

Campus Master 2181

In fact, after learning from Uncle Xiao that Qiao Rong had left a girl covered in explosives as a hostage while she herself escaped from the tunnel, Ji Feng knew that it would not be easy to catch Qiao Rong in a short time.

According to the information he received, Qiao Rong had not yet recovered from her injuries, and she had even been living in a wheelchair, yet she was able to enter the tunnel with ease, and according to the girl who was helped with explosives as a hostage, apart from the doctor and nurse and a few relatives of the Qiao family, she had never seen anyone else appear in that mansion.

In the days before she was tied up, she hadn't seen anyone else. In that case, it was likely that Qiao Rong was the only person in the house, so how did she get into the tunnel?

Obviously, someone was secretly helping.

Otherwise, how did Qiao Rong, who had no ability to move on her own, get into the tunnel?

Either

it was that Qiao Rong's body was not injured at all, and she had been faking it all along!

But according to the investigation of Little Uncle, he learned from Qiao Rong's attending doctor and those few nurses that Qiao Rong's difficulty in moving around should be true.

From this, it was certain that the reason why Qiao Rong was able to escape was that someone was secretly helping her.

Since someone was helping her, they obviously had a plan in place, and I am afraid that Qiao Rong had already arranged a way out for herself before she planned her attack.

Then, it would not be too easy to catch Qiao Rong in this situation!

It was not until Ji Feng got the contact information between him and Qiao Rong from Suo San, as well as the contact number, that Ji Feng's mind became quite active again.

Maybe, with the help of this number, he might be able to find out where Qiao Rong was.

Of course, getting this number was only a little more hopeful for Ji Feng, after all, this number was the one used by Suo San when she contacted Qiao Rong before, whether she would change it now, who knows, maybe this number was discarded by Qiao Rong after the operation started, this is not impossible.

Therefore, after calling and discussing with Little Uncle, Ji Feng decided not to let Little Uncle act first, because their target was too big and there might be people watching their every move all the time. But if Ji Feng sent someone to investigate, the target would be much smaller.

So Ji Feng decided to do his own secret investigation!

And the most suitable person to do this was, of course, none other than Wang Xin.

For tracking the enemy through communication devices, among the people Ji Feng knew, Wang Xin was naturally the most suitable.

So, after everything was ready, Ji Feng prepared to use the old method to track Qiao Rong's whereabouts.

What surprised him the most was that the phone number provided by Suo San actually got through!

Although he was prepared for this, Ji Feng was still somewhat disappointed. This woman, Qiao Rong, even if she could not be described as heartless, was at least a ruthless and crazy woman.

This kind of person lurking in the shadows was definitely a threat!

If it was just Qiao Rong alone, she would not pose a threat, but the problem was that she could contact the dynasty at any time, and the dynasty could even send someone over so easily!

That was a problem!

"San'er, what are you going to do next?" Seeing Ji Feng frowning, Ji Shaolei couldn't help but ask.

"Let's deal with the matter in Southern Guangdong first." Ji Feng shook his head and said, "Little Uncle is keeping an eye on the Yanjing side, as long as there are clues about Qiao Rong, it will be difficult for her to escape again, but until then, we can't just wait like this, this is not the way to go either"

"What about this phone call?" Ji Shaolei asked.

"Keep calling!"

Ji Feng deliberated for a moment and said, "Old Yi, you and Wang Xin keep in close contact, you have to call every once in a while, but never with regularity, and each time you can't just call and forget it, you have to do what you just did, call more times, if the other party answers, Wang Xin's side will immediately synchronize the trace, but if the other party doesn't answer, you send some hard messages over!"

"Don't worry, I know what to do, I'm sure it won't alert the other party!" Yi Xing Chen nodded his head and said.

Being from a mercenary background, he knew more and had more mixed knowledge in these aspects than even Lu Gang and the others, because the regular army was backed by the state, they just had to be responsible for fighting, like these jobs, naturally there were more professional people to do it.

But when they were mercenaries, there was no one to help Yi Xingchen and the others like this, whether it was baiting the enemy or tracking, they needed to do it all themselves, so for this kind of thing, Yi Xingchen was naturally the most skilled.

Ji Feng nodded, Yi Xingchen was steady and resourceful, and was definitely reliable.

"Right, later on, you communicate with my second brother!" Ji Feng suddenly remembered something and said, "Second brother, you have lived in Yanjing for a longer time, and you are the only one here who is most familiar with the situation in Yanjing, since we used Yanjing's number to call, we have to be thorough"

Ji Shaolei shook his head and said, "Although Yanjing accent is not difficult to learn, but it is not something that can be learned in a day or two, Qiao Rong is a genuine Yanjing person, if the accent is rusty, she will be able to hear it right away"

"That's not what I'm talking about!"

Ji Feng shook his head and said, "Specialized caller, I will borrow a professional from my young uncle, what I mean is that you are familiar with Yanjing, you have been in contact with all three religions and nine streams, you know all aspects of Yanjing, so you have to teach them all that you know, such as how to pretend to be a scoundrel, or how to pretend to be a debt collector or something like that."

Ji Shaolei was suddenly enlightened and laughed, "You're talking about this, this is good, to say that I may not know much else, but when it comes to knowing Yanjing, then I can still do it!"

Ji Feng then nodded, other than that, he basically had nothing left to arrange, unless there were any new clues, otherwise, I'm afraid it would be very, very difficult to catch Qiao Rong with just the clues he had now.

Therefore, after Ji Feng had made these arrangements, he decided to leave the matter alone for the time being, he could not always put his energy into it, he came to South Guangdong to stop the cooperation between the Brilliant Group and the Boundary Peng people, the attack and killing was just one of the episodes, now Qiao Rong was already like a dog in distress and could only flee, it was no longer worth Ji Feng wasting so much energy.

Moreover, before Qiao Rong is caught, Little Uncle will definitely keep an eye on this matter, and Yi Xingchen's side will definitely not relax either.

What's more, this time the involved incident involved the dynasty, the transformation people infiltrated into China simply like no man's land, Xiang Yongzhan felt that his face was shameless, but he hated it so much that he didn't even need Ji Feng's hand, just Xiang Yongzhan would definitely fight hard against the dynasty!

Therefore, Ji Feng then picked up the phone and prepared to call He Hongwei. After being delayed for so many days because he had met an attack and killed himself, He Hongwei's side must be under a lot of pressure, and now he didn't know how far the negotiations between the Brilliant Group and the Boundary Pontiffs had gone

"Ding"

However, Ji Feng was just about to dial He Hongwei's number when his mobile phone suddenly rang, and it was Xiang Yongzhan calling.

Ji Feng raised an eyebrow and picked up the phone, "Old Xiang, why are you calling now? Why, is it time to go back to Jiangzhou?"

"Yes, I'm going back, but not to Jiangzhou, but to Yanjing, besides, you're coming with me!" Xiang Yongzhan said.

"What do you mean?" Ji Feng was stunned.

"The top wants to see you!" Xiang Yongzhan said succinctly and clearly.

Ji Feng was stunned again, "The above wants to see me? Which above is?"

Xiang Yongzhan's words were somewhat out of Ji Feng's expectation.

Xiang Yongzhan said, "It's a chief who wants to see you, I reported all your speculations and analysis truthfully, the top attaches great importance to it, but because there are some things I can't convey clearly, so they want to ask you in person."

"So that's how it is!"

Ji Feng then dawned on him, indeed, there were some things that were indeed not clearly relayed to Yongzheng, for example, how the transformers were afraid of bio-currents, to what extent they could be afraid, and some of the details of it, etc., all these things were unknown to Yongzheng, and he was the only one who knew.

"When will we leave?" Ji Feng asked.

"The sooner the better, we'll go in a military plane, we can take off anytime!" Xiang Yongzhan said.

Ji Feng pondered for a moment and then asked, "How long will you stay in Yanjing?"

Xiang Yongzhan said, "Not sure, but it shouldn't be too long, and the chief should just get to know the situation."

Ji Feng deliberated slightly for a moment and nodded, "Alright then, I'll rush over there now, I can probably get there in an hour or so!"

Since it wouldn't take much time to go to Yanjing this time, it was better to set off as soon as possible, because there was no telling how troublesome it would be to fight the Wu family and the Brilliant Group next, and he might not be able to spare the time in the meantime.

Afterwards, Ji Feng closed the line, gave an explanation to Yi Xingchen and the others, and prepared to set off, but at this time, he received another call from his younger uncle.

"Got the notice, right?" Ji Zhenping asked.

"Mmm! I received it, I'm preparing to leave." Ji Feng said.

"Brat, you didn't call me to ask me about such a thing, what if this is someone trying to play foul and set a trap for you?" Ji Zhenping hummed, "It's not like this kind of thing hasn't happened before, and there was even unrest later because of it!"

Ji Feng immediately frowned, "What, someone really set a trap for me?"

Ji Zhenping said, "That's not true, but after coming over you come to me first and I'll accompany you."

Ji Feng couldn't help but feel a sense of awe in his heart, it seems that this matter may not be as simple as he thought, right?

However, before Ji Feng could ask a few more questions, Ji Zhenping closed the line, making Ji Feng shake his head and smile bitterly. It seemed that to know what had happened, we had to wait until we got to Yanjing to find out!

Campus Master Chapter 2182

When Ji Feng and Xiang Yongzhan arrived in Yanjing, it was already afternoon. After leaving the Yanjing military airport, Ji Feng did not go with Xiang Yongzhan to see the chief he was talking about, but went straight back home.

The fact is that Ji Feng is free to do what he wants to do, and it is only natural that he should go home after coming to Yanjing.

Only, for Ji Feng this kind of AWOL behavior, Xiang Yongzhan also just shake his head bitterly smiled, no way, who let Ji Feng is not a soldier, the chief summoned, for the military that is naturally a big deal, but for Ji Feng may not be so.

“This kid” Xiang Yongzhan shook his head.

After returning home, to Ji Feng’s surprise, his mother was not at home, and only after contacting him did he learn that his mother had actually gone to a charity organization!

After contacting him, he found out that his mother had gone to a charity organization.

Because he had received Ji Feng’s call in advance, Ji Zhenping had been waiting for him at home.

“You kid, you came quite fast!” After seeing Ji Feng, Ji Zhenping laughed: “You didn’t even ask what was going on when you encountered something, so you came over so actively, isn’t that a bit ill-considered?”

“What, there’s a problem?” Ji Feng immediately heard the subtext of his younger uncle and asked directly.

There were some things that might not be too good to say over the phone, but now in front of him, Ji Feng naturally asked directly if he had any questions.

Ji Zhenping said, “Let’s go, get in the car and talk.”

After the two of them went downstairs and got into the car, Ji Feng asked, “Little Uncle, what is going on, can you tell us now?”

Ji Zhenping said, “It’s not really a big problem, it’s just that the people who are going to summon you today are not just from the military, so when you see them later, before you answer any questions or say anything, you have to think about it first and go through your head!”

Ji Feng frowned at once, what did Little Uncle mean by this?

The one who summoned himself was not only the head of the military, so what other people were there?

“Little Uncle, why don’t you simply tell me plainly!” Ji Feng said, “You also know that I don’t know the situation up there that well, so if you don’t tell me anything, it would be a problem if I say something wrong!”

