

Campus Master 2391

After Ji Feng understood what was going on, he couldn't help but heartily hug Xu Yuan even tighter: "Since you knew someone was following you, why didn't you tell me!"

Xu Yuan said, "Actually, I thought about telling you, but for one thing, I was afraid you would worry, and besides, I wasn't sure if someone was really following me, and sometimes I thought I was hallucinating, so I thought about it and didn't tell you."

Ji Feng shook his head and said, "That wasn't your hallucination! Haven't you noticed by now that your physique is a lot better than before, and sometimes often some seemingly insignificant strange sensations are detected only because your intuition has become sharper."

Ji Feng had taught body-building exercises to Xu Yuan a long time ago, and Xu Yuan had been obedient and had been practicing them consistently, although the progress wasn't very fast, but it was very effective.

At least, during this period of time, Ji Feng rarely heard Xu Yuan say that she felt tired because of her busy work schedule, like before, Ji Feng occasionally had to help Xu Yuan massage her body to relieve her fatigue, now this is naturally due to the gymnastics.

But the gymnastics is not just a little bit effective, strengthening the body is naturally necessary, but the enhancement of the six senses, but also exists, just maybe Xu Yuan because the gymnastics progress is not fast, so do not feel so strong.

Ji Feng remembered that when he first practiced gymnastics, he was able to clearly feel his six senses being enhanced every so often, and, that keen sense really helped him countless times.

"I don't know if it's not an illusion anymore." Xu Yuan said softly. Tonight's events had proven that her senses were right, someone was really following her, and moreover, it was a few vicious mercenaries, which was something she hadn't expected in any way.

"So if you encounter anything wrong again in the future, you have to tell me at the first opportunity, like today, if I wasn't there, they might have taken you away, think about how serious the consequences would be?" Ji Feng admonished, "Remember that in the future, got it?"

Xu Yuan nodded her head lightly and said, "After this time, how can I not learn a lesson?"

Ji Feng laughed, "It's good that you remembered."

After a pause, Xu Yuan said, "Young master, I was really scared today, especially the moment that man grabbed me, I really thought I was going to die and never see you again!"

At that time, Xu Yuan's mind was so scared that it went blank, and she only had one thought, "It's over, she's going to die this time.

Although Ji Feng didn't even give the fake police officer a chance to save Xu Yuan in the end, for Xu Yuan, that moment was deeply engraved in her mind.

Because of this, Xu Yuan suddenly had a deep desire for life.

She was worried about losing everything, especially losing Ji Feng.

That was why, upon her return, she had taken such an initiative to give everything she had to Ji Feng, without reservation.

That was why she had taken such an initiative.

When Ji Feng understood this thought of hers, his heart was really heartbroken and annoyed. He knew that Xu Yuan had drifted in society at a very early age, and that kind of drifting life had left Xu Yuan with hardly a trace of security, while in her heart, she was still carrying hatred.

You can imagine how much pressure Xu Yuan has been carrying all these years, and this has made it almost impossible for her to settle down in her mind.

In fact, it was only after Xu Yuan entered the Xiao Pharmaceutical Factory, or strictly speaking, after she became the general manager of the factory and established a relationship with Ji Feng, that her heart settled down.

Because she knew that in the future, no matter what happened to her, no matter where she went, there would be someone who had herself in mind and cared for her.

However, before Xu Yuan could really enjoy this feeling of being cared for, she suddenly encountered another incident, which made her heart, which had been gradually settled, become panicky once again.

"It's okay. I promise you, no matter what happens in the future, I won't give up on you." Ji Feng embraced Xu Yuan and said firmly.

"Mm."

Xu Yuan snuggled into Ji Feng's arms and softly mewed, her face filled with a happy blush, "Eldest young man, I believe in you."

Ji Feng's heart was however a little chilly, and he could even say that he was quite annoyed, he decided that he had to find out as soon as possible why this so-called Golden and Silver Snake mercenary group was actually going after Xu Yuan, and instead of killing her, they were going to capture her.

This, the fake patrolman had already explained, the task given by his superiors was not to kill Xu Yuan, but to capture her alive and to find a way to bring her back.

In fact, this was not a difficult task for the mercenaries at all, once they had captured the person, everything would be fine. For them, it was not a very difficult task to take someone out of the country, especially when the target was a weak woman like Xu Yuan.

But the question was, why did these people want to capture Xu Yuan, and who hired the Golden and Silver Snake mercenary group?

This was a question that Ji Feng needed to know, but it was obvious that there could be no answer right now.

So this thought only went round and round in Ji Feng's mind before he left it behind for the time being, the most important thing now was to comfort Xu Yuan.

However, the good thing was that after all these years of wandering and uncertain life, Xu Yuan had long been much stronger, especially after the indulgence just now, her negative emotions were almost all vented and there were no more problems.

So the two of them warmed up together, talking about blushing love stories.

Gradually, Xu Yuan noticed that something was wrong with Ji Feng, because as time passed, little Ji Feng actually reacted again and came right up against her most sensitive spot, causing her body to tremble and her heart to beat wildly.

And Xu Yuan also began to like that feeling

As a result, the two of them once again made love to each other, and the night left traces of their lovemaking from the sofa to the bedroom.

The two of them were so tired that their voices were hoarse, not to mention her body, which was so comfortable that it was about to float to the clouds!

Especially when Ji Feng went crazy at the end, Xu Yuan was almost on the verge of passing out.

She was like a small sailboard in the sea, being lifted high and then suddenly thrown down in Ji Feng's shocking attack

.....

At the same time, in the family courtyard of Jiangzhou city government, a room was still lit up.

Li Ruonan had not yet fallen asleep.

She had long ago taken a bath and changed into a nightgown, but she was unable to sleep, sitting on the bed with her legs in her arms, letting her chin rest on her knees, her eyes somewhat unfocused and seemingly at a loss.

"You are my friend"

When I think of this sentence, Li Ruonan's heart is vaguely a bit sour, she wants to say, the hell would like to be your friend, really do not know where this girl is like your friend, all day long is to call when used, when not used to wave away!

Just

The actual fact is that you can't be able to get a good deal more than just a few of these.

But somehow, as soon as she closed her eyes, Li Ruonan would remember the scene today when Ji Feng was hugging Xu Yuan and constantly whispering comforting words, and the way Ji Feng was so furious because Xu Yuan was almost hurt, Li Ruonan couldn't help but hate in her heart.

"Bastard!"

"Nymphomaniac!"

"An uncompromising son of a bitch!"

Li Ruonan cursed in a hateful whisper, "In the future, if you look for this girl to do things again, see if I can still care about you!"

After venting her anger viciously, Li Ruonan was somewhat deflated again.

She let out a soft sigh, her eyes a little gloomy.

"Perhaps, in his eyes, he himself is just a violent girl." Li Ruonan shook her head slightly and secretly said, "Maybe he doesn't treat himself as a woman at all!"

"Go to sleep."

Li Ruonan said to herself, "Stop thinking nonsense, you are who you are, don't change for anyone, and there is no need for that, even if you are any good, the number of people pursuing you is too many to count."

Li Ruonan adjusted the air conditioning temperature to a comfortable sleep state, then pulled the thin quilt over his body and went to sleep.

.....

When it was just dawn the next day, Ji Feng habitually woke up.

This time, he did not rush to get up to exercise, because last night when he was crazy with Xu Yuan, in fact, for him is also already cultivating, and, for Xu Yuan also has a great benefit.

The only thing is, I guess Xu Yuan was only focused on enjoying the pleasure last night, but she didn't notice it.

The first time I looked at her, I saw that Xu Yuan was still sleeping peacefully, with a few strands of hair on her pretty face, giving her a lazy air, but she looked more at home, like a young wife who had just experienced her wedding night.

Ji Feng gave Xu Yuan a kiss on the cheek before he got up and got out of bed, then bought breakfast from outside early and put it on the dining table.

At this time, Xu Yuan was still awake, so Ji Feng shook his head and smiled, knowing that she was too tired last night and could be considered physically and mentally exhausted, so he did not call her, but only left a note and typed a line on her mobile phone, before he closed the door and left.

At this time, Xu Yuan in the bedroom slowly opened her beautiful eyes, a happy look flashed in her eyes, and then pursed her lips and smiled, some cunning in her eyes.

In fact, she had already woken up when Ji Feng opened the door, but she didn't open her eyes and used the quilt to cover her head halfway to pretend to sleep, which really concealed Ji Feng from her.

It wasn't that Xu Yuan didn't want to bid Ji Feng an intimate farewell, nor was it that she didn't want Ji Feng to accompany her to a hot and warm breakfast; in fact, any woman would want her man to accompany her.

However, Xu Yuan did not want to be tethered to Ji Feng.

Campus Master Chapter 2392

When Ji Feng returned home, Xiao Yuxuan had already gone to the company, and Tong Lei was home, but she was sitting on a chair under the big tree in the backyard of the villa, leisurely reading a book.

“Back.”

When she saw Ji Feng, a smile appeared on Tong Lei’s clear and matchless pretty face, with a gentle smile in her beautiful eyes.

Ji Feng was more or less vain, he looked at Tong Lei carefully and found that her reaction was a bit strange, because although Ji Feng did not tell her when he was coming back when he went out yesterday afternoon, but he called Bai Zhu out in the middle of the night again, which was not concealed from Tong Lei.

The reason is that Tong Lei should be very curious about what happened to him last night.

But that didn’t seem to be the case now, did it?

“What are you reading?” Ji Feng coughed lightly and walked over, while his eyes glanced at Bai Zhu who was walking over, only to find that the latter only gave him a reassuring look and then said nothing.

“.....”

Ji Feng just couldn’t help but secretly smile bitterly, what does this mean?

“Hmm?”

“Psychology?”

Just then, Ji Feng looked clearly at the book in Tong Lei’s hand, which clearly had the words Psychology written on it, and when he looked more carefully, he found two more words on it – Child Psychology.

Tong Lei pursed her lips and said, “I had nothing to do, so I wanted to learn more about little children and their inner thoughts.”

Ji Feng knew that Tong Lei’s dream was actually to open a school dedicated to teaching little children, because she had a fond affection for them, and the world of children was very simple, unlike the world of adults which was so complicated.

Tong Lei had a cool personality and did not like this kind of chaotic life.

Ji Feng said, “You will graduate soon, and you will be able to realize your dream by then.”

The cicada head shook lightly and said, “Actually, I’m not that anxious because I think I haven’t learned enough, and I still have a lot to learn about how to teach young children well.”

Ji Feng laughed: “The world of little children is very simple, they all judge by their own instincts, you just need to guide them towards the positive and healthy side, that’s enough.”

“It’s not as simple as you make it out to be!”

Tong Lei pouted and said, "I have realised since I read this Child Psychology that the inner world of children is actually very colourful and simple but not simple, and to educate them well, you have to communicate with them in their way of thinking and ideas"

Ji Feng smiled: "In that case, there is really a lot of learning involved?"

Tong Lei said, "That's certainly true."

Ji Feng just couldn't help but smile, seeing that Tong Lei was really enjoying this kind of time, tranquil, relaxed, and able to do what she wanted to do, what she liked to do.

The first thing you need to do is to look at the ponytail tied behind you and hold a book in your hands.

The actual fact is that you can find a lot of people who are not able to get a good deal on a lot of things.

The actual fact is, it's still Ji Feng's situation, that kind of family.

