The second sniper's accurate shot made Ji Feng more or less taken aback.

The accuracy of this person's shot and the speed of his reaction were enough to show that this was definitely an extremely good sniper, and definitely the kind of veteran who was extremely experienced.

This made Ji Feng couldn't help but frown, with this kind of veteran in, I'm afraid the next operation will be much more troublesome, and may even be dangerous.

The only other thing that could be done was to block their route with a sniper rifle, so that they would not be able to take a step forward, or even backward, because apart from the car, there was only the woods in the area that could be used for cover.

But the sniper was in the woods!

"Bastard!"

Just as Ji Feng was thinking quickly, he heard a roar of anger come out, and immediately afterwards, the two of them saw that Geng Shaohua was speeding towards his fallen companion, and at the same time, he did not forget to take the S route to prevent himself from being targeted quickly.

However, Geng Shaohua's thigh had already been stabbed by Liu Zejun, so his movement was naturally not as easy as a normal person, so his speed was naturally affected.

And with that sniper in the shadows, Geng Shaohua was naturally at a complete disadvantage.

"Boom~!"

A gunshot sounded and Geng Shaohua was seen to stumble violently, one of his legs went limp and he fell to his knees at once, then with a thud his whole body fell to the ground, but that huge inertia still made him roll forward a few times.

"BOOM! Boom boom!"

Then, the sound of gunshots from the opposite woods came one after another.

Geng Shaohua's reaction was so fast that the moment he fell to the ground, he rolled continuously with his inertia, but the other side's bullets were following him like a shadow.

"Boom!"

Another shot rang out, Geng Shaohua rolled his body desperately, but the next moment, he slid violently a meter or two, while on his shoulder, but a blood splash rose up!

Geng Shaohua had been shot again!

"Bastard!"

Geng Shaohua let out a stifled cry, and then he cursed, "The dog wants to tear down the bridge"

Ji Feng smiled, and then there was a flash of light in his eyes, Geng Shaohua's words had some other meaning, it seemed that Geng Shaohua seemed to know a lot of things.

“Boom!”

Another shot.

Geng Shaohua’s chest fiercely emerged another blood splash, at this moment he was simply unable to dodge, being hit by a bullet in the chest, he instantly fell on his back to the ground.

“Boom!”

In a flash, Ji Feng, however, suddenly stood up, then flung his hand and fired a shot in the direction where the gunshot came from, “Boom boom!”

Immediately after that, there were two more shots!

At the same time, Ji Feng shouted, “Guo Tao, save the others!”

Guo Tao didn’t pause, the moment Ji Feng’s words fell, he suddenly rushed out, rolled on the ground and instantly reached Geng Shaohua’s side, then grabbed his arm with one hand and dragged him backwards with all his might.

“Boom!”

At this time, Ji Feng stood directly beside the commercial vehicle and fired a shot in the direction of the sound of gunfire coming from the opposite woods.

The opposite side of the woods, however, was devoid of sound.

The cold light in Ji Feng’s eyes flashed and he hurriedly activated the bio-current to work on his eyes, he brought his vision to the extreme!

This was the opportunity he had been waiting for!

The sniper on the other side was hidden too deeply and was obscured by the woods, making it impossible for Ji Feng to see clearly where that person actually was, let alone see what he looked like.

In that situation, he wouldn’t even have a chance to counterattack!

He had to determine the sniper’s position before he could make a move. Moreover, he only had one chance to counterattack, and if he didn’t succeed, the sniper would definitely escape, and then there would be endless problems.

And so it was!

The sniper, after sniping several of Geng Shaohua’s companions in succession, began to make his move on Geng Shaohua, and in the process, Ji Feng had been carefully identifying, and as a result, he found that the direction from which the gunshots came from had not changed much at all.

Moreover, after observation, Ji Feng found that the sniper was firing more and more frequently, obviously because Geng Shaohua’s counter-attack and dodging had made him a little impatient.

This was a good opportunity!

So, a moment after that sniper fired his last shot, Ji Feng steeply began to counter-attack, flinging a shot at him.

The next moment, the sound of gunshots in the opposite woods disappeared without a trace!

However, Ji Feng had no intention of stopping at all, and after he fired several shots at the same point in succession, until Guo Tao dragged Geng Shaohua back, he then once again hid behind the commercial vehicle.

“Whew~!”

Guo Tao put that Geng Shaohua on the ground and couldn't help panting sharply for a few seconds, just now he saved Geng Shaohua back, it took a short time but the process was exceptionally dangerous, once Ji Feng's counterattack and cover was unsuccessful, then he, Guo Tao, might get a few bloody holes in his body from the sniper gun!

What's more, at this moment, Geng Shaohua had long since lost his mobility, relying entirely on Guo Tao to drag him along, and coming over in such a hurry, the physical exertion was not small.

“Boss, this guy is dead!”

Guo Tao kicked Geng Shaohua, who was lying on the ground, but seeing that he didn't react, he couldn't help but say.

Ji Feng squatted down and reached out to probe in front of Geng Shaohua's nose, but found that he was still breathing, he immediately pressed one hand on Geng Shaohua's chest and pinched his human centre with the other hand.

“Cough”

A few breaths later, Geng Shaohua suddenly coughed, but it was a mouthful of blood that spurted out, “Wang, son of a bitch”

“Awake?”

Ji Feng sneered and said, “Geng Shaohua, you came in a rage to kill me, but you didn't think you would end up in this situation now, right?”

Geng Shaohua seemed to be in a bit of a trance, and only after hearing Ji Feng's words did he slowly come back to his senses: “You saved me?”

Ji Feng was non-committal and did not answer his question, but sneered, “What, do you want to ask me to go back and assist in the investigation now?”

Geng Shaohua then paused for a moment as he coughed a few more times and suddenly asked, “How are my brothers doing?”

“You're the only one who's still alive!” Ji Feng said.

“Everyone else is quite corporeal!” Guo Tao sneered next to him, “You're really funny too, you guys clearly came to kill us, how come you ended up getting yourselves killed instead?”

“..... Someone crossed the river and broke the bridge!” Geng Shaohua said through clenched teeth.

Guo Tao was stunned, then immediately looked at Ji Feng, only to see Ji Feng’s face become grave: “Who is tearing down the bridge across the river? Who sent you?”

Geng Shaohua, however, gritted his teeth and did not speak.

Ji Feng immediately frowned: “Geng Shaohua, I’m afraid you know better than anyone what your current situation is like. It’s a crime to kill, but it’s not a crime to see death and not save”

“.....”

However, no matter what Ji Feng said, Geng Shaohua just gritted his teeth and did not say a word, as if the words just now were not his.

Ji Feng said in a cold voice: “Geng Shaohua, are you going to bring everything you know down there? Refusing to talk even after you die?”

“.....”

Geng Shaohua still didn’t say a word, as if he hadn’t even heard Ji Feng’s words.

This made Ji Feng couldn’t help but be a little angry, from Geng Shaohua’s words it was not hard to hear that this person was definitely instructed by someone else to kill himself, only, perhaps because the mission was not completed, perhaps because of some other reason, as a result, behind Geng Shaohua and the others, there were two snipers.

They, that is, the people who demolished the bridge as Geng Shaohua said!

Or perhaps it could be said that the mantis caught the cicada and the yellow bird was behind it, only that in the eyes of the other side, the cicada itself did not die, but Geng Shaohua, the mantis, was killed one after another.

This was evident from the fact that Geng Shaohua fainted directly after he was shot. In fact, even if the shot was not fatal, with the two shots he received, he would have gone into shock after losing too much blood.

Now there is only one Geng Shaohua left, and he is the only one who knows. If even he dies now, then it will be impossible to investigate who is trying to kill him!

So Ji Feng tried to get Geng Shaohua to reveal the mastermind behind the crime before he breathed his last.

However, Geng Shaohua’s attitude of not wanting to talk even though he was clenching his teeth was extremely annoying to Ji Feng. He turned his head to look at the BMW and heard that the engine was still running, which made him clench his teeth and give Geng Shaohua another cold look.

“Humph!”

Ji Feng coldly snorted, before turning his head to Guo Tao and saying, “Guo Tao, feed him the special effects current you brought!”

“Boss!” Guo Tao was stunned, “Is he worthy?!”

“Feed it to him!” Ji Feng but waved his hand, “He knows quite a lot, until he spits it all out, even if he wants to die I won’t agree!”

“Yes!”

Guo Tao then understood, he immediately nodded, took out a small bottle from his inside pocket, poured out a special effect current and fed it to Geng Shaohua: “Count yourself lucky”

At this time, Ji Feng stood up, “Guo Tao, keep an eye on him here, make sure he doesn’t die, be careful!”

“What about you?” Guo Tao immediately asked.

“I’m going to go over there to see what’s going on!” Ji Feng said in a deep voice, not a short time had passed since the first shot rang out, and now that Bai Zhu hadn’t heard anything from him, he couldn’t wait any longer.

