

Campus Master 1681

Chapter 1681

“Assault immediately!!!”

Just as Ji Feng rushed towards the warehouse, Xiang Yongzhan also stood up and shouted loudly.

His order, through their communication equipment, reached the ears of every single warrior, and those warriors were all well-trained elites, and this kind of explosion, although shocking, would not stop them.

So after just a few dozen seconds, these warriors immediately began to charge again. And in the charge, they did not have any panic at all, just calmly searching for the enemy.

However, there was no longer a warehouse in front of them, there were, just debris, and what was burning, the whole warehouse had long been blown up in a mess, a wind blew, and there was a smell of bodies being burnt!

The warehouse, which was still under fierce fire, seemed so calm at the moment, as if all the people inside had died seemingly.

“Damn it!”

Xiang Yongzhan face iron blue, shouted: “All carefully search!”

At this time, Ji Feng, on the other hand, had a cold glint in his eyes.

The little prince was also blown up?

Ji Feng didn't believe it, he always believed that the reason why the little prince wanted to detonate the warehouse was actually to take the opportunity to escape.

But, how exactly is he going to escape? Which direction to escape?

He has been in the front door, and both sides of the warehouse are reinforced concrete walls, once the explosion, just the blown stone is enough to kill people, so both sides certainly can not escape.

Then

There is only the back door!

Ji Feng's mind is turning rapidly, while running towards the back door.

A dozen seconds later, his heart could not help but thump, only to see those warriors at the back door, half of them formed a circle around the warehouse and were blocking forward, while the other half, were cleaning up something.

They originally built the bunker, at the moment has long been smashed by the sacks flying out of the back door of the warehouse

Ji Feng's brain immediately sketched out the scene

The warehouse suddenly exploded, and then, those armed men and those sacks blocking the back door together, were blown away. And a lot of those sacks were smashed directly into the bunker outside the back, and then those fighters had to dodge

If at this time, the little prince's speed is fast enough, he may take advantage of this chaos, from the darkness around these warriors, and thus escape!

Ji Feng immediately accelerated wildly, crossed over those warriors, and continued to chase in the direction of the pier.

He brought his speed to the extreme, he must catch the little male!

Now there are Xiang Yongzhan and other people there in the warehouse, if the little prince did not run, or was blown up, Xiang Yongzhan will be able to find him.

In addition to this there is a possibility that the young male took advantage of the chaos and ran towards the pier.

A distance of several kilometers, for Ji Feng running at full speed, is not too far at all, even if he still has a rifle, it will not affect him much.

Soon, Ji Feng could hear the sound of water from afar, he put his eyes and immediately saw that there was a figure running far in front of him.

Ji Feng could not help but be surprised, the other party's speed is extremely fast, running with a sense of power.

Little Prince!

He really took advantage of the chaos to run away.

In order to escape, he actually blew up the whole warehouse, even his men were in it, really vicious!

Ji Feng secretly snorted coldly and continued to accelerate.

The distance between the two sides was getting closer and closer, and the sound of water was getting clearer and clearer.

When Ji Feng closed the distance between them again, he was stunned to find that there was not one person in front of him, but two. It was a man running, but on his shoulders, actually carrying a person.

The one being carried, is the little male!

Ji Feng saw clearly this time, the one being carried, with a mask on his face, was none other than the little prince!

"And run!"

Ji Feng's speed did not reduce, throwing his hand is a shot.

Boom!

At once, the man in front of him stumbled, but his footsteps did not stop, or continued to run wildly.

Ji Feng cursed, desperately chasing wildly.

The speed of the two sides were closing, and Ji Feng shot again.

The other side stumbled again, but still the speed did not decrease.

The other side stumbled again, but the speed was still unabated.

Ji Feng could not help but grit his teeth, he was sure he had hit the other side, but the man stumbled a little, the speed was not affected at all, a normal person certainly could not do, so the other side can only be a reformer.

No wonder the little prince could take advantage of the chaos and run away in the midst of such a violent explosion, it turned out that he was surrounded by a very powerful reformer.

The distance between the two sides was closing rapidly, and soon, Ji Feng was only about two hundred meters away from them, while at this time, the reformer carrying the little prince, but he had also reached the dockside and broke into the gates.

Ji Feng heart can not help but anxious up, once they get on board, they want to chase again can be difficult.

He did not hesitate to shoot again continuously.

Ta-da-da-da

This time, the man was finally beaten to the ground, because the running speed is too fast, this fall, two people on the ground constantly rolled.

Taking advantage of this opportunity, Ji Feng brought the two sides closer together.

However, after rolling on the ground a few times, the reformer actually got up again and once again carried the little male up and ran wildly.

Da da da da

How could Ji Feng still let them continue to run?

He continuously pulled the trigger, hitting that reformer simply could not escape.

When a shuttle of bullets finished, Ji Feng has also rushed to just a dozen meters from them, Ji Feng only then looked clearly, that transformation man, is actually an old man, looks like about sixty years old.

Ji Feng is not much surprise, the dynasty's transformation of human technology is indeed very powerful, even an old man, give him a change of bones, in the skin and flesh and then do some articles, that is no different from the strong man.

"Little Duke you go first, I'll block him!" The reformer bellowed.

"Want to go?"

Ji Feng bellowed, "Not that easy!"

He hurriedly bullied up, and the rifle in his hand slammed towards the little grandson.

The old man tried to block it, but was forced away by Ji Feng's fierce kick, and the next moment, the young male who just stood up was smashed on the ground again.

Ji Feng was about to go up and grab the young male, but the old man pounced on him again.

Ji Feng backhanded a fist and blasted out without reservation.

Boom!

The two of them exchanged a raw punch, but Ji Feng's body shook violently and took a step backward.

Stomp

The old man kept retreating four or five steps before stopping his body.

High hand!

And it was an internal expert!

Ji Feng was shocked, this old man so strong, just now that punch, he did not have the slightest reservation, is completely deadly, but this old man actually next!

At this moment, Ji Feng knew that he had met a real opponent!

Moreover, this old man is also an expert in internal medicine, because the punch just now, Ji Feng from the other party's fist, felt his internal force!

This reminded Ji Feng of that old ancestor of the Tan family, they were also both internal experts, and both were very powerful. But if compared to that old man of the Tan family, this old guy in front of him was clearly more powerful.

After just one punch, Ji Feng was completely sure that this person was definitely the most powerful person he had ever encountered.

Isn't this old man a reformer?

How come he still has internal strength?

Could it be that just now it was his own illusion that he was not an internal expert?

Then, how could he not be hurt at all after being shot by himself so many times just now? His internal strength is so strong?

Ji Feng immediately realized that he was careless.

Hoo~~!

Ji Feng didn't have time to think much because the old man pounced and killed again.

Ji Feng bellowed, "Xiang Yongzhan, the pier, bring people here immediately! Send people to blockade the sea!"

The next moment, Ji Feng was fighting with that old man.

Ji Feng had to admit that the old man was really strong, at this moment Ji Feng had already put out his full strength, the old man actually managed to fight with him, although Ji Feng had the absolute upper hand, but, he wanted to take this man, but he still needed some hands and feet.

But now Ji Feng where there is time to tangle with him, seeing that the young male has climbed up from the ground with difficulty, already in the stairs down the pier, next he is going to get on the boat and leave, Ji Feng heart anxious, shouted, biological currents converge into a whip, fiercely towards that old man.

“Go to hell!”

“Not necessarily!”

The old man, however, also sneered and struck over with a palm.

Boom!

The old man stomped back a few steps and muffled a sound.

Ji Feng flung his hand and struck a whip again, and the old man rushed to meet him.

The old man flew backwards and fell heavily to the ground, suffering from a minor trauma.

Ji Feng went straight to the little male.

Hoo~~!

His old man actually stood up again and pounced to kill.

“Fuck!”

Ji Feng was extremely angry, this old man was determined to protect the little grandson and leave, being pestered by him, it was really hard for Ji Feng to move an inch.

“Ji Feng, this is the second time!”

Suddenly, a furious cry came from below the pier: “Next time, I will kill you! You will also be like a bereaved dog, and your family will all die!”

This angry shout carried a strong hatred, obviously hating Ji Feng to the bone.

Ji Feng was extremely angry and coldly shouted, “Wait until you walk away!”

His heart was very anxious, the little male had already reached the sea, he paddled a kayak and left. Ji Feng immediately had to chase, but he was entangled by the old man.

“Drink!”

The old man shouted and attacked again.

Ji Feng shouted angrily, “Old thing, since you are so eager to die, then go to hell!”

He knew that this time he couldn't catch the little prince himself, the other party rowed away, he couldn't even chase after him if he wanted to, he could only hope that the patrol at sea could catch the little prince.

And Ji Feng was directed all his anger at the old man who was pestering him, if it wasn't for this old thing desperately pestering him, how could the little prince escape!

Hoo~~!

The old man suddenly backed up, came to the dockside unexpectedly long leap, want to jump into the sea.

However, as soon as his body rose up, he heard a loud shout from his ears: "Come down!"

Boom!

Only to see Ji Feng is also high leap up, overhead a leg ruthlessly pumped in the old man's body, immediately jerked him hard backwards out, fell heavily on the pier.

Ji Feng's eyes flashed with intense anger: "Old thing, if I don't beat you today, I'll jump from here!"

Chapter 1682

Boom!

I saw Ji Feng also leap up high, overhead a leg ruthlessly smacked the old man's body, immediately jerked him hard backwards, and fell heavily on the pier.

Ji Feng's eyes flashed with thick anger: "Old thing, if I don't beat up you today, I'll jump off from here!"

"Ho ho ho ho ho"

The old man smiled but laughed strangely, he fiercely rolled over and stood up, his body hands were still athletic and flexible, only, his face carried a ruthless look.

"Little beast, just now you fight very enjoyable ah." The old man laughed fiercely.

"Old dog, it seems you are still a bit unconvinced?" Ji Feng's face was incomparably gloomy, even a blind man was able to see how angry Ji Feng was at this moment.

Seeing that the little prince was already within reach, he could become his prisoner at any time, yet it did not occur to him that the old man was not only incredibly strong, but also had terrifying endurance, and wrapped himself around him, so that he could not get away to grab the little prince, and could only watch the little prince get into the small kayak and paddle away quickly.

How can Ji Feng not be angry?

This old man is like a fly around you, although you can not bring you much harm, but you can be disgusted with no move, you can not do anything about him for a short time!

Now it is good, this old man actually still laughing strangely like this, blatant provocation, Ji Feng's chest was instantly filled with anger.

“Ho ho ho ho” The old man saw Ji Feng’s gloomy face and couldn’t help but tsk: “I really didn’t see it, little beast, your kung fu is really good, but it’s been a long time since someone was able to hurt the old man, and in all these years You are the first!”

“Hurt you?”

Ji Feng shook his head and looked serious: “Believe me, today you’re definitely not just injured so easily, I’ll let you know what it’s like to be defeated!”

The old man oohed and aahed with two strange laughs: “Really? Looks like you’re very confident!”

Here, his face sank and he said in a stern voice: “Little beast, you dare to open a dye house after giving you some color! If you weren’t worried about my son, do you think you could have hurt me? Your kung fu is good, but, want to cross in front of the old man, hey, you need to go back to your mother’s womb to practice again!”

