

Campus Master 1711

Chapter 1711

However, Chu Wangdong's gaze fell on the faces of Ji Feng and Ji Shaolei, and a look of amazement flashed in his eyes.

Zhao Jiang also noticed Chu Wangdong's gaze, he could not help but glance at the faces of Ji Feng and the two, secretly said: "Is there something wrong with them? It shouldn't be, Li Guoliang this kid is usually very stable, he should not do that kind of out of tune thing, right?"

Li Guoliang also noticed, but he did not have any strange, Ji Feng and Ji Shaolei's identity, he already knew, so think Chu Wangdong recognized Ji Feng and Ji Shaolei, Li Guoliang is not at all surprised.

But, Li Guoliang perhaps how can not think, don't see they are cousins, in fact, since childhood, Ji Feng two can not meet with Chu Wangdong, especially Ji Feng, he did not even know that Chu Wangdong this person exists.

At this time, Chu Wangdong suddenly spoke: "Two, have we met before? I see that you look familiar."

He spoke very fluent English.

Ji Feng spread his hands and said, "Sorry, I don't understand English."

Chu Wangdong raised his eyebrows and asked in Mandarin instead, "Chinese? Or is it the Treasure Islanders?"

Ji Feng said, "Isn't that all Chinese?"

Chu Wangdong was stunned, then nodded and smiled: "That's right, whether it's a mainland Chinese or a treasure islander, they are all Chinese."

After a pause, he added, "Is this your first time in Rice?"

Ji Shaolei laughed, "Are you trying to say that after seeing us, you have a feeling of déjà vu?"

"Frankly speaking, yes!"

Chu Wangdong nodded very frankly and said, "I feel that I should have seen you two before, but exactly where I have seen you, I can't remember for a while, that's why I want to know if you two are coming to Rice for the first time, have we met before?"

Ji Feng laughed: "It is certain that we have not met before."

Ji Shaolei also said next to him, "Maybe Assistant Chu has some relatives and friends who look like us, so that's why he thinks we look familiar?"

"Probably so!"

Chu Wangdong nodded non-committally, since he already knew that he had not seen them before, Chu Wangdong did not continue to dwell on this issue, he now had to deliberate on how to deal with Hong Yiming.

Slightly deliberate, Chu Wang Dong pointed to the seat next to the conference table, said: "You all please sit down, and so Hong, we will have a meeting, on today's matter to come up with a resolution to deal with, now Hong has not yet come, you first sit here and wait a minute"

The words just said here, Chu Wangdong's voice was abruptly stopped. His eyebrows furrowed up, as if he remembered something, his eyes were filled with consternation, and he looked at Ji Feng and Ji Shaolei.

Ji Feng and the two of them also noticed this sudden change in Chu Wangdong, they couldn't help but glance at each other, while smiling slightly, then together with Zhao Jiang and Li Guoliang, sat down on the seat next to the conference table.

While sitting on the main seat Chu Wangdong, but very abnormal, his gaze followed Ji Feng and Ji Shaolei moved, until they sat down on the seat, Chu Wangdong then removed his gaze, but his eyes are full of consternation.

When Ji Feng saw this, he could not help but smile faintly, it seems that Chu Wangdong seemed to have thought of something.

Chu Wangdong indeed is thought of, just Ji Shaolei said that sentence, there may be set up friends and relatives look like them at first Chu Wangdong did not care, but then, he reacted violently.

But isn't it!

He felt that these two young people looked familiar, not because he had seen them, but because, indeed, he had seen someone who looked a little like them.

And that person, no one else, was his own mother!

Of course, this resemblance does not refer to the similarity in appearance alone, but the kind of divine charm, as well as some characteristics of the similarity.

And it's not just the mother alone, Chu Wangdong feels that he also has certain similarities with these two people in terms of certain characteristics.

Thinking of these, how can Chu Wangdong still not guess their origins?

These two young people, should come from China, especially their Chinese language is still so fluent, and also with some local Chinese 'native' flavor, or some dialect accent, which is very difficult to impersonate.

In addition, just now when talking about the treasure island, Ji Feng is not a small reaction, this is obviously a strong national consciousness of the guy, so Chu Wangdong can be sure that they are absolutely authentic Chinese people without a doubt.

From China, and with the mother to a certain extent have a very similar place

Chu Wangdong naturally guessed who they were.

Only, he was still a bit unsure in his heart, so after deliberating for a while, Chu Wangdong still asked, "I wonder what the three of you call?"

“Ji Shaolei.” Ji Shaolei smiled faintly, “This is my brother, Ji Feng.”

He only introduced the two of them, he and Ji Feng, and did not introduce White Spider, because he knew that what Chu Wangdong wanted to ask must also be the two of them.

Sure enough, once Chu Wangdong heard it, his eyes lit up and he smiled at the same time, “What an unexpected pleasure to meet you.”

Ji Feng and Ji Shaolei also smiled and nodded, it seems that Chu Wangdong knows them.

Chu Wangdong said, “Later, after meeting with Mr. Hong, several of you come to my office, we have a good chat.”

Ji Feng and the two of them nodded their heads.

At this time, Zhao Jiang said next to them, “Assistant Chu, these few friends of Advisor Li, they all want to apply for the job of security consultant”

He quickly introduced with Chu Wangdong, Chu Wangdong smiled and nodded, this Zhao Jiang still do not know the relationship between them, but Chu Wangdong a listen, but know that this matter is not as simple as Zhao Jiang understood.

But this is not the place to talk, so Chu Wangdong can only say: “Minister Zhao, let’s leave this matter to you.”

Zhao Jiang nodded: “Yes!”

“Boom!”

As he was talking, the door of the conference room was pushed open and several people walked in.

The leader of the group was a middle-aged man with a fat body, his hair was still a bit shedding, and his fat face was smiling, he seemed to be very nice to talk to.

Ji Feng recognized at a glance, this person is Hong Yiming.

He had seen the photo of Hong Yiming, but when he saw the real person Ji Feng realized that the photo still took Hong Yiming a little thin.

Now it seems that Hong Yiming is fatter than in the photo, his eyes were not very big, and now they look even smaller, especially when he has that smiling smile on his face, his eyes become two long slits, it looks as if someone used the sharpest blade to cut across his face, leaving two imperceptible traces.

Behind Hong Yiming, followed by a two bodyguards, and the manager Dong, who had left in a hurry.

In addition, there is also a young man, this young man with an unkind look, raising his chin, with a cold smile on his face, seems to be a bit arrogant.

This young man is no one else, it is Hong Yiming’s son, Hong Lei.

A look at the arrogant appearance of this Hong Lei, you know that this guy is definitely not a good bird.

Ji Feng could not help but secretly sneer, this is really a tiger kin brothers, on the battlefield father and son soldiers ah, unexpectedly this Hong Lei also followed over.

It seems that this time Hong Yiming is really intended to be difficult, otherwise, he would not let Hong Lei also followed over.

Manager Dong saw several people, with a smug look on his face, seems to be saying, see how arrogant you guys are this time, Mr. Hong personally came over, wait to die you.

Ji Feng a few people also do not bother to pay attention to this fox pretending to be something, his attention is mainly focused on Hong Yiming's body, this fat pig general guy a look is the kind of old fox, smiling tiger, how to solve the matter today, depending on how his attitude is.

"Xiao Chu, these people are the friends of Advisor Li, right?" Hong Yiming smilingly asked, but the tone is not very polite, directly addressed Chu Wangdong as Xiao Chu, obviously is not put Chu Wangdong in a position equal to him, but a completely condescending attitude.

Chu Wangdong said, "Mr. Hong, such a small matter has to bother you personally, this Lu Yaoyang really does not let people worry."

Hong Yiming smiled, waved his hand and said, "It's too early to say that, Xiao Chu, you are still young after all, don't be reckless, as far as I know, today's conflict is not only the responsibility of Lu Yaoyang alone, Lu Yaoyang is only performing the duties of a security consultant, wanting to verify the identity of the friend brought by Advisor Li."

Hong Yiming's words made everyone frown.

He was clearly taking sides with Lu Yaoyang, and unknowingly, he was pointing the finger at Li Guoliang.

It is really an old fox!

Ji Feng secretly said, it seems that Zhao Jiang's careful precautions were correct, this Hong Yiming has no intention of making good.

Chu Wangdong frowned as he said, "Chief Hong, Lu Yaoyang is a security consultant, so is Li Guoliang, he brought his friend to the company, it's not against the rules, Lu Yaoyang is not qualified to verify, right?"

"Huh"

Mr. Hong smiled: "Xiao Chu, your words are a bit inappropriate, Mr. Ji was shot, we can still vividly remember, moreover, the group's senior personal safety are threatened, this is also an indisputable fact, in this case, Lu Yaoyang to verify the situation, it is also for the group's security considerations, do not forget, Mr. Ji's whereabouts so confidential, but still time and again was leaked out, which means that the group is likely to hide a traitor, and Li Guoliang is usually responsible for Mr. Ji's security"

"Mr. Hong means that the whereabouts of Mr. Ji was told by me to others?" Li Guoliang some can't help it, the old fox this is really some excessive words.

"Before it is determined who is the traitor, anyone is possible."

Hong Yiming said, "It's not wrong for me to suspect you. What's more, why do all the security consultants in the group have a problem with you? Even repeatedly contradict you? It would make sense if I said that you deliberately wanted to mess up all the security advisors and then scatter the power of the security advisors so that it could be convenient for some people with bad intentions to go after General Ji!"

Chapter 1712

The moment Hong Yiming said this, Li Guoliang's face turned gloomy.

As expected, this old thing still took the opportunity to make trouble, and the reason was the same as he had speculated before, that is, to use the excuse that all other security consultants were dissatisfied with him.

A person who cannot live in harmony with other security consultants is bound to disperse all the power of the security, how can such a person stay in the company?

This is what the old man named Hong had in mind.

"Chief Hong's words, it is not without reason." Chu Wangdong nodded slightly and said, "Then, what does Mr. Hong intend to do?"

"What I mean is not too important. Things should be treated rationally and analyzed, not based on personal subjective preferences." Hong Yiming was still smiling when he spoke, and the words that came out likewise appeared to be fair and objective.

"In terms of this incident, Li Guoliang is no longer suitable to continue to stay in the group, his existence, making all the Paul is very chaotic, which is harmful to the group is not beneficial." Hong Yiming said, "However, in view of Li Guoliang also has certain contributions to the group, at least once to save the quarter, I think we can give him some more compensation, more salary, let him resign voluntarily."

I really want Li Guoliang to resign voluntarily!

"What more salary!"

Hong Lei sneered and said, "If you want me to say, the reason why our group has such a chaotic situation, the security force is so poor, and Li Guoliang can not be unconnected, not punishing him is already considered very good, but also pay him a salary? Why not just dismiss!"

Hong Yiming but shook his head and said, "That's not the way to say it, the security force is so chaotic, this also has a relationship with the company's leadership, if the initial recruitment of Li Guoliang, there would not be such a thing, so by definition, I and the quartermaster are responsible, we will take this as a warning."

Only then did Hong Lei stop talking.

