Chapter 1851

“Buzz~~!” Ji Feng’s head instantly felt like it had exploded

“It’s bad!”

Ji Feng’s heart instantly thumped, and his heart sank rapidly downwards. As soon as he heard the second explosion, he knew it was bad. That explosion was too close to him, and just by hearing that explosion, he knew that he would definitely not be able to dodge it.

Just in a flash, the shockwave of that explosion hit Ji Feng’s body without any reservation, and then his brain went ‘buzz’ and his eyes went black, and he almost didn’t pass out.

However, Ji Feng was forcibly gritting his teeth to keep himself from passing out, but, not knowing whether it was because he was injured by the shrapnel or because of the tremendous impact of the shockwave, Ji Feng only felt as if there were ten thousand flies flying around in his head, emitting a huge buzzing sound that was simply going to make his head explode!

“Young Ji—!”

A mournful cry of sorrow, with that heartbreaking scream of pain, reached Ji Feng’s ears, and he heard that it was the white spider calling him.

“Mr. Ji! Be careful! Stand up quickly!” It was Li Guoliang’s urgent roar.

“Ji Feng—”

There was also a somewhat muffled voice, whose was it?

Ji Feng’s head was dizzy, he could even see things a little blurry in front of him, with his physique he was even injured like this, so it was obvious how close that bomb was to him!

However, even at the most critical juncture, Ji Nan Yue, Ji Feng’s younger aunt, who did not forget to protect him, changed her face when she saw Ji Feng’s appearance at this moment.

Earlier, knowing that the situation outside was so bad, Ji Nan Yue did not lose her temper, and later on, being surrounded by so many people and facing that kind of danger, Ji Nan Yue still did not get scared.

However, now when she saw Ji Feng’s face was white and even her actions were so sluggish, Ji Nan Yue immediately panicked: “Little Feng! Little Feng!”

Ji Feng gritted his teeth and tried to get up, but his movements were sluggish, as if he was a drunken man.

However, his movements could not keep up with his consciousness, and even a double image appeared in front of his eyes.

At this moment, Ji Feng knew that he had received a huge shock, which was a consequence of the violent shock produced in the back of his head, and it was lucky that he didn’t pass out now.

“Boom~!”

There was another explosion.

But this time it was a little farther away from Ji Feng, while the screams around him were one after another, and there were even roars of anger.

Those who made these sounds were those elite gang members who were close to Ji Feng. When the grenades and bombs fell and exploded, the first to suffer were Ji Feng and those near him.

However, in the midst of the explosion, two figures rushed over, Li Guoliang and White Spider.

This time, they didn't subconsciously dodge when they saw the machine gun fire from the helicopter like they did when they were chasing the king last time, but they learned their lesson and rushed over even though the explosion was nearby.

Because

Ji Feng fell down.

"Ji Shao! Ji Shao!" The white spider cried out in mournful sorrow, "Get up, get up, you mustn't fall down here!"

"Mr. Ji, get up or you'll die at any moment!" Li Guoliang also shouted in Ji Feng's ear.

"There's still more than a hundred meters to go!"

Ji Feng said with difficulty, "I am not going to fall down at this time Intellectual Brain, help, help me out!"

"Emergency, activate the emergency stimulation plan" In the next moment, a mechanical voice rang out in Ji Feng's mind.

"Zhi~~!"

In the next moment, a feeling of pain to the extreme instantly swept through Ji Feng's whole body, making Ji Feng almost think that he was back to the time when he first got the intelligent brain and started practicing bodybuilding exercises.

Pain!

Extreme pain!

The feeling of almost suffocating!

Ji Feng's whole body was trembling involuntarily, but his eyes were abruptly opened wide and a sharp aura flashed through, his gaze was like lightning!

"Little Feng?!" Seeing this sudden change in Ji Feng, Ji Nan Yue immediately noticed it and she shouted out.

"..... I'm fine!"

Ji Feng shook his head, then turned and looked up at the roof of a building, immediately he shouted lowly, "Keep charging, take advantage of this opportunity and rush to the hotel immediately!"

With just a sweeping glance, Ji Feng immediately knew what was going on, it was the people upstairs who were throwing bombs and he had received an impact As to whether he was injured by the shrapnel, he himself didn't know, because he was in so much pain all over his body right now that he didn't know if there were any wounds at all.

“How vicious!”

Ji Feng secretly snorted coldly.

Upstairs, it was not known who actually threw the bomb, but presumably it should be one of those gangsters, but it was not expected that this gang would actually bomb even their own people.

However, the bombs thrown down from upstairs were obviously not expected by those gangsters' fighters, so now the scene instantly became chaotic again, which also gave Ji Feng an opportunity.

Charge!

Ji Feng held Ji Nan Yue hostage and led White Spider and Li Guoliang to rush in the direction of the Westin Hotel once again.

Boom~!

Boom~~~!

The loud explosions behind them kept coming, and even, sometimes the bombs exploded just a few metres away from them, but after the last experience, all of them catapulted themselves forward quickly.

What was even more bizarre was that the bombs that were thrown down later seemed to be clearing the way for Ji Feng, as if they were clearing the way for them, because all those bombs exploded near them, but never hurt them like they did earlier.

The elite gangsters were pitiful, because there were too many of them to spread out completely, so no one dared to lean towards the middle, but wherever the bombs exploded, everyone could not help but frantically retreat.

So all of a sudden, the scene, which had almost returned to normal, instantly erupted into serious chaos once again, with people crowding and bumping into each other everywhere, not knowing how many people were trampled underfoot, not to mention how many people were accidentally injured because of this chaos

“****! Damn it, who threw the bomb?!”

On the roof of the building, a gangster was roaring, “Which idiot did this? Stop it quickly!”

And at this time, the gangster who had ordered the bombs to be thrown froze, he looked at his men and then at his own hands, confused, “God, we only threw two bombs, where did the rest of them come from? Who threw them anyway?”

“Bomb! I'll blow you bastards up!”

At the same time, not far away, on the roof of another building, Ji Yu-yi was snatching the grenade from the hands of the bodyguard beside her, aiming it and throwing it down hard, gritting her teeth as if those elite gangsters below owed her millions.

Abe and Ade were watching from behind, wanting to say something but wanting to say nothing, they could only watch speechlessly as Missy lost her temper like this

“Fifty meters to go!”

Ji Feng shouted lowly, “Accelerate!”

As soon as the words fell, Ji Feng’s legs suddenly erupted with an even more terrifying force, his body surged and he dashed towards the Westin Hotel in an S-shaped route.

White Spider and Li Guoliang similarly accelerated abruptly, rushing towards the Westin Hotel.

Forty metres

Thirty metres

Ten metres

“Clap Clap Clap” The next moment, Ji Feng and the others rushed up the steps of the hotel, and with the fastest speed, they rushed inside the hotel.

“Ta-da-da-da”

Some of the gang’s thugs at the back saw that Ji Feng and the others had rushed up the steps and immediately opened fire.

Immediately, the security guards at the entrance of the hotel immediately fired back

If this situation was placed in China, it would be too much, however, in Rice, even security guards are allowed to hold guns, as long as the company provides them with documents and guarantees

“Yes! Escaped! Ji Feng has escaped!” Ji YuYi excitedly grabbed the lightning rod and jumped and jumped, shouting loudly, her stunning features filled with excitement.

“He escaped, he survived” The kind of excitement in Ji Yuhui’s heart was so great that it was hard to express in words!

“He, he actually

survived?!” At this time, the hearts of A Bo and A De were turning up huge waves, they could not have imagined in any way that under such a bad to the extreme situation, Ji Feng did not die, he survived, he escaped?

It was unbelievable!

If someone had told them before this that someone could escape in such a situation, I’m afraid everyone would have thought that person was a psychopath.

However, such a shocking thing was happening right before their eyes!

Ji Feng, did it!

“You guys, did you see that?”

On the rooftop of the top floor of a building, a gangster was staring down in awe, his face wooden, his lips trembling, a look of intense disbelief in his eyes, “God, he, he got away!”

“How is this possible!”

“Bastard! How could he have escaped! How could he have escaped!”

“Ahhhhhhhhh

“Charge in, charge in and kill him immediately! We absolutely can’t let him get away!”

.....

In an instant, the entire street instantly boiled over, as if a thousand catty boulder was suddenly thrown into an originally calm lake, and in a flash, the surface of that lake rose up with monstrous waves.

What’s more, the lake itself was already incomparably chaotic!

Ji Feng had escaped!

Wu Changgong, who was standing on the top floor of a building next to the Westin Hotel, also saw this scene and he was frozen on the spot.

However, the next moment, Wu Changgong immediately reacted and he shouted, “Go to the back of the hotel!”

However, when Wu Changgong led his men to the back of the Westin Hotel, he happened to see several people jumping down from the windows on the first floor of the hotel, however, these people were masked!

Chapter 1852

“You guys

Wu Changgong was startled, while waving his hand violently.

Ka ka ka~!

In a flash, those experts of the Qing Gang who were following behind Wu Changgong instantly pulled the bolts of their guns and loaded their bullets, aiming at the few people in front of them.

Wu Changgong bellowed, “Who are you people?!”

He looked warily at these few people in front of him, his heart was stunned, one might even say a little stunned.

It was not up to Wu Changgong not to be vigilant, it was really because the few people who came out were too strange.

The four people who jumped down from the first floor window of the Westin Hotel were four in total. If that was all, Wu Changgong would not have been surprised because he had come here to meet Ji Feng

and the others, and Ji Feng and the others were exactly four people, without counting the bodyguards of course.

However, the four people who jumped down from the first floor window of the Westin Hotel were actually all masked, so it was impossible to see their faces clearly. All four of them were wearing black hoods on their heads

The four of them were wearing the same clothes as the four of them were wearing before.

The four men were not masked when they rushed into the Westin Hotel, but they were masked when they came out?

Were these four people, or were they not the four Ji Feng?

This question must be clarified, after all, this is not the usual time, just opposite the Westin Hotel, but there are hundreds of elite gangsters shouting and killing rampantly.

If these few people were from those gangs, or if there was anything else going on, it would be a problem.

“Elder Wu, don’t you recognise them so soon?” Suddenly, the person at the head of the group, however, made a voice that was very familiar to Wu Changgong.

“Ji Feng, is that you?” Wu Changgong immediately asked, he heard that the voice sounded very much like Ji Feng’s, but it was a bit muffled, after all, it was through the hood and his voice would inevitably be a bit off.

“It’s me, Elder Wu, there are no more cameras around here, right?” Ji Feng asked.

“There are no more”

Wu Changgong immediately nodded, at the same time he instantly understood in his heart why Ji Feng and the others were masked, it turned out that they were afraid that the cameras in this vicinity would capture them.

