“I see, ah, you’d better be concerned about that injured person lying in the hospital right now!” Ji Feng said, “Those murderers have been moved away, so I’m afraid the one they’re after won’t be too safe, right?”

“What you mean is” Li Ruonan said in consternation, “Those murderers will once again strike at that person they are chasing?”

“Otherwise, do you think the other side is spending so much effort just to fish those murderers out of your hands?” Ji Feng asked rhetorically.

Li Ruonan couldn’t help but be silent.

Now the problem was obviously on the Qihe City side, although I didn’t know what kind of foul play there was, but one thing was certain, those murderers had definitely broken the law.

But if they just don’t say who they are, it’s easy for the Qihe City side to fish them out. More importantly, if even the Qihe City Bureau has people who are in cahoots with the murderers, then why do they have to go all the way to Jiangzhou to hunt down the injured man?

The Qihe City Bureau could have taken care of the man in Qihe City, but as it turned out, the man escaped and fled from Qihe City to Jiangzhou, even forcing the other side to send someone to chase him all the way!

That was quite a stir!

If the Qihe City side just wanted to fish those murderers out, it would be a bit too much of an uproar, and in normal thinking, they certainly wouldn’t let that injured person go.

“Then”

Li Ruonan hesitantly said, “Before I heard the tone of the Gao Bureau in the city bureau, it seems that the Qihe City side still wants to take that injured person back, and the Gao Bureau seems to agree to it”

Ji Feng nodded slightly and said, “That’s not it!”

Li Ruonan then understood, the Qihe City side of the people in the name of the official to get that injured person away, as long as the person to their territory, at that time want to screw that is completely their words.

“In the end, aren’t they still getting their way?!” Li Ruonan was vaguely angry, she had worked so hard on the interrogation, but in the end she was brushed aside by her own people and almost treated like a fool. And the injured man hadn’t been saved, those murderers would still get their way

“No!”

Li Ruonan clenched her shell teeth and said angrily, “This time I will definitely not stand by and watch them act so recklessly! It’s a shame that I used to respect him so much”

Ji Feng then knew that she was probably talking about a colleague from the city bureau, perhaps the Gao bureau she was talking about, or some other colleague of hers.

Ji Feng shook his head and said, "Ruo Nan, what are you going to do?"

Li Ruo Nan said, "I'm going to send someone to protect that injured person!"

Ji Feng shook his head with a smile and said, "Then if your superior gives an order for you to transfer the person to the police on the Qihe City side, will you say yes or no?"

Li Ruonan then couldn't help but pause for a moment; indeed, when an order was given from above, she, as a police officer, was supposed to obey it.

But the problem was that the order was wrong, and there might even be problems with it!

Li Ruonan couldn't help but say, "Do we have to listen to wrong orders too?"

Ji Feng immediately questioned, "Then how do you know that the order given by the leader is wrong? What evidence do you have to prove that your words are correct?"

Li Ruonan then couldn't help but choke.

Ji Feng added: "Besides, it's true that you can send people to protect the injured, but the question is, you're not afraid of your superior's blame, but those people you sent, are they afraid? If that high bureau you are talking about doesn't go through you at all, but gives orders directly to the people you send, do you think they will listen or not listen?"

Li Ruonan: "....."

This series of questions left Li Ruonan almost speechless.

In fact, she knew that there was nothing good she could do at all right now, but she was unwilling to just watch that injured person being transferred to the Qihe City Police.

That man had probably escaped from Qihe City after a lot of hardship, and he had suffered a lot of hardship along the way before he made it to Jiangzhou, and ended up with serious injuries.

But before he could recover, he ended up being sent back to Qihe City by the Jiangzhou police Imagine how painful and desperate it would be for anyone else to be that injured person!

Li Ruonan gritted her teeth and said, "If it really doesn't work, I'll go to the hospital myself and I'll protect that person."

Ji Feng couldn't help but be happy when he heard this, he laughed, "Hm! That's not a bad idea, but I'm curious to know if you'll be able to protect him twenty-four hours a day without interruption? Do you take breaks in between? Do you need to go out to eat?"

Another string of questions, but it shattered Li Ruonan's resolve, and she couldn't help but say helplessly, "Then what do you think should be done!"

She alone could not stand up to the entire police department no matter what, and besides, even if others were to give her the benefit of the doubt for the sake of her old man, if her father found out about this, it would be a matter of criticism.

For people in the official world, no matter what you do, you first have to abide by the rules.

For example, the people of Qihe City made such an official letter, which means that at least on the surface people are tightly abiding by the rules.

The first thing you need to do is to get a good idea of what you're doing.

Li Ruonan had to turn to Ji Feng for help.

"Remember what I mentioned to you before?" Ji Feng asked with a smile.

"What did you mention?"

Li Ruonan couldn't remember for a while, and when she saw Ji Feng's smiling look, she couldn't help but stomp her foot and snapped, "You're still smiling? I'm in such a hurry, and you still have the heart to laugh here?"

Ji Feng smirked, "If I don't laugh, should I still be allowed to cry! It's just some people playing cat and mouse, what a big deal!"

Li Ruonan said, "That's easy for you to say! Then let me ask you, since you said it's not a big deal, what exactly do you think should be done to preserve the injured person while still being able to investigate this matter clearly?"

Ji Feng shook his head and laughed: "You ah really don't know how you became the vice captain of the Interpol brigade with this personality!"

Li Ruonan's beautiful eyes suddenly lit up, she suddenly thought of what Ji Feng said before that she could contact the military and let the military help to interrogate those few murderers with that special medicine.

"That's a good idea!" Li Ruonan nodded thoughtfully and said, "However, are you sure that the military will agree to intervene in this case?"

"Of course!"

Ji Feng nodded his head.

Seeing that Ji Feng agreed so readily, Li Ruo Nan instead hesitated a little: "Ji Feng, you're not fooling me, are you? This case is likely to involve certain leaders within the police, which is a lot of trouble, do you think the military will just intervene?"

Ji Feng nodded and said, "Of course the military won't just meddle in local affairs, but if there is a suitable reason and an appropriate fee for the hard work, the military naturally won't just sit back and watch, after all, the military has cooperated with the police not once or twice!"

Li Ruonan asked, "What is the reason? Also, how much is the appropriate hard-earned fee"?

Ji Feng laughed: "You can think of your own reasons, this you must be more familiar with than me, as for the hard work your police department will recruit a lot of people in every year, I think, you, the vice captain of the criminal police brigade, must have some indicators in hand, right?"

Li Ruonan immediately understood Ji Feng's meaning: "You mean, let me take more care of these indicators for the soldiers who have changed jobs?"

Ji Feng nodded and said, "This is better for the generals in the military than any banknotes or anything like that."

Even Ji Zhenping attached extra importance to the transfer of his subordinates, hoping that the soldiers under his command would have a good place to go after their transfer, not to mention those other generals.

Li Ruonan nodded and said, "Of course there is no problem on my side, if I don't have enough indicators in hand, I can still apply again"

Ji Feng nodded and said, "Then there's no problem, I'll help you contact the military people, you just send someone to hand Yang Bin over to them."

Li Ruonan said, "That's good, I have to make arrangements now too"

As she spoke, she took out her mobile phone, ready to call Ding Weijian, to make some trivial arrangements.

However, just at this time, Li Ruo Nan's mobile phone suddenly rang, and she was slightly stunned: "I was just about to call him, but he called first instead."

Li Ruonan picked up the phone and asked, "Ding, you should have arrived at the hospital by now, right? Have you made all the arrangements?"

"Captain, something's happened!" Ding Weijian's voice was so loud that even Ji Feng, who was still some distance away from Li Ruo Nan, could vaguely hear Ding Weijian's urgent voice, "Several people in uniform suddenly came to the hospital and wanted to take the injured away"

"What?!"

Li Ruonan smiled and was immediately shocked, "When did this happen?"

Ding Weijian said, "Just a few minutes ago! I originally thought they were from the city bureau, but I saw that they looked a bit familiar, I didn't seem to have seen these people when I was at the city bureau, I felt something was wrong, so I asked a few more questions, and they ended up revealing themselves"

"Fake police? So what's the situation now?" Li Ruonan hurriedly asked.

"The situation is not good!"

Ding Weijian said, "There are many of them, seven in total, and I see that they are bulging on their waists, they seem to be carrying guys, if they want to come hard, just the three of us will definitely not be able to stop them"

In the hospital, Li Ruonan originally sent five people to take turns to protect Yang Bin, three at night and two during the day, now together with a Ding Weijian, there are only three people, if the other seven people also carry weapons, then once they start fighting, they will definitely suffer a big loss.

Campus Master Chapter 2352

"Ding, where are you calling from now?" Li Ruonan asked, "What's the situation exactly?"

"I'm in the injured person's ward!" Ding Weijian said, "Because I realized before that something might not be right, I communicated with the hospital when I first arrived and temporarily borrowed the hospital's empty ward first and moved the injured person over"

It turns out that after Ding Weijian saw with his own eyes that Captain Zhao Gongyong had sent people to move those murderers away, he realized that there might be something wrong in the middle.

The company's main business is to provide a wide range of products and services to the public.

When Ding Weijian arrived at the hospital, he didn't find anything unusual. He also asked the two policemen who were responsible for protecting the injured, and they also didn't find anything unusual, except that the captain had called them in the morning to ask them about the injured and instructed them to do a good job of protection.

After hearing this, Ding Weijian could not help but stutter in his heart, but naturally his own position could not be as high as that of the senior captain, so he knew that if he denied the senior captain's words, those two policemen would definitely think he was crazy.

So Ding Weijian didn't dare to move the wounded away on his own, but he realized that something might go wrong and he hadn't received a call from Li Ruonan, so Ding Weijian simply went to the hospital in order to be on the safe side, hoping that he could borrow their other ward.

Although Ding Weijian's position was not high, he was certainly a leader compared to the two police officers who were in charge of protection.

So he followed his plan very smoothly and moved the injured Yang Bin to another vacant ward, while the original one remained.

What's more, even he himself did not stay in Yang Bin's current ward, but only wandered around the corridor, pretending to glance at it only when he was not paying attention. At the same time, Ding Weijian also instructed the doctors and nurses that no matter who came to ask about the injured person's condition and address, they would simply say that the injured person was still in a coma and was in his original ward.

It must be said that Ding Weijian's sense of crisis and his swift reaction definitely did him a lot of credit, because the seven men in uniform came upstairs precisely because they had asked about the injured person at the guide desk in the lobby downstairs, and once they arrived, they went straight to Yang Bin's original ward.

–In fact, after arriving upstairs, as long as one was not blind, one could see the two policemen sitting on the chairs in the corridor outside the ward.

Needless to say, this was definitely the place.

But they did not know that the person they were looking for was not in this ward at all, but had been moved away by Ding Weijian long before that.

Ding Weijian, who had been ‘loitering’ in the corridor, naturally saw the seven men in uniform at first, so he walked over without moving, whereupon, after the next few words of conversation, Ding Weijian realised that something was wrong with them.

