, for White Spider, Han Zhen and Zhang Lei, that is basically no longer a problem, especially Zhang Lei, the strength of his body is improving rapidly, the average person can barely last more than one move in front of him, White Spider and Han Zhen are slightly inferior, but they are not much worse, for other martial artists, that is definitely all considered experts.

What they lacked most at this time was a sense of the bigger picture.

Looking down at the match from the rooftop, one can visually see the layout of both sides and their use of tactics, which is like looking at a map to fight a war.

In fact, at the end of the day, Ji Feng still hasn’t given up the idea in his heart – if possible, he still wants Zhang Lei to be the hand of the whole battle team, the top leader!

So such a good opportunity, he naturally won’t let Zhang Lei miss it

“All watch carefully, the good show is still to come”

Boom boom boom!

Before Ji Feng had finished his words, the sound of gunfire suddenly rang out, seemingly very abruptly.

Several people’s eyes immediately moved to the north and south ends, the gunshots were coming from both ends, it was obvious that this was the snipers from both sides fighting against each other!

“BOOM~~!” Another shot rang out.

From the binoculars, one could clearly see that leaves were flying in the woods, and that location, was exactly the direction where the gunshots came from before.

“There are at least three snipers!” Zhang Lei said.

Ji Feng couldn't help but nod, on Yi Xingchen's side was Yao Zhijian as the sniper, while on Liu Xin's side, there were at least two.

So, what was the third person he left behind doing?

"You guys, look, they're all moving!" Zhang Lei suddenly said, "They're all coming out of the bunker, it's a short fight!"

The snipers were going to fight each other? This is not bullshit!

He immediately looked, but found that Yao Zhijian was carrying a sniper rifle, catwalking quickly to the edge of the jungle, hiding behind a large tree.

He looked to the north and saw the same two snipers coming out from behind the house and quickly making their way to a gobi beach, hiding in a large rock and a small pit.

The two sides' speed, reaction and calmness were all on display in the binoculars, and Ji Feng couldn't help but nod his head.

The sniper is not just a good shot, but also has to be able to adapt and have the courage to be calm even when the other side is pointing a gun at him.

They have all of these points.

蹭蹭蹭

Looking at Yao Zhijian again, however, he had already gone up a large tree, and through the cover of the leaves and branches, he soon lost sight of him.

"What speed!" Zhang Lei couldn't help but exclaim in admiration.

The White Spider and Han Zhen beside him also couldn't help but nod their heads at this, if they were in such an environment, I'm afraid that they would have been directly taken down by the other party's sniper as soon as they came up, and would have been unable to discover the other party's hiding place.

Hoo~~!

Suddenly, a hat flew out of the tree canopy.

Bang~~!

The hat was instantly knocked away, but the sniper hiding behind the boulders on the Gobi Beach fired, an accurate and powerful shot, hitting a fast-moving object, a master.

Bang!

Another shot was fired, this one with barely any interval between it and the previous one, a blink of an eye.

However, the White Spider and the others exclaimed in unison, "Ah!"

The sniper hiding behind the boulder to the north was hit by a shot, lying on the ground, and was shot directly in the back, scattering a patch of red on his camouflage uniform.

One shot, hitting the nail on the head!

The white spider and Han Zhen on the rooftop drew a breath of cold air in unison.

The sniper hiding in the jungle was too good a shot, knowing that the sniper to the north had hunkered down behind a boulder after his shot hit the flying hat.

This kind of reaction speed, this kind of shooting skill, is really too amazing!

He had long seen Ji Feng's perverted marksmanship, using a random rifle that could be used as a sniper rifle, beating those snipers who couldn't even lift their heads up.

"Pop!"

At the same time, Yao Zhijian also fell straight out of the tree, because just as his shot fell, another sniper from the other side also fired.

Leaves were flying and Yao Zhijian dodged the fatal shot. Although he fell to the ground and fell badly, it was still too good to be true compared to losing his life.

The two sides went from one to two, to one to one in the blink of an eye. Sniper warfare, it's so brutal, in the blink of an eye you can be dead on the spot, there's no time to react, it's shocking!

"Beautiful!"

Ji Feng couldn't help but give a secret praise, Yao Zhijian's shot, indeed, was of a very high standard, he made full use of the scene's environment, and was high up, hiding himself very well, finally using his hat as bait, a shot hit, then without hesitation, he directly jumped down from the tree, also dodged the other party's fatal blow.

This series of actions were all subconscious reactions, as it was impossible for Yao Zhijian to know the other party's hiding position beforehand

It seems that Yi Xingchen and the four of them have made a lot of progress and achievements by insisting on practicing aerobics!

After falling on the ground, Yao Zhijian didn't care about the pain, so he rolled on the ground and hid directly behind a big tree, and just at the moment he rolled away, a bullet had already hit the ground, splashing a cloud of colours

It was a close call!

The few people on the rooftop were watching with great pleasure, like this kind of wonderful and incomparable sniper match, even on TV, they had never seen it before, this was the first time they had seen it, it was too exciting and too severe!

The few people on the rooftop didn't dare to stare, even the two women, Xiao Yuxuan and Tong Lei, couldn't help but keep their beautiful eyes wide open, watching attentively, not even daring to breathe.

Now the field had become one-on-one, and the next moment might decide the winner of both sides.

Ji Feng's gaze, on the other hand, fell on that abandoned factory, as well as near the wooden house to the north. He hadn't forgotten that there was another person on Liu Xin's side who was hiding somewhere and hadn't come out yet.

Ji Feng always felt that, perhaps, that person was the dangerous one!

The snipers on Yao Zhijian's and Liu Xin's sides, both of whom did not take another shot easily, could be seen through the binoculars, but Liu Xin's sniper began to sneak forward with his waist crawling.

Soon, Yao Zhijian also came out, and he likewise formally exited the jungle onto flat ground, only occasionally covered by cover, and he stopped behind that, sweeping around with his gun before stalking forward

As the distance between the two got closer and closer, the crowd watching from the rooftop became more and more nervous.

There is no doubt that these two are both extremely good snipers, and it may be a matter of the next second as to who will ultimately win the encounter between them.

When they were less than two hundred metres away, they suddenly both stopped, each hiding behind cover, seemingly sensing the other's movements or, perhaps, thinking of a ploy.

Don't think for a moment that just because they were on flat ground that they could see each other clearly; if that were the case, they would have picked up their sniper rifles and pulled the trigger.

The two were close together, but because there was a lot of cover in this flat area, it was very difficult for them to see each other clearly. So then, to hit each other, it would depend on which one of them let the other reveal their movements first.

As a sniper, as long as you know where the other side is hiding, even just a glimpse of it is likely to be a hit. This is the quality and ability that a super expert engaged in precision shooting should have, otherwise, it wouldn't be worthy of being called a super expert.

So now, it was up to their respective means.

What Zhang Lei and the others were concerned about was undoubtedly Yao Zhijian. Because from the very beginning, Yao Zhijian had almost shot himself in the foot, first taking down a fighter on Liu Xin's side with one shot, and then putting down the sniper

He was very good!

Ji Feng, on the other hand, had been searching for the guy who was still hiding in the shadows, and that was a dangerous man.

"What will he do?" Zhang Lei asked casually.

"I guess it will still be like last time, using something random to attract the other party's attention, thus exposing them!" White Spider said, "Look! He took off his jacket"

Several people immediately looked, only to see that Yao Zhijian had already taken off his top coat, while laying it flat and throwing it violently upwards.

Pop!

The jacket fell, the other party did not have any reaction.

Yao Zhijian, however, was undaunted and once again threw the jacket up still without any reaction.

The third time

Fourth time

When Yao Zhijian was about to throw it for the fifth time, his hand was just halfway up when he suddenly dropped it, and then, he violently picked up the sniper rifle beside him and rolled on the ground.

BOOM~~!

Chapter 1282

When Yao Zhijian was about to throw it for the fifth time, his hand was just halfway up when he suddenly dropped it, and then he violently grabbed the sniper rifle by his side and rolled on the ground.

Boom~~!

A piece of colour scattered where he was originally located, almost grazing his body and hitting the ground.

Boom boom boom

The other side had no mercy at all, and kept pulling the trigger. Yao Zhijian didn't have any chance to counterattack, and just kept rolling on the ground holding his sniper rifle to avoid the bullets coming from nowhere

This definitely has to be more intense than the most intense gun battle movie, and exciting, thrilling, especially this moment.

Yao Zhijian was like one of those masters on TV who are dodging bullets, rolling back and forth in a 'Z' shape on the ground constantly to dodge the dense and shadow-like bullets.

Every time he rolled, the next moment the bullets might land in his original position, exploding in a cloud of colour, the effect of the bullets exploding on the ground.

No one could describe how they felt when they saw this scene. The maggot-like bullets would make anyone's scalp tingle when they saw them, imagine if they were in the position of Yao Zhijian, I'm afraid they would even have the heart to die, there was no way to dodge them.

The bullets that were fired at Yao Zhijian did not come from the opposite side, but from the sniper on Liu Xin's side, who bypassed Yao Zhijian's bunker and fired from the side, leaving Yao Zhijian no place to dodge.

There was no third way to deal with the situation except to take it, or to keep rolling on the ground like Yao Zhijian did.

Of course, the result of taking it hard would be death.

That is to say, Yao Zhijian's dodging is actually the only way to avoid this deadly situation, and it is both the only and the best way.

Any other way would be a dead end.

But the level of danger involved is so great that one's sweat stands on end and one's scalp explodes just by looking at it.

The snipers on Liu Xin's side were already closing in, and their shots were so accurate that almost none of them missed, all of them went straight for Yao Zhijian, and if Yao Zhijian had moved even a tiny bit slower, I'm afraid he would have been killed!

Boom, boom, boom!

The fierce shooting and dodging lasted for about twenty seconds, which for everyone was twenty years long.

How many rounds can a good sniper, with a sniper rifle in his hand, fire in twenty seconds?

At least, one clip is not enough!

The sniper on Liu Xin's side was clearly not holding a ten-round sniper rifle

This means that within those twenty seconds, Yao Zhijian had to keep rolling at least a dozen times, possibly more!

Who else, outside of a well-oiled machine, would be able to make an accurate dodge with such intensity?

Well, Jian Yao has done it! Astonishing!

BOOM!

After another gunshot, the sniper on Liu Xin's side, suddenly backed up and then fell down violently and straight, at the same time, the crowd keenly noticed that at the moment he fell down, his hand started to change magazines.

A magazine was empty!

Hiss...!

Everyone couldn't help but suck in a breath of cold air, this was just too shocking, Yao Zhijian had actually dodged a clip of bullets, and from a sniper from close range!

It was unimaginable!

However, an even more unimaginable scene happened in the very next moment.

Only to see that while the sniper on Liu Xin's side fell, Yao Zhijian was violently slumping his body towards the ground and directly pulled the trigger.

"Boom!"