However, Wu Changgong still had one more question – since several of them were not masked when they rushed into the Westin Hotel, what was the point of them being masked now? Wouldn’t this be superfluous?

Wu Changgong knew very well that even people with no common sense would know that how could a big hotel like the Westin not have cameras installed at the entrance?

The moment Ji Feng and the others rushed into the Westin, their looks and the process of rushing into the hotel had already been filmed.

Wu Changgong then voiced out this doubt, and at the same time, he also wanted to be further sure of Ji Feng’s identity, after all, without seeing with his own eyes that this person was Ji Feng, Wu Changgong was still more or less unsure.

So he said, “Ji Feng, wearing your hoods like this is just superfluous, take them off, it’s easier to talk this way”

“Elder Wu, you don’t have to worry about that, take us out of here first.” Ji Feng said.

“You take off the hood first, there are no cameras here, you don’t need to worry!” Wu Changgong, however, insisted that Ji Feng take off his hood, he had told Ji Feng before that there were no cameras here, but Ji Feng did not take it off, which made Wu Changgong’s heart a bit suspicious.

Ji Feng glanced at him, but still took off his headgear.

Sure enough!

What was revealed was Ji Feng’s face, and he said in a deep voice, “Elder Wu, I think you’ve been overly careful.”

It was Ji Feng!

It really was Ji Feng!

Even though Wu Changgong already knew that Ji Feng had rushed into the hotel, but seeing Ji Feng with his own eyes right now still made his heart turn over in huge waves.

Ji Feng had really rushed out!

Under the siege of nearly a thousand thugs, under the combined efforts of so many gangs, Ji Feng had rushed out unharmed!

It was simply an impossible miracle, unbelievable!

Who could have escaped unscathed under the siege of nearly a thousand people?

Ji Feng had done it!

Wu Changgong believed that after today, Ji Feng would be famous in New York, and even ordinary people might know that this young man from China had created a miracle, and that his actions would shock everyone!

Especially the New York mob would definitely be more shocked.

And those gangsters who had previously decided that they could take out Ji Feng would be so shocked that their hands and feet would be tingling and they would not be able to sleep well at night.

Imagine, no matter who it was, having offended such a strong to the extreme expert, they definitely wouldn’t be able to sleep well at night!

After forcibly suppressing the intense shock in his heart, Wu Changgong let out a long sigh of relief as Ji Feng revealed his true face, and Wu Changgong was finally relieved.

He laughed: “It’s not that I’m being overly careful, I can’t help it, if I’m not careful, how can I live in this man-eating society? What’s more, aren’t you also being a bit too careful?”

Ji Feng frowned: “How do you say that?”

“You were not wearing hoods when you rushed into the Westin Hotel, at that time the cameras at the entrance of the hotel must have already captured your looks, what’s the use of putting them on now?” Wu Changgong asked.

“So you’re talking about this

Ji Feng shook his head and said, “Now is not the time for nonsense, Elder Wu, please send them away first!”

Wu Changgong nodded and said, “No problem, I’ve already made the arrangements.”

“Little Feng, aren’t you leaving?” Ji Nan Yue immediately asked, and as she spoke, she also ripped off her hood as soon as she could, looking at Ji Feng with a surprised face.

“You guys go first, I’ll follow afterwards.” Ji Feng said.

“Don’t delay, those gangsters have lost a lot of money, maybe they really dare to rush over in a fit of anger, it’s better to leave here quickly!” Wu Changgong said.

Ji Feng immediately nodded, “Little Aunt, you guys follow Elder Wu out of here immediately!”

“Young Ji

Bai Spider was just about to speak when he was interrupted by Ji Feng: “This is an order!”

White Spider instantly stopped speaking.

Seeing this, Elder Wu immediately waved his hand and ordered his men, “Take them away immediately!”

“Yes!”

Elder Wu’s men answered at the same time, White Spider and Ji Nan Yue still wanted to say something, but in the end, nothing came out, the situation was urgent now, it was not the time to argue.

Instead, Li Guoliang said, “Mr. Ji, I’ll stay behind to meet you!”

Ji Feng immediately nodded, “Fine, then you stay here, Elder Wu, please leave a car for me!”

Wu Changgong said, “Don’t worry, I’ll stay here personally!”

Ji Feng couldn’t help but frown, Wu Changgong didn’t personally escort Xiao Gu and the others away?

Wu Changgong seemed to know what was in Ji Feng’s mind and said, “Ji Feng, don’t worry, my people are all trustworthy and are all competent, with them escorting them, there will definitely not be any problem!”

Only then did Ji Feng nod his head.

Soon, Ji Nan Yue and White Spider left under the escort of those Qing Gang experts, while at this time, Ji Feng put on his hood once again and pulled the dagger out from his waist.

Wu Changgong was instantly shocked: “Ji Feng, what are you

Ji Feng sneered, "These people think so highly of me that they have sent nearly a thousand people to deal with me, so how can I let them down?"

Ever since he got the intelligent brain, Ji Feng had never suffered such a big loss, let alone encountered such a dangerous situation, even if it was when he fought with the transformers or when he went to rescue Xiang Yongzhan, it was not as dangerous as today.

Just a moment ago, that bomb had exploded right next to Ji Feng, and if it wasn't for the help of the intelligent brain at that time, he would have definitely died on the long street!

How could Ji Feng accept such a generous gift with open arms?

As the saying goes, if he didn't return it, wouldn't he be too sorry for the deep friendship of those gangsters?

When Wu Changkong heard his words, he was shocked: "You, you want to kill back? Are you out of your mind? It was so hard to escape, and you still want to go and get killed?"

Ji Feng sneered, "It's true that I want to kill back, but I'm not crazy, and I'm not going to die, but to return what those gangsters gave me ten times over!"

Wu Changgong was stunned.

"That's it!"

Ji Feng waved his hand, "Elder Wu, please wait here for a moment, I'll be right back!"

After saying that, Ji Feng's body surged, his legs suddenly shot up, his whole body rose up and once again drilled through the first floor window of the Westin Hotel!

"..... is crazy!" Wu Changgong froze for a long time before spitting out these two words.

"This guy is really crazy!"

If watching Ji Feng actually escape with his men had shocked Wu Changgong to the point of simply not knowing what to do, then Ji Feng's current actions were even more incomprehensible and shocking to Wu Changgong.

The fact is that Ji Feng really has that much guts, how does he dare to go to the death again?

Was Ji Feng sure that he would be able to come back alive?

Although those gang elites did not leave them there just now, it does not mean that those people are vegetarians, not to mention, now Ji Feng is still just a person, what does he want?

Could it be that

The first thing you can do is to get a good idea of what you want.

The actual fact is that you'll be able to get a lot more than just a couple of hundred people to get a lot more than just a couple of hundred people.

It's ridiculous!

Wu Changgong couldn't even help but laugh coldly at the thought of this, had he himself gone crazy along with it, how could he possibly have this idea?

One person facing so many gangs and hundreds of thugs, looking at Ji Feng that way still seems to want to teach each other a hard lesson Is there anything more absurd than this?

There's a reason I don't like this guy! Wu Changgong said helplessly in his heart.

Chapter 1853

Ji Feng actually wanted to go and fight hard against those gangsters again, and he was still alone, which, in Wu Changkong's opinion, was simply absurd.

Either Ji Feng's brain was broken, or this guy must have been badly stimulated just now, so he had messed up his sanity a bit.

If not, even the most daring person couldn't do such a thing, right?

Do you really think those elite gang members are all paper-thin?

The fact that Ji Feng was able to escape just now was already a blessing, beyond everyone's imagination and expectation, but it was also the most shocking miracle.

However, a miracle is only a miracle after all, if it happens often, it is not a miracle anymore.

If Ji Feng was able to escape, then perhaps there were other factors in it, for example, those gang members were too gullible at that time, and as a result, Ji Feng caught an opening, and then, for example, when Ji Feng launched their sprint at the end, those bombs that suddenly fell from the sky also helped Ji Feng a lot.

If not for these factors, Ji Feng would definitely not have been able to escape.

But he didn't seem to realise these problems at all, instead he turned around and killed back!

Wu Changgong couldn't help but shake his head as he glanced at Li Guoliang and said, "Kid, I think this boss of yours is crazy!"

Li Guoliang said in a deep voice, "Mr. Ji is not my boss, we are not a gang!"

Wu Changgong glanced at him and said nothing more.

.....

"Escaped? Ji Feng actually escaped?"

"Bastard! So many people couldn't even stop one Ji Feng?"

"All of them are trash!"

.....

At this moment, on the rooftops of the buildings on both sides of the street in front of the Westin Hotel, all the gangsters and top brass couldn't help but roar in anger.

Ji Feng had really run away!

This simply made him unable to believe his eyes.

Especially when they saw Ji Feng taking advantage of the chaos and rushing into the Westin Hotel at the last minute with the most driving speed, some of the gangsters could not even resist jumping up in a flash, roaring hysterically.

What's more, some of the gangsters simply wanted to jump straight down the stairs and go after Ji Feng themselves!

However, no matter how excited these people were, Ji Feng had indeed already escaped.

This made all the gang bosses' faces look extremely ugly.

"Go behind the Westin Hotel immediately, Ji Feng must have escaped from the hotel!" A gangster shouted angrily.

"Boss, it won't work."

When his men heard this they hurriedly advised, "This street is all in a row, the exit is at least one or two kilometres from the Westin Hotel, there are too many people underneath, if all our men go around it will take at least twenty minutes, by then the police must have all come"

The gangster roared, "Bullshit! Those damn cops, I pay them so much money every year, is it for them to come and arrest us?"

The handlers laughed bitterly, they didn't look at what the situation was now, if it was some petty fight in normal times, those cops could turn a blind eye or even pretend not to see it.

But now, is this a small fight?

It was like a mini war!

What's more, this is New York, a cosmopolitan city with many foreigners in the city, and everything that happens here will be spread around the world in less than half an hour.

If they dare to pretend not to know, I am afraid that even the mayor of New York City will be held responsible.

If the mob gives you a lot of money, you have to have the opportunity to spend it!

"Then we'll storm the Westin Hotel!" The gangster gritted his teeth and said, "Even if it's a hotel invested by foreigners, it can't be a reason for Ji Feng to get away with it, immediately go and contact the other gang bosses and have everyone rush together, then the police won't be able to find anyone to take responsibility even if they want to!"

"That's a good idea!" The handlers immediately nodded and went to contact the bosses of the other gangs.

The law is not to blame, and this also applies in Rice.

On the roofs of the other buildings, the rest of the gang bosses, were equally furious, Ji Feng had escaped, this was simply an unacceptable result for them.

