

Campus Master 2261

“However, while the technology needed by the master is not in the database, it is in the tutorial.” The wise brain said.

“What?!”

Ji Feng was stunned.

There was in the tutorial?

“Wisdom Brain, say it clearly, what does that mean?” Ji Feng hurriedly pursued the question, hearing the meaning of this statement from the Wisdom Brain, it seemed that it had a way to get the technology it needed?

“Master, the information stored in Wise Brain’s database are the most advanced technologies as of when Wise Brain was made, other than that, the previous technologies are not stored in it.” Homo sapiens said.

“Hmm.”

Ji Feng nodded, this point had been explained to him by the intelligent brain just now, in fact, it was quite understandable, the moment the intelligent brain was created, the level of scientific development in the Gamma Galaxy, then the intelligent brain’s database would definitely be stored with some current technical information, as for those information in the past, there was no need to store it.

It is like a computer nowadays, the information and technology stored in it is of course used by modern people, we can’t store all the information from the past, right?

Even if it were stored, it would not be used by modern people.

For example, when people use computers nowadays, they almost always use windows, so if someone suddenly comes along and wants to use DOS, they naturally don’t have it.

It’s the same reason that all the information stored in the Smart Brain database was the most advanced technological information in the Gamma Galaxy at that time.

“But what does this have to do with tutorials?” Ji Feng asked with some confusion.

“Master, since the intelligent brain is only responsible for supervising the master to receive training and be called a qualified super agent, the tutorials that the master learned before were all prepared for becoming a super agent.” The intelligent brain said, “As for other skills, they are not within the scope of the mandatory requirements.”

Ji Feng was slightly stunned, and then he understood that according to the Wisdom Brain, everything he had learned in the Wisdom Brain’s training space before was actually for him to go straight to the path of a super agent, as for what skills were beyond this path, Ji Feng did not know, while the Wisdom Brain would not compel him to learn those skills.

When he thought of this, it suddenly dawned on Ji Feng. No wonder the contents he had learnt from the beginning were all related to the profession of an agent, such as infiltration, assassination, escape,

intelligence analysis, and even military-related weapons, such as laser cannons, electromagnetic rail guns, and so on, as well as illusory three-dimensional light screen technology, and even the driving of various vehicles.

Even the principles, maintenance and piloting of small space ships!

All of this is very closely related to the business of an agent!

It could be said that from the very beginning, the intelligent brain had trained him according to the standards of a super agent of the Gamma Galaxy, all this right from the time Ji Feng started to nod his head and agree to practice body-building exercises, all the way up to now!

And because at the very beginning, what the Wise Brain told him was about super agents, and even, the reason why the Wise Brain was created was to assist its master to become a super agent – wasn't the alias of this Wise Brain, the Super Agent Assist System?

It was precisely for this reason that Ji Feng had this habit of overlooking whether, apart from some of the skills possessed by a super agent, the intelligent brain had any other skills in other areas.

Even though Ji Feng would occasionally think of this possibility, he did not think about it in depth, and this thought only flashed through his mind, and was then replaced by other thoughts, and did not think about it in detail.

But now, after hearing the intelligent brain say so, Ji Feng suddenly reacted.

It seemed that, apart from being able to assist him in reaching the standard of a super agent, the intelligent brain seemed to have other skills in reserve?

After thinking about this, Ji Feng was finally enlightened.

He immediately asked, "Wisdom Brain, apart from the skills related to super agents, what other skills are there in your database?"

The intelligent brain said, "Master, there are three categories of other auxiliary skills"

"Which three categories?" Ji Feng asked.

"Master, please look." Ji Feng's voice rang out in Ji Feng's mind, and immediately afterwards, Ji Feng saw the scene in front of him change, and what originally resembled a room was now beginning to change, except for Ji Feng's round corona mass body that was still fluttering, everything else around it began to blur and then was rapidly pulled away.

In the blink of an eye, Ji Feng was in an empty world, and not far in front of him was a frame similar to a large tree, with shimmering fonts on each branch.

Ji Feng was in a bit of a trance, this was all too familiar in front of him.

When he first started learning aerobics, he was also learning other skills at the same time, such as various manners, theoretical knowledge about weapons, etc.

At that time, the intelligent brain was telling him to pick the skills to be learned from this big tree like place.

Only in the last year, as his bodybuilding entered the late third stage, he was always wondering, every time he practiced bodybuilding at night, how to enter the fourth stage.

Because in the database of the intelligent brain, the fourth stage was actually still only a vague name but no clear practice method, and the intelligent brain had only once shown Ji Feng the scene of two top experts of the Gamma Galaxy dueling.

Those two people, with one punch and one kick, could burst a mountain, and with one long leap they could be as high as a hundred meters or even higher, and if it wasn't for the short duration of that image in the database of the intelligent brain, Ji Feng even wondered if they could fly!

And according to the intelligent brain, those two people should have entered the fourth stage, and they were still very far along the road, but what level they had reached, the intelligent brain could not give an accurate statement.

This is because there is no information on this in the database of the intelligent brain either, and there is even no standard from the fourth stage of body-building gymnastics.

So how did those two people cultivate, how long did they cultivate, how strong their ultimate strength was, and so on, all these questions could not be answered by the intelligent brain.

If the Brain were a human, with its extensive knowledge and knowledge, it might have been able to analyze something based on the scenes of those two people dueling, but unfortunately it was only an artificial intelligence, and it was already very impressive to have reached this point.

But even so, the intelligent brain just showed Ji Feng the image of those two people dueling, but it still made Ji Feng feel extraordinarily shocked, so to speak, from his bones in awe.

Because in the eyes of Ji Feng at that time, those two people could simply be called superhuman, which made Ji Feng extraordinarily yearn for their kind of level, and even this thought has continued to be the same even now.

Therefore, after Ji Feng reached the third stage, he had been wondering how he could enter the fourth stage of bodybuilding, or to be more precise, how to enter the fourth stage of cultivation If Ji Feng still could not realize by now that the bodybuilding exercises taught to him by the intelligent brain was actually a method of cultivation, then he would be really stupid.

It was because he had been pondering this, plus Ji Feng had almost learned all the auxiliary skills about super agents, that he gradually ignored this skill tree.

Now that he saw it again, Ji Feng was more or less in a trance, as if he had gone back to the days when he had just met the intelligent brain and somewhat confusedly started practicing aerobics

"Master, please look!" Suddenly, the voice of the intelligent brain pulled Ji Feng's thoughts back, "The techniques that the master needs are in these few tutorials."

"A few tutorials?"

Ji Feng couldn't help but be slightly stunned at his words, he looked up and saw that a few items on that tree had been marked in red by the wise brain, "Materials Fundamentals, Smelting Process Fundamentals"

Ji Feng put his eyes on it, but found that it was actually a tutorial, and what surprised him the most was that all these tutorials were all the basics of various subjects, moreover, there were quite a few of them that he had studied, such as the basics of energetics and the basics of materials, which he had studied when he was studying super alloys.

“Wise Brain, how come they are all some basic courses?” Ji Feng asked.

“Yes master, the techniques that master needs are all in these tutorials.” Wisdom Brain replied back.

“.....”

Ji Feng was a bit speechless, if Ji Feng’s words were put differently, wouldn’t it mean that the technology he needed was not advanced at all, just learning the basic courses would be enough?

Is the technology on Earth really that bad?

Ji Feng shook his head and asked again, “By learning these courses, you can learn the technology of alloy manufacturing?”

The intelligent brain said, “Master, according to the analysis, the process of making low performance alloys is not complicated, the master only needs to learn these few courses to master the method”

“So that’s how it is!”

Ji Feng immediately understood, dare I say, what he was learning now were only the basics, but when these knowledge were used reasonably, they could be extremely useful, and it was not a matter of making sub-par super alloys.

This is like learning the basics of physics and chemistry in secondary school. As long as there are suitable raw materials, a secondary school student can pound out extremely powerful explosives, and it is not strange to create other surprising things.

What Ji Feng has to learn now is these basics of the Gamma system, for that matter, just to create alloys that are not so blindingly obvious

“Master, do you want to start learning these lessons immediately?” The Wisdom Brain asked.

“Learn!”

Ji Feng gritted his teeth and said, “Start learning immediately!”

Nowadays, the Lingxia Group had probably obtained the technology of their so-called super alloy project from the hands of the Brilliant Group, if they were to take it back to the country and manufacture special steel, then I’m afraid that the performance of all the weapons and equipment in Jie Peng would be greatly improved, which could not be considered a big threat to Huaxia.

“I want the special metal produced by the Lingxia Group to turn into a pile of scrap iron!” Ji Feng secretly gritted his teeth!

Campus Master Chapter 2262

According to the wise brain's suggestion, Ji Feng began to study those few basic courses in the wise brain's database, and it was only until this time that Ji Feng realised that he still had a lot to learn, which made his originally somewhat restless mind gradually sink down again.

In fact, Ji Feng also realised that he had drifted a bit before.

Especially after reaching a certain height in gymnastics and having his strength soar, it would be an absolute lie to say that Ji Feng didn't have any pride in his heart.

After all, from a penniless poor boy to a man of the hour, even Wu Zhiyong, a powerful young man, had fallen in his hands several times in a row, so Ji Feng was more or less proud and, at the same time, somewhat complacent in his heart.

In addition, he has mastered a huge amount of knowledge of the Gamma system, so he has more or less ignored those basic courses and auxiliary skills, in fact, from the inside, Ji Feng more or less does not see those auxiliary skills.

But this experience made him suddenly understand that any kind of knowledge was useful, and could even be extremely useful at critical times!

So, Ji Feng began to sink his heart and learn those boring knowledge patiently.

But fortunately, Ji Feng did not have to accept the same kind of boring teaching methods as the teachers in reality, the tutorials of the wise brain, which were quite vivid, and were the same as before, completely took three-dimensional teaching, Ji Feng only needed to face a three-dimensional light screen, he could clearly see the three-dimensional analysis of each knowledge point, and the simulated graphics.

This made Ji Feng instantly like a fish out of water!

Even if these lessons were very raw, Ji Feng didn't feel too dull.

For several days in a row, Ji Feng went to the school library with Tong Lei, honestly, except that Tong Lei was there to read a book, while he was immersed in the teaching of the Smart Brain's lessons under the guise of reading a book.

During this period, Ji Feng also learnt from Xiao Yuxuan about the latest progress of the Tengfei Group.

When Kerry's Four Star Group had previously broken its contract, the Tengfei Group had terminated its negotiations with the Four Star Group. Subsequently, several international powerhouse groups, such as Germany's Westgate Group and Kebon's Nisso, had made contact with the Tengfei Group one after another.

In the end, the Tengfei Group chose the Siemens Group to cooperate with.

The reason why it chose the German Westgate Group, which also has a number of considerations of course, first of all, the Nisso Group of Kepong was directly rejected.

Not to mention Ji Feng's distaste for the Kepong people, Han Zhong was likewise counted by the Kepong people, and he also had no half-hearted feelings for the Kepong people, so how could he possibly run to cooperate with the Kepong people when he had a choice?

As for the other groups, after analyzing and comparing them, Han Zhong and Xiao Yuxuan finally settled on the Ximen Group.