After confirming that the other party might be fake police officers, Ding Weijian immediately found an excuse to go to Yang Bin’s real ward, then he hurriedly called to quietly inform those two police officers who were responsible for guarding to be careful and alert to those people, after which, Ding Weijian immediately called Li Ruonan.

Although the process was complicated, but it was only a matter of a few words, Ding Weijian then said all the key points, “Captain, I am worried that this side may have to take action, if the other side really wants to come hard, we may not be their opponent, request support!”

At this moment, Li Ruonan’s face was already as cold as frost and she coldly said, “Wait for me, don’t make any rash moves, I’ll be right there!”

After a pause, Li Ruonan added: “If necessary, shoot! Keeping yourself safe is the most important thing! No matter who the other party is”

After giving these instructions, Li Ruonan hung up the phone, an icy look covering her pretty face, and looked at Ji Feng: “Ji Feng, let’s not talk about other things, now I need your help.”

Ji Feng nodded and didn’t say much else, because just now Li Ruo Nan’s call with Ding Wei Jian didn’t avoid him, so in fact he had almost completely heard the content of their call and understood exactly what was going on.

Therefore, Ji Feng completely understood Li Ruo Nan’s feelings at this time, he nodded and said, “Come with me Which hospital is Yang Bin in?”

“The city hospital.” Li Ruonan said, “The First Affiliated Hospital of the City Medical University!”

“Got it, wait a moment, the car is coming!” Ji Feng nodded and said, “Don’t worry too much, the hospital is a public place, in full view of everyone, even if those people are really fake police officers, they wouldn’t dare to do anything easily, otherwise, it would cause a very bad impact, and then things would really get big.”

Li Ruonan had a different view, she shook her head, “You’re too optimistic, if those people don’t dare to do anything, then what are they doing at the hospital? They brought weapons with them and so many people went to the hospital, so they were obviously ready to do something!”

Ji Feng was silent.

In fact, he also thought so, since the gang was armed and there were seven of them at once, all wearing uniforms, whether they were impersonating police officers or police officers from elsewhere, it was obvious that they were coming for a bad reason, what else could they be for if not to make a move?

The first thing you need to do is to get a good idea of what you're doing.

Ji Feng asked, "What?"

"Although the injured person was sent to the hospital for treatment, but those who know where the injured person is in the hospital are limited to a few leaders in the city bureau, as well as the few police officers who sent the injured person to the hospital at that time." Li Ruonan said in a hateful voice: "But now those few fake police officers are directly to the First Hospital, they obviously know the address, how do they know?"

The first thing that happened was that Li Ruo Nan was straightforward, but she was not stupid, and if anyone really thought of her as stupid, they would be really stupid.

The fact that the police officers found Yang Bin was the only thing that made Li Ruo Nan judge that someone within the city bureau was tipped off, and Ji Feng fully agreed with this guess.

The city of Jiangzhou is so big and there are so many hospitals, if there is no accurate information, it would be like a headless fly bumping around. In fact, even if we asked every hospital, it would take at least a few days to run down all the hospitals in Jiangzhou, and that's if things went well, if not, even longer is not out of the question.

"I really don't understand what kind of benefits they are getting that they can do such things!" Li Ruonan couldn't help but say, "His position isn't low and his treatment isn't bad either!"

"Have you guessed who it is?" Ji Feng asked.

"Mm."

Li Ruo'nan nodded her head.

Ji Feng then did not ask further, since Li Ruo Nan had already guessed who it was, then she would definitely be on alert in her heart, Ji Feng was not a police officer, so it was not very good for him to interfere.

When Bai Zhu drove the car over, he took the two of them directly towards the First Affiliated Hospital.

The first hospital was not far from the United University, and Yang Bin and the two guards were already badly injured, so to save time, the police sent them to the nearest hospital.

The three of them arrived at the inpatient department, and as soon as they reached the upper floor, they immediately heard an angry shout from inside: "I don't care what you are, if you want to take the injured away, take out our leader's order, otherwise, no one will come half a step closer!"

Li Ruonan immediately felt anxious in her heart and whispered, "This is Ding Weijian's voice, they're up against"

Ji Feng whispered, "Don't be anxious, look at the situation your people are not in any danger, those people should not have gotten it yet, let's see first!"

"They found the wounded man's real hiding place!" Li Ruonan whispered.

"What do you mean?" Ji Feng asked.

"You guys look at"

The three of them stood at the corner of the stairway and slightly stretched their heads to see that outside a ward in the middle of the corridor, several people in uniform were standing scattered, three of them were facing the ward door, and two others were pushing the door hard.

Li Ruonan looked with a cold face and said, "Originally the injured person's ward was at that end of the corridor, the two next door were the wards of those two security guards, because Xiao Ding sensed that something was wrong, he moved the injured person to this ward in advance." Li Ruonan said, "These few people must have discovered this situation."

Ji Feng then nodded slightly, listened carefully to the voices of those few people and asked, "Ruo Nan, can you hear where their accents are from?"

"Accents?"

Li Ruonan was stunned, and then looked at those few people thoughtfully.

Ji Feng said, "Let's go, go over and talk to them."

Li Ruonan nodded and took the lead, she was holding a fire in her heart, of course she wanted to have a 'good chat' with these people!

Ji Feng smiled and also followed along with Bai Zhu.

"What are you few doing!" Li Ruonan shouted sternly as soon as he got close, "Don't you know this is a hospital? What's all the commotion here?"

"....."

Those few people in uniform were a bit dazed.

It was really because Li Ruonan was too pretty, and it was just that she was on holiday today, and she wasn't wearing a uniform, instead she was dressed very much at home, so she looked like a very casually dressed little girl next door, pretty as can be.

But the problem was that this pretty girl was now reprimanding them, which made those few people really a bit stunned for a while.

"What are you looking at! It's talking about you guys!" Li Ruonan walked over with big steps, her beautiful eyes glaring as she asked, "Who are you people and what are you doing here?"

"Little girl, you"

“What little girl!” As soon as a man spoke, he was interrupted by Li Ruonan, she casually handed over her ID, “I’m the Vice Captain of the Jiangzhou Municipal Bureau’s Criminal Police Brigade, Li Ruonan, who are you people and why have you come here to besiege my people?”

“Vice Captain?”

Those few people couldn’t help but be startled, such a young vice captain? And a high ranking unit like the Jiangzhou Municipal Bureau?

Li Ruonan’s hand went to the back of her waist, “I ask again, who are you people!”

Those few people knew at a glance that Li Ruonan was going to get a weapon, hurriedly waved his hand, one of them said, “Don’t misunderstand, we are also police

Campus Master Chapter 2353

Those few people knew at first glance that Li Ruonan was going to get a weapon, and hurriedly waved their hands, one of them said, “Don’t misunderstand, we are also the police

Li Ruonan frowned and asked in a cold voice: “You are also police? Which branch of the police are you? Don’t you know that the city bureau’s criminal police team is protecting important witnesses here, why do you still come here to cause trouble?”

Whether the other party was a policeman or not, Li Ruonan had to set the tone first – the person inside this ward was an important witness, and it was the one who the Interpol team was protecting on purpose.

The other side, no matter who they were, came here to cause trouble and that was a disruption!

The other party was also somewhat surprised by Li Ruonan’s strength, and froze slightly before he said, “Captain Li, this is the case, we are from the Qihe City Municipal Bureau of Jibe Province, and we

However, before he could finish his words, he was interrupted by Li Ruonan: “Qihe City of Jibe Province? Then what are you doing here in Jiangzhou?”

“We’re here

“I don’t care what you’re doing here!”

Li Ruonan didn’t give the other party a chance to speak, she snorted coldly and said, “This ward is home to an important witness on our side, why are you, as police officers from Jibe Province, here to cause trouble?”

The man defended, “We’re not here to make trouble

“Then what are you here for? To carry out a mission?” Li Ruonan interrupted him again and asked, “If it’s a mission, then did you greet our Jiangzhou Municipal Bureau beforehand? You came to harass our witnesses so recklessly, who gave you the authority to do so? Are you police officers, or bandits!?”

“.....”

Li Ruonan's words were like a machine gun, and the other few people almost didn't know how to respond, especially since she was also justified in every sentence.

What's more, they are not only carrying out their mission across the border without saying hello to the Jiangzhou Municipal Bureau, but more importantly, the target of their mission is the important witness of the Jiangzhou Municipal Bureau who is in this ward.

This means that they are now actually trying to snatch that witness from under the protection of the Jiangzhou Municipal Bureau

This makes it even more unjustifiable.

"Captain Li, I think you've misunderstood." The one at the head of the other side said, "We have already greeted you before coming here, we came here with your permission"

"Oh? Is that so?"

Li Ruonan swept a glance at him and asked, "Then tell us, who did you greet with when you came here? And whose approval did you get?"

The man said, "We greeted the leader in charge of this case on your side, and we also got his approval"

"I asked who exactly!" Li Ruonan said in a cold voice.

"....."

The man opened his mouth, but did not answer.

Li Ruonan stared at them coldly and asked, "What, don't dare to answer? Or can't answer?"

The other party became a bit speechless.

Ji Feng nodded secretly as he watched, this girl Li RuoNan hadn't been a vice captain for nothing, her level of speech had improved a lot recently, she knew how to set people up.

There is no doubt that just now, Li RuoNan gave those few Jibei Province police officers a trap, she deliberately lured the other party to say that out here is approved by the JiangZhou City Bureau leader, and then immediately asked which leader.

As a result, the other party did not dare to say anything.

The reason for this was that it was fine to say that they were on a mission, and it was fine to say that they were working on a case, but the problem was that Yang Bin was not a suspect!

That was the most crucial issue!

Yang Bin was the one being chased and killed, he belonged to the murdered party, although this matter involved guns, but if Yang Bin did not agree, no one could take him away, because he had not committed a crime, even the police had no reason to restrict his freedom.

Otherwise, he would be breaking the law!

And it is still a crime against the law!

Under such circumstances, no matter which leader of the Jiangzhou Municipal Bureau nodded his head and agreed to the police from Jibei Province coming to take Yang Bin away, it was problematic, and it could even be said that the police from Jibei Province coming here to take Yang Bin away was itself problematic, especially, they had just used such a rough way and method.

If the other party dares to say which leader gave the nod, then Li Ruonan can definitely put him in his place, and then if the leader who gave the nod can't stand up, hey, in the end, the board will be on the ass of these Jibei Province police, then if they want to take Yang Bin away, it will be much more difficult!

But if we don't say which leader agreed, Li Ruonan here, but not too good to explain.

In this way, the situation was deadlocked.

But Li Ruonan would not give them much time, she coldly snorted and said, "Since you can't answer, there is nothing to say, go back where you came from.

As she spoke, Li Ruonan waved her hand with great impatience.

The faces of several people on the other side did not look too good, Li Ruonan was too arrogant and did not take them into consideration at all, which made them a bit annoyed in their hearts.

