“Ji Shao, you” Bai Zhu was in a hurry to block, Ji Feng’s wound was still bleeding, even through his clothes you could see blood flowing from his wound.

“Keep an eye on Han Yang, I will personally” kill him later!” Ji Feng said coldly.

The next moment, without waiting for Bai Zhu to speak again, he suddenly rushed out and

“Boom!”

As soon as Ji Feng rushed off, the sound of gunfire from the opposite side rang out again, but Ji Feng pushed the bio-current to the limit, and his six senses were also raised to the limit, hardening to avoid the danger and reaching Zhang Lei in front of him in the blink of an eye.

Ji Feng did not pause in the slightest and picked Zhang Lei up without saying a word, but this time he did not return the way he came, instead he leapt, slid over the roof of the car and landed firmly behind the commercial vehicle.

“Lei Zi” Lei Zi”

Ji Feng’s voice was trembling, and when he tore open Zhang Lei’s clothes, his hands were shivering, and Zhang Lei’s chest was already a fresh blood blur.

As soon as Ji Feng wiped the blood off, he immediately saw that there was a bullet hole in Zhang Lei’s chest, however, it was not in the heart area.

This discovery gave Ji Feng instantly renewed hope, and he said sharply, “Bai Zhu, special, special effect current!”

Bai Zhu had also been ready for a long time and hurriedly fed Zhang Lei the special effect current.

“Cough” cough”,” Zhang Lei perhaps because he was fed too quickly, Zhang Lei could not help but cough a few times.

However, these few coughs sounded like heavenly music in Ji Feng’s ears, and he shook Zhang Lei a few times vigorously, “Lei Zi, Lei Zi!”

Zhang Lei said with difficulty, “Fuck! If you shake me again, I’m really going to meet the King of Hell!”

“..... grass!”

Ji Feng couldn’t help but burst out a foul mouth, and then vigorously slapped Zhang Lei’s face a few times, “It’s good that it’s okay! It’s fine” just fine!”

This moment, Ji Feng, however, was as long as experiencing a century, especially after that big ups and downs, it was as if all his strength had been drained away!

“Who fired the gun! Ah! Who shot him?”

At the same time, the policemen in the distance were also stunned, especially the policeman at the head of the group, who was so anxious that he jumped to his feet, “Who told you to shoot?”

But no one admitted it.

The policeman in charge shouted, "Quick! Quickly go over and see how young Han is doing!"

A large number of riot police started to rush in quickly.

And at this time, Qu Feng was also horrified, he was just about to go forward, but was stopped by Commissar Liu with his men, Qu Feng roared, "Liu, get out of the way, or I'll shoot you!"

"Do you want to rebel?!" Political Commissar Liu bellowed.

"You are the one who wants to rebel!" Qu Feng roared, he reached out and pulled out his gun and pointed it at Political Commissar Liu, "Surnamed Liu, get out of the way or I'll shoot you right now!"

"Ka ka ka~~!"

In a flash, the warriors on both sides confronted each other once more, and Political Commissar Liu also drew his gun and pointed it at Qu Feng, hardening his grip.

Qu Feng was furious to the extreme, but could not do anything hard, otherwise a firefight would follow, a consequence he could not afford, nor could he stand by and watch his brothers die in such a firefight.

In this moment of time, the riot police had already rushed to the front of the commercial vehicle.

"There, someone has fired a cold shot,," Zhang Lei gritted his teeth and said with difficulty, "Crazy, be careful."

"I know!" Ji Feng nodded heavily and said, "Brother, what you should do has been done, next it's my turn, rest at ease!"

"Take this on!" Zhang Lei's hand was trembling as he handed Ji Feng a pistol.

"No need!"

Ji Feng said, "I'll make them pay, ten times a hundred times more!"

After saying that, he turned his head to Bai Zhu and said, "Keep an eye on them!"

Bai Zhu nodded, "Young Ji, be careful."

Without saying anything, Ji Feng's legs suddenly erupted with a terrifying force as he suddenly charged and rushed away.

In the next moment, he appeared in front of those riot police officers, and before those officers could react, his fist, carrying an incomparably terrifying power, had viciously smashed over.

"Boom!"

The shield that the riot policeman was holding, which was hard to pierce even with an ordinary pistol, was unexpectedly smashed hard by Ji Feng, whose fist, with undiminished might, smashed into the policeman's helmet without any reservation.

There was a thud!

The policeman was instantly smashed to the ground, his body twitched a few times and he didn't move.

A single punch that stunned the entire scene!

Ji Feng stood there, his voice cold to the core: "Today, none of you will get away!"

The moment the words fell, Ji Feng was like a fierce tiger charging into a herd of sheep and began his mad rampage.

Ji Feng's fists, knees, elbows and kicks all became the sharpest weapons, even though he was already injured at this moment, but with his full power of bio-current, it was still so severe that it made people's scalps tingle!

Those riot police were so shocked that they hurriedly formed a circle and used their shields to squeeze into the middle at the same time, trying to use this tactic to squeeze Ji Feng to death in the middle, unable to move.

However, Ji Feng, who had fully activated the bio-current, was unstoppable as he snatched the shield from the hand of a policeman and swung it up and smashed it fiercely.

At the same time, every punch Ji Feng threw contained a strong bio-current, so how could those policemen resist?

There were dozens of riot police, chaotic under Ji Feng's rampage, screams of misery were heard, but no one could stop Ji Feng!

"Crunch!"

One of them had his calf bone broken by Ji Feng's kick, but Ji Feng's fist smashed directly on the face of another person, the tempered plastic on that helmet didn't even have the ability to block it for a while, it was smashed directly by Ji Feng, that person's nose was instantly broken and the whole person passed out.

This scene kept happening, Ji Feng was rampaging madly, rampaging, almost one move at a time, only some unlucky ones would be greeted by him a second time, but the result was definitely not pleasant.

Five minutes!

Absolutely no more than five minutes!

All the riot police present, none of them could still stand, all of them were lying on the ground, either moaning in pain or having lost consciousness and passed out long ago!

Ji Feng staged a wanton and ferocious massacre here that made everyone's scalp tingle with shock, although, he did not hit any of them on the vital parts, but whether it was those soldiers present or the few policemen at the head, this was the thought in everyone's mind.

A massacre!

A rampage like a tiger entering a flock of sheep!

Ji Feng's gaze, once again, fell on those few police leaders in the distance, his eyes incomparably cold.

Those few policemen had already been dumbfounded, and when they saw Ji Feng looking over, they instantly gave a jolt and drew their guns to be on guard.

However, Ji Feng did not immediately go to them, but instead looked down at the ground.

He grabbed a riot policeman who had long since been beaten unconscious, looked at him, then casually threw him away, grabbed another one, and threw it away again

“Hmm?”

Just then, a strong danger suddenly surged into Ji Feng’s heart, and in an instant his body surged, before rolling on the ground.

“Boom!”

A gunshot suddenly rang out, but among the group of fallen riot police, there was a man lying diagonally on the ground and was shooting at Ji Feng.

Swish!

Ji Feng’s body changed direction strangely on the ground and suddenly rushed to that person, snapped the wrist of that person with a fierce force.

“Crunch!”

The man’s wrist was broken by Ji Feng!

At once, the man let out a stifled cry and his whole body shook.

Ji Feng said coldly, “It’s you! Say, why do you want to kill me!”

The man, however, gritted his teeth and said in a hateful voice: “You dare to do this to young Han and torture him into that state, I will kill you”

The killing chicken flashed in Ji Feng’s eyes as he snapped the man’s neck and lifted him up, saying coldly, “Since you want to help your Young Han out so much, then go to hell with him first!”

After saying that, Ji Feng flicked his wrist.

“Ka-ching!” A sound. The man’s neck was snapped raw by Ji Feng Must Kill!

“.....”

In this instant, the man’s eyes were wide open, as if he couldn’t believe that Ji Feng was so arrogant and daring that he would kill him in full view of all eyes!

Not only did he not expect it, but everyone didn’t expect Ji Feng to be so ruthless and crazy!

The few policemen at the head were even more stunned and pointed their guns at Ji Feng, even though they were still far away at the moment, their hands were all trembling a little.

Ji Feng casually took two steps forward with that riot police officer’s corpse, and those few policemen subconsciously took two steps backwards, but they immediately realized that they were humiliated like this, and just wanted to move forward, when they suddenly saw a black shadow flying over before.

“Boom!”

A shield smashed directly on the policeman in the lead, instantly knocking him to the ground.

At this time, Ji Feng’s figure was simply like a ghost, in just a few breaths, he had already rushed to them and kicked the remaining two policemen to the ground, one by one.

“Stop!”

Just then, Commissar Liu suddenly shouted, “Stop immediately, or I’ll shoot!”

Ji Feng slowly raised his head and stared at Commissar Liu, asking coldly, “Do you want to die?!”

“Unbridled!”

Political Commissar Liu said angrily, “You dare to talk to me like that?!”

He waved his hand, and several soldiers instantly aimed their guns at Ji Feng.

“How dare you, surnamed Liu!” Qu Feng roared, “If you dare to touch a hair on Ji Shao’s head, I’ll shoot you on the spot!”

“Humph!”

Commissar Liu, however, snorted coldly and shouted, “You! Raise your hands and surrender immediately, or be shot on the spot!”

Ji Feng stared at him coldly, and instead of raising his hands, he walked towards him step by step.

Political commissar Liu suddenly tensed up, he shouted, “Stop, one more step forward and I’ll shoot, raise your hands and squat on the ground”

Ji Feng is as if he did not hear, in the twinkling of an eye is only five or six meters away from Political Commissar Liu, the latter suddenly tense, nerves are tense, shouted: “immediately”

Hoo~!

The first time I saw this, I saw Ji Feng suddenly bully his way to the front, he was shocked, how could he have thought that Ji Feng’s speed would be so fast, this is like a ghost!

Before Political Commissar Liu had time to react, he was grabbed by Ji Feng’s neck, and the two of them were standing face to face

A cold feeling instantly spread throughout the body of Political Commissar Liu!

Campus Master Chapter 2442

“You you”

Liu political commissar looked at Ji Feng, before he could finish a sentence, he was frightened by Ji Feng’s ice-cold eyes and a chill instantly spread through his body, “What do you want?!”

And at the same time, those warriors brought by Political Commissar Liu turned their guns towards Ji Feng at the same time and shouted, “Stop!”

“Let go of Political Commissar Liu!”

“Young Ji!”

Qu Feng was also startled, just now Ji Feng’s terrifying hands were too amazing, especially when Ji Feng broke the riot police officer’s neck directly without hesitation, it was as simple as killing a chicken and butchering a dog, yet so severe that Qu Feng couldn’t help but be shocked.

He was afraid that Ji Feng would break Political Commissar Liu’s neck as well in a fit of rage!

In fact, it was Political Commissar Liu who was most afraid, he had seen all of Ji Feng’s actions just now, and it was the hand that was choking him that snapped a policeman’s neck.

If his own neck

A bone-chilling chill spread through Liu’s limbs, and the kind of fear that was so intense that he couldn’t help but get goose bumps on Liu’s body.

Facing those guns pointing at him, Ji Feng’s expression was ice-cold as he stared at Political Commissar Liu and said coldly, “It seems you want me to die very much?”

Political commissar Liu swallowed his saliva with difficulty, even though he could feel that the strength of Ji Feng’s hand around his neck was not too great, but that fear that came from his heart could not be suppressed.

“You

“Pop!”

As soon as Political Commissar Liu opened his mouth, Ji Feng flung his hand and slapped him across the face. That loud slap immediately knocked Political Commissar Liu dumbfounded.

Half of his face was numb from the blow, but Political Commissar Liu was surprisingly irritated and even had a kind of fear from the bottom of his heart.

“You, you dare to hit me?!” It was only after a while that Political Commissar Liu could not help but say angrily.

“Slap!”

Another slap.

In front of so many soldiers, he, a political commissar, was slapped twice in a row, which was even more unbearable than killing him.

“Slap!”

“Slap!”

