Chapter 1431

After leaving the Linjiang Club, Ji Feng saw that it was still early, so he went directly to second uncle Ji Zhenguo's home.

Ji Shaoyun had come back, so he, as an older brother, always had to go over and take a look. What's more, when Ji Shaoyun joined the army, it was because he had found the mischievous Ji Shaoyun, and as a result, his second uncle was furious and directly threw the brat into the army.

On the road, Ji Feng closed his eyes and rested his mind, while in his heart he was thinking about what Li Weibing's intentions were when he suddenly invited himself to dinner.

The so-called its in the middle of the matchmaking as a middleman, want to let the boundary tent of those enterprises of a large amount of money better all stay in China, to help China's economic development, and, this can also let China's enterprises out of the country, step into the world

The first thing you need to do is to get a good idea of what you want to do.

But if we were to say that he, Li Weibing, had exactly this in mind and no longer had any other intention, Ji Feng would find it unlikely.

The reason is very simple – in this world, it is absolutely impossible to have a person who is dedicated to the public and does not care about himself.

The reason for this is simple – there is no way in this world that a person who is dedicated to his or her own interests can exist.

Li Weibing must have a special intention in doing so.

To show goodwill to himself?

Ji Feng secretly considered that this was very possible. After all, the way Li Weibing behaved today was enough to show that he wanted to get closer to himself, which could be seen both from Li Weibing's words and mannerisms and his demeanor.

Is it just a matter of wanting to get closer to himself?

The cold wind outside the window blew against his face, making his mind even more sober, and the little bit of alcoholic feeling that was still there disappeared without a trace once the wind blew.

"Oh"

Ji Feng thought of Li Ruo Nan again, seeing Li Ruo Nan today was quite a surprise to him, originally he and Li Weibing were having dinner for the first time, so Ji Feng didn't expect Li Ruo Nan to be there.

Now that I think about it, it should be that Li Weibing felt that Li Ruo Nan knew him and was more familiar with him, so he brought her to liven up the atmosphere.

But

The few words Li Weibing said when he was leaving made Ji Feng realize that Li Weibing was actually regretting letting Li Ruo Nan follow him over.

People are guarding against themselves!

Ji Feng shook his head and smiled, Li Weibing had already said it so obviously, if he couldn't hear it again then it would really be hopeless. Fortunately, he heard it out and gave Li Weibing a very positive answer.

He and Li Ruonan were just ordinary friends.

In the future, I believe it is unlikely that there will be further development, because apart from this kind of social contact, he and Li RuoNan no longer have much contact.

If this is the case, then Ji Feng's charm is too great, and he doesn't think he has such a great charm.

"If I could change that fiery temper, Li Ruonan should be a good girl, it's just a pity" Ji Feng shook his head slightly and secretly said, now his heart was already in Tong Lei and Xiao Yuxuan's body, and Xu Yuan, who also occupied a certain place in his heart.

With Tong Lei and the three of them, Ji Feng's heart couldn't hold any other people.

Therefore, I'm afraid that Li Weibing's worry was for nothing.

"Let's be friends from now on!" Ji Feng leaned his body back and pressed it against the soft backrest, and couldn't help but secretly say. That girl Li Ruonan was indeed quite nice, with a straightforward personality, which was difficult to find in a normal girl.

It is not bad to have such a girl as a confidante.

The first time I thought about it, Ji Feng suddenly shook his head and smiled. He felt that even if he was willing to be a friend and a confidant with Li Ruo Nan, I was afraid that Li Ruo Nan's future husband might not be willing to do so.

Ji Feng remembered that he had once read two sentences, one of which was a piece of advice to men, and it went like this – never let your wife have a blue confidante, because between men and women, there is absolutely no real pure friendship, especially in modern society. She's blue and you're green in the head.

And for women, there is likewise a piece of advice – don't let your husband or boyfriend have a red-faced confidante, because if they are red and red, you two will be yellow

Ji Feng felt that this was a very astute statement.

.....

"Third brother!"

Ji Shaoyun heard a knock on the door and immediately got up to open it, just to see Ji Feng who was standing at the door in a long position, he immediately lit up and called out in surprise.

"Third brother, why have you come over at this time?" Ji Shaoyun asked.

"What, I'm not allowed to come over yet?" Ji Feng glanced at him and asked in an unkind tone.

“Dang, of course not, I just, just didn’t expect you to come over at this time ……” Ji Shaoyun hurriedly waved his hand to explain, “Third brother, please come in.”

“Good boy!” Ji Feng then laughed and reached out and gave him a ring, “Only now do you know what you should be doing!”

“I think ah, this kid is just dumb from being in the army!” Ji Shaolei heard the conversation between Ji Feng and Ji Shaoyun at the entrance hall in the living room and couldn’t help but laugh, “When San’er came, Shaoyun didn’t know to let people in and sit down first, instead he asked how people came to …… this isn’t looking for a beating?”

Ji Shaoyun then became even more embarrassed, he scratched his head and hurriedly said, “Third brother, quickly sit down, I’ll pour you water!”

“I wouldn’t dare to do that!”

Ji Feng laughed, “How dare you let Ji Shao pour water for me? It’s better for me to do it myself!”

Ji Shaoyun instantly blushed, he knew that Ji Feng was only mocking him for all those spots he used to dominate in school, he couldn’t help but scratch his head, but he didn’t know what to say, so he hurriedly ran over to pour water.

Ji Zhenguo and his wife were also sitting in the living room. No matter what, the youngest son had been away for more than two years and now that he had suddenly returned, the second aunt must have missed him terribly.

As for the second uncle, although he didn’t say so, he must have missed his son in his heart too.

If not, the always majestic second uncle rarely sat in the living room and chatted with children, but now he was out too.

There is no need to say what is on his mind.

Although Ji Shaoyun had grown much taller and at first glance looked almost a centimetre or two taller than Ji Feng, in reality, he was not even twenty years old and was still a child!

Therefore, everyone just asked him about his situation in the army, whether the training was hard, whether he had to participate in the war or not, of course, this was asked by the second aunt, but Ji Shaoyun did not dare to tell the truth, because this was to be kept secret, so he could only scratch his head and say vaguely that it was okay.

After chatting for a while, the time was not too early.

Ji Zhenguo then waved his hand and told his wife to go and rest first, and after that, he gave a few instructions to Ji Shaoyun and told the boy to go and rest too.

“Wait a minute, I’ll get something for Third Brother!” Ji Shaoyun ran back to his room, then quickly ran out again, “Third Brother, this is what Little Uncle asked me to bring to you, saying that he wanted you to take a closer look.”

In Ji Shaoyun's hand, he was holding a small metal object that looked to be the size of a knuckle, it was a metal cased USB flash drive that was more sturdy than ordinary USB flash drives, normal bumps and bruises would not cause any damage to this flash drive.

"Good work!" Ji Feng smiled and patted his shoulder.

"It wasn't hard work at all!" Ji Shaoyun then laughed heatedly, looking very proud and flattered.

In fact, at this moment, Ji Feng had become an idol and a target in Ji Shaoyun's heart. Ji Feng's harsh tactics, his strong body, and his wisdom and calmness in combat had all become Ji Shaoyun's goal to learn from, and had convinced him.

Being able to receive Ji Feng's praise, Ji Shaoyun was naturally very flattered.

"Go and rest!" Ji Feng said with a smile.

"Hey!" Only then did Ji Shaoyun nod his head and greeted Ji Zhenguo and Ji Shaolei again before turning around and going to his room to sleep.

"This kid, finally he understands some manners!" Ji Zhenguo was quite satisfied with his youngest son's behaviour and nodded, "It seems that the decision to send him to the army was the right one."

"That's not true, the training in the army can definitely take the most prickly guys and train them to the point where they don't even dare to breathe!" Ji Shaolei laughed, "Not to mention that Shaoyun used to be spoiled, it's strange that he wouldn't be trained to jump to his feet."

"Men, it's good to suffer a little!" Ji Zhenguo said.

Ji Shaolei then immediately stopped talking, he was afraid that the old man would lead the conversation to him again.

Frankly speaking, Ji Shaolei was not the kind of person who was extravagant and extravagant.

However, he was also quite petty and had a high taste in life. If he was allowed to live in that kind of poverty now, he was afraid that he would not be able to live a single day.

So Ji Shaolei had the good sense to shut up.

Ji Feng laughed darkly as he watched from the side, and after thinking about it, he couldn't help but ask, "Second Uncle, I want to ask about my little aunt, can you tell us about it?"

"Your little aunt? Why are you suddenly thinking of asking this question?" Ji Zhenguo gave him a look.

Ji Feng explained, "It's like this, my second brother and I are planning to take advantage of the New Year to go to Rice to visit my little aunt, but it won't do to just go, we don't know much about what happened back then, and it wouldn't be appropriate in case we say the wrong thing and upset my little aunt again."

"You're the only one who knows how to talk!" Ji Zhenguo scolded with a laugh.

Ji Feng then laughed heatedly, "I'm telling the truth, moreover, I heard from second brother that little aunt's life in Rice was not too comfortable, so I wanted to ask for some clarification, maybe I can even help little aunt share her worries when I arrive in Rice"

Chapter 1432

"What, you think that the country is too small for you to make a fuss, so you want to go to Rice again to make a fuss?"

Once he heard Ji Feng's words, Ji Zhenguo couldn't help but glare at him, "And go to relieve your little aunt's worries? I think it's good if you guys don't add to your little aunt's troubles after you go."

"Dad, I think your opinion is a bit biased." Ji Shaolei said, "It's because we can't make a fuss at home, so when we go to Rice, we'll be able to do more, and we don't have to have any worries."

Ji Feng didn't answer Ji Shaolei's words, he just smiled and said, "Second uncle, let's not talk about the fuss first, let's talk about the matter of little sister. It's always necessary for us as younger generations to understand more, then we will know what to do, so that we won't do something wrong because we don't understand the cause of things, don't you think so?"

Only then did Ji Zhenguo nod slowly and said, "By definition, you have all grown up, so you can talk to you about these things as well."

Ji Shaolei and Ji Feng then sat up straight and listened carefully to Ji Zhenguo.

"Actually, this matter is not complicated, it's that the general environment in the country was not too good at the beginning, and this, I think you all understand." Ji Zhenguo said.

Ji Feng and the two of them nodded their heads at the same time, although neither of them had personally experienced the decade-long great ****, but, from the previous literature, and the old people's narratives, they could imagine what kind of blindness and chaos it was at that time.

The slightest wrong word and you were sent to prison. Many respected old teachers and heads were beaten up and criticised by those blind minions.

Even sons had to draw the line at their parents

I believe that but anyone who has experienced that era, are reluctant to look back on the past, that **** is indeed a heart-wrenching scene.

"It was also because the general environment at that time was not too good, so then your little aunt went to Rice, she was not too old at that time, so she went to Rice with someone." Ji Zhenguo said, "At the beginning, she also often came back, at that time it was not easy to come back for a trip, but as long as there was a chance, she would come back."

Ji Feng and Ji Shaolei listened attentively, their minds could not help but recall the scene at that time.

Because of the bad circumstances, Xiao Gu was not too old at that time, so she used some kind of method, or with certain people, to go to Rice, not willing to stay in the country.

“At that time, your grandfather was furious, but no matter how angry he was, that was always his own daughter, and it was true that she couldn’t be blamed for leaving at that time” Speaking about that time, Ji Zhenguo’s tone was very vague.

