

Campus Master 201

Chapter 201

According to Ji Feng's judgment, this man, was around his early twenties, but certainly less than twenty-five years old. However, this man had a fierce aura about him, as if he was very formidable. At a glance, it almost made one overlook his age, as if he was facing a big mountain.

This was an aura!

Ji Feng's eyebrows furrowed slightly, it was obvious that this man who was walking down the stairs step by step, should be the one that second brother had repeatedly mentioned to himself, the initiator of this party, Qiao Gakai!

Because only someone who came from the special forces would have this kind of aura that made people feel pressure, and only someone who had truly experienced the trials of life and death would have this kind of fury.

What could prove Ji Feng's deduction was the scar on the left side of this man's cheek, starting from the base of his ear and running along his neck, all the way to his collar. If Ji Feng had not misjudged, this scar had been injured by a knife or other sharp weapon.

Behind Qiao Gakai, followed by three or four young men and women, but none of them dared to walk alongside him, they were all one step behind him, fully highlighting Qiao Gakai's status and position.

By now there were already many people seated in the hall, most of them young men and women, especially some women who appeared to be dressed in a noble and elegant manner, but in fact an inadvertent gesture or a glance revealed their true intentions.

These women, likewise, wanted to climb into the Qiao family. Their knitted brows and smiles looked as if they were noble princesses, but in reality, behind this nobility was the lowliness and emptiness of a cross-dresser, for which Ji Feng could see very clearly.

If we put it nicely, these women are some big people's golden girls, or socialites, but if we put it more unpleasantly, they are socialites, high class ji girls!

Because they all want to use their bodies to get a good future for themselves, or for their families.

Only a very few of them, too, are really from big families, so they don't need to use their physique to exchange for anything at all. However, even so, these ladies of great families were still apprehensive when they faced the Qiao family and stood up in their hearts.

In this way, almost the entire hall stood up in unison and looked towards the young man who was slowly walking down from the upper floor.

In his twenties, he had an identity and background that people could hardly hope to match, and he was also a man of extraordinary skill and full of martial aura. Just imagine, who doesn't want to find a man of their choice?

"It's Young Qiao, Young Qiao is coming down!"

“Yes, it’s said that Young Qiao has just come out of the army and is now the leader of the third generation of the Qiao family, ah.”

.....

Listening to the crowd’s chatter, Duan Peng couldn’t help but hum. This Qiao Gakai had put pressure on him when he was in Yanjing, and he had no way out before he came to Jiangzhou to seek help from Ji Shaolei, but to think that Qiao Gakai had come to Jiangzhou again, this was clearly forcing him to a point where he could not retreat, it was strange that he could be in a happy mood!

The two of them are getting stronger and stronger, and the gap between them in terms of status and position is getting bigger and bigger, so this kind of relationship is like savings in a bank.

However, just this once is enough to change a person’s fate.

Obviously, Ji Shaolei has this ability, but, with this first time, Duan Peng is no longer good enough to ask Ji Shaolei to help a second time. Friendship requires mutual contribution, and this time Ji Shaolei saved his entire fortune.

It was for this reason that Duan Peng hated Qiao Gakai even more. Just such a bully let him use up such an important relationship, and the next time he encountered a bigger problem, who could Duan Peng go to for help?

At this time, Li Weidong also walked in from the entrance of the clubhouse. With a smile on his face, he came to Qiao Gakai’s side and said with a slightly respectful smile, “Young Qiao, will the banquet start now?”

Qiao Gakai smiled faintly, “Weidong, now you are the landlord, this is all up to you, you just make the arrangements!”

Li Weidong was immediately filled with joy, Qiao Gakai showed such respect to him in front of outsiders, this undoubtedly put a glow on his face, in the future his status in Jiangzhou would naturally rise.

“Good then, please have a seat, young Qiao!” Li Weidong nodded vigorously and respectfully invited Qiao Gakai to the main seat before taking a few quick steps to the entrance of the staircase, standing on the two steps and saying in a loud voice, “Everyone, we are all people of status and position in Jiangzhou, today we have the honour of inviting Qiao Gakai, Young Qiao, to our banquet, this is our honour, welcome Young Qiao!”

“Wow!”

The following applause suddenly rang out, everyone had different expressions on their faces, some were eager to climb up the Qiao family, others were secretly sneering, while others were frowning slightly, as if they were thinking about something.

Ji Feng didn’t even bother to listen to what Li Weidong had to say, his gaze just wandered through the hall, taking in all these people’s expressions.

“Hmph, horseshit!” Duan Peng gritted his teeth and snorted coldly, Li Weidong had helped Qiao Gakai organise such a banquet, so naturally he had become Qiao Gakai’s accomplice, coming together to put

pressure on him, Duan Peng. Under such circumstances, it was strange for Duan Peng to have a good feeling towards Li Weidong!

Li Weidong seemed to know that he wasn't too popular, or that he didn't dare to steal Qiao Gakai's thunder, as he said a few words of ceremony and walked off.

At this time, the waiter started to serve the wine, while on the long table to one side of the snogging, there were various foods and dishes laid out.

"It's still a buffet" Ji Feng shook his head slightly, those tables and chairs were just for show, in fact, everyone would still be pulling each other's strings with their glasses of wine, and a buffet was the only way to meet this condition.

Qiao Gakai rightfully became the protagonist of this banquet, and no one could overshadow him. However, Qiao Gakai seemed to have no regard for those who came to make friends with him, and when people approached him for a drink, he just raised his glass and left it at that, while those who approached him were still happy.

The third generation of the Qiao family leader, ah, people can pay attention to you, that is already a kind of honor.

Li Weidong followed Qiao Gakai with a face full of respect and could not stop the smugness in his eyes. Whenever someone came to toast with Qiao Gakai, Li Weidong would make an introduction for those who were important, and for those who were not, he would block them for Qiao Gakai.

If people didn't know, they would have thought that Li Weidong was Qiao Gakai's henchman, but how could they have imagined that he was the son of a mayor?

Li Weidong's flattering appearance, looking at Ji Feng couldn't help but shake his head a little, and Ji Shaolei even laughed dumbly.

"Brother Shaolei, just this kind of goods can also be called the first and second grandson of Jiangzhou along with you?" Duan Peng looked straight up with a frown and couldn't help but heave a cold laugh.

Ji Shaolei was known as the number one gongzi in Jiangzhou, and Li Weidong was known as the number two gongzi, originally both of them were greatly famous in Jiangzhou, but now seeing the way Li Weidong looked, mentioned alongside Ji Shaolei, it was simply an insult!

"It's alright, it's just a name, I don't really want it, it's just that I used to be a bit of a bastard, that's why I was given such a name!" Ji Shaolei smiled faintly.

This name was not a nice name, if it had a big impact, it might even affect the reputation of the Ji family, only that, in the past, he was young, so he was more playful, but now Ji Shaolei, was much more stable.

"Second brother, these people don't know much about our family, do they?" Ji Feng suddenly asked.

"Why would you ask that?" Ji Shaolei was stunned.

Ji Feng smiled and said, "If these people really knew more about our family, they would have come to flatter you, where would they be like now, with no eyes on you as the number one son at all anymore, just thinking of flattering Qiao Gakai."

Ji Shaolei smiled and nodded, saying, "It can't be helped, father has always asked us to keep a low profile, for family matters, even more rarely mentioned, those who can know are basically those who belong to high positions, or those who really have backers above, as for the others, most of them only know that I am relying on my father's status to run amok."

This is an unchanging rule.

The Ji family is now so strong that if they continue to flaunt it, it will inevitably cause some huge trouble, and even, once it has become too strong, the decline may be even faster. Therefore, the senior members of the Ji family and the second generation brothers have seen this point and they are all acting in a very low profile.

Regarding this point, Ji Feng agreed very much, no family could flourish forever, and the best way to prolong the life of a family, was to make people feel less threatened.

"Here it comes!" Duan Peng suddenly said.

Ji Feng frowned and looked up, only to see that accompanied by Li Weidong and several other people, Qiao Gakai was finally rushing this way.

Ji Feng's gaze fell on the few people behind Qiao Gakai, and he was instantly stunned, where did these people appear from?

When Qiao Gakai came down from the third floor just now, these few people were not there, nor did they follow him. Ji Feng's eyes narrowed, the reason he was so surprised was because these few people gave him a feeling that they were even more dangerous than Qiao Gakai!

That's right, dangerous!

"One, two" Ji Feng let his eyes look at a total of four people, and these four people made Ji Feng surprisingly feel a crisis.

These are four experts! Ji Feng's eyebrows tightened up, these four people, there is no half a soldier's aura, much less a lot of fury, but, yet, it makes Ji Feng instinctively alert, from this it can be seen, how strong these four people are!

The first thing you need to do is to get a good idea of what you're getting into.

The light in Ji Feng's eyes flashed, it's not good, there might be a bad battle today!

Chapter 202

The majority of people want to climb up with him and soar to the heavens, while those daughters hope to enter Qiao Gakai's line of sight, even if it is just to be an underground lover, the status and position is definitely not comparable to that of ordinary dignitaries.

This would be of great benefit to themselves and to the family.

Therefore, as soon as Qiao Gakai walked, everyone's eyes moved after Qiao Gakai, and eventually, when Qiao Gakai stopped walking, everyone saw three young men with calm faces.

“So it’s him!”

Everyone’s heart suddenly dawned on them, just now they were thinking who else at this banquet could be worthy of Qiao Gakai moving his feet, but it turned out to be the son of the Secretary of the Municipal Party Committee!

As the number one son of Jiangzhou, the majority of people who came to this banquet knew Ji Shaolei, and even if some of them had not seen him, the people around them immediately explained to their companions that although Qiao Gakai was extremely important, both in terms of status and position, and was worthy of their attention, however, Ji Shaolei’s status was not low either.

Moreover, in this mu of Jiangzhou, perhaps Ji Shaolei’s words are more effective than Qiao Gakai’s.

If Qiao Gakai is not here, Ji Shaolei will be the focus of the party.

Although many of these people are playboys, but there are also a number of dignified businessmen, they are all human beings, all of them are people who are clever, naturally will not offend Ji Shaolei in order to curry favor with Qiao Gakai.

The identity of Qiao Gakai is indeed important, but Ji Shaolei is in this mu of land but TZ, if he wants to deal with anyone, even if Qiao Gakai makes a move, he may not be able to stop it, not to mention, who is Qiao Gakai to make a move?

So, when these people saw Ji Shao Lei, they immediately talked about it, and there were many people who had a lot of ideas, and immediately thought of giving Ji Shao Lei a toast, climbing friendship, can not befriend Qiao Gakai, can get on with Ji Shao Lei, then it is not a trip in vain ah.

But when they saw Qiao Gakai standing in front of Ji Shaolei, all their thoughts were dispelled, now it was a conversation between the two gentry, they could not get involved, otherwise, if they pissed off either one, the consequences would not be affordable.

However, the conversation between the two princes always attracts attention. The vast majority of people had their ears pricked up, pretending to be laughing and joking with others, but in reality, their minds had long since run to the two grandsons, and they could not even run to their sides right now.

It was impossible for these people not to pay attention, both the energy and the various kinds of information that the two grandsons had, that was not something they could compare with, if they could get a little bit of useful information from their conversation, it would be enough to be used endlessly.

