Chapter 1791

“I run a foreign trade company in Jiangsu and Zhejiang, mainly targeting the Rice market ..... This is an order from my supervisor, as it will disguise my identity and won't be easily recognized by the Chinese side.”

“My real identity, as the liaison between the New York chapter and the Chinese side, is an emergency contact .....

“Because the organisation's industries and years of operation in Southern Guangdong were almost uprooted, the whereabouts of the young duke was unknown, his life or death was unknown, and the king was out of town, I didn't know his exact whereabouts, and I couldn't contact the king, so I travelled to Rice to make contact with the New York Chapter .....

.....

Under the light emanating from the windows of that office building, it was all bright all around.

However, where the lights are bright, there are also shadows, and the shadows here are obviously darker than those where there is no light, because if one were to stand in the pitch black of the night for a long time, then his eyes might gradually adapt to the darkness and instead be able to see the scene in front of him in a haze.

But if a person is standing in a bright place looking into the darkness, then he will definitely not be able to see anything.

At this moment, the place where Ji Feng and the three of them were, was in the shadows behind the office building, and there was no place in this vicinity that was safer than here.

Of course they could also go to the car, but sitting in the car for a long time would inevitably draw attention. And if they were to go to a hotel or a guesthouse, taking Lu Guowei with them would obviously be impossible.

The only thing that was the best option was to be here.

In the shadows of this office building, Lu Guowei whispered everything about him, from his true identity to all the things he had done, as long as he still remembered them, he told them all without reservation.

Lu Guowei's speech was not fast, and his words were not very clear, so he spoke in a blurred manner that if one did not listen carefully, one could hardly hear clearly what he was saying.

Because at this moment, Lu Guowei was no longer the businessman who claimed to run a foreign trade company and could speak well. After he was injected with the neurotoxin simulated by bio-current by Ji Feng, his whole body was no longer under his own control, and even his thinking had been severely slowed down, just one step away from being an idiot.

If there was light here, one would have noticed that Lu Guowei's eyes were already full of confusion, his mouth was unconsciously open and saliva was dripping down the corners of his mouth, his chest clothes were wet with saliva.

Ji Feng, holding his arms, was standing about a meter in front of Lu Guowei, staring coldly at him with a murderous look in his eyes.

The things that Lu Guowei explained really surprised Ji Feng.

The dynasty organization was not only tightly structured internally, but even, they were actually so tricky in the arrangement of their personnel.

Before this, Ji Feng had never thought that, apart from the fact that the dynasty had arranged for the king as the general director in China, there was actually a private contact person.

This is just like the spy TV series where they are underground fighters and have a traffic station?

What exactly did the kingdom want to do, and how could it have gone to such lengths to make all these arrangements that no one would even think of?

Ji Feng didn't know, unless he caught the head of the dynasty, it was almost impossible to know the real purpose of the dynasty, because the dynasty's own organization was already tight enough.

From the beginning of his dealings with the dynasty, the people that Ji Feng had come into contact with were almost all those simple-minded reformers with developed limbs, who knew very little or nothing about the dynasty.

The real leaders of the dynasty, or some civilian personnel, Ji Feng almost never came into contact with.

It seemed like everyone was just following orders, everyone knew they were working for the dynasty, but exactly what the dynasty was, who was leading it, where the headquarters was ..... these questions, they didn't know!

And now Lu Guowei has confided that the dynasty has actually set up an emergency liaison office in China, so you can imagine how mysterious and cunning the real face of the dynasty organization really is.

At the same time, it was also clear from this that the person who could make such an arrangement must have a good understanding of the situation in China.

"Who came up with the idea to set up an emergency liaison office in China?" Ji Feng asked in a deep voice.

"It was an arrangement from the organisation!" Lu Guowei said.

Ji Feng then knew that this guy didn't know who suggested it either, thus it seemed that Lu Guowei's position in the dynasty wasn't very high.

"Tell me about the dynasty's chapter in New York." Ji Feng first asked questions about the country and now started asking about New York, "This company, is it a Dynasty property?"

"Yes ....."

"The boss of this company, Hunter, is it a member of Dynasty?" Ji Feng asked again.

"..... Yes."

“Is he currently in the office upstairs?” Ji Feng immediately asked in a deep voice.

“No.”

“Then where is he?” Ji Feng frowned.

Lu Guowei was silent for a moment, and Ji Feng keenly noticed that Lu Guowei’s brow seemed to be furrowed and a painful look appeared on his face, as if he was suffering from great pain.

“Snap!”

Ji Feng immediately slapped on Lu Guowei’s body, the latter’s body shook violently for a few times, and the painful look on his face then disappeared.

When he grabbed this guy earlier, he had hit him too hard!

Ji Feng couldn’t help but shake his head, although Lu Guowei had a painful look on his face, it wasn’t really painful, but because the bio-current in his body was raging wildly, hindering the effect of the neurotoxin on the nerve centre.

Because when he grabbed Lu Guowei earlier, Ji Feng was seeing that Lu Guowei was actually also a member of the dynasty, and this guy was also a Chinese, so Ji Feng’s heart was angry, and as a result, he hit him a bit harder, and the bio-current that hit his body was then a lot more.

Plus, this neurotoxin was not real after all, but simulated by bio-currents, and when it encountered the rampant bio-currents in Lu Guowei’s body, it would definitely be affected a bit.

It was only after Ji Feng had tapped on him that Lu Guowei stabilised.

“Where is Hunter?” Ji Feng asked again.

Lu Guowei said in a vague voice, “Mr. Hunter is accompanying the king .....”

The king?

A cold light flashed abruptly in Ji Feng’s eyes and he immediately asked, “What did you just say? The king has come to Rice? Hunter is accompanying him?”

“Yes.”

“Apart from the king and Hunter, who else is there?” Ji Feng asked in a deep voice.

Lu Guowei replied, “There is also Little Prince .....”

The cold light in Ji Feng’s eyes suddenly became much more austere, and at this moment, the fighting spirit in Ji Feng’s heart was instantly high and even surged with a strong killing spirit.

The king is actually in Rice! He was actually in New York!

And, there was also Little Prince, he was actually here as well! This was really a great deal of effort to find him!

At that time, Ji Feng was only a few dozen metres away from him, but because of Tian Youde’s obstruction, Ji Feng was unable to catch Little Gongzi as he wished.

In the end, he could only watch Little Gongzi escape just like that.

Although the military later mobilised a large number of soldiers to search in Southern Guangdong, there was no sign of the little prince and no news of him.

At that time, Ji Feng originally thought that after experiencing that danger, Little Gongzi would hide and would definitely not dare to show his head for a short period of time, and it would not be that easy to find him again.

But Ji Feng had never thought that he would not have any hope anymore, but he had unexpectedly found Little Gongzi's trail again here!

This was really too unexpected!

Ji Feng was vaguely excited in his heart, this time it wasn't just the Little Prince, but also the King, this father and son were actually both in New York, which made Ji Feng feel very surprised.

On top of that, there was also Hunter, this person was also apparently the head of Dynasty in New York and was an important person.

If this operation was done well, perhaps this gang could be wiped out!

Of course, this person, Hunter, was far less important to Ji Feng than the father and son, the king and the young duke. He came to find Hunter today only because Hunter and this company threatened the young aunt, so if he caught this gang, he could completely take out Hunter, but the duo, the king and the young duke, he was sure to meet them.

Ji Feng had heard a lot about them, but unfortunately, he had never had the chance to meet them.

Now, he finally saw the opportunity!

Although Ji Feng was excited in his heart, he still sank his heart to confirm his speculation: "Is this person, Hunter, the main person in charge of Dynasty in Rice?"

However, the answer Lu Guowei gave him was quite surprising.

"No."

Ji Feng was stunned, "No? Then tell me, what is Hunter's position in the dynasty?"

"Mr. Hunter, is the head of New York." Lu Guowei said.

"Then the head of the dynasty in Rice, who is it?" Ji Feng asked in a deep voice.

Lu Guowei said blankly, "I don't know ....."

Ji Feng asked a few more questions in a row and was more or less surprised in his heart. According to what Lu Guowei said, this Hunter was only the person in charge of Dynasty in New York, while the person in charge of the whole thing in Rice was someone else, but who exactly was Lu Guowei did not know, I think it was because his level was not enough.

After sorting out all the information Lu Guowei had said, Ji Feng finally asked, "So, where are Hunter and the King and the others now?"

## Chapter 1792

After sorting out all this information that Lu Guowei had said, Ji Feng finally asked, "So, now Hunter and the King and them, where are they?"

Lu Guowei, however, replied, "I don't know ....."

Don't know?

Ji Feng's eyebrows immediately wrinkled, after saying so much, in the end this son of a bitch actually came up with the phrase don't know! If you can't find the king and the little prince, what's the use of saying more?

The neurotoxin simulated by the bio-current is still in effect, which means that Lu Guowei is not lying, he really does not know where the king and Hunter are.

This ..... could be a bit of a problem.

Ji Feng's mind quickly thought to see what other questions he could ask to be able to deduce Hunter's location from Lu Guowei's words.

However, at this time, Li Guoliang, who was standing on guard a few meters behind Lu Guowei, was already dumbfounded and didn't know what to say.

Although Li Guoliang was already looking around vigilantly at this moment, he was shocked beyond measure in his heart.

How could this be possible!

He only saw Ji Feng slap Lu Guowei on the head, and then Lu Guowei became what he was now, actually answering whatever he was asked, without any pause, as if he had been slapped silly by Ji Feng.

But if Lu Guowei was a fool, how could he still answer Ji Feng's questions and even answer them in such an organized manner, that was not something a fool could answer.

What a strange thing!

Obviously, this was something that Ji Feng had done to Lu Guowei, he had used some very unique method to make Lu Guowei turn into the way he was now.

But what exactly was the method?

In Li Guoliang's impression, there was no such method in this world, it was just like demon magic!

Even in the most technologically advanced country, Rice, they had developed a drug that could control a person's nervous system, but at most, it would only affect a person's nervous system, and then answer questions from the outside world in their sleep.

But even for this kind of technology in Rice, it requires a lot of instruments, such as an electric wave transmitter to control his head, a drug to be injected directly, and other instruments.

It was hard not to be shocked by the fact that the latter had turned into this state after Ji Feng had not taken anything in his hand and just slapped Lu Guowei's head with his hand.

Li Guoliang understood more and more why the top would send Ji Feng over, it was for their own reasons!

Originally, at the beginning, Li Guoliang still thought that Ji Feng was just a gongzi, after coming over, in terms of action Ji Feng might just be a commander, it was still him who really did the job. At most, Ji Feng would just be outside to pick up the pieces or do some preparation work or something like that.

But in fact, the real outside doing the receiving, actually is he, but Ji Feng is with the white spider time and time again personally action, also did let people can not think of a big thing.

