

Campus Master 2251

In the intensive care unit of the Jiangzhou Military Hospital, Ji Feng took the opportunity to follow the doctors and nurses as they came to check on him, then he dodged elsewhere and started searching.

Nothing.

No, still no

The intensive care unit was originally not large, occupying just one floor, so Ji Feng went all the way and looked through it in just a few minutes, but the result was a little disappointing.

There was no Geng Shaohua in this intensive care unit at all!

Ji Feng couldn't help but frown, since there was no Geng Shaohua here either, that meant that he had checked all the places in the entire hospital that could house people, but he couldn't find Geng Shaohua.

"Could it be that Geng Shaohua wasn't here at all?" Ji Feng was secretly puzzled, but when he thought about it, it wasn't right, because according to what Little Uncle had said, Geng Shaohua was indeed in this military hospital, and combined with the fact that he was seriously injured and still in a dangerous state, he definitely couldn't move easily, so he must be somewhere in this hospital.

But wherever the patient was staying, Ji Feng had checked it all and there was no sign of Geng Shaohua at all.

"Where could it be again?" While Ji Feng's mind was turning rapidly, he carefully checked the intensive care unit again, still without any results.

"Could it be that"

Ji Feng suddenly thought of a possibility, could it be that Geng Shaohua had been moved to some nearby residential area?

Or, was it in a family compound near the hospital?

If you think about it carefully, it's not impossible that this is a possibility!

But if so, then the scope is much larger, the family courtyard and the nearby residential area so many buildings, if one by one search, even if Ji Feng try their best, without a week he will not be able to search once, and by that time, even if Geng Shaohua is found, I'm afraid that the accident has also happened, find I'm afraid there is no use.

Of course Geng Shaohua in the middle of this if you can wake up that is naturally more than good, but if he did not survive

The first thing you need to do is to get a good idea of what you are getting into.

Suddenly, the sound of talking came, but the doctor and nurse finished checking the room out, Ji Feng immediately walked out of the intensive care unit, came to the corridor, casually found a bench and sat down, pretending to be the patient's family here to guard the general.

After the doctors and nurses walked past him, Ji Feng immediately stood up again and secretly pondered, "Where in the end can I hide it"

After thinking about it for half a day, but still without any clue, Ji Feng, however, was not the least bit anxious, but quietly analyzed and thought about it carefully.

The more at this kind of time, the more you can't be anxious, otherwise it will only get more anxious and more chaotic, and end up making a mess instead.

"Could it be that something went wrong when checking the intensive care ward and the cadre ward earlier?" Ji Feng secretly said.

He quieted his mind and carefully went over the previous passage in his mind again.

"Wrong!" Suddenly, Ji Feng's eyes narrowed abruptly as he suddenly thought of the scene he had seen before.

"It's the intensive care unit!"

Ji Feng secretly said.

He remembered that when he was checking the intensive care ward area before, he had seen a somewhat strange scene – in one of the intensive care wards, there was a patient who was wrapped in bandages all over his body, almost like a mummy, only his nose was exposed, and he couldn't see what he looked like at all.

However, he had a lot of tubes in his body

This is not right!

Because at that time, Ji Feng also guessed whether that patient had severe burns or the kind of injury that would hurt his whole body, but if that was the case, then why were there so many tubes sticking out of his body?

This impressed Ji Feng, but he didn't think about it at the time, he just thought that the man was quite miserable, and now that he thought about it, it was somewhat puzzling.

But the suspicion was not just about this one point.

The scene in the two wards to the left and right of that room was equally strange.

In one of the wards was a young man with a head injury and a bandaged arm, and the room was guarded by two other young men

By all rights, judging from the way the man was bandaged, his injuries were not very serious and there was absolutely no need for an intensive care unit.

Well!

Even if the man's family is rich and has the energy to do so, but how come the person responsible for accompanying that young man should be his family or a nanny?

What was the point of having two young men here?

The same was true in the other ward, except that the other man had a bandaged leg and was also accompanied by two young men.

It was a coincidence that one had a broken leg and one had a broken arm.

What is even more coincidental is that both of them were accompanied by two young people so many coincidences together, it is inevitable that people are a little suspicious.

The actual fact is that you can find a lot of people who are not able to get a good deal on a lot of things.

Although he had previously explored the intensive care ward, he did not use his perspective to penetrate the bandages to check if the patients were really injured, and he also did not look to see if the one wrapped up like a mummy was Geng Shaohua

And now, it seems that his oversight may well have almost caused him to make a mistake!

The actual fact is that you can be a lot more than just a little bit of a person.

The fact is that the company's business is not a good one.

.....

A few minutes later, Ji Feng once again arrived at the intensive care ward area, this time, he was more attentive, and when he was still some distance away from those three wards, he began to activate the bio-current at full power.

He first went to the ward of the patient with bandages on his arms and head, and as he gazed over it.

He instantly noticed that the patient's arm was intact!

What surprised him even more was that underneath the bandages on that patient's arm, instead of any fractures or injuries, there was something that surprised him greatly – a pistol, and two magazines!

“Guess right!”

Seeing this, Ji Feng was instantly certain that this man was pretending to be injured, and the two young men who were in charge of accompanying him were likewise not exactly caretaker material, and I was afraid that all three of them existed to protect the 'mummy' in the middle ward!

Ji Feng walked further, and at this time, he suddenly noticed that one of the young men in charge of escorting in the ward stood up, looking out warily, and walked towards the door with one hand touching the back of his waist.

Ji Feng knew that he was afraid that he had alerted them, after all, although people were still coming and going in the hospital at night, there were not many people in the intensive care ward area, so if he walked past here, the other party would definitely be alerted.

But he didn't look any different, instead he walked past calmly, only when he passed the middle ward, his steps slowed down a bit, while turning his head to look over.

Ji Feng's gaze easily penetrated the bandages wrapped around that patient's body and saw that person's face.

In a flash!

The corner of Ji Feng's mouth tugged slightly, revealing an imperceptible smile – Geng Shaohua!

That's right!

The guy lying on the hospital bed wrapped up like a mummy was Geng Shaohua!

He had two gunshot wounds on his thigh and chest, and a dagger stabbed by Liu Zejun on his other leg, but other than that, there were no other wounds, so where was the need to wrap his whole body in bandages?

However, at this moment, Geng Shaohua's eyes were tightly closed and the rise and fall of his chest was so weak that Ji Feng's eyesight could barely tell if he didn't look carefully, so it was obvious how bad Geng Shaohua's situation was at this moment!

No wonder Little Uncle said there was nothing that could be done, in Geng Shaohua's current condition, I'm afraid the doctors don't think Geng Shaohua will survive

Although Geng Shaohua was found, but Ji Feng is not too much stay, he continued to go forward, to the front of that ward door, but found that the ward and Geng Shaohua next door another ward is not much different, are disguised sick, obviously, also to protect Geng Shaohua.

After scoping out the situation, Ji Feng left the floor straight away.

Because it was simply impossible to enter through the main door of the ward without alerting anyone, because in Geng Shaohua's ward alone, there were likewise people accompanying him, not to mention the wards on both sides that were in charge of security!

Even if Ji Feng was confident in his own skills, he wouldn't dare to guarantee that he could enter Geng Shaohua's ward without alerting them, because Ji Feng believed that Little Uncle would definitely not send mediocre hands over, and for a witness as important as Geng Shaohua, he would definitely have to be well protected.

And these people who were in charge of accompanying him were certainly not all of Little Uncle's people!

So Ji Feng could only leave first and look for another way.

He had his eye on that window at the back of the ward!

Judging from the surroundings and the situation, where was the most suitable place to enter, but only if, before entering, he made sure that he wasn't discovered by the people accompanying him inside!

Ji Feng went down one floor, then found an unoccupied room, opened the window and came outside, he grabbed the edge of the window with one hand and suddenly exerted force!

The next moment, Ji Feng moved horizontally in an incomparably nimble sequence, each time he would easily cross the barrier between the two windows, and as for the place where there was a water pipe on the wall it was even easier, he only needed to grab the water pipe and he could easily get to the other window edge.

In just a few moments, Ji Feng reached the bottom of the intensive care ward he had chosen, and then he could only see his whole body steeply leaning up and putting one hand on the window of the room where Geng Shaohua was.

“Sure enough!” Ji Feng glanced and saw that near the window, there were likewise chaperones and they also looked very alert.

“Buzz

Just then, Ji Feng’s mobile phone suddenly vibrated, he frowned, then made an instant decision, without the slightest hesitation his body leaned backwards, his whole body directly tumbled backwards from the edge of the window, and instantly disappeared into the darkness at the root of the wall.

Although the vibration of the mobile phone was very small, but Ji Feng did not dare to guarantee that if the ward was really the elite of the military, they would not hear it!

“Wow!”

Just then, the sound of the curtains being pulled shut was heard, and when Ji Feng looked up again, he saw that the curtains of Geng Shaohua’s ward were pulled shut, revealing only a slit

Sure enough, the sound of a vibrating mobile phone was heard.

Campus Master Chapter 2252

The actual fact is that you can’t be able to’t help but slap your head, who’s calling, it’s really time to call!

Fortunately, he had considered this possibility before he acted, so he set his phone to vibrate, but he could not imagine that just before he was about to get it, someone actually called, this is really

The first thing you need to do is to take out the phone, but not to take out the phone, but to carefully stare at the upstairs window, he is now completely hiding in the dark, once he takes out the phone, there will definitely be a bright light, then his position will be exposed.

It was a small, small detail, but it was often the deciding factor between success and failure at a critical moment!

After the phone vibrated for a moment, there was no movement, but at this time Ji Feng still didn’t make any movements, just leaning against the wall of the inpatient department, not moving at all.

“Swish!”

Not long after, I saw that the gap in the curtain upstairs was pulled once again and the gap was blocked.

“Sure enough!”

It was only until this time that Ji Feng then jerked his body and left the inpatient building.

The reason why Ji Feng didn’t answer the phone was because he could be sure that since the military sent to guard Geng Shaohua were all elites, they must be very meticulous, and although he had ducked in time just now, since the other side had heard the commotion and pulled the curtains, it meant that they must have been on alert.

Ji Feng believed that they would not simply pull up the curtains, there must be someone behind the curtains staring down, and that gap was the best proof of that.