Ji Feng and Ji Shaolei looked at the side clearly, this is responsible for the two singing one after the other, clearly eating up Li Guoliang.

Chu Wangdong is very angry in his heart, others do not know, he is very clear, Hong Yiming said what to blame on the person who recruited Li Guoliang to come in, but also said what he and Ji are responsible for

In fact, the final decision to recruit Li Guoliang into the person is his mother Ji Nan Yue, Hong Yiming now stand out seemingly to take the initiative to take responsibility, but in fact, he is insinuating that Ji Nan Yue is not allowed to see people, no vision.

“Chief Hong!”

Chu Wangdong’s voice lowered and said, “I think, the words are not the way Mr. Hong said.”

Hong Yiming laughed: “Oh? Then Xiao Chu, you tell me, how to say it right?”

Chu Wangdong cursed in his heart, but said: “No matter how many conflicts Li Guoliang had with other security consultants, we always have to see who is right and who is wrong, the company’s rules and regulations are there, employees are not dismissed if you want to, who violated the rules, we will dismiss who, Li Guoliang not only did not violate the rules, but also have merit to the group, why should we put people Why should we dismiss him? Is this tearing down the bridge over the river?”

Hong Yiming seems to have expected him to say this, just laughing: “Xiao Chu, it seems you still do not understand what I mean, Li Guoliang and other security consultants clashed, whose fault it is, it is still not easy to say

“Definitely not Li Guoliang’s fault!”

Chu Wang Dong unceremoniously interrupted Hong Yiming, this old thing has been reversing black and white, Chu Wang Dong has long been a bit unable to bear, he said in a deep voice: “I have more than one surveillance video here, it is completely proven that in several conflicts, it was other people who were provoking, Li Guoliang was forced to fight back only! If Mr. Hong needs it, he can take a look at it.”

“Oh? Is that so?”

Hong Yi obviously had to be a little surprised: “This is something I haven’t learned about.”

As he spoke, his gaze was untraceably swept from Zhao Jiang’s body, obviously, Chu Wangdong was able to grasp the surveillance video in time, it must be Zhao Jiang’s credit.

This is why Hong Yiming has always wanted to kick Zhao Jiang away, there is Zhao Jiang in, he can not really control all the protection, many things can not be done, this Zhao Jiang is a stumbling block, must kick him away!

These thoughts flashed through Hong Yiming’s mind, he still said with a smile, “But even so, Li Guoliang still made enemies with the vast majority of security advisors, why are all the security advisors so hostile to Li Guoliang?”

It’s not you who is behind this!

Chu Wang Dong said, he said in a deep voice: “Maybe Li Guoliang was a mercenary before, and those security consultants in the style of doing things a little different, it is in consideration of this point, President Ji this designated Li Guoliang is responsible for her security, and do not have to care about the

other, is to avoid other security consultants deliberately looking for trouble, but now it seems that Lu Yaoyang and other people's actions, really let people too disappointing."

Hong Yiming said, "According to Xiao Chu, the fault lies with the other security consultants?"

Chu Wangdong nodded and said, "That's right! Maybe Li Guoliang made a move with them, and this is also at fault, but the cause of the matter is still the other security advisors picking a fight."

Hong Yiming nodded very quickly and said, "Then dismiss all the other security consultants!"

Chu Wangdong's eyebrows instantly wrinkled up, simply joking, after dismissing all the other security consultants, who would be in charge of the group's security work?

"Li Guoliang's existence will make the security all form serious infighting, not to mention the security work can not be carried out smoothly, but will bring endless trouble to the group, so, Li Guoliang and those security consultants, someone has to leave before." Hong Yiming said, "Since Xiao Chu you determine the responsibility of those security consultants, then dismiss them all!"

Chu Wangdong frowned and said, "It's not good to dismiss them all, right? We have to give people a chance to reform."

Hong Yiming said with a smile: "Since the company's rules and regulations are here, it must be strictly in accordance with the system to enforce, this is also a statement often said by Mr. Ji, just now Xiao Chu you also said it?"

Hong Lei watched from the side with a smug look on his face and a sneer in his heart.

You Chu Wangdong is not a cow, not moving to take the company's rules and regulations, this is good, all dismissed, leaving Li Guoliang a person, see how he protect your security!

Want those security consultants to stay, that is to take the group's rules and regulations not seriously, in the future, if others violate the rules, you Chu Wangdong also have no excuse to punish, even if Ji Nan Yue came, the same is also true.

If you want to comply with the system Hey, afraid of dying quickly enough?

Hong Lei thought, the corners of his mouth could not help but emerge a smile, he seemed to think of Chu Wangdong and others after they were all taken out, Chu Yue was in his arms

"Then sack them all!" Chu Wangdong said.

"....."

Hong Yiming and others were all stunned at the same time, and Hong Lei even subconsciously asked, "Sh, what?"

Chu Wangdong frowned and reprimanded in a deep voice: "I'm discussing things with Mr. Hong, do you have a part in interrupting? Is this how you are usually taught by such a wise person like Mr. Hong?"

Hong Lei was immediately reprimanded with a big red face, angrily staring at Chu Wangdong: "You you"

“Shut up!”

Hong Yiming glared at his son, and only then did Hong Lei reluctantly shut his mouth, but his eyes were full of resentment.

Chu Wangdong did not even look at him, directly talking to Hong Yiming.

Hong Yiming asked: “Xiao Chu, just now you said”

Chu wangdong nodded, said with great certainty: “Hong, you did not hear wrong, since the group has rules and regulations, it should be strictly enforced, but all the security consultants who are seriously wrong, all dismissed!”

Hong Yiming but did not expect Chu Wangdong so crisp, he wanted to take this matter difficult Chu Wangdong, but Chu Wangdong directly said the words of dismissal, he suspected that Chu Wangdong is pretending.

But, is this what Chief Ji meant or not?

“Xiao Chu, know that the security advisor’s duty is to coordinate and command those bodyguards, responsible for the group’s security, if all those security advisors are dismissed, the bodyguards underneath may also follow quite a few, then, the security all but the power is greatly reduced, or even only an empty frame may be left.”

Chu Wang Dong laughed: “Do not worry about this, not all security advisers are so serious mistakes, not to mention, Li Guoliang is not in it? Those bodyguards will not all go, and there are ordinary security guards below, New York’s security is still good so the group’s security will not have any problems!”

Hong Yiming asked again, “But then, the manpower can be seriously insufficient. If the group’s top brass were to go out – especially Chief Ji, who has been attacked and killed more than once – who would protect her then?”

Chu Wangdong said, “That’s why Li Guoliang purposely hired excellent bodyguards to protect General Manager Ji, as well as other leaders.”

“Excellent bodyguards?”

Hong Yiming smilingly asked, “Who is it?”

Chu Wangdong pointed to Ji Feng and the three of them: “It’s these three, they are all very excellent security personnel, taking up the position of security consultant is not a problem!”

“Oh?”

Hong Yiming looked at the three Ji Feng, and laughed: “Good, good! Since Xiao Chu you have already prepared, then I think so, let’s go according to the prescribed process?”

Chu Wangdong nodded and smiled, “Listen to Chief Hong.”

Hong Yiming waved his hand with a smile and said, “Let’s all listen to the rules and regulations! Minister Zhao, you immediately arrange, but all the bodyguards who have not gone out on missions, security

consultants, all to the training hall assembly, but also immediately send people to investigate the past experience of these people Xiao Chu, we see the training hall!”

Chu Wangdong smiled and nodded: “Good!”

Hong Yiming smiled and looked at the three Ji Feng: “Young people are energetic, energetic, this is very good. You have to work hard to prove yourselves later, yo!”

Ji Feng nodded non-committally, he knew that the next time is to verify the real ability, and in this process, Hong Yiming will definitely find the real experts, want to give them a hard time.

Then let’s try, who will look bad!

Chapter 1713

In fact, in the conference room, Chu Wangdong and Hong Yiming’s conversation, it seems to be discussing things, but in fact, there is an exchange of words between them, just not too intense.

And in this process, Ji Feng had a clear look at Hong Yiming this person.

I have to say, this person is definitely an old fox.

And, or an old fox who can advance and retreat, extremely keen vision, this kind of person, but not very good to deal with.

For example, Hong Yiming came up to give the conflict between Li Guoliang and Lu Yaoyang sex, directly said that Lu Yaoyang to perform the duties of security advisers to verify the situation.

In this way, the first thing is different in the nature of things. Originally, it was Lv Yaoyang who went directly to pick a fight, which was entirely Lv Yaoyang’s fault, even if he was injured, it was deserved, who let him go to Li Guoliang’s trouble for no reason?

They are both security consultants, no one can overpower anyone, moreover, above them there is the minister of all the security Zhao Jiang, Lu Yaoyang did this, not only did not put Zhao Jiang in his eyes, but also did not put the company’s rules and regulations in his eyes, how can such a person still stay in the group?

However, when Hong Yiming said so, it became that Lv Yaoyang’s starting point is good, to remove hidden dangers for the company well. Only, Lv Yaoyang just in the process of doing things, the way and method used is not right, so the conflict with Li Guoliang, in this way, Lv Yaoyang’s mistake can be much smaller.

And then Hong Yiming did not wait for Chu Wangdong for this matter to take a stand, it directly put forward for the handling of this matter, to let Li Guoliang initiative to resign.

In this way, he completely dominated the upper hand in terms of momentum.

However, later Chu Wangdong directly said that he had the surveillance video in his hands to prove that it was not Li Guoliang’s fault, Hong Yiming immediately retracted what he had said before, and instead seized the focus of Chu Wangdong’s words to punish those security consultants who had clashed with Li Guoliang in accordance with the company’s rules and regulations.

In fact, this was his way of forcing Chu Wangdong's hand.

Either to keep Li Guoliang, but to bear the results of the majority of security consultants to leave the company, or, directly let Li Guoliang get out, two must choose one.

For Chu Wang-dong, of course, can not let Li Guoliang go, he left, then the mother's safety is not guaranteed, but also, their power in the security company will be further weakened, then Zhao Jiang even if the security company's minister, but in fact, has been a bare rod commander, because the following people are all Hong Yiming, no one to listen to Zhao Jiang.

Then what's the point of his ministerial job?

This forced, Chu Wangdong almost no way to deal with.

This bodyguard and security consultant is not what the carrot and cabbage, where can find.

Really good bodyguard, are spending a lot of money to hire, especially in the rice country, a gun-ridden country, good bodyguard is in demand, because here, may be a random homeless people can pick up a gun to kill you, so here more need bodyguards.

Even, many top bodyguards have to be given his shares to stay.

Hong Yiming does not believe that Chu Wangdong really dare to let all these bodyguards and security consultants leave, and only leave a Li Guoliang.

You know, now is not peaceful, do not know how many people want to Ji Nan Yue, including the White Hand Party, such a huge thing.

In this situation, even if Li Guoliang has great ability, it is absolutely impossible to protect the safety of Ji Nan Yue.

So Chu Wangdong will definitely succumb.

But what Hong Yiming did not expect was that Chu Wangdong actually agreed!

And his reliance is actually these young people, and said something they are extremely excellent bodyguards.