“It’s not that serious!”

Ji Zhenping said, "As long as you act properly, there's no problem, even if you say one or two wrong words occasionally, it's irrelevant and doesn't affect the big picture. As for who the person who wants to see you today is, I'm actually not too sure, except that someone from the Central Office contacted your father this morning, saying that someone wants to see you."

"The Central Office?"

Ji Feng was stunned, "The Central Office? Isn't that directly responsible to the Supreme Head?"

"That's right!" Ji Zhenping nodded his head.

"This" Ji Feng was then a bit stunned, he had also heard that the Central Office was directly responsible to the Supreme Head, and in many matters, when they stepped in, it was actually equivalent to what the Supreme Head meant.

What's more, under the name of the Central Office are some important departments, such as a certain intelligence department, and some departments in charge of national security, all of which are directly under the Central Office, and no other leader has the authority to interfere.

Now that someone from the Central Office has gotten through to his father and said that someone wants to summon himself, who could that be?

Suddenly, Ji Feng gave a slight pause and secretly said, "It couldn't be the highest head who wants to see himself, right?"

But soon Ji Feng denied his guess, this possibility is almost non-existent, even if the highest head wants to know something, he will go directly through his father, and not let his younger uncle accompany him specially.

Besides, after thinking carefully, Ji Feng did not feel that there was anything special about himself that could make the Supreme Chief summon himself, unless the existence of the intelligent brain had been discovered, but that was obviously impossible!

After thinking about it, Ji Feng didn't come up with a reason, so he asked, "Little Uncle, you always have to give me a heads up on what aspects I should pay attention to, or probably which leader might want to see me, or let me be more or less psychologically prepared!"

"There's no need for that!" Ji Zhenping waved his hand and said, "Your father explained that he didn't need to tell you too much, saying that you can handle the situation today and that talking too much would affect your judgment instead! Let's put it this way, don't feel any pressure, with us in front of you, some people won't dare to go too far, at most they will just ask a few questions to make things difficult for you."

Ji Feng nodded thoughtfully and relaxed a little, seeing how relaxed his little uncle looked, he knew that the problem today should not be too serious.

Only, this sudden need for someone from above to summon himself still made Ji Feng puzzled.

"In addition, there are people from the military who want to see you this time, if they ask you something about the dynasty, you must tell the truth, there is no need to hide anything, remember?" Ji Zhenping suddenly said.

“Hmm?”

Ji Feng was slightly stunned, then whirled and nodded his head, saying, “Remember.”

It seemed that there was indeed a military chief summoned to see him, and presumably to find out something about the dynasty, which was consistent with what Xiang Yongzhan had said on the phone.

Now the one to watch out for should be the leader who was not part of the military, that is, the person who said he wanted to see his father when the Central Office was on the phone with him!

Ji Feng would like to see who wants to see himself, how dare he ask the Central Office to come out and greet his father directly, someone so cavalier, I'm afraid he's not from the general department either, right?

Next, both of them did not talk about this topic again, although Ji Zhenping is Ji Feng's younger uncle, but in some issues, there are also principles to talk about, moreover, there are some things at the top level, and they cannot all be told to Ji Feng, because many situations are of confidential level, and some are even top secret level!

People like my father and his generation, as well as the even older generation above them, all had very strong principles.

Therefore, along the way, Ji Zhenping only asked about some of Ji Feng's situation in Southern Guangdong, and then there was talk about that Qiao Rong who had escaped from the tunnel.

“This person Qiao Rong is not enough to worry about, what I am interested in, on the other hand, is the person who assisted her in escaping and some of the information she has about the dynasty, therefore, even though Qiao Rong is already an invalid, she must be captured!” Ji Zhenping said in a deep voice.

“Well!”

Ji Feng thought deeply, this person Qiao Rong was indeed not enough to worry about, the key was the dynasty behind her, and the people who were secretly helping her, that was the most important thing.

For some of the information about the dynasty that Qiao Rong had in her hands, as well as the contact information and so on and so forth, Ji Feng was very interested.

“Don't worry, Qiao Rong is definitely still in Yanjing, I've already made the arrangements, unless she can be invisible, she will definitely be discovered!” Ji Zhenping said, “Not only do we want to catch Qiao Rong, the military and intelligence departments are also looking for her!”

“Also because she has a connection with the dynasty?” Ji Feng asked.

“That's right, now Dynasty has become a problem for many countries, and for our China, this organization is even a big problem in the heart, it must be eradicated as soon as possible!” Ji Zhenping said.

Ji Feng nodded slightly, there were so many departments looking for Qiao Rong, it was obviously not that easy for her to escape from Yanjing.

“By the way

Ji Feng suddenly asked, "Little Uncle, how come you haven't heard any information about Qiao Rong's family?"

Ji Zhenping, however, was stunned by what he heard, "What family members? Now the people of the Qiao family that should be adjusted have been adjusted Wait a minute, are you talking about Wang Wengao and Qiao Gakai?"

"That's right!"

Ji Feng nodded and said, "I've heard of Qiao Gakai before, it's said that he seems to have gone abroad for treatment and never returned, but I've never heard of Wang Wengao, Qiao Rong's husband."

Ji Feng naturally knew best why Qiao Gakai had gone abroad for treatment, as Qiao Gakai had been injured by him. Although he later heard that Qiao Gakai had reappeared in Rice and seemed to have no more injuries, he had never returned.

Of course, which country and exactly where Qiao Gakai was now, Ji Feng didn't know.

And what made Ji Feng feel even more puzzled was that the news of Qiao Rong's husband, Wang Wengao, was something he hadn't heard even half of in recent times.

"Wang Wengao" Ji Zhenping shook his head and said, "Wang Wengao went abroad and hasn't come back for a long time, if you didn't say anything, I would have forgotten about this person!"

"He also went abroad, what did he do?" Ji Feng was stunned, "Didn't you say before that Wang Wengao was working in a state-owned enterprise? Why did he go abroad again? Could it be that he couldn't stand Qiao Rong and the Qiao family's low opinion, so he left in a fit of anger?"

Ji Feng had heard that Wang Wengao, Qiao Rong's husband, was considered to be a superfluous member of the Qiao family, and his position in the Qiao family was naturally conceivable, so all along, Wang Wengao's life in the Qiao family was not very comfortable.

But in fact, it is said that Wang Wengao is also living a rather miserable life, once someone saw Wang Wengao drinking alone outside, full of sorrow and sadness, so it can be seen that his usual svelte appearance, as well as the smile on his face when he was at Qiao's house, should all be faked.

So at this moment, when he heard his younger uncle say that Wang Wengao had also gone abroad, Ji Feng's first reaction was that Wang Wengao should be living an extremely uncomfortable life in the Qiao family and was bullied so much that he couldn't stand it anymore, so that's why he went abroad.

"You ah he left the country actually because of you!" Ji Zhenping's answer, however, was greatly out of Ji Feng's expectation.

"Because of me?" Ji Feng couldn't help but be stunned, "Where does that come from? I haven't even met Wang Wengao, so how can I let him leave the country?"

As for Wang Wengao, Ji Feng only knew that there was such a person, but he had never met him, let alone dealt with him, so how could he leave the country because of himself?

He had never even met Wang Wengao before, and aside from the factors of Qiao Rong and Qiao Gakai, he and Wang Wengao had not even met each other, so how could Wang Wengao leave the country because of him?

Could it be that Wang Wengao saw that his wife and son had a very bad relationship with the Ji family and he followed them out to avoid the storm?

Ji Feng shook his head slightly, he didn't know Wang Wengao well and didn't know what kind of personality this person had, so this speculation was unfounded.

"This matter also starts with the conflict between you and Qiao Gakai." Ji Zhenping said, "When you and Qiao Gakai first clashed, Qiao Gakai was later injured, and several famous doctors failed to cure him, so the Qiao family later sent Qiao Gakai abroad for treatment, and that's when Wang Wengao left China."

"So that's how it is!" Ji Feng was stunned, but he quickly asked again, "No, wasn't Qiao Gakai healed by an expert from Xuan **** after he was injured at first?"

"That's right, it was indeed an expert from Xuan **** who cured him, but that was later, when he was first injured not long ago, the Qiao family still only used traditional treatments, and in the middle of this they also went abroad once, only to come back later." Ji Zhenping said.

"What about Wang Wengao?" Ji Feng asked, "Didn't he come back along with him?"

"Wang Wengao also came back at that time, but later left the country again, and went back and forth several times in the middle, until two years ago, when Wang Wengao officially applied for a transfer to a foreign branch, and has been working there until now." Ji Zhenping said, "During this period, he only came back once or twice, the rest of the time he stayed abroad all the time."

Only then did Ji Feng dawn on him and said, "So that's how it is!"

So there were these reasons in between, no wonder Little Uncle said that Wang Wengao left the country because of himself, although this statement was not accurate, if Qiao Gakai had not been injured by himself, Wang Wengao would not have taken him with him to go abroad for treatment.

I'm afraid that since that time, Wang Wengao had discovered that he could adapt to life abroad, or better than at home, so that was what gave him the idea to go and live abroad.

-In fact, in Ji Feng's opinion, if he were Wang Wengao, he would have been able to adapt to life abroad in the shortest possible time, not because he was better at adapting than others, but because no matter what, even if he didn't adapt to life abroad, it was still better than staying at Qiao's house, right?

It was not difficult to imagine how depressed Wang Wengao was when he had that woman Qiao Rong as his wife, and when he was a son-in-law and a member of the Qiao family.

Everyone in Yanjing knew that Wang Wengao had almost no status in the Qiao family. If it wasn't for Qiao Gakai's constant support for his father, I'm afraid that anyone in the Qiao family would dare to give Wang Wengao a look.

This is not a human life!

Why do you say that many people would rather live an ordinary life and live in poverty than to go to a big family and be a victim of the hardships?

This is the truth of the saying that a thousand dollars can't buy me happiness.

Of course, nowadays, the society is full of all kinds of gold worshipping ideas, especially some people who have no limits, in order to wrestle for popularity and fame, even openly declare that they would rather sit in a BMW and cry than sit behind a bicycle and laugh This, in Ji Feng's opinion, is just shaking his head and laughing.

At least, if Ji Feng were to choose, he would definitely be the same choice as Wang Wengao.

Just

Ji Feng was a little curious, since Wang Wengao couldn't stand Qiao Rong, and all the discrimination of the Qiao family, why did he become a door-to-door son-in-law in the first place?

Of course, this question only flashed through Ji Feng's mind, and although he was curious, he wouldn't gossip much. At the moment, he was concerned about another question: "Little Uncle, now that something has happened to the Qiao family, what is Wang Wengao's reaction?"

Ji Zhenping shook his head and said, "This this is unknown, if you don't mention it, I really haven't paid much attention to this Wang Wengao person recently!"

Ji Feng could not help but be slightly stunned, it seems that Wang Wengao was really low-key enough when he was in Yanjing, or to put it bluntly, he was afraid that he was also enough of a nuisance that, after what happened to the Qiao family, no one even paid any attention to his movements and reactions!

The answer to this question, Ji Feng couldn't help but shake his head, is this person so unbelievably nasty that people would subconsciously ignore this person, or is it that the Qiao family is so arrogant that it completely overshadows Wang Wengao?

