

Campus Master 2201

Speaking of this, he couldn't help but shake his head, "Originally I was wondering how on earth a man who was supposed to be in a wheelchair managed to escape from the tunnels. And to run so fast that those well-trained warriors didn't even catch up Now I probably understand!"

"Humph!"

Qiao Rong snorted coldly, her face ugly.

How could she have not expected that she would actually meet Ji Feng here when she was about to leave, and it was obvious that Ji Feng had been waiting for her here for a long time

If it was said that from the beginning she did not guess that the fire in the residential building was the work of someone from the Ji family in order to lure her out, at that time if she had been caught, she was afraid that she would not be so resentful now.

But the problem was that Qiao Rong had clearly guessed this possibility, and she had even managed to leave from the police's encirclement, just one last step away from disappearing once again completely under this vast night of Yanjing, but at this very last moment, she met Ji Feng, so much so that she had failed in her endeavours!

There was nothing more stifling than this feeling, not to mention that Qiao Rong hated Ji Feng so much, so it was understandable how she was feeling at the moment!

This made Qiao Rong practically go crazy!

Under such circumstances, how could Qiao Rong answer Ji Feng's questions or take Ji Feng's words?

That was obviously impossible!

Therefore, in the face of Ji Feng's half-flirtatious and half-sarcastic words, Qiao Rong only gave a cold snort and then ignored them again.

Ji Feng, however, did not care either, he just shook his head and smiled, saying, "It seems that you have been in disguise for so long, what a deep calculation tsk!"

According to what I learned from the girl who took care of Qiao Rong, look hilarious over has always been in a wheelchair, never seen her get off the ground and walk around at all, even her food, drink and shit had to be taken care of before she could do so.

If it were anyone else, she would not be able to bear it, not to mention pretending to be disabled for such a long time, even if she had to pretend for a few days.

What's more, from the beginning to the end that girl didn't find out that Qiao Rong was in disguise

This made Ji Feng couldn't help but tsk tsk tsk, this Qiao Rong really has the ability, and I don't know what method she used, she actually disguised herself so much!

"Little brute, you don't need to be sneering here!" As soon as she heard Ji Feng mention her disability, Qiao Rong's face instantly turned as cold as frost, "The reason why I'm called the way I am now is all thanks to you!"

“Heh!”

Ji Feng shook his head and said, “That’s really embarrassing!”

“Hmph!”

Hearing Ji Feng’s mocking words, Qiao Rong just coldly snorted.

Ji Feng, however, snorted, “It’s just that I’m wondering, if I’ve been successfully assassinated by you, then who should I owe it to?”

Qiao Rong’s face was cold and she didn’t say a word.

Ji Feng shook his head and laughed, this people na, just like to magnify the mistakes of others, but can easily forgive themselves.

Even if there was, it was only a grudge between the older generation and it didn’t really have much to do with him.

However, Qiao Rong’s son, Qiao Gakai, was domineering and as a result, he came into conflict with him.

When Qiao Gakai was beaten up, Qiao Rong had to take revenge for her son, and even repeatedly inflicted poison on herself.

If Qiao Rong had succeeded even once, he would have been turned into a pile of ashes by now!

But Qiao Rong never realised her mistake, instead she put it all down to herself, but she hadn’t thought about the fact that she had to stand up for her son when he suffered a loss, so if she herself had suffered a loss and if her family had done the same as Qiao Rong, would she, Qiao Rong, still have a life here now dejected?

“Alright, I’m too lazy to say any more nonsense to you, please!” Ji Feng shook his head, he didn’t want to theorise with Qiao Rong any further, this woman obviously already hated him to the bone, it was impossible to debate with him using normal concepts of right and wrong, so there was no point in saying any further.

But Qiao Rong’s face was as cold as frost and she said in a cold voice: “Ji Feng, don’t be too proud! If you are so desperate, you will definitely not be allowed to die well in the future!”

Ji Feng frowned and his voice went cold: “If I wanted to kill everyone, your whole family would be begging on the street right now! Qiao Rong, don’t take yourself too seriously, if you hadn’t taken the initiative to provoke me this time, I wouldn’t even remember who you are!”

“You …..”

Qiao Rong choked, but was speechless, and could only stare at Ji Feng with resentment.

Ji Feng also stopped talking nonsense with her and took a big step forward, saying, “Let’s go, there’s no point in talking too much …..”

Swish!

Qiao Rong jerked back two steps, avoiding Ji Feng, and said in a cold voice: “Ji Feng, don’t bully people too much! If you force me, it’s a big deal for us to die together!”

Ji Feng’s eyes narrowed slightly at once: “I’m bullying people too much? Heh! Then I’d like to see how you can drag me to death together!”

After saying that, he took a step forward and grabbed Qiao Rong with one hand.

No matter what the cause of the matter was, or how it developed in the middle, at least now it was an unending situation between him and Qiao Rong, to be merciful to the enemy was to be cruel to oneself, naturally Ji Feng would not make such a mistake!

“Little beast, you’ve gone too far!”

Seeing that Ji Feng had grabbed over with one hand and was almost about to snap his neck, Qiao Rong’s face suddenly changed drastically and both hands suddenly fished out two pistols from behind his waist, immediately pulling the trigger at Ji Feng.

“Boom~”

“Boom, boom, boom~~”

Perhaps because she hated Ji Feng so much, Qiao Rong did not hesitate at all after pulling out her gun and fired five or six shots directly. Under such close range shooting, even if she was wearing bulletproof vests, she would definitely be beaten and her blood would be churning.

Moreover, because she was worried that she wouldn’t be able to kill Ji Feng, one of Qiao Rong’s shots was specifically aimed at Ji Feng’s head!

Qiao Rong’s action was extremely sudden, and as she was a woman with a thin body, no one would expect her to suddenly pull out a gun, so Qiao Rong was confident that she could have an unexpected effect.

This was also why she had to tangle with Ji Feng just now, she wanted to distract him!

The moment the gunshot rang out, Qiao Rong’s heart couldn’t contain a surge of ecstasy, she didn’t expect it to be so easy, she knew how strong this little brute Ji Feng was, even Suo San had fallen into his hands, and now he was dead in his own hands!

—Qiao Rong could be sure that Ji Feng was already dead, already at such a close distance, and her action was incomparably sudden, who could react?

Even if she reacted, it would take some time for her body to make a dodging move, but how much faster can a human body move than a bullet?

Unless one is a superman, no one can do that!

So, the moment the shot was fired, Qiao Rong was so excited that she wanted to scream, this little beast was finally dead, and she had killed him with her own hands!

Could there be anything more delightful than that?

Thinking about how she had fallen under Ji Feng in the past, thinking about how her son had been beaten like a dead dog by Ji Feng, and thinking about how she was originally in a great position, but because of the appearance of Ji Feng's mother and son, she had fallen to this extent!

All this had been bottled up in Qiao Rong's heart for more than two years, and now, with the sound of the gunshot, all this resentment and hatred was suddenly vented out!

Qiao Rong's body was so relieved!

However, because of the extreme hatred in her heart, Qiao Rong was not satisfied with just killing Ji Feng, so she fired several shots in a row!

When the shots fell, Qiao Rong's chest gasped violently, but she couldn't help but laugh shrilly: "Haha hahaha little beast, you have your day too!"

Qiao Rong looked like madness and her voice was so shrill that if anyone heard it they could not help but have their scalp tingling.

"You are so arrogant, but you still died in my hands?!" Qiao Rong was excited and mad, she looked down at Ji Feng's corpse and let out a loud laugh, "Haha! Little beast, you didn't expect that, did you er"

However in a flash, Qiao Rong's shrill laughter came to an abrupt halt.

That smile instantly froze on her face, and the mad laughter that had been in her eyes had now also instantly turned into consternation, and a touch of disbelief.

"This this"

Qiao Rong's body stiffened, her face stunned to the extreme, looking at the scene in front of her, she was unable to say a complete sentence.

Because the scene in front of her was so completely beyond her expectations that she simply couldn't believe it!

— In front of Qiao Rong, Ji Feng was frowning and pulling out his ears vigorously.

"You, how did you" Qiao Rong opened her mouth, hard unable to speak.

"This gunshot is too loud, my ears are going deaf!" Ji Feng rubbed his ears and shook his head, "If I were you, I would have put a silencer on my gun, otherwise, I wouldn't have been able to escape after firing!"

"..... This can't be!" Qiao Rong was stunned to the extreme and said dumbly.

She had clearly fired at Ji Feng, and the action was extremely sudden, so it was impossible for Ji Feng to react, but now he was fine at all — only his ears were shaken uncomfortably.

How could this be possible!

More importantly, how could Ji Feng not be dead? How could he not die?

The ecstasy that had originally surged in her heart disappeared without a trace in an instant, and Qiao Rong's entire body was dumbfounded, however, upon seeing Ji Feng's face that disgusted her to the

core, coupled with this huge discrepancy between before and after, it caused a touch of madness to surface on Qiao Rong's face.

"Little brute – go to hell!"

Qiao Rong screamed, raising her gun again and about to pull the trigger.

"Pop!"

The next moment, Qiao Rong's scream came to an abrupt halt, only to see a slap viciously flung across her face, and Qiao Rong's entire body was smacked to the ground with a thud, falling to the ground, with her eyes glazed over dazed!

Campus Master Chapter 2202

"Slap!"

In the next moment, Qiao Rong's screams came to an abrupt end, only to see a slap flung viciously across, Qiao Rong's entire person was flung to the ground with a thud, falling to the ground, her eyes were starry dazed!

The first thing you need to do is to take two steps forward and lift her up. At this time, Qiao Rong did not react at all, her whole body was still dazed from that slap by Ji Feng, even the gun in her hand had long since fallen to the ground, her body was even so limp that she could not use any strength, so how could she still resist?

However, when Ji Feng lifted Qiao Rong, he frowned slightly.

He found that Qiao Rong's weight and her figure seemed to be somewhat inconsistent, Qiao Rong was obviously heavier than he had estimated Thinking of this, Ji Feng did not care about anything and immediately urged the bio-current to act on his eyes, his gaze penetrated Qiao Rong's clothes and then casually turned Qiao Rong around.

At once, his eyes couldn't help but narrow slightly.

"What a crazy woman!" Ji Feng couldn't help but snort coldly as he discovered that on Qiao Rong's back waist, there was actually a row of bombs strapped to it, as many as five or six of them!

If all these bombs exploded, not to mention that Qiao Rong would definitely be blown to pieces, he definitely wouldn't be able to escape either!

No wonder Qiao Rong was obviously heavier

Ji Feng coldly stared at Qiao Rong, then directly lifted her clothes, and after a slight sweep, he directly yanked the bombs off her body.

Fortunately, the bombs were not fixed to Qiao Rong's body with a special technique, but only tied with a few thin ropes. If these bombs were tied to Qiao Rong's body in the same way as they were treated as hostages, then a random dismantling would probably cause an explosion.

Thinking of this, Ji Feng couldn't help but be surprised once again by Qiao Rong's ruthlessness.

The reason why the bomb was fixed to her body was obviously to prevent any eventuality, so it could be seen that Qiao Rong had already had the intention to die with her enemies!

As for who Qiao Rong's enemy was

That is naturally self-explanatory!

Ji Feng once again coldly snorted, then with one hand holding Qiao Rong, the other hand first picked up the two guns on the ground, then with the bombs in hand, he quickly walked away and soon disappeared into the darkness.