With so many people surrounding him, how could Ji Feng have escaped?

If they let such a person escape, God knows how he would retaliate next, I'm afraid that they would even have to sleep with one eye open!

Just at this time, a call came from the other gangs to discuss the storming of the Westin Hotel.

As soon as this gang leader heard this, David immediately agreed that while Ji Feng and the gang were still not far away, or they might all still be at every Westin Hotel, they could definitely catch Ji Feng by storming the hotel now.

As soon as the many gang bosses clicked together, they were ready to give the order to storm the Westin Hotel.

At the same time, at the entrance of the Westin Hotel, it was already crowded with those gangsters who were all furious, staring at the security guards in front of the door, wanting to kill them now and then rush in to capture Ji Feng.

As elite members of various gangs, when had they ever encountered such a stifling scene?

With so many people besieging Ji Feng, but he had even escaped, they had no place to put their faces, so how could they not be annoyed in their hearts?

However, the order from above was that they were not allowed to rush into the Westin Hotel, which made them very angry, but they could do nothing but just block the entrance of the Westin Hotel and confront the security guards.

"Whoosh~~!"

Suddenly, a fist-sized black object came out from inside the hotel **** and landed in the middle of the crowd.

The next moment, a mournful voice screamed out in horror, "It's a grenade!"

"Boom~~!"

Before this person's words even fell, in a flash, the sound of a violent explosion instantly spread.

The grenade that had been thrown into the crowd instantly blew the surrounding people straight out of existence.

The power of a grenade, which was not even the size of a fist, exploded at the moment of explosion was absolutely shocking. Especially, when the grenade exploded, the people standing around densely were all people

The grenade exploded and only wounded a few people nearby.

However, the fear generated by this explosion was such that everyone was afraid to avoid it, and chaos arose once again!

Crowding, trampling, roaring, shouting

The chaos that was created when all the chaos came together was like a tidal wave of chaos, absolutely unimaginable to the average person!

The place where the grenade exploded was like the origin of the panic and confusion, and then this huge panic seemed to spread outward rapidly in the form of an almost wave, causing hundreds of people around to begin to develop a strong sense of panic.

In the midst of this chaos, no one noticed that a man wearing a black hood rushed into the crowd at a speed so fast that he quickly ripped off his hood and disappeared.

“It’s Ji Feng! The one who threw the grenade must have been Ji Feng!”

“That’s right! Ji Feng hasn’t escaped, he’s in the hotel!”

Those gangster thugs were stunned by the explosion of the grenade, but those gangster bosses on the roof of the building were all excited.

The security guards of the Westin Hotel were confronting their men, so the grenade definitely couldn’t have been thrown by someone from the hotel, then it must have been thrown by Ji Feng who had just rushed into the hotel.

This also meant that at this moment, Ji Feng and his men were in the hotel and had not yet escaped.

If they rushed into the Westin Hotel now, they could definitely catch Ji Feng, as well as the boss of the Weida Group

These gangster bosses immediately started giving orders.

“Poof!”

“Poof poof poof!”

.....

Unlike the extreme excitement of those gangsters, at this moment on the street, it was this sound of sharp blades cutting through flesh that rang out from time to time.

There were also the lines of blood that shot up!

However, this sound, which made people’s scalp tingle and goose bumps, was drowned out by the shrieks and roars of anger like a wave.

Ji Feng had struck!

He was right in the middle of the crowd, and every time the dagger in his hand slashed through, rows of people’s eyes would stare deadly, their hands desperately covering their necks, but in the end, they could not escape the fate of falling to the ground and being trampled on.

At the same time, Ji Feng excited the bio-current in his body to an extreme level, his eyes flashed with essence, his face was incomparably cold, and his whole person was filled with a killing spirit.

At this moment, what Ji Feng stepped on under his feet was the kind of ninja footwork he had stolen from Sasaki, the Kaitou man, with a bizarre figure, while in his hand, he was holding his dagger upside down in one hand, and in the other hand, the whip formed by the bio-current struck out without mercy.

“Ahh...!”

Compared to those who had their throats slit by the dagger, those who were struck by the bio-current were undoubtedly luckier, at least, they had the chance to scream before their eyes rolled back and they went to meet their God!

At this moment, the power of the bio-current whip was shown to the fullest in these people’s bodies!

When Ji Feng struck out with the whip, everyone within a range of three to four meters around him was instantly all hit, some of them directly flew out sideways, while others didn’t even have the chance to fly out backwards and instantly fell to the ground

This is simply as if there is a group of ants on the ground, Ji Feng a foot down, trample a piece that scene is really shocking!

As Ji Feng struck out with a whip, his entire body also surged, instantly squeezed into the crowd again, as for those who were killed, he didn’t even bother to look at them.

Since these people had come to kill him, they had to be prepared to be killed.

What Ji Feng wanted to do now was to return to them what they had inflicted on him, ten times a hundred times over.

The killing had only just begun!

All the hitmen on this street were his targets!

Of course, there was also the most important building on the roof of those mob bosses!

Chapter 1854

“Don’t make a mess! No chaos!”

“That Chinese monkey is in the Westin Hotel, rush in and kill him!”

“Damn it!”

“The Chinese monkey is provoking us”

.....

In front of the Westin Hotel, all the gangsters were roaring in anger, some of them were even furious, roaring with all their might and commanding their men to try to rush inside the hotel.

The fact that Ji Feng and the others had escaped under the siege of so many people was simply unbelievable to all the gangster bosses. They knew that more than half of the gangs in New York had acted at the same time, and although none of them had known before that they would send people to each other, they realised after they arrived here that the other gangs were bound to put Ji Feng to death as well.

So, these gangs joined forces.

Whether it was the gangs that had had problems with each other before, or the medium-sized gangs that were slightly less powerful, they all had one common goal – to kill Ji Feng!

This Chinese monkey, who had taken out five medium-sized gangs, was undoubtedly provoking them, something that all the gangsters could not tolerate.

It was precisely for this reason that the scene of nearly 1,000 people surrounding Ji Feng and the others emerged.

Originally, these gangsters had decided that these Chinese were dead, and they believed that no one could survive under the siege of so many people.

However, Ji Feng miraculously escaped!

This was a resounding slap in the face of all the gangs, how could these gangsters not be angry?

But there was even more to their anger, the chaos of those elite gangsters on the streets!

Just because Ji Feng had thrown a grenade from inside the hotel, he had caused the stalwarts of these gangs to panic, this was a joke!

When these gang leaders saw this scene, their lungs simply exploded with anger.

They roared and growled, telling their men to calm down, telling them to rush into the Westin Hotel as fast as they could and finish off that bastard Ji Feng!

However, these gangsters had overlooked one thing – there were indeed hundreds of people present, and they were all elite fighters from the major gangs, and some of them were even battle-hardened.

Yet there was one fatal flaw in this, and that was that these hundreds of people, were from different gangs.

This also determined that they could never be of one mind.

No one wanted to be a scapegoat, let alone die for someone from another gang, so naturally no one was willing to do so.

Those in front of the grenade wanted to get out of the way and not get caught by the bomb, or else the other gangs would pick up the slack. Those at the back, on the other hand, wanted the people in front to block for them, so that even if Ji Feng threw out more bombs, they would definitely not be able to hurt them.

With these people blocking the front, they could then rush into the hotel and kill Ji Feng.

So

The people in front began to desperately back up, while those behind them were pushing hard to the front, which, coupled with the panic caused by the grenades that didn't know where they would fall, threw the whole scene into complete chaos.

At this time, the gang leaders could not find their men, and the ringleaders and their boys were all scattered, and the whole street was like a drop of water falling into a boiling frying pan, instantly erupting into a huge chaos.

Then, a scene that sent the gang leaders into a tizzy – they were shouting and giving orders from the top of the building, but the chaos below was getting worse and worse.

The people inside could not get out, the people outside could not get in, and a large number of people on both sides were crowding each other, those in the middle were directly squeezed and either had their feet hanging in the air, but those who were unlucky were directly squeezed to the ground, and then I don't know how many feet stepped on their bodies, causing them to scream miserably, and even directly trampled to death... ..

This was an absolutely numbing scene that made people's scalps tingle, even those other gangs that were on the roof of the building watching could not help but swallow their saliva with difficulty, this kind of scene was definitely not comparable to even the hottest gangster firefights.

In the midst of this violent chaos, yet no one noticed that in the middle of the crowd, there was a person wandering around!

This person was naturally Ji Feng.

Everywhere he went, the bio-current whip struck out without mercy, causing a large area around him to empty out, but there were more corpses on the ground, and those who weren't dead were letting out harsh screams.

When the people on the roof of the building noticed this place, Ji Feng, however, had long ago used that almost perverted speed of his to hide among the nearby crowd.

And then, Ji Feng once again wandered away.

A bizarre scene just appeared – everyone was in this huge chaos, the gangsters upstairs were storming around, while on the street, people were constantly falling down, either ten or eight or three or five at a time, and more often than not, simply a whole bunch of people fell down.

The number of elite gangsters on the streets was dwindling fast.

But, after all, there were so many people here that those who were a little further away didn't notice any of this, and those who were closer, although they noticed the difference and started to get scared and then tried to escape, were mistaken for a bomb near them, so who would let them leave?

And so it got even more crowded!

Someone upstairs finally noticed the bizarre situation below and there were shrieks of alarm.

“Oh my God! What is that?”

“God what the hell is going on here, what's going on? How could this happen?”

Ji Yuhui likewise noticed the strange situation, and her beautiful eyes also widened in shock and astonishment, “How could this happen? What's happening?”

It was hard for everyone to understand why a large number of people had suddenly fallen down when there was neither the slightest explosion nor the sound of shouting and killing down there.

Moreover, the speed was so fast that it was as if a person was walking on a ground covered with snow, one foot down was a hole, another, another These holes were not connected to each other, but the distance was not too far, yet there was no pattern to it.

It is only when people suddenly fall down below and then someone lets out a harsh scream that the eyes of these people upstairs will follow, but at that time, they can't see what is actually happening

All of the gang bosses could not help but be stunned, they not only could not figure out what the hell was going on, but more importantly, they did not even know how to respond anymore, for a time, the vast majority of the gang bosses froze in place.

While the gangsters were frozen, the bizarre situation below was happening extremely fast.

A piece, a piece, a piece

In the blink of an eye, there was no telling how many people had fallen down below, and there was a patch of empty space everywhere, but immediately afterwards it was filled up again by the crowded crowd, and those who didn't die were directly trampled underneath.

Finally, some of the gangsters upstairs reacted and roared, "Oh! No—!"

"Oh God, someone is slaughtering our people!"

