

Campus Master 1361

Chapter 1361

“How come I haven’t been able to contact you for the past few days?” Boss Huang asked, “Where have you been?”

Boss Huang was really anxious, how could he not contact Fang Ming in the past few days, no matter what time he called Fang Ming’s phone, the last thing he got was a beep that the other party was switched off, this made Boss Huang panic, he even thought something had happened to Fang Ming!

He even thought that something had happened to Fang Ming! Even the boss above had called several times to ask how the progress was going and whether he had got the information.

Now that Fang Ming had called out of the blue, Mr. Huang naturally let out a sigh of relief, and then, his heart was filled with anger.

So, when he realised that Fang Ming had called and that the matter would not be closed, Mr Huang said coldly, “Fang Ming! You still know how to call, I think you don’t want to shed tears until you see the coffin! Do you think that because you have the information I need, you can call my bluff? Let me tell you, if you hadn’t considered the information, you would have been shredded to pieces by now!”

“If you want to talk to me in such a tone, then I think our conversation today will have to end here!” Ji Feng was not at all moved by Boss Huang’s words as he said indifferently.

“..... Fang Ming, you bastard!” Boss Huang was choked and almost didn’t turn his back, choking for a moment, he suddenly let out a roar, “You really want to go against me, you have to seek death?”

“Alright, that’s it for today!” Ji Feng said indifferently, “Goodbye!”

With that, Ji Feng was about to hang up the phone.

“Wait, wait a minute!” Suddenly, a slightly panicked scream came from Boss Huang over the phone, the originally majestic and somewhat angry voice became hurried and panicked.

“Fang Ming, don’t be so impulsive first, I think we can still talk again!” Boss Huang took a few deep breaths, the heavy breathing sound could be heard clearly even by Ji Feng on the other end of the phone, so it could be seen what kind of anger Boss Huang had been infuriated by Ji Feng, that stifling feeling of having a heart full of anger but nowhere to vent it, it could really drive people crazy.

However, Ji Feng on the other end of the phone didn’t care about what Boss Huang was feeling, he just tried to grasp Boss Huang’s psychology as much as possible, prolonging the time he spent talking to him, while trying not to reveal himself, giving Wang Xin enough time to find out exactly where Boss Huang was.

Ji Feng looked at the phone on the table that was staying on the line, and lifted his hand to look at his watch, without speaking.

“Phew~~~”

Boss Huang let out a long breath, he took several consecutive breaths before trying to restrain himself from bursting into fury as a result.

“Alright, Fang Ming, let’s have a serious talk, where are you, give me the information and let’s settle the goods and money!” Boss Huang said in a deep voice, “You should know that those information in your hands will not be of any use at all, but will bring you death, you should not make a mistake!”

“Don’t worry, I’m not interested in that information at all.” Ji Feng coldly snorted, “However, is the money I want ready?”

“The money will naturally not be less for you.” Boss Huang said.

“Then you can first credit the money to my card, as long as I receive the money, I will definitely give you the information.” Ji Feng said.

“Fang Ming!”

Boss Huang shouted angrily, “Don’t you go too far!”

“Do as I say, then you can get the information tonight, if you are not willing to give the money then” Ji Feng sneered.

Boss Huang did not answer immediately, Ji Feng is not in a hurry, in fact, he would like the call to be longer, in this way, even if Boss Huang is hiding in a rat hole, he has absolutely nothing to hide!

“Okay, give me your bank account, I’ll give you the money now” Boss Huang finally nodded his head and agreed, but before he could finish his words, he was interrupted by Ji Feng.

“Wait a minute, I have some urgent business here, wait for me for one to two hours, I will call you again then!” Ji Feng spoke and hung up the phone straight away.

“Hey, hey hey!” Boss Huang’s body was shaking with anger as he listened to the busy tone coming from the phone, he could no longer hold back, and fiercely growled and cursed, “Son of a bitch, I’ll get you to death!”

At this time, Ji Feng, who was standing in the room, was hanging up the phone and then picked up the one on the table, “Wang Xin, how is it going?”

The reason why Ji Feng hung up the phone with Boss Huang just now was because of the dong dong sound coming from this phone, which was a code word he and Wang Xin had crossed long ago, which indicated that Wang Xin had found out the result or was unable to do anything about it.

That was why Ji Feng had left a tail for Boss Huang, saying that he would call him back in an hour or two.

“Boss, we’ve found out, this signal is currently in Yuezhou, the exact location is in a hotel building not too far from your current location” Wang Xin said the name of a hotel over the phone.

“..... Holy shit!” When Ji Feng heard the name of that hotel, he couldn’t help but be stunned that this hotel that Wang Xin said was actually the same hotel that Yi Xingchen and the others had checked into!

This was too much of a coincidence to be true!

“Where is the more specific location?” Ji Feng immediately asked.

“It’s impossible to find out because there are too many signals in the hotel and it’s somewhat disturbed, so we can only find out from the satellite map that it’s that hotel!” Wang Xin said.

“I see!”

Ji Feng’s brain was immediately spinning quickly, he was thinking quickly while saying, “This way, I will now immediately continue to talk to Boss Huang while rushing to that hotel, while you continue to investigate Boss Huang’s exact location, while contacting Yi Xingchen, keep him informed of the latest change in that Boss Huang’s location, but remember, don’t make a move easily, try to wait for me to arrive at

As he spoke, Ji Feng had already started to walk outside, he arrived in the living room and shouted, “Liu Xin, White Spider, get to work!”

Bang Bang!

The doors of the two rooms opened almost simultaneously, and Liu Xin and Bai Spider walked out.

“Little Chief!”

“Young Chief Ji!”

They greeted Ji Feng one after another.

“Without further ado, now the target has appeared, it’s in the hotel where Old Yi and the others are staying, you guys come with me immediately, let’s start moving immediately” Ji Feng said, already striding out, echoing in his ears, was Wang Xin’s answering voice.

Liu Xin and white spider immediately reacted, the two of them glanced at each other and immediately followed, reacting swiftly.

Boss Huang was in the same hotel where Yi Xingchen and the others were staying, this was a coincidence that could not be more coincidental, however, it also caused a great inconvenience with so many people in the hotel and even more mobile phone signals, Wang Xin simply could not find out the location of that Boss Huang with any accuracy.

Moreover, neither Ji Feng nor Yi Xingchen and the others knew what that Boss Huang looked like, so that even if they walked a face-to-face, they might not be able to recognize him!

This was a problem!

Ji Feng and the three of them stopped a taxi with the help of the hotel doorman, and then got on it.

At this moment, the situation could be said to be very urgent.

If they couldn’t catch Boss Huang today, I was afraid that it would make him wary, and then the next time they wanted to catch him, they might not know when they would have to wait.

However, now that Boss Huang was in the hotel again, it would be very difficult to catch him.

In the end, Ji Feng decided that if he really had no choice, it wouldn't be too late to drag out the day and then think of a way to catch him. Although he might have to continue to wait patiently again after today, if he really didn't have an ounce of certainty, Ji Feng definitely wouldn't catch him.

So Ji Feng called Yi Xingchen immediately after he got into the taxi to inform him not to be impulsive, and if he couldn't find anyone, he must not do anything!

"The world is changing, that's really true!" Ji Feng shook his head helplessly.

Tic-tac-toe

An even more unexpected change appeared, there was a traffic jam on this road!

"Get off, run away!" Ji Feng casually took out a banknote from his pocket and put it on the taxi, ignoring the driver's stunned look, he took Liu Xin and White Spider out of the car and ran all the way.

The two hotels were not very far apart, and if they ran at full speed, the distance would be at most 20 minutes.

And with Ji Feng's speed, it would naturally take even less time.

Ten minutes later, the three arrived outside the hotel where Yi Xingchen and the others were staying and stood in the shadows at the corner of the hotel.

Under this strenuous running, Liu Xin and Bai Spider were both slightly out of breath, but Ji Feng was as normal as ever.

He took out the phone and first dialed Wang Xin's number, "Wang Xin, get ready, let's continue!"

With that, he handed the phone to Liu Xin and told the latter to stay on the line with Wang Xin, while he took out his other phone and dialed Boss Huang's number.

"Fang Ming!"

As soon as he picked up the phone, Boss Huang's gloomy voice came through, "Are you playing games with me?"

Ji Feng smiled faintly, "Boss Huang, don't be so angry, the so-called anger hurts the body, don't you understand this truth?"

"Cut the bullshit with me, Fang Ming, what kind of tricks are you playing?" Boss Huang asked coldly, "Do I have to catch you before you will be honest?"

"Catch me?"

Ji Feng harrumphed, "Boss Huang, I think you're pissed off, right? You still grabbed me do you know where I am?"

"Humph! Aren't you just already in Yuezhou?" Boss Huang couldn't help but sneer, "If I'm not wrong, I think you should be somewhere not far from me at this moment, am I right?"

The corners of Ji Feng's eyes popped a few times, but he looked the same and said smilingly, "Boss Huang, you're scaring me like that, huh?"

“You really think I’m scaring you?” Boss Huang laughed coldly, “Fang Ming, haven’t you heard of a tracking method called satellite signal tracking? I think you are near the hotel where I am staying at the moment, am I right?”

Chapter 1362

“Do you really think I’m scaring you?” Boss Huang laughed coldly, “Fang Ming, haven’t you heard of a tracking method called satellite signal tracking? I think you are near the hotel where I am staying at this moment, am I right?”

The tone of Boss Huang’s voice was very certain, one could hear that he was already convinced that Ji Feng was nearby, although he didn’t know the exact location yet, but it was certain that what Boss Huang said was true, he had really used satellite tracking to find out Ji Feng’s general location.

At this moment, Ji Feng’s brow finally furrowed. Things were somewhat out of his expectation, he didn’t expect that this mysterious Boss Huang would actually use satellite tracking to trace his location as well

It turned out that when he had asked Wang Xin to use the satellite to track down the other party’s whereabouts, the other party was also tracking himself down!

“Hehe” Ji Feng suddenly laughed.

The more it came to an emergency, the more calm and clear-headed Ji Feng’s heart was.

He pondered for a moment before saying, “Boss Huang, you are really good at it, you can actually use even the satellites in the sky, it’s really impressive, one has to admire it!”

“A frog at the bottom of the well like you will never know how big the sky is!” Boss Huang sneered, “It’s not bad for you to find your way to Yuezhou, and to actually find my trail, counts as impressive, for the sake of you being so persistent, I’ll give you a chance to meet!”

“Oh?”

Ji Feng smiled and asked, “You want me to meet you?! It’s to catch me there, right?”

As he said this, Ji Feng waved his hand, and Liu Xin and the white spider immediately understood what he meant and quietly retreated, gradually disappearing along the shadows in the corner of the hotel wall

“You’re the one who has to eat the penalty wine instead of the toast, then I’m not going to be polite with me either!” Boss Huang sneered, “Fang Ming, you are a smart man, originally after completing the task properly, you handed over the information, I gave you the money, we no longer have any relationship with each other, you can take the money and go to live freely, but you want to die yourself, what can I do? What can I do? I have to make it up to you!”

“How to make it whole?!” Ji Feng asked with a smile.

When asking this, Ji Feng suddenly remembered the classic line from a movie he once saw

“How high is it?”