"Sir, this gentleman"

Just at this time, Ji Feng suddenly saw two people ahead of him speeding towards him while shouting from his mouth.

Ji Feng recognized that these two men were the two warriors in charge of surveillance.

Those two warriors quickly came to the front, and when they saw that Ji Feng was carrying a man in his hand while carrying a bunch of bombs in the other hand as if he was carrying grapes, the two were stunned.

"This is the target we are looking for!" Ji Feng said, "You guys follow me, watch out for a surprise attack, and let's go back!"

"Yes!"

The two soldiers immediately nodded, since the chief attached so much importance to this young man, it was obvious that his identity was not ordinary, so they naturally had to cooperate.

Ji Feng, on the other hand, swept a circle with a stern gaze, after making sure that there was no danger for the time being, he then returned to the residential building not far away, accompanied by the two warriors.

"Little Feng, what's wrong with you, why did you sneak off alone" As soon as he returned, Ji Zhenping immediately reprimanded, yet when he saw the scene in front of him, the rest of his words were stiffly swallowed back into his stomach.

"Qiao Rong?"

Ji Zhenping looked at the woman in Ji Feng's hand in shock, his face wearing a stunned expression, "You caught her?"

Ji Feng nodded and smiled, "When I went there, I happened to see her sneaking away from the crowd, and I brought her back just after she went over the cell fence."

"What?!"

Ji Zhenping was stunned again, "You said she snuck away and went over the cell fence?"

Ji Feng casually threw Qiao Rong to the ground, immediately dropping the latter with a woop.

“Little beast, you dare to do this to me, you shall not be allowed to die!” Qiao Rong finally reacted at this time, and seeing that Ji Feng was treating her like a dead dog, she immediately became furious to the extreme and cursed in a shrill voice.

“Don’t think she’s really disabled, we were all deceived by this woman before, she wasn’t in any wheelchair at all, but sneaked away on her own with her two legs!” Ji Feng turned a deaf ear to Qiao Rong’s scolding and just laughed mockingly, “This woman is very cunning, if I hadn’t felt that something wasn’t quite right and went down to take a look, I’m afraid that she would have escaped by now!”

“Is that true?!” Ji Zhenping’s eyebrows immediately furrowed, “So, it was that girl who tricked us?”

“I’m afraid so,” Ji Feng nodded his head.

Although it was also possible that Qiao Rong had tricked that girl, Ji Feng felt that this was not very likely, because if a normal person were to disguise herself as a cripple, it would be easier to say something for a day or two, but if it was for a long time, it would be too difficult.

That girl was serving Qiao Rong closely, and it was impossible for her not to see any flaws after a long time.

Therefore, it was not very likely that Qiao Rong had succeeded in fooling that girl.

Then, it was only possible that the girl had not told them the truth and had deliberately lied to them, only this was more likely.

“Humph!”

Ji Zhenping snorted coldly, his face not looking too good, actually being tricked by a little girl, this made him feel uncomfortable as he had a feeling that his boat had capsized in the gutter.

But now was not the time to consider this, it was naturally the best outcome to catch Qiao Rong, the priority now was how to deal with Qiao Rong.

“Get her under control!” Ji Zhenping said in a deep voice.

“Yes!”

Several soldiers immediately responded.

Ji Feng reminded beside him, “You few be careful, this woman is not a good fighter, beware of being hurt by her.”

Ji Zhenping hummed and asked, “What, she can still eat people or something?”

“What’s impossible about that?” Ji Feng hummed, “See, these bombs were retrieved from Qiao Rong’s body, and these two guns, I almost fell into her path just now, this woman is ruthless, it’s better to be careful.”

“Huh?!”

Ji Zhenping immediately frowned, immediately took the bombs and looked at them, and said in a deep voice: “That’s right, it’s the same model!”

“What does that mean?” Ji Feng asked.

“When we captured Qiao Rong at that Qiao family’s mansion, there was only one girl in charge of taking care of Qiao Rong, and the bombs that were strapped to her body were all the same model as these bombs, so it looks like they should belong to the same batch!” Ji Zhenping said, “Now it also seems likely that this is from the same technique!”

As he said that, Ji Zhenping looked at Qiao Rong and sneered, “In that case, this Madam Qiao of ours really knows a lot of things!”

Ji Feng nodded thoughtfully, he had carefully asked about the details of Qiao Rong’s capture at the time, according to Little Uncle, the bomb tied to the girl who was responsible for serving Qiao Rong at that time was finally frozen by a special freezing liquid of the special forces, that’s why it didn’t explode.

What’s more, the way the bomb was tied was very professional!

In that case, Qiao Rong obviously also knew about bomb expertise, which was not like something a celebrity noblewoman should know!

It seems that there is a story about this Madam Qiao!

“Let’s not talk about that, take her away first!” Ji Zhenping said and immediately picked up his communication tool, “Attention Team 1, enter the third observation point immediately

Ji Feng stood by the side, quietly observing.

Obviously, Ji Zhenping’s arrangement was very thorough, not only did he arrange for police and fire fighters, but he likewise arranged for an action team, I’m afraid that little uncle also considered that once he caught Qiao Rong, he could send someone to escort him!

This is Yanjing, there are police everywhere outside, I am afraid it is the best city in the whole of China in terms of law and order, but Uncle Xiao has still made such thorough arrangements.

Being careful in any situation, Ji Feng had learnt another trick.

Soon, the people arranged by Ji Zhenping arrived, and with Qiao Rong under their control, they were ready to retreat. However, at this time, a soldier suddenly said, “Chief, look at

Ji Feng and Ji Zhenping immediately turned their heads to look, only to see Qiao Rong, who was being tightly controlled by several warriors working together, her lower body was actually showing an abnormal twist backwards!

— Qiao Rong’s thighs were bent straight backwards, looking almost like a pair of fake legs, a movement that was completely impossible for a normal person to make!

And most importantly, at this moment, Qiao Rong’s body seemed to be limp, almost as if someone had drawn her bones, a strange situation that made the soldier next to her very surprised and suspicious.

“Wait a minute!”

Ji Feng immediately spoke out, then took two quick steps to Qiao Rong and stared at her carefully.

“Little beast, if you have the guts, kill me immediately!” Qiao Rong cursed angrily in a shrill voice, “As long as I don’t die, I’ll definitely kill you! You humiliate me like that, you shall not die!”

“So that’s how it is!”

Ji Feng, however, completely ignored Qiao Rong’s tirade and just stared at Qiao Rong for a moment before he revealed a look of dawning realization.

He shook his head and smiled, “I said what was going on, I never thought it would turn out to be like this! It’s really”

He then waved his hand and said, “Take her away, remember to keep her under control, but don’t toss her for the next few hours!”

“Yes!”

Several soldiers nodded, then looked at Ji Zhenping again, seeing the latter nod, they quickly dragged Qiao Rong away.

During this time, it had been interspersed with Qiao Rong’s vicious tirades, cursing Ji Feng from time to time that he would not be allowed to die, and even cursing the entire Ji family into it.

Although Ji Zhenping was frowning as he listened, he was not guilty of being common sense with such a woman.

Moreover, the fact that Qiao Rong had sent someone to assassinate Ji Feng, and that she also had a very close relationship with Dynasty, was conclusive, so what awaited Qiao Rong was definitely not a good end, so Ji Zhenping was even more guilty of not bothering with such a woman.

“Little Feng, what’s going on?” After Qiao Rong was taken away, Ji Zhenping immediately asked, “Qiao Rong’s leg”

Campus Master Chapter 2203

“Little Feng, what’s going on?” After Qiao Rong was taken away, Ji Zhenping immediately asked, “Qiao Rong’s leg”

“I was the one who looked away.”

Ji Feng shook his head and said, “Qiao Rong should also be a reformer!”

“What?!”

Ji Zhenping was stunned, “Qiao Rong is also a reformer? Little Feng, you’re not mistaken, are you?”

How could Qiao Rong be a reformer?

The military was undoubtedly the most knowledgeable about the dynasty’s situation.

Of course, Ji Zhenping knew very well, but all transformed people, that were transformed people who did not look like humans and did not look like ghosts, and even those who had been transformed had strong after-effects, some had greatly reduced life expectancy, some had hideous and ugly faces, and some even could not even be called human anymore.

How could Qiao Rong, a woman, be willing to undergo transformation?

What's more, from what we know so far, the status of the reformers in the dynasty is very low, and the vast majority of reformers are ordinary people captured or tricked from outside, but there seems to be very few reformers in the management of any dynasty.

For example, those true super masters of the dynasty, such as Suo San and his Sect Leader, were not reformers.

Since Qiao Rong could mobilise experts from the dynasty so easily, you that status was obviously not low, how could she be willing to have herself transformed into that kind of monster that was inhuman and ghostly?

This made Ji Zhenping very surprised and hard to understand.

Ji Feng shook his head and said, "There is definitely no mistake, however, it is somewhat inaccurate to say that Qiao Rong is a transformed person, in fact, strictly speaking, Qiao Rong should be half transformed"

"Half transformed?" Ji Zhenping said in confusion, "How do you say that?"

"According to my observation, only two of Qiao Rong's legs were transformed, the rest of her body was left untouched! And even the bones in her legs, only one of them has been replaced with artificial bones made of special materials!" Ji Feng mused, "According to my observation, I'm afraid that the reason why Qiao Rong is willing to undergo the transformation is to heal her injuries!"

Just now, when he saw Qiao Rong's legs showing an abnormal twist, Ji Feng immediately used his perspective eye to see through Qiao Rong's legs, and he found that both of Qiao Rong's thigh bones had been replaced, that were not at all the colour that normal human bones should have, it was obvious that her legs had been transformed.

But this transformation was not complete, moreover, she also only had the bones of her two thighs replaced, but the muscles on her legs, were extremely weak looking.

Ji Feng guessed that Qiao Rong probably had to undergo the transformation in order to heal the injuries on her legs, but it was obvious that she was very clear about the hazards of having been transformed, so she only had the bones of her two thighs transformed, but the rest of her body was left untouched.

"Healing injuries?"

Ji Zhenping frowned, "How did you come to this judgement?"

Ji Feng said, "Because Qiao Rong's body still has injuries that haven't healed up until now, and I can feel that the muscles on her two thighs appear weak, so without a special method, she wouldn't be able to walk independently at all!"

"What special method?" Ji Zhenping immediately asked.

"..... My guess is that in all probability – nine out of ten – she is taking a special effect current!" Ji Feng said, "Or it's possible that she took some other drug, otherwise, with the muscles in her legs, it's impossible to make her body, let alone walk or climb!"

Ji Feng observed the muscles on Qiao Rong's thighs, which were obviously weak. It was only after taking the special effect current that she was able to stimulate her body's potential to the maximum extent, making it possible for her to move as normal for a short period of time, no different from a normal person.

But after the effects of the medicine have worn off, Qiao Rong will be weak. Unless, she was not taking a special effect current, but some other kind of drug, then exactly what the consequences would be, Ji Feng could not say.

Ji Zhenping frowned at once and asked in a deep voice, "Can you be sure?"

"For the time being, we can't be sure, this will have to be a detailed examination to analyze the composition of the drugs contained in her body, we should be able to determine that!" Ji Feng said.

He knew exactly why Little Uncle frowned when he heard this, because if what Qiao Rong was taking was Special Effect Current, then it meant that something was probably wrong within the military.

