

Chapter 191

It was true that he had more than 40 million dollars on him, but for Ji Feng, who had always lived a frugal life, to suddenly take out more than 10 million dollars to buy a villa was more or less unbearable. He could not help but secretly laugh at himself for being too petty, but the reluctance in his heart was also real.

He and his mother used to live on just a few thousand dollars a year, and he had never had tens of thousands of dollars, even for his family, before he met the intelligent brain.

Therefore, the habits he had developed since childhood still made it difficult for Ji Feng to change over for a while. And he didn't want to change it either, unless it was the last resort, he was not willing to be half-heartedly wasteful.

Although Ji Feng had fantasized many times that if he suddenly got rich one day, he would have to be extravagant, but when he really got rich, he didn't want to be extravagant at all. Even when he bought an Audi some time ago, he was heartbroken. If he hadn't considered the performance and safety of the car, he would never have spent hundreds of thousands of dollars on it.

If he could, he would have wanted to buy one for a few tens of thousands of dollars, anyway, to get around, others drive and he at least doesn't have to walk. But because of the consideration that there might be some emergency situation one day, Ji Feng still bought the Audi.

However, his stingy character in terms of spending money has not changed in the slightest.

If someone had ridiculed him in this regard, he would have scoffed. Those who have not experienced those hard times will never know what money is in the eyes of some people!

For many people, money might just be a number, but for Ji Feng, money was the capital that kept him alive.

"It's a good habit to keep up!" Ji Feng was so satisfied with this character of his that he couldn't help but say it in a self-congratulatory manner.

So nowadays, although he liked this villa very much, and the conditions of this villa also met his requirements exactly, whether it was for practicing aerobics or living, or for studying the light curtain of the Gamma Galaxy later, it was a very secluded place, at least until the news leaked out, absolutely safe.

However, Ji Feng still hesitated and still had not made up his mind.

When he looked at the time, it was already two o'clock in the afternoon, and he saw that it was time to go to class, so he took his textbook and went straight to the classroom.

However, throughout the afternoon, Ji Feng's mind was not in the classroom, and two voices kept hovering in his head: to buy, or not to buy?

"It's time to analyse it properly!" Ji Feng secretly decided. Although he was cheap, he was never stingy with the money he should spend, he just didn't waste it.

Ji Feng picked up a pen, casually tore off a piece of paper from his book and began to write and draw.

“Eighteen million in exchange for a villa.” Ji Feng muttered in a voice that only he could hear, “The villa can be used for living, a function that is not worth this price at all. But apart from that, a secluded villa with a small stadium nearby is good for practicing aerobics and strength control, which is a good feature.”

“However, this is still not worth the price of 18 million What if we add the manufacture of light curtains?” Ji Feng couldn’t help but ask himself.

If we talk about living and practicing, just having a secluded house would be fine, and practicing power control could be done in a park, or in a stadium, and a school playground would be equally fine. Creating a light screen, then, could not be so broad-minded.

Ji Feng knew better than anyone else what kind of value the light curtain of the Gamma system had.

This kind of light screen in the Gamma system is only equivalent to the ‘TV’ of ordinary residents’ homes, but on Earth, this is simply an epoch-making technology. It could be used for military and civilian purposes, and so on!

Imagine, for example, in scientific research. If you want to design or create a new device, the difference between using a light curtain to show it and presenting a three-dimensional picture on a computer is simply one in the sky and one in the earth, which is incomparable.

According to the intelligent brain, as long as you have learned the communication and network technology, you can use the light screen as a super computer, and the powerful functions will make anyone crazy.

It was precisely because he was clear about the value of the light curtain that Ji Feng could assert that if others knew that he was in possession of this technology in the future, I was afraid that even the family would not be able to protect him at that time.

Even a perverted thing like the light curtain could be created, how could such a talent still have personal freedom?

What’s more, with the continuous training of the intelligent brain, the technology that Ji Feng will master in the future will be far more than just the light curtain, and by then he will be waiting to be confined like a giant panda. More seriously, if people abroad knew about it, it would be hard to say what would happen to Ji Feng when the time came.

For such a person, it would naturally be better if he could get it, but if he couldn’t, then there was obviously only one way to get rid of him!

The moment he thought of this, Ji Feng’s head suddenly turned.

“Buy!” Ji Feng clenched his teeth and finally made up his mind.

Although living in the villa, there was no guarantee that it would be absolutely confidential, but at least in a short period of time, no one would know about these things, and as for the future, Ji Feng had no good solution, so for now, he could only take one step at a time.

Having made up his mind, Ji Feng was much more relaxed. After finishing the afternoon classes, Ji Feng immediately returned to the dormitory, and it was only 4pm.

The result was that no one answered, and Ji Feng couldn't help but be stunned.

"Could it be that she is in class right now?" Ji Feng couldn't help but mutter secretly, as for the foreign language department's course schedule, Ji Feng naturally didn't know, moreover, since Xiao Yuxuan and Tong Lei had joined hands and left at noon, the two of them hadn't contacted him again, which made him feel a bit drummed in his heart, what exactly did the two of them say?

Ji Feng was somewhat undeterred and called Tong Lei's phone again, but the reply was that it was switched off.

At this time, the other three people in the dormitory were also not there, so Ji Feng simply sat on his bed alone, casually picked up a pen and turned it around in his hand, but his mind kept thinking.

When it was time to eat dinner, Ji Feng's mobile phone suddenly rang, and he looked down to see that it was Tong Lei calling.

"Hey, Lei Lei, why haven't you answered the phone all afternoon?" As soon as he picked up the phone, Ji Feng asked in a bit of anxiety, this afternoon, he had called four or five times in a row, but all of them were off.

"I'm in class!" Tong Lei's soft voice came out, making Ji Feng breathe a sigh of relief, fortunately, it didn't sound like there was anything different.

"Ji Feng, what's the matter with you calling me?" Tong Lei was a little surprised.

"Oh, it's like this" Ji Feng snapped back to his senses and immediately told her what she intended to do: "I saw a house for sale on the internet today... .."

"You want to buy a villa?" Tong Lei couldn't help but be a little surprised, although she knew that Ji Feng had made a lot of money at the Jadeite Raw Stone Fair, she was still a little shocked to hear that she actually had to pay more than ten million at once.

Ji Feng hesitated for a moment, but still didn't explain anything. After all, the matter of having an alien intelligence in his own head was too shocking, and it was better to bear these stresses by himself, and if Tong Lei knew about it, she would inevitably worry about herself.

"Ji Feng, you can't spend your money recklessly even if you have it." Tong Lei said somewhat hesitantly, she was afraid that if she spoke too heavily, she would hurt Ji Feng.

"Of course it's not spent indiscriminately" Ji Feng laughed but had a bit of a headache, he deliberated for a while before saying, "It's like this, because this side of Jiangzhou is still being developed, according to the current situation, the property prices near the university city This is a kind of investment, and I can still live there myself, so I have a place to stay. When the property prices are high, I can sell the house and make a profit, so I can kill two birds with one stone."

Tong Lei is not too proficient in economics, but hearing what Ji Feng said made sense, she couldn't help but say, "I don't know much about these things either, but you must be careful and never be reckless. By

the way aren't you majoring in economic management, why don't you just ask your teacher for advice and then make a decision, after all, more than ten million is not a small amount!"

Ji Feng immediately smiled and agreed, Tong Lei's concern he could naturally feel, that soft voice, filled his heart with warmth.

"If we buy a house, it will be our home!" Ji Feng joked with a smile.

"That's your home!" Tong Lei giggled, "My home is in Mang Shi!"

Ji Feng laughed, knowing her thin skin, so he stopped teasing her, said a few more words, and hung up the phone.

Afterwards, Ji Feng dialed Xiao Yuxuan's number again, and this time, Xiao Yuxuan finally answered the phone.

"Little fellow, what's so urgent? I was just about to call you up!" Xiao Yuxuan's voice, with a different kind of seduction, made Ji Feng's heart burn as soon as he heard it.

Forcing down the desire in his heart, Ji Feng smiled, "I want to buy a house!"

He quickly said his intention to buy a house.

Xiao Yuxuan was surprised, "Little guy, so what you said is true?"

Previously, when Ji Feng had just seen the staff dormitory building, he had said that he intended to buy a house, and then after the incident with Wu Ling'er, his belief in buying a house became even more resolute, but Xiao Yuxuan had not expected that it would be so soon.

"Of course it's true, this is our future love nest, of course I'll treat it with care." Ji Feng smiled heatedly.

"Little rascal!" Xiao Yuxuan charmingly pouted a sentence, but her heart was full of sweetness.

After Ji Feng had described the matter in detail, Xiao Yuxuan immediately said, "If it's really like what you said, 18 million is definitely not expensive, this might really be an opportunity!"

Hearing Xiao Yuxuan say this, Ji Feng's heart was instantly at ease.

After hanging up the phone, he immediately contacted that villa owner, Mr. Li, and agreed with the other party to meet at ten o'clock the next morning.

After doing this, Ji Feng threw the phone onto the bed, couldn't help but let out a sigh of relief and he smiled heatedly, "The car is there, the house is there, but the house still lacks a mistress must encourage both Yu Xuan and Tong Lei to live in it!"

Chapter 192

The next day, it was not yet light out.

The next day, before dawn, Ji Feng woke up early, as usual. Because he was afraid that the other three guys in the dormitory would see something, Ji Feng didn't go into his head to receive training this night.

Du Shaofeng snored too loudly in his sleep, Han Zhong grinded his teeth, and only Zhao Kai slept honestly, but Ji Feng saw him pick up a book from his bed within two hours before he fell asleep, writing and drawing on it, not knowing what he was working on.

What made it even more helpless was the electric fan hanging from the ceiling.

The fan was not blowing much, but the sound was comparable to that of a helicopter.

Under such circumstances, not to mention training, it was already a great luxury to be able to sleep in peace. Fortunately, Ji Feng had long been trained to force himself to fall asleep in the shortest possible time under any circumstances. One had to know that as an agent, one could be exposed at any time, and escaping was just as important as carrying out a mission. In the process of escaping, it is inevitable that one will get tired, and at this time, it becomes very important to rest at all times.

This item, too, was in Ji Feng's training plan and, by the time he practiced the second set of moves, he had already mastered this skill.

However, this also made Ji Feng more determined to buy a house, not for any other reason, just to be able to sleep soundly, all must buy a house.

Since there was no class in the morning, Ji Feng used this time to meet the owner of the villa, Mr. Li.

After having a haphazard breakfast, Ji Feng drove to the place where they had agreed to meet.

Mr. Li was a middle-aged man in his early fifties, with a Chinese face and a somewhat unsmiling appearance.

Ji Feng talked to him calmly and only then did he learn that Mr. Li was a stock speculation enthusiast and that his son and daughter were both in Rice and had both started their own families. The old couple could not leave their children and they both missed their parents so much that they encouraged them to emigrate.

Ji Feng couldn't help but be interested and asked, "Mr. Li is speculating in stocks? Aren't those stocks extremely risky?"

For these financial matters, Ji Feng did not know much now, although he studied economics and management and was considered to be in the economics department, but after all, he had just started university and had never been exposed to this aspect.

What surprised him was that, listening to Mr. Li's introduction, it seemed as if the other party did not seem to do anything other than speculating in stocks, and if he did not make money, I was afraid that Mr. Li would have starved to death long ago.

It was just that stocks were too risky, something Ji Feng had heard about long ago, which was why he was amazed that in the midst of such great risks, Mr. Li could still work for decades, which had to make him admire him.

