

Campus Master 2231

“Little Uncle!”

Seeing Ji Zhenping get off the plane with a few soldiers, Ji Feng immediately greeted him with a smile.

“You kid, there’s no time to stop?!” Ji Zhenping couldn’t help but laugh and scold, “You’re never at peace when you’re anywhere! This is great, you’ve alerted the old man!”

“Little Uncle, you’ve really wronged me this time!” Ji Feng laughed bitterly, “I didn’t even know what was going on, and I ended up almost getting my head shot off!”

“Humph!”

Once Ji Zhenping heard this, he sneered, “Some people really don’t know how to write in dead script!”

Among all the sons and daughters of the Ji family, Ji Zhenping’s favorite was undoubtedly Ji Feng, although Ji Shaodong was also extremely promising, but that kid was too stable, not at all like a young man, being a soldier, Ji Zhenping still liked Ji Feng more.

But it was this nephew that he liked the most, but on the contrary, he had been attacked and killed twice, and even almost lost his life on a few occasions!

This kind of thing, how could Ji Zhenping not be annoyed?

What had this Ji Feng done that was so unforgivable that he had provoked you all to be so persistent in your assassinations? Does he deserve to die so much?

Ji Zhenping came here this time with his anger, but the most important thing now is not to get angry, but to investigate this matter clearly first, even if you want to get angry, you have to find the culprit first, otherwise you don’t even know who to get angry at!

“Kid, don’t worry, this time little uncle will help you uncover the culprit behind the curtain, no matter who it is, this time he won’t be able to get away with it!” Ji Zhenping gritted his teeth and said in a cold voice, “When I came here, your grandfather asked me to pass on a few words to you.”

“You say!”

Ji Feng was instantly refreshed and said busily.

Ji Zhenping said, “Your grandfather told me to tell you that no matter what you encounter, as long as you are in the right, then you don’t have to be afraid wherever you go! Also, don’t be afraid when it comes to things, no matter who you face, as long as you are reasonable and justified, it will be enough!”

Ji Feng smiled, as if he could see the old man was teaching himself sagely in front of him, he slowly nodded his head and said, “Little Uncle, I’ll write it down.”

“It’s good that you’ve written it down, your grandfather is furious over this matter, and I’m afraid that Yanjing is still in a state of turmoil, and some people may not be able to sleep in peace!” Ji Zhenping hummed, “Okay, you don’t have to stay here with me, next I will hand over the people you caught and interrogate them, so you don’t have to participate.”

Ji Feng said, "Little Uncle, it's better to let me participate in the interrogation, I have some experience."

When it came to interrogation, Ji Feng considered himself no worse than anyone else, if he was allowed to interrogate, no matter how strong the other party's willpower was, he would make them meekly tell him everything he wanted to know.

However, Ji Zhenping shook his head and said, "No, you're the one involved, so you can't be involved in this matter."

"So strict?" Ji Feng asked.

"I'm not the only one to try this time!" Ji Zhenping said, "The Central Office will also send someone over, and they will arrive in the evening at the latest, while someone from the State Security side will also come over ....."

Ji Feng then understood, it seems that this is a joint investigation.

The fact is that if you think about it, it's not hard to understand, you were attacked and killed by State Security, and there were even snipers of unknown origin, and in the end, three or four people from State Security died, and one Geng Shaohua was seriously injured, and is still in rescue, so it can be said that the nature of the whole thing is extremely serious.

The whole thing was so serious that the old man was so angry that he went to the garrison with General Tang in military uniform!

This time, even the Central Office had to be cautious.

If the whole matter could not be investigated clearly, there was a good chance that a big trouble would follow.

Therefore, it is not difficult to understand that a joint investigation team is coming down from above. And this investigation team must also have the participation of the Ji family, even if they can't play a leading role, they must still hold a certain weight!

Otherwise, the people of the Ji family may not believe the findings of others – even the assassins can be from the State Security, so who can guarantee that no one else is involved in this matter?

So when he saw his youngest uncle come over early, Ji Feng naturally understood.

"You kid don't have to worry, although someone from State Security will also come, they definitely won't dare to cover up." Ji Zhenping said, "This time, I'll be the main one to do the investigation!"

Ji Feng then understood that it seemed that little uncle was the one in charge of the main investigation into this matter, while the people from the Central Office and the people from State Security came over, I'm afraid that on the one hand, it was to supervise little uncle, and on the other hand, it was also to show the importance attached to this matter.

Of course, the supervisory role is also necessary, otherwise, there will certainly be people who are uneasy in their hearts, for example, whether the Ji family will take advantage of this time to deliberately point the finger at certain people, this is not easy to say things, at least in the hearts of some people, is certainly such a thought.

For these nasty thoughts, Ji Feng didn't pay too much attention to them, as long as this matter was investigated with Little Uncle as the main focus, then there was no problem.

"Little Uncle, since there are other people involved in the investigation, there is one person you must pay special attention to!" Ji Feng reminded, "This person is called Geng Shaohua, he is now being resuscitated in the military hospital, I reckon he should be able to be saved ....."

At that time when Geng Shaohua was seriously injured, Ji Feng had fed him a special effect current, which at least could ensure that Geng Shaohua's body potential was still being stimulated when he was sent to the hospital, and I believe he should be able to survive the most critical period of resuscitation.

And with the current medical technology, I think it should not be a big problem to get the person rescued.

At that time, Ji Feng also checked Geng Shaohua's injuries. The bullet that hit his chest did not enter his heart, but it was true that Geng Shaohua had lost too much blood, and the police's unresponsiveness was really outrageous, dragging Geng Shaohua to the point of complete fainting!

If Geng Shaohua had been taken to hospital in time, I don't think he would have had to be resuscitated for so long.

But all of that had already passed, and now we were only waiting for Geng Shaohua to be resuscitated.

"This man was involved in your assassination?" Ji Zhenping asked.

"Mm!"

Ji Feng nodded and said, "And he was probably leading the charge, and after he was hit by the sniper, he once said that the other side was crossing the river ....."

Ji Zhenping instantly had a brilliant light in his eyes and slowly nodded his head.

With his experience, he naturally knew exactly what Geng Shaohua's shouting of these words represented.

"I'll keep an eye on this person!" Ji Zhenping said.

"And prevent being silenced!" Ji Feng reminded in a low voice.

"Don't worry!"

Ji Zhenping patted his shoulder, turned and pointed at the soldiers who followed him and said, "See, I've already guarded against this when I brought a few of them over here ....."

Ji Feng then put his mind at ease, the youngest uncle is certainly more experienced than himself, this matter is handled by the youngest uncle, Ji Feng is naturally at ease.

The reason is that Ji Zhenping came to investigate the assassination, so after a short contact with Ji Feng, he directly led people to the scene, and at the same time had sent people to put the sniper who was still alive under guard.

The company's main business is to provide a wide range of products and services to the public.

So in this way, there was nothing left for Ji Feng to do.

Ji Feng was also happy to be free, so he went straight home. It had been a while since he had seen Xiao Yuxuan and Tong Lei, and after being outside for so long, Ji Feng missed them.

It was only at this time that Ji Feng realized what it meant to be attached. He realized that he had not only grown up, but had also gradually matured.

When he returned home, Xiao Yuxuan and Tong Lei, who had already received the news, naturally rushed back. Of course, they only knew that Ji Feng had returned, but they did not know that he had been attacked and killed on the first day of his return.

At dinner time, Zhang Lei drove over with Shen Jingyi, this guy had a joyful look on his face and seemed to be very excited.

“Why are you so happy? Won the big prize?” Ji Feng asked.

“Pretty much!”

Zhang Lei heatedly smiled and reached for the table to grab the dish, only to be knocked by Tong Lei, scaring him into retracting his hand again, “Let me have a bite before I say anything!”

But Tong Lei’s beautiful eyes glared: “Go wash your hands!”

Oh yeah!

Zhang Lei shook his head helplessly and hurried to the sink to wash his hands twice before sitting back down and saying, “Crazy, the good news is that Wang Tong’s mother’s surgery was successful and she has passed the dangerous period, so we just need to observe her for a few more days, and if there are no problems, we just need to keep taking the anti-rejection medication from now on!”

“Oh?”

Ji Feng was instantly pleased: “The surgery has already been done? How come I wasn’t informed?”

Zhang Lei said, “You’re so busy in Southern Guangdong, you couldn’t be distracted even if I told you, anyway, there’s no problem here, and Silly Biao is also very cooperative, so I didn’t tell you.”

“It’s good that the operation was successful!” Ji Feng nodded his head and was very relieved in his heart, this time, I’m afraid Wang Tong will have to feel much better in his heart.

“It’s that fixer, a bit shady!” Zhang Lei some dissatisfaction, “before and after together two or three million ah, this does not include the late drugs and nutrition costs and so on ..... so much money, also do not know how much can be in the hands of that prisoner’s family!”

“This can’t be helped!”

Ji Feng shook his head and said, “They are the ones who eat this bowl of rice, although they are a bit shady, but at least they are considered to have saved some people .....”

As the saying goes, existence is reasonable, even if Ji Feng does not think much of this industry, of those fixers and big bosses behind the scenes, yet it is undeniable that because of their existence, they have at least saved a lot of people and, moreover, brought some benefits to the families of those prisoners.

Although a large part of this, a large part of the profits are earned by those people, but for those prisoners' families, having this income may solve big problems .....

So when all is said and done, Ji Feng can't say whether this is right or wrong!

Campus Master Chapter 2232

"Where is Wang Tong now?" Ji Feng asked.

"He's in the hospital with his mother." Zhang Lei said, "I said I'd stay with him in the hospital, but this guy is probably overwhelmed and won't let me stay."

"In which hospital?"

"Just at the First People's Hospital ....., Speaking of which, these guys really have some energy, after Wang Tong's mother had her operation, she was immediately transferred to the First Hospital, they did all the formalities, and they also hired a pretty good specialist from the hospital!"

"Normal!"

Ji Feng nodded, since people dared to do such a business and had been doing it for such a long time, they would definitely have a complete industry chain and also had to have services in place for the patients, otherwise, I'm afraid there would have been a mess long ago.

Otherwise, people's patients would naturally not be willing to spend so much money and end up not achieving the desired results.

"Let's find an opportunity to go to the hospital together some other day." Ji Feng said.

"No problem, I've got my thesis all worked out anyway, there's always time ....." Zhang Lei nodded, "By the way, madman, is your thesis ready too?"

Ji Feng nodded with a smile and said, "Yes, it's time to prepare ....."

The mention of the dissertation made Ji Feng more or less embarrassed, he didn't even know what the requirements for the dissertation were yet, and when he did the math carefully, he had barely been to school much in the last few months.

"By the way, how are things in the company?" Ji Feng turned his gaze to Xiao Yuxuan again.

"There's no big problem, the development momentum is good, it's just that there's a lack of management staff, and R&D staff!" Xiao Yuxuan said.

"Is there still a shortage of management personnel?" Ji Feng was stunned, "Wasn't there a group of reserve cadres before?"

When Rong Peng left the Splendid Group, he took away a large group of middle and senior management, most of them were elites, at that time Ji Feng also took the opportunity to ask for a group

of them, all of them were kept as reserve cadres, there were quite a few of them, there should not be a shortage of management personnel in a short time.