With so many guns pointing at him, Ji Feng was slapping Political Commissar Liu’s face one after another, and at this moment, that face of Political Commissar Liu had long since been swollen and covered with finger marks.

This scene caused everyone to be stunned.

Even Qu Feng could not help but be dumbfounded, although he was so relieved in his heart that he even wanted to shout twice, the behaviour of Political Commissar Liu just now was so abominable that it made Qu Feng hold back his anger, and now this slap after slap on Political Commissar Liu's face by Ji Feng was simply more relieving than anything else.

But Qu Feng still hurriedly persuaded: "Ji Shao, Ji Shao! You can't hit anymore, if you hit again you'll kill him!"

As he spoke, Qu Feng hurriedly went forward to persuade Ji Feng, lowering his voice and saying in Ji Feng's ear, "Young Ji, you can't fight anymore, or else something will happen!"

Even if Political Commissar Liu was at fault, he was a soldier after all, and a division-level political commissar. If Ji Feng slapped him to death here, not to mention what the soldiers brought by Political Commissar Liu would do to Ji Feng, it would be quite troublesome to deal with him later!

Ji Feng said in a cold voice: "Don't worry, he can't die!"

Ji Feng didn't want to beat Political Commissar Liu to death, so when he slapped him, he didn't use bio-current, otherwise, even if Political Commissar Liu's head was made of iron, it would definitely turn into a puddle of mush at this moment!

However, for this Liu political commissar's aiding and abetting, Ji Feng was extremely annoyed, this Liu political commissar was simply more detestable than those police officers!

"Well"

Political commissar Liu couldn't help but stifle a sound, coughed twice, and suddenly a mouthful of blood spat out from his mouth, with something in between that was his teeth being broken.

At this time, Commissar Liu's somewhat dazed head from the beating was finally slightly clearer, but that strong sense of humiliation immediately made him unable to hold back his frenzy, and he roared, "Shoot! Kill him for me!"

Qu Feng immediately shouted, "I'll see which of you dares!"

All the soldiers were a little hesitant, seeing Qu Feng's sullen face shouting, and then looking at Commissar Liu who was still in Ji Feng's hands, they hesitated for a moment.

"Kill me?!" At this time, Ji Feng's eyes however flashed with a murderous look, "Are you sure?"

"I"

"BOOM!"

A sudden gunshot interrupted Commissar Liu's words, and at once, he saw a convoy of cars speeding by, at the front of which were three police cars, followed by a large number of police officers.

Qu Feng was instantly anxious and said through clenched teeth, "Young Ji, I'll hold them off, you take the men and go first Leave the Liu to me, I promise he won't cause any trouble!"

Seeing that so many police officers had come again, Qu Feng was also anxious, he knew that if he was not careful today, Ji Feng was afraid that he would have to give an account here, even if he revealed his identity now, judging from the situation at the scene, Ji Feng would be in great trouble next.

However, Ji Feng shook his head, he had no intention of leaving after so many police officers had died in his hands today.

If he dared to do it, he had thought about the consequences!

..... In fact, the moment he saw Zhang Lei fall down from the gunshot, Ji Feng really hated it to the extreme, he even wanted to use himself as bait and mobilize all the power he could to exterminate everyone here, including this Liu political commissar.

Even if he had to break his own neck here, he would not hesitate!

But the fact that Zhang Lei didn't die was Ji Feng's biggest gain, so after venting his anger ruthlessly, Ji Feng's anger had subsided quite a bit.

And at this moment, he had to face this large number of aggressive police officers again!

"Young Ji, be careful na!" Bai Zhu shouted loudly. She had to take care of Zhang Lei in the back of the car, and even more so, she had to keep an eye on Han Yang, so she couldn't come out to help, and was very anxious in her heart.

"Don't worry!"

Ji Feng bellowed and said coldly, "Big deal, it's just a battle!"

Qu Feng gritted his teeth and said, "Young Ji, don't fight hard"

Ji Feng shook his head and didn't say anything.

Now it was not a question of whether he wanted to fight hard or not, but rather he had to fight, and he would never give in.

Besides, it was still unknown whether these policemen could leave him behind!

Since Ji Feng dared to do this, it wasn't that he didn't have any courage at all, he still had an unused card – the bio-current whip!

As long as these policemen dared to surround him, Ji Feng would definitely not be polite!

He gritted his teeth and was about to take out his mobile phone to report to his superiors, no matter what, he couldn't let anything happen to Ji Feng today, especially when he was already injured.

But before he could report, he suddenly heard a loud shout from not far away, "This is Fang Wei from the Black Province Police Department, everyone drop your weapons!"

Qu Feng was instantly startled, "Fang Wei? Young Ji, this Fang Wei is the deputy director of the Black Province Police Department, and is the number two man in the police department"

This was troublesome, Fang Wei had even brought his own team here, it seemed that this time they had to leave Ji Shao behind.

Qu Feng immediately shouted, "Brothers, lay these people's guns on me!"

He pointed at those warriors brought by Political Commissar Liu, "Put down your guns immediately!"

The warriors brought by Political Commissar Liu subconsciously retreated, with Political Commissar Liu falling into Ji Feng's hands, they had no backbone, and even more so, they had no one to give orders to, yet they didn't know what to do at this moment.

"Which one is Mr. Ji?!"

Suddenly, Fang Wei's voice came again in the distance, "You are being persecuted by lawless elements here, this is a dereliction of duty on the part of our police, please don't worry, our police are here to save you"

Qu Feng and Ji Feng were both stunned at the same time.

At this time, those police officers had already gathered around, led by a middle-aged man of about forty to fifty years old, wearing a police uniform, striding over and bellowing, "Arrest all these scum in the police force!"

At once, those police officers behind him pounced on him and were ready to arrest people, but the scene was such that everyone could not help but be shocked.

"....."

Even Fang Wei couldn't help but be stunned, the scene before him left him stunned beyond belief.

Where was there any scum that needed to be arrested here?

All of them were lying on the ground!

This was simply like the scene of a catastrophe!

Fang Wei's gaze couldn't help but fall on these warriors, hadn't he received news that Political Commissar Liu had brought people to help the city police to intercept Ji Feng and the others?

But how

"Director Fang, right?!" Ji Feng stared at him and said aloud, "I'm standing right here, if you want to arrest me, just come directly, no need to play so many tricks!"

"You are Mr. Ji?" Fang Wei asked.

"I'm Ji Feng!" Ji Feng said angrily.

Fang Wei immediately breathed a sigh of relief and said, "It's good that you're okay Mr. Ji, I was worried that I was late"

Qu Feng said, "Director Fang! Mr. Ji is a guest of our military district, no one can arrest him!"

When Fang Wei heard that, he couldn't help but say, "Arrest him? Of course not. It seems that you have misunderstood, I have received instructions from Secretary Luo of the Provincial Party Committee to

specifically come and arrest these scum hiding in the police force, and at the same time, to protect foreign investors!”

Ji Feng’s brow then furrowed and said, “What, and a change of tactics?”

Qu Feng said, “Director Fang has taken the trouble, but Mr. Ji is a guest of our military district, so we’ll just protect him.”

Seeing this, Fang Wei knew that they did not believe him, but no wonder, looking at the situation here, I was afraid that a rather serious conflict had already occurred here before his arrival, and I thought that these police officers were not playing an honourable role in it.

“A few of you still seem to have doubts, it doesn’t matter, Secretary Luo is on his way, he should be here soon, then you will all be clear.” Fang Wei said.

“Secretary Luo?”

Qu Feng was stunned and said, “Is it Secretary Luo of Ha City?”

Fang Wei said, “That’s right, and also the Provincial Party Committee’s Deputy Secretary Luo!”

Said Fang Wei, but did not talk to them again, since Ji Feng and others were wary, then naturally Fang Wei would not stimulate them again, just first ordered people to arrest all those policemen and gather the injured and uninjured ones together separately.

The problem with is that when those policemen went to carry out the task, they found that none of them were able to stand up!

Campus Master Chapter 2443

“Mr. Ji!”

When Luo Lin, the Municipal Party Secretary of Ha City, appeared on the scene, Ji Feng finally understood something, because during this period Qu Feng briefly introduced Luo Lin to him.

Luo Lin didn’t get along with Chen Youdao!

Or rather, Luo Lin had been subject to the constraints of the Chen family in Black Province.

Learning this news, Ji Feng understood why there was this talk of Fang Wei personally leading a team to catch ‘scum in the police force to protect foreign investors’.

Luo Lin, this was a way to confront the Chen family!

Ji Feng waved his hand and tossed Commissar Liu aside, stretched out his hand and shook Luo Lin’s.

“Mr. Ji, you’ve been wronged, this is our job not being done properly, we also need to ask for your understanding!” Luo Lin said sincerely.

“Secretary Luo has spoken highly of you!” Ji Feng said, “No matter where you are, there are black sheep! Luckily, Secretary Luo arrived with his men in time, so it was always a shock!”

When he saw the blood on Ji Feng’s chest, he was stunned, “Mr. Ji, you’re injured?”

Ji Feng said, "A little bit of injury."

Luo Lin immediately said, "Someone, hurry up and take Mr. Ji to the hospital"

Ji Feng said, "I can just go there by myself, I have a car over there, I also have a friend who is also seriously injured, it is more appropriate to go to the military hospital."

Luo Lin also did not insist and nodded, "Well! In terms of surgery, the military hospital's technology is relatively stronger, so it's not too late, Director Fang, hurry up and arrange for someone to send Mr. Ji and the others over."

Ji Feng did not excuse himself any further, but turned around and walked towards the commercial vehicle.

At this time, Political Commissar Liu, however, shouted out, "Secretary Luo! How can you this man is a murderer, how can you still be so polite to him!"

Luo Lin's face sank abruptly and he said in a cold voice, "Political commissar Liu, as the leader of the military district, why are you leading people to help the enemy?! Do you have any connection with those scum in the police force?"

Political Commissar Liu was stunned, "What?"

"About this matter, the provincial committee will definitely ask the military district for a statement!" Luo Lin finished, snorted coldly, turned around and left.

"This"

Political Commissar Liu was then confused.

Although his rank was not as high as Luo Lin's, but if he ran into him occasionally before, Luo Lin would also be polite to him, how did Political Commissar Liu feel that his brain was somewhat inadequate today.

Seeing Luo Lin's back, Liu political commissar heart extraordinarily annoyed, Luo Lin is the secretary of the municipal party committee, deputy secretary of the provincial party committee is not false, but he will not have any place in the future work need to rely on the troops?

But Qu Feng gave a mocking smile and said: "Political commissar Liu, still haven't understood the situation, huh? Do you know why Secretary Luo is so polite to young Ji?"

Speaking here, he suddenly lowered his voice and said, "I forgot to tell you that young Ji is the son of the Ji family in Yanjing, and I heard that he is the son of Minister Ji Zhenhua!"

Political Commissar Liu was stunned, seemingly not reacting for a moment.

Qu Feng said, "Still don't know? Let's put it this way, General Ji Zhenping, the brigade leader of the Red Arrow Brigade, is Younger Brother Ji's younger uncle!"

Boom~!

Qu Feng's voice was not loud, but it was like a thunderbolt on a flat ground, exploding in Commissar Liu's ears, shaking his scalp and making his head buzz, and he was confused.

General Ji Zhenping!

The Ji family!

Political Commissar Liu's body stiffened and he froze in place.

He was a soldier and had been in the army for a long time, so when he first heard about the Ji family, he didn't react for a while, but when Qu Feng said the Red Arrow Brigade, Political Commissar Liu understood instantly.

If you want to talk about which are the most mysterious and top special forces in the country, the Red Arrow Brigade is definitely the first one, even the Special Warfare Brigade, which was established later, can't be compared with the Red Arrow Brigade!

The Red Arrow Brigade was so famous, and some of their achievements were spread throughout the army, including a 15-day battle to the death with the special forces of the San San country on the border, and finally wiped out the other side, and then the Red Arrow Brigade crossed China and entered the 100,000 mountains in the southwest, and fought with the Vietcong soldiers who came deep into the country, and it is said that the Red Arrow Brigade only deployed ten men, but slaughtered over a hundred people!