Mr. Li laughed and said, "High risk, but also high reward, this villa of mine, but I earned it from speculating in stocks!"

“So impressive?” Ji Feng was stunned, there were not a few people who could get rich by speculating in stocks, but most of those were short term investments, or those with inside information, I guess Mr. Li also belonged to this category.

The two of them chatted for a few more minutes, then Mr. Li said, “Little friend Ji, it’s rare that we are so kind, how about this, the price of the villa can be lowered some more, even if it’s 17.5 million, in addition, besides the villa, I also have two storefronts, which have not been transferred out yet, if you still have the ability, can you eat them together?”

Ji Feng smiled faintly, but did not reply in a hurry. In his heart, however, he was secretly sighing, no wonder this Mr. Li had let go of the price of half a million in one breath, so, he also wanted him to eat his storefronts down as well.

After deliberating for a moment, Ji Feng asked, “I wonder where Mr. Li’s facade is?”

“On Tongzhou Road!” Mr. Li smiled, “It’s true that it’s a bit desolate over there now, and the location of the facade is not very good, but I believe that in a few years, it will definitely be able to develop, Jiangzhou’s development speed is the fastest in the country.”

Ji Feng smiled and nodded his head, but in his heart he was secretly calculating.

Tongzhou Road, already considered a suburb, was still being developed there, but Ji Feng was not too sure about the future development.

He had wanted to call and ask his second uncle, but thinking that this would make him make a mistake, and that it was not too good after all for his own personal matters, he gave up on this intention.

Seeming to see Ji Feng’s hesitation, Mr. Li laughed and said, “Little friend Ji, how about this, we can go and have a look on the ground and then it’s not too late for little friend to make a decision.”

Ji Feng nodded his head at once and said, “Good.”

Only when he really arrived at Tongzhou Road did Ji Feng realise what Mr Li meant by ‘desolate’. The place was now a wasteland everywhere, with only the lone two office buildings being started and not yet fully built. Looking around, it must be at least a few dozen kilometres away to be populated.

Ji Feng couldn’t help but laugh, “Mr Li, this place is not just desolate, it can simply be called a poor countryside.”

Mr. Li laughed and said, “This is exactly why I brought young friend to see it, only after seeing it on the ground can I make the right decision, I don’t want young friend to secretly curse me twice every time he sees these two storefronts when the deal is done.”

Ji Feng couldn’t help but smile along with him, and in his heart, he had more or less a good feeling towards Mr. Li; at least, this was a real person.

“Actually, I won’t hide it from you, the reason why I bought these two storefronts in the first place was also for stock speculation.” Mr. Li shook his head, “Little friend, at such a young age, has such a family business, so it’s obviously quite extraordinary, so even if I don’t say anything, little friend can definitely know through other channels.”

Ji Feng was slightly surprised, "Buying a facade is for speculation?"

"Yes." Mr. Li nodded emotionally, "In fact, this is a kind of money-spinning tactic in the stock market, using a shell company to go public and then come to circle money. It's just that recently there have been stricter investigations, so this method doesn't work anymore for people without a big background. The developer who developed these two office buildings actually doesn't have a big background either, so naturally there is no way to use a shell company to go public like before, so they developed these two office buildings symbolically and then used their connections to toss the company to go public again."

"By buying these two storefronts, I am actually equating it to an entry ticket to participate in their game." Li added.

Ji Feng was somewhat puzzled, he suddenly realized that those skills he possessed were simply unmentionable in front of these treacherous people. It was enough for people to make themselves dizzy just by playing a slight trick!

In fact, Ji Feng was being presumptuous, no matter which of those special skills he released at random, it would be enough to blow the world away, especially those future mechanical and weapon knowledge, that was simply priceless.

These people who are playing with shell companies to go public are just relying on their family backgrounds to make some money, they are not even comparable to Ji Feng!

If Ji Feng wanted to make money, not to mention anything else, he only had to let out a word and countless people would come up to give him money, why would he need to play such tricks to circle money?

The only thing is that Ji Feng never thought of relying on his family's power, so he didn't turn around.

Although he sighed in his heart, Ji Feng also understood one thing, the price of these two storefronts would definitely not be very high.

As expected, he heard Mr. Li say, "Little friend, it is estimated that within a year or two, this place will not be developed, so these two storefronts, if you are willing, will be transferred to you at the original price."

Ji Feng rose in silence, this kind of investment, he had to think it over.

A moment later, Ji Feng nodded slightly and said, "OK, these two storefronts, I'll take them."

Mr. Li was immediately overjoyed, shook Ji Feng's hand and said, "Little friend, then we can consider it a deal!"

"Deal!" Ji Feng said with a smile.

These two storefronts might not be of much use to Ji Feng now, but, as this area developed, it was inevitable that these two storefronts would appreciate in value. Moreover, Ji Feng now had a vague intention that he might use these two storefronts in the future. Although this intention could only be considered an immature plan, he believed that in two years' time at most, these two storefronts would definitely create value for him.

A villa and two storefronts would cost a total of more than \$24 million, a figure that once again staggered Ji Feng. In fact, although the two storefronts were very large, with over 400 square feet, they were very cheap in terms of price, after all, Mr Li had given them to him at the original price, which was only over six thousand per square foot, a price which, even in some second-tier cities, was considered cheap.

What really hurt Ji Feng was the tax he had to pay at the time of transfer, he had to pay more than two million yuan in taxes, and if he hadn't been constantly comforting himself in his mind, he could almost have cursed.

Two million dollars, a figure he wouldn't have thought of in the past, and now he was paying it as tax!

Some formalities like the transfer agreement were not too complicated, Ji Feng signed a few documents and settled the money in full, and he became the second owner of a villa and two storefronts.

PS: In reality if the house passes, it won't be so easy, so don't link it to reality, people. Also, Chinese web, all other sites, please.

When the house finally arrived, both Mr. Li and Ji Feng could not help but breathe a sigh of relief. Mr. Li was relieved because the house had finally been sold and he could then emigrate without worry. Ji Feng, on the other hand, was relieved because the money had finally been spent.

For him, the most painful part was the moment he paid for it, whereas after he paid for it, he didn't feel that way anymore.

Because Ji Feng was already a spontaneous person, no matter how painful it was, the money had already been spent, so why think about it any more?

The duo then went to the property company and completed the final handover procedure, and then Mr Li had nothing to do with the villa at all!

After handing over all the keys to Ji Feng, Mr. Li said goodbye and left.

Ji Feng was a little excited in his heart as he played with the bunch of keys, a villa, two storefronts, ah. The moment he thought about them, he had a feeling like he was in a dream.

Just a year ago, he was still living in a slum area of less than 40 square metres, but now he had become the owner of a villa.

It was too late to feel too much emotion, and Ji Feng was the first to think of giving Xiao Yuxuan and Tong Lei a good news report, but it turned out that both of their mobile phones were turned off.

"In class again" Ji Feng shook his head helplessly and could only hide this joy in his heart first.

But soon, Ji Feng couldn't smile again, because now he had to face a problem – he was running out of money!

Chapter 193

Sorry for the late second shift, but today's four shifts remain the same. The fox will continue to code right away, so keep up the support!

“You really bought a house?” Zhang Lei stared at Ji Feng with wide eyes, “You guys are too good at hitting people, right? Buddy doesn’t even have a bicycle until now, and you’re living a well-off life? How dare you?”

Ji Feng laughed dumbly, “If you want a car or a house, I’m afraid that if you open your mouth, someone will send it to you, right?”

“That’s not the same!” Zhang Lei hummed, “Buddy has to rely on his own real ability, understand?”

Ji Feng and Tong Lei next to him exchanged a glance and simultaneously laughed dumbly.

Here was a gazebo in front of the dormitory area, and the three of them were sitting on a bench chatting.

When Zhang Lei heard that Ji Feng had bought a house, and it was a detached villa, he was immediately impressed and yelled, “Crazy, there’s nothing to do this afternoon anyway, why don’t we just go to the villa you bought and take a look, and if you need to add any furniture or anything like that, I can also help you with a reference.”

Ji Feng was just about to nod his head in agreement, but he was interrupted by Tong Lei.

“Brother, are you trying to be lazy again?” Tong Lei glared at him and pouted, “What happened in class this morning, did you forget?”

“Huh?”

Zhang Lei froze, and then scratched his head awkwardly, “That’s what, anyway, it’s just going out for a while this afternoon, if you want to study, you can do it anytime, there’s no rush.”

Ji Feng listened with some confusion, “What’s going on? Lei Zi, what happened in the morning?”

Zhang Lei snorted and said vaguely, “Nothing, it’s just that I don’t really like classes.”

“And you say that!” Tong Lei complained, “You were caught sleeping in class by the teacher, and if you don’t correct it properly, I’m afraid you’ll just fail by the time the exam comes around.”

It turned out that although Zhang Lei was in the foreign language department, what he hated the most was foreign languages. In his opinion, learning those bird languages was completely useless and was simply not as friendly as the Chinese language.

In his words, if everyone knew a foreign language, why would they need translators? Wouldn’t that be smashing people’s rice bowls? What’s more, I am a Chinese, so why do I have to learn a foreign language?

This strange way of thinking made him not even remotely interested in foreign languages, and he would fall asleep on his desk in class.

Understanding the original story, Ji Feng shook his head and smiled. It was indeed difficult for Zhang Lei to learn a foreign language. Ji Feng knew this guy’s character, since he was in high school, Zhang Lei had an aversion to foreign languages, but he had to learn them in order to cope with the college entrance

exams, but his grades were still very good, whether it was listening or reading and writing, he was not as good as other students.

It was because of this that he was admitted to the foreign language department of the United University.

In general, for subjects such as foreign languages and mathematics, not only do you have to reach the standard score in the entrance examination, but you also have to meet extremely strict requirements for your major courses.

For example, the foreign language department of the United University requires a score of no less than 120 points in English, which is an unattainable score for many students.

At the beginning, Zhang Lei really did not have a favourite major and was not sure he could get into Union University, so he haphazardly followed Tong Lei and applied for the foreign language department, but he was admitted.

Now he has to speak foreign languages all day long, it's strange that he would be willing to do so!

"I should have known better than to apply for the Department of Foreign Languages, even if I had applied for the Department of Computer Science, I would still be able to play with the computer in class every day. Zhang Lei looked helpless, his eyes rolled and suddenly asked, "Do you guys think if I apply for a change of major, there is a chance that I can pass?"

Ji Feng and Tong Lei looked at each other and shook their heads at the same time, saying in unison, "No way!"

"Why?" Zhang Lei immediately became anxious, "I can't stand being in the foreign language department anymore, that kind of life is no different from hell to me!"

With a faint word, Zhang Lei gave up: "Why don't you talk to your dad about it?"

Zhang Lei was no longer in a temper, discussing with his father? Wouldn't that be like asking to be scolded? He wouldn't do such a stupid thing!

"All right, all right! Let's not talk about it!" Zhang Lei waved his hand in annoyance, "Crazy, let's go to your villa and have a look, my head is getting big from facing those bird words all day!"

Ji Feng nodded with a smile and said, "Well, Lei Zi, I actually think that there's nothing wrong with you learning a foreign language, you can treat it as a kind of entertainment, well, or rather, master yi long technology to control yi, learning a foreign language, maybe it will come in handy in the future!"

"That's all, since I'm in the foreign language department, I'll just learn it, alas, it's fate!" Zhang Lei let out a long sigh of anguish, "My future four years of university life, just ruined!"