Only, whether the cooperation would eventually be successful would depend on how well the negotiations between the two sides went, after all, this kind of cooperation would definitely not be possible overnight, as both sides would strive for the maximum benefit.

The Westgate Group wants the 3D TV manufacturing technology of the Tengfei Group, while the Tengfei Group wants to exchange the sales channels of the Westgate Group for the smallest possible cost, as well as lending the hand of the Westgate Group to make the Tengfei Group's name known.

If both sides can eventually negotiate to a level where everyone is still satisfied, then the cooperation will be successful. Otherwise, neither could cooperate.

In this regard, Ji Feng did not ask questions, and he believed that Xiao Yuxuan and Han Zhong would definitely handle it well, or at least they would not cooperate with each other when they knew that they were losing out.

.....

At noon this day, Ji Feng told Bai Zhu to stay at home and to go out alone.

"Young Ji, it's better to let me go, it's too dangerous for you to be alone." Bai Zhu said, the last assassination fiasco had only been over for a short time, now Ji Feng suddenly had to go out alone, of course Bai Zhu was a little relieved.

"No need, what can go wrong in this broad daylight?" Ji Feng laughed, "Don't worry, it will be fine."

"Young Ji, is there something you don't want me to know?" Bai Zhu asked hesitantly.

"Of course not."

Ji Feng coughed lightly and said, "Then what, Bai Zhu, I am going to do some personal business today, so you don't need to follow."

Bai Zhu immediately asked, "Is it to go to General Manager Qin's place? Or to General Manager Xu?"

"Ahem!"

Ji Feng coughed dryly at once.

Bai Zhu couldn't help but smile and said, "Young Ji, didn't I tell you that I don't care as long as I can follow you around, you don't have to avoid me."

For Bai Zhu, she was very clear about her status, being able to live the life she was living now was actually very satisfying, at least, it was much better than the kind of drifting days in the past, not to mention the kind of desperate days after she was forced to join the dynasty later, now was really much better than that time.

So Bai Zhu had never had the luxury of being able to guard Ji Feng alone, just being able to follow him was enough for Bai Zhu.

“Bai Zhu, how can I say this, it’s a little unfair to you, and you’re making me a little like this,” Ji Feng shook his head with a bitter smile, he was indeed going to see Qin Shujie today, but taking Bai Zhu to see another woman, how did this make him feel a little awkward.

“It’s okay, young Ji, you have to learn to get used to it.” Bai Zhu said softly.

“..... okay.”

Seeing that Bai Zhu was so insistent, Ji Feng couldn’t say anything more to refuse, he nodded and said, “Then you can go along, but when the time comes I’ll be worried that you’ll be uncomfortable.”

Bai Zhu shook her head and said, “It won’t be.”

She was very clear about her position, she was firstly Ji Feng’s personal guard, and secondly Ji Feng’s woman.

Seeing this, Ji Feng shook his head helplessly and said, “Let’s go.”

He laughed bitterly in his heart, he still wasn’t shameless enough, like some young masters of luxury families, it was too common to take their women to meet another woman, and even, some women would even help hunt for women in order to please their men.

Ji Feng knew that he could not reach that level, and he could only be as attentive as possible to each woman.

.....

“Dingdong~~dingdong~~”

“Who is it?”

As the doorbell rang, a clear and somewhat childish voice came from inside.

Ji Feng laughed, “Yao Yao, open the door.”

“Ee?”

At once, the childish voice inside shouted, “It’s daddy”

Snap!

The door was opened, and Ji Feng saw that Yao Yao was wearing a white dress, but on her feet she was wearing a pair of adult slippers, which at a glance, she knew that they were Qin Shujie’s, looking very unconventional, and Ji Feng was immediately amused.

“Daddy!”

When Yao Yao saw Ji Feng, but her eyes lit up, her little face was covered with a smile, she stretched out her two tender arms and stomped about to run over, but the shoes she was wearing were really too big, as a result, just after running two steps, her body steeply lurched forward and looked like she was going to fall to the ground.

“Good girl!”

Ji Feng hurriedly stepped forward and picked up Yao Yao with one hand, gave her a strong kiss on her little cheek and laughed, “Little girl, you’re not afraid of falling down.”

“Giggle” Yao Yao burst out laughing, “Daddy beardza”

“You little girl!”

Ji Feng laughed and pinched Yao Yao’s little nose and asked, “Where’s mommy? Are you the only one at home?”

He had called Qin Shujie before he came and learned that she was at home, and that’s why he came over, how come now instead, he had Yao Yao open the door but didn’t see Qin Shujie?

Yaoyao said, “Mum is on the phone right now.”

“Oh?”

Ji Feng put Yao Yao down and prepared to change her shoes, but at this time, Yao Yao was very good and ran to the side and pulled open the shoe cabinet, took out a pair of slippers, and stomped over and put them in front of Ji Feng.

This series of actions made Ji Feng smile, “Yaoyao understands how to behave, so good.”

When Yao Yao received the compliment, she immediately tilted her little head proudly and said, “Yao Yao has long been sensible.”

Ji Feng couldn’t help but lose his smile.

At that moment, she saw Qin Shujie walking out from the bedroom, and when she saw Ji Feng, she couldn’t help but smile gently, “Coming.”

“Mm, coming.”

The simple question and answer instantly filled the home with a warm feeling. Qin Shujie skillfully brought a towel and handed it to Ji Feng: “Go wash your face first, I’ll make dinner.”

Ji Feng smiled, “No need to cook, let’s go out to eat today, I haven’t taken Yao Yao out to play for a long time either, it’s just that I have time today”

“Daddy you’re taking me out to play? Great!”

Yao Yao immediately clapped her little hands happily, “I really want daddy to take me out to play, but mommy said daddy is busy with work and won’t let me call daddy, Yao Yao is all sad”

Ji Feng immediately said happily, “Is that so? That’s really aggravating for Yao Yao, it’s all because Daddy is bad, he doesn’t visit Yao Yao often.”

“Alright, don’t be so spoiled with her.” Qin Shujie said gently, “This little girl is getting more and more spooky now, she knows everything.”

“Daughters, they just need to be spoiled.” Ji Feng laughed.

“You.”

Qin Shujie shook her head helplessly and stopped talking about Ji Feng, instead, she took Yao Yao’s little hand and said, “Go and change your clothes, you can’t go out to play dressed like this.”

When Yao Yao heard this, she hurriedly followed Qin Shujie and went to change her clothes.

At this time, Ji Feng frowned slightly, because he noticed that Qin Shujie seemed to have something on her mind, and she always did not have that special sense of relaxation between her eyebrows.

“It couldn’t be that she’s encountered something, could it?” Ji Feng secretly said, he would have to ask about it later.

“You can sit down for a while, I’m afraid it will take a while for Yao Yao to change her clothes.” At this time, Qin Shujie walked out and said gently.

“Eh?”

Ji Feng was a little surprised, “Aren’t you going to help Yao Yao change her clothes?”

“No, she’s gradually getting older, it’s time for her to learn to change her own clothes, I just need to help her take her clothes.” Qin Shujie said, talking about her daughter’s growth, her face carried a touch of happiness.

Campus Master Chapter 2263

“No, she’s gradually getting older and it’s time for her to learn to change her own clothes, I just need to help her with her clothes.” Qin Shujie said, speaking of her daughter’s growth, her face carried a touch of happiness.

“Hehe!”

Ji Feng couldn’t help but smile, “This little one has really grown up a lot, I remember the last time I saw her, she still needed to be fed sometimes when she ate, now she can actually put on her own clothes.”

The last time I saw Yao Yao, this little girl liked to learn how to eat by herself as an adult, but she ended up not even being able to learn how to hold chopsticks and ended up having to use her little spoon, but then she couldn’t pick up some of the dishes, and as a result, she still had to be fed by Qin Shujie.

I can’t imagine that when I came back this time, the little girl could already put on her own clothes. The growth of this little child is really one day at a time, so Ji Feng couldn’t help but feel like time was passing by.

If you think about it, when you grew up from that useless and cowardly teenager to where you are now, it actually only took a few years, and further down the line, you are about to enter your prime.

“By the way, I see that you seem to have something on your mind?” Ji Feng suddenly asked, “Did you encounter any trouble, or did you encounter something unpleasant?”

“Hmm?”

Qin Shujie was stunned, then subconsciously touched her face, “Am I showing it obviously?”

Ji Feng laughed: “Why, do you have something on your mind that I can’t see? Looks like I was right, tell me what’s going on and see if I can help.”

Qin Shujie shook her head and said, “It’s not really a big problem, it’s just a little trouble in the company, and I haven’t been able to find a suitable solution, so that’s why

Ji Feng immediately asked, “What kind of trouble did you encounter? Is it the tight supply of goods, or is it the suppression by competitors?”

Qin Shujie opened a jewellery company, and the scale was not too big, in an international metropolis like Jiangzhou, this jewellery company of hers could only be considered to be making good profits, but it was still a long way from the standard of a giant.

The most that can be said about such a jewellery company is that it does not face any other problems, the most that can be said is that there are problems with the supply of goods, and that there is also the crowding out and suppression of the bigger and stronger jewellery companies.

After all, to do jewellery business, first of all in the source of goods must be guaranteed to do, even if you can not get those top quality jadeite and jade, but at least the top quality, can take the stage jade jade to have some, but after the first two gambling stones, Ji Feng is to understand, now the top quality jadeite jade is how scarce, almost all jewellery companies are short of goods.

So as soon as a piece of jadeite comes out at the stone solving site, it will almost immediately be bought by the jewellery company on the spot, those small jewellery companies want to get the goods, no doubt some difficulty, so the pressure to survive is not small.

As for the same competition and suppression, that is more than natural.

In terms of the size of Qin Shujie’s jewellery company, it can only be considered a small company in the jewellery industry, while the really big companies can easily calculate their assets by hundreds of millions.

You can imagine that if other companies want to squeeze Qin Shujie’s company, it really couldn’t be simpler.

So Ji Feng wanted to love that it should almost be these two possibilities, otherwise, what other problems would she encounter?

However, Qin Shujie smiled but shook her head and said, “Neither, although the supply of goods is tight, but the few pieces of jade you unraveled last time in Jiangzhe Hangzhou, there are still some stocks now, the high-end market can still cope for the time being, the middle and low-end market can also get goods from other suppliers, and can also operate normally.”

“As for other companies suppressing, you don’t do this business, so you may not know much about it.”

Qin Shujie said, “What kind of business doesn’t face competition these days? The jewellery industry is a little better, the prices are not transparent, except for gold and silver jewellery, other things like jade and jadeite, the profit margin is huge, even if other companies are suppressing it, they can survive perfectly.”

In fact, the water is very deep in any industry, and the same is true for jewellery companies, even deeper.

Like gold and silver, these precious metals, the prices of the major jewellery companies are similar, because the international gold price is there, how different it is not too much, the difference only lies in the brand and reputation.

Many consumers would rather believe that the gold sold in the banks is fake than pure gold in those century-old shops.

If you want to talk about suppression, those big companies can only suppress other small companies in this area at most.

But the water is much deeper in jewellery and jade, not to mention the fact that many jewellery companies sell fake goods, and the price of buying them varies greatly, while the price of selling them varies greatly.

You can imagine how much profit there is in between.

So in this respect even if other big companies crowded out, they wouldn't be able to play much of a role, unless they were to keep a check on the source of goods.