The answer to this question is not quite clear to Ji Feng, but it is always good to pay attention to this person.

"Little Uncle, it's better to keep an eye on Wang Wengao and see what reaction he has or what movements he makes, now that Qiao Rong is still absconding, don't make any more messes in between!" Ji Feng reminded.

"Well!"

Ji Zhenping nodded and said, "Yes, we should pay attention to that! I was negligent before, I'll arrange for manpower when we get back Not to mention, although the Qiao family has never looked at Wang Wengao with a straight face, at least Wang Wengao is still good to his son, now that something has happened to Qiao Rong, if Qiao Gakai is going to come back to cause trouble, then I reckon Wang Wengao will definitely come back with him! "

"Yeah!"

Ji Feng nodded and said, "A person like Wang Wengao, I'm afraid that living this life would be for his son!"

Wang Wengao himself can be said to have no hope, now has reached middle age, and although it is said to be in the system, but in fact is in state-owned enterprises, if there is no strong relationship, want to transfer to the government units, but it is very difficult and difficult.

And even if Wang Wengao could transfer over, at his current age, it would be very difficult for him to do anything.

This is evident from the fact that Wang Wengao has taken Qiao Gakai abroad for treatment, and how much he loves him.

So, now that Qiao Rong is in trouble, with Qiao Gakai's hatred for himself, he will probably come back to cause trouble or even do something drastic, in which case, Wang Wengao will definitely follow him back.

The key problem was that Ji Feng didn't know anything about Wang Wengao as a person, which is why he had to pay a little attention.

As the two chatted, they soon arrived at a compound, only to see several signs hanging at the entrance, one of which made Ji Feng look at it a few more times.

General Staff!

They had actually come directly to the General Staff!

It seemed that the person who wanted to summon himself was indeed a high ranking member of the military!

"Ji Feng!"

After entering the courtyard and just getting out of the car, Ji Feng didn't have time to ask anything before he heard someone calling him, he turned his head to look, only to see Xiang Yongzhan standing on the steps at the entrance of the office building, waving at him.

"Go in, just think more when you talk, don't be burdened with anything else, and don't have any pressure." Ji Zhenping patted Ji Feng's shoulder, "Call me when you're done."

"Then where are you going?" Ji Feng asked.

"I still have a few comrades in this yard, I'll just go to their place and take a break." Ji Zhenping laughed.

"Hoo~!"

Ji Feng nodded and took two deep breaths before striding over and arriving at the steps, he asked, "You're here so early?"

Xiang Yongzhan smiled, "I arrived a long time ago and have been waiting for you here. Let's go, the chief is already waiting!"

When he arrived here, Ji Feng was in a completely relaxed mood, thinking that he could be completely relaxed in front of the old man, and now that he didn't know where the chief had come from, he naturally had even less to worry about.

Ji Feng followed Xiang Yongzhan calmly, went up to the office building and arrived outside an office, only to see Xiang Yongzhan knocking on the door and then pushing it in.

"Report! Special Combat Brigade Captain Xiang Yongzhan, come to report for duty!" Xiang Yongzhan's voice was very loud and clear, standing at attention and saluting.

"Good boy, still so mid-air!"

"Come on in!"

From inside came the cheerful laughter of several people, and one could tell that the owner of the voice was also a rather grand person.

Xiang Yongzhan winked at Ji Feng and the two of them walked into the office together.

As soon as they entered, Ji Feng could not help but be slightly startled, while his eyes narrowed subconsciously and his heart instantly became alert.

I saw four or five people sitting in this office, three of them were soldiers wearing uniforms, all of them were probably around 40 or 50 years old, probably slightly older than Little Uncle's age, but similar.

At the moment, these three soldiers all had faint smiles on their faces and did not appear to be very serious.

Apart from them, there were two other people in this office, but these two were not wearing military uniforms, just black trousers, leather shoes and white shirts, a standard professional workwear outfit.

They were probably in their thirties or forties, slightly younger than the three soldiers.

However, there was no smile on these two men's faces, or even just the opposite. As soon as Ji Feng entered, he saw a hint of hostility in the eyes of one of them, and moreover, that look seemed to be directed at himself!

This is exactly the reason why Ji Feng was alert, for the outside world's danger and hostility, Ji Feng's perception was extremely keen, even if the other party only had such a tiny hint of hostility and dissatisfaction, Ji Feng was able to clearly feel it.

However, at this moment, Ji Feng is completely unmoved, calmly walking forward, his gaze untraceably glancing over the bodies and faces of those two people, secretly wondering in his heart what these two people actually do, why would they have a hostile look after seeing themselves?

From the point of view of their attire, these two people should not be soldiers, because from the time he entered the compound, the vast majority of people Ji Feng had seen wore military uniforms, and these two people's attire did not look like soldiers at all.

Moreover, what caught Ji Feng's attention the most was that these two people, like the three soldiers, were also sitting down, and, surprisingly, there was no trace of restraint on their faces!

This made Ji Feng have to be alert.

One must know that those who could make Xiang Yongzhan call them chiefs were obviously not in low positions, but these two could actually sit on an equal footing with the chiefs Xiang Yongzhan was talking about, so obviously they were not in low positions either!

So what are they?

Campus Master Chapter 2184

Just as Ji Feng was examining these two people without moving, those two people were obviously also sizing him up, except that if Ji Feng was doing that, which is called not moving and not making any traces, then these two people were much more obvious when they were sizing Ji Feng up, they didn't even make any disguise at all, they were just looking Ji Feng up and down.

Ji Feng's brow furrowed and his heart was alert, but he remained motionless.

Fortunately, this process only lasted for a few seconds, after those three soldiers had exchanged pleasantries with Xiang Yongzhan, those two stood up and one of them said, "General Zhang, since the people have already arrived, then you guys should ask first, we'll go back first!"

The middle-aged soldier sitting in the middle nodded slightly and said with a smile, "No problem!"

"You are Ji Feng?!" At this time, the two men who were not wearing uniforms looked at Ji Feng and one of them asked.

Ji Feng put his hands in his pockets and glanced at him without speaking.

The man immediately frowned and sank his face, "What's your attitude?"

"You can't see my attitude?!" Ji Feng's face was cold, "What kind of person are you to me, and who are you to ask me with that kind of tone? Don't you know to declare yourself before asking someone?"

"You"

The other man was instantly furious.

"Hey hey"

At this time, the one known as General Zhang hurriedly stood up and said smilingly, "What's wrong with this, all so angry? You are Ji Feng, right, let me introduce you, these two are"

But before that General Zhang had finished his words, he saw one of the guys put his palm up and said, "General Zhang, don't bother you, he will know who we are Ji Feng, you first cooperate with General Zhang and his men's questioning here, when it's over, I'll come to you! "

After saying that, those two people directly pushed the door and walked out, only when they passed by Ji Feng, one of them had eyes like needles and gave Ji Feng a fierce glare.

Ji Feng's eyes then slightly narrowed for a moment, and then he returned to normal. Only, his heart was a little bit on the edge.

Just now he had only tried slightly, but as a result, those two people's hostility towards himself immediately became apparent, and it was obvious that they didn't even buy much from this General Zhang, which made Ji Feng even more puzzled, where exactly did these two people come from, and what exactly was their status to be so arrogant?

More importantly, since their status was so high, then why would they be hostile to themselves for no reason at all?

This left him a little puzzled.

But since he had come here, Ji Feng didn't think otherwise and just pulled out a chair and sat down with Xiang Yongzhan.

"Ji Feng, what's wrong with you, so angry?" Xiang Yongzhan asked in a low voice, those two people didn't even sell the head's face, of course he could see that something was wrong, but he didn't expect that Ji Feng wasn't too angry today either.

"Nothing, it's hot and easy to get angry!" Ji Feng smiled faintly.

Xiang Yongzhan: "....."

Since Ji Feng was unwilling to say, he didn't ask more questions.

At this time, that General Zhang said with a smile, "Ji Feng, what you did just now was a bit inappropriate, those two people will see them again later, or to suppress the fire well."

Ji Feng nodded and said, "Thank you for the reminder, I'll try my best."

General Zhang then gave him a surprised look, more or less strange, he originally thought that Ji Feng would ask him about the identity of those two people, but now Ji Feng didn't even mention a word about it at all.

Was he simply not putting those two people in his eyes, or did he think that with his status and background, there was no need to know at all?

"Alright, just now was just a small episode, let's get down to business!" General Zhang was not an inking person, since Ji Feng did not continue this topic, then naturally he would not talk much about it, there were some things that even he did not want to get involved in, "Today, I invited you two over, mainly to ask about the dynasty, so the next conversation, will be confidential!"

Ji Feng and Xiang Yongzhan nodded their heads at the same time, they already knew the purpose of this one before they came.

"At the same time, you two are also required to tell the truth, without any exaggeration, and try not to belittle each other, because the lives of many of our generals are at stake, as well as the dignity of the country!" General Zhang added.

"Chief, don't worry, we all know the nature of the matter!" Xiang Yongzhan said.

"Good then, let's start now Ji Feng, you once said that what the dynasty's reformers fear the most is the internal strength of martial artists, right?" General Zhang asked.

Ji Feng nodded his head and said, "That's right! Of course, it's not that the reformers aren't afraid of guns and bullets, what I'm referring to is what they are most afraid of when it comes to close combat with these reformers."

"Hm!"

General Zhang nodded and said, "Indeed, it is most dangerous to fight a Transformer in close quarters, they have thick skin and flesh, bullets hitting them will have little effect on them as long as they don't hit the vital points, and they are extremely strong and extremely resistant, it is indeed not easy to beat them in a close quarters fight."

"However, the internal strength of this martial artist you speak of"

General Zhang asked with deliberation, "This is very nebulous, of course, I am not saying that martial artist's internal strength does not exist, as far as I know there are quite a few martial artists, but, we have done experiments, even if we let martial artists push their internal strength to hit those reformers, it cannot cause the kind of effect you are talking about, how is that?"

"You have done experiments?" Ji Feng asked.

"Yes!"

General Zhang nodded, "We have also captured some transformed people in our hands, and there are also some martial artists who are in the service of the country, so it's not difficult to do this experiment. In the experiment, those martial artists might be able to defeat the transformers with their harsh attacks, but they are unable to achieve the kind of immediate effect that you are talking about!"

"Introducing to the captain, you once said that the transformers are afraid of internal power, just like zombies are afraid of sunlight" Frankly speaking, the conclusion reached through our experiments is far from achieving this effect you mentioned!" General Zhang said, "This is one of the reasons why we invited you here, I hope you can explain this claim of yours, is it exaggerated, or"

"Not exaggerated at all!" Ji Feng shook his head, "It's just that it should be that the method you used is not right."

"Oh?"

General Zhang and the other two soldiers both couldn't help but look at each other and asked at the same time, "What method?"

Ji Feng deliberated, "How to say it, I'm actually guessing, I think that the strength of the martial artist you hired to do the experiment should be too low!"

"Too low in strength?" General Zhang said, "Then according to your standard, what kind of martial artist is considered an expert"

"Ka!"

Before General Zhang could finish his words, he saw Ji Feng suddenly pick up a pen from the table, looked around, then at a flower pot visiting the side of the desk, with a flick of his wrist, the pen instantly flew across the room.

