

Campus Master 2321

Early the next morning, Ji Feng rushed back to Jiangzhou.

He didn't contact Ji Shaolei this time, he wouldn't bother him if he didn't have to, after all, Ji Shaolei had his own job to do.

When he arrived, the general manager of the trading company was already waiting. After reading the colouring pages and product specifications and other information sent by the factory, Ji Feng was still very satisfied.

The equipment was not very big, so of course it would not fit in the villa, and Ji Feng planned to make a separate laboratory out of it, so after asking for the price, he paid the booking amount very quickly.

The actual fact is that you can find a lot of people who are not able to use this kind of equipment.

..... Of course, this so-called best equipment, in fact, is only limited to civilian aspects, and only relative to the technology of China is the best, some of the equipment also need to be ordered from abroad, but foreign countries for the machinery industry blockade is very strict, the real top technology equipment is impossible to be shipped to China, unless it is smuggled, which This made Ji Feng feel a bit regretful.

He was even thinking that if it was possible, he would like to smuggle a large batch of top-notch equipment from Rice through his sister-in-law's connections.

Only he knew that it was not impossible to do so, but the process was definitely quite uncomplicated, because it was actually very easy to buy equipment in Rice, for a capital country, even their president could handle it with banknotes, not to mention those manufacturers.

However, it is not so easy to transport the equipment to China.

At least, it can't be shipped directly from Rice to China, because it will definitely not be shipped here, so it can only be shipped through Rice to some other country that is not embargoed, and then after the turnover, the equipment may finally arrive in China, it has to be disassembled into individual parts and then shipped in batches.

Back then, when China was trying to develop its own national industry, it relied on the help given by the neighbouring country to the north, but later on, it mostly used this method, or sent agents to steal, or simply smuggled, which built up the industrial base little by little.

But in reality, for the current Ji Feng, he didn't need to do that yet, because he couldn't use such large-scale top-notch industrial equipment right now.

All he needed was a piece of equipment that he could use for his experiments!

"Just wait, one day, I'll make those countries bow down and beg us!" Ji Feng secretly said, "When the time comes, let's also create an embargo"

Ji Feng thought without malice.

.....

The company's main business is to find a suitable place for the equipment, because a lot of equipment is shipped from abroad, so it will take some time to reach Jiangzhou, so Ji Feng has enough time to find a suitable place to put it.

However, Ji Feng is now in a bit of a hurry.

The reason is that after this trip to Beijing, Ji Feng realized that while he was still busy developing the Tengfei Group and trying to pave the way for its real take-off, some forces were developing non-stop.

For example, the person who had manufactured the laser gun had actually put it into actual combat, so it was clear that the other party must have made certain improvements to the laser gun, which had many shortcomings.

In other words, the other side had made another breakthrough in technology!

But was this just the tip of the iceberg of the opponent's strength?

If this laser gun was made by the dynasty, how terrifying the strength of the dynasty was, Ji Feng could not even imagine it.

Transformer, laser gun, and alternative transformers that combine transformers with ancient martial arts

There are many signs that show that the other side is constantly making developments and advances.

And in turn, Ji Feng is aware of his own development speed, seems to be a bit slow.

The actual cooperation has not yet entered the real stage, and it will take at least one or two months for the 3D TV sets of the Tengfei Group to enter the international market.

In addition, in terms of high-tech development, Ji Feng found that although he possessed technology that was far beyond this era, he was somewhat tied up and could not give full play to it.

The first is the source of the technology, he must be gradual, first let the outside world have a psychological preparation, step by step to bring out those new technologies of the gamma system, so as not to cause too much suspicion outside.

If he were to bring out the orbital cannon and even the super laser cannon, which are almost outrageously powerful, I am afraid that the first thing he would face is not fame and fortune, or the leap forward in the development of the Tengfei Group, but the first thing he would be targeted by the agents of various countries.

They might even wonder where he got the technology from, and whether he had hooked up with a certain country or organisation to be their agent!

For example, this time in Beijing, when Ji Feng said the principle of the laser gun, he made his younger uncle Ji Zhenping so surprised, and this was even after he had already done a lot of paving in advance.

Therefore, this is why Ji Feng deliberately controlled the speed of development, and only used his existing technology to develop the Tengfei Group to strengthen himself first, before he could talk about the next step.

There are other reasons, namely the external environment.

The people who can't see the development of Tengfei Group and who want Ji Feng to die, really don't know how many, Qiao family, dynasty, Wu family Qiao Rong, the king, the little prince, Wu Zhiyong, Wu Zhengmin this one power, one name, all will become Ji Feng's biggest problem! !

The fact is that the people who have been in the business for a few years are the only ones who have been holding him back, making it impossible for him to develop at ease.

But it was something that was inevitable, unless he was willing to give up everything in front of him, which was obviously not possible.

"Since we have come this far, there is never such a thing as giving up!" Ji Feng said secretly.

"Having a challenge isn't scary, I've never been afraid of challenges!"

"Whether it's a dynasty or a martial family, whatever cattle, ghosts, spirits, demons and ghosts I'm not afraid of!" Ji Feng sneered in his heart, "One day, I will make you all no longer a threat to me!"

This was a grand ambition, but Ji Feng didn't say it to anyone, he just shouted these words in his heart.

And then, he took Bai Zhu with him and drove to the Tengfei Group.

"The laboratory?"

Xiao Yuxuan couldn't help but be a little surprised after hearing Ji Feng's words, "Both the Tengfei Electrical and Pharmaceutical Company side have their own laboratories, and they have both newly purchased experimental equipment and hired many experts and technicians in this field recently, so why do they need to build another laboratory?"

Ji Feng said, "The lab I'm building now has nothing to do with pharmaceuticals or electrical appliances, it's about machinery"

"It's that equipment you ordered before?" Xiao Yuxuan immediately understood.

"That's right!"

Ji Feng nodded, "But not one, but a batch, in the next month or two, this batch of equipment will come one after another, so I need a more spacious place to put this equipment, preferably a place that can facilitate security."

Xiao Yuxuan then had some difficulty: "Spacious place is there, there is a line behind the production workshop is not on, is the preparatory workshop, there is very spacious, security is also okay, but to say build a laboratory that workshop inside how to build it?"

Ji Feng said, "As long as there is a place on the line, I'll arrange for the building of the laboratory on the line!"

"Do you guys think this will work"

At this time, Han Zhong suddenly spoke up, he said, "First store the equipment in the preparatory workshop at the back, as for the laboratory, I think we can build another one, but it is best to stay away

from the pharmaceutical factory, after all, machinery and pharmaceuticals are two completely different concepts, it is best to avoid the risk of contamination of medicines... ..”

Ji Feng and Xiao Yuxuan glanced at each other and nodded at the same time, this solution that Han Zhong said was fine.

“However, since setting up a lab is not something that can be done overnight, it has to be planned reasonably, and there has to be a design plan already security plan and so on, so it may take a bit longer

“But what if I have to experiment with some research?” Ji Feng frowned.

Of course he understood what Han Zhong meant, that it was best not to bring half the risk of pollution to the pharmaceutical plant, but in that case, how should he do his experiments?

Han Zhong laughed, “Ji Feng, you are usually so smart, why are you confused at this time instead? We can’t conduct experiments here, but there is a place that can, and the equipment is all quite advanced with a wide variety

Ji Feng couldn’t help but be slightly stunned and asked, “Where are you talking about?”

“The United University!” Han Zhong laughed.

“The United University?”

Ji Feng was stunned, and then it dawned on him, “You’re talking about the school lab at the United University?!”

Han Zhong nodded and laughed, “That’s right! As one of the top universities in the country, you are not unfamiliar with the hardware facilities, right? That equipment is said to be high-tech equipment funded by the state, and it took a lot of effort to get it, and some of it is said to be measured in millions!”

Ji Feng’s face couldn’t help but reveal a smile, “That’s right.”

The laboratories of Union University were indeed famous nationwide, especially the laboratories of science and technology, which were even more first-class.

It was said that several of these professors, who were all academicians of the Academy of Sciences, were even directly involved in the research of some major national projects, and their main research sites were located within the laboratories of the United University.

“Just

Campus Master Chapter 2322

“Donation!”

Han Zhong opened his mouth and said, “It’s already a practice to make donations to United University in the name of the Tengfei Group, where companies and schools jointly conduct research.”

Ji Feng shook his head and laughed, "If we're going to make such a donation, then we might as well just buy the equipment ourselves!"

With the strength of the United University, if they wanted to casually use their labs, I'm afraid it wouldn't work if they donated less, but if they donated more, they might as well buy their own experimental equipment.

Han Zhong laughed, "Anyway, it's only for a while, and we won't need to donate anymore once our lab is built. Of course, the expense will certainly not be small!"

Xiao Yuxuan, on the other hand, looked at Ji Feng and asked, "What do you think?"

After deliberating for a moment, Ji Feng said, "Just do what Han Zhong said! It doesn't matter if we spend some money, the money is all donated to the university anyway, it's also considered supporting the country's education However, I think instead of saying donate money directly, we should donate some equipment!"

"Hmm."

Han Zhong nodded, "I agree with this, if you donate funds, it's not really clear how much can really be used for education, but if you donate equipment, those people can't sell the equipment anyway, right? The ultimate beneficiary is still the students!"

Ji Feng said, "Then I'll take care of this matter, you guys are still responsible for negotiating with the Westgate Group, in addition, I'm afraid that the technological advantage of 3D TV sets will not be maintained for too long, the current speed of technological innovation is too fast, now we need to do a good job in advance of the technical reserves, the research institute should speed up as much as possible!"

Han Zhong said, "Don't worry, I will follow up."

Xiao Yuxuan asked, "Ji Feng, why did you suddenly think of buying equipment for the machinery industry? Are you planning to enter the industrial sector?"

Han Zhong was also more concerned about this issue, which was related to the future direction of the group.

Ji Feng nodded his head and said, "That's right! But for now, we will still focus on pharmaceuticals and electrical appliances, as for entering the industrial field, it is still too early to talk about it, we need to find a suitable opportunity to do so. However, you can keep an eye out for talents in this area, so you can prepare in advance!"