..... is really shocking!

“Lu Guowei, let me ask you, who all in your company knows where Hunter is now?” Ji Feng’s low voice rang out.

“There ..... is,” Lu Guowei said vaguely.

Ji Feng immediately asked, “Who is it and where is this person now?”

“It’s in the office .....,” said Lu Guowei.

After Lu Guowei said this, Ji Feng then knew that, it turned out, after Lu Guowei came to Rice, he was only temporarily in charge of some work of this company, and the reason why he was patrolling the company tonight was only because Mr. Hunter had left, and several of the top executives in the company had gone back from work, and the remaining few experts, too, had followed Mr. Hunter.

As security was no longer guaranteed in the company, Lu Guowei was temporarily assigned to carry out patrols.

However, although Hunter had left, there was still one person in the company who could contact him directly, and this person was not Lu Guowei, but Hunter’s girlfriend!

According to Lu Guowei, Hunter’s girlfriend was a semi-open secret in the company, or so everyone thought anyway, but whether that person really knew Hunter was there or not, I’m afraid it was impossible to say. Lu Guowei was also at a loss, the only reason he could mention Hunter’s girlfriend was because he usually heard people talk about it more .....

Ji Feng immediately asked exactly which office Hunter’s girlfriend was in, and what was going on in the office.

Subsequently, Ji Feng told Li Guoliang to watch Lu Guowei while he himself went upstairs to catch Hunter’s girlfriend.

However, unexpectedly, when Ji Feng arrived at the door of the office that Lu Guowei had mentioned, he activated the bio-current and saw the scene inside through the door of the office.

In that office, there was actually only a young foreign man sitting on the sofa, gnawing on a chicken leg. Beyond that, there was no one else.

Hunter’s girlfriend wasn’t there?

Ji Feng’s mind turned rapidly, it seemed that she had left, at least Lu Guowei would definitely not lie.

Once he thought this, Ji Feng planned to leave, however, at this moment, a crisp bell suddenly rang:  
“Ding .....”

It was the sound of the lift, someone was coming up to the seventh floor!

Ji Feng instantly became nowhere to hide, once this lift door opened, the person inside would be able to see himself when he came out, the office doors in this corridor were all offices, there was no other place to hide.

“Ta da .....” footsteps sounded.

Ji Feng turned his head sharply, he even saw a leg already stepping out from that lift door.

It was too late!

Ji Feng gritted his teeth and directly pushed open the door of this office room in front of him, walked in, and casually brought the door with him.

“Hey!”

The young foreigner in the office saw Ji Feng, he immediately put down his crossed legs, surprised and puzzled, stood up and looked at Ji Feng, his mouth rattled out a string of English, but Ji Feng understood it.

This person was asking, “Who are you and why did you barge in without knocking?”

Naturally, Ji Feng did not answer him, he just waved his hand and turned around to point behind himself.

The foreign young man was immediately surprised and looked towards the back of Ji Feng, but did not find any unusual condition, and the young man immediately smiled.

Swish!

At the same time, this person had an extra pistol in his hand and pointed it at Ji Feng.

“Damn it, who the hell are you?! Eccentric fellow!” This foreign young man asked in a deep voice.

“Pop!”

The next moment, this young man just felt a blackness before his eyes, he felt a pain in his head, and then he lost consciousness. Before he fell unconscious, he only had one thought, this guy who was dressed so oddly, how come he was so quick .....

The company’s main business is to provide a wide range of products and services to the market.

There was nothing he could do but wrap the young man in his windbreaker, then opened the door and looked around to make sure the corridor was empty, before he took the young man and quickly left the office building and came to the dark shadows at the back again.

“Guoliang, ask this guy where Hunter’s girlfriend has gone!” Ji Feng said in a deep voice.

Making a trip for nothing and returning without success didn’t make Ji Feng’s mood too good.

Although when he came Ji Feng just had the attitude of checking it out first and didn't want to get any results at once, when he heard that the king and the young duke had actually come too, his mood became more or less anxious.

Li Guoliang immediately asked as he was told, but the next moment, he froze for a moment.

Ji Feng noticed Li Guoliang's difference, and he immediately asked, "Guoliang, what's wrong, what did this guy say?"

"He said ....."

Li Guoliang paused for a moment before saying, "He said he is Hunter's girlfriend! Hunter is his husband!"

"Huh?"

Ji Feng was stunned, "You didn't hear that wrong, did you?"

This guy was also injected with neurotoxin and his speech was all a bit slurred, so Li Guoliang might have misheard him or not.

Li Guoliang, however, shook his head and said, "I'm sure I didn't hear him wrong. He said very clearly that he is Hunter's girlfriend!"

Ji Feng: "..... Shit!"

This young foreigner was actually the one he was looking for, Hunter's girlfriend?

How could he have not expected that this was actually the answer he got?

Thanks to himself, he was still very strange before, why this guy was in Hunter's girlfriend's office and was eating so casually, when he thought that Hunter's girlfriend had already left, but he did not expect that this guy was actually Hunter's girlfriend!

I don't know how to say this, but I don't know how to express the strange feeling in my heart, but in the end it all turned into one word – Shit!

It was said that the culture in Rice was open, and Ji Feng only had a general impression of this before, but now he realized that his understanding of Rice was only a little bit skin deep!

Ji Feng swept a glance at this guy, he found that this person was not too tall, his skin was very white, and he was considered to be eye-catching among men.

But according to the information Li Guoliang investigated, that Hunter was already middle-aged, these two men were actually boyfriend and girlfriend?

If the two of them rolled into the same bed .....

Blah blah blah .....

Ji Feng hurriedly shook his head and said, "Guoliang, you ask him where Hunter is now and how to get in touch with Hunter ....."

Compared to this strong shock that Ji Feng received, Li Guoliang was not surprised, he had been in Rice for several years and had really seen a lot of such things.

So Li Guoliang in turn is more calm than Ji Feng, he followed Ji Feng's meaning and began to ask this guy ..... Hunter's girlfriend!

And at this time, Ji Feng, but do not even want to look at this guy again, he just stared at Lu Guowei, frowning and contemplating, think about what else he did not ask.

Chapter 1793

New York.

At this time, New York City was already completely shrouded in darkness, but the cars on the road were still not half reduced, and the three of them were stuck in the road, and could only move forward slowly with the traffic in front of them.

Ji Feng sat in the back seat of the car and closed his eyes to rest. The white spider was sitting next to him, playing with a dagger a few inches long in her hand, the sharp blade occasionally mapping the light outside and emitting a burst of cold light.

Li Guoliang, on the other hand, was concentrating on driving, honking his horn from time to time, hoping to urge the vehicle in front of him to drive away despite the situation.

Ji Feng opened his eyes and asked, "Guoliang, how much further do we have to go?"

Li Guoliang said, "If we drive normally, it will take about an hour, but looking at the situation ..... I'm afraid it will take a little longer, but it won't take too long."

Ji Feng shook his head slightly and said, "We can't wait so foolishly, we have to get there as soon as possible."

Li Guoliang said, "Mr. Ji, don't be anxious yet, this is one of the busier traffic intersections and traffic jams are a regular occurrence, but looking at today's situation, we should be able to pass this intersection within twenty minutes."

"Oh?"

Ji Feng raised his eyebrows and asked, "Why are you so sure?"

Li Guoliang pointed at the cars in front of him and said, "Look, the cars in front of here are blocking the road, but they keep moving, which means that the congestion in front must only be caused by too much traffic, and it's not an accident, in that case, we'll take our time and just have to endure through that intersection in front of us."

He nodded and smiled, Li Guoliang was really observant, he could tell the traffic condition from the speed of the car.

But whichever it was, it would show how old Li Guoliang was.

"Are there any more of these congested intersections ahead?" Ji Feng asked again after thinking about it.

Li Guoliang smiled and replied, "There are still a few more, in a city as big as New York, it's impossible to have roads that aren't congested, but it's much easier to walk to the front where there's an underground passage, and we'll go straight through from there."

"That's good!" Ji Feng nodded his head.

Tonight was really too important, and it was impossible for Ji Feng to pay half-hearted attention to it.

Originally, Ji Feng only planned to probe the company that was related to Dynasty first to see what was going on inside, and if he was lucky, he might be able to catch a few important people, and what to do next would depend on what he could find out.

But to Ji Feng's surprise, he met Lu Guowei, who had accosted the white spider at the airport, and then Lu Guowei gave him a very important message – the company's president, Hunter, was also a member of Dynasty, and it seemed that he was also the head of Dynasty in New York.

What's more, according to Lu's explanation, the head of Dynasty in New York, Mr. Hunter, is actually entertaining another important person today – the King!

It was said that accompanying the king was his son, the young duke!

The king and the young grandson were actually in New York, and moreover, in such a sudden manner, Ji Feng was made aware of the news.

This was really unexpected news, which made Ji Feng feel surprised and surprised at the same time.

They must be caught!

This was the first thought in Ji Feng's mind after he knew this news.

No matter what, the king and the young duke must be caught, this time how can we not let the young duke escape again, and that king, is even more important than the young duke, no matter what Ji Feng can not let them go.

These two, Ji Feng could really say that he had admired them for a long time.

But Lu Guowei didn't know exactly where Hunter and the prince's father and son were now, which made Ji Feng frown greatly. But fortunately, Hunter's girlfriend was the one who knew.

Although that girlfriend of Hunter's really surprised and left Ji Feng speechless, but seeing as this person had told where Hunter was, the kind of dirty stuff he had with Hunter, Ji Feng automatically ignored it.

What was most important to Ji Feng was where Hunter was at the moment.

Obviously, as long as he found Hunter, he should be able to find the king and the young duke, and that was what Ji Feng was most concerned about. As for the nasty stuff between Hunter, the middle-aged man, and this young man with fine skin and beautiful eyebrows, Ji Feng wouldn't bother with it.

The first thing you need to do is to get to know where Hunter is, but Ji Feng still doesn't dare to be careless. Because no one knew if Hunter would stay there all the time.

Especially when it was the father and son duo of the king who were with Hunter, Ji Feng's heart was even more uncertain.

Because Ji Feng knew very well that the king and the young duke were really too vigilant, especially the king, from the beginning to the end, Ji Feng had never dealt with this person, no matter what methods he used, he had never even found out half a trace of the king's spider.

He was not the only one, even if Xiang Yongzhan had used the military's power directly, he had not been able to find out what kind of person the king was.

This shows how cunning this person is.

Therefore, although Ji Feng had found out where Hunter was, he did not dare to be careless in the slightest.

But what Ji Feng didn't expect was that after he had taken care of Lu Guowei and that 'girlfriend' of Hunter's, he rushed to where Hunter was, only to run into a traffic jam!

Ji Feng looked ahead through the windscreen, he could vaguely see the traffic lights already, according to what Li Guoliang said, once he reached the intersection, he would be able to enter the underground passage, and it seemed that he should be close.

