

Campus Master 1671

Chapter 1671

Ji Feng some shivers!

He was really frightened.

The young grandson's clever tongue drummed up hearts and minds, coupled with the fact that there were trustees below who were constantly drumming, so that all the bosses present were all eager and eager to join this alliance right now.

Even the conditions of joining are not even asked clearly intended, or, is a lot of people are encouraged some faint head!

This is an extremely terrible thing!

This matter, let Ji Feng's back straight chill.

If the Hongsheng Group is a group of companies operating properly, or, even if the Hongsheng Group occasionally have any illegal behavior, but as long as it is within the scope of China, no more excessive things, it is understandable, after all, now the businessmen of China, want to strictly restrain them to operate within the framework of the law, which is indeed somewhat less easy.

After all, China is a human society, those huge network of relationships, as dense as a spider's web seems to be, anyone head-on into this web, are absolutely unable to break free.

You are determined to operate legally, but others make dirty tricks, all kinds of methods can be used, so you are tired to deal with. You are angry, a gnash of teeth, fuck, my relationship and not worse than you, you can use this despicable method to each other I, I can not use this way to deal with you?

.....

So, everyone will use a variety of methods to compete, to combat each other.

This is not to say that everyone's heart is so dark, but in this vicious competition, you want to be alone simply impossible, either, you also follow the flow, using this method to protect themselves, to develop the company, or, you will be extinguished, it is as simple as that.

This is mainly due to the country's system is not perfect, but also, with many officials inaction, malfeasance, or even more egregious behavior has a direct relationship.

But in any case, how vicious competition between everyone, will not spread too widely, and, in fact, the intention of the higher-ups is good, there is no evil scriptures, only crooked-mouthed monks read the wrong scriptures, just some of the officials below do not do the right thing.

At this time, if there is a very strong group of companies to come forward, the organization of many small and medium-sized enterprises, the formation of a business alliance, so that not only can fight for their rights and interests, but also we can develop together, so that they complement each other, but also have healthy competition

If there is really such an enterprise to come forward, it is really a good thing, is a great joy!

Such an alliance, whether for that large enterprises, or those who have joined the alliance of small and medium-sized enterprises, there are huge benefits.

Small enterprises can use the resources provided by large enterprises, and large enterprises, in turn, can subcontract out many of the side projects and focus on the big things, which is a win-win situation.

In fact, now a lot of celebrity clubs, or the re-establishment of some chambers of commerce, are indicative of this need in the market, we will be in this club, or in the chamber of commerce, mutual exchanges, sharing resources between each other, common development, so that you can do both competition, but also full cooperation, for the time being, this is definitely a very suitable path for business development.

And the most important thing is, no matter how big this alliance grows, and no matter how strong the large enterprise in charge of leading it is, but one thing will not change – they are all Chinese enterprises, operating within the framework of the Chinese government's regulations.

No matter what, this alliance will certainly not go against the state!

However, it is also the place where Ji Feng is most alarmed.

Because, he is currently in this club, is not a serious place, but the dynasty in China's general director, one of the hiding place of the king!

The most outrageous thing is that the initiator and organizer of this alliance is actually this young male wearing an odd mask and hiding his head, most likely he is the son of the king, then needless to say, this Hong Sheng Group, must also have an extremely close relationship with the dynasty.

An organization that is eyeing China, actually launched an alliance, wanting to clutch so many small and medium-sized enterprises in their hands is there something more outrageous than this?

How could Ji Feng not be alarmed?

Imagine, once the Hong Sheng Group took control of these enterprises, the formation of such a coalition, that will cause what kind of impact!

Ji Feng just roughly counted, and was shocked to find that the bosses present, there are at least one or two hundred people, which means that once these people have joined the alliance, then the Hong Sheng Group is equivalent to control a couple of hundred small and medium-sized enterprises!

Do not think that the so-called small and medium-sized enterprises, is not large, the capital is not strong kind of small workshops, this concept is wrong. The so-called small and medium-sized enterprises, it depends on what enterprises than!

You know, this is South Guangdong, one of the most economically developed provinces in China, open to the outside world for decades, how much wealth has been accumulated in the process, and how much wealth in the folk of these small businesses

Not to mention the other, just look outside the courtyard parked cars can be roughly guessed how much money these bosses actually have.

Look at those parked luxury cars, what BMW, Mercedes-Benz that belong to the general grade, you can imagine, these bosses actually have how much money.

There are fully one or two hundred business owners, these people, these people's businesses, if all together, that is definitely an extremely impressive figure.

Think about how many jobs these businesses create, how many migrant workers work hard here, and then wait for the New Year to bring their wages back, or to pay tuition for their children, or to give the elderly medical care, or to improve the lives of their families

Once these companies have joined the alliance, if the Hongsheng Group wants to do something, the consequences are simply unimaginable!

Unknowingly the power to penetrate into all walks of life in China, tens of thousands of people tied to their chariot, once something happens, then it really is the tail is too big to lose!

Even, if the dynasty is more arrogant, dare to negotiate with the Chinese government!

This approach is really poisonous.

If the dynasty and then make some other moves, that is really a soft knife kill bloodless ah!

Now, Ji Feng does not even need to look for evidence, can already confirm that this guy wearing a mask, eight out of ten '9 is the little prince!

If not the dynasty of people, can come up with such a poisonous method?

And at this time, the little duke was preaching the benefits of joining the alliance.

"Join our Hongsheng Group business alliance, in the future we can share resources, small businesses can not eat the large single, we all help together, and the large enterprises excess single, will also be distributed to small businesses, not only that, we work together to advance and retreat, together to win"

"Little Duke, you do not need to say, these situations we all understand before, we join!" A man shouted from below.

"Yes, we have all heard about the constitution of the alliance, next we will ask the little lord to come up with the official constitution, after we have read it, if we have no comments, we can sign the agreement." Another person said loudly, "My company is having a hard time developing now, just waiting for the alliance to be established, I can hardly wait."

"That's right, hurry up and give us the official constitution"

The people at the bottom said one after another.

Seeing this situation, the little male nodded his head in satisfaction and said, "Well then, since everyone is so enthusiastic, I will start distributing the constitution for everyone here"

Immediately after that, the woman standing behind the little gongzi, began to open the bag in her hand and distribute the information to everyone.

Ji Feng did not move and squeezed forward, now the people at the bottom were whispering and waiting for the girl to distribute the information, this was a good opportunity, no one would notice Ji Feng's walk.

Soon, Ji Feng came to the front of the position, he estimated in his heart that the distance is about the same, he immediately urged the biological current to act on the eyes, his gaze looked straight at the little gentleman standing on the steps.

The next moment, the mask on the face of the young male, as if it had become transparent, Ji Feng clearly saw the true face of the young male.

However, when he saw the little grandson's face clearly, he was stunned: "How is it him?"

Ji Feng found that behind the odd mask, there was actually a familiar face, it was a man of about thirty years old, slightly pale, but with shining eyes.

Ji Feng was not too familiar with this person, but he was sure that he had definitely seen this person.

That's right!

Ji Feng fiercely frowned: "It's him!"

He remembered who this person really was, this person was no other than the Xuan **** martial artist that he had fought with before – Wang Wenliang!

Ji Feng had seen this person, or when he first met Qiao Gakai in Jiangzhou, there were several experts following Qiao Gakai, it was a few experts of Xuan ****, when Ji Feng fought with Qiao Gakai and others, and the other side was seriously injured.

And then, Qiao Gakai's mother Qiao Rong brought people to retaliate, she brought more powerful Xuan **** experts, led by a man named Tian Guodong, this Wang Wenliang, is also one of them.

"He actually came here? His injuries are healed?" Ji Feng could not help but frown.

Ji Feng clearly remembered that at that time, Qiao Rong and others also returned in defeat, all of them were seriously injured, Qiao Rong was even unconscious, and several experts around her were also extremely seriously injured.

Although two years have passed, but the injuries Wang Wenliang suffered is not so easy to heal, because he was hit hard by Ji Feng with bio-current, if he can not dissolve the bio-current in his body, then Wang Wenliang will always be weakened, not to mention two years, even three or four years, it is impossible for him to get up.

But look at Wang Wenliang now, but the blood and vitality, looks like a good spirit, and the body is incomparably strong, where is like a person who has been injured?

What's going on?

How could Wang Wenliang be the youngest son?

Also, he is the young proprietor of the Hong Sheng Group?

The most critical thing is to catch or not to catch?

Chapter 1672

In the hall on the second floor of the club, the scene became lively for a while, all the bosses were in high spirits, some were whispering, some were seriously reading the alliance charter that had arrived, as well as other information.

Ji Feng stood at the front of the crowd, expressionless, just lowering his head, his mind in rapid thought.

Now the situation is clear, the Hong Sheng Group, represented by this young male, is uniting the owners of these small and medium-sized enterprises, ready to set up a business alliance.

Although Ji Feng has not yet seen the specific rules and regulations of the alliance, but he does not need to see it to know that, at the beginning, the Hong Sheng Group will certainly give these bosses a little sweet, so that others can see the benefits that can be obtained after joining the alliance.

In turn, the Hong Sheng Group will certainly have other initiatives to tie these bosses one by one to the chariot, their businesses all into control, and even, the Hong Sheng Group will certainly have follow-up means, so that these bosses want to quit is impossible.

This is in the step by step fishing ah!

See these bosses present that gleeful look, Ji Feng could not help but secretly shake his head, these bosses are afraid that they do not know, this stand in front of the compelling people, and strongly encouraged them to join the Union of the young male, what exactly is the intention!

If they knew, I'm afraid they would be afraid to avoid it.

Of course, this does not mean that these bosses are brainless and do not know how to distinguish between good and bad.

In fact, the responsibility does not lie with them.

If the Hongsheng Group itself is a formal group, this business, even if there is a little bit of the fly in the middle of things, it does not hurt.

At least, they formed this alliance, is certainly helpful to the bosses. However, if you want to get it, you have to pay, this is clear to everyone, so the formation of this alliance should not be a problem.

But unfortunately, the relationship between the Hongsheng Group and the dynasty organization is obviously not ordinary, Ji Feng even doubted that this so-called Hongsheng Group, will not be another name for the Bailian Group in China.

You know, before Ji Shaolei but investigated, Bailian Group once to enter the Chinese market with great fanfare, but in the registration of companies, they can not even provide detailed information and legal person information, now suddenly appeared a Hong Sheng Group, and seems to be so close to the relationship with the dynasty.

Ji Feng had to suspect so.

Dynasty is very clever ah, using the front of Bailian Group to attract the attention of those who want to, but in fact it is equivalent to divert their attention, I am afraid that this Hongsheng Group, is the real headquarters of Dynasty in China.

It is a pity that these bosses present are not aware of this, they still think they are holding on to the thick leg, follow the Hongsheng Group to mix food will be easier

They are also very poor, hard work from the family-style workshops to start a business, it is not easy to experience a dozen or two decades of hard work, to reach this point, it can be said to eat and drink, the small life is also very nourishing, but it is likely to be some ghostly words of the dynasty, to cheat on the ship of thieves.

When they react, and then want to get off the boat, it will not be so easy.