But the problem is that Qin Shujie's jewellery company does not have a problem with the source of goods.

Ji Feng was a bit puzzled, and he asked, "Then what kind of trouble did you encounter?"

Qin Shujie said, "Actually, I'm not even sure what kind of trouble I've encountered"

"What's going on?" Ji Feng smiled and was stunned, Qin Shujie was not clear either?

"It's like this, last week the company imported a batch of goods from Yanjing, the result is that the car carrying the goods has not even left Yanjing, was detained, the other party gave the reason that the goods delivered may have problems, need to carry out detailed inspection, moreover, the car is also overloaded"

"Hmm?"

Ji Feng immediately frowned and asked, "Shu-jie, what kind of goods did you enter?"

Qin Shujie said, "Just a batch of pearls, besides that there are some crystals and coral shells and so on."

"Is that all?" Ji Feng asked.

"That's right, that's all." Qin Shujie nodded and said, "The company has to buy a batch of these things almost every month, especially in the recent period, the weather is a bit hot, so these pearl type products are selling very well, several shops are about to run out of stock"

"But these things are fine!" Ji Feng frowned, "Then why did the other party say there was a problem with the goods?"

"I don't know."

Qin Shujie shook her head with a bitter smile and said, "That's why I'm a bit worried, if I knew what was wrong, I would have solved it long ago, why would I need to wait until now?"

Ji Feng nodded slightly and pondered for a moment before suddenly asking, "Which department impounded the car?"

Qin Shujie said, "Traffic police and industry and commerce, the driver and the employee who escorted the car called and said that the car is now with the traffic police, but in order to bring the car up, it must first go through the industry and commerce department's consent"

"Industry and commerce?"

Ji Feng sniffed and asked, "Shujie, this batch of goods of yours won't be fake, right?"

The car is overloaded, the traffic police investigate and deal with that is certainly normal, but industry and commerce is also involved, this is a bit strange.

Is it possible that this batch of goods Qin Shujie imported is fake? Or were there any irregularities?

The fake pearls and crystals are everywhere in the market, like some big jewellery companies are better, but those small jewellery companies, selling fake goods has almost become their main means of enrichment.

So once Ji Feng heard that people from industry and commerce were also involved, he immediately wondered if Qin Shujie's jewellery company was also selling fake goods.

"Of course not." Qin Shujie snapped, "It's not like Yao Yao and I are short of money to spend, how could we still sell fake goods, what are we making so much money for?"

"It's good that there are no fakes." Ji Feng nodded and laughed.

"Actually, ah, if Yao Yao wasn't still young, I'd want to transfer the company to someone else now." Qin Shujie said, "I just want to bring up Yaoyao now and raise her well. It's just that I'm worried that if I get a bit older later and don't have the ability to work, when I don't have good conditions, Yoyo might suffer along with me, so that's why I've been running the company"

"Yaoyao is also my daughter, how could I possibly let you suffer"

"That's not the same."

Qin Shujie shook her head and said, "I still wish I could be more independent."

Ji Feng then smacked her plump, round, fat buttocks and feigned anger, "What, are you still so clearly divided from me?"

"It's not a clear division, it's just that I'm content like this now." Qin Shujie smiled flirtatiously and said, "If I didn't do anything but let you feed me, I'd be worried I'd be bored."

"You."

Ji Feng shook his head and gave her **** a strong squeeze.

"Ah!"

Qin Shujie let out a soft cry, her face flushed red, gave Ji Feng an angry look and said, "Yao Yao will be out any minute, be honest."

Ji Feng gave a heated smile.

Qin Shujie's scornful gaze softened again, straightened Ji Feng's clothes for him, and softly said, "Actually, ah, I'm already contented if you can come to see us from time to time, in fact, compared to the past, I'm particularly content with my life now, I feel it's better than ever."

Qin Shujie is no longer an 18's and 9's year old girl, after all those storms and having had such a shameless ex-husband, she now knows best what she wants.

If she can have Ji Feng to love her so much, she is actually very satisfied.

She is really extraordinarily happy, and sometimes when she sits by herself in the office and thinks about this, the corners of her mouth will involuntarily float up into a smile.

Ji Feng embraced Qin Shujie in his arms and let out a soft sigh.

Campus Master Chapter 2264

Ji Feng embraced Qin Shujie in his arms and let out a soft sigh.

Although Qin Shujie felt so content and happy, but for Ji Feng he always felt a sense of guilt and apology in his heart. In fact, what Ji Feng wanted most was to be able to be with each of them at all times, but he knew that this was unrealistic, so he could only try to spend more time with them.

Seemingly sensing the apology in Ji Feng's heart, Qin Shujie, with a touching smile on her face, leaned into Ji Feng's arms and closed her eyes slightly.

.....

"Bai Zhu, this is Qin Shujie, this is Yao Yao you guys already knew each other before." Carrying Yao Yao to the downstairs, Ji Feng could not help but be a little embarrassed again, bringing Bai Zhu to see Qin Shujie, how he was all so awkward.

"White girl is prettier than before again." Qin Shujie, however, was full of smiles as she took Bai Zhu's hand and said, "However, with Miss Bai's looks and skin, if she can accessorize with a bit more jewellery, she will definitely be even more beautiful Let's do it this way, let's take a little detour later, I'll go to the door shop to pick up a few pieces of jewellery and see which one suits Miss Bai best I'll go to the shop and pick up a few pieces of jewelry and see which one suits you best."

Bai Zhu, however, waved her hands, "No, no, I don't really like wearing jewellery, besides, I have to deal with some unexpected situations occasionally, and it's not very convenient to wear jewellery"

"It's okay."

Qin Shujie smiled, "How can we women not have a few pieces of jewellery, even if we don't use it during the day, there are always times when we are free"

Bai Zhu still wanted to refuse, Qin Shujie busy said, "Well, we can so agreed, if you do not want it, it is not willing to recognize me as a sister"

“No, no.” Bai Zhu shook her head and said, “Then okay.”

“That’s right.” Qin Shujie’s smile suddenly blossomed, while inadvertently giving Ji Feng a flirtatious look.

The first thing you need to do is to get the best out of the business.

What’s more, they had already known each other before, and Bai Zhu even particularly liked Yao Yao, so it was really easy for Qin Shujie to make friends with Bai Zhu now.

But what was the meaning of that look Qin Shujie had just given herself?

“Daddy, where are you taking me today?” Seeing that the adults were talking, Yao Yao was a bit impatient at the side.

“How about we go to Sea World today?” Ji Feng asked with a smile.

“Yes!”

Yao Yao immediately clapped her hands in joy, “I want to see big sharks, big whales”

Ji Feng smiled and picked the little girl up, saying, “Good! There are all kinds of fish in Sea World, you can see whatever fish you want to see then OK, all get in the car, it’s not early.”

Several people got into the car, Bai Zhu then set the navigation and went straight to the Sea World.

On the way, the little girl is chattering non-stop, a moment to show off with Ji Feng what good grades she got in kindergarten again, and a moment to say which kindergarten children did what, that tender voice childish look, really let Ji Feng like a lot.

However, after playing for about half an hour, Yao Yao was a bit tired, her eyelids were fighting and she yawned from time to time.

Ji Feng immediately smiled, “Yao Yao, take a nap first.”

Qin Shujie said, “I’ll hold it, she usually naps at noon, and now the sleepyheads are coming back”

“I want daddy to hold!” The little girl is a little reluctant, a pair of small hands tightly wrapped around Ji Feng’s neck and did not let go, but beamed at her mother.

“Little girl, usually it’s really a waste to love you.” Qin Shujie was so angry and amused.

“Okay, I usually have a hard time keeping her company.” Ji Feng said.

Qin Shujie shook her head and didn’t say anything.

In fact, she also particularly liked to see Ji Feng hugging Yao Yao, that home-like warm feeling made her happy, but she was afraid that Yao Yao, a girl who was used to having Ji Feng hug her, when Ji Feng left, the little girl was afraid that she would cry and fuss.

It seemed that because Ji Feng’s arms were particularly strong, the little girl quickly fell asleep in his arms, and as Qin Shujie watched, a smile of relief could not help but appear on her face.

“By the way”

Suddenly, Ji Feng seemed to remember something and whispered, “Shu-jie, the car you brought in was impounded, did the driver and the employee who was escorting the car inform you of this?”

Qin Shujie nodded and said, “Yes, what’s wrong?”

Ji Feng didn’t answer her question, but asked again, “Then did you receive any calls from Yanjing’s industry and commerce or traffic police?”

Qin Shujie nodded, “Yes, and it’s not just the traffic police and industry and commerce, even the freight company called When you arrived home just now, I was on the phone with someone from the freight company, negotiating about parking fees and overtime.”

“Well!”

Ji Feng nodded and said, “That’s right.”

Qin Shujie asked a little strangely, “What’s wrong? What’s right?”

Ji Feng said, “I was originally wondering if the employees and drivers who were escorting the car were up to no good, if they forgot about profit and had evil intentions, or if something else went wrong but they didn’t dare to say anything so they lied, but now it seems that it should be true that the car was impounded ”

Qin Shujie said: “This is certainly true, the freight company has installed a satellite positioning system on each car, after the accident the freight company immediately checked the location of that car, indeed it is in the traffic police in Yanjing, this is certainly not what can go wrong”

Ji Feng nodded slightly and said, “Well, just be sure.”

He had originally suspected that there was something fishy between the man who was escorting the car and the driver, and that the two of them had taken a fancy to the carload of jewellery, so they had played a double act, but now it seemed that the possibility of that was almost non-existent.

“Then you usually transport the jewellery and just use the van?” Ji Feng asked.

“Not really, it depends on the size of the cargo and how far it is.” Qin Shujie said.

Ji Feng nodded thoughtfully and mused, “But the problem now is that the industry and commerce and traffic police say your goods have problems and are overloaded”

Qin Shujie said that the company did not have fake goods, which Ji Feng believed, because he knew that Qin Shujie did not have that need to sell fake goods at all, but the industry and commerce and traffic police said that the goods in that car had problems, if not fake goods, then what could be the problem?

Moreover, this overloading problem should be the responsibility of the freight company, and the freight company should have known before sending the car that the overloaded goods might be detained and checked, and should not have sent the car at all.

Especially some regular large freight logistics companies, for its delivery of goods or very careful, and according to Qin Shujie said, the logistics company is also aware of what goods they transport, and also

signed a compensation and entrustment agreement, so the logistics company should also have no problem in this regard.

Because if something goes wrong with the goods, the freight company is also responsible for it.

There is no problem with this and that, so what exactly is the problem this time?

It couldn't be that Yanjing's industry and commerce and traffic police were deliberately framing them, could it?

"By the way, how is the employee who escorted the car's reputation in the company usually?" Ji Feng suddenly asked, "Can he be trusted?"

"..... His reputation is not bad." Qin Shujie was stunned, and then said, "He can definitely be trusted, he was often in charge of escorting cars before, and none of them had ever been in trouble"

"Just because it hasn't happened before doesn't mean it's okay now." Ji Feng said, "Do you think, if that driver or that employee of yours, while transporting goods for you, also entrapped private goods, and that's why they were seized, how likely do you think that is?"

