

Campus Master 1841

Chapter 1841

“No way!”

Ji Feng flatly refused, “Three days is no problem. However, I’m not comfortable with the way you guys are protected, there must be people both in the open and in the dark.”

When Wu Changgong still wanted to say something, Ji Feng said in a deep voice, “Elder Wu, if I give in again, you won’t be able to pay what you owe me!”

“.....”

Wu Changgong was uncomfortably blocked by Ji Feng, but had no other choice but to grit his teeth and agree.

Because Ji Feng had already said it to death, if he bargained further, Ji Feng would not admit that this was the Qing Gang paying its debt.

Wu Changgong did not want the Qing Gang to help Ji Feng, but in the end, Ji Feng would not acknowledge the debt, which would be a bit ungrateful.

“Then, we will only protect your relative’s family for three days. On the surface, I will send the gang’s experts over to act as bodyguards, and secretly, someone will also be in charge of protection.” Wu Changgong said, “When do you want to start?”

“The sooner the better, it’s best to send someone over now!” Ji Feng said.

“No, the time is too urgent, and it will take some time for my side to pull out the manpower, it will take until tomorrow morning at the earliest!” Wu Changgong said in a deep voice.

“Not tomorrow, anything you do during the day will be seen clearly, if your Green Gang doesn’t want to take on those gangs directly, you have to deploy them all this evening!” Ji Feng said.

Ji Feng wouldn’t underestimate those gangs, they had been operating in New York for an unknown number of years, there were their minions everywhere, if the Qing Gang did anything different, it was impossible to say that they would be discovered, and then instead of helping Little Aunt, they would bring danger to her.

Wu Changgong frowned and said, “It’s too late for tonight, how about tomorrow night?”

Ji Feng said, “Then there’s nothing to talk about .....”

Wu Changgong was instantly gagged again, and over the phone, Ji Feng could even hear his ragged breathing, but Ji Feng wouldn’t let him take a step!

“..... Good! Just this evening!” Wu Changgong finally agreed.

“Good then, contact me when you’ve assembled your men!” Ji Feng said.

“Ji Feng!”

Wu Changgong suddenly asked, "Aren't you afraid that after I send the men to your relatives, I'll arrest them all and give them to those gangs?"

Ji Feng sneered, "Unless you want all the top brass of the Qing Gang to die out!"

Wu Changgong immediately winced.

Even though he was talking on the phone, Wu Changgong could hear the harshness of Ji Feng's voice. He believed that if he really did something against Ji Feng's relatives, Ji Feng would definitely go on a killing spree, and this outrageously skilled young man would definitely be able to do what he said he would do!

Think about what happened to the Yamaguchi group, and those gangs that messed with Ji Feng ..... Wu Changkong laughed dryly twice: "Just kidding, kid, don't be so cold!"

Ji Feng let out a fierce laugh: "Wu Changgong, I'm warning you, some jokes are not allowed, otherwise, I wouldn't mind playing a joke with the Qing Gang!"

Wu Changgong was choked uncomfortably for a long time before he gritted his teeth and said, "Count on you kid to be ruthless!"

Ji Feng coldly snorted, "It's not that I'm ruthless, but others force me to be ruthless!"

Wu Changgong knew there were words in his mouth and couldn't help but say, "All right, kid, don't worry, my Qing Gang will never do something like that to our own people!"

Ji Feng said, "It's best if you won't!"

Wu Changgong couldn't help but choke again, he took a deep breath, and only then did he hold back from getting angry.

And at this time, Ji Feng suddenly said again, "By the way, Elder Wu, which gangs are targeting me, you should be clear about it, right?"

"I've heard of them!" Wu Changgong's tone was not very good either.

Ji Feng didn't care, he just said, "Well then, while Elder Wu is gathering his men, he should also help inquire about the whereabouts of those gangs' important figures, preferably their gang leaders ....."

Before he could finish his words he heard Wu Changgong subconsciously exclaim, "You're going to do it now?"

"Of course, otherwise when else would we have to wait?" Ji Feng asked rhetorically.

"..... Then fine, I'll try to inquire!" Wu Changgong said. It was none of his business when Ji Feng would make his move, and it was out of his hands.

"Then, thanks a lot." Ji Feng said indifferently.

"Kid, can't you even say thank you properly?" Wu Changgong asked in an exasperated voice.

Ji Feng smiled lightly and said, "Elder Wu, don't forget that telling me the exact whereabouts of those important people in the gang is what you should do, and when I say thank you, it's polite, and when I don't say it, it's only natural."

Wu Changkong: “.....”

Ji Feng’s raw and cold tone made Wu Changkong choke really hard, but the problem was that Ji Feng’s words were so reasonable that he had no way to refute them.

He had never been so stifled in his life, and talking to Ji Feng was really a kind of torture, so Wu Changkong just said that he would go and gather his men, and then hung up the phone.

However, for Ji Feng, he had to let Wu Changkong know that there were some jokes that could not be made lightly, and some things that could not be done lightly, or else the consequences could be very serious.

Ji Feng would never allow the Qing Gang to make such jokes!

What’s more, Ji Feng even suspected that this was also a kind of test for the Qing Gang, so he had to kill such thoughts of the other party in the cradle, otherwise, in case something really happened, he would be too late to regret.

After deliberating for a while, Ji Feng called his second brother Ji Shaolei again and informed him that he would send someone over to protect his little aunt. Ji Shaolei did not ask where Ji Feng had found the bodyguard from, he knew that Ji Feng would definitely not harm his little aunt, and that was enough.

“Second brother, even though we have these bodyguards, we can’t take it lightly, if little aunt still insists on going to that whatever board meeting, you guys try to persuade!” Ji Feng said, “If you really can’t be persuaded, only then can you let little aunt go out .....”

“I know what to do.” Ji Shaolei said, “San’er, you should also be careful, don’t be anxious, the problem can always be solved!”

“Don’t worry!”

Ji Feng said, he suddenly remembered something else and said, “Right, second brother, if little aunt goes out, you must move immediately and try to find a safer place.”

Ji Shaolei frowned and said, “Then wouldn’t that leave little aunt out there alone? Wouldn’t she be in even more danger then?”

Ji Feng said, “It’s only dangerous when there are more people, the target is big and easy to be discovered, as long as you guys are safe, I’ll take care of little aunt here, just don’t worry.”

Since he had already negotiated a deal with the Qing Gang, Ji Feng would naturally do the whole thing, moreover, how could he so easily let his little aunt put her life at risk?

After admonishing Ji Shaolei a few more times, Ji Feng then closed the line.

After that, Ji Feng instructed Bai Spider to go and rest for a while, while he sat on the sofa and carefully considered his next plan of action.

Although he was not worried at all now, he had to be cautious when acting, after all, there were only three of them, so if there was a little negligence, it was likely that they would lose manpower or even suffer a big loss, a price that Ji Feng could not afford.

Those gangs could die by the dozens without hurting their vitality, but not Ji Feng, so he had to be cautious!

Time passed by, and soon, the time entered late into the night.

Around midnight, Li Guoliang drove back, he brought back two big luggage bags filled with weapons, submachine guns, sniper rifles, pistols, bullets, and dozens of grenades, even C4 bombs, everything, it was like a small arsenal.

The next time, Wu Changkong called again, saying that the manpower had been gathered.

The company's main business is to provide a wide range of products and services to the public.

The two sides agreed on a meeting place, and the two sides agreed on a meeting place.

The two sides agreed on a meeting place, and after that, Ji Feng took Li Guoliang and White Spider towards the agreed place.

Because it was late at night, there were not many vehicles on the road, so they set their speed very fast. Only half an hour later, they arrived at the agreed location, and Ji Feng also met those experts brought by Wu Changkong.

"There are a total of twenty-five people, ten of them as close guards and the remaining fifteen, who are protecting in secret." Wu Changkong's face didn't look too good, if it wasn't for Ji Feng's strong attitude, he wouldn't have been busy until midnight.

"Well, not bad!"

Ji Feng surveyed these experts and nodded his head slightly.

Indeed, these people had that iron-blooded aura on their bodies at first glance, they were very tough and had obviously all seen blood before. With Ji Feng's eyesight, he could naturally see that these people were indeed not mediocre.

With these people working together inside and out, at least during the daytime, as long as Xiao Gu did not go to those remote places, her safety would definitely be guaranteed.

Of course, what Ji Feng hoped for most was that Xiao Gu would not go anywhere for a few days, and that everything would be fine once he had finished settling everything.

But if Hong Yiming still pressed hard, Ji Feng wouldn't be able to guarantee it.

So Ji Feng even wanted to kill Hong Yiming directly at one point, but considering the issue of the shares of the Weida Group, Ji Feng held back for the time being.

Afterwards, Ji Feng took these people sent over by Wu Changkong and quietly rushed to the location where Xiao Gu was hiding.

On the way Ji Feng contacted his second brother, Ji Shaolei, once again, and then, after he delivered these people, he handed them over to Ji Shaolei. As for how these people came to be, it was better to let his second brother explain to Little Aunt, now Ji Feng had more important things to do.

“This is the addresses of the bosses of the five gangs and other important people that I found out, the remaining gangs are too rushed to find out because of the time.” Wu Changgong handed a slip of paper to Ji Feng, “It’s late at night now, these people shouldn’t be out anymore, but by tomorrow morning it’s not guaranteed .....

“Thanks!”

Ji Feng smiled faintly, but his eyes were filled with killing intent, “Half a night is enough!”

Up to now, everything was ready.

Ji Feng waved his hand and took Li Guoliang and the white spider to drive away into the darkness, Wu Changgong couldn’t help but have some toothache, I’m afraid that after this evening, the few gangs on that note, will suffer heavy losses ah!

Chapter 1842

As the day dawns, the people of New York, start another day.

Commuters start to get up early to wash up and go to work. The maids also began to rise early to prepare breakfast for their masters.

However, in several parts of New York, there was an ear-splitting shriek: “Ah...!”

Immediately afterwards, the entire underground world of New York was once again abuzz with excitement. It was only because the bosses of several gangs, as well as several important figures in the gangs, were all dead!

There were five gangs in total.

These five gangs, including the bosses and the important people under them, such as the main hall masters, the gold medalists of the gangs, and those who handled the gang’s affairs, all died in one night.

Some of these people died at home, while others died in their study .....

Although these people died in different places, there was one thing that was the same about them, and that was, at their throats, there was a gash as if they had been cut by a sharp blade.

A fatal blow!

Clearly, all of these men had been killed!

The news, as if it had grown wings, spread throughout the entire underground world of New York in a very short time, and everyone was once again subdued.

All five gang leaders and key figures had been killed off?

It was unbelievable!

Especially when the people on the road knew the names of these five gangs, they found it even more unbelievable. You know, these five gangs were not like the small gangs that were taken out before, with only one or two dozen people, and they were all punks .....

The five gangs that were attacked and killed this time were not like that at all.