Moreover, Liu Zejun had also passed by, but again there was no news, not even a little movement anymore, which made a bad feeling rise in Ji Feng’s heart.

“Boss”

“All right, you don’t say anything, do as I say!” Ji Feng said in a deep voice.

“Yes!”

Guo Tao answered.

“Hoo~!”

Ji Feng looked up at the pine forest, his legs suddenly shot up, his body surged and he dashed towards the opposite side of the road

Campus Master Chapter 2224

Those few National Security people were actually taken out by the sniper?

This made Bai Zhu couldn’t help but be very surprised, could it be that the sniper wasn’t in cahoots with the State Security people?

“Today’s matter is a bit complicated, let’s get the people under control first!” The only thing that was clear now was that there were three groups of people at the scene, the first group was Geng Shaohua and a few of them, and the rest were the two snipers.

Geng Shaohua and the second sniper were probably from the same place, or were under the orders of the same person, which is why Geng Shaohua had the phrase ‘to tear down the bridge’!

But whether or not this first sniper was with Geng Shaohua and the others, Ji Feng did not know yet.

And now, those few State Security men, except for Geng Shaohua, had all been taken out, and now it was necessary to capture that second sniper, so that the three groups of them would all be captured as well.

Ji Feng lifted the sniper on the ground who had been knocked unconscious by Bai Zhu, and then headed back.

“Be careful, there is another sniper here!” Ji Feng said in a low voice.

“Mmm!”

Bai Zhu nodded and mumbled.

“Boom~!”

Suddenly, a gunshot sounded from the front, and Ji Feng immediately shouted lowly, “Go!”

The duo immediately ran towards the direction where the gunshot came from, from afar they saw a figure shifting in the woods, Ji Feng immediately took cover with Bai Zhu and then slowly approached.

However, it was only when they gradually got closer that they saw that the figure was actually Liu Zejun, and in front of him, a man was lying motionless on the ground, not knowing whether he was alive or dead.

“Zezun!”

Ji Feng shouted, then walked over quickly, “What’s going on?”

“Boss!”

Liu Zejun pointed at the guy on the ground and said, “This is the sniper, he had been circling me just now, and I was about to catch him, but this guy gave himself a shot and committed suicide!”

Ji Feng was stunned, “Committed suicide?”

Liu Zejun nodded and said, “That’s right, committed suicide! This guy is really ruthless, seeing that he couldn’t get away, he dared to shoot himself!”

Ji Feng’s brow then furrowed, he didn’t expect that this sniper would be so extreme!

“Boss, it looks like today’s matter is not simple!” Liu Zejun said in a deep voice.

“Well!”

Ji Feng nodded his head.

Today’s matter was indeed a bit complicated, let’s not mention what exactly these people were from, just this sniper alone, seeing that he couldn’t get away and decisively shot himself, those who had such courage were obviously not ordinary people, it’s not even too much to say that they were dead soldiers!

And again, they came across these people to attack and kill themselves?

They were all from the State Security?

Ji Feng sank down, squatted down, turned that sniper's body over and examined it carefully.

This man was indeed dead!

He had been shot once in the chest and a shot in the temple Ji Feng then had a number in his heart, this shot in the chest, I'm afraid, was the one he shot when he was fighting back earlier, and probably because of this, this sniper was discovered by Liu Zejun, and thus was forced to go to the wall, and finally had no choice but to shoot himself.

After carefully examining and making sure that this man was dead, Ji Feng then stood up and said in a deep voice: "Zezun, you do this to strip this man's clothes off, check if there are any special marks on his body, if there are, shoot them down and then rendezvous with us as soon as possible!"

Liu Zejun immediately nodded: "Yes!"

Ji Feng patted him on the shoulder, then quickly joined Bai Zhu and left with the sniper from before.

"Boss!"

Seeing Ji Feng and Bai Zhu return, Guo Tao finally let out a sigh of relief.

Ji Feng casually threw the sniper to the ground and asked, "How is Geng Shaohua's situation?"

Guo Tao shook his head and said, "Not too good, he's too badly injured, now he's not immediately dead but he's in a semi-conscious state, I don't know how long he'll last, if we don't take him to the hospital immediately, I'm afraid that when the effects of the special effects current wear off, his time to die will come."

Ji Feng frowned, raised his hand to look at the time and said in a deep voice: "The police haven't come yet?"

Guo Tao shook his head and said, "No. The police's efficiency is really too low, boss, or else we should just drive Geng Shaohua to the hospital?"

Ji Feng pondered and didn't nod immediately.

In fact, in his opinion it might not be the police's inefficiency, it might be that someone didn't want the police to come over so quickly.

Today's situation was really too complicated and it happened suddenly, so he had to think it over before making a decision.

After a few moments of contemplation, Ji Feng said in a deep voice: "Let's do this Guo Tao, you go to the BMW now immediately, remove the car recorder and take it away immediately, remember, don't take the main road, don't contact anyone, immediately rush to the city with the fastest speed, give the stuff to my second uncle, I will help you over there I'll get you in touch, keep your communication open!"

"Boss" Guo Tao's face changed when he heard Ji Feng arrange this, "Is there something wrong?"

“We don’t know yet, but it’s always better to be careful!” Ji Feng said in a deep voice, “Bai Zhu, you follow Guo Tao, first take another shot of the content on the car recorder with your mobile phone, then you will act separately

“Young Ji

“Don’t say anything, hear me out first!” Ji Feng waved his hand, intending Bai Zhu’s words, and continued, “You don’t need to worry about me, since this gang hasn’t been able to finish me off, it’s even more impossible for them to do so next!”

Ji Feng turned around and pointed at that pine forest and sneered, “Now that we have both long and short guns, how many people do you think are enough for me to kill in that forest?”

The reason why Ji Feng had been looking for cover before was because he had no weapons in his hands, while the other party had a sniper rifle!

Even though Ji Feng’s kung fu was great, he couldn’t reach the point where he was invulnerable to swords and guns, so he could only take cover.

But now, with the long gun left by the sniper and the pistol left by Geng Shaohua, unless the other side used the army, it would be a fool’s errand to kill him in these woods!

Seeing Ji Feng’s insistence, Bai Zhu had no choice but to nod and agree.

“What about here?” Guo Tao asked, “The police had to come, if there’s not a single person here

“Me and Zezun stay!” Ji Feng said, “It’s decided, it’s not too late, do what I say immediately, quick!”

“Yes!”

Guo Tao immediately answered, and then turned around and ran towards the BMW.

Bai Zhu gave Ji Feng a deep look and also turned around and went.

Soon, the two of them left together with the car recorder they had removed from the car, through the woods and in the direction of the city.

Only then did Ji Feng let out a slight sigh of relief, and then he picked up the phone and dialled Second Uncle’s number.

“Little Feng, you’re back?” Ji Zhenguo asked smilingly, “You naughty monkey, you’ve been messing around in Southern Guangdong for so long, you’ve finally given up and come back?”

“Second Uncle, let’s talk about this later, now I’m in trouble!” Ji Feng said with a bitter smile.

“What kind of trouble?”

“I’ve been blocked in the road, there are people from State Security and snipers of unknown origin!” Ji Feng said, “We had a gunfight, and now there are a few dead people over here, and someone else is seriously injured

Ji Feng quickly told the story of what happened.

Immediately after that, I heard Ji Zhenguo's angry voice coming from the phone, "Bullying people too much!"

"Little Feng, don't worry, the first thing you have to do now is to ensure your own safety!" Ji Zhenguo said in a deep voice, "Keep the communication open, I'll arrange the rest!"

"I'll stay near the scene." Ji Feng said, "Now that the trouble has basically been solved, the possibility of there being danger next is not very high"

"Let's ensure your safety first!" Ji Zhenguo said, "See if you can leave, if you can't, find a hidden place to hide, don't take any chances!"

Ji Zhenguo knew Ji Feng's character, what he feared the most was that this kid would do something irrational on the basis of his skill and courage.

Now, no matter how serious the matter was, as long as Ji Feng was not in any danger, then it was not a big problem.

But if something happens to Ji Feng, then even if the Ji family turns the sky upside down at that time, it will be useless, by that time it will be too late no matter what is done.

Ji Feng nodded and said, "Second uncle, don't worry, I have it in my heart!"

After closing the line, Ji Feng picked up all the guns on the ground, then lifted Geng Shaohua, who was already in a semi-conscious state, with one hand, and said in a cold voice: "You are furiously trying to kill me, yet I have to save you if you can't survive, but I'm sorry for this painstaking effort! "

But where else could Geng Shaohua answer him?

Ji Feng grunted, turned around and quickly went into the woods, "If you have the guts, feel free to come, as long as you dare to come, this cemetery is your burial ground today!"

Soon, he disappeared into the woods.

.....

Meanwhile, in the Jiangzhou Municipal Committee, inside the secretary's office.

"Slap!"

Ji Zhenguo slapped his hand on the table, sinking his face and gritting his teeth, "Simply bullying people too much!"