Thinking of these, Ji Feng heart for the dynasty of disgust deepened another layer, this organization, not only directly that living people to carry out that kind of transformation experiments, but also to focus on these hard-working people, saying that they exterminate humanity, it is not too much!

This is the same as those atrocities in China when the kiddies, and what is the difference?

Ji Feng can't help but hate to think, no wonder the dynasty can develop so much power in the boundary tent, the dynasty of this organization, and the boundary tent people is simply the stench, collusion, are not fucking things, no different from the animals, no wonder can fight the fire!

These thoughts flashed in his mind, but Ji Feng could not help but slightly shake his head.

Just secretly fierce, is unable to give the dynasty and the boundary canopy people to cause what blow, Ji Feng quickly deliberate, he knew that tonight he had to do something, now in front of him, only two choices, catch, or not to catch?

If you want to catch, you can only catch the little prince, and he is not really the little prince, now Ji Feng can not judge, but one thing Ji Feng can be sure, the king is certainly not in this club.

In fact, since the little prince just appeared, Ji Feng already knew that the king is definitely not here.

The king and the little prince is certainly not openly appear in the same occasion, but all a little vigilant words, they will not do so, in case they are caught, then it is a nest.

Moreover, people like them who hide their heads and tails, in fact, will gradually become somewhat distorted in heart, this kind of people, will gradually become sensitive, vigilant, and selfish.

They are certainly not going to put themselves in such a dangerous situation.

These are the things that Ji Feng learned in the training space, on human nature, Ji Feng grasp very accurately, thanks to his previous kind of difficult experience, let him see a variety of world conditions, on human nature that really see too clearly.

So, it is now certain that the important people in the clubhouse, on the little male one.

Never is decisive Ji Feng, this time is really some hesitation.

He was not sure of the identity of the little prince!

This Wang Wenliang, originally a master of Xuan ****, and Qiao Gakai is a master brother, and now he suddenly became the little grandson, so Ji Feng felt a little strange.

He was carefully deliberating for a long time, until the gorgeous lady sent the information to Ji Feng's hand, he snapped back to his senses, and immediately smiled at the gorgeous lady and nodded in greeting, and then quickly lowered his head and pretended to read the documents.

The beautiful girl was so interrupted, Ji Feng's gaze subconsciously swept from her body.

At once, Ji Feng's eyes suddenly narrowed for a moment.

Transformer!

And biological bomb!

Just now Ji Feng urged the bio-current to act on his eyes and see through the mask of the little male, after which he had not retracted the bio-current.

However, just now his gaze unconsciously swept from the beautiful woman's body, but unexpectedly saw through the beautiful woman's body, and immediately after that, he saw two strange things metal skeleton, and a biological bomb near the heart!

This woman, is actually a reformer?!

Ji Feng could not help but be very surprised, he did not have not seen the transformation of human and fussed, but because from the surface, but not at all see this woman's transformation of human identity!

You know, this is not the same as those ordinary transformers, just just just swept that glance, Ji Feng can be sure that this woman must be much stronger than those ordinary transformers!

Generally speaking, according to Ji Feng's experience in dealing with transformers, like her, at least belong to the senior transformers, but think of those senior transformers previously encountered ugly to the extreme Ji Feng could not help but be horrified, the dynasty for the human body transformation technology, and improve?

The first time I saw it, I looked at the man who was standing at the back of the little prince.

It is true!

This person is also a transformer, and, Ji Feng can clearly feel the huge energy contained in this person's body, he is definitely more powerful than the woman just now.

But from the surface, still can't see any difference, they are no different from normal people.

At this moment, Ji Feng finally made a decision – catch!

Must catch the little male!

There are senior reformers close protection, and also two senior reformers, this is enough to show the importance of this person Wang Wenliang, even if he is impersonating, but also must be very close to

the little son, catch him, as long as the action is fast enough, you can get from his mouth to find out the location of the little son.

Catch!

Ji Feng coldly snorted, and looked deeply at the little prince, and then he chose a position, ready to make a move.

At this time, the little prince spoke again: "Everyone, the club has arranged a resting place for everyone, you can rest while watching! When everyone has watched, we will come back here to gather."

The crowd then nodded, and then, under the leadership of the service staff, they followed upstairs.

Seeing this situation, Ji Feng could not help but be moved in his heart, he also followed upstairs, but when he reached the entrance of the stairs, his body moved, and suddenly jumped from the window and left the club.

To catch the little prince, the problem is not big, not to mention that there are two senior reformers protecting him, even if there are two more, Ji Feng also does not put in the eyes.

However, there are so many people in this venue, want to put them under control and block the news in time, Ji Feng alone certainly can not.

Since the little prince has no intention of leaving for the time being, they naturally came in handy to Xiang Yongzheng.

Ji Feng ran wildly all the way back to the hotel diagonally opposite the clubhouse with the fastest speed.

"Young Ji!"

Seeing Ji Feng come back, White Spider couldn't help but shout out in surprise.

Xiang Yongzhan also breathed a sigh of relief, and then asked, "How is the situation?"

Ji Feng immediately told the situation, especially his analysis and plan, and also detailed it all.

"Can't be sure if that's the little prince?" Xiang Yongzhan asked.

"I haven't seen the little prince's real face with my own eyes." Ji Feng said.

"This way"

Xiang Yongzhan pondered for a moment and nodded heavily, "Do it!"

The opportunity is just this once, and it is fleeting, as a professional soldier, Xiang Yongzhan knows this well, so he quickly made a decision.

Ji Feng nodded and said, "I also have the same opinion."

Xiang Yongzhan immediately said, "Then good, all listen to the order, prepare for battle! Ji Feng, take your men and take care of the back of the clubhouse, leave the strong attack on the sides and front to me."

Ji Feng did not have any opinion, he just proposed, "But there are many ordinary people in the clubhouse now"

Xiang Yongzhan laughed: "What do you think I mean by strong attack? Do not forget, we are special forces, of course, the best at special operations!"

Ji Feng was then relieved, he smiled: "Maybe I can also help!"

Chapter 1673

Xiang Yongzhan laughed, "What do you think I'm talking about when I say a strong attack? Do not forget, we are special forces, of course the best at special operations!"

Ji Feng was then relieved, he smiled: "Maybe I can also help!"

"You help?" Xiang Yongzhan glanced at him, "Forget who is the main character here? You old man or go to the back of the clubhouse to guard it!"

"Very well!"

Ji Feng spread his hands and turned his head to say to Bai Spider, "Let's go!"

White Spider pursed her lips and smiled lightly, of course she knew that Ji Feng and Xiang Yongzhan often hurt each other, and this time was no exception.

Seeing Ji Feng and White Spider leave, Yi Xingchen immediately waved his hand, and all the members of the battle team followed.

"Ji Feng, bring your weapons!" Xiang Yongzhan said.

"Bring it!"

Ji Feng smiled and patted his waist, where bulging, like a pistol pinned.

Xiang Yongzhan asked again, "Then how to contact?"

Ji Feng said: "Didn't you give me a military walkie-talkie? Let's use this!"

He took out a very delicate black machine from the bag carried by the white spider, about half the size of the palm of his hand, this is a special military walkie-talkie, strictly speaking, this can no longer be considered simply a walkie-talkie, because in addition to the walkie-talkie function, it can also be used for short-range location communication and other functions.

So to be precise, this should be a communication tool with special purposes.

Xiang Yongzhan nodded, he turned to the next Director Liu and said: "Liu, your people should also move, leaving two people here to monitor the situation, the other people, all follow the action, mainly responsible for the control of the clubhouse guests."

Director Liu immediately said, "Do not worry, this entire hotel is our people, ready to participate in the action."

"Good!"

Xiang Yongzhan let out a low bellow with a sense of purpose: "Action!"

With Xiang Yongzhan's order, everyone in the special operations brigade immediately moved quickly, they had already brought their weapons and were fully equipped when they were in the military camp, so they naturally moved swiftly at this time.

Ji Feng led his battle group, Xiang Yongzhan led the special combat brigade warriors, began to pounce towards the clubhouse diagonally opposite.

.....

Because Ji Feng came to scout before, has been the club in the shadows patrol staff all knocked out, so this time he led Yi Xingchen and others, very smoothly came to the back of the club.

And at this time, Xiang Yongzhan, has also led people quietly came to the periphery of the club.

At the time of departure, Ji Feng roughly swept a glance, Director Liu brought a lot of people, and special operations brigade warriors together, there are dozens of people, once the action later, want to control the situation, is enough to use.

However, this is far from enough.

Because this will be too many people inside, especially too many ordinary people, and those transformed human body, have biological bombs, that thing is not ordinary horror, compared to the general intensity of the bomb to be much more horrible, more powerful.

So in the action, the middle absolutely can not appear half an accident, otherwise, the consequences are unimaginable.

After deliberating for a moment, Ji Feng pressed on the watch on his wrist.

Immediately after that, a small metal ring poked out from the side, and Ji Feng tugged it with his hand and took out a very small headset.

He put on the headset and whispered, "Yao Zhijian, concentrate, the situation on the periphery can be left to you, if someone wants to escape, immediately shoot to warn, remember, there is really no way out of the situation, but also do not hit the vital"

"Yes, boss!"

Yao Zhijian's voice came clearly from the headset, "Someone escaped then shoot to warn, emergency, can hurt people, but do not hit the vitals!"

The first thing you need to do is to get a good idea of what you're doing.

The company's main goal is to provide the best possible service to its customers.

And then, Ji Feng said to Yi Xingchen: "Old Yi, see, this back two floors have no windows, later once the action begins, there will definitely be two people who can not go up, these two people just stay to squat outside, specific who stays, you immediately arrange, others, also all by you to command, including white spiders."

Yi Xingchen immediately nodded and said, "Okay!"

He had cooperated with Ji Feng for action not once or twice, so there was no need for any polite words.

With that, Yi Xingchen quickly divided the battle team into four two-person teams, designating two of them to stay in place, and they would be responsible for forming a human wall during the action later, and the others would step on their shoulders to go up, and after that, these two would be responsible for the vigilance outside.

After arranging the members of the battle team, Yi Xingchen suddenly reacted, "Boss, what about you?"

Just now Ji Feng said let him command all the people, including the white spider, but did not say that Ji Feng also listened to the command ah?

Ji Feng laughed: "We can't just wait here, there will be a few senior reformers inside the clubhouse, the strength is very strong, the special operations brigade is not their opponent, I have to solve them in advance!"

Yi Xingchen was immediately shocked: "Boss, this can not be."

White spider also could not help but say in an urgent voice: "Yes Ji young, why don't I go, now even if I encounter advanced transformation people, I will not be in danger"

Ji Feng waved his hand and laughed: "You will not be in danger, then I am even less dangerous line, do not argue, I have to go, otherwise, none of you can set it up, today's action may fail."

The two men and women who followed the young male Wang Wenliang are both senior reformers, and one is stronger than the other, the white spider facing one of them, at most, is only able to defend themselves, want to finish each other, I'm afraid it is only possible to fight an exhaustion.

But then, I'm afraid that everyone will be alarmed.

The two people who have been working on the project have been separated from each other, and this is the best time to act.

This opportunity is fleeting, Ji Feng naturally can not be here to dilly-dally.