All these achievements are really thunderous!

Therefore, there was no one in the regular army, especially in the regular field army, who did not want to join the Red Arrow Brigade.

As a leader in the army, Political Commissar Liu naturally knew more than other soldiers, and also knew what the Red Arrow Brigade's leader, Ji Zhenping, was all about.

But he never expected that Ji Feng was a member of the Ji family!

Moreover, he was also Ji Zhenping's own nephew, Minister Ji Zhenhua's son!

Commissar Liu seemed to have been drained of all his strength, and his whole body sat down on the ground, his eyes blackened.

It was over!

Seeing the wretched appearance of Political Commissar Liu, Qu Feng couldn't help but sneer, let you be so arrogant just now, fortunately Ji Feng was only injured and didn't have too much of a problem, otherwise hum!

Political commissar Liu was in such a mess that he sat down on the ground, and the soldiers who followed him looked at each other, not knowing what to do.

And this wretchedness of his is unnoticed and no one will pay attention to him anymore!

"Hall, director"

A policeman swallowed hard.

Fang Wei frowned: "What's wrong? How come they're not dealt with yet?! These scum, those who should be arrested, those who should be sent to hospital"

The policeman's face still carried an unconcealed shock: "No, there's no need to arrest them, they should all be sent to the hospital, or the morgue!"

"What?!" Fang Wei was stunned.

"Director, you'd better take a look!" The policeman said with difficulty, "..... There are many dead people!"

"Go!"

Fang Wei was instantly shocked and hurried over to take a look, however when he arrived at the scene and took a look, he couldn't help but feel his scalp tingling.

The police officers who had been beaten to the ground were being carried to the car, and among them, those who could let out moans of pain were very few, the rest, surprisingly, did not move at all!

Fang Wei hurriedly took two steps forward and touched the neck of a policeman, only to find, to his dismay, that the man had no pulse at all.

"Hmm?!"

Fang Wei thought that the man's pulse was too weak because he was injured, and as soon as his hand exerted pressure, he suddenly felt a loosening in his hand, only to see the man's head dropping straight down.

His cervical vertebrae were broken!

Fang Wei hurriedly turned to look at the others, and he was shocked beyond belief to find that this was simply everywhere.

Then he looked at the shattered shield, the truncheons and electric batons scattered all over the place, and the corpse that was no longer moving

"Hall, director, I just asked around and two of the guys who were slightly less injured explained that it was that young man alone who did all this! This was even with these riot police surrounding him, and he was beaten with his bare hands!"

When that policeman said this, his heart still couldn't help but jump wildly a few times, simply horrified to the extreme, "Moreover, I'm afraid it didn't even take long before and after!"

Fang Wei was instantly shocked and exclaimed, "What?! One, one person did this? With bare hands and empty fists?!"

The policeman nodded his head.

Fang Wei immediately rebuked angrily, "Nonsense! I'm afraid these scum are being instructed by someone to frame others! You've been following me for quite some time, and you believe such ridiculous things?!"

"Director, I couldn't believe it at first either, so I secretly asked another soldier who was"

The policeman hesitantly said, "But it was also confirmed from their mouths that it was true! It was that young man who did all this! Look, director, this shield was obviously smashed raw, look at that man, he still has footprints on his trousers, his knee was broken alive by someone kicking him with his foot!"

At this point, the policeman's face showed a look of utter astonishment, even though he had gradually come to terms with this information, now that he was speaking for himself, there was still a kind of shock that he could not erase.

It was unbelievable!

It was even harder for Fang Wei to believe all that his subordinate had said, but he had also climbed up step by step from the grassroots and naturally had no shortage of experience in handling cases, so when he squatted on the ground and carefully observed the traces around him, as well as the injuries on those who had been injured, the traces he came to a shocked conclusion.

What the ministry just said is true!

All the signs at the scene indicated that this riot police shield had indeed been broken raw, and although it was unknown if it was by a fist, the footprints on those people, as well as their broken bones, and the fist marks on the neck where the cervical vertebrae had been broken, all indicated that this was indeed true!

In this instant, such an image came to Fang Wei's mind – before he came, a large number of policemen besieged Ji Feng, and in the heat of the moment, Ji Feng rose up to fight back, but beat all the policemen to a rout!

..... Hoo!

Fang Wei stood up sharply and subconsciously glanced towards Ji Feng's back, but he clearly remembered that Ji Feng had received a gunshot wound!

If

Ji Feng was wounded and still caused such great damage, to have beaten a full dozens of riot police into this state, this is really incredible!

No!

It's not a fight like this, it's a massacre!

And, it was a one-sided massacre!

Forgive Fang Wei for handling cases for many years, no matter what kind of vicious criminals he has come into contact with, even some tragic murder scenes, or some unbelievable crime scenarios, he has been involved, but at this moment, he still had a chill from his bones spreading rapidly!

“This man

Fang Wei opened his mouth, but could not find any suitable words to express the stirring emotions he was feeling at the moment, in the end he could only wave his hand and said, “Follow the procedures to deal with the scene first, we can talk about the rest later.”

The subordinate nodded, “Yes!”

Fang Wei took a deep breath, and when he looked at Ji Feng’s back again, his gaze became a little strange, yet at that moment, he saw Ji Feng suddenly stop.

And then, he saw Ji Feng abruptly turn around.

“Boom!”

A gunshot sounded.

Fang Wei was immediately shocked, but before he could react, he saw that Ji Feng had already rolled on the ground and picked up a shield from somewhere to block his body, with a little spark coming out of it.

The shield in his hand was thrown out in one direction, as fast as a shooting star!

Campus Master Chapter 2444

“Bang~!”

Without anyone reacting, the shield suddenly smashed into the back corner of a military truck’s carriage, and the huge impact made a loud bang.

The next moment, a man suddenly rushed out from behind the truck and jumped into a car to escape.

Fang Wei just wanted to shout to catch him, but suddenly found that Ji Feng, who was still far away on the other side of him, was already but a dozen meters away from the car.

“This speed” Fang Wei was shocked.

“Boom!”

The man who was trying to escape noticed that Ji Feng was catching up and suddenly poked out of the car window and fired in Ji Feng’s direction

That was a sniper rifle!

Fang Wei immediately recognized the weapon in the man’s hand, and he was instantly shocked, if this bullet hit a person’s body, it could instantly penetrate the person’s body, or even if the bullet was specially made, it would not penetrate the human body, but explode inside the person’s body.

The person who was hit would definitely die!

Fang Wei was subconsciously about to draw his gun and shoot, but just then, he saw an image that would be hard to forget in this lifetime.

It was as if a plane flying at great speed had suddenly stopped in the air, and the movement and stillness were so extreme that people watching it could not help but feel dizzy.

In a flash of lightning, Ji Feng suddenly changed direction, and in this instant, his body was like a spiritual snake swimming at great speed, sticking to the ground in an S-shaped route, heading towards his opponent ****.

Weird! Changeable! Inscrutable!

These words instantly flashed through Fang Wei's mind, but none of them were enough to describe Ji Feng's extreme speed and weirdness at this moment.

"Whew~!"

When he was still three or four meters away from the car, Ji Feng suddenly rose up, put his feet together, and his whole body was like a fired cannonball, crashing into the door of the car.

"Clang!" A sound.

Even from a distance, Fang Wei could see that the man in the car hadn't had time to withdraw his hand before he was squeezed by the suddenly deformed door, and the tremendous impact had directly broken his wrist, instantly pushing out the white bones!

As for the sniper rifle, it was also directly squeezed out of shape!

"....."

"Whew~!"

Ji Feng's series of movements were so fast that one could barely breathe, ruthless, and so severe that it exceeded everyone's imagination!

It was only when Ji Feng landed steadily on the side of the car and reached out to yank the man out, that Fang Wei couldn't help but let out a long breath of foul air, from the sound of the gunshots until now, he was so nervous that he had forgotten to breathe!

Not only Fang Wei, but everyone at the scene was stunned by Ji Feng's stunning series of actions, and even the threat of the gunman was subconsciously ignored.

Even though they had already seen with their own eyes the terrifying strength of Ji Feng, the power of his bare hands that had routed dozens of riot police officers, they were still shocked by this series of actions of Ji Feng!

As for Political Commissar Liu, he was already dumbfounded!

He only felt the chills rising from his neck, which had been pinched by Ji Feng, and his mind went blank!

"Go!"

"Arrest the man!"

Fang Wei and Qu Feng shouted at the same time!

At this moment, Ji Feng was the one who yanked the guy out of the car and sneered, "You finally showed up, I've been waiting for you for a long time! You're the one who shot the bullets on me and my brother, right?!"

This man was also a policeman, and looking at the clothes he was wearing he was still a riot policeman, obviously this man had also come with those riot policemen before, only this man had been hiding behind the military vehicle, not rushing up with the other policemen, but hiding behind and firing cold shots!

Ji Feng stared coldly, with a murderous look in his eyes!

The gunmen, there were two of them!

The one whose neck he had broken was only a front, I'm afraid, the one who was really responsible for the sniping was this guy!

The riot police officer's arm was squeezed raw and the bones were knocked out, he was already in a cold sweat of pain, but he didn't say a word, as if he didn't hear Ji Feng's question.

"Very good!"

Ji Feng sneered and didn't say much nonsense, carried and walked a few steps, flung his hand and threw it in front of Qu Feng, saying, "Big brother Qu, this person will be handed over to you first, as long as you don't let him die, whatever you want!"

Qu Feng nodded his head and said, "No problem!"

Ji Feng said, "No need to interrogate him first, just lock him up, in addition, prevent him from committing suicide!"

This man brought a sniper rifle to snipe Ji Feng, I'm afraid I wouldn't believe it if he wasn't instructed by someone, but how come Ji Feng didn't let him be interrogated?

Ji Feng didn't explain too much, now he didn't have time to explain so much to Qu Feng, nor did he have much time to exchange pleasantries with Luo Lin or Fang Wei, Zhang Lei was seriously injured and had to be treated as soon as possible.

"Director Fang!" Ji Feng came in front of Fang Wei and said, "I'll leave things here to you first, I'll be at the hospital, if you have any problems, you can come directly to me!"

"..... No problem!" Only then did Fang Wei come back to his senses, and he couldn't help but look at Ji Feng with a shocked look in his eyes.

He even doubted that if he was here to deal with Ji Feng at this moment, even if it was with Ji Feng injured, just with the kind of terrifying strength that Ji Feng had just shown, which was almost inhuman, could he keep Ji Feng?

Of course, Fang Wei was not here to deal with Ji Feng, so he was very cooperative in sending someone to escort Ji Feng and the others to the car, which was then taken over by Qu Feng and headed straight to the military hospital.

When it comes to surgical procedures, the military hospital is still more competent and it is also safer there. Ji Feng himself can take risks, but he cannot joke about the safety of Zhang Lei and Bai Zhu's lives.

However, before Qu Feng left, he coldly glanced at Political Commissar Liu, who was arrogant enough to press him with his official position, but his face was pale and he was sitting on the ground like a puddle of mud.

“Bring Han Yang with you!” Ji Feng suddenly said in a deep voice again.

He had said that he would kill Han Yang with his own hands!

With a roar of engines gradually going away, this conflict full of killing and bloodshed finally came to an end, but whether it was Luo Lin or Fang Wei, they couldn't help but feel their scalps tingling when they looked at the scene in front of them, especially when they thought about Ji Feng's terrifying body hand just now, they were speechless for a moment.

“Take the injured ones to the hospital, and the bodies to the morgue first!” Fang Wei rubbed his eyebrows, this time it was really troublesome, how could he have not expected that so many police officers would actually die at the scene, such a big fiasco, how should he deal with it?

Did he have to explain to the families of the police officers that they were all bad people who helped to kill them?

That would not be acceptable to the outside world.

Although, it was true that these policemen were suspected of being enablers of evil today, and some of them even tried to take advantage of the opportunity to snipe Ji Feng, but to be strictly speaking, they were more or less deluded.