Ji Feng decided not to pay attention to Zhang Lei anymore, he believed that even if he didn't advise him, Zhang Lei would definitely continue his studies, although his character was a bit rebellious, he still knew what was more important, distress was distress, study was study, these were two different things.

Because, Zhang Lei is not an ordinary person, he is a son of the Tong family. His performance could even affect Tong Kai De's position in the family, which he knew better than anyone.

In fact, Ji Feng didn't like learning foreign languages either, although he learned them faster than anyone else, but I don't know what happened, when it came to foreign languages, Ji Feng had the same kind of instinctive rejection. Especially when he saw those young men and women on the street, whose mouths were often interspersed with some bird language when they spoke, he felt goosebumps all over his body, could it be that the Chinese language could not express the meaning clearly?

"Crazy, give me the keys, I'll go and drive." At the mention of the car, Zhang Lei's eyes glowed with excitement, a far cry from his previous droopy appearance.

Ji Feng threw the keys at him, "Can't you be a little bit more ambitious, why don't you buy one yourself?"

Zhang Lei walked in the direction of the parking lot while turning around and said, "You think everyone is like you? It's more like buying a bike!"

Ji Feng and Tong Lei's faces changed, in the direction of Zhang Lei's past, four or five girls dressed up in fancy clothes were talking and laughing, looking like Zhang Lei was about to run into them.

"Watch the road carefully!" Ji Feng shouted, however, before his words could fall, Zhang Lei crashed into one of the girls.

"Ouch!"

The girl cried out in shock and immediately rebuked angrily, "You people don't walk without eyes, why do you run straight into others?!"

Zhang Lei immediately frowned, but thinking that it was his own fault, besides it was pointless to bother with a girl, he immediately apologized, "Sorry, sorry, it was my carelessness, sorry!"

"Humph!"

The other girl sneered, "Whether you were really careless or not, it remains to be seen, you didn't see our Yun Bing here, so you wanted to hit on her in this way, did you?"

"What Yun Bing?" Zhang Lei frowned and asked, "It was indeed my carelessness just now, sorry."

With that, Zhang Lei wanted to move on, since he had said his humility and the other party was not hurt, he naturally wouldn't dilly-dally here any more.

"This is bad!" In the gazebo, Tong Lei couldn't help but frown slightly and said in a low voice.

"Hmm?" Ji Feng was stunned, "What's broken?"

Before Tong Lei could answer him, he heard a girl say in a sharp voice, "What, you want to leave now? I'm telling you, next time you want to hit on someone, find a better reason, look in the mirror before you go out, don't try to rub up against our Yun Bing with any toad!"

Zhang Lei was dumbfounded by what he said and didn't react for a long time to what was going on, let alone know what exactly Yun Bing was.

When he reacted, he couldn't help but shake his head with a related laugh and turned around to leave.

I guess Yun Bing should be the name of the girl he had just bumped into, and from what they were saying, it seemed like they were saying that he had deliberately approached her his taste wasn't that bad, right?

However, this shaking of his head angered the girls.

One of the girls immediately said angrily, "No go! What did you mean by that smile just now? Do you look down on us?"

"No, no!" Zhang Lei shook his head and laughed, "I was laughing at my own carelessness in walking, well, goodbye!"

"Want to leave? Apologize before you go!" The other girl said coldly.

Zhang Lei frowned slightly, "I've already made a humble apology, if you have to hear it, it's fine if I say it again."

"What kind of attitude is that?!" Zhang Lei's words instantly seemed to stir up a hornet's nest as several girls angrily rebuked at the same time.

"A few of you, is this any big deal? It's just an accidental touch, don't be unreasonable." Zhang Lei didn't have the patience to tussle with these girls and turned around to leave.

And at that moment, a girl sneered, "If you dare to leave now, by the time dinner is served, the entire Union University students will know that the brother of Tong Lei, the flower of the Foreign Language Department, is brutal and unreasonable, and that he became furious when he failed to get close to our family Yun Bing!"

The corners of Zhang Lei's eyes suddenly jumped wildly a few times, and his face instantly sank. It turned out that the other party had recognized him long ago, but preferred to target him, which clearly had a purpose.

In the gazebo, Ji Feng's face was equally gloomy, he was standing high up and could see more clearly than Zhang Lei. Those four-five girls were actually centered on one girl, and the others all seemed to be followers.

Ji Feng looked at the girl in the middle, she was indeed very pretty, if compared to ordinary girls, she could definitely be called the word beautiful.

However, if compared to Tong Lei, it was much worse. It was not only the difference in appearance, but more importantly, the difference in temperament.

Tong Lei was clear and beautiful, her whole being was full of spirituality, as if she was a fairy from the heavens. This girl, on the other hand, is cool and arrogant, as if she is high and mighty, and it is this kind of person that Ji Feng dislikes the most.

Just

Ji Feng's eyebrows furrowed, the meaning of the girl's words just now, how come it seemed to be directed at Tong Lei?

A cold aura flashed across his eyes!

“This person’s name is Yun Bing, also a student of the foreign language department, but not from our class.” Tong Lei seemed to know what Ji Feng was thinking and whispered next to him, “She once approached me and just looked at me strangely for a few moments before leaving, I don’t know what she wanted!”

Chapter 194

“She looked for you?” Ji Feng’s face sank as he asked, “When did this happen? How come you never told me about it?”

Tong Lei smiled gently and said softly, “It was just a small thing, I forgot about it afterwards.”

In fact, Tong Lei hadn’t forgotten, that look in Yun Bing’s eyes that carried condescension to her bones, she wouldn’t forget that easily. Yun Bing was looking at her at that time as if she felt like a princess looking at a beggar, and moreover, looking at a beggar who was even prettier than her.

Contempt! Hate!

These were the two meanings that Tong Lei read from Yun Bing’s eyes at that time. She couldn’t understand when she had offended Yun Bing, because she and Yun Bing had only met once since she came to the United University until now. Although they were in the same foreign language department, they were in different classes, and usually in different classrooms when they were in class, and even during military training, they were not in the same squad.

Under such circumstances, there was no possibility for the two to meet at all, except for the time when Yun Bing took the initiative to come to her.

Yet even so, Tong Lei still clearly felt Yun Bing’s hatred for herself, and a kind of contempt. Even Tong Lei, who had a light-hearted personality and had never been unconcerned with the world, could not help but be secretly annoyed in her heart; no one could remain calm when being looked at with that kind of contempt.

However, Tong Lei did not tell Ji Feng about these things because she did not want him to get angry along with her, and she did not want him to go after Yun Bing in a fit of anger.

She could naturally see that Yun Bing was able to look at her with that kind of eyes, naturally because she came from a good background, and might even have a great origin.

Under such circumstances, Tong Lei naturally did not want to cause trouble for Ji Feng.

Ji Feng deliberated slightly for a moment and understood Tong Lei’s thoughts. He couldn’t help but let out a light sigh, squeezed Tong Lei’s small hand and said: “Silly girl, just because you’re afraid of getting me into trouble, you’re condemning yourself? You’re doing this, but instead, you’re making me feel more heartbroken.”

“Where.” Tong Lei smiled sweetly, “It’s not aggravating at all.”

Ji Feng nodded slightly and said calmly, "I know about this matter."

Although his tone was calm, Tong Lei's pretty face changed and she said in a panic, "Ji Feng, it's not like I have any dealings with her anyway, let's forget about this matter."

Ji Feng smiled faintly, pointed at the blue-faced Zhang Lei and smiled mockingly, "Silly girl, just because you don't care about this matter doesn't mean that others don't either, see, Lei Zi is in trouble."

Tong Lei's beautiful eyes couldn't help but flash a hint of anger, "I've never offended Yun Bing, and I don't know where she gets her hatred from, as if she would only be happy if I were dead!"

"There's always a reason!" Knowing the cause of the matter, Ji Feng couldn't help but put a smile on his face, "However, now is not the time to find the cause, it's better to see how your brother will handle this matter."

Zhang Lei was moved with anger and his face was blue.

It didn't matter to him if he made an apology, or if he lost face, his face had long been thicker than the city walls. However, now that these women were targeting Tong Lei, this was something he could not tolerate.

"Let the whole school know?" Zhang Lei recoiled in anger, his gaze cold as he looked at these few women who didn't know the sky was high, "What a good tactic, Yun Bing is it? What do you want?"

Yun Bing coldly snorted, with an extremely condescending look on her face, "Don't want to do anything, just want you to bring a message to that self-righteous sister of yours, this is Jiangzhou, not a poor mountain valley in the middle of nowhere, don't think that just because you can pretend to be noble and seduce men, you feel like flying into the sky, here, this is not a place where you dirt bags can flaunt!"

"**!"

Zhang Lei roared, at this moment, he was like an ignited powder keg, he instantly went berserk, "Bitch woman, if you have the guts to say what you just said again, I will make you regret coming to this world!"

Several girls were frightened by Zhang Lei's fierce appearance and took a few steps back in panic.

"You, what do you want?" One girl said in a stern and shrill voice, "This is at school, you know about the Brilliant Group, right? Our Yun Bing's father is the president of a big group. Zhang Lei, if you dare to mess around, you have to think about the consequences!"

"The boss of a big group?!" Zhang Lei grunted and laughed coldly, "What bullshit boss, in front of me, he doesn't even count as bullshit!"

Zhang Lei walked towards Yun Bing step by step, both hands clenching his fists, "I'd like to see what you, this stupid woman who doesn't know the sky is high, is thinking! Could it be, you've got shit in your head!"

"Brother, stop it!"

Just then, Tong Lei and Ji Feng quickly walked over, and Tong Lei pulled Zhang Lei's arm, "Brother, don't be impulsive."

Ji Feng looked coldly at Yun Bing, his sharp, thorn-like gaze seemed to see straight into Yun Bing's heart, making her not dare to look at him at all.

Yun Bing again felt that it was unbecoming to be intimidated by the eyes of a bumpkin, and she jerked her head up and said in a sharp voice, "What are you looking at? You are Tong Lei's boyfriend? Ha what a pair"!

Whew!

Several girls only felt a blur before their eyes, and the next moment, Yun Bing's shrill voice came to a screeching halt, and then she let out a miserable scream as her entire body flew backwards and fell heavily to the ground.

On Yun Bing's face, a bright red slap mark was clearly visible, and in the blink of an eye, her face, which was still considered pretty, swelled up high.

"Oooh pfft!" Yun Bing was so dazed by the slap that she almost didn't pass out. She struggled to sit up, but the pain all over her body was unbearable and she lay down on the ground again at once. The strong fishy taste in her mouth made her feel uncomfortable and she subconsciously spat out a mouthful of blood, but it was a mouthful of fresh blood with two teeth mixed in!

With this slap, Ji Feng had knocked out two of Yun Bing's teeth in a raw way.

However, his gaze was getting colder and colder without the slightest reprieve, staring straight at Yun Bing on the ground.

"Ji Feng, don't hit anyone!" Tong Lei said in exhortation.

"Your name is Yun Bing? Why are you targeting Tong Lei?" Ji Feng asked in a flat tone, yet his words contained an unquestionable majesty, "You can't answer me, but you won't be able to keep your teeth on the other side either!"

"You, how dare you hit a girl? Are you still a man!" Several of Yun Bing's companions only sort of reacted at this moment, and immediately screamed, "There's a beating, Yun Bing was beaten up!"

"Say!" Ji Feng ignored those few girls and just stared straight at the horrified Yun Bing.

"Hey! What's wrong with you few, why are you fighting?!" Just then, a drinking voice suddenly came, followed by a few tall boys walking over, with the one in the lead asking with a grim face.