Don't have any accidents!

Ji Feng shook his head slightly, he knew that he was in a bit of a hurry, which was not good.

There is a very famous law to the effect that the more you worry about something, the more something will happen, which is actually not evil, but a mindset problem.

So Ji Feng simply did not say a word, simply closed his eyes directly and waited quietly.

"Tick tock ....."

The sound of the horn outside continued as the car slowly moved forward.

After about ten minutes of time, Li Guoliang suddenly said, "It's finally coming!"

Ji Feng snapped open his eyes and instantly realized that the car had entered an underground passage and that a sharp and low motor roar came as the car began to accelerate.

"Guoliang, be quick!" Ji Feng said in a concise manner.

"Understood!"

Li Guoliang nodded and immediately began to accelerate sharply. In fact, there was a certain amount of danger in accelerating sharply in the middle of such an underground passage, but Li Guoliang also knew that the matter was rather urgent, so he couldn't care less about that now.

Moreover, he believed that with his driving skills, even if he encountered any unexpected situations, he would be able to cope with them.

The car rushed out with a low motor sound, drove sharply through the underground passage for ten minutes, then drove onto a road with relatively good traffic conditions, and then sped all the way.

Only when Li Guoliang drove the car out of the city did he sort of let out a sigh of relief and said, "Mr. Ji, we'll be there in half an hour at most!"

Ji Feng looked at the surroundings and nodded slightly.

The car was heading in the direction of the suburbs, where Hunter was located. Ji Feng was secretly calculating that if he was going to do it in the suburbs, he must be fast and move lightly, if once he alerted the king and his men, it would not be that easy to catch them in the suburbs.

Ji Feng pondered how to act when the time came.

.....

And at this time, inside a villa in the suburbs of New York, several eccentric people were talking in the living room.

The reason I say odd people is really because of the way these people are dressed. Sitting on a single sofa is a foreigner with somewhat white hair, with a very typical western specialties, high nose, blue eyes and grey hair.

Of course, there is no shortage of very luxuriant body hair ..... The backs of his hands are so hairy that at first glance it looks like an unevolved gorilla.

Opposite him, however, were two masked men, one of whom was also sitting in a wheelchair.

These two were naturally the king and his son, the young duke.

And the one sitting on the single sofa, needless to say, was naturally the boss of the company that Ji Feng was looking for before, Hunter.

Compared to the eccentric behavior of the father and son of the king who were still wearing masks at night, Hunter was looking even more eccentric ..... especially when he was talking.

The first time they talked about something, Hunter grinned and a mouthful of metallic teeth was revealed, but not the silver or gold teeth that people usually have, nor porcelain or anything like that, but they looked as if they were pieces of raw iron, and the colour was almost black iron!

Such a mouthful of teeth was really too odd.

"Your Majesty, with all due respect, your request puts me in a difficult position."

Hunter bit his cigar with his iron-like teeth and said, "You know, although I am responsible for all the activities of the organisation in New York, the MiG may not be unaware of our activities, if we use force to deal with the boss of the Vida Group as you said, it will cause a lot of ripples and the MiG will definitely find me in trouble!"

The king's expression hidden behind his mask was somewhat displeased as he said in a deep voice, "Hunter, are you perfunctory?"

Hunter suddenly said in an exaggerated manner, "How is that possible! Your Majesty, you and my superior are friends, how dare I perfume you, please believe me, what I said is true!"

“Humph!”

The king snorted coldly and said in a deep voice: “Not perfunctory? But as far as I know, you had already started to lay hands on the Weida Group a long time ago, and even sent assassins to assassinate Ji Nan Yue, the boss of the Weida Group, how come you weren’t afraid that the MiG would find you in trouble when you were doing these things?”

Chapter 1794

Hunter was stunned, “His Excellency the King, how did you know that?”

The King’s words made Hunter wonder, those things he had done were extremely confidential, the King was not in charge of the scope of Rice, so how did he know what he had done?

“How did I know?” An odd laugh escaped from the King’s mouth, which sounded as if he was mocking and smug.

“Hunter, I see you seem to have forgotten what I am! You are only in charge of the organisation’s affairs in New York, while I, for one, am in charge of the whole of China, and only your boss is on my level, so how do I know what you have done, do I need to tell you?”

The king said in a deep voice, “Hunter, don’t tell me that you are trying to pry into my secrets, do I need to repeat the rules of the organisation to you? ”

Hunter was startled and panicked, saying, “Your Excellency the King, you misunderstood me, I was just surprised, I didn’t mean to pry ..... Well, I admit that I am indeed dealing with the Vida Group, but things are not like what you think, Your Excellency the King, I am dealing with the Vida Group only because the organization’s interests are threatened by the Vida Group, not because I want to move the Vida Group’s boss.”

The King grunted, “Does it make a difference? You sent someone to assassinate Ji Nan Yue in the same way, didn’t you?”

“Of course there’s a difference!” Hunter hurried to explain.

“Your Majesty, I think I need to explain carefully, the Weta Group is growing too fast and operating in some areas that have cost the organization’s interests, and because that woman is too powerful, I had to use other methods to deal with her.”

Hunter said, “But, I didn’t intend to take that woman’s life! I just hoped to use this method to disrupt her and make the Vida Group shrink because of the confusion ..... Because there are also different voices within the Vida Group, this method has a high chance of success, and in fact, it is already seeing results now ..... ”

“That is to say, you are just scaring Ji Nan Yue, you think that this way, as long as you don’t kill Ji Nan Yue, the MiG will not come after you, is that right?” The king interrupted Hunter’s explanation and asked indifferently.

Although Hunter was displeased by the interruption, he did not dare to show anything, who made the eccentric man in front of him, wearing a mask, much higher in rank than him?

Therefore, Hunter could only shrug his shoulders and also say with a slight respect, "Yes, Your Excellency."

The king snorted coldly, "What makes you think that the MiG won't come after you? As far as I know, the Vida Group is likewise a very influential enterprise, so if you use this method against Ji Nan Yue, will the MiG sit back and do nothing?"

Hunter said, "Your Excellency is right, the MiG will naturally look into it, however, as long as that woman is not really killed, the MiG will not take it seriously, you know, they have never been very friendly to the Chinese, moreover, there is my boss who is helping me out with my troubles ....."

"In that case, then even if Ji Nan Yue is killed, it will likewise not have the slightest effect on you!" The king interrupted him.

"Your Excellency, how can this be the same!"

Hunter almost didn't jump up as he said excitedly, "It's completely different, if that woman dies, it would be murder, and by then it would involve the interests of all parties, and the Chinese side would definitely not sit idly by! If that's the case, even my boss won't be able to protect me!"

Seeing that the king was silent, Hunter hurriedly said, "Your Majesty, my mission, is to earn more money for the organization, everything else, has little to do with me, and my ability is limited, I can't do much, I'm really sorry that I can't help you ....."

"You really can't help me?" The king asked in a deep voice.

Hunter's heart jumped wildly a few times, but on the surface, he said calmly, "Yes, Your Excellency, I am very sorry, but I think if you go to my boss, he should be able to help you ..... You know, my boss is also at the same level as you, he is responsible for, but the whole country of rice! "

The king sat across from Hunter, not saying a word, but the eyes that were exposed were staring at Hunter with an unkind gaze.

Hunter could not help but feel a little apprehensive in his heart, he swallowed his saliva and could not help but explain again, "Your Majesty, you are aware that New York is very unsettled right now, there are many gang leaders and important people who have been secretly killed, the whole New York is like becoming a powder keg, at this time, as long as a spark falls in, it will immediately explode ....."

"If we kill that woman now, when the time comes, someone will definitely count all those gangsters' deaths on our heads, if that's the case, we'll be in big trouble, the entire New York ..... no, the entire mob of Rice will fight with us!"

Hunter said, "Right, and the Yakuza, and a few other foreign gangs ..... Gosh, I'm afraid if someone puts this on us, we'll have our headquarters in Rice uprooted!"

"In that case ..... you are ironically not going to take action?" The king asked in a deep voice.

Hunter had a difficult look on his face, "I'm sorry, Your Excellency!"

"Hmph!"

The king hadn't said anything yet, but the young duke next to him could not hold back a bit, he slapped his hand on the armrest of his wheelchair: "Hunter, you have a lot of nerve! My father asked you to do something, and you dare to push back like this, what do you mean?"

Hunter said innocently, "Your Excellency the young lord, I'm sorry ....."

"Sorry sorry, hug your mother's head!" The young male instantly cursed angrily, and this time, he did so in Mandarin.

So Hunter just shrugged, "Sorry, I don't understand!"

"You ....."

The young male was furious, and he was just about to get angry when the king stopped him.

"Hunter, you are very good, well, quite good!" The king said indifferently, "At first a vagrant, now you actually dare to talk to me like that ..... Good!"

After saying that, the king stood up, snorted coldly, pushed the little worker's wheelchair and walked out. The king's men followed suit and walked out after him.

"I'm sorry!" Hunter, however, just shrugged his shoulders.

Once the King and his men had left the villa, Hunter gave a smug grin.

"Ta-da-da ....." A footstep came, only to see a good-looking young man walking down the stairs, in the cold weather, but this man was only wearing a pair of beach trousers, a small vest on top and a pendant in his neck.

He came over to Hunter and asked, "..... husband, did you have a confrontation with them?"

"Humph!"

Hunter snorted coldly, put his body arm around the young man's waist and slapped him on the buttocks, "Just a few yellow-skinned monkeys, they have almost lost the organization's interests in China, and now they dare to come and order me around, how ridiculous!"

The young man, however, obediently leaned on him and said gently, "Well, don't think about that ....."

.....

"This son of a bitch, looking at his official manner of fighting, I really want to shoot him!" Walking out of the villa, the young male couldn't help but grunt coldly at once.

The king, however, was silent, just pushing his son into the caravan, while the other men got into the car behind.

"Father, say something, we're just going to make a trip for nothing?" The young duke said urgently.

"Hunter is now out of his depth .....,," the king said indifferently, "Son, it seems that this time, it is necessary for us to take action ourselves."

The young duke was stunned, "Do it yourself? Father, what does that mean?"

The prince said, "Hunter is only a small person, if no one had authorized him, he would never dare to talk to me like this."

The young duke could not help but ask, "Father, do you mean to say that the guy in charge of Rice authorized Hunter to put a face on us? Why would he do that?"

"Because the organisation's affairs in China were ruined at my hands, and someone wanted to put their hands into China ..... China is such a big piece of meat that anyone would want to stick their hand in it." The king said in a cold voice.

The young duke immediately understood: "Is it the guy in charge of the rice country?"

"Apart from him, who else could it be?"