“Several storeys high

Now the conversation between him and Boss Huang was just so boring and kind of offensive, but this kind of tasteless conversation was something that had to go on because Ji Feng knew very well that now Wang Xin was trying to investigate Boss Huang’s exact location as much as possible, and the people on Boss Huang’s side were definitely trying to find out his location as much as possible

“Fang Ming, you still dare to be so arrogant even now?” Boss Huang sneered.

“Hehe

Ji Feng suddenly smiled, “Boss Huang, do you think if I were to suddenly hang up now, I could escape gracefully?”

“.....” Boss Huang instantly just choked, he whirled and said in a deep voice: “Fang Ming, believe me, you definitely can’t run away, now my people have blocked all the intersections around the hotel, no matter which direction you run away in, you will be caught!”

“What if I enter the hotel?” Ji Feng asked.

“..... your little cleverness, think I can’t think of that?” Boss Huang sneered, “You should believe that with my power, you entering the hotel would be throwing yourself into the net and looking for death

Ji Feng laughed

Next, the two of them engaged in an unknown amount of mind-numbing nonsense, until four or five people formed a fan around them, gradually closing in from a short distance away and surrounding Ji Feng in the middle!

Pop!

Ji Feng hung up the phone, then turned around and walked towards those few people as if nothing was wrong: “Sorry, please move over, you’re blocking my way

Ka ka ka!

Two pistols pointed at Ji Feng: “Come with us!”

“You guys have the wrong person, right?” Ji Feng asked indifferently, “How dare you move your guns for no reason? Is there still a king’s law?”

“Cut the crap!”

A man fiercely punched Ji Feng in the stomach, “If you say another word of nonsense, I’ll shoot you!”

Ji Feng didn’t even bend his back, he just smiled faintly, “Let’s go, take me to see your boss, I happen to have something to talk to him too!”

A few people gave him a suspicious look, but still two of them pinned him one on each side and walked towards the hotel in big strides.

Ji Feng glanced back and just a few flashes of red light not far from the shadows where he was originally standing, the corners of his mouth then pulled up in a slight curve and he smiled faintly.

.....

Despite the fact that at the entrance of the hotel were the security guards and doormen, Ji Feng was sandwiched by two people, but he entered the hotel unhindered, and then he was brought outside the door of a room on the thirteenth floor.

“Thirteenth floor? What an unlucky number!” Ji Feng shook his head, “Looks like your boss Huang is doomed to bad luck today!”

“Get in!”

A man kicked Ji Feng on the waist and instantly kicked him into the room.

Whew~~!

As soon as Ji Feng entered the room, a blinding light immediately came through, Ji Feng immediately turned his face slightly sideways, then blocked the light with his hand and covered his face.

“Hehe Fang Ming ah Fang Ming, you’ve finally been caught by me!” A familiar voice came through, a voice that was thick with hate, a hint of smugness, and a long sigh of relief!

When Ji Feng looked through the fingertips covering his face, he found that there were quite a few people in the room.

A middle-aged man, sitting on a sofa facing the door, this middle-aged man, about forty years old, and most strangely, on the right side of his cheek, there was a scar that started at the corner of his eye and went all the way to his ear, which looked very much like a knife scar!

On either side of this middle-aged man stood two rows of bodyguard-like figures, each of them looking cold and bulging at the waist, so at a glance they were carrying weapons!

Ji Feng listened to the voice that had just spoken, but it was from that Boss Huang, who had spoken more than once on the phone.

So, this middle-aged man sitting in the middle, should be Boss Huang?

“What should I do with you?!”

Boss Huang looked at Ji Feng playfully, his face full of smugness, “Should I break all your limbs, pick out all your tendons and feet, and then throw you into the sea? Or should I break your limbs and hamstrings and then throw you into the street, so that you can only be a beggar for the rest of your life, unable to do anything but beg all day long? If you had to choose for yourself, which one would you choose?”

“Can I choose none of them?!” Ji Feng asked.

“Then what do you think?” Boss Huang said.

“Fine!”

Ji Feng sighed helplessly and said, "Since it's in your hands, I'll concede that I can hand over the information to you, but I have two demands! If you don't agree, I won't hand over the information to you even if I die, you know, the information is not on my body now, no one would be stupid enough to carry something that important around with them!"

"Bastard!"

Boss Huang was furious, then he took a deep breath and suddenly shook his head with a smile, "You still have a request?"

"Of course!" Ji Feng said frankly, "Even a dead prisoner can ask for a good severed head drink before he dies, not to mention, I'm not a dead prisoner myself, I still have certain important information in my hands, so why can't I have a request?"

"Yes! Fine!" Boss Huang was infuriated by Ji Feng's arrogant attitude and nodded his head repeatedly, gritting his teeth and sneering, "Say, before you die, what other demands do you have?!"

Being so angry at Ji Feng, Boss Huang even forgot that from the time he entered until now, Ji Feng's hands had been covering his face and had never been put down

"My request is simple, firstly, you have to let me live." Ji Feng said, "Second, I want to know, who instructed you to investigate Li Yantong?! Although you, Boss Huang, are a big shot, compared to not being at a certain level, right? What do you need that information for?!"

"Simply an asshole!"

Boss Huang shook his head and sneered, "Your first request, I can grant you, as long as you meekly hand over the information! As for the second request that you shouldn't know, you'd better not ask, or else you'll soon turn into a corpse, even if you really have how important the information is in your hands!"

"What if I have to know?" Ji Feng asked.

"I think you're looking for death!" Boss Huang was enraged and waved his hand, "Break his legs and let him know that old man's patience is limited!"

"Yes!"

The two bodyguards next to him immediately came up.

"Slowly, wait!" Ji Feng shouted at once, "Even if you guys want to kill me, you still have to let me be an understanding ghost, right? Who actually ordered this matter?"

"What's the use of knowing this when you're on the verge of death?!" Boss Huang laughed coldly.

"Even if old me goes to hell, I still have to know who to tell the King of Hell about this, right?!" Ji Feng said loudly.

"Kid, you really have some guts!" Boss Huang grunted, thinking he had the big picture in hand, he didn't even notice Ji Feng's difference, but sneered, "Let me tell you, this matter was ordered by a big shot you

can only look up to, if you hadn't caused trouble, you could have taken the money and gone away.
...Go!"

Those two bodyguards immediately pounced over and were about to break Ji Feng's legs.

"Bang! Bang!"

In the next moment, one could see Ji Feng's figure suddenly surge, and immediately, those two bodyguards flew backwards, hitting the wall heavily and instantly fainting to death.

"Even if you say a hundred words, you can't get to the point, wasting so many words for nothing, and in the end, you have to force me to use force!"

Ji Feng, with his hands behind his back, stared coldly at the stunned Boss Huang, who had not yet reacted, and shook his head: "If I had known that this would be the result, I wouldn't have had to take off my trousers and fart, so I would have done it!"

Chapter 1363

With his hands backwards, Ji Feng stared coldly at Boss Huang, who was stunned and had not yet reacted, and couldn't help but shake his head: "If I had known that this was the result, I wouldn't have had to take off my trousers and fart, and do it all over again!"

Seeing Boss Huang like this, Ji Feng felt that he was really being a bit redundant in doing so.

In fact, when Ji Feng knew that Boss Huang was also using satellites to track his trail, he had an idea in his mind – since both sides were struggling to find each other, why couldn't they switch to a somewhat simpler method?

In fact, it wasn't really a case of who found who, it was all the same!

And he had originally hoped to be taken in by Boss Huang's men as Fang Ming.

This way, Wang Xin would not need to go through the trouble of finding out exactly where Boss Huang was, Boss Huang himself, would take the initiative to send someone to bring Ji Feng to him, which was not much different from Boss Huang taking the initiative to send himself to the door and throw himself into the net!

Ji Feng did this without worrying about being in any danger because he was caught.

In close combat, Ji Feng had considerable confidence, even if the whole room was stuffed full of people, otherwise, Boss Huang would never be able to run away in front of him!

With his skills, there was really nothing to worry about with such a small scene.

At the same time, when Ji Feng entered the room and met Boss Huang, he suddenly had a thought in his mind, since even Boss Huang didn't look at him carefully and really took him for Fang Ming, could he not fake Fang Ming's identity and extract some said important information from Boss Huang's mouth?

For example, who was behind Boss Huang and why was he investigating Li Yantong's mother and daughter?

The fact is that the company's main business is the company's own business.

..... and so on.

These questions if Ji Feng asked this Boss Huang directly, he will certainly not answer honestly, but before he figured out his identity, Ji Feng is not good to use bio-current haphazardly, so to extract his words is the best choice to save time and effort!

But Ji Feng didn't expect that this Boss Huang was full of nonsense, not a single word could get to the point, and he became impatient at once!

"Just a runt like you, you can't even get to the point of your words, how dare you call yourself a boss?" Ji Feng stared at him coldly, "In my opinion, your master is really blind for letting you do your job!"

"You're you're"

That boss Huang looked at Ji Feng, his face was full of shock and even some disbelief as he said with difficulty, "You are Ji you are not Fang Ming?!"

Ji Feng immediately frowned at his words, and with a glare, he asked in a majestic voice, "What did you just say?!"

"You are not Fang Ming!" Boss Huang, however, had a very flustered look in his eyes as he suddenly bellowed, "Arrest him for me, arrest him immediately"

"Yes!"

Except for the two people standing beside Boss Huang, all the other bodyguards moved and fiercely lunged towards Ji Feng, about to capture him.

Hoo~~!

Ji Feng's body surged and was like a tiger entering a herd of sheep, almost all of his body became the most powerful weapon, his fists, elbows, shoulders, knees, feet every joint of his was the most deadly weapon for this group of bodyguards, just touching it was much more serious than having a fever or a small cold or something like that!

In a flash, the room was filled with screams of misery as one by one the bodyguards fell to the floor and were directly incapacitated.

Bang!

Just then, the door to the room was kicked open and several men came barreling in, charging fiercely and directly at the group of bodyguards, sending out a blatant and blatant attack!

But while Mr. Huang was stunned, he saw through the kicked open door that his men outside the door had been put down at some point and were lying in the doorway

The first thing you need to do is to get your hands on a few people and stand aside and stare coldly at Boss Huang, not saying a word.

The first thing you need to do is to get a good idea of what you're getting into.

However, the room was just this big, Ji Feng and those few people blocked the door, even if Boss Huang wanted to escape, there was no chance, he could only half crouch there with his face changing He was shocked and wanted to stand up, but he was stiffened by Ji Feng's glare, he didn't dare to move at all

"Ka ka ka~~!"

"You two, put down your weapons immediately, or else you will be killed!" A woman stood in front of Ji Feng, holding up a gun and pointing it at the two bodyguards beside Boss Huang, and said in a cold voice.

This woman was naturally the White Spider who had rushed in with Liu Xin and the others; Yi Xingchen and the others' main task was to defeat the enemy, while the White Spider's main task was to protect Ji Feng's safety so that he wouldn't get hurt.

At this moment, the two bodyguards who were pointed at by the white spider, their hands had reached behind their waist at some point, at this time, when they heard the woman's cold drink, their faces could not help but stiffen, but their hands did not come out from behind their waist, but their eyes flashed, as if they were thinking of some bad idea.

"White spider" Seeing that these two bodyguards actually did not have any reaction yet, Ji Feng let out a low shout and made a wink.

"Bang! Bang!"