The two nodded, the direction of the group's development had always been grasped by Ji Feng, and it was proven that Ji Feng's vision had not been wrong, at least the technologies he provided were the most advanced, which allowed the Tengfei Group to take the lead in its development.

Now since Ji Feng had decided to enter the industrial field, he thought that he already had a plan, and they only needed to be responsible for keeping an eye on it.

"Right."

Xiao Yuxuan suddenly remembered something and asked, "Ji Feng, if you go to talk to United University, in what capacity will you go?"

Ji Feng was also stunned, and then laughed: "That's true, right now I'm still just a student, and I don't have any status in the Tengfei Group"

"How about this, you hang a deputy manager position in the group?" Han Zhong asked.

"That's not good."

Xiao Yuxuan shook her head and said, "Ji Feng's identity is special, I don't think it's too appropriate to hang a deputy manager position, how about just hanging a consultant position?"

Ji Feng nodded and said, "A consultant is a consultant, as long as there is an identity."

If you just run to the United University and open your mouth to talk to people about cooperation, will you be taken as a psychopath?

As long as there was an identity, it would look more formal to talk again.

"Just in time, if we can talk about it now, it's just convenient during the summer holidays when the lab is rarely used." Xiao Yuxuan said, "How about this, I will accompany you, I also worked in the United University before, it is convenient to talk"

"That's not good." Ji Feng shook his head, "After all, you've already resigned, I'll just go by myself."

"That's fine." Xiao Yuxuan nodded her head.

That day, Ji Feng rushed to the United University, the time was early not late, if he could research the new alloy material a day earlier, he would try to advance it by a day, now the development speed of the dynasty and certain unknown forces had made Ji Feng more or less stressed.

In the car, Ji Feng deliberated on how he should talk to them when he arrived at the United University later.

Originally, Ji Feng could also go directly to the old president of the United University, the kind old man had always taken care of himself, but after careful consideration, Ji Feng gave up this plan.

Although the old headmaster was a nice person, after all, the school was owned by the state, and it was impossible for him to decide everything by himself.

Moreover, even if the old headmaster could promise himself generous conditions for the use of the laboratory, there would definitely be people gossiping behind his back.

Instead of that, it would be better to negotiate directly with the United University, and it would be better to do things in a public manner!

Therefore, Ji Feng did not contact the old president directly, but first rushed to the United University to make preliminary contact with the university leader in charge of the laboratory.

Before Ji Feng came, Xiao Yuxuan had already made contact with United University in the name of the Tengfei Group, and now Ji Feng was not afraid of pouncing at this time when he went over there, there were already people waiting for him at the school.

“..... Earlier today, there was another missing person case in Ohio, Rice, this time the missing person is a scientist who teaches at a state university”

Ji Feng was pondering when a news segment suddenly came on the car radio and caught his attention, he couldn't help but be slightly stunned after hearing it and then immediately said, “Bai Zhu, turn up the volume on the radio a bit!”

Bai Zhu immediately nodded, “Yes!”

As Bai Zhu turned up the volume, the presenter's voice became much clearer: “This scientist had published an analytical theory on energy and materials in the journal Science last year, and has a high reputation in the academic world, and was even praised by the great scientist Stephen Hawking”

“..... This is the eighth scientist to go missing so far this year, and there have been disappearances of scientists around the world over the past few years, with at least fifty or more scientists and academics in a number of specialist fields having gone missing according to statistics... ..”

“Some media reports have suspected that these scientists were taken away by the military because some of their research, if applied to the military, would have yielded considerable results, but so far, the military of each country has denied it”

“But this explanation by the military cannot quell the doubts of the outside world! Because according to the investigation, most of these missing scientists have very in-depth research in the field of science and technology, and many of them have overlapping research fields and military applications. So now the outside world suspects that these scientists were not abducted into Area 51 by the Rice CIA.”

“But unfortunately, as the most heavily guarded military restricted area in Rice, Area 51 does not allow any outsiders to enter, including the police, without permission, so up to now, it is still a mystery as to why these scientists have disappeared and where they have actually gone!”

“A spokesperson for the Rice Police said that they acknowledge that the investigation into the case is currently in limbo, but they are not giving up!”

“Similarly some media outlets have said that they will be following the case further”

.....

When the next piece of news rang out, Ji Feng's thoughts retracted, he couldn't help but frown, his heart was amazed that so many scientists had gone missing?

This situation, how to look at it, seemed so bizarre!

Because according to the claims used in the news media reports, most of these scientists' research overlapped with military applications, which means that indeed the military would most likely look at them.

But in fact, if one knows the state of the country, one would know that it is very unlikely that the military would kidnap scientists like this.

Because whoever works with the military signs a confidentiality agreement, they can be called employees, and in fact even mysterious agencies like the CIA, in which people are called employees, simply put, the two sides are by and large in a cooperative relationship.

The same is true of many of the scientists who work with the military, so to say that the military kidnapped these scientists would be really unlikely.

It would not make sense to say that the scientists left on their own, because they could not have left without a word, maybe one or two, but it would not be possible for all the missing scientists to have left without a word, without even saying hello to their families, which is a bit strange!

But if another country or organisation had abducted these scientists, who would it be?

I don't know how it happened, but this piece of news that I heard by chance today made Ji Feng seem to have a not-so-good premonition in his heart.

But to say exactly what was going on, he didn't have a concrete understanding either, he only had that little concept in general.

Ji Feng felt that what Little Uncle said was really right, this was indeed an eventful year!

But no matter what, this matter can only be taken as a news to listen to now, after all, this is something that happened in Rice, even if he wants to ask what is going on, there is no place to ask, unless he can ask Little Uncle later as the investigation deepens.

But for now, it was more important to do the things at hand first.

When he arrived at United University, it was not yet time to go to work, so Ji Feng went to find Tong Lei first, but he learned that Tong Lei was chatting with her friends in the dormitory, so Ji Feng did not bother her.

The few girls in the same dormitory at the university have a very good relationship with her, and Tong Lei also values their friendship, so even though Tong Lei often does not like to communicate too closely with people, she still cares a lot about these few friends.

Moreover, according to Tong Lei, she would also take a lunch break in the dormitory for a while, so Ji Feng naturally wouldn't bother her.

So Ji Feng went straight to Zhang Lei, and hadn't seen this guy for a while, Ji Feng really wanted to see what he was doing now As a result, Ji Feng was pounced on, and only after arriving at Zhang Lei's dormitory did he learn that this guy had actually taken Shen Jingyi out early in the morning.

The result is so much tossing and turning that it was almost time to go to work, and he had to walk towards the school's government building.

Campus Master Chapter 2323

The first person Ji Feng approached was one of the vice-principals in charge of the laboratory.

But unfortunately, this vice-president was away on a business trip, so Ji Feng had to follow the reply given by the United University before and came to the Laboratory and Equipment Management Office.

The office of this management office was on the third floor of the Government Affairs Building. Ji Feng asked Bai Zhu to wait in the car while he went there by himself.

Because Bai Zhu, after all, used to hold a position in the United University, although it was not long ago, many people still had an impression of her, and it was said that there were many faculty members who had pursued Bai Zhu, of course the specific situation Ji Feng did not ask, but the rumors obviously should not be false, with Bai Zhu's looks, no matter where she went, there could not be a lack of suitors.

Now that he is here to talk about cooperation, Ji Feng naturally will not bring Bai Zhu to the city.

Coming to the third floor of the Government Affairs Building, Ji Feng found the office of the Equipment Management Division and knocked on the door, "Knock, knock!"

"Come in!"

A man's voice came from inside.

Ji Feng immediately pushed the door and walked in, and saw that there were four people working in this office, and one of them, who looked like a leader, was looking at the office head-on.

With a smile on his face, Ji Feng said, "May I ask which one of you is in charge, I am a consultant from Jiangzhou Tengfei Group, I have already contacted before coming here to talk about the donation issue"

"Oh~~"

At this moment, the man who was looking at him suddenly dawned on him and said, "You're the one who called before, right?"

Ji Feng smiled and nodded his head, saying, "That's right."

The man's face was instantly piled with a smile as he stood up and shook hands with Ji Feng, saying, "Introduce yourself, I'm the team leader of the equipment division, Chen Chao."

Ji Feng smiled and shook his hand, "Hello."

The team leader called Chen Chao was probably around thirty years old, dressed formally, with shiny leather shoes under his feet, and his hair looked as if he had waxed it or put on gel or something like that, which mirrored his leather shoes.

After confirming Ji Feng's identity, the man named Chen Chao was very enthusiastic, first greeting Ji Feng and going inside to sit down in his office, then instructing one of the girls in the office to pour two cups of tea

"Liu Pei, pour two cups of water and bring them in, hurry up, don't keep the guests waiting for long!" Chen Chao instructed the girl, looking very leader-like.

"Mr. Ji, please come in, let's talk inside." After instructing the girl named Liu Pei, Chen Chao said to Ji Feng again.

While Ji Feng was being polite, he entered the inner office, and before entering the door, he swept a glance back, but saw that the girl who was instructed by Chen Chao skimmed her mouth, seemingly with a look of disdain, only it quickly disappeared, and Ji Feng didn't have time to look carefully, but in his heart, he was slightly puzzled.

His own arrival is not welcome?

Ji Feng looked at Chen Chao, who was full of warm smiles, and shook his head again, for a while he really didn't know how to judge.

But soon, Ji Feng understood something.

"Boom!"

Once the door to the away office was closed, Chen Chao led Ji Feng towards the meeting area of the office, Ji Feng was slightly two steps behind and was about to lift his foot to take a step when he suddenly heard a whisper coming from the office outside.

"Bah! What a person, really, a team leader is just a team leader, why should he treat people like peons!" It was a girl's voice that seemed to be complaining.

"On what basis? Because her uncle is in charge, of course!"

"Then you can't always make Pei do everything, why are you always bullying a girl?"