The king said in a cold voice: "Son, we must speed up our actions, take revenge and look for that item, after doing these two things, we must immediately return to China ..... Apart from me, no one can play in China, not even the boundary tent people, let alone the rice people, in the organization, there is no one in status can be more suitable than me to take charge of Huaxia!"

"Mmm!"

The young male nodded heavily, he sneered in his heart, still wanting to replace his father to take charge of China?

If they knew his true identity, I'm afraid they would immediately dismiss the idea, with his identity, he would be the most suitable person to be in charge of China!

"Father, then what should we do next?" The young duke asked again.

"First go and take revenge!" The king sneered, "Isn't Hunter afraid that all those gangs will turn the tables on them? Well then, we'll do away with Ji Nan Yue, while leaving some traces ..... I'll see if they still dare to talk to me like that when the time comes!"

"Good!"

The young duke nodded excitedly at once, that was Ji Feng's little aunt, do her up, hey, I really want to see what Ji Feng's expression will be when he finds out this news!

With an order from the king, the caravan started up, accompanied by the little duke's cold laughter that was filled with anger, and drove off into the pitch black night.

.....

"Buzz~~!"

The car sped past.

"Mr. Ji, there's about ten minutes left before we arrive!" Li Guoliang said.

"Guoliang, find a place to stop the car near the target, you stay and meet it, I'll go over with White Spider!" Ji Feng immediately said, "White Spider, get ready."

White Spider immediately said, "It's ready."

Ji Feng nodded and was just about to say something when a bright light suddenly shone in front of him, the blinding light made Ji Feng's eyes squint slightly.

Immediately afterwards, he saw three cars coming rapidly from a distance and soon crossed paths with them.

At the very moment when the two sides staggered, Ji Feng turned his head and looked at the other car.

In a flash, Ji Feng had a sharp flash of light in his eyes.

“A mask?!”

Chapter 1795

A mask?

A sharp light flashed abruptly in Ji Feng's eyes.

Because he was shaken by the blinding lights of those three cars, Ji Feng's attention was drawn away, however, at the moment when he crossed paths with those three cars, Ji Feng subconsciously glanced back.

However, it was this unintentional glance that caused Ji Feng to be struck by a sudden shock.

However, because the headlights of the other three cars were too blinding and bright, the scene in the first caravan was relatively clear when illuminated by the headlights behind it.

Anyone who has had this experience will surely understand that in a dark place, even a tiny bit of light can seem blinding and that brightness all seems very strong.

This was now the case, and despite the height of that first caravan, the light from behind shone through.

And because the light appeared in the carriage of the caravan, it made Ji Feng see the scene in the other carriage the moment the cars crossed paths!

— In the middle of the carriage, there were two masked men sitting!

One of them, who was facing Ji Feng's side, was wearing, or a very odd mask on his face, but on the contrary, Ji Feng felt very familiar with it.

“Swish!”

Both sides were fast, and the two cars crossed paths, and in the blink of an eye, they had rushed out a long way.

Li Guoliang was also dazzled by the other side's blinding lights, and he couldn't help but grunt and say, “These cars have been modified too!”

Ji Feng nodded slightly, but in his mind he was thinking quickly, what was the matter with the two masks he saw in the other party's car just now?

Could it be that he was blind?

Li Guoliang also said that the other party's car lights had been modified and were very blinding, and it was pitch black all around, so it wasn't impossible for the eyes to suddenly be hit by such a strong light and fall into a trance.

Although Ji Feng's eyesight is superb, but without activating the bio-current, his eyesight is just a little better than normal people, but it is not impossible to have a hallucination .....

What's more, both sides' cars are very fast, the cars crossed, that speed is naturally needless to say, so Ji Feng just now also just a momentary glance, then both sides will cross and pass, the time is really too short.

So Ji Feng is not sure that what he saw just now, is not the real scene.

"The mask ..... mask ....."

Ji Feng repeated a few times in a soft voice, his brows furrowed.

The two masks that he saw in the other party's car just now, one of them made him feel really familiar, and he could be sure that he must have seen it somewhere before.

Suddenly, Ji Feng's eyes lit up abruptly, and a name suddenly flashed through his mind – Little Prince!

"That's right!"

Ji Feng sat up straight with a jerk and shouted lowly, "It's Little Prince! That's right!"

He suddenly remembered that the two masks he had seen in that glimpse just now, one of them was the one worn by Little Prince!

When he was in Southern Guangdong before, the Little Prince had slipped away right under Ji Feng's nose, and Ji Feng's impression really couldn't have been more profound. At that time, he even intended to use his perspective eye to see the Little Prince's true face, but because the distance between him and the Little Prince was a bit far, the perspective eye couldn't reach that far, so he didn't see the Little Prince's true face.

But it was precisely because of this that Ji Feng had a very deep memory of that mask of the little prince.

So, even though it was only a brief glimpse just now, Ji Feng could be sure that one of the masks he saw was Little Duke's!

"Junior Ji, what's wrong?" The white spider could not help but ask when he saw Ji Feng's complexion changing constantly.

"I might have seen Little Duke!" Ji Feng said in a deep voice.

"Little Gongzi?"

White Spider snapped, "..... Where is it?"

Ji Feng pointed towards the back, "It's in those cars just now, and the one sitting in the first caravan is most likely the little gongzi!"

"Huh?"

White Spider turned around sharply and said in surprise, "That car just now? Young Master Ji, you didn't see it wrong, did you?"

White Spider didn't quite believe it, not that she didn't believe Ji Feng, but she didn't believe that Ji Feng was able to see clearly who was sitting in the other party's car in such a short period of time!

The two cars crossed each other, and the speed was as fast as lightning, leaving Ji Feng less than half a second to watch, and it passed in a swish.

"Mr. Ji, were you so tense that the other party's bright light shone violently over just now, causing you to hallucinate because your nerves were too tight?" Li Guoliang also asked, "This kind of situation often occurs, when the other party's strong light shines, the eyes will see a white blur, this time it is likely to appear all kinds of illusory scenes ....."

"I also hope that I am mistaken!" Ji Feng shook his head, "Guoliang, stop the car!"

"Mr. Ji ....."

"Stop the car!" Ji Feng immediately shouted lowly.

Li Guoliang slammed on the brakes, and the tyres instantly produced an incomparably violent friction with the ground, emitting an extremely harsh sound: "Squeak-"

The car braked!

Ji Feng sat on his seat, his brows furrowed, not saying a word.

"Ji Shao ....." said the white spider hesitantly, "Are you trying to turn around and catch up? Can you be sure that the one sitting in that car just now is the young gongzi?"

Ji Feng shook his head, "I can't be sure, if I really saw it. But I can be sure that the person I saw must be Little Duke! At least, that mask is his!"

Although the words were said in an odd way, the white spider still immediately understood them.

Ji Feng was saying that he couldn't be sure if the scene he had just seen was due to an illusion, but if it wasn't an illusion, then the person he saw must be Little Duke!

"Then should we give chase?" White Spider asked, "What about Hunter's place?"

"Mr. Ji, if we delay too long, I'm afraid there will be a problem at Hunter's place too." Li Guoliang reminded.

Ji Feng sulked.

He could hear that both White Spider and Li Guoliang actually thought that they should go to Hunter first.

There was actually nothing wrong with this idea, it was a prudent approach.

You should know that since Hunter was entertaining the King and the young duke, I would, if they found Hunter, they would naturally also find the King and the young duke.

Even if when they arrived, the king and the young duke had already left, there would not be much of a problem. If they found Hunter, there would be a way to find out from him where the king and the young duke had gone!

This method is indeed very secure, but .....

The first thing you need to do is to find out where you are and where you are going.

Although Ji Feng has never fought head to head with the king, but as long as the dynasty operates in China, that means, the wisdom hidden in those arrangements, are enough to show that the king is definitely a supremely intelligent person.

In particular, the king had been operating in China for an unknown number of years, and as a result, the military was unable to deal with him, so it was clear how cunning the king was.

But Ji Feng did not believe that such a person would tell others all his old secrets so easily!

Therefore, if that car just now was really the King and Little Prince, once Ji Feng missed this time, then the next time he wanted to see the King and them, he didn't know when it would be.

Even if Hunter was caught, it would still be useless!

However, if, as Li Guoliang said, the sight he saw just now was just his illusion, that would be a different story.

The first thing you need to do is to believe that what you just saw was not an illusion and turn around to catch up with the cars, or take the safest option and use the fastest speed to get to Hunter?

"Ji Shao ....."

"Guoliang, turn around immediately and chase those three cars just now!" Ji Feng said with a clench of his teeth.

The white spider was instantly shocked: "Ji Shao, think twice ....."

Ji Feng said categorically in a deep voice: "No need to say more, just do it, Guoliang, turn around and chase them immediately!"

"Yes!"

Li Guoliang immediately nodded his head, then quickly turned around, accelerated, accelerated .....

After giving the order, Ji Feng did not say another word, only leaning back with a calm face, quietly looking ahead at the end of the road where even the tail lights could no longer be seen.

"Ji young ....." White Spider wanted to say something but stopped.

Ji Feng waved his hand and said, "I know what you're going to say, it's okay, even if I'm wrong and today's operation fails, that's still God's will."

When people are faced with a dilemma, they always have to make a choice, regardless of whether the choice is right or wrong. If you choose, it may be right or it may be wrong, but if you don't choose, then it must be wrong.

And Ji Feng chose to chase those cars, but he also had his own considerations, because he had full confidence in his own ability!

Ji Feng believed that even if his eyes were suddenly hit by the glare of the headlights just now and he might have hallucinated, he did not have the slightest doubt about his own eyesight.

The scenes that he saw just now were too real.

Although that car had passed in an instant, the kind of scene Ji Feng saw could not have been more real.

So he was convinced that he had indeed seen the scene in that car, seen Little Duke, or at least, seen Little Duke's mask.

Even if he was wrong in his judgement this time, Ji Feng would not have the slightest regret.

Buzz~~!

Li Guoliang kept increasing the throttle, and the modified car let out a low growl as it caught up as fast as it could.

"Mr. Ji, we still have time!" Li Guoliang said as he accelerated.

Ji Feng nodded slightly, he had noticed when they had come earlier that this road directly connected the suburbs and the city, with few turn-offs in between, and the nearest one was at least a twenty-minute drive away.

At the current speed, twenty minutes was more than enough time to catch up with those cars.

Chapter 1796

"Buzz~~!"

The low roar of the engine seemed so clear in the silent darkness that, from afar, one could hear the sound as if a beast was roaring. Immediately afterwards, two blindingly bright lights shone from afar, stabbing diagonally into the sky and shining out two pillars of light.

Li Guoliang's face sank like water as he drove with full concentration.

He never wasted any speed, always shifting gears at just the right moment, causing the car to fly forward like a wild beast.

At this time, there was no sound at all in the car, and Ji Feng was sitting calmly in the back seat of the car, just quietly looking ahead. The white spider, too, did not say a word, but her fists were clenched, looking a little nervous.

