Chapter 1301

“How are you doing, this big brother?”

“Hush .....

In the dark and somewhat gloomy building, such a faint to almost imperceptible sound came out, and then, there was no sound at all, the whole building, which had not yet been built, except for the occasional sound of some footsteps, there was no longer the slightest sound.

In the darkness, Ji Xiaoyu hid in a corner, her eyes full of fear, her heart even more frightened, her body trembling continuously, her hands tightly covering her mouth, afraid that she might scream again.

Next to Ji Xiaoyu, there was another figure.

This figure was also leaning against the wall, breathing slightly raggedly, but his eyes were very bright in the darkness, revealing some ruthlessness, and full of vigilance.

And if you look from the outside you will see that there are in fact quite a few other figures hanging around the building, all of them clutching guns or holding other weapons. If one could look closely, one would see that there was a faint flash of a red dot on the hands or in the arms of these figures.

And the faces of these people were also covered with masks or with some strange glasses.

These were their special equipment, with night vision, infrared sensors, even lasers and electromagnetic sensors, etc. .... These equipment would enable them to see their targets in hiding even in the darkest of nights.

Now these people are constantly searching, every corner of this building is not spared.

From afar, Ji Xiaoyu saw a red dot slowly approaching, and at once, her breath caught, and her one small hand tightly covered her mouth, afraid that she might scream out of fear.

Her body trembled more and more, showing how scared she was. After all, this was the first time she had ever encountered such a thing, and when she thought about how those bad people outside, who didn't know where they had come from, would treat her after they caught her, the thought of this made Ji Xiaoyu's body tremble even more.

She was scared, but she could not make the slightest movement. The extreme fear in the silence made Ji Xiaoyu simply terrified.

Tears were unstoppable, welling up in her eyes, but she didn't dare to cry out for fear of attracting the bad guys as a result.

Ji Xiaoyu's pitiful look would really make anyone's heart ache at the sight of her!

Pop!

Suddenly, a slight clap sounded next to her, and Ji Xiaoyu was instantly scared, her face pale and trembling, her hands and feet even softer as if all her strength had been taken away in an instant.

This moment, Ji Xiaoyu really felt a strong sense of helplessness, she thought of a most care for her third brother, but obviously, now the third brother may not be able to come in time, and next to this big brother, but also injured, she really alone, helpless, and afraid .....

The sound of footsteps met far away, hiding in the corner of the Xiao Yu can not help but slightly relieved, heart full of aggression, the tears that played in the eyes, fluttered fluttered down.

.....

“Ji Feng, Ji Feng .....”

The voice of hatred is thick in this dark night, the little male figure keeps running fast, his breathing is also more and more rapid.

The black hole of the building in front of him finally appeared in sight, the young male finally stood still, he looked back, several cars were approaching fast, the lights were about to shine on him.

A cold glint flashed from his eyes, “Ji Feng, we’ll have a long day ahead!”

“Swoosh!”

Little Prince whistled.

At once, the sound of stomping footsteps came, and from that dark corner came two figures running, not knowing from which nook or cranny they ran out, and if they hadn’t taken the initiative to run out, I’m afraid no one would have even seen them.

Because there was not the slightest striking feature on them, hiding in that darkness, they really just blended in with the night, as if they were ghosts in the darkness of the night!

“Little Duke!”

A dry and raw voice emitted from the mouth of one of them, “We haven’t found Ji Xiaoyu yet, the one beside her should be an old hand, extremely good at counter surveillance and good at concealment .....”

“That’s right, the armed men underneath have been searching the area for a long time and haven’t even caught them yet!” Another man said, “The building is too big and these officers are not good at searching, it’s hard to catch them!”

“It’s hard but we still have to catch them!”

Little Duke immediately said, “Now whether Ji Xiaoyu is in our hands or not is of vital importance to us, because it is directly related to, whether we can leave China alive or not!”

“Then what should we do now?” One of them asked.

“Let’s go, the plan has failed, let’s get out of here first!” Little Duke said.

“Yes!”

“Don’t gather the people upstairs, tell them to stay here and make sure to catch Ji Xiaoyu!” Little Duke said, “To tell them that if they can catch Ji Xiaoyu, then they can live, if they can’t, this China is their

burial place, Ji Feng and the Chinese police and even the military, will not let them go, only by capturing Ji Xiaoyu as a hostage will they be able to leave safely!”

“..... Yes!” After a slight hesitation, the two nodded their heads at the same time.

They knew very well that although what the young duke said was the truth, it wasn't actually very accurate. Because they had already arranged their retreat long before they came, if they wanted to leave, not to mention these people together, even if they added all the other armed men together again, they could still get away safely.

Now the young duke has left all these armed men upstairs, I am afraid he is still a bit undeterred.

Moreover, once they are surrounded by the Chinese police and military, even if they have hostages in their hands, they will definitely not be able to escape from China, they will either surrender or be killed, those are the two ways to go.

So these armed men stay, just to do cannon fodder, they can catch Ji Xiaoyu that is naturally better, the little duke hands then have again to call the capital with some people in China, if not catch Ji Xiaoyu, then for the little duke also have no loss, just some armed men, this is really too much in foreign countries, as long as there is money, as much as you want .....

“Squeak—!”

Just then, the sound of emergency brakes suddenly came, and the little duke said at once, “Go!”

The three figures instantly raced off and soon disappeared into the darkness.

“Southwest direction, send someone after them immediately, there are three people on the other side!” As soon as Ji Feng got out of the car, he got very detailed information from Wang Xin, he immediately ordered, “Get a sniper and a few fighters who are good at close combat!”

“Yes!”

Yi Xingchen immediately waved his hand, “Lu Gang, Liu Zejun, Wu Honggang, you three go after them immediately!”

And then, Yi Xingchen made a few hand gestures and waved his hand.

At once, the others immediately entered the building in front of them, which had not yet been built, with weapons in full armour and quickly.

Ji Feng whispered a few words to the white spider, and then also followed into the building.

Bang!

When Ji Feng knocked down an armed man with one punch, he discovered that the people inside were ordinary armed men, neither reformers nor martial artists, at most they only knew some combat skills, but in this darkness, they posed no threat at all.

The next battle was much easier, with Yi Xing Chen and the others fighting, those armed men were like dogs and chickens, being cleaned up by Yi Xing Chen and the others in a chopping and slicing manner!

“Xiao Yu! Xiao Yu!”

Yi Xingchen and the others split into two teams, and after sweeping all the way from upstairs to downstairs, they made sure there were no armed men hiding, while Ji Feng was in charge of the middle floor, but instead of looking everywhere, he quietly listened and vaguely heard some heavy breathing.

Ji Feng immediately walked over in big strides, he came around a corner and shouted, “Xiao Yu?!”

“Third Brother?!”

At once, an incomparably surprised voice suddenly sounded out, “Third brother, is that you?”

“Xiao Yu?!”

Ji Feng immediately went over and immediately found that Xiao Yu and a man were both hiding in the corner of the yet-to-be-built building, both of them were in a very bad shape, especially Xiao Yu, her small face was full of fear, but there was a hidden surprise in her eyes, as well as a hint of hesitation and disbelief.

Snap!

Ji Feng immediately turned on the pocket torch he was carrying, “Xiao Yu, not afraid, third brother will take you out this time.”

“Third brother ..... woo .....” Xiao Yu immediately jumped into Ji Feng’s arms and wailed, she was really scared, as a girl, she rarely even argued with people, but now she encountered this kind of heavily armed bad guys trying to catch her, any girl would be scared to death, and those with even less guts would be scared to death!

Ji Feng patted Xiao Yu’s back and said comfortingly, “Don’t cry Xiao Yu, those bad guys have all been beaten away by Third Brother!”

“Really?!” Xiao Yu asked, still a little frightened.

“Of course it’s true, can you see, all these people around are our people, those bastards have all been beaten away!” Ji Feng smiled and comforted her, “Were you hurt?”

“No!”

Ji Xiaoyu shook her head, her face full of joy, then she suddenly changed her face, “Right third brother, this big brother was injured in order to save me, hurry up and send him to the hospital!”

Ji Feng nodded at once and said, “It’s my negligence!”

He turned his head to look at the man next to Ji Xiaoyu, a young man in his twenties, just a little pale because of his injuries, and one arm was drooping.

Ji Feng pulled him over and instantly noticed that there was a wound above his left shoulder, which should be a gunshot wound.

“Well!”

The man instantly let out a muffled cry, obviously the wound had been pulled by Ji Feng!

“Sorry for the rude action!” Ji Feng smiled and took out a bottle from his pocket and poured out a pill from it, “Take this down and go to the hospital!”

## Chapter 1302

What happened next was relatively much simpler.

Xiao Yu was successfully rescued, while the rest of the group began to pursue Little Duke and the others with all their might. Ji Feng did not follow, as things had progressed so far that the role he played in whether or not he could capture Little Duke was not very big anymore.

With Yi Xingchen and the others, it was already enough.

There were no more experts around the young duke, and the young duke’s own battle prowess might not be comparable to Yi Xingchen’s, not to mention the fact that the young duke was now injured.

Regarding the power of his own attack, Ji Feng was still very confident. Don’t look at how easy it seemed for the Little Duke to escape from Ji Feng’s hands, but in reality, Ji Feng could be sure that the Little Duke must have been injured. Then in that case, with Yi Xingchen and the others going after him, as long as they could catch up with the little duke, it would be easy to catch him.

But the question now was, would they be able to catch up with the Little Duke?

Based on Little Duke’s escape route, Ji Feng felt that this was not very likely, because Little Duke had all arranged his back route beforehand, and even, after he escaped to United University, he actually stayed for a while before leaving, so it was obvious that he should have been very relaxed when he left.

Therefore, despite the fact that Wang Xin had mobilized satellites to monitor him, it was still very difficult to track Little Gongzi very precisely at this late hour.

Therefore, Ji Feng took Xiao Yu home with him.

On the way, he also called his little uncle to report his safety, and only then did Ji Zhenping breathe a sigh of relief.

However, Ji Feng was unaware of how much of a shock the actions of Yi Xingchen and the others would cause to some people at this time!

.....

“It’s too chaotic!”

Ji Feng sat down on a chair at once, casually opened the computer on the face-painted table and couldn’t help but shake his head.

What happened today was so messy that Ji Feng didn’t even know where to remember for a while, so he had to properly run through what suddenly happened this evening, to get useful details and intelligence from it!

Therefore, after returning home, Ji Feng arranged Xiao Yu to go to his room to rest, and briefly spoke to Tong Lei and Xiao Yuxuan before coming to the study and letting out a long breath.

Frankly speaking, what happened today was indeed out of Ji Feng's expectation.

The little grandson that he had only heard of before but had never seen face to face, he had seen with his own eyes today, and despite the fact that the other party was wearing a mask, Ji Feng had gotten a lot of useful information from the fight with the little grandson.

"Tick tock ....." As soon as Ji Feng opened his computer, one of the encrypted communication devices he had installed rang, and it was Wang Xin who touched the communication device.

In fact, the communication device that Ji Feng had installed was linked to Wang Xin's communication device, so as long as Wang Xin used the device, Ji Feng would immediately receive the information here, just like now.

Ji Feng casually opened the communication device and heard Wang Xin's voice come over, "The target is three kilometres ahead and is moving fast, based on the speed of movement, the target should be in a car or other motorized transport ....."