Xiao Yuxuan shook her head helplessly and said, "Those reserve cadres have all been used, but the manpower is not enough, now that the group is expanding, Tengfei Electric has expanded two more production lines and the pharmaceutical factory is also expanding, there is simply not enough manpower."

"Then we'll recruit from the society again!" Ji Feng said, "What about scientific researchers?"

"The shortage of scientific researchers is even greater." Xiao Yuxuan said, "The pharmaceutical factory is not short for the time being, but on the side of Tengfei Electric, there is an urgent need for scientific researchers, and the gap is huge."

Because at present, the pharmaceutical factory mainly produces special effects current, which is exclusively for the military, and the technology is entirely from Ji Feng, so generally not particularly trusted scientific personnel, Xiao Yuxuan really does not dare to use, and in the technical aspects of the current also no problem, can still persist for a period of time.

However, the lack of Tengfei electrical appliances is great.

As we all know, electrical products are updated incredibly fast, even almost one change a day.

"Right now, although 3D TV sets are still considered exclusive, according to the news, several domestic and international giants of the electrical industry are researching 3D TV sets and other related technologies, and some of them have already made certain breakthroughs." Xiao Yuxuan said, "So we must step up the development of new technology, this is how the electrical industry is, technology is king, only by staying ahead in technology will the company be invincible!"

"Moreover, we must also be a big step ahead in technology, because our brand strength, and reputation of Tengfei are still far from those giants, in the case of not much difference in technology, consumers would rather buy those old brands than easily try new ones, after all, the quality of old brands is trustworthy!"

Ji Feng nodded slightly, this was true, those old brands had been tested in the market for many years before they gained market reputation, the concept of trustworthy quality had been deeply rooted in people's hearts.

For example, Volkswagen, which once made a fortune in China, has been exposed as having certain quality problems, but consumers still buy it as if they don't even see the flaws.

Is it really true that Volkswagen has no flaws at all?

Or is there some kind of magic?

In fact, to put it bluntly, it is the good market reputation that has been created over the years. All people know that the Germans are stereotypically rigorous, the craftsmanship is excellent and the quality is trustworthy!

In fact, the same is true in the electrical industry, as well as in other industries. A good reputation is even more useful than spending hundreds of millions on advertising.

“This is something that can’t be rushed, market reputation is something that can only be created after time.” Ji Feng said, “Let’s build up slowly, there will always be word of mouth!”

“So ah, before the market reputation has accumulated, we must ensure that we are absolutely ahead in technology, only then can we seize the market share.” Xiao Yuxuan said, “But in the field of 3D TV sets and other related technologies, the number of scientific researchers we can use is really too few .....”

Ji Feng mused, “I’ll think about this matter, in addition, we should also pay attention to cultivating technical talents ourselves.”

“I know, didn’t we sign a counterpart training agreement with United University?” Xiao Yuxuan said, “I plan to expand the agreement further to include electronics majors.”

“Hmm. You watch what you do.” Ji Feng nodded, he wouldn’t go over the specific matters, Xiao Yuxuan and Han Zhong had their thoughts, when it came to specific management and operation, Ji Feng thought to himself that he might not be better than them.

“By the way, how are the talks with Kerry Four Star Electronics going?” Ji Feng suddenly asked. He remembered that when he left Jiangzhou for Southern Guangdong, the two sides were already in intentional talks.

“Formal negotiations have already been initiated.” Xiao Yuxuan said.

“That Li Zaimin is still pestering you?” Ji Feng asked again.

“Which is not!”

Xiao Yuxuan gave him a blank look, “What are you talking nonsense about.”

Ji Feng then laughed, “So, that guy has become honest?”

Xiao Yuxuan angrily said, “You, you’re usually so steady, how come when it comes to these matters, you look like a different person, you speak with the smell of gunpowder!”

Ji Feng hummed, “This is normal, it has nothing to do with being stable or not, any normal man wouldn’t stand by and watch another man pester his woman and do nothing about it!”

It’s normal for one’s woman to be pursued by other men, it shows that one’s woman is outstanding. But the problem was that if one’s woman was being pestered by another man, that was not normal.

Although Ji Feng was more mature and stable than his peers, he was also a normal man and naturally could not be exempted from such things when he encountered them.

And looking at Xiao Yuxuan’s performance, Ji Feng could tell that this Li Zaimin was afraid that he hadn’t died yet, but it was just that Xiao Yuxuan wasn’t good enough to say it bluntly.

“It looks like we need to find a chance to meet this Li Zaimin again!” Ji Feng secretly hummed.

Next, Ji Feng asked about other things about the Tengfei Group, and then asked about some things about Tong Lei at school, and the family sat together in a very cozy manner.

When the night came, Ji Feng embraced Xiao Yuxuan and Tong Lei to sleep, and that passionate lingering was naturally inevitable.

It had been a long time since they had been together, and it was natural for the two women to be obsessed with Ji Feng.

The next morning, when Ji Feng woke up early, Tong Lei and Xiao Yuxuan were like octopuses pestering him. Ji Feng took a deep breath and gritted his teeth before he was able to break away from their warm and soft bodies.

The two women's bodies were in a state of flux, and Ji Feng couldn't help but sigh with emotion.

If he didn't have something to do, he wouldn't want to get up!

After a quick wash up, Ji Feng went out for his customary walk and bought breakfast by the way.

The first thing you need to do is to get a good idea of what you're doing.

Their bodies were still a little soft from last night's lingering love affair.

Especially when they saw Xiao Ying, Han Zhen and Bai Zhu also blushing slightly, they became even more ashamed.

"Ding ....."

It was a good thing that this awkwardness didn't last long, but Ji Feng's mobile phone suddenly rang, he took it out and found that it was from his younger uncle.

Ji Feng immediately picked up the phone, "Little Uncle."

"Do you have time today, come to my place." Ji Zhenping's voice came over.

"There's time!"

Ji Feng said immediately.

"Good then, let's talk about it when you come." After Ji Zhenping finished speaking, he hung up the phone very dryly, taking a look at the full military style.

After closing the line, Ji Feng couldn't help but feel a little puzzled, the younger uncle called himself so early, could it be that the investigation had come to fruition so quickly?

Or, did the investigation run into any trouble?

But from the tone of his voice, Ji Feng could not hear anything different, so he could only give up and wait until he saw him.

After breakfast, Ji Feng took Bai Zhu with him and went to the barracks. When he arrived at Little Uncle's temporary office, Ji Feng couldn't help but ask, "Little Uncle, you called me early in the morning to come here, is it for ....."

"The investigation may be coming to a deadlock!" Ji Zhenping said.

"Why?"

Ji Feng was stunned, and then asked, "Little Uncle, what went wrong in the middle?"

Little Uncle had only arrived in Jiangzhou yesterday, and this was the start of the investigation, so how come it was about to reach an impasse? This made Ji Feng a bit strange.

"The sniper you caught, his identity we investigated."

"Was it someone from State Security?" Ji Feng immediately asked.

Ji Zhenping shook his head and said, "This person's true identity is actually a professional killer, someone paid him to hire him and gave him the information to snipe you at the designated time and place! But as for who his handler is, he is ignorant."

"A professional killer?!" Ji Feng's eyebrows instantly furrowed .

Campus Master Chapter 2233

"That's right, a professional killer!" Ji Zhenping nodded and said, "This kind of person usually has a clean bottom, and there are many ways to hire a killer, trying to trace his handler and employer through him is almost impossible!"

"Can we be sure that he's really a professional killer?" Ji Feng asked.

"What, don't you trust Little Uncle's interrogation skills?" Ji Zhenping asked with a smile.

"That's not true!"

Ji Feng shook his head and said, "I just think it's a bit strange that since the people from State Security have directly sent their people to lay hands on me, why would they send another professional killer? Isn't that redundant?"

Geng Shaohua was from State Security, and no matter who sent him, at least the other party was not afraid of revealing his identity.

But in that case, why would there be a need to use another professional killer?

Was this done as a double insurance?

Ji Feng felt a bit puzzled, there were plenty of good fighters in State Security, and I believe there were plenty of people who were good at sniping, so just send one over, why bother?

"That's the problem!" Ji Zhenping said, "The problem now is that the people you're talking about, Geng Shaohua and the others, aren't actually from State Security at all!"

"What do you mean?!" Ji Feng was stunned.

Geng Shaohua and the others weren't from State Security?

How was that possible?

Ji Feng couldn't help but say, "Little Uncle, could there be a mistake? I've seen their work permits with my own eyes, there's no doubt that these few people are all State Security staff. I have also confirmed that their work permits are all genuine, there is no possibility of forgery ....."

“You’re all right, I’ve also looked at the work permits you brought back from the scene, and indeed, their work permits are indeed genuine!” Ji Zhenping said, “But the problem is that their work permits, two years ago, have already expired .....

“Ah?!”

“Let’s put it this way, Geng Shaohua and the others were, indeed, once people from State Security, that’s true. However, two years ago these few people violated the discipline of the State Security because of some things and have been expelled!” Ji Zhenping said, “This is all documented, and I have also verified it on purpose, and this is also true.”

Ji Feng couldn’t help but freeze.

After all this, it turned out that this Geng Shaohua and the others had simply been expelled from the State Security, no wonder Little Uncle said that they weren’t from the State Security!

“Then, in that case, we can’t find out who actually sent Geng Shaohua and the others over now?” Ji Feng frowned, “The clues are all cut off here? You can’t find out anything at all?”

“It can’t be said that all the clues are broken, at least, there is still a Geng Shaohua still alive!” Ji Zhenping said, “However, this person is still in danger, whether he can wake up or not is still up in the air.”

“This also means that if Geng Shaohua dies, then the clues are all cut off?” Ji Feng frowned.

“You could say that.”

Ji Zhenping nodded slowly and said, “I have also investigated the trail of Geng Shaohua’s few activities in the past two years, they have lost track of them since they were expelled, according to all indications, they have smuggled themselves out of the country, and they have only recently smuggled themselves back!”

“Now I’ve sent people to do all they can to investigate Geng Shaohua and the others’ trajectory of activities abroad, hoping that we can use this to find out who is in contact with Geng Shaohua.”

“Then .....

Ji Feng asked, “What about the weapons? Can we find out some clues on the source of those people’s weapons?”

Ji Zhenping shook his head and said, “It’s also very difficult. As you know, although our country bans guns, it is actually still impossible to completely ban them on the black market, and gun smuggling is also repeatedly banned, so it is not really difficult to get guns, so it is unlikely to find out any results from the guns.”

Ji Feng nodded, but in his heart, he didn’t hold much hope anymore.

Obviously, from these findings of Uncle Xiao, the other side obviously had full preparation this time, the personnel who acted, were those who had been expelled from the State Security, nominally they were people of the State Security, but in reality they no longer had any relationship with the State Security.

The actual sniper, but a professional killer, at most can only investigate the origins of this person, but who sent him, is no way to find out, even the sniper himself, I'm afraid do not know who hired him!

..... has no clue!

The only way to find out is to find out who sent him.

"The only clue now is that Geng Shaohua!" Ji Feng said in a deep voice: "Little Uncle, I want to see Geng Shaohua."