The gunshot rang out and White Spider directly pulled the trigger, shooting the two bodyguards through the shoulder.

"Ah..."

The two bodyguards cried out miserably at the same time, covering their shoulders and stumbling, sitting on their butts on the sofa behind them.

Boss Huang's face suddenly turned violently white, cold sweat was pouring out on his forehead, he looked at Ji Feng and White Spider in shock, his lips trembled twice, as if he wanted to say something, but in the end, nothing came out.

Even more so, Boss Huang's head was lowered and he almost didn't dare to look at Ji Feng.

However, Ji Feng did not intend to let this Boss Huang go, he stared coldly at the other party and said in a deep voice: "Boss Huang, what did you call me just now?"

But Boss Huang didn't say a word, as if he hadn't heard Ji Feng's words.

"Good! Very good!"

Ji Feng nodded with a sullen face and stared coldly at Boss Huang: "It's okay if you don't want to say, you must trust me, I have a way to make you talk!"

Boss Huang's hand that was hanging down at his waist involuntarily shook a little, obviously reacting to Ji Feng's words, but in the end he said nothing, only his head looked imperceptibly to the sides, but

when he saw that his bodyguards were the ones who had been taken care of by Ji Feng's men in three or two blows, Boss Huang's heart kept sinking down.

The next moment, he couldn't help but look at the door again and then back at the window of the room.

"No need to look, this is the thirteenth floor, you can jump from here if you want to, you won't die if you don't land on your head, but a result like paraplegia is still possible I said when I came here, it's an unlucky number, you're doomed to bad luck today!" Ji Feng said coldly, "As long as you are not afraid, you can go ahead and jump, I will definitely not stop you!"

Although he thought he was big, it was a bit difficult for him to beat the young and strong Ji Feng.

In addition, if you want to escape, you can only jump from the window but Boss Huang does not want to die, he does not believe what Ji Feng said that if you do not hit the ground with your head, you will only be paraplegic at most, in fact, that is bullshit, after jumping, who can control whether you hit the ground first with your head or other parts first?

..... has nowhere to go!

"Grab it!" The actual fact is that you can't get a lot of money out of the house.

Liu Xin went up and clasped Boss Huang's wrist, restraining him.

"Well!"

Perhaps because Liu Xin's hand was too heavy, causing Boss Huang to stifle a cry, but he was slapped over the head by Liu Xin, "If you scream again, your arm will be removed!"

Boss Huang didn't dare to say a word, even if it hurt, he just gritted his teeth and didn't say a word.

Ji Feng gave him a cold look, turned around and walked away, "Take him and prepare to leave! Remember, search him first to see if he still has a phone or something like that on him"

If it wasn't for the fact that the location wasn't right now, Ji Feng really had a lot of questions he wanted to ask this mysterious Boss Huang, but not now.

Since Boss Huang was able to think of having someone use a satellite to track them, it proves that Boss Huang must have used the power behind his curtain, so in that case, the people behind Boss Huang would most likely already know that Ji Feng and the others had come over, and at this time, it would be impossible for the other side not to be on guard.

Then, it was hard to say if it was safe in this hotel.

So Ji Feng had to take Boss Huang and move first, or at least, to a place where no one else could find him first!

Liu Xin immediately took out a small palm-sized square box and swept it over Boss Huang's body, while one hand started to go and search him.

"Tic tic tic"

Suddenly, an alarm sounded and Liu Xin's eyes snapped open as he ripped open Boss Huang's jacket pockets, but other than a packet of cigarettes, nothing more was found.

Liu Xin swept over Boss Huang's body again, especially the blouse.

"Tick tock" the alarm sounded again.

Ji Feng, who had just reached the door, couldn't help but jerk back, he frowned and stared for a moment before saying in a deep voice, "Check his buttons!"

Liu Xin's face changed slightly at once, and his palm directly pressed against Boss Huang's neck before sliding downwards violently.

Boom boom!

All the buttons were turned over a bit, and in the next moment, Liu Xin yanked off one of the buttons on Boss Huang's blouse, and only then did everyone realize that the thread used to sew the button was actually not an ordinary thread, but a very slim wire!

It was a button with a different meaning!

"Inside this button, there are electronic components!" Liu Xin said immediately after a slight inspection, "The function is unknown for now, but this button is very special"

"Throw away the button and take it away!" Ji Feng said.

Boss Huang immediately turned pale, his body's strength seemed to be instantly drained, his body went limp and he almost didn't fall to the ground

Chapter 1364

Boss Huang suddenly turned pale, all his strength seemed to be instantly drained out of him, his body went limp and he almost didn't fall to the ground

The last way of escape had been cut off, and Boss Huang was almost desperate.

In fact, he had already known that there was something else in the button of his clothes, and that the button had not been installed by him, but by someone else.

The reason for installing the button was not just to protect Mr. Huang, but also to show him the truth.

But Boss Huang did not resent this. Since he had already made up his mind to follow a man, there was no turning back, and since that was the case, what did it matter if he was being watched?

As long as his movements and freedom were not restricted, but only some things needed to be done with care, that was actually good enough, because the person who was watching him found that he was in fact loyal, then in that case, Boss Huang would naturally be valued.

To exchange this illusory freedom for the absolute trust of his master is surely a very good deal!

Apart from the role of surveillance, carrying this buckle on his body, once something happened, his master would definitely come to his rescue at the first opportunity.

It could be said that after being caught by Ji Feng, this buckle was Boss Huang's last means of escape and his last hope, because he knew very well in his heart that once he fell into Ji Feng's hands, his chances of being able to live were too small and too slim!

But now, this last way of escape for Boss Huang was cut off by Ji Feng.

At this moment, he simply had the heart to die.

If he died now, he might still be able to feel some pain, but if he waited until Ji Feng had made a move against him, with the things he had done then Boss Huang could even think with his heels, it would definitely be worse than death!

Now Boss Huang's last last hope is that the person under his master who has been using satellites to help him will find out that he has fallen into Ji Feng's hands!

In that case, the master might send someone to save him.

But if he couldn't find out

"Take it away!"

The most important thing now is to take Boss Huang away from here as fast as possible!

The situation was already very obvious, the buckle on Boss Huang's body was probably a surveillance tracking device or a bug.

No matter which of these two it was, it would definitely not be good news for Ji Feng.

Because whether it was a tracker or a bug, one thing was clear anyway – the master behind Boss Huang was probably already aware of what was happening in this room, so for Ji Feng, it was now time to have a race with the master behind Boss Huang.

It depended on who was quicker!

If Ji Feng moved a little faster, then he could take Boss Huang away peacefully and then interrogate him slowly. But if the other party was faster, then Ji Feng might just run the risk of being surrounded!

"Old Yi~~!" Ji Feng gestured to Yi Xingchen, and then he pointed at the buckle that had been thrown on the ground.

Yi Xingchen instantly understood, and he picked up the buckle and handed it to Lu Gang, and after that, he made another gesture.

Lu Gang nodded, and then, he picked up the buckle and prepared to throw it outside the window.

Ji Feng lowered his voice and said, "Old Yi, you go down first, get the car ready, we'll come afterwards, if anything happens in the middle, we'll join forces inside and out"

Yi Xingchen nodded, and then he took a big step towards the door.

Hoo~~!

Just as Yi Xingchen reached the door of the room and was about to walk out, Ji Feng snapped forward and stopped him!

And then, Ji Feng stared coldly at the door of the room, his face glowing with coldness.

He musically heard, if anything, the sound of breathing coming from outside the door of the room, just a short distance away.

Because when they broke in earlier, Yi Xingchen and the others did not have time to close the door, so the room door was now open, so even though the sound of breathing outside the door was very faint and appeared to be if nothing at all, if you did not listen carefully you could not hear it at all, but Ji Feng did hear it!

He gestured with Yi Xingchen, and then, with one hand gripping the edge of the door, he slowly closed the door.

Eventually, Ji Feng closed the door with only the last gap left, and he stopped.

Ji Feng was not sure whether the person outside this door had come over to watch the commotion because he had just heard the commotion in the room, or whether it was someone sent by Boss Huang's master, so he left the door open with a gap and quietly observed.

At this moment, Boss Huang, however, had already been held by Liu Xin by the throat, even breathing was very barely possible, let alone making a sound to signal the alarm!

Ji Feng stood motionless at the door, quietly observing the door.

If he looked out from the doorway, there was a shadow on the floor of the doorway, only that it was very faint under the lights on the left and right sides.

None of the lights in the hotel corridor are very strong, and there are more than one or two ceiling lights, so a person who is standing in the corridor has his shadow reflected on the floor in a somewhat blurred way, and it is not just a shadow

But no matter how complicated it is, and no matter what angle the light comes from, the shadow is there, there is no doubt about it. Even the strongest light, shining on a person will have a shadow.

Ji Feng frowned slightly and stared at the shadow carefully, and soon he found that the shadow was slightly swaying, although the magnitude was so small that it could hardly be seen, but the slight swaying magnitude could not escape Ji Feng's eyes.

What's more, Ji Feng also saw a thin and long object

A gun!

An image appeared in Ji Feng's mind of at least one person in the corridor outside the door, holding a gun, with his back pressed against the wall of the doorway, listening to the movement in the room, waiting for an opportunity to move!

Or not just one person!

Ji Feng slowly took two steps back and made a gesture to Yi Xingchen and the others, Yi Xingchen and the others immediately understood and dodged to the sides, as soon as Ji Feng stopped at the door they also understood that there was most likely an ambush outside the door!

Afterwards, Ji Feng casually pulled up a napkin cloth from the table, slowly pulled the door a little wider and threw the napkin cloth out with a flip of his hand.

At the next moment, Ji Feng kicked out fiercely, hitting the door of the room hard.

And then he rolled on the ground, avoiding the angle of the room door and leaning against the side of the wall.

“Bang!”

The door to the room slammed shut with a hard thud.

At the same time, however, footsteps suddenly sounded outside the door, followed by the sound of gunfire!

“Bang, bang, bang”

There were several more bullet holes on the door of the room at once!

Yi Xingchen and the others’ faces were chilled, there was really an ambush waiting for them outside the door, if Ji Feng hadn’t noticed it in time, then they would have lost at least one person, after all, even if they were more careful, they would still be defenceless under the other party’s sudden attack!

“Ka ka ka~~!”

Yi Xingchen and the others immediately loaded their bullets and prepared for battle.

Ji Feng, however, waved his hand and said in a deep voice, “No need to tangle with them, evacuate first!”

The main task now was not to finish off how many people the other side had, but to take Boss Huang away safely, it was useless to take out more people, these were all small minions, cannon fodder, maybe the other side really wanted them to get attached to the battle, in that case, they might be able to grind themselves to death with a sea of people, or, they could take advantage of the chaos to save Boss Huang... ..

“How do we go?!” Yi Xingchen asked in a low voice.

Ji Feng looked at the door, at this moment, the footsteps and gunshots outside had stopped, obviously, the other party also seemed to realize that they had been fooled.

So, now the other party would definitely not attack rashly, they would wait patiently

“Let’s take the window!” Ji Feng lowered his voice to an extremely low level and pointed to the window at the back of the room, “Follow the pipe outside the window and go down to the thirteenth floor, it shouldn’t be difficult!”

“What about him?” Yi Xingchen swept a glance at Boss Huang who was being held by Liu Xin.