Further, it was Yi Xingchen's voice again, "Roger!"

This was Wang Xin on the phone with Yi Xingchen, closely tracking the little male's trail.

"Little Prince ....." Ji Feng pondered over this title and felt that it seemed to mean something else, only that he still knew too little about the dynasty, so until now, he didn't know who this Little Prince actually was, and even more so, he didn't know what this title stood for.

However, there was one thing that Ji Feng was sure of: this little prince must be a member of the martial arts world, and he had met him before, and was even a life-and-death enemy.

The reason is that from the tone of voice of the young duke talking to him, the young duke can be said to hate Ji Feng to the bone, so without saying much Ji Feng knows that there must have been a problem between him and the young duke in the past.

Both have a problem with Ji Feng, there is such a deep hatred, and itself is a martial artist ..... want to find this person, in fact, the scope is not very large.

Ji Feng leaned back in his chair and closed his eyes, but was actually analyzing carefully.

The first time I heard this name was when I was rescuing Xiang Yongzhan on that deserted island in the southeast China sea, so one thing is certain, this little prince must have existed before then, because using Xiang Yongzhan as bait, trying to lure Ji Feng to the rescue so as to kill him all in one go, this kind of brilliant means of surrounding the spot and fighting for help was arranged by that mysterious little prince.

Now then, it can be said in this way that the identity of this little gongzi has in fact been characterised by many features and clues.

There was no doubt that the martial artist had an extremely deep hatred for Ji Feng.

But in addition to that, there were several characteristics to be added in, for example, the past relationship between the young male and Ji Feng, that happened before the rescue of Xiang Yongzhan,

moreover, this young male was very knowledgeable about the relationship between Ji Feng and Xiang Yongzhan, the people around Ji Feng, the family's relationship, etc.

Even if all of this information was pried out by the little grandson, then he would have to have access and channels to pry, if he were an ordinary citizen, he would never be able to find out this information even if he wanted to.

So, the young duke had at least two more characteristics – he was not of low status in China in the first place, or rather, the people he had access to were of high status, had a lot of energy and were very well-informed!

And another was that the young duke knew a lot about what was going on in the upper echelons of China!

With all these characteristics and factors combined, the scope of all the pondering, that was much smaller.

According to Ji Feng's memory, the only martial artist he had offended before rescuing Xiang Yongzhan was Xuan \*\*\*\*, and even the Tan and Shen families that was a later transgression, plus the moves performed by the few people around the little grandson were all Xuan \*\*\*\* kung fu, then it was certain that the little grandson must have an extremely deep relationship with Xuan \*\*\*\*.

Besides, the young duke had a great grudge against Ji Feng, so there was no doubt that the only people who would fit the bill would be Xuan \*\*\*\*'s people.

Tian Guodong, Wang Wenliang, Third Elder Fourth Elder .....

But anyone who has a problem with himself, Ji Feng went over it in his mind and circled a few targets.

Almost all of those Xuan \*\*\*\* people who were injured in the beginning in their own hands are possible. And among them, the ones most likely to be the young grandson were also a few young men like Tian Guodong and Wang Wenliang, because the third and fourth elders of Xuan \*\*\*\* were still in prison, and even after being reformed, it was impossible for them to have true qi anymore.

“Hiss-!”

Ji Feng's heart suddenly moved, and he thought of another person – Qiao Gakai!

It seemed that Qiao Gakai was also from Xuan \*\*\*\*, or at least, it was possible that he was a disciple from the periphery of Xuan \*\*\*\*, because according to Ji Feng's memory, when he first had a violent conflict with Qiao Gakai, Qiao Gakai came to Jiangzhou together with Tian Guodong and the others, at that time, Qiao Gakai and Tian Guodong and the others, were known as master brothers!

Moreover, Qiao Gakai did know kung fu as well, he was very good at that time, and now that so much time had passed, then his strength would definitely have increased as well.

There was another thing that increased Ji Feng's suspicion ..... of Qiao Gakai after he was scrapped by himself in the first place, how did he get back on his feet? There was also Qiao Rong, who likewise had not gotten up from bed for a long time after being injured by himself with bioelectric current, but then suddenly got better!

At that time, according to the information he had received, Ji Feng thought that it was the expert from Xuan \*\*\*\* who had stepped in and cured them, but now it seems that this speculation can be very questionable!

“Most likely it was Qiao Gakai!” Ji Feng’s spirit was instantly shaken.

Although, it was also possible that Ji Feng had guessed wrongly, and even the young gongzi might not even be from Xuan \*\*\*\*, but just learned Xuan \*\*\*\*’s kung fu and happened to be unusually hateful towards himself because of certain things, but, this possibility was too small.

Qiao Gakai or Tian Guodong and others were the only ones who were the little gongzi, and that was the guess, the possibility was great!

“Whew~~!”

Ji Feng couldn’t help but hug his arms, “Qiao Gakai, are you really the little gongzi?!”

“Tic tic tic .....”

Suddenly, an alarm went off on the communication device, it was Wang Xin requesting to talk to Ji Feng.

Ji Feng immediately opened the call device and asked, “Wang Xin, what’s up?”

“Boss, the battle team has engaged the target, but .....” Wang Xin hesitated slightly before saying, “But I’ve lost the signal on my side and can’t track the target anymore!”

I knew it!

Ji Feng nodded and said, “Wang Xin, continue tracking, track down the target as far as possible!”

“Yes!” Wang Xin answered.

She didn’t explain to Ji Feng why she couldn’t track the target anymore, and Ji Feng didn’t ask, moreover, Ji Feng’s order, Wang Xin also answered it without hesitation, which made Ji Feng very satisfied.

First of all, regardless of whether it can be done or not, always try your best to do it, and the result becomes a side issue.

In fact, before this Ji Feng had already expected that it would be somewhat difficult to catch the young duke this time, after all, the young duke had obviously arranged all the back roads, and the person was also very cunning, considered a formidable enemy, if such a person was caught so easily, it would not be possible to have such great power in the dynasty.

If the dynasty used people casually and didn’t even look at their abilities, then it would simply be disbanded and forget about it, and it wouldn’t have grown so big.

However, being able to make an operation that was carefully planned by the young duke turn out to be like this now, while also making the young duke flee in disarray, this was already quite good.

At least through this matter, Ji Feng had gotten a lot of information, especially with regards to this mysterious little duke, as well as some of the current situation of the dynasty, which was all very important, because by getting this information, Ji Feng would know how to prepare for it in the future.

“Tick tock .....” the alarm of the communication device sounded again.

When Ji Feng picked up, Yi Xingchen’s voice came through, “Boss, we caught a live one, but the key person ran away one step ahead of us!”

Chapter 1303

The little duke finally got away!

This is the news brought back by Yi Xingchen, Wang Xin has likewise fed back, saying that the signal was very strongly interfered with and the next trace failed .....

Hearing this news, Ji Feng looked very calm.

This is because this result is what he had expected long ago, not to mention what the real identity of the little prince is, just a single point, the little prince should have a not low status in the dynasty, at least it is considered a head, otherwise he can not lead so many of his men to act.

No matter where one is, the number of people one can command can be used to measure the level of one’s status, and this has been a constant throughout the ages.

If your status is high, then you can command a lot of people and there are many people willing to work for you, but if your status is low, then I’m afraid that the only person you can command is yourself.

Therefore, Ji Feng could conclude that the position of the young duke should not be too low.

And with the level of technology and power of the dynasty, it was not impossible to protect the young grandson from escaping from China, or from Wang Xin’s surveillance as well as Yi Xingchen’s pursuit.

This is not to say that Wang Xin’s level of technology is poor or that Yi Xingchen is not capable; in fact, the fact that the young duke was able to escape has nothing to do with their ability. After all, Wang Xin was able to directly invade the satellite to monitor the little duke, that was already quite remarkable, except that the dynasty should have some special means to prevent tracking, such as signal interference, or some other means, etc. ....

As for Yi Xingchen that is even more needless to say, although he is powerful, but when tracking or carrying out other actions, it is definitely said to need the most accurate intelligence to support.

Only, the little male escaped, which is indeed considered a regret. Of course, Ji Feng would not say that he would stop tracking him, as long as he was not sure that Little Duke had left China, Ji Feng would not stop his pursuit of Little Duke.

With Little Duke’s strength plus Dynasty’s infiltration in China, they were definitely an incomparably terrifying combination, and if Little Duke wanted to do something bad, or wanted to target anyone, it would be too simple and really too easy.

Such was the case with this encounter, for example.

If the little duke's methods were a little more poisonous, or if his arrangements were just that little bit more well thought out, then Ji Feng would definitely be in danger!

For such a dangerous person, Ji Feng would naturally not take it lightly anymore.

And the key issue is that this mysterious young male makes Ji Feng's heart quite a bit scornful.

Just imagine, an enemy who knows you so well and has been hiding in the shadows, not only is he a god, but he is also extremely strong and ruthless himself, so I think whoever it is will have scruples in his heart, and so does Ji Feng.

He was not afraid that Little Duke would directly attack him, but he was worried that Little Duke would repeat the same trick and attack the people around him.

For example, this time, if the little duke really caught Xiao Yu, then Ji Feng would definitely throw in the towel, and even at the critical moment, he would only be able to wait for the kill, which was definitely not the result he wanted to see!

.....

The next day, Tong Lei and Xiao Yuxuan are at home with Xiao Yu, this girl suddenly experienced such a thing, is indeed terrified, the spirit is a little depressed, even that beautiful eyes will also from time to time show some panic colour, apparently for yesterday's matter in the heart of a deep shadow.

Not to mention going to school, even when she went out, Xiao Yu was very frightened.

Her whole body seemed to be in a state of panic. For example, if there was the slightest abnormal noise outside the villa's gate, Xiao Yu would suddenly tremble, thinking that there were bad people coming.

That pitiful look was truly heartbreaking and infuriating.

So Tong Lei and Xiao Yuxuan had to accompany her to talk and relieve that nervousness of hers.

The reason for this is that he had to come forward, not for the sake of anything else, but because it was too big.

It's not that a lot of people know about it, but the key problem is that too many people died.

Only a few leaders, such as Tan Tianfeng, were captured alive.

At that time, after the police arrived, looking at the corpses on the ground, although they were also psychologically prepared, but after seeing that scene, they were all shocked beyond measure and their stomachs churned.

..... The sight was indescribable.

If they did not know that there was no war within China, they would have thought they were in a tragic battlefield .....

The fact that there are so many corpses makes Zheng Yuanshan also shocked beyond belief, such a big thing, naturally can not be a report handed up even, must be strictly in accordance with the procedures,

even if Ji Feng is really legitimate defense, there must always be a clear statement, but also the formalities are sound.

The fact is that it took a morning just to take a statement, and that's not all, there are still many things that need to be done at any time to cooperate with the investigation, which is quite troublesome to deal with.

Of course, Ji Feng was the one who reported the case, he could leave after taking the statement, and as for what else needed to be done later, Ji Feng just needed to wait for the notification.

But for Ji Feng, this was not enough, the police investigation was not too relevant to him, he had his own way to find out the matter.

Therefore, after taking his statement, Ji Feng went straight to the security department of the Tengfei Group, Tan Tianfeng and several other guys who were captured alive, were all kept here and not handed over to the police, now, Ji Feng was going to interrogate them!