At this time, Hong Yiming immediately smiled, at the same time, he also very decisively agreed with Chu Wangdong's treatment of Li Guoliang, because this matter is ultimately, or the competition between the two sides.

Only now, the focus of the two sides, not on Li Guoliang, but fell on the body of these young people.

Hong Yiming will let Chu Wangdong take a look at these three young people, whether they are good bodyguards or not!

By then Chu Wangdong will understand how he said to fire those bodyguards who had conflicts with Li Guoliang, and now how to swallow the words back!

It was also in this process that Ji Feng saw the character of Hong Yiming. This old fox, cunning, and ruthless.

Once he finds the opportunity, he will not hesitate to bite hard on a bite.

With such an opponent, it is indeed some trouble.

The training hall is in the basement, Hong Yiming has led people to arrange first, while Chu Wangdong is with Ji Feng and others, take the stairs down.

“Later you move depending on the situation, if you see that the strength is not as good as the opponent, do not force, there is no shame in admitting defeat!” Chu Wangdong said while walking, although he didn’t turn around, everyone knew he was speaking to Ji Feng and Ji Shaolei, “Even if we end up dismissing Guoliang, it’s no big deal, I will instead hire you guys as bodyguards on a private order.”

Zhao Jiang nodded and said, “If it really doesn’t work, this is not a bad option.”

Ji Feng smiled, but did not answer the question.

There was a big difference between Li Guoliang staying at the security office and him being hired as a personal bodyguard.

If we say stay in the security department, then the security department of the Weida Group is actually still controlled in the hands of Ji Nan Yue, but if Li Guoliang left, the security department only left Zhao Jiang such a bare-bones commander, then when Hong Yiming if you want to do something, it is really too easy.

Ji Nan Yue’s safety is not guaranteed at all.

If not for this reason, why Chu Wangdong had to fight hard with Hong Yiming, just to be able to leave Li Guoliang?

“What is the result, we will not know until after the competition!” Ji Shaolei laughed.

“Don’t force it.” Chu Wangdong said.

Now there are Li Guoliang and Zhao Jiang in, he can not say anything more, but he has made up his mind, later if the situation is not right, he will say to stop, really can not, can only give up to protect all.

This can not be helped, after all, he has already guessed the identity of Ji Feng and Ji Shaolei, this time is always bad to let them risk.

What’s more, for the Ji Feng duo’s origins, Chu Wangdong also knows some of the general, he does not think, Ji Feng and Ji Shaolei’s kung fu can be more powerful.

Ji Feng and Ji Shaolei glanced at each other, they about guessed Chu Wangdong heart is how to think, two people at the same time a smile, as Ji Shaolei said, how the results, at least wait until after the comparison to know, now say anything is useless.

Meanwhile, Hong Yiming and others, who had already taken the elevator to the basement, began their arrangements.

“Xiao Dong.”

“Mr. Hong, what are your orders?” Manager Dong hurriedly walked over.

“Find out the most powerful ones, and when the test comes later, the company’s rules and regulations must be extremely strictly enforced, remember?” Hong Yiming said in a deep voice.

“I understand.”

Manager Dong immediately understood: “Mr. Hong you do not worry, I am familiar with those security consultants, know who is most upset with Li Guoliang and them, also know who is the most powerful, who is the most ruthless In short, I will certainly arrange properly.”

Hong Yiming said, “Well! This is the best! Just now you also heard, I have asked Zhao Jiang to call all the bodyguards and security consultants who are not on duty for the time being, in front of so many people, the people you have arranged can’t lose face.”

Manager Dong understood, he hedged and laughed, “Mr. Hong, just wait for the good show!”

Next to him, Hong Lei couldn’t help but say, “If you want me to say, why are you so polite with them, just get someone to teach them a lesson, and everything will be fine. A bunch of cheap bones!”

Hong Yiming said, “Everything should be done slowly, remember, if you want to do it quickly, you can’t achieve it, this saying, I also give you, as a kind of encouragement to you.”

Hong Lei said, “I do not need, Chu Yue that woman I immediately took, bold heart black face thick skin, this is the most correct!”

Hong Yiming shook his head and said, “When you have suffered a loss later, you will understand. However, you there do not mess up, that girl after all, the identity is not ordinary, if you mess up, may immediately completely anger her mother, then who knows what she can do”

Hong Lei said, “I understand, Dad, don’t worry, I have it in my heart, and it’s almost done!”

“That’s good!”

Hong Yiming nodded his head and said, “Son, what dad is doing, is not all for you? Be sure to fight! Don’t be reckless.”

Hong Lei nodded repeatedly, but in his heart is a little less thought, in his opinion, Hong Yiming taught those are old-fashioned methods, completely meaningless, also does not work, his means is not covered!

.....

Atlantic City, MI.

As a famous gambling city all over the world, the Atlantic City of Rice, and Las Vegas and known as the world’s two largest gambling city, here the prosperity, can be imagined.

And along with the extreme prosperity comes the extreme chaos.

Here, the forces of all sides are intertwined, the three religions and nine streams of fish and dragons, even the air is filled with the smell of chaos.

Then, in this kind of place, it obviously becomes a paradise for all kinds of adventurers, and at the same time, it also becomes the most favorite place for forces to hide or trade.

At this moment, on a not too big pier, a man in a black coat is standing at the water's edge with his hands behind his back, not far behind him, a Mercedes Benz RV is parked, and there are several people in black with sunglasses, are divided into two sides, at a glance it seems to be a gang leader to patrol.

This makes the tourists around can't help but go around and look at that waterfront figure also looks curious.

Only, to their amazement, the figure standing at the water's edge with his hands behind his back, actually wore a very strange mask on his face, making it impossible to see what he looked like.

However, those tourists weren't too surprised, this is Atlantic City after all, fish and dragons are mixed, all kinds of people, it's not too unusual to meet someone wearing a mask.

"Buzz~~!"

In the distance, a speedboat finally came into sight on the water, and then approached quickly.

Soon that speedboat approached the pier, a man in a wheelchair, was carried onto the pier, the man in the black coat hurriedly went over: "Son! Son!"

The man in the wheelchair, also wearing a mask, only, his exposed lips are very dry and cracked, see the black coat, he said in a dry voice: "Dad, everything we have worked so hard for in South Guangdong, are ruined I also planted in the hands of Ji Feng!"

Chapter 1714

The man in the wheelchair, also wearing a mask, only, his exposed lips are very dry and cracked, see the black coat, he said in a dry voice: "Dad, everything we have worked so hard for in South Guangdong, are ruined I also planted in the hands of Ji Feng!"

The black coat masked man quickly came to the wheelchair heel, squatting down, looking at the person sitting in the wheelchair, one of his hands could not help but press on the other side of the leg.

Immediately, the black coat masked man's face became hideous.

"Dad, my legs are ruined!" The masked man sitting in the wheelchair sounded miserable, seemingly unable to accept the fact that he had become crippled, "My backbone was smashed, injuring the nervous system, and the experts said that there was no hope of healing my leg at all for a short time!"

"It's okay, it's okay", the black coat masked man hurriedly comforted, "Those experts in China are all shit, they don't know anything. Dad knows that you are injured, so he has applied to the organization in advance and brought all the best experts to Rice, your leg can definitely be cured, you can definitely get back on your feet!"

The masked man sitting on the wheelchair was grinning, although he could not see the expression on his face clearly, but only from his laughter could be seen, he was full of decadence.

He said: "Dad, it's useless, after I was rescued, I also looked for the organization's medical experts, this conclusion is what they told me. They said that not only was my backbone injured in my body, but there were other factors that caused me to lose consciousness in the lower half of my body, but they couldn't find out exactly what the cause was."

The black coat masked man immediately said, "That's why Dad brought the medical experts from headquarters, you know, they are the best, when you were injured so badly, they did not also save you to live? And, also your whole body bones are replaced with very advanced materials, last time can, this time also will not be a problem, do not worry, Dad will let you stand up again!"

The masked man in the wheelchair is a miserable voice: "It's useless, those experts in our stronghold in China, and the level of experts at headquarters is not too far, they all said so, I may be really hopeless"

The black coat hurriedly and constantly comforted, but the masked man in the wheelchair was aware that this time he might really not be able to stand up.

Thinking about the demeanor and tone of voice of those experts speaking in the Chinese stronghold, his heart kept sinking, he knew that those people would not lie to themselves, and they would not be like the doctors in the hospital who might take care of the patient's emotions and would not really tell the patient about the condition.

These medical experts in the organization, they are not doctors, but people who really study medicine, and they all say what they have.

Once he thought of this, the masked man on the wheelchair gnashed his teeth in hatred: "Ji Feng! You've ruined me once again! I swear to God, I will not let you go, including your family! I will also let you taste the pain that I have endured!"

The black coat was also wearing a mask, so the expression on his face could not be seen clearly, however, it could be seen from the cold aura that kept flashing in his eyes that his heart was also really hateful.

"Son, let's not talk about all this, dad will take you to see those experts first, they will definitely be able to cure you." The black coat was silent for a moment, came behind his son and pushed the wheelchair himself.

"Dad, I want Ji Feng to die! I want the whole Ji family to be buried with him!" The masked man on the wheelchair gritted his teeth and said.

"There will be that day, Dad assured you, there will be that day!" The black coat said forcefully, "But now you don't have to worry, you have come to Atlantic City, this is Rice, not China, here you are safe, no one will hurt you, and Dad will not allow anyone to hurt you again!"

"But, our roots in Southern Guangdong have been destroyed, now the only two remaining strongholds, but also at any time may be discovered by the Chinese military, to the Yongzhan that crazy dog is sure not to give up this opportunity, everything we have in China, are ruined ah!"

The masked man in black coat patted his son's shoulder and said, "Don't worry, it doesn't matter if the stronghold was destroyed, as long as we are still here, all those destroyed strongholds will be able to be

rebuilt. Moreover, Dad has been in China for decades, so many years, the places we have worked so hard, the Chinese military can find them that easily?"

He sneered in his heart.

The Chinese military was certainly powerful, but so what?

In these decades in China, he has long made two preparations, one explicit and one secret, the Chinese military wants to completely destroy his power, not so easy!

However, thinking about the loss this time, the black coat is still heartbroken.

It was decades of painstaking work, as well as his blood-soaked arrangement, during which he endured humiliation and humiliation to operate these results, but did not expect to lose a large part of this time!

If there was not a part of the forces still hidden in the shadows, he wanted to die.

As soon as he thought of this, a thick glow of hatred appeared in Black Coat's eyes.

"Ji Feng! Ji family! Xiang family"

"You all have to die! All have to pay the heaviest price for this!" Black coat heart secret hatred, "and my son's leg Ji Feng, you owe my son two lives, in the near future, you all have to completely pay back!"

The pair of masked father and son, one pushing a wheelchair, one sitting on it, walked towards the RV not far away.

In their eyes, both of them were flashing the same thing – anger!

This time their loss is really too big.

So big that they could hardly even bear it, whether it was external materially or physically, the loss was too big

A group of people got into the car, the Mercedes RV quickly drive, and soon disappeared in the rolling traffic, out of sight. And the pier, once again occupied by tourists who came to play, as if nothing had happened here before, and no one knows, what has happened here.

