“You’re so sure?” He Hongwei asked.

“I’m convinced!”

Ji Feng said with great certainty, “At least, I have three more reasons to support my view!”

He Hongwei immediately asked, “Tell me about it!”

“Firstly, since this Zhang Xingbang comes from an ordinary background and doesn’t have much to offer in terms of education, apart from having studied in England, why would Zhai Yadong treat him in that manner?” Ji Feng asked.

“Hmm! This is considered one, what about the second one?” He Hongwei asked.

“The second one is that this Zhang Xingbang has an inexplicable hostility towards us, especially towards me!” When Ji Feng said this, he suddenly smiled faintly, “The most crucial thing is that at that time he already knew the identities of the two of us!”

He Hongwei nodded slowly, “That’s right …..”

Indeed, less than a day had passed since the incident, and He Hongwei likewise remembered very clearly the kind of look on Zhang Xingbang’s face during the conversation in Zhai Yadong’s office at that time.

He clearly remembers that at that time Zhang Xingbang had used his status as an excuse to squeeze him.

And from the tone of Zhang Xingbang’s words at that time, it could also be heard that Zhang Xingbang was very clear about his and Ji Feng’s true identities at that time.

However, Zhang Xingbang did not put their origins in his eyes.

This was very strange.

You know, given Zhang Xingbang’s origin, he should have known very well what the Ji and He families really represented, especially since Zhang Xingbang was a Yanjing native himself and both of his parents were still cadres, he should have known even better.

He should also know how unwise it would be for him to provoke He Hongwei and Ji Feng to their faces, given his status.

If Ji Feng and He Hongwei are not the kind of fop who is good for nothing and only knows how to cause trouble, then everything is fine, at least Zhang Xingbang will not get into much trouble for doing so.

But if Ji Feng and He Hongwei were that kind of arrogant dude, then Zhang Xingbang dared to provoke them so much in front of them, wouldn’t he be seeking death himself?

When he was in Zhai Yadong’s office, Zhang Xingbang spoke articulately and clearly, so he obviously couldn’t be a fool.

–Then, since he dared to do so, he must have something to fall back on!

“There’s one last point!”

Ji Feng reached out and tapped his hand twice on the folder and said, “With the energy of your big brother He, even you only investigated such a piece of information, is and not enough to explain the problem?”

He Hongwei immediately frowned at his words, “You mean to say that someone is deliberately helping him to hide his identity?!”

“Other than that, I can’t think of any other explanation!”

Ji Feng laughed: “It seems that the identity and origin of this Zhang Xingbang student is, I’m afraid, more worthy of research than we thought!”

What Zhang Xingbang did clearly had a lot of suspicions, even a blind man could see that.

Then, with He Hongwei’s energy, it shouldn’t be too difficult to investigate such a person.

At least if He Hongwei only needs to say one word, there is no telling how many people will immediately help him to investigate the identity of this Xingbang, and I am afraid that those people will be too embarrassed to report to He Hongwei unless they get to the bottom of it.

But even so, with He Hongwei’s energy, he didn’t even investigate Zhang Xingbang’s true identity, instead he just got such a salty piece of information, what does this mean?

If one were to say that there was no one behind the scenes to help Zhang Xingbang cover up, Ji Feng wouldn’t believe it.

On the contrary, this also shows from the side that this Zhang Xingbang’s identity is really quite interesting and worth exploring!

“Check!”

Ji Feng casually threw the folder onto the table and said in a deep voice, “Make sure to find out!”

He Hongwei also nodded his head, “That’s right, it seems to be a good idea to check it out!”

“Humph!”

Ji Feng sneered and said, “These people don’t think too foolishly of the uninformed, or maybe, they think too highly of that Zhang Xingbang! If they had been able to make Zhang Xingbang’s family origins or something a little more impressive when they made the fake information, maybe we would have all believed it, but it turns out that this bunch really looked up to us and just made a salty fake information”

He Hongwei also couldn’t help but shake his head and lose his smile, amused by Ji Feng.

But then again, what the other side did was indeed a bit too much, if they had found out after investigation that Zhang Xingbang was the child of some senior cadre and had a certain family history and energy, then they wouldn’t have been surprised if Zhang Xingbang dared to speak to them like that.

After all, not all of them were that afraid of them. For example, people from the Wu family, even if they were just a small minion, would dare to mock them twice – anyway, we had already torn our faces off and were in different camps, so as long as they didn’t go too far, it was normal.

However, the identity of Zhang Xingbang, as shown on this information, was not in the same world as them at all, not in the same weight class at all, yet he dared to speak so sneeringly, either this guy was out of his mind, or, there was something wrong with it.

So both Ji Feng and He Hongwei suspected that this identity information of Zhang Xingbang was a fake.

They also shook their heads at the person who helped Zhang Xingbang create this fake information, and these people didn't know whether they were overthinking it or just imagined himself as Ji Feng and He Hongwei, and hypothesized how they might handle this matter from their point of view

If this is the case, then I'm afraid that this person who produced the fake information would not really appreciate what people like them would actually think.

"Of course, it could also be because Zhang Xingbang is so flamboyant that I'm afraid the person who helped him create this fake information didn't even think that he would be so arrogant!"

Ji Feng mused, "Or maybe the other party made this fake information just in case, even if someone really went to investigate, they wouldn't care too much after seeing this information, after all, a person from an ordinary cadre family, not many people would care!"

He Hongwei said, "It seems that this time, I'm afraid that there will be another new change."

Ji Feng smiled faintly, "No matter what, it's not always possible to have smooth sailing. Besides, even if there is such an unexpected additional Zhang Xingbang, as long as our ultimate goal remains the same and we point directly at those strategic projects in the hands of the Brilliant Group, then the other party won't be able to play any tricks!"

"That's right!"

He Hongwei nodded deeply and said, "You're right, we also have to stick to the same target, and no matter what tricks the others play, they won't be able to disturb our sight!"

Ji Feng laughed: "So that's why brother Hong Wei, this next step to stop the cooperation between the Splendid Group and the Kepong people, you have to hold on a bit tighter, the tighter you push on your side, maybe the more nervous and scared the other side will be, and the more gimmicks they will play!"

"Don't worry, I'll hurry up and do it." He Hongwei nodded, "Then this Zhang Xingbang's identity, do you still want to check it?"

"Of course I have to check it out!"

Ji Feng smiled faintly and said, "Frankly speaking, my interest in this person is now a little more intense instead"

Arrogant attitude, falsified identity information, position may even be above Zhai Yadong

All these signs make Ji Feng very interested in this Zhang Xingbang, one could even say that he is quite curious, this person must have some origins!

Even, the more he covered up so much, the more Ji Feng suspected that the other party did not have some unseen identity!

“I’ll definitely find out!”

Ji Feng said, “No matter what his origins are, I’ll find out everything!”

He Hongwei nodded and said, “Alright then, I’ll just take care of the rest!”

.....

The issue of Zhang Xingbang’s identity was taken to heart by Ji Feng, but he didn’t immediately go to investigate because at this time, there were more important matters.

He Hongwei had released his second move!

Regardless of whether Zhai Yadong had politely refused or firmly rejected the idea of cooperation proposed by He Hongwei, when Ji Feng and He Hongwei made a joint trip to the Brilliant Group, some news could no longer be concealed.

In fact, as early as when Ji Feng and He Hongwei first arrived in Southern Guangdong and were arrested in the police station, there were already many pairs of eyes watching their every move, so as soon as Ji Feng and He Hongwei entered the Brilliant Group, countless phone calls were made from Southern Guangdong to all over the country.

The news of Ji Feng’s duo’s entry into the Brilliant Group had also long since reached the ears of all those with an interest.

At this time, everyone’s eyes were focused on Nan Yue, on Ji Feng and He Hong Wei, because the significance that the two of them joining forces represented was too important, and what was even more tangled was that this Nan Yue was still the territory of the Wu family

This made everyone feel a nagging feeling, the He family, the Ji family, Ji Feng, He Hongwei, the two sides teaming up to appear on the Wu family’s turf, and going straight to the Brilliant Group!

— Everyone knew that the Brilliant Group was in fact the Wu Family’s private property, it was already a near open secret.

So, Ji Feng and his team had teamed up to go to the Brilliant Group, what were they up to?

Everyone had realised that something was unusual, and some had even started to speculate that this three parties, would a big war break out next?

Especially for those with a keen sense of smell and vision, they could even clearly smell the smell of gunpowder permeating the skies over Southern Guangdong, and the tension in the city that seemed to be leisurely and scattered but was clearly growing faster and faster in pace.

“All it takes is a fuse and a great war is likely to break out!” Someone commented privately, “Moreover, once the great war breaks out, it will definitely be a situation where the Ji and He families join forces and shake hard with the Wu family. Of course, I’m afraid that the final showdown will also focus on Ji Feng and He Hongwei, who represent the future of both families!”

“I just don’t know, who will be the Wu family to come out to support the scene, if the person sent out is too weak, to win this big battle that is absolutely impossible!”

Everyone knew how outstanding Ji Feng and He Hongwei were, they could almost be said to be the most outstanding young juniors of the third generation of the two families, especially Ji Feng, that was even more prestigious, even on par with Ji Shaodong.

Campus Master Chapter 2102

Everyone knew how outstanding Ji Feng and He Hongwei were, and they could almost be said to be the most outstanding young juniors of the third generation of the two families, especially Ji Feng, who was so prestigious that he was even on a par with Ji Shaodong.

If we look at the entire Wu family, I am afraid that the only person who can compete with Ji Feng and He Hongwei is also Wu Zhiyong.

But everyone had not forgotten that not long ago, the Wu family had fallen fiercely into the hands of Ji Feng, and the whole incident at that time was not without the shadow of Wu Zhiyong.

The consensus was that the incident was actually a clash between Wu Zhiyong, the leading figure of the third generation of the Wu family, and Ji Feng, the outstanding son of the third generation of the Ji family.

The result of the encounter was a tragic defeat for the Wu family, or at least for Wu Zhiyong, and the almost complete downfall of the Wang family, which could even be said to have had its arm cut off!

The more people studied the results, the more they realised that Ji Feng was really powerful.

At the same time, everyone also had a general understanding of the abilities and methods of this person, Ji Feng.

Everyone realised that the Ji family had another outstanding son whose ability was not below that of Ji Shaodong, and more importantly, this person was younger than Ji Shaodong, and was still studying at university, and had not really decided which path to take in the future, but had more flexibility and potential.

Therefore, many people attach more importance to Ji Feng than even Ji Shaodong!

So then, when many people knew that this time it was actually Ji Feng teaming up with He Hongwei, they all couldn't help but suck in a breath of cold air and couldn't help but instigate their teeth straight away.

Just one person, He Hongwei, was enough to give Wu Zhiyong a headache, but now with the addition of such an outstanding Ji Feng, does Wu Zhiyong have any hope of winning?

But apart from Wu Zhiyong, who else in the entire Wu family could take up the mantle and go head-to-head with either Ji Feng or He Hongwei without losing out?

Not a single one!

At least, no one from the outside world had found any outstanding sons of the Wu family!