But the result was so unexpected that even Ji Feng once thought he was dreaming.

Thinking of all the things back then, Ji Feng's heart was extra soft, he leaned next to Tong Lei and also sat down, Tong Lei squeezed Tong Lei to the side, in her angry eyes, Ji Feng smiled heatedly, sat down close to Tong Lei, wrapped her in his arms from the side, and inhaled deeply the ghostly fragrance at her neck.

"Just watch it like this!" Ji Feng said.

"Nasty!"

Tong Lei's pretty face was slightly red and she snapped, "How else can I look at it when you're like this..... day is hot oh, stop it."

Ji Feng laughed: "I didn't make a scene, I just like to hold you like this."

The first thing you can do is to let him go, just look at the faint blush on Tong Lei's pretty face, and the happiness that shines in her beautiful eyes, and know that in fact at the moment Tong Lei is also very fond of this.

When she saw Ji Feng and Tong Lei snuggling together, Bai Zhu had the good sense to leave, her heart was not the least bit jealous, even seeing this situation, the corners of her mouth even had a smile on it instead.

However, Ji Feng did not enjoy this leisurely time for long before it was broken by a shrill ringing of the phone.

The call was from Little Uncle.

After picking up the phone and not even waiting for Ji Feng to speak, Ji Zhenping immediately said, "Little Feng, is it true? That new chrome alloy announced by the Tengfei Group, is it true?"

Sure enough, it was about the chrome alloy, Ji Feng said in his heart.

He nodded and said, "It's true. Little Uncle, not only is it true, but the samples have all been made, and those data announced by Professor Yu were derived from the examination of the samples."

"Good!"

Ji Zhenping was immediately refreshed and said, "Little Feng, the samples have already been made, which means that this chrome alloy is actually ready for mass production, right?"

Ji Feng said, "Theoretically speaking, yes."

"And what if in practical terms?" Ji Zhenping immediately grasped the point of Ji Feng's words.

"I lack equipment."

Ji Feng said, "Especially the lack of production lines, even if I had the technology, but without equipment, it would be impossible for me to produce this chrome alloy on a large scale now."

Ji Zhenping immediately asked, "What equipment is needed to produce this new chrome alloy? Can you buy it in the market?"

Ji Feng said, "It should be possible."

Only then did Ji Zhenping let out a slight sigh of relief and said, "That's good! That's good! Little Feng, have you ever considered selling this technology?"

"No!" Ji Feng blurted out without even thinking and said, "Little Uncle, if you are here to be a lobbyist then don't say anything, this new alloy is a guarantee for the rise of the Tengfei Group, it is impossible for the Tengfei Group to sell it."

"Then what if it is sold to the military?" Ji Zhenping asked.

"Is there a difference?" Ji Feng asked, "Isn't the end result still a sale?"

"Of course there's a difference!"

Ji Zhenping said, "If you were to sell the technology of this new chrome alloy to other people, the existence of the patented technology of the Tengfei Group wouldn't mean much! You, the Tengfei Group, can produce this new chrome alloy, others who buy this technology can naturally produce it as well, don't you think so?"

Ji Feng nodded and said, "Right! So the Tengfei Group will definitely not sell the technology unless an alloy with even more powerful properties is developed."

If the Tengfei Group wanted to rise, of course there was more than one way, but, as of now, this was definitely the fastest way for the Tengfei Group to rise.

The new chrome alloy, just by virtue of its performance, Ji Feng did not believe that other countries were still not impressed.

The Kang Yuan slimming powder is only for the people, the 3D TV set is also for the people, at most the 3D illusionary stereoscopic technology contained in it is worth studying, but for the people of other countries, it is not a necessity that must be bought.

The other key product of Tengfei Group, the special effect electric current, is exclusively for the military, and although it is effective, its sales are limited, so naturally it is not possible for Tengfei Group to rise to prominence at once.

Only this new chrome alloy material is a perfect opportunity for the Tengfei Group to rise.

So this kind of technology was naturally impossible for Ji Feng to sell to outsiders, no matter who the other party was.

“But the military is different.”

Ji Zhenping had a different view and said, “Little Feng, if the military gets this kind of technology, it will definitely target research related to the military field and will not involve the private sector, which does not conflict with the business scope of the Tengfei Group, don’t you think?”

Ji Feng said, “I say? I don’t think that’s right!”

Ji Zhenping said, “What’s wrong with that?”

Ji Feng said, “Because whether it’s the military or the private sector, it doesn’t matter to me because this technology Tengfei Group has no intention of selling.”

“..... you kid!” Ji Zhenping said, “How come it doesn’t make sense?”

“Little uncle, that’s not right.” Ji Feng laughed bitterly, “Other people don’t want to sell, you have to force them, instead you still say that the other party doesn’t make sense, you are clearly forcing them to buy and sell!”

“It’s not as serious as you say, but Xiao Feng, I think you know clearly in your own mind how significant your technology is, then you should know that the military will never stand by and watch these alloys being used abroad.” Ji Zhenping said.

“What, if the Tengfei Group doesn’t agree, is your military still planning to come directly to the hard way?” Ji Feng asked.

“What do you think?” Ji Zhenping asked rhetorically.

“.....”

Ji Feng finally realized that something was wrong, he frowned, but quickly stretched it out, pretending not to move, and said, “Little Uncle, I think, you shouldn’t be the one to talk to me about this.”

Ji Zhenping asked, “What do you mean?”

Ji Feng said, “Little Uncle, if you are talking to me as a representative of the military, then you should rightfully avoid suspicion because you are my uncle and you cannot be involved in such negotiations.”

Laughing, Ji Feng added: “If you are talking to me as my little uncle, then you should rightfully turn towards me, why do you have to force me again?”

“.....”

Ji Zhenping was choked for a moment, and immediately, he grunted, "You're the one with the sharp tongue! I can't say no to you, so that's it!"

After saying that, he only heard a 'pop' sound and the phone was hung up.

Ji Feng's face, however, showed a thoughtful look and a faint smile.

At the same time, in the Yanjing General Staff, Ji Zhenping's office, Ji Zhenping hung up the phone with a huff and said, "As you can see, this kid is this stinking temper, I can't even do anything about him! This kid can choke people to death with his words!"

Campus Master Chapter 2393

At the same time, in the Yanjing General Staff, Ji Zhenping's office, Ji Zhenping hung up the phone in exasperation, spreading his hands and saying, "As you can see, this kid is this stinking temper, I can't even do anything about him! This kid can simply choke people to death with his words!"

Ji Zhenping was not talking to the air, he was not the only one in his office at the moment.

At this moment, sitting across from Ji Zhenping were three soldiers in the same military uniform, and looking at the shoulder patches on these three men, it was clear that their positions were not low, and one of them was even a general!

When Ji Zhenping was speaking, it was mainly to this general, of course, because Ji Zhenping himself was also a major general, so he didn't have many scruples when he spoke, only that his words were quite complaining about Ji Feng.

"It seems that this nephew of General Ji is really full of personality!" The general who was sitting opposite Ji Zhenping said with a smile.

"What personality, Director Zhao, you're really lifting him up a little too much when you say that that kid is just a reckless brat!" Ji Zhenping couldn't help but shake his head and said, "You really don't know, in fact, for a lot of that kid's behavior, my big brother also has some headaches, and has even taught him a lesson more than once, but this kid just doesn't know how to change, what can you say!"

When he heard Ji Zhenping's words, he shook his head and smiled, saying, "It's normal for young people to be a bit temperamental. I'm afraid you don't like dull men either, do you?"

Ji Zhenping shook his head and laughed bitterly, "That's true, but honestly, everyone wants their own children to be obedient Take this incident, you all heard it just now, he was behaving like that when he talked to me, what can I say about it! "

Just now during the call, Ji Zhenping had the speakerphone on, so the three people here naturally heard everything.

In the phone call, Ji Feng indeed did not have the slightest intention of giving in, and even directly opened his mouth to block Ji Zhenping's intention to be a lobbyist.

This was indeed somehow not giving Ji Zhenping any face!

This made all three of Director Zhao's hearts more or less disappointed, and they looked at each other as if they were communicating something.

Ji Zhenping saw all this in his eyes and sneered in his heart, but his face did not move at all.

Shaking his head and sighing, Ji Zhenping said: "This kid can't go on like this, Director Zhao, how about this, although I have understood the general situation of this matter, but the specific situation is not quite clear, wait for me to understand the matter clearly, and then do the work of that kid, you see How about this?"

Director Zhao looked at each other again, and could only nod their heads in agreement.

What could they do if they disagreed?

They had watched Ji Zhenping make the phone call to Ji Feng with their own eyes, which was actually very much to Ji Zhenping's credit, his rank was not lower than theirs, and his identity and background was even more incomparable to theirs.

The fact that Ji Zhenping can be so cooperative is definitely a great way to give face.

But this result

Director Zhao three people couldn't help but smile bitterly in their hearts, but they didn't expect how this nephew of Ji Zhenping was still such a prick, even Ji Zhenping's face wasn't sold ah!

"General Ji."

That Director Zhao stood up and said, "The new chrome alloy developed by the Tengfei Group has what kind of significance, you are an insider and must know it all, this alloy is really too significant for the military, so no matter what, please do more to help and convince your nephew as much as possible."

Ji Zhenping also stood up, smiled and shook hands with Director Zhao, saying, "Please rest assured, Director Zhao, this is something that is absolutely beneficial to our army, I raise my hands in favour of it in this matter and will definitely do my best."

"Then we are relieved." Director Zhao said, "Thank you, General Ji, for your help."

"Director Zhao doesn't need to be polite." Ji Zhenping smiled and waved his hand, then suddenly added, "But Director Zhao, I'm sure you know that my nephew grew up outside, and although he is sometimes stubborn, my elder brother still feels guilty about him, so sometimes he may not be too He's not too strict."

"The result is that the kid sometimes doesn't even put me in his eyes as an uncle," Ji Zhenping shook his head and cursed with a smile, "so I have to discuss this with my big brother, and it's best to let him talk to the kid."

"....."

When Director Zhao smiled, he smiled a little unnaturally and said, "There's no need to bother Minister Ji, right?"

Ji Zhenping shook his head and said, "What's so troublesome about it, it's all a contribution to our country."

Director Zhao said, "Then it would be better not to trouble Minister Ji. Please ask General Ji to help persuade your nephew, and we will also communicate with the Tengfei Group."

Ji Zhenping said, "That's fine, but as I see it, I'm afraid that kid won't agree to it, and I'm afraid that in the end, it will have to go through my big brother."

"It shouldn't come to that!" Director Zhao laughed twice and said, "General Ji, thank you very much."

"You're welcome." Ji Zhenping smiled.

The two shook hands again and then saluted each other, before Director Zhao took the other two and left.

As soon as he closed the door, the smile on his face disappeared without a trace, and was replaced by a stern look.

"Greedy to the core!" Ji Zhenping couldn't help but snort coldly, with a touch of anger in his eyes.

"Simply shameless!"

Among the several brothers of the second generation of the Ji family, Ji Zhenping's temper was undoubtedly the hottest and the least good at hiding his emotions, not to mention that now that this was his office and he was the only one here, he naturally did not need to suppress his temper anymore.

The visit of Director Zhao and the three of them had indeed made him angry!

In fact, Ji Zhenping did not call Ji Feng out of the blue for no reason, but he had to make a statement because he had to save face.

As soon as he started work in the morning, Director Zhao came over with two people.

