

Campus Master 1661

Chapter 1661

The next two days, the exam went smoothly.

Although Zhao Kai still has not returned, and simply can not be contacted, but since it has been known from Zhao Kai's family nanny that their family went abroad, Ji Feng three people hanging a heart finally fell to the ground.

However, the atmosphere in this dormitory is a bit odd.

After the first half of the exam, if there is an exam in the afternoon, then at noon Ji Feng and others do not go back, but directly stay in the dormitory to rest for a while, by the way, to prepare for the afternoon exam, that is, in this dormitory, the atmosphere is a bit strange.

Originally, the four brothers in this dormitory, the relationship is quite good, and everyone is not introverted personality, are very talkative, so in the past in the dormitory, Ji Feng four people will always be talking and laughing.

But this is not the case these two days, no one mentioned Zhao Kai, even when chatting about any topic, finally talking about Zhao Kai, the three will subconsciously avoid the topic, not to mention Zhao Kai.

This makes Ji Feng look can not help but slightly shake his head, it is clear that, although everyone said Zhao Kai could not have done such a thing, but in fact, Du Shaofeng that speculation, or in the hearts of several people left a shadow.

Zhao Kai absconded from the crime, not without this possibility.

Although now Zhao Kai is still just a student, it is impossible to make any serious mistakes, however, his father is an official. These days, there are many officials who absconded with money, and even, there are more arrogant officials, after absconding abroad, actually called back, and is directly to the discipline inspection department, to report themselves, that kind of arrogant behavior, is simply unscrupulous.

And now, the fear of absconding officials are too many, almost has become a very common phenomenon.

Because of this, Du Shaofeng will have such a guess, and once he said this guess, Ji Feng and Han Zhong heart can not help but thump.

This possibility is really not small!

Therefore, everyone involuntarily avoided the topic of Zhao Kai.

Although the fear of absconding from such a thing is very disgraceful, but no matter what, Zhao Kai and their friendship is not a fake, so Ji Feng three on the one hand for Zhao Kai's face, on the other hand, but also simply do not want to mention this matter.

Since they escaped, forget it, no one has the ability to care.

This is what Han Zhong and Du Shaofeng thought.

However, for Ji Feng, his feelings are very complicated, and one could even say that he is very sorry.

If Zhao Kai is really because his father committed a crime, which is why he followed his family abroad to go abroad, then we can only say that it is really too bad.

If Zhao Kai can continue to develop, with his intelligent mind, the future is absolutely unlimited, the future will certainly have a great achievement.

What a pity!

Ji Feng could not help but shake his head, he felt unworthy for Zhao Kai.

But

The first thing you need to do is to get a good idea of what you want to do.

The first thing you need to do is to get a good idea of what you're doing.

Other than that, at the very least, Ji Feng felt that Zhao Kai could not do such a thing.

Even if he really wants to abscond, how should he contact himself and Han Zhong, everyone's friendship is very good, this brother said do not want?

This is not in line with Zhao Kai's character.

This is one of them.

Second, Ji Feng vaguely felt that things may not be so simple, but he could not say a reason.

The first thing is that the company's business is not only a good one, but also a good one.

At least for the time being, Zhao Kai, no matter if he is absconding or whatever, his personal safety should be guaranteed.

Therefore, Ji Feng also put this doubt in his heart, and after the examination, he was ready to go to the special warfare brigade's station, and discuss with Xiang Yongzhan about the action plan to go to South Guangdong to capture the king.

In the evening of the day after the exam, Zhang Lei brought Shen Jingyi to Ji Feng's villa, which is on vacation after the exam, Shen Jingyi also has to go home, so Zhang Lei brought her to have fun and also considered to say goodbye to Ji Feng and others.

Several girls were talking in the living room, but Ji Feng and Zhang Lei ran to the backyard to sit on a big rock and leisurely smoke.

During the casual conversation, Ji Feng told Zhang Lei about Zhao Kai's matter. He had a piece of his heart pressed, which was equivalent to a lump that could not be untied, which made him very uncomfortable.

So he then wanted to discuss it with Zhang Lei, listen to Zhang Lei's analysis, maybe Zhang Lei has another opinion?

“Absconding from the crime?” Who knows, Zhang Lei could not help but be stunned when he heard it, “Zhao Kai guy absconded from the crime? Crazy, you’re not mistaken, right?”

“This is just a guess, is going to school, he suddenly went home, just a phone call to say. As a result, after returning home, until now he has not come to a phone call, and now his nanny said that their whole family went abroad, it will take some time to come back”

Ji Feng said the situation in general, spread his hands: “As a result of the old Du a sentence to me and Han Zhong were stunned, but when you think about it, not without this possibility, although the possibility is not great, but have to admit that it is possible.”

Zhang Lei couldn’t help but scratch his head and said, “It is indeed possible, but I think your guess is a bit outrageous, right? Other than that, the Zhao Kai guy, you certainly know more than me, he should not look like such a person, ah, even if he was born in an official family since childhood, the ear, but he is still very young after all, should not do anything excessively bad, you say?”

“Yes!”

Ji Feng nodded, sighed and couldn’t help but say, “I think so too, besides, even if he left, he definitely wouldn’t have not a single phone call, this is not his character. But we have another guess, it may be that Zhao Kai felt that such a thing happened to his family, so he was too embarrassed to call?”

Zhang Lei nodded slightly and said, “Well, if this is the analysis, then it is possible. However, what if you guessed wrong from the beginning, for example, your starting point itself is wrong, Zhao Kai did not abscond at all, then all your subsequent analysis, is not just an empty guess? Perhaps he was out of other things, or perhaps, he really just went abroad to travel?”

Ji Feng spread his hands: “So ah, I am now torn on this issue, Zhao Kai this guy if he really is absconding abroad, that’s fine, but if he is out of other things”

Zhang Lei blurted out: “What is there to tangle with, go directly to his home to see not everything is known? Of course, in order to avoid trouble, and do not alarm others, simply go directly over, take advantage of the winter holidays to live near his home for a period of time, inquire about the situation, do not know everything?”

Ji Feng shook his head and said, “Which is that simple? After we had this guess, I immediately checked the news of Zhao Kai and their city on the Internet, and there was no information about officials absconding from crimes.”

No corresponding news appeared, which means that either Zhao Kai’s family did not flee at all, or, the local area wanted to block the news.

Officials absconding, this is very bad news, I believe the local area will definitely block the news.

Under such circumstances, it is not too easy to inquire.

Besides, hearsay news may not be accurate, and may be rumored to be what it is because of blackmail.

Zhang Lei nodded at his words: “That’s true. Then what are you going to do? Just wait like this?”

Ji Feng pondered for a moment before saying, "Of course we can't just wait like this, we have to investigate, whether or not Zhao Kai really absconded, if there is accurate information, I can also breathe a sigh of relief."

Zhang Lei asked, "Then how do you plan to investigate?"

Ji Feng shook his head and said, "Originally I wanted to go over there personally, just in time for the winter holidays, time is a little more free. But I still have a lot of things on my side, I can't leave for a while, moreover, I have to make a trip to Rice in a few days, so I don't have time to go over."

Grab the king is imminent, must act immediately, now has been delayed for four or five days, if delayed further, I'm afraid there really will be a problem, Ji Feng can not not go.

And in the rice country's sister's side also encountered trouble, last time to go to the second uncle's house, and the second brother chatting when he also mentioned again, and so the capture of the king's action is over, it is necessary to go to the rice country, Ji Feng is really no time to go to the city where Zhao Kai.

Zhang Lei thought about it and asked: "I remember, Zhao Kai's home is in Beihe Province, right? It seems like it's not too far from Yanjing?"

"Well, it's in a prefecture-level city below Beihe Province, and it's about seven or eight hours from Yanjing by car." Ji Feng nodded, "However, it's cold now, if there is snow on the road, it may have to be slower, but at most it won't take more than ten hours."

The cities around Yanjing, in terms of hardware facilities that is naturally needless to say, no way, close to the Imperial City, the foot of the Son of Heaven, is certainly to give priority to the development, this is the advantage of geographical location.

So even if there is snow on the road, road personnel will be timely cleanup, not too much trouble.

"Then I'll go!" Zhang Lei said.

"You?"

Ji Feng was stunned: "Are you sure?"

Zhang Lei nodded and said with a smile, "In fact, this winter break is not much better, back home for at most four or five days, I began to be uncomfortable, home is full of elders, who can say two words about you, that's a bore ah, and those social functions, more trouble, I just take the opportunity to go out to hide quiet."

"Besides, I went to inquire about the news, you must be more at ease, right?" Zhang Lei laughed.

"Since this then well, it's you." Ji Feng slightly pondered, then nodded and agreed, "However, you can't go alone, I'll find two people from the security team of the Tengfei Group to accompany you."

"Okay, it's good to have someone to talk to on the way." Zhang Lei nodded indifferently, with his current body, he can go anywhere with confidence and boldness, but since Ji Feng gave the arrangement, he did not refuse.

“Lei Zi, go and make sure to investigate clearly to see where this guy Zhao Kai went.” Ji Feng said, “If he really is absconding from the crime, then I have nothing to say. However, if he is out of something else, then I as a brother can not ignore it!”

Chapter 1662

With Zhang Lei to investigate Zhao Kai’s whereabouts, then Ji Feng can really put his heart down completely, Zhang Lei this guy although his personality is big, hot-tempered, but in fact, he is still very careful, and very brainy.

Zhang Lei in the past, even more than Han Zhong or Du Shaofeng to investigate, are more reassuring to Ji Feng.

Because Zhang Lei this guy’s comprehensive advantage is too obvious, compared with Han Zhong, although Zhang Lei is not as good as his business acumen, but Zhang Lei has seen more of the world than Han Zhong, and, for official matters, Zhang Lei also knows very well, can be said to be clear, in this regard, Han Zhong is not as good as Zhang Lei.

More importantly, Han Zhong compared with Zhang Lei, the hands can not.

With Zhang Lei’s current hands, as long as it is not a rain of bullets, the world can go, even if it breaks into a gang, if he wants to escape, no one can stop him. On this point, Ji Feng is not worried about his safety.

The Du Shaofeng is a straightforward character, smooth enough, if he goes, it may be because of something and thus conflict with others, and then it will cause unnecessary trouble.

So a comparison, Zhang Lei is the most suitable candidate.

As for the people of the war team, Yi Xingchen, they are naturally very suitable, but this time, they are unable to leave, to catch the king must take them.

So, it can only be Zhang Lei to go.

“When you get to Zhao Kai’s house, simply say directly that it is Zhao Kai’s classmate, because he missed the final exam, a serious violation of school rules and discipline, so you have to convey the school’s disciplinary action against Zhao Kai on his behalf!” Ji Feng deliberately said, “Otherwise, you a foreigner rashly to there, and also to inquire about people as officials, will certainly cause others to suspect, this is not good.”