In that case, some people didn't think too highly of Wu Zhiyong, and likewise didn't think too highly of the Wu family.

Now, it seems that perhaps the only thing that could be an advantage for Wu Zhiyong is the location. Southern Guangdong is the territory of the Wu family, and although the family's control over Southern Guangdong has become somewhat less robust in the last year or two, Yuezhou is the capital of Southern Guangdong, and the Wu family's power is extremely strong.

There, Wu Zhiyong can use these forces to fight with Ji Feng and He Hongwei both.

As for the outcome of the victory or defeat is no one can say!

After all, both sides have their own advantages, and if the two sides fight to a critical moment, who can guarantee that the family behind them will not make a move?

As all kinds of speculation began to spread, at this moment the southern Guangdong did not know how many people's eyes were concentrated, some were worried, some were expecting, and some were gloating.

However, amidst all this chatter and speculation, it seems that some people have forgotten one important thing – what Ji Feng and He Hongwei are actually going to do!

Only some clear-headed people, and a very few who were very concerned about the movements and news of the top brass, knew that this time when Ji Feng and He Hongwei went to Southern Guangdong, their intention was not to go and make a move on the Wu family, but to stop the cooperation between the Brilliant Group and the Kepong people.

If they could use the right method, they might be able to avoid a violent conflict, or even a full-scale encounter between the three families.

However, the Brilliant Group is the Wu family's private property and the main economic pillar of the Wu family. If Ji Feng and He Hongwei really wanted to move the Brilliant Group, one can imagine how strong the backlash that would be caused.

As the saying goes, cutting off people's wealth is like killing their parents. If Wu Zhiyong is really unable to fight Ji Feng and He Hongwei, the Wu family will definitely use more powerful means directly.

So, how things will develop next is still an unknown.

The key is to see how resolute the Wu family's determination to cooperate with the Kepong people really is. If they have to cooperate with the Kepong people, then Ji Feng and He Hongwei will definitely have to resolutely stop it, and in that case, a conflict between the two sides is inevitable.

Ji Feng and He Hongwei drove to Southern Guangdong and even went directly to the Brilliant Group, their meaning could not be clearer. So, how would the Wu family respond next?

What kind of action would Ji Feng and his team take?

For a while, the majority of people's eyes converged on Nan Yue, closely watching the development of things.

In the midst of this waiting, there were people who couldn't help but talk about it.

“It seems that Ji Feng and He Hongwei should wait for the Wu family to react before they take the next step.” Someone guessed.

“That’s right!”

Many people agreed with this statement, even though it was now Ji Feng and He Hongwei joining hands, no matter what, the power of the Wu family was unquestionable, not to mention that it was only these two little characters, Ji Feng and He Hongwei, even if the Ji and He families really joined hands, if the Wu family insisted on not bowing down, the Ji and He families would not dare to launch an attack easily.

So the vast majority of people believe that this time, Ji Feng and He Hongwei went directly to the Brilliant Group, which should be a warning to the Wu family, or rather a signal to them – we are sincere to talk, or we will be courteous first, and then we will not have to make a mess to the point of no return if we each take a step back.

Then, if the Wu family is willing to talk next, they will naturally give their response.

That would be the most reasonable thing to do.

After all, even if two armies were at war, they would still send an emissary to test the waters or negotiate first!

However, what happened was beyond everyone’s expectation.

What no one expected was that in the evening, the latest issue of the Yanjing Evening News was delivered to everyone who subscribed, and a story reported on it took everyone by surprise.

‘Powerful team to develop strategic projects on its own’

This report, in detail, described how the large state-owned enterprise Tian Yao Group, in conjunction with the Jiangzhou Tengfei Group, had started to make initial contact with the South Guangdong’s Brilliant Group, intending to join hands with the three parties to develop several projects held by the Brilliant Group.

The most crucial thing is that in the report, the projects of the Brilliant Group are highlighted as strategic projects at the national level, especially one of the new high-strength alloy materials, which is regarded as the material of choice for the manufacture of modern weapons in the future and is of great significance to the national strategy.

The report also highlights the fact that the Tian Yao Group is a state-owned enterprise, while the Huihuang Group and the Tengfei Group are private enterprises with great potential, and the cooperation between the three parties is a very important pilot for China’s economy.

The Yanjing Evening News gave high praise to this tripartite cooperation!

However, as soon as this report appeared, it immediately stung many people’s eyes and shocked many people beyond measure.

“What are Ji Feng and He Hongwei trying to do here? Are they really trying to start a full-scale war with the Wu family?” Some people couldn’t help but exclaim.

“What a powerful hand!”

Some people were in awe, “Ji Feng and He Hongwei are using public opinion to put pressure on the Brilliant Group! This time, I’m afraid that the Brilliant Group will be in trouble!”

There were many things that could not actually be brought to the surface, because no matter how powerful a family was, they would not dare to do anything egregious easily in the face of the world’s long-lasting public opinion.

This is also the case with the Wu family.

Don’t look at the Martial Family as being very powerful, but if many people were against them, the Martial Family would likewise not have a good time.

Originally, if the public did not know what the project that the Brilliant Group was going to cooperate with the Kepong people was, then naturally there would be no problem. Even if the Wu family took the country’s most important strategic resources to cooperate with foreigners, the public would not know about it, and with the Wu family on top of it, the media would not dare to report it easily.

However, now that the Yanjing Evening News has reported this matter, and obviously exaggerated the strategic significance of those projects under the Brilliant Group somewhat artificially, in this way, the Wu family was immediately moved.

This is because the Wu family does not have the guts to sell strategic projects of the country to foreigners, especially the Kepong people who have a grudge against China, right under the noses of the people!

So when this move was made, even the head of the Wu family would have to think carefully before making a decision!

It’s not that no one had thought of this move, but no one dared to use it, because it was almost like forcing the Wu family’s head of household into a corner!

But Ji Feng and He Hongwei did just that!

It was only at this point that many people realised that, from the very beginning, they had actually underestimated the determination of Ji Feng and He Hongwei, and even more so, they had underestimated their sleight of hand and courage.

I’m afraid that their trip to the Brilliant Group was not just a signal and warning to the Wu family, but probably a prelude to this report and to attract the attention of the outside world!

I’m afraid that from the very beginning, Ji Feng and He Hongwei had no intention of negotiating with the Wu family, they only had one objective – they would never allow these few projects to fall into the hands of the Kepong people!

Even if they really wanted to negotiate next, they would have to do so on this premise!

But anyone with a nimbler mind realised that this report was the clearest signal from Ji Feng and He Hongwei, and at the same time, I’m afraid it was also a clarion call for the Ji Feng duo to attack soon

But will the Wu family just sit back and wait for death?

The storm is coming!

Campus Master Chapter 2103

A New Form of Cooperation, Only for Huaxia's Strategic Projects!

A Strong Partnership to See the Development of High Technology in Huaxia!

The Transformation of Private Enterprises and the Road Ahead!

.....

The Yanjing Evening News report was just the beginning, and what seemed to be a fuse, at the end of which was connected a powder keg of enormous proportions.

With that report in the Yanjing Evening News, the reports that followed were overwhelming and could not be stopped.

News about it appeared in all kinds of newspapers and on the internet, and almost every report spoke highly of this time when the Tianyao Group joined forces with the Tengfei Group, hoping to seek cooperation with the Brilliant Group, making this topic the talk of the town after tea and dinner.

Especially in Yanjing, since ancient times, as subjects at the feet of the emperor, the people of Yanjing have an innate sense of superiority for being born under the roots of the imperial city, and at the same time have a strong interest in politics and various current affairs.

From national events to the small matters of ordinary people's daily lives, the people of Yanjing can talk about everything with great interest.

Moreover, the people of Yanjing are also the most well-informed, and they are more concerned about many matters than even some officials.

It was once said that if local officials below were not clear about current affairs, there was no need to hold onto the red-headed documents from above for study or anything.

Although this is inevitably a bit exaggerated, at least it shows from the side that the people of Yanjing are concerned about current affairs and various national events.

This time was no exception.

It has even interested many people.

The reason is that the people involved this time are simply too shocking.

The Tengfei Group, which has a very close relationship with the Ji family, is said to have been created by Ji Feng, the son of the Ji family who grew up in the private sector. Although it is not under his name now, everyone knows what is going on, and this kind of manipulation is something that almost everyone is used to.

The Tian Yao Group, of which He Hongwei is a handful, involves the He family again.

Although Tianyao Group is a state-owned enterprise, many people know that when He Hongwei first took over the Group, it was not so prosperous and at that time it could even be said that it was sluggish.

However, after He Hongwei took over, he started to make drastic changes and it only took a year or two to start seeing benefits.

It was only after a few years of rapid development that the present-day Tianyao Group was formed.

Therefore, it would be an exaggeration to say that the Tian Yao Group is the personal property of He Hongwei or the He family, but it is an indisputable fact that He Hongwei is the sole voice of the Tian Yao Group.

Now that He Hongwei has arrived in Southern Guangdong, it is likely that this represents a possible next move for the Tian Yao Group.

If it only involved Ji Feng and He Hongwei, it would have been nothing, at most it would have been a cause for concern, but that would have been all.

However, once the people knew the purpose of Ji Feng and He Hongwei's trip to Southern Guangdong, everyone couldn't help but get excited, and that intense curiosity made their whole being become a little hyper.

The Brilliant Group!

Who in Yanjing didn't know that it was the Wu family's private property?

It was no longer a secret in Yanjing, even the grandfather playing chess in the park knew about it!

In addition, the Wu family had fallen on Ji Feng's hands some time ago, and even the old boss of the Rongpeng Group and the woman of the second Wu family had been snatched away by the one from the Ji family, and this matter had spread all over Yanjing, so who could not know about the Rongpeng Group?

Of course, everyone knew that it was because of that previous incident that the original Rongpeng Group had been changed to the Brilliant Group.

I'm afraid that it was the Wu family who wanted to create glory again!

This was everyone's speculation.

Now that the matter actually involved the Wu family and the Brilliant Group, everyone was immediately excited and paid close attention to it.

And once this overwhelming report came out, everyone couldn't help but be shocked beyond belief – what the hell!

I don't know how many people can tell you about the feud between Ji Feng, He Hongwei and Wu Zhiyong, as well as the feud between these three families.

But now, to their consternation, Ji Feng and He Hongwei had actually come to the Brilliant Group together, and were seeking cooperation with the Brilliant Group?

Was the newspaper report wrong, or was this news originally false?

How could the three families have come together, how could this be possible?

If it was said that the Ji and He families might join forces, this would be believable. After all, although these two families do not share the same political views and even have conflicts in certain areas, this is all normal, after all, both sides have different political philosophies and different approaches to governance, so it is normal to have conflicts.

However, to say that the two sides have any personal grudges, this is not heard of.

So to say that Ji Feng has joined hands with He Hongwei still seems plausible.

But when it comes to them wanting to work with the Brilliant Group, that is, if they want to work with the Wu family this would seem rather bullshit!

The benefits of either the Tengfei Group or the Tianyao Group are too good to be true, so Ji Feng and He Hongwei are not so poor that they have to go to their enemies to seek cooperation to make money, right?