"Scatter! Spread out all over"

The gangsters finally realised that it wasn't a freak situation at all, but someone was hiding in the crowd and poisoning their men.

"It's the bodyguards in those cars?!" A gangster was shocked and suspicious, although those Chinese monkeys had escaped, there must still be bodyguards in those cars, because up to now, the attention of these gangster fighters had been drawn by Ji Feng and the others, instead, no one was paying attention to those cars.

Could it be that the people in those cars had sneaked out to do it?

It was too late to think about anything else, and the gangster immediately roared, "Disperse..."

However, in this chaotic situation, who could still hear his roar?

Those hundreds of gangsters were rapidly dwindling, and people kept falling down, watching those gangster bosses on the roof of the building with their liver and guts splitting, almost going mad.

"It's Ji Feng! It's Ji Feng!"

Ji YuYi looked at this situation below and her beautiful eyes were filled with shock and joy, "It must be Ji Feng, it's him!"

This was Ji Feng's technique, when Ji Feng was escaping before, Ji Feng was this godlike, killing people in an invisible way, how similar was this situation now to what happened just now?

“It’s Ji Feng?!”

Ah Bo was shocked: “How is this possible, wasn’t he in the hotel? When did he come out?”

Ji Yuhui said, “What’s impossible about it? If his whereabouts had been seen, would he still be Ji Feng?”

Ah Bo just choked, seeing that Ji Yuhui was so confident in Ji Feng, he didn’t know what to say, except that in his heart, he was still skeptical, was it really Ji Feng?

He rather thought that it should be the bodyguard in that car who had secretly got off

Ade’s eyes were even more on fire, how could it be Ji Feng, this is absolutely impossible!

“Look! The situation below has changed!” One of his men suddenly said, and several people immediately looked down, and instantly realized that Qing Kang had really changed.

On the street, as more and more people were taken out, the remaining people, finally realised that something was wrong.

And at this time, another order came down from above to disperse, so the men began to scatter outwards and the chaos seemed to ease a little.

But that inexplicable death, it seemed, stayed with them, and still large numbers of people were taken out from time to time, but, surprisingly, the others did not even know who had done it.

Most of the men became frightened, except for those on the outside who didn’t know what was happening and just backed off as ordered, but those in the inner circle were now dying.

There was one black man who watched as a man beside him flew across the room and then fell to the ground, twitching a few times before he stopped moving!

His arms and legs went limp with fear, and he was horrified to the core: “Ah-!”

The next moment he turned and ran frantically out of the room, with a heavy dose of fear and a deadly spirit!

Chapter 1855

There was one black man who just watched as a man beside him instantly flew sideways and then fell to the ground, his body twitching a few times and then he didn’t move!

His arms and legs went limp with fear, and he was terrified to the point of panic: “Ah...!”

The next moment he turned and ran frantically out of the room, with a heavy dose of fear, his soul on fire!

This black man was only one of many who watched the people around them being killed, and there were many others like him, all of whom began to run wildly outside with intense fear, but with so many people in the street, how could they all disperse at once?

And so greater confusion arose.

This time, however, the chaos was different from the last time, for this time it was accompanied by a strong fear, the kind of fear that is in the bones of the law!

There were no explosions, no weapons, not even a sound

This kind of bizarre to the extreme scene, even for these elite gangsters who are used to seeing death, could not help but start to fear, and it was the kind of extreme fear.

The most frightening thing was that this fear, began to spread rapidly.

Because Ji Feng's speed was too fast, it hadn't even been ten minutes since he had rushed out of the Westin Hotel, yet there was no telling how many people had died under his hands, and one after another empty space had appeared on the originally crowded street.

The vast majority of people around these empty spaces had noticed this bizarre scene, so how could they not be afraid?

With so many people running out with fear, it made the fear spread faster than anyone could have imagined, and in just a few minutes, almost everyone except those on the periphery began to panic and wanted to run in all directions.

But it was because the people on the periphery didn't know what was going on that they naturally didn't run away, so the chaos became even more intense.

However, Ji Feng did not have the slightest intention to show mercy, his eyes flashed with a cold, cold light, his face was even colder, and at the same time, he raised his strength to the extreme and continued his gut-wrenching killing.

Piece after piece of people fell, fear spread fast, and the immense panic even caused a firefight among the elite gangsters.

Those inside even went so far as to swing their machetes towards those who stood in their way, or even just pull the trigger, in order to get out as quickly as possible.

"Ah...!"

A man was originally crowding and running out like the others, but he suddenly felt a lightness in his body and turned his head to look, and was horrified to the core.

The man who had been crowding behind him had fallen to the ground, and there was a line of blood shooting from his neck, this man, who didn't know when his throat had been cut!

He was stunned, the panic was so intense that his lips trembled, his scalp tingled, and a strong wave of fear made him scream in spite of everything: "Ah..."

The next moment, he pulled his legs out and ran for the door, but the path ahead was blocked and the front was crowded.

Unable to hold back any longer, he raised the machete in his hand and slashed viciously towards the people in front of him, cutting them over to the ground with several consecutive slashes as he continued to charge forward

This is just a microcosm, in this street, I don't know how many people are doing the same as this man, and started to kill people who are also gang members, they just want to be able to escape.

However, when the people outside found out about this situation, they instantly started fighting back, and these gang members, among themselves, actually fought.

"Ta-da-da-da"

Someone pulled the trigger, and the micro-charges in their hands fired a barrage of bullets, taking down a crowd of people.

The screams of misery rang out, but were quickly drowned out by the intense gunfire, and the fact that one person fired a shot instantly seemed to cause a chain reaction as others did the same.

No one wanted to face this kind of danger from nowhere, and fear spread to the bones of everyone.

It was because the sight of dying without a sound was so terrifying that even these gangsters, who were used to seeing mutilated limbs and arms, could not bear the fear.

Although they were brutal, when faced with unknown dangers, the bully in their bones made them choose to point their guns at the easier ones – the ones who were in their way!

And so the firefight began.

The mere thought of a firefight between hundreds of men was so gruesome and bloody that it made one's skin crawl, not to mention the people watching.

The gangsters who were hiding on the top floor of the building were all stunned by the scene below.

These gangsters, almost red in the face, had only one thing on their minds – to kill the people in their way, to get out and escape from this damned place!

The kind of scene that left all the gangsters frozen in their tracks.

They could never have imagined that these men they had brought along would do such a thing as kill each other!

In fact, these gangsters naturally did not know that they were standing on the roof of the building and had a clear view of the situation below, and knew that the kind of minions who were dying one by one were the work of someone in the dark, and it was even likely that the Chinese people in those vehicles had done it.

However, the gang members on the street could not see the situation clearly from above, they just knew that the people around them were dying, silently and without even knowing who was doing it.

This kind of fear is something that only they, the people, know first-hand, and is naturally unknown to those high and mighty gangsters.

It was precisely for this reason that the moment those gangsters were frozen, the number of gangsters on the street was rapidly decreasing, and in the blink of an eye, the number was reduced by nearly half.

At this time, Ji Feng had already reached those cars silently, he sharply smashed the glass of a car with one fist and shouted, "Get everyone out of the car, all rush into the hotel and escape from the back of that"

The bodyguards in the car hadn't even reacted before Ji Feng had already dashed and disappeared.

These bodyguards are after all elites, and they are experienced in many battles, so they quickly reacted, looking at the bloody scene outside, they immediately opened the car door and quickly rushed towards the Westin Hotel.

At the same time, Ji Feng began to look for a way to the roofs of the various buildings.

The ultimate target of Ji Feng was the gangsters who were hiding on the roofs of the buildings, they were the culprits!

However, Ji Feng was unable to find the way to the roof of the building for a while.

The street was lined with shops. Ji Feng quickly rushed into a shop, but found it empty and unable to go upstairs. He couldn't help but grunt coldly, it seemed that it was impossible to go upstairs from the shop, so he quickly retreated.

"Tick tock tock"

Suddenly, Ji Feng heard a sharp alarm sound.

He frowned, this was the siren of the rice country?

The police were coming?

.....

"***! It's the cops coming!"

"Bastards, bastards! Get out!"

With the sound of the sirens, the gangsters who were hiding on the roof of the building were instantly awakened from their shock as they broke into curses.

However, when their eyes fell below again, they were once again stunned.

It seemed that because they had heard the sirens, they had all started to run like mad, fleeing in all directions, but what really shocked the gangsters was the scene on the street.

Corpses all over the place!

All day long, the streets were full of corpses, lying on the ground, dead!

When they saw this scene, I don't know how many of the gang bosses had black eyes and almost didn't fall off the building.

These were the elite fighters of the gang, but they had died just like that!

How is this possible?

“Boss, pull back, the cops are coming!”

The gangsters, covered by their men, hurriedly left through the retreat they had prepared in advance. Some attentive men noticed that their boss seemed to be limp and pale, looking as if he had been very ill!

Of course, these men understood how their boss felt, so many of his elite fighters had died.

However, they didn't know that the reason why the gangsters were like this was not just because of the loss of these fighters.

What really made them like this was fear!

.....

These gangsters, who had fled, Ji Feng raised his eyes and looked around, but on the roofs of those buildings, he could no longer see any silhouettes, his face was incomparably cold, and he secretly snorted coldly.

“Ran away?”

A cold light flashed in Ji Feng's eyes, “I'll see where you can run to! Just wait, I'll be there to find you guys soon!”

Listening to the sound of the sirens that were getting closer and closer, Ji Feng put his hood back on and quickly entered the Westin Hotel, the security guards at the entrance wanted to stop them, however, Ji Feng was a bio-current whip that struck out and knocked them all out

When the police arrived at the scene and saw that scene, everyone was frozen on the spot.

The bodies were all over the ground!

Blood was flowing in rivers!

The whole street was filled with mutilated limbs.

All the policemen who saw this scene could not help but have their scalps explode, and some even vomited straight away.

Where was this prosperous street? It was like hell on earth!

Chapter 1856

Perhaps the police had been alerted, or perhaps they had got wind that there was going to be a fight, so a large number of police officers and even a bomb squad had come!

There were hundreds of police officers on the scene.

The police were all wearing bullet-proof vests, and the bomb squad behind them were even wearing helmets and holding all kinds of light weapons, and there were even light armoured vehicles, all coming to the scene.

Of course, there were also police helicopters hovering in the air, as if to show off the New York police.

However, with so many police officers on the scene, not a single one of them said anything.

It was deadly silent!

This bloody scene shook everyone!

Just over a kilometre down the street, from the entrance of the Westin Hotel, a large rubbish truck collided with a car, which was so big and high that it almost crushed the car.

The car was almost completely deformed and just seeing this scene made people cringe, it was an absolutely tragic accident.

However, this was just the beginning.