As expected, it had been quite a while before the get gap in the curtain was pulled shut.

Ji Feng also took this opportunity to move away from the inpatient department!

Afterwards, Ji Feng blended into the crowd that came and went, and only then did he take out his mobile phone, only to discover to his dismay that the missed call shown on the screen was from his younger uncle!

What was Little Uncle doing calling him at this time?

Ji Feng was slightly stunned as he casually dialed over.

“Little Feng, where are you?” As soon as the phone was connected, Ji Zhenping’s voice came through, his voice still sounded as if it carried a certain heaviness and a bit of caution.

“I’m in Jiangzhou, what’s wrong?” Ji Feng was puzzled in his heart, but spoke without the slightest hint of dissimulation.

“Don’t play sloppy with me, I’m asking for your exact location now!” Ji Zhenping said.

“Uh

Ji Feng was still thinking about what to say when he heard Ji Zhenping say, “Little Feng, I can tell you, you better not lie to me, just now I had Shao Lei call your home, Lei Lei said you just went out not long ago, I asked you, where did you go this big night?”

Ji Feng was stunned, “You were with second brother?”

“I was at your second uncle’s house!” Ji Zhenping said, “Cut the small talk, let me ask you, did you go to look for Geng Shaohua? I knew it, you asked me about Geng Shaohua’s location and situation during the day, you must have wanted to act privately yourself, didn’t you?”

“No no” Ji Feng snorted and shook his head in denial, he would definitely not admit to such things, at least, not even over the phone, even though the phone was encrypted, yet Ji Feng still had to be careful and careful again.

“Humph!”

Ji Zhenping, however, coldly snorted and said, “It’s better if there isn’t, otherwise, it’s useless even if you go, but you’ll still fall into passivity”

Ji Feng immediately asked, “Why?”

Ji Zhenping said, “In fact, the hospital had already issued a notice this afternoon that Geng Shaohua was brain dead!”

“What?!” Ji Feng’s eyes instantly glared and his voice suddenly rose a few notches, “Little Uncle, what are you saying? Brain dead?!”

“.....”

With this voice, Ji Feng instantly caused the people walking around to look at him, with a bit of sympathy in their eyes, they originally thought that their relatives being sick was already pitiful enough, but they didn't expect that there was actually enough to be pitiful, this young man's relative was actually brain dead!

It was no wonder he was so out of sorts!

But Ji Feng didn't have the time to pay attention to other people's reactions, because the news that Little Uncle told him was too surprising to him, Geng Shaohua was actually brain dead, and brain dead in the afternoon

Then what he had just seen himself

"That's right, it's brain death!" Ji Zhenping said.

"Then" Ji Feng was just about to say something when his pupils suddenly snapped shut, "Little Uncle, then what do you mean by falling into passivity just now?"

"What, did you really go to the hospital?" Hearing Ji Feng's reaction so intense, Ji Zhenping realized what was going on, and he asked in a deep voice, "Little Feng, isn't it?"

"..... Yes!"

Ji Feng nodded slowly and said, "Little Uncle, in fact, you know, I have a way to bring that guy back to life, and since someone is not willing to let me get close to him, I have to think of my own way"

"This is simply nonsense!" Before Ji Feng could finish his words, he was interrupted by Ji Zhenping, who reprimanded, "You don't even use your head to think, don't I know what you can do? If it was really possible to act, would I not have informed you?"

"....." Ji Feng was silent.

"Now where are you?" Ji Zhenping asked after a pause.

"I was just about to enter the ward when your phone call came, I was worried that I would be found out, so I retreated back!" Ji Feng said.

"Luckily you didn't go in!" Ji Zhenping hummed and said, "Otherwise, you would have been in big trouble by then, you wouldn't have been able to talk clearly even if you had a mouth all over your body"

Ji Feng couldn't help but be stunned, hearing his younger uncle speak so seriously, he couldn't help but ask, "Younger uncle, what's going on?"

Ji Feng's heart was puzzled, since that Geng Shaohua was already brain dead, then why did he still very clearly see Geng Shaohua's chest still slightly rising and falling, although the rising and falling was very faint, but it was indeed there, that means, Geng Shaohua was indeed breathing at that time, then how could it be called brain dead?

Also, why was Little Uncle so cautious, and even so nervous when he heard he was in the hospital?

“What’s going on?” Ji Zhenping said in an unpleasant manner, “Don’t you understand? The person was already brain dead, but considering that he might still have accomplices, the respirator and other equipment were used to create the illusion that the person was still breathing

“A trap?!” Ji Feng blurted out.

“You’re not confused to the point after all!” Ji Zhenping hummed, “You saw all the people in the ward, right? Let me tell you, there are not only those people you saw in the hospital, there are many more that you did not see

Ji Feng was stunned again!

There are still hidden people nearby?

“Hurry up and leave, talk about what you have to say when you get back!” After Ji Zhenping said a few simple words, he barked out a warning and left the phone.

“Phew~~!”

Ji Feng put away his phone and couldn’t help but take a deep breath.

This time he really did not expect that things would be so unexpected, Geng Shaohua had been declared brain dead in the afternoon, while the above made the false impression that he was still in a coma in order to fish out Geng Shaohua’s accomplices, but secretly a trap had been set.

It’s also fortunate that Little Uncle called at a critical moment, otherwise

The actual fact is that you can’t help but shake your head, if the military really have all the all-prepared words, once he enters the ward, then want to leave, I’m afraid it’s very difficult.

Even if he could really leave, I’m afraid the next step would be very troublesome!

What’s more, if it is said that being blocked in the ward, whether it is really possible to leave Ji Feng’s heart also has no bottom.

Thinking of this, Ji Feng couldn’t help but be afraid, this phone call from his younger uncle was really crucial.

After getting the news, Ji Feng immediately left the military hospital and went straight to second uncle’s house, there were some things he still had to ask, after all, the news came too suddenly.

“Young Ji, how is it?” Back in the car, Bai Zhu asked in a low voice.

“It’s kind of a failure, drive, go to Second Uncle’s place!” Ji Feng shook his head, today was too unexpected, he had to give it some thought.

Seeing that Ji Feng was not willing to talk more, Bai Zhu stopped asking and drove seriously instead.

When Ji Feng arrived at Second Uncle’s house, Second Aunt pointed to the study and whispered, “Little Feng, your Second Uncle and the others are waiting for you in the study

later if they lecture you, come out and find Second Aunt.”

Ji Feng nodded with a smile and said, "Well, I'll let Second Aunt come to my rescue when the time comes."

Second Aunt immediately smiled happily and poured a cup of tea for Ji Feng to carry, "Good boy, go ahead."

Ji Feng was then a little helpless, Aunt Er had always treated himself like a child.

Afterwards, Ji Feng carried the cup of tea into the study, he saw second uncle, younger uncle and second brother sitting on a chair talking about something, when he saw him come in, Ji Zhenping immediately admonished in no good mood, "You kid is simply bold, I have told you not to go to Geng Shaohua privately, you actually dare to run to"

Ji Feng laughed: "Little Uncle, I know I'm wrong, so you should stop lecturing."

"You brat", Ji Zhenping shook his head.

"Little Feng, your little uncle is also right, this matter you did is indeed a bit reckless." At this time, Ji Zhenguang spoke up and said, "Fortunately, nothing happened, learn a lesson!"

"Mm!"

Ji Feng nodded, in fact, thinking about it, he did have some fear, this time he was not reckless, but too careless, or rather, too confident in his own strength, thinking that he could come and go freely in any place, but he did not know much about the style of action of State Security.

If it wasn't for the timely call from my uncle, I'm afraid I would have fallen this time!

"This matter, in fact, from the very beginning I knew that there would be no result of investigation." Ji Zhenping said, "Although that guy Zhang Qian is sinister, he wouldn't be so stupid, even if he wanted to fish in troubled waters, he definitely wouldn't use someone related to him, so I'm almost certain that this matter is another person making waves in the dark!"

"Then who would it be?" Ji Feng asked.

"I don't know." Ji Zhenping shook his head and said, "No matter who it is, as long as he doesn't die, he will definitely jump out again!"

Campus Master Chapter 2253

Although Ji Zhenping really has no good feelings towards Zhang Qian, and the two of them can even be said to be at odds with each other, on the other hand, I am afraid that the person who knows Zhang Qian best is also Ji Zhenping.

Not to mention that Ji Zhenping and Zhang Qian have been at loggerheads since childhood and have been fighting until now, just those few encounters between them were enough to make Ji Zhenping take him seriously.

Therefore, Ji Zhenping was very clear about Zhang Qian's style of action as well as some of his tactics.

This time, the attack on Ji Feng appeared to have a lot to do with Zhang Qian at first glance, because Geng Shaohua and the others were all former State Security personnel, even though they had long since been removed from the force now, but at least they were once State Security people.

As long as they were State Security personnel, they would never be able to completely break away from State Security for the rest of their lives.

So even if Geng Shaohua and the others had gone abroad later, it would seem unreasonable to say that Zhang Qian knew nothing about their whereabouts and current situation.

From this point of view, the matter was indeed inextricably linked to Zhang Qian.

But if we look at it from another angle, we can come to another conclusion – if someone planned this from the very beginning, in order to frame Zhang Qian, so as to provoke a dispute between Zhang Qian and the Ji family, and then the real mastermind behind it could profit from it.

If you think about it, it's not impossible!

In that case, Zhang Qian's suspicions were still not completely cleared.

Even if Zhang Qian personally found Ji Feng and explained to him later, Ji Feng still had doubts in his mind whether this matter had anything to do with Zhang Qian

But for Ji Zhenping, this was not a problem.

"Because things happened so suddenly, I didn't have time to think calmly before." Ji Zhenping said, "When it was quiet, I thought carefully and then sent someone to check some things, and finally I was convinced that this time, there should be nothing to do with Zhang Qian."

Ji Feng frowned and asked, "There's really no connection at all?"

Ji Zhenping said, "Even if there is a relationship, it can only be attributed to Zhang Qian's laxity and poor supervision!"

"Is there any evidence to support this claim of yours?" Ji Feng asked.

"No."