He instructed, "Old Yi, remember, when you start to move, if you encounter reformers, don't tangle with them, shoot directly, shoot at the vitals!"

Although Yi Xingchen and the others have been in battle for a long time, but, they really do not have much experience in fighting with reformers, Ji Feng had to admonish them, these members of the battle group, each one of them he treasures, there is an injury, he does not want to give up.

Seeing that Ji Feng already had an idea, Yi Xingchen also stopped persuading, just nodded and said, "Boss, don't worry, I've dealt with those monsters."

"Young Ji, you have to be careful!" White Spider said with some concern.

"Don't worry!" Ji Feng smiled and patted her shoulder, and then slowly took a few steps back.

In the next moment, Ji Feng suddenly launched, the whole person instantly rushed to the window, he did not even pause a little, and instantly went in through the window.

Yi Xingchen and others looked shocked, it's not that they hadn't seen Ji Feng's skill, but this time, Ji Feng still gave them a very strong shock.

The other team members, more astonished, worship and so on, vary.

Originally, they thought that after this period of hard practice fitness gymnastics, their physique was obviously enhanced, and their hands were obviously much stronger, so they should be able to narrow the gap with Ji Feng.

But it did not occur to them that Ji Feng's hands were so strong that they could not look up to him.

There is still a lot of hard work to do!

.....

At the same time, Xiang Yongzhan's side also began to move. The warriors of the special operations brigade, as well as the warriors brought by Director Liu, all quietly entered the clubhouse from the left and right sides, leaving only a few warriors in ambush outside the main door.

"Pop!"

Ji Feng landed on both feet, just for a moment, he stood up straight, and it was as if he was walking leisurely through the general

"Third floor" Ji Feng just swept a glance and found that there were only a few service staff on the second floor, and there were no more bosses in the large hall. He then knew that those bosses had all gone upstairs to rest.

According to Director Liu's introduction to the club, the third floor of the club is the rest area, the fourth floor is the entertainment and leisure area, while the fifth floor is the VIP area, and further back, is the office area.

Obviously, those bosses should all be on the third floor.

"That's much better!" Ji Feng secretly said, since those bosses were in the rest area, it would be much easier to move.

"Stomp stomp stomp"

Just at this time, there was a sudden sound of footsteps from upstairs.

Ji Feng frowned and shook his head helplessly, "It seems that it's time to be a plumber again."

He fiercely longitudinal, directly overhead vent cover open, longitudinal into the ventilation pipe

Ji Feng did not see, in the side of the building windows, one by one, the warriors are also

At the same time, in a room in the office area behind the clubhouse, there are three people are talking.

These three people are not others, it is wearing a weird mask Wang Wenliang, and a man and a woman who followed him. At this moment, Wang Wenliang had already taken off the mask from his face, and his face wore a smug smile.

“Wenliang, it’s about time, right?” The man asked, “We need to get those people to sign the agreement as soon as possible, and our mission will be complete.”

“No rush, give them a little more time, I believe they are more anxious than we are, just now you guys saw how eager those people are.” Wang Wenliang smiled smugly, “Those silly asses, they really think they can get benefits from us, but they don’t know, how stupid they will be like that!”

“It’s better to be careful, the recent action should not be too big, Jiangzhou side is also planning at the same time, if the action is too big, it will attract the attention of the Chinese side!” The gorgeous girl said, “If something goes wrong, the king will not show any mercy.”

Chapter 1674

“It’s better to be careful, the recent movements should not be too big, the Jiangzhou side is also planning at the same time, if the movements are too big, it will attract the attention of the Chinese side!” The gorgeous girl said, “If something goes wrong, the king will not show any mercy.”

When the king was mentioned, the atmosphere in the room was suddenly frozen.

Even the three people couldn’t help but breathe suddenly, but they all concealed it very well, just a few breaths of work, has returned to normal.

Wang Wenliang mused: “If there is really a problem, the king, I will naturally give him an explanation. However, it is impossible for something to go wrong now. Previously, Xiaoye has reported that the Jiangzhou side is progressing well, and I believe it won’t take long to take down the Tengfei Group. So, all the more reason for us to make good use of this alliance!”

When the other two heard that, they couldn’t help but be astonished, then nodded heavily.

The woman couldn’t help but nod and said, “It seems that Ishida Ono is still progressing quite fast, so we do have to hurry up.”

The man also nodded, his voice was low: “If Ishida Ono succeeds, it will be a great credit, the technology of the Tengfei Group, the whole world is coveting, if there is no more movement on our side, I am afraid that the king will be very disappointed in us, by then, Ishida Ono is afraid that he will crawl on our head and shit!”

Wang Wenliang couldn’t help but sneer, “He doesn’t have the ability to do that!”

The girl said, “Then it depends on how far we can go in this business alliance.”

Wang Wenliang nodded and said, “Then, let’s get started. You two are responsible for informing those fools to gather in the hall, and it’s almost time for them to sign the agreement. As long as they sign the agreement, we will have succeeded in a large part, and this credit will definitely not be lost!”

The other two immediately stood up and said, “Yes!”

The beautiful girl took a few steps, but suddenly stopped again, turned around and asked, "Aren't you going?"

Wang Wenliang shook his head and said, "If I go, those stupid asses will think that I also attach considerable importance to this alliance, and even think that we can't wait for them to sign the agreement this person na, always make him feel hungry and thirsty at all times, so that he will be attracted to you this is the king said, I think, very reasonable, in fact, summed up in one sentence, people are guilty of cheap!"

The gorgeous girl nodded: "I understand."

Watching the two leave, Wang Wenliang's originally slightly pale face could not help but emerge with a smug smile, looking confident, as if everything was under control.

He casually picked up the mask that was placed on his knee and carefully fondled it in his hands, looking at his focused and soft eyes, as if he was caressing the face of his beloved woman, tenderly, yet carefully

"Old man, I have worn you for so long, and now, I am about to succeed." Wang Wenliang murmured softly, "Although this success, not brought by my own hands, but I am as soon as happy. Soon, I won't need you anymore, soon"

But gradually, Wang Wenliang's expression had changed.

His face actually gradually began to distort, and soon, it became hideous: "Ishida Ono, you took the Tengfei Group, I really have to thank you, but unfortunately, this group will not be controlled by you after all Ji Feng, you made me live a few years of unseemly life, and now, you are finally going to be unlucky! I will definitely trample you under my feet!"

Snap!

Wang Wenliang threw the odd mask onto the sofa, he casually picked up a cigarette from the small table next to him, stuffed it into his mouth and prepared to light it.

However, when the lighter reached his mouth, he suddenly paused again.

Immediately, Wang Wenliang's face was hideous, he suddenly seemed to be crazy, rubbed the cigarette to pieces, threw it on the ground again, and stomped on it fiercely a few feet.

"Ji Feng!"

Wang Wenliang was like a mad beast, with a low growl and roar in his throat: "It's all because of you, it's all because of you!"

"How is it because of me?"

Suddenly, a clear voice came over.

Wang Wenliang was suddenly startled, his body froze violently and his face changed dramatically: "Who! Who's speaking!"

He looked around sharply, but did not see any suspicious people, Wang Wenliang's expression then slightly eased, secretly said, is it because he was too nervous, or because he was hallucinating?

It should be a hallucination!

Wang Wenliang secretly thought, this situation has happened before, it seems to be sick again.

"That's all the guts?" Suddenly, the voice snickered.

"Swish!"

Wang Wenliang, as if his tail had been stepped on, suddenly stood up and turned around in place, alert beyond measure, but he still didn't find anyone appearing, and he didn't even figure out the direction of the source of the voice.

Wang Wenliang's breathing could not help but be a little sharper, and his voice also became urgent:

"Who the hell are you, don't pretend to be a god, come out if you have the guts!"

"Heh!"

The voice came again: "If I come out, you will be miserable."

Wang Wenliang laughed and said, "You think you can scare me with two words?"

As he spoke, Wang Wenliang slowly moved his body, and at the same time, his hand went to the back of his waist.

"Boom!"

Suddenly, a muffled sound came, and the next moment, I saw the ventilation window on the ceiling of the room fell down violently, and a black shadow also fell down.

Wang Wenliang was shocked, but his reaction was also very fast, and he fiercely pulled out a pistol from the back of his waist: "Pretending to be a god, give me death!"

Click~~!

Wang Wenliang fiercely pull the trigger, but suddenly shocked to find that the trigger seems to be welded seemingly, simply can not be pulled.

The first time I saw him, a young man was standing across from him with a teasing smile on his face, and the young man's hand happened to grab the pistol.

Wang Wenliang was shocked, he pulled the trigger again, but how can not be pulled. The youth's hand was like an iron pincer, firmly grasping the pistol, so that he could not pull the trigger with all his strength.

"Don't bother!"

The youth smiled faintly and with a flick of his wrist, the pistol came into his hand.

Stomp stomp stomp

Wang Wenliang backed up a few steps violently, until he hit the door, only then did he stop, and at this time, he could not help but see clearly the face of the person coming, and could not help but be shocked and exclaimed, "It's you? Ji Feng!"

The person who came was no other than Ji Feng, who came in through the vent. He had already concluded that Wang Wenliang came out to set up this what business alliance, since he had ulterior motives, then this person would definitely not be with the owners of those enterprises – usually, when bad people want to do something bad, they always have to calculate in a thousand ways, now seeing that the alliance is about to be set up, at this time, Wang Wenliang naturally has to well thought out, do not where a mistake.

So, he will definitely be in this office area.

So Ji Feng did not hesitate to come straight here, and as expected, he followed the voice and found that Wang Wenliang was talking with a man and a woman, and the content of their conversation, it is about the establishment of the alliance tonight, and Ishida Ono in Jiangzhou on the Tengfei Group!

After the two had left, Ji Feng showed up.

He was not worried that the two reformers would cause any obstruction to Xiang Yongzhan's action, because up to now, the two were not aware that someone had come in outside, and, I'm afraid they would still be informing the bosses one by one to gather in the second floor hall.

Taking advantage of this opportunity, Ji Feng would like to meet this so-called young male.

"If I remember correctly, your name is Wang Wenliang?" Ji Feng stood calmly in place, owning a majesty.

"You still remember my name? Ha!"

Wang Wenliang gave a fierce laugh: "It seems that you haven't forgotten what you did to me once!"

Ji Feng shook his head with a smile and said, "Don't think of yourself as so important, if I hadn't seen you by accident today, I really wouldn't remember you!"

Wang Wenliang was instantly furious: "You"

Ji Feng also ignored his anger, just faintly asked: "Just now I heard you talking to yourself, seems to hate me to the bone, can say why?"

"Hate you?"

Wang Wenliang smiled and laughed, then he gritted his teeth and said, "I hate you, of course I hate you! Ji Feng, I hate to cut you alive!"

Ji Feng was not moved, but only asked, "Why?"

"How dare you ask me why?" Wang Wenliang said angrily, "What did you do yourself that you don't know?"

“I’m sorry, I really don’t know!” Ji Feng said, “I only remember that when several of your so-called ancient martial arts experts tried to deal with me in Jiangzhou, as a result, you were beaten by me like dead dogs If that’s what you’re talking about, then I do remember!”