Ji Feng nodded: “Very good!”

The old man laughed strangely: “Hairy little beast, still posing in front of the old man?”

“I remember all these words you scolded.” Ji Feng, however, nodded very seriously and said, “I know, you just want to stall for time and recover from the injury you just suffered, I have given you this opportunity, now, we are starting!”

“The little beast really has some brains, but that’s the end of you!” The old man let out a strange laugh, suddenly his body shape surged, and in the blink of an eye, he reached Ji Feng and pounced to kill him: “Go to hell!”

“Let’s see who dies!”

Ji Feng shouted, and ruthlessly blasted a fist towards the old man.

This punch, no matter the speed or power, Ji Feng did not have any reservation, this is the ultimate he can achieve with one punch!

The old man was also surprised by Ji Feng’s speed, he was unable to dodge, he could only similarly blast out a fist.

Boom!

The two fists collided.

In the next moment, both of them were shaken, and the leg behind Ji Feng that was holding the ground could not help but be weak, but a powerful force suddenly erupted in his body and resisted, which was the effect of biological current.

Stomp stomp stomp

The old man is different, and Ji Feng against this punch, he is like a punch on a brick wall seems to be, all over the body was shaken, and then a strong force came, he stomped back six or seven steps, which was able to stabilize his body.

One punch, the difference between high and low!

The old man's eyes immediately flashed a look of shock, subconsciously strange shout: "Innate experts? How is it possible! Where did you get such strong internal strength?"

He originally thought that Ji Feng was indeed considered strong, but it was just as strong as him, or a line below him. The reason why he didn't beat Ji Feng just now and got injured was because he was worried that the young duke was cut off by Ji Feng, so he went out of his way to get himself injured, thus stopping Ji Feng.

You know, if it is said that the strength of two people not far apart against each other, if you want to defeat the other side, it may take some effort, but if the other side wants to escape, the opponent is really not necessarily able to leave him.

In order to leave the other side, it must be at least much stronger than the other side, in order to control the whole situation.

The old man intercepted Ji Feng, he knew that Ji Feng's strength was very close to his, at this time, if you want to intercept Ji Feng, not to let him hurt the little son, and you want to retreat, it is very difficult, especially, before Ji Feng but with a rifle directly smashed the little son who wanted to escape to the ground, which means that Ji Feng's strength may be stronger than he thought.

So, the old man could only risk his own injury, take the attack tactics, and hard to pester Ji Feng, which created the opportunity for the young man to escape.

And what happened next, only Ji Feng and him were left on this pier, and his mood was a lot more relaxed.

Now that there are no worries, it's only a matter of time before he wants to defeat Ji Feng.

In this old man's opinion, even if Ji Feng is tougher, so young he can be tougher to where? What's more, when he was pestering Ji Feng before, he already felt that Ji Feng's strength was at most on par with his, as for being more powerful than him that was impossible!

But now it seems that things are not like that ah.

He was actually shaken back by Ji Feng with just one punch?

The old man's face with a touch of shock, and some disbelief, Ji Feng at a young age, actually is an innate expert? Moreover, the true qi in his body seemed to be even thicker than his?

This is unbelievable!

He had cultivated hard for decades to achieve this level of cultivation, how could this young man be so powerful?

"Old dog, I think you're the one who's seeing less and more!" Ji Feng stood at the edge of the pier, step by step, his voice was cold: "I said, today I must beat up you, so I will definitely do it!"

"You are also a reformer?" The old man frowned.

"It seems that you are also a reformer?" Ji Feng sneered.

“You are also from the dynasty?” The old man suddenly said in a cold voice: “Then how come you are with the people of the Chinese military? Did you make a mistake?”

“A reformed person who can still possess such strong internal strength!”

Ji Feng did not answer him, but was aghast in his heart.

If that was really the case, this was enough to show that the Dynasty’s breakthrough in human transformation was far more powerful than one could imagine.

How could a transformer still have internal strength?

“Heh!”

Ji Feng sneered, “I’m more interested in you, it seems that your next fate will be miserable, probably like a white mouse, being dissected and made into slices for research”

That old man suddenly roared, “I see, you betrayed the dynasty?! Aren’t you afraid of the dynasty’s means of punishment for traitors, you dare to do this, aren’t you afraid that your family will suffer”

Hoo~~!

Ji Feng’s body shape surged, a vertical small broken step instantly reached that old man, began his pounce.

The old man’s voice stopped abruptly, in front of Ji Feng’s stormy attack, he could only hastily defend.

And until this moment, the old man realized that Ji Feng’s strength was not on par with his, but definitely exceeded him, just not by much, but this was enough to scare him.

Originally, he was expecting to escape after defeating Ji Feng.

But now it seems that he can protect himself is already considered lucky, as for escape

Before the old man had time to think of a plan to escape, he was overwhelmed by Ji Feng’s stormy attack.

Ji Feng and the old man in a fierce battle, he can be said to have used all his abilities, whether it is power or speed, he has played to the extreme.

However, Ji Feng also had to admit that the old man was indeed powerful.

It can be said that this is the most powerful opponent that Ji Feng has encountered since he grew up.

In a short period of time, he could have fought Ji Feng evenly, and it was difficult to separate.

But this is good, at least, Ji Feng completely entangled him, the old man can only fight with him, who withdraws first who is unlucky, between experts, there is a glitch can not.

In this way, the old man wanted to escape, there is no possibility.

He did not even have time to talk!

Ji Feng also played a real fire, so long, he really have not been so desperate, this battle can be described as a hearty, Ji Feng heart of the fire, with the fist of the bombardment, a little bit of venting out.

However, this is only Ji Feng's thoughts, but in the old man's opinion, this battle with Ji Feng is really bitter.

Ji Feng is slightly stronger than him in terms of power or speed, or in terms of the strength of the true qi, which is just, the key Ji Feng's attack is more intensive and strong, and can even be said to be crazy.

Every time Ji Feng threw a punch, the old man could not help but shake, and before he could slow down, Ji Feng's second punch had arrived

So repeatedly attacked, the old man was beaten and could only retreat from time to time, clenching his teeth.

He can only hope that Ji Feng's age is small, although the internal strength cultivation is high, but the true qi in the body should not be as durable as him to persist, so he gritted his teeth, hardened his head to persist, just hope to be able to drag out this period of Ji Feng's peak attack, wait until Ji Feng is tired, he can counterattack, and then, no matter how bad, escape is also no problem!

However, the old man did not expect that it was because of his idea that he had a chance to escape, but now there is no chance of escape

Chapter 1683

Two figures, staggering and flashing across the dock, were in the midst of a fierce battle under that dim light.

"Give me the middle!"

A violent shout suddenly sounded on the pier, and the next moment, I saw that old man was blown backward a few steps violently, he just wanted to take the opportunity to take a breath, but Ji Feng had already bullied his way to the front and attacked again.

"Bastard!"

The old man roared in his heart, "This is the Boundary Tent Ninja's footwork, how did he know it?"

This old man was really suffocating, he was completely pressured by Ji Feng from the beginning until now, especially, every time he used his own footwork to retreat, Ji Feng instantly followed him, so he didn't even have a chance to take a breather.

It is also Ji Feng's step by step, beat the old man's endurance declining, and now can only grit his teeth, barely hastily block, Ji Feng occupies an absolutely dominant position.

The old man was really suffocating inside, he wanted to fight back, wanted to roar, but these can only think in his heart, in front of Ji Feng's fierce attack, he simply did not have the opportunity!

As the battle became more and more intense, Ji Feng's fist after fist bombardment also became more and more severe, swift, and strong.

The old man can be said to be secretly screaming, how can this little beast be so powerful, does his body not know pain, or is his internal strength really strong to such an extent?

“Ah...!”

The old man shouted violently, his body curled up violently, and at the same time, he kicked at Ji Feng’s knee.

Swish!

Ji Feng’s figure flashed once again, but steeply appeared behind that old man.

“Aiya, not good-!” The old man let out a strange cry and leaned forward, he was trying to roll on the ground to avoid Ji Feng’s attack from behind.

However, Ji Feng’s speed was even faster than him, and he who had prepared long ago, without any reservation, his punch, containing a rich and fierce bio-current, just blasted the old man’s back waist heart.

Boom!

The old man was instantly blown away, but Ji Feng followed instantly, grabbed the old man’s ankle, yanked it, and at the same time supported the ground with his hand, and kicked straight upwards.

Boom!

The old man’s body was instantly kicked into the air.

Ji Feng quickly took two steps back, took a bow stance, and while the old man was falling fast, he leapt up high, turned around and pumped a back swinging leg in the air.

Boom!

The old man’s body was directly jerked away by Ji Feng’s leg in the air, just like a cannonball, and fell heavily on the pier ground.

The stones on the ground were smashed as if a piece had crumbled, so it was clear how strong Ji Feng’s force really was!

“Cough

That old man was beaten painfully, he climbed up with difficulty, gritted his teeth and said angrily, “Little beast, you actually know the ninja’s footwork, it seems that you are not only a person of the dynasty, but also a person of the boundary tent

Ji Feng walked step by step, sneered: “What I am has nothing to do with you, you only need to know that today, I will beat you here!”

The old man laughed harshly and strangely: “You really think you have that ability?”

Ji Feng shook his head, instantly bullying up, not at all with this old man any more nonsense. This old thing that pretend skill, more than his body, really ridiculous.

“Little beast, the old man has something to say” That old man saw Ji Feng lunging over again, and suddenly shouted strangely.

“Say your mother!”

Ji Feng bellowed, “Kneel at Laozi’s feet and say it!”

The old man originally still wanted to say something, but was beaten by Ji Feng he simply did not have the opportunity to speak, but only a series of angry drinks, strange screams, but will not even half affect Ji Feng.

Hoo~~!

Ji Feng punched out at great speed, and with a bang, it hit the old man right on the wrist.

“Ah ah~~”

The old man shouted strangely and retreated violently, but he could not retreat there?

Ji Feng sneered: “Old dog, it seems that the material you were transformed with is not good, I broke your wrist with a light punch?”

The old man roared and shouted, “Little beast, if you force me to die, we will die together!”

Ji Feng sneered, “You don’t have that qualification!”

The old man was knocked back by Ji Feng and roared, “Don’t be too wild, little beast!”

One of his wrists was broken, so he lost half of his arm, and he was already beaten by Ji Feng and could only passively defend himself.

At this moment, Ji Feng already had a complete overwhelming advantage!

Swish!

Ji Feng’s body suddenly flashed, while shouting violently, “Old dog, beware of behind you!”

The old man was immediately shocked and had to retreat, but saw that Ji Feng did not go around behind him at all, but blasted him with a fist head-on.

A crunching sound!

The sound was so crisp that it sounded completely different from the sound of a normal person’s bones breaking.

But there is no doubt that this is indeed the sound of the old man’s arm being broken!

Ji Feng’s punch broke the other arm of the old man.

So far, this arrogant and arrogant strange old man had lost the use of both arms, one was broken by Ji Feng’s wrist, while the other, was broken by Ji Feng directly in the middle of his son.

His arms immediately drooped down.