Ji Zhenping said, "It's just that from what I know about Zhang Qian, he likes to play dirty and hurt people in the dark, and he's even the best at getting himself clean after doing bad things, but the problem is that he wouldn't be stupid enough to use someone with an unclean bottom!"

Ji Feng said, "But what if Geng Shaohua and the others were taken out when they were on the scene?"

Ji Zhenping laughed, "You think if they were taken out, you won't be able to find out who he is? You underestimate the intelligence department's ability too much!"

Ji Feng was silent.

Thinking about it, it was indeed true that even if Geng Shaohua and the others had all become dead, it wouldn't be difficult to find out their identities!

Since Zhang Qian was able to sit in this position, he was not a stupid person, such a stupid thing that could easily make people suspect him would naturally not be done by Zhang Qian.

“Just wait, the people hiding in the shadows will not be able to hold back and jump out sooner or later!” Ji Zhenping said, “Right now we shouldn’t be anxious, it’s them who should be anxious.”

“..... hmm.” Ji Feng nodded thoughtfully.

When Ji Feng left his second uncle’s house, it was already almost late at night, first he sent his younger uncle away, and then Ji Shaolei said to Ji Feng, “Third son, brother is getting married”

Ji Feng was stunned: “When?”

Ji Shaolei said, “Probably in the next month”

Ji Feng asked in confusion, “But didn’t you say before that it would be in the spring? I’ve been so busy and confused all this time that I forgot to ask you, how come it’s changed to next month now?”

Ji Shaolei said, “It can’t be helped, the situation is too sensitive in the spring, not very suitable for marriage.”

“Bullshit!”

Ji Feng suddenly shook his head and laughed: “I don’t know how many people get married in the spring”

Speaking here he suddenly reacted and asked, “It’s because of the change in the pattern?”

“Mm.” Ji Shaolei nodded his head.

Ji Feng then understood, this spring there seems to be some changes in positions above, although not strictly in the sense of a change of government, but also very important, at this juncture, Ji Shaolei married Xiang Yurou, that is really too sensitive, it is likely to be mistaken for an alliance between the Xiang family and the Ji family, and will even cause many people to be wary.

“Second brother, then I have to congratulate you once again.” Ji Feng laughed, “Next month right, I’ll make a note of it, I’ll definitely send you a gift that will make you laugh then.”

“Come on!”

Ji Shaolei laughed: “You kid have this heart on the line, things I do not lack, when the time comes you bring a few siblings on the line.”

Ji Feng laughed bitterly: “This is too difficult.”

And bring a few siblings over if he did, I’m afraid the next day it would spread all over Jiangzhou, as for Yanjing, it’s even more needless to say, I don’t know how many people are waiting to see his joke.

The first thing you need to do is to get in the car and leave.

.....

Geng Shaohua is actually brain dead!

This made Ji Feng a little frustrated, he felt that he was too careless this time, if he had kept Geng Shaohua under control at that time and healed him immediately when he was injured, I believe Geng Shaohua would not have died.

However, at that time, Ji Feng was trying to preserve his strength because he did not know if any more killers would appear next, and he had to ensure that he had enough strength to defend himself and kill his enemies.

As a result, due to the outrageous speed of the police, he lost Geng Shaohua's life!

This result left him somewhat helpless. Originally, he was hoping that he could get a clue from Geng Shaohua's mouth and thus find out who was behind the crime, but now everything had been disrupted.

But things had come to this point, yet this was all that could be done, just like what his younger uncle Ji Zhenping had said, he couldn't rush now because the mastermind behind the curtain would jump out sooner or later!

Ji Feng quickly adjusted his mind, early the next morning, he first sent Tong Lei to school and accompanied her to stay quietly in the library for half a morning, then he received a phone call from Han Zhong, and Ji Feng rushed to Tengfei Group with Bai Zhu again.

"Han Zhong, what's the matter with calling me?" Ji Feng asked. Generally speaking he basically didn't ask about things in the company, unless it was a matter of general direction.

"Kerry's Four Star Group is here again." Han Zhong said, "They intend to talk to us again about the joint development of a new TV set"

"Joint development?" Ji Feng raised his eyebrows.

"Mm."

Han Zhong nodded, "The Krebs are not willing to just be our agent, they want the technology in terms of 3D TV sets, and this is the same issue that has not been negotiated during this period of time."

Ji Feng couldn't help but hum at his words, "Bizarre!"

For electronic products, technology was the most crucial, and without leading technology, it was almost impossible to dominate the market.

What's more, the Four Star Group is already an extremely powerful multinational electronics group, a giant group in the world of electronic products. If they mastered the technology, even if they only mastered a part of it, I am afraid that in a short time, they would be able to play many tricks, and with the strength of the Four Star Group, there would be no room for the Tengfei Group to play then.

Of course, the Tengfei Group could not do such a thing, mastering the technology is the same as mastering the core competitiveness, on this point is not to give way in any way.

The Four Star Group's approach made Ji Feng scoff a little, wanting to get the agency rights but also wanting to get the core technology for a little extra money.

Han Zhong nodded and laughed: "Yes, it is indeed whimsical, but this is exactly the strong point of the Kerry people, they are still very strong in imagination, otherwise why do they all call them Martians, maybe one day they will emerge as an expert to say that Mars is also their country"

Ji Feng guffawed and asked, "When is the talk set?"

"It's set, it's in the afternoon." Han Zhong paused and added, "Li Zhaimin is also in Kerry's delegation."

"Hmm?"

Ji Feng couldn't help but raise an eyebrow, "Isn't he the manager of the China region? I can't believe he even came over here personally"

"What manager of the Huaxia district!"

Han Zhong immediately snorted, "We were all fooled by this guy before, he's the manager yes, but he's the deputy! The manager of the Four Star Group in the China Region is actually someone else!"

Ji Feng was stunned, "That guy is an impostor?"

Han Zhong nodded and laughed: "Yes, he had been pretending to come close to General Manager Xiao before, and as a result, once I saw that General Manager Xiao was really impatient with his pestering, I casually called him a deputy manager Li, and as a result, that guy directly pissed himself in embarrassment"

"Then this time he came, is it for negotiation, or to get closer to Yu Xuan again?" Ji Feng asked.

"It's hard to say."

Han Zhong shook his head and said, "That guy is actually a dude from the Kerry Li family, right, and I'm afraid that he won't be used for this kind of real negotiation occasion, so I reckon that the purpose of his coming is still to get close to General Xiao."

"Humph!"

A cold smile appeared on Ji Feng's face as he said, "It's really become a dog skin plaster, as long as it's tainted, it can't even be torn off?"

If you count carefully, it had been several months since this Li Zhaimin first came to Tengfei Group, and he had been pestering Yu Xuan during this period?

It had really turned into a stalker?

Ji Feng's face became a little unkind, in other matters he could deal with it generously or even laugh it off, but in this kind of matter, he was the same as any other man.

If he dared to pester Xiao Yuxuan so much, then how could Ji Feng sit back and do nothing like that?

"Call me when we negotiate in the afternoon, I'm going to meet this dogskin plaster!" Ji Feng coldly snorted, "I want to see if this dogskin plaster really can't be torn off!"

Campus Master Chapter 2254

“What are you smiling at?”

Seeing Xiao Yuxuan’s gorgeous face, which always had an odd smile on it, and staring at himself from time to time, made Ji Feng couldn’t help but be a little stunned.

Xiao Yuxuan pursed her lips and smiled, “Didn’t smile at anything.”

Ji Feng just couldn’t help but shake his head, this goblin was naughty again

It was lunchtime, and Ji Feng had to attend the afternoon negotiations between the Tengfei Group and the Four Star Group, so he stayed behind and ate lunch with Xiao Yuxuan and Han Zhong in the Tengfei Group’s staff canteen.

The total number of employees of the Tengfei Group was over a thousand, not including Xiao Yuxuan’s family’s pharmaceutical company, which had now been incorporated into the Tengfei Group, but was still independent of the Tengfei Group in terms of sales channels, and the office had not been moved over and was in the hands of Lin Shengping, otherwise, the number of employees at the Tengfei Group headquarters would have increased.

With so many employees and being located in an industrial park, it is necessary to have a staff canteen. In addition to this, there is also a designated supermarket in the group’s headquarters in cooperation with a well-known supermarket chain in Jiangzhou, as well as other supporting facilities have also been gradually improved.

Therefore, the staff canteen of the Tengfei Group, the environment and hardware facilities are very well done, at least in terms of the general environment as well as the hygiene conditions, which makes Ji Feng look very satisfied.

In particular, Xiao Yuxuan and Han Zhong would often come to the canteen from time to time to eat, and this fully ensured the taste of the canteen meals, so this canteen was quite popular with the staff, rather than being like other factories where the meals were criticised by the workers as not worth mentioning.

It was under these circumstances that Ji Feng arrived at the staff canteen.

Even though there was Han Zhong accompanying him, the fact that General Manager Xiao was suddenly eating in the staff canteen with a tall and handsome man was still a novelty to many people, and as they walked along from time to time, people greeted Xiao Yuxuan and then their eyes would sweep over Ji Feng’s body.

Obviously, the employees all wanted to know if this man who was talking and laughing with their General Manager Xiao was Xiao’s boyfriend.

Because there had been news circulating in the company for a long time that General Manager Xiao already had a boyfriend long ago, but only some of the people around General Manager Xiao, as well as some of the older employees in the group, knew exactly what General Manager Xiao’s boyfriend did, where he was from, what he looked like, and so on.

But those people knew more than anything else that Ji Feng’s identity was not ordinary, so in response to other employees’ enquiries, they all passed by vaguely or simply said they didn’t know.

And the more they did so, the more curious they made the other employees feel, and now that they suddenly saw such a handsome man appear beside General Manager Xiao, they all whispered about whether it was General Manager Xiao's boyfriend.

Of course, they would definitely take the opportunity to greet Xiao Yuxuan and observe more about Ji Feng.

In response to this, Ji Feng just smiled and didn't say anything else until he had typed his meal and sat down on his seat.

"Hello General Xiao!"

"Mr. Xiao"

"Mr. Xiao, Mr. Han, good day at noon!"

"Good, good"

All the way until they sat down, there were still employees coming over from time to time to greet Xiao Yuxuan, causing both Xiao Yuxuan and Han Zhong to nod their heads in response from time to time.