The special effect current was produced by the Tengfei Group and supplied exclusively to the military, and even in the military, this kind of drug was classified as a strategic drug of a confidential level, and only the military had reserves, and it was not sold to the public at all, let alone exported or through any other channels.

If there is no approval, it is simply impossible to get the special effect current.

Therefore, if what Qiao Rong was taking was really a special-effect current, then it meant that it was likely that the military had been infiltrated by the dynasty internally as well.

Of course, this was the worst guess, but it was not without such a possibility, which was why Little Uncle was so cautious.

If it was a problem with other channels and links then of course that was fine, but if it was a problem within the military, that would be a big problem!

"I will immediately arrange for someone to examine her!" Ji Zhenping said, "Little Feng, you've done a good job!"

.....

The news of Qiao Rong's arrest was strictly kept under wraps.

Although there was a lot of commotion in the neighborhood where Qiao Rong was hiding, and even a large number of police and fire fighters were deployed, and almost attracted the attention of reporters, but because of Ji Zhenping's thorough prior arrangements, the outside world did not have any exact information.

Even for those who knew something, they only knew that it was probably a secret operation by the military, but only a very few people knew who the operation was aimed at and what its purpose was, but these people obviously could not have spread the news to the outside world.

The wind soon passed, as the top deliberately tried to control the news.

Having caught Qiao Rong, Ji Feng was instantly relieved. This woman was too vicious and too crazy, and now that she was caught, it was naturally not hard to imagine what would await her, and Ji Feng was certainly all at ease.

Now he only needed to wait for the military to finish their interrogation, and I'm afraid that Qiao Rong's final end would be decided.

However, when he knew that Qiao Rong had also been rehabilitated, Ji Feng waited in Yanjing for two more days to find out more about Qiao Rong's specific situation and some of the information Qiao Rong had explained.

But when he learnt that less than two hours after Qiao Rong was captured, her entire body suddenly became extremely weak and she didn't even have the strength to move, let alone answer questions, Ji Feng couldn't help but shake his head.

There was no need to say, what Qiao Rong had taken before was definitely the special effect current!

Only a special effect current would have this characteristic!

As expected, when Ji Zhenping told him two days later that Qiao Rong's blood had indeed detected the ingredients of the special effects current, this result made Ji Zhenping extremely angry, and even the military top brass, were very annoyed and took it extremely seriously.

What followed would definitely be a thorough investigation!

But what surprised Ji Feng was that Qiao Rong was so weak for two days in a row after the effects of the special effects current had worn off that she could only eat liquid food – she didn't even have the strength to eat normally!

When he thought about it later, Ji Feng was relieved.

Obviously, Qiao Rong must have been weaker than ordinary people because her body was already weaker than ordinary people, so she had overdrawn her potential after taking the special effects current, which was even tantamount to overdrawing her life, and after the effects of that medicine had worn off, it was strange that she was not weak.

But then, the trial could not proceed immediately, and Ji Feng did not have that much time to wait any longer, so he planned to depart for Southern Guangdong.

As for the results of the interrogation, he could only wait for his little uncle to relay them to him.

On the third day after he caught Qiao Rong, Ji Feng took his luggage and said goodbye to his parents and set off for Jiangzhou, and then from Jiangzhou to Nan Yue – he had been separated from Xiao Yuxuan and Tong Lei for a bit too long, so this time he naturally had to go to Jiangzhou to see them.

However, when Ji Feng had just left the district in his car, he was stopped by a car.

A man wearing glasses and combing his hair with a parted head stepped down from that car, came to Ji Feng's car door, knocked on the window and gestured for Ji Feng to get out.

Ji Feng's eyebrows frowned slightly as he looked this man up and down.

This man was probably in his forties or fifties, and because he was well maintained, his exact age was not too accurate, but I guess it was not too far off by a few years.

What made Ji Feng pay attention was that this middle-aged man was tall, his face looked rather elegant, his instrumentation was good, and he appeared to be very graceful...

To put it more colloquially, this is a very charming middle-aged uncle with a very mature man's temperament, definitely a popular killer for some divisional young women or even young girls with fatherly feelings!

The most important thing was that this person actually gave Ji Feng a few feelings of déjà vu!

This is very strange!

If it was someone he had seen or known before, then there was no reason why Ji Feng couldn't recognize it now, while if it was someone she knew a long time ago before she was just a poor boy, she wasn't qualified to know such a person either.

Just by looking at the Audi A6L that this man was riding in, there would be no crossover with the previous Ji Feng.

This person

Ji Feng carefully recalled for a moment, still felt familiar, but just couldn't remember who he was.

"Ji Gongzi, please forgive me for taking the liberty of stopping you in such an impolite manner, for disturbing you!" This middle-aged man's voice pulled Ji Feng's thoughts back, only to see that he actually bent down slightly and bowed to Ji Feng.

"You are"

Ji Feng, however, was not flattered by such a gesture from the other party, but instead was a little wary, but of course he naturally did not show it on the surface, and only asked with a slight tinge of suspicion.

However, the middle-aged man did not immediately answer Ji Feng's question, but asked gently, "Mr. Ji, this is not the place to talk, I have booked a seat at the clubhouse in front, please do me the honor and have a seat there? Please rest assured that you will definitely not be delayed for too long"

"Sorry, I am preparing to go away, going to the clubhouse is not necessary, what do you have to do, just say it here directly!" Ji Feng said.

"This"

The middle-aged man hesitated a bit, then smiled shyly and said, "Ji Gongzi, frankly speaking, I came here this time to ask you for a favor"

"Plead for mercy?"

Ji Feng was more or less stunned, he New Year remembered, suddenly, something came to his mind, he immediately frowned and blurted out, "It's you?!"

Campus Master Chapter 2204

“Begging for mercy?”

Ji Feng was more or less stunned, his mind turned rapidly, suddenly, something came to his mind, he immediately frowned and blurted out, “It’s you?!”

Ji Feng’s eyebrows instantly furrowed, he finally remembered who this person was.

Or to be precise, he guessed the identity of this person in front of him!

Originally, Ji Feng still only felt some familiarity with this person, but to say who exactly this person was, Ji Feng really couldn’t recall, because in his memory, there was no existence of this person at all, so he could be sure that he definitely didn’t know this person.

However, he was inclined to feel that this person looked familiar – for someone who he never knew but felt familiar, then there was only one possibility!

..... He looked like someone, and that someone was someone Ji Feng knew!

But for a moment, Ji Feng couldn’t really think of who this person actually looked like, so he was puzzled in his heart.

However, when the middle-aged man in front of him said he wanted to ask him for a favour, Ji Feng’s heart suddenly moved and he instantly remembered who this person really was!

–Wang Wengao!

The middle-aged man in front of him, who was svelte looking and appeared to be very elegant and poised, was Wang Wengao!

This, Ji Feng could instantly confirm!

This middle-aged man was none other than the son-in-law of the Qiao family, Qiao Rong’s husband, and also Qiao Gakai’s oldest son, Wang Wengao!

There was no doubt that this man was Wang Wengao!

Ji Feng frowned and looked at Wang Wengao warily and carefully, this man was at least five or six points similar to Qiao Gakai, and this should be the reason why he looked familiar.

But Wang Wengao was much more handsome than Qiao Gakai, or to be more precise, Wang Wengao was more charming and more elegant than Qiao Gakai!

And most importantly, Wang Wengao is obviously more courageous and more tolerant than Qiao Gakai.

If it were Qiao Gakai, he would never have come to beg for mercy. You know, from the time Qiao Rong was arrested until now, even Wang Wengao had gotten the news, and it was impossible for Qiao Gakai not to know anything about it, but there was no trace of him until now.

As for how and for whom the plea was made, it is naturally self-evident.

From this point of view alone, Wang Wengao was a person of character, because from what Ji Feng had learned, Wang Wengao had not been treated well in the Qiao family.

Wang Wengao's status in the Qiao family was very low, and it was said that even some of the junior members of the Qiao family could mock Wang Wengao at will, and even spoke to him without any respect, and it was even said that one of Qiao Rong's nephews once almost hit Wang Wengao directly.

This shows what kind of status Wang Wengao had in the Qiao family!

Of course, when Qiao Gakai found out about this, he grabbed his cousin and beat him up severely, but no matter what, this was a good indication of how Wang Wengao was treated in the Qiao family!

If it wasn't for Qiao Gakai's protection, Wang Wengao wouldn't have known how he would have been treated.

Later on, Wang Wengao took the initiative to apply for a job abroad, and everyone knew what it was for. It was obvious that he couldn't stand what happened to him in the Qiao family anymore, so he had to go abroad.

And among all these things, the most important one is obviously Qiao Rong's attitude!

But as you can imagine, with Qiao Rong's strength, if she had been a little protective of Wang Wengao, I'm afraid those in the Qiao family wouldn't have dared to treat Wang Wengao that way.

But obviously Qiao Rong didn't do that!

Everyone knew that Qiao Rong was a mean-spirited person, and could be described as ungrateful and very sarcastic.

To be fair, if anyone else was in Wang Wengao's position, I am afraid that they would have been extremely disgusted with Qiao Rong, and it was even normal for them to have hatred in their hearts.

But under these circumstances, Wang Wengao came!

He had come to plead for Qiao Rong's life!

Frankly speaking, at this moment, Ji Feng could not help but be moved by it. If this Wang Wengao was not deliberately acting, then he really had a big heart and was extremely forgiving and responsible!

Now the whole Qiao family can be said to have completely collapsed, at this time, but Wang Wengao stood out, whether he is righteous, or forced to do so, but his action has proved how responsible he is!

It was because everyone knew that Qiao Rong had offended the Ji family to death, especially with herself, and that was an irreconcilable conflict that was almost unbreakable.

At this time, no matter who comes forward to intercede for Qiao Rong, I am afraid that he will be resented and even retaliated strongly.

Wang Wengao was no fool, of course he could not have failed to understand this, but he came anyway!

This action alone made Ji Feng admire him.

What was even more crucial was that Wang Wengao's son, Qiao Gakai, had been seriously injured twice by himself, even to the point of dying, and could not be cured at home, and had to be sent abroad for treatment.

When his own son was beaten into such a state, how could Wang Wengao not hate him?

I am afraid that no one would be indifferent.

But even so, Wang Wengao came, and with a gentle and somewhat humble smile on his face, to beg his enemy!

This was a character!

Ji Feng couldn't help but secretly admire it in his heart.

However, the more he did so, the more wary Ji Feng became. The more Wang Wengao was so bold, the more it showed how much of a potential threat this person was to himself!

If it was possible, Ji Feng couldn't even resist the urge to get rid of this person!

The fact is that if you do not want to be a part of the family, you will have to be a part of the family, not to mention the fact that many people know that Wang Wengao is here, and if you do not want to be a part of the family, you will undoubtedly give the impression that you are a part of the family.

This aside, Ji Feng himself is somewhat unable to lay his hands on her.

Although he was also very spicy in dealing with his enemies, he was not yet able to be so ruthless, not to mention that, as the saying goes, one can't beat a smiling man with a hand.

While Ji Feng was sizing up Wang Wengao, Wang Wengao was likewise sizing him up.

"Sir Ji, I want to ask you for a favor, I hope you can spare Qiao Rong's life!" Seeing that Ji Feng was frowning and had become extremely wary as soon as he recognised himself, Wang Wengao's heart sank slightly, it was obvious that Ji Feng harboured a very strong hostility towards him.

The more he said, the more bored he would be.