The secretary heard the commotion and hurriedly pushed the door in, and saw this scene, he couldn't help but be stunned, the secretary had always been incomparably calm and steady, and usually almost seldom lost his temper, but now

What exactly is going on?

"Secretary"

"Get me through to Commander Hu of the Military Division immediately!" Ji Zhenguo said in a deep voice to his secretary.

“..... Yes!”

The secretary only froze slightly and then immediately nodded his head, but in his heart he was incomparably shocked, what had happened here, why was the secretary so thunderously angry?

The secretary hurriedly followed the number recorded in the communication book and dialed the number of Commander Hu of the military sub-district: “Secretary, it’s through”

Ji Zhenguo picked up the phone and said in a deep voice: “Commander Hu? This is Ji Zhenguo, please mobilise the helicopter immediately and give your troops the order to fight”

The secretary was immediately taken aback, a battle order?

Is this a war?

Campus Master Chapter 2225

“Swish!”

In the pine and cypress forest, a figure flashed abruptly and disappeared in the blink of an eye, and even if someone saw it, they would wonder if it was an illusion just now.

Ji Feng had brought his speed to the extreme!

Although the trees in this pine and cypress forest were extremely unevenly arranged, and there were not even any rules to speak of, this could not affect Ji Feng in the slightest.

To him, this kind of woods was nothing but child’s play.

You know, back in the training space of the intelligent brain, in order to exercise his endurance and the strength of the bio-current in his body, Ji Feng directly broke into the fierce beast forest, and by the time he broke out, he didn’t even have the strength to move a finger, he was simply a dead man!

But even then, Ji Feng still broke through the fierce beast forest again and again, from the initial exhaustion, to later on, he passed through the forest and only breathed for a while.

But what was that fierce beast forest?

No one knows when a fierce beast will suddenly leap out, or even if there is a poisonous snake wrapped around a tree branch right above your head!

Moreover, there is no regular arrangement of trees in the forest, so if you want to navigate through it quickly, you need to have extremely fast reflexes, as well as excellent physical stability and balance.

For Ji Feng, those were some of the most basic requirements.

One can imagine that even he had broken through the fierce beast forest countless times, how much trouble could this pine forest bring him right now?

So for Ji Feng, walking through this pine and cypress forest was as easy as walking in his own back garden!

However, at this moment, Ji Feng’s face was somewhat grave!

Bai Zhu had taken too long to come in!

It had been a short time since the gunshot just now, and Liu Zejun had also come over for a while, but since then there was no more movement from this side, which made Ji Feng's heart lift up.

Even an ordinary expert, even with a gun in the woods, might not be able to pose any threat to Bai Zhu.

Because Bai Zhu's strength is not bad!

Besides, using a gun in these woods was still very influential, especially when dealing with people, and it was probably not as good as a dagger.

The power of a handgun is greater than a dagger, everyone knows that, but in front of a real expert, people may not give you the opportunity to shoot, if you don't even have the ability to shoot, how can you kill the other party?

Only, what worried Ji Feng was that that gunman was not a mediocre hand, on the contrary, he was probably an experienced expert!

This was evident from the second sniper that emerged, the other party's marksmanship was precise and his reaction speed was so fast that even Ji Feng didn't dare to leave cover easily without someone to cover him, so it was clear how strong that sniper was!

If the first sniper was at the same level, then I'm afraid Bai Zhu would be in danger!

This was the reason why Ji Feng was anxious!

Moreover, there was another sniper hidden in these woods, and Ji Feng was not sure if the sudden counterattack before had taken out the other party, because the range of the pistol was limited and it was in a hurry, if Ji Feng had a rifle in his hand at that time, he could definitely take out that sniper cleanly.

But now, Ji Feng had to find Bai Zhu as soon as possible, and at the same time defend against another sniper!

.....

In the pine and cypress forest, Bai Zhu was leaning tightly against a tombstone, her legs half-crouched, and there was an extremely strong explosive force in those slender legs, but at this moment, Bai Zhu could only hold back, keeping any part of her body still and not making a single sound.

At the same time, on Bai Zhu's left arm, there was a tear in her dress with a little blood stain on it!

Bai Zhu was injured.

However, Bai Zhu's face did not show any panic as her beautiful eyes scanned her surroundings, searching for something. In the previous encounter, her dagger had been thrown away from her, so she had to find a weapon that would take advantage of her hand.

Meanwhile, just behind another gravestone not far from Bai Zhu, there was also a figure, except that this man was holding one hand over his stomach, and close to his hand was a dagger, stuck just like that, with blood seeping from his fingers, causing his face to twist up a little!

It was Bai Zhu's dagger, which Bai Zhu had used as a flying dagger to strike him in that momentary encounter just now.

But he didn't dare to pull the dagger out, because now with the dagger in place, he could still stop the spurt of blood, if he once pulled it out, he wouldn't be able to stop the bleeding, and by then he wouldn't even need anyone else to do anything, he would bleed out and die himself.

"Damn women, so powerful" he cursed in his heart, it wasn't that he hadn't seen powerful women before, whether they were cold or tough, there were even some women who were even more raw than men.

However, a woman like the one he just exchanged blows with, he really hadn't seen before.

-Strong!

Yes, that was the feeling!

In that moment, that woman gave him the greatest feeling, that she was fierce!

It was like a sheathed sword, incredibly sharp!

That's why he had been wounded by that woman in just one encounter, and he had been wounded badly!

Damn!

Because he had been huddled behind the tombstone for a long time, his legs were a little weak, and as a result, just as his body moved slightly, a sudden burst of pain came from his stomach, causing him to stifle a cry, and he couldn't help but curse in his heart.

"Legs are getting weak here?" He was a little annoyed, this was all caused by the wound on his stomach, so much blood was flowing that he could even feel himself gradually weakening

"We can't go on like this, or we won't even be able to wait for that woman to make her move, we'll have to give ourselves up here!" This gunman secretly gritted his teeth, and then, he slowly poked his head out from the side and looked across the room.

"Ee?"

He suddenly let out a cry of secret surprise as half a shoe was revealed next to the tombstone where the woman was hiding.

What an opportunity!

He was immediately delighted in his heart, from the position of the shoe, he could basically tell where the woman was now, if he attacked suddenly

The woman is too dangerous!

The man held his breath, not allowing himself to make as much noise as possible, even when backing up was twelve thousand times more careful, while he was backing up, but his eyes never left the shoes that were exposed outside the tombstone.

The man was still there!

There was no movement!

He was slightly relieved, which meant that the woman had not noticed his shift.

After making sure again, he started walking around towards the gravestone where Bai Zhu was hiding.

Ten metres

Eight metres

He was getting closer and closer to the tombstone, but somehow he was feeling nervous, but he looked around and found nothing unusual, which made him grit his teeth, he was really scared by this woman!

Soon, the tombstone was close at hand.

“Whew~!”

He gritted his teeth and lunged forward, while the muzzle of the gun in his hand followed the position of the shoe and aimed at the woman

This was his judgment based on the position of the shoe.

However, the moment he slid diagonally across the ground, he was suddenly filled with consternation.

It was surprisingly just a shoe, but other than that, there was nothing behind the tombstone.

In a flash, he just felt his scalp tingling, he had been fooled!

His heart skipped a few beats and he subconsciously tried to dodge, but at that moment, he suddenly felt a hand coming from behind him, and then he felt a tightening of his neck.

It was a beautiful hand, but it was so strong!

There was a thud!

The man fell limply to the ground, like a puddle of mud!

“Whew~!”

Only when this was done did Bai Zhu let out a long breath, that process just now seemed simple, but it was actually very dangerous.

If the sniper had been more careful, or if he had looked back a few more times, then Bai Zhu might have been exposed, and then, Bai Zhu was afraid that there was only one way to die.

Words can't describe the heartbreak in between, it was almost like walking on the edge of death!

But it was all over, and the sniper, in the end, died in her hands!

“Whew~!”

Just then, a strange sound suddenly came from the woods, like someone running, and Bai Zhu was instantly alert and quickly dodged.

“Bai Zhu, no need to hide, it's me!” As a voice came, it was Ji Feng running rapidly to the front.

“Young Ji?!”

As soon as Bai Zhu heard the voice he immediately came out from behind the tombstone, “Young Ji, what brings you here?”

“You haven’t moved for so long, I was afraid that something might be wrong with you, so I came over to take a look!” Seeing that Bai Zhu was safe and sound, Ji Feng couldn’t help but let out a sigh of relief, but soon, he saw the wound on Bai Zhu’s arm, “You’re injured?!”

“Just a little superficial wound, it was grazed by a bullet!” Bai Zhu showed his arm to Ji Feng.

“That’s good!”

Only then did Ji Feng relax, but he glared at Bai Zhu again, “From now on, no more private actions without my permission! Do you hear me?!”

Bai Zhu pursed her lips and smiled, “Yes!”

Only then did Ji Feng hum and asked, “Is this the sniper?”

Bai Zhu nodded and said, “Mm! By the way, just now I heard another gunshot, is there some kind of change?”