“Ding .....”

On his way to Tengfei Group, Ji Feng received a call from Xiang Yongzhan.

“Ji Feng, you're not forming another special warfare brigade, are you?” On the phone, Xiang Yongzhan's voice was full of surprise, one could even say it was shocked.

“What does that mean?” Ji Feng asked with a smile.

“How else can I say that ..... your people took out so many militants in one night, this kind of combat power, I'm afraid even a team of special police can't do it, right? Of course, with you, a guy with a force value as high as a pervert, it's understandable to achieve such a record.” Xiang Yongzhan's voice was filled with astonishment, “But the problem is, your men chased after them for the whole night, no matter how much the other side hid, it was useless, being chased by your men, the other side was as wretched as a dog in distress!”

“Old Xiang, what exactly are you trying to say?!” Ji Feng asked.

Ji Feng had also explained all these circumstances to the police, and after the commotion last night, I believe quite a few people had already started to pay attention to this matter, so it was not surprising to Ji Feng that Xiang Yongzhan could know so much information!

But the question is, did Xiang Yongzhan call just to say this?

“Ji Feng, you don't need to avoid the important things with me either, don't forget what I do!” Xiang Yongzhan chuckled: “Without relying on anyone's power, without intelligence sources, without even tracking means ..... under so many unfavorable conditions, how did your people chase for a night and cling to the other side?”

“..... My men are clairvoyant, can you believe it?” Ji Feng grinned and asked.

“Do you think I believe it?”

Xiang Yongzhan couldn't help but snicker, "Ji Feng, this is what amazes me, your men can be described as crouching tigers, hidden dragons, experts like clouds, ah, those responsible for fighting that is naturally needless to say, the battle records are all there, what I'm curious about is, in your men, who is actually in charge of the intelligence chase?!"

Ji Feng was instantly astonished, Xiang Yongzhan was really extraordinary, he had seen the crux of the matter at a glance.

The reason why the battle team was able to achieve such a glorious record, even chasing the young duke to death overnight, clinging to him, chasing him like a dog in a house, all this could not be achieved just by combat power!

The source of intelligence!

That, is what is most important.

"If I'm not wrong, Ji Feng, your people should have resorted to some ..... tool, am I right?" Xiang Yongzhan asked.

Ji Feng frowned slightly, "Old Xiang, you can't say things without any basis, or this will affect my reputation!"

"Come on you!" Xiang Yongzhan hummed, "All right, I know it's not convenient for you to talk over the phone, how about this, I'm almost at the Tengfei Group, if you have time, come over and we'll talk after we meet."

"That ..... is fine, I'll be there in half an hour!" Ji Feng nodded and said.

After closing the line, Ji Feng couldn't help but shake his head, it seems that Xiang Yongzhan had guessed something, just now on the phone, Xiang Yongzhan had almost picked out the words, only because it was now on the phone, that's why he was a little vague.

What do you mean by "with the help of tools"?

Ji Feng naturally understood that Xiang Yongzhan meant that someone had resorted to the satellite in the sky .....

In fact, Ji Feng also knows that these things cannot be concealed from those who have a heart, but he is not worried, just guessing can not bring him any trouble, there must be evidence!

Moreover, even if there is evidence, what can be done?

Up to now, even Ji Feng still doesn't know what satellite Wang Xin is controlling, or even which country's satellite she's controlling ..... Don't think that because it's in China now, Wang Xin is controlling China's satellite!

In fact, Ji Feng still has a doubt in his mind, which makes him very puzzled – when the little grandson was escaping, he didn't seem to have any satellite locator on him, at least, no locating device that Wang Xin could detect, and secondly, the little grandson didn't make a phone call at that time, so how on earth did Wang Xin track him down?

Ji Feng was very curious about this!

He felt that when the right opportunity came, he would have to ask Wang Xin. It was understandable to be able to control satellites, but to be able to track a target without any reference or positioning device once again showed Wang Xin's super strength in the computer field!

What's more, through this joint operation of the battle group, quite a few problems were also exposed, and these, with reference to each person's ability, had to be re-coordinated!

Chapter 1304

Half an hour later, Ji Feng arrived at the headquarters of the Tengfei Group, and by the time he arrived, Xiang Yongzhan had also arrived. In a meeting room at the headquarters of Tengfei Group, Ji Feng met Xiang Yongzhan.

However, to Ji Feng's surprise, apart from Xiang Yongzhan, there were several other people wearing military uniforms, both male and female, middle-aged and young, but no matter how they looked, they just didn't look like soldiers.

The reason was that these people did not have much of the military's heroic and hard aura, instead they looked civilized and polite, if we say that they were teachers and students at the university, Ji Feng felt that this would be more apt.

Ji Feng's eyebrows wrinkled imperceptibly for a moment, and then stretched out again, but in his heart he was a bit strange, what did Xiang Yongzhan bring these people for?

"Elder brother Ji Feng!" When he saw Ji Feng open the door, he immediately stood up and said with a smile, "You are really punctual, half an hour is half an hour, not even a minute off!"

"I've always been a man of my word!" Ji Feng said.

The first time I saw him, I was able to get him to come back to me.

"So what, let me introduce to you, these few people, all of them are from a research institute in the military ....." Xiang Yongzhan made an introduction to those people and said to those people, "This is Ji Feng, he is ....."

"Oh, I'm a student, I went to school with Han, so I came here to casually play and look around." Ji Feng directly interrupted Xiang Yongzhan's words and said to those people with a smile, "So what, you guys must have something, right? Then you guys talk first, I won't bother you!"

"Hey hey!"

Xiang Yongzhan hurriedly called out to him, "What are you leaving for, there's no outsiders here, and this matter still has to be done with your help ah."

"What help can I give!"

Ji Feng smiled and waved his hand, full of modesty: "I'm just a student who hasn't graduated yet, and my grades aren't good, I often skip classes and fish for three days and sunbathe for two days, there's

something Old Xiang and Han Zhong can definitely give you guys the best help they can ..... That's it, guys chat!"

After saying that, not even waiting for Xiang Yongzhan to talk, Ji Feng directly turned around and walked out, just the top head encountered Han Zhong who was striding in.

"What's wrong with this?" Seeing Ji Feng walking out in a slight hurry, Han Zhong couldn't help but ask.

"Those people inside are all from the military research institute? They're here for ....."

"It seems to be for the 3D technology!" Han Zhong lowered his voice and said, "Didn't you already say hello to me last time, what, you don't know these people?"

Han Zhong was instantly alerted, Ji Feng had just greeted him, saying that the military research institute was interested in the 3D technology of the Tengfei Group and wanted the Tengfei Group to transfer this technology for military use, and Ji Feng asked Han Zhong to agree to it, but of course he had to listen to their conditions beforehand and talk about them after understanding them clearly .....

"Yes greeted!" Ji Feng nodded and said, "I just didn't expect them to come so quickly, in fact, I was also busy and faint. How about this, you talk to them first and ask them all about the situation, then I'll send you the information!"

"Doing the dumping again?" Han Zhong shook his head and sighed, "I can't help it, I'm just a laborious life!"

"You brat!"

Ji Feng punched him and shook his head, "I've been doing a lot of things lately, and it's also quite tricky, so I'll have to work hard for you on this side, if there's something you really can't manage, contact me again in time!"

"I'm just kidding!" Han Zhong laughed, "We are brothers, we don't have to talk about family matters, I will get it done!"

Ji Feng then smiled and patted him on the shoulder without saying anything.

Afterwards, Ji Feng went to Xiao Yuxuan's office, today both Tong Lei and Xiao Yuxuan were at home with Xiao Yu, so it just so happened that the place was empty, and it was a good place to talk.

"Knock, knock, knock!"

Ji Feng had just sat down for a few minutes when a knock sounded on the door.

"Enter!" Ji Feng sat on the boss chair behind his desk with a big sword and saw Xiang Yongzhan pushing the door in, he nodded slightly, "Sit!"

"....." Xiang Yongzhan cried out a bit, he casually pulled over a chair and sat on this side of the desk, face to face with Ji Feng, "Ji Feng, your man is very impressive!"

“That’s not the right word, firstly, those people are not my people, they are specially hired security personnel of the Tengfei Group, they were transferred over to save me, that was also because they did it for the sake of my girlfriend, it was a brave act.” Ji Feng smiled faintly, “Secondly, you said it impressed you, what, did you say you’ve seen them strike before?”

“You guy .....” Xiang Yongzhan was dumbfounded, and then shook his head and laughed bitterly.

It had to be said that this Ji Feng guy, whether he was talking or doing something, that was dripping with water. For example, right now, although anyone who has a slight understanding of the inner workings of this matter knows that those experts that Ji Feng used last night were his people, and it is even likely that they were a war team that he had specially trained.

But he just won’t admit it, he has to say that this is the security personnel of the Tengfei Group, what can you do?

These people are all related to the Tengfei Group, nominally, they are indeed the security personnel of the Tengfei Group, reasonable and legitimate, no one can say anything!

Of course, Xiang Yongzhan also understood why Ji Feng was so cautious, after all, Ji Feng’s identity was somewhat sensitive, if he had such a strong group of elites under his hands again, it might have caused some gossip.

But now, no matter what the occasion is he is dead set on not admitting it, he has decided that it is the security personnel of the Tengfei Group, so even if others want to distort it again, it is not that easy.

If anyone had told him in the past that someone in his early twenties was such a demon, whether it was his hands or his mind, they were incomparably strong and could even be said to be unmatched, then Xiang Yongzhan would never have believed it, even if he hadn’t scoffed.

But ever since he met Ji Feng, he had to believe it, there really was such a demonic guy in this world, and he was right next to everyone!

“You kid never speaks in a calm manner!” Xiang Yongzhan shook his head, he had long since gotten used to Ji Feng’s habit of speaking, “But no matter what you say, there is one thing you must promise me!”

Ji Feng was instantly alerted, “What is it?!”

“Being stepped on by someone’s tail?!” Xiang Yongzhan instantly frowned, “Look at you with that thorny face and wary look, do I make you that wary?”

“If you have something to say, say it!” Ji Feng hummed.

This guy still doesn’t let people be wary? Ji Feng would be really stupid if he believed him!

“It’s not really a request, it’s just that you promised me before that you would help me train a few warriors and teach them how to deal with the transformers, you won’t cheat on this matter, right?” Xiang Yongzhan said, “Now those warriors have all gone back, you haven’t even trained them for such a long time .....”

“That can only be blamed on you!” Ji Feng opened his mouth, “If it wasn’t for you running away, they would have returned from learning the art by now, why would they need to wait until now to learn something?”

Last time those warriors were actually not bad, Ji Feng had already met them at that time and was ready to teach them how to use bio-currents to deal with the reformers, but then suddenly they clashed with Chang Chongwei, and after that, Xiang Yongzhan’s approach made Ji Feng greatly dissatisfied.

At the worst time, Ji Feng even planned to get rid of White Spider and Han Zhen, and would he leave those few warriors behind?

Xiang Yongzhan was immediately choked by Ji Feng’s punch, he shook his head with a bitter smile, “Fine, fine, let’s not talk about this matter, but what you promised, you won’t go back on your promise, right?”

“I, Ji Feng, have never been a man of my word, if I say something, I will never go back on it!” Ji Feng said, “How about this, you see when they are free, let them come directly to Tengfei Group, I will take the time to guide them!”