"This"

Qin Shujie hesitated a little, but after a moment, she shook her head and said, "I'm not sure about that driver, because that's someone from the freight company, I haven't had any contact with him, however, that employee of mine should be fine, I trust him."

"If that's the case"

Ji Feng pondered for a moment and said, "Then we can only make a trip to Yanjing personally to see what the situation is and what has gone wrong with the cargo."

Qin Shujie nodded and said, "It is necessary to figure it out as soon as possible, if this batch of goods is delayed for a few more days, I am afraid that the shops below will be out of stock, which will lose many customers."

"Don't worry."

Ji Feng patted her hand and said, "I'll help you handle this matter, I'll go to Yanjing as soon as possible to see what's going on"

Qin Shujie immediately said, "I'll go with you, otherwise when the time comes you won't be able to speak clearly alone, after all, you're an amateur to the jewellery industry."

Ji Feng thought about it and immediately nodded, "Fine, then also send Yao Yao to my place, Lei Lei happens to be at home writing her thesis and has a lot of time, she also likes this little girl a lot."

Qin Shujie then hesitated a little: "Is this good?"

She had completely treated Ji Feng as her own man, let Ji Feng do things then of course no problem, but the problem was that Tong Lei was Ji Feng's real girlfriend, even in ancient times, she herself could only be considered her concubine, and Tong Lei was the main house.

But now, but to ask Tong Lei to help her bring up the child, this makes Qin Shujie more or less uneasy.

"It's okay." Ji Feng patted her hand and said comfortingly, "You will always meet in the future, can you still keep hiding it?"

"But"

Qin Shujie opened her mouth slightly, but didn't know what to say.

Ji Feng smiled and said, "Alright, it's decided."

Qin Shujie also had to nod her head and agree, but her expression was still a bit uneasy.

Afterwards, Qin Shujie asked Bai Zhu to stop the car at a junction, then got out and walked into a jewellery shop on the roadside. When she came back, she had a bag in her hand with four or five jewellery boxes inside, but they were the jewellery she had said she would give to Bai Zhu earlier.

Bai Zhu could not resist and had to accept it under Ji Feng's gesture.

That afternoon, Ji Feng called Tong Lei and Xiao Yuxuan to tell them about this matter, and the two women naturally agreed readily.

Afterwards, Ji Feng contacted his little uncle again, and he planned to take a military plane to Yanjing that night.

Campus Master Chapter 2265

"Kid, why are you suddenly going to Yanjing again?" Ji Zhenping asked curiously, "Is it a holiday in school?"

"No, I have some things to take care of in Yanjing." Ji Feng said.

"I told you so."

Ji Zhenping hummed and said, "If school is out, how come you should go to your second uncle's house first"

Ji Feng laughed, "That's for sure."

Second uncle is in Jiangzhou, not to mention that he has to visit the two elders when school is out, even if it's just for the weekend, he has to go over there every once in a while.

Although usually Ji Zhenguo was more authoritative, and even his second brother Ji Shaolei feared him as if he were a mouse seeing a cat, Ji Feng was different, as his second uncle still cared for him, and hardly ever reprimanded him.

In fact, the reason why Ji Zhenguo would not treat Ji Shaolei well was not because he hated him, but because he felt that this second kid was really too unprofessional, just a fop, not progressive, so it was strange to be able to give him a good look.

"That's more like it!" The first thing you need to do is to get a plane to Yanjing tonight, are you alone or do you want to bring someone else? Tell me how many people you have in total, I'll arrange it."

“Three people.”

Ji Feng said, “Me and Bai Zhu, or a friend of mine.”

Ji Zhenping nodded and said, “Alright then, at eight o’clock in the evening, you will come to the military district on time then, and I will send someone to meet you at the entrance.”

After closing the line, Ji Feng turned his head to Qin Shujie and said, “Arrangements have been made, just arrive at the military compound at eight o’clock at night.”

Qin Shujie was slightly stunned, “To the military division?”

“That’s right, take a military plane to Yanjing.” Ji Feng nodded, “The military plane is faster, plus there are some things that are convenient to carry.”

“Convenient to carry?” Qin Shujie was a bit puzzled, “What to carry?”

Ji Feng smiled, “For example, this

Saying that, he touched out a dagger from behind Bai Zhu’s waist and laughed, “This thing can’t be carried up if you take an airliner.”

The gun and dagger, Bai Zhu is definitely to carry with him, after all, he has been stabbed twice in a row, and this second time even do not know what kind of person did it, if any weapons are not carried, not to mention Bai Zhu is not at ease, Ji Feng also feel a little less safe.

It was for this reason that Ji Feng contacted Little Uncle to be a military machine.

“What are we carrying one for?” Qin Shujie was a bit uneasy, “Ji Feng, we are dealing with things this time over there, don’t just do it with someone.”

“Don’t worry, this thing is just for protection, and the protection is not those traffic police and industrial and commercial” Ji Feng laughed: “Don’t worry, you listen to my arrangement on the line, don’t worry about anything else. ”

“..... hmm.” Qin Shujie nodded, with Ji Feng around, she naturally didn’t need to make the decisions, she enjoyed the feeling that everything was arranged by Ji Feng.

Moreover, Qin Shujie also knew that Ji Feng was not the kind of person who was impulsive, and should not act in a messy way.

In fact, Ji Feng was a little helpless about it.

Even if you are strong, you don’t want someone watching you in the shadows all day long, you might come up with a surprise attack at some point.

The best way is to uncover the person behind the curtain, so that we can get rid of it once and for all.

But right now, Ji Feng didn’t have any clues, so he could only put the assassination aside for the time being, but the necessary preparations had to be made.

After taking Yao Yao to play at Sea World all afternoon, the little girl was so happy that her face was red with excitement, pulling Ji Feng’s hand and running here and there, she was on the verge of going crazy.

Finally, after dinner, this girl could not hold on any longer, her eyelids began to fight and she soon fell asleep in Ji Feng's arms, even when Ji Feng sent her home and handed her over to Xiao Yuxuan and Tong Lei the little girl did not even wake up.

"Be careful when you go out, don't ever let us worry again." Xiao Yuxuan had already put Ji Feng's luggage in order, "There's a change of clothes in the bag, as well as a toothbrush and towel, the quality of things in the hotel is too poor and not too hygienic, it's better to use your own things"

Ji Feng kissed her on her soft face and said, "Don't worry, just going to do some business, there will be no problem."

At this time, Tong Lei came down from upstairs and Ji Feng asked, "Little girl sleeping?"

Tong Lei nodded and said, "She slept soundly, when she took a bath just now she was only confused for a few moments before she fell asleep again."

Ji Feng was dumbfounded, she didn't even wake up during the bath?

Xiao Yuxuan pursed her lips and laughed, "This girl is really strong in sleeping."

Ji Feng lifted his luggage up and said, "Alright, you'll work hard these two days, I should go too."

Xiao Yuxuan, however, gave him an angry look and said, "Just don't worry about us, just take care of yourself outside"

Ji Feng then a little strange, care about her is also not right?

At 8 pm, Ji Feng brought Bai Zhu and Qin Shujie to the military compound on time, and young uncle Ji Zhenping sent a young soldier to take them to the airport, yet when they got on the plane Ji Feng found that young uncle was also there.

"Little Uncle, why are you here too?" Ji Feng had just finished speaking when he realised something and asked, "Little Uncle, you're going to Yanjing too?"

"Well!"

Ji Zhenping nodded, "It's not a short time since I came to Jiangzhou, Geng Shaohua has been determined to be brain dead and the corpse has been handed over to the local police, so it's time for me to go back."

The reason for this is that Geng Shaohua's death was something that Ji Feng had not expected.

Or to be more accurate, it was Ji Feng's error of judgment.

If he had treated Geng Shaohua at the scene, maybe Geng Shaohua would not have died, at least, not so quickly, and could have left two sentences or something.

But at that time, Ji Feng just gave Geng Shaohua a special effect current in order to save his strength, but as a result he still died.

"Those police officers" Ji Feng couldn't help but coldly snort, although part of the reason for Geng Shaohua's death was because of his error in judgment, but the weakness wasn't that those police

officers were really ridiculously slow in getting to the police, Geng Shaohua wouldn't have lost too much blood, so strictly speaking, Geng The police should also be held responsible for a large part of Geng Shaohua's death.

Ji Feng said in a deep voice: "Little Uncle, the speed of those police officers is too slow, I suspect that there is something fishy in the middle, have you checked?"

Ji Zhenping shook his head and said, "This kind of thing is actually impossible to find out anything, they can just find any excuse to get away with it, even if they are held responsible, they can only be said to have neglected their duties, to put it more seriously the big deal is malpractice, but other than that, what can be found out?"

Ji Feng slowly nodded, in fact, this truth he naturally understood.

The plan of action for this kind of assassination was so well thought out, and there were even ex-state security personnel involved, even if some of the police officers in those police stations were accomplices, they were definitely just being used, they were just minions, even if they were arrested and questioned, there would be nothing to gain.

"Don't be too concerned, still the same words, this time the operation did not succeed the other side will certainly not die, sooner or later will jump out." Ji Zhenping patted Ji Feng's shoulder and said, "Now we are in the light and the other party is in the dark, the more annoyed you are, the easier it will be to mess up."

Ji Feng nodded: "I understand. The future is long, there will come a day when I will uncover this guy who is hiding his head!"

"It's good to have this fighting spirit." Ji Zhenping laughed, then he changed the subject and said, "This time when you go back, don't forget to visit your grandfather's place, and your parents' place, go and keep them company too, especially your mother, she must be worried this time."

"Mmm."

"Kid"

Suddenly, Ji Zhenping lowered his voice, glanced at Qin Shujie, and said, "What is this woman's relationship with you?"

Ji Feng instantly smiled sarcastically, "That what"

"Alright alright." Ji Zhenping glared at him, when Ji Feng smiled like that, where would he not understand what it meant, it was obvious that this woman and Ji Feng would definitely not be ordinary friends, "Can't you kid learn something good? How come you're learning from that Ji Shaojun kid?"

"I'm not the same as him." Ji Feng said with a bitter smile.

"How is it different?"

"Shaojun is just for fun, Shuja and I have feelings" Ji Feng argued, Ji Shaojun is not looking for those stars or whatever for fun, is it still for marriage?

But between him and Qin Shujie is different.

“You brat,” Ji Zhenping shook his head and said, “If your father finds out about this, let’s see how he’ll fix you.”

“.....” Ji Feng smiled sarcastically.

“Okay, you kid are also an adult, what you do is your freedom, and I don’t want to care much.” Ji Zhenping waved his hand, he himself is a straightforward personality, do not like to preach, besides this matter he is not good to say more, point to the end can be.

In fact, this is really nothing in a wealthy family, some young masters are much more outrageous than Ji Shaojun, only 15 or 16 years old, but they dare to qiangjian casually, rampant bullying.

In comparison, Ji Feng is simply a good student and a good boy!

So Ji Zhenping only said a few words about Ji Feng, so that he could have a good idea of what he was doing. I believe that with Ji Feng’s heart, he was not likely to be that much of a jerk.

About an hour or so later, the plane landed at an airport in the Yanjing Military Region, at which time Ji Zhenping asked, “Little Feng, you are going straight home, right?”

Ji Feng shook his head and said, “I won’t be going home today, I have things to do tomorrow.”

