

Campus Master 2151

“Little Feng, check it out!”

“Swish!”

Ji Feng’s eyes suddenly narrowed slightly, a cold light suddenly flashed, and he sat up straight with a jerk and asked, “Uncle Zheng, can you be sure?”

There was no doubt that Zheng Yuanshan must have made a breakthrough in his investigation, which was why he called, otherwise, with Zheng Yuanshan’s stable character, he would not have been so presumptuous.

However, Ji Feng was still a bit uneasy, really because the investigation had been too difficult for some time.

The progress of Yi Xingchen’s side is slow, Zheng Yuanshan and Ji Shaolei, Zhang Lei and others, there is almost no progress, it can be said that the investigation is almost like stopping here.

Even if Yi Xingchen found something, but it is not too important, only secretly found some less important small role, the real big fish, has not been found out.

Don’t look at these days Ji Feng is very calm, looks as if there is no such thing at all, does not appear to be anxious in the slightest. But in reality, he was constantly concerned about the progress of the investigation in his heart.

Frankly speaking, it would be a lie to say that the delay in the investigation had no impact on Ji Feng.

Ji Feng’s heart was equally anxious.

It was really because, this time, the matter was very serious.

This is a group of thugs who don’t know where they came from, who don’t know their roots, who are ferocious, who are brazen, and who have an extremely well thought out plan of action, as well as tacit cooperation with each other.

Even

There are also incredibly strong masters on the ground!

The fact is that if you’re a fan of the game, you’re going to have to be a part of it.

Although Ji Feng had not yet reached such a point, it was inevitable that he was worried in his heart.

Because, what he was most worried about had happened – that middle-aged policeman, the most formidable enemy, had escaped!

Although Ji Feng could now conclude that this person had had his leg blown off, Ji Feng, who was also an expert, knew very well that for a true expert, the loss of a leg would certainly have an impact and his strength would certainly be reduced, but it was hard to say how great the impact would be.

At least with the strength of that middle-aged policeman, even if he lost a leg, his strong strength is not comparable to that of ordinary martial artists.

Such a dangerous person hiding in the shadows is like a wounded wolf coveting its prey in the shadows. Anyone who stumbled upon such an enemy would be very uncomfortable.

Ji Feng was likewise no exception.

But on top of that, Ji Feng likewise had another layer of concern that likewise made his heart a little uncomfortable.

—At this moment in the outside world, I don't know how many pairs of eyes are watching his every move, he is slow to find out anything, I don't know how many people are looking at his joke, and even laughing at the whole Ji family!

When others laughed at him, Ji Feng could care less, and he would not bother about it.

However, to bring down the family's reputation was not what he wanted to see, so from the moment he decided to retaliate, Ji Feng had been waiting in agony for news.

It was just that because of his excellent god-raising kung fu, he usually wouldn't show it at all.

And now, Zheng Yuanshan called and just as soon as he said that he had found out, Ji Feng immediately couldn't help but lose his temper a little.

All kinds of thoughts flashed through Ji Feng's mind, he took a deep breath and asked in a deep voice, "Uncle Zheng, what have you found out?"

"I found out who exactly is interfering with the investigation!" Zheng Yuanshan said in a deep voice, "More than that, I also found out some other situations, how about this, it's not convenient to talk over the phone, I'll go directly to the hospital to see you later, we'll talk about it in detail then!"

"..... Good!"

Ji Feng nodded his head.

Although at this moment he wanted to know the result more than anyone else in his heart, he held back. It was indeed not very convenient to talk about these things over the phone, after all, the phone wasn't too safe these days.

Since some people could extend their hands so far that they could even interfere with the results of investigations within the police system, it wasn't too difficult if the other party wanted to listen in on any phone calls.

Although Ji Feng's mobile phone is for the military and has an automatic encryption function, Zheng Yuanshan's phone does not have this function.

Besides, there are some situations that can only be clarified after we meet!

Then Zheng Yuanshan hung up the phone, listening to the busy tone coming from the receiver, Ji Feng's eyes were slightly narrowed, and if you look carefully, you will find a cold glint in them.

"The fox's tail has finally revealed itself!" Ji Feng said to himself in a deep voice, "This time, I'll see where you're going to run!"

“Ding

Suddenly, the phone rang once again, Ji Feng casually picked it up and found that it was Zhang Lei calling, he immediately picked up the phone, “Lei Zi, what do you say?”

Zhang Lei’s voice came over quickly, “Crazy, I’m rushing to the hospital now, I have a major discovery on my side, let’s talk about it when we meet!”

Ji Feng raised his eyebrows, “You’ve made a discovery too?”

“Too?”

Zhang Lei immediately sensed another layer of meaning in Ji Feng’s words, and he smiled, “It seems that I’m not the only one who has made a discovery, huh?”

Ji Feng nodded and said, “That’s right, the other side of the investigation has also made progress let’s talk about it when you come!”

“Good!”

Zhang Lei answered and then hung up the phone.

After closing the line, the corner of Ji Feng’s mouth couldn’t help but pull up a slight arc: “It seems that today is a harvest day!”

Zheng Yuanshan and Zhang Lei called one after another, both saying that they had found out something, and from the tone of their voices, it must have been very important information, this was really a coincidence.

If it goes well, maybe just what they have found out, they can follow the vine and directly uncover the person behind the curtain!

.....

The two of them arrived at the hospital almost one after the other, and when they arrived, Ji Feng was sitting on the sofa outside the ward smoking, and there were already four or five cigarette butts thrown in the ashtray on the coffee table, and the air in the room was not too good, with some smoky feeling.

Zheng Yuanshan and the two of them walked in and both couldn’t help but frown.

“Little Feng, is your current body okay to smoke?” Zheng Yuansan said, “Your body is only just getting better, it’s better to smoke less

“It’s fine, just a cigarette to stabilize!” Ji Feng said.

Zheng Yuansan stopped talking, he immediately understood that Ji Feng was having some violent mood swings, so he was smoking to calm himself down.

Ji Feng put out the cigarette in his hand and said, “Okay, no more smoking Uncle Zheng, you said on the phone that you found out?”

Zheng Yuanshan immediately nodded and said, “That’s right, the first few days, I deliberately did nothing, just a normal daily commute, and then when I had time, I prodded the task force and asked

them about the progress of their investigation, while privately, I likewise deliberately arranged a few people, to investigate ”

Zheng Yuanshan arranged a few people, although it is said to be private and secret investigation, but in fact, but still some people know, this is of course Zheng Yuanshan deliberately let people know, he wants to take this to draw out the people interested in this matter.

“However, the other party is very cautious, after a few days in a row, there is no movement, so I suddenly let those few police officers make the appearance of an emergency operation, and then for the contents of the operation strictly confidential, and secretly executed

When he said this, Zheng Yuanshan could not help but sneer: “Sure enough, this sudden action made some people sit up and take notice! Certain people began to privately try to find ways to inquire about the contents and targets of the operation!”

“A total of two people, and one of them is also the deputy director!” Zheng Yuanshan snorted coldly, “After my covert investigation, only the two of them were particularly concerned about this operation, and moreover, they also had this right to be able to influence the test results!”

“Deputy Director

Ji Feng’s face then went gloomy, this was already a very high position, at least within the police system, a real power deputy director, the power that he had was a lot.

And the key issue was that such a high level leader was actually involved in the attack on him, what did this mean?

“Uncle Zheng, can you be sure that these two people must have something to do with this matter?” Ji Feng asked.

“Basically, I can be sure!” Zheng Yuansan said.

Ji Feng nodded thoughtfully and after a moment of deliberation, he looked at Zhang Lei again and asked, “Lei Zi, what have you found out?”

Zhang Lei immediately said, “Old Yi and I have found out the source of the weapons!”

Ji Feng’s eyes narrowed slightly at once.

“What are you going to do?” Zhang Lei asked.

“Just follow what we discussed before!” Ji Feng said indifferently, “The others have put a knife to my neck, so I can only fight back! Since they will play assault and sneak attack, then I can only play with them!”

“Little Feng

Zheng Yuanshan frowned, “I still say that, think twice! If you really do that, I’m afraid that the next attacks and cross-examinations you will have to endure will not be any less

Ji Feng shook his head and said, “It’s fine! If you are attacked and killed for no reason, you can’t even be allowed to resist?”

“But” Zheng Yuanshan still wanted to persuade again, then heard Zhang Lei said: “Second uncle, rest assured, the reason why brother Shao Lei did not participate in the investigation, is specifically to go to set up, in order to prevent certain people’s cross-examination! ”

“So that’s how it is!”

Zheng Yuanshan then understood: “So you all have prepared”

Looking at Ji Feng, who had a calm and steady face, and Zhang Lei, who already gradually had a kind of mature manly demeanor, Zheng Yuanshan could not help but feel in his heart that their group of people had also grown up, and even, when they joined hands, they would actually be so well thought out.

The energy that they were about to explode out of was extremely amazing!

“Then when are you planning to make your move?” Zheng Yuanshan asked.

“It shouldn’t be too late, just this evening!” Ji Feng’s voice was low, he stood up and walked to the window, looking out into the distance through the gap in the curtains, “Tonight, but there is something to do, some people, have bounced around enough, it’s time to uncover them!”

Campus Master Chapter 2152

Night falls.

Another uneventful day had passed.

By careful calculation, by this day, it had been more than ten days since Ji Feng was attacked, but apart from the appearance of some fierce guys on the roads of Southern Guangdong, which had set off a storm, there was no more movement.

It seems that after the attack, Ji Feng was completely indifferent, or to put it more harshly, he was at his wit’s end and had no other options.

Otherwise, with Ji Feng’s status, he was suddenly attacked for no reason and almost lost his life, and even heard that even one of the women beside Ji Feng almost lost her life. Under such circumstances, it would be strange if Ji Feng didn’t retaliate, but he hadn’t made any move until now, which was a bit strange.

It looked like Ji Feng might have conceded!

Actually, if you think about it, since that gang had made a move against Ji Feng, and had obviously done it with a deadly hand, it meant that Ji Feng and the other party had formed no ordinary grudge, or at least a deep grudge, or even a deadly grudge most likely!

This means that the other party must know Ji Feng’s identity, which is evident from the fact that the other party knows Ji Feng’s whereabouts so well, and it’s definitely not just a matter of time before they set their eyes on him!

The fact that they knew Ji Feng’s identity and still dared to do so, and that they were so ruthless, shows that they were not afraid of Ji Feng at all.

Then, how could they be afraid of Ji Feng’s investigation afterwards?

This is the simplest truth that anyone can understand.

It is understandable that Ji Feng's investigation did not yield any results, which is normal.

The fact is that even if he has a background and is irritated, what can you do if you can't find an opponent?

You can't just find someone to take care of people, right?

That would not be called revenge, it would be called bullying!

It can be seen that Ji Feng sent people to attack some people in the triads of Southern Guangdong, nominally to investigate the source of the arms, but I am afraid that his real purpose was also because he was suddenly attacked and killed, and he was holding an evil fire in his heart but had no way to vent it, so he could only vent his anger through this way!