“Brother Shao Lei, it’s been a long time since I’ve seen you.” Standing in front of Ji Shaolei, a smile appeared on Qiao Gakai’s somewhat hard face as he extended his left hand towards Ji Shaolei, “I haven’t seen Brother Shaolei since I left for the army three years ago, I haven’t seen him for a few years, Brother Shaolei’s style is even better than before!”

Ji Shaolei smiled faintly and extended his right hand, placing it in front of his body before he stopped moving: “Older brother Qiao is also the same, much more mature than before. It’s just that when Old Brother Qiao came to Jiangzhou, as the host, I should have treated him well, but Old Brother Qiao didn’t give me this opportunity, so I should be punished!”

Qiao Gakai was slightly stunned, then laughed loudly, "I don't agree with what Brother Shao Lei said, I was afraid that Brother Shao Lei wouldn't be able to afford it, so that's why I didn't inform Brother Shao Lei at first, don't take offence!"

"I don't have more money, but I'll come up with the money to entertain Old Brother Qiao, even if I break a pot and sell iron." Ji Shaolei laughed, lifted the quilt and clinked a glass with Qiao Gakai, both of them had an unexplainable meaning in their eyes.

Ji Feng listened with amusement from the side, the second brother and Qiao Gakai had just said a few words and sparks were flying. Qiao Gakai was probably left-handed, so as soon as they met, he stretched out his left hand to shake hands with his second brother, obviously wanting to take the initiative himself.

However, Second Brother held out his right hand and made it clear that he was the host, meaning that he wanted Qiao Gakai to follow his Ji Shaolei's rules, that Jiangzhou was his territory, and that you, Qiao Gakai, couldn't make any waves here!

At the same time, the second brother called Qiao Gakai an old brother, which naturally put Qiao Gakai in the position of a junior, so that the other party could not retort in a reciprocal capacity.

It was obvious that the two of them were not on speaking terms right from the start, but they seemed to be very familiar with each other, as if they were old friends who had not seen each other for years.

Ji Feng knew that no matter how much he thought about not using the power of his family, but in the end he was a member of the Ji family, and in the eyes of others, he was the grandson of the Ji family, so it was natural to put him in this circle. Therefore, there was no harm in learning a little more about this.

So Ji Feng didn't say much beside him, but carefully observed every move of his second brother and Qiao Gakai, learning from their wit in verbal exchanges.

At the same time, Ji Feng's gaze also darted from time to time over the four people beside Qiao Gakai. These four people were the ones who were more worthy of Ji Feng's attention, because there was something about them that made people's hearts palpitate a little.

"These four people, they're definitely experts!" Ji Feng frowned slightly, Qiao Gakai was from the special forces, his own kung fu was already very good, however, these four people were obviously more powerful than Qiao Gakai, which made him feel very strange, where did these few experts come from?

This time, Ji Shaolei and Qiao Gakai did not know what had been said between them, only to see Ji Shaolei's face change slightly, a cold aura flashed in his eyes, obviously a little angry.

Ji Feng immediately looked over, but saw that Qiao Gakai was putting his head close to Ji Shaolei and was whispering something, the voice could only be heard by the two of them, but it was not difficult for Ji Feng, who had an excellent ear.

"Brother Shaolei, the cost of entertaining me is not low, I'm afraid you can't afford it." Qiao Gakai leaned next to Ji Shaolei and said in a voice that only the two of them could hear, laughing heatedly, "Has Brother Shaolei forgotten that for me, the best hospitality is to find me an escort who is overly skilled. But unfortunately, the last time I sparred with Brother Shao Lei, it turned out that after even one move, Brother Shao Lei couldn't hold out, which made is very disappointing!"

A cold light flickered in Ji Shaolei's eyes and he did not speak.

Qiao Gakai smiled faintly and continued, "To be honest, if it's just about physical strength, I can defeat you with one hand, and I can even cripple you whenever I want. Of course, if it's about other aspects, such as power, such as sleight of hand, I can't even compare to Brother Shao Lei, but alas, who made your family's old master owe us? With your old master's orders, you can't do anything to me except sparring with me, you have so much power but you can't use it ah, hahaha"

At the end of the sentence, Qiao Gakai had laughed out loud, the voice seemed to be very happy, and the whole hall could hear it clearly.

The face of Ji Shaolei was incomparably gloomy, three years ago at a party in Yanjing, Qiao Gakai was only twenty years old, but he wanted to propose a sparring match with Ji Shaolei, and at that time Ji Shaolei was also practicing fighting with his younger uncle, and learning the fighting techniques of the military, so he naturally agreed to do so.

However, as soon as he fought with Qiao Gakai, he was broken in the ribs by Qiao Gakai's fist and thrown out at the same time. He was humiliated in front of all the people who attended that banquet, and it could be said that it was his first appearance in Yanjing after he became an adult, and as a result, he was severely humiliated by Qiao Gakai.

Every time Ji Shaolei thought of this incident, he wanted to teach Qiao Gakai a lesson. Whenever these sons of the family fought with each other, it was either a fight between helpers to see who's helper was more powerful. Either that, or a competition of their respective sleight of hand. It was rare for any of these sons to fight among themselves.

But Qiao Gakai was an exception, he liked to do it himself, and only when it was specifically aimed at Ji Shaolei.

This kind of targeted humiliation was too much for Ji Shaolei to bear, however, the old man's order made Ji Shaolei helpless to deal with Qiao Gakai through other means, moreover, the old man also said: fighting between children, it is not a problem.

Ji Shaolei could only swallow his anger, while Qiao Gakai became even more reckless after he found out about it.

When Ji Shaolei's father found out about it, he transferred him from Yanjing to Jiangzhou, and Ji Shaolei also collected his heart and soul and did his serious business.

But now, Ji Shaolei instantly fell into a rage, that was regarded by him as the greatest shame, and now that Qiao Gakai brought it up again, how could he not be angry?

However, he, who was extremely cultured and deep in the city, still held back the anger in his heart, and a smile gradually appeared on his gloomy face, "Older brother Qiao, don't speak so wildly, there are some things that can have serious consequences if you go too far!"

"Haha! Is that so?" Qiao Gakai laughed disdainfully, "I say, Brother Shao Lei, you should wait for your family's old man to grow old before you say that, saying that now, that's just scaring people."

Swish!

Once these words were said, both Ji Shaolei and Duan Peng's faces changed. There was an unwritten rule among the children of these families, and it was still a rule that everyone abided by, and that was to not involve the elders when there were conflicts between each other.

However, this Qiao Gakai was so rampant that he openly cursed Elder Ji – if you want to deal with me, then you'll have to let your family's elder die early!

Qiao Gakai's words meant just that!

Chapter 203

"Qiao Gakai, saying this, is responsible!" Ji Shaolei said coldly, a cold glint in his eyes, the anger in his heart could barely be suppressed anymore, it was enough for this Qiao Gakai to insult him, but he had even brought in the old man along with him.

Ji Shaolei had even secretly gritted his teeth, even at the risk of being expelled from the family by the old man, he would still teach this ungrateful Qiao Gakai a hard lesson!

If that was not possible, he would be killed!

Ji Shaolei's heart surged with murderous anger, the Ji family, the people of the Ji family, had never suffered such an insult!

But Qiao Gakai laughed: "Brother Shaolei, don't be so angry, I'm telling the truth, no one will live forever, it's not a good thing to live too long. Besides, if I say this, you know it and I know it, but does anyone else? Even if you want to go and sue, who will believe you when you tell the truth?"

"Hehe"

Ji Shaolei laughed in anger, he shook his head and looked at Qiao Gakai as if he was looking at a dead person, "Older brother is right, it is true that no one will live a hundred years, but there are definitely many people who die young, in such a big country, there is no telling how many people die young every day, and there is no telling how many people die young, this is a very good thing to say, very good!"

Seemingly not hearing the murderous intent in Ji Shaolei's words, Qiao Gakai smiled faintly and dropped his gaze on Duan Peng next to Ji Shaolei again, "Mr. Duan, I remember talking to you about cooperation last time I was in Yanjing, I wonder how the consideration is going?"

Ji Feng furrowed his brows tightly, this Qiao Gakai, deceiving people too much!!!

Not to mention his insult to the old man, just the fact that he ignored Ji Shaolei so much and pressed Duan Peng step by step in front of Ji Shaolei, no one else would be able to tolerate it. Not to mention, he was even cursing the old man in his words, and even Ji Feng, even he was already a bit intolerable.

Suddenly, Ji Feng's heart flinched, he inadvertently saw that a smug light flashed in Qiao Gakai's eyes, as if there was a feeling of a treacherous plan succeeding!

Why?!

Ji Feng instantly calmed down, his mind turned rapidly, although he had not been in this circle before, he knew how much anger would be aroused by directly attacking the other party's elders!

Even if it was a fight between two ordinary people, if one party cursed, “Your grandfather, that old, immortal old thief, why isn’t he dead yet?”

This time, 100% of the time, it would instantly turn from a brawl into a hot battle scene, and the party being cursed would definitely not have the slightest ambiguity, which would make people even more furious than cursing themselves.

Qiao Gakai would never fail to understand this, so why did he say that? Just because of arrogance?

Ji Feng wouldn’t think so, the flash of smugness in Qiao Gakai’s eyes just now made Ji Feng feel that something was wrong, obviously, if Qiao Gakai wasn’t being too arrogant, then his purpose could only be one – to provoke Ji Shaolei.

Just what good could it do for Qiao Gakai to anger Ji Shaolei?

It’s like what Qiao Gakai said, if Ji Shaolei wanted to deal with the Qiao family, then at least he would have to wait until the old man of the Ji family was dead, as long as the old man was around, the people of the Ji family should not think about dealing with the Qiao family, that’s simply impossible.

But don’t forget, the old man of the Ji family is now in his eighties, and to put it mildly, he really doesn’t have many years left to live. If he really died, what would happen to the Qiao family based on the resentment that the Ji family had accumulated against them over the years?

How could Qiao Gakai be so stupid as to do such a thing?

These thoughts flashed through Ji Feng’s mind, and he quickly regained his composure. Just because he couldn’t think about it now didn’t mean he wouldn’t understand it later, at least, he couldn’t go along with Qiao Gakai’s calculations now, so he mustn’t let Ji Shaolei really get furious.

Thinking of this, Ji Feng casually picked up a glass of wine from the plate held by the waiter next to him and took a sip on his mouth. With this action, he touched Ji Shaolei without a trace.

“Second brother, let’s have a drink!” Ji Feng was smiling, as if he hadn’t even heard that conversation between him and Qiao Gakai just now. Even on an occasion like today, Ji Feng was still wearing the simplest casual clothes, but these simple and ordinary clothes on his body still made him look heroic and uncommon, his tall stature was sturdy, adding a calm and steady aura to him.

Ji Shaolei was stunned, turned his head and saw Ji Feng’s breezy smile, somehow he also calmed down instantly, lifted his wine glass, clinked it with Ji Feng and laughed: “This kind of wine can enter your kid’s eyes? Not used to drinking it, are you?”

When this remark was made, Li Weidong next to him instantly had a sarcastic face, he provided all the drinks and food here, and for Ji Shaolei to say this was tantamount to a slap in the face, and to his face at that.

Ji Feng heatedly smiled: “You have to drink even if you’re not used to it, you have to follow the customs in the countryside!”

The two of them were talking to themselves, ignoring Qiao Gakai and Li Weidong next to them.