The old man roared in anger: “Little beast, don’t bully people too much!”

Ji Feng was even more furious: "Fuck! I'm just bullying you, let the little prince get away, I'm going to beat you alive and waste you!"

"You and I are both from the dynasty, our organization has a good relationship with your realm tent government, why do you want to drive all the people to death?!" The old man lost his two arms, how could he be Ji Feng's opponent, he was beaten backwards and could only use his two feet to defend, the situation was precarious.

Ji Feng sneered: "The grandson is the one who is from the boundary tent, the old man is from China!"

The words have not yet fallen, he kicked the old man a heel.

The old man rolled on the ground and stood up again, but his face was blue, but he did not suffer much damage, he rolled, he had taken off the force of Ji Feng's kick.

..... From this point of view, this old man is really too strong, both arms are ruined, he can actually still tremble with Ji Feng, so it can be seen how strong his skills are.

It was no wonder that Ji Feng thought that this was the toughest opponent he had ever met.

"Even if you are a Chinese, then you are still a member of the organization, why did you kill your own people?! And betrayed the little prince? Aren't you afraid of the King's revenge?" The old man yelled.

"The old man is looking for the king, if he dares to come, I'll beat him up as usual!" Ji Feng sneered and swept his foot over again.

The old man was swept on the ground like a dead dog.

"Well poof!"

Finally, the old man had no way to carry on hard, Ji Feng this foot down, finally beat the old man vomited blood.

Ji Feng is not merciful, the cold light in the eyes even better, are now, this old son of a bitch actually still take the king to threaten himself, and also behaved so affectionate to the boundary tent, fuck him, today to not vent properly, Ji Feng feel sorry for themselves!

"Stomp stomp stomp"

Just at this time, from the direction of the warehouse ran a group of warriors, to Yongzheng and Yi Xingchen led respectively, and soon surrounded Ji Feng and the old man, black holes in the muzzle of the gun all pointed at the old man.

Ji Feng, however, bellowed: "You guys immediately go down to the sea to chase the little prince, he is injured, is paddling a small kayak away this person to me to deal with!"

Xiang Yongzhan waved his hand: "Go!"

A group of warriors immediately went down from the steps of the pier, and was ready to go after.

Yi Xingchen, on the other hand, was waiting for Ji Feng not far away with White Spider and others. The black hole of the gun was pointed at the old man!

“Report, there is no key on this speedboat” a warrior reported loudly.

But a special warrior came forward, three or two times to ignite the launch of the speedboat, as a special soldier, this is all the most basic skills, no key can not open the boat?

And this time, Ji Feng was relieved, why obviously there is a speedboat not to use, that little male but just paddled a small kayak away, the original, he did not have the key on the speedboat!

Ji Feng sneered: “Old dog, it seems that your little grandson can’t get away!”

The old man said in a stern voice: “Then I’ll pull you all along for the funeral!”

Ji Feng snickered: “Do you think you still have that chance? Is it because of the biological bomb inside you?”

That old man’s face suddenly changed: “Your betrayal is really a big threat to the organization, you know everything If I can leave alive this time, I will definitely suggest to the king to take you out at all costs! You wait to die!”

Ji Feng laughed: “Not to mention whether the king has that ability to kill me, even if he does, it will have to wait until you can leave here alive to inform him, if you can’t even leave”

The old man’s face changed again, and Ji Feng’s anger was shattered in one sentence.

If even he couldn’t leave alive, then how could he ventilate the king?

Hoo~~!

Boom!

Just in the moment when this old man was dazed, Ji Feng’s body suddenly surged and instantly bullied his way to his heels, and his knee came into intimate contact with this old man’s thigh.

“Crunch!” A sound.

The old man’s thigh was broken by a knee of Ji Feng.

The next moment, Ji Feng’s leg swept across.

Another crunching sound, the old man’s other leg was also instantly broken by Ji Feng.

Every attack of Ji Feng contained a fierce bio-current, and unless the old man also used his kung fu to resist, otherwise, even if his bones were modified, he would definitely not be able to block Ji Feng’s attack.

Snap!

Ji Feng stomped on the old man’s face: “Old dog, if I say I’ll waste you, I’ll definitely beat you!”

The old man was stepped on his face and his limbs were broken, he could only physically struggle on the ground, but how could he not break free from Ji Feng’s foot, he was furious and screamed in a strange way.

“Little beast, if you have the guts, kill me, otherwise, I will not let you go”

Ji Feng sneered: "Later you will not say so!"

Before the words fell, Ji Feng raised his hand violently, and a raging bio-current instantly struck into that old man's body.

"....."

In a flash, the old man's eyes widened, and his body fiercely stiffened, his face rose to purple!

Chapter 1684

"....."

In a flash, the old man's eyes went wide and his body stiffened violently, his face rising to purple!

In the next moment, a miserable and incomparable scream roared hysterically out of the old man's mouth, "Ah-!"

Immediately afterwards the old man's body began to tremble violently, and his eyes were staring deadly, as if he was the kind of dead fish that had been sun-dried.

Soon, the old man's whole body began to tremble violently, but he clenched his teeth and did not scream out.

Ji Feng sneered: "Yoo-hoo, still a bit hardened ah!"

Immediately, he squatted down, pressed the old man's neck with his knees, clasped his chin with one hand, and reached out to the side with the other hand: "White Spider, give me a dagger!"

White Spider immediately went forward and handed the dagger that had been following her to Ji Feng.

After Ji Feng took it, he did not hesitate to put the knife **** into the old man's mouth and stirred it with force, all the old man's teeth were stirred out, his mouth was bleeding, his face was purple and black, obviously suffering great pain.

However, Ji Feng is not the slightest bit soft, at this moment, he is not half respect for the old man, this old thing, does not deserve his respect.

If not for the old thing still useful, Ji Feng would have killed him alive.

If it were not for this old thing, now the little prince would have been caught, but now it is good, can only count on the sea patrol to catch him, however, the final result in the end, it is still not clear.

Moreover, this old thing to the dynasty, the boundary tent seems to be very loyal, but such a person, but also a Chinese ancient martial arts experts, if not always Ji Feng have insisted on the hard practice, today may really be this old thing to kill!

How could Ji Feng not be angry?

"There are really poisonous teeth!" Ji Feng took a look at the broken teeth on the ground and found a poisonous tooth, it was a hollowed out tooth with a poison sac inside.

This is not what Ji Feng expected, in fact, before this, Ji Feng found a pattern, but all the dynasty's reformers are basically without poison yah, because their bodies are implanted with biological bombs. The detonation of this biological bomb is very unique, for example, if the host's heartbeat weakened to a certain level, the bomb will detonate, and the host's body will also be detonated if it is seriously injured

This biological bomb, it can be said that it is impossible to prevent.

Therefore, these people who have been implanted with biological bombs, there is no need to install the poisonous teeth.

But those who are not transformed, they do not have biological bombs in their bodies, and at this time, it is necessary to put poisonous teeth in their mouths.

This is also convenient for them to commit suicide after being captured.

And this old man in front of him, although he was indeed transformed, but he still has internal force, and it is also very strong, which makes Ji Feng suspect that this guy is actually not completely transformed, or rather, the dynasty's technology has returned to the basics.

Then, he should have poisonous teeth in his mouth.

Now it seems not surprising that this old man's mouth does have poisonous teeth.

Ji Feng's brow furrowed, from this old man, he saw the dynasty's breakthrough in transforming the human body.

After coming to South Guangdong, Ji Feng first met Wang Wenliang and other three senior reformers, who were much more perfect than the previous reformers, both their bones and their flesh and skin were transformed in a very unique way, and, from the outside, they looked no different from normal people.

And when he saw this old man, Ji Feng was even more amazed.

If the three Wang Wenliang are very advanced transformers, then this old thing should be the kind of super transformer. Because he not only has the strong body of a reformer, but also, has the profound cultivation of an ancient martial artist.

In this way, the dynasty has obviously found the kind of technology that can make the perfect combination of transformers and ancient martial artists!

This is what Ji Feng is most worried about.

This old thing in front of him is definitely the strongest opponent Ji Feng has ever seen, there is no one, whether it is the old man of the Tan family, or the head of the Shen family, or the two elders of Xuan **** that Ji Feng has ever seen, they are not comparable to this old thing in front of him.

This old man is too strong!

If

If the dynasty has mastered this technology, then, wouldn't they be able to transform the most powerful transformed people at any time?

Suppose that the dynasty uses such people to form a battle team

Ji Feng couldn't help but frown.

Just when Ji Feng was frowning and pondering, the old man who was pressed by him was in immense pain.

Look at that old man's face, is obviously suffering the most painful torment, his originally violent trembling body although has gradually calmed down pull, but anyone can see that he is more pain.

The teeth in his mouth were all stirred off by the dagger, his mouth straight out of blood, he desperately opened his mouth wide, his eyes were full of blood, forehead veins!

Ji Feng glanced at him and sneered, "Old thing, still running true qi?"

He could feel that this old man was desperately running the true qi in his body, as if he wanted to use it to ward off that painful agony.

Of course, the vast majority of this old thing's pain was caused by the wanton destruction of the bio-current that Ji Feng had punched into his body, so in reality, this old thing was running his true qi, trying to resist that bio-current from Ji Feng.

Ji Feng could not help but sneer, is his bio-current so easy to dissolve?

What's more, he will watch this old thing to dissolve his bio-current?

It's just a dream!

Ji Feng lifted the old thing up, raised his hand and slapped the old man on the head, at the same time, a bio-current also hit the old man's body.

"Well"

The old man's body stiffened violently, and immediately, his eyes rolled over and he passed out.

In fact, if the body was intact, the old man would not be so unbearable, otherwise, he would not have the ability to fight with Ji Feng for so long. However, this old man was just beaten severely by Ji Feng, all his limbs were broken, and Ji Feng hit him at the same time, a biological current also hit into his body.

That's why this old man was so miserable.

Poor this super expert, now being carried in Ji Feng's hand, it was like a dead dog, it could not be described as miserable.

Ji Feng threw the old man over, and at once two members of the battle team caught the man.

Ji Feng ordered: "Tie him up, check his condition every half hour, if he has any abnormalities, tell me in time!"

"Yes!"

The two soldiers immediately answered.

Only then did Ji Feng pat the dust on his hands and rubbed the dagger on the bottom of his shoes as well, before handing it to the white spider.

“Boss, is everything okay?” Yi Xingchen asked.

“It’s fine!”

Ji Feng waved his hand and asked, “How’s the situation over at the warehouse?”

Yi Xingchen couldn’t help but say, “None of our people were killed or injured, neither did the special operations brigade, but the warriors ambushed at the back door of the warehouse, a few were injured, but the situation is not serious, it should not endanger lives.”

Ji Feng nodded, that’s good.

He asked again, “What about the armed men in the warehouse?”

Yi Xingchen shook his head, “The situation is not good, anyway, those who were found, they are all dead. As for the rest, there are still fighters cleaning the warehouse, but there are no tools and not enough manpower, so”

Liu Zejun said coldly from the side: “Those people deserve to die, their masters don’t even care about them, and even directly detonated the bomb, which is the culprit for their deaths! If we can save them, we can save them, but if we can’t, no one can say anything.”