"Captain Li, it's not very nice of you to do that, is it?" The policeman in charge said, "That person inside is involved in a very serious case, we have to take him back"

"I said for you to leave, didn't you hear me?"

Li Ruonan coldly interrupted his words and said coldly, "I don't care what case he is involved in, now he is a witness we want to protect, so we can't hand him over to you, what's more, I haven't even seen your papers so far, you say you are police officers and that's it? Don't get uncomfortable here or don't blame me for being ungrateful!"

"You"

One of the police officers on the other side couldn't take it anymore, and he couldn't help but say, "Then according to you, foreign police officers who come to your Jiangzhou to handle cases have to go through you before they can do so? If you are determined to harbor criminals, then all the foreign policemen can't be taken away?"

Li Ruonan's eyebrows knitted up and she said in a cold voice, "I think you're not here to carry out your duties, you're here to get uncomfortable, aren't you?"

"We"

"Swish!"

The next moment, Li Ruonan steeply pulled out a pistol from the back of her waist and pointed it at the men in uniform, saying in a cold voice, "I repeat, leave now, or else I will regard you people as impersonating police officers and trying to do harm to our police protected witnesses!"

"You"

"Don't be impulsive!"

Everyone on the other side was taken aback by Li Ruonan's action, not only did they draw their guns at the slightest movement, but they actually called them fake police officers

"Captain Li, if you want to see our documents, I can"

"I don't want to see anything right now, get out of my sight immediately!" Li Ruonan said in a cold voice, "Don't make me say it again!"

"....."

Looking at Li Ruonan's cold eyes, as well as the black muzzle of the gun, the other few people really didn't dare to make a rash move, the policeman in the lead clenched his teeth and said in a low voice, "Let's go!"

After saying that, he gave Li Ruonan a deep look before turning around and leaving.

When the others saw that the policeman in charge had left, they naturally all turned and followed, and in the blink of an eye, only Ji Feng was left in the corridor.

"Hoo~~!"

It was only at this time that Li Ruonan couldn't help but quietly let out a long breath and said, "Finally, we've left."

Ji Feng smiled and said, "Let's see how Yang Bin is doing first."

Li Ruonan nodded and said, "We have to hurry, those people didn't succeed this time, maybe they will come back next time, I can scare them away this time, but next time it's hard to say"

The first thing you need to do is to take a look at the case.

She had no power to stop them. It was indeed impossible to stay here any longer.

At this moment, Li Ruonan had already shouted the door open, Ding Weijian with two policemen, alerted at the door, while Ji Feng and Li Ruonan walked in, they saw that Yang Bin had already woken up, only with a touch of anger in his eyes, and a kind of determination.

"Mr Ji they're here again, right?" Yang Bin's injuries had recovered quite a bit and his speech was coherent, obviously he had just heard the commotion outside and knew what had happened.

"That's right." Ji Feng nodded his head.

"Mr. Ji, the medicine you gave me the other night, is it still there?" Yang Bin asked.

"Hm?"

Ji Feng frowned, "What do you want?"

Yang Bin said, "I escaped from Jibei all the way to Jiangzhou, but I never thought that I wouldn't be able to escape, since that's the case, then I don't have anything to say, if someone wants to drive me to the end, I won't stand by with my hands tied! Mr. Ji, please give me that kind of medicine, even if it only gives me an hour of full strength, I"

"All right!"

Ji Feng shook his head: "Now is not the time to talk about this, I only ask you one thing, do you commit a crime or not?!"

Yang Bin smiled, but the corner of his mouth couldn't help but pull up a slight arc and said, "Mr. Ji, how big a crime do you think I have to commit to attract so many people to hunt me down?!"

Ji Feng shook his head and said, "Answer me clearly, did you commit a crime or not!"

Yang Bin said, "No!"

"If I find out later that you have lied to me, then I promise you that you will regret it, believe me!" Ji Feng patted Yang Bin's shoulder.

"Mr. Ji, if I cheat you, then I'll let you do whatever you want!" Yang Bin said.

"Good then, remember what you said!" Ji Feng said in a deep voice, and then, he turned his head to Li Ruonan and said, "Have your men push him and come with me to a place!"

"Where to?" Li Ruonan asked in confusion.

"The military camp!" Ji Feng said, "I think, even if the other party is powerful, they can't put their hands in the military camp too, right?"

Campus Master Chapter 2354

"You're willing to help?"

As soon as Li Ruonan heard Ji Feng say that he wanted to take people to the barracks, her beautiful eyes lit up, then she added: "Ji Feng, I have to remind you that I am still on leave, and none of my actions have been approved by the leadership yet, to put it bluntly, I am actually resisting orders now, if you follow suit, you might be dragged into it as well... .."

Ji Feng then laughed: "Aren't you also being dragged into this by me?"

If he hadn't given Yang Bin his home address when he was in Yanjing, then Yang Bin wouldn't have come all the way from Jibei Province to Jiangzhou to look for him.

And if Yang Bin hadn't come looking for him, then there wouldn't be so much going on now.

Then, Li Ruo Nan would naturally not need to have so much trouble, let alone resist orders.

Li Ruonan smiled, and a smile flashed across her pretty face as she nodded, "So, it's still you who dragged me into this. Now then, you should hurry up and give credit where credit is due."

Ji Feng smiled and nodded, "Good!"

Li Ruonan smiled, and when she turned her head, she quietly wrinkled her nose, and didn't know what was going on, her heart was just very pleasant, even the previous depression was swept away.

"What a no-good!"

Li Ruonan cursed herself in her heart, originally she was still angry with Ji Feng!

At this moment, Ji Feng naturally did not know what was in Li Ruo Nan's mind, and he did not have the time to think about it. While Li Ruo Nan arranged for Ding Weijian to push Yang Bin, Ji Feng took out his mobile phone and dialed Xiang Yongzhan's number.

"Old Xiang, what are you busy with?" As soon as the call was answered, Ji Feng said with a smile.

"What can I be busy with, I'm still busy with training, we, the bitter ones, are not as comfortable as you are!" Xiang Yongzhan said, "What, are you calling to buy me a drink?"

"Drink?"

Ji Feng was a bit puzzled and asked with a smile, "What kind of wine is there to drink now!"

Xiang Yongzhan said, "Older brother, this is not very generous of you, there are good things for everyone to share, you have taken such a big advantage, how should you also show something?"

Ji Feng was even more confused, he laughed bitterly, "Old Xiang, what are you talking about, what's the big advantage, what's going on?"

"Eh? You don't know?" Xiang Yongzhan was a little surprised.

"What do I know ah I know line line, let's not pull these, I need your help urgently now, what's going on wait until later." Ji Feng did not continue the topic just now, although he was also curious about what exactly Xiang Yongzhan was talking about, but now was not the time to talk about this, always have to arrange Yang Bin first.

Xiang Yongzhan immediately asked, "What kind of favor?"

Ji Feng said, "There is a person on my side who is being chased and is seriously injured, so he needs to go to the military camp to hide for a while first."

Xiang Yongzhan immediately felt a bit strange as he asked, "To hide in a military camp, and for some time? Ji Feng, what the hell are you up to, thinking that the military camp is a shelter run by your family? Besides, is there anything out there that you Ji young master can't fix? Who is hunting who ah"

Just as the words came out, Xiang Yongzhan seemed to realize something and couldn't help but say, "Ji Feng, you kid wouldn't have found me a big problem, would you?"

The actual fact is that you will be able to find a lot of people who are not able to get into a lot of trouble, but you can't say that you are in a lot of trouble, it's just that it's not convenient for me right now.

“Yes! How dare I say no!” Xiang Yongzhan said, “How about this, you send the person over, I’ll arrange someone to pick them up on my side, in addition to arrange for a bed in the military hospital you kid are really good at finding me work!”

“I remember all your benefits, I’ll buy you a drink later.” Ji Feng laughed. They help each other, in fact, are unusual and small things, but this is after all a favor, even if it is a good friend favor always have to remember.

“You should buy drinks, remember to do something special, I want to settle old scores with you!” Xiang Yongzhan said.

“Okay! Any way you want to settle it!”

Ji Feng smiled and said, “I’ll send the people there.”

Xiang Yongzhan said, “No problem, just give me a call when you arrive”

The two ended the call, Ji Feng could not help but shake his head and smile, his heart was more or less puzzled, how to listen to Xiang Yongzhan’s tone, he seems to be getting some kind of benefit?

The first thing you need to do is to think about it, but you can’t imagine what benefits you’ve gotten, and it’s something that you don’t know about.

The first thing you need to do is to ask your friends and family what they want.

At this time, Ding Weijian had already contacted the hospital ambulance, and the two remaining policemen were pushing Yang Bin out.

“The ambulance is parked right in front of the inpatient department, we can get on it once we go down.” In the corridor, Ding Weijian said, “Just, where are we going? I need to say hello to the master driver first.”

“Ji Feng, where exactly are we going?” Li Ruonan looked at Ji Feng, she only knew that she was going to a military camp, but there was more than one military camp in Jiangzhou.

“Go to the Jiangzhou military compound.” Ji Feng said.

“Okay, then I’ll go down and talk to the driver first, later you guys go straight to the special lift, the other lift cabs aren’t deep enough for the hospital beds to get in.” Ding Weijian said.

Ji Feng secretly nodded in his heart, no wonder Li Ruonan had taken this Ding Weijian with her both at the branch and at the city bureau, this person was indeed quite good, logical and very thorough in his thinking.

If he had such a subordinate, Li Ruo Nan would have been able to save himself a lot of heartache.

In fact, the reason why Li Ruonan knew that the murderers had been moved away was because Ding Weijian had kept an extra eye on them.

After Ding Weijian went down first, Ji Feng and his group of five people took the special lift and also went downstairs. As soon as they got out of the lift, they saw an ambulance parked in front of the

inpatient department, the door behind it was already open, and there were two nurses and a doctor waiting.

Needless to say, this must be Ding Weijian's arrangement again.

"Push carefully, be slow"

Under the doctor's command, the two nurses helped push the hospital bed into the ambulance together with the two policemen.

Ji Feng said, "Ruo Nan, you few follow in the ambulance, Bai Zhu and I will drive in front"

"You guys aren't going anywhere!"

Just at this moment, a sudden drink came.

A few people immediately turned around to look, and saw a group of uniformed police officers were walking quickly, hailing the ambulance, and even surrounded Ji Feng and others in the middle.

These policemen were none other than the ones from Qihe City, Jibei Province, who had been reprimanded by Li Ruo Nan just before!

"It's you guys!" Li Ruonan's face chilled abruptly, her eyes glanced past Ji Feng's face before she stared coldly at the policeman in the lead and said angrily, "What are you still doing here? Do I have to arrest you guys to be honest?!"

"Humph! You don't have to bluff us here!" The policeman in charge coldly snorted, "I have just called your bureau and asked, you are not in charge of this case at all, and now you are still on leave, you have no authority to stop us from handling the case!"

