Chapter 1291

Ta-da

The armed men quickly rushed to the side of the road and shot at the narrow ditch below, not caring whether there was anyone there or not.

In the darkness of the night, they could not see if there was anyone in the narrow ditch, no one could move as freely as daylight even in the darkness like Ji Feng.

At the same time, in front of the cars at the back, those few people were leisurely smoking, while also taking the opportunity to watch the fun.

It was as if what was happening in front of them was not a gun battle and there were no dead people, but they were just outsiders. Because the light from the street lamp was very faint, their faces could not be seen too clearly, but a slight smile could be seen on the faces of these men.

Only one of them, although he was holding the fragrance, his eyes were staring deadly at the place where Ji Feng had disappeared in front of him. If one looked carefully, one would find that this person's eyes were filled with a strong look of resentment, and the hand holding the fragrance was overexerting itself, causing the tendons in his hand to bulge high up.

"Ji Feng! Ji Feng" This man's mouth emitted an extremely harsh sound that made people's scalp tingle, and the resentment contained in his words was even more chilling, "I remember everything you did to me clearly, the humiliation you gave me, the hurt you gave me, today, I can't remember anything. The humiliation you have caused me, the harm you have done to me, today, let's settle the score!"

The man's eyes flashed with glee and madness as he watched the mass of armed men swoop past, "Dozens of elite armed men, senior warriors, and even super warriors, hey you'll be waiting to die!"

He clutched the burning cigarette in his hand, seemingly unable to feel any pain at all: "Today, I'm going to cut you alive with my own hands!"

.....

Ta-da-da

The strafing by the armed men continued, they had almost changed a clip, but still had no intention of stopping.

The opposite bank of the Narrows was also within the range of the streetlights and they could see clearly enough to be sure that the targets had definitely not escaped from the opposite bank, so they must still be in the Narrows!

Moving as fast as they could, these armed men were making constant sweeps within the range that the targets could reach, and the range had been sealed on both sides. At the same time, they had sent men, ready to go straight down, and the target, even if he was hiding in a rat hole, would certainly be uncovered by them and handed over to the captain for disposal.

I heard that the captain hated the target so much that even in his dreams he wanted to kill him, so this was a good opportunity to please the captain!

The squad, which probably consisted of around ten people, had already gone over the guardrail at the side of the road and was ready to go down. As for the others, they continued to shoot for cover. With the big truck blocking the road anyway, the BMW X6 that had been knocked over in front of them, and one of their SUVs, there was absolutely no way any vehicle would get through here anytime soon.

So they were sure that the target must be hiding somewhere low in the Narrow Gap, but this time, it would be hard to escape!

Swoosh~~!

Just then, a sharp cracking sound suddenly rang out from one direction.

Ta-da-da!

Subconsciously, all the armed men, aimed their guns at that direction and pulled the trigger.

Ji Feng's killing move was too terrifying, the cracking sound produced by those small stones really gave everyone the creeps, because from the beginning until now, Ji Feng had not missed once, every small stone, would take away a life, it simply became a nightmare for those armed men.

Even the few people who were watching from the back were so shocked that they didn't even know that the cigarettes in their hands had fallen to the ground, and the two reformers were equally shocked

The two men were also stunned. Therefore, when the sound of the air was heard again, the armed men, as if they were birds of a feather, subconsciously turned their guns and pulled the triggers.

But the shooting was still fruitless, not to mention killing the men, and not even a single scream was heard.

No one noticed that there was a man in the middle of the group of armed men, but there was a silent one.

Poof!

An armed man only felt a cold flash on his neck, he subconsciously touched it and felt a slimy liquid, immediately after that, he felt unable to breathe, a pair of eyes stared deadly, a fishy taste came from his throat.

"Gurgle"

The man let out an oddly loud sound, then his body went limp and he just collapsed to the ground!

All the people were shaken, another one had fallen!

However, no one realised that this time the guy who had fallen had not been killed by a small stone flying from afar, but had had his throat slit

Poof!

Another one fell!

“Kill! Kill him!” A few people were terrified and shouted in horror.

And many more, with a bit of a chill down their backs, they subconsciously took a few steps back, really not daring to go any closer to the guardrail by the road, God knows how that guy could be so terrifying!

Poof!

Another man, his throat was cut directly, his hands instinctively covered his throat with death, his body trembling, a large amount of blood gurgling out from his fingers.

“Ah-!”

“He’s been killed!”

“Another dead one!”

The scene was in turmoil for a moment, and it was not until then that anyone realised that the companion and comrade beside them was no longer killed by a stone, but had had his throat slit!

This meant that the enemy was right beside them, and, moreover, an enemy that was terrifying to the extreme!

How could they not be afraid?

“Group up!” The leader suddenly bellowed, “Group up in twos, those you don’t know are the enemy! Kill them all! Remember er”

Before this man could finish his words, he suddenly only felt a violent tightening in the back of his heart, and immediately, a heart-breaking pain, from the back of his heart, swept through his whole body in the shortest possible time, causing his face to instantly change colour and his eyes to protrude deadly, as if they were a pair of dead fish eyes, extremely terrifying.

Originally those armed men were obeying the leader’s orders, but suddenly they noticed that the leader’s voice came to an abrupt end, and when they looked over with a jerk, they found that the leader opened his mouth and with a poof, a mouthful of blood spurted out, and then his body collapsed limply.

And it was only at this time that the armed men standing behind the leader realised that the back of the leader’s heart had long since been soaked with bright red blood, which looked so blinding in the streetlights.

“The enemy is behind the head!” A voice suddenly shouted, “Everybody shoot together!”

Ta-da-da!

As soon as the man’s words left his mouth, he fired straight away.

“Fire together!”

As soon as the others heard this, they didn’t even think about it, they clutched their guns and burst up after them

The armed men who were standing behind the leader, before they could even react, were then directly swept away and died. Until they died, they did not know why their companions suddenly raised their guns to kill themselves, could it be that those companions were the enemy

The people standing behind the leader, there were more than ten or twenty of them, but in just a few seconds, they were all strafed!

Add to that those who were shot by small stones earlier, those who had their throats slit, and those who had a knife through the back of their hearts The battle had only been a matter of minutes since it began, and already dozens of men had fallen!

It's gruesome, brutal, and scalp-burningly creepy!

And look at the rest, but there are less than ten of them left!

And the muzzle of one of them was silently aimed at the others

"Burst" Without any warning, this man pulled the trigger, directly sweeping all those people in front of him cleanly, while the few standing at the front were almost shot into sieves!

Ji Feng had a cold smile on his face and was wearing a duck-tongue hat, and it was by relying on this hat that he managed to blend in with these armed men and finish them all off!

This last few people, he also did not have a soft hand, he took an automatic rifle, round box shaped magazine, one magazine is seventy-two rounds of bullets, he poured all these bullets like a heavy rain, all of them hit these last few armed people, sending them to reunite with their companions!

This was a sure kill today, either these people would die or Ji Feng would be finished off, he wouldn't be the least bit soft!

While Ji Feng was killing over here, those few people near the truck behind him were looking almost dumbfounded, they couldn't even believe the scene in front of them Was this real?

Or, is it that they are looking at it wrong?

The first thing you need to do is to get the same number of people, and it will take some time to take them down, and it may not be possible to wipe them out.

If you can't beat them, you can always run away, right?

However, the scene before us was so unbelievable, these dozens of armed men, dozens of elites, were just taken out!

One man, one gun, and dozens of people were killed!

It was unbelievable!

This was beyond anyone's imagination, this guy was not Superman, he was not a superhero, he could only take out all the elites with one punch, that's only in the movies, how could he take out so many elites by himself?

Unbelievable!

This word kept surfacing and hovering in the minds of the remaining few people

The first time I saw the film, I was able to get to the end of it.

He raised his gun and pulled the trigger violently.

Ta-da-da

I don't know how many rounds of bullets swept through, immediately hitting those people's bodies, however, none of them fell down, at most they only took a few steps back, as if the bullets couldn't do much damage to them at all!

Ji Feng instantly frowned, were these still people?

"Let's all go together and kill him!" The people on the other side reacted instantly when they were hit by the bullets, and one of them shouted angrily, "Go!"

"Boom!"

Ji Feng didn't hesitate to fire another shot.

Pop!

A bloody hole appeared in a man's head and he instantly fell to the ground, his body twitched a few times and he was silent.

Chapter 1292

Ji Feng sneered, he thought he wasn't human, but it turns out these monsters are also afraid of bullets bursting their heads!

He didn't hesitate to pull the trigger once more

Ka ka ka!

However, when Ji Feng pulled the trigger, he heard the sound of the firing pin hitting empty

no more bullets!

Ji Feng picked his toe and instantly picked up a rifle on the ground.

Whew~~!

Just at this moment, a black shadow suddenly lunged over and arrived in front of him in the blink of an eye, with frightening speed. Without hesitation, Ji Feng grabbed the barrel of the rifle with one hand and directly took the butt of the rifle and smashed it hard.

Boom!

To Ji Feng's surprise, the butt of the rifle smashed into the opponent's body, but it only slightly slowed down the opponent's figure, while the barrel of the rifle in Ji Feng's hand was bent hard, so it could be seen how strong the impact was, yet even so, it did not cause much damage to the opponent!

A reformer, really strong!

Ji Feng sneered and directly threw his gun on the ground, after which he slowly took two steps back and looked at the guys who had already surrounded him a seven people, two of whom were reformers, and five others were extremely tough and were experts at first glance.

Especially what made Ji Feng feel strange was that one of them had a mask on his face, it was a ghost face mask, and under this dim street light, it looked somewhat eerie and gruesome.

Ji Feng's eyes narrowed and a cold light flashed in his eyes.

"Hehehe" the masked man laughed eerily, "Ji Feng, aren't you an expert, aren't you not even a Xiantian expert in your eyes, then I want to see today, how you can defeat these experts!"

This man was laughing as he spoke, but it was impossible to see even a hint of laughter from his eyes that were hidden behind a mask.

His eyes were filled with resentment and a kind of playfulness of a cat playing with a mouse.

Obviously, this man was treating Ji Feng as prey, and he was not only going to finish him off, but also humiliate him ruthlessly, and there was no doubt that as long as Ji Feng fell into his hands, he would definitely use the most cruel way to make Ji Feng suffer!

This is what he had in mind!

"Very familiar with me!"

Hearing this, the corner of Ji Feng's mouth couldn't help but pull up an odd smile, "Hearing your spiteful tone, it looks like you've suffered great losses at my hands before, and, you should still be a martial artist Are you from the Shen family, or the Tan family?"

As soon as he said these words, the masked man's pupils suddenly contracted violently.

"Hey, hey, you are indeed very smart and have good skills, you are considered to be both civil and martial!" That masked man smiled grimly, "But, it's really a pity that such a man of both civil and martial arts will die here today, what a pity"

After a pause, he added, "However, if you reason to tie your hands and capture me, I can still spare your life, think about it?"

"Hehe" Ji Feng couldn't help but laugh.

He was not a simple-minded person, and as soon as this guy spoke, he knew that and was definitely someone he knew well. Moreover, there was a great deal of trouble with himself, otherwise the other party would not have hated him seemingly to the bone.

And he was obviously a martial artist, then, Ji Feng also understood that he had offended not many martial artists, except for Xuan ****, that is, the Shen family and Tan family. Of course, although when he was in Yuezhou, Ji Feng had also captured two people from the Qingshan Sect, but he had not fought with the innate experts of the Qingshan Sect.