Ji Zhenping was a bit surprised at that time, because although he and this director Zhao belong to the same general staff, but in fact, strictly speaking, the two sides do not belong to the same department, usually only met at most, considered a nodding acquaintance, there is no other friendship at all, and there is almost no intersection in the work.

So Ji Zhenping is very strange, director Zhao so early in the morning to find himself doing what?

Soon, Ji Zhenping's doubts were answered.

It turned out that the reason why Director Zhao came over was because of the new chrome alloy developed by the Tengfei Group!

Of course, in terms of righteousness, Director Zhao was still able to stand up for himself, because the procurement of military supplies and raw materials was also one of the tasks that Director Zhao was responsible for.

The technology is of great significance to the country and to the military, and we need to find a way to get our hands on it.

Because he knew about the relationship between Ji Feng and the Tengfei Group, he came to Ji Zhenping specifically, hoping that he would help persuade Ji Feng.

It was in this context that Ji Zhenping made that phone call to Ji Feng.

The result was just as Ji Zhenping had expected, Ji Feng was very serious about this new chrome alloy, so naturally he would not nod his head to sell it easily. The most satisfying thing for Ji Zhenping was Ji Feng's reaction speed that far exceeded that of ordinary people.

When Ji Feng's tone suddenly became tough, not even giving any face to say that he wanted Ji Zhenping to avoid suspicion, Ji Zhenping knew that this kid seemed to have sensed that something was wrong.

At this point in time, even if Director Zhao was discontented, he definitely couldn't say anything.

And so it was!

Director Zhao left with a disappointed heart, unable to even pick a single point of fault.

However, while Director Zhao was disappointed, Ji Zhenping was a bit annoyed. This Director Zhao was really playing a good game, wanting to buy out someone's top technology with just a few words.

In fact, when the press conference of Tengfei Group was held, Ji Zhenping already knew the news, but he did not call Ji Feng, just so as not to affect Ji Feng's thinking.

Because Ji Zhenping knew that for such an important material, even if Ji Feng was willing, at least the boss, Ji Zhenhua, would not agree to sell it to a foreign country.

Then, since it was in the country, wouldn't it be the same for whoever produced it?

Just like the special effects current, no matter who is running it, isn't it still the military that benefits in the end, those warriors?

But Ji Zhenping did not expect that before he could say anything, some people would not be able to sit still.

What for the country for the army has extremely important significance the role of new materials is certainly significant, but, also depends on how to use, and more importantly, who is to use!

"Beep beep beep" Ji Zhenping looked up from the window just in time to see Director Zhao and others leaving in a car, he secretly snorted coldly, picked up the phone on his desk and gave Ji Feng dialed over.

"Little Uncle."

Once again, Ji Feng picked up the phone and then stopped talking.

Ji Zhenping secretly praised this kid for his wit and vigilance and said, "Alright, there are no outsiders now..... just heard it out, right?"

"Heard it."

Ji Feng nodded and said, "Little Uncle, just now you used the speakerphone, right? Is there someone else next to you?"

Ji Zhenping was stunned: "How did you know?"

Ji Zhenping could understand that he could guess that he was not in a position to speak, listening to the words and sounds, he had already hinted at the obvious, with the tacit understanding between him and Ji Feng, it was not too strange that this kid could hear it.

However, how did he know that he was using the hands-free state?

Campus Master Chapter 2394

"Because I heard an echo." Ji Feng said.

"Echo?"

Ji Zhenping was slightly stunned, and then he understood, but was even more stunned, saying, "You said you heard the echo in my office?"

Ji Feng nodded and said, "That's right. I vaguely heard some of it, so I guessed that you might be using the speakerphone."

"You kid, " Ji Zhenping couldn't help but be stunned again.

Although he knew from a long time ago that Ji Feng was very powerful, he did not expect that this kid could actually hear the slightest echo through the phone, this ear power is really

At this time, Ji Feng was unaware that this was a natural thing for him, but it had caused shock to his little uncle.

He asked, "Little uncle, what the hell just happened?"

Ji Zhenping shook his head and said, "What's going on can still be going on! Because of the appearance of Tengfei Group's new chrome alloy, some people couldn't sit still and asked me to help call you to persuade you with the great justice of the country. However, it is good that you kid reacted quickly."

Ji Feng instantly understood, it seemed that it must be because Little Uncle was not good at refusing, at least not outwardly, so this was why he had called himself.

"Little Uncle, you weren't afraid that I would open my mouth and agree then?" Ji Feng asked.

"What's there to be afraid of?"

Ji Zhenping asked rhetorically.

Ji Feng said, "If I agree, this could represent a huge amount of money, no, I should say a huge fortune that might no longer belong to the Tengfei Group."

Given the performance of that new chrome alloy, it was not too much to give it a valuation.

If it was utilised properly, it would not be an exaggeration to say that it was a huge fortune.

Ji Zhenping said, "So what? Kid, do you really think your little uncle values money that much? Besides, no matter how much you earn that is still the country's, now the military expenses are already very tight, if I can have such a sum of money left, I will be happy instead."

Ji Feng: "....."

He really wanted to say, "Are you my own uncle or not?"

Do you know how much this cost alone would cost if you really had to sell this new chrome alloy technology?

But thinking about it Ji Feng still didn't say it, because he guessed that little uncle might not really care how much money he could make, because little uncle is first and foremost a soldier, and what he has to think about is of course how to make the army even stronger.

"Little Uncle, then how do you deal with it?" Ji Feng coughed lightly and hurriedly changed the topic, he was really afraid that Ji Zhenping would open his mouth and ask him for the alloy technology.

"The people have already left."

Ji Zhenping said, "I told him that your boy lacked discipline and didn't give me face at all, he listened to all our calls and knew that what I said wasn't a lie. But I see that he is not dead, I simply said let your father work for you to go, the result is that he wilted at once."

Ji Feng: "....."

"Little Uncle."

Ji Feng's forehead couldn't help but sprout a few black lines and laughed bitterly, "Even if you want to make excuses, you don't have to slander me like this, right?"

Ji Zhenping said, "A man can bend and stretch, not to mention just being a shield for once, why are you kid so petty?!"

"....."

Ji Feng smiled bitterly and said, "Okay! You can say whatever you want! But, what are you going to do next?"

Ji Feng remembered that just now, Little Uncle said that the other party hadn't died yet.

Money and money move people's hearts!

What the new chrome alloy represents, as long as not stupid understand, but, for many people, this new chrome alloy can represent not only money, but also achievements, which may be meritorious, or political achievements

"If you follow my meaning, I actually hope that you can cooperate with the military, and at the lowest possible cost for the military to get this technology." Ji Zhenping said, "After all, the military is not very generous with money right now, so save as much as you can."

"Little Uncle!" Ji Feng was busy saying.

“You take it easy for now.”

Ji Zhenping intended him and said, “This is just my idea, and I certainly do want to see this scene. However, I also know that you must have your own considerations, besides, it’s long past the economic era, it’s better for you to decide what to do.”

Only then did Ji Feng sort of let out a sigh of relief and said, “That’s good.”

Ji Zhenping added: “Don’t think you can breathe a sigh of relief just because of this, just wait, this is just the beginning, the next people who can’t sit still will definitely be more and more, and all kinds of tricks will definitely be used. I reckon that those people just now are only here to make a start, just to test the waters, and then I’m afraid they’ll play for real.”

Ji Feng said, “As long as you don’t take sides with them, then I have nothing to fear.”

As long as it’s not Ji Zhenping coming to beg him, Ji Feng can follow the normal rules perfectly, no matter who it is, wanting alloy, it’s simple, come up with a price that meets his mental expectations, or else it’s off the table!

As for asking for the technology directly

Ji Feng smiled, this is like a certain Coke in general, is to rely on the process to eat, if the technology is sold, what else can the Tengfei Group take to develop?

“Kid, you don’t think so optimistic!” Ji Zhenping said, “If a person’s eyes are red, his heart can be black.”

“Little Uncle you mean,” Ji Feng’s heart snapped.

“Think about it, right now there are already people who can’t sit still and have even found their way directly to me, what does that mean?” Ji Zhenping said, “They may still just be testing your reaction now, of course, the main thing is to test me and your father’s reaction, but what about after that?”

“Such a big piece of fat meat is right at their mouths, they only need to make a little effort to swallow it, do you think some people will be indifferent and turn a blind eye?” Ji Zhenping asked.

“..... won’t.” Ji Feng said.

“That’s not the end of it.” Ji Zhenping said, “This is just the domestic ones, what about the foreign ones?”

“There will always be a way to solve it!” Ji Feng said, “We can’t just choke on it. It’s just a matter of soldiers coming in, it’s no big deal.”

“You’re talking easy now, but when the trouble really comes to you, you’ll know it’s not that simple.” Ji Zhenping reminded, “Little Feng, you’d better be on your guard from now on, especially watch out for some underhanded tactics, some people will do anything to achieve their goals.”

Ji Zhenping’s reminder is already very obvious, as a general, he said this on the phone itself is already a bit inappropriate, but out of concern for Ji Feng, he still patiently reminded.

The official pressure, needless to say Ji Zhenhua will carry it down, and will handle it well, even if Ji Zhenhua alone can’t resist, there are still Ji Zhen Guo and Ji Zhen Ping below.

If all three brothers are still unable to resist then it means that things have become serious enough to make the entire Ji family pour everything into confrontation with it, which is not a new type of alloy that can cause a storm.

For this point, Ji Zhenping is still confident enough.

So the main trouble that Ji Feng will face next is still from the shadows, which is yet the most difficult to prevent. Because there are simply too many underhanded and damaging tricks in the dark, and all kinds of underhanded tricks may come out.

“Whether there will be some people fishing in the water in this, or some people wanting to take advantage of the opportunity to snatch rabbits, you have to think of all that beforehand.” Ji Zhenping said.

“.....”

Ji Feng didn't say anything, he just listened quietly. Ji Zhenping's words were heard in Ji Feng's heart.

In fact, he really didn't anticipate it before, the first person to sit down was actually from the military, and moreover, the other party went directly to his younger uncle.

This was obviously a test, not even the first wave of attack.

However, it was hard to say exactly what would happen next.

Originally, Ji Feng thought that the first person to sit down would be someone from outside the country or from some company, and as for the military, they would either buy the technology directly from him or cooperate with the Tengfei Group, which were just two ways.

But now, it seems that some people are trying to wolf down an empty glove, or even have greater greed!

“Little Uncle, what is the opinion of the military high command regarding the alloy matter?” Ji Feng asked.

“Keep it a secret!” Ji Zhenping said decisively, “What I can say is that there is no news about this yet.”

Ji Feng then understood that this meant that the military top brass had not made a final decision yet, perhaps they were waiting and watching, perhaps they were discussing.

It was probably also because of this delay in discussion that some people wanted to do something before a final decision was made from above.

Moreover, from this Ji Feng also grasped some information.

The person who could make even Little Uncle wipe his face should not be of a low rank, and this, however, was only the person who came to test the waters, so it could be seen that behind this matter, I'm afraid there was some big shot who was tacitly approving.

I'm afraid this is also the reason why Little Uncle gave the other party face!

But these words are not good to say over the phone, so Ji Feng thought about it and said, "Little Uncle, how about this, I'll go to Yanjing today, it just so happens that there are some things we can talk about in person as well"

"It's best if you don't come now." Unexpectedly, Ji Zhenping refused, "Just stay honestly in Jiangzhou, don't go anywhere, just do your business without worry."