"It's because Xiao Pei doesn't give him face. I told you, don't be so stubborn, you have to give in when you should, he's the leader after all, not to mention his uncle is the head of our equipment department!"

"Humph! Why should I give him face? He's just a straw man, he doesn't even know the specifications of the equipment, why should he be the team leader here, and he's still telling us what to do, just because he's related to his uncle? I just can't stand such people!"

"Come on, Pei, stop complaining, hurry up and pour water and bring it over, or he'll criticize you again later"

"It's so annoying"

"Shhh you girl keep your voice down, don't let him hear you, you don't know how overbearing his uncle is, if he finds out he won't give you little shoes to wear it's strange!"

"What a crap job, I really want to quit it"

.....

The grumbling and chattering gradually lowered, and finally all the voices were gone, leaving only the sound of pitter-patter footsteps.

Ji Feng then couldn't help but secretly frown, it sounded as if this was a hook-up in the office, or office politics?

"Mr. Ji, please sit down!" Chen Chao said politely.

“Thank you.”

Ji Feng withdrew his thoughts, nodded and smiled, sat down on the sofa and said, “Team Leader Chen, I’m here today because on behalf of the Tengfei Group, I want to talk to you about donations Frankly speaking, because our old boss used to be an employee of the United Building, he still has great affection for our school, so now that he has After having some achievements, he also thought of being able to contribute to the construction of the school!”

Chen Chao nodded and said, “Well! This is a good thing! I just don’t know what kind of donation your group would like to make?”

Ji Feng smiled and said, “Because considering that in science and technology our school’s teachers are strong, but after all, some technologies are updated too fast, and many experimental equipment also need to be updated, but the price of these equipment is too high, and maybe the school can’t replace them in time, so, after consideration, our General Xiao decided to give some equipment to our school’s laboratory”

“Equipment?!” Chen Chao was stunned, he hadn’t really thought that what the Tengfei Group wanted to donate was actually equipment.

“What, is there any problem?” Ji Feng asked.

“No no, I’m just a bit surprised, I originally thought your group was going to donate something else, huh” Chen Chao waved his hand and laughed somewhat unnaturally.

“Hehe.”

Ji Feng laughed twice and said, “It’s not that other things can’t be considered, it’s just that at the moment, the Tengfei Group also has limited financial resources, so it can only donate some equipment first, in fact, there has always been cooperation between the Tengfei Group and our school, such as the cooperation in the counterpart training of talents, as well as the financial support for some poor students, etc., these activities have been held for several years, Group Leader Chen should have heard of it, right?”

Chen Chao nodded and said, “Of course, I have heard of it.”

Ji Feng smiled, “This is it Our General Manager Xiao has always been willing to make some contributions to our school, and this donation of equipment is likewise the same, with these new equipment, I believe our school should be able to have a greater advantage in scientific research, and perhaps achieve more scientific research results. ”

Chen Chao said, “Well, that’s a good thing.”

Ji Feng then couldn’t help but frown slightly because he noticed that Chen Chao seemed to have become not so enthusiastic, how can I put it, it was as if there was a disappointment?!

Right!

It seems to be disappointment.

Just now, when he heard himself say that what he wanted to donate was equipment, this Chen team leader's eyes were obviously stunned for a moment, as if he was a little surprised, and then became a little less enthusiastic, and although the disappointment on his face was just a flash, it did not escape Ji Feng's eyes.

Ji Feng then wondered a bit how Chen Chao could have such a reaction.

"Since Team Leader Chen supports it, then please sort it out and see what equipment is all still missing from the lab, and the Tengfei Group will definitely try to make up for these missing equipment as much as possible within its capabilities!" Ji Feng smiled and said.

"Okay, but now that it's almost holiday time, a lot of things need to be busy, and everyone probably has quite a lot of work on their hands, so this might not be sorted out in a short time." Chen Chao said, "How about this, I'll try to sort it out first, and I'll contact you if I get a result?"

Although Ji Feng was surprised in his heart, but on the surface, he did not move even half a sound, but said, "Of course."

"Then don't know if it's convenient for Mr. Ji to leave your personal contact information?" Chen Chao asked.

"If there are results, you can just contact the Tengfei Group directly." Ji Feng smiled, "As long as you contact the Tengfei Group, it's fine to ask for General Manager Xiao, or General Manager Han, I'm doing things by their arrangement"

"Eh~~~!"

Chen Chao but waved his hand and said, "That's not the same, work is work, friends are friends, I am trying to make you a friend, and at the same time, I can work while making friends, isn't that good? What do you think?"

Ji Feng smiled, his eyebrows couldn't help but raise as he nodded, "That's true, my personal contact information is it? OK, no problem!"

Saying that, he casually picked up a pen, then took out another note pad, swish wrote his mobile phone number on it and handed it to Chen Chao, saying, "This is my private number, if Team Leader Chen has the result, he can contact me at"

Chen Chao smiled, "Good point, a must"

Ji Feng then once again had a strange feeling, he slightly had a surprised glance at Chen Chao, but saw that the latter had a bright smile on his face, completely different from the coldness just now, if Ji Feng did not see it with his own eyes, he would really think that he was blinded just now.

What was the meaning of this?

Ji Feng was a bit puzzled, but he didn't think much more about it, no matter why this Chen Chao would be enthusiastic at one moment and cold at another, or whether he had a problem with his nerves, as long as he could wait for him to sort out the list of equipment and talk about it then, and, when it came to the real donation, Chen Chao, a team leader, couldn't make the decision, and at least the director of the equipment department would have to step in.

Therefore, Ji Feng did not think much about why this Chen Chao reacted abnormally, and after these matters were settled, he got up and left the office of the Equipment Management Division.

But as he was leaving, Ji Feng remembered the discussion he had heard earlier, so he took note of the few people in the outer office and took their appearance to heart before leaving.

However, even though he had already left the government affairs building, Ji Feng's heart was still somewhat muttering.

Campus Master Chapter 2324

As it turned out, Ji Feng's doubts were not unreasonable, and at around five o'clock that afternoon, Ji Feng suddenly received an unfamiliar phone call.

"This is Ji Feng, who is it?"

"Mr. Ji? I'm Chen Chao ah." A smiling voice came over the phone, "We met around two o'clock this afternoon"

"So it's Team Leader Chen!"

Ji Feng immediately remembered this person who called, this person was that team leader of the United University's Equipment Management Division, Chen Chao.

Ji Feng said, "Team Leader Chen, is the list of equipment sorted out?"

"That's right!"

Chen Chao said with a smile, "The list is partly sorted out, however, there are still some issues that need to be communicated with you, Mr. Ji, I don't know if you have time now, I would like to invite you to have a cup of tea, how about sitting down and talking specifically?"

Have a cup of tea?

Ji Feng was slightly stunned, then he nodded, "No problem, I'll treat you, where is the place?"

Chen Chao smiled and said, "It's at the teahouse across from the east gate of the school, I've already booked a place, you can just come directly."

Ji Feng nodded and said, "That's good, I happen to be at the school too, I can get there in about twenty minutes."

"Alright then, I'll see you then." Chen Chao said with a smile, and then hung up the phone.

"Drink tea" Ji Feng deliberated for a moment and turned around and said, "Lei Lei, I have some things to take care of, I can't go home right now, it just so happens that the location is not far from here, so you should also go over there and go home together when the matter is finished. "

"Mm."

Tong Lei nodded her head.

Afterwards, Ji Feng and Tong Lei took Han Zhen and Bai Zhu and their group of four people to the east gate of the United University, there was a teahouse just diagonally opposite, after entering, Ji Feng saw that Chen Chao was sitting in the rest area waiting.

“Mr Ji, this way!” Chen Chao greeted with a smile when he saw Ji Feng.

“Lei Lei, you guys find a seat at random first.” Ji Feng first arranged for Tong Lei and the girls, and then only then did he walk over.

However, Chen Chao was leading him straight inside and entered a private room.

Chen Chao smiled and said, “Mr. Ji, it’s like this, besides asking you out today to talk about the donation, I also want to introduce a friend to you

Ji Feng did not move and asked, “Who is it?”

Chen Chao smiled, “We’ll know when we get in, let’s go

He said, he pushed the door of the box open, Ji Feng immediately saw that there was another person in the box, Ji Feng looked up and down the other party a few times and found that it was a middle-aged man of about forty or fifty years old, some shedding, the left side of the uniformly long hair turned over from the top of the head, just to cover the piece of ‘skylight’ on the top of the head.

Just looking at the first glance, Ji Feng was a little displeased with this man.

It’s not that Ji Feng judges people by their appearance, in fact, this middle-aged man is not too ugly except for the top of his head, although it’s not considered to be a talent, graceful, but at least it’s also considered to be a middle-aged man with some mature temperament.

However, this man’s eyes, but some treacherous, eyes wavering, let a person a look at some dislike.

Ji Feng secretly said, if such a person appears in a TV series or movie, it will definitely only be the life of the villain, if playing a good guy then I’m afraid the audience will not be comfortable watching

“Mr. Ji, let me introduce to you, this is the head of our equipment management office, Lu Xinfu.” Chen Chao’s words shifted Ji Feng’s attention, “This is Ji Feng, the consultant of the Tengfei Group.”

“How are you, Supervisor Lu!”

Ji Feng smiled and extended his hand, thinking, “So he’s the supervisor of the equipment management office, the same one that those few Chen Chao’s were secretly talking about at the same time earlier, Chen Chao’s uncle!

However, when Chen Chao was introduced, he didn’t say that this supervisor Lu was his uncle!

“Mr. Ji is really young and talented!” Lu Xinfu smilingly stood up, shook hands with Ji Feng and said, “Mr. Ji, haven’t we met somewhere before?”

“I don’t think so?” Ji Feng smiled, “I’m a rather nerdy person, I easily don’t come out much

“No, I’ve heard of your name before, it sounds familiar.” Lu Xinfu said.

“That is also possible!” Ji Feng nodded with a smile and said, “Actually, I’m also a student of our school.”

“I told you so!”