It was all because of those damned bastards!

Fang Wei turned his gaze to the few leaders of the Municipal Bureau and bellowed angrily, “Watch all of these few scum for me!”

The handlers asked, “Director, they are also injured, should they be sent to the hospital as well?”

Fang Wei asked in a cold voice, “Are they badly injured?”

The underling said, “It's not too serious, just traumatic injuries, I've had a look, two of them have broken ribs and sternum, and arms and legs”

“Since it's not too serious, don't send them to the hospital yet!” Fang Wei said, “Hospital beds are also very tight now, these scum can just be brought back and let the doctors in the hall take a look at them, so don't take up social resources!”

“.....”

The handlers could not help but be stunned, this subtext of Director Fang, does it not mean that these leaders of the municipal bureau are not even qualified to go to the hospital?

Naturally, he didn't know that at this moment, Fang Wei even had the heart to kill these bastards.

They were really good at it!

As the leader of the Municipal Bureau, they didn't even consult Secretary Luo for such a big operation, but went to follow the orders of the Chen family and Vice Governor Chen instead, didn't he know that in the provincial ranking, Secretary Luo was even further ahead than Chen Youdao?

What did they take Luo Lin for?

What's more, these bastards dared to intercept Ji Feng and the military sub-district in the street, so much so that they had only caused such a big fuss, they should simply be shot all of them!

"Secretary Luo!" Fang Wei came to Luo Lin and asked, "Things over here have basically been dealt with almost, you see"

"Yeah, it's all pretty much taken care of!" Luo Lin nodded and couldn't help but lament, "I originally thought I was coming here to save the day, but I didn't expect that I was actually here to clean up the battlefield!"

Fang Wei immediately felt the same way: "Who would have thought that Ji Feng's hands would be so terrifying!"

Luo Lin also felt incredulous, he suddenly turned his head and asked, "Director Fang, I heard that you had caught a lot of Jiang Yang thieves before, and there were some experts among them, have you ever seen such a powerful person?"

Fang Wei shook his head and smiled bitterly, "No. Frankly speaking, I have seen martial arts masters, and they are indeed very strong, but they are not that outrageous. If there really was someone that powerful in the past, I'm afraid we wouldn't be able to deal with it, unless we used the army and heavy weapons like we did with the Great and Small King back then."

Luo Lin nodded slowly and said, "Yeah, I really didn't expect"

Fang Wei then couldn't help but be astonished, it seemed that Secretary Luo was also very surprised, the shock this Ji Feng brought them was really a bit big.

"Secretary Luo, then next we"

"How to deal with it, just go according to the process." Luo Lin said in a deep voice, "It's not us who should have a headache, it's some people!"

"Understood!"

Fang Wei then understood, this time the Chen family had raised such a large number of people, put up such a big front to deal with Ji Feng, and even almost took his life, how could the Ji family rest in peace?

Anyone else would have been extraordinarily annoyed to learn that their child was being bullied like that outside!

They just had to do their own thing, and this Chen family, since then, would be in trouble!

Fang Wei couldn't help but turn his head to look at the police officers being carried in the car, but he couldn't help but be a bit shocked, thinking, "I don't know how much of a shock this will cause when word gets out about what happened here!"

Campus Master Chapter 2445

“Sh, what?!”

When the great battle came to an end, Chen Youdao received the news at the first opportunity.

And when he found out the result, in a flash, the blood on his face faded away to a ghastly white!

Ji Feng had killed out!

Nonetheless, he even killed a large number of police officers, while there were also people who wanted Ji Feng’s life, but they were likewise caught by Ji Feng, and, Luo Lin also arrived at the scene, those forces belonging to the Chen family were almost swept away, and Fang Wei gave an order to arrest them all.

To be precise, all those who were still alive were captured!

This news instantly made Chen Youdao’s whole body tingle with shock, his mind went blank, he opened his mouth wide, he couldn’t breathe for a while, and even more, he didn’t make a sound at all!

“..... Little, how about Xiao Yang?” It was a while before Chen Youdao came back to his senses, and he hurriedly asked.

“Governor, how exactly is Han Xiao is not yet known, but I heard that he was finally taken away by Ji Feng and the soldier, and someone saw his legs drooping, I’m afraid both legs have been broken, but whether there is any danger to life is not yet known”

“..... Boom!”

What exactly was said on the phone, Chen Youdao could no longer hear clearly, when he heard that Han Yang’s two legs were broken and he was also taken away by Ji Feng, his head buzzed and his whole person froze at that moment.

When Han Yang was taken away, it was the same as saying that the biggest leverage was taken by Ji Feng!

The reason why Chen Youdao had to send someone to intercept Ji Feng at any cost and even at the risk of completely offending the Ji family was to save Han Yang, as long as he was alright, then everything was fine, the big deal was to let the old man step in and pay some price, or simply send Han Yang out of the country, so that he would not come back within as many years.

But now, Han Yang was caught by Ji Feng and taken away.

This meant that his operation was a complete failure, and he had offended Ji Feng and the Ji family to death.

Immediately, Chen Youdao realised that the Chen family was in big trouble!

He stood up sharply and shouted, “Someone, prepare the car! Prepare the carriage quickly!”

Chen Youdao had to tell the old man the news, he had to think of a countermeasure as soon as possible, otherwise, God knows what kind of reprisals awaited the Chen family next!

.....

Fang Wei's prediction was good!

News of this battle spread out at the fastest speed.

The more the news spreads, the faster it will spread.

Fang Wei even hinted to his subordinates that they could go out and tell the 'truth'.

For example, those police officers were instructed by certain people to stop and round up Ji Feng, and the premise was that because the Tengfei Group was being persecuted, Ji Feng was forced to fight back, and as a result, it caused certain people to kill him.

So, as if the news had grown wings, it quickly spread throughout the entire city of Ha.

Shock!

A shock that came from the bones!

This was the first reaction of all those who knew the news!

Especially when Ji Feng and Zhang Lei fought side by side, facing dozens of police officers, they fought back bravely and swept everything away with the most fierce posture, which made all those who heard the news couldn't help but be shocked and their blood boil!

They couldn't bear to be there to see the shocking scene themselves!

And some powerful people in Black Province, of course, received the news before others, and their shock was even more unparalleled.

"Ji Feng would actually use this method to break the game?!" Yao Jinlong likewise received the news and was also stunned beyond measure, "With absolute strength, crushing all plots and tricks, sweeping everything away, and attacking the Yellow Dragon straight"

"In front of absolute strength, any conspiracy or trickery is just a joke!" Finally, Yao Jinlong had to say with emotion.

"Absolute strength"

Yao Yue Ran is also stunned beyond measure, that beautiful face is written with awe, said: "before also heard, Ji Feng once in southern Guangdong turn a thousand miles, beat Wu Zhiyong and Wu Zhihe two brothers wretched, and finally even forced Wu Zhihe to die, everyone thought that this is exaggerated Ji Feng's strength, think that in the first place that turn a thousand miles I'm afraid it is mainly the credit of those few men around him. "

"Even I thought so too! I had even seen Ji Feng's hands with my own eyes in Yanjing before, only back then he was beating up a Kepong man, I just saw that he had better hands, but who would have thought that the rumours turned out to be true at all, Ji Feng's hands were really so terrifying!"

Yao Yue Ran said, also shocked beyond measure, who would have thought that a young master of a big family would have such a terrifying ability to fight alone Strictly speaking I'm afraid that it can no longer be considered a single combatant, but an extremely high realm of force!

"So, sometimes rumors may not always be false." Yao Jinlong said, "The so-called empty cave does not come from the wind, what's more, since Ji Feng dared to come to the northeast with only a few people, and actually dared to capture Han Yang when he knew that the Chen family was so powerful, that's enough to say something!"

"Dad, even Grandpa Liao, I'm afraid he's not that strong, right?" Yao Yue Ran said. Grandpa Liao, the most loyal guard of the Yao family's old master, was heard to be from an ancient martial arts school and was extremely strong.

"I don't know."

Yao Jinlong shook his head and said, "However, it's certain that even if Uncle Liao had the strength, he definitely didn't have the guts, I heard that at that time, when Ji Feng was fighting back brazenly, he wasn't just facing so many police officers, but also an unknown number of black holes with guns! That was a dangerous situation where if you didn't get it right, you would be shot on the spot!"

Yao Yuran couldn't help but be silent, not to mention how big a ripple this matter had actually caused, just Ji Feng's personal strength alone had given them too much of a shock.

"The Chen family is in big trouble this time!" Yao Jinlong suddenly said.

"Han Yang acts too wildly and is too greedy, actually trying to force Ji Feng into submission with this kind of bullying method, even hitting on the idea of Tengfei Group's new chrome alloy, how could Ji Feng easily give in?" Yao Yue Ran mentioned Han Yang and was somewhat unimpressed.

"This time, it was Han Yang who invited a huge trouble for the Chen family!" Yao Yuran said.

Although Ji Feng did not suffer any losses in the northeast, but, the office was smashed, several people of Ji Feng were all injured, and now the culprit was only caught, but the Chen family's power was still there and did not suffer any losses, this situation, how could the Ji family have tolerated it?

It is conceivable that the Ji family will definitely make some moves next, and there might even be a big storm!

"No wonder Ji Feng was unwilling to accept our help before!" Yao Jinlong couldn't help but shake his head and said, "It's just a pity that adding flowers to the brocade is far better than sending charcoal in the snow, now"

"Ji Feng has a pride that belongs to him." Yao Yuran said, "And Ji Feng has also promised to come visit you when things are over, so you just need to wait at home."

"You girl, you think too simply." Yao Jinlong shook his head and laughed bitterly, saying, "He was just being polite when he said that."

"No! I think it's true!"

Yao Yue Ran shook her head and said with a hint of reminiscence, “I think that Ji Feng is different from the young masters of other powerful families

Yao Jinlong’s heart moved and said, “If he’s really like you say, it’s good

But ah, now we can only wait and see how the situation will develop next first!”

Like the Yao family father and daughter, at this moment there is no telling how many people throughout the northeast are talking about this matter, as well as focusing on how this matter will develop next and how the situation will change.

In particular, how the Ji family would react, how the Chen family would respond and so on.

Everyone knew that this was a big enough storm to affect the situation in the Northeast, and it concerned the vital interests of many people, so they would naturally be very concerned.

However, no one expected that the first one to make a sound was Luo Lin, the municipal party secretary of Ha City.

He convened an emergency standing committee on the same day, announcing at that time the facts of the serious breach of discipline by the Municipal Bureau, as well as announcing the removal of the Director of the Municipal Bureau and the intervention of the Discipline Inspection Commission to investigate the officials involved in this series of events.

What was even most surprising was that Luo Lin even blatantly named certain leading cadres in the standing committee for their poor control of their children, causing an extremely bad impact on society.

This is simply blatant criticism of Chen Youdao!

This made many people flinch, it seemed that this was Secretary Luo starting to seize the opportunity to strike back after being hamstrung by the Chen family for so long.

At the same time, this was also seen as a signal for Luo Lin to lean towards the Ji family.

This made many people couldn’t help but be shocked, Luo Lin, the hand of the provincial capital city and deputy secretary of the provincial party committee, was definitely one of the bigwigs in Black Province, if it wasn’t for the presence of the Chen family’s old man, Chen Youdao wouldn’t have been able to hold him down, now that such a provincial bigwig had leaned towards the Ji family, this was no small matter.

But before the crowd could digest the news, another piece of news came out immediately afterwards. It was said that the news from Ha City had reached Yanjing, and some bigwigs even slapped the table on the spot, angrily denouncing some people at the local level for fish and flesh, just as if they were pointing at the Chen family’s name and criticising it!

At the same time, it was said that reports had been received from above that Chen Youdao, the executive vice governor of Hei Province, had abused his power for personal gain, and that his son Han Yang had deep ties with local gangsters.

Just the next day alone, the Central Commission for Discipline Inspection set up a task force and flew straight to Black Province!