What really made all the police officers' heads explode was the fact that from the scene of the accident, the whole street was full of dead bodies!

Everywhere people with broken arms and legs were lying on the ground hissing and moaning in pain

This was still the lucky ones.

Many more, however, were lying completely silent on the ground, long dead.

On the ground, there was blood everywhere, in some places it had solidified, a dark red that looked so shocking to the eye.

Yet there were many other places where puddles of blood were flowing, making one's skin tingle even more.

The whole street had long since become a hell on earth.

"God! Is this still New York? How does it look like we're in Satan's territory?" This was the voice of all the police officers present.

"..... terrifying!"

But all the policemen who saw this scene, whether they were veteran policemen who had been in the business for a decade or two, or those new policemen who were not afraid of the tiger, were all shaken to the core with coldness in their hands and feet and chills running down the back of their spines.

It was too gruesome!

It was also too bloody!

Many of the police officers present had probably never seen a dead person, or someone with such severed arms and legs, yet here they not only saw it, but it was – a whole street full of corpses!

"Jesus Christ"

The man in charge of this operation, a white policeman, was an officer of the New York Police Department, the chief of police.

When he saw the scene, he was equally stunned.

This time, there was big trouble.

New York would surely become famous all over the world!

I'm afraid that he, the police commissioner, will be in trouble, and he might even be thrown into jail next!

"These damned villains, hooligans!" The white commissioner cursed in anger, he only hinted to the gangs that he would arrive a little later with his men, so that they could finish their work and leave as soon as possible.

What did the gang leaders promise then?

They said that they were only here to deal with a few Chinese monkeys, at most a few more bodyguards, and that the job would be done in a few minutes and absolutely nothing would go wrong.

At that time, this white chief believed these gangster thugs for the sake of the American currency, yet this outcome was something he would never have expected in any case.

Such a bloody scene would definitely shake the whole of Rice, and even spread throughout the world

"These damned villains, didn't they say they were only dealing with a few Chinese monkeys? How come all the people who died were their men?" The white chief was roaring in his heart, "Could it be that those few Chinese people were all supermen? Or have all those demons from the comics come out?"

Damn it!

However, no matter how much this white chief cursed, what awaited him would be a miserable ending in jail, the Chinese monkey in his eyes, but buried his future and indirectly threw him into the i-prison.

This white director did not foresee that it was his selfishness, it was because he looked down on the Chinese that made him so passive now and brought him to this end.

However, the white director was right about one thing: what happened today will be spread as fast as possible

.....

"That's amazing! It's amazing!"

"Unbelievable!"

The most important thing is that the people of the world are not only the people of the world, but also the people of the world.

Even though she had left the scene for more than ten minutes and had already avoided the police, her heart was still filled with astonishment and amazement.

It was really because the scene she had seen earlier was so shocking that she couldn't believe it!

Nearly a thousand elite gangster fighters, so many big gangs joined hands to besiege, while Ji Feng, on the other hand, only had a few people, and he even had to protect his relatives It was self-evident how great the power disparity was.

However, under such harsh to extreme circumstances, Ji Feng was unharmed, and even, created such a tragic scene.

Hundreds of people were fighting in a firefight, machetes chopping off wrists, severing arms, cutting off thighs and even directly cutting off necks!

That micro-charges bursting and sweeping, blood spilling wildly

That kind of scene, cowardly people will not be able to resist nightmares when they see it!

However, all of this was triggered by Ji Feng. He didn't know what means he used to silently take out one elite gang fighter after another, causing the others to start to fear and panic, and then the great panic started to spread, eventually sweeping everyone away!

In the end, of the nearly 1,000 elite gangsters, less than half escaped from the street. There were hundreds of gangsters who died in the process of surrounding Ji Feng and the others!

It was shocking!

It was even unbelievable!

If it was said that it was Ji Feng who had taken out so many elite gangster fighters with his strength alone, this was a bit exaggerated. However, if one were to say that all these people died because of Ji Feng, absolutely no one would deny it.

It was because of Ji Feng's terrifying attacks that caused these elite gangsters' fighters to become intensely fearful to the extreme, which led to the subsequent firefight!

So strictly speaking, the trigger that caused all this was Ji Feng.

It was truly awe-inspiring, overwhelmingly shocking and a hint of horror in Ji Yuqing's heart.

However, unlike what was going on in Ji Yuhui's mind, at this moment, the two grandparents, Ah Bo and Ah De, were full of horror. Although they tried to act as if nothing was wrong on the surface, the look of horror in their eyes was so extreme that it completely revealed what they were really thinking inside.

Ji Feng was simply too terrifying!

Whether it was Abe or Ade, they couldn't help but roar in their hearts, how could he be so powerful, how could this be possible!

The vast majority of New York's gangsters were out in force, nearly 1,000 elite gangster fighters, these people were all vicious and ruthless men who had been in hundreds of battles, so many people had set out to surround and kill Ji Feng, but Ji Feng had killed them back!

There were so many people killed and injured!

Even these people couldn't restrain Ji Feng, so who else under the sky was a match for Ji Feng?

How terrifying should this person be?

How should he be dealt with?

If Ji Feng knew that it was Ah De who had leaked the news, then Ah Bo looked at his grandson and then at Miss Ji Yu Ying, he couldn't help but feel a chill down his spine.

Ade himself was even more terrified, and his hands were even shaking a little when he was driving.

How could he have offended such a terrible man?

No!

He must not let Ji Feng know that he had deliberately let the news slip, he absolutely must not let him know!

The car moved on quickly, everyone did not say a word, they were still in a thick state of shock.

Of course, perhaps it was because they were all so shocked that no one bothered to think carefully about what had happened in the previous tussle for a while, let alone analyse it.

But Ji Feng was the one who analyzed it.

.....

He passed through the Westin Hotel and once again arrived at the back of the hotel, where he met Wu Changkong and Li Guoliang who were waiting.

"What's happening up front?" Seeing Ji Feng, Wu Changgong couldn't help but ask.

"Nothing, there was an infighting between those gangsters' fighters and they are having a fire fight!" Ji Feng said lightly, "Let's go too."

"Good!"

Wu Changgong nodded, "The car is waiting in front, the police will be here soon, we'll leave now."

When several people got into the car, Ji Feng asked, "My relatives and the others have arrived at Qing Gang now, right?"

Wu Changgong said, "Not so fast, they are still on their way, but they should be there soon, if we drive faster, we should be able to arrive around the same time as them!"

Only then did Ji Feng feel relieved, nodded and said, "Elder Wu, thank you so much for today."

It was really thanks to Wu Changgong today, if it wasn't for him, Ji Feng could of course have escaped, but there would never have been a chance to kill another one back and eventually cause a firefight between those gangster thugs.

It was because Wu Changgong had sent someone to meet him that Ji Feng was able to free up his hands. Moreover, the information provided by Wu Changgong before was also very useful, otherwise, Ji Feng would not have known that they should run towards the Westin Hotel.

Wu Changkong, however, waved his hand and smiled, "Since we're working together, it's only right that we do all this"

Speaking here, he paused and couldn't help but ask: "Ji Feng, why did those gangsters get into a firefight? What did you do?"

Ji Feng waved his hand and said in a clear manner, "It's nothing, I took out some people, then it triggered confusion and panic, those people tried to escape for their lives, so they got into a firefight with the people who were blocking their way in front of them"

Wu Changkong was stunned and looked at Ji Feng in astonishment.

Chapter 1857

Ji Feng waved his hand and said in a clear manner, "It's nothing, I took out some people, then it triggered confusion and panic, those people tried to escape, so they got into a fire fight with the people in front of them who were blocking their way"

Wu Changkong was stunned and looked at Ji Feng in astonishment.

Although Ji Feng said it very easily, as if he was saying that he had encountered two thieves and had casually dispatched them. But in reality, Wu Changkong knew that no matter how lightly Ji Feng said it, the process must have been incredibly thrilling.

You know, the street in front of the Westin Hotel, who are all the people?

Those were all the elite fighters of various gangs.

It is not wrong to say that they are hooligans and thugs, but there is one thing that cannot be overlooked: these hooligans and thugs definitely rely on their own fists to make a great name for themselves.

Which gang has not had battles when fighting with other gangs for their interests?

This time and again, those rogue thugs had long been experienced in battles and had developed the skill of vicious fighting. Those people on that street, however, were the elite elements among these hooligan thugs, who were more ruthless, more venomous and more vicious than ordinary hooligans and thugs.

One such person is enough to make ordinary people feel afraid.

What about nearly a thousand such vicious rogues and hoodlums? How should they be dealt with?

From this, one can see how strong those rogues and villains are. In fact, not to mention nearly a thousand people, even if nearly a thousand dogs surrounded them, even if a hundred or eighty people came, they would definitely be torn into pieces.

Yet, Ji Feng was just alone.

But what did he just say?

Ji Feng had taken out some people and then caused chaos and panic" What could have happened to make those vicious and cruel hooligans and thugs feel scared and panic-stricken?

From this, you can see just how terrifying Ji Feng really is.

Wu Changgong's heart was incomparably shocked, as an elder of the Qing Gang, he knew better than anyone how difficult it really was to make those rogue thugs afraid.

But Ji Feng had done it, and what's more, he was unharmed!

Wu Changkong couldn't help but regret a little, he shouldn't have waited behind the hotel just now, he should have gone back up to the top floor of the building to see for himself what Ji Feng had actually done, but now, he could only hear a light description from Ji Feng, which made him shocked and tickled again.

However, at this moment, Ji Feng was not much better off looking smug. Because he knew very well that today, they were able to retreat in one piece and still let so many of those gang's fighters die, in fact, there was an element of luck involved, today, luck was on their side!

For example, those nearly 1,000 people were indeed overwhelming, and they were all battle-hardened elite fighters. If it was an ordinary person who would have gone weak at the mere sight of such a scene, let alone fighting against them alone.

However, they are not without their weaknesses.

The fact that these thugs did not come from the same gang, but from many different gangs, was a fatal flaw, and it was because of this that they could not be of one mind, and did not even know each other and had not met each other.

It was also because of this that Ji Feng was able to easily create chaos and panic, which led to the subsequent pandemonium and the firefights between those people, all because of this fatal flaw.

Apart from that, there was another point that was also in Ji Feng's favour – those gang fighters, there were too many of them.

Isn't too many people a good thing?

The truth is not. With so many people crowded into such a street, it would be difficult for them to use their guns even if they had them in their hands, and the only people who could be effective were those with steel pipes and machetes, but because of their first fatal flaw, it made it basically difficult for these people to be effective as well.

It was because of these weaknesses that Ji Feng was able to fight the way he did now, and he was more or less thankful in his heart.

