

Campus Master 2291

The four men, in just a few seconds, were all knocked down by Ji Feng.

Moreover, there was not a single one of these four men who did not carry injuries.

It could be seen that these four men should all be highly trained soldiers, they had strong combat experience and skills, and every move they made was almost a ruthless combat move, once they were hit, they would either die or be injured, extremely ruthless.

But these four men were so unbearable in front of Ji Feng.

Even, if Ji Feng had not talked to them from the beginning and had come up with the most severe attack, then it was conceivable that these four men would not even have time to react and would have been knocked down, or perhaps even killed.

But looking at Ji Feng, he didn't even mess up his hair, and even those four people didn't even touch the corner of his clothes, they were defeated just like that, cleanly, ruthlessly and harshly making people's backs chill a little!

“.....”

These were the feelings of the other two young men standing outside the interrogation room door, after seeing this scene.

From the dress of these two people, it could be seen that they and the four people who had entered the interrogation room before should be together, which could be seen from their dressing and the aura they carried.

But

The two looked at each other, but no one said a word more.

The scene they had just witnessed had left them a little shaken.

They still knew those four companions of theirs very well, and they naturally knew very well how strong those four companions were, especially, those two later companions still joined hands to launch an attack on Ji Feng at the same time, but the result was surprisingly not much different.

In this way, these two people indirectly understood Ji Feng's strength.

—they were no match for Ji Feng!

Although they were unwilling to admit it in their hearts, it was true, and they had to admit that even if the two of them also joined hands now, they were also no match for Ji Feng.

“Boom~!”

Just then, Ji Feng kicked away the guy who was holding his leg on the ground and gritting his teeth, then directly pulled the door of the interrogation room completely open, and those two people standing outside were completely face to face with Ji Feng at once.

Ji Feng looked at them, frowned and asked in a deep voice, "What, are you guys going to come in and do it too? Or have you decided to do it right here?"

The two guards looked at each other, gritted their teeth, and turned around at the same time and left.

They were no match for Ji Feng, the two sides were not even in the same weight class, even if they stayed and fought with Ji Feng it would only be a show of strength, it would not make any difference to the outcome at all.

So the two of them decisively retreated, not to escape, but to protect themselves, and also to inform their own people of the extent of Ji Feng's power.

This time, the mission had failed!

"Wait!"

However, before they could take a few steps, Ji Feng suddenly called out to them.

The two turned back at the same time, looking rather wary – it was really because, in their eyes, Ji Feng was so dangerous that it almost stirred their instincts.

Ji Feng, however, acted as if he didn't see their movements, and just pointed inside the interrogation room, saying: "Go back and tell the person who sent you here that I'll be waiting for him here, I'd like to see just how capable he is and how bold he is! If he can't, he'd better not pull this stunt, or this won't be over today!"

Those two young men couldn't help but glance at each other once again, how could they hear the meaning of Ji Feng's words, he knew exactly who he and the others were sent by?

"Go on!"

Ji Feng didn't wait for any reaction from them before he directly waved his hand and said, "Since you guys have voluntarily given up on the operation, then I won't make things difficult for you!"

As soon as the two heard that, their faces were not too good.

This was clearly saying that it was Ji Feng who had let them leave, which more or less had the feeling of retreating without a fight.

But there was no way, Ji Feng's strength was there, so even if they were uncomfortable, they could only grit their teeth and leave.

Looking at the backs of the two leaving, Ji Feng couldn't help but sneer. Of course, he wasn't aiming at these two young men who had retreated, but he was laughing at certain people from the Wu family.

No matter who sent these few people, whether it was Wu Zhengxin or someone else from the Wu family, this person's pattern was too small.

Just because Wu Zhicheng's leg was stepped on by him, he now wants to send someone to break his leg
.....

In fact, this is understandable, if it were Ji Feng, his friends or his relatives were bullied by others, then in a fit of anger, he might equally bully back.

A tooth for a tooth, blood for blood!

But the ridiculous thing is that this Wu family's people sent the police to arrest themselves in order to be able to avenge Wu Zhicheng, which is just as well. If the Wu family had reported the case normally, then naturally the police would not have violated the procedures and regulations.

But the problem was that after the police had brought him to the police station in accordance with the rules, several people who did not belong to the police station appeared to lynch him.

This time, not only is the person in charge of the police force heavily responsible, but even the Wu family members who instructed the police to do this will also be implicated.

If you dare to lynch a soldier in the interrogation room, then I dare to deliberately 'let' a few killers in to finish you off in the interrogation room!

If that were to happen, then the whole circle would be in disarray, and even the whole class would be on tenterhooks.

So this kind of behaviour could be said to be a violation of some unwritten rules.

Even if Wu Zhengmin came, I'm afraid he wouldn't be able to say anything.

The company's main business is to provide a wide range of products and services to the market.

The company's main goal is to provide the best possible service to its customers.

The first thing you need to do is to get the police to help you with the investigation and send the soldiers to lynch you.

The reason is that he is the only one in the Wu family who has such a deep hatred for himself that he has to break his own leg – because his son Wu Zhicheng's leg was trampled off!

As for the others

In fact, both Wu Zhiyong and Wu Zhengmin could have, because the Wu family must have blamed themselves for Wu Zhihe's death.

But the problem is, since they can endure for so long, naturally they are not to make a move on themselves in this situation, this will not only fail to take revenge, but will also put the Wu family in a passive position, this is too stupid!

So Ji Feng deduced that this person behind the curtain must be Wu Zhengxin.

"The oldest of the Wu family"

Ji Feng shook his head and smiled, smacking his lips, "He can also be considered as the second generation of the Wu family? This ability"

This action of Wu Zhengxin, I'm afraid that is outstanding some of the younger characters, I'm afraid are more beautiful than he did, Wu Zhengxin this is simply obedient to send the handle to their own hands,

this kind of thing, in addition to children can do it, Ji Feng really can not think of anyone else can do such a stupid thing!

This Wu Zhengxin, I'm afraid, is even worse than his son, but he is quite similar to Wu Zhihe, that two-hundred-footer!

Ji Feng couldn't help but shake his head and sneer: "With this kind of mind and wisdom, you also want to take it out for your son?"

.....

At the same time, the main character who was given such a low rating by Ji Feng was sitting in the office of the police chief, his face was blue, smoking one cigarette after another, and the ashtray on the coffee table to his left was already full of cigarette butts.

This is the meeting area of the office, and further in, there is a desk, except that the papers on it are scattered on the table and look very messy.

Next door to Wu Zhengxin, there was a middle-aged man with a somewhat obese figure sitting there, still wearing his police uniform, this man was none other than the chief of this police precinct, and at this moment he was accompanying a smiling face, not daring to mind in the least that Wu Zhengxin had slapped his desk at him earlier, even making a mess of the documents he had just tidied up.

"Commissioner Wu, how should this matter be handled, you give a precise word, or let me have a bottom in my heart, what do you think?" The obese police chief said with a smile.

"How to deal with it?!"

Wu Zhengxin grunted and said angrily, "That little beast deliberately injured people, now my son is still lying in the operating room of the hospital, there may be an accident at any time Now it is already a serious injury, that little beast is guilty of deliberate injury, he must be sentenced!"

The obese director known as Lao Liu hesitantly said, "In that case, then why don't we simply go through the judicial process, those brothers you just sent over there are"

Wu Zhengxin bared his teeth, "That little beast beat my son into that state, how can I let him off so lightly? He broke my son's legs, I will break his legs too!"

Director Liu's face suddenly changed and he said in a panic, "This Director Wu, but if we do this, won't we be giving someone the blame? If the other side pursues the matter, we will be very passive, and even if we are justified then we will end up being unjustified!"

"Humph! To give someone the blame?" Wu Zhengxin sneered, "That would only work if that little beast had the hands to grab that handle! Does he have that ability?"

"....."

Director Liu opened his mouth to say something, but he didn't know what to say, but in the end he wanted to say something but stopped.

Wu Zhengxin seemed to see Director Liu's hesitation and could not help but say, "Old Liu, don't worry, the people I sent there are all carefully selected, that little brute wants to catch them in the act, don't even think about it! As for the sudden accident in the police station, when the time comes, there will be a perfectly good excuse"

"Report!"

Before Wu Zhengxin could finish his words, he suddenly heard a loud voice coming from the doorway.

"Coming!"

Wu Zhengxin instantly had a smile on his face and excitedly patted Chief Liu's shoulder, saying, "Looks like they finished the job Come in!"

Campus Master Chapter 2292

"Zee...!"

As Wu Zhengxin's voice fell, the door of the office room was opened and two young men walked in.

Swish!

The two gave a salute to Wu Zhengxin at the same time.

Before they could say anything, Wu Zhengxin asked impatiently, "Did you complete the task I gave you? How about that little beast, did you not break his legs without breaking them?"

"....."

Those two young men opened their mouths and looked at each other again, but they did not know how to answer Wu Zhengxin.

Looking at Wu Zhengxin's excited look, as well as the look of understanding hatred in their eyes, the two really did not know how to open their mouths to tell the truth.

"What's wrong, why don't you say anything?!" Seeing these two young men standing dumbfounded at the door, Wu Zhengxin couldn't help but frown, "You two, I'm asking you, is the mission completed!"

"Chief"

One of the young men was a little hesitant and slowly spoke, "I'm sorry chief, we didn't complete our mission!"

As soon as he said this, Wu Zhengxin immediately stared up, "Not completed? What happened? By the way, how come there are only you two, where are the others?"

"The others" the young man said hesitantly, "The others were all injured and are still lying in the interrogation room!"

"What do you mean?!" Wu Zhengxin was so astonished that he almost jumped up, "The others have been injured? There are six of you, so many of you together still can't beat that little beast alone?"

"I'm sorry, chief." The young man was a little ashamed, "We're no match for the target."

“Nonsense!”

Wu Zhengxin shouted angrily, the excitement and anticipation on his face had long since disappeared, replaced by anger, “Which one of you is not specially trained? Seven or eight ordinary people couldn’t even get close to you, and now the six of you together can’t even beat one little beast? Even just the two of you are back?!”

“Chief, the target is extraordinarily strong, extremely fast, and his strikes are even more ruthless and severe, we are no match for him.” The young man simply said honestly.

“You guys

Wu Zhengxin’s face turned red with anger, pointing at those two people and unable to speak.

The two men, however, were of that honest and wooden character, and could not say anything fancy to explain, perhaps because of their military character and habits, they were even less likely to embellish their failures, so they just stood there with their heads down and let Wu Zhengxin criticise them.

Repeatedly, they would only say, “Sorry, chief, it’s us who failed to complete the mission

But other than that, they had no explanation whatsoever.

This made Wu Zhengxin even more furious, his mouth began to swear, the whole person is even more shocked and manic, if it is not Director Liu saw the situation hurriedly took the ashtray on the coffee table to the bottom, I’m afraid he would have grabbed it and smashed it.

“How is this possible, how is this possible? Ah?!” Wu Zhengxin was furious, he had been waiting with great expectation for the guards to bring him good caution, and was even confident about it, because these guards were carefully selected by him, and they were all first class, even among the guards at home, they were all very prominent.

It was precisely for this reason that Wu Zhengxin brought them here. If they were inferior, Wu Zhengxin would not have brought them here yet.