So it was obvious that the guy hiding his head in front of him was either from the Shen or Tan family, and there was very little chance of even Xuan ****

“Making me tie my hands and capture me, what a great idea!” Ji Feng couldn’t help but shake his head and laugh, “After I’m captured, I’ll be at your mercy, perhaps you’ll implant a biological bomb in my body, or perhaps, transform me into something as inhuman as you, or a monster and then just become your pawn, only able to obey your orders!”

He looked at the masked man and grinned, “Am I right, fellow Tan Tianfeng?!”

Swish!

A sharp aura flashed in that masked man’s eyes as he stared straight at Ji Feng, “Since you seek your own death, then don’t blame me for it

He neither admitted that he was Tan Tianfeng, nor did he deny it outright.

However, Ji Feng was already certain that the guy wearing a mask in front of him was Tan Tianfeng!

“Come together, finish him off!” The masked man shouted.

“Boom!”

Before the masked man’s words fell, a man beside him fell straight to the ground, his body convulsing, a bloody hole in his head, blood gurgling out and mixed with brain matter

Bang Bang!

Two more shots rang out, but only one man fell, as the others had moved and lunged violently towards Ji Feng.

“Get that woman!” The masked man ruthlessly attacked towards Ji Feng, while shouting.

Outside the guardrail at the roadside, the white spider was holding his gun up and pulled the trigger once more.

Boom!

A man’s body suddenly shook, but then whirled and lunged towards the white spider: “Woman, your gadgets are useless to me, if you want to kill me, you’d better take out your ‘murder weapon’, haha

“Damn!”

The white spider cursed angrily and also immediately rushed over, fighting with the man furiously.

On the other hand, on this side, Ji Feng was fighting four tough guys alone, which also included two reformers, as well as that masked man.

Those two reformers were undoubtedly senior reformers, and their great strength and speed were among the best of all the reformers Ji Feng had seen.

Bang!

A muffled sound instantly erupted as Ji Feng ruthlessly smashed his fist into one of the guys, just that instantly blasting him to the ground, his chest caving in deeply, while the part of his back that corresponded to it was jutting out high.

The bones in his front chest and back were actually broken by Ji Feng's punch!

In just one glance, the other side had lost another person, and now only the masked man and the two senior reformers remained.

Ji Feng dodged and dodged rapidly, exchanging fierce blows with the other side, both sides were extremely fast, and in the blink of an eye, they didn't know how many rounds they had fought, but Ji Feng didn't retreat half a step, and the two senior reformers' bodies were shaken repeatedly.

However, the masked man was a bit more difficult to deal with, his strength was extremely strong, even stronger than the two reformers, and his speed was even faster, almost keeping up with Ji Feng's speed.

With the two transformers holding him back, it looked like Ji Feng couldn't really help them for a while.

However, Ji Feng was calm and collected, not the slightest bit of panic, and his speed was getting faster and faster, and his strength was getting stronger and stronger, one punch was heavier than another, each punch carried a whistling wind sound, which was really powerful.

But in fact, a glint of seriousness flashed in Ji Feng's eyes, these two reformers were different from all the reformers he had seen before, they were even stronger.

Whether it was strength or speed, or the toughness of their bodies, they were not comparable to those transformers of the past, even the senior transformers of the past were not able to match these two transformers.

Moreover, they could actually know kung fu!

It was actually a routine that only martial arts masters would use, struck with more power by their strength and speed!

Obviously, either the Dynasty's technology had gone one step further, or, they had found some better transformation method, and that was why they had created such strong transformers.

Or, it was Tan Tianfeng who taught them martial arts moves

Swish!

The cold light in Ji Feng's eyes flashed, since he had already tested their depths and also caught the characteristics of their moves, there was no need to say anything else, so he would first capture these few people and interrogate them to find out.

The first thing to do was to capture them and interrogate them.

Ji Feng shouted, and suddenly his body surged, his strength multiplied, and his speed was so fast that only a streak of shadow remained.

In the next moment, he grabbed a reformer's neck and twisted it violently, at the same time, he threw a punch at the reformer's chest, instantly sending him flying!

Boom!

In an instant, that Transformer just flew out a few meters away, his body suddenly exploded with a boom, his entire body was like a bomb, exploding with blood and flesh, that incomparably strong wave of Qi impacted Ji Feng almost couldn't stand, that masked man and the remaining Transformer, even more instantly fell to the ground.

Swish!

Ji Feng fiercely struck a bio-current, instantly causing that last reformer's body to jerk out a few times, stand up at once, and fall to the ground again, his whole body curled up and trembling.

Ji Feng hit the masked man who had fallen to the ground again.

Hoo~~!

To his surprise, the masked man was the one who suddenly twisted his body and stood up violently.

"Ji Feng! You are really powerful, even more powerful than I thought!" The masked man stood a few meters away from Ji Feng, his eyes staring at him with resentment, "But you couldn't imagine that I am even more powerful than you, and today, I am going to slaughter you with my own hands!"

"What are you capable of, bring it out!" Ji Feng didn't have any unnecessary nonsense, he already knew that just a simple power attack would not be able to bring any damage to this guy, this person's strength was indeed beyond his imagination.

"Go to hell!"

The masked man shouted and attacked with a fierce punch, going straight for the vital part of Ji Feng's chest.

Ji Feng likewise threw a fierce punch and clashed with the man's fist.

Bang!

Ji Feng didn't move at all, but the man's body only shook slightly before he continued to throw a second punch, which was aimed at Ji Feng's throat.

This man's moves were so vicious that he could be killed if he was hit!

"Don't know the sky is high!" Ji Feng laughed coldly and slapped his backhand across the face.

Slap!

A clear and loud sound, so obvious in this dark night, the masked man's unbelievably strong punch came, but was slapped away by Ji Feng as if he was slapping a chicken.

"Ah...!"

A miserable cry came out of that masked man's mouth, and the next moment, he fell heavily to the ground, his body twitching continuously, and a whimpering sound came out of his mouth.

“Do you really think that after being transformed, you can be invincible? Still want to slaughter me?!” Ji Feng sneered and walked over with big strides, lifted the masked man up with one hand, and immediately gave a fierce slap, slapping him again.

“Slap!”

This slap, without reservation, slapped the man’s face, and the mask was instantly slapped off

Chapter 1293

Slap!”

This slap, without any reservation, slapped the man’s face, the mask was instantly slapped off, and his head was even violently tilted, it was almost as if he was beating a small chicken.

In Ji Feng’s hands, he was simply weak and unbearable!

“Barf!”

The man’s mask fell to the ground, revealing a pale and very ugly face.

This face, very pale, as if it was that sickly white, and as if it had not seen sunlight for years, as if it was vampire-like!

What was even more ghastly was that this incomparably pale face was still wrinkled, so densely packed around it that it was almost more wrinkles than those on the face of a hundred year old

This could hardly be considered a face!

It was as if it was a face skin that had been exposed to the sun for an unknown number of days before it had this appearance of being both pale and wrinkled beyond recognition!

His nose, mouth, and ears all seemed to have shrunk, wrinkled into a ball, and it really made one’s scalp explode.

This is not even a human face, it is simply more frightening than a ghost face!

The first reaction of all those who see this face is definitely to get hairy, sweat and vomit in their stomachs.

But beyond that, one must wonder what kind of pain and suffering has gone into such a face!

The only thing normal about this face is the eyes.

At this moment, his eyes carried a complex look as he stared straight at Ji Feng.

Humiliation, hatred, resentment

These eyes were filled with all sorts of colours.

“Hehe” Ji Feng watched carefully for a moment, but he laughed, he casually threw this man to the ground, his face filled with a playful smile, “Tan Tianfeng, it really is you! Haha”

This man was indeed Tan Tianfeng!

When his mask was slapped off, Ji Feng really didn't recognize it for a while. If it was anyone else who suddenly saw such a ghostly face, they definitely wouldn't associate it with the handsome and dashing Tan Tianfeng from before.

The difference between those two faces was just too big!

One seemed to be a ghost face, while the other was sunny and handsome, it was simply a world of difference.

But Ji Feng could see with a hard smile that this man was Tan Tianfeng.

Not for anything else, Ji Feng could see it from his eyes. A person's face can change or even be shameless, but a person's eyes are not deceiving and cannot be changed unless the eyeballs are removed and replaced with dog eyes!

Ji Feng had seen Tan Tianfeng more than once, and from these eyes he could tell at a glance that this person was Tan Tianfeng.

"Tsk, a good face, how did it turn out like this?" Ji Feng asked teasingly.

"Wooo~~"

Tan Tianfeng, who was thrown to the ground, let out a whimpering sound from his mouth, and his eyes were even filled with resentment and submission. This face exposed in front of Ji Feng gave Tan Tianfeng an unspeakable sense of humiliation, and he now only wanted to ruthlessly abuse Ji Feng or run himself to death, rather than just let Ji Feng look at him as if he was a monster.

At this moment, he felt as if he was stripped naked and standing naked in a cage, being surrounded by people, pointing at him, and even asking him, "Why have you become so unlike a human being?"

This feeling was simply going to make Tan Tianfeng collapse!

He had already hated this face of his so much that he had even become somewhat distorted in character because of it, and he wanted to cut his face off directly with a knife.

At this moment, he was so limp in front of Ji Feng that Tan Tianfeng had the heart to die.

However, these thoughts could only pass through his mind, because now he could not do anything, not even move a finger, except to just let Ji Feng observe him!

At this time, Tan Tianfeng suddenly remembered the scene when he was severely beaten by Ji Feng and Zhang Lei at the Tan family, at that time, he ended up being beaten and could not move a muscle, just kneeling in front of Zhang Lei, allowing him to humiliate him and beat him whenever he wanted

A strong fear, mixed with extreme humiliation, hit Tan Tianfeng's heart so violently that his whole body trembled a little

"It's really pitiful, actually being transformed into this ghostly appearance What would Shen Jingyi feel if she saw it?" Ji Feng squatted down with a smile on his face and looked at Tan Tianfeng.

But this smile, in Tan Tianfeng's opinion, was one that made him shudder.

If his current appearance was seen by someone he knew well

“Snap!”

Tan Tianfeng had only just froze when he was suddenly slapped on the face by Ji Feng, and all of a sudden, a feeling of humiliation without bounds surged up from Tan Tianfeng’s heart.

Ji Feng just hit him, actually actually didn’t know when he took off his shoes and hit him with the sole!

He didn’t even want to hit with his hands anymore?!

“Ah...!”

Tan Tianfeng instantly broke down, he roared madly, “Ji Feng, I’m going to kill you, I’m going to kill you, ah—”

“Pa!”

Another shoe slapped on his face, instantly bringing Tan Tianfeng’s roar to an abrupt halt, he was broken down, dumbfounded, beaten to the point that he had no self-respect left, all that was left in his heart was a thick humiliation, and fear.

“So you can talk, not so you can scream and shout!” Ji Feng said indifferently, he didn’t care what was in Tan Tianfeng’s heart at this moment – no matter who was treated in such a humiliating manner, there wouldn’t be any good thoughts in his heart, and Ji Feng wasn’t so much as to think about what was in the heart of such a guy who was even worse than a ghost!

“Where is my sister?!” Ji Feng asked straightforwardly, “Say, you might be able to live, if you don’t, it will be hard for you to die!”