“That’s right, there’s another sniper here, and it’s quite powerful!” Ji Feng nodded his head and said in a deep voice, “Geng Shaohua was the one who was left of those few National Security men, only one was left, the others were all taken out by that sniper!”

“Ah?!” Bai Zhu was stunned at once.

Campus Master Chapter 2226

As Ji Zhenguo’s order was given, the entire Jiangzhou Military Division’s top brass exploded into a frenzy!

It was no small matter to give battle orders to the troops below, it was technically something that had to be reported to the Jinling Military Region.

The Jiangzhou Military Sub-district, technically known as the Jiangzhou Police District, was subordinate to the Jinling Military District, but of course, at one point in time when tensions were high in the straits of the island, the military districts were renamed war zones!

This is not a trivial matter, and although a military division commander alone can make the decision, according to the regulations, this matter must be communicated with the higher military region.

“Commander Hu, giving battle orders, we have to be cautious!” One of the more attentive staff officers reminded in a low voice.

“Well!”

Commander Hu nodded and said, “But this is an order given by Secretary Ji, it must be carried out In this way, you can now immediately convey my order for the Special Warfare Battalion to send a platoon,

move urgently, take a helicopter immediately, and rush to the location of the incident with the fastest speed!”

“What about the Jinling Military Region”

“I’ll report back!”

“Yes!”

The first thing you need to do is to get the documents ready for Commander Hu’s signature, but in his heart, he was a bit strange.

In fact, this staff officer has not thought about the fact that Ji Zhenguo is not only the secretary of the Jiangzhou Municipal Committee, a handful, but he is also a member of the Central Committee ZZJ, a real national leader.

In our country, the party commands the gun, this is an iron law!

And more importantly, just now on the phone, Ji Zhenguo said plainly that this was his order!

In case of emergency, Commander Hu had to listen to Ji Zhenguo’s orders!

Moreover, in the phone call Ji Zhenguo’s tone was extremely harsh and did not even hide his anger, which was uncommon for a person of Ji Zhenguo’s status.

So Commander Hu immediately realised that the matter must be very serious, and then he naturally had to listen to orders all the more.

Otherwise, with Ji Zhenguo’s status and rank, he could even give orders directly to the Jinling Military Region, and by that time, he, Old Hu, would be passive

So, Commander Hu only gave it a moment’s thought before he immediately carried out Ji Zhenguo’s order!

But at the same time, he did not forget the rules and hurriedly reported towards the Jinling Military Region.

However, when Commander Hu called the internal confidential telephone number to the Jinling Military Region, it was General Tang Jianguo of the Jinling Military Region who was alarmed, and when Tang Jianguo’s voice came over the phone, Commander Hu could not help but jump a few times in his heart.

“Xiao Hu, this is Tang Jianguo!”

The voice on the phone immediately caused Commander Hu to subconsciously jerk his body upright and immediately salute, “Good day, General Tang!”

Tang Jianguo, the Deputy Chief of General Staff of the Jinling Military Region, the commander of the main army, with a hardened style and extraordinary aura!

And more importantly, General Tang Jianguo’s father was the famous Master Tang of the army – the old general who had led his troops to fight to the death during the War of Resistance and eventually had his entire formation almost crippled, but had hardily blocked the brats in the encirclement!

At the same time, it was also the same Tang Tiger who once sat in command of a large force during the self-defence counter-attack after the founding of the country, and made a great name for China!

Of course, it was also said that some people referred to him as Tang Da Cannon!

But no matter which name he was called, General Tang's fame was almost universally known in the army, and General Tang Jianguo also inherited his father's style, as a tiger's father has no dog's son, and is equally formidable.

Commander Hu never imagined that his report to Jinling would alert Tang Jianguo!

This made Commander Hu immediately realise that the matter he was reporting was really something extraordinary, and even its seriousness was beyond his original expectation!

"I don't care what method you use, you must get to the place of the incident in the shortest possible time, and the first priority is to save the people! Secondly, we must catch all those vicious thugs, those who can be captured alive as much as possible or, those who are stubborn and dare to resist to the end, don't be soft!" Tang Jianguo said in a deep voice.

Commander Hu's heart immediately fluttered and he said, "Yes! The troops have already departed I'll convey your orders down here!"

"Mm!"

Tang Jianguo nodded his head and said, "Xiao Hu, do a good job!"

Commander Hu's heart suddenly snapped hot, of course he could understand what Tang Jianguo meant by this 'do a good job', and he immediately exclaimed, "Promise to complete the mission!"

"Well!"

Tang Jianguo then hung up the phone.

But on this side, Commander Hu was not at peace in his heart, how could he have imagined that this matter had even alerted Tang Jianguo, and even, had made Tang Jianguo run out an olive branch to him.

He wanted to visit Tang Jianguo's home several times, but he couldn't find any suitable reason, nor did he have anyone to introduce him, so he had been struggling to find a way out.

And the knock on the door is just to let yourself take care of this matter today!

But, if it is not handled well

Commander Hu immediately attached great importance to it, he immediately called the staff officer and said in a deep voice: "I'm afraid one platoon of soldiers is not enough, send another platoon over, be fully armed!"

The staff officer was a bit surprised, Commander Hu had been a bit hesitant just now, but after a phone call to Jinling, how come his attitude had suddenly changed so much?

However, if Commander Hu did not say anything, the staff officer naturally could not ask more questions, so he hurriedly turned around and went to carry out the order.

However, Commander Hu himself was puzzled as to what kind of person Secretary Ji had asked to be saved, and how could he even alert General Tang of the Jinling Military Region?

But Ji Zhenguo did not say a specific name on the phone, only that he would send someone to cooperate, which made Commander Hu not quite understand for a while.

But now, he could only wait patiently for the result.

Whether this time will be able to enter the eyes of General Tang, or disappoint him and henceforth end up with an impression of 'incompetence' in the minds of the top, all depends on today's action

But Commander Hu did not know that at this moment in Jinling, Tang Jianguo had made a phone call to his home after he had finished talking to him.

Immediately after, in the old cadres' sanatorium in Jinling, a pale but mid-spirited angry shout came: "Bastards, I think they want to die a bunch of clowns, they dare to lay hands on the grandson of the old head?"

"Prepare the car! Go get my uniform!" Master Tang roared, "I'd like to see which clown is jumping around, and has turned against the sky!"

"Do you really think I'm dead?"

.....

In the suburbs, in the pine and cypress forest outside the cemetery, Ji Feng rejoined Liu Zejun.

"Zezun, what's the situation?" Ji Feng asked.

"It's been checked, this person doesn't have any special marks on his body, only some scars that aren't really special, other than that, he doesn't carry any documents that can prove his identity or anything like that, " Liu Zejun shook his head.

"Normal!"

Ji Feng nodded slightly, a situation he had long expected.

This sniper is so powerful, at first glance, is extremely experienced expert, then, when someone like him is acting, naturally, he will not carry anything that can prove his identity, otherwise, once he misses, when the time comes, I am afraid that others will trace his identity to his family, or even to the mastermind behind the scene!

Like now, if he couldn't escape, he would simply kill himself so that even if he wanted to be interrogated, it would be impossible!

This is the real experienced veteran!

The more powerful these people are, the more powerful the person who sent them is. Moreover, the situation is already very complicated, and now there are already State Security and two killers involved in this matter, and the police have not arrived until now.

“What about these two people?” Liu Zejun looked at the unconscious Geng Shaohua on the ground, and the sniper, and said in a deep voice: “This one doesn’t look like it will last much longer

“No way, we can only wait a little longer!” Ji Feng shook his head and said, “Zejun, later on if the police come, I’ll go out and deal with them, you cover me

“I’ll go!”

Liu Zejun immediately said, “Boss, you’re a good shot, I don’t have confidence in my own shooting skills!”

Ji Feng deliberated for a moment and nodded, “Fine, you should be careful yourself

The police have not come so far, he can naturally realize that there must be something wrong in the middle, maybe, by then, even if those police come, they may not be here to save him, instead, it is likely to kill them!

So of course Liu Zejun couldn’t possibly let Ji Feng go out and take the risk, besides, he knew Ji Feng’s marksmanship, and with Ji Feng covering behind him, he would in turn be a little safer.

Ji Feng looked at Geng Shaohua’s condition again and found that he was a little more very unconscious, he was still responding to their words before, but now he didn’t seem to be conscious at all, and the wounds on his body were still bleeding, even after they had been treated urgently, they couldn’t completely stop the bleeding.

“Bastard!”

Ji Feng couldn’t even help but frown, what the hell was wrong with these police officers? This was a suburban area, but how long could it take for the nearest police station to get here?

If this continues to drag on, Geng Shaohua, the important informant, will be slowly dying!

“Woohoo~~Woohoo~~”

Suddenly, the sound of sirens came from the distance.

Ji Feng and Liu Zejun’s spirits lifted at the same time, “Here it comes!”