This is five medium-sized gangs, and even, one of them has two masters inside, it is said that those two people are also special soldiers retired from the special forces of Russia, when they were training, they were in the world's most cruel Siberian special forces training camp to survive, their toughness and ferocity, the whole New York road is known.

Because they were so strong, they took the position of gang leader in a certain gang. It was also because the gang had the two of them that none of the gangs around them dared to mess with them, and no one wanted to fight for the gang's interest and end up never waking up the next morning.

However, the top brass of the five gangs, including the two extremely tough retired Russian special forces, were all killed off overnight, and only two gangs were lucky enough to have a few hall masters left, while the remaining three gangs were almost completely slaughtered, except for a few weak hall masters who were not killed off!

All of these people, all of them were killed in one blow!

Upon hearing this news, the entire New York Dao exploded into a frenzy!

Who had done this?

Who was so bold and ruthless as to slaughter the top brass of five medium-sized gangs in one night?

Immediately afterwards, everyone coincidentally thought of one person – Ji Feng!

When they thought about it, everyone in the Dao could not help but be horrified that this suspicion was true!

In the past few days, a large number of gang bosses were killed, and many big gang bosses or important people were also attacked and killed, and then a heavy news broke out that the person who killed, was a relative of the boss of Weida Group, named Ji Feng.

As long as he would be taking on these gangs, it was to stand up for his relative.

It was also because of this news that almost all the gangs that had been attacked and killed by Ji Feng were now looking for him, as well as the old boss of the Weida Group, and even the police were looking for Ji Feng.

Of course, whether or not the police are helping the gangs to find Ji Feng is something that everyone knows very well.

In this way, almost the entire New York Dao was targeting Ji Feng, and if Ji Feng was found at this time, then he would definitely die without a burial place.

However, it was at this time that the five top brass of the gangs were taken out overnight.

This style of striking was almost the same as when those gangs were attacked and killed before, and now that it was all these gangs that were targeting Ji Feng and the Weida Group, it would really make sense and make complete sense to say that it was Ji Feng who took out the top brass of these five gangs.

The means were exactly the same, and there was a motive, and it made sense, so people in the Dao were almost certain that it was Ji Feng who did it!

He had used such a harsh and incomparable means to take out all five of the gang's top brass, and this was his revenge!

When the people in the Dao guessed Ji Feng's motive, they were all enraged at once.

By doing this, Ji Feng was simply provoking the entire New York Dao, he was trying to use his stern methods to let others know that he was not that easy to deal with!

However, at this time, there was another story circulating in the New York Dao.

"Hey! Have you heard?"

"Of course! That Chinese kid called Ji Feng is out to do evil again, he actually took out five gangs at once!"

"Yeah, that's five gangs, not five punks! This Chinese kid is just too ruthless."

"That's still because those gangs targeted Ji Feng's relatives first, otherwise, how would Ji Feng have provoked those gangs? Who doesn't know how scary those gangs are?"

"Yes, yes ....."

On the street, people on the road were talking everywhere about what happened last night.

And at this time, another man came by and he said mysteriously, "Hey! Guys, you don't know yet, do you? Ji Feng has let the word out!"

"Oh?"

The crowd's attention was instantly drawn to it, "Man, tell me quickly, what did Ji Feng say?"

A smug look appeared on the later's face as he said, "A buddy of mine said that Ji Feng let out the word that those people he killed before were all deserving of death because they had messed with the Weida Group first, and that by killing back, he was only giving those gangs a punishment. But those gangs were unrepentant and actually dared to target him and his relatives with great fanfare, so he was furious, and whoever dared to target him and his relatives again, he would finish them off!"

"Ah..."

At once, there was an uproar.

"Is this true?" One man questioned.

"Of course, this is what a buddy of mine heard Ji Feng say with his own ears!" The man said smugly.

"That Chinese kid is really bold!" The people around couldn't help but marvel, "He actually dared to say something like that to those gangs!"

"Of course he's bold, he even said that no matter which gang they are, if they dare to offend him again, he'll go on a killing spree and make them regret their actions!"

"Ah..."

.....

Conversations like this are happening all over New York, often with a few people talking about what happened last night, only to have another person walk up later with 'the scoop' and leave the crowd in awe.

And as these people's scoops gradually spread, what Ji Feng said also reached the ears of every gangster, and even the vast majority of people in the Dao, in the shortest possible time.

All of a sudden, the already boiling New York mob was in an uproar!

It was a warning!

In Chinese terms, it was a warning to make an example out of a chicken!

Those five gangs were the chickens, while the rest of the big gangs were the monkeys!

Ji Feng had slaughtered all the top brass of those five gangs, he was using this thunderous and severe method to kill the chickens and use it to deter the remaining monkeys.

He was telling the remaining gangs in no uncertain terms that these five gangs were your role models, and if you still dare to target the Weida Group and me, then you will be the ones to be killed next!

This is a warning and a provocation!

It was a provocation to the entire New York mob, because since Ji Feng had used this method, it also meant that in his eyes, the remaining gangs were equally unbeatable, and he could take them out whenever he wanted!

So, some of the big mob bosses were enraged, a Chinese kid, wanting to spill his guts in New York, was simply arrogant!

At the same time, some of the big gang bosses and important figures had ordered to do everything in their power to find Ji Feng, to find him and then abuse him to death!

At the same time, every effort was to be made to strike at the Vida Group, to completely destroy everything this Chinese man had, to make him pay a huge price for his arrogant behaviour!

Apart from a few gangs that didn't have any dealings with Ji Feng, as well as the remaining few gangs that were friends with Ji Feng or with Li Guoliang and the others, such as the Chuk Yuen Gang and the Green Gang, did not move.

But apart from these gangs, at one time, almost all the mob gangs in the whole of New York had moved!

They wanted to find Ji Feng, to find Ji Feng's relatives, to destroy the Weida Group, and to abuse this Chinese kid who was so arrogant that he didn't know his own last name!

.....

"Slaughter the whole lot! Slaughter an empty space!" Wu Changkong repeated even in succession.

When Wu Changgong first heard this, he was shaken to the point where his arms and legs went limp and chills ran down his backbone!

Ji Feng's methods were too ruthless!

Even though Wu Changgong had guessed that Ji Feng was going to strike hard and fight those gangs head-on, he had never expected that Ji Feng's methods would be so ruthless and severe!

And more importantly, the news that Ji Feng had asked him to secretly send out to spread was even more shocking.

"This kid, he's warning the entire New York mafia, and at the same time, he's provoking those gangs!" Wu Changgong's face was thick with shock, "Doesn't he know what the consequences will be if he does this?"

At this moment, he didn't even know whether he should admire Ji Feng's guts or scold him for his stupidity!

Even if Ji Feng was super strong, he should have secretly broken those gangs one by one, that way he could have defeated those gangs and saved his relatives, and the Wida Group at the same time.

However, now Ji Feng has chosen this kind of head-on hard attack .....

"Even if you are strong, there are only a few of you, can you still fight against ten thousand with one?" Wu Changgong couldn't help but shake his head, it seemed that he was justified in disliking Ji Feng, this kid was just too arrogant, more arrogant than a second generation!

Chapter 1843

"This tactic ..... is too ruthless!"

"It's also too daring!"

In one night, the top brass of five medium-sized gangs were slaughtered, and that was not all, Ji Feng even let out the word that whoever dared to target him and the Weida Group again, what would happen to these five gangs would be their example!

When Ji YuYi heard this news, a dense look of shock instantly covered her stunning features.

How dare you!

Ruthless!

But then, she couldn't help but shake her head. Ji Feng's behaviour could no longer be described as just bold and ruthless.

Ji Feng's behavior is simply a provocation to the entire New York mob!

To put it even more seriously, Ji Feng was slapping those remaining gangs in the face! It was even a slap in the face of the entire New York mafia.

The situation now could not be clearer, as almost all the gangs in New York that can be counted have joined the action against Ji Feng, even some gangs that did not have anything to do with Ji Feng have also joined in, because the scale of the assets of the group company, the Weta Group, is too tempting.

In the eyes of those gangs, the Weida Group is a big piece of fat meat, who does not want to bite it?

If it were normal, those gangs would not be so bold, after all, the law in Rice is not a joke, although these gangs are connected to the police, but who can guarantee that the Vistra Group does not have relations with the police?

What's more, the most serious crackdown in Rice now is on gangs undermining economic development, so those gangs usually try to develop their own business and normally won't go after other businesses.

But now it is different, Ji Feng has taken out so many important figures of gangs, and even invited the White Hand Party, so what good can come to the Vida Group?

Even if there is a strict punishment by law, but after all, the number of people offended by Ji Feng and the Weta Group is too much, these gangs rise up and attack, even if the MiG intervenes, it may not be able to solve the problem smoothly, the so-called law does not blame the public, this is the case.

Under such circumstances, how can these gangs, which are originally rogues and villains at heart, sit still?

It would be best if they could take advantage of the opportunity to get a piece of the pie. This kind of good job, where one can make money without any effort, is not something that one can easily come across.

It would be easier to deal with Ji Feng and the Weida Group than to fight with other gangs for a little bit of territory and sell a little bit more white flour, right?

So, a few gangs that had no conflict with Ji Feng also sent people out.

In this way, together with those gangs that originally hated Ji Feng so much that they would not give up until he was killed, almost the entire New York mob was included.

Those who were not really involved were either the Green Gang, the Chuk Yuen Gang, and some smaller gangs who did not dare to participate in this big storm.

The situation could be described as bad to the extreme.

However, Ji Feng had the audacity to go to the extreme. In the face of this dire situation, he not only didn't give in half-heartedly, but also slaughtered the top brass of the five gangs that had provoked him in one night!

Powerful and domineering!

Ruthless, yet overwhelmingly severe.

Even Ji YuYi, who knew Ji Feng better, was at a loss for words when she heard the news, and her red lips trembled a few times, not knowing what to say.

When she heard the news, Ji Yuhui even subconsciously had an illusion – was she just dreaming before? Was the situation actually not that bad?

Otherwise, how else could one look at Ji Feng's actions and see that he was the one who had the upper hand, while the entire New York mob, was being overlooked by him?

— Simply unbelievable!

Ah Bo was also aghast from the sidelines.

If Ji Feng had treated those gangs like that before, it could still be said that he was arrogant and young and arrogant, or that he didn't put others in his eyes because he was somewhat powerful.

But what is it now?

How does this look like an unarmed little child barging straight into a robber's den and shouting, "If any of you dare to provoke me again, these people will be your example!"

The next moment, this little child directly killed five vicious robbers, killing the chicken to show the monkey ..... really let people do not know what to say.

"..... He's looking for death!"

Keeping frozen for half a day, Abe could only hold out this sentence, "He is thinking that he is not dying fast enough, that the Vida Group has not been attacked hard enough and has not yet perished!"