“Poof~!”

After an odd loud sound, everyone’s face changed at the same time.

They saw that the originally intact flowerpot had been split in half down the middle!

Looking at the fracture, the clay was so smooth that it looked like it was sharpened by a knife This was the result of a steel pen?

The eyes of the three soldiers, including General Zhang in, could not help but reveal a hint of shock, which was somewhat unbelievable!

If Ji Feng had flung his hand and put the pen through the flower pot, none of them would have been surprised, because as long as the strength was strong enough and the speed was fast enough, the pen could have completely pierced through the flower pot.

However, just now, Ji Feng had obviously thrown the pen out horizontally, but the result was like a knife, directly splitting the flower pot in half The pen was cylindrical, how could it split things?

“Godlike!” General Zhang exclaimed.

“..... master!” The other two soldiers couldn’t help but say.

“A martial artist’s strength is high enough, his internal force is thick enough, and then when fighting against a transformer, you can’t just think in the traditional way, you have to use only internal force to attack the transformer as much as possible, so you can achieve the effect I’m talking about!” Ji Feng said.

General Zhang and the other two soldiers looked at each other and nodded at the same time, then couldn’t help but smile bitterly again.

“Ji Feng, this hand of yours is indeed powerful, but” General Zhang shook his head and laughed bitterly, saying, “But our warriors, they don’t have internal force, and there aren’t many martial artists who are this powerful”

“Yes, those warriors are basically trained by ordinary people, they are certainly powerful in terms of physical strength, but they don’t have internal strength. Ji Feng, how do you think they should deal with the reformers again?” Another soldier asked.

“This is a good one!”

Ji Feng said, “This problem can be solved by Old Xiang!”

“Me?”

Xiang Yongzhan was stunned, and then reacted, “You mean, let the soldiers all practice that body-building exercise you taught them?”

Ji Feng shook his head and said, “Of course not, don’t you forget, in your hand is a secret book of martial arts, why not use it to teach the warriors?”

“Bullshit, I don’t have any secret martial arts book!” Xiang Yongzhan shook his head.

“Isn’t Suo San in your hands?” Ji Feng asked.

“You mean”

Xiang Yongzhan’s eyes suddenly lit up and said, “Ask for the kung fu he practiced from Suo San and teach it to the warriors?”

Ji Feng laughed, “Isn’t that good? Suo San is extremely strong, if the bomb hadn’t broken one of his legs, I’m afraid I would have been killed by him by now, the kung fu he practiced is naturally not bad, besides, if this good stuff is put in his hands, he will only do wrong, instead, it’s better to teach it to the warriors!”

“Good! This is a good idea!” Xiang Yongzhan nodded his head repeatedly, “You should have said so earlier!”

“..... You didn’t ask me either, I was so busy and dizzy that I didn’t think of that either.” Ji Feng shook his head and laughed.

“Captain Xiang, this method Ji Feng said is effective?” General Zhang couldn’t help but ask.

Xiang Yongzhan immediately nodded his head and said, “Absolutely effective!”

“Good!”

General Zhang was equally overjoyed.

Campus Master Chapter 2185

When Ji Feng showed such a hand, it instantly made the three Generals Zhang look at him in a very different light!

Originally, when Ji Feng said that the strength of the martial artist they had invited for the experiment was too low, several people were still a bit stunned and even felt a bit ludicrous because Ji Feng was obviously exaggerating.

They had to know that the experts they had invited to the experiment were all of the highest calibre even in the martial arts world, and they had seen those martial artists fight with their own eyes, and the strength of those people had really surprised them.

So now that Ji Feng said that, General Zhang and the others naturally thought that Ji Feng was just young and impetuous, so he didn’t have any accuracy when he spoke, and he was even a bit flamboyant, but obviously it couldn’t be accurate.

However, by using just a pen, Ji Feng made General Zhang and the others understand that, instead of exaggerating, Ji Feng was already giving them face.

If Ji Feng had used a razor blade or a dart to split the flower pot, it would not have been that unusual, but Ji Feng used a pen!

Moreover, the pen flew out horizontally!

What kind of strength would it take to achieve such an effect?

General Zhang and the others could barely imagine, this pen in Ji Feng's hands was just like a bullet, this was a bit beyond their imagination!

This also made them understand how strong Ji Feng was, and they knew what a real expert was like!

And because of this, the next problem was solved, and the few suggestions that Ji Feng made were obviously given high priority by General Zhang and the others.

"Captain Xiang, the secret martial arts book that Ji Feng said is going to be yours to request!" General Zhang said.

"Yes!"

Xiang Yongzhan immediately nodded his head and said, "Promise to complete the mission! But"

General Zhang asked, "What, are there any difficulties?"

"It's not really a difficulty, except that even if that Suo San handed over the secret martial arts manual he practiced, how can I tell if it's real or not?" Xiang Yongzhan was a little hesitant, "You also know that this martial arts secret manual is not something that can be practiced casually, if it is not practiced correctly, instead of achieving the purpose of improving strength, it will probably cause harm to the body"

General Zhang nodded at once and said, "Well! That's a problem."

This martial arts secrets indeed cannot be practiced indiscriminately, because no one knows, what conditions, what requirements, or what kind of environment must be practiced, etc., of the kung fu that Suo San practiced, these issues are not understood by outsiders except Suo San!

So when the time came, even if Suo San handed over the secret martial arts manual, they wouldn't dare to easily hand it over to the warrior to practice ah.

"Ji Feng, do you have any good ideas?" Xiang Yongzhan eventually looked at Ji Feng, since this idea was proposed by Ji Feng, then he should have a solution.

"This is actually very simple, you guys are in charge of the interrogation, if you are worried that Suo San won't tell the truth, you can inject him with drugs"

Ji Feng smiled faintly, "After he hands over the secret book, I can help you guys keep an eye on it, or, you guys can also get a more powerful expert to review it all over, this way, not only do you not have to worry if the secret book will be fake, but you can also understand all the conditions needed to practice martial arts and so on!"

The other two soldiers' eyes instantly lit up and they nodded at the same time, "Hm! That's a good idea."

General Zhang said, "However, Ji Feng, when the time comes, we still need to trouble you, we won't look for other people because you are still the most trustworthy!"

Ji Feng smiled, "No problem."

He secretly laughed in his heart, who said that all soldiers were big and crude, this General Zhang was obviously not, this kind words came out at the drop of a hat.

However, since he could help with this, Ji Feng was still happy to do so, not to mention that these soldiers were also improving their strength to deal with the dynasty and protect their country, even for the sake of Xiang Yongzhan, he had to help.

Moreover, although it has been a period of peace in recent years, there have actually been small-scale wars around China, only that both warring parties have kept it secret from the public, so the public is not aware of it, but this does not mean that these soldiers are just muddling through, on the contrary, they are making a great effort!

In fact, just looking at the performance of the military in recent years, it makes people feel good about the soldiers.

For example, whenever there is a major disaster in the country, it is always the soldiers who are on the front line, and disaster relief and rescue is actually an alternative war in which the same soldiers will die!

Seeing Ji Feng agree so readily, General Zhang could not help but nod and said, "Ji Feng, on behalf of our generals here, I would like to thank you."

Ji Feng smiled and waved his hand, saying, "General Zhang doesn't need to be polite, it's just a hand up."

General Zhang nodded his head and said, "Ji Lao has a queen!"

Frankly speaking, today's performance of Ji Feng really surprised General Zhang, not to mention Ji Feng's amazing strength, but just the calmness, atmosphere, and this kind of great general's poise that he showed without being frightened of his honor and disgrace, made people marvel.

And crucially, Ji Feng did not grow up in the Ji family since he was a child, but was born in the private sector, which is even rarer and more astonishing.

"Ji Feng, you've helped us so much, and there's nothing we can show, so it's a bit overwhelming!"

General Zhang stood up and extended his hand, "I can only say a thank you!"

"General Zhang is really too polite!" Ji Feng stood up and shook hands with General Zhang, smiling, "These are all things I should do, my uncle is also a soldier, so helping you guys is just like helping myself"

"Haha that's a good point!"

General Zhang laughed loudly and said, "Then our conversation will end here, knowing that your time is precious, we won't hold you up"

Speaking here, General Zhang suddenly lowered his voice, leaned forward slightly, leaned closer to Ji Feng, and whispered, "The two people you'll be talking to later are in charge of national security, try to be more cautious when talking to them, and don't get angry if you can!"

Ji Feng instantly raised his eyebrows, "State Security's?"

General Zhang didn't answer directly, he just gave Ji Feng a suggestive look, then nodded imperceptibly, and then he said loudly, "Alright, that's it, goodbye!"

Ji Feng nodded and said, "See you later."

By this moment, Ji Feng couldn't help but have a few good feelings towards this General Zhang, there was no doubt that this was a soldier with a straightforward personality who loved to hate, although not without some smoothness, he was still a magnificent soldier at heart.

Obviously, General Zhang had told himself the identities of those two people in advance, in order to remind himself to see if there was something he had done that was out of the ordinary, or if there was some secret that had alerted the State Security, so that he could also prepare in advance, organise his language and think about what to do next.

Even though it was just a wake-up call, it was a big favour.

You know, this time exactly who wants to see himself, even little uncle is not too clear, it can be seen that there is still a certain level of secrecy in this, General Zhang this favor, naturally is sold is not small.

Those two people are actually from the State Security?

The situation provided by General Zhang really made Ji Feng a bit surprised, how come State Security came to the door again?

The previous time in Southern Guangdong, there were indeed people from State Security who came to the hospital and found him, aggressively questioning whether he had anything to do with the disappearance of those officials or something like that, but the result was that Ji Feng gave a hard time.

But this matter later already needs no more explanation ah!

Because when Zheng Yuanshan presented the evidence of those people's crimes at the Standing Committee, plus Xiang Yongzhan joined hands with Zheng Yuanshan on behalf of the military, and had also tacitly agreed that he had arrested those officials, so that Ji Feng and Yi Xingchen and others were directly taken out.

It could be said that the whole thing no longer had anything to do with them.

Even though everyone knew what the cause of this matter was, and everyone knew that Zheng Yuanshan did this not only to solve the case, but also to help Ji Feng take revenge, but there was no evidence of Ji Feng's direct involvement from the beginning to the end, so no one could say anything.

Even if it was the State Security, without evidence, they couldn't say anything.

But this time, how did State Security come looking for itself again?

"Ji Feng!"

Ji Feng was pondering, when he saw Xiang Yongzhan chasing after him from behind, "How is it, is there anything you need to help?"

To be honest, once he heard that the person who wanted to see Ji Feng was actually from State Security, Xiang Yongzhan was also surprised, because he didn't know about this before this.

And what State Security was, Xiang Yongzhan was of course very clear about it, so he then realised the seriousness of the problem.

Ji Feng shook his head and said, "I don't know what's going on yet, let's hear what those two people say first."

Xiang Yongzhan nodded and said, "I won't be able to accompany you there next, it's out of order, try to be patient with anything, we can discuss it afterwards, don't worry, as long as I can help, I will try to help!"

"Thanks!"