"Sitting firmly on the fishing platform?!" Such a word emerged in Ji Feng's mind.

"I understand." Ji Feng nodded his head.

After ending the call with his little uncle, Ji Feng couldn't help but ponder. The development of things was a bit out of his expectation, but this was not without another perspective that showed how valuable this new chrome alloy really was.

As for the trouble that could come

The actual fact is that you are able to get a lot more than just a few of these.

Since you can't hide from it, Ji Feng doesn't want more, so just follow what Little Uncle said, stay in Jiangzhou at ease, and sit on the fishing platform, just to see who jumps out first!

In the future, if Tengfei Group wants to develop, it will definitely meet more bullies and snakes, so this time it will be considered a test!

However, to Ji Feng's surprise, trouble has not yet come, but first came an old friend

Campus Master Chapter 2395

The one who came was He Hongwei.

He punched Ji Feng on the chest just after seeing him and said with a face full of excitement, "Older brother, good job!"

Ji Feng couldn't help but shake his head and laugh bitterly, saying, "You came all the way from Yanjing just to punch me?"

He Hongwei said, "You kid! If you're not satisfied, you can punch me back, but if you can beat that Wu guy down, I'll be willing to punch you even if you punch me ten or twenty times, not to mention one punch! As long as you can fuck up that son of a bitch!"

Ji Feng: "....."

He Hongwei was a bit too excited, usually it was rare to hear any dirty words from his mouth, this guy was definitely a representative of poise among Yanjing's gentry, at least, Ji Feng had never seen anyone who was more refined than He Hongwei in terms of his own image and mannerisms.

In particular, He Hongwei's style is not an act, but a habit that he has developed over the years, having been well educated since childhood.

This is a habit that comes from the bones.

Ji Feng remembered that even in the past, when He Hongwei talked about the grudge between him and Wu Zhiyong after drinking, although there was anger in his eyes and obviously hatred, he didn't say half a dirty word, not even a foul word.

Now, on the other hand, this guy was bursting out with foul language, so it was evident how emotional he was at the moment.

"It's not that easy!" Ji Feng shook his head and lost his smile. If Wu Zhiyong could be defeated that easily, then he wouldn't be Wu Zhiyong, and the Wu family would have even less need to exist.

"There's a chance."

He Hongwei said, nodding seriously, "There's definitely a chance! As long as you follow this momentum, sooner or later you will have this chance!"

He Hongwei had always believed that a person could not always have a smooth ride in life, there would always be times when it went downhill.

Wu Zhiyong was likewise no exception!

Although the Wu family was still a huge thing, and with the strength of the He family, they were not willing to touch it easily, or at least they did not have the certainty of winning the battle, but He Hongwei was convinced that the so-called prosperity would decline, and there would be a day when the Wu family would be weakened.

Besides, the Wu family is the Wu family and Wu Zhiyong is Wu Zhiyong, the two may not be confused.

And it was Wu Zhiyong he had to deal with.

"Older brother, you're actually doing quite well now." He Hongwei said, "It has only taken you a few years only, and you have already done what old brother and I always wanted to do many years ago but failed to do! This time, you have given Wu Zhiyong a hard slap on the wrist again, a painful one!"

What Ji Feng had done had really been quite good, and many times when He Hongwei thought about it, there was a feeling of admiration in his heart.

Not to mention that from the beginning, after he had gone up against the Wu family, Ji Feng had been defeating the Wu family, at that time the Wu family probably did not consider Ji Feng as an opponent, perhaps just thought that Ji Feng, as a junior of the Ji family, and still a junior who grew up in the folk, did not have anything too much to be concerned about.

If anything, it was the fact that he was Ji Zhenhua's son that could draw others' attention.

As for what he is capable of, what his sleight of hand is, or how far he will grow up in the future, etc., I am afraid that these are questions that the Wu family has not even bothered to consider.

A wild child who had not received a good education and had grown up in the folklore, how big a storm could he turn up?

At that time, there was no telling how many people in the whole of Yanjing who had such thoughts!

Even He Hongwei, when he thought about it occasionally in the dead of night, had to admit that even he, at that time, as soon as he heard that a new son of the Ji family had arrived, and after knowing Ji Feng's background and upbringing, he was more or less contemptuous and did not look at Ji Feng squarely, but only marked him as 'a son of the Ji family, Ji Zhenhua's son ' and that was all.

The Wu family obviously thought the same way.

So, at the beginning the Wu family didn't even put Ji Feng in their eyes, so when Ji Feng went up against the Wu family, it was really just a sparring match with the two Wu Zhiyong brothers.

Not many people were optimistic about Ji Feng, because everyone knew how powerful Wu Zhiyong was. At least among the younger generation, Wu Zhiyong was definitely a notorious figure.

But who would have thought that the result would make many people drop their jaws and break their glasses!

After a series of dazzling exchanges, Ji Feng had the upper hand, and the Wu family had even died!

The resources that Ji Feng had at his disposal at that time were definitely not much, yet he had achieved such a feat, forcing the two Wu Zhiyong brothers into a desperate situation, which was simply unimaginable!

He Hongwei didn't know how much he wanted to do that, he just couldn't do it, so how could he not admire it?

As for the later, it was needless to say that every move Ji Feng made would cause a burst of nervousness in the Wu family, yet as much as the Wu family tried to guard against it, it was hard to do so, and as a result, even Wu Zhengxin was put in custody.

This was another resounding slap in the face!

By now, He Hongwei had learned that the entire Wu family almost treated Ji Feng as their main rival in general, and there was even news that every time there was an internal gathering of the Wu family, someone would specifically talk about Ji Feng.

It was evident how much pressure Ji Feng had put on the Wu Family!

As a young man in his twenties, he had made the entire Wu family such an enemy, and Ji Feng was proud of himself.

When He Hongwei thought about himself, he was somewhat ashamed that he was not capable of doing everything that Ji Feng did, unless he stopped doing other things and just focused on the Wu family's every move, looking for evidence of its mistakes.

But that was obviously impossible.

Besides, while Ji Feng was doing all these things, the development of the Tengfei Group had not fallen behind at all, and that was the skill.

One had to admire it!

“Older brother, I’ll buy you a drink!” He Hongwei said excitedly, “I’m happy just thinking about how the Brilliant Group and the Lingxia Group might react after knowing the news of this new alloy!”

“.....”

Ji Feng lost his smile, “Just because of this, you came to Jiangzhou specifically to find me for a drink?”

He Hongwei said, “There are a few other things, but that’s all for another story, today I’m mainly here to find you for a drink! Older brother, you can’t understand my current mood, and I can’t explain it to you, so let’s not say anything, let’s go! Let’s go for a drink!”

Ji Feng laughed: “Of course you can drink, but there’s no need to go outside, I have wine and food at home, so it’s also convenient to talk.”

He Hongwei said, “This is a bit inconvenient, right? Mr. Xiao and the girls”

“Just Lei Lei and the girls are at home, and Yu Xuan went to the company.” Ji Feng said, “However, it’s a bit boring for just the two of us to drink, I’ll find two more drinkers to accompany us?”

“Hmm?” He Hongwei was stunned, then he nodded and said, “No problem, but it’s best if they are trustworthy.”

“Sure.”

Ji Feng smiled.

When Han Zhong and Zhao Kai arrived together, He Hongwei couldn’t help but smile, he nudged Ji Feng with his hand and said, “You kid, this is early preparation.”

Ji Feng said, “These two are my friends, I can definitely trust them, so I don’t have to worry about anything when I speak.”

He Hongwei shook his head and said, “That’s not what I’m talking about, old brother, you’re playing mind games with me!”

Ji Feng laughed: “No, it’s just that I’ve let the two of them come over considering that we might talk about business matters next, Of course, if we don’t talk about business matters, these two are both good friends of mine, what’s wrong with having a drink together between friends?”

He Hongwei then laughed and said, “I knew it, you’re the most slippery kid, OK! Anyway, there are many people and it’s lively, let’s drink together!”

At this time, Tong Lei and Bai Zhu several people had already prepared the meal and Ji Feng four people settled down.

“Ji Feng, I toast you!” He Hongwei took the lead and lifted his cup, saying.

“Don’t say anything first, listen to me finish”

Seeing that Ji Feng wanted to speak, He Hongwei immediately said, “This cup of wine, not for others or for other things, but for me, what you did made me feel painful and made half of this stuffy breath that I had suppressed for a long time come out, so, this cup of wine should rightfully be my toast to you!”

Hearing He Hongwei say this, Ji Feng also lifted his cup and nodded, "Good then, I'll oblige with this cup."

He Hongwei immediately laughed, "That's right!"

The two of them clinked their glasses and drank it all in one go.

But soon, He Hongwei lifted a second glass and said, "Older brother, this second glass of wine should also be my toast to you, for the reason that we have fought side by side and wish that we can also fight together in the future!"

Ji Feng said, "Then let's drink together."

He knew that He Hongwei was referring to the joint fight against the Wu family in the past, and as for joining forces in the future, this was an invitation on the one hand, and on the other hand, it was certainly an expression of He Hongwei's intention.

Ji Feng, of course, accepted it gladly, He Hongwei's goodwill was not something that anyone gave.

Soon, He Hongwei lifted a third cup and said, "This next cup is also for you. After drinking this cup, we will return business to business and friendship to friendship, and if there is anything I have done wrong in the future, I will be right about things but not about people."

When Ji Feng smiled, he couldn't help but raise an eyebrow and asked, "What, what do you plan to do?"

He Hongwei said bluntly, "Someone took a fancy to the alloy craft in your hands and borrowed some of the power from me, and I didn't stop it."

When he said this, both Han Zhong and Zhao Kai's faces didn't look too good.

They both already knew about He Hongwei's identity, it was a top gentry whose status and position were not in the least inferior to Ji Feng's, or rather, a top magistrate!

Someone borrowed power from him

Just thinking about how huge the energy that He Hongwei could use was was enough to make people's hearts tremble, even if someone just borrowed some of the power from him, it was absolutely powerful to the point of being terrifying.

What's more, the fact that He Hongwei didn't stop it was an attitude in itself – anyone on the outside would have thought that it was something that He Hongwei had tacitly approved of!

Campus Master Chapter 2396

The fact that someone borrowed from He Hongwei and wanted to hit on the Tengfei Group's new chrome alloy was in itself a rather harsh signal.

But He Hongwei even agreed to it!

What impression would this give to the outside world?

Han Zhong and Zhao Kai were not too comfortable, He Hongwei was sitting here, Ji Feng was inviting him for a drink, and he was even calling him brother, and yet he did such a thing!

He Hongwei is a top magistrate, Han Zhong and Zhao Kai are naturally not qualified to accuse him of anything, but, this kind of practice of He Hongwei still makes them very unhappy, so, Han Zhong, who wanted to toast He Hongwei, also put down the glass in his hand without a trace.

He Hongwei was already helping others to fight for the new chrome alloy, so what was the point of toasting him? What's the point of toasting him?

Zhao Kai also just lit a cigarette and slowly smoked it. He put down his chopsticks that he had been eating, and his eyelids were lowered, as if he had suddenly become listless, but in fact he was thinking of countermeasures.

Compared to Han Zhong, Zhao Kai is a bit more feminine, so he can think more calmly when he encounters things, and he is also more resourceful.