“That’s good!”

Xiang Yongzhan slapped his thigh, “Actually, my request is simple, you change the way you train them, strictly speaking, let them work harder and work for you .....”

“Wait, you less, don’t say anything like work for me, I don’t dare to use them!” Ji Feng directly interrupted Xiang Yongzhan’s words, “Old Xiang, it’s better to talk to me straight, I don’t have much time to chat with you here!”

“I was going to say business!” Xiang Yongzhan said, “They can’t do nothing at the Tengfei Group, can they? So why don’t we just let them join the security team of the Tengfei Group for the time being, well, the same team that helped you yesterday!”

“Stop it!”

Ji Feng waved his hand violently, “What are you thinking? Are you out of your mind?”

Looking at Xiang Yongzhan’s smiling face, Ji Feng hummed, “I told you, I never ask about the operation of the Tengfei Group, and I can’t afford to use those warriors of yours, or do as we agreed before!”

Ji Feng couldn’t help but feel amused, this Xiang Yongzhan really had a good idea, not only did he ask Ji Feng to teach those warriors to use bio-current methods to deal with the transformers, but now he actually wanted them to join the security team, what does this mean? It was clear that he wanted Ji Feng to help him train the warriors.

Even more so, Xiang Yongzhan was trying to get those few warriors to learn the training methods of Yi Xingchen and others .....

Even though they don’t have any special training methods yet, there is no doubt that Ji Feng will definitely teach them the training methods that belong to super agents, Xiang Yongzhan wanted to have people come and steal the lessons, isn’t this bullshit?!

“That’s not the way to say it, Ji Feng, we can totally talk about it again .....” Xiang Yongzhan smiled as if he hadn’t heard Ji Feng’s words, “In fact, if you train them, it will be good for you! Let me give you an analysis .....”

## Chapter 1305

“That’s not the way to say it, Ji Feng, we can totally talk about it again .....” Xiang Yongzhan smiled as if he hadn’t heard Ji Feng’s words, “In fact, it’s good for you if you train them! Let me give you an analysis .....”

“Alright, you don’t need to say anything!” Ji Feng waved his hand and said, “This matter is not negotiable, you’d better die of it. I will definitely continue to fulfill what was agreed upon before, those few warriors of yours, I will train them well, as for doing security ....., huh, I will not interfere in the affairs of the Tengfei Group, and I believe that there are enough personnel in terms of security, so I don’t need to bother you!”

“Say it, what conditions do you want!” Xiang Yongzhan also does not nonsense, he also knows, Ji Feng is not so good at fooling people, so it is better to come straightforward, this is the best, “anyway, you train one is also training, training a hundred is also that training, instead of hiding your aptitude, it is better to carry it forward, do you think so?”

“Besides, as far as your skills are concerned, you are still afraid that others will learn them?” Xiang Yongzhan laughed, “I’m not trying to flatter you, even if you teach it to others with all your heart, who will be able to learn it all?”

“That’s true!” Ji Feng accepted Xiang Yongzhan’s flattery without a red face, “But it’s useless to just give me a high hat!”

“Then tell me, how exactly will you be willing to teach!” Seeing Ji Feng’s oily look, Xiang Yongzhan couldn’t help but say, “To say that you are afraid that others will learn your skills, then I definitely don’t believe it, say it, what are your concerns!”

Although Xiang Yongzhan didn’t know Ji Feng very well yet, such as where did Ji Feng learn this skill from, how did he suddenly come out of nowhere and astonish people?

These were things that Xiang Yongzhan did not understand, but he did know what kind of temperament Ji Feng had as a person.

For example, although Ji Feng usually seems to have a very kind attitude, he is actually very principled, and once his bottom line is touched, then he will definitely have thunderous measures waiting for you, no matter who you are, he will not stop easily, which is evident from the matter of Chang Chongwei.

There are many, many more incidents like these that very much highlight Ji Feng’s character.

So for Ji Feng’s character, Xiang Yongzhan still kind of knows it very well, so he doesn’t have to beat around the bush much in front of Ji Feng, it’s easier to agree with him instead of being straightforward!

The most crucial thing now was how to get through to Ji Feng, so that he would agree that those few soldiers from the Special Combat Brigade would also join the security department of the Tengfei Group and train with Ji Feng’s people.

“Let me put it to you this way, in fact, the security personnel of the Tengfei Group really haven’t gone through any special training, it’s just that many of them are probably ex-soldiers, so they are still somewhat strong themselves, and protecting the safety of the group and its employees naturally seems

easy.” Ji Feng smiled faintly, “But to say what special training ..... if you check you should know that we have only started to give the security personnel gun permits until now, and they have never been exposed to special training before that... ..”

Xiang Yongzhan, however, shook his head, he certainly knew that what Ji Feng said could not be disbelieved, but he definitely could not believe all of it either!

He knew that according to Xiang Yongzhan’s understanding, at least fifty to sixty people had died at the hands of Ji Feng and his men last night, what concept was this?

Fifty to sixty people!

This was not fifty to sixty old and weak women and children, not even ordinary warriors, many of them were reformed people, even ordinary soldiers, they had a great headache against such reformed people, but in the hands of Ji Feng and others, they were just like dirt chickens and dogs, it was too shocking!

Especially Xiang Yongzhan, who had been dealing with reformers a lot in the last year or two, knew the most about the terrifying aspects of reformers!

Imagine, if they hadn’t gone through special training, how could Ji Feng’s men have achieved such a brilliant battle record?

This was the first time that Ji Feng had sent his men into battle, yet, this battle had achieved a very dazzling record, making anyone who knew the inside story, marvel at it.

It could be described as a battle that shocked the world!

And for Ji Feng’s training methods, it’s strange that Xiang Yongzhan wasn’t interested!

For those who lead soldiers, which of them would not want their men to be brave and invincible?

Although Xiang Yongzhan was the eldest son of the Xiang family, he was still a soldier, so naturally he also hoped that he could train an elite of elites that could sweep away his opponents!

“Ji Feng, how about this, let them go to the security department of the Tengfei Group for a year, within a year, I guarantee that they will train strictly according to your requirements and carry out your orders strictly, even if they die as a result, that will only be regrettable, you will not be held responsible for anything!”

Seeing that Ji Feng was not moved at all, Xiang Yongzhan finally threw out his final condition:

“Moreover, with my people in it, all those security personnel of the Tengfei Group can be listed under the name of the special combat brigade, as for the gun permits, and the weapons they need, it’s not a problem at all with me, and for any actions of the Tengfei Group’s security personnel, our military will absolutely But don’t ask ..... what do you think?”

“You’re just really going to send people over?!” Ji Feng couldn’t help but frown slightly.

“Of course!”

Xiang Yongzhan nodded and said, “Frankly speaking, from the time I joined the army until now, it has been many years, I have also figured out a set of methods to lead soldiers, and I have also consulted

other chiefs, but I found that when the troops are trained to a certain level, it is difficult to improve their combat power, unless two methods are used!”

“First, relying on the improvement of the level of science and technology to create more advanced weapons, such as the current long-range attacks, where the enemy can’t even be seen and the missiles might come over.” Xiang Yongzhan said, “Second, that is to rely on martial arts training, improve their own single combat ability, in a local war or in the middle of a small-scale conflict, can achieve an overwhelming advantage, after all, we are special forces, not a large-scale field force, or mainly covert operations!”

“Then what you mean is .....” Ji Feng asked, “you want to improve the warrior’s single combat capability?”

“That’s right!”

Xiang Yongzhan nodded and said, “As of now, the development of technology cannot be completed overnight, although our China is developing extremely fast, it is true that we still have a way to go to catch up with those developed countries. Under such circumstances, the improvement of the single-armed combat capability is particularly important.”

He said with a face full of admiration, “Your men ..... well, the security personnel of the Tengfei Group, their appearance really made a difference, that kind of strong combat ability, it was amazing! If my special operations brigade, or the special forces in the country could have that kind of combat power, it would really be much easier to carry out tasks, and, the casualties of warriors would be much less! Ji Feng, don’t think that I’m coveting your training methods .....”

“Isn’t it?” Ji Feng asked rhetorically.

“That’s right, I am indeed coveting, but not for my personal future and interests of Xiang Yongzhan, frankly speaking, even if I don’t do anything now, as long as I don’t make any mistakes, I believe you know how far I can go in the future!” Xiang Yongzhan said nonchalantly, “But I don’t want to live like that, people live a life, they always have to do something!”

“I am doing it for the development of the troops!” Xiang Yongzhan stared at Ji Feng’s eyes, “Likewise, I also hope to do my best to let the soldiers underneath have as few casualties as possible, everyone that is born and raised by their parents, you and I are the same!”

Ji Feng could not help but be silent.

These words of Xiang Yongzhan were already very sincere, and Ji Feng naturally heard them.

But in reality, he himself was aware that Yi Xingchen and the others were really not undergoing much special training, except for practicing gymnastics as well.

The reason why they were able to achieve such brilliant results last night was that half of the credit went to Ji Feng, most of those armed men who had been ambushed on the road had died at his hands.

But then, when Yi Xingchen and the others chased after the young duke, they did show full battle prowess too, which was commendable and very good!

But the crux of the matter still lies in the fact that Wang Xin's intelligence work was quite well done, and I don't know exactly what method she used, but she was actually able to closely track Little Duke's whereabouts, until he finally interfered with the signal in some way, and that was when she gave up.

So strictly speaking, in fact, Yi Xingchen and the others hadn't shown too much combat power during yesterday's outburst.

After all, the battle group had only just finished forming, so how could they form a strong fighting force so quickly?

But the problem was that Xiang Yongzhan and the others didn't know the inside story!

They all thought that it was because Ji Feng had sent out his battle team that they had achieved such a brilliant record!

This didn't even allow Ji Feng to explain it very well!

Moreover, after the battle team had finished grinding together, Ji Feng was really planning to teach Yi Xingchen and the others the kind of special training methods he had learned in the training space of his intelligent brain, and at that time, their combat power would really improve by leaps and bounds.

If Xiang Yongzhan sent someone over at this time, it would be just the right time to fully accept Ji Feng's training, and this timing was really .....

Moreover, what Xiang Yongzhan said made it really hard for Ji Feng to refuse!

"Phew~~"

Ji Feng exhaled a breath, casually threw a cigarette to Xiang Yongzhan, took one out himself and lit it up, and took two puffs.

And only after that, he slowly said, "Old Xiang, I believe that you said these words from your heart. Since the words have come to this point, then I will also say frankly, the security department of the Tengfei Group, this security force, I absolutely do not allow anyone to get their hands on it, not even to participate in some impurities!"

"There's really no room at all?" Xiang Yongzhan frowned and asked.

"That's right!" Ji Feng nodded unabashedly, "If you want your warriors to accept my training, it's not impossible, but you can't let them join the security department of the Tengfei Group ..... This needs to be thought of in another way."

"What way?!" Xiang Yongzhan immediately questions.

Chapter 1306

"What way?!" Xiang Yongzhan immediately asked.

To be able to obtain Ji Feng's training method, that is naturally no better, if you can get Ji Feng's personal training, that is something that many people can't wait for, so for the method that Ji Feng said, Xiang Yongzhan was very interested.

“The method I’m talking about is actually a bit that what .....” Ji Feng rubbed his nose and laughed: “I was planning, to recruit another group of security personnel for the Tengfei Group, of course, this is just my suggestion.”