Ji Feng nodded and was just about to say something when he suddenly saw that in the corridor in front of him, those two people in shirts and trousers were waiting there, he couldn't help but shake his head and smile, "Alright, I'll go over and see what kind of tricks they're going to play, so I won't talk to you anymore!"

Seeing Ji Feng striding over, and then looking at the expressionless and indifferent look of those two people, Xiang Yongzhan couldn't help but secretly grit his teeth and cursed, "What the hell"

For those who specialize in insider intelligence, no one will like them, especially those soldiers who often fight to the death with the enemy on the battlefield, but there is no way

Soon, Ji Feng walked up to the two men and casually asked, "What do you two want to talk to me about?"

Those two people stood up and pushed open the door of an office, and one of them said, "Go in and talk."

Ji Feng smiled and walked in calmly, he wanted to see what these two people were going to say!

Campus Master Chapter 2186

"You are Ji Feng?"

As soon as he sat down, one of them asked in a deep voice.

Ji Feng nodded calmly and said, "It's me."

"Please take out your ID card, we need to check your personal information!" Another person said.

"Heh!"

Ji Feng smiled faintly, "On what grounds?"

A man's face sank, "On what basis do you say! Ji Feng, we are now having an official conversation, I hope you can cooperate, or else"

"Or else what?" Ji Feng interrupted him nonchalantly, "If just any cats and dogs come and ask for my ID card, do I have to cooperate honestly?"

"Boom!"

The man instantly slapped the table and glared, "Ji Feng! You be honest!"

Ji Feng shook his head and smiled, then his face sank and he directly stood up, "Sorry, I don't have that much time to waste with you guys here, that's all"

After saying that, Ji Feng turned around and was about to leave.

"Stop right there!" The man immediately shouted angrily, "Looks like you are going to make up your mind not to cooperate?"

"Swish!"

Ji Feng snapped around and sneered, "I warn you better not talk to me in that tone! I don't even know who you are, so why should I cooperate with you? How old are you?"

"You" The man was furious.

"You what?"

Ji Feng sank his face, equally tit for tat, and said in a cold voice: "Who are you trying to scare with your eyes so wide? I'll walk out through this door now, I'd like to see what you can do to me!"

"Ji Feng!"

Another person said in a cold face and a deep voice: "I advise you to think carefully, now we are talking to you on behalf of the organization, if you are so uncooperative, then we will have no choice but to take coercive measures!"

"Ha!"

Ji Feng immediately laughed coldly, "You're talking to me on behalf of the organization? That's a joke! What does your organisation have to do with me? Taking coercive measures against me? Which unit are you from and what power do you have?"

Those two people looked at Ji Feng angrily, their faces incomparably gloomy.

However, Ji Feng was not buying it at all, but sneered, "Since you claim to represent the organization, then I would like to ask what unit can be so bullish as to come up and shout at me directly without even a greeting!"

"Chinese people have a most basic courtesy, when talking to people, they should at least announce themselves first, if they are in the system, treating the common people, then they should at least say the word 'please', the people's servants!"

Ji Feng's gaze swept past those two people's faces and gave a mocking smile, "But in you two, I don't see this kind of politeness at all, I really don't know which unit you are from and how your leaders taught you!"

After saying that, Ji Feng shook his head as if he was very sorry, turned around and walked away.

"Stop right there!"

A man's urgent shout came from behind: "We're from State Security!"

“State Security’s?”

Ji Feng slowly turned around again and mocked, “That’s impressive, I’ve heard before that people from State Security are very bullish, but now that I’ve seen it, it’s true, it really lives up to its name! Your manners, work style tsk tsk!”

Ji Feng was sarcastic and sarcastic, making those two people look blue in the face, but hardened, they couldn’t say a word.

Because Ji Feng said every word in their shortcomings, making them simply irrefutable.

Even everyone knows that there is a department in the State Security that is specifically responsible for domestic intelligence and national security work, so as long as people are brought in by them, who cares about work style and how can they be polite to those people!

However, these things cannot be put out in the open because there are explicit rules from above about the working style of government units and some rules for handling cases.

Therefore, even though they were annoyed, they could not refute Ji Feng.

These two were really furious.

They have been working in state security for quite a few years and have handled quite a few cases, among them, there are quite a few pricks, they are either very hard-headed, no matter how they are tried, they grit their teeth and do not say a word, or, they are arrogant as hell, they open their mouths and say who my so-and-so relative is, my father is whoever

They have seen even more arrogant ones.

However, they had never seen one like Ji Feng, who came up without mentioning anything and directly took their work style and manners into account, sarcastically describing them as worse than even a three-year-old child.

This is simply hateful!

But there was nothing they could do about it, because Ji Feng was right on every point.

“There’s nothing more to say, right?” Ji Feng asked, “Since that’s the case, then you guys should rest for now”

“..... Ji Feng!”

One of them gritted his teeth and said, “You please stay!”

“That’s right!”

Ji Feng showed a look of approval and nodded slightly before asking, “Oh? Is there something you guys want to see me about?”

“.....”

Those two were instantly held back again.

That look on Ji Feng's face was almost like an adult encouraging an ignorant little child to do the right thing and give an approving encouragement

The two men looked at Ji Feng with a gaze that almost spewed fire.

If they could, they would hate to arrest Ji Feng right now or just kick him out!

But there was no way, they couldn't make an arrest yet, not to mention that Ji Feng's identity was simply not something they could arrest at will, just the fact that this was the military's office, they couldn't make an arrest at will, otherwise, the military would be the first to stand up and speak out!

As for driving Ji Feng out I'm afraid Ji Feng can't wait for it, and their task can't be accomplished!

It's really suffocating

Helplessly, one of them gritted his teeth, took a few deep breaths, tried to calm himself down and said, "Ji Feng, we are from the State Security, now we represent the State Security, we formally want to talk to you"

"Wait a minute!"

However, before the man could finish his words, he was once again interrupted by Ji Feng: "Seeing your work style and personal qualities, I have my doubts about your identity, therefore, I request to check your work permits!"

"You"

Those two people were immediately held back again, and they looked at Ji Feng with a look that simply made them want to eat him.

But Ji Feng was looking a little wary and guarded: "What, you guys don't want to? Or, are you guys simply impersonating state staff, if you can't produce your work permits, then I'll have to call the police, you guys are really bold, you dare to impersonate the state in the General Staff's office building"

"Boom!"

One of them directly slapped his work card on the table, almost gritting his teeth, "This is my work card, go ahead and look!"

Ji Feng alertly picked up the work card, flipped it open and looked at it, then checked the photo against the man, "Cao Yong?"

"It's me!"

The man named Cao Yong said through clenched teeth.

Ji Feng nodded his head and said, "Well! Pass the inspection"

"Now that you've seen the work permit, let's start now"

"Wait, there's still his!" Ji Feng interrupted Cao Yong again and pointed to another person.

"....."

Cao Yong directly looked away, not looking at Ji Feng.

The feeling of being interrupted by Ji Feng three times in a row and holding back the rest of his words, this feeling of holding back and having nowhere to vent his frustration, simply made him go crazy, he could only try hard to keep himself from looking at Ji Feng in his rage, lest he couldn't control his anger and throw the pen in his hand directly at Ji Feng's hateful face!

The other man was similarly stifled to the point of frustration, because he had also been interrupted by Ji Feng before and had also tasted that stifling feeling, so he could especially understand how his colleague felt at this moment, and also felt even more disgust and hatred towards Ji Feng!

"Slap!"

Another person likewise slapped his work card on the table, and his words almost burst out from his teeth, "Look!"

Ji Feng, however, picked up the work card in a good manner, looked at it very carefully and nodded, "Well! Zhao Anxiang, right? There's no problem with the work permit!"

"..... Then we can start talking now, right?" Zhao Anxiang asked in a deep voice. Because he had been blocked by Ji Feng several times before, he no longer dared to come up and start the conversation this time, but asked Ji Feng's opinion.

"Well! It's fine!" Ji Feng nodded, "Hurry up, my time is precious and I can't afford to waste it!"

"..... your grandfather!"

Cao Yong and Zhao Anxiang both almost wanted to curse foul language, who the hell is wasting time? We were about to start talking a long time ago, you're the one who's been picking a fight, okay?

However, they didn't dare to answer, they had already experienced the power of Ji Feng, if they answered now, God knows what other problems Ji Feng would create.

Taking a deep breath, Zhao Anxiang directly pretended that he had not heard what Ji Feng had just said and asked, "Ji Feng, we have a few questions, and we hope you can answer them truthfully, because this will be related to the next investigation measures we will take against you, do you hear me clearly?"

A cold light flashed from Ji Feng's eyes, but his face was an indifferent look as he said, "Alright, alright, hurry up and get down to business, so inquisitive!"

"....."

The corners of Zhao Anxiang's eyes jumped wildly a few times before he gritted his teeth and asked, "Let me ask you, you once handed over a very advanced weapon to the military, right?"

A very advanced weapon?

Handed it over to the military?

Ji Feng's heart faintly froze, then he remembered what Zhao Anxiang was talking about, if he was correct, it should be the laser gun that he handed over to the military!

That was the one he had brought back from Rice, and since it was a first generation laser gun, it didn't do much for him, so he handed it over.

"I think so, don't really remember!" Ji Feng said.

"Yes, or no?!" Zhao Anxiang, however, pursued the question very seriously.

"There is such a thing!" Ji Feng nodded his head.

"Then, when did you get that advanced weapon? Where did you get it from? Please tell me about it in detail!" Zhao Anxiang said in a deep voice.

In Ji Feng's heart, he instantly became alert.

Campus Master Chapter 2187

"So, when did you get that advanced weapon? Where did you get it from? Please tell us in detail!" Zhao Anxiang said in a deep voice.

In Ji Feng's heart, he instantly became alert.

Regarding the origin of that laser gun, Ji Feng certainly knew it better than anyone else, even to the extent that he knew exactly what level of product that laser gun was and what flaws it had.

If it was said that on anything else Ji Feng might still have gone overboard, but regarding this laser gun, there was no problem at all.

This gun was obtained by him from Rice, and the source should be Boundary Peng, he just found this laser gun and brought it back from Rice.

There was no problem at all in between.

If I had to say that there was something going on, it would be that when Ji Feng was in Rice, he had gone on a killing spree against some guys in the underworld, and even ended up alerting the agents of Rice.

If this was also a mistake, then Ji Feng would not deny it.

But apart from that, Ji Feng really couldn't think of what was wrong with that laser gun that would have attracted the State Security people to come over to him personally, and it looked like they were still raging!

Ji Feng could say with certainty that there was nothing wrong with that weapon!

However, now that the people from State Security suddenly asked about it, this immediately made Ji Feng's heart rise with alarm.

And more importantly, these two people from State Security were obviously not good people. Although he did not know what purpose they had in mind, he could at least tell from their attitude that they were definitely not the same as him.

Therefore, although Ji Feng had some doubts in his heart, he just said without moving his voice, "That weapon, I found it when I was in Rice before the Spring Festival."

He generally told the process of finding and getting that laser gun all over again, of course, there were some special places in between that he just passed over, for example, how to fight with the Yamaguchi group, how to fight some gangsters in Rice, etc.

Since Cao Yong and Zhao Anxiang were asking about the laser gun, Ji Feng would only talk about the weapon and nothing else, it was really impossible to ignore the past, so he just passed over it in a vague way.