Zhang Lei nodded and said, “Don’t worry, I know what to do. I say, in fact, the best way, is that I go directly to Zhao Kai with great fanfare, this good a large living person can really lose? It is estimated that it is not a big deal”

Ji Feng waved his hand and laughed: “This will not work, if it is really something happened to Zhao Kai’s family, you will instead alarm some people, or low-profile some, act cautiously.”

“Then I’ll listen to you!” Zhang Lei nodded indifferently.

In fact, he did not think it was a big deal, before he and Ji Feng guessed those possibilities, are the worst possible outcome, no worse than where to go.

Besides, in China, but all the officials, how could they be condescending to themselves?

Not to mention, the family suddenly left.

So Zhang Lei also felt that either the Zhao Kai family absconded, or, there was some misunderstanding in the middle of this, or they were not convenient to call from abroad, anyway, it could not be more serious.

However, since Ji Feng insisted, Zhang Lei naturally will not be bent on the way, Ji Feng's method is indeed more cautious, then it is right to travel, run to Zhao Kai's home.

Agreed on the approach, Ji Feng is a sigh of relief.

To be honest, the original has not been able to contact Zhao Kai, Ji Feng also thought that may be something happened, and later Du Shaofeng that a guess, but let him also believe a few points.

Now let Zhang Lei to go to a trip, is to investigate a prospective letter back, whether or not the fear of crime absconded, there must be accurate information to do.

"By the way."

Ji Feng suddenly remembered something, he pondered for a moment before saying, "Lei Zi, when you go to Zhao Kai's house, if you see a nanny in his house, you pay more attention."

Zhang Lei was slightly stunned: "Nanny?"

"Well!"

Ji Feng nodded: "It's the nanny that I talked to, I always feel that her reaction is a bit not quite right"

Halfway through, Ji Feng's voice suddenly stopped abruptly, he sat on the stone, the cigarette in his hand was blowing in the wind burning fast, but he was unaware of it, but his brow was tightly furrowed, as if he was thinking about something.

Zhang Lei could not help but ask: "Crazy, what's wrong?"

Ji Feng faintly shook his head, frowning and thinking carefully.

Half a long time later, he suddenly brightened up and slapped his thigh: "That's right! It's her reaction that makes me feel very odd and wrong!"

Ji Feng casually threw away the cigarette in his hand and said to Zhang Lei: "Lei Zi, something must have happened to Zhao Kai's family, after I talked to the nanny in his family, I have been feeling that something is not right, but never thought of it. Now I figured out that the nanny's reaction is not right!"

Zhang Lei also could not help but pay attention and asked, "What is wrong?"

Ji Feng carefully recalled the process of his call with the woman, slowly said: "Where is not right, first of all, if the nanny answers the phone, usually say, here is so-and-so's home, and then ask who the other party is can Zhao Kai's family nanny is directly asked who is, of course, this may just an unimportant detail, but then her reaction, it is a little perverse."

"How abnormal?" Zhang Lei asked.

“During our call, I asked about Zhao Kai, the result of that woman immediately shrieked, I asked her what happened, she gave me the explanation that she was scalded by boiling water I think she was lying, because that shriek of hers, with a hint of fear, rather than the kind of hand-to-hand panic when scalded by boiling water”

The more Ji Feng analyzed, the more his eyes glowed, and the more his mind was clear: “Yes, that must be the case, she must have been afraid of something at the time, and later when I spoke to her again, she stammered a little, especially, I asked her where Zhao Kai said to go, and her answer was equally vague... .. I did not realize it at the time, but now that I think about it, she seemed very wrong from beginning to end!”

Zhang Lei’s expression also gripped a lot, he asked: “Listen to you, Zhao Kai’s family may really have something wrong?”

“There is a six out of ten chance!” Ji Feng could not help but sigh lightly, “Although from a nanny’s reaction can not be sure, but, I now have a not good feeling, Lei Zi, I think you can not delay, tomorrow you pack up, first go to Zhao Kai’s place a trip, and then go home.”

Zhang Lei immediately nodded and said, “Well, I’ll leave first thing tomorrow morning.”

Ji Feng said, “Be careful, it could be a big problem if you mess up! If there is really a problem, I may not be able to help you, because I also have to leave Jiangzhou tomorrow, I’m afraid the next few days will be busy, you have to be careful”

Zhang Lei laughed: “You can rest assured, if something really happened to Zhao Kai’s family, I naturally will not sit idly by, your brother that is naturally my brother, no comment. Besides, North River Province is not too far from Yanjing, if anything happens, I can always make a quick response, you don’t have to worry.”

Ji Feng nodded: “Then it will be hard for you. I hope I’m just empty worrying about a ah”

Zhang Lei said with a smile, “It’s useless for you to worry now, it’s better to wait until I go and see what happens.”

Now it can only be so, Ji Feng even if you are worried, in the absence of accurate information before, he can not make any reaction. Moreover, this matter to Zhang Lei, he is also relieved.

That night, the two brothers drank a little, and then they each split up. Ji Feng called two ex-soldiers from the Tengfei Group to accompany Zhang Lei, and as soon as it was light, they immediately rushed to Zhao Kai’s city.

The same night, Ji Feng went to the special operations brigade’s premises, to see Xiang Yongzhan.

When I came to the special operations brigade, the night has completely fallen, looking far away, the other barracks have turned off the lights, only the special operations brigade station lights are still on.

“Old Xiang, how are the preparations going?” Ji Feng asked.

“What is there to prepare?” Xiang Yongzhan laughed: “Catching the king, not to go to war, if still let the special operations brigade like a big enemy, then also too high regard for the other side.”

Xiang Yongzhan's words showed a strong confidence.

Ji Feng snickered: "You still think the other side is ordinary people? I see that when the time comes if you let the king run away, you can still laugh?"

Xiang Yongzhan said, "Just don't worry, I have already sent people over, as long as the king appears, he can't get away. Only, I am now worried about whether he will be in that hiding place, cunning rabbit three caves this truth, I think you must be more clear than me, right?"

Ji Feng immediately frowned; "You have already sent people over?"

"Don't worry, my people will definitely not act recklessly." Xiang Yongzhan naturally knew what Ji Feng was worried about, he said, "I just told them to first assemble in Nan Yue and stand by, in addition, there are people who are specifically monitoring that landing place of the king!"

"Such a hasty action, you are not afraid that the other side will notice?" Ji Feng frowned.

"Do you think the military intelligence agencies in China are all dry rice?" Xiang Yongzhan said, "Those people's usual job is to disguise, the king even if he is more capable, anti-reconnaissance ability is strong, he can not see through! My people are not moving, just assembling to standby, now monitoring that place, are the people of the Intelligence Division, doing this, they are much more professional than us."

Ji Feng was relieved, it seems, this time to the war is ready to play a big, combat troops and intelligence services joint action!

The mysterious king, for Ji Feng, that is definitely a deadly rival, is a big problem, as long as he is still in China one day, we must guard against his sudden black hand on the Tengfei Group.

But, for the whole of China, and how is it not so?

If the country of China is a person, then this guy named the king, is a human tumor, but also the kind of tumor as long as there is an opportunity will certainly give you some trouble, so that you can not bear the pain!

Now that we suddenly know where the king is hiding, how can the top not pay attention to the reason?

No wonder second uncle did not let himself rush to go to South Guangdong, I'm afraid at that time he had already guessed this result, Ji Feng could not help but scratch his head, compared with second uncle, he is still a little tender ah.

The second uncle was not involved in this matter from beginning to end, but he just listened to the simple passage, and knew the result, this feat, Ji Feng thought he could not reach now.

"So, there is nothing more for me?" Ji Feng asked.

"Bullshit!"

Xiang Yongzhan said: "You are the finale, how can you not go?"

Ji Feng was stunned: "What finale?"

“In case you encounter advanced transformers, it is not convenient to use heavy weapons in downtown, of course, you can only rely on you!” Xiang Yongzheng said with a bad smile.

“..... fuck!”

Ji Feng could not help but cursed: “Dare to say, you are treating me as a super fighter?!”

Chapter 1663

The sky is still slightly light, a military aircraft, under the cover of the night, from the Jiangzhou military airport, Ji Feng and Xiang Yongzhan, they are on this plane, they are leaving for South Guangdong, ready to arrest the king.

In addition to Ji Feng and Xiang Yongzhuang, there are also Yi Xingchen and others on the plane, Liu Xin is with Lu Gang and the two of them stay in the group to sit in case someone comes to make trouble during the time when Ji Feng and the others are away.

In addition to these people, on this plane, there is also a guy who is barely considered an important person – Ishida Ono.

He was held tightly by the arms of two special operations brigade warriors left and right, while his hands were handcuffed and his legs were similarly shackled, moreover, the shackles were still wrapped around one of the pillars of the seat, and he sat on the seat, unable to move at all except for his upper body and head.

As the intelligence provider of this operation, Ishida Ono’s importance is beyond doubt, once he wants to slip, the consequences of how serious is naturally self-explanatory.

So, since Ishida Ono was handed over to the special operations brigade, he was always accompanied by someone, 24 hours a day, so that even if he wanted to make a mess, there was no time or opportunity.

This time to South Guangdong, they also took Ishida Xiaoye with them, so that not only can give Ishida Xiaoye pressure, so that he does not dare to slip, but also, once the operation of what happened, can also be timely interrogation of Ishida Xiaoye.

Ji Feng held his arms and leaned back in his seat with his eyes closed, looking as if he was asleep.

However, every time Ishida Ono’s gaze swept from Ji Feng’s face, his face was a bit not very good. As soon as Ishida Xiaoye saw Ji Feng, he couldn’t help but remember the torture Ji Feng had inflicted on him that day in the interrogation room.

That was simply painful!

Let people want to die, but how can not die that feeling, must be what the Chinese say, begging for life and not death!

Subconsciously, Ishida Ono’s heart jerked a few times.

The first thing you need to do is to get a good idea of what you are doing.

Now look at Ishida Ono's body there is no injury, how he was given so by Ji Feng? How so easy to give in?

To Yongzhan grinned, these world tent people, seemingly tough as hell, in fact, shit is not, you just have to kick him hard a few feet, he will immediately give in.

The more you hit hard, the more fearful and submissive he will be.

This is really a very strange people.

Like other people, if you beat him, he will certainly hold a grudge against you in his heart, some of the more hard-headed people, as long as you do not kill him, he will not bow down, and will even hold a grudge against you for life. It is possible that one day, his revenge will come.

The boundary tent people are not like this, they are extremely good ah!

Xiang Yongzhan secretly shook his head, he remembered Ji Feng's tactics again, can give a dynasty's organization members into such a state, Ji Feng in the end used what tactics?

After thinking about it, Xiang Yongzhan got up and came to the seat next to Ji Feng, he sat down and said in a low voice: "Ji Feng, that little kid has been secretly glancing at you, should we go ask that guy what the hell he's up to?"