Lu Xinfu said with a smile, “You are worthy of being a student of our school, young and talented, Mr. Ji, you are the pride of our school, even after leaving the school you don’t forget to contribute to our school

Ji Feng did not say that he had left the school, but in Lu Xinfu’s opinion, since Ji Feng was already a consultant of the Tengfei Group, it was obvious that he had already graduated, so he interpreted Ji Feng’s remark as, I was once a student of our school too

“Supervisor Lu is overly complimentary.” Ji Feng smiled and said.

A few people exchanged pleasantries again.

After drinking tea for a while, Ji Feng asked, “Supervisor Lu, Team Leader Chen, has the list of equipment been compiled?”

Chen Chao nodded and said, “That’s right, the list has indeed been sorted out.”

Ji Feng asked, “Then give me a copy, as long as it is within our Tengfei Group’s capabilities, we will try our best to purchase it, it is also considered to be a contribution to the construction of the school.”

Chen Chao then exchanged a glance with Lu Xinfu, seemingly exchanging something at that moment, and Ji Feng looked at them without moving a muscle.

“Mr. Ji, it’s like this

list is sorted out, only, there are still some problems in it.” Chen Chao said vaguely, “This time, I asked you to come here, in fact, I want to communicate with you about these issues.”

“Oh? What issues?” Ji Feng asked. Chen Chao had already said that there was something to communicate over the phone before, so Ji Feng wasn’t surprised.

“The main thing is that there is some equipment that is not easy to purchase now, and a lot of the equipment in our lab now is actually bought after communicating with foreign countries through the relevant state departments.” Chen Chao said, “Therefore, if the Tengfei Group alone is to purchase, I am afraid that some special equipment will not be able to buy the right

Ji Feng was then a little surprised, “Is that so?!”

“What Xiao Chen said is correct!” At this time, Lu Xinfu spoke up, he said: “Now many of the equipment in the laboratory, is my hands to buy, so I am the most clear about this, Mr. Ji, you may not know too well, for some cutting-edge equipment, foreign blockade is very strict, want to buy is actually very difficult.”

Ji Feng nodded thoughtfully, and then asked, “Then, how should this problem be solved? Can’t we let the school step in and then ask the relevant state departments to help communicate?”

Lu Xinfu laughed, “It’s not that easy, there are so many colleges and universities across the country that are actually lacking in equipment, but the foreign embargo is so strict, the amount that can be bought every year is really limited, and then divided into each college and university, there is not much.”

“Then what should be done about it?” Ji Feng asked.

“We can only make an application first, then book it, attack it as much as possible, and ask someone from the state department to help.” Lu Xinfu said.

“Will that do?” Ji Feng asked.

“The problem shouldn’t be very big, however, the time is a bit longer, moreover, it will cost a bit more and the funds have to be in place first before we can do it.” Lu Xinfu said.

“So that’s how it is

Ji Feng nodded thoughtfully.

Chen Chao sighed next to him, “Alas! It’s our country’s fault for being backward, some of the top-notch equipment simply can’t be produced by ourselves, otherwise, where would we need to be so embarrassed

Ji Feng, however, didn’t wait for him to put words into his mouth before he said directly, “Then we won’t buy top-notch equipment!”

“Sh, what?” Lu Xinfu and Chen Chao were but stunned at the same time.

“Actually, although this donation plan was initiated by General Xiao, but to put it in a way that I’m not afraid of joking you two, the Tengfei Group’s current funds are not particularly generous.” Ji Feng shook his head, “Therefore, as I said before, the Tengfei Group can only donate as much as it can within its means.”

His gaze was fixed on the eyes of both Chen Chao and Lu Xinfu as he said, “If we were to purchase which top-notch equipment, I’m afraid that the entire donation from the Tengfei Group together may not be able to buy a single

“No way?”

Chen Chao was a little surprised, “We’ve heard of the Tengfei Group, the sales of that Kang Yuan slimming powder and 3D TV sets are booming, how could there be no money

“Xiao Chen!”

Chen noisy to before he could finish his words, he was stopped by Lu Xinfu, while glaring at him, saying, “Don’t talk nonsense, listen to Mr. Ji finish his words first!”

Seeing this, Ji Feng understood something in his heart, and a meaningful look appeared on his face.

It seems that there seems to be some dao in between

“Mr. Ji, then what you mean is” Lu Xinfu stopped Chen Chao and looked at Ji Feng again, “I wonder how much your group wants to contribute? Can you say a rough range? Because the lab is lacking too much equipment right now, so

“This is not easy to say, it mainly depends on what equipment is missing in the lab, some of the equipment that is easy to buy, we will go directly to buy it in the name of the Tengfei Group

“This is not good, right?”

Lu Xinfu said, “For this aspect, if someone who is not a professional goes to buy it, problems will easily arise! Mr. Ji, I think how about this, you go through the list first, then we’ll contact the merchant”

Ji Feng laughed at this, he shook his head and said, “Sorry, I just need the list of equipment, as for the ordering and shipping and all other aspects, our group will send someone to take care of it.”

Lu Xinfu’s face suddenly looked a little less than pleasant as he frowned and said, “Mr Ji, this is not good. If the equipment you buy doesn’t work well, or simply doesn’t fit, then it will be”

Ji Feng smiled and said, “If that’s the case, our group takes full responsibility.”

However, as soon as Ji Feng said this, at once, Lu Xinfu’s face sank completely.

Campus Master Chapter 2325

“Mr. Ji, this is not appropriate, is it?”

Before Lu Xinfu could say anything, Chen Chao couldn’t help himself and said in a low voice, “Mr. Ji, it’s good that the Tengfei Group wants to make a donation to United University, however, how to donate, it always depends on what we need!”

“What Xiao Chen said is correct.”

Lu Xinfu took over and said, “Mr. Ji, donations also depend on what we need, otherwise, wouldn’t it be a violent donation? Of course, Xiao Chen is still young and his words may not sound too good, so Mr. Ji should not take it personally!”

Ji Feng laughed, he could see that these two people, Lu Xinfu and Chen Chao, were actually expressing the same thing – they should listen to them on how to donate!

Moreover, these two people obviously do not want the Tengfei Group to donate equipment directly, but want to ask for funds directly or rather, they want the Tengfei Group to buy the equipment they specify!

What is their purpose in doing so huh, even a fool can guess.

If the money is given directly, when the time comes what equipment is bought and how much is spent, the fishy in between can be big.

Especially those equipment that can easily cost hundreds of thousands of dollars, often one can take tens of thousands of dollars in rebates.

What’s more, no one can say whether they will really buy the regular equipment after they have taken the money, and this kind of thing is not unheard of.

It is said that a certain big businessman donated a large sum of money to the ‘Black Cross’ to buy some medical equipment to be sent to the hospital, which was originally budgeted at around one million per unit, but was later exposed by the media and it was found that the Cross only bought some medical supplies, such as gauze, scalpels and other. The hospital had been given some medical supplies such as gauze and scalpels!

That's all they got, and only after the hospital people treated them to gifts.

In the middle of all this, tens of millions of dollars were swallowed!

It can be imagined that this kind of direct donation of money hides a lot of foul play. Of course, Ji Feng would not do such a stupid thing, originally wanting to do a good deed, but ended up feeding these assholes with money.

So when Ji Feng smiled, he just smiled and said, "In that case, if I don't do what you guys say, this equipment won't be donated?"

Chen Chao said, "That's pretty much it. If you donate some equipment that we don't need, not only will it take up space, but it will also require maintenance and upkeep, and that alone will cost a fortune, not to mention that the land at the Union University is already very tight right now, so it's not even certain if there will be room for the equipment you donate."

"Supervisor Lu, is that what you mean too?" Ji Feng's brow then couldn't help but wrinkle as he looked at Lu Xinfu.

"What Xiao Chen said is correct!"

Lu Xinfu nodded and said, "The land for the school's laboratory is indeed very tight, and now that there are so many students, the student dormitory alone is already taking up a lot of space, so, Mr. Ji, why don't we discuss the proposal we just made again?"

Ji Feng asked, "Discuss what?"

"It's to discuss how much money your group should donate as appropriate"

"Boom!"

Ji Feng slapped the table fiercely, interrupting Chen Chao's words and even shaking two of the tea cups on the table, with tea water flowing everywhere.

Lu Xinfu and Chen Chao were stunned at the same time and looked at Ji Feng in shock.

"How greedy and shameless!" Ji Feng shouted angrily.

"Young man, what do you mean by that?" Lu Xinfu's face became unsightly, a youngster dared to heckle him like that in front of him, which made his face a little embarrassed and his heart very annoyed.

"What do you mean?"

Ji Feng sneered and said, "You still have the nerve to ask me what I mean? Lu Xinfu, I think you've lived to be a dog at this age!"

Chen Chao immediately said angrily, "Kid, be careful what you say!"

"What I said is not right?!" Ji Feng sneered, "As the leader of United University, you Lu Xinfu don't think about how to do something for the school and how to create the best conditions for the students, that's just fine, but now you dare to deliberately push other people's donations out of the way in order to reap

benefits for yourself, just because I didn't agree to your request and didn't create opportunities for you to reap benefits! "

"You are simply shameless!" Ji Feng shouted angrily.

"Surnamed Ji!"

Chen Chao also slapped the table and stood up, angrily saying, "You'd better be careful what you fucking say, don't think you're somebody, I'm telling you, if you dare to be reckless again, don't say I'll smack you!"

Ji Feng snickered, but ignored Chen Chao.

Smacking him?

That was a big joke!

"Young man, you'd better be careful with your words, or else hum." Lu Xinfu's face was also ugly, being reprimanded by Ji Feng pointing at his nose like this, he was extremely annoyed in his heart.

However, after all, Lu Xinfu was not Chen Chao, he was more able to hold his temper, moreover, he was much more experienced than Chen Chao in such matters.

So after a pause, Lu Xinfu said, "Young man, you sit down first, what you have to say can be said calmly Xiao Chen, you also sit down, do not move to slap the table and pound the bench, scare who?"