Ji Zhenping nodded and said, “It’s good, it’s getting late, by the time you get home your mother will probably have rested, this way, where are you going, I’ll send someone to take you there, as for that thing you said, you go first and see how it goes, if it doesn’t work, you call me,”

Campus Master Chapter 2266

Ji Zhenping sent a car to take the three of them to their destination – in order to make it easier to deal with the car and the goods tomorrow, Ji Feng chose a hotel that was closer to the local traffic police station.

Going home this evening was definitely not an option.

Even though it was only a little after nine o’clock, it was a little inconvenient to go home with Bai Zhu and Qin Shujie around, not to mention that these two women had a very close relationship with themselves, and even if they didn’t, just seeing that they were going out with no one else but two women, when Mom saw them, she might not know what to say about herself.

Not to mention the fact that Dad will be furious when he comes home and sees this.

Although they were very tolerant in other aspects, in this regard, Ji Feng could be sure that they would never indulge themselves. At first, his mother had never accepted Xiao Yuxuan and even flew to Jiangzhou to talk to her once.

If it wasn’t for Xiao Yuxuan’s earnest and sincere words, I’m afraid I wouldn’t be able to be with Xiao Yuxuan.

What’s more, he was carrying two women with him, and neither Tong Lei nor Xiao Yuxuan was there, so if Dad and Mom saw them, it would be strange if they were not furious.

So Ji Feng decisively chose to live outside, some things, it is better to be mellow.

“Ding”

Before the car reached the place, Ji Feng’s phone rang, he took it out and took a look, but unexpectedly found that the call was actually from Ji Shaojun.

Ji Feng was a bit surprised, Ji Shaojun usually rarely contacted him, this night suddenly called his phone, but did not know what was going on.

Ji Feng picked up the phone, “Shaojun?”

“Little Feng, you’ve come to Yanjing, right?” The smiling voice of Ji Shaojun came over the phone.

“How did you know?” Ji Feng was stunned, he had come to Yanjing without telling anyone, even his second brother Ji Shaolei he hadn’t informed, how did Ji Shaojun know about it?

“It was Third Uncle who called me.” Ji Shaojun smiled, “He said that you came to Yanjing to do something and might need manpower.”

“So that’s how it is!”

Ji Feng suddenly realized that it was Little Uncle who had called Ji Shaojun, he couldn’t help but smile slightly, Little Uncle was really well thought out, he knew that he was unfamiliar with Yanjing, so he had called Ji Shaojun over.

“It’s a bit of business, if you have time tomorrow, follow me on a run,” Ji Feng smiled.

“Where’s that coming from, even if I don’t have time, I definitely have to make time out when you’re here.” Ji Shaojun laughed, “Besides you still don’t know me, there is basically nothing in the company that I need to worry about, all day is to play, a lot of time”

For Ji Feng, Ji Shaojun heart more or less some awe.

The first time Ji Feng appeared out of nowhere, they, the children of the Ji family, were somewhat unimpressed, thinking that this was just a wild child who grew up in the folklore and suddenly recognized his ancestors, which was considered a great luck, but that was all, he was afraid that he had no ability.

However, with Ji Feng’s strong return, they fell to pieces.

First of all, Ji Feng had taught Ji Shaoyou a lesson, and even the second master had been forced by him to say nothing, and what’s more, the old master’s hardcore subordinate, Master Tang, and the old guard, Tie Lao, who was like a brother to the old master, all looked at Ji Feng with favour, which really surprised them, the children of the Ji family.

However, what was even more surprising was still to come. As Ji Feng showed a series of strong wrists, fought against the Qiao family and the Wu family, Ji Feng’s popularity was simply unparalleled for a while.

The most astonishing and awe-inspiring thing about Ji Shaojun was that the youngest member of the Wu family, Wu Zhiyong, had fallen into Ji Feng’s hands several times.

It's just that no one bothered to poke holes in it to their faces due to the face and power of the Wu family.

But this was not the case for the Ji family. The two families were already at odds, so why should they give face to the Wu family?

So when the children of the Ji family saw the Wu family again during that time, they all felt a sense of exaltation.

This feeling had not been seen for a very long time.

In the past, the Ji family had some thoughts about the succession position, so their relationship with Ji Shaodong and Ji Shaolei was not that close, and could even be said to be somewhat distant.

Although at that time, Ji Shaolei had helped them for the sake of the same family, and even beat up many of them with his own hands, it was not a permanent solution after all, and since Ji Shaolei had later gone to Jiangzhou, and Ji Shaodong had a calm personality and was not willing to get involved in such fights between playboys, as a result, they were almost unable to hold up their heads in front of the Wu family.

During that time, they had been bullied quite a few times.

But ever since Ji Feng had acknowledged his ancestors, it was a different story, especially when he flung several consecutive loud slaps at Wu Zhiyong's face, which immediately sent chills down the spines of the entire Wu family's children.

After several times in a row, the Wu family's children were much more restrained, and even when they met again, they did not dare to be so arrogant.

These were things that Ji Shaojun could personally feel.

What touched Ji Shaojun the most was when Ji Feng helped Ji Shaohong. At that time, the two sides did not see eye to eye, but Ji Feng still did not hesitate to help.

"If you're not a family man, you're a family man!" This was what Ji Feng said at that time with a smile on his face.

And afterwards, Ji Shao Hong was lamenting that this person, Ji Feng, had a big heart and was not an ordinary person!

It was from that time that Ji Shaojun began to have a kind of admiration and awe for Ji Feng from his heart, just like awe for Ji Shaodong, and even sometimes Ji Shaojun forgot that Ji Feng was younger than him, and almost had a feeling of treating Ji Feng as his big brother.

Now when he heard that Ji Feng needed manpower, how could Ji Shaojun have second thoughts?

"Little Feng, I don't think we should wait until tomorrow, it's still very early anyway, you can just tell me the address, I'll go there now and have a drink together" Ji Shaojun said with a smile.

"..... either!"

Ji Feng raised his hand and looked at his watch, it was almost half past nine, the time was indeed not very late, "Then you can come over"

He told Ji Shaojun the name of the hotel he had booked.

"Good! Half an hour at most, I'll definitely be there!" Ji Shaojun said smilingly, "Just in time, I have two bottles of good wine on my side, which I won from a guy with great difficulty, let's drink it today!"

"See you later then." Ji Feng laughed.

"By the way, I have two more friends over here, you see" Ji Shaojun asked with some hesitation.

If it was to others, it was fine for Ji Shaojun to bring his friends over directly, but to Ji Feng he didn't dare to be so casual and had to seek Ji Feng's opinion.

Ji Feng asked, "What kind of friend?"

Ji Shaojun said, "Just two guys who usually play well, their families are very close to our family, I was thinking, these two guys heard that you are here and both want to meet you, and they are also more familiar with the ground in Yanjing, so"

Ji Feng was immediately amused: "I'm not a celebrity, what's there to meet? Shaojun, you made a promise with someone, right?"

Ji Shaojun then laughed heatedly, obviously acquiescing.

Ji Feng then couldn't help but shake his head and smile, as the first grandson of the Ji family's eldest family, his status had been recognized by everyone, those people wanted to befriend him that was understandable, only that they didn't have a channel to talk to themselves directly, so they found their way to Ji Shaojun's place.

"Then let's come together, there are many people and it's lively." Ji Feng said.

"Okay!"

Ji Shaojun said at once: "I'll go over there"

Ji Feng nodded, "Well! Be careful on the way."

Afterwards, he closed the line and shook his head and smiled.

For this kind of thing, Ji Feng was not averse to it, he believed that if it was not someone he trusted, Ji Shaojun would not have brought it to see him, although this guy liked to have fun, he was not a brainless person.

In fact, how many of these people who grew up in big families were fools?

As expected!

When Ji Feng met Ji Shaojun, this guy introduced him to the two people he had brought with him. Once Ji Feng heard where they came from, he understood that one of them was from a family that was in the same camp as the Ji family and was closer, while the other, his father was a cadre member of the Ji family line.

Ji Feng then looked at Ji Shaojun and greeted those two people at the same time, but the two looked more or less formal, but everyone was young and after a few glasses of wine, they gradually let go.

“Shaojun, it’s not busy in the company, is it?” Ji Feng asked casually as a few people sipped their drinks.

“What do I have to be busy with, the company has professional managers taking care of it, I only go to the company occasionally to keep an eye on things, hehehe.” Ji Shaojun said with a heated smile.

Ji Feng then shook his head helplessly, “This smile of yours, afraid that others do not know the purpose of your visit to the company I think you go only when casting, and gate-keeping? Is to pick beautiful women, right?”

Ji Shaojun opened an entertainment company, of course it was hung under someone else’s name, but this guy is obviously a dude who doesn’t do his job, he went to the company to gatekeep?

That sounded fresh!

“Young Ji is absolutely right about that!” A slightly fat guy nodded and laughed, his name was Yu Hui, one of the two people brought by Ji Shaojun, “If Shaojun goes to the company one day, then needless to say, it must be that the company has a new female star”

“Taro that’s right on!” Another person also laughed, his name is Wang Min, slightly older, about thirty years old, in the stable, but also a little more restrained.

“I say Taro, you two are here to tear me down today, aren’t you?” Ji Shaojun said.

Several people laughed.

At this time, Ji Shaojun suddenly said, “Little Feng, don’t look at these two guys, but they know everything in Yanjing, they know almost all the streets and alleys. ”

Ji Feng laughed: “This is the ability.”

“That’s not true!” Ji Shaojun said, “Speaking of which, there was originally another guy that the four of us played best with, but recently that guy offended the Wu family, and as a result, he could only hide out to avoid the wind”

“The Wu family?” Ji Feng frowned slightly.

“Yes, you may not be too clear, recently some time the Wu family people suddenly dragged up again, even a little kid dare to yell five and six, even dare to openly make a big speech and say some hard words, at that time my brother happened to be in the vicinity, as a result they started a conflict, my brother opened up a son of the Wu family, so can only hide out”

Ji Feng’s brow then furrowed.

Campus Master Chapter 2267

“What’s going on?” Ji Feng asked with a frown.

Listening to Ji Shaojun’s tone, it seemed that this Wu family’s people had suddenly become rampant again, but this was not the focus of Ji Feng’s attention, the Wu family’s people had always been

rampant, and the kind of arrogance that Wu Zhihe and Wu Zhiyong had back then, Ji Feng had long since learned.

What really got Ji Feng's attention was that, according to Ji Shaojun, how come he sounded as if the people of the Wu family were deliberately targeting the Ji family?

If that was really the case, then the Wu family would really be going too far.

The two families were at odds with each other, strictly speaking because they had different philosophies and ambitions, but that didn't mean that the Wu family could just bully the Ji family's children!

What's more, according to Ji Shaojun, it wasn't the Ji family who were bullied, but the children of some of the Ji family's cadres.

What does this mean?

If the Wu family really did this intentionally, then there is no doubt that the Wu family's people are tearing down the Ji family, he is using practical actions to tell all those who follow the Ji family – if you dare to follow the Ji family, then you have to be careful when your children will not have an accident.

Or, fall on your walk, get hit by a car when you go out, etc etc

Of course, the people of the Wu family would certainly not say such things explicitly, they wouldn't even mention a word about it, because such things are a big taboo!