Swish!

Ji Feng opened his eyes, an imperceptible fine light flashed from his eyes and disappeared in the blink of an eye.

"If you ask him, he'll admit it?" Ji Feng asked rhetorically. Even if Ishida Ono is really playing something devilish in his heart, if you ask him directly, how could he admit it, perhaps instead he will try his best to conceal it for fear of punishment.

Xiang Yongzhan laughed in a low voice: "You have no way?"

Ji Feng glanced at him and said, "You can't learn my way, don't think about it."

Xiang Yongzhan was exposed, but he was not half embarrassed, just said: "Learn or not, you always have to see it before you know, besides, you are now in that kid's body, is also considered to warn him again, prevention is better than cure!"

Ji Feng waved his hand and said, "Don't think, it's not that I don't teach you, it's really that you can't learn!"

Xiang Yongzhan shook his head helplessly, it seems to be difficult to persuade Ji Feng, he thought about it, and asked: "What about this kid? If he is really playing any ghost ideas, do not warn in advance?"

"Then it's better for me to go!"

Ji Feng said, "I'll go and talk to him, what do you want to ask?"

Xiang Yongzhan immediately said, "You confirm with him again, will the king notice any abnormalities in the past few days, and also, is there a better way to catch the king"

Xiang Yongzhan immediately told Ji Feng all that he wanted to ask.

Ji Feng nodded: "Wait for it."

He then unbuckled his seatbelt and stood up, while sitting on the other side of Ishida Xiaoyao just saw Ji Feng make a move, and suddenly his face could not help but turn white, his body subconsciously trembled, and his gaze was even more flustered.

Is he going to the toilet? Or sitting for a long time, get up to move the body?

Ishida Ono even hate to pray in the heart, Ji Feng must not be to find their own ah uh, he really is to find their own!

When Ishida Ono look to Ji Feng is walking towards him, the face of the look cold, Ishida Ono's heart suddenly can not help but thud, he almost did not cry out, Ji Feng how to find himself again?

Ishida Xiaoye's reaction, Ji Feng naturally saw, but his face is not the slightest easing, not to mention Ishida Xiaoye is now just afraid, even if it is scared to cry, Ji Feng will definitely not be soft-hearted, let alone half sympathy!

Sympathy for the world tent people, that is the most stupid behavior.

When Ji Feng came to the front, Xiang Yongzhan then gestured to a soldier beside Ishida Xiaoye, the soldier then nodded imperceptibly, and then got up cleanly and gave up his position to Ji Feng.

"Ono, but we meet again." Ji Feng said, with a smile on his face, but his eyes were not even a hint of laughter.

"Ji, Ji Feng" Ishida Ono difficult to squeeze out a smile, just how that voice can not be controlled, has been trembling.

Not far away, Xiang Yongzhan suddenly widened his eyes, secretly said, boy!

Ji Feng was actually able to scare Ishida Xiaoye into this look, this is still the arrogant and ignorant boundary tent man? It's like a scared dog with its tail between its legs!

Ji Feng, cow!

Xiang Yongzhan couldn't help but give a thumbs up, at the same time, he had a better understanding of the nature of the boundary tent people.

And at this time, Ji Feng spoke again, he asked indifferently: "With your knowledge, I'm sure you can guess that we are now taking a plane, in fact, to catch the king, in an hour's time, we will arrive in Southern Guangdong, now do you have anything to say?"

Ishida Xiaoye suddenly changed his face dramatically and became even whiter, he shook his head in a panic and said, "Ji Feng, I, I told you everything I know, I really don't know anything anymore! As I said before, I only know one of the landing places of the king, but whether he is still there now, I can't guarantee ah."

Ji Feng shook his head and said, "You have to guarantee that either, we catch the king so that you can also survive, or, the king runs away, then you"

Ji Feng smiled eerily, revealing a mouthful of white teeth, “Xiao Ye, remember that day in the interrogation room, what kind of feeling was that?”

“Ah!”

Ishida Xiaoye suddenly shrieked.

Ji Feng laughed: “I can assure you, if we can’t catch the king, or, in the place you said, there is no trace of the king at all, then you will feel that torture all over again every next day, and, more and more painful every day!”

Snap!

Ji Feng slapped on Ishida Xiaoyao’s shoulder, the latter’s body was suddenly slapped crooked, ah shrieked.

“Don’t think I’m joking with you!” Ji Feng’s expression suddenly cold down, the gaze is full of killing machine, “if you do not believe, you just try, anyway, I have a lot of means here, just take you to do experiments, also quite good!”

“I, I really do not know anything, Ji Feng, I beg you, do not torture me again, I will die” Ishida Xiaoye can be really frightened, bitterly pleading, “I really only saw the king in that place, the king is not there are other hiding places, I really do not know ah”

Ji Feng said indifferently, “It doesn’t matter whether you say it or not, anyway, if you can’t catch the king, it’s you who will be tortured, not me, what do you think?”

Ishida Ono looked at Ji Feng with a pleading gaze, but what greeted him was Ji Feng’s icy cold eyes, Ishida Ono immediately went limp in his seat, he was almost about to collapse.

“Think about it, whether you choose to go to jail peacefully, or be tortured to death alive, this initiative is in your hands!” Ji Feng said indifferently.

Not far away, Ji Shaolei was listening with ears erected, Ishida Xiaoye has broken down, if he still knows the king’s other hiding place, then he will definitely say it, if he still does not say it, then it proves, he really does not know.

“I, I really don’t know where the king is hiding,” Ishida Ono’s voice was trembling.

“Then forget it!” Ji Feng shook his head and stood up: “It seems that you can only pray that we can catch the king in one fell swoop this time, otherwise, your next days will be miserable Hey!”

“No!”

Ishida Xiaoyao shouted: “Let me think, let me think Right, I remember, Ji Feng, I can think of a way to lure the king out, and then you guys can catch him”

Chapter 1664

“You can lure the king out?” Ji Feng glanced at him and his face sank steeply: “Do you take me for a fool, or do you take yourself for a fool? Didn’t you say before that the king sent someone to take the initiative

to contact you, and you could only see him with his consent, and now you say you can lure the king out? I think you really want to die!”

“No, it’s not!”

As soon as Ishida Ono saw that Ji Feng’s face was gloomy, he immediately exclaimed, “What I said is true, I have a way to see the king”

Ji Feng did not give him the opportunity to speak, gritted his teeth and said, “I do not believe! It seems that you are still very dishonest until now, well, I also have to let you taste the pain first!”

After saying that, Ji Feng raised his hand and was about to slap Ishida Ono’s body.

All of a sudden, Ishida Xiaoye’s soul was straight up, almost scared to death.

In an incomparable moment of shock, Ishida Ono no longer cared to ask Ji Feng’s permission and immediately shouted, “I can excuse myself to escape from China so that the king will definitely see me, because he needs the information in my hands!”

Swish!

Ji Feng’s hand stopped less than five centimeters away from Ishida Ono’s head, and he frowned and asked, “What other information do you have in your hands?”

“Phew~~!”

Ishida Ono suddenly let out a long breath, just now that moment, he almost thought he was dead, now see the slap hanging above his head, Ishida Ono is really glad that he reacted quickly, in this most critical juncture, actually remembered this solution.

Ji Feng said in a deep voice: “Do not say? Or are you playing with me?”

Ishida Ono was immediately startled, he panicked and shouted: “I’m telling the truth, I’m not fooling you!”

Ji Feng drank in a deep voice: “Then say it!”

“Yes, yes, yes!”

Ishida Ono nodded repeatedly and promised in a panic: “When the king first summoned me, I first met the king, he once explained to me some detailed issues, one of which was a note that if say my identity was exposed, I would be fine as long as I used the fastest speed to hide in the embassy of the boundary canopy”

Ji Feng slowly withdrew the slap, only to ask in a deep voice: “What does this have to do with the king?”

“There is a relationship, there is a relationship.”

Ishida Ono hurriedly said, “The king said that as long as I enter the embassy, someone will secretly escort me to South Guangdong, and then in back to the boundary tent. The organization has a very safe road that leads to the boundary tent. When I reach Nan Yue, the king will send someone to meet me,

that person is to replace me, I need to give the situation that I have, as well as some important information to that replacement

Ji Feng said noncommittally, "Continue."

Ishida Ono hurriedly said: "So I was thinking, if you guys can't find the king at the location I mentioned, then I can pretend to be found out, then make contact with the people around the king and wait for my replacement to appear. At that time, you guys just need to catch that replacement and you will know from his mouth where the king is."

Hearing this, Xiang Yongzhan could not help but ask: "You can't even contact the king, you can only relay it through others, and your successor will be able to contact the king?"

Ishida Ono hurriedly said, "Yes, because to send a person to a new place, the king will explain a few words, will also arrange a new way of contact, etc., so after handing over the information, the king will also leave a copy of the information, so as long as you catch this replacement, you will definitely be able to find the king."

Ji Feng and Xiang Yongzhan looked at each other, the two of them could not help but frown and ponder, what Ishida Ono said, it is feasible, but is he so frightened that he broke down, so find a random reason to fool first?

Because in the previous interrogation, according to Ishida Ono said, it was not easy for him to see the king now, first he had to contact one of the people assigned by the king, and then, that person would contact the king, and finally, the king would decide whether he wanted to see Ishida Ono.

It is also because of this, Ji Feng and Xiang Yongzhan gave up the plan to let Ishida Xiaoye as bait, because the king will see Ishida Xiaoye this is an unknown, even if it is the same opinion, will it be the king himself to, that is another unknown, the variables of this plan is too big, it is easy to be noticed by the king, not feasible.

This can also be seen, the king of this person is how cautious, want to catch him, but really not easy.

So, now Ishida Ono said this so-called successor thing, is it true or not?

Ji Feng and Xiang Yongzhan are not sure, what if, this plan that Ishida Ono said, was originally a code word for their organization, for example, Ishida Ono just contacted the people around the king and told them that he was going to escape back to the boundary tent, this sentence itself represents, someone is going to be unfavorable to the king, now Ishida Ono has been caught

Then, the king can be comfortable with the preparation, then want to catch the king again, it will be difficult as heaven!

Furthermore, even if this is not a code word for the dynasty organization, but if Ishida Ono is really scared by that kind of punishment to collapse, he is afraid of being subjected to that kind of painful torture again, so in a hurry to casually find a reason this is all possible ah!

Ji Feng two people can not help but make a dilemma, Ishida Ono words, whether credible or untrustworthy?

“Ji Feng, what do you think?” Xiang Yongzhan and Ji Feng walked a few steps away to a few meters away, the roar of the aircraft has been very loud, Xiang Yongzhan then asked in a low voice.

“For the time being, I can’t see any breakage, but I’m not sure.” Ji Feng shook his head and said.