“And then what?!” Xiang Yongzhan asked, for whatever Ji Feng said about suggestions or not, it was all automatically filtered out by Xiang Yongzhan.

He knew very well that Ji Feng was only saying this to set aside his relationship with the Tengfei Group, and that was all.

Ji Feng could be cautious, but everyone knew what was going on, so Ji Feng was just saying that, and Xiang Yongzhan, of course, was just listening to it, no one would seriously think that Ji Feng would really not interfere with the operation of the Tengfei Group.

“Now the security force of the Tengfei Group is still very limited, still need a group of personnel, so, as of now, the Tengfei Group should also recruit a group of supernumerary security personnel!” Ji Feng smiled and said, “In other words, a group of peripheral security personnel will be recruited, they will not have access to some of the core secrets of the Tengfei Group, they will just be responsible for completing the tasks given to them by the group.”

“For example, those who are responsible for guarding the gate will always guard the gate, vehicles with passes can enter, those without passes will have to be scrutinized, while those who guard the warehouse will just be used to guard the warehouse .....” is this reasoning, right?” As soon as Ji Feng said that, Xiang Yongzhan immediately understood what he meant.

“That’s it!”

Ji Feng nodded, “If you can send a few warriors to help, that would of course be great, of course, in order to make the security personnel of the Tengfei Group more combat capable, I will also take the time to train them!”

If you send a group of soldiers over now, there is no doubt that they will only be supernumerary security personnel, that is to say, they will not be responsible for too important tasks, at most, they can only check the gate, guard the warehouse and so on.

Of course, there is also the possibility that when Ji Feng’s people go to carry out some important tasks, the rest of these supernumerary personnel will be responsible for the security of the group to prevent people from taking advantage of the situation .....

In fact, it doesn’t matter what kind of mission is being carried out.

The most crucial thing is that if you follow what Ji Feng said, then it is clear that the warriors he sent here will definitely not be able to train with the security personnel of the Tengfei Group, and Ji Feng will definitely treat them separately.

In that case, it’s hard to say how much those warriors will be able to learn .....

“No problem!”

Xiang Yongzhan slapped his thigh and nodded his head in agreement, “No problem, it’s a deal!”

No matter how much skills can be learned, let's send people over first.

What's more, even if Ji Feng was hiding his personal interests, then he couldn't not teach any skills at all, if that was the case, he couldn't justify it!

"Don't be so quick to agree first, I have a few words to say in advance." Ji Feng smiled faintly and held up a finger, "First, the people you send here, the salary package and so on, can be distributed according to the treatment of other security personnel of the Tengfei Group, but there will be no special preferential treatment."

"There's no need to bother the Tengfei Group with wages and benefits!" Xiang Yongzhan waved his hand and said in a rather generous manner, "Not only do they not need to be paid, I will also negotiate with the Tengfei Group on my side, and we will also bear the costs of accommodation, food and other expenses for those warriors here!"

Those soldiers came here to learn their skills, not paying tuition fees was already very good, now Ji Feng actually had to pay them a salary, which made Xiang Yongzhan's heart a little uneasy, if he gave such a good deal now, would he make any excessive demands next?

So Xiang Yongzhan immediately said generously that he would pay for food and so on, just to block Ji Feng's mouth.

You see, we are so generous, you should not make it more petty .....

"OK, just do as you say!" Ji Feng looked at him with a smirk, he naturally knew what Xiang Yongzhan had in mind, but he didn't count on it.

"Second point!"

Ji Feng held up another finger and said, "You'll be responsible for the gun permits for the security personnel of the Tengfei Group, as well as the identity and other documents, in fact, not only these, but also other miscellaneous formalities and other things, you'll be responsible for them all!"

"No problem!" Xiang Yongzhan immediately agreed with alacrity, these requirements were not excessive and very reasonable.

"Third, in the Tengfei Group, they must at least obey the command."

Ji Feng continued, "As you know, there is no telling how many people are now coveting some of the technologies of the Tengfei Group, such as the people from the research institute you brought with you today. .... Of course, they are official personnel, and it is reasonable and legal for them to negotiate, and those I mentioned who want to covet these technologies by unlawful means, there are quite a few such people. So then, once there is a conflict, if there is any death or injury or something like that ....."

Xiang Yongzhan's face could not help but gaze up, indeed, what Ji Feng said this is indeed a problem, if there are really warriors who died here, how to take care of the aftermath, this is a problem.

After all, this Tengfei Group seems to be running smoothly, but in reality, there are also dark currents around it. Moreover, Xiang Yongzhan would not be naive enough to think that those security personnel of Tengfei Group are only used to protect the group's security.

If it was just to protect the security of the Tengfei Group, those few security guards plus a few experts would have been enough, why would so many people be used?

From last night's incident, it can be seen that Ji Feng wants so many experts, most likely to be used for conquering .....

Those warriors all belong to the troops, not his personal to Xiang Yongzhan, but if they are here in Ji Feng and die because of following Ji Feng in the conquest, there is a lot to say in between .....

"What about the conditions, these three for now, you think about it!" Ji Feng was not in a hurry for Xiang Yongzhan to answer, "Of course, our previous agreement is still valid, you can send warriors anytime, I will teach them to use bio-currents and already deal with modified people!"

Xiang Yongzhan nodded and didn't say anything, Ji Feng's first two conditions that were all well and good, but this third condition, it did require some serious consideration.

"Right, there is a problem that I need to talk to you about." Ji Feng suddenly remembered something, "The reformers I fought with yesterday, there were a few that were very odd, they were extremely different from those reformers in the past."

"What's different?" Xiang Yongzhan was stunned.

"They might not be so afraid of bio-currents anymore, they might have some resistance!" Ji Feng said.

"What?!"

Xiang Yongzhan's face instantly changed, "Are you saying that the transformers aren't afraid of bio-currents anymore?"

"It's not that they're not afraid, but they're not very afraid anymore!" Ji Feng corrected.

Xiang Yongzhan's face however gaped and his brows furrowed, "Then according to you, using bio-currents against reformers is no longer a killer?"

"That's not true!" Ji Feng shook his head and said, "I suspect, but all those reformed people who are not too afraid of bio-currents, they should have been martial artists before they were reformed, well ..... simply put, originally they had bio-currents in their bodies, although they were very weak, but after all, they were different from other reformed people. There is still a big difference, this part of the reformed people, then, are not too afraid of bio-currents!"

"Among the dynasty, how many such transformers are there?" Xiang Yongzhan asked in a deep voice, "The martial artists you mentioned should be from our China, right? I don't think there are martial artists abroad, right?"

His face sank, "There are martial arts sects in China that have colluded with the dynasty?"

"That would require you to investigate, and by the way, help me find out who that little gongzi really is, he's been looking for trouble with me for three days, causing me to have trouble sleeping!" Ji Feng said.

"Since that's the case, then you can still laugh?" Xiang Yongzhan asked in amazement.

"Otherwise I'd still be crying?" Ji Feng shook his head.

“Not true!”

Xiang Yongzheng frowned at him, “This is not your character ..... Ji Feng, you honestly say, is there still a special method to deal with this particular reformer?”

“Guns, transformers are not completely out of the human category yet either, so they are definitely afraid of guns, a bullet to the head can kill them!” Ji Feng gestured, “Moreover, as I said just now, they are not completely unafraid of bio-currents, they are just not that afraid ..... Exactly, there are a few modified people who are willing to help me with experiments, when I figure it out, we will communicate, okay?”

“Doing experiments?”

Xiang Yongzhan instantly raised his eyebrows, lowered his voice and asked, “Ji Feng, you caught that kind of transformer?!”

“Alright, let’s do this for today, consider those few conditions I mentioned first, and keep in touch.” Ji Feng stood up, “Are you leaving now, or are you waiting for the experts from that institute to leave together?”

“Did you really capture that kind of transformer?” Xiang Yongzhan, however, pressed down his voice and asked after him.

Ji Feng waved his hand, “Not arrested, just invited them back to assist in the investigation, I always need to find out who is actually trying to harm me, right?”

“And then what?” Xiang Yongzhan asked.

“Now it’s just worrying that there’s no place to interrogate them!” Ji Feng shook his head, “This Tengfei Group is a business after all, getting a few reformers here for interrogation, what’s that all about .....”

Xiang Yongzhan couldn’t help but laugh, Ji Feng had gone around in such a big circle with him and finally spelled out his purpose.

“Take those guys to the barracks, I’ve got plenty of space there!” Xiang Yongzhan said, “And there are interrogation tools for traps .....”

“Really?!”

Ji Feng nodded at once and said, “In that case, that would be perfect .....”

Chapter 1307

Buzz~~!

A few cars were driving fast on the highway, their destination, the Jiangzhou Military Region.

Bai Spider was driving, and Ji Feng and Xiang Yongzhan were sitting in the back row.

“Ji Feng, why do I get the feeling that you kid has been calculating on me for a long time?” Xiang Yongzhan said, “On the contrary, I took the initiative to get into your trap?”

Ji Feng stretched his hands, “How does that sound .....”

“You are less!”

Xiang Yongzhan had dealt with Ji Feng too many times, so how could he not understand Ji Feng?

“You guy, deliberately mentioning the dynasty’s reformer in front of me, just wanting to hook me, and saying that there is no venue .....” Xiang Yongzhan couldn’t help but shake his head, “I also blame myself for not calming down and thinking about it at that time This is why I fell for your trick!”

Ji Feng couldn’t help but laugh: “You took the initiative to let me bring those few reformers to the barracks for interrogation, and that’s falling for it? Bullshit!”

“But at least you should have come to beg me, right?” Xiang Yongzhan was more or less indignant, it seemed that since he met Ji Feng, he hadn’t taken advantage of him a bit, this guy was so shrewd that his head hurt!

Ji Feng laughed and did not continue to argue with him.

In fact, going to the barracks to interrogate Tan Tianfeng and the others who were captured last night was only a temporary idea on Ji Feng’s part.

Originally, he also felt that it was not quite appropriate to conduct the interrogation in the Tengfei Group. Since it was a business, it had to be done in a simple manner, and if it was not necessary, it was better not to make it so complicated, and it was not good to get involved with those miscellaneous matters.

After all, no matter what, it is not always possible to do everything seamlessly, and over time, there will definitely be more people eyeing on the Tengfei Group, which is not good for the development of the Tengfei Group.

But at the moment, apart from the fact that the Tengfei Group has a venue, Ji Feng really doesn’t know where it would be better to go.

After all, Tan Tianfeng and the others had some special identities, and for Ji Feng to interrogate them would be tantamount to setting up a private torture chamber, which, strictly speaking, was against the law!

It was just as well that Xiang Yongzhan arrived at this time, so it couldn’t be better.

It was believed that Xiang Yongzhan was equally interested in some questions about the reformers.

The first thing that happened was that when Ji Feng picked a few words, Xiang Yongzhan couldn’t sit still and offered to ask Ji Feng to bring the people to the military camp, which was naturally perfect.

The military camp is not like the local area, where the interrogation facilities are complete, and there is a special field, in which even if someone screams out, no one will definitely hear. The most important thing is that there is no need to go through any formal procedures for interrogation there, at least not so strict adherence to the rules, as long as the desired result can be obtained, then the task is accomplished!