Ji Feng couldn't help but nod slightly as he watched, at a glance he could tell that Xiao Yuxuan had a high prestige in the company and was well liked, there wasn't much distance between her and the staff, the same was true of Han Zhong.

This is the kind of company that develops virtuously!

But soon, this relief of Ji Feng turned sour, because he found that since he sat down to eat, although the staff saw the situation and had the good sense not to disturb their meal, Xiao Yuxuan had a smile on her lips and a pair of beautiful eyes with an odd gaze, looking at Ji Feng sitting across from her from time to time.

Ji Feng shook his head helplessly, chucked Xiao Yuxuan's favorite tea tree mushroom on his plate to her and asked, "Say, what exactly are you laughing at, if you dare not confess from the truth, I'll give this to you!"

Saying that, Ji Feng chucked a piece of meat onto her plate.

"Nasty!"

Xiao Yuxuan snapped, "I'm already fat enough, and you still let me eat meat!"

Ji Feng hummed, "Don't follow the others' blind example, what's wrong with being a little fat? Besides, you still call yourself fat now?"

Xiao Yuxuan then gave her a white glance, flirtatious at once.

"Ai Ai Ai" Han Zhong couldn't take it anymore, he said helplessly, "I say, can you two leaders take into account the feelings of our subordinates? You guys are kissing here, but I'm still a loner."

"What, do you want me to help you with the dishes too?" Ji Feng asked.

"....."

Han Zhong picked up his plate and went to the next table, "Just give me a break!"

And this scene fell right into the eyes of the employees at the nearby table, and their eyes widened at once, now they were sure beyond doubt that the handsome young man was definitely Mr. Xiao's boyfriend, not seeing how casually and naturally he was sandwiching the food for Mr. Xiao just now, as if he had already done it countless times.

What's more, Mr. Han had taken the initiative to avoid it, so what was there to doubt?

At this moment, those employees were all excited as if they had beaten chicken blood, and they were all lowering their voices and talking about it.

Ji Feng was tall, with a tough and handsome face, very masculine in a manly way, while Xiao Yuxuan was extremely prestigious in the company and was the dream goddess of many male employees, so seeing the two of them talking and laughing so intimately, the employees in the company were all very concerned.

On the contrary, Ji Feng and Xiao Yuxuan, but without any self-consciousness of being the centre of attention, looking at Xiao Yuxuan will clip all the meat to himself, Ji Feng can't help but shake his head and laugh, asking, "You still haven't said what you were laughing at just now, and ah, you keep looking at me with that kind of eyes, what exactly is it for?"

Xiao Yuxuan pursed her lips and said, "I've said it's nothing okay okay, just tell you."

Seeing Ji Feng clip up another piece of fatty meat, Xiao Yuxuan was instantly frightened and blushed, and hurriedly surrendered to give an honest account: "I just want to see what you look like when you are jealous."

Ji Feng was stunned: "I'm jealous? Where does that come from?"

"No?" Xiao Yuxuan pursed her lips and teasingly looked at Ji Feng, saying, "But I heard Han Zhong say that originally you had no intention of staying for the afternoon's negotiations, but instead you heard that Li Zemin had been pestering me, and as a result you immediately got angry?"

"Khan!"

Ji Feng shook his head and laughed bitterly, what did this guy Han Zhong tell Yu Xuan?

Looking at Xiao Yuxuan's teasing look and that odd smile, Ji Feng couldn't help but smile bitterly and said, "It's a bit hot, but not as exaggerated as Han Zhong said."

"So that means you're jealous?" Xiao Yuxuan blinked her beautiful eyes twice and asked.

"..... Sort of." Ji Feng sweated a little, "You can interpret it that way, but it doesn't matter, the key is not to let that guy harass you again."

"Actually, he didn't harass me much, it's just that sometimes he did things that were quite laughable, " Xiao Yuxuan's head shook lightly, thinking about the things that Li Zaimin did, she indeed could not help but feel a little helpless.

"What did he do?" Ji Feng's face sank as he frowned.

“It’s nothing excessive, it’s just that he how to say it, takes his status too seriously and is too much of a show-off.” Xiao Yuxuan said.

Ji Feng then understood that it must be because Li Zhaimin thought he was the son of the Li family of the Four Star Group and the deputy manager of the China Region, so he had some arrogance in his bones, then in his usual speech, this arrogance would unconsciously flow out, thus causing Xiao Yuxuan’s disgust.

In fact, this is a common problem of the entire Kerry nation, aren’t they still claiming that the Kerry people are the most outstanding nation in this world?

It’s strange that they can look up to foreigners!

On the other hand, I am afraid that Li Zemin may not really be as cultured and gentle as he appears to be, which is why Xiao Yuxuan said he was a bit pretentious, and this is what Xiao Yuxuan hates the most.

The reason is that Xiao Yuxuan had a boyfriend before, but that person was a golden jade, and even what he did in the end was simply disgusting to Xiao Yuxuan to the extreme, so Li Zemin’s pretentiousness made Xiao Yuxuan even more disgusted.

“Then why not just tell him to get lost!” Ji Feng said.

“How would that work!”

Xiao Yuxuan shook her head and said, “No matter what, he is also the deputy manager of the Four Star Group, and the company is now in negotiations with the Four Star Group, even the government is very concerned about this negotiation, and the director of the Industrial Park Management Committee even personally came to the company two days ago to understand the situation, so how can we just kick him out?”

Ji Feng said, “Then how can we not? I don’t believe that the Four Star Group will give up the negotiation just because of such a thing? Don’t forget, we’re not the only ones who need the Four Star Group now, they need the Tengfei Group too!”

Xiao Yuxuan shook her head, “That’s too rude, and it might also make the negotiation a bit more complicated Besides, Li Zaimin is still polite on the surface, reaching out and not smiling, I don’t even know how to ask to kick him out.”

Ji Feng said, “Then fine, since you can’t open your mouth, then when I see that guy this afternoon, I’ll come and meet him”

“Mr. Xiao.”

As he was saying that, Xiao Ying suddenly came over and whispered, “That Kerry man is here again, saying he wants to find you.”

As he spoke, Xiao Ying glanced at Ji Feng.

Ji Feng instantly glared, “You girl, you’re hiding this kind of thing from me? I told you to protect Yu Xuan and also prevent others from harassing her”

“Okay!”

Xiao Yuxuan snapped, “I was the one who told Little Shadow not to tell you, it’s not because I’m afraid you’ll be distracted Little Shadow, you go and tell Li Zaimin that I’m very busy right now, I’m preparing for the negotiations this afternoon, just have him tell my assistant directly if there’s anything.”

“But

Xiao Ying then had some difficulty, what was Lee Jaemin’s purpose for coming here was known to everyone, “If we get back to him like this, then will he make a scene?”

Ji Feng instantly glared: “Make a scene? He dares!”

Campus Master Chapter 2255

“But

Xiao Ying then had some difficulty, Li Zemin came here for what purpose anyone knew, “If we return him like this, then will he make a scene?”

Ji Feng instantly glared, “Make a scene? He dares!”

Xiao Ying then spat out her tongue and said, “It’s not really making a scene, just staying here, saying that he wants to wait for Sister Yu Xuan to finish her busy schedule, or just saying that he wants to wait for Sister Yu Xuan to come back, the key is that he can’t be neglected yet

Ji Feng asked, “He was also like this before?”

Xiao Ying said, “There were a few times like this, after all, he is the manager of Four Star Group, he is here, the staff below must not dare to neglect him, but they all have normal work to do

Ji Feng slowly nodded his head and said, “I understand.”

Obviously, Li Zhaimin is playing a rogue, he is the manager of the Four Star Group, whether he is the deputy manager or really the manager, at the very least he is a guest when he comes here, and he is also a Kerry man, according to the official saying, that would be an international friend.

In addition, as the Tengfei Group is now talking to the Four Star Group about cooperation, everyone in the group should know about it, so in this way, the employees below naturally do not dare to neglect Li Zemin.

But then, those employees’ own work will be delayed, and they might even get their hands dirty.

Xiao Yuxuan, as the boss, naturally cannot stand by and watch such a thing happen.

If the work is not comfortable, even if the salary is higher, it is not as good as those who earn less money but do a very comfortable job, Xiao Yuxuan has always attached importance to the feelings of employees, want to create a home-like corporate culture, so that employees have a sense of belonging, then she naturally can not because of this kind of thing and let the employees suffer below.

Then, Xiao Yuxuan could only go to see Li Zaimin.

Listening to Xiao Ying's words, Li Zaimin had done this as a guest not just once or twice, and each time should have been successful. Just by looking at Xiao Ying's reaction, one could tell that they must be afraid that Li Zaimin would do this again.

"Tell Li Zhaemin that I have something to do and I don't have time to see him." Xiao Yuxuan saw Ji Feng's brow slightly furrowed and said at once, "This time no matter how much more he makes a fuss, don't mind him, you tell the person in charge of the reception, just give Li Zaimin enough water to manage, and don't worry about the rest!"

Xiao Ying asked, "Like this, is this good?"

Xiao Yuxuan said, "What's wrong with it? We can't always accommodate him just because we are negotiating with the Four Star Group, then there will be no end to him in the future?"

Xiao Ying nodded and said, "Then I'll go and say"

"Wait a minute!"

Who knows, as soon as Xiao Ying turned around, he was called by Ji Feng, "Xiao Ying, you go and tell Li Zaimin that right now Mr. Xiao is having a meal and it's not convenient to see him, wait for twenty minutes and invite him to the parlor!"

Xiao Ying was stunned, "Ah?"

She couldn't help but look at Xiao Yuxuan, how to handle this matter, or listen to Xiao Yuxuan. What's more, she felt that Ji Feng was definitely angry now, so she didn't know what she was going to do when she asked Li Zaimin to come to the meeting room.

Xiao Yuxuan was also a bit surprised and asked, "What did you let him do in the parlour?"

Ji Feng hummed, "That guy is like a dog skin plaster, always pestering you, of course I have to go and meet him, I have to make it clear to him that you are already a famous woman, so that he will have less crooked ideas in this regard in the future."

"You are"

Xiao Yuxuan immediately cried and laughed and said, "You know he is a dog's skin, why do you still have a common sense with him? Anyway, I have to prepare for the negotiations in the afternoon, I don't have time to see him, why not just ignore him?"