But that was not all that changed, on the very afternoon that the task force arrived in Ha, a very important general in the military, Xiang Cheng, openly criticised some of the leaders of the Shencheng Military Region for improperly employing people, making such a chaotic situation in the military sub-district of Black Province, where the titular military personnel were helping the bad elements and the gangsters, in collusion, it was simply unbearable!

When this statement was made, there was an uproar!

This was because General Xiang Cheng was the second in the Xiang family in Yanjing and had great influence in the military!

So this remark could almost be seen as a vane that the military high command was about to make adjustments to the Black Province military division.

Public opinion, political circles, military circles, a multi-pronged approach.

A thunderous force has been formed.

A titanic force!

Campus Master Chapter 2446

Ji Feng was hospitalised.

In fact, both Ji Feng and Bai Zhu's injuries were not serious, especially Bai Zhu's, which was only superficial, but Zhang Lei's was different. Although the bullet did not hit his heart, it still pierced Zhang Lei's chest, which was not a light injury.

However, fortunately, he had taken a special current and was treated in time, so there was no fear for his life, but he would definitely have to be hospitalised for a while to recuperate.

After receiving the surgery, Ji Feng just rested for half a day and wanted to check on Zhang Lei's condition, however, to his surprise, at the entrance of his ward, there were two warriors standing, along with two policemen.

The two warriors were arranged by Qu Feng, specifically to protect him, but the two policemen, however, were to spy on him!

"Mr. Ji, you can't go out now, please go back to the ward." One of the policemen reached out to stop Ji Feng.

"What, am I a prisoner now?"

Ji Feng immediately frowned and his face sank.

The policeman opened his mouth, but didn't know how to explain, he just said, "Mr. Ji, this is an order from above, please don't make things difficult for us."

Ji Feng asked, "An order from above? Whose orders?"

The policeman hesitantly said, "Mr. Ji, please cooperate with us, okay?"

Ji Feng said in a deep voice: "What if I don't cooperate?"

When the policeman saw Ji Feng's cold gaze, he couldn't help but feel his scalp tingling. Ji Feng's battle record had spread throughout the police system of Ha City, beating up riot police with his bare hands and causing heavy casualties, which was not something ordinary people could do.

In the eyes of many police officers, Ji Feng was almost no different from a vicious thug.

So at this moment, when he saw Ji Feng's gaze froze, that policeman could not help but feel a pang of shock, but he could only stick to his post and said stiffly, "Mr. Ji, you are making it difficult for us to do this, please understand our work."

Ji Feng narrowed his eyes and stared at him.

The policeman's legs were a little weak from the look, his heart was beating wildly a few times indefensibly, his throat was dry under Ji Feng's stern gaze and he almost couldn't help but back away.

The other policeman was no better, and they even subconsciously had to draw their guns.

But at that moment, Ji Feng said, "Even if I am a prisoner, at least there must be formal detention or arrest procedures, are you putting me under house arrest now?"

One of the policemen hurriedly said, "No, at the moment it's just, it's just"

Ji Feng asked, "Just what?"

"It's just residential surveillance." The policeman said.

"Residential surveillance?"

Ji Feng's eyebrows instantly furrowed more tightly and said, "Since you guys don't want to talk about it, I won't make it difficult for you, now I'm just going to see how my brother is doing and won't get out of the hospital. Also, get your leaders over here, even if I'm arrested, I still need to know the cause and effect, and I'll die trying to understand, won't I?"

These two policemen were just carrying out their official duties, and Ji Feng didn't want to make things difficult for them.

Although it was true that some policemen had tried to kill him, it didn't mean that all policemen were bad people, so Ji Feng didn't knock over a boatload of people with one stick.

"This" The two policemen were in some difficulty.

"What, don't agree?" Ji Feng said in a deep voice: "Although I'm not a police officer, I'm not ignorant of the law at all... residential surveillance doesn't mean no personal freedom at all, right?"

"..... Okay."

The policeman had to say, "We'll report this to the top"

Only then did Ji Feng's face ease up a bit, he asked one of the soldiers and learned about Zhang Lei and Bai Zhu's ward, and left in stride.

The two soldiers hurriedly followed, and one of the policemen also followed in a panic, while the other policeman was a few steps behind and began to take out his mobile phone to report the situation to the top.

Bai Zhu was not seriously injured, just resting after being bandaged. Ji Feng first comforted her for a while and then went to see Zhang Lei.

However, when Ji Feng arrived at Zhang Lei's ward, he found that the guy was still sleeping, he couldn't help but smile slightly, the brat seemed to be really exhausted.

Ji Feng stood outside the ward and watched for a while before this returned to the ward, during this time, the two policemen and the two soldiers did not leave an inch.

And by this time, Ji Feng's heart probably guessed what was going on, so he didn't say anything more, and the wound after the surgery was also a bit painful, so Ji Feng just lay down on the bed to rest.

After about an hour or so, there was a knock on the door from outside. Through the glass window on the ward door, Ji Feng saw Fang Wei standing outside, talking to the two soldiers. Obviously, even when Fang Wei arrived, the two warriors had no intention of letting them go.

Their mission was to protect Ji Feng, and until they received orders, they wouldn't buy anyone's account!

Ji Feng said aloud, "Please come in, Director Fang."

Only then did the two warriors at the gate let them go, and Fang Wei pushed the door and walked in, smiling, "Mr. Ji, awake? How do you feel physically?"

Ji Feng said, "A small injury is nothing serious, I'm used to it."

Fang Wei was stunned, he was used to it?

He did not know that Ji Feng was really used to it, in the training space of the intelligent brain, Ji Feng did not know how many times he had been injured, and there were many more serious ones than this, Ji Feng was really used to it.

"It's good that you're alright, frankly speaking, you scared the hell out of me at that time." Fang Wei said, he was really frightened, Ji Feng with his wounds and blood still flowing from his wounds, surprisingly, he was still mighty to the extreme.

Ji Feng smiled and didn't say anything.

Fang Wei then placed the fruit and other things he was carrying on the bedside table, and only after a pause did he say, "Mr. Ji, I heard from the two young comrades that you are somewhat resistant?"

Ji Feng said, "Not really. However, having been put under house arrest for no reason, and not knowing what's going on, one always wants to find out, doesn't one?"

Fang Wei nodded and smiled, "That's true! Speaking of which, this is also an oversight on my part, because I was really busy today, so I didn't bother to come and explain to you, so I'll have to ask you to understand."

Ji Feng waved his hand and said, "Director Fang is too polite, but what exactly is the situation now, there are two police officers in front of my brother's ward as well, Director Fang, isn't this too polite?"

Fang Wei smiled bitterly at his words and said, "Mr. Ji, this order was given by me, so please understand."

Ji Feng asked, "I want to know the reason."

Fang Wei said, "Secretary Luo said, let you make a phone call to your home, and everything will be clear."

"Eh?"

Ji Feng then couldn't help but be stunned, and then he heard a familiar ringing sound coming from a soldier who pushed the door in and said, "Mr. Ji, your phone is ringing"

When the surgery was done, everything that Ji Feng had with him was taken down, and the phone was given to Wang Xin for safekeeping, but then after the surgery was done, Ji Feng let Wang Xin and the others go to rest, and then the phone was left behind.

Qu Feng had asked the soldier to help keep it because he was worried that a phone would disturb Ji Feng.

Ji Feng picked up the phone, but found that it was from his little uncle, he immediately picked up the phone, "Little Uncle"

Fang Wei then very sensibly stood a little further away, although he also wanted to know what was being said on the phone, but once he remembered who was on the other end of the line, he didn't dare to continue listening.

There were some levels of content that were not for him to listen to.

"Little Uncle, you"

"Ji Feng, you bastard!"

As soon as he picked up the phone, Ji Feng hadn't even finished his words when he heard a sudden roar coming from the phone, but it was Ji Zhenping who bellowed, "Son of a bitch, you've turned against the sky? Ah?!"

Ji Feng laughed bitterly and said, "Little Uncle, why are you so angry?"

It was the first time he had seen his little uncle get so angry, it seemed that he was really angry.

"Say it properly?"

Ji Zhenping suddenly said angrily, "You still know how to speak properly? If you had been more honest, would I have needed to be angry?"

Ji Feng laughed bitterly and said, "Got it! It's all my fault! Little Uncle, go ahead and scold me if you want, I'll listen."

"You brat!"

Ji Zhenping was furious, and naturally, he would not stop just because Ji Feng honestly admitted his mistake. Ah?!”

Sure enough!

Ji Feng knew that he had been put under house arrest as soon as he woke up, and it must be because of this matter. Because any of the things he had done since he came to the Northeast could stand up, but the only thing that was absolutely untenable was that he had killed so many scum police officers in a fit of rage at the end.

Although, those cops definitely wouldn't have shown him any mercy then either!

“Killing so many people on the highway, a dozen of them! And dozens more hospitalised with serious injuries! You've got a lot of nerve! You've gone against the grain!” Ji Feng didn't say anything, but Ji Zhenping was still furious, “Who do you think you are? The eldest grandson of the Ji family, the eldest young man of the Ji family, Young Master Ji, you're amazing, you're so bullish!”

“That wasn't a dozen chickens, or a dozen dogs! That was a dozen living people!” Ji Zhenping said angrily, “You didn't think about that before you did it?!”

“Little Uncle, I know I'm wrong.” Ji Feng rubbed his brow and said sincerely, “I actually regretted it after the fight, but at that time, Zhang Lei was shot and seriously injured in order to save me, I even thought he was dead, and as a result, I was overwhelmed by anger and I didn't strike lightly”

Ji Feng slowly said, “Little Uncle, there is no way for me to describe the situation to you at that time, but if I didn't fight back, I would definitely be leaving the Northeast in the dust now like a dog in the water!”

“Zhang Lei was shot in order to save you?” Ji Zhenping was stunned, he really didn't know about this matter, he only knew that Ji Feng and the three of them had all received gunshot wounds, but exactly how they were injured, Ji Zhenping wasn't personally present at the moment, so he wasn't too clear.

At this moment, after hearing Ji Feng say this, he realized that what he knew might be off.

However, this could not conceal the fact that Ji Feng had killed a dozen people!

Campus Master Chapter 2447

“Even if that's the case, you can just kill people?!” Ji Zhenping said angrily.

“Little Uncle, I didn't just kill anyone!”

Ji Feng said, “At that time, Zhang Lei was seriously injured, and although I knew he wasn't dead, I didn't know exactly how badly he was injured and how long he could last, so I was indeed extraordinarily annoyed at that time. But at that time, I was actually overwhelmed by anger, and also wanted to hurry up and settle these people, and then take Zhang Lei to the hospital”

“However, there were too many people on the other side at that time, but I was the only one on my side who could fight, so in my haste, I hit a bit hard” But little uncle, I can assure you that I definitely did not deliberately try to kill them, and if you don't believe me, you can send someone to check their injuries! ”

Ji Feng said: "When I struck, I did so as far as possible to their legs, shoulders, or places that were not vital parts, and even if they were vital parts, I had some restraint, it's just that at that time I did have some control over myself, so I struck too hard" "

Ji Feng did not lie, at that time, although he struck with extra ruthlessness, he did rarely make killing moves. In the vast majority of cases, he did not attack the vital parts.

But at that time, when Ji Feng was in the height of his anger, he did hit too hard, so sometimes when he hit the opponent's helmet, he would often smash his helmet instantly, resulting in a fatal blow.

When Fang Wei heard these words of Ji Feng's from the side, he couldn't help but secretly nod his head.

He could prove that Ji Feng's words were true and not a lie. Because when he was cleaning up the scene in the end, he did see that many people were attacked with marks on their legs, or waists, backs and so on, and footprints were left in those places.

"Another thing is that there were too many people on the other side, and they were all holding shields, so if I didn't put down a heavy hand, I would definitely be squeezed in the middle by them." Ji Feng said, "In that emergency, I admit that I did not care that much, and sometimes in order to buy myself some wiggle room, I I also laid down a killing move!"

Wrong is wrong!

Ji Feng defended himself, just to let his little uncle know that he was not the kind of villainous, fop who had his tail up to the sky and did not take other people's lives seriously.