It was as if two people were fighting and one of them couldn't beat the other, so he was angry and couldn't take it out on his face.

Apart from that, there was nothing more.

This made many people look a few more points lower at what Ji Feng did as a person.

It seemed that Ji Feng was not as outstanding as he was rumoured to be. I'm afraid that all the fame that Ji Feng received in the past was just the Ji family deliberately creating momentum for him outside in order to push Ji Feng to the forefront.

The fact is that Ji Feng is just like any other son of a family, who can only experience smooth circumstances and cannot withstand blows.

It's just a family boy!

Even some of the major leaders of Southern Guangdong Province had such thoughts.

Not to mention, some guys with evil intentions who were originally waiting to see Ji Feng's jokes, or even hoping for Ji Feng's downfall.

Even some people in Yanjing were looking at Ji Feng's jokes!

However, it was in this situation that several SUVs appeared in a suburb of Yuezhou, and not far ahead of them was a villa complex.

This is a very upscale villa group in Yuezhou, with mountains by the water and an excellent environment Of course, this price is certainly needless to say.

So the people who can live here are either rich or noble!

Even some of the big bosses who are well known throughout the country have properties here.

As for those in power they certainly wouldn't use their own names to buy a house here, but how many of these villas actually belong to those in power, I think as long as one understands, they will have an outline in their hearts.

“Is this where he lives?”

Looking at the cluster of villas in front of him, Ji Feng couldn't help but frown, “A deputy director of a provincial department, living here openly, isn't he afraid of people gossiping?”

According to the information he had received, the one who had interfered with the police test results, that is, a deputy director of the police department, lived in this villa complex in front of him.

Which specific building he lived in, Ji Feng and the others all knew clearly.

However, a deputy director actually dared to live here openly, he really had a lot of guts!

“There's nothing here!”

Ji Shaolei shook his head and said, “You haven't seen a more ruthless one, before when your second uncle hadn't gone to Jiangzhou, there was a deputy mayor of Jiangzhou that had a private estate Hey, an estate in Jiangzhou, think about how much it's worth!”

Ji Feng was stunned.

He has been living in Jiangzhou for almost four years, of course he is very familiar with Jiangzhou, it can be said that there is just an inch of land, especially some prosperous locations, that really money can not buy, in the country is only Yanjing and Jiangzhou is not comparable, other places are slightly inferior.

From this, you can know what it really means to own a manor in Jiangzhou!

“This deputy director is already considered good, at least, this villa is neither under his name nor under his family's name, this is already considered very restrained!” Ji Shaolei sneered, “Some officials nowadays, once they have a little power in their hands, they are greedy beyond your imagination!”

Ji Feng said indifferently, “His greed can only go so far today!”

“Boss, let's do it, shall we?!” Yi Xingchen asked.

“Wait a bit longer, send someone to scout first!” Ji Feng said, “Make sure everything is foolproof!”

No matter what, they were going to make a move against a person in the system, not to mention that this person was still a deputy department level leader, considered a high cadre, if a mistake was made, it would cause a very bad impact, so they had to be careful.

Yi Xingchen immediately nodded: “We already have someone inside, I'll contact him now!”

Ji Feng nodded, his eyes slightly narrowed as he stared at the villa complex in front of him, his face calm, and he didn't know what he was thinking.

A moment later, Yi Xingchen received the message and said, “The man is inside, our men have been watching inside, the target hasn't gone out since he entered the villa!”

“Then let's do it!” Ji Feng said.

“Yes!”

Yi Xingchen's face straightened as he immediately pushed open the door and got out of the car, waved his hand towards the few SUVs behind him and made two hand gestures, at once, the people in the cars behind him got out quickly.

"Wait a minute!"

Just as Yi Xingchen was about to lead his men into action, Ji Feng called out to him, "Old Yi, remember, as long as the target is alive, I don't care about the rest!"

Yi Xingchen immediately understood, he nodded heavily and said, "Boss, don't worry, if he cooperates obediently it's okay, if not"

Ji Feng nodded slightly, "Go!"

"Go!"

Yi Xingchen waved his hand and disappeared behind the green belt on the side of the road in a few breaths.

.....

"Oooh"

A delicate moan rang out in the dark night.

On the sofa in the villa's living room, two fleshy worms were tangled together, and the man on top, so obese that his whole body seemed like a ball of meat, was trembling all over his body as he squirmed.

The woman moaned, before asking, "Why are you so excited today?"

Usually the fat pig wasn't very good at it, often taking her half a day to come, but not even a few strokes before he quickly gave up.

But today he was so excited as soon as he got back, and after dinner and a shower, he couldn't wait to snuggle up, which was a bit unusual.

"Hey! It's a big day!" The man's head arched against the woman's breast and his mouth slurred.

"Oh? What is it?"

"We're going to be rich today!"

"Rich? What kind of fortune?" The woman was stunned.

"Never mind what kind of fortune, first guess how much money we have today?" The man was selling a story, but in those words, there was an undisguised smugness.

"It seems that Deputy Director Wang's harvest today is not small!" However before the woman could answer, a voice suddenly rang out, "How about letting me guess how much income Deputy Director Wang had?"

"....."

The two people who were originally exercising violently on the sofa, pressing it to the point of trembling, instantly froze.

Swish!

The obese man sat up violently, and because of the excessive force, it made the fatty flesh on his body tremble violently for a few times, and that gesture was really amazing.

The woman shrieked in alarm and hid behind the obese man, clasping her hands to her chest to block her body, while opening her mouth to scream, but her voice was still in her throat when she heard a cold voice say, "If you don't want to die, you'd better sit there honestly!"

"....."

In a flash, the woman immediately bit her lips tightly, not daring to make a sound at all. Just staring across the room in horror, she then realised that there were two tall men, who had somehow managed to stand in the living room, with the floor-to-ceiling window behind them still open, from where they had obviously entered.

"Who are you people! What do you want?!" The obese man spoke up, "Since you know who I am, you should know what the consequences will be for you to do so!"

"All right, all right, you don't have to play this game with us, how come you haven't thought about the consequences of the things you've done yourself?"

"What did I do?" The obese man's heart trembled and he immediately asked in a stern voice.

"I'm too lazy to talk nonsense to you, now I'll give you two choices -" one of the men held up two fingers, "First, now dress up honestly and come with us, so you can suffer less. Second"

"You're breaking the law!"

The obese man yelled lowly in colour, "I'm telling you"

Boom!

With a big sweeping foot, the obese man was kicked directly on his temple, his eyes rolled over and he directly passed out.

"Toast to the wine!"

"Take it away!"

Campus Master Chapter 2153

Boom!

With a big sweeping kick, the obese man was kicked directly on his temple, his eyes rolled over and he directly passed out.

"Toast the wine and eat the punishment!"

"Take it away!"

With an order from one of the big men, the obese man was dragged away as if he was a dead pig.

And then, the big man turned his gaze to the woman with her hands clasped tightly to her chest and a frightened look on her face, and said in a deep voice, "What about you? Are you going to dress honestly and come with us, or are you going to be like this fat pig"

"I'll go with you!" The woman said in a panicked and alarmed voice.

"Very well!"

The big man nodded, then raised his hand to look at his watch and said, "Get dressed, I'll give you two minutes!"

At once, the woman couldn't care less about being shy, let alone covering her body, and almost as quickly as she had ever done in her life, she put on the clothes scattered on the floor and went out after the big man with trepidation.

"Target has been captured!" When the voice of the battle team member came over the intercom, Yi Xing Chen smiled faintly and said, "Boss, the man has been captured."

"Go! Next!" Ji Feng said in a deep voice.

As the convoy left, the entire villa area was unaware that two people had just been taken away!

.....

Inside an airtight room, a man who was not covered in any clothes was lying on the floor, still unconscious and unmoving.

"Wow~" a bucket of cold water was poured straight down.

"Well"

The man suddenly jolted, his body shook a few times, and slowly opened his eyes, his face with a touch of shock and bewilderment, as if he hadn't yet reacted to what had actually happened.

But when his eyes gradually came into focus and he saw his surroundings, he immediately recalled what had happened earlier, when several large men had barged into his villa and interrupted his affair with his mistress

The obese man instantly tensed up, he sat up with a jerk and turned his head around in a panic, and saw that in this room, there were two big men standing by and a young man, staring at him with a playful look on his face.

"How are you, Deputy Director Wang?"

Seeing the obese man wake up, the young man gave a slight smile.

The man known as Deputy Director Wang instantly had a look of panic flash across his face and bellowed in a stern voice, "Who are you people! Why have you arrested me? Do you know what you are doing? Blatantly attacking a state official, you're committing a crime!"

"All right!"

But the young man waved his hand and said, "There is no need to shout and shout, and there is no need to put any big hats on us, since you, Deputy Director Wang, dare to do the first day, don't blame others for doing the 15th! Deputy Director Wang, you don't need me to remind you of what you've done, do you?"

Deputy Director Wang's heart suddenly trembled, could it be that the thing he had done was known?

Despite his nervousness, Deputy Director Wang yelled, "I don't need to remind you of what I've done, I'm a righteous person, I'm not afraid of any evil spirits or snakes! Instead, I would like to remind you that right now you are doing something that will cost you your heads!"

"Heh!"

The young man shook his head and snorted, "A good line about doing the right thing, the word brazen and shameless is an insult to the word you use! All right, Deputy Director Wang, I don't care to talk nonsense with you, I only ask you, in the bombing case that happened on the outer ring road not long ago, who ordered you to privately interfere with the police in handling the case?"

Swish!

As soon as Deputy Director Wang heard this, his eyes snapped wide, then he immediately returned to normal: "I don't know what you're talking about, as the Deputy Director of the Police Department, I would only supervise my subordinates to solve the case as soon as possible, I would never interfere with them"

"Bullshit!"

The young man sneered, "In that case, how did you get your money? How did you get your villa?"

Deputy Director Wang was dumbfounded by the question, with his salary, he couldn't afford a villa that big, let alone having to keep a mistress

"I'll ask you one last time, who ordered you to do this!" The young man asked in a deep voice, "I don't have much time to waste with you, if you tell me, you will feel better, if not"

"Who the hell are you?!" Deputy Director Wang asked through clenched teeth.

"What do you say?" The young man asked rhetorically, "But don't tell me that you really don't know me!"

Deputy Director Wang's hand shook for a moment, but shook his head and said, "I don't know who you are, nor do I know exactly what you've arrested me for, I just"

Before he could finish his words, he saw the young man shake his head and stride straight over, "You really don't see the coffin, since that's the case, there's nothing more to say between us"

"Ka ka ka!" The two big men next to him also drew their pistols at the same time and loaded their bullets.

"Wait a minute!" Deputy Director Wang immediately panicked and hurriedly shouted, "Ji Feng! Don't you mess around, don't think that you can do whatever you want just because of your status!"

“Heh!”

Ji Feng instantly laughed, but his eyes were incomparably cold, “Now you know me?”

Deputy Director Wang nodded helplessly, could he not?

From the moment Ji Feng first arrived in Nanye, many people were concerned about him and He Hongwei, and Deputy Director Wang was naturally one of them – as a person in the official world, if he didn’t even have this sensitivity, then he shouldn’t be mixed up.