Only then did Qiao Gakai's gaze fall on Ji Feng, a strange look flashed across his eyes and he couldn't help but laugh: "Brother Shao Lei, this little brother is not going to introduce me?"

"You?!"

Before Ji Shaolei could speak, Ji Feng couldn't help but shake his head slightly and said with disdain, "You're also qualified to know me? Ha! Second brother, come on, let's have a couple of drinks and then leave, there's really no point in being here."

Duan Peng couldn't help but look at Ji Feng in consternation, this kid's performance now was simply like two people before, if the Ji Feng before was steady and yet wise, then, now he was simply a spoiled dude, moreover, a high status kind of dude.

In this instant, in front of Ji Feng, Qiao Gakai was dumbfounded and didn't know what to say for half a day.

"Hey, hey, you're Brother Shao Lei's younger brother, Ji Shaoyun?" Qiao Gakai asked with a cold laugh. Just now, when he heard Ji Feng call Ji Shaolei as second brother, he guessed that he should be Ji Shaolei's younger brother, Ji Shaoyun, other than that, Ji Shaolei didn't have any other younger brother.

Ji Feng glanced at him, ignoring him, and just laughed, "Second brother, Chief Duan, let's go, this place is really boring!"

Qiao Gakai's face changed again and he said in a nonchalant manner, "Brother Shao Lei, this younger brother of yours is doing quite a lot, even more so than you as a brother!"

"Qiao Gakai, pay attention to your status and put yourself in the right position!"

Ji Feng suddenly shouted coldly, turned around and pointed at Qiao Gakai's nose, saying disdainfully, "Second brother and I give you face, we can call you young Qiao, or old brother Qiao, but if we don't give you face, you don't count for shit! You're just a little punk from a declining family, and you dare to flaunt your authority in front of me and Second Brother, what are you?"

Silence! Dead silence!

Everyone in the entire hall stared blankly at this young man who was standing proudly, their hearts shocked beyond belief.

Not only the others, but also Ji Shaolei and Duan Peng, looked at Ji Feng, who had suddenly lashed out, in shock, wondering what the hell he was doing. This was a complete confrontation with Qiao Gakai, wasn't it a bit unwise?

Qiao Gakai was also frozen, he had never thought that there was anyone who dared to speak so unmercifully and even, so arrogantly in front of him, this was unbelievable!

"Kid, you're arrogant!" Only after a long time did Qiao Gakai come back to his senses and coldly looked at Ji Feng, a cold aura constantly flickering in his eyes, his fists clenching and unclenching, obviously already extremely angry in his heart.

"Qiao Gakai, it seems that you still haven't come to your senses, let alone recognize yourself clearly." Ji Feng grunted and slowly took two steps forward to Qiao Gakai's face, nodding at him, "You, are just a

small yakuza from a fallen family, in the past, my second brother gave in to you, that was for the sake of your elders, it has nothing to do with you.”

After a pause, Ji Feng shook his head slightly and tsked, “I can’t believe that a little yakuza who only runs to the other party’s house to complain after a fight dares to run wild in front of me, it’s ridiculous! Qiao Gakai, tell me, in terms of family history, your family has fallen into decline and is probably not as powerful as a third-rate family! In terms of personal ability, my second brother now controls a large conglomerate and is doing better and better every year, while you, who couldn’t even stay in the army, have achieved nothing so far! In terms of financial power, you’re so despicable that you’re trying to take over other people’s property, so I wonder where your sense of superiority comes from? How can you be so arrogant? Who gave you your bottom line, and whose power are you relying on?!”

Ji Feng couldn’t help but shake his head with each sentence, he really didn’t know what to say, people like this, if it wasn’t for the old man’s strict order for all the children underneath to not deal with the Qiao family, the Qiao family would have gone up in smoke long ago, where else could it be Qiao Gakai’s turn to be arrogant here?

The only way to get rid of this is to have a person who has the guts to call out. Ji Feng snorted with laughter.

Everyone was stunned by Ji Feng’s words, even Qiao Gakai’s face was blue and white for a while, and he opened his mouth, but he couldn’t say a word to refute because what Ji Feng said was the truth.

Whether it was his personal ability, his family background or his financial power, he was far from being able to match Ji Shaolei’s. Part of the reason why he was so rampant was because the Ji family’s senior had ordered that the Qiao family should not be dealt with.

Although there were other reasons, however, Ji Feng was right!

“Just a thing like you, if it wasn’t for the fact that second brother and you once knew each other, you wouldn’t even be qualified to kneel on the ground and lick my shoes, and you still have the face to strut your stuff here?” Ji Feng shook his head disdainfully and turned his head, “Second Brother, Chief Duan, let’s go, it’s too degrading to be with such a person!”

I don’t even have the qualifications to lick your shoes?!

All of a sudden, a humiliating anger rose from Qiao Gakai’s heart as he shouted violently, “Little beast, I’ll get you killed today!”

Chapter 204

Finally a shout: brothers and sisters, where is your support!!!

With a roar, Qiao Gakai, who was forced by Ji Feng’s sharp words to no longer be able to suppress his anger, kicked out incomparably fast, forcing Ji Feng straight to the back of his heart, and Ji Shaolei and Duan Peng, who were in front of him, didn’t even react, and by the time they realized it was bad, it was too late to stop Qiao Gakai.

Hoo!

Qiao Gakai's speed was too fast, and his strength was so great that his leg even brought up a hunting wind sound, which was enough to see its strength.

"Trying to get me killed?"

Ji Feng laughed, but a cold aura flickered in his eyes, he didn't even turn his body, his two legs fiercely powered up, his whole body actually instantly rose into the air, flipping backwards in the air like a big spinning windmill.

His two legs, like two thick pillars, slammed into Qiao Gakai's two shoulders with the ferocity of Ji Feng's violent descent, immediately causing Qiao Gakai to let out a muffled cry as his entire body plummeted.

However, Ji Feng's attack did not stop there, as he smashed into Qiao Gakai's shoulders, Ji Feng's two legs bent violently, his own weight made him fall violently, and the two knees were smashing into Qiao Gakai's shoulders with unerring accuracy.

"Ka-chow!" A sound, the sound of bones breaking suddenly rang out.

The next moment, Ji Feng's elbow was already raised high, aiming, at Qiao Gakai's head!

At this very moment, the four men who had followed Qiao Gakai had a sharp light in their eyes, and one of them shouted violently and jumped up, sweeping one leg across, forcing it straight towards Ji Feng's neck.

Hoo!

Ji Feng's two legs once again fired, and the whole man once again made a beautiful reversal in the air, landing firmly on the ground, but his eyes were shining with killing intent.

Ji Feng's gaze landed on Qiao Gakai's body, and he walked over step by step: "You want to get me killed? What is the crime of killing someone, according to our laws? What is the sentence to be given?"

The bones in Qiao Gakai's two shoulders were almost completely shattered by Ji Feng's two knees, his two arms were just drooping, his body was shaking with pain, but his eyes were filled with a horrified look, looking at Ji Feng walking step by step as if he was a god of killing, he was suddenly covered with cold sweat, his whole body was so scared that he almost didn't know what to do.

"You're going to kill me with your exit? You are so bold and so powerful! Even if I were to kill you here on the spot now, it would only be a legitimate defence at most!" Ji Feng was still walking step by step towards Qiao Gakai, the cold aura in his eyes was appalling!

"You, you" Qiao Gakai didn't know whether it was because he was afraid or because of the pain in his heart, he could barely even speak.

Swish!

A man jerked out diagonally and blocked in front of Ji Feng, it was one of the four men who had followed Qiao Gakai, this man, was also the one who had just attacked Ji Feng and relieved Qiao Gakai.

"It's you again?!" Ji Feng's eyes narrowed, "Your body is not bad, but do you think you can stop me?"

Although the two of them had not exchanged blows just now, this person had just made a move and Ji Feng immediately saw that this person was definitely not a match for himself.

In fact, Ji Feng had never had a clear idea of how strong his own body was, he only knew that what he had learnt from that black-faced instructor in the system was all about killing kung fu, and, many of them were one-hit kung fu, or assassination kung fu.

For example, just now, if his knee had hit Qiao Gakai's head instead of his shoulder, then by now, Qiao Gakai's head would have turned into a lump of rotten flesh, so how could he still be alive?

Ji Feng wasn't stupid, he naturally wouldn't kill anyone here, he just wanted to teach Qiao Gakai a lesson, but now that this man was in his way, Ji Feng wasn't happy. Because just now, when he stepped in to stop himself, his first move was a killing move, aimed at his own neck!

For those who wanted his life, Ji Feng instinctively wanted to wipe out the other party, his gaze fell on this man's neck, in just 0.5 seconds, he could have snapped this man's neck, so that he didn't even have time to react.

"This brother, just now senior brother Qiao has offended much, this is senior brother Qiao's fault, I apologise on his behalf." This man was probably around thirty years old, but his action made Ji Feng's expression awe-inspiring. I only saw that this man actually clasped his hands and nodded slightly towards Ji Feng.

What kind of action was this?!

Ji Feng's heart suddenly moved because he remembered, this kind of action, isn't it the etiquette used by those ancient martial characters meeting each other on TV or in the past?

"It's already the 21st century, this person is still using that ancient etiquette, and he's not badly skilled" Ji Feng's heart suddenly moved, this person couldn't be a martial artist now, right? But in this society now, is there still a martial art?

"You are Qiao Gakai's senior brother?" Ji Feng asked with a frown.

"Yes." The man nodded slightly and said.

Ji Feng sneered, "If I remember correctly, it wasn't just Qiao Gakai who offended me, was it? What you did just now was also a killing move, if I hadn't dodged quickly, I'm afraid I would have become a corpse by now, right?"

He said, "This gentleman, with your skills, you should know very well that if I hadn't made a killing move, I wouldn't have been able to stop you, because the difference between us is too great. "

"That's easy for you to say!" Ji Feng snorted, "No matter what, it's always a fact that you struck out at me, and besides, Qiao Gakai was clearly trying to kill me before, this can't be given a light reveal with a single apology from you!"

"So what does Your Excellency want to do?" The man's face changed, Qiao Gakai had just taken the lead in attacking Ji Feng, and the moment he struck was a powerful killing move, this was something that everyone could see, and Ji Feng was clinging to this point, this made him feel very difficult to do, at least, Qiao Gakai was in a complete passivity.

“What do you want to do?” Ji Feng shook his head slightly, “Of course we have to follow the law, someone tried to kill me, that’s murder, although it’s attempted murder, but it’s still a crime.”

Saying that, he turned his head and said, “Second brother, our police in Jiangzhou, they should be able to control Grand Duke Qiao, right?”

“Of course they can!” At this time, Ji Shaolei also suddenly reacted.

Ji Feng smiled faintly, “That’s good, Li Weidong, please go with my second brother, go to the surveillance room and take out the surveillance video, this is our evidence.”

“San’er, don’t worry, I’ll go with Weidong.” Ji Shaolei laughed, in a great mood ah.

Boy, murder, ah, not to mention whether it makes sense judicially, just the news that Qiao Gakai wanted to kill Ji Feng, if word gets out, hey, no matter how much the old man defends the Qiao family, he definitely can’t say anything this time, besides, the eldest uncle has been separated from this son for more than ten years, now when he hears that someone wants to kill him, it’s strange that the eldest uncle won’t be furious!

What’s more, this time, no matter how rampant Qiao Gakai is, no matter how good he is at acting, he will not be able to sue the old man and turn black and white in front of him!