After all, there are many political factions in China, and if every one of them were to deal with their opponents in this way, the world would be in chaos!

If you can do this to others, they can do the same to you, no one is worse off than anyone else, right?

Therefore, even if the Wu family is really planning to do so, they will definitely not say so, but will do so in a very covert manner.

This is why Ji Feng had to ask what was going on, so that he could tell if the Wu family was doing this, and if that was the case, then Ji Feng had to do something about it, he absolutely could not let the Wu family be so arrogant!

Just imagine, people are following the Ji family in their struggle, but it turns out that the Ji family can't even protect their children – the most crucial thing is that their children are being bullied without any fault of theirs, but the Ji family can't manage it – under such circumstances, will their confidence in the Ji family be shaken?

Or even, there would be other bad repercussions!

"Shaojun, say something more carefully, what is going on!" Ji Feng said in a deep voice.

"It's just a little brat from the Wu family, once he ran into that brother of mine while playing outside, and as a result, that little brat was shady and the two sides clashed" Ji Shaojun told the story once.

"So, they just bumped into each other by accident?" Ji Feng asked.

"That's right, they ran into each other by accident." Ji Shaojun nodded his head and said.

“That little brat from the Wu family was still a student, but kids nowadays develop earlier, that little brat was still a middle school student and was almost fucking 5’8”, even taller than that brother of mine, so after an argument between the two sides, that brother of mine got angry before he came down hard and gave him the boot! In fact, if he had known that little brat’s age at that time, my brother might not have struck so hard!”

Ji Feng nodded slightly, this was true, nowadays, I don’t know if it was because the dietary conditions were better than before, or because the genes were gradually optimized, anyway, nowadays, the little kids were all very tall, some of them were still in junior high school, they were already almost one meter eight, even the average height was quite taller than the previous generations.

In that case, it was indeed an accidental clash, and that friend of Ji Shaojun’s, seeing that the son of the Wu family was tall, perhaps thought he was already an adult, and ended up coming down hard straight away when he did it.

“How is that person now?” Ji Feng asked.

“Which one?” Ji Shaojun was stunned.

“It’s that little brat from the Wu family you mentioned.” Ji Feng said.

“Hey!”

Ji Shaojun shook his head and said, “What can he do, he just got his head broken, and as a result, the parents reported it to the police, went to the hospital for a minor injury test, and came up with some fucking mild concussion Fuck! What the fuck is a mild concussion, do you think people are stupid? If you shake your head too hard you might even get a mild concussion, you’ll be fine after a couple of days sleep at most, what does it matter?”

“Where’s that friend of yours?” Ji Feng asked.

“Right now the police station is waiting to arrest my brother, he had to leave Yanjing too, it just so happens that my big brother’s side is also short of manpower, so he transferred my brother there.” Ji Shaojun said.

Ji Feng nodded slightly, it turned out that Ji Shao Hong had intervened in this matter – the big brother Ji Shao Jun was talking about was Ji Shao Hong.

“What the fuck”

Ji Shaojun couldn’t help but curse, “In fact, conflicts like this happen all the time in this circle, and people usually rarely call the police, unless the injuries are somewhat serious, or the two sides themselves have to compare backgrounds and have to fight it out. Now I’m afraid that little brat from the Wu family just broke a layer of skin and actually called the police”

Ji Feng said: “People this is a Yang scheme, reported to the police you can not say anything.”

Ji Shaojun said, “The point is that the Wu family’s people are too disgusting! They used to be honest for a while, but now they’re arrogant again, and they’re even talking big”

“Heh!”

Ji Feng smiled and lifted his glass, "People have the right to be arrogant, and they also have the capital to be arrogant."

Ji Shaojun clinked one with him, tilted his head and drank it all at once, then put down the glass and said somewhat depressedly, "The key is that those bastards from the Wu family are so arrogant that they press a lot of people to lift their heads up, as if the whole Yanjing is just their Wu family!"

"Come on, don't be so depressed!" Ji Feng smiled, "They're arrogant and theirs, it has nothing to do with us, as long as they don't take the initiative to provoke."

"How can they not provoke!" Ji Shaojun sneered, "Little Feng, you are unaware of how arrogant the Wu family's people have been again recently, several people have told me that the Wu family's people, and those who are closer to the Wu family, have provoked them not once or twice"

"Then let's fight!"

"What?" Ji Shaojun was stunned and did not seem to react for a moment.

"The dog is about to pounce on you and bite you, don't we all know how to resist?" Ji Feng smiled, "Whoever dares to open his mouth and bite someone, pull out his teeth! If you dare to reach out, chop off your paws!"

Speaking here, Ji Feng lit a cigarette and slowly took a puff, saying, "We don't take the initiative to provoke, but it doesn't mean we have to keep holding our breath!"

"That's right!"

Ji Feng said these few words, listening to Ji Shaojun could really light up both eyes, he himself was a playboy, most unable to stand the bullying of others, at the same time naturally can't watch the friends around him being bullied, let alone that bullying or the Wu family?

But his energy is too small, and he is a bit tied up in matters involving the Wu family, because once things go wrong, he may not be able to close the case, so as long as things don't involve himself, he won't easily step forward directly.

But the grievance in his heart was not to be mentioned!

When had a member of the Ji family ever suffered such anger?

But what could he do?

In the case of his friend, he had begged Ji Shao Hong to transfer his friend to North China, otherwise, I am afraid that he would have been sent to the bureau, even if he would not have been mistreated, but his face would have been lost.

So Ji Shaojun has been holding his anger in his heart for a long time, otherwise he wouldn't have complained to Ji Feng while he was drinking, in fact he didn't have the hope that Ji Feng could help them out in his heart.

And now when he heard Ji Feng say that, Ji Shaojun's spirits immediately lifted.

"I've long looked at those bastards with displeasure!" Ji Shaojun said.

“Let’s say it first!”

Ji Feng held a cigarette between two fingers, nodded at Ji Shaojun and said, “I understand what you have in mind, we won’t just let people bully us, but you can’t take the initiative to look for things, otherwise, when the time comes, even if I help you out, you will still be very passive.”

Ji Shaojun instantly laughed: “Understand understand, it is to be able to play them to death, but not let them catch a handle rest assured, this I am good at.”

What kind of person is Ji Shaojun?

The actual fact is that he is a genuine dude, usually there is nothing serious at all, just the circle of people together to compete, or to find ways to rectify who, calculate who.

So like this kind of both let the other side eat a loss, but also can not say anything to the means, Ji Shaojun is really too much, even if it is even more damaging moves, Ji Shaojun did not blink an instant can think of several

Ji Feng sniffed, then smiled and nodded at him: “Are you waiting for me to say this?”

Ji Shaojun laughed heatedly, “No way, who told our family that the people who can make the decisions are all outside, you see, the boss is seldom inquire about these matters, he is afraid that all the upper generation of the Wu family as rivals, those little brats are just little kids in his eyes, he is afraid that he can’t look at them.”

Ji Feng smiled faintly, the boss Ji Shaojun was talking about was Ji Shaodong, indeed, for this kind of spirited fight between the playboys, Ji Shaodong was rarely involved.

“Where is Shao Lei, also went to Jiangzhou, my big brother is also out there, you are also in Jiangzhou this said, there is really no one who can make the decision.” Ji Shaojun said, “It’s not easy for you to come back for a trip, of course you have to leave a word of approval.”

“He

Ji Feng shook his head and smiled, and said, “The words have been left to you, so whether or not you will still suffer next, will depend on your ability!”

Ji Shaojun said at once: “That’s fine with you! It’s fine if the Wu family’s bastards don’t mess with us, as long as they dare to look for trouble, let’s see how I’ll deal with them!”

With Ji Feng’s permission, Ji Shaojun even stiffened his back when he spoke.

In fact, when Ji Shaojun said he wanted Ji Feng’s word, what he actually wanted was the energy that Ji Feng had in his hands!

Campus Master Chapter 2268

He, Ji Shaojun, was just a fop, usually not treated well in the family, and this fight between the younger generation, as long as it was not too much, the elders of the Ji family usually seldom asked questions, of course, if others came to sue, then they would be miserable.

This is if they win the fight.

But if they lost, the elders would act as if they didn't know about it at all, so they wouldn't expect to help them get back on their feet, let alone use their contacts and resources to take it out on them.

Ji Shaojun himself, although he also has some connections and relationships, and even many people still seem to think he is not small in power, but it depends on who it is compared with.

This is not because the Wu family is more powerful than the Ji family, but because, once Ji Shaojun clashes with the Wu family, the elders of the Wu family even secretly intervene, either Wu Zhiyong or Wu Zhihe intervene in it.

This is also Ji Shaojun most annoyed, his mother old son in the Ji family only belongs to the side line, even the elders do not help, this on the Wu family's children itself is a bit unequal, not very fair, but you Wu family elders actually still shamelessly secretly intervene, how the fuck I play with you?

Even if the elders of the Wu family do not interfere, but even if one of the two people, Wu Zhiyong and Wu Zhihe, interfere in it, that is not good enough.

Don't underestimate such direct descendants, especially those who are being groomed as successors, as they will even have the approval of many officials and generals in the Wu family to a large extent.

Under such circumstances, what Wu Zhiyong said might be equivalent to what Wu Zhengmin said.

It was as if the status of Ji Feng and Ji Shaodong in the Ji family was similar. If Ji Shaodong expressed his opinion on a matter, it would almost represent the opinion of the entire Ji family, and even many of the great generals in the Ji family lineage would respect Ji Shaodong's opinion.

From this, it can be seen how huge the energy held by Wu Zhiyong and Wu Zhihe really is, and they can even mobilise quite a few very somewhat high ranking officials to help them.

In the past, Ji Shaojun had once clashed with a son of the Wu family, and at that time, that unlucky person, Wu Zhihe, was still alive, and he ended up meeting Ji Shaojun and that son of the Wu family right in the middle of a clash.

At that time, Wu Zhihe just lightly said a word, as a result, the police directly took Ji Shaojun away with that Wu family's son, and locked both of them up for a day and a night, no matter how Ji Shaojun said it was useless!

Ji Shaojun was locked in the interrogation room, almost did not get eaten by mosquitoes, and the whole room inside even a table, only a chair, Ji Shaojun had to sit on the floor against the wall to stay up all night, that night is really painful to make him a bit unbearable to look back.

Imagine, a dude like Ji Shaojun, when had he ever suffered like that?

What was it like to suffer for a day and a night under those circumstances?

But the problem was that Ji Shaojun didn't know until the next day that he was the only one locked up in the interrogation room at that time, that Wu family's son, who was actually fucking living in the parlour!

Although there was no bed there either, there were soft sofas, air conditioning, good fucking food and drink, cigarettes, and fruit

At that time, Ji Shaojun was almost furious!

But he didn't have any evidence, and he couldn't do anything about it!

The only thing he could do was grit his teeth and admit it!

It was that time that Ji Shaojun's face was almost stripped clean by Wu Zhihe, almost causing him to lose face.

But even after such treatment, Ji Shaojun could only gulp his teeth down, because if he relied on his own energy, he would never be able to beat Wu Zhihe, and if the two sides continued to mess around, Ji Shaojun believed that he would definitely suffer even greater losses.