It's just that sometimes there is no way out, and Ji Feng admitted that he was indeed a bit ruthless, but at that time, in that situation, seeing his brother, who had a life-long friendship with him, being shot down, it would be an absolute lie to say that he really didn't have any killing heart at all.

However, Ji Feng could say quite frankly that he was trying to avoid it.

In fact, if he really wanted to kill, as long as he hit the bio-current whip, not to mention dozens of people, even if there were dozens more, they would definitely be killed and injured, or even be completely wiped out!

But these words Ji Feng did not explain in detail, because he knew the temper of his little uncle, moreover, whether he used the bio-current whip or not, after all, he had killed someone, the difference was only whether he killed with his fist or with the bio-current whip, that's all.

So Ji Feng didn't argue much, he just told the situation he was in.

Ji Zhenping said angrily, "You kid is really I don't even know what to say about you anymore! Where did you get that big killing heart? You have to be so impulsive when it comes to things? You don't know how to be flexible? If you hadn't barged in, how would Zhang Lei have been shot? How could there be the next thing?"

Ji Feng couldn't help but be silent for a moment before saying, "Little Uncle, you know my character, if I had backed off in that situation, then I wouldn't have gone to arrest Han Yang before! I would simply agree to Han Yang's terms and then go back to Jiangzhou in the dust and forget about it!"

Retreating has never been Ji Feng's character!

Ever since he knew that Han Yang was behind this matter, especially after meeting him and finding out that he didn't even mention a word about smashing the Tengfei Group's office in Ha City and injuring Tengfei Group's employees, which in Han Yang's opinion was just a means to an end, Ji Feng had an extreme disgust from his heart!

What's more, later on, Han Yang was so arrogant to intimidate him, that arrogant to the point of smoking arrogant posture, so how could Ji Feng bow down to him?

Another key issue was that Han Yang had also set his eyes on the new chrome alloy, and Ji Feng couldn't back down, otherwise, did he have to exchange the new chrome alloy for the security of the Tengfei Group in the Northeast market?

It was a joke!

Therefore, Ji Feng would definitely not bow down!

"Little Uncle, now that things are like this, I can't undo anything even if I admit my mistake again."

Ji Feng said in a deep voice: "I admit that I have been heavy-handed, and among those who died there are definitely those who died unjustly, but I will never regret it! Because if I hadn't done it, then the last person to die would probably have been me, or Zhang Lei, or, along with that, the Tengfei Group's market in the Northeast, including the new chrome alloy!"

"You think a simple sentence of no regrets will be enough?" Ji Zhenping gasped.

"Of course not."

Ji Feng said, in fact, from the time he returned to the ward after visiting Zhang Lei, he probably figured out what was going on, so he already had it in mind long ago, "This matter, I admit that I was at fault, or to put it more strictly, I committed a crime, so I am willing to accept the punishment, but what I must say is that this time the fault is definitely not just mine alone!"

Ji Feng admitted that he had hit hard, but that was because he had been pushed.

If those police officers didn't come to arrest him, or if they didn't act as the Chen family's minions, how could Ji Feng get involved with them?

So the culprit in this matter should be the Chen family, not him, Ji Feng!

If Ji Feng still didn't fight back in the face of so many people besieging him, then he would be a great fool!

"Whose fault it is, this matter will be decided by the investigation team when the time comes." Ji Zhenping said, "But have you ever considered what kind of punishment you will receive once say your charges are proven?!"

"At most is just a heavy sentence!" Ji Feng said, "But it definitely won't be a death sentence, otherwise, I'm not convinced!"

"Humph!"

Ji Zhenping couldn't help but snort coldly, "A heavy sentence?! And that's all?! That's easy for you to say, it's lucky you're not in front of me now, otherwise I'd really like to slap you hard! You son of a bitch, do you think sentencing is that fun?"

Ji Zhenping was really pissed off by these words of Ji Feng!

A heavy sentence only?

He was the first grandson of the Ji family, and the elders of the Ji family, especially the old man, had high hopes for him.

But once he was sentenced, it would be like directly cutting off Ji Feng's future path to politics!

This is almost like cutting off one of the arms of the third generation of the Ji family!

This is definitely a big heel!

Thanks to him, Ji Feng could still say it so lightly, Ji Zhenping was really furious.

"Kid, I'm telling you, you've caused a lot of trouble this time! Now the investigation team has arrived in the northeast and is conducting an investigation, if the charges against you are finally confirmed, you yourself will go and plead guilty to the old man, then carry the burden and go to prison honestly to serve your sentence!"

Ji Zhenping gritted his teeth in anger, "I'm telling you, don't expect your family to press this matter down for you, even if I agree, your father and the old man probably won't agree, just have it in your own mind!"

Ji Feng nodded his head and said, "I understand."

Ji Zhenping added: "Now, you'd better think carefully about what you can do to justify yourself, kid, don't let your father and your grandfather down again!"

Ji Feng nodded silently and asked, "Little Uncle, am I going to be under house arrest all the time until the investigation team gets to the bottom of it?"

Ji Zhenping said, "What do you think then?"

Ji Feng said, "Then can we keep this from the others for now?"

Ji Zhenping then hummed and said, "Don't worry, I know what you mean, the matter is still under investigation now, block all news from the outside world, no one will know."

Ji Feng thought for a moment and then asked, "Then the matter of Zhang Lei"

"He must also be under residential surveillance." Ji Zhenping said, "However, news of his affairs will likewise be blocked."

"That's good."

Ji Feng then nodded, what happened here as long as he didn't let Yu Xuan and Lei Lei know about them, to save them from worrying.

Ji Zhenping's tone eased up a bit and couldn't help but say, "You brat ugh, how can I say you, this is a hurdle, brat, try to step over it!"

Ji Feng nodded and said, "I will definitely step over it."

"You kid is tough!" Ji Zhenping said, what he appreciated most about Ji Feng was this point, this kid is not to say anything else, at least a hard bone that no one can compare with, but in retrospect, this time it is because of this hardness of Ji Feng that he has fallen to such a state!

When he hung up the phone, Ji Zhenping couldn't help but grunt coldly, he casually put on the jacket on the coat rack, his face chilling. He decided to do something, he couldn't just stand by and watch things unfold.

If Ji Feng's charges were really proven, it would be troublesome.

"My nephew, Ji Zhenping, is just going to be dragged down by those dog-like things from the Chen family?" Ji Zhenping gritted his teeth, those who died might have been wronged, but the Chen family, Chen Youdao and his son, were beyond redemption for a hundred deaths!

Ji Zhenping decided that he would go to the old man, and if the old man didn't agree, he decided to go to Old Master Tang, or go directly to Old Tie.

No matter what, he couldn't let Ji Feng really be sentenced to death!

And it was at this time that Ji Feng, who was far away in Ha City, received a phone call from his father, Ji Zhenhua.

In the phone call, Ji Zhenhua did not say too much, but his tone was much milder, and the licking of the calf in those words was something that could not be concealed.

"Don't be afraid!" Ji Zhenhua said.

Campus Master Chapter 2448

"Dad, I'm not afraid!"

Ji Feng said, "If I was afraid, I wouldn't have done it, it's just that my mum there"

Ji Zhenhua said, "Your mother doesn't know yet. This matter, I will also hide it from her for the time being."

Hearing his father say this, Ji Feng was relieved.

In fact, he was not afraid of sentencing or anything, what he was afraid of was just his family worrying. Besides, if he really wanted to sentence him, I'm afraid it wouldn't be that easy.

And at this time, it was Ji Zhenhua who heard him say, "Little Feng, this time you are under residential surveillance, is it actually my intention, blame dad?"

Ji Feng then couldn't help but be slightly stunned, it was actually his father who gave the order?

This more or less surprised Ji Feng.

Because before, according to Fang Wei, both himself and Zhang Lei were placed under house arrest in the hospital ward, which should have been the intention of Luo Lin, the municipal party secretary of Ha City, but unexpectedly it was actually ordered by his father to do so.

But soon, Ji Feng understood his father's meaning.

He shook his head and said, "I understand."

Ji Zhenhua suddenly felt a burst of relief, as a man, there was nothing more delightful than watching his son grow up, and Ji Zhenhua was equally so, not to mention that Ji Feng's growth rate was obviously very much beyond his expectation.

He merely nodded, and Ji Feng immediately understood what he meant. This showed that Ji Feng was actually no longer limited in his thinking to the gains and losses of one city and one place, but had started to think in the bigger picture, Ji Feng stood at a higher level, both in terms of style and vision, and had greatly improved.

"But you will probably really be sentenced!" Ji Zhenhua said.

"I know."

Nodding slightly, Ji Feng said, "Actually, strictly speaking, the sentence is considered reasonable. Although those police officers were aiding and abetting the enemy, no matter what, they probably didn't intend to actively put me to death from the original intention, it was only because of the heartlessness of some people from the Chen family that made me stand against them. However, I did hit a bit hard!"

Ji Zhenhua was then silent for a moment, not knowing whether it was because he was happy with his son's growth, or because he felt guilty that he had made his son likely to face several years in prison for doing so.

As a father, Ji Zhenhua definitely did not want to see his son go to jail.

But as a leader, especially a leader with ambition and a big heart, Ji Zhenhua had to do it! This was not just for his ambition, but also for some other reasons, only that Ji Zhenhua did not say any of these things, because Ji Feng answered him with just three simple words.

— I understand!

"Dad, actually"

Ji Feng deliberated for a moment before he slowly said, "Actually, you don't have to worry, I may not go to jail!"

Ji Zhenhua then had a slight surprise and asked, "Oh? What do you mean?"

Ji Feng laughed, "This is something that is most appropriate to talk to Little Uncle about. However, it's not the right time yet, let's see how the situation develops first, if I'm really going to be sentenced, it's not too late to talk about it then."

Ji Zhenhua was a bit surprised, "Talk to your little uncle?"

For a moment he really couldn't think of what exactly Ji Feng was going to say to Lao-san that would spare him from the consequences of this incident.

At this time, Ji Zhenhua realized even more clearly that his son had indeed grown up!

"Alright then, I won't ask." Ji Zhenhua said.

"Mm."

Ji Feng said, "Dad, anyway, you trust me, I may not go to jail! So if you encounter any pressure because of what happened to me, you don't have to put it on your mind, and you don't have to make concessions with other people, let alone compromise!"

Ji Zhenhua said, "With my son backing me up, I won't compromise with anyone on this matter!"

Ji Feng then couldn't help but smile, Ji Zhenhua didn't ask him what exactly the matter was, and he didn't say either, even though the father and son duo didn't usually communicate a lot, but at this moment there was an extraordinarily tacit understanding.

Ji Feng chose to keep his reservations, while Ji Zhenhua chose to trust him completely.

After Ji Feng hung up the phone, within a few moments Fang Wei pushed the door from outside the ward and walked in – just now, when Ji Feng received the call from Ji Zhenhua, Fang Wei had gone out.

If it is said that when Ji Zhenping called, he was just standing far away, still wanting to know what was said between Ji Feng and Ji Zhenping, wanting to know something about the top level, but when Ji Zhenping called, Ji Feng opened his mouth and called out, Dad Fang Wei's legs went a little soft.

So, Fang Wei didn't even stay for one more second, pulled his legs out and walked out.

All the way until he saw through the glass window on the ward door that Ji Feng had finished making the call, then he walked in, with a smile on his face, and said, "Mr. Ji, I reported to Secretary Luo just now, and Secretary Luo said he would come over immediately"

Ji Feng was busy saying, "That won't be necessary! Director Fang, please tell Secretary Luo that I appreciate his kindness and am very grateful for his good intentions. But he's so busy with his work, and I'm in a special situation, so I won't bother him."

Fang Wei nodded and said, "That's fine, I'll report to Secretary Luo here."

In the end, however, Luo Lin still came.

When he saw Ji Feng, Luo Lin was more or less unnatural, after all, when he was on the scene earlier he said he would protect the foreign investors, but in the blink of an eye he ordered Ji Feng and his friends to be put under house arrest, which was more or less like turning the other cheek.