“It’s good that you remember!” Wang Wenliang’s words, with a strong hatred: “Because you are poisonous, let me live a life worse than death for half a year, it is also because of you, let me become now this appearance of inhuman ghost, you say, how should I repay you?”

Human being is not a ghost?

Ji Feng could not help but hear a movement in his heart, glanced at him, and then he was relieved: “So, you have also become a transformer!”

He just swept Wang Wenliang’s body with his perspective, and already knew that Wang Wenliang had actually become a transformer like the two people around him.

Moreover, Wang Wenliang’s transformation effect seems to be the best, his bones do not seem to be metal, and the difference between them and the real ones is so small that they can be faked.

If not look carefully, Ji Feng almost overlooked, in Wang Wenliang’s elbow joints are obviously very different from ordinary people, other joints are the same, but otherwise, his skeleton and ordinary people in the appearance of almost the same!

“It seems that you are also an advanced reformer!” Ji Feng said. Once he met three senior reformers, and they were more perfect than those he had met in the past, Ji Feng couldn’t help but pay attention.

Chapter 1675

“It seems that you are also an advanced reformer!” Ji Feng said. Meeting three advanced transformers at once, and they were more perfect than those advanced transformers he had met in the past, Ji Feng couldn’t help but pay attention to them.

It was obvious that the dynasty had made a breakthrough in the technology of human transformation.

Originally saw the man and woman with Wang Wenliang, their bodies were transformed human perfect, at least, even if they took off their clothes to stand in front of the crowd, as long as they do not take the initiative to expose themselves, I’m afraid no one will find that theirs is a transformer, at that time Ji Feng already felt that the dynasty’s transformation technology of the human body is very powerful.

And now that he has seen Wang Wenliang, Ji Feng was even more amazed.

Because, Wang Wenliang is obviously more powerful than those two transformers, Ji Feng even speculated that the kind of very close to real bones in Wang Wenliang’s body, should be a very special material, starting superiority should be far more than the metal bones used by other transformers.

The use of any new type of material means that the dynasty’s breakthrough in human transformation technology.

You know, it is not just the use of a new material so simple, because it also means that other parts of his body used materials, but also to match this new material to be able to.

To give a simple example, for example, if the engine of an airplane is used in the most broken car, the result is naturally imaginable, so since Wang Wenliang's bones are a new type of material, then the other parts of his body's transformation must also use more advanced materials.

Therefore, Wang Wenliang's combat power can be fully enhanced and become even more powerful.

So does this mean that after the dynasty makes a major breakthrough in technology, it will create even more advanced transformed people in large numbers?

If that's the case, with only three or five of these new types of advanced transformers, I'm afraid that it would take a dozen or even more special forces to deal with them, and they may not be able to leave the other side behind.

It seems that the dynasty is not idle when it comes to its own development!

Seeing Ji Feng's odd look, Wang Wenliang instantly felt humiliated, he felt as if he was a monster that was being surrounded by Ji Feng's tsk-tsk

An instant rage filled his chest, Wang Wenliang roared: "Ji Feng, the reason why I became like this is all thanks to you! I don't want to kill you all the time! Originally, you still had an expert protecting you, so I thought I would have to wait for some time before I could have a chance, but I never thought that you would throw yourself into the net! Hey! Today, I'm going to let you feel my anger, I'm going to cut you alive!"

Ji Feng shook his head imperceptibly and said, "Those who kill, people always kill! It was you who first sought my trouble before I struck, and instead of reflecting on your own actions, you counted this fault on me

It seems that even though you have been transformed physically, your brain is still so stupid!"

"Bullshit!"

Wang Wenliang roared: "At that time, I did not want to kill you, but you laid a poisonous hand on me!"

Ji Feng said indifferently: "To me, being seriously injured is no different from being killed, so why should I let you fight? Couldn't I return two kicks if you hit me with a punch? Since we are adversaries, there are no rules to follow, it seems that you are still too stupid!"

Wang Wenliang could not help but choke violently, yes, why should Ji Feng let others beat him?

But when he thought that Ji Feng actually said he was stupid, Wang Wenliang suddenly became angry: "If you have guts, say it again! Ji Feng, don't think that I can't help you just because I've become inhuman now, on the contrary, I've become this way, but in exchange for great strength, the current you is not worth mentioning in my eyes! How are you going to die?"

Ji Feng shook his head and asked again, "Don't rush to make a move, let me ask you, are you the little prince?"

"Your nonsense is too much!" Wang Wenliang couldn't hold back anymore and pounced, "Go to hell to find the answer!"

"That's not necessarily true!"

Ji Feng stood there without changing his face, just sneered, "It's you who should go to hell!"

Before the words fell, Wang Wenliang had already rushed to the front, and his punch with strong wind instantly came straight to Ji Feng's chest.

Ji Feng's eyes flashed coldly, he steeply turned sideways, Wang Wenliang's fist pressed against Ji Feng's chest, and in a flash, Ji Feng's fist hit Wang Wenliang's shoulder joint.

Boom!

Ji Feng's punch with a strong bio-current hit Wang Wenliang without reservation.

Instantly, Wang Wenliang let out a miserable scream, and his whole body instantly flew backwards, hit the wall heavily, and fell on the sofa again, his body was trembling violently.

And Wang Wenliang's face, moreover, with a shocked and incomparable look, he found that his right hand actually could not move, a heart-breaking pain from the shoulder instantly spread throughout his body, the pain he was almost about to scream out.

"Well"

That pain was too powerful, Wang Wenliang could not hold back, muffled a sound.

He was instantly infuriated, he was actually beaten by Ji Feng with one punch and screamed, even his entire body was ruined by his punch?

Wang Wenliang was confident that although he had been transformed into a monster, his strength was greatly enhanced and was even several times stronger than his peak period.

He was confident that when he faced off with Ji Feng again, he could definitely trample Ji Feng under his feet and humiliate him wantonly.

However, the truth gave him a blow to the head.

When he faced Ji Feng again, he was invalidated by Ji Feng's punch. The strong physique that he was proud of was actually so unbearable in front of Ji Feng, and Wang Wenliang even clearly heard the sound of his shoulder bones being broken in that moment just now.

Is this still the special bone that is harder than steel?

This is still that own proud of the strong physique?

..... chicken and dog!

The first thing that you can do is to get the best out of it.

These two words, involuntarily surfaced in Wang Wenliang's mind, now his own appearance, is not a chicken and a dog?

I'm afraid that in Ji Feng's heart, he is even worse than a pig and a dog.

These thoughts keep flashing in his heart, Wang Wenliang's heart is shocked and humiliated, it can be described as a mixed bag of flavors.

Ji Feng did not know what was in Wang Wenliang's heart, anyway, now he is quite happy, because he verified the real battle power of Wang Wenliang such advanced transformer through the actual battle.

"Tsk"

Ji Feng couldn't help but shake his head and said, "I really don't know what to say about you, obviously practicing ancient martial arts, but willing to do some bullshit reformer, not only did you trash all the things left by the old ancestors, but you also became a dog of the boundary tent people! Do you really think that transformers are so strong that they can be invincible under the sun?"

Ji Feng's eyes were filled with contempt, there is no doubt that the ancient martial arts of China, is definitely a gold mountain, inexhaustible wealth.

There is no kung fu in the world that can be compared to the ancient martial arts of China.

But unfortunately, these people who practice ancient martial arts, themselves do not compete, but also a mountain still see a mountain high, always think that the moon is more round in foreign countries, actually have to do what the transformation of people such monsters, really let people do not know what to say to good.

"Put, put fart!"

Wang Wenliang's body was shivering with pain, he struggled to turn sideways on the sofa and stared fiercely at Ji Feng, "You think I'm willing to become such a monster? The reason why I am in this situation today is all because of you! If you hadn't beaten me so much that I couldn't even get out of bed for half a year, do you think I would have agreed to accept the transformation?"

Ji Feng's face was cold: "You should blame Qiao Gakai, you should blame Qiao Rong! If you weren't in cahoots with them, you would have ended up in this situation again today?"

Wang Wenliang gave a fierce laugh: "Hey! It's useless to blame anyone now, but you are the person I hate the most. Ji Feng, don't think that I'll be at your mercy just because you wounded me, I'm telling you, as long as you dare to move me again, we'll die together"

"Oh!"

Ji Feng nodded with an indifferent face, "You mean the biological bomb in your body, right? Then you might as well try, can you still detonate the bomb?"

Wang Wenliang's face changed: "You're scaring me, huh?"

Ji Feng snickered, "What do you think you are, worthy of my scare?"

"You"

Wang Wenliang was furious, but soon, his face changed dramatically.

Because at this moment, he found that he was still clear except for his brain, his mouth could still speak, and his eyes could still see except for his head, his body was surprisingly not under his control from the neck down.

Wang Wenliang could only feel how much pain his body was in, the kind of heart-breaking pain came in waves, but he had no control at all.

Ji Feng smiled faintly: "Feel it, right? Biological bomb, not a threat to me, you are just a pathetic monster in my eyes, you have nothing to be proud of."

Wang Wenliang's face was ugly to the extreme, he gritted his teeth and said, "You think you can get out of here after catching me?"

Ji Feng smiled: "And you know I came alone? Or is it that the two senior reformers who are with you, they can block me?"

Wang Wenliang was silent.

In fact, he was not stupid, so how could he not know that since Ji Feng had already appeared here, it was proof that this stronghold had been discovered.

Then, how could Ji Feng come alone?

What's more, even he was not Ji Feng's opponent, how could the other people beat him?

"Boom! Boom!"

Suddenly, there were two gunshots from outside.

Immediately after, a nuisance sound came from Ji Feng's earpiece, and then Yi Xingchen's voice came: "Boss, call for help! These two transformers are too powerful"

Ji Feng immediately asked, "Where are you guys?"

"The second floor hall, everyone else has been controlled, the white spider and the people of the special warfare big are fighting with those two transformers"

"I'm going over there!"

Ji Feng finished, turned his head to look at Wang Wenliang, who had an ugly face, he sneered, "I'll show you how your accomplices are overwhelmed!"

With that, he lifted Wang Wenliang, as if he was dragging a dead dog, and walked out in big strides

Chapter 1676

Ji Feng carried Wang Wenliang and sped along.

This time, he did not dodge and dodge again, since Wang Wenliang had been caught, and the two transformers were apparently also entangled by the special combat brigade's warriors and the white spider, then, at least now there should be no other advanced transformers appear.

The appearance of three senior reformers in the same place, and still this more perfect senior reformer, Ji Feng are the first time to see.

I believe that if it were not for the fact that this is a stronghold of the dynasty, Ji Feng is afraid that he would not have seen this new type of reformer. The senior reformers he saw before were all kind of

loose skin, as if a skin hanging on the skeleton, all over the body is rotten like that, although the combat power of that kind of people is not to be underestimated, this is a fact, can not be denied, but really, those senior reformers are really ugly.

Right now there are three of these high-grade, high-quality senior reformers at the same time, and that's already very rare.

So Ji Feng is not at all worried about the emergence of other senior transformation people, even if there is, it should only be very ordinary kind of transformation people Of course, even if it is even more ordinary transformation people, compared to normal people, that kind of people are extremely scary.

First of all, the transformation of people is incomparably strong, like those Ji Feng has seen the transformation of people, some of them can lift a small car, which is also really a bit scary.