It was impossible for White Spider not to be nervous, because just ahead of them, several red dots could already be faintly seen, as well as some lights, and it was obvious that those should be the cars that had crossed paths with them just now.

And that meant that if Ji Feng hadn't misjudged, then the ones sitting in the car in front should be the king and the little duke. At least, the little prince was inside, and as to whether the king was likewise inside, Ji Feng did not explicitly say so.

In fact, it was not that Ji Feng was unwilling to explicitly say, but he was not sure if the king was also sitting in that caravan.

Although the moment when the two cars crossed paths, Ji Feng saw two people wearing masks from the other car, but of those two masks, he was only familiar with one of them, and he could recognise that mask as the young duke's.

But for the other mask, Ji Feng had never seen it before, so he was not sure if the face underneath that mask was that of the king or not.

In fact, even if he caught up with the other party, even if Ji Feng directly uncovered that mask, he would still not know whether the other party was the king or not. The reason for this was that he had never dealt with the king directly, and he didn't know what the king looked like.

Ji Feng was even thinking that if the king were to show his true face one day, he would not be able to recognise him even if he was standing in front of him at that time.

There was no need to mention that he was only seeing a mask now.

But even so, Ji Feng chose to chase after the three cars instead of going straight for Hunter's trouble.

Because in that caravan, there was Little Duke.

Even if he only caught the Little Duke alone, this operation could definitely be called a great harvest, a huge harvest. Because as long as the little duke was found, it would be much simpler to follow the trail to the king.

So, now, no matter what, they had to catch up with the few cars.

As for the question of whether it was possible to make a mistake in judgment ....., it had been left behind with the moment Ji Feng made up his mind to catch up with these cars.

The possibility of a lapse in judgment certainly existed, but since the decision had already been made, to look ahead and back again would only be self-inflicted chaos, an act of foolishness that a wise man would not do!

"Buzz~~!"

Li Guoliang continued to accelerate, his movements were unbelievably fast, his brow was furrowed tightly, his spirit was highly concentrated.

"Quickly look, those cars seem to have turned a corner!" White Spider suddenly said.

"That's better!" Li Guoliang said.

Ji Feng also nodded slightly, that fork in the road in front of him was a branch road in the suburbs that connected to several main roads.

Those cars in front turned around, that meant their destination was not the city, and this way, it was more convenient for Ji Feng and the others to continue their pursuit.

As long as they were in the wild, they would be able to let go completely and move without so much caution or concern.

“Buzz~~!” Li Guoliang pushed the accelerator to the bottom and had already pushed his speed to the limit, his forehead was even oozing with sweat, but looking at the distance between the two sides, the closing was very slow.

“Mr. Ji, the other side’s car is also modified and they are fast as well, it will take some time to catch up with them.” Li Guoliang said in a deep voice.

White Spider immediately asked, “Could it be that the other party found out that we were chasing them, so they deliberately sped up their car?”

Li Guoliang said, “Maybe so, I feel that the other party’s car speed has indeed increased quite a bit ..... However, we are still so far away, they may not be able to find out that we are tracking them, right? It’s just that their cars have been modified and they can easily increase their speed, in this regard, our car’s advantage is not too obvious .....”

“Guoliang, let me drive instead.” Ji Feng suddenly said.

“Hmm?”

Li Guoliang was stunned, “Mr. Ji, if we stop now, I’m afraid the other side will run far away .....”

Ji Feng waved his hand and said, “There’s no need to stop!”

As he spoke, he propped his hands on the backrest of the passenger’s seat, his body shrank, and surprisingly, he was in the passenger’s seat at once.

Afterwards, Ji Feng said, “Guoliang, you put the seat backrest down, later I will grab the steering wheel, you slide straight to the back, I will make up for it in time, can you do that?”

Li Guoliang thought about it slightly, seemingly mulling over the possibility of such a plan in his head, and then, he nodded his head.

Ji Feng then nodded slightly, “Let’s begin!”

Li Guoliang immediately followed Ji Feng’s request and put the backrest down, then, Ji Feng grabbed the steering wheel and stretched out three fingers with his other hand.

“Three, two, one! Move!” Ji Feng shouted lowly.

“Whew~~!”

Li Guoliang steeply flipped backwards and arrived at the back seat of the car in a flash, his gaze then fell on the driver’s seat, only to find that Ji Feng was already sitting there steadily and had started to manoeuvre the car.

Li Guoliang was once again shocked and could not help but secretly praise, “Good stance!”

Not only was he well-handled, but he was also bold!

On such a fast moving car, he actually dared to play this hand and play it so smoothly, apart from Ji Feng, Li Guoliang had never really seen a second person who could do it, or even dared to do it like this!

But Ji Feng had done it.

This made Li Guoliang have a more sober understanding of Ji Feng's skills.

However, if Li Guoliang was still only slightly shocked now, then what Ji Feng did next made him unable to help but grow his mouth, and even his face turned a little pale.

Up ahead was a bend, not the kind of sharp turn, the angle of the bend was large.

Generally speaking, when encountering this kind of road, one has to reduce the speed slightly, striving to let the vehicle travel sharply while still being able to pass smoothly without danger.

However, Ji Feng did not follow common sense at all.

His hands were not even touching the gear knob, instead his hands were just gripping the steering wheel tightly and the throttle was not reduced at all, straight ahead.

Li Guoliang almost shouted out to remind Ji Feng that there were guardrails on both sides of the road, so if the car hit the guardrail at such a high speed, it would be a big deal!

However, before he could shout out, he suddenly felt his body shake violently, and then his whole body hit the door of the car, he braced himself violently, and just as he sat down, he saw that the car had actually gone over the bend!

"How did you do that?" Li Guoliang asked in subconscious shock.

"How did you do it?"

Ji Feng looked at Li Guoliang through the rear view mirror and said, "It's very simple, the car has centrifugal force when turning, at this time, you only need to adjust the direction of the car quickly through the steering wheel, so that the car remains smooth, doesn't it?"

"Just like that?" Li Guoliang was stunned.

"What else can you do?" Ji Feng asked rhetorically.

Li Guoliang could not help but be stunned. Of course he understood what Ji Feng meant, the car had centrifugal force when turning sharply, if the turning speed was too fast and too sharp, it could lead to a rollover, or other accidents.

In contrast, Ji Feng is adjusting the direction of the car within a very small range to counteract the centrifugal force, so that even when crossing the bend, you can pass directly at full speed without having to slow down.

..... This seems to work when you say it, but, when you actually do it, who can do it?

The more he looked at the calm Ji Feng, the more he realized that this person could not be treated as a normal person, otherwise, even the best people would be struck out of shape .....

The car itself has been modified, under the strong technical play of Ji Feng, the speed is frighteningly fast, than the operation of Li Guoliang, Ji Feng's movements are more frequent and faster, but in contrast, is faster car speed.

In just a few minutes' time, the three cars in front of him were already clearly visible, and looked like they were about to catch up.

The faces of both White Spider and Li Guoliang could not help but show a hint of joy, but at the same time they were also more alert, once they caught up, it was time to engage in a fight.

"They are finding us!" Ji Feng suddenly said.

Li Guoliang and White Spider were abruptly startled, both of them looked at the same time, they saw that the speed of that last car in front of them suddenly slowed down, both sides were rapidly approaching ..... that car was going to stay and block them!

"Ka ka ka~~!"

Without saying a word, the white spider immediately drew his gun, loaded the bullets and prepared to meet the attack.

The two sides were approaching quickly, and the car in front of them was undoubtedly slowing down just to block them, so they weren't afraid of impact at all, and looking at the car swaying slightly from side to side, it seemed to be seeking an opportunity to collide with the pursuing car.

Ji Feng, however, did not slow down his car, if the other side could stop him by just leaving a car, then he would not have to chase the king.

Just then, Ji Feng suddenly saw that two people peeked out of the window of the car in front of him, both holding rifles in their hands, and were aiming backwards, apparently about to shoot.

Ji Feng immediately said in a deep voice: "White Spider, hit the tyres of that car in front!"

"Bang Bang!" White Spider cooperated extremely well, and as soon as Ji Feng's words fell, she had already pulled the trigger.

Squeak...!

A sharp scraping sound rang out as the White Spider accurately hit the tyre of the car in front, only to see the car swinging violently, its body leaning severely, but it managed to stabilize itself.

Buzz~~!

Ji Feng was not going to give the other party a chance, he accelerated violently and rammed straight into it .....

Chapter 1797

"BOOM~!"

In the silent darkness of the night, an incomparably loud crash shook people's scalps. It seemed to be like a speeding train that suddenly ran headlong into a stray animal crossing the railway ..... The ending naturally went without saying.

The scene in front of you is just like that!

The two of them had a good understanding of each other, but when they saw the scene in front of them, their eyes widened instantly and they were filled with disbelief.

If it wasn't for their superior composure, I'm afraid they would have already shouted out in shock by now, and would have subconsciously shouted – "How is this possible?!"

Indeed, the scene in front of them was simply too amazing!

Just the moment the car in front of him blew a tyre, the body swung abruptly and violently, tilting up and almost sideways on the road.

Although the other one looked as if he was trying to stabilise the weighing body, however, no matter how hard he tried, it was in vain, and the reason for this was that up to that point the car had been swaying from side to side, in an attempt to stop the car behind it from catching up.

It was because the car itself was not going in a straight line that the car lost its balance the moment the tire blew out.

At this time, Ji Feng swung the steering wheel a few times, and then drove into the right side of the rear bumper of the car in front of him without any reservations!

If the two cars collided at such extreme speed, it would undoubtedly be extremely violent, and it might be a bit too much to say that it was a Martian collision, but there was absolutely no doubt that both cars were completely destroyed, even if they were specially designed and manufactured for the military, they would not be intact in such a high-speed collision.

But here's what shocked Li Guoliang and the white spider.

Ji Feng hit the car in front of him with the maximum speed this car could reach, viciously and domineeringly, and to their surprise, the car in front of them seemed to be weightless, and was instantly knocked to the side, and then rolled over wildly.

The moment the cars collided, the white spider even saw that the car in front of him seemed to be hanging in the air for a while!

The car that Ji Feng was driving was unscathed, just a slight shake of the body of the white spider and Li Guoliang, and the car passed by the side of the vehicle that was rolling over and over .....

This is almost impossible, it simply violates all the principles of physics in the world.

How is it possible that two cars collide and the forces are mutual, how is it that only one car rolls over and the car they are in, surprisingly, only feels a pause and no further damage is done beyond that?!

..... is the angle!

The reason why such a result was produced was because the impact position chosen by Ji Feng, and the angle of impact, was very ingenious!

The moment the two cars collided, the car in front of him happened to have a blown tire because it had been shot by the white spider, so the car could not remain stable and tilted forward.