“I feel that what Ishida Ono said does not seem to be false, what do you think?” Xiang Yongzhan asked.

“Because every possibility is there, this kind of thing, it’s too important to just go by the feeling.” Ji Feng shook his head, he pondered for a moment, could not help but say, “He is so empty, I am not able to be sure.”

“Damn it!”

Xiang Yongzhan couldn’t help but curse, he gritted his teeth and said, “Otherwise, let’s go for the first plan now, if we don’t find the figure of the king, then we’ll try again according to the method this brat said.”

Ji Feng shook his head and laughed: “These two plans simply cannot both be used, only one can be used. As soon as you make a move on your side, the other side still has the reason not to notice? At that time, all fools know where there must be a problem, the king will definitely be on guard against Ishida Ono.”

These two plans, in fact, is a two-choice multiple-choice problem.

The first plan they made was to monitor the hiding place of the king that Ishida Ono had explained, and as soon as they found a suspicious person, they would immediately make an arrest.

This plan is not very dangerous, but the chances of success are also not very good, because any fool knows that the king will not have only one hiding place, and no one has seen the real face of the king, God knows whether the king appears or not?

So the likelihood of success is unlikely.

And the second plan, which is the one Ishida Ono just said, also has a lot of uncertainty.

So it’s a dilemma.

“No matter what, capture is a must!” Xiang Yongzhan gritted his teeth, “If it’s not possible, be prepared for a long battle, just keep a dead eye on that hiding place, I don’t believe that the king will not appear all the time!”

“This stupid way is also not enough to support you to persist for a long time!” Ji Feng shook his head, “Don’t forget, Ishida Ono is ordered to take down the Tengfei Group, if there is no news from his side for a long time, or if the king has heard something, it will likewise cause him to be alerted.”

Xiang Yongzhan could not help but ask, “Then what is your best solution?”

This does not work and that does not work, Xiang Yongzhan is a bit helpless, combat fighting he is good, but in this kind of thing, he really can not some.

There is no way, this is not his strong point ah!

But Ji Feng pondered for a moment, suddenly said: "I do have a way, I just do not know if you dare to use."

Xiang Yongzhan immediately asked, "What method?"

Ji Feng faintly smiled: "Remember the time I went to save you on the deserted island in the southeast, we captured two senior reformers, how did I interrogate them?"

Xiang Yongzhan's eyes instantly lit up: "You're talking about neurotoxin?"

"That's right!" Ji Feng nodded, "If the neurotoxin is used, Ishida Ono even if he is more shrewd and stubborn, he has to say what he should or should not say, except that if this neurotoxin acts on his body, he will turn into an idiot in eight out of ten `9"

"Become an idiot?" Xiang Yongzhan frowned: "Just like those two transformers?"

"More idiotic than them."

Ji Feng said: "Those two transformers because the physique is different from ordinary people, so they also just can not stand the stimulation of bioelectricity, but the brain is not affected too much, but if the replacement is Ishida Xiaoye, he certainly can not stand, then we will at most interrogate the general, and then he will become a real idiot! That's why I'm asking if you dare to use this method."

Idiot

Xiang Yongzhan could not help but hesitate, he said: "I really can't make a decision on this matter, after all, this guy is the head of the dynasty organization we caught, or very valuable, I have to ask for instructions from above before deciding."

Ji Feng spread his hands: "As you wish."

For this operation, Ji Feng gave himself the position is, on the side to help, by the way can destroy the dynasty in China's roots, catch the king, that is naturally better, if it can not be destroyed, then he can help as much as possible.

Because now the military has fully intervened in this matter, he as a civilian, no official position on his body, but also can only look at the side of the action, busy time to help a hand.

Of course, eradicate the coveted Tengfei Group of those bastards, Ji Feng is still very interested, but also obliged to!

Chapter 1665

Time always passes quickly, in the blink of an eye, more than an hour has passed, Ji Feng and the others took the plane, landed in the barracks of the South Guangdong Military District.

As soon as they got off the plane, Ishida Ono was escorted into a building. Ji Feng and Yi Xingchen were arranged to rest in the barracks, while Xiang Yongzhan went to go through the formalities with the people of the South Guangdong Military Region, and also to ask for instructions from his superiors.

Because the method that Ji Feng said, although it would turn Ishida Ono into an idiot, but there is no doubt that that method is extremely effective.

Without saying anything else, as long as the neurotoxin is used, it is already clear whether the plan that Ishida Ono finally said is true or not, if it is true, then it is naturally good, and subsequently follow that plan, I believe that we should be able to capture the king without any problems.

But if it is false, this plan can also be ruled out, we can all focus on the first plan, and no longer have to make any dilemma.

However, Ishida Ono is, after all, the manager of the dynasty captured by the Chinese side, no matter what, is also a management person, a supervisor.

Among the captives captured in the past few years, he is still considered to have some status, so Xiang Yongzhan can not take the liberty to deal with it, must ask for instructions before deciding exactly what to do.

“Old Yi, this time the operation, you few are just responsible for helping on the periphery, do not risk fighting.” In the guest room, Ji Feng admonished Yi Xingchen and the others, “We are here to assist the military in the capture operation, don’t get confused with this primary and secondary.”

Yi Xingchen smiled and nodded.

“In addition, even if the plan is well thought out, there will definitely be negligence, so you guys will help pick up the slack or catch some missed fish at that time.” Ji Feng said again.

“Understood.” Yi Xingchen nodded his head.

“There are also weapons” Ji Feng added: “If there is a firefight in the course of action, the first thing we should take into account is our own safety, as to whether we are using weapons, or the impact or whatever, are not as important as safety important.”

“Boss, rest assured, this is not the first time we have carried out a mission.” Yi Xingchen said easily, “We have a number in mind.”

“That’s good.” Ji Feng smiled and nodded his head.

“Dynasty has a lot of people, they just go anywhere to grab a few people, after transforming them, with biological bombs in their bodies, those people have to obediently listen to them, so they have a constant stream of fighters ah dead soldiers and so on, I can’t compare with them, I had a hard time to find a few of you by all means, not even one less.”

The people in the room could not help but laugh, Ji Feng said frankly, they are also comfortable in their hearts.

“All right, you guys take a rest first. I’ll let you know when the action starts.” Ji Feng smiled and stood up, white spider immediately followed.

Two people out of the room, Ji Feng could not help but say: “White spider, now we are in the barracks, there will not be any danger, you also take a rest first, follow me all day, you also worked hard.”

White spider that fair face with a smile, gently shook his head: “I’m not tired.”

Ji Feng wanted to say more about her, but as a result, the white spider just pursed her lips and smiled lightly, Ji Feng could only shake his head helplessly and let her go.

The first thing you need to do is to find a step in front of the barracks and sit down. White spider also followed and sat next to him, and did not speak, this moment she, looking very quiet, completely unable to see that she was once a cold killer, and now even more unable to see that she is a guard.

If the white spider in the dress can be slightly open, wear a skirt, or wear hot pants and so on, walking in the street will definitely let all the men walk into the wall, let the women cover their faces and walk, the rate of return is naturally needless to say.

Especially, the white spider also has so a kind of steely temperament, the same is also very attractive.

“Ji Shao, you Why are you looking at me like that? Do I have something on my face?” Seeing Ji Feng staring straight at himself, the white spider could not help but have a slightly red pretty face.

“Hehe”

Ji Feng laughed, he suddenly asked, “White spider, I ask you a question, must answer me honestly.”

White spider nodded and said, “You say.”

“You have such a good kung fu, and the person is also so beautiful, there are other aspects of talent no matter where you are placed, you will be outstanding, but you are now just following me as a guard, do you feel aggrieved in your heart?” Ji Feng asked very seriously.

In particular, at the beginning when the white spider came to him, not willingly themselves, but he asked for it from Xiang Yongzhan, strictly speaking, in exchange for other conditions.

Later on, the two of them got along much better, especially after the fiasco in which the white spider and Xiang Yongzhan passed messages, their relationship was better.

The relationship between the white spider and Xiao Yuxuan is also eased a lot, some time ago he sent the white spider to spy on Cheng Haotai, was Xiao Yuxuan met, the latter also said that her relationship with the white spider has been very good.

This made Ji Feng very pleased.

But at this moment, Ji Feng thought of their previous acquaintance experience, white spider’s hands, and white spider’s looks and talent, he suddenly felt, white spider so with their own side, even took the salary do not know where to spend, so will not be too aggravating to her?

Does she have any complaints in her heart?

“Complaint?”

The white spider smiled and was stunned: “How could it be aggravating? I feel very good ah.”

Ji Feng was surprised and asked, “Very good?”

White spider pursed her lips, beautiful eyes blinked: “Yes, I do feel very good ah.”

Ji Feng could not help but laugh and ask: “Then you tell me, follow me, you actually feel good there?”

White spider in his side as a guard, all day tense nerves not to mention, at least, some of the messy work is done by her, for example, let her go to get something, or Ji Feng go where, let her wait outside, and, her life work and rest time, completely are based on Ji Feng's work and rest time as the standard.

If there is any unexpected situation, then no matter how late, the white spider has to take up the guard duty, such a life, the white spider still feel good?

Ji Feng thought to himself, if it was himself, if it was necessary to do, for example, lack of money, and someone paid to hire him as a bodyguard, then he certainly can do it, but in his heart, certainly not think this job is very good.

So, for the white spider's answer, Ji Feng was amazed.

White spider smiled, she sat on the steps next to Ji Feng, legs curled up, elbows propped on the knees, one hand dragging the chin, beautiful eyes looking into the distance, seems some longing look.

She was wearing a casual clothes, a pair of white board shoes on her feet, the whole person looks home and beautiful, such a beautiful woman seems to be longing for the future, can be really beautiful.

"Young Ji, the reason you are surprised is because you don't know what my life used to be like."

White spider said: "In the past, every time I woke up, I would be glad to be alive, but every time I fell asleep, I did not want to wake up, but I often had nightmares In fact, this is all okay, the most difficult to endure is loneliness. No friends, no acquaintances, not even a person to talk to, and, even when injured, do not dare to go to the hospital, can only find a black clinic to treat"

As the white spider narrated, the image of a lonely and helpless killer appeared in Ji Feng's mind.

"This is just after I became an adult, as for when I was a child" A painful look flashed across the face of the white spider, she shook her head and did not say anything more about the past.

"Later took a mission, did not expect to be assassinated, after waking up, my body was implanted with a biological bomb!" White spider said, "I witnessed those who disobeyed, was detonated biological bombs in their bodies, and then those people became meat paste so I joined the dynasty, and then gradually became the head of the Western Xia branch."

Ji Feng nodded slightly, these experiences of the white spider, he had heard of them before, only rarely heard the white spider mention her childhood experiences.