For example, how exactly did Xiao Gu go to Rice at that time, with whom did she go and so on, these things second uncle Ji Zhenguo did not say to understand, just a word, anyway, is in that era, Xiao Gu went to Rice, at that time, Xiao Gu’s age is not yet very big.

Because of this matter, the old man was very angry.

When Xiao Gu first started, she would come back to see every chance she got

“Then what happened?” Ji Feng asked.

“And then”

Ji Zhenguo faintly shook his head and said, “Then, it was your little aunt’s conflict with your grandfather that always erupted. That was also several years after your little aunt had gone to Rice Well, it’s almost ten years since we counted, then one day your little aunt came back and suddenly told us that she was getting married to a Chinese of Rice nationality, and she had also joined the nationality of Rice!”

Ji Feng and Ji Shaolei could not help but glance at each other and secretly said, “No wonder.

In those days, China and Rice were still in a state of hostility, and a very serious one at that, so it was strange that Grandpa could be happy when his little aunt and her husband had both joined the nationality of Rice!

“Your grandfather, this time, is really angry.” Ji Zhenguo said, “At that time, he scolded your little aunt severely and forbade your little aunt and your little aunt’s husband to get married, and as a result, the two of them had a fight”

When he said this, Ji Zhenguo also shook his head helplessly. Obviously, he also had quite a lot of helplessness in his heart about the situation at that time.

At that time, the old man was very majestic, and, the relationship between China and Rice was very tense, I think, the marriage of the youngest aunt, must have been fiercely opposed, especially the practice of the youngest aunt to join the Rice nationality, but also immediately provoked everyone’s very sensitive nerves, the conflict should be so erupted!

These thoughts flashed through Ji Feng’s mind one by one, and Ji Zhenguo’s not-so-fast speech gradually rang in his ears.

Through Ji Zhenguo’s narration, Ji Feng generally understood the feud from many years ago, and also generally knew why Xiao Gu had never come back for so many years, and the old man never mentioned it.

Dare I say, the old man’s heart still carries anger!

In fact, it’s true that Xiao Gu has no overnight feud with her parents.

After all, everyone's thoughts and practices are different. If the old man thinks it's wrong, Xiao Gu may think it's right.

But the problem is, after the fight with the old man, you always have to come back to see him again after a while, right?

But she left for decades and never came back again.

This is a bit inappropriate.

However, Ji Feng also only in the heart to say these views, on the surface he is not a word will not comment, in the elders of the issue, he only brought his ears over, mouth at this time is only used to eat.

Just

Ji Feng has a vague feeling that it seems like second uncle has reservations when he speaks and doesn't say everything ah?

In many places, Ji Zhenguo said vague, some simply is a word, as for the details are not to talk about, which makes Ji Feng heart can not help but move.

Could it be that in fact things are not like this, but there is another hidden agenda?

It is only because because of certain circumstances, the second uncle is not convenient to directly explain, so it is said so vague?

Hmm!

It is very possible that this is the case.

After all, the mere fact that Xiao Gu had not returned once once she had been gone for decades made Ji Feng puzzled.

Where was the hatred with his parents so great that he couldn't get rid of his anger after decades?

This was a little hard to understand, but of course if it was said that there were other circumstances, then Ji Feng felt that it was a little more reasonable, so he thought that there should be something else in between that Second Uncle had not said.

But now it looked like, even if he pursued the question himself, Second Uncle would definitely not say anything, since this was the case, then Ji Feng would not ask more questions and just quietly listened.

If you have any doubts, you will always know them later, and there is no hurry for this moment.

"The first thing you can do is to go to the country and get closer to your sister-in-law. It's also a good idea to find out what she has to say, and if you can, it's best to have her come back." Ji Zhenguo said, "When the time comes, be smart, learn to act according to the opportunity, do not fail to get things done, but make your little aunt sad, remember?"

Ji Feng and Ji Shaolei nodded at the same time, they definitely would not be reckless, they still had this point of proportion.

"There's another problem."

Ji Zhenguo's speech suddenly slowed down, after finishing this sentence he pondered for half a day before saying, "Remember, when you go to Rice and find that someone is really bullying your little aunt, or in other her family, remember, she is your little aunt, she is your family!"

Ji Feng immediately looked at each other with Ji Shaolei and said loudly at the same time.

"Yes!"

Although Ji Zhenguo's words did not make too much sense, the two of them could not have heard Ji Feng better.

With those words just now, Ji Zhenguo was telling them that the one in Rice, Ji Nan Yue, was their little aunt, and that was their family.

If little aunt was bullied by others, let Ji Feng and Ji Shaolei never forget that they were family.

Don't soften your bones!

Don't let people bully you!

It didn't matter if it was the Mi Guos or anyone else, as long as they bullied their loved ones, it would never do!

This was what Ji Zhenguo wanted to tell them.

When Ji Feng and Ji Shaolei heard these words, they could not help but feel their hearts surging. They were both of that bloodthirsty age and that hot-blooded character, so how could they possibly watch their loved ones being bullied while they did nothing about it?

If anyone dares to bully their loved ones, they will fight them to the death!

We are all in this together, no one can bully us!

Ji Feng and the two of them held their heads high, with an overwhelming hardness in their eyes, as well as the guts and determination to not back down.

"Good! I'm relieved that you guys can remember these words of mine!"

Seeing that the two boys had understood what he meant, Ji Zhenguo was unwilling to talk more about that matter, so he said, "Little Feng, how is the development of the Tengfei Group?"

"Hmm? what?" Ji Feng asked casually.

This topic that Ji Zhenguo brought up was a bit of a big jump. Just now, he was talking about his little sister, and now he suddenly brought up the matter of Tengfei Group, making Ji Feng startled.

However, he quickly reacted and said, "The development is not bad, Kang Yuan slimming powder and 3D TV sets, these two products have become the pillar products of the Tengfei Group, and the sales in the market are very hot, as long as it is slightly stabilized, the group can expand again"

Ji Feng briefly and concisely introduced the situation of the Tengfei Group, in just a few words, the pillar products of the Tengfei Group, as well as the development plan and current situation, were all clearly stated.

“Hmm! Seeking speed in stability, this is the wisest, a single-minded expansion with too big an appetite can easily cause a break in the capital chain, and that would be indigestible!” Ji Zhenguo said, “It’s quite right to put down as much rice as you have in as big a pot as you can.”

Ji Feng then nodded his head, although the words of his second uncle sounded like some general axioms, and there was nothing flashy in his words, but in reality, this was the life experience accumulated from truly seeing through the world and experiencing the sedimentation of years, which was incomparably valuable.

“In addition, when the group stabilizes, you might want to consider going to Southern Guangdong to expand your business!” Ji Zhenguo suddenly said.

Go to Southern Guangdong?

Ji Feng was immediately stunned, that was the territory of the Wu family, what did Second Uncle mean by this, was he going to start a war?

Chapter 1433

The words of second uncle Ji Zhenguo really took Ji Feng by surprise.

Going to South Guangdong to expand the group’s business is tantamount to launching a direct attack on the local pharmaceutical and electrical industry in South Guangdong

It goes without saying that Kang Yuan’s slimming powder has been a hit, and the 3D TV sets are as hot as ever, and the supply still exceeds the demand, with orders from the market flying to the business department of Tengfei Electric every day like snowflakes, making Han Zhong and Li Xin both headache and happy, and it can be said that they are both painful and happy.

Under such circumstances, if the Tengfei Group were to expand its business in Southern Guangdong, even if it were to develop any more advanced products, it would be a huge shock to certain group companies in Southern Guangdong.

Just the strong competitiveness of the Tengfei Group is enough to make many companies jump in fear.

For example, the launch of Tengfei’s 3D TV sets resulted in a frenzied purchasing boom, making many people realise that it might be time to replace their household appliances.

In contrast, those original household appliance giants were unmoved, causing people to worry about their future development. As a result, the stocks of these group companies fell several points in just a few days, some even dropped by more than ten points directly, which means that the market value of that company, directly shrunk by a fifth!

If certain group companies hadn’t rushed to announce that they had also developed the most advanced 3D TV sets and were ready to launch them on the market at the right time, I’m afraid their shares would have continued to fall

This kind of impact can be imagined.

Of course, it's hard to say if those companies have really developed 3D TV sets, after all, there are too many fake news released in the market to save the market.

But it is clear from this that the launch of 3D TV sets by Tengfei Electric has had a huge impact on the entire household appliance industry!

Even the old household appliance giants could not resist, let alone other smaller companies.

Now that second uncle is saying that he should consider the plan for the Tengfei Group to go to South Guangdong, it is foreseeable that once the Tengfei Group goes to South Guangdong, what kind of impact will it have on the group companies in certain industries in South Guangdong In other words, this is going to be a war!

Could it be that the family has decided to make a move on the Wu family?

"Second uncle, what do you mean" Ji Feng asked with some hesitation, going to South Guangdong to develop seems to be just a small move by the Tengfei Group, but what is actually going on is clear to everyone, the matter is very important, so Ji Feng must ask clearly.

"The current situation faced by many industries in the country now is the lack of a strong leader, or, in some group companies, no longer enough to act as a leader." Ji Zhenguo said lightly, "Especially in Southern Guangdong, there are as many small companies as there are cattle, but, they lack unified management and organisation, which makes us suffer a considerable loss when dealing with foreigners."

Ji Feng listened attentively and nodded from time to time, what Second Uncle said made sense, and this was the current situation in many domestic industries now.

For example, the beverage industry, the former Jianx Bao and other popular nationwide, but now, but there are not many is China's, what Coke ah, Pepsi ah and so on, all are foreign brands. The only group that is fighting against the foreign beverage giants is Wow X Ha.

There is a lack of unified management and organisation, and the local leaders are messing around, treating the companies as cash machines.

If you dare not give face to the leader, the leader will dare to give you face!

No matter what time it is, the leader is the biggest.

How can the leader's face be stripped away? This is definitely not allowed!

..... If this goes on, even a good business will definitely collapse.

The reason is that the moths and bloodsuckers attached to the enterprise are just too many for the enterprise to bear anymore.

"In an industry, the emergence of a strong group as the leader of this industry is not a bad thing, although it will impact the survival of some enterprises, but it is undeniable that as long as it is well organised, this strong group, will be able to bring the whole industry to life!" Ji Zhenguo said, "The situation that South Guangdong is facing now is that it is not well organised, the enterprises are too scattered and fragmented, to organise these enterprises, there has to be a leader!"

Looking at Ji Feng and Ji Shaolei who were listening attentively, Ji Zhenguo's voice pitch was higher: "Science and technology is the basis of a strong country, but business is essential to a rich country, we have to protect our own business and not be swallowed up by foreign companies!"

Ji Feng nodded, but in his heart, he sighed a little.

Frankly speaking, nowadays, no matter which industry it was, unless it was state-run, there were hardly any other ones that were domestic.

Whether it's automobiles, or medicine, or dairy products

How easy is it to organise these fragmented enterprises?

For example, the former 'Three Cows Milk Powder', which once created the myth of being the number one seller in the country, was so popular at that time that it could not hold up its head against other milk powders, even those imported from foreign countries!

At that time, it could be said to be a time of unparalleled fame!