At this time, that car itself could not even stay stable, so what if a huge force was added from the outside?

In fact, it was like the car in front was already half hanging off the cliff, it was already thanking God that it could remain stable, even a small child could have pushed the car off the cliff with a push!

But if at this moment, a car directly behind crashes over at the limit speed .....

The result can be imagined!

It would be strange if that car didn't fall into the abyss of ten thousand feet!

The angle and timing that Ji Feng chose when he hit it was just right, a second earlier or a second later, I'm afraid it wouldn't have achieved such an effect.

It was simply a stroke of God!

Li Guoliang couldn't help but sigh in his heart. In that situation just now, if he were himself, if he wanted to catch up with the caravan at the front, he would either have to find a way to get rid of the car that stayed behind and blocked him, or he would have to engage in a fierce battle with the people inside and kill them all before he could catch up.

But if that was the case, I'm afraid the caravan in front of them would have already run away.

However, in Ji Feng's hands, it was as if these things were insignificant. He seemed to treat the car that was left behind as if it was a small ditch and a small bump in the road, and just dashed through it.

Li Guoliang once again understood Ji Feng's toughness. Ever since he met Ji Feng, he found that his previous perceptions were being changed again and again.

In Ji Feng's case, it was just some extremely normal actions, but in Li Guoliang's opinion, it was something that shook him to his core.

Li Guoliang even had an urge to leave the army and follow Ji Feng's side. Strength, which might seem invisible and untouchable, was a dazzling light that was almost magical in Ji Feng's body, making people unconsciously attracted to it!

Of course, this was only a fleeting thought, and soon, Li Guoliang's attention shifted to the scene before him.

With the car in Ji Feng's hands, the speed was brought to the limit, and the two vehicles that stayed behind to take care of the blocking earlier did not even let Ji Feng pause for a moment, and now they were getting closer and closer to the caravan in front of them.

"You two get ready, be ready to shoot at any time!" Ji Feng said in a deep voice.

The White Spider duo didn't have any unnecessary nonsense, they just nodded their heads while already preparing everything.

"Squeak~~~!" The tyres were rubbing sharply against the ground, making a sharp sound, that was a car in front of them making a sharp turn.

Good opportunity!

Ji Feng immediately shouted lowly, "It's a sharp left turn ahead, try to aim at the driver of the first car and shoot him off!"

Once the car in front makes a sharp turn, the side of the car will be facing this way, so if they take out the driver directly, they won't have a chance to escape!

The next moment, Ji Feng saw the caravan in front of him start to turn.

"Start!" Ji Feng shouted lowly.

"Hoo~~!"

White Spider and Li Guoliang simultaneously peeked out of the car window and raised their hands before pulling the trigger, "Boom! Boom boom boom ....."

However, at the moment they fired, the second SUV unexpectedly accelerated suddenly and blocked the side of the caravan at once. In the next moment, the window of the SUV was pierced by a bullet, but the car drove away steadily.

"Son of a bitch!" Li Guoliang couldn't help but curse, "What a life!"

"Continue!" Ji Feng drank.

He also agreed with Li Guoliang's words, the driver of that caravan was indeed lucky, because behind them was an off-road vehicle. The height of that car was just right to help block the bullets for the caravan, if that was a sedan or a sports car, even if they wanted to block the bullets for the overturned car, it would be impossible unless they could fly, but then it would be a plane instead of a sedan!

"Take out the SUV first!" Ji Feng shouted.

"Boom!"

The sound of gunfire suddenly rang out, but it was the man in the SUV who poked his body out and fired back.

Ji Feng flicked the steering wheel, the car instantly went around in a big arc, and White Spider and Li Guoliang couldn't help but sway a bit.

"You two sit tight first!" Ji Feng bellowed.

Li Guoliang and White Spider immediately shrank back from the outside and sat down again, Li Guoliang couldn't help but say, "Mr. Ji, we have to take out the SUV first, or else ..... still hit the tyres?"

Ji Feng shook his head and said, "No, when you guys hit the other side's tyres, there's a good chance you'll get shot at ..... White Spider, you do it, shoot directly at the car and let the bullets go through the front windshield!"

"Yes!"

White Spider immediately responded, at the same time, she quickly unzipped the luggage bag at the back, took the rifle out, set it up and aimed at the SUV in front of her.

"Ta-da-da-da ....."

Suddenly, two tongues of fire spat out from the sides of that SUV.

"What powerful firepower!"

Ji Feng snorted coldly and fiercely pivoted the steering wheel, making the car move straight across the distance of several meters and dodged it.

Seeing this, Li Guoliang was the one who shouted, "There's no wrong chase! Mr. Ji, we are not chasing the wrong person, the other party must have a problem!"

Ji Feng didn't say anything, he just drove with a calm face. However, in his heart, he could not help but let out a sigh of relief.

Obviously, as Li Guoliang had said, they had not chased the wrong one, and the ones sitting in that car in front of them were, in all probability, 9 out of ten, the gang of the King and the Little Prince.

But don't forget, these three cars were encountered by chance by Ji Feng on the road, they had never dealt with each other before, if not for the two people wearing masks in the caravan, Ji Feng would not have paid any attention to these three cars.

At that time, he judged that the people sitting in the car were most likely the King and the young duke, so Ji Feng ordered a chase.

He only made what he thought was the most appropriate and reasonable choice, but what the final result of this choice would be, Ji Feng was not quite sure, and did not dare to assert.

Now, however, he let out a long sigh of relief.

There was really something wrong with these cars!

If they were just ordinary people's private cars, or some other company's cars or something like that, how could they have such powerful firepower?

Even if firearms were widespread in Rice, few people would casually carry a few automatic rifles when they go out, right?

Who would believe that there was nothing wrong with these cars?

There must be something wrong!

Ji Feng couldn't help but sneer in his heart, he wasn't afraid of your strong firepower, what he was afraid of was chasing the wrong one.

Now since it has been determined that there is no wrong chase, then there is nothing more to say!

da da da da .....

The two men in the SUV in front of us poked their bodies out from the sides of the car and fired wildly at this side, the two tongues of fire were so obvious in the darkness of the night.

Ji Feng, however, had a calm face and drove calmly to dodge the car from time to time.

“White spider, the other side’s firepower is too strong, the car won’t be too stable, you have to look for an opportunity to shoot!” Ji Feng drank while pivoting the steering wheel to dodge.

“Understood!”

White Spider racked his gun, braced his legs on the floor to forcefully stabilize himself and shouted in response.

“Good then!” Ji Feng said, “I’ll turn off the headlights for a few seconds of stability, it’s up to you next!”

Chapter 1798

“Understood!”

The White Spider shouted in response as he racked his gun and braced his legs against the floor to force himself to steady himself.

“Good then!” Ji Feng said, “I’ll turn off the headlights for a few seconds of stability, it’s up to you next!”

White Spider didn’t say anything more, her full concentration said it all, at this moment she was completely ready and just waiting to cooperate with Ji Feng!

“Guoliang, you are responsible for covering White Spider!” Ji Feng said, “After I turn off the headlights, you will immediately poke your body out and shoot to attract the other party’s attention, at this time, you have to retract in time, at the same time I will drift, at this time you have to keep silent and create an opportunity for the white spider to shoot, do you hear me?”

Li Guoliang immediately nodded: “Understood!”

Ji Feng smiled faintly, what he liked most about Li Guoliang was that Li Guoliang was so crisp when carrying out orders, never dragging his feet, even if he had doubts in his mind, he would at most just mention his personal suggestions, but once the order was given, Li Guoliang would carry it out unconditionally and without hesitation!

“Are you ready?” Ji Feng asked.

“It’s ready!”

“Everything is ready!” Li Guoliang and the White Spider replied separately. By this time, White Spider had already adapted to the movement of the car and adjusted his posture, ready to fire at any time.

And Li Guoliang was likewise slightly tilted, ready to poke his body out for a shot.

“That’s good .....

Ji Feng nodded, and at the same time snapped off the lights, and at once, the entire car was no longer half lit except for the fluorescent light on the dashboard.

At once, the two tongues of fire in the off-road vehicle in front were gone, and the sound of gunfire was also silent.

Obviously, the gunman in the SUV couldn't find his target!

"Guoliang, start!" Ji Feng shouted lowly, while jerking the steering wheel, directly skimming the car to the side of the road, while slamming the accelerator, the roar of the engine steeply became more intense.

And at this next moment, Li Guoliang fiercely peeked out of the car window, holding the car door with one hand and pulling the trigger with the gun in the other.

"BOOM! BANG BANG!" Three consecutive gunshots rang out.

However, what made Ji Feng feel unexpectedly happy was that the three shots fired by Li Guoliang just now had directly killed one of the gunmen on that SUV!

This was not a waste of bullets!

However, Ji Feng did not know that his performance was so strong that Li Guoliang even had a feeling of looking up to him, yet the white spider beside him was equally outstanding, and even performed better and better, and worked incomparably well with Ji Feng, which surprisingly could not help but inspire Li Guoliang's fighting spirit.

This time was the case, although he was strictly carrying out the order to cover the white spider while attracting the opponent's attention, but in the process of carrying out this order, he was fully focused and striving to take out one of the opponent's gunmen as a way to prove himself!

These three gunshots, as well as the three flashes of fire, immediately revealed Li Guoliang's position, and the side of the SUV suddenly gobbled up tongues of fire.

But at this time, Ji Feng was suddenly jerking the steering wheel, the tyres rubbing against the ground with a sharp and piercing sound, the car shifted sideways by several metres and instantly went to the other side of the road.

Immediately afterwards, the white spider pulled the trigger.

"Boom!"

A spark flashed from the body of the SUV in front of him.

It missed!

It was night time, and the SUV was still moving, so it was completely normal for the White Spider to miss with one shot.

Moreover, the other side was obviously not weak, they also turned off the lights inside the car, only the headlights and the running lights behind the car were still on, to hit the other side's tyres under such circumstances, not only would Bai spider's marksmanship be tested, but it would also depend on luck,

because she could not see the tyres, she could only judge the outline of the car and the position of the tyres by the running lights behind the other side's car.

What Ji Feng could do now was to buy a few more seconds for the White Spider, to be able to give the White Spider the chance to continue shooting until she blew out the other party's tyres before the gunman on the other SUV reacted.

"BOOM BOOM!"

Two more shots were fired, but the SUV in front of him still did not show any difference, so obviously these two shots missed again.

Ji Feng frowned slightly, and at this time, the gunman in the SUV in front of him had already turned his gun around and pointed this way, the other party obviously already knew the exact location of the enemy.

Ji Feng immediately shouted lowly, "White spider, don't have big tyres, hit someone!"

The white spider immediately understood, and with a slight side to his body, he aimed in the direction of the SUV in front of him and pulled the trigger violently: "Boom!"