Campus Master Chapter 2227

In the distance, a couple of police cars were wailing away with sirens blaring.

It really did look like there was a sense of emergency police tension, provided, of course, that one ignored just how long it had taken them from the time they received the call to now!

“Boss, shall I go over there now?” Liu Zejun asked in a low voice.

“Don’t be in a hurry, observe first!” Ji Feng waved his hand, “Don’t be reckless.”

Right now, although what was coming was indeed a police car, but whether the other party was really a police officer or not, or whether the other party had any hostile intent, nothing was known yet, so Ji Feng naturally couldn’t let Liu Zejun take the risk.

The two of them carefully observed, only to see that a total of three police cars came on the road, and at a distance of about one to twenty meters from the scene, all three police cars came to a halt.

Afterwards, a group of police officers quickly got down from the police car, perhaps because they saw the bodies lying on the ground, the group of police officers immediately became nervous, a few police officers immediately alerted, other police officers also hurriedly drew their guns, have alerted to look around.

Finally, only a leading-looking policeman was seen, leading his men close to the bodies and squatting down to examine them.

Perhaps it was because he had discovered that the few people on the ground had long since become corpses, so the policeman looked a little disappointed and a little nervous. He quickly stood up and scanned the surroundings, then took out his mobile phone again, not knowing who he was talking to.

“Ka ka ka~!”

Ji Feng pulled the bolt of his gun and then half crouched between two cypress trees, through the gap between the two trees, he could just about get a good view of the scene.

“Zejun, be more careful!” Ji Feng said in a low voice.

“Mm!”

Liu Zejun nodded in understanding, he checked the weapons in his hands once again, then immediately ran quickly towards the side, he didn't run directly towards the road, but made a big circle, this could help Ji Feng to be hidden to the greatest extent possible, not to let those police officers notice the situation here!

If those policemen had malicious intentions, when the time came, Ji Feng could snipe at them by surprise, and Liu Zejun would also ensure maximum safety!

A few moments later, Liu Zejun appeared on the highway about a few hundred metres from the scene.

His appearance instantly made all the police officers tense up, and with a swish, almost all the guns were aimed at him.

“Ka!”

Ji Feng immediately adjusted the rifle in his hand from point blank to burst, so that once those policemen tried to shoot, he could take out all those people with the fastest speed!

At least, it would also give Liu Zejun maximum cover.

“I am the one who reported the crime!”

Facing that black hole of a gun, Liu Zejun put his hands up, “Don't be nervous, I don't mean any harm, I'm the victim, I just stay here and wait for your arrival”

“Hands on your head, turn around and crouch down!”

Before Liu Zejun could finish his words, he was interrupted by a violent shout, the policeman in the lead shouted, "Follow the order immediately, or else, shoot on the spot!"

This order made Liu Zejun somewhat unhappy as he said aloud, "I am the victim, I was attacked"

"Cut the crap, do as I say immediately!" The policeman at the head of the group bellowed.

"..... What if I don't do it?" Liu Zejun asked in a cold voice.

"Ka~!"

At once, there were policemen who loaded the bullets of their pistols and pointed them straight at Liu Zejun, shouting, "Do as you are told immediately!"

Liu Zejun did not do as they said, if he did that, it would be like exposing his back completely to the guns of these police officers, then even if these people wanted to do away with him, he would not be able to react in time!

In the headset, the conversation between the two sides reached Ji Feng's ears very clearly, and he frowned slightly as he carefully stared at those policemen and observed them.

"Zezun, do as they say!" A moment later, Ji Feng said in a low voice.

"..... hmm!"

Liu Zejun nodded imperceptibly, then slowly put his raised hands on his head, turned around again and squatted on the ground. The result was that the pistol he had pinned to his belt fell right into the eyes of those policemen here.

The policeman in charge waved his hand, and several policemen in front of him rushed up and took the pistol from Liu Zejun's waist, while other policemen twisted Liu Zejun's hands behind his back and quickly put on the handcuffs!

Immediately afterwards, Liu Zejun was pressed by the head and stuffed into a police car, which made Ji Feng look frowning, it looked like, if not these police officers had malicious intentions, it was because they took Liu Zejun as a murderer!

But these policemen didn't use their brains to think about it, if Liu Ze-jun was a murderer, would he still show himself?

After Liu Zejun was brought under control, the policemen continued to search around.

"Buzzing buzzing buzzing~~~"

Suddenly, there was a roar from the sky, but three helicopters rushed over quickly, then hovered in the air not far from the scene, while sending out light signals!

But how could the police officers on the ground understand the signals from the helicopters?

They were all on the edge of their seats, but only after they saw the army logo on the helicopter did they breathe a sigh of relief.

“We are the Special Warfare Battalion of the Jiangzhou Military Division, here to carry out military affairs, those below, drop your weapons immediately!” A high pitched warning came from the helicopter’s loudspeaker.

“.....”

There was a commotion below, but those police officers did not know what to do.

However, the helicopter in the sky did not give them much time to react. Just a few seconds after the warning was given, an opening was suddenly opened at the bottom of one of the helicopters and a rope was dropped down immediately.

Swish!

A figure slid down from the helicopter along the rope, only to see that this man was dressed in camouflage, fully armed, his face was covered in grease paint, and his face could not be seen clearly, but as soon as he landed, the muzzle of the submachine gun in his hand was aimed at the police officers.

“Swish! Swish! Swish, swish, swish!”

Successive figures descended from the helicopter, and in the process, each fighter that came down was alerted with unparalleled speed, while there was another helicopter that was always in a swooping position, also on alert.

The policemen, however, were all at a loss as to what to do.

It was only after all the soldiers had finished coming down that one of the helicopters slowly landed on the ground, and then an officer came down and bellowed, “Drop your weapons!”

“What is this what are you people and how”

“Hoo~!”

The officer didn’t even talk to them, and directly waved his hand, “Lower their guns!”

With that, those soldiers pounced directly on those policemen like wolves and tigers, snatching their weapons off and gathering them all together.

“Platoon Leader Liu, quickly ask them where Young Ji is!” At this time, another man in a white shirt came down from the helicopter.

“Well!”

The officer known as Platoon Leader Liu nodded his head, stared at the policemen and drank, “Hand over all the people you’ve arrested!”

Seeing this, Ji Feng knew that it was the people sent by Second Uncle who had arrived.

Ji Feng stood up and put his rifle on his back, then with the sniper in one hand and Geng Shaohua in the other, he quickly walked out of the woods.

“I’m here!”

Swish!

Everyone looked over, but were stunned at the same time.

It was really because, Ji Feng's look at this moment was too out of their expectation.

Carrying a man in one hand and a gun on his back, this kind of look, just by looking at it, looked formidable!

"Young Ji!"

The man in the white shirt was the one who instantly revealed a look of surprise: "Are you alright?"

Ji Feng had an impression of this person, he was Second Uncle's secretary, "I'm fine, but this person is about to die"

Saying this, he took a few steps to walk up to the officer, the other soldiers still wanted to stop, but seeing that the man in the white shirt knew Ji Feng, they knew that this was the man they were looking for, so after a moment's hesitation, they let him go.

"This officer, things are rather complicated and chaotic now, so I won't say much more in thanks!" Ji Feng spoke quickly, "In this way, we will go back immediately, please send a helicopter first, send this person to the hospital in your military district, this is an important suspect, must be closely guarded, also must find a way to save him"

Ji Feng quickly made arrangements, "Also, please send a few people to take photos on the spot, and then transport these bodies to the military zone as well"

The officer then glanced at the white shirt, who nodded and said, "Platoon Leader Liu, please do as he says."

With the military involved, those police officers couldn't say half a word.

According to Ji Feng's arrangement, everything was carried out in an orderly manner. On the contrary, those police officers were ordered to stay and take charge of cleaning up the scene, and at the same time, they had to drive those two cars back

The two cars were not only a part of the city, but also a part of the city.

On the way, Ji Feng picked up Bai Zhu through satellite positioning, and as for Guo Tao, he was already in the city.

At this time, the news of Ji Feng's attack had also reached the Yanjing Ji family

.....

When Ji Feng arrived at the municipal party committee compound, Ji Zhenguo's sullen face only soothed a bit: "You kid, there's never a day when you don't cause trouble!"

Ji Feng immediately cried and laughed: "Second uncle, do you think I want to? Who likes to be attacked and killed all day long?"

If it was possible, Ji Feng really wished to be free of any trouble for the rest of his life, but that was simply impossible, even if he wanted to live in peace, there were people who didn't want him to have a good time!

Ji Zhenguo shook his head and hummed, "What's going on this time?"

"I don't know either!"

Ji Feng smiled bitterly and spread his hands, "I've only just returned from Southern Guangdong, I don't know anything yet, and as a result, I was attacked and killed on my way to the Tengfei Group, I'm still wondering about it too, today's incident was really too sudden and complicated"

"How so?" Ji Zhenguo immediately heard the unusual.