However, the outbreak of a famous milk powder incident instantly brought the credibility of the domestic milk powder industry to a freezing point, and foreign milk powder poured into China in large numbers, with sales rising every day, and now the sales charts are dominated by almost all foreign brands, and the top brands in China are almost invisible!

Isn't this sad?

And faced with this situation, how can these companies be organised?

"South Guangdong is our number one economic province in China, so it must be solved as soon as possible, to keep all these enterprises alive and able to have better development, and also to ensure that the economy of South Guangdong has development" Ji Zhenguo said a lot of requirements, and finally said. "Little Feng, when the Tengfei Group stabilizes, think about it and see which industry you intend to enter, and then go to South Guangdong to expand the market, and strive to become the industry leader, and contribute to the economic development of South Guangdong!"

"Yes!"

Ji Feng immediately answered loudly, but in a whirlwind, he realised that something was wrong.

He jerked his head to look, and saw that Ji Shaolei was also full of amazement, and the two of them looked at each other, both seeing the shock in the other's eyes.

Whew~~!

Ji Feng couldn't help but take a deep breath and hesitantly asked, "Second Uncle, if the Tengfei Group goes to Southern Guangdong, then the Wu family"

"You are going to develop the business, what do you care about them?" Ji Zhenguo waved his hand, "Don't pay any attention to them!"

Ji Feng and Ji Shaolei were then even more shocked.

They had already realised that Ji Zhenguo's decision to send the Tengfei Group to Southern Guangdong was not just to drive the development of local enterprises, listening to the tone of Ji Zhenguo's voice, it was already treating Southern Guangdong as his jurisdiction, planning the layout and management!

Where does that leave the Wu family?

Southern Guangdong has always been regarded by the Wu family as their own backyard, but now second uncle Ji Zhenguo is treating the Wu family like nothing, this kind of strength and dominance is finally on display.

It seems that this is really going to be a war!

I'm afraid that the economic attack is only the first step, next, the second uncle will definitely have more severe methods, or maybe they will be more gentle, adopting the 'silent' method, so that the other party will be taken down without even knowing it!

Anyway, no matter which means, Ji Zhenguo's words at this time, as well as his attitude, have very clearly illustrated a thing.

The Ji lineage is starting to make a move against the Wu family!

"Second uncle, I understand, I will think about it during this period of time." Having thought about this, Ji Feng couldn't help but nod seriously.

"Well, it's naturally best for you to be able to think about it." Ji Zhenguo nodded and said, "Although our economic development in China is still not as good as those developed countries, it is not a fatty meat that anyone can come and take a bite out of! When you've thought about it, the first task I'll give you is to resolutely not allow foreign companies to embezzle our Huaxia's assets, got it?"

"..... understand!" Ji Feng was stunned, then immediately nodded his head, but in his heart was a kind of blood stirring unrestrained and excited.

The second uncle's words obviously meant something. It seemed that the contact between the Brilliant Group (the former Rongpeng Group) and the Boundary Tent Enterprise had angered the second uncle, and might even have angered the entire Ji Department.

It's fine for our own people to fight any way they want, to fight behind closed doors, no matter who wins or loses, it's still in our own family, and the water will not flow to outsiders.

But now it's different, outsiders are coming, jackals and tigers are coming, and whoever dares to collude with them is the public enemy of everyone!

Ji Feng could not help but smile, and his heart was even more fervent.

The Wu family had been arrogant for so long, and Wu Zhiyong's reckless hands time and again had made Ji Feng's heart fierce, but he could only take on beating up Wu Zhihe, or making them lose face, but more serious blows, the Wu family just blocked it.

But now it was good that Second Uncle and the others had finally made up their minds.

Next, it will definitely make a series of big battles, all kinds of games will be manifested one by one, and everyone will show their means to see who can laugh at the end!

“In this big game, how can I, Ji Feng, be missing?” Ji Feng couldn’t help waving his fist.

Until he left the family courtyard of the municipal party committee and returned to his home, the blood energy stirring in Ji Feng’s heart hadn’t completely calmed down, he couldn’t help but let out a long breath, sat in his study, opened his computer and inserted the flash drive that Ji Shaoyun had brought with him.

Soon, a screen appeared on the computer screen

Chapter 1434

“Snap!”

Ji Feng tapped his keyboard and paused the video screen on his computer.

By this moment, he had already watched the interrogation video given by his younger uncle Ji Zhenping three times over and over again, memorizing every even the smallest detail of it clearly in his mind.

In the video, there were a total of three people being interrogated, that is, the three remaining members of the Cobra Mercenary Corps who were caught in the last operation at the Royal Club, one and all.

There were also three copies of the interrogation video, each of which showed the three guys giving an honest account of what they had done after being interrogated.

In order to prevent these three guys from colluding, they were all interrogated separately, which is why there are three copies of the interrogation video.

The video that Ji Feng got his hands on was not very complete, only the footage of the three of them giving their accounts at the end, the previous interrogation process, as well as the methods used in that interrogation, were not shown in the video.

This is understandable, after all, the process of interrogation may not be so ‘pleasing to the eye’, if it is accidentally circulated, it will be another storm at that time, so even if it is given to Ji Feng, it is only a clip of the interrogation video.

In this clip of the video, the three men explained what happened when they attacked and killed Ji Feng in the first place.

They were all mercenaries belonging to the Cobra Mercenaries, and there were orders coming down from above that they were to come to China, and someone had given them the time and place, as well as other equipment, to take out a man!

After the job was done, they would be able to leave China through a pre-prepared channel, and they would also be paid a good commission.

So, they brought their men to China.

And when they ambushed Ji Feng, whether it was the time and place or any other information, they got it through their contact with the top, and before that, they all just used fake IDs to stay in a hotel in Jiangzhou and didn't even take a step outside.

However, what they didn't expect was that the mission was not completed, instead they lost a large number of men, moreover, this matter also alerted the Chinese officials, as a result, there was a police intervention in the investigation, they had no choice but to wretchedly leave Jiangzhou, and finally received a notice from above, let them enter the Royal Club for temporary hiding, and someone would arrange for them to leave afterwards.

That was the whole story!

Ji Feng looked at the three guys on the screen who were beaten almost beyond human shape, but his eyebrows were slightly furrowed, he felt that something seemed wrong!

For example, these three guys did not confess who their leader was after hiding in the Royal Club?

Also, when they were attacked and killed in the suburbs back then, Ji Feng clearly saw that in one of the sedans, there was a person sitting in it. Looking at the formation of that convoy, it was clear that it was to protect the car in the middle, so it was obvious that there must be someone important in the car, which was why they were so heavily guarded.

Besides, after these mercenaries came to China, how did they arrive in Jiangzhou safely? Was there really no one to act as a guide for them?

Ji Feng felt that if he were to go to a strange country on his own, it would be almost impossible to not reveal any flaws.

Moreover, after such a big incident, they were still able to stay in the Royal Club in a big way, weren't they afraid of being discovered?

The Royal Club was built in such a magnificent way, but there was no one inside, only a few of them lived in it, did they not notice anything wrong?

.....

These situations are very suspicious.

So Ji Feng feels that these few guys, someone must not be telling the truth, or, all of them are lying.

All of them are avoiding the important things, just talking about the process of the action, but the really important ones, such as who is the mastermind behind the curtain, the details of the middle passage, what people they have contacted and so on, they didn't mention at all.

This would appear to be abnormal.

Ji Feng looked at the time displayed on the computer screen and found that it was already very late, so he shook his head. Originally, he wanted to call his little uncle and talk about his findings and suspicions, but now it was almost late at night, so he let it go.

In fact, even if these guys didn't give an explanation, Ji Feng already had a rough guess in his heart.

The first thing you need to know is who hired the Cobra mercenaries to attack you, and who was responsible for arranging food and lodging for these mercenaries after they came to China, etc. Over this period of time, Ji Feng had already obtained a lot of information about this, especially from Zheng Yuxiu's mouth, and he knew a lot of important information.

This matter is definitely related to the Wu family!

Therefore, what Ji Feng wanted to know most was not who had hired these mercenaries, but, when he attacked and killed himself that day, who was sitting in that car in the middle, who looked like the leader of the mercenaries, but at that time they retreated calmly, leaving Ji Feng helpless.

And later, in the Royal Club in Yanjing, Ji Feng went on a killing spree and also caught so three of them alive. But yet, he still hadn't seen that leader either.

Even the three guys were not even mentioned.

But Ji Feng is aware of it, because at that time when the fierce battle outside Jiangzhou, he saw that person, although not very clearly, but he believes his judgment.

So where did that guy go?

And the Royal Club, the former stronghold of the dynasty, who actually let them stay there? And who was the 'above' this guy was referring to when he allegedly received orders from above?

These questions, the three people in the video from the beginning to the end are not mentioned, Ji Feng does not believe that they do not know or forget, that is to lie to the ghost!

So now it was clear at a glance that these three guys had not given an honest account.

He couldn't help but tsk and tsk in admiration, "They've all been beaten up like this, but they can still be so hard-headed, quite impressive!"

If it were him, he would definitely not have made a move to beat people into this state, there were millions of methods of interrogation, and different methods were used for different people. Obviously, these three guys all belong to that hardcore type, then don't do it the hard way, you can adopt a roundabout strategy

The first thing you can do is to exchange interrogation techniques with your little uncle.

Once again glanced at the computer screen, to determine from this can not get more useful information, Ji Feng also no longer think more, anyway, now from the interrogation video is not able to see more things, just sitting here silly is useless.

Ji Feng decided to take time to go to Yanjing and interrogate those three guys again, to get the most truthful information from their mouths.

In fact, even if the three guys did not tell the truth, Ji Feng had a general guess of the whole thing. Only, what he is most interested in now is the relationship between the Cobra Mercenaries and the Dynasty, and

The most important thing is that there is no connection between the Wu family and the dynasty?

Ji Feng stood up and went downstairs, thinking in his head as he walked. Since he knew about Dynasty, he had heard quite a few things about Dynasty and the important people.

For example, the king who laid hands on He Hongwei, the young duke who hid in the shadows and wanted to put himself to death at all times, and the mysterious guy who hid in the boundary canopy area and hated himself almost to the bone, and then there was the Qiao family!

Ji Feng had a feeling that all these people seemed to belong to the same system, that is to say, they were all operating in this area of China, or they were also responsible for Europe America or other areas, these Ji Feng did not know, but one thing was certain, China was the area they were responsible for.

Having thought of this, Ji Feng's strategy towards the dynasty began to be adjusted. He changed from his original generalized intention to go to war with the dynasty to dealing with one or a few people in the dynasty.

For example, the young grandson, such as Qiao Rong of the Qiao family, Qiao Gakai

It would be easier to gradually nibble away at them and break them down individually, which would be more or less easy. If it was a generalized direct attempt to deal with the dynasty, it would easily focus all the dynasty's attention on itself, which would be unwise.

"Wu family, Qiao family, dynasty" Ji Feng shook his head and smiled, except for the Qiao family seems to be temporarily gone, the Wu family and dynasty, can not be so easy to deal with, think about it, they are really bold ah, actually dare to go against such three huge forces.

"But so what if you go against them?" Ji Feng looked back at his study, before turning around and going downstairs.

In the blink of an eye, three days passed.

By the fourth day, Li Weibing called again to remind Ji Feng not to forget the evening business salon event, and Ji Feng smiled and thanked him.

In fact, Ji Feng did not want to go, especially when he was working with the enterprises of the boundary tent, and Ji Feng did not want to go personally.