Ji Feng said, "That won't work! There are some things that are better to be said clearly, Xiao Ying, go ahead and just do as I say"

"This" Xiao Ying looked at Xiao Yuxuan.

"You girl, usually I have loved you for nothing?" Ji Feng hummed, "actually so disobedient?"

"I'll go now!"

Little Shadow spat out her tongue and hurriedly turned around to go.

Xiao Yuxuan shook her head helplessly and snapped, "You, you're usually so big-bellied, why are you so small-minded in this matter?"

Ji Feng hummed and said, "Just kidding, which man can be generous in such matters?"

Xiao Yuxuan then shook her head and laughed lightly, but her heart was also sweet.

Because usually she could rarely see this kind of small-minded look of Ji Feng, but Xiao Yuxuan also knew that Ji Feng's character was like this, usually everything was good, but only in this kind of things, this guy at once like a different person, become small-minded, and vengeful, can't take a little loss!

But when you think about it, it is also very sweet to the heart, Ji Feng is annoyed, that means he cares about himself, if he is still acting generous in such things, Xiao Yuxuan's heart will definitely be uncomfortable.

"Hey, don't mess around later, although Li Zhaimin is annoying, he is after all the manager of the Four Star Group's China region and also a member of the Kerry Li family, you don't want to affect the cooperation with the Four Star Group because of such a small matter." Although Xiao Yuxuan was very flattered in her heart, she couldn't help but be a little worried.

She knew Ji Feng's character, when this guy was good that was naturally good, but if he got annoyed and could do something that was hard to say, especially in such matters.

If you think about Ji Feng's tactics, if you use them on Li Zaimin, that gentle-looking gentleman will have to lose his skin even if he doesn't die.

Xiao Yuxuan did not want to see Ji Feng do anything irrational in a fit of anger, if that were the case, it would be more trouble than it was worth, and there would even be a series of troubles that would follow, after all, that Li Zaimin was a Kerry man, and foreigners in China are treated as supranationals.

Who knows, but Ji Feng gritted his teeth and sneered, "What words! In order to cooperate with the Four Star Group, you have to give your wife away, huh? Bullshit! I still don't believe it, if Zhang Butcher is missing, he has to eat the pig with hair? There are plenty of powerful group companies in the world, why do they have to work with the Four Star Group?"

Yes!

Xiao Yuxuan shook her head helplessly, this guy's foul temper was back.

"Then you can't go too far." Xiao Yuxuan said, "It's better for me to go with you to see Li Zhaimin later."

"Of course you have to go together, this time I'm going to tell Li Zaimin plainly that you're my wife, if he dares to get any more ideas, I'll chop his paws off!" Ji Feng gritted his teeth and said viciously.

"....."

Xiao Yuxuan couldn't help but smile.

.....

After eating lunch, Ji Feng then joined Xiao Yuxuan and came to the parlor that belonged to her alone outside of Xiao Yuxuan's office, although Ji Feng was vicious, but after all, this was not something good, in the company's public parlor, it might get out and affect Xiao Yuxuan's reputation instead.

It was even possible for someone to think that Xiao Yuxuan was involved in a love triangle or something like that.

Ji Feng didn't want to get rumours flying all over the place.

"When Li Zhaemin comes later, restrain your temper." Xiao Yuxuan was still a bit uneasy with her admonition.

"That depends on that guy's performance." Ji Feng hummed.

"He's rogue, are you going to be normal with him too?" Xiao Yuxuan gave him a white look.

Ji Feng hey said, "Rascal is a good cure! Later on, if he dares to be rogue again, see how I'll deal with him!"

"Knock knock knock!" As he was talking, there was a knock on the door of the parlour.

"Please come in!" Xiao Yuxuan said.

The door was pushed open and Little Shadow walked in, "Mr. Xiao, Manager Li from the Four Star Group has arrived."

"Yu Xuan!"

Just as Xiao Ying finished her words, a man came up from behind her, it was none other than Li Zaimin, only to see his face full of smiles as he took a few steps forward and said in stumbling Chinese, "I didn't expect you to eat lunch so early, I was going to invite you out to eat"

"You're welcome, I'm used to dining in the company." Xiao Yuxuan said, "Manager Li, please sit down."

"I've told you many times, just call me Jae Min directly" Li Jae Min said with a smile on his face, "Yuxuan, every time I come you are busy, it's not good to work like this, there is a saying in China, it's called combining work and rest"

"Lee Jaemin, right?" Before Li Zaimin could finish his words, Ji Feng directly interrupted him, "Thank you for your concern for my wife, but it's a waste of your time, my wife can take care of herself."

"....."

Li Zhaemin immediately just choked, and the smile on his face couldn't help but stiffen, "You are"

Ji Feng hummed, he had dealt with Li Zaimin, even at that time Li Zaimin had played a little trick on him, he just couldn't believe that this Kerry stick would forget him so quickly.

Obviously, Lee Jae-min was deliberately pretending that he did not know him.

Ji Feng grinned, "Introduce yourself, my name is Ji Feng, I'm Xiao Yuxuan's husband."

“You’re married?” Li Zhaemin asked, a touch of disdain in his eyes and a hint of provocation, “If I remember correctly, Yu Xuan isn’t married

“Yoo-hoo!”

Ji Feng was instantly fired up, this Kerry stick was still unconvinced?

He said, “Whether we are married or not, Yu Xuan is my wife, Mr. Li Zhaemin, usually my wife is already busy with her work, and you come to disturb her every now and then with nothing to do, making her to take time out to receive you in the midst of her busy work, isn’t that a bit impolite?”

“So, I hope you will try to come as little as possible or preferably not to disturb my wife in the future, can you do that?” Ji Feng said.

“What a joke!”

Li Zhaemin snorted, “What right do you have to ask me? Even less do you have the right to stop me from doing anything! I have the right to pursue Yu Xuan until she’s married, but it’s you who

“Boom!”

Ji Feng slapped his hand on the coffee table, instantly interrupting Li Zhaemin’s words, “Kid, you don’t seem to have understood my words, now I’m not discussing with you, but informing you!”

Campus Master Chapter 2256

“Boom!”

Ji Feng slapped his hand on the coffee table, instantly interrupting Li Zhaemin’s words, “Kid, you don’t seem to have understood my words, now I’m not discussing with you, I’m informing you!”

“Ji Feng!”

Xiao Yuxuan then hurriedly touched Ji Feng and said in a low voice, “If you have something to say, why get angry

Ji Feng sneered, “Talking nicely that also depends on the object!”

The first time I saw him, Ji Feng had already told him very clearly that Xiao Yuxuan was his girlfriend, but the result was that Li Zemin was still pestering Xiao Yuxuan, and now he was even more over the top, and actually theorized with him.

This is simply like sticking his nose in his face!

For this kind of people, Ji Feng would never back down, since the other party was already giving shame, then Ji Feng also had nothing to be polite about.

However, in the face of Ji Feng’s sullen warning, Li Zhaemin only smiled slightly and said, “Mr. Ji, you’re not waiting for me here specifically to say these few words to me, are you?”

Ji Feng nodded and said, “That’s right, I was specifically waiting for you!”

“Then I really feel a bit sorry for Yuxuan.” Li Zhaemin shook his head, a very sorry look on his face, and said, “You say that Yu Xuan is your wife, yet you are still just a student, while Yu Xuan is already the president of a group company, from this point of view, you are not worthy of Yu Xuan.”

“Although I don’t know what kind of flowery words you used to confuse Yuxuan, but just by your current behavior, it shows that you have very little confidence and no manners, and you can even say that you have no connotation I am afraid that this is your true face.” Lee Jae-min said, “This is a real eye-opener.”

“Grass!”

Ji Feng couldn’t help but burst out, “What a bullshit, and you’re talking to me about manners?”

This Kerry stickman was really shameless to the extreme!

Talking about manners with him on such matters?

Could it be that Ji Feng watched as another man pursued Xiao Yuxuan and instead of being unpleasant in any way, he was still complacent and thought his girlfriend was popular?

Even if he had this feeling at first, it gradually turned into boredom as Li Zaimin pestered him again and again!

What’s more, this Li Zaimin was clearly pursuing Xiao Yuxuan in front of Ji Feng, but instead he spoke as if Ji Feng was a small-minded person with no manners!

Fuck manners!

What kind of man can be indifferent when he sees someone else pursuing his girlfriend?

In fact, the fact that he was able to tolerate Li Zhaemin up until now and did not directly throw him down from the stairs was already considered very graceful and cultured.

If it had been Zhang Lei or his second brother Ji Shaolei, he would have gone out long ago, where would he be standing here, talking about manners!

This bastard is not only shameless, but also untidy!

“How can you curse?”

Li Zhaemin said, “Is this your quality?”

Ji Feng’s face gradually sank as he stared at Li Zaimin and said, “Kid, you also need to stop chattering to me here and presenting your words”

“Even if Yu Xuan is your wife, I also have the same right to like her!” Li Zhaemin, however, interrupted Ji Feng, “What’s more, I don’t believe that you two are already married, because a woman as outstanding and charming as Yu Xuan shouldn’t have a partner like you!”

“Heh!”

Ji Feng grinned and laughed back in anger, “In that case, then if I were to pester your mother, you and your father would be happy to do so?”

Li Zhaemin's face instantly sank, "Please watch your words! When you say that, I will interpret it as a provocation and an insult!"

"Insult?"

Ji Feng raised his eyebrows, and then he steeped his face, "If I say that, it is an insult to you, then you pestering my wife is the right you should have?"

Lee Jae-min said, "These two things are not the same"

"Alright, alright"

Ji Feng lost his patience at once, he waved his hand and directly interrupted Li Zaimin's sophistry, saying, "I have already reminded you of what you should be reminded of, you don't need to sophistry anymore, I will only say one last thing to you, if you give shame again, then don't blame me!"

This Kerry stick's shamelessness once again made Ji Feng grow in insight, yet it also angered him.

When Li Zhaimin failed to pursue Xiao Yuxuan, he repeatedly pestered him, which was said to be his power, while Ji Feng's example was said to be provocative and insulting Even if Ji Feng's words were really not that kind, at least the nature of this matter was the same, but this Li Zhaimin still sophomorically argued.