For example, while Han Zhong's face was obviously unhappy, Zhao Kai's face was not too obvious, and he even hid his eyes so that people could not see him clearly.

Zhao Kai was thinking that no matter what exactly He Hongwei's intentions were, since he was here now, there was always a way out.

Besides, even if there was no way to stop it, he would still be able to learn more from He Hongwei!

Subconsciously, Zhao Kai glanced at Ji Feng, he wanted to see what Ji Feng meant.

If Ji Feng had a hint, then he would definitely do everything he could to calculate He Hongwei once, or at least find a way to grab some of He Hongwei's handles, he couldn't just let someone hit him for nothing.

However, what made Zhao Kai a little disappointed was that Ji Feng did not have any unexpected look after hearing He Hongwei's words, not even a half-excited look, he just smiled and chucked the food and chewed slowly.

"Who is it?" Ji Feng asked casually.

"I can't say." He Hongwei shook his head and said, "Originally, I didn't agree to this, and I did persuade, but it couldn't be helped, the other party didn't listen to me."

"Then what kind of power did he borrow from you?" Ji Feng asked.

"An operation team, and some funds." He Hongwei said, "Because I once owed the other party a favour, there was no way, I had to pay it back, otherwise my heart was uneasy."

"Understood." Ji Feng faintly nodded his head.

Han Zhong, however, couldn't help but hum and secretly said, "You owe a favor to someone and your heart is uneasy if you don't return it, don't you owe a favor to Ji Feng? Even if you don't owe it, but now you are eating and drinking from Ji Feng, yet you are still helping others to deal with him, is this also called being righteous?"

It was just that, due to the face, it was not good for Han Zhong to say this directly. However, his attitude was already very clear.

“Old brother, looking at your reaction you don’t seem to be very surprised?” He Hongwei asked in a somewhat strange manner.

“Why should I be surprised?” Ji Feng smiled, “Are you surprised that someone is playing with the idea of the new chrome alloy? Or is it surprise that you, He Hongwei, are helping others to deal with me?”

“Shouldn’t it be surprised by both?” He Hongwei asked.

Ji Feng shook his head and smiled, saying, “There’s nothing to be surprised about! After the new chrome alloy was developed, I had already predicted that there would definitely be people who would have eyes for it, and there would definitely be people who couldn’t sit still, so it really doesn’t surprise me at all when you say that someone is playing with this aspect.”

After a pause, Ji Feng added: “As for the matter of you lending your power to others since you told me so clearly, it proves that you didn’t intend to get involved in it, and you lent it out just to return the favor, right?”

Ji Feng smiled faintly: “Since that’s the case, then what’s surprising to me? I haven’t forgotten, those three cups of wine just now, one of them you had said that you hoped to continue to join forces in the future, I don’t have amnesia, how could I not remember? If say one day you, He Hongwei, suddenly turn your guns against me, I might be a bit surprised at that time!”

“.....”

He Hongwei pursed his lips, nodded heavily and said, “Ji Feng, old brother is convinced!”

Ji Feng’s atmospheric performance really gave He Hongwei a genuine feeling of admiration, and even He Hongwei thought that if he were replaced with Ji Feng, the sudden moment he heard that someone was trying to deal with him, and even a feeling of being betrayed, it would definitely not be too comfortable.

But Ji Feng is completely calm, almost without any emotional fluctuations, just this great atmosphere is enough to make He Hongwei admire.

Not to mention Ji Feng’s generosity and calmness!

“Don’t worry, old brother, I, He Hongwei, won’t say anything about swearing, but I’ll take note of what happened today and these words of yours.” He Hongwei said.

“Words are too much.”

Ji Feng waved his hand with a smile and said, “In fact, if it were me, I would probably have made the same decision as you. Alright, let’s not talk about that and drink.”

Regarding He Hongwei’s approach, Ji Feng was very understanding.

Having owed someone a favour that he couldn’t refuse, he definitely had to return it, there was no excuse for that.

Moreover, Ji Feng also believed that He Hongwei must have persuaded the person who had hit on the new chrome alloy to not do so, or wanted him to change his mind, but he just didn’t succeed.

This is not the fault of He Hongwei.

Besides, He Hongwei was open and honest in what he did, putting everything on the table and saying it clearly, and also saying that he did not do anything to anyone, but only because he owed the other party a favour and had to return it!

The reason why he did this was simply because he owed the other party a favor and had to pay it back! With the deceitfulness in this society nowadays, it is not easy to be able to do what He Hongwei did.

So Ji Feng is happy to continue to treat He Hongwei as a friend, because with such a person as a friend, even if he betrays you one day, he will let you know in advance that he is going to betray you, and he will also let you know why, and will remind you to be prepared.

Just for this point alone, I don't know how many times better than others!

So, instead of feeling annoyed, Ji Feng was a little relieved.

At least, He Hongwei was a friend he had not made for nothing, and it was not in vain that they had fought side by side.

However, compared to Ji Feng's other friends, he did not have too deep a relationship with He Hongwei, not compared to the friendship with Du Shaofeng and Han Zhong, not compared to the kindness with Zhao Kai, not to mention the detrimental friend with Zhang Lei, who had a life-long friendship.

Ji Feng and He Hongwei are considered a gentleman's friendship!

In fact, before he came, he even thought that Ji Feng might turn against him, which was definitely not what he wanted to see, but he couldn't not return the favor, and besides, he really wanted to have a drink with Ji Feng, so he still came with a hard head.

And, out of respect for his friend and the desire to make Ji Feng a friend, He Hongwei told the truth after three consecutive toasts.

The result was completely beyond He Hongwei's expectation, Ji Feng was magnificent!

This made He Hongwei worship and his mood stirred!

"Older brother, you're a man of no words!" He Hongwei gave a thumbs up and said, "This matter is ultimately old brother's fault, so I'll punish myself with three glasses."

"It's better to join in." Ji Feng smiled and stopped him, "There's not that much preaching between friends."

"Good! Together!"

He Hongwei nodded heavily, then held his cup again and said to Han Zhong and Zhao Kai, "Two brothers, take one together, you are Ji Feng's friends, and in the future, you will also be my He Hongwei's friends"

This time, He Hongwei drank a lot, although it is not to say that it is as drunk as mud, but also eight's and nine's of drunkenness, walking all wobbly.

However, this is perhaps also the most emotional time that He Hongwei drank, especially towards the end, he drank with a lot of emotion.

Ji Feng was also slightly drunk, he did not use bio-currents to break down the alcohol in his body, that would also lose the feeling of drinking, as a young man, Ji Feng actually likes to have a couple of drinks, not to mention that he was in a good mood today.

At the end of the day, He Hongwei already needed help to walk, Han Zhong and Zhao Kai did not drink much, they helped He Hongwei out together with Ji Feng, and when they arrived at the door, they saw He Hongwei's little flat-headed bodyguard leaning against the marble pillar at the entrance, looking at everything around him warily.

When he saw Ji Feng and the three of them helping He Hongwei out, the little flat head hurriedly went forward to support He Hongwei and said, "Thank you, young Ji."

Ji Feng didn't argue with him either, but walked ahead and said, "Come with me, next to the hotel, arrange for him to sleep first."

He Hongwei said sleepily, "I'm not drunk, old brother, we can still keep drinking."

Ji Feng laughed: "If you drink any more, you'll be afraid you'll go bald under the table Let's go."

The first thing you need to do is to get a hotel not far from the villa area, and Ji Feng gave them a suite so that it would also be convenient for the little flat head to protect He Hongwei, now that He Hongwei is drunk, it can be said that he has no ability to protect himself, while Ji Feng is aware that the people who want He Hongwei's life are not much less than those who want his own life, so he made special arrangements.

At this time, it was obvious that He Hongwei was completely drunk.

However, as Ji Feng was about to leave, He Hongwei still managed to barely maintain a trace of sobriety and called out to Ji Feng.

"Older brother!"

"What's wrong?" Ji Feng turned around and asked.

"That person's surname is Han, he comes from the Northeast and is barely a member of this circle, but he is black-hearted and does things by any means necessary, you must be careful!" He Hongwei said.

"I know." Ji Feng faintly nodded his head.

"Always beware, back then I owed him a favor, it might be a bureau he made" He Hongwei said vaguely.

"Eh?"

Ji Feng couldn't help but be stunned and turned around violently, but he saw that He Hongwei was already completely drunk

Campus Master Chapter 2397

"From the northeast, the surname Han"

In the villa, Ji Feng couldn't help but secretly ponder, those who could make even He Hongwei must give face must have a certain origin to do so.

The actual fact is that the actual person is really not low – black-hearted and unscrupulous!

Not to say whether this evaluation is good or bad, but at least from this point can be seen, this person from the northeast surnamed Han, must be quite capable and skillful, otherwise He Hongwei will not give the other party a rating of unscrupulous.

Ji Feng also grasped a message from He Hongwei's words – that Han was barely a member of this circle!

What does this mean?

That Han was also a top government official?

But why was he from the Northeast?

Ji Feng was a bit puzzled, and he couldn't help but shake his head. To say the least, this was his shortcoming, that is, he was not particularly clear about some families and some branches of power in China, and a lot of it was just hearsay or what he heard from his second brother Ji Shaolei and Ji Shaojun.

But when it came to the real world, Ji Feng couldn't think of anything right away.

Moreover, when Ji Shaolei and the others talked about this, they were basically just gossiping, but Ji Shaolei was not a gossip, so he sometimes only mentioned a little, so Ji Feng's understanding was very limited.

For example, the only big family in the Northeast that Ji Feng knows of, or that has some influence in the Northeast, is the Yao family in the Northeast.

It is the Yao family that once made Wu Zhiyong a bit tempted to join with it in marriage.

Ji Feng had also met the young princess of the Yao family, Yao Yue Ran.

But other than that, Ji Feng really didn't know of any other influential families in the Northeast, and he had never heard of any family surnamed Han.

The actual fact is that you can find a lot of people who are not able to get a lot of information about the actual people who are not able to get a lot of information about the actual people who are not able to get a lot of information about the actual people who are not able to get a lot of information about the actual people who are not able to get a lot of information about the actual people who are not able to get a lot of information about the actual people who are not able to get a lot of money.

The reason is that when Ji Feng asked him about it at the table, he said, "Don't ask, I won't tell.

A person of He Hongwei's character would definitely keep his promise, so it would be a waste of time to ask.

"It's better to investigate it yourself." Ji Feng smiled, this is really hilarious, the appearance of a new chrome alloy has drawn out any kind of cats and dogs.

First, the military went straight to test Little Uncle, then now it was He Hongwei who came to give himself the warning that there was a northeastern man surnamed Han who had his eyes on him.

This next, there is no telling how many people will have their eyes on him.

Just one press conference had made all these people jump out of their skin with impatience. It seemed that it was true that wealth and money moved people's hearts.

"Have some soup."

Tong Lei's voice sounded beside him, Ji Feng turned his head to look and saw Tong Lei walking over with a bowl, "I made some soup, it's very effective to wake up."

Ji Feng couldn't help but feel warm in his heart, he shook Tong Lei's small hand and said, "I'm fine, I'll be fine in a while."

Tong Lei said, "Still fine? Look at how red your eyes are."

Because he hadn't activated the bio-current to dissolve the alcohol in his body, Ji Feng was more or less drunk at the moment, mainly because they had drunk a lot.