Ah De also laughed coldly, "Ji Feng is really powerful, he doesn't even look for death like this! This time, he's really dead!"

Ji YuYi glanced at Ah De, but did not reprimand him, this was also an unprecedented first time, in the past whenever Ah De said something bad about Ji Feng, Ji YuYi would always be very upset, but this time, she actually did not know how to reprimand, perhaps, in her subconscious, she also thought that what Ah De and Ah Bo and the others said was right.

Ji Feng did this, domineering, overbearing, but all this could not hide one thing – this kind of behaviour by Ji Feng was undoubtedly seeking death!

"What's wrong with him ....." After a long time of silence, Ji YuYi sighed quietly, as if she wanted to spit out the thick shock and the astonishment that had reached the extreme in her chest.

.....

This kind of domineering, forceful tactics and behavior of Ji Feng has subdued but everyone who knows him.

Ji YuYi, Ah Bo's grandfather and grandson, Wu ChangGong, Zhu MinYuan .....

However, everyone who knew about this news was overwhelmed.

They were shocked at Ji Feng's harsh and ruthless methods, at his strong and overbearing style of acting, treating the entire New York mafia like a monkey, treating those five medium-sized gangs like a chicken, killing the chicken to show the monkey, what Ji Feng had done .....

It is simply shocking!

However, while in shock, everyone was in disbelief at this behavior of Ji Feng, could this guy be crazy?

How could he dare to do this?

The actual fact is that you will be able to find out more about the actual actual actuality.

Was he afraid that he wouldn't die fast enough? Or is he afraid that the Weida Group will not be destroyed fast enough?

Not only those who knew Ji Feng, but also those who did not know him, but knew the circumstances of these incidents, were shocked and incredulous.

Even Ji YuYing and Wu ChangGong, who knew a little about Ji Feng's strength, thought the same thing.

That would be seeking death!

For a while, Ji YuYing began to worry about Ji Feng, while Wu ChangGong considered whether the Qing Gang's choice was wise or not, while the two of them, Uncle and his grandson, began to gloat, and even began to hope that Ji Feng would die sooner and more miserably.

Some people felt sorry for Ji Feng, thinking that it was a pity that he died so early for such a good fighter, another Chinese kung fu kid who died young, just like Bruce Lee back then, except that Bruce Lee died by accident, while Ji Feng sought his own death.

There are also people who rejoice, these are the people who have been hurt by Ji Feng's own interests .....

Because of Ji Feng's domineering and harsh tactics, the entire New York Dao was abuzz, and it could even be said that it smacked of an uproar.

However, for those mob bosses, this tactic of Ji Feng's was tantamount to a direct slap in the face, causing them to burst into a fury.

"Send everyone out and find that bastard! I want him dead!"

"Find the boss of the Weida Group, find Ji Feng and do away with them!"

"Mobilise all the manpower, send out everyone from that thieving gang, make sure you find them in the shortest possible time ....."

.....

New York's underground world boiled over, a large number of gang members took to the streets, they didn't even sell white flour, they didn't even do business, all for one purpose – to find Ji Feng, to find the family of the boss of Weida Group, and then, to do away with them!

However, at this moment, Ji Feng did not think about this at all. Although he had already expected how the outside world would react, he ignored it.

Since Ji Feng dared to do it, he had naturally thought of the consequences, he himself was not a reckless person, and naturally he would not act recklessly.

Now Ji Feng had discovered something rather interesting – it was already after nine in the morning, and his mobile phone had never rung.

What does this mean?

He did not believe that Wu Changkong had not received the news, nor did he believe that Ji Yujie and the others would be so closed off. But the fact that his mobile phone hadn't rung meant that they hadn't tried to contact him even though they knew the news!

"People are all inclined to avoid misfortune!" Ji Feng gave a non-committal smile, "Friends?"

From this point on, it was enough to see the relationship between people, Wu Changkong was just fine, and Ji Yujie ..... Ji Feng shook his head, and thanks to Ji Yujie who used to be able to claim that they were friends!

This is how to be friends?

The actual fact is that you can be a friend of yours, so why do you care so much about her actions and intentions?

"Mediocre people disturb themselves!"

Ji Feng secretly mocked.

"Ding ....."

Suddenly, Ji Feng's mobile phone rang, his eyebrows raised, what was he thinking?

But when Ji Feng took his phone out and took a look, he found that the call was from his second brother, Ji Shaolei, Ji Feng smiled and picked up the phone, "Second brother, it's me ....."

"San'er, no more nonsense, I can't persuade Little Aunt's side!" Before Ji Feng finished his words, he heard the urgent voice of the second brother coming from the phone.

Chapter 1844

"San'er, without further ado, I can't persuade Little Aunt's side!" Ji Feng had not finished his words when he heard the urgent voice of the second brother coming from the phone.

"How?"

Once Ji Feng heard Ji Shaolei say this, his heart sank and his brows furrowed, "Second brother, is it that little aunt insists on going to that board meeting of Weida Group?"

Ji Shaolei said, "That's right! That damned Hong Yiming called again just now, he said he had summoned all the board members on the phone, and now all that's left is Xiao Gu!"

Ji Shaolei's voice was very urgent, apparently he was also feeling tricky.

Ji Feng frowned: "Second brother, then try to persuade little aunt ah, you tell her, yesterday I did something again, now outside is particularly chaotic, almost all the gangs in all of New York are targeting us, also looking for her, if she goes out, then it is like a sheep into a tiger's mouth ....."

"You think I didn't say that?" Ji Shaolei said helplessly, "I said, I said all these things, but there are some things you don't know!"

"What things don't I know?" Ji Feng asked at once.

“This morning Hong Yiming called, and he said on the phone that he had called all the directors of the Weida Group together!” Ji Shaolei said, “And he also said that just because Little Aunt let you do something recklessly, it has brought an unprecedented huge crisis to the Weida Group, as well as huge trouble.”

“Because of our reckless actions, many big companies are now attacking the Weida Group, and those partners who had been maintaining good relations with the Weida Group have all faxed or called the Weida Group, because sometimes Xiao Gu’s mobile phone would be switched off and they couldn’t contact her, so the heads of those companies directly contacted Hong Yiming This vice president contacted them all and they all unilaterally took the initiative to cancel their contracts with the Weida Group, or to cancel their cooperation!”

“And that’s not all!”

Ji Shaolei said so much in one breath, he took a slight breath and continued, “There are also the employees of the Weida Group, according to Hong Yiming, because of our reckless actions, a large number of employees of the Weida Group have been hurt .....”

Ji Feng listened quietly, he actually understood all these situations, and he also knew that after what happened last night, he believed that those gangs would be even more frantic, and could even be said to be frantic in their counterattack.

Under such circumstances, the employees of the Weida Group would also be implicated, but according to the past, the employees of the Weida Group were only beaten up or robbed at home, but there were no too serious injuries, not to mention that there were no cases of female employees being insulted, or people being disabled or even killed.

Therefore, Ji Feng also put up with it for the time being, as long as this storm passes, this will all be fine. And there would be enough compensation for those employees to them in the future.

“..... Because of these things happening, so Hong Yiming called all the directors and then proposed to the board that if Xiao Gu still didn’t come out to explain and didn’t solve this matter again, he would jointly remove Xiao Gu from the chairmanship.”

Ji Shaolei said, “At that time, Xiao Nun will be kicked out of the Weida Group by them, and, it is not very likely to get the money, Hong Yiming and the others will definitely excuse that those employees have suffered great harm and want money as compensation, those shares of Xiao Nun will definitely be realized, but whether they will be issued to those employees in the end is unknown, but Hong Yiming will definitely take great benefits .....”

“Boom!”

Ji Feng gently slapped his hand on the table as he coldly snorted, “It’s Hong Yiming again!”

“It’s not him!” Ji Shaolei said in a deep voice, “He is trying to take this opportunity to successfully sit on the throne of the old boss!”

“Humph! You’re thinking too simply!” Ji Feng grunted and a cold light flashed in his eyes, “This dog, Hong Yiming, he doesn’t just want to sit on the throne of the boss, he also wants Xiao Gu’s life!”

Ji Feng could know what was going on in the outside world even if he didn't go out, not to mention that there was Li Guoliang poking around outside in time and then passing on the news to him, so of course he knew exactly what was going on.

And Hong Yiming at this time, to convene what the board of directors, he is trying to take this to force the little aunt to show up, at that time, the little aunt as soon as appear, I'm afraid that can never return .....

"It's this Hong Yiming again!" Ji Feng pondered for a moment before he said in a deep voice, "Second brother, can't you really persuade little aunt?"

"What do you think?"

Ji Shaolei asked rhetorically, "Little Aunt, as a woman, came to Rice with nothing, she started from nothing to create these family businesses now, do you think she would stand by and watch others snatch away the foundation she has worked hard for half her life to create?"

Ji Feng was silent.

Indeed, not to mention the foundation that one has worked hard for half a lifetime to create, even if one is an ordinary person who has worked hard for half a lifetime to build a house, only to encounter certain authorities that have to demolish it, even the most honest person will rise up and fight for his life, even if he has to face violent authorities!

Not to mention a woman with a strong character like Little Aunt?

In such a situation, she would definitely dare to fight for her life! It was to guard the foundation she had created, that was her dream!

"Second Brother, in that case, then you can tell Little Aunt that I'll go over there!" Ji Feng said in a deep voice: "Before I arrive, second brother, even if you kneel, you have to stop little aunt!"

"You're coming back?" Ji Shaolei was stunned, "Third child, you want to show up too? You don't want your life?"

"Second brother, what did the two of us come to Rice for? Isn't it just to help Little Aunt solve her troubles?" Ji Feng said, "This current situation is caused by me, although Hong Yiming is an unplanned trouble, it's also because I didn't think about it, so no matter what, I have to protect little aunt's safety!"

"..... That's fine!" Ji Shaolei nodded, he also knew Ji Feng's character, just like his little aunt, Ji Feng also had something in his heart that he held fast to, and also his own principles, persuasion is not persuadable.

"Second Brother, remember what I said, before I arrive, must stop Little Aunt!" Ji Feng said in a deep voice.

"Don't worry, your second brother is not that useless!" Ji Shaolei said in a deep voice.

"Mhmm!"

Ji Feng nodded and said, "Second brother, tell me the address of your place, and the address where Hong Yiming held his board meeting!"

Ji Shaolei then gave the address, and Ji Feng took it firmly to heart.

After closing the line, Ji Feng's face was incomparably gloomy: "Hong Yiming, Hong Yiming ..... you're very good!"

He jerked up from the sofa, put the phone away and said loudly, "White spider, Guoliang!"

Bai Spider itself was sitting on a single sofa not far away resting, while Li Guoliang was outside checking the car, hearing Ji Feng's shout, the two of them immediately walked over.

Looking at Bai Spider and Li Guoliang, Ji Feng's gaze swept over their faces.