Even a fool would not believe this explanation!

So, what was this news about?

Everyone was talking about it for a while, even the taxi drivers, who couldn't help but talk to their passengers, as if hoping that someone would clear up the doubts in their minds.

The people of Yanjing seemed to enjoy these gossips more than the common people of other places.

"What a hell of a story, Ji Feng and He Hongwei actually joined hands to seek cooperation with the Brilliant Group, this is really a strange story under the sun!" In a taxi, the driver shook his head incomparably strangely and said to the passenger sitting on the passenger side, "Buddy, have you heard about this?"

The passenger nodded and said, "Yes, I heard about it, and I was surprised at first when I heard about it."

"Yes!"

The driver immediately nodded repeatedly and said, "I'm surprised, if it were me, I wouldn't go begging to my enemies' heads even if I were starving to death! The Ji family's son should be very powerful, and Young Master He is also quite outstanding, he is still one of the three greats of Yanjing, so how come he has gone soft to his enemies? It's really too degrading!"

"Huh!"

The passenger said, "There's a reason for everything!"

The driver nodded and said, "That's right! I think it's likely that the Wu family has caught some handle of the Ji and He families, so that these two families have to go soft, but these two big families can't quite wipe their faces, so they have sent two small words to the Splendid Group, hoping to use this method to

show that they have gone soft Right, could it be that some cadre officials of the Ji and He families are in life and financial problems, and that's why they were caught by the Wu family?"

The passenger shook his head and laughed, "Jue I know that is not the case."

"Oh?"

The driver instantly revealed a look of surprise and hurriedly asked, "You know the details of what happened? Hurry up and tell us!"

The passenger laughed, "Actually, the reason why Ji Feng and He Hongwei went to the Brilliant Group was because they had their eyes on a few projects under the Brilliant Group, these were all on the news reports, you should have read them, right?"

"That's right, I did read it, but what does it matter to Ji Feng and He Hongwei if these projects are important? Can't the Brilliant Group develop them themselves?" The driver asked in confusion.

"That's the problem!"

The passenger spread his hands and said, "The point is, the Brilliant Group only owns these projects, but they don't have the technical ability to continue to develop them thoroughly! Therefore, the Brilliant Group intends to hand over these few projects to the Kepong people for development, because there are only a few countries in the world that have this kind of technology that can make it to the end, and the Kepong people are one of them!"

"Give it to the Kepong people?"

The taxi driver exclaimed, "Is there no one in China who can develop them? I've heard that these projects are all national strategic projects, and a few of them are closely related to the manufacture of the most advanced weapons. If this project is handed over to the Kepong people, won't we be behind again by then?"

"So yeah, it's with these circumstances in mind that's why Ji Feng and He Hongwei have joined forces to go to the Splendid Group!" The passenger said, "You know about the Tengfei Group, right? They are launching the latest technology, which is leading in the world! It just so happens that this time the Tengfei Group happened to have researched the technology to develop those few items, which also reached or even surpassed the world's most advanced level!"

"Really?!"

The driver was instantly delighted.

The passenger said, "Of course it's true! Otherwise, do you think Ji Feng and He Hongwei both had enough, and had to run to the opposite side to find out what was wrong?"

The driver nodded repeatedly, "That's right, that's right, I wouldn't have done that if I were in his place!"

"So ah, knowing that they would definitely not be welcomed and might even be treated coldly, but Ji Feng and He Hongwei still went to the Brilliant Group without any hesitation in order to prevent those strategic projects from falling into the hands of the Boundary Peng people."

The passenger said, "I reckon, ah, now they are waiting for a reply from the Brilliant Group, afraid that, the Wu family still remember the past grudge, not to sell those projects to Ji Feng and He Hongwei, but to the Kepong people, in that case, our country will be threatened even more" "

The driver immediately cursed, "His grandmother, if the Wu family really dared to do that, just the spittle alone could drown them. They sit in such a high position, not just for them to eat and drink and enjoy, they always have to do a little practical work for the common people" No, I have to call the radio station to react to this matter"

The passenger sniffed and a smile appeared at the corner of his mouth

Campus Master Chapter 2104

The driver instantly cursed, "His grandmother, if the Wu family really dared to do that, the spit alone could drown them. They sit in such a high position, not just for them to eat and drink and enjoy, they always have to do a little practical work for the people. No, I have to call the radio station to react to this matter"

The passenger smiled, the corners of his mouth road out a smile

The same scene is being played out everywhere in different parts of Yanjing, in taxis, passengers chatting with drivers, and in parks, old fellows out for a walk gathering together and talking about this matter.

The Brilliant Group has several strategic projects at national level, especially one of the high-strength alloy material projects, which is extremely important, whether it is for the manufacture of high-tech weapons or some manufacturing industries with special needs, such as submarines, rockets, etc., all can use this new alloy material.

However, the Brilliant Group wanted to sell these projects to the Kepong people.

And because Ji Feng and He Hongwei did not want to watch such an important project fall into the hands of the Kepong people, they did not hesitate to put aside their previous grudges and even put down their stature and face to go to South Guangdong on their own initiative to make contact with the people from the Brilliant Group.

In just less than half a day, the news was already almost universally known throughout Yanjing City.

Almost everyone who cared about current affairs was talking about this news.

Ji Feng and He Hongwei's move was praised by everyone, while some of the more emotional people were cursing at the Wu family.

Everyone knew that the Brilliant Group was backed by the Wu family, and now that the Brilliant Group wanted to sell such an important project to the people of Kepong, wasn't that the Wu family's intention?!

"Originally, Kepong's technology was not below China's, and with the support of the Rice people, Kepong has been flaunting its power in front of China all day long, jumping up and down, and even making provocations from time to time! Now the Wu family wants to sell such an important project to the Kepong people, what are their intentions?"

“That’s right, thanks to that Wu Zhengmin who is still such a big leader, their Wu family can actually do such a thing, isn’t this going up to curry favour with the Kepong people!”

“Maybe this is what the Wu family did for the sake of the relationship between China and Kepong?”

“I pooh!”

“Is there such a thing as maintaining relations?”

“The Kepong people are just white eyed wolves that can’t be fed! Besides, even if we want to maintain relations, then why don’t the Kepong people sell us their advanced technology? Our country is not too developed and not too rich, so we have to give something good to others?”

“Yes, yes! Everyone knows that Kepong and China can’t really be friendly at all, there can only be one big country in the whole of Asia, so we are destined to be rivals, some people don’t think of surpassing their rivals so much, instead they want to give their most advanced things to their rivals, how stupid!”

“I really don’t know if that Wu family is the leader of our China, or the Kepong people

.....

Those who are not in the midst of it will never be able to appreciate the kind of political enthusiasm of the people of Yanjing, and that level of attention to current affairs!

However, it was because of this close attention to current affairs, as well as the keenness to national events, that the news immediately spread throughout Yanjing city as soon as it came out, which in turn caused the entire city to pay attention.

In a flash, the whole of Yanjing was talking about this matter.

On this night, it was unknown how many people were enraged by the news stated in the report.

The Wu family, as one of the several great families in Yanjing, instead of thinking about their own country, they were going to sell such an advanced and important strategic project to a foreigner!

Moreover, the one to be sold to was the Kepong people!

This instantly ignited the anger that had been pent up in the people’s chests for tens and hundreds of years.

Anyone who has feelings for this country will feel a deep-seated sense of humiliation and grief at the backwardness and defeat of China since the Manchu period, the Republic of China, the War of Resistance, and even up to now!

To expect China to be strong is what almost every patriot would like to see!

The people may not have much power to change all this, but they are willing to work hard for it, even if they are slower, but every time the country has a new technology that leads the world, everyone will feel a sense of exaltation.

Especially in recent years, the Kepong has become more and more arrogant, constantly jumping up and down to provoke, which has long made many people's hearts hold a fire, and they even want the country to declare war on the Kepong!

But under such circumstances, they actually heard the news that the Splendid Group was going to sell such an important strategic project to the Kepong people?

Can't we sell it to someone else?

Can we not sell it to someone else?

You high and mighty lords, can't you do your duty and make a little less money and think more about the country?

I don't know how many people at wanted to roar like this after hearing this news.

However, they are the ones who know that if they run to the Wu family now and shout out these words they are afraid they won't even be able to get close to the Wu family, let alone make it this far.

So the people can only talk among themselves, and when they get angry, they break into a few curses.

–Don't say anything about quality, in front of such issues, quality has become secondary, the fist of the people for the country is enough to melt everything!

It was in this mood that the whole of Yanjing came to a boil.

All of a sudden, all public opinion was pointed at the Wu family, and many people even simply followed the post on the internet, using this way to vent their anger.

Under such circumstances, even the police patrols on the streets seemed to have increased, perhaps because the top authorities had sensed the anger and agitation of the people and were worried that something might happen, so they sent more police patrols.

And from this, we can also see how far public opinion has boiled over.

I am afraid that even Ji Feng and He Hongwei did not expect that their move would cause such a violent reaction.

In fact, at the beginning, Ji Feng and He Hongwei only wanted to use public opinion and public opinion to put pressure on the Wu family, so that the family would not dare to make a decision easily, so that they could stall for time, and then He Hongwei would use other methods to ultimately achieve the goal of stopping the Brilliant Group from cooperating with the Kepong people.

As a result, Ji Feng and He Hongwei were the ones who realised that, in fact, the recent history of China is a history of humiliation, and that this statement is not just words; in the hearts of the people, there has long been a suppressed anger, and this made them understand that there are some things they do that are still worthwhile.

Of course, this is all an afterthought.

At the moment, the air in Yanjing seemed to be filled with a restless smell of gunpowder, and the Wu family, who was one of the parties involved in the incident, was equally unsettled at the moment.

The three brothers of the Wu family had once again gathered together, but the faces of the three of them were not too good, especially the oldest one, Wu Zhengxin, that could not stop gnashing his teeth, and his mouth was shattering as he did not know what he was saying, looking fierce.

“Big brother, the two little brutes from the Ji family and the He family, they are really bullying people too much!” Wu Zhengxin gritted his teeth and said, “They are trying to force the palace!”

“Yes, big brother, this time Ji Feng and He Hongwei have gone a bit too far!” Older brother Wu Zhengxiang also nodded his head and said.

There were many things that actually could not be brought to the surface, especially for these big families of the world. To put it bluntly, very often their power was above the law, if everything was made known to the common people, then how could they still exercise their privileges?

Besides, there are a lot of fops in this family, so if they are told to behave themselves, it is definitely not possible, so there must be violations of the law, if everything is reported like this, won't they be very passive?

The so-called ‘this thing can not be said too fine’, is this meaning.

But this time Ji Feng and He Hongwei are blatantly using the form of reports to make the problem public, they are going too far!

But Wu Zhengmin didn't say a word, he just sank his face, and didn't know what he was thinking.

“Big brother, we can't let them go on like this, Ji Zhenhua and that old man Ji don't know how they discipline their children, making that little wild child not have any upbringing at all and that He Hongwei, not a good thing either!” Wu Zhengxin hummed, “Dealing with the two little beasts, we need to take decisive measures before we can do anything!”