As soon as he saw these few people, a joyous look flashed in Yun Bing's eyes, and he was just about to speak, but he was suddenly startled by Ji Feng's harmonious voice.

"Speak!" Ji Feng shouted coldly, without even looking at the boys, "Don't make me ask a fourth time, or else there is no way you will leave here alive today!"

All of a sudden, everyone felt cold all over, no one would doubt Ji Feng's words, because the regal aura on Ji Feng's body made people realize that he was definitely not joking, and if Yun Bing didn't say anything, Ji Feng might really kill her!

"I, I wow" Under that appalling aura of Ji Feng, Yun Bing actually cried out in fear.

"Since you are not willing to say, then take the answer to the coffin!" Ji Feng sneered, fiercely stepped forward, his foot raised high, and was about to kick at Yun Bing's throat.

Everyone was suddenly shocked, this guy was really too ruthless, he was just going to kill people when he said he would!

Those few boys who came after him even turned pale, and one of them kicked out violently.

Bang!

Ji Feng's leg clashed with that guy's leg without any reservation, and in the next moment, only a 'click' sound was heard, that boy's leg was actually broken by the kick!

"Ugh!" The man let out a muffled cry and immediately screamed out in misery, falling to the ground at once.

However, with this blow, he also allowed Ji Feng to retrieve his leg, which was considered to have saved Yun Bing's life.

Tong Lei pulled Ji Feng in a panic: "Ji Feng, don't do anything rash!"

Ji Feng gave Yun Bing a deep look, "You're lucky to have Tong Lei to plead for you."

Everyone was cold and numbed by these words, Ji Feng's calm expression simply made people not dare to look down, anyone who knew that someone who could be so calm after breaking someone's leg with a kick and sending them flying with a slap was either crazy or, someone who was used to seeing life and death and didn't take appointments seriously!

Ji Feng was obviously not a madman, so it could only be the latter!

"Is this guy really a student?" Everyone couldn't help but have a feeling of horror rise in their hearts.

"You shot out to stop me and got your leg broken by me, you sort of asked for it, but given that you were trying to save someone and didn't know the reason for it, it's sort of wrong of me." Ji Feng's gaze looked at the person who blocked him, and took out his wallet from his pocket again, "Here's five thousand yuan, take it to the doctor first, besides, this is my phone number, how much you spend, you can ask me to reimburse you."

After saying that, he then smiled at Zhang Lei and Tong Lei, "Come on, let's go and see the house."

"Wait a minute!" One of the boys in the lead suddenly drank.

Ji Feng frowned and turned his head to stare at the boy.

The boy said stiffly, "We're from the Student Union's security team, what you're doing has violated the school rules and has even broken the law, you can't just leave like this!"

Ji Feng smiled faintly, "Then what do you want?"

"You all have to come with me to the Security Section and tell us what happened, the school will handle it at its discretion." The boy said.

"What if I say I won't go?" Ji Feng's face sank and he asked in an unkind tone.

Chapter 195

Wow hahaha, perish haha!

The man did not expect Ji Feng to be so nonchalant, and he choked at the sound of his voice. The actual fact is, if Ji Feng doesn't go, what can he do?

Feeling the gazes of the onlookers falling on him, he couldn't help but grit his teeth and said stiffly: "This student, if you go with me to the Security Section now, as long as you make things clear, how to deal with it, that's the school's business, but no matter how it's dealt with, it's ultimately dealt with according to the school rules. However, if you don't go, given the situation at the scene, we can only call the police, and when the time comes, it can be the police's call on how to deal with it."

Ji Feng looked at him for a moment, smiled faintly and said, "Okay, I'll go with you."

The student whose leg had been broken by Ji Feng's kick was carried to the school's infirmary. If there weren't enough medical facilities and doctors and nurses, it would be absolutely too busy for the tens of thousands of students at United University.

Therefore, as long as the surgery is not too difficult, it can be done in the infirmary, and this kind of surgery on broken bones is naturally not a problem.

At this time, those few female students also all gathered around Yun Bing's side, helped her up and followed the escort team to the security section.

Tong Lei and Ji Feng walked side by side, while Zhang Lei followed behind with a blue face. Although Ji Feng's slap that sent Yun Bing flying had brought a huge sigh of relief to Zhang Lei's heart, when he remembered Yun Bing's insult to Tong Lei, he couldn't help but want to give that b*tch a vicious slap again.

The United University Security Section, which was just a wall away from the guard room.

The Security Section, which was part of the internal security force of the United University, the security guards and doormen were all part of the external community, and together with the student union escort team, they maintained law and order within the university.

The Guard Room, on the other hand, is a small police station, a branch of the Economic Development Zone Police Station, located here, which was set up to protect students from external social workers.

The security section and the guard room, one inside and one outside, work together to maintain law and order at the United University, which is what makes for a great atmosphere within the university. This model of the school and the police joining forces is common in all other universities as well.

The boy from the guard team brought Ji Feng and the others inside the security section and said, "Introduce yourself, I am the deputy captain of the security team and my name is Zhou Li. Both of you should explain things first."

Saying that, he told Ji Feng and the others to sit down separately, and called a few more guards to take notes, at the same time, he was also carefully guarding against Ji Feng, God knows if he would rise up and hurt someone again, Zhou Li had seen Ji Feng's strength, he was able to break someone's leg with a hard punch, was his leg made of iron?

Besides, looking at Ji Feng's hideous look just now, it was simply appalling, ordinary students fighting had never been this ruthless, what was this guy anyway?

"What the hell is going on, tell me in detail!" Zhou Li also sat down and asked.

Ji Feng frowned slightly, how come this security section was also like the police station, was it interrogating prisoners?

Who knew that before Ji Feng could speak, Yun Bing, whose cheeks were already high and swollen, suddenly said, "It's nothing, it's just that there was a bit of collision when walking, it's some small misunderstanding."

When these words came out, not only were the three of them surprised, even the four companions of Yun Bing were also surprised. In their perception, Yun Bing had never been such a nice person to talk to, otherwise, they would not have been so unreasonable after being bumped into by Zhang Lei.

Because they all knew what had happened, they were all the more puzzled by Yun Bing's decision.

Yun Bing had always been very jealous of Tong Lei's looks, and because of a boy, this was what made Yun Bing hate Tong Lei so much that she often recited it in front of these few roommates. These few roommates happened to want to flatter Yun Bing, and that led to the scene before.

"Yun Bing, how can you not spare them so easily!" A girl advised in a low voice. In her opinion, Yun Bing was scared by Ji Feng's slap.

Yun Bing, however, shook her head firmly and said, "No need to say more, I know what to do."

The others all stopped talking at once, they didn't dare to go against Yun Bing's wishes.

"What about you guys, do you think so too?" Zhou Li's gaze looked towards Ji Feng, "Is what she said true?"

Although he didn't know exactly what Yun Bing was planning, but being able to not waste time here, Ji Feng was naturally willing to do so, he nodded and said, "There was a bit of a misunderstanding, but it's fine now."

When Zhou Li saw this, he could only shake his head and smile bitterly, since both sides of the family had said that they would not pursue the matter any further, it was no good for him to insist on it, after all, no matter how much more investigation was done, the opinions of both sides were always the main thing.

Moreover, the most important thing about the existence of the escort team and the security section is to maintain the security of the school, not to go after any one student to pursue responsibility.

“In that case, then you can all go back, but remember, no more trouble, or else the next time you come back, it won’t be the security section, but the guard room next door!” Zhou Li solemnly warned, then whirled and said to Ji Feng, “You injured one of our team members, although it was a mistake, you are still responsible, how are you going to handle this matter?”

Ji Feng asked, “I’ll pay for all the medical expenses, isn’t that enough?”

“Take out your ID card or student ID card, to be pledged here, and your contact information should also be left!” Zhou Li could only say this, although the person was injured, but people are willing to pay, naturally nothing can be held responsible, after all, Ji Feng did not mean it.

“Bet your student ID!” Ji Feng smiled faintly and put his student ID card on the table.

Walking out of the security section, the smile on Ji Feng’s face instantly disappeared without a trace, today’s incident was really a bit weird, why was that Yun Bing so hostile to Tong Lei?

The back of Yun Bing and the others who were walking towards the infirmary, the cold light in Ji Feng’s eyes flashed, he was really angry before, if not for too many people watching, he would definitely dare to kill Yun Bing on the spot!

No one, no one, had ever dared to insult Tong Lei like that in front of him, and he would never allow such a thing to happen, anyone who dared to do so would have to pay a huge price, even their lives!

Ji Feng is not cold-blooded, but, the people around him are his scales, whoever dares to hurt his loved ones, he will fight for his life, even if it means dying together, he will not hesitate!

“Lei Lei, why is this b*tch targeting you?” Zhang Lei couldn’t help but ask with a frown.

Tong Lei said all those she knew before finally shaking her head, “What exactly is going on, I don’t know, but she is having an inexplicable hostility towards me, which I can feel.”

“B*tchy woman,” Zhang Lei couldn’t help but curse again.

Ji Feng’s eyes narrowed and after a moment of contemplation, he dialed Han Zhong’s number: “Han Zhong, do you know anything about the Brilliant Group?”

Han Zhong’s voice was a bit surprised as he asked, “Ji Feng, why are you suddenly asking about this?”

“I came across something that seems to be related to the Brilliant Group, so I want to know about it!” Ji Feng smiled and said vaguely, “If you can, help me look up the Brilliant Group’s information, I’m out right now and can’t access the internet.”

“There’s no need to look it up, I’ve heard of the Brilliant Group’s great name for a long time.” Han Zhong immediately said, “Ji Feng, if you are offended by someone from the Brilliant Group, you better get help from your friend Zhang Lei quickly and ask him to find someone to set things right, otherwise it will be very troublesome.”

“How?” Ji Feng frowned, “From what you’re saying, this Brilliant Group seems to have some more origins, huh?”

“It’s not just that it’s a bit of a source, it’s very much a source.” Han Zhong laughed bitterly, “Brilliant Group, in fact, is a gangster group, the chairman, Yun Fei Yang, used to be on the road, starting from a small gangster, step by step, to today’s position, he is ruthless, his hands do not know how much blood, in Jiangzhou he is a prestigious, many big shots call him brother, is a ruthless character ah.”

Yun Feiyang Yun Bing

The cold light in Ji Feng’s eyes kept dancing as he smiled, “You should still help me prepare more detailed information to read when I return.”

“No problem, Ji Feng, if you really offend someone from the Brilliant Group, always remember my advice and get Zhang Lei’s help!” Han Zhong’s tone was urgent, “If it’s too late, it will be too late.”

“Don’t worry, I know what to do!” Ji Feng smiled faintly and hung up his electric arc.

“Ji Feng, what about it? Did you find out anything?” Zhang Lei immediately asked.

Ji Feng waved his hand and laughed, “Don’t care, it’s just a small company, how dare it call itself a conglomerate, it’s ridiculous! Let’s go see my house!”

Zhang Lei and Tong Lei didn’t quite believe his words, but they couldn’t help it if Ji Feng didn’t want to say anything.

On the way to drive to see the villa, Ji Feng was still secretly pondering, why would Yun Bing be hostile to Tong Lei? In between, what was the reason for this?

As for the Brilliant Group, Ji Feng did not put too much on it, although he knew that the Brilliant Group could grow so big, if there was no one to support it was certainly impossible, Ji Feng still would not care too much, if he was willing, he could end this black group at any time.

The key issue now is to find the reason why Yun Bing is hostile to Tong Lei, otherwise, there may be similar things happening in the future.

.....