In that kind of place, Ji Feng moves his hand that is unscrupulous, without the slightest scruple.

“All right, I’m interrogating these people, that’s also to get information about the dynasty, as well as find a way to deal with them, isn’t it?” Ji Feng smiled, “I should say that your awareness is higher, it doesn’t have much to do with whether or not you fell for it!”

“Bullshit!”

Xiang Yongzhan couldn’t help but hum, “You’re fooling the hell out of me?!”

He was not a three-year-old child who had been coaxed by Ji Feng with such three or two words, and when he said falling for it, he was not talking about the result or the purpose, but the process.

Originally, it was obvious that Ji Feng should beg him, but it turned out to be him begging Ji Feng ..... which was too suffocating.

Ji Feng shook his head and smiled, and did not argue with him, the purpose is achieved on the line.

The first thing you need to do is to get a good idea of what you are getting into.

After the last incident, Bai Spider has now learned her lesson, she definitely does not want to be driven away by Ji Feng!

.....

The first thing you need to do is to get to the barracks, and then you can go to the barracks and go straight to a building.

It was a small building that looked like it was from the 1970s or 1980s, with lush trees outside, and at first glance it looked like an old office building for army officers, but in fact, there was something inside!

A few security personnel got down from the car, then carried out a few people with black masks from the car, and under Yi Xingchen’s leadership, they arrived in a room on the ground floor.

“Alright, you guys go back first!” Ji Feng said.

“Yes!” The few security guards nodded, and then quickly turned around and left.

Xiang Yongzhan, however, stared at the backs of a few of them and pondered, “Ji Feng, these few people aren’t ordinary security guards, are they?”

“Working!” Ji Feng didn’t answer and digressed from the topic.

In fact, these few security guards were none other than the warriors from Yi Xingchen’s squad, and they were the only ones escorting Tan Tianfeng and the others, so Ji Feng was relieved that ordinary security guards wouldn’t have access to these.

When Yi Xingchen saw that Ji Feng had changed the subject, he did not ask any more questions. In fact, even if Ji Feng did not admit it, Xiang Yongzhan could still see the identity of those few people.

“I said, we’ll interrogate in this room?” Ji Feng asked.

“How is that possible, if there are screams coming out later, it will still wake up the whole barracks!” Xiang Yongzhan laughed as he then tapped on the wall.

Buzz~~!

Suddenly, Ji Feng only felt a tremor under his feet, and immediately afterwards, it felt like the ground in the room was sinking, and there was the sound of machines grinding together .....

“Going underground?” Ji Feng asked.

Xiang Yongzhan nodded and smiled, “Anyway, apart from the airport, many of the facilities here are underground.”

The floor of the room was sinking, but on both sides it was black, and you could barely see anything when you stood inside, as if it was an oversized lift .....

The lights were still broken.

Dang!

With the floor shaking, finally stopped sinking, Xiang Yongzheng and Ji Feng respectively casually lift two people, stride over, white spider in the back also lifted a, that situation looks rather shocking.

The three of them came to an iron prison.

..... said it was an iron prison, but it was actually an interrogation room, except that metal walls had been added all around and there were iron windows, so it looked as if it was an iron prison, especially in the depths of the interrogation room, there were several one-person high iron racks, so it looked more like a torture room!

“Senior Captain!”

Just after entering the room, two warriors quickly walked over and saluted to Xiang Yongzhan, they were both warriors of the Special Combat Brigade.

“Secure the man to the rack!” Xiang Yongzhan waved his hand.

“Yes!”

The two warriors quickly secured all of Tan Tianfeng and the others to the rack, their hands, feet and heads were all buckled, these people couldn’t even move if they wanted to.

“Separate the cubicles for them!” Xiang Yongzhan said again.

“Yes!”

The two warriors answered.

And then, Ji Feng had a long look. He saw that after the two warriors had fixed everyone on the shelves, they pressed a certain button on the wall, and at once, a cylinder-shaped glass slowly rose up from underneath the shelves, each glass cylinder, fitting exactly one shelf in it.

Each shelf was a separate space, separated by the glass cylinder, although it was close to the shelf next door.

The whole torture room, at once, became as if it were a beehive.

“What is this thing?” Ji Feng asked.

“Just a torture device.” Xiang Yongzhan laughed: “These are special glass, with many uses ..... can’t tell you clearly for a while, you’ll know later.”

Ji Feng raised his eyebrows, it seems that transferring people here for interrogation is really the right place.

.....

“Ka-ching!”

“Click, click, click, click!”

A bright flash of light, the people who were fixed to the rack gradually woke up, and in a flash, their eyes changed violently.

They found that they had been secured to a shelf, and that they were surrounded by pitch blackness, so that they could not see anything at all, leaving them all unsure of where they were.

In front of them, however, was a camera that was constantly taking pictures.

“Umm~~!”

The men struggled violently at once, but they couldn’t struggle at all, the frame was already incredibly strong, not to mention that they were now all carrying injuries, so how could they break free?

“There, is there someone .....” Tan Tianfeng was even more fearful in his heart, and with a little thought he knew that he had been caught and must have fallen into Ji Feng’s hands.

All of a sudden, a strong feeling of fear filled his entire body, causing his body to tremble slightly.

“Ji Feng, Ji Feng!” He shouted out breathlessly, but no one responded to him.

Gurgling~~!

Suddenly, he noticed that water began to rise upwards under his feet, a large amount of water!

“Well!” Tan Tianfeng was alarmed and hurriedly had to struggle, but he couldn’t move.

And at this time he also discovered that he actually seemed to be in a very narrow space, even though he could not see anything around him, but the water level was rising, and in the blink of an eye it was up to his waist .....

“Ji Feng, Ji Feng I know it was you, you .....” Tan Tianfeng was so scared that his body was weak, was Ji Feng going to drown him alive?!

Zhi~~!

Suddenly, a plastic hose extended down from the top of the head and reached Tan Tianfeng’s mouth, it was a slimmer hose than the usual drink straw, I’m afraid children don’t even need this to drink water.

Gurgling~~!

The water level was rising rapidly and it was already up to his neck, about to be completely submerged.

Tan Tianfeng was so terrified that he couldn't breathe under the water, he couldn't even open his eyes, he could only hold on to the slim plastic hose, relying on the extremely thin air coming from it to keep breathing.

An extreme fear began to spread!

Imagine when one is submerged in water and there is only a tiny straw to give you breath, no matter what you can't escape, you can only cling to this one straw to save your life, but this tiny straw is the one that can't even satisfy your normal breathing .....

Chapter 1308

Tan Tianfeng was in a state of extreme fear!

The loneliness and fear of losing one's freedom in such a situation, where one is fastened to an iron frame and even trying to turn one's neck seems difficult, is already starting to frighten one's heart.

The only thing that kept him alive was a slim plastic hose that allowed him to breathe, but the extreme fear that a person in this situation would feel was sweeping through his whole body!

No one who has never experienced it can understand what it feels like.

When one loses one's freedom, one's heart naturally becomes fearful, not because of one's courage, but because of one's instinctive reaction.

But after losing one's freedom, one is in a situation where one could die at any moment, but there is still a glimmer of hope to hang on to one's life, yet one is controlled and cannot break free or escape. .... The pain of having a glimmer of hope, but not being able to grasp it, and the contradiction between the strong desire to live and the slim plastic hose in one's heart, make Anyone with even the strongest of nerves would be terrified to the core!

"Tsk ....."

Ji Feng couldn't help but stammer as he watched from outside, this kind of interrogation method he also knew, only that he was not in that condition to implement it.

However, when he was undergoing interrogation training in the training space of the intelligent brain, he had experienced this type of interrogation, only, at that time, his was not an interrogator, but the party being interrogated.

The feeling of loneliness and fear is so intense that you want to go mad, but you have to stay awake, because you know that if you go mad, you won't even get the last bit of air in the plastic hose, and you'll die!

Hovering on the edge of death, imprisoned, yet with a glimmer of hope, but unable to grasp it .....

One can only imagine what that would feel like!

"Who the hell invented such a fucked up interrogation method?!" Ji Feng was now feeling goosebumps on his body and his scalp exploding just watching from the outside.

“Interrogation is a very deep discipline, it has been around since ancient times!” Xiang Yongzhan but with a calm face, “In ancient times, our old ancestors invented a kind of suffocating punishment, wetting a piece of paper and sticking it to a person’s face, sticking one layer, maybe by breath, you can break the paper, but what about ten layers, what about twenty layers? That kind of layer-by-layer process would definitely drive any person with the biggest nerves crazy over it .....

The first thing you can do is to think about the way you can do it.

When you think about that kind of way, it’s really crazy just by imagination!

“It’s not just us in China, in fact, it’s the same in any country in this world, as long as there are people, there will be penalties that you have never heard of and never seen, and many of them you don’t even dare to think about!”

Xiang Yongzhan said, “For example, the method we are using now originates from Rice. According to research, when people lose their freedom, fear and loneliness will naturally arise in their hearts, and if extreme danger is added on top of this loneliness and fear, it will become a powerful tool to break people!”

“But what we want is the result of the interrogation, and we can’t let them break down until the result is out!” Xiang Yongzhan said, “So, give him another straw ..... the size and thickness of this straw is also all about, anyway, regardless of each design, it will specifically target people’s psychological weaknesses!”

“.....” Ji Feng opened his mouth, but nothing came out.

Originally, he thought that those interrogation methods he had learned in the training space of the intelligent brain were already perverted, but now he realized how civilized those methods he had learned were.

In the training space, what the wise brain had taught him the most was to use drugs, or to use bio-currents to interrogate, that way was extremely efficient, and it was very powerful to make the interrogated person suffer when he wanted to, and to make him sad when he wanted to.

But Ji Feng had always thought that interrogation was a bit cruel, it would be better to finish the other person off with a knife!

But now Ji Feng realized that the interrogation method at hand, which destroys all of a person’s mental will and makes the other person break down, is really cruel and perverted!

Seeing Ji Feng’s face, Xiang Yongzhan laughed, “It’s a bit hard to accept, isn’t it? Actually, at first I had some difficulty accepting it too, but after seeing and hearing more about it, I gradually got used to it. There are actually more brutal ways, for example, when interrogating men, it will be done physically and psychologically, in a variety of ways .....

“Alright alright!” Ji Feng directly waved his hand and interrupted him, forgiving him for his already unbelievable mental strength, but he didn’t want to hear any more, otherwise he didn’t dare to guarantee whether he could still eat today!

“You can’t stand this anymore?!”

Xiang Yongzhan looked at Ji Feng in amazement, as if he had discovered a new continent, "Let me tell you, the most brutal way of interrogation was actually invented by the boundary tent people ....."

"Since when did you kid become a chatterbox?!" Ji Feng frowned.

Xiang Yongzhan, however, as if he hadn't heard, said to himself, "The Boundary Tent people are worthy of being the most perverted in the world, when they interrogate their enemies, they will strip people naked, and then what, use a not too sharp knife to dismember the enemy millimeter by millimeter, and will make you watch, think about it, you watch your fingers being dismembered inch by inch ....."

"Bang!"

Without saying a word, Ji Feng backhanded a punch, and Xiang Yongzhan immediately raised his hand to block it.

"I wonder if my fist can block your mouth?" Ji Feng glared.

Xiang Yongzhan laughed: "Kid, let you still look so stinky all day long in front of me, so you have something to be afraid of too, haha ....."