Although Wu Zhengxin was impulsive and short-tempered, he knew that Ji Feng’s strength was also very strong.

As the third master of the Wu family, he could naturally grasp a lot of information that others did not know, for example, he knew that Ji Feng had fought with reformers and had suffered several attacks, but in the end, instead of dying, he had even killed quite a few people on the other side and so on and so forth.

Therefore, Wu Zhengxin also knew that Ji Feng was very strong, and that was why he had deliberately selected these six more outstanding guards.

However, he did not expect that even so, these six guards still failed to complete their mission, and even, four of them were injured and are still lying in the interrogation room.

“How is that little brute?” Wu Zhengxin asked angrily.

“He

The two young men's faces were not looking good, "Our attack did not cause him any half damage, he is intact"

When they said this, they both couldn't help but feel a little embarrassed.

To say the least, they were guards that had undergone long and rigorous training, so they always had a sense of superiority in their vision, and they simply could not look at ordinary masters.

When they came here, they knew that Wu Zhengxin had asked all six of them to deal with a young man, but they were a bit dismayed, thinking that it would be an insult to themselves if all six of them went together.

But the result

"What are you talking about?" Wu Zhengxin's eyes widened once again, "Six of you, four of you were injured, and that little beast didn't do anything at all? What the hell are you guys doing for food?"

"....."

The two just stood there with their heads bowed and did not retort, allowing Wu Zhengxin to criticize and reprimand them.

Wu Zhengxin was furious, when he thought that he had come over to settle the score with Ji Feng in an aggressive manner, but in the end, instead of teaching Ji Feng a lesson, they had lost most of their own men, which was a resounding slap in the face to Wu Zhengxin, making him extremely annoyed!

However, who would have thought that the news that these two guys told him would make him angrier than one.

At the end of the day, Wu Zhengxin's hands were trembling with anger, and the fingers holding his cigarette could not help but tremble, so much so that he did not even notice that the cigarette had fallen to the ground.

"I ask you, since all four of them were injured, how come you two are not hurt at all?" Wu Zhengxin asked through clenched teeth.

"..... We are no match for the target." One of the young men said, "That's why we didn't make a move."

"Then what did you guys come back for? Isn't that what you guys always talk about, saying that obeying orders is your natural duty, and this is how you obey orders?" Wu Zhengxin yelled, "Also, since your comrades were injured, what did you two come back for? Just leave them behind?"

One of the young men couldn't help but say, "Chief, we're here to ask your permission to let us use our weapons!"

Wu Zhengxin was stunned, "Use weapons?"

"Yes!"

The young man said, "Chief, the target is too strong, if we don't use weapons, we are definitely no match for him"

Wu Zhengxin couldn't help but feel moved, "If you use weapons, can you guarantee to break his legs?"

The two young men nodded their heads at the same time, "Yes!"

"Good!"

Wu Zhengxin instantly stomped his foot and said, "I give you permission to use weapons"

"Commissioner Wu!"

As soon as Wu Zhengxin opened his mouth, that Director Liu hurriedly interrupted him and said, "Director Wu, think twice, using weapons here, the consequences are really too serious!"

Chief Liu immediately got nervous, he was originally from the Wu family's line, and Wu Zhengxin had even come personally, so of course he had to give full face, so even when Wu Zhengxin sent someone to the interrogation room to teach Ji Feng a lesson, he didn't say anything.

But now he couldn't keep his mouth shut!

Because Wu Zhengxin actually wanted to use weapons, this was of a completely different nature!

If sending a few guards to the interrogation room to teach Ji Feng a lesson was only intentional injury, then once weapons were used, it would be tantamount to murder.

Wu Zhengxin, however, grunted, "What are you afraid of? It's just breaking that little brute's legs, it won't kill him! Humph! How he beat up my son, I'll make him pay back ten times a hundred!"

With that, he said to the two young men, "Go! I don't care what method you use, you must break that little beast's legs! Immediately!"

"Yes!"

The two young men immediately answered.

Even if Wu Zhengxin was the third master of the Wu family, the young master in the interrogation room was the eldest grandson of the Ji family, whose status and position was no less than Wu Zhengxin's!

The consequences of this

The first thing you need to do is to take a look at the situation.

Wu Zhengxin immediately said angrily, "No! I can't wait one more minute, my son is still in the hospital's operating room, I have to help him out before the results of my son's operation are known!"

My dear mother!

Director Liu was so anxious that he was almost jumping up and down, how could this Third Master Wu be so impulsive?

This kind of thing is too bad, and the consequences are too serious!

Director Liu's legs were a little weak as he anxiously said, "Director Wu, you're really putting me in a difficult position by doing this"

“Swish!”

Wu Zhengxin snapped his head back and said in an unkind tone, “What, are you Big Director Liu afraid?”

Chief Liu laughed bitterly, “Of course not, it’s just that this matter is really

“All right! You don’t have to say anything!” Wu Zhengxin sneered, “How about this, since you’re afraid, then I’ll solve this matter myself and definitely not drag you into it!”

“..... Can you not get involved! The matter happened in my police station, even if there is any problem then I absolutely can’t get away with it!” Director Liu heart bitter smile, the mouth is said: “Director Wu you misunderstood how about this, we go over to see, if there is really any accident, or improvise

“Humph!”

Wu Zhengxin hummed, without saying a word stepped outside.

The director Liu heart anxious incomparable, see Wu Zhengxin has gone out, he hurriedly ran out to call a police officer: “You immediately call people up, at the same time arrange for first aid

Subsequently, Chief Liu then hurried towards the trial, his legs were a little weak as he ran Today this is going to be a big deal ah!

Campus Master Chapter 2293

In the interrogation room, Ji Feng sat on the interrogation chair, waiting somewhat bored. On the ground in front of him were four young men who had been injured.

Regarding the injuries of these four people, Ji Feng didn’t even look at them, because he naturally knew very well what he had done himself, and the injuries these four people had suffered were all external, not enough to be fatal at all.

This was still Ji Feng’s mercy on account of the fact that they were probably soldiers.

Otherwise, Ji Feng had countless ways to make them unable to stand up for the rest of their lives, and even if they were cured, they could only spend the rest of their lives in wheelchairs, or even in bed.

But after all, these people were only acting under orders, so Ji Feng was extremely annoyed at their indiscriminate and ruthless behaviour, but he was still careful when he did it.

Speaking of which, Ji Feng was really annoyed and somewhat helpless towards them.

These four people were obviously only instructed by the Wu family, and there was no enmity between Ji Feng and them, but they came up and laid a vicious hand, looking at that look like they totally wanted to break their legs, or even to be seriously injured

In this situation, Ji Feng must fight back, he definitely will not sit back and wait for death just because he has a good feeling about soldiers, the two sides are destined to be hostile because of their different positions.

But having said that, these four men are also very hard-headed.

For example, at this moment they were all wounded, and their bones were broken, a pain that anyone who has ever broken a bone can experience, a pain that is absolutely heartbreaking.

Although their foreheads were covered in cold sweat and their faces were pale from the pain, they didn't even groan, they just gritted their teeth and held on.

This hard-hearted style also made Ji Feng not interested in teaching them a lesson, and he didn't even want to lecture them.

These people knew what they were doing and, moreover, they were willing to suffer the consequences of doing something wrong, which was much better than many people who dared not do anything!

"Ding"

As he was thinking, the phone suddenly rang.

Ji Feng took out his phone and found that it was his little uncle's number, he immediately picked up the phone, "Little Uncle"

"How's the situation? Are you alright?" As soon as the phone was connected, Ji Zhenping's voice came through, "I'll be right over here."

"I'm fine!"

Ji Feng laughed, "Certain people wanted to send someone to teach me a lesson and seemed to want to break my legs, but the people were all dispatched by me, I guess, someone will definitely not be willing to do that, there is still a great drama to be played out next!"

Ji Zhenping hummed, "I think he, Wu Zhengxin, is simply rampant, he actually wants to break your legs? Wait, I'll be there soon, I'd like to see if he dares to beat me up too!"

After saying that, Ji Zhenping dropped a sentence: "Be careful, don't fight hard against each other!"

And then he hung up the phone.

Ji Feng shook his head and smiled, his little uncle was right in saying that Wu Zhengxin was indeed rampant.

In the case of knowing his identity, Wu Zhengxin actually dared to act so recklessly, this is simply not putting the Ji family in the eyes, he is doing whatever he wants to do, what is this if not arrogance?

As for talking about a hard fight with the other party

"Stomp stomp stomp stomp" Suddenly, a sound of footsteps interrupted Ji Feng's thoughts, and his eyes instantly narrowed slightly.

"Where's that little beast?!" Ji Feng clearly heard a low roar.

"It's in the interrogation room in front!"

"Go!"

.....

With a cold snort, only to see two young men entering the interrogation room, these two were no other than the two men who had decisively retreated earlier.

Looking at them, Ji Feng raised an eyebrow and asked, "What, still have to come again no?!"

Those two young men, however, did not say a word and just stared at Ji Feng coldly.

Ji Feng's eyebrows furrowed and he said in a cold voice, "Still want to make a move? Then go ahead and let your horse come, or else get lost!"

Those two young men glanced at each other, and one of them jerked forward and took an attack stance.

Ji Feng smiled and asked, "Just going out for a trip, have you suddenly become powerful? You should know very well that with just the two of you, you can't hurt me!"

"The two of us are indeed no match for you!"

At this moment, the young man standing behind suddenly spoke up as he fiercely pulled out a pistol from his waist and pointed it at Ji Feng, "But what if you add this?"

Ji Feng was slightly stunned and said, "What, now you don't want to break my legs, but want my life instead?!"

He hummed and said in a deep voice: "You are soldiers of China, but now you are pointing guns at me, do you think this is appropriate? Is this the skill you learned in the army?!"

The young man with the gun said, "We are also following orders!"

"Then there is no need to distinguish between right and wrong?" Ji Feng asked in a deep voice.

"Sorry, we only know that orders outweigh everything You better not move, or else I will definitely shoot!" The man saw Ji Feng's hand reach under the table and immediately said in a cold voice.

"Heh!"

Ji Feng shook his head and smiled, but his eyes could not see half a smile, but instead carried a touch of icy coldness, these two people actually dared to move their guns, which was somewhat unexpected, but not so much as to shock him.

What Ji Feng was really annoyed about was that Wu Zhengxin was so heartless.

"Since that's the case, there's nothing more to say!" Ji Feng slowly shook his head and said, "I'll just sit here and not move, if you two are capable, then let your horses come over, I'd like to see what you are capable of!"

"I'm sorry then!"

The young man in front steeply stepped forward and steeply kicked his right foot towards Ji Feng, his action was ruthless and harsh, and his speed was quite fast.

And at the same time, the moment this young man made his move, the young man standing at the door was steeply gripping the gun in his hand, pointing it straight at Ji Feng, believing that if Ji Feng dared to make the slightest move, he would immediately shoot him.

“Seeking death!”

Although Ji Feng sat there motionless, the cold light in his eyes was blazing.

“Boom~!”

The man ruthlessly kicked Ji Feng in the chest, and in that instant, both the young man with the gun and the one who did it couldn't help but subconsciously breathe a sigh of relief in their hearts.