If these fighters were all from the same gang today, and they didn't come with so many people, say only three or four hundred people, in that case, on this T-shaped street, even if he had great skills, with Xiao Gu with him, I'm afraid he would still have no way to escape, only a way to die!

Thinking back now, Ji Feng felt a bit scared!

However, since he didn't die this time, those aggressive gangs would have to wash their necks well and wait.

What Ji Feng didn't lack the most was thunderbolts!

"Not just these mob gangs, but also Hong Yiming!" As soon as he thought of this, Ji Feng couldn't help but secretly coldly snort, the reason why this situation had arisen today was because of this son of a bitch, Hong Yiming.

If it wasn't for his mischievous intentions, this situation wouldn't have happened at all.

Hong Yiming must be very disappointed that he and his little aunt didn't die today, right?

"Just wait, this debt, I will settle with you!" Ji Feng's eyes flickered with cold light as he secretly snorted coldly. In front of him, Hong Yiming's fat face like a pig's head seemed to emerge again

"Tic-tac-toe"

Just then, Wu Changgong's mobile phone suddenly rang and he casually picked up the call, "It's me, what's the situation?"

Ji Feng glanced at him, listening to Wu Changkong's tone, he should be talking to his men, not knowing if it was news about Little Aunt and the White Spider women, so Ji Feng listened with his ears open.

The next moment, he heard the caller say, "Elder Wu, it's too, too tragic, Ji Feng's methods are too terrible, he doesn't know how many people he killed, it caused a big commotion, in the end, those gangs actually imploded because they were too scared, now the whole street is full of corpses and mutilated arms, it's like a river of blood! That ground is turning red!"

"The police have all arrived to block off the street too, but they're all scared silly, many of them are crouching there vomiting furiously" The person on the other end of the phone, his voice trembling as he spoke, was clearly in extremely strong shock.

"Heh"

"So it's about this, it looks like this should be Wu Changgong's men left to monitor that street." When Ji Feng heard what was on the phone, he couldn't help but shake his head slightly with a smile, then he lost interest, he knew better than anyone what it was really like on that street.

However, Wu Changgong's face changed dramatically and he lost his voice, "What did you say?!"

The person on the other end of the phone said in a trembling voice, "Elder Wu, the scene is so tragic, it's shocking, hundreds of people have died here, and less than half of them have actually escaped"

Wu Changgong was immediately struck by lightning, and his whole body was frozen on the spot.

It was only after a while that Wu hung up the phone, but his face was thick with shock and disbelief.

Blood was flowing in rivers!

There were mutilated limbs and broken arms everywhere.

Hundreds of people died in that street, and less than half of them escaped

These key information, reverberating in Wu Changkong's mind, left him stunned for a long time.

This, all this was done by Ji Feng?

Only then did he understand once again that he had underestimated Ji Feng, even though he had already had a very high opinion of him!

This young man was simply a fatal star, terrifying, yet powerful to the extreme!

“Why are you looking at me like that?” Seeing Wu Changgong staring at himself with a shocked expression, Ji Feng couldn’t help but ask.

“Ji Feng

Wu Changkong said with difficulty, “I’m now starting to believe what you said before!”

Ji Feng was stunned and asked, “What I said before? What words?”

Wu Changgong shook his head and said, “No, nothing! Just a casual remark, huh

Quirky!

Ji Feng couldn’t help but shake his head, and didn’t ask anything more.

Instead, Wu Changgong let out a long sigh of relief in his heart as he remembered what Ji Feng had said earlier, Ji Feng said that if he wanted to take on the Qing Gang, no one would be able to stop him.

Originally, when he heard this, Wu Changgong was still very unhappy, Ji Feng was simply treating the Qing Gang as no one else, and was too arrogant.

If Ji Feng really wanted to move Luo Xun, not to mention the fact that Luo Xun’s old man was an elder, even if the Qing Gang mobilized, they wouldn’t be able to protect Luo Xun, and it might even cause huge losses to the Qing Gang.

“Hooray!”

Wu Changgong couldn’t help but feel a bit scared, fortunately he chose to negotiate with Ji Feng at that time, otherwise he wouldn’t even dare to think about it.

With the report from his men in his head again, Wu Changgong knew that next, I’m afraid that the entire New York, and even the entire underground world of Rice, would be abuzz.

And Ji Feng, too, will be the most honored guest of the Green Gang

.....

The prediction of Wu Changgong was not bad at all.

The vast majority of gangs in New York joined hands to besiege Ji Feng and the boss of the Weida Group, nearly 1,000 people besieged the Chinese, but in the end, they were killed by the Chinese with corpses all over the place, and in the end, it even triggered pandemonium, and the major gangs suffered heavy losses

The news, just in less than half an hour even after it happened, spread throughout the entire New York underground world, and even beyond New York.

Almost everyone knew about it, even the police were stunned when they arrived, and many of them even threw up in shock!

As the news flew like wings to all corners of New York, the whole of New York was in an uproar!

But everyone who knew the news was stunned.

Nearly a thousand people, all elite fighters from various gangs, had been killed off like that?

Just how tough was Ji Feng?

How could he be so powerful?

In a flash, the entire New York underground world was set off.

If it was said that before, when Ji Feng had taken out many gang leaders or important figures in succession, and also exterminated the Yamaguchi Group and so many smaller gangs, that only caused a shock, then, this time, it was like a nuclear bomb being thrown into the calm lake.

When the bomb exploded, the entire lake, not to mention boiling, was instantly drained of water.

The entire New York underworld was subdued!

Or rather was stunned!

Chapter 1858

When the nuclear bomb exploded, the entire lake, not to mention boiling, even all the water was steamed dry in an instant.

The entire New York underworld was subdued!

Or rather was stunned!

This time, although the New York underworld was also abuzz, it was no longer the boisterous kind of boiling, nor was there chatter everywhere, treating this matter as an after-dinner talk, but an uproar!

Even those street punks who see each other no longer ask in amazement, "Hey, did you hear? Ji Feng took out a few more gangs!"

Instead, they would say, "God! That's scary!"

Even more so, if there was a conflict between two gangsters, the name Ji Feng even became the object of their betting and swearing. For example, if they got ruthless, they would say, "If anyone cheats me, let him run into Ji Feng!"

It was evident how much shock and fear the bloody battle on Long Street had brought to the entire underground world of New York.

However, what was even more frightening was the bosses of those mafia gangs. In particular, those gang bosses who had participated in the siege of Ji Feng were even more terrified.

Some of the big gang bosses and important people were better off, as they had that authority after all, and were used to seeing the storm. Although Ji Feng was indeed terrifying, they were not so scared that they wanted to die.

At most, they would try to solve this matter immediately after they returned and see if they could negotiate with Ji Feng, or if they could use money or other means to settle this matter.

However, the bosses of some medium-sized gangs were scared out of their wits.

The most crucial thing was that they had also offended Ji Feng, who was a terrifying demon, and once his revenge came, who could resist?

Once he comes to retaliate, who can resist?

Or the guns in the hands of his bodyguards?

How many people died in the street in front of the Westin Hotel? That's hundreds of people!

So many people couldn't stop Ji Feng, so how could he be stopped by just these bodyguards? That was just a delusion!

Especially for those gangs that didn't have any problems with Ji Feng, at this moment, the gang leaders and top brass were really regretful. They didn't need to face such a monster like Ji Feng, but just because they thought they could get a piece of the pie, they ended up in such a big trouble!

These gang leaders were really scared and regretful!

However, they could not do anything about it, as it had already happened, and it was useless for these gangsters to regret it, they could only find a solution.

However, the dense fear in these people's hearts was not diminished one bit.

..... In fact, if they had no fear, they would naturally have no regrets.

Ji Feng went on a killing spree on the long street in front of the Westin Hotel, killing rivers of blood, and those gang bosses saw it all. As soon as they closed their eyes, that bloody and horrible scene at that time would immediately appear in his mind, making each of these normally fierce and fierce gang bosses pale and their lips tremble.

There were even a few mid-sized gang bosses who were so timid that they were actually shivering straight after they got in their cars and fled the scene, so it was clear how scared they were in their hearts!

"Quick! Quickly book me a flight, I want to leave New York, hurry up"

Some of the gangsters didn't even dare to stay in New York any longer and wanted to leave New York immediately to get away from the storm.

There are even gangsters who are already thinking in their heads where they should hide next, should they leave the country or should they hide in the countryside?

Before these gangsters even arrived home, an atmosphere of fear permeated the entire New York mob.

Relying on his ruthless methods and thunderous attacks, Ji Feng had made a formidable name for himself in the New York mafia, making all the mafia bosses, chilled to the bone!

These mob bosses could be proud of how many men they had under them, and they could also feel complacent about how much money they had made this year, however, when they were suddenly faced with someone who simply ignored their money, and even more ignored the many minions and gang power they were proud of, these mob bosses, no longer had anything to be proud of.

They, moreover, had nothing to fall back on!

No matter how many men they had, they couldn't stop the other side, they could only send them to their deaths. No matter how much money they have, they can't save their lives. At this time, these gangsters, who were usually so powerful and domineering, no longer had the prestige they used to have, and they were no different from ordinary people.

At this time, all they had left was fear, and regret!

How could they have thought of going against the Wida Group?

These gangsters really wanted to smash their faces in. They had accepted a favour from the Yakuza and the mysterious company to deal with the Weta Group just for the sake of a small advantage, but in the end, it had led to such a great disaster.

Escape!

Now there was only one last option left – escape!

If not, once Ji Feng's revenge comes, I can think of what will happen then.

However, was it really possible to escape?

If they escaped, what should they do with the foundation they had built in New York?

These gangsters were torn. They had worked so hard for so many years in New York to create such a gang, and of course, on the surface they all had companies, and some of the big gangs even had large conglomerates, so if they just ran away, once Ji Feng's revenge came, the minions under them would definitely burst out in all directions, and the group companies, too, would definitely be hit beyond recognition.

That would be the end of a lifetime of hard work.

God!

What the hell should we do?

This is what many gang bosses and important people are saying at this moment, they are so regretful that they want to die.

“How about finding those big gangs to discuss?”

.....

Wu Changgong took Ji Feng and Li Guoliang and headed straight to the suburbs of New York, arriving at a place that Ji Feng was familiar with, which was Zhu Mingyuan's territory, the same place where Wu Changgong had his negotiations with Ji Feng yesterday.

Far away, before he reached Zhu Mingyuan's villa, he saw two cars parked by the roadside, and Zhu Mingyuan, with four of his men, was waiting by the roadside.

Seeing Wu Changgong and Ji Feng he came over, Zhu Mingyuan immediately walked over with quick steps.