In fact, this kind of physical injury does not matter, no matter what, he is also the son of the Ji family, the Wu family, even if they are arrogant, they only dare to break his legs, or break a few of his ribs or something like that, but if it is said to take his life, I believe that not to mention Wu Zhihe, even if Wu Zhiyong came, also absolutely do not dare to do so, in this point, Ji Shaojun still has this confidence.

This is because this confidence does not come from himself, but from the Ji family, the family that gave him.

The elders of the Ji family might turn a blind eye to their own sons being bullied outside, but they would never stand by and watch their own sons being seriously hurt, or even killed, and that would be even more unacceptable!

—In fact, Ji Shaojun did not know that the reason why the elders of the Ji family were indifferent to their own sons being bullied outside was not because they were indifferent to their lives, but because they had the mentality of observing them.

These elders want to see if Ji Shaojun is the only one in the huge Ji family who can stand up for himself? Is there no one else who can stand up for the family?

The elders of the Ji family have this in mind, so they act as if they don't see their own children suffer outside. In addition, the elders also want to use this way to let the younger generation understand that they should not always rely on the family's power to do whatever they want outside.

Without enough backing, there is not enough bottom in your heart, so those full-fledged fops below will also be quite restrained, just like Ji Shaojun.

Otherwise, if the family clearly told them, do not worry, what happened outside the family to stand up for you then the consequences can be imagined, I'm afraid the whole Yanjing city will be a mess, do not know how many people without backgrounds will be bullied by them.

The actual fact is that you can find a lot of people who are not aware of this, so he can only grit his teeth and endure it, because he is very clear that he can't mess with Wu Zhihe.

Although he would not be physically harmed if he continued to mess around, his face would be disgraced!

If they lose their face and are stripped clean, how can they gain a foothold in Yanjing in the future?

This is also another reason why Ji Shaojun gritted his teeth and endured!

..... Now that several years have passed since that incident, but when I think about it now, Ji Shaojun still has a sense of humiliation, his chest is like holding a fire that he doesn't know where to release.

It was precisely for this reason that when Ji Shaojun said that his brother had been forced to leave Yanjing because he had clashed with one of the Wu family's youngsters, he was so angry that he even spoke with no regard for his status, opening his mouth to say the three words 'fuck'.

You can imagine how annoyed Ji Shaojun really was in his heart!

However, all this had passed.

Because Ji Feng had given a positive promise – if the Wu family's people dare to provoke again, then let's fight!

Since the Wu family's people were going to stick their faces out for you to slap, if you didn't, wouldn't that be very disgraceful?

Ji Shaojun was very excited.

In fact, not only was Ji Shaojun excited, but Wang Min and Yu Hui next to him were also quite excited after hearing these words from Ji Feng. Although they were past that age of fighting for power, they might encounter pressure from the Wu family even in their normal work, which made them somewhat tied up.

Now that they heard these words from Ji Feng, how could they not be happy?

"Young Ji, we salute you!" Wang Min and Yu Hui simultaneously lifted their wine glasses and stood up.

"No need for that, it's too much." Ji Feng waved his hand and also stood up after him, clinking a glass with the two of them and tilting his head to drink.

Wang Min and the two of them were somewhat flattered by the fact that Ji Feng could stand up and finish it off with them in one gulp, which was definitely a very dignified approach.

This thing of hierarchy, in fact, whether in ancient times or in modern times, whether in foreign countries or at home, it exists and has never died out.

This is especially true in this kind of officialdom where the system is clearly hierarchical, and in the circle of dudes who have close ties with the officialdom.

Although Ji Feng was a bit younger than all of them, he was the core figure of the third generation of the Ji family, and if there was no need, people did not need to sit with them for dinner at all, let alone drink so readily.

Now was the best example, once Ji Feng sat down here, they suddenly had a backbone in their hearts, and when they faced those little yakuza from the Wu family again, they dared to play, it had nothing to do with age.

"Young Ji, I'll drink this cup, make yourself at home." Wang Min picked up his glass again and tilted his head and drank it down.

“Yes, count me in too, just make yourself at home, young Ji.” Yu Hui also tilted his head and drank another glass.

By doing so, they actually had the meaning of showing their loyalty, only that in this circle, they were considered to be dignified figures, so they didn’t show it so obviously, nor would they be so flattering and blatant.

Ji Feng naturally understood their meaning and laughed: “To say this is out of place, we are all friends

He said, he also tilted his head and drank another cup, Wang Min and Yu Hui looked at each other, both slightly excited, Ji Feng will drink this cup of wine, it is tantamount to approve of them, this is naturally worth happy.

“Ha!”

Ji Shaojun said next to him, “Don’t just drink, this dish is quite good

“Yes, yes, yes, eat more

Some words to the point will do, so next they all did not say these things again, but pull some irrelevant topics, or Ji Shaojun three people said some Yanjing circle of strange news fun, Ji Feng face with a smile in listening.

And then, it came to the purpose of Ji Feng’s visit to Yanjing.

Ji Shaojun said: “I see ah, if the freight company is regular, escorting the car and trustworthy, then either the seller’s side of the problem, deliberately given some problematic goods, or, most likely, the local traffic police and industry and commerce department people tight hand again, want to get some extra money to spend

Campus Master Chapter 2269

Ji Shaojun said: “I look at ah, if the freight company is regular, escorting the car and trustworthy, then either the seller’s side of the problem, deliberately given some problematic goods, either, it is likely that the local traffic police and industry and commerce department people tight hand, want to get some extra money to spend

“Exactly!”

Wang Min said: “This kind of thing is not new, especially in the suburbs of Yanjing and the periphery of some regional sections, the traffic police is specialized in eating this bowl of rice, only in the past many car owners are familiar with the local traffic police mix, when passing the car will bring a few cigarettes, back and forth will also bring some specialties, considered filial piety... ..”

The so-called filial respect is actually to buy road money.

Ji Feng said, “Is that so? Since that freight company often runs this route, that means they must have gotten acquainted with the local traffic police, but why did something happen this time?”

According to what Qin Shujie said, the reason why the traffic police department had to impound the car was because it was overloaded.

In fact, if it was only overloaded, at most it would be a fine, and the freight company would send another car to divert the goods, this kind of thing actually happens a lot, and it is reasonable to say that the car would not be impounded.

But in addition to the traffic police department, there are also people from the industry and commerce department involved in it.

Moreover, the reason given by the business department was very vague – there was something wrong with the goods. As for what the problem was, they didn't say, and Qin Shujie didn't get an answer even after asking, otherwise, she wouldn't have been so worried and even had to make a personal trip to Yanjing.

"That's strange!" Ji Shaojun was a little surprised and turned his head to ask Wang Min, saying, "Old Wang, you are most familiar with these pathways, what do you think is going on?"

"..... can't say."

Wang Min deliberated for a moment, or shook his head, "How to say, listen to Ji Shao's words, the traffic police side is not going to have any problems, because it's just a simple overload, and it's a freight company's car, generally speaking, it will not be impounded, unless it's the traffic police just against that freight company but generally not, because freight companies they have their own way of surviving, so how could they go against the traffic police?"

"Also, there's the business sector involved, which means it's likely that there really is a problem with the goods!" Wang Min said, "Usually if you want to make some extra money you are within a department, so it is convenient to operate, but now it is two departments that are involved at the same time I am afraid that there is really a problem with the goods."

Ji Feng's brow then furrowed, he turned his head to look, at the next table, Qin Shujie and Bai Zhu were eating while chatting in a small voice.

—Because Wang Min and Yu Hui were unknown to them, they were reluctant to come over at first, instead, the two of them were more comfortable together, and Ji Feng just let them be.

According to Qin Shujie, this time the transport of goods should be no problem, and other possibilities are also very small this moment, it is really not good to judge what exactly happened.

"Or else let's do this, I'll find someone to ask about the situation!" Wang Min said and took out his phone, ready to call someone, but was stopped by Ji Feng.

"No need."

Ji Feng waved his hand and said, "Anyway, it's all here now and the distance isn't far, so we'll just go over and ask after they go to work tomorrow."

Anyway, he had come this time to deal with this matter, so of course he had to go and ask about the situation personally, otherwise, in the future, maybe Qin Shujie would encounter this situation again when she was buying goods, which would be more troublesome.

Ji Shaojun said, "How about this, let Old Wang call his friend first, to find out what the situation is, and then tomorrow we can go there again, so we can also be prepared."

"Good." Ji Feng nodded his head.

"I'll make the call then." Wang Min stood up and went to the side to make a phone call.

It was only until this time that Ji Shaojun asked in a low voice, "Little Feng, those two beauties"

Ji Feng laughed, "Bai Zhu you've seen before, right? The other one is Qin Shujie, I've also introduced you to her just now"

"No, no, that's not what I meant." Ji Shaojun waved his hand and said, "What I mean is, that beautiful woman is your friend?"

Saying that, Ji Shaojun also winked, that is what means really self-explanatory.

Ji Feng laughed: "All right, drink!"

Ji Shaojun immediately understood, since Ji Feng digressed, that obviously means that he is the default, even if the two of them do not have a substantial relationship now, Ji Feng must have that kind of idea.

However, Ji Shaojun is guessing that I am afraid that Ji Feng and this woman called Qin Shujie, have already been together, just now Qin Shujie look at Ji Feng that kind of look, Ji Shaojun is very familiar with, in the past those he hooked coaxed dizzy little stars, when looking at him also that kind of look.

Understanding this, Ji Shaojun also knew how to do things next, so he smiled and said, "Okay, drink and drink!"

Not long after, Wang Min came back, "I have asked my friend to inquire, I guess there will be results later."

Ji Feng smiled and nodded, "Hard work."

Wang Min then smiled and waved his hand.

After drinking and eating, Ji Shaojun and the three of them didn't leave, but stayed directly at the hotel Ji Feng had booked.

Ji Feng, on the other hand, opened three rooms, with Bai Zhu around, it was really not good for him to stay with Qin Shujie.

It was late at night.

After Ji Feng washed up, he lay down on the bed and his consciousness entered the training space of his intelligent brain and continued to study the lessons he had set before. Although it was easy for Ji Feng to remember these lessons, there was still a process to fully understand and learn them.

In the training space of the wise brain, it was undoubtedly the best place to concentrate and the most efficient.

He didn't know how long had passed, but Ji Feng suddenly heard a subtle movement, and he reacted abruptly to the fact that it was coming from outside.

At this time the voice of the intelligent brain also rang out, “Master, someone from outside is approaching

Ji Feng immediately exited from the training space, but saw that the door of the room had been opened, then a figure pushed the door and walked in, it was Qin Shujie.

Even though it was in the dark and Ji Feng did not activate his bio-current to use his perspective function, he recognized Qin Shujie just by her figure.

Ji Feng secretly shook his head and smiled, and did not make a sound. He saw Qin Shujie very gently close the door, then gently came to the bed, lifted the thin blanket and burrowed in.

“Ah!”

Suddenly, Qin Shujie just felt a pair of big hands wrapping her body around her, and she immediately let out a low cry of shock, “You, you’re not asleep?”

Ji Feng hugged her from behind and said with a low bad laugh, “With such a living beauty running into my bed, how could I possibly fall asleep?”

“Then you kept quiet just now, aren’t you afraid that a bad person has come in?” Qin Shujie snapped.