“Then what do you think we should do about it?” Wu Zhengmin asked.

Wu Zhengxin blurted out, “We also launch the media to fight back, and at the same time hammer the two little brutes, since their families have not taught them well, let's discipline and teach them”

“Should we just send someone to do away with them?!” Wu Zhengmin asked.

“Do away with?”

Wu Zhengxin was stunned, then he nodded, “That would be best, if we can do it unnoticed”

“Confused!”

Before Wu Zhengxin could finish his words, he was interrupted by a low shout from Wu Zhengmin, “Such an adult, never speaks with your head!”

Wu Zhengxin froze, “But”

“But what?”

Wu Zhengmin snorted coldly, "How do you use the media to fight back? Tell everyone that those few projects are just the most ordinary commercial projects that have nothing to do with the national strategy? Do you think the public are really that stupid?"

"What do they know" Wu Zhengxin still wanted to retort, but when he saw Wu Zhengmin's increasingly gloomy face, his voice suddenly lowered.

"Big brother, although Lao San's method is a bit radical, it is not completely unreasonable." Wu Zhengxiang said, "There is always a solution to be found, otherwise if this continues, it will definitely create a bad influence among the people."

"Of course there is a way, I have already made arrangements, but now is not the right time!" Wu Zhengmin said, "Since this matter was first started by Ji Feng and He Hongwei, then let Zhiyong handle it!"

"That's good!"

Wu Zhengxiang nodded, "Ji Feng and He Hongwei are both junior characters, if big brother personally takes action, it would be too much for them, Zhiyong must have grown a lot after this period of silence, so it would be appropriate to let him take care of it!"

"Well! Zhiyong has grown a lot recently, those two little beasts are definitely no match for him!" Wu Zhengxin said confidently at once.

Campus Master Chapter 2105

In Yanjing, night had fallen completely.

While the public was enraged by the news stated in various reports, inside a villa in Yanjing, Wu Zhiyong was sitting on a sofa with a tall glass of wine in his hand, shaking it skilfully as if he was admiring the vibrant colour of the red wine.

Instead, beside Wu Zhiyong was leaning against a woman in a silk nightgown, a woman with long chestnut-coloured wavy hair cascading down her back and a light red nightgown clinging softly to her body, allowing her luscious, convex and orderly devilish figure to appear hidden in front of Wu Zhiyong.

The woman's nightgown covered her knees, but from the calf it began to split and went upwards, the snow-white thighs were exposed, and one of Wu Zhiyong's hands kept stroking it back and forth.

The woman's face showed a look of comfortable enjoyment, her eyes slightly misty, a longing in her eyes.

Wu Zhiyong was also wearing a robe, and his hair, which was usually always exquisitely groomed, looked naturally fluffy at the moment. Looking at that look of wantonness on his face, one could imagine how comfortable he was at the moment.

"Eldest young man, I heard that Ji Feng and He Hongwei have gone to Southern Guangdong, so you should be careful!" The woman said softly.

"What, are you afraid of them?" Wu Zhiyong asked noncommittally.

“Of course not, with you by my side, I’m not afraid of anyone!” The woman shook her head slightly and said, “It’s just that, after all, those two people are not simple people, and why did they go to South Guangdong for no reason at all? I’m worried that they have bad intentions and want to do something against you

Wu Zhiyong shook his head slightly and said, “Don’t worry, it doesn’t matter what they want to do.”

Seeing the woman’s surprised look, Wu Zhiyong smiled faintly and said, “Do you think I’m a bit arrogant? Thinking that you don’t put Ji Feng and He Hongwei in your eyes at all?”

The woman pursed her lips and shook her head, saying, “Since Young Master is doing this, then he must have your intentions.”

“In fact, even if you think like this in your heart, it’s nothing, it’s a common human feeling!” Wu Zhiyong said, “Since I’ve fought Ji Feng several times in a row, I’m afraid that many people will think that I’m not a match for him, which is understandable.”

“Eldest young man, you shouldn’t bother with those people, what do they know!” The woman bristled.

“Actually, it’s understandable for them to think so.” Wu Zhiyong said, “After all, in the previous few encounters, I really didn’t get any advantage from Ji Feng’s hands. However, this time is different.”

The woman asked in surprise, “Why is that?”

In the past, when it was just Ji Feng alone, Wu Zhiyong had suffered losses, but now it was Ji Feng and He Hongwei who had joined hands to go to Southern Guangdong, if the two of them really joined hands, wouldn’t Wu Zhiyong have even less power to fight back?

But now Wu Zhiyong actually said that he actually did not put Ji Feng and He Hongwei in his eyes this time, and she was puzzled.

Seeing the surprised look on the woman’s face, Wu Zhiyong shook the tall wine glass in his hand and smiled slightly, “Perhaps to outsiders, the duo of Ji Feng and He Hongwei must be quite formidable when they join forces, but in fact, in my opinion, the more they are, the more unbeatable they are.”

Tilting his head and drinking a mouthful of red wine from his glass, Wu Zhiyong said confidently, “Frankly speaking, these two people, either one of them alone, would be a good hand, but together, they are a stinky move!”

The woman asked in surprise, “Young master, do you mean to say that these two people won’t be of one mind? The two of them might be defending each other, in which case, their internal conflict alone has already distracted them quite a bit, and it would be much easier for you to deal with them!”

“Well!”

Seemingly admiring the woman’s reaction and intelligence, Wu Zhiyong squeezed her soft and elastic legs and nodded slightly, “If it was just Ji Feng and He Hongwei, the two of them might really be able to join hands, in which case, I would definitely be scrupulous for a few moments, but they are each representing their clans, and the interests they want are different, which determines that there will definitely not be a day of honest cooperation between them!”

“Besides

Wu Zhiyong shook his head and smiled, saying, “Ji Feng and He Hongwei, they are both missing some advantages!”

“What advantages?” The woman asked.

“It’s simple, let’s say Ji Feng, right now is just a student, even if he is the son of the old Ji family, but within the system, he doesn’t count for anything, the same goes for He Hongwei, although he is the boss of a group, but he can’t say anything about the system!”

Wu Zhiyong said, “So the path that these two are taking has already doomed them to disadvantage, and as time goes on, this disadvantage will get bigger and bigger!”

In China, no industry is better than taking the career path.

Even if you work at the top of other industries, it is far worse than someone who takes the career path.

For example, if one is at the top of the business world and owns the largest group of companies in the country, a single word from a certain cadre may be enough to cause the top group of companies to fall apart and go bankrupt in an instant!

In the worst case, even the boss could be thrown into jail!

This is the power of a cadre, and this is why so many people want to work their way into the system, for this very reason.

The backgrounds that Ji Feng and He Hongwei have, Wu Zhiyong also has, and they are no worse than them. However, the capital and energy that Wu Zhiyong possesses, they may not have.

Especially in ten or twenty years from now, they may have stood at the very top of the system, while Ji Feng and He Hongwei can only look up to themselves

This is Wu Zhiyong’s confidence and his advantage!

“I get it!”

The woman had a feeling of clarity and a pleased look on her face, “Ji Feng and He Hongwei are not in the system themselves, then whatever they do in Southern Guangdong, they can only be under the control of the officials, in that case, anything they do will be under the control of Big Shao, that’s why you don’t worry about them doing anything untoward!”

“Eldest Young Master, am I right?” The woman’s beautiful eyes brightened as she asked.

“Well! Smart!”

Wu Zhiyong smiled and nodded his head, but a feeling of pleasure rose in his heart, he was deeply satisfied with the woman’s intelligence, and he was even more pleased and satisfied with the woman’s good learning, and those bright eyes.

Although Wu Zhiyong knew in his heart that a large part of the woman’s current look, which was both enlightened and somewhat worshipful, was feigned, he was still very comfortable in his heart.

A smart woman, even if she knows the answer to something, won't be afraid that others won't know how smart she is, but will leave the opportunity to the man.

At the same time, coupled with a gesture of having been conquered, it is enough to make any man feel at ease.

Wu Zhiyong squeezed the woman's elastic thighs and thought to himself, no wonder he likes her so much, what an understanding woman

"Young master, don't touch it" the woman but a delicate whisper, "pinch me again can be a bit unbearable"

"Want it?"

Wu Zhiyong smiled faintly.

The woman's eyes wavered and she whispered, "Da Shao"

"Dang"

Before the woman could put her words into words, a sharp phone ring suddenly rang, the woman choked, a complicated look flashed in her eyes, but still sat up and picked up the phone on the coffee table and handed it to Wu Zhiyong.

Wu Zhiyong gave her a smile and patted her ****, and the woman got up and went upstairs with good sense.

Only then did Wu Zhiyong reveal a satisfied smile and casually picked up the phone, "Hello, this is Wu Zhiyong, which one"

The next moment, Wu Zhiyong's brow furrowed abruptly, and he didn't know what the person on the other end of the phone had said, and his face turned gloomy. And as time passed, his face became more and more gloomy, and a thick anger flashed in his eyes.

"..... I know."

After a while, Wu Zhiyong said in a low voice, and after that, he hung up the phone.

Sitting on the sofa, Wu Zhiyong no longer had the same pleasant look he had before, his face was as gloomy as if water was about to drip out of it, and a thick flicker of anger was in his eyes.

If you look carefully, you will see that Wu Zhiyong's face is not even bulging, showing that he is constantly gritting his teeth at this moment, so you can see how annoyed he really is in his heart at this moment!

Suddenly, Wu Zhiyong raised the tall wine glass in his hand and smashed it with his hand.

"Boom~!"

There was a muffled sound, and the next moment, the tall wine glass shattered to the ground with a clatter, which was so ear-splitting in this dark night that it even startled the long-haired woman who was still walking up the stairs.

“Young master, what’s wrong?” The woman asked, startled.

“.....”

Instead, Wu Zhiyong just grimaced, his chest heaving violently without speaking.

The woman hurriedly walked down and gently came to Wu Zhiyong’s side, asking in a soft voice, “Eldest young man, what’s wrong? It’s good to say it so that I can help you share some of it

“Ji Feng and He Hongwei deceive people too much!” Wu Zhiyong roared low.

“They?”

The woman was immediately stunned, how had Ji Feng and He Hongwei been involved? Wasn’t Wu Zhiyong just now confidently saying that whatever these two people did, they would be in his grasp, how now

Could it be that Ji Feng and the two of them have done something that makes Wu Zhiyong hurt to the marrow of his bones while being unable to do anything about each other, which is why at this moment Wu Zhiyong is so furious, one could even say that he is thunderstruck?

This thought also only flashed in the woman’s mind before she immediately gently supported Wu Zhiyong and hurriedly said with concern, “Eldest young man, what is the matter first sit down and talk

She knew that the more stunned she acted, the more Wu Zhiyong’s face would hang, after all, he had spoken eloquently in front of himself only a few minutes ago, but now Ji Feng and He Hongwei had given him a resounding slap on the face with a flip of the wrist!

She was unaware that her change of expression was all seen by Wu Zhiyong, making his face instantly hot and spicy

Campus Master Chapter 2106

“Eldest

The woman whispered comfortingly, “Sit down first

Wu Zhiyong, however, did not say a word, and his face was gloomy to the extreme.

