

Campus Master 2171

During Zheng Yuansan's investigation, people from the Wu family's lineage not only interfered across the board, but even raised an army to take on Zheng Yuansan in an attempt to directly take him down from his current position.

Even in normal times, the Wu family would undoubtedly be provoking in doing so, let alone at such a sensitive time.

When Ji Feng was attacked, your Wu family could not get away with suspicion, and now instead of avoiding suspicion, you are even taking the initiative to launch an attack and even going after Zheng Yuanshan!

What is this if not provocation?

The Wu family is trying to start a war!

At that time, in order to investigate the attack on Ji Feng, the Ji family didn't have the time to bother with them, but that didn't mean that the Ji family had forgotten about it, let alone thinking that the matter was over here!

What they had done was remembered!

Therefore, when the news came out from above, it was said that at a meeting, the secretary of the Jiangzhou Municipal Party Committee, Ji Zhenguo, proposed that because the case in Nan Yue was too extensive and the impact was too bad, and that if we were to go deeper into the investigation, there would definitely be even more foul play in it, so a special investigation team had to be formed to specifically take charge of the investigation of this case!

At the same time, because there is also the military involved in this matter, so the establishment of a task force is even more necessary, because the military and South Guangdong belong to two different departments, so the establishment of a task force, between the two sides to coordinate, that is also necessary.

As soon as the news came out, it immediately provoked strong opposition from a certain heavyweight of the Wu family, arguing that South Guangdong was already planning to set up a task force, so there was no need to set up another task force from above, which would only discourage the comrades below from doing things, and even, would make the comrades below have other ideas.

However, Ji Zhenguo only lightly replied, "If the comrades from South Guangdong are capable of coordinating and communicating well with the military, then it's fine to leave it to them!"

At once, that heavyweight of the Wu family stopped speaking.

Everyone knew that the Wu family hardly had any influence in the military, and in this respect it could not be compared to the Ji family at all. What's more, in this incident, the Xiang family also seemed to have intervened and seemed to be on the side of the Ji family.

Under such circumstances, it would be strange if Nan Yue could communicate well with the military!

“In my opinion, if one says that when a task force is set up by the higher-ups, they consider it a lack of trust and their work is unmotivated, then such a comrade is mentally problematic in my opinion.”

Ji Zhenguo, however, was sharp in his words, and although his speech was not fast and his voice tone was not high, he was hard enough to make people dare not ignore: “How many years have so many scum existed under their noses? What is the work of those leading comrades in Southern Guangdong? Is the local monitoring mechanism a sham?”

Everyone could not help but be stunned.

Ji Zhenguo was openly firing at the Wu family!

It was common knowledge that Nan Yue was treated as the Wu family’s back garden, and the Wu family had been operating there for many years, but now Ji Zhenguo was openly asking, “Those assholes have been in Nan Yue for so many years and no one has found them, what are the local leaders doing?”

And, what is the local monitoring mechanism for?

Why were the problems not discovered for so many years?

Although Ji Zhenguo did not put it so bluntly, the meaning of his words could not be clearer: the local leaders are directly responsible for such things happening in Nan Yue!

And furthermore, the Wu family was responsible!

The words were sharp and unrelenting in their attack!

No one expected that Ji Zhenguo would be so unforgiving. Despite his gentle demeanour and calm tone of voice, just by looking at his steady as a mountain aura, one could tell that this time he was not just talking, he was really going to settle accounts with the Wu family!

However, Ji Zhenguo had the upper hand, and no one could say a word against him, as he had reasons and justifications.

The heavyweight of the Wu family could only say in a dry voice, “I don’t think it’s right, we have to give the comrades below some time, we have to trust them, otherwise, who will come to do the work in the future, won’t everyone be at risk?”

“That also depends on what kind of leader one is working under, if one is under a positive and upright leader, no one needs to be at everyone’s own risk!”

Ji Zhenguo’s voice was unhurried but forceful: “But if the upper beam is not right and the lower beam is not right, and everyone is in cahoots, then I think it’s better for them to be afraid of themselves, because they have ghosts in their hearts, and that’s why they are afraid. ”

“.....”

The face of that heavyweight of the Wu family instantly darkened.

Ji Zhenguo’s words were so heavy-handed!

Why would everyone be self-conscious, it was because they knew what they had done and had ghosts in their hearts!

But why are they called assholes, because the upper beam is not right and the lower beam is crooked, following the kind of people, they learn the kind of things you Wu family has been operating in South Guangdong for so many years, and as a result, they have cultivated such a large group of assholes and scum?

You still know how to say that they are all afraid of themselves!

If they don't even know that they are afraid, then there is really no hope for this country!

This is a direct reference to the Wu family!

Because the main reason for all this is because of the Wu Family. You have been operating in Southern Guangdong for so many years, but now you've got it into this state, if you say you're not responsible, even a fool wouldn't believe it, right?

The heavyweight of the Wu family was speechless.

Some of the leaders present, however, had seen how stern Ji Zhenguó was, and at the same time, they also felt the determination of the Ji family from Ji Zhenguó's words.

"Comrades, Southern Guangdong is the number one economic province in our country, and I don't need to say much about the weight of it. However the more this is the case, the more important it is that nothing can go wrong here, while maintaining stability is important, however, rooting out ills is equally more important, otherwise if we only seek stability for a while, over time, it will lead to terrible consequences!"

Ji Zhenguó banged his teacup on the table and said resoundingly, "If it comes to that, it will be too late to do anything else! Everything, it will be too late!"

As Ji Zhenguó's words fell, some of the leaders present could not help but secretly nod their heads.

In fact, at their level and position, if they were to say that they were afraid of the Ji family, they would have some fear, but if they were to say that they were more afraid, that would be an overstatement.

Perhaps in their early years at the grassroots level, they would have such and such bad habits, but as they rose step by step in their positions, their eyesight was also improving and their minds were more open.

So in fact, the words they often say about serving the people and so on are not just empty platitudes, it's just that when they reach the mouths of some officials below, they are just platitudes they use to put gold on their own faces.

—The government's policy is to take into account the overall situation.

It is precisely for this reason that Ji Zhenguó's words were particularly agreeable to them – yes, as the number one economic province in China, the weight of Southern Guangdong cannot be overstated, which is why it should be taken more seriously!

In fact, over the years, the Wu family had taken control of Southern Guangdong, and many people had seen the chaos that had arisen, but there was just no reasonable excuse or suitable opportunity to intervene.

Now since the Ji family was so resolute, and Ji Zhenguo was so stern, refuting the Wu family's heavyweights' dumbness, then they naturally knew what to do.

"Let's set up a task force, while trusting the comrades in Southern Guangdong, we should also give them more help before we do so!"

"Investigate the case a bit more clearly, to lay a foundation to stick to for the continued rapid development of Nan Yue!"

"Let's vote by a show of hands"

.....

As all the leaders present finished speaking in turn, that heavyweight from the Wu family then knew that things were irrevocable, and that they were irresistible and had no reason to resist the Ji family's overwhelming attack this time!

Because they were prepared to take down Zheng Yuanshan and cut off the Ji Family's hand, they had obviously angered the Ji Family completely.

This was the Ji family's revenge!

But even though they knew it, there was nothing they could do about it, because the Ji family was retaliating righteously – the chaos in Southern Guangdong was their own doing, not the Ji family's. Now that you've been caught in the crosshairs, it's useless to say anything.

The Ji family's plan was an open and honest one, which was irresistible.

So, at Ji Zhenguo's suggestion, the Discipline Inspection Commission's task force was successfully established and immediately set off south to investigate some of the chaos in Southern Guangdong.

Of course, this was not what the official briefing said – the task force was only going south to help local comrades solve some difficult problems and to learn about the progress of some cases in the meantime

.....

When the news broke, there was an uproar!

No one expected that the Ji family's revenge would come so quickly and so violently.

Even, there are gossip that Ji Zhenguo is in front of the backbone of the Wu family, posing a clear carriage to propose the establishment of a task force, which can not help but staggering people.

This is because this is no different from pointing directly at the nose of the Wu family and saying, "Since you did the first day in the first place, don't blame us for doing the 15th! If you want to take down Zheng Yuanshan, then be prepared for your own great general to be taken down mentally, and now, I will take revenge on you!"

The Ji family's toughness, the harshness, shocked everyone.

Again, according to gossips, after the news got back that day, there was the sound of tea cups being dropped in Wu Zhengmin's office!

The atmosphere was once again tense, and the nerves of the entire officialdom of Southern Guangdong were suddenly tense.

In particular, some of those who had previously firmly advocated for Zheng Yuanshan to be taken down were now sweating and their nerves were tense to the extreme.

The Ji family's revenge was coming!

At this moment, there was no telling how many people's faces changed drastically after receiving the news

Campus Master Chapter 2172

"Bastard! Bastard!"

In Southern Guangdong, in the office of the boss of the Brilliant Group, Shao Jie, a man with gold-rimmed glasses, kept pacing back and forth, looking agitated and seemingly full of anxiety, and at the same time, he was carrying a bit of disbelief: "What the hell is going on here? Ji Feng didn't die and leave it at that, how come there hasn't been any movement for half a month, and now all of a sudden we're investigating the whole thing?"

Shao Jie was annoyed because the progress of things was really beyond his expectation.

Originally, when Ji Feng was attacked and killed, he was still very pleased with himself and even gloated on the sidelines. Especially after the half-month-long period after Ji Feng's attack, their investigation had not made any half-hearted progress, which made Shao Jie ridicule even more unscrupulously, and even make some small moves from time to time.

—for example, some of the whispers in the society of Southern Guangdong, and some unfavourable remarks against Ji Feng and the Ji family, some of which were put out by Shao Jie who secretly arranged for someone to do so.

Especially when the governor of Southern Guangdong personally took the lead and called for the convening of an emergency standing committee, and was furiously preparing to take down the Ji family's cadre Zheng Yuanshan in one fell swoop, a move that should be considered the most obvious feature of the Wu family's official meddling in the matter, and, moreover, ironclad evidence of the Wu family's move towards the Ji family!

At the same time, it also brought the whole matter to its highest `climax!

But no one expected that after the climax, things would suddenly take a turn for the worse!

Zheng Yuanshan had investigated the whole matter and even had a large amount of concrete evidence in his hands.

As a result, the governor was slapped hard in the face and was left bleary-eyed!

And next, things changed so quickly that it simply surpassed everyone's expectations. First, a large number of people were arrested, and immediately afterwards, the mastermind behind it was found, and it turned out to be Qiao Rong.

But immediately afterwards, news surprisingly came from Yanjing, saying that the Discipline Inspection Commission above, at the suggestion of Ji Zhenguo, had actually set up a task force.

This task force was a joint investigation team led by people from the Discipline Inspection Commission department and aided by various departments such as the public, prosecution and law.

Just by looking at the components of the investigation team, it is enough to see the name of it.

Why would someone from the Discipline Inspection Commission be the lead?

You know, the Discipline Inspection Commission is not used to investigate cases, but specifically to investigate cadres who have violated discipline, which means that this time, the investigation team is specifically aimed at the cadres of Southern Guangdong!

And among the cadres in Southern Guangdong, at least six or seven out of ten of them are related to the Wu family!