White Spider now had short hair, a white jumper on her body and the kind of camouflage like trousers underneath that leaned towards wild sports, very loose and suitable for hands.

Her pretty face was tender and white, and her beautiful eyes twinkled, and she looked so moving.

Then look at Li Guoliang, but he is heroic and uncommon, calm, but full of masculinity.

They were evil people, both at the most wonderful age in one's life!

"Mr. Ji, what is it?" Seeing that Ji Feng kept staring at himself and White Spider, Li Guoliang couldn't help but feel strange as he asked, "Is there something wrong?"

"Mm!"

Ji Feng nodded and said, "There's something to explain to you guys. I have to go out now, perhaps this time I will never be able to come back ....."

"Young Ji!"

"Mr. Ji!"

Before Ji Feng finished his words, White Spider and Li Guoliang couldn't help but exclaim, but they were interrupted by Ji Feng waving his hand.

"You guys listen to me finish my words!" Ji Feng said, "So, what I'm asking you to do next may be the last time I instruct you to do something ..... You should also not say that you are coming with me, you have another task!"

White Spider and Li Guoliang had to swallow back the words that were on their lips, and they saw Ji Feng pause for a moment and say, "White Spider, listen carefully, here is your mission! If anything happens to me, you will be responsible for protecting my sister-in-law's family and sending them back to China! Do you hear me?"

"Ji Shao ....." Bai Spider's heart trembled, her beautiful eyes instantly reddened, Ji Feng had never spoken to her like this before, this was explaining the aftermath!

"Guoliang! You have a mission too!"

Ji Feng ignored the white spider, but looked at Li Guoliang: "You have to do three things, first, prepare weapons immediately, whether hot and or cold, I want them all! Besides that, the car too!"

Li Guoliang nodded heavily, "Yes!"

Ji Feng added: "Second thing, I am now going to protect my sister-in-law, something will definitely go wrong in the middle of this, if I die, you have to work with the white spider and fight with all your strength to protect my sister-in-law. The third thing, you will use your secret channels to get my little aunt's family, and my second brother, back to China, even if it means using violent means!"

He bellowed, "Do you remember?"

"Yes!"

Li Guoliang immediately stood straight, legs together, hands down, standing at attention, and replied in a loud voice.

Ji Feng nodded in satisfaction, "Very good! Go and get ready, I want to see the weapons and cars in the shortest possible time!"

Li Guoliang said, "It's all ready-made!"

Weapons he has long been ready, the car just now he has been getting, now with all ready to go, in fact, these things he has all ready yesterday, just because last night out of the mission, so now is a routine maintenance.

"Ji young ....."

White spider but the beautiful eyes glowed red: "I want to follow you ....."

Ji Feng shook his head and said, "No! I'm telling you, this time out, it's too dangerous, when you follow me, there's a good chance we'll both die ....."

Chapter 1845

"Young Ji ....."

White Spider but her beautiful eyes were red: "I want to follow you ....."

Ji Feng shook his head and said, "No! I'm telling you, this time out, it's too dangerous, when you follow me, it's likely that we'll both die ....."

"I'm not afraid!" White Spider said.

"But I'm afraid!" Ji Feng said, "If the two of us are together, then we might both die, but if you and I go separately then, if I'm in danger, maybe you can still save me, don't you think?"

"But ....." White Spider wanted to say something else, but was cut off by Ji Feng.

"Don't say anything, this is an order!" Ji Feng's face sank, "Remember the task I gave you, and ..... if, I mean if, if I really die ..... don't take revenge for me!"

"Ji Shao ....."

Ji Feng smiled and waved his hand, "Of course, things are certainly not that bad, and what I said is only the worst possible ending. Don't worry, others want my life, that's just delusional thinking!"

Bai Spider, however, had tears in her eyes, she knew that Ji Feng was always confident, where was he like this, before he even set off, he had already started to anticipate the final ending and had even arranged the aftermath?

Even a fool could figure out that this time out, it must be unprecedentedly dangerous, even, so that Ji Feng was not much sure that he could come back alive.

"Come on, you can't cry, before you go out, that's not auspicious, don't you think so?" Ji Feng laughed, he stretched out his hand to wipe away the teardrops on the white spider's face, "Hurry up and get ready, bring all those equipment of yours as well, in addition, bring me that military spike in the luggage bag that Guo Liang packed his weapon in, and prepare a dagger for me!"

"Yes!"

White Spider nodded heavily.

Ji Feng nodded with a smile and said, "Go!"

And then, he turned around and left the living room, taking out the phone in dialing the number.

Looking at Ji Feng's figure, the white spider secretly said in her heart, "If you die, there is no point for me to live anymore, but I will not die immediately, but after sending all those people who killed you to hell, I will go to you again!"

White Spider knew that she couldn't persuade Ji Feng, and she no longer insisted on persuading him.

There was no doubt that she loved Ji Feng, only that she loved in a different way than other women, which had something to do with Bai Spider's experience and personal character.

Bai Spider didn't know where she came from or where she came from, didn't know who her parents were, didn't even know if her surname was really Bai ..... Before she met Ji Feng, Bai Spider never knew that life could be lived so wonderfully, although there were no romantic memories between her and Ji Feng, let alone those of mountainous alliances and sea vows.

However, this period of time beside Ji Feng occupied all of Bai Spider's heart and memories, and nothing, no one, could ever replace this period of time she spent with Ji Feng!

"I will love you in my own way!"

White Spider said softly in a voice that only she could hear. She seemed to be saying it to herself and to Ji Feng, only she also knew that her voice was too low for Ji Feng to hear. However, her words were meant for her to understand in her own heart, so why should she let him know too?

After saying that, White Spider turned around and went upstairs.

After being used to seeing life and death, when facing death, White Spider was more relaxed than ordinary people.

However, White Spider did not know that after she went upstairs, Ji Feng, who was standing at the door of the living room, could not help but look back and let out a soft sigh in his heart.

Of course, what Bai spider said could not escape Ji Feng's ears, but now he could not say anything, he could only sigh. If it was possible, Ji Feng would rather not have pierced that last layer of window paper with the white spider before, then, even if he died, the white spider might not be so sad .....

After slightly shaking his head, Ji Feng went to make a phone call, he was calling Wu Changkong.

"Kid, what do you want?" After answering the phone, Wu Changkong asked in a deep voice.

"It's not a big deal, I'm just telling you that I'm going to a place that those gangs should also know about, if it's convenient, why don't you also bring someone over to see the fun? In the end, if I die, I can also bother you to collect my corpse, what do you think?" Ji Feng asked with a smile.

Wu Changgong was instantly silent, he didn't ask what Ji Feng was going for, nor did he ask what it was because of, all this was out of his hands. However, hearing Ji Feng say this, Wu Changkong did feel something sad in his heart.

It wasn't that he liked Ji Feng, but he felt that it was inevitable to feel sad that such an expert, who could be considered an extremely outstanding young handsome person, had died so young.

"You say the address, I will be there!" Wu Changgong gritted his teeth and said, "Also as a Chinese, I, Wu Changgong, will collect your corpse and see who can stop it! Let's see who dares to stop!"

"Still Elder Wu is righteous, thanks a lot!" Ji Feng said.

"I'm just looking at the fact that we're both Chinese!" Wu Changgong explained, "Besides, I'm only using my personal name!"

"That's meaningful enough!" Ji Feng nodded and said, "However, there is one more thing to trouble Elder Wu."

"Go ahead!"

Perhaps it was because he felt that sense of determination from Ji Feng, so Wu Changgong agreed particularly quickly this time, and it was obvious that he also had a feeling that things hurt when a rabbit dies and a fox dies.

"In order for me not to die so miserably, if there is any news from the New York mob, please also inform me in time, can you?" Ji Feng asked, "I'm talking about the news about me, and my relatives, and the news about the Vida Group ....."

"No problem!" Wu Changgong agreed with great alacrity.

"Many thanks!"

Ji Feng nodded: "By the way, you should also continue to pry into the whereabouts of those gangsters."

"Hmm?" Wu Changgong was stunned.

“In case I don’t die today, then next, it’s their turn to die!” Ji Feng’s voice was icy and full of killing intent as he said.

“..... No problem!”

After ending the call with Wu Changgong, Ji Feng’s face more or less eased up a bit, and only then did he dial Tong Lei’s number.

“Ji Feng?”

When she received Ji Feng’s call, Tong Lei looked surprised.

Ji Feng, however, couldn’t help but feel a little guilty, but he still asked with a smile, “Lei Lei, have you missed me?”

“Yes, it’s been a week since I’ve seen you.” Tong Lei didn’t hide her true thoughts.

“I’ve missed you too.” Ji Feng said with a smile.

After chatting with Tong Lei on the phone for a while, seeing that White Spider and Li Guoliang were almost ready, Ji Feng then closed the line and then dialed Xiao Yuxuan’s number again.

He then called Rong Suyan, Xu Yuan, Qin Shujie and others, only that, to save time, he didn’t talk to Yao Yao, that cute but constantly problematic little girl, and only urged Qin Shujie to run the company well and take care of Yao Yao, before hanging up the phone.

Of course, Ji Feng called Rong Suyan, but it was also because he was acting out of friendship.

Next, Li Guoliang still took on the role of driver. After Ji Feng told Li Guoliang the address where his sister-in-law Ji Nan Yue now lived, he called his parents in the car, as well as the old man.

Because Ji Feng didn’t show any difference, none of them had the slightest suspicion, they only urged Ji Feng to be careful and pay attention to safety clouds outside.

When Ji Feng had informed all the important people, Ji Feng took a look at the battery level of his mobile phone and found that there was still a large part of it, at least it was enough for today, the phone was a special encrypted phone made by the Chinese military, it was also particularly durable.

.....

The first time I saw you, I saw you, and I saw you, and I saw you.

Originally, when Ji Nan Yue heard that Ji Feng was also going to follow, she was going to say no, when Ji Feng laughed, “Little Aunt, my responsibility is to protect you, if I don’t go, then you shouldn’t go either.”

Ji Nan Yue could only agree, and in the end not only did Ji Feng and the others follow, but Ji Shaolei also went along.

Of course, also going with them were the ten men sent by Wu Changgong, while the rest of them were following in secret for protection. As for young aunt’s husband Chu Kang Cun and cousin Chu Wang

Dong, they were escorted by bodyguards while Ji Feng and the others left, to another villa that Ji Nan Yue had secretly purchased under someone else's name, and went into hiding for the time being.

Ji Feng and his party, began to set off.

This group, the bodyguard sent by Wu Changgong was driving in front, Ji Nan Yue's bodyguard was behind, and the two of them, Bai Spider and Li Guoliang, were arranged by Ji Feng, Li Guoliang was responsible for driving, and Bai Spider was responsible for close protection of his little sister.

Ji Feng, on the other hand, drove a separate car and followed in the middle.

This time he had to act alone, because in case something changed, he could let go without any restraint.