Yi Xingchen nodded and said, “Now we can’t save even if we want to, the whole warehouse has collapsed, just the broken wall, any piece of it has hundreds of thousands of pounds, we may not be able to move it even with our combined efforts!”

Ji Feng smiled and said, “The rescue or to save, maybe they know something, besides, killed in combat, that’s normal. But now, it’s better to do your best.”

Yi Xingchen said, “There are already people over there cleaning up, there are not many of us, just a few, more we are not more, less we are not less.”

Ji Feng could not help but look at him, Yi Xingchen then he smiled heatedly.

Ji Feng also shook his head and laughed, it was obvious that this guy really did not have a good feeling about those armed people.

“Boss, the little grandson ran away from here?”

Yi Xingchen asked, “Should we follow and go after him too?”

Ji Feng waved his hand and said, “Forget it, Xiang Yongzhan and the others have already chased after them, if they can’t catch up, then there’s no point for you guys to go again. Besides, you guys aren’t familiar with the sea patrol, so it’s better to let them go, and we can just wait here.”

Yi Xingchen looked at Ji Feng’s face and seemed to understand something and nodded.

In fact, Ji Feng had indeed lost all hope.

Don't look at the little grandson was wounded by his gun, and still paddled a small kayak to escape, it seems that he should not be able to escape far, and if Xiang Yongzhan and the others drive a speedboat, they should be able to catch up soon.

But don't forget, the little gentleman should also be a reformer!

For the transformation of people, can not look at them with the eyes of ordinary people, then, will suffer a big loss.

So, whether or not you can catch the little prince back, Ji Feng feels unlikely, this dark night, such a large sea, want to find a person, it really is a needle in a haystack phrase!

"Phew~~!"

Ji Feng let out a long breath, now is not able to catch the little grandson, he did not dare to assert, but, he most regretted is that today it is easy to see the little grandson again, but because of the violent running, the result did not see the real face of the little grandson.

Looks like, want to know who the little grandson really is, before Xiang Yongzhan they did not return, you can only ask this old thing that Ji Feng caught!

Chapter 1685

South Guangdong, Yuezhou, a pier, far from the view, still burning a blaze.

It seems that today's weather are foretelling some not-so-good signs, the wind is very strong this night, the waves are also very high, even in the location near the pier such a shelter, that the sea water is constantly washing the stones on the pier. The waves hit the rocks and crushed them, making a small noise.

Ji Feng hands in his pockets, looking at the wind and waves of the sea, frowning.

Today's matter, in fact, both in action and in the plan, it should be said that there is nothing wrong. Because from the beginning, they also only caught Ishida Ono, and then from his mouth, to get the king's hiding place, and also only one of the hiding place, so that the plan from the very beginning, the possibility of failure is very high.

Or, in a particularly lucky situation, the king might happen to be in that clubhouse when they arrived in Nan Yue, and then they would immediately strike and capture the king in one fell swoop.

But that would only be possible with extraordinarily good luck, but the chances of that are just too small.

With the cunning of the king, and his kind of hiding personality, the chances of him being able to appear here are really small.

Therefore, from the beginning Ji Feng was already mentally prepared for the failure of the operation.

However, the next action was a surprise to Ji Feng. He first saw Wang Wenliang in that clubhouse, and then he made an immediate decision, and then from Wang Wenliang's mouth, he knew where the real Little Prince was hiding.

The ability to find the little prince was beyond Ji Feng's expectations, and could even be described as an unexpected gain. So things have progressed to this point, definitely far beyond Ji Feng's expectations, is quite good, even if here, the action came to an abrupt end, can not be said to be a failure.

However, Ji Feng is really a little reluctant.

You know, just before this, he was only a few dozen meters away from the nearest little male!

A distance of a few dozen meters, for ordinary people, may have to run wildly for a while, however, for Ji Feng's almost perverted speed, at most, only a few breaths, he can catch the little male.

But it is this distance of a few dozen meters, but how he did not cross over.

This old thing beside the little prince, is too strong!

His playful entanglement, really let Ji Feng have no way, their strength is not too big difference, want to cleanly defeat each other may not be easy, want to leave each other is not easy, but, want to entangle each other, but not too difficult.

As a result, Ji Feng just watched the little male who could be caught at any time, paddling a small kayak to escape.

This kind of eyes on the target that is about to come to hand, but then slipped away from the hands of the feeling, even Ji Feng kind of open-minded, but also inevitably some reluctance, and, is very reluctant.

Ji Feng glanced at the old thing being escorted by two warriors, he could not help but flash a cold light in his eyes, if not next to interrogate the old thing, Ji Feng really want to kill him alive!

Once the little prince escaped, the next time you want to catch him, it will not be too easy.

Even, next maybe the little duke and the king will take their revenge. Of course, Ji Feng naturally will not be afraid, but God knows what kind of means they will take, will they retaliate against him, or against others?

Ji Feng shook his head and raised his hand to look at the time.

From the time Xiang Yongzhan and the others went after the young grandson in the speedboat, until now, twenty minutes had passed, but no news had come yet.

Ji Feng felt something bad.

"Boss, are we just going to wait here?" Yi Xingchen asked, "Let's see, I'll send someone to bring the car over first, and we'll sit outside the gate and wait in the car?"

"No need!"

Ji Feng waved his hand and said, "What arrangements they have for Xiang Yongzhan next, it's not clear yet, let's wait until they give us contact."

"Then do we go back outside the gate first?" Yi Xingchen asked.

Stretching out inside the gate, the waves may hit at any time, at this time they are only a few dozen meters away from the sea, if a high wave hits, they really can't hide.

Only being outside the gate is a safe place.

Ji Feng thought about it, then nodded: "That's okay, go over together, watch that old thing!"

Always waiting here is not a solution, can catch that will naturally catch, but if you can not catch, how to wait is also not caught.

A group of people to the gate, and at this time, Ji Feng found that a post not far from the gate, a person is probing the door of the post, once you see them coming, immediately under the miso to escape, but was a team member a few steps to catch up, grabbed the collar.

Ji Feng said: "Old Yi, you go to deal with, do not scare him."

Ji Feng saw, that guy should be the pier security or management, just now when Ji Feng ran past, just desperately chasing the little male wildly, but did not notice that there is a guard post here, there are actually people inside!

Yi Xingchen smiled and nodded: "Yes!"

And Ji Feng came to the side of the steps outside the gate, casually sat down cross-legged and waited patiently.

.....

The sky finally began to turn light, and the night passed.

"Well"

The old man, who was being escorted by two warriors and also closely watched, at this time was letting out a low moan, looking at his face, still in pain, his eyes were also tightly closed, his brow was tightly furrowed, and he seemed to be suffering from great pain.

Ji Feng heard the old man's moan, turned his head to look, could not help but coldly snort: "Still running true qi to resist biological currents?"

Looking at the old man's face Ji Feng knew that this old thing must be running his energy to resist the bio-current, otherwise, with the concentration of the bio-current he punched into the old man's body, it would definitely make the old man unconscious and then wreak havoc on his body, but the pain was not as intense.

But now it's different, the old man wants to offset the bio-current that Ji Feng punched into his body, so the old man's true qi and the bio-current collide with each other, and before the bio-current is completely offset, the two are like a fierce collision in the old man's body, which is like using the old man's body as a battlefield.

It is strange that he is not in pain!

Ji Feng could not help but shake his head and snicker, really a resilient old thing, but, since this guy fell into Ji Feng's hands, he could not let go?

Not to mention anything else, just with this old man's previous arrogance, Ji Feng will clean him up properly. What's more, this old thing also stopped Ji Feng, and thus let the little grandson escape, it's strange that Ji Feng could let him go!

"Take your time to run your energy!" Ji Feng grunted, and then stopped looking at the old man.

If this old man wanted to completely cancel out the bio-current in his body when he was not injured, it might not be too difficult. But now, this old thing has been injured and his limbs are broken, at this time he wants to cancel out the bio-current, for a short period of time, he can keep his body from being damaged by the bio-current, that is already quite powerful!

But when Ji Feng turned his head, he could not help but frown, he turned around violently, squatted in front of the old man, and pressed one hand on the old man's chest.

After a few moments, Ji Feng's face could not help but sink.

Almost got fooled by that old man!

"This old thing!"

Ji Feng couldn't help but coldly snort, he found that the old man, while exercising against the bio-current, actually tried to say to run his whole body power to detonate the bio-bomb in his body!

If Ji Feng hadn't suddenly remembered just now that this old man was also a reformer, he would almost have overlooked the biological bomb inside the old man's body.

Fortunately, this biological current that Ji Feng punched into his body was so strong that the old man had no time to worry about it and could only try his best to keep himself from falling into a complete coma.

If not, I'm afraid this biological bomb would really be detonated by the old man.

Imagine, the old man is right in front of them, surrounded by battle team members, he and white spider and Yi Xingchen and others are here, if the old man suddenly detonated the bomb, they are not even half prepared, let alone dodge, then, I'm afraid not dead will also take off the skin!

Ji Feng directly raised his hand, a cut on the old man's neck.

The old man's body trembled violently a few times, and then, it went limp, and never moved again.

Only then did Ji Feng breathe a sigh of relief, he ordered: "Keep an eye on him, if he has any reaction, tell me in time!"

The two soldiers who were responsible for guarding the old man immediately nodded and said, "Yes!"

Ji Feng coldly looked at the old man, more or less fear in his heart, this person has been caught, but if at this time by the old man to detonate the bomb, it would really be a wrongful death.

Raising his hand to look at the time, Ji Feng took out the multifunctional walkie-talkie and connected to the channel of Xiang Yongzhan.

"Zizi~~!"

Hearing the voice coming from the intercom, Ji Feng asked into the headset, "Old Xiang, how is the situation?"

Soon, a voice came over the intercom, "I'm on the speedboat, go back and talk."

Ji Feng nodded, but his heart had a not-so-good feeling, Xiang Yongzheng's tone of voice, showing that his interest is not too high, does this mean that the young male ran away?

Put away the walkie-talkie, Ji Feng stood up and turned his head to look at the direction of the warehouse, the fire had been extinguished, which was the result of several hours of combat by the fire fighters who came in the latter part of the night.

In addition, the South Guangdong Military Region also sent a group of soldiers over, responsible for the aftermath of this side, while coming, there is also engineering machinery.

After deliberating for a moment, Ji Feng said, "Go! Let's go back first."

"Young Ji, we're not waiting?" White Spider asked, "This has been waiting for several hours, Captain Xiang should be back soon"

"Do not wait!"

Ji Feng waved his hand and said, "It's the same to go back and wait, anyway I'm afraid the wait is not good news."

Chapter 1686

Eventually, Ji Feng took Yi Xingchen and White Spider and the others and returned to the barracks of the South Guangdong Military District.

While arranging for them to rest first, Ji Feng came to one of the rooms, where the old man was kept.

"You guys go and rest too, just leave this place to me!" Ji Feng said.

"Yes!"

Those two war team members who were responsible for keeping a close watch on the old man nodded and then went to rest.

Ji Feng looked at the old man who was limp on the ground and passed out, and his face was a bit gloomy.

Frankly speaking, he really hated this old guy.