He did not reject working with the businesses of the boundary tent, however, he rejected the people of the boundary tent, especially when he saw the blackened moustache on their mouths, he wanted to smash a few punches into their faces.

If Li Weibing hadn't invited him personally, Ji Feng would have let Han Zhong and Li Xin go over and forget about it!

Now, however, he had no choice but to take Han Zhong and Li Xin with him, and the three of them rushed to Li Weidong's Linjiang Clubhouse together to attend that so-called business salon.

"Han Zhong, Li Xin, if you want to discuss any cooperation with the boundary tent people later, you two can just go on and treat me as an irrelevant person, got it?" When we arrived at the car park of Linjiang Club, Ji Feng explained, "No one is allowed to sell me out, if there is a problem, you guys try to deal with it, if not, we can discuss it."

Han Zhong instantly laughed, "You don't want to see the boundary tent people that much? I'm sure I'll have to see them later, so you might as well just go back!"

"You think I don't want to go back?" Ji Feng shook his head helplessly, "It's just because I can't push it off, otherwise, I'd rather sleep at home than come here"

"I'm the same." Han Zhong laughed.

Li Xin also nodded and said, "If I were the boss, I would have arranged for you two to take charge of negotiating with the boundary tent people right now, while I go back to sleep"

The three of them laughed at the same time.

"Alright, hurry up, go ahead and find a place to sit and talk slowly in the clubhouse." Han Zhong laughed.

The three of them joked as they walked out of the car park and arrived at the entrance of the clubhouse, and were ready to go in.

"Ah...!"

Just at that moment, a shriek suddenly came from the entrance.

Chapter 1435

"Ah-!"

Just at this moment, a shriek suddenly came from the entrance.

Ji Feng and the others immediately turned their heads to look, and saw that at the entrance of the Linjiang Club, a doorman had fallen on his back to the ground, and in front of him were several two middle-aged men and three young men and women.

The three young men, two of them young men and a good-looking young woman, were about twenty-five or twenty-six years old.

This line, in all, was five people.

At this moment, those five people were glaring angrily at the porter who had fallen to the ground, looking very angry.

"What are you doing, walking without eyes!" One of them, a young man wearing gold-rimmed glasses and about thirty years old, shouted lowly, "Why don't you hurry up and get up and apologise to us?!"

"Yes, sorry sorry sorry!" The porter hurriedly climbed up and bowed in a panic to apologise, not even caring that the uniform hat had fallen off his head, he just bowed repeatedly and apologised.

"What the hell!"

The man with the gold-rimmed glasses was full of anger, and there was a look of contempt in his eyes, "Is this how you do your job as a porter? No eyesight at all, how dare you charge a guest!?"

"I'm sorry" The porter's face was red from the reprimand, but he didn't dare to retort a word, he just kept apologising.

"I really don't know what kind of quality you all have here! Still talking about some high-class clubhouse" The young man couldn't help but sneer and said disdainfully, "Just like you, if you were in the boundary tent, you would have been thrown out long ago!"

Ji Feng a few people then can't help but look twice more, this person is also a little too vicious, even if this doorman accidentally rushed them, it is not so much to curse so many sentences in a row, right?

Could it be that this doorman had bumped into that gorgeous girl and made them unable to say anything, so this was why they were so angry?

"Young Ji, I saw it clearly just now, those few people came from the side of the gate, that doorman happened to turn backwards and they collided together." Seeing Ji Feng's puzzled look, White Spider whispered beside him.

"Who did that doorman bump into?" Ji Feng turned his head and asked.

"He didn't bump into anyone either, it's just that he turned around and slightly touched the man in front of him, and when he panicked, he fell on the ground himself." White Spider said.

"Holy shit!"

Han Zhong's eyes widened, "Just a touch and you're so angry? These guys are on gun pills, huh?"

"Let's go!"

Ji Feng shook his head and smiled, there are all kinds of birds in a big forest, Jiangzhou is so big and there are so many people, it's not surprising that a few high-flying and overbearing guys appear once in a while.

"¥%.....&¥%¥ "Just then, the young man wearing glasses suddenly turned around and said something to a middle-aged man in front of him, the gibberish was very argumentative and sounded really awkward.

"Hm?!"

Ji Feng a few people just wanted to leave, but his figure immediately stopped. He exchanged glances with Han Zhong and Li Xin respectively, and both saw the strange look in each other's eyes.

"Boundary tent people!" Ji Feng said with an expressionless face.

That's right!

The young man rattled off a string of something, and Ji Feng immediately heard that he was speaking the Boundary Cave language.

Ji Feng had dealt with the Boundary Cave people more than once, such as the previous Boundary Cave exchange delegation, that Sasaki and Kawaki Yanzi and others, they spoke like this ghost, gibbering out the ghostly Boundary Cave language.

So Ji Feng was kind of familiar with the Boundary Tent language.

"I heard it too."

Han Zhong nodded and said, "I can understand even more why you don't want to meet the Boundary Canopy people, completely!"

"That guy shouldn't be a Boundary Canopy man, right?" Li Xin said, "Those two middle-aged men in front of him should be Boundary Tent people, look at their dress and the kind of aura they have, they should be Boundary Tent people, this man with glasses is probably a translator or a Chinese who has some kind of relationship with them."

Ji Feng and Han Zhong nodded their heads at the same time, they agreed with this statement.

The guy with gold-rimmed glasses who cursed just now was not very likely to be a Boundary Tent person, because his Chinese language was just too fluent, no different from when a Chinese person spoke, and there was some Chinese unique accent in his words.

So Li Xin's guess should be eight`nine.

"Fuck him!" Han Zhong opened his mouth and directly exploded, his face was very unpleasant, with a cold smile at the corners of his mouth, "This is really a long experience, if I didn't look at the traffic and skyscrapers, I would have thought we were in the Manchu period again! That man with glasses is really capable, he actually helped the tent people to bully the Chinese people?"

Ji Feng and Li Xin were silent at the same time.

What Han Zhong had said was not how they felt?

Foreigners in China rampant bullying, but also by what law protection, is what foreign friends, this is even if, no matter how to say is also need people's investment, the above are doing so, Ji Feng they can say what?

..... can only hold their noses and admit it, as if they did not see it, not to see the heart is not bothered well.

If the foreigners are too far gone, then we will talk about it separately.

The first thing you need to do is to take a look at a Chinese man who is shouting at his own people, arrogant and unbeatable.

Yet he turns his face to the tent and immediately becomes fawning and grovelling, just as if he were licking someone's arsehole!

What a fucking bastard!

"Young Ji, do you want me to go over there?" Seeing that Ji Feng's face was unpleasant and his eyes were cold, White Spider immediately asked in a low voice, "I'll think of a way to clean them up a bit?"

"How do you want to clean up?" Ji Feng asked as soon as he heard that, his heart couldn't help but move.

"I"

The white spider just wanted to speak when he saw that line of people gibbering about not knowing what to say, then the man with the gold-rimmed glasses immediately nodded with a smile on his face, then made a gesture of invitation, allowing those few people to enter the clubhouse.

After that, the man with gold-rimmed glasses turned his head to look at the doorman, and the smile on his face instantly disappeared without a trace, as if he had changed into a different person all of a sudden, that kind of expression changed so fast that Ji Feng and the others didn't react for a while.

"Count yourself lucky today, Mr. Tanaka doesn't see eye to eye with you, otherwise hum!" The man with gold-rimmed glasses snorted coldly and gave the doorman another fierce glare before straightening his clothes and striding towards the clubhouse.

"Damn it!"

Han Zhong instantly cursed, "What a dog!"

His curses were not disguised in the slightest, and with his anger, his voice became a little louder.

Swish!

The man with the gold-rimmed glasses snapped back, his angry gaze glaring over.

Han Zhong was instantly furious, his face sinking as he fiercely glared over, "What are you looking at! You're the one I'm scolding!"

"You"

The man with the gold-rimmed glasses' face immediately turned gloomy, and when he saw that Han Zhong was not tall and somewhat obese, his heart immediately took hold and his eyes became fierce.

"Kid, I see you" The man with the gold-rimmed glasses turned around and walked over, his face looking extremely unkind.

"Get lost!"

Ji Feng gave a low shout.

The man with gold-rimmed glasses immediately gave a beat to his feet, seeing Ji Feng's sturdy and tall figure, his face cold and frightening, he couldn't help but feel a little scared in his heart, not daring to come over again, but just retreating away he seemed a little reluctant, and for a while he stood in place.

"Roll!" Ji Feng once again drank.

"You hum!" The man with the gold-rimmed glasses was heckled and couldn't hold up his face, but he didn't dare to take Ji Feng seriously, so he could only grunt in a stern voice, turn around and walk towards the clubhouse.

"What the hell!" Han Zhong's face was also unsightly, the behaviour of this man with glasses made him feel the urge to punch someone.

Ji Feng and Li Xin's faces weren't too good either, but they weren't good enough to hit someone directly, so they chided the man with glasses twice and let it go.

Shaking their heads, a few people also followed them into the clubhouse.

“Buddy, next time you encounter this kind of lapdog, there’s no need to apologise to them!” As he walked to the door, Han Zhong patted the doorman’s shoulder, “Whoever dares to bully us, just fuck him.”

The doorman’s face was red, and he didn’t know whether it was because he was ashamed or because he was a little humiliated by the bullying he had just received.

“Han Zhong, let’s go.” Ji Feng called out. It was useless to say this to the doorman, if he dared to do what Han Zhong said, when the time came, his job would not be saved and he might even be retaliated against, he was incapable of resisting.

“Buddy, remember my words.” Han Zhong said, “If you get retaliated against for fucking that son of a bitch, you’ll go to the Tengfei Group and find me.”

Saying that, Han Zhong really took out a business card from his pocket and shoved it into the doorman’s hand.

Ji Feng smiled, Han Zhong was still as hot-blooded as ever, in this regard, very similar to Zhang Lei, if this doorman really dared to beat up those guys, I believe Han Zhong would definitely want him, give him a high new high position is no problem.

The doorman gave Han Zhong a grateful look and put the business card into his pocket with great solemnity.

“We’ll have to find out later what the origin of those guys is, damn it, a few boundary tents dare to flaunt their power here in our place?” Han Zhong said as he walked.

“It’s easy to find out what their origins are, just ask the organisers later.” Ji Feng said. In fact, he also wanted to know which company those few boundary tents were from, and the man with the gold-rimmed glasses, what was his identity.

Just as he walked into the clubhouse, he saw that the service staff were warmly greeting the arriving guests, and there were those who were specifically responsible for registering the identity of the guests.

While Han Zhong was registering, Ji Feng scanned around and found that there were only clubhouse staff in this ground floor lobby, and all the other guests and businessmen should be in the venue on the third floor.

“Those few people just now are from the boundary tent Sumida Group?” Han Zhong finished registering and came over and said.

“No wonder they dare to be so arrogant, a big multinational group!” Li Xin sneered.

“Do you know the exact identities of those people? What positions do they hold in the Sumida Group?” Ji Feng asked.

“Do we know the exact identities of those people? What positions do they hold in the Sumida Group?” Ji Feng asked.

Han Zhong shook his head and said, “Not too sure, I just looked at the registration records and found that they only registered the name of the Sumida Group, the positions of those guys were not registered.”

“Big shots!” Ji Feng laughed.