If an ordinary person is in their hands, it is simply to grab a chicken is no different, it is really too simple!

However, for Yi Xingchen and others, they two or three people together, with a modified man around or no problem. Especially Yi Xingchen and Guo Tao Liu Zejun three, they practice bodybuilding gymnastics time, is the earliest among the battle team, their strength is also very strong, although not as good as the white spider, but the difference is not too much.

So even if there really is that ordinary transformation of people, I believe that the people of the battle team can also cope with it.

These possibilities are taken into account, Ji Feng handheld Wang Wenliang, while walking outside while carefully observing, to prevent what people are still hiding around, in case the other side in the back to make a cold shot, or play a what jade and so on, the consequences are too serious.

Ji Feng walked all the way, his gaze was like electricity, sharp, but whenever he encountered a room, his gaze directly penetrated the door and took in the situation inside.

Swish!

Ji Feng was walking when he suddenly stopped in his tracks, and his face was abruptly gloomy.

His guess was not bad at all, someone had really planted a bomb in the room, and it was in the room to his left!

“Son of a bitch!” Ji Feng could not help but cursed, he violently flung his hand Wang Wenliang, like a cannonball smashed into the door of that room.

“Boom!”

The next moment, along with Wang Wenliang's scream, the door of that room was smashed open, and Ji Feng followed him like a shadow, and after the guy inside had not reacted, a fist was ruthlessly blasted over.

The man was immediately shocked, while about to press the detonator in his hand.

“Fuck!”

Ji Feng cursed angrily, he did not hesitate, his fist violently changed direction, while instantly accelerating, and a fist ruthlessly blasted the man's head.

Boom!

The man was instantly knocked backwards, hit the wall heavily, then fell to the ground again, his body twitched a few times, then there was no more movement Ji Feng did not need to look to know that this person was killed by him.

For this kind of stubborn guy in the end, Ji Feng will not show any mercy!

But in fact, just now Ji Feng really want to leave this guy a life, so his fist only to this person's chest, however, Ji Feng did not expect that this person is love is too stubborn, more than that, the guy can even be said to have been crazy, actually want to detonate the bomb, with them to die!

Helplessly, Ji Feng could only kill.

If he didn't kill the other guy, then he would die, it was no choice!

"These crazy people!" Ji Feng couldn't help but curse, his nickname was called crazy, but, he wouldn't be crazy to this extent. But just now this guy could, it was simply too crazy.

"Well"

At this time, Wang Wenliang, who had been ruthlessly thrown to the ground, let out another miserable scream.

Ji Feng glanced at him and sneered, "This is your man? Ready to die with people at any time? Or have you learned the same thing from the people of the boundary tent, to engage in some kind of jade shattering, some kind of hara-kiri?"

Wang Wenliang's body was twitching in pain, he didn't have the strength to answer Ji Feng's question, and in fact, he didn't know how to answer.

That guy just now, was a member of the dynasty and one of his men.

There are really many people like this in the dynasty, and, moreover, there are many more crazy ones than this person.

But why are they so crazy, Wang Wenliang really do not know how to answer, if I have to say, it can only be said that there are many reasons

Seeing Wang Wenliang silent, Ji Feng could not help but give a mocking laugh, once again lifted Wang Wenliang up, and then walked out in stride.

In fact, Ji Feng did not expect Wang Wenliang to answer.

Not to mention whether Wang Wenliang can answer his question, even if the answer came up, Ji Feng will not agree with his answer.

Because Ji Feng could see that just before the guy detonated the bomb, there was a strong fear in his eyes.

Obviously, the guy was afraid of death, but he had to die.

It can be seen that he must be in fear of something

Ji Feng did not have time to think more, just carry Wang Wenliang quickly forward, along the way, he solved four or five people in a row, these people are invariably secretly installing bombs, or some are connecting wires This makes Ji Feng more urgent, this office area is already like this, then do not know what the front will be like.

Not much time, Ji Feng came to the hall on the second floor in front of the club, just arrived here, see everywhere with weapons warriors, of which a dozen people are holding guns against those bosses, let sit in place, right on the floor of the hall.

In addition to that, the rest of those warriors, a third of them were on guard, or searching, while the rest, were assisting the white spider in a fierce fight with the two transformers.

Ji Feng's battle group, only one person left Yi Xingchen, Guo Tao also joined the battle group, Liu Zejun is missing, I think he took people to search around.

Liu Zejun, Ji Feng is very relieved, not to mention that there are still special combat brigade warriors here, then he does not need to worry about anything.

So, Ji Feng looked towards the middle of the hall again, where the white spider and others were fighting with the two reformers, lively!

This is really a bit out of Ji Feng's expectations, he originally thought that the scene should be like this – white spider and Xiang Yongzhan, Yi Xingchen three people, fighting those two transformers, at most, plus two or three warriors is also the top.

The two transformers, however powerful, after all, in the face of so many guns around, they always have to restrain their hands, certainly not play seven out of ten strength.

And their own side, people certainly will not be on too much, after all, in this limited space, but more people are not open, when the time but also help.

But the situation is different from what Ji Feng thought, around with guns to guard the warriors less, but a lot of warriors to fight, if Yi Xingchen is not to prevent the two reformers to take advantage of the opportunity to escape, then hold the rifle at the side to block the retreat of the two reformers, I am afraid that the vast majority of warriors present, are going to fight.

“These two guys are so powerful?” Ji Feng looked a little stunned, the strength of the white spider and Guo Tao, plus a to the Yong war, that is definitely an extremely powerful battle force, plus so many warriors, actually still can not take one of them?

But soon, Ji Feng saw the doorway, he could not help but secretly said: “So this is the way”

Ji Feng knew why these two transformers are so strong, the reason is, this man and woman, they actually know kung fu!

Look at that one move, Ji Feng although he could not recognize what kind of boxing it was, but he could be sure that it was definitely Chinese kung fu.

That's right!

Ji Feng remembered, if he was not wrong, he should be the Xuan **** kung fu.

When he fought with Qiao Gakai, with Tian Guodong and others, they used this kind of kung fu, look at that movement, that attack posture, it's just exactly the same!

With a degree of physical toughness that is simply incomparable to ordinary people, and can kung fu, it is no wonder they are so difficult to deal with.

White spiders they can not take down, it is not surprising.

"Old Yi, give me the gun!" Ji Feng beckoned towards Yi Xingchen.

"Yes!"

Yi Xingchen immediately nodded his head. He saw Ji Feng just now, he just had to stare nervously at the situation in the field, that's why he had no time to care.

Ji Feng casually threw Wang Wenliang on the ground, and immediately dropped him again with a woosh, his face was pale and his eyebrows were filled with pain, obviously broken by the fall.

Ji Feng, however, did not care so much, he took the rifle from Yi Xingchen's hand and quickly pulled the bolt.

Click~~!

The gun was instantly aimed at one of the male reformers in the field.

The reformer seemed to have a feeling, suddenly his body surged, to rush head-on to the middle of those warriors, trying to dodge Ji Feng's shooting.

Boom!

Ji Feng, however, did not hesitate to shoot.

A thud.

The reformer instantly fell to the ground, his body twitching, but how can not struggle to get up.

That shot just now, just hit his lumbar spine, the pillar of his body instantly distorted.

Even if he was a reformer, he had to be reformed according to certain principles, and the technology of the dynasty had not yet reached the level where it could completely change the structure of the human body. This man's bones were indeed hard, but they could not stop a rifle bullet shot at such a close range.

"Ah!"

The woman saw that her companion was actually taken down by a single shot, and immediately shrieked in shock, her face full of disbelief.

And Yi Xingchen, who was standing next to Ji Feng, was also in disbelief.

How is this possible?!

Chapter 1677

“Ah!”

The woman saw that her companion had actually been taken down by a single shot, and immediately shrieked in shock, her face full of disbelief.

And Yi Xingchen, who was standing next to Ji Feng, was also in disbelief.

How is this possible?!

Swish!

The remaining woman screamed in shock and backed up sharply, with a look of shock in her eyes.

How could one's companion have been taken down with one shot?

Originally, she was confident that she could finish off all these people present, or even escape, but this woman did not expect that this would actually be the result?

She was afraid.

However, Ji Feng did not give her a chance to escape, fiercely flung the gun and shot again.

“Boom!”

The woman's body shook violently and simply fell to the ground.

The field became silent, except for the bosses who were sitting on the ground and let out shrieks from time to time, everyone else looked at Ji Feng, who was holding his gun sideways and standing upright, with a stunned look on his face.

“Holy shit!”

Xiang Yongzhan was even more shocked: “How did you do that?”

Ji Feng put down the two senior reformers with two shots, he casually threw the rifle in his hand to Yi Xingchen and asked with a smile, “How did what happen?”

Xiang Yongzhan pointed to the man and woman who were downed on the ground and said, “These are the two guys, how did you put them down?”

Ji Feng smiled and asked, “Is it hard?”

Xiang Yongzhan: “.....”

Xiang Yongzhan's face was a little dark, looking at Ji Feng's face with a smile, Xiang Yongzhan really wanted to stomp on it twice.

What do you mean it's hard?

Ji Feng's words are a bit of a slap in the face.

You know, just now, so many of them battle these two transformers, actually did not take, this is not even, even they did not have the upper hand, can only barely trap those two transformers, so that they do not escape only.

In fact, if this is the case, then they are not quite shocked.

But the key problem is that when they first encountered the two senior reformers, Xiang Yongzhan was personally shot, but the bullets hit the two, actually did not have any effect on them, the bullets hit the body, as if it was scratching

Not only to the Yong war, Yi Xingchen also shot, and other soldiers of the special combat brigade, also shot first, to find that the bullets simply can not cause any damage to the two people, then they had no choice but to fight with them in close quarters.

In fact, when they found that the two were not afraid of bullets, they knew that these two must be the advanced transformers that Ji Feng had mentioned.

However, after Ji Feng came, it was very easy to take down these two almost pervert-like monsters with one shot, without even a pause in between.

It's just like taking a shotgun to a chicken

What is this?

They desperately shot could not cause any damage to these two monsters, and as a result, once Ji Feng came, the defense of these two people was reduced?

Obviously not so, who would not be foolish to let the bullet hit, and the two simply dodged not even dodge, apparently for their own body defense is incomparably confident.

However, they did not block the bullets shot by Ji Feng.

Did the gun suddenly become more powerful when it came into Ji Feng's hands, or did it have some kind of magic power?

"Clean up the battlefield immediately, those who should be controlled, and those who should be cleaned up should not be left idle!" Ji Feng saw that these people were frozen, could not help but frown, low bellowed. At the same time, he jerked forward two steps and slapped two times on the bodies of those two senior reformers respectively.

"Well"

That man and woman's bodies suddenly trembled violently, and then, a shocked and inexplicable look appeared on their faces.

Because they found that their own bodies, unexpectedly, were not under their control.

But on the contrary, the painful feeling in the body, they are feeling so clearly!

The two looked at Ji Feng with a look of intense horror.

This person had performed a means that they had not seen at all, and could actually control their bodies, which was really terrifying.

“Yes.”

The others snapped back to their senses and hurriedly carried out their respective tasks.