"I'm afraid I can't."

Ji Zhenping shook his head and said, "Although I am investigating this case, there are also people from the Central Office and State Security assisting from the sidelines, it is impossible for you, as the person in question, to get close to Geng Shaohua."

Ji Feng said, "I just want to save him and then ask who actually sent him ..... If the people from the Central Office and State Security are unsure, they can have their people follow along to see if I will do anything, that's always fine, right?"

"Kid, many times, things are not as simple as you think!" Ji Zhenping shook his head and sighed lightly, saying, "Not to mention that they don't believe that you can bring a person in extreme danger back to life, even if they did, they would never agree to it."

Ji Feng frowned and asked, "Why?!"

"The reason is simple, they don't want to cause any more trouble!" Ji Zhenping hummed, "Now that things have come to this point, it's clear that it no longer has anything to do with State Security, if you really bring Geng Shaohua back to life, when the time comes, he'll be climbing around indiscriminately and then involve some State Security or some other department, then for some people, it'll be a problem!"

"So, even though they know that this Geng Shaohua is the only one who knows, they will definitely not agree to let me get close to him!" Ji Feng gritted his teeth and said.

"It's good that you can understand." Ji Zhenping said, "The only thing we can do now, apart from investigating as much as possible, is to wait for Geng Shaohua to wake up."

"And what if he never wakes up? Or if he just dies, this case will become a headless case?" Ji Feng asked.

Ji Zhenping didn't say anything, he just nodded, the meaning was already unmistakable.

Ji Feng couldn't help but grit his teeth and was more or less annoyed in his heart.

Now the matter is clear, only Geng Shaohua is the only lover, the case investigation want to have a breakthrough, can only be in Geng Shaohua open breakthrough, but some people are afraid to take responsibility, just do not agree to their own close to Geng Shaohua .....

The actual fact is that you can find a lot of people who are not able to get a lot of information on the subject.

Because an outsider has contacted the suspect, whether or not there is collusion or some other kind of hint or something in between, no one can say ..... even if someone is following along, it's useless.

The reason is that if you want to convey information, there are too many ways, a look, a gesture, or a few movements, can convey information that outsiders do not know.

At that time, even if we find out who is responsible, people will say, "Is it because your Ji family wants to put people to death and deliberately instructed Geng Shaohua to frame them?"

Will this be a play that your Ji family has directed itself?

"No wonder they want to kill and silence people!" Ji Feng gritted his teeth.

"What?" Ji Zhenping asked.

"Nothing." Ji Feng shook his head and said, "I just figured out something ..... I suspect that the sniper who killed himself was sent by the same person as Geng Shaohua, and I'm afraid that his mission was to sweep up and then kill to silence him!"

Ji Feng thought about it, in fact, no matter if Geng Shaohua and the others had killed themselves, in the end those few people were going to die, and the second sniper was given this task.

If he was killed, then naturally all would be happy, but then the Ji family would definitely retaliate like crazy, in order to not let the Ji family investigate any clues, Geng Shaohua and the others would have to die.

If they can't kill themselves, Geng Shaohua and the others will still have to die in order to avoid being traced back to them!

As long as Geng Shaohua and others are dead, then all the truth is covered up and it is almost impossible to find out the real culprit behind the scenes.

As for the sniper .....

The first thing you need to do is to get a good idea of what you're doing.

The first sniper was in fact the one who had to kill himself at all costs.

The first sniper, in fact, was a double insurance, to help Geng Shaohua and others to snipe themselves!

The first sniper was actually a double insurance to help Geng Shaohua and others to kill themselves!

The first time I thought of this, I felt a shiver of fear.

What a viciousness!

Ji Feng secretly gritted his teeth, and a cold light flashed in his eyes.

This matter must not be left like that.

But the other party probably didn't think that he would save Geng Shaohua, so that Geng Shaohua was still alive!

This is the best opportunity!

So the most crucial thing now is to find an opportunity to get close to Geng Shaohua and make him wake up, so that we can find out the truth from his mouth.

And most importantly, when approaching Geng Shaohua, no one must know yet!

“But .....

Ji Feng suddenly thought of something and frowned, “Little Uncle, there’s a question I can’t understand.”

Ji Zhenping asked, “What problem?”

Ji Feng said in a deep voice: “Since the other side has arranged so well, even going so far as to kill people to cut off the clues, then obviously they don’t want us to find out anything, if so, then why did the other side use Geng Shaohua and a few of them?”

The other side had to use Geng Shaohua and the others, although they were smuggled back from abroad, they used to be State Security officers after all, so if they were not careful, they might have left some traces.

Since the other side was able to set up such a thorough operation, and even had a deadly soldier like that second sniper, they wouldn’t even have a few operatives, right?

Then why use Geng Shaohua and a few others who obviously carried identity traits?

Campus Master Chapter 2234

Ji Zhenping slowly shook his head and said, “I’m afraid that only the man behind the curtain can answer this question.”

In fact, Ji Zhenping also felt very strange, in this world, there are many powerful people, and there are not a few people with rich operational experience, since the other party can hire professional killers, how can they not find a few people with a cleaner background to do it?

But the other side went in the opposite direction and found a few people from the State Security – even if they were former State Security staff, they were still State Security people!

As long as a person survives in this world, it is impossible for them to leave no trace at all!

So once Geng Shaohua and the others’ identities were exposed, as long as they were deliberately investigated, it might be possible to find out something... Did the people who sent Geng Shaohua and the others not take this into consideration?

This is not only Ji Feng can’t understand, in fact, even Ji Zhenping, likewise can’t understand!

“Unless .....

Ji Feng suddenly had a movement in his heart, “Unless this mastermind behind the curtain is so confident that he thinks that Geng Shaohua and the others will definitely be able to do away with me and that it won’t implicate him!”

Ji Zhenping nodded and said, “It’s not that there’s no such possibility!”

“In that case, it would be understandable why there were three sets of people before and after!” Ji Feng said in a deep voice, “Geng Shaohua and the others were probably just there to distract me, and the one who really did the killing was probably the professional killer, the first sniper! The second sniper, on the other hand, was responsible for sweeping up the tail!”

“According to you, Geng Shaohua and the others were just responsible for distracting you, then anyone could have done such a thing, so why did you have to use them?” Ji Zhenping asked.

“That’s unknown!”

Ji Feng slowly shook his head and said, “That’s the only possibility I can think of right now, unless, the other party used Geng Shaohua and the others, and also wanted to achieve something else, or had some other intention!”

But all this is unknown now, these truths and secrets are buried in Geng Shaohua’s heart, unless this person can wake up, otherwise, it is useless for them to deduce anything here!

The case is not just a case of deduction, even if the deduction is tight, but the people of the Central Office and State Security may not be willing to believe it.

Because first of all, they don’t want to take the blame on themselves!

Now that the old man is furious, it is too late for them to put the blame off themselves, so how could they possibly take the initiative to take responsibility?

So, if there was no concrete evidence, it would be futile to infer anything reasonable!

So, the whole thing went in a big circle and finally came back to the original point – the key person, Geng Shaohua, had to be made to talk!

This person was now the only person who knew, and he was also the most crucial person, so whether he could wake up or not became the key to the whole incident.

Therefore, after thinking about it, Ji Feng still planned to start with this Geng Shaohua.

Ji Feng even regretted that if he had known that this was the case, he should have hidden Geng Shaohua from the beginning, then he wouldn’t have to be so passive as he is now.

But now it’s too late to say anything, he didn’t know at the time that things would become so complicated, and he didn’t know that even the old man would be furious!

The most crucial thing now is how to get closer to Geng Shaohua.

Ji Feng’s mind was turning rapidly, and his mind was thinking rapidly.

A few moments later, Ji Feng suddenly asked, “Little Uncle, where is that Geng Shaohua being held now?”

“At the General Hospital of the Military Division ..... and so on!”

Ji Zhenping replied casually, but before he could finish his sentence, he suddenly reacted, turned his head abruptly to look at Ji Feng and asked, “Kid, what do you want!”

Ji Feng spread his hands and laughed: "I didn't want to do anything, I just asked casually."

"Wrong!"

Ji Zhenping stared at him and hummed, "Don't forget that I'm your younger uncle, I eat more salt than you eat rice, you want to hide it from me?"

Ji Feng laughed heatedly and muttered, "That's because you have a heavy taste ....."

"Brat, what are you talking about?" When Ji Zhenping saw Ji Feng muttering there, he instantly knew that the brat must not have said anything good, and immediately asked with a glare in his eyes.

"Nothing!"

Ji Feng shook his head and said, "Little Uncle, so what, is there anything else? I'll go back if there's nothing else."

Ji Zhenping hummed, "Why are you in such a hurry to go back?!"

Ji Feng laughed, "I haven't been to school for a long time, if I don't go back, I won't even know which way the school gate opens. Besides right now it's time to work on my dissertation, I have to go back to see what's going on ....."

"Kid, I know what you have in mind, but let me tell you, if you want to quietly approach Geng Shaohua in private, I'm afraid it won't work."

Ji Zhenping said, "How high the specifications of this matter, I think you know in your heart, the Chinese Office and the State Security people are in, Geng Shaohua is even more closely protected, now even Geng Shaohua's attending physician, as well as the nurse in charge, and the source of drugs and so on, all aspects are closely monitored, outsiders want to mix in, that is simply impossible! "

Ji Feng couldn't help but frown slightly, Geng Shaohua would definitely be closely protected, this was something Ji Feng naturally expected, but he didn't expect that even the doctors and nurses, and even the medicines were being monitored.

If that was the case, then there was really no chance to take advantage of it!

"Besides, this is in a military hospital, there are quite a few old cadres inside, and many of them have guards protecting their sides, so if you're found out, you won't be able to say anything by then even if you have mouths all over your body!" Ji Zhenping said, "So if you have any crooked ideas, you'd better put them off before it's too late!"

Ji Feng laughed, "I don't have any crooked ideas either, I'm just casually asking."

Ji Zhenping shook his head and said, "Kid, I advise you to give up your mind. Geng Shaohua's ward is divided into three rooms, inside and outside, Geng Shaohua is in the middle one, the inside and outside rooms are guarded, the middle wall is still transparent glass ....." Do you think, you are sure to sneak into Geng Shaohua's ward and get close to him under such circumstances?"

Ji Feng was silent, but in his mind he was quickly outlining the situation of Geng Shaohua's ward, although the situation that Little Uncle had described did seem to be very bad at the moment, with tight guards and no trace, but Ji Feng was not discouraged.

If the guards around Geng Shaohua weren't tight, that would be strange instead!

"Little Uncle, don't worry, I have a good idea." Ji Feng said.

"It's good that you know."

Ji Zhenping said, "Little Feng, you must be uncomfortable in your heart with such a result in the end, I can understand that, but, many times one cannot be overly impulsive, otherwise it would not be called hot-bloodedness, but recklessness."

Ji Feng nodded and said, "I understand."

Ji Zhenping patted his shoulder and said, "The future is long, this time the investigation may not be fruitful, but it doesn't mean that it will never be fruitful, those people are just clowns after all, they can only hide in the shadows and play some conspiracies, you don't need to put too much energy into those people!"