Han Zhong and Li Xin also sneered, usually only big shots would just say a name or report their work unit when introducing themselves, these guys seemed to really consider themselves big shots, thinking that the whole world should know them seemingly.

“Alright, let’s go up first.” Ji Feng said.

A few people had just walked to the stairway when they happened to meet Li Weidong who was coming downstairs, so Ji Feng called out to him.

“Weidong!” Ji Feng shouted.

“.....” Li Weidong became a bit depressed, usually everyone called him Li Shao, or Li Gongzi or something like that, and called him Weidong directly, and only his elders or family members called him that, but Ji Feng called him directly like that, which always made him feel in This always made him feel a bit short in front of Ji Feng.

But he couldn’t say anything, which was depressing.

Li Weidong squeezed a smile on his face and walked over quickly, shook hands with Ji Feng and asked, “What did Ji Shao say?”

Ji Feng pointed upstairs and asked with a smile, “Those few guys who went upstairs just now were from the boundary tent, right?”

“Yes, those guys are from the Boundary Tent.” Li Weidong nodded his head.

“Do you know the identities of those guys?” Ji Feng asked.

“Not too sure, I just provided the venue, these guys were organized by the district.” Li Weidong said.

Also the district

Can’t you just say directly that your brother Li Weibing organized it?

Ji Feng is also too lazy to bother with him so much, seeing that he does not know the identity of those few boundary tent people, Ji Feng also do not talk to him more, just waved his hand and said, “Then fine, you go busy, we go up first!”

“.....” Li Weidong couldn’t mention how depressed he was.

How come in Ji Feng’s eyes, was he just a miscellaneous errand boy?

“Okay, you guys take your time!” The moment these words came out, Li Weidong wanted to slap his own mouth twice, why must he say these polite words?

Well peace makes money, I'm in business, I need to have good relations with my customers!

The first thing you need to do is to get a good deal on your own.

Bai Spider was the last to go upstairs, and she glanced at Li Weidong with a hint of a smile on the corner of her mouth.

Ji Shao was such a bully, his words and mannerisms carried an aura of nonchalance, even Li Weidong was a little restrained in front of him.

Ji Feng did not notice Li Weidong's performance, he pondered the positions of those few boundary tents in the Sumida Group, and the performance of that man with gold-rimmed glasses, and unknowingly arrived at the third floor.

There was a large meeting room on the third floor, and the arrangement and layout basically did not change much from the last time Ji Feng came to the business salon. To say that there was a change, it was only a small podium and a microphone placed against the wall on the west side, so it seemed that someone should give a presentation or deliver a few talks today.

"Look! Those guys are over there!" Han Zhong whispered.

Ji Feng and the others immediately followed his gaze and looked over, and saw that the few boundary tent people they had met at the entrance earlier were in the middle of the crowd, talking to someone.

There were quite a few people around those few canopies, all talking and laughing, vaguely taking those few canopies as the focus.

Ji Feng couldn't help but shake his head as he watched, those who were able to come to this business salon should more or less be old bosses of some weight, although they were also maintaining the poise of old bosses, not looking fawning but talking and laughing, but in reality, surrounding those few boundary tents like this, they were actually already falling behind.

"Don't know how to hug a group!" Li Xin said.

"A word to the wise!" Han Zhong nodded deeply and said, "If all these bosses could huddle together, that energy would definitely make those multinational groups in the boundary tent not dare to take it lightly... Unfortunately, ah, we Chinese will always be expert in internal fighting, but when it comes to external"

"They talk, let's eat!" Ji Feng smiled and walked to the table, casually picked up a plate and prepared to choose what he liked to eat.

This commercial salon takes the form of buffet, of course, as long as it is equipped with wine and various snacks, the main food is also available, only in this occasion, but few people will treat this as a restaurant to eat and drink indiscriminately, usually when they come to such events, they will eat something in advance, and come here mainly to drink and socialize.

But Ji Feng does not intend to talk about any manners, he came here originally just to give Han Zhong and Li Xin plunder to come, if not specifically invited by Li Weibing, he definitely will not come.

Seeing the boundary tent people reminded Ji Feng of those people from Sasaki, and as expected, he had seen a scene that made him sick before he even entered the door.

So now he was even less interested in interacting with anyone.

“This is not good, is it?” Seeing Ji Feng’s action, Han Zhong couldn’t help but sweat, daring to say that this best friend and boss had come here just to eat?

“What’s wrong with that?” Ji Feng laughed, “Of course, you can stop eating and hurry up with your glass of wine and go and talk to people, whether or not the Tengfei Group can continue to take off depends on how many more deals you, the old boss, can negotiate.”

“I find that I just talk too much” Han Zhong was said to be crying and laughing.

Li Xin could not help but laugh next to him, he found that Han Zhong and Ji Feng had quite a good relationship, and Ji Feng was a particularly interesting person, Tengfei Group was his, but he was completely hands off, even if he had an argument with Han Zhong on any decision, he would still elaborate his ideas and convince Han Zhong.

If Ji Feng found that what Han Zhong said made sense, then he would accept it as good as it came, without any of the boss’s dictatorship.

Li Xin understood why the Tengfei Group was growing so fast and why the people in the group were so motivated, not just because the products of the Tengfei Group were selling well, the performance was good and the wages and benefits were good.

This is not just because the products of Tengfei Group sell well, the performance is good, the salary and benefits are good, but because Tengfei Group has a boss who trusts his subordinates completely, and consequently, there is also a boss who can give full trust to his subordinates, and this style is passed down from one layer to another, so everyone is naturally full of energy!

Li Xin couldn’t help but feel a little moved, if I could work in such a group, it would be really good

While a few people were chatting, a few people came down from upstairs, one of whom was Li Weibing.

He was exchanging whispers with a few people around him, and when he came to the venue, he made a gesture of invitation, before walking himself to the podium against the wall and picking up the microphone.

“Everyone!”

Li Weibing’s voice came over the audio, “I am very grateful to everyone who has taken the time out of their busy schedules to come here and participate in this business exchange event organised by the district, on behalf of the district, I would like to welcome you all”

The bottom applauded, no matter what, the courtesy that should be there is definitely necessary, not to mention Li Weibing is still the son of Mayor Li Baoyuan, no one would not give face at this time.

Li Weibing said some more opening remarks and finally said, “..... hope that you can interoperate and do your part for the economic development together, thanks again!”

When the applause fell, it meant that this time's business salon, was considered to have officially started.

At this time, Ji Feng's gaze however fell on several people in the field.

The few people he saw should all be from the Boundary Tent. Apart from the ones from the Sumida Group that he had seen earlier, there were three other groups of people from the Boundary Tent who, by and large, looked like they should belong to different companies.

In other words, at this evening's business salon, there should be more than four Kaiten companies coming, and for the Chinese companies, there would be even more, and there would be at least 30 to 40 people in the whole venue.

It was also fortunate that the venue of this club was big enough, otherwise, it wouldn't be able to accommodate so many people.

"Elder brother Ji Feng!" Ji Feng was looking around when he suddenly heard someone call him, and when he turned his head to look, it was Li Weibing who was walking over with a smile on his face.

"Older brother, just now I briefly communicated with the heads of Sanyo Bank and Lingxia Group, they are very willing to communicate with you and talk about the intention of cooperation, do you think you should go over and talk about it?" Li Weibing lowered his voice and asked.

"I won't go, let them both go over there!" Ji Feng shook his head with a smile and pointed at Han Zhong and Li Xin, "I basically don't ask about the company's affairs, it's more appropriate for the two of them to go."

"That's good!" Li Weibing nodded, "Then let's go sit in the private room upstairs? It's quieter and easier to talk there."

"Right, the head of Sumida Group is also here, right?" Ji Feng suddenly asked.

"That's right!"

Li Weibing nodded and said, "The one from the Sumida Group is here is a vice president of the China Region, called Ichiro Tanaka."

"That's those guys, right?" Ji Feng pointed at the guys in the crowd.

"Yes, that's them, that slightly balding one is Tanaka Ichiro, the other few are his assistants, and there's also a translator!" Li Weibing said with a nod.

"Then let Han Zhong and Li Xin go and talk to the people from Sanyo Bank and Hishita Group, if we can make a deal with them, we don't need to deal with this Sumida Group." Ji Feng said.

"..... What do you mean?" Li Weibing was stunned, "Did the Sumida Group offend you?"

"Offended hard!"

Ji Feng nodded his head and said with great certainty.

Li Weibing was then stunned, "What's going on?"

At this time, Ji Feng's eyebrows were furrowed, only to see that the man with gold-rimmed glasses in the crowd was talking to the balding man called Tanaka Ichiro, and he was also looking over here from time to time, and pointing.

Chapter 1437

At this time, Ji Feng's eyebrows were furrowed, only to see that the man with gold-rimmed glasses in the crowd was talking to the balding man called Tanaka Ichiro, and he was also looking over here from time to time, and pointing.

"Hm?"

When Han Zhong saw that Ji Feng's expression was not right, he couldn't help but follow his gaze and immediately saw the movements of the man with the gold-rimmed glasses as well, and his face immediately sank.

"What's that son of a bitch talking about?" Han Zhong asked in an unpleasant tone.

"Hey! Since you've said that's the dog days, what do you think they can say?" Li Xin sneered beside him, "Definitely not saying anything human just yet!"

Ji Feng waved his hand and said, "Alright, don't pay any attention to them."

"No I said, what the hell is going on here?" Li Weibing asked with a frown beside him, "What, did Tanaka Ichiro and the others clash with you guys?"

Associated with what Ji Feng said just now, the people of the Sumida Group had offended them hard, Li Weibing could not help but have some not-so-good guesses in his heart, perhaps, the cooperation between the Sumida Group and the Tengfei Group might be coming to an end before it had even started.

Although he didn't quite understand Ji Feng's temper, Li Weibing could tell from his expression that Ji Feng definitely didn't have much goodwill towards the Sumida Group and Tanaka Ichiro and his group.

Looking at Han Zhong and Li Xin's expressions, Li Weibing could not help but give a bitter smile. It seemed that today he intended to try to set up several enterprises between the Tengfei Group and the boundary tent, even if he could leave one enterprise behind, this would be very beneficial to the economic development of Jiangzhou and to the Tengfei Group.

But it did not occur to me that this cooperation was not even a matter of eight words, but it turned out to be a conflict first, at least the Sumida Group should be passed over by Ji Feng!

"Then what, senior brother Ji Feng, you guys go up first, I'll be right there!" Li Weibing immediately reacted and said in a panic.

In fact, Li Weibing was going to take advantage of today's business salon to organise a small-scale meeting with three enterprises on both the Chinese and Kaitou sides. On the Chinese side, it was the Tengfei Group and two other companies, that is a state-owned enterprise and a private company with extremely large assets and scale.

But now, Li Weibing immediately decided that at least two talks should be organised.

If the Sumida Group was to be allowed to participate, it would be absolutely necessary to avoid the Tengfei Group, and if the latter was to participate, it would be absolutely impossible to allow the Sumida Group to participate.

Therefore, it would be wisest to keep the two companies separate.

Li Weibing hurriedly walked up to the man with the gold-rimmed glasses and his party and said a few words about something that Ji Feng couldn't hear too clearly from too far away, and he wasn't interested in knowing.

"Han Zhong, Li Xin, I'll leave the rest to you guys." Ji Feng shook his head, he also had a bad feeling about this.