.....

The basement training hall of the headquarters of the Weta Group in New York.

Ji Feng and others arrived here.

However, before they arrived there were already a lot of people here, these people have different skin color, different faces, there are Asian faces, there are also Westerners, at the same time, there are also black people, as well as big-nosed Tsarist Russians.

But no matter what kind of people, they all have a common characteristic, that is, these are all sturdy, a look at the very fit kind, look at their high bulging muscles, obviously contains a very fear of explosive power.

Most of these people are wearing black undershirts and loose pants underneath, which look like practice clothes. And their eyes, without exception, were fixed on the few people who came in through the door.

So, as soon as Ji Feng and the others came in, they received the attention of everyone.

And, or a group of strong men some unintentional attention.

But Ji Feng's face was not the slightest bit strange, when he saw this situation, he was not half alarmed, but instead the corners of his mouth pulled up a curve and smiled faintly.

"As expected!" Ji Feng secretly sneered.

As soon as he saw these people, Ji Feng knew that Hong Yiming in order to test their strength, it is really a great deal of effort, it can be described as painstaking ah, actually found so many people, and it seems that all are extraordinary hands, this should be from the protection of all carefully selected experts!

Roughly look at the presence of at least twenty people, and indeed each has a good body, this, just from their standing posture can be seen.

And Ji Shaolei see this situation, but opened his mouth, and finally, his heart that thousands of feelings only into two words – I grass!

"Hong Yiming this old son of a bitch is really underhanded, as a vice president, he can really do so much" Ji Shaolei shook his head, "this old son of a bitch pattern is just like this, can't be anything big, nothing terrible! Nothing to be afraid of!"

As the vice president of the Weida Group, Hong Yiming can blatantly do such a thing, looking for so many people to come, and all are experts, which is clearly to make things difficult for them.

If replaced by Ji Shaolei is Hong Yiming, he is sure not to do so, which is too degrading.

Ji Shaolei will certainly use a more clever way to defuse this move.

This can be seen, although Hong Yiming this person cunning, but his vision is not too long term, and, his big picture is just so!

When Zhao Jiang saw this scene, he was also very surprised.

In fact, previously Chu Wangdong had given him this task to instruct those security consultants and bodyguards who were not on duty for the time being to gather at this training hall.

Zhao Jiang naturally understood the true intention of Chu Wangdong's words, so he immediately did as he was told, calling those bodyguards and security advisors to come to the training hall, but he called those who were not too strong, and, in addition, hinted a few words on the phone.

But I never thought that there would be so many people in the training hall.

Obviously, this extra people, is Hong Yiming called over, the purpose is of course self-evident, he is to Ji Feng three ruthlessly, and then strike assistant Chu and Ji.

Zhao Jiang heart can't help but secretly angry, this Hong Yiming directly overstepped him, the minister of protection, directly command his men not to say, but also gave him such a hand, is too much!

Chu Wangdong saw this scene, his brow was also tightly wrinkled.

This Hong Yiming, clearly want to poison Ji Feng and them, and to use this to combat themselves.

Also too vicious some!

Chu Wangdong's eyes flashed with anger, Hong Yiming is more and more excessive.

He said in a deep voice: "Zhao Jiang, you will be the judge later, remember, this is only an examination, not a life and death struggle, don't have any accidents."

Zhao Jiang immediately nodded and said, "Don't worry, Assistant Chu, I know what to do!"

"Hehe"

At this time, Hong Yiming walked over slowly with a smiling look on his face, "Zhao Jiang, you are really serious and responsible about your work, the people you have arranged are very good!"

Chapter 1715

"Hehe"

At this time, Hong Yiming with a smiling look, slowly walked over, "Zhao Jiang, you are really serious and responsible about your work, the people you arranged are very good ah!"

Zhao Jiang was expressionless, cursing in his heart, this old thing, Hong Yiming, was clearly separating himself from Assistant Chu. These people are not arranged by themselves, it is obviously the old thing Hong Yiming arranged privately, originally he called, not these people!

Now look, the people they called also came, but, now it is clear that it is not their turn to make a move

Chu Wang Dong is a smile, said: "It seems that even the General Hong is very satisfied with Minister Zhao's arrangements, which shows that Minister Zhao is very serious and responsible for the work, Hong, you can not have nothing to show, right?"

Still pretending?

Hong Yiming sneered in his heart, later on, once the action, I see how you still pretend!

He said with a smile on his face, "Of course, Xiao Chu, even if you do not say, I have already prepared, when the end of the year assessment, the assessment of Minister Zhao's rating, will take care of him!"

Chu Wangdong smiled noncommittally, but did not say anything else.

He can only compete with Hong Yiming in words now, to say the substance, now he has no capital in his hands.

After all, the strength of these security consultants and bodyguards in the group is very clear to everyone.

Especially those security consultants standing in the front row, their strength is outstanding.

In the Vida Group, to be qualified to serve as a security consultant, not only must have excessive strength, but also the overall quality of all other aspects must be excellent. And have strong strength, this is one of the most basic requirements.

These security consultants, especially those Asian-faced guys, seem to have clashed with Li Guoliang. And the result of each conflict, it seems that there is nothing too obvious victory or defeat.

This shows that even if their strength is not as good as Li Guoliang's, the difference is not too far.

Chu Wang Dong will not forget that Li Guoliang was formerly a mercenary of the mercenary corps, on the battlefield, seen blood, experienced life and death struggle, such a person, the strength of the tough that is not at all in the gym to train a muscle guy can be compared. These security advisors can fight with him almost, which shows how strong they are.

What's more, there are quite a few of them are retired masters of the Rice Bureau, and even the Marine Corps, their strength is naturally needless to say.

But Ji Feng and Ji Shaolei and them, even if their kung fu is really not bad, but once faced with these people who have really fought in the battlefield, it is far worse.

If you use these people to test Ji Feng and others, as long as the other side a little ruthless, are enough for Ji Feng and them to suffer.

Hong Yiming has evil intentions, this is obviously to play hardball!

Chu wangdong look at the natural heart is very angry, so naturally is not an inch.

Of course, now Chu Wangdong and Hong Yiming on the verbal sparring, not just to show off the verbal pleasure, the most important, is to achieve his goal – try to keep Ji Feng from being hurt.

So Chu Wangdong said: "Since even Hong agreed with Minister Zhao's serious and responsible work attitude, then, later the assessment, let Minister Zhao be the judge, Hong, you and I are amateurs in kung fu, do not intervene, just watch from the sidelines!"

Hong Yiming nodded with a smile, "That's natural. Little Chu, as you said, we are amateurs in kung fu, so later in the examination, we can not interfere ah, otherwise, it is the same as breaking the rules, this is not good!"

Chu Wangdong frown, Hong Yiming this old thing is obviously not so easy to deal with, he actually used his own words against himself, warning himself later no matter what happens do not interfere

How can Chu Wangdong not understand Hong Yiming's intentions?

This old thing, is trying to block their own mouths, obviously later when the test, if Ji Feng their situation is very bad, Hong Yiming will not allow himself to prevent the test to continue.

Chu Wang Dong secretly cold hum, it seems that Hong Yiming this is determined to give Ji Feng and their embarrassment, and thus to their own embarrassment. In fact, Chu Wangdong think they look bad is

nothing, anyway, and Hong Yiming encounter is not once or twice, Hong Yiming and himself so hard, his pattern is also so.

At this time, Chu Wangdong also understand the meaning of his mother let himself be the assistant to the president.

Imagine, if the people in the company know, Hong at most can only fight with the son of Mr. Ji, then in front of Mr. Ji, he is naturally not a rival, then there is nothing to be afraid of.

Therefore, Chu Wangdong is now actually a pawn, on the one hand, to sharpen his ability, and most of all, to stay in the company and Hong Yiming this old guy fight.

In this way, Chu Wangdong is naturally not afraid of shame, losing the fight is nothing to be ashamed of.

But now is not the same, their own loss of face does not matter, but the key, Ji Feng and Ji Shaolei if they are injured, then it is a problem.

Chu Wangdong heart guessed their identity, naturally can not stand by and watch them get beaten.

Although now Chu Wangdong still do not know Ji Feng they come to the group in this way in the end to do what, but since we know their identity, it is necessary to do something.

“Since Mr. Hong has given the word, Minister Zhao, later you, the referee, must do a serious and responsible job, if anything goes wrong, I will have to hold you responsible!” Chu Wangdong looked at Zhao Jiang with a sullen face, “Remember my words?”

Zhao Jiang naturally knew what Chu Wangdong meant by these words, he immediately nodded and said, “Assistant Chu, don’t worry, I will do a good job and won’t let you down!”

Only then did Chu Wangdong nodded in satisfaction and said, “Good then, Chief Hong and I will watch here, you want to explain some rules of the examination to them!”

Zhao Jiang nodded and said, “Yes!”

Chu Wangdong smiled faintly and turned his head to Hong Yiming and said, “Chief Hong, let’s just sit next to them and watch, right?”

Hong Yiming’s fat face was still smiling, he nodded readily at his words, “That’s good, Xiao Chu, as an elder, then I will sit first, when the benevolent!”

Chu Wangdong smiled slightly: “That’s not right, Mr. Hong, since you are an elder, you should be more modest!”

The two people even for the issue of who sat down first, can actually say two sentences, which let not far Ji Feng look at the frown slightly wrinkled, it seems, Hong Yiming and the contradiction of the little nun, in the group has really been completely open, both sides are now only on the surface to maintain the last bit of face, but in fact, each other is already saber-rattling, fighting.

Now that things have come to this point, the contradictions between the two sides are now basically irreconcilable, since this is the case, then between Xiao Gu and Hong Yiming, there is bound to be a party that will eventually leave the group.

Since this is the case, then this time the test can not leave any face, in Ji Feng's view, Hong Yiming can not be considered a rival, can only be said to be an enemy.

Opponents, not only competition, will make people admire, but the enemy is directly a foot stomped to death!

Ji Feng and Ji Shaolei glanced at each other, both saw the smile in each other's eyes.

Since Hong Yiming for this time the assessment of confidence, then first give him a resounding slap in the face, hit his eyes, to let him know that the Weida Group is not he can be a single hand!

Over there Chu Wangdong and others have already sat down, and on this side, Zhao Jiang is announcing the rules in a loud voice.

"Everyone"

Zhao Jiang spoke English this time, because there were quite a few people present, people from various places, and the Chinese language would not be common.

Although Ji Feng could not quite understand it, but it was good that there was a white spider next to him to translate, so there was no obstacle for him to understand.

Zhao Jiang's gaze swept from the faces of those security consultants, said: "Our security company's rules, we all know, want to enter the security company, the first point, is to have excellent physical skills, in order to prove that you are qualified to enter the security company, to be a bodyguard, or security consultant, you must pass our security company's examination, in order to have the qualification to be selected."

Zhao Jiang paused and said: "Of course, to be selected, there is a very necessary condition, that is, you are a person with a sense of justice, no previous convictions, no criminal experience, no drug abuse, the previous record is good Of course, this point the group will send people to investigate. If after the investigation found that your past is bad, then even if you defeated all the people in the protection all, you are not qualified to be selected!"