So Ji Feng no longer had the patience to talk to him and just said, "Li Zaimin, please go back, don't continue to pester here"

"Who are you to kick me out?" Li Zaimin, however, said disdainfully, "What is your position in the Tengfei Group? Yu Xuan hasn't even given her word yet, even if you are her partner, you are not qualified to make decisions for her"

"Manager Li, please go back!" Xiao Yuxuan also said beside her, "I still have things to do next, so I won't see you off."

"Yuxuan, you treat me like this too?" Lee Jae-min asked.

"Get lost!"

Ji Feng's face sank, "Don't give your face away and make yourself look bad!"

Li Zhaemin's face also turned gloomy as he stared at Ji Feng and gritted his teeth, "What if I don't leave, what can you do to me er"

He didn't even finish his words before his voice came to an abrupt end.

Only to see Ji Feng step forward and directly clasp his neck, his hand lifted upwards, and Li Zaimin was lifted up like a dead duck.

"Uh"

Li Zhaimin's throat made an extremely odd sound, obviously the neck choke made him unbearably uncomfortable, his eyes showed a look of panic, his hands grabbed Ji Feng's hand and tried to break it, but Ji Feng's hand was like an iron pincer, how could a greasy-headed gigolo like him break it?

Ji Feng's hand was getting tighter and tighter, and Li Zaimin felt like he was going to suffocate, which made him incomparably scared.

"Ji Feng, don't do it, quickly put him down!" Xiao Yuxuan also did not expect that Ji Feng would be so hot and move his hand directly, she hurriedly discouraged.

"Uh"

Li Zhaemin hurriedly looked at Xiao Yuxuan with a look of help, hoping that she could stop Ji Feng, because that icy cold look on Ji Feng's face, and the hand that was choking him, all made Li Zhaemin clearly feel that this guy really wanted to kill himself!

"Ji Feng!" Xiao Yuxuan said, "Don't you mess around"

"I know."

Ji Feng nodded, but his gaze was fixed on Li Zhaemin, looking at his frightened eyes and said, "Kid, what do you think I can do to you? But don't be afraid, I definitely won't kill you here, but if you keep pestering, that won't be possible!"

With that, he let go of his hand and Li Zhaemin stomped to the ground, however, that distance of only one or twenty centimeters, Li Zhaemin could not even stand up, his legs went limp and he sat down on his buttocks, both hands covered his neck and coughed desperately.

"Cough cough cough" cough cough" Listen to the sound of his coughing, almost as if he was coughing out his lungs, so miserable.

"You!"

Xiao Yuxuan beauty eyes whitened Ji Feng and said, "If you have something to say, why do you have to do it" Xiao Ying, hurry up and go to the infirmary and call the doctor to see how Manager Li is doing."

But Ji Feng said, "There is no need to call a doctor, just tell him to get lost directly."

Ji Feng has always been very measured in his actions. Although he had just lifted Li Zaimin up directly and was still choking him, which looked serious, he actually deliberately did not choke Li Zaimin's throat and also avoided the vital parts, so Li Zaimin would at most just cough a few times and would not have any other problems.

Although Ji Feng wanted to teach Li Zaimin a lesson, but after all, this was the Tengfei Group, and this Li Zaimin's foreign identity was indeed a bit troublesome.

However, if Li Zaimin did not listen to the warning and pestered Xiao Yuxuan again, then Ji Feng would really not be soft.

"Xiao Ying, just tell someone to throw him out!" Ji Feng said.

"....." Xiao Ying was slightly stunned and looked at Xiao Yuxuan, she knew Li Zaimin's identity, would there be any trouble if he was just thrown out.

"Hurry up." Ji Feng aggravated his voice.

“Yes!”

Xiao Ying hurriedly nodded, no longer hesitating, and greeted someone who directly set up Li Zhaemin and walked out.

“You, you guys let go of me” As soon as Li Zhaemin struggled, he saw Ji Feng’s face sink abruptly while he shouted lowly.

“Get lost!”

Ji Feng glared and shouted in a deep voice, “If you dare to say half a word again, I’ll waste you now! If you don’t believe me, then you can try it!”

The powerful words instantly made Li Zaimin shiver subconsciously, and all of a sudden, he didn’t say any more nonsense and obediently let the two security guards rack him out.

“Little Shadow, arrange it down, in future if this guy comes again, first have the security guards ask what the matter is, if he still pesters, then directly inform Yi Xingchen and let him deal with it, remember?” Ji Feng said in a deep voice.

“..... got it.” Seeing Ji Feng’s unkind face, Little Shadow spat out her tongue.

Xiao Yuxuan, however, just shook her head helplessly and smiled, Ji Feng didn’t even ask her opinion on this matter, apparently he was really on fire.

Although this little rascal usually respected her and always gave in to her, but now that his temper had come up, it was not good for her to say anything else.

Afterwards, Ji Feng came to the window of the parlour and looked down. Not long after, he saw Li Zaimin being pushed and shoved by two security guards into the courtyard.

Li Zaimin came to the car, his mouth did not know what he was muttering, looking very angry and indignant, while muttering also looked up this way, but when he saw Ji Feng standing in front of the window, scared hurriedly turned his head away, got into the car and turned on the engine and left the gate in a flash

Ji Feng sneered: “A straw man!”

Campus Master Chapter 2258

Although the grassroots staff were involved in the set-up and other preparations, they did not know the details, such as why the Four Star Group did not come, when they would come, etc. They did not know about these situations.

As a matter of fact, many of them were not interested in this either, as it was their job to receive the guests, as long as they were paid monthly.

They are even happy if the guests do not come, after all, once the guests come, they have to be responsible for the reception, and also have to serve tea and clean for a living, and also be careful not to clash with people, not to cause dissatisfaction of the guests, etc.

The four-star group's people did not come, these employees responsible for the reception instead of any curiosity, but also have a sigh of relief.

This is the first time I've ever seen a company like this.

As for the Four Star Group, Ji Feng could not care less, after all, what people want to say is their freedom, as long as there is no slander and personal attacks, even if the Four Star Group goes to the world to proclaim that they do not cooperate with the Tengfei Group, or that they do not see the Tengfei Group, others can not control.

And this, too, could not affect Ji Feng's plan.

The next morning, Ji Feng had people spread the news – because the Four Star Group did not follow the rules, the Tengfei Group decided to refuse to negotiate further with them and cancel the cooperation plan with the Four Star Group.

Regarding this approach of Ji Feng, Han Zhong could not help but be a bit puzzled: "If we do this, then won't several other group companies get the news? Then they will definitely investigate in depth, and when that time comes, if they know that it was the Four Star Group that took the initiative to abandon cooperation with us, will they think that there is something wrong on our side?"

"So what then?" Ji Feng asked.

"What about they definitely won't be so eager to cooperate with us either!" Han Zhong said, "Like German's Westgate, they were already overly strict in their work, if they knew about this news, then they would definitely investigate in detail and even think twice about it, I believe other companies in the same industry would definitely do the same."

Ji Feng shook his head and laughed, "You're worrying too much. Is it true that all other companies must not look at the projects that the Four Star Group denies? You shouldn't underestimate the vision and drive of those people, the fact that any of their companies have developed to the extent they have today is directly related to the drive and vision of their leaders!"

After a pause, Ji Feng added: "Moreover, although the Germans are strict, it doesn't mean that they don't have business acumen. Don't forget that when China wanted to introduce foreign car manufacturers, not many companies were willing to come, but the German Volkswagen came, and what was the result?"

It is impossible to mention German Volkswagen without mentioning a 'miracle car'.

–Santana!

In those days when a ten-thousand-dollar account was considered rich, it was surprising that Volkswagen's Santana could sell for over 200,000 and was still considered an absolute premium car, even in short supply

The company has made a lot of money in China with just this one car, making all the other car companies in the world drop their glasses!

The next thing you know, they were so excited by the huge profits Volkswagen made that their eyes turned red and they were scrambling to get into China first.

This shows that although the Germans are austere, they are not lacking in sharp eyes, brains and business talent.

What's more, nowadays, the market is so competitive, with the sharp eyes of the leaders of these giant enterprises, they will definitely not let go of any possible opportunity, not only the Siemens Group of Germany, but also several other giant companies.

Therefore, Ji Feng did not have the slightest worry.

"The most crucial thing now is that we preempted the news!" Ji Feng smiled and said.

"It's only when it's fake that it's true that people can't tell the difference If Four Star Group comes out to clarify or refute it, maybe other companies will still think that it's because our two sides have fallen apart in talks, so there's a conflict between each other, then, do you think that with our mutual accusations, those companies will believe?"

"No one!" Han Zhong blurted out, "They must have their own judgement"

"That's not the end of it?" Ji Feng smiled, "Those enterprises will not fail to see the market prospect of 3D TV sets, so they will definitely not be influenced by the Four Star Group."

"..... That's true." When Han Zhong thought about it, this was indeed the truth.

"So yeah, you can just wait for those companies to come to your door without worry." Ji Feng laughed.

Han Zhong's doubts were cleared away and his mood lightened up, he couldn't help but laugh, "That's the best, in fact, I've also been looking at those sticks for a long time, each one is as arrogant as anything, they almost don't even know what their last name is!"

Ji Feng said, "In fact, these foreigners are all the same, the Kerry people are indeed arrogant, but do you think those Europeans are any better? They look down on us as well, in their mindset, white people are supreme, and China is just a poor and backward place, as long as you are working with foreign companies, you have to be mentally prepared for this."

"What the fuck" Han Zhong couldn't help but burst out a foul mouth.

"It can't be helped, if China is not strong enough, those foreigners will always look down on us." Ji Feng had already seen this very clearly, "The only way to not be looked down upon is to make yourself strong."

He patted Han Zhong's shoulder and said, "Go for it, brother."

Han Zhong hummed, "Just wait, one day sooner or later, we will make those foreign devils act like grandsons in front of us"

Ji Feng laughed and said, "Have ambition! Don't worry, I'm afraid that day is not too far away."

Han Zhong was then a bit stunned, but Ji Feng had no intention to explain, he just smiled and patted Han Zhong's shoulder, then left his office with big steps.

.....

