“Boom~!”

Ji Feng’s right leg was like an iron pillar, sweeping viciously towards the middle-aged policeman, instantly smashing heavily on the middle-aged policeman’s arm that he used to block, causing his body to shake violently, and he stumbled two steps.

Ji Feng didn’t give him any chance to cushion or recover, as soon as his toes hit the ground, his whole body rushed forward like a cannonball out of the chamber!

The battle between the two was fierce, and there were even a few times when Ji Feng forced the middle-aged policeman to reveal his weaknesses, one of them attacked while the other defended with all his might, the intensity of the battle could not be described in words.

If anyone had been present, I’m afraid watching them fight would have been more tense than watching a war, which shows how intense the battle between them really was!

At this moment, the young policeman lying on the ground in the distance had long been dumbfounded.

Even though he already knew that Ji Feng’s skills were quite impressive, the more he watched, the more shocked he became. In particular, every time he saw Ji Feng force his companion into a dangerous situation, he could not wait to shout out to ease the shock and fear in his heart!

Ji Feng was simply too powerful!

He had never seen anyone who could force his companion to such a state, but today, Ji Feng had done it, and moreover, it could almost be said that he had been suppressing the middle-aged policeman from beginning to end, which was simply incredible!

But in fact, at this moment, Ji Feng was also not relaxed, and it could even be said that he was a bit anxious in his heart.

Because from the beginning to the end, Ji Feng hadn’t even broken through the middle-aged policeman’s defence!

Although he had the upper hand all the time, he had been pressing the middle-aged policeman, but every time Ji Feng hit the strongest parts of the middle-aged policeman’s body, such as his shoulders, back and so on.

As for the vital parts of the body, the middle-aged policeman was always on guard, not giving Ji Feng any chance at all!

In this way, although the middle-aged policeman had also suffered injuries, they were within tolerable limits.

And more importantly, this man’s body was extremely strong, simply not below those advanced transformers, and an attack of this level caused him a really small and minimal impact.

Then, if the fierce battle between the two kept going on like this, before the middle-aged policeman was seriously injured, I’m afraid that Ji Feng’s Qi would also be depleted to a great extent.

And Ji Feng wouldn't be naive enough to think that if the middle-aged policeman was seriously injured he wouldn't have any ability to resist.

There's a saying that a wounded beast is the most terrifying!

Although this middle-aged policeman was not a beast, his strength was there. If this person were to fight to the death with Ji Feng, with the mentality that he would take a backseat even if he was about to die, Ji Feng could be sure that even if he could finish this person, he himself would definitely be seriously injured, and perhaps even more injured!

And the most crucial issue was that even if this person did not intend to fight Ji Feng to the death, it would not be a small drain on Ji Feng if it went on like this!

Seeing that the middle-aged policeman was rigidly shielding the vital parts of his body to death, and even increasingly rarely came out with that kind of continuous attack routine, instead just focusing on defence, Ji Feng could not help but be aghast in his heart.

He realised that this person was probably counting on himself!

Because according to Ji Feng's understanding of this middle-aged policeman's strength, even if he was slightly inferior to himself in terms of speed and strength, he wouldn't be able to counterattack at all; at most, he would just take more hits and counterattack less.

But apart from the fierce counter-attack at the beginning, his opponent was now gradually just defending, and only occasionally countered.

"Son of a bitch!"

Ji Feng punched out fiercely, cursing angrily in his heart, this person was clearly employing a fishing move, luring himself to keep making moves, thus using the fastest speed to deplete his own physical strength, while this middle-aged policeman could preserve his strength to the maximum.

When his physical strength had dropped to a certain level, the middle-aged policeman would suddenly rise up and counter-attack, and what awaited him would be a fatal attack!

Ji Feng's knee instantly crashed through, while his gaze glanced over the middle-aged policeman's face, and he really found that the man's face was still fierce, with a resentful and cold look in his eyes, while the corner of his mouth held a cold smile.

It was true!

Ji Feng could immediately conclude that his guess was correct, this man was planning to do just that!

"What a wishful thinking!" Ji Feng coldly snorted in his heart and a cold light flashed in his eyes, "Since you want to play dirty tricks, then let's see who can actually play who!"

With his mind made up, Ji Feng's attack on his hand suddenly accelerated again, and at the same time the power also increased by a few points, the attack was even more severe, immediately hitting the middle-aged policeman's body repeatedly trembled, the whole person's face even changed slightly, a painful look flashed across his face from time to time.

—Knowingly, even if one protects the vital parts of the body, but receiving Ji Feng’s fierce to the extreme fist, it is not that easy to suffer!

A punch from Ji Feng could crack even a stone, so if it hit a human body, would it be that easy to bear?

It wasn’t that he was afraid, but Ji Feng’s fist, which was full of power, would make him suck in cold air with every blow!

“Boom!” Ji Feng threw another whip kick, fiercely whacking at the middle-aged policeman’s ear door, but it was blocked by the latter’s crossed hands.

“What the fuck

The middle-aged policeman let out a stifled cry and cursed angrily in his heart.

Just this kick alone had shaken his hands, and the bones in both of his arms seemed to be broken by this kick, which made him really annoyed to the extreme, and his heart was shocked and suffocated!

He had never thought that after several minutes of continuous fighting, Ji Feng’s attack could still be so strong, even more so than at the beginning, and that kind of power, that kind of speed, it was really numbing!

What a pervert!

The middle-aged policeman roared in his heart and secretly cried out in agony, was his plan wrong?

The middle-aged policeman began to feel a little uneasy!

In fact, Ji Feng’s deduction was correct, the middle-aged policeman did have the intention of consuming him.

In fact, at the beginning, the middle-aged policeman did not intend to do so, although at that time he already knew that Ji Feng’s strength was not weak, but he was also quite confident in his own strength, but all experts possess strong strength, and would not easily think that they were inferior to others.

However, with Ji Feng’s strength, the two of them exchanged blows and the middle-aged policeman’s heart stuttered!

Ji Feng’s strength was too strong!

The middle-aged policeman also tried to counter-attack, however, he almost fell into the path of Ji Feng several times, which really shocked him and he no longer dared to counter-attack easily.

Then, he was kept under pressure by Ji Feng.

As a master, especially a master who thought highly of himself and even felt that his opponent was far inferior to him, he was pressed and beaten by his opponent when he was fighting, just like beating a grandson.

The middle-aged policeman was so angry that he almost exploded in his heart, but it was to no avail.

Ji Feng's strength was so strong that he had no possibility to fight back, and what's more, Ji Feng had easily calculated him at the very beginning, directly crippling his companion and unable to help him anymore!

Thus, the middle-aged policeman's heart began to sink, and he realised that he was afraid that he was going to be defeated.

But fortunately, the middle-aged policeman's combat experience was very rich, especially when he saw that even Ji Feng was unable to break through his defence in a short time, he then suddenly had a bright idea of how to consume Ji Feng.

To learn martial arts, one must first learn to take a beating!

For martial artists, taking a beating is the basic skill, in fact, after taking more beatings, they have figured out some knocking techniques for beating and dodging, which is naturally easy for the middle-aged policeman to master.

He then began to consume Ji Feng's strength, spending most of his time blocking and occasionally a small counterattack to not let Ji Feng see the problem.

At the beginning he was secretly pleased that Ji Feng hadn't noticed his little moves at all, and that in that kind of violent battle, physical strength must be depleted very quickly.

Even though Ji Feng's attack power had suddenly surged, instead of having any worries, the middle-aged policeman's heart was even happy.

The opportunity was almost here!

In the middle-aged policeman's opinion, this should be Ji Feng's feeling that his own physical strength was about to be depleted, so he was going to use his last strength to increase the strength of his attack, wanting to defeat him in the shortest possible time.

However, the truth was that he was given a blow to the head!

He didn't expect that Ji Feng's attack was as strong as this!

"Boom!"

The middle-aged policeman's body shook violently again.

He was really screaming in his heart, he realized that Ji Feng's final desperate attack was so powerful, if this went on, in the end, even if he was able to consume Ji Feng's physical strength almost, he himself would definitely be injured, his whole body was about to be broken apart!

However, seeing Ji Feng's fierce eyes, the middle-aged policeman could only grit his teeth bitterly and hold on, there was no way, since he had already chosen to hold on, he could only hold on to the end, fighting back at this time would only allow Ji Feng to seize the opportunity, if he was done in at the last minute by Ji Feng, then he would really die a wrongful death!

What's more, how could he possibly want to die?!

"Swish~!"

Ji Feng swept his leg across, extremely fast, but this time it was very unexpectedly not hitting the middle-aged policeman, instead it swept past the middle-aged policeman's head.

At the same time, Ji Feng's figure swayed a little and he gasped violently twice.

Looking at Ji Feng's face again, it also changed abruptly, a flash of panic in his eyes.

"..... opportunity is here!"

Campus Master Chapter 2122

At the same time, Ji Feng's figure swayed a little and he gasped violently twice.

Looking at Ji Feng's face again, it also changed abruptly, a flash of panic in his eyes.

"..... opportunity is here!"

This cry, almost roared out in the middle-aged policeman's mind, finally waited for this moment, Ji Feng's physical strength was almost depleted!

"Hold back a few more moments!" The middle-aged policeman roared low in his heart, he was really too hurt by Ji Feng, he was almost gritting his teeth and holding on!

"Boom!"

Ji Feng kicked the middle-aged policeman in the back again, but this time the dull sound was significantly lighter.

The middle-aged policeman's heart was immediately happy again because he noticed that the force of Ji Feng's kick on his back was obviously much less, and he didn't even feel the pain anymore – he didn't know whether it was because he had been beaten too much and his body had gone numb, or whether it was really because Ji Feng's force had weakened.

But at least what was certain was that Ji Feng's physical strength was really not too much!

"Phew~!"

Ji Feng punched again, but it was obvious that both the force and speed were much less than before, so the middle-aged policeman just slightly sidestepped and avoided it.

A smirk appeared on the middle-aged policeman's face.

Swish!

Ji Feng attacked again, but it still did a useless job.

So in a flash, Ji Feng took two steps back directly, pulling away the distance between him and the middle-aged policeman, and then looked at the middle-aged policeman with a very alert and grave expression, a cold glint in his eyes, but with a clear look of reluctance in his eyes.

"Hey!"

However, the middle-aged policeman laughed, except that his smile was full of coldness, with a look of resentment and grimness in his eyes, and a touch of hideousness.

“Had enough of beating?”

The middle-aged policeman asked with a sneer, “That’s your limit, right?”

Ji Feng grimaced and said in a cold voice, “If you want to keep getting beaten up, I can make it happen!”

“Arrogant!”

The middle-aged policeman, however, sneered, then jerked a step forward and roared lowly, “Then let your horse come! Little beast, come on!”

Ji Feng’s face was cold as he went up and gave a kick.

However, his kick was not as fast as before, and his movement was obviously a bit sluggish.

“Boom!”

In the next moment, Ji Feng’s whole body flew backwards directly, but he saw the middle-aged policeman slowly put his foot back, and then watched Ji Feng fall to the ground and turn over several times.

The smirk on the middle-aged policeman’s face became even stronger as he looked at Ji Feng with a cold smile on his face, “Is this how you make me whole?!”

“Humph!”