"Mr. Ji, what a great pleasure! Well done, it hurts!" With a look of excitement and awe, Zhu Mingyuan shook hands with Ji Feng vigorously, "Single-handedly, taking out hundreds of people, Mr. Ji, you're really the toughest person I've ever seen, there's no one!"

It was impossible for Zhu Mingyuan not to marvel, what Ji Feng had done had by now spread throughout the entire New York underground world and was believed to have created a great sensation even among ordinary people.

One man, single-handedly, had killed an entire street with blood flowing down it, while he himself had retreated with his whole body, such a battle record was simply unbelievable.

The fact that Zhu Mingyuan knew something about Ji Feng's identity and that he was the son of a big family, but had such skills and guts, was really something one could not help but admire!

But Ji Feng couldn't help but be slightly stunned: "Hall Master Zhu, it's not that exaggerated, right?"

It was true that those elite gangsters in front of the Westin Hotel had died because of him. However, the vast majority of those people were not killed by his own hands, it was only because he had killed them with a bio-current whip, silently and without a sound, triggering a huge panic.

As a result, those gangsters' fighters themselves infighted and created a firefight, which ultimately killed so many people.

But how did it come to Zhu Mingyuan's mouth, but the side became that he had taken out hundreds of people single-handedly by himself?

He also said that he killed the whole street with blood flowing into the river

Ji Feng couldn't help but shake his head, even if he was powerful, he couldn't have killed so many people. Not to mention the others, just those hundreds of people standing there motionless for themselves to kill, was also enough to tire themselves out.

It seems that this rumour is really getting more and more outrageous.

Ji Feng also did not delve deeper with him on this issue, but asked, "Hall Master Zhu, where are they, my relatives?"

Zhu Mingyuan immediately said, “Mr. Ji, please don’t worry, Mr. Ji and Miss Bai are both resting in the cold house at the moment, there is no problem with their safety, only that they are all a bit fidgety, they should be worried about you!”

Ji Feng nodded slightly and said, “Then let’s go over there now!”

Wu Changgong also said next to him, “That’s right, if there’s anything to say, let’s wait until we get home, this isn’t the place to talk either

Zhu Mingyuan laughed and made a gesture of invitation, “Mr. Ji, please!”

Although Zhu Mingyuan’s real identity was someone from a special department in China, and certainly considered a special soldier, while his current identity was a hall master of the Youth Gang but regardless of his identity, people like him worshipped the strong, and in the military, those with strength were naturally respected, and naturally even more so in the gangs.

Ji Feng’s thunderous methods, as well as that hefty battle record, made Zhu Mingyuan really admire the whole world. All along, he had really never admired a person so much.

“Mr. Ji, it’s all over the Dao now, some of the gangsters who rushed back first are all shaking like chaff in fear, their faces are pale!”

Along the way, Zhu Mingyuan was excitedly introducing the news he had received to Ji Feng: “There are even some gang bosses who have sent all their inner circle to book air tickets, and some to procure food

Ji Feng was slightly stunned: “Purchasing food? Are you sure they are trying to procure food, not weapons?”

“Of course not!”

Zhu Mingyuan laughed harshly, “You still don’t know, right, now those people have long been terrified, how would they dare to procure weapons to fight you in a firefight? These people are procuring food to hide out!”

Ji Feng instantly frowned, “Hiding out?”

Chapter 1859

“Of course not!”

Zhu Mingyuan laughed harshly, “You still don’t know, right, now those people have long been terrified, how would they dare to procure weapons to fight you in a firefight? These people are procuring food to hide out!”

Ji Feng immediately frowned, “Hiding out?”

This was quite out of Ji Feng’s expectation, originally in his opinion, even though those gangs had lost a lot of manpower on the long street in front of the Westin Hotel today, but so many gangs together were only about nearly a thousand people, if averaged out to each gang, there would be at most two or three hundred people.

There were even some that had fewer people out, and I'm afraid there were only a few dozen.

For a gang, the loss of these men is not much at all, especially for the big gangs, not to mention the loss of two or three hundred men, even if there were twice as many, it would not hurt.

On the contrary, what those gangs are more concerned about is their majesty.

The gangs must have been very respectable in New York, but the fact that so many gangs joined together and didn't leave themselves behind should have been a disgrace to them.

In that case, the most likely reaction of these gangs would be to gnash their teeth in retaliation and to take themselves out so that they would not be disgraced.

But Zhu Mingyuan actually said that the bosses of those gangs were going to hide out?

This was indeed quite unexpected from Ji Feng.

"Where are they going to hide?" Ji Feng pondered for a moment and opened his mouth to ask.

"Where else could they go? Maybe it's probably going to the countryside, or some of that would just be leaving New York for a while, it's not uncommon for people in the Dao to run away." Zhu Mingyuan said.

"Then what about this matter? Do they just admit to it?" Ji Feng asked with a frown, "Or did those people just run out and hide for a while, then come back in a few days?"

Zhu Mingyuan shook his head, "That's not so clear, it's indeed not good for others to guess what these people think. However, these people's industries are all in New York, as if they don't come back, I'm afraid that these industries will be divided up by others!"

Ji Feng nodded thoughtfully, and then, he pondered.

After a while, Ji Feng suddenly remembered something else and he asked, "By the way, Elder Wu, those bodyguards have all returned, right?"

Wu Changgong immediately nodded, "They've all returned."

Only then did Ji Feng let out a faint sigh of relief and nodded his head, "That's good."

When Ji Feng said those bodyguards, he was referring to those bodyguards around his little aunt Ji Nan Yue, and the twenty or so experts from the Invitation Gang that Wu Chang Gong had sent to protect his little aunt.

At that time, they were all surrounded by the street in front of the Westin Hotel and were unable to get out. At that time, Ji Feng did not have the energy to help those bodyguards in order to save his sister, Ji Nan Yue, and could only let them hide in the car, and did not open the door.

The company's main business is to provide a wide range of products and services to the public.

It was precisely for this reason that when Ji Feng later killed back for the second time, he was able to take advantage of the pandemonium in the street and save those people. But at that time, he didn't personally leave with those bodyguards because he had to go and catch those gangsters, so he didn't know if they were back safely now.

Now, hearing Wu Changkong say so, Ji Feng was quite relieved by this.

“But” Wu Changgong suddenly wanted to say something but stopped.

“Elder Wu, if you have something to say, just say it, there is nothing that I can’t accept!” Ji Feng said.

Wu Changgong nodded and said, “According to the report from the people I sent over to keep an eye on, the brother in the car at the front, lost his life”

Ji Feng’s eyebrows were instantly furrowed, he knew who Wu Changkong was talking about.

At that time, they were a convoy and came to a place not far from the Westin Hotel, when a large rubbish truck suddenly rushed out in front of them, directly hitting one of the cars at the front of the convoy and completely deforming it, and then also blocking the road, making it impossible for the vehicles to pass again.

Ji Feng knew very well that the other party was using this method to block them all in that street, but the bodyguards inside the front most deformed car never came out.

They had no lives.

Ji Feng was silent for a moment before he asked, “How many people in total?!”

“In the car at the front, there were three people in total!” Before Wu Changgong could speak, Li Guoliang next to him spoke up, “I arranged the bodyguard personnel for the convoy at that time, those three brothers, two of them were Mr. Ji’s bodyguards and one was from the Qing Gang”

“Hmm!”

Ji Feng nodded, and couldn’t help but sigh in his heart.

I don’t know what’s going on, Ji Feng can take out dozens and hundreds of those gangsters without blinking an eye, or even more, and his methods can be cold and overbearing, but Ji Feng’s heart is still very uneasy when one of his own dies because of it.

After pausing for a moment, Ji Feng only said in a deep voice: “If it was in the past, when encountering such a situation, how would all of them be handled?”

Li Guoliang immediately said, “Because the company had bought insurance for those bodyguards and had also signed a formal compensation contract, so they would be compensated according to the details of the contract.”

Ji Feng nodded, and then turned his head and asked, “Elder Wu, what does the Qing Gang do about these matters?”

Wu Changgong said, “Those of us who are in the underworld are not so particular about it, but of course these brothers will have insurance claims, and then there is another settlement payment, and if there are any problems with their families in the future, the gang will try to help solve them!”

Ji Feng said without hesitation, “Elder Wu, how about this, you guys deal with it how you want, in addition to that, I’ll give that brother’s family another million here, as a slight token of my feelings!”

Wu Changgong was stunned, immediately, he nodded and said, "Then I'll thank you on behalf of that brother."

Ji Feng said, "Of course I also have a request, I hope that this money I give can really reach that brother's family members, so that nothing disgusting will happen in the middle!"

Wu Changgong immediately said in a deep voice: "You can rest assured of this, my Qing Gang was not afraid to guarantee that no one would dare to swallow the money of the brothers' lives, otherwise, it would be against everyone!"

The fact is that they are the kind of people who live in the underworld, almost like hanging their heads on the waistband of their trousers in order to live, in order to earn more, if even the money to sell their lives are black, three knives and six holes are less, then it is likely to be executed to death!

Ji Feng then nodded and did not speak again.

But in his heart, Wu Changgong had changed his mind about Ji Feng. At least, Ji Feng was not that kind of cold-hearted and high-minded gentry, and it might not be a big deal for someone with money to come up with a million dollars, but to be able to demand that it must be handed over to the family of the brother who died, this could only be said by someone with a heart.

From this it can be seen that Ji Feng at least has the bottom of his heart under these people.

Because when it came to casualties, Ji Feng's interest was not high, so the next few people did not say anything else.

Soon, they arrived in front of Zhu Mingyuan's villa and saw Bai Spider waiting at the door. Seeing that Ji Feng had gotten out of the car and come, Bai Spider immediately greeted him with quick steps, "Young Ji, you're back!"

Ji Feng smiled and nodded his head, he knew that Bai Spider was worried about him.

"Where is Little Aunt?" Ji Feng asked.

"Chief Ji is waiting inside, she wanted to come out with me, but just in case, I didn't agree!" White Spider explained.

Ji Feng smiled and nodded, "You did the right thing!"

Bai Spider's caution was justified, although this was a suburb and still the territory of the Qing Gang, there were Zhu Mingyuan's men guarding all around. But who could guarantee that when they left that street of the Westin Hotel, they would not be followed?

Or there might be other unexpected factors, and any negligence might all result in bad consequences that would be difficult to undo.

Ji Feng led the white spider into the villa courtyard with quick steps, and then walked all the way to the living room, where he saw his little aunt Ji Nan Yue standing at the door of the living room, and was constantly looking around.

"Little Aunt!" Ji Feng walked over quickly.

Seeing Ji Feng come back, Ji Nan Yue's face finally showed a relaxed look and let out a long sigh of relief, "Little Feng, are you alright?"