—The thing they were most worried about was that Ji Feng would resist!

Because Ji Feng's body was too powerful!

However, as long as Ji Feng didn't make a move or resist, then it was useless even if he was powerful, because they had received special training and were completely aware of how powerful the kick was.

Especially when that young man kicked Ji Feng in the chest, this kick would definitely cause Ji Feng to have a steep chest tightness and a heavy blow to his heart, he would immediately be weak all over, although it didn't last long, but this was enough, because next Ji Feng couldn't fight back even if he wanted to.

So after kicking Ji Feng in the chest, that young man immediately afterwards intended to close his leg and go to break Ji Feng's leg As for the fact that Ji Feng sat there motionless, it was because this interrogation chair was originally fixed to the ground and could not be moved even if he wanted to.

“Eh?!”

However, the moment that young man was about to take his leg back, he suddenly found a strong force coming from his leg, and his ankle even seemed to be stuck in an iron vice, making it impossible for him to move

He was instantly startled, his left leg suddenly shot up and one foot jumped up from the ground wanting to cross kick Ji Feng's head, then as soon as he jumped up, he only felt a sudden burst of pain on his ankle and wrist, his body trembled twice in a completely uncontrollable manner and the movement on his left leg went out of shape.

“Snap!”

Ji Feng snapped his neck with one hand, and grabbed his ankle with the other hand, directly grabbing him horizontally.

This all happened in just a short moment, a completely lightning speed, and by the time the man standing at the doorway reacted, his companion was already held by Ji Feng.

Subconsciously, this man pulled the trigger violently.

“Boom~~!”

With a gunshot, a muffled sound was heard, and the young man with the gun froze.

Only to see that the target he was aiming at, but he didn't know when he was actually holding up his companion in front of him, the shot just now, but it hit his companion

“This

He froze for a moment, stunned beyond belief.

However, just at this time, Ji Feng was violently standing up and ruthlessly smashed that young man, a person weighing more than a hundred pounds was like a brick in his hand, his smashing out action was so lightly, but the speed was frighteningly fast.

“Peng~”

The young man with the gun simply had no time to dodge and was directly smashed to the ground by his companion, and the gun in his hand fell to who knows where.

Ji Feng’s expression was cold as he came to them in two steps, kicked the one who had been shot away, and looked at the young man with the gun coldly.

“.....”

The two were facing each other with four eyes, but there were no words, that young man saw a touch of killing intent in Ji Feng’s eyes, even though he had experienced an unknown amount of cruel training, but when he saw Ji Feng’s eyes, he still couldn’t help but shiver coldly!

“You want to kill me, don’t you?!” Ji Feng asked coldly.

“.....” The man opened his mouth, but no words came out.

The next moment, Ji Feng fiercely kicked him in the stomach, this kick Ji Feng had no reservations, except that he did not activate the bio-current, he used almost all the strength on his leg.

“Boom-!”

In a flash, the young man was kicked simply like a cannonball and shot out abruptly, spinning and hitting the wall.

“Boom!”

“Pah!”

He fell to the ground again, but his entire person had all but shriveled up, and blood even flowed out of his mouth

Just now Ji Feng’s kick, as well as his impact on the wall in such a fast manner, instantly made him seriously injured, his internal organs even suffered heavy injuries, and the bones in his body were not sure how many were broken

Campus Master Chapter 2294

“Uh cough

That young man was leaning close to the wall, his body curled into a ball, coughing from time to time, but when he coughed he couldn’t help but spurt out a mouthful of blood

Ji Feng's kick was really too vicious, that was a physically strong adult man, but under Ji Feng's foot he was no different from a light football ball, just one kick, that person was like a football ball directly kicked out.

This scene was really a bit shocking.

So for a moment, when the other injured people in the interrogation room saw this scene, they couldn't help but be stunned and didn't come back to their senses for a long time.

They even thought that they were hallucinating because of the excessive pain How could a person have that much strength?

It was astonishing how fast their companion had been kicked out – if someone could lift a grown man up and throw him, everyone believed that there were many strong people in the world.

But to kick with one's feet and to achieve that kind of speed was too much of a shock.

So for a while, when these six people looked at Ji Feng, there was a touch of shock and astonishment in their eyes, but more than that, there was fear and wariness.

In a place near the wall, a young man whose leg had been kicked off gritted his teeth and crawled over to flatten the young man with the gun, whose chest was now visibly sunken, and one could tell at a glance that his sternum and ribs had obviously been kicked off, and that it would be extremely dangerous to move him in such a situation.

The reason is that no one knows exactly which of his bones is broken, and if he moves rashly, in case the broken bone pierces some part of his internal organs, then the trouble will be even greater, and he may even die on the spot.

Ji Feng watched, but did not say anything, let alone stop, from the actions of these people he was able to conclude that these people were soldiers, like the man who took some first aid measures, it seems that only people in the army would use.

However, this would not affect Ji Feng's attitude.

He coldly swept over a few people, a cold light in his eyes and a murderous streak rising in his heart.

"It seems that the orders you have received are not just to break my legs, huh?" Ji Feng asked coldly, "Is it that after breaking my leg, you still have to slowly torture me? Or if I resist, you can take advantage of the opportunity to finish me off?"

Ji Feng's icy gaze swept over everyone present one by one.

"....."

However, not a single person answered him.

Ji Feng nodded his head and said, "Good! You're all heroes, you're all tough as nails It doesn't matter, I have plenty of time, I'd like to see who we can wear out in the end!"

Saying that, Ji Feng turned around and sat back on that chair, then casually yanked a young man closest to him with one hand.

“Well!”

Perhaps it was because the injury was touched, causing that young man to stifle a cry, but he gritted his teeth and looked at Ji Feng angrily, and insisted on not saying a word to beg for mercy.

Ji Feng didn't bother to talk nonsense to him, he just reached out and touched the back of his waist, gave him a cold look and fished out a short knife.

“Hoo~!” Ji Feng casually threw the young man out.

“Boom!”

The man was thrown to the ground, and the fall made him muffle a sound, and then there was an odd sound coming from his throat: “Well

The first thing you can do is to take a look at the short knife, and as expected, it is a military saber, and it is also the kind of multifunctional saber, if combined it is about as long as an adult's palm, Ji Feng simply looked at it, it has a blade, and a screwdriver, and quite a few other tools.

He couldn't help but give a few people a cold look, but he didn't know if it was their habit to carry around military knives or if they had deliberately brought them with them to deal with themselves.

But no matter what, it was a fact that they had just opened fire, which made the little goodwill Ji Feng had towards them entering the village disappear instantly without a trace.

People are going to kill you, how can you still have good feelings?

The moment the gunshots rang out, Ji Feng classified these people into the ranks of the enemy, no matter if they were soldiers or whatever, since they were enemies, there was nothing more to say, it was just one word – fight!

However, in order to be on the safe side, Ji Feng still activated the bio-current on his eyes and swept through the bodies of several other people one by one.

He wanted to make sure that the others were not also armed. If anyone had a gun on them, once they took advantage of their negligence and suddenly gave themselves a shot, the consequences would not be that fun.

Sabres!

Sabres

All of them were sabres!

Except for the young man with a gun, the others were all carrying sabres, and one of them was carrying a black thing as thick as a baby's arm, about twenty centimeters long, which looked like an iron bar, but didn't look like it when you looked closely, but Ji Feng could be sure it was definitely not a gun.

Ji Feng stood up, took all the weapons off these people and casually threw them onto the table, and immediately afterwards, he picked up the black thing with interest and studied it.

“What is this thing?” Ji Feng asked.

“.....”

No one answered, no one even looked at Ji Feng, because when Ji Feng searched for weapons from them just now, his movements were not very gentle, and now all of them were in pain with cold sweat on their foreheads, some of their bodies were trembling, and their faces were even whiter They were in pain, so how could they possibly bother to pay attention to Ji Feng?

Ji Feng did not care, he looked back and forth from side to side at the black ‘iron rod’, weighing in his hand is not light, but far from the iron rod heavy Suddenly, Ji Feng remembered something, he took the iron rod and flung it violently.

“Swish!”

That iron rod instantly turned into a long bar of about half a meter or so the front end was getting thinner and thinner.

Ji Feng’s eyes instantly narrowed for a moment, it turned out to be a flinging stick!

Flinging stick, in fact, is only a common name, its official name should be called tactical telescopic stick, the history of this weapon is not very long, that is, only in recent decades has it emerged, however, the power is great, even in the dance flinging stick does not need much strength at all, can break people’s bones!

Ji Feng had only heard of but never played with this kind of weapon before, so he didn’t recognise it for a while, but when he saw the structure of that flinging stick, he happened to remember that it might be this kind of weapon, so that’s why he tried it out, and as expected, this thing was a flinging stick!

Ji Feng couldn’t help but grunt coldly, if he suddenly used this thing in the middle of a battle, I’m afraid he would have a hard time reacting to it for a while and might fall into the path.

Ji Feng looked at those few people’s expressions, and again cold Ji Feng.

“Stomp stomp stomp” And at this time, a sound of footsteps suddenly came from the doorway.

“Come again?!” Ji Feng sneered, since there are still people who are not afraid of death, then feel free to come, as long as the Wu family can afford to send people, come as many as he can to clean up!

However, Ji Feng did not know that outside at this moment was a completely different scene from what he had imagined.

.....

“The sound of gunfire?!”

When Director Liu heard the gunshots coming from the interrogation room, he instantly went weak on both legs, blacked out, and almost fell to the ground.

A real shot was fired?!

Director Liu only felt as if his heart had been viciously grabbed, the pain almost took his breath away, he knew that this time he was really finished!

If he had helped Wu Zhengxin to bring Ji Feng over, although he would have offended the Ji family severely, he was nominally asking Ji Feng to come over to assist in the investigation, because Wu Zhengxin had personally come over to 'report' the case, and they had also officially opened a case here, so even if the Ji family was annoyed, they couldn't say anything.

If Ji Feng gets his leg broken, he will be fine with Wu Zhengxin and the Wu family in front of him – you know, he is working for Wu Zhengxin, if he throws him out when something happens, who would dare to work for the Wu family in the future? Who wouldn't be afraid of being sold out at the end of the day?

This is why Director Liu knew that this was against the rules, but he still helped Wu Zhengxin to do something wrong.

But that was because Wu Zhengxin only said that he would break Ji Feng's legs, but he didn't say that he would shoot him.

If he knew that Wu Zhengxin had actually ordered that his men could shoot him, there was no way that Chief Liu would have agreed to it even if he risked offending the Wu family, even if he didn't work as a chief anymore!

Breaking Ji Feng's leg and killing him were two completely different concepts, and the severity of the consequences of this were worlds apart!

If Ji Feng was really killed in his place, it would be a catastrophe for him!

Or even a disaster of annihilation!

No one could bear the serious consequences of Ji Feng being killed, not even Wu Zhengxin, let alone him, a tiny director!

Under the monstrous wrath of the Ji family, he would definitely meet his doom!

Not only him, but I am afraid that his family will also suffer great hardship.

–The Ji family is not overbearing, but it depends on the matter, and in such matters, no one will reason with you!