In the passenger seat of Ji Feng's car, there was a luggage bag containing a military spike, several grenades, a rifle and a sniper rifle, as well as some magazines.

As for the dagger and pistol, they were placed on his body.

"This journey, it's not good!" Ji Feng gripped the steering wheel and laughed coldly, unless Hong Yiming just wanted to hold a board meeting and didn't put the news out.

However, that was just a delusion.

If Hong Yiming was that kind-hearted, those gangsters could all be called great benefactors!

"But, so what?"

Ji Feng said secretly in his heart, "I'd like to see how many of you there are and how much you are capable of!"

Ji Feng was not a pessimistic person, and he definitely would not actively admit defeat, even to the last moment, as long as he was not dead.

"Even if I really can't go back today, I will still make you guys pay a heavy price and hurt to the bone!" Ji Feng secretly snorted coldly.

He drove his car and followed behind Ji Nan Yue's car unhurriedly.

Chapter 1846

About half an hour later, Ji Feng and his group's motorcade entered the city.

This time, Hong Yiming held a board meeting and set the venue in a hotel in the city, which had a meeting room and a comfortable environment, which was suitable for the meeting.

However, shortly after they entered the city, Ji Feng's mobile phone suddenly rang: "Ding ....."

Ji Feng directly put on his headset and picked up the phone, "Hello, this is Ji Feng ....."

"Ji Feng, this is Wu Changgong." Wu Changgong's voice, came over the phone, but unlike before, at this moment, Wu Changgong's voice, was unusually heavy: "Ji Feng, are you guys in the city now?"

"How do you know?" Ji Feng asked.

“The news that Ji of the Weida Group has entered the downtown area has reached the ears of the major gangs!” Wu Changgong said.

“Is that so?”

When Ji Feng heard this news, but he didn't feel the slightest bit surprised, it was completely within his expectation, he even laughed playfully, “The news has spread quite fast, it seems that there are minions of those gangs on the road we passed through!”

After a pause, Ji Feng asked again, “Elder Wu, what moves have those gangs made?”

Wu Changgong said, “What other moves can there be? They all went crazy when they knew that Chief Ji had appeared in the city, and now a large number of fighters have arrived, and the majority of gangs are involved .....”

Ji Feng asked, “What about you?”

Wu Changgong said in a deep voice: “I have also led people to the hotel near the one you said, waiting here .....

kid, take care!”

Ji Feng smiled and nodded, saying, “Don't worry, I won't die that easily!”

After closing the line, Ji Feng's face was instead completely calm. Many times, before things happen, one is often on edge, but once things happen, instead, there are not so many scruples and one is no longer so afraid.

This is the time when you will find that things are just like that!

Ji Feng picked up the walkie-talkie in the car and said in a deep voice: “Guoliang, inform everyone to be careful, some gangsters have found us, there will definitely be danger later.”

Li Guoliang immediately nodded his head and said, “Understood!”

Ji Feng added: “Remember, once there is danger, abandon the car immediately, then take advantage of the chaos to hide and find another car to leave, remember?”

Li Guoliang said, “I understand.”

.....

At the same time, the entire New York mob was once again abuzz with excitement.

I don't know where the news came from, but someone said that Ji Nan Yue, the boss of the Wei Da Group, had appeared and she was on her way to the city. And with her, it was likely that there was that guy who dared to provoke those gangsters – Ji Feng!

Even the detailed address was stated in the rumours.

“Ji Nan Yue has appeared?”

“Ji Feng is here too?”

Once this news spread, how could those gangsters who had been slapped hard by Ji Feng sit still?

However, not much time passed before some more members of the gangsters saw with their own eyes the car of Ji Nan Yue, the boss of the Weida Group, actually entering the city.

Although it had only just entered the city from the suburbs and was still far from the city centre, there was no doubt that Ji Nan Yue had arrived!

Everyone could not sit still!

So almost all the gangs that had a grudge against Ji Feng mobilised, their subordinate fighting teams, fighting halls, and those fighters were all called up and rushed to the rumoured location.

The company's main business is to provide a wide range of products and services to the public.

.....

"Mr. Ji!"

Ji Feng was driving, while watching the surroundings, when he suddenly heard Li Guoliang's voice coming from the intercom.

"Guoliang, what's wrong?" Ji Feng asked.

"I have something to show you!" Li Guoliang's voice was incomparably heavy, "Come here quickly."

Ji Feng frowned slightly and saw that Li Guoliang had slowed his car to a stop, he immediately drove up and asked, "Guoliang, what is it?"

Li Guoliang, however, took out a PDA and said, "Mr. Ji, look at ....."

Ji Feng immediately followed Li Guoliang's finger and looked over, and saw that on that computer screen was a three-dimensional satellite map showing one of the roads, which looked very familiar.

"This is the road we are taking now?" Ji Feng jerked his head to look, and sure enough, the buildings on both sides of the road were just like the map.

"This is the road!" Li Guoliang nodded and said, "However, if we go further ahead, this is the only road ahead of us, with buildings on both sides."

Ji Feng immediately frowned, and after his finger scratched on the computer screen a few times, he found that this road went further until the end, which was the hotel they were going to, and at the foot of the hotel was a three-way intersection, and directly opposite the hotel was this road, and then there was another road that crossed over in front of the hotel.

Ji Feng asked, "Do you mean that if we go any further, we are entering a dead end?"

"That's right!"

Li Guoliang nodded, "Mr. Ji, if we get to the hotel and those gangs block these two roads, we will really have no way to get to heaven and no way to get to earth!"

Ji Feng stared carefully at the satellite map and frowned, after a long time, he said, "I don't think so, it's okay, let's keep going!"

Li Guoliang hesitated for a moment, but still nodded, since Ji Feng said it was okay, then there should be a solution.

The caravan continued on, and Ji Feng noticed with a little observation that there were very few pedestrians on this road, and many shops on both sides were also half closed ..... Soon, they arrived at a place less than a kilometre away from that hotel. Ji Feng could even already see the name of that very spot – the Westin New York Hotel!

“Buzz~~!”

Suddenly, Ji Feng’s mobile phone vibrated, but it was Wu Changkong calling.

Ji Feng immediately picked up the phone, “Elder Wu, is there any new news coming out?”

Wu Changgong said, “Ji Feng, I am now behind the Westin Hotel, if something happens, run towards the hotel, it is a world famous hotel, it is invested by foreigners, there are police stationed inside, no gang will dare to rush in!”

Ji Feng nodded, “Thank you!”

Only then did he understand that I’m afraid Hong Yiming had deliberately chosen such a foreign hotel in order to make his little sister feel at ease about coming, but it was a way of life.

“Take care!” Wu Changgong said once again, then hung up the phone.

“Guoliang, once something goes wrong later, you and White Spider have to protect Mr. Ji and rush towards the hotel, no one else can go anywhere else, go out through the back door of the hotel, or through the window on the first floor, then leave as soon as possible according to the method I told you before, remember?” Ji Feng picked up the intercom and said in a deep voice.

Li Guoliang’s voice quickly came through, “Understood!”

Ji Feng then nodded slightly, with White Spider and Li Guoliang around, there shouldn’t be any problems with Xiao Gu’s safety!

“Buzz~!”

Just at this moment, a loud roar suddenly came from the front, only to see a large rubbish hauler, not knowing when it appeared in front, and was rushing towards this way like crazy, instantly crashing into the car in front before the people in the convoy could react!

“Boom~~!”

Under that huge impact, the two cars in front were directly deformed, while the huge rubbish truck was still letting out a huge roar as it continued to charge forward.

This was starting!

This thought flashed through Ji Feng’s mind, and immediately, he shouted into the intercom, “Li Guoliang, White Spider, follow the original plan and go behind me!”

“Ouch .....”

A huge wave of sound drowned out Ji Feng's voice instantly.

Immediately afterwards, a scene that shocked everyone appeared – on this road directly opposite the Westin Hotel, in front of and behind the convoy, a black pressed crowd appeared, these people were holding all kinds of weapons, to bright shining knives, there were pistols, all rushing forward in a frenzy.

In front, behind, among the shops on either side, and on that road in front of the Westin Hotel, there were people everywhere!

They were all dressed differently, they had different colours, but they were all fierce and vicious, and they were all rushing forward. .... All together, there were probably thousands of them!

The whole street was filled up!

The youth gang fighters in a car in front of them immediately fired at the outside, but the next moment, the other side immediately fired back: "Blast off ....."

That car was instantly beaten into a sieve!

And then, those gangsters charged forward again.

Seeing this scene, Ji Feng's anger shot straight to his head, his eyes widened and he roared, "I'll fuck you up-!"

These bastards were trying to catch them alive! Moreover, they were obviously out to get themselves!

Because Ji Feng heard that these people were all yelling in their mouths in non-standard Chinese: "Finger slits! Fingerstitch!"

They were shouting 'Ji Feng'!

"Since you want to arrest me, then I will destroy all of you today!" Ji Feng roared.

The next moment, Ji Feng pushed open the car door and rolled on the ground to get out directly.

"Da da da da da ....."

As soon as he saw Ji Feng get out of the car, the other party's gunshots rang out, causing Ji Feng to violently roll under the car, he simultaneously cursed angrily in his heart, these guys weren't not shooting, they were looking for important targets!

Ji Feng was lying under the car, his mind was racing, but he didn't go out immediately, he was waiting.

"Finger slits! Finger slits ....." When the large group of gang members finally rushed to the vehicle, Ji Feng mentally roared, "Now is the time!"

He violently rushed out from underneath the vehicle and directly crashed into those gang members.

From this moment on, the guns in the gang members' hands were no longer effective, and at the same time, a black military spike, a dagger, appeared in Ji Feng's hands.

When Ji Feng's dagger slashed through the neck of a nigger, a line of blood spurted out!

When the military spike in his hand easily pierced a guy's chest, blood shot out along the blood groove of the military spike .....

And so the killing began!

Chapter 1847

This long street directly opposite the Westin Hotel in New York was completely devoid of its usual bustle, and in its place was a black mass of heads.

It was a T-street, both vertically and horizontally, full of people!

Everywhere!

All these people, without exception, had weapons in their hands, some with daggers, others with pistols, and clubs, triangular pronged iron weapons ..... and even micro-charges.

Looking at that formation, it was almost as if time had suddenly returned to a time of war decades ago, and it was still the most gruesome alleyway battle that could have occurred.

Yet at the moment it was more than just an alley battle, because the two sides fighting looked so vastly different.

On one side, it was the major gangs of the New York underground world, because they had learned in advance that Ji Feng and Ji Nan Yue, the boss of the Weida Group, had come out, therefore, these gangs had mobilised all the most elite forces within their gangs, those fighters, all of them were gold medal fighters, all of them had really seen blood.

Those gunmen are also extremely accurate, and many of them are even masters who have entered the gangs directly after retiring from the army.

When these people were assembled together, it was self-evident how strong they were.