Not only did he hate his arrogance and that strange laughter, but at the same time, Ji Feng hated the old man more because he thought that he was not the kind of guy who was willing to die.

You know, at the beginning, when that old man stopped Ji Feng, he acted confidently, even if he was injured because he wanted to pester Ji Feng, he didn't care, and he even said something wild.

It seems that in this old man's opinion, Ji Feng is not his opponent at all, if it is not to wrap Ji Feng, he does not even need to be injured even if he is injured, he still thinks Ji Feng is not his opponent.

As a result, the old man was defeated under Ji Feng, and it was in a head-to-head clash, raw and defeated by Ji Feng!

This is good, but Ji Feng from the old man's eyes saw shock and fear!

He couldn't help but curse, you knew you would be afraid, why did you act so heroic and fearless before? So loyal to protect the master?

Even if you are really loyal to protect the Lord, but why do you have to be so arrogant?

..... In fact, to put it bluntly, Ji Feng still hates the old man's playful pestering of him, which made the little male run away.

Epecially, when he spoke to Xiang Yongzhan, listening to the tone of Xiang Yongzhan, the interest does not seem to be very high, he guessed that the little prince is likely to be not caught.

Because of this, Ji Feng hated the old man even more.

However, even putting aside these personal subjective factors of Ji Feng, in all fairness, this old man's performance was indeed a bit too arrogant, and coupled with what he did, it was no wonder that Ji Feng hated him so much.

"Slap!"

Ji Feng fiercely slapped the old man on the face: "Old thing, get up and talk!"

The old man did not react.

Ji Feng shook his head, it seems that he was too heavy-handed before, so that this old thing is still in a faint state.

Seeing this situation, Ji Feng was not in a hurry, instead, he looked at the old man with interest for a few moments, and then, he stretched out his hand and squeezed it on the old man's face.

"That's it!" Ji Feng could not help but be a little surprised, he found that this old man's skin and flesh is not much different from normal people, are flesh and blood

"Such flesh and skin, how can it possibly stop a bullet?" Ji Feng was puzzled.

Before the chase on the pier, he shot a shuttle of bullets, he can be sure that the vast majority of bullets hit the old man, if replaced by ordinary people, would have been killed, but the old man only fell a few heels, the other nothing at all.

This is really some strange.

Ji Feng thought about it, activated the bio-current and slapped the old man's face violently.

"Slap!"

"Well"

The old man instantly opened his eyes, and his body even jerked violently, as if he was really electrocuted

If his limbs were still intact, I'm afraid this time he would have jumped up with a miso!

Seeing that it was Ji Feng in front of him, a look of fear flashed in the old man's eyes, and then, his mouth let out a sound of umph.

Ji Feng grinned: "Old thing, so you're not dead, huh?"

"Well! Mmmmmm"

When the old man heard this, a look of shame and anger flashed in his eyes, as if he had been greatly humiliated.

Ji Feng directly ignored his eyes, only he laughed: "Old thing, remember what I told you before? How many times did you scold me, I remembered all of them!"

"Well"

The old man roared hysterically, but because his jaw was dropped, so he could only make a sound, but could not say a word in full.

Ji Feng smiled and reached out to pick up his jaw: "See you seem to want to express, what have you got to say, I'm listening!"

"Phew~~!"

Jaw reset, the old man suddenly let out a long breath, he slowly opened his mouth and moved his jaw a few times.

Then, the old man gritted his teeth and asked, "You, what do you want?"

Ji Feng laughed: "Afraid that I will torture you? Do not worry, how you are also considered a master, I even if I do not respect you old thing, but to your kung fu, I still respect, no matter what, after all, you use should be the ancient martial arts of China, this deserves respect!"

The old man's eyes could not help but flash a look of shame and anger, hearing Ji Feng's words, he really felt humiliated and angry again.

Thinking that he was a super expert, wherever he went, there would be people rushing to flatter and flatter him, where had he ever been treated in such a humiliating way?

Ji Feng does not care what the old man thinks, the smile on his face gradually turned cold: "But, for you, I need to say a few words, Seriously, old thing, I've never really seen someone as shameless as you! Such an expert, and willing to go to be a dog for others?"

The old man was furious at his words and felt a surge of anger rushing straight to his head.

However, before the old man could have a fit, Ji Feng asked, "Are you from the Canopy or from China?"

The old man couldn't help but stare.

Boom!

In the next moment, the old man just felt a blackness in front of his eyes as Ji Feng's hand hit his head, and immediately after that, he seemed to lose consciousness and his eyes became dazed.

“Old thing, do you really think I’m going to talk to you about family matters?” Ji Feng saw that the old man’s eyes were lax and his pupils were showing signs of spreading, so he knew that the bio-current was starting to work, he couldn’t help but sneer, then casually pulled over a chair and sat down next to the old man.

In his heart to reorganize the questions he needs to ask, Ji Feng then began to ask: “Old thing, what is your name? Are you a Chinese or a Boundary Tent? Where are you from

Ji Feng put these most basic information a brain are asked out, on the one hand because these information are very simple, the old man must be able to answer up casually, after all, this old guy should be tougher than Wang Wenliang and others, that he even if he was hit by neurotoxin, I believe there is still a subconscious.

And unlike others, once hit by neurotoxins, either a complete loss of autonomous consciousness, or finally become an idiot

This old man certainly will not, after all, Ji Feng used is not the real neurotoxin, but only with biological current imitation out.

On the other hand, but also because this old man is too powerful, Ji Feng must seize the time, because he is not sure how long this bio-current can play a role.

In case the old man wakes up while still asking questions, and then continues to act like he’s muddled, what Ji Feng gets then is a lie, not the real answer he wants.

Sure enough!

The old man obviously still had a subconscious mind, he answered all these questions that Ji Feng asked, and there was no mistake about the order.

“My name is Tian Youde, I am a Chinese, from the Chinese martial arts sect Xuan ****, I am the Grand Elder of Xuan ****

“Shit!”

As soon as he heard the old man’s reply, Ji Feng’s face instantly turned gloomy.

This old man was really a Chinese, and he guessed correctly.

Nonetheless, this old thing, actually was still the grand elder of Xuan ****, even he had already defected to the dynasty organization, does that mean that all of them, the sect, had become Xuan ****’s lackeys?

Ji Feng took a deep breath and tried to calm himself down, he asked again, “Then, did all of you Xuan **** defect to the dynasty?”

“No, the sect master escaped

“In that case, it was all of you who were sentenced to your sect master in order to defect to the dynasty?”

“Yes!”

“Then those disciples of your Xuan ****, did they voluntarily defect to the dynasty, or were they taken away by you?” Ji Feng asked again.

“It was us who took them away, the king said that he needed experts who knew Chinese ancient martial arts to do experiments and try to combine technology and ancient martial arts, so we took the disciples away

“Good for you!” Ji Feng couldn’t help but grin: “Really good job.”

At this moment, Ji Feng was really angry.

If previously Ji Feng for this old thing is still just hate, then now, he is full of killing in his heart, this old dog, should be cut by a thousand cuts!

A sect, not only so the dynasty’s dog, and even gave all the sect’s disciples to the dynasty as test subjects. This is not to mention that some of Xuan ****’s ancient heritage and those ancient martial arts have definitely been learned by the dynasty’s people, there is no doubt about it!

This old dog is really capable!

Ji Feng stared deadly at this old thing called Tian Youde, gritted his teeth and tried to calm himself down.

He shook his head and decided to change the topic, so he asked again, “Where did the little prince escape to?”

Tian Youde, however, said, “I don’t know

Ji Feng asked, “How could you not know? He went by sea, where did he most likely go?”

“Don’t know

“Damn it!”

Ji Feng gritted his teeth and couldn’t help but curse angrily. He realized that he had just made a mistake, Tian Youde, the old dog, would answer his questions honestly, but would not take the initiative to analyze, and with his current thinking, he simply could not do that.

Ji Feng then changed his way of asking: “Your dynasty is near that pier, does it have a stronghold?”

“Yes!”

“It’s really effective!” Ji Feng secretly said, and immediately continued to ask: “Then, where is the nearest stronghold?”

“I don’t know.”

“You don’t know? Didn’t the king tell you?”

“The king said that there is a secret path to the boundary canopy that I don’t know about.”

Chapter 1687

When Tian Youde said so, Ji Feng also understood what was going on, and it seemed that this old dog indeed did not know.

Because before Ishida Ono also once explained, said that if his action plan in Jiangzhou failed, then, he can escape back to South Guangdong, contact the king, or the king's side, then, after that, someone will come to replace Ishida Ono, and to hand over the job with him.

Of course, this is not the most important.

What Ji Feng really cares about is what Ishida Ono said afterwards, he said that when the handover between him and his replacement is finished, the king will send him back to the boundary tent.

It was said that in Southern Guangdong, the king had a way to lead directly to the boundary tent.

Of course this is a nice way of saying it, but in fact, to be frank, this should mean that the king has his own way to smuggle or smuggle directly to the boundary tent.

In other words, the king has the ability to come and go as he pleases between the boundary tent and China's southern Guangdong. The two countries, China and the boundary tent, are like one is the king's front yard and the other is his back garden!

So needless to say, the little prince is now definitely going to escape to that stronghold of the king.

Ji Feng's face is not very good, this southern Guangdong Province itself is near the sea, the pier is a lot. Like those big docks needless to say, however, those small docks are more. Even, some docks can only dock a few fishing boats, and even some are at most just some stones piled up a small dock

On such a long coastline, if a small pier pops up there, it's just too normal. And with the energy of the king, want to take advantage of so many docks to cover his stronghold, simply easier than eating and dressing it!

The hateful thing is, in their own territory, actually no way to nail the dynasty's people, even, but also to let these boundary tent people come and go, is too arrogant, but also too hateful.

Ji Feng looked deeply at Tian Youde, secretly said: "Come back and then slowly clean you up!"

And then he stood up and walked out of the room, took out his cell phone and dialed Xiang Yongzhan's number: "Old Xiang, it's me."

Xiang Yongzhan's voice came over: "No need to rush, I'm already on my way back, about half an hour before I reach the barracks."

Ji Feng said, "I'm not asking you about this, old Xiang, I got an important situation on my side, somewhere along the coastline of Yuezhou, there should be a stronghold of the king, this stronghold is mainly used for smuggling, or smuggling to the boundary tent, you immediately have someone check it out, I dare to conclude that the little prince must have gone to that stronghold."

The little prince escaped, it can be said that the moon is dark and windy, the waves are not small, although the little prince is a reformed person, can not follow the general human ability to see him, but, after all, this is the sea, unless that guy can fly, otherwise, even if he can escape, he must find the landing place, otherwise, he will only be buried at the bottom of the sea.

So Ji Feng can be sure that the little prince must be in a stronghold somewhere along the coast, and that stronghold, most likely a pier!

Xiang Yongzhan could not help but say: "Why didn't you say so earlier? We're all back here"

Not said earlier?

Ji Feng heard this, can't help but sink, to Yongzhan said so, it also means and did not catch the young male?

"It's not too late to go now!" Ji Feng said in a deep voice: "You immediately send someone over now, mend the fold after the sheep are dead, maybe there will be some gains!"