Ji Feng, however, gritted his teeth and got up directly from the ground, and this time it could be seen that there was a clear footprint in the area of his stomach, which was kicked by the middle-aged policeman just now. Originally, Ji Feng was going to kick him, but as a result, because of his lack of speed and strength, he was the one who managed to counterattack and give Ji Feng a vicious kick!

However, Ji Feng’s face was with a look of resignation as he gritted his teeth and said, “You have nothing to be proud of, you’re just a shrinking turtle! If you dared to face me head-on just now, instead of just defending, you would have been a dead man by now!”

“Stupid bastard!”

The middle-aged policeman snorted, “Only those who have survived are qualified to speak, and now it seems that you are about to die!”

Ji Feng sneered, “So what? Even if I die, it still won’t erase the fact that you were pinned down by me just now!”

“Stupid little beast!” The middle-aged policeman laughed coldly and shook his head, not giving a damn about this opinion of Ji Feng’s. When fighting an enemy, the most important thing was to find a way to finish the opponent off, not to focus on the process.

However, remembering how he had just been pinned down and beaten by Ji Feng, the middle-aged policeman did still feel a vague pain in his body, and a feeling of humiliation rose up in his heart.

At once, the smile on the middle-aged policeman's face disappeared and was replaced by a grim smile: "Originally, I was going to just do away with you and forget about it, but now I've decided to torture you properly!"

"You call this a martial artist?!" Ji Feng said angrily, "I'm curious, which sect are you from! You don't even have a hint of a martial artist's demeanor!"

"Are you trying to set me up, or are you trying to stall for time?!" The middle-aged policeman looked at Ji Feng derisively, "Whichever one you're aiming for, it's useless!"

"Who the hell are you? Even if you're going to die, let me know your identity"

Ji Feng's face was gloomy as he asked, seemingly because his small calculations had been revealed, making him ready to let go.

However, the middle-aged policeman's mouth was quite tight as he sneered, "Don't worry, I will definitely let you know my identity before you die, but for now well I want to have a good time with you first!"

"Come here if you have the guts!" Ji Feng immediately put up a starting pose and sneered, "See how I'll clean you up!"

"Heh!"

The middle-aged policeman sneered, his face sank, and he fiercely stepped forward and kicked over.

Swish!

This time, it was Ji Feng's turn to block, he crossed his arms and borrowed the strength of his upper body to block the opponent's attack.

"Boom!" The sound.

Ji Feng only felt a strong force coming from him, and in the next moment, he stomped back a few steps before he managed to stabilize his body, but he looked very wretched, completely lacking the kind of bravery he had just now!

"Yoo-hoo?!"

The middle-aged policeman, however, let out a startled cry, "Little beast, I never thought that your recovery speed would be so fast, in just a few words, you have actually recovered some strength?!"

"Humph!"

Ji Feng, however, just snorted coldly and didn't answer the question.

The middle-aged policeman sneered, Ji Feng was obviously stalling for time and deliberately covering up, just because he was afraid that he would see through his little mind, that was all, the middle-aged policeman didn't have the slightest worry, the current Ji Feng was simply not enough to worry about anymore!

However, considering the speed of Ji Feng's recovery, a cold light flashed in the middle-aged policeman's eyes as resentment instantly erupted.

"Little beast, see how I'll torture you!" The middle-aged policeman's confidence skyrocketed, and with a low roar, his body surged forward, he would not leave any more time for Ji Feng to recover, to ensure that no accidents occurred.

More importantly, the middle-aged policeman wanted to take revenge on Ji Feng fiercely, because he had been pressed and beaten like a grandson by Ji Feng before, and that feeling had suffocated him to the core!

He wanted to torment Ji Feng fiercely!

So as soon as he struck, the middle-aged policeman concentrated his whole body's strength and sent out the most severe attack, he wanted to cripple Ji Feng in one move and then slowly torture him!

The middle-aged policeman turned his palm into a knife and instantly bullied his way to Ji Feng, aiming straight at his shoulder.

Obviously, the middle-aged policeman was going to break Ji Feng's shoulder blade, to cripple him!

The middle-aged policeman's speed was frighteningly fast, and he reached Ji Feng in the blink of an eye. At this moment, the middle-aged policeman's heart was filled with a feeling of hatred and pleasure, there was nothing more gratifying than taking revenge on the enemy with his own hands and torturing him to death.

Suddenly, the middle-aged policeman noticed that something was wrong.

In Ji Feng's face there was not even the slightest look of fear, instead there was an indefinable feeling.

It was as if

The most important thing is that you have to be able to get a good deal.

The middle-aged policeman could not think much about it because his speed was extremely fast and his hand had already reached Ji Feng's shoulder heel.

However, just at this instant, the middle-aged policeman suddenly felt a strong sense of palpitation.

In the next moment, he saw a cold light flash in Ji Feng's eyes, and at the same time, the light of his eyes glanced over to see that Ji Feng's right hand was already raised high.

Not good!

An extreme danger instantly swept through the middle-aged policeman's whole body, and finally exploded in the top of his head.

So, he could only watch, as if wielding a whip, Ji Feng's right hand fiercely smacked down Despite the fact that there was nothing in Ji Feng's hand, the middle-aged policeman just had this feeling.

"Pop—"

The next moment, an extreme pain as if all the bones in his body were being crushed alive swept through the middle-aged policeman's entire body, and immediately afterwards, the middle-aged policeman felt as if he had been hit by a speeding train, and then his entire body flew straight backwards.

"Bang!"

The middle-aged policeman fell to the ground, his entire body dazed.

It was not known whether it was because of the pain that was so intense that it was almost beyond the limit of what a human could bear, or because he could not imagine the result of being knocked away.

Ji Feng slowly stepped forward and said coldly, "I didn't brag when I said I cleaned you up, did I?"

"You you've been pretending all along?!" The middle-aged policeman gritted his teeth, trembling all over as he climbed up from the ground, staring at Ji Feng with resentment and a bit of panic, "Just now your power wasn't exhausted at all!"

"But I never said that!" Ji Feng said calmly, "It's just that the result was different from what you expected, don't you think?"

The middle-aged policeman couldn't help but change his face again and again, his body trembled a little more, he gritted his teeth and said, "You really are a cunning little beast, I really underestimated you!"

"You're the one who overestimated yourself!" Ji Feng said in a cold voice, "Besides, for every additional curse you utter now, I will return it to you tenfold!"

"..... Good! Good!"

The middle-aged policeman stared at Ji Feng with resentment and said through clenched teeth, "Count me out today! But I want to know, what exactly did you use to defeat me just now?!"

Ji Feng smiled coldly, "You want to set my words too? Or do you want to stall for time to recover?"

The middle-aged policeman's face sank.

Ji Feng sneered, "Unfortunately, I won't give you the time to recover either"

As soon as the words left his mouth, Ji Feng directly punched over.

Boom!

The middle-aged policeman directly flew backwards and fell to the ground once again, but, he gritted his teeth again and climbed up, then put his best effort into gritting his teeth as his body staggered and started to run in the opposite direction.

"Want to run?" Ji Feng snorted coldly.

However, just at this time, Bai Zhu's alarming cry came steeply in his ears, "Young Ji, be careful—!"

Campus Master Chapter 2123

Boom!

The middle-aged policeman flew straight backwards and fell to the ground once more, but, again, he gritted his teeth and climbed up, then put his best foot forward, gritting his teeth as his body staggered and began to run in the opposite direction.

“Want to run?” Ji Feng snorted coldly.

However, just at this time, Bai Zhu’s alarming cry came abruptly in his ears, “Young Ji, be careful—!”

At the same time, Ji Feng also had a sudden feeling of danger coming over him, a cold light flashed in his eyes, his face was cold, at the same time, he didn’t even turn his head back, he directly plunged a few steps in the opposite direction, then turned around again to chase the middle-aged policeman.

However, at this moment, Ji Feng suddenly saw that the young policeman, who had already been crippled by him, had sat up at some point, and even more shockingly, this person had directly used his knees to kneel on the ground to come this way with difficulty, and looking at his speed, he was even faster than an ordinary person on foot!

The most crucial thing was that in the young policeman’s mouth, there was a black object in it.

—Grenade!

The cold light in Ji Feng’s eyes instantly rose, he coldly snorted, just a grenade wanted to finish himself off? And there was such a long distance between them?

It’s simply a delusion!

Ji Feng’s gaze once again fell on the middle-aged policeman who was fleeing, and with a cold snort, he immediately went after him.

However, once again, Bai Zhu’s alarming voice came from the distance, “Young Ji, be careful! There are bombs on their bodies!”

Bombs?!

Ji Feng was instantly astonished, but then he realized that the bomb Bai Zhu was referring to was the grenade that the young policeman was carrying in his mouth!

So Ji Feng didn’t care too much, but continued to chase.

That middle-aged policeman had already been injured by now and his speed was far less than before, not to mention that Ji Feng himself was a few points faster than him, so in the blink of an eye the distance between Ji Feng and him had closed a lot more.

“Little brute!”

The middle-aged policeman cursed angrily while desperately running away, perhaps because he saw the grenade in his companion’s mouth, only to see him turn abruptly and run towards the young policeman.

Ji Feng gave full chase, and as for the grenade in the young policeman’s mouth, he didn’t have the slightest fear, because the other party’s hands had been ruined and he couldn’t throw the grenade at all, otherwise he wouldn’t have held it in his mouth.

So if the grenade suddenly exploded, Ji Feng was sure that he could dodge it at any time.

“Young Ji, be careful!”

Bai Zhu shrieked in alarm, while desperately running wildly towards this side, looking at the direction she came from, she actually came from the road, but Ji Feng couldn't think much about it, he must catch up to the middle-aged policeman.

It was because the middle-aged policeman was putting too much pressure on him, and if he let this person escape today, it would be a real disaster in the future.

At that time, not to mention the safety of his family could not be guaranteed, and even if the middle-aged policeman was sincere in his attack, even Ji Feng himself was not sure he could avoid it, because the difference in strength between them was not too great!

Therefore, no matter what, he could not be allowed to escape!

In just a few breaths of time, the two of them, one chasing the other fleeing, approached the young policeman.

At this time, the middle-aged policeman suddenly rushed to the young policeman, then took the grenade out of the latter's mouth and threw it towards Ji Feng!

Ji Feng looked astonished and exerted all his strength to activate the bio-current, turning it into a long whip and fiercely struck out.

Swish!

The grenade was instantly sent flying backwards, but Ji Feng was shocked out of his heart in a cold sweat. Fortunately, he was right, the distance between them was very close, so the grenade didn't even have time to explode when it was thrown in front of him.

Boom~!

In the next moment, the grenade that was knocked back exploded near the young policeman, and the middle-aged policeman immediately let out a miserable scream.

Good opportunity!

Ji Feng's body surged, that middle-aged policeman was injured by the explosion, this time he could definitely be caught!

However in a flash, Ji Feng suddenly felt a heart-stopping sensation, the next moment, he saw the young policeman's mouth open wide, and then a burst of fire suddenly rushed out from his body.

“Boom...!”

A loud, earth-shattering sound exploded!

In an instant, Ji Feng only felt that the earth shook violently for a few seconds, almost like the kind of earth shaking when a volcano erupts, and a huge shockwave swept through him.

Ji Feng's entire body felt an irresistible force crash into his body, and immediately, his entire body flew up.