Faced with so many people, even if the MiG sent the army over, they would have to be numbed, knowing that this was not a battlefield, but a very busy street in downtown New York, where no heavy weapons could be used, such as missiles and rockets, which the MiG military would certainly not use.

Therefore, they had to fight in close quarters.

But close quarters combat in front of so many gang members?

I'm afraid no one would not get chills down their spine!

However, at this time, there was no MiG military, no marines, and no super special forces ..... so many gang members gathered here, and they had only one goal – to capture Ji Feng, alive, and directly finish him off!

The other side of the battle, however, was just a few people – Ji Feng, White Spider, Li Guoliang.

There may be a few other bodyguards, but in fact, these people are now able to defend themselves thank goodness ..... For example, the doors of the cars in front of them are all dead shut, and those

bodyguards can only hide in their cars and not come out, relying on the bulletproof glass and special bodywork to fend off those knives and sticks!

Even White Spider and Li Guoliang could only hide in the car for the time being, as they were guarding Ji Nan Yue.

Therefore, in reality, the only one who was actually fighting those gang members outside right now was simply Ji Feng.

Alone, he had to fight nearly a thousand gang members!

To say that he was in a desperate situation was definitely not an exaggeration, this was Ji Feng's current situation.

If one were to look down from above, one would see that the originally spacious street was completely stuffed with black pressed crowds, everywhere was the sound of rushing shouts and killing, as well as the surging torrent of gangsters .....

Ji Feng was caught in the middle of a heavy siege!

Li Guoliang and the white spider in the car looked like they could not wait to rush out and fight side by side with Ji Feng and kill all those gang members, but they did not dare to disobey Ji Feng's orders, so they could only sit in the car and guard Ji Nan Yue.

However, looking at so many people outside, just now Li Guoliang and they saw from the rearview mirror that Ji Feng had gotten out of the car, you can imagine, now Ji Feng is facing what kind of scene ..... even, I'm afraid that Ji Feng now is not still able to stand up, is not still alive, that is already an unknown number.

Because there are too many people, they can't see Ji Feng at all now.

The two of them were both gritting their teeth, their eyes were red, their fists were clenched tightly, their hearts were filled with hatred, but other than that, there was nothing they could do!

However, unlike the two of them, Ji Nan Yue was calm at this moment.

She was not blind, and of course she had seen the terrible scene outside, but she could not find any fear on her face.

This was Ji Nan Yue's insistence.

She had travelled far away from home and was alone in the country, and had suffered a lot before she had created a family business.

If the other party was so powerful that she could not resist, then she would use her own life to defend what belonged to her.

Of course, Ji Nan Yue also knew that the situation had deteriorated to the present state because of Ji Feng's reckless actions, but Ji Nan Yue had not blamed Ji Feng either.

This was because she knew that Ji Feng had come to help her and everything he did was out of good intentions.

When a junior does something wrong, it is only logical that she, as an aunt, should take the blame, there is nothing to say.

Only, a touch of sadness surfaced in Ji Nan Yue's eyes.

The child of the elder brother may have to die here with himself today. I only hope that the elder brother will not hate himself too much .....

.....

Meanwhile, on top of a taller building on one side of the street, a group of people were standing on top.

At the head of the group was no one else, none other than the Miss Thousand and One of the Chuk Yuen Gang – Ji Yuet-yeung.

Behind Ji Yu-ye was Ah Bo and the others, as well as quite a few brothers from the Chuk Yuen Gang, these were the most capable and elite brothers of the Chuk Yuen Gang, and they had come to take charge of protecting Missy.

"Ji Feng is dead!"

Looking at the heads of people everywhere below, and the heaven-shaking shouting and killing sound, Ah Bo couldn't help but suck in a breath of cold air: "It's already a desperate situation now, even if Superman comes, he will definitely die here!"

Even though he was used to seeing all kinds of big scenes, this was the first time he had ever seen a scene like today's where nearly a thousand people gathered together to kill one person.

It was a real shock to him. So many people against one person, that's not called extermination, it's called lynching!

Ade was also there, he also saw the shocking scene below, his face was flushed with excitement, his lips were trembling, "It's too ruthless, it's too, too ruthless!"

But a deep look of regret flashed in Ji Yuhui's eyes as she said in a deep voice, "Can you think of a way to help?"

Ah Bo said at once, "Big Miss, no, if we lure those gang members up, they won't distinguish between red and white, besides, we are so far from the ground, how can we help?"

Ji YuYi closed her eyes in pain as she secretly said in her heart, "Ji Feng, I will find a way to avenge you!"

.....

"What a pity!"

Wu Changgong was also aware of what was happening at the scene, in fact, he was standing on the roof of a building next to the Westin Hotel, looking at the scene below.

The entire street had been filled up by gang members, and at this time, even if Ji Feng had great skills, he wouldn't be able to escape.

Ji Feng was dead!

Wu Changgong couldn't help but shake his head, even though he didn't like Ji Feng, he couldn't deny that Ji Feng was also a young and handsome man, such a person was dying young, it was really lamentable.

"If your body is still intact ..... I will collect your corpse for you!" Wu Changgong secretly said in his heart.

"Just, these gang members even if a person cut a knife, even an elephant, are enough to be chopped into meat paste, how can Ji Feng still have any corpse left ....."

.....

"Kill! Kill that son of a bitch!"

On the other hand, on the roof of another building, it was someone shouting.

If you look from high up in the air you will see that on the roofs of the buildings on both sides of this street, there are many people sticking their heads out and looking down, these people, most of them are the top brass of the New York Underworld gangs, and all the gangs that participated in this operation, the top brass of their gangs are even more able to come and are watching from above.

They were all watching from above. They were about to take out Ji Feng, which was a great joy, so how could they not come and see for themselves?

However, this also illustrates in another way how much pressure Ji Feng's harsh and ruthless tactics, as well as his strong and domineering style, had put on them, and how scandalous they were.

So this time even though they knew for sure that Ji Feng would die, they all ran over personally, they had to see Ji Feng being taken out with their own eyes before they could truly feel at ease.

Of course, apart from these gangs that had problems with Ji Feng, other gangs and some good people, who had also come, had all gotten wind of it in advance and were standing on the roof of the building looking down.

This kind of sound, this scale of gang action, how many years may not be able to see once .....

However, whether it was the bosses of the gangs that sent their men directly to do away with Ji Feng and the other top people, or those who were watching, or those who were familiar with Ji Feng, without exception, they all thought that Ji Feng was dead!

Because, those gangsters were so many and so vicious that just one look at them was enough to make one's liver and guts split, let alone fight against them!

For a while, everyone had different looks on their faces, some had joy on their faces, some looked sad, and some had an inexplicably complicated look on their faces.

"\*\*\*\*!"

And at this time, in a room on the top floor of a tall building further away, a few people in police uniforms were cursing, "That Chinese monkey is finally dead ....."

.....

“Poof!”

A flash of blood flashed.

Immediately afterwards, a man dressed in black was seen squeezing into the crowd, following the frantic crowd, but no one noticed that in the crowd, there was a white man covering his neck, with his eyes staring deadly, and just collapsed.

The white man fell silently and was soon trampled on the ground, his death attracting no attention at all in this mad and heated moment.

Chapter 1848

The sound of shouting and killing in the streets, with nearly a thousand people wielding weapons in a frenzied rampage, is a scene that is enough to make one’s body go cold and tingly just thinking about it.

Even .....

The scalp is fried!

However, in the midst of these raging crowds, there was a figure roaming around, like a ghost, weaving through the crowd without anyone noticing him.

It was really because there were too many people here, and the emotions were all too intense, and one more person like him was simply inconspicuous, which gave him enough cover.

Ji Feng’s eyes shot out an icy and chilling gaze, the incomparably sharp dagger, as his hand slashed through.

“Pfffffffffffff .....”

That sound of the blade cutting through the throat was really screaming for one’s scalp to tingle and one’s stomach to churn.

However, the effect was also incomparably amazing.

Every time Ji Feng’s hand stroked, it brought up a long line of blood, that was at least four or five people’s throats stripped, and all of them were killed with a single slash, without mercy.

At this moment, Ji Feng was like the God of Death who came up from hell, using the scythe of death in his hand to reap life.

Ji Feng’s face did not have the slightest expression, just cold and frightening, but his eyes shot out a cold and merciless light, and wherever his gaze passed, it was a throat and chest .....

“Pfft!”

“Poof poof poof~~!”

Foreigners are tall and sturdy, usually a little taller than Chinese people. However, Ji Feng’s height was equally not low, and in the midst of this raging crowd, his movements were not affected at all.

At this moment, Ji Feng pushed the bio-current in his body to the extreme, and his whole person almost turned into a killing machine, but wherever he passed, rows of people either covered their necks or their chests, and fell down with their eyes staring dead.

Even to their death, these men never figured out who had killed them and how they had died!

At this moment, those who were at the front had already rushed to the front of the convoy and surrounded all those vehicles, especially the car driven by Ji Feng, because when he rushed out, the door of the car was already open, so at this moment, it was surrounded by what could be called a waterfall.

However, at this time, the harmful effects of those gangs sending out a large number of men were also revealed. The people in the front had to check if there was anyone else in the car, while the people behind them could not see clearly what was happening in front of them and were still rushing forward, so the people near the vehicle could not turn around after they found out that there was no one in the car.

And at this time, Ji Feng was just a few meters away from the car, he secretly snorted in the crowded crowd, waiting for the moment!

The next moment, the dagger and military thorn in Ji Feng's hand were handed over to one hand at the same time, while with his other hand, he took out two grenades, he used his teeth to yank off the pull ring on the grenades directly, and instantly threw the grenades into the car.

This series of actions were all done in the blink of an eye. When Ji Feng had fully displayed his strength, the speed had been so fast that it was definitely beyond the imagination of these gang members!

The most important thing was that there were too many people, too crowded, even if the bomb was thrown into the crowd, it wouldn't hurt many people, it would only put a few more pieces of shrapnel on the people closest to the bomb, so Ji Feng threw the grenade into the car.

"Boom!"

An earth-shattering explosion sounded instantly.

At the same time, the car exploded, perhaps because the explosion of the grenade had detonated the bomb that Ji Feng had originally placed in the car before he had time to take it away completely, so all of a sudden, the car turned into a terrifying source of bombs and exploded in an instant.

This explosion was like a huge cannonball falling into the crowd. Both the fire that shot up into the sky and the huge shockwave were incomparably shocking, causing the gang members near the car to not even have time to react, several of them were directly blown up into the sky, and others even fell down.

The power of several bombs exploding in succession is absolutely unimaginable to those who have not experienced it first hand, plus the car's own fuel tank exploded along with it, and the fire alone turned several people into firemen in an instant .....

The sound of a terrifying explosion, the harsh and incomparable screams, and the shouts, as well as the shouts of those behind ..... all sounded into one, and the scene was chaotic to the extreme.