“So, you realized the importance of that weapon after you found it?” Zhao Anxiang asked.

“Hmm?”

Ji Feng was a little puzzled as he spread his hands and said, “Frankly speaking, I don’t quite understand what you mean, you’d better be more detailed and clear!”

Zhao Anxiang suddenly said in a deep voice: “I am asking you, when you found that weapon, did you see its specialness at a glance and knew that it was a very advanced weapon?”

Ji Feng shook his head and said, “I don’t know what the significance of this question is

“You just have to answer yes, or no!” Zhao Anxiang directly interrupted Ji Feng’s words and said in an unkind tone.

Ji Feng immediately frowned slightly and shook his head, “If you keep taking this tone, then there’s nothing to talk about between us!”

“You

Zhao Anxiang gritted his teeth in anger, but he could only hold back his anger and said in a deep voice: “Ji Feng, please answer the question, I think you must understand that since we are here to find you, there must be something important, if you don’t cooperate this time, then there will be another time, and the next time

Ji Feng smiled and said, “Sorry, I don’t have that much time.”

“Then you answer the questions honestly!” Cao Yong, who hadn’t spoken for a long time, suddenly spoke up and said coldly.

“But this question of yours makes me not know how to answer!” Ji Feng’s tone also lowered.

“Put it this way

Perhaps seeing that Cao Yong and Ji Feng were about to reach an impasse again, Zhao Anxiang said, “Why are you thinking of handing over that weapon to the military? As far as I know, that weapon is just a slightly odd weapon from the looks of it

“Yeah, even you know that, that thing looks odd!” Ji Feng took over very naturally, “I thought the same thing, that thing looked like it should be a weapon and it was so odd, then I wondered if that thing could be studied to see what it really was, so I handed it over to the military

Speaking here, Ji Feng gave a slight beating, then said, "As you know, the military is still more pragmatic, they will do things on the ground, unlike some people who just think of ways to find opportunities to fix people all day long and do nothing else for farting around!"

"..... Humph!"

Cao Yong and Zhao Anxiang grunted in anger at the same time, Ji Feng's words were obviously talking about them, they were not stupid, how could they not hear it?

But thinking about Ji Feng's sharp words before, Cao Yong and the two of them could only pretend that they hadn't heard it.

"Ji Feng, you have to think clearly before you answer, according to what we know, this is not the case!"

Zhao Anxiang said, "That weapon uses high-frequency, high-energy laser technology, once activated, the energy released is extremely frightening, and more importantly, the level of technology contained in that weapon is almost the world's top, and even the majority of countries in the world have not yet mastered it!"

Ji Feng shrugged his shoulders and said, "So what?"

"How?"

Cao Yong snorted coldly and said, "The technology contained in that weapon is extremely high and involves many of the world's top technologies, and yet you didn't hesitate to hand it over to the military?"

Ji Feng's brows furrowed as he asked, "What are you trying to say?"

"According to our understanding, if you can master the technologies in that weapon, not to mention mastering all of them, even if you just master a few of them, or even just one, you may be at the forefront of a certain field, and if you use the technologies in that to start a company for personal profit, the profit you will get will be understandable without me saying so?" Zhao Anxiang asked.

Ji Feng smiled and shook his head, saying, "Sorry, I really don't quite understand it yet!"

"Humph!"

Zhao Anxiang said, "Whether you really don't understand or are pretending not to understand, you know clearly in your own heart! Ji Feng, now we have to ask you, when exactly did you get that weapon?!"

Ji Feng's eyes narrowed slightly and he shook his head, "I won't repeat the same words a second time!"

"If you don't want to say it, then we'll say it for you!"

Cao Yong coldly snorted and said, "According to our understanding, you come from an ordinary background, before you entered university, you were even just a humble person, however, when you entered university, you suddenly became overly capable and also possessed extremely advanced technology, for example, the Tengfei Group you established, one of the drugs produced is a special

effect current, according to our understanding, this According to our understanding, this kind of drug is the leading one in the world!"

Ji Feng just listened quietly and did not say anything, in fact, he could already vaguely anticipate what the other party was going to say.

"I think that even if a person is a genius, if he wants to achieve something, he still has to go through a process!" Cao Yong said, "Even Einstein grew up step by step, rather than suddenly achieving something that would amaze the whole world! As for you, it's even more impossible!"

Ji Feng shook his head, "It's not necessary for you to evaluate how I am!"

Cao Yong sneered, "Ji Feng, you are still so arrogant now? Let me ask you, where did you get the technologies that the Tengfei Group has?"

Ji Feng was just about to speak when Cao Yong sneered again, "Don't tell me that you and your team developed those, we have investigated, those technologies are at the leading level all over the world, and the only technology level that can be compared to the one represented by that weapon!"

"Heh"

Ji Feng shook his head and smiled, when the words came out here, he naturally already knew exactly what the other party wanted to say, it seemed that the other party was suspicious of the technology that the Tengfei Group possessed, and more importantly, Zhao Anxiang and Cao Yong, both of them, were obviously treating the Tengfei Group's technology as if they had gotten it from that laser gun!

"What exactly do you want to ask, just ask it directly, no need to waste any more time, I don't have the time to fool around with you!" Ji Feng said indifferently.

"Then, in that case, we want to know exactly when you got that weapon, I want to know the exact and true time and place!" Cao Yong said in a deep voice.

"I've already answered all these!" Ji Feng shook his head and stood up, "If you guys keep asking these questions over and over again, then I have nothing more to say, so I'm sorry!"

"Stop right there!"

Cao Yong suddenly shouted coldly and sulked, "Ji Feng! Don't think that just because you have a bit of background, you are so great that you can put no one in your sights. To tell you the truth, we have gotten accurate information that the weapon came from an illegal organization, Dynasty!"

Ji Feng smiled: "Is that so?"

"It seems that you still want to resist!" Seeing Ji Feng's reaction, Cao Yong sneered, "Ji Feng, I advise you to give a clear and honest account of what connection you have with the Dynasty, whether the technology of the Tengfei Group is provided by the Dynasty or not, and whether you are the spokesman of the Dynasty in China! Are you a spokesman for Dynasty in China? If you don't explain these questions clearly, even if you have the background, you won't be able to get away with it!

Swish!

As soon as Cao Yong's words fell, a cold light instantly flashed from Ji Feng's eyes.

Ji Feng's face, too, was completely chilled.

He stared coldly at Cao Yong and Zhao Anxiang and asked in a deep voice, "Repeat what you just said!"

"It's fine to repeat it ten times!" Cao Yong sneered, "If you want to hear it, you can always do so, but before that you had better answer these few questions clearly, it will do you good!"

"What if I don't answer?" Ji Feng asked in a cold voice.

"I advise you better not, otherwise, you won't want to know the consequences, because that's definitely not what you want to see, believe me!" Cao Yong sneered, while in his eyes, a smug look was evident.

At this moment, Ji Feng's expression was incomparably cold.

The other side, this was to take the bottom out of the kettle!

Campus Master Chapter 2188

The words of Zhao Anxiang and Cao Yong made Ji Feng's face chill, and his eyes flashed with a sharp aura.

There was no doubt that they were trying to pull the wool out of the kettle.

Or to be more precise, the people who sent Cao Yong and Zhao Anxiang were definitely up to no good and wanted to play the trick of pulling the wool out of the kettle!

Originally, when he heard that it was people from State Security who were looking for him, Ji Feng was still a bit puzzled, because he thought that apart from the things he had done in Southern Guangdong, there was nothing else that warranted people from State Security to come to him, and even if there was, it should be to thank him.

Because a lot of the intelligence about foreign countries and dynasties was discovered by him and told to the top and the military by him.

However, what Ji Feng did not expect was that, not to mention thanking him, Zhao Anxiang and Cao Yong had actually come to look for trouble, and moreover, they were so aggressive!

This immediately caused a strong anger to rise in Ji Feng's heart.

Because Zhao Anxiang and Cao Yong's behavior, and even the behavior of the entire State Security, reminded Ji Feng of a certain period in history when so many generals fought to the death against the enemy on the front line, and many of them even crawled out from the pile of the dead, only to have some kind of rectification from above.

So, some people who were not even the least bit knowledgeable about the military became special commissioners, messing around with the troops, and even some special commissioners did not even know anything about the military, but they interfered with the army and dictated what to do.

Especially at the height of the war, all the troops were short of officers and cadres, but those special agents took some officers down in various names, and the charges were so comical – unstable thinking, XX unqualified!

So much so, that many generals from the grassroots were furious!

Even many generals and marshals of great merit were killed alive, with nowhere to go to complain about their grievances!

And their charges – were all kinds of trumped up!

Now Ji Feng felt the same way, and his anger was even stronger, because the words of Zhao Anxiang and Cao Yong were just too excessive and vicious!

According to them, they were clearly saying that the reason why Ji Feng was able to start the Tengfei Group from scratch was not because he was so talented or because he had any kind of convenient conditions, and now they were directly putting that aside, but directly suspecting that there was some kind of ulterior link between Ji Feng and Dynasty!

The advanced technologies of the Tengfei Group, the special effects current, the Kang Yuan slimming powder, and even the 3D TV sets later launched by the Tengfei Group, etc., but all of these world-leading technologies should have originated from the Dynasty organization.

From this, it can be inferred that Ji Feng must have a very close relationship with Dynasty.

If not, why would Dynasty give these technologies to Ji Feng?

The leaders of the dynasty were not fools, so if they did not have a particularly good relationship or a special connection, how could they have told others about such advanced technology?

Obviously, Ji Feng had a close connection with Dynasty!

As for the other party's reason, it was even simpler – because Ji Feng was from an ordinary background, to put it bluntly, he was from a grassroots background, a mud-legged man, but suddenly he possessed all kinds of superior technology, even the military, which represented the top level of technology in China, was not purchasing the products of the Tengfei Group, wasn't this enough? Is this not enough to explain the problem?

And this kind of reason made Ji Feng's anger go straight to his head.

Just because the technology is advanced, it must be provided by Dynasty?

This was a travesty of the world!

Besides, does birth really mean everything, can't someone with a low birth achieve something? Or else did they use other means, or did they do some sort of collusion to achieve it?

–There is nothing more hateful than such people!

Ji Feng stared at Cao Yong and Zhao Anxiang, and even with his patience and temper, he couldn't help but take two deep breaths, just in case he couldn't help himself and slap these two bastards to death!

Seeing someone achieve something, he would find all sorts of reasons to doubt or even deny it, and then he would investigate them in a grand manner!

How similar this is to the famous people who were killed during the Rectification Campaign!

Those people had been through the gunfire, even fought with the devils and the enemy for an unknown number of times, and did not die on the battlefield, but ended up dying at the hands of their own people.

This was simply persecution!

Ji Feng's gaze instantly turned icy cold as he stared at Cao Yong and Zhao Anxiang, his murderous intent in his eyes revealed and undisguised.

At this moment, Ji Feng had really moved to kill Cao Yong and Zhao Anxiang, the two of them!

"..... What are you looking at!" Cao Yong coldly snorted.

"What do you mean what am I looking at? Has the power of State Security become so great that it even has to control what other people are looking at?" Ji Feng said in a cold voice.