"Laugh, you can laugh!" Ji Feng hummed, "Sooner or later, you will also fall into the hands of the enemy, when the time comes, they will interrogate you in the way you said, when the time comes, you must hold on and keep laughing ....."

"This you don't have to worry about, not to mention me, all the soldiers of the special combat brigade, only the sacrificed, there will be no captured!" Xiang Yongzhan said in a calm tone.

However, Ji Feng still heard that hint of determination and resounding from his words.

What Xiang Yongzhan said was true!

Obviously, if he was captured, he would kill himself at the first opportunity!

For the first time, Ji Feng had respect for these people!

"Gu Gu Gu~~!"

Suddenly, a gurgling sound came from inside a glass cylinder, and a large number of bubbles began to rise, as if the water inside was boiling.

"Pop!"

Xiang Yongzhan snapped his fingers and laughed harshly, "One of them can't hold up! Bring the water level down a bit!"

"Yes!"

A soldier immediately pressed a button, and at once the water level came down quite a bit, and a man's head was revealed, and as soon as it was revealed, he gasped for air as if he couldn't breathe right away.

"Huffing~~huffing~~huffing~~"

You can imagine what kind of torment he had to endure in the water!

Xiang Yongzhan looked at Ji Feng and asked with a smile, "How about it, should you do the interrogation or should I do it?"

"You do it!" Ji Feng's gaze was fixed on the glass cylinder in the middle and said, "I want to see how long this guy can last ..... I'll interrogate Tan Tianfeng when he comes out!"

"That's good!" Xiang Yongzhan nodded and waved his hand fiercely, "Stay down and interrogate him properly!"

"Yes!"

A warrior shouted in response, and then let the man's iron frame sink, and soon disappeared, and the warrior left with it.

"Grrr~~!"

Just a few breaths after that warrior left, bubbles also came out of that glass cylinder in the middle ..... Tan Tianfeng couldn't hold on anymore either.

"Waste!"

Ji Feng couldn't help but shake his head and cursed, "Knowing full well that you will be humiliated by me after you can't hold on, yet you are still so spineless ..... Lao Xiang, is it hard to commit suicide?"

"That depends on the situation, if a person's heart is attached or extremely afraid of death, then killing oneself can be harder for him than climbing to heaven." Xiang Yongzhan said, "If there are no attachments in his heart, or if he is very hard-hearted, then death is as easy for him as eating and dressing ..... this for you to interrogate?"

"No hurry!"

Ji Feng hugged his arms and said, "This guy is a capricious villain, let him drink a few more sips of water to save him from asking later or not having the truth."

"This guy offended you a lot?" Xiang Yongzhan asked.

"Very deep!"

Ji Feng nodded and said, "Moreover, I feel that I will definitely be able to ask for very important information from him."

"Oh?" Xiang Yongzhan raised his eyebrows, "What kind of information?"

"About the reason why the current transformers are no longer so afraid of bio-currents ....., " Ji Feng said. He could clearly remember that after Tan Tianfeng was transformed, he was indeed afraid of bio-currents as well, but the fear was not that strong anymore.

Moreover, the neurotoxin didn't work very well on him, and these were all situations that Ji Feng was very concerned about.

"Gu Gu Gu~~!"

The bubbles in the glass tube gradually decreased, and the movement was much smaller.

“Hey, hurry up and lower the water level, it’ll be a problem if such an important person gets killed!”  
Xiang Yongzhan hurriedly said.

Ji Feng, however, was also noncommittal and said, “Just leave him to me!”

“Huff~~huff~~”

The water level came down, and unsurprisingly, Tan Tianfeng was also panting sharply and continuously, his mouth was wide open, and he was choking out water from time to time, so it could be said that he was in a terrible state.

However, his performance was even more unbearable than the first one. Looking at Ji Feng, he could not help but shake his head, just such a useless bastard, after being transformed, actually possessed such a powerful fighting power, so one could imagine how terrifying the technology of the dynasty was.

Must ask for the desired information!

Chapter 1309

“Huff~~huff~~”

Rapid and violent breathing sounds came out from Tan Tianfeng’s nostrils, his whole body opened wide, limp on the ground, stretching his neck, as if he was a dead dog constantly breathing rapidly.

He looked as if if he didn’t take a few more breaths now, he wouldn’t have a chance to breathe later  
.....

In addition, Tan Tianfeng’s face was as ugly as it could be, it was like a demon or devil wearing human skin, that wrinkled and pale face, it really made people’s stomachs turn and want to vomit up all the food they ate last night!

But Tan Tianfeng couldn’t care less, what looks good, what image of poise, to him, was not as important as taking a few breaths of fresh air!

Being fastened to an iron frame, watching the water level rise above his head, with only a plastic hose in front of him to breathe ..... is an extremely painful feeling that no one can ever understand without experiencing it first hand.

Tan Tianfeng experienced it himself, so he knew exactly how painful that feeling was, and he never wanted to go through it a second time!

So now even though he had been brought over for a few minutes, Tan Tianfeng was still breathing heavily and sharply, this feeling of being able to breathe freely was too rare, whereas a few minutes ago, this kind of free breathing was a luxury for him!

“Tsk~~!”

Ji Feng couldn’t help but shake his head and sighed softly, “The son of a martial arts family, the family has such a big business group and an old son who is the head of the family ..... According to reason, originally you could have had a bright future, so why did you have to fall to this point now? I actually ran off to do something to reform people?!”

Tan Tianfeng also did not say anything, nor did he look at him, just limp on the ground with his head bowed and breathing heavily.

“Do you think you can get away with this?” Ji Feng wasn’t in a hurry either, he just held his arms, stood in front of Tan Tianfeng and said with a smile, “Tan Tianfeng, it’s useless not to talk here with me, there’s no need for me to do anything, anyone here has countless ways to make you take the initiative to talk and beg to tell me what I want to know ..... I’m here now to personally ask you, just because we’ve always dealt with each other before, so the conversation shouldn’t be so saber-rattling or give you such painful torture, don’t you think?”

“Huff~~huff~~” Tan Tianfeng, however, did not say a word, but just fell limp on the ground and breathed heavily.

Ji Feng shook his head and said, “It seems like you still haven’t thought it through, well then, in that case I’ll give you an idea, I actually know what it’s really like to be fixed to an iron frame and then submerged in water, I can imagine ..... however, if you really don’t want to say words, you will definitely be fixed to the iron frame again and have that experience again just now!”

Tan Tianfeng’s breathing was gradually getting smaller and not so rapid, it was obvious that he had actually recovered quite a bit now, he just didn’t want to talk to Ji Feng, so he pretended to be breathing heavily.

“I know you definitely don’t want to be tortured like that again either, but it can’t be helped, if you don’t tell me what I want to know, I have to find a way to make you tell me, it’s impossible to let you go for nothing like that, and I definitely won’t waste rice to feed you!” Ji Feng smiled and stared at Tan Tianfeng, teasingly said, “So what, later if you really can’t stand it anymore, just bite your own tongue off, remember, when you bite, just bite the front third, the human tongue .....”

“Don’t say that!”

Tan Tianfeng groaned in pain.

“I’m doing this for your own good, to save you from being tortured over and over again later, to tell you the truth, ah, just now that person but told me, they have countless ways to make you talk, and all of them are that most most painful method!” Ji Feng laughed heatedly, “Think about it, if you’re being tortured like that, you really might as well just die, don’t you think so?”

“.....”

Tan Tianfeng slowly raised his head and looked at Ji Feng who had a teasing face, he finally closed his eyes in pain, “Don’t say it, don’t say it again ..... oooh .....”

“..... “Ji Feng opened his mouth and didn’t utter a single word for half a day.

Tan Tianfeng was actually made to cry?!

Ji Feng was really angry and funny, and even had a bit of anger in his heart and some contempt for himself.

Ji Feng really wanted to tell Tan Tianfeng, we are in a sparring match, I am taunting you, I am torturing you, even if you are spineless and just confess everything, but you don’t have to cry, right?

Where is your dignity?

Don't make it sound like a child fighting, okay?

However, these words Ji Feng opened his mouth and swallowed them back, he really did not know how to continue the conversation with Tan Tianfeng, directly by such a guy is like invertebrate general, to some collapse.

The same way Tan Tianfeng collapsed, Ji Feng also collapsed!

Ji Feng knew very well that Tan Tianfeng's crying was not only because he was afraid, but also because this son of a bitch was a person with no backbone at all, bullying the soft and fearing the hard, and being stern and weak inside.

To go toe to toe with such a person, Ji Feng really felt some shame, this is his own shame!

"Oooh ....." Seeing that Ji Feng didn't say anything, Tan Tianfeng finally let out a cry, and he cried with a heartbreaking voice!

"Shut up!"

Ji Feng finally couldn't listen anymore and shouted violently, "If you cry again I'll throw you back into the water again right now!"

Tan Tianfeng's crying stopped abruptly, he lowered his head, not daring to look at Ji Feng at all, only the slightly twitching body showed that he wasn't that calm.

"One sentence, if you are willing to answer, start from when you joined the dynasty and keep talking about it until now!" Ji Feng said impatiently, "If you are not willing to answer, then don't say a word, and later follow the method I taught you to kill yourself, definitely let you die a small painful death and fast ....." Start, ten seconds to give you a choice!"

"....."

Tan Tianfeng looked up at Ji Feng, in a flash, Ji Feng found that Tan Tianfeng's eyes were filled with fear and despair, it was a frightened look, near collapse!

Instead, he ignored it and just stood quietly in front of Tan Tianfeng, waiting for this guy to give an explanation!

"You still have three seconds!" Ji Feng looked at his watch.

"I didn't take the initiative to join the dynasty, they were the ones who approached me!" Tan Tianfeng said in a panic, his voice was filled with a strong sense of panic and anxiety, the kind of trepidation that would only appear in someone who was really frightened, so it was clear how frightened Tan Tianfeng had become.

"Keep talking!" Ji Feng said indifferently, "If you don't want to die and try out all the torture tools here, then tell me the original story!"

Tan Tianfeng's body suddenly trembled and he said in a panic: "That day, after you and Zhang Lei left that day, I was kicked out of the house, and then someone came to me in a car, saying that they had a way to deal with you ....."

.....

"They took me to a boat and showed me the scene where many people were training, those people were really powerful, they were so strong that they could break steel plates several centimeters thick with one punch, they could easily lift a car, and in the water they could fight with sharks ....."

"Those people then asked me if I would be willing to become such a person, and for a small price, I could do it!" Tan Tianfeng recalled that time, the memory was still very deep: "They said that it was using technology to strengthen the body, only, because in the process of strengthening, it was mainly strengthening the bones and muscles, so the skin might be a little worse ....."

"I then thought that I could just get a facelift later on when it was straightforward, so I agreed with them."

"Then they said that when I was finished being strengthened, I would have the ability ..... to seek revenge on you, but that I would have to serve them for a year after that ..... me, and I agreed to do it!"

"Although the strengthening process was very painful, but I still survived, but after I woke up I realized that in fact my body had changed not only the musculoskeletal and skin, but also my internal organs had changed a lot, I could feel it, and also, it was definitely not only the kind of change they said ..... could wait I realised too late that a biological bomb had been implanted in my body!"