“God bless, I hope Ji Feng didn't die!” Director Liu couldn't help but pray. This was the most comical thing, an accomplice who was praying that his target was not dead.

“Shot?!”

However, completely different from Chief Liu, Wu Zhengxin's face was happy after hearing the sound of gunshots, “Really shot? Good! Let's see what other tricks that little beast can play!”

With that, he immediately accelerated his speed and rushed towards the interrogation room.

“Boom!”

Arriving at the interrogation room door, Wu Zhengxin rushed straight in and asked excitedly, “How is it, that little beast he”

The next moment, Wu Zhengxin just felt his legs go weak, his body went numb, and he fell straight to the ground!

“Boom!”

Arriving at the interrogation room door, Wu Zhengxin rushed straight in and asked excitedly, “How is it, that little beast he

The next moment, Wu Zhengxin just felt his legs go weak, his body went numb, and he fell straight to the ground!

And the originally excited look on Wu Zhengxin’s face also froze in a flash.

“This this

Wu Zhengxin looked at the scene in front of him with unbelievable shock, he couldn’t even believe his eyes How is this possible?!

Just a few seconds ago, Wu Zhengxin thought that the reason why the gunshots rang out was because Ji Feng was too powerful, so he forced a few guards to use their weapons, but even if Ji Feng was no longer powerful, but compared to a pistol, that was just child’s play, there couldn’t be someone who could be invulnerable to swords and guns and couldn’t even hit a bullet, right?

That kind of person only existed in movies!

So Wu Zhengxin was immediately excited, he immediately ran over, he wanted to see Ji Feng’s miserable state with his own eyes, as for the consequences of Ji Feng being hit by a bullet, Wu Zhengxin didn’t even think about it.

In his heart, the Ji family was not enough to worry about, he only wanted to avenge his son, especially for Ji Feng, the little beast, he hated him to the bone.

How many people in the Wu family had suffered great losses at the hands of Ji Feng!

Wu Zhiyong had been planted several times in a row, and Wu Zhihe had even been forced to die alive. His son, Wu Zhicheng, had his leg broken and would probably still have after-effects.

The Zheng family, close to the Wu family, Zheng Yuxiu, the eldest of the Zheng family

The Old Wang Family.

.....

This one family, one name after another, the reason why they have sunken down, the reason why they have disappeared from sight, is all because of this little beast Ji Feng.

Almost every one of these people who fell in line had a great deal to do with Ji Feng.

For such a little beast of the Ji family, I don’t know how many people hate him to the bone, especially the irascible Wu Zhengxin, who hates Ji Feng to the extreme. If not for the frequent reminders of Wu

Zhengmin and Wu Zhengxiang, Wu Zhengxin would have sent someone to secretly do away with this little beast.

Now that he had such a good opportunity, he didn't care what would happen if Ji Feng was killed, he couldn't be happier.

However, the reality was a resounding slap in the face to Wu Zhengxin!

When Wu Zhengxin arrived at the interrogation room, he was shocked to find that the scene he had imagined of Ji Feng rolling around on the ground screaming with his legs in his arms, or even twitching to death with blood in his mouth, had not happened. It was hard to say whether he would survive or not.

Wu Zhengxin was shocked to the extreme, and his body was even tingling with shock.

However, this is not what surprised Wu Zhengxin the most, what really made Wu Zhengxin's head dizzy was that after he entered the interrogation room, he was shocked to find that Ji Feng, who he originally thought had been injured or killed, was now sitting on a chair with a big knife and a pistol in his hand!

The muzzle of that pistol was pointing at Wu Zhengxin!

Anyone who suddenly rushed to a room full of excitement, but suddenly found that the enemy he originally hated to the bone was waiting for him with a gun, and in the previous moment, he had sent someone to kill this enemy to see such a scene, even if the nerves of how big people, I am afraid will be shocked as if they had seen a ghost.

The same is true for Wu Zhengxin, especially when he saw that Ji Feng was looking cold, with a harsh chill in his eyes pointing a gun at himself, he instantly felt a bone-chilling cold, and even his scalp couldn't help but feel a little numb.

For a moment he didn't even know how to react!

So, Wu Zhengxin, whose arms and legs were weak and tingling, suddenly stumbled on his feet, his body stiffened and he fell directly to the ground.

"Ah?!"

A shriek suddenly rang out, but it was a fat policeman who suddenly came in, and it was he who let out this shriek, for he saw the guards lying all over the floor.

And when he saw Ji Feng sitting on the chair, he was obviously relieved again, but for the pistol in Ji Feng's hand, it was as if he didn't see it, he just leaned on the door for a moment and took a few long breaths.

"Commissioner Wu, right?" Ji Feng stared coldly at Wu Zhengxin who fell to the ground, "These are the people you sent, right? You still dare to openly commit murder in the police station, you really have a lot of guts!"

Wu Zhengxin, a director of the State Drug Administration, holding real power in his hands, short-tempered and domineering

This was some of the information Ji Feng had learned about Wu Zhengxin, and it was obvious that his irascible temper and domineering style of character had been displayed to the fullest here.

“..... Humph!”

At this time, Wu Zhengxin finally reacted, he hurriedly got up from the ground, remembering that he was actually scared to fall on the ground, Wu Zhengxin couldn't help but feel his face burning hot, but he gritted his teeth and said angrily, “Little beast, you really have some skills, this didn't even cure you

Ji Feng said in a cold voice: “Chief Wu, you actually dare to let your men use weapons to murder me, haven't you ever considered the consequences?!”

“What consequences did I consider!” Wu Zhengxin said angrily, “It's the consequences of not killing you little brute that are really bad! Little beast, let me tell you, you have seriously injured my son, I will definitely not let this matter go with you!”

“I think you'd better think about yourself first!” Ji Feng said indifferently, “Just now you admitted yourself that you sent someone to murder me, didn't you?”

“Humph!”

But Wu Zhengxin sneered and said, “Little beast, you don't need to set me up, so what if I tell you, yes, these people are my Wu family's guards, I sent them, you broke one of my son's legs, I want one of your legs too!”

Ji Feng said in a cold voice: “Then you're not afraid that I'll lose my life because of it?!”

“Ha!”

Wu Zhengxin suddenly threw back his head and laughed coldly, “It's better if you die!”

The cold expression on Ji Feng's face eased slightly, and an imperceptible smile flashed in his eyes as he asked, “So, you're not afraid of the series of consequences that would result from this?”

Wu Zhengxin sneered, “What do I have to be afraid of? Afraid of your Ji family? That's a joke! Little beast you don't even ask around, I, Wu Zhengxin, have been afraid of nothing since I was young!”

“Really powerful!” Ji Feng nodded, “I've seen it all. So, do you still want to kill me now?”

“I hate to scrape you alive!” Wu Zhengxin said angrily.

“Division Wu!”

At this time, the fat policeman who was standing in the doorway and took a long breath suddenly reacted and called out in a panic, “Commissioner Wu, don't talk nonsense, beware of falling for the truth!”

Wu Zhengxin was stunned, and then he sneered, “Humph! This little beast is now in my hands, what kind of truth can be revealed? Even if he goes out and tells others these words, will anyone believe him? Does he have any evidence?”

However, the fat policeman said urgently, "Commissioner Wu, beware of the mobile phone recording!"

Wu Zhengxin couldn't help but be slightly stunned at his words, then he looked at Ji Feng and his face became even more irritated: "Little brute, just now you've been setting me up, you're recording?!"

"What do you think?" Ji Feng asked rhetorically.

"Bastard!"

Wu Zhengxin had a sense of shame of being teased, he roared and suddenly pulled out a pistol from his waist, "Little beast, don't think that you are the only one with a gun, I have one too! You, put the gun down immediately and throw the phone over!"

"Don't worry!"

Ji Feng smiled faintly and took the phone directly out of his pocket and shook it at Wu Zhengxin: "See, there's no recording, don't be so nervous saying that didn't you say you weren't afraid of anything since you were young?"

Wu Zhengxin instantly became ashamed and angry: "Little beast, I think you are tired of living I was just going to break your leg and forget it, but now, I have changed my mind"

"Don't talk so much nonsense!"

Wu Zhengxin was interrupted by Ji Feng before he could finish his words, "If you have the guts to shoot, let's see whose hand is faster, if you don't have that guts hum!"

"Bastard!"

Wu Zhengxin was instantly furious, he raised his hand violently and was about to shoot, however, just at that moment, the fat policeman behind him was holding him at once, while grabbing the gun in his hand.

"Commissioner Wu, don't be impulsive!" The fat policeman hurriedly shouted, "If you fire the gun, the consequences are unthinkable!"

"Liu, get the hell out of my way immediately!" Wu Zhengxin roared, "Get lost if you're scared"

"BOOM~!"

Just then, a sudden gunshot sounded, scaring both Wu Zhengxin and the obese policeman at the same time, they suddenly turned back to look at the direction where the sound came from, only to see several people in military uniforms had unexpectedly arrived at the entrance of the interrogation room at some point and were looking at them coldly.

The one at the head of the group was still holding a gun in his hand, the muzzle of which was pointed at the ceiling Obviously he had fired that shot just now.

"You guys" The obese policeman couldn't help but be a little stunned, how did he invite the military?

“Wu Zhengxin, you’ve really grown in ability, how dare you run here with a gun to murder my nephew?!” The soldier in the lead said coldly, “I think you don’t want to live anymore, do you?”

“May I ask if you are” The obese policeman felt that something was not quite right, this man was talking too much, he knew Wu Zhengxin and still dared to talk like this, this

“..... Ji Zhenping!”

The next moment, Wu Zhengxin gritted his teeth and shouted out the name.

Boom!

In a flash, it was as if the obese policeman had been struck by lightning, and his entire person immediately froze on the spot.

Ji Zhenping!

This soldier was actually Ji Zhenping!

Although the third master of the Ji family was not as famous as Wu Zhengxin in Yanjing, there were very few people who were policemen and soldiers who did not know about Ji Zhenping.

It was said that this third master of the Ji family was in charge of a mysterious special forces unit, and had even had several small-scale firefights with foreign troops in the border area.

This was a general who had actually led troops into battle and seen blood!

And now, Wu Zhengxin wanted to kill Ji Feng, himself still beside him, but he was caught by Ji Zhenping

Campus Master Chapter 2296

“Ji, General Ji,” the obese policeman looked at Ji Zhenping in astonishment beyond measure, his voice trembling a little as he spoke.

“Wu Zhengxin, I think you are living more and more, how dare you do such a despicable thing, you have really lived in the belly of a dog at this age!”

However, Ji Zhenping simply ignored the obese policeman and did not even look at him from the beginning to the end, he just stared at Wu Zhengxin and said with a cold smile, with a strong mockery and a touch of coldness in his eyes.

Ji Zhenping was furious!

Ji Zhenping was not really surprised that Wu Zhengxin dared to have Ji Feng arrested and wanted to teach him a lesson in private, for with Wu Zhengxin’s arrogant and domineering character, he was perfectly capable of doing such things.

But right now, Wu Zhengxin didn’t just want to teach Ji Feng a lesson, he obviously wanted Ji Feng’s life!

This made Ji Zhenping extremely annoyed: “What kind of thing are you, Wu Zhengxin!”

“Ji Zhenping!”