White spider shook her head and smiled, said: "At that time I don't know how long I have not laughed, compared to now, I am simply living in two worlds. Now with you, at least not alone, and and you are very good"

White spider very vaguely said a, spare to Ji Feng's ears, actually did not hear clearly what she said in the last sentence.

"And ah, back home, I really think of that as my home, I like them a lot, also like that home, also like to follow you." Speaking of this, a blush emerged from the white and tender face of the white spider, but quickly disappeared, "You think, what do I have to be aggrieved?"

Ji Feng listened, could not help but smile, patted her hand, the heart does not know what kind of feeling.

“Buzz~~!”

Just at this time, a roar of the engine suddenly came, Ji Feng two people looked at the sound, saw a military jeep quickly drove over, came to the front, Xiang Yongzhan jumped down from the car, a camouflage uniform, he walked over in stride: “Ji Feng, there is news.”

Ji Feng immediately asked, “What about it?”

He knew what Xiang Yongzhan meant when he said there was news, it must be that Xiang Yongzhan asked his superiors and got a reply.

Xiang Yongzhan pointed to the barracks, “Let’s go in and talk.”

Ji Feng nodded slightly and went into the barracks with Xiang Yongzhan, and the white spider waited outside very consciously.

“The top said that it is not recommended to take which method you said.” Xiang Yongzhan said openly, “I also applied extremely hard, but what the top means is that we did capture a lot of dynasty managers, but that is all their armed forces, we still know very little about the dynasty’s power in the open, so this Ishida Ono is very important, we can’t let him become an idiot.”

“Then that means we have to take the first plan?” Ji Feng asked.

“That’s right!”

Xiang Yongzhan nodded and said, “However, the top also took into account our difficulties, so they decided to increase their support and provided a lot of support, so we can act tonight!”

Chapter 1666

It was getting late at night, on the outskirts of the city of Yuezhou in Southern Guangdong.

Although this place is already considered a suburb, but in fact, its prosperity, but far from the general sense of the suburbs can be compared.

Here there are very lush trees, even in winter, you can still see a patch of green, especially on both sides of the road, more trees, come here, let people feel as if there is no winter here, still so warm.

So often people say that he may not have witnessed snow for many years, this is not an exaggeration, many places in southern China, it may not have snow for many years.

Because of this, and the north is different, this Yuezhou is very warm, the more you go to the suburbs, the more you can see lush trees, although many of these trees Ji Feng can not name, but there is no doubt that since growing up in the cold north, this winter is still so warm scene, Ji Feng is really the first time to see.

And more unique, there are some buildings on both sides of the road.

Perhaps this is a characteristic of Yuezhou, along the road slowly, not much time to see such as restaurants, hotels, convenience stores or some other profitable places, these places are some distance from the road, some separated by a few dozen meters, some may be farther.

Because there are lush trees on the side of the road, so at the intersection, each business is equipped with signs, you follow the signs into, you will see a path that has been extended to the entrance of those places, looks like a secluded mountain paradise, the environment is really beautiful.

Ji Feng can't help but see a bright, even at night, the landscape is so beautiful, not to mention the daytime.

Just look at the environment, it is worthy of the capital of the first economic province of China, not only in the economy is far ahead, but also, in these software and hardware facilities, is also ahead of other provinces and cities.

However, today Ji Feng is not to see the scenery.

Their goal was a five-story building that stood between the lush trees – a private clubhouse.

At this time, Ji Feng and Xiang Yongzhan and others drove directly into a hotel diagonally opposite this private club, they pretended to be passing travelers, and seeing that it was late, they were ready to take a break here.

The car stopped, and Xiang Yongzhan and the others walked into the hotel and asked for a private room.

Under the leadership of the service staff, Ji Feng and the others were taken to a private box on the second floor, with White Spider and Yi Xingchen and the others following him closely.

However, as soon as they entered the box, Ji Feng could not help but be stunned.

I saw that the compartment was complete with tables, chairs, benches and so on, and at first glance it was indeed a compartment, but the odd thing was that there were several extra cabinets, and, in the position near the window, there was a telescope.

At the same time, in one of the walls of the compartment, there is a small door, Ji Feng pushed open to see, found that there are two beds inside, which is actually connected to another compartment

"This compartment, which was previously used by the brothers of the Intelligence Division, is now given to us." Xiang Yongzhan saw Ji Feng surveying the environment and couldn't help but explain.

Ji Feng's action seemed normal to him, a vigilant person, once in an unfamiliar environment, the first thing to do, is to first observe the surrounding environment, to write down all the things that need to be remembered, for example, where there are trails to escape at any time, and so on.

The vast majority of soldiers have this habit, and with Ji Feng's hands and the professionalism he has shown in the past is enough to prove that he may be more alert than even the warriors of the Battle Brigade, so Xiang Yongzhan did not find it strange at all to see this.

"What is the situation now?" Ji Feng asked.

“Don’t know yet, the head of the intelligence office will be here soon.” Xiang Yongzhan said, while bending down and aiming his eyes at the binoculars, staring at the opposite side.

Ji Feng, on the other hand, stood at the window and pulled the curtain open a very thin gap, just enough to allow his gaze to pass through and see the private clubhouse diagonally across the street.

Because the distance is a bit far, and at night, Ji Feng can not see too clearly, just can see, the opposite building five floors, each floor has a window in the light, but because the opposite building also has curtains, and so far away, a distance of several hundred meters, so Ji Feng also can not see clearly inside the scene.

“It seems that the business of this club is not bad!” Ji Feng looked while laughing.

Now it is late at night, but this club is still so bright lights, this is not yet counted, but look at the courtyard parked cars, almost the entire courtyard, and from time to time there are cars driving to the opposite of the club, it can be said that the club’s business is very good.

Xiang Yongzhan sneered: “Who knows whether this is really good business, or these people come to do some fly-by-night things?”

Ji Feng nodded with a smile and said, “That’s true.”

If this club is really the king’s hideout, or if there are some important people landing inside, these people still come here late into the night, there will be something to say.

“Knock, knock, knock!”

At this time, a knock came on the door, followed by a man in a suit walking in.

Xiang Yongzhan said at once: “Director Liu is here?”

The two shook hands, and the man called Director Liu said, “Old Xiang, we don’t need to be so polite, we’re all acquaintances.”

Xiang Yongzhan nodded with a smile and said, “Let me introduce to you, this is my friend, Ji Feng, who is also a participant of this operation. Ji Feng, this is Director Liu of the Intelligence Division of the South Guangdong Military Region, also an old friend.”

Ji Feng then immediately understood, it seems that this Director Liu, in the military should be the Xiang family lineage.

Like the local, the military is also divided into factions, from the general aspect, can be divided into hawks and doves, hawks are tough, aggressive, or somewhat radical, the main war.

And the doves are moderate, or rather, opposed to war.

And from the small side, it is the various families, or some like-minded people formed a similar alliance or something, which is even a faction.

Of course, the strength of the Xiang family, is definitely a lineage of its own, and a very strong faction.

This is not, even in the South Guangdong military region, the Xiang family also has people here.

These thoughts flashed through Ji Feng's mind, and he politely extended his hand: "Hello."

That Director Liu also extended his hand at the same time and shook Ji Feng's hand, smiling, "Good, I was worried about the lack of manpower, but now it seems that my worry is superfluous."

Ji Feng smiled and nodded his head in greeting, and did not make too much politeness.

Xiang Yongzhan said, "Old Liu, tell us about the situation."

Director Liu nodded and said, "Since we received the news, we began to send people to investigate this club, at first did not find any suspicious people, except that the business of this club is a bit good surprisingly, better than the business of other places of the same type in the surrounding area."

Xiang Yongzhan nodded and said, "It seems that the other party is still very careful. Other than that, is there anything else going on?"

"Of course!"

Director Liu said, "The Intelligence Division has deployed nearly one-third of its people, and this is still in our own territory, if this still can't find out anything, then I, the Director of Intelligence, can go home and hold the baby."

Ji Feng and Xiang Yongzhan could not help but smile faintly.

Xiang Yongzhan asked, "So what did you find out?"

"Arms!"

Director Liu blurted out, "Because of this private club, only members can enter, so we entered it through a special method, as a result, our intelligence officers found that there will be weapons in this club, and there are quite a few weapons!"

Xiang Yongzhan immediately frowned: "Indeed! These motherfuckers have learned to be smart now, not all rely on the transformation of people"

In the past, the dynasty's people rarely used weapons, except for those armed people on the periphery. And those transformers, but rarely use weapons, basically relying on their own perverted strength.

Director Liu continued: "In addition, the security guards in this club, are also fighters, according to our investigation found that this club, there are at least ten illegal immigrants! Because in China simply can not find their files and identity."

"Could these be reformers?" Xiang Yongzheng frowned.

"That's not so clear." Director Liu shook his head, "Because the other side has an extremely strong anti-surveillance ability and is very vigilant, we did not dare to go too far, only checked the periphery."

"That's normal."

Xiang Yongzhan nodded and said, "You may not be too clear, transformers are also divided into several types, some transformers, unless he himself actively exposed, otherwise, they look no different from normal people, it is normal that you can not find out."

The task of dealing with the dynasty has always been the responsibility of the Jiangzhou Military Region and the Yanjing Military Region, Director Liu is in South Guangdong, it is normal that he does not know much about this.

Then, Director Liu said some other things, so that Ji Feng and Xiang Yongzhan had a general understanding of this private club diagonally across the street.

This is the same as what Ji Feng guessed, they could not accurately find out if the king was here, not because the people in the intelligence service were not capable, but the guy, the king, was too mysterious.

What does he look like, how old is he, etc.

These questions, even Ishida Ono do not know, just listen to the voice of the king should be a male, other than that, no one knows more specific information about the king.

Perhaps the king may be a small security guard in the clubhouse may also be possible, he just do not reveal his true identity, who can know?

In this case want to find out about him, that is simply impossible.

Especially, also in the case that the top is not allowed to turn Ishida Ono into an idiot, as a way to catch the king on the hook

“Now the situation is this, old Xiang, how do you plan to act next?” Ji Feng asked.

Chapter 1667

“Now the situation is like this, old Xiang, how do you plan to act next?” Ji Feng asked.

“There must be some action!” Xiang Yongzhan said without hesitation, “Now everything is ready, just waiting for us to act, how can we not move?”

“Yes, there must be action.” Ji Feng also nodded, “and must act as soon as possible, the faster the better!”

Tonight, both for Xiang Yongzhuang and for Ji Feng, it is necessary to act.

For Xiang Yongzhuang, since it has come to South Guangdong, and also came to the diagonal opposite of the king’s hideout, the two sides are only a few hundred meters apart, if the special operations brigade warriors a full sprint, it will not take half a minute, and even, if the two sides set up machine guns upstairs, they can strafe each other!

How can there be no action when you are at this point?