Although his words were calm and sounded as if he was talking to someone, Tan Tianfeng heard a strong killing intent and that chilling taste in them.

It was difficult to want to die?

That obviously meant that it would be worse than death for him!

Tan Tianfeng looked at Ji Feng with resentment, his body trembling as he gritted his teeth and said, “If you have the guts, you can kill me, if I die, your sister will definitely not live either!”

“Very good!”

Ji Feng nodded with a smile and gave a thumbs up, “I hope you’ll still be so strong and tough later!”

Ji Feng’s smile was bright, but looking at Tan Tianfeng’s eyes, it made him shudder, the courage in his heart gradually faded, even that sense of humiliation was gradually fading.

Slap!

Ji Feng once again slapped Tan Tianfeng’s face, while at the same time, he was using bio-current to simulate a neurotoxin and sent it into Tan Tianfeng’s body.

“Ugh!”

Tan Tianfeng was in immense pain, his body was spasming and twitching.

“Ji, Ji Feng, if you have the guts, kill me” Tan Tianfeng roared lowly, the pain was almost unbearable for him.

Seeing Tan Tianfeng’s performance, Ji Feng was secretly frowning, this neurotoxin actually only caused Tan Tianfeng pain, but could not make him be controlled?

Pop!

Ji Feng slapped Tan Tianfeng again!

“Ugh!”

Tan Tianfeng was in even more pain as he roared, “Ji Feng, have the guts to kill me, kill me!”

“I won’t let you die so easily!” Ji Feng said in a cold voice.

“White Spider, settle the fight as soon as possible” Ji Feng suddenly turned his head and shouted, “Use the kung fu I taught you!”

“Yes!”

White Spider, who was in the middle of a fierce battle with her opponent, took a fierce step back, put her dagger away, and immediately struck out with a palm strike.

Her opponent, however, had a look of contempt in his eyes, the White Spider couldn’t even hurt him with her dagger, and now she actually wanted to hurt him with her palm strike? Do you think you are a martial arts master?

“Let me catch you!”

The man bellowed and punched fiercely, determined to break the white spider’s hand with a single punch!

With such a seemingly bland palm, it collided with the man’s fist.

“Bang!”

The man didn’t even have time to react half-heartedly as he was struck by the white spider’s palm on the ground, his body twitching a few times, with a strong look of shock and disbelief in his eyes, his mouth muttering something before he fainted.

Before he fainted, he didn’t even seem to quite understand why the white spider’s palm was more powerful than the dagger

“Swish!”

However, just at this time, a brilliant aura flashed in Ji Feng’s eyes as he snapped back and stared coldly at the guy who had been knocked unconscious by the white spider.

“A boundary tent man?!” Ji Feng’s expression was incomparably cold.

Before that guy passed out just now, he had said something in gibberish, and there was no doubt that it was Boundary Cave language!

It was these motherfucking Boundary Cloak people again!

Ji Feng was instantly furious as he shouted, "White Spider, bring the dagger over here!"

"Yes!" White Spider answered, and then quickly handed the dagger to Ji Feng, after which she stepped back and picked up a rifle from the ground to stand guard for Ji Feng.

Holding the dagger, Ji Feng stared coldly at Tan Tianfeng and asked, "Ask you one last time, where is my sister?"

Ji Feng didn't even hate Tan Tianfeng this much when he joined the dynasty, but there were two things Tan Tianfeng should never have done, firstly, he shouldn't have hit Xiao Yu, and secondly, Tan Tianfeng shouldn't have mixed up with the Boundary Tent to attack him!

If he didn't have to ask about Xiao Yu's whereabouts, he almost couldn't help but to finish off this beast Tan Tianfeng with a single slash.

Back then, there were traitors during the war, but now there was a brute like Tan Tianfeng who was mixed up with the people of the border tent, he didn't deserve to be a Chinese, he could only be considered a brute!

But Tan Tianfeng gritted his teeth and did not say anything.

Swish!

Without another word, Ji Feng directly cut open Tan Tianfeng's crotch with a single slash, and immediately, an extremely ugly thing was revealed in Tan Tianfeng's crotch.

"Your face no longer deserves to be called a human face, if you don't tell me, I'll make you a ghost eunuch!" Ji Feng said coldly.

"You"

Tan Tianfeng's eyes suddenly widened, which were filled with horror, Ji Feng was actually going to castrate him!

This was even more unbearable and frightening to him than killing him!

"Say!" Ji Feng bellowed, "Old me doesn't have so much time to spend with you!"

If the neurotoxin didn't work, then Ji Feng would use the interrogation techniques he had learned, he believed that Tan Tianfeng wasn't that hardened, and getting information from Tan Tianfeng would undoubtedly be the fastest!

Chapter 1294

Although the distance from Shengshi KTV is now only ten minutes or so at most, but Ji Feng is now without a car, moreover, even if he rushed to Shengshi KTV, he might not be able to find Xiao Yu, otherwise, Zhang Lei would have called long ago, instead of being like this now, without any news.

Then there was no doubt that Zhang Lei had not found Xiao Yu at Sheng Shi KTV!

So even if Ji Feng rushed over there, it would be more trouble. If this matter really had nothing to do with the people at Shengshi KTV, then it would be a waste of effort for Ji Feng to go over there, and he would also have no clue.

It was for this reason that Ji Feng stayed behind and spent some time here with Tan Tianfeng and the others, he wanted to capture these people alive and ask for Xiao Yu's whereabouts.

Of course, there must be other intentions besides that, but the most important thing now was undoubtedly to find Xiao Yu's whereabouts.

"Say!"

Ji Feng shouted violently, while sending his knife forward, about to make a move to castrate Tan Tianfeng!

"Don't! Don't!" Tan Tianfeng shouted at once, terrified.

He was truly terrified, Ji Feng was just too cold, Tan Tianfeng couldn't even see any half-hearted hesitation in his eyes, he believed that if he answered a little late, Ji Feng would cut his lifeblood right off without hesitation!

He would become a castrato!

Tan Tianfeng absolutely could not accept that kind of fact, he had now become unlike a human being and unlike a ghost, his heart was already humiliated beyond measure, if even the last little symbol of manhood was cut off, then he really did not know how to live.

..... Frankly speaking, Tan Tianfeng really doesn't deserve to be a man, moreover, his kind of greed for life and death is simply a kind of essence that goes deep into his bones.

Even a person with a little bit of backbone would never live on in such a humiliating way, especially for a young man who cannot bear such humiliation.

However, this was not the case with Tan Tianfeng. He did not want to die and was even more afraid of being castrated.

Subconsciously, Tan Tianfeng still wanted to be a normal person

"Say!" Ji Feng said in a cold voice.

"I, I don't know" Tan Tianfeng said, "I don't know about your sister or anything, I was just ordered by the young duke to intercept you here to catch you... .."

"Slap!"

Ji Feng flung his hand and slapped Tan Tianfeng on the face, "I think you really want to become a castrato"

“It’s true! Everything I said is true!” At this moment, Tan Tianfeng was so frightened that his soul was straightened out, he couldn’t even care less about being dazed by Ji Feng’s slap, and shouted out loud in unbelievable panic.

“Since you don’t know, there’s no point in living, go to hell!” Ji Feng sneered.

“No! Ji Feng, don’t!” Tan Tianfeng shouted in terror, “Little Gongzi just said for me to intercept you here, this is all planned by Little Gongzi, I really don’t know where your sister is”

“Then what’s the use of you living?” Ji Feng said in a cold voice.

“Don’t! Don’t!” Tan Tianfeng shouted, “Give me more time, let me think again Right, I seem to have heard Little Duke say before that everything was arranged, that you would definitely come, and that our target was you, not anyone else”

Ji Feng immediately frowned, this statement seems to have another meaning ah!

Little Gongzi’s target is himself, this is obvious, but this does not mean that Little Gongzi will not make a move on Xiao Yu, moreover, when Xiao Yu called himself before, it proves that something has happened

“Do you have anything else to say?!” Ji Feng asked in a cold voice.

Tan Tianfeng thought and thought, but still didn’t know what else he knew, looking at Ji Feng’s face getting colder and colder, Tan Tianfeng’s body trembled.

“I really don’t know anymore!” Tan Tianfeng said in a trembling voice.

Slap!

Ji Feng slapped Tan Tianfeng unconscious, and with a gloomy face, he took out his mobile phone and first called Xiao Yu’s mobile phone, but it was no longer working.

And then, he called Zhang Lei’s number, the call was through, but there was no one to answer it.

Obviously, something must have gone wrong in this.

“Damn it!”

Ji Feng coldly snorted, quickly dialed Yi Xingchen’s number and whispered, “Old Yi, there is an urgent mission, take everyone with you and go out immediately”

“White spider, keep an eye on them, someone will come to meet you later!” After closing the line, Ji Feng quickly said, “I’m going to rescue people, remember, don’t bother with vehicles or anything like that, just move the few people who are alive to the narrow ditch first! If any police come, just show your ID”

“Yes!”

White Spider immediately shouted in response.

“I’ll leave it to you here!” Ji Feng nodded, then he quickly arrived at a sedan, pulled open the door and sat inside, the car keys were still inside, he quickly started the car and backed it up a distance.

And then his eyes fell on the back of the truck.

It was a semi-trailer that took up almost the entire road, and it was impossible to pass from the front of the truck, as the front of the truck was also less than a metre away from the guardrail on the side of the road, so it was only possible to go behind the truck.

Only, the doors at the back of the truck were let down as if they were a drawbridge, blocking the roadway quite a bit.

Ji Feng gritted his teeth, fiercely increased the throttle, the car suddenly rushed forward

Bang!

The tyres of the car hit the back door of the truck and lurched violently, but Ji Feng sharply hit the steering wheel, and the car twisted strangely, narrowly and narrowly.

Buzz~~!

Afterwards, Ji Feng directly increased the throttle and hurried towards Shengshi KTV.

Watching Ji Feng drive away, the white spider looked down at the fainted Tan Tianfeng and couldn't help but kick him hard in the face a few more times.

Poor Tan Tianfeng's face was already inhuman and ghostly, so he was kicked by the white spider a few more times, and he was in a mess. But the strange thing was that no matter how White Spider kicked him, Tan Tianfeng's face did not look like a normal person's. There were hardly any scars on his face, let alone a bloody mess!

White Spider, however, didn't pay any attention to this, and only after she had kicked him viciously a few times did she stop.

"If Young Ji hadn't just asked me to watch you, I'd hate to kill you alive!" The white spider couldn't help but snort coldly, and then she started to move her hands, transferring the few people who were alive to the narrow ditch on the side of the road.

Only after this was done did the White Spider hold her gun and stand guard on the road.

Her expression was calm and alert.

This was the first time since the crisis of trust that Ji Feng had given her a task, and White Spider definitely had to get this done, and it had to be done well.

If this one thing is not done well, I'm afraid that in the future, I should not expect Ji Feng's trust again.

.....

The two young men were still confronting each other in a private room at Shengshi KTV.

The company's main business is to provide a wide range of products and services to the public.

Zhang Lei's face was somewhat gloomy, the toughness of these few young men was somewhat out of his expectation, after a fierce battle, there were actually still two guys blocking the doorway, making it impossible for him to get out at all, this made him annoyed and a murderous spirit rose up in his heart.

“Don’t force me to kill, get lost!” Zhang Lei said coldly, “You are no match for me, don’t seek death!”