Of course, at the beginning, Deputy Director Wang was concerned about Ji Feng, but he didn’t want to do anything to him, he just wanted to get to know Ji Feng and try not to clash with him in the future if he didn’t have to, or to be more careful not to let Ji Feng get hold of him.

After all, he and the Ji family are not the same way.

Just what happened later

“Ji Feng, you arrested me here for no reason, this is a crime, even if you have a background, you can’t be protected!” Deputy Director Wang said in a deep voice: “Besides, even if I had embezzled money, there would naturally be state authorities to investigate and deal with it, it’s not your turn yet!”

“Why are you counting on me?!” Ji Feng simply ignored these words of his and only asked in a deep voice.

Deputy Director Wang was just stunned, he didn’t expect Ji Feng to not talk to him at all.

Shaking his head, Deputy Director Wang said in a deep voice: “I don’t know what you are talking about, you and I have no grievances between us, why should I count on you?”

“Then we don’t have anything to talk about!” Ji Feng shook his head and said, “Originally I thought you would be more sensible, but realizing in seems there is no use in keeping you!”

He arrived in front of Deputy Director Wang and raised his foot to kick.

“Ji Feng!”

Deputy Director Wang shouted in a panic: “If you dare to act recklessly, no one can protect you! Don’t think that just because your Ji family is so powerful, you can just cover the sky with your hands”

“Still dare to talk tough?” Ji Feng’s face was gloomy.

“If I haven’t done it, I haven’t done it, it’s useless even if you kill me!” Deputy Director Wang said angrily. However, the corners of his eyes involuntarily twitched a few times, showing that his heart was not as firm as he was showing at the moment.

In fact, Deputy Director Wang naturally knew why Ji Feng had approached him, but there were some things he could not admit.

But if he admitted to that, then no one could save him!

Deputy Director Wang naturally had a clear idea of which was more important.

“Boom!”

However, what he got in response was Ji Feng’s fierce kick, which instantly sent Deputy Director Wang’s fat body sliding across the floor and hitting the wall heavily.

“Ah...”

Deputy Director Wang let out a miserable cry, but clenched his teeth and insisted on not speaking.

Ji Feng sneered, “Still not going to say anything? Well then, I hope you can stay stiff to the end”

He said here, he coldly glanced at Wang deputy director, said in a deep voice: “Wang Jiangshi, ancestral South Guangdong Delta, now living in the provincial capital of Yuezhou, parents live in the old home, siblings a total of five, wife is a chemistry teacher in Yuezhou three middle schools, son this year in Yuezhou one middle school in senior high school ”

“Shut up!”

Ji Feng’s words had not yet finished, heard Wang deputy director shout, full of panic and anger: “Ji Feng! Don’t go too far, what do you want?!”

Ji Feng said in a deep voice: “You know best what I want to do, say it or not, it’s up to you!”

Deputy Director Wang gritted his teeth and stared deadly at Ji Feng, with a shocked and angry look in his eyes, he roared lowly, “If you dare to touch a single hair of my family, I”

“What are you going to do to me?!” Ji Feng’s gaze instantly became stern, “My friend is still lying in the hospital, and I almost died, do you think, your threats will work on me?!”

Deputy Director Wang was instantly speechless.

Indeed, the matter of Ji Feng’s assault and murder was almost unknown in the official circles of the whole of Southern Guangdong, and Deputy Director Wang was naturally equally clear about it.

“If I tell you, will you let me go?” Finally, Deputy Director Wang spoke up.

“That depends on how you behave!” Ji Feng said indifferently, “If you say it, your family will be fine, but of course you can also not say it”

“You’re despicable!” Deputy Director Wang gritted his teeth and said angrily.

“Say whatever you want!” Ji Feng said indifferently, “Whether I’m despicable or noble, at least I didn’t take the initiative to provoke you, yet you want my life!”

“That’s not my doing!” Deputy Director Wang said angrily.

Ji Feng shook his head and said, “If you don’t say so, I can only assume that you did it!”

“You” Deputy Director Wang stared deadly at Ji Feng, but all he saw on Ji Feng’s face was coldness, and he couldn’t help but tremble in his heart, at this moment he realized that Ji Feng was getting real, and was definitely not playing with him!

“Someone gave me a sum of money to delay the police investigation as much as possible and confuse the public” Finally, Deputy Director Wang gave in.

Campus Master Chapter 2154

“..... Ji Feng, I have told you everything I know, I hope you will keep your promise and not touch my family!” Inside the sealed room, when Wang Jiangshi finished recounting the whole thing, he couldn’t help but look at Ji Feng and say.

“You’ve finished everything?” Ji Feng asked indifferently.

“I’ve said everything I know.” Wang Jiangshi said, “What you promised me”

However, before he could finish his words, he was interrupted by Ji Feng, only to see Ji Feng shaking his head and saying, “Wang Jiangshi, if I remember correctly, I didn’t promise you anything!”

Wang Jianjian’s face instantly changed and he immediately said sharply, “Ji Feng! You promised me before that you would spare my family as long as I told the truth”

Ji Feng faintly shook his head and said, “Wang Jiangshi, listen to me carefully, the reason why I’ve only arrested you alone now is because you’re the only one involved in this matter at the moment, as long as you’re smart enough, your family will be fine, but if your family is also involved, then don’t blame me!”

Wang Jianjian was immediately relieved, and he nodded his head: “Don’t worry, my family knows nothing about what I do, they are honest people who never ask about what I do outside, so they have nothing to do with this matter at all ”

Ji Feng glanced at him and said indifferently, “Whether or not there is a relationship, I will go and investigate it myself!”

Wang Jiangshi was busy asking, “Then I”

“You want to go back?” Ji Feng gave him a look.

“.....” Wang Jiangshu choked for a moment, he naturally knew that since he was now in Ji Feng’s hands, it wasn’t that easy to go back.

Besides, even with all the things he had done, even if Ji Feng let him go back, he would not have any good days in the future.

But no matter what, staying here is always unsettling in the heart, after all, he doesn’t even know what this place is, let alone knowing that Ji Feng will directly do away with him one day when he is in a bad mood

“Humph!”

Ji Feng coldly snorted and turned his head to a big man next to him and said, “The man is yours.”

The big man immediately nodded and said, “I know what to do!”

Ji Feng nodded his head and walked out of the room with big steps.

These members of the war team were all from the army or had been mercenaries, they were no strangers to interrogation, handing Wang Jianzhu over to them would definitely be interrogated repeatedly, and as long as any of the questions in between were answered differently than before, there was no way to escape these people's eyes!

Seeing that Ji Feng left, Wang Jianjian was instantly anxious, he shouted in a panic: "You promised not to hurt my family"

However, Ji Feng was ignoring him and walked straight out.

The first thing that I did was to give a promise to Wang Jiangsheng.

In fact, from the beginning, Ji Feng also never intended to move Wang Jianjian's family, after all, it was Wang Jianjian who was involved in the attack and killing incident, and it had little to do with his family.

As the saying goes, the disaster is not as bad as the family, and Ji Feng has his bottom line.

The most important purpose of Ji Feng is to find out who is behind the attack on him, and I believe that Wang Jianjian is just a pawn in this, which is also confirmed in Wang Jianjian's confession.

Of course, there is a prerequisite for all this – that is, Wang's family is not really involved in this matter, otherwise, it would be an enemy.

For the enemy, there is not so much to say.

.....

"San'er, how is it?" When Ji Feng met up with Ji Shaolei and Zhang Lei, Ji Shaolei immediately asked impatiently.

"It's almost done." Ji Feng said.

"That guy is telling the truth?" Ji Shaolei asked with a frown, "In case there's water in his words, it won't be good if we act rashly."

Ji Feng shook his head and said, "Unless he doesn't want his own life and his family's life anymore, he wouldn't dare to tell a lie!"

Ji Feng had seen a lot of people like Wang Jianjian, such people usually looked mighty, but in fact it was only because they held a little power in their hands. But if they suddenly lost their power, or if they suddenly realized that the power in their hands was useless in front of others, at this time, they would be much more honest!

Ji Shaolei nodded and said, "That's right! Since this fat pig is so greedy for money, he wouldn't dare to play tricks!"

A person who has what he wants in his heart, who has desire's, will not be too bold. Moreover, the more such a person was, the more he cared about his own little life.

"So, what's next, we move?" Ji Shaolei asked.

"No!"

Ji Feng shook his head and said, "Let's wait until I finish interrogating the other guy!"

This time, Zheng Yuanshan found out that there was a total of another person who was a mole within the police, and none of the positions were very low. In particular, Wang Jianjian was a high ranking deputy director, and the other one, although a little lower in rank, was not an ordinary small police officer either.

Now what Wang Jianjian should explain has already been explained, but there is another person who has not been interrogated yet, and it is always better to hear the answers of both people.

"You didn't use that method to interrogate that fat pig?" Zhang Lei frowned and asked, "Wouldn't that be more secure?"

"No!"

Ji Feng naturally knew what method Zhang Lei was talking about, he shook his head, "This fat pig's physique is not too good, once that method is used, he will definitely turn into an idiot This matter must also involve other people, making him an idiot now will affect the actions later!"

The interrogation method of using bio-current to simulate neurotoxin injected into the interrogated person's body is certainly the safest, because at that time the interrogated person will have no ability to resist at all and can only be at the mercy.

But the problem is, Wang Jiangshi is not an ordinary person after all, he is also a deputy department level official, if he is turned into an idiot, the next thing will definitely be a bit of trouble.

What's more, Ji Feng kept this Wang Jiangshu, he would still have a use for him in the future!

"What about that other guy now?" Ji Feng asked.

"Still unconscious woke up once in the middle and was knocked out by me again!" Zhang Lei grinned, "If I hadn't been interrogated yet, I'd want to just do that son of a bitch!"

"Go! Go over and take a look!" Ji Feng said in a deep voice.

The large teal-rimmed glasses hung crookedly on his face, his eyes were dull and vacant, the corners of his mouth were even crooked, his body was leaning against the wall, and his whole body was limp, looking as if he was demented

This is the second person they caught, Ji Feng.

This person is also a leader within the police system, only that the position is not as important as the previous deputy director Wang, only the leader of the testing department and because of this, he is able to interfere with the test results so conveniently!

But at this moment, this leader of the testing department has turned into an idiot!

Ji Feng only slightly urged a bio-current, simulated as neurotoxin injected into his body, and he was completely unable to resist. When he finished answering all of Ji Feng's questions, he became like this!

"Son of a bitch!"

Zhang Lei stared at the leader who had turned into an idiot and couldn't help but coldly curse, "Son of a bitch, you simply don't know how to live or die! You dare to do anything for a little money!"

What this guy had explained really made Zhang Lei furious!

According to this person, it was Wang Jiangshu who had found him, promising to give him a sum of money and to bring him up when the right time came, only asking him to revise the test results or find a way to delay the test.

This man did it without hesitation!

Even before he did it, he already knew that it was Ji Feng who encountered the attack and killed him, and he also knew that it was arranged down by Zheng Yuanshan himself, but he had no qualms about it and actually did it regardless!