"Of course, this investigation is not for me to do, and is not under my control, so today I am only responsible for one thing – that is, the strength of the new arrivals, the qualification test."

Zhao Jiang raised an index finger and said aloud, "This kind of assessment has been experienced by everyone before, the rules are very simple, a pair of three, any challenge!"

Hearing this, Ji Feng could not help but raise an eyebrow, secretly said, a pair of three, any challenge?

Does it mean that to get into the bao all, but also a fight three to do?

Zhao Jiang did not give an explanation, but continued to say loudly: "Now, there are three people who want to join us, so, to select nine people for arbitrary challenges, interested, can come forward, a group of three people."

Afterwards, Zhao Jiang then turned around and explained to Ji Feng three people, "Don't worry, the so-called one-to-three arbitrary challenge, actually does not let you one at the same time against three, but

that you just need to be able to defeat one of these three people respectively, and then tie one, even if you pass, this is the bottom line.”

Ji Feng asked, “What about if one wins and two loses?”

Zhao Jiang spread his hands: “Then you can only be eliminated, one win and one tie, that’s the bottom line.”

Ji Feng smiled at his words and nodded and smiled: “Understood.”

Ji Shaolei looked at those security consultants and bodyguards and asked with a smirk, “So, if we send them all to the hospital, will it be a little too heavy?”

Zhao Jiang, however, did not answer directly, but said, “Our Wei Da Group has a special cooperative medical institution.”

Chapter 1716

Ji Shaolei looked at those security consultants and bodyguards and asked with a smirk, “So, if we send them all to the hospital, will it be a bit too heavy?”

Zhao Jiang, however, did not answer directly, but said, “Our Weida Group has a special cooperative medical institution.”

Ji Shaolei burst out laughing, Zhao Jiang was quite humorous. He did not say that it was okay to send all those security consultants and bodyguards to the hospital, but only said that the Wider Group has a special cooperative medical institution, does this mean that it is okay to send them to the hospital, the cost is very small, and also very convenient?

This is clearly to encourage those guys are sent to the hospital well!

The first thing you need to do is to take a look at the website.

In fact, Zhao Jiang was just joking, he really wanted to send all those guys to the hospital, but the problem is, their strength is too strong, with Ji Feng and them, to be able to protect themselves is already considered good!

“I’ll do it!”

Suddenly, a loud shout came.

Ji Feng several people immediately looked at the sound, only to see a young man with an Asian face, wearing a black undershirt, the lumpy muscles on his body pushed the people beside him out of the way, and stood out from the crowd.

This person speaks Chinese, it seems to be another Chinese in Rice.

Just, let Ji Feng is very depressed is that this guy looked at himself, the eyes are full of provocation and disdain.

Ji Feng helplessly secretly shake his head, after coming to Rice, have not seen those arrogant Rice people on their own how, but one after another is a lot of Chinese people to find fault

These people are so impatient?

“ME!”

At this time, another tall white man stood out, he collapsed two steps forward and stood next to the Chinese man before, also provocatively looking at Ji Feng, obviously, he wanted to join the Chinese man, responsible for testing Ji Feng.

Ji Feng just smiled indifferently, as if he was about to be tested not by himself, but by these two people opposite, he not only did not feel nervous, but also sized up these two guys with a critical gaze.

Well!

Not bad!

These two people are still good, at least in terms of physical condition.

If for ordinary people, it is definitely a master, but in Ji Feng's opinion, it is only good.

Of course, if you look at the body shape, the sturdy and tall white man is very strong, look at his body that high bone muscles, and that chest from the undershirt chest hair, all show that this person is quite wild.

But a person's true strength can be determined not only by his size and strength, but also by many other factors. If you let a strong man who knows kung fu fight with a veteran who has actually been in battle and fought people to the death, I believe that at most a few face-to-face, that strong man who knows kung fu, will be taken out by the veteran.

This is the difference!

So what is the real strength of these two people, it is not easy to judge for the time being.

But there is no doubt that Ji Feng is quite confident in his own strength.

At this time, Ji Feng suddenly felt that someone was watching him, he immediately turned his head to look, and saw that Chu Wangdong, who was sitting in the rest area next to him, was looking at himself, although his face did not have too much expression, but looking at his eyes, you know that he must have some drums in his heart.

At this time, Zhao Jiang quickly came over and whispered next to Ji Feng and Ji Shaolei: “Two, the next depends on you, fists and feet without eyes, then you have to be careful yourselves, if you really can not, to admit defeat in time, otherwise”

He did not say further, but in the end or what, we all know it by heart!

Ji Feng nodded with a smile and said, “Thanks for the reminder.”

Zhao Jiang said another sentence: “Assistant Chu also does not want a few people to have any flash.”

Ji Shaolei said, “You tell Assistant Chu, let him be completely at ease, no matter who Hong Yiming sends to test, the one who ultimately falls, will definitely not be us. Some people want to make us look bad, but do not know, in fact, he himself is a jumping clown, constantly jumping there, in fact, bullshit!”

Zhao Jiang almost did not choke on his saliva!

This talk is too crazy, right?

This is not a kung fu competition or a friendly match, but Hong Yiming is fully committed to giving Assistant Chu a hard time, he called these people, in the protection of all recognized experts, there are a few of them, even he is a bit difficult to deal with.

But Ji Shaolei said so well, is not a little too much?

Zhao Jiang took a deep breath and said: "Be careful yourself! These people are not simple, a few of them are mercenary origin, and a few are directly retired from the battlefield In short, careful for the better!"

After saying this, Zhao Jiang said nothing more.

He felt that Ji Shaolei was a little too arrogant, such a person Zhao Jiang some not quite like. But after all, they are the people of Mr. Ji, and today it is clear that assistant Chu and Hong Yiming bargain, so he must remind how.

Only, he heartily is not optimistic about Ji Feng and them.

The specific instances of these security consultants and bodyguards, Zhao Jiang naturally knows very well, Hong Yiming found these people are absolute experts, now Zhao Jiang just full of thoughts, later in their hands, how they can ensure that Ji Feng they do not suffer too serious injury, but also to save the face of Assistant Chu.

This is the problem that Zhao Jiang is now considering.

As for that, Ji Feng they can win this question Zhao Jiang did not consider at all.

"You two boys, who will come first?!" Suddenly, a loud shout came out. Only to see the guy with an Asian face among the two people who had already stood out drink, his gaze was looking at Ji Feng and Ji Shaolei.

"They are three people!" Zhao Jiang reminded, "Moreover, there are only two of you, which is not enough to form a squad, you need to find another person."

"A woman?"

The Asian-faced guy glanced at the white spider and laughed, "Minister Zhao, you're asking me to fight with a woman, then I should just admit defeat, I'm not in the habit of beating women!"

Zhao Jiang's face sank, "Since you want to spar with one of them, then, you are still one short of a man! Who will come?"

"No need!"

The Asian-faced man directly interrupted Zhao Jiang's words and said, "Since it's a test, then the two of us are enough, as long as he can pass us, then it's considered a win."

Zhao Jiang's face instantly sank: "I'm the minister who protects all of them!"

The man grinned, although he did not speak, but that attitude does not look too convinced.

Zhao Jiang glared at him fiercely and said in a deep voice, "Who else?"

"Boom!"

Another one came out from the crowd, this time a black man, not too tall, but the muscles on the body more intimidating, especially the dark body only reveals a mouth of white teeth, but also attention.

Zhao Jiang took a look at the person who came out, and immediately had some headache.

In all fairness, black people, whether in explosive power, or in physical fitness or in other aspects of the body, are stronger than the Chinese, or rather, are stronger than yellow people, this is an indisputable fact.

The black people who have undergone rigorous training are naturally more powerful.

The guy in front of you is like this, this time, Ji Feng they are really in big trouble.

"# \$% \$%" that black man stood out, gibberish do not know what to say a few words, but the next one of his actions, everyone saw, only to see him stretch out his right hand, thumbs up, and then rotate thumbs down!

He was despising the three Ji Feng.

White spider whispered: "Ji young, he is saying"

Ji Feng laughed: "Look at his gesture to understand what he is saying."

Ji Shaolei, however, bristled, "Here comes another one who is not afraid of death!"

Zhao Jiang frowned, and again jabbered a long list, as if asking the black man, and as if he was chiding.

"Minister Zhao asked them if just the three of them would be enough?" The white spider translated in a low voice.

"Yeah~" then saw the black man nodding and shrugging his shoulders, a customary action for foreigners, only with the foreign wind blowing, a number of Chinese people also began to learn this action – in fact, those people did not know that this action was not suitable for medium-sized Chinese people, and learning it would only add to the laughs, not how handsome as they thought they were!

Zhao Jiang came over and said, "A few people, they said that three of them would be enough."

Ji Feng asked, "Just the three of them?"

Zhao Jiang nodded, "Just the three of them!"

"Minister Zhao, the rules of the test are clear to me, one win, one draw." Ji Shaolei said, "But if it's just the three of them, do we all have to play against them separately? Just their group? Or if I beat their group, will there be another group coming up next?"

"There are only three of them!" Zhao Jiang said.

"That's good!"

Ji Shaolei stood up and smiled faintly, "Then I'll go first."

Ji Feng said, "Second brother, be careful, this gang doesn't have any good intentions."

He was afraid that Ji Shaolei did not have enough experience in real combat and might suffer a loss later. Even if the strength is higher than the other side, but if the actual combat experience is not enough, fighting is likely to suffer a big loss.

You know, the real combat experience of the people, will not play what cut, I'm afraid that the first up is to attack the vitals, first you lose combat power to say.

What's more, this gang is originally called Hong Yiming, the purpose is to want to give them a hard look, when the real fight, can show mercy is strange!

Ji Shaolei laughed: "With this group of guys? At most, they can only threaten those ordinary people, want me to suffer tsk!"

Chapter 1717

Ji Shao Lei laughed: "With this bunch of guys? The most they can do is to threaten those ordinary people, trying to make me suffer tsk tsk!"

"You're arrogant!" That Asian-faced guy heard Ji Shao Lei's words and could likewise understand them because he also spoke very fluent Chinese, "In that case, then you better show your real skills, otherwise, with just your words, you're going to be sent to the hospital today."

"Bullshit!"

Ji Shaolei snorted and walked forward while unbuttoning his jacket, "Just because you still want to send me to the hospital? I think the person who should be sent to the hospital is you!"

The guy said mockingly, "You think you're Bruce Lee?"

As they spoke, they were only a few meters away from each other, and everyone else took a few steps back to give them an open space.

In fact, in the center of this training hall, there is a ring, but at this time these security consultants and these bodyguards stand here, no one has the intention to get into the ring.

"Get in the ring!" Zhao Jiang said in a deep voice next to him, "The test is exactly to begin!"

"Minister Zhao, I don't think it's necessary to get into the ring, right?" That Chinese man said with a grin, his pair of eyes squinted at Ji Shaolei and grinned, "It's not that I underestimate him, Minister Zhao, you know my strength, to beat such a little white face, it's enough for me to use one hand, you still let me get into the ring, isn't that an insult to me?"