"There are three sets of people who want to kill me, and one of them is from the State Security!" Ji Feng said, "But in the end, those State Security people were instead taken out by the second sniper who suddenly appeared, just one left, or seriously wounded and unconscious is now being resuscitated in the military hospital, still don't know if he can be saved... .."

"Swish!"

Ji Zhenguo's face sank abruptly: "Kill to silence?!"

Campus Master Chapter 2228

"Swish!"

Ji Zhenguo's face sank abruptly, "Killing to silence him?!"

Ji Feng shook his head, "It's too early to tell, but that Geng Shaohua, after being seriously injured, probably sensed that he was going to die, and said, "Crossing the river and tearing down the bridge!"

"Dismantling a bridge over a river" Ji Zhenguo repeated, savoring the words carefully, "It looks like there's an inside story here!"

"Mm!"

Ji Feng nodded his head.

It is clear that there is definitely something else inside this matter today, and it is not generally complicated, want to find out clearly, I am afraid it is not that easy.

"Now the person has been handed over to the military division and is being held by them temporarily." Ji Feng said, "I have to think of another way to investigate the specific investigation, second uncle, the police side of the investigation, you need to bother."

"Humph!"

Ji Zhenguo snorted coldly, of course he knew what Ji Feng meant.

From the time Ji Feng called the police, until the police arrived at the scene, it took a surprisingly long time in between, even a fool wouldn't believe it if he said there was nothing wrong!

What's more, those police officers were not very friendly after arriving at the scene. At that time, if it wasn't for the timely arrival of the military, I'm afraid that Ji Feng would have been arrested by them, so how could Ji Zhenguo not be annoyed that not only did such a situation arise under his rule, but even his nephew almost died!

Ji Zhenguo was also angered by this succession of provocations.

"You don't have to think about the interrogation anymore!" Ji Zhenguo said, "This matter, your little uncle will take care of it when the time comes!"

"Little uncle?"

Ji Feng couldn't help but be stunned, "Little Uncle is going to send someone to take over?"

Ji Zhenguo shook his head, "It's not sending people, but your little uncle is going to personally bring people over to handle this matter!"

"Huh?"

Ji Feng was somewhat surprised, "This has alerted Little Uncle? In that case, don't my parents also know about it?"

"Not only your parents, even your grandfather has been alerted!" Ji Zhenguo said.

"How?"

Ji Feng couldn't help but be stunned, "Second Uncle, it's not a big deal, why did you even tell my grandfather?"

Ji Zhenguo gave a glare, "You brat, do I still need you to lecture me? Don't I know the lightness of the situation?"

"Hey!"

Ji Feng then scratched his head and he laughed, saying, "Second uncle, I didn't mean that, I just think, grandpa is old and his health isn't too good, this little matter is not good to alarm his old man, in fact, I can solve it myself"

"You kid less trouble, it's better than anything!" Ji Zhenguo hummed and said, "It was your grandfather Tang who told your grandfather about this!"

"Grandpa Tang?"

Ji Feng was stunned again, "Second Uncle, are you talking about Grandpa's old subordinate, that Grandpa Tang from Jinling?"

"It's not just him!" Ji Zhenguo said, "The Jiangzhou Military Division is under the Jinling Military Region, so this kind of military action has to be reported to the Jinling Military Region, so I gave your Uncle Tang a call in advance, but I never thought that this matter had alerted Grandpa Tang, and as a result, his old man made a call directly to your grandfather!"

Only then did it dawn on Ji Feng, so that was the case!

He had also heard his grandfather talk about it before, it seemed that Old Master Tang had been living in the sanatorium, and sometimes he would also go around to the South Guangdong Military Region and the Tianfu Military Region side, after all, people of his status, even when they were old and retired, they couldn't be completely retired.

After all, there are fewer and fewer old people like them, especially in the military, and each of them is enough to be a god of the sea.

In recent years, there were often some riots in the west, and there were even countries such as San who were foolish and often provoked, so Elder Tang would often represent the highest level of the military and go over there to inspect the military and the training of the troops there.

Previously, when Ji Feng went to Jinling, he wanted to visit Elder Tang, but after his elder brother Ji Shaodong contacted him, he found out that Elder Tang had gone to Tianfu to inspect the area, so he had to give up.

Now, I didn't expect that for his own sake, he had even alerted Master Tang, and for this reason, he had also alerted his grandfather This made Ji Feng more or less helpless, which was not his original intention.

After all, the two old people are old, can't worry about some natural best, and moreover this kind of attack and kill thing he encountered more, can even say they are used to it, can't for such a little thing to alarm them!

The reason why Little Uncle is bringing people over in person is probably because the old man knows about this matter and Little Uncle is afraid that the old man will worry too much, so he is doing this.

"After your grandfather found out the news, he was very angry and has asked your youngest uncle to come over to fully investigate the matter thoroughly, so next you just need to pay attention to your own safety, you don't need to worry about anything else." Ji Zhenguo said.

"Then is grandpa's body alright?" Ji Feng asked at once.

Ji Zhenguo then gave him a gratified look, this kid's filial piety was very much recognized by him, "Don't worry, your grandfather's body is still quite tough, nothing will happen. Besides, the old man can't always stay at home, it's good to move around!"

Ji Feng then nodded his head, that was true.

However, Ji Feng did not know that Elder Ji's reaction was not as bland as what Ji Zhenguo had said, and even more than just 'moving around'.

In fact, when Elder Tang called the phone directly to the quadrangle on Yanjing's East Sixth Street, he said angrily, "Old Chief, what are they trying to do? Huh? What the hell are they going to do! My old Tang is not dead yet! You're still alive, and they're going after children?"

"Old Tang, anger hurts your body, if you have nothing to do, come to Yanjing and talk to me, the old man!" Elder Ji's response was however very plain, just saying with a smile.

“This is the same reasoning as during the rectification activities back in the day. Those who came up with their mouths and horses were not capable of fighting, but they were good at rectifying people. He was as honest as a yakuza when he went into battle once”

The same is true now, those villains have not jumped around once or twice, last time Xiao Feng was attacked and killed, right? This is not the first time! Old Chief, if you don’t want to do anything, then leave this to me, Old Tang, I promise you”

“Come on, you’re still such a stinky temper at your age!” Elder Ji said, “Bring your uniform to Yanjing, it’s time to walk around some old comrades there!”

“Hm?”

Master Tang was stunned, then he was overjoyed, “Good! Old Chief, I’ll go to Yanjing right now!”

Bring the military uniform!

These words from Elder Ji immediately filled Elder Tang with joy, which indicated that because his grandson had been attacked and killed one after another, the old chief was also angry.

.....

Jiangzhou, lunch time.

Because of Ji Feng’s attack, Ji Zhenguo took the time to take Ji Feng home for lunch.

Although Ji Feng was already an adult, he was still a child in the eyes of his elders, and when he encountered such things one after another, Ji Zhenguo of course had to comfort and console his nephew.

And Ji Shaolei, who had received the news, had also returned, but it was the oldest youngest, Ji Shaoyun, who had gone to the army again, so he did not return.

“Third son, I heard that the person who attacked and killed you was from the State Security?” As soon as we met, Ji Shaolei couldn’t help but ask, “What’s going on here? Is State Security so great? Do they really think that there’s no one left in our Ji family, so they just let others bully them?”

“What are you talking about!” Ji Zhenguo glared at him, “You’re such an adult, you don’t even think twice about what you say!”

Ji Shaolei stopped talking, but his face was still obviously angry, this was too much bullying, how could anyone dare to come down on Ji Feng, did they really think they were soft persimmons?

Even a clay man still has three parts of fire, let alone Ji Shaolei, who has never been very good-tempered!

“Don’t worry about this matter, your little uncle will be in Jiangzhou this afternoon, he will take care of it!” Ji Zhenguo said in a deep voice, “Dinner!”

“Really”

Ji Shaolei muttered something, a little dissatisfied, this thing is too nasty, Ji Feng just came back, even the bench is not even warmed up, and then he was attacked and killed again, this is fucking addictive, right?

But seeing his father's majestic look, Ji Shaolei had no choice but to bow his head and eat.

"Dangling" Suddenly, the phone in the study rang out, so Ji Zhenguo put down his chopsticks and got up to answer the phone.

"San'er, do you think it could be that son of a bitch Zhang Qian who did it?!" Seeing that his father had left, Ji Shaolei immediately whispered, "That old brat is probably not happy in his heart because he was dumped by his younger uncle last time, I think this possibility exists"

"I don't know!" Ji Feng shook his head, now everything is still to be investigated, it is too early to say anything.

Moreover, Ji Feng felt that although this guess by Ji Shaolei was possible, it was not very likely!

Because that person Zhang Qian Ji Feng had met, that wasn't a reckless and stupid person, he couldn't possibly not know what the consequences would be once this was found out!

"Can"

Ji Shaolei just wanted to speak, then heard the sound of footsteps coming, but it was Ji Zhenguo returned after answering the phone, only, let Ji Feng two people a little strange is that Ji Zhenguo at this time, his face seems to be a little odd!