He even asked the staff of the testing department to delay as much as possible, and when the report came to him, he also pressed for it not to be reported. If it wasn't for Zheng Yuanshan's repeated urging, the test report would not have known when it would have been handed in.

Damn it!

Zhang Lei's face was ugly, and the way he stared at that man, he almost wanted to tear him apart!

"It's all this bastard's doing!" Zhang Lei cursed angrily, "After getting the report, my second uncle also investigated some medium-sized and above hospitals in Yuezhou to be on the safe side, especially focusing on the patients who were seriously injured but because there were specific age groups on the report, but anything that didn't fall into that range, wasn't checked! "

Although Zheng Wonsan did not know that someone had escaped at the scene of the explosion at that time, but, out of the sensitivity of an old police officer, after the case, Zheng Wonsan still sent people to investigate the major hospitals.

The result was, of course, nothing, and so Zheng Wonsan became largely convinced that everyone at the scene was dead at the time.

Although no one was sure if the person who escaped was in one of the hospitals at the time of the police check, at least, the possibility was high, because the whole leg was blown off directly, which is not a small operation if treated, and no ordinary hospital can do this kind of operation, only to go to a big hospital.

So there was at least a 50 per cent chance of catching the guy who got away!

"It's useless to talk about this now!" Ji Feng shook his head and said, "Since he escaped, it's just a matter of catching him again! And that black hand hiding behind the curtain, don't try to get away either!"

"Oh?"

Ji Shaolei and Zhang Lei both looked at him at the same time, "Did that fat pig from before give a clear account of everything?"

Ji Feng nodded, "It's about time, first catch all the other party's minions, then the black hand behind the curtain won't be able to hide for much longer!"

"Then how do we act?" Zhang Lei immediately asked.

"We"

"Ding"

Ji Feng had just opened his mouth when his mobile phone suddenly rang, he casually picked up the phone and glanced at the caller ID, he couldn't help but smile faintly before picking up the phone.

"Boss, it's all checked out"

Campus Master Chapter 2155

The phone call was from Wang Xin, and what was said on the phone was something that lifted Ji Feng's spirits.

"Wang Xin, have you checked everything out?" Ji Feng immediately asked in a deep voice.

"Yes, boss." Wang Xin's voice was also excited, obviously happy to be able to help his boss, "I've retrieved all the surveillance along the way, including private and police ones, and have been tracking the other party, and now I can already determine where they're hiding!"

"Good!"

Ji Feng immediately let out a low cry, his face revealed a joyful look, "Wang Xin, you've been a big help this time, if it's successful, I'll definitely thank you properly later!"

"Boss, you've said a lot" Wang Xin's voice was a little shy, but of course more happy, "This is what I should do."

"That's all for now then, let's keep in touch and keep me informed if anything happens." Now was not the time for small talk, so Ji Feng said a few words to Wang Xin and then closed the line.

Then, he looked at Ji Shaolei and Zhang Lei and said, "Second brother, Lei Zi, the action plan can be set, but this time we'll have to split up"

Ji Shaolei and Zhang Lei couldn't help but glance at each other, it looked like the phone call Ji Feng had just taken was very important.

"How to split up the action?" Zhang Lei asked.

"When we examined the explosion site, I speculated that the guy who escaped was probably saved by the car from that bypass, you all still remember that, right?" Ji Feng asked.

Ji Shaolei and the two of them nodded, of course they remembered, at that time Ji Feng's face was very grave, then they let them know that the guy who escaped must be a very important person, but when Ji Feng spoke in detail, they realized how important the guy who escaped really was.

That was almost like a living time bomb!

If that person was really as tough as Ji Feng said, then no matter who he targeted, it would put people on pins and needles.

What's more, if that person really wanted to strike at his family, then it really might not be possible to stop him.

The thought of the kind of serious consequences that could potentially happen would not put anyone's mind at ease.

"Now, Wang Xin has found out where they are hiding!" Ji Feng said in a deep voice, "So we have to split up a group of people and go catch that guy, and of course, he must have accomplices and definitely all desperate people like him, and they might even have a large number of weapons."

"Therefore, I have to personally lead a team to catch that guy!" Ji Feng said, "At the same time, Wang Jiangshi has also bitten off some people, these people also need to be caught as soon as possible, a two-pronged approach will be able to find that mastermind behind the curtain with the fastest speed!"

"That's good!"

Ji Shaolei nodded and said, "Both sides will do it at the same time, at that time, even if that Wang Jianjian is not telling the truth, as long as we catch the guy with the broken leg and his accomplices, we should be able to follow the vine and find the person behind the curtain, the east is not bright, there will always be a breakthrough!"

"That's true, but crazy, you haven't fully recovered from your injuries, right? Go catch that guy with a broken leg, or I'll go!" Zhang Lei suddenly said, "One of me, plus a few team members, will almost be enough."

"No way!"

Ji Feng shook his head and flatly refused, "I'm not comfortable with you going Don't be too busy arguing first, frankly speaking, even if that guy broke a leg, but after this period of recuperation, I can't even say what kind of combat power he can actually explode out, if he fights to the death at the critical moment, you may not be He may not be a match for you!"

Ji Feng knew best just how strong that middle-aged policeman was, and to be honest, that man's strength made even Ji Feng extremely scared!

Now, although that man had a leg blown off, he was still a huge threat.

What's more, that guy had accomplices, and probably still dead soldiers, Zhang Lei wasn't too experienced in specific operations, so if he rashly took on them, he would probably suffer a loss!

The key problem is that if those dead soldiers directly take the attitude of dying together and pull Zhang Lei into the water, then it will be really troublesome, and once something happens to Zhang Lei, Ji Feng will regret it too late.

So he definitely wouldn't let Zhang Lei go.

“How about this, I’ll lead the team, but I’ll bring a few more people, you and second brother won’t need that many men to catch those officials!” Ji Feng didn’t wait for Zhang Lei to refuse, so he said directly, “It’s settled, now

He raised his hand to look at the time and said, “There’s not much time left before dawn, we need to act fast, let’s start!”

“..... Okay.” In such matters, Zhang Lei had always been unable to compete with Ji Feng, so he could only nod his head and agree, “Crazy, you must be careful, don’t let anything happen again!”

“Don’t worry!” Ji Feng smiled faintly and said, “I’ve already suffered once, there won’t be a second time!”

Even a stupid donkey can’t fall in the same pit twice!

Ji Feng had already suffered a loss once at the hands of this gang, so he wouldn’t have it again, because he was already fully alert and defensive of this gang!

Next, Ji Feng began to set up, he first called Yi Xingchen over, “Old Yi, leave three people in charge of guarding, the rest of you, divide one third to follow you and Zhang Lei, the rest of you all follow me, let’s leave as soon as possible!”

Yi Xingchen was slightly stunned, hearing this meaning, Ji Feng was also going to participate in the operation?

He was just about to speak, but was interrupted by Ji Feng: “No need to say anything unnecessary, let’s talk about everything after the operation

Remember, this time the operation must be fast and confidential, once word gets out, it is likely to alert the black hand behind the curtain!”

Yi Xingchen’s body tensed up as a reflex and nodded heavily.

“Second brother, you stay and sit down, if there are any unexpected circumstances, it will be up to you to coordinate the circumstance.” Ji Feng said.

“Don’t worry, operationally I can’t help, but in these areas, there’s absolutely no problem!” Ji Shaolei had been working specifically on these matters in the past few days, especially on some links that he had already facilitated, and even some important people in Yanjing, Ji Shaolei had specifically greeted them in the name of the old Ji family, so these aspects were definitely not a problem.

Ji Feng nodded and his face sank, “Since that’s the case

let’s begin!”

Action, start!

.....

For the targets of this operation, Ji Feng had long prepared a list and handed it to Zhang Lei.

According to Wang Jiangshu’s explanation, he was actually instructed by a leader in South Guangdong Province, the other party was a relatively low ranked vice governor of the province, and his hand was only in charge of some of the colder government offices, such as animal husbandry, forestry, etc.

Perhaps in other resource provinces, these can not be considered cold government departments, but to talk about animal husbandry in South Guangdong, it is rather shabby.

With Wang Jianjian's rank and position as a powerful deputy director, he could have disobeyed this vice governor's orders, but when Wang Jianjian knew the benefits he could get after doing this, he nodded his head and agreed without hesitation.

An astronomical sum of money!

That was enough to make Wang Jianjian's heart flutter, so he agreed.

And now, the target Zhang Lei was going after was this vice-governor of Southern Guangdong who had given orders to Wang Jianjian.

Of course, there were a few other people in addition to that, but those people would only be some small fry compared to the vice governor, and the main target was still this vice governor.

I don't know if it was the same mentality, but this vice governor actually did not live in his own home, like Wang Jiangshi, but in a house outside.

This was something that Zheng Yuanshan found out.

The only difference was that Wang was burying his head in the sand with his mistress, while the vice governor was sleeping soundly.

The simple security door was no barrier to Zhang Lei and Yi Xingchen, and when they easily opened the door and entered the bedroom, they saw this scene.

"Damn it" Zhang Lei took a look at this scene, he was immediately furious and gnashed his teeth with hatred.

"Pah!"

The slap was so loud that Zhang Lei hardly showed any mercy. With his strength, if he hit the man directly on the head, it would be enough to knock him out directly.

"Ah..."

Even so, the man was abruptly awakened by the blow, and immediately there was a miserable scream, "Uh"

"Slap!"

Another loud slap instantly sent the man's next scream straight back into his stomach, and his voice came to an abrupt halt.

The man was instantly dumbfounded, and an odd sound gurgled in his throat.

Zhang Lei shook off his hand and sneered, "Doggone thing! Not a bad sound" Let me see!"

With that, he directly grabbed the man's hair and lifted him up with one hand, dragged him to his own heels, stared at him carefully, then turned his head and said, "It should be him, right?"

A big man behind him nodded and said, "It should be him!"

"Son of a bitch take it away!" Zhang Lei pointed at the woman next to him who had long been scared and full of panic and said in a deep voice, "Take this woman away too! So young but sleeping with a man who is almost as good as her father I don't think it's anything good either!"

The main target, without incident, was caught. The rest, too, were all small fish and shrimps.

When Zhang Lei called, Ji Feng had also led people to a residential building downstairs.

Looking up at the upper floor, Ji Feng secretly sneered, "I want to see where you're going to run this time!"

Campus Master Chapter 2156

"Clatter~!"

The sound of breaking glass was incomparably harsh in the silent darkness of the night.

"Ah!"

A girl shrieked in alarm and scrambled back two steps, looking at the man in front of her with a face full of horror.

It was a small, unobtrusive bedroom in an ordinary residential building in Yuezhou.

A man with a gloomy face was lying on the bed, a fierce glint in his eyes, frightening the girl standing not far away, whose body was trembling a little and she subconsciously backed away slowly.

What was strange was that the man lying on the bed had his right leg missing from the thigh downwards, except for a broken stubble at the base of his thigh, which was still wrapped in several layers of gauze.