"Where did you hear this news from?" Xiang Yongzhan asked.

"What do you care where I know?" Ji Feng said with no good grace: "Where did you get so much nonsense? Send someone quickly, if it's late there will be nothing left!"

"Now I'm afraid there is nothing, I led people to the sea chase, has ordered patrol boats with the fastest speed to check the various docks along the coast, at the same time, also sent a few speedboats to search, and the main traffic routes to the various docks, also set up barriers!"

Xiang Yongzhan said: "These arrangements should be said to be very thorough, right? But until now, no news has been received, it seems that there is not much hope."

Although he did not receive a call from Ji Feng, but, what kind of person is Xiang Yongzhan?

He's not the kind of worldly brother who came down to gilding the lily, but the iron-blooded soldier who has really experienced life and death battles, and has experienced more than one or two battles.

So although he does not have a reliable source of information, but the consideration is very comprehensive, when he started the pursuit, he has actually taken all kinds of possibilities into account, the personnel are also arranged in place.

The call from Ji Feng now is also a verification of his judgment.

Ji Feng smiled and was silent for a moment before he nodded and said, "So that's how it is"

"I say, you know this information from that guy's mouth?" Xiang Yongzheng asked over the phone, "Is there any other important information?"

"No more!"

Ji Feng shook his head, "The other information is important, but the immediate priority is to catch the young grandson, and we ended up failing."

Xiang Yongzhan said: "Do not be discouraged, this kind of thing is often, besides, before we act you already know, in fact, the probability of failure of this operation is still very high, after all, we have too little information in hand. Now can do this step, is already considered quite good."

This is not to Yongzheng's own face, nor is it his self recognition.

In fact, this operation was different from all the previous ones.

This operation, both in terms of intelligence and time, are very hasty, after all, they have too little information in their hands, if they act rashly, but will startle the snake, but if they do not act, and will be in vain to miss the opportunity.

This is the dilemma they face.

So in fact, before coming to South Guangdong, they already knew that the action to South Guangdong, luck is much more important than strength. This time, a large part of the operation depends on luck.

And this thing, luck is really a very nebulous thing.

So to be frank, they have been prepared to fail in the operation to return empty-handed psychological preparation.

And now, they took out the club, considered to have knocked out a stronghold of the dynasty. At the same time, they captured Wang Wenliang and three other senior reformers, as well as some other members of the Dynasty organization, and also foiled the Dynasty's plan to use the Hongsheng Group to form some kind of business alliance.

Most importantly, they had chased the young duke as if he was a dog in distress, and they had also captured a super expert beside the young duke.

This is already a great harvest.

As long as the next action is fast, want to get some useful information from the captured people, it is still very easy, next, I believe that can certainly give an extremely heavy blow to some forces of the dynasty in southern Guangdong!

Ji Feng said: "Then let's do this first, and wait for you to come back."

.....

After ending the call, Ji Feng went back to the room where Tian Youde was, he still had many questions that he had not asked.

This old thing still looked so muddled, Ji Feng pulled over a chair and sat down and asked, "Tian Youde, let me ask you, what benefits did the dynasty give you that could make you betray the sect master and even go so far as to contribute all the disciples under the sect to the dynasty for human testing?"

"Many benefits."

"....."

I don't know what's going on, Ji Feng listened to his headless answer and suddenly surged with an urge to get this old thing killed.

Ji Feng asked in a deep voice again, "What are all the benefits?"

In the next half an hour, Ji Feng resisted the urge to kill Tian Youde and asked all the questions he wanted to know, and got the answers he wanted.

It was only when Xiang Yongzhan returned that he ended his questioning.

He asked Xiang Yongzhan to arrange two soldiers to watch Tian Youde, Ji Feng and Xiang Yongzhan sat in a separate room, respectively, lit a cigarette and slowly smoked.

“This operation, eight out of ten `9 is a failure!” Xiang Yongzhan said frankly, “Although the people have been arranged down, but until now have not received news, I’m afraid that the little prince is already run away.”

“Since he is hiding in the warehouse near the pier, it is normal that he will definitely arrange the escape route beforehand.” Ji Feng nodded, “Besides, he is a reformer, he must have the ability to surpass normal people, the possibility of escaping is indeed high.”

“By the way, you brought back that escort beside the little prince?” Xiang Yongzhan asked, “How’s the interrogation going?”

“The interrogation is almost done.” Ji Feng said, “I have recorded the interrogation process, I will give you a copy later, you take a listen, should be able to use. This old thing is Xuan ****’s Grand Elder Tian Youde, he is really too ruthless!”

Until now, Ji Feng still can’t help but shake his head when he talks about this Tian Youde.

This old thing is really too ruthless, he brought Xuan **** people betrayed the sect and the sect master not to mention, the most hateful is, then an old son of a bitch actually gave the disciples of the sect, to the dynasty as test subjects.

Fuck him!

Rao to Ji Feng’s character, were angry with him did not know how many foul language!

Xiang Yongzhan’s face also couldn’t help but be gloomy, and a cold light flashed in his eyes.

“Boom!”

Xiang Yongzhan kicked the chair next to him away as he couldn’t help but curse angrily.

“Bastard! Damn it! Anyone who has heard of Dynasty knows that this organization has an unusual relationship with the Boundary Tent, and many of its members are Boundary Tent people! What’s the difference between using Chinese people as test subjects and using them for live experiments during the war? It’s unconscionable!”

“Where is that old bastard Tian Youde?”

Xiang Yongzhan stood up with a blue face: “I must go to meet this old dog, the little prince can’t catch it for the time being, but, now this beast who betrayed his fellow disciples to the world tent is right in front of me, if I still can’t clean him up, I don’t deserve to be a soldier!”

Ji Feng said with a smile, “I also mean this, no, I have been waiting for you to come back, and then together to clean up that old dog!”

“Go!”

Chapter 1688

Both Ji Feng and Xiang Yongzhan carry a few fire in their hearts.

In fact, they are clear in their hearts, this time the little male eight ` nine is not caught back.

Not to mention the other, just the king's operation in the dark, do not know how many arrangements, and they can only send people to cast a comprehensive net, but there is nothing to focus on the target, want to catch the little prince is really not easy.

This already let two people very regret, and now know that Tian Youde did those things, these things add up, the two people are not angry to be strange.

A sect's elders, actually united with the rest of the sect, the disciples under the sect are given to the dynasty as experiments how is this a human being can do things?

Although Ji Feng himself has no good feelings about this Xuan ****, but this does not mean that he wants to watch the Xuan **** extinction. In modern society, martial arts are almost disappearing, and like this martial arts sects, in fact, are the legacy of the old ancestors left behind, but now it is alive in the hands of people like Tian Youde!

From now on, there will be one less martial arts school in the martial world, and the heritage of ancient Chinese martial arts, I'm afraid to cut off a door.

But Ji Feng two angry reason is not only this, the dynasty is what organization? That is an ambitious, China is eyeing the strange organization, the disciples sold out to this organization, thanks to Tian Youde can do it.

"Son of a bitch!"

Xiang Yongzhan couldn't help but grit his teeth and cursed angrily, "What's the difference between him doing this and treason? No, for him treason is a trivial matter, what he really deserves to die is that he knows that the dynasty is very close to the people of the world tent, but still betrayed all the disciples under his disciples, what is the difference between this and those people of the world tent who used our Chinese people for human testing?"

Ji Feng's face was also very gloomy, he said, "With Tian Youde's vision, maybe he can't see such a height, people like him, love or not love the country has nothing to do with him, what he really hates is that after he sold the disciples of Xuan **** to the dynasty, it will make the dynasty make a major breakthrough in human transformation technology, and will create a group of even stronger transformation people!"

Whether a person loves the country or not, there is no way to enforce this on them, people are not patriotic, what can others do?

However, Tian Youde sold his disciples to the dynasty without mercy, which is simply unconscionable, moreover, it also allows the dynasty to create more powerful reformers as a result, forming a greater threat to China.

Other than that, just Wang Wenliang and the man and woman, the three of them are far more perfect and stronger than the most advanced transformers that Ji Feng had seen before.

And Tian Youde is even better.

Wang Wenliang three people are still only transformed, but there is no internal force in the body.

But this Tian Youde is different, he is not only transformed, but also a super expert, in his body, the perfect combination of ancient martial arts and technology!

This is enough to show what kind of degree the dynasty has reached in terms of human transformation technology!

As long as there is a successful example, then the next dynasty will be able to create more super masters, and this is the biggest threat to China!

Imagine, if the next time the dynasty sent transformers, are Tian Youde this kind of both ancient martial arts, body has been modified experts, not to say there are many, even if only three or four, I'm afraid that with Ji Feng's strength, have to avoid it!

Against one Tian Youde, Ji Feng is easy, even if two Tian Youde together, Ji Feng is not afraid.

However, what if there are three or four?

Or more of such super experts together?

These people are not afraid of firearms, bullets hitting them surprisingly can not cause much damage, and close combat, I am afraid that no special forces are their opponents then, who can still deal with them?

The two gloomy face, came to the room where Tian Youde was held.

Ji Feng pointed inside and said, "It's right here."

"Boom!"

Xiang Yongzhan viciously kicked the door of the room open: "Son of a bitch! If I don't clean him up properly today, I won't wear this skin!"

The two soldiers in the room who were responsible for guarding Tian Youde were startled, when they saw that the visitors were Ji Feng and Xiang Yongzhan, they immediately saluted: "Report, we are guarding the VIP, please instruct the chief."

Xiang Yongzhan said, "Thank you for your hard work, you guys go out first."

The two men said in the same voice: "Yes!"

Ji Feng's gaze fell on Tian Youde's body. At this moment, Tian Youde was still in that muddled state, his eyes were blank, looking as if he was demented.

Xiang Yongzhan asked in a deep voice: "Is this the old thing?"

Ji Feng nodded and said, "He is Tian Youde, before you came, I have been interrogating him, this is a little tactic."

Xiang Yongzhan asked, "Then can you make him come to his senses? Since I want to clean him up, it has to be when he is awake, otherwise, even if I kill him I will not be relieved!"

This kind of tactics of Ji Feng, Xiang Yongzhan had seen it before, so he was not surprised.

However, this appearance of Tian Youde at this moment made Xiang Yongzhan reluctant to strike to torture him. Beating an idiot, that is really boring, not to mention, thought Tian Youde's state at this time, even if he was cut alive, this old thing is afraid not to feel the pain.

Such a person is to make him suffer, if he does not suffer, to the battle instead of tired half dead, that can be in the torture of his own.

Ji Feng shook his head and said: "It's better to wait for him to wake up on his own, trying to get him into this state is not much easier. How about this, I'll continue the interrogation, and when he wakes up, you can do it again."

"Then let's do it!"

Xiang Yongzhan waved his hand and said, "Since it's a rare opportunity, then you continue the interrogation."

Ji Feng nodded, lifted Tian Youde up with one hand, made him lean against the wall, and asked in a deep voice: "Tian Youde, let me ask you, after you Xuan **** people joined the dynasty, how many of them were transformed into your appearance?"

Just now, in order to seize the time, Ji Feng asked some important questions, but there are many detailed questions he did not ask, now since there is still time, then continue the interrogation.

