

Campus Master 2031

Old Gai said in an old and calm manner, "For the sake of Brother Biao, I can waive my benefit fee, but that's not much less, at most, it's a 30,000 to 50,000 ....."

The brow of silly Biao then furrowed even more, this old thing, it's too dark!

The fixer named Lao Gai finished his speech with a smile of smugness that was hard to conceal, leaned back in his chair, and did not wait for Foolish Biao to let him, he himself took the cigarette case from the table, took one out and lit it, and then smoked it leisurely without looking at Foolish Biao.

Meanwhile, in the surveillance room, Zhang Lei couldn't help but frown.

"It looks like this fixer is sure of Silly Biao, looking at him, he is obviously very sure, he is waiting for Silly Biao to give in!" Zhang Lei frowned.

"Well!"

Ji Feng nodded, he also thought the same thing.

This fixer called Old Gai appeared very confident and calm, which meant that this person was not worried at all about Silly Biao haggling or not buying if he was too expensive, so after he shouted out a price, he didn't give Silly Biao any room to return the price at all and just waited there for Silly Biao to bow down and then send a large amount of banknotes to his hand.

Zhang Lei said in a deep voice: "This old thing ..... him this is the emperor's daughter not worried about marriage, now the initiative is in his hands, others simply can not negotiate with him, he also has no intention to continue to negotiate, this is a bite price ah!"

Ji Feng's expression did not look to much surprised, in fact, when Zhang Lei said that there was this kind of business, Ji Feng had already expected that the price was not low, only Ji Feng did not expect that this fixer called Lao Gai would ask such an outrageous price.

Two million, if it was in that kind of formal hospital with a formal kidney source, hundreds of thousands of dollars before and after would have been tops, and there would have been various welfare systems of the state, so this cost could still be partially reimbursed.

Even if all the drugs used in the regular surgery process were imported, the cost of 300,000 to 400,000 would be about the same.

But now, this fixer named Lao Gai, open mouth is two million, and is not allowed to bargain ..... he said his benefit fee is only a few tens of thousands of dollars, that means, even if my benefit fee is waived, at most only this amount of money can be cheaper.

What's more, can this old Gai's benefit fee really be waived?

This is obviously not possible!

If they have to waive their benefit fees for every deal they do, for the sake of whoever they are, then they would be drinking the northwest wind?

As the saying goes, there are rules of the trade, not to mention Silly Biao, even if the biggest mob boss in Jiangzhou wants to do this business, he still has to follow the rules.

Generally speaking, no one would easily violate this rule, and the more they are in the business, the more they are concerned about this.

In fact, the most straightforward words can explain it clearly – I am not your father, why should I help you for nothing?

These days, many people are still thinking of getting paid even if they work for their own fathers, not to mention the fact that Lao Gai is a fixer who does this kind of work for a living, and this is what he does and what he eats .....

–The two million dollar price that Old Gai had offered was not a penny less.

“But two million this is too expensive .....” Wang Tong couldn’t help but say.

Originally he thought that around one million was already very expensive, in fact before he met Ji Feng, Wang Tong would not even be able to afford to have an operation in a regular hospital, let alone one million.

And now, this fixer actually opened his mouth and asked for two million, which made Wang Tong very angry and also very embarrassed.

Even if he had a good relationship with Ji Feng, it was after all two million, not two hundred dollars, which was not a small amount, could Ji Feng take out that much money at once?

Besides, even if Ji Feng could take it out, when would he be able to pay back such a large sum of money?

This two million in the bank would have a lot of interest in a year!

Kan Miao also couldn’t help but blush slightly and said angrily, “This man is too shady, he’s not afraid of losing his conscience, he’s making money from other people’s bodies!”

Zhang Lei immediately frowned and said, “Come on, what’s the use of you guys arguing here? People are asking for expensive prices, does that mean Wang Tong’s mother’s illness won’t be treated?”

Wang Tong and Kan Miao stopped talking at once.

Zhang Lei couldn’t help but give them a sidelong glance and shook his head before he said to Ji Feng, “Crazy, do you think we should ask Silly Biao again to help find another fixer or say yes to this fixer called Old Gai?”

Ji Feng put up his hand, shook it slightly and said, “Don’t rush first, things have to be done step by step, two million isn’t a completely unacceptable price, the key is that we need to know if the money is worth spending .....”

“Do we even need to say that? The money spent is definitely worth it, no matter what, it can save a life, let alone the life of Wang Tong’s mother?” Zhang Lei said.