Ji Feng nodded his head.

Ji Zhenping then patted him on the shoulder and didn't say anything more.

Afterwards, Ji Feng didn't stay in his little uncle's office much longer, although the investigation was at an impasse, it wasn't without any hope at all, next Ji Zhenping had to re-check the whole case from start to finish to see if he could still find any clues.

In fact, like Ji Feng, Ji Zhenping is not a person who likes to give in to defeat, in fact, when he was young, his character was even more stubborn than Ji Feng's. This time, since he personally brought people here, he naturally wanted to do everything he could to investigate the case clearly.

.....

"Well laid out!"

After leaving the barracks, Ji Feng couldn't help but shake his head, before this he didn't expect that the other party's arrangement would actually be so well thought out, far more well arranged than the last time when Qiao Rong sent someone to assassinate him.

Last time, although the incident was sudden, there were traces of it.

Whether it was from the arms, or from Soso San impersonating a police officer, etc., there were clues everywhere, so in the end, Qiao Rong, the mastermind, was found, and the whole process didn't take long.

This time, however, the situation was obviously very different.

The other side had not only arranged for double insurance, but in the end they also had someone dedicated to sweeping up the loose ends and carrying out an extermination operation at the same time.

This kind of arrangement could be said to have taken every aspect into consideration, whether the assassination operation was successful or not, the other side would not be exposed!

Thinking about it carefully, even Ji Feng had to admire the other party's meticulousness.

However, in this meticulous arrangement, the identity of Geng Shaohua and the others was very puzzling to Ji Feng. He had never understood, since the other side had such a meticulous plan, why did they have to use Geng Shaohua and the others?

It was really strange!

"Young Ji, what about the results of the investigation?" Seeing Ji Feng frowning slightly, Bai Zhu couldn't help but ask in a low voice, "Is there no result from the investigation yet?"

"There might not be any results for a short time." Ji Feng said.

"Then ..... things are just forgotten?" Bai Zhu asked.

"Let it go?"

Ji Feng shook his head and said, "Of course not! Only, we'll have to conduct the investigation in a different way ..... Bai Zhu, we might need your help with the next investigation."

Bai Zhu immediately said, "What do you want me to do?"

Ji Feng waved his hand and said, "There's no rush now, I need to think it over carefully, I'll tell you when I've thought it through ....."

"Tick tock!"

Ji Feng hadn't finished his words when he suddenly saw a car driving in front of him, while the sound of a horn came, "Be careful, there's a car in front of you!"

Squeak-!

Bai Zhu immediately slammed on the brakes, then steered and was about to go around that car, but just at that moment, only to see the window of that car lowered, revealing a face.

"Ji Feng, are you interested in chatting for a few minutes?"

Campus Master Chapter 2235

SQUEAK-!

Bai Zhu immediately slammed on the brakes, then steered and was about to go around the car, but just at that moment, only to see the car's window lowered, revealing a face.

"Ji Feng, are you interested in chatting for a few minutes?"

"Hmm?!"

Ji Feng couldn't help but be slightly stunned and a little surprised in his heart, how come it was him?

The person sitting in the opposite car was no other than one of the giants of State Security who had dealt with Ji Feng once, but was somewhat less than pleasant.

Zhang Qian!

Ji Feng did not expect that he would actually meet Zhang Qian here, and from the looks of it, it seemed that this Zhang Qian had not come across him by chance, but had purposely waited for him here.

“Commissioner Zhang!”

Ji Feng smiled faintly and said, “Such a coincidence, huh?”

Zhang Qian, however, shook his head and said, “It’s not a coincidence, I’m here specifically to wait for you.”

Ji Feng raised his eyebrows and laughed, “Waiting for me? Commissioner Zhang has condescended to me, I can’t afford this. Commissioner Zhang, what do you want to order me?”

Hearing Ji Feng’s soft but hard words, Zhang Qian’s brow couldn’t help but frown: “Ji Feng, don’t follow your little uncle’s example, you should have your own judgment on right and wrong, don’t follow the clouds in everything, even your words!”

“Heh!”

Ji Feng grinned, lowered the window glass completely, put one hand on the car door, but he didn’t get out of the car, just laughed, “I can’t help it, I don’t enter a family, I admire my little uncle, so I’m deeply influenced by him, I’m afraid I won’t be able to change for a while!”

Zhang Qian couldn’t help but frown, but didn’t say anything else.

In fact, he knew that although Ji Feng was young, he was no longer a child, and in fact, looking at the things that Ji Feng had done in the past, it was not something that a child could do.

So Ji Feng has his own sense of right and wrong, and his own judgment about some things.

But now it seems that Ji Feng is more inclined to stand on the same line as his younger uncle Ji Zhenping, which is actually not difficult to understand.

Therefore, Zhang Qian did not continue this topic, but said, “Ji Feng, let’s put this topic aside for the time being, what grudges I have with your brother-in-law, this also has nothing to do with you, today I came to find you because I want to talk to you about some issues.”

“What issues?” Ji Feng immediately asked.

“Do you think, is it convenient for us to talk like this?” Zhang Qian asked.

“..... Then let’s go to the guest house!” Ji Feng said, “Not far in front of here is the military district’s guest house, if there are any problems, let’s go there to talk!”

Zhang Qian nodded his head and agreed to Ji Feng’s proposal.

Afterwards, Ji Feng didn’t say anything and directly raised the car window and said, “Bai Zhu, drive to the military district guest house!”

Bai Zhu nodded slightly and once she stepped on the accelerator, the engine let out a roar and the car sped off.

She could tell that Ji Feng seemed to dislike this man, so she didn't ask too many questions, she just guarded carefully and pulled away from Zhang Qian as much as possible, just in case Zhang Qian would do something against Ji Feng.

.....

The actual fact is that the guest house is a hotel-style building, and the decorative architecture inside is not at all inferior to that of a social hotel.

Because Ji Feng had come here more than once to look for Xiang Yongzhan, he asked Xiang Yongzhan to help him get a certificate for his convenience, which is actually a membership card to put it bluntly.

Nowadays, the military is not like the old days, because the country's focus is tilted towards economic construction, so military expenses are inevitably affected, and in order to generate income, the military has found ways to set up side businesses, and this guest house is one of them.

Of course, there is another guest house next to the military area, which is not open to the public and only receives military personnel, which is different from this guest house.

Ji Feng took his membership card, asked for a private room, and sat opposite Zhang Qian.

"Commissioner Zhang, what is it that you have condescended to come to see me?" Without any pleasantries, Ji Feng got straight to the point and asked.

"Ji Feng, this time you were assassinated, and I heard that you also captured a person from the State Security?" Zhang Qian asked.

Ji Feng's heart instantly went on alert and said, "That's right! Captured one, but there were a few others who were also from State Security, only they were taken out."

This kind of thing could not be concealed from Zhang Qian, and he did not want to hide it.

In fact, the moment he saw Zhang Qian, an idea suddenly came to Ji Feng's mind – this time when he was attacked and killed, several of them, Geng Shaohua, were from State Security, and it looked like they were also elites, experienced veterans, and ordinary people might not be able to mobilise them.

So, this time, could it be related to Zhang Qian?

And is Zhang Qian coming over to look for himself now to demonstrate, or does he have some other purpose?

Ji Feng's mind was turning rapidly, but his face was motionless as he asked: "Commissioner Zhang must already know something about this case, right? I want to know that the person who attacked me came from the State Security, I wonder what Director Zhang has to say about it?"

"What about you?"

Zhang Qian's face was not the least bit surprised, as if he had expected this question from Ji Feng, but asked rhetorically, "What do you think about this matter?"

Old fox!

Ji Feng gave him a deep look and couldn't help but secretly say.

This man was completely motionless when he spoke, and his speech was not fast, and his tone was likewise not strong, but rather seemed somewhat soft.

But Ji Feng was aware that if Zhang Qian was really such a person, then he would definitely not be able to climb up to his current position.

Therefore, in response to Zhang Qian's question, Ji Feng did not dare to be the slightest bit lax in his heart, but tried not to show it on his face: "If I knew that, then I would be the leader of State Security! But unfortunately, I'm not ....."

Zhang Qian grinned, how could he not hear that Ji Feng was being sarcastic, as the leader of State Security, instead of saying clearly why Geng Shaohua and the others wanted to assassinate him, he even ran over to ask him.

You, Zhang Qian, as one of the giants of State Security, and yet you still ran over to ask me, don't you think it's too hypocritical?

"It seems that you don't have a small opinion of me!" Zhang Qian lifted the tea on the table and took a sip.

"Commissioner Zhang!"

Ji Feng said in a deep voice: "If you're looking for me just to say this, then I'm sorry, I still have a lot of things to do ....."

"Don't you think that things are a bit strange?" Zhang Qian interrupted Ji Feng's words and suddenly asked.

"I don't know what Director Zhang is talking about that is strange?" Ji Feng asked.

"Ji Feng, you came out of the military camp, I guess Ji Zhenping has already told you about the progress of the investigation of the case, right?" Zhang Qian said, "In this case, those people's actions were meticulous and well-planned, there was absolutely no flaw to be found, but why did they prefer to use a few ex-state security officers who could casually find out their identities?"

Ji Feng said, "Whether those few people were really fired or not, but I don't know."

"It seems like you're doubting me in your heart?" Zhang Qian smiled indifferently and said, "If you think so, then you're no different from your little uncle, both are confused!"

Ji Feng's eyes narrowed slightly, and his face sank.

Zhang Qian, however, said to himself as if he did not see it, "If I wanted to make a move, do you think you would have a chance to escape?"

Ji Feng sneered, "That may not be the case, there are many people who want me dead, but in the end, they are often the ones who die, while I am alive and well!"

Zhang Qian didn't argue with him either, but said, "I've already investigated, Geng Shaohua and the others, were indeed originally from State Security, but they have indeed been expelled ..... Ji Feng, if you're smart enough, you should be able to figure out that since the other side had arranged so well, why did they leave such a big breakthrough?"

"Who knows, maybe it's to play some kind of trick or maybe not." Ji Feng said.

"Heh!"

Zhang Qian smiled indifferently and said, "Ji Feng, has it ever occurred to you that you've been dealing with State Security a lot lately, why is that?"

Ji Feng gave him a steep look.

Zhang Qian said, "Think about it, some things, may not be as simple as you see on the surface, there is an old Chinese saying, called lending a knife to kill, or to be more accurate, the phrase sit on the mountain and watch the tiger fight is also good ....."

Ji Feng said in a deep voice: "Do you mean to say that someone deliberately used the former state security personnel in order to provoke strife?"

Zhang Qian faintly shook his head and said, "I never said that, but how you interpret it is out of my hands and I don't want to care!"

Ji Feng stared at him and asked, "These words, why are you telling me?"

"Because I don't want to be involved in this kind of crap for no reason!" Zhang Qian said, "Moreover, I respect Ji Lao from the bottom of my heart ....."

"Alright!"

Without waiting for Ji Feng to speak, Zhang Qian stood up and said; "That's all I have to say, think about it yourself!"

After saying that, Zhang Qian didn't even greet him, so he directly turned around and walked out.