"What about you?" Han Zhong asked.

"I'll just sit here and eat honestly!" Ji Feng said.

"Aren't you going up to listen to what those boundary tent people have to say?" Han Zhong asked, "You'll just pretend to be an employee of the company, and Li Xin and I will say whatever we have to say, so that's okay, right?"

"It's better not to go up there!" Ji Feng shook his head and hummed, "I'm afraid that if I'm not careful and can't control my temper, then I'll beat up those bastards again, and then it'll be more or less troublesome, instead it's better to sit down here and eat!"

Han Zhong and Li Xin couldn't help but laugh, Ji Feng's words were uplifting and spoke to their hearts.

If not for the fact that this is a business salon organized by a district below Jiangzhou, the two of them would like to beat up that gold-rimmed glasses man and his party, no matter if it's the few boundary tents or the gold-rimmed glasses man, they all deserve to be beaten up.

..... Especially the man with the gold-rimmed glasses, it made Han Zhong and Li Xin's hearts burn in their eyes.

"Well then, Li Xin and I will go up, and if there is anything we can't decide on at that time anyway, we will have to come down and discuss it with you." Han Zhong said.

Ji Feng laughed, "This business negotiation is not a child's game, how can we finalise the cooperation after just a few simple words of conversation in a business salon? It must be decided only after detailed deliberation, there is no rush for this, we will discuss it slowly when you guys come back."

"Then let's do that for now, we'll go up first!" Han Zhong nodded, then he seemed to remember something else and couldn't help but say, "However, you should also pay attention down there, I see that man with glasses is always looking this way, I don't know what kind of ghost ideas he's thinking, maybe that guy is up to something."

Ji Feng laughed, "He's thinking of ghost ideas I guess, but to try to do it here would be too stupid."

Han Zhong immediately asked, "You insist on staying down there, you wouldn't be trying to do something to them, would you? That's not right either, they're going upstairs for talks later too, so you"

“I’m not that bored either!” Ji Feng laughed.

“Well then, you should also be careful, don’t be counted out by a few boundary tent ghosts and that dog’s leg on your own turf!” Han Zhong said.

Ji Feng then pulled the corner of his mouth, being counted on by them?

He couldn’t help but look at the few Boundary Tent people who were in the crowd, as well as the man with the gold-rimmed glasses, only to find that they happened to be looking over as well, and that the man with the gold-rimmed glasses had a very unkind gaze.

The middle-aged man with a balding head, who appeared to be a middle-aged man named Ichiro Tanaka, also looked over, and his gaze was full of disgust, as if he was looking at something unpleasant.

And underneath the disgusted gaze, there was actually a strong disdain, a feeling of condescension, a strong implication.

Ji Feng was immediately displeased, what the hell were these few, what did they mean by looking over like that?

Pah!

Ji Feng casually put the plate on the dining table, the force of his hand was not light, making the table shake a little.

The man’s face was calm, but the stern look in his eyes was enough to show that his heart was not as calm as his face showed.

“Older brother, where are you going?!”

At this moment, Li Weibing came out from the crowd and immediately blocked in front of Ji Feng, saying in a panic and lowering his voice, “Older brother, don’t make a mess.”

“Why is it that when I move it’s messy and they look at me with that kind of look, it’s justified?” Ji Feng asked.

Li Weibing immediately laughed bitterly, “Why do you have to be normal with them, even if you want to take it personally, you can’t do it here, this salon is held by us, and we ended up beating someone up here, how do you think those foreign businessmen will look at us? Let’s go upstairs and talk, shall we?”

It had to be said that Li Weibing was far better at dealing with things than his brother Li Weidong, and he could not be faulted for either his words or his actions.

As soon as Li Weibing came up, he said ‘we’ and directly took Ji Feng’s side, so that the fire in Ji Feng’s heart subsided a bit, and then Li Weibing stated the benefits again, so that even if Ji Feng had fire, he could only hold it back for the time being.

Of course, Ji Feng also admits that Li Weibing is right, after all, this salon is organized by the district government, if he takes action in this salon to clean up those few boundary tent people, at that time, not to mention the second uncle Ji Zhenguo will not spare him, even if the old man knows, I’m afraid he will take a crutch to knock him.

So Ji Feng could only look coldly at the man with the gold-rimmed glasses, and then at Tanaka Ichiro and the others, taking them deep into his heart.

Just then, Ji Feng suddenly noticed that the two young men who were following Ichiro Tanaka and the gorgeous girl were also looking over, and, their eyes were also very unkind.

Even the pretty girl opened her mouth to say something, but Ji Feng couldn't tell what she was saying by reading her lips, so I guess it wasn't Chinese.

But even so, Ji Feng was still angry.

Bastard!

Even if he didn't know what the woman was talking about, he could understand even with his heels that she would definitely not say anything good.

"Older brother, go, go, go, let's go upstairs and talk!"

Seeing this, Li Weibing hurriedly put his arm around Ji Feng's shoulders and headed upstairs, "I'll take care of the rest."

Ji Feng, however, did not move his feet at all, but only said in a deep voice, "Let them be honest and not find trouble again and again, or else I will let them never return to the boundary tent!"

Li Weibing was startled and immediately said, "Don't worry, I'll talk to them. You go upstairs first."

"I won't be going up!" Ji Feng glanced at the few boundary tents and coldly snorted, "I'm afraid I won't be able to resist throwing them all down after I go up there"

Li Weibing then smiled bitterly and said, "Don't worry, I've just arranged that the people from the Sumida Group won't go upstairs for now, arrange for you to talk to the other two companies first, and push everything else back."

Ji Feng pondered slightly for a moment and nodded, before leading White Spider up the stairs in big strides, as he crossed the stairway, he glanced back at Tanaka Ichiro and the others again, taking them to heart with a cold snort.

Bai Spider also gave a deep look and whispered, "Young Ji, when this party is over, do you want me to do it?"

Ji Feng waved his hand and said, "You can do it anytime you want, find out what they are first."

Bai Spider then nodded in understanding, "Then I'll follow them when the time comes."

He couldn't help but curse, these people were really arrogant, actually provoking Ji Feng here, they really didn't know how to write the word "death"!

Is Ji Feng that easy to provoke?

"If I wasn't in the system, I'd really like to let go and let Ji Feng go and fuck them up, actually daring to be so reckless in China really fuck up!" Li Weibing secretly cursed a few words, still had to go and

arrange Ichiro Tanaka and the others elsewhere, couldn't let them go upstairs, otherwise, they were afraid they would really be thrown down by Ji Feng!

Chapter 1438

Li Wei-bing cursed in his heart, but he could not show his disgust on his face, who let him be in the system?

Forced to suppress his disgust, Li Wei Bing came to the crowd and said to Tanaka Ichiro, "Mr. Tanaka, we have arranged a resting place for you and the others, please follow me!"

Tanaka Ichiro, however, looked at Li Guibing somewhat blankly, and then turned his head to look at the man with the gold-rimmed glasses.

"Oh! Sorry!"

The man with gold-rimmed glasses gave Li Weibing a faint scowl, and looking at his expression, where was the slightest hint of apology?

The man then turned his head and said something to Tanaka Ichiro, then waited quietly for Tanaka Ichiro's command.

Only then did Li Weibing remember that it seemed that Tanaka Ichiro did not speak Chinese, but had to rely on an interpreter to communicate with the Chinese As to whether Tanaka Ichiro really did not speak Chinese, that Li Weibing did not know, anyway, since he first met Tanaka Ichiro, he had not seen this boundary tent devil speak Chinese.

But thinking about it, since Ichiro Tanaka was the vice president of the Sumida Group in the Chinese region, how could he not know any Chinese at all?

The company's staff is always in communication with the Chinese staff, even in the foreign companies, not all of them know the language, many times in order to adapt to the Chinese environment and market, foreign executives will also make an effort to learn the Chinese language, so that on the one hand, it can be easy to communicate, on the other hand, but also because they do not know the Chinese language and in critical moments to be cheated!

..... Anyway, in the eyes of many foreign executives, Chinese people are unreliable.

The first thing you need to do is to get a good idea of what you're talking about.

Of course, Li Weibing would not say these words out loud.

Tanaka Ichiro rattled off a few words and then nodded his head.

"District Chief Li, our Mr. Tanaka Ichiro said" The man with the gold-rimmed glasses had just spoken when he was interrupted by the gorgeous woman standing next to Tanaka Ichiro.

"%.....%&%\$" The gorgeous woman also jabbered something, her face a little cold as she looked at Li Weibing.

Li Weibing then looked at the man with the gold-rimmed glasses, hoping that he would help translate, but who knows, the latter was the one who immediately came out with a head held high and a chin raised in a condescending manner.

“District Chief Li, Miss Beiko asks you, who are those young men standing with you just now? Where did they go?” The man with the gold-rimmed glasses asked.

He sounded as if he was a leader asking his subordinates.

Li Weibing, however, did not move his voice and said indifferently, “They are also the merchants who attended this salon, and now they seem to have gone to exchange with other merchants, I don’t know the details.”

Afterwards, the man with gold-rimmed glasses translated Li Weibing’s words, and he saw the gorgeous woman muttering something out of her mouth, and the two young men beside her couldn’t help but grin heatedly, and the man with gold-rimmed glasses also grinned heatedly along with him.

“%&.....” Ichiro Tanaka waved his hand and said something.

“Haaay!”

The man with the gold-rimmed glasses immediately bent down with a clean movement, as if he had done it a thousand times before.

“District Chief Li, please lead the way in front, Mr. Tanaka needs a little rest!” The man with gold-rimmed glasses turned his face and immediately had a different expression.

Looking at him as if he had a sense of superiority, Li Weibing smiled brightly, “Sure, come with me!”

At this time, the few staff members who were entertaining the merchants not far away next to him suddenly couldn’t help but stare.

Several people glanced at each other, and all saw the shock in each other’s eyes.

“Who has upset the district governor?” A man asked in a low voice, “It looks like he’s not too angry!”

“I don’t know, is it those boundary tent people?” Another man whispered.

“I think it’s probably them, to say the least, it’s the Boundary Tent people who are capable of coming up here and pissing off the District Chief!” Another man said, “Everyone in the district knows that the bigger the District Chief’s smile is, the angrier he is. Look, he’s all smiles now, but there’s no smile in his eyes, I’m afraid he’s already full of anger in his heart, right?”

“Hurry over and help entertain”

“Entertaining those few boundary tent people, it’s really no fun!”

Several people whispered and hurriedly all walked towards those few boundary tents, they all knew that don’t look at Li Weibing young, but usually are very majestic, in the district is basically not moving, but, once he showed this kind of smile, then it proves that he is so angry that he doesn’t even want to hide it.

This is about to bayonet!

Naturally, they had to rush up to help entertain, so that the district chief would have time to leave and go and cool off, now was not the time to get angry.

With the help of a few subordinates, the smile on Li Weibing's face then calmed down a little, and he said indifferently, "Mr. Tanaka Ichiro, you guys take a short rest first, I'll go and arrange the businessmen for your talks!"

After saying that, he didn't even wait for the man with the gold-rimmed glasses to translate for Tanaka Ichiro, so he just turned around and left without even looking back.

"You're" The man with the gold-rimmed glasses watched Li Weibing leave, unable to help but be stunned, and only after a long time did he hold in a sentence.