Xiang Yongzhan, on the other hand, walked over and couldn't help but ask, “Ji Feng, how did you do that just now?”

The two senior reformers have been taken down, the remaining chores to those warriors is enough, to Yongzhan most concerned, is Ji Feng in the end how to use a gun to take down these two reformers!

Ji Feng waved his hand and said, “Although these reformers are very powerful, but they are not without flaws, the dynasty is not yet able to do so perfectly, as long as you find the key parts, a bullet will be enough.”

The human waist, it may not look as life-threatening as the heart or head, but the upper and lower body of the human body is connected by the lumbar vertebrae.

Although the kingdom's transformation of these people took a more advanced season less, more perfect than those advanced transformation of people in the past, but their bone structure is actually still very similar to ordinary people, also rely on the lumbar vertebrae to connect the upper and lower body.

A bullet hitting the joints of the lumbar spine is enough to make their bodies immediately lose control.

Ji Feng lowered his voice and quickly told this principle to Xiang Yongzhan, who immediately widened his eyes: “How did you know that?”

The bodies of these modified people, especially their bones, are actually still very different from normal people, even the skeletal structure is different, and there is still flesh and skin on the outside, how did Ji Feng know which joint is the weak point of the modified people?

Ji Feng said: “Now three words can not tell you clearly, first do the business, and after the leisure, I will definitely teach you all these things!”

Red Arrow Brigade and Special Operations Brigade warriors, are often to deal with the transformation of human, but also often against some foreign special forces.

Ji Feng does not have to hide too much from them, especially these small skills, after teaching them, can allow them to greatly improve the probability of winning, but also is tantamount to allowing them to face the transformation of people, more means to save their lives.

These soldiers and those ordinary soldiers are not quite the same, although they are treated well, but often have to roll in the line of life and death, and because of excessive training and missions during service, often encounter some extremely harsh environment, making these special warriors after discharge, may be covered with injuries and illnesses.

There are many formerly discharged those special warriors, after returning home may not even be able to do heavy work, many people have to some factories, buildings and neighborhoods as security guards, really can be professional to the local have a good job, really very little.

Previously, the youngest uncle Ji Zhenping could not help but sigh every time he talked about it.

So now since there is an opportunity, then Ji Feng naturally will not be stingy, will teach them all these means of registration, this is also considered that he did his part.

Of course, now the Red Arrow Brigade and Special Warfare Brigade warriors, but much better. Because since Ji Feng taught them physical exercise, at least they practice diligently, the body of those old injuries and hidden problems, will gradually eliminate, physical fitness will also be enhanced again, and when they are discharged from the military, no matter how bad, will not get a disease or injury, even if they do hard work, they can also support themselves and their families.

Xiang Yongzhan also knows that now is not the time to talk deeply, so he could not help but nod and turn around to command the soldiers to clean up the scene.

“Boss!”

Yi Xingchen also came over and whispered, “I’m going to help Liu Zejun, he took his men to search for the missed fish and hasn’t come back by now

Just as he said, several warriors came out quickly from several other passages, and several others were escorted by them.

“This is not back!” Ji Feng said.

“Boss!”

The man at the head was none other than Liu Zejun, who came quickly and said, “I led people to search all from the top floor, and found that these guys were loading bombs, and one guy was preparing to detonate them

Now they are all caught.”

Ji Feng looked behind him and asked, “Where are the people?”

Liu Zejun said, “Still in the back, this is coming down. In addition, I left two soldiers in the monitoring room, this gang is too ruthless, by checking the monitoring room, I found that they put this entire clubhouse underneath the bombs, when we rushed in, a guy was preparing to detonate all the bombs

.....”

Ji Feng’s face sank: “This kind of people will have no need to stay, the next time you encounter this kind of people who want to die together, do not show mercy, directly shot dead!”

This group of people, is too crazy, simply more ruthless than those rivers and lakes bloody outlaws, they are simply the dynasty’s dead soldiers, simply not afraid of death, and even very much like to pull others together to die!

Those dead soldiers die is not enough to regret, Ji Feng will not even blink an eye, but these warriors and battle group of people, can not die.

Even if one casualty, for Ji Feng, is a very heavy loss!

Liu Zejun nodded, his character is silent, but can feel that concern of Ji Feng.

“Immediately control all of these people, beware of what crazy tricks they play, first knock them all out and detain them separately!” Ji Feng said, “In addition, go and put away all the communication tools of these bosses present, and pay attention to check their communication records”

“Yes!”

Yi Xingchen nodded and said.

Subsequently, Ji Feng lifted Wang Wenliang, who was thrown on the ground, with one hand, and said to White Spider, “White Spider, you take someone to lift these two guys up and follow me.”

The two senior reformers are also very important, before Ji Feng listened to their tone of voice with Wang Wenliang, I think their status in the dynasty is not too far from Wang Wenliang.

From the mouths of these two, they might be able to get some important messages.

White Spider immediately answered, “Yes!”

Xiang Yongzhan also hurriedly walked a few steps quickly over: “Ji Feng, what are you going to do?”

Ji Feng said, “Follow the original plan to interrogate them. Time waits for no one, in order to prevent leakage of information, I can only conduct interrogation here on the spot.”

Xiang Yongzhan nodded: “Then, Director Liu is in charge outside, so I will interrogate with you.”

Ji Feng no longer said anything more and waved his hand, “Go!”

Soon, Wang Wenliang three people were brought to the third floor near a room, this room is close to the stairway, once there is something to act very convenient, and happens to be a rest area, relatively quiet, interrogation here can not be better.

Chapter 1678

Soon, Wang Wenliang three people were brought to the third floor near a room, this room is close to the stairway, once there is something then the action is very convenient, and it happens to be a rest area, relatively quiet, here the interrogation could not be better.

Boom boom boom!

Wang Wenliang was casually thrown to the floor by Ji Feng, falling he muffled a sound, his face was white, obviously not too good.

The other two reformers, too, were thrown to the floor by two warriors who had learned from them, and their faces were equally ugly.

In fact, with their modified body condition, not to mention the ground, even if they fell from several floors, there will not be too much problem, and maybe even smashed the ground to a big hole.

What really makes them suffer is the bio-current that Ji Feng punched into their bodies!

With Ji Feng’s current cultivation, the bio-current can definitely be said to be incomparably strong, into their bodies, they began to rampage, wreaking havoc on their bodies.

That kind of pain is what really hurts.

“Ji Feng, you, what do you want?” Wang Wenliang saw Ji Feng’s stance and realized that the three of them were in a bit of a bad situation, he couldn’t help but grit his teeth and ask.

“Say! Are you the real Little Gongzi?” Ji Feng asked in a deep voice.

“Heh! Do you think I will tell you?” Wang Wenliang gritted his teeth, although it was hard to speak, he was sneering, “If you think I’m the little male, then I am, if you think I’m not, then I’m not”

Snap!

A warrior kicked Wang Wenliang in the face, that huge force immediately kicked him rolled on the ground: “Be honest!”

But Ji Feng waved his hand and said indifferently: “You don’t say, it’s okay, I have ways to make you say, watch out!”

As he spoke, Ji Feng squatted in front of the strange male reformer and put one hand on the man’s head.

“Well”

Suddenly, the man’s body shook and his eyes steeply opened wide.

But soon, his stunned eyes, began to become somewhat dazed, and then, his eyes began to lax, and his pupils began to slowly spread, becoming unfocused

Ji Feng could not help but smile slightly, it seems that the Dynasty’s breakthrough in human transformation technology is not too outrageous.

At least, these transformers are still afraid of bio-currents, and moreover, the neurotoxins simulated with bio-currents still work on them, and the effect is not reduced at all.

This means that the dynasty is now afraid that it has only made some breakthroughs in terms of human transformation materials, and as for other aspects, at least for now, the progress should not be very big.

Barf!

The man’s mouth opened, his face had no surface, and his eyes were filled with bewilderment, which is a sign of the neurotoxin taking effect.

When Wang Wenliang and the woman next to him saw the appearance of their companion, they were shocked.

What is going on here?

At this moment, Ji Feng, however, began the interrogation, he stared at the man and asked in a deep voice: “What is your name?”

“Zhou Zhanxu.”

“Age?”

“Thirty-two.”

The man just answered two sentences, Wang Wenliang immediately stunned beyond measure, gritted his teeth and roared: “Zhou Zanxu, are you crazy? Shut up!”

Ji Feng coldly swept him a glance and said in a cold voice: “You told him to shut up and he shut up? Better think about yourself, this method works on his body, use it on you, it is equally useful. As you can see, anyone who is subjected to this tactic will end up looking like this idiot for the rest of his life, whether to tell the truth, or to resist to the end, you make your own decision!”

After saying that, Ji Feng no longer even pay attention to Wang Wenliang, just continue to ask the man.

“What is your status in the dynasty?”

“Senior warrior.”

“Who is your leader?”

“The leader” Zhou Zanxu was confused and didn’t know how to answer.

“That is, who is the person who commands you?” Ji Feng asked.

“It’s the little grandson”

“Who is the little prince?” Ji Feng immediately asked.

Asked the key question!

Xiang Yongzhuang also could not help but be refreshed, staring at this person with dead eyes, hoping to learn the real identity of the little prince from his mouth.

Wang Wenliang, on the other hand, was looking horrified, and he held back that painful feeling in his body, hissing and hissing: “Zhou Zanxu, if you dare to talk nonsense, beware of the king’s methods! Think of your family”

“Tell him to shut up!” Ji Feng’s face sank.

“I’ll let you make noise!”

Xiang Yongzheng sneered and kicked Wang Wenliang fiercely in the chin, kicking him violently rolling his eyes, unable to speak for a long time.

Ji Feng glanced at Wang Wenliang and said in a cold voice: “You don’t need to rush, it will be your turn soon, and then you can’t even speak like that. But now, if you dare to say another word nonsense hum!”

Wang Wenliang’s body trembled violently, wanted to speak, but was kicked and could not say a word.

Ji Feng coldly glanced at Wang Wenliang, before turning around and continuing to ask Zhou Zanxu, “Who is the little duke?”

“..... the son of the prince.”

“What is the real identity of the little prince? What is his name?”

“I don’t know.”

Don’t know?

Ji Feng’s brow immediately wrinkled, he believed that Zhou Zhan Xu must not have lied, because at this time, his consciousness was all chaotic, and only by relying on the guidance of outside words, he could answer according to his memory.

Now Zhou Zhan Xu said that he did not know the real identity and name of the young grandson, obviously in his memory there is no such answer at all.

“It seems that this guy really doesn’t know.” Ji Feng said.

“Then immediately interrogate this woman!” Xiang Yongzhan immediately said.

“I think, it’s better to interrogate Wang Wenliang directly, since this guy claims to be the young grandson, then he must have a very close relationship with the young grandson at any rate, interrogate him, save time!” Ji Feng said.

“Oh?”

Xiang Yongzhan nodded: “That’s right. However, if you interrogate them, won’t all these people become idiots? What if this person is really the little prince?”

Ji Feng laughed: “That’s okay, you’ve seen my methods, although the interrogated people will eventually become idiots, but, if you want to know anything, ask directly, they can still answer, just no normal human consciousness, it’s not a problem!”