Only Ji Feng was left alone in the compartment, he slowly lit a cigarette, his brows were locked, and he didn't speak for a long time, only a thoughtful look appeared in his eyes.

Zhang Qian's words made Ji Feng think of a lot and grasp a lot of key information.

First of all, one of the most important messages Zhang Qian wanted to convey when he came over today was to tell Ji Feng that this attack and killing incident had nothing to do with him, Zhang Qian.

Only, perhaps it was still because of his status, or perhaps because of the different positions of the two sides, so Zhang Qian did not explain to Ji Feng too bluntly, but conveyed this meaning through some words.

For example, Zhang Qian's statement that if he were to make a move, he would not give Ji Feng a chance to escape, this meaning was already very obvious!

And on top of that, Zhang Qian's second meaning was to tell Ji Feng that this time around, it was likely that someone was trying to use a knife to kill someone and deliberately used this method to stir up strife between them!

Campus Master Chapter 2236

Zhang Qian's arrival came as quite a surprise to Ji Feng.

He did not expect Zhang Qian to come over to explain to him, after all, Zhang Qian's relationship with his younger uncle, Ji Zhenping, is not very friendly, the two sides may be a bit exaggerated to say that they are deadly rivals, but if there is no need, I am afraid that the two people are old and deadly, this is not exaggerated at all.

Therefore, for Zhang Qian's action, Ji Feng is still more or less surprised.

However, from this point, but also let Ji Feng see, Zhang Qian seems to be a bit sitting down.

Ji Feng guessed that whether this matter was really related to Zhang Qian or not, at least Zhang Qian must have felt great pressure, otherwise, how could he, as one of the giants of State Security, have come here specifically to explain to himself?

"It seems that the old man's move has indeed put a lot of people on edge!" Ji Feng smiled faintly, in his heart he worshipped the old man, don't look like the old man has almost stopped asking questions about the world, but his old man's prestige is still there, just a slightly bigger move, I don't know how many people are on the edge of their seats!

Although this is also directly related to power, one has to admit that if the old man hadn't led the troops to make a great name for himself back then, he wouldn't have the power he has today.

A great man should be like that!

Ji Feng's heart could not help but boil with enthusiasm, the old master had really given him an excellent example to follow, making Ji Feng very enthralled.

Although he had the maturity to surpass his peers, Ji Feng was still a young man anyway, and had the same bloodlust as other young men.

Thinking about the kind of commanding thousands of troops and horses on the battlefield, fighting with the enemy in a bloody battle, with all kinds of military techniques and wisdom, that kind of majestic scene, really makes any young man yearn for it!

Ji Feng was no exception!

But he could only think about it now, after all, it was a peaceful society, although there were local wars constantly, and the nastiness between countries was everywhere, but after all, these were still a bit far from Ji Feng.

So after Ji Feng was excited, he soon calmed down.

On the way back, Ji Feng sat in the car and carefully pondered over Zhang Qian's words.

Was someone using a knife to kill someone or not?

Or was it just a small tactic by Zhang Qian to cover up the truth?

Ji Feng thought about it, but could not come up with a reasonable result. Now all the clues had been interrupted, only Geng Shaohua was the only clue, but now Geng Shaohua was unconscious and might even die at any time, but he could not get close to Geng Shaohua, which was a bit troublesome.

“We must find a way to get close to Geng Shaohua, only he knows who the one who is going to kill and exterminate him is!” Ji Feng said secretly.

“Young Ji, are we going straight home?” Bai Zhu’s voice pulled Ji Feng’s thoughts back.

“Let’s go to school!”

Ji Feng thought about it, it was obviously impossible to get close to Geng Shaohua now, things had just happened and it was daytime, the guards in the military hospital must be extraordinarily tight, so it was unwise to rush to get close to Geng Shaohua!

At least, we had to wait until the evening to try.

The school was also a long time since Ji Feng had been there, and besides, he had to prepare his dissertation now, so he had to go and have a look at it.

“Ding .....”

Just at this time, Ji Feng’s phone rang again, he took out the phone and found that it was from his younger uncle.

Ji Feng immediately picked up the phone, “Little Uncle .....”

“Zhang Qian has gone to look for you?” As soon as the phone was connected, Ji Zhenping asked directly.

“Mm. He left only ten minutes ago.” Ji Feng nodded, and without waiting for his little uncle to ask, he said, “Zhang Qian said that the attack on me had nothing to do with State Security, and that it was someone who wanted to kill someone with a knife .....”

“Humph!”

Ji Zhenping then couldn’t help but snort coldly and said, “Whether it’s related to him or not, you have to be careful and on guard.”

“Mm.” Ji Feng nodded his head.

“Little Feng, don’t think that if Zhang Qian goes to you, that means he’s sincere.” Ji Zhenping said, “You may not know much about this person Zhang Qian, the biggest characteristic of this old boy is that he is sinister, but on the contrary, he is very tolerant, this person’s interests are paramount, bending down and bowing down is not something impossible for him to accept!”

Ji Feng then understood what Little Uncle meant, if it was Little Uncle instead, if he personally went to explain to a person, it would really mean that this matter had nothing to do with Little Uncle, because that was how Little Uncle’s character was, he would never bend and beg, but he would not dare to do anything either.

But if Zhang Qian is that kind of feminine character, then for this person, his own personal interests come first, and for this, he can do all kinds of things, whether it's killing people with a ruthless heart or bending down and apologizing to a junior.

Even if .....

This junior is also the nephew of an enemy!

If this is the case, then it is not known how much credibility Zhang Qian's words actually have!

In this way, the matter becomes even more confusing again.

Zhang Qian said that someone was instigating the fight between them, but some clues in the assassination incident pointed to the State Security .....

Wait!

Ji Feng suddenly paused, he suddenly realized that although those clues, especially the identities of Geng Shaohua and others, did point to the State Security, they did not point directly to Zhang Qian!

So, was he jumping out in a hurry now to clarify and prove his innocence, or was this a case of him being a thief with a weak heart?

Ji Feng fell into deep thought.

"Little Feng, are you listening?" Ji Zhenping asked.

"I'm listening." Ji Feng was busy saying, "Little Uncle, it's not good to draw a conclusion on this matter now, let's wait and see."

"It's good that you can think like that, remember, don't be easily swayed by people, especially people you don't know!" Ji Zhenping also urged Ji Feng, "This person Zhang Qian, you have to be careful and wary, if you can avoid dealing with him, try not to get involved, remember?"

"I remember." Ji Feng nodded his head.

"Good then, just have it in your mind, I still have things to do on my side, that's all ....."

"Wait a minute!"

Ji Feng hurriedly said, "Little Uncle, how did you know that Zhang Qian had looked for me? Could it be that you've been keeping an eye on Zhang Qian?"

"Humph!"

Ji Zhenping snorted coldly and said, "There were people from State Security assassinating you, do you think Zhang Qian can get away with it? Of course I have to keep an eye on him!"

Ji Feng was dumbfounded, it seemed that little uncle had a lot of other arrangements.

Afterwards, Ji Zhenping closed the line, and Ji Feng pondered for a moment, unable to help but shake his head and smile.

After this, it seems that quite a few people are sitting on their hands, but it didn't occur to them that the first one to jump out was Zhang Qian ..... It seems that the old man is the old man, and I'm afraid that he entered the garrison in military attire, and I'm afraid that he didn't intend to do anything, but just let those who were originally jumping around more happily, one by one, either put their tails between their legs, or let They'll jump out!

This will make it easy to see clearly who is jumping around and who is tripping behind the scenes .....

The actual fact is that you will be able to get a good deal more than just a few of the most popular and most popular ones.

Awesome!

.....

But what Ji Feng didn't expect was that after coming to school, apart from Zhang Lei and Tong Lei, he didn't see a single acquaintance!

Du Shaofeng is in the Tengfei network, and nowadays, as the 3D TV sets are getting hotter and hotter, the password that the Tengfei network company added to the software of the 3D TV sets is also known as the target of many people, and even some companies, have set their eyes on it.

After all, if we can get the password, we can crack the software of the 3D TV set, and then we can probably make a breakthrough in technology, or at least, we can imitate it successfully, so the pressure on the security of Tengfei Network is getting bigger and bigger.

After recruiting and training a group of ex-military personnel, Yi Xingchen urgently sent a group of them to Tengfei Network and gave them to Du Shaofeng and Wang Hu to manage together, which was a relief for them.

But now the duo did not dare to relax, so Du Shaofeng simply moved directly to the company's dormitory.

Han Zhong was naturally at the Tengfei Group, and as the general manager, he didn't have much time to go back to school.

However, what surprised Ji Feng was that Zhao Kai was also not in school, and also went to Tengfei Group, in doing Han Zhong's assistant ..... As a result of this, the whole dormitory was not even one person in school, except Ji Feng.

As for the other students in the same class, Ji Feng really didn't know many of them, and he didn't even say a few words to anyone else, and the other classes in the same major, Ji Feng knew even less.

So, Ji Feng had to go straight to the teacher and find out about the requirements for the thesis, as well as other necessary formalities and so on, such as the employment placement report form and so on, and after that, he accompanied Tong Lei and stayed in the library all morning, watching Tong Lei prepare her thesis while he worked on his ideas.

Ji Feng didn't want to be like everyone else and just find a model essay, then modify it to include some personal touches, then put his own big name on it, and it would be his own essay.

Although he had not taken any serious classes, he had some knowledge about economics and management, so he intended to write honestly about some of his experiences and his own opinions.

At noon, Ji Feng accompanied Tong Lei to walk outside the school. Perhaps it was the time when graduation was imminent, and the campus seemed to be devoid of that restful and youthful atmosphere, but instead had a feeling of restlessness.

Just look at the students coming and going on that road, are in a hurry, the look between the eyebrows are also different, or sad or joyful ..... No wonder some people say that the university now is actually no longer the pure ivory tower, but has become a small society.

The season of graduation is always a time of sadness and joy.

Perhaps feeling this atmosphere, Tong Lei's hand holding Ji Feng's arm involuntarily tightened.

Ji Feng smiled faintly and just squeezed Tong Lei's small hand, between them, many times they didn't need to speak to understand each other's meaning.

"Hoo~!"

Suddenly, a figure rushed over from the side, Ji Feng instantly frowned and fiercely pulled Tong Lei and took a step back.

"Boom~~"

Campus Master Chapter 2237

"Boom~!"

The man crashed straight over, and Ji Feng reached out and blocked it, instantly causing the man to stumble.

With Ji Feng's physical quality, how could someone else easily bump into him?

The man let out a stifled cry, only to hear a clatter, only to see the man's hands fell to the ground, "Holy shit! Why are you blocking the road?"

As he spoke, the man rubbed his chest and bent down to pick up the object on the ground, which was a file bag.

Ji Feng shook his head and didn't care about the other party's evil deeds, but asked, "Are you alright?"

"Try trying it when you get hit, huh?" The man didn't sound very nice.

"It seems like you hit me, right?" Ji Feng asked amused.

"You ....."

The man was just about to speak when he suddenly eeped, "Are you ..... Tong Lei?"

Ji Feng raised his eyebrows slightly, and Tong Lei was also stunned, "You are ....."

"I'm Chen Xiangrong ah!" A look of surprise appeared on the man's face, "Tong Lei, it's really you, I thought I recognized the wrong person!"