"Young Ji—! Be careful!"

The moment Ji Feng flew out, there was a harsh cry of alarm from Bai Zhu in his ears, and a white figure that seemed to push him away.

Immediately afterwards, Ji Feng only felt a blackness in front of his eyes, and his whole body directly lost consciousness!

"Young Ji—!"

What remained in Ji Feng's memory was only the doctor's harsh cry, and he vaguely heard that it seemed to be Bai Zhu's voice

.....

At the same time, on the outer ring road, a team of police cars was whistling and speeding.

Zheng Yuanshan sat in the car, his face incomparably grave, and the anxious look in his eyes was hard to hide.

"Hurry up! Faster!"

Zheng Yuanshan kept urging, no longer even caring whether the car was speeding or not, "Use the fastest speed, I'll be responsible for anything that goes wrong!"

Zheng Yuanshan was too worried.

Because on the way here, Zheng Yuanshan had already seen several car accidents, and according to Ji Feng's description on the phone, these cars were obviously all coming after Ji Feng.

Just by looking at the scene of that car accident and the trail of brake marks, Zheng Yuanshan, who was extremely experienced in criminal investigation, could imagine how critical the situation was, and with so many people on the other side, how could Ji Feng possibly cope with it?

So leaving a car and a few policemen to deal with the situation on the road, Zheng Yuanshan led the rest of the men to continue on.

"Faster!" Zheng Yuanshan almost roared out.

"Director, look!" Suddenly, the policeman driving the car let out an alarming cry.

"What?!"

Zheng Yuanshan immediately looked at the sound, and his hands couldn't help but shake!

Only to see that on the side of the road, two SUVs were smoking, while the cars had long since burned to empty frames, looking really tragic!

Zheng Yuanshan's face instantly changed, the situation was getting more and more tragic, and it was evident that the danger that Ji Feng encountered behind him was getting stronger and stronger, if

“Boom~!!!”

Suddenly, a heaven-shattering explosion suddenly came over.

Oh no!

Zheng Yuanshan’s heart instantly thumped, his face swished white, his body almost suddenly stiffened, but he still instinctively looked in the direction of the sound of the explosion came, and saw that in the wasteland on the side of the road, smoke and dust rolled, as if some disaster had occurred.

“Director”

“Stop!”

Zheng Yuanshan yelled, “Stop the car immediately and get out of the car, all of you! Get there as fast as you can!”

At that moment, a burst of sharp brakes sounded, and immediately afterwards, all the police officers started to run towards the place where the explosion had occurred, even Zheng Yuanshan, who was already middle-aged, was desperately running towards there.

It was likely that Ji Feng was there!

Zheng Yuanshan’s heart was beating wildly, if that huge explosion just now was really aimed at Ji Feng, then at this moment Ji Feng

The first thing you can do is to get a good idea of what’s going on.

I hope it’s not Ji Feng!

Zheng Yuanshan said to himself in his heart, he was always calm and steady, but at this moment he couldn’t help but panic a bit, he could only be apprehensive in his heart.

Soon, Zheng Yuanshan and all the police officers rushed to the smoke and dust area, the smoke and dust had diminished a bit by now and they could vaguely see the scene clearly.

There were pieces of flesh, rotten pieces of human bodies, and some rags on top, that were already torn clothes!

There were these things almost everywhere, making people’s scalps tingle and their stomachs churn.

Seeing this scene, Zheng Yuanshan was equally pale, he only felt blackness in front of his eyes and his body couldn’t help but sway twice!

Could this be Ji Feng?!

This can’t be

Zheng Yuanshan took a deep breath and tried hard to calm himself down, he roared low: “Look carefully, see if there are other people, must look carefully, not an inch of place can be neglected!”

The other policemen had also gradually settled down and then began to look, Zheng Yuanshan was even at the forefront, his eyes eagerly looking around.

“Pop!”

Zheng Yuanshan suddenly tripped over something, he jerked his gun to alert, then looked down and couldn't help but turn white, it turned out, this ground was actually a broken leg, only just now it was buried by dust, so he didn't see it clearly

“Could this be Ji Feng” Zheng Yuanshan had a feeling of vertigo.

“There's someone over here!”

Suddenly, a policeman shouted, Zheng Yuanshan snapped back to consciousness, immediately ran a few steps to rush over, and saw two people on the ground in front of him, lying motionless on the ground, the two of them were not far apart, but they were covered with a layer of dust, and their faces could not be seen.

“They're still breathing!” The policeman tested his nostrils and at once shouted again.

“Wipe their faces!” Zheng Yuanshan said immediately, not even realising that his voice was trembling slightly as he spoke.

Immediately, a policeman wiped the two men's faces, revealing two faces

“Ji Feng! Bai Zhu!”

Zheng Yuanshan almost shouted out, his eyes filled with a look of ecstasy, “It's good that it's okay, it's good that it's okay” Hurry up and take them to the hospital, save them!”

The stone in Zheng Yuanshan's heart finally fell halfway down, Ji Feng still had breath, Bai Zhu also still had breath, that's good, that's good

However, at the same time, Zheng Yuanshan also hated the person who attacked Ji Feng to the extreme, he roared lowly: “Others continue to search, if there are others, save them first, and then take good care of them, must not let the other party escape!”

Campus Master Chapter 2124

The stone in Zheng Yuanshan's heart finally fell halfway down, Ji Feng still had his breath, and so did Bai Zhu, that's good, that's good

However, at the same time, Zheng Yuanshan also hated the person who attacked Ji Feng to the core, he roared lowly, “Others continue to search, if there are others, save them first, then do a good job of watching the measures, must not let the other party get away!”

In fact, there was no need for Zheng Yuanshan to say much, the police officers present also searched quickly, looking alert, and the vast majority of them were even already holding their pistols to prevent any unexpected situation from suddenly happening.

It was really because, the scene was too shocking.

Especially the apparently shattered body parts that had been blown up, one couldn't help but feel a chill sweep through one's body as one's scalp exploded.

What on earth had happened here?

How could such a tragic situation have occurred?!

Even some veteran detectives who had been involved in the investigation of the broken body case could not help but feel uncomfortable when they saw this scene, and their stomachs were vaguely churning.

The situation at the scene was too gruesome!

“Ouch”

Suddenly, a police officer exclaimed, followed by his body stumbling.

Swish!

The other policemen immediately hurriedly drew their guns and pointed in that direction, then quickly leaned over and asked loudly what had happened.

“Nothing” The policeman who shouted seemed a bit embarrassed, “I tripped over something and didn’t know it was” !”

Before he could finish his words, he couldn’t help but let out a shout of surprise.

“This” is a thigh!” The policeman shouted in astonishment.

“What?!”

Everyone couldn’t help but exclaim in shock and walked over to see that on the ground in front of the policeman, there was a broken leg covered in dust and there was still crimson blood on the ground, although it wasn’t too obvious, it was noticeable.

It looked like someone’s leg had been blown off, or it was possible that the person’s leg had already been broken before the explosion, but either way, the scene was enough to send chills down one’s spine.

Zheng Yuanshan looked even more scared, if it was Ji Feng and Bai Zhu who were blown up

He immediately roared, “Search carefully, don’t miss a single detail, search this this area all over for me!”

“Yes!”

The other policemen began to continue their search. However, no one noticed that at this moment, not too far away, a black shadow was writhing on the ground, gradually disappearing

.....

“Well”

When Ji Feng felt a pain, he woke up from his sleep.

The first thing he smelled was a pungent smell of medicinal water, which made Ji Feng’s heart abruptly flinch, this certainly could not be his own room, perhaps many people are not too familiar with the smell

in their own room, because he had stayed in that environment long ago to get used to it, and the smell in the room was most likely the same as the smell on him.

However, if we arrive in an unfamiliar environment, then we can definitely detect it at first sight.

Because we are most sensitive to other people's smells, or to unfamiliar environments, we are likewise the most alert.

But Ji Feng did not immediately open his eyes to observe, he still habitually continued to feel the surroundings, while carefully recalling, where exactly he was and what had happened before!

"Ta-da-da"

The surroundings were quiet, only a ticking sound sounded very regularly, sounding like a clock, or some other electronic instrument.

Other than that, there was no more sound around.

Ji Feng still didn't open his eyes, but slowly activated the bio-current, preparing to use the ability of perspective to quietly observe the surroundings first – because at this time, Ji Feng already vaguely felt that something didn't seem right with his body.

He felt pain!

However, the next moment, Ji Feng felt shocked again – he suddenly found that his bio-current had become incredibly weak, and even when he was pushing it, the inside of his body was faintly aching, as if pins and needles were sticking.

What on earth was going on here?

Ji Feng's heart was aghast as he carefully recalled, and suddenly, he frowned!

He remembered what had happened before, and even recalled the whole process.

On his way to Zheng Yuanshan, he had encountered a group of people of unknown origin who attacked and killed him, two of them were even policemen. Although it was possible that they were fake, just by the police car they drove and the uniforms they were wearing, Ji Feng didn't dare to jump to conclusions easily.

–It is true that police uniforms can be bought everywhere, but this police car is not so easy to get.

However, at this moment, Ji Feng could not even think about this because it suddenly occurred to him that at the moment of the explosion, he seemed to see Bai Zhu, who seemed to be speaking to him

"Bai Zhu?!"

Ji Feng snapped open his eyes and his face was incomparably grave: "How is Bai Zhu?"

Subconsciously, Ji Feng was about to sit up, but as soon as he got up, he suddenly felt a sharp pain coming from his body, and he unexpectedly trembled and fell softly on the bed at once!

"What's going on?" Ji Feng's heart kept sinking down, "How come he can't get up? And himself has become like this, that Bai Zhu"

“Holy shit!”

Ji Feng couldn't help but burst out a foul mouth, cursing angrily in a low voice, but he didn't know if it was because of his body, or if he was worried about Bai Zhu, or if he hated those who attacked and killed him!

In fact, it was the first time since he grew up that Ji Feng had been so badly injured, except for that time when he was sent to the hospital because he had fainted because of the wise brain, he had always let others get hurt.

If those people who attacked him were here, he would really want to tear those animals apart one by one!

“Bastards!”

Taking a deep breath, Ji Feng tried to calm himself down and quickly scanned the surroundings, finding that this seemed to be a ward, with white things everywhere, except for a black LCD TV hanging on the wall.

Ji Feng settled down, closed his eyes and moved his hand slightly, and he was instantly pleased.

The hand can be moved, and it is not too painful, it looks like the arm should not be broken, at most it is just a little traumatized, having found this, Ji Feng then moved the other hand, the pain was obviously a little more powerful, but not so much that it was unbearable

The first thing you need to do is to take a look at your own body and find out that the pain you felt when you sat up just now was from inside your body, probably from your internal organs.

Since this was the case, Ji Feng was quite relieved, he raised his head slightly, then reached out and pressed a button on the head of the bed – most of the facilities in the hospital were similar, this button on the head of the bed was used to call the nurse on duty, when Xiao Yuxuan's father was hospitalised, Ji Feng was already familiar with the things in the ward.

And the reason why Ji Feng pressed the button with such confidence was because he saw the words 'Southern Guangdong Provincial Hospital' written on the wall on the side of the ward.