When he asked this, Xiang Yongzhan also seemed to realize something and could not help but frown.

Tian Youde said, "There are also the second and sixth elders."

Ji Feng asked, "What about the others?"

"Their kung fu is not enough, they can only become ordinary warriors"

"What about the other sons and daughters?"

"Their gong power is even worse and they can't become super warriors."

"So, how many of you in total have defected to the dynasty?" Ji Feng asked again in a deep voice.

"Thirty-two people."

.....

"Son of a bitch!"

With Ji Feng's more detailed inquiry, Tian Youde's answer made Xiang Yongzhan's forehead green from listening next to him, and he wanted to kill this dog immediately.

Up and down Xuan ****, including the disciples, a total of thirty-two people followed Tian Youde and joined the dynasty.

After that, the dynasty used them to conduct experiments, trying to find a way to combine technology and ancient Chinese martial arts, wanting to transform the super warriors.

However, unexpectedly, because the dynasty's technology is not mature, plus those disciples are not profound, so in the transformation, the first seven or eight have failed, and the result of failure is death!

And, or dead body!

Because their bodies were transformed when they were already made a mess of the face.

Several consecutive failures, so that the dynasty also seems to dare not venture, they can only first of all those remaining Xuan **** disciples to carry out the basic transformation, and then in the process, in the slow fumbling.

So those next disciples did not die, but they were only transformed into basic transformers.

However, to the surprise of the dynasty, these disciples because of years of practice of Chinese ancient martial arts, so their bodies are extremely strong, in the time of being transformed, the effect is actually surprisingly good, the transformation results are also very perfect.

Wang Wenliang, the three of them, were examples.

In this process, the dynasty seems to have made another breakthrough in technology, so when transforming Xuan **** several elders, the dynasty once again wanted to transform the kind of super transformer that combines technology and ancient martial arts, and as a result, three people were actually transformed successfully.

These three people, is the immediate Tian Youde, and the Xuan **** second elder, the sixth elder!

According to Tian Youde's account, Xuan **** originally a total of six elders, in addition to the fleeing sect master, there is a fifth elder, the result of an accident while being transformed, died. There are also two elders, died very early in Jiangzhou

Speaking of this, Ji Feng remembered something, could not help but sneer: "Motherfucker!"

He knew Xuan **** the two remaining elders, indeed planted in Jiangzhou, and, or by his personal hand against those two.

At that time, it was Ji Shaolei who called and said that his good friend Duan Peng was in big trouble, his company was looked at by Qiao Gakai, because Qiao Gakai was ruthless, Duan Peng couldn't fight him and could only choose to leave the country, and wanted Ji Feng to escort him on the plane.

But the night before, Ji Feng sneaked to find Qiao Gakai and the two elders, heard their conversation, and actually wanted to strike at Ji Feng's family, so Ji Feng struck in a fit of rage, and the two elders of Xuan **** were planted in Jiangzhou!

Now think about it, Ji Feng are glad that they were lucky to strike at that time, otherwise, maybe those two guys were transformed into a super expert like Tian Youde, then, another big trouble!

Ji Feng thought about it and asked, "Tian Youde, in addition to you and Wang Wenliang three, your Xuan **** remaining disciples, where are they now?"

Tian Youde shook his head, "I don't know."

“Really don’t know?”

“Don’t know.”

Ji Feng, however, grinned: “It doesn’t matter if you don’t know, but I would like to know how a person who has fallen into a muddled state knows how to answer questions and needs to shake his head?”

Chapter 1689

Ji Feng, however, grinned: “It doesn’t matter if you don’t know, but I would like to know how a person who has fallen into a muddled state knows how to answer questions and needs to shake his head?”

Xiang Yongzhan was suddenly stunned, and immediately, the fierce light in his eyes showed, “Ji Feng, do you mean to say that this old thing woke up?”

Ji Feng sneered, “That, is up to him to answer, isn’t it, Tian Youde?”

“.....”

However, at this time, Tian Youde still had a blank look, his mouth was slightly open, saliva was dripping down, the whole person looked as if he was really an idiot.

Xiang Yongzhan frowned slightly and looked at Ji Feng in confusion.

The smile on Ji Feng’s face thickened, he smiled: “It’s really hard for you old thing, so seventy years old, actually still for the money, for the so-called glory and wealth, born with their own years of friendship with old friends betrayed not to mention, and even all the disciples under the door betrayed to the dynasty, what they have done to transform!”

Ji Feng sneered: “Tsk! To be able to do such a thing, it’s really hard for you, but now, I admire you even more, even the idiots are pretending!”

Xiang Yongzhan’s face turned gloomy: “Is he really pretending?”

Ji Feng laughed: “To know if he’s faking, it’s actually very simple, just try him.”

Xiang Yongzhan immediately said, “This is good, castrate him, anyway, this old thing is not young, but also turned into this kind of inhuman appearance, keep that thing is useless!”

Ji Feng could not help but stunned, immediately, he nodded and laughed: “Good idea!”

But, the look on his face was very odd: “But, I’m afraid this old thing will be reluctant, don’t you see he is old, but energetic, and was transformed human is perfect, I’m afraid in physiology and normal people should not be much different!”

Before Ji Feng when probing Tian Youde’s body, has found that this old thing’s body is very special, he is indeed a transformed man, but, that skin and flesh and normal people are almost no difference, then it is clear that he must also be normal in physiology.

Xiang Yongzhan is a laugh: “Normal is good! I was really afraid that he was transformed without that thing!”

Ji Feng made a please gesture: “Then you try it!”

Xiang Yongzhan immediately turned his head and shouted, "Give me that knife to come, daggers are fine!"

At the same time, Ji Feng saw that Tian Youde's face involuntarily twitched, although the movement was very slight, but it could not escape Ji Feng's eyes.

He sneered and did not say anything.

This old thing does not like to pretend?

Well, since he likes it, then continue to pretend, see how long he can pretend!

Soon, a soldier outside the door pushed in and handed Xiang Yongzhan a multifunctional military knife with a sharp blade, which is a military knife of the best material, not the kind of cottage goods sold on the street.

"Hold this old thing down, legs apart!" Xiang Yongzhan said.

"Yes!"

The soldier shouted in response.

In a flash, Tian Youde's body trembled, and before the soldier could get close to him, he snapped open his eyes and roared, "Stop!"

"Boom!"

He was answered by a shot from the soldier's butt!

Obedying orders is the most basic code of a soldier, not to mention, this is a warrior who has seen blood, Xiang Yongzhan gave an order, he naturally has to carry out to the end.

So, Tian Youde just a little resistance to show, a gun butt directly on his face, instantly knocked him to the ground.

The next moment, the soldier's boots stepped directly on Tian Youde's neck, fixing his head on the ground, unable to move. And at the same time, that warrior's other foot kicked Tian Youde hard on one of his knees, instantly knocking his leg to the side.

The warrior was frozen, this leg of Tian Youde seems to be broken?

But this way, Tian Youde's legs immediately separated.

Xiang Yongzhan sneered, "Old thing, I'll castrate you here, you'd better continue to play the idiot, otherwise, I'm afraid you'll be in a lot of pain!"

Tian Youde's face and eyes were incomparably shocked, he wanted to struggle, but his limbs were broken, and his neck was stepped on by the warrior, so he couldn't struggle at all.

He wanted to speak, but now he could hardly even breathe, let alone speak.

Under the gaze of Tian Youde's incomparably horrified eyes, Xiang Yongzheng sneered and walked over step by step.

“Old thing, when you sold so many disciples of Xuan **** to the dynasty, you didn’t think that this day would come, did you?” Xiang Yongzhan’s face was filled with killing intent, “You helped the dynasty and also harmed many Chinese people, right? Today, I’ll collect some interest first instead of them!”

“Uh uh

Tian Youde struggled and made an odd sound in his throat, he seemed to be pleading, but he couldn’t even say a complete sentence.

Xiang Yongzhan’s expression grew colder and colder, and his eyes were thick with killing intent.

Ji Feng held his arms and sneered at Tian Youde, who was trampled under the feet of that warrior. Although this tactic is a little bit dirty, but, Ji Feng is not opposed.

The first thing you can do is to take a look at the situation.

Xiang Yongzhan walked to the front, squatted down, although Tian Youde is lying on his back, can not see the figure of Xiang Yongzhan, but he clearly felt the incomparable fear, horrified to death!

“Tic-tac~~~Tic-tac~~~”

Just then, there was a ticking sound coming from Xiang Yongzhan’s waist.

He frowned, casually took out the military multifunctional intercom and asked, “This is Xiang Yongzhan, what is it?”

“Captain Xiang, there’s news coming back from the patrol side.” What came over the intercom was the voice of that Director of Intelligence Liu.

“..... I’ll be right over!” Xiang Yongzhan finished speaking and directly turned off the intercom. And then, he then coldly glanced at Tian Youde, a killing machine flashed in his eyes.

“Ji Feng, do you still want to interrogate?” Xiang Yongzhan asked.

“What should be interrogated has already been interrogated, the rest will be left to you.” Ji Feng said. What he cared about were those few questions, and the military and his focus might be different, so it was better to leave Tian Youde to the military.

Xiang Yongzhan then said in a cold voice: “Take this old thing to the interrogation room, and when I have my hands free, I’ll treat him well!”

The soldier said loudly, “Yes!”

At this time, Tian Youde let out a long breath, and his body relaxed, as if all his strength had been taken away.

Just a little bit!

Just a little bit, as long as the news came two minutes later, he would have become a eunuch!

The fear in Tian Youde’s heart is indescribable in any words!

Now it's good, at least, no need to become a eunuch immediately. Moreover, after this time, next time Xiang Yongzheng should not use this tactic again.

Tian Youde is an old man, he is to see, Xiang Yongzhan just now is completely angry head, but wait for a little longer, think Xiang Yongzhan's anger will be reduced a little, then, maybe he can find a way to escape

Just as Tian Youde was breathing a sigh of relief, Xiang Yongzhan was fierce eyes glare, sneering: "Old thing, is it that you think you have escaped?"

Tian Youde silent, at this time he really did not dare to say anything, otherwise, in case Xiang Yongzhan a knife crossed in a fit of anger, he can really become a eunuch, now absolutely can not provoke Xiang Yongzhan.

"Humph!"

Seeing Tian Youde that grandson look, Xiang Yongzhan could not help but coldly snort: "Look at your bear look, grandmother, it is because you have more people like you, the dynasty dares to recklessly make waves in China! I tell you, don't think you got away with it this time, old dog, when I get my hands free, we'll have a score to settle! Wait for it!"

Tian Youde still did not dare to say a word, he was really scared, angry and regretful.

One wrong move and you lose everything!

Originally, he was quite confident in his own strength and thought that Ji Feng was not his opponent, even if Ji Feng was very powerful, he could always escape.

But this result

Seeing Xiang Yongzhan's eyes that were full of murderous intent, Tian Youde's heart shuddered steeply, he could feel that Xiang Yongzhan really wanted to kill him.

Tian Youde's heart became even more panicked, his mind turned rapidly and said with difficulty, "Two, two, I can't help it, my family, all of them are controlled by the dynasty"

Xiang Yongzheng bellowed, "Shut up!"