“Chen Xiangrong?” Tong Lei looked at the man in surprise, and a dazed look appeared on her pretty face, “So it’s you! I didn’t expect to run into you here .....

As the two of them exchanged pleasantries, Ji Feng also got a clear look at that person’s face, it was a young man in his early twenties, similar to their age, and looking at the file bag in his hand and the pen he was holding, he should also be a student of the United University.

Only, this man’s dress, however, appeared a little more formal, and not as casual as the other students.

“I didn’t expect to see you here either, what a surprise .....” the boy named Chen Xiangrong said joyfully, “Tong Lei, you’re a student here?”

“Well, you study here too?” Tong Lei nodded her head.

“No no, I’m in the College of Finance and Economics, this time I’m here, I’m preparing to apply for the graduate school of the United University, so I came here to see .....

first,” Chen Xiangrong was full of smiles, with a touch of surprise in his eyes, “I’m really sorry just now , I was in a hurry to get back, there are still people waiting for me outside.”

Tong Lei’s head shook lightly: “It’s okay.”

She didn’t say much by nature, so even when she saw someone she knew, she only said a few words.

But Chen Xiangrong obviously didn’t mind at all, instead he said happily, “By the way, you know the people waiting for me, they are some old classmates from our class, Tong Lei, are you free now?”

Tong Lei hesitated for a moment, then nodded her head and said, “I have time, why?”

“Hi!”

Chen Xiangrong laughed, “Old classmates meet, of course we should get together, really, if we didn’t happen to meet today, I didn’t even know you were also in Jiangzhou .....

walk walk walk, we must have a good chat today, there are a few old classmates outside, if they know our school girl is here, they must be overjoyed! .”

“This .....

Tong Lei looked at Ji Feng, she was not very good at these social gatherings, but she could not wipe her face when her old classmates met, so she had to seek Ji Feng’s opinion.

Chen Xiangrong then laughed and said, “Khan! I forgot to ask, this is .....

As he spoke, his gaze fell on Tong Lei’s hand holding Ji Feng’s arm, his eyes couldn’t help but change slightly, and his expression was not so natural.

Ji Feng, however, felt a little funny, this Chen Xiangrong just now still want to own fury, but after seeing Tong Lei, he seems to have completely forgotten that there is still himself next to this person, as a result, until now to see himself!

“This is my boyfriend, Ji Feng!” Tong Lei, however, smiled sweetly and said, “Ji Feng, this is my junior high school classmate, Chen Xiangrong, who is also from our Mang Shi County!”

“So it’s an old classmate!” Ji Feng guessed that it was also true, he basically knew all of Tong Lei’s classmates in high school, not to mention that they were in the same class later, so naturally it was impossible that he didn’t even know his old classmates.

Ji Feng smiled and extended his hand, “Hello, nice to meet you!”

“That’s what ..... I am too!” Chen Xiangrong snorted, then laughed: “I’m an old classmate with Tong Lei, and we’re old folks, and we just happen to run into each other here again, it’s really fate, how about going to get together together?”

Although Chen Xiangrong was talking to Ji Feng, when he finally asked, his eyes were flicking at Tong Lei’s face.

Ji Feng shook his head secretly as he watched. With his experience and vision, how could he not see that this person called Chen Xiangrong obviously liked Tong Lei, or at least had liked her, and was now a little excited at the sudden sight.

But when he saw that he was next to Tong Lei, he was obviously a bit uncomfortable in his heart, so he subconsciously tried to ignore himself.

This is already a good performance!

Ji Feng felt that if everyone was a few years younger again, at that age of 17 or 18, if a guy saw that the girl he liked had a boyfriend, his heart could be more than just uncomfortable, it might be hostile, or even find a way to mess with each other.

“Ji Feng .....” Tong Lei looked at Ji Feng.

Ji Feng squeezed Tong Lei’s small hand and asked, “Do you still have to prepare your paper this afternoon?”

The first thing you need to do is to get the paper ready. If that’s the case, then my old classmate will be sad .....”

“Then ..... okay!” Chen Xiangrong had said so, and Tong Lei had no choice but to nod her head and agree.

“That’s right!”

Chen Xiangrong’s face was immediately happy and he was busy saying, “Then let’s hurry over, Zhang Xiaoli and the others are still waiting outside .....”

Tong Lei nodded slightly and asked, “Is Zhang Xiaoli also in Jiangzhou?”

“More than that!”

Chen Xiangrong laughed, “It’s not just Zhang Xiaoli, our original class president Shan Wendong, he is also in Jiangzhou, and the school he took the exam is also very good, in Jiangzhou University of Technology, and Zhou Xiaosi, and Bu De Xin, they are all in Jiangzhou, a few of us usually get together once a month or two, and we often talk about you, just don’t know which school you took the exam, but unexpectedly, actually If those guys saw you, they would be overjoyed!”

Tong Lei smiled: "It's not that exaggerated ....."

Ji Feng looked dumbfounded, Lei Lei everything is good, but this social aspect, is really too lacking.

The first thing you need to do is to get a good idea of what you want to do.

The only person who knows this is Ji Feng, although Lei Lei's cold personality is a bit unapproachable, but it is also very cute, but these are not outsiders can know.

Tong Lei took Ji Feng's arm and followed Chen Xiangrong outside, because the weather was too hot, so the three of them walked on the forest path, and when they were about to approach the entrance of the school, because there was no more shade from the trees, they speeded up, so they quickly walked out of the school.

"Look!"

Chen Xiangrong pointed ahead and said, "Shan Wendong and the others are waiting right in front of them!"

Ji Feng and Tong Lei raised their eyes and saw several people standing there chatting beside the green belt in front of the United University, and one of them looked particularly conspicuous.

If Chen Xiangrong hadn't pointed it out, Ji Feng would have thought that this was a successful person from the society who had come.

This person should also be a popular figure in the school, Ji Feng said secretly, this person's dressing was also quite a lot in the United University, usually such people either had a particularly good family and wanted to highlight their maturity themselves, as well as their better family background, so sometimes these students dressed more maturely than even the teachers, and were also more trendy.

And apart from this boy, several others were also dressed quite fashionably, especially two of the girls, who were even more flamboyantly dressed, and at first glance thought they were fashionable city girls!

In this regard, Ji Feng was not surprised.

Nowadays, there are many female university students who dress sexy and hot, especially those who were picked up by luxury cars on Friday afternoon, and even those hot girls in bars may not be able to catch up with them.

When Tong Lei saw those few people, she couldn't help but be stunned as well.

"Let's get over there ....."

Chen Xiangrong said, "They definitely didn't expect to see you here!"

Tong Lei just smiled, but did not respond much, in fact, she really did not know these people too well, she used to be just classmates in junior high school, and with her personality, naturally she would not talk and laugh with them like others, so to say how good the relationship was, that was not quite true.

Therefore, seeing Chen Xiangrong speak so exaggeratedly, Tong Lei felt a bit awkward, but she couldn't really refute it.

The three of them arrived in front of those people, and as soon as they approached, they heard Chen Xiangrong shout, "Wendong, look who I've met!"

Those few people turned around in surprise, and when they saw Tong Lei, a few of them froze.

"Tong Lei?!" One man asked in surprise, "It's Tong Lei!"

"It's really Tong Lei!" Several other people also reacted at once, "This is so unexpected, Tong Lei, you're at Union University?!"

"Hmm."

Tong Lei nodded slightly, "..... Hello guys."

"Pah!"

The boy who was dressed very maturely suddenly snapped his fingers, with a face that couldn't hide his joy, and said with a smile on his face, "I really didn't expect this, we've been in Jiangzhou for a few years and didn't even know you were here, if I had known, I would have come to see you a long time ago ....."

Several other boys also nodded their heads, looking at Tong Lei's gaze, all looked a little excited.

However, Ji Feng was keenly aware that the two girls present, after recognizing Tong Lei, were both looking slightly less natural.

Campus Master Chapter 2238

In the eyes of those two girls, Ji Feng saw a touch of imperceptible strange look, which seemed to be jealousy, and also some vigilance and wariness .....

The first thing you need to do is to get a good idea of what you are getting into.

Soon, Ji Feng figured it out, I'm afraid, this is the so-called same-sex repulsion.

Because Ji Feng noticed that the more enthusiastic and full of smiles the boy in mature clothes was when he was talking to Tong Lei, the more wary one of the girls was and the less good-looking her face was .....

As for the other girl, it was the one who glanced at Tong Lei from time to time, and then the corners of her mouth twitched.

If you see here Ji Feng still do not understand what is going on, then his experience and experience of these years is really wasted.

Obviously, these two girls, one of them must have liked the boy who was dressed more maturely, so when she saw that the boy's eyes actually glowed after seeing Tong Lei, her heart must have been uncomfortable.

As for the other girl, it was obvious that she was pure jealousy.

Even though she was dressed in a very flamboyant and glamorous way, the girl was not bad looking, and if she walked down the street, the turn-around rate would certainly not be bad, while Tong Lei was

dressed in a very simple way, with ordinary seven-part trousers, soft-soled sandals, a short shirt on top, and long hair tied in a ponytail, looking no different from an ordinary student.

However, the biggest difference between people is actually in their temperament.

Tong Lei's unmistakable aura could not be imitated by anyone. She just stood there quietly, and even if she did not say a word, it was enough to attract everyone's attention.

Not to mention the effect it would have if Tong Lei also changed into the girl's clothes.

In fact, Tong Lei did not want to over-dress and did not even wear much make-up, but it was that kind of plain face that exuded an amazing charm that people simply could not ignore.

Under such circumstances, that girl's jealousy was understandable.

Of course, although those two girls were uncomfortable in their hearts, they didn't show it too obviously. Students nowadays are very precocious and are already very worldly before they even set foot in society, so naturally they wouldn't put their feelings on their faces.

So instead, a few people still seemed to be warmly exchanging pleasantries, and Ji Feng also recognized the names of these people clearly through their speech.

The boy who dressed as if he was a successful person was the class president from their junior high school days, named Shan Wendong.

The other two boys were Zhou Xiaosi and Bu Dexin.

Zhou Xiaosi was a boy who wore glasses and had a somewhat thin figure, while that Bu De Xin, however, was slightly fat, but not very fat.

As for the two girls, the one who liked Shan Wendong was named Xu Ling, while the other girl who was jealous of Tong Lei was the one who Chen Xiangrong said was Zhang Xiaoli.

After a few people had exchanged pleasantries, they heard Shan Wendong say, "Let's not keep standing here talking, it's such a hot day, let's find a place to eat first."

"That's right, that's right!" Chen Xiangrong immediately said, "The few of you who accompanied me here today have all worked hard, and you just happened to run into Tong Lei, this is really a surprise, so don't anyone grab it from me today, I'll treat you ....."

"What kind of talk is this!"

Shan Wendong face a book, said: "I am the class leader, of course I treat you guys! Besides, I'm really extraordinarily happy to see Tong Lei here today ..... It's a deal, I'll treat you today!"

Chen Xiangrong seemed a little reluctant, but he opened his mouth, but nothing came out.