Chen Chao gritted his teeth, but his heart was still more or less reluctant, still looked at Ji Feng fiercely, before slowly sitting down.

"Young man, what, don't you want to continue talking?" Seeing that Ji Feng was still standing there, Lu Xinfu asked.

"What do you want to talk about?" Ji Feng said in a deep voice, "If you still want to talk about that topic just now, then I'm telling you, spare yourself the trouble and don't make yourself uncomfortable!"

"....."

Lu Xinfu gritted his teeth in anger, almost about to hold back, this young man was too arrogant.

But in the end, Lu Xinfu couldn't hold back his anger and said in a deep voice, "You always have to sit down first so that we can continue to talk, what do you think?"

Ji Feng stared at him for a moment, and then only then did he slowly sit down.

Lu Xinfu's face eased up a bit and said, "That's right, young people should not be so angry or so sharp, there are some things that you always have to talk about before you know if there is any result, what do you think?"

Ji Feng said, "Say it, I'm listening."

"Oh"

Lu Xinfu laughed and said, "Don't be impatient for a moment, this tea is spilled, I'll go and order another pot of tea Xiao Chen, you come out with me for a moment."

Chen Chao was slightly taken aback, but he soon reacted and understood what Lu Xinfu was calling him out for, so he immediately stood up and followed him out.

Ji Feng sat alone in the box and could not help but sneer, this Lu Xinfu was shameless to the extreme and greedy to the extreme.

How could a person like this still deserve to be a leader in the school?

At this moment, outside the box, Chen Chao was complaining, "Uncle, that kid is too rampant, why did you stop me, let me teach him a lesson, see if he dares to blow up in front of you!"

But Lu Xinfu glared at him and said, "You know how to be brave, what else do you know?"

"Then he is too rampant." Chen Chao said with some aggravation.

"No brains!"

Lu Xinfu grunted and said, "What's wrong with being wild? The more rampant he is, the better!"

When Chen Chao heard this, he couldn't help but be a little confused, and said in astonishment, "How is it okay to be wild? Uncle, what do you mean?"

Lu Xinfu said, "The more rampant that kid is, the more it means that he has a lot of weight in the Tengfei Group.

When Chen Chao thought about it, he asked, "But how does that work?"

"Since he carries a lot of weight in the Tengfei Group, he will probably be able to make the decision on exactly how much money the Tengfei Group will donate when the time comes The key depends on, how to enlist him!" Lu Xinfu said meaningfully.

"I get it!"

Chen Chao suddenly realized and said, "Uncle, you are trying to use that previous trick to deal with that kid and deliberately set his words"

Lu Xinfu immediately shouted in a low voice, "Keep your voice down, don't even look at what kind of place this is!"

Chen Chao then shrank his head, but with a treacherous look on his face he smiled heatedly and said, "Uncle, I understand what you mean, so let's go and talk to him now?"

Lu Xinfu, however, shook his head, "No! This time you go and say it, since this kid is so rampant, it's better for you to deal with him, otherwise, if he says anything else, I guess I'll be pissed off to death!"

Chen Chao immediately nodded without thinking much at all and said, "Alright then, I'll go to"

Watching Chen Chao push the door into the box, Lu Xinfu's face couldn't help but reveal a cold smile, kid, see how you can still jump around this time!

Immediately, he remembered something else, shook his head and said, "Nephew well, filial piety to uncle is proper I have taken care of you for such a long time, it's also worthy of you!"

.....

"Mr. Ji"

Chen Chao pushed the door and walked in, changing his previous anger, with a bright smile on his face, he said, "Sorry, I went to the bathroom just now, it's like this, Mr. Ji, actually you misunderstood Supervisor Lu, he didn't mean what you thought."

Ji Feng said, "Then what did he mean?"

Chen Chao laughed, "Hey! In fact, he is also thinking of the school, after all, the laboratory land is now very tight is not but then again, in fact, your suspicions are also understandable, the human well, who can not have a little selfishness ah! As the saying goes, if a person does not do it for himself, he will be killed, so it's okay to think about yourself a little more, isn't it?"

Ji Feng nodded his head and said, "That's true!"

In his heart, he was laughing coldly, Lu Xinfu was just a little selfish? He really deserved to be executed by heaven and earth!

And when Chen Chao saw Ji Feng nodding in agreement with him, the smile on his face became even wider and he said, "Actually, Mr. Ji, I do think that it's better for you white collar workers to have a high salary and a decent job, unlike us, who sound good and are university staff, but actually have a salary that is just enough to live on, and are usually a bit shy when it comes to favors and gifts. Ah"

Campus Master Chapter 2326

Ji Feng shook his head and said, "You can't say that, in fact, although we have a higher salary, we also spend more, and we can't even be reimbursed, after all, you are still an authentic state unit, but we are a private enterprise, there is definitely a difference in treatment."

Chen Chao laughed and said, "It looks like we're in the same boat, in a word, money is not good nowadays, the world is tough."

Ji Feng said, "You're right about that. Money is not easy to earn, so it is indeed extraordinary that our Mr. Xiao can take out so much money to donate and support the construction of our school."

"That's right that's right!"

Chen Chao nodded and said, "You're right, but, no matter how great your group is, we who are minions always have to live, right? Oh, no, I should be the minion, Mr. Ji, since you are a consultant of the Tengfei Group, you must be a senior executive"

Ji Feng shook his head and said, "What kind of executive is that? After all, I'm just working with others"

He paused here, with a smile if any at the corner of his mouth, and said, "Actually, to put it mildly, my salary is not high, and the white collar life is not as good as the outside world imagines."

Chen Chao laughed, "Then in that case, the two of us are even more in sympathy with each other."

"Indeed!"

Ji Feng laughed and nodded his head.

The smile on Chen Chao's face then became even wider as he laughed, "Ugh! In fact, I think that we should think more about ourselves, if we can get promoted and get rich, it's naturally better, but if not, then we can only find ways to get some benefits for ourselves, don't you think so?"

"That's true!" Ji Feng nodded his head.

"So that's why"

Chen Chao slapped his thigh and said, "It seems that the two of us actually have a common language! So what old brother, I have something I want to discuss with you, whether you agree or not, let's hear me out first, what do you think?"

Ji Feng nodded his head and said, "Go ahead."

Chen Chao then nodded and smiled: "Actually, it's like this, you know, we are not too easy for these small minions, so then, this time the matter of donating equipment, as long as the two of us join hands to operate, at least one Audi each is sure to earn you don't stare first, listen to me finish my words. "

The smile on Ji Feng's face then completely disappeared, and he said in a deep voice: "You say!"

Chen Chao's heart then couldn't help but be happy, since Ji Feng didn't interrupt him this time and was willing to listen to him, this means that this kid is also moved, just now maybe he can't get past that hurdle in his heart, or there are some other concerns, but this is definitely a good opportunity that must be seized.

So Chen Chao immediately continued, "If, say, the Tengfei Group donates a million, then, with me running the equipment division and you in charge of the donation, when the time comes, what equipment is bought and how much money is spent, then aren't we both still in charge?"

Ji Feng was silent.

Seeing this, Chen Chao hurriedly said again, "Of course, this time, we definitely won't let you work hard for nothing, how about this, no matter how much we earn, the two of us will split it 50/50, what do you think?"

What a beautiful calculation!

Ji Feng sneered in his heart, and at the same time was indignant, Chen Chao and Lu Xinfu were really shameless to the extreme, so that he simply did not know what words to use to describe them.

Greedy, shameless, yet morally upright!

Seeing that Ji Feng was still silent, Chen Chao added: "It seems that old brother's life might be a little more difficult, so how about this, a 40/60 split, me 4 and you 6, what do you think?"

Ji Feng shook his head and didn't say anything.

“Damn it!”

Chen Chao cursed in his heart, “Not too old, but people are so greedy, what the fuck

“San Qi!”

Chen Chao gritted his teeth and said, “I’m three and you’re seven! This is the biggest concession I can make, no matter what, you have to let me have some soup when you eat meat, right? What do you think?”

Ji Feng frowned, but did not say anything.

Chen Chao was very anxious in his heart and secretly said, “Damn, do you still want to have a 28% share? You’re so greedy that you’re not afraid of dying! Thanks to you, you were acting so righteous before.”

While Chen Chao was secretly gnashing his teeth, Ji Feng lifted his head and said, “Two-eight! I’m eight, you’re two! If it works, it works, if not, pull back!”

“.....”

When Chen Chao heard this, he almost didn’t choke to death on his own saliva, he almost cursed, this son of a bitch was too greedy, right? You really want 80%?

If I really gave you 80%, then wouldn’t I have worked hard, only to have you take all the benefits away?

“Little brother, that’s a bit too much to ask

“I’ll just say one thing, make it happen, forget it if it doesn’t.” Ji Feng, however, did not give him a chance to argue at all and said directly and simply.

“..... good!”

The first thing I want to do is to make a friend of you, there are plenty of opportunities for you in the future. How’s that? Are you satisfied?”

“That’s more like it! Wait a minute, I have one more question”

Ji Feng nodded, but soon, he frowned again, seemingly remembering something else, and said, “But, when the donation is implemented, the group will definitely send someone over to verify it, and then if they can’t see the equipment, then

Chen Chao immediately laughed: “I thought something was wrong, don’t worry, put it this way, how much equipment is in the school now, maybe even the headmaster may not know, but I know very well, I can completely treat some of the brand new equipment as if we just bought it, in this way, you don’t say, I don’t say, how will the people sent by your Tengfei Group know? it?”

Ji Feng frowned and said, “Is this really possible? But what if the people from the group want to check the invoices of the equipment purchased, the shipping list and other such things? You have to know, although the equipment can be fooled around, but the dates on the invoices and shipping lists are not easy to fool around with!”

Chen Chao laughed and said, "Older brother, the reason you have such doubts is because you have not been in this business, so you are not quite sure In China, there is an industry called fake certificates, and there is also something called a skin company, where you can register one for a dollar, and then the phone number and everything else is available. All have, who comes to investigate are not afraid!"