Therefore, Wang Wengao then expressed his thoughts and the intention of coming directly.

"Spare her?"

Ji Feng shook his head and said, "Mr. Wang, I think you have the wrong person, yes, I do hate Qiao Rong very much, I even hate to kill her with my own hands, but I won't do that, because the state should decide what kind of fate Qiao Rong should get! Qiao Rong has broken the law, so naturally she should be sanctioned, although I am the one involved, I have no right to decide what to do with her!"

Wang Wengao sighed lightly and said, "Sir Ji, I know that what Qiao Rong has done is really unforgivable, but after all, I am her husband, and as me, I really can't stand by and watch her Moreover, I also know that Sir Ji must have a way to save her life, so no matter what I'm begging you to hold your hand high!"

Ji Feng frowned: "I'm afraid you're too high on me with that! Mr. Wang, I have two questions, and I hope you can help me solve them."

Wang Wengao immediately said, "Please speak, Sir Ji."

“First, do you really think that I can decide a person’s life and death at my whim?” Ji Feng frowned and asked, “Also, do you really know exactly what your wife has done?”

“This” Wang Wengao was instantly asked.

“Mr. Wang, you are an understanding person, you must know that the times are different now, there is no one, who can just go around deciding the life and death of others, and even if there is such a person, it must not end well, I am not willing to be such a person, and thankfully, I am not such a person either!”

Ji Feng shook his head and said, “Admittedly, I do have some background, and if I try to operate from some grey level, I can also do a lot of things that ordinary people cannot do, but this does not include pardoning or going to execute people at will, even if I could, I would not do it!”

Wang Wengao listened and was silent.

Ji Feng shook his head and spoke again, “Also, the second question I asked just now, can you answer it with certainty?”

“..... Sorry, I can’t!” Wang Wengao was silent for a moment and finally shook his head.

“Frankly speaking, I really don’t particularly know what exactly Qiao Rong has done.” A bitter smile flashed across Wang Wengao’s face, the relationship between him and Qiao Rong was something that outsiders couldn’t understand, he simply didn’t know what Qiao Rong had actually done apart from going against the Ji family.

But listening to the meaning of Ji Feng’s words, it was obvious that Qiao Rong had other problems, and they must be very serious.

“Mr. Wang, go back, don’t waste time with me.” Ji Feng said, “What your wife has done is not as simple as you think, of course, you can continue to ask for favours, but I certainly can’t give you any help here!”

Wang Wengao was silent for a moment and nodded, “..... I understand.”

Ji Feng did not respond.

On the issue of Qiao Rong, Ji Feng wouldn’t compromise with anyone, he wouldn’t take the initiative to have to put Qiao Rong to death, but he definitely wouldn’t stand by and watch others show mercy and let Qiao Rong go either.

Because to him, Qiao Rong was a bomb that would explode at any time.

If he let Qiao Rong go today, maybe tomorrow he would be blown to pieces!

Ji Feng would not be foolish enough to let go of someone who was so hostile to him!

What’s more, even if Ji Feng agreed to let Qiao Rong go, his words wouldn’t count, and based on Qiao Rong’s relationship with the dynasty, neither the military nor the top would be able to let her go so easily!

Campus Master Chapter 2205

“Sir Ji, I’ve come at your own initiative today, so I’ve caused you trouble!”

After receiving Ji Feng's clear refusal, Wang Wengao stopped pestering and instead bowed slightly towards Ji Feng and spoke with a slight apology.

Ji Feng waved his hand and didn't say anything.

There was really nothing to say between him and Wang Wengao, and besides, he had already explained what he should explain, and he wouldn't say half a word more about what he couldn't say.

What's more, Wang Wengao's performance was so outstanding that Ji Feng was very wary, so it was naturally even more impossible for him to have any common language with Wang Wengao.

Seeing this, Wang Wengao only nodded slightly and said, "In that case, then I won't bother Mr. Ji Goodbye!"

Ji Feng nodded and similarly said back, "Goodbye!"

Wang Wengao let out a light sigh, turned around and got into the car, then left.

Ji Feng stood silent in the same place for a moment, secretly shaking his head, today Wang Wengao came to him to beg him, Ji Feng instead of having that feeling of satisfaction of being above him, he had an awe-inspiring feeling.

Strictly speaking, Wang Wengao and him were considered enemies – although Wang Wengao might not hate Ji Feng as much because of Qiao Rong's affair, at least, Wang Wengao's son, Qiao Gakai, was severely injured by Ji Feng several times, and even had to go abroad for treatment.

If Wang Wengao still didn't hate Ji Feng, I'm afraid even Ji Feng himself wouldn't believe it!

However, not only did Wang Wengao come, but he could also beg his enemy very sincerely and calmly.

Just this stoicism of his, as well as this boldness of his, was not something that ordinary people could compare to.

Just these two points alone were enough to make Ji Feng awe-inspiring!

"This is a formidable character!" Ji Feng secretly sighed, "If this person is bent on saving Qiao Rong, or is determined to save the Qiao family, this is a difficult opponent!"

Ji Feng would definitely not let Qiao Rong go, or at least, he would definitely not agree to a lighter punishment for Qiao Rong, and as for the Qiao family, he would likewise not allow them to mess things up for him.

So cracking down on the Qiao family, Ji Feng would definitely not relax.

If Wang Wengao wanted to save the Qiao family and Qiao Rong, the two of them would have to be completely on opposite sides, not to mention that there was a Qiao Gakai in between!

In fact, just based on the grudge between oneself and Qiao Gakai, it was already decided that one would definitely confront Wang Wengao, it was just a matter of time.

Thinking about having to go up against such a powerful figure in the future, Ji Feng couldn't help but shake his head a little.

If he could, Ji Feng would never be willing to go up against such a person, but reality was such that he could only be stern.

But soon, Ji Feng couldn't help but get a little excited again.

To think that he could fight such a powerful person, that was a rare opportunity!

Just with this kind of sleight of hand that Wang Wengao was showing right now, it was enough for Ji Feng to be cautious, this person could be much more powerful than some people from the Wu family, this was definitely a good opponent!

"Then let's try and see who the deer will die!" Looking at Wang Wengao's car disappearing at the intersection in front of him, Ji Feng couldn't help but secretly say something.

The corners of his mouth turned up slightly, and a high fighting spirit surged in his heart!

But soon, his brow slowly furrowed again – the news of Qiao Rong's arrest should be kept strictly confidential, then, Wang Wengao got the news so fast, moreover, he could find himself here directly, so he obviously knew very well the reason for Qiao Rong's arrest and the process!

How did Wang Wengao know this information?

And more importantly, how did Wang Wengao know that he was currently living here? And how did he know when he was going out?

These are all questions that cannot be answered right now, but one thing is certain: Wang Wengao must have sources of information that others do not know about, and he is very well-informed.

Ji Feng pretended not to move on the surface, and his eyes scanned the surroundings, but he did not find anything unusual, nor did he find anyone watching.

He shook his head and did not look any further.

Wang Wengao obviously wouldn't have left such an obvious handle, otherwise he really wouldn't have been worthy of Ji Feng's attention.

Now it seemed that Wang Wengao was indeed a formidable character, and Ji Feng's heart rose with twelve points of importance!

A few moments later, Ji Feng got back into his car and then headed straight for the airport.

At this time, Ji Feng did not notice that the car that had disappeared from the intersection had driven back, only to see the window glass slowly lowered a few centimeters, revealing a pair of grim eyes.

Wang Wengao watched Ji Feng leave in the car, an icy gaze flickering in his eyes, not saying a word.

Only, his eyes were cold and frightening.

"Buzz~~!"

It was a long time before Wang Wengao raised the window glass up, and a cold hum came out of his mouth, "Ji Feng hum!"

And then, with the roar of the engine, the car sped away and soon disappeared at the end of the road.

.....

Qiao Rong had been caught!

Despite the military's strict secrecy, the news spread, albeit only among a few well-informed individuals, but it didn't take long for the vast majority of families and powers to learn of the news.

Everyone was stunned, and then shocked.

How long had it taken for Qiao Rong to be caught, and she couldn't hide anymore?

The extent of the Ji family's power was truly shocking!

One should know that although the Qiao family was not a big family, it had been operating for decades after all, so how could it not have a certain network of connections in Yanjing?

Moreover, since Qiao Rong dared to lay her hands on Ji Feng, it meant that she must have already thought of a back way, in which case, if she were to hide, it would not be so easy to find her.

But for the Ji family, it was so easy to find Qiao Rong in just a few days after her escape.

This showed how strong the Ji family really was!

At this moment, I don't know how many people were shocked, especially those who were on the opposite side of the Ji family, and even those who often played tricks on the Ji family in secret, had a hard time sleeping and eating!

Even Qiao Rong, who had been prepared for this, had been uncovered in such a short time, so if it was them, how much better could they be than Qiao Rong?

If the Ji family wanted to deal with them, would it be harder than dealing with Qiao Rong?

Seeing this matter, many people's hearts sank.

It was only at this point that many people realised that the Ji family might not have been unaware of their secret shenanigans in the past, but they were afraid that because the Ji family did not take them seriously, they did not see eye to eye with them.

The actual fact is that if you've got a lot of time, you're going to be able to get a lot of time to get a lot of money.

..... There are not a few who harbour this idea, especially when the Ji family is fighting with the Wu family, those who are eager to hug the Wu family's thighs, or some small families, that can't help but be a bit uneasy.

At this time, if they are allowed to cause trouble for the Ji Family in secret, they will have to weigh their options carefully.

It is not worth it to offend such a powerful family just to hug the Wu family's thighs!

For this reason, many of those who were hostile to the Ji family, or those who often made small moves against the Ji family, could not help but be more honest!

Those large families in Yanjing, as well as some large factions, were likewise quite surprised.

They were more likely to know the truth of the matter than those small families, and their information was also more well-informed, so they knew even better how strong the Ji family had to be in order to make it this far!

Because they knew that Qiao Rong had close ties with the dynasty, and with the dynasty's power and underground network, it would be really easy to hide Qiao Rong, but if the outside world wanted to find her, it would be really difficult!

But in the end, Qiao Rong was still caught, and in such a short time.

In this incident, the comprehensive strength shown by the Ji family was enough to make everyone take a look at it.

And because of this, the intimidating power of the Ji family has surprisingly risen a few more points!

.....

For the impact caused by this matter, Ji Feng naturally did not know, and he did not want to pay too much attention to it, because no matter how the outside world discussed and evaluated it, Qiao Rong's downfall was already predetermined.

Now that Qiao Rong has been caught, a big stone at the bottom of Ji Feng's heart has fallen to the ground.

Therefore, he now turned his attention to the South Guangdong Brilliant Group. To stop the cooperation between the Brilliant Group and the Kepong people, this matter was equally important.

Therefore, Ji Feng first went back to Jiangzhou for two days, temporarily accompanying Tong Lei and Xiao Yuxuan, and visiting Yao Yao's mother and daughter, as well as Xu Yuan, before rushing to Nan Yue again to meet up with He Hongwei.

But when Ji Feng arrived in Nan Yue, He Hongwei was so busy that he didn't have time to pick up the plane, but only sent one of his assistants to pick up Ji Feng from the airport.

This made Ji Feng more or less surprised, He Hongwei had actually made contact with the Kepong people?

Could it be that the situation in Southern Guangdong had deteriorated?