Tan Tianfeng grabbed his hair in pain, and as a result his hair fell down in strands, revealing the kind of crumpled scalp and head that didn't seem to belong to this body .....

Ji Feng's scalp tingled a little as he watched, what kind of monsters had these people become after being transformed?

Is this still human?

"They showed me a lot of reinforced people who didn't listen to commands, the kind of scene where they were blown to pieces by bombs, it was so horrible, I couldn't help it, I couldn't help it, I could only listen to them ....."

"Just like now, you chose to answer my question honestly, again because there was nothing you could do!" Ji Feng interjected mockingly.

Tan Tianfeng lowered his head and couldn't say a word.

Because Ji Feng's words had undoubtedly hit the nail on the head, it wasn't how terrible the dynasty was, it was down to the fact that he himself didn't have that backbone, although the vast majority of people didn't have that full backbone, however, Tan Tianfeng had none at all, he had nothing to do with the word backbone, not the slightest thing!

"Go on!" Ji Feng said indifferently.

“..... For the next period of time, we were concentrated in training, learning about and operating firearms and other machinery, learning to kill people .....”

“Wait a minute, you mean ....., you guys?” Ji Feng interrupted Tan Tianfeng and asked.

“That’s right, there are about a few dozen of us in total!”

“..... Well, you go on!”

“We were trained in many items and after that, we went to a place .....”

Ji Feng hugged his arms and listened quietly, but his heart was shocked beyond measure. Some of the details revealed in Tan Tianfeng’s words were just too shocking!

#### Chapter 1310

The information that Tan Tianfeng revealed in his words shocked Ji Feng’s heart.

Just according to what Tan Tianfeng said, there were dozens of people who had undergone transformation and training together with him, and moreover, they had arrived at an island on a ship and then underwent secret training on the island .....

This means that there were at least a few dozen reformers in the same group as Tan Tianfeng!

This was absolutely shocking news!

The transformers who were able to belong to the same group as Tan Tianfeng were obviously quite strong and considered masters, and after such people had undergone transformation, it was natural that there was no need to say more.

Tan Tianfeng alone possessed extremely strong battle power, and if those experts who underwent training in the same batch as him all possessed such strong battle power, then it would be a nightmare for anyone who was hostile to the dynasty.

You know, this is only one batch, God knows if there are transformers in other places at the same time .....

What’s more, if all these reformers possessed true qi like Tan Tianfeng, it would mean that all of them would be less afraid of bio-currents!

“Those people in your same batch of training, aren’t they all reformers?!” Ji Feng asked in a deep voice.

“Yes!” Tan Tianfeng said.

“Then, how many of those of you who received training as reformers are like you?” Ji Feng’s face sank as he asked with a frown.

“Sh, what?!”

“I am asking, how many ancient martial artists are there like you?!” Ji Feng asked.

“Ancient martial artists .....,” Tan Tianfeng couldn’t help but be slightly stunned.

“Say!” Ji Feng shouted lowly, this Tan Tianfeng was simply rotten, he was stammering so much when he spoke, he didn’t even look like a man!

Tan Tianfeng’s body instantly trembled and he said in a panic, “No, not much, only a few!”

“A few?!” Ji Feng frowned and pondered for a moment before saying in a deep voice, “Then, as far as you know, how many people in the entire martial world are connected to the website? Or rather, how many people have received training from the dynasty?!”

“That ..... is something I don’t know, I have been trained since I was reinforced, and then .....” Tan Tianfeng gave Ji Feng a somewhat terrified look. “Then I received orders to come and kill you, and subsequently came to China!”

“Kill me .....”

Ji Feng smiled indifferently, but a cold aura flashed in his eyes, “To kill me, it also depends on whether you have that ability!”

Tan Tianfeng was trembling with fear, not daring to say a word.

“After you were transformed ..... that is, strengthened, did the dynasty ask you to practice ancient martial arts, or did you practice on your own initiative?” Ji Feng asked in a deep voice.

“It was requested by the dynasty, and I didn’t expect my strength to recover, but .....” Tan Tianfeng carefully stole a glance at Ji Feng, “but I didn’t expect that you were more powerful!”

Ji Feng snorted, but in his heart, he was thinking about what the dynasty had asked them to practice .....

“Who is the little duke?!” Ji Feng suddenly asked.

“Huh?!”

“I asked you who is the little male?!” Ji Feng’s face sank: “Can’t you understand human language?!”

“I, I don’t know!” Tan Tianfeng said in a panic, “I just received instructions from my superiors to intercept and kill ..... halfway.”

Ji Feng couldn’t help but give a cold snort and stared coldly at Tan Tianfeng.

Tan Tianfeng did not know exactly how Ji Feng would treat him, and with fear and anxiety in his heart, he secretly looked up at Ji Feng, and then hurriedly looked down again.

“Apart from these, what else do you know?!” Ji Feng asked in a deep voice, “If you don’t want to be thrown into the water again .....”

“I really don’t know anything anymore, I’ve told you everything, will you let me go .....” Tan Tianfeng begged bitterly, he was really broken, from the moment Ji Feng and Zhang Lei arrived at the Tan family to kick in the door, Tan Tianfeng had become fearful of Ji Feng in his heart.

Now that he had tasted Ji Feng’s cold-hearted tactics, Tan Tianfeng was even more terrified to the extreme. He had long since lost the slightest bit of dignity and backbone in his heart and only knew that he did not want to endure such tactics anymore, otherwise he would really have to completely collapse.

Not daring to die, not being able to die, yet not being able to live ..... this is really begging for life, not being able to die!

“One more question, you have true qi in your body, did you have it before the transformation, or did you re-train it after being transformed?!” Ji Feng asked in a deep voice.

This question was very important to Ji Feng, if the true qi in Tan Tianfeng’s body was there before, then it was still understandable. However, if after receiving the transformation, Tan Tianfeng still cultivated true qi, this situation could become much more serious.

This would mean that reformed people could also practise the ancient martial arts of China!

Transformed people who practice ancient martial arts .....

Haha!

If all the reformed people started practicing ancient martial arts after they had been reformed ..... Imagine what a powerful group of warriors that would be?

They only have a poorer image and ugly faces, but when it comes to combat power, they would definitely embolden anyone!

Even Ji Feng couldn’t help but be scared.

That large group of transformers who knew ancient martial arts would have scared anyone out of sleep!

“It’s what I know there is!” Tan Tianfeng said honestly, “After being strengthened, I found that my body was completely different from before, no matter how much I cultivated, I couldn’t go any further, I couldn’t even return to my previous peak level, it was helpless!”

“Helpless?!”

Ji Feng couldn’t help but snicker, “It’s also fortunate that you can’t recover, otherwise, I’m afraid you’d be even more reckless, right?”

Tan Tianfeng cowardly didn’t dare to say a word and just lowered his head.

“What else do you have to say?!” Ji Feng frowned slightly and asked with some disgust.

“No, nothing more.” Tan Tianfeng said in a panic.

Ji Feng stared at him coldly for a long time, then he nodded and said, “Fine, I will send someone to talk to you properly, think about what else you haven’t said, the more you say, the better it will be for you .....

Ji Feng knew that he shouldn’t be able to get any more useful information from Tan Tianfeng’s body, this guy was completely ignorant, if he wasn’t lying, then it was obvious that Tan Tianfeng was being used by the dynasty’s people, this was a sad guy, he didn’t even know how he died.

So, Ji Feng didn’t intend to continue asking questions, if he talked more nonsense to Tan Tianfeng, Ji Feng was afraid he wouldn’t be able to resist going up and slapping this guy to death!

He only knew that if he handed Tan Tianfeng over to Xiang Yongzhan, he would be tortured to tell him everything he knew, no matter how strong and cunning Tan Tianfeng was. The truth is, no matter how strong and cunning Tan Tianfeng was, he would eventually be tortured to tell everything he knew.

Ji Feng's grin made Tan Tianfeng's body tremble.

And then, Ji Feng left with big steps.

Looking at Ji Feng's back, a complicated light flashed in Tan Tianfeng's eyes, and a moment later, he suddenly cried once more, "Woooo~~"

.....

"How's that, did you ask anything?!" Xiang Yongzhan asked with a smile.

Ji Feng shook his head, "That guy is a puddle of mud, can't ask much useful information, you send someone over to ask, anyway, ask everything he knows!"

"Don't worry, I'll make sure he tells me all the nasty things he did when he was three years old and peeing and playing with you!" Xiang Yongzhan said in a cold voice.

Ji Feng nodded and asked again, "How are the others doing with the trial?"

"They're all still being interrogated, we don't know anything yet." Xiang Yongzhan said, he couldn't help but curse, "Motherfucker, I really don't know what to say about these so-called reformers, each one of them is strong, but who knows that their willpower is so poor, they all confessed before they could use a few moves!"

"These people's strength is very strong, but it's only because they've been transformed, in fact, their willpower is probably not even as good as an ordinary person's!" Ji Feng said, "Strictly speaking, this should also be considered a major weakness of these transformed people!"

Xiang Yongzhan nodded in deep understanding and said, "That's right! If one is simply inferior to them in terms of strength, or, if one can break through in terms of willpower, this is also a breakthrough direction!"

Xiang Yongzhan was studying the weaknesses of reformers all the time, no possibility was spared!

Ji Feng smiled faintly, "Old Xiang, these people are all handed over to you, it should be fine, right?"

Xiang Yongzhan waved his hand and said, "Don't worry, I'll interrogate all their ancestors!"

Ji Feng pondered for a moment before saying, "Old Xiang, I don't know if you've noticed one thing, these people are very different from those transformers we came into contact with before, they don't seem to need much special food, moreover, it's the body and other aspects, they are also very different from the transformers before, on this point, you need to put more effort in!"

Xiang Yongzhan nodded and said, "I've noticed this too, this batch of reformers are obviously different from the previous batch, they are not as weak as the previous ones after being captured, and ..... they are obviously stronger and their weaknesses are no longer so obvious!"

“Anyway, it’s all yours!” Ji Feng whacked Xiang Yongzhan and smiled, “As long as you can interrogate them for useful information, I’ll think of a way to deal with them!”

“It’s a deal!” Xiang Yongzhan was instantly overjoyed.

“I never go back on my word!” Ji Feng said in a double entendre.

Xiang Yongzhan could then only smile bitterly.

“Alright, let’s leave it like this for now, I’ll leave it all to you here.” Ji Feng smiled faintly, “See you later!”

“Wait a minute, you’re not waiting for the results?” Xiang Yongzhan asked.

“I don’t have that much time to spend with them.” Ji Feng shook his head, “It’s enough to have you in charge of the interrogation, I’m sure you won’t let me down!”

“You kid .....,” Xiang Yongzhan couldn’t help but smile.

After leaving the barracks, Ji Feng’s face sank, he frowned tightly and a cold light flashed in his eyes.

It seemed like he didn’t get any useful information from Tan Tianfeng, but in reality it was not the case, Ji Feng got a lot of important information from Tan Tianfeng’s words.

For example, some simple information, Ji Feng called those monsters transformers, but within the dynasty was calling them enhanced people.

Another example was that the dynasty was apparently researching some kind of combination between ancient martial arts and reformed humans, which was why they required Tan Tianfeng and the others to practice ancient martial arts after being reformed.

This means that the dynasty’s technology is also being researched in this direction, and as the reformed people become even stronger again, they will be even more difficult to deal with.

This is not a good sign.