Li Weidong, on the other hand, was still in shock, just now Ji Feng’s terrifying bodywork apart from terrifying, he just couldn’t find a more appropriate word to describe it.

Now Ji Feng wants himself and Ji Shaolei to go get the video together? If he really went, that would offend Qiao Gakai to death!

He immediately said, “What a bad coincidence, the camera happened to be broken today, so what happened just now was not recorded!”

Ji Feng smiled faintly and pointed to the ceiling above, where the camera was flashing a faint red light and was obviously working properly.

“You call that broken?” Ji Feng grunted, “Li Weidong, did you also play a part in Qiao Gakai coming to murder me? Could it be that you were an accomplice?”

“No, no!” Li Weidong was instantly shocked, are you kidding, when did he become an accomplice?

“Then why don’t you go! Do you want me to go and get it myself?!” Ji Feng shouted violently.

Li Weidong was abruptly startled, “Okay, okay!”

After saying that, he hurriedly went to the monitoring room with Ji Shaolei, but halfway there, he reacted, he was at least the mayor’s son, so even if you’re Ji Feng’s big shot, you shouldn’t order me around like this, right? How can you behave like a subordinate?

What’s more, the fight between you and Qiao Gakai is a fight between the gods, why should I, a kid, suffer?

Although he was extremely dissatisfied, Li Weidong did not dare to show it now. In his eyes, both the Qiao family and the Ji family were the most powerful families in Yanjing, and according to Qiao Gakai,

the Qiao family was even more powerful than the Ji family. It was because of this that Li Weidong dared to underestimate Ji Shaolei.

But now it seemed that the young master of the Ji family was even more ruthless and ruthless than Qiao Gakai.

Li Weidong suddenly realized that it seemed unwise for him to get involved in the fight between these two grandsons

The others naturally did not know how complicated Li Weidong's heart was at this time, and Ji Feng would not bother, he coldly glanced at the still pale Qiao Gakai, coldly snorted, and immediately took two steps forward.

"This gentleman" the man in front of Ji Feng took a look at Ji Feng to move, panic: "Please do not be impulsive, what is the matter, we can completely sit down to discuss the solution!"

Ji Feng held out three fingers, "I'll give you three seconds to get out of the way immediately, or else hum!"

Swish!

The other three men immediately surrounded them, and together with the man in the first place, surrounded Ji Feng in the middle.

The man who stopped in front of Ji Feng had a faint smile on his face, "This gentleman, why do you have to start a fight, what can't we talk about sitting down? Besides, by using force, you don't have an advantage!"

"Huh" Ji Feng laughed, he was really speechless.

Chapter 205

Ji Feng really didn't know what to say, although this person in front of him spoke gently, the contempt and arrogance in his tone exposed the arrogance in his bones.

I really don't know where these people get their sense of superiority from!

Stronger than themselves? Or were they more superior to him in other ways? Or maybe they really felt that they had gotten the better of themselves just because there were so many of them?

"How about this, if Your Excellency agrees, why don't we sit down and talk?" The man said indifferently.

Ji Feng calmed down at this point instead, although he hadn't really wanted to kill Qiao Gakai before, he just wanted to teach him a lesson and hand the video over to the police, at most it would only give the Qiao family a headache for a while, as long as grandpa knew about it, Qiao Gakai would still be fine with everything.

But now, he was not going to let Qiao Gakai off so gently, just because the attitude of these few people disgusted him.

Ji Feng could already conclude now that the guy who had just made a killing move on himself was definitely not just trying to stop himself without making a killing move, as he had said.

I'm afraid that what he wanted to do more than make a killing move was to seriously injure himself!

"Where did these few people come from?" Ji Feng had always been interested in this question, especially after the other party made the gesture of clasping his hands in salute, he became even more interested, in between, there might be some important message, and Ji Feng naturally wanted to know about it.

Besides, even if there is no important message, it is not a bad thing to know about the opponent, as the saying goes, if you know yourself and your opponent, you can win a hundred battles.

When that man saw that Ji Feng seemed to have the intention to retreat, he immediately thought that it was because of the large number of people on his side that had scared Ji Feng's heart. He instantly settled in his mind and said with a smile, "This gentleman, this is a clubhouse after all, and most of the people present are dignitaries, so it doesn't seem too good if you continue to make a move, does it?"

"Besides even if you want to make another move, you may not be able to take advantage of it, why don't we just sit down and talk now, we can discuss everything!" The man smiled faintly, as if he was some big shot speaking.

Ji Feng sneered in his heart, but his mouth asked, "Sitting down is not necessary, right? What do you want to talk about, just say it!"

Before that person could say anything, an angry look flashed in the eyes of the other three, one of them even glared directly at Ji Feng and clenched his fists, as if he might come up and give Ji Feng a severe beating at any moment.

In their eyes, Ji Feng's skill just now was indeed very good, but it didn't really make them take it seriously, because there were four of them. If the four of them joined forces, they had full confidence that they could take Ji Feng down in an instant.

It was also because of this reason that made these four people not really consider Ji Feng as an opponent at all.

"Well then, today's matter is considered wrong for Senior Brother Qiao, however, Your Excellency also has something wrong with him, besides, Your Excellency also gave Senior Brother Qiao a serious injury, this matter is closed, what do You think?" The man asked indifferently, while several others slowly approached Ji Feng, cold light flashing in their eyes.

Ji Feng didn't even look at the other three men, he just snorted, "Am I stupid? Or are you stupid? What are you, and what qualifications do you have to talk to me? Qiao Gakai wanted to kill me, everyone heard it, and he also took action, I hit him hard, that was just self-defence, why should we end it there? Have you got sh*t in your head?"

"Watch your mouth, kid!" A man snorted coldly, hatred in his eyes was so strong that he wanted to pounce on Ji Feng and crush him to death right now.

Ji Feng didn't even look at him, he just said disdainfully, "Do you really think that because you are outnumbered, you can have a sure victory? You really don't know how to live or die, there are some things you can talk about, but, there are some things you can't talk about, get lost immediately and don't force me to strike at you!"

“Kid, you’re so wild!” A man said angrily.

“Fight us? Don’t you think that’s a bit too ridiculous?” Another man sneered.

The guests around them whispered, but they couldn’t tell who was better or worse in kung fu between Ji Feng and that man, but seeing Ji Feng facing these four people and still daring to be so arrogant, they couldn’t help but be surprised, this was really not what a wise man would do!

Ji Feng, however, was not moved in the slightest, nor did he pay any attention to the others’ thoughts, he just stood there with a sullen face, quietly waiting for his second brother, Ji Shaolei, to return from the surveillance room.

To him, these few people did not constitute any threat at all, and if he wanted to, he could let these few people go out sideways at any time, but before that, he must first ensure the safety of his second brother.

Of course, although it was said that no one dared to really lay a hand on the second brother, but Ji Feng was not sure in his heart. Just these four people who appeared out of nowhere had dared to kill themselves just now, what else would they not dare to do?

At the same time, Ji Feng was also puzzled in his heart, what exactly were the origins of these four people who followed Qiao Gakai?

There was another point that Ji Feng had never been able to understand before, why did Qiao Gakai dare to be so rampant?

The day would come when the old man of the Ji family would grow old, and at that time, I am afraid that the Qiao family would be destroyed in an instant the next day, and there might even be no dogs left. Under such circumstances, Qiao Gakai was still so arrogant, what exactly did he rely on?

Ji Feng would not naively think that Qiao Gakai was being foolishly arrogant. No matter what Qiao Gakai said or how he acted, there was no trace of foolishness, which meant that Qiao Gakai must have something to counterbalance the Ji family!

Of course, this backing should not be able to destroy the Ji family, otherwise, with the Qiao family’s hatred for the Ji family, I’m afraid it would have been put into practice long ago.

The old man was so defensive of the Qiao family, even if he had been good friends with the Qiao family, but that was decades ago, and the Qiao family was attacking the Ji family in every possible way.

Although his heart was very puzzled, Ji Feng’s face did not show any difference, he just stood there steadily, his whole person naturally exuded an aura that made people unconsciously awe-inspiring, as if this was not a young man of about twenty years old, but a 30 or 40 year old majestic superior!

The four men who had come with Qiao Gakai could not help but feel a sense of awe, for it was not often that such an aura appeared on such a young man.

The atmosphere in the hall fell into a stalemate, the leader deliberated for a moment before saying, “This gentleman, introduce yourself, I am Zhu Yongtao, these three are my senior brothers, I don’t know what your name is!”

Ji Feng frowned slightly and glanced at him lightly, but ignored him.

“Kid, my senior brother is talking to you, didn’t you hear me?!” A man next to him instantly became angry and shouted.

“Noisy!” Ji Feng snorted coldly.

“Kid, you’re looking for death!” The man was instantly furious and was about to come up and make a move!

Zhu Yongtao instantly reached out to stop the man and said, “Senior brother, don’t be impulsive.”

After saying that, he looked at Ji Feng, “This gentleman, it’s better to behave, not to be too arrogant!”

“Huh ……” Ji Feng couldn’t help but snicker, “You really dare to talk, you came to Jiangzhou, working for the tiger and plotting to seize other people’s property, and you dare to call me arrogant?”

“Senior Qiao and us are brothers and teachers, what’s more, this involves business activities, it’s not as if you say that plotting and seizing is just that.” Zhu Yongtao said indifferently.

Ji Feng frowned at him, still arguing sophomorically at this point, was there any point?

Next to him, Duan Peng was furious, he snorted coldly, “Qiao Gakai wants to acquire my company, the price offered is not even ten percent of my total assets, how can you call this a commercial activity? It’s simply too much bullying!”

Zhu Yongtao glanced at him, but did not say anything. It was obvious that Duan Peng was not in his eyes at all.

“You ……”! Duan Peng was furious, but he couldn’t do anything to Zhu Yongtao.

Soon, Ji Shaolei and Li Weidong came down from upstairs together, Li Weidong had a bitter face, his eyes were all disillusioned, this time he had completely offended Qiao Gakai, if he had known that Ji Shaolei was so disrespectful to Qiao Gakai, and Ji Feng was so tough, how could he not be so up to bend to Qiao Gakai ah.

Now, the Qiao family has not been able to get on board, but instead has completely offended the other side to death.

Li Weidong could even imagine that when Qiao Gakai left this place, the first person he would deal with would probably be him, Li Weidong!

You know, Ji Shaolei and Ji Feng’s identities were there, Qiao Gakai couldn’t possibly not have scruples, but he, Li Weidong, didn’t have much of a background, ah, I’m afraid even his father, wouldn’t be put in the eyes of the Qiao family!

“D, how come I didn’t inquire about this in advance!” Li Weidong regretted in his heart, if he had known that the Qiao family had fallen and was no match for the Ji family, he wouldn’t have done this, let alone fought with Ji Shaolei, wasn’t that seeking death?

But he also knew that even if he went poking around, he probably wouldn’t be able to find out anything.

Some things at the top are simply not something that people below can pry into.

Ignoring Li Weidong's bitter face, Ji Shaolei raised his hand at Ji Feng, and in his hand, he was holding a storage disk, apparently having gotten his hands on the surveillance information just now.

"Chief Duan, someone here is trying to kill me, you, the witness, aren't you going to call the police?" Ji Feng turned back to Duan Peng and smiled.

Duan Peng immediately reacted and hurriedly took out his mobile phone, about to call the police.