A bright red, in front of the chest of that sniper on Liu Xin's side, exploded

“Ah!” The white spider and Han Zhen on the rooftop, simultaneously exclaimed, “This how is this possible! How did he do that?!”

Under that kind of unprecedented high intensity shooting, not only to successfully dodge it, but also, to seize that fleeting opportunity to kill the enemy with a single shot, this is simply a god-like sniper!

The cold sweat on the foreheads of White Spider and Han Zhen immediately came down, and their faces couldn't help but flush, it was so exciting!

Zhang Lei even looked in awe and exclaimed, “Boy! That was wonderful! It's wonderful!”

This kind of counterattack in the midst of the Jedi, a scene that killed the enemy with a single shot, simply made everyone incredulous, but all those who saw this scene, their hearts were nothing but shock, or shock!

“This kid” Ji Feng also couldn't help but say in admiration, “I'm afraid this is his real strength, both in calculation and in body, it's quite beautiful, Yao Zhijian, awesome! ”

“Yes, you say, how can you imagine how he could hold out until the other side ran out of bullets and thus keenly seize the opportunity to kill the enemy with one shot!” Zhang Lei couldn't help but shake his head repeatedly and was overwhelmed with emotion, “What a master!”

The white spider next to him was keenly aware of the meaning in Ji Feng's words, and she asked with utmost consternation, “Young Ji, you just said that this sniper calculation is also very outstanding?!”

“That's right!”

Ji Feng nodded and said, “I'm afraid that this situation in front of me is something he deliberately created, remember how many times he threw his jacket in a row before? That was his attempt to draw his opponent out, causing him to attack him, and then he would return fire Only, if I'm not wrong, I'm afraid this kid didn't expect that his opponent was much more powerful than he imagined, and much bolder too, coming directly close and crossing the cover to attack him! However, the end result was good, he survived and took out the other side!”

White Spider and the others could not help but be silent, after Ji Feng said this, they were stunned to realise that this really seemed to be the case.

When Yao Zhijian had thrown his jacket upwards continuously before, at first they thought that it was to attract the other party's attention and make them think that Yao was going to jump up and observe, but they didn't think that Yao Zhijian himself was going to put his life on the line!

Amazing!

What a feat!

Other than that word, the crowd didn't know how else to describe Yao Zhijian!

Although his plan had gone a little wrong and he had wrongly underestimated his opponent's ability and guts, there was no doubt that he had won in the end!

With his opponent's bullets chasing him like a hock, he persevered and, with one shot, killed his enemy!

..... is awesome!

The first time they had ever seen such a fierce and exciting sniper battle was the first time they had ever seen one.

“That person who disappeared, where exactly did he go?” Ji Feng couldn’t help but frown slightly.

This last person was what Ji Feng was most concerned about, Liu Xin would definitely not leave a person unattended, but that last person had never appeared, which was very puzzling.

Ji Feng’s gaze still fell on Yao Zhijian, he felt that since Yao Zhijian was still alive, that last person, would definitely come to Yao Zhijian, after all, the confrontation was about winning, hiding on the sidelines and not showing up, that could not win.

At this moment, Yao Zhijian was already like a dead dog, lying on the ground, not even wanting to move.

In just ten to twenty seconds, Yao Zhijian’s strength seemed to have been used up!

So now he was lying behind the bunker, resting to his heart’s content.

Ji Feng couldn’t help but secretly nod his head as he watched, Yao Zhijian’s approach was extremely wise, he alone had first fought off three of his opponent’s men, the remaining one, he could take his time to play, now the first priority, of course, was to rest well.

Suddenly, Ji Feng only felt a flash of black shadows in his vision, he shifted his binoculars violently, and instantly found that a man, who didn’t know when, had actually reached a big tree to the south, with his gun, pointing right at Yao Zhijian!

This was that third person!

Ji Feng was instantly shocked, this was not the disappeared Liu Zejun, but the third person from Liu Xin’s side, otherwise the gun would not have been pointed at Yao Zhijian.

As expected, before Yao Zhijian could react, he saw the man in the tree shoot.

Boom!

Yao Zhijian’s back was instantly flooded with red, and he was taken out with a single shot before he even knew where his enemy was!

“Oops!”

Zhang Lei and the others on the rooftop couldn’t help but let out a sorry sigh at the same time, a sniper as tough as Yao Zhijian had been taken out by a single shot just like that, it was really too suffocating.

But Ji Feng was secretly nodding his head, sniper warfare, was originally so cruel.

The snipers are silent and sneak around, and one shot in the dark may take a life, but that person may not even know how they died until they die!

For example, the first soldier killed on Liu Xin’s side, he was still just charging when he was taken out by Yao Zhijian

Snap!

The sniper in the tree came down quickly and silently, heading straight for the abandoned factory.

It was Lu Gang?!

Ji Feng instantly concluded from the figure that this extremely deep hidden sniper was Lu Gang!

Good guy! The first time this match was held, Ji Feng was able to see the jungle, but he didn't even know when he had gone there.

This confrontation, for the first time, Ji Feng was not sure, it was bad, Yi Xingchen and the others were going to lose!

Chapter 1283

How exactly had Lu Gang crossed the flat area in the middle and thus lurked into the jungle to the south was a doubt in Ji Feng's mind.

It could be said that from the beginning until now, Ji Feng's eyes had been wandering over the whole area, hardly staying in the same place for too long, so even if Lu Gang was fast, it would be very difficult for him to avoid Ji Feng's eyes and hide to the south.

What's more, from the time Lu Gang appeared in the south, at least, he should have gone to the south after Yi Xingchen and the others had rushed out, otherwise, the last sniper to come out, Yao Zhijian, would have found someone lurking around, out of a sniper's keen intuition.

And there was another point that led Ji Feng to make this judgement – if Lu Gang had come to the trees to the south a long time ago, then he definitely wouldn't have watched as his peers were taken out by Yao Zhijian and done nothing about it.

So from these few factors it could be seen that Lu Gang should have entered the jungle when Yao Zhijian had completely emerged from the jungle and was hiding behind a bunker.

Ji Feng's heart suddenly stirred, could this be the case

When that sniper from Liu Xin's side, chasing after Yao Zhijian, it looked like the big game was already in hand, Yao Zhijian was almost certain to die, and at this time, everyone's attention was focused on Yao Zhijian and that sniper, thus neglecting the rest!

And at this time, Lu Gang went into the jungle to the south from his hiding place

He probably wanted to hide in the jungle to the south to prevent Yi Xingchen in the abandoned factory from winning by accident, if that was the case, then Lu Gang would be able to play the role of a single shot to determine the winner, he totally seemed to be a He was like a godsend!

Of course, even if Yi Xingchen and his team lost, it would still be necessary for Lu Gang to stay here.

In the battlefield, no one knows when something will happen, and having a sniper in control of the situation definitely increases the chances of survival for the rest of the team!

So in that case, Lu Gang would only be able to sneak past at that point!

“This guy, he’s really good!” Ji Feng watched as Lu Gang came directly behind a cover and after looking vigilantly for a while, had a quick run to the back of the factory and climbed up in a few steps, quietly coming to the roof and entering a state of alert Ji Feng became even more appreciative.

In fact, not only Lu Gang, even the few warriors just now, even the one who was killed by Yao Zhijian on the first shot, Ji Feng felt that they were very good.

Because from the engagement to now, time has also passed at least almost half an hour, and the first warrior that was taken out, to this day, is still lying in the hot sun, as if he is really dead This quality alone is not something that ordinary people can have, and Ji Feng wants this kind of warrior.

So from the beginning to see now, Ji Feng’s face has never broken a smile, these are valuable assets ah!

“What a pity, that sniper was really deep in hiding too, had to wait until people were too tired to move, and only then did he finish them off with one shot too bad!” Zhang Lei was somewhat upset for Yao Zhijian.

Ji Feng couldn’t help but smile, this Zhang Lei said more than once, obviously he was conquered by Yao Zhijian’s amazing performance just now.

However, Zhang Lei still did not have a deep understanding of the cruelty of war, and this was something that could not be rushed, what Ji Feng wanted to know now was where Liu Zejun had gone!

That guy was definitely not in the jungle anymore, this Ji Feng was absolutely sure of, otherwise, Lu Gang might have been killed long ago.

So, where had Liu Zejun gone?

Boom!

At this moment, Lu Gang, who was lying on the roof of the abandoned factory, suddenly fired at the entrance of the factory.

There was a thud!

A man wearing a camouflage uniform was directly chatted to and just fell straight onto the ground at the factory entrance without a trace of dragging.

Ji Feng looked through the binoculars, but found that the one who was hit, was actually Yi Xingchen!

Ji Feng was stunned, Yi Xingchen had been taken out?

“Holy shit!”

Zhang Lei suddenly shouted, “I didn’t see it wrong, did I? The one that was taken out just now seems to be the one leading from the south?”

“That’s him!” Ji Feng said.

“Then what’s the point of this, the boss over here has been taken out, so obviously the battle is over inside, or at least, the winner has been decided.” Zhang Lei couldn’t help but be stunned, “Is the battle going to be over so soon?”

Ji Feng couldn't help but shake his head and said, "It's not easy to say!"

"I think it's about time." Zhang Lei's tone was somewhat regretful, "Sigh! The people on both sides are very powerful, but still the people on the south side are a bit more powerful, but unfortunately, ah, the other side is very crowded and not too much worse, in the end, they can only be defeated if they can fight and that would be good!"

Ji Feng but a slight frown, he always felt that it should not be so simple to explain.

Otherwise, why was Yi Xingchen the only one who walked out?

Could it be that the firefight inside the factory, the fight ended with only Yi Xingchen left alone? But they also did not hear how intensive the sound of gunfire came from inside, ah, this is clearly somehow not right

But to say exactly what is going on, Ji Feng can't really say. Because that factory was blocked by thick walls, no one knew exactly what was going on inside.

But now it is certain that the battle force on Yi Xingchen's side has lost most of its strength, Yi Xingchen and Yao Zhijian were both killed in action, Guo Tao was injured, and it is still not clear if he is now killed in action, so the most suspenseful thing now is just a Liu Zejun.

"It should be over, right?" Zhang Lei asked, "crazy, otherwise, almost on the line, look at those brothers are in the sun, it does not have to be die hard to the end, it is not really in the war"

"If it's over, they'll come out on their own!" Ji Feng said.

Zhang Lei couldn't help but shake his head and stopped talking.

In fact, he admired the ability and style and quality of these warriors, and had a good feeling about them, so he felt there was no need to fight to the death, and it would be nice to finish early and have a drink and a meal together, wouldn't that be nice?

Boom!

Just then, Lu Gang fired once more, and then Ji Feng and the others did not see any target.

Whew~~BANG!

Suddenly, Lu Gang only felt a jolt in his body, then his whole body jerked backwards, and a blood-red colour scattered in front of his chest

A thud!

Lu Gang fell on his back on the roof of the abandoned factory.