Li Ruonan couldn't help but feel a sinking heart, these people are really not stupid, and they move so fast, they actually came back so soon.

But immediately, Li Ruo Nan's heart could not help but feel a surge of anger.

These people knew so quickly that she was on leave and not in charge of the case, obviously someone in the police station had told them, and it was not a low position, because ordinary police officers did not know about her leave, let alone who was in charge of this case.

Some people, to be so shameless!

Those murderers themselves had problems, some of them could not have thought of it, but they could turn a blind eye to it so much for some ulterior motive, none of them ever asked about the injured, they all only thought of their own interests.

Li Ruonan was angry in her heart, but her face was unmoving as she said, "Who told you that? Tell him to come out and tell me again!"

The policeman in charge said, "Never mind who told you, I am not obliged to tell you, we are now on official duty, please move aside immediately and do not obstruct us"

Li Ruonan coldly shouted, "I'll see who dares!"

The police officer in charge said in a deep voice: "Captain Li, I respect you as a peer, so I have always treated you well, but don't be so nosy."

Li Ruonan said angrily, "I'm really going to make a fool of myself, so what?"

The policeman's face turned gloomy and he waved his hand, "Then don't blame us for being rude, do it Boom!"

What everyone couldn't anticipate was that before the head policeman's words even fell, his whole body suddenly flew out sideways and instantly crashed into the ambulance, then the huge rebound force made him fall to the ground again and couldn't help but scream miserably.

Ji Feng stepped forward and said coldly, "You people are so bold, not only do you dare to impersonate the police, you even dare to take hostages yoho, you actually have weapons with you, how bold!"

"Well"

The policeman in the lead was really badly beaten by this sudden attack, he lay on the ground for half a day without getting up, he didn't even know that he was about to drop the pistol on his waist.

The other police officers also froze, they did not expect that the other side actually said to do it, now it is obvious that they have the advantage in numbers, right?

How

But the next moment, they reacted, the captain was beaten, how could they be indifferent, they immediately drank and rushed towards Ji Feng.

However, how could these people be a match in front of Ji Feng? They didn't even need Ji Feng to make a move; Bai Zhu's strike was enough for them to suffer.

Six people, almost one at a time, in just a few breaths, all of them were put down!

At this time, Li Ruonan also reacted, she gave Ji Feng a dismayed look, then gritted her teeth and shouted, "Arrest all these lawless elements who are pretending to be police officers!"

Campus Master Chapter 2355

Anger, panic, consternation, and pain

Those police officers from Jibei Province had extraordinarily complicated expressions on their faces, each staring at Li Ruonan in anger, not expecting her to actually dare to arrest them all.

What made them feel the most angry was that Li Ruo Nan had said that they were impostors even though she was ordered to know that they were police officers, and she didn't even listen to their explanations, which really made them extraordinarily angry.

However, no matter how angry they were, there was nothing they could do because Li Ruonan was obviously determined to cure them. This also made them secretly regret, if they had known that this woman was so harsh, why did they have to be so tough with her? If they had known this, wouldn't it have been great to sneak over at night and get rid of her?

But now

“Captain Li, you are making a mistake by doing this do you know that!” The policeman at the head of the group said in a deep voice.

“Well”

However, in the next moment, he could no longer say anything else.

Because Ding Weijian just poked a finger on his ribs, and it instantly made the policeman in charge suck in a breath of cold air, unable to say a word.

At this time, Li Ruo Nan was in a dilemma, she glanced at Ji Feng as if to say, “What should we do now?”

Ji Feng naturally could understand Li Ruo Nan’s difficulty at this moment, he said, “Take all these people to the car, obstructing the police in their official duties, this crime alone is enough for detention, not to mention also impersonating a police officer”

Li Ruonan’s eyes just lit up, what she was worried about was not how to convict these people, but what to do with them next. Now that Ji Feng has spoken, it is obvious that there is a way.

Ji Feng added: “Not to mention that you are fake police officers, even if it is true, then as police officers from Jibei Province, you ran to Jiangzhou to enforce the law across the border, and you were not accompanied by Jiangzhou police officers, and you could not even produce a document, you are also in violation of the rules, and you actually dare to cross?”

The corner of Li Ruonan’s mouth then pulled up a slight curve, she knew that Ji Feng was talking to himself.

“Take them to the car, since they dare to impersonate police officers to hijack witnesses, then obviously they are in cahoots with those murderers who were let go, just take them away and interrogate them together!” Li Ruonan waved her hand and drank.

“Heh!”

Ji Feng then laughed, this girl still had some tacit understanding.

So, those seven guys were taken into the ambulance, as well as the two police cars, without even half a resistance, and then led by Ji Feng, they rushed towards the military camp.

When they arrived at the entrance of the barracks, Xiang Yongzhan came out directly to greet them, but went but did not take them into the barracks, but sent the seven unlucky guys inside, and then he himself led Ji Feng and the others towards the outside.

Because the military hospital was not inside the barracks, although it was not very far away, there was still a distance after all.

Once he had arranged Yang Bin, Ji Feng couldn’t help but frown and say, “Old Xiang, how come there aren’t many guards at this military hospital either?”

Xiang Yongzhan smiled, “There are guards in the cadre ward area, that’s enough!”

Ji Feng said, "Then isn't this guard force a bit too thin, look at this front ordinary area there are only a few guards, if that gang comes to abduct Yang Bin again"

"I see who dares!" Xiang Yongzhan grunted, the arrogance in his words was unreservedly revealed, "Older brother, not to mention that there are guards in this hospital both explicitly and implicitly, even if there aren't, leave the hospital gates open, I'll see who dares to come here and abduct someone!"

"There may not be no one who dares!"

Ji Feng laughed, "What if the other party is very powerful?"

Xiang Yongzhan couldn't help but laugh, "Then I'd like to hear, how big is the other party?"

Ji Feng said, "Perhaps, it's the Yang family in Qihe City, Jibei Province."

"..... Yang family?"

Xiang Yongzhan couldn't help but be slightly stunned, "The you're talking about is that Yang family in Jibei Province where Yang Xiaoji, the chief instructor of the Armed Police Force, is from?"

Ji Feng smiled and said, "I think so."

"..... Shit!"

Xiang Yongzhan was then stunned and couldn't help but burst out a foul mouth, "Kid, you've really gotten me into a lot of trouble!"

Ji Feng glanced at him and asked, "What, are you afraid?"

Xiang Yongzhan laughed bitterly, "This has nothing to do with being afraid, the point is that the Yang family also has some influence in the military and police circles, why do you have to offend them for no reason"

Ji Feng laughed: "If it's really for no reason, of course I'm not willing to make random enemies."

"What, there can't be any more talk in between?" Xiang Yongzhan asked.

"Yes, there is a bit of a saying." Ji Feng nodded and said, "But it's not clear in a few words now, and I'm not sure if the other party is that Yang family or not, Let's do it this way, I'll put the person here with you first, if someone is looking for you, have him come to me directly, this time count me as owing you a personal favor!"

"That's an outrageous thing to say!"

Xiang Yongzhan shook his head and said, "You can go ahead and do your thing, the person is here with me, there will definitely be no problem."

Ji Feng asked, "Not afraid of the Yang family anymore?"

Xiang Yongzhan hummed, "Joke! I'm doing the right thing, do I need to be afraid of anyone? Besides, if people really come to my door, it's a matter of justice and debt, I'm just helping out for the sake of my friends, the real owner is you, what does it have to do with me?"

Ji Feng then smiled and nodded his head, as long as Xiang Yongzhan had this attitude, it was good.

“Alright, let’s stop here for today, I’ll buy you a drink some other time.” Ji Feng smiled and punched Xiang Yongzhan’s chest, this guy seemed to have grown quite strong again recently.

“Don’t wait for another day, I have time today.” Xiang Yongzhan said.

“Unfortunately, I don’t have time today.” Ji Feng laughed, he remembered something else and asked, “By the way, what exactly did you mean when you said on the phone that I got a benefit or something like that?”

“You really don’t know?” Xiang Yongzheng looked at him suspiciously.

Ji Feng laughed: “What do I know?”

Xiang Yongzhan said, “It’s the matter of the Wu family It seems you really don’t know. It’s like this, wasn’t Wu Zhengxin placed in criminal detention? A vice minister of the police department stepped in to say hello and then voluntarily retired to the second line, which is clearly a low admission of defeat, wanting to exchange for Wu Zhengxin’s peace.”

Ji Feng then understood, that vice minister must be someone from the Wu family, he deliberately came out to say hello for the matter of Wu Zhengxin, considered to have made a mistake, and then voluntarily retired to the second line, so that a position of vice minister was vacated, which was actually equivalent to the Wu family giving such a position to the Ji family in this way.

“Heh!”

Ji Feng sneered, “The Wu family is really willing to pay the money!”

The deputy minister of the police department, this position is not low, extremely weighty, at least if compared to Wu Zhengxin’s position, then adding one more Wu Zhengxin is not even comparable.

Of course, there are some things that cannot be compared so rigidly, and just Wu Zhengxin’s status as the third oldest member of the Wu family is not a good comparison!

“What about the result?” Ji Feng asked.

“The result is that Wu Zhengxin is still being held in the detention center!” Xiang Yongzhan laughed.

Ji Feng then laughed dumbly, it looked like the family was still not satisfied with this one vice-ministerial position. Actually, when you think about it, Wu Zhengxin’s identity was so sensitive, a vice-ministerial position might carry enough weight, but it was far from enough for the Ji family to let go.

In fact, if the Wu family and the Ji family did not have such a deep hatred for each other, then a position of deputy minister of the police department would have been enough, after all, no one would have caught the other side and beaten them to death without a deep hatred, that would have created a deadly feud!

But now, given the relationship between the two families, even if the Ji family lifted their hands and let Wu Zhengxin go, wouldn’t the people of the Wu family be hostile to the Ji family?

If that was the case, then naturally, there was no mercy to be shown!

Either we can watch Wu Zhengxin being sentenced, or we can show some sincerity and really shed some blood!

“This position of deputy minister is just a sweetener, I’m afraid the real big head is still behind.” The real big headache is still to come.” Xiang Yongzhan laughed, “You have really won a big battle this time, now the whole Yanjing is talking about you, you are now a powerful young man Ji!”

Ji Feng shook his head and laughed, “Bullshit.”

Xiang Yongzhan hummed, “You think I’m joking? If you don’t believe me, next time you go back to Yanjing, just find a taxi driver and ask them if they know your name. You, Senior Ji, slapped Wu Zhicheng, sent him to the hospital, and later sent his old man to the guardhouse, your big name has long since spread!”

“Even people in the circle are now a bit scornful when mentioning your name, you kid has barely made a public appearance in the circle once, but your prestige has gone straight to your family boss!” Xiang Yongzhan said.

“Heh!”

Ji Feng shook his head and laughed, saying, “It’s just a false name, you don’t think I care about that, do you?”