Although Zhang Lei was a violent temper, however, he was not a fool, and his heart was not devoid of reason.

Therefore, Zhang Lei had always fought with people from time to time, but he seldom had the intention to kill. But this time, Zhang Lei really wanted to kill!

The two young men who were blocking the doorway were also a bit timid, they looked at each other, but none of them backed off.

If they blocked Zhang Lei, they might end up being killed, but there was a chance that they wouldn’t, because those few companions of theirs, who had been knocked out by Zhang Lei, were not in danger of their lives.

But if they retreated now, then the punishment from above would definitely be painful for them, so even if there was a real possibility that Zhang Lei might finish them off in a fit of rage, they couldn’t and didn’t dare to retreat now.

“Then let’s die!” Zhang Lei roared in anger and frantically activated his bio-current as he slammed his fist over like lightning.

Boom!

One man was instantly blown away, hitting the wall heavily, his body twitching a few times before he didn’t move at all, while at the same time, Zhang Lei was not pausing in the slightest, his knee ruthlessly slamming into the chest of another man.

Poof!

The man spurted out a mouthful of blood, his eyes rolled over and he fell to the ground with a thud.

A cold light flashed in Zhang Lei’s eyes as he gave a cold glance at the few people on the ground and walked out with big steps. As for their death, Zhang Lei no longer cared about them.

Although he had never really moved to kill anyone before, this time was different.

If he didn’t hurry up and look for them, something big might really happen to Xiao Yu!

Xiao Yu was Ji Feng’s sister, that was his Zhang Lei’s sister, and there was no need to say much about brothers.

Ji Feng had only one real friend in Zhang Lei, and the same goes for Zhang Lei!

.....

“Squeak—!”

The sound of tyres scraping violently against the ground rang out, Ji Feng quickly got down from the car and looked up at the Shengshi KTV in front of him, he walked over with a cold face and took big steps.

Bang!

Ji Feng kicked open the door of Shengshi KTV with a clattering sound, and the glass shattered to the ground.

“Ah!” A shriek came from inside at once, but Ji Feng ignored it and walked straight in, while at the same time, a person walked in on him.

“Lei Zi?!” Ji Feng was stunned, and then asked, “Have you found Xiao Yu?”

This person who came in the face was none other than Zhang Lei.

“Crazy, I’ve searched all the boxes of Shengshi KTV, I didn’t find Xiao Yu!” Zhang Lei walked over quickly, “The manager and the person in charge here are not in

“This way, we’d better split up, you immediately go to Xiao Yu’s dormitory and ask the people in her dormitory who she came out with.” Ji Feng said, “I’ll think of another way to find out, remember, the speed must be fast, we must not let anything happen to Xiao Yu

Ji Feng remembered that when Xiao Yu last called, she said ‘we’, that means that someone must have been with her, maybe it was someone in her dormitory.

“Okay!”

Zhang Lei nodded his head and immediately walked quickly outside.

“Ding

At this time, Ji Feng’s phone suddenly rang, he took it out and saw that it was an unfamiliar number, he immediately picked it up: “Hello

“Ho ho ho ho ho

As soon as he picked up the phone, a piercing laugh came from inside.

“Talk!”

Ji Feng frowned and said indifferently.

“Ji Feng, you were able to find Shengshi KTV, it seems that my people failed

Chapter 1295

“Ji Feng, you were able to find Shengshi KTV, it seems that my people failed

When Ji Feng picked up the phone, a very harsh voice suddenly came from inside, and in turn, the person on the other end said these words, and then he oohed and aahed and laughed.

“Oh

Ji Feng smiled faintly, “Your people didn’t just fail, but all of them were taken out, the bodies are all over the ground, how tragic!”

As he spoke, a cold light flashed in Ji Feng’s eyes, and his brows were likewise tightly furrowed.

“Ho ho

looks like you’re in a pretty good mood!” There was some teasing in the other party’s voice, “Young Master Ji is really a man of extraordinary temperament, to be so relaxed when you’re on the verge of death, I really admire you a little.”

“Thank you!”

Ji Feng laughed, and then hung up the phone.

Just as he put the phone away, Ji Feng's face turned gloomy and he immediately shouted, "Lei Zi!"

Zhang Lei, who had not yet stepped out of Shengshi KTV, immediately turned around and asked, "What's wrong?"

"Don't go out yet!" Ji Feng's expression was very grave as he lowered his voice and said, "Stay here first and don't move around, someone is watching us nearby!"

"What does it say?!" Zhang Lei's eyes suddenly contracted slightly and he was about to turn his head to look.

"Don't move around!" Ji Feng said, "As soon as you turn your head, the other party will know that we have detected something Let's do it this way, you wait here for the white spider to come over first, I'll go upstairs and take a look!"

"Upstairs?"

Zhang Lei lowered his voice and said, "Crazy, all the rooms upstairs including some offices and unused empty rooms, I have checked them all, there is no sign of anything suspicious, what are you doing up there?"

"Just take a look!" Ji Feng said, "Remember, don't go out of this door, if the other party has a sniper gun, with your current ability, you will definitely not be able to dodge it, and then you will only be killed by the other party for nothing!"

Zhang Lei was instantly shocked, "Sniper rifle?!"

"Yes, a sniper rifle!" Ji Feng nodded, "I was intercepted when I came here, the other side used a large number of armed men and submachine guns, obviously they have been planning for a long time to kill in one blow, so tonight is definitely very dangerous, you have to be careful, we may have to move separately later, I can't remind you at any time... .."

"I understand!" Zhang Lei immediately nodded his head.

"Hold down this place, no matter what happens, deal with it in a timely manner!" Ji Feng said.

"Don't worry, I'll close the gate here!" Zhang Lei said, "No matter what the wind blows, I will strike first!"

Ji Feng then nodded and took a big step upstairs.

He had just taken a few steps when he suddenly turned his head again and asked, "By the way, has the surveillance video been transferred?"

"I did, but there's no sign of Xiao Yu at all, as if she hadn't been here at all!" Zhang Lei said, "That's what I'm worried about, I can't find any clues at all"

"I got it!" As Ji Feng spoke, he had already gone up the stairs and was heading straight upstairs.

In fact, Ji Feng made all these arrangements as a reaction he made in a very short period of time and in response to that phone call just now and some of the information provided by Zhang Lei.

As soon as Ji Feng received the phone call just now, he understood that someone was spying in the area. Otherwise, the other party would never have known that he had come over.

So it was obvious that someone was watching Shengshi KTV all the time!

Since this was the case, Ji Feng naturally had to make adjustments accordingly, and now the situation was already very obvious, this was definitely a carefully planned bureau to make Ji Feng disappear in this way, moreover, this bureau was definitely more than one step, because the other party said on the phone that Ji Feng was about to die

The majority of the people who intercepted Ji Feng on the road had already been killed by him, and the only few were half dead and had been captured alive, but the other side still dared to say such things, which means that they must still have follow-up means!

The other side was very confident about the game they had set up!

This was Ji Feng's first feeling. Secondly, the other party was familiar with him, in other words, they should have done a detailed investigation on him, there was no doubt about that, otherwise, the other party would never have known that Xiao Yu was also at Jiangzhou United University, let alone knowing which way Ji Feng would definitely choose to go once something happened to Xiao Yu.

This was a difficult opponent!

When facing such an opponent, Ji Feng would have to adjust immediately, otherwise, he would probably be led by the other party by the nose.

In fact, at this time, Ji Feng was more anxious than anyone else, Xiao Yu's whereabouts were still unknown up to now, and most of an hour had passed since Xiao Yu had called him, so long, anything could happen.

But the more urgent the moment, Ji Feng must force himself to suppress his inner anxiety, he must be calm, must be calm, otherwise, it may be a total loss!

Stomp stomp stomp

Ji Feng took his speed to the extreme, starting from the first floor, he swept every room quickly as well, after making sure there was nothing suspicious, he arrived at the top floor, and then he found a few girls hiding in the corner shivering in one of the boxes, they were almost scared silly in general.

On the floor, there were a few people lying on the floor, and it was not clear whether they were dead or alive!

Without saying a word, Ji Feng directly struck out with a bio-current, instantly knocking those few girls out.

No matter who these girls were, there was always one point, no one suspicious could be spared now, let them lose their ability to move first, and then talk about the rest.

By now, Ji Feng had swept through all the floors of Shengshi KTV, except for the box just now, he didn't find any more suspicious people, which made his frown tighter.

Ji Feng arrived at a room on the top floor and took a big step to the window.

He didn't turn on the lights, just stood so in front of the window, looking out at the traffic and the flashing neon lights and billboards on the opposite floor, and frowned in contemplation.

It was likely that Xiao Yu hadn't been here before!

Ji Feng had a vague feeling that although Xiao Yu had called and said she was at Shengshi KTV, from all indications, Xiao Yu really might not have been here!

So, why did Xiao Yu call herself and say she was at Shengshi KTV?

Or maybe

The person who called himself was not Xiao Yu!

Ji Feng suddenly had this suspicion, he immediately had a movement in his heart, hurriedly took out his mobile phone and called up Xiao Yu's public phone at the dormitory of the United University and dialed it.

Beep~beep~beep~!

The call went through, but no one answered for the time being.

"Pick up quickly, where is everyone!" Ji Feng's finger kept tapping on the windowsill, the cold light in his eyes growing stronger and stronger.

"Hello! May I ask who you are looking for?!" A girl's voice came through.

Ji Feng immediately asked, "I'm Ji Xiaoyu's brother, is she in the dormitory, please? I'm looking for her for something urgent!"

"Ji Xiaoyu has gone out,," the girl said.

"Thank you, I'm sorry to trouble you." Ji Feng was silent for a moment before he said.

"You're welcome, if you really have an urgent matter, you can call her mobile phone!" The girl said.

Her words made Ji Feng's heart sink to the bottom, Xiao Yu wasn't in the dormitory and probably hadn't been to Shengshi KTV, so where could she have gone?

What was the reason for the previous call?

"Ding"

At this time, Ji Feng's phone rang once again, he took it out and saw that it was still the same number calling from before, he immediately frowned, but still picked up the phone.

"Ji Feng, how's it going, you're in trouble in there, right?" The voice on the phone looked smug, "But you can still pick up the phone, I think you haven't encountered it yet, or, you've already solved it?"

Ji Feng immediately understood that the other party was talking about the few people lying on the floor that Ji Feng had just seen in the box, and it looked like those few people were arranged by the other party, which was another step to kill.

“Dare you talk to me face to face?” Ji Feng asked.

“If you have that ability to come in front of me, then I have no problem with it.” The other party finished and oohed and aahed again.

“We’ll see about that!” Ji Feng said indifferently, and then he hung up the phone.

“The ghosts won’t let go!”

Ji Feng’s hand kept tapping on the windowsill one by one, while his mind was spinning rapidly, thinking about this matter from beginning to end again coherently.

The other side still has a backhand, and at the same time, there is a more important point, since Ji Feng came here, every move has been in the other side’s grasp, which means that the other side is in the vicinity somewhere convenient for observation, or, the other side is in control of the surveillance in this Sheng Shi KTV... ..

“A good place to observe” Ji Feng murmured softly, his gaze fell on a building across the road, where neon lights were flashing and bright lights were coming from the windows... ..

“Hmm?!”

Suddenly, Ji Feng’s gaze stared, the billboard across the street just now suddenly changed its image, that strong light shone through, he suddenly noticed a window near the billboard, there seemed to be a metallic shine flashing, at the same time, there were several figures flashing past

There was someone in that window!