And at this time, Ji Feng and others only found that on the side of Lu Gang's body, there was a man holding a pistol in the direction of exactly where Lu Gang was just now, obviously, the person who shot and killed Lu Gang was him.

—It was Liu Zejun!

Ji Feng was instantly surprised, when had Liu Zejun arrived on the roof of the factory?

Zhang Lei was even more surprised: "Isn't this guy from the south? When did he go over there?"

Boom!

At this time, Liu Zejun, who was crouching on the roof, stood up and casually fired a shot towards the sky, immediately a red light flashed in the air, this was a signal gun, signifying the end of the confrontation!

"It's over?!" Zhang Lei couldn't help but be stunned, "The final result was actually won by the people from the south?"

White Spider and Han Zhen and the others were also very shocked, it was a bit hard to imagine ah, just now Lu Gang was still in high spirits, taking out the snipers from the south side in succession, as well as the leader of the south side, how could this be taken out in the blink of an eye, and the match ended just like that?

"What the hell is going on here?" Zhang Lei was very confused, "The front were still understandable, how come the situation changed so bizarrely at the back, can't understand it!"

Ji Feng laughed, "Just go down and ask and you'll know!"

It's over!

In fact, Ji Feng also did not expect that it would end so quickly, he thought that the battle between the two sides should be stalemated for a while, after all, the strength of the two sides also even read not much difference, but the result was beyond his expectation.

"Yes, yes, yes, go down and ask!" Zhang Lei also nodded his head repeatedly.

The front was so hot to watch, how come at the back, with just two shots, the battle was over?

Several people quickly went down the stairs and waited for a while in front of the locker room door, then they saw that all the people inside the area came out one after another.

Walking in the front were the duo of Yi Xingchen and Liu Xin, with the other warriors following behind.

Without exception, their faces were covered in sweat, and their hair was close to their foreheads. Fortunately, their hair was not too long, otherwise, it would have been enough to suffocate them

Yi Xingchen's face wore a customary smile, while Liu Xin's face was more of a bitter smile, and those warriors following behind him were all hanging their heads, obviously not in high spirits.

"Boss!"

"Little Chief!"

Seeing Ji Feng and the others waiting at the door of the changing room, Liu Xin and Yi Xingchen and the others couldn't help but greet them.

"Everyone has worked hard, go wash and shower first and change your clothes, then we'll talk about the rest!" Ji Feng laughed, "The one who has worked the hardest is this brother, right, after being exposed to the sun for so long!"

Saying that, Ji Feng patted the shoulder of the first warrior who was taken out.

That warrior instantly blushed a little and looked embarrassed.

“However, your combat literacy and quality is the best batch I’ve ever seen, it’s remarkable!” Ji Feng gave a thumbs up.

That soldier then couldn’t help but scratch his head, even though he was a bit older than Ji Feng, but looking at his naive movements, he hadn’t experienced much of the human condition and was very straightforward.

“Go and change your clothes!” Ji Feng laughed.

Watching these warriors walk by, Ji Feng was full of smiles, he was really satisfied, not to mention what this final result was all about, just having such a group of men alone, Ji Feng was simply overjoyed.

These warriors were really hard to find!

If they are taught bodybuilding exercises again and trained for a year or so hey, Ji Feng can’t help but think, what other army in this world, can be able to shake them hard?!

Chapter 1284

Yi Xingchen and Liu Xin and the others moved quickly, in just three or five minutes, they had already finished showering and changed their clothes and came out of the dressing room.

And they were all obviously well trained, after changing and coming out, they quickly stood in two rows in front of Ji Feng, no matter what the previous result was, it didn’t affect their current state!

Ji Feng nodded secretly as he watched, a connoisseur knows a connoisseur when he strikes.

Whether it was Liu Xin’s side or the fighters on Yi Xingchen’s side, there was no doubt that those were all extremely good.

This is not only from their tough and harsh style in combat, but more importantly, after that high intensity combat, they can still be so strict, which is what Ji Feng values the most.

Liu Xin’s side had nine players, and Yi Xingchen’s side had four. This four-on-nine match came to an end.

Originally, Ji Feng thought that the match would last at least two hours, but it turned out that they had finished in just over half an hour!

Looking at the warriors from both sides, each of whom exuded a stern and brawny aura, Ji Feng could not help but nod in satisfaction.

With a wave of his hand, he said, “Get in the car and find a place to rest!”

What Liu Xin and Yi Xingchen and the others were riding in, were two business cars, which of course belonged to the security department of the Tengfei Group, which was also a car specially approved by Han Zhong, after all, the security department might have to carry out an urgent mission at some point, and without a convenient means of transport, that was obviously not shown.

Although the Tengfei Group cannot be said to be a giant now, but it can be said to be rich and powerful, a few cars are nothing.

A group of people left the Wilderness Club and headed straight for the Tengfei Group.

“Little guy, I really didn’t expect that the security department of Tengfei Group, actually has such a large group of strong guys ……” On the way, Xiao Yuxuan couldn’t help but marvel, “Where did you transfer all these people from?”

Ji Feng laughed, “Where they come from, I can’t say for a while, but with them, you can stop worrying about the security of the Tengfei Group.”

“That’s true!”

Xiao Yuxuan smiled and nodded approvingly, just now Yi Xingchen and Liu Xin and their strong performance, that really made Xiao Yuxuan marvel, like the kind of confrontation before, she could only see it on TV at most, that kind of close observation was really very shocking.

“Ji Feng, did you …… encounter any big trouble?” Tong Lei, however, suddenly asked.

Ji Feng was slightly stunned: “What makes you think so?”

“I think, in the past, with Han Zhen and a few of them, wasn’t it quite good in terms of security? How come you’ve got so many tough fighters now, have you encountered a tricky problem?” Tong Lei asked.

Ji Feng then couldn’t help but secretly praise, don’t look at Lei Lei usually didn’t talk a lot and didn’t feel like she cared too much about a lot of things. In fact, she saw it all in her eyes, she was ice-snow smart and knew what was going on at a glance, she just didn’t like to say it.

Now that she is asking this question, she is obviously a little worried.

Ji Feng then smiled and patted her little hand, saying, “Lei Lei, don’t worry, we are only looking for these people because our group is growing very fast, now just hiring ordinary security guards can no longer fully meet the group’s security needs, so we need to find these people with real skills.”

“Really?!” Tong Lei was still a little unsure.

“Of course it’s true!” Ji Feng laughed, worried that Tong Lei would continue to ask questions, so he changed the subject, “How was it, wasn’t their confrontation just now very exciting?”

“Mm!” Tong Lei nodded, “They were very good!”

Ji Feng then smiled, they were not only very powerful, as long as special training was given to them next, they might become a nightmare for many people!

Especially those who wanted to rely on force and get rid of him in the dark, after seeing that he had such a strong force by his side, they would definitely not be so reckless anymore!

Moreover, after this confrontation, Ji Feng discovered a few very crucial points.

The two sides had a total of four snipers, and all of them were very good, of course, Lu Gang and Yao Zhijian should be said to be more cunning, and the most experienced, of course, is Yao Zhijian.

From the very beginning to the end when Yao took out the sniper who was changing his clip with a backhand shot in the middle of a desperate situation, it was clear to see how experienced he was, how daring he was, how calm he was and how good a shot he was!

These are the essentials of a good sniper, and Yao has them all.

He's also been in a lot of battles and has been killed in action countless times.

So for the moment, Yao Zhijian is the thumb's up among snipers, at least for now.

Of course, in the end, Yao Zhijian's physical strength was almost exhausted and he was killed by a single shot from Lu Gang, which was a stain on him, but the flaw did not cover up the weakness, and Yao Zhijian's excellence was clear to see.

Lu Gang was not bad either. There are not many people who can fool Ji Feng, but Lu Gang did it.

Moreover, he was equally calm, not coming down from the tree just because Yao Zhijian was too tired to get up on the ground, taunting him a few times, or firing at close range to let Yao Zhijian know who had killed him.

For snipers, this kind of bragging mentality should never be allowed, that stuff can get you killed!

Lu Gang didn't do that, he was up in the tree and just fired.

He shot straight up from the tree, clean and crisp, without the slightest hint of delay!

No matter whether Yao Zhijian still had his strength or not, Lu Gang shot him first and then talked about the rest.

This kind of calmness is also extremely rare.

Of course, there were two other snipers who were also quite good, especially the second sniper, who didn't take the bait when Yao Zhijian deliberately provoked him, but instead just spared the cover, a sniper rifle, and almost finished Yao Zhijian off.

Very impressive!

Of course, the first sniper was taken out by Yao Zhijian with a single shot, a somewhat unjustified hit, but Ji Feng also saw that he was still a very accurate shot, only because of his lack of experience, so he was taken out early.

If this person was trained properly, he would still be a pretty good sniper!

Ji Feng couldn't help but smile, no wonder Lu Gang was so hardened, dare I say it was because he had real kung fu under his hands and had excellent skills.

The fact that people who are capable are generally arrogant, this is understandable.

However, Ji Feng felt that after today's match, Lu Gang would definitely not be so arrogant anymore, because it was somewhat unbelievable that they had lost a match between nine of them and four others!

In fact, even Ji Feng, who was on high, didn't know exactly how they had lost, it was too strange.

Now Ji Feng just wanted to know this question!

After returning to the Tengfei Group, Ji Feng took them to the lounge together, Tong Lei knew that they were probably going to summarize or discuss something next, she wasn't interested in that, so she let Xiao Yuxuan take her to the office, and naturally, White Spider and Han Zhen followed along.

At this time, Bai Spider also knew that although Ji Feng was no longer defensive towards her, he did not yet fully trust her, after all, she had a 'previous record', which was also very helpless.

So she also followed Tong Lei very wisely and went to Xiao Yuxuan's office.

Zhang Lei also stayed behind, and Shen Jingyi also followed Tong Lei and left.

The Tengfei Group had a special lounge and a special rest and entertainment venue for the staff and middle and senior management, which was not too big but had all the necessary facilities.

At this moment, Ji Feng and the others were in one of the more spacious lounges, half lying on chairs and resting.

"Liu Xin, the final result is that you guys lost?!" Ji Feng asked.

"Yes!" Liu Xin nodded, and although he still looked more or less slightly embarrassed, he admitted it openly, "Old Yi and the others are strong and have a lot of combat experience, we are ashamed of ourselves!"

When Liu Xin said this, the other people's faces couldn't help but be a little embarrassed, especially Lu Gang, who was the most arrogant before, and had always thought that Ji Feng had knocked him out on the rooftop at that time, that was speculation, and was not convinced to let the mercenaries lead them, and also threatened that they would likewise put out four people to fight against four of Yi Xingchen and the others.

The result was well, a defeat!

This made them more or less embarrassed and couldn't help but be sarcastic.

But luckily, Ji Feng was the one who didn't make fun of them, and just very calmly said that he knew about it.

"How did you guys lose?!" Ji Feng couldn't help but ask.