This was an official hospital, and many of the experts in the hospital were dedicated to provincial leaders, which was also the case in Jiangzhou or other provinces, so there shouldn't be too much of a problem here.

“Snap!”

Just ten seconds later, the door of the ward was opened.

A girl in a nurse's uniform walked in quickly, and when she saw Ji Feng, she immediately said, “Mr. Ji you're awake”

“How come I'm here?” Ji Feng asked, but he was startled as soon as he opened his mouth, he realized that his voice was very dry, it was almost like the kind of cockney voice that was still in the stage of voice change, it was very hard to hear, he hurriedly asked, “What's wrong with me?”

The nurse said, "Don't worry, Mr. Ji, when Director Zheng brought you to the hospital, we already gave you the most detailed examination, and you have only suffered a trauma to your internal organs. As for your throat, the doctor said that while you were unconscious, you might have inhaled a lot of smoke and dust, and that's why you look like this."

Ji Feng immediately asked impatiently, "How is the girl who came with me?"

The nurse, however, had some difficulty and said, "Sorry Mr. Ji, because this is an intensive care ward, each ward is under the responsibility of a special person, so I'm not too sure about the situation in the other wards"

"Then go and ask immediately!" Ji Feng's face sank, "Immediately!"

"This"

The nurse, however, was a bit embarrassed, not knowing how to answer.

Ji Feng said in a deep voice, "You don't want to go? Then get a wheelchair and I'll go over there myself and ask"

"Mr. Ji, that won't work" The nurse hadn't finished speaking when he was interrupted by Ji Feng, "What's not working? Is this request of mine excessive? Go get the wheelchair immediately!"

"Then you wait a moment!" The nurse finished speaking and hurriedly ran out.

"....."

Ji Feng couldn't help but frown, but didn't say anything else, in fact, he also realized that his tone was a bit heavy, he couldn't help but shake his head.

The annoyance about this attack and the worry about Bai Zhu made Ji Feng almost unable to control his fire, so he spoke in a somewhat heavy tone, this little nurse however also suffered an undeserved disaster.

So Ji Feng was more or less apologetic, but soon, his attention shifted to Bai Zhu's situation once again.

However, the next time he waited, he did not wait for the little nurse to push the wheelchair in.

Ji Feng frowned and was about to press the button at the head of the bed again when he saw the door of the room suddenly being pushed open, followed by the sight of Zheng Yuanshan striding in, "Ji Feng, you're awake!"

"Uncle Zheng, you're just in time, how is Bai Zhu's condition?" Ji Feng didn't even care about anything else and hurriedly asked.

Because at this moment, he had realized that at that moment when the explosion happened, Bai Zhu was indeed next to him, and he was already injured like this, so how much better could Bai Zhu be?

What's more, Ji Feng vaguely remembered that it seemed that Bai Zhu had pushed him It seemed that Bai Zhu had blocked him with her body!

Thinking about his own injuries, Ji Feng had a bad feeling in his heart.

Then seeing Zheng Yuanshan's somewhat hesitant look, Ji Feng's heart kept sinking

What's more, Ji Feng vaguely remembered that it seemed that Bai Zhu had pushed him It seemed that Bai Zhu had blocked him with her body!

Thinking about his injuries, Ji Feng had a bad feeling in his heart.

Then seeing Zheng Yuanshan's somewhat hesitant look, Ji Feng's heart kept sinking

However, running away was never Ji Feng's character, so even though he felt bad in his heart, he still asked in a deep voice, "Uncle Zheng, how is Bai Zhu, tell me the truth!"

When Ji Feng opened his mouth, Zheng Yuanshan couldn't help but be startled.

The reason was that at this moment, Ji Feng's voice was incomparably low and hoarse, sounding almost as if he had been very ill, even more hoarse than just now, so it could be seen that the emotional changes inside Ji Feng were really intense.

"Ji Feng, don't be anxious" Zheng Yuanshan was just about to persuade, when he saw Ji Feng waving his hand.

"How can I not be in a hurry, Uncle Zheng, you can just have someone send a wheelchair over and push me over!" Ji Feng said.

"That won't do, Ji Feng, your injuries are not light, you simply can't move around now!" Zheng Yuanshan immediately refused, "How about this, you recuperate at ease first, when you are a little better and can move around, you can then go over to see Bai Zhu, what do you think?"

"No way!"

Ji Feng flatly refused, he gritted his teeth and said, "I must see Bai Zhu now!"

Zheng Yuanshan said helplessly, "Ji Feng, you can't fool around, you must know your own physical condition better than anyone else, the doctor said that now is the best time for you to recover, but also the most dangerous time, because the violent explosion at that time has shaken your internal organs, if you move around now, once you cause internal haemorrhage or any other damage, the consequences are unthinkable."

Ji Feng said in a deep voice: "My body is fine! It's no big deal, it can't kill anyone!"

"The same goes for Bai Zhu there!" Zheng Yuanshan interjected.

"What do you mean?"

Ji Feng suddenly paused for a moment, then his eyebrows furrowed, "Uncle Zheng, what exactly has Bai Zhu been injured into that makes you repeatedly stop me from going to see her?"

Seeing Ji Feng's puzzled and somewhat suspicious expression, Zheng Yuanshan couldn't help but feel a secret headache, this kid Ji Feng's mind was really too smart and his reaction was too quick, even though

at this moment he had just woken up from a coma and his body was still not lightly injured, but he had just missed his mouth for a moment, and he had keenly grasped it.

Fortunately, this time, Ji Feng did not suffer too much damage, otherwise, once such an outstanding young handsome like this was lost, not to mention the Ji family would go crazy, even he would feel a great pity.

No one who loves talent would want to see them die!

And I'm afraid this can also explain to a certain extent why Ji Feng will encounter attacks and killings, the risks and hostility that an excellent person has to encounter are naturally not comparable to those of ordinary people.

..... These thoughts only flashed through Zheng Yuanshan's mind, and soon he stopped thinking about them and was instead weighing his words, pondering what would be the most appropriate way to tell Ji Feng about Bai Zhu's situation.

"Uncle Zheng" Seeing that Zheng Yuanshan looked a little hesitant, Ji Feng's heart instantly lifted, he stared at Zheng Yuanshan closely and gritted his teeth, "Uncle Zheng, you know my character, if you prevent me from seeing Bai Zhu I will definitely find a way to see her!"

"Ugh!"

Zheng Yuanshan sighed and said, "I know you are stubborn, but you have to think about your own health, you forget it, I know it's useless to talk about it, let's do it this way, now your body really can't move around, otherwise the consequences will be absolutely unimaginable, so I can't explain to Minister Zhenhua I can't explain to Minister Zhenhua, and I won't have the face to see Ji Lao in the future!"

Ji Feng had an accident in Nan Yue and was on his way to find him, which made Zheng Yuanshan feel ashamed.

But then, Ji Feng was actually attacked and killed on his turf, and the other party had even deployed such a big battle! Moreover, according to the information obtained from the scene investigation, the person who attacked and killed Ji Feng was most likely someone from the police system!

This was like slapping Zheng Yuanshan in the face!

Fortunately, Ji Feng did not suffer much damage, as long as he was patient and respectful, his body would recover in a month or two at most, and the rest would be a careful recuperation, which would not affect his future life and activities much, but of course, I am afraid that he would not be able to do things like that kind of rushing to the front line.

But anyway, this is a blessing in disguise.

So at this time, Zheng Yuanshan did not dare to let Ji Feng do anything else. If Ji Feng actually caused secondary injuries in the hospital, then he would not only be ashamed to meet others, but he would also be unable to meet the two old leaders, Ji Zhenhua and Ji Zhenguo!

"Hold on for a few more days!"

Zheng Yuanshan sighed lightly and said, “Ji Feng, listen to my advice, right now your body can’t move at all, even if I agree to let you go see Bai Zhu, it’s impossible for you to sit up Let’s do it this way, after a few days, when your body recovers a bit and you can get up, then you can go see Bai Zhu in a wheelchair! !”

But Ji Feng frowned and said, “No, I can’t wait that long!”

Zheng Yuanshan laughed bitterly: “Ji Feng, you are a very calm and steady nature, why are you today?”

“A calm and steady nature, that also depends on who it is to!” Ji Feng said in his heart, but his mouth said, “Uncle Zheng, how about this, you tell the little nurse to go to Bai Zhu’s ward and record all her current situation for me to see, in addition, you then tell her attending physician to come over and explain her situation to me in detail!”

“This” Zheng Yuanshan hesitated for a moment.

Ji Feng’s heart suddenly stuttered, did it mean that Bai Zhu’s situation was really that serious?

Before Zheng Yuanshan repeatedly stopped him, Ji Feng was already very suspicious, despite the fact that Zheng Yuanshan was talking about some great things, but he did not reveal Bai Zhu’s situation in the slightest.

“Alright, you rest first, I’ll go and arrange for someone to do this!” Zheng Yuanshan finally agreed.

“Be quick!” Ji Feng said.

Zheng Yuanshan nodded, then turned around and left the ward.

Ji Feng lay on his back on the hospital bed, his eyes unblinking as he stared at the ceiling of the ward, not knowing what he felt in his heart.

At this moment, he was almost certain that Bai Zhu must have been badly injured.

Because in the memory of the moment when the explosion occurred, he was pushed out of the way by Bai Zhu, which meant that Bai Zhu must have considered the centre of the explosion more than he did, and moreover, Bai Zhu was standing in front of him, so to speak, blocking part of the impact of the explosion for him.

Imagine, with his physique, he was injured like this, how could Bai Zhu be less injured?

“Well”

Subconsciously, Ji Feng clenched his fist, and a cold aura dotted his eyes, “If anything really happened to Bai Zhu I’ll find you out even if I have to dig into the ground, for sure!”

There had never been any time that Ji Feng had such intense hatred.

For those who attacked and killed him as well as the masterminds behind the scene, Ji Feng could be said to hate them to his bones, and if his physical condition permitted, he would definitely immediately gather his men and search for those who attacked and killed him with all his might.

Once he found

Ji Feng took a deep breath, it seems that his own way of doing things in the past was still too soft and merciful, for some people, without using thunderbolts, they would never know exactly what the consequences of being completely enraged are!

“Wait for it!”

Ji Feng’s face was cold as anger swept through his entire body, “This time, no death, no rest!”

However, in addition to his anger, Ji Feng couldn’t help but regret and blame himself a bit.

If he had been more careful and alert when Bai Zhu was screaming, then perhaps Bai Zhu wouldn’t have had to die to save himself this time, and that middle-aged policeman would have escaped, and as long as he was careful in the future, there might not necessarily be any unimaginable consequences.

When you think about the scene at that time, Ji Feng’s heart couldn’t help but feel sour, this time, Bai Zhu was saving herself with her life!

Once I remembered that I saw that glimpse of a silhouette at that time before I fell into a coma, Ji Feng couldn’t help but feel his heart cut like a knife, if something really went wrong with Bai Zhu

“Knock knock knock!”

Suddenly, a knock on the door interrupted Ji Feng’s thoughts, Zheng Yuanshan pushed the door and walked in, “Arrangements have been made, the doctor will be here soon!”

Ji Feng silently nodded his head.

“Ugh!”

Zheng Yuanshan sighed and said, “Ji Feng, this time you are lucky that there is nothing serious wrong with you, otherwise

Ji Feng asked, “How are my injuries?”