“Damned b*tch, damned dirtbag, how dare you hit me and knock my teeth out, if I don’t let you beg for your lives and die, my name won’t be Yun Bing!” Inside the infirmary, Yun Bing, who had already been treated for her wounds, came out with a strong anger in her eyes, gnashing her teeth in hatred.

“Ouch” This gnashing of teeth was followed by a burrowing pain that spread throughout her body, causing her to scream out in agony, her hatred for Tong Lei intensifying in her heart.

“B*tchy woman, you think you’re still good looking and you dare to seduce men?” Yun Bing’s hatred was hard to dispel, she then took out her mobile phone and dialed a number: “Brother Tiger, send me some good men over, I want to kill someone!”

“That b*tch called Yun Bing, how come she’s suddenly so nice to talk to?” Sitting in the car, Zhang Lei’s eyes flickered, “If I’m not wrong, she must not give up so easily, think, she must have some backstabbing!”

Ji Feng nodded slightly and laughed, “That’s for sure, if you saw the hatred in her eyes for Lei Lei, you would know that only when Lei Lei died, Yun Bing would probably give up! This woman, she’s a lunatic!”

In the gazebo in front of the dormitory, Ji Feng could see the strong hatred in Yun Bing’s eyes, that kind of look, as if she wanted to tear Tong Lei apart alive, was chilling to the heart.

It was because he saw that kind of look that Ji Feng wanted to kill that damn woman regardless, because he couldn’t protect Tong Lei twenty-four hours a day, if he was slightly careless, he would be given the go ahead by that woman, and then once something happened to Tong Lei, Ji Feng would have the heart to run headlong into death!

“Humph, what madman!” Zhang Lei laughed disdainfully, “As long as one is human, one will be afraid, only that she hasn’t met something that makes her afraid. Damn it!”

Zhang Lei cursed with hatred, he didn’t know how many people like this he had seen, especially those children of the world, they were basically of this kind of moral character. However, even they would not be so crazy.

So Zhang Lei could conclude that Yun Bing’s family’s power was not small, and moreover, her family’s favouring of her was just a little too powerful.

“Crazy, you just said that Yun Bing’s father is the old president of the Brilliant Group, right?” Zhang Lei gritted his teeth, “Just leave this matter to me to investigate first, if I can’t deal with Yun Feiyang, you can then take action.”

“Is it necessary to take so much trouble?” Ji Feng asked with a frown.

“Of course, if you go to deal with Yun Feiyang and the Brilliant Group, it might be more involved, moreover, you are good at protecting Lei Lei, I am worried that that crazy woman will lay a hand on Lei Lei!” At this moment, Zhang Lei’s mind was incredibly clear, as he was really angry.

Tong Lei was stunned as she listened, “She wouldn’t be that crazy, would she?”

“Don’t be afraid of ten thousand, just in case!” Ji Feng nodded slightly and said, “Lei Zi, just do as you say. You first investigate the details of the Brilliant Group, and as for the matter of doing it, I’ll do it!”

A cold light flashed in Ji Feng’s eyes, he was almost certain that Yun Bing would definitely not stop so easily. Instead of being passively beaten, Ji Feng would definitely choose to take the initiative.

If you’re not rampant on the basis of your family background, then I’ll simply knock out all your dependencies together! Ji Feng made up his mind at once.

“Lei Lei, do you really not know where you have offended Yun Bing?” Zhang Lei frowned and asked, “It’s always necessary to find out the root cause, otherwise, it’s possible that similar things will occur in the future, in this world, there are too many people who don’t know what they’re doing.”

Tong Lei frowned slightly and shook her head slightly, "I've only met Yun Bing once, I really don't know what's going on."

Ji Feng pondered for a moment and asked, "So, has anything unusual happened during this time? For example, among the friends you've made, has anyone offended Yun Bing, or, has any guy been chasing you?"

Tong Lei was stunned, and after a moment, she said hesitantly, "This I'm not too sure, but in the last few days, there is a boy who often seeks to talk to me."

"What's his name, and is he related to Yun Bing?" Ji Feng immediately realized that Yun Bing, who hated Tong Lei so much, should have something to do with this matter.

"I didn't talk to him much." Tong Lei shook her head slightly, with her cool personality, it was strange that she could say a few words to these boys who came for her looks.

Ji Feng, however, smiled, "Lei Zi, start with these two aspects, investigate the Brilliant Group while going to find out the details of that boy."

"No problem!" Zhang Lei gritted his teeth and said, "**** how dare he hit on my sister and draw her into such big trouble, it's strange if I don't get him killed!"

Tong Lei was startled, she knew Zhang Lei's character and said in a panic, "Brother, don't do anything rash!"

Zhang Lei waved his hand and said, "Don't worry, I have my limits."

Tong Lei couldn't help but let out a soft sigh, "How could she have such a deep hatred for me!"

.....

Until she hung up the phone, Yun Bing still had a hard time dispelling her hatred, her eyes flickering with cold light as she pondered what to do with that b*tch Tong Lei.

In fact, Yun Bing hates Tong Lei, which is actually an undeserved calamity suffered by Tong Lei, because up to now, she doesn't even know what is going on and where she offended Yun Bing!

The reason for this is that she doesn't know what has happened and what has offended her.

Yun Bing, who came from the Brilliant Group, hated people from small places the most, especially girls from small places. Those people who had no insight, and I don't know if it was because they were too stifled in high school, once they arrived at university, they became incomparably open, even more open than those who were originally from big cities, no, I shouldn't say open, it was simply 'slutty'!

Not only that, but those people from the small places, with their low quality, sloppy living, even stealing and robbing, especially those who are so filthy, still want to work in the Splendid Group? That was a joke!

In Yun Bing's opinion, apart from the people of Jiangzhou, there was no place where people could be compared to the people of Jiangzhou. Or rather, the rich were the most noble people, and everyone else had to be inferior to them!

Later on, Yun Bing's thinking changed again because she once saw with her own eyes that just because someone had inadvertently said something offensive, as a result, her father ordered someone to chop off that person's hand alive, and that kind of horrible blood and majesty still lingers in her mind to this day.

After school, but everyone who knew that she was the daughter of the boss of the Brilliant Group, everyone either feared her or was attentive to her, and gradually she felt that she was a princess and everyone else was a slave or an underling.

The behaviour of her father, Yun Feiyang, made this feeling stronger and stronger for Yun Bing. Once, when she was in junior high school, the daughter of the same rich family was raped by some punks on her way to school because she teased Yun Bing about her pimples on her face, and as a result, the girl was raped the next day.

In the end, no one ever saw any trace of the girl's parents again, as if they had all disappeared into thin air.

It was because of these experiences that Yun Bing felt that she was the princess of Jiangzhou and that no one could be looked upon by her.

However, there was one person who had offended her, and that person was Tong Lei, and, moreover, twice.

The reason lies in the fact that Tong Lei not only stole her limelight, but also stole what originally belonged to her!

Yun Bing had her eye on a boy, but she didn't take any half-hearted initiative, let alone go and confess her feelings. Because in her opinion, this boy should take the initiative to pursue her.

With her status and beauty, all she had to do was wave her hand, and the boys would come running over to her like poodles.

However, Yun Bing was shocked to find that things were not what she had imagined. Not only did the boy not come over to woo her, he had even gone after Tong Lei!

Not only that, who knows who made a ranking of the school girls, but Tong Lei was ranked more than ten places higher than her!

This made Yun Bing feel that she had suffered a great humiliation, not only was she stolen by a village girl from the countryside, but even men were surrounding her, this was simply a great insult all the time!

Want to change this situation, the best way, is to Tong Lei to completely stink, or even

Yun Bing's eyes constantly flashed with a crazy light, I want to turn her into a mannish b*tch`!

When she thought of this, she immediately dialed the phone number from before, "Brother Tiger, send me a few more hooligans over, something good is waiting for them!"

After hanging up the phone, a chilling smile emerged on Yun Bing's highly swollen cheeks, "Is a school flower still a school flower if she is insulted by a few hooligans? I just don't believe that those blind men would still be attracted to a woman who has been insulted!"

“Bing Bing, Bing Bing!” Just then, a girl quickly ran over with a shocked look on her face and said in a panic, “Something big is wrong!”

“What’s the panic! What’s not good?” Yun Bing was already distracted and his ears were still buzzing from the beating he had received up to now, when he heard the girl’s shout, he became furious.

The girl was startled for a moment before she carefully said, “That thing just now, I don’t know who has spread it to the school forum, and now it’s all going crazy!”

“What?!” Yun Bing almost jumped up at once, as if someone had stepped on his tail, and shouted shrilly, “What’s going on, who did it!”

Several companions looked at me and me at you, none of them knew how to reply. At that time when Yun Bing was being beaten, there were quite a few people gathered around who could have been anyone.

“Go back and see what’s going on!” Yun Bing gritted her teeth and said, immediately a burst of pain came from her mouth, she panicked and opened her mouth, her cheek hurt again, the whole person simply did not know what to do anymore, her face, which was still considered pretty, became hideously distorted and very weird.

A few of her other companions looked at her like this, wanting to laugh but not daring to, they knew how big Yun Bing was, if they annoyed her, they were afraid that their bodies would be found in the river the next day.

Not caring about the pain in her face and mouth, Yun Bing took them back to the dormitory quickly and opened her computer to log on to the school’s forum.

However, when she saw the first post, her whole body was stunned, and a raging anger rose from her heart.

“Tong Lei, I will make your life worse than death!” Yun Bing screamed hysterically.

The Hot Hand – A Rush to the Red!

.....

“Arrogant woman meets her nemesis and gets slapped in public!

.....

The Truth with Pictures

.....

A fiery post on the United University’s forum reported the conflict between Ji Feng and Yun Bing in extreme detail.

In the vast majority of the posts, the detailed account of what happened was described first, followed by a note with the owner's comments. What made Yun Bing so angry was that the comments on these posts were almost lopsided towards Tong Lei, and very few of them were towards Yun Bing!

For example, in the first post, "Hot Hands Destroying Flowers", it describes what happened in detail before commenting at the end: "Although the author does not know why the above two sides suddenly had this kind of conflict, but, from the pictures we can clearly see how arrogant Yun Bing was wearing on her face before she was beaten, does she really consider herself a princess? "

"Showing off her wealth, or ignorant arrogance? After being beaten up, Yun Bing did not even take the initiative to hold the assailant responsible, does this mean that Yun Bing is the one who is in the wrong?"

"From what I've seen and analysed, it seems that the cause of this incident was that Yun Bing and Tong Lei clashed, and subsequently, Yun Bing attacked Tong Lei with vicious words, and the latter's companion was so enraged that she struck out in anger and gave Yun Bing a resounding slap in the face, letting her know that being rich doesn't mean she's right about everything! Money, doesn't mean everything!"

"Tong Lei is the recognized flower of the foreign language department, I guess that Yun Bing was overpowered by Tong Lei in terms of her looks, so she harboured a grudge and insulted Tong Lei verbally. She doesn't know that a woman's beauty doesn't only lie in her appearance, but her beauty of heart is equally important. A woman who would attack others with vicious words because of a trivial matter, even if she is awarded the department flower, it is still a shame for the whole foreign language department!"

.....

The countless posts were spreading all over the forum, and every time she checked one of them, Yun Bing would be so angry that her face would turn blue and her chest would heave violently, but she was not able to fight back in the slightest, people were speaking online, what could she do?

And more importantly, seven`eight out of ten of the things said in these posts were true!

"Bingbing, otherwise, we should also register a few vests and go clarify?" Seeing Yun Bing's almost angry look, her roommate couldn't help but ask cautiously.