Zhao Jiang's face sank: "Watch your mouth!"

The Chinese man said with a smile, "Sorry! I'm just too straight, I can't help it, I'll say whatever is in my mind, don't take offense, Minister Zhao!"

Zhao Jiang glared at him, but could not say anything else.

These people are not dealing with themselves, although the mouth called himself Minister Zhao, but in fact none of them put themselves in the eyes, are determined to follow Hong Yiming mix.

The only thing Zhao Jiang could do was to reprimand them a few times, but looking at his smiling appearance, Zhao Jiang knew that even if he reprimanded them, it would not help, but also make himself look like a stormy shrew.

“Mr. Ji, don’t be offended, the examination is most important.” Zhao Jiang could only turn his head to comfort Ji Shaolei.

“It’s okay.”

Ji Shaolei’s face also with a faint smile: “I’ve seen a lot of such a yakuza, but it’s just a jumping clown, the more he jumped, the more he will fall, anyway, he can’t jump for much longer

Before he finished his words, the Chinese man said through gritted teeth, “Kid, you’re looking for death! Old me will definitely stuff your head into your ****!”

The smile on Ji Shaolei’s face disappeared, he gave that guy a deep look, nodded and said, “I remember!”

Originally Ji Shaolei still only have the idea of teaching him a lesson and forget about it, and do not intend to poison the hand. After all, these people are just to make a living, rely on hands to eat, is not so evil, but now is only because each for their master, so also had to go to the opposite side.

What’s more, in this foreigner-ridden place in Rice, to see a Chinese, more or less than to see those high-nosed, blue-eyed foreigners to be more cordial.

How to say, can also be barely counted as hometown.

But now

Ji Shaolei changed his mind!

He found that not all Chinese people are so cordial, there are certain people, in fact, just like Lv Yaoyang kind of people, simply do not have the kind of enthusiasm to see Chinese people in a foreign country, and even think they are proud of the rice people, and thus full of hostility to Chinese people.

For such people, Ji Shaolei want to stay hands may not be able to stay.

“Alas” Ji Feng shook his head and sighed softly, looking at the guy with a pitying gaze, his heart felt a little pity for him.

“Young Ji, do you want me to go?” White Spider asked.

“No need!” Ji Feng smiled and waved his hand, he knew exactly what White Spider meant, that guy was very strong looking and looked like a master, so White Spider was worried that Ji Shaolei wouldn’t be able to take his opponent and would be humiliated instead.

“You do not have to worry about the second brother’s skills, if the three of them together, the second brother is afraid that there is still something to defeat, after all, he does not have much practical combat

experience, even if there is also fighting with those dudes, but, if we say against one of them, it is certainly no problem!" Ji Feng laughed.

White spider nodded, see Ji Feng said so, she also no longer say anything.

And at this time, Ji Shaolei, but unbuttoned the cuffs and pulled up the sleeves, he had to fight three in a row, of course, he had to primp and shine a little.

"Kid, come on!" The Chinese man saw Ji Shaolei and take off his jacket and roll up his sleeves, so he became impatient, "Do not pretend to look disgusting. Little white face, your advantage is not in taking off your jacket, but in taking off your pants"

Ji Shaolei glanced at him: "Can start?"

The guy said disdainfully, "Come if you have the guts."

Swish~!

His words just fell, Ji Shaolei steeply rushed forward, while the reverse is a leg pumped over, the action is harsh and incomparable, swift and astonishing.

The man was shocked and subconsciously raised his hand in a panic to block.

Boom!

The next moment, he only felt a strong force came, two legs a weak, unexpectedly flopped on both knees on the ground.

Ji Shaolei only used one leg, let this arrogant unbeatable guy kneel down!

Others were also surprised, but they were surprised not that the guy was smashed to his knees, but Ji Shaolei in that high-speed movement can actually still make that kind of harsh attack, wide open, this is what makes people surprised.

You know, even if the kung fu is more powerful, in the fight, the most basic principles of physics or to follow.

For example, the human body in the process of moving at high speed, there will be a strong inertia, this time want to suddenly stop or suddenly back, it is impossible, even if the car, that also has to have a drift process.

So, on the Ji Shaolei just that rush and move, he is most likely to use the attack, should be with a knee impact, or fist smash over.

But no one expected that he actually turned around and swung his leg, this kind of action, the difficulty of the high can be imagined.

This shows what level of control Ji Shaolei has reached over his body, and it also shows how good his physique really is!

Ji Shaolei just used such an action, let everyone present immediately pay attention to it.

However, at this time, Ji Shaolei is not going to pay attention to other people's demeanor, since he came up with an advantage, he naturally wants to grasp it, he wants to let this guy know, the head is stuffed into ****, what exactly is a feeling.

So the next moment, Ji Shaolei one foot pressed on the man's raised arm, the other foot is overhead and its, instantly kicked in the guy's chin.

Hoo~~!

Ji Shaolei backflip in the air and landed firmly on the ground.

Look at the guy who fought with him, but was kicked in the jaw, directly backwards flying out, and fell heavily on the ground.

Swish~!

Ji Shaolei's body surged and instantly arrived in front of that guy, and stepped on his stomach with one foot.

"Ah"

With a miserable scream, the guy sat up violently, hands clutching Ji Shaolei's foot, the whole person almost became a bent little shrimp.

A cold awning flashed from Ji Shaolei's eyes, and he ruthlessly slammed a knee into the man's temple, while a clasp on his neck, fiercely pressed forward.

Then, Ji Shaolei once again stomped on the back of the man's head.

Boom!

It was the sound of the head hitting the floor that guy's head, right from the side of his pants, hit the floor.

Along with that, was his painful scream.

"Ah...!"

"Scream?"

Ji Shaolei sneered, "There's even better next, stuff your head into **** and take your time to enjoy it!"

The man was in pain and horror, subconsciously screamed in shock: "I admit"

Admit the two words before he could say, he only felt his body light, followed by a huge shock came, he felt as if he had fallen into a cliff seems to

Ji Shaolei actually lifted him up directly, and then let his head droop in his pants and fell heavily on the ground.

This time, even if the head is not stuffed **** into, but also almost!

Ji Shaolei then released his hand, the guy's body fell softly to the ground, like a puddle of mud, just like that hard fall, he had passed out!

“Waste!”

Ji Shaolei clapped his hands, seemingly to get rid of the dust on his hands: “Really what kind of cats and dogs dare to jump in front of the old me, do not know how to live and die!”

“Good!”

A shout of approval rang out, only to see Chu Wangdong incomparably excited clapped his hands and shouted, “Well done! Good kung fu!”

He was really happy beyond words, originally seeing so many security consultants and bodyguards being called in, and each of them was also an expert, Chu Wangdong couldn't help but feel helpless in his heart, it seemed that this time he was destined to be hit in the face.

He did not believe that Ji Shaolei and Ji Feng could beat these people.

But not to fight and can not, this is Ji Feng and their initiative to request, Chu Wangdong do not know what they want, so simply can not stop.

From the time he entered the training hall until now, Chu Wangdong's heart has always been hanging, being hit in the face is being hit in the face, no one can die. However, these security consultants and bodyguards are all Hong Yiming's people, and they are clearly trying to make themselves look bad, so when it comes to Ji Feng and Ji Shaolei, they will definitely not show mercy.

Chu Wangdong was worried beyond words.

But he did not expect the final result, but Ji Shaolei cleanly won, while the bodyguard was beaten almost out of shape, not even the ability to resist.

Ji Shaolei gave Chu Wangdong a big surprise, a strong sense of joy and excitement, instantly filled in Chu Wangdong's heart.

Chapter 1718

The next moment, he shouted: “Who else?”

His loud shout echoed in the large training hall, the room was silent, but no one took him up on his words, his attack just now was so severe that it really stunned everyone!

Swish!

Ji Shaolei turned around, his gaze fell on the two remaining guys, since these two guys came forward, then be prepared to pay the price, he did not intend to let these two go.

“You two, let your horses come!” Ji Shaolei spoke in Chinese, however, his movements could be understood by anyone. He only saw him point at the two guys and hooked his hand.

The faces of those two guys, one black and one white, changed.

Just a few minutes ago, they did not put this Asian in the eyes, although from the appearance, this Asian looks more sturdy than others, but that is only for Asians, if compared with them, there is still a gap.

Besides, in terms of sturdiness and body muscles, this Asian kid is even less, compared to them, this Asian kid is skinny simply with the sisal support seems to be the ground.

Such a guy, they naturally will not put in the eyes.

However, this view of theirs changed with the clean defeat of the Chinese man by Ji Shaolei.

They suddenly discovered that the real strength of this Asian kid was much more terrifying than his appearance.

Looking at the Chinese guy who was beaten badly, the two guys, one black and one white, couldn't help but have some drums in their hearts. Also as security consultants, they know very well how each other's strength, we are often together to cut exchanges, even if the lesser to come and go, but also occasionally over the move.

What's more, they all follow Hong Yiming, so the contact between each other is naturally more frequent, for the strength of the Chinese, they still know very well.

If a head-to-head battle, they believe that they can almost tie with the Chinese man.

However, that Chinese man in the face of Ji Shao Lei, but even half resistance, was beaten faint, that boy's head really almost be stuffed into ****!

In this situation, this black and white two guys how still dare to make a move?

"You two, who will come first?!" Ji Shaolei looked at them with a cold face and shouted lowly.

"****!"

That white guy was angered by Ji Shaolei's contemptuous attitude, he couldn't help but curse angrily and stood out, while jabbering a string of something.

Ji Shaolei sneered, "Don't talk to me in this language, I don't understand you! If you want to make a move, just let your horse come!"

Zhao Jiang almost laughed out of the side, well, these guys are usually rampant, this is good, see how they still rampant!

Ji Feng frowned slightly, he understood the words that the white man cursed just now, he could not help but turn his head and ask the white spider: "What is this dog saying?"

White spider said: "He is saying, let me teach you a lesson!"

Ji Feng smiled and snorted: "Joke, big talk!"

The white spider nodded in deep thought, he also thought so, this white man is indeed shameless, just because he still has to teach Ji Shaolei?

However, the white spider also saw that, although the speed of Ji Shaolei is extremely fast, power is also amazing, but, he seems to be more or less lack of moves, as if the fight is just a few moves, in addition to the vast majority of the time is to rely on his improvisation to open moves, often not too strong killing power.

For example, just now against the Chinese, Ji Shaolei rely on speed and strength, in fact, the moves are not very subtle.

The white spider naturally does not know, in fact, Ji Shaolei has only practiced sparring before, naturally there is no subtle moves, and he can now reach this point, the most important thing is to rely on the practice of physical exercise and thus greatly enhanced physical fitness.

Otherwise, he would not be able to fight with these highly skilled security consultants.

“You! Come here!”

Ji Shaolei pointed at the white man, “Since you have the guts to stand out, don’t be so shrunken, come over and try your hand!”

Having been pointed out, that white man couldn’t retreat any more.

The white man shouted and rushed forward.

Boom!

I did not see how Ji Shaolei moved, his foot came into close contact with the white man’s face, the hard leather shoes kicked in the other side of the face, immediately made the white man a scream, flopped heavily on the ground, it seems that the floor shook a little.