“If all the bad guys who come in are as charming and beautiful as you are, I’d love to have a few more.” Ji Feng laughed.

“Nasty mmm” Qin Shujie’s angry voice sounded low, and then she whimpered, her round earlobe being kissed by Ji Feng, making her unable to help her body go soft and hot.

“You hate this?” Ji Feng asked with a bad smile.

“.....” Qin Shujie didn’t say anything.

“If you don’t like it, then I’ll just hold you and sleep”

“Nasty.”

Qin Shujie pouted, “Why do you have to make me say it!”

Ji Feng smiled wickedly, “If you don’t say it out, how will I know what you want to do?”

“Nasty!”

Qin Shujie snapped, “Then I’m leaving Well”

Before she could even finish her words, the next moment she was pressed underneath Ji Feng and kissed her mouth, blocking out the rest of her words.

Qin Shujie’s lips were very soft, especially the lilac tongue was extraordinarily tender and smooth, making Ji Feng extraordinarily enjoyable, while Qin Shujie was likewise kissed all over, and one hand couldn’t help but wrap around Ji Feng’s neck

The only thing that was left between the two of them was the sound of rustling clothes, which disappeared without a trace.

The first thing you need to do is to get a good idea of what you are getting into.

Nectar flowed, limbs intertwined, snapping body slams, all of which filled the room's night with a strong sense of spring

I don't know how long it took, but Qin Shujie, who had already spent countless times at the peak of pleasure, felt Ji Feng's speed getting faster and faster when she hugged him tightly.

A low whisper: "Give me I want to give you a child"

..... There were only gasps left in the room, Qin Shujie was lying on the bed, her body was limp, without a trace of strength, if there was light you could see that at this moment she was naked, that tender white skin was flushed with flush, a pair of beautiful eyes were even more confused, the whole person was full of mature style, it was really moving.

Ji Feng embraced her and did not say anything. The warmth of this moment was the most cozy for Qin Shujie, and it was also the easiest for her to be satisfied.

It was only after ten minutes that Qin Shujie let out a long breath: "Phew~~"

And then, she was about to get up.

Ji Feng said, "I'll help you clean up"

"I'll go back to my room and clean up myself." Qin Shujie was still a bit shy.

"You're going back?" Ji Feng was but slightly stunned.

"Yes!"

Qin Shujie laughed lightly, "If I stay here overnight, then when I get up tomorrow morning, Bai Zhu will be uncomfortable in her heart, and I can't hog you all by myself."

Ji Feng: "..... you know about my relationship with her?"

Qin Shujie said, "I'm also a woman, of course I can see what the way she looks at you represents."

Campus Master Chapter 2270

Ji Feng: "..... You know about my relationship with her?"

Qin Shujie said, "I'm also a woman, of course I can see what the way she looks at you represents."

Ji Feng was stunned.

Qin Shujie said, "Although you didn't say anything about your relationship with Bai Zhu, the way she looked at you on this journey was clear to me, a woman who likes a man can't hide it no matter what, even if Bai Zhu doesn't say much, her demeanor is telling others unmistakably that she likes you."

"And what about you"

Qin Shujie paused and said, "When you opened three rooms during your stay, were you just afraid that Tong Lei and Xiao Yuxuan would know about our relationship? I don't think it's that bad, right?"

Ji Feng couldn't help but smile bitterly, "You're really observing carefully."

"That's because you're my man." Qin Shujie said, "A woman's mind is something you wouldn't understand."

"Hehe"

Ji Feng shook his head and laughed bitterly.

Qin Shujie suddenly smiled and said gently, "Well, I'm just saying it, it's not like I blame you, besides" actually I didn't think from the beginning that I wanted to dominate you alone, this situation I also expected a long time ago, I've said it before, you can come over occasionally to see me and Yao Yao, I'm already satisfied."

Ji Feng couldn't help but let out a soft sigh in his heart and embraced Qin Shujie in his arms again, saying, "I'm sorry for your aggravation."

Qin Shujie laughed, "What's so aggravating about it, on the contrary, I actually feel very happy."

Ji Feng then shook his head with a bitter smile, how Qin Shujie's words sounded a bit tongue-in-cheek.

"You don't believe it, huh?"

"It's not that I don't believe it, I just think your words are somewhat"

"A bit false?"

Qin Shujie asked, "Do you think the vast majority of women are selfish and want to be alone to enjoy the care of men and not allow other women to share?"

Ji Feng asked, "Isn't that so?"

"Yes!"

Qin Shujie nodded her head and said.

Ji Feng shook his head and said, "Then you just said"

"I just said the vast majority of women, I didn't say all women." Qin Shujie said, "Actually, if it was a year or two ago, I would definitely think the same way, and I might still be a little uncomfortable in my heart, but after experiencing some things, I realized that it's actually good enough to get a man's sincere love, too much extravagant hope, instead of ending up disappointed... .."

For Qin Shujie, in fact, life was really good enough now. Especially compared to her beastly ex-husband, Ji Feng was just too much better" No, I should say, one should not even compare the two together.

Because"

that person doesn't deserve it!

And after experiencing the previous things, Qin Shujie instead looked away, now Ji Feng loved her and loved Yaoyao even more, and Yaoyao also loved Ji Feng, and they were both in Jiangzhou and could see each other often, what could be better than that?

Qin Shujie was content with this way of life, while she was not so strongly jealous of Ji Feng's other women, because Qin Shujie cherished her current life, she would not let anything spoil this happiness that she had so easily attained, let alone give herself a hard time.

It's just that if these thoughts were placed on ordinary women they would definitely not agree with them, and Qin Shujie understands this, and even when she talked about this matter with a close girlfriend, her best friend disapproved of it, and even said that she was out of her mind, how could she think of being nameless and without a man.

Because with Qin Shujie's looks and her wealth, it would be really easy to find a high quality man, it's not like all the men in this world are dead, why do you have to hang on to a tree?

This is the original statement of Qin Shujie's best friend.

But Qin Shujie knew in her own heart that she was not hanging on a tree, but she was really willing to hang on this tree willingly, because Ji Feng was sincere to her, and if she continued to look, all those men would definitely come for her looks and wealth.

Even if there is a man who really likes her, who is to say that his liking is not even slightly related to her looks and wealth?

Besides, Qin Shujie also liked Ji Feng, and they were completely in love with each other, so where could she find such a person?

So Qin Shujie thought very clearly, and she was also very sensible.

However, she did not explain these words to her best friend, because some things may not be explained clearly even if they are explained, because people think differently and no one can fully understand other people's feelings.

Qin Shujie just kept this feeling of happiness in her heart.

"Alright, I should go now." Qin Shujie stood up, "I still have things to do tomorrow, I won't be refreshed if I sleep too late."

"Mm."

Ji Feng didn't say anything else, he wanted to say sorry to Qin Shujie, but he felt it was too fake to say that, he wanted to promise Qin Shujie something, but he couldn't promise anything, because he really couldn't give Qin Shujie any promises right now.

Therefore, watching Qin Shujie leave the room, the moment she closed the door, she even gave him a playful kiss, Ji Feng could only shake his head and smile bitterly, this emotional debt, he really owed more and more.

The most difficult thing to repay is also the love debt!

This night, Ji Feng rarely slept until after four in the morning, but after only less than an hour, he habitually woke up again.

For the first time, Ji Feng hated his fixed and stubborn biological clock, because by careful calculation, he had slept for less than an hour this night!

Although this was not a problem for Ji Feng, with his physique, he could stay up for a few more nights without any problem, but in order to keep his energy up, Ji Feng did not get up after waking up, but practiced aerobics for nearly two hours before getting out of bed to wash up.

When Ji Feng saw Bai Zhu, he looked at her carefully, but did not find anything unusual on her face.

But Ji Feng's heart was somewhat muttered, Bai Zhu's room was next door to his, although the sound insulation of the hotel room was not bad, but last night Qin Shujie's soul-crushing moans were not deliberately suppressed, with Bai Zhu's ear power, did she really not hear it?

But Bai Zhu was acting very normal, no different from usual, so Ji Feng could only suppress this doubt in his heart.

He couldn't just ask Bai Zhu, "Did you hear Qin Shujie's screams last night?"

"Young Ji."

Wang Min's three voices pulled Ji Feng's thoughts back to reality.

Ji Feng smiled and said, "Up? Have a seat."

Ji Shaojun sat down with their respective breakfasts and before they started eating, Wang Min said, "Ji Shao, I've inquired about things, my friend gave me news in the middle of the night last night, but because it was too late so I didn't bother you"

Ji Feng smiled and nodded, saying, "It's okay, it's not very urgent anyway, tell us the specifics, what did your friend inquire about?"

It's already great that people are able to help out so hard, and Ji Feng naturally won't blame them for such a trivial matter.

Wang Min said, "There are some twists and turns, my friend said that the traffic police captain next to him is new, and the new official has three fires in office, so during this period of time, there are more stringent checks on passing vehicle violations, and the car responsible for transporting goods to Ms. Qin was indeed overloaded, so it was impounded."

Ji Feng nodded slightly, overloading was directly impounded, it turned out that he had met the newly appointed brigadier, which was no wonder.

"What about the industrial and commercial side?" Ji Feng asked.

"The industrial and commercial side" Wang Min was a little hesitant, said: "did not inquire clearly, my friend said, this matter industrial and commercial departments do not disclose to the public, they seem to be very sensitive to this matter, mentioned are not willing to say more."

"Why, what else is confidential?" Ji Feng asked.

“What confidential, I think it’s more like there’s something fishy.” Ji Shaojun said, “Old Wang later asked someone to inquire again, looking for a deputy director of the industrial and commercial branch who was not involved in this operation, it is said that this time it was another deputy director who made it happen, and there is more than just the General Manager Qin who encountered this situation

Ji Feng frowned: “Speak more clearly.”

Ji Shaojun said, “This means that there is a deputy director in that industrial and commercial branch, I’m afraid that he wants to get some extra money or has some other purpose, so he made such a play, and the one who encountered trouble is not only Mr. Qin, there are also many other passing vehicles that were detained in the traffic police.”

Ji Feng’s eyebrows instantly furrowed, the matter was almost understood when it was said here, it was obvious that this was the infallible way for some authority departments to make extra money.

If they say you have a problem, you have to have a problem, and if you don’t, you do!

Anyway, there is only one purpose – to get money!

Ji Feng asked in a deep voice: “The other impounded vehicles, how many are there in total?”

Ji Shaojun then looked at Wang Min, who hurriedly said, “I’m not too sure, I just know a rough number, there are almost dozens of them, my friend said that there are dozens of big trucks parked in the car park

“They are so screwed up, are they not afraid of losing a big mess?” Ji Feng frowned, dozens of big lorries, even if the top pull all the scrap metal that is worth a lot of money ah, these car owners and owners of goods will be obedient to pay money?

“They’re not afraid.” Wang Min said, “As long as these cars still want to run transport, as long as they still want to pass through the area under their jurisdiction, then they have to be obedient and pay, otherwise, in the future, if they pass through again, then the trouble will be continuous, business people, all want to spend money to buy peace, as long as they can settle things, no one wants to make trouble.”

Ji Feng slowly nodded and said, “That’s true

these masters hold the power in their hands and are powerful!”