Or was it that the Brilliant Group had finally decided to sign a contract with the Kepong people, which forced He Hongwei to make direct contact with the Kepong people?

Did the Wu family really dare to be so reckless as to let the Brilliant Group work with the Kepong people?

These questions would be unclear to the assistant, and Ji Feng did not expect to get an answer from him, instead he rushed to the office as soon as possible, ready to find out the situation clearly from He Hongwei in person.

Coincidentally, their car had just arrived at the downstairs of the office when Ji Feng saw He Hongwei with that little flathead, who also happened to be returning from outside and had just parked his car.

However, unlike before, at this moment, He Hongwei had a black face and a touch of anger in his eyes, seemingly very annoyed.

It was obvious that He Hongwei was in a somewhat bad mood!

Campus Master Chapter 2206

“Brother Hongwei, what’s wrong, seeing you with a dark face, did the negotiations with the Brilliant Group not go well?”

Seeing He Hongwei’s face not looking too good, Ji Feng couldn’t help but ask.

Within the world’s gentry brothers that Ji Feng knew, He Hongwei was considered one of the more poised ones, he also had a certain amount of manners and usually did not write his mood on his face, but now He Hongwei was completely happy and angry, it was obvious that his mood was already bad to a certain extent.

“Humph! How much more than bad is it?”

He Hongwei snorted coldly and said in a deep voice, “There’s simply no progress at all!”

Ji Feng frowned and asked, “The Brilliant Group hasn’t given in at all?”

He Hongwei shook his head and said, “No, I think they are determined to cooperate with the Kepong people.”

“Wasn’t this result expected a long time ago, just take your time, why be so annoyed?!” Ji Feng asked warmly.

The Brilliant Group was originally determined to cooperate with the Kepong people, and they knew it very well from the beginning.

Otherwise, there was no need for him and He Hongwei to come over. If the Brilliant Group was not eager to cooperate with the Kepong people, they would naturally consider it as long as the top gave a slight greeting.

However, the reality is that even though the top had given the word, the Brilliant Group did not buy it, but as a private enterprise, the top could not intervene directly because this was after all a commercial matter, and the Brilliant Group’s practice did not violate the law, so the top had to send He Hongwei over.

Moreover, it was the boss himself who gave the nod.

This shows how determined the Brilliant Group is to work with the Kepong people.

When He Hongwei was so angry, Ji Feng didn't quite understand: "Come on, calm down, as long as the Brilliant Group hasn't officially signed a contract with the Kepong people, the matter is not irreversible, let's take our time, there is always a solution!"

"There is definitely a solution, and I'm not angry because of this, but" He Hongwei grunted, "I'm pissed off by that guy named Shao Jie."

"Shao Jie?"

Ji Feng raised an eyebrow and asked, "Is that the young man with glasses who followed Zhai Yadong when we went to the Brilliant Group that time?"

For this Shao Jie, Ji Feng's impression was quite deep, and as soon as He Hongwei mentioned it, Ji Feng immediately knew who he was talking about.

Because this guy called Shao Jie had a very obvious hostility towards Ji Feng, so Ji Feng secretly investigated this person after meeting Shao Jie for the first time.

He originally thought that Shao Jie should also be the son of some big family or have some other origins, but things did not occur to him that Shao Jie was just a person from a very ordinary cadre family in Yanjing.

Apart from the fact that Shao Jie's old son had some real power in his hands, there was nothing special about their family.

He could not recall where he had offended him.

This matter had been placed in Ji Feng's mind, and now when He Hongwei mentioned it, Ji Feng was once again puzzled.

"It's not him!"

He Hongwei snorted coldly, his face grim, "This time when I went to the Brilliant Group, this person was even more arrogant than the last time, and his attitude was so brutal that he even tried to drive me out!"

Ji Feng immediately frowned, "Throw you out? Did you have a conflict?"

He Hongwei shook his head and said, "If there was a real conflict, there would be no need for me to be angry, I would just clean him up! The point is that there was no conflict, I was talking to Zhai Yadong, and this person ended up sticking his nose in the side and causing trouble from time to time!"

"Heh!"

Ji Feng shook his head and smiled, He Hongwei said that, he could understand it very well.

The arrogance and brutality of this person Shao Jie was something that Ji Feng had personally experienced, back when they first went to the Brilliant Group, this Shao Jie was wildly out of control and spoke with a gun in his mouth, which was very punchy.

However, at that time, Ji Feng and He Hongwei didn't have any common sense with him.

I can't imagine that he has become more and more arrogant instead, and has even developed to start driving He Hongwei outwards, so next time, won't he even be able to ask the security guards to blow them out directly?

"What exactly is this Shao Jie's status in the Brilliant Group? Why does Zhai Yadong bring him around every time?!" Ji Feng frowned and asked.

"How should I know what kind of identity!"

He Hongwei said with no good grace, "His external identity is the assistant to the general manager of the Brilliant Group, but look at his appearance, he can interrupt at will when Zhai Yadong is talking, and sometimes he starts to chatter before Zhai Yadong even makes a comment, which boss would want such an assistant?"

The first thing you need to do is to find an assistant, or else he wouldn't have to do his job, he would just be waiting for Shao Jie to make enemies for him!

Besides, that Zhai Yadong was a very shrewd person, why did he find such a person to be his assistant, did he still think he was in too good a mood, so he had to find someone to piss himself off from time to time?

"Hong Wei, have you ever thought that every time you go to Zhai Yadong, that Shao Jie is always present, so could it be that Zhai Yadong is doing this on purpose?" Ji Feng asked.

"I understand what you mean, but I think, that's not very likely." He Hongwei shook his head, "If Zhai Yadong wanted to refuse, there was no need for him to go around in such a big circle, it wouldn't be a big deal to just refuse!"

Ji Feng meant that Zhai Yadong did not want to talk to him and He Hongwei, but he could not save face, or rather, due to his and He Hongwei's status, he did not want to offend them too hard, so he simply brought Shao Jie with him and let Shao Jie be the villain, so that not only could he achieve the purpose of refusal, but Zhai Yadong himself did not have to offend them too hard.

But He Hongwei was the one who felt that although this possibility existed, it was not very big.

Since the Brilliant Group could not even give face to the top, why would they care about the two of them?

No matter what Zhai Yadong did, it would end up in an unhappy situation anyway, so why go around in such a big circle, it was totally unnecessary!

Because he and Ji Feng were not fools, if they were really annoyed then they would know who to settle this score with in the end!

"Since that's the case, it means that this Shao Jie must have other origins that we don't know about!" Ji Feng said in a deep voice, "Or maybe there's something unique about Shao Jie, something overpowering that makes Zhai Yadong rely on him so much!"

"That's unknown."

He Hongwei shook his head and said, "It looks like, with Shao Jie in the middle of the block, it's difficult to get a breakthrough from Zhai Yadong, now we have to make second hand preparations"

Ji Feng nodded and said, "By the way, how far have the negotiations between the Brilliant Group and the Boundary Pontiffs gone?"

"We don't know yet, both of them are strictly confidential, it's not that easy to find out." He Hongwei said, "However, according to the information I got, I'm afraid they are not too far away from formally signing the contract."

"How do you know that?" Ji Feng immediately asked.

"Because my people are in the Brilliant Group!" He Hongwei nodded, "I heard that in the recent week, the people from Boundary Peng have come three times, apparently the two sides are in close contact, according to my deduction, they should be having final consultations here, and as long as some details are agreed upon, I'm afraid that they can officially cooperate."

"Humph!"

Ji Feng sneered and said, "If you have milk, you are a mother!"

"This is all understandable, the key question is, I'm just a little confused, why does the Brilliant Group have to cooperate with the Kepong people?" He Hongwei frowned and said, "Just because the Kepong people's technology is a bit more advanced and give more money?"

Ji Feng asked, "Is this the reason given by the Brilliant Group?"

He Hongwei nodded, "Isn't it!"

Ji Feng shook his head and smiled, he really didn't think about these two reasons, frankly speaking, the technology of the people of Jie Peng was indeed very advanced, especially in some industrial finishing and processes, etc. Jie Peng's technology level was indeed far more advanced than China's, if the two sides cooperated, it might really allow the Brilliant Group to gain a lot of benefits.

However, Ji Feng felt that this reason did not hold water because the Brilliant Group was not just a mere private enterprise, but it was also an asset of the Wu family and a source of wealth for the Wu family.

The fact that the Wu family didn't even care about the slightest impact really made Ji Feng think a little bit.

But there were things at the top that Ji Feng didn't know much about, and He Hongwei likewise couldn't say, so they could only rack their brains to find a way to stop it, but they couldn't get to the source.

"If we could know why the Brilliant Group was just so determined to work with the Kepong people, perhaps things would be much better!" Ji Feng mused.

As long as the root cause was found, the problem could be solved at the root.

"Is there something the Wu family is asking of the Boundary Pontiffs?" Ji Feng asked with a frown.

"Who knows!"

He Hongwei shook his head and said, "The two of us should stop guessing here, it's just a waste of time, let's think about what to do next."

Ji Feng said, "There will definitely be a way, no need to get so fired up By the way, you've also made contact with the Kepong people, did you get anything?"

He Hongwei immediately asked, "Look at my current appearance, what do you think I will gain?"

Ji Feng then shook his head and laughed, it was obvious that He Hongwei had probably touched the dust with the Kepong people as well.

"The Kepong people are polite, but they just don't pull in this direction, as long as I mention it, they immediately change the topic, I can't afford to overly pursue" He Hongwei shook his head somewhat helplessly, to say the least, there is no relationship between him and the Kepong people, so people do not answer his questions, it is also natural.

"The people of Kailong are still polite?" Ji Feng shook his head and laughed at once.

Campus Master Chapter 2207

"The people of Kepong are still polite?" Ji Feng shook his head and laughed at once.

"Brother Hongwei, you wouldn't not understand what kind of character the people of Kailong are, right?" Ji Feng asked, "They can all be a bunch of people who don't care about profit!"

He Hongwei shook his head and smiled, saying, "That's a bit of a generalisation on your part."

Ji Feng shook his head and said, "Maybe so, anyway, I wouldn't think that the Kepong people are genuinely polite to us, instead I would think that the more polite they are, the more they want to achieve some ulterior motive instead!"

Although Ji Feng had not dealt with the Kepong people many times, and each time was basically a hostile situation, and there were even times when swords were drawn and the atmosphere was extremely tense, this did not prevent Ji Feng from understanding the Kepong people.

In fact, from the time when China had just started to open up shortly after, the Kepong people came over, and at that time, they appeared to be very polite and appeared to be very courteous, bowing and apologising at every turn and so on, causing the mainland officials to be somewhat inflated with vanity and very satisfied with the Kepong people's attitude.

Of course, they are even more satisfied with the investment brought by the Kepong people.

However, we do not know that all the politeness and courtesy of these people is actually an illusion, because the so-called investment projects brought by these people are all heavy polluting projects, such as chemical projects, paper making, and so on.

The projects they invested in were already obsolete in the country and in the West, and even if they could be put into production, they would have to spend a lot of money on pollution treatment equipment, otherwise they would not pass the test.

But we in China did not know this at that time, and when we saw that the other side was investing heavily, we did not care about the pollution, and we introduced it all at once.

But no one would have thought that after only one or two decades, the local pollution would become so serious that it would be unbearable and even threaten the lives of the local people!

For example, the cancer villages that were once a national sensation, and other areas where various strange diseases were frequent, were surrounded by these factories!