“Of course we should take him along, I’ll take him!” Ji Feng said.

This operation was to catch Boss Huang, now that he was caught of course he couldn’t just let go, nor could he just die, Boss Huang should know a lot of important information, and even, through him he might know who the person standing behind his curtain really was!

So Boss Huang had to be taken away.

Ji Feng walked over and grabbed Boss Huang’s neck, then with one hand he lifted him up, then with two violent steps, he jumped straight onto the windowsill.

Boss Huang’s huge body was no different from a chicken in Ji Feng’s hands!

“Woo~~woo~~”

When Boss Huang saw that he was actually carried to the window sill by Ji Feng, he was terrified and kept struggling, a terrified woo-woo sound came out of his throat, his face was even redder, and one hand was still clinging to the window sill, he just wouldn’t let go!

“Don’t be afraid, I won’t throw you down!” Ji Feng sneered.

“W~~~~” Where was Boss Huang willing to believe Ji Feng, he couldn’t let go of his grip on the windowsill, and his eyes were even filled with a strong look of panic.

“Motherfucker, shut up!”

Ji Feng let out a low shout and slapped Boss Huang on the head, directly knocking him out.

And then, he fiercely took a line outwards.

Slap!

Ji Feng nimbly held Boss Huang with one hand and climbed the sewer pipe outside the hotel with the other, and then he shouted lowly, “Old Yi, retreat!”

Yi Xingchen and the others also immediately leapt onto the windowsill and jumped down without hesitation.

The height of the thirteenth floor was not too difficult for Ji Feng, even if he was still carrying a man in his hand, at most he would only move slightly slower, that was all.

Ji Feng kept sliding down, and could even be jumping down one at a time, and in less than half a minute tightly, he was safely on the ground.

Afterwards, he took Boss Huang with him and immediately hid at the foot of the wall. After waiting for Yi Xingchen and the others to all come down, he immediately arranged the next action steps and plans.

Chapter 1365

“Now that we’ve caught the man, the most important thing now is how to get out of here!” Ji Feng’s gaze swept around, looking out from the shadows of this corner wall, there were quite a few figures walking on several roads near the hotel, and all of them were in a hurry, looking very grave and cautious.

“Obviously, the area around here has almost all been surrounded, and if we want to leave from here, we have to break out!” Ji Feng said in a low voice, “but look at the large number of people who should be around here, and that’s just on the surface, it’s still not known exactly how many people are rushing here, or if there are people ambushing in the shadows so it’s not that easy to break out! ”

Yi Xingchen and others could not help but nod their heads, Ji Feng was right in saying this, it was indeed not too easy to leave comfortably when surrounded by so many people from the other side.

“The other party is moving their men too fast!” Yi Xingchen said in a deep voice.

Ji Feng smiled, “The responsibility for this lies with me, I didn’t expect the other side to actually use satellites for tracking as well, obviously they have known for a long time that I had arrived in Jiangzhou, and now that Boss Huang has fallen into our hands, they naturally have to use a large number of people, and they are just as prepared as we are”

In fact, this current situation, Ji Feng was also prepared for it.

The importance of Boss Huang to the other side that is undoubted, even if Boss Huang himself is not very important, but what he knows is too important to Ji Feng.

And what is important to Ji Feng is a great threat to the other side.

Then, trying to capture Boss Huang would be as difficult as you can imagine!

So before even coming to Yuezhou Ji Feng had already predicted that once the other party realised that Boss Huang had been captured, then they would definitely try to save him by all means, or just leave themselves all in Yuezhou!

Otherwise, once you wait until Boss Huang spits out everything he knows, then for the other side, be prepared to endure Ji Feng’s revenge!

Or even the revenge of the entire Ji family!

Only what Ji Feng didn’t expect was that things would be so coincidental that Boss Huang and Yi Xingchen and the others would actually be in the same hotel, so that both sides immediately came to an encounter that they were unprepared for each other.

The two sides immediately acted as fast as they could, with the other side sending their men, while Ji Feng’s side was quick to take down all of Boss Huang’s men and put them under control.

The two sides’ conflict suddenly escalated, and its intensity made this encounter instantly enter the most intense high ‘tide’ stage from the very beginning, and it can be said that this situation was not expected by both sides.

So the most crucial thing now was how to break out before the other side had really finished their layout.

As long as they took Boss Huang out of the other side’s encirclement, then they would have to make some serious efforts to intercept Ji Feng and the others.

Moreover, the more men the other side used, the bigger the breach that would be revealed.

Even if the other side directly used the Guangdong Municipal Bureau, or some special department, or some big shot, then it is needless to say that it is almost clear who is behind the scene.

What awaits them then is definitely the most violent counter-attack from the Ji family!

“Then what do we do next?” Liu Zejun asked.

Ji Feng said, “Old Yi, Liu Xin, you are the front and deputy captains of the battle team, today you will treat me as a member of the battle team as well, now if it was you on a mission and you encountered this kind of situation, what would you do? What you would normally do, do it now, just treat me as a junior soldier!”

Yi Xingchen was the strongest among these people in terms of combat command.

Although Ji Feng had also learnt command in the training space, he knew very well that he might not actually be stronger than Yi Xingchen in terms of commanding ability, especially in terms of commanding experience, that was far worse than Yi Xingchen.

Therefore, he let go and let Yi Xingchen take command.

“In this situation now, there is no other good way, it is impossible to break out peacefully without making a move!”

Now is not the time to be polite, Yi Xingchen then said directly, “This way Zexun, you now go around along the corner and pretend to be an ordinary hotel guest, find a way to get a car preferably a commercial vehicle or a off-road vehicle!”

“Yes!” Liu Zejun immediately nodded and answered.

Despite the fact that anyone knew that going to get a car now would definitely be the most dangerous, Liu Zejun agreed without hesitation, as a soldier, obeying orders was their natural duty!

“Lu Gang, take your sniper rifle and cover Liu Zejun as much as you can!” Yi Xingchen said.

“Yes!” Lu Gang nodded his head.

“Liu Xin, you’ll be the vanguard with me, charge forward and draw the other side’s attention.” Yi Xing Chen added, “As for Boss and Miss Bai, the two of you take the target and sneak onto the commercial vehicle that Liu Zejun got as far as possible while the other party’s attention is distracted and not focused on you, as long as you leave, Liu Xin and I will have a much easier time, we will find a way to leave!”

“No!”

Ji Feng said immediately, “Let the white spider take the target and leave, the three of us will make the impact!”

“That’s an order!” Yi Xingchen said in a deep voice at once.

“Boss, I can’t take the target by myself!” White Spider also said.

Ji Feng couldn't help but frown slightly, although Bai Spider was a girl, after practicing body building exercises, her strength was not small, taking a Boss Huang to sneak away, that wasn't a very difficult thing, the reason why Bai Spider would say that was actually because she didn't want him to stay and take risks, Ji Feng certainly understood her thoughts.

Only, Ji Feng was not quite agreeable to such a setup, because he knew very well his own combat power, if he didn't have to take Boss Huang, just these people, just the two of them, him and Yi Xingchen, would be enough to leave the other side helpless!

"Boss, you're making it hard for me to do this!" Yi Xing Chen said, "I only treat you as a junior soldier, do as I am told!"

"..... Good!"

Ji Feng nodded after a slight hesitation, "Just do as you laid out!"

"That's good, for the time!" Yi Xingchen said.

Several people immediately stretched out their hands and reported each other's time, and found that the error was only around a few seconds, which made it no problem at all.

"Listen up!"

Yi Xingchen lowered his voice and said, "Liu Zejun's time is uncertain, see the right moment to make a move, the others listen Ten seconds after Liu Zejun turns the corner in front of him, Lu Gang starts to move, go to the edge of the lighted area and cover Liu Zejun. In another ten seconds, Liu Xin and I start to move! Boss, you and Miss Bai, the two of you, the time of action is also variable, but as fast as possible, after Liu Zejun drives out, get into the car with the fastest possible speed"

Everyone listened attentively, and once Yi Xing Chen had finished setting up, Liu Zejun gestured, and then started to sneak along the corner, in the direction – the hotel's front door!

"Ka ka ka~~!"

Lu Gang untied a slender suitcase from his back, that looked like a guitar case, and then, he began to quickly assemble his sniper rifle, while his gaze was always fixed on Liu Zejun's back.

"Ka ka ka!"

When the sniper rifle was assembled, only ten seconds had passed, and at this time, Liu Zejun had already arrived at the edge of the area illuminated by the lights at the entrance of the hotel, but he did not act immediately, but crouched there, waiting for the right moment.

Everyone was staring closely at Liu Zejun's direction, and everyone knew very well that once the other party was reckless, then Liu Zejun might be in danger once he went out.

Suddenly, Liu Zejun moved.

He stood up his body, and with a turn of his body, he walked over.

Ten seconds later, Lu Gang started to move with unerring accuracy, he quickly arrived at the edge of the area illuminated by the lights, half-kneeled on the ground, set up his sniper rifle and started to cover Liu Zejun.

“Go!”

Yi Xingchen shouted lowly, and together with Liu Xin, they began to dive forward.

It had to be said that the location that Ji Feng and the others had chosen was really good, the whole hotel was situated on one side of the road, in fact on both sides of the hotel, there were still two roads, the lighting was not too strong but it was hard to hide.

The location where Ji Feng and the others were located was the side with the faintest light, in the shadows so to speak, and the contrast in light intensity was great compared to other places.

In this way, if you look from outside to this place, all you see is blackness and you can't see anything at all.

This made it easy for Ji Feng and the others to move!

Yi Xingchen and Liu Xin had already arrived at the roadside on the side of the hotel, and they raised their guns, pointing them at the several figures that were hurrying this way not far away.

“Bang Bang!”

They pulled the trigger violently, and in a flash, all the people around the hotel were startled by the sound of gunfire, so abrupt that everyone was startled, even the sound of car horns on the road, was drowned out.

The next moment, many people began to rush in the direction of the two of them, while some of them began to take cover to prevent themselves from being taken out by cold shots.

A fierce gun battle began, the two of them, Yi Xingchen, each carrying a rifle, two pistols, and quite a few magazines, rushed forward as they fought, their figures blurred under the illumination of the already not too bright streetlights, making it impossible for those people to aim.

“White Spider, get ready to go!” Ji Feng lifted up Boss Huang, who was still in a faint state, and prepared to wait for Liu Zejun to drive over before getting into the car as fast as he could!

The gun battle still continued and was getting more and more intense.

Seemingly realizing that there were only two people who came out to make trouble, and that they were not very good shots, and that only a few people seemed to have been shot after fighting for so long, the other gunmen instantly got into the spirit and started moving over there

They did not know that the two men who had come to make trouble in their eyes had already put their pistols on their belts and started to hold their rifles, just like a fierce beast with fangs exposed

Chapter 1366

Ta-da-da-da

The ear-piercing, dense sound of gunfire cut through the long, dark sky of the night, and two tongues of fire erupted next to the street light stand by the road.

In a flash, the gunmen who were rushing across the road suddenly let out a scream of misery, and those who were at the front of the line didn't even react to what was going on before they fell straight down.

And the rest of the men behind them were all suddenly on the ground, beaten so badly that they couldn't lift their heads at all, and no one wanted to be blown away by a shot from the other side just as soon as they raised their heads!