Xiang Yongzhan laughed, “It doesn’t matter if you don’t care about this, but, my family’s old man has praised you, this is still a good comment, right?”

“Oh?”

Ji Feng couldn’t help but be stunned, “What, your father praised me?”

Xiang Yongzhan hummed, “What do you think? You almost defeated half of the Wu family with your own strength, my old man has a very high opinion of you!”

Even once when a small unit of San’s army crossed the border to provoke him, and even did something evil, he led a few members of the special operations brigade to fight the other side in the deep forest, and finally wiped out all the members of San’s squad in Chinese territory.

It was only after that operation that the old man at home gave him a ‘good’ rating.

But this kid Ji Feng was different. After the news spread that Wu Zhengxin had been sent to the guardhouse by Ji Feng, the old man, who usually rarely commented on matters in politics, actually praised Ji Feng in a very serious manner.

“This kid from the Ji family is really something, wise and brave, quite like Ji Lao!” These were the original words of Xiang Yongzhan’s father.

Campus Master Chapter 2356

The gushing praise of how Xiang Yongzhan’s father was actually not much of a feeling for Ji Feng, because he did not know Xiang Yongzhan’s father and had never met him, so he did not know how difficult it was to be able to gain his praise.

What Ji Feng was concerned about now was how to handle the next matter.

The city bureau is now clearly compromising with the Jibei province, and to put it more crudely, it can be said to be in cahoots.

In fact, what Li Ruonan has done, apart from keeping Yang Bin from being taken away by the police of Jibei Province, is not a single thing that is in line with the regulations, regardless of whether what she has done is right or wrong, whether the starting point is good or not, at least it is against the regulations.

In particular, the arrest of those seven policemen from Jibei Province was actually even more outrageous, especially since, in fact, all seven of those policemen were carrying their papers!

This was tantamount to making a move to arrest someone even though they knew they were police officers, which was a serious breach of discipline!

Of course, now Li Ruonan had an excuse – she couldn't be sure whether these policemen were real or not, as their behaviour was too suspicious, so she had to detain them temporarily, and could only release them after confirming their identities with the Qihe Municipal Bureau of Jibei Province.

But this obviously doesn't take too long, so what to do next is a measure that must be taken now.

Li Ruonan said, "Ji Feng, you should leave this matter alone, I'm already grateful that you've helped so far, the next step is definitely to go through the officials to deal with it, you don't have an official status now, it's better not to get involved."

Ji Feng smiled and said, "Do you think I can still back out now?"

Li Ruonan could not help but be silent.

Indeed, from the moment Ji Feng struck out and knocked down those seven policemen, he had already gotten involved, and now even if he wanted to back out, I'm afraid people would not agree.

"How about this, I'll take you back to the city bureau, go talk to our chief, you're not a cop anyway, this is not a big deal to you, you can do it then."

"Alright."

Ji Feng waved his hand and said, "You should stop mentioning the withdrawal, this matter was started by me no matter what, I can't just run off halfway and leave you alone to deal with all the trouble, right?"

Li Ruonan's head lightly shook, said: "words are not like that, no matter how to say I am also the deputy chief of the criminal police brigade, even if I violated the rules, made a mistake, at most, my position will be jerked off to me, and then give me a punishment, I have not committed a crime, the city bureau will not easily dismiss me. But you're different, you don't have an official official status, and if someone catches you in the act, you'll have to be detained at least"

"Then don't let others catch a hold of you!" Ji Feng said.

"Easy for you to say! Now there are already handles in people's hands!" Li Ruonan laughed bitterly, "The fact that we beat up those people and arrested them is already a serious mistake in itself."

“How do I know they’re cops?” Ji Feng said smilingly, “They came up and didn’t show their papers, and they were so aggressive in trying to hold my friend Yang Bin hostage, even your police presence didn’t work, of course I had to do something in this situation, I beat them all lightly, not throwing them down from upstairs was already considered polite!”

Li Ruonan: “.....”

After a while, she laughed bitterly and said, “Is that even possible?”

Ji Feng laughed, “Do you think there’s a problem with saying that? What can others pick out?”

It was just a favour for a friend, and besides, those people didn’t say they were police officers, they didn’t show their papers, so it wasn’t too much to say that they were fake police officers.

In that case, if you beat them up, so be it, what else can you do?

The fact that these people wanted to take Yang Bin away for no reason was in itself a bit wrong, Yang Bin had not committed any crime, and they did not show their arrest certificates, so why should they take him away?

The reasoning behind this explanation is that a discerning eye can see that this is a deliberate attempt to pretend to be confused, but as long as the other party has no evidence, they can’t really do anything to Ji Feng.

“Then what should we do next?” She could not help but listen to Ji Feng’s opinion as she saw that he had almost handled the matter so lightly.

“What to do? Cool it!” Ji Feng said.

“What do you mean?” Li Ruonan was a bit puzzled.

Ji Feng laughed: “Ruo Nan, you’re in a state of confusion! Think about it, what is the most important in this whole thing?”

Li Ruonan was slightly stunned, “The most important?”

She thought for a moment before saying, “Isn’t it figuring out where the root of the matter lies? What exactly is happening over in Qihe City?”

Ji Feng laughed: “There is something close to what was said.”

Li Ruonan couldn’t help but ask: “Then what do you say is the most important thing?”

Ji Feng smiled as he turned back and pointed to the military camp that was already fading away and laughed, “Of course Yang Bin who is currently lying in the hospital!”

“Yang Bin?!”

Li Ruonan was a bit surprised, but in a flash, she reacted and said in a flash, “Yes! I forgot about it! This matter started from the beginning because he was being chased and killed to trigger the series of events that followed!”

“Yeah.”

Ji Feng laughed, "Now those police in Jibei Province want to get him back, obviously they also have some kind of purpose for him, perhaps they are afraid that he will talk nonsense here, or they want to get something out of him, but no matter which possibility it is, the key to the matter still lies in Yang Bin's body!"

Li Ruonan couldn't help but feel a sense of clarity, and her pretty face couldn't help but reveal a smile as she said, "In that case, as long as we keep Yang Bin, we'll have the initiative, and it's like being invincible!"

Ji Feng nodded and laughed, "That's exactly right."

Li Ruonan's previous depression and anger were suddenly swept away, and she asked, more or less excitedly, "So are we going to interrogate Yang Bin next?"

"Interrogate?"

Ji Feng couldn't help but shake his head and laugh, "People haven't committed any crimes, so why should you interrogate them?"

Li Ruonan was immediately a little less than impressed and said, "I'm usually used to saying that."

Ji Feng: "....."

After confirming that the few policemen from Jibei Province were locked up and guarded very tightly, Ji Feng and the others left the barracks and headed towards the military hospital.

The first thing that happened was that they had to go back and forth with them because they had official business, so they gave them a pass so that they could go in and out of the military hospital freely without being blocked.

Don't think that this so-called military hospital is the kind of place in society that is licensed for business, in fact, the military hospital is also divided into internal and external, of course, anyone can enter the external business, but the internal almost belong to the nature of rehabilitation and sanatorium, even some old cadres in the army are too old and poor health, so they live here all year round.

Yang Bin was placed in such a hospital, which is also the internal hospital of the Jiangzhou Military Region, otherwise, how could Xiang Yongzhan be so confident, daring to say that surely no one would dare to storm this place!

With the pass, Ji Feng several people entered the hospital very smoothly, but the ward could not enter so many people, because the hospital side was worried that too many people would disturb other patients, so Bai Zhu and Ding Weijian and the other two policemen stayed down there, only Ji Feng and Li Ruonan went upstairs to Yang Bin's ward.

"Mr. Ji"

When he saw Ji Feng, Yang Bin was about to struggle to sit up, but was pressed by Ji Feng on his shoulder again, "Don't move around, just lie down and talk."

Yang Bin said gratefully, "Mr. Ji, a great kindness is not thanked, your saving grace, I'll take it down. I owe you another life!"

He wasn't blind, he was brought here from the City Affiliated Hospital, he naturally saw what was going on here when he was pushed out of the car and knew that he had dodged another bullet, and it was all thanks to Ji Feng.

Ji Feng shook his head and smiled, saying, "It's just a hand up, in fact, the person you should thank the most is this, the deputy captain of the Jiangzhou Municipal Bureau, Li Ruonan."

Yang Bin nodded, he naturally took Ji Feng's kindness to heart, "Captain Li, thank you."

Li Ruonan waved his hand and said, "This is what I should do, you don't need to thank me If you really want to thank me, then tell me why you are being chased, and also, who are those who are chasing you, what are their origins, how come even people from Qihe City Bureau are on their side? "

Ji Feng: "....."

This girl really know how to hit the snake, people just thanked her, she came to such words, this change who is not good to refuse.

Yang Bin is likewise not good at refusing, so he appears a little hesitant, seemingly hesitant.

Li Ruonan's eyebrows knitted up slightly, in her opinion, Yang Bin had been hunted to this point, but he was still covering up his words on this issue, either he had a ghost in his heart or his enemies were too powerful, so he did not dare to say anything.

Whichever is possible, it is not that pleasant.

Ji Feng was calm, he knew that Yang Bin did not want to say anything, otherwise he would have told him back in Yanjing, so he was not in a hurry and just waited quietly.

After a while, Yang Bin seemed to have made up his mind of some sort and slowly said, "Mr. Ji, Captain Li, if I told you that those people who were after me were actually sent by my brother, would you believe me?"

The next moment, Ji Feng and Li Ruo Nan's faces couldn't help but be covered with a stunned look, especially Li Ruo Nan, who was not only stunned, but also had a look of shock and disbelief in her beautiful eyes!

Campus Master Chapter 2357

"Yang Bin, what did you just say?!"

It was only after a while that Li Ruonan slowly opened her mouth and asked, she was still in a state of shock, because the information that Yang Bin had revealed in his words was so shocking that she could hardly accept it for a while.

Yang Bin was being chased and almost killed, and if it wasn't for Ji Feng's rescue, Yang Bin would have been turned into a pile of ashes – of course, or perhaps a headless corpse in front of the forensics, and this, surprisingly, was done by Yang Bin's own brother?

It sounded unbelievable, if not unbelievable.

However, Yang Bin nodded and said, "Captain Li, you heard me right just now, I said that the reason why I have ended up in this situation is because of my own brother, and it was also his doing that I was chased and killed!"

The anger in Li Ruonan's heart couldn't help but blurt out, "Why? Why would your brother do this to you?"

She had not seen many cases of fratricide since she had been a police officer, but many of them were committed out of anger or out of emotional disorder under special circumstances, and only then could they kill their own brothers. -passion killing!

It means that the murderer originally had no premeditation, but only killed someone because he was provoked at the time and in the heat of emotion.

This kind of person is usually not a criminal, but Yang Bin's brother was not like this. Yang Bin was chased from Jibei Province and fled all the way to Jiangzhou, and in between those murderers never stopped chasing him!

During this period, if Yang Bin's brother had only moved to kill when his emotions got out of hand, then he would definitely have had enough time to reverse himself.