"Hoo!"

A silhouette flashed violently, Duan Peng was startled, and the next moment, he saw one of Zhu Yongtao's senior brothers standing in front of him, staring at him fiercely, "Put the phone down!"

"Oh" Ji Feng laughed mockingly, "What a great authority, attempted murder, yet you still don't allow others to call the police, it seems that you are all his accomplices!"

Saying that, Ji Feng took out his mobile phone from his pocket, "In that case, it's better for me, the victim, to call the police myself!"

"Your Excellency!"

Zhu Yongtao's face instantly sank as he said coldly, "It's better not to go too far as a human being, otherwise, the consequences are not something you can bear!"

Chapter 206

Ji Feng really wants to split open these people's heads to see how their heads actually grow, where did their superiority complex come from?

They have come to this point, but they are still so arrogant as to openly threaten themselves. Are these people blind, unable to see the situation at all?

Or maybe they had something to fall back on?

Ji Feng grinned: "I'm just defending my rights, someone wants to kill me, can't I call the police?"

With his mouth full, the movements of his hands did not stop, his fingers had already started to touch the keys on the phone.

"Kid, don't look for death!" A man said coldly, the man had already started to slowly approach Ji Feng.

Ji Feng frowned, this person was obviously carrying a heavy killing machine, he couldn't help but be aghast in his heart, how dare these four people carry a killing machine on this occasion, they clearly wanted to kill themselves, what a big nerve!

He laughed coldly and was not moved at all.

Duh! Duh!

Ji Feng pressed two buttons and was just about to press a third when Zhu Yongtao finally spoke again, "Your Excellency, wait, perhaps there is something that your Excellency should be interested in."

He took out a small hard leather book from his pocket, about half the size of his palm, and handed it to Ji Feng with an arrogant expression on his face, "I think that after reading this, your Excellency should figure out exactly what to do!"

Seeing this book, Duan Peng and Ji Shaolei's faces instantly changed.

And Qiao Gakai, whose shoulders had been broken, finally had a smug smile appear on his pale face, but his heart was filled with bitter hatred.

The expressions of Ji Shaolei and Duan Peng and the others fell on Ji Feng's eyes without reservation, and he couldn't help but be slightly stunned, was this book that powerful? It could make even the second brother a little uncomfortable?

Ji Feng's gaze swept over that book without a trace, his face did not change, but his heart was violently stunned, with his eyesight, of course, he could clearly see that there was a line written on the top of that small book: the Chinese Security Bureau!

The State Security Bureau?

Ji Feng thought to himself, no wonder he dared to be so arrogant, so he was a man outside the law!

Although Ji Feng sued Qiao Gakai for trying to murder himself, from the prima facie evidence, this was indeed the case, the verbal insult to Ji Shaolei, the persecution of Duan Peng, and to the later stimulation of his own three words, he was able to make him openly kill himself, and it was also recorded by the surveillance equipment!

In this respect, Qiao Gakai did want to kill, and would have judged it as such, no matter what police station he went to.

But the truth is that everyone knows what happened, but knowing is not the basis for a verdict. The law is based on evidence, especially when the identity and status of the two parties involved do not allow anyone to falsify.

In these circles, parents do not usually intervene in fights between children, but if their own children are seriously injured, or if a family does not want to stop, then the law becomes the solution to these matters. You know, to deal with the other side through the family power, that is too involved, moreover, the power of the family is not something that one particular person can say.

This was the idea that Ji Feng was playing with. Although the Qiao family had fallen, but exactly how far it had fallen, Ji Feng did not know, because he had never been to Yanjing and had only heard a few words from his younger uncle at the time.

Moreover, the elder of the Ji family is still defending the Qiao family, in this case, today so did not get the evidence, I am afraid that out of the venue, the Qiao family will immediately turn black and white, and even themselves by the family to give a reprimand is possible.

In this situation, Ji Feng naturally wants to get the evidence first, as long as the evidence is in hand, even if the Qiao family how to jump, no matter how the old man defends the Qiao family, can not say anything.

If the old man sees the evidence right in front of him and still prefers to reprimand his own grandson to defend the Qiao family, humph, then this kind of family, Ji Feng would really have to think about it, whether or not he wants to acknowledge his ancestors!

However, those that Ji Feng was considering did not include the people of State Security!

He had always been puzzled, whether it was Qiao Gakai or Zhu Yongtao's four people, it was clear that he had gotten the evidence, but they still dared to be so arrogant and behave in an odd manner, what was the reason for this?

Only now did he realize that Zhu Yongtao was a class of people that the law could hardly control!

Four eccentric national security officers wanted to threaten themselves? Ji Feng's face emerged with an odd smile, if he had accidentally beaten up the State Security officers who threatened him without 'knowing', and one beat up four This spread out, the face of State Security wouldn't look good, right?

Seeing Ji Feng hesitate and an odd thought appearing on his face, Zhu Yongtao's four people immediately thought he didn't dare to look at this book, or that he recognized the origin of this book, and their hearts were instantly at ease.

One of them said, "Kid, this is the end of the matter today, we can leave you alone, let's go!"

Ji Feng couldn't help but shake his head and said, "Are you stupid or am I stupid? You just get a small book and you dare to threaten me, are you out of your mind?"

Duh!

Ji Feng pressed the last key.

"Bastard!" One of Zhu Yongtao's junior brothers roared in anger, they then realized that they and the others had been teased by Ji Feng, this person immediately pounced on them.

A sharp aura flashed in Ji Feng's eyes, he was waiting for this moment.

Seeing that man pouncing, and with a strong killing intent, Ji Feng suddenly had a killing intent in his heart, so what if he was a man outside the law, so what if he had more people? The first time I saw the man, I was so happy.

This was the first time that Ji Feng had used his full power to activate the bio-current, because these four men were all experts, and he did not dare to be careless.

The first one had already reached Ji Feng's body, his fist, directly blasted at Ji Feng's throat, killing move!

In this instant, everyone's face changed greatly, especially Ji Shaolei, seeing that San'er was in danger, it was already too late for him to rescue him, his whole person seemed to be struck by lightning and froze in place, his face pale as he watched the man punching at Ji Feng.

Everyone almost couldn't bear to look at it anymore, this man was just too formidable, although Ji Feng was also considered fit, but compared to this man, he seemed somewhat inadequate.

However, the next moment, everyone's eyes widened and they looked at Ji Feng with disbelief, the whole person was in shock.

At the very moment when the man's fist struck, Ji Feng was still smiling as he slightly turned his body sideways, coincidentally and skillfully avoiding the punch.

Immediately afterwards, Ji Feng's leg lifted up, his movements seemed to be so slow that every person was able to see clearly, from lifting his leg, to his knee attacking outwards, every movement and every rhythm, could be seen clearly.

Yet, the man was unable to dodge.

Bang!

With a muffled sound, Ji Feng's knee, ruthlessly struck the man's chest.

Whew! The man instantly bent over and flew backwards, just like a shrimp being caught and flung away!

Clang!

The man who flew backwards landed with a crash, smashing a table, and the whole man twitched on the ground a few times before he didn't move anymore, not knowing whether he was dead or alive!

Snap!

Ji Feng's leg was bent and raised, and his hand beat on his knee as if trying to knock the dust off it, "Trying to murder me again? Luckily I'm not bad, otherwise, I could really let a few of you thugs get away with it today, D, soiling my clothes for no reason, several tens of dollars a piece!"

Boom!

These words were like a spark that ignited a powder keg, instantly sending Zhu Yongtao's trio into a rage.

Having defeated their senior brother so easily, and having said such insulting words, even the best cultivated people had to be furious.

"Go!" Zhu Yongtao didn't say anything, a word burst out coldly between his teeth, and he had already pounced on him first.

Ji Feng harrumphed: "If you want to be a murderer, you must first know how to kill, tsk, look at your limp hands, can you hit on your body to hurt others?"

Hearing Ji Feng's words, several people became even more furious and attacked at the same time, striking without mercy. All three of them were fierce in their hearts, they must tear this bastard alive today, even if they were punished by the division after they returned!

A cold aura flashed in Ji Feng's eyes, this scene, was exactly what he wanted, it was good to be angry, only when one was angry, one would have a reason to strike, so let's be angry!

“Go to hell!” A man already the leg swept in violently.

Whew!

Ji Feng did not dodge, the whole person unexpectedly jerked forward two steps, rushed right into the man’s arms, and smashed a fist fiercely on the man’s thigh.

“Ka-chow!” A sound, the thigh broke.

Ji Feng, however, didn’t stop, his speed wasn’t fast, but with every move he made, no one was able to block it, because the angle of his punch was always where the other person couldn’t defend.

Bang!

Both ribs and both thigh bones were all broken, and then the first one was thrown away.

“I’ll kill you!” Zhu Yongtao’s duo looked yawning and roared as they rushed forward.

“I was afraid that you wouldn’t come!” Ji Feng harrumphed as his speed suddenly skyrocketed.

Before Zhu Yongtao and the man could react, Ji Feng had already reached them.

Snap!

Before one man could react, he only felt a blackness before his eyes and his nose was broken, followed by a sharp pain in his jaw, before the vertigo nerve took effect, he only felt that his jaw was completely shattered, his teeth and blood filled his entire mouth, and he instantly fainted to death.

Only Zhu Yongtao was left alone.

Ji Feng’s hands were like the wind, Zhu Yongtao was unable to defend against his attacks.

Slap, slap, slap!

If the intelligent brain had seen Ji Feng’s movements, it would have recognised at first sight that this was the longest move in the training system, the twelve consecutive strikes!

Bang!

When Ji Feng’s final kick was delivered, Zhu Yongtao also turned into a bloody man and was kicked out.

There was a dead silence in the entire hall!

Chapter 207

In the hall, everyone stared at Ji Feng in disbelief.

The powerful performance of that Ji Feng just now was unbelievable to everyone, especially the kind of ruthlessness of his methods, which made people’s hearts appalled.

The moment he struck, it was such a harsh killing move!

Although there were few people present who knew fighting kung fu, it did not mean that their eyesight was poor, especially as Ji Feng’s performance was simply too shocking and impactful.

Every move he made, everyone present could see it clearly, from the strike, to the end, all of them fell into the eyes of the crowd with unparalleled clarity, yet, it happened that Zhu Yongtao and the others just couldn't dodge it, they didn't even have the ability to block it, let alone fight back.

What kind of kung fu is this?

Everyone stared blankly at Ji Feng, thinking in their hearts that if those attacks just now had hit their own bodies everyone couldn't help but shiver.

In modern society, martial arts have long since gradually degenerated, and even, the ancient martial arts of China have turned into 'dance arts' with the corruption of more and more indiscriminate experts and so-called masters, coupled with the decay of martial arts style.

Thus in the eyes of the masses, no matter how good a martial artist is, he cannot forbid a bullet, or even a random pocket knife, to finish off a so-called martial arts expert without any surprise.

Moreover, those legendary kung fu techniques in which one fights several have long since really become legends, and the crowd has gradually stopped believing in them. Especially those so-called martial arts programmes on television, where two masters battled each other and the result was just a punch from you and a kick from me, fighting without any power.

However, when this amazing and incomparable figure of Ji Feng appeared in everyone's sight, everyone was then horrified and shocked to realise that real kung fu was so terrifying!

So what if you have a gun, so what if you have a sword?

In front of Ji Feng, you wouldn't even have time to fire your gun, you would be killed in an instant, so what was the use of hot weapons?