Shan Wendong did not care about him, but said, "Tong Lei, we have not seen each other for a long time, we must have a good get-together today ..... How about this, I am not too familiar with the surroundings of the United University, so let me make the arrangements today, okay?"

The company's main business is to provide a wide range of products and services to the public. Why are we still being polite? If the class president is treating us, then of course it's the best, class president, just make the arrangements, we'll all listen to you!"

Ji Feng smiled, then looked at that Bu De Xin, couldn't help but secretly shake his head, the students nowadays ah .....

Obviously, this Bu De Xin and Shan Wendong are on the same line, and seems to be quite flattering to Shan Wendong, this has not yet gone to society, among classmates have already learned to flatter so much, this is really .....

The actual fact is that you can find a number of people who have nodded their heads and things are settled, but Shan Wendong still smiled and asked, "Tong Lei, what do you think?"

Ji Feng's eyes then slightly narrowed, this Shan Wendong, really quite some tactics ah!

From the very beginning, Ji Feng could tell that Shan Wendong liked Tong Lei!

This was evident from the fact that Shan Wendong had directly rejected Chen Xiangrong's offer to treat him, but Chen Xiangrong did not object despite his displeasure.

At least, Chen Xiangrong didn't dare to go hard with him!

However, what made Ji Feng notice the most was that Shan Wendong seemed to be very tactful. For example, now, the others had all agreed to let Shan Wendong make the arrangements next, and they were also following suit, wanting to settle the matter so that Tong Lei could not refute it.

But it was in this situation that Shan Wendong still specifically asked Tong Lei's opinion, and by doing so, he was undoubtedly showing his respect for Tong Lei, as well as his steadiness and maturity in contrast to the others.

If you add to that the designer clothes he was wearing, which at a glance could be seen to be of great value, and the watch he had on his hand, together with his 5'8" head and handsome looks, it was easy to make women sway.

The fact that he was so skilled at playing this hand, he didn't know how many times he had played it before.

But Ji Feng didn't say anything, no matter what these people had in mind, but at least they were Tong Lei's old classmates, being able to meet acquaintances outside was not a bad thing in itself, besides, it was normal for someone to like Tong Lei, after all, with Tong Lei's looks and her charm, it would be strange if no one liked her!

"Yes." Tong Lei's reply was simple and clear, "But I'll treat you."

"Tong Lei, that's not the right thing to say." Shan Wendong laughed, "With a man around, how can you let a girl pay for it, you're hurting people's pride more than rejecting me outright!"

"Then ..... okay." Tong Lei nodded and didn't argue any further. In fact, she was thinking that everyone was still a student and spending their family's money, so it wasn't too good to let them treat.

But since Shan Wendong had said so, Tong Lei could not refuse any further. And she didn't like to compete with others for anything either.

"Then let's hurry up and go, if we go late, there might not be any seats left." Bu Dexin laughed.

"It's alright, there are definitely seats at the place I'm taking you to, but ....." Shan Wendong smiled and hesitantly said, "There are so many of us, but I can't fit in my car."

As he spoke, Shan Wendong pointed to a black SUV not far away: "My car is a seven-seater, but there are eight of us ....."

"It's not that simple!"

Bu De Xin laughed: "This is Tong Lei's classmate, right? I'll take a taxi with him and you guys can take the car."

Shan Wendong nodded and smiled, "That's good, I haven't seen Tong Lei for a long time, so we can have a good chat, I'll just give you the address later ....."

"I'll just go with my boyfriend." Tong Lei, however, said dryly.

"....."

At once, several people were choked.

Shan Wendong even gave Ji Feng a deep look, as if he was only then officially paying attention to Ji Feng: "This is your boyfriend?"

"Yes!"

Tong Lei said, "My boyfriend, Ji Feng."

Shan Wendong paused, but the smile on his face was unabated as he reached out his hand and said, "Nice to meet you."

Ji Feng couldn't help but shake his head and smile, these few people were really, before on the campus, Chen Xiangrong ignored himself, now a few of them were likewise intentionally ignoring themselves, as if they didn't see themselves.

The fact that Tong Lei had been holding his arm, Ji Feng did not believe that Shan Wendong and the others would not think of their relationship with Tong Lei, but when they spoke, they made themselves 'Tong Lei's classmates' and then tried to separate themselves from Tong Lei, the intention of which is naturally self-evident.

This makes Ji Feng more or less unhappy, Shan Wendong likes Tong Lei, which everyone can see, but his approach is a bit too much, and his eating face is also a bit ugly.

It looks like Shan Wendong is dressed like a successful person, but in reality, he is still far from that class in his bones.

Ji Feng believed that if this matter were in the hands of Second Brother and the others, they definitely had countless ways to achieve their goal, and it definitely wouldn't be such a low-level tactic.

“We’re all about the same age, so there’s no need to be so polite, and you don’t have to be formal, I’ll just call you Ji Feng.” Shan Wendong laughed.

“.....”

Ji Feng was a bit speechless, what did he have to be formal about?

“Ji Feng, do you think you should take a taxi or .....” Shan Wendong asked with a smile.

Tong Lei was right next to him and frowned slightly, just as she wanted to speak, Ji Feng smiled and said, “No need to go to such trouble, I have my own car.”

“Oh?”

Shan Wendong raised an eyebrow and laughed, “That’s great, it’s naturally convenient to have a car .....”

Ji Feng smiled, turned back and beckoned, and immediately after, a roar of an engine was heard, and a black BMW X6 pulled up next to several people.

At once, several people froze at the same time, Shan Wendong was similarly stunned, a strange colour flashed across his eyes.

“Me and Tong Lei will just take my car, please lead the way in front of you.” Ji Feng smiled faintly and led Tong Lei’s little hand to the car.

Campus Master Chapter 2239

At once, several people froze at the same time, and Shan Wendong was similarly stunned as a strange colour flashed across his eyes.

“Me and Tong Lei will just take my car, please lead the way in front of you.” Ji Feng smiled faintly and took Tong Lei’s hand and got into the car.

Immediately, the faces of Shan Wendong and the others didn’t look too good.

Especially when they saw Ji Feng holding Tong Lei’s little hand and getting into the BMW, Shan Wendong couldn’t help but jump a few times at the corners of his eyes and his face darkened.

How could Shan Wendong not have imagined that he had actually lifted a stone to smash his own feet!

In fact, from the moment they saw Tong Lei, they had naturally noticed Ji Feng. Even if they had only focused their eyes on Tong Lei, then they should have seen that Tong Lei was holding Ji Feng’s arm, so how could they not see Ji Feng?

The problem was that they could not see him.

But the problem was that none of them took the initiative to say hello to Ji Feng, and none of their eyes even fell on Ji Feng – except for the occasional glance over Ji Feng’s body, sneaking a peek at him.

In fact, from this, one could see what kind of attitude this person Shan Wendong actually had towards Ji Feng.

Obviously, they weren't too happy to see Ji Feng's presence!

On the contrary, the girl called Xu Ling was the only one who looked at Ji Feng a few more times. Perhaps for her, Ji Feng's appearance was actually the same as helping her eliminate part of the potential threat – breaking Shan Wendong's thoughts about Tong Lei!

After all, Tong Lei already had a boyfriend, and they were even standing together so intimately, so even if you liked Tong Lei more, you didn't have a chance, did you?

At this time, whether you see that it is hopeless to pursue Tong Lei and move on, or whether it is the next best thing, no matter what, in this situation you should always look at me a few more times, right?

I'm afraid that's what Xu Ling is thinking.

In addition, she may also be a bit curious to know what exactly Ji Feng is capable of to woo Tong Lei.

But Shan Wendong and the others didn't think so!

Because Ji Feng's presence made them all very uncomfortable, and they were even vaguely somewhat hostile towards Ji Feng, only that everyone was not a child anymore, and with Tong Lei around, they could not act too obviously.

So, they consciously or unconsciously ignored Ji Feng's presence. Anyway, they had been old classmates for almost ten years, and the tacit understanding between them naturally went without saying.

They had naturally worked together quite well before, and Tong Lei's boyfriend basically didn't even interject anything, which made them very proud.

So after deciding how to arrange for lunch, they then intended to give Ji Feng another embarrassment, and at the same time, to let Shan Wendong and Tong Lei spend a little more time with each other, to get to know each other a little more ..... Of course, mainly Shan Wendong wanted to let Tong Lei get to know him a little more.

The black seven-seater SUV is the best proof of this.

So, Shan Wendong raised a very necessary issue as a matter of course – the car could not fit so many people.

And by chance, there was just one more person!

Although it was just a coincidence, it was obvious that Ji Feng was the only outsider here, so it was self-evident who this was aimed at.

Originally, Shan Wendong's intention was to let Bu Dexin take a taxi with Ji Feng, while Tong Lei would take his car, so that he could not only have a close chat with Tong Lei and remove the rustiness of not seeing her for the past few years as soon as possible, but also let Tong Lei feel the change in herself now.

However, what Shan Wendong did not expect was that Tong Lei's boyfriend simply waved his hand and said, "I have my own car.

Then came a BMW X6, and he didn't even have to drive it himself.

The actual car is actually a beautiful woman!

..... In fact, Shan Wendong did not look carefully, otherwise he would have found that the car is not just a beautiful woman, in addition to the driving Bai Zhu, in the passenger seat, also sat Han Zhen!

“Buzz~~!”

Ji Feng and Tong Lei sat in the back row and lowered the car window: “You guys please lead the way in front, we’ll follow behind!”

Shan Wendong just choked: “.....”

He forced a smile out of his face and nodded, “That’s fine.”

After saying that, he immediately turned around and walked towards his SUV, he was afraid that if he didn’t go any further, he wouldn’t be able to help but change his face, and he might even let Ji Feng detect his hostility.

It is just that Shan Wendong is unaware of what Ji Feng has experienced over the years and what kind of experience he has.

The fact is that if you’re not a child, you’re not a child.

If it wasn’t for the fact that they were all Tong Lei’s classmates, Ji Feng wouldn’t even care about them, let alone talk so much nonsense to them and finally go to dinner with them!

As for the other few people, they were even worse than Shan Wendong, their faces looked a bit complicated, they took a look at the BMW X6 parked in front of them, and then at Ji Feng and Tong Lei sitting in the car, before they turned around and walked towards Shan Wendong’s SUV, but they didn’t know what to feel in their hearts.

“They .....”

Looking at Bu Dexin and the others getting into the SUV in front of them, Tong Lei could not help but frown slightly and said, “I don’t like them like this!”

Ji Feng smiled and squeezed her small hand, saying, “It’s okay, it’s okay not to like it, anyway, it’s rare for old classmates to meet, it’s not bad to talk and eat together.”

Tong Lei was silent for a moment and said, “But I don’t really like it, I think they’re all different from before.”

Ji Feng nodded and laughed, “I know what you mean, it can’t be helped, people always grow up, those innocent youthful days, I’m afraid they’ll never return!”

The university campus nowadays is no longer the sacred place it was back then, much less the pure ivory tower.

Some students in universities nowadays even seem more worldly than people in society.

Although they have not yet experienced the cruelty of society, they are pretending to be mature, or have already been polluted, and have since lost that mindlessness, thinking only about how to have fun,

how they can talk to the girl they have a crush on, and then be happy or secretly happy in their hearts, and are so excited that they don't even want to do their homework when they get home.