The car that Ji Feng drove exploded, which also caused the people in front of several other cars to instantly break out in a cold sweat and back up in a panic. However at this time how could they possibly

retreat, the people at the back were rushing forward, but the people in front were desperately trying to retreat .....

Thus, a large number of people fell down, and then instantly were trampled on the ground with a harsh scream .....

However, as early as the moment the bomb exploded, Ji Feng had already started to rush in the direction of where Ji Nan Yue's car was, he wanted to save Xiao Aun and Li Guoliang and Bai Spider from this chaotic situation, and then he had to do his best to send them into the Westin Hotel, and only then could Xiao Aun and the others escape.

However, things changed beyond Ji Feng's expectation, he did not expect these gang members to be so timid, originally acting very crazy and aggressive, after seeing the car explosion, these thugs were scared and backed up, resulting in a large number of people falling down, and the scene instantly became chaotic.

If Ji Feng continued to charge, he would undoubtedly be very solid.

With no choice, Ji Feng made a split-second decision and immediately bent over and once again blended into the crowd.

However, Ji Feng snorted coldly, and at the same time, a grenade once again appeared in Ji Feng's hand, which he threw out in the direction of Xiao Gu's car.

"Boom~~!"

The bomb instantly exploded, and immediately several more people were directly blown away, and a large area among the crowd of gang members also fell down.

Ji Feng, however, abruptly accelerated and finally arrived in front of Xiao Gu's car.

He used his fastest speed to punch through the glass and pull open the car door, then held Xiao Gu hostage while shouting, "Go!"

White Spider and Li Guoliang also rushed out quickly, and they heard Ji Feng drink, "Follow me!"

The next moment, Ji Feng held Xiao Gu in one hand, and his feet suddenly fired, and he directly rushed into the crowd.

White Spider and Li Guoliang followed closely behind, also following Ji Feng's example and rushing into the crowd. During this whole process, Ji Nan Yue was all calm, the scene in front of her could not make her afraid at all, perhaps she had already expected to die when she came out.

The only time when she heard Ji Feng's voice and knew that the person holding her was Ji Feng, Ji Nan Yue's eyes snapped open, Ji Feng was not dead!

However, when those gang members in front of them became terrified because of the bomb, they were either killed by the bomb, or they had to back up and were stepped on, making the surrounding area surprisingly become quite empty at once.

At this time, the tall Ji Feng with Ji Nan Yue was conspicuous, and someone spotted them!

“There they are, \*\*\*\*! Finish them off! There they are!” On the roof of a building on the side of the street, someone was yelling angrily in English.

“That’s Ji Feng! That’s Ji Nan Yue, get them! Kill them!”

Someone had been using binoculars to look down from the top of the building, and when they saw that Ji Feng had appeared and had rescued Ji Nan Yue, they roared in anger.

And the person in charge of directing the operation began to roar into his headset, giving orders.

“Make sure you kill Ji Feng! Make sure to kill him!”

“Whoo! Oh my god! Why isn’t he dead yet? How did he survive?” Seeing that Ji Feng was actually still alive, the people on the roof of the building were all shocked and angry, roaring in rage.

Ji Feng was just too terrifying, not only did he not die in this situation, he was even able to save people from the car, which was simply unbelievable.

These people on the roof of the building were instantly scared, they had never seen such a terrifying person before!

However, these gang leaders and gang executives upstairs did not realise that their roar was clearly heard by Ji Feng, although because they were shouting fast and furiously, Ji Feng could not understand what they were saying at all, but the tone ‘finger slit’ was heard by Ji Feng.

Without saying a word, he flung his hand and threw out another grenade.

“Boom~~!”

That huge explosion immediately made the scene more chaotic and caused those gangs to lose some people again.

Ji Feng yelled, “Use each other’s bodies as cover!”

Because the situation was so urgent, he couldn’t even bother to call Li Guoliang and Bai Spider’s names, he could only give the order directly.

In such a crowded situation, it would be very difficult for anyone to kill them, knowing that they were almost next to each other, and the distance between them was at most half an arm’s length.

White Spider and Li Guoliang instantly understood why, in that situation just now, the surging tide of gang members had completely flooded the entire street, the situation could be described as bad to the extreme, but Ji Feng had survived intact.

Because of the small target and also taking advantage of the crowdedness of those gang members!

Swish! Swish swish!

White Spider and Li Guoliang also each drew their daggers from their waists, while holding a pistol in their other hand, while they followed closely behind Ji Feng and kept weaving through the crowd.

However, these gang members were all elite members of the gang, and that extremely chaotic scene began to gradually ease up, coupled with the fact that there were people on the roof of the building who were specifically using binoculars to keep an eye on the situation below and then convey orders.

Soon, there was a chorus of drinks from the crowd, which seemed to be saying something.

The situation, it had changed!

Chapter 1849

Soon there was a chorus of drinks from the crowd that seemed to be saying something.

The situation, it had changed!

“What are they saying?” Ji Feng quickly weaved through the crowd while loudly asking White Spider and Li Guoliang, who were following not far behind him.

“They’re saying that we’re right in the middle of them!” However, the one who answered Ji Feng was Ji Nan Yue, who was being held hostage by him.

“Little Aunt, close your eyes!” Ji Feng said in a deep voice, because everywhere he passed, people would be fatally attacked by him with the most severe attacks, and he didn’t want his little sister to see that.

“Ah!”

Suddenly, a guy suddenly noticed Ji Feng and the others who passed by him, and he suddenly shouted, turned around and tried to shoot.

“Swish!”

The dagger in Ji Feng’s hand slashed through like lightning, only to hear a ‘poof’ sound, the man suddenly covered his neck with death, his body trembled violently for a few times, but a line of blood shot out from his finger slit.

One slash to cut his throat!

Ji Feng’s expression was incomparably cold, and his gaze was like lightning, taking in all the movements around him.

With

However, Ji Nan Yue is fearless, she is used to seeing the wind and waves, she has no fear of these, if a person’s heart has persistence, then everything is not a problem.

“This kid actually ..... he didn’t die?!” When Wu Changgong saw Ji Feng, his eyes instantly widened and his heart turned up huge waves.

Ji Feng had actually survived even in that unbelievably harsh environment, it was simply inhuman!

What kind of strength is this?!

“He’s actually that powerful?!” Wu Changgong couldn’t believe his eyes, these were all elite members of the gang, they weren’t posers, how on earth did Ji Feng manage to do that? How could this be possible!

In Wu Changgong's heart, a thought popped up – maybe Ji Feng could really rush out?

But then he shook his head and shook the thought out of his head, it was ridiculous, what was he thinking, even if the King of Heaven came, this time he would be dead for sure!

Although Ji Feng survived even in this bad situation, it was simply impossible for him to escape, because at the moment there were people everywhere, he simply had no way to escape, and in the end he would certainly not be able to escape the fate of being hacked to death by a chaotic sword!

.....

“It's Ji Feng! Surprisingly, it's Ji Feng!”

On the roof of the building, Ji YuYi unexpectedly lost her composure and shouted, her hands grasping the lightning rod on the wall of the roof, her body poking down so hard that her whole body almost seemed to jump up.

Ji Yuhui's face was flushed with excitement and a strong wave of joy instantly swept through her whole body, Ji Feng was not dead! Ji Feng was not dead!

“Look guys, it's Ji Feng, that's Ji Feng!” Even though she was not really close to the ground, Ji YuYi was really familiar with Ji Feng's figure, that trench coat of Ji Feng's, she couldn't be more familiar.

In particular, when she looked down from the roof of the building, she would clearly see that Ji Feng and his group were constantly weaving through the crowd, and in that chaotic scene, they were like a snake swimming in the water, although the water was choppy, they were lofty and unmoving, just moving forward in their direction.

Compared to those gang members who were baffled and confused, the movements of Ji Feng and his group, that couldn't have been more obvious!

And everywhere Ji Feng passed, rows and rows of gang members would fall on either side, which brought an image to Ji YuYi's mind – reaping!

That's right!

It was as if the farmers were harvesting the rice, a row of them falling down, not just one or two!

It was so shocking!

Seeing this scene, Ji Yu Ying was so surprised and shocked that she subconsciously murmured, “It's too good, he's too good, it's great, he must be able to break out!”

Ah Bo and the others also couldn't help but change colour in horror, Ji Feng wasn't dead, he wasn't dead?

How is this possible?!

In that bad situation, even Superman would have been trampled to death, so how could Ji Feng not die?

When he saw that Ji Feng had rushed out with his men and was continuing to rush forward, Ah De was like a thunderstorm, frozen on the spot.

He stared at the moving figure below him and roared in his heart, "How could he be alive? This can't be! No! Ji Feng must die, he will definitely die ....."

The same reaction also appeared on the faces of all the gang bosses and those gang executives.

"It's Ji Feng!"

"Is he Superman? God, how did he manage to do that?!"

"This can't be ....."

When those people saw that Ji Feng was advancing quickly, they were shocked, shocked and angry, and even some gang bosses with poor composure couldn't help but pound their chests and yell over and over again.

"Stop him! Stop him immediately!"

"Get the men together and finish this son of a bitch, right now!"

"What the hell!"

.....

On the roofs of the buildings on both sides of the street in front of the Westin, there was a burst of angry roars, as well as those who were specifically staring down with binoculars, constantly roaring into the microphone giving orders.

The fact that Ji Feng was still alive was a huge shock to everyone.

Whether it was the bosses and top brass of those gangs, those who knew Ji Feng well, or those on the sidelines, they were all shocked to the point where their bodies were cold and their hands and feet tingling.

They were even more shocked than when they saw the nearly 1,000 people pouncing on Ji Feng and the others just now.

It was really because it was a near impossible thing for Ji Feng to survive, but Ji Feng had done it, yet no one knew how he did it.

This kind of result really shocked everyone.

Despite the fact that .....

Everyone knew that even though Ji Feng was still alive right now, he absolutely could not escape because he had no way to escape. But even so, the shock in these people's hearts had not diminished in the slightest.

No one could have survived that situation just now, but ..... Ji Feng did!

When he raised his essence to an extreme level, it was no longer too difficult for him to survive that situation.

But that was only the beginning.

What was really difficult was that it only started now, and what followed would be even more dangerous, far from what was possible just now.

The reason for this is that at the beginning, those gang members thought that Ji Feng and the others were definitely dead, so those people were gullible.

However, when they realised that things were difficult, they would immediately pay attention to it.

But at the same time, he was also highly motivated, wanting him to die, not so easy!

The situation is getting worse and worse .....

Those gang members had all reacted, especially as their leader's loud shout rang out, they knew that Ji Feng and the others were mixed in among them.

So, almost in a very short time, these gang members became incredibly alert, and many of them started spinning in place to check if there were any hidden people around them!

Of course, the scene before was simply too chaotic, and even though these people were all elites, they were not able to completely tidy up at once, which gave Ji Feng and the others the opportunity to take advantage of the situation.