But the current result was enough to show that this was clearly not the case, as Yang Bin's brother clearly had no intention of backtracking.

This made it somewhat difficult for Li Ruonan to explain.

How much hatred could there be to make two brothers from the same mother pull out their swords against each other, even to the point of having to kill each other?

How bad must this human nature be?

So Li Ruonan wondered whether it was because Yang Bin's brother was too cruel, or whether it was because Yang Bin had done something so outrageous that it had completely angered his brother and provoked him to kill him.

Not knowing what was going on, Li Ruonan instinctively hoped that it was the second possibility.

However, Yang Bin's next words were a disappointment to Li Ruonan.

Only to hear Yang Bin say, "Actually, I also want to know why, since I was a child, but unfortunately, until now, no one has been able to give me an accurate answer, not even that man"

Li Ruonan couldn't help but ask, "I don't understand what you mean, please say it more clearly."

"My brother, his name is Yang Feng, his father's name is Yang Xiaojiang, and his mother"

"Wait."

Li Ruonan sounded a little strange: "Yang Bin, what do you mean by your brother's father, your words"

Before she could finish her words, she was interrupted by Ji Feng, "Listen to Yang Bin finish his words."

Li Ruonan nodded, her heart was curious, what the hell is going on, how does it sound Yang Bin's tone of speech that strange, and their brotherly mutilation

"Because in name, my father has only one son, and that is Yang Feng." Yang Bin said, a flash of pain in his eyes as he said this, and whispered, "Because my mother was not Yang Xiaojiang's wife"

"An illegitimate child!"

As soon as they heard Yang Bin's words, Ji Feng and Li Ruo Nan both instantly understood why Yang Bin would speak so strangely, saying something about his brother's father, it turned out that nominally Yang Bin had no father, or nominally his father was not Yang Xiao Jiang, he was just an illegitimate son!

Li Ruonan opened her mouth to apologize, she felt she had touched Yang Bin's scars, but before she could speak, Yang Bin continued, "My mother was a bitter woman. She was originally the one Yang Xiaojiang talked to since, but then Yang Xiaojiang was the one who married another woman for his own benefit!"

Ji Feng nodded slightly, perhaps nowadays many people don't understand what the phrase 'the object of self-talk' means, but in fact Ji Feng knew that in that era, the parents' order to matchmaker was still the mainstream, although not as strict as the ancient one, but men and women marrying also needed to be introduced by a matchmaker, and then the unit issued a letter of introduction or something like that.

But in addition to these methods, there was also the option of getting married on your own, and this was actually quite popular in the big cities at that time.

However, in the eyes of society at large, there was still something a little bit unorthodox about it.

The girl, especially if she was dating herself, if the friend she was talking to split up, it would be difficult to talk about matchmaking again, and even if the girl was not too well connected socially, she would be rumored to be a 'broken shoe'.

I think that Yang Bin's mother was also afraid of this kind of encounter at that time.

"..... Back then when I was young, she had nowhere to go, and it was hard for a woman with a child to gain a foothold in society, so she had no choice but to stay." Although Yang Bin's voice sounded quite calm, but if you listen carefully you are able to detect that his words are actually tinged with a touch of sadness and anger.

At this moment, Li Ruonan asked, "Then your brother"

Yang Bin said, "My younger brother, the son born to Yang Xiaojiang and his wife."

"Then why did Yang Feng go after you?" Li Ruonan couldn't help but ask, "Even if there is some kind of grudge between you, but you are after all half-brothers, ah, even if he doesn't look at your brotherly love, but at least there is your father"

Yang Bin smiled, slowly shook his head and said, "Brother father?"

Li Ruonan was a little weirded out by his smile, and hesitated for a moment before asking, "What, is your father not good to you too?"

“Good!”

Yang Bin said, “Of course it’s good. If you speak as a father, he is indeed doing his best to train an assistant for his son!”

Li Ruonan then couldn’t help but be slightly stunned, what was the meaning of this statement?

Ji Feng, however, was thoughtful, the coldness and sadness in Yang Bin’s words were too obvious. It was obvious that Yang Bin did not seem to be treated as he should be in the Yang family as Yang Xiao Jiang’s son.

“Yang Xiaojiang, from the moment Yang Feng was born, may have treated him as the successor of the Yang family, and he has raised Yang Feng according to this goal.” Yang Bin said, “But as the successor, if there are not a few competent assistants around, it is naturally not justified, and the power is a bit too thin

Ji Feng nodded slightly, indeed, in order to sit firmly in the position of successor, in addition to their own ability to be excellent, the support of others is also particularly important, otherwise if it is just a bare-bones commander, what can one do if one is powerful?

“So your father is prepared to train you to be your brother’s right-hand man?” Li Ruonan asked.

“Yes!”

Yang Bin nodded slightly and said, “What you said is exactly right, that’s what they think and what they do!”

Ji Feng then looked at Yang Bin in surprise, it sounded as if Yang Xiaojiang had done something to Yang Bin that made an extraordinarily deep impression on him, huh?

“Then isn’t this also quite good?” Li Ruonan asked in disbelief, “Then why did Yang Feng still send people after you? How come it looked like he had to kill you?”

“.....”

This time, Yang Bin did not answer immediately, but fell silent, his eyes slightly lost in thought, as if he had fallen into a memory, remembering something that was particularly hard for him to forget.

It was only after a while that Yang Bin could not help but let out a soft sigh and said, “Originally, I had no other thoughts, but

The first time she had ever seen this kind of thing, she was able to break the needle just by the strength of the muscles on the back of her hand?

The other hand stretched out two fingers and pressed on the back of Yang Bin’s hand where the needle was stuck in, slowly pressing.

Li Ruonan looked a little surprised, but soon, her beautiful eyes could not help but reveal a look of dismay, only to see that as Ji Feng’s fingers pressed, the broken off piece of needle was actually driven out of Yang Bin’s flesh

“Ding!”

The needle fell to the ground with a crunching sound, but it was as if it was a heavy hammer hitting Li RuoNan's heart hard This was simply like a martial arts expert in a movie pushing his internal force to force a concealed weapon out of his body, how did Ji Feng do this?

But Ji Feng obviously had no intention of explaining, only to see him casually take out a spare infusion tool from the drawer of the bedside table and replace it for Yang Bin, while saying, "Yang Bin, don't get excited."

Yang Bin coughed a few times and held his face a little red for a while before he managed to recover.

"Don't say anything if you don't want to." Ji Feng patted his shoulder.

From Yang Bin's words he could hear that originally Yang Bin was willing to be his brother Yang Feng's assistant, but it just seemed that something big had changed in the middle of this, causing him to change his mind.

And from Yang Bin's reaction, he could tell that the change that had happened must have made Yang Bin extraordinarily angry, and he might not even want to think about it, otherwise he wouldn't be so agitated at the mention of these things!

"Mr. Ji, since you saved me, then I should tell you everything." Yang Bin said, "Besides, things have already passed, it's not like I can't accept it"

If only that were true!

Ji Feng secretly said, just looking at how excited Yang Bin was, how could he accept it?

Campus Master Chapter 2358

"..... I was sent to a martial arts school to learn kung fu, but one day when I came home I saw the marks of my mother's handprints on her face"

"It was then that I realised how badly my mother was living, not even as good as a nanny"

Yang Bin took a deep breath, the sharp pain in his wound caused by the excessive movement made his face slightly distorted: "Only later did I realize that although the Yang family had all accepted the existence of my mother and me, and Yang Xiaojiang's wife had also accepted it on the surface, but in reality, she had been deliberately picking on her children."

Thinking back to those days, a flash of pain appeared on Yang Bin's face.

In the Yang family, his mother did not have a name and did not even know how often she could see Yang Xiaojiang, not to mention the fact that she would be ostracised and bullied.

Even Yang Feng did not treat Yang Bin's mother with any respect!

This made Yang Bin's heart incomparably annoyed!

"Later, I came back, but clashed with the Yang family, and as a result" Yang Bin slowly shook his head, "Yang Xiaojiang actually put all the fault on me, and Yang Feng also planted some of the things he had done on my s head."

“When my mother saw the situation I was in, she offered to leave, but the Yang family did not agree.” Yang Bin let out a long sigh, “They said that we, mother and son, had lived in the Yang family for so many years, eating, drinking and feeding ourselves, and wanted us to make up for it.”

“How can they do that!”

Hearing this, Li Ruonan’s pretty face turned red with anger and said angrily, “Since you are Yang Xiaojiang’s son, then he should be responsible for your upbringing, this man started the whole thing in the first place, but no matter what, you are also his son, how can he do this to you!”

However, Yang Bin was not so angry when he said this, instead his face took on a smile and he said, “Son? In his eyes, I am afraid that only Yang Feng is his son, as for me I am afraid that I am his trouble only, if not for me, he wouldn’t have said that he couldn’t get rid of my mother

Li Ruonan said angrily, “Simply ridiculous!”

Yang Bin smiled: “In fact, it is not ridiculous, only, the Yang family is a bit too deceitful, because although my mother also said to receive the Yang family’s financial support, but in fact she also has a job, and for Yang Xiaojiang’s parents she has always been attentive service, I think, even if it is just a nanny, serving for so many years, there must be some value, right? ”

At this time, Ji Feng sort of understood what was going on, he asked, “When you asked me for a million dollars, this money was actually asked for by the Yang family?”

Yang Bin nodded slightly and said, “Yes, Mr. Ji. The Yang family said that we, mother and son, were living in the Yang family and if we wanted to leave, we had to make up the money, one million dollars, not a penny less.”

“One million! They really dare to ask for it!” Li Ruonan couldn’t help but snort coldly.

“It’s actually not that much.”

Yang Bin shook his head and said, “If we go by the Yang family’s standard of living, the living expenses of our mother and son for so many years plus some other expenses and the cost of sending me to learn kung fu, a million isn’t too much when you add it all up, it’s just that ghosts are willing to ask for their financial support

Ji Feng then fell silent, this was not a good thing for him to take, because Yang Bin had said that it was his mother’s decision to stay with the Yang family.

“Then why are you being hunted again?” Ji Feng asked, “Didn’t I give you the money? Did something go wrong in the middle again?”

“There was no problem, I gave the money to them after I went back.” Yang Bin said, “But, after I gave them the money, they actually offered to say that the reason I have this kung fu is also because of the Yang family, and that if my mother and I want to leave the Yang family, we have to scrap this kung fu of mine

Ji Feng could not help but frown at once, scrapping kung fu?

Yang Bin smiled and said, "In fact, I understand that this is just their excuse, Yang Xiao Jiang's wife is originally a thin-skinned woman, I'm afraid that when she sees my mother she is disgusted from the bottom of her heart, for so many years she has never been wantonly bullying my mother, of course it is impossible to let us leave so easily."

"In fact, at that time, they offered to ask for one million dollars, just to make things difficult for us." Yang Bin said, "Because they knew that I had no income at all other than basic living expenses, and that we, mother and son, didn't know anyone, so trying to get a million dollars was simply impossible."