Real kung fu is just too shocking!

Duan Peng and Ji Shaolei were equally dumbfounded as they looked at the standing Ji Feng, unable to react for a long time.

"Shao, Shao, Shao Lei, your family's Lao San is really too terrifying, right?" Duan Peng stammered and asked, the pleasure brought by Qiao Gakai and the others being ruthlessly beaten up was instead washed away quite a bit, now his mind was all stuffed with Ji Feng's terrifying stance.

Ji Shaolei subconsciously nodded and said, "Yes, it's a bit terrifying, little uncle just said that his body is not bad, who knows"

At that time when Ji Zhenping called him, he just said that if Qiao Gakai wanted to provoke, he would take Ji Feng with him, 'he's not bad, he can handle that kid from the Qiao family' these were Ji Zhenping's original words. How could Ji Shaolei not have thought that the 'not bad' that his younger uncle spoke of was actually so terrifying?

Not only them, but also the equally shocked and horrified Qiao Gakai, whose bones in both shoulders had been shattered and who was limp in his chair. Seeing Ji Feng's terrifying hands, Qiao Gakai's teeth fought straight and his heart was overwhelmed with fear. His greatest reliance was on the four Zhu Yongtaos and their division, which was why he dared to confront the Ji family and did not put Ji Shaolei in his eyes.

But now, Zhu Yongtao's four men, who were incredibly powerful in his eyes, were easily defeated by this Ji Shaoyun, and they were completely defeated, without even the ability to fight back, which really made him feel desperate.

Until now, Qiao Gakai still didn't know that this youth who made him feel afraid was not actually Ji Shaoyun, but the eldest grandson of the Ji family, Ji Feng!

Ji Feng, however, ignored the expressions of the others' gazes and the thoughts in their hearts as he directly dialled the police.

On the phone, Ji Feng only said that there were thugs who wanted to kill him, but fortunately, he dodged them and knocked them all out.

Speaking of which, Ji Feng handed the phone to Li Weidong again, "Mr. Li, you are the owner of this clubhouse, I, a guest, was attacked here, what are you going to do?"

What else can I do?!

Li Weidong cried, painfully thinking, now it has come to this point, the Qiao family is considered to have been completely offended to death, if it offends the Ji family again moreover, Ji Feng now handed him the phone, is to ask him to make a choice, and still make a choice now.

Gritting his teeth, Li Weidong took the phone and shouted, "Listen, this is Li Weidong of Linjiang Club, now I have thugs committing murder here, although they have been restrained by us, but we don't know if there are any more of their accomplices here, please send the police immediately!"

Clatter!

The sound of tables and chairs falling to the ground came over the phone, the operator was nervous when he heard it was Li Weidong of Linjiang Club, as police officers in Jiangzhou, they naturally knew what Linjiang Club was, it was a club owned by the mayor's son, even his own chief might not be able to get in if he wanted to spend money there, how could the operator not be nervous?

"Mr. Li, try to take cover, we'll rush there as fast as we can!" After hanging up the phone, the operator immediately panicked and ran straight to the captain's office and reported the situation in a panic.

Boy!

The mayor's grandson was attacked by thugs, how could this be? If the second son of Jiangzhou was attacked under his rule, then he wouldn't have to be the head of the CID anymore.

In the meantime, the Interpol team quickly mobilised and ordered all the police patrols in the vicinity of the Linjiang Club to rush to the Linjiang Club and make sure to protect Mr. Li.

Linjiang Clubhouse, first floor lobby.

Li Weidong hung up the phone, still not satisfied that his performance was not enough, he bellowed, "Security, come immediately, control these few thugs, protect the guests at the scene, must not let them be hurt!"

Li Weidong's sudden change of heart left everyone present dumbfounded. Everyone in the room knew that today was a banquet held to welcome Qiao Gakai, and it was because Li Weidong had climbed up the Qiao family tree that all the guests present looked up to him, and even Ji Shaolei had come to the banquet.

But now, in the blink of an eye, Qiao Gakai has been called a thug? And from the looks of it, there was a good chance that he would become a murder suspect!

This was too much of a change, it was just a bit too upside down!

The longer he delayed, the more intense the pain became, which was unbearable.

However, he could not stand up even if he wanted to, not to mention that several wolf-like security guards had already arrived at his side, and were on guard as if they were enemies.

Qiao Gakai's heart was ashen, his face pale, he could not understand, Ji Shaolei's brother how to have such a strong body? His own four senior brothers, not only were they true ancient martial arts heirs, but also, they came from that place, how could they be beaten in front of Ji Feng without even using one face to face?

The four Zhu Yongtaos, who fell to the ground not knowing whether they were dead or alive, certainly couldn't understand either. They confidently followed Qiao Gakai to Jiangzhou, originally to prevent Ji Shaolei from finding helpers, otherwise, if it was just to deal with Ji Shaolei, Qiao Gakai alone would have been enough, three years ago Ji Shaolei was not Qiao Gakai's opponent and had a few ribs broken, now he would be even less of a match for Qiao Gakai.

The reason is that in the past three years, Qiao Gakai has only spent one year in the army, and the other two years, he has been studying ancient martial arts under his master, and his strength has improved by leaps and bounds.

Zhu Yongtao, on the other hand, had stayed in the division since he was a child, and after more than twenty years of training, he was still defeated by Ji Feng in a single glance!

This kind of result made Zhu Yongtao unable to accept any more.

In fact, shortly after Zhu Yongtao fell unconscious, he was woken up by Li Weidong's loud voice, but he did not get up, but continued to pretend to be unconscious.

What was the point of getting up? It would only add to the laughing stock.

Moreover, the young man might not be able to forgive them, and when he saw them get up, he would probably beat them up again, which would not only be more humiliating, but would also aggravate their injuries.

The young man's body was in the best condition before, but he was also beaten by Ji Feng in just three punches and two kicks.

Zhu Yongtao wisely chose to pretend to be unconscious, so the focus of the scene, everyone's mocking and other complex gazes, were all focused on the still conscious Qiao Gakai. Every single one of those stares made Qiao Gakai feel full of irony, and his face was incomparably ugly, but he didn't dare to lash out, so he could only endure it.

If there was a crack in the ground, Qiao Gakai would have already dug in!

The four of them had already come back to their senses, but they had a wildly happy look on their faces.

Zhu Yongtao's four men were already powerful enough, especially Zhu Yongtao, whose speed was simply terrifying.

But in front of Ji Feng, these four men were like children, Ji Feng just greeted them all with one move.

This kind of skill

The first time I saw him, I could not help but let out a long breath in my heart, I just felt so relieved. Thinking about the injuries he sustained three years ago when he was beaten by Qiao Gakai and hospitalized, and then looking at the two arms hanging down, sitting limply on a chair, his face pale and ghostly.

Ji Shaolei really wanted to shout, "What a **** relief!"

Chapter 208

Hearing that it was the Linjiang Club that was in trouble and that one of the parties involved turned out to be Li Weidong, the police arrived at the scene with unprecedented speed, despite the fact that the Linjiang Club was located in the suburbs, it had not even been ten minutes since the police were called.

"Mr. Li, Mr. Li!" As soon as the policeman in the lead entered the clubhouse, he shouted, "Mr. Li please don't be nervous, we're here to save you!"

The whole hall was already very quiet, everyone was still in shock from earlier, being shouted by this policeman with such a loud voice, immediately everyone came back to their senses, and buzzing chatter suddenly rang out.

The police officer was really able to get it right, did he think Li Weidong was being held hostage or something?

When Ji Feng and the others laughed at him, Li Weidong couldn't help but blush. He cursed in his heart, "Which bastard is this?"

When all the policemen poured into the lobby on the first floor, the policeman at the head was still shouting, "Mr. Li, is Mr. Li there?!"

"What are you shouting for! Calling for the soul!" Li Weidong said in no good humour, "I'm here!"

The policeman was stunned, and only then did he look clearly at the situation in the hall, the other guests were all joking and laughing, these people had all seen big scenes, this small scene would naturally have no effect on them, if I had to say anything, it would only mean that the identities of the people who had been beaten up were just too extraordinary.

People from the Qiao family!

But anyone who is well-informed has heard of this family, this is a powerful family in China, and it is said that Qiao Gakai is also the first grandson of the Qiao family, the leader of the third generation, but here he was beaten like a dead dog, and the one who did it was Ji Shaolei, the number one son of Jiangzhou!

“Comrade police, these few people came to the banquet and ended up impersonating others, committing murder at the banquet site with the intention of murdering others, only to be restrained!” Li Weidong glared fiercely at the policeman, if this guy didn’t have eyesight anymore, Li Weidong was really going to be furious.

Are you kidding, the person to be arrested now was someone from the Qiao family!

If there is a carelessly handled badly, it may cause a larger shock, and, before the news is spread out, the charges must be sat on, at the very least, the evidence, the questioning process, as well as some of the most basic things, must be in hand, which requires the police’s reaction and handling strength.

In Li Weidong’s opinion, this policeman seemed a bit unreliable, even if he wanted to kiss ass again, who would shout all the way over with such a big grin?

To Li Weidong’s surprise, although the policeman at the head of the group was a bit over the top in ass-kissing, he was very sharp in dealing with this matter, and he waved his hand, “Arrest him!”

The policemen behind him immediately arrested Qiao Gakai, Zhu Yongtao and the others, during which one of the policemen hit a bit hard and slapped Qiao Gakai on the shoulder: “Stand up!”

“Ah...!” Qiao Gakai shouted miserably, his whole body was shaking in pain, the veins on his forehead were rising high, if it wasn’t for the excruciating pain all over his body, he could almost jump up at once.

Only then did the policeman realise that both of Qiao Gakai’s arms were unable to exert any strength and seemed to be broken.

“Hiss...!” Several policemen couldn’t help but suck in a breath of cold air, and the situation of Zhu Yongtao’s four men made people’s eyes pop. One of these four men had his thighs broken and the bones were raw and bumped out, so white that it made people’s hearts shiver, while the other, had a piece of his chest dented and a piece of his ribs collapsed, apparently the bones were likewise broken.

A third, on the other hand, had two arms broken, and a fourth was fortunate that the fourth did not seem too badly injured. A policeman, relieved, reached out to pull up the less seriously injured man. But just as he touched his hand, he realised that the man’s hand was surprisingly limp Well, this one’s hand was broken too!

A total of five people, none of them without injuries, and all of them were not lightly injured.

And what really makes these police officers suck in a breath of cold air is that the four people lying on the ground, respectively, two two opposite lying, if you connect the two opposite people in the middle of the line, the intersection of the two connecting lines, is the centre of the four people.

What this means was absolutely clear in the minds of the police officers present, and judging from the situation at the scene, it meant that these four people were knocked off their feet at that central point, separately! Moreover, these four people must have struck at the same time, but were broken by someone at the same time.

It's not easy to break four people's attacks at the same time even if they were just four ordinary people, but from the looks of the scene, it looks like it was one person who did it!

What kind of stature is this?!

A few police officers couldn't help but swallow their saliva, jokingly, this kind of skill, even their captain, certainly can't do it, right?

It was too late to think about it, the leader was already urging, several policemen were carefully lifting Zhu Yongtao and the others up, while calling the emergency number, people died in the hospital all right, but not in their police station, it would be unclear then.