Ji Feng laughed: "So that's how it is I didn't think of that."

Chen Chao was a bit proud and said, "That's why it's definitely right for you to cooperate with me, don't look at my position in the United University, but I know some people from all three religions and nine streams outside.

Ji Feng nodded thoughtfully, and then couldn't help but shake his head with a smile and said, "This is really a snake has a snake path, a rat has a rat path, the so-called chickens don't pee, each has their own path, that's what it means, right"

"Uh"

Chen Chao was instantly choked, and that smug laughter instantly came to a screeching halt.

Damn it!

Chen Chao heart that putty don't mention, Ji Feng this words can really some putty people, who is snake, who is rat? And who the hell is a chick that doesn't pee

The actual fact is that you will not be able to talk about it.

Chen Chao was really depressed in his heart, if not for the sake of money, he really didn't want to say half a word more to Ji Feng, but even thinking about money, Chen Chao was still a bit depressed in his heart, he had to comfort himself, "Let him be mad, when the time comes, he will have to cry!"

"Old brother, then we can just talk it out." Chen Chao said, "The Tengfei Group will need you to communicate with them." "Older brother, how much money we can make this time depends on how much money you can get!"

"I understand."

Ji Feng nodded, and after a pause, he asked, "Does Supervisor Lu know about our matter?"

"He ah"

Chen Chao shook his head and said, "He doesn't know, one less person knowing about such matters is one less risk, if only the two of us know, then surely nothing will go wrong."

"But isn't Supervisor Lu your top supervisor?" Ji Feng asked, "Without his consent, can this kind of thing be played?"

"Hey!"

Chen Chao laughed, "Don't worry, I can definitely operate it"

Ji Feng was then a little disappointed in his heart as he nodded, "Alright then, I'll take care of the Tengfei Group side."

Chen Chao laughed, "Then I wish us a happy cooperation and we will all make a fortune together!"

Ji Feng smiled and shook hands with Chen Chao before suddenly asking, "By the way, won't it have a big impact on those students if we do this? If that money really buys equipment, then maybe it will give those talented students a chance"

"Ha!"

Chen Chao laughed, "How many of the students nowadays are sincere in their studies? Besides, we are trying to make money, why do we care so much, besides, a few less scientists won't extinguish the country"

Ji Feng smiled and nodded: "I understand, you think really well"

Chen Chao immediately smiled smugly again.

And then, Ji Feng deliberately led the topic towards Lu Xinfu, but Chen Chao was never going to mention that Lu Xinfu was also involved in this matter and was also a bit wary, so Ji Feng had to let it go.

When Ji Feng walked out of the box, the smile on his face instantly disappeared without a trace, and in its place, there was a scowl and a stern look.

"Shameless bastard!"

Ji Feng couldn't help but shout angrily in his heart, this Chen Chao's behaviour, using the word shameless was simply not enough to describe it!

This is a scum of the earth!

Listen to what he has said He only cares about making money, he doesn't care about that much, a few less scientists and the country won't perish This is what a faculty member said!

And Lv Xinfu!

Campus Master Chapter 2327

And Lv Xinfu!

Ji Feng's eyes were cold, he firmly believed that without Lu Xinfu's acquiescence, Chen Chao would never have dared to do this, and even if he dared, he would never have dared to do it in such a blatant manner!

But now, Lv Xinfu had taken himself out of the picture and sent Chen Chao to show his face. It seemed that he had nothing to do with this matter, but the words he said in the box before had exposed his nasty thoughts.

Ji Feng couldn't help but smile coldly. I'm afraid the reason why Lu Xinfu came over was to fool himself and make him listen to his arrangements, but when he failed to do so, he was scolded by himself instead, so Lu Xinfu took himself out of the picture and left everything to Chen Chao.

This cunning old bastard!

Ji Feng couldn't help but curse, this man was really greedy and shameless, and a total nasty villain to boot!

"If I don't make you whole this time, I'll be sorry for your shamelessness!" Ji Feng secretly snorted coldly, and then, he took out his mobile phone and dialed Bai Zhu's number.

"Young Ji."

Bai Zhu's voice came through.

Ji Feng immediately said: "Bai Zhu, you follow the two people who went out from my box here, one of them is called Lu Xinfu and the other is called Chen Chao, you find a way to hear what they are saying, in addition, if possible, it is best to be able to record their conversations"

Bai Zhu didn't have a second thought when he heard that and immediately responded, "Yes!"

Ji Feng closed the line and couldn't help but sneer, China is just too many people like this, that's why it seems so confusing in many ways, in fact, such people are those so-called crooked-mouth monks – there are no evil scriptures, only crooked-mouth monks!

In fact, many of the policies from above are good and have good starting points, it's just that because there are so many of these crooked-mouthed monks, this scripture is being recited in a crooked manner.

.....

After receiving Ji Feng's instructions, Bai Zhu had just put down the phone when he saw a young man come out of the box. Bai Zhu knew this person, the same person who had greeted Ji Feng at the teahouse earlier.

Bai Zhu whispered a few words to Tong Lei and Han Zhen, then got up and followed them.

When he followed Chen out of the teahouse, he saw him walking directly towards the car park, and looking at the direction he was going, it seemed to be a black Volvo car.

The car had a man sitting in the passenger seat smoking a cigarette, because the window was down, the man's arm was stretched out to flick the ashes, Bai Zhu could see it clearly.

Bai Zhu was secretly anxious that if he let Chen Chao get into the car, it would not be easy to get close to them.

After all, it would be too obvious if she were to follow them when they were sitting in the car talking, or just driving away.

Besides, Bai Zhu was not sure if they knew her, after all, she had once been a teacher at United University Even though she had come with the purpose of approaching Ji Feng at that time, she was aware that the impact she had caused at United University was not small, and many people had paid attention to her.

"What should I do?"

Bai Zhu was anxious in her heart, but her face showed no sign of it, she even looked like a customer who was leisurely leaving after spending money in this teahouse, more like a rich girl who was idly bored living a petty life

Disguise, this was too easy for Bai Zhu. But how to get close to the other side, she didn't have any good ideas yet. Not to mention, finding a way to record the other party's conversation

Recording?

The first thing you need to do is to take out your mobile phone and turn on the recording function, then take a few quick steps and keep a distance of less than half a meter from Chen Chao.

And then, Bai Zhu walked past without hesitation, as if she was a passer-by.

Throughout this whole process, Bai Zhu was so calm, and because of this, she did not attract the attention of Chen Chao and the two of them. Until Bai Zhu went around behind the other cars and then waited at a place not too far away from that Volvo, Chen Chao did not even realise that he was not only being followed, but was even being bugged.

At this moment, he was saying with a face full of excitement, "Uncle, it's all done."

The person sitting in the passenger seat was none other than Lu Xinfu, who had casually found an excuse to leave the teahouse earlier. At this moment, he was leisurely smoking a cigarette and said with a faint smile, "It was expected! That kid looks arrogant, in fact the more this kind of person is the better he is to fool, if he is a bored gourd, instead he may not be that good to deal with"

"Still uncle is great, at that time that son of a bitch was so wild, I could hardly resist getting up to beat him up, if you hadn't stopped him, I'm afraid he would have fallen to the ground by now!" Chen Chao said.

"You, you're still too young."

Lu Xinfu glared at him and said, "In this society, it's no longer possible to eat fighting and killing, besides, what is your status? You're not afraid of losing your status by beating him up! I'm telling you, nothing is as important as money now! What's more, we've made money this time, and we've been able to screw that son of a bitch at the same time, what could be more enjoyable than that?"

Chen Chao nodded his head in agreement, "Yes, uncle, you're absolutely right. That little bastard dared to be so rampant, yet he would never have thought that from the moment he nodded his head and agreed to my plan, he had already fallen on his face, not to mention, he even bargained with me later, and even greedily wanted a twenty-eight share"

Saying that, Chen Chao took out his mobile phone from his pocket, then pressed a few times on it, and soon, the sound of two people talking came from the phone.

"Older brother, we really share the same illness"

"When we earn money, we will share it 50-50, what do you think?"

.....

“Four-six, I’ll make it forty percent and you’ll make it sixty percent

“Twenty-eight

.....

What was playing in this mobile phone was exactly the conversation between Chen Chao and Ji Feng, which was surprisingly recorded by Chen Chao.

When Lu Xinfu finished listening to the recording in the phone, he couldn’t help but sneer and said, “Twenty-eight percent? His appetite is really not small, isn’t he afraid of prolonging his death?”

Chen Chao laughed heatedly, “He will definitely be propped up to death!”

“Hmph!”

Lu Xinfu couldn’t help but snicker, remembering how that little bastard dared to scold himself before, even dared to slap the table and glare in front of him, and pointed his nose at him in rebuke, he was furious.

Little bastard, let’s see how you die this time!

“For that son of a bitch, don’t relax, you can tighten up a bit appropriately, let him know what he has done!” Lu Xinfu said, “Only then will he know how much weight he has and only then will he honestly cooperate with us.”

“I understand!”

Chen Chao nodded, “Uncle, don’t worry, I will call him tonight and let him listen to this recording

Hey, I believe he will definitely cooperate honestly after listening to it, moreover, he might even take the initiative to get a little more funds from the Tengfei Group!”

Lu Xinfu said, “Also be careful not to push him too far, be careful of him jumping to the wall in a hurry!”

Chen Chao nodded and smiled, “I know, it’s not the first time I’ve done this, I have experience.”

“Well, I’m still more comfortable leaving things to you!” Lu Xinfu nodded his head.

“Uncle, it’s not too early, let’s go and eat, let’s celebrate in advance first!” Chen Chao said smugly.

“Well!”

Lu Xinfu nodded and was satisfied with how things had turned out, he said, “How about this, today I’ll take you to a place you’ve never been to before

.....

“Buzz~~!”

The sound of the car starting suddenly rang out.

Bai Zhu’s beautiful eyes immediately narrowed slightly, she immediately heard that it was the sound from the Volvo, the other party was about to leave!