Ji Feng was very frank, because he knew that this was the family's intention, or his father's personal order, and it was not Luo Lin's business.

In fact, Ji Feng was very polite to Luo Lin, and did not put up any show because he was the first grandson of the Ji family – in fact, Ji Feng was not qualified to put up a show in front of Luo Lin, who was about the

same age as his father and was a vassal. If not for the face of Ji Zhenhua, I am afraid that he, Ji Feng, would not even be qualified to speak to Luo Lin.

This made Luo Lin feel better about Ji Feng, and the two of them had a very pleasant talk.

In the end, before he left, Luo Lin even urged Fang Wei to send extra staff to take care of Ji Feng as much as possible, but he was refused by Ji Feng.

“There’s no need to take care of it, if Director Fang is free, why don’t you tell me about the situation outside?” Ji Feng said in a questioning tone, “I’ve been lying in this hospital for a day, I know nothing about what’s really going on outside.”

“..... no problem.” Fang Wei nodded and smiled.

“Then thanks a lot, Director Fang.” Ji Feng smiled, as for the comment that Fang Wei glanced at Luo Lin with the corner of his eyes before agreeing, Ji Feng was pretending not to see it, but the exchange of glances between the two of them still made Ji Feng’s heart move slightly.

Afterwards, Luo Lin left, his status was not good to stay here more, besides, I’m afraid it’s a mess outside now, Luo Lin must be going back to do something.

Ji Feng smiled and asked Fang Wei to sit down and asked, “Director Fang, can you tell me a little bit about the situation outside?”

Fang Wei said, “Actually, I don’t know too much about what exactly is going on outside right now, so I can only briefly say what I know.”

Ji Feng smiled and nodded his head, saying, “I understand.”

Fang Wei then said, “Now the central investigation team has come down and has already started the investigation, Qiu Group’s bank accounts have been frozen, Qiu San’s wife and several mistresses have been controlled, and in addition to that, all of Qiu Group’s top brass have also been controlled ”

According to Fang Wei’s introduction, the situation in Black Province can be described as a sudden change within this short period of one day.

The Emperor of Black Province, the godfather of the underworld, Qiu San was arrested, resulting in the Qiu Group being left without a head, and then the investigation team, with the cooperation of the local police in Black Province, quickly took control of the Qiu Group’s top brass, froze the Qiu Group’s bank accounts, and had already sent people to seize the Qiu Group!

Subsequently, the investigation team simultaneously sought to talk to a large number of officials, almost half of the cadres in the middle and senior levels of the municipal bureau in the entire city of Ha were controlled, and many officials in the city and province were also called by the investigation team to talk, but some of them, however, did not come back after they went there!

The military world is also not quiet!

With Political Commissar Liu being taken away by the military disciplinary department, there has been a considerable change in the middle level of the Black Province Military Division. Although the top brass has not moved yet, everyone knows that the next move will definitely be a big one.

A big move in the political and military circles that would shake the entire Black Province, and even the entire Northeast!

“So far, the investigation team has targeted several other groups again!” Fang Wei said, “It’s just that

“Just what?” Ji Feng asked.

“There’s not enough evidence! There’s also a lack of witnesses, as well as strong enough direct evidence!” Fang Wei said, “Although the investigation team seized Qiu’s group, they were unable to go further

Ji Feng then understood, no wonder Fang Wei was winking between him and Luo Lin earlier, so, this was to ask for someone from himself.

The package of the gang’s top brass, Qiu San, and even Han Yang, these are the most direct witnesses, especially Qiu San’s hands to take three copies of the books and recordings, but also the most direct and powerful evidence.

But these things are now in Ji Feng’s hands, even if Ji Feng is lying in the hospital after an operation, these evidence and witnesses are still under his control.

–The police and the investigation team did not fail to approach the military, but the military did not buy it. They admitted to arresting Han Yang and the others, but said that it was a joint mission with the special operations brigade and could not be disclosed, let alone handed over.

This left the investigation team helpless, and the investigation could not go any further.

Ji Feng asked, “What Director Fang means is that I should hand over all this evidence and witnesses?”

Fang Wei nodded his head and said, “That’s right! Mr. Ji, in fact, from what we have so far, the investigation team and you should have the same purpose, and the same purpose as our police. Moreover, you clutching this in your hands actually does not help you much instead, especially with your current situation

When he said this, Fang Wei couldn’t help but stare at Ji Feng, wanting to see some clues from his face.

Ji Feng smiled faintly, the corners of his mouth pulled up a slight curve and said, “Director Fang, you seem to be very nervous, huh?”

Campus Master Chapter 2449

When Fang Wei smiled, he was a bit unnatural, he coughed lightly and said, “Is that so? Do I look nervous?”

Ji Feng then smiled and said, “Director Fang, you have something to say to me, right? Please say it directly! You’re rather making me feel a bit

Fang Wei couldn’t help but faintly stare at his words, looking a little surprised, as if he couldn’t understand why Ji Feng would say that.

As if reading through the thoughts in Fang Wei's mind, Ji Feng smiled and said, "Director Fang, although I am young, I have some life experience, for example, I see that there are calluses on the tiger mouth and index finger of Director Fang's right hand, which are obviously traces left by frequent use of these two parts, combined with the occupation of Director Fang, then I guess that Director Fang must have come from the grassroots step by step I'm guessing that the director must have come from the grassroots to this position, am I right?"

Fang Wei was a little surprised, more or less, and nodded, "That's right, Mr. Ji, you're really observant!"

Indeed, Fang Wei had gone from being a grassroots police officer step by step to where he was today.

The calluses on his right hand's tiger mouth and index finger were in fact the marks left by holding a gun frequently in the past, which meant that in the past, Fang Wei often rushed to the front line and had to practice his marks frequently, so it was inevitable that he left marks.

Ji Feng smiled and said: "I cite this example is actually to say, since the director of Fang came up step by step from the grassroots, and also sat in this high position today, then, the director of Fang talking to a youngster like me, really should not be so nervous right, this is not the quality that an experienced police officer should have, on the contrary, like a young police officer who is still new to the profession!"

Fang Wei was even more astonished, he said in dismay, "Did I act that obvious?"

Ji Feng nodded: "It's almost as if a blind man can't see it."

Fang Wei: "....."

After a while, Fang Wei asked, "Then how does Mr. Ji know that I have something to say to you?"

Ji Feng said, "Isn't that it?! Didn't Director Fang deliberately draw my attention to this aspect to start this conversation?"

Fang Wei was just stunned, and then couldn't help but shake his head and smile bitterly, "Mr. Ji, you seem to be living up to your name in being able to achieve what you have achieved today!"

Fang Wei had naturally seen many people with careful observation and keen thinking, but he had not seen many young people who were as calm and well-conceived as Ji Feng.

Not to mention the others, with Ji Feng's wisdom and calmness at this moment, Fang Wei even doubted if Ji Feng already knew what he wanted to say.

Ji Feng then smiled and said, "Director Fang, there is something difficult you want to say, right?"

Fang Wei nodded with a bitter smile, "It's not really difficult to say, it's just that I'm a bit unsure how to say it."

Ji Feng said, "Director Fang, if you don't want to say it, I won't force you, but after today, even if you say it I probably don't want to listen."

Fang Wei was just stunned and said, "You already know what I'm going to say?"

Ji Feng smiled and said, "I'm not a god, so how could I know what you want to say. However, I guess it should be that you want my help or something else that requires my cooperation, I wonder if my guess is correct?"

Fang Wei nodded at once and said, "Mr. Ji, powerful!"

Ji Feng just shook his head and smiled, not feeling flattered because of Fang Wei's praise, in fact, he said secretly in his heart, from the beginning, Fang Wei first deliberately let himself see that he had something to say, and then began to praise his own ability, this is obviously to fill his soul soup ah!

Now that he was acting like this, it would be foolish if he didn't know that Fang Wei was asking for something from him!

Seeing that his little scheme was seen through by Ji Feng, Fang Wei couldn't help but be a little embarrassed and hesitated slightly before saying, "..... Mr. Ji, it's like this, I want you to hand over all the evidence you have in your hands to the police!"

"Hmm?" Ji Feng then couldn't help but frown.

"Mr. Ji, you shouldn't misunderstand!"

When Fang Wei saw Ji Feng's reaction he hurriedly waved his hand to explain, the reason he was dilly-dallying just now was because he was afraid that Ji Feng might misunderstand if he heard it, so he hurriedly said, "Actually, it's not strictly speaking that I want Mr. Ji to hand over the evidence to the police, and I hope you can hand it over to the investigation team."

If Ji Feng did not understand it, it would be fine, and perhaps he could still muddle through, but Ji Feng had just taken out so many scum cops, and now he was afraid that he did not have a good feeling about the entire police system in Black Province, and at this time, if he was asked to hand over the evidence to the Black Province police, it would definitely provoke Ji Feng's resentment.

So Fang Wei hurriedly explained.

However, even after listening to Fang Wei's explanation, Ji Feng's tightly furrowed brow did not stretch out, but asked, "Director Fang, can you tell us the reason?"

Fang Wei said, "Mr. Ji, I'm sure you also know that the investigation team this time was sent down directly by the Central Government and is absolutely impartial, and the specifications of this investigation team are also quite high, which is enough to show the Central Government's determination and attitude towards thoroughly investigating this incident."

Ji Feng faintly nodded and said, "And then what?"

Of course, Ji Feng knew more than Fang Wei about the attitude of the top, but what did this have to do with whether he handed over the evidence or not?

Fang Wei said, "And then? After the investigation team got hold of the evidence, they will definitely punish those who violated the law and discipline in a strict and serious manner, those who should be dismissed from their posts and those who should be sentenced to imprisonment! Mr. Ji, I know that you have been aggrieved in the Black Province, if you hand over the evidence, won't that serve the purpose as well?"

Ji Feng smiled noncommittally and said, "If I don't hand over the evidence, is there nothing the investigation team can do?"

Fang Wei said with a bitter smile, "This Mr. Ji, you also know that some people have been operating in the Black Province for many years, and their power is huge, and they are already deeply rooted. ..."

"It won't come to an end?" Ji Feng chuckled and said, "If that's really the result in the end, then I'm looking forward to it instead!"

"This"

Fang Wei then couldn't help but be stunned, and then he laughed bitterly, realizing that he had said the wrong thing.

To think that Ji Feng came to the Northeast with just a few people, it might be a bit exaggerated to say that he came alone, but at least he was considered to have brazenly barged into the Northeast, and there were even a few fierce battles that could be described as a great deal of trouble.

Under such circumstances if the final outcome was still unresolved, not to mention Ji Feng's reluctance, I'm afraid the entire Ji family would not agree!

Fang Wei said: "Mr. Ji frankly speaking, Mr. Ji's hands hold these evidence, for this investigation is very important. The Chen family's power is huge Mr. Ji is aware of, if there is no overwhelming evidence, in the end certain people will never be punished too heavily!"

"However, if Mr. Ji handed over the evidence, not only would it speed up the progress of the investigation team's investigation, but also, it would deal a heavy blow to some people, and I believe this is the result Mr. Ji would like to see!"

Fang Wei said, "And on top of that, I and many of my colleagues in the police system are willing to testify for Mr. Ji to prove that Mr. Ji was forced to fight back in self-defense at the time and that there was no intentional act of murder"

Ji Feng smiled and did not wait for Fang Wei to finish his words, his face suddenly turned cold: "Then if I don't hand over the evidence, you won't testify for me, will you?"

Fang Wei laughed bitterly, "It's not that I won't testify, but I don't dare."

Ji Feng narrowed his eyes and asked, "Oh? How do you not dare?"

Fang Wei said, "Because the Chen family is too powerful in the northeast, even if we, as the deputy director of the police department, honestly have to think twice when testifying, let alone others, they will definitely worry that they will be retaliated by the Chen family after testifying!"

Ji Feng asked, "This means that if I don't hand over the evidence, I will definitely go to jail, and if I do, I will probably be fine, right?"