Although those so-called experts and the so-called investigation teams claim that there is no direct evidence yet that the frequent occurrence of these strange diseases among the people is related to the surrounding factories, in reality, it is obvious to the discerning eye what is actually going on.

As for the claims of those so-called experts, I'm afraid no one is unaware that there are some so-called experts who are worse than those whores who earn money by crossing their legs, but have thicker skin than anyone else, and whoever believes them is really stupid!

In fact, this is not all, the blackness of the people of Kepong is not only these.

What impressed Ji Feng the most was that the Kepong people had been circling resources in China, because at that time, China's equipment was backward and the level of technology was not good, so many useful resources in China could not be detected at all, or simply did not know which things were resources and which were just ordinary things.

At that time, the Kepong people took advantage of this opportunity to invest heavily in this area in China, and as a result, they did not know how much good stuff they had circled, and even included some very precious resources.

In addition, Ji Feng once saw a news story about a Kepong enterprise that had invested in tourism in a certain place in China and had chartered a mountain, but later someone found out that the Kepong people were not very active in developing tourism at all, and just walked around the mountain all day.

And then, the Kepong people suddenly said that the place was not suitable for development, took the initiative to compensate a large sum of money for breach of contract, and then all went back to their homes.

Later, someone found that deep in that mountain, there were scattered pieces of antique porcelain, and there were traces of digging around people then knew that the gang of Kepong people had not come to invest at all!

It was only a few years later that news broke out that the Kepongese had obtained a treasure map through an old devil who had participated in the invasion of China – in fact, when the devils surrendered, they secretly brought back to Kepong a large amount of precious treasures scavenged from all over China, but the majority of the rest were hidden in place. They made treasure maps, perhaps for a comeback later, or perhaps with the mindset that they would rather hide them than leave them to China.

The Kepong people were given such a treasure map and then, under the guise of investment, they fooled the local officials and ended up taking away a lot of treasure – just look at the area excavated in the mountain, you can see how much treasure is buried there!

And the matter was suppressed by the local government, and the news media rarely reported it

And all of this was done under the cover of the polite people of Kepong!

The first thing you need to do is to say that the people are polite, but it would be more accurate to say that they are hiding a knife in their smile!

“All these things you’re talking about are in the past tense.” He Hongwei shook his head and said, “Back then it was just because we lacked insight and hadn’t seen the outside world, whether we were the people or the officials, so we suffered a lot of losses, but it’s different now.”

“I don’t see what’s different!” Ji Feng hummed, “Could it be that the Boundary Pontiffs aren’t the ones who want to get hold of those few important projects in the hands of the Brilliant Group now?”

“At least, it’s no longer possible for them to get so much from China with such a small price!” He Hongwei said.

“That’s true!”

Ji Feng nodded and smiled, “This is also a kind of progress! Just isn’t this progress too big a price to pay?”

When He Hongwei heard that, he could only shake his head and smile bitterly.

Although he was somewhat reluctant to admit it, he had to say that what Ji Feng said was correct, and that China had indeed taken too many detours and paid a price that was simply too high.

“Because of this, we can’t let those important projects fall into the hands of the Kepong people any more!” He Hongwei said, “So, no matter what, we have to stop the Brilliant Group from cooperating with the Kepong people, no matter what!”

Ji Feng nodded, all these years, one could even say that in this century-long history, the things that the sector ponies had scavenged from China were just too much, they were like a blood-sucking vermin, attached to China’s body desperately sucking blood, and it had continued until now!

So no matter what, this time, we can’t let KAI Peng get any more benefits from Huaxia.

“Dang it”

Suddenly, the phone rang.

“It’s your phone!” Ji Feng reminded.

“Well!”

He Hongwei nodded and took out the phone and walked out, but after just a few moments, He Hongwei walked in with quick steps and a gloomy face.

Seeing this, Ji Feng couldn’t help but ask, “What’s wrong?”

This guy had gone out to answer a phone call and came back with a pale face, obviously something had happened.

Although he already had an expectation in his heart, He Hongwei's answer still made Ji Feng quite surprised only to see He Hongwei's gloomy face and said in a deep voice: "I just received news that tomorrow the Brilliant Group and the Boundary Pontiffs might have a final negotiation!"

Ji Feng was stunned: "The last negotiation?"

Immediately, he snapped to attention and his brows immediately furrowed as he asked, "In that case, they have basically negotiated between the two sides now?"

Ji Feng noticed that He Hongwei was talking about the last negotiation, not the last negotiation, which meant that the other details of the cooperation between the two sides should have already been negotiated, and now there were only some final issues left, just waiting for tomorrow's negotiation to be completed, which would be tantamount to officially starting the cooperation.

Negotiations involving major projects of this kind are always protracted and it is not too much to say that it is a tug-of-war.

That's why they've been talking for so long.

And now, it looked like they were about to formally collaborate.

He Hongwei sank his face and nodded, "It seems that both of them have already negotiated all the conditions, and the last negotiation tomorrow, I'm afraid, will just be to talk over the last few side issues these bastards!"

The last thing I said was that even the always gentle and elegant He Hongwei couldn't help but burst into foul language.

Ji Feng's face wasn't too good either, the Brilliant Group and the Boundary Pontiffs were going to have one last negotiation, which meant that all the efforts he and He Hongwei had made before were tantamount to being wasted.

What's more, once they reach an agreement, those important projects that the Brilliant Group holds in their hands will be easily obtained by the Kepong people, and perhaps the Kepong people will pay a large sum of money, but there are many things that cannot be counted in money alone!

Kepong's land is small and its resources are poor, and that is precisely why they invaded China and plundered resources back then.

Therefore, using money to exchange for important resources and projects was naturally a great deal for KAI Peng, but for China, it might not be so.

"..... bastard!" He Hongwei, however, had a gloomy face and gritted his teeth, "What a good man!"

"Pah!"

Ji Feng slapped the table and stood up violently, "Go!"

He Hongwei was stunned, "Where to?"

"To the Brilliant Group!" Ji Feng said in a deep voice, "I want to confirm this news to Zhai Yadong in person!"

“Is this still necessary?” He Hongwei asked with a frown, “Since my people were able to get this news, it means that it’s definitely not a fake, things have been finalized”

“You can even sign a contract and still break it, not to mention that there is a negotiation to follow!” Ji Feng said, “No matter what, I don’t want to ask about it personally!”

He Hongwei deliberated for a moment and nodded, “Well then, let’s go together, I’d like to see if the Wu family is a king who eats scales, he’s got an iron heart?!”

“Go!”

This sudden news instantly enraged Ji Feng and He Hongwei, this practice of the Brilliant Group was undoubtedly the Wu family’s intention.

They were ironclad!

Campus Master Chapter 2208

When Ji Feng and He Hongwei both arrived at the Brilliant Group, Zhai Yadong was sitting behind his desk, not knowing who he was talking to on the phone.

“Boom~!”

Ji Feng pushed the door of Zhai Yadong’s office open with one hand, and then, amidst the eagerly blocking voice of the receptionist lady, Ji Feng and He Hongwei walked straight in.

Zhai Yadong was holding the phone in his hand, maintaining this posture, but his stunned eyes fell on Ji Feng and He Hongwei’s body.

“Mr. Zhai, they” the reception lady was full of anxiety, “I can’t stop them”

“It’s okay, you go out.” Zhai Yadong hurriedly closed the phone and waved his hand at the reception lady, then looked at Ji Feng and He Hongwei in consternation and asked, “Mr. Ji, Mr. He, what are you”

“Wow”

Ji Feng casually pulled the chair opposite his desk away and sat down in a grand manner, but his gaze was fixed on Zhai Yadong.

He Hongwei likewise sat down, and, his face wasn’t too good either.

Zhai Yadong was a bit uncomfortable by their stares and could not help but ask, “Mr. Ji, Mr. He, do you two suddenly come to my place, is there something wrong?”

“Ugh”

Ji Feng didn’t answer his question, instead he shook his head and sighed.

As a result, Zhai Yadong became even more uncomfortable as he hurriedly asked, “Mr. Ji, what are you”

The way Ji Feng looked at him, it was almost as if he was looking at a dead person, which made Zhai Yadong's heart very weak, could it be that Ji Feng was going to do something to himself?

This is not right either, the way Ji Feng looked at himself was with pity, not ruthlessness.

Could it be that Ji Feng had heard something about himself and knew that he was going to be unlucky?

As soon as he thought of this, Zhai Yadong sat down a little, but after all, he had been in the shopping mall for so many years, and his mind had been practiced long ago, so even though he was a little beaten up in his heart, he still kept a smile on his face.

"Mr. Zhai, there is no other reason for coming to you today, I just want to confirm a message with you!" Ji Feng finally spoke up.

"What news, please say!" Zhai Yadong immediately perked up and said busily.

"I heard that the Brilliant Group is going to have a final negotiation with the Kepong people tomorrow?" Ji Feng asked, "I wonder if this news I've heard is true?"

"So it's this"

Zhai Yadong's heart was relieved and he immediately laughed, he thought it was something, just now Ji Feng and He Hongwei had barged directly into his office in an aggressive manner, making him almost think that these two gentry were going to do something to him directly here, but now he realized that, dare I say it, these two were here for the negotiations!

Zhai Yadong immediately understood what was going on, and the original shock and worry in his heart disappeared without a trace, replaced by a quick turn of mind as he began to calculate and deliberate his words.

At this time, Zhai Yadong was not afraid, instead he thought about how to deal with Ji Feng and He Hongwei.

In fact, what Zhai Yadong feared the most was that Ji Feng and He Hongwei would disregard their status. One must know that apart from being businessmen, these two men were also the sons of world families, which was their main status.

Like these people, they may look genteel on the surface, but in reality, these people can be all arrogant and domineering, especially the kind of arrogance and hubris in their bones, which is deep in their bones.

The opposite of this character and status is the lack of discipline.

This is what Zhai Yadong was afraid of. As the boss of the Brilliant Group, if he was beaten up by Ji Feng and He Hongwei right here, he would really have no place to put his face!

But now when Zhai Yadong knew the purpose of Ji Feng and He Hongwei's visit, he was instantly relieved, it seemed that Ji Feng and the two of them were still talking about the rules, that was good, in this business world, who he was willing to cooperate with was his own business, even if they were unhappy, what could they do?

So for a short moment, Zhai Yadong's whole body was quite relaxed.

However, Zhai Yadong did not answer Ji Feng's question immediately, but asked, "Mr. Ji, can I ask where you heard this news from?"

"You only say if this news is true!" Ji Feng said. The source of the news, he naturally would not tell Zhai Yadong.

Zhai Yadong's eyes narrowed slightly, this tone of Ji Feng's voice and this tough stance of his made Zhai Yadong a bit uncomfortable, this was far from the kind of attitude Ji Feng had when he first came.

"Mr. Ji, how can I put it, you and Mr. He are both in business too, so you must know that this kind of information is all business secrets, and as the general manager of the Brilliant Group, I naturally can't reveal it"

"Mr. Zhai, since we have heard of this news, do you think that we would have come to you if we didn't have to?" Ji Feng directly interrupted Zhai Yadong's words, "So, I advise you not to play any sloppy games with us either!"

"This"

Zhai Yadong immediately just choked, he didn't expect Ji Feng to be so sharp today, which made him more or less uncomfortable, because he had been dealing with He Hongwei before, all of them were kind of gentle and elegant, now Ji Feng's style was very different from He Hongwei's, harsh, direct, which made Zhai Yadong feel a kind of harsh sharpness.