Even at night, I would still be thinking about what I had done during the day. Lying in bed, I would fantasise about what could happen with the girl I liked, or how I could catch the girl I liked.

Or, I would fantasize about what I would achieve in the future and how I would give happiness to the girl I liked .....

The youthful days of ignorance are the most beautiful.

The majority of people in this age group are not only them, but also have lost that ignorance.

Although they all have someone they like now, they don't have the sweet crush they used to have, and they don't have the happiness and simplicity of being so happy that they can dream about it at night just because they've said a few more words to the person they like.

The students nowadays are used to seeing those pretty school girls being picked up by a BMW Audi on a Friday evening, and then on a Sunday afternoon with a big bag full of smiles and even dressed up sexier than a street girl, so these students have long since learned that the charm of money and power is enough to conquer all pretty women... ..

Under such circumstances, that originally somewhat sour and sweet ignorance of feelings, however, has also changed its flavour.

The company's main business is to provide a wide range of products and services to the market.

The reason is that the pure friendship of classmates has been gradually disappearing.

"Bai Zhu, follow that car in front!" Ji Feng shook his head and smiled, said to Bai Zhu, and then patted Tong Lei's small hand, said: "You, you should learn to look at the bright side, this society is fickle, laughing at the poor, it is normal for those classmates of yours to change."

"That's why I'm more willing to deal with children!" Tong Lei said.

"Hehe ....." Ji Feng couldn't help but laugh dumbly.

This was true, although children were naughty, they were innocent, and with Tong Lei's personality, trying to get her to deal with people in society would be difficult for her.

So on the contrary, it's being with children that makes Tong Lei happier.

Of course, Ji Feng was happy with this.

As long as Tong Lei was happy, it didn't matter what she had to do, besides, teaching children was also a very meaningful thing!

While Ji Feng was chatting with Tong Lei, he naturally didn't know that in the black SUV in front of Shan Wendong's car, several people were muttering about something.

"That guy is Tong Lei's boyfriend? How dare he have a BMW?"

"It couldn't be that Tong Lei deliberately found a guy to be a shield, right?"

“I don’t think so .....

“Xiang Rong, where did you meet Tong Lei, that guy named what ..... is called Ji Feng, is he really Tong Lei’s boyfriend?” Bu Dexin looked towards Chen Xiangrong and asked.

“I think so!”

Chen Xiangrong nodded casually, looking somewhat listless, “When I ran into Tong Lei on the campus of the United University, they were together, and Tong Lei was holding that guy’s arm that way.”

A few people just stopped talking, if you put it that way, Tong Lei couldn’t have just found a guy to be a shield, so to speak, they were really a couple.

Campus Master Chapter 2240

“I think so!”

Chen Xiangrong nodded casually, looking somewhat listless, “When I ran into Tong Lei on the campus of the United University, they were together, Tong Lei was also holding that guy’s arm like that.”

A few people just stopped talking, in that case, Tong Lei couldn’t have just found a random guy as a shield, in that case, they would really be a couple.

The fact that Tong Lei had actually found a boyfriend, and one who was so rich, made them feel more or less uncomfortable in their hearts, with a vague feeling of eating.

Even the two girls, Xu Ling and Zhang Xiaoli, were equally uncomfortable.

In their opinion, Tong Lei was only a little prettier, but she was very arrogant and noble, so why should such a person be able to find such a rich boyfriend?

“She’s not being adopted by a rich man, is she?” Xu Ling bristled and spoke up.

“That can’t be right?”

Chen Xiangrong was stunned, “That Ji is very young, it’s about right to say he’s the son of a rich family.”

Xu Ling bristled, “Then that doesn’t rule out the possibility that she’s being adopted. Besides, rich men are so philandering that they might have many girlfriends besides Tong Lei, only Tong Lei doesn’t know and is still kept in the dark!”

“That’s right!”

Zhang Xiaoli said, “She’s so noble, I’m afraid she won’t think she’s just one of his many girlfriends!”

“Shut up!” Shan Wendong, who had been driving, suddenly bellowed.

“.....”

Zhang Xiaoli was immediately startled: “Shan Wendong, have you taken the wrong medicine, what are you yelling at me for?”

Shan Wendong, however, did not turn around, just put his hands on the steering wheel and did not say a word.

Bu Dexin hurriedly gave Zhang Xiaoli a wink, signaling her not to say anything more. Zhang Xiaoli was also a bit afraid of Shan Wendong and deflated her mouth reluctantly, but finally stopped talking.

In fact, Shan Wendong's family is the best among them, especially in recent years, Shan Wendong's family has been doing business in Jiangzhou and is said to have made a great fortune, and it is said that Shan Wendong's family is very powerful in Jiangzhou and knows a lot of dignitaries, so in their hearts they subconsciously feel that Shan Wendong is a class above them, and usually no one is willing to offend Shan Wendong.

After all, no one knows that one day they will ask for help from Shan Wendong, so if they offend him now, why should he help you?

And after such an episode, the atmosphere in the car suddenly became dull.

At this time, Bu De Xin's eyes turned and he laughed: "Okay, okay, why are we always talking about this topic?"

Shan Wendong was silent for a moment before he said, "I'll take you to a high-class place today!"

"Really?"

Bu Dexin said excitedly, "That's great, honestly, I've been in Jiangzhou for a few years now, but I've never been to any high-class places, they're too expensive and not really for the average person! Wen Dong, if you hadn't taken us there today, I'm afraid we wouldn't have known how long it would have taken us to go to a high-end place to open our eyes."

These words immediately tickled Shan Wendong's itch, and a smile appeared on his taut face as he said, "There are many high-class places, and as long as you have money, it's not difficult to go there, that's no fun. The place I'm taking you to today, usually even if you have money you can't necessarily get in, you also have to have a certain status ....."

"Really?!" Bu Dexin was stunned, "Is it the kind of place that is not open for business to the public?"

"Something like that!"

Shan Wendong said, "I'll take you guys there later to open your eyes!"

A few other people asked, "What kind of place is it?"

Shan Wendong smiled smugly and said, "Don't be in a hurry, you'll know when you get there!"

When he said this, Shan Wendong's heart was more or less relieved, and the burning feeling of being hit in the face earlier was only slightly eased.

Originally, Shan Wendong only wanted to take Tong Lei to a high-class place, after all, there were not many people as young as him who drove an SUV with hundreds of thousands of dollars, and even if there were, they were very few, so Shan Wendong had a sense of superiority and was very confident.

He thought that if he launched an offensive, Tong Lei would definitely relent.

However, what Shan Wendong did not expect was that Tong Lei's boyfriend had a BMW and a beautiful driver.

This made Shan Wendong both annoyed and penniless, so he decided that he would take them to a place where he could show off his status and energy.

What's wrong with having money?

In this society, not everything can be bought with money, and that includes status and position!

So Shan Wendong is going to let Tong Lei and her boyfriend know today, don't think that just because you have money, you can outshine him, Shan Wendong!

.....

"Hmm?"

Ji Feng looked up at the words, "A private small kitchen?"

Tong Lei was also a little surprised, "What kind of place is this?"

In front of them was a villa-style building with these four words written right above the front door, but other than that, there was no sign at the entrance, it looked like a residence in general.

The few students of Tong Lei's also seemed a bit confused, and they saw Bu Dexin ask, "Wendong, what kind of place is this?"

"Here ah ....."

Shan Wendong laughed, "This is a private kitchen, not open to the public, those who can come here have to have a certain status to get in, or have such a person leading them, like some of the dignified people in Jiangzhou, they often come to such places."

A few others couldn't help but be a little flattered, "Then ..... we'll eat here today?"

"Of course! Why else would I bring you guys here?!" Shan Wendong laughed, "Come on, I'll take you guys in!"

"Heh!"

Ji Feng shook his head and smiled, from this statement of Shan Wendong's, he could tell that he was now starting to show off.

If it was a usual classmate treat, he would probably say, "Let's go, let's go in!"

Instead of saying 'I'll take you in', this might not sound like a big difference, but in reality, the meaning of it was a big difference, and this feeling was always a little uncomfortable.

However, Ji Feng did know something about this private kitchen.

He had once heard his second brother Ji Shaolei say that there was indeed such a place in Jiangzhou, which was not open to the public, and most of those who could come here to eat were some dignitaries or some people who were not convenient to eat and drink in public.

Moreover, to get into such a place, one does need to have an acquaintance with him or have a certain status in his own right ..... but if he didn't have an acquaintance with him, he wouldn't know about this place!

In fact, this kind of place almost in every big city, and nowadays is also more and more popular, and even its status vaguely exceeds those private clubs, after all, whether it is a club or a club, basically has been flooded, while this kind of private kitchen is only a few years to rise, for many people is still a new thing, and seems to eat here more reflect their own identity and status!

Ji Feng did not deny this, he still liked eating at home the most, compared to the various styles of restaurants outside, the warmth of home is nothing compared to anything.

However, at the moment, Shan Wendong was very pleased with himself, he led everyone into the private kitchen, and after arriving in the courtyard, he admonished in a low voice: "Don't look around here, don't talk nonsense when you meet anyone, and don't make a fuss, remember?"

Seeing how solemnly Shan Wendong spoke, the other few people could not help but nod their heads, even the two girls, who had become a little restrained.

And Shan Wendong's gaze swept over Tong Lei and Ji Feng's faces again, but did not say anything more.

Afterwards, they entered the living room and were greeted by a counter, Shan Wendong walked over and said very politely to a girl inside the counter, "Hello beautiful, I'm Liu Yanping's brother, is there a seat left please?"

"Liu Yanping?"

The girl at the counter was stunned and thought for a moment before asking, "Is it Captain Liu from the branch?"

Shan Wendong's face instantly flushed with joy and he nodded his head repeatedly, "Yes, yes, that's my brother!"

The girl, however, did not show any special expression, and only thought for a moment before saying, "Alright, you can use the compartment, but pay attention to the quiet, don't speak too loudly, and don't move around, remember?"

Shan Wendong nodded and said, "No problem no problem, I understand the rules here."

"Well! Come with me!" The girl led a few people up to the first floor and opened a room, "You can use this compartment, there are menus inside and corresponding numbers, just order what you want to eat directly, call me again if you need anything ....."

"Okay, okay, please!" Shan Wendong nodded his head repeatedly.

The girl then went downstairs, and it was only at this time that Shan Wendong turned his head to a few people and said, "See? You know how hard it is to get in here, right? It's not just a matter of having money!"

The others couldn't help but nod their heads, not to mention that they had seen it with their own eyes, just by looking at the layout of the box, they knew that this was definitely not a place for ordinary people to come.

Just see this room is very luxuriously decorated, next to the rest area, a look at that sofa is leather, and the top is also all foreign letters .....

Several people looked at Shan Wendong's eyes couldn't help but change, which made him very proud, so he swept a glance at Ji Feng with ambition, and then he couldn't help but choke.

I saw that Ji Feng was not attracted by the arrangement in the box, but had walked to the window at some point and was looking at something outside, with his hands behind his back .....

The first thing I did was to get a little bit depressed and said, "Damn, you just pretend! I don't believe you've been to this kind of place!"