However, there was no light in that window, it was pitch black!

Ji Feng’s tightly furrowed brow finally stretched slightly as he sneered, “Fine, let’s see then!”

“Ding” Ji Feng’s phone suddenly rang again.

“Pop!”

Ji Feng immediately picked up the phone without even looking at it and said in a low voice, “Before I find you, I hope you won’t call to harass me again, otherwise, when I catch you, I will torture you to death alive!”

“Kid, in trouble?” Out of Ji Feng’s expectation, a very familiar voice came from the phone, it was little uncle Ji Zhenping!

“Little Uncle?”

Ji Feng was slightly stunned, “Ran into a little trouble, little uncle, are you calling at this time, is there something wrong?”

“It seems like you’ve really run into trouble!” Ji Zhenping’s voice was quite gruff, “Just now Xiao Yu called me, she also encountered an attack”

“What?!”

Chapter 1296

“Little Uncle, what did you just say? Xiao Yu called you?” Ji Feng was greatly stunned, “When did she call you, I need to know the exact time!”

“It was just now, I hung up on her and called you What, is there a special situation on your end?” Ji Zhenping heard Ji Feng’s voice was not right, so he immediately reacted, usually so steady Ji Feng, but never so out of shape, obviously there is a big problem.

“Just now?!”

Ji Feng was stunned, “Little Uncle, are you saying that Xiao Yu just called you just now? Can you be sure it was Xiao Yu?”

“Of course I can be sure, it’s not just Xiao Yu, one of the guards beside her also spoke to me, and it was a video call, I saw Xiao Yu with my own eyes!” Ji Zhenping said, “Kid, what exactly happened?”

A video call?!

And, there were guards by Xiao Yu’s side?

Ji Feng didn’t have time to answer at all and hurriedly asked, “Little Uncle, don’t ask what’s going on first, quickly tell me the details of what happened when Xiao Yu called you, I want to know the details!”

It wasn’t that Ji Feng wasn’t calm, but the answer that Little Uncle brought was really too shocking to Ji Feng and was really out of his expectation.

Xiao Yu had been attacked, but for the time being, she was still safe, moreover, there were guards by her side!

This made Ji Feng’s heart really lift up completely, he was afraid that this call was his illusion and that something had actually happened to Xiao Yu. If that was really the case, then Ji Feng really had no face to see his little uncle.

In reality, these clowns hiding in the shadows were not scary, even if there were more armed men on the other side, as long as Ji Feng seized the opportunity, he could take them all out one by one, there was nothing to care about.

However, if something happened to Xiao Yu because of this matter, then I am afraid that Ji Feng would have to live in guilt for the rest of his life.

Hearing Ji Feng’s urgent tone, Ji Zhenping immediately realized that there was a big problem on Ji Feng’s side, so he did not continue to ask questions, but immediately said: “Just now Xiao Yu called me and said that she was out shopping when she suddenly came across an attack, someone in a van tried to kidnap her, but because she was secretly followed by a guard, she was saved. However, she was robbed of her phone and bag and the person was in a bit of shock.”

“Where is she now?” Ji Feng immediately asked.

“The ones who attacked Xiao Yu were not ordinary criminals, they were carrying weapons, the guard I secretly sent by Xiao Yu’s side was shot, so although he escaped with Xiao Yu, but because the other side

was crowded and had weapons, they are in a bad situation, they are now hiding in a building near your school that has just started to be built, and are circling those people

"A newly opened building? I know where it is!" Ji Feng immediately knew what the place was, in the southeast corner of the United University, there was a property being built, that was actually not a property, but a project project of the United University, which was preparing for a new experimental base

"But little uncle, can you be sure that the one calling you is Xiao Yu?" Ji Feng couldn't help but ask again.

After all, Ji Xiaoyu had only called him earlier, and that voice, that phone number, was Xiaoyu's, so Ji Feng was not sure now whether he had been deceived, or whether Little Uncle had been deceived, and he had to be sure of Xiaoyu's current situation before he could decide what to do next.

"Then there can still be a fake?" Ji Zhenping said, "I saw Xiao Yu from the phone and I saw her guards, there's no doubt about that! Little Feng, what's happening on your end?"

"That's good, that's good!" Ji Feng couldn't help but grin after listening to his little uncle's words, his gaze, too, fell on the building line opposite Shengshi KTV, killing intent welling up in his eyes, chills thick.

"Little Feng, speak up, what is going on?" Ji Zhenping's voice got a little urgent.

"Nothing big, just someone wants to use Xiao Yu to lure me out and wants my life!" Ji Feng said in a relaxed voice, "Little Uncle, don't worry, since Xiao Yu is fine, then the rest is no problem, those people want my life, they are not afraid of choking to death with too big an appetite!"

"Something has really happened!" Ji Zhenping said, "Did you call the police? Don't fight them hard, ensure your own safety first"

"Don't worry little uncle, there's nothing wrong on my side." Ji Feng's expression was much more relaxed, "Besides, the other party's weapons firepower is too strong, it's useless to call the police, it's better to rely on myself."

"Are you sure there's no problem?" Ji Zhenping asked.

"Definitely no problem, these jumping clowns can't do anything to me yet, it's not certain who is going to finish who off!" Ji Feng said confidently.

"Then you have to be careful!" Ji Zhenping said, he knew Ji Feng's ability very well, so he wasn't too worried, "Xiao Yu's side can still be circumvented for a while, when you've solved the trouble at hand, go over there and pick Xiao Yu back up!"

"Good!"

Ji Zhenping was also a person who was clean in what he did and said, so he didn't have much nonsense, and then hung up the phone.

After closing the line, a smile pulled up from the corner of Ji Feng's mouth, and then, gradually spread to his entire face, and finally he couldn't help but smile, a smile that was so bright.

"Good! Great!"

Ji Feng looked at the number on the phone and sent a message to Wang Xin, and then, the smile on his face got even wider, "We'll see!"

This news that Ji Zhenping brought to Ji Feng, for Ji Feng's importance that was really self-explanatory. In the course of this operation, Ji Feng's biggest worry was Xiao Yu's safety, which was also his soft spot, the place where he was most cast off!

Originally thought that Xiao Yu fell into the hands of the other party, Ji Feng must first find a way to save Xiao Yu, absolutely can not let anything happen to Xiao Yu. Therefore, even if the other party provoked him one after another, Ji Feng could not pay attention to it, because he was worried that if he fell into the other party's scheme and was distracted, it would cause a delay in rescuing Xiao Yu, which was not what he was willing to see.

Therefore, Ji Feng could only search for Xiao Yu like crazy. Before finding Xiao Yu, Ji Feng really could not do anything, even he knew that the other party was probably hiding in the building across the road, but he did not dare to make the slightest move, and did not even dare to let the other party know that he had detected the other party's whereabouts.

Because once the other side is alarmed, then there is no doubt that Xiaoyu will definitely be hurt if Xiaoyu is in the other side's hands!

But now, Ji Feng is not afraid!

Xiao Yu has a guard by his side, even though he has been injured, but the guard sent by his little uncle, that is certainly not ordinary, just escape experience, to be much richer than Xiao Yu, and also, definitely more calm

So Ji Feng can conclude that Xiao Yu is not in much danger now, especially since the other side can only hide their heads, and once the police arrive, it will distract those armed men even more!

"Now, then, I'm going to see what you, this jumping clown who can only hide in the shadows, really is!" Chilliness surged in Ji Feng's eyes as his gaze stared straight at the building across the road, the darkened window

"Your dogs, I've taken out quite a few of them, and Tan Tianfeng has been beaten like a dead dog by me so now, it's your turn!" Ji Feng smiled coldly, "We'll see!"

.....

"Lei Zi, there's no need to look here, come with me to a place!" Ji Feng called Zhang Lei upstairs, the two of them came to the first floor, which is the back stairway of Shengshi KTV, "We'll go down from here, there are a few jumping clowns just upstairs across the street!"

"Let's find Xiao Yu first, we have to sort out which is more important!" Zhang Lei, who had always been belligerent, was now offering a different opinion.

Ji Feng patted his shoulder and smiled, "Don't worry, Xiao Yu is still safe now!"

"Got the news?" Zhang Lei asked.

“That’s right, now Xiao Yu’s matter is secondary, catching the mastermind of this incident is the most important thing!” Ji Feng said.

“Motherfucker, get rid of all that hiding thing!” Zhang Lei said angrily at once.

Ji Feng gestured and the two of them immediately went out of the small window at the entrance of the stairs and jumped straight down, such a little height was nothing to them.

“They’re on the sixth floor, that window in the middle, I’ll go up the stairs later, you climb up from the outside, there are billboards and air conditioning racks everywhere there, with your skills, you can easily get up there!” The duo quietly went around the street at the back of Centurion KTV and silently crossed the road to the big building underneath opposite Centurion KTV.

“See that window above the billboard, later you will hide under the billboard, it’s called waiting for darkness, no one will find you Remember, make sure to wait until I have attracted their attention after attacking through the main door, then you can make your move, then we will attack from both sides, no matter how sick those The first thing you need to do is to get rid of them. Ji Feng said with a cold smile on his face, full of killing intent.

“Crazy, this won’t work, I’ll draw their attention, you can go in through the window!” Zhang Lei immediately said, everyone knew that the one responsible for attracting the enemy’s attention, that would definitely encounter the other side to focus on striking, that was the most dangerous.

“No need to argue, act immediately!” Ji Feng waved his hand and ran directly towards the back of the building.

“This guy!”

Looking at Ji Feng’s figure disappearing into the darkness, Zhang Lei couldn’t help but shake his head and laugh, looking upstairs, he gritted his teeth, “Doggone thing, this again, it’s not over until you’re all killed alive!”

After saying that, only to see Zhang Lei a help run, feet fierce power high jump up, a hand grabbed the ground floor facade billboard, body nimble boundless flip up, the whole person is like an incomparably nimble monkey general, silently miso straight up

Chapter 1297

“Why is there no more movement?”

Inside the darkened room, the metal masked man looked across at the Shengshi KTV, his voice seemed a little hesitant.

He casually picked up a telescope from the windowsill and looked across the floor, “It looks like the second group didn’t stop Ji Feng either, otherwise, the news would have come in by now!”

“It seems that I really did underestimate Ji Feng a bit!” The masked man’s voice was fluttering and seemed very odd, as if it didn’t come from his mouth, “But fortunately, I’ve long considered Ji Feng as a life-and-death enemy, and the gift I’ve prepared for him is not just these two groups!”

“Ji Feng” The masked man looked across at the Shengshi KTV and smashed his fist on the windowsill, with a bang, the windowsill, which was tiled, was just smashed by the masked man’s fist, the tiles shattered and flew, showing how powerful his fist was!

When the others saw the masked man in this state, none of them said anything, but that kind of solemnity, but it made people feel pressure all over.

“Third group, it’s your turn to fight.” The masked man suddenly changed his tone again and said grimly.

“Yes!”

At this moment, the door of a suite inside was pushed open, and several stout figures walked out from inside, simultaneously responding, “Little Sir, please give the order!”

“Go to the Shengshi KTV across the street and capture Ji Feng for me!” The masked man said, “If you can’t capture him alive, then just slap him to death” However, it’s better to be able to leave him a breath, I always have to see him before he’s killed, old friend!”

“Yes, young duke!” Those few people answered at once.