“That’s not necessarily true!”

Ji Feng shook his head and asked, "What if the other party doesn't do anything after taking the money? What if the medical standard of the hospital they appointed is not up to par? These issues always need to be clarified before a decision can be made. If any one of these things goes wrong, losing a little money is not a big problem, after all, the money is earned to spend, but Wang Tong's mother's health cannot afford to suffer, and this illness cannot afford to wait!"

Zhang Lei asked, "Then what do you mean ....."

Ji Feng waved his hand, then directly picked up his phone and dialed Silly Biao's number.

At once, he saw the phone ringing in the surveillance video, then he saw Silly Biao hurriedly take out the headset from his pocket and put it on, "..... I'm listening, speak."

Silly Biao's voice seemed very flat, and when he spoke he didn't have the same respectful tone he had when facing Ji Feng before, but Ji Feng didn't care, at this time Silly Biao was talking business with the man called Lao Gai, if Silly Biao acted too abnormally, it might even cause Lao Gai's suspicion.

Silly Biao was pretending as if nothing was wrong.

Ji Feng then instructed, "Silly Biao, you don't need to hang up the phone ..... you ask this fixer how the whole business process works and have him talk about it in detail."

Silly Biao immediately understood, and he immediately said, "Mm! OK ..... OK I know, that's it then, bye ....."

With that, Silly Biao put the phone in his pocket before he then proceeded to take off his headset while asking carelessly, "Old Gai, I understand all that you said, but two million is indeed a bit expensive."

"Brother Biao, I'm not talking to you in vain .....", Old Gai said immediately, but before he could finish his words, he was interrupted by a wave of his hand from Silly Biao.

"All right, all right, don't explain to me either, who made me have to ask for your head!" Silly Biao cursed helplessly.

"What Brother Biao means is ....." Old Gai's eyes instantly lit up, and he simply pretended not to hear about Silly Biao calling himself Laozi in front of him, but asked, "Is this a yes from Brother Biao?"

So, Lao Gai, tell me in detail about the whole business process, especially what hospital you will arrange, what doctor will operate and other important issues, you have to give me a clear explanation. Two million, I won't bargain with you!"

When Old Gai heard this, instead of showing a happy look on his face, he hesitated: "This ....."

"What, I can't even know about these circumstances?" Silly Biao asked at once.

"Of course not, only ....." Old Gai said hastily, "Brother Biao, to be honest, these situations are directly related to the success or failure of the whole business, if in case a cop comes in undercover, then they just need to inquire about this information, then they can follow the vine and we will all be unlucky with it."

Silly Bill asked at once, "Then what do you want?"

Old Gai said, "In order to prevent this from happening, we all require that we must have a trusted person with the patient ..... but for Brother Biao, of course I trust him, but this deposit ....."

"Boom~!"

Silly Biao instantly slapped a slap on the table, his eyes glared, "Fuck you! Old Gai, you old thing don't give shame! Go out and ask around, everyone in the street knows that I've always been a man of my word, a man of my word, a man of my spittle, when did I ever stop talking? How dare you take my deposit?"

When Old Gai saw that Foolish Biao was angry, his face changed and he said with a smile, "Brother Biao, Brother Biao, don't be angry, let's talk about it, let's talk about it ....."

Silly Biao pointed at him with his cigarette between his index and middle fingers, "You're playing me like a fool and you want me not to get angry? Old Gai, you don't think that just because my name is Silly Biao, I'm really a fool, do you?"

"I wouldn't dare! I wouldn't dare, Brother Biao!" Old Gai waved his hand and said, "Forget about the deposit, Brother Biao, let's calm down, let's talk about it!"

"Hmph! Do you think I'm the kind of person who doesn't follow the rules?" Silly Biao's eyes glared, "Of course I'll pay this deposit, but it has to wait until I understand the whole business process, otherwise why should I pay you?"

"..... That's right, that's right!" Old Gai could only accompany a smile.

"Humph!"

Seeing that Old Gai had softened and his attitude had become quite good, Silly Biao had then slightly lost his anger and took two hard puffs of his cigarette before saying, "Old Gai, I really want to do this business with you, so don't play false with me, just tell me ....."

"This ....." Old Gai hesitated for a moment and finally nodded: "Okay, since Brother Biao you have said so, then I will not say anything else, anyway, the rules of the road Brother Biao must know better than me."

"Then let's cut the crap and hurry up with the process!" Silly Biao said, but in his heart he snorted coldly.