Liu Xin smiled bitterly and said, "How did you lose outside, I'm not too sure, I'll have to ask Lu Gang but we encountered a strong blockade inside the factory, Old Yi was extremely strong, wide open, fast, accurate and ruthless, and this brother Guo, although one arm was wounded, but that gunplay could Even changing magazines can be done with one hand, very impressive!"

Ji Feng then smiled and gave a thumbs up to Yi Xingchen and Guo Tao, these two people were indeed very tough.

They had been through hundreds of battles and were extremely experienced in combat, the kind of combat strength that was honed between life and death was definitely not to be underestimated.

“Of course, the one who caused us the most kills was this Brother Liu!” Liu Xin looked at Liu Zejun, who was not too talkative, and laughed, “This brother’s style of action is really bizarre, in that abandoned factory, he simply came and went like the wind, and all of them were sneak attacks, ruthless, ruthless, making people defenceless!”

Liu Zejun couldn’t help but grin, and wasn’t too good at saying anything polite.

Ji Feng, however, smiled and patted Liu Zejun’s shoulder, if it comes to sneak attacks, Liu Zejun is really a good hand, quite powerful!

“I do have a point very curious, Zejun, at the beginning was not only Lao Yi and Guo Tao and the two of them rushed out? When did you get inside the factory?” Ji Feng asked curiously.

This was what he was most concerned about, Liu Zejun couldn’t have passed without a sound, unless he had gone through a hole in the ground from below, otherwise, there was no reason for Ji Feng not to see it.

Chapter 1285

Hearing Ji Feng’s question, the others could not help but be slightly stunned, and immediately, they all turned their eyes towards Liu Zejun.

In fact, not only Ji Feng wanted to know, Liu Xin and the others also wanted to know why Liu Zejun suddenly appeared in the factory and launched an attack silently, causing Liu Xin and the others great trouble, but in the end, only Guo Tao was killed, while both Yi Xingchen and Liu Zejun were unharmed.

Even Liu Xin himself was planted in Liu Zejun’s hands

If Lu Gang had not been ambushed on the roof of the factory, then in the end at least two people would have been left on Yi Xingchen’s side, Yi Xingchen and Liu Zejun, meaning that it was entirely possible for them to exchange the cost of two people for the annihilation of nine people on Liu Xin’s side.

..... This is just too surprising!

Liu Zejun grinned and said, “Actually, I didn’t set out from the jungle to the south, but I hid in the artificial lake before it started, and then judged that both sides would probably fight in the factory, so I sneaked in and waited”

“.....”

Everyone couldn’t help but be stunned.

None of them, including Ji Feng, would have thought that Liu Zejun was actually hiding in the factory a long time ago!

Originally, they all thought that Liu Zejun had sneaked into the factory silently because he was incredibly fast, or he had taken advantage of some confusion to hunker down and wait for an opportunity.

But they had never thought that Liu Zejun had actually hidden himself from everyone’s sight and sneaked past.

For a moment, Liu Xin and the others were all stunned.

Ji Feng couldn't help but be slightly stunned and couldn't help but shake his head and laugh, "You're really good, you actually sneaked past long ago!"

Liu Zejun asked with some hesitation, "This isn't considered a foul, is it?"

"Of course it doesn't count!"

Before Ji Feng could answer, Liu Xin immediately spoke up, "The so-called soldier is not tired of deception, that's how it is supposed to be. Besides, we didn't agree beforehand that we weren't allowed to ambush Brother Liu, not only did you not break any rules, but also, with your actual actions, you taught us all a lesson ah."

"Little chief!"

Liu Xin's gaze fell on Ji Feng, and he said with emotion, "Now I finally understand why you intended to let them command us, because we, subconsciously, already have a mindset of sticking to the rules, while Old Yi and the others have personally experienced life and death battles, and are very flexible in their adaptations, everything is aimed at completing the mission and taking out the other side, and are not interested in what rules, This is definitely a headache for us!"

"You really think so!?" Ji Feng asked.

"That's right!"

Liu Xin nodded vigorously, "Actually, now that I think about it, it's lucky that this time is just an ordinary confrontation match, if it was a real life and death battle, we wouldn't be able to sit here now, I'm afraid we would have gone to meet the King of Hell long ago!"

Ji Feng stared at Liu Xin and smiled when he saw that his eyes were full of sincerity, without the slightest hint of displeasure or hypocrisy.

Liu Xin's words must have come from his heart. It seems that he has realized that fighting a war is not just a battle between two sides, but also depends on whose strategy is higher and who is more adaptable to the battlefield, then who will survive in the end.

On the other hand, whoever sticks to the rules will be the one who dies in the end.

Liu Xin can clearly understand this point, which is good.

In fact, Ji Feng was surprised that Liu Zejun had lurked inside the factory for a long time, and now that he thought back carefully, it was really as Liu Xin had said.

After all, there were no rules agreed between the two sides, no rules about not being able to hide, not being able to ambush or anything like that, and since there were snipers, everything was possible.

The most important thing is that when they opened the game, they entered the field area from two directions, which means that Liu Zejun did not play dirty tricks, but only after entering the area, they played a strategy.

Soldiers are not afraid of deception!

Only these four words can explain it.

And Liu Zejun, who had experienced life-and-death battles, obviously knew this well, which was why he was able to sneak into the centre right at the beginning and wait for his opponent to arrive to wait for him!

Ji Feng couldn't help but smile, "It seems that even a mere soldier's oil can become an elite if he experiences more real battles!"

Liu Zejun then couldn't help but blush slightly.

Yi Xing Chen laughed, "Boss, if you say so, then I have something to say. Zerjun is not a soldier oiler, back in my mercenary group, he was the captain in charge of raids, I don't know how many opponents have fallen into his hands, such a soldier oiler, you can't find a few in the proper rules, right?"

"Oh" Ji Feng smiled and nodded, Liu Zejun was indeed not a soldier oiler, he was just making an analogy, life and death actual combat, really very exercise people ah!

"Little head, your previous proposal, I raise my hands to agree!" Liu Xin said, "What about you guys?!"

Lu Gang and the others looked at each other, and they all couldn't help but nod as well, saying, "We also agree, there's no way, who let us lose!"

Ji Feng heard that they still had some reluctance in their hearts, so he smiled and asked, "What, do you still have some ideas in your hearts? It doesn't matter, you can say whatever you have in mind, there are no outsiders anyway, so say it!"

"Actually, it's not really an idea!" Lu Gang couldn't help but scratch his head and said somewhat awkwardly, "Actually, I just want to say that Old Yi is indeed very powerful, extremely experienced in combat and organizing his men for battle, a formidable figure, but put it this way, I think, their discipline seems a bit huh"

He smiled more or less embarrassed, and the words that followed did not go on.

But everyone also understood Lu Gang's meaning, he was saying that, in terms of fighting, perhaps Yi Xingchen and the others were experienced in fighting and that's why they won this confrontation, but, in terms of military discipline, they still need to be strengthened.

To put it simply, it means that the four of them, Yi Xingchen, are good in strength and have a lot of combat experience, but they are only fighting in small fights, so if they organise a large-scale battle, with this kind of discipline style, it should not be too good.

Ji Feng then smiled, "Old Yi, people are making comments, what do you think?"

Yi Xingchen also smiled as he nodded and frankly admitted his side's shortcomings, "What brother Lu Gang said, I don't deny and can say that I agree with him. How can I put it, in that kind of environment abroad, being a mercenary is also just to make money, there may be some other purposes as well, but one thing is common, that is, everyone is almost hovering on the line of life and death, every time they fight, no one dares to guarantee that they will get off the battlefield alive."

The others couldn't help but nod slightly, they all knew that the environment abroad was very chaotic, especially in some of the countries that were always at war, there were mercenaries in every war, and

the battles were not only fierce, but almost year-long, leaving people physically and mentally exhausted, and the people were not living!

“So then, in such circumstances, the brothers in the legion are not so disciplined, and to be honest, sometimes after being withdrawn from the battlefield, or after a war is over, many brothers may not be able to adapt to the sudden ease of life, they don’t even know what to do with themselves anymore... ..”

Yi Xingchen smiled bitterly and spread his hands, “So then, some people start to loose, and some people look for excitement, venting, and even contacting some drugs to live that kind of life Of course, although I also try to discipline the brothers under me, but in the end, I can’t be too harsh The company is a mercenary group after all, not a regular national army, so it is common for military discipline to be loose!”

“Well! This is also a very objective situation!” Ji Feng nodded, of course he knew that Yi Xingchen was still picking up on the good things, if he was talking about the bad things, the kind of life that mercenaries had after they retired was simply unbearable.

Even more, the vast majority of mercenaries, after leaving the corps, lead extremely rotten lives and end up becoming alcoholics and vagabonds because of their profligacy and poverty

“Then do this!” I was wondering if you could complement each other?”

“Complementary?” Yi Xingchen and Liu Xin were both slightly stunned.

“That’s right, complementary!”

Ji Feng nodded and said, “It’s actually very simple, Yi Xingchen will also be the captain and be responsible for leading all of you, well, for the time being, it’s thirteen of you, maybe it will be increased in the future Liu Xin will be the vice captain and be responsible for assisting Yi Xingchen. So in this way, Yi Xingchen can lead you to quickly gain practical experience, at least, he knows how to train you so that you can live longer and kill more enemies in the battlefield

“At other times, Liu Xin can train all of you in military discipline so that you can integrate as quickly as possible” Ji Feng laughed, “What do you think, what do you think of this proposal of mine?”

“That is to say, the matter of fighting is up to Old Yi, while the matter of training is up to Captain Liu?!” Lu Gang asked.

“You can also say that, but it’s not comprehensive!” Ji Feng said, “For training matters, Old Yi can also give his opinions and views, while for combat matters, Liu Xin can likewise voice his views In a word, for the time being, Old Yi will be the main focus, Liu Xin will be the supplement, and the two will complement each other, and together they will raise how this force quickly up, how about it?”

“That dare be good!” Lu Gang nodded at once, “With Old Yi leading us into battle, we can definitely learn a lot, frankly speaking, I’ve really seen a lot today, Old Yi and the others are great!”

“Captain Liu is also great, his men move almost neatly and uniformly, if they were in regular combat, they could be extremely powerful!” Guo Tao also nodded his head and said.

Yao Zhijian and Liu Zejun also nodded beside him, the strict military discipline of the regular army was actually quite shocking to them.

Seeing that everyone else nodded, Ji Feng couldn't help but look at Liu Xin and Yi Xingchen.

He asked, "What about it, what do you guys think?"

Yi Xingchen and the two of them looked at each other and nodded at the same time, "No problem!"

Ji Feng instantly smiled with satisfaction

Chapter 1286

With Yi Xingchen and Liu Xin's nods, Ji Feng's heart finally settled.

Because from this moment on, it marked that the first battle team, with Yi Xingchen as the captain and Liu Xin as the vice-captain, had officially been formed!

And this battle team, will have very rich combat experience, as well as very strict military discipline.