"That what, our district governor is something, a few people more see, please go over here for a short rest!" At the sight of this, a few staff members of the district government hurriedly came out to round up the situation, which diverted the attention of Tanaka Ichiro and the others.

A few people couldn't help but quietly breathe a sigh of relief, while cursing that these brats were really hard to serve.

.....

Besides, Ji Feng, who had already gone upstairs, saw Han Zhong and Li Xin sitting on the sofa at the stairway resting and waiting, he couldn't help but stride over and said, "I should have known that I might as well just come up with you guys."

"What's wrong?"

Han Zhong asked with a smile, "Is it those few boundary tent people looking for trouble again?"

"You tell me, who else but them?!" Ji Feng couldn't help but snort coldly, he regretted coming on this trip, this was not a visit to a business salon, it was clearly a visit to find discomfort. Those boundary tent people are unscrupulous, the translators follow to be the lapdogs are arrogant and unbeatable, but their own side, encounter others provocation but also can only be forced to endure

"What the fuck is this all about!" Ji Feng coldly snorted.

"Then what can you do?" Han Zhong said, "The economic development of the boundary tent is just faster than ours, and the economic strength is also stronger than ours. If we want to boost the economic development, relying on domestic funds alone is far from enough, and it can even be said that it is a drop in the bucket, and can hardly play a decisive role. If we want to develop, we have to bring in foreign funds, in fact, this is a kind of win-win situation, right?"

"But the problem is, people don't think it's a win-win, instead they think it's us who stoop to beg them to come and invest, so they're high and mighty, while we're low and hard, not daring to speak up!" Ji Feng said in a deep voice.

This is what made Ji Feng the most angry, now it is clear that we are cooperating with each other, they make money, we develop the economy and drive the economic development of a region, this is a win-win situation, no matter in reason or in actual operation, there is no question of who is superior and who is inferior.

Even more, if we were to argue hard, the Chinese side should be in the right position to take the initiative, because there are many large conglomerates with money in the world, and probably not many countries with a market as huge as China's.

So in this respect, it should be the investors who are trying to win the favour of the Chinese side, rather than the Chinese side begging for it!

But now, one by one, those investors are more bullish than the other, simply treating China as if they were beggars asking for food!

"It can't be helped, this is the status quo, there are many rich conglomerates, but the problem is that China needs big investments too." Han Zhong said, "Moreover, people have advanced technology, which is something we can't compare to."

Ji Feng waved his hand and said, "Don't talk about advanced technology, if you want to say advanced, our technology is not worse than theirs!"

Han Zhong laughed, he knew that Ji Feng was angry right now, but it was obvious that China's technology was inferior to those developed countries, it was an indisputable fact.

However, Han Zhong did not know that what Ji Feng said had a deeper meaning.

The technology of China is not necessarily inferior to that of others!

..... Ji Feng had this confidence!

"Older brother!" At this moment, only to see Li Weibing striding upstairs, his face a little unpleasant, but still smiling, "Why are you sitting here? I've arranged for someone to receive you upstairs too!"

"It's quite good to sit here too." Ji Feng laughed, "What, I don't see you too happy?"

"Don't mention it, being pissed off by those people." Li Weibing smiled and waved his hand, "Don't talk about it, save the brakes from talking about it later and make another mistake!"

Ji Feng then understood, it seems that Li Weibing was also irritated by Tanaka Ichiro and other people's high spirits, otherwise, Li Weibing, who always tried his best to show a warm smile, would not be so helpless.

"Go! I'll take you to meet the people from Sanyo Bank first, so you can try to make contact first, that is, to talk intentionally." Li Weibing said.

"Brother Li, let's see, let's not meet one by one, let's divide our troops into two, you take Han Zhong to meet the people of Sanyo Bank, while Li Xin and I, go to meet the people of that what Lingxia Group." Ji Feng asked, "Anyway, it's just an intentional contact, no need to be so formal, going to more people then scaring people, what do you think?"

Li Weibing couldn't help but smile and nod, "That's fine, so we'll come like this?"

"Just like that!" Ji Feng said with certainty.

"Alright then, I'll make the arrangements, you guys wait a bit!" After finishing his sentence, Li Weibing quickly went to one of the rooms, and a moment later, he brought out two young men from the room.

“They are our interpreters, proficient in the Boundary Tent language, so that there won’t be any difficulty in communicating.” Li Wei Bing said.

“Let’s go!” Ji Feng nodded and smiled, Li Guibing’s arrangements were very thoughtful and impeccable, and he got to know Li Guibing a few more points.

“Han Zhong, cheer up.” Before parting, Ji Feng admonished, “If that whatever Sanyo Bank people are high and mighty, just turn around and walk away, don’t give a damn about them! If they go too far”

“I definitely won’t be all forgiving!” Han Zhong said.

“Good!” Ji Feng then smiled.

At this moment, he wished instead that those boundary tent people were high and mighty, otherwise, where would be the reason to make a move?

Chapter 1439

The first person Ji Feng and Li Xin met was a Chinese regional manager of the Hishita Group, named Kato.

This was also a middle-aged man with a small moustache under his nose, which made him look so awkward. Apart from Kato, there were two of his assistants. It was obvious that they were also planning to negotiate a few deals at this business salon, otherwise, Kato would not have brought his assistants here.

“Hello, Mr. Kato!” Li Xin shook hands very politely with this middle-aged man named Kato.

“Hello, Li-san, first time meeting, please take care of yourself!” Kato bowed slightly and saluted, with a serious look on his face, he acted courteously, not at all treating Li Xin with any semblance of contempt because he was very young, he was completely reciprocal in his communication.

He did not expect that this Kato would behave like this, and originally he thought that he might have to make a move in this box.

However, don’t look at how polite Kato acted, Ji Feng did not let down his guard, let alone have any perception of the boundary tent people.

Since they were in business, they must be running for profit, and it was in the nature of businessmen to seek profit.

So no matter how kind a person is, as long as they are in the shopping mall, they will definitely have a cunning side, not to mention, the other party is also a Kaitopan, they don’t think of killing the Chinese people twice, it’s already Ji Feng thanking the gods!

But no matter what, this Kato’s performance was not bad, at least it was better than that vice president of the Sumida Group, Ichiro Tanaka, before.

If you use Zhang Lei’s words, people like Tanaka Ichiro are born to be beaten up. When you don’t treat him like a normal person, he is so high and mighty that he thinks he is some kind of big shot.

But in reality, all you need to do is to smash your fist into their face and then, with the sole of your shoe, stomp them to the ground, and then you will find that they are just ordinary people, and they will feel pain and humiliation when they are beaten.

So actually they are not that great just a bit of money!

On the contrary, the way this Kato behaved made people at least not so annoyed in their hearts, and on the basis of that, everyone could sit down and talk.

“A few people please sit down!”

Li Weibing said with a smile beside him, the atmosphere in front of him made him happy too, it was better to be able to keep the funds of the Lingxia Group or to make a strategic cooperation agreement with the Tengfei Group, in that case, no matter for the economic development of Jiangzhou, or for Ji Feng, it would be of considerable help.

“Li Sang, back when I was in the boundary tent, I had heard that your company had produced a weight loss pill with amazing results.” Kato said appreciatively.

“Sorry, I have to correct myself, it is a health product of a weight loss nature, not a weight loss pill, and in China, there are strict rules on whether it is a drug or not.” Li Xin said with a smile.

Kato then nodded, a look of appreciation on his face.

Frankly speaking, the Kaitou people still had a very strict and serious style when it came to doing things, so Li Xin corrected Kato’s words, and instead of making him feel ashamed of his face, he had a feeling of appreciation.

Since there was a good start, the rest of the conversation was much easier, and Li Xin and Kato had a very cordial talk. In particular, Li Xin’s knowledge was very broad and she was able to talk about the development and changes in the international economic situation, and Kato was also well versed in the international economic situation, so the conversation between them gradually warmed up.

Moreover, the two of them did not need an interpreter at all, as Kato knew Chinese.

Ji Feng, on the other hand, was listening quietly. Hearing Kato’s slightly rusty Chinese, Ji Feng couldn’t help but ponder secretly.

This Kaitou man, was very different from all the Kaitou men he had seen before, and if one were to simply evaluate this man, without involving the nationality of the country or anything like that, then one should say that this man was very good.

Although Kato’s image, the image of the Kaito people in point dramas and movies was very different, Ji Feng felt that this should be one of the real faces of the Kaito people.

Without this kind of rigorous style and shrewdness, the Boundary Tent would not have developed to the extent that it has, and this must be acknowledged.

However, if we look at the relationship between the two countries, the two peoples of China and the Kaitopia, the number of people like Kato in the Kaitopia who are still in high positions is definitely not good news for Ji Feng.

The Hishita Group has such a manager, I'm afraid that just in the exchange of words, the average person can't do Kato, and I believe that if it's a practical action, Kato is even a better hand.

Suddenly, Ji Feng's eyes narrowed because he suddenly remembered something – Qian Hongda, the secretary of the Yuezhou Municipal Committee, had told him that the Hishita Group seemed to be in secret contact with the Brilliant Group (the former Rongpeng Group), as if they were proposing some kind of merger and acquisition plan.

Lingxia Group!

Ji Feng couldn't help but give Kato a deep look and frowned slightly.

It seems that, first of all, not to mention the huge assets, just this Kato alone is a formidable enemy, and there is no telling how many people like Kato there are in the Hishita Group, if coupled with the great strength of the Hishita Group

The actual fact is that you can find a lot of people who are not able to get a good deal on this kind of things. But he is aware that he may really have to go up against the Hishita Group in the future.

It was because Ji Feng knew very well that as long as he had the opportunity, he would not stand by and watch the Lingxia Group merge the Brilliant Group, really because the resources held by the Brilliant Group were too many, and they also involved rare resources from the Chinese side.

If the ownership of these rare resources, or the right to exploit them, were to be taken by the Hishita Group, it might not cause fundamental harm to China, but the impact would be enormous.

For example, according to Ji Feng's understanding, the Brilliant Group owns the mining rights and operation rights of several rare metal mines under its umbrella. If the Hishita Group acquires the Brilliant Group, the influence of the sector tent on China will be further increased, and even, it will have an extremely bad impact.

Ji Feng definitely did not want to see such a situation arise!

"Don't even think about it!" Ji Feng said in his heart as the arm he was holding secretly pushed harder.

At this time, Li Xin and Kato's conversation had also passed the stage of pleasantries and gradually drew closer to the topic.

At this moment, Kato also got Li Xin's business card, and when he saw Li Xin's title on the card, his eyes lit up: "Li San, you are the general manager of Tengfei Electric? It's a great honour to meet you, the name of Tengfei Electric is well known even in the KAI Tent!"

"The 3D TV sets produced by Tengfei have become the focus of the world's electrical industry, and this is a major event in the electrical industry. Kato said with admiration and emotion.

"Oh It seems that Mr. Kato has worked hard on the Chinese language, to be able to speak it so fluently, and to quote idioms with ease!" Li Xin said with a faint smile and admiration, but did not talk about the matter of Tengfei Electric.

Before he knew what Kato really meant, Li Xin had to keep some cards for himself, this was also a common tactic when negotiating, he could not let his opponent know all his cards, otherwise, he would

be able to deal with them comfortably, and then his side would only fall into passivity and be led by the nose.

“The Chinese language is fascinating and profound, I personally like it.” Kato said with a smile on his face.