Xiang Yongzhan thought about it and nodded: “That’s right, it’s good to turn them into idiots, to save them from playing any tricks, well, let’s follow your way!”

Ji Feng laughed: “That’s good!”

The two spoke, both saw the smile on each other’s face, this tacit cooperation, just a look at each other can understand. This time the same is no exception.

And at this time, the Wang Wenliang next to them heard that they were going to turn themselves into idiots as well, and suddenly his eyes widened and a hissing hiss came out of his mouth, “Well! Woooo~~!”

As for the woman, by now, she was also already scared with a look of fear in her eyes.

Ji Feng coldly snorted: “It’s useless for you to scream, as I told you before, it will be your turn soon.”

Saying that, Ji Feng came to him and was about to apply the neurotoxin, but when he saw that Wang Wenliang’s jaw was dislocated by the kick, he couldn’t help but say, “Put his jaw back on!”

“Yes!”

A soldier immediately came over, hooked Wang Wenliang’s neck with one hand, and dragged his jaw up violently with the other.

Hearing only a cackling sound, Wang Wenliang’s jaw was put back on.

“Well

Wang Wenliang muffled a sound, and then he found that he could speak, so he hissed and said, “Ji Feng, what the hell do you want?”

Ji Feng said, “I want to turn you into an idiot!”

Wang Wenliang was shocked: “What do you want to know, I’ll tell you everything!”

Ji Feng sneered, “But I don’t believe it!”

Saying that, Ji Feng slapped Wang Wenliang’s head violently, snap!

Wang Wenliang also did not escape the fate of turning into an idiot, his eyes immediately became listless, his eyes were lax

“Well

And at this time, the man next to him, but let out an unconscious moan, but gradually, in his face, but there is a normal look, the eyes also gradually become divine.

Seeing this situation, Xiang Yongzhan couldn’t help but give a thumbs up to Ji Feng.

Ji Feng’s judgment was really accurate, and they cooperated well.

But Ji Feng only smiled slightly, and then gave a sign to Xiang Yongzhan, who then immediately ordered to take the man and woman to another room.

In this room, only Wang Wenliang was left.

Ji Feng looked at Wang Wenliang’s eyes and couldn’t help but frown slightly, not yet completely lax, need to wait a little longer. It seems that the physique of this advanced reformer is indeed very strong.

In fact, Ji Feng knew from the beginning that there is a great difference between transformed people and ordinary people. Like Zheng Yuxiu and her cousin were normal people, so they became idiots after being injected with the neurotoxin simulated by Ji Feng with bio-current.

But the transformers are different, their physique is very strong, the neurotoxin into their bodies, the time to play a role is not too long, because after all, this is not real neurotoxin, but simulated with bio-current.

This is only about ten minutes, that male reformer has just started to turn awake.

This is also why Ji Feng deliberately sang with Xiang Yongzhan, and in front of Wang Wenliang, the male reformer made his eyes lax, as if he had really become an idiot.

This is done to create pressure on Wang Wenliang and create an extremely scary atmosphere.

Because the neurotoxin can play a role in how much, in fact, and the person’s willpower and psychological quality has a certain relationship, if Wang Wenliang see that the male reformer can still wake up, he certainly will not be so panicked, so to the tacit agreement of the two reformers to take out.

Ji Feng also took all these senior reformers into his heart, and the next time he encountered such reformers like them, he had a number in his mind on how to deal with them.

Finally, Wang Wenliang's eyes were completely lax.

Ji Feng gestured to Xiang Yongzhan, and then began to interrogate.

"Wang Wenliang, are you the little gongzi?"

"No."

Sure enough!

Ji Feng secretly said, he thought, those two reformers when talking to Wang Wenliang, the tone was not so respectful, moreover, all the previous things also indicated that this little grandson could be a fake, now it seems that his guess was really right.

Xiang Yongzhan, however, frowned steeply and wanted to speak again.

"Then how do you claim to be the young grandson?" Ji Feng asked again.

"It's the Little Prince's order."

"What exactly is the real identity of the Little Prince?"

"I don't know."

He didn't know either?

Xiang Yongzhan became a little anxious, could it be that tonight's operation would be a failure?

He just wanted to speak, but he was stopped by Ji Feng with a wave of his hand, and Ji Feng asked again, "Then, what about the real identity of the young lord?"

Chapter 1679

He also does not know?

Xiang Yongzhan became a little anxious, could it be that tonight's operation was a failure?

He just wanted to speak, but was stopped by Ji Feng waving his hand, Ji Feng asked again, "Then, what is the real identity of the king?"

Wang Wenliang's eyes were still that blank, looking as if he had lost his soul.

"I don't know."

"This Ji Feng, he this"

Ji Feng waved his hand and made a gesture of silence.

Xiang Yongzhan helpless, can only shake his head, waiting patiently at the side.

In fact, Xiang Yongzhan heart is very anxious.

This time the operation, although the temporary blockade of the news, but, the use of so many people, the movement is so big, if you want to completely block the news for a long time, that is simply impossible. If the important people of the dynasty get the news and escape in advance, then their operation will be a complete failure.

The war opportunity is fleeting, any soldier will remember this sentence.

But now Ji Feng is still not in a hurry, which makes Xiang Yongzhan can only wait helplessly, now he just want to act, but also must ask from the mouth of Wang Wenliang to ask the dynasty some members of the landing place to ah.

However, hearing this answer from Wang Wenliang, Ji Feng is not at all surprised.

The king and the youngest son are important figures of the dynasty, especially, the king is the head of the dynasty in China, the youngest son is his son, these two people are definitely called the thorn in the side of China, the thorn in the flesh.

If possible, the Chinese side must always want to catch these two.

So, how can these two people not have a little means of self-protection?

If Wang Wenliang, the impostor, could so easily know the real identity of the king and the young duke, it would be strange for Ji Feng.

If the king is so alert, he would have been caught hundreds of times.

Therefore, Ji Feng was not surprised by his words, but only asked indifferently, "So, where are the little prince and the king at this moment?"

"The little prince is at 130 South River Road"

Wang Wenliang said an address: "He's waiting for me to report, Your Majesty, I don't know."

Although Wang Wenliang's words sounded a bit upside down, but this did not prevent Ji Feng and Xiang Yongzhan from understanding his meaning, the little prince was at this address he said, while the king's location, he did not know.

Swish!

Xiang Yongzhan's eyes lit up and his face couldn't help but reveal a look of excitement. Finally found the exact address of the young duke!

Ji Feng, however, did not intend to act immediately, but continued to ask: "What is your relationship with the little prince?"

"I am his personal escort, his my master"

"Why are you willing to be his escort?" Ji Feng asked again.

"The king controls my family and my master."

Ji Feng could not help but feel a bitterness in his heart, Xuan ****'s people were actually controlled by the king?

Subsequently, Ji Feng asked a few more questions he was concerned about, and after listening to Wang Wenliang's answers, he concluded that what Wang Wenliang said was true.

"Old Xiang, immediately gather manpower, and at the same time ask Director Liu to immediately investigate this address that Wang Wenliang said." Ji Feng said, "Act overnight this evening, don't let the little prince get away!"

"Let me arrange this!" Xiang Yongzhan immediately nodded, and then, he asked, "Can you be sure that what he said is true?"

"Organizing such a large business alliance, actually to pull a couple of hundred small and medium-sized enterprises on board a pirate ship, this is not a small fight, the king will certainly send competent people to preside over this matter, Wang Wenliang is the little prince's personal bodyguard, the little prince asked him to replace himself, it is also reasonable, silky, is certainly true." Ji Feng said.

Xiang Yongzhan could not help but curse: "This little prince is also really cunning, what public occasions do not appear! Don't worry, today I'm going to catch him and see what he really is!"

Ji Feng said, "You leave all the people that Director Liu brought behind, make sure to block the news, and we'll rush over together."

Xiang Yongzhan said, "Don't worry, I will arrange it."

Of course he knew that if the news leaked out, the young duke would most likely escape, and then it would be even harder to catch him next time. People like them could be exceptionally cunning.

"Time waits for no one, let's start immediately!"

Afterwards, Xiang Yongzhan quickly notified Director Liu and told him to leave all the people in the clubhouse while the others went straight to the address that Wang Wenliang had mentioned.

At the same time, Director Liu had also informed the staff of the Intelligence Division to immediately investigate the address that Wang Wenliang had mentioned.

A group of people went straight to the address that Wang Wenliang said in the dark night.

As for Wang Wenliang and the others, they were directly hit by biological currents into their bodies by Ji Feng, at least until this time tomorrow, they will not wake up unless Ji Feng uses further means.

.....

The car sped past on the road, and at this time, the findings of the Intelligence Division were reported over.

"..... The address Wang Wenliang said, is it a pier?" Ji Feng frowned and asked.

"Technically speaking, it is a warehouse near the pier, which is still some distance away from the pier." Director Liu said, "This warehouse is independent, and other warehouses have a certain distance between, hiding here, it is difficult to be discovered, and if you want to transport something, as long as the container transfer, no one can find."

Ji Feng thought about it and asked, "How far is this warehouse from the pier?"

“About two kilometers!”

“First, block the warehouse’s road to the pier and downtown, block their retreat!” Ji Feng immediately said, “Of course, this is just my personal suggestion.”

Xiang Yongzhan said, “This is the most reasonable arrangement.”

It must be said that the city is too large, also has its disadvantages, at least, from the club to the pier, Ji Feng and others took nearly two hours, and this, or because it was late at night, there are few vehicles on the road, they can speed up the car extremely fast, if it was the daytime, I’m afraid they will not arrive in five or six hours.

When Ji Feng and others arrived, there were already soldiers from the South Guangdong Military Region arrived, in accordance with the instructions given by Xiang Yongzhan before, the roads around the warehouse were cut off.

Only, because of the fear of frightening the little prince, so they only ambushed at the periphery far from the warehouse, did not dare to approach.

Xiang Yongzhan immediately asked, “Director Liu, did you notify the sea patrol?”

Director Liu nodded and said, “Already notified, but because of the suddenness of the incident, they were not notified before for the sake of secrecy, so now there are less than ten speedboats and two patrol boats at sea. It will take time to mobilize more ships.”

Xiang Yongzhan said, “We happen to lack time now. Now it’s almost dawn, when it’s light, our ambush won’t work, we must act immediately.”

Ji Feng also nodded and said, “As long as our side moves fast enough, that little prince will not be able to escape. Only, what I’m worried about now is, will the little prince have other means that Wang Wenliang doesn’t know about?”

Xiang Yongzhan asked, “What do you mean”

Ji Feng said: “If I were the little prince, I’m afraid I would not realistically trust Wang Wenliang, at least, I have to guard against a hand. You know, after all, Wang Wenliang is under coercion, the heart will certainly have some disobedience, may just be because the family in the hands of the king, so they have to listen to their orders.”

“You say this possibility I am not without, I have thought about it before, but now we have no more clues on hand, and the most critical thing is that there is no time, it is necessary to act.” Xiang Yongzhan said.

Ji Feng nodded, this is indeed the truth.

I have to say, the dynasty people are really cunning, they are completely different from ordinary criminals, and the means of concealment is extremely clever, and there are so many people working for them, want to catch them, it is really difficult.