Ji Feng said, "But they didn't expect that you had really gotten a million dollars, and when they saw that they couldn't get you guys hard on money, they offered to scrap your kung fu?"

Yang Bin nodded his head and said, "Not bad at all."

Ji Feng then understood, no wonder Yang Bin was begging on the street and was even willing to trade his life for a million dollars.

In fact, if you put yourself in his shoes, anyone else would have done the same.

No one would have stood by and watched their mother being bullied in the Yang family, so naturally they would have tried everything they could to leave the Yang family.

"What kind of grudge is there that can't be resolved? You've been bullying people for most of your life, so why do you still hold on to it!" Li Ruonan couldn't help but say, "Do you still have to torture people for the rest of their lives before you're willing to do it!"

"She's doing it because she hates me, hates my mother!" Yang Bin said.

"Why?"

Li Ruonan was really puzzled, "According to reason, your mother and your father met first, they got married later, even if she can't swallow this anger in her heart, this has bullied others for most of their lives, isn't that enough?"

Yang Bin said, "Because I slapped her once!"

Li Ruonan couldn't help but be stunned, "What?"

Yang Bin said, "After I came back from learning kung fu, once again I saw that woman sneering at my mother and bossing her around, my mother just argued and ended up getting a slap from her, and I also slapped that woman Perhaps, it was because of this incident that she wanted to torture us for the rest of our lives before she was be willing to do it"

Although Yang Bin did not speak in a loud voice and his tone was not too urgent, both Ji Feng and Li Ruonan could hear the strong anger contained in his words.

In fact, from Yang Bin's description, he could hear that his mother was definitely being bullied in the Yang family, and was beaten up after just arguing a word, which was worse than a servant, not to mention that she was also the mother of Yang Xiaojiang's son anyway!

As a son, how could Yang Bin look on?

Li Ruonan frowned: "That's too much! If it were me, I would have fought anyone who dared to bully my mother like that! She only remembers that she was beaten up, but she doesn't think about how badly she bullied your mother!"

Yang Bin shook his head and said, "If everyone thought like you, none of these things would have happened."

Li Ruonan was suddenly dumbfounded.

Indeed, not everyone thought like her, and if that Yang Xiaojiang's wife was really reasonable, where would all these things have happened?

"You haven't said why they're after you!" Ji Feng said, "One million has already been given, even if you don't agree with them scrapping your kung fu, that doesn't mean they have to chase after you so relentlessly, right?"

Even if Yang Feng's mother and son were as ferocious as they were, they still had to take Yang Xiaojiang's existence into consideration, right?

After all, Yang Bin was his son, so how could they just kill him like that?

How could killing a person be easier than killing a pig or a dog?

Ji Feng felt a little strange, although he also sympathised with Yang Bin and was disgusted with the actions of Yang Feng's mother and son, he was not easily swayed by emotions, unlike Li Ruo Nan who was so emotional.

"That's just one side of the story." Yang Bin said, "There's actually another reason why I'm being hunted"

"Oh?"

"Because I inadvertently saw Yang Feng's adulterous affair with Yang Xiaozhen's wife!" Yang Bin said, "Yang Xiaozhen, is Yang Xiaojiang's younger brother."

"....."

Ji Feng and Li Ruonan both couldn't help but be stunned.

Did this not mean that Yang Feng had an ambiguous relationship with his aunt?

Li Ruonan's pretty face couldn't help but flash a look of disgust, what a mess this is!

Ji Feng was also a bit speechless, really did not know what to say, no wonder those murderers had to kill Yang Bin, so there was such a reason for this!

"Then where is your mother now?" Ji Feng changed the subject, he was not interested in knowing these dirty things about others, he didn't even want to hear about it.

"..... is in a safe place." Yang Bin said.

"After I found out about Yang Feng's nasty things, I knew I had to leave immediately, because Yang Feng didn't dare to make it known, so I had time to take my mother away from the Yang family, because

there were usually people watching us all the time, I didn't dare to take my mother and run away, because although I knocked out the people watching us, Yang Feng would definitely not let us go, so I hid my mother in a safe place

"So that's how it is." Ji Feng nodded and pondered for a moment before he nodded and said, "Yang Bin, if things are really like you said, then you don't have to worry about this matter, recuperate your injuries at ease, and when you've recovered, go and get your mother back."

Ji Feng did not ask where Yang Bin had hidden his mother, because he knew that asking would instead make things difficult for Yang Bin.

Yang Bin nodded and said, "Mr. Ji, I'll keep your kindness in mind"

"There's no need to say that." Ji Feng waved his hand and said, "Recuperate at ease, the Yang family's hands can't reach here, you are absolutely safe here."

"Mm."

Yang Bin did not say another word of gratitude, Ji Feng's kindness to him could not be expressed in any way.

However, considering the Yang family's power, Yang Bin couldn't help but say, "Mr. Ji, the Yang family is very powerful, Yang Xiaojiang's father used to be an old general back then, and Yang Xiaoji, Yang Xiaojiang's elder brother, is the chief instructor of the Yanjing Armed Police General Force, so he has a lot of power

If this will bring you trouble, you can just turn me hand me over, I will definitely not have any complaints"

Campus Master Chapter 2359

Ji Feng waved his hand and smiled, "You don't have to worry about that, I said it, the Yang family's hands can't reach here."

Yang Bin then nodded gratefully, how powerful the Yang family was, he also had a good idea, wanting to resist the pressure brought by the Yang family, Mr. would definitely pay a great price, Yang Bin was grateful in his heart.

Leaving the military hospital, Ji Feng and Li Ruonan could not help but feel some emotion in their hearts.

Brothers at each other's throats!

Although they had both heard of such things, they always felt that they were very far away, but never thought that one day such things would actually happen to them.

In fact, to put aside the fact that Yang Bin had attracted Yang Feng's killing spree because he had seen Yang Feng's ambiguous affair with his aunt, what really made Ji Feng and Li Ruonan feel uncomfortable was the bullying of Yang Bin's mother and son by Yang Feng's mother and son duo.

Bullying someone for so many years and not even being satisfied when they want to leave, and still thinking of making things difficult, this situation really makes Ji Feng and Li Ruonan not know what to say.

Just hearing about it was so uncomfortable!

At the same time, what made Ji Feng feel even more uncomfortable was Yang Bin's father, Yang Xiaojiang.

This person, who was also said to hold real power, didn't know if it was because of his questionable character or what was going on, but he actually treated his own children so badly.

How could Yang Xiaojiang watch Yang Bin's mother and son being bullied in such a way and not do anything about it?

Ji Feng did not believe that Yang Xiaojiang did not know about this situation, after so many years, how could he not know?

This is not to mention that what really makes Ji Feng feel speechless is that Yang Xiaojiang actually decided Yang Bin's fate when he was a child, and did not even give Yang Bin a chance to choose, he sent Yang Bin to learn kung fu in order to be able to assist Yang Feng in the future.

This is really

Ji Feng really didn't know what to say.

Even in those big and powerful families, the decision to choose a successor is usually made slowly only after the children have reached adulthood, and the other children will be nurtured according to their interests, and it is naturally better if they can become talented, and cannot be forced if they cannot.

By doing so, Yang Xiaojiang had undoubtedly cut off Yang Bin's future from an early age, leaving him to become a martial artist and to end up working for Yang Feng.

They are also children, why such a difference in treatment?

It's not like this is the ancient era of emperors!

Ji Feng couldn't help but shake his head and said, "Ruo Nan, that's it for today, you should also stop fighting with your leader when you go back, as for the matter of those few policemen, just deal with it according to the way we talked about before."

Li Ruonan hummed and said, "I don't care to fight with them, they all just know how to climb up the ladder."

Ji Feng then laughed and said, "It seems that you are not qualified to be a captain."

Li Ruonan then rolled her eyes.

After a while, Li Ruonan asked, "Hey, what are you planning to do about this? Are you just going to leave Yang Bin here for the rest of his life?"

Ji Feng shook his head and laughed, "We're not the ones who should be anxious now, let's wait until Yang Bin recovers. Just watch, things are definitely not over."

Li Ruonan nodded, it definitely wasn't over, not to mention the matter of those few policemen being arrested, just looking at the madness of those murderers when they were chasing Yang Bin, it was clear how much Yang Feng hated him.

But this has little to do with Li Ruonan, she just needs to go back and explain why she arrested those policemen, and then put all the other problems on the military's head, the municipal leaders will have no choice.

As for the issue of Yang Bin's mother and son

The actual fact is that Li Ruonan is somewhat unable to help. The company's main business is to provide a wide range of products and services to the public.

The company's main business is to provide a wide range of services and services to the public, including the provision of services to the public and the provision of services to the public.

"Hey"

Li Ruonan glanced at Ji Feng again.

Ji Feng smiled and asked, "What? Just say what you have to say."

Li Ruonan asked, "When are you going to help me correct my bodybuilding exercises?"

Ji Feng couldn't help but cough lightly at his words and said, "Didn't we agree before Ruo Nan, you first do as much as you can from the video I gave you, and when you feel that there is really no more progress, I will help you"

Li Ruonan then couldn't help but bite her lip: "But I find no progress right now!"

Ji Feng sniffed, couldn't help but scratch his head in a rare way, thought for a while and said, "Then how about this, you go directly to Yu Xuan, let her guide you, you are both women and good friends, so it must be much easier to practice, as for me forget it."

"Boom!"

Li Ruonan turned around and got into the car, glaring fiercely at Ji Feng and said angrily, "Ji Feng, you idiot, coward, stupid pig you run and go back!"

After saying that, she directly started the car, and with a kick of the accelerator, the BMW X6 let out a low roar and sped away, leaving behind a stunned Ji Feng.

After a while, Ji Feng finally couldn't help but laugh bitterly, "This girl took my car away"

Bai Zhu pursed her lips and laughed lightly next to her, but her beautiful eyes were glancing at Ji Feng for a few moments.

This made Ji Feng also rare a little embarrassed, he cleared his throat and said, "So what, I really don't know what kind of madness this girl has, all of a sudden, it's really"

Bai Zhu pursed her lips and said, "Ji Shao, I see that Captain Li seems to be a little sad."

Ji Feng waved his hand and said, "What does she have to be sad about, net nonsense."

Bai Zhu's beautiful eyes looked at him and laughed lightly, "Can't you really see it, Mr. Ji? Or are you just pretending to be confused? I'm afraid that Captain Li has fallen for you"

"Nonsense!"

Ji Feng cursed with a laugh and said, "All right! Don't speculate, better hurry up and think about how to go back"

Bai Zhu then couldn't help but snicker, she could see that Ji Feng's face was a bit embarrassed and said he was talking nonsense, looking at him like this, he must have been aware of Li Ruonan's behavior.

"It seems that I have to trouble Xiang Yongzhan once more." After waiting for a while, there still weren't any outside vehicles coming in or out, so Ji Feng had to call Xiang Yongzhan's phone number and ask him to send a car.