The white gauze was originally white, but there was a piece of dark red traces, that is a piece of blood stains!

"Sir, you" the girl spoke cautiously, "is there anything you are not satisfied with?"

"What do you think?"

The man with the broken leg stared at the girl grimly and said sorrowfully, "Is this how you serve?"

The girl cautiously said, "Sir, your wound hasn't completely healed yet, so it will definitely be a little painful when applying the salve, you just have to bear it"

"Bullshit!"

The man with the broken leg had a fierce look in his eyes and said in a cold voice, "Paying you to come here just so you can make me hurt?"

The girl was so anxious that she was on the verge of tears, "Sir, your wound is too large and too serious, it can only be medicated in this way, if you untie the gauze, it will probably cause infection"

The man with the broken leg, however, did not say a word, but only stared coldly at the girl, looking at the girl's heart trembling, so scared that she almost did not know what to do.

The actual fact is that this is a very good way to get the most out of your life.

The man with the broken leg was extremely eccentric, and he would lose his temper at every turn, especially with his sorrowful look and his fierce eyes, which were like those of a severe ghost. Especially at night, it was even more frightening.

Because his injuries were so serious that his entire thigh was almost directly amputated, he had to be given medicine several times a day, and even at night he had to get up once to return the medicine.

Every time this happens, the man is vicious and scary.

She didn't want to do it after just two days here, but, with two other vicious guys watching from the living room outside, she hadn't been able to get a step out of here since she arrived, which made him

"Where are you going?!" The man with the broken leg suddenly asked out loud.

"Ah"

The girl who was quietly stepping back suddenly shrieked in fright and panicked, "I, I went to get the medicine, that potion was thrown to the ground by you"

The man with the broken leg glared at her and she could not say anything else at once.

"Go on!" The man with the broken leg said coldly.

"Yes!"

The girl was instantly pardoned and hurriedly pulled open the door of the room and ran out, an action that made the man with the broken leg's face a few shades more gloomy.

Of course he knew that the girl was so panicked and wanted to flee because she was afraid of herself.

A touch of resentment appeared on the man with the broken leg's face as he cursed angrily in a low voice, "Ji Feng I've fallen to this point today because of you!"

Looking down at his right leg, which had long since disappeared without a trace, his expression grew colder and colder, with a strong look of resentment in his eyes, and a face that was almost twisted, looking incomparably hideous.

"Just you wait, when I'm healed, I will definitely return the pain you inflicted on me, ten times a hundred!" The man with the broken leg gritted his teeth, the voice almost squeezed out from between his teeth, "I will make you regret it, I will cough"

Perhaps because of the excessive excitement, it caused him to cough violently.

It was a while before he slowly calmed down and said in a hateful voice, "Damn little beast, what kind of weird method did you use"

This man with a broken leg was no other than the middle-aged policeman who had once fought fiercely with Ji Feng when he was attacked and killed.

The only thing is, now he doesn't have the same kind of spiritedness he had at that time, and even less toughness he had at that time, but of course, the fierceness is still the same, but now that he has directly broken a leg, he is like a tiger without teeth, he can only be fierce and can't do anything else.

But that was not all. What shocked and infuriated the man even more was that since he had escaped, he had found that his injuries were particularly serious, far more than just his leg being blown off.

It was only at this point that he realised, and he didn't know when, that there was a strange energy inside him, not too strong, but extremely harsh, almost like a ferocious python, rampaging through his body, destroying his meridians and internal organs in a frenzied manner.

What surprised him even more was that he was unable to dissolve the energy with his own internal energy!

He was already badly injured and his internal energy was severely depleted, so for so long, he could only use his internal energy to fight against the energy and try to avoid further trauma to his meridians and internal organs.

It was only in the last two days that the injury to his leg had gradually improved, and he was able to spare more energy to fight the strange energy in his body.

But until now he still hadn't completely dissolved that energy, and his internal organs and meridians were already badly damaged.

During this period of time, he could almost say that he was in pain and was tormented to the point of wanting to die. The pain in his legs was nothing compared to the pain and suffering of his internal organs and meridians!

This made him shake with anger and at the same time, he could not help but feel a great hatred in his heart, if he could, he almost wanted to eat Ji Feng alive!

Because he had a vague suspicion that this crazy rampaging energy in his body came from Ji Feng!

He remembered clearly that he had fought fiercely with Ji Feng at that time, and originally he had planned to use passive defence to consume Ji Feng, and wait until Ji Feng's physical strength was exhausted and his internal energy was depleted, then he would suddenly explode and finish him off directly!

But he did not expect that instead of calculating into Ji Feng, he would be calculated by him.

This little beast deliberately pretended to be physically exhausted to lure himself into attacking him, only to have this little beast burst out when he launched a full force strike, striking an attack that was so odd and yet so strong that it sent chills down his spine.

The attack was so strong that he was instantly knocked out of the room without the slightest resistance!

And at that time, Ji Feng did not directly touch his body!

That was the most odd thing!

From then on, there was such a strange and violent energy in his body, so it was obvious that this energy must have come from Ji Feng!

“All evil little beast I will not let you go!” His expression was so fierce that it was almost twisted, and a low roar came out of his mouth, and his eyes were so resentful that the girls standing at the door ready to come in couldn’t help but shiver all over.

“Oh? What are you going to do to me then?”

Suddenly the girl was stunned, only to hear the voice of another person in the bedroom, a voice with a hint of teasing and a touch of coldness in it.

How could there be a second person’s voice when the weird guy was the only one in the bedroom?

At the girl’s puzzled look, she saw the man with the broken leg sit up straight, not caring about the pain on his leg, and his expression changed dramatically: “Who is it? Get out!”

“Zhi~!”

With an ear-splitting sound, the bedroom window was pulled open, and the next moment, several people suddenly leapt in. The one in the lead stood in the bedroom, while the others instantly rushed towards the living room.

The girl was so frightened that she had even forgotten to shriek, and just stared dumbly at the group of tough guys with the cold long and short guns in their hands, making the girl’s whole body dumbfounded.

Then she saw that the two guys who were originally sitting on the sofa in the living room, who were responsible for guarding her, were instantly restrained, and one of the guys seemed to have tried to resist, only to be smashed directly on the head with a gun butt, instantly knocking her unconscious.

“It’s you?! Ji Feng!”

At this moment, the man with the broken leg in the bedroom, however, suddenly changed his face drastically, looking at this person who suddenly appeared in front of him with a shocked face, his eyes instantly filled with a resentful look: “Little beast, it’s actually you!”

“Didn’t expect it, did you?” Ji Feng stood in front of the bed, looked this person up and down, and couldn’t help but shake his head, “Looks like you haven’t had a very good time this time either! Not as spirited as before!”

“How did you find your way here?” The man with the broken leg asked with a gloomy face, ignoring Ji Feng’s mockery because at this moment his heart was filled with shock.

This hiding place was not one that had been chosen before the operation, but a temporary location chosen without any outsiders knowing about it, but Ji Feng had found it so quickly, which made him shocked.

At the same time, his heart was sinking.

Looking at Ji Feng’s appearance, it seemed that nothing was wrong at all, and looking at him again I was afraid that nothing good would come out of it today!

“No matter how tightly you hide, there is always a time to reveal yourself!” Ji Feng smiled faintly, “Speaking of which, we are also considered old acquaintances, have not known your name yet, do not know what to call it?”

“..... little beast, you won this time, but don’t be complacent”

“It’s no fun when you do that!”

Ji Feng shook his head, interrupted his harsh words and said indifferently, “Originally I thought you should have more or less the temperament of an expert, but now it seems that I really overestimated you!”

The man with the broken leg grimaced and gritted his teeth, “It’s really that I didn’t blow you up in the first place.”

“Can you take your hand out from under the pillow when you are letting loose your harsh words?” Ji Feng asked with a smirk, “You’ve already lost a leg, you don’t want to lose another hand, right?”

“.....”

The man with the broken leg instantly stiffened, with a strong resentment in his eyes, “Little beast, you’re ruthless!”

Campus Master Chapter 2157

“.....”

The man with the broken leg instantly stiffened his face, with a strong resentment in his eyes, “Little beast, you’re ruthless!”

Ji Feng shook his head as if he hadn’t heard this man’s insults, he just said with a smirk, “I think you should have prepared yourself for this, how can you only think about killing people without thinking that one day you might be killed too?”

The man with the broken leg just stared at him angrily and spitefully and stopped talking.

In fact, he was speechless.

Ji Feng was right, since he dared to do the first day, then don’t blame others for doing the 15th.

As the saying goes, how can one not wet one’s shoes when one is always walking by the river?

He was the one who first went to lay a deadly hand on someone else, but once he didn’t get the other party killed, then the other party naturally had to retaliate, otherwise could they still be indifferent after being attacked and killed by you for no reason?

Even the most wimpy person may not be able to swallow this anger, let alone the person he attacked and killed was Ji Feng?

“Ji Feng, you win this time!” The man with the broken leg said angrily and reluctantly, then sat up straight and pulled the pillow away, and all of a sudden, a pistol appeared where the pillow originally was.

Just now, he was about to take advantage of the time he was talking to Ji Feng to reach out and touch the pistol. But before he could touch the gun, it was discovered by Ji Feng.

At this time, he knew that he had completely fallen today!

This man with a broken leg naturally knew better than anyone else how skilled Ji Feng was, because he had personally experienced Ji Feng's power, and until now, he still had the marks left by Ji Feng on his body – his vanished right leg and the vague pain in his internal organs were enough to show how strong and terrifying Ji Feng was.

So, don't look at the fact that his hand was at most a few centimetres away from the pistol under the pillow at that time, he could have gotten the pistol into his hand then aimed at Ji Feng and pulled the trigger in just two or three seconds, but he knew better than anyone in his heart that when Ji Feng discovered his little move, he would have had no chance.

Two to three seconds was already enough time for Ji Feng to kill him several times!

"Boss, the people are all under control!" At this time, a member of the battle team walked over and said in a low voice.

"Well!"

Ji Feng nodded, then jerked forward two steps and arrived in front of the man with the broken leg, who immediately had a cold glint in his eyes and roared low in a fierce manner, "Little beast, today you win!"

"Boom~!"

Ji Feng smashed his fist over, directly on his face.

At once, the man with the broken leg directly passed out.

Ji Feng snorted coldly and waved his hand, "Control all the people, in addition, bring the two outside here, I want to interrogate them!"

"Yes!"

The team member nodded and added: "Boss, there's a female outside"

Ji Feng nodded slightly, just now when he was outside the window, he noticed this female, from the conversation between her and the man with the broken leg, their relationship should not be too intimate, this female should be responsible for taking care of him.

However, Ji Feng couldn't be sure of what kind of identity this woman had, so he said, "Control her as well, and wait until we find out his identity."

"Yes!"

The team member nodded and immediately went to carry out the order.

Soon, the two guys who were in charge of guarding the living room were brought over, Ji Feng gave them a glance, then without hesitation, he activated the bio-current, simulating it as a neurotoxin, and injected it directly into the two guys' bodies.