Seeing this, Ji Shaolei could not help but ask: "Dad, what's wrong?"

"Just now your little uncle called and said that he had already boarded the plane and was about to take off", Ji Zhenguo said, "However, he also said a news that your grandfather just now, together with Master Tang, wearing a military uniform, went to to the Yanjing garrison!"

"Ah?!"

Ji Shaolei's mouth grew big at once.

Ji Feng was first slightly stunned, but then, he also understood what second uncle's words represented, and was immediately astonished: "Grandfather and Master Tang went to the garrison? And wearing military uniforms?!"

Campus Master Chapter 2229

"Huh?!"

Ji Shaolei's mouth grew big at once.

Ji Feng was first slightly stunned, but then, he also understood what Second Uncle's words represented, and was immediately astonished: "Grandpa and Elder Tang went to the garrison? And wearing military uniforms?!"

Ji Feng and Ji Shaolei looked at each other and both could not help but see the shock in each other's eyes.

Perhaps ordinary people didn't know, but they understood very well what it really meant for the old man to wear a military uniform!

They knew that the old man had retired a long time ago, and even in recent years, he had rarely interfered in political matters, basically leaving them to his two sons.

But now, Master Ji was once again putting on his military uniform and even went straight to the Yanjing garrison, this was simply a precursor to a big move!

"It seems that this time, Grandpa has been angered too!" Ji Shaolei smacked his lips, a look of excitement suddenly appearing on his face, "Hey! Let those villains jump around again! Once or twice is not enough, they have to take advantage of the situation, and now they've done it, right? They've pissed off the old man, let's see how some people will end up!"

Ji Feng couldn't help but be stunned, he didn't expect that the old master would react so violently after knowing the news!

The fact that the old man was back in uniform had an extremely unusual meaning in itself, plus, the old man had actually gone to the Yanjing garrison area together with Tang Lao, dressed in military uniform

What is the garrison area?

That is the most important police force responsible for guarding Yanjing and the central government, and is responsible for the security of the capital and the central government!

The most mysterious and also the most powerful unit in the garrison is the Central Guard Regiment, because this regiment is directly responsible to the top leadership and is also the exclusive unit responsible for protecting the top leadership.

For example, the guards around the old master are from the Central Guard Regiment, and even the guards around the other top leaders, as well as some of the older leaders who have retired to the second line, are also from the Central Guard Regiment!

One can only imagine the importance of the Yanjing Garrison.

What's more, the Yanjing Garrison, in terms of subordination, is still part of the Jinling Military Region, so it's not difficult for Master Tang, a prestigious old general sitting in Jinling, to command some troops in the Yanjing Garrison!

What's more, together with Elder Ji, if these two old men were really angry, it would not be any simpler to really mobilise a few troops to do something!

This makes it understandable why Ji Feng and Ji Shaolei became so surprised when they heard that the old man was actually in uniform with Elder Tang and had gone to the garrison.

It was really because the old man's status was too high and his prestige in the military was too high, and, the location and functions of that garrison area were too sensitive!

There was no telling how many people would be made nervous by Old Master going over like that!

“Eat at ease!” Ji Zhenguo sat down again and said, “This matter, since your grandfather has already asked about it, then you should just cooperate honestly, no more fuss, do your own thing peacefully, got it?”

“Understood!” Ji Feng nodded his head.

“Hey! This time, some people are going to be nervous to death, right?” Ji Shaolei, however, laughed heatedly.

Ji Zhenguo did not deny it, but in his heart he was clear that the reason why the old man was making such a big deal this time, I’m afraid it was still to hammer certain people, in recent years, some people were getting more and more over the top!

.....

In fact, after the news spread that the two of them were dressed in military uniforms and went to the Yanjing garrison together, it didn’t just make some people nervous, but even more so, many people even panicked after learning the news.

Many people who are usually high and mighty in the eyes of outsiders, and whose demeanor is calm and atmospheric in high positions, could not help but lose their composure after hearing the news.

“What is the old man doing with this?”

“What?!”

“Master Ji is in military attire and has gone to the garrison with Old General Tang?! What the hell is going on? Did someone rebel?!”

“What on earth has happened?!”

.....

At once, but everyone who heard this news could not help but be shocked, and some even revealed a panicked and wretched posture.

It was really because, the nature of this matter was really extraordinary!

For Master Ji, an old general with great prestige in the military, to put on a military uniform once again after a gap of several decades, was simply a matter of heavenly proportions!

Some people still remember that the last time Master Ji appeared in public in his military uniform was during that self-defence counter-attack war decades ago, when Tai Zu was visiting abroad, trying to stabilise the outside world during the war and not make China struggle to fight on two fronts.

And there was still controversy within China as to whether or not to actually do it, and even after the war had already begun, there were still people singing high and shady counter-arguments.

At that critical moment, several old generals, led by Master Ji, in military attire, appeared in public and made a public speech against the invasion and counterattack in self-defence, echoing the Tai Zu who was abroad.

At once, all dissenting voices came to an abrupt halt!

Those voices that sang the opposite tune, or even were eccentric, no longer moved, and some of the so-called 'big shots' who had been jumping up and down were even more nervous, not daring to do anything excessive.

But there were some people who were diehard elements, and as a result, under the command of Old Master Ji, a bloody head showed everyone that this old general who had fought across the battlefield and achieved great success in the war was still as powerful as ever, and that the old general who had emerged from the bloody rain was still as strong as ever!

Since then, for so many years, Master Ji has never worn his uniform again, even though there have been a few big storms in the middle, Master Ji only made some speeches, but that uniform has not been moved for decades.

You can imagine what that uniform really meant to the old man!

That was his battle dress!

It was the precursor and symbol of his greatness, and something he regarded as an honour!

But today, this old man, who was once praised by the great man as a tiger general, is once again wearing the uniform, but today, decades later, this old man is one of the few remaining old generals in the army, and in terms of the high prestige in the army, no one can beat him!

Some of the other old masters of the older generation are a few points weaker in front of Master Ji.

Even some of the old comrades nowadays, when they were in front of Master Ji, they were all minor characters, only that with the rapid development of the country, these old people have gradually become big brothers, but compared to Master Ji, they are not comparable at all.

So, under such circumstances, it was easy to imagine how serious the matter was that Old Master Ji was wearing a military uniform!

"Minister Ji!"

Even the director of the Central Office, who had hurriedly arrived at Ji Zhenhua's office personally, asked, "Ji Lao this is Minister Ji, the chief asked me to come and ask what exactly has happened?"

The director of the Central Office, who is directly responsible to the supreme head and is the head of the office dedicated to serving the supreme head, is actually equivalent to being the supreme head's big butler, and his arrival is almost equivalent to the arrival of the supreme head himself.

Therefore, Ji Zhenhua naturally would not be negligent, first greeted him with a smile and sat down, and then poured him a glass of water, before saying, "It's like this, because recently the old master misses his old comrades, so he plans to go around and visit them, and at the same time, to see if the garrison's armament has slackened!"

“Visiting old comrades?”

The Director of the Central Office was slightly stunned, did you need to be in military uniform to visit your old comrades? And with Old General Tang!

One should know that Old General Tang was not young, and had come from Jinling if not for Ji Lao’s word, who could mobilize Old General Tang?

Obviously there are circumstances that one does not know about, and it is certainly not as simple as Ji Zhenhua said.

But soon, the director of the Central Office suddenly reacted as if he had remembered something and could not help but ask: “Minister Ji, you just said that Ji Lao would drop by to see if the garrison’s armament was lax? Is it that Ji Lao has heard something?”

Ji Zhenhua smiled and said, “It’s not really that I’ve heard anything, it’s just that recently someone seems to have told the old master that some departments are lax in discipline, even some of the more sensitive departments are slacking off and even appearing to be random and disorderly, causing a bad impact! So the old master was worried that the army was also having such problems, so he went with Tang Lao to give the soldiers a pep talk”

A bright light immediately flashed through the mind of the director of the Central Office, and he keenly grasped the key point in Ji Zhenhua’s words – that some departments were lax in discipline, causing a bad influence!

Obviously, this was the key!

It must be that some departments had done something extremely excessive that had angered the old man!

Moreover, Ji Zhenhua had already named it in his words – certain more sensitive departments This was definitely the crux of the matter!

But in the end what happened, the director of the Central Office is a time to guess, and look at the attitude of Ji Zhenhua, want to get a specific answer from him is afraid that it is impossible, he can say these, I am afraid is also looking at the friendship with their own.

Therefore, this matter has to be investigated by himself!

So the director of the Central Office just sat there for a while, and then found an excuse to leave in a hurry, this matter today is too serious, must be investigated as soon as possible, otherwise, once really provoke the two old masters to anger, God knows what will happen, then I am afraid that even the boss came, will be ashamed!

But he didn’t know what the next results of his investigation would mean, and with the departure of the Director of the Central Office, there was no telling how many people’s hearts were strained throughout Yanjing!