Besides, for this plan, a lot of support was given from above, whether it was the Jiangzhou Military Region or the South Guangdong Military Region, or even the Yanjing Military Region, all forces were mobilized, including the intelligence department, and the special departments of the state, all ready to capture the king.

And the special combat brigade warriors are all here, Ji Feng also brought his people to South Guangdong

If you use a phrase to describe the current situation, it can be said that the arrow is on the string, has to be sent.

In fact, if only these pressures, to the Yongzhan are indifferent, people can come back again, the power mobilized from above, can also wait a while to say well, anyway, are just to better complete the task, in order to the most secure capture of the king.

But, time waits for no one!

Since the king aimed at the Tengfei Group, then, he could not not be concerned about the situation in Jiangzhou, now it has been five or six days, if you continue to delay, it is possible that the king will hear what the wind, and, at the time of the arrest of Cheng Haotai and Ishida Ono, it is not a little movement.

Although at that time Ji Feng did not know that this matter actually also involved the dynasty, but there is no doubt that the confidentiality of the action did not do the best, and the arrest was also very hasty.

In this way, it is possible that the king will hear the wind.

So now one more minute of delay, the action is one more point of failure.

This is the most headache to Yongzheng and Ji Feng, their side has not been fully investigated, but the other side has the possibility of escape at any time, so the king was surprised, then he may immediately disappear thousands of miles away, or directly change his face, if you want to find him again, it will be difficult.

Time is not on my side!

“If we act now really have no certainty at all!” Thinking about it, Xiang Yongzhan couldn’t help but shake his head again.

“Yes, it is undeniable that as long as we burst in, we will definitely gain something. But, in the end, how much can be gained, it is not easy to say.” Ji Feng said, “If we accidentally get lucky, we might be able to catch the king, but how likely is that”

Speaking of this, Ji Feng also could not help but shake his head and laugh, like this completely passive situation, he really encountered the first time.

Even before by Cheng Haotai and Ishida Ono calculations, he was completely at a disadvantage, he has not been so helpless. Because at that time, he still had the capital to negotiate in his hands, that is, the Tengfei Group.

As long as Ishida Xiaoye still has a desire for the Tengfei Group, then he does not dare to fish to death, Ji Feng will have the opportunity to fight back.

But now is different, now the action only two results, either to catch the king, that is all happy, or, it is likely to lose the opportunity to capture the king forever.

Like the king kind of person, is certainly not in the same pit fall twice.

What to do?

This is the word that Ji Feng and Xiang Yongzhuang now ponder the most, whether they should act or not, how should they act?

“No need to think about it!”

Xiang Yongzhan made a decision: “Now the time is already late, I first change clothes, sneak into the opposite clubhouse, you guys wait for my signal, if there is really no trace of the king, then we suspend action, wait until tomorrow, whether the king is inside or not, we have to end this stronghold of the dynasty!”

As he spoke, he turned around and walked towards the next room, “I’ll go change.”

“It’s better for me to go!”

Ji Feng stopped Xiang Yongzhan, he said, “When it comes to sneaking, I think I might be more professional.”

Xiang Yongzhan shook his head and said, “Don’t bullshit, of course such things are done by professional soldiers, you forgot that I said you were the finale.”

“Bullshit!”

Ji Feng hummed: “It depends on who is more suitable to do this!”

White Spider hurriedly stepped forward and said, “Ji Shao, don’t be impulsive, it’s better for me to go, I

Xiang Yongzhan said, “Of course I am the most suitable

Ji Feng impatiently waved his hand and said cleanly: “All right, do not argue to argue, talking kung fu I am over there, you guys wait for my signal on the line.”

Saying that, Ji Feng said hello to the white spider, he took out a wireless headset from the bag and said, “In order to prevent accidents, I will prepare three kinds of signals, wireless transmission, cell phones, and this

He shook his hand, carrying a watch on his wrist: “This contains the transmitter, the white spider can receive the signal! Remember, whichever of these signals go off, you guys act immediately, but if the signal never comes through, no matter what happens on the other side, you guys don’t move, got it?”

“Ji Shao

White Spider was just about to say something when he was interrupted by Ji Feng. “Execute the order!” Ji Feng said in a deep voice.

“Yes!” The white spider could only nod, but there was still a trace of worry in those beautiful eyes.

“Okay, Ji Feng, if there is danger, you must not try to be strong, immediately report your identity, I believe you can delay them for a while, I will come over with the fastest speed

” said Xiang Yongzhan. “That’s it!”

Ji Feng casually dropped this sentence, the next moment, just see him pull open the curtains, leap, instantly disappeared in the darkness of the night, out of sight.

“Ka! Click~~!”

White spider casually grabbed a rifle from a soldier next to him, loaded the bullets and set it up in the window, aiming at the opposite side, ready to be able to give Ji Feng fire cover in case of an accident.

“Hey” that warrior then reacted and just wanted to speak, but was interrupted by waving his hand to Yongzheng: “That’s it.”

That soldier had to give up, just the face is some blushing, as a soldier, actually let people take the gun away, this is simply a dereliction of duty.

He knew the skills of the white spider, and it was normal for the soldier to be defenseless and have his gun snatched away.

“Everyone pay close attention, prepare for battle!” Xiang Yongzhan bellowed.

At once, all the people in the box were in high spirits.

And at this time, Xiang Yongzhan was looking through the binoculars, and the next moment, his eyes widened abruptly.

In this special binoculars, Xiang Yongzhan quickly caught the figure of Ji Feng, he found that Ji Feng had landed on the ground, and, began to rush towards the clubhouse diagonally opposite.

At this time, Ji Feng, like a ghost in the dark night, silently snake forward, the speed is frighteningly fast.

Even with this special binoculars to look at, to the battle of the war is a little unable to keep up with the figure of Ji Feng, see Ji Feng at this time sneaking speed is actually how fast!

From the hotel to the roadside bushes, how there are dozens of meters of distance, just a few breaths, to Yongzhan saw a black shadow instantly into the bushes, if not know Ji Feng went down, he even saw the black shadow, even if you do not think it is a person ran past.

That speed, it was too fast!

Xiang Yongzhan looked dumbfounded, subconsciously muttered: “..... pervert!”

Other than that, just this perverted general speed of Ji Feng, if he wants to attack and kill a person, who can defend against it?

Even, even if the opponent’s hands are holding a weapon, but even the eyes can not keep up with Ji Feng’s speed, what can the weapon do?

Xiang Yongzhan could not help but secretly staggered, really do not know how Ji Feng trained this body kung fu, is too perverted!

Seeing this scene, Xiang Yongzhan suddenly confidence multiplied, and his hanging heart, also finally fell.

Regardless of whether today’s action can be successful, but there is one thing, Ji Feng encountered the possibility of danger is not large. Even the eyes are difficult to keep up with the speed of Ji Feng, then how many people can find him?

And to take a step back, even if Ji Feng was discovered, who could catch him?

Unless he stood still and let those people shoot, if Ji Feng played his limit speed, I'm afraid those people with guns don't know which direction to shoot!

And at this time, the white spider, a heart is how can not be put, very worried.

This time to go on a sneaking mission, she should be the right, how can let Ji Feng to risk his life?

If something goes wrong with Ji Feng

The lower lip is tightly bitten by the teeth, but the heart is thumping, spare a long time to develop a hard psychological quality, at this moment also can not play any role, white spider can be really worried.

"I am concerned about the chaos, season young strong hands, certainly will not be any problem!" White spider is really worried, even hate to immediately rush out to follow Ji Feng, she can only in the heart constantly comforted themselves.

Yes, yes, concern is chaos, to calm down, only calm down, in order to help Ji Shao when he is in danger

Chapter 1668

Even late at night, this is located in the suburbs of the private club is still brightly lit, from afar, the lobby from time to time, there are service staff walking around, and some guests come and go in and out, it seems to be very hot.

However, perhaps because this is a private club, and the street stalls are completely different, so the guests who come here seem to be very quality, in the silence of the late night can rarely hear the noise.

If people who do not know see, they think that these guests with luxury cars have suddenly become quality, as if they are Confucian businessmen in general.

China is not short of profiteers!

Ji Feng stood in the bushes, seeing this scene, he could not help but shake his head.

He did not think the quality of these guests can be high, these people did not make noise or loudly talk and laugh, and this club can not be unrelated.

Ji Feng can clearly see that there are guests entering the club, even walking carefully, looks like a serious, seems to be afraid of disturbing others.

It seems that this club is still very influential ah!

Ji Feng could not help but secretly said, he is now near the club, not far away, the darkness can not block his gaze, he can clearly see the cautious look on the faces of these guests entering and leaving here is the hiding place of the king, or at least one of the hiding places, then, these guests are so careful, see how influential the king is.

Even if these guests don't actually know that the king is here, it can be surmised that there must be someone here that they tend to be attracted to but are in awe of exists.

This reminds Ji Feng of the scene when those cadres are visiting the door-to-door leaders – they neither dare to show off in front of the leaders, walking and talking carefully, but they can't not come, and they must be very active!

Ji Feng frowned slightly, he forgot to ask the Director Liu, who opened this club in the end.

These guests, who are they coming for?

The first thing you need to do is to get a good idea of what you want to do.

Or, is it someone else?

Only focus on the king, but ignored other things.

Ji Feng shook his head, no longer think about these. It is useless to think about it now, since it has come, then we must first take the most important thing to do, first find out, whether the king is in the club or not.

Retracted thoughts, Ji Feng began to observe the environment around this club.

In fact, in the box of the opposite hotel, Director Liu has generally introduced the situation of the clubhouse, especially the internal structure and layout of the clubhouse, Director Liu is focused on, because it is related to the next action can be carried out smoothly.

Ji Feng sketched the internal layout of the clubhouse in his mind while observing the surroundings of the clubhouse.

He found that there were two welcome ladies standing at the entrance of the clubhouse, and outside, there were four straight-bodied security guards who looked of good quality. But these are all on the surface, what Ji Feng really cares about, is the other side's layout in the dark.

Ji Feng stood in the bushes on the side of the road, not moving a muscle. Before determining the other party's secret arrangement, he first wanted to make sure that he was in the dark so that he could take the initiative.

Long-term training has long made him develop this habit of action into an instinct.

This is also the reason why Ji Feng would stop Xiang Yongzhan and White Spider and grab them himself. The first thing you need to do is to get a good idea of what you're doing.

Today's action is not like the past, they do not have time to waste, once the sneak is discovered, they do not even have the opportunity to make up for it, the action will directly fail.

The first thing you need to do is to take advantage of the fact that you are in a disadvantageous position and take the initiative to catch Cheng Haotai and Ishida Ono.

Suddenly, Ji Feng's eyes narrowed slightly.

On the side of the clubhouse, he saw a shadow flash by, although it was only a blink of an eye, the shadow disappeared from the corner of the parking lot courtyard wall, but it did not escape Ji Feng's eyes.

Sure enough!

The other side has arranged manpower in the dark.