"..... Humph!"

Cao Yong coldly snorted, but looked a little less natural as he looked away and shifted his gaze, not meeting Ji Feng's gaze. It was really because Ji Feng's gaze was so overpowering that it was like a substance, looking at their backs!

Zhao Anxiang was also afraid to meet Ji Feng's gaze, and even, from the time he finished speaking, he had been playing with the pen in his hand, and his gaze had never met with Ji Feng's.

Obviously, these two people were also weak in their hearts.

However, Ji Feng did not let their anger lessen half a bit because of this performance.

He stared coldly at these two men, his eyes filled with an undisguised murderous intent – the anger was only in Ji Feng's heart and did not show itself.

A truly strong person would not be easily angered, but would only cause others to fear and dread, or to bow down in worship!

Because they simply don't put their enemies in their eyes!

The same was true of Ji Feng!

The behaviour of Zhao Anxiang and Cao Yong, as well as thoroughly provoking Ji Feng's killing instinct, now if he could, he would absolutely take these two guys out straight away without holding back.

Many times it was this kind of villain that was most detestable!

"Who sent you here?!" Ji Feng stared at Zhao Anxiang and Cao Yong for a long time before he finally spoke, but his tone was extremely cold, pointing directly at the black hand behind the curtain as soon as he opened his mouth.

“..... what who sent us here?” Zhao Anxiang’s gaze flickered a bit, and his voice was a bit weak.

“Of course our superiors sent us here!” Cao Yong, however, appeared a little bottomed out, which, however, also made Ji Feng look at him extraordinarily two times, and his killing intent for this person grew a few points more.

This was a person who did not know how to repent, and did not even feel that it was wrong for him to casually rectify people at all.

If the person being screwed wasn’t himself or someone from the Ji family, I’m afraid they would have been arrested by now!

Ji Feng sneered, “It seems that your superiors aren’t treating you too well.”

Zhao Anxiang and Cao Yong smiled and both looked a little less than natural, Cao Yong even gritted his teeth and asked, “What do you mean by that?”

Ji Feng snorted coldly and said, “If your superiors had taken care of you enough, they wouldn’t have sent you on such a stupid mission!”

With that, Ji Feng stood up, shook his head and said, “Alright, that’s it!”

After saying that he was about to turn around and leave.

“Boom!”

Cao Yong slapped the table violently and said angrily, “Ji Feng! Have you had enough of being arrogant? Don’t forget who you’re talking to, I advise you to be more honest”

“Slap!”

A loud slap instantly brought Cao Yong’s words to a screeching halt.

The next moment, only a clatter was heard, and one could see that Cao Yong’s entire person actually fell directly to the ground, the table was pushed away, and the chair was even directly broken!

“You, you Ji Feng, you dare to do it?!” Zhao Anxiang looked at Ji Feng incomparably stunned, his face full of incredulity, “Do you know what you’re doing?”

“What did I do?” Ji Feng asked with a cold smile.

“You randomly assaulted a state official, you’re breaking the law!” Zhao Anxiang said angrily.

“Heh!”

Ji Feng sneered and said, “That can’t be helped, you guys owe a beating! If you were me, I think you guys wouldn’t be able to resist. Now I just slapped him, that’s already enough mercy, if I were to break the law, you two’s heads would not be on your necks by now!”

Zhao Anxiang couldn’t help but subconsciously take a slight step back in his body, and then he realized his weakness, and with a slight blush on his face, he wanted to act tough again, so he immediately slapped the table, “Boom!”

“Ji Feng! You’re too arrogant!” Zhao Anxiang roared.

“So what?”

Ji Feng asked with a cold smile, “Is it against the law to be arrogant? Which law says you can’t be arrogant?”

“You

Zhao Anxiang was suddenly speechless, blocked from speaking by Ji Feng.

Boom!

Suddenly, a loud bang came, only to see Cao Yong, who had been slapped on the ground by Ji Feng, shook his head, pushed away his chair and stood up in a somewhat dizzy state.

Cao Yong was really furious, if he was still apprehensive about Ji Feng’s identity and background, then now that he had been slapped hard by Ji Feng, he instantly forgot all about it and his head was filled with anger.

–More importantly, Cao Yong had long been accustomed to smooth sailing, thinking that he was from the State Security, and even some generals and high officials had to be polite to him, and couldn’t help but be cautious if he was summoned, as a result of which he had developed an arrogant and domineering mentality over time.

So he thought that everyone had to be courteous to him because he was a member of the State Security, whether he was a high official or a wealthy businessman, or a general with an army.

As for the sons of the family, they were even more untidy!

However, Cao Yong did not expect that Ji Feng would dare to hit him, or even, slap him directly on the face, and so viciously.

This made Cao Yong simply furious to the extreme!

At this moment, whether Ji Feng was from the Ji family or had extensive friendships, Cao Yong had already put it all behind him, he only had one thought in his head now, this son of a bitch dared to hit him.

Damn it!

“Doggone

Cao Yong cursed through clenched teeth and yelled, “Ji Feng, I’ll fuck you

Campus Master Chapter 2189

“Doggone it

Cao Yong cursed through clenched teeth and yelled, “Ji Feng, I’ll fuck you

“Boom!”

The words underneath him didn't even have time to come out before they instantly came to a screeching halt, and when he looked at his entire person again, he had already been kicked in the chest by Ji Feng and flew straight backwards, hitting the wall with a bang and then bouncing back to the ground, without even letting out a scream, his two eyes rolled over and he directly fainted.

"You, you"

Zhao Anxiang froze, he did not expect Ji Feng to be so arrogant, not only did he dare to hit someone, but he was also so harsh and ruthless.

He had to know that Ji Feng had already moved once before, Zhao Anxiang was shocked then, but before he could react, Ji Feng actually moved once again, this time, he actually kicked Cao Yong away!

This time Zhao Anxiang was frozen, his reaction was a little slow, he just looked at Ji Feng in astonishment, and for a moment he didn't even know what to say.

"Giving shame!"

Ji Feng, however, stared at Cao Yong, who had already passed out, and said disdainfully.

Immediately, he then dropped his gaze to Zhao Anxiang's body and said in a cold voice, "What do you say again?"

Seeing Ji Feng's ice-cold gaze, Zhao Anxiang subconsciously shrank his neck and gulped his saliva quietly without a word: "Ji Feng, you, you're going too far!"

"Bullshit!"

Ji Feng shouted coldly, staring at him with a cold gaze, and said in a deep voice: "I'm going too far? I'd like to know who is going too far? What evidence do you have when you say that I have links with Dynasty? How did the technology of the Tengfei Group come about, why should I have to give an account to you? What kind of people are you?"

"Still using the identity of State Security to scare people, Is State Security great?" Ji Feng asked in a cold voice: "State Security does not need to speak and act with evidence? Can State Security just accuse people unjustly? What the fuck are you?"

Zhao Anxiang opened his mouth and was choked by Ji Feng, unable to say anything.

However, Ji Feng continued to ask, "Who sent you guys here and dare to name him directly? Which superior is it anyway? You tell me, I'll go talk to him personally!"

Zhao Anxiang gritted his teeth and said, "Ji Feng, you, should not go too far!"

"I'm going too far?"

Ji Feng was instantly exasperated, he stared at Zhao Anxiang and said in a cold voice: "If I was excessive, you two dogs would have become two dead people by now! I'm telling you, your tricks are good in front of others, but in front of me it's not even shit!"

His gaze was cold as he stared at Zhao Anxiang and said in a cold voice, "Which leader sent you here, let him come and talk to me in person, and remember, before you come, you'd better bring tangible

evidence with you, otherwise, if I hear even a whisper outside that I have something to do with the dynasty, I won't let you two dogs off! Remember what I said!"

"You"

Zhao Anxiang gritted his teeth and stared at Ji Feng, his face flushed red with anger.

Anyone else would have been extremely annoyed at being so dismissive and scolded, not to mention that they were praised and complimented by people everywhere they went, who dared to talk to them like that?

Now they suddenly met someone who was so disrespectful, which really made Zhao Anxiang furious.

If it was possible, Zhao Anxiang really wanted to arrest Ji Feng right now, such an arrogant guy should be properly fixed!

However, just by looking at what happened to his companion Cao Yong, Zhao Anxiang felt a chill at the back of his neck and his heart was a little weak.

"Alright, I'm too lazy to talk nonsense with you guys here!" Ji Feng shook his head, "Remember my words, in the future, no matter what you say or do, it's best to have evidence, if you casually accuse others, or do something against your conscience, you will have a short life!"

"You"

Zhao Anxiang was furious, seeing that Ji Feng was leaving, but he didn't know how he could leave Ji Feng behind, and all the tasks explained from above had not been completed yet, how could this be?

"..... you can't leave!" Zhao Anxiang got anxious and blurted out!

"Shut up!"

Ji Feng instantly sank his face, coldly stared at Zhao Anxiang, coldly said: "Zhao Anxiang, I advise you better put some wisdom, this matter you can not afford to interfere, don't take your own life for no reason!"

"....."

Zhao Anxiang's eyes flashed with a stunned look, he looked at Ji Feng, opened his mouth but did not know what to say.

The first thing you need to do is to think about it, you're a small minion, rashly involved in this matter, do you think it's appropriate? If I get screwed over, do you think my family will let you go, the person who directly manipulated the knife? If you can't take me down, will your master let you off the hook? Do you think I would let you live so comfortably? It's just stupid!"

Zhao Anxiang gritted his teeth and kept his mouth shut.

However, there was a flash of panic in his eyes, which did not escape Ji Feng's eyes.

Ji Feng shook his head with a cold smile and said, "Wait for you, if you continue to meddle like this, you will have to suffer in the future, and when the time comes, not only you, but I am afraid that even your family members, will follow and suffer, just be good to yourself!"

At this point, Ji Feng gave Zhao Anxiang a deep look, then shook his head deeply, with a regretful expression, looking at Zhao Anxiang as if he was looking at a dead person.

—so young, actually got involved in this matter, dead! What a pity!

Zhao Anxiang saw just this kind of meaning in Ji Feng's eyes, his heart couldn't help but panic and his face instantly changed.

"You should have my contact information, right?" Ji Feng asked, "If you think of something, or remember that there's something you can say to me, you can contact me! That's all, good luck and I hope you're still alive the next time I see you"

"....."

Zhao Anxiang's face changed again.

These few words of Ji Feng's were so heart-breaking that they gave Zhao Anxiang a feeling of unease from the bottom of his heart.

He opened his mouth just to speak, but he saw that Ji Feng had already turned around and calmly pushed open the office door, strutting out of the office and disappearing outside the door.

"Hey"

Zhao Anxiang reached out his hand as if he wanted to stay Ji Feng, but his hand reached halfway, but stopped.

He knew that Ji Feng would definitely not give him this face, and if he went any further, maybe Ji Feng would give him a slap too, or maybe even kick him straight to death!

Therefore, Zhao Anxiang wanted to say something but stopped.

However, thinking about what Ji Feng had just said, Zhao Anxiang could not help but feel a strong sense of unease rising in his heart.

He felt that there was some truth in what Ji Feng said, and as far as this matter was concerned, it was clearly a fight between the gods – whether it was Ji Feng or his leader, to him, Zhao Anxiang was a god.