Zheng Yuanshan said, “The doctor said that with your current condition, as long as you are patient and recuperate, there won’t be any major problems, so you don’t need to worry.”

Ji Feng grinned and didn’t say anything.

In fact, he knew that it was superfluous for him to ask this, he could check his own body condition clearly on his own. It was just that he had been worried about Bai Zhu just now, so he hadn’t had the time to check for himself.

“Uncle Zheng, who were those murderers who attacked me, have you found out yet?” Ji Feng asked again.

“Not yet.”

Zheng Yuanshan shook his head, somewhat uncomfortable: “None of the people at the scene survived, including the people in the car, all of them are dead too.”

Ji Feng frowned, "Not a single person survived?"

At that time, the other side on the road to chase them, although the battle was fierce, but one of the cars but directly hit the guardrail, it is reasonable to say that the people inside can not be all dead, to say injured is almost

"No!"

Zheng Yuanshan but shook his head and said, "In addition to the burned and blown up, the others were all killed by guns."

Ji Feng was stunned: "All were killed by guns? There was no one who died in a car accident?"

Zheng Yuanshan shook his head and said, "I have already sent someone to check them personally, all of them have bullet holes in their bodies, the forensic doctor is now conducting autopsies on them, the final results will not be finalized until the end of the examination."

When Ji Feng smiled, his face couldn't help but change a little

Campus Master Chapter 2126

Zheng Yuanshan shook his head and said, "I have sent people to personally check, all of them have bullet holes in their bodies, the forensic doctor is now giving them autopsies, the final result will not be conclusive until the end of the examination."

When Ji Feng smiled, his face couldn't help but change a little

Because he clearly remembered that when the chase took place on the road, one of the cars originally wanted to hit him, but because he dodged in time, that car directly crashed head-on into the roadside guardrail, but from beginning to end, Ji Feng did not shoot at that car!

But now Zheng Yuanshan said that all of them actually had bullet holes in their bodies and they had all been shot dead, which made Ji Feng a little stunned.

Because it reminded Ji Feng of a scene – the two cars that were left at the end crashed together and ended up catching fire and exploding, and the people in those two cars could obviously be seen struggling in pain, yet, hard not to hear their screams.

What's more, even though those two people were struggling, Ji Feng could not see any sign that they were going to open the door and escape!

–They didn't even show the slightest sign of escape!

This was unimaginable!

At that time, both Ji Feng and Bai Zhu thought that the people in those two cars might not have made a sound because they had sucked the roaring fire down their throats and burned their throats.

As for why they didn't show signs of escape, that might also be because, the explosion and the blaze came too suddenly, so it made their bodies too burnt to react properly, so they could only be burnt to death alive in the car!

But now it seems that this was not the case!

There seems to be some weirdness in the middle of this.

Ji Feng couldn't help but have a creepy feeling because he thought of a possibility – if it was said that the people who burned to death in those two cars, they didn't even think about escaping, or even instead were bent on dying, it wasn't impossible.

And in that case, it would make sense why everyone on the other side had been shot and died.

–If they were all dead soldiers, then even if the people inside the car that crashed into the guardrail hadn't died, I'm afraid they would probably have shot themselves after failing in their mission!

If that was the case, that would be a truly terrifying group of people!

I am not afraid that they are experts, but that they are madmen, bent on death, in which case everyone would have a headache.

For example, there are many terrorists, and even Rice, which has always been a great power, has a big headache.

“Uncle Zheng, is the video recording up now?” Ji Feng couldn't help but ask, “It's okay to take pictures.”

“This is a necessary procedure!” Zheng Yuansan said, “But you can't watch it now, your most important task now is to recuperate, when you get well, then slowly investigate!”

Ji Feng nodded in silence, but there was a sinking feeling in his heart somehow.

“Knock knock knock

As a knock sounded on the door, immediately afterwards, a middle-aged doctor in a white coat walked in, and beside him, a girl followed, the same little nurse who had been reprimanded by Ji Feng a few times before.

“Director Zheng, the video you want is ready.” The doctor said.

“Bring it to me immediately!” Ji Feng said immediately.

The little nurse gave him a timid look, forced herself to pretend that nothing was wrong, and then brought the phone over.

Seeing her like this, Ji Feng couldn't help but say, “Don't be afraid, my attitude just now was bad, my tone was a bit heavy, I apologize to you, don't take it to heart.”

The little nurse hurriedly shook her head, “No, no.”

Seeing that she was nervous, Ji Feng didn't say anything more, at this moment he couldn't care more, he just took the phone as soon as he could and looked at it.

This time, Ji Feng's face suddenly sank, a cold aura flashed in his eyes, and his whole person was cold and terrifying!

The person in the video was none other than Bai Zhu, but the only thing that could be seen at this moment was Bai Zhu's face, her head was wrapped in layers of white gauze, her body was covered with a quilt, and she didn't know how badly her body was injured.

However, in the video Ji Feng was keenly aware that throughout the video, Bai Zhu was motionless, and in her nostrils, an oxygen tube was inserted

Her injuries were so serious that she had to take oxygen!

At this moment, a fury so strong that it burned up from Ji Feng's heart, instantly sweeping through his entire body and causing his entire being to exude a terrifying aura.

The little nurse beside him was the first to feel this aura, and she was so frightened that she subconsciously took two steps backwards, looking at Ji Feng with some fear, but Ji Feng was oblivious to this and just stared at the phone screen until the video finished playing.

The whole process took about seven or eight minutes, but during this process, Bai Zhu didn't even move, so it was obvious that she should still be in a coma.

"Ji Feng, don't get excited!" Seeing that Ji Feng's eyes were getting colder and colder, and the aura on his body was even a bit scary, Zheng Yuanshan hurriedly advised.

"I'm fine"

Ji Feng said in a dry voice, "This is Bai Zhu's attending doctor, right? Tell me the truth, how exactly is Bai Zhu injured!"

The middle-aged doctor nodded slightly and said, "Mr. Ji, according to the current situation, the patient is considered to be out of the danger period initially so far, but not too stable yet, so it is still in the observation stage, and our intensive care ward has deployed the best doctors to be ready to deal with unexpected situations... .."

"Unexpected circumstances?" Ji Feng's eyes chilled.

"..... This is just in case, in fact, the patient's physique is quite good and her will to survive is quite strong, otherwise, she wouldn't have passed the dangerous stage so quickly." The doctor weighed his words and said, "So as of now, all the patient's vital characteristics are smooth, and as long as this progresses, the patient will wake up soon"

"How long will it take?!" Ji Feng immediately asked in a straightforward manner.

"This"

The doctor hesitated for a moment and looked at Zheng Yuanshan next to him before saying, "I'm sorry, this specific time, I can't say, but I believe it should be soon"

Ji Feng then fell silent, in fact he also knew that, don't look at the current medical technology is so advanced, but in reality there are many things that doctors can't do anything about, and it's impossible to get them to give a detailed timeline.

So after a moment of silence, Ji Feng asked again, "Then tell me, what exactly did Bai Zhu get injured in and what all injuries did he suffer?"

"The patient's internal organs have suffered a strong impact and some concussion to the brain, plus some trauma" the doctor said, "That's the current situation."

"Then if the most pessimistic estimate would be to what extent?!" Ji Feng asked in a deep voice.

"That isn't too good to say." The doctor glanced at Zheng Yuanshan and couldn't help but be a little embarrassed and hesitant.

Words like this increase the burden of the patient, as a doctor is not to say casually, especially like they such intensive care ward doctors, this professional ethics also must be observed, who knows what kind of people are living here, not to mention that next to it is also sitting Zheng Yuanshan, the head of the police department!

"You dare to say, it doesn't matter, I can bear it all!" Ji Feng said in a deep voice, that doctor's hesitation, naturally all fell into his eyes.

"It's really not good to estimate!"

The doctor said, "With the patient's current condition, as long as there are no accidents, waking up should not be a problem, it's just that whether it will leave after-effects, it's not too good to say yet"

"What after-effects?" Ji Feng immediately asked.

"For example, the body will be weak for a long time, or will have headaches, lose memory, etc., the probability of these situations happening is of course very small." The doctor added another sentence.

Ji Feng was silent for a moment before he said, "I understand, doctor, please treat Bai Zhu no matter what, I'm here to thank you!"

"Please don't worry, it's our duty, we will definitely do our best!" The doctor said immediately.

Afterwards, the doctor gave a few more instructions to Ji Feng on what he needed to pay attention to and how his body might experience severe pain next or something like that before he took that little nurse with him and left the ward.

At this time, Ji Feng's face was already gloomy to the extreme.

"Little Feng, you"

"Uncle Zheng I know what you're going to say, don't worry, I definitely won't mess around, I'm going to get better as fast as I can to find out about this matter"

Ji Feng said in a deep voice: "No matter who did it this time, I will not rest with them until death!"

Zheng Yuanshan nodded his head, he also knew that if something like this happened, it would be impossible for Ji Feng not to retaliate, but seeing the cold murderous look in Ji Feng's eyes, Zheng Yuanshan still secretly shook his head in his heart.

Let's hope that the Wu family didn't do it this time, otherwise, this will definitely be a bloodbath next!

Especially with Ji Feng's character, it shouldn't be much of a problem for him to suffer a little loss himself, but now it's the people around him who are seriously injured, so if Ji Feng could give up in good grace, he wouldn't believe it himself.

But

The company's main business is to provide a wide range of products and services to the public.

The two of them are related to the fight between Ji Feng and He Hongwei and the Wu family. If we say that the Wu family didn't do it, I'm afraid few people will believe it.

Could it be that it was really the Wu family who did it?

Looking at Ji Feng's calm face, which hid a coldness and ruthlessness, Zheng Yuanshan knew that this time Ji Feng had definitely moved with a thunderous rage, and he was completely enraged.

We must find out as soon as possible!

Zheng Yuanshan secretly said, if this matter is not uncovered after Ji Feng gets better, God knows what Ji Feng will actually do!

This young man's energy is too great!

Campus Master Chapter 2127

"Phew~!"

Ji Feng lay on the hospital bed and inhaled deeply.

The painful needle-like sensation still remained in his body, but there was no change on Ji Feng's face, as if he didn't feel the pain at all, as he slowly activated the bio-current once more.

This was already the several times in a row that Ji Feng had made the attempt.

The injury in his body had caused him great distress, not to mention that the strong strength he used to have had completely disappeared, and now he even had to lie down on the bed, not even having the strength to sit up, which was simply like a good normal person suddenly becoming crippled all of a sudden.

No one could immediately accept such a result, let alone Ji Feng, naturally.

However, the most fortunate thing about Ji Feng, compared to many people, is that his current state is only temporary.

All he needs now is time. However, what Ji Feng lacks most now is time!

He couldn't just lie in bed all the time, not only because he couldn't accept that he had suddenly become half crippled, but more importantly, Bai Zhu still hadn't woken up yet, and even up to now, Bai Zhu's vital signs had only partially increased, so the doctor couldn't give a definite answer as to whether he would definitely wake up.

Under such circumstances, how could Ji Feng continue to wait?

Therefore, he had to recover as soon as possible!

Although the bio-current remaining in his body was already very thin, it was excellent nutrition for his body.