Campus Master Chapter 2032

"If Brother Biao is sure that he wants to do this business, then I will give you a detailed introduction ....."

After Silly Biao had even slapped the table plus glared and scolded him, Old Gai finally became honest and lost that somewhat smug look on his face as he spoke.

"Say it!" Silly Biao nodded, "I'm listening, say it more carefully ....."

"Heh!"

In the monitoring room, at this moment Zhang Lei but can not help but laugh: "This is the so-called evil people still need evil grinding ah ..... crazy, it seems that you find silly Biao to come out to talk about this

matter, really find the right person, do they this business, really suitable to come out to talk about this kind of business.”

Ji Feng also smiled and nodded, he did not anticipate that Silly Biao’s performance would be so good.

From the beginning, Old Gai acted so complacently, obviously because he had the goods in his hands, Silly Biao was begging him, that’s why he completely took the initiative, and there was one request after another.

However, Silly Biao was not at all ambiguous. As soon as he received his call, he immediately understood that money was not an issue, the focus was on the whole process of the deal, and some details.

So Silly Biao immediately slapped the table, and this time, Old Gai was instantly convinced.

Maybe Old Gai had a big shot behind him, or a powerful big brother on the road, or an official, but no matter what, Silly Biao was a big shot in the Jiangzhou underworld, and if he really pissed off Silly Biao, Old Gai really couldn’t handle it.

So as soon as he saw Foolish Biao’s anger, Old Gai immediately became much more honest, not even wanting the deposit, and answering questions honestly.

In fact, in Ji Feng’s opinion, the questions that Old Gai asked were, to put it mildly, reasonable.

As Old Gai said, after all, this kind of business of theirs was fishing for bias, so of course they had to put up with having the police come over undercover to check it out, so they had to have someone familiar leading the way before they would come forward.

The reason they don’t say anything about the entire business process is to prevent information from leaking out, which will then allow the police to follow the trail and, based on the information they say, will probably lead them to their roots.

I guess this should also be the rule in their line of work.

But in front of this deliberate display of rudeness and anger from Silly Biao, Old Gai meekly gave in.

In this process, Silly Biao’s performance could be considered quite good, so that Ji Feng couldn’t help but be a little surprised, it seemed that Silly Biao was not the head of the underworld for nothing.

“Brother Biao, according to our rules, it’s to pay half of the money upfront once the deal is confirmed, then go to the hospital we designate and have the patient go for a professional related examination, and then will go inside to find a source of goods that can be matched based on the examination results.”

The voice of that fixer, Old Gai, in the speaker box made Ji Feng and the others focus their attention and listen to him intently.

Old Gai said, “If we can find a source that matches the model and everything locally in Jiangzhou, then we will continue on at the originally set price, but if we can’t find it in Jiangzhou, then we will have to go overseas to find it, and the cost of that, will have to increase along with it …… ”

Silly Biao frowned: “What, there are so many people in Jiangzhou prison, can’t we still find a source of goods with matching models?”

Old Gai laughed: "Brother Biao you do not know ah, Jiangzhou prison is a lot of people is true, but, the number of prisoners on death row is limited ah, and, this model matching is not so easy, there is a problem of chance, so to go abroad to find sources of goods this is also a regular thing ....."

The silly Biao then dawned: "So that's it."

Old Gai said with a smile: "That's right, and if you go to the field to look for sources of goods, the local road brothers, will also follow a share of the pie, so this cost, also followed up."

In the monitoring room, the few people in Ji Feng looked at each other and couldn't help but be a little stunned.

This time they can be considered to have a long insight, who would have thought that even in this kind of business, there are actually so many doorways in between, and actually speak so headstrong!

This is really .....

Ji Feng said into the phone, "Silly Biao, later on you ask him to focus on the process of treatment."

With that, I saw Silly Biao raise his hand, he was gesturing to the camera.

"After we find the source of the goods, we will start the operation, but of course, before the operation, the patient's body must be conditioned to the best condition, or at least, it must be suitable for the operation." Old Gai said, "Then comes the surgery, and finally the patient's body recovers ..... the whole process is pretty much like this."

Ji Feng immediately said, "Silly Biao, ask him, in which hospital is the surgery performed, and what kind of person is in charge of the surgery?"

Silly Biao smiled and immediately repeated the question, but it was asking Old Gai.

"This ....."