He Hongwei was so touched that he drank without any restraint at all. Perhaps he also felt a bit ashamed of Ji Feng in his heart, so he toasted frequently and even punished himself.

Although He Hongwei drank the most, Ji Feng also drank a lot even if he responded, and Han Zhong and Zhao Kai likewise drank a lot.

Therefore, at this moment, like the two of them, Ji Feng's face was red and even the whites of his eyes were bloodshot.

With Ji Feng's physique, I'm afraid he wouldn't even get drunk if all three of them were drunk. However, this soup was Tong Lei's intention, so even if Ji Feng was sober and full, he would definitely drink it gladly.

Ji Feng smiled and said, "Well then, I'll taste how your handiwork is, well, it smells good"

He picked it up and smelled it for a while, then tilted his head and drank it clean with a gulp.

The soup had been chilled and was warm enough to drink at the moment, and it was quite soothing in one gulp on this hot summer day.

"Delicious!"

Ji Feng did not mince words with his praise.

Tong Lei then smiled sweetly, her big pair of beautiful eyes smiled into a pair of crescent teeth: "It's good that you like it, do you want another bowl?"

"Yes." Ji Feng nodded his head, it was indeed very good.

"Then you wait." Tong Lei pursed her lips and smiled, happily going to serve another bowl to Ji Feng.

Once Ji Feng had two bowls of sober soup in a row, his whole body was much more comfortable, and he took Tong Lei's small hand and made her sit beside him, saying, "Lei Lei, it's hard for you."

Tong Lei is clear and beautiful, her personality is also clear and cold, she likes to be clean, but today, she is personally cooking with Bai Zhu and the others, busy working around for a few of them to drink, Ji Feng knows that this is not something that Tong Lei likes to do, the reason why she is doing all this is entirely because of herself.

But Tong Lei pursed her lips and said, "I'm willing to do whatever you like."

Ji Feng didn't say anything, he just embraced Tong Lei into his arms.

But Tong Lei pushed him away with a red pretty face, "There are outsiders here, don't move around, be honest!"

Ji Feng smiled and kissed her, knowing that she was not too liberal, so he did not do anything more, but asked, "Where are Zhao Kai and Han Zhong?"

Tong Lei said, "They are still asleep in the guest room, they both drank a lot, right? I can see they're wobbling when they walk."

"Still sleeping?"

Ji Feng then shook his head and smiled, Zhao Kai and Han Zhong had also drunk almost enough, for safety reasons, Ji Feng did not let them go back immediately, but arranged for them to stay in the guest room of the house to rest a little and sober up.

"Ding"

At this time, Ji Feng's mobile phone suddenly rang, and he picked it up, only to find that it was the second brother, Ji Shaolei, calling.

Ji Feng picked up the phone, "Second brother."

"Third son, you're good!" As soon as the phone was connected, Ji Shaolei couldn't help but laugh and said, "A press conference has stirred up the whole Yanjing, it's awesome."

"Stormy?" Ji Feng laughed, "Second brother, exaggerating, right?"

"Not exaggerated at all."

Ji Shaolei said, "I'm afraid you don't quite understand, I don't know how many people are now staring at your new alloy and don't know what they're doing, not to mention the other things, just the phone calls I received, there are five or six of them, they are all from the bosses of very strong state-owned enterprises."

Ji Feng immediately asked, "What are they calling you for?"

Ji Shaolei said, "What else can they do? They want to test the waters, and some want me to introduce them to them, hoping to meet you or have a meal with you."

Ji Feng laughed: "Let them contact the Tengfei Group directly for this kind of thing, I'm not involved."

Ji Shaolei said, "I know your kid's character, so I gave it back. However, you should also be careful, these people who call me are those who want to cooperate with the Tengfei Group through normal channels and means, but there are also many super powerful group companies, so I'm afraid they won't be so honest."

Ji Feng said, "How can they be dishonest?"

Ji Shaolei said, "Third child, you should not be careless, you should know, there are many large group of companies seem to be official enterprises, but in fact, it is only a certain big faction, or a political group's industry, so the bosses of those group of companies are all arrogant and arrogant, they may be afraid of your identity, but may not be afraid, you understand, right?"

Ji Feng said, "I don't want others to be afraid of me either, likewise, I'm not afraid of others' schemes and tricks."

"San'er, I see that this time the momentum is not small, it might not be quite the same as the previous storm, it might be a big storm, even the people involved are definitely all powerful, it's not even safe to say that there are giants intervening, you should beware." Ji Shaolei reminded.

Ji Feng said, "Second brother, you've heard something right?"

Ji Shaolei said, "I just feel that the situation is a bit tense and very wrong."

Ji Feng said, "I know what to do."

Ji Shaolei said, "Anyway, just have it in your mind, don't be careless or you might suffer a big loss. Okay, let's do this first, I still have some things on my side, hanging up"

"Wait a minute!"

Ji Feng was busy saying, "Second brother, I happen to have something I want to ask you."

Ji Shaolei said, "Speak."

Ji Feng said, "Second brother, in the northeast, is there anyone with the surname Han who is more powerful?"

"Those surnamed Han?"

Ji Shaolei pondered for a moment and mused, "I really can't recall when you say it so violently."

Ji Feng said, "This one surnamed Han might be a certain male son, this person is black-hearted and unscrupulous, he is said to be a very powerful person, second brother, think about it, does it ring a bell?"

"Unscrupulous? A gongzi brother?" Ji Shaolei mused and said, "Still no impression, to say that the northeast surnamed Han, I also know one, but it does not match what you said at all, and that person is also not a gongzi brother."

"Then are there any of the more powerful people in the northeast, or a certain family, who can be related to someone surnamed Han?" Ji Feng asked, "Or one with ties to Yanjing?"

“Can’t think of any!”

Ji Shaolei shook his head and said, “The northeast is so big, there are quite a few powerful people, I can’t possibly know them all, in fact it would be good to know a small number of them but after thinking about it, I can’t think of anyone that matches what you said.”

Ji Feng was more or less disappointed, originally he thought that he could inquire some information from Ji Shaolei here.

“Right!”

Suddenly, as if remembering something, Ji Shaolei said, “San’er, is there someone you’ve asked yet? If you want to inquire about the northeastern surname Han, asking her would be the best.”

Ji Feng said, “Who is it?”

Ji Shaolei said, “Yao Yue Ran!”

Campus Master Chapter 2398

Ji Feng was stunned and repeated, “Yao Yue Ran?”

“Yes.”

Ji Shaolei said, “The Yao family’s influence in the Northeast is not small and extremely powerful, and Yao Yue Ran, as the young princess of the Yao family, has influence that goes without saying. If you want to inquire about things in the Northeast, asking Yao Yue Ran is definitely the best choice!”

Ji Feng said, “I don’t know her well, how can I ask?”

In fact, before this, Ji Feng had really thought of Yao Yue Ran, mentioning the Northeast, when Ji Feng thought about it, the only person he knew was Yao Yue Ran.

But the problem was that he was not too familiar with Yao Yue Ran, not to mention that there was no friendship between him and Yao Yue Ran.

Since then, there has been no contact between the two of them, so it would be a bit bad to contact Yao Yuran rashly now.

Ji Shaolei said, “It’s good to get acquainted once in a while, besides, didn’t you have a good conversation last time.”

Ji Feng thought about it and said, “That’s true. Alright then, I’ll ask her.”

“Then let’s do that.”

Ji Shaolei said, “I still have some things on my side, so just have something in mind anyway, and be careful.”

Ji Feng nodded and said, “I know.”

“Call me anytime if anything happens.” After Ji Shaolei finished speaking, he hung up the phone.

Listening to the busy tone coming from the phone, Ji Feng couldn't help but frown. It seemed that the storm caused by the promotion of the new chrome alloy this time seemed to be even bigger than he had imagined!

Even, the second brother had even said 'political group', so it could be seen that he must have received some kind of wind, or sensed something, and that was why he had specifically called to remind himself to be careful.

Is this new chrome alloy really that appealing?

..... is indeed very attractive!

The performance of this new chrome alloy is just a bit outrageously strong, and it has enough reasons to move people, no matter which way you look at it.

If from the economic aspect, if anyone can master the manufacturing process and technology of this new chrome alloy, not to mention other things, just this next benefit alone, can be foreseen, absolutely rolling in, can't even stop.

But this new chrome alloy contains more than just economic value, if it is used to manufacture weapons and equipment, it may be a bit exaggerated to say that it can make a qualitative leap in the combat power of an army, but at least it can increase the combat power of submarine troops by several percent, and make some armour or aircraft performance another huge increase, this is not exaggerated at all.

And that, I'm afraid, is something that no country can resist!

So there are not only economic benefits, but also too many other benefits, so much so that I don't know how many people want to get this new chrome alloy!

This made Ji Feng mutter to himself, could it be that this new chrome alloy was still too advanced? If he had known, he should have made one with slightly inferior performance.

But then Ji Feng put this thought behind him, now that things have come to this point, where is there so much 'should have known', there is no if in this world, since things have happened, then find a way to solve it!

Isn't it just some scheming, and some red-eyed greedy people?

Who dares to reach out, just chop the claws off directly!

Although Ji Feng sat there without making any movements, he had his own aura of grandeur emanating from him, giving him a vague aura that made even Tong Lei aware of it.

In the evening, Xiao Yuxuan drove home with Xiao Ying, and by this time, Han Zhong and Zhao Kai had also rested long ago and were currently sitting in the living room chatting with Ji Feng.

"General Xiao, how is the situation in the company?" Seeing Xiao Yuxuan return, Han Zhong couldn't help but ask.

"Everything is normal." Xiao Yuxuan said, "It's just that there are slightly more phone calls, many people are calling and asking about the new chrome alloy, the reception department is going crazy. There are

also some people who have called me directly on my mobile phone, and I don't know where they got the numbers from."

Han Zhong said, "I've received quite a few calls too, those people are well-informed, they can definitely get our numbers if they want to, but as long as everything is normal in the company, it's fine."

Xiao Yuxuan's heart stirred and asked, "What, is something going on?"

Ji Feng said, "There's a bit of trouble."

He quickly told Xiao Yuxuan about some of the whispers he had heard and admonished, "Yuxuan, you try to be more careful during this period of time, we are not afraid of being open and honest, but we have to be on guard against some people's petty tricks and pay more attention to our own safety, remember?"

Xiao Yuxuan was a little angry when she heard it and said, "These people are really above as well, no one else has said anything yet, they are sitting on their hands instead."

Ji Feng smiled and said, "Wealth and money move people's hearts, ah, some people can't sit still is normal."

Xiao Yuxuan said, "But this is too unfair!"

Ji Feng said, "How so?"

Xiao Yuxuan said, "In the past, the Brilliant Group developed a super alloy, I don't know how long it was publicized, it was simply blown up in the newspapers and on TV, it caused a sensation, but what happened?"

Ji Feng then smiled, it turned out that Xiao Yuxuan was talking about this matter.

Last time when he went to South Guangdong, Ji Feng had focused on understanding things about the Brilliant Group, of which a lot of information was still entrusted to Xiao Yuxuan to collect, so she also understood that after the Brilliant Group had developed that so-called super alloy, it did make a lot of publicity, and even described the Brilliant Group as the most innovative private enterprise in China.

And, there was also a TV station that did a special report on this matter, as if the theme was to introduce the new way of private enterprise development, and some other something fake and big and empty.