"Clarify? Clarify what?!" Yun Bing screamed frantically, almost going crazy, "I don't need to clarify, humph, those people are saying things, they are jealous of me, what can they do to me with these words?"

A few roommates looked at each other and thought to themselves, "If those words really can't do anything to you, why are you so angry?"

"Turn off the computer!" Yun Bing screamed, her chest heaving violently with anger, if she didn't have anything handy around, she almost wanted to just smash the computer!

"Bing Bing, look, there's a new post, it seems to be" her roommate pointed to a new post on the computer screen and said somewhat hesitantly, "Do you want to see this one?"

"I don't want to read any post either, shut it down immediately!" Yun Bing was furious.

“It seems to be about Wei Qiang.” A roommate said cautiously.

“What?” Yun Bing froze, and then said angrily, “Fine, I’d like to see what this Wei Qiang is talking about!”

She immediately went to the computer and fixed her eyes on it, only to find that the post turned out not to be posted by Wei Qiang, but that the title of the post carried Wei Qiang’s name.

“Jealousy? Or unrequited love? This was the name of the post. As soon as she saw it, the corners of Yun Bing’s eyes jumped and her face clouded over.

After a moment’s hesitation, Yun Bing clicked on the post with a huff, however, after she had just read it a few times, her eyes instantly turned red and her whole body immediately went crazy: “Who posted this post, I’ll make sure to kill him! Ahhhhhhhhh!”

Yun Bing felt like he was about to be driven crazy, especially this post, that was simply the last straw to crush the old bull!

According to the description in the post, this poster had started a human flesh search for Yun Bing and several other parties after reading the crowd’s post reports, and had listed everyone’s biographies and identities, even to the extent that Yun Bing’s father was Yun Feiyang, the boss of the Brilliant Group, and the rumours of Yun Feiyang’s power in Jiangzhou.

Of course, as for the identities of Ji Feng and the others, the post only listed the biographies of a few people, and there was no description of their family situations.

However, based on the pictures and the videos that the onlookers took with their mobile phones, and then based on the results of the search, the post came to a conclusion that was closest to the truth.

..... Yun Bing was jealous of the fight and thus maliciously attacked Tong Lei, which led to his own beating and even dragged an escort student into it!

The post said that Yun Bing had long had a crush on Wei Qiang of the basketball team, but was only shaving her head and burning the fire, head over heels. Wei Qiang was simply distant from Yun Bing, but instead he was in love with Tong Lei, who was as beautiful and fairy-like as a fairy.

It is for this reason that Yun Bing hates Tong Lei to the bone, which is why this incident has come about today.

The post ends with the most pessimistic speculation about Wei Qiang’s future four years of university life: Wei Qiang, who does not cling to the powerful, has offended the arrogant and ignorant Yun Bing, and will face Yun Bing’s revenge for the next four years of university life, I am afraid.

“Such a crazy and arrogant and ignorant woman is the most frightening, because she is capable of anything!” The post ended with this, “It can be foreseen that in the next four years, what Wei Qiang will have to face may not only be Yun Bing, but also the entire Brilliant Group, to be looked at by such a crazy woman can only be described as a misfortune!”

Boom!

The last sentence of the post was like an explosion of thunder, instantly magnifying in Yun Bing's eyes, and ultimately, exploding in her mind.

It was over, what face did he still have to stay at United University?

Yun Bing only felt a blackness in front of his eyes as he fell headfirst from his chair and landed heavily on the ground.

“Ah!”

Several of Yun Bing's roommates were startled and screamed, hurriedly helping Yun Bing up, “Bing Bing, how are you? Do you need to go to the hospital?”

It was only after a long time that Yun Bing was able to catch her breath, but her face was a ghastly white, without a trace of blood anymore. All that was left in her mind was the last post she had seen.

To be seen by such a crazy woman could only be described as a misfortune

What else, more vicious than this statement?

So, in the eyes of outsiders, I am actually such a crazy woman?

I'm afraid that's what the entire Union University student body thinks in their hearts, right? In particular, the pictures and videos attached to those posts were the most powerful evidence. From now on, Yun Bing would have to endure countless criticisms if she still wanted to stay at United University.

Moreover, after such an incident, which other men would dare to accept her in the future?

Although Yun Bing's family is rich, but who would have the guts to marry a crazy woman for money, and an extremely dangerous crazy woman at that?

Money is a good thing, but you have to have the life to spend it!

Just thinking about this made Yun Bing's body cold beyond belief. For someone like her, who always thought of herself as a princess, honour and face were more important than anything else.

These posts went layer by layer, until the last one came out, and it tore off Yun Bing's high and proud face, so bloody that it hurt her to the marrow!

As for her honor, that is even more half gone, look at what people call her, crazy woman, dangerous crazy woman, crazy woman that men dare not want!

These names were just like a sharp knife, fiercely ** in Yun Bing's heart, making her body tremble.

After a long time, Yun Bing suddenly let out a scream, “Tong Lei, Ji Feng, Zhang Lei, you all must die a good death! I will kill you all!”

.....

Inside a villa area not too far from the United University, Ji Feng was all gathered around the computer screen, looking at the posts on it, while dumbfounded.

Before Ji Feng had even arrived at the villa, he received a call from Han Zhong, asking him to log on to the school's forum as fast as possible, saying that something big was happening and it was about Ji Feng. Therefore, Ji Feng came to the villa as fast as he could. The electrical appliances left by Mr. Li here had basically not been replaced yet, and it so happened that there was a computer here as well, so Ji Feng logged on to the forum.

But unexpectedly, he would see such explosive content!

"The experts are among the people!" Zhang Lei froze for half a day before he exclaimed. It had only been so long since the incident happened, and these people had actually searched for such detailed information, one couldn't underestimate it!

"This is a bit troublesome now!" Ji Feng frowned slightly, "Perhaps, these people who posted, especially the last poster, should have had a conflict with Yun Bing, or perhaps, he wanted to use this incident to completely stink up Yun Bing, so that she can't hold her head up in the United University."

"But, in that case, Yun Bing will most likely choose to drop out of school." Zhang Lei also reacted, "If she really drops out of school, we'll have to have some trouble trying to deal with her and the Brilliant Group again."

"Yeah, if Yun Bing stays in school, we can keep track of her movements if we pay a little attention, but now, we'll just have to investigate through our social connections!" Zhang Lei shook his head slightly, "It's very difficult, you can't monitor Yun Bing twenty-four hours a day, can you?"

"No matter what, there is one goal that is clear, deal with the Brilliant Group first and knock out Yun Bing's reliance. In this way, even if she is more capable, it will be difficult for her to make any waves!" Ji Feng clenched his teeth and said in a deep voice, "Lei Zi, find out the details of the Brilliant Group as soon as possible, if we delay for a longer time, the variables will be bigger."

"Don't worry, I've already called my second uncle, there will be news soon." Zhang Lei said with a nod.

Ji Feng nodded slightly and mused, "Wei Qiang this last post, could it be from him?"

Zhang Lei laughed heatedly, "No matter who posted it or what his purpose is, but there is one thing, if Yun Bing sees these posts, I'm afraid she'll feel like she's been slapped hundreds of times, right?"

Ji Feng was stunned, then he laughed out loud, with Yun Bing's arrogant nature if she saw these posts, it would really be worse than killing her.

Chapter 198

Not to be expected by Ji Feng and others, according to Zhang Lei and Tong Lei's inquiries, since the post on the school forum appeared, Yun Bing disappeared from the school, apparently no longer had the face to continue to stay.

This result caused Ji Feng to frown a little.

He knew that once Yun Bing left, her whereabouts would not be easy to grasp. After all, her father, Yun Feiyang, had started out as a gangster and had an unknown number of thugs and desperadoes under his command, so if Yun Bing insisted on retaliating, it would simply be impossible to guard against it.

Although there is a security office and a school escort team at Union University, these people cannot protect Tong Lei 24 hours a day, not to mention that the school's escort team would not be able to deal a blow against those desperate people. How can those students be compared to the desperadoes who lick the blood from a knife?

"We must speed up the investigation, at least, we have to knock out Yun Feiyang and the Brilliant Group first, as long as Yun Feiyang falls, those punks under him, naturally, will also fall." In the villa, Ji Feng held his chin in one hand and deliberated secretly, "Before Yun Feiyang falls, Lei Lei's safety, must be paid special attention."

Thinking of this, Ji Feng immediately gave Tong Lei a call, "Lei Lei, don't go anywhere during this period, just stay at school until the crisis is lifted."

Tong Lei was not scared at all, she smiled lightly and said, "I know, Ji Feng, you should be careful yourself."

Ji Feng heatedly smiled and said, "Don't worry, with just his little Brilliant Group, he can't make any waves in front of me, what I'm worried about is you, you must not leave the school during this period, if you need anything, if you need to buy anything or have other things you want to get out of the school, just leave it to me."

"Mmm, I know then!" Tong Lei said in a soft voice.

Ji Feng smiled faintly and hung up the phone, and the smile on Ji Feng's face disappeared. In reality, his heart was not as relaxed as the surface lock showed. There was a saying that it was easy to hide from a clear shot but hard to defend against a dark arrow, if Yun Bing was determined to deal with himself, with the power of the Brilliant Group, he could definitely find out where he lived.

"Now let's have a competition to see who is faster!" A cold light flashed in Ji Feng's eyes.

"Ding!" Just at this moment, Ji Feng's mobile phone suddenly rang, and when he picked up the phone, it was Ji Shaolei calling.

"Hey, second brother." Ji Feng picked up the phone.

"San'er, the party at the end of the month is coming up soon, so get ready!" Ji Shaolei opened the door and said, "According to my understanding, not only is Qiao Gakai attending the party himself, it seems that he has also called a few people, and it is said that he is planning to ruthlessly slash the face of our Ji family and a few other families this time."

Ji Feng, who was already not in a good mood, burst into flames upon hearing this, and cursed through clenched teeth, "****, really any kind of cats and dogs can come out and bounce around!"

Ji Shaolei was stunned, he heard the implication of annoyance in Ji Feng's words and couldn't help but ask, "San'er, what's wrong? From the tone of your voice, you seem to be very upset, is there someone who has pissed you off?"

Ji Feng's heart moved and he immediately asked, "Second brother, have you heard of the Brilliant Group?"

"Brilliant Group?" Ji Shaolei seemed a bit surprised and immediately asked, "Third son, why did you suddenly remember to ask this?"

"Oh, I was just casually asking." Ji Feng did not intend to tell Ji Shaolei about this matter for the time being, if the Brilliant Group was just a small group, Ji Feng intended to rely on his own ability to deal with it, if the group was really too big, Ji Feng would not try to be a hero and would definitely ask Ji Shaolei for help.

Ji Shaolei also did not think much about it, just said, "This Brilliant Group how to say it, is considered a group company with some gangster nature, and also has very close ties with certain big shots, so it is still some energy in Jiangzhou."

"Since you know that this group has a mob nature, why did you get rid of it?" Ji Feng couldn't help but ask.

Ji Shaolei laughed bitterly, "What you said is light, it's true that it's not difficult to get rid of a small Splendid Group, what with its underworld nature and Yun Feiyang who has experienced life and death struggles, in front of the real state power, it's not even dregs. But you should also understand that some things cannot be dealt with just by saying so, as I said just now, the rise of Yun Feiyang is actually related to many characters, Jiangzhou is not ironclad, and your second uncle is not saying everything in Jiangzhou, if you really deal with the Brilliant Group, it might cause a huge uproar in Jiangzhou!"