In fact, Wu Zhiyong’s emotions at the moment were incredibly complicated, he had just spoken eloquently in front of the woman, commenting on Ji Feng and He Hongwei separately, as if everything was under control, and even drew her awe and admiration.

But Wu Zhiyong could never have imagined that in the blink of an eye, he would receive news that shocked and infuriated him beyond measure, news that was simply like a direct response to what he had just said.

Reality, gave Wu Zhiyong a resounding slap in the face, vicious and direct, hitting his face hot and unforgiving!

At this moment, Wu Zhiyong didn't even dare to look at the woman's expression and gaze, because in that instant just now, he saw the dismay in the woman's eyes.

Obviously, she had also realised that her previous remarks might have been made a little too early, and she was also a little too confident.

To be overconfident was to be arrogant.

Wu Zhiyong believed that if she knew the content of the message on the phone, even if she was more knowledgeable, she would definitely subconsciously think what an arrogant person she was, especially since that performance of her own just now had highlighted her ugliness and comedy even more.

That's why Wu Zhiyong subconsciously didn't dare to say anything, or even respond to her half a word.

Because he knows that once he responds, the woman will definitely ask after what happened In fact, Wu Zhiyong knows that she is quite smart, and that one misty-eyed look she gave just now already indicates that she has probably guessed that her loss of composure is related to Ji Feng and He Hongwei.

Thinking about the way he looked just now, holding a tall glass in one hand, leisurely sipping red wine, stroking the woman's soft and elastic thighs with the other hand, and then thinking about the news he got on the phone, this before and after comparison, the previous self was simply a jumping clown!

What with everything under control, what with the advantage

All of this is a joke!

The woman beside him, Wu Zhiyong didn't even know how to explain to her what he had lost his temper over.

And if it was any other time that he had encountered a difficult problem, Wu Zhiyong might often have discussed a few things with her, but now, he was so embarrassed that he even had the urge to take the door and run away.

Because this slap not only made his eyes glow and his face burn, but it was almost in front of this woman!

Shame, embarrassment, disgrace, and the kind of groundlessness that comes with being disgraced in front of a woman

In this instant, a myriad of complicated feelings surged in Wu Zhiyong's heart.

It was as if he had suddenly returned to a moment in the past – the moment when Ji Feng had forced him to throw sewage on his own brother, Wu Zhihe, this was how he felt.

After Ji Shaodong himself had declared war on him, he was in a stern and confident position to take on Ji Shaodong, and was even ready to teach Ji Shaodong a deep lesson when, as a result, Wang Zhijun was caught by Ji Feng, and even ended up forcing the Wu family to grit their teeth and give up the old Wang family, causing the Ji family to directly strike and cut off one of the arms of the Wu family.

At that moment, Wu Zhiyong also felt the same way.

However, the previous times he had lost were due to his wrong actions, misjudging the situation and also underestimating Ji Feng's might, so although he was incomparably stifled and annoyed in his heart, he still had reasons to forgive himself because the role played by Ji Feng was crucial in those encounters.

This time, however, was different.

This time it was a situation where he did not take any action, did not make any mistakes, and from any normal thinking point of view, Ji Feng and He Hongwei could not have caused him any harm, which is why he was so confident in commenting on the advantages and disadvantages of Ji Feng and He Hongwei.

However, the cruel reality gave him an incomparable and vicious slap in the face.

The humiliation and grief in Wu Zhiyong's heart was also even more intense, because just a few minutes ago, he had put down big words ah!

It was like a person who was belittling his opponent in front of others, saying that if so-and-so dared to come, I would definitely trample him to death, but as soon as he turned around after saying that, he found his belittling opponent standing behind him, and then, before he could react, his opponent flung his hand and gave him a loud and vicious slap!

Anyone else would have been ashamed and annoyed, and the same was true of Wu Zhiyong.

However, he didn't know where to vent his anger, especially in front of others, and remembering the woman's dismayed gaze made him even more ashamed, and the feeling of humiliation made him want to find a crack in the ground!

So even though the woman had gently grabbed his hand and tried to give him comfort, Wu Zhiyong did not even dare to return his head, but just stood there, his chest heaving violently, his face incomparably gloomy and vaguely hideous.

In particular, the intense flicker of anger in his eyes was enough to show how angry he was at the moment, almost to the point of hysteria!

"Eldest young man, no matter what has happened, your own body is the most important thing."

The woman was very smart, after her initial dismay, she immediately understood what she should do most at this moment, so her tone was extraordinarily gentle, as it was when she first came together with Wu Zhiyong, "Although I don't know what exactly has happened, but Eldest Young Master, no matter for me or for the Wu family, you are the top pillar, so even for my sake You should also take care of your body"

Perhaps it was because the woman's words had touched Wu Zhiyong's heart, or perhaps it was because her words had given Wu Zhiyong a step to take, so after the initial anger, the fierce look on Wu Zhiyong's face had slightly eased at this moment.

However, Wu Zhiyong still didn't respond to her, because he had almost lost face this time!

She took Wu Zhiyong's hand and interlocked their fingers as she whispered, "Young master, sit down, don't let your anger get the better of you, whatever happens, I'm sure it won't be hard for you, because you are the one and only Wu Zhiyong!"

Wu Zhiyong slowly turned his head and glanced at her, but saw the encouragement in her eyes, and the look of hope, at this moment she was like a young wife waiting expectantly for her husband to get back on his feet.

When any man sees his woman like this, he can't help but feel a sense of pride and ambition, and Wu Zhiyong was no exception.

Although he did not have the heart to think about his ambition at the moment, his expression was softening and the scowl on his face was fading away.

When the woman saw this, she knew that Wu Zhiyong's knot had definitely been untied, but she said nothing, only smiled gently and sweetly, then took Wu Zhiyong's hand and told him to sit down slowly.

She then also sat beside Wu Zhiyong, leaned her head on his shoulder, and then without saying a word, just quietly kept him company.

If Ji Feng and He Hongwei were here, they would definitely be in awe of this woman and, at the same time, definitely feel a sense of alarm.

It has to be said that this woman is indeed very powerful, she may not have a very shrewd mind, perhaps not a very meticulous mind with countless schemes and tricks, and at the same time, she does not show any killing ruthlessness.

However, this woman is the one who understands the heart of a man the most, she knows how to encourage a man and how to give him confidence.

This is definitely a wise woman!

It is not even too much to say that she is a virtuous helper.

If Ji Feng and He Hongwei knew that there was such a woman by Wu Zhiyong's side, I'm afraid that they would definitely put a large part of their energy into this woman's body.

Because very often, the role that a woman can play will exceed everyone's imagination!

It was also because of having this woman by his side that Wu Zhiyong's emotions had finally smoothed out a bit after his initial anger and frustration.

Of course, the kind of humiliation and grief in his heart was not so easy to remove.

The woman could give him a step down and enable him to sit down and think as calmly as possible, but she could not directly defeat Ji Feng and He Hongwei and give Wu Zhiyong supreme glory.

So, Wu Zhiyong was still annoyed and humiliated, but he was able to pull his face down and sit down.

Sitting on the sofa, the woman was very sensible and did not ask anything, she knew that something must have happened that Wu Zhiyong had not expected, because when Wu Zhiyong was angry, he looked at her with an incomparable look of embarrassment and shame in his eyes.

At that moment she realised that she was afraid that something had happened that had caused Wuzhiyong immense shame.

But the more she was in this situation, the more she could not ask, she had to give Wu Zhiyong face, otherwise, Wu Zhiyong was afraid that he would really do something irrational in his anger, and then the consequences would definitely be more serious.

However, while being silent, a thought flashed through her mind, "Could it be that Ji Feng and He Hongwei had done something that made Wu Zhiyong simply unable to fight back, and that was why he looked so humiliated and grief-stricken?"

If that was the case, then Wu Zhiyong's previous comments about the two of them and that confident look had really become a joke!

She couldn't help but let out a soft sigh in her heart, perhaps, Wu Zhiyong really wasn't as powerful as her outside rumors, at least, compared to Ji Feng, it seemed like Wu Zhiyong had never been able to get an advantage in front of him.

This made her more or less curious about Ji Feng. It was said that that was just a wild child who grew up with his mother and was not even very well brought up, and was several years younger than Wu Zhiyong, how could he have such a great ability to force Wu Zhiyong to this extent several times?

Was Wu Zhiyong too stupid, or was Ji Feng too powerful?

Campus Master Chapter 2107

Was Wu Zhiyong too stupid, or was Ji Feng too powerful?

This question made her unable to answer.

If someone said that Wu Zhiyong was stupid, there was no telling how many people would scoff if the word got out, or even call her the stupid one.

Not to mention that Wu Zhiyong himself was extremely outstanding, among the third generation of the major families in Yanjing, Ji Shaodong of the Ji family, He Hongwei of the He family, and Xiang Yongzhan of the Xiang family, they were only on par with Wu Zhiyong, this alone was enough to show how outstanding and excellent Wu Zhiyong was.

In particular, Wu Zhiyong's steady style within the system and his style of a great general are praised by many people of the older generation.

In fact, the mere fact that Wu Zhiyong comes from the Wu family is enough to make him have the capital to be outstanding.

Because being born into such a large family, even a foolish person is much more powerful than a young man from the common people. This is not just due to the high or low level of talent, but more importantly because in such a large family, from the moment he is born, what he has seen and heard, his eyesight, is already much higher than that of a child from an ordinary family.

This is something that no one else can compare with.

So as long as one is not a fool, those who grow up in this kind of environment, that mind and strategy are not comparable to ordinary people.

Not to mention that Wu Zhiyong himself was quite shrewd, so how could he be associated with the word stupidity?

However, such a powerful Wu Zhiyong was defeated in the hands of Ji Feng, which could only mean that Ji Feng was even more powerful than Wu Zhiyong.

Otherwise, how could Ji Feng have fought against Wu Zhiyong?!

“What a formidable fellow!” The woman couldn’t help but secretly sigh in her heart.

Wu Zhiyong was from a famous family, and was also being trained in a key way, what he had learned and seen, that was not comparable to others.

But what about Ji Feng?

I heard that before he was even born, his mother, Xiao Su Mei, had already left Yanjing and returned to her old home. Moreover, after she returned to her hometown, Xiao Sumei was completely unpopular with her family, and I heard that she eventually left her hometown again to make a living by collecting rags in a small county.

Ji Feng was born in this kind of environment, and he had suffered from the blank stares of others since he was young, and he didn’t even have a few friends.

As for what he had learned, it was even more insignificant.

Imagine what he could learn in that poor and backward small county? Apart from what was written in books, I’m afraid he didn’t even understand some basic common sense in the big city. Not to mention all kinds of schemes, and some things in the system.

If Ji Zhenhua hadn’t sent someone to find them later, I’m afraid it would still be a question whether Ji Feng could continue to go to university now – it is said that Ji Feng and his mother and son were not well off at that time, and even in junior high school, Ji Feng had defaulted on his tuition fees several times and was almost not ordered to drop out of school.