Ji Feng is like a sharp treasure knife, just out of the sheath, that sharp blade let cut people's skin vaguely painful.

"..... Well, since you guys are asking about it, I won't hide it." Zhai Yadong nodded slowly and said, "That's right, the negotiations between our Brilliant Group and the Lingxia Group of Kepong have basically been completed, and both sides have also reached a basic framework of cooperation"

"Does your cooperation include that strategic project under the Brilliant Group?" He Hongwei asked.

"In my opinion, all of our Brilliant Group's projects are important projects, and they can also all be called strategic projects!" Zhai Yadong smiled faintly.

"Heh!"

Ji Feng shook his head and said, "Chief Zhai, do you think it's interesting to beat around the bush like this?"

The smile on Zhai Yadong's face stiffened for a moment, then he shook his head to, "Gentlemen, I know what you are here for, but this is indeed a business secret of our Brilliant Group, which cannot be told to outsiders, besides, I am only a part-time worker, so I always have to think about my own future!"

Ji Feng shook his head and said, "Mr. Zhai, I'm not here today to listen to your complaints, I just want to hear an accurate statement!"

A difficult look appeared on Zhai Yadong's face, "Mr. Ji, you're putting me in a bit of a difficult position"

Ji Feng stared at him and did not speak.

When Zhai Yadong saw Ji Feng's sharp eyes, he was uncomfortable, so he could only rub his shiny head and grin, while his gaze moved away from Ji Feng's face, not meeting his eyes.

"Very good!"

Ji Feng nodded his head and stood up, "Mr. Zhai, that's all."

"Mr. Ji, I'm sorry to make you make a trip for nothing"

"It's also the last trip!" Ji Feng said.

"Sh, what?" Zhai Yadong was stunned.

Ji Feng stared into his eyes and said in a deep voice, "I said, this is the last time I come to the Brilliant Group! In the future, I won't set half a step here again, unless when, this is no longer the Brilliant Group!"

Zhai Yadong's face changed, then he chuckled, "Mr. Ji is joking"

"Mr. Zhai!"

He Hongwei also stood up and said, "There's no need to say extra nonsense, your attitude, it's already very clear!"

Zhai Yadong opened his mouth, but did not know what to say, but could only smile bitterly and said, "Don't be angry, you two, in fact, I am also very difficult, please bear with me"

"One can't live just for money." He Hongwei, however, did not listen to Zhai Yadong's explanation at all, "Moreover, sometimes things cannot be done too far, you always have to leave yourself a way out, but here you are, I see neither of these, it's really a pity"

Zhai Yadong's face changed again, and he was just about to speak when he heard a sudden cold laugh from outside.

"Humph! What a big mouth, how dare you come to our place and make a big speech!"

Immediately afterwards, he saw Shao Jie walk in, with a cold smile on his face, "Yo, I said who is it, it turns out to be the two gongzi brothers, what, after bullying others who are old and weak, now you want to bully us again? But it's a pity, although we are just ordinary people, but not everyone can be bullied!"

Ji Feng's eyes narrowed at once and he gave Shao Jie a deep look.

The meaning in Shao Jie's words, he immediately heard it, this person was talking about him dealing with Qiao Rong, the so-called old, weak, sick and disabled, wasn't Qiao Rong a disabled person!

"General Zhai, is this temper of yours not a bit too good?" At this time, Shao Jie sneered, "Next time someone dares to barge in like this, just call the police."

He Hongwei's face immediately sank, Shao Jie was too arrogant!

Ji Feng glanced at Shao Jie, but found that the latter was also looking at himself provocatively, he shook his head and said, "Brother Hongwei, let's go!"

He Hongwei nodded, then gave Zhai Yadong another glance and said, "Mr. Zhai, I hope you can remember my words, there is no good end for people who are too arrogant!"

"Hmph!"

Shao Jie sneered, "Is that a comment on me?"

Who knows, He Hongwei didn't even pay attention to him, turned around and left, Shao Jie's face suddenly sank a little.

And then, Shao Jie and Zhai Yadong looked at each other again, and they both smiled heartily at the same time.

Shao Jie skimmed his mouth and said disdainfully, "What the hell, they still dare to come here to spill the beans they really think that this South Guangdong is their home, huh? I think ah, these two people are just wildly used to it, and really think that everyone should give them face?!"

Zhai Yadong smiled and said, "Shao Jie, be careful with your words! Things can be done, words should be said sparingly, it is best if you can not provoke them, these two, after all, are not ordinary people ah"

"Bullshit!"

Shao Jie sneered disdainfully.

Campus Master Chapter 2209

Zhai Yadong smiled and said, "Shao Jie, be careful what you say! Things can be done, words should be said sparingly, it is best if you can not provoke them, these two, after all, are not ordinary people ah"

"Bullshit!"

Shao Jie sneered disdainfully.

"Aren't they two just a little bit of origin and a little bit of background?" Shao Jie sneered, his face full of disdain, "Where is Young Wu inferior to them? I won't even give them face today, I want to see what they can do to me!"

"It's better to be more cautious!"

Zhai Yadong shook his head and said, "We are businessmen after all, while they are the sons of a family, if we really fight, although we may not be afraid of them, but it will always delay business, right?"

Shao Jie sneered, "That also depends on where they are! Maybe they have some power in Yanjing, but in Southern Guangdong, what are they?"

Zhai Yadong only shook his head and smiled bitterly at his words, not saying anything else. But in reality, he was a bit dismissive of Shao Jie's words, and even a bit disgusted.

Shao Jie was a bit too arrogant!

I'm afraid he has forgotten how frightened he was before, and now that he sees that nothing is wrong, he ends up being arrogant again

In fact, just a few days ago, Shao Jie had been panicking and fidgeting all day long.

The reason is that when Ji Feng was attacked and killed before, Shao Jie was completely gloating good look, and even pushed the wave, privately looking for people to spread rumors everywhere outside, slandering Ji Feng and saying some gossip.

As a result, no one had expected that Ji Feng, who had not been moving much, would suddenly make a big move, resulting in a large number of people being arrested, and even Qiao Rong, the mastermind behind the scene, could only flee in disarray, not daring to show his face at all.

The thunderous anger of Ji Feng and the Ji family shook everyone.

The first to bear the brunt was Shao Jie!

Because Shao Jie knew better than anyone what he had done, and now that the Ji family was so thunderously angry, how could they not settle accounts with him?

So during this period of time, Shao Jie was really on tenterhooks all day long. Don't look at the fact that he was still tough-mouthed on the surface and did not put the Ji family and Ji Feng in his eyes, but in reality, Zhai Yadong could tell at a glance that Shao Jie was far worse than his previous arrogance and cockiness.

During that period of time, Shao Jie simply looked like he was doing his job with his tail between his legs.

However, when news came from above that the matter had passed and that the people from the Ji family would not come back to trouble them, this Shao Jie immediately seemed like a new person, and the whole person instantly became rampant again, even more rampant than before, and did not put Ji Feng in his eyes even more.

This made Zhai Yadong disdainful in his heart.

If it wasn't for the fact that Ji Feng and He Hongwei were talking to them as businessmen, to put it bluntly, they wouldn't even be qualified to sit down and talk to Ji Feng and He Hongwei!

Hadn't they heard that when they were in Yanjing, the young man Wu couldn't even get a good deal in front of Ji Feng, so who were they?

The only reason why Ji Feng and He Hongwei are here now is because they are interested in the projects in their hands, and also because behind the Brilliant Group, there is the Wu family backing them up, otherwise, would Ji Feng be so polite to them?

Besides, the reason why the people of the Ji family would not pursue the last incident was actually something that Zhai Yadong could guess.

That was because, during the fiasco that happened last time when Ji Feng was attacked and killed, the Ji family was thunderstruck and as a result, they struck hard and ruthlessly knocked out a large number of officials from the Wu family lineage, which even included a few cadres!

Even the governor of Southern Guangdong, who had openly criticised Zheng Yuanshan in the Standing Committee, was backhandedly slapped in the face by Zheng Yuanshan with a few pieces of information and excuses such as cooperation with the military.

As a result, the governor's prestige almost fell to the ground, and he even became the laughing stock of the officialdom in Southern Guangdong!

Although no one dared to ridicule the governor of a province to his face, the effect of that invisible and almost majestic sweep was omnipresent.

Officials who are not from the Wu family are now said to be able to stand up straight, something that has never happened before!

In the past, this Southern Guangdong was the world of the Wu family, and other officials could only accompany them here, but now, everything has started to change.

I heard that for some time now, the governor doesn't even speak much during meetings, and usually doesn't even show a smiling face, just a dark face all day long, while some of the staff around the governor don't even dare to speak loudly for fear of being affected by the innocent!

Thinking about this, and looking at Shao Jie's arrogant appearance, Zhai Yadong could not help but secretly shake his head.

He also said that others were only relying on their background and status, but aren't you Shao Jie the same?

What's more, the reason why you are now safe and sound is not because the Wu family made concessions to the Ji family, and a large number of seats vacated in Southern Guangdong were filled by the Ji family line.

Now this Southern Guangdong is not the world of the Wu family that you thought Shao Jie was in, the power of the Ji family has officially come in!

But this is something that Zhai Yadong will definitely not say, with his shrewdness, he naturally will not do such a thing that is not pleasing to the eye, at least in front of the Wu family, Shao Jie is more favored than him, not to mention, offending Shao Jie for no reason, naturally, is not a good thing.

So Zhai Yadong just shook his head and smiled.

The company's main business is to provide a wide range of products and services to the market. They came to Southern Guangdong with such fanfare and tried to stop us from cooperating with the Lingxia Group, and even arrogantly came over to warn us, but now what? They've been defeated! Haha"

Zhai Yadong smiled and said, "It's mainly because young Wu helped us resist the pressure, otherwise, I'm afraid our cooperation with Lingxia Group would have been called off long ago."

Shao Jie nodded noncommittally and said, “Old Zhai, wait and see, aren’t Ji Feng and He Hongwei crazy? Then let’s see how they’ll end up this time! I don’t believe it, can they still rush in with guns and force us to stop cooperating with the Lingxia Group?”

Zhai Yadong shook his head and smiled, pretending that he hadn’t heard these words, and he also pretended not to hear Shao Jie’s deliberate change of topic.

But in his heart, he was secretly keeping an eye out.

“It looks like Shao Jie doesn’t seem to be much of a fan of Wu Shao” Zhai Yadong had something in mind.

However, for some of Shao Jie’s other statements, Zhai Yadong still agreed with them.

For example, this time the cooperation matter, Ji Feng and He Hongwei afraid that it will not be able to close the ministry.

If they were just two ordinary people, or just two yakuza, then it would be fine for them to come and threaten to stop the cooperation between the Brilliant Group and the Lingxia Group – who would care about the words of two yakuza?

But unfortunately, Ji Feng and He Hongwei were not yakuza, on the contrary, their every move would attract the attention of countless people, because their actions might represent the meaning of the families behind them!

But then, if they lose face, it would mean that the family behind them loses face, and that would be a disgrace

The first thing you need to do is to get a good idea of what you’re doing.

So, if Ji Feng and He Hongwei disgraced themselves this time, I’m afraid that the prestige of the Ji and He families would be weakened quite a bit!