So when the investigation team came to Nan Yue, who were they going to investigate, was it not clear and obvious?

This was the Ji family's revenge!

Shao Jie was bitter and annoyed, and said in a hateful voice: "It's all the fault of Zheng Yuanshan, this son of a bitch, nothing has been moving for half a month, but suddenly the results have been investigated, and even investigated so clearly"

Brilliant Group boss Zhai Yadong sat behind his desk, holding his cup and quietly drinking tea, as if he hadn't heard Shao Jie's complaints and curses seemingly.

"Old Zhai, don't just drink water, you should also say something!" Zhai Yadong said.

"What should I say?" Zhai Yadong put his tea cup down and asked, "Nowadays, the first thing we should consider is how to deal with the huge trouble that is coming!"

"Sh, what do you mean?" Shao Jie was stunned.

Zhai Yadong shook his head and said, "Shao Jie, based on the information you told me, there will definitely be a fierce retaliation next, there is no doubt about it, the formation of this joint investigation team is a precursor, and with our Brilliant Group's relationship with the Wu family, I'm afraid we won't be spared either!"

"Is it that serious?" Shao Jie frowned and asked, "This joint investigation team is only investigating official matters, right? We are doing business in earnest, what does it have to do with us!"

"That's what they say, but things may not be as we think!" Zhai Yadong sighed, "Because the Ji family wouldn't think that way!"

"....."

Shao Jie stopped talking.

Zhai Yadong then couldn't help but shake his head and sigh lightly in his heart.

This time, the Wu family was really sitting on wax!

Originally, this incident had nothing to do with the Wu family, even if the attack on Ji Feng happened in Southern Guangdong, in the territory of the Wu family, but as long as it was not done by someone from the Wu family, it was actually nothing, because the Wu family was not much worse than the Ji family, so as long as the Ji family did not have tangible evidence to prove that this incident was done by the Wu family, then they could not do anything.

However, some bad behaviour by the Wu family has upset this balance between the two families.

Shao Jie had secretly sent people outside to spread some gossip, deliberately slandering the Ji family and tarnishing the reputation of the Ji family and Ji Feng, and even, Shao Jie had once made some unscrupulous remarks at an elite gathering of the business community, so it was impossible for the Ji family not to hear the gossip.

What's more, it was the governor of Southern Guangdong who actually wanted to take advantage of this opportunity to take down Zheng Yuanshan, which undoubtedly angered the Ji Family completely!

In fact, in some ways, this approach of the governor of Southern Guangdong could not be said to be wrong; a behemoth like the Ji Family would basically not make mistakes normally, and even if they did, it would be no big deal.

So if you want to deal with such a giant, you have to look for the right opportunity.

Originally, Zheng Yuanshan's crazy actions in Southern Guangdong had already touched the sensitive nerves of many people, and if this opportunity could be seized at this time, Zheng Yuanshan could indeed be taken down, which would undoubtedly be like cutting off a hand extended by the Ji family at once!

But the problem is, before the governor of South Guangdong made his move, he didn't investigate clearly whether Zheng Yuanshan had any backing to do so or not!

He had blindly acted on his own imagination!

As a result, instead of taking down Zheng Yuanshan, he was even slapped by Zheng Yuanshan in front of so many members of the Standing Committee of the Provincial Party Committee.

Not only that, the governor's move had also completely angered the Ji family.

And here comes the revenge!

Although this matter seemed to be just the governor's own act, everyone knew that the governor represented the Martial Family, and without the nod from the main figure of the Martial Family, how could he have blatantly struck out at the Ji Family?

So in effect, this was the Martial Family's provocation to the Ji Family!

It would be strange if the Ji Family could still hold back under such circumstances!

In this way, some officials of the Wu family lineage in Southern Guangdong will face the most severe retaliation from the Ji family, there is no doubt about it, the establishment of the joint investigation team and the strong statement of Ji Zhenguo is the best proof of this.

As for the Brilliant Group

The relationship between the Brilliant Group and the Wu Family, that is even more needless to say, how could the Ji Family not know?

Thinking about the things Shao Jie did before, one would know that the Ji family would treat the Brilliant Group this way!

“If I had known this, why would I have done it in the first place!” Zhai Yadong could not help but say this in his heart, he wanted to say something about Shao Jie, but when he thought about Shao Jie’s status, and then thought about the fact that he was only a part-time worker, even though he had the trust of some people from the Wu Family, he could not be considered a member of the Wu Family after all, so he did not say these words.

Shao Jie’s face also did not look too good, he was gloomy and did not say a word, obviously, he also realised the seriousness of the matter, but in his heart he was still not willing to admit that the Wu family had fallen to the disadvantage.

It was a while before Shao Jie could not help but ask, “Old Zhai, do you think the Ji family will deal with us this way this time?”

Zhai Yadong shook his head and said, “I don’t know about that, just as none of us knew that Zheng Yuanshan and Ji Feng had actually already had a plan in mind and still thought they had planted a big heel in Southern Guangdong, now, we likewise don’t know that they will deal with us this way!”

“Fuck”

Shao Jie couldn’t help but curse, his face was ugly.

Zhai Yadong shook his head and said, “No matter what, we can no longer fight hard against the Ji family now.”

“.....”

Shao Jie was very reluctant, but opened his mouth, but did not know what he should say, he also understood that this time the matter was in trouble, the Ji family was moved to anger, not outside to say a couple of windy words, or spread some gossip and other tricks can be solved.

“Damn it how come Ji Feng wasn’t killed off in the first place! Damn!”

Some people are like that, they always like to blame their faults on others, and that was the case with Shao Jie.

It probably never occurred to him that if he hadn’t wanted to take the opportunity to throw a few pots of dirty water on Ji Feng’s body, if the Wu family hadn’t wanted to take advantage of the fire, how could they have incurred all this trouble?

.....

Yuezhou Military District, in the military camp.

Ji Feng came here once again and found Xiang Yongzhan.

“Old Xiang, when do you plan to return to Jiangzhou?” Ji Feng asked.

“After things are settled over here, I’m going to rush back!” Xiang Yongzhan said.

“That should be soon.” Ji Feng smiled and said.

“What about you, when do you plan to go back?” Xiang Yongzhan asked, “Or do you plan to stay here and fight the Wu family to the death?!”

Ji Feng shook his head and laughed: “Even if I have to die fighting, I have to go to Yanjing, not here By the way, did the guy with the broken leg confess?”

As soon as this was mentioned, Xiang Yongzhan’s face sank and he shook his head, saying, “No! Everyone has confessed more than three times, except that guy, who insisted on not saying a word, those drugs surprisingly did not have much effect on him, at most they could only make him mentally depressed, but soon he would recover have to say, this is a tough one!”

Seeing Xiang Yongzhan’s unkind face, Ji Feng laughed, “I guessed it would be like this, this guy is indeed a tough character!”

“If I didn’t know that this guy was an important person, I’d hate to shoot him!” Xiang Yongzhan snorted coldly.

“He is indeed an important person!” Ji Feng nodded and said, “I came over this time specifically for him”

“What do you mean?”

Campus Master Chapter 2173

“Who the hell is this guy that you have to make a special trip?” Xiang Yongzhan asked.

“I don’t know who he is either, but I’m sure he must be a very important person At least, with his skills, he wouldn’t be a minor minion in whatever organization he’s in!” Ji Feng said.

“That’s true!”

Xiang Yongzhan nodded in agreement.

Whether it was the army or any other organisation, those who had strength were of course the most respected, and that was how strength was respected.

And this was especially true for the organisation that the guy with the broken leg was from.

It’s like a research organisation that respects the best scientists, so of course they also value those who are strong!

If this guy with a broken leg was from the dynasty, then it goes without saying that he would be highly valued in the dynasty, there is no doubt about that.

This is evident from the extent of the dynasty's research into the transformation of human beings, how crazy the dynasty's research is in the pursuit of personal strength, how far their pursuit of force has gone!

So it was certain that whether this guy with a broken leg belonged to the Dynasty or to some other organisation, he must have had an extremely important place in it!

But, unfortunately, since he was caught, he has not spoken a word!

He usually eats when he is given food, but doesn't eat when he isn't. He is like a walking corpse with no energy left, and rarely reacts to the outside world.

Even an elephant would be confused if he ate those drugs, but this guy had no effect after eating them, and even if he had an effect, it was extremely limited and minimal!

This made Xiang Yongzhuang very regretful and helpless.

"This guy is soft and hard, and crucially his body is not too good, the injury to that broken leg is still very serious, if the torture is done at this time, I'm afraid he won't be able to hold up!" Xiang Yongzhan shook his head helplessly and said, "You came all the way over here, do you have any good way to make him talk?"

Ji Feng smiled, "I'm not sure, let's try."

Xiang Yongzhan nodded and said, "Fine, let's go, I'll take you there!"

He also guessed that Ji Feng might not be able to do anything too good, because but almost every way he could think of, Xiang Yongzhan had used it, but it just didn't work, it was hardly effective. Now that Ji Feng came over with his bare hands, could he still make that guy talk with just a few words?

Unless Ji Feng had something on that man!

Under Xiang Yongzhan's leadership, Ji Feng first went through the dormitories in front of the barracks, then got into the jeep again, and kept driving for about ten minutes before they arrived at an ordinary small building.

The small building didn't look special in the slightest, but after entering, Ji Feng realised that there was something else inside – after entering the basement along the stairs, there was actually a lift leading underground!

"Although this is a military camp, it's just a regular field unit after all, not as strict as in a special operations brigade, I was worried about the crowd and this guy being an important person, so I moved him here." Seeing Ji Feng raise his eyebrows, Xiang Yongzhan couldn't help but say.

Ji Feng laughed, "I just feel a little curious, is there this kind of underground base in every military camp?"

Xiang Yongzhan shook his head and laughed: “How can I say this question I am not at liberty to answer you, this is discipline!”

Ji Feng shook his head and laughed, and did not continue to pursue the question.

In fact, he is probably understand that his guess should be correct, I am afraid that in every military region there will be such underground bases, and even, I am afraid that there are more confidential military bases than what he has seen.

For example, when they were targeting the Western Xia branch of the dynasty, their group had set off from Yanjing, and before they set off, they had entered an underground military base in Yanjing!

At that time, that military base, the entire ground could actually be separated directly for planes to take off and even launch missiles directly.

It was thought that there were similarly such bases in other military regions.

In Ji Feng’s opinion, this kind of underground military base was for secrecy on the one hand, while on the other hand, I’m afraid that it was also to avoid that after a war really broke out, the enemy would make a pre-emptive strike and carry out a surgical strategic strike.

“It’s here!”

Xiang Yongzhan’s words pulled Ji Feng’s thoughts back, and after the lift doors opened, Ji Feng saw a long corridor in front of him, and then a wide hall further on, with quite a few rooms further on.

Xiang Yongzhan led Ji Feng into a room and after opening the door, the man with the broken leg was lying on a bed.

Even though he saw Ji Feng and Xiang Yongzhan enter the room, the man with the broken leg acted as if he didn’t see it, he was simply indifferent, just lying on the bed, his eyes looking at the roof, not saying a word.