The news of the collapse of the negotiations between Tengfei Group and Four Star Group soon spread, and even Ji Shaolei called to ask Ji Feng what was going on, but to Ji Feng's surprise, there was no reaction from Four Star Group.

Did the Four Star Group just admit it?

They didn't even have the intention to defend themselves? Is the Tengfei Group so unappealing to them?

This made Ji Feng a bit puzzled.

In fact, Ji Feng did not know that the Four Star Group did not see the Tengfei Group in their eyes, but they were not so arrogant as to see the Tengfei Group as a small ant.

In fact, the reason why the Four Star Group did not speak out in defence was because the senior management of the Four Star Group understood that, no matter who lost or won the war of words with the Tengfei Group, in the end, it was the Tengfei Group that would benefit, or at least, the reputation of the Tengfei Group would definitely be made known as a result.

Moreover, once they get into a fight with the Tengfei Group, it will also attract the attention of other competitors, and if the Tengfei Group cooperates with one of the Four Star Group's competitors, it will be a big threat to the Four Star Group.

Therefore, the Four Star Group simply ignored the statement of the Tengfei Group, and did not get the 3D technology directly, they can still develop it themselves, where they have so much spare time to fight with the Tengfei Group.

As the saying goes, a wise man will not argue with a fool, this is the truth.

Ji Feng gradually guessed the reason, but he could only secretly feel that it was not a fluke that the Four Star Group was able to reach this point today.

However, Ji Feng was a bit confused, since the top management of the Four Star Group still had a clear head, why did they let Li Zemin influence the progress of the negotiations?

Regardless of the doubts in Ji Feng's mind, on the third day after Tengfei Group's statement was issued, Han Zhong called in the afternoon when he was about to leave work, in which he excitedly told Ji Feng that two powerful foreign companies in the electrical industry had contacted them today.

The Nisso Group from Kepong and the Siemens Group from Germany!

Two of the world's giant companies!

This made Han Zhong look excited, because it proved that Ji Feng was right, and that the talks with the Four Star Group were nothing at all. In the midst of fierce competition in the same industry, but anyone with a little vision would see the prospect of 3D TV sets.

In this regard, Ji Feng just smiled and did not feel much surprise, because he had already expected this situation.

What Ji Feng really noticed was another thing.

At noon that day, Ji Feng was accompanying Tong Lei to eat in the school canteen when he received a call from He Hongwei.

“Ji Feng, log on to the Brilliant Group’s website and take a look at the news on South Guangdong TV again.” He Hongwei’s voice was low on the phone and seemed a bit gloomy.

“What’s wrong?” Ji Feng asked.

“Just take a look and you’ll know.” When He Hongwei finished speaking, he hung up the phone.

Ji Feng was stunned for a moment, then said to Tong Lei, “Lei Lei, give me your tablet.”

Tong Lei took out the computer from her bag and said, “I’m having dinner, what do you need a computer for?”

“To look up some information.”

Ji Feng opened his computer and directly typed in Brilliant Group into the search engine, then entered Brilliant Group’s website through the link, and as soon as he opened it, he saw a very obvious line on the webpage with a headline – Warmly celebrating the strategic cooperation agreement between Brilliant Group and Jie Peng Lingxia Group.

Further down the page was a small paragraph with a brief description of this so-called strategic cooperation agreement.

This introduction spoke highly of the cooperation between the two companies, and even the jubilation that flowed between the lines could not be concealed, making Ji Feng’s brow furrow as he read it.

He stared at it for a while and searched for news about Nan Yue, and as a result, his face became even more gloomy.

Campus Master Chapter 2259

“A few days ago, the Brilliant Group, the leading private enterprise in our province, formally reached a strategic cooperation agreement with the Jie Peng Lingxia Group, and will jointly develop several important strategic projects under the Brilliant Group, such as rare resources, new electronic products, as well as super-alloy technology that involves cutting-edge fields in the world.”

“Especially in the research and development of super-alloy projects, the Hishita Group has very rich experience, as well as a vast amount of technical accumulation and a deep heritage. While our province’s Brilliant Group is the one with the ability and boldness to innovate boldly, and has already made certain breakthroughs in the super alloy project, so the two sides’ can exactly play a complementary role.”

“This cooperation, although it is only an attempt between private enterprises, but it also represents that private enterprises in our province have also entered the fast track of internationalization, at the same time, under the care of the main leading comrades of the province, private enterprises seize the opportunity and strive for innovation

“Our Brilliant Group has always attached great importance to the innovation and research and development of new technologies, especially with the strong support of the provincial leaders and relevant departments, we have tried to create a good atmosphere for innovation, creation”

Suddenly, when Ji Feng saw this video of a news interview, he suddenly frowned.

It was because the person who was speaking was very familiar to him.

Shao Jie!

This assistant general manager of the Brilliant Group, and also the arrogant and incomparable man with gold-rimmed glasses, at this moment, he was standing right in front of the camera and talking eloquently, with a kind of spirited smile on his face, the whole person was wearing formal clothes and also a tie, he looked quite a successful person’s style.

“Although in the course of this cooperation, we both received some resistance from the outside world, and even some malicious comments and attacks, but we overcame all these difficulties one by one”

“Pop!”

Ji Feng directly closed the computer!

Because he used a slightly strong force, the result caused many people around to turn around and look this way, even Han Zhen, who was next to him, was startled for a moment.

“What’s wrong?” Tong Lei asked in a soft voice.

“Nothing.”

Ji Feng waved his hand and said, “You don’t need to worry, I’ll go out and make a call.”

Tong Lei nodded slightly and said, “Don’t get angry when things happen.”

Ji Feng smiled and pinched her tender face before turning around and striding out, taking out his mobile phone and dialing He Hongwei’s number.

“See?” As soon as the phone was connected, He Hongwei’s voice came through.

“Mm, just saw it.” Ji Feng said.

“Huh”

He Hongwei laughed coldly and said, “Some people really don’t even have the slightest bit of face, taking the country’s strategic resources and cooperating with the Kepong people is just fine, but they actually openly take it out in a big way and shout it all over the world, fearing that others don’t know about it and flaunting it.

Ji Feng laughed and said, “This is also a political achievement!”

“Humph!”

He Hongwei couldn't help but snort coldly and said disdainfully, "If this is considered a political achievement, then I can make a hundred times more glorious political achievements by just messing around with it Isn't it just selling out the country, who wouldn't do that?"

He Hongwei said, "I can't help it, I don't want to be angry, but I can't help it when I see some people doing things that are too much!"

He Hongwei paused here and then said, "Older brother, you have seen it, this time people do not show any sign of shame, instead they even show it off with complacency, it seems our previous efforts are no different from clowns in the eyes of others!"

Ji Feng nodded, and the smile on his face gradually disappeared. Although he was not as angry as He Hongwei was acting, he was actually not in a too good mood either.

This time, the Wu family had gone too far!

Even Shao Jie bluntly said in a news interview that they had met resistance from the outside in their cooperation with the Boundary Peng Lingxia Group The audience might not know what resistance he was talking about, but anyone who knew the inside story could see at a glance that Shao Jie was talking about his and He Hongwei's trip to Southern Guangdong to stop it.

If it were more serious, Shao Jie's words could be taken as an accusation of some negative comments made by some bigwigs above on the matter.

But I guess Shao Jie is not yet in touch with that high level, so there is no doubt that he is talking about himself and He Hongwei with these words.

— He was showing off, moreover, he was provoking!

Shao Jie was expressing his smugness as the victor through the television – how about that, didn't you come to stop it? But what happened? You went back in disgrace?

"It can't be helped, who let others win." Ji Feng shook his head and said, "Let them be complacent, after all, it's out of our hands."

"Humph!"

He Hongwei said, "You really think so much of it?"

"What else can we do?" Ji Feng asked rhetorically, "Could I still run over and wipe out both of them?"

"Don't you have any resentment?" He Hongwei asked.

"Heh."

Ji Feng smiled and said, "Brother Hongwei, you don't need to side-step this matter, some people have gone too far, and this is a case of taking advantage of the situation but still selling a good deal, just because of this, I won't even let it go so easily. Besides, I said when we parted ways in Southern Guangdong that this matter was not finished."

“Then what do you plan to do?” He Hongwei also smiled, the reason he said so much was that he was waiting for this attitude from Ji Feng, and now that Ji Feng was still so resolute, he was relieved.

The Wu family was too strong, and relying on him alone, He Hongwei was still far from enough, if he had Ji Feng working hand in hand with him, it would be a different story.

“Exactly how to do it, you’ll know when the time comes.” Ji Feng smiled.

“Got to!”

He Hongwei shook his head and smiled, saying, “Since you’re not willing to talk about it, then I won’t ask, but if you need any help, don’t be polite.”

Ji Feng laughed, “Don’t worry, I definitely won’t be polite with you!”

He couldn’t help but shake his head, he didn’t know how many times this same thing had been said by He Hongwei, obviously now He Hongwei didn’t have any good ideas either, so he wanted to see what he could do.

He Hongwei’s mood was certainly understandable, but he couldn’t do anything in a hurry, and Ji Feng had to make a reasonable plan and decide what kind of approach he should use to combat the Brilliant Group and the Lingxia Group after he had considered where to go in the future.

In fact, anyone who knows anything about the Lingxia Group knows that it is not difficult to combat the Lingxia Group. This is because the Lingxia Group is actually a semi-official military-industrial group in Kepong, and is almost like one of the pillars of Kepong’s economy.

This means that in order to crack down on the Lingxia Group, it is actually tantamount to directly confronting the economic system of Kepong, which is not a trivial matter, nor can it be done so easily.

Therefore, Ji Feng had to plan properly and rationally and to choose the right direction.

It would undoubtedly be extremely unwise to engage in a full-scale confrontation with the Lingxia Group right now. Frankly speaking, the current Tengfei Group in front of the Lingxia Group is actually like a small child facing a strong man in his prime, and there is simply no comparison.

Therefore, Ji Feng must choose a main direction of attack, find the weakness of the Lingxia Group, and then nibble away at it little by little, consuming it and cleaning up the other side little by little.

In this way, the Lingxia Group is constantly damaged, but will not cause them great attention, but also enough to make the Lingxia Group pain, while at the same time the Tengfei Group can also continue to grow

The company’s main goal is to provide the best possible service to its customers.