At the same time, there are sniper masters, assault masters, elite personnel with great combat power, and what's more, they may also have some of the oiliness of mercenaries and the ruthlessness of the regular army

The first battle group, is considered to be formed!

"Since everyone has agreed, then there are a few words I think it is better to say up front!" Ji Feng's face had a faint smile on it, but his tone was not a joke.

Liu Xin and Lu Gang and the others all heard it at once as well, and they looked at Ji Feng, wondering what he was going to say.

"When you first come into contact, you may not all be too familiar with each other, so it's inevitable that there will be some bumps and bruises, or, it will be that there will be some wrestling in training!" Ji Feng's gaze swept over their faces and added, "These are all very normal, if you were afraid of these, I'm sure you wouldn't have reached this point today."

Liu Xin and the others all nodded slightly, Ji Feng's words spoke to their hearts, although those who are soldiers are not necessarily not afraid of training, but those who can really be selected for the special forces, even if they are alternates, are definitely all extremely outstanding in terms of training

Ji Feng faintly smiled, "In addition to that, if you guys are still unforgiving, or have something in mind"

"Definitely not, little chief worry too much!" Lu Gang said at once with a big grin, "Having lost to Old Yi and the others, then we are convinced, our skills are inferior to others, there is nothing to say about that."

"Yes, in the army we often fought too, but we won't leave any grudges between each other."

"That's right little chief, from now on we will be brothers who live and die together, it will definitely not be like what you said!"

.....

Listening to their statements, Ji Feng couldn't help but smile and nod, the biggest advantage of these soldiers, is that they are straightforward, even if some of them are naturally a bit shrewd, but they definitely don't have those fancy ideas in the society, at most they know how to read other people's eyes and know how to judge the situation, but that's all.

"What about you two?!" Ji Feng's gaze swept over Yi Xingchen and Liu Xin's faces again and asked.

"Boss, please don't worry, these are all minor problems!" Yi Xingchen said.

"That's right!" Liu Xin also nodded.

Ji Feng then smiled in satisfaction, "That puts my mind at ease. Of course, perhaps during the teething period, there will definitely be some friction between you, but always understand one thing, in the future you will be comrades fighting side by side, and maybe the other side will save your life"

"Little chief, we understand what you said, and we definitely won't let you bother with this!" Lu Gang said.

Liu Xin then glared at him, this guy doesn't even look at the time when he speaks, heartless thing!

Ji Feng, however, smiled and nodded, saying, "Then this is for the best."

He looked at Yi Xingchen and Liu Xin and said, "You'll be working together in the future, so get acquainted with them first, and as for issues like treatment, the Tengfei Group will talk to you then! Also, there is something else for you guys to do, take your documents and cooperate with the group when the time comes and get all your gun permits."

"And guns?!" Lu Gang was instantly pleased, "Can we get a sniper rifle carry permit?"

"There's a laser gun permit for gun possession, want one?" Ji Feng asked.

"....." Lu Gang then scratched his head, hey little, of course he knew Ji Feng was flirting with him, even if a large group was equipped with gun-toting security guards, it was at most an ordinary standard pistol...

...

"Let's do this first, you guys get familiar with it, later let Old Yi take you back to the Tengfei Group, if you have any problems, you can look for Old Yi, or you can look for me directly" Ji Feng said.

Of course he could see that although these people said they got along without any problems, in reality, they were now still divided into two factions, for example, Lu Gang and others obviously listened more to Liu Xin, while Guo Tao and others were also looking up to Yi Xingchen.

Now Yi Xingchen is not very good at directing Liu Xin's people, and Liu Xin is not going to tell Guo Tao and the others what to do.

And this, all needed to be slowly gelled.

However, Ji Feng believed that since they all had experience in this area, this teething period would certainly not be too long, and he believed that it would not take long for them to develop a tacit understanding, and by then, the combat power would come out.

Think of such a team, and then have a strong fighting force, what a great sight it would be!

Now Ji Feng is looking forward to the first battle of this team!

However, in reality, Ji Feng is now not expecting, things are always not subject to human will, the first battle of this squad, came much faster than he imagined

The first thing you need to do is to get a good idea of what you want to do.

Only, body building exercises were useful for anyone!

After leaving the Tengfei Group, Ji Feng took Tong Lei and the others home. That afternoon, he received a call from his second brother, Ji Shaolei, asking him to come to his home.

Ji Feng then immediately understood that it should be the second uncle looking for him.

It was just as well that Ji Feng still had some things he didn't understand about what happened to Chang Chongwei last time, plus Ji Feng had some other doubts in his mind, so visiting second uncle's house now was just what Ji Feng wanted.

.....

In the evening, Ji Feng arrived at Second Uncle's house. Second Aunt had long known that he was coming, so she was preparing dinner early, and Second Brother Ji Shaolei was also there, and when he saw Ji Feng, he took him directly to the study.

"Second brother, do you know what Second Uncle called me here for?" On the way to the study, Ji Feng asked in a low voice.

Ji Shaolei shook his head and said, "How should I know, the old man has a lot of things he doesn't tell me, so it's not good for me to guess."

Ji Feng then nodded, it seemed that he could only wait until he met Second Uncle to find out what was going on.

"Second Uncle!"

When he came to the study, Ji Feng greeted Second Uncle with a slight bow.

"Well, have a seat!" Ji Zhenguo was reading a document behind his desk, and when he saw Ji Feng and Ji Shaolei enter, he closed the document and put it in the drawer.

This was his usual habit, no matter where he was, documents that should not be shown to outsiders, outsiders would not see them.

Don't look at Ji Feng and Ji Shaolei are family members, but for Ji Zhenguo's status, these two little guys are really not qualified to read this document.

You should know that the documents that can make Ji Zhenguo to approve, I am afraid that the general mayor and municipal party secretary and so on, may not be qualified to read, because Ji Zhenguo is not only the secretary of Jiangzhou municipal party committee, he also has another identity – ZZJ member!

So even when Jiangzhou Mayor Li Baoyuan saw him, he had to call him a leader, or even a chief!

“Brat, you’ve been able to toss and turn a lot this time!” Ji Zhenguo’s voice broke the quietness in the study, “Tell me, how many rights and wrongs have you incurred, moving knives and guns with people, fighting fiercely in the outskirts of the city, and fighting with people in the clubhouse and putting them in the hospital Can’t you brat just stop?!”

“Second uncle, I also don’t want to ah” Ji Feng couldn’t help but smile bitterly, these things that happened to him did seem to outsiders to be too much of a tosser, but up to now, he didn’t even know who was actually trying to deal with him, so it was actually him who was most wronged.

“All right, let bygones be bygones, but be careful in the future, maybe at some point, you’ll really be used as a gun!” Ji Zhenguo said.

Ji Feng was slightly stunned, being used as a gun?

Second uncle’s words seem to mean something, really being used as a gun that is to say, this time also someone wanted to use himself as a gun, but did not succeed is it really so?

“Today called you to come, one is for you to come home to eat a meal, two, then there is a little thing to say to you.” Ji Zhenguo looked at the time before he said, “I heard Shao Lei say that the 3D TV set that is very hot in the market now is your handiwork?”

Ji Feng’s heart instantly thumped, the second uncle asked what this meant

“Yes.” Ji Feng nodded honestly.

“Heh! Good!” Ji Zhenguo laughed, “Our old Ji family has also produced a great talent, firstly, we have researched what slimming powder, then we have come up with special effects current, and now we have 3D TV sets”

Hmm?

Ji Feng was instantly shocked in his heart.

According to Second Uncle, these things that he did were indeed a bit solid, a college student studying economics could actually create these things one after another that no one could do, and moreover, he could actually teach the special forces to train Even a blind man would see the problem!

Where did these skills come from?

This must be the biggest doubt for all those who know!

Ji Feng used to have doubts in this regard, fearing that others would know, but gradually, he forgot about it, at least, the vigilance was lowered a lot.

But now it seemed that on the one hand, Second Uncle was knocking himself out, and on the other hand, perhaps there were really people who were paying attention too.

However, it is reasonable to say that there should not be many people who know, except for the second brother, Ji Shaolei, that is, those few people around, no one else knows that they have something to do with these things ah!

“All right, no need to guess!”

Seeing Ji Feng's eyes slipping around, Ji Zhenguo couldn't help but say, "When a young man is proud, it is inevitable that he will be frivolous, but there is a saying not to forget, the person who knows you best is not your friend, nor yourself, but your enemy!"

Chapter 1287

Ji Feng was horrified, "Second Uncle, did someone say something?"

"You think someone will say something? If we wait until someone really says something, then it will be too late!" Ji Zhenguo said.

Only then did Ji Feng let out a slight sigh of relief, it seemed that no one should have said anything, otherwise Second Uncle would certainly not have sounded like this, he was reminding himself.

"However, just because no one is saying anything now doesn't mean that others aren't paying attention!" Ji Zhenguo said, "The key lies in the fact that your identity, and those few things you've come up with, are somewhat solid."

Ji Feng instantly understood that as the first grandson of the Ji family, it was indeed very difficult not to be noticed. Moreover, I'm afraid that the ones who were paying attention to themselves were not just one or two people, then there must be a large number of people who were paying attention to themselves, there was no doubt about that.

Then one's every move would be of great interest to many people.

What's more, whether it was the bio-current, or the Kang Yuan slimming powder, or the 3D TV set that was now being launched, no matter which one it was, it all had advanced and leading-edge technology embedded in it, so there must be people who knew what was going on, which was why Second Uncle reminded himself.

"If I ask you now where all these things came from, how will you answer me?" Ji Zhenguo suddenly asked.

Ji Feng was stunned.

Honestly, for a moment, he really didn't know how to answer!

Saying that it was developed by those scientific researchers in the group? That was obviously not true, and with a little investigation, one would know that he had lied.

Then, to say that he invented it is even worse. How can a student of economics come up with these things?

I'm afraid it will eventually be traced back to myself, but I won't be able to give anyone a perfect answer unless spills the beans on the existence of the wise brain, but that's obviously not going to happen!

"To do things, you have to plan and then move, although you are smart and growing fast, but, in the end, there is some negligence" Seeing Ji Feng's expression, Ji Zhenguo got the answer he wanted, he then knew that the question he asked, the boy could not answer up!

“No matter where those techniques of yours come from, always take the unknown source and transform it into a clear path, don’t rely on your status, you can care about that, this is a bad habit!” Ji Zhenguo said.

Ji Feng then nodded his head and said with a straight face, “Second uncle, I understand.”

“Mm! It’s good that you understand!” Ji Zhenguo nodded and said, “Since there were flaws in what you did before, then find a way to make up for it and try to be perfect in the future.”

“Yes!”

Ji Feng nodded seriously, seriously, if Second Uncle hadn’t brought it up today, he really wouldn’t have cared about this aspect, but now, Ji Feng was aware that Second Uncle must have known something, he just didn’t tell himself.