A moment later, the two guys' expressions gradually went blank and their bodies seemed to lose their strength

"Do you have any other accomplices?" Ji Feng asked.

"Yes"

"What are they all about? Where are they at this moment?" Ji Feng instantly asked in a deep voice as a cold light flashed in his eyes.

"Hop Sing Gang, in the street outside the North Gate Bridge in Yuezhou City" One of the guys was full of bewilderment and answered Ji Feng's question honestly.

"Hop Sing Gang?"

A cold light flashed in Ji Feng's eyes, actually a gang was involved?

He couldn't help but sneer, the cold light in his eyes flashed, the other party could not only ask for the help of a powerful deputy director in the police department like Wang Jiangsheng, but even the vice governor of the province, and now, there was actually a gang helping them, this was really a black and white gang!

Next, Ji Feng asked a few more important questions, these two people did not have any sense of resistance at all and could only answer honestly.

When Ji Feng finished his interrogation, his face was already incomparably gloomy and he turned his head and said, "Guo Tao!"

This time, the only person Ji Feng had brought from the battle group that he was familiar with was Guo Tao, because the two of them had cooperated in operations together before and had a tacit understanding, so when Ji Feng shouted, Guo Tao immediately understood what he meant.

Guo Tao immediately walked over and said in a low voice, "Boss, is it a good idea to go and arrest someone immediately?"

Ji Feng nodded and said in a deep voice, "Since this Hop Sing Gang is also involved, then there is nothing to say, arrest!"

Since they had already started this time, there was no reason to stop.

No matter who was actually involved in this operation, Ji Feng would definitely not be soft, he would definitely not consider this and that after being attacked and killed for no reason, this was not his style!

Even if there is even more pressure, Ji Feng will never be soft!

What's more, Bai Zhu was still lying in the hospital. If he hadn't used bio-current to freshen up Bai Zhu's body in time, I'm afraid Bai Zhu would have been left with after-effects by now!

Under such circumstances, how could Ji Feng be soft?

Besides, a gangster is just a gangster, if you move, you move. Back then in Rice, Ji Feng had even challenged the White Hand Party and so many other gangs, so how would he care about a Hop Sing Gang now?

“Boss, of course there’s no problem with arresting people, but something doesn’t seem right about these two people.” Guo Tao said.

“How so?” Ji Feng frowned.

“When I subdued them just now, I noticed that it seemed like both of these people had some special bodies that seemed to be reformed people.” Guo Tao said in a deep voice.

Swish!

Ji Feng abruptly frowned, “Can you be sure?”

These two people were reformed people?

Guo Tao’s words caused Ji Feng to be taken aback, how did this matter get involved with reformers again?

Could it be that the person behind this matter could be Dynasty?

But this is not like Dynasty’s style at all!

And

Ji Feng looked back at the middle-aged policeman who had already been tied up, he had fought with this person and this person had also had a leg blown off, so he was completely sure that this guy was definitely not a reformer.

Moreover, in Ji Feng’s impression, even the senior reformer of the dynasty was not as strong as that middle-aged policeman!

Thinking of this, Ji Feng immediately urged the bio-current to work on his eyes and looked at the two guys on the ground.

“Sure enough!”

Ji Feng secretly said, he clearly saw that both of these two guys’ internal bones were no longer the kind of bones of ordinary people, but bones that clearly had a metallic colour.

Ji Feng stepped forward again, rolled up the sleeve of one of them, and then violently twisted the man’s arm.

“Ka~”

After a subtle ringing sound, a gap appeared at the man’s arm and shoulder It was proven that the man’s arm could be removed!

“It really is a reformer!” Ji Feng’s face was grave, it had been proven that the two guys in front of him were indeed reformers, which made Ji Feng a little surprised.

Originally, he had doubted whether the attack and killing he had suffered had anything to do with Dynasty, but the highest person in charge of Dynasty in China, the king, had been chased by himself and ran for his life like a dog that had lost its home, far away from overseas, and the young duke was also seriously injured, whether he could recover was an unknown.

In addition, the dynasty's power in Southern Guangdong was almost swept away, plus the two policemen who fought with Ji Feng were not reformers, so Ji Feng dispelled this suspicion of his own.

But it didn't occur to him that a reformer had really appeared here, and he was also this middle-aged cop's accomplice!

In that case, the incident where he was attacked and killed really had something to do with the dynasty?

Ji Feng frowned, his mind turning rapidly as he quickly pondered the whole matter, while mentally calculating what to do next that would be most appropriate. Because the current situation had changed, and since the dynasty was involved, it had to be considered clearly, and as soon as possible.

Because Ji Feng didn't dare to guarantee whether their actions were necessarily tight, whether they would leak out, and if there was an unexpected change, they might fall into passivity or be escaped by the main characters of the other side, and that was not what he wanted to see!

Guo Tao stood by, waiting for Ji Feng's order.

He was only responsible for bringing up the doubts, but it was still up to Ji Feng to make that final decision on what to do.

After a moment, Ji Feng snapped his head around and said in a deep voice, "Guo Tao, immediately act according to the original plan!"

"Yes!"

Guo Tao immediately answered, then asked, "Then these three people"

Ji Feng said, "They will just be left to me, now I want to take them back immediately, and you will lead the rest of the operation."

"Yes!" Guo Tao nodded his head without hesitation.

"Always remember"

Ji Feng said in a deep voice: "Among the targets you are going to catch, there is a good chance that there are also transformers, at this time you have to be good at using bio-currents and use all those methods and tricks I have given you, so that you will not be at a disadvantage when you encounter normal transformers!"

"Understood!" Guo Tao immediately nodded his head.

"Go on!" Ji Feng patted his shoulder.

Watching Guo Tao lead his men away, the corners of Ji Feng's mouth couldn't help but twitch a few times, a chill flashed across his eyes and he secretly said, "Wait until tomorrow, and it will all be over"

Afterwards, he picked up the phone and dialed a number: "Old Xiang, there's good news to inform you, transformers have appeared again in Southern Guangdong, two have fallen into my hands, are you interested in coming over and having fun together?"

"Uncle Zheng, there are already results Hop Sing Gang"

When Ji Feng made several phone calls in a row, together with a team member, all of the middle-aged policeman and others were bundled up and thrown into the car, including the girl who was responsible for taking care of the middle-aged policeman, who was likewise taken away.

Ignition to start the car, before leaving, Ji Feng swept a glance at the time on the dashboard, "There are still a few hours to go before dawn is time to see the light!"

Campus Master Chapter 2158

All the leaders of the Hop Sing Gang were captured and the boss was arrested!

The news spread throughout Yuezhou at the fastest speed.

Zheng Yuanshan, the head of the Southern Guangdong Police Department, personally led the team, directly mobilised the armed police, and he didn't even know what links he had penetrated, but he even sent out the explosion-proof troops, together with the military, to directly attack the Hesheng Gang.

Although the Hesheng Gang was a big name in the triads of Southern Guangdong, it collapsed under the heavy hand of the state authorities.

Not a single one of the gang's leaders escaped, not to mention some of the gang's elders and bosses, who were all arrested, none of whom escaped.

It was even said that when the boss of the Hap Seng Gang was caught, he was still sleeping under the blanket and had no time to react.

It was evident that Zheng Yuanshan had prepared for this operation for an unknown period of time.

He had mapped out everyone's whereabouts before he suddenly made his move, leaving everyone defenceless and unable to do anything but to be captured!

Zheng Wonsan's action had surprised everyone so far.

What was he up to?

After coming to Southern Guangdong and keeping a low profile for a year, was Zheng Yuanshan finally going to reveal his sharp fangs?

And while many people were shocked, they were nervous!

The sudden disintegration of the Hop Sing Gang, with all the leaders, including the patriarch and the boss, captured, has made many people unable to sit still, especially some officials and people within the police system, who are sitting on pins and needles, as if they have sores under their asses, unable to sit still at all.

Any gang that can grow and develop is definitely related to the officials and the police system.

Without the deliberate care of certain officials, or the cover-up and inaction of the police, those gangs would never have been able to get off the ground.

This is also the case with the Hop Sing Gang.

In such an economically developed province as Southern Guangdong, the Hopsun Gang has grown so quickly and to the point where it is today, if it is not being looked after by officials, I don't believe it!

Burning newspapers on graves, what the hell?

Therefore, the arrest of all the major figures of the Hap Seng Gang immediately made many people sit up and take notice, and these people were all officials who were inextricably linked to the Gang, including local officials and leaders of the police system!

It is for this reason that this sudden action by Zheng Yuanshan has attracted an extremely high level of attention, with almost everyone's eyes watching Zheng Yuanshan's every move, even some provincial leaders.

These leaders may not have any direct relationship with the Hesheng Gang, however, these leaders have subordinates, their subordinates, who are in contact with the Hesheng Gang, and they, in turn, receive 'filial respect' from their subordinates from time to time.

The officialdom is mostly like this, pulling out the carrot and bringing out the mud, if you really want to look into it, you really don't know how many people are clean!

The destruction of the Hop Sing Gang was so sudden that many people were shocked.

Could it be that the Ji family was about to make a move on Southern Guangdong?

Or was it because of the attack on Ji Feng that Zheng Yuanshan decided to take revenge?

It was no wonder that others thought so, it was because Zheng Yuanshan's identity was too sensitive – this was Southern Guangdong, the territory of the Wu family, while Zheng Yuanshan was a member of the flagging Ji family lineage, what did it mean that he was now here to make a big fight?

But no matter how outsiders speculated, no one dared to go to Zheng Yuanshan to find out the situation – the Hesheng Gang itself was a gang, this is well known, now as soon as the Hesheng Gang was destroyed, you rushed over to find out the situation, what does this mean?

Do you have a ghost in your heart?

Or do you have something to do with the Hesheng Gang?

No official is a fool, so even though many people were as anxious as ants on a hot pot, they could only hold back and wait to see how things would develop.

This is why almost no one in the outside world knows what Zheng Yuanshan is doing to the Hesheng Gang.

But no matter what, this matter has caught the attention of everyone!

Everyone was anxiously waiting, hoping for clearer news to come out, but no one could have imagined that what they were waiting for was news that would shock them even more.

A vice-governor of Southern Guangdong Province had disappeared!

A powerful deputy director of the police department had disappeared.

A powerful deputy director of the Police Department had disappeared, and the head of the Inspection Department of the Police Department had disappeared.

Three important leaders disappeared on the same night, their mobile phones were switched off and their families had no idea where they were going, as if they had evaporated overnight.

Things got weird all of a sudden!

If it was in normal times, no one would be that sensitive, usually these leaders occasionally come late and leave early, or even do not come to work for a few days, this is a normal thing, who let people are leaders, naturally have this privilege.

However, with Zheng Yuanshan's direct destruction of the Hesheng Gang, the officialdom of Southern Guangdong became tense all of a sudden, and many people were on the edge of their seats. At this time, the cronies of these missing leaders rushed to report the situation to them, but in the end, they could not be reached.

Even the leaders' usually most private contact details could not be reached!

Their cronies knew that something was wrong!

Of course, leaders have to have their own personal space, but they also always have the most secret contact information, which only their inner circle knows, and if there is any emergency, this secret contact information may be able to save their lives, or save their political lives.