Tian Youde was immediately scared and immediately closed his mouth, not daring to speak again.

But Xiang Yongzhan cursed angrily: "Fuck your ancestors! Your family is controlled by the dynasty, so you can betray so many ancient martial artists to the dynasty? I see that you are very loyal to the dynasty, if it wasn't for your help, the little prince could have run away?"

Xiang Yongzhan was really angry with this old thing, his family was controlled by the dynasty?

Fuck his grandmother!

Betraying dozens of Xuan **** disciples to the dynasty, even desperately trying to escort the little prince away, he wants to explain these actions with just such an excuse?

If not also from this old thing's mouth to get something, Xiang Yongzhan really want to kill him now!

Tian Youde was horrified in his heart and did not dare to speak.

“Just wait old thing, I have plenty of time to torture you!” Xiang Yongzheng said in a cold voice.

Ji Feng laughed, it seems that Xiang Yongzhan will not be able to get out of this bad breath if he does not severely beat up Tian Youde, he walked to Tian Youde and once again injected a biological current into his body, Tian Youde’s eyes rolled over and he passed out again.

Ji Feng said, “Old Xiang, you’d better arrange for the soldiers of the Special Combat Brigade to guard Tian Youde, he has a biological bomb in his body, be careful.”

Xiang Yongzhan nodded and said, “I will arrange it.”

He also knew the power of biological bombs, although these warriors had seen blood, they had no experience in dealing with biological bombs, but it was the special combat brigade, which often dealt with reformers, had some experience.

“Let’s go over together.” After arranging this, Xiang Yongzhan said, “Let’s go together to hear whether it’s good news or bad news.”

“Sure!” Ji Feng nodded, but in his heart he understood that I’m afraid it won’t be good news, otherwise, Director Liu wouldn’t be in that tone.

Chapter 1690

“Second brother?! Sister-in-law?”

When Ji Feng arrived on an office building, he was stunned, he actually saw second brother Ji Shaolei in Director Liu’s office, and his prospective second sister-in-law Xiang Yurou!

Ji Feng couldn’t help but be stunned: “When did you guys arrive?”

When he set out from Jiangzhou and the special operations brigade to come to South Guangdong, second brother Ji Shaolei did not follow, but Ji Feng did not expect to actually see second brother here.

Ji Shaolei smiled heatedly: “I also just arrived, and went to find your sister-in-law.”

Sweat!

Ji Feng could not help but laugh bitterly, in Jiangzhou when the second brother also said that he wanted to see the hustle and bustle, but as a result, after coming, but also ran to Xiang Yurou?

It is clear that you want to Xiang Yurou well!

Director Liu said: “Old Xiang, you do not need me to introduce it? This time one of the patrol team, is led by Yurou.”

Ji Feng could not help but be stunned, to Yurou was actually in the sea patrol?

Then how did the second brother appear here?

Seeming to see what Ji Feng was thinking, Ji Shaolei squeezed his eyes at him, making Ji Feng shake his head and laugh bitterly.

“Yurou, how is the situation?” Xiang Yongzhan asked.

“We’ve searched all the docks along the coastline, and we haven’t found any.” Xiang Yurou shook her head.

“I knew it!” Xiang Yongzheng sighed lightly.

Ji Feng also shook his head and smiled, although he had expected when the little grandson paddled away in his kayak, it would not be easy to find the little grandson again, but when he really heard the news, he was still a bit lost.

This time let the little prince run away, again want to catch him, I do not know until when.

“We are still continuing the search, in the dock on the way to the city, also have set up barriers.” Xiang Yurou said.

“Forget it, to be able to catch Tian Youde, and Wang Wenliang and others, is already a pretty good harvest.” Xiang Yongzheng waved his hand.

He knew that relying on Lucca to catch the young grandson, although it could not be said that there was absolutely no hope, but this hope was also quite slim.

“Old Liu, the interrogation has already begun, right?” Xiang Yongzhan asked again.

“There has been a certain amount of harvest.” Director Liu said, “The manpower has been put in place, the next thing is to be based on their account, the dynasty in southern Guangdong strongholds to carry out a comprehensive crackdown, the arrests, the places should be sealed up! These things, there is direct command from above.”

Xiang Yongzhan nodded, this is good, their special warfare brigade exists to raid and strike important people, this rest of the matter, there is no need for him to worry about it.

“Do not be discouraged, the harvest of this operation is still very big! At least, after catching so many people, the dynasty must be greatly wounded, and it is impossible to make waves again in a short time.” Director Liu patted Xiang Yongzhan’s shoulder, “Besides, the future is long!”

Xiang Yongzhan nodded and smiled, how could he not know that the one-time capture of so many people is definitely more rewarding than destroying a branch of the dynasty.

It can be said that the capture of these people, through their interrogation, the next will be the dynasty’s operations in southern Guangdong over the years all uprooted, and the chain reaction caused by this action, can not only be arrested a few characters so simple.

From the dynasty’s armed forces, to the surface of the business arrangement, their assets, all will be the most severe blow, this will be an all-round thunderbolt action on the dynasty!

And all of this can be counted as the results and gains of this operation by Ji Feng and Xiang Yongzhan.

This is already remarkable!

At least, Director Liu had not heard of anyone who had such a battle record.

Even in several other countries that were opposed to the dynasty's infiltration, no one was able to achieve this step either.

However, Director Liu was unaware that what Ji Feng and Xiang Yongzhuang actually wanted to do the most was to capture the little prince and the king.

"Okay, Commissioner Liu, old Xiang, the matter here is also considered to be over, next I can not help much, so I will say goodbye!" Ji Feng said.

"You're leaving?" Xiang Yongzhan was stunned.

"What's the point of staying here if I don't leave?" Ji Feng stretched his hand.

"Well then, Director Liu, I have to bother you about this, to arrange a plane?" Xiang Yongzhan said.

"Of course not a problem!"

Director Liu immediately said, then, he went to his desk and picked up the phone, a moment later, he put down the phone and said, "Just checked, an hour later, there is a plane just to go to Jiangzhou Military Region."

Xiang Yongzhan looked at Ji Feng, who nodded: "Then so be it."

Director Liu said, "Then we have to rush to the airport now, I'll take you there directly."

Ji Feng laughed: "Just don't bother Director Liu, or send someone to take us there, after all, we still need Director Liu to preside over things here."

Xiang Yongzhan also followed, "Yes, old Liu, Ji Feng is not an outsider, there is no need to make it so polite."

"Then okay." Director Liu nodded his head.

.....

After that, Ji Feng left Director Liu's office, he first notified Yi Xingchen and White Spider before rushing to the airport with Xiang Yongzhan and the others. The first thing is to go back, to the war naturally to send a send, to be honest, this time the operation can achieve such great results, the most important credit also goes to Ji Feng, this point to the war is very clear.

From the beginning, it was Ji Feng caught Ishida Ono, and then, there is to follow the vine to find the stronghold of the dynasty in southern Guangdong.

Immediately after that, it was Ji Feng who sneaked in and probed the falsehoods in the clubhouse, and caught Wang Wenliang and two other senior reformers, and then, this is how they caught Tian Youde.

Of course, during the battle at the pier, the South Guangdong military district and the special operations brigade also took great credit, if not for them, Ji Feng and his war team, although they could also deal with those armed men, but, to capture Tian Youde, it would be difficult.

But in addition to this last dock battle, the vast majority of other actions, can be completed by Ji Feng.

However, Ji Feng is not a soldier, the credit can only be reported in his personal name, and Xiang Yongzhan as the nominal commander-in-chief of this operation, naturally share most of the credit.

For one thing, he had to come down to send Ji Feng, not to mention, the relationship between the two was quite good.

Soon they arrived at the airport in a jeep, Yi Xingchen and the others hadn't arrived yet, so Ji Feng and the others didn't rush to get on the plane, but just waited on the lawn below.

"Old Xiang, this is the recording of my interrogation of Tian Youde, in addition, Tian Youde there you have to pay attention to, that old thing is very cunning, beware not to let him play any tricks." Ji Feng admonished.

"Don't worry, this old dog is as timid as a mouse, to deal with him, it's easy!" Xiang Yongzhan laughed.

But soon Xiang Yongzhan seemed to remember something, he asked, "By the way, Ji Feng, when you interrogated Tian Youde before, would he also be awake and just pretend to be muddled to deceive you?"

Ji Feng shook his head and said, "No. I know best whether he was awake or not. It's just that I went out to look for you afterwards, and a short time passed in between, and that old dog came to his senses during this time."

Xiang Yongzhan cursed: "Damn, that old thing is really not worth dying for! If I didn't still have some use for him, I would really like to cut him alive!"

Ji Feng laughed: "Then why didn't you castrate him before?"

Xiang Yongzhan pooh-poohed: "I was scaring him, castrate him? I was afraid of getting my hands dirty!"

Ji Feng laughed and said, "If you know what else he did, I think you will definitely not be soft."

Xiang Yongzhan immediately asked, "What else did the old dog do that was unconscionable?"

Ji Feng turned his head to his second brother, Ji Shaolei, and asked, "Second brother, remember when Qiao Rong came to Jiangzhou in a rage to settle accounts with me, and beside her, followed by a few Xuan **** experts?"

Ji Shaolei nodded and said, "Of course I remember, that time Qiao Rong but a big loss, ha ha!"

Ji Feng laughed: "At that time with Qiao Rong, there is a called Tian Guodong, remember?"

Ji Shaolei nodded and said, "Remember, why?"

Ji Feng said, "If I tell you that that Tian Guodong is the grandson of this Tian Youde, moreover, Tian Guodong was also betrayed by that old thing to the dynasty, and now he is also a reformed person, what do you think?"

"....."

Ji Shaolei and others looked at each other for a while before they reacted.

“San’er, what you said is true?” Ji Shaolei asked, “Is there really someone who sent his grandson to be a reformer?”

Ji Feng said, “I gave the recording of the interrogation to Lao Xiang, you can listen to it later and find out.”

Tian Guodong is Tian Youde’s grandson, this is also Ji Feng knew during the interrogation, when he heard this news, was shocked really do not know what to say.

It is said that tigers do not eat their children, but he really did not expect that Tian Youde could actually do such a thing!

This old thing, say he is a person, Ji Feng feel that this is an insult to himself.

He is not a human being!

“Bastard!” Ji Shaolei couldn’t help but curse out.

“I think that after I interrogate Tian Youde, there will be nothing to stop me from getting him killed anymore.” Xiang Yongzhan said.

A person who can even betray his own grandson, what else is there that he can’t do?

Such a person, Xiang Yongzhan either send him for slicing research, or, just get rid of him!

“Old Xiang, the rest is in your hands, if there is any important situation, remember to tell me in time.” Ji Feng suddenly said.

“Don’t worry.” Xiang Yongzhan nodded.

He knew that Ji Feng was actually reluctant in his heart, and how could he not be?

Soon, Yi Xingchen and others arrived, Ji Feng said goodbye to Xiang Yongzhan and others, then boarded the plane, accompanied by Ji Shaolei, he came to South Guangdong to see Xiang Yurou, now the purpose has been achieved, and next Xiang Yurou has to set training, it is useless for him to stay here.

At this point, this operation, is really over.