A look of difficulty appeared on Old Gai's face as he shook his head and said, "Brother Biao, to be honest, I can't say anything about this now, this has to wait until the transaction has officially started, and only after we find a source that matches the patient's model can we inform the patient which hospital to go to, until then, I can't say a word... .."

Silly Biao's face immediately turned cold: "Can't say anything?"

Old Gai immediately said, "Brother Biao, even if you beat me to death now, I can't say anything, this is the rule, if I say it now, then I won't have to work in this business anymore, I will definitely not end up in a good place then..... still ask Brother Biao to understand."

"How can I understand? Such a large sum of money to you, I do not even know what information, in your place, you can understand?" Silly Biao asked.

"I can give Brother Biao a guarantee that when patients receive treatment here with us, that medical environment and medicine and so on, will definitely not be worse than in the big hospitals in Jiangzhou." Old Gai said, "And most importantly, the doctor who will be the main surgeon will definitely be a first-rate specialist as well."

“Really?” Silly Biao asked.

“Of course it’s true, in fact ..... Brother Biao, let me tell you this, since this business chain is so complete and this business has always existed, it means that everything we have is overqualified.” Old Gai said.

“Moreover, even for a first-class doctor, who would mind the money? Besides, certain first-class specialists come out to do some private work in their spare time, so on the one hand they can save lives, and on the other they can have a substantial income, so why wouldn’t they be happy about it?”

Silly Biao nodded, this was the truth.

There was no one in the whole society who didn’t know what kind of virtues doctors had nowadays, and Silly Biao had naturally heard about it.

“So, can you guarantee that the patient will be cured?” Silly Biao asked again.

“Uh .....

Old Gai could not help but choke, he laughed bitterly, “Brother Biao, your question really makes me not know how to answer, you should know that even if you go to those big hospitals, no one will ever give you this guarantee, even if it is just a small operation of pulling a tooth, or cutting an appendix, you still have to sign and take the risk of the operation, don’t you think so? ”

Ji Feng also shook his head and smiled, this question asked by Silly Biao was indeed a bit amateurish.

What kind of doctor would give you this guarantee?

“Besides, this disease you are talking about, even in big hospitals the success rate is not too high, as far as I know, this still has a post-operative adaptation period, sometimes there will be rejection reactions, the replaced organs may necrosis, or there will be other lesions, this is all possible!” Old Gai said, “So, I can’t really give this guarantee.”

Once this professionalism was mentioned, Silly Biao didn’t quite understand, and he nodded somewhat plausibly, “Oh.”

Old Gai asked, “Brother Biao, that’s all in general, do you have any more questions?”

“Questions ah .....” Silly Biao deliberately trailed off, “let me think about it ah, you first smoke a cigarette, drink a sip of water .....” ”

He was waiting for Ji Feng’s instructions, after all, Ji Feng has any requirements and so on, silly Biao is not particularly clear, moreover, this involves professional things, he simply does not dare to talk nonsense, or want Ji Feng to make the decision.

“Crazy .....” Zhang Lei could tell at a glance that Silly Biao was waiting for Ji Feng’s instructions, and he immediately spoke out to remind him.

“I know!”

Ji Feng nodded, but he pondered for a moment before saying, “Silly Biao, ask him if it’s okay if the patient doesn’t have surgery with them and just needs them to find a source of goods that matches the patient?”

Zhang Lei instantly lit up, that was a good idea.

Earlier he was thinking that the guarantee given by this fixer called Old Gai could not be trusted, these people would dare to say anything to make business, they had no control over their mouths at all, a small clinic could be boasted by them as a third grade hospital.

They were not so sure about the medical skills of Lao Gai's gang, and it might not be credible whether they had the medical conditions.

Now that Ji Feng has asked this, it is obvious that he has also taken this into consideration. Moreover, Ji Feng should be planning to use his connections to directly arrange Wang Tong's mother towards a regular big hospital.

Zhang Lei smiled at Wang Tong, but made the latter laugh inexplicably.

Naturally, Wang Tong did not know what Ji Feng's intention was in asking this question. On the contrary, once Kan Miao next to him saw Zhang Lei smiling at them, she hurriedly showed a smile, only to see that Zhang Lei had already turned his head away as if he did not see her, and the smile on her face was suddenly choked again.

In the box, Silly Biao had already repeated Ji Feng's question and waited for Old Gai's answer.

Old Gai smiled without the slightest surprise, obviously he had encountered this kind of problem not once or twice, "Of course you can, it's all business anyway, everything is at the patient's will. However, if you only buy the goods, this price ..... is not much lower."