Feeling the huge pressure coming from the surroundings, Ji Feng threw out another grenade with his hand.

"Boom~~!"

Another huge explosion came out, and several more gang members were instantly killed on the spot, while those who had just regained their strength were instantly thrown into chaos again.

Not everyone is not afraid of death, as long as there are people who are afraid of death, they will bring up a riot!

Poof!

Pfffffffff .....

Taking advantage of this opportunity, Ji Feng was holding his youngest aunt Ji Nan Yue in one hand, while the other hand was continuously reaping the lives of those gangsters, like the god of death descending on earth!

At the same time, Ji Feng let out a low roar, "Accelerate!"

Immediately, he and the White Spider and the others' speed suddenly increased, and after reaping the lives of a bunch of gangsters, they once again rushed into the mass of people.

The scene was once again chaotic, although not as chaotic as before, but it was enough for Ji Feng and the others!

At this moment, those gang leaders on the roof of the building could not help but roar in anger again.

They cursed their men's incompetence and hated Ji Feng's cunning, this damned Chinese kid, he even knew to use grenades to throw into the crowd to artificially create chaos, making it impossible for the people below to effectively organise themselves against this Chinese kid!

"Tell the men to pull back, don't give him a chance to blend into the crowd!"

"No! If our men retreat, those Chinese guys will definitely follow and blend out, and then they'll all run away!"

"..... What should we do then? Hurry up and think of a way to finish off those Chinese, damn it!"

The gangsters were furious, the other top brass rushed to direct those below them through their headsets and microphones, they were equally anxious, damn the Chinese kid, he's just too cunning!

Where did he get the grenades? How could there be so many?

In fact, Ji Feng's grenades, he had specially instructed Li Guoliang to prepare them in advance, but now he was running low on grenades, only a few were left, but he didn't dare to use them easily anymore.

He just slightly visualized that at this moment they are less than a kilometre away from the Westin Hotel, about 700 to 800 meters ..... but the further back they go, the harder it is, especially when they reach the entrance of the Westin Hotel, if they were to rush in, the people behind them would definitely shoot, and then they would definitely not be able to hide in that open place. They could only rely on grenades to clear the way.

But right now, to get from here to the hotel entrance, they still need grenades ..... but the grenades he has on him are definitely not enough, so now he has to save them!

What's more, what will happen in the middle of this, no one knows, and Ji Feng can't even predict it!

Although there are only a few hundred meters left, but want to rush out ..... Ji Feng gritted his teeth, the big deal is a death, nothing to be afraid of, rush!

Chapter 1850

"Charge!"

Ji Feng shouted, holding his little aunt Ji Nan Yue quickly forward.

This was the rarest of opportunities, the chaos created by relying on the grenades would definitely not last too long, this Ji Feng knew better than anyone else.

This is because he knows that the gang members on this street are all the most elite and strongest members of the various gangs. Perhaps the sudden and violent explosion in the middle of the crowd at the beginning, coupled with the horrific scene of the car being blown apart, will cause all these gang members to have a certain amount of fear.

Everyone has the instinct to avoid bad luck, so when they felt that they had the victory in their hands, they suddenly saw that the people around them were raging to finish off Ji Feng, but in the blink of an eye, these people were blown up into the sky, and some of them were even blown up beyond recognition, their hearts naturally felt an extreme sense of fear.

As a result, these people all retreated, plus the people behind them did not know what was happening in front of them. In this way, the people in front wanted to flee backwards due to extreme panic, while the people behind them wanted to finish off Ji Feng with their own hands and wanted to take credit for it, resulting in a direct collision between the two sides.

This was the most fundamental reason for the chaos!

And it was with this confusion that Ji Feng took advantage of it and started charging forward with his little sister Ji Nan Yue, for him, this was definitely an extremely rare opportunity.

As for those human lives that he incidentally harvested in the process of advancing, it only caused some commotion on a small scale, but if it was said that it would create fear and great confusion among everyone, such a little tactic of his alone was still far from enough to cause such a big storm.

But fortunately, in this chaotic situation, Ji Feng's tall size, as well as that sturdy body, and most importantly – that strong strength and stance, allowed him to move forward quickly while holding his little aunt Ji Nan Yue hostage.

If the dense crowd that filled the entire street looked like a river tumbling, then Ji Feng was like a big fish in this river.

Sometimes, if he was blocked by someone in front of him, he would use the dagger in his hand to send the person who was blocking his way to their God.

However, Ji Feng was not a big killer, let alone invincible. At this time, the most imperative thing was how to be able to rush to the Westin Hotel in peace, and until he reached the hotel, Ji Feng would definitely not make himself too conspicuous.

If he were to bring out all his strength just to kill, then he would definitely be more terrifying than a killing machine, but anyone who appeared around him would be taken out by him in a single glance at most.

But if that was the case, then Ji Feng would not be far from being finished off.

One must know that the crowd was now in chaos before Ji Feng was able to blend in with the crowd and charge towards the Westin Hotel, but if everyone around him was taken out by him and thus fell down, then the people standing on the roofs of the buildings on both sides of the street, they were not blind and standing on high ground they could completely take in the situation below.

At that time, Ji Feng would be exposed.

Ji Feng would not do that kind of stupid thing ..... but, it was also because Ji Feng was now apprehensive and did not dare to exert his full strength that he was more worried because the chaos was quickly subsiding and those elite gangsters were all quickly calming down and began to look around for Ji Feng and his men.

“Poof~!”

Another line of blood shot out.

A row of gangsters fell down, while at the same time, Ji Feng was already holding Xiao Gu hostage and leaned to another direction, once again rooting into the crowd.

“Pull back! Tell them to pull back!”

On the roof of the building, a gangster roared furiously, “Don’t be afraid of him running away, as long as the intersection is blocked, he can’t fly away even if he grows wings!”

“This bastard is using our men! He’s using our men as cover!” On another building, another gangster was similarly roaring, “Spread out, give the order immediately for them all to spread out, don’t gather together, as long as they are separated, those Chinese monkeys will no longer have a place to hide!”

His words made many people agree, so many of them were informing their men to spread out and not to give Ji Feng another chance to take advantage of them.

At this time, because Ji Feng had to deliberately hide his tracks and didn’t dare to reveal his full strength, it was the gang members who had all gradually calmed down and started to scout out the people around them.

As those gang leaders on the roofs of the buildings on both sides of the street each gave their orders, the situation below suddenly changed.

“The situation has changed!”

Ji Feng sensed the change in the situation keenly.

He noticed that the people around him were all starting to scatter in all directions, and all these gang members were quickly spinning in circles and scattering in all directions, so that it would not be so easy to get close to them again, and it would be easy to be discovered, and then they would be attacked in a group.

They are really elite gangsters with rich combat experience!

Ji Feng secretly said.

If these people were just ordinary punks, they would never have been able to react so quickly and keenly in such a chaotic scene.

Spinning in a circle and scattering in all directions ..... this move, although it looks comical, is really effective.

The problem is that these elite gang members are not fast in circles, but they are fast in spreading out.

This time, they not only ensured that they were stable enough to launch an attack at any time, but also pulled the space apart at once.

It was too late!

Ji Feng’s mind turned rapidly as he suddenly shouted, “Accelerate, charge!”

Li Guoliang and White Spider shook at the same time, and the two of them also responded loudly before following Ji Feng and rushing forward.

Although their shouts were quickly drowned out by the loud shouts of killing, the gang members around them immediately noticed them.

Especially Ji Feng, who was holding Ji Nan Yue in one hand, and the beautiful and unbelievable White Spider, they were the most conspicuous, while Li Guoliang was a bit better because there were also Asian yellow people among these gangsters, so for a while it was really hard for those gangsters to tell whether he was the target to deal with.

Besides, these people didn't come from just one gang, so Li Guoliang quickly rushed over, while Ji Feng and the White Spider were in trouble.

"Give me death!"

Ji Feng shouted violently, the dagger in his hand instantly turned into the scythe of death, sending those who had spotted him straight to hell, before his figure suddenly surged and once again rushed into the crowd of those who hadn't had time to completely disperse, disappearing once more.

White Spider also rushed into the crowd, and with her and Li Guoliang's cooperation, those elite gangsters who had already spotted her and were about to rush towards her were resolved in just the blink of an eye, turning into a few corpses on the ground for people to trample on!

"\*\*\*\*!"

On the roof of the building, a gangster was cursing angrily.

The others likewise couldn't help but yell, telling all those gangsters' fighters to scatter, and only by pulling away could they give Ji Feng no opportunity to take advantage of the situation.

"Three hundred metres to go!"

Ji Feng was in the midst of the crowd and had raised his entire various states to the extreme, his eyesight, his hearing, and his essence, all of which had reached their extreme states.

Only then was he able to find the most suitable landing spot for his next step in the blink of an eye, knowing that in this harsh environment, he and those gangsters were almost shoulder-to-shoulder, and even the slightest slip of a step would be a death sentence!

The crowd scattered faster and the gap grew wider.

"Two hundred and fifty metres to go!"

Ji Feng gritted his teeth and continued to charge forward, the distance was getting shorter and shorter now, as long as he could rush out, he would be victorious.

"Two hundred and thirty metres to go."

"Bastard! Dog shit!"

On the roof of a building next to the street, only to see a gangster looking down at the situation on the street below while growling and cursing angrily, "He's about to rush into the hotel!"

"Stop him!"

“He must be stopped!”

The gangster roared, “Throw grenades down there, at that bastard!”

“Boss, there’s still my staff there!” The henchman warned.

“Shit!”

The gangster roared, “If we let that Chinese monkey get away, we’ll be in big trouble, can’t hold that much, throw grenades!”

Those men on the roof, gritting their teeth, immediately followed the boss’s order and threw grenades at Ji Feng who was moving fast in the middle of the crowd!

.....

“Two hundred meters .....”

Seeing that the Westin Hotel was not far ahead, only two hundred meters away, Ji Feng only needed to put in more effort, he could rush into the Westin Hotel before all those gangsters’ fighters reacted, so that Xiao Gu would be safe.

However, just at this moment, Ji Feng suddenly felt an extreme danger that instantly swept through his whole body.

At the same time, Ji Feng, who was rushing forward quickly, also heard a sharp cry.

“Ji Feng, be careful!”

Ji Feng couldn’t make any reaction in time because he only felt the danger now, but had no idea where it was actually coming from.

Boom~~!

In the next moment, only a loud booming sound suddenly came out, and in a flash, a shocking explosion, exploded not far behind Ji Feng.

A huge and incomparable shock wave instantly made Ji Feng stumble violently on his feet, his eyes sharpened up, his reaction was so fast that he only saw him rolling on the ground in a smooth manner even though he was unstable on his feet, but was protecting his little aunt to death.

Boom~~!

Another violent explosion exploded not far away next to Ji Feng.

“Buzz~~!” Ji Feng’s head instantly felt like it had exploded .....