Ji Nan Yue was aware that at that time, when Ji Feng was holding her hostage and rushing forward, it seemed that he had been injured quite lightly.

Ji Feng laughed: "It's fine, it's just that I was shaken by the bomb at that time and my brain was a bit dizzy, but now I've fully recovered!"

Only then did Ji Nan Yue nodded and said, "That's good, that's good."

Immediately afterwards, Ji Feng brought up the matter of having bodyguards die, and also the matter of having to pay additional settlement fees, Ji Nan Yue couldn't help but feel a little sad, these people all died because of her.

Ji Feng sneered, "Little Aunt, you can't be blamed for this, the real culprits are those gangsters and that old bastard Hong Yiming, don't worry, I won't let them go!"

"Hong Yiming" Ji Nan Yue shook her head, "this person is now a tumor in the Weida Group, originally this person is still very capable, just did not use his heart in the right way, otherwise, Weida Group is certainly not the way it is now"

"Since it's a tumor, it's just a matter of cutting it off directly!" Ji Feng said indifferently, "Little Aunt, let's not talk about this now, you can rest here first, I still have things to discuss with Elder Wu and the others, and after that we will go back!"

After arranging for Ji Nan Yue, Ji Feng then said to Wu Chang Gong, "Elder Wu, there are two more things I need to trouble you with next."

Wu Changgong immediately said, "Go ahead."

"First, as I said before, I want the exact whereabouts of the bosses and important people of those gangs." Ji Feng said, "Second, help me put out the word that I'm going to launch a revenge operation against all the gangs that have participated in the operation!"

Chapter 1860

"First, as I said before, I want the exact whereabouts of the bosses and important people of those gangs." Ji Feng said, "Second, help me put out the word that I'm going to launch a revenge operation against all the gangs that have participated in the operation!"

"And retaliate?" Wu Changgong was stunned.

"Of course!"

Ji Feng sneered and a cold aura flashed in his eyes, "Others have bullied me, so I naturally have to take action. This matter won't end here, there must be an explanation!"

The gangsters in New York had attacked the Weida Group for no reason, and Ji Feng had only fought back, but it seemed like he had stirred up a hornet's nest, causing the entire New York gangsters to go crazy, all wanting his life and wanting to completely swallow the Weida Group.

He had been bullied and shit on by others, how could Ji Feng not say anything?

It was not his character to be bullied and not say anything. Even back then, when he was still in Mang Shi County, at that time, Ji Feng was still just a poor boy with no money, but when he faced the bullying of the deputy governor's son, he would not choose to just give in, but would fight back in his own way.

Now he was doing the same, in his own way, letting those gangsters know that they normally ran amok and no one bothered, and Ji Feng would likewise not bother, but if these people bullied him, then he would definitely make these people regret it!

When he killed those elite gangsters, it was only Ji Feng's self-preservation. In the face of so many people's siege, so many gangsters had united, Ji Feng naturally had to protect himself!

However, self-preservation was only a means, not an end.

"There's a saying in Chinese, "To come but not to go is not a gift!" Ji Feng's face wore a cold look as the corners of his mouth pulled up a slight arc, "Those gangsters from the underworld have made their moves, so next, it's my turn to make my move!"

"That"

Wu Changgong couldn't help but shake his head when he heard this, he couldn't help but secretly mourn for those underworld gangs.

The move those mob gangs sent out was to strike at the Weida Group first, but after being met with Ji Feng's strong counterattack, those gangs were unrepentant and made another move, they joined forces and rounded up Ji Feng and the old boss of the Weida Group on that street in front of the Westin Hotel.

However, these gangs' tricks did not bring any harm to Ji Feng, but instead caused them to lose a lot of money themselves.

Then it was Ji Feng's turn to make a move next. Thinking about Ji Feng's tactics Wu Changgong really felt some sympathy for those gangs, he really didn't know how miserable they would be when facing Ji Feng's ruthless retaliation.

But when you think about it, what Ji Feng said was completely logical.

This is like a group of rogues and thugs who have set their eyes on a big family and want to take a bite of their wealth, or even swallow it whole.

This is especially true when the family has no resistance at all, which makes these hoodlums even more reckless.

However, after they had first bullied the big family, they suddenly realised that there was someone in the big family who was guarding the house, and although it was only a thin-armed man, he had beaten them all up.

And how could those mob gangs hold back?

They wanted revenge, and this time, they were no longer satisfied with just taking a bite out of this fat piece of meat, but wanted to take it for themselves completely, and even, to kill the family, especially the caretaker.

So, these mob gangs gathered a large number of men to besiege this large family.

The final result, however, left everyone shocked and at a loss for words.

Faced with a large number of hooligans and thugs, the guardians of the big family's house were strong enough to beat the hooligans and thugs, who only knew how to run for their lives and even hated their parents for having two legs less

But this does not mean that the matter is finished.

The first thing that happens is that the hoodlums go after the others and find out that they can't beat them, and then it's time for them to get revenge from the big families.

If you provoke people first, they will naturally retaliate, even if this is placed in any place in the world, it can be justified.

But, seeing Ji Feng's cold look on his face, Wu Changgong straight instigated his teeth those gangs, but it's going to be bad luck!

Because of the agreement with Ji Feng himself, inquiring about the exact whereabouts of the bosses and important people of those gangs, this is an obligation that the Qing Gang should do, so Wu Changgong agreed to do it very quickly.

As for helping Ji Feng put out the word, it was just a matter of raising his hand.

It was enough to send some more punks out on the streets and chat with people for a few minutes.

After the two of them finished discussing, Ji Feng was going to take his little aunt Ji Nan Yue and Bai Spider and the girls to leave, now little aunt's husband and second brother, they were all still waiting, although they had already called them to report their safety, but without seeing them with their own eyes, they would always have some worries.

"Ji Feng, wait a minute" Wu Changgong suddenly called out to Ji Feng.

"What?" Ji Feng asked, "Is it the matter of the settlement fee? I can pay this money directly into the account you gave me, or I can bring it directly when we meet next time, it's fine"

Wu Changgong shook his head and said, "It's not this matter It's like this, about our Hall Master Luo, you see, is there any room for reprieve?"

Ji Feng couldn't help but raise an eyebrow: "What do you mean?"

Wu Changgong chuckled, an unnatural look flashed in his eyes, and said, "It's like this, that Luo Xun family's old man is also the hall master of the gang after all, and still has a good prestige in the gang, although he violated the gang rules, but always have to take into account the face of Elder Luo, and this matter has this direct relationship with you, so... .."

"So you're here to ask me?"

Ji Feng said strangely, "Elder Wu, you shouldn't come to ask me about this matter, right? It's not like I'm the leading boss of the Green Gang! What to do with Luo Xun, that's your business eh?"

Just as the words came out, Ji Feng suddenly reacted.

He fiercely frowned, gazed at Wu Changgong, and a playful smile appeared at the corner of his mouth, "Elder Wu, why do I hear something twisted in your words?"

Earlier Ji Feng hadn't paid too much attention to it, but now he suddenly came back to his senses, there was something wrong with Wu Changgong's question itself!

What did he say?

Is there still room for détente in the disposal of Luo Xun?

The matter is directly related to himself, and he has to take care of Luo Xun's old man's face?

Ji Feng then understood that before this, the Qing Gang originally did not intend to punish the hall master named Luo Xun seriously, perhaps because they saw that they were not surrounded and killed by those gangs, but instead showed their great strength, which made the Qing Gang dare not take the disposal of Luo Xun lightly, so they thought to ask their opinion!

This must be the case!

Seeing the unnatural look on Wu Changgong's face, Ji Feng understood everything.

"Elder Wu, if I remember correctly, we only talked about it last night, right?" Ji Feng's voice sank as he asked.

Wu Changgong nodded awkwardly and said, "Then what, Ji Feng, you shouldn't misunderstand"

"Does Elder Wu still remember what we talked about at that time?" Ji Feng didn't listen to Wu Changgong's nonsense at all, but asked directly, "According to our agreement, the Qing Gang's disposal of Luo Xun shouldn't be too lightly handled, right?"

"No, you misunderstood" Wu Changkong immediately said, "In fact, we mainly considered that Luo Xun's old son is also an elder, if we rashly dispose of Luo Xun too harshly, it might cause their father and son to rebellious mentality, so we have to take our time, step by step to weaken the power in their hands"

Ji Feng glanced at Wu Changgong and asked, "Really?"

A hint of embarrassment flashed in Wu Changkong's eyes, but he nodded seriously: "Really!"

Ji Feng smiled faintly, "That's good. That's it, farewell!"

Wu Changgong and the others got up to see them off and waited until Ji Feng and the others had left in the car before Wu Changgong shook his head with a bitter smile, he knew it would end up like this.

In fact, Wu Changgong's heart was indeed very embarrassed. Just as Ji Feng said, in fact, at the beginning, although the Qing Gang had made a deal with Ji Feng, the leading boss had not made up his mind about the disposal of Luo Xun, because Luo Xun's old man was not small in the Qing Gang.

If he disposed of Luo Xun rashly and too harshly, it might even cause internal strife in the Qing Gang.

So at first, after discussing with the old gang leader, Wu Changgong decided not to punish Luo Xun for the time being, but only to gradually weaken the power in the hands of him and his father, Elder Luo, before finally producing evidence and disposing of them.

Of course, Wu Changgong also admitted that the Qing Gang would most likely not dispose of Luo Xun if they could not weaken the power in their hands.

But when Ji Feng single-handedly broke the siege of those gangs, and even killed those gangs with heavy losses, it made Wu Changgong realize that this person Ji Feng, either he should be honest with him and be friends with him, or he should be killed instantly, otherwise, it would definitely not be a pleasant thing to be an enemy of him!

However, Wu Changgong did not expect that Ji Feng's reaction would be so keen, he saw the crux of the problem at a glance, which made Wu Changgong very embarrassed.

However, in the end, Ji Feng still gave Wu Changgong face, otherwise, now Wu Changgong was afraid that he would not have the face to stay here.

Taking a deep breath, Wu Changgong calmed down and secretly nodded his head.

If other young people had this kind of skills and good origins, I'm afraid they would be crazy to the point of no return, but Ji Feng knows how to leave some room for manners Originally Wu Changgong thought Ji Feng was arrogant, but when he really knew Ji Feng's strength, he no longer thought he was arrogant!

This is what it means to be impressed!

"Order it down immediately, follow Ji Feng's request strictly, spy on those gang leaders and important people, and then put Ji Feng's words out there!" Wu Changgong commanded in a firm tone, "Make sure to get information about those gang bosses!"

"Yes!"

Zhu Mingyuan immediately nodded his head.

Thus, the entire underground world of New York was once again swept by panic