It was only at that time that Ji Feng realised that the original Brilliant Group's superalloys were actually very famous, it was only because he hadn't paid attention to the news in this area before that he didn't know much about it.

"The publicity was so great, almost boasting the Brilliant Group as the number one private enterprise in China, only to turn around and have to sell that super alloy to the Kepong people."

Xiao Yuxuan said, "At that time, I'm afraid that the Brilliant Group's super alloy was the best performing alloy in China, right?"

Ji Feng smiled and nodded his head.

Han Zhong also said, "I don't know too much about the specific data, I don't know too much about this aspect, anyway, looking at that report, it's almost there."

Xiao Yuxuan said, "Yeah. As the best alloy in China, Brilliant Group said to sell it, and did not see so many people jumped out to try to get their hands on it, only Ji Feng and He Hongwei intervened, not yet for the alloy, just to stop the deal, the result also failed"

Said, Xiao Yuxuan glanced at Ji Feng, the latter just shook his head a sun.

"But, how is it that when it's our turn this thing is completely different?" Xiao Yuxuan said with some dissatisfaction, "We only just announced this alloy, immediately someone sat down, even what spirits and monsters are stupid, this treatment is too different, right?"

Xiao Yuxuan was a bit uncomfortable, the same alloy, why did the Brilliant Group do whatever they wanted, and even exaggerate the publicity, but as a result, no one reached out, and in the end, the Brilliant Group sold such an important alloy technology to the people of Kepong, but only two people, Ji Feng and He Hongwei, stepped in to stop it, and no one else said a word?

But why are there so many people who are so eager to make a move now that it's the Tengfei Group?

I really don't know whether this is because they don't put Ji Feng in their eyes or they think that Tengfei Group is a piece of fat meat in their mouth and they can take a bite whenever they want?

Anyone else would not be too comfortable when they knew that their hard-earned business was being treated like fat meat, and that it was treated very differently from other businesses.

Xiao Yuxuan was equally so, and at the same time, she was somewhat upset for Ji Feng.

The Brilliant Group was the Wu family's property, the Tengfei Group was owned by Ji Feng, and Wu Zhiyong had lost under Ji Feng several times, so why did those people think so little of Ji Feng?

Isn't that looking down on people?

This is too much of a bully!

So what Xiao Yuxuan was actually angry about was not just the greed of those people and their coveting of the Tengfei Group, what Xiao Yuxuan was really angry about was the contempt some people had for Ji Feng.

A man is the backbone of a family, and it is the same for a company.

If some people were really that scornful of Ji Feng, then they would definitely not dare to have any crooked thoughts about the Tengfei Group. Now that some people have come to test it out, it means that they are not very afraid of Ji Feng, and I am afraid that they do not even put Ji Feng in their eyes.

This is what Xiao Yuxuan was most angry about!

Han Zhong said: "I'm afraid that some people only have their eyes on profits, their eyes are red, where would they even consider that much? Besides, that so-called super alloy from the Brilliant Group is comparable to our new chrome alloy? I'm afraid that super alloy doesn't even have the qualifications to compare!"

“So, in this respect, we should be proud of ourselves!” Han Zhong laughed, “It’s because our alloy is so outstanding that it has attracted so many people, and that’s a good indication of how strong our alloy is!”

Xiao Yuxuan said, “In that case, instead of feeling angry, I should be happy?”

Han Zhong was suddenly dumbfounded.

Zhao Kai said, “There are other reasons for this, I’m afraid!”

The three of them then looked at Ji Feng. If there was really any reason for the difference in treatment between the Tengfei Group and the Brilliant Group, then I’m afraid Ji Feng would be the most clear about it.

Ji Feng nodded and said, “Actually, it’s not that serious.”

Xiao Yuxuan said, “It’s not that serious, huh? I see that those people don’t even put you in their eyes!”

Ji Feng said, “In fact, at that time, the Brilliant Group was also under great pressure, and I heard that even Wu Zhiyong’s second uncle stepped in, which was the only way to suppress some people. As for the point that the Brilliant Group sold the super alloy to the Kepong people, this is something I am also puzzled about

Campus Master Chapter 2399

Ji Feng said, “In fact, at that time, the Brilliant Group was also under great pressure, and I heard that even Wu Zhiyong’s second uncle had stepped in, which was the only way to keep some people down. As for the fact that the Brilliant Group sold the super alloy to the Kepong people, this is something I am also puzzled about

Why exactly would the Brilliant Group sell that super alloy to the Kepong people, this had always been Ji Feng’s puzzlement, as well as He Hongwei’s.

In fact, the two of them could not understand how, with the strength of the Brilliant Group, even if it was because of the departure of Rong Peng’s father and daughter, and took away a sum of money and a large number of professionals, it was not enough to deal a devastating blow to the Brilliant Group, and naturally, there was no need to rely on selling technology to keep the group running.

With the influence of the Wu family in Southern Guangdong, it would not be difficult for the Brilliant Group to stabilise itself again, and the Wu family would certainly not stand by and watch it fall.

So, why did the Brilliant Group still want to sell its alloy technology?

Ji Feng didn’t know, and neither did He Hongwei. He even inquired about this matter in order to find out, but he didn’t find out any useful information either.

However, there was one thing that Ji Feng knew very well – no matter when the Brilliant Group developed the super alloy, or when they decided to sell it to the Kepong people, they were under considerable pressure.

Especially when the Brilliant Group decided to sell the super alloy to the Kepong people, the pressure was even greater, and even Elder Hong had directly asked about it.

It was just that in the end it was not known who actually resisted the pressure from above and hardened the partnership.

But it is conceivable that the Wu family must have paid a considerable price this time, and this is something that Ji Feng could not understand.

There was no doubt that what they got from working with the Kepong people and selling the technology to the Lingxia Group was nothing but money, of course, large sums of money, or even huge sums of money, but apart from that, what else could there be?

Perhaps there were other promises from the Lingxia Group, but whatever the promises were, what benefit could a company that was far away from the boundary ponies bring to the Wu family?

So Ji Feng just couldn't understand why the Wu family was so insistent!

There must be a reason for this that he didn't know about.

But that would be beyond Ji Feng's ability to know, so he didn't continue to investigate further, because he knew that it would definitely not be possible to find out, and it would be useless even for Elder Hong to ask about it, let alone him.

"As for the other enterprises, there are still some stupid people, in fact, when the Brilliant Group developed the super alloy in the first place, there were not people who were not moved." Ji Feng said, "These people are not easy to mess with, and I think the Wu family must have paid a lot as well."

"Not the ones to be messed with?"

Han Zhong was a bit puzzled and said, "What do you mean? The calls I received were basically from the bosses of some companies, although some of them are extremely famous in China, but they always have to take into account your status, right?"

Ji Feng shook his head and said, "That's not necessarily true."

"What, they dare not put you in their eyes?" Han Zhong was stunned. What was Ji Feng's status? In China, how many people dared not put him in their eyes? At Ji Feng's words, Han Zhong didn't quite understand.

"That's because you don't understand the background of those people."

Ji Feng said, "Let me put it to you this way, sometimes when you look at a business, it may not be just a simple business, for example, the Brilliant Group, which is the wealth of the Wu family, and the Tian Yao Group controlled by He Hongwei, although it is nominally a state-owned enterprise, in reality that is also the property of the He family's lineage."

Han Zhong was stunned and said, "According to you, those who called me are representatives of a certain faction?"

This surprised Han Zhong a little, he didn't know much about the upper echelons, although he had known for a long time that some enterprises were in fact the financial base of some factions, but the calls he had received in the past few days, several of them were mega enterprises that were ranked nationwide, and some of them had even entered the world domain.

Such enterprises are also the private property of a certain faction?

That's too amazing!

Ji Feng said, "Not all of them, but one thing is for sure, there is definitely something in it, I'm not too sure exactly, in fact, it was only after second brother called me to remind me of it that I realized it."

Zhao Kai, however, asked, "Even if some people are representatives of a certain faction in the business world, they still have to take into account your identity, right?"

Even if those old bosses had deep backgrounds, the Tengfei Group was likewise not bad, and even, the Ji family held considerable weight in the political map of the whole of China, the factions behind those old bosses might not be able to compare to the Ji family.

Although they are corporate bosses, when it comes to status, they are definitely not as good as Ji Feng, who is the first grandson of the Ji family, is this not clear to those people? But how come they didn't have any scruples at all?

Ji Feng shook his head and said: "In business, in the same background similar situation, those enterprise bosses may not really be so afraid, especially, if the rules of the shopping mall to deal with, they are even stronger party, Tengfei Group is still too small"

Han Zhong coldly snorted: "In business? So what? Now the initiative is in our hands, the new chrome alloy process and technology are in your hands clutching it, even if they are even stronger, who they want to cooperate with, that also depends on our wishes, what they have to be arrogant about?"

Ji Feng smiled and didn't say anything.

Zhao Kai seemed to have thought of something and blurted out, "That's precisely why there's a conspiracy?!"

Xiao Yuxuan's face twitched, her cicada lightly nodded, and she said thoughtfully, "So that's how it is."

The initiative was in the hands of the Tengfei Group, and the others wanted to obtain this new chrome alloy process, so they had no choice but to play some intrigue.

Especially, with both sides having similar backgrounds, some people were even more daring.

In this world, there is never a shortage of greedy people.

Perhaps, there were also people who were even more motivated precisely after they knew about Ji Feng's relationship with the Tengfei Group. The excitement and sense of achievement of taking food from the tiger's mouth would definitely make some people stupid.

Seeing that everyone understood, Ji Feng smiled and said, "So, I'm afraid that some people won't be honest during this period of time, so you all have to be careful."

Zhao Kai said, "Since this is the case, then the employees within the group should also be arranged, the more chaotic the situation is, the more there is no shortage of people who fish in troubled waters, there may be some people who cannot get at the main figures of the group, then they will naturally turn their attention to the employees of the group and look for opportunities from them... .."

"That's right!"

Xiao Yuxuan nodded, "Zhao Kai is right, after we arrive at the company tomorrow, I will call a meeting with the middle level and above cadres to arrange this matter down."

Several people discussed their countermeasures, and after Han Zhong and Zhao Kai had dinner, they left.

However, Ji Feng still did not let them drive, although they had slept in the afternoon, they were still more or less drunk, for safety reasons, it was best to take a taxi back.

"This Zhao Kai person is quite smart." After having sent Zhao Kai and Han Zhong away, Xiao Yuxuan couldn't help but say.

"Mm."

Ji Feng nodded, Zhao Kai is indeed very smart, his brain is very flexible and very quick witted.

In Zhang Lei's words, this guy was definitely a very good dog-headed soldier, of course, he still needed time to grow up even now, but so far, Zhao Kai had also performed very well, otherwise Xiao Yuxuan wouldn't have praised him.

"Then you have to use him well." Xiao Yuxuan said.

"Hmm?" Ji Feng was stunned and looked at Xiao Yuxuan with some surprise.

"You have too few helpers around you now, this person Zhao Kai has a good head on his shoulders, he can definitely become a good helper for you in the future." Xiao Yuxuan said, "Ji Feng, you can't charge ahead in everything."

Ji Feng lost his smile at once, "I know."

It seemed that Xiao Yuxuan had not been an old boss for these few years for nothing, and had gradually adapted to her status and knew how to use people.

However, in Ji Feng's heart, he did not just treat Zhao Kai as a staff officer with brains, first Zhao Kai was his friend and then a staff officer.