"Shao Lei brother, send these people to the hospital is this appropriate?" Li Weidong hesitantly asked, since he had already resolved to defect to the Ji family, then he naturally had to bring Qiao Gakai down completely, otherwise, once the other side had slowed down, it would be himself who would die then.

Therefore, Li Weidong still thinks that if we take these guys to the police station first, get the evidence and statements and so on, and then send them to the hospital, we will not be afraid that Qiao Gakai will play any more tricks. Because as long as there's evidence in hand, it's like being invincible!

Ji Shaolei, however, smiled slightly and waved his hand, saying, "It's alright, they can't afford to make any waves."

Li Weidong nodded and echoed a smile, and stopped talking, knowing that today's matter was definitely not small, and that he had to report to his father at the first opportunity, otherwise, he might be passive by then.

Even now, Li Weidong's heart is still scared, the Qiao family, that is not something they can afford to mess with, but under Ji Feng's clever coercion, he had no choice but to stand against Qiao Gakai, and now when he thinks back, Li Weidong is suddenly horrified.

But since he had done it, he had to do it to the end, otherwise, he would have offended both the Qiao family and Ji Shaolei, and when the two sides came together against him, he wouldn't even be able to find a grave to cry on.

While the police were carrying away Zhu Yongtao and Qiao Gakai's five men, Li Weidong sneaked to the side and called his old man at home at a very fast pace to tell him what had happened.

"Pig brain! Realising that something is wrong, why don't you hurry up and correct it?!" Just as the words were finished, the phone was hung up.

Li Weidong looked at the phone dumbfounded, not responding for a long time: "Wasn't it you who told me to have more contact with Qiao Gakai? Why are you scolding me now?"

Li Weidong understood that the wind had changed, and that the old man meant to get himself on Ji Shaolei's side!

Having understood this, Li Weidong couldn't help but feel a little smug, he had been on their side for a long time!

He had even forgotten that he had actually been forced to this point by Ji Feng. Of course, even if he hadn't forgotten, he would have deliberately chosen to ignore this fact.

"Mr. Li, I don't know which of the parties involved need to come back with us to take a statement." The captain at the head of the group came in front of Li Weidong with a smile on his face.

Li Weidong's gaze looked at Ji Feng and Ji Shaolei, especially when he saw Ji Feng, Li Weidong couldn't help but twitch a little in his heart, his ruthless body was really too impressive to Li Weidong.

"Fortunately, I didn't offend him to death last time, otherwise" remembering what happened at the last birthday party, Li Weidong subconsciously touched his ribs and thighs, and then thinking about the few people who were carried away by Qiao Gakai, he couldn't help but shiver, if that kind of injury was placed on himself, would he still be able to live?

"Brother Shao Lei, you see" Li Weidong asked hesitantly, the parties, that is not Ji Shao Lei three?

Ji Shaolei, however, smiled and nodded, saying, "This is as it should be, comrade police officer, let's go."

The policeman at the head of the party was also relieved, after all, he also knew very well that those who could come here for the banquet were at least rich or noble, and the methods used to deal with other people could definitely not be used on these people.

"A few people please!"

Ji Shaolei nodded with a subdued face and turned his head to ask, "San'er, why don't you come along too."

Ji Feng laughed, "I'm not going, these you or you fight, huh? Let's go, it's not the first time you've been in a police station anyway."

"You kid" Ji Shaolei was dumbfounded and laughed.

Ji Shaolei, Ji Feng and Duan Peng walked out together, Duan Peng also went to the police station as a party, after all, Qiao Gakai plotted his property, the two had long been at loggerheads, there was no need to leave any face for the other party.

Li Weidong, however, hesitated, according to reason, this is considered his report to the police, and, today's banquet is also arranged by him, he is naturally also considered one of the parties, but if now go to

He clenched his teeth and said aloud, "Wait a minute, comrade police, I am also one of the parties involved, allow me to give an account of this side, and this will go with you!"

"Hmm? How did he become so sensible today?" Ji Feng asked in surprise, in his impression, Li Weidong didn't seem so wise, right?

"What's so strange about that, he must have asked his old man for advice!" Ji Shaolei smiled faintly while giving Ji Feng a thumbs up, "Third son, good job, I really want to thank you properly, second brother!"

Ji Feng smiled faintly and said, "Thank me for what? I was just defending myself."

Ji Shaolei laughed, but in his heart, he was feeling, "Third son is only twenty years old, but his shrewdness is no less than anyone else's. Eldest uncle has really given birth to a good son!"

Chapter 209

In fact, originally, for the sudden appearance of Ji Feng, Ji Shaolei's feeling was not as natural as it is now.

Although Ji Shaolei had never looked down on Ji Feng, but to put it bluntly, the Ji family was after all a high family, while Ji Feng had been living in the countryside since he was a child, following his elder aunt, although he later moved to a small county, but that didn't make any difference.

It is true that people from small places are simple-minded, loyal and kind, these are the advantages that no one can deny, and they are the advantages that people in big cities do not have.

But there is one thing that Ji Shaolei cares a lot about.

In this modern metropolis of light, materialism, simplicity and kindness, not only is not an advantage, but will be a liability, no one is any more simple, and absolutely no one will show kindness, people with this quality, may get the respect of others, but will never live happily, especially in the metropolis, it is more so.

Thick skin, black heart, this is the law of survival in the big city.

At least, in Ji Shaolei's opinion, it was like that.

But no one could guarantee that Ji Feng would quickly adapt to life in a big city, let alone that he would adapt to the kind of rivalry between people in a big city. The kind of simple and kind nature that he brought from the countryside had become a hindrance to him.

What's more, as the Ji family is a powerful family in China, and one of the top few, Ji Feng will be the eldest grandson of the Ji family after he acknowledges his ancestors, a fact that no one can change.

Then, if the Ji family is given to Ji Feng to control in the future

Ji Shaolei did not even dare to imagine how far the Ji family would go if it was really left to Ji Feng. Although Ji Shaolei was usually an asshole and perhaps did things that even a dude would do, he was not stupid and still hoped that the Ji family would grow better and better.

In addition, Ji Feng's mother, Ji Shaolei's eldest aunt, will become the head mother of the Ji family if she returns to the family, and her status is definitely not comparable to that of an ordinary woman. And it is likely that she will be as simple and kind as Ji Feng, a person of goodwill.

But such a person would obviously be at a disadvantage if she were to be the head mother of the Ji family!

Not to mention anything else, just those so-called luxury noblewomen in Yanjing alone, as well as those celebrity daughters and luxury wives, none of them are simple, which one of them does not have more eyes in their hearts than a honeycomb coal?

If you don't keep a high level of vigilance when talking to them, not to mention normal interactions, I'm afraid that you will even be able to find out what kind of crap your ancestors have done.

If Ji Feng's mother were to accidentally reveal any confidential events of the Ji family when she was interacting with other ladies, the impact on the Ji family at that time would not be ordinary!

Therefore, from the bottom of his heart, Ji Shaolei did not welcome Ji Feng's return. Even after he found out the news, his first reaction was to give a large sum of money to Ji Feng's mother and son and give them the most privileged life, but not to let them return to the Ji family.

He believed that this thought was not only his own, he believed that many people in the Ji family, including even those who followed the Ji family, had this thought. It was just that with Eldest Uncle Ji Zhenhua around, no one dared to say anything. But deep down, it was obvious that they did not quite agree with Ji Feng's mother and son.

This has nothing to do with looking up to or looking down on, but simply considering things from the perspective of the long-term development of the Ji family!

In fact, no one had ever looked down on Ji Feng's mother and son, because the blood of the current head of the Ji family flowed in Ji Feng's body, and if one looked down on Ji Feng, it was the same as looking down on oneself.

However, as Ji Feng came to Jiangzhou, his first meeting with Ji Shaolei left him stunned.

A man who had never participated in stone gambling before had made over forty million dollars on his first bet! This was simply more profitable than robbing a bank!

Ji Shaolei didn't believe in luck, although there were lucky people in this world, it was definitely not Ji Feng's turn, otherwise, he wouldn't have followed his mother and suffered in the countryside for so many years.

This also meant that it was very likely that Ji Feng had earned this 40 million or so by virtue of his ability.

This first meeting, Ji Feng's appearance was quite remarkable, and even gave Ji Shaolei an embarrassment, who let him be a bully at that time?

Immediately afterwards, Ji Feng was able to spot the fake miracle doctor's scam at a glance, and made his father's back, which had been incurable for years, suffer considerably less.

If these were just a few of Ji Feng's skills, then Ji Feng's performance today could be described as completely amazing.

From the moment he entered the Linjiang Club, Ji Feng took every step in the right direction, and every step he took was reasonable, while forcing Qiao Gakai to the point where he eventually had to violently injure someone.

Then, it was Ji Feng's terrifying physical skills that shook the whole room and left Ji Shaolei in awe.

Later, it was Ji Feng's series of tactics from calling the police to forcing Li Weidong to do so. Even Ji Shaolei, who was used to seeing all kinds of tactics, was a bit dazzled and could not keep up with the pace.

Now when you think about it quietly, that is simply astonishing ah.

“Third child, second brother is convinced!”

Driving, following the police car leading the way, Ji Shaolei put up a thumbs up with one hand and couldn't help but sigh, “Clinging to the word law, Qiao Gakai also let you fix him without temper.”

He had suffered great losses from Qiao Gakai, so he naturally knew how difficult this guy, who was two years younger than him, was to deal with, especially since the old man still defended the Qiao family, which made Qiao Gakai even more unscrupulous.

But when he met Ji Feng, Qiao Gakai couldn't jump up and down, even with the Ji family's old man defending him, he was also beaten up badly.

This is exactly where Ji Feng is smart, and Ji Shaolei sincerely felt admiration.

Knowing that his own senior was defending the other side, but Ji Feng pretended not to know, it was not like the senior had told him himself anyway, just because of this little loophole, Ji Feng managed to anger Qiao Gakai and forced him to make a move.

Once Qiao Gakai made his move, he completely fell into Ji Feng's trap, and even if he wanted to struggle, he could no longer get out of it.

Because Ji Feng had seized the most important point – follow the law!

In the circle, if this kind of thing happened at any other party, everyone would definitely look at whose fist was hard or whose financial power was strong yes, but Ji Feng, because he hadn't been in this circle, simply didn't follow the usual rules, just one sentence, you made a move against me and it was a killing move, obviously you want to murder me!

We are all gentry, but I am not going to fight with you in terms of wealth and power, if you want to kill me, I will defend myself justifiably, and it is your bad luck to be disabled, no one can say anything.

I will still call the police and leave it to them to deal with any matters. Even if this kind of thing goes to the families of both sides, no one can say anything.

If one side was a powerful family and the other was an ordinary citizen, perhaps there would be people who would dare not put the law in their eyes, but both sides are big families, so they are standing in front of the same line and no one can cross it.

The bones in both shoulders were shattered, and according to Ji Shaolei's judgment, I'm afraid that even if they were cured later, they would definitely leave after-effects, or at least, these hands would be considered ruined.

The fact that Li Weidong was pulled down with a few simple words later on, how could such tactics be played by ordinary people?

Duan Peng also couldn't help but nod beside him and sighed: “Older brother is not only brilliant in his tactics, but this hand is also really terrifying! Even if ordinary people have this tactic of old brother, if they don't have an overpowering body, they will definitely not be able to achieve this kind of effect now!”