"Squeak – bang -"

At the same time, a piercing sound suddenly rang out from the entrance of the hotel, it was the sharp sound made by the tyres rubbing violently against the ground, and the next moment, a black SUV was seen rushing out, behind the car, there were people chasing after it, and there were people shooting, but those people had only taken a few steps after it, when a gunshot suddenly rang out from the side.

A few of the chasers fell down instantly, and the others were so scared that they fell to the ground with their heads in their hands!

Lu Gang had struck!

"SQUEAK!" The black SUV rushed onto the road and stopped not far from Ji Feng.

"White spider, run!" At the same time, Ji Feng shouted lowly, lifted up Boss Huang and quickly charged forward together with the White Spider.

Bang, bang, bang!

Those gunmen lying on the ground saw this situation and immediately raised their hands and fired!

"Boom!" A man's head suddenly emerged with a blood splash, his body shook and his head smashed to the ground at once This man was shot in the head!

The sound of gunfire suddenly weakened considerably, and those gunmen who were lying on the ground, once again held their heads, lying on the ground, not daring to move, they realized that there were not just one or two troublemakers around them now, there must be others hiding in the shadows!

Hoo~~!

Ji Feng and White Spider got into the SUV.

"Drive!" Ji Feng shouted, "Turn around from the front and pick up Old Yi and the others!"

As he spoke, he had already pulled out his pistol from his waist and shot out of the car window!

Bang!

A guy lying on the ground's body stiffened, and then twitched a few times before he never moved again. Ji Feng sat in the car and fired outwards, so to speak, from a high position, and shot the guy right in the back of the heart.

"Bang! Bang! Bang!" Ji Feng had no intention of stopping, he fired continuously, and his shot killed.

With one man and one gun, he beat up those gunmen on the ground who couldn't raise their heads, and even kept killing people, making those people's liver and guts split.

"Ah...!"

Another man was killed, this time with a single shot to the head.

"Run!" Suddenly, a loud shout rang out.

The next moment, there were shouts after shouts, and the remaining gunmen who hadn't been killed all got up and ran backwards without looking back, they even forgot to distinguish who had just let out that loud shout!

Ji Feng's harsh and ruthless shooting had scared those people out of their wits.

These gunmen were not highly trained and experienced fighters, so they naturally did not have such accurate judgment.

Ta-da-da

As soon as those people fled, the guns in Yi Xingchen and Liu Xin's hands went off again, and they naturally wouldn't miss such a rare opportunity.

As long as these people were taken out, then they would be a much smaller threat, and at least the immediate crisis could be temporarily alleviated.

"Get in!" Ji Feng bellowed.

Yi Xingchen and Liu Xin immediately ran wildly towards the SUV, while at this moment, Lu Gang was holding his gun and continuously pulling the trigger, after taking down a few gunmen again, he laughed harshly, before turning around and getting into the car.

A buggy, looks a bit crowded, but now is not care so much, first escape out in said.

Ji Feng could already vaguely see that on the distant road, a large number of vehicles had already started to speed this way, and it was obvious that they were the back-up manpower.

"Zee...!" Liu Zejun slammed on the accelerator, and the SUV's engine roared away with a low rumble.

Buzz~~!

And at this time, those vehicles behind them were chasing after them, at the same time, there were already gunmen peeking out of the windows and started shooting at the SUV.

Clatter~!

The glass at the back of the SUV was smashed, glass shattered in all directions!

Ji Feng snorted coldly and casually took the sniper rifle from Lu Gang's hand, not even needing to aim, he turned around and fired a shot.

Bang!

The car at the front was instantly blown out of its tyres, and the car lurched and fell across the road at once.

“Clang!” The car behind was too late to brake and crashed onto it, and the two cars lost the ability to pursue them at once.

Buzz~~!

But the other cars were coming around and continued the pursuit.

Ji Feng held his sniper rifle, aimed at the driver’s seat of one of the cars, and pulled the trigger: “Bang!”

That car instantly skewed violently, the sound of the car just shifted sideways, then it flipped straight over to, rolled several times continuously on the road, the wheels were still turning, but the body had flipped over!

“I’ll do it too!”

Lu Gang looked so excited that he too took his rifle from Liu Xin’s hand and was ready to fire at the car behind him.

“Let’s switch guns!” Ji Feng handed the sniper rifle to Lu Gang and then took the rifle in his hand. Lu Gang was good at using sniper rifles, but for Ji Feng, sniper rifles or normal rifles, the difference was not that big.

“Boss, a competition?” Lu Gang said.

“Happy to oblige!” Ji Feng laughed, this mentality of Lu Gang was quite good, in the middle of a fierce battle, he could still let his voice out and laugh, this composure alone was already worth appreciating.

“One for each of us!” Lu Gang said, “I want the left one!”

Bang!

As soon as he said that, Ji Feng shot the driver of the car on the right and the vehicle rolled over violently!

Lu Gang instantly waited with wide eyes, “So bullish!?”

Holding an ordinary rifle and having such accuracy without even having to aim, this kind of blazing marksmanship was a bit amazing!

Bang!

After another gunshot, the other car at the front rolled over, and a car behind crashed into the car in front once again.

In a short moment, the three cars lost their pursuit and were paralyzed on the road!

Ji Feng turned his head to look at Lu Gang and said with a smile, “Sorry, two shots accidentally solved three cars

“.....”

Lu Gang opened his mouth and was speechless.

Ji Feng paralyzed three cars with two shots, and it was only in this short moment, which made Lu Gang a little speechless, knowing that Ji Feng was not using a sniper rifle, but just an ordinary rifle!

Lu Gang thought to himself that even if he was holding a sniper rifle, this was the level he would be at.

Because this was in fast motion, to be able to hit with such accuracy, this shot was absolutely mind-blowing!

“There are three more closer ones behind you, they’re all yours!” Looking at Lu Gang’s dazed expression, Ji Feng smiled faintly, “Let’s see how you do!”

“Watch me!” Lu Gang gritted his teeth, held his sniper rifle and aimed at a car, directly pulling the trigger.

Bang!

That car was in the middle of a high-speed chase when the driver took a steep and fatal blow, instantly losing control and falling across the road.

Unfortunately, the drivers of the two cars behind had learnt their lesson the hard way, and the moment the car in front of them moved sideways, they pivoted the steering wheel to go around.

“Fucker!” Lu Gang cursed lowly, he originally wanted to do a series of two battles, but he didn’t expect the two cars to actually go around, he once again picked up his sniper rifle and fired two shots in quick succession.

Bang Bang!

Those two cars finally crippled to the ground!

And by this time, if you look from the air, on this road, there will be a tumbling vehicle at not much distance, that scene, it is so shocking, it is simply more visually stunning than making a movie!

After taking out a few cars in a row, the cars behind finally didn’t dare to get too close and could only hang far behind, Liu Zejun took the opportunity to slam on the gas, the SUV immediately skipped far away from those vehicles and disappeared on the road.

“Whew~~”

Lu Gang couldn’t help but let out a long breath, “Those tails finally got rid of!”

“Don’t be so happy first!” Ji Feng said.

Yi Xingchen said, “Zejun, go to the front and find a busier place and find a way to get two cars!”

“The other side can still track us?” Lu Gang seemed to understand something and couldn’t help but ask.

Ji Feng nodded and said, “They can even use satellites, isn’t it easy to track a car? Besides, this car is not of a low grade, it should have a positioning system on it, right?”

“That’s right!”

Liu Zejun, who was driving, spoke up, "This car has a navigation and positioning system, it is necessary to change the car as soon as possible, otherwise the other side will soon be able to find us"

"There is a junction ahead, stop there!" Liu Xin said.

A few people looked and saw that there were several cars parked at the roadside at the intersection in front of them, and there were quite a few cars in front of them, that should be a commercial area.

A group of people got off at this intersection, and after that, Liu Zejun and Yi Xingchen came next to two cars, and they didn't see how much effort they took, they just slightly messed up twice, the car lights flashed twice, and the car door was opened

.....

After changing cars, Ji Feng and the others could finally feel slightly more at ease, but they didn't let their guard down yet, no one knew how much energy the other side had, and in this emergency situation, it shouldn't take too long for the other side to find out where they were!

Therefore, Ji Feng and the others did not stop, but continued to drive forward, and by now, they were already several dozen kilometres away from the hotel where the incident happened.

"Boss, where are we going next?" Yi Xingchen asked.

Ji Feng pondered for a moment and said, "Keep driving forward, let's get to the suburbs first!"

Looking at the current situation, the energy used by the other party must not be small, and under such circumstances, Ji Feng was not sure that he could bring Boss Huang to Jiangzhou safely.

So he decided that he would first find a secluded place and ask Boss Huang everything he knew.

As long as he asked what he wanted to know, and afterwards, even if Boss Huang was rescued, Ji Feng would not have any more worries.

"Boss, look!"

Suddenly, Liu Zejun said in a deep voice, "There's a situation up ahead!"

Chapter 1367

Ji Feng and the others smiled and immediately looked forward.

They saw that at the interface in front of them, there was a roadblock set up and four or five traffic policemen were stopping the road to check the vehicles passing by, this was not something worth noting, the key issue was that on both sides of the road, there were quite a few policemen and some people who looked like they were watching the action.

In addition to that, Ji Feng also saw that at a further distance, there were quite a few people standing and chatting in front of various shops, and it looked as if business here was very good.

Ji Feng's eyebrows tightened as he said in a low voice, "Turn around immediately, don't go down this road!"

"Yes!"

Liu Zejun nodded and immediately pivoted the steering wheel, turned around in place, and then after reversing a distance to a junction directly to the right side of the wrong car, quickly merging into the traffic.

The first thing you need to do is to get a good idea of what you are getting into.

These traffic police set up roadblocks, but the action is very strange, they only outside the car to look inside, a slight check, and then waved to let go.

However, after seeing the SUV, those traffic police officers were checking very carefully.

Obviously, they were specifically checking the SUVs!

Moreover, there were traffic policemen with mobile phones, and then they looked at the driver and other passengers in the car, and seemed to be making comparisons, so there should be written descriptions or photos on their phones.

Thinking about those policemen near the road card, and those three or two people in front of the shops on both sides of the road, it became clear in Ji Feng's mind that these traffic policemen were not checking for any illegal vehicles or criminals, they must be checking for people like themselves!

These people, the people behind Boss Huang must be the ones who had used their enormous energy to use the road cards to check their whereabouts as a way to rescue Boss Huang.

"We can't go down this road anymore, and we can't just try to bump around like headless flies!" Ji Feng said in a deep voice, "In that case, we will sooner or later be herded into the cage they have set up, and then we won't be able to go anywhere, and then we will definitely have to be caught with our hands tied!"

Yi Xingchen nodded, this situation he also saw, now this intersection had already set up roadblocks, and this was only half an hour from the incident, so it could be seen how big the other party's energy really was, to be able to organize so many people to track in such a short time, without huge energy, not to mention mobilizing so many people, even to set up the seizure that happened in front of that hotel, it would be very difficult!

Since the other party's energy was so huge, it was obvious that they definitely wouldn't just set up roadblocks at one intersection, if there was no mistake, the other party should have set up roadblocks within a range of how many kilometres around the hotel in question.

This range should have been estimated based on the fastest speed at which Ji Feng and the others were fleeing, so it was only until now that they had come across the first roadblock.