If his body wanted to recover as soon as possible, relying on traditional hospital treatments alone would be too slow and too slow, and Ji Feng simply could not wait.

The bio-current that Ji Feng had cultivated continuously for several years in the past had excellent benefits for his body's recovery, and now it came in handy.

As the bio-current began to flow through his body, a faint tingling sensation began to spread through his body again, but Ji Feng was not the least bit alarmed, he knew that it was because his internal organs had been injured, so the bio-current was repairing them.

Although the process was slow and somewhat painful, the bio-current repair was much faster compared to lying on a hospital bed and slowly recuperating his body.

"Master, meditate and calm your mind!"

Suddenly, the intelligent brain's voice rang out in Ji Feng's mind, "Excessive emotional fluctuations will affect the operation of the bio-current, which is not good for the master's body!"

Ji Feng's eyebrows frowned slightly and asked, "Wise Brain, is there any way to make me recover more quickly?"

"No."

The intelligent brain replied very dryly, only to hear it say, "Because the internal organs of the master's body have been traumatised, it can only use the bio-current remaining in the body to repair it at the moment, and only then can it start cultivating and continue to increase the bio-current. Until then, the master can only maintain this state!"

Even though Ji Feng himself knew that this was the result, he was still a little disappointed to hear the intelligent brain say that.

It wasn't because Ji Feng was irrational, but he was really anxious in his heart.

He knew that Bai Zhu was still lying in the other ward, and even though the doctor had said that it was optimistic, who was sure that there would be no more accidents in the time before she woke up?

What's more, the doctor also said that even if Bai Zhu wakes up, she may suffer some degree of after-effects, such as loss of memory.

Because in the explosion, Bai Zhu had suffered more damage, even her brain had been shaken!

At the moment, Bai Zhu was still in a coma, so it was naturally impossible for him to activate the bio-current to repair his body on his own, so Ji Feng had to get himself well as soon as possible, or at least sit up in the shortest possible time so that he could go and freshen up Bai Zhu's body.

Otherwise, if something unexpected really happened to Bai Zhu, then

Ji Feng shook his head slightly, he really didn't dare to continue thinking about it, he could only close his eyes slightly once more and activate the bio-current.

.....

He didn't know how long had passed, but when Ji Feng heard a light footstep, he abruptly opened his eyes and immediately saw that He Hongwei was pacing back and forth in the ward with his hands in his pockets and an anxious and annoyed look on his face.

"When did you come?" Ji Feng asked.

"You're awake?!"

As soon as he heard Ji Feng's voice, He Hongwei hurriedly walked over and asked, "How is it, are you feeling okay now?"

Ji Feng's eyes glanced at himself and asked, "How good do you think I am now?"

He Hongwei pulled over a chair and sat next to him and said, "Ji Feng, I'm probably the one who got you into trouble this time, I'm really sorry."

Ji Feng immediately frowned, "What do you mean? Do you know who did it?"

"That's not known!"

He Hongwei shook his head and said, "However, if I hadn't invited you to Nan Yue, you wouldn't have had this kind of incident I've heard all about it from Director Zheng, this time it was really thanks to your luck, otherwise, trying to survive in that kind of violent explosion would have been really"

"It's not that I was lucky, but Bai Zhu saved me!" Ji Feng said.

"That's true too!"

He Hongwei nodded and said, "I also heard about it, right now Miss Bai is still in the intensive care unit, seriously, I'm a bit envious of you, to have such a girl around you who put her own life at risk to save you, deep love!"

Ji Feng only nodded slightly, but didn't say anything more.

He Hongwei also knew that Ji Feng was in a bad mood, so he stopped mentioning the topic and instead turned his words around and said, "Ji Feng, you should recuperate at ease first, you don't have to worry about anything else, getting well is most important now."

Ji Feng said in a deep voice: "Has this matter been spread all over the outside now?"

It was impossible that there were no rumours outside when such a big thing happened. What's more, this was Southern Guangdong, the territory of the Wu family, and now that something had happened to him, I'm afraid the Wu family would be the first to get the news.

I'm afraid, there are quite a few people who are secretly having fun!

He Hongwei frowned and said, "Ji Feng, who do you think did it?"

Ji Feng shook his head and said, "It's hard to say, almost all of these people are dead soldiers, not a single one left alive, if we want to find out where they came from, I'm afraid the only way to find out is from the weapons they used, and that police car."

Speaking of the gang that attacked and killed him, Ji Feng couldn't help but be secretly shocked.

The plan of action of these people was very well thought out, the intelligence was accurate, and the tacit cooperation and extremely high combat education shown during the operation were enough to show that this was definitely not something that ordinary people could do.

What made Ji Feng even more wary was the middle-aged policeman who fought with him at the end, whose strength was beyond his imagination.

Even Ji Feng was thinking that if this person had been at full strength from the beginning of their operation, it would have been an unknown whether he would have come back alive or not!

However, no matter how Ji Feng thought about it, he could not come up with any clue.

With such a strong strength, and with an expert like the middle-aged policeman sitting on the ground, and even a large number of dead soldiers this group of people, no matter which side of the force they belonged to, should not be underestimated.

However, in Ji Feng's memory, there was no sign of this gang at all!

"Could it be someone from the dynasty?" He Hongwei asked, "To be able to organise such a well-thought-out operation and move so ruthlessly and harshly, this matter can't be unrelated to the dynasty, right?"

"I don't know!"

Ji Feng shook his head and said, "When I fought with the other party, I didn't find any traits belonging to the dynasty on them! Even though the other party is very powerful, at least I didn't come across a Transformer!"

He Hongwei weighed in, "People from the dynasty may not all be reformers either!"

Ji Feng was stunned, then revealed a thoughtful expression and nodded slightly, "That's right."

This organization, Dynasty, was really too mysterious and too huge. Even so far, the outside world's understanding of them is still just the tip of the iceberg, what exactly is the origin of this organization, who organized it, what is their purpose

All these questions are still unanswered.

It's not impossible to say whether or not the dynasty is full of reformed people. Maybe there are some people who are extremely strong in their own right who have joined the dynasty and are called their gold medal fighters.

"Whether it was the dynasty that did it, I can't be sure." Ji Feng sneered, "There's no telling how many people who want my life, anyone could be behind this!"

“But there aren’t many people who are capable of organising such a powerful attack, are there?” He Hongwei said, “If it’s not Dynasty, I can’t think of anyone else who has that ability!”

Ji Feng then couldn’t help but look at him and asked, “You really can’t think of one?”

He Hongwei shook his head and said, “There are some things that cannot be said indiscriminately, especially when there is no basis for them.”

The two of them looked at each other and both understood what the other meant.

In fact, both of them knew clearly in their hearts that there was indeed someone other than the dynasty who could organise such a tight and harsh assault and kill operation.

–The Martial Family!

However, this was something that could not be said indiscriminately, nor could accusations be made indiscriminately.

If Ji Feng was attacked, it would be the same as the most crucial figure of the third generation of the Ji family being attacked and killed, which was almost like trying to end the Ji family’s future!

If they randomly speculated, no one knew what consequences it would cause, and He Hongwei could not say anything nonsensical!

“Alright, don’t think about that anymore.” He Hongwei stood up and said, “I’m relieved to see that you’re fine, you should rest well, just leave the outside matters to me.”

Ji Feng smiled in response.

He Hongwei patted him on the shoulder and walked out of the ward. Before he left the door, he looked back again with a gloomy expression.

Because He Hongwei knew very well that Ji Feng had been attacked and killed, this state of affairs was really too serious, although there was no reaction from the Ji family yet, He Hongwei was aware that the next time the Ji family made a move, it would be a thunderous rage!

A storm is coming!

Campus Master Chapter 2128

Ji Feng had been attacked!

He was still in the hospital and the female escort by his side was still unconscious!

The news spread as fast as it could, as if it had grown wings.

Everyone was in shock!

Who had done this?

Has he gone mad?

But for everyone who heard the news, their first reaction was almost always the same, because the news was just a little too shocking and unexpected, making people a little bit in disbelief!

Attacking and killing Ji Feng ah!

This was simply like directly challenging the Ji family head-on, one could even say that he was going to carry a knife and fight the Ji family with a single shot!

The question of Ji Feng's status in the Ji family no longer needs to be explained, but anyone who has paid attention to Ji Feng is now aware of this outstanding son of the Ji family who is rising like a comet!

In the Ji family, Ji Feng and Ji Shadong can almost be said to be the leading figures of the third generation of the Ji family, and the two of them are indistinguishable from each other.

In fact, not to mention that they are both the grandsons of Elder Ji, even if they are just side children, the Ji family would never stand by and watch them being attacked and killed outside without doing anything.

If any family wants to prosper for a long time, it cannot just rely on its first-born sons, but must incorporate fresh blood. This is like a country that wants to rule for a long time and wants to continue to be strong, it cannot always have the children of certain bigwigs, the so-called batch of TZs, holding the reigns of power.

So this is the situation now, whether you are a TZ or someone with an ordinary background, as long as you are talented, you have a chance to rise to the top, and as long as you are capable, you will be able to get a certain amount of say.

On the other hand, even if you are the descendant of a great man, if you are incapable of doing nothing and are nothing more than a poor man, then you can only live honestly as usual.

This is also the same for a family.

The family's elders are not very precious.

How could the elders in the family stand by and watch them being bullied outside?

What's more, it's not just about being bullied now, Ji Feng was attacked and killed out of the blue, and even nearly killed!

Faced with such a situation, how could the Ji family give up in peace?

Everyone knew that the Ji family would definitely make a big move next, it was only a matter of time, there was no need to doubt it at all.

So what everyone wanted to know now was not what kind of action the Ji family would take, because everyone knew that with the strength of the Ji family, their retaliation would definitely not be too small, or even, so big that it would be scary.

So with many people psychologically prepared, exactly what the Ji family would do to take out their anger for this outstanding first grandson of the eldest family was not the most anticipated thing.

This is because many people's attention is now focused on one question – who actually did it?

Just who had the audacity to go so crazy?!

Some people in the circle, in particular, were talking about it and found it almost a bit unimaginable. For many people, even if they were fighting with each other to the death, they would not be able to do such a thing as sending people to kill each other directly.

It's not that they can't do it, but they don't dare!

So if you can send someone to take someone's life directly, then someone else may come to take your life at any time, and if that is the case, then there are no rules in this circle.

Therefore, even those who fight very fiercely will basically adhere to the bottom line and will not easily cross the line, because if they do, they may be met with private hostility from everyone, which is simply killing themselves!

What's more, this kind of behaviour, which is so quick to want people's lives, can easily lead to an extremely fierce struggle, and may even lead to a fierce game between some major factions, and at that time, the consequences will be more than the word 'serious' can describe!

For even the most noble and concerned person would never be able to stand by and watch his child being attacked and killed!

But now it was Ji Feng who was attacked and killed!

Who did it?

Did the person behind the attack never consider the consequences of doing so? Or was it that some people were already prepared for a full-scale war with the Ji family?

This kind of speculation caused many people to be secretly alarmed, while they couldn't help but feel awe in their hearts.

How many people can there be who have the courage to make a move against Ji Feng and who are not afraid of the Ji family's retaliation at all?

Whether this mastermind is a certain force or a certain person, the other party is obviously emboldened, because according to sources, when those thugs attacked and killed Ji Feng at that time, they actually carried a very strong firepower, and there were even police officers involved This is clearly to take out Ji Feng regardless of everything!