“See, just this hanging look!” Xiang Yongzhan said in an unkind tone, obviously already displeased with the attitude of this man with a broken leg.

“Let me try!”

Ji Feng smiled and came to that bed, looked the man with the broken leg up and down, “Looks like he’s recovered well, his complexion has improved a lot.”

The man with the broken leg still didn’t respond at all, as if Ji Feng wasn’t talking about him.

Ji Feng didn’t care, he just asked, “I understand your feelings, if it was me, being caught by the enemy and having a broken leg, I must have hated it in my heart.”

The man was still motionless, and if his eyes were not still open, one would almost think he was dead.

However, Ji Feng was laughing, “Alright, no need to keep pretending, don’t act as if you are dying, I know you don’t want to die at all.”

“.....”

The man still didn't say a word and ignored Ji Feng.

Xiang Yongzhan couldn't help but frown and said, "Ji Feng, it's useless for you to talk such nonsense with him, I've used all the methods I can, this son of a bitch is simply soft and hard, I think it's better to just shoot him!"

Ji Feng shook his head and said, "Those methods of yours didn't work, that's because you didn't use the right methods at all"

Xiang Yongzhan didn't avoid it, he directly spread his hands and said, "Then use your methods and see if you can get him to talk!"

"He will definitely talk!"

Ji Feng turned his head to look at the man with the broken leg and smiled, "We're both martial artists, do you think that it's useful for you to pretend to be in front of me?"

The man with the broken leg couldn't help but glance at him, then averted his gaze again.

Ji Feng shook his head and said, "Come on, keep pretending like this, I'm still tired even if you're not If you're really bent on death, then why is your strength gradually recovering?"

"..... Humph!" The man couldn't help but snort coldly.

"Heh!"

Ji Feng shook his head and smiled, saying, "If you are still like this, then our conversation will have to end here and I will have to use other methods If I am not wrong, the reason why those methods they used on you would have no effect is because you quietly ran your internal force to resist it, so Whether it was the drugs they used on you or any other methods, the effect was not satisfactory!"

At this time, the man with the broken leg finally turned his head and stared at Ji Feng twice, and there was a look of mockery in those eyes, not knowing if he was mocking Ji Feng for guessing wrongly or something else.

He realized why those tactics that Ping had used on other people were not effective on this guy, but the root cause was here!

"You can hide from them, but not from me In fact, even if I can't see it, you can't escape!" Ji Feng shook his head and said, "This place is at least a few dozen meters underground, entering the lift all must be verified with fingerprints, moreover, from your room understand ah lift between, there are at least three or four barriers, you think you can break through?"

Ji Feng raised his finger: "No matter what method you use, if you want to break in, there is only one way to die!"

"That's still better than falling into your hands and being at your mercy!" Finally, the man with the broken leg spoke, only his voice was full of anger and he was gritting his teeth as he spoke.

"But unfortunately, your method won't work!" Ji Feng said, "Instead of being beaten into a sieve at that time, it would be better to just kill yourself now!"

“You think I wouldn’t dare?!” The man asked through clenched teeth.

“Then you try!” Ji Feng smiled.

“..... shameless!”

The man couldn’t help but curse angrily and looked at Ji Feng as if he wanted to eat him – on his wrists and ankles, he was wearing a special torture device, he couldn’t even move freely, so how could he commit suicide?

When Ji Feng said that, it was clear that he was flirting with him!

“You can’t even understand your own situation, and you can only make a fool of yourself!” Ji Feng said without mercy.

“.....” The man gritted his teeth and looked at Ji Feng angrily.

“All right!”

Ji Feng, however, still didn’t care, just said indifferently, “Tell me, where exactly do you come from and what is your relationship with the dynasty to be more detailed!”

“What if I don’t say?!” The man asked through clenched teeth.

“Then you will suffer even greater humiliation!” Ji Feng said, “Just because they can’t do anything with you doesn’t mean I can’t do anything with you either You should know that I have many ways to make your internal power not work, and I can also turn you into an idiot or a fool at any time, so will you cooperate honestly, or do you want me to do it? ”

“Ji Feng!”

The man with the broken leg roared in anger as soon as he heard this, “I really hate that I didn’t kill you back then! If I hadn’t fought you back then and used the bomb directly, you would have turned into a pile of ashes by now!”

When Ji Feng smiled, he couldn’t help but shake his head and sneered, “Don’t you think it’s too naive for you to say that?”

The man gritted his teeth and stared at Ji Feng with a deadly gaze

Campus Master Chapter 2174

“I really regret it!”

The man with the broken leg stared deadly at Ji Feng, his face filled with a fierce expression, his eyes filled with hatred, “At that time, someone suggested to me not to fight you directly and only use guns and bombs to deal with you, if I had listened, you would be a dead man now!”

Ji Feng raised an eyebrow and asked, “Then why didn’t you listen, did you want to try my skills? Or are you too confident in your own strength?”

“.....”

The man with the broken leg didn't say anything.

In fact, before the operation at first, someone did give him the advice not to fight Ji Feng directly, but to directly use bullets to sweep or use bombs, which was not only direct, but could also surprise him, and even if Ji Feng was skilled, he would only be dead!

But unfortunately, at that time, he was furious in his heart and was a bit uncomfortable with others' over exaggerating Ji Feng's strength, so he was a bit uncomfortable with others' suggestions.

However, the result was that he was pressured and beaten by Ji Feng from beginning to end, and even in the end, he was badly injured by Ji Feng in a head-on hard fight, and that weird energy in his body was still raging in his body until now, causing him pain!

Every time he thought about this these days, he wanted to slap himself a few times, why hadn't he listened to other people's advice in the first place!

As a result, instead of finishing off Ji Feng, he himself had his leg blown off and was now in Ji Feng's hands, being treated like a mouse all day long, being dosed and injected with all kinds of drugs, making him really suffer and regret to the extreme!

Ji Feng, however, just shook his head with a smirk of shame in his eyes, "Do you regret not listening to other people's advice, or do you regret being too arrogant?!"

The man with the broken leg then couldn't help but choke.

"Heh!"

Ji Feng couldn't help but shake his head and lose his smile.

He couldn't believe that if this man with a broken leg was too confident in his own hands and strength, how could he not listen to other people's advice and not use weapons directly, instead of fighting with his bare hands and fists?

Or perhaps, this person was originally afraid that he wanted to kill himself with his own hands, instead of employing any weapons If that was the case, then most likely this man with a broken leg had a strange fetish, and I'm afraid he enjoyed taking people out with his own hands.

As far as Ji Feng knows, the more people like this, the more likely they actually have certain psychologically convenient eccentricities, for example, some experts may like to torture people, he has to torture his opponents to the point of pain before he finishes them off.

This is because seeing others begging for their lives and not being able to die is a kind of enjoyment for them.

Ji Feng didn't know if this man with a broken leg also had such thoughts in the first place, but at least he definitely had certain fetishes as well, only that he didn't anticipate that he would be so strong and ended up in such a situation, and instead of ever reflecting on his actions, he just put the problem down to regret.

If this sounded to those who didn't know much, they might have been a little soft-hearted or had some sympathy for this man with a broken leg, but to Ji Feng, he just shook his head and lost his smile.

How unrepentant even at the end of his life!

"If I had fallen into your hands at that time, I would have ended up a hundred times more miserable than you, right?" The smile on Ji Feng's face gradually turned cold, and his eyes were gradually filled with a chill: "Do you know that just because of your attack, to this day my friend is still lying in the hospital, and if it wasn't for she would almost be dead!"

"Humph!"

The man with the broken leg snorted coldly, with a look of disdain on his face.

Ji Feng's eyes instantly narrowed slightly, a cold light instantly flashed from his eyes and his face sank, "It looks like you're disdainful about this, huh?"

"So what if your friend is lying in hospital, she asked for it! Not to mention her, if you hadn't gotten lucky, you would have been a dead man long ago!" The man with the broken leg said in a cold voice.

"Is that so?!"

Ji Feng's expression grew colder and colder as he slowly nodded his head and said, "It seems that I'm still too gentle with you"

"You don't need to scare me!" The man with the broken leg said in a cold voice: "If you have any tactics, you can use them, I'll just follow them!"

"It will be as you wish!" Ji Feng said coldly.

The reaction of this man with a broken leg instantly aroused the anger in Ji Feng's heart.

Originally, he had been attacked and killed by this gang for no reason, not to mention that he had almost lost his life, and Bai Zhu had even almost died on the spot.

But in the eyes of this man with a broken leg, Bai Zhu was just a character who came out to get in the way, and she had brought this on herself!

This attitude of the man with the broken leg made Ji Feng's heart rise with anger, and he nodded heavily: "Very well! Since that's the case, then we don't need to talk nonsense, tell us everything you know, and if you're smart enough, cooperate honestly so that you can save yourself the suffering"

"What if I don't cooperate?" The short-legged man asked.

"You will know the consequences!" Ji Feng returned in a resounding and tired voice.

"Then you'll let me see what happens!" The man with the broken leg said with a cold smile.

"Snap!"

As soon as his words fell, Ji Feng flung his hand and slapped him with a loud slap, instantly hitting his head hard on the bed, "Since you're giving shame, there's no use in keeping this face!"

Swish!

The man with the broken leg fiercely turned his head and stared deadly at Ji Feng, with a strong hatred in his eyes, his face was hideous, looking at his appearance, he almost wanted to eat Ji Feng alive.

“Pop!”

But Ji Feng didn't care, he threw his hand and slapped him again.

“Ji Feng! You dare”

“Zap!”

Another loud and vicious slap instantly brought the broken-legged man's ranting to an abrupt halt, and all the rest of his words were punched back into his stomach.

“Bastard”

“Slap!”

Xiang Yongzhan, who had been standing by the side without saying anything, saw this scene, the corners of his eyes involuntarily twitched twice, and couldn't help but stammer, Ji Feng was trying to wantonly humiliate this guy or this was a ruthless move!

This man is undoubtedly very arrogant, also dragged can, even after falling to this point, he is still shouting, which makes Xiang Yongzhan very upset.

But the problem was, this guy had injuries, and his leg that was blown off hadn't even healed yet, so he couldn't be tortured, but other than that, nothing like drug injections or toxin paralysis worked at all, which made Xiang Yongzhan very helpless, and he really didn't know what method to use even if he wanted to teach him a lesson.

But now that he saw Ji Feng's methods, it immediately made Xiang Yongzhan's eyes light up, this method is good!

Isn't this guy tugging, isn't he arrogant, so let's humiliate him severely, humiliate him to the point where he loses face, let him collapse!

“Damn, I should have known that I should have just asked someone to get a few buckets of urine, either to confess or to drink, see if he is crazy again!” Xiang Yongzhan looked wistfully at the man with a broken leg who had been beaten almost to the point of going mad, and he laughed heatedly in his heart.

“Ji Feng, you bastard”

“Pop!”

.....

With each slap, Ji Feng hit that leg-broken man's face with unparalleled accuracy, and no matter how much the other party dodged, he couldn't. Moreover, the man with the broken leg's limbs were all fixed to the bed, so he didn't have much room to dodge.

So, as Ji Feng's slaps fell one by one, the man with the broken leg was so beaten that he was going crazy.