Ji Feng shook his head and smiled: "What you guys said is serious, Qiao Gakai originally made a killing move, I was just defending myself, that's all. I believe Li Weidong will testify to that."

Ji Shaolei and Duan Peng couldn't help but laugh dumbly, Li Weidong testified, that was really hard for him. To come out and testify would mean completely offending the Qiao family, and what he would have to face in the future would be the Qiao family's revenge.

"Third child, second brother really needs to thank you, if it wasn't for you, second brother wouldn't know when this breath would have come out!" Ji Shaolei let out a long sigh, the stifled anger from three years ago, until now, was finally completely out of breath.

Duan Peng also said solemnly, "Old brother, nothing else, I Duan Peng remember, in the future, as long as you say something, I Duan Peng absolutely do as you say, no second thoughts!"

One of the two had suffered a great loss under Qiao Gakai, and the other had been forced to go nowhere by Qiao Gakai, now seeing Qiao Gakai in this state, how could they not be happy?

Ji Feng waved his hand and laughed lightly, "My own brothers, it would be out of place to say this, Brother Duan, you are my second brother's hairdresser, so naturally you are also my friend, so don't say such out of place words in the future."

Ji Shaolei's heart was suddenly filled with emotion, where was San'er's lack of tact, his tactics should not be too powerful!

If Third Child took control of the Ji family in the future, this would definitely be a blessing for the Ji family!

Ji Shaolei also thought of those cousins and aunts in the family, cousins and aunts, they must not look down on San'er's mother and son, otherwise, really angered San'er Ji Shaolei secretly decided that they must remind those people, otherwise, the consequences are not something they can bear.

As the three of them talked, they had soon arrived at the nearest police station.

The police are naturally very efficient because of Ji Shaolei's identity, and in just half an hour, the statements had all been taken.

Afterwards, Ji Feng made a copy of the evidence he had in his hands at the police station, while the original remained in Ji Feng's hands, which was the most important evidence, and could determine a person's life and death when the right could not be greater than the law!

Afterwards, the police just informed the three people that they were waiting to be notified at any time, after all, Qiao Gakai and the others were still in the hospital now, and it would take some time before they could really enter the interrogation process.

Chapter 210

In a hospital in Jiangzhou, Qiao Gakai and Zhu Yongtao were divided into two wards, with Qiao Gakai and Zhu Yongtao in one ward and Zhu Yongtao's two junior brothers in the other.

Qiao Gakai was lying on the bed, his two shoulders up to his wrists, all in plaster, slightly open and afraid to move, his thighs were also suspended by bandages, his whole posture was weird and awkward.

Zhu Yongtao was better off, as only his ribs and chest bones were broken, so he only needed to hold his upper body in place, but he couldn't do it because it would affect the healing of the bones, so his posture was even more uncomfortable.

Moreover, because his sternum and ribs were broken, Zhu Yongtao did not even dare to breathe hard, he could only breathe in gently and exhale slowly, and when he exerted himself a little, he could not help but bare his teeth and grin in pain, but on the contrary, as soon as he moved a little, it hurt even more, and when it hurt, he wanted to move

This kind of torture makes the two of them not even dare to scream, but they can't help but feel the pain!

If possible, the two really do not want to stay here for even a second longer, this painful feeling, people who have not experienced it simply can not understand.

The corners of Qiao Gakai's mouth were crooked, and from time to time he couldn't help but suck in a breath of cold air, but the look in his eyes was incomparably resentful: "****, that bastard Ji Shaoyun, if I don't get him killed, I'll take his surname!"

Zhu Yongtao, whose eyebrows were also filled with pain, snorted softly, "How are you going to kill him?"

Although it was an angry tone, because of the intense pain, he could only speak in a soft whisper, not daring to be the slightest bit angry again, once he broke the bones that had been hard to put back together, only then would he have something to cry about!

Qiao Gakai choked for a moment, yes, how to get that boy to death?

In terms of kung fu, the five of them combined were no match for that kid, they couldn't even block a single move from him, and in terms of family background, there was no way to compare. Qiao Gakai believed that if he really used his family's power to deal with the Ji Shaolei brothers, when the time came, not to mention whether the Ji family's senior would be angry, just within his own family alone, there would definitely be many people who would disagree.

"How about we spend money to hire an assassin?" Qiao Gakai asked hesitantly.

"See stupid!" Zhu Yongtao let out a stifled cry, if he wasn't still wounded, he was afraid that he would have already burst into a rage, "You've only just started a conflict with them, if they were suddenly killed, then anyone would be the first to suspect you."

Qiao Gakai suddenly winced, it was indeed true, beating them a few times, the Ji family's senior might not say anything, but if he really killed them, then even the most good-tempered person would definitely be moved to thunderous anger, the Qiao family might be destroyed in an instant, and he would definitely die without a burial place.

Power, wealth, they are all meant to be passed on to future generations, but if they are extinguished, then what use are they? A person who is in despair is absolutely terrifying, not to mention, this person is the old man of one of the country's greatest families?

Obviously, this solution would not work.

“That little beast, how can he be so powerful!” Qiao Gakai was full of resentment and said through gritted teeth, “Senior brother, do you think it’s possible that that kid is also a heir from somewhere?”

Zhu Yongtao was stunned, and after a moment of contemplation, he slowly shook his head and said, “I can’t say for sure, his speed is just too fast, and it’s impossible to tell exactly what kind of kung fu he’s using. However, I feel that his kung fu seems to be somewhat similar to the style used in the army, so it couldn’t be military fighting techniques, could it?”

“That’s not possible!” Qiao Gakai instantly retorted excitedly, what kind of joke is that? It wasn’t impossible if one could beat oneself with even military fighting techniques. But that kid had easily defeated even Zhu Yongtao’s four men, how could this be something that could be done with military fighting techniques?

“I am just guessing, his kung fu is ruthless and swift, his strikes are as fast as lightning, and it is because he is so fast that he gives people the illusion of being slow.” Zhu Yongtao shook his head slightly and said, “If it’s not military fighting arts, then he must be a heir from somewhere, there’s absolutely no mistake about that. There are absolutely no more of these ancient martial arts that are still known in secular society now, and what that kid is using should be an extremely powerful ancient martial art.”

“Then, what do we do then?” Qiao Gakai asked in a frozen voice.

“What else can we do? We can only wait!” Zhu Yongtao said with hatred, “Wait for someone from the division, and also wait for the result of the matter from above

“Hey!” A hint of anger flashed across Qiao Gakai’s face as he gritted his teeth and said, “After injuring me and my four senior brothers, I won’t let him off so easily!”

Zhu Yongtao opened his mouth, but he wanted to say something but stopped. He shook his head slightly in his heart and sighed softly, “Now, I’m afraid it’s not a matter of whether you’ll let him go or not, but whether he’ll let you go!”

Earlier in the first floor lobby of the Linjiang Club, Zhu Yongtao heard very clearly that that kid did not even see this matter as a fight between gentry, and directly rose to the level of murder, that meaning was already very obvious, using the law to solve the problem.

The kid also has evidence in his hand.

Zhu Yongtao’s eyes rolled and glanced at Qiao Gakai, who had a furious look on his face, hating in his heart, if he didn’t want to use his Qiao family’s influence in the secular world to find what the division needed, how could he have cooperated with such a stupid thing?

Now, I only hoped that the division would know about this sooner, put pressure on the top and send someone over.

.....

“Bang!”

Yanjing, inside a luxurious villa, a middle-aged woman in her forties, viciously slammed the phone on the table, her face, which was already wrinkled, carried a strong look of anger: "Damn it, damn the little beast! Ji Shao Lei, Ji Shao Yun, good, how nice! Ji family, you owe me another debt, I will tangle with you to the end!"

On the sofa opposite her, a middle-aged man with a slightly white face and greasy combed hair was smiling and asking, "Wife, what's the matter that you're so angry again?"

"Wang Wengao, you needn't to be cheeky in front of me, your son has been seriously injured by someone and is now lying in hospital, and it is said that the other party is going to sue him for murder!" The middle-aged woman's face was full of anger, "You're still in the mood for jokes here?"

The middle-aged man named Wang Wengao suddenly turned pale and asked in a panic, "What's going on? Didn't Gakai go to Jiangzhou, how come"

Speaking here, he seemed to have suddenly remembered something and said hesitantly, "The person who beat him up, couldn't it be someone from the Ji family?"

"Apart from their family, who else would dare to be so reckless?" The middle-aged woman's eyes were filled with hatred and she gritted her teeth, "Back then, that old bastard of the Ji family clearly had the ability to save my father, but he chose not to save him, so that my father was killed with hatred, which also led to the decline of our Qiao family. Now, they've even spared my son!"

Looking at the middle-aged woman's agitated and angry expression, Wang Wengao only shook his head slightly: "Xiao Rong, this is not the time to talk about this, let's go to Jiangzhou as soon as possible and see how our son is doing, right? Jiangzhou is not our territory after all, if we don't rush there now, in case something happens then"

It turned out that the middle-aged woman was no other than Qiao Gakai's mother, Qiao Rong. Wang Wengao, on the other hand, was the Qiao family's son-in-law and Qiao Gakai's father.

Qiao Rong's face suddenly changed violently when she heard that, she nodded her head in a panic and said, "Yes, yes, I will immediately send someone to book air tickets, we will immediately rush to Jiangzhou, I really don't believe it, the Ji family people have the guts to kill me together!"

Seeing his wife's shrewish look, Wang Wengao couldn't help but frown slightly, but didn't say anything. Nowadays, he had no status in the Qiao family, more often than not, he was even like a servant, if he spoke up now to console, I was afraid that what he would get was a foul scolding, this kind of thing, it was just too much.

Just imagine, even the son took his mother's surname, how high could Wang Wengao be in the Qiao family?

Moreover, whenever the Ji family was mentioned, Qiao Rong's temper would immediately flare up. Wang Wengao knew that back then, Ji Zhenhua would rather find a random woman than Qiao Rong, and this matter was too big a blow to Qiao Rong, who was determined to use the power of the Ji family to revitalise the Qiao family, so it was no wonder that she had always harboured a grudge.

But as a man, the thought of his woman hating another man all the time, and because of the male and female aspects of the matter, even though Qiao Rong may not really have any feelings for Ji Zhenhua

now, just a kind of hatred that she harbors because she didn't use him, Wang Wengao is still very uncomfortable.

Only Wang Wengao knew very well that if he wanted to keep his current position, he could never clash with Qiao Rong on this matter, so he chose to hold back.

"No matter who beat up my son, I must make him pay for his life before I do!" Qiao Rong said through gritted teeth.

.....

Also in Yanjing, in a quaint and quiet quadrangle, an old man with white hair all over his head was sitting under a large tree. In the surroundings of the courtyard, there is a loaded armed police standing guard at every distance, showing that the people living in this courtyard are definitely of extraordinary status.

It was October and the weather was already getting cooler. The old man was sitting on a recliner, with a long-sleeved woolen coat already on him; the old man was too old to withstand the cold.

Accompanied by his escort and intensive care staff, the old man is squinting and listening to a middle-aged man beside him whispering something.

This middle-aged man was full of majesty, unruffled, and an air of superiority naturally emanated from him, but in front of the old man, he looked cautious and full of hesitation.

"So, Little Feng beat up the little monkey from the Qiao family? And beat up those four people who went with him as well?" Only after a long time did the old man speak slowly, his voice seemed a little weak, but the middle-aged man could not help but feel anxious.