Wu Zhengxin was embarrassed and enraged by Ji Zhenping's words, and his heart, which was previously stunned by Ji Zhenping's sudden appearance, instantly flared up, and he roared, "You don't have to drink in front of me."

Ji Zhenping sneered, "It's up to you, but now you're holding a gun to kill my nephew, how should we settle this score?"

"It was this little brute who touched my son first!" Wu Zhengxin said angrily, "My son is still lying in the hospital, and it's not even certain whether his leg can be saved."

"Your son is to blame for what happened to him!" Ji Zhenping sneered, "Dare to say that Ji Shaodong is a hypocrite and Ji Feng is a scum not to mention your son, even if you say so, I will still tear your mouth apart!"

"Ji Zhenping! Don't be too arrogant!"

Wu Zhengxin was shaking with anger at these words, and he roared, "Don't think that the Ji family is anything great, if you piss me off, I'll even break you up"

Ji Zhenping's face suddenly turned cold: "Is that so?!"

Wu Zhengxin said angrily, "Humph! You don't have to use that tone of voice to talk to me"

"Put the gun down!"

Ji Zhenping didn't wait for Wu Zhengxin to put his words into words before he suddenly bellowed, "Wu Zhengxin, drop the weapon in your hand right now, or else I will assume that you are committing murder and I can shoot you on the spot right now!"

Wu Zhengxin said angrily, "How dare you! I won't let go of what you can do to me"

All of a sudden, Wu Zhengxin's voice stopped abruptly before he could finish, because on the door of his head, a gun had been placed against it, and the chill on the muzzle of that gun made Wu Zhengxin subconsciously shut his mouth.

"I say again, put the gun down!" Ji Zhenping said coldly, "But don't force me to say it a third time, you are openly armed with a gun and premeditated to kill, even if I finish you off now, you will die for nothing"

"How dare you!"

Wu Zhengxin said angrily, "Ji Zhenping, if you have the guts, you can shoot now!"

Ji Zhenping sneered, "You think I wouldn't dare?!"

Wu Zhengxin grunted, "I really think you wouldn't dare, shoot if you have the guts, shoot BOOM!"

The gun went off!

Wu Zhengxin's voice came to a screeching halt once again, his eyes instantly widened, and the arrogant expression on his face that he had originally had instantly disappeared without a trace.

That shot just now hadn't actually hit him, but had gone over the top of his head.

But even so, Wu Zhengxin was still so frightened that his face changed dramatically.

At this moment, Ji Zhenping was once again aiming his gun at Wu Zhengxin and said with a smirk, "This shot just now hit the wall, but where the next shot will hit, I can't say!"

"You, how dare you shoot me?!" Wu Zhengxin said through clenched teeth.

"Why wouldn't I dare? What do you think you are? In my eyes you are nothing more than a gun-toting murderer, if I were to kill you, it would be no different from killing a pig!" Ji Zhenping said with disdain.

"You"

Wu Zhengxin was furious, but when he saw the black muzzle of the gun in front of him and the coldness in Ji Zhenping's eyes, he could only grit his teeth and put the gun down.

Ji Zhenping snorted coldly, "Arrest him for me, openly holding a gun and killing people, this time I'll see how many heads you have, Wu Zhengxin!"

Wu Zhengxin gritted his teeth and said, "Ji Zhenping, if you have the guts, you can really kill me!"

Ji Zhenping shook the gun in his hand and asked, "What, you still want to try? Do you think that I really don't dare to kill you?!"

Wu Zhengxin then stopped talking, in front of Ji Zhenping's strength, his arrogance and toughness became somewhat ridiculous. Although Wu Zhengxin was arrogant, he did not have no brain at all. He at least knew that Ji Zhenping was someone who had really led soldiers and fought in wars, and this kind of person had really seen blood.

If he really annoyed Ji Zhenping, it was not impossible for him to shoot himself in the head here.

So, Wu Zhengxin was a little scared.

But to be arrested just like that, even under Ji Feng's annotations, this feeling made Wu Zhengxin very annoyed, he came here today to avenge his son, how could he be arrested instead when he had not yet been avenged!

Gritting his teeth, Wu Zhengxin looked at Ji Feng angrily and said in a cold voice: "Little beast, you wait, I won't let you go! This matter today, it's not over!"

Ji Zhenping sneered, "You'd better worry about yourself first."

"Humph!"

Wu Zhengxin snorted coldly and lifted his feet to walk out, but he was abruptly controlled by the two soldiers next to him.

Wu Zhengxin was instantly enraged, "Ji Zhenping, what do you want?!"

Ji Zhenping was happy: "What do you think I want? You are armed with a gun with the intent to kill, do you think you can still get away with it? You're too naive!"

"He had originally thought that Ji Zhenping had sent his men to arrest him to prevent him from going too far, so Wu Zhengxin had cooperated meekly.

But he could not imagine that Ji Zhenping was really going to have him arrested!

This son of a bitch had no intention of letting himself go!

As soon as he realised this, Wu Zhengxin could not hold back and said angrily, "Ji Zhenping, how dare you! No one has dared to arrest me in Yanjing, who are you"

But Ji Zhenping waved his hand and said, "Escort him up!"

He didn't bother to listen to Wu Zhengxin's nonsense here, only now did he understand the situation, this Wu Zhengxin is really powerful!

In fact, Wu Zhengxin could not be blamed for this matter, because in this circle of gentry in Yanjing, even if anyone was defeated, it was usually just a matter of bowing one's head and admitting one's fault, and that was pretty much it, a kind of admission.

In this way, no one would normally do anything directly to the person of the other party, let alone restrict the other party's freedom.

But now Ji Zhenping had directly detained him, which was clearly a violation of the rules.

But Wu Zhengxin had not thought about it, he had already broken the rules by sending someone to arrest Ji Feng, not to mention that he was going to lynch him here!

The most important thing is that Wu Zhengxin is already middle-aged, but he still has the same habits in his bones as when he was a son, but he doesn't realize that Ji Zhenping is no longer the son of that year, but a general of the military.

What Ji Zhenping had told him was no longer the rules of the government circle!

"And these thugs, take them away as well!" Ji Zhenping pointed at the several young men on the ground with a cold expression.

However, when he saw that one of them had a dent in his chest and his mouth was still bleeding out, he was obviously not badly injured, Ji Zhenping still couldn't help but feel a soft spot in his heart and said, "This one will be sent to rescue first" Thanks to the fact that you are still soldiers, you just know how to obey orders? If Wu Zhengxin let you rebel you also go?!"

He shook his head, very much with a feeling of hatred.

Ji Zhenping himself came from a military background, so he treated these soldiers like his own men in his heart, but when he saw that these people were so indiscriminate, and even came against his nephew, he was somewhat angry in his heart.

Therefore, Ji Zhenping only softened his heart a little and had the seriously injured guy sent to the hospital to be rescued, but the remaining five who were injured but not seriously, Ji Zhenping directly had them escorted down.

"Ji, General Ji"

At this time, the only person left in the interrogation room was the obese police officer, who was looking at Ji Zhenping with a face full of fear, his lips trembling as he wanted to say something, but he opened his mouth but did not know what to say.

Ji Zhenping looked back at him and could not help but sneer, but did not say a word.

This kind of villain, Ji Zhenping simply did not bother to have half a word with him.

“Go!”

Ji Zhenping was too lazy to bother, but the warriors under him would not be so polite, only to see one of them shout coldly and glare, taking the obese policeman away.

Only at this time did Ji Zhenping come to Ji Feng and asked, “Brat, how’s it going, you’re not hurt, are you?”

Ji Feng smiled and stood up, moved his body and laughed, “How can just these few people make me get hurt!”

“Brat!”

Ji Zhenping cursed with a laugh, “I told you not to mess around, but you had to play, did you almost play too big this time! If I hadn’t arrived in time, you brat would have been in danger, I’m afraid.”

Ji Feng couldn’t help but shake his head, “I didn’t expect Wu Zhengxin to be so arrogant either, it’s okay to lecture me in the police station, but he actually dared to use weapons

“That’s because you, right, know Wu Zhengxin, this man was bold and arrogant when he was young!” Ji Zhenping hummed: “When Tai Zu was still around, he was able to hold down the field, so all the forces were very restrained, but just like that, Wu Zhengxin was already arrogant to the extreme then, not to mention the Wu family is so powerful now!”

Ji Feng smiled: “No matter how arrogant he is, let’s see how arrogant he is this time..... little uncle, there will be a good show next, right?”

Ji Zhenping nodded and said, “I’ve already told your father about this, you don’t have to worry about the rest, Wu Zhengxin actually dared to use weapons, this time I won’t let him off lightly!”

“Then I’ll contribute one more good thing!” Ji Zhenping said, and walked quickly towards a wall behind him.

“What good thing?” Ji Zhenping asked in confusion.

Campus Master Chapter 2297

“Then I’ll contribute one more good thing!” Ji Zhenping said, and walked quickly towards a wall behind him.

“What good thing?” Ji Zhenping asked, puzzled.

“Snap!”

Only Ji Feng came to the wall and directly snapped off a small raised lump from the wall – if one didn't look closely, the small lump wouldn't even attract anyone's attention and would only be taken as the wall being caused by inattention during renovation.

However, Ji Feng picked this small lump up and handed it to Ji Zhenping.

"What is this?!" Ji Zhenping asked, somewhat puzzled, as he took it and looked at it, asking suspiciously, "This is a miniature camera, why is it on the wall? Did you put this there?"

"Mm." Ji Feng nodded and smiled.

Ji Zhenping frowned, "But what's the point of just having a camera? This camera doesn't seem to come with a storage device, right?"

Ji Feng laughed, "It's true that this camera doesn't come with a storage device, however, this thing does have a Bluetooth device."

"Hmm?!"

Ji Zhenping was slightly stunned, and then said, "Does that mean"

At this time, Ji Feng smiled again and took out a piece of electronic equipment half the size of a palm from his pocket and smiled, "After teaching No this time, I guessed that the Wu family was afraid that they would play some tricks, so I simply brought a miniature camera with me."

This electronic device is actually used to receive the footage taken by the camera and store it.

In simple terms, it was a small video camera, and of course, the recording function was naturally even more indispensable. In this modern era of dazzling technological development, this kind of small device was really nothing new.

However, when placed on Ji Feng's body, it served a big purpose.

"Good boy!"

Ji Zhenping couldn't help but pat Ji Feng's shoulder and laughed, "With this thing, this time Wu Zhengxin is going to be in big trouble! I see, some of the claims from the outside world are really correct."

"What sayings?" Ji Feng asked with some confusion.

"You haven't heard of it, have you?"

Ji Zhenping laughed: "This outside world has been circulating for some time recently, saying that you are the nemesis of the Wu family This Wu Zhengxin is another unlucky one, this can once again validate this saying!"

Ji Feng smiled and couldn't help but shake his head and laugh: "It's him who has gone too far."

If Wu Zhengxin had been able to exercise some restraint and not be so arrogant, then he wouldn't have ended up in this situation.

As the saying goes, there is forgiveness for the sins of God, but not for the sins of oneself!

By virtue of his status, Wu Zhengxin was so arrogant that he did not put anyone in his eyes, and even dared to openly lynch and use guns in the police station!