“Slap!”

Ji Feng once again threw out a fierce slap, knocking the broken-legged man's head backwards so violently that the whole man fell onto the bed at once, and only then did he withdraw his hand.

"Do you want to talk again?" Ji Feng held a cold smile and asked.

"..... You'd better kill me now!" The man with the broken leg gritted his teeth, his voice almost bursting out from his teeth, "If I don't die, I will definitely kill you with a thousand cuts in the future! Not just you, but all those who are related to you, they will all suffer the greatest humiliation and then die a miserable death"

"Deadly unrepentant!"

Ji Feng shook his head and sneered, "Good idea, but unfortunately it's too unrealistic" Since you're bent on asking for death, I'll make it happen, but it may take longer, the process will be longer, and it will feel" painful some!"

The man with the broken leg couldn't help but blush and was just about to say something when he saw that Ji Feng had already turned around and looked at Xiang Yongzhan: "Old Xiang, didn't you keep complaining about not being able to torture him before? Now you can!"

"What do you mean?" Xiang Yongzhan was stunned.

"Actually, you've always been able to torture him before, this guy can definitely withstand it! His injuries are definitely not as serious as they seem on the surface!"

Ji Feng casually pointed at the man with a broken leg on the bed and said, "He's been secretly cultivating and quietly building up his inner strength, and he's recovering quickly, if I hadn't come over and found out today, maybe after a while, he might really seize some opportunity to escape!"

"What you say is true?" Xiang Yongzhan's eyebrows couldn't help but wrinkle up.

"You'll know if you don't believe me when you try!" Ji Feng said.

Xiang Yongzhan immediately turned his head to look at the man, just in time to see the change of expression on his face, and the eyes that flickered a few times" Xiang Yongzhan then immediately understood that what Ji Feng said was true!

"Bastard"

Thinking about the conversation between Ji Feng and this guy just now, Xiang Yongzhan was instantly fired up, "I wondered, how come those drugs can paralyze even an elephant and actually have little effect on you, so not only are you secretly using your insides to resist the power of the medicine, but you are also building up your strength and trying to escape?"

Perhaps because the plot had been discovered and the chance and hope of escape was extinguished, the man with the broken leg simply ignored Xiang Yongzhan and only stared at Ji Feng with a deadly look of resentment and a strong hatred in his eyes.

"Grass"

Xiang Yongzhan was instantly enraged, he fiercely turned his head and shouted, "Someone! Rack him up for me"

"Boom~!"

Suddenly, before Xiang Yongzhan's words even fell, he saw the man suddenly storm up, and without seeing how he moved, he only heard a crunching sound, and the metal torture device on his wrist and ankle was actually broken off by him.

In a flash, he suddenly leapt up and directly pounced on Xiang Yongzhan, at the same time his right hand, also snapped Xiang Yongzhan's neck

Campus Master Chapter 2175

It happened extremely suddenly, and what was even more surprising was that the man with the broken leg was incredibly fast, in just the blink of an eye, he reached Xiang Yongzhan, and his right hand even snapped directly onto Xiang Yongzhan's neck.

"Fuck"

Xiang Yongzhan's reaction was equally incomparably swift, as he let out a low roar from his mouth, while his body leaned back and his feet retreated backwards.

However, the man with the broken leg was much faster, far faster than Xiang Yongzhan, so in reality, Xiang Yongzhan was actually snared by the man with the broken leg just as soon as he made a move.

"Phew~!"

It was only at this point that the man with the broken leg exhaled a long breath, his face flushed red as he looked at Xiang Yongzhan, who was held by his own neck, and then turned his head to look at Ji Feng, he finally couldn't help but laugh in triumph: "Haha hahahaha... .."

The more he laughed, the happier he became, and his voice even grew louder, as if he wanted to shout out all the humiliation he had suffered before.

"Grass!"

Xiang Yongzhan was held by the neck, so he could not move at once. He stared coldly at the man with a broken leg, and could not help but curse.

The man with the broken leg didn't mind in the slightest, he just laughed and said, "Go ahead and curse You won't have many chances like this anyway!"

He said, he suddenly turned his head to look at Ji Feng, his face full of smile: "Ji Feng, you guessed right, although my injury is serious, but after the previous half month of treatment, it is no longer enough to be fatal, this time I am also indeed secretly cultivating, the purpose, of course, is to build up strength, just to find the opportunity to escape!"

Ji Feng was standing not far away, nodding with a calm expression and said, "Congratulations, now it looks like you're about to succeed!"

"Many thanks!"

The man with the broken leg sneered and said, "You're such a hypocritical bastard, it makes me sick to my stomach You're afraid you'd hate for me to die right now, right? Yet your mouth is still pretending to say congratulations but it's okay, I can stand it!"

Ji Feng nodded with a calm expression and said, "That's good, I hope you can still say that next!"

The man with the broken leg was slightly stunned, somewhat not quite understanding what Ji Feng meant, but he quickly stopped caring and just sneered, "You want to stall for time, don't you? Do you think that's useful? This guy I'm holding, I think he's the famous Xiang family's grandson from Yanjing, right? With him in your hands, who do you think dares to stop me?"

Ji Feng shook his head and said, "No one is stopping you!"

"That's because you don't dare!"

The man with the broken leg shouted, "His men wouldn't dare, and neither would you. If it's because of you that the male brother of the Xiang family died here, hey, then you'll have a bad time am I right?"

Ji Feng smiled and said, "In theory, it's sort of right!"

"Humph! In theory, " the man with the broken leg snorted and said, "In that case, do you know what to do now?"

"You want to leave?" Ji Feng asked.

"What do you think?"

The man with the broken leg looked impatient as he sneered, "Ji Feng, it's useless for you to stall for time here, I advise you to cooperate honestly or else I'm just a rotten life now, but this life in my hand is golden! "

Ji Feng nodded and said, "No problem, I'll help you lead the way, and I can also send you out"

"Ji Feng, don't mess around!" Xiang Yongzhan directly interrupted him and said in a deep voice: "This kind of thing old man can't do, and you don't want to be making decisions for me! If I let this son of a bitch run out of here today, I won't have to be in the business in the future!"

"Kid, you want to die, don't you?" The man with the broken leg suddenly looked cold and threatened.

"You son of a bitch, you really think I'm afraid of death, don't you?" Xiang Yongzhan sneered, "I've killed many people, you fucking think you can threaten me with just this?"

"Okay, you two just don't argue" Ji Feng said, "I'll take you away, but don't hurt him" "

"Don't worry!"

The man with the broken leg sneered heatedly, "I've waited so long for this opportunity, of course I won't waste it indiscriminately, of course, provided that this kid cooperates, otherwise"

"Wow!"

Ji Feng directly opened the door of the room and extended his hand, "Please"

The man with the broken leg immediately laughed out loud: "Haha Ji Feng ah Ji Feng, you also have today, the old man asked you to kowtow and submit, are you going to do the same?"

Ji Feng smiled: "Hurry up and go, or else something might go wrong later!"

"Hahahaha"

The man with the broken leg laughed out loud again, this kind of performance of Ji Feng, in his opinion this is Ji Feng embarrassed to give in to softness, but did not dare to have any bad attitude towards him, afraid that he would get Xiang Yongzhan killed in a fit of anger, seeing this stifled look of Ji Feng, he was really pleased to the extreme.

"Let's go" he shouted and laughed loudly as he was about to turn around and take Xiang Yongzhan away.

However, just then, his loud laughter came to an abrupt halt, and in a flash, the smile on his face disappeared without a trace, and the blood on his face receded to nothing!

The very moment he was about to turn around, he suddenly realized he couldn't move.

To be precise, it was that he couldn't even raise a bit of strength in his body, and his whole body seemed to be frozen in place, whether it was his only remaining leg or his hands, he couldn't even move.

It was as if

His entire body's strength was taken away in a flash, allowing him to stand there barely, let alone escape or anything!

"How, how, how could" The man with the broken leg's lips trembled, his eyes filled with a look of horror and disbelief, as if he had seen a ghost alive in broad daylight, his face full of fear.

He didn't know what was wrong with his body and why this situation had suddenly appeared.

He knew that he had just been able to jump up from the bed directly, and had moved like the wind with just one leg, so fast that even Ji Feng had not had time to react.

But how did it turn out like this now?!

He hurriedly pushed his internal energy, yet he was shocked to find that his internal energy had become incomparably chaotic, and that somehow, since when, there was another strange energy in his body, just like the one before, which had started to rampage again.

The reason why his internal energy could not be activated was because that energy was rampaging.

The meridians in his body had been repaired, but they were still weak, and his internal energy was even weaker, and it had taken him a long time to reach this point.

But that strange energy had washed away his internal energy in just a moment.

What made him feel even more frightened was that after the odd energy had dispersed his internal energy, it had even rampaged along his meridians, like a herd of wild horses that had gotten out of control, rampaging through his body with abandon!

And this, was the reason why his body couldn't raise its strength, but he was surprisingly only excited just now, while carefully guarding against Ji Feng, and as a result, he actually didn't notice it at first.

"Swish!"

His gaze immediately fell on Ji Feng, because he found that this strange extra energy that suddenly appeared in his body was very similar to the one before, whether it was the way of destruction or that level of severity, it was similar.

This made him think of Ji Feng at first!

Sure enough, only to see Ji Feng's face with a faint smile, his hand even pointed to the door and said, "Go, what are you waiting for, if you don't go you won't be able to leave oh!"

"Yes, it's you who's up to no good?!" He glared at Ji Feng and asked through clenched teeth.

"I told you a long time ago that I could already tell what you were going to do when I first came here and warned you that you were too arrogant unfortunately you didn't listen!" Ji Feng shook his head and said, "Now you've been taught a lesson?"

"When did you do that?!" The man with the broken leg asked through clenched teeth.

Ji Feng stretched out his hand and shook it, saying, "Here, it was just now when I slapped you, I felt that the beating was full of pain, so on a whim, I injected a bit of biological oh, just internal force into your body. Originally, I just wanted to calm you down, but I didn't expect you to be so impulsive and actually want to hold Lao Xiang hostage You are really too confident in your own strength!"

Looking at Ji Feng shaking his head with a regretful look, seemingly hating him, this really made the man with the broken leg almost go crazy!

If he could, he would hate to eat Ji Feng alive!

But unfortunately, right now he couldn't even move a muscle, he was afraid that if he moved a little, he would fall straight to the ground.

"Ji Feng, what's going on?" Xiang Yongzhan also sensed that something was wrong, he felt the hand that was clasping his neck, it was soft and seemed to have little strength left, he couldn't help but ask out loud.

"It's nothing, it's just that this guy is too cocky!" Ji Feng smiled and stepped forward, in Xiang Yongzhan's stunned eyes, he directly removed the hand of the man with the broken leg, "All right, throw him to the bed again, or into the interrogation room as well!"

"You predicted that he would be able to disintegrate the torture devices on his hands and feet?" Xiang Yongzheng asked.

"It's not like it's anything difficult!" Ji Feng laughed.

"Then you didn't warn me? I almost lost my life just now!" Xiang Yongzhan gritted his teeth and said.