At least, Zhao Anxiang no longer dares to treat Ji Feng as a handful of people, and the good sense of self that he had cultivated before has all disappeared.

The reason is that he has realized that Ji Feng is different from other people. Without tangible evidence, Ji Feng will not even put them in his eyes, and he even sees their status as very low.

Thinking about the way Ji Feng had just beaten Cao Yong, it was like beating a dog!

That kind of feeling made Zhao Anxiang feel a kind of humiliation, but even more a kind of fear, because he believed that what Ji Feng said was true, if he pissed off Ji Feng, I'm afraid he could really kill them and feed them to the dogs!

As for the leaders

The leader let you live, you can live, the leader does not let you live, then you will be worse than dead, offend no one do not offend the leader, this is the eternal truth!

This is an unchanging truth. — So, Zhao Anxiang was in a difficult position.

Both sides were so powerful that he could not afford to offend either of them!

But by chance, he had taken up this task, and at this time his psyche could not help but rise with a wave of regret, why did he think of performing in front of the leader at that time, and had to take up this task so aggressively?!

This is great, let's see how it ends!

Zhao Anxiang took a look at his colleague Cao Yong, who was still lying on the ground and had passed out, and had a feeling of wanting to cry without tears

.....

At the same time, Ji Feng who had already walked out of the room, his face gradually returned to normal, however, if you look carefully you will find that in his eyes, a cold light flashed from time to time, making people's hearts tighten when they look.

Ji Feng was really angry!

Although he was angry with Zhao Anxiang and Cao Yong in the office, it was only his strategy to deliberately confuse them so that he could get away as soon as possible and also scare them in the process.

But in reality, Ji Feng was really annoyed in his heart, and could even be enraged at times!

However, the anger in Ji Feng's heart was not because of Zhao Anxiang and Cao Yong, they were just minions, to put it bluntly they were just errand boys, they were not even qualified to listen in on this matter, they didn't count for shit.

What Ji Feng was really angry about was the leaders who were targeting Zhao Anxiang and the main messenger of this matter!

The other side was simply bullying people too much!

They wrongly accused themselves of anything, but they had to wrongly accuse themselves of having a close relationship with Dynasty, and even the technology of the Tengfei Group was obtained from Dynasty

This may sound funny at first, but if you think about it, the people who came up with such an idea are so vicious, and their intentions are so sinister that they can be killed!

This was simply more abominable and more vicious than when Qiao Rong sent someone to assassinate him in Southern Guangdong before.

Because if Qiao Rong had sent someone to assassinate him, at most, he would only cause certain damage to Ji Feng, even if it was more serious, at most, Ji Feng would only be killed off, but his reputation would not be affected in any way, and he would even provoke the Ji family's anger and would take revenge for him.

However, the other party is now playing this game to crush him at the root, this is to play the bottom of the kettle!

How could Ji Feng not be angry?

Campus Master Chapter 2190

“What a mischievous heart!”

Walking out of the office, Ji Feng secretly snorted coldly, his face was gloomy because he could see the other party's evil intentions at a glance, the other party was obviously trying to bring him down completely from the root!

However, while he was annoyed, a sense of caution rose in Ji Feng's heart.

Cao Yong and Zhao Anxiang were just two minions, but what they stood for was something that had to be taken seriously – these two people represented State Security!

Moreover, they were also the department within the State Security that was specifically responsible for domestic intelligence and national security!

In fact, to put it bluntly, this is a department similar to the ancient Jin Yi Wei organisation, although the current State Security is certainly not as powerful as the ancient Jin Yi Wei, but it is not to be underestimated.

For anyone who has anything to do with national security is not simply breaking the law!

If a person broke the law or violated any discipline, he would at most be dismissed from his unit, or in more serious cases, he would be arrested by the police and sentenced to imprisonment or detention.

It's only a matter of law, to put it bluntly.

The most you can do is to be shot – there are trial procedures and lawyers to help defend you, and if you can get the victim's family to understand, or if you can pay more compensation, you can probably get a sentence of 10 to 20 years.

However, if the matter involves national security, it's a different story!

Because according to some regulations, if national security is involved, sometimes even without any formalities, the State Security people can just arrest people and interrogate them in secret!

Of course, according to the law and government regulations, State Security certainly cannot do this because it is not in line with the legal jinx of a society governed by the rule of law, not to mention the regulations.

But as anyone knows, laws and regulations are one thing, and sometimes it's another thing for those below to enforce them.

That's why for a long time, some departments, such as State Security, have been called special departments!

Since it is said to be a special department, it naturally has its own special features!

So whether they were ordinary people or officials, or wealthy businessmen or villains, no one wanted to be involved with State Security, let alone be approached by them.

But now, the state security has found Ji Feng's head, and for an extremely ridiculous reason, the state security even suspects that he has a relationship with my dynasty, and even suspects that the technology of the Tengfei Group was obtained from the dynasty – this is simply ridiculous!

..... As for the relationship between the Tengfei Group and Ji Feng, in this regard Ji Feng did not even bother to argue, because it was meaningless, to State Security, it was certainly not a secret, moreover, since this matter involved a special department, it was certainly very complicated, if Ji Feng pushed it off, then the people from State Security would certainly be going after Xiao Yu If Ji Feng shrugs it off, then the people from State Security will definitely go after Xiao Yu Xuan and Han Zhong, and it will be even more troublesome then!

The company's main focus is on the company's business.

The focus of State Security's investigation is not here, but on the advanced technologies of the Tengfei Group and the relationship between Ji Feng and Dynasty!

That was what was killing him!

"Ji Feng!"

Ji Feng hadn't gone far when he suddenly heard someone shouting at him, and when he turned around, he saw Xiang Yongzhan catching up.

When he came to follow him, Xiang Yongzhan lowered his voice and asked as if nothing was wrong: "How about those two people what are they looking for you for?"

Ji Feng shook his head and said, "Nothing."

Xiang Yongzhan immediately sensed Ji Feng's abnormality and saw the anger in Ji Feng's eyes, he immediately frowned and said, "What, are things very troublesome?"

He was afraid that this time, Ji Feng had encountered a lot of trouble, and what good could come from being approached by State Security?

Ji Feng shook his head and laughed: "There is no trouble, some people are just being unreasonable, I am too lazy to be ordinary with them"

"That's not true!"

Xiang Yongzhan immediately said, "Ji Feng, I can tell you ah, words are not like this"

The more you look, the more you can't take it lightly, those people are capable of doing anything, and it's not good for outsiders to ask questions, so you must be prepared, otherwise, when the time comes, it's likely to suffer a big loss!"

Ji Feng nodded slightly and said, "I have it in mind, all right, don't ask about this matter, I know what to do."

Xiang Yongzhan nodded and said, "Good then, I will still be staying in Yanjing for the next few days anyway, if there is anything you need help with, you can always look for me!"

"Don't worry, if I need your help, I definitely won't be polite to you!" Ji Feng smiled and patted him on the shoulder, no matter what, Xiang Yongzhan was a person who was still friend enough, at least this very manly character of his was still very much to Ji Feng's temper.

After parting from Xiang Yongzhan, Ji Feng went downstairs alone and then called his younger uncle, Ji Zhenping.

Soon, Young Uncle came down from another building, and he led Ji Feng to the car and asked in a low voice, "What's the situation?"

"It's someone from State Security looking for me." Ji Feng said in a deep voice.

"State Security?"

Ji Zhenping frowned at once.

Ji Feng nodded and said, "Yes, it's people from State Security, and it's a department that specialises in domestic intelligence and national security, from what that means, they shouldn't be in charge of international things, but specialise in keeping an eye on domestic ones, and unfortunately, I've been targeted by them!"

When he first found out that Zhao Anxiang and Cao Yong were from State Security, Ji Feng was also surprised, and he understood why those two people were sitting with General Zhang and the others at that time, and they all seemed to be on an equal footing.

That was probably because they came from State Security, and General Zhang was polite to them, that was also because he had scruples.

From this, one could also see how arrogant the people of State Security were!

Ji Zhenping, however, frowned and asked in a deep voice, "The people from State Security are suddenly looking for you, what do they want?"

Ji Feng coldly snorted, "According to them, they suspect that the technology of the Tengfei Group is not normal, and probably obtained the technology from Dynasty, and also, they likewise suspect that I have a connection with Dynasty"

"Bullshit!"

Ji Zhenping snorted coldly, "Who said this? Conscience eaten by dogs ah?!"

Ji Feng shook his head and smiled, not saying anything.

Ji Zhenping, however, was furious, and he sneered, "Those people really dare to say that, they're simply saying blind things with their eyes open! I just can't believe that they won't investigate your background before they talk to you!"

When the people from State Security were looking for Ji Feng, they would definitely alert him, so before that, they would definitely investigate all aspects of Ji Feng's information first.

Then they should have known that Ji Feng used to be just an ordinary student, living with his mother and leading a very hard life, so if he had connections with Dynasty, how could he not lead that kind of life!

Besides, it was because of the Tengfei Group founded by Ji Feng, which produced the kind of medicine called Special Effect Current, which didn't know how many soldiers' lives had been saved.

Especially for small units of special forces, they will often go on some kind of mission, or will exchange fire with some provocative hostile forces at the border, it is inevitable that they will be injured, and there because it is a small-scale firefight, and is secret, so medical treatment and rescue can not follow in a timely manner.

In the past, many soldiers were rescued by their comrades and sent to the camp or the military hospital after simple bandaging and treatment, but because of the delay, many soldiers died because of the delay in treatment.

There were even soldiers who had to have their limbs amputated because of untimely treatment, and even if they received generous state pensions, they would be crippled for life!

With the special effects current, even if they are wounded, they will stimulate their potential to the maximum extent, and within a certain period of time their combat power will not be weakened, but even enhanced, so the possibility of returning safely is greatly increased.

Although there will be a period of weakness after returning to the camp, it is better than being killed on the battlefield or losing an arm or leg, right?

It could be said that the entire Chinese military benefited because of that little drug.

If Ji Feng was related to the dynasty, how could he possibly give this kind of drug, which was treated as a key strategic reserve material by the country, to China?

This was simply bullshit!

"Who suspected you? You tell me their names!" Ji Zhenping chilled his face and said in a deep voice.

"It's Cao Yong and Zhao Anxiang in fact, they are just errand boys, and from what I can see, they are just instructed by someone, the real mastermind should be their leader, and even behind their leader, there is someone else!" Ji Feng said.

"Of course it can't just be them messing it up, this thing can't be played by just one or two of them!" Ji Zhenping sneered, "Little Feng, I suspect that they actually want to knock off the Tengfei Group, to knock you off your feet and lift your head up! This will ruin you, directly kill your future, and also destroy the Tengfei Group, which is like cutting off one of the Ji family's hands in the economic field! This is a good move on their part, it's like pulling the trigger from the bottom!"

Although Ji Zhenping was only a general who led the army, he had seen too many struggles since he was a child, so he could see at a glance that the other party was drunk, and that the real purpose of the person in charge was to cut off the arm of the Ji family, and at the same time completely cut off Ji Feng's future.

Once the charges are confirmed, Ji Feng will never be able to turn over a new leaf, at least in the country.

The other side's intention is so vicious!