How could a person who grew up in such an environment be any better?

At least in the process of growing up, he had already lost out to other people of his age who came from good families, and he could not compare with Wu Zhiyong who had received a good education and had been nurtured from a young age.

However, what everyone could not expect was that Ji Feng, who grew up in that environment, would be so powerful.

It was said that as soon as he returned to the Ji family in Yanjing, he taught a lesson to a few of the Ji family’s fops who looked down on him, immediately calming those guys down and establishing his authority.

Next, Ji Feng even used a series of brilliant achievements to let people see how an extremely outstanding young man could rise to power.

The creation of the Brilliant Group, the fight against the Qiao family, the defeat of Wu Zhiyong one after another

This string of achievements, even for the three Yanjing Jiejie, who were praised by almost all the older generation, were none of them.

And these glorious achievements, even if they were placed on Ji Shaodong or He Hongwei, that would be dazzling enough, but, these things were actually done by Ji Feng, this was really shocking.

This woman couldn't help but have a strong curiosity rise in her heart, this Ji Feng, what kind of a person is he, how can he be so powerful?!

Just by looking at Wu Zhiyong at this moment, sad and angry, shocked and yet with a sense of powerlessness, one would know how powerful Ji Feng really was.

She had never seen Wu Zhiyong like this before, and all of this was caused by Ji Feng!

This in turn made her intensely curious about Ji Feng and at the same time, she couldn't help but feel some hostility in her heart, if it wasn't for Ji Feng, at this moment, Wu Zhiyong would definitely still be like he was just now, full of vigor and confidence

"Hoo~~!"

Suddenly, Wu Zhiyong's body leaned back slightly and rested on the sofa while letting out a long breath.

The woman immediately raised her head and gently asked, "Young master, would you like a glass of water? I'll go and pour it for you?"

Wu Zhiyong, however, slowly shook his head and said, "No need."

The woman then nodded her head slightly and was good enough to stop talking.

After a few more moments, Wu Zhiyong said, "It seems that I can't stay here with you today, something has come up outside and I have to go deal with it."

"Mmm!"

She nodded good-naturedly and let out a snort, "Big young man, be safe!"

"Don't worry, you don't have to worry about my safety!" Wu Zhiyong patted her hand, gritted his teeth and sneered, "Even if Ji Feng is more powerful, he wouldn't dare to do anything to me, otherwise, he wouldn't have a good time"

"It's really because of Ji Feng!" The woman secretly said.

"Ji Feng"

Wu Zhiyong bared his teeth, the cold light in his eyes flashed, and his face became a bit fierce: "Since you are so aggressive, then don't blame me! simply deceive people too much!"

The woman's heart suddenly jumped, Wu Zhiyong this last sentence, will also reveal Wu Zhiyong at this time in the heart of the grief and anger, visible Ji Feng's behavior, is definitely a Wu Zhiyong brought a

great impact, otherwise, Wu Zhiyong will not use 'aggressive' and 'bullying too much' one after another!
' to describe!

Once upon a time

would the youngest member of the Wu family have been pushed to this point, even thinking that the other party was bullying him?!

"Well, it's getting late, you should rest early." Wu Zhiyong stood up with a touch of ruthlessness on his face, "When I'm done with my business, I'll come back for you."

"Mhmm!"

Watching Wu Zhiyong stride away, even as he walked down the door steps, he couldn't help but stagger, the woman stood at the door with a touch of worry on her face, Wu Zhiyong was already like this now, could he fight Ji Feng?

.....

Meanwhile, inside a courtyard in Yanjing, at the entrance of the main hall, there was a wheelchair.

A somewhat thin, short-haired woman sat in the wheelchair, her hands resting on the armrests, motionless, appearing somewhat twilight, as if she had the taste of a windbag.

Looking closely, this was a woman of about 40 or 50 years old, her face was somewhat pale, perhaps because of her long term illness, making her look older than her actual age, with many wrinkles on her face.

If Ji Feng were here, he would have recognised at first glance that this woman was no other than Qiao Rong, the former head of the Qiao family with whom he had a deep grudge, Qiao Rong!

At this moment, Qiao Rong was sitting in a wheelchair, her eyelids drooping, occasionally looking into the distance, revealing her eyes were extraordinarily cold, coupled with the depressed and sullen atmosphere inside the courtyard, one could not help but have a chilling feeling at the back.

Standing next to the door was a young girl, a nanny who was responsible for taking care of Qiao Rong's life, but even though she had been with her all day, she still had a creepy feeling at the moment.

It was really because the person she was serving was so terrifying, just that look in her eyes seemed to be able to pierce through people, and there was a kind of eerie feeling.

There was some fear in her heart.

Originally, before she came, the person who introduced her said that she would be serving a woman who was no longer very sane and was seriously ill, but how could a person who was seriously ill and delirious have that kind of eerie gaze?

However, seeing that this woman was usually sitting in a wheelchair, muttering something in her mouth, and with a cold glint in her eyes, the little nanny was very frightened and began to wonder if this woman might have developed from delirium to neurosis.

At this moment, Qiao Rong, who was sitting in a wheelchair, did not know what the little nanny was thinking. She narrowed her eyes and had a cold smile at the corner of her mouth, which was very morose.

“That little beast has caused trouble again?”

Qiao Rong suddenly grinned and laughed coldly in a low voice, “He actually even got together with the He family’s little brat and went to Southern Guangdong to cause trouble really deserves to die!”

“Little brat

The cold smile on Qiao Rong’s face steeply disappeared again, replaced by a deep sanguine look: “Something that shall not die well! Go ahead, make as much noise as you like, I’ll see how long you can make a scene! When you have truly angered the Martial Family, it will be the time of your death!”

“But don’t worry I won’t let you die at the hands of the Martial Family, because, you’re mine!” Qiao Rong cackled coldly, that voice was extraordinarily seeping, “Everything you brought me, I will pay you back ten times a hundred, not just you, I will also pay back on your family, anyone around you

“I, one by one, will cut the flesh off your body

Qiao Rong’s eyes with a splash of blood red, the look is extraordinarily hideous, her face but with a slight look of madness, “Wait, this day is not far away, I look forward to it!”

However, the little nanny standing in the doorway at this moment was terrified, her heart shrieking, “It’s over, it’s over, this psycho is muttering to herself again, she’s going to kill someone Luckily she can’t stand up, she can only sit in a wheelchair... ..”

“No, will she suddenly attack me later when I’m pushing the wheelchair?”

“Also, if I rub her body every day, will she just now she’s not talking about me, is she?” The more the little nanny thought about it, the more frightened she was, and she was on the verge of tears.

“Little beast!”

Qiao Rong suddenly screamed miserably, not knowing what she remembered, and vented hysterically, scaring the little nanny into hiding behind the pillar at the door, showing only one head

Campus Master Chapter 2108

When the sky was white, Ji Feng habitually woke up early, but he did not open his eyes immediately, but lay motionless on the bed with his eyes closed, keeping the same appearance as when he was asleep. A few seconds later, he slowly opened his eyes, then turned his head towards the two sides and looked and sat up.

For ordinary people, waking up and getting up is a very simple process. However, Ji Feng, who was already used to the cruel training of super agents, had developed a habit – after waking up, he would not open his eyes immediately, but would first quietly feel the surroundings to see if there was any unknown danger.

In fact, when he was training in the super agent training space of the intelligent brain, Ji Feng had relied on this habit to 'save' himself several times!

Even if he slept late the first night or got drunk, he would definitely wake up early the next morning, and at the same time, he still kept the habit of secretly observing his environment before getting up!

This time was also no exception.

However, Ji Feng did feel something different from the past – it seemed a bit stuffy today.

He immediately dressed and walked to the window, pulled open the curtains and looked out, but found that the eastern sky was already glowing fish-belly white, the weather wasn't that bad.

He couldn't help but shake his head, if this kind of muggy weather appeared in Jiangzhou, it meant that it was likely to change, but here it was so normal.

"What the hell kind of weather"

"Bang Bang Bang~!"

Suddenly, a sharp knock on the door came suddenly, followed by He Hongwei's voice ringing outside the door, "Ji Feng! Ji Feng! Are you awake yet?!"

Ji Feng was slightly surprised, it seemed that He Hongwei had lost his temper a little.

He quickly walked over and opened the door to his room, and immediately saw He Hongwei standing at the door, raising his hand, apparently still ready to continue knocking.

"Brother Hongwei, you're knocking on the door so urgently this early in the morning, are you asking me to go out for morning practice together?" Ji Feng asked with a smile.

"Where is the time to go for morning practice na" He Hongwei shook his head and said with a bitter smile, "Ji Feng, there are some accidents over in Yanjing, and things have developed, probably beyond my expectations."

"Accident?"

Ji Feng was slightly stunned and immediately asked, "What kind of accident? Is there something wrong with the media's report? Or has the Wu family started to fight back?"

He Hongwei said, "Are you awake now? Let's sit down and talk in detail!"

Ji Feng smiled and gave way, He Hongwei immediately walked in and then sat down on the sofa, only then did Ji Feng notice that in his other hand he was holding a stack of newspapers and a folder.

"Tell me, what's going on?" Ji Feng asked.

"You haven't forgotten the report from last night, have you?" He Hongwei asked.

"I don't have amnesia, something that happened only yesterday, how could I forget?!" Ji Feng laughed, "Just say what's going on, don't beat around the bush."

He Hongwei shook his head and said, "It's not that I want to beat around the bush, the cause of the matter was the report last night."

Ji Feng immediately asked, "The report didn't have the desired effect?"

He was a bit surprised, according to reason, he had already made the arrangements, and coupled with the media coverage, it could definitely form a certain public opinion advantage and put pressure on the Wu family, it shouldn't be ineffective.

Who knew, but He Hongwei said, "It's not that there is no effect, but it's down too good, even, a little too good."

When Ji Feng smiled, his brows immediately furrowed as he asked, "What do you mean?"

"Originally, according to our plan, we used public opinion to put pressure on the Wu family so that they would hesitate and not dare to make a decision easily, so that we could buy time for our action, right?" He Hongwei asked.

"That's right!"

Ji Feng nodded, "It looks like public opinion has already been formed, right? Then what else do you have to worry about, go straight to the next step!"

He Hongwei shook his head and said, "The point is, we have underestimated the enthusiasm of the public for this matter, the whole of Yanjing is now talking about this matter, and it has already started to spread to the surrounding cities. ..."

He Hongwei quickly told the latest news he had received, especially focusing on the fact that the public was extremely angry with the Wu family and almost everyone was talking about it.

After listening, Ji Feng couldn't help but say, "This situation, I've already predicted it, in the hearts of us ordinary people, this fire has been bottled up for I don't know how many years, we've been looking forward to our country being strong for a long time, we don't want to see the Boundary Pontiffs jumping up and down in the east, even the Vietnamese and Filipinos have jumped out and bared their teeth at us... ..."

He said with emotion, "This, is the fistful of patriotism of the people!"

China has been weak for many years, so any kind of cats and dogs dare to jump out and provoke a few words, and some even dare to take action against Chinese people directly, such as finding some random bullshit reason to arrest Chinese fishermen, and some even, without even greeting them, directly drive their ships to ram Chinese fishermen's fishing boats.