The people who dare to do this and have the ability to do this everyone can count them on their fingers!

When everyone thought of this, many people could not help but be silent.

Because many people thought of an answer.

..... martial family!

Tossing and turning, I'm afraid that only the Wu family, could have such ability, such guts, not only to be able to spy on Ji Feng's trip in a short time, organize a well thought out attack, use a large number of experts and weapons, and even use the police.

More importantly, the Wu family was the only one who dared to lay such a poisonous hand on Ji Feng!

Because the Wu Family was not afraid of the Ji Family's retaliation!

Although the two families had advantages in their respective fields, it was difficult to tell which one was stronger when comparing them.

If the Ji family were to retaliate, the Wu family might not be able to stop it!

Moreover, the most crucial thing is, what about the evidence?

If there is no evidence to prove that the matter is indeed the work of the Wu family, then even if the Ji family is no longer angry and wants to retaliate, it will have to be carefully considered.

There may even be bigwigs from above to stop it, after all, you don't have real evidence, just accusing people out of thin air, it doesn't make sense!

But because of this, many people can't help but have a little chill down their backbone.

I'm afraid that only the Wu family is capable of planning and organising such an attack without leaving traces and evidence.

Therefore, the more evidence there was, the more people suspected that the Martial Family had done it.

And judging from this operation, the Martial Family's tactics were really ruthless and they wanted their opponents dead at every turn!

This made many people who didn't deal too well with the Martial Family feel a bit hairy and uncomfortable in their hearts.

Now, the one the Wu family attacked and killed was Ji Feng, but who could tell if it would be their turn next?

As a result, many people's eyes were focused on the Ji family, and they were all looking forward to the Ji family's reaction. The first grandson of the eldest family had been assaulted and killed, and if even the Ji family had to hold back, what could they do in the future if others were to encounter such things?

However, to many people's surprise, the Ji family did not seem to react at all, and not even the slightest rumour had come out. It was as if they didn't even know that Ji Feng had been attacked, which really made many people incredibly puzzled and astonished, could it be that the Wu family was really so powerful that the Ji family was so scandalized?

However, some people with an eye for detail found out that since the news of Ji Feng's attack came out, Ji Zhenping, the third oldest member of the Ji family, drove straight to the military headquarters!

This sent a shock through the hearts of many people.

.....

Just when the outside world was talking and speculating about who was behind the attack, or was expecting a response from the Ji family, Ji Feng, who was still lying on the hospital bed at the moment, snapped open his eyes, and a flash of brilliant light flashed through his eyes.

“Finally, I’ve recovered some!”

Ji Feng took a deep breath, propped his hands on the bed, then sat up with force, his abdomen still had some painful sensations, but it was completely bearable.

At this time, Ji Feng couldn’t wait any longer, he directly pressed the service call button at the bedside.

Soon, a little nurse walked in, the same little nurse who had been reprimanded by Ji Feng before, but this time, Ji Feng was in a much better mood, so he naturally wouldn’t throw his fire at her for no reason anymore.

“Nurse, please help me push the wheelchair over.” Ji Feng pointed to the wheelchair behind the door, and because he felt guilty, his tone was kind.

However, that little nurse, after pushing the wheelchair, hurriedly went around to the back, not daring to look at Ji Feng’s face, which made him secretly smile bitterly, it seemed that in this little nurse’s eyes, he was afraid that he was also one of those guys who were unkind for the rich, right?

But now Ji Feng didn’t have time to think about anything else, he sat on the wheelchair with his hands bracing his body, and then he was about to go outside.

But the little nurse hurriedly stopped him, “Mr. Ji, the doctor said that what you need most now is to rest

Ji Feng shook his head, “Don’t worry, I’m fine, now I’m going to see my friend

The little nurse, however, shook her head repeatedly and insisted on not agreeing.

Helplessly, Ji Feng suddenly had a movement in his heart, he fiercely glared and said in a deep voice: “Do I have to get angry again before you will let go?!”

The little nurse was instantly startled and hesitated for a moment, but still shook her head, “Your body has not recovered yet, you can’t move around!”

Ji Feng looked at her helplessly, thought about it, and said, “How about this, I’m already in a wheelchair anyway, just take me to see my friend, and I promise not to move around so that nothing will happen. But if you don’t take me, I’ll have to complain to you in your hospital about you

The little nurse bit her lip and said accusingly, “You’re a bully!”

Campus Master Chapter 2129

In the end, after Ji Feng had coaxed him with good words and threatened him with a cold face, the little nurse finally nodded and agreed that she was willing to take him to Bai Zhu’s ward.

And then the little nurse pushed the wheelchair and took him to the intensive care ward located at the other end of the corridor.

“That patient is in here!” The little nurse said.

“Well! Push me in!” Ji Feng looked at the tightly closed ward door and said in a low voice.

“That won’t work!”

The little nurse shook her head repeatedly and said, "This is an intensive care ward, and that patient is still under intensive observation, outsiders cannot enter at will"

Ji Feng glanced back at her, and the latter's voice came to an abrupt halt.

"Push me in!" Ji Feng said in a deep voice, "If you can't make the call, find someone who can!"

"This" The little nurse was a little hesitant and looked embarrassed, "Mr. Ji, please don't make it difficult for me, I'm only in charge of your service in this ward, I don't have the right to enter the other wards"

"Little Feng!"

Suddenly, a voice came, interrupting that little nurse's words.

Ji Feng immediately turned around and looked, just as Zheng Yuanshan was striding in, followed by two young men behind him. Ji Feng's gaze first fell on those two young men. Although these two looked normal, they had a special taste when they were walking, and they had some vague aura.

Obviously, these two young men were two practitioners!

Zheng Yuanshan came to the front and couldn't help but frown, "Little Feng, why are you out? Now your body"

Ji Feng shook his head and said, "Uncle Zheng, let's not talk about anything else, I definitely can't feel at ease until I see Bai Zhu" Now you're here just in time, I want to transfer my room next to Bai Zhu's room, please arrange it!"

Zheng Yuanshan frowned, "Little Feng, I know you're worried about Miss Bai's health, but even you still need someone else to take care of you now, how can you"

"Uncle Zheng!"

Ji Feng said seriously, "Do you see that I look like the kind of person who makes decisions haphazardly when his brain is hot? I naturally have my reasons for doing so!"

Zheng Yuanshan frowned and asked, "Then you are trying to"

Seeing that Ji Feng closed his mouth, Zheng Yuanshan did not continue to ask, everyone has their own privacy, Ji Feng obviously does not want to talk in detail, Zheng Yuanshan naturally is not good to continue to ask. What's more, if Ji Feng really wanted to do something, he really couldn't stop him.

"Alright!"

Zheng Yuanshan nodded and said, "I'll arrange this matter. By the way, these two lads, two experts from the provincial special police force, will be responsible for your safety during your hospitalization."

Ji Feng asked, "Is this necessary?"

Zheng Yuanshan said very seriously, "How come there isn't? The criminals are so rampant now, since they dare to intercept you in broad daylight, it's not impossible if they want to do it to you inside the

hospital! What's more, now you can be not only the victim, but also the main witness and party to this case, so the police must protect your safety, both in public and private!"

"Alright!"

Ji Feng nodded his head and accepted this arrangement from Zheng Yuanshan. In fact, he also knew that these two people Zheng Yuanshan had arranged for him should really be two experts, and apparently they were not just protecting the witness, they had come to protect themselves on purpose!

Because just now when the little nurse pushed him out of the ward, Ji Feng saw that in the two wards diagonally opposite to him, someone was secretly looking this way, and then it didn't take long for Zheng Yuanshan to come over, so it could be seen that Zheng Yuanshan had already arranged for someone to protect himself before.

But that should only be general protection, now these two experts, should be the killer.

"Then let's bother them for a few days!" Ji Feng said, "Uncle Zheng, thanks!"

"Alright, hurry up and go in." Zheng Yuanshan waved his hand and smiled bitterly. When Ji Feng came to his territory, he should have sent someone to protect him, but now he had not only failed to protect Ji Feng, he had even almost gotten Ji Feng killed, how could he still call it the word bother!

Ji Feng nodded and admonished again, "Uncle Zheng, arrange for them, no one can enter Bai Zhu's ward at will without my permission, or until I come out, it's very important!"

Seeing the seriousness of his words, Zheng Yuanshan nodded and said, "Don't worry, I'll personally watch outside until you come out, so you can rest assured, right?"

Only then did Ji Feng nod and gesture for the little nurse to push him in.

Looking at Ji Feng being pushed into Bai Zhu's ward, Zheng Yuanshan's face turned gloomy, a coldness flashed in his eyes – no matter what, the person behind the attack on Ji Feng had to be uncovered as quickly as possible, from Ji Feng's behaviour, it could be seen how important Bai Zhu really was in his heart!

Originally, Zheng Yuanshan already felt ashamed of himself for letting Ji Feng have an accident on his own turf, but if he still couldn't find a clue about this matter before Ji Feng recovered, then he really didn't know how he should face Ji Feng!

–The company's main business is to provide a wide range of products and services to the market.

Moreover, there was one thing Zheng Yuanshan had never known how to say to Ji Feng – according to the doctor, if the worst possible scenario occurred, this time Bai Zhu would most likely not pull through, or be called a vegetable!

This result left Zheng Yuanshan with mixed feelings in his heart, but he didn't know what to say to Ji Feng.

It was precisely for this reason that he tried to stop Ji Feng from going to see Bai Zhu. But today, it seemed that Zheng Yuanshan could not stop him, because in all the time he had known Ji Feng, it was the first time he had seen him so serious.

Zheng Yuanshan had a feeling that if he wanted to stop Ji Feng from seeing Bai Zhu today, I was afraid that Ji Feng would definitely turn on the spot with himself!

Therefore, Zheng Yuanshan agreed.

But Zheng Yuanshan also noticed the words that Ji Feng said – then let's bother them for a few days first!

I'm afraid this meant that Ji Feng was already ready to mobilise his men to come to Southern Guangdong. This could be because Ji Feng had started to distrust all the strangers around him, or, he couldn't see the fighting ability of these people, so he was ready to use his own men.

But whichever it was, it meant that Ji Feng was at least making preparations, and next, he was afraid that he would have to make a big move, or even go on a killing spree!

If you can force Ji Feng to this point, some people are really capable!

Zheng Yuanshan gritted his teeth, he had to get this done ahead of time, if he let Ji Feng go and fight someone with injuries, he wouldn't be able to go to the Ji family after he returned to Yanjing!

"Now I just hope Ji Feng doesn't do anything impulsive in a fit of anger when he sees the way Bai Zhu is!" Zheng Yuanshan secretly said.

"What a pity, such a good girl!"

Bai Zhu's injury made Zheng Yuanshan also feel very sorry for her, so not to mention the girl's stunning looks, just the fact that she was still so young and carried such weight in Ji Feng's heart, the fact that she ended up in this situation today was a sigh of relief!

He was only a policeman, not a doctor, and it was not up to him to decide whether he could bring the person back to life, or even how far he could recover afterwards.

What Zheng Yuanshan could do was to use his own connections to bring over the best doctors in Southern Guangdong to treat Ji Feng and Bai Zhu.