And from this point onwards, all the concerns would start to gradually shrink, they were trying to drive Ji Feng and the others inside an area continuously, and finally, make them into turtles in a jar, with nowhere to run!

Even, Ji Feng has a guess, whether the other party is deliberately pretending not to know that Ji Feng is in it, and then, squeeze them all into a narrow area, and finally force them to go nowhere, and then the other party will probably not even make an arrest, but continue to push, and keep pushing them until the dog is desperate!

At that point, once they and others do something excessive or confront the police, then in that case, they will be taken out straight away!

In that case, no one would be able to say anything.

Even if the Ji family's people wanted to pursue this matter, at least on the surface, they would not be able to take advantage of the situation.

Ji Feng had led his men to do whatever he wanted in Yuezhou, not only killing many people, but also kidnapping a certain position, or rather, illegally imprisoning a certain heavyweight, Boss Huang, in Yuezhou.

The police went to rescue him, but it turned out that instead of cooperating, Ji Feng and the others confronted the police by relying on their status and even wanted to harm the lives of the hostages.

The police in Yuezhou had no choice but to shoot the robbers in the end!

..... The most important thing is that the Yuezhou police will never claim to the public that they have known Ji Feng's identity for a long time, but will instead say those few robbers!

Only after killing the robbers, when the police were investigating their identities, they discovered in an open manner that one of the robbers was actually a heavyweight – the first grandson of the longest family of the Ji family, the son of Minister Ji Zhenhua!

Ji Feng believed that the possibility of this happening was just too great!

“Zejun, find a place, we are going to abandon the car!” After repeated deliberation, Ji Feng finally said in a deep voice.

“Abandon the car?!”

Liu Xin was slightly stunned, “Little Chief, if we abandon the car, then it will be very troublesome for us to leave.”

“I know, but if we don't abandon the car, it won't just be troublesome then, by that time, it could be fatal!” Ji Feng said, “Abandon the car! Without the car, we may not be unable to walk out!”

He coldly snorted, “Since the other side has already started to make their move, then we'll play along with them!”

Ji Feng knew very well in his heart that he was currently at a disadvantage because it happened suddenly, and it was a sudden incident on someone else's turf, so that he did not have any outside help and could only rely on himself, but the other party might be the local snake here, and the gap came out when comparing these two.

So, the wisest thing to do at this time is to please the other side's rhythm so that much of their strength is not used. In this way, both sides' forces are brought back to the same level, and the other side's advantage of being a groundhog, is gone.

“Abandon the car!”

Ji Feng said with a resounding voice, "After abandoning the car, our advantage will come out. Yuezhou is so big, if a few of us hide in it, no one will be able to find us! Especially now that it's night, we not only have to hide, but also find a way to jump out, so no one will be able to do anything to us then!"

Since the plan of driving out of Yuezhou was no longer feasible, then, the plan had to be changed immediately.

"Yes!" Liu Zejun nodded and answered.

And then, they parked the car on the roadside at a road section that was not too busy.

Ji Feng and the others gathered together under a large tree by the roadside.

"Old Yi, Liu Xin, before I came to Yuezhou, I carefully studied the map of Yuezhou, formulated several routes, and also anticipated several contingencies." Ji Feng said in a deep voice, "The only thing I didn't anticipate was that things would be so coincidental"

Since he was coming to Guangdong to arrest people, then Ji Feng naturally wouldn't do nothing at all to prepare.

"The few retreat routes I have set up all start from the suburbs." Ji Feng said, "What we need to do now is how to get from here to the suburbs."

What exactly the situation in the city was like, it was all very sudden and could not be predicted at all.

Moreover, the most Ji Feng could do was to lure him towards the location he envisaged, but what the final outcome would be, he himself wasn't too sure.

Now that the situation had changed, it was only natural.

"Currently we are in the south of the city in Yuezhou, we have to get to the suburbs from here, once we get to the suburbs, then the initiative will be in our hands." Ji Feng said.

Yi Xingchen nodded, "From the current situation, that is indeed the case, and I have also envisaged leaving from the suburbs if an accident does occur."

In the city, the range was too small to be able to exert here, and the other side's power was too strong, especially the police force, which was extremely tricky to deal with.

Besides, with Ji Feng's status, he couldn't go on a rampage here without a care in the world, or else even if he won, he would be criticised!

"But now we are in the city."

Lu Gang raised his question, "So how do we get to the suburbs?"

"That's the key question at the moment!" Ji Feng said, "From the current situation, there are roughly three ways to get to the suburbs, two of which are more stable and one of which is more risky."

"First, we can be spiderman for once, when we encounter a roadblock, find a way to go over the buildings on both sides of the road, I believe there won't be too many roadblocks, three or so roadblocks, the defense is already very tight, so we don't need to go over many buildings!"

Ji Feng said, "Of course, it doesn't have to be over the buildings, if there are neighborhoods on either side of the road, we can just go over the fences of the neighborhoods, that's very easy."

"Second, disguise over." Ji Feng said, "For example, we can disguise ourselves as some special people and we should be able to cross the border as well."

"Third, break through hard!" Speaking here, Ji Feng couldn't help but smile, "This method can basically be ruled out now, I think the first two methods are still considered relatively stable, which one do you guys think is more suitable?"

Several people looked at each other, Yi Xingchen said, "The second method should be faster, the first method, however, is the most stealthy."

"I think, use the second method!" Liu Xin said.

"Use the second one?" Ji Feng asked.

.....

"Woo woo woo woo~~!"

The sound of sirens cut through the night sky as a police car drove extremely fast on the road and took the special vehicle lane, arriving at the barrier, but it was still stopped by the traffic police.

"What's going on?! Hurry up and move the barrier out of the way!" A policeman in a police car poked his head out and bellowed.

"You are" a traffic policeman asked with some hesitation, "we need to check."

"Check for what? Suspect I'm driving against the rules?" The policeman's tone was cross, "Hurry up and get out of the way, I'm on duty over here, delay things and let your big captain go to the city bureau to explain!"

The traffic policeman was startled: "Wait a minute! Wait a minute!"

He hurriedly moved away from the barrier, and as he watched the police car go away, he couldn't help but curse, "What the hell, I'm a police officer too!"

"Forget it, who made them carry guns!"

Another traffic cop reassured him, "Hurry up and keep checking, we can't let the suspect get away!"

Chapter 1368

Buzz~~!

Two unobtrusive black cars sped past on the road, and vaguely, several people could be seen sitting in these two cars, seemingly talking about something.

About three or four kilometres away from these two cars, a police car was parked in the bushes by the side of the road, with its doors tightly closed and its windows all up, seemingly with nothing out of the ordinary, but in fact if one looked closely one would find that the tyres of this police car were already flat and could no longer be driven at all.

Suddenly, the police car swayed violently.

Suddenly, the police car shook violently a few times, then calmed down again, and after a few seconds, the police car shook a few more times.

In fact if you look through the window glass you can see that there are three thinly dressed people in this car, their hands are tied behind their backs and they can only keep struggling and twisting their bodies, making the police car shake continuously.

And at this time, from the two cars that had already left, there came a burst of harrumphing laughter.

“Ha ha! Still this is a good idea!” Lu Gang looked back at the dark road behind him and couldn’t help but laugh, “Little Chief, it’s so easy to pass this time I really didn’t think that it was possible to pass like this!”

Originally Ji Feng proposed that to cross the border in disguise, Lu Gang was still a bit confused.

Although those traffic police officers are not officers, if a hard fight, Lu Gang is confident that one person to beat them dozens, as long as there is enough space. But if it is said to use this kind of disguise to pass Lu Gang is a little less understandable.

You know, in addition to those non-officer traffic police, there are a large number of police officers and fighters, all in the vicinity of the barrier, to get past this way, but the difficulty is not small!

But Ji Feng and Yi Xingchen and Liu Xin were the ones who insisted on using this method, and Lu Gang naturally had to strictly carry out the order.

However, the result was very surprising to Lu Gang.

After the plan was decided, Ji Feng and the others intercepted two police patrol cars on a pretext and then just broke in with such a big show, but the result was actually successful!

Ji Feng smiled, but only smiled and didn’t say anything more.

But in fact, he knew in his heart that those traffic police and police officers were not incompetent, but they knew what they could and could not do, especially when they met people of comparable status to them, the small sense of superiority that still existed in their hearts for ordinary people instantly disappeared without a trace.

And when the people in the police car that broke through were particularly cross, those traffic police did not dare to stop them.

These are the most common situations in society, except that Liu Xin and Lu Gang have been in the army and have had very little contact with society, and have seen too little of the dark side.

To put it simply, they are not too proficient in the world of human affairs!

In fact, this method used by Ji Feng was too common, it was just taking advantage of the inferior nature of the majority of people who were bullying and afraid of the tough.

On top of that, the same was true for those police officers near the barrier.

When one side was too strong, the other side would naturally appear to be somewhat weak, and this was especially obvious when the two sides were on equal footing!

What's more, those police officers near those checkpoints, they didn't know exactly what the identity of the people in this police car was, and whether their rank was higher than theirs, so even if they thought that there was really something wrong with the people in this police car, they didn't dare to act recklessly.

In case the investigation goes to their leaders or those they cannot afford to mess with, what will be the consequences? Who would bear the burden?

Knowing that they were only following orders to come out and intercept a specific target, and didn't even know what it was for, they naturally wouldn't make any more trouble, let alone offend anyone over such matters!

"We're out of the city now, but it's not too safe yet, and when the other side finds out about the police car, they'll definitely catch up." Ji Feng mused and said, "Keep going, use the fastest speed, and in an hour, find a secluded place to stop!"

"Yes!"

Liu Zejun answered.

.....

In the suburbs of Yuezhou, within a villa area, a young man was standing in the living room on the phone, and he didn't know exactly what the person on the phone had said, making his face look ugly.

"What? Haven't you found out yet?"

As soon as the young man heard this, he roared, "No matter what method you use, you must find Old Huang in the shortest possible time! I'm telling you, Old Huang is very important, if he's taken and says something he shouldn't, then not only you and I will have bad luck, but even your gang, me, and even the top, will follow! So if you don't want to die, immediately mobilize all the connections you can use to find them, no matter what kind of cats and dogs they are, send them all out!"

"You don't care about the police I'll say hello on the police side, it doesn't conflict with your operation in any way! Moreover, the police will fully cooperate with your operation!" This young man said in a deep voice: "I tell you, now even if the other party can fly, they can't fly out of Yuezhou, they must be found!"

"..... is right, don't talk so much nonsense, do it immediately!" The young man bellowed and hung up the phone!

And then, the young man couldn't help but curse out, "All of them are fucking trash, and gang leaders usually just know how to eat, drink and play with women, and can't do anything else well, they can't even catch a few people!"

He cursed indignantly, thought about it, picked up the phone again and dialed a number: "..... It's me, you need to step up your game, the other side must not be out of Yuezhou yet, we need to be quick or there will be a big problem!"

Pop!

Hanging up the phone, the young man's face was still a bit gloomy, he was walking back and forth in the living room, his heart was burning with anxiety!

There was no doubt about Old Huang's importance, as this man knew just a little too much, and now he regretted that he shouldn't have let Old Wang go on that matter in the first place, and ended up attracting such a heavyweight opponent!