The corner of Ji Feng's mouth pulled up a curve, secretly sneered, not to mention the other, just by the secret arrangement around the club, you can conclude that this is definitely not a serious place, it seems, Ishida Ono should not lie.

Ji Feng observed for a while more, no longer found any movement, his two legs suddenly launched.

"Hoo~~!"

A shadow flashed instantly, just a few breaths of time, Ji Feng reached the corner of the courtyard wall of the parking lot, he pressed against the wall, but his body did not lean on it, slowly approaching forward.

Light footsteps reached Ji Feng's ears, he immediately distinguished, just by hearing, the other party is a person, and should be a man, although the other party's footsteps are light, but Ji Feng can feel that the other party is deliberately controlled, in fact, the other party's weight should not be light.

These thoughts flashed through the mind, when hearing the footsteps have been close, Ji Feng instantly moved.

A gust of wind blew by, and Ji Feng had already rounded the corner with astonishing speed.

"Hoo~!"

Ji Feng instantly snapped the man's neck, at the same time, he also saw clearly the person's appearance, is a young man, the body does appear to be very strong, the waist is pinned with a baton, only the face is a little pale forgot, his face is pale, but because the throat was snapped by Ji Feng.

"Snap!" Ji Feng transformed his palm into a knife, directly cut at the back of this person's head, a biological current hit into his body, then, this person was thrown into the bushes

Ji Feng did not even go to interrogation, these people are even members of the dynasty organization, it is also a peripheral minion, there is no value of interrogation, but also a waste of time.

After solving this guy, Ji Feng will quickly sneak away, as to whether the guy will wake up Ji Feng is not worried at all, the biological current of the role of the great, no physical experience of the people, will not understand.

The next, Ji Feng along the courtyard wall at great speed, along the way, he met three more patrol guys, all of whom he soundlessly knocked out, and all thrown far away.

Ji Feng was not afraid that the people inside the club found these people missing, because he checked and found that these guys did not even have walkie-talkies on them, there was no tool to contact them, and they were obviously prepared to patrol all night.

Or, they had other communication systems, but it didn't matter, because Ji Feng had already come to the back of the clubhouse.

"Sure enough!"

Ji Feng could not help but curse, he found that the back of the clubhouse, the shortest window must be five or six meters high, that is to say, the lobby of the clubhouse has no windows at all, the outside is directly outside the smooth wall unless you can fly, want to go up, it is almost impossible.

This is nothing like what Director Liu said, it seems that this will be in the design of the club, some people have really gone to great lengths.

“Want to defend me?” Ji Feng could not help but coldly snort, this height for the general experts, are enough, but, want to difficult to Ji Feng, but not so easy.

Ji Feng slowly took a few steps back, accelerated fiercely, helped to run, and his legs suddenly exploded with an extremely powerful explosive force.

The next moment, his whole person is like a roc that rises to the sky, instantly rushed to a window!

The eyes swept through the window, which happens to be the corner of a stairway, he could not help but faintly smile, this place, generally is the blind spot of the camera.

He entered the clubhouse silently.

As expected, Ji Feng looked at the markings on the wall and found that this was really the third floor, that is, the following two floors at the back of the wall are without windows.

The third floor, mainly are separate rooms, or boxes, here are some important guests only to come to the place director Liu’s introduction to the third floor flashed in his mind, Ji Feng decisively chose to go downstairs, because the second floor is a banquet hall, where there are often some familiar bosses gathered in twos and threes to gossip, or to communicate.

So, going to the second floor is the best choice.

Ji Feng tidied up his clothes and found that he was dressed fairly well, not too casually, and was not too conspicuous here, and not easily discovered, so he went downstairs with a flourish.

However, Ji Feng just arrived at the second floor, he could not help but be stunned.

Only to see the second floor of the large hall, actually standing full of people, it seems to be some bosses, three or two with glasses, as if it is holding some kind of banquet, looks very lively.

Then look at these bosses, with a trace of excitement on their faces, and a bit of anticipation.

Ji Feng’s brow wrinkled imperceptibly, he then regained his composure, very naturally carried a glass of red wine from a tray dragged by a waiter, and leisurely walked into the crowd.

“This time, the Hong Sheng Group is really big, once the alliance is formed, then we will have a voice in Southern Guangdong!”

“Yes, after this night, we will be allies, Mr. Liu, please take care of each other in the future.”

“Where where, mutual care, everyone care, ha ha”

.....

That flurry of chatter around, reached Ji Feng's ears, he could not help but secretly said: "It seems that today he is by chance, what a banquet is being held here, it seems that is a company named Hong Sheng Group, to form an alliance of some kind, these people, should all be ready to join this Alliance!"

Hong Sheng Group?

Ji Feng shook his head, he had never heard of this enterprise, but he still first suspected that this group is not a problem, after all, this is the king's hideout, can hold this banquet here, think this Hong Sheng Group is not a good bird

However, there are now as many enterprises, Ji Feng listened for half a day, did not understand what this Hongsheng Group in the end is doing!

He could not help but secretly sigh: "Time is too tight, ah, otherwise, really should sneak in a few more times, a good investigation!"

Suddenly, a clamor came.

"It's starting."

"Look, the little prince is here, it's starting"

"It's really the little prince himself, Hong Sheng Group really pays attention to ah!"

Little Prince?

Ji Feng's eyes suddenly cold light flashed

Chapter 1669

"The little male?"

"Is it the little grandson who has dealt with himself?"

As soon as Ji Feng heard these people talk about the little grandson, his eyes suddenly narrowed slightly and a cold light flashed.

"If it's true" the corner of Ji Feng's mouth pulled up a slight arc, he secretly sneered: "I didn't think that just as soon as I came in, I actually met a big fish!"

Ji Feng secretly cold hum, if the little male in these people's mouth is really the guy who once fought with himself, then today it can be said that the big picture has been decided.

In Ji Feng's opinion, there is no difference at all between the weight of the little prince and the king, and capturing the little prince is no different from capturing the king.

These two, both are important members of the dynasty organization.

According to Ishida Ono, the king is the general head of the dynasty in China, whether in business or secretly in the armed forces, the king is in charge, only that, at the side of the king, there are also people sent by the dynasty from the headquarters to assist the king.

In fact, to put it bluntly, it is to prevent the king's tail from falling off, this is the same as the ancient emperors often send people to assist some of the leaders of the army outside, is the same, are to prevent those generals to embrace their own troops, this is normal.

The person who really controls the power of the entire dynasty in the whole of China is still the king.

In this respect, the importance of the king is unquestionable.

And the little prince, according to the information given by Ishida Ono, seems to be responsible for the dynasty's power in China's darkness, for business matters, the little prince does not seem to ask, he also has no right to ask.

In this way, the importance of the little prince compared to the king, that there is no comparison.

However, there is another point that is of great concern to Ji Feng – the little prince and the king seems to be a father-son relationship!

The little prince is the son of the king!

In this way, catching the little prince, in fact, and catching the king is not much different.

Even in a sense, capturing the little prince is more beneficial to the future situation and arrangements than capturing the king.

Imagine, if the capture of the king, the king will certainly be the first to know, and will immediately react, at that time, even if the king can be operated by the forces of the pot, but, subsequently, the dynasty will certainly also send a new person in charge over.

From the dynasty's attitude towards China, as well as all the previous dynasty's actions, the dynasty is absolutely impossible to give up this huge market in China, just in business, China's market can create wealth every year, even Bill Gates will never give up.

What's more, the dynasty has done so much, is it just for money?

Ji Feng thinks it is impossible, he can be sure that the dynasty must have other purposes, then, it is even more impossible for them to give up the infiltration of China.

The new person in charge, China knows nothing, and then it will be even more troublesome.

And what if it's just the capture of the young duke now?

The king is still the head of the dynasty in China, his son was captured, no matter how he reacted, at least the little prince is in the hands of the Chinese side, this is a big gain.

It can't be that the little prince, as the king's son, doesn't know any important information?

As long as the little prince is captured, it is the same as holding the bargaining chip to compete with the dynasty, and even, will form a huge pressure on the king, the next series of actions, have the basis.

These thoughts flashed in the mind, Ji Feng instantly had a decision, as long as the young male is the one who has dealt with himself, then catch him.

As for the king

One of his hiding places was breached, his son was caught, I believe that within a certain period of time, he is certainly as a bird of prey, then, the initiative can be all on the side of China.

“But

Ji Feng suddenly thought of a possibility: “If the king is also in this club, to catch or not to catch?”

If they are both father and son, is it better to catch them all in one net, or to put a long line to catch a big fish?

Before Ji Feng could think it over, he heard a clamor from the people around him, followed by a commotion from everyone and a buzzing sound of talking in the hall.

Ji Feng immediately became alert, only to see everyone looking toward the stairway with eager and expectant smiles on their faces.

Ji Feng then followed the gaze of these people around, and immediately found that there were three people walking down the stairs step by step.

These three people, the first one with an erect body, should look very fit, but when descending the stairs this person walking is very stable, looks like a son of the family, elegant movements, very poised.

However, this could not arouse the slightest interest in Ji Feng, he was most concerned about the man’s face.

Surprisingly, this person’s face, with a very strange mask, so that people can not see his real face is what kind of.

This mask, the two sides of this person’s face all covered, even the nose is covered, only in the lower end of the nose there are two round holes, in addition, his mouth is exposed, the chin is also outside, the eyes are also present, simply can not see the person’s appearance.

And on both sides of this masked man, respectively, followed by a man and a woman, the man is tall and sturdy, looks incredibly fit, a pair of eyes are even sharper, sweeping gaze, so that people do not dare to look at it.

On the other side, there is a beautiful woman, the woman’s one hand holding a briefcase, followed the masked man slowly.

Ji Feng’s gaze just swept over the bodies of these two, and then he looked straight at the masked man.

Little Prince!

That’s right, the mask this person is wearing is the same as the mask that Ji Feng wore that night when he met the little prince in Jiangzhou.

If you look carefully, you can also find that on this odd mask, there are some dent marks, that should be the traces left by the bullet grazing the mask, that night the two sides exchanged fire, the little son was chased in the middle of the night, by a stray bullet from the face is not impossible.

If from the mask can be completely sure, this person is definitely the little prince.

However, Ji Feng was not yet able to immediately draw a conclusion.

Because Ji Feng has not seen the real face of the little prince before, and now also has not seen the real face of this guy, if from the mask alone to judge this person is the little prince, this is more or less arbitrary.

Ji Feng stared closely at the masked man who was walking down the stairs, and quietly and quickly urged the biological current to act on the eyes, wanting to see the true face of this person through the strange mask.

However, Ji Feng stood in the crowd, people constantly moving in front of him, affecting his vision, but also, the distance between him and the masked man is still a bit far, for a time Ji Feng's gaze could not see through the man's mask.