The first thing he wanted to do was to make sure that he had a good understanding of the situation, but he didn't know that Xiao Yuxuan actually wanted Ji Feng to grow in strength quickly, especially after a series of events, so she didn't want to see others provoking Ji Feng or belittling him.

As Ji Feng's woman, Xiao Yuxuan was uncomfortable seeing this situation.

That's why Xiao Yuxuan suggested that Ji Feng use Zhao Kai well, to be able to have one more helper, Ji Feng's strength will definitely increase by one more point, in the future, see those so-called corporate

bosses who dare not put Ji Feng in their eyes because they are the financial stewards of certain factions?!

“Ding ring” A ringing sound interrupted Xiao Yuxuan’s thoughts, but it was Ji Feng’s mobile phone ringing.

“It’s Xiang Yongzhan.”

Xiao Yuxuan casually handed the mobile phone that was on the coffee table to Ji Feng.

Ji Feng was then a little surprised that Xiang Yongzhan was calling him at this time?

“Old Xiang.” Ji Feng picked up the phone.

“Ji Feng, you kid have been really something lately!” Xiang Yongzhan said, “Ready to enter the industrial field?”

Ji Feng smiled, “Sort of, I wonder what advice Captain Xiang has to offer?”

Xiang Yongzhan said, “I just want to know, what was said in the press conference, if this new chrome alloy is used to make the submarine, can it really avoid all the radar?”

Ji Feng said, “How can I say this question, it’s a bit specialized, it’s not clear in a few simple words, and I’m afraid” you don’t understand it either.”

Xiang Yongzhan: “.....”

“Just kidding.” Ji Feng laughed.

“Older brother, instead of having time for jokes, why don’t you think about how to deal with those few policemen, okay?” Xiang Yongzhan said.

“Cops?” Ji Feng was stunned, and immediately, he reacted and understood that Xiang Yongzhan was talking about those policemen in Qihe City from Jibei Province, and he slapped his head, “I forgot about it! I’ve been busy and dizzy!”

Campus Master Chapter 2400

“The police?” Ji Feng was stunned, and immediately, he reacted and understood that Xiang Yongzhan was talking about the police officers from Qihe City in Jibei Province, and he slapped his head, “I forgot! I was too busy!”

“It doesn’t matter if you’re dizzy, these people are suffering.” Xiang Yongzhan laughed.

“What, did you torture them?” Ji Feng was stunned.

“That’s not true.”

Xiang Yongzhan said, “It’s just that they don’t have the peace of mind they have at home here, and besides, my meals here aren’t for idle people.”

Ji Feng then let out a sigh of relief and said, "That's good, I thought you had done something to them, as for the meals anyway, they are all people with masters, when their masters come later, you can just ask their masters to reimburse you!"

Ji Feng thought Xiang Yongzhan had tortured those few policemen, if that was the case, then the nature would be different.

Interrogation is fine, but torture to extract a confession, this is at least against the rules, when the time comes, if the other side really wants to pursue the matter, Xiang Yongzhan might even have to get into trouble.

And most importantly, Ji Feng knew very well in his heart that those few people were not fake at all, they were real police officers!

And, they were also the criminal police of the Qihe City Bureau of Jibei Province!

It was only that these people had the audacity to go directly to the First Affiliated Hospital to arrest Yang Bin, which was why he and Li Ruonan took them down directly and put a charge of impersonating a police officer and sent them to the army.

Originally, Ji Feng was planning to wait until he was done with the matter at hand, then he would find an excuse to release the people, after all, they were all police officers, not really criminals, and it was not a matter to keep them locked up like this.

But then Yang Feng's arrival made Ji Feng change his mind again.

The arrogance and arrogance of Yang Feng made Ji Feng particularly disgusted, especially, Yang Feng didn't even ask about the policemen after he arrived, he came up and asked him to hand Yang Bin over.

Since Yang Feng didn't even care about those policemen, Ji Feng naturally didn't need to be the good guy, as he wasn't the one who suffered anyway.

As for the policemen, since they had the intention to stand up for someone, they had to be prepared to be cleaned up.

As a result, things have been dragging on, and these days Ji Feng is even too busy to care, so for a while he forgot that there are still a few people being held in the army.

If it wasn't for the call from Xiang Yongzhan, Ji Feng wouldn't have remembered.

"It's easy to get reimbursed, people are already here, waiting at the guest house!" The key problem is that if you don't nod your head, I can't let people go!"

"Someone has come?"

Ji Feng immediately asked, "Who is it?"

Xiang Yongzhan said, "It's from the Qihe City Bureau of Jibei Province, they came with an official letter, and their attitude is very low, saying that it's just a misunderstanding and they want me to let them go."

Ji Feng said, "How did they know which police officers were at your place?"

Xiang Yongzhan said, "This how I know, I haven't even met the Qihe Municipal Bureau yet, just had someone receive them Ji Feng, what are you going to do?"

It turns out that after the Qihe Municipal Bureau's people came looking for it, Xiang Yongzhan was avoiding it, just casually sending people to receive it, because this matter is not at all Xiang Yongzhan's matter, he just helped Ji Feng's favor by keeping an eye on people, that's all.

This matter is not good for Xiang Yongzhan to intervene, and there is no need for him to intervene, so this is why he took advantage of the reception of the people underneath to call Xiang Yongzhan in his office.

Ji Feng pondered for a moment, said: "This person is always so locked up is not a matter, but just let go, also can not, always have to come up with a statement, come up with a charter out to this way, old Xiang, you first Qihe City Bureau people blocked, do not see them first. "

Xiang Yongzhan said: "But the other side is with official documents, this matter can not be delayed too long, a few days is fine, but any longer"

Ji Feng said, "I understand, a few days is enough time."

He knew very well that although Xiang Yongzhan was the head of the special warfare brigade and could definitely be said to hold real power in the army, but the more this was the case, the more strict Xiang Yongzhan was in disciplining himself, basically trying not to violate the rules if he could, any person who could succeed had his own principles that he adhered to.

If those few policemen were all fake, it would be better to say that the military cooperates with the police in handling cases, but the problem is that those people are policemen, and it is not good for Xiang Yongzhan to imprison them for too long.

The fact that Xiang Yongzhan was able to help in this way was already very meaningful.

"So if the Qihe Municipal Bureau asks questions, what am I going to say?" Xiang Yongzhan asked.

"You can say whatever you want." Ji Feng said, "Or it's fine if you don't see them."

"You kid are really pushing two or six or five, putting everything on me." Xiang Yongzhan said, "No, you have to buy me a drink some day to do that."

Ji Feng laughed, "OK! No problem! I'm just afraid that you can't hold your liquor!"

Xiang Yongzhan suddenly snorted, "Bullshit!"

The two discussed the matter and hung up the phone.

And then, Ji Feng pondered for a moment and still dialed Li Ruonan's number.

"Ji Feng?" When the call was answered, Li Ruo Nan's tone seemed a bit down as she said, "Is there something wrong with calling me?"

"It's something, it's about those fake police officers" Ji Feng briefly said, saying, "I guess, Qihe City Bureau's people can't get anyone from the military, they must be going to your city bureau, are you preparing in advance a little?"

“Prepare for what?” Li Ruonan asked.

“Of course I’m ready for the Qihe Municipal Bureau to apologize to you!” Ji Feng said, “They made you so angry before, how can we not pinch and hold them?”

“Not interested.” Li Ruonan said.

“.....”

Ji Feng was then a bit stunned, how come there was a feeling of a hot face on a cold ass?

He knew that Li Ruonan, this girl had anger in her heart, so she didn’t say anything more, just said, “People must definitely be released, but what should be done must still be done, they must be made to apologize, they can’t be accustomed to this problem, otherwise in the future, they won’t just casually arrest people across the province?”

Li Ruonan said, “I know. Do you have anything else?”

“.....”

Ji Feng then choked for a moment and said, “It’s fine.”

Li Ruonan said, “Then I’m hanging up, I’m tired after a busy day.”

Ji Feng said, “Then rest early.”

Pop!

The phone was hung up, and all that was left in the receiver was a beeping busy tone, causing Ji Feng to be a bit dazed for a while, looking at the phone in silence.

Seeing this, Xiao Yuxuan couldn’t help but ask, “What’s wrong?”

Ji Feng shook his head and smiled, saying, “Nothing, Li Ruonan is probably angry with me.”

Xiao Yuxuan’s charming and beautiful eyes then gave him a meaningful glance and said, “What, did you provoke someone again?”

Ji Feng shook his head and laughed, “Where are you thinking!”

In his heart, he was thinking that he hadn’t provoked her, perhaps because he hadn’t provoked her?

Xiao Yuxuan was a bit unconvinced and just looked at him with a smile, so Ji Feng laughed bitterly, “I really didn’t provoke her, there just might be some small misunderstanding.”

Xiao Yuxuan said, “I didn’t say anything, why are you so eager to explain? Does this count as a weak heart?”

Ji Feng laughed bitterly, “Then I’d better not explain.”

Xiao Yuxuan said, “In that case, you acquiesce?”

“.....”

Ji Feng’s forehead then couldn’t help but sprout a few black lines.

Xiao Yuxuan then laughed happily, “Giggle little rascal, you look so funny!”

Ji Feng just simply ignored her, this demon spirit!

.....

“Hypocritical!”

Li Ruonan threw her phone next to the computer on her desk, couldn't help but hum, then looked at her phone again and said, “Really think this girl is that scarce for their apologies! You know how to make others apologize, but you don't know how to apologize yourself!”

After a while, not knowing what came to mind, Li Ruonan's pretty face couldn't help but show a glum look.

With a soft sigh, Li Ruonan took out another dossier from the drawer, her eyes showing a kind of determination, as if she had made up her mind of some sort.

A moment later, she took out a book of letterhead and wrote down two words solemnly at the beginning – Application.

“Knock, knock, knock!”

At that moment, there was a knock on the office door.

Li Ruonan said, “Please come in.”

The door to the room was pushed open, only to see a young man in uniform probe in and say with a smile, “Captain, someone is looking for you.”

Li Ruonan was slightly stunned and asked, “Who is it?”

“Ruo Nan.”

A voice suddenly rang out, followed by a very well-dressed young man walking in, this man was probably around thirty years old, with a faint smile on his face as he said, “It's so late and you're still working late? Looks like Auntie was right, you're really a workaholic!”

“Jianyuan?”

Seeing this man, Li Ruonan couldn't help but be slightly stunned, a stunned look appearing on her face, “Why are you here? No, I mean, why are you here, didn't you leave the country?”

The man known as Jianyuan had a smile on his face as he nodded, “That's right, I did leave the country, but now I'm back again.”

Only then did Li Ruonan remember what he had just said and asked, “You've been to my home?”

Jian Yuan nodded and said, “Yes, after I came back to China, the first thing I wanted to do was to see you, but I didn't expect that your mobile phone number was no longer available, and I didn't have any other contact information for you, so I went to your home to look for you, and I also happened to pay a visit to my aunts and uncles.”

Li Ruonan's face was slightly unnatural as she said, "I changed my number we are police officers, sometimes it is necessary for work, so"

Jian Yuan smiled and nodded, saying, "You don't need to explain, I understand it all. However, there is one thing that I do have to say to you."

Li Ruonan then became more or less unnatural and said, "Jian Yuan, I know that what happened before was my fault, but"

However, before Li Ruonan could even finish her words, she was interrupted by Jianyuan.