If he had moved ordinary people, it would have been fine, but because of his arrogance, it made him not put Ji Feng in his eyes at all, and thus, Wu Zhengxin ended up in this result now.

Not to mention anything else, just the fact that he was a state cadre but did such a thing was enough to get him a heavy sentence!

“Things are not that simple!” Ji Zhenping said, “How could the Wu family stand by and watch their family’s third oldest being sentenced? Just wait, there’s a good show below!”

“That’s none of my business!” Ji Feng laughed.

This matter up to here was already Ji Feng’s limit, what to do next, I believe that father and his family would naturally have considerations. In fact, if Ji Feng wanted to get involved, it wasn’t impossible, he could now represent the third generation of the Ji family and go out to pay respects to those bigwigs and elders of the Ji family lineage.

As long as he had enough power, he could mobilise the resources and energy in the hands of those bigwigs, and with the addition of this evidence, it would definitely not be a problem to re-injure Wu Zhengxin.

But now Ji Feng was not going to do that, he thought he still needed to hone his skills further and had not yet reached the point of ascending to the top.

The first thing you need to do is to go to the elders and the bigwigs of the Ji family to pay a visit to them during the New Year’s holidays, but at other times he has never used the power of those people?

That is because Ji Shaodong also knows that for the time being his own weight is not enough, still need to make some things, to obtain their approval.

This is actually very simple, for example, in ancient times, some ministers were loyal to the emperor, but that did not mean they could be as loyal to the emperor’s sons.

Those imperial sons who wanted to gain the trust and sincerity of their ministers would likewise need to do something to prove themselves.

What’s more, the modern era is no longer the era of obedience to the emperor. The so-called factions in modern times are actually groups of people with the same or similar political beliefs and aspirations who have gradually come together to form a group.

These people naturally cannot bow down to a hairy boy for no reason, even if they respect Elder Ji and Ji Zhenhua, they cannot respect Ji Feng or Ji Shaodong for no reason.

They, all of them, still needed time to prove themselves.

It was because Ji Feng understood this point that he was decisive to this point, and the rest of the matter he was just a spectator, learning some experience from how his father and the others had handled the matter, and seeing how they, the elders, handled such matters.

“Don’t worry, I’ll tell your father all about what’s going on here.” Ji Zhenping said, “I’m afraid that even if you want to get involved in the next thing, your father will not agree to it, it’s for your love.” Ji Zhenping said.

This kid Ji Feng was indeed very satisfying and quite outstanding, but even if he was outstanding, he was still only a young man in his twenties, and there were always shortcomings.

If they were allowed to get involved in these matters too early, I’m afraid it would affect their heart and pull them up by their bootstraps, not only would it fail to achieve results, but it would be counterproductive.

.....

The first thing you need to do is to go back to the hotel, so that the hearts of Bai Zhu and Qin Shujie can finally be put back into their stomachs, and then he rushed back home.

—because his mother, Xiao Sumei, was immediately worried when she found out that he had been put in an interrogation room by Wu Zhengxin and even moved his gun.

After he returned home, Ji Feng was naturally given a good amount of flak by his mother, who just nodded repeatedly and meekly admitted his mistakes.

Ji Zhenhua did not say anything, he naturally saw things from a different perspective than his wife, but he was not going to be that evil person and get in the way of his wife teaching the children a lesson.

It was already late in the evening, and it had been a few hours since Ji Feng came out of the police station, and the news had already spread throughout Yanjing’s circle.

Wu Zhicheng had been beaten alive by Ji Feng and had his leg broken!

Subsequently, Wu Zhicheng sent people to arrest Ji Feng and openly lynched him in the interrogation room of the police station, and also used the guards of the Wu family, but in the end, those guards were all injured by Ji Feng.

In the end, all the guards were wounded by Ji Feng. Wu Zhengxin went crazy and used a gun, but Ji Zhenping arrived with his men in time to stop him.

These news, which were less than a few hours apart, left many people dumbfounded!

Is Wu Zhengxin crazy?

This was everyone’s first reaction.

This was everyone’s first reaction. To lynch Ji Feng, even if it was just an ordinary police officer, would definitely lead to extremely serious consequences, not to mention that it was done by Wu Zhengxin!

What’s even more outrageous is that Wu Zhengxin even used a gun!

This is simply an attempt to provoke a full-scale game between the two families!

Is Wu Zhengxin crazy?

At this time, everyone was no longer concerned about what happened to Wu Zhengxin, because everyone knew that since Ji Zhenping had arrived in time, then Wu Zhengxin would definitely not have any good consequences, so what everyone was concerned about now was how this matter would be handled next, and how the Ji and Wu families would react!

Everyone thought that the Ji family would be furious, because the nature of this matter was too bad, to put it mildly, it could be said that Wu Zhengxin had lynched him, but if it was more serious, it could be said to be premeditated murder!

But to everyone's surprise, even by the next day, the Ji family did not do anything excessive, but simply reported the case to the Yanjing police station, and at the same time, Ji Zhenping also sent someone to hand over Wu Zhengxin and the others to the Yanjing police – of course, the Ji family reported the case to the police station, naturally, not a certain branch, but the Yanjing police station!

This made many people a bit surprised. Did the Ji family intend to go straight to the judicial process and just deal with Wu Zhengxin, instead of forcing the Wu family to make some concessions in one way or another in accordance with the conditions?

If it were anyone else, I'm afraid they would do the same.

The Wu family will certainly pay a great price for him, and this is an extremely rare opportunity for the Ji family and even the entire Ji family!

This is even more rare than grabbing a handle on a Wu family cadre, so how could the Ji family just give up?

Could it be that

The company's main business is to provide a wide range of products and services to the public.

It's not impossible that this is the case!

But did the Wu family really just watch as Wu Zhengxin was sentenced to prison and not care?

..... All these strange circumstances in between made many people puzzled.

Even Ji Feng, couldn't help but wonder a bit how this matter was actually handled.

"Dad, this matter, " Ji Feng weighed his words and asked, "is the intention to go straight to the judicial process and uphold the justice of justice?"

"Brat!"

Ji Zhenhua, however, cursed with a laugh and said, "What do you want to ask kid, no need to beat around the bush."

Ji Feng laughed heatedly, "I just want to know, what do you think, this Wu Laosan is just a two-hundred-fifty, less of him will not affect the Wu family much at all, just dealing with him, isn't that a bit too light?"

Ji Zhenhua said, "There are some things that you can't just look at the surface, Little Feng, you are still young now, there are some things that you have to look at and think about more."

Ji Feng was then puzzled, could it be that there was some deeper meaning for Pops to arrange this?

Campus Master Chapter 2298

Yanjing, the Wu family.

Wu Zhengmin was frowning tightly, and his originally majestic face was now extraordinarily gloomy.

It was really because the matter was too serious this time.

This third brother of his was too stupid!

Wu Zhengxin had actually sent someone to arrest Ji Feng directly, using the name of assisting in the investigation, but he ended up locking Ji Feng up in the interrogation room.

Without mentioning anything else, just this point alone showed what kind of idea Wu Zhengxin had in mind at that time.

Not to mention, Wu Zhengxin even sent six guards from the Wu family – in terms of Wu Zhengxin's official status, he was just a director of the Drug Administration and had no authority to send guards at all.

“To kill Ji Feng?!”

It had been more than two hours since he received the news, but when Wu Zhengmin mentioned it, there was still a feeling of shock and anger!

That Ji Feng was that easy to kill?

How in the world did Lao San's brain grow, was his brain all muddled?

If it was possible, Wu Zhengmin really wanted to break open Lao San's head and take a closer look at how this guy grew up, he was so old, how could he be so brainless?

The reason why Wu Zhengxin is in this situation today is entirely his own fault!

“Big brother, think of a solution!” Wu Zhengxiang, who was sitting across from Wu Zhengmin, said anxiously, “Now Lao San is still being held in the police custody, if we don't take measures soon, I'm afraid that the next step will be to officially enter the judicial process!”

“Humph! It's better to put him in jail for a few years! It's better to lock him up for a few years, so that he doesn't get into trouble for not doing anything right all day!” Wu Zhengmin said in a cold voice.

“.....”

Wu Zhengxiang couldn't help but shake his head and laugh bitterly, this third brother of his, he was really stupid.

Usually he was arrogant and domineering, but when he was fighting with Ji Feng, how come he was still so impulsive, doing whatever he wanted to do, was Ji Feng that easy to manipulate?

“Big brother, what Lao San did in this case was indeed very inappropriate, and he is to blame for ending up in this situation, but no matter what, now that Lao San is locked up, we can't just sit back and do

nothing.” Wu Zhengxiang said, “If the old man finds out about this, I’m afraid he’ll be so angry that he’ll get sick!”

Wu Zhengmin said in a cold voice, “Then what do you think we can do now?”

Wu Zhengxiang said, “How about we try to keep it?”

“Bail out?” Wu Zhengmin frowned and said, “Lao Er, are you confused too? Now that the Ji family has officially handed Lao San over to the police, and has very formally reported the case to the police, this situation now is clearly the Ji family deliberately putting us in the army.”

Wu Zhengxiang also couldn’t help but smile bitterly, how could he not understand this truth?

They neither dealt with Wu Zhengxin themselves, nor did they report him to the police, nor did they take this to blackmail the Wu family.

The Ji family just did the right thing and handed Wu Zhengxin over to the police.

They left everything to the police!

This way, no one dares to intervene at will, and the police definitely do not dare to sit on their crooked asses easily, because everyone knows how many pairs of eyes are watching this matter right now.

Including their Wu family, they likewise didn’t dare to mess around!

“This is a good move by the Ji family!” Wu Zhengmin couldn’t help but sigh lightly as well, “The reason they’re calling the police is to make this matter public!”

“Yeah.”

Wu Zhengxiang also had a bit of a headache, this move by the Ji family was indeed a beautiful move, from an objective point of view, the Ji family’s sleight of hand was very clever, but for them, it was too much of a headache.

The original conflict between Wu Zhengxin and Ji Feng was already well known in the circle, but no matter what, the matter had not been made public yet, and the news was only spread in private, so if it was handled at that time, there was no need to even clarify anything, as long as both sides could reach a settlement, then everything would be fine.

There was plenty of news of this kind in Yanjing, and people would probably forget about it in a few days.

But now that the Ji family has made the matter so public, the nature is completely different, and this is the same as what folk call ‘going public’, that is, seeing an official.

So this is like putting the matter directly on the rules of the government and the law, whether it is the Ji family or the Wu family, if they want to solve this matter, then please operate on the rules of the law, but as if they want to jump out of the law, sorry, not to mention the Ji family will not agree, the top will not agree either.

But the problem is that once the matter is handled through the police, it becomes extraordinarily difficult for the Wu family to rescue Wu Zhengxin.

No matter who intervenes during this period, they will definitely be charged with obstruction of justice, and one of them will be exterminated, and I'm afraid no one will even dare to speak up for Wu Zhengxin!

This is the power of public opinion and the public, as well as the power of the law!

And that is precisely why they are now having such a headache.

"Big brother, Lao San can't be left unsaved." Wu Zhengxiang said, "If Lao San is planted, then this is really a major blow to the prestige of our Wu family, besides if the old man finds out, he will definitely be furious!"