The most crucial thing is to choose the right direction of attack!

As for the Brilliant Group

In this part of China, no matter whether you want to clean up a business or clean up a person, you only need to demolish their backstage and the rest will be fine.

In fact, after returning from South Guangdong, Ji Feng began to think about what he wanted to do, and now after such a long time of consideration, he had a vague direction in his mind.

–Superalloy!

Ji Feng thought that since the Kepong people were cooperating with the Brilliant Group for this thing, and the Brilliant Group was likewise using this as its capital, then if something was done in this regard, for example, making the superalloy project researched by the Brilliant Group turn into a pile of scrap metal

It would be interesting to think about it!

The super alloys!

The fact is that, whether or not you decide to do this project next, it is not a waste to research it now, and since the people of Kepong are so eager for this project, it would be good to do it then and let the people of Kepong dry up!

In fact, Ji Feng had long considered doing this project, but he still had some hesitation in his heart.

In fact, Ji Feng had long considered doing this project, but he still had some hesitation in his heart, because it was easy for him to do this project, but the next thing was not so easy to handle.

Isn't this the reason why the military is attracted to it?

And this super-alloy project is definitely more practically significant than the illusory three-dimensional light curtain technology, and also more likely to attract the attention of the military.

Because Ji Feng knew better than anyone else that the final outcome of this technology was actually the creation of an epoch-making weapon – an electromagnetic rail gun!

Even more, if this technology was taken a little deeper, an even more amazing weapon would appear – a laser cannon!

Or even, a cosmic warship

Campus Master Chapter 2260

“Super Alloy”

Sitting in his study, Ji Feng mused.

When it came to the cooperation between the Brilliant Group and the Lingxia Group, Ji Feng, as an outsider, was actually very difficult to interfere. Even with his status, he could not easily interfere with the operation of a business, especially, when the business itself also had a not-so-weak background.

Therefore, in order to crack down on the Brilliant Group and the Lingxia Group, one had to think in other ways. For example, since the reason why the Lingxia Group wanted to cooperate with the Brilliant Group was actually because it had its eyes on that super alloy project in the hands of the Brilliant Group, then let's crack down on the Lingxia Group in this regard!

This super-alloy project, then, was imperative!

However, if Ji Feng wanted to make superalloys, it would naturally not be the same as the Brilliant Group's superalloys, what he wanted to make was a new type of alloy from the intelligent brain's database, a technology from the Gamma galaxy!

Alloy!

In fact, to put it bluntly, it is also a material, only that it is a composite metal with special properties that other ordinary metals do not have, such as the various aluminum alloys, titanium alloys, etc. that are now widely used.

Ji Feng had learned various knowledge in the training space of the intelligent brain, in addition to the extensions, for example, when he was learning about the weapons of the Gamma system, he had also learned about the principles of manufacturing those weapons, as well as the processing of raw materials

The latter is the technology of alloys.

The only thing is that this alloy, but is specifically used to manufacture weapons, such as electromagnetic rail guns and so on, therefore, this alloy that Ji Feng understands, has a variety of properties is really a bit outrageously strong, and even say some perverted is not too much.

Conductivity, thermal conductivity, radiation resistance, super toughness

As we all know, in the human world is often largely war and military to promote the development of science and technology, the vast majority of new technologies are first used in the military, and only when slowly this technology is eliminated in the military, perhaps gradually from the military to civilian use.

The Gamma system is no exception.

The technology that is used in the military is so strong and advanced that there is no need to talk about it.

For example, the illusory three-dimensional light screen technology that Ji Feng took out a long time ago, just the appearance of a 3D TV set, has already taken the market by storm, and this, but this is only the lowest level of application of the illusory three-dimensional light screen technology.

If one follows the standards demonstrated to him by the intelligent brain, one only needs a trigger to present a completely three-dimensional world of light curtains, allowing one to immerse oneself in it and thus carry out all kinds of research and analysis.

The most powerful application of this illusory light curtain technology is in the military – with sufficient monitoring equipment, when two armies are at war, the commander can simply sit in the command hall, and any corner of the war can be presented in this three-dimensional way.

You can imagine how much more open the commanders' vision would be and how clear their thinking would be.

There are various other applications that cannot be described in detail, but there is no doubt that these new technologies are indisputably strong and perverse.

Therefore, while Ji Feng decided to take out the kind of super alloy from the intelligent brain database, he was a little hesitant.

Would it be too early for this kind of technology to appear?

Or what would be the consequences of manufacturing this alloy in its original form?

There was no doubt that it would attract the attention of the military, but whether there would be other consequences was something that Ji Feng could not say at the moment, nor could he speculate, but he understood in his heart what it would mean once the new alloy was introduced.

“The people of Kepong can spare a lot of money for the Brilliant Group’s super alloy project, and even risk the suspicion of China to cooperate with the Brilliant Group, while the Chinese side is even the old president is concerned, so it can be seen what a new type of alloy, represents.”

Ji Feng secretly deliberated.

A moment later, he couldn’t help but bite his teeth and did it!

“Fear the ball! If I come up with a new type of alloy technology, how can the state still take me as a mouse to study?” Ji Feng secretly said, “Big deal, in the end, just sell the technology to the state, anyway, it is also a contribution to the state, it is difficult to say that the state will be grateful for the revenge?”

“However, we should do it, but we should have a measure!”

Ji Feng deliberated in his heart, and then, he called out the intelligent brain: “Intelligent brain.”

The wise brain immediately appeared, it was still such a round little ball of light: “Master, what are your orders?”

“I came to ask you, that alloy technology in your database, is there a simplification of some of it?” Ji Feng asked, after he asked and thought that the intelligent brain might not understand what he meant, so he added: “What I mean is that the strength of the alloy in your database is too high, is there a slightly worse one?”

“Slightly worse?”

The intelligent brain repeated Ji Feng’s question, seemingly not quite understanding the meaning of Ji Feng’s words, “Master, what does slightly worse mean?”

Ji Feng thought about it and said, “Well put it this way, that is, is there such an alloy that is more advanced than the technology on Earth, but, it’s worse than the kind of alloy I learned about before for making electromagnetic rail guns, it doesn’t matter if it’s more worse... ..”

However, the wise brain still shook its round body, seemingly shaking its head, and said, “Master, the wise brain doesn’t understand what worse means.”

Ji Feng helplessly said, “It is well, yes, it is an alloy that is lower in strength, toughness, conductivity and so on in every index, is there?”

Ji Feng sweated in his heart, although this guy, Wisdom Brain, was a very advanced artificial intelligence, but after all, he was not made on Earth, so for this way of speaking and his habits, sometimes he did not understand too well.

The fact is that Ji Feng is also used to talking to Wise Brain, and even over time Ji Feng will subconsciously treat Wise Brain as a person, so in the way of speaking will often be very casual, but did not think it would make Wise Brain difficult to understand.

In fact, in many cases, some of the actions and words of the intelligent brain would make people think that it was really a person.

For example, just now, when it was answering Ji Feng's question, it even shook its body as if it was shaking its head which was really no different from a human being!

But Ji Feng, however, didn't realize it because he was used to it.

"Master, no."

The intelligent brain's reply instantly made Ji Feng come back to his senses.

"No?" Ji Feng couldn't help but be stunned.

"Yes master, there is only that one alloy technology in the intelligence brain's database." The intelligent brain replied back.

"So... .."

Ji Feng's eyebrows couldn't help but wrinkle up, "This is a bit tricky!"

If that alloy technology was taken out at once, not to mention what kind of consequences it would cause, in fact, just manufacturing it alone, I'm afraid it would be somewhat problematic.

The so-called alloy is not just a matter of fusing several metals together, the most crucial thing is the process and the materials originally used, which requires a lot of technology.

..... Even if he had the background and the energy of the Ji family, the best machine tools and equipment were only available in some countries such as Europe and the United States, and they had imposed a technological blockade on the whole of China, so how could he get them?

Besides, some of the equipment was not even available on the whole planet, so where would Ji Feng get it?

Therefore, on balance, Ji Feng decided to make a slightly inferior alloy, just as if he had fully mastered the technology of the illusory three-dimensional light screen, but only used the simplest technology and principles to make 3D TV sets, while leaving all other aspects untouched.

It's not because Ji Feng doesn't know the huge value of this illusory three-dimensional light screen technology, but now he doesn't have the qualification and ability to completely develop this technology, because the application field of this technology is too wide, from small to personal electronic products and home TV sets, to the military field, the aerospace field, etc., can use this technology.

With Ji Feng's current strength and the industries that the Tengfei Group is now involved in, he is not qualified to participate in such a cutting-edge and confidential industry.

The same is true for the alloy project. General alloys can be used in the civilian sector, but if the alloy is too advanced, I'm afraid that even if Ji Feng wants to promote it in the civilian sector, he will definitely be prevented by the military, and then I'm afraid that he won't have a chance to do anything in the civilian sector and will be directly taken away by the military.

It's not that Ji Feng didn't want to give the technology to the military, the key was that he wasn't quite sure.

But now, there was no point for him to be at ease or not.

In the database of the intelligent brain, there was only that one kind of alloy, there was no slightly inferior alloy that Ji Feng had estimated, which made Ji Feng's intention fall flat at once.

"Could it be that really wants to make super alloys?" Ji Feng hesitated a little, and then he thought wistfully, "Then why don't we just get the electromagnetic rail gun out of the way"

"It's really fucked up!"

Ji Feng couldn't help but shake his head, everyone else was suffering from the lack of new technology and profound technology, but now he was suffering from the lack of simpler technology, this is really

"Master, in order to create a lower performance alloy, it is impossible to directly retrieve information from the database." Just when Ji Feng was distressed, the intelligent brain suddenly said.

"Hmm?"

Ji Feng was stunned, "What do you mean?"

The intelligent brain said, "In the intelligent brain's database, all that is stored are the technologies and information corresponding to the tutorials, in addition to some of the latest technologies."

Ji Feng nodded, of course he knew this, the database of the intelligent brain was full of the most advanced information and technology, these were indeed extremely valuable things, but he couldn't use many of them now!

"However, although the database does not have the technology that the master needs, the tutorial does." The intelligent brain said.

"What?!"

Ji Feng was stunned.