Most arrogantly, there were several countries' naval patrols that went so far as to shoot directly at the fishermen operating within China's territorial waters.

And in the end, even when China protested, the other side only paid out some money

This one incident has long been suppressed in the hearts of the people and has built up a strong anger in everyone's heart.

Even those who open their mouths and shut their mouths to curse the leaders above them, or even the bad guys who are bullying others, are equally furious when faced with outsiders bullying the Chinese.

However, there is nowhere to vent their anger, because China is not strong enough, other countries are not afraid at all, and there is internal state suppression, so the people can only hold back their anger, but that heart, but also not calm.

And now they suddenly heard that the Wu family was actually going to sell such an important project to the Kepong people, how could they not be angry?

“Weren’t you also angry at first when you heard the news?” Ji Feng laughed, “Besides, forming public opinion pressure, isn’t that what we’re aiming for, what’s so strange about that?”

“I certainly understand that the people’s hearts are available!” He Hongwei said, “However, the public’s reaction is only strong or beyond my expectation, so I have a few worries.”

“Worried about what?” Ji Feng asked.

He Hongwei said, “I’m worried that the public’s reaction is so intense, if this storm of public opinion once continues, will people do anything excessive, or even cause some kind of chaos, I do want them to form public opinion pressure, but never thought of using the public to create any chaos, because that would instead bring harm to them!”

Ji Feng nodded slightly and asked again, “What else?”

“Secondly, I’m also worried that as the public’s reaction becomes more and more intense, by then the pressure the Wu family is facing will be too great, making it impossible for them to even try to use the slope to get down, and will the Wu family end up taking any drastic measures.” He Hongwei said.

Ji Feng’s gaze instantly went cold and he blurted out, “For example, directly sending people to deliberately guide those angry people, so that they can create chaos and then take the opportunity to suppress”

Once such a situation arises, when the time comes, even the highest level cannot carry such pressure and must step in to stop it, and at this time, with a little guidance from the Wu family, the people can be made to think that this chaos was deliberately created by someone with a heart, then in this way, the spearhead will point directly at him and He Hongwei!

In this way, it would hit the agitated people hard and hit him and He Hongwei hard at the same time This is the kind of thing that the Wu family can do.

As for the casualties of the people in the process what the Wu family wants is that the people must be casualties, otherwise how can they make the highest level sit up? In this situation, some people are dying for more people to die, so how could they possibly think about the people?

“Then what you mean is” Ji Feng looked at He Hongwei.

“I’m just going to use the yo-yo of the public to create public opinion pressure and put pressure on the Wu family, which won’t do them any harm, not to mention that the public should also have the right to know. However, I definitely won’t know that there is danger ahead and instead of stopping, I will use them This kind of thing, I can’t do it!”

He Hongwei shook his head, "Therefore, I plan to ask some people to defend the Wu family in the media."

"You are planning to form a scolding war in the media so that you can divert some of the public's attention and let them know the truth of the matter without making them rush to the front line?" Ji Feng asked.

"That's right!"

He Hongwei said, "From the information I got, it's likely that a storm of public opinion will form soon, and once that time comes, it will be too late for us to do anything, so now we have to act ahead of time!"

Ji Feng said, "If you really do this, I'm afraid all this work you've done before will go down the drain."

"That can't be helped, for everything you do, there must be certain prerequisites!"

He Hongwei said, "If it is said that stopping the cooperation between the Brilliant Group and the Boundary Pontiffs must seriously harm the interests of many people, then I think that there is not much point in doing it!"

Ji Feng nodded slightly and said, "Brother Hongwei, you've really impressed me today."

He Hongwei shook his head and laughed bitterly, "You just don't tease me, I have to admit that my previous plan failed, this is undoubtedly a blow to my head ah, next I have to seize all the time, maybe I can still stop the cooperation between the Brilliant Group and the Boundary Peng people ashamed ah! "

"What is there to be ashamed of?!" Ji Feng said, "If you ask me, you should be proud!"

"All right old brother you just let me go, if you continue to banter, I'll have to find a crack in the ground, poor planning, incomplete consideration, thanks to the fact that I was still full of confidence before, and even made a wild statement to stop the cooperation between the Brilliant Group and the Boundary Pontiff... .." He Hongwei shook his head and laughed bitterly.

Campus Master Chapter 2109

"All right elder brother you just let me go, if you keep bantering, I'll have to find a crack in the ground, poor planning, incomplete consideration, thanks to my previous confidence, even spouting wild words to stop the cooperation between the Brilliant Group and the Boundary Peng people... .." He Hongwei shook his head and laughed bitterly.

However, Ji Feng shook his head and laughed, saying, "I don't see it that way, I don't think that's wild talk, I'd say it's more like bravado."

Hearing this, the bitter smile on He Hongwei's face intensified as he shook his head and said, "If the gap with reality is too big, grand words are just that, grand words!"

Originally, He Hongwei was indeed very confident, although he did not dare to say that he was determined to win, but at least he had a good idea in his mind and knew that he still had a good chance

of winning this time, because what the Wu family had done was not in line with the hearts of the people.

It was precisely because of this that He Hongwei intended to use public opinion to put pressure on the Wu family.

However, He Hongwei did not anticipate that the public's reaction would be too intense. The reports he instructed the media to send out were like a fuse that instantly ignited a powder keg.

When He Hongwei found out the reaction of the people, he immediately realised that he had taken things for granted.

And if he continued, it would probably have serious consequences. He himself might be fine, but the people who had overreacted would be out of luck.

So, after much consideration, He Hongwei finally made up his mind that he would change his plan. To put it more harshly, he was going to shoot himself in the foot!

He Hongwei decided that he would send someone to sing against himself in the media as a way to divert the attention of the people!

This would alleviate some of the people's overwhelming anger, but the public pressure he had deliberately created before would be greatly diminished, and by then, instead of serving to put pressure on the Wu family, he, He Hongwei, would all be ridiculed by the Wu family.

He might even become a laughing stock in the entire Yanjing circle!

But He Hongwei had no choice!

He could not base his success on the sacrifice of those innocent people, so He Hongwei could only decide to give up.

However, Ji Feng shook his head and smiled at his words, "Brother Hongwei, I do think that you are too pessimistic."

He Hongwei gave him a look, "So, you're planning to comfort me?"

"Heh~~~"

Ji Feng shook his head and laughed: "I'm afraid I have to let you down, I can't comfort people, at most I can accompany you for a couple of drinks and a chat But I think, it's not that pessimistic yet, right?"

He Hongwei asked, "Then what do you mean"

Ji Feng did not rush to answer, but sat on the sofa and carefully deliberated, at the same time, the smile on his face disappeared, and his fingers tapped on the coffee table one by one.

He Hongwei seemed to have realised something, and his face suddenly turned serious, his gaze fixed on Ji Feng, road out a hint of expectation.

He knew that Ji Feng was thinking so deliberately at the moment, that he was obviously not thinking about how to admit defeat to the Wu family, much less how to punch himself in the face in the newspapers and other media!

Then, I am afraid that there is only one content for Ji Feng to be thinking so carefully – he is thinking about how to defuse the crisis at hand.

Thinking about the fact that from the very beginning, Ji Feng had never shown a nervous look, He Hongwei suddenly realised that perhaps Ji Feng had already had a way to deal with the situation, and that he was the one who was a bit confused.

No wonder this guy has been ridiculing and flirting with himself, without any semblance of disillusionment, this bastard

“Swish~!”

Suddenly, Ji Feng fiercely had a flash of light in his eyes, and He Hongwei immediately asked, “What about it?”

Ji Feng pondered for a moment and asked, “Brother Hongwei, do you think that if a storm of public opinion really formed in the country, would the Wu family really dare to do that?”

He Hongwei nodded his head without hesitation, “I think they dare! I believe you should know more about the Wu family’s style than I do, and it would be strange if the Wu family’s people weren’t ruthless!”

“Heh~~!”

Ji Feng couldn’t help but shake his head and laugh, regarding He Hongwei’s comment about the Wu Family, he also felt that it was pertinent. If the Wu family wasn’t ruthless, their family wouldn’t be so stable.

In fact, anyone who really takes up a high position must have a certain degree of ruthlessness, because the higher the position, the more fierce the competition, and the more dangerous this process of taking up a high position is, without sufficient means, and a ruthless wrist, I am afraid that they would have been known as a stepping stone under the feet of others.

As for the military families, it is even more so.

Since ancient times, it has been said that mercy does not rule the army and righteousness does not rule money. Those who are soft-hearted will not be able to lead troops well, and the army also focuses more on their own strength and more on fighting and killing.

If you can fight your way out of a thousand armies, from a heavy siege, and then rise to the top, then the vast majority of people will obey you, because you have earned it by your own strength and means, and the military reveres the strongest.

In fact, whether it is the military or the political arena, in many ways they are all connected.

However, the ruthlessness of the Wu family is still different, and Wu Zhiyong is a typical representative.

At least, throwing dirty water on one's own brother's body so as to clear oneself is something that an ordinary person would never be able to do.

Perhaps Wu Zhiyong can be considered a lord, so it is understandable that he did so, but his ruthlessness is also shown to the fullest through this series of things.

So as soon as Ji Feng asked, He Hongwei nodded without hesitation, he believed that if this public opinion storm continued to develop, when the time came the Wu family would be able to do absolutely anything, as long as it was to their advantage, they would definitely do it, there was no doubt about it.

In the face of the possibility of **** the ruthlessness of the Wu family, I'm afraid the highest levels above can only acquiesce.

This is what He Hongwei is most worried about.

"But I think then that the Wu family wouldn't dare to do that!" Ji Feng mused.

"How so?" He Hongwei asked at once, "What is your basis for thinking so?"

"Because I think that the Wu family doesn't have that kind of guts!" Ji Feng said in a deep voice, "This is not the past, and the people are not the weak objects that could be slaughtered in the past, if the Wu family really dared to do this, not to mention that the top would not agree, even the other families would oppose it with all their might."

Ji Feng said in a deep voice: "You surely know better than anyone, who would like to see social unrest, so even though many forces are fighting for power and profit and struggling with each other, they would rarely take advantage of the people, except for those who have bad intentions. I don't believe then that the Wu family would dare to risk the world?!"

He Hongwei frowned, "And what if the Wu Family really dared to do so?"

He said, "Don't you forget that even if all the other clans oppose it, the Martial Family is completely free to sacrifice someone as a scapegoat. If they can take this opportunity to knock us both off, perhaps the Martial Family would be willing to break even an arm"

"Hehe" Ji Feng instantly laughed.

"Don't you laugh! It's not that I'm arrogant, let alone that I think highly of myself, you should understand that what I'm saying is justified!" He Hongwei said.

"Well!"

Ji Feng smiled and nodded his head, saying, "I know."

Indeed, what He Hongwei said made sense, and to put it mildly without boasting, if it was possible to beat up the important people in the third generation of the two families, the He Family and the Ji Family, in one go, the Wu Family would rather break their own arms than definitely let go of this opportunity.