In the next moment, a human figure was flung out of the SUV and fell to the ground with a grunt, not knowing where it had rolled to.

Ji Feng said, "Hit anyone in the car as soon as they show their heads."

"What about this car?" White Spider asked, "With this SUV in the way, there's no way we can hit the driver of the RV ....."

"Then we'll take out everyone in the SUV!" Ji Feng said in a deep voice.

The buggy had already been alerted long ago, it would be too difficult to hit the tyres again, and now we can only take out all the people in the buggy one by one. Of course if there was a chance, naturally they still had to hit the tyres.

Once this car was taken out, then the only one left would be the saloon car, and then it would be time to fight the King face to face in real life!

"Young Ji, this is very difficult!"

White Spider exclaimed, "The other side is obviously very experienced and they will definitely be prepared."

From the fact that the SUV had actually blocked the bullet for the caravan in the nick of time just now, it could be seen that the other side were obviously experienced veterans too, they must have experienced this kind of situation too, so they wouldn't have failed to make preparations.

So the other side would have tried to counterattack, or at worst, flee.

If the other side chose to flee towards the city, or take some other approach, it would be very troublesome.

“Give me a gun!” Ji Feng said.

Li Guoliang immediately handed over the pistol and Ji Feng raised his hand to aim at the tyres of the SUV in front of him. This darkness still had an effect on the white spiders, but for Ji Feng, it was not much different from daylight, especially now that the distance between the two sides was not too far, and Ji Feng’s line of sight was perfectly reachable.

“Boom!”

Ji Feng pulled the trigger.

However, the tyres of the SUV were not blown out, and even with Ji Feng’s eyesight, he could not see whether the bullet had hit the tyres of the opposite car or not.

Or maybe it was because the power of the pistol was too small, and the car was moving at high speed, so the bullet shot past it might be affected in many ways, so it could not penetrate?

“Give me a rifle!” Ji Feng said in a deep voice.

Li Guoliang immediately took out a rifle from inside the luggage bag at the back, opened the safety and loaded the bullets, then handed it to Ji Feng.

Ji Feng casually threw the pistol onto the passenger seat, then with one hand on the steering wheel and his right hand racking the rifle, while propping the bullet clip on the steering wheel, he once again aimed at the tyres of the SUV in front of him.

Li Guoliang and Bai Spider watched nervously while preparing to shoot to cover Ji Feng.

Would they be able to hit it or not?

Neither White Spider nor Li Guoliang had a clue.

Although they both knew that Ji Feng’s strength could not be judged by common sense at all, the situation was very complicated now, even if both sides remained relatively still, it would not be easy to burst the other side’s tyres, let alone now when they were still moving at such a high speed, and the other side might come out again at any time to counterattack and suppress the firepower.

At this moment, the two of them were both expectant and worried, and a tense atmosphere was spreading in the car.

They were expecting Ji Feng to have a big burst and hit the target with one shot, overturning the SUV in the way, but they were also worried that if Ji Feng failed to hit the target, then it would be difficult to catch the person in the front of the RV today.

The first thing you need to know is that there is no movement in the RV at this time, and you don’t know how many people are inside, let alone what weapons they have, and you don’t know where ..... they will run to next.

If they couldn’t catch the people in the caravan, and the commotion here would definitely alert many people, then I’m afraid there would be little hope of catching Hunter again, and then it would be a failure on both ends!

You can imagine how nervous Li Guoliang and the White Spider were!

They couldn't even help but slow down their breathing, trying their best not to make a single sound. Apart from the roar of the engine coming from outside, the car was so quiet that they could even hear their own heartbeats.

However, Ji Feng's face was calm as he held his gun up, aiming at the tyres of the SUV in front of him over and over again, not rushing to fire.

In fact, Ji Feng was calculating which direction he should rush from once he blew out the tyres of the SUV, and if he couldn't, what he should do next to catch the people in the RV.

Ji Feng was rehearsing quickly in his head, and his finger slowly rested on the trigger.

Li Guoliang and the white spider steeply became even more tense, and even to relieve this tension, Li Guoliang could only pick up a rifle and aim it at the SUV in front of him, ready to cover for Ji Feng as a way to distract himself.

.....

Meanwhile, in that caravan, it was a conversation that was going on.

"Hunter's got a lot of nerve!" It was the king who spoke, and his voice was not half nervous, but full of derision.

"Father, what do we do now, the other side is coming with a vengeance!" The young duke, however, looked a little worried, "Those few guards may not be able to stop the other side!"

"If they can't even stop the people sent by Hunter, they deserve to be killed!" The king's voice was calm, as if he was talking about something that had nothing to do with him, "In my eyes, Hunter is nothing more than a dog, and his men are even worse than dogs, if those few guards can't even deal with these people, then there's no value in their existence!"

The young male nodded and added, "But ..... if all those guards die, what will we do? Looking at this situation, it's clear that they are here to take our lives!"

The prince snorted coldly, "Can anyone take the lives of our father and son? Child, do you know why I didn't get rid of them? I'm taking this opportunity to show you that we, father and son, have a lot to gain from the world! And these people well ..... hum, if they kill my dogs, then let them come to bite for me ....."

Bite Ji Nan Yue?

The young duke was a little confused when he heard this .....

Chapter 1799

Bite Ji Nan Yue?

When the young male heard this, he couldn't help but be a little confused.

He turned his head and looked around at the SUV that was following behind him. The people sitting in this car were his father's men, and they were all relatively close to him, although they could not be considered absolute believers, they were at least people who could be trusted by his father.

They were like the guards with swords around the ancient emperor, or as the saying goes, the masters of the inner circle, and his father was the emperor.

Although these masters of the inner circle did not protect their father closely, as there were guards who were even closer than them, they were, in any case, close to him.

But at the moment, these guards were looking miserable.

First, the car that had been left behind to block them had rolled over, not knowing whether the people inside were dead or alive.

The car next to him was not too clear, but now that the sound of gunfire could no longer be heard, I'm afraid that the person sitting on the other side had probably been killed too.

Either that, or they were too scared to poke their heads out by their pursuers!

Originally, they were a large group of people, and they had a strong presence everywhere they went, but now they seemed to be being chased as if they were dogs in distress.

The young lord suddenly felt very angry and a sense of humiliation from his heart.

Thinking about his status, he could walk around in China and be looked up to and respected everywhere he went.

It was because his father was a famous prince, the head of the organisation in China, who held great power and wielded extremely terrifying power, whether it was force or wealth, which would make people tremble when he said it!

Not only in China, but even abroad?

When the King is mentioned, no matter which country he goes to, people will give him face, what a great feeling!

Even if he smashed up half of the city, I'm afraid no one would come out to take care of him, not no one, but no one would dare to.

It's not that there is no one to do anything about it, but no one dares to do anything about it. And those who dare to do something about it, they will not do anything about it for the sake of some faces!

However, there was a time when all this changed!

He was defeated in China, and his success seemed to have vanished without a trace, so that he was not even half-prepared for the fall from the top to the precipice.

And all this was because he had met someone – Ji Feng!

Everything that Little Prince had was ruined by Ji Feng's hand, not only that, he was even crippled by Ji Feng, and now he was confined to a wheelchair.

Compared to his former days of glory, this was simply a heaven and a hell, which made Little Prince feel a strong sense of humiliation, thinking that he was the son of a king, followed by the most powerful warrior in the world, a reformer, both in terms of force and financial power, could only be looked up to.

It was always his young duke who bullied others, but there was a time when his young duke would actually be bullied, even being chased all the way by Ji Feng, beating even the guards around him and being taken out one by one, even his last personal expert guard was captured by Ji Feng.

Even he himself, likewise, had his bones broken by Ji Feng and was still confined to a wheelchair to this day!

But the young grandson even more unexpectedly, even after coming to Rice, his situation had not changed much, even his father, who was omnipotent in his mind, had actually started to be hunted down and killed .....

What the hell is going on here?

The young duke even had an unreal illusion, how it felt as if he was dreaming, once upon a time, the king who was calling the shots in China, would actually have this day?

At this moment, the young prince was at a loss, he didn't even know what he should do anymore, let alone where he should escape to.

A person suddenly falls from the clouds to the dust, that kind of huge difference is enough to break a person with a strong character, and perhaps because the little prince has been hit too many times, his mind is quite mature and stronger than the average person, and because of this, the little prince still hasn't broken down now, but there is a strong humiliation and resentment towards Ji Feng in his heart.

To say the least, the young male was able to have such a mature mind, but instead he had to thank Ji Feng.

Of course, this was something that he would never admit to the little gong himself, now just thinking about Ji Feng made him so mad with hatred that he wanted to eat him alive, and thank him?

Don't dream about it!

However, while the young grandson was bewildered, there was a sense of trepidation in his heart.

He knew that the situation in front of him was already very obvious, his father had already lost five or six of these guards, and in this remaining buggy, he didn't know how many guards would be left, but the car that was chasing behind them was biting hard, and it looked like it might intercept them at any moment, and it could be said that it was raging.

They were already at a disadvantage!

But at such a time, instead of being half-heartedly nervous, their father even made a bold statement, actually saying that he would use them to deal with Ji Nan Yue?

The young gongzi couldn't help but feel a little hairy in his heart, could it be that his father's spirit had gone wrong from the blow?

On second thought, it wasn't impossible that this was the case!

Thinking about the fact that his father had endured humiliation in China for so many years and had finally built up a strong team and had such a huge force, but just overnight, so many forces were uprooted, how big a blow was this?

When you think about what happened to him after he came to Rice, even a small chief like Hunter, who was only in charge of one city, dared to make an official statement in front of his father, such a huge difference is not something that ordinary people can endure.

If his father had really become a bit paranoid in spirit because of this, then there was really nothing unusual about it.

Thinking of this, the young gongzi could not help but worry as he stared at his father for a long time, but the king's face had been wearing a mask and he could not see the king's face, only the pair of eyes that were exposed with a cold glint.

Yet the more he did so, the more worried the young duke's heart became.

If even his father had been severely stimulated, thus making his thoughts and behaviour radical, then there was really no hope for them to rise again in the east.

"What's wrong?"

Seeing that his son kept silent and only stared at himself, the king could not help but ask.

The young duke hurriedly shook his head, "No, it's nothing, father, I just think, shouldn't we get rid of that car behind us now, and as for dealing with Ji Nan Yue, we can postpone the conversation until later."

"Get rid of them?"

The king couldn't help but sneer at that, "Son, it seems that you don't have any confidence anymore. Is it because you think that after encountering so many things in a row, I will not be able to withstand the blow and even want to go off on a sword and die by fish?"

The young duke was noodling, not knowing how to answer the question.

The king said in a deep voice, "Son, your father, I have been running through China for so many years, if I only had such a little tolerance, do you think I would have been able to come this far?"