Ji Feng laughed, "No, he knows your identity and will definitely take you as a hostage, unless he doesn't want to live himself, he definitely won't dare to hurt you!"

“Shit!”

Xiang Yongzhan said in an unpleasant tone, “Then what if he gets hot-headed and wants to pull me down with him? Then wouldn’t I not even be a martyr?”

Ji Feng laughed, “You think I’m watching from the sidelines? With his level of weakness, if I wanted to stop him, one hand would have been enough! The reason why I didn’t make a move was to wait until he was at his most proud and arrogant, so that he could taste the feeling of suddenly falling from the clouds to the bottom and falling with a bruised nose and a swollen face, and see how arrogant he would still be!”

Campus Master Chapter 2176

Ji Feng said, kicked the man with the broken leg and asked, “How does it feel?”

“Huffing~~huffing~~”

I don’t know if it was because of anger or the raging bio-current in his body that caused him too much pain, but at this moment, that man’s face was red, the veins on his forehead were high, his eyes were full of anger and resentment, he stared at Ji Feng with clenched teeth, but he didn’t say a word.

Ji Feng shook his head and smiled, saying, “You don’t need to look at me like this, just now when you took Xiang Yongzhan as a hostage, this is not the kind of expression you had!”

“.....”

The corner of that man’s eyes couldn’t help but twitch a few times, obviously irritated by these few words from Ji Feng.

The pain in his body was getting stronger and stronger, it was like tens of thousands of ants were gnawing at his veins, that kind of pain made him want to just run over and die here now, where would he have the energy to fight with Ji Feng? How could he have the energy to fight with Ji Feng?

However, just because he didn’t want to talk didn’t mean that Ji Feng wouldn’t let him talk.

“Alright, it’s time to explain now, right?” Ji Feng asked indifferently, “If you think you can still carry it, you can say so, I still have plenty of means here, and I will definitely satisfy you!”

“.....”

The man’s heart wanted to die, especially when he heard Ji Feng constantly saying cool words beside him, he wanted to die with Ji Feng.

However, Ji Feng frowned and asked, “Still not convinced?”

The man gritted his teeth and said, “I want to know, how did you see that I was secretly cultivating?”

This had been the most puzzling thing in his mind.

He had to know that since Ji Feng had come in, he had never touched his body and had only looked him up and down a few times before asserting that he was secretly cultivating, which had left him stunned.

Even a somewhat more powerful expert would have to have touched someone's body before being able to probe them, Ji Feng just looked at him for a few moments and knew.

He wanted to know exactly what he had planted himself in!

Ji Feng shook his head and said, "It's not that I don't want to tell you, it's just that you may not understand even if I do put it simply, the kung fu I practice and cultivate is a bit different from your internal energy, I can feel your situation, got it?"

"So that's how it is" The man sighed, this is how he did not expect, Ji Feng could actually see through him at a glance, a thousand calculations, but did not calculate this possibility, this heel is not unfairly planted ah!

And then, he closed his mouth, and then did not say a word.

Ji Feng frowned: "You're not being generous, are you? I've already answered your questions, now you're not going to answer a few questions for me?"

The man, however, gritted his teeth and said, "Just kill me, I won't tell you anything, so you don't have to waste your efforts!"

"Are you sure?"

Ji Feng asked in a deep voice.

The man said, "That's right, I won't say anything"

"Then there's nothing to talk about!" Ji Feng directly interrupted him and turned around, "Old Xiang, haven't you always wanted to torture him?"

"That's right!"

Xiang Yongzhan nodded, "It turns out that I was worried that his body wouldn't be able to carry it and he wouldn't get screwed up, so I never did it."

Ji Feng said, "That's fine now the injuries on his body aren't fatal enough right now, just don't come up towards his wounds when moving the torture."

"That's fine!" Xiang Yongzhan said immediately.

"By the way"

Ji Feng added: "I punched a wave of internal force into his body, now he can only desperately resist my internal force, he simply can't spare any extra energy, so now if you torture him, he won't be able to resist at all, and the pain he feels will add up, it's up to you to play!"

Xiang Yongzhan's eyes instantly lit up, "There's such a good thing? Haha"

While the man with the broken leg's face changed once again, he gritted his teeth and said, "Ji Feng, if you're still a man, you should just kill me, what kind of ability is it to torture your opponent like this now!"

Ji Feng sneered, "You are also worthy of being my opponent? You're just an arrogant but stupid fool, being your opponent is too degrading!"

"You"

"You what?"

Ji Feng sneered, "When you used my family to threaten me before, how come you didn't think about respecting your opponent? Now that it's your turn, you're instead asking me to respect my opponent, is there such a good thing in this world?"

"What's the point of bothering with him Come on, men!" Xiang Yongzheng bellowed.

"Chief"

At once, two soldiers ran in from outside, "What are the instructions, please?"

Xiang Yongzhan pointed at the man with the broken leg and said, "Prepare to arrange for his interrogation Prepare all kinds of torture instruments! Show all your tricks, well, this is a tough guy, make sure you show your best tricks, don't let people look down on you!"

"Yes!"

The two soldiers bared their teeth at those words, "Please don't worry chief, we will definitely treat him well!"

"Right" At this time, Xiang Yongzhan suddenly remembered something else as he asked, "Ji Feng, you just said that he is now going to resist your inner strength with all his might, so if you inject him with the drug now, it should be able to work, right? "

"There's no need to rush!"

Ji Feng laughed: "That internal force I punched in will be enough to deplete his body's internal force pretty much, from now on, you can inject him with drugs anytime in the future, it will all work Except, don't you want to show him your methods before the interrogation? Don't you think this guy is quite hateful?"

Xiang Yongzhan thought deeply: "That's right, it's hateful!"

He didn't just find it hateful, this guy with a broken leg was simply a bastard!

It was not enough to say that he had secretly cultivated his continued power without saying a word before, but the key was that he also acted as if he was bent on death and did not care about oil and salt, completely playing them off as fools.

As for the arrogant face when he was holding Xiang Yongzhan hostage to escape, that is naturally even more needless to say!

If not for his injuries, Xiang Yongzhan would have wanted to torture him.

"This man is in my hands, no matter what you want to know, I will make him spit it out honestly, I just don't believe he can keep on being hard!" Xiang Yongzhan gritted his teeth and said.

“Then I’ll be waiting!” Ji Feng laughed.

“Ji Feng

The man with the broken leg suddenly roared low, he had a fierce face and cursed fiercely, “You are so vicious and not a man, you will not be allowed to die well

Slap!

A loud slap instantly brought his voice to a screeching halt, and the man’s head was instantly knocked heavily askew to the side.

“Damn it, what the hell are you screaming for?!” Xiang Yongzhan shook off his hand and sneered, “Now you know how to curse, look how arrogant and fierce you were just now!”

“Huff~~huff~~”

The man’s body was already weak, and he had been injected with bioelectricity by Ji Feng, so how could he still withstand Xiang Yongzhan’s slap?

So he could only pant heavily as he was hit, unable to utter a single word.

However, he was staring at Ji Feng with an extremely resentful look, as if he wanted Ji Feng to carve it into his heart: “Ji Feng, you are ruthless enough, I really hate that I didn’t kill you in the first place

Ji Feng shook his head, not caring at all. Is there any point in saying these words now?

And what’s more ridiculous is that this guy still thinks up to now that he just made a bad choice, that if he had chosen to use the weapons and bombs directly at that time, he would have definitely been able to kill himself?

There are no ifs in this world, and even if there were, would he dare to guarantee that he would definitely succeed?

In this regard, Ji Feng only shook his head and smiled, until now this person is still holding on to his illusions, really wasted this good kung fu, but is an arrogant maniac, simply can not recognize the situation

Soon, the man was sandwiched by two warriors, one left and one right, and dragged away.

The first thing I want to do is wait here, this time I’m going to do it myself, if I don’t hurt this bastard today, how can I not swallow this!”

Ji Feng laughed, “Then take it easy, don’t tire yourself out!”

“Bullshit!”

Xiang Yongzhan lost his smile, but immediately afterwards, he felt that something was not quite right with this statement, he snapped his eyes towards Ji Feng, but saw that Ji Feng was just standing there with a calm expression, as if nothing was wrong.

“..... just wait here!” Xiang Yongzhan put down a sentence in a very depressed manner, then quickly followed.

“Hehe

Ji Feng couldn't help but smile, and his expression was quite relaxed.

This time when he came over, he had sort of solved a great hidden problem. Ji Feng believed that if he hadn't come over today and then found out that the guy was hiding his strength, this person would have tried everything to escape.

Maybe he would use some method to lure Xiang Yongzhan over and then suddenly take him hostage, and then maybe he could really escape.

If this person really escaped, with his hatred for himself and his kind of ruthless tactics, then there would really be no peace in the future.

Now that all this trouble was gone, Ji Feng was happy to be relaxed.

The next step was to wait for the results of Xiang Yongzhan's interrogation and everything would be clear.

In fact, if he simply wanted this person to confess, it would not be a difficult task for Ji Feng, he could just use bio-current to simulate a neurotoxin and inject it into this person's body, and he could know anything he wanted.

But then, after that, I'm afraid this guy would become an idiot, and even with his injuries, he might die on the spot, so Ji Feng didn't think this method was quite suitable, after all, this person was too strong and also had some connections with the dynasty, so maybe he was some important person.

Such a person could only be made to confess and not use neurotoxin, as that would probably leave out a lot of important messages.

Now, it was up to Xiang Yongzhan to clean him up!

Campus Master Chapter 2177

Xiang Yongzhan's speed was even faster than Ji Feng had expected.

He only waited for less than an hour before Xiang Yongzhan came back.

Only, unlike when he went, when Ji Feng saw Xiang Yongzhan again, this guy's breathing was still a bit ragged and his blouse was almost soaked through.

Ji Feng asked, “What's gotten into you like this?”

Xiang Yongzhan hummed: “It's all sweat

Not to mention, that guy is really a tough guy, I wanted to teach him a lesson and forget about it, but who knows, I hit this guy one time and cursed one sentence, and the curses are worse than one sentence, I immediately became angry... ..”

“So you just kept hitting until now?” Ji Feng was stunned.

“Pretty much!”

Xiang Yongzhan said, "Using other means to clean him up doesn't even relieve my hatred, it still feels more painful to hit him directly, I just don't believe that he still has the strength to curse before I get tired!"

Ji Feng was dumbfounded and laughed.

Xiang Yongzhan said with hatred, "Who knew that this son of a bitch could really carry on, he insisted for more than half an hour before he gradually stopped cursing, but he still didn't completely give in, and I gave him a severe beating again!"

Ji Feng shook his head and smiled, he knew this would be the result.

In fact, Ji Feng had long since seen that not only was that guy arrogant and cocky, but his eyes didn't seem to be too good either, as he simply couldn't see the situation and wasn't a person who knew what was going on at all.

But the problem was that he was likewise not a real hard-headed person, let alone the kind of person who was willing to die!

So this was the result – he tried to be tough at first, only to be beaten up severely, and then after being tortured, he wanted to be soft but couldn't change his mind or couldn't pull his face out, only to be beaten up severely again.

Only when he could not take it anymore did he bow down and give in.