Ji Feng suddenly dawned on him, Ji Shaolei's meaning was already very clear, Yun Feiyang was definitely a dog kept by someone or a certain party of power, no, strictly speaking, it should be a tool for enrichment, and at the same time a dog that would bite people. When he needs money, he can provide it, and when he needs to deal with his enemies, he will be a mad dog and a headache.

Dealing with a Yun Feiyang was not difficult, the hard part was dealing with the forces behind Yun Feiyang.

Ji Shaolei laughed again, "In fact, to say the least, father has been wanting to beat up this gang of a mob nature for the past few years, it's just that the time is not right, so he has been holding back, however, father already has a setup, and when the time comes, he will wipe out all those people!"

Ji Feng instantly laughed, I said, with the second uncle's calmness and ability, to be able to achieve the position of municipal party secretary, and how will take these small people helpless?

Obviously, Second Uncle already had a complete plan, and his target was not just Yun Feiyang and a small splendid group, but the person behind Yun Feiyang!

Thinking about this, Ji Feng couldn't help but smile, "Second brother, if I want to deal with Yun Feiyang, second uncle should approve of it, right?"

"You want to deal with Yun Feiyang? Why?" Ji Shaolei couldn't help but be taken aback, "Yun Feiyang isn't difficult to deal with, but he is a nuisance. To deal with him, either you don't move, or if you do, you have to if a thunderbolt, directly destroy all of Yun Feiyang's roots, otherwise, once this kind of person retaliates, it's still troublesome. San'er, has he offended you?"

Ji Feng nodded slightly and immediately told the story.

“Bang!”

A loud sound came from the other end of the phone, which seemed to be the sound of slapping the table, and Ji Shaolei sneered, “It seems that after not freeing up his hands to deal with Yun Feiyang these past few years, he really thinks he’s a land emperor! Hmph, the daughter of a mob boss dares to be so arrogant, he simply thinks he has lived too long!”

There was a pause before Ji Shaolei said, “Third child, what are you going to do?”

Ji Feng pondered for a while and slowly spoke out, “Second brother, what I’m going to do on my side, I definitely can’t disrupt second uncle’s arrangement, if possible, I plan to go directly to Yun Feiyang’s lair to take a look, maybe I can find any useful information, so that I can help second uncle instead.”

Ji Shaolei was taken aback and said in a panic, “I say, San’er, you must not act recklessly, although the Brilliant Group has now gradually bleached out, there is still a group of desperadoes inside after all, you must not take any chances. As for the matter between you and Yun Bing, I will immediately tell father and see what he says.”

“Well, let’s do that then, I’ll wait for Second Uncle’s instructions for now.” Ji Feng said, “Let’s not talk about that first, that party Qiao Gakai initiated, on which day exactly will it be held?”

“Just four days later, you get ready, I’ll pick you up then.” Ji Shaolei said, “San’er, are you sure you can beat Qiao Gakai? If you can’t, don’t try to be brave, I’ll think of another way.”

Ji Feng smiled confidently, “If we’re talking about killing him, I don’t dare to guarantee it, but if it’s just to defeat him, it’s simply a breeze, just don’t worry.”

Ji Shaolei couldn’t help but laugh, “Don’t be careless, you kid, in case the gutter turns upside down then, it would be a big joke.”

To be honest, Ji Shaolei was still very worried in his heart. Although he had heard from his younger uncle, Ji Zhenping, that Ji Feng’s skills were very good, but after all, Ji Feng was only nineteen years old, and now was not the time when martial arts masters were walking around as described in the book, and Qiao Gakai had been trained by the special forces, could Ji Feng really beat Qiao Gakai?

The first thing you need to do is to find out if you are going to be able to participate in this party, after all, if Ji Feng loses face, then it will really be the whole Ji family that loses face.

The reason for the party was to put pressure on Duan Peng, but on the other hand, he wanted to make the Ji family look bad. The cause of the incident was because of Eldest Uncle.

If Qiao Gakai found out about Ji Feng’s identity at this time, the sky would really be turned upside down by then.

Ji Shaolei couldn’t help but secretly wonder, he didn’t know what little uncle and father were thinking, they both asked themselves to inform the third child to attend this party, could this be a test for him?

However, all these things Ji Shaolei did not tell Ji Feng clearly, this was Ji Zhenping and others' instructions, and Ji Shaolei did not dare to disobey. Therefore, he could only subtly remind Ji Feng that he must be careful.

Ji Feng, however, did not know the hidden secret, but he was very confident in his own body.

"Second brother, you can rest assured, when the time comes, if Qiao Gakai is honest, then everything is fine, if he wants to take the initiative to provoke, humph, then I will let him know that those who come out of the special forces may not be able to top anything!" Ji Feng laughed heatedly, that voice made Ji Shaolei on the other end of the phone shiver.

"Since that's the case, then I'm relieved, remember, it's four days later, I'll pick you up then." Ji Shaolei admonished once more.

After hanging up the phone, Ji Feng immediately stood up, went downstairs to the fridge and casually took out an egg and threw it up high.

Pop!

He lifted his leg violently and the egg landed steadily on his thigh without even a tremor.

Chapter 199

Four days had passed in a flash.

During these four days, Ji Feng had stayed in the villa, although from the time the villa arrived until now, he hadn't cleaned anywhere else except the bedroom, because for the past few days, he had been immersed in practicing his control over his power.

During this period, he had started practicing with eggs at the beginning, but later on, he started using other things, and his proficiency in controlling his power was increasing rapidly, until Ji Shaolei called and said that he had arrived downstairs, and only then did he stop practicing.

"Where's the party?"

Sitting in Ji Shaolei's BMW X6, Ji Feng casually tossed up a coin and let it land exactly on the back of his hand, spinning it continuously.

Ji Feng's hand was as flexible as if it had no bones, and every time he waited until the coin was about to stop, his fingers would slightly bend and with a flick of his wrist, the coin's rotation continued to speed up.

That dazzling movement made Ji Shaolei freeze as he watched, and he couldn't help but be greatly envious: "How did you play this hand? It looks like it's very difficult!"

Ji Feng harrumphed, "Want to learn?"

"It would be good if I could learn it and use it to cheat girls." Ji Shaolei didn't hide his intentions in the slightest.

Ji Feng laughed heatedly, looked at Ji Shaolei, and said, "I spent a year accumulating power and nearly a month practicing controlling it, with hardly a day of interruption."

Ji Shaolei was dumbfounded to hear this, if he had to stick with it for over a year, practicing with coins every day, he wouldn't be able to keep it up.

If he knew that what Ji Feng said took more than a year was not just simple exercises, but also included practicing aerobics and having to endure bio-current stimulation at the beginning, that kind of inhuman torture, I guess Ji Shaolei would not be able to last even one day.

"Forget it, it looks like I won't be able to practice." Ji Shaolei shook his head slightly and laughed, "So it looks like your kid's hands must not be bad, to be able to play with coins so nimbly, you must be able to play with other things as well, if you play with guns"

Ji Shaolei did not say more, such a flexible hand if used to play with guns, I'm afraid that with eyes closed can complete the disassembly and assembly of firearms in the shortest possible time, right?

Ji Shaolei, however, did not know that not to mention disassembling guns, even the laser guns and special ray guns of the interstellar era, he could do it with his eyes closed, except for the large single-armed mechs and space battleships, almost all the weapons he was familiar with once.

"Old brother, I'm afraid that even many experts who are proficient in firearms may not be able to match you with this skill!" Duan Peng also let out a similar sentiment, with a status like his and Ji Shaolei's, it wasn't uncommon to have seen someone who played with guns, but they really hadn't seen anyone with hands as nimble as this!

"It's just a small skill, it's just some small tricks, it's mainly to practice flexibility and control of power, it's not worth mentioning!" Ji Feng said with a smile. In his opinion, these tactics were indeed not worth mentioning.

At the beginning, in order to control his power, the intelligent brain had given him three suggestions, this method, was just the most basic one. In fact, what Ji Feng liked the most was still self-control of the bio-current in his body, stimulating his muscles while improving his proficiency in controlling the bio-current, which was definitely a two-for-one thing.

Because now Ji Feng had gradually realised that that so-called bio-current was probably the legendary internal force!

Every time he tried to control the bio-current in his body, he could feel extremely clearly that his strength had increased almost geometrically. For example, the day he had just practiced his second set of moves, he had even cracked a stone table in front of the dormitory building with one punch, so he could tell how powerful this bio-current was.

It was precisely for this reason that Ji Feng paid more attention to the control and accumulation of bio-current.

Shaking his head slightly and shaking all these thoughts away, Ji Feng asked, "Second brother, you still haven't told me where this party is being held?"

Ji Shaolei laughed wistfully and heatedly twice, but the corners of his mouth carried a hint of mockery, "Where else could it be, when it's the Linjiang Club!"

“Where?” Ji Feng frowned and asked in surprise, “Second brother, if I remember correctly, isn’t the Linjiang Clubhouse Li Weidong’s property? How come the party held by Qiao Gakai is there?”

“Humph!”

Ji Shaolei sneered and said disdainfully, “After being suppressed by our family for several years, now that there is an easy opportunity, how could their Li family not rush to lean on it? Do they really think that the Qiao family can bring them much benefit? That’s just stupid!”

Hearing this, Ji Feng was suddenly enlightened.

It turned out that Li Weidong knew that Qiao Gakai was going to hold a party in Jiangzhou, so he naturally had to offer himself up and fawn over him. In the Li family’s view, the Qiao family was also one of the major families in Yanjing, so if they could lean on it, the Li family’s status would soar, and they wouldn’t have to hold their tails in Jiangzhou.

Duan Peng also shook his head slightly and said, “These people down there will never be able to figure out what exactly is a real world family, the old man of the Qiao family is long gone, in the eyes of outsiders, the Qiao family is still an unreachable world family, but in the eyes of those real world families in Yanjing, the Qiao family has long since become a ragtag family.”

Speaking of this, Duan Peng couldn’t help but sigh, the Qiao family was a ragtag family, how could his own family not be? Moreover, his own family was even more dilapidated than the Qiao family, otherwise, how would the Qiao family hit him, Duan Peng?

“Alright, let’s not talk about that, the party starts at six in the evening, let’s go there now.” Ji Shaolei started the car and drove out of the villa area, “I’d like to take a good look at just how unaware the Qiao family is, not only do they think of plotting to take over other people’s family assets, they even want to deal with my Ji family! A ragged family, if not for the old master remembering his old feelings, I would have trampled them down!”

Ji Feng couldn’t help but laugh dumbly, this nature of Ji Shaolei, where does he look like the boss of a big group, simply not much different from a dude. Of course, if there is a difference, it lies in the bottom line.

I’m afraid that Ji Shaolei’s bottom line is more than anyone else’s, not to mention that a down-and-out family like the Qiao family would not be in his sights at all.

It was only because the elder of the Ji family had long ago given strict orders to the Ji family to deal with the Qiao family, no matter how provocative the Qiao family was, they were not allowed to deal with them, and only then did the Ji family hold their breath.

Moreover, because Ji Shaolei’s father was serving in Jiangzhou, it was rare to see anyone from the Ji family on a regular basis. However, instead of going after him, he messes with you first!

The fake miracle doctor from a while ago, as well as Ji Shaolei’s car being tampered with, plus Ji Shaodong almost being assassinated, all these things had long made Ji Shaolei unable to tolerate anymore.

So, this time, Ji Shaolei was ready to take his anger out.