And then, they quickly opened the door and left.

“Ji Feng, you have given me so much damage and made me go through pain that is worse than death, how could I let you die so easily?” The masked man murmured softly, “Even if I let you die, I will let you know in whose hands you actually died, I will return the pain you gave me to you a hundred times over”

.....

“Wang Xin, are you ready, I’m going to start the action!” Under the building opposite Shengshi KTV, Ji Feng was talking to Wang Xin.

“It’s ready, it can start anytime!” Wang Xin said, “As long as the other party comes out of the building, there will be nothing to hide, I will use the satellite so that the other party has nowhere to hide!”

“Good then, wait for my news!” Ji Feng laughed.

“Yes!” Wang Xin answered.

Afterwards, Ji Feng dialed Yi Xingchen’s number again, “Old Yi, where have you arrived?”

“Boss, we’re about to arrive at the university city, and then we can start moving!” Yi Xingchen’s voice came through, “Also, the police have arrived at the scene to deal with those corpses and the scene, I left two people behind to cooperate with their actions, all the rest have been brought in, and Miss Bai is also here!”

Ji Feng nodded in satisfaction, he had already contacted Yi Xingchen before this, and he had also contacted Zheng Yuanshan.

Because too many people had died this time, in order to prevent things from going too far and making the whole Jiangzhou City abuzz, it was necessary to involve the police, moreover, this was also something that was within their division.

As for the causes and consequences of this matter, as well as how things should be characterized and how to deal with it, this is all an afterthought. The most important thing now is to uncover the rats hiding in the shadows, and not to let them get away!

Therefore, this is why Ji Feng informed Wang Xin, in Ji Feng's side, only Wang Xin has this ability, can hack the satellite, and thus monitor everything in this vicinity, as long as those few rats out of the building, under the satellite monitoring, they will have nothing to hide, want to escape, absolutely more difficult than the sky!

Wang Xin of the intelligence team, Yi Xingchen of the battle group, and Ji Feng, this was the first time that the three parties had joined forces since the battle group was formed.

Although the team had only just been formed, Yi Xingchen and Liu Xin had only just started to get along, and there had never been any joint operations between the team and the intelligence team before, there were still questions about how to coordinate, how to work together, and so on.

But for Ji Feng, it was too late to make any more arrangements.

The enemy would not wait for you to finish grinding and form a fighting force before acting. Tonight's incident was an unexpected incident, so Ji Feng had to use the battle team.

In fact, even if the battle group has not yet finished grinding together and has not yet formed a fighting force, it does not mean that Yi Xingchen and the others do not have any fighting power at all, as long as there are a few great generals like Yi Xingchen around, it is a powerful force!

Ji Feng smiled coldly and began to move.

Snap!

Ji Feng opened the electronic security door of the stairway with ease and entered it silently.

This was the most crucial operation, and Ji Feng was cautious because he knew that the mastermind of this incident was definitely hiding in this building, and he wanted to catch this bastard!

Therefore, in order to ensure the success of the operation, after sending a message to Wang Xin, Ji Feng turned his mobile phone to silent, and then, he fully activated the bio-current in his body, acting on his eyes and entire body, and carefully went upstairs.

In this building, he might not be the only one lurking in the window he saw, so Ji Feng walked very carefully, because he could not guarantee that the other party would not set up manpower at the stairway, it was not impossible.

On the ground floor, there was no discovery, silence.

The first floor was fine

The third floor was likewise free of any problems.

However, when Ji Feng had just come up from the third floor, he suddenly stopped in his tracks and a cold light flashed in his eyes!

Ji Feng heard the movement, it was from the stairway above, from this footsteps up analysis, someone above is coming down the stairs, and not just one person.

..... four people!

Ji Feng accurately judged the number of people on the other side by the sound of footsteps, and he could be sure that the other side had weapons in their hands and were stout, because the other side's footsteps were uneven and they were heavy!

Stomp stomp stomp

Those few people came down, Ji Feng stood in the corner, and as soon as he moved, he really found that the other party was four people. At this moment, these four people were clutching their weapons as they quickly descended the stairs, and that aura looked formidable.

These were definitely not ordinary armed men!

Ji Feng frowned, he felt a special aura on these people, but he was motionless, waiting for the moment when those four people turned past the stairway and were about to continue down, Ji Feng suddenly rose up and instantly pounced over!

Boom!

Ji Feng kicked one person away, the kick that contained a powerful bio-current was terrifyingly powerful, even if there was a boulder in front of him, he could still smash it with one kick, not to mention that there was only one person in front of him.

Bang! Bang!

Before any of the three remaining people could react, Ji Feng threw another punch, directly blowing two people away.

“Ka ka ka!”

The last man instantly reacted and he immediately pulled the bolt of his gun.

Whew~!

Ji Feng instantly kicked out, directly sending the gun in the other man's arms flying, yet in a flash, that man was swift in his reaction, roaring low and lunging over, a pair of fists fierce and fierce, clashing fiercely with Ji Feng!

“Bang!”

Ji Feng threw a fierce punch, the man immediately raised his hands to block, and the two of them collided.

However, the man was able to block Ji Feng's punch hard, and also just took a step back, but stopped immediately when he hit the staircase handrail!

“True Qi?!”

Ji Feng instantly frowned, “You're also a martial artist?!”

As soon as he collided with that person, he felt that there was a kind of energy in that person's body, but it was undoubtedly true qi.

The man, however, did not reply at all, but once again let out a low roar and lunged over frantically.

“Humph!”

Ji Feng coldly snorted, he sharply moved the bio-current, a cold light flashed in his eyes, and a fierce fist once again ruthlessly blasted over.

The man also let out a low roar at once and lunged up without showing any weakness, seeing Ji Feng's fist smashing over, he also raised his hand to block it, Ji Feng's fist had no deterrent effect in his eyes!

Bang!

As soon as the two made contact, the man's body shook violently, a low roar came out of his throat, and then a muffled sound came out, but there was a burst of pain in his arm.

Phew~~!

This man was blown away by Ji Feng's punch, but Ji Feng was gaining momentum, his body surged up, he grabbed the man's wrist, fiercely bullying his way into the man's arms, and slammed his elbow hard into the man's arms.

“Uh~~!”

The man's eyes directly rolled over and he passed out.

Pop!

Ji Feng casually threw the man to the ground as he frowned tightly, “Getting involved with the martial artists again”

Through today's events, Ji Feng found out too much information, which he took to heart, only, now he didn't have time to care about this, the immediate priority now was to catch the person first.

“Well”

Just at this moment, a guy who fell crookedly on the stairs let out a painful moan from his mouth.

Ji Feng's face instantly turned cold as he shone a kick at his face.

Bang!

That guy was kicked unconscious without even making a half-hearted reaction!

Ji Feng snorted coldly and then quickly went upstairs.

A moment later, Ji Feng soundlessly arrived at the door of a room and stopped in his tracks

This was it!

In this room, there was the mastermind of this incident.

Ji Feng was not sure how many people were in the room, so he carefully took off his watch and pulled out a metal wire from the bracelet This was something he put in there on purpose, as a person who aims to be a super agent, it is naturally impossible to not have some gadgets on him!

Dang!

A slight clanging sound, Ji Feng pulled the metal wire out of the lock hole, and he quietly opened the door.

“What the hell, why hasn’t the third group arrived downstairs yet?” An odd voice suddenly reached Ji Feng’s ears, “Could it be that they’re in some kind of trouble?”

“Could it be because they’re carrying weapons and that’s why they’re causing some kind of trouble?” Another voice came over again.

Chapter 1298

“Could it be that they’re causing some kind of trouble because they’re carrying weapons?” Another voice came through again.

“Definitely not, with their speed of movement and strength, even if they were found to be carrying weapons, it wouldn’t cause them any trouble, at most it would just cause a little commotion.” The masked man said confidently, “But look down there, there’s no commotion at all, obviously they haven’t been discovered!”

“Then” a man next to him was a little hesitant, “So what could go wrong?”

“Poof!”

An extremely slight sound rang out, as if a breeze had blown through, without causing anyone to notice, but on the sofa closest to the door, a man’s body shook, and then he lowered his head limply, leaning back on the sofa as if he was asleep, never to stir again.

“Looks like I still seriously underestimated Ji Feng’s strength, by his side, he should still have helpers!” The masked man’s voice was full of banter and also carried a strong sense of hatred, “I told you, with that nest of calf-protecting brutes like the Ji family, how could they possibly let Ji Feng hang around in Jiangzhou all by himself.”

“But we’ve conducted a thorough investigation before!” Another man said, his voice a little hesitant, “We didn’t find any guards around Ji Feng at that time, at most it was just a few bodyguards. What’s more, today we used the ploy of luring a snake out of a hole, even if Ji Feng was more alert, he couldn’t have brought all those bodyguards with him”

This was quite puzzling, this operation, unlike other operations that were so regular, was an operation that was carried out after the most thorough investigation of Ji Feng and his sidekicks had been carried out before this operation, finally determining the details of everyone around Ji Feng, as well as their movement patterns.

In theory, such an operation should be foolproof. Even if Ji Feng was powerful, he would have been killed in the first wave of the attack, or at the very least, he would have run for his life, and would not have come to Shengshi KTV so boldly, which was really a bit surprising.

However, there was no news from the second group either, which was even more strange.

Because the second group of people who were arranged to be at the Centurion KTV were not specifically there to snipe Ji Feng, they were arranged to be there mainly to observe Ji Feng's situation, for example, whether he was wounded, how many people there were, what state Ji Feng was in now, and so on

So this second group's main task was to give feedback to this side, but up until now, they hadn't received any information from the second group.

And now, this last group of people sent out have been out for so long, but they actually haven't even crossed the road yet, as if they disappeared into thin air after they got off the building.

It was so bizarre!

If these three groups were added together, even if the other party was superhuman, they would definitely have to flee in disarray, but the result now was that they had suffered heavy losses, yet they hadn't even seen the shadow of their target

"It seems that Ji Feng should have someone protecting him by his side, that should be the guards in the shadows, that's why we didn't find them in our previous investigation, the guards that can be responsible for protecting him in the shadows, that skill and ability is naturally needless to say, if it was worse, the Ji family wouldn't have sent them"

The masked man's voice was evanescent: "Be prepared to evacuate, this time the operation, eight out of ten `nine will fall through!"

"Evacuate?!"

"Little Duke, we have already made preparations for evacuation, but isn't it a bit premature to talk about evacuation now?"

"Yes, today's incident has definitely alerted the snake, I'm afraid that when the day dawns, the whole Jiangzhou will be loose outside and tighten up inside, checking all suspicious people, then in that case, the other squad will have to be affected, once the king blames"

"Needless to say, I will go to the king's place to explain, Ji Feng is not that easy to deal with, this time we are still careless, however, next time, he will not be so lucky!" The masked man sneered, "Besides, the second team has no connection to our operation, those fat-bellied officials in China will not find out anything!"

"Wait for another five minutes, if we still can't see the members of the third team, then we'll withdraw immediately!" The masked man made the final decision.

"Yes"

"It's better for me to go down and take a look, young lord, you guys wait for my news!" A figure next to the masked man turned around and was about to head out.

However, as soon as he turned around, he suddenly noticed a scene that horrified him beyond belief!

A black shadow suddenly flashed past, causing him to blink before his eyes, then he heard a faint sound of wind, and the next moment, one of his companions on the couch jerked his body upright, and immediately fell limp and unmoving on the couch

“Enemy attack—!”