Therefore, the secret contact information of the leaders will always be open at all times, because no one is sure what will happen next, or suddenly some big leader will come to visit, or some other unexpected situation, and if it is not dealt with in time, then the consequences can be serious.

But now, no matter what, they can't be reached.

Under such circumstances, their cronies did not dare to conceal the situation and had to report it.

And so the news spread at once.

Three people had disappeared on the same day, or to be precise, on the same night, and two of them were important leaders, which was no small matter.

Linked to the eerie atmosphere, many people's hearts became even more uneasy.

For this reason, even the first and second in command in Southern Guangdong were alarmed and asked what was going on. The Secretary of the Southern Guangdong Provincial Party Committee even called Zheng Yuanshan over specifically to find out what was going on.

But it was not known what exactly the two talked about. Anyway, in the end, after Zheng Yuanshan came out, he continued to instruct his ministers to collect detailed evidence of the Hop Sing Gang's crimes, and it seemed that being called over to talk by the first hand did not affect him in any way.

And at this time, someone suddenly broke the news – it was said that last night, someone saw a few wild SUVs whizzing by on the street again!

At once, everyone was startled.

–Ji Feng!

Many people were not too unfamiliar with those few off-road vehicles; some time ago, the gang of ruthless men who had ruthlessly swept through several gangs in Yuezhou, leaving the entire Yuezhou underworld on edge, were out in a few off-road vehicles.

And most importantly, everyone knew that the reason why these ruthless men in SUVs, like a pack of tigers and wolves, had come to Southern Guangdong was to take revenge for Ji Feng!

They were Ji Feng's men!

Then there was no doubt that this matter was definitely very closely related to Ji Feng!

And according to some well-informed people, the place where those SUVs appeared was near a villa area, and many people knew that many leaders had properties in that villa area in private

It was Ji Feng who did it!

In this world, there is no such coincidence, those few off-road vehicles happened to appear near the villa area, it just so happened that many leaders had secret properties there, and then the next day three people went missing

Isn't it all a bit too coincidental?

When the news spread, everyone was stunned, even incredulous, at what Ji Feng was up to.

How dare he go straight for the leaders?

Moreover, one of them was even the deputy governor of the province!

"Is he trying to rebel?!"

"This guy is really lawless because he has a good origin? How dare he kidnap the vice governor?!"

"Could it be that he was attacked and killed last time and got scared out of his mind? Who in a slightly sane person would dare to do such a crazy thing?"

.....

For a while, everyone was shocked and talking.

It was really because, in their opinion, Ji Feng's actions were simply too crazy and too daring.

For him to do this, it was no different from a rebellion!

Had he gone mad?

However, there were some people who realised that something was wrong – even if Ji Feng had been scared into a nervous breakdown and acted abnormally because he had suddenly been attacked and killed, but could it be that Zheng Yuanshan had gone along with him and was abnormal as well?

This was obviously impossible!

But why did he suddenly make a move against the Hop Sing Gang?

If you look at the actions of Ji Feng and Zheng Yuanshan together, how does this all seem like a big joint action?

As for the purpose

This is not something that can be known by outsiders, but how they look at their actions has a strong purpose, but it is just impossible to guess what it is for.

However, the truly discerning are clearly still in the minority, and the vast majority of people can't help but be shocked, while full of ridicule.

Ji Feng, Ji Feng he's really crazy!

"Wait and see, if he does something like this, don't look at the huge power of the Ji family, they definitely can't protect him this time!" Some people were laughing coldly.

The vast majority of people were gloating, which likewise included the man with gold-rimmed glasses from the Brilliant Group, Shao Jie.

As well as many officials from the Wu family lineage!

In their opinion, Ji Feng's behaviour was simply a mad outburst of anger and anger, and they didn't know what exactly those people had done to offend him, he actually dared to directly ask his men to arrest people, it was simply stupid and audacious!

Campus Master Chapter 2159

"I fuck!"

Shao Jie listened dumbfounded, stunned, looking at Zhai Yadong, couldn't help but straighten his mouth: "This bastard Ji Feng is really that bold?"

"A thousand times true!"

Zhai Yadong nodded his head and said, "You've heard about it, right? Someone saw those SUVs out near the residential area last night, and then the next morning several leaders disappeared. And what's more, on the same night, the head of the provincial department, Zheng Yuanshan, joined forces with the military and struck hard, destroying the Hesheng Gang that was entrenched in the area of Zhamenqiao all of a sudden!"

"Tsk" Shao Jie couldn't help but smack his lips and said, "I thought I was bold enough, but I didn't expect that there was actually another one with more guts... ..actually dared to directly kidnap the vice governor, the actual deputy director of the provincial hall, that's really bold!"

“That’s silly and daring of you!”

Zhai Yadong secretly said in his heart, this Shao Jie was a kind of character, he more or less understood some of it.

For Shao Jie’s own statement that he was bold enough, Zhai Yadong automatically ignored this statement in his heart If he had no background and no one to rely on, would Shao Jie be as bold as he is now?

At least, Zhai Yadong felt that there must be a discount in between.

“Ha! This time Ji Feng is dead!”

Shao Jie instantly laughed happily: “Old Zhai, Ji Feng this is his own death, really deadly rush ah”

The company’s main business is to provide a wide range of products and services to its customers.

The fact that Ji Feng is only a university student, but directly to move the system, but also a vice governor, and the use of such a drastic means, this is really too inappropriate, too much.

If the deputy governor had been fine, it would have been easier to say something. However, if the kidnapped person had suffered any damage, then Ji Feng would have had to bear a lot of responsibility this time!

Even if the Ji family is behind him, this time Ji Feng will definitely have to shed his skin even if he doesn’t die!

Because what Ji Feng did this time was a challenge to the entire system, a challenge to all the privileged, high and mighty officials!

—whether that’s what he really thinks or not, but it will definitely be perceived that way by other officials!

The Ji family could overpower other families, but not all the officials in the system, a group of vested interests so large that the mere thought of it sent chills down the spine, or to put it more bluntly, in the eyes of many leaders, they represented ‘the world’s long-suffering people’!

Faced with these people, the Ji family, no matter how much they wanted to protect Ji Feng, had to make a show of it, but then, how would those forces that hated Ji Feng let him go?

For example, their own current proprietor, the Wu family.

And then, for example, those who had been cleaned up by Ji Feng, how could they not fall on their sword?

Ji Feng could use public opinion to put pressure on the Wu family, and this time, I’m afraid he’ll have to eat his own words

“It’s a pity, such a young handsome man, he is overwhelmed by anger!” Zhai Yadong couldn’t help but shake his head, more or less feeling sorry for Ji Feng.

Although the two sides were on opposite sides, he could not help but admit that this person Ji Feng did have his unique personal charm and was very extraordinary, with the poise of a great general.

Moreover, Ji Feng was very sleight of hand, which was evident just by looking at those things he had done before.

Even Wu Zhiyong, the most outstanding son of the third generation of the Wu family, had fallen into the hands of Ji Feng several times, and more than once, he had fallen hard, so to speak, with a bruised nose and a swollen face!

“I’m afraid he was also overwhelmed by anger what a pity.” Zhai Yadong couldn’t help but shake his head and sigh.

“What’s so unfortunate about it?” Shao Jie, however, brushed aside his mouth, “I on the contrary think that he has done too much evil and now it’s retribution that has come, that’s why he has sought his own death so much! Of course, it could also be the death rush”

“Shao Jie, I don’t think we should be on guard in advance this time?” Zhai Yadong was unwilling to continue the conversation with Shao Jie just now, he felt that Shao Jie’s view of Ji Feng was too radical, especially the pungent and mocking words, which made him feel a bit less good, so he promptly changed the topic.

Shao Jie frowned and asked, “Prevent what?”

Zhai Yadong said, “Ji Feng is obviously overwhelmed by anger at the moment, and I don’t know what evidence he actually has, just pointing the finger at a powerful deputy director of the provincial police department, and the high-powered vice governor, but this is all enough to show that I’m afraid he’s not thinking how normal he is.”

“He wasn’t normal in the first place!” Shao Jie said offhandedly.

“Well let’s assume he wasn’t normal in the first place, in that case, don’t we have to prepare a bit more in advance?” Zhai Yadong said, “He is hostile to us, if he suddenly gets hot-headed and does the same to us, it will be a problem then!”

Shao Jie was stunned and then laughed out loud, “Haha Lao Zhai, I think you are a bit overly worried, right? Do you think that a person whose brain is already abnormal will think like you? Besides, even if he had the guts to do that to us, he wouldn’t dare to do that to us, otherwise, do you think the Wu family is really just a decoration?”

Zhai Yadong just smiled and said nothing more.

At the same time, Wu Zhiyong, who was far away in the northwest, also knew the news, and his first reaction was astonishment, thinking that this was impossible!

But immediately afterwards, Wu Zhiyong was delighted.

“Ji Feng is crazy, right?” Wu Zhiyong shook his head and lost his smile when he heard this news.

In his opinion, with Ji Feng's IQ, how could he not do such a thing ah, "Ji Feng is just like that, usually smooth sailing is fine, looks like that, but once he encounters a major setback, he actually becomes like this wild seed is wild seed, dog meat on The "I can't get on the stage!"

Usually with the Ji family behind the care, Ji Feng looked human and okay, but now once he left the Ji family's sphere of influence, he became so crazy, really

How dare you run off and arrest the vice governor and a powerful deputy director?!

But anyone with some brains would not do this ah, what is the difference between this and looking for death?

Not to mention whether the arrested people were really related to Ji Feng's assault and murder, just this action of Ji Feng's was enough to arouse the resentment of many officials – oh, you're great just because you have a family background, huh? If you can kidnap them today, will you be able to kidnap me tomorrow?

Where is the majesty of the leader?

How can the leader's superior posture be displayed?

Do you want to rebel against the leader if you make him lose his authority like this?

Even if the leaders arrested by Ji Feng really had something to do with the attack on him, there is still a higher authority, isn't there? The police are still there? When did it become his turn to do such a thing as a person of no status at all?

What kind of a person is he?

— In short, this kind of behavior of Ji Feng is simply stupid to the extreme, foolish!

"It's really"

Wu Zhiyong shook his head and smiled, "I really didn't expect you to act so foolishly, originally I still considered you as an opponent what a pity!"

Although Wu Zhiyong's mouth said pity, his eyes were filled with laughter, and the corners of his eyes were smiling out of the folds.

Ji Feng was actually so stupid, this could really put Wu Zhiyong in an extremely soothing mood, it was as if he had already seen what would happen to Ji Feng in the end, when he thought about all the losses he had suffered at Ji Feng's hands before, now that he looked back again, then everything could really be nothing, because Ji Feng was about to fall from grace.

—The first thing you need to do is to get a good idea of what you're getting into.

At least, Wu Zhiyong, as the youngest of the Wu family and also a leading cadre in the system, is certainly not so careful Wu Zhiyong tidied up his collar and came to the office window, in a good mood, and could not help but open his mouth and hum a little ditty: "I stand in the city tower... .."