"Hmph!"

Wu Zhengmin shook his head and said, "Saving is definitely necessary, but the question is, how should we save? Now that the Ji family has made it clear, we have to carefully deliberate before we can do so!"

In fact, Wu Zhengmin also had a headache.

The Ji family is actually directly and openly putting up a front by doing this, we just want to beat up your Wu family's oldest, and we are not using half of the Ji family's power, we are relying on the police to handle the case.

If your Wu family wants to come to the rescue, then by all means come, I'll see what you can do!

"....."

Wu Zhengmin rubbed his temples and couldn't help but let out a sigh. Even though he hadn't seen any of the Ji family since the incident, it was as if he could see Ji Zhenhua standing right in front of him, saying these words to him so calmly.

If you have the guts to do so, then come here!

This was a move made by Ji Zhenhua, and it was a move that he, Wu Zhengmin, had to take, depending on how he responded!

But by chance, this move was just too difficult to deal with!

"Humph!"

Wu Zhengmin slapped the table and stood up, his face with a touch of ruthlessness and fighting spirit: "Ji Zhenhua, don't think that you're so clever just because you play such a trick, do you really think that there's nothing I can do at all?"

.....

The Wu Zhengxin incident, after the Ji family had officially called the police, had already attracted the attention of almost everyone.

In this incident, what will the police do, what will be the reaction of the Wu family, what will be the follow-up action of the Ji family, etc., all became the focus of everyone's attention.

But what everyone is most concerned about is the reaction of the Wu family.

In particular, the reaction of the old man and the two brothers, Wu Zhengmin, was the most important concern.

Many people believe that the Wu family is in trouble this time, because the Ji family has made a brilliant move – handing over Wu Zhengxin to the police is tantamount to eliminating the possibility of a private reconciliation and cutting off the Wu family's chance to reach out in secret.

Want to save him?

Well, go ahead and save him from the police!

It's hard for the Wu family.

For a while, while many people were gloating, they also had a new understanding of the Ji family's tactics.

This is yet another dangling yang plot by the Ji family.

Many people can't help but think of some previous incidents where the Ji family also adopted a yang plot, no conspiracies, no private backroom dealings, just this kind of yang plot that is so powerful that it is unshakable!

Now I don't know how many people are paying attention to this matter, who dares to get involved easily?

No matter who tries to play foul in it, they will definitely die a horrible death!

If the Wu family wanted to save Wu Zhengxin, it would be absolutely impossible if they didn't pay a big enough price and bleed out ruthlessly once!

It was only after Ji Feng had thought about it all night that he figured this out.

He originally thought that his father had an ulterior motive for this arrangement, or that there was some other preparation, but when he thought about it this dawned on him, in fact, his father did not need to have any arrangement at all, he only needed to use rules and order, and that was enough to make the Wu family anxious.

Unless the Wu family was willing to watch as Wu Zhengxin was heavily sentenced!

But this is obviously impossible, Wu Zhengxin is the third oldest member of the Wu family, if he is re-sentenced, this will undoubtedly cause a major blow to the prestige of the Wu family, and I believe there is no way Wu Zhengmin will sit back and do nothing.

And this predetermines that the Wu family will have to go against the law and the rules, which is no fun!

When he thought of this, Ji Feng admired his father from the bottom of his heart. Very often, he did not need to rack his brain to think of how to calculate his opponents, as long as he learned how to use the rules, often just a light push, in the opponent's eyes as heavy as a tarzan.

This is what is called true mastery!

“Ji Feng, what are you thinking about that’s so out of focus?!” The charming voice of a beautiful woman pulled Ji Feng’s thoughts back, and he turned his head to look, only to see Qin Shujie looking at him with bright eyes and anger.

“Just thinking about some things.” Ji Feng laughed, “You guys go about your business, don’t mind me.”

“How can that be, you’re not a good bodyguard, you’re always lost in thought, if someone bullies us, you won’t even be able to react!” Qin Shujie snapped.

Ji Feng couldn’t help but laugh dumbly, someone else bullying you guys?

He looked at Bai Zhu and then at Qin Shujie, thinking, “Whoever wants to bully you guys, that’s someone who hasn’t been virtuous for 18 generations of their ancestors!

However, after being interrupted by Qin Shujie, Ji Feng stopped thinking about other things and just concentrated on accompanying them.

It was Qin Shujie’s suggestion to go out shopping today, especially when she saw that the clothes on Bai Zhu were all a bit on the unisex side, so she took the initiative to help Bai Zhu pick out some more feminine clothes, so Ji Feng was pulled in as a hard worker.

“Ee?”

Suddenly, Qin Shujie said in surprise, “Look guys, there seems to be something going on in the square in front of us, so many people are watching”

Campus Master Chapter 2299

“Ee?”

Suddenly, Qin Shujie said in surprise, “Look guys, there seems to be something going on in the square in front, so many people are gathering around”

Ji Feng turned his head and looked, and indeed, he found that there seemed to be something going on in the leisure plaza at the entrance of the shopping mall, as there were quite a few people gathered there to see what was going on.

“Is it some merchant doing some kind of activity?” Ji Feng laughed, “Maybe it could also be doing a promotion or something.”

Where they were located could be said to be the most prosperous area in the whole of Yanjing, with five or six big shopping malls in a fan shape around them, enclosing a large commercial square.

So there would often be some kind of promotion of goods or some kind of publicity here.

This kind of activity would also be held frequently in Jiangzhou, so Ji Feng was not really surprised.

“It doesn’t seem to be.”

Qin Shujie said, “Look guys, there aren’t that many onlookers, if there was some kind of event, there would definitely be quite a few people onlookers!”

Ji Feng laughed, “That’s true.”

The love of taking advantage of small bargains has almost become a common problem among Chinese people, so wherever there is a promotion or a free gift, it will definitely attract a large number of onlookers, especially when the gifts are given out, which will almost always cause a general effect of looting.

But right now, there seemed to be only a few dozen onlookers, and it was not at all the same kind of buzz as when there was an event.

“What, you guys want to go over and take a look?!” Ji Feng asked with a smile.

“It’s good to take a look, we’ve been shopping for a short time anyway, so let’s just take a break.” Qin Shujie smiled sweetly, then turned her head and asked, “Bai Zhu, what do you think?”

“It doesn’t matter to me.” Bai Zhu shook her head slightly, the vast majority of the time when she was with Qin Shujie, it was Qin Shujie who was talking and she was listening, because Qin Shujie’s eloquence, which had been honed in the shopping mall, was really beyond her reach.

However, Bai Zhu could sense the goodwill Qin Shujie was conveying, so although she was often at a loss for words, she did not resent hanging out with Qin Shujie.

In fact Bai Zhu is also a little embarrassed because when shopping with Qin Shujie, she instead also learned a lot from Qin Shujie.

..... for example, what kind of skin should use which brand of cosmetics, bed clothes how to match and so on, these problems before Bai Zhu but never considered, usually she also just listen to Xiao Yuxuan or Tong Lei’s advice, but never deliberately to learn these things.

Xiao Yuxuan and Tong Lei also rarely studied these things systematically, in fact, Tong Lei rarely used those things except for some of the simplest cosmetics – her own skin was already delicate and smooth enough, more beautiful than many women who used top-notch cosmetics.

So from Qin Shujie, Bai Zhu did learn a lot about this.

Since several people had no comments, they all walked over towards that crowd of onlookers. It was idle anyway, so watching the activity was a way to relax.

However, to the surprise of a few, there didn’t seem to be any activity in the square, as there was nothing to promote the stage seen here, except for a flurry of chatter that the three heard as they approached the crowd.

“Tsk, this one’s appetite is really greedy, he actually wants a million, he’s not afraid to hold out!”

“Exactly. A million, even selling him would not be worth that much!”

“This kid is a novice, you see those veterans, are under the flyover, or in the vicinity of those tourist attractions, people do not ask for more, give ten or twenty is not too little, give a hundred or two hundred is not too much, this is good, actually came here, and asked for a million

“Why did he come here to beg, the management of the mall did not come to take care of it?”

.....

Hearing these chattering voices, Ji Feng three people can't help but look at each other, listening to what they are talking about, it seems like someone came here to beg and asked for a million?

"Go over and take a look!" Ji Feng said.

"It's better not to go, those begging ones are all liars!" Qin Shujie said.

"It's okay."

Ji Feng patted her little hand and said, "If they're crooks, let's just not pay"

Saying that, Ji Feng led them forward.

"It's better not to go."

Qin Shujie's interest was not too high.

Ji Feng asked somewhat strangely, "What's wrong?"

"Most of these begging ones are fake." Qin Shujie said, she was not averse to watching or anything, but the problem was that she didn't want to see it when she heard that someone was begging here.

Because she had already seen enough begging in Jiangzhou, she was disgusted by it.

Nine and a half out of ten of those begging are fake, and the remaining half are probably begging because they are lazy and lazy.

For example, in the vicinity of some tourist attractions, or in those busy streets, there are often some beggars, at first glance they seem to be very miserable, most of them are handicapped, but in fact, many of those beggars are controlled by people, their begging money, not in their hands at all, in the end, they are taken away by those who control them.

So when Qin Shujie met such beggars, she would rather spend money to buy some food or clothes to give to them, rather than give them money.

But apart from such people, there were more but pretend beggars.

They are supposed to be normal people, but because they are good and lazy, they deliberately sit in wheelchairs or simply have their old mothers and fathers pretend to be dead people lying on the ground while he kneels down and kowtows to win the sympathy of passers-by.

"I've seen a beggar with my own eyes before, right on the street in front of my company, the man had his mother lying on the ground pretending to be dead, and then he knelt down to beg, earning at least four or five hundred a day!"

Qin Shujie said, "originally I also want to give, but listen to the security guards downstairs said, that person's home does not live far, just nearby, one of the security guards live in their neighborhood, listen to the security guards said, that person usually treat his mother particularly bad, often either beat or scold, and many times in front of the other residents in the neighborhood on his mother cursing"

Seeing Qin Shujie's disgusted look, Ji Feng laughed: "This kind of person is indeed abominable, but all in all, if that person can't ask for money, I'm afraid the treatment of his mother will be even worse"

Forget it, these things are not something we can manage, if you don't want to see it, just wait here, I'll go and see what's What's going on."

Qin Shujie said, "Then you go, I don't want to see."

The business world is a place where she is accustomed to the intrigues and conspiracies of the business world, so she can't look at these beggars with a normal heart.

But Ji Feng also knows that what Qin Shujie is not used to seeing, I'm afraid, is some of the darkness in society, and the poor attitude of those who treat their parents.

Since Qin Shujie did not want to go, then Ji Feng squeezed in alone.

And then he found that on the ground in the middle of the crowd surrounding it, there was a man sitting cross-legged on the ground, this man was not very old, it looked like he was only about thirty years old.

This man was dressed in a very ordinary manner, his hair was not long and somewhat dishevelled, and his gaze was straight ahead, as if he did not see the crowd gathered around him, and his face was very calm.

The most peculiar thing was that on the ground in front of this man, there were two lines of writing – begging for a million, in exchange for his life!