“Swish!”

Ji Feng, however, had a cold light flashing in his eyes instantly, his eyes narrowed fiercely, while his heart, in a flash, raised his vigilance to the highest, the whole person was like a hawk that had smelled danger, his gaze instantly became sharp and incomparable.

Just a moment ago, the moment Kato knew that Li Xin was the general manager of Tengfei Electric, Kato’s eyes snapped open and a strange look flashed across his eyes.

–Greed!

That’s right, that gaze was greed, extreme greed!

It was an extremely strong desire for possession!

In that instant, Ji Feng immediately sensed that this Kato, who seemed to be talking and laughing but was extremely capable, must have something in mind for Tengfei Electric!

Was it a 3D TV set?

In order to avoid being discovered by Kato, Ji Feng slightly lowered his head and watched Kato without a trace, while his heart was even thinking quickly.

The kind of greed in Kato’s eyes is an indication that he wants to have exclusive rights to sell 3D TV sets in the world tent or in other countries?

Or is it that he wants to get the technology for 3D TV sets?

Or perhaps, Kato has other ideas?

The reason why the people in the world are willing to negotiate with the Tengfei Group is that they want to get the formula of the Kang Yuan slimming powder or the 3D TV technology? Or maybe they wanted to get both of them?

Let’s not say whether the speculation was correct or not, but Ji Feng’s entire body was extremely alert.

He was now certain that this man Kato was definitely not as serious as he appeared to be, this man also had ghostly ideas in his stomach, and there were quite a few of them, and he was even better at disguising them.

The 3D TV set or the Kang Yuan slimming powder?

Ji Feng secretly sneered, I’m afraid that you are too greedy and end up stealing the chicken instead and getting nothing!

This time, both Li Xin and Kato did not talk too much about cooperation, and both simply introduced their companies.

Although the Hishita Group was already a big name, Kato introduced himself to Li Xin politely, explaining the industries the Hishita Group was involved in and his intention to cooperate with the Tengfei Group if there was an opportunity.

Li Xin also expressed Tengfei Group's intention to cooperate with the Hishita Group, but whether this intention was true and whether the cooperation would be successful would depend on the future contact between the two sides.

This so-called intentional meeting was in fact an opportunity for us to get acquainted with each other, not a formal negotiation.

So after twenty minutes or so, Li Xin politely offered to say goodbye.

At this time, Ji Feng also began to quickly plan his next action in his mind.

Action had to be taken!

Chapter 1440

Before leaving the door, Kato shook hands with Li Xin to say goodbye.

Kato could not help but say, "Li-san, I believe that with the strength of the Hishita Group, if both of us can work together, we can certainly make good profits for both sides, and I am looking forward to working with Li-san with your group."

"Me too!" Li Xin smiled and nodded.

Kato then nodded, "I hope that we will be able to talk as partners in the not too distant future."

"I'm also looking forward to working with the Hishita Group!" Li Xin smiled.

At this moment, Ji Feng, however, had already retreated, and White Spider, understanding the situation, also followed without a trace and left the box, taking the lead to go downstairs.

"Young Ji, what should I do?" White Spider asked in a low voice.

"You do this, " Ji Feng pondered for a moment and said in a low voice, "We'll wait here first, later when they leave, you follow Ichiro Tanaka of the Sumida Group, and hopefully you'll be able to get useful information. By the way, can you understand the Boundary Tent language?"

The white spider shook her head, "Not too much, just learned some common language, if they talk faster, I won't understand it."

Ji Feng then immediately said, "Then you should find a way to get close to Tanaka Ichiro, and if possible, record his conversations with others, let's come back and study them slowly!"

"With what equipment?" White Spider asked.

Ji Feng waved his hand, "I'll arrange for the equipment."

And then, Ji Feng went to the stairway, where it was quieter, so he took out his mobile phone and dialed Yi Xingchen's number: "Old Yi, it's me."

“Boss, what’s up?” Yi Xingchen asked.

“I’m at the Linjiang Club, send someone over immediately and send me a few bugging devices, be quick!” Ji Feng barked, he didn’t know when Ichiro Tanaka and Kato and the others would leave, maybe they wouldn’t wait until the salon was over, so he had to get the devices in advance.

“I’m on it!” Yi Xingchen said.

After closing the line, Ji Feng’s face couldn’t help but sink, and Kato’s performance made his heart feel a little more cautious. If he went up against the Hishita Group in the future, then this Kato, would definitely be a formidable enemy.

As for the cooperation between the two sides

The actual fact is that you can find a lot of people who are not able to get a good deal on a lot of things.

The people of Kaitou’s desire for advanced technology is well known throughout the world.

Back then, after the war, the Kaitakan cooperated with Rice and some developed countries in Europe, and then took the opportunity of cooperation to steal advanced technology from those countries to develop themselves, so in just a few short decades, the Kaitakan’s science and technology and economy have advanced by leaps and bounds.

By now, in many aspects, the world’s technology has already reached the world’s advanced level, even leading the world.

These are all lessons, and Ji Feng will naturally not make the same mistakes as those countries in Europe and the United States, even if the two sides really want to cooperate in production in the future, the technology must be firmly in their own hands!

For the people in the tent, one has to be on guard!

Of course, Ji Feng is also very clear, just a Kang Yuan slimming powder agency, with the scale and strength of the Lingxia Group, may not look at the eyes, so Ji Feng does not hold much hope for cooperation, and now is just making preparations in advance.

“Young Ji, Kato and the others are out, shall we go down?” At the stairway, White Spider saw that Li Xin and Kato had already come out of the box and were walking this way.

Ji Feng nodded, “Go down!”

The duo arrived in the lobby and found that the atmosphere here was also quite good, at least on the surface it seemed that the businessmen were all talking and laughing, or talking to each other about intended cooperation.

Ji Feng’s gaze then swept over the rest area, but found no sign of Tanaka Ichiro and the others, he couldn’t help but frown slightly, had those boundary tent people already left?

He waved towards a staff member standing in the lobby, who hurried over and asked, “May I help you?”

“The few boundary tent people who sat in this rest area twenty minutes ago, do you know where they went?” Ji Feng asked.

“Oh, that’s right, they all went upstairs to have a meeting with another guest businessman.” The staff member said.

Ji Feng then nodded his head and was relieved. As long as Ichiro Tanaka and the others hadn’t left, otherwise, it would take a lot of effort to find them, and there might not be such a good opportunity today.

At this time, Li Xin also came down, he quickly came to Ji Feng’s side and said in a low voice: “Boss, Mr. Han is having a meeting with Sanyo Bank, I need to go over there, do you want to come along?”

Ji Feng smiled and waved his hand, “I won’t go, you and Han Zhong can just watch and talk.”

Li Xin’s social skills had been on full display during his meeting with Kato, and were definitely not inferior to his business talents.

Besides, I was afraid that there would be no direct cooperation between Sanyo Bank and the Tengfei Group, as the Tengfei Group did not need a loan, and even if there were industrial companies under Sanyo Bank, then Ji Feng and the others should not be having talks with people from Sanyo Bank, they had to negotiate with the industrial companies under them.

For such companies that they knew for sure would not be able to cooperate, Ji Feng was not going to meet with them.

Li Xin nodded and said, “I’ll go up first then.”

After Li Xin left, Ji Feng smiled and said, “Everyone else is negotiating, so let’s sit down and rest first, we still have things to do later.”

White Spider followed behind him and sat in the rest area observing the situation in the venue with a rather alert look. She had already sensed that Ji Feng seemed to be very cautious about today’s business salon, so she naturally had to be on her guard as well.

In the soothing music of the venue, time passed quickly and in the blink of an eye, half an hour had passed.

At this time, Ji Feng felt his mobile phone vibrate, he took it out and found that it was Guo Tao calling, so he immediately picked up the phone.

“Boss, I’ve arrived at the entrance of Linjiang Club.” Guo Tao’s voice came over the phone.

Ji Feng immediately said, “Wait for a moment, I’ll be right over!”

When he arrived at the entrance of the clubhouse, he found the business car of the Tengfei Group parked at the roadside, and Ji Feng quickly walked over with the white spider.

“Boss, I’ve brought a total of five sets of equipment, is that enough?” Guo Tao handed over a black briefcase.

“It’s enough!” Ji Feng casually opened the bag and found that inside were the bug and receiver, the bug was only the size of two buttons and was very light in weight, “These are more than enough! Guo Tao,

you lift the car towards the front, it's too conspicuous here, also, you wait outside first, you'll have to move with the white spider later."

"Yes!" Guo Tao answered.

And then, Ji Feng ordered in a low voice, "You guys wait here first, I'll be right there!"

.....

"Young Ji"

The smile on Li Weidong's face was dry, it was a completely hard smile, he didn't want to smile, but standing in front of this man, he unconsciously showed a smile and seemed to be a bit intimidated, which made Li Weidong a bit stifled, but there was nothing he could do.

Ji Feng once again approached Li Weidong, he didn't care about Li Weidong's expression, he just said, "Take me to the monitoring room!"

"Fuck, what for?" Li Weidong was stunned.

"Do you want me to get your brother here too?" Ji Feng asked.

"..... Alright, you come with me!" Li Weidong then choked for a moment, his heart became even more depressed, now Ji Feng's stance in front of him was getting bigger and bigger, it was clear that he was on an equal footing with his big brother Li Weibing, instead he had become a little brother level ponyboy?

Despite his depression, Li Weidong still led Ji Feng to the surveillance room, and he wondered in his heart why he couldn't refuse Ji Feng. There was nothing scary about that guy except that he was a bit more skilled, right?

But he just subconsciously couldn't resist, and that was what made him most depressed!

"Do you know when those boundary tent people came? Pull out the CCTV footage of when they came, the ones at the main entrance, and the ones in the car park, hurry up!" Ji Feng said.

"Yes but I can only remember the approximate time period." When the security guard in charge of the surveillance room saw Ji Feng and Li Weidong come in together, he assumed that Ji Feng should also be a big shot, so he immediately responded.

"Then pull out all the footage from that time period!" Ji Feng waved his hand and said.

"....." Li Weidong became even more helpless, whose turf was this place anyway?

"Sir, the footage is right here!"

There were dozens of displays in this surveillance room, each showing real-time surveillance footage from different angles, and the security guard transferred the surveillance footage for the time period Ji Feng needed to one of the surveillance screens.

"Start playing!" Ji Feng said.

"Yes!" The security guard nodded, but he didn't notice that his boss was standing next to him and seemed to have become a redundant person.

Ji Feng's gaze was fixed on that display screen, watching a car pass by the main entrance, stop, and one by one, the customers and businessmen got down from the car and walked into the clubhouse.

For the first few minutes, there was no sign of Ichiro Tanaka or Kato, and Ji Feng was in no hurry, just watching intently.

In fact, Ji Feng had run into Ichiro Tanaka when he first arrived, but he was not sure when Ichiro Tanaka arrived here because he did not see Ichiro Tanaka's car.

Suddenly, Ji Feng's eyes stared and he saw it!

A black Sumida business car arrived at the door, followed by a man wearing glasses getting out of the car but it was the man with gold-rimmed glasses!

Only to see this gold-rimmed glasses man get out of the car, he ran his ass to the back and pulled open the car door, blocking the top with one hand.

Tanaka Ichiro came down.

Ji Feng immediately took note of the car they were riding in, and secretly said in his heart, this will be good!