.....

United University. Laboratory.

An old man with white hair, holding a folder in his hand, followed by four or five young men behind him, walked into the laboratory.

"Professor Yu."

The duty officer in charge of managing the lab equipment saw Professor Yu and hurriedly stood up to greet him, "Which equipment do you want to use today? I will go and help you prepare."

Professor Yu, who was called Professor Yu, said, "No need, just taking students to do a few small experiments today"

As he spoke, Professor Yu had already led his students into the laboratory.

The staff on duty hurriedly went back to prepare boiling water, drinks, etc. Now that the weather was hot, although the air conditioning was on in the laboratory, the place where this Professor Yu was doing his experiments was not air conditioned, because Professor Yu was an expert in the field of machinery and materials, so the experiments he usually did were related to these two things.

When doing such experiments, the requirements for temperature are very strict. Although Professor Yu is old, his requirements for himself are undiminished and he never fails to work meticulously. This also made the laboratory staff admire him, perhaps compared to those so-called 'bricklayers' who often shouted on TV and newspapers and jumped up and down, Professor Yu was a real expert and scholar!

"Hm?"

However, as soon as Professor Yu entered the mechanical part of the laboratory, he couldn't help but frown, and a look of displeasure flashed across his face.

There was no one in the lab.

However, it looked somewhat scattered, especially on the workbench, there were many bits and pieces scattered about, although it was not too messy, the original neatness of the lab was completely destroyed.

This made Professor Yu's heart a little unhappy, and the few students following him could not help but frown, cursing in their hearts, they did not know who was doing the experiments here, and how come they did not clean up the mess, this is simply shitting without wiping the buttocks!

The teacher hated it when people didn't take care of the lab equipment and didn't take care of things, because the teacher had come from those hard times and had often taught them that foreign countries were blockading China in those days, and that only the Soviet Union was willing to help with some equipment, but later on, after the relationship had fallen out, they had also cut off their dealings with China.

So it was really difficult to get experimental equipment.

That's why the teachers took extra care of the experimental equipment. Normally, if a student was careless, he would be criticised, and if he broke the equipment, the criticism would naturally be even more severe.

So a few students heart for that did the experiment but did not clean up the guy heart is very dissatisfied, the teacher saw this look in front of him, must be in a bad mood, then this afternoon their mood also do not want to get a good look

For the teacher's temperament is very familiar with the several students look at each other, hurriedly put down the things in their hands to go forward to clean up.

Professor Yu sat expressionlessly on the chair next to him, casually placing the folder on the table at hand, angry at this person who didn't care for the lab equipment at all.

"Hm?"

But soon, Professor Yu couldn't help but frown as he saw a ball of paper crumpled into a ball on the table next to him where the folder was placed, with a formula seemingly written on one of the corners.

Out of a professional instinct, he casually picked up the ball of paper and opened it to take a look.

It was that glance that made him unable to take his eyes off it any longer.

"Alloy?!"

Professor Yu took a glance at the paper and realised what was written on it. On top of this paper, there were the properties of several different materials, formulas, in addition to some symbols that he didn't know what they represented

Although Professor Yu couldn't read the last series of symbols, the formulas and material properties on this paper were definitely for doing calculations for alloys. There is no doubt about it!

The most important thing is that this seems to be a new type of alloy?

Campus Master Chapter 2360

"It's really a new type of alloy?!"

Professor Yu looked at those calculations on the paper and secretly deduced in his heart, he found that what was written on it were the properties of several common metal materials, but if one followed the process of alloying, these several metal materials were really suitable for making an alloy.

The steps and formulas on the calculations are exactly in the direction of alloying!

It's just that

What kind of alloy is this?

Professor Yu was a bit puzzled, although the several materials on this paper were very common, but if the process applied was different, the final manufactured alloy would have very different properties.

Even if there is no suitable match, the alloy may not be as good as the most common metal, even though it can be made in the end.

So the key depends on how these materials are matched, and the process of making the alloy is also extraordinarily important.

Professor Yu was deep in thought. According to the researcher's thinking, it was obvious that he already had a set of mature ideas, otherwise it would not have been possible to bring it to the laboratory for testing, because a new alloy, first of all, must first put enough effort on the derivation, that is to say, at least in the theory is able to work, and then can enter the experiment, to verify.

But the problem was that the paper didn't even say how to process and manufacture it, it just listed some formulas and principles, but nothing further.

Professor Yu's curiosity was aroused, and he subconsciously lit a cigarette and sat there thinking seriously, following the ideas on this piece of paper and deducing them in his mind.

Gradually, Professor Yu's expression became grave, because he found that each of the materials listed on the paper had its own unique advantages, and if the advantages of these materials could be brought into play and successfully made into an alloy, then the performance of this new alloy would be absolutely terrifyingly strong.

At least, Professor Yu could not think of any other alloy in the world that could match this new alloy!

But the question is, how can we bring out the properties of these materials and successfully fuse them together to make a new alloy?

That is the biggest problem!

This is also the most difficult problem in the field of alloy manufacture.

For example, it is well known that one metal may have the best thermal conductivity and that one metal is stronger than the others.

The challenge is how to combine all these properties in the same alloy and bring them out.

This is also known as core technology!

What Professor Yu wanted to know was what the symbols on the bottom half of the paper meant, whether the researcher who had written the paper had scratched them out by hand or whether they all meant something special.

Professor Yu thought of many possibilities, such as the properties of these metals on the periodic table, their arrangement, etc., but he was disappointed to find that none of the possibilities he guessed could match up with these odd symbols in front of him.

“These symbols, what exactly do they represent” Professor Yu was full of doubts.

“Ding”

A crisp sound rang out, as if it was the sound of metal clashing, causing Professor Yu to suddenly snap out of his contemplation and look up to see one of his students using a broom to sweep the pile of debris that had been cleared off the lab bench into a bin.

A steel ball fell from the pile and rolled onto the ground, and the crisp sound was the result of this small object hitting the ground.

The small object rolled down right in front of Professor Yu, and he casually picked it up, shook his head slightly, folded the piece of paper in his hand and put it solemnly in his pocket, he subconsciously felt that what was recorded on this piece of paper seemed to be very valuable, and perhaps, he was also eager to figure out what those ghostly and weird symbols really meant.

“Teacher”

A student came over with a rubbish bag and gestured for Professor Yu to throw the small steel ball in.

Professor Yu lifted his hand and was just about to throw the small object away, but his hand suddenly stopped in mid-air, his gaze, fixed on the small steel ball.

“Ee?”

Professor Yu looked at it for a moment and couldn't help but ee in surprise, and then he immediately brought the small steel ball to his own eyes and observed it for himself, “Something is strange”

The student asked in confusion, “Teacher, what's wrong?”

Professor Yu smiled but waved his hand, his eyes still fixed on the small steel ball in his hand, and said to himself, “It's really strange, this is obviously metal, how come it's so light?”

Yes, what was strange to Professor Yu was that the small ball in his hand was almost the size of a small steel ball, but when Professor Yu held it in his hand, he realised that it was as light as nothing, just like a plastic bean, so light that one could hardly notice that one was holding something in his hand.

“It's a bit odd!”

Professor Yu said to himself, “Is it a new material?”

Thinking of this, he looked up and asked, “Where did this come from?”

The student, although strange in his mind, did not ask more questions and said, "I'm not too sure, it's probably just on the workbench"

Professor Yu suddenly couldn't help but feel a stirring in his heart as he remembered the piece of paper he had just read.

"Don't clean up that miscellaneous stuff for now, and don't throw it away!" Professor Yu suddenly said, "Put it all aside first, be careful not to scatter it Also, turn the equipment on immediately and test what kind of metal this little thing really is!"

"Yes!"

The student immediately nodded his head.

Professor Yu had a vague sense of expectation in his heart, he had a sense of hope.

Soon, all the equipment needed for the test was ready, Professor Yu did not do it himself, but gave the small object to the students to test, even though he had some expectations in his heart, but this kind of small thing could be done well by the students, this was also an opportunity to train them.

As a tutor, Professor Yu is naturally very competent.

As is customary in testing operations, several students first observed the small ball before placing it under a special microscope, and it was this first step of observation that left several students a little surprised.

"Ee?"

"This is"

"That's not right? How can this be?"

A few students were instantly talking in a very strange way.

Professor Yu immediately asked, "What's wrong?"

One of the students replied, "Teacher, there's something strange about this thing."

"Oh?"

Professor Yu's spirit lifted and asked, "How strange?"

The student said, "Teacher, this little thing looks very light, but the internal material structure is extremely tight, although we don't know how the other molecular structures are yet, but just looking at the physical structure is unusual, such a tight structure, I think it is almost comparable to some high strength metals."

Professor Yu said to himself, "Keep testing!"

A few students got busy at once, but when it came to the sampling stage, they encountered difficulties again, because using the equipment in the laboratory, they were unable to cut through the spheres even a little bit, and even at extremely high temperatures, the spheres hardly changed at all.

Seeing this situation, Professor Yu's anticipation grew even greater as he said, "Corrode with strong acid and use chemical analysis!"

However, the results were even more surprising to the students, as they were unable to corrode the surface of the spheres even with strong acid, let alone test them.

In desperation, they had to get on the equipment first and perform various scans and analyses on the blob.

Under the watchful eye of Professor Yu, several students tossed and turned for a good part of the day until it was dark and the lab's management duty officer came to remind them that they had only made a preliminary analysis and got the analysis chart and some other results.

Seeing the test results, several students were shocked.

"Alloy?!"

Several students were shocked, but they couldn't help but look at each other, this little ball, it was actually an alloy?

This was too much out of everyone's expectation.

You know, even the most stable alloy known so far, there is no way that they could have been unable to do anything with all the tests they had employed!

This alloy is too stable, right?

Is it an alloy? They would have no problem saying it was a new type of metal that was as strong and solid as it could be.

But this analysis chart clearly shows that this is a piece of alloy with several metal components, and all of them still occupy a certain weight.

"Input the chart into the database and compare it with the charts of all the alloys!" Professor Yu immediately instructed, not even knowing when he had stood up from his chair.

"Yes."

A student did as instructed and quickly.

The result came out – and the conclusion was that there was no result of any comparison.

"Sure enough!"

Like the students, Professor Yu was also extraordinarily shocked when he saw this test result, but in addition to the shock, he had an indescribable excitement because he could be sure that this was definitely a brand new alloy.

Since there were no comparative results in the database, this meant that this was definitely not any of the alloys known today, but a completely new type of alloy!

What's more, this brand new alloy, not to mention its performance, just the hardness and stability alone, is enough to make any other kind of alloy can't look up to it!

As for the other metals it is even less worth mentioning!

Although we don't know the other properties of this alloy, such as thermal conductivity and electrical conductivity, the hardness and stability of this alloy alone are enough to make it the best in the alloy world!

"A major discovery!"

Professor Yu was so excited that he could hardly contain himself.