“Apart from that, there is another small matter.” Ji Zhenguo said, “Today the relevant personnel of the military research institute found me, to contact the Tengfei Group through the municipal party committee side, said that the Tengfei Group’s that 3D television set aspect of technology, if slightly improved after, for scientific research is very helpful, so want to let the municipal party committee side to help set up a line, what do you think?”

“This” Ji Feng was stunned again.

The military looked at the Unreal Stereo technology in their hands?

This is a good thing!

If it was possible, Ji Feng could completely transfer this technology to the military, but of course, for civil applications, this one could not be transferred.

But the question was, how should this technology be told?

Is it possible for Ji Feng to directly tell the other party how this technology, that is not explicitly telling people that this technology was invented by Ji Feng?

But if you let the technical people underneath communicate with the military, Ji Feng still doesn’t know which technical people know the unreal stereo technology, even if you count on teaching them now, it’s too late.

This is really in line with what Second Uncle said just now, since he couldn’t say where these technologies came from, he had to find a way to translate them into a clear way, Second Uncle’s words really hit the nail on the head, and that’s really how the problem came about!

“What, there are difficulties?” Ji Zhenguo asked.

Ji Feng reluctantly smiled: “There are some difficulties, but they can be solved, but the question is, how should I talk to the military? Should we just transfer it for free, or”

“In business!” Ji Zhenguo said directly, “It may not be a good thing to be too indulgent!”

Ji Feng then understood, after deliberating for a moment, he nodded and said, "Then how about this, second uncle, you arrange for someone to come to the Tengfei Group, there will be someone to receive you then!"

"That's fine!"

Ji Zhenguo nodded and added, "One more thing, your relationship with the Tengfei Group should be set aside, don't get entangled in it."

"..... Yes!" Ji Feng nodded thoughtfully, thought, second uncle also spoke all mean, just that he could not understand it for the time being.

"All right, go out and eat!" Ji Zhenguo saw that the conversation had a good effect, and the lines on his face gentled a bit.

"Right second uncle, I have one more question." Ji Feng suddenly said, "Tengfei Group may enter the industrial field, when the time comes, it may need some machine tools and need to get more advanced machine tools from abroad, I heard that little aunt is abroad"

"Let's talk about this matter later." Ji Zhenguo waved his hand.

Ji Feng was slightly stunned, and then nodded, it seemed that second uncle did not want to talk about it.

Ji Shaolei also shrugged his shoulders next to him.

Ji Feng then had a good idea, obviously, there was a story here, or rather, there was something else that he didn't understand.

But there was no hurry, he would definitely know later, after all, it was no doubt that the Tengfei Group was entering the industrial field, and Ji Feng could not let the vast amount of knowledge in his head go to waste.

Of course, as to how to use that knowledge and how to enter other fields, all need to be carefully considered.

At the very least, it could no longer be like this, where you couldn't even explain where the technology came from!

During dinner, Ji Zhenguo, like the other parents, said very little at the table. On the contrary, it was Second Aunt, who from time to time gave Ji Feng dishes with a kind look on her face, and it could be seen that she liked Ji Feng very much.

After the family had eaten, Ji Feng sat down for a while, and then said goodbye to his second uncle and second aunt, intending to drive back.

Ji Shaolei walked him downstairs.

"Second brother, is there something hidden in the matter of little aunt?" When he was going downstairs, Ji Feng suddenly asked.

Counting carefully, it had been more than two years since Ji Feng had recognized his ancestors, but, every time he had celebrated New Year or returned to Yanjing, he had never heard anyone talk about his little aunt and, moreover, had never seen her.

If it wasn't for the pharmaceutical factory before, Ji Feng imported some of the machinery and equipment from abroad through his second brother and through his sister's connections, he probably wouldn't have even remembered that there was a sister-in-law!

This made Ji Feng feel very strange, could there be a hidden agenda in between?

The first thing you need to do is to get in touch with your sister, but you also know the situation of our family, the old man is not saying anything, just let you understand, to analyze, so don't look at me in the family for so long, I really don't know much! "

"Then you don't know anything at all?!" Ji Feng asked.

"More or less know some, but also insignificant, in fact is the little aunt early years went abroad, said settled in the rice country, but in fact she has industries in several countries, business is not small." Ji Shaolei said, "But I heard that the reason why the little aunt rarely comes back seems to be because there are some contradictions with the old man"

"Conflict?!"

Ji Feng couldn't help but be stunned, there was a conflict between his little aunt and the old man? He seemed to have vaguely heard someone else mention a word about it before, and hadn't thought that second brother was saying the same thing.

"I'm not too sure exactly what kind of conflict, think about it, the old man has only one daughter, and there is still a conflict with him, this is a bit complicated just thinking about it, right?" Ji Shaolei said, "I think ah, the two of us should not guess, if we don't know the specifics, just guessing blindly here, how can we not guess!"

"Then if I want to buy some equipment and an airport, can I contact Little Aunt directly?" Ji Feng asked.

"This is still two words, are you in a hurry?" Ji Shaolei asked.

Ji Feng shook his head, "It's not that urgent for now."

"Then it's fine, if you have time, you can go to Yanjing more often and talk to the old man, you might get something out of it." Ji Shaolei said, "But I wouldn't dare, as you know, I'd just be scolded if I went!"

Ji Feng smiled and nodded, although he didn't ask any useful information from his second uncle, but Ji Feng knew that there must be something else inside the matter of his little aunt, moreover, with the wisdom and experience of the old man's life, even if there was any hatred and conflict, he had long since looked past it, not to mention that it was still between his old man and his daughter, so what hatred was there?

Therefore, Ji Feng felt that there must be another reason why Xiao Gu did not come back.

Soon Ji Feng shook his head and stopped thinking about these things, it was still too early to say these things, although sooner or later, the Tengfei Group would step into the industrial field, but after all, this is still a process, it is not too late to take your time to understand these situations.

After returning home, Ji Feng went into his study, he had to prepare some information about the illusory stereoscopic technology as soon as possible, otherwise, when Second Uncle sent someone to bring the experts from the military research institute to Tengfei Group, he would have no way to explain to them, he couldn't just launch a technician to talk nonsense to them, right?

Fortunately, Ji Feng already had information on this subject in his computer, which he had left behind when he was developing the trigger, and now he only needed to sort it out a little.

Of course, this information was certainly not comprehensive, because Ji Feng had originally wanted to create a trigger at that time, and with the existing conditions, he really could not use the illusory stereoscopic technology to the extreme.

And in that case, it wouldn't have been that amazing.

“Ding”

Ji Feng was rapidly tapping on the keyboard when the phone suddenly rang, he casually picked up the phone, “Hello, this is Ji Feng”

“Third brother, someone wants to hit us”

Chapter 1288

“Third brother, someone is trying to beat us”

Before Ji Feng could finish his words, a nervous and urgent voice suddenly came over the phone, “They're bullies!”

Swish!

Ji Feng's face just sank, he immediately heard out that the voice on the phone was Xiao Yu!

“Xiao Yu, where are you? What's happened?” Ji Feng immediately asked in a deep voice.

“Third brother, we are at the Shengshi KTV, near the school,” said Ji Xiaoyu.

Ji Feng didn't ask what happened, he said directly, “Don't be afraid, wait for me there, someone will go over to you in a few minutes at most!”

“Well, third brother you hurry, they won't let us go” Ji Xiaoyu's voice was angry and urgent, “they want us to drink”

“Drink him” Ji Feng was furious, and just as he wanted to swear, he realized he was talking to Xiao Yu on the phone, so he took a deep breath and tried to calm his anger a bit before saying, “You don't have to be afraid, tell the people who forced you if they still want to leave Jiangzhou alive, they better not do anything too excessive!”

At this moment, Ji Feng was really annoyed, no one knew better than him what Xiao Yu's character was, she was definitely not someone who would take the initiative to cause trouble, but now, she was being forced to drink, she was simply an asshole!

After hanging up the phone, Ji Feng immediately dialed Zhang Lei's number: "Lei Zi, something happened to Xiao Yu at Shengshi KTV, go over and take a look at it immediately"

The first thing you need to do is to get a good idea of what you're doing.

At this time, Ji Feng had also quickly changed his clothes and quickly walked downstairs, finding that Tong Lei and Xiao Yuxuan were both still watching TV in the living room, while Bai Spider and Xiao Ying were all there.

Ji Feng then said, "White Spider, change your clothes and come with me!"

"Where are you going so late?" Xiao Yuxuan was slightly stunned and couldn't help but ask.

"Did something happen?" Tong Lei, however, noticed Ji Feng's gloomy expression and asked with concern.

Ji Feng nodded, "Something happened to Xiao Yu at school, I'm going over there to take care of it."

"Something happened to Xiao Yu?" Xiao Yuxuan's eyebrows knitted slightly, such an honest child, what could have happened?

Tong Lei said, "I'll go with you, it's easier to have a girl with you, if something happens!"

Ji Feng waved his hand and said, "You all don't need to go, it's fine with the white spider following, it's usually a small matter near the school, you don't need to worry, rest early."

Tong Lei then nodded, she also knew that all the petty fights like those near the school would not be in Ji Feng's eyes and would not cause any trouble for him. I believe that if this time hadn't involved Xiao Yu, Ji Feng wouldn't have been so angry.

So Tong Lei and Xiao Yuxuan weren't too worried, they just urged Ji Feng to handle the issue calmly and not to make a rash move.

Especially Tong Lei, she knows Ji Feng's temper that is really too well, can't help but repeatedly admonish: "Ji Feng, can't be free to take action, you hit people may be fine, but you also know how heavy you hit, don't hit people hard in anger white spider, you also pay attention to some, to stop him at any time! !"

"Yes!"

The white spider immediately answered.

I don't know how it happened, but although Tong Lei didn't say much and didn't easily order anyone to do anything, White Spider was a bit restrained in front of Tong Lei, and she always felt unsure of herself.

"Let's go!" Ji Feng did not say much, turned around and went out with the white spider.

Only, this time, instead of letting White Spider be the driver, Ji Feng sat in the driver's seat. On the way, he brought his car skills to the highest level, flying through the rolling traffic, almost as if he was speeding on a racing track, not being hindered by the traffic in front of him in the slightest.

Of course, this is also related to the fact that he lives in the suburbs and it's past the rush hour, otherwise, his driving skills would have been somewhat affected even if he was good at it.

"Ding"

Ji Feng had just reached the halfway point when his phone rang again, he casually put on his headset and picked up the phone, "Hello"

"Crazy, the situation isn't right, I've arrived at Shengshi KTV and the box you said, but I haven't seen Xiao Yu!" Zhang Lei's voice came over, "Did you get the wrong location? Or what's going on?"

"No?!" Ji Feng frowned, "Then wait a moment, I'll call Xiao Yu's number again and ask!"

Ji Feng quickly dialed Xiao Yu's number, but found that the phone call was not answered, his heart suddenly thumped, could there really be some big problem?

The first time I saw it, I was able to find out that there was no answer.