Thinking of this, Zhai Yadong was very impressed, the Wu family is the Wu family, although they lost a lot of important positions, but, through this matter both hit Ji Feng and He Hongwei, and at the same time also indirectly hit the Ji family and He family, it is considered to have recovered the field!

Thinking about what He Hongwei and Ji Feng said to themselves, Zhai Yadong couldn’t help but shake his head and laugh, secretly saying: “Two little brats are still here to lecture me? Let’s see how you guys end up this time!”

.....

“Bastard thing!”

Meanwhile, after Ji Feng and He Hongwei left Zhai Yadong’s office, He Hongwei couldn’t help but look blue and couldn’t help but curse angrily, “See! Did I not wrong him when I said he was arrogant?”

Ji Feng nodded and said, “See” is arrogant enough!”

“Not just arrogant!”

He Hongwei shook his head and said in a deep voice, "I see that he is arrogant enough!"

Shao Jie's arrogance really enraged He Hongwei, he had never seen such an arrogant person in all his life, especially, this Shao Jie was not moving to talk about his and Ji Feng's identity, which made He Hongwei extremely disgusted!

And this action of Shao Jie's was enough to show that he didn't put the Ji and He families in his eyes at all, which irritated He Hongwei even more.

"If I were five or six years younger, I would have given him a big slap on the face!" He Hongwei said in a deep voice.

A child doesn't resent his mother's ugliness and a dog doesn't resent his family's poverty, no matter who knows how to protect his family, let alone those of them who are already very family conscious, the sons of the family?

Shao Jie's behavior had angered He Hongwei!

"Heh"

Ji Feng immediately shook his head and lost his smile, it seemed that He Hongwei was not lightly angry, even someone as gentle and elegant as him had said such words, it was obvious how angry he was!

"What are you going to do next?" He Hongwei asked after a pause. He was already a very cultured person, and he was also furious just now, and after a simple vent, he quickly returned to his calm and collected state.

"What's the plan?" Ji Feng asked.

"What, you still have a solution?" He Hongwei asked, "The situation at hand is already very clear, the cooperation between the Brilliant Group and the Boundary Peng Lingxia Group should already be considered a done deal, unless some miracle occurs or the Wu family changes its mind, then things are already irrevocable!"

Speaking of this, He Hongwei shook his head and smiled bitterly, "In the end, this time when I came to South Guangdong, my mission was not completed failed!"

Campus Master Chapter 2210

Speaking of this, He Hongwei shook his head and smiled bitterly, "In the end, this time when I came to South Guangdong, my mission was not completed and I failed!"

He Hongwei's tone was somewhat dejected and lost.

This time he had come to Nan Yue with a mission in itself, to stop the cooperation between the Brilliant Group and the Lingxia Group, to resolutely not let that strategic project fall into the hands of the Kepong people, to make the Kepong people fail to achieve their goal

But now, it seems like a joke!

This made He Hongwei more or less dejected, and his heart was lost.

“Failed?”

Ji Feng shook his head and sneered, “That’s not necessarily true, isn’t it said that even after signing a contract, they can still breach it, let alone now that they haven’t signed it?”

He Hongwei asked, “Do you have a solution?”

Ji Feng shook his head and said, “I haven’t thought about it yet, but I think there’s always a way

“We’ve done everything we should have done, but it still hasn’t worked.” He Hongwei shook his head, “Now it seems that at first my estimation was too optimistic.”

It wasn’t that He Hongwei couldn’t withstand a blow, it was just that this failure was so hopeless!

In order to stop the cooperation between these two parties, He Hongwei had made a lot of efforts, even going so far as to use the Tianyao Group to combat the Brilliant Group, and Ji Feng had also unleashed the weapon of public opinion to put pressure on the Wu family.

However, it did not occur to them that they had failed in the end.

This little tactic of theirs, how it all seemed like a child’s game in front of the Wu Family, was so ridiculous!

This kind of blow was the heaviest for He Hongwei.

Originally, he thought that with his means, if he wanted to deal with the Splendid Group, even if it was difficult but it wouldn’t be that hard, because he knew more than anyone else about some of the doorways in the shopping mall.

But now he realises that in China, rules and doorways are not the most important thing at all. What can really play a key role is the higher level of power.

As long as the Wu family didn’t fall, the Brilliant Group could do whatever they wanted without having to worry about anything at all, and no one could rule them!

“Brother Hongwei, don’t be discouraged, there will always be a way out!” Ji Feng also saw that He Hongwei was a bit dejected, and couldn’t help but pat his shoulder and say, “This is not like your character, Big Brother He!”

“I’m not discouraged

“Isn’t that better?” Ji Feng laughed, “Many people don’t really understand things until they die, so if you can see some sense now, be content! Come on, don’t look so downcast, otherwise people will think that you, the titled Young Master He, can’t even fight a few lapdogs of the Wu Family, and then the Wu Family will definitely be even more proud!”

“That would have been the case!”

He Hongwei shook his head and said, “This time, it’s a big loss of face!”

This time, the Martial Family didn't even come out, only Zhai Yadong and Shao Jie were in the front, but as a result, he was unable to do anything at all, was even in the dust, didn't this just show that he couldn't even fight a few of the Martial Family's lapdogs?

Is there anything more humiliating than this?

Especially when he thought of that bastard Wu Zhiyong, He Hongwei's heart became even more clogged.

Thinking about the feud between the two of them, and then looking at the way he looked now, He Hongwei felt uncomfortable in his heart, he had once again lost to Wu Zhiyong's men!

He Hongwei can even imagine that now Wu Zhiyong must be laughing with glee, even laughing at himself with impunity

The reason for this is because the grudge between him and Wu Zhiyong is too deep, and the opinions have been entangled for a long time, during which time, He Hongwei has been looking for opportunities to get out of his heart, and Wu Zhiyong is also not missing any opportunity to deal with He Hongwei.

The enmity between the two sides was getting deeper and deeper, and even from the very beginning the hatred between them was irreconcilable.

Especially when it was a woman's hatred, any normal man would hate her to the bone, and for He Hongwei to have endured it up to now, his patience was already quite good!

And this time, although he said he wanted to stop the cooperation between the Brilliant Group and the Lingxia Group, it was difficult for He Hongwei to avoid bringing in some personal emotions and personal grudges into it.

Therefore, his determination to stop the Brilliant Group was more resolute than anyone else.

But the result was a blow to He Hongwei's head – he was unable to stop the cooperation between the Brilliant Group and the Kepong people, not to mention taking revenge on Wu Zhiyong, and even a few of Wu Zhiyong's lapdogs could even flaunt their authority in front of him.

That Zhai Yadong, despite his smiling face, but when it's time to strike he is not soft at all, knowing full well that both he and Ji Feng are going to stop this cooperation, he still continues to negotiate with the Kepong people without any scruples, and even now has reached the end

As for that guy called Shao Jie, that was even more outrageous, he provoked again and again, really arrogant to the extreme!

He Hongwei's face was gloomy, and a cold light flashed in his eyes.

Even these two lapdogs of Wu Zhiyong's couldn't fight, how could they fight with Wu Zhiyong?

He Hongwei shook his head, his heart slightly chilled.

"So, what are you going to do next?!" Ji Feng's voice pulled He Hongwei's thoughts back to reality.

"I'm going to stay in Southern Guangdong and wait until after the Brilliant Group officially signs the contract with the Lingxia Group before I leave!" He Hongwei said in a deep voice.

“You mean the last negotiation tomorrow?!” Ji Feng asked.

He Hongwei nodded and sighed softly, “That’s right! Tomorrow is their last negotiation, and I want to do something more! If I just go back like this, not only will I not be able to answer to the boss, I won’t be able to answer to myself either!”

Ji Feng nodded and said, “That’s right, we can’t give up until the last minute, otherwise, all the efforts we made before would be in vain!”

After a pause, Ji Feng added: “But then again, since you have your eyes on their last negotiation tomorrow, what do you plan to do?”

He Hongwei said in a deep voice: “There’s no good way to do it now, we can only put pressure on the Wu family from above again!”

Ji Feng shook his head and said, “That may not have any effect.”

If pressure could work, then the Wu family would have bowed down long ago, knowing that even the top brass had gestured to the Wu family, but to no avail, otherwise, the old boss wouldn’t have had to let He Hongwei come to Southern Guangdong.

It is evident that the Wu family is determined, no one can say anything.

Then now He Hongwei may not be able to do anything if he takes the upper route again.

“Then we have to try again too!” He Hongwei gritted his teeth, and after a pause, he said in a deep voice, “If it doesn’t work, I’ll go all out to suppress the Brilliant Group”

Ji Feng, however, just shook his head and said, “All right, let’s take the edge off!”

If you want to suppress the Brilliant Group, it is undoubtedly necessary to use the Tianyao Group, which is not something that He Hongwei alone can decide, the Tianyao Group is the asset of the entire He family, whether the He family will agree because of it, no one can say.

What’s more, even if the He family agrees, it’s not easy to suppress the Brilliant Group, and we must know that the Brilliant Group is not a soft persimmon.

This is totally unwise to kill a thousand enemies and lose eight hundred at your own peril!

What’s more, even if we go all out to suppress the Brilliant Group, it won’t work in a short time, or at least it will take a process, and by that time, the cooperation between the Brilliant Group and the Kepong people will have long been set.

So it was obvious that He Hongwei was completely under his breath when he said this, and Ji Feng did not take it seriously.

However, He Hongwei was shaking his head and said firmly, “Don’t worry, I know what I’m doing, I won’t be overwhelmed by anger!”

“I hope so!”

Ji Feng grunted, how he looked at He Hongwei was no longer as calm as before, this guy was at least in a fog even if he wasn't overwhelmed by anger, otherwise, with He Hongwei's wisdom, he wouldn't have thought of such a faint move!

The world is not the end of the world even if the Brilliant Group cooperates with the Lingxia Group, the Kepong people want to get those strategic projects and important resources, they think they have a big advantage, but who is sure that they are the ones who really take advantage? "

He Hongwei shook his head and smiled, not saying anything, Ji Feng's words were obviously a relief to him.

KAI Peng's land area was small and its resources were poor, the vast majority of the resources collected had to rely on imports, however, some truly strategic resources were restricted from export in many countries.

If Kepong could reach an agreement with the Splendid Group, they would be taking advantage even if they had to pay more in banknotes, because for Kepong, money is far less important than banknotes!

But for China, what they really need is technology, but obviously the Kepong people won't give out their core technology so easily, these kids are not stupid, they have been eyeing China all along, how could they give their core technology to their competitors?

They would only take advantage of China!

However, He Hongwei would not understand Ji Feng's meaning. Is it really taking advantage of the resources and several important projects that Kepong has received?

That may not be the case!

Ji Feng secretly sneered in his heart.

Admittedly, if the Lingxia Group reached an agreement with the Brilliant Group, it would indeed mean that the Kepong people had circled away a lot more resources from China, as well as several strategic projects, including a very advanced alloy project, and so on.

Moreover, the Lingxia Group is also the military industrial enterprise of the Kepong, which is almost like the spokesman of the Kepong government. Now that the Lingxia Group has circled away the benefits, it is also like the Kepong government has taken them away.

This does make people very uncomfortable and annoying by all means.

But

Ji Feng couldn't help but secretly shake his head and sneer.

"Swish!"

Just at this moment, the automatic door of the Brilliant Group building suddenly opened and a group of people walked in.

Ji Feng's eyes instantly narrowed slightly: "Boundary Peng people?!"