Campus Master Chapter 2230

“What?!”

“Ji Feng, the son of the Ji family, was attacked? And almost killed?”

“The person who attacked was a staff member of State Security?!”

.....

When the director of the Central Office came back from Ji Zhenhua, he immediately started the investigation, the fact that the two of them, Elder Ji and Elder Tang, went to the garrison at the same time in military attire was so serious that even the highest head attached great importance to it, and as a great steward, the director of the Central Office naturally had to investigate immediately.

The director of the Central Office’s energy, wanting to investigate the causes and consequences of this matter is not a difficult task, especially when the Ji family has the intention of knocking some people, naturally it will be easy to have someone investigate the matter clearly.

So the cause of this matter was soon found.

But the result was shocking.

Master Ji’s grandson, the first grandson of the Ji family’s eldest house, the son of Minister Ji Zhenhua, had actually been attacked and killed on his first day back in Southern Guangdong, and the other party had even used snipers, and several people had died at the scene!

What was even more surprising was that the person who did it was actually from State Security!

When this news came back, even the Director of the Central Office couldn’t help but stutter in his heart.

Now things were in trouble!

People from State Security had poisoned the eldest grandson of the Ji family, what did this mean?

Could it be that the top wanted to eradicate the Ji family?

The director of the Central Office could not help but shake his head, this was obviously impossible, not to mention who was qualified to eradicate the Ji family, the most crucial thing was that the Ji family itself was a part of this country, at the same time, Ji Zhenhua was about to enter the core power level, why should the Ji family be eradicated?

The first thing is, the old man is a leader of the old generation, he has served this country all his life, who is qualified to eradicate the Ji family?

This is simply a travesty of the world!

But the problem is, now that people from State Security are actually attacking the children of the Ji family, this in itself will give people a misunderstanding, and anyone who knows will think that this is likely to be because the superiors are displeased with the Ji family.

Is it because Master Ji has been alive for too long, making some people unable to let go of their hands?

Or do they think that the Ji family is too strong and want to crack down on them?

The actual fact is that you can find a lot of people who have been in the business for a long time, and they’ve been in the business for a long time.

..... is afraid that many people will have such thoughts!

The director of the Central Office was highly nervous when he learned this information, although the matter was only caused from the minor characters of the Ji family, but this is no trivial matter!

If one was not handled properly, it would likely cause the wrath of the entire Ji family.

In fact, not to mention the Ji family, even if the children of ordinary families were attacked and killed for no reason, the parents would definitely not sit idly by!

Therefore, the director of the Central Office did not dare to be slow and hurriedly reported this to his boss.

“Bastard!”

Immediately afterwards, a voice tinged with anger came from the Supreme Chief’s office, “Is this how State Security usually does its job?”

“In the middle of this, there might be some kind of misunderstanding too,” the director of the Central Office said hesitantly.

“Misunderstanding?”

“Is that kid from the Ji family a foreign spy, or a murderous demon? What misunderstanding can’t be investigated clearly before we can talk about it, and must we make a big fuss or even die before we can make it clear?”

Faced with the chief’s rebuke, the director of the Central Office secretly cried out in his heart, he knew that the reason why the chief would rebuke himself was because he was usually the one to interfere with matters of State Security, as State Security was directly under the Central Office and was responsible to the top chief.

But the problem was that normally he seldom interfered with some specific affairs of State Security, so he didn’t really know what was going on here.

“I’m going to check it out!” The Director of the Central Office hurriedly said.

“Not only do we have to investigate, we have to investigate clearly and find out the result!”

“Yes!”

The chief’s tone more or less eased as he said, “That little friend from the Ji family, I’ve heard of him, he seems to have gone to Southern Guangdong, right? He is also working for the country, no merit but also hard work, but this just came back and encountered such a thing, no wonder Ji Lao is so angry”

The director of the Central Office hurriedly said, “I will definitely investigate the matter clearly and give an explanation to Ji Lao!”

.....

The Director of the Central Office's investigation was conducted in secret, however, the whole matter was something that could not be concealed, especially for some families in Yanjing, and some people in high positions, such matters were always a cause for concern.

So before the Central Office could find out any results, the news had already spread.

Many people already knew that the reason why Elder Ji and General Tang appeared at the garrison in full military attire was because his grandson had been attacked, which was originally not a big deal, and given Elder Ji's status, he would not have taken such a drastic approach even if he was angry.

But the problem was that the person who attacked Ji Feng was actually someone from State Security!

That would be a serious problem!

Everyone's eyes were wide open, wanting to know what was going on, how could someone from State Security attack Ji Feng for no reason at all?

However, unlike the others, certain families in Yanjing were also extraordinarily nervous.

This was the case with the Wu family, for example.

After hearing the news, the head of the Wu family, Wu Zhengmin, summoned the second Wu Zhengxiang and the third Wu Zhengxin over and asked in a deep voice, "What's going on, second and third, this has nothing to do with you two, right?"

The two Wu brothers shook their heads at the same time, "No!"

Wu Zhengxiang said, "Boss, although we don't have a problem with the Ji family, we don't have to directly touch the descendants of the Ji family"

"Exactly!"

Wu Zhengxin immediately took over and said disdainfully, "His old Ji family treats that wild child of Ji Feng as a sweetheart and a treasure, but they don't know that in the eyes of others he is just a wild child, maybe it's someone's seed, do we need to use such tactics against him?"

"Besides, we from the Wu family are not that underhanded"

"Cough!"

Wu Zhengxiang suddenly coughed, intending to Lao San's words, his face was a bit embarrassed, this guy Lao San was like this, he didn't even think twice when he spoke, when he said that, wouldn't he be scolding the people of the Wu family in?

I don't blame Wu Zhengxiang for being embarrassed, it was because, indeed, their Wu family had done such things that hurt people secretly!

Especially in the last year or two, Wu Zhiyong had secretly tried to poison Ji Feng more than once, only that the final result was somewhat less than desirable – instead of killing Ji Feng, Wu Zhiyong had even been made to look ashamed by Ji Feng several times!

If we go by Wu Zhengxin's argument, then wouldn't Wu Zhiyong be an underhanded scumbag?

Then what had the Wu family become?

Was it a place where dirt was hidden, or a breeding ground for conspiracies and tricks?

Wu Zhengxiang couldn't help but glare at Wu Zhengxin, this old man, he doesn't know how to think when he speaks, can't you see that big brother's face is not looking too good?

"It's good that you guys didn't do it!" Wu Zhengmin nodded and said, "When you guys go back, you should also check and see if there's anyone from the younger characters below who has been messing around."

"Mhmm!" Wu Zhengxiang and the two of them nodded their heads.

"Also, in this recent period of time, try to restrain the people below you from getting into the limelight and try not to get into conflict with the Ji family either!" Wu Zhengmin explained again, "This time, I'm afraid that the Ji family's old master is going to take real action, at this juncture, it's better not to ask for trouble, now even the old master is on alert, if anything really goes wrong, it could be big trouble, do you all remember?"

Wu Zhengxiang and the two of them simultaneously nodded their heads slightly as their hearts fluttered.

They also did not expect that the old man of the Ji family would make such a big move, and they even more so, when the old man of the Ji family made such a move, even the old man was on alert When they said they were on alert, that was just a euphemism, I am afraid that the old man was really nervous!

It was only now that they realized that the old man of the Ji family, who usually seemed to be unconcerned about the world, would be so powerful once he became angry!

They realised that the old man, who in their minds was so high and majestic, would become nervous just because of a single action of the old man of the Ji family, and even the boss had summoned them over and admonished them so carefully.

Only then did they realise that their own family was not as strong and impregnable as they had thought!

At the same time, they were also awe-struck in their hearts, it turned out that the Ji family was so powerful!

"Big brother, this matter" Wu Zhengxiang suddenly remembered something and hesitantly said, "Could this matter have something to do with Zhiyong?"

"Hmm?"

Wu Zhengmin frowned at once, seemingly pondering on his second's words, then after a moment, he slowly nodded and said, "I will ask him personally!"

Wu Zhengxiang then nodded, but in his heart he was thinking, this matter must not have anything to do with Wu Zhiyong, otherwise, I'm afraid that this time, old man Ji's anger will be spread all over their Wu family's head, seeing how nervous his own old man was, this shows that old man Ji's anger is not so easy to bear

.....

The same scene happened in several families in Yanjing, and these families are either those who usually do not deal with the Ji family, or those who are closer to the Wu family, and a few, who have the ability to make the state security.

However, as Master Ji entered the garrison in full military attire, all these families tensed up and tensed their nerves.

Perhaps it was only at this time that they realised that it would seem that they could gain the upper hand for the time being just by fighting in secret and making trips, but without military power in their hands and without excessive strength, those acts were no different from jumping clowns.

So this time, I don't know how many people's hearts are flabbergasted, much more honest than before!

And at this time, Ji Feng was inside the airport of Jiangzhou Military Division and met with his younger uncle Ji Zhenping who had brought people to investigate!