In an emergency, Ji Feng once again increased the accelerator, while quickly dialing Zhang Lei's number, "Lei Zi, you go find the person in charge of the KTV, tell him that if Xiao Yu is fine, he may still be able to save his life, but if anything happens to Xiao Yu, I will kill him alive, say I will do what I say!"

When he said this, Ji Feng was no more than ten minutes away from the Shengshi KTV that Xiao Yu had mentioned.

.....

"Pop!"

Zhang Lei hung up the phone, his face incomparably gloomy.

"This gentleman, may I ask if you want a private room?" A young man in uniform asked, "If you don't want to open a box, can you please go to the side, don't interfere with our business, there are a lot of customers lined up behind you to open a box"

"Shit!"

A grabbed this guy, this is Sheng Shi KTV a front desk, the surface position, should be the front desk manager, in fact, here the manager a catch.

But Zhang Lei was on fire, just now when he came to ask if there was a clash of customers here, these bastards just didn't know anything about it, and even seemed to be intentionally putting it off, and now they were actually lecturing him here.

The coldness in Zhang Lei's eyes flashed, but his voice was calm but cold: "Use the shortest time to call your manager over, please believe me, if you don't do it, both of your legs will be broken right now!"

“You ah!” That receptionist was just about to get angry when she suddenly just felt a sudden pain coming from the arm that was being grabbed by Zhang Lei, it felt as if her arm had almost been pinched off!

“Are you going?” Zhang Lei’s tone was very gentle, but there was a cold glint in his eyes and a cruel smile at the corners of his mouth, those who were familiar with Zhang Lei would have seen at a glance that he was motivated to kill!

A few security guards next to him saw that something was wrong and immediately came over to pull Zhang Lei away.

But then, the security guards immediately came over to pull Zhang Lei away.

Pah~~!

One of the security guards came to the front, but he hadn’t even had time to stand still, let alone speak, just reached out to pull Zhang Lei away, when he was slapped by Zhang Lei’s hand, and instantly fell to the ground, screaming miserably, and didn’t get up again!

“Going or not?!” Zhang Lei asked.

The man’s forehead was covered in sweat from the pain and he nodded his head in a panic.

“Then why don’t you go, wait here to die!?” Zhang Lei instantly roared in anger.

That receptionist was immediately scared to death, and after giving Zhang Lei a frightened look, he turned around and ran to the person in charge in a panic.

Zhang Lei, however, looked around with a stern gaze, watching for anyone who showed suspicious signs, but in his heart, he was anxious.

I can’t believe I can’t find Xiao Yu!

Zhang Lei knew that Ji Feng would not lie to him about this, so it was obvious that either someone inside the KTV had done something, or Xiao Yu had left.

But when Zhang Lei ran to the box where Xiao Yu was, he found that there were people singing inside, but there was no Xiao Yu.

When he asked those people, none of them had seen Xiaoyu, much less knew her, and according to those people, they had been singing in the box here a long time ago and hadn’t seen anyone come in
.....

The first thing you need to do is to get a good idea of what you are getting into.

Absolutely nothing could happen to Xiao Yu!

Since Zhang Lei had arrived here, he had to get to the bottom of it. How could a good living person just disappear?

He decided that he had to get to the bottom of it!

However, Zhang Lei waited for a while, but he did not wait for any explanation from the person who came to him, so he became angry.

Since the other party didn't come out, then don't blame him for taking action directly. Fine, then let's fight until they come out!

"Hey, sir, you can't go in" a security guard shouted, trying to stop Zhang Lei, but he was frightened to swallow all the rest of his words when Zhang Lei snapped back a glare.

"Call the police, tell them I've come to smash the venue!" Zhang Lei dropped a sentence and went upstairs with big strides.

"Bang!"

Zhang Lei arrived at the fourth floor and kicked open the door of the manager's office, only to find that it was empty and there was no one inside, "Damn it, I don't believe it!"

Zhang Lei was furious, he directly ran to the top floor in one breath, and then kicked open the doors of all the rooms, since the other party was hiding, he would look for them one by one, it was too late to call the police or negotiate with the other party, Xiao Yu could not be found, the longer it took, the more unfavorable it would be for Xiao Yu, and there was even a high possibility that something would go wrong.

So, Zhang Lei took an extremely violent approach – he had to search the whole building, room by room, and he had to do it in the shortest possible time!

"Ah..."

Just then, a sudden cry of alarm came from a certain room, and Zhang Lei's eyes widened as he turned around violently and raced towards the direction of the source of the voice, his heart rising with anger!

Chapter 1289

In a building in Jiangzhou, a university town, several figures are standing in front of a window.

There are no lights in this room, everything is in darkness, only by the lights of some street lamps and neon lights outside, or LED billboards, can we vaguely see that the figures standing in front of the window are all wearing masks, some are ghost face masks, some are very strange pure white masks, looks very creepy!

The one in the middle was wearing a metal mask with three cracks, one from the centre to the chin, and two from the corners of the mouth upwards to the corners of the eyes.

In the dark room, several people stood in front of the window, and there was no more sound other than the sound of breathing, which really had an indescribable eerie

"All the people who should be sent have been sent out, right?" A low voice suddenly rang out, breaking the quietness in the room at once, and causing everyone else to shake in their bodies.

"They've been sent out!" A man next to him bowed in reply, looking very respectful.

"Well!"

The man in the middle with the metal mask nodded slightly before saying, "Make sure nothing goes wrong, and besides, where is that little girl?"

"Proper arrangements have also been made as per the previous plan, I believe she should be sleeping soundly now"

"Very well, sit back and wait for news!" The metal masked man nodded and said.

His voice had a very special feeling, it had that kind of feminine flavor, but there was no lack of resounding meaning in it, such two completely different temperaments, fused in the same person's body, it was really very odd.

"By the way, have the tickets for the boat been booked?" The metal masked man suddenly asked.

"They're all booked!"

"Very good! Very good! Some things have dragged on for so long, today is the moment to finally settle them!" The metal masked man nodded, "Jiangzhou, what an unsettling place, so many people have been pulverized here, not even knowing until they die who actually did it, or what they died for There will be one more today!"

Listening to the metal masked man's sentiments, everyone else did not say a word, but just listened in silence.

A few moments later, the metal-masked man's gaze, again, fell on a building across the road that had a huge signboard with a few big words that looked very dazzling.

–Sunshine KTV!

"Stomp, stomp, stomp" With a chill on his face, Zhang Lei raced, arriving at the box that had made the shouting noise earlier in a few breaths, and then with a fierce kick, he instantly kicked the door of the box open.

Bang!

Zhang Lei walked in with two steps, while the people inside were stunned beyond measure and looked at him.

There was no Xiao Yu!

This compartment was a group of young men and women who were singing, and among them were a few girls dressed in very revealing clothes who were being kneaded by a few evil young men, and one of the girls was very pale and seemed to be in shock.

The girl who had screamed earlier must have been her!

But apart from that, there was no one else, and there was only so much space in the compartment, so there was no way to hide anyone!

This made Zhang Lei a little disappointed, and he gave those people a fierce glare as he turned around and headed out.

“Stop!”

Someone suddenly shouted, “Fuck, in all the time I’ve been in Jiangzhou, no one has ever dared to be so arrogant, kid, get your ass over here and apologise!”

Hoo~~!

The two youths next to him blocked Zhang Lei’s way: “Kid, didn’t you hear what my friend said? Get over there and kneel down and kowtow and admit your mistake, or else, you won’t be able to have your leg!”

“Get lost!” Zhang Lei said in a cold voice, he was in a hurry to find Xiao Yu now, where did he have time to nag with them here.

“What if we don’t get lost?!” Those two young men looked at each other, and then one of them asked playfully, “If you want to get out, you can. But either get through Laozi’s crotch or get down on your knees

Whew~~!

In a flash, Zhang Lei made his move, he no longer had half a word of nonsense at all, he directly kicked out fiercely, instantly reaching the crotch of the youth who spoke.

However, in the next moment, he only saw that youth fiercely side stepping and protecting his vital parts.

Boom~~!

Zhang Lei gave a fierce kick that hit the thigh of that youth. However, that youth only swayed a little, but did not have the slightest painful expression, clearly not having been seriously injured.

Even more so, a cold light flashed in his eyes!

Zhang Lei immediately frowned and immediately took a step back, alert.

He suddenly found that things did not seem to be that simple, and these few young men were definitely not the usual punks. Because Zhang Lei knew very well how strong his kick was, not to mention ordinary punks, even a person who had practiced kung fu for several years might not be able to withstand his kick.

However, the young man in front of him was unharmed and looked like he didn’t care, which was definitely not normal.

Hula~!

The next moment, several young men in the compartment all stood up and surrounded Zhang Lei in the middle, while several other girls were so scared that they hid together and nestled in the corner, their faces pale beyond recognition, looking horrified.

“You guys are waiting here specifically for me?!” Zhang Lei asked in a deep voice.

“Ha! You’re not stupid!” A young man laughed heatedly, “But we are waiting for you here, of course, you can only be blamed for being unlucky, if you didn’t rush up here, there would be no such thing, but now well have to leave you here!”

Zhang Lei immediately had a cold light in his eyes, and his eyes narrowed slightly.

Sure enough things were very wrong!

Moreover, Zhang Lei also found an important problem, on the television set in this box, it was not playing any music video at all, but the surveillance screen inside and outside of Shengshi KTV, only because there was a song in the stereo just now, so this is why he did not pay attention.

..... This is a bureau!

Although it is still unknown who is actually setting this up, but there is no doubt that this bureau was set up a long time ago, just waiting for him to get into it.

“Hehe” Zhang Lei laughed at once, and suddenly, a cold light flashed in his eyes as he instantly made his move.

Since the other party was already here waiting for him, there was nothing he could say, let’s put these people down first and find Xiao Yu, then let’s talk about the rest.

However, when he did so, Zhang Lei immediately discovered that these young men were all quite strong, although they were not as good as him, they all had a very special skill – resistance to beating!

These people were simply made of iron, they were really too resistant!

Zhang Lei’s fists could smash a brick or a stone slab with one punch, but when they hit these young men, they would at most shake their bodies and take a few steps backwards, but a few moments later, they could attack again, just like an undead little strong man!

What’s more, the strength of these young men was also very strong, and more importantly, they were very good at kung fu, if Zhang Lei was correct, they all knew kung fu!

Where did such a bunch of freaks come from?

Zhang Lei’s heart flashed with a touch of gravity, even when he went to the Tan family to kick the door, Zhang Lei had never been under the pressure he was under now, it wasn’t that he couldn’t beat these people, it was just that, it was a bit difficult to beat them to the point of losing their fighting ability.

Were their bodies made of iron?

Zhang Lei punched a guy back, and after that, he also took a step back violently, his eyes narrowed. Just now, he was in a hurry to go out, and as a result, he was almost given a punch

Now, he had to get serious.

.....

Buzz~~!

The BMW X6 sped past on the road, the roar of the engine seemed especially obvious in this silent dark night.