He simply withdrew his gaze, since this person appeared, as long as he is really the little son, then he will not want to leave, so Ji Feng is not in a hurry to make a move, ready to wait to make an accurate judgment, see the right time to make a move.

The masked man walked down the stairs step by step, and a man and a woman behind him followed in step with him.

Soon, the masked man down the stairs, at this time, Ji Feng saw a club staff in overalls brought a microphone with a stand, placed at the entrance of the stairs, just in front of the masked man.

The masked man's only exposed mouth grinned, revealing his teeth he was smiling, and it looked like he was moving very elegantly, like a nobleman.

If from this point alone, this guy is worthy of the name 'Little Prince'.

But Ji Feng smiled indifferently and even shook his head.

He wanted to see what this guy was going to say. At the same time, Ji Feng is also moving forward without a trace, from time to time squeeze through the crowd, just because everyone is quiet, and no one is walking, so Ji Feng's movements have to be very careful, the speed of movement is very slow, can only see the seam, when people are not paying attention to squeeze forward a little.

"Wow"

Suddenly, the scene suddenly resounded with thunderous applause.

Ji Feng suddenly frowned fiercely, alert to the highest, while a slight shock in his heart, can not help but cursed: "Day!"

He really didn't expect the little prince to be so popular, these people all seemed to be rehearsed in advance, even the applause was neat and tidy, almost as if they were listening to the leader's speech.

Ji Feng glanced around those people, thanks to these people are still driving luxury cars wearing a brand-name boss, to a guy wearing a mask to hide his head, and actually so worship?

Regardless of how Ji Feng thought, those bosses around is still very enthusiastic applause, especially, Ji Feng saw a few people around, their faces actually still with the kind of excitement and eagerness, look at Ji Feng can not help but shake his head, but also some surprised.

That so-called what alliance, is really that attractive?

Just heard the discussion among those bosses, Ji Feng already knew that what an alliance will be set up here, and is initiated by the Hongsheng Group, these bosses are eager to join this alliance, all showed a strong interest.

Ji Feng wondered what this alliance was all about, and how could it make these bosses look forward to it so much?

At this time, the little gentleman with the mask took a step back and stood on a step, his hands pressed down, immediately, the applause below stopped, and each of these bosses stared at the little gentleman standing on the step, with an expectant look on his face.

“Ahem everyone!” The voice of the little gongzi wearing a mask was violently high, and then there was a pause.

“Wow~~”

There was another round of applause at the bottom.

Ji Feng had no choice but to follow the applause, he can always not maverick, which will only increase the risk of being discovered.

“First of all, I have to explain that for some reason, it makes my face injured, so I can only meet you all like this, I hope you can forgive me for my rudeness!”

At this time the young male wearing a mask spoke again: “Today, why all the bosses are here, I think you all already know very well in your hearts. That’s right, we, the Hong Sheng Group, initiated a proposal to organize an alliance! And before this, the bosses have been members of our club, we all each other, have established a relatively solid friendship, and this, is the basis of our cooperation!”

Ji Feng frowned slightly, he seemed to hear some flavor to...

Chapter 1670

Listening to the words of this masked young male, Ji Feng could not help but frown slightly, although these words seem to be a simple opening statement, but, Ji Feng heard a lot of information from it.

First of all, according to this person, these bosses present should be members of this club, and according to this person’s tone, this club has a very close relationship with the Hongsheng Group, but the specific situation Ji Feng is still unclear, in the opposite hotel box, he forgot to ask Director Liu about the background of this club or something like that.

But this does not prevent Ji Feng to make a judgment, the little gentleman speaks in this tone, obviously he himself as the host here, or, he was originally the owner here.

This is one of them.

Secondly, these owners have been members of this club for some time. The purpose of this person, or rather, the purpose of the Hongsheng Group, is to use this club to attract these bosses, make good relations with them, and then take the opportunity to unite with them and form an alliance of some kind.

The most important thing is that this alliance also seems to be very attractive, so that these bosses tend to rush.

This has a lot to do with that Hongsheng Group, which Ji Feng has never heard of Ji Feng deliberated in his heart, and at the same time, he was patient and continued to speak with the young grandson.

“Everyone is not the first time to come here, and not the first time to meet each other, for such a long time, we have established a strong friendship between each other, as I have said, this is the most solid cornerstone of our cooperation.”

The corners of the masked boy’s mouth turned up slightly, a confident and smug expression.

He continued: “Of course, although we have established a strong friendship between us, however, there are always areas that are not as good as they should be. One of the most obvious is how to develop and grow your bosses’ businesses, and in this regard, I believe all the bosses present must have some distress.”

Those bosses at the bottom couldn’t help but nod their heads one after another, agreeing very much with what the young gongzi said.

Obviously, these words of the young gongzi had spoken to their hearts.

Some bosses even talked about it.

“What the young duke said is right.”

“Yes, our company, we should all have problems in this area, which is the most headache.”

“That’s right that’s right, I’ve also been anxious for some time recently”

.....

Listening to the following flurry of discussion, the little grandson’s mouth corner up more powerfully, the amplitude is greater, he raised his hand down the virtual pressure, those bosses suddenly did not speak, all look at the little grandson, ready to listen to him.

“It seems that you all have a deep understanding of this, huh!” The young grandson laughed twice before continuing, “In fact, I can understand how you all feel, why do you say that? Although I am not very old and have not been in the business world for a long time, but my family itself runs a company, I think you have all heard of it, right?”

“Yes, we’ve heard a lot about the Hong Sheng Group!” A boss exclaimed.

“The history of the Hongsheng Group, and the process of its fortune, is also something we have studied and researched, ah.” Another person said.

Others also nodded along.

“Oh everyone overpraise, in fact, Hong Sheng Group can come to this point today, is also very difficult, luck, timing, people and, all aspects of the factors, which has the success of Hong Sheng Group.”

The young grandson laughed, “But, to say, this kind of timing, location and people, that is really good luck to the extreme to appear, many people often can not encounter such opportunities in their lives, often not with the timing but lack of location, with the timing and location, but no people and”

“For example, I know a boss, when he was young Of course, he is not very big now, it is the prime of life, please forgive my wording” the young grandson laughed.

The following people are also kindly laugh, they all know that the little grandson is joking, let the atmosphere become a little more relaxed, after all, these bosses present, a large part of them are people to middle age, just a small part of the young.

And compared to the young grandson, these people are indeed quite a bit older.

Only Ji Feng, his face is slightly grave, in fact, he is slightly worried in his heart.

From the time the little grandson appeared until now, it was only a few minutes, but he had already mobilized everyone’s emotions, and quickly mingled with everyone, this person’s eloquence is really excellent.

“Well, please continue to listen to me, okay, not because I am young, everyone bullies me, right?” The young male said with a smile.

“Oh”

There was another burst of laughter below.

The little gentleman continued: “I just said the boss, he used to start a small workshop when he first started, when the development of the beginning, it is not too difficult, familiar with our environment in southern Guangdong know that our side is different from other provinces, where the business atmosphere is relatively strong, as long as a hundred thousand, a few machines, you can get a small workshop Although there is some hard work, but the small life can still live very well.”

Others have nodded their heads, the young man said the best.

South Guangdong is one of the first provinces to open up to the outside world, there are several cities in the development, the speed is amazing, even, some other backward provinces in China, and South Guangdong has a gap of a dozen or two decades, see how fast the development of South Guangdong.

And such high-speed development, naturally created a large number of business opportunities and employment opportunities, the number of foreign population, is really amazing, and therefore an extremely large consumer groups.

In this case, many people started a business, and it is not too difficult to operate, even if it is selling breakfast, as long as some hard work, a year can earn two or three hundred thousand, which is very normal.

Many of the people in the room, also started business at that time, so once the young male said, we all feel the same.

“At first, this owner’s workshop developed very smoothly, and business was also very good, and soon expanded production and had a small factory of its own.” The young male continued, “However, with the gradual expansion of production, the development of the company had problems because there were too many competitors because of the low cost of a small workshop.”

“And at the same time, because the government side does not guide, not to provide help, so the company has a crisis.” The young male said: “And, he also lacks sufficient funds to expand again, seeing the original red-hot small days, gradually become a little sad!”

The people present could not help but sigh one after another.

The reason is no other, everyone encountered the situation is similar, are the company has developed to a certain extent, are no longer able to expand the scale, can be said to have reached a certain stage of development, encountered a bottleneck.

“So I’ll say, this boss’s current situation is actually very embarrassing, to put it nicely, he’s called more than the top than the bottom, compared to those small workshops, his scale is much larger, and then compared to the really big companies and factories, his scale has some small, so that he is not competitive in all aspects!”

“Loans, banks are more willing to lend to those large companies, large factories, because people have the ability to repay, banks dare to lend to them, and with those small workshops than it, people’s scale is small, simply do not need a loan in cooperation with other enterprises is the same, if it were me, I would prefer to cooperate with There are strong large enterprises to cooperate, so more confident well.”

“Of course, now the government is to provide a certain amount of loan support, but everyone, if there is no relationship, or do not send benefits, we can really get a loan? This I will not say much, I believe that we all know in our hearts.”

“I believe all the bosses know what I’m talking about, right?” The young gentleman asked with a smile.

“Know, of course I know.”

“Yes, this is to the point to point out the difficulties of us small and medium-sized enterprises at present.” Another boss said.

“Little Duke, we all know what you said, and we all know that Little Duke is here to help us, but we can hardly wait, please say the following quickly!” One person was a bit desperate for more.

“Oh, it seems that this boss is in a hurry.” The young gongzi laughed and continued, “Well then, I will continue, those difficulties mentioned above are obviously what everyone will encounter or has encountered, but there is no solution, what should we do?”

“Form an alliance!” A person shouted.

Ji Feng's gaze abruptly followed the sound and looked over, the cold light in his eyes flashed, there is no doubt that this person who shouted, eight out of ten `nine is the trustee arranged by the little grandson inside the crowd!

At this moment, Ji Feng's face is very serious, the heart is cold hum.

Without waiting for the little prince to finish, Ji Feng already understood this person's intentions, or rather, the intentions of the Hong Sheng Group, or the dynasty!

–they want to contact these SMEs, forming a huge alliance, in other words, the Hong Sheng Group is to bring a large number of SMEs into their control!

Once this alliance is formed successfully, I am afraid that all those SMEs will be tied to the chariot of Hongsheng Group, and later want to break away, I'm afraid it's not so easy.

Ji Feng did not have to continue listening to know that the first small son is the statement of the difficulties of everyone, to the heart of these people, and then arranged for the trustees, to the small son to support the comic, to mobilize everyone's enthusiasm.

Then the next, the little gentleman will certainly draw a fragrant yellow pie for everyone to see the benefits of joining the alliance, so that everyone can no longer resist, a heart becomes hot hot hot, then I'm afraid that even join the alliance of some of the conditions are not to look closely.

That the final result