A wave of fear and panic rose from the bottom of his heart in an instant, causing him to cry out in violent alarm.

Swish! Swish! Swish!

Several figures standing at the window turned around violently, and at the same time, three strong bright lights shone through the window, but there was not the slightest sign of any enemy attack, no enemy whatsoever, and the door of the room was tightly closed!

However, the shock of these people did not diminish in any way, because they found that the few people sitting on the sofa, who were originally straight and upright, were now all weak, as if they were a puddle of mud, and were just limp on the sofa, as if they had fallen into a deep sleep.

However, their chests, which were no longer heaving, were a sign of their state – these men were dead!

Clang!

There was an ear-piercing metallic scraping sound, and the next moment, the masked man standing in front of the window suddenly pulled out a long, narrow and slender knife from his waist and pointed it in the direction of the sofa.

“Ji Feng, I know it’s you, come out!” The masked man said coldly, “Since you have the guts to do it, then you have to have the guts to stand out!”

The others also drew their pistols and pointed at the other directions in the room, using the window as a backdrop, alert as ever.

Although they were not panicked in their hearts, they were shocked.

Was it really Ji Feng who had come in?!

Was it him, or was it someone else, who would have taken out the few experts on the sofa so easily in such a silent state?!

When they were normal, they had already given the famous Interpol a big headache and were helpless in the face of them, not to mention that now they had undergone transformation and were far more powerful and alert than ordinary experts.

But they were killed just like that!

How was this possible!

“Ji Feng, get the hell out!” The masked man holding the knife had a cold voice, “I know, it must be you!”

“.....”

Apart from the cold voice of this masked man, the only sound left in the whole room was their breathing, other than that, there was no other sound.

“Ji Feng, if you are a man, you must dare to do something!” The masked man’s voice was as cold as ever, not showing the slightest sign of rage because there was no sound in the room, as if he had already determined that this matter was Ji Feng’s doing, that it must have been Ji Feng who had infiltrated in, that must be it!

“Ho ho ho ho ho

Suddenly, a piercing and odd laughing sound rang out in the room, the piercing sound was so sudden and bizarre that all of a sudden, everyone couldn’t help but slightly move, it was a conditioned reflex of panic in their hearts.

“Little Duke, isn’t it, how can you be so sure it’s me coming?!” A loud voice came over, but it was Ji Feng standing up from behind the sofa, he had a smile on his face, his smile was very bright, but his eyes were filled with ice cold, where could one see a hint of laughter?

“You are the most skilled at this kind of stealing, and have done it more than once, no one but you has such high kung fu and enjoys attacking in secret so much” the masked man saw Ji Feng stand up, his eyes shrewdly flickered, if you look carefully you can see that the man’s hand holding the knife, are looking a little blue from overexertion, a sinew is also so obvious.

“Ji Feng, it really is you!” The masked man finally said again as if he was sure.

Ji Feng shook his head: “I actually got swindled out by you, tsk

“Ho ho ho ho ho”

“Ooh! Ooh! Ho! Ho!” The young male had just laughed when he was immediately interrupted by Ji Feng with the same laugh, which was clearly an insult to the young male, “I say, what’s wrong with you? It’s only fools that laugh like that!”

The little gongzi didn’t say a word, he just stared at Ji Feng coldly, and only after a long time did he say, “Ji Feng, you’re still so disgusting! It makes people want to get you killed just by seeing you!”

Ji Feng spread his hands, “I don’t think so, I want to catch you first!”

“Just by you?!” The masked man was stunned, then oohed and aahed and laughed again, “Ji Feng, your skills are good, but you shouldn’t be too conceited, in this world, there are many people who are better than you! There is no end to human power, but there is no end to technology, you can never imagine how powerful the real high technology is”

“It’s not just me!” Ji Feng directly interrupted this masked man’s words and smiled faintly, “There are also my friends!”

As he spoke, his gaze fell on the doorway of the room next to him.

Swish!

Everyone’s gaze couldn’t help but change for a moment, then snapped over to follow Ji Feng’s gaze.

“Friend, come out and work!” Ji Feng shouted.

Wow~~!

In a flash, the window behind Little Duke and the others suddenly burst, and a human figure instantly barged in, that pair of overpowering fists, without reservation, ruthlessly blasted at the bodies of the two people.

Bang~~!

Those two people didn't even have time to react before they were instantly blasted away.

“Drink!”

Little Duke was the first to react as he shouted and kicked backwards with a fierce and swift kick.

At the same time, Ji Feng, however, made his move.

He fiercely stepped forward and instantly stuck the necks of the two men, his wrists fiercely fired and with one hand, he directly threw those two men to the side and ruthlessly slammed them against the wall.

Chapter 1299

Boom!

Clatter~~!

Zhang Lei's strong and sturdy body suddenly crashed into the wall, shattering glass in all directions and shaking the entire window.

“Damn it!” Zhang Lei let out a muffled cry as he was shaken, “Doggone so much strength!”

“Ho ho ho” the little male's laughter was very harsh, he looked at Zhang Lei playfully and said derisively, “Do you really think that after learning two moves from Ji Feng, you can fight with me? A frog at the bottom of a well doesn't know how big the sky is!”

“Bah!”

Zhang Lei spat a mouthful of spittle and sneered, “Motherfucker! What kind of monster are you, I've never seen a monster like you before!”

“Just because you said that, you're dead!” The masked young male stared at Zhang Lei, the murderous intent in his eyes unconcealed, and took a step forward.

Boom!

A man was blown away by Ji Feng's fist, flying right between the little gongzi and Zhang Lei.

Pah!

The little duke grabbed that man's leg with just one hand, and with that one hand, he grabbed that man, a body of one or two hundred pounds was as light as nothing in the little duke's hand, it was simply too shocking!

The Little Prince casually threw the man onto the sofa next to him and looked at Ji Feng with a cold face.

At this moment in the room, there were only five people left, apart from Zhang Lei and Ji Feng, it was only Little Duke and his two men.

A cold light flashed in Little Duke's eyes as he stared coldly at Ji Feng: "Ji Feng, your skills are good, but your opponent is me, what kind of skill is it to take someone else's life!"

Zhang Lei immediately laughed, "Then what, madman, I'll leave this big boss to you, I'll take care of the remaining two minions!"

With a harsh laugh, he took a big step towards the remaining two men.

In fact, Zhang Lei's heart was shocked beyond belief, the strength of this monster called Little Duke was really too great, the punch just now, Zhang Lei was definitely at his fullest strength, and he had also activated the bio-current, but after going up against this monster, he actually couldn't get the upper hand at all, and even suffered a little loss!

So Zhang Lei knew that he was definitely not a match for this monster!

However, to be able to come up and take down two of the opponent's experts, that was already very good, let's leave the rest to Ji Feng!

Zhang Lei knew that it was not as simple as playing with these monsters, a little bit of insignificance could kill him immediately, and this guy in the mask in front of him was a monster among monsters, a big boss among monsters, Zhang Lei thought he was no match for him, there was nothing to be ashamed of.

Moreover, not being able to defeat this big boss of monsters anymore didn't mean that he couldn't likewise defeat the remaining two guys.

"Big boss?"

Ji Feng couldn't help but snicker and said derisively, "This description is indeed apt, such a monster, indeed a big boss, put a good person not to do, prefer to do what transformed people little gongzi, you can become so powerful, even not even afraid of true qi, I think, you should also be Xuan **** person, right?"

"What did you say?!" The little male's voice sank at once.

"I said, you're a big boss, that's one thing." Ji Feng coldly snorted, "For two, those few people I took down just now were all Xuan ****'s people, right?! I'm sure you also have a glance!"

Just now, when Ji Feng fought with those guys, the paths of the moves they played were definitely very similar to the paths of Tian Guodong and Xuan ****'s third and fourth elders before, and could simply be said to be the same.

Then, Ji Feng could immediately determine that these people definitely had a great relationship with Xuan ****.

In particular, this bastard who was wearing a mask and hiding his head was actually not even afraid of Zhang Lei who had activated the bio-current, then it was obvious that this bastard should possess true qi himself Then, he must be a martial artist and, moreover, should be from Xuan ****!

“Xuan ****” The little gongzi’s eyes hidden behind his mask narrowed slightly, “Ji Feng, let’s find a place to have a good time?”

“Let’s do it right here!” Ji Feng stepped forward.

The little gongzi’s eyes narrowed once again and he nodded, “Sure!”

Ji Feng stared at the little gongzi, he was still a bit impervious, the reason he had brought up Xuan **** just now was to test this little gongzi who was hiding his head, but he found that although this guy’s eyes had changed, it was impossible to tell what his identity really was!

“Then let’s begin!” The young male said.

“Please!”

Ji Feng stretched out his hand.

“Drink!” The little male suddenly shouted and punched over like a lightning bolt.

Pop!

Ji Feng, however, had a contemptuous face, he didn’t even show the slightest sign of trying to block, instead, he directly slapped it. In a flash, that young male’s tigerish fist was unexpectedly smacked out by Ji Feng’s slap.

Stomp stomp stomp

The young male took three or four steps back in a row before he stabilized himself, and a look of shock and anger flashed across his eyes, as if he had been greatly humiliated.

“What bullshit big boss, you really think you’re being complimented?” Ji Feng laughed coldly and walked over with big steps, slapping him once again.

“Bastard!”

The young male roared in anger and leapt up high, smashing over with a sideways kick.

Ji Feng simply didn’t care, whether you threw a punch or a kick, whether you were angry or joyful, or how much power you had, he just slapped straight over, overbearingly.

Slap!

This slap, which contained an incomparably strong bio-current, instantly slapped the little male away, almost as if he was slapping a fly.

It was that easy and simple!

This slap from Ji Feng was just too powerful, incredibly strong!

It was like

Even if there was a big mountain in the way, Ji Feng would slap it to pieces, let alone something that hid its head and didn't even dare to show its true face?

What's more, being attacked and killed one after another, this evening was even close to making Ji Feng throw his weight around, to this day he is still scared, if Xiao Yu didn't have guards around her to protect her secretly, then Ji Feng might have been finished off here today because he threw his weight around!

All these factors together had made Ji Feng irritated long ago, plus he wanted to test what this little gongzi really was and how strong he was, so Ji Feng came up and used his full strength, using this highly humiliating action, slapping the little gongzi away!

Clang!

Clang~~!

The little grandson hit the wall at once, and the whole person suddenly let out a muffled cry and fell to the ground again

Stomp stomp stomp

The first time I saw him, I had to use this kind of humiliating action to slap this little son to death, so that this son of a bitch who had repeatedly played tricks behind his back would be abused to death alive!

Clang!

The young gongzi propped himself up on the ground with his sword, gritted his teeth and stood up, staring coldly at Ji Feng with undisguised resentment in his eyes, "Ji Feng, you are still so domineering, still so disgusting that you want to be broken into pieces and killed by a thousand cuts"

"I'm afraid you don't have the ability to do that!" Ji Feng sneered and walked over with a big stride, "I'll chop you into pieces before I do!"

"Then I'll chop you alive!" Little Duke shouted violently, holding the hilt of his sword with both hands, and slashed down at Ji Feng with a harsh and incomparable slash.

Swish!

Ji Feng also looked grave, his feet fiercely staggered, he abruptly turned sideways, the incomparably sharp slash in the little gongzi's hand just stuck to Ji Feng's body, narrowly staggered.