In the end, not only did he give in, but he also suffered everything in the process, and he also provoked Xiang Yongzhan's anger, so it can be said that even if he gave in, he would not be able to win!

This kind of person is the most stupid!

If you really have the determination to die, this is the best option when there is no hope of escape.

Maybe if you stay tough, you'll gain the respect of your enemies.

Either that, or you'll quickly give in, so that not only will you be able to suffer less, but most crucially, you won't have to look so odious, even if you give in to disgust!

What this guy did was, without a doubt, extremely stupid!

"Now he's confessed?" Ji Feng asked.

"I'd like him not to confess!" Xiang Yongzhan bared his teeth and sneered twice.

Ji Feng immediately stood up and said, "Let's go, listen to what he has to explain and find out what kind of divinity he really is!"

Xiang Yongzhan snorted, "What sacred, I think with his nature, at most, he is just a yakuza, if I had known that he had given in so quickly, I wouldn't even have done it myself, what a thing, dirtying my hands!"

Ji Feng shook his head and smiled, saying, "All right, let's get down to business!"

Under the leadership of Xiang Yongzhan, the two of them soon arrived at a room, which was extremely empty, a large room with just a few chairs, not even a table.

In the middle of the room, the guy with the broken leg was fixed on a chair. At this moment, he no longer had the same arrogance as before, only that his body was stained with blood and his hair was messy, with strands of it staining his forehead and face, and it was not clear whether it was blood or sweat.

Instead, he was sitting there in a posture that was almost completely limp in his chair, and his head was drooping.

When he heard the movement, he only slightly raised his eyelids, and when he saw that it was Ji Feng and Xiang Yongzhan entering, he didn't know where he got the strength from, his body tensed up violently and looked at Ji Feng and the two of them, his eyes full of vigilance, and panic.

Seeing this scene, Ji Feng couldn't help but shake his head, that good kung fu on this person's body, what a waste of time!

Even if this man was ten times more powerful, he wouldn't be able to become a patriarch.

Guts, temperament, determination, he had none of them.

If he didn't have a good kung fu, I'm afraid this person wouldn't even be a dog's ass. There are many people like him in society, just less of his kung fu, in fact there is no difference in essence.

Ji Feng suddenly felt a little bored, he did not even have the heart to sarcastic this guy two sentences, just casually pulled over a chair, to sit there, asked: "Now willing to confess?"

"Confess" the man returned breathlessly, and even his voice trembled a little when he spoke.

"Then tell us, who are you, where are you from, what is your relationship with the dynasty and so on but whatever you think is important, tell us!" Ji Feng said.

"My name is Suo San, I'm from Xijiang, I joined the organization two years ago" the man said.

"How did you learn your kung fu?" Ji Feng asked, "Did you learn it in the dynasty?"

"No!"

The man called Suo San said, "I am from the West River Green Cloth Sect, I learned my kung fu from my master since I was young."

Qing Yi Sect?

Ji Feng frowned slightly, it sounded as if this was another martial arts sect?

"How did you join the dynasty? What is your position in the dynasty, say it carefully!" Ji Feng said in a deep voice.

"It's"

Suo San said, "Qing Yi Clan is a small local sect, not many people, usually just running some small industries, but one day, Xuan **** colleagues came over to visit our master and invited us to join the organization"

It turned out that this Xuan **** person who came to visit was a close friend of the Qing Yi Sect's Sect Leader, and with his introduction and the promise of many benefits, so the entire Qing Yi Sect joined the dynasty.

As for whether the dynasty had promised anything else, Suo San did not know, because all matters were negotiated between the Sect Leader and the dynasty.

"I'm in charge of training their action team in the dynasty, the Sect Leader is the advisor, and the other brothers have their own duties." Suo San said.

"In other words, you are the instructor of the dynasty's action team, right?" Ji Feng asked.

"Yes!"

Suo San nodded his head.

Ji Feng asked again, "Then what kind of advisor is he, the Sect Leader you mentioned? What exactly does he do?"

Suo San said, "He's a technical advisor, like he helps the organization with scientific research."

"Research on what?" Ji Feng immediately asked.

"I'm not too sure about what exactly is being researched, from what the master said, it seems to be researching how human bodies can be made stronger using scientific methods, and also, how the internal force of martial artists can be combined with scientific research, so that not only will humans have scientifically strengthened bodies, but they will also have the internal force of martial arts masters, and their strength will be unbelievably strong"

Before Suo San had finished his words, Ji Feng abruptly frowned, and Xiang Yongzhan also changed his face violently and looked at Ji Feng.

The two looked at each other and both saw the gloomy look in each other's eyes.

"Suo San, is everything you said true?" Ji Feng asked in a deep voice.

"Yes." Suo San said.

"Then how far have they gone with their research?" Ji Feng immediately pursued the question.

"This I don't know."

Suo San said, "Although the organization is well treated, the rules are also very strict, matters that are not part of their own department are not accessible at all, and members are usually not allowed to privately divulge the situation of their own department, I only heard it from the master when I was chatting with him, I don't know the specifics either."

Ji Feng's brow was furrowed tightly, but his gaze was fixed on Suo San.

“What I said is true!” Suo San said in a panic.

“If it’s true, I will naturally go and check it out!” Ji Feng said in a deep voice, “Go on and say it.”

Only then did Suo San let out a faint sigh of relief and continued to introduce his situation in the dynasty.

In fact, he didn’t know much, usually he was just in charge of training the action team, and in his free time he just spent his time drinking, he didn’t have to worry about money anyway, and the organisation would often send him some beautiful women, and there were even all sorts of treats.

“Where is your training place?” Xiang Yongzhan asked from the side, “Also, where is your organisation’s headquarters?”

“On an island.”

Suo San said, “After we joined the organisation, we then all relocated to Kepong, and later took a boat to a small island. As for where the headquarters is, I don’t know, I’ve only seen the king come to visit us and I know he’s the general head of the organisation in China

“What location is that island located?” Xiang Yongzhan asked immediately.

“I don’t know.” Suo San said, “We were all inside the cabin when we were on the boat and couldn’t see outside, but I think the island might be quite far from Kepong because we took more than ten hours to get there.”

“You don’t know this and you don’t know that, so what do you know? Can you say something you know?” Xiang Yongzhan said in an unkind tone.

Suo San hurriedly said, “I’m telling the truth

“How did you and Qiao Rong get in touch?” Ji Feng suddenly asked.

“Through telephone contact.” Suo San said, “I still remember that phone number

“Very good!”

Ji Feng nodded and asked again, “Then when was the last time you contacted Qiao Rong?”

Suo San thought about it and said, “It was an hour before the operation, and since then, I’ve been injured and sent signals to the organization, and I haven’t been in contact with Qiao Rong

“So, who told you to attack and kill me?” Ji Feng asked again.

“It was the king!”

Suo San said, “I received an order from the king to bring an action team to China, to follow Qiao Rong’s orders and attack

Ji Feng nodded thoughtfully and asked some more questions, and then he turned his head and said, “Old Xiang, what I need to ask is almost done, you do it next.”

Xiang Yongzhan looked at Suo San and smiled heatedly, "Suo San, you should listen carefully to my questions, if you answer dishonestly, or if you don't tell the truth hehehe!"

Suo San panicked, "I'm telling the truth, a thousand times the truth ah"

"Well then, I'll give you the benefit of the doubt!" Xiang Yongzhan hmmm, "Let me ask you"

Campus Master Chapter 2178

When Ji Feng and Xiang Yongzhan came out of the room, both of them had a very gloomy look on their faces.

"Things are a bit troublesome!" Xiang Yongzhan said in a deep voice.

"Well!"

Ji Feng nodded his head.

"The dynasty's hand reaching into China has obviously not been cut off, this China is simply like their family's back garden!" Xiang Yongzhan said with a sullen face and an unkind tone.

The news he had received from Suo San had annoyed and surprised Xiang Yongzhan.

It was surprising that it would be so easy for the dynasty to send people to China, as long as they wanted to, without even alerting anyone!

You know, this is sending people from Kepong to China, and there is a vast ocean in between!

Even if they were smuggling, it wouldn't be that easy!

Even if it was smuggling, it couldn't be that simple and easy! Even if it was smuggling, one would have to think about how to escape customs and how to evade taxes, but the dynasty, just because Qiao Rong wanted to lay a hand on Ji Feng, turned out that the king only needed to give a command and these people could come to China unnoticed, without outsiders knowing anything!

The problems exposed in this were not a single star and a half!

One important thing to know is that he, Xiang Yongzhan, and the Special Operations Brigade, as well as some departments of the military, are responsible for monitoring the dynasty and cleaning up its forces in China!

But now, they knew nothing about the dynasty's operations overseas, but they couldn't even detect that they had arrived in China.

There are so many questions that need to be answered!

Gritting his teeth, Xiang Yongzhan said in a deep voice, "Ji Feng, this person is still going to stay with me, I have to get to the bottom of everything!"

Ji Feng nodded, he knew that some of what Suo San had said had irritated Xiang Yongzhan quite a bit.

"Actually, you don't have to be in such a hurry." Ji Feng deliberated, "There's a vast ocean between our China and Kepong, and they obviously didn't swim here. Just think about it, even smuggling has to be

done carefully, let alone smuggling a few people? Besides, we don't even know whether they were smuggled over or not, it's still too early to draw any conclusions!"

In fact, there are too many possibilities in between.

For example, they could be hiding in the containers of a cargo ship and smuggled in while transporting goods, or they could be posing as a company or as staff from the Kepong side, and come to China openly and honestly.

If they were more concealed, with the strength and means of the dynasty, it would not be impossible to use a submarine to smuggle them to the shore!

It can be said that Ji Feng alone can think of several ways to send people over, not to mention the well-organised and powerful Dynasty.

They naturally had more ways!

Although Xiang Yongzhan was keeping an eye on Dynasty, he was not a god after all, and could not check every single ship.

So Ji Feng, on the contrary, did not take the arrival of Suo San and the others seriously, as long as he checked the situation a little, it would be clear, there was nothing to worry about.

Xiang Yongzhan hummed, "What you say is simple, now they can appear in China so silently and lay their hands on you, so in the future, if a certain leader is called their target, then will they also appear so suddenly? How could it end then?"

Ji Feng nodded and said, "That's true."

No wonder Xiang Yongzhan reacted so strongly, it turned out that he was looking at the issue from this perspective.

In fact, thinking about it, if any emergency really happened in the future, when the two sides crossed paths, they might be caught off guard.

Strictly speaking, this is something that should be taken seriously.

However, what Ji Feng attached more importance to than this matter was some other information that came out of Suo San's words – the work that the people from the Green Cloth Sect were doing in the dynasty!

According to what Suo San said, he and a few other brothers and sisters, their main job in the dynasty was to train the action team, which was actually, to put it bluntly, the instructor of some force organisations in the dynasty.

After all, with Suo San's strength, he was more than enough to be an instructor, and he was even a bit over-used.

If Suo San was also proficient in some military stuff, then he would be perfectly qualified even as a special forces instructor, so this did not attract Ji Feng's attention too much.

What Ji Feng was really paying attention to was the work of the Green Cloth Sect's Sect Leader.