Since Ji Feng has no other comments, Xiang Yongzhan waved his hand: “Follow the plan, start! The speed has to be fast!”

At once, the surrounding warriors began to advance quickly, and Ji Feng and Xiang Yongzhan also led a surprise attack in the direction of the warehouse.

Because all around this warehouse are already this side of the warriors, and it is the darkest period of time before dawn, as long as the action is fast enough, it is easy to burst in, the little male as long as inside, it is difficult to escape.

This time to participate in the operation of the warriors, apparently all have practical experience, they did not have the slightest panic, and the speed of movement is extremely fast, apparently well-trained elite.

From a distance, Ji Feng saw a huge black thing in front of him, that is the warehouse near the pier.

Soon, these soldiers have approached the warehouse. And at this time, Ji Feng was also careful, watching the surroundings closely to prevent anything unusual from appearing.

Suddenly, Ji Feng only felt that one of the warehouses above, there is a black shadow wavering, although only a wavering, but Ji Feng did not hesitate, sprinting two steps, throwing his hand will be carrying the dagger to throw over.

Poof~!

Only to see a black shadow fell straight down from the warehouse.

The white gloves were conspicuous in the darkness, and at the same time, he bellowed into his headset, "Assault!"

Those soldiers immediately impact, only to hear a bang explosion, a dazzling fire, the thick and hard warehouse door, was blown open a large mouth.

Soldiers burst in!

Immediately after that, the sound of gunfire came from inside, and Xiang Yongzhan immediately said, "It's really here!"

Ji Feng looked up while asking, "What do you say?"

"The sound of gunfire is not our standard use gun!" Xiang Yongzhan said, "Armed helicopters are also coming"

"Buzz buzz~~!"

In the sky, two helicopter gunships whistled, that light intense searchlight headlights swept the roof of the surrounding warehouses all over again, and only then, this turned around and aimed at the warehouse that the warriors were besieging.

"Ji Feng, go! Let's go too!"

Chapter 1680

The warriors sent by the South Guangdong Military Region all burst into the warehouse, half of the warriors of the special operations brigade have also burst in, only Ji Feng with Yi Xingchen and others, while charging forward, while very vigilantly scanning the roofs of the surrounding warehouses.

Just before this, Ji Feng used a dagger to take out a guy who was ambushed on the roof of the warehouse on the right, needless to say, this person must be the little prince left to keep watch.

Xiang Yongzhuang naturally also understand, so he and Ji Feng very tacit understanding of the division of labor, he is a soldier, and special forces, so the charge is his inevitable choice, but this outside the high ground, as well as the ambush outside the manpower, to Ji Feng.

Because of the suddenness of the incident, and the terrain and environment here only have a general understanding, so they do not know whether there are still ambush people in the vicinity, encounter this unexpected situation, and only Ji Feng kind of strong to almost perverted body, it is possible to minimize casualties.

Only Ji Feng outside, Xiang Yongzhuang can be assured of the charge. Leaving his back to Ji Feng, he was at ease.

“Guo Tao, you immediately take people around to check, there are helicopters shining to the place, can be a little slack, but, the helicopter searchlights can not shine places, you must be very careful to check only, can not have a half-sloppy, remember?” Ji Feng quickly instructed.

Guo Tao immediately nodded his head and said, “Yes!”

Then, Guo Tao immediately took a few people and separated the patrol.

At this time, Ji Feng looked at Liu Zejun and said, “Zejun, you are good at sneaking and killing, now you take a few people and find a way to break into the warehouse from the side, remember, don’t go in through the back door!”

Liu Zejun immediately said loudly, “Yes!”

He understood Ji Feng’s meaning, since the front was attacked, then the other side will definitely think that the back door must also be unsafe, so in order to avoid being blocked in the warehouse, the back door will definitely have a guard, and I believe it is still very strong people, so now from the back door to break in, is obviously extremely unwise.

After Guo Tao and Liu Zejun both left with people, Ji Feng then said, “Old Yi, you stay in command, if they have any situation, you have full authority to make decisions, no need to ask me.”

Yi Xingchen nodded and said, “Then you”

Ji Feng said, “Me and the white spider walk around to see what else we have neglected, we have fought here, if we let the little prince escape again because of any negligence, then we really have no face to go back.”

Yi Xingchen said, “Let someone follow you.”

Ji Feng waved his hand, “No need, it’s enough for me to bring the white spider.”

Yi Xingchen didn't say anything more.

In fact, since the fierce battle with the two senior reformers in the clubhouse, Yi Xingchen knew that Ji Feng's strength was absolutely unfathomable, he hadn't seen Ji Feng perform his extreme skills before, that was because he hadn't met any real opponents, plus with the white spider following, Ji Feng's safety shouldn't be a problem.

.....

"Da da da da da"

The sound of gunfire inside the warehouse is still fierce, and it reaches the ears, listening to Ji Feng straight frown.

Just listening to the sound of the gunfire can be judged, hiding in this warehouse is a lot of people, I'm afraid there must be one or two dozen people.

Moreover, these people must have very strong firepower.

If it is a frontal combat, these one or twenty people against the special combat brigade, and some soldiers of the South Guangdong Military Region, it will only be captured. But now is different, because it is dark, and is in the warehouse, but more people are not open, plus the other side for the warehouse terrain and layout are very familiar, Xiang Yongzhan want to take the other side, I'm afraid it will take a little time.

However, as long as Xiang Yongzhan has patience, not rushing to charge, I believe that those people sooner or later to be taken down, the big deal is to spend a little more time.

The most critical thing is that as long as the little prince is confirmed in here, he can't get away!

Now Ji Feng is most worried about whether there are any loopholes in their actions, or whether the little prince has previously arranged a retreat, if they are negligent and let the little prince run away, that can really make people depressed to death.

"White spider, you find a way to go from another warehouse to the roof of the building, occupy a high point, I'll just go around by myself." Ji Feng said.

"Ji young, I'd better follow you, there are already so many snipers in ambush now, it's enough." White Spider said.

"That's fine."

Ji Feng nodded, he originally wanted to let White Spider leave, after all, the two sides are now at war, anything unexpected could happen, but since White Spider insisted, he did not say anything more, after all, this is not the time to argue.

The two walked quickly around the warehouse, Ji Feng's gaze sharp as lightning, constantly scanning the surroundings, he wanted to find out if there were any more big holes, absolutely can not give the young male the slightest chance to escape!

This warehouse is very large, and is the kind of beam-type structure, the outside of the whole body are cement walls, a few meters away is a thick reinforced concrete pillar, the middle of a smooth, want to go up to the roof, from the outside is simply impossible, unless it is a helicopter or from the top to pull a rope down, and then pull the rope to climb up

On the contrary, there are several windows in the wall.

But the windows are too high, if not the South Guangdong Military Region soldiers with multifunctional ladders, those warriors really can not go up.

Seeing this situation, Ji Feng nodded slightly.

Since the outside is all mixed concrete, it means that the possibility of the young male leaving through the hole in the wall around here, can be said to be almost impossible.

“Da da da da da”

Soon, another burst of rapid gunfire came, Ji Feng found that they came to the back door of the warehouse, and here there was actually a circle of sacks piled up, blocking up the door, only revealing some gaps, and there were gunmen inside constantly shooting out.

Ji Feng could not help but be stunned, how this is still with the war time fortifications seem to be the place?

These sacks, is the bunker?

“Young Ji, be careful!” White spider reminded in a low voice: “We’d better go back.”

“The other side is not yet seen!” Ji Feng could not help but waved his hand, this warehouse they had only looked at one side, how could they stop halfway?

“Let’s do this, let’s go farther around and go around!” Ji Feng said.

They then walked forward along the wall, and then kept coming to the opposite side, where there were also improvised fortifications, which were quickly built by the soldiers of the South Guangdong Military Region.

Ji Feng raised his right hand, and the white gloves were very conspicuous, so those soldiers knew he was one of their own.

Ji Feng also did not greet them, just saw that they were fighting with those armed men at the back door of the warehouse, and he went around from behind these soldiers.

After a few more minutes, Ji Feng came to the front door again from the other side of the warehouse. The whole warehouse, except for the back door where the other side’s armed men were firing wildly, so he couldn’t get close, he patrolled all around and found nothing wrong.

He was then slightly relieved that three of the four sides of the warehouse were okay, and not far from the back door was the bunker built by the fighters of the South Guangdong Military Region, who were in the middle of a fierce battle with the armed men, and if anyone tried to escape from here, either they would just surrender or, they would definitely be beaten to death!

Ji Feng and the white spider stood not far from the front door, scanned the surroundings again, looked up at the two helicopter gunships that were constantly hovering overhead, he shook his head, it looked like it was almost impossible for the young grandson to go from above even if he wanted to.

“Boom!”

Suddenly, there was a loud bang, and the front door of the warehouse was blown off.

Ji Feng immediately looked at the sound, only to see a team of warriors shooting towards the inside while backing up, followed by more warriors coming out from the inside and backing up vigilantly.

Ji Feng was immediately stunned: “It was actually repelled?”

But immediately after that, Ji Feng saw that Xiang Yongzhan and others also all quickly retreated, while shouting, “Back up, back up immediately!”

“Boom! Boom~~!”

Before Ji Feng could react, he heard a few loud, earth-shattering sounds, and then, Ji Feng saw that the originally solid warehouse had collapsed instantly, and there were sky-rocketing fires coming out of it.

Bombs!

Ji Feng’s face was immediately tightened, and he saw that Xiang Yongzhan and others all hurriedly retreated, looking for cover around them, or some warriors were lying on the ground, trying to avoid the rocks that had been blown up and bounced around.

“Ji Shao be careful!” White spider exclaimed, pulling Ji Feng to the side to dodge.

But Ji Feng was not moving in place, directly put the rifle in his hands, aimed at the collapsed warehouse, his eyes stern.

This bomb certainly will not be to the war they detonated, then there is no need to say anything, must be the little son of the people in order to escape, and thus detonated the bomb, if not to the war they retreated in time, I am afraid that at this moment even if not killed by the explosion, but also has been buried alive inside.

Dog days!

Ji Feng’s eyes flashed cold light, this gang is really vicious ah!

You know, that warehouse is not only to Yongzhan them, but also the dynasty of militants, they do not even care about the lives of their own people!

“Boom! Boom~~!”

Just at that moment, there were a few more heaven-shattering sounds, and immediately after that, that warehouse, which was originally a steel and concrete structure, was instantly collapsed by this violent explosion, and, that horrible explosion, actually blew away countless cement fragments, those fragments were of different sizes, and under the propulsion of that air wave, it was even more powerful than bullets.

Ji Feng could only pull the white spider on the ground to dodge, at the same time can not help but cursed, this gang, really ruthless, desperate people!

Ji Feng even clearly saw that a man was blown up with only the lower half of his body left, flying through the air and falling to the ground.

Looking at that dress, it was obviously not a fighter from his own side.

Little Duke was really ruthless, these militants were fighting for him just now, but now they were taken out by him without hesitation.

So, what is the young duke up to?

There is no doubt that he is going to take advantage of the opportunity to escape!

As soon as the explosion stopped, Ji Feng immediately stood up and began to run wildly towards the warehouse