Ji Feng was gloomy as he kept accelerating.

At this moment, he seemed to have had a premonition of something, with a touch of gravity in his eyes. Today's incident could have been seen as a minor conflict between Xiao Yu and someone else, but when Zhang Lei arrived at Sheng Shi KTV, he didn't find anyone, and even, by now, he didn't call again, then Ji Feng knew that Zhang Lei must have run into trouble.

There was something weird about today!

This was Ji Feng's keenest feeling, that's why he started to treat it cautiously.

Suddenly, Ji Feng frowned slightly, he suddenly noticed that not far ahead, there seemed to be a big truck across the road, and there were a few cars parked not far away, a few people were smoking cigarettes and pointing at the front, not knowing what they were saying.

"White Spider, prepare for battle!" Ji Feng said immediately.

"Yes!"

White Spider immediately answered.

Ji Feng slowed the car down and stopped a few hundred meters away from those vehicles, but raised the brightness of the car's headlights, illuminating the front as if it was daylight.

At once, those people in front couldn't help but use their hands to shield their eyes and look over towards this side.

"Ji Shao, there seems to be a car accident in front of us, tailgating" White Spider said in a low voice, "What should we do?"

"There's been a car accident?" Ji Feng sneered, "Get ready to fight!"

"How"

"When have you ever seen out a car chasing its own tail?" Ji Feng said, he saw at a glance, the big truck in front of him directly across the road, blocking the road at once, but if it really was a car accident, why was there only this one car, and there was no trace of a collision.

What's more, those people who seemed to be watching the action could all look very tough, and could fool others in this darkness, but not Ji Feng's eyes!

"Then I'll go down and take a look!" White Spider said immediately.

"Don't move!" Ji Feng immediately gave a low shout.

"Clang...!"

Ji Feng's words had only just fallen when he suddenly felt a loud sound coming from above his head, and the next moment, he saw the roof of the car violently pressed down, and at the same time, on the front bonnet, a figure had fallen down at some point, instantly flattening the bonnet!

Chapter 1290

Bang, bang, bang!

The white spider shot the gun straight ahead, but the man on the hood in front of him rolled straight down.

At this moment, only Ji Feng shouted violently, and his whole body suddenly storms up from the driver's seat.

Peng Peng!

The seat belt was broken by him, so it could be seen how strong he really was when he got up!

In the next moment, I saw Ji Feng holding the backrest of the driver's seat with one hand, but his whole body was suspended in the air, and his two feet directly kicked viciously against the roof of the car, the whole person was completely upside down

Boom!

The roof of the car, which was originally deflated, was actually instantly kicked up high by Ji Feng!

Only to see a silhouette directly flying out sideways That was the person on the roof of the car, surprisingly kicked by Ji Feng across the roof of the car!

"Get out of the car!" After doing this series of said actions, the crisis in the car is considered temporarily defused, Ji Feng immediately shouted, at the same time, he and the white spider duo did not even open the door, but directly kicked the glass of the car window open, as if the most agile monkey, directly rushed out.

The two of them were not able to open the door at all.

However, as soon as Ji Feng and the two of them got out, the violent roar of the engine suddenly came, and Ji Feng couldn't even look at it, he jumped up high, propped himself up on the roof of the BMW X6 with one hand, and flipped over the car, while grabbing the White Spider, who had just stood up, and rolled on the ground once again, and reached the roadside.

"Boom!"

The next moment, the BMW X6 was instantly hit by an off-road vehicle with a loud bang, and after that, the X6 was instantly knocked over!

Ji Feng didn't even look at it, since the moment he was attacked he knew that these people were definitely here for him, strictly speaking, they were waiting here specifically for him!

Then, if they didn't finish themselves off, they definitely wouldn't be willing to give up!

Therefore, not to mention crashing the car, even if the other party had deployed helicopters or even heavy weapons, Ji Feng would not be the least bit surprised.

It was because, having been attacked more than once, Ji Feng had experience.

As the saying goes, a long illness becomes a good doctor!

So Ji Feng knows very well that the more he thinks about it now, the more detrimental it will be to himself, because the other side has long been waiting with an open net, and the safest way to respond at this time is to use the shortest time to jump out of the other side's encirclement before he can say anything else.

Although these words are complicated to say, in reality, they are just a flash in Ji Feng's mind.

Immediately, Ji Feng pulled the white spider and rushed directly into the deep pit beside the road.

There were guardrails on both sides of this road, and beyond the guardrails was a narrow ditch several meters deep, and it was pitch black below, but there was no water, which was like a fish in water for Ji Feng.

The darker it was, the better it was for Ji Feng, because the darkness did not affect him in the slightest.

"Hide here, don't move until it's absolutely necessary!" Ji Feng grabbed the white spider and stopped halfway up the narrow gully. At this time, the sound of rapid footsteps and the sound of clicking and pulling gun bolts were already ringing out overhead, so it was obvious that the other side had quite a few men and quite a few weapons.

Under such circumstances, it would be a death sentence for the White Spider to go out!

"Young Ji, what about you!" As soon as Bai Spider heard Ji Feng's words, he immediately realised what was going on and asked in a panic.

"If others want to kill me, then how can I not let them get what they want!" Ji Feng gave a fierce laugh, "I'd like to see if they have that ability to kill me or not!"

"No, young Ji, this is too dangerous, or I should go out and lure them away er" Before White Spider could finish his words, he only felt a numbness in his throat, and unexpectedly no sound was released at all. The white spider was terrified.

The white spider was terrified and looked at Ji Feng, somewhat at a loss for words.

"Don't be afraid, after a while you will be able to speak, remember, don't expose yourself until the last resort!" After Ji Feng finished speaking, he rushed straight up quickly.

By the faint light of the street lamp, the white spider could vaguely see Ji Feng's figure was rushing upwards with incomparable flexibility, her beautiful eyes flashed with an extremely complex look, touched, hesitant, surprised and even more intensely worried!

A bite, the white spider also quietly followed up.

The first thing you need to do is to get to the guardrail at the side of the road, he just showed his head and saw that dozens of people from the other side were running quickly, and the front row of people were holding long guns and short guns in their hands, and they were aggressive.

Bang Bang Bang Bang

Suddenly a shot of bullets came, Ji Feng snapped his head down, the bullets hit the parapet, sending out a burst of sparks, making Ji Feng feel very harsh, the sound was really hard to hear, so that one's ears almost can not stand a little.

Ji Feng couldn't help but sneer: "Another attack? Still coming with this?"

He shifted some distance to the side and quietly raised his head, seeing at least thirty to forty people in front of him rushing over in an aggressive manner, while the large truck that was straddling the middle of the road, the back door had been opened and placed directly on the ground, forming a bridge with the carriage, and there was a steady stream of people coming out of the open carriage, and each one was holding a weapon.

A flash of murderous intent flashed from Ji Feng's eyes as he let out a fierce laugh, "It seems that they really want to put me to death!"

The people in front and behind this must add up to 40 or 50 at any rate.

But what made Ji Feng most cautious were the few people standing by the cars. The reason why Ji Feng saw that something was wrong was because he saw that these guys were not ordinary people.

Now with a glance, he could see that these guys were the main force.

Those people in the front should be an armed force, and they were cannon fodder when they rushed ahead. Of course, for the people who are the masterminds this time, if these armed men can take themselves out, that is naturally better, if they can't, they can also completely cause themselves great trouble, and then let these main forces behind them do it

The must-kill game ah!

The actual fact is that you can find a lot of people who are not able to get up from the ground.

These are two very tall and sturdy people, the ones who flattened his car just now, are these two guys.

From their bodies, Ji Feng sensed a somewhat familiar aura.

—Remodelers!

Ji Feng could be sure that the other party was a reformer!

What other people were Ji Feng could not be sure yet, nor did he dare to guarantee it, but there was no doubt that these two guys who had trampled his car were, in all probability, `9 out of 10, reformers!

In fact, apart from their breath, there were many signs that could determine their status as reformers.

Firstly, they were extremely strong, surprisingly strong.

Even if a strong man stepped on the roof of the car, it would not be possible to directly flatten the roof of the car and be that harsh, no doubt it was because of their extraordinary weight and even more amazing strength to achieve such an effect.

Secondly, the speed of the other party was extremely fast.

From the time Ji Feng stopped the car to the time those two people jumped onto the car from somewhere, it was only a few seconds in between, and the other party arrived at the front so quickly and so harshly.

What's more, in this process, Ji Feng actually did not even find the other party's trace

There is no doubt that these two guys, must be reformers!

Then, these people who suddenly attacked Ji Feng, their origins were naturally self-evident.

—Dynasty!

There's no need to say much at all, as long as there are reformers, it's basically also certain that this operation must be unrelated to Ji Feng's long-time life-and-death enemy, Dynasty!

"It seems that it has to be my life!" Ji Feng's eyes were getting thicker and thicker with murderous intent, he coldly stared at those people who were rushing in, took a deep breath, and then, he squatted down and picked up a number of stones from the roadside and grabbed them in his hands.

Ta-da-da

The other side saw that they were about to arrive in front of him, and another shot swept over.

Ji Feng's feet lashed out, and his body stiffly moved more than ten meters sideways in a very short period of time, and then, his hand that was holding the stones, hit out without mercy.

Swoosh~~!

Poof!

A warrior on the other side fell down cleanly, and by the faint light of the street lamp one could see that in that instant just now, a blood splash emerged from his brow, a stone had pierced his forehead raw!

"Ah-!"

"Finish him off, shoot-!"

Ta-da-da

Listening to the other party's roar, as well as the intense gunfire, Ji Feng, however, did not stop in the slightest, as he kept moving his position, and the handful of stones in his hand, kept hitting out.

Poof! Poof! Poof!

The small stones that were originally placed on the roadside were like a life-threatening death, each one hitting the opponent's eyebrow accurately, and the blood that sprang up was so bizarre in the already cold night that people couldn't help but feel hairy in their hearts.

A strange death, a murderous death!

The small stone hit out from Ji Feng's hand with a faint sound, just a hint of breaking air, but the harsh killing machine was even more terrifying than a bullet.

What's more, because of the small sound of the stones and the fact that Ji Feng kept moving his position, there was no way for those men to judge Ji Feng's position, so they could only shoot towards the guardrail at the roadside haphazardly while rushing forward frantically.

They knew that only when they reached the roadside, so that Ji Feng had no more hiding places, he would no longer be able to kill people so silently.

However, these people did not know that what Ji Feng was waiting for was for them to rush forward, in fact, he was afraid that these people would not dare to come over. As long as they came to the front, the guns in their hands would no longer be of any use, while at this time, Ji Feng would be the king of close combat.

He, however, would be invincible!

Ta-da-da-da!

Those people rushed extremely fast, and in the blink of an eye, they had arrived at the roadside with great momentum.

And at this time, Ji Feng, had also withdrawn his gaze from those two reformers, and those few guys who were smoking, the fierce battle, was about to begin!