But so far, the results were not too satisfactory.

Ji Feng was not seriously injured, so it was not too difficult to recover, but Bai Zhu

.....

At this moment, Ji Feng was unaware that Zheng Yuanshan was gritting his teeth and was fierce. After the little nurse pushed him into Bai Zhu's ward, Ji Feng's face instantly turned gloomy.

He saw Bai Zhu!

Only, at this moment, Bai Zhu was completely devoid of her previous kind of overpowering and competent nature, she was just lying so still on the hospital bed, not moving at all.

Bai Zhu's ward was very large, and the room was not much different from the one Ji Feng was in, but there was a suite inside the ward, and the walls were completely separated by transparent glass, so you could clearly see the scene inside from the outside.

At this moment, Bai Zhu is lying on a bed in the compartment inside, and around the bed, various instruments are placed, and above the bed there is an oxygen bag that is bubbling

The entire room was silent, and if it weren't for the faint heaving changes that could be seen in Bai Zhu's chest at the moment, I'm afraid no one would have thought there were still signs of life here!

Just as soon as he saw this scene, Ji Feng's heart instantly ached, as if someone had suddenly tugged hard on his heart, making it unbearably painful!

The reason why Bai Zhu had turned into this state today was because of him!

Even through the glass, Ji Feng could clearly see Bai Zhu's white face, and a strong anger burst out from Ji Feng's heart, causing a cold aura in his eyes and a stern aura to emanate from his body, causing Xiao Hu Hu to shrink.

But soon, the little nurse was not too scared anymore, instead she gave Ji Feng a somewhat sympathetic look.

This young man is also oddly pitiful, not to mention his own injuries, his girlfriend has also become this way, it would be better to live a cleaner life, as long as there is a good body

"You go out first, I'll just be here by myself." Ji Feng said, "Without my permission, no one is allowed to come in, remember?"

"Ah?"

The little nurse was stunned and didn't react for a moment.

Ji Feng said in a deep voice: "Get out!"

"..... Oh!" The little nurse then secretly beamed and secretly said, "What's so divine about it!"

Ji Feng naturally didn't know what was in the little nurse's mind, and he didn't have the time to care what others thought, after the little nurse went out, he immediately pushed the wheelchair himself and entered the compartment inside the ward.

He wanted to save Bai Zhu!

Campus Master Chapter 2130

"Ha?!"

"Something happened to Ji Feng?"

In Southern Guangdong, in the general manager's office of the Brilliant Group, a young man wearing gold-rimmed glasses had a cup of coffee in his hand and was leisurely sipping it.

And when he heard the news, he couldn't help but shake the cup in his hand, then his whole body immediately revealed a look of surprise and asked, "Old Zhai, tell us quickly, what is going on? Did Ji Feng die? Is he dead without a body or was he shot in the head?!"

Seeing the man with gold-rimmed glasses ask questions like a series of pearls, Zhai Yadong couldn't help but be stunned before shaking his head, "It's not that serious! I heard that this time Ji Feng was on his

way out when he encountered an attack by thugs of unknown origin at the outer ring road, and those thugs even used a large number of weapons, and it was said that there were police officers involved!”

Zhai Yadong told the story of all he had heard, especially when he said that there was a big explosion at the end.

“It was said that when the police arrived at the scene, minced meat and body parts could be seen everywhere, and several of them threw up on the spot!” Zhai Yadong tsked, “Such scenes are rarely seen even in foreign gangland firefights, and only a terrorist attack can rival it!”

“The results! I want to know the results!” The young man said impatiently, “Tell me quickly, what was the result? You said it wasn’t that serious, so that means Ji Feng isn’t dead yet?”

“I don’t think so!”

Zhai Yadong shook his head and said, “After the incident, Zheng Yuanshan from the provincial hall personally led someone to the scene and reportedly took Ji Feng to the hospital right then and there, and then the news was strictly blocked, no one was allowed to visit Ji Feng without his permission, let alone get close to him

“Bullshit!”

However, before Zhai Yadong could finish his sentence, the man with the gold-rimmed glasses sneered and said disdainfully, “Who does he Zheng Yuanshan think he is? Does he really think he can overshadow the sky in Southern Guangdong? He even blocked the news

Zhai Yadong could not help but frown slightly, the words of the man with the gold-rimmed glasses were a bit harsh.

But yet, it was undeniable that what he said was indeed reasonable.

Under such circumstances, even if Zheng Yuanshan was the head of the provincial department, it would be impossible for him to block all information.

Even if you want to block information, you have to use people to do things, right?

It’s not unusual for Zheng Yuanshan to use people who have ties to the Wu family, or people who want to curry favor with the Wu family!

Not to mention Zheng Yuanshan couldn’t do it, no one other than people from the Wu family could do it if they came.

“Zheng Yuanshan still thinks he’s so great, I see, it’s better if he doesn’t block the news, this blockade might instead make the news spread even faster!” The man with gold-rimmed glasses sneered.

Zhai Yadong nodded, “Yes, this is not just as soon as something happened, the news came out, Ji Feng and his companions were seriously injured, and those thugs also died quite a lot!”

“What?”

However, the man with the gold-rimmed glasses was a little dissatisfied, “Just seriously injured?!”

Zhai Yadong nodded, “Yeah, seriously injured. At least when they were sent to the hospital, Ji Feng and his companion were both seriously injured.”

“Useless things!” The man with the gold-rimmed glasses shook his head and cursed, “A bunch of thugs, with police officers involved, even used a large number of weapons to specifically attack and kill Ji Feng, and only then did they only seriously injure him, without even taking his life?! Where the hell did these people come from, they are so useless!”

But Zhai Yadong’s face changed abruptly and he said in a panic: “Shh – you can’t say that nonsense, the whole thing might be wrong for others to think that you sent them!”

“What are you afraid of?”

The man with the gold-rimmed glasses was unconcerned and sneered, “So what if people hear it? I didn’t do it, and no one can assume that I did it just because I said a few words! His old Ji family is not that powerful either! Besides, even if I really did it, as long as they have no evidence, they can’t do anything to me!”

Zhai Yadong laughed bitterly, “Everyone else is afraid of getting into trouble, why do you still want to take the initiative to get yourself into trouble?”

“I’m not trying to get into trouble, I’m just not used to seeing the arrogance of the Ji family, and neither are you, Zhai. You don’t even dare to say anything out loud?” The man with the gold-rimmed glasses said disdainfully.

“Oh” Faced with the accusation from the man with gold-rimmed glasses, Zhai Yadong did not refute it, but only shook his head and laughed bitterly. In fact, he was secretly shaking his head in his heart, saying, “How can I compare with you? With your status, of course you dare to say such things and have someone to protect you when the time comes.

But on second thought, Zhai Yadong secretly shook his head again, even with this young man’s status, if he really angered the Ji family, some people might not be able to protect him!

Is the Ji family really that easy to mess with?

“So how is Ji Feng doing now?” The man with the gold-rimmed glasses did not know what was in Zhai Yadong’s mind and asked about Ji Feng’s situation again.

“I don’t know!”

Zhai Yadong shook his head and said, “The news I got is that Ji Feng has woken up, but that companion of his is still in the intensive care unit, and I’m afraid the situation is not too good, but the latest situation, I just don’t know, I heard that the police have sent people to warn the doctors and nurses who are responsible for treating Ji Feng and the two of them, and they have also taken a lot of measures, now except for the doctors and nurses, no one else can even get close to the area of the ward where the two Ji Feng are!”

“Tsk!”

The man with the gold-rimmed glasses but grinned, “It looks like they shouldn’t be hurt too badly!”

Zhai Yadong asked, "How so?"

"Think about it, if Ji Feng had nothing to do with it, with his arrogant personality, I'm afraid he would have already made a big fuss about it, so why would he keep the news under wraps like this again?"

The man with gold-rimmed glasses bristled, obviously disdainful of Ji Feng: "Now he's obviously doing this because they should be seriously injured, and I'm afraid Zheng Yuanshan is blocking the news to protect them!"

Zhai Yadong nodded his head, "Hmm! That makes sense. It seems that Ji Feng should have been injured quite badly, and that companion of his might have been injured even worse! The news from outside before was also that Ji Feng woke up first, and there has been no news of his companion waking up!"

"Hmph!" The man with the gold-rimmed glasses grunted twice and said gloatingly, "I think ah, the news that Ji Feng woke up might even be false, according to what you said, there was such a serious explosion and someone was directly blown into pieces, how light could Ji Feng's injuries be? Now they are releasing the news, I'm afraid it's just to confuse the outside world!"

"It's not that there's no such possibility!" Zhai Yadong nodded thoughtfully.

"Good! How wonderful!"

The man with the gold-rimmed glasses was laughing happily, "Let Ji Feng be so arrogant, now he's finally been taught a lesson, right? It's better to die straight away this time! I think, even if he can come back alive this time, I'm afraid he'll be scared out of his wits hahaha!"

.....

"Phew~!"

Looking at Bai Zhu, who was lying motionless on the hospital bed, Ji Feng couldn't help but let out a long, foul breath, trying hard to calm himself down.

He looked at Bai Zhu, who was pale and unresponsive, and a look of love and pity flashed in his eyes, and there was even a feeling of guilt.

Bai Zhu had been dragged down by himself!

If he hadn't forcibly asked her over from the military, Bai Zhu might not have experienced such danger.

However, there was no point in talking about this now. Besides, Ji Feng had never regretted doing this, and if he could choose again, he would still get her out of the military.

Thinking of the time spent with Bai Zhu since we met, remembering Bai Zhu's coldness, her competence, and her hidden weakness and attachment to herself Ji Feng's heart was filled with tenderness.

He held Bai Zhu's hand and a cold sensation came from it, making Ji Feng clearly aware of how weak Bai Zhu's body was at this moment.

Then think about when the explosion occurred, Bai Zhu did not hesitate to push himself away and blocked himself remembering that usually he was always used to her following him around, and even sometimes he would inadvertently ignore her existence

Ji Feng just felt his nose sour and his chest felt like something was blocking it, making him hold it in!

“Bai Zhu, I promise you, I will definitely cure you and won’t let anything go wrong with you!” Looking at Bai Zhu who was still unconscious, Ji Feng said softly, “When you get better, we will go together to take revenge, no matter who the person behind the curtain really is, I will not let him go, but only if you stay by my side!”

His voice was soft, but his tone was as firm as it had ever been!

After a few moments, Ji Feng slightly calmed his emotions, and then, he began to hold Bai Zhu’s hand tightly and fully activate the bio-current in his body

.....

Just as Ji Feng was carefully, using the only weak bio-current left in his body, he began to treat Bai Zhu, some people far away in Jiangzhou were agitated.

“Everyone!”

In the training hall of the security department of the Tengfei Group, Yi Xingchen stood with his feet straddling the ground and his face cold.

In front of him were the two battle teams that Ji Feng had carefully created, and at this moment, all of them had serious faces because they sensed from Yi Xingchen’s body that something unusual might be going on!

“Brothers, I have only one piece of news to tell you – Mr. Ji has been attacked and seriously injured!” Without any unnecessary nonsense, Yi Xingchen opened his mouth and uttered such news.

“Swish!”

Almost instantly, the eyes of all the battle team members present shone brightly, and a solemn aura of killing filled the air