“\$%#\$%”

The white man’s mouth screamed something unknown, holding his head and rolling on the ground.

The white spider whispered, “He’s screaming to admit defeat.”

Ji Feng shook his head: “So soon to admit defeat, just now still behaved so valiantly? What a”

White spider said: “Westerners, especially the rice people, most admire personal bravery and heroism, that’s why they abound here in all kinds of novels and comics superheroes. But in fact, these rice people are still the most afraid of death, or rather, the most aware of the time.”

Ji Feng thought deeply, the rice people are indeed like this, they advocate personal bravery, heroes, also like to take risks.

But in fact, they pay more attention to personal safety and security.

For example, if they encounter a particularly dangerous situation on the battlefield, the first thing they think of is not to fight with the enemy, but to raise their hands and surrender.

Or, if the officer gives any extremely dangerous orders, many soldiers will even refuse to carry out the orders.

This is something that would be unimaginable if it were in the Chinese military.

The Chinese military, the emphasis is on obedience to orders, the so-called order out like a mountain, is so.

This can also be seen, the most fundamental difference between the rice and Chinese people, is the resilience.

This, in the body of the white man in front of him, is reflected in the best way. He came up and was defeated by Ji Shao Lei, and immediately knew that he was not Ji Shao Lei's opponent, so in order to avoid further injury, he immediately surrendered.

I don't know whether to say that he knew what he was doing, or whether to say that he was afraid of death.

"Boom!"

Ji Shaolei lifted up a foot and kicked the white man in the head, the latter's eyes rolled over, instantly fainted, and his screams also came to an abrupt end.

After doing this, Ji Shaolei rubbed his leather shoes on the white man's body, then turned his head again and looked at the last black man.

At this time, the black man is with astonishment in his eyes, mouth slightly open, just his mouth of white teeth to reveal. His black charcoal-like skin hardened the not too white teeth, attracting the attention of others.

"You!" Ji Shaolei pointed at him, "Come here!"

"NO!"

The black man immediately shrieked and waved his hands: "You've already passed!"

This guy can actually speak Chinese?

Ji Shaolei looked at him, although this black man's Chinese was speaking very hard, but Ji Shaolei was understood, he realized that he had defeated two guys in a row, considered to have passed.

"Well done!"

A shout of approval sounded, Chu Wangdong full of excitement stood up, applauded hard and shouted: "Well done! Haha"

Chu Wang-dong can really be a long breath, this may be their relatives brother, can really give himself a great long face ah, if Chu Wang-dong before still some worry, but now, he is full of joy.

This is Hong Yiming carefully arranged opponent, but by his own people three punches and two kicks to beat down, and even directly fainted, crawl can not get up.

What else does Hong Yiming have to say?

Chu Wangdong turned his head to look at Hong Yiming with a smile on his face, he was eager to see what Hong Yiming's expression was at this time, thinking that the old fox's face must be very exciting.

However, Hong Yiming is still smiling at this time, but, looking at the corners of his mouth twitching slightly, as well as the somber eyes, it is enough to show that his heart is not as happy as it appears on the surface.

This time, it was a real slap in the face!

And, the slap loudly!

“Mr. Hong, how about it, our group protects all but another talent!” Chu Wangdong saw the appearance of Hong Yiming, said with a smile on his face. He was laughing in his heart, the old fox can still laugh out? The taste of being hit in the face is not good, right!

“Hehe

Hong Yiming but smilingly nodded and said, “Not bad, this young man is indeed very good. Good stance!”

Chu Wangdong’s gaze swept past his face, he was sure that this old thing was definitely saying the opposite, but so what, let him feel bad.

You know, it was all Hong Yiming’s people who were beaten. And looking at the looks of the other security consultants and bodyguards, they all seem to have some subconscious fear of Ji Shaolei.

In this way, in the future in this security department, Hong Yiming’s people will not dare to be arrogant. This time Hong Yiming again want to control the security department, hey, he can only think about it.

“General Hong, then, we continue to test the next one?” Chu Wangdong said with a smile.

“Little Chu, you can arrange it.” Hong Yiming said.

“Then I will be the one to do it!” Chu Wangdong’s face also wore a smiling expression as he said.

“Mm~”

Hong Yiming hugged his arms and let out a nasal sound, and then stopped talking.

Just but no one saw that the moment Hong Yiming turned his head away, his face became an iron blue, his expression gloomy incomparable, that slender eyes, but also flashed a cold awning

At this time Chu Wangdong is no effort to pay attention to what Hong Yiming is thinking, he waved towards Zhao Jiang and said: “Minister Zhao, continue to arrange for the remaining two people to test. Remember, Mr. Hong is sitting here watching, make sure that Mr. Hong really sees their strength, and arrange the most powerful people to conduct the test on them!”

“Yes!”

Zhao Jiang said loudly.

Chapter 1719

Zhao Jiang naturally understood what Chu Wangdong meant, Assistant Chu was hinting at himself, among the security consultants who were determined to follow Hong Yiming, find the most powerful and most prickly and give them to Ji Feng to clean up.

In fact, even if Chu Wangdong did not say, Zhao Jiang next is also such an intention.

If it was before the test Ji Shaolei, Zhao Jiang would not have had this idea, because the strength of these security advisers, Zhao Jiang is naturally clear, he originally just thought, how can try to protect Ji Feng they do not suffer too serious injury, it is already good.

As for lending their hands to teach all those pricks, Zhao Jiang didn't even think about it, it's like asking a schoolboy to teach an adult a lesson, it's a bit of a joke.

However, Ji Shaolei's clean defeat of two experts immediately made Zhao Jiang's eyes brighten up, he found that Ji Shaolei's strength, I'm afraid, is not below him.

In this case, Zhao Jiang was suddenly confident in Ji Feng, because Ji Feng came with Ji Shaolei, I believe the strength will not be too much different. What's more, seeing Ji Feng's bemused look, he didn't seem to put these security consultants in his eyes at all, so Zhao Jiang had a plan in his heart.

Of course, although the heart is thinking this way, but really do things when Zhao Jiang is still very steady, he came to Ji Feng, deliberately said aloud: "Mr. Ji, you have heard, our assistant Chu and other leaders are particularly important to you, next to pick the most powerful opponent for you, do not know what you have comments?"

Ji Feng was happy to hear that, he nodded and said, "I don't have any opinion, just do what Assistant Chu and other leaders want!"

Zhao Jiang nodded and said, "Good then, I'll make the arrangements here."

Ji Feng smiled and nodded his head, he did not expect that in this ocean, Zhao Jiang also played such a humorous. Just now Zhao Jiang that other leaders, but in China is a lot of people used to use a tactic.

When you want to disparage someone when you give your name, just say the word 'etc.' and be done with it.

For example, Assistant Chu and other leaders, that Hong Yiming the fat man can be directly attributed to the word "etc." inside, not even the name was mentioned.

The original this is a very common tactic in the officialdom of China, I can not imagine that Zhao Jiang will also play this hand.

Ji Feng could not help but feel amused, but also have a new understanding of Zhao Jiang, this guy is not just a simple hands, it seems that the brain is not stupid, know from time to time to disgust Hong Yiming a little.

The young aunt's eye for people is really accurate, no wonder we have to use Zhao Jiang as the minister of all the protection.

Ji Feng could not help but look at Hong Yiming, immediately found that he was stretching his eyebrows Obviously, just now Hong Yiming heard himself directly attributed to the ranks of other leaders, and depressed a hand.

Ji Feng could not help but smile and shook his head, this Hong Yiming pattern is not high, endurance is just so, treat him as a big threat, that is all high on him.

"You, you, and you!"

Zhao Jiang's voice came over, "You three, responsible for the assessment of newcomers! Step out!"

Because Zhao Jiang spoke English, White Spider was immediately next to Ji Feng as a translator.

Ji Feng looked in the direction Zhao Jiang pointed, and saw those three people, two of them were Asian faces, and one white, all three were standing in the crowd, seemingly not very impressive, but once Ji Feng looked at them, he could feel that they were stronger than the three people who fought with Ji Shaolei just in terms of power.

It goes without saying that these three people must be the biggest pricks in the security department, and I'm afraid that their strength is also the strongest.

Those three people came out, and one of them, an Asian-faced man, rattled off something, and Ji Feng turned his head to look at the white spider.

"He said that it's okay to test you, but the three of them have to come together to prove that you are indeed very strong." White Spider whispered next to him.

"Three people together?" Ji Feng's eyebrows were slightly raised.

"Mmm! This is a good idea!"

Hong Yiming suddenly spoke up, he said smilingly, "Well, this proposal of Chuanye's is good, since these three people that Assistant Chu invited are all talents, then going one by one is definitely not their opponent, I think this way, in order to verify that their strength is indeed superb, then let's have all three of them go together!"

Chu Wangdong immediately said: "Hong, you are not right, since it is an examination, it must be in accordance with the rules. I'm afraid that no one can resist if all three of them go together, right?"

Hong Yiming said smilingly: "Just now this young man's strength you have seen, it is very good, I believe that even if three people together, the pressure on him is extremely limited, I believe that his is equally powerful"

"I do not agree!" Chu Wangdong said in a deep voice, "Everything must be done according to the rules, General Hong, you are the vice president of the group, you will not take the lead in breaking the rules, right?"

"I'm doing this for their own good!" Hong Yiming said smilingly, "If that young man can win equally well in a fight of three, then in the future, all the work of the protection will be done by them to assist Minister Zhao"

"All right!"

Suddenly, a voice interrupted Hong Yiming, but Ji Feng stood up: "No need to argue, one to beat three, this request I think something is not right."

Hong Yiming's face sank, the original smiling look on his face disappeared, he just wanted to speak, he was once again interrupted by Ji Feng, choking him again a burst of anger.

But he heard Ji Feng say: "These people are the elites you value, right? But in my eyes, really not on the stage, one to beat three, you also too underestimate me. Let's see, I'll take the test with White Spider at the same time, so let all these people go together!"

Everyone froze for a moment.

Hong Yiming even subconsciously asked, "Sh, what?"

Ji Feng frowned: "Ear problem?"

When Hong Lei heard Ji Feng dared to say his old man, he glared: "Kid, talk politely, don't look for death!"

Ji Feng glanced at him: "I'm talking to your father, you'd better shut your mouth, or people will say you have no tutor, and your father even less!"

"You"

Hong Lei was furious and about to make a move, but once he saw the two bodyguards still unconscious on the ground, his heart subconsciously thumped, and his feet suddenly seemed to have a thousand pounds of weight, but he could not take a step.

Hong Yiming saw his son's appearance, could not help but frown, said in a deep voice: "All right! Sit down honestly, don't make a fool of yourself!"

Hong Yiming heart can not help but some depression, son is so little courage, let him really some unhappy.

After a pause, Hong Yiming turned his head to look at Ji Feng: "Young man, you just said that you want to join this little girl and challenge everyone?"

Ji Feng nodded noncommittally and asked, "Is there a problem?"