But now it was too late to regret, so he could only hope that the police and the gangs, could find Old Wong as soon as possible, otherwise, the revenge of that heavyweight, was not something he could afford, and by then, even the top, would be implicated!

"I really didn't expect that he would come to Yuezhou himself!" The young man secretly said, "But, now he can only pretend not to know"

.....

Ji Feng and the others drove at full speed, about an hour later, according to the odometer in the car, they were already several dozen kilometres away from downtown Yuezhou, and came to a deserted place, only from afar, could they see a little light coming from far away, that was the light from the high-rise buildings in downtown

After locating the location, the two cars stopped.

"Bring the people down!" Ji Feng got out of the car and looked around at the environment.

It was dark here, the road was lined with wilderness, the terrain was slightly higher, Ji Feng took a few steps up to the high post and looked around, only to see that he could only vaguely see downtown Yuezhou here, in the opposite direction, but no lights at all, he could not help but nod slightly, although this place was not too safe, but it would still take some time for the other side to track them down here.

You know, Ji Feng and the others had changed cars twice in a row, and Boss Huang's body had been carefully checked, there were no tracking devices or equipment, Yi Xingchen and the others had even turned off all their mobile phones, leaving only one of Ji Feng's mobile phones, which was used for external contact.

Of course, now Ji Feng's main contact was Wang Xin.

"Bang!"

Boss Huang was raised by Yi Xingchen and casually thrown on the wasteland by the road, "Boss, what are you going to do with it?!"

"I have a few questions to ask him!" Ji Feng said, "Wake him up!"

Yi Xingchen nodded, squatted on the ground and flung his hand and slapped towards Boss Huang's face.

"Slap!"

In this silent night, a slap hit Boss Huang's face and a crunching sound was made.

“Umm~~~” Boss Huang’s body moved as he was hit with an unconscious muffled cry.

Yi Xing Chen said, “I’ll go turn the car around and use the headlights to illuminate it!”

“No need!” Ji Feng waved his hand, whether there were lights or not really didn’t make much difference to him, moreover, lighting up the car would also easily expose himself, if the other party was energetic enough to use some special department to track him down, it wasn’t impossible!

“It’s still more convenient to have lighting, right?” Yi Xingchen said.

“Don’t worry, no need for lighting, I have my own way!” Ji Feng smiled and patted his shoulder.

Yi Xingchen was then slightly surprised, the lights were now turned off, but Ji Feng was tapping him on the shoulder with unmistakable accuracy Even if Yi Xingchen hit Boss Huang just now, that was still when the lights were not turned off to see clearly.

“Alert!”

Since he couldn’t figure it out, Yi Xingchen also stopped thinking about it and waved his hand and bellowed.

The others immediately surrounded the area with their guns and took up a guard position!

Don’t think that a guard is just a few people standing around with guns, in fact, a guard is also very delicate, because defence is the hardest thing, as long as any place is not in place, or a little bit lax, someone will take advantage of it!

A perfect defence is one that is dripping with water, and although such a defence may not exist, it is always important to be as perfect as possible.

“I’m right in front!” Yi Xingchen said in a low voice, and after that, he too turned around and left in big strides.

When Ji Feng wanted to interrogate this Boss Huang, Yi Xingchen would not be conveniently present, because he could also see that with all the commotion tonight, it was obvious that the opponent was not an ordinary person, and that Boss Huang’s mouth might spit out many secret things, which would not be convenient for Yi Xingchen to hear.

As a warrior, Yi Xing Chen knew exactly what he should do!

“Ah” Boss Huang whimpered in pain, his body twisted and his head shook a few times, opening his eyes, only to find that it was pitch black in front of him, not knowing where he was at all.

“Slap!”

A slap came hard, followed by a low voice, “Awake? Then let’s talk!”

Chapter 1369

Buzz~~~!

This slap on the face immediately hit Boss Huang dizzy, he was not fully awake yet, and as a result, he was slapped hard again, he only felt a blackness in front of his eyes and a roar in both ears, almost fainted once again.

“Vomit” Boss Huang’s eyes were black and dizzy from the blow, he only felt the sky spinning, his stomach was churning and he almost threw up.

But with such a blow, it made Boss Huang instantly realize his current situation – he was caught and taken to a strange place!

In a flash, Boss Huang jolted and his whole body instantly sobered up.

In a flash, Boss Huang recalled what had happened before he fell unconscious. He had originally tried to catch ‘Fang Ming’ in the hotel, only to find out after he had caught the person that the person who had been circling him was not Fang Ming at all, but the heavyweight from

And then that person showed his immense strength, instantly knocking down all his men and taking him out of the hotel again

As for what happened after that, Boss Huang couldn’t remember because he had already passed out by that time and didn’t know anything.

“Not going to talk?” That voice rang out in front of Boss Huang once again, but the voice was somewhat cold, and it felt a little chilly on Boss Huang’s body when he heard it.

Boss Huang instantly heard out that this icy voice was from that heavyweight!

He couldn’t help but stutter in his heart, he knew it was bad!

Those people hadn’t saved him, he was still in the hands of that heavyweight, and, it looked like they had found a safe place to hide, so now those people would have some difficulty in finding him, I’m afraid!

“Good, since you’re so hard-headed, there’s nothing else to do” The voice got cold, Boss Huang only felt a man approaching him quickly, he was startled and called out in a panic.

“Wait, wait, there’s something to talk about, there’s something to talk about!” Boss Huang shrieked.

“What’s your name? What’s the identity? And what exactly is your involvement with this matter” Tell me about these circumstances first!” Ji Feng said coldly.

“I, I’m in a lot of pain all over my body, my ribs seem to be broken, can I”

“Slap!”

A vicious slap suddenly hit Boss Huang’s face without warning, directly interrupting him and making him dizzy again, planting him on the ground at once!

“If this kind of bastard practice of chattering on and on trying to stall for time is what you call having something to say, then sorry, I’m disappointed in you” Ji Feng said coldly as he lifted Boss Huang up with one hand, “Since you don’t cooperate, then I’ll have to use my own methods to make you talk!”

“Don’t! Don’t!” Boss Huang was instantly shocked as he screamed out in fear.

He instantly realised that this man in front of him was not that easy to fool, because this man was not like ordinary people at all, he was afraid that in the eyes of such a person, he was no better than a dog, killing him would be killing him, not even the slightest ripple would rise!

Once he thought of these problems, Boss Huang’s heart immediately panicked, he knew that this man was not at all scaring himself, so he hurriedly begged for mercy.

“You say no and it counts?” Ji Feng said in a cold voice, “I’m too lazy to talk nonsense with you, come on people, pick off his hamstrings and hamstrings, throw him into the middle of the road and run him over with a car, causing the appearance of a car accident”

“Yes!” Yi Xingchen shouted in response.

“Spare my life! Please young Ji, don’t kill me” Boss Huang screamed in shock, in the darkness he could only vaguely see a shadow approaching him, but just like that, Boss Huang was terrified and kept struggling to move backwards.

Ji Feng stared at him coldly and asked in a deep voice, “What did you call me?!”

“.....” Boss Huang then realised that in his extreme panic and disorientation, he had said the wrong thing!

“What did you call me?!” Ji Feng’s voice was even lower as he asked in a cold voice.

Boss Huang couldn’t help but swallow his saliva with difficulty, his breathing was incomparably thick, his heart was continuously beating violently, and his entire person was even more panicked.

“Hoo~~!” Ji Feng kicked over and directly stepped on Boss Huang’s leg!

Ka-ching!

In this silent night, the sound of bones breaking was so piercing that people felt their scalps tingle and their hearts tighten.

“..... ah-!”

All of a sudden, a harsh and miserable scream rang out violently, Boss Huang’s eyes were deadly wide, the veins on his forehead rose high, and the whole person screamed hysterically.

If there was light, one could clearly see that Boss Huang’s left leg, from the knee, showed a bizarre twist, the magnitude of which was exaggerated, it was obvious that his leg had been trampled off by Ji Feng!

“Shut up!” Ji Feng said indifferently.

Boss Huang was screaming miserably, his leg was broken, the pain was definitely not lighter than the pain of the so-called ten fingers being broken, that was not something that could be endured just by holding back!

Slap!

A slap came violently, and Boss Huang's screams stopped abruptly, his eyes rolled over and he directly fainted!

Ji Feng stood there, looking at Boss Huang, who was fainted on the ground, his face was icy cold.

Boss Huang really did know himself!

Now Ji Feng could already be sure, otherwise, Boss Huang would never have opened his mouth to call himself Mr. Ji in an emergency, he obviously knew him and knew his identity very well!

In fact, Ji Feng had already realised that Boss Huang knew him. From the moment Boss Huang first realized that he was not Fang Ming at the hotel, that instant, Boss Huang lost his tongue and said, "You are Ji"

And after that, Boss Huang changed his mouth.

But Ji Feng heard it clearly, so from that moment on, Ji Feng realized that Boss Huang must have known him!

From this it could be seen just how many people were involved in this matter! How well prepared the other side had been!

Even someone like Boss Huang was able to recognize himself at once, so you can imagine that either Boss Huang had seen himself with his own eyes, or they must have studied him before, made a lot of preparations, seen his photos, etc.

If this is the case, then it is certain that the other party has been hitting on the Ji family for more than a day or two, and has been doing so since who knows when!

It's simply that his heart is punishable!

Looking at Boss Huang, who had passed out once again, Ji Feng's eyes became even colder as he lifted him up, and then began to activate the bio-current, simulating neurotoxin and injecting it into Boss Huang's body!

Although neurotoxin injected into an ordinary person's body was extremely damaging, and it was also very troublesome if you wanted to detoxify it, even with Ji Feng's help, it would still take a lot of effort to do so.

For example, Fang Ming had never gotten better after being poisoned, and it would not be that easy to be a normal person again in the future.

So if he could, Ji Feng really didn't want to use bio-currents to deal with Boss Huang!

Of course, this was not because Ji Feng was soft-hearted, but he wanted to get some answers from Boss Huang's mouth, so that his doubts could be solved, but he also wanted to know some details, but a person who had been poisoned with neurotoxin could never communicate with people like a normal person.

But now there was no way out, because although this place was not very close to downtown Yuezhou, Ji Feng did not dare to guarantee that the other party would not track him down.

So while there was still some time left, Ji Feng could only get an answer from Boss Huang's mouth as soon as possible!

"Well~~!"

After being injected with the neurotoxin, Boss Huang woke up leisurely and let out an unconscious sound from his mouth, not knowing if it was because he was moaning in pain, or if it was a subconscious sound.

But these were irrelevant to Ji Feng, as he stared at Boss Huang's eyes, and after ascertaining that the latter had indeed been poisoned, he began to ask questions.

"What's your name?" Ji Feng asked.

"Huang Yuanxing!"

"What is your identity?" Ji Feng continued to inquire.

"Vice Master of the Lake Gang."

Ji Feng smiled and could not help but frown slightly. Hearing Fang Ming call him Boss Huang, and looking at this person's age and looks, Ji Feng thought that he should be a big boss Boss Huang was actually the deputy gang leader of a gang, which was indeed a bit out of Ji Feng's expectation.

And what surprised Ji Feng even more was that this Lake Gang, was the same one that had attacked and killed several groups of people in Jiangzhou City after he had taken Yao Yao on a trip to the amusement park, and one of those people, was a killer from the Lake Gang!