According to what Suo San said, the job that the Green Cloth Sect's Sect Leader was responsible for among the dynasty was that of a technical advisor, one who helped the dynasty with scientific research.

And what was most startling to Ji Feng was that the so-called technical advisor that this Qing Yi Sect's Sect Master served as was actually assisting the dynasty, researching the fusion between a martial artist's internal power and a scientifically enhanced human body

What not only has a scientifically enhanced body, but also has the internal strength of a martial artist, and the strength will be incomparably strong

Nice words!

In reality, that so-called scientifically enhanced body is actually the same kind of method used by the dynasty to transform the human body, transforming the person into a human being and ending up as a monster!

However, the most amazing information in this was the fusion between and the internal force of a martial arts master!

At a glance, Ji Feng could see that this so-called research was actually looking into how to fuse the transformed man with the martial artist's internal force!

Let the transformer possess internal force!

Ji Feng dared to assert that this must be the case!

This made him extremely stunned, one could even say he was inexplicably shocked!

The fact that the dynasty was actually conducting research in this area immediately aroused Ji Feng's high regard, even more so than any news he had heard!

Because this news was just too important to him!

In fact, not just to him, but even to the whole of China, or to the enemies of any dynasty, it was vital information!

"What are you thinking about?"

Seeing Ji Feng's gloomy face, his brow furrowed and full of gloom, Xiang Yongzhan couldn't help but ask.

Ji Feng sighed lightly and said, "I'm worried that no one will be able to restrain the dynasty anymore, especially those reformers of the dynasty!"

Xiang Yongzhan was stunned, "What do you mean?"

Ji Feng said, "Didn't you hear what Suo San said just now, their headmaster is the technical advisor of Dynasty"

He told his analysis, and Xiang Yongzhan couldn't help but nod, saying, "That's right, if Suo San isn't lying, eight out of ten is the case!"

Speaking here, he couldn't help but shake his head and lament, "This is really a crazy organization, their level of technology is so advanced, but they only use it to research some items that make people's heads spin, this is really"

“It’s really a big trouble!” Ji Feng picked up the conversation.

“Yes!” Xiang Yongzhan nodded and said, “Those transformers are already powerful enough, each one of them is like a martial arts master, once they also possess internal power, doesn’t that mean that they all become superb experts? It would be unimaginable to imagine the strength of that single combat ability!”

Ji Feng shook his head and said, “Although this is true, it is not the point I am making!”

Xiang Yongzhan immediately asked, “Then what’s the point?”

Ji Feng asked in a deep voice, “Let me ask you, what do reformers fear the most?”

Xiang Yongzhan said, “It’s not simple, of course the transformers are most afraid of bombs, they all have biological bombs inside their bodies, if that thing explodes”

“Transformed people are most afraid of biological currents!” Ji Feng said heavily, “In other words, what they are most afraid of is the internal force of martial artists!”

“..... what?” Xiang Yongzhan didn’t react for a moment.

“I don’t know how many times I’ve fought with reformers, I’ve figured out an experience, whether they are low or high level reformers, what they are most afraid of is bio-current!” Ji Feng said, “It’s like a zombie being afraid of sunlight, as soon as they come into contact with bio-current, they will suffer terribly!”

“Although the bio-current I cultivate is more or less different from the internal energy of other martial artists, it should still be the same in essence!” Ji Feng said, “But what about now, the dynasty is working on how to make the transformers and internal force combine together”

“Think about it, if they ever succeed, what will happen?” Ji Feng asked.

“It won’t be possible.”

Xiang Yongzhan’s face also became a bit unsightly, as soon as Ji Feng said that, he immediately understood the seriousness of the matter, “If the dynasty really succeeds, that means that in the future, apart from the biological bomb inside them, there will be nothing that can restrain them anymore?”

“What do you think?”

Ji Feng spread his hands and said, “Unless a shot hits the vitals, otherwise, the transformers are not afraid of bullets at all, and although bombs are useful, they may not be able to kill them unless they blow right up. Besides, if the reformers are just a few people in a group and move silently”

Xiang Yongzhan couldn’t help but stammer, “This is simply a group of undead little strong men!”

“On the contrary, their combat power is also extremely strong, even ordinary soldiers are no match for them!” Ji Feng couldn’t help but shake his head and said, “Now do you understand why I said there’s a lot of trouble?”

“A lot of trouble!” Xiang Yongzhan slowly nodded his head with a grave expression.

After a while, Xiang Yongzhan asked, "So is there any good solution?"

Ji Feng shook his head and sighed lightly, "For a while, I can't think of any solution, now it depends on how far the dynasty has actually reached in their research, if they have succeeded, then it's too late to think of any solution now, we can only consider how to eliminate those transformers!"

"And what if their research has failed?" Xiang Yongzhan asked.

"We can't pin our hopes on the enemy making a mistake, that would be too stupid!" Ji Feng shook his head, "If they fail that's naturally better, but in case, just in case they succeed, that could be a disaster for our warriors!"

"..... grass!"

Xiang Yongzhan was instantly unnerved, but now there were quite a few warriors who had been involved in the operation against the dynasty!

Campus Master Chapter 2179

"So what should we do now?" Xiang Yongzhan asked in a deep voice, his face not looking too good, if the situation Ji Feng said came true, it would mean that the consequences would be unthinkable.

"There's no way!"

Ji Feng shook his head and said, "Still the same, we are in a completely passive position, we can only wait!"

Xiang Yongzhan couldn't help but curse angrily, "This bunch of doggone things I think they're crazy, actually constantly using normal people for experiments and research, this is simply heartless!"

"That's why we have to eradicate them!" Ji Feng said.

"But the problem is"

Xiang Yongzhan abetted his teeth and shook his head, "If the dynasty's reformed people, really possess internal power as well, then we'll really have to lose a lot of money!"

Ji Feng nodded his head and said, "Yes"

"No, we have to find a way to break this move of theirs, otherwise we won't do anything in the future, just sit back and wait to be beaten!" Xiang Yongzhan couldn't sit still.

Fight against the dynasty, that's for sure constant. There is no country that can allow the existence of such an organisation. It wasn't just about power anymore, but more importantly, the organisation Dynasty was pervasive and some of the items they were working on were unacceptable to normal people.

The transformation of people alone is enough to make anyone stay away.

According to the information we have so far, the dynasty's research into human modification has reached a level that makes one's head spin.

The research on the human body is not outrageous to the scientific community. For example, the medical community has now made breakthroughs in the research of many diseases because scientists have been studying the human body more and more deeply and have obtained certain results, so they have found some methods to restrain the diseases.

However, it is unacceptable to turn a normal human being into a monster just for the sake of power, or for the sake of a powerful weapon.

And this, too, completely exposes the ambition of the dynasty!

If it was just normal scientific research, they could have done it openly and honestly, or at worst, they could have set up a company or done it under some other name, as many international scientists are doing now.

But that's clearly not what the dynasty is doing!

They are invading the economic sphere, controlling government officials, building and strengthening their own armed forces These kinds of actions are completely beyond the realm of scientific research!

In addition, the dynasty's relationship with Kepong is obviously very close, and they seem to have covetous intentions for all aspects of China, how can China tolerate it?

Under such circumstances, it was inevitable to crack down on the dynasty and eradicate its power in China!

And naturally, the one who can undertake this task is the military!

To rely on those military!

But the problem is that the dynasty is like a rat underground, they are hardly in the open, all of them are hiding, and they rarely concentrate together, who their leaders are, where their headquarters are, they are well hidden.

In this way, it is not so appropriate to send out troops on a large scale, after all, you don't even know where they are, so what can you do even if you send out more people?

Besides, even if the dynasty's people showed up, it would only be a small force, would it be worth using a division, or even an army, to deal with them?

That would be like shooting a mosquito with an anti-aircraft gun.

Moreover, it may not even be effective!

So, to deal with the dynasty effectively and quickly, we can only rely on small units.

There is no doubt that the special forces are the most suitable for this task, and Xiang Yongzhan, is mainly responsible for operations against the dynasty, as for the special forces in other military regions, they are responsible for some other small-scale operations.

Therefore, once he heard these possibilities analyzed by Ji Feng, Xiang Yongzhan was instantly anxious.

Because once Ji Feng's analysis comes true, then the first to be hit will definitely be his special operations brigade!

The first thing that would happen is that the other troops would also suffer major losses even if the special battle brigade was exhausted.

As long as the dynasty remains intact, they will be able to produce a constant stream of transformers because they are not afraid of running out of soldiers. As long as there are still people in the world, the dynasty will not worry because when they transform people, they will put a biological bomb in their bodies and they are not afraid of disobedience!

But the problem is, the dynasty can not treat the lives of those transformed people as normal, but others cannot do so.

The military, in particular, is a place where brotherhood and comradeship are important, and no one would stand by and watch their comrades die unless they had a deep hatred!

"You deliberate carefully, see if there is any other way to break this technology of the dynasty!" Xiang Yongzhan handed Ji Feng a cigarette and asked eagerly, "Didn't you previously figure out that transformers are afraid of internal strength as a weakness? Now you think about it again, you might even find something!"

Ji Feng shook his head and laughed bitterly, "It's not that easy to say!"

He had discovered the Transformer's weakness before, and that was because he had fought the Transformer more than once, and it was in the process of actual combat that he discovered this weakness of the Transformer.

But now, carefully counting he had not fought with the transformers for a long time, and did not know what characteristics those newly transformed monsters actually had, not to mention, it was still not clear whether the dynasty had succeeded or not, so where could Ji Feng think of a solution now?

"I think, it's useless for you to be anxious just here, it's better to confirm this news again first, then hurry up and report it to the top, so that other troops can also raise their alertness!" Ji Feng said.

"That's right!"

Xiang Yongzhan gritted his teeth and said in a hateful voice, "I'm going to have Suo San interrogated again, repeatedly, as long as he dares to answer one question differently from before, I'll cut him to pieces!"

Now that Suo San was still useful, Ji Feng couldn't use neurotoxin, so Xiang Yongzhan would have to use his method of interrogation.

Ji Feng reminded, "Now you can use the drug, Suo San is absolutely incapable of resisting now!"

Xiang Yongzhan deliberated for a moment before saying, "It's better to interrogate twice before using drugs, it's safer this way!"

The matter was so important that Xiang Yongzhan did not dare to be sloppy.

Ji Feng nodded and said, "In that case, then I will leave you alone."

Xiang Yongzhan knew that Ji Feng also had important things to do, and some of the information he got from Suo San was also particularly important to Ji Feng, so he didn't stay, and besides, there was no need for so much courtesy between the two of them.

"Then let's do this for now, if there's anything you need to help you just say something." Xiang Yongzhan said.

Ji Feng smiled and nodded his head.

Afterwards, Xiang Yongzhan sent Ji Feng out again, but after leaving the underground base, Ji Feng suddenly remembered something and asked, "Old Xiang, the phones in this military camp, they are all encrypted, right?"

Xiang Yongzhan nodded and said, "That's right, you want to contact the Yanjing side, right? If you want to ensure 100 percent secrecy, you'd better go back to Yanjing in person."

Ji Feng shook his head and said, "It's too late for me to go back now."

What Ji Feng was anxious about was Qiao Rong, who had burrowed into the tunnel network and whose whereabouts were still unknown until now!