Ji Feng couldn't help but raise his eyebrows, these two lines looked like they should have been written in chalk, the font was strong and powerful, it was a bit sharp, even those who had practiced writing for a few years might not be able to write this well!

Ji Feng took a few more glances at this man and couldn't help but be a little intrigued, this man didn't look physically unwell, let alone disabled in any way, why was he out begging?

At this time, a good person asked, "Young man, are you asking for a million?"

The man looked up and nodded, "Yes."

Someone asked, "Then what does this 'in exchange for your life' mean at the end?"

The man said, "Give me one million, and this life of mine is yours!"

Ji Feng couldn't help but be amused, how did this look a bit like a Jianghu, it looked like a set up of a Jianghu warrior taking money in exchange for his life?

He couldn't help but ask: "This one, according to you, if after giving you this one million, this life of yours is mine, then you'll do whatever I ask you to do?"

The man nodded, "Of course, my life is all yours."

"Then do murder and arson too?" Ji Feng asked.

"Yes." The man nodded calmly.

"That's against the law!" Ji Feng frowned, "Is it worth it for a million? What do you need so much money for?"

“It’s worth it!”

The man didn’t waver any more because of Ji Feng’s lecture and questioning, he only paused slightly before saying, “I want money, I have my own use for it!”

At this moment, someone next to him reminded, “Young man, don’t believe this man’s words, beware of being cheated.”

“Yes, why do we need someone’s life? Besides, I’m afraid that if you give him the money, he will run away with it in his pocket.”

“Young man, be careful!”

.....

Perhaps it was because seeing Ji Feng’s dress and temperament were somewhat cranky, probably a rich second generation or something like that who was not bad off, so a few slightly older people next to him cautioned Ji Feng not to give that man so much money on impulse and get ripped off.

Ji Feng smiled and nodded his head, expressing his gratitude for the kind reminders of the few grandparents, but he looked at the man sitting on the ground and was somewhat puzzled in his heart.

Was this man really a fraud?

Ji Feng felt a little less like it, because this man was acting a little too calmly, not at all like some other begging ones who were pretending to be pitiful and gaining sympathy, nor did he kowtow or anything, but just sat there quietly, seemingly very calm and composed.

Campus Master Chapter 2300

Is this person really a crook?

Ji Feng felt a little less like it, because this person acted a little too calmly, not at all like some other begging like a hundred pretending to be pitiful and gaining sympathy, nor did he kowtow or anything, but just sat there quietly, seemingly very calm and composed.

However, Ji Feng did not say anything more, what exactly this person was begging for a million for and what purpose he had, Ji Feng did not care much, he was just a little curious about this person’s way of doing things.

Of course, Ji Feng also had some associations with this man’s behaviour, but had no intention of buying this man’s life on that!

So he looked at this man again for a few moments before he shook his head slightly and walked out.

“How about it, a crook, right?”

Seeing Ji Feng come out from the crowd, Qin Shujie, who had been standing outside waiting, couldn’t help but ask, “The more you’re in a big city, the more such things happen.”

Ji Feng shook his head with a non-committal smile and said, “I don’t know if he’s a crook either, but he’s quite rare in his way!”

Indeed.

Ji Feng had seen a lot of people begging, some disabled, some children, and some children who were directly crippled by people with extreme cruelty, and those people, if they couldn't beg for money, would probably be severely beaten up by the mastermind controlling them after they returned, or even not allowed to eat.

Many of these children were abducted from all over the world.

Of course, there were also some unscrupulous people who stole the children from the orphanage – this was not a big deal for the orphanage, because those who could enter the orphanage were either handicapped or simply abandoned by their parents, and when these children were lost, some of the officials upstairs would not even bother to. These children are lost and the officials above them may not even care.

Even if the police are called, it won't help, because after stealing the children, the criminals will have already left for another city and will have crippled the children, or even made them inhuman.

The cruelty of these villains is outrageous!

Apart from these, Ji Feng has also seen many so-called sellers of their bodies to bury their fathers, as well as those posing as foreigners, saying that they had their wallets stolen locally as a way to beg for some money to pay for their travel expenses.

There are also those who simply pretend to be donkeys, and their income is likewise quite good, and they may earn 20,000 to 30,000 yuan a month.

But this was the first time that Ji Feng had ever seen such a big amount of money and even offered to exchange it for his life, and it was the first time he had even heard of it!

Therefore, Ji Feng was surprised to know whether this guy who asked for a million dollars really had the courage to think that he was absolutely worth a million dollars, or whether he wanted to use this method to deliberately attract other people's attention, so as to cheat them out of money.

The company's main business is to provide a wide range of products and services to the public.

The first time he thought about it, Ji Feng shook his head once again. Today's incident was indeed very strange, but for a while he couldn't tell whether this person was a fraud or really wanted to sell himself out.

"Alright, forget about him, where are you guys going next?" Ji Feng shook his head and stopped thinking about it.

"There's a cosmetics section up ahead, Bai Zhu and I are going there, do you want to follow?" Qin Shujie asked.

"Go!"

Ji Feng laughed, "How can I, the bodyguard, not follow close behind!"

Qin Shujie then gave him an odd look, with a smirking look on her face.

Ji Feng couldn't help but be stunned, "What are you looking at me like that for?"

Qin Shujie said: "We are going to that cosmetics area to do a beauty treatment, just now I read the leaflet, the cosmetics counter over there in front has a free beauty service is a full body beauty treatment oh, you also want to follow?!"

"....."

Ji Feng just couldn't help but have a black line.

In a burst of petulant laughter, Qin Shujie and Bai Zhu entered the mall again, leaving Ji Feng alone outside with a black face.

"So what if I follow you there!" Ji Feng couldn't help but mutter, "It's not like hasn't seen it before!"

"Ding"

Suddenly, Ji Feng's mobile phone rang, he casually took out the phone and scanned the screen, but found that it was an unfamiliar number calling, and it was a landline.

However, what surprised Ji Feng was that the address of the phone number shown on the caller ID was from Northwest China.

Ji Feng couldn't help but raise an eyebrow and picked up the phone, "This is Ji Feng, who is it?"

"..... Ji Feng!"

On the phone, a low voice suddenly came from the phone, that voice contained an anger, but it was as if it was being forcefully suppressed without venting it out.

And as soon as Ji Feng heard this voice, the corner of his mouth immediately pulled up a dangerous arc, and there was a flash of essence in his eyes, "I said who is it, it turns out to be County Governor Wu"

The owner of the voice on this phone was no one else, but the leading figure of the third generation of the Wu family, Wu Zhiyong!

For this person's voice, Ji Feng has heard it more than once, it can be said to be extremely impressive, so even if the voice in the phone is slightly out of shape, Ji Feng still immediately heard Wu Zhiyong's voice.

The actual fact is that the actual person who can be in contact with Ji Feng in the northwest is also the only one who can have contact with him.

..... Only, the so-called relationship between them was hostile.

"Ji Feng! It seems that you are getting less and less progressive, even your speech is learning to speak in a slick manner!" When Wu Zhiyong opened his mouth, but he sneered and sarcastically said without mercy, "Is this what you're capable of?"

"Heh!"

Ji Feng snorted and said, "Governor Wu didn't brush his teeth this morning, did he? What a big mouth! It's only been a couple of days since you sat in the prefect's position, and you've even changed your tone of voice, that's what you call competence!"

As early as half a month ago, He Hongwei had specifically called Ji Feng and told him an important piece of news.

Wu Zhiyong was in a county in the northwest and had taken up the position of county governor.

This also meant that from that day onwards, Wu Zhiyong was considered to have embarked on a golden path through the sky in his career path, because before, no matter what position Wu Zhiyong held, as long as he did not have the experience of working at the grassroots level, and did not have the experience of ruling a party at the grassroots level, he would never be able to rise too high.

But since he took up the post of county governor, it was a different story.

Although he is not a high official, the importance of the post is self-evident. This position is to liaise with higher-level administrative units above, but directly control the lives of the people below.

Moreover, the power of this position is also very difficult for ordinary people to imagine.

In ancient China, there is a saying that a governor who breaks down a family is a county magistrate who destroys the family.

This shows the importance of this position!

And after Wu Zhiyong sat in this position, it was like having the experience of being in charge of a party. From this time onwards, he might be about to take off, especially with the help of the Wu family, and he was afraid that he would have to rise high in the next step.

This is a move that will lead him straight to the centre!

Even after Wu Zhiyong took up the post of county governor, even his elder brother Ji Shaodong called him specially to remind him to be careful and pay attention to it. It can be seen that Wu Zhiyong's taking up the post of county governor has also created a certain pressure on him.

And now it seems that Wu Zhiyong really does have a sense of complacency, which can be heard from the tone of his voice.

In the past, when Wu Zhiyong spoke to him, at least that tone was equal, even if he was a bit arrogant, but he did not dare to lecture him. But now it was different, this Wu County Chief opened his mouth and sarcastically accused Ji Feng of not growing up this could be a completely condescending tone of lecturing!

"Humph!"

Wu Zhiyong coldly snorted, "Ji Feng, your tone is not small either."

Ji Feng smiled noncommittally and said, "Governor Wu, you're specifically calling me, you wouldn't just want to discuss with me who has a bigger mouth, right?"

"....."

Wu Zhiyong was then held back for a moment.

Ji Feng said indifferently, "Since County Governor Wu doesn't have any instructions, that's it"

“Ji Feng!”

Hearing that Ji Feng seemed to be hanging up the phone, Wu Zhiyong’s voice steepened a few notches: “Don’t you think that’s too much?”

Ji Feng smiled, “Governor Wu, what you said was too profound, I’m a bit hard to understand.”

“It’s fine if you beat Wu Zhicheng into a serious injury, that’s something he did wrong, why do you want to move even my third uncle?!” Wu Zhiyong’s voice went icy cold, “Do you think that there’s really nothing I can do to you at all?”

So it was about this!

“Wu Zhicheng has done something wrong, and it’s not a light mistake!” Ji Feng sneered, he thought Wu Zhiyong was calling for something, but he didn’t expect it to be for Wu Zhengxin’s matter to ask him about his crime, so he got angry, “As for Wu Zhengxin, he’s even more wrong than his son!”

Wu Zhiyong said, “Ji Feng, it seems that you have to make a scene?”

Ji Feng’s face sank, his eyebrows furrowed abruptly, and his voice raised instantly, “Wu Zhiyong, you’d better think before you speak! What exactly did Wu Zhengxin and his father and son do, don’t tell me you don’t know, just because he can kill me, I can’t ask for justice? I really don’t know how you became a governor, I think you have a brain problem!”

“Ji Feng!”

Wu Zhiyong shouted angrily.

Ji Feng snorted: “What, Governor Wu finally can’t suppress his anger anymore? It’s hard to endure, isn’t it?”

When the call first started earlier, Ji Feng heard the anger contained in Wu Zhiyong’s voice, only that it was deliberately suppressed, but now that he was being sarcastic like this, he finally couldn’t suppress his anger.

“Hoo~”

Through the phone, Ji Feng could clearly hear Wu Zhiyong take a few deep breaths on the other end of the phone. Although Wu Zhiyong seemed to have held the phone away a bit, but with Ji Feng’s ears, how could this be hidden from him?

It seems that the fire is very strong!

Ji Feng sneered in his heart.