Fang Wei hurriedly said, "Don't misunderstand, Mr. Ji, I don't mean to threaten you, let alone have any intention of making a deal with you. In fact, we are all on the same side, aren't we?"

Ji Feng smiled, a thoughtful look on his face.

Fang Wei then stared at Ji Feng closely, hoping that he could see some clues from Ji Feng's face.

He was really hoping that Ji Feng could hand over that evidence, that was almost ironclad evidence to move down Chen Youdao, and when that happened, the whole Chen family would definitely not end up in a good place, even with the Chen family's old man around, at least Chen Youdao wouldn't get away with it all!

But if Ji Feng doesn't hand it over

"Director Fang!"

Just as Fang Wei was secretly anxious in his heart, Ji Feng suddenly spoke, "Is this what you mean, or what Secretary Luo means?"

Fang Wei hesitated for a moment before Ji Feng nodded with a smile and said, "I understand. It seems that you guys aren't just worried that without this evidence in my hands, you won't be able to completely move Chen Youdao, but you're also worried that I'll use this evidence to make a deal with Chen Youdao, right?"

Fang Wei smiled and couldn't help but feel a little embarrassed.

Ji Feng then smiled, "It seems that I guessed correctly."

Luo Lin, as the municipal party secretary of Ha City, was also a big figure ranked high in the province, so if he didn't have a certain degree of certainty, would he just make a move?

Now since Luo Lin had made a move against the Chen family, it meant that he must also have some evidence in his hands.

So what they were actually worried about was that they or their family would have to make some deal with the Chen family in order to avoid being sentenced themselves, in which case everything that Luo Lin had done before could be for naught, or at least, he would not be able to bring down Chen Youdao completely, and that would still be a big problem in the future.

After all, the Chen family's power in the northeast was already deep-rooted, so if he wanted to take revenge on Luo Lin, it would still be tricky!

Seeing that Ji Feng didn't say anything, Fang Wei became a little anxious in his heart, and he was just about to speak when he suddenly heard a knock on the door, "Knock, knock, knock."

Immediately afterwards, a soldier pushed the door in and said, "Mr. Ji, there's a man named Chen Youdao outside who wants to see you."

Chen Youdao?

Ji Feng was a little surprised, but Fang Wei's face changed.

Campus Master Chapter 2450

Chen Youdao actually came?

Ji Feng was somewhat surprised.

Fang Wei, however, was immediately anxious in his heart, Chen Youdao came here, I'm afraid that eight out of ten`9 times he wanted to talk to Ji Feng about a deal, he said anxiously: "Mr. Ji"

Ji Feng smiled faintly and said, "Director Fang, I know what you are going to say. Please rest assured that I will definitely hand over this evidence, but not now. Besides, I will never make a deal with my enemies!"

How could he possibly go and make a deal with the Chen family!

What's more, even if the Chen family wanted to counterattack, or if they wanted to take a backseat even if they were dying, and had to put him in jail as well, he was not without a solution!

It was just that the time had not yet come!

"Really?" Fang Wei felt a bit surprised, he didn't expect Ji Feng to state his position so readily.

"Really!"

Ji Feng said with a smile and a nod.

Only then did Fang Wei feel relieved and said, "With this word from Mr. Ji, I can rest assured. Mr. Ji, since we have a visitor, I'll leave you alone, if you need anything, just tell the police at the door, they'll take care of it for you!"

Ji Feng smiled and nodded, so Fang Wei got up and said goodbye.

When Fang Wei was about to go out, he bumped into Chen Youdao, who was walking in. He subconsciously turned to the side, but found a mocking smile appearing in Chen Youdao's eyes, which made Fang Wei a little annoyed.

Seeing this scene, Ji Feng could not help but secretly sigh that the Chen family's influence in the Northeast was really deep-rooted. Now the Chen family was clearly showing signs of being in decline, but Fang Wei, who was the deputy director of the provincial department, still feared Chen Youdao, and the fear was still so obvious.

This shows how ridiculous it is to say that the earth emperor of the Northeast is Qiu San, the real earth emperor of the Northeast is the Chen family!

"Director Fang is also here, I didn't expect such a coincidence!" Chen Youdao said, the meaning in his words could be described as profound.

"Governor Chen."

Fang Wei's face looked a little unnatural, but more annoyed as he said, "Is Governor Chen here to visit a friend, or"

Chen Youdao's eyes then narrowed slightly and said, "Director Fang seems to be very motivated!"

Fang Wei was just stunned.

But immediately he reacted, Chen Youdao was being sarcastic.

What Chen Youdao was saying was, "What do I want to do as governor, do I need you to ask? Do you, Fang Wei, want to be my leader, or do you want to be the secretary of the provincial party committee?"

The so-called upward mobility is actually a sarcastic remark about not knowing how high the sky is!

Fang Wei's face was furious with shame and anger, but he gritted his teeth but said nothing, only turning to Ji Feng and saying, "Mr. Ji, then I'll take my leave and come back to see you another day."

Ji Feng nodded slightly and said, "Take care. I won't see you off."

Fang Wei had been humiliated by Chen Youdao, but he didn't dare to say anything back, so he was even more embarrassed at the moment, where was he okay with letting Ji Feng get up to see him off?

"Humph!"

After Fang Wei left, Chen Youdao looked at his back and couldn't help but snort coldly, looking disdainful.

Ji Feng couldn't help but secretly shake his head when he looked at it, Chen Youdao was being overbearing. Even at this point, he could still be so high and mighty, the Chen family's might was evident.

At this time, Ji Feng also understood where Han Yang's extraordinary sense of self-importance came from, this Chen Youdao was even more arrogant than Han Yang!

However, Han Yang's arrogance was on the surface, while Chen Youdao's arrogance was from his bones.

It seems that over the years, the Chen family's rampant presence in the Northeast and the years of holding power above all others have turned Chen Youdao into such a character.

The upper beam is really not right and the lower beam is crooked!

Ji Feng secretly snorted coldly, then he leaned back in his chair and asked indifferently, "Governor Chen is here, I wonder what you have to teach me?"

Chen Youdao was not surprised by Ji Feng's attitude, if Ji Feng was pleasant to him, then he would be surprised.

"Mr. Ji, I've come to make amends to you!" Chen Youdao opened the door and said, "Actually, I originally wanted to make amends two days ago, but I didn't expect my family's rebellious son to do that kind of thing again, so I was delayed."

"Make amends?"

Ji Feng smiled and said, "Governor Chen has spoken too highly! Governor Chen doesn't need to make amends to me, I can't afford it either!"

Chen Youdao shook his head, "You can afford it, Mr. Ji, you totally deserve it! I'm here today, not as a governor, nor on behalf of anyone, I'm just here as a father to make amends to you for the mistakes my son has made."

Ji Feng glanced at him and smiled noncommittally.

If he really wanted to make amends, he should have stopped Han Yang when he first made his move against the Tengfei Group, and that would have been a sincere act of amends, instead of coming to make amends only now when he saw that things had come to such a state.

Chen Youdao naturally knew that such mouth tricks would not be put into Ji Feng's heart, so he did not say much, but just said, "In fact, apart from coming here to make amends today, there is also one thing I want to ask Mr. Ji."

Ji Feng smiled and said, "Governor Chen, did I hear you right? You actually have something to ask me?"

Without blushing, Chen Youdao said, "Mr. Ji, it's better not to call the word Governor Chen now, as I am currently under suspension for investigation, not Governor Chen."

Ji Feng nodded and said, "Then congratulations."

"....."

Chen Youdao coughed lightly and said, "Mr. Ji, I know that my family's rebellious son has really done a lot of wrongdoings, although I can't say that he is a tenth evil, but he is absolutely unforgivable! So I am not asking Mr. Ji to understand him, only that I also ask Mr. Ji to look at me, a man whose body is half buried in yellow earth, to look at me as a father, and also to look at his grandfather who was sent to Yanjing Hospital in anger and anxiety after he found out about this matter"

Chen Youdao looked at Ji Feng's change of expression, "Please Mr. Ji can raise his hand and leave that rebellious son a small life!"

Ji Feng did not say anything.

Seeing this, Chen Youdao could not help but grit his teeth and said, "As long as Mr. Ji can spare his life, the rest is all up to Mr. Ji, whether it is sentencing or suffering any other punishment, I have absolutely no second thoughts, moreover, our whole family will be grateful!"

Ji Feng shook his head and said, "Governor Chen, I think you've got the wrong person! I'm not a judge, nor am I a policeman, I can't decide what kind of punishment your son will receive! As for the gratitude of your whole family"

He smiled and didn't go on, but the meaning couldn't be clearer.

Chen Youdao still wanted to say something, but Ji Feng waved his hand and said, "Governor Chen, if you came just to talk to me about this, then I'm sorry, I don't want to talk any further, my time is as valuable as yours, it's better not to waste it on such boring topics!"

No matter what Chen Youdao said, even if he was talking out of his ass, there was no way Ji Feng would let Han Yang go, so there was no need for him to continue this topic, it would just be a waste of breath.

Without changing his face, Chen Youdao asked, "Mr. Ji, you are also having some troubles now, right? If I can get Mr. Ji out of these troubles, including Mr. Ji's friends, I wonder if Mr. Ji would be willing to give me, Mr. Chen, a chance to apologise and give that rebellious son of mine a chance to reform?!"

"There's no need for that!" Ji Feng shook his head and said, "I will take care of it myself."

“But killing so many policemen is not a small thing!” Chen Youdao said, “If you don’t get it right, it might be a death sentence or not!”

“Swish!”

A cold light flashed from Ji Feng’s eyes, and a bitter murderous intent surged in his heart, causing Chen Youdao opposite him to suddenly feel a chill in his heart.

Chen Youdao, who had been in a high position for many years, could not help but feel a sudden jolt in his heart when faced with the suddenly imposing Ji Feng, but the qi cultivation that he had developed over the years still allowed him to sit there with his face unchanged and looking very calm.

“Governor Chen, are you threatening me?” Ji Feng asked in a deep voice.

“Mr. Ji has misunderstood

“You are threatening me!” Ji Feng said in a deep voice, “Governor Chen, do you think that I will definitely go to jail or even be sentenced to death?”

“Of course not.”

Chen Youdao shook his head and said, “Mr. Ji, I’m here to beg you today with twelve thousand percent sincerity.”

Ji Feng said, “But I don’t see any semblance of begging sincerity in you! I only feel threatening, and suppressed anger!”

Chen Youdao just choked.

Ji Feng said, “Governor Chen, it must be quite difficult for you to talk to me in such a lowly manner, so I’ll tell you what, I don’t want to say anything more today, and there’s no need for us to talk any further!”

“Mr. Ji, you won’t think about it anymore?!” Seeing that Ji Feng flatly refused, no matter what he said, Chen Youdao’s voice couldn’t help but lower, “More friends, especially one more friend who is incomparably grateful to you, is much better than one more enemy!”

Ji Feng sneered, “Joke! You think you’re still worthy of being my enemy now?! Or, that rebellious son you are is worthy of being my enemy?!”

Chen Youdao’s face turned pale.

Ji Feng stood up and said aloud, “Governor Chen, I can tell you plainly, Han Yang’s life, I want it for sure! If you are trying to negotiate a deal with me for my freedom, or my life, then I can only tell you that I am sorry to disappoint you, there is no negotiation on this matter!”

Chen Youdao’s face was grim, “Mr. Ji, it may not be good for a young man to be too impulsive! You think you have everything under control, but you don’t yet know the complexity of society and the hardships of the world

“Can I interpret that as a threat?!” Ji Feng asked coldly.

“..... Mr. Ji, I hope you can think about my words.” Chen Youdao didn’t dwell on it any further, but said, “Since we can’t talk between us, then I will have to go and talk to your father.”

“Heh!”

Ji Feng shook his head and laughed, saying, “It seems that you have decided that I will go to jail, or even be sentenced to death Governor Chen, I will put my words here today, no matter who you go to, it’s useless, or if you try to fix me through any connections, it’s useless! I Ji Feng will definitely walk out of here with a straight face, and you don’t think you’ll see the day when I’m sentenced to death! Absolutely!”