But Ji Shaolei is helpless because the third generation leader of the Qiao family, Qiao Gakai, is from the special forces. The old man would not allow him to use the power of his family or his own group to fight against the Ji family, but with his own fists and feet, he could not beat Qiao Gakai.

He even wondered if he should give Qiao Gakai a severe beating even if he was punished by the senior, but after thinking about it, he still didn't have the guts to do so.

Just then, when he happened to complain to his little uncle, he heard him say an important piece of information – that Ji Feng was very strong!

Ji Shaolei was overjoyed at that moment, and once he asked his father for permission, he immediately received approval, and only then did Ji Shaolei make the trip to inform Ji Feng.

Driving the car, Ji Shaolei's heart was full of anticipation, he even hoped that Qiao Gakai would be more rampant today, and it would be even more humiliating if he lost at the hands of Lao San.

The university city was nearly two hours away from the Linjiang Clubhouse, which was located in the western suburbs of Jiangzhou.

When he got out of the car, Ji Shaolei couldn't help but hum, "How imposing, it seems that all the dignified figures are here today, Qiao Gakai is preparing to completely disgrace us!"

Ji Feng was slightly stunned, and when he saw the cars in the car park, he instantly understood what Ji Shaolei meant.

In the car park, there were a total of fifty to sixty famous cars parked, and since Qiao Gakai was holding a party today, obviously Li Weidong could not have allowed other guests to come to the Linjiang Club, so it was obvious that the owners of these cars were all here to attend today's party, and if they could afford to drive these famous cars, the owners' origins were obviously extraordinary.

To lose face in front of so many people would be a real disgrace.

"With so many people witnessing it, it might not be a bad thing!" Ji Feng said with a smile.

"How so?" Ji Shaolei asked.

Ji Feng smiled heatedly, "With so many pairs of eyes watching, at least no one will be able to move right and wrong, when Qiao Gakai gets beaten up, even if he wants to go to grandpa to sue him, he won't have any sense, at least, with a little investigation, he will know what's going on."

"Haha, that's the truth!" Ji Shaolei laughed, "It seems that this time, Qiao Gakai has lifted a stone to smash his own feet, humph, if you want to insult others, you have to have the awareness of being insulted."

"Let's go in!" Ji Feng smiled faintly and put the coin in his pocket.

Guided by the car boy, Ji Shaolei parked the car, and the three of them got out of the car and walked towards the clubhouse entrance.

Just as they reached the entrance, Ji Feng couldn't help but be struck by the fact that as the owner of the Linjiang Clubhouse, the son of the mayor of Jiangzhou, Li Weidong was personally standing at the entrance today, taking charge of welcoming the guests!

Seeing Li Weidong's red face, full of pride, Ji Feng could not help but frown slightly and asked in a low voice: "Second brother, is the job of welcoming guests glorious? I see that Li Weidong is very proud of himself!"

Chapter 200

Seeing Li Weidong's red-faced, proud look, Ji Feng couldn't help but frown slightly and ask in a low voice: "Second brother, is the job of welcoming guests glorious? I see that Li Weidong is very proud of himself!"

Ji Shaolei couldn't help but laugh dumbly and said, "I'm afraid he feels that he has climbed into the Qiao family and his status has immediately risen, so I guess this is to show off to the other arriving guests, or to show off."

Ji Feng was immediately a little stunned, "Is that necessary?"

No matter what, Li Weidong's father is at least the mayor of Jiangzhou, even the municipal party secretaries of other provincial capital cities are not as high as his level, moreover, in charge of such a large city, although there is still the municipal party secretary above, but he is more the mayor, the real power in his hands, that absolutely cannot be underestimated.

As the son of the mayor, would Li Weidong have to go to such an extent to befriend the son of a fallen family?

Seeing Ji Feng's puzzled look, Ji Shaolei immediately understood that his old brother still didn't really understand what kind of influence and energy those Yanjing families had.

He said in a low voice: "Third son, don't look at the Qiao family as being in decline, but you have to know how many men the old master of the Qiao family had when he was alive, and now, how many of those people are in high positions! A true family is a family with many disciples and officials all over the world. Although Li Weidong's father's position is not low, but even if the Qiao family has fallen, but their network, their influence, are still there, even if they pull a leg hair, it is thicker than Li Weidong's thigh, this is the gap!"

Ji Feng nodded slightly, more or less understanding, no wonder Li Weidong personally took on the job of welcoming guests, and was still so cheerful, as if a big treasure had fallen from the sky. It turned out that these truly great families of the world possessed such influence and such strong energy.

He also suddenly thought that the Qiao family had fallen and still had such influence, so how powerful should the Ji family, which was still in its heyday, be?

Shaking his head, Ji Feng stopped thinking about these questions, because he didn't need to worry about anything yet. The second generation of the Ji family, father and other three brothers had all become huge trees, and grandfather was still alive, and in the third generation, the elder brother, Ji

Shaodong, had gradually grown up, so as long as no heavenly changes appeared, the Ji family would not fall in the next few decades.

Therefore, Ji Feng did not need to worry about this at all.

Only, in his heart, he still only had a vague concept of the influence of the Ji family, and was not particularly clear about it.

Moreover, Ji Feng was also hesitating, when he graduated from university, what kind of a path would the family arrange for him? When the time comes, will he inherit the family's heavy responsibility and take the path of politics, or will he do something else?

For all these, Ji Feng had not thought about it yet, in fact, even if he thought about it, there would not be any result, because it was not something he could decide for the time being.

“Yo!”

Li Weidong suddenly saw the three Ji Shaolei people who were walking towards the front door, and he immediately laughed, “Brother Shaolei, senior brother Ji, we meet again..... this one is?”

Ji Shaolei smiled lightly and introduced, “This is also a guest invited by Qiao Gakai, Duan Peng, General Manager Duan.”

“Oh?” Li Weidong looked surprised, “So, this is the famous Mr. Duan, I’ve heard Mr. Qiao mention it quite a few times, Mr. Duan, welcome to the Despicable Club, I’m Li Weidong.”

Duan Peng nodded slightly and shook Li Weidong’s hand, “Hello!”

Li Weidong immediately felt energised and his pores all over his body were stretched out, as if he had taken some kind of elixir.

When had he ever been able to talk to Ji Shaolei in a reciprocal manner like he was doing today?

And when had he ever been able to make a son of a family from Yanjing like Duan Peng look at him in the right way?

It was all because of Qiao Shao! Just because he had become friends with Qiao Shao, everyone looked at him differently, those who had originally flattered him became even more sycophantic, while those who had originally befriended him as an equal now began to flatter him either explicitly or implicitly.

What makes Li Weidong want to laugh the most is still the change in attitude of Ji Shaolei. In the past, he always had a feeling of being inferior in front of him and could not hold up his head, but today, he is able to talk to him as an equal and is not uncomfortable in his heart.

Moreover, it seemed that Ji Shaolei really treated himself as an equal!

This feeling was really a raised eyebrow!

Li Weidong made an inviting gesture with a smile on his face and smiled, “Three of you, please come inside, I’ll excuse myself for a while, there are still guests to entertain.”

“You get busy first, no need to entertain us!” Ji Shaolei smiled faintly, not the slightest bit of anger because of Li Weidong’s change, as a son of a family, he would not be without half a city like the others, not to mention, this change of Li Weidong could only be considered as clownishly ridiculous in his opinion.

The fact that you’ve gotten close to the Qiao family, you think you’ve suddenly become noble?

Oh

The actual fact is that you can’t be able to get a good deal on your own. If that’s the case, it’s too naive.

At this time, Li Weidong did not know what was in Ji Shaolei’s mind. He glanced back at Duan Peng’s back, a look of mockery and sympathy in his eyes, this man, how pathetic!

Li Weidong vaguely knew something, it seemed that Qiao Gakai was very interested in this Duan Peng, according to Li Weidong’s understanding, Duan Peng’s huge fortune was the source of his attraction to trouble, and one of Qiao Gakai’s objectives for this gathering was to force Duan Peng to spit out some of his benefits.

“Hey, looking for Ji Shaolei’s help?” Li Weidong took a pitying glance at Duan Peng’s back, “Now is not the time for both sides to compete with each other in terms of family history, what these gentry are competing with each other is their respective wrists and fists and kicks, Qiao Gakai is from the special forces, how can Ji Shaolei’s not too strong body be enough for Qiao Gakai to beat him with three punches and two kicks?”

“You will have your day too?” Li Weidong really wanted to laugh out loud, since Duan Peng and Ji Shaolei had come together today, whether Ji Shaolei was going to help or not, he couldn’t get out of it.

If Ji Shaolei did not help, it would undoubtedly be humiliating and would also chill the hearts of those who followed him. If he helped Duan Peng, he would face another dilemma – could he beat Qiao Gakai?

If he went in, he would be beaten, humiliated, and even disgraced. If he retreated, he would also lose face and the trust of his men. This time, Ji Shaolei was caught in a dilemma!

Li Weidong can’t wait to see the joke, and even if he can, he doesn’t mind beating up the dog, knowing that in the past, there were few opportunities to make Ji Shaolei lose face.

As for Ji Feng

The first thing you need to do is to get a good idea of what to do and what not to do. If he did something he shouldn’t, what would happen to him!

Just as Li Weidong was getting complacent, Ji Feng suddenly turned back and looked over, a sharp aura in his eyes flashed.

Swish!

Li Weidong’s heart suddenly jolted and he turned his head away in a panic, subconsciously not daring to meet Ji Feng’s gaze. And when he reacted, knowing that he was acting cowardly like this, and turned his head again to glare at Ji Feng, he found that the three of them had long ago entered the clubhouse with ease, leaving only the back of his three heads for him.

“D!” Li Weidong instantly cursed angrily, his original good mood instantly vanishing without a trace.

Whether he admitted it or not, Li Weidong had to understand in his heart that deep down in his heart, he still had some fear for Ji Feng and Ji Shaolei. This hadn't changed half as he had climbed up to Qiao Gakai!

All the way inside the clubhouse, Ji Shaolei's face had a faint smile on it, and with the white suit he was wearing, he indeed looked poised and elegant, quite a turbid gentleman's style.

Ji Feng could not help but look at the secret nod, he knew, although this is considered a kind of hypocrisy, but, this kind of city of the second brother, is what he needs to learn. If he did not have two brushes, even if his status was high, he would not be able to convince the public.

Understanding this, Ji Feng deliberately observed every move of his second brother, while secretly comparing it with the etiquette and disguise he had learned in the super agent training system, and he found that his second brother had done a really good job.

Even if he himself, having received real systematic training in etiquette, did it for the first time in front of so many people, he would not be able to do it better than Second Brother.

Etiquette was something that had to be practised constantly. As for disguise, putting a false smile on one's face and pretending to be anything one could pretend to be was also a form of disguise.

For example, the second brother is now acting like a gentle and elegant gentleman, which has some elements of disguise in it.

The place where the banquet was held was on the first floor of the Linjiang Club, which was also the most spacious hall. Led by the waiter, Ji Feng and the three of them arrived upstairs.

Ji Feng, however, found that the place seemed to have changed somewhat. Originally, the first floor was a hall, which was very empty, but now, it was filled with big tables and chairs, leaving only an open space of about a hundred square feet in the middle of the hall, which was connected from the stairway to the window.

It was a large aisle of sorts, and on both sides of the aisle, there were tables and chairs.

Ji Feng was observing, when he suddenly felt the aura of his second brother change violently. He immediately looked up, and saw a cold aura flash in his second brother's eyes, which immediately disappeared, and a smile was back on his face as he looked towards the stairway.

On the staircase, a stout man was walking down from the third floor!