.....

Not only Wu Zhiyong, but even some people from Yanjing, had gotten the news.

The Ji family itself was a behemoth, with power overshadowing the sky, so any news about the Ji family would attract the attention of others, not to mention, Ji Feng himself was also an outstanding son of the third generation of the Ji family, and was recently a figure on the cusp of the storm, so how could his every move not attract people's attention?

What Ji Feng did this time was similarly closely watched, and because of this, when the news from Southern Guangdong reached Yanjing, the shock it caused was even more intense.

How could Ji Feng do such a stupid thing?

What was he up to?

Did he not want his own future anymore? Or was he so overwhelmed by excessive anger that he was swept away?

No matter who it was, they all thought that this kind of behaviour by Ji Feng was really stupid to the extreme, how could this be something that a distinguished son of a big family could do?

"A wild child is a wild child, he will never make it to the stage. He thinks he has some ability, but he doesn't know that there are many things in the system that can be handled not just by having the ability!"

"That's right, he thinks he's a big deal just because he has the support of his family? He doesn't understand the rules of the system at all, can he even move the vice governor?"

"That's why he's a wild child! If one has grown up in a worldly family, how many people don't know the advantages and disadvantages of this?"

"Hey! I think he's used to being arrogant, let's see how he ends up this time!"

"That's right"

.....

Ji Feng's actions sparked widespread concern, but all those who were originally at odds with the Ji family, or were themselves jealous of the Ji family's power, and were envious and jealous of Ji Feng's birth and good fortune, were all sneering and sarcastic.

Among them, there were even some sons and daughters of big families!

Many were even gloating, Ji Feng's sudden return to the Ji family as a wild child and becoming a dazzling son of the family was jealous enough in itself, and then he made a big splash, even causing some of the older figures to have a good opinion of him, and was often used by his parents to educate their children

.....

Now he's finally going to be unlucky!

For many people who hate the Ji family and are jealous of Ji Feng, this is really great news!

Campus Master Chapter 2160

“SQUEAK—!” The tyres rubbed violently against the ground, producing an ear-piercing sound, only to see an army green SUV stop with a sharp brake.

Immediately afterwards, Ji Zhenping jumped down from the car and then walked quickly up the stairs.

Ji Zhenping’s face was sullen and his steps were quick, and when he met someone along the way who greeted him, he only gave a slight nod in response.

Soon, Ji Zhenping went straight upstairs, came to the door of an office, and pushed the door straight in.

“General Ji?!”

As soon as a man in the outer office, who was probably in his thirties, saw Ji Zhenping enter, he hurriedly stood up and asked, “General Ji, what are you

Ji Zhenping asked directly, “Xiao Hu, is Minister Ji here?”

Xiao Hu said, “Minister he is here, yes, it’s just that Minister is seeing a guest, it’s not very convenient, do you have any urgent business?”

“Nonsense! Why would I come here early in the morning if there’s no urgent matter?” Ji Zhenping said nonchalantly, “Xiao Hu, go in immediately and inform him that I want to see Minister Ji!”

“This

Xiao Hu was a little hesitant.

Ji Zhenping instantly glared, “How did you become this secretary, you have no eyesight at all! I’m in such a hurry to come over, can’t you see that something is going on? Still dawdling around here

“General Ji, don’t be in a hurry!” Xiao Hu waved his hand repeatedly and laughed bitterly, “The minister he really isn’t too convenient to see you right now, there are guests inside

Saying this, Xiao Hu made a series of glances.

“What kind of guest?” Ji Zhenping asked with a frown, he also realized that something was wrong. This Xiao Hu was the secretary of his elder brother, and was usually a very resourceful person, and was very good at doing things, and had a very good reputation outside, it was reasonable to say that a person like him should not be so deadheaded.

You know, as a secretary, if the brain is not flexible can not be.

But now that he kept stopping himself and hinting at something, Ji Zhenping immediately realized that it was likely that the guest that big brother was meeting was not simple or had some kind of origin.

“It’s from the Discipline Inspection Commission,” Xiao Hu lowered his voice and said a name.

“Hmm?”

Ji Zhenping immediately frowned, and a cold light flashed in his eyes.

The name Xiaohu said he had also heard of, is a deputy secretary of the Discipline Inspection Commission, is also considered a giant-like figure, at least in the Discipline Inspection Commission is also

very significant, although in terms of the level is not as good as the big brother, but they are in two different departments, but also can afford to receive the big brother personally.

But the strange thing is, what is the Discipline Inspection Commission doing here at this time? And what's more, it's a person of considerable importance?

The more crucial issue is that this deputy secretary is not a member of the Ji family, but a member of the Wu family, who is not too close to the Ji family!

The first thing is that the person who comes from the Wu family is a member of the Wu family.

"It's about Ji Feng's matter" Xiao Hu lowered his voice extremely low.

"What?!"

Ji Zhenping instantly glared and his face became unkind. Ji Feng was neither a member of the system nor had he done anything that said something treacherous, when did it become the Discipline Inspection Commission's turn to take charge?

Thinking of this, Ji Zhenping immediately gave Xiao Hu a wink and whispered, "Xiao Hu, it's up to you"

"General Ji, this, you're forcing me to make a mistake!" Xiao Hu's face instantly collapsed and he said with a bitter smile.

"It's alright, if Minister Ji blames you, I'll take the blame for you!" Ji Zhenping waved his hand, "Go now!"

"This" is fine." Xiao Hu nodded with a bitter smile, then he gritted his teeth, casually picked up the teapot from the table, and turned around and walked towards the inner office.

Only to see Xiao Hu knock on the door, then push the door and walk in, a moment later, he walked out again, only that when he casually closed the door behind him, he did not close it tightly, but left a gap.

This is a good excuse for a leader to visit, and the secretary will give a water refill, so no one will suspect.

Ji Zhenping gave a thumbs up to Xiao Hu, then took two steps to the office door and listened carefully.

"Deputy Secretary Chen, this matter you mentioned, I haven't heard of it yet, and my dog hasn't contacted me yet, so I don't know much about it yet." Ji Zhenhua's voice came out, "I just heard that my canine son was attacked by a mob in Nan Yue, and although he managed to save his life, his companion was seriously injured and is still lying in the hospital"

"Minister Ji!"

Another voice said at once, "I have also heard about the attack on your son, I am sorry about this, however, I heard that the South Guangdong police are now closely investigating, I believe that the police will definitely find out what happened and give justice to your son!"

Ji Zhenhua said, "Well!"

“However, according to evidence from many sources, the disappearance of the vice governor of Southern Guangdong and the deputy director of the Southern Guangdong Provincial Department are very closely related to Mr. Ling. Now their families have sued me, and in the spirit of being responsible to the people, I can only come to ask about the situation!”

The man said, “So, I also hope that Minister Ji can communicate with Mr. Ling, I believe that Mr. Ling must be innocent, but after all, people’s words are fearful, and the victim is still a cadre in our system, so

“I can make a statement here, if my canine son has really broken the law, I will definitely not cover up!”

Ji Zhenhua directly interrupted the other party’s words and said in a deep voice: “But for now, I still say that, the specifics of this matter I don’t know too well yet, let’s wait until I have understood the situation.”

“..... either!” The man said, “I’m sure Minister Ji will handle this matter fairly and promptly in the spirit of party spirit and principles, people’s words can be feared, and the law is merciless!”

“Well! Let it be so!” Ji Zhenhua nodded his head, this was to give an expulsion order.

“Then I won’t disturb Minister Ji’s work, goodbye.”

Hearing this, Ji Zhenping immediately took two steps back and sat on the sofa in the outer room, casually picking up a newspaper and pretending to be reading it carefully.

Soon, a middle-aged man walked out from the inner office, a somewhat obese, slightly balding middle-aged man, seeing that Ji Zhenping was also there, he nodded slightly, “General Ji is here, ah.”

“Yes, I didn’t expect such a coincidence!” Ji Zhenping grinned.

“I have work to do, you’re busy!” The man merely exchanged pleasantries before turning around and heading out, and Xiao Hu got up to see him to the office door.

And at this time, Ji Zhenping directly pushed open the door of the inner office and walked in.

“Big brother, what did that guy come for just now? Is it about Little Feng?” Ji Zhenping asked straight away as soon as he entered.

“Isn’t it, he said that the kidnapping case in Nan Yue is related to Xiao Feng, and there is evidence pointing to Xiao Feng, now the victim guy has made a scene to him, so he came over to ask about the situation

“Humph!”

Ji Zhenping instantly snorted coldly and said, “What asking about the situation, I think he just came to provoke! If Xiao Feng has really committed a crime, then naturally the police will take care of it, when did it become his turn for the Discipline Inspection Commission to ask questions?”

Ji Zhenhua did not comment on this, but only asked, “How come this is coming over?”

“It’s not because I heard about Xiao Feng’s matter!” Ji Zhenping said, “Isn’t this kid a little too bold? How does he

Although Ji Zhenping did not say it explicitly, but in fact, the news of the kidnapping of important people in Southern Guangdong had long been spread, and the rumors were also related to Ji Feng.

It was just that there were some things Ji Zhenping couldn't say that were too clear.

"Since they did this, they should have their reasons!" Ji Zhenhua was nonetheless bland, "You, ah, better go and get busy with that mess of yours!"

"Big brother!"

Ji Zhenping said sharply, "Can't you see? If we don't ask questions, Xiao Feng might fall into their trap, and I've heard that there's already a lot of criticism about this.

Ji Zhenhua asked, "Then what do you think should be done?"

Ji Zhenping immediately said, "I think we should contact Xiao Feng immediately and ask him what is going on, so that we can prepare for it."

"And what if you ask him and he admits it?" Ji Zhenhua asked.

"This then immediately arrange for someone to find a way to take him out, we can't let him ruin his future just because of this, right?" Ji Zhenping said.

"All right!"

Ji Zhenhua waved his hand: "I know my son, there will be no problem, besides, children have to grow up, we as elders can't always protect him, you'd better go about your business!"

"Big brother"

"Alright, just be patient and wait, if Xiao Feng can't handle it, he will definitely contact us!" Ji Zhenhua said.

"..... Well, you're not even in a hurry, why am I in such a hurry!" Ji Zhenping shook his head helplessly and said, "But big brother, I have to tell you in advance, if anyone dares to bully Xiao Feng, I won't spare them then even if you don't step in, and if I have to do anything too much, it's you who will be in trouble!"

Ji Zhenhua, however, just smiled and waved his hand, leaving Ji Zhenping helpless for another moment, and could only shake his head and turn around to leave.

After Ji Zhenping left, the smile on Ji Zhenhua's face gradually disappeared, and he sank his face and coldly snorted, "You can't wait to come over here and provoke?"

.....

At the same time, Ji Feng, who was far away in Southern Guangdong, was welcomed by several unexpected guests.

Ji Feng received a call from Zheng Yuanshan early in the morning, asking him to rush to the hospital immediately, but as soon as he arrived at the hospital, he saw four people in suits already waiting for him.

“You are Ji Feng!?” As soon as they met, one of them asked in a very nonchalant manner.