Without any hesitation, Bai Zhu immediately walked over quickly and arrived in front of the car, she knocked on the door window, “Knock knock!”

“Buzz~”

The car window came down, Chen Chao looked at the woman in front of him with some confusion, but when he got a good look at the woman’s appearance, his eyes suddenly lit up.

It was so beautiful!

Chen Chao looked at Bai Zhu with astonishment and a kind of greed and asked, “This beauty, what do you want?”

“Chen Chao, don’t you recognize me!?” Bai Zhu said.

“Eh?”

Chen Chao was stunned, “You know me? You are”

“Little Chen, how come you don’t even know our school’s beautiful teacher?” At this time, Lu Xinfu, who was sitting on the passenger seat, spoke up, he pushed open the car door with a nimble movement, and then walked towards Bai Zhu with a smile on his face, saying, “Teacher Bai, I really didn’t expect to meet you here, what a coincidence, hello hello”

“Hello.”

Bai Zhu nodded slightly and was about to politely go to shake his hand, but before their hands could touch, Bai Zhu suddenly slipped on his feet and his whole body suddenly leaned back and stumbled.

“Ouch~~!”

Bai Zhu held onto the car door at once.

Lu Xinfu immediately stepped forward and reached out towards Bai Zhu’s waist, but his mouth was very concerned as he asked, “Aiya, what happened to you, teacher Bai, are you alright?”

“Yes!!!”

She rubbed her arm, then suddenly remembered something and hurriedly felt her pocket, saying, “Ee? Where is my mobile phone? I seem to have dropped my mobile phone just now”

“Mobile phone?”

Chen Chao and the two of them both couldn’t help but be stunned, and both helped to look down for it.

“Ee? It’s here!”

Just then, Chen Chao looked down and saw a woman’s mobile phone under his lap, he hurriedly picked it up and handed it to Bai Zhu, saying, “Teacher Bai, see if this is it?”

Bai Zhu hurriedly took it and nodded, “That’s right, that’s right, I’m really sorry, thank you”

“Where where” Chen Chao just waved his hand modestly, he heard Bai Zhu said, “Oops, sorry ah, I have an appointment with someone, I have to hurry over, two, let’s talk another day ah. ”

“Mm-hmm, let’s talk some other time.” Chen Chao nodded dumbly.

“Hey – Teacher Bai, how can I contact you” Lu Xinfu still wanted to call out to Bai Zhu, but before he could even finish his words, Bai Zhu was already walking away:. “.....”

Campus Master Chapter 2328

“Hey...”

Lu Xinfu reached out his hand, wanting to call out to Bai Zhu, but all he saw was Bai Zhu’s back as she walked further and further away, making him regret beyond measure.

Chen Chao also stared blankly at Bai Zhu’s back, stunned and lost in thought.

“Damn it! What a bewitching woman!” It was a long time before Lu Xinfu could not help but utter a foul mouth, subconsciously licking his lips, this woman was so beautiful, if only he could make out with her

“Uncle, who is she?” Chen Chao couldn’t help but ask.

“Her name is Bai Zhu, she used to be a teacher at our United University, then I heard that she resigned for some reason, I didn’t expect to see her here again, she even seems to know me” Lu Xinfu said here, his heart couldn’t help but rise with a feeling of smugness, it seems that he The prestige in the school was quite high, I didn’t expect even such a beautiful woman would take the initiative to come over and say hello to him.

“Bai Zhu”

Chen Chao also had some nostalgic thoughts, especially when he saw Bai Zhu’s ethereal back, he couldn’t help but have a fire in his heart.

It was only after a while that Lu Xinfu and the two of them fondly withdrew their gaze and then drove away.

They did not know that Bai Zhu was a bit despised at the moment.

When Lu Xinfu was looking at her, his eyes were full of lust.

She opened her phone and saw the recording of ten minutes, the corners of her lips could not help but pull up a nice curve, did not expect the task to be completed so easily, those two people, also really stupid!

.....

“Good!”

When Ji Feng finished listening to the content of the recording, he couldn’t help but say, “Bai Zhu, you worked hard this time, good job!”

Bai Zhu pursed her lips and said, “It’s those two people who are too stupid.”

Ji Feng smiled and said, “But it is such two stupid people who occupy important positions, they don’t know how many students’ interests they have harmed for their own greed”

Speaking of this Ji Feng's eyes flashed a cold, cold light, such assholes, do not deserve to be leaders in the school!

"Young Ji, listening to their conversation, it seems that they want to threaten you" Bai Zhu reminded.

"Humph!"

Ji Feng shook his head and sneered, "I'm waiting for their threats, I want to see just how greedy they can be!"

In fact, after listening to the recording, Ji Feng roughly understood the tricks of Lu Xinfu and Chen Chao, for these two greedy things, Ji Feng was really disgusted to the core, and because of that, he had to pretend not to know anything now, since they were so greedy, they had to pay the price for their greed and shamelessness!

Ji Feng didn't just want to oust them from their current positions, but more importantly, they had to pay the price!

From the recording, it was obvious that this was not the first time these two people had done such a thing" In this society, although there were many who were unkind for the rich, there were also many truly caring entrepreneurs, even if they were just putting on a show or wanted a good reputation, there were definitely many who donated money, property and goods for the university.

I don't know how much those two bastards have embezzled from it, not to mention that if all the money they embezzled was used to sell equipment, maybe the size of the lab could be increased a lot, and maybe the dreams of some students would come true"

"Bastards!"

Thinking about the things that Lu Xinfu and Chen Chao had done, Ji Feng couldn't help but curse again.

It was not only Ji Feng who was angry, Tong Lei and Bai Zhu were also both a bit angry after knowing the causes and consequences of the incident, even if people are greedy, it also depends on the circumstances, people like Lu Xinfu and Chen Chao don't even deserve to step half a step into the university campus!

When Ji Feng returned home in the evening and told Xiao Yuxuan, she was so angry that her eyes glared up, and if it wasn't for her good cultivation, she would have cursed out expletives!

Shameless!

After holding back and holding back, Xiao Yuxuan still couldn't help but rebuke angrily.

Ji Feng, however, laughed, "They won't be shameless for much longer"

He told his plan once, and only then did Xiao Yuxuan say with hatred, "This kind of people, they should be given a hard lesson"

She was still not relieved: "No! More than just a lesson, they should be made to pay for their greedy and shameless behavior!"

Ji Feng laughed: "Don't worry, positions like Lv Xinfu have official establishment in the school, the higher his position is, the greater the price to pay!"

Only then was Xiao Yuxuan slightly relieved.

Ji Feng smiled and said comfortingly, "Well, if I had known that it would make you so angry, I wouldn't have even talked to you about it Don't be so atmospheric and get angry for those bastards instead, is that good?"

Xiao Yuxuan gasped: "I just feel too irritating, how can they be so shameless!"

Ji Feng said, "There are more shameless things than this in this society, if you are so angry about every single thing, then you should not live"

Admittedly, the behavior of Lu Xinfu duo was indeed disgusting and shameless. But on the flip side, they are actually not the most shameless.

Like those who, while making tall speeches on stage, open and shut their mouths for the sake of the common people, asking others to be law-abiding, only to end up being dirty and nasty to the core in private!

There are some people who are capable of doing even nastier things than this, aren't they shameless?

Xiao Yuxuan said, "That's different, it's not like the students are at fault, there are many families who have worked hard all their lives just to provide for a college student, but when they get here they are polluted by people like Lu Xinfu, that's what's infuriating!"

Ji Feng laughed: "Alright, alright, don't get angry"

Xiao Yuxuan wasn't really that angry, it was just that this was so shameless that she couldn't even accept it for a while.

So until after dinner, Xiao Yuxuan's mood was considered a little better.

Seeing this, Ji Feng was also relieved to see that there was Tong Lei and others accompanying Xiao Yuxuan to chat in the living room, so Ji Feng got up and went upstairs to the study.

In fact, the study has now become a small laboratory for Ji Feng, because the study is very large, he simply used a large cabinet to partition the study, the inside is the place to do experiments, he used to buy some small equipment and other things are inside, outside is the computer, desk and bookshelves.

However, the vast majority of the time Ji Feng usually reads books he is not in the study, so when all is said and done, the study has actually become the monitoring room and laboratory of the house.

When Ji Feng came to the study, he first habitually turned on the phone and pulled out the surveillance footage of today's home, using fast forward to take a cursory look at it, and only after making sure that there was nothing out of the ordinary did he go inside and continue with his experiments.

He had some new ideas in his head about the manufacture of alloys, so today he wanted to do the calculations and then, if he could, do some more small experiments.

Although the equipment at home did not work, some other small experiments could still be done. Before the equipment was bought back and the school's laboratory was not negotiated, all he had to do was to perfect his ideas and plans as much as possible so that he could start experimenting as soon as the equipment arrived.

It was busy until ten o'clock at night, when Ji Feng went to wash up and rest.

.....

The night was late.

A black shadow was running fast, and if someone were here to see it, they would certainly be stunned. Because this figure was running at a surprisingly fast speed, even faster than the running speed of those athletes seen at sports games.

What was even more surprising was that the figure was running neither on the road nor on the non-motorised lanes on either side of the road, but along the green trees on the side of the road.

If you look closely you will see that the man's running is almost always in a zigzag pattern, he circles around under every tree he reaches and looks back from time to time, as if there is something chasing him from behind.

"Hoo~~Hoo~~"

The man's panting was very violent, especially in this silent night, and his panting was very obvious.

But soon, this sound of his breathing was drowned out by a faint sound of a motor coming from the distance: "Buzz~~!"

It was an engine roaring, a low sound, and those who knew about cars would know at first hearing that it was definitely an engine with extreme power, and that perhaps the car in the distance was a real luxury off-road vehicle, or some top-of-the-range sports car.

Two lights shone over, the roar of the engine grew louder and louder, followed by several more lights from behind, and on closer inspection, there were a full five or six cars

The man who was running wildly heard the roar of the engine and became very anxious. He knew very well what would happen to him if he was overtaken by those people, so he could only grit his teeth and increase his speed again, but perhaps the previous run was already his limit speed, so this time he only increased it by a fraction.