Although Little Uncle had already arranged for people to conduct an investigation into the tunnel network in Yanjing as far as possible, no one could guarantee that the results they wished to see would appear, after all, that tunnel network had been dug decades ago, and after so many years of turmoil, as well as the major construction over the years, I'm afraid that by now not many people knew how many tunnels were actually underground in Yanjing.

And of course, they had no idea how many exits there were!

If he wanted to catch Qiao Rong by this stupid method, it would definitely be difficult.

That was why Ji Feng paid extra attention to some of the clues he got from Suo San. For example, the contact information between Suo San and Qiao Rong, as well as the way Suo San addressed Qiao Rong, and some other details that Ji Feng had asked in great detail during his interrogation of Suo San just now.

If he could get in touch with Qiao Rong in the way that Suo San did, then there was a good chance that he could follow the trail and catch Qiao Rong!

Xiang Yongzhan was involved in the interrogation, so he could naturally think of Ji Feng's intention, he said, "Older brother, I know what you are thinking, but I think that you may be a little late with this method"

Ji Feng nodded and said, "I know that too, but it's always better to try it"

Xiang Yongzhan's meaning Ji Feng understood, since he didn't even catch Qiao Rong the first time, it would be difficult to catch her again next, after all, Dynasty's secret channels are just too many, it's simply unnoticeable.

Moreover, Yanjing was so big, if one wanted to find a person among them, it would be like looking for a needle in a haystack.

Besides, Qiao Rong had already prepared for this before, so how could she not be on guard for this?

But there was no other good way now, since there were new clues, one had to try, otherwise it was not an option to always wait so dryly.

“Then let’s use the landline to call!” Xiang Yongzhan said, “The landlines in the military district are all private lines, I will use my authority to open a special encrypted private line for you, to ensure that no one will be able to eavesdrop!”

.....

Yanjing, an upscale neighborhood.

In one of the homes, the window was closed, and the large floor-to-ceiling window was only opened a tiny slit, and the dark curtains were also drawn. If it was in normal times, it might have attracted attention, but it happened to be a hot summer day, so instead of attracting suspicion, it now seemed normal.

After all, if the curtains were not drawn, the sun would come in, and even with the air conditioning on, it would not feel much cooler.

But if anyone could see what was going on in the room, they wouldn’t think it was normal.

On the sofa in the living room, there was a woman reclining, a woman with a slim figure, high cheekbones protruding from her face, making her eye sockets appear sunken, and a cold, fierce gaze in her eyes, giving her an eerie feeling

Campus Master Chapter 2180

On the sofa in the living room, there was a woman slumped over, a woman with a thin figure, high cheekbones protruding from her face, making her eye sockets appear sunken, and a cold, fierce gaze in her eyes, giving her an eerie feeling

The most important thing to note is that the woman lying on the sofa has her legs twisted in an abnormal way, as if they were fractured, but there is no pain on her face, which is a bit strange.

If Ji Feng was here, he would have recognised at once that this odd woman was no other than Qiao Rong, the one he was chasing!

Only, at this moment, Qiao Rong was not in any panic or feeling of being in a hurry, instead, her eyes were grim and fierce, looking like she wanted to eat someone instead.

Now, Qiao Rong was holding her mobile phone, talking to someone.

“..... Ji Feng that little brute is not dead, not only is he alive and well, but now he is on a rampage against the Qiao family, and that bunch of brutes from the Ji family are on a rampage to hunt me down

This is the result you made me wait for? This is what you call good news?!” Qiao Rong’s voice had a dry

sound, as if it was the sound of a bamboo pole knocking on a rainy day that had not been retrieved, and with her eerie tone of speech, it really made people's scalps tingle.

"Things have gone a bit awry!"

The voice on the other end of the phone wasn't too low, and it seemed clear in the silent house, "It was mainly because you were so eager to get revenge and were too anxious, and you didn't wait for the most appropriate time to order the action, which led to this result"

Qiao Rong suddenly interrupted the other party's words, "In that case, it's my fault instead?!"

"That's not what I mean, I'm not blaming you" The other party hadn't even finished speaking before Qiao Rong interrupted once again, "You're trying to blame me instead" I think the timing I chose is already the most appropriate, I can't wait even one more day, I want that little beast Ji Feng to die right now, immediately, right away!"

"....."

There was silence on the other end of the phone.

I told Suo San to use the most prudent method, to never use guns if he could use shells, and to never fight directly with Ji Feng if he could use guns."

"Suo San did deserve to die!" The person on the other end of the phone said.

"Humph!"

Qiao Rong coldly snorted, "Whether he is dead or alive has nothing to do with me, and I don't care, but, he has spoiled my good deed!"

The other person said, "Don't be anxious yet, now that things have come to this point, even if you are annoyed, it won't help, but you will also get angry and break your body."

"I was already a ruined person long ago!"

At the mention of this, Qiao Rong's eyes instantly stood up and her expression was incomparably grim, "Ever since I was injured by that little brute Ji Feng, has my body ever been better? And now I can only even hide here, I don't even dare to draw the curtains, what's the difference between this and dying?"

The other side was silent again.

It was a while before he said, "Then there is no good solution now, the last assassination operation has already made Ji Feng alert and wary, and it would be hard to do anything if the next operation was carried out in a short time. Moreover, the organization's power in China is now substantially weakened because of the successive actions of the Chinese military against the organization, and if we make any more rash moves at this time, it will definitely cause extremely serious consequences"

"Then you're just going to watch me die here?" Qiao Rong said angrily, "Don't you forget, when you came to our Qiao family and wanted to cooperate with us, you didn't have this attitude" Also, I even hitched my son into it, and now you actually have this attitude?"

“You didn’t get your son into this! He was seriously injured and only the organization’s high technology was able to save him, it can be said that the organization saved your son’s life, you should be grateful!” Being repeatedly contradicted by Qiao Rong, the other party’s tone became somewhat unkind.

Qiao Rong was furious: “Hasn’t my Qiao family given enough to the organisation? So much of the intelligence in China was provided by my Qiao family, if there was no Qiao family to pull the strings from the middle, then could your plan be carried out so smoothly?”

“Ms Qiao, be careful what you say!” The other party’s voice immediately lowered, “Don’t forget your identity, and even more so, your son is still in the organization, you don’t want him to be punished by the organization because of you, do you?!”

“You

Qiao Rong couldn’t help but choke, but no longer dared to speak indiscriminately, she could only grit her teeth and say, “Then what should I do now? It’s not a permanent solution for me to hide here, those bastards from the Ji family will find me sooner or later, and then I won’t even have a place to escape

“You don’t have to worry about that!”

The other party said, “Since I could save you from the suburbs, I will definitely be able to save you from Yanjing as well! However, now that our power in China has been significantly weakened, it is the time when we are short of manpower, so you also have to stay in China as long as possible, hide and spy in secret

“Then how long do I have to hide?” Qiao Rong asked hastily.

“It’s hard to say, but you don’t have to worry about your safety!” The other party said, “Well, we haven’t spoken for long, so to avoid being traced by the Chinese side, that’s it, I’ll contact you next time!”

After saying that, the other party hung up the phone.

“Hey! Your Majesty

Hearing the busy tone on the phone, Qiao Rong’s voice came to a screeching halt, she slammed the phone onto the sofa in a fit of anger and gritted her teeth, “Bastard! You’ve gone too far to tear down the bridge! No different from those bastards of the Ji family!”

Qiao Rong’s chest rose and fell violently in anger, and her eyes were filled with rage.

When she had first joined Dynasty, the other party had made all sorts of promises to her, all sorts of bright prospects, but after these few years, instead of seeing the bright prospects that the other party had painted, she had lost a lot of money.

Not to mention the fact that her Qiao family was suppressed by the Ji family with all its might and became more and more declining because of this matter, the key was that she and her son had fallen into it one after another, but until now, the promise that the one called the king had made that she could help her finish off Ji Feng and bring down the Ji family to avenge her had become a thing of the past!

Qiao Rong's heart couldn't help but rise up with a hint of regret, but it was soon replaced by hatred.

"Ji Feng"

Qiao Rong clenched her teeth and said in a cold voice, "Count yourself lucky this time, but I definitely won't just stop, I won't let you go, little beast, just wait, and that bitch mother of yours, I won't even let go"

"Ding"

Just then, the phone that Qiao Rong had casually thrown onto the sofa suddenly rang.

She jolted and tried to sit up but her legs couldn't muster the strength, so all of a sudden she lolled back onto the couch, looking woefully out of place.

"Damn it"

Qiao Rong gritted her teeth and cursed angrily, sitting up with her hands propped up, bringing her mobile phone into her hands, only to find that it was an unfamiliar number in Yanjing calling.

Without even thinking about it, Qiao Rong simply hung up the phone.

"Ding"

A moment later, however, the phone rang again, still the same number from earlier.

Qiao Rong became impatient, and just as she wanted to pick up the phone, she suddenly remembered something, so she simply put the phone down on the sofa, as if she hadn't heard the ringing going on and on.

Next, the phone rang three or four more times in a row, and finally there was another burst of text messages ringing, which went on for ten minutes before it died down.

"Little beast"

With a cold glint in her eyes, Qiao Rong picked up the phone and opened the new message she had just received, with an extremely wary look on her face, but when she saw the content of the text message, her expression could not help but be stunned, and then her face eased up quite a bit.

"Sunzi! You owe me so much money, you think it's over just because you hide and don't answer your phone? I know this is your number, just hang up on me, then I'll hang up on you next time! I give you three days to honestly send me the principal and interest, or else tell your family to be careful, you know my character and methods!"

"Hmph!"

Qiao Rong couldn't help but coldly snort in disdain after reading the text message.

This was obviously a debtor collecting a debt, the one who owed the debt was obviously hiding, and as a result, this debtor couldn't find anyone, and somehow called this number of hers, and as a result, she was taken as the one who owed the debt, and sent a threatening text message!

The actual fact is that you can find a lot of people who are not able to get a lot of money from the internet.

.....

South Guangdong, the provincial capital Yuezhou.

“Pop!”

Yi Xingchen casually threw the phone onto the table, shook his head and said to Ji Feng, “Boss, the other party is not answering.”

Ji Feng nodded and said, “As expected, if this phone is really still used by Qiao Rong, she will definitely not just pick up someone else’s phone.”

“San’er, isn’t this call we’re making too presumptuous?” Ji Shaolei asked with a frown, “Now that Qiao Rong is on the run, her alertness must be much higher than usual, at this time when a strange call is suddenly made to her phone, will this cause her to be alerted?”

Ji Feng nodded, “It definitely will, that’s why I had Old Yi call several times in a row and send such a message! But now it seems that it’s probably difficult to catch Qiao Rong with this method”

Speaking here, he picked up a pocket microphone on the table and said, “Wang Xin, this is the end of the day, just wait for the notification!”

“Yes, boss.”

“Hard work.”

Ji Feng put the microphone down and couldn’t help but secretly shake his head.

It seemed that Qiao Rong had already escaped from the tunnel and must be hiding somewhere in Yanjing now, as to where exactly she was hiding, Ji Feng had no idea.

And here’s where things get difficult!