The young duke nodded, indeed, the humiliation that his father endured on a regular basis alone was not something that an ordinary person could endure. For that alone, his father was far more remarkable than the average person.

"Are you watching these guards being taken out one by one, so you think we might not be able to escape?"

The king laughed, his voice seemed very cheerful, and he was surprisingly not half nervous, "Son, don't worry, if that was all I had, then your father and I wouldn't have survived for so long, and would have been captured by the Chinese military and those pervasive security personnel long ago!"

The young Duke was stunned, "Father, you have other preparations?"

The king laughed harshly, "Do you think that I still need to be prepared?"

The young duke could not help but freeze, not quite understanding.

However, the next moment, the young duke was truly frozen, only to see the king smiling, then reaching out and pulling a pistol from the waist of one of the guards next to him, using the index and middle fingers of his right hand to hold the barrel of the gun.

Immediately afterwards, the young duke watched as the barrel of the gun was flattened raw, and with a violent grip of the king's hand, the pistol unexpectedly turned into a lump of iron .....

The young duke's eyes steeply widened, "This, this ....."

"Son, you're not afraid now, are you?" The king laughed harshly, "Do you think that those people's heads, can be harder than these steel?"

"Father, you, how did you do that? You're a super warrior too?" The young male asked in dismay and surprise.

"You'll find out later!" The prince laughed harshly, "But right now, it's better to settle Ji Nan Yue first, to take out your anger first, and also to combat the arrogance of the Ji family, so that they know what it's like to lose a loved one!"

The young grandson's heart immediately fell into his stomach, he finally knew why his father had been confident from the very beginning, even when he knew that the forces of China had almost been uprooted by Ji Feng and the military, his father only felt shocked, but not desperate.

It turned out that father actually possessed such a strong strength, even those super warriors might not be able to match up to father. And from what my father said, it seemed that he was not yet a super warrior and his body had not been transformed .....

Father turned out to be in possession of such a great secret.

In that case, is there another hidden power that father has been operating in China for so many years?

Chapter 1800

Then, in that case, is there another hidden power that father has been operating in China for so many years?

Little Duke thought there should be. With Father's status, position and ability, it would be really easy for him to run some forces to hide away.

It seems that father is not at his wits' end, he should have his agenda!

Maybe it was even a big plan!

At this moment, the young male couldn't help but be excited, it turned out that his father actually still had so many hidden cards, if he wasn't unable to walk on his legs, he really wanted to hold his automatic rifle and poke a shot at him now, with such a father as his backing, what else did he have to be afraid of?

At this moment, the young male was like a poor man who was about to go crazy, but suddenly found out that he was the second generation of the rich, and his father was almost the richest man in the world, this kind of joy could make people go crazy!

Looking at his son's almost glowing eyes, the king could not help but teach, "Son, if one wants to achieve great things, one must first be able to be calm, and have the temperament of not changing one's face or heart when a mountain collapses, only then will you be able to think of the most reasonable solution at the most critical juncture, and only then will you be able to turn the danger into a bargain!"

The young duke nodded, "I understand."

"In addition, you can not have an overwhelming mind, but, you must learn to judge the situation, learn to leave yourself a way out, and most importantly, hide a bottom card that no one knows about!" The king continued to teach his son, as if he did not see what was happening outside.

"Like your father and I, who would have thought that a king who just moves his lips to command others would actually know kung fu?" The king sneered, "Of course, the same way no one would know that the forces I run, they can never completely destroy!"

The young duke asked at once, "Father, are you saying that we have other forces in China, in China?"

"Of course!"

The king said proudly, "If Ji Feng and Xiang Yongzheng make one move and presume to wipe out all the forces I've been operating in China for so many years, that's too arrogant and too underestimating your father!"

It was true, father really did have other powers hidden away!

The young duke was wildly happy in his heart, his guess was correct, it turned out that his father had other forces existing in China.

"If they hadn't acted too quickly last time, not to mention hurting you, they wouldn't have been able to get anything!" Speaking of this, the king could not help but give a cold snort.

The young duke was greatly excited to hear this and could not help but say, "Father, I knew you must be the wisest!"

"Son, in the past I was busy running my business, so I didn't have much time to teach you, in the future you will follow me, when you really grow up, then go out again, by then, whether it's Ji Feng or Xiang Yongzhan or anyone else, they won't be your opponents!" The prince said atmospherically.

The young duke nodded heavily, then asked, "Right, father, if you are so powerful, then why don't we just go and deal with Ji Nan Yue, and deliberately lure the people sent by Hunter to deal with Ji Nan Yue?"

The king snorted coldly, "That's because, I found this to be a perfect opportunity!"

Seeing his son's somewhat puzzled look, the king said, "Son, do you still remember that I told you before that I got a newly developed weapon from the organisation for you to avenge your death, but now this weapon is nowhere to be found?"

The young male nodded, "I remember, father, does this have anything to do with Ji Nan Yue?"

"It has nothing to do with Ji Nan Yue, but it has something to do with Hunter!" The king sneered, "Especially since he sent people after us, it's impossible for him to set it aside if he wants to!"

The young duke was a little puzzled, but the king had no further intention to explain, and it was clear that he seemed to want the young duke to think for himself.

"BOOM!"

Suddenly, a gunshot sounded, and the king and the young duke turned their heads to look back at the same time, and they saw the situation outside through the slit in the curtains at the back of the caravan.

They only saw the body of the SUV shake violently, then it tilted a little, then the SUV started rolling violently on the ground, and finally the car crashed through the roadside guardrail and went straight down the road!

Boom~~!

The next moment, a violent explosion suddenly shot up from the trench outside the road.

The SUV had exploded!

Reflecting the flames that shot up into the sky, the father and son duo of the king saw a black car rushing straight over, frighteningly fast, reaching them in an instant.

The young lord was instantly startled: "They're catching up! Speed up! Hurry up and speed up!"

The king could not help but frown too, "Accelerate immediately! To shake them off, but don't lose them, keep a certain distance ....."

The driver of the caravan suddenly jerked up the throttle and a violent roar of the engine began to roar.

"They're nuts! They don't even turn on their headlights in this dark!" The young male shouted, "Father, are they super-soldiers?"

In the impression of the Little Prince, only super warriors were the most perverted, anything unbelievable seemed normal to them, he hadn't even thought that even if they were super warriors, they couldn't always transform their eyes into fire eyes as well, they didn't even need to turn on the headlights in such a pitch black night!

The king's brow furrowed for a moment before he said, "There's something odd about .....! Speed up!"

.....

"Good!"

Li Guoliang shouted.

White Spider also couldn't help but wave her fist, although she didn't scream out, but looking at the look on her face, she was also excited.

Ji Feng had really taken out that SUV with one shot!

In this dark night, it was undoubtedly very difficult to blow out the tyres of a car moving at high speed with one shot, which was a test of the gunman's marksmanship and eyesight.

Especially, when the headlights of the car were out!

From the time Ji Feng set up his gun, to the time he aimed, to the time he finally fired, it was actually only a short moment at most, but for Li Guoliang and White Spider, it was tense to the point of no return.

If they couldn't get rid of the two SUVs, they wouldn't be able to catch the people in the caravan at the front, but it wasn't that easy to take out the SUVs when the other side was on the defensive.

But Ji Feng just used one shot to solve this trouble!

Li Guoliang couldn't help but shout out loud!

Ji Feng, however, said in a deep voice: "Sit tight, that RV is trying to get rid of us, I'm going to speed up! You two get ready, be ready to shoot at any time!"

After saying that, Ji Feng immediately threw the rifle in his hand to the side and started to accelerate.

Li Guoliang and White Spider also gathered their excited and euphoric emotions and aimed at the caravan in front of them once again.

But after a few moments, still not close to the caravan, White Spider was puzzled, "How come that car in front is running faster than the sedan?"

"It must have undergone special modifications!" Ji Feng said in a deep voice: "I'm afraid the fuel they used is not ordinary gasoline or diesel fuel either ..... but it doesn't matter, you guys just be prepared!"

White Spider nodded, she was deeply impressed with Ji Feng's car skills, at least until now, she really hadn't seen anyone with better car skills than Ji Feng.

Although he knew that the caravan in front of him had been specially modified and was incredibly fast, Ji Feng still looked calm, but the movements of his hands were faster than before, and he shifted gears more frequently, while flicking the steering wheel with surprising frequency, bringing the car's performance to almost its limit.

Finally, it was getting closer and closer to the caravan in front of him, and it looked like it was about to catch up.

"Speed up, quick! They're catching up!" The young duke shouted urgently, "Father, they are about to catch up, how else can we attract them to deal with Ji Nan Yue?"

The king was also frowning, "Why is the car going so fast?"

"Father, think of a way quickly ....."

"Do we still need to think of a solution?" The king snorted coldly and interrupted him, "I just told you to be calm and composed, so soon you forget? It's just a few killers, even if they catch up with you, so what?"

At this point, the king snapped back and barked, "Stop the car!"

Squeak—!

All of a sudden, a sharp sound of braking suddenly sounded, and the ear-piercing sound produced by the tyres rubbing violently against the ground was enough to make people's scalps explode!

At the same time, however, the car behind was about to crash into the caravan.

"Humph!"

Ji Feng let out a stifled cry, steeply pivoted the steering wheel, while slamming on the brakes, using his hands and feet, the car steeply shifted several metres sideways, and narrowly missed the side of the caravan!

The two White Spiders' bodies lurched, the impact and inertia was too great!

"Squeak...!"

The car overtook the caravan by ten meters before it came to a halt, and Ji Feng shouted, "Get out of the car.

The White Spider and Li Guoliang only stabilized themselves at this point, but they reacted extremely quickly, pushing open the car door and rolling off the car at the same time, with their feet steeply powered up, swept towards the caravan that had been stopped behind them.

Boom boom boom .....

Suddenly, there was a rush of gunfire from the car, with tongues of fire gushing out and fierce firepower, forcing Li Guoliang and White Spider to dodge from side to side.

But Ji Feng reversed his car violently and crashed directly towards the caravan.

Boom!

The caravan was shaken by the impact, and the two figures immediately crashed into the windscreen in front of them, and the two White Spiders flung a shot at them.

Boom, boom!

The two men in the caravan were instantly knocked backwards and the gunshots came to an abrupt end.

Ji Feng had already gotten out of the car, he waved his hand, Li Guoliang and White Spider attacked again, then they hadn't taken a few steps, but the sound of gunfire rang out again.

"Da da da da ....."

This time, the gunshots came from outside the windows on both sides of the caravan.

Ji Feng raised his hand and shot twice, one of them had his head blown off directly, but the other was saved by the window glass, this person changed his position and continued to shoot through the cover of the carriage.

The other person was saved by the window glass.

Is there still no movement from the young duke and the king?

They can be so calm?

Or ..... do they have some other plan or intention? Just let these few people stall for time?