Swish!

The little duke, however, did not wait for the blade to grow old, and a lightning-like blade swept right across.

It was as if Ji Feng's body had suddenly snapped flush, his waist suddenly folded and his whole body was in an extremely backward state.

At the next moment, Ji Feng violently rose up, propped himself up with one hand and violently kicked the little prince in the chin.

Boom!

The little male flew backwards on his back and landed heavily on the ground.

“Good!” Zhang Lei immediately shouted out loud, by now he had already taken down one and was fighting furiously with the last remaining one, “Crazy, two more slaps, knock that motherfucker’s mask off!”

“Slap!”

Ji Feng twisted his body and stood firmly on the ground, once again striding towards the little male who had fallen to the ground.

Whew!

The little male once again gritted his teeth and climbed up, shouted violently, and slashed down again.

Ji Feng fiercely staggered and punched his opponent’s arm.

Clang~~!

The little gongzi let out a muffled cry, the knife in his hand was sent flying by Ji Feng’s punch and fell to the ground, while the little gongzi himself took a few steps backwards in quick succession!

“Take off your mask!” Ji Feng shouted and continued to approach in big strides.

“If you want me to take off my mask, then let’s see if you have the ability to do so!” The young male bellowed, leaped high and smashed over with a fierce and unparalleled kick.

Ji Feng still didn’t say anything and directly slapped over.

Slap!

The little male was directly slapped backwards and with a crash, that little male actually crashed through the window at once and fell straight down from the upper floor.

“Damn it!” Ji Feng instantly turned pale and cursed angrily as he jerked forward to the window, but no one could be seen.

Bang!

Ji Feng smashed his fist on the window sill, this little gongzi was afraid that he had already thought of a way out, so he kept attacking even though he knew he was no match, just to get jerked off again and thus escape through the window!

“Bastard thing!” Ji Feng smashed his fist on the window again and grabbed a piece of glass, then he turned around violently and flung his hand out.

Click~~swoosh~~!

“Well!”

The guy who was fighting with Zhang Lei was instantly swept off his throat by a piece of glass and fell straight to the ground.

“Holy shit!”

Zhang Lei was instantly taken aback, "Crazy, where's that monster?!"

"Ran away!" Ji Feng pointed outside the window, "It was smacked out by me, and after that it disappeared, it must have escaped!"

"What, ran away?" Zhang Lei snapped to the window, looking at the piece of billboard below, and the electronic light box, neon "Crazy, he should have entered some room from which window at the bottom, right? Check!"

"It's useless!" Ji Feng shook his head, "With his skills, he can't fall to his death even if he falls directly from here, not to mention that he has long arranged a retreat, he can't block him! Besides, it's not that easy for him to run away"

Chapter 1300

"Boss!"

When Ji Feng came down from upstairs, he found that Yi Xingchen had arrived at the university town with his men and was rushing upstairs in full gear, "Boss, what do we need to do next?"

Ji Feng looked at them, Yi Xingchen had a calm and steady temperament and appeared to be very atmospheric, at a glance he was quite a great general. And next to him, Liu Xin, dressed in camouflage uniform, his face was calm, his gaze was sharp, loose on the outside and tight on the inside, he likewise looked very stable.

But several other fighters, such as Lu Gang and Yao Zhijian, had a look of excitement in their eyes, for they knew that a vicious battle might follow, a very rare opportunity in this harmonious society. Lu Gang and the others, likewise, wanted to prove their fighting prowess by fighting, after all, losing to Yi Xingchen and the others in the last confrontation was a stain on them, and they wanted to prove themselves!

The White Spider, on the other hand, had a nervous look on her face, the interception she had encountered on the road had made her realise that the enemy she had encountered this time was definitely not simple, the first set of attacks were so severe, so naturally there was even less to say about the following, so as soon as she had waited for Yi Xing Chen and the others, she hurried along with them.

"Leave a warrior here to wait for the police, the others will follow me to rescue the others, as well as chase after the enemy leader!" Ji Feng said, "You few snipers should pay attention, never fire casually later, wait for my order try not to hit the vital points!"

"Yes!"

Everyone answered at the same time.

And then, Yi Xingchen designated a soldier to stay behind and wait for the police, while the others followed Ji Feng and rushed directly to the building in the southeast corner of the United University, where Xiao Yu was still inside.

Of course, for the convenience of the chase, Ji Feng and the others took a total of five cars, and Ji Feng still drove the same car as before, rushing to the front.

“Pop!”

The white spider turned on the intercom in the car and wanted to adjust to the same channel as the other vehicles, but was unable to do so because it was not the same batch of intercoms in the first place, and the various channels were also somewhat strung together, making it impossible to intercom at all.

The first time I saw it, I frowned: “Can’t it work? It looks like it’s time for them to agree to be equipped with vehicles and contact devices!”

“The channel can’t be connected!”

White spider while driving, her hand kept fiddling with the intercom adjustment switch, her eyebrows slightly knitted, “I don’t know if it’s a bad signal or what’s going on, I can’t intercom at all like this.”

“Forget it if it doesn’t work, for the time being, we’ll use the mobile phone!” Ji Feng said, he casually took out his phone and dialed Wang Xin’s number, “Did you track it?”

Wang Xin immediately said, “Young Ji, it has been tracked, the target is currently heading in the southeast direction

“Southeast direction?”

Ji Feng couldn’t help but be slightly stunned, “Is it the direction of the United University? Keep reporting the target’s movement!”

Wang Xin responded, “Yes!”

Ji Feng then directly put the headset on, his mobile phone was kept in the state of talking to Wang Xin, there was no way, without a proper communication device, he had to use his mobile phone for the time being

“Southeast direction” Ji Feng couldn’t help but frown slightly and secretly said, “This little male, what is he doing in the United University? Could it be that there are also people from the dynasty in the United University?”

The southeast direction of Shengshi KTV is the United University, in fact it is not strictly southeast, from Shengshi KTV go south, then slightly east, is the United University, so strictly speaking, it should be said that it is due south.

In fact, whether it is southeast or due south is not too important, what is important is, how did the young male escape to the United University?

If there was no one from the dynasty at United University, then the little prince would definitely not know himself that well, so now he would naturally flee to the nearest United University, and with so many people in United University, it would be too easy to escape from there.

And not only to escape, if one wanted to set up some kind of backhand or wanted to leave some people behind, that would be the easiest of all.

Ji Feng couldn’t help but sigh, the dynasty’s power development was really too fast and really pervasive.

Even this seemingly clean and pure university campus was now no longer a traditional ivory tower, but had become a gladiatorial arena for various forces and all those with ulterior motives.

And among these people, the one who made Ji Feng the most cautious and wary was Dynasty. Originally, he had only occasionally suspected towards this aspect, but now it seemed that not only were his suspicions not superfluous, but he had also somewhat underestimated the power of Dynasty in the United University. If not, how could this young gongzi have pried himself out so well?

There was also a lot of information about Xiao Yu, I think the little gongzi had definitely pried very clearly too!

Ji Feng couldn't help but sigh, "Dynasty, just how deep have you guys infiltrated in China? How many people have been converted by you guys? Also, what exactly is that little prince and what is his relationship with Xuan ****?"

This was what Ji Feng was most puzzled about so far, the little gongzi obviously had an extremely deep relationship with Xuan ****, and his relationship with Dynasty was obviously not ordinary either.

In fact, since the last time he rescued Xiang Yongzhan on a deserted island in southeast China, Ji Feng had been keeping an eye on this little prince, but all along he had no chance to meet him, let alone knowing what kind of divinity this little prince was, but only by guessing that this person must be very familiar with himself, not only familiar with some of the situation of the high level and family of China, but also, the other party had obviously done special investigation on many people! investigation!

Today, I finally met this young gongzi!

However, today's meeting made the doubts in Ji Feng's heart even stronger, not because the identity of this young gongzi made him suspicious, but the information revealed from these people he encountered this evening made Ji Feng's heart a little heavy.

Each and every one of these people that he encountered tonight was more powerful than the transformers that he had met before, not to mention whether they were more powerful after their bodies had been transformed, but simply that the transformers that he met today were not only no worse than the previous transformers in terms of speed and strength, but more importantly, they actually knew kung fu!

That is definitely not ordinary combat arts, or some mixed fighting arts, or those transformers just rely on their speed and strength to attack indiscriminately, just want to kill the teacher with their fists

The reformers we met today, they actually know kata!

The only people who know these routines are martial artists. Even if people learn the routines, without the shield of true qi, the moves they make are not strong enough to cause much damage to the target, they are just like scratching an itch.

But these transformers are different, they are strong in terms of strength and speed!

Even though they don't have true qi, they are no less powerful than martial artists when they strike these moves!

What's more, apart from these reformed people who know kung fu, there are actually a few reformed people who originally knew kung fu and were only reformed later.

..... For example, Tan Tianfeng!

This guy originally knew kung fu, and although his kung fu wasn't very good, he did have true qi in his body.

Now that he had been transformed, his entire strength had suddenly increased by a large margin, even Ji Feng felt slightly troubled when he tackled it, which was really surprising!

And it wasn't just Tan Tianfeng, there was also that little gongzi, and those few people around the little gongzi, their kung fu was all quite impressive.

They weren't actually afraid of bio-currents anymore!

Strictly speaking, it was that they weren't as scared of bio-currents anymore.

In the past, even if they were a senior reformer, they wouldn't dare to touch the bio-current at all, they would twitch as soon as they touched it, and they no longer had that terrifying strength and speed!

But now it's different, it's obvious that these people's fear of bio-currents has lessened a lot, and that's not a good sign!

Who the hell are they

"Young Ji, the target has entered the United University campus!"

"Very Young Ji, the target has exited Union University and is heading in the southeast direction"

"Extremely young, the target has temporarily disappeared, preliminary estimation is that he should have entered the building, should we continue tracking next?"

.....

A voice, constantly reaching Ji Feng's ears, his brow furrowed, judging by the time that young male stayed in the United University, he definitely didn't wolf through the United University campus with the fastest speed to escape, he must have done something inside!

But now Ji Feng is no time to pursue these, the most important thing at the moment is to first catch that little male, then and long ago caught together with Tan Tianfeng and other people interrogation, it will be possible to interrogate the current situation of the dynasty, at least, also be able to get important intelligence about the dynasty

"Keep tracking!" Ji Feng said.

"Yes!"

"White Spider, immediately rush to that property southeast of Union University"

"It looks like that little gongzi went to rendezvous with the armed men in that property, is he undeterred and wants to gather those people to continue stirring up trouble, or does he want them to escort and escape from here?" Ji Feng deliberated secretly.

“White Spider, rush there as fast as you can!” Ji Feng said immediately.

“Yes!”

.....

“Huff~~huff~~”

In the darkness of the night, a human figure ran quickly while panting violently, looking woefully out of shape. But because this person was wearing a mask, it was impossible to see clearly how this person’s face looked, however, it was clear from his slightly rapid breathing that he was not in a very good state!

This person was no other than the young gongzi who had escaped from the building opposite Shengshi KTV. He had used the long-arranged retreat to narrowly escape from Ji Feng’s hands, and in turn followed the pre-arranged route all the way to the southeast.

He was too clear about Ji Feng’s skills, and this evening, Ji Feng’s more practical fist made him deepen his impression and knowledge once again – even if he had been transformed and his strength had increased by leaps and bounds, he was still no match for Ji Feng!