Hong Yiming laughed: "Of course there's no problem, but I'm afraid you have a problem. We are a regular group, not a martial arts school, not to mention a slaughterhouse, if you get beaten up"

Ji Feng said indifferently, "If I am injured, I will definitely not look for your trouble."

Hong Yiming shook his head and said, "There is no proof for your words!"

Ji Feng asked, "Then what do you want?"

Hong Yiming's face, once again, showed that smiling look: "Of course, it is necessary to set up a written document to do so. Young man, if you agree, we have to sign a waiver agreement first, what do you think?"

Ji Feng said, "Of course no problem."

"Good!"

Hong Yiming slapped his thigh, shouted good, and said with a smile, "In that case, then I'll have someone prepare the agreement, young man, you wait a little, wait a little!"

Ji Feng said, "My patience is not a lot, please hurry up!"

Hong Yiming immediately said, "Of course, I guarantee it will be ready soon, please sit down and wait a little!"

Then, he immediately turned to his son Hong Lei and said, "Go and prepare the waiver agreement! The terms should be listed clearly, and there should be a disclaimer"

Watching Hong Yiming explain Hong Lei, Ji Feng shook his head and turned around and sat down again. He secretly sneered in his heart, I'm afraid that now Hong Yiming heart are a little impatient, right? If you can immediately get the disclaimer, Hong Yiming will definitely not delay one more second.

"Three children, to do it?" Ji Shaolei also walked over and asked in a low voice.

"Mm!" Ji Feng nodded, "We don't have that much time to play with them, a quick battle is best!"

"Will you and the white spider two people be okay?" Ji Shaolei asked.

"No problem!" Ji Feng said.

"Hey!"

Ji Shaolei then he laughed: "Later Hong Yiming can have a hard time, he thought you were too wild, I'm afraid he is thinking how to take the opportunity to give you a lesson, but he will not think, later he will be dumbfounded!"

Perhaps others think Ji Feng is crazy, but Ji Shaolei is aware of Ji Feng's intentions.

Before coming to Weida Group, he and Ji Feng discussed, in order to lift the crisis of Weida Group, may need a certain process, but to ensure the safety of the sister, the first thing to do, is to first clean up all the protection, do not let any cattle ghosts and snake gods to jump, especially Hong Yiming's people, more to clean up.

Only first the internal solution, in order to solve the external problems, so as to avoid the possible encounter with the enemy at the back.

And now, is the best opportunity!

They know each other this is a good opportunity, however, Zhao Jiang and Chu Wangdong they are not aware of, this is not, Chu Wangdong can not sit still, he quickly walked to Ji Feng, frowned: "Mr. Ji, you this is not a bit reckless? These security consultants are extremely experienced in actual combat, a little carelessness may result in serious injuries, and there are so many of them"

"Yes, how strong these security consultants, I am the most clear, they go together, this can" Zhao Jiang also can not help but be helpless, want them to go together, Ji Feng this is not too arrogant some?

Chapter 1720

In the basement training hall of Weida Group, two very different scenarios emerged.

On Hong Yiming's side, Hong Lei listened to his old man's arrangement and couldn't help but nod his head, his face was all excited, and from time to time, he looked at Ji Feng's side, with a fierce look in his eyes.

Obviously, Hong Yiming explained the things that made Hong Lei feel very excited, and it was definitely something that was not good for Ji Feng and them.

Then look at Ji Feng's side, but it is another scene.

Chu Wangdong and Zhao Jiang were frowning, both of them were persuading Ji Feng, both of them thought that Ji Feng's proposal to let those security consultants and bodyguards go together was indeed a bit too arrogant, or to put it in a bad way, it was called too arrogant.

"Mr. Ji, think carefully again, do not be reckless!" Chu Wangdong lowered his voice and said, "in rice, the law is still extremely important, and once signed a disclaimer, the court will certainly be recognized, that way if you are hurt then no one can help defend the rights"

Zhao Jiang also followed and nodded to persuade: "Yes, Mr. Ji, although the battle just now was not intense, it seems that your companion won very easily. But you should not underestimate these people, they are all still quite powerful! What's more, there are so many people now, if they go together"

There are so many people present, if put outside, every one of them can be called an absolute expert.

If all these people have weapons in their hands, it is a strong armed ah!

In this rice country, which advocates individual bravery and heroism, usually many mercenary squads are only five or six people, they can carry out a raid, unstoppable bravery.

And now, there are so many people in this training hall ah!

If these people together, it is not simply a simple superposition of strength, if they cooperate with each other a little more tacitly, I am afraid that a small army can not help them.

Now Ji Feng said to deal with everyone at once, in Zhao Jiang's opinion, this is really a bit arrogant.

"How about this, Mr. Ji, after they bring the waiver later, you don't sign it!" Chu Wangdong said, "Anyway, before your friend has already won two games and passed the test, then next you and this lady as long as you also pass the test, you are already a member of Weida Group to protect all, there is no need to fight so hard!"

Words here, Chu Wangdong suddenly lowered his voice and said, "These people together, it's really not that fun, think about it!"

Ji Feng nodded with a smile and said, "I understand what you guys mean, don't worry, I definitely won't actively seek death, if the danger is too great, I'll take the initiative to think about avoiding it myself, and not to rush, you guys right?"

Chu Wangdong nodded, Ji Feng said so, then he really did not know what to say to good.

What should be said has been said, but Ji Feng seems determined to deal with all the remaining security consultants and bodyguards at once, Chu Wangdong can only say: "There is no hurry, anyway, it takes some time to prepare the disclaimer, you think about it carefully again, must think about it carefully."

Zhao Jiang then said, "Yes, assistant Chu is right, now you want to pass the audit that is already a nail in the coffin, no need to take such a risk, what do you think?"

Li Guoliang stood aside, opened his mouth to say something, but was swept by Ji Feng's gaze, he immediately swallowed back the words that came to his mouth, without saying anything.

"Mr. Ji, if you have considered it, you must tell me first." Chu Wangdong lowered his voice and said, "It's not a shame to change your mind temporarily, don't you think so?"

Ji Feng nodded and smiled: "Don't worry, I will think it over."

The words here, Chu Wangdong and Zhao Jiang will no longer say anything, what should be said have been said, the rest depends on how Ji Feng is considered.

Because a long time in the rice country life, so Chu Wangdong and Zhao Jiang also developed this rice country way of thinking – each person has a strong autonomy, even in the government between the upper and lower levels, there will not be so strict hierarchy.

Human rights!

This is what they value most.

The other reason is that Rice is many years ahead of China in the modernization process, so their legal system is relatively much better.

The protection of individual rights occupies a very important part of the law in Rice, at least in the country's law, everyone is equal to each other, and they do so as much as possible.

Objectively speaking, in this regard, Rice is far better than China, because in China, the rights are always greater than the law, and this has been proven by countless cases.

You can not see, those leaders of the children committed a felony, either directly find someone out to take the blame, or, after a strict and fair judicial evaluation, found that the leader of the children have very serious mental disorders, can not be sentenced, or sentenced to a lighter sentence.

Even if they are sentenced to more than ten years, how can that be?

It may be just a few months later, from the prison, as for the reason for coming out, that is too much, what parole, what a significant meritorious performance, etc.

The actual fact is, in this regard, the country is much better than China, although in the country is also not lack of favoritism, but, their monitoring mechanism at least do a good job.

But in China, who dares to supervise the leaders?

The leader will let you supervise?

..... bullshit!

So in Rice, even a janitor on the street, dare to argue with the government leaders.

Not to mention in the company, Ji Feng to make any decision, Chu Wangdong is not the right to interfere, so the only thing he can do is just to persuade, not for Ji Feng directly negate the proposal.

Even if Ji Nan Yue came, also have no right to do so.

Of course, that janitor who quarreled with the government leader, may not end up so wonderful, for example, may lose his job, or may be beaten up after work

Time passes quickly, and in the blink of an eye, twenty minutes have passed.

The two guys who were beaten to death by Ji Shao Lei, also gradually woke up, but because the Chinese man had spoken out of turn, so Ji Shao Lei was angry, so hit harder, and the consequence is that until he woke up, the Chinese man could only sit on the ground, his head drooping, trying to straighten up is impossible!

–He didn't know how many bones were broken in his body!

Zhao Jiang then sent someone to take this guy to the hospital.

However, a strange scenario emerged.

No one was actually willing to go!

When Ji Feng and the others saw this, they couldn't help but be amazed. Was that Chinese guy doing so badly here in their bailiwick? They were beaten up like this, but no one was willing to help take him to the hospital?

But soon, Ji Feng understood what was going on, and he was immediately angry.

Zhao Jiang pointed to a random person: "You, help take the person to the hospital."

The man then said a series of words in a jabbering voice, and when the white spider listened, her pretty face suddenly sank.

Ji Feng immediately asked: "White spider, what did he say?"

It is estimated that it is not a good word, otherwise, the white spider would not be this look, Ji Feng's heart has a presumption, however, when the white spider translated the guy's words, Ji Feng still can not help but stunned.

White spider said, "Ji young, he said, he can't go, he wants to stay here"

Seeing that the white spider wanted to say something, Ji Feng asked, "Say something straight, what does he want to stay here?"

"He said we are abominable, and if he leaves, he won't have a chance to teach you a lesson later!" White Spider said.

"....."

Ji Feng was really pissed off.

Dare I say, that guy is not willing to send his colleague to the hospital, but because he wants to stay here to teach himself a lesson?

Obviously, this guy must have heard the news that he was going to deal with all of them at once, so just now when it comes to his own examination, no one dared to stand out, but now they are all reluctant to leave.

“..... their enthusiasm is very high ah!” Half a long time, Ji Feng only said a sentence. Just now unwilling to come out, now unwilling to go, this is clearly to treat themselves as injustice, who want to stay and step on a few feet ah!

“Ji Shao, or else I will go alone later, you are here to press the formation.” White Spider said, “I’ll teach them a hard lesson!”

“How is that possible!” Ji Feng laughed: “Can’t you see, as soon as I said I would deal with everyone at once, that old thing Hong Yiming was so happy he was jumping up and down, he thought those people could beat me, so of course I had to give him a big surprise!”

White spider’s eyebrows knitted slightly: “Ji young, you want to fight with these people?”

What is Ji Feng’s status, Bai Spider felt that these people are not worthy to fight with Ji Feng.

Ji Feng smiled: “It’s not a fight, but it’s necessary. Although your strength is very strong, it is still a bit difficult to knock all these people down and make them lose their fighting ability for a period of time. So I have to do it myself!”

To fight with these people, Ji Feng’s purpose is not to compete, he wants to kick out all these minions of Hong Yiming in the protection of all.

So in the hand to hand to have a measured hands, not only can not take their lives, but also can not be too lightly.

With the strength of the white spider, in the midst of these people to get out safely no problem, but to do this, or some difficulty.

After all, although Ji Feng took these security consultants and bodyguards very lightly, it must be said that they are indeed considered good experts, at least the white spider’s strength, at present, has not reached this point.

In the end, Zhao Jiang could only call two ordinary security guards to take the injured guy to the hospital, while the other white guy was unwilling to go, he had to wait to see these people stomp Ji Feng furiously together.

And at this time, Hong Lei has also got the disclaimer done, is full of excitement to send