In fact, if they were in their shoes, they would never miss the chance to beat up Wu Zhiyong.

What's more, He Hongwei himself is still the leader of the third generation of the He family and is the future hope of the He family. If the Wu family could knock him off, it would be a huge profit even if they had to pay a certain price at that time.

Because once He Hongwei falls, within the next few decades, it will be difficult for the He family to find a successor who can be as good as He Hongwei, and by then, the He family will most likely fall, while the Wu family is the one that can rise strongly

However, Ji Feng only shook his head and smiled, saying, "The Wu family doesn't have that ability!"

"How are you so sure?" He Hongwei asked.

"Could it be that your family will stand by and watch you being suppressed by the Wu family?" Ji Feng asked rhetorically.

He Hongwei suddenly ran out of words.

Ji Feng shook his head and said in a deep voice, "Brother Hongwei, I think you are a bit confused now. First of all, according to what you said, the scope of the public's hot debate now is only in Yanjing, and we all know that the people in Yanjing are the most concerned about politics. As for how people elsewhere are reacting to this, we don't know anything yet, so it's too early to draw any conclusions. How can I put it, I come from the lowest level, so I should have a bit more say in this regard"

Ji Feng paused and said, "In fact, for many people, even if they know that someone has betrayed the interests of the country, at most they will only curse twice on their lips, because for many people, the most important thing is to run for their livelihood, national events, too far away from them, so the kind of public opinion storm like you said, I do not see the possibility of forming! "

"Also, even if we are wrong in our judgement, when the time comes that the Wu family wants to strike hard, will the Ji family and the He family do nothing and just watch us plant our heads?" Ji Feng shook his head and smiled.

"Besides, even if the Wu family's people are ruthless, but do they have the guts to do so? Unless they really want to pick two at once or even challenge more clans, but in that case, the Martial Family might end up having to lose more than just an arm!"

It was long past the time when individuals were powerful and one family was dominant. Nowadays, no family would dare to actually challenge several opponents directly, fight on two fronts, or even on multiple fronts, unless they wanted to die themselves!

Ji Feng could assert that the Wu family likewise wouldn't dare!

Campus Master Chapter 2110

"So I think that you don't need to have any worries at all!"

Ji Feng concluded, "What the Wu family can do, our two families can stop, right now it's because the older generation of the Wu family haven't even made a move yet, so both of our families haven't made any moves yet either, but if they do hum!"

Ji Feng sneered: "Exactly what should be done, the Wu family is also to weigh up, ruthless heart, but does not mean that the guts are also big! Now, it's our business with the Brilliant Group, don't worry so much!"

He Hongwei shook his head and said, "It would be nice if it was really that simple"

"If you don't believe it, then just watch!" Ji Feng had a confident glow in his eyes, "I'm sure that things will never go as far as you say, unless the Wu family directly rebels"

"Rebellion"

He Hongwei immediately shook his head and lost his smile: "It seems that I am really a bit concerned?"

Ji Feng shook his head and laughed: "I do think that you should be the one who is confused by the authorities here."

With He Hongwei's intelligence, there was no need for others to analyze these things for him, but he himself was in the middle of the situation, so he couldn't see it for a while.

Of course, Ji Feng guessed that the reason why He Hongwei was a bit out of shape was because he was under great pressure, so he always had to be careful when doing things, which made him more or less tied up, not bringing his abilities into play at all!

But these were things that Ji Feng said would not be of much use, because it could only be solved by He Hongwei himself.

However, Ji Feng knew that the reason why He Hongwei was under so much pressure was because of a few reasons.

First of all, I am afraid it is because of Wu Zhiyong.

The Brilliant Group was the private property of the Wu family, so this time they came to Southern Guangdong to stop the cooperation between the Brilliant Group and the Kepong people, and that was undoubtedly to fight with the Wu family.

As the leader of the third generation of the Wu family, he would definitely intervene in this matter. In that case, there would be an inevitable battle between He Hongwei and Wu Zhiyong, and one could even say that it would be a direct face-to-face contest!

This was what He Hongwei was looking forward to the most, but also what he was most worried about.

He was waiting for the day when he could burst out hysterically and hit Wu Zhiyong hard, so as to wipe out his shame.

It was because he attached so much importance to this upcoming encounter that He Hongwei did not want to lose in any way, so he attached extra importance to it, and his spirit was always on high alert.

What's more, it's now in South Guangdong, which is the territory of the Wu family, and it's the Wu family that is taking the initiative, and he, He Hongwei, is initiating an offensive battle, and from this point of view this contest He Hongwei is at a bit of a disadvantage, and it's not quite fair.

So He Hongwei's nerves are more tense and cautious.

He wants to do his best to win this battle so that he can wipe out his shame!

If he loses this time, he will never be able to hold his head up in front of Wu Zhiyong in his life. He had lost to Wu Zhiyong on the issue of women, and if he loses to Wu Zhiyong in his career, he will be completely and utterly trampled under Wu Zhiyong's feet.

This humiliation, He Hongwei absolutely could not bear, so he demanded that he had to win, without any excuse and without any retreat, because from the moment he came to South Guangdong, he had no way back.

I believe that for any person, this kind of pressure is enough to strain one's spirit to the extreme, and I'm afraid that anyone with a slightly lesser resistance to pressure would be in a trance.

But let's not forget that the humiliation had been weighing on He Hongwei's mind for several years, so we can see how much pressure He Hongwei was under!

Another reason for the increased pressure was perhaps because he was worried about the safety of the people.

He did not want to see the people getting agitated because of him, and as a result, they would end up being used by the Martial Family, and there would even be major casualties.

It was also because of these two reasons that He Hongwei's hands were tied and he could not do anything at all, instead he was carrying a heavy pressure on his body, so much so that he lost his temper before.

However, Ji Feng was somewhat relieved in his heart.

Not for any other reason, but because of He Hongwei's attitude towards the people.

Because he came from the lowest strata of society, Ji Feng had complete personal experience of the kind of vulnerability and helplessness of the people.

Therefore, he dislikes seeing those rich people or some official lords, fops and so on, all high and mighty, even now he has also become a fop in the eyes of others, rich and powerful, but his feelings and concepts have never changed. Even he had never felt how great he was.

It was for this reason that He Hongwei's attitude made Ji Feng appreciate it.

Ji Feng felt that perhaps this was the reason why the two could be friends, if He Hongwei didn't put ordinary people in his eyes at all and had a completely superior attitude in his bones, then I think he would never become Ji Feng's friend.

"Alright!"

Ji Feng smiled and patted He Hongwei's shoulder and said, "It seems that I can't convince you this time, so how about this, I have a proposal"

He Hongwei immediately asked, "What proposal?"

Ji Feng said, "Anyway, nothing has happened yet, and the storm of public opinion has not yet formed, so you should do what you should continue to do, I'll keep an eye on the Wu family's side, and if they really

show any signs of making a move, we'll immediately do what you said and hit ourselves in the face in the media!"

After a moment of deliberation, He Hongwei immediately nodded his head.

He was very wise himself, only this time it was because he was in the middle of a situation, and the pressure was too much that he had messed up a bit, now that they had discussed a tone, then He Hongwei immediately reverted to his decisive state.

"Let's do it!"

He Hongwei slapped his thigh and stood up violently, saying in a deep voice, "Ji Feng, I'll trouble you on the Wu family's side."

Ji Feng smiled and nodded, saying, "Don't worry, there will definitely be no problem on the Wu family's side, I'll be waiting to hear your good news!"

He Hongwei nodded, and without saying anything more, he walked out with big steps.

After waiting for He Hongwei to leave, Ji Feng couldn't help but shake his head, the smile on his face disappeared, and his expression was somewhat grave: "It looks like the situation on the Yanjing side really needs to be closely watched"

Since helping to arrange some media yesterday, Ji Feng hadn't really paid attention to the situation over in Yanjing, and if he hadn't heard about it from He Hongwei, he wouldn't have known that the public would actually have such a strong reaction after seeing the reports, which Ji Feng hadn't expected.

However, hearing He Hongwei talk about the people's anger, Ji Feng couldn't help but feel a sense of fervour.

The fist of the people was no different from his.

In fact, how could he not want the country to be even stronger? When he knew that other countries were jumping up and down to oppress China, he was equally annoyed.

The hearts of the people are available!

Ji Feng secretly said with emotion.

"Knock, knock, knock" Suddenly, there was another sharp knock on the door, Ji Feng couldn't help but stare, He Hongwei had just left, who would be knocking on the door again?

At this time, Bai Zhu, who came out of the suite, quickly walked over and opened the door, only to find that the person standing outside the door was actually still He Hongwei.

Ji Feng couldn't help but ask, "Why are you back again? There's something else"

Before he could finish his words, he saw that He Hongwei was holding a phone by his ear with one hand, and he was making a phone call.

He Hongwei pointed to the phone by his ear and then said a few words wordlessly with his mouth.

Ji Feng, however, frowned furiously as he recognised that what He Hongwei was saying was, “Wu Zhiyong!”

He Hongwei was talking to Wu Zhiyong on the phone!

Moreover, the call seemed to be from Wu Zhiyong?

Ji Feng was amazed that these two enemies, who were almost deadly enemies, could still talk on the phone, and looking at He Hongwei’s face, it was only a bit gloomy, but it didn’t look angry or furious.

Wu Zhiyong didn’t know what he said on the phone, He Hongwei just listened quietly, and only after a while did he say indifferently, “Wu Zhiyong, you’ve already lost your status by calling this number, don’t be in a hurry to reveal your stupidity and inferiority, let’s see the real thing underhand!”

After saying that, he coldly snorted, “And there’s no need for me to relay it for you, he’s right in front of him now, if you have anything to say, you can tell him directly!”

Ji Feng pointed at himself, He Hongwei nodded and handed over the phone, “Wu Zhiyong wants to talk to you!”

Ji Feng took the phone and said indifferently, “Wu Zhiyong, don’t you think that it’s inappropriate to call now?”

“..... Ji Feng!”

Wu Zhiyong’s voice came over the phone, appearing low, seemingly forcing down his anger: “Don’t challenge my bottom line again and again, I’m telling you, there’s a limit to my patience!”

Ji Feng shook his head and smiled, “If that’s all you want to say, then we have nothing more to say!”

And the bottom line

“What do you know!”

Wu Zhiyong, however, roared low: “You’re a wild child from the countryside, what do you know?! You think you’re a hero, but don’t you forget that heroes have always been short-lived!”

“I at least understand that some projects are important to the country, but some people who have been well clothed and educated since they were young are still not as good as a wild child who understands things, so what are you?!” Ji Feng responded indifferently, “As for short lives there are many people who want my life, but they are all dead, if you want to do the same, I’ll wait!”

Speaking of this, Ji Feng sneered, “Almost forgot, it’s not like you haven’t done this before, but unfortunately you didn’t succeed!”

“..... I’ll remember your words!” Wu Zhiyong said in a low voice and randomly snapped, hanging up the phone.

“Heh~!”

Ji Feng shook his head and laughed, returning the phone to He Hongwei, “This person is really going back the more he lives!”