This is what Ji Feng learned from Zheng Yuanshan, he did not expect that Huang Yuanxing was actually the vice leader of this Lake Gang!

After a pause, Ji Feng first put all kinds of doubts in his mind and continued to ask: "Why did you send someone to investigate Li Yueqin and Li Yantong's mother and daughter, and to collect their details?"

"..... was acting under orders!"

"Under whose orders?"

"The eldest young master, and the gang master."

"..... Which Eldest Master, what's his name? Who is it?" Ji Feng asked in a deep voice, his face a little ugly.

This is the reason why Ji Feng tried not to use neurotoxin to interrogate the captives, once poisoned, there is no longer a way to communicate with people like normal people, even the language expressions are sometimes not very clear, requiring repeated questioning.

This was the case with Fang Ming after he was poisoned, and it is the same with Huang Yuanxing now!

But since the neurotoxin was used, there was no choice but to keep asking questions.

"Young Master Qian Bin"

.....

Ji Feng asked through gritted teeth, Huang Yuanxing replied vaguely This particular interrogation continued.

Huang Yuanxing's answer was vague, and the same question even required Ji Feng to ask many times over and over before he could get an answer, which made Ji Feng wonder if the neurotoxin had been injected too much, making Huang Yuanxing's body somewhat unable to carry it?

But now he didn't have the time to pay attention to this, the information revealed in Huang Yuanxing's words, especially about the hidden agenda of this investigation into Li Yueqin's mother and daughter, made Ji Feng furious!

Chapter 1370

Fang Ming deliberately approached Li Yantong, not only to gain her trust, but also to successfully deceive her, but in reality, he had an ulterior motive, to get detailed information about Li Yantong's identity, or rather, the incriminating evidence of a certain big shot!

..... If that is indeed considered incriminating evidence!

However, Fang Ming's actions were not a result of his whim to approach Li Yantong on his own initiative, but of being assigned and hired by someone!

The person who hired him was Huang Yuanxing!

At the same time, Huang Yuanxing himself was the deputy head of a small gang called the Lake Gang in Zhenyang City, South Guangdong Province, and the Lake Gang was most directly related to the attack on Ji Feng!

But when it comes to the investigation of Li Yantong's mother and daughter, Huang Yuanxing is not the real mastermind of this matter, behind Huang Yuanxing, there are two other people, one is the head of the Lake Gang, Ma Bu Zhou, and the other, is Qian Bin

At first glance, perhaps the identities of these people and the various involvements in the incident appear to be very complicated and messy, making people's heads spin. But in reality if you look at these various events in tandem, you will find that, in fact, all of them are related to Huang Yuanxing, Ma Bu Zhou and Qian Bin!

More strictly speaking, this matter is all linked to one person – Ji Feng!

.....

The first thing you need to do is to get a good idea of what you're doing.

For some reason, Qian Bin, who was known by Huang Yuanxing as the eldest young man, and Ma Bu Zhou, the leader of the Lake Gang, the two of them started a plan against Ji Feng, and even the Ji family, one was an attack and kill against Ji Feng, and the other action was when Fang Ming took the initiative to approach Li Yantong!

Both of these actions failed to succeed, instead causing Huang Yuanxing and the others to suffer certain losses!

However, Ji Feng was out and out angry because of this.

Being targeted time and again, even the best-tempered people would be angry, not to mention that this was an extremely bad natured act that absolutely no one could tolerate!

But what made him even more enraged was that Qian Bin, whom Huang Yuanxing called the eldest young man, was actually the son of Qian Hongda, the secretary of the municipal party committee of Yuezhou!

When Ji Feng heard this news from Huang Yuanxing's mouth, he couldn't believe his ears, the son of a municipal party secretary was actually the person behind a mafia gang, this was simply a bit outrageous, it sounded like a fantasy, but in reality, it was an indisputable fact, you couldn't afford not to believe it!

After all, a neurotoxin-infested Huang Yuanxing would never lie!

And what was even more outrageous was that, as Qian Hongda's son, this person Qian Bin actually repeatedly targeted Ji Feng specifically, and even went so far as to directly send the Lake Gang's assassins to attack and kill Ji Feng, taking such vicious means, all sorts of evil signs, making Ji Feng simply intolerable!

"Phew~~!"

Ji Feng took a deep breath and tried to calm himself down, he was really afraid that he wouldn't be able to control his emotions in a fit of anger and slap the muddled Huang Yuanxing to death!

Even after special training, he could not control his anger when he thought about Qian Bin and Ma Bu Zhou's behaviour.

After a few moments of stability, Ji Feng lit a cigarette and took two puffs before he really calmed down.

At this time, Ji Feng even felt that this matter had an incomparable sense of absurdity.

Qian Hongda is the secretary of the municipal party committee of Yuezhou, while his son maintains an extremely close relationship with the neighboring Zhen Yang city gang, the Lake Gang, plus before Huang Yuanxing said to let Ji Feng go to Chuzhou, now it seems that this Qian Bin's power is really dominant, from Yuezhou to Zhen Yang and Chuzhou, it can be said that almost all of them are his turf.

In terms of official power, Qian Hongda, who is the secretary of the municipal party committee of the provincial capital city, is absolutely authoritative and powerful. In the whole of Southern Guangdong, Qian Hongda is definitely considered a heavyweight and powerful figure!

As Qian Hongda's son, the official power that Qian Bin could use was so huge that it could naturally be imagined. It can be said that Qian Bin can at least walk around in Yuezhou, as long as the provincial TZ of South Guangdong does not come out, Qian Bin is the boss!

What's more, Qian Bin also has such power in Zhen Yang and Chu Zhou, so there's no need to say how powerful he really is.

This father and son together are simply the vassals of the majestic side!

Ji Feng looked cold and after a moment of contemplation, he asked in a deep voice: “What is the relationship between Ma Bu Zhou and Qian Bin?!”

“Ma Bu Zhou is Qian Bin’s uncle” Huang Yuan Xing said in a muddled voice, still only answering in an almost mechanical way, answering whatever Ji Feng asked, without any half-hearted details.

The actual fact is that the relationship between Ma Buzhou and Qian Bin is really very uncomplicated, which is also in his expected things, otherwise, Qian Bin will not be so trusting to Ma Buzhou, not only assured to contact with him, and do so many things, also let Ma Buzhou participate.

If he didn’t trust him, it would have been foolish for Qianbin to do so, as it would have given him the blame, and he would have been in danger of losing it later!

If they fall out, Ma Bu Zhou could even use these matters to write off Qian Bin!

Unless they are very close and there must be some reason why Qian Bin doesn’t have to worry about this at all, either Qian Bin is confident that he can control Ma Bu Zhou, or there is another reason.

As expected, they were uncle and nephew!

In this way, all the fingers point to Qian Bin.

Whether it was Ji Feng being suddenly attacked and killed while in Jiangzhou, or Li Yantong’s mother and daughter being deliberately approached and investigated, the ultimate mastermind of all this was Qian Bin!

But why would Qian Bin do this?

“So” is there someone else behind Qian Bin?” After pondering for a moment, Ji Feng asked again in a deep voice.

Ji Feng thought that he had never offended Qian Bin either directly or indirectly, he had never had any dealings with Qian Bin, and even before this, he had never even heard of Qian Bin’s name, not to mention exchanging ill will with each other!

So, why did Qian Bin target him? It was as if he had some kind of hatred that he didn’t share.

In that case, there was only one explanation – there was someone behind Qian Bin!

Was it Qian Hongda, the Party Secretary of Yuezhou?

Or, was it someone else?

It was impossible that Qian Bin had heard of Ji Feng and then insisted on having a go at him, right?

Even a fool wouldn’t be that stupid!

Ji Feng was waiting for Huang Yuanxing’s answer, but after a long time, Huang Yuanxing still didn’t answer, just his eyes were hollow, looking straight ahead but without any focus, his whole person was dazed and dumb, without any essence.

“Who told Qian Bin to do this?!” Seeing Huang Yuanxing not answer, Ji Feng couldn’t help but frown slightly, and after a moment of slight thought, he asked another question in a different way.

Huang Yuanxing however said, “I don’t know”

“Don’t know?”

Ji Feng frowned tightly and asked again, “Then who does Qian Bin usually have the most contact with? Or among the people he comes into contact with, are there any people with special status?”

“I don’t know,” Huang Yuanxing answered the same.

“It seems that Huang Yuanxing really doesn’t know.” Ji Feng secretly deliberated.

Huang Yuanxing’s words must be true, this Ji Feng did not doubt, then now since Huang Yuanxing said he did not know, it means that with his current level, he is not yet that qualified to reach Qian Bin’s circle, his level is not enough!

Ji Feng shook his head slightly, Huang Yuanxing’s level and status determined how big the circle he could reach was and how high the level of the circle was.

He himself was only the deputy chief of the Lake Gang, which might be an extremely high status for many people, but in the eyes of people like Qian Bin, a deputy chief of a small gang might not carry that much weight, even if he was the chief of the gang, he wouldn’t hold a pivotal position!

Therefore, Huang Yuanxing did not know a lot of things, and it would be futile to ask.

If he wanted to know which god was standing behind Qian Bin, he would at least have to catch Ma Bu Zhou, the leader of the Lake Gang, or even arrest Qian Bin directly to be able to ask him about it.

However, Ji Feng still felt that directly capturing Huang Yuanxing was definitely a good move!

From Huang Yuanxing’s mouth, Ji Feng learned extremely important information, such as who Huang Yuanxing really was and who the Lake Gang’s backer was.

In particular, learning that Qian Bin was one of the masterminds was Ji Feng’s biggest gain!

When he found out about Qian Bin’s body, Ji Feng already had a rough guess in his heart. The person behind this was not quite clear yet, but Ji Feng was still able to guess which side of the power this matter was involved with.

Of course, whether his guess is correct or not, this still needs to wait for further verification.

After pondering slightly for a moment, Ji Feng suddenly asked again, “Where is Ma Bu Zhou now?”

“In Zhen Yang.” Huang Yuanxing said.

Ji Feng was slightly stunned. According to what Zheng Yuanshan said, before Ji Feng was attacked and killed in Jiangzhou, the main leaders of the Lake Gang had all left, some left the country, others disappeared without a trace, and the Lake Gang had fallen apart and ceased to exist.

But now it seemed that this information might not be accurate.

Ji Feng immediately asked this doubt out, and Huang Yuanxing's answer dawned on Ji Feng.

Ma Bu Zhou had indeed left the country, but some time ago, he came back, but through a secret route, so there was no Ma Bu Zhou's name on the immigration records.

And the Lake Gang had always existed, although on the surface it had fallen apart, in fact the small gangs that the ponies had defected to had all been Lake Gang halls in the past, and the reason for this was just to cover people's ears and not be so conspicuous.

Otherwise, after the attack and killing incident, the Lake Gang would immediately become a key target, and in front of the powerful state machine, even Qian Bin would definitely not be able to protect the Lake Gang.

And now, once Ma Bu Zhou returned, the Lake Gang would not perish, only that on the surface, those halls had each become a small gang, but as soon as Ma Bu Zhou gave the order, those halls would immediately form a new Lake Gang, even more powerful than before!

"Humph!"

Ji Feng couldn't help but coldly snort, the Lake Gang, Qian Bin is really good at calculating!