However, even if he was faster, how could he be faster than a car?

Not to mention the car that was racing wildly in the middle of the night without any congestion?

The distance between the car and the man was closing fast!

The only thing that makes this person slightly thankful is that the car can only run on the road, but not on the non-motorized lane

Not because the non-motorized lane is not wide enough, but every other distance in between, there are some barricades that are only wide enough for anti-bikes or motorbikes to pass.

As for cars unless anyone is willing to drive all the way through them, however, the metal barricades, and the round stone barricades, are not that easy to crash through.

If a slightly less capable car, I'm afraid that instead of crashing the barricade through, the car will break down first.

–Run!

.....

“Ta-da-da Ta-da-da”

Suddenly, a crisp gunshot rang out, so clear in the silent darkness of the night.

“Swish!”

Ji Feng abruptly opened his eyes, and a sharp aura flashed instantly. He immediately heard out that the sound was definitely a gunshot, and it was also the sound of an automatic rifle firing!

What kind of person was firing with an automatic rifle, and it sounded like there was more than one war going on outside?!

Ji Feng had just finished cultivating and hadn't fallen asleep yet. At this moment, once he heard the sound of gunfire, he immediately got out of bed silently and then quickly put on his clothes.

Campus Master Chapter 2330

“Tick tock”

At this time, Little Shadow's voice came over the headset, “Young Ji, no fire was found, but the rooftop camera picked up a few cars parked outside the northwest side gate of the villa area, all with their lights on! It looks as if there's something unusual going on”

“Got it.”

Ji Feng whispered, and sure enough, it was in the direction of the northwest side door!

He slowly approached the side door while whispering, “Bai Zhu, be careful.”

“Understood.”

Bai Zhu's dry voice came over the headset, “Ji Shao, I'm going to go over the fence and go around to take a look outside”

Ji Feng frowned, then slowly nodded and said, “Be careful, make sure to keep yourself safe first!”

From the sound of the incoming gunfire, the people holding the weapons were definitely not weak in firepower, and that automatic rifle alone was not something that ordinary bandits could possess.

Besides, just now Little Shadow reported that there were several cars parked outside the main gate, so obviously the other party must not be just one or two people, with such strong firepower and quite a few people, Bai Zhu only brought a pistol and a rifle, even if the other party stood there and let her fight, it would still take some effort to finish them all off.

Besides, with the other side's formation, it might not be that easy to deal with.

So for Bai Zhu's idea of going around to the back of the opponent, Ji Feng was actually a little worried.

However, Bai Zhu was very confident: "I understand."

Ji Feng could only quickly approach the side door as well, he wanted to see what the other side was, actually daring to use such strong firepower in this downtown area, was it going to be a rebellion?!

Suddenly, Ji Feng remembered something, he immediately asked in a low voice, "Xiao Ying, are those cars police cars?"

Little Shadow said, "No, I can't see the flashing police lights, because the distance is a bit far away, so the picture taken by the camera is not too clear"

Ji Feng slowly nodded, in fact, he also judged that the other party should not be the police, perhaps not special police either, otherwise, if there is such a big action, it is impossible for the police not to flash the police lights at this time

"Boom~!"

Suddenly, a muffled sound came, Ji Feng instantly jumped his eyebrows, this is the sound of rifle point shooting!

Obviously, the other party this is in the case of aiming at the target before resorting to point shooting, thinking that the burst just now actually did not aim at the target.

Or

If the other party was a bandit who robbed a house, then I'm afraid they would have already gotten it by now!

When I thought of this, Ji Feng immediately accelerated his sneaking speed and hurriedly approached the northwest side door.

A few minutes later, Ji Feng finally rounded the last villa and immediately saw that there were several cars parked outside the gate, all with their headlights on, and the lights were so blinding that they lit up the area around the gate.

Ji Feng hid behind a big tree and squinted his eyes, not looking directly at those lights, but looking obliquely at the side of those cars

In the haze, Ji Feng could vaguely see that there seemed to be a human figure swaying there.

Obviously, someone was hiding behind that strong light!

No wonder these cars all have to open their headlights, so that not only can they make the other party's vision in the best condition, but they can also hide with the help of the darkness behind the lights.

Just

Where is the other party's target?

Ji Feng looked along the direction of the other party's lights and immediately frowned, at the end of the lights shining on a wall, there were blinding spots of blood on it, looking at the direction of the blood, it seemed that someone had tumbled over the wall.

"BOOM!"

Suddenly, another gunshot came, but this time, it was inside the villa area.

Ji Feng frowned, his mind turned rapidly, then he immediately turned and ran in the direction where the gunshot came from, while whispering, "Bai Zhu, the other side has headlights to cover, be careful, don't expose yourself."

Someone was tracking, someone was keeping watch at the door while taking care of the cover These people were definitely not ordinary bandits, or at least, they were also very experienced veterans.

Bai Zhu said, "Understood."

Only then was Ji Feng slightly relieved, and then sped off in the direction where the gunfire came from.

After only a few moments, he suddenly stopped in his tracks because he heard footsteps not far in front of him.

Ji Feng urged the bio-current and leaned up silently. Soon, he saw two figures in front of and behind him advancing slowly, and each had a torch in their hands, shining on the ground from time to time.

Ji Feng could see that on the ground, there was a bloodstain at some distance, and the area was not small, so obviously someone had been injured, and the injury was not light.

At the same time, Ji Feng's legs suddenly shot up and he was behind the other man like lightning, turning his palm into a knife and slashing at the back of the man's head.

"Flop!"

"Splat"

Both of them went soft to the ground at the same time, and the torches and rifles in their hands fell down.

Ji Feng first carried their dropped weapons on his back, then lifted these two men up with one hand, and then began to track along the bloodstains on the ground.

Compared to these two, tracking in the dark was effortless for Ji Feng, as he didn't even need a torch or anything like that to clean the blood on the ground, and there was little difference between night and day for him as he urged the bio-current to work on his eyes.

"Whew~~uh~~"

Ji Feng hadn't gone far after him when he heard the sound of breathing coming from in front of him, only that the sound seemed to be suppressed as much as it could be, and it seemed very dull.

Moreover, the sound seemed to contain a kind of pain.

He immediately walked over silently – despite carrying two people, it was nothing to Ji Feng, with his ability to sneak, even if he carried more weight, it would not affect his movement.

Soon, Ji Feng saw a figure under a big tree at the corner of a villa fence, except that this figure was on his knees, one hand holding the trunk of the tree, the other hand on his chest, his body still trembling, and a sound of pain coming out of his throat.

He was injured and probably incapacitated!

But Ji Feng was not the least bit careless, he first put down the two people in his hands, then circled around a bit and quietly approached the man from behind, and then, he reached out fiercely to knock the man unconscious.

“Hoo~~!”

However, just then, the man who was kneeling on the ground suddenly bounced up in one go, twisted at the waist, and his right leg abruptly swiped over, harsh and vicious!

What a quick reaction!

Ji Feng immediately gave a secret praise in his heart, this person was obviously injured, but his reaction speed could still be so fast and his attack could still be so harsh, he was definitely a master.

The only pity was that perhaps it was because this person was injured, so his perception was poorer, and as a result, he let himself get close before he noticed it, but this little mistake was fatal to a top expert.

So Ji Feng only slightly crouched down and dodged the opponent’s unbelievably harsh leg, then when the man was about to land, he took a step forward and directly snapped the man’s neck.

“If you don’t want to die, you’d better not move!” Ji Feng said coldly.

“Humph! If you have the guts, you can kill me!” The man, however, roared lowly, “I tell you, as long as I, Yang Bin, don’t die today, I won’t spare any of you dogs, and your master, I will make you regret what you did today!”

“Yang Bin?!”

Ji Feng was stunned, he immediately looked, but saw that this person’s face was covered in blood and stains, his clothes were also torn and tattered, he simply looked like a fugitive, how could he tell who he was?

“You’re Yang Bin?”

Ji Feng reached out and pulled up the corner of this person’s clothes and wiped it on his face, but he didn’t know if it had touched the wound, the latter muffled a sound, but the blood and stains on his face were wiped off.

Yang Bin!

Ji Feng’s eyes narrowed abruptly, this guy, who was held by his neck like a wounded beast, was actually the same Yang Bin who had begged for a million dollars in that commercial square back in Yanjing!

This was really a deep surprise to him!

“Yang Bin, how could it be you?!” Ji Feng was stunned, “How come you’re here?”

“Humph!”

Yang Bin, however, sneered and said angrily, “What, still want to humiliate me some more before killing me? I’ve been chased by you all the way from my family all the way to Jiangzhou, how do you think I’m here?!”

Ji Feng then knew that he had misunderstood and couldn’t help but say, “Yang Bin, you’ve misunderstood, I’m not the ones chasing you, listen to my voice carefully, I’m Ji Feng!”

“.....”

Yang Bin obviously had a pause, as if he did not anticipate that the person holding him would actually be Ji Feng, so his voice was all tinged with consternation: “Ji, Mr. Ji? Is it really you?”

Ji Feng said, “Of course it’s me, I was already going to bed, but then I suddenly heard gunshots coming from outside, so I came out to check the situation I live here, if I remember correctly, I gave you the address ah!”

“Mr. Ji!”

As soon as Yang Bin heard these words, he no longer had the slightest doubt and immediately said heavily, “Mr. Ji, I can be considered to have found you”

Ji Feng was stunned: “What, you’re looking for me?”

Yang Bin said, “Mm! Mr. Ji, I came here to find you In fact, I’ve been coming to find you since I was chased.”

“What, are you all done with your business?” Ji Feng asked.

“..... No.”

Yang Bin’s voice lowered, “Mr. Ji, I Well”

Yang Bin didn’t even finish his sentence before his body shook and a mouthful of blood gushed out of his mouth.

Seeing this, Ji Feng immediately lifted Yang Bin up and said, “Yang Bin, hold on, first run your energy to hold on”
