With Ji Feng and Ji Shaolei back to Yanjing, but all those fops who had targeted the children of the Ji family, and even this time did not target the Ji family, but some of the children of the families close to the Wu family, almost all suffered.

Although these playboys did not suffer too serious trauma, the most serious is only broken arms and legs, the most rest in bed for a few months, but, this go out to worry about being beaten, even or in public humiliated, especially some small hooligans, that really what words can be cursed out!

This kind of encounter for these usually are above the eyes and even proud of the gentry, that is really more than kill them to make them even more uncomfortable.

And the most let them feel stifled, but they do not have the slightest way to do this.

The most important thing is that they can't do anything about it, they can't fight, they can't scold, don't mention how stifling it is – those hooligans are always fighting and brawling, how can these playboys be their opponents?

The first thing you need to do is to get a good idea of what you're doing.

The police had to use the official power to arrest those people, but Yanjing is so big and there are so many hooligans and gangsters, how many can they catch?

The whole Yanjing, set off a storm, and it can even be said that there is an extremely strange scene – usually those in Yanjing to walk across the playboy, but now become a street rat, as if walking down the street for no reason will attract several 'enemies This is simply a street rat everyone shouting to beat!

There are some people who are wiser, the family after seeing their children being beaten up, naturally understand what is going on, so they prevented the family from wanting to call the police, because they know that this is from the Ji family, or to be precise, this is the revenge from Ji Feng and Ji Shaolei!

“Speaking of which, it's true that you guys have gone too far. How dare you treat the children of the Ji family like that, when Ji Feng and Ji Shaolei come back, how can you be let off so easily?!” There were parents lecturing their children.

“But that wasn't me either, I didn't participate in beating Ji Shaojun ..... either,” the grandson felt a little aggrieved.

“Humph! You think that only if you participated in beating up Ji Shaojun with your hands, that's called participating in targeting the Ji family? Confused! Some time ago the Wu family's kid so recklessly targeting the Ji family's children, the two sides are almost in the same situation, at this time you are so close to the Wu family's people, that is not expressing your position?”

“.....”

This gongzi instantly turned pale, he then realized why the Ji family's people would target him for no reason.

“In the future, don't get so close to the Wu family, just because you were wounded, has anyone from the Wu family ever come to see you? Has anyone ever asked someone to bring a greeting?”

The head of the family angrily lectured his son: "I think, on the contrary, the two sons of the Ji family are very responsible in such matters, their own brothers were bullied, they gritted their teeth to retaliate back, but you were injured, can anyone stand up for you?"

"Now that you're injured, this is a good opportunity, you're at home to recuperate, do not go anywhere, a few months later, I believe that your fox friends will not come to you, you and some of the Wu family's relationship is also faded. Later find an opportunity to apologize to Ji Feng or Ji Shaolei, this matter may also turn out to be a good thing!"

"Good thing?"

The male was stunned: "Dad, do you want to lean towards the Ji family?"

A similar scene was happening in many families, and after just a few days, the Wu family sensed that something was wrong.

Wu Zhiyong is even more angry gnashing his teeth, because he can obviously feel that originally often with the Wu family to go around some people, seems to be deliberately avoiding, originally if someone heard that he returned to Yanjing, there will certainly be a lot of people want to ask him out for a drink, or like with him to lean on the relationship.

But now .....

The actual fact is that none of them are looking for him – except for those beaten up dudes who called him crying!

Thinking of being called to the study by Wu Zhengmin in the morning to give him a severe reprimand, Wu Zhiyong's mood became even worse, he realized what had happened, but could not do anything about it, even in this regard he was surprisingly not capable enough to confront Ji Feng!

This made Wu Zhiyong once again saw Ji Feng's harshness and ruthlessness, and once again realized the gap between him and Ji Feng.

This feeling made Wu Zhiyong very unhappy!

"Ji Feng ....."

Wu Zhiyong gritted his teeth, his hand involuntarily touched the location where he was slapped, it seems that until now his face still has some hot and spicy feeling, as if Ji Feng was right in front of his eyes and just gave him a slap .....

Wu Zhiyong's heart hated to the core!

"We'll see!" Wu Zhiyong roared low, gritting his teeth, but had to suppress his voice, not wanting outsiders to hear it, because the more he lost his temper, the more others would think he was inferior to Ji Feng.

..... Even though, now many people think that Wu Zhiyong is already far from being Ji Feng's opponent!

But at this time, Ji Feng, but with Wu Zhiyong is two very different feelings.

He is now lowering his head and receiving criticism from the old man.

After returning to Yanjing for a few days, Ji Feng came to visit the old man, not because he didn't want to come earlier, but because before that, Xiao Sumei called him at home immediately after he knew that Ji Feng had returned, and first took his son's hand to check carefully, and only after determining that his son did not suffer anything, Xiao Sumei was relieved.

But then, the criticism of Ji Feng began.

Then it was revenge on the Wu family line of those fops, and delayed Ji Feng a few days, so until now he came to visit the old man.

With him, there was also Ji Shaolei.

"Yo!"

After seeing Ji Feng, Elder Ji immediately turned his head to Tie Long and smiled: "Little Tie, see, our family's hero is here!"

Ji Feng: "....."

The old man was saying the opposite, how could he not hear it?

Ji Feng smiled sarcastically, "Old master, you should not flirt with me, I know I'm wrong!"

The old man hummed and said, "Know the mistake? You made a big mistake, little monkey, when did you learn to be so fierce and vicious?"

Ji Feng shook his head with a bitter smile, but did not know what to explain, no matter how to explain this matter, anyway, more than a dozen people died in his hands, this is a fact that can not be argued.

As for saying that at that time he saw Zhang Lei was shot, so the whole person went crazy, or what other reasons, there is no need to explain.

However, out of Ji Feng's expectation, Tielong Tie senior said: "Little Feng, do not be afraid, the details of what happened exactly, the old head and I have understood, I think this thing you did the right thing, for their brothers, you did not do too much, this is what a man should do!"

For Ji Feng, at that time, those police officers wanted to intercept them, and there were people shooting, Zhang Lei blocked a shot for him, and as a result, he was seriously injured and almost died, in that case, those police officers are his enemies.

Treating the enemy with mercy is to be cruel to oneself. Tielong and Master Ji, who have fought in wars for half their lives, naturally know this better than anyone else.

So in fact, Elder Ji is not really reprimanding Ji Feng, only that the times are different now, but it is necessary to give Ji Feng this lesson, otherwise he will not be lawless in the future?

"From the point of view of dealing with the enemy, this matter you did not do right, but from the point of view of the law, you are a serious crime!" Master Ji sank his face and said, "Even if those police officers are guilty, it is not for you to judge, and you have even less power to kill them, but for the national law enforcement agencies to enforce!"

Ji Feng nodded honestly: "Grandpa, I know I'm wrong."

"If you're wrong, you have to change!" Elder Ji said.

"I make a note of it and will definitely change it!" Ji Feng nodded seriously, "Unless I am forced to the point of no return, I will definitely not have what happened today again!"

"Little Feng, the old chief is scaring you!" Tie Long said smilingly: "This thing, ah, you did not do wrong, moreover, even if you did wrong, now has redeemed the crime, as long as you help the country to build the kind of weapons you say to, you have made the credit, can be far more important than killing a few scum!"

Ji Feng just couldn't help but sweat a little, Tie Lao accompanied the old man Tie Gao Jinma conquered half a lifetime, used to seeing life and death and killing, so for this time, he really did not take it seriously, but Ji Feng is his own know that this thing he did wrong.

"Grandpa, Grandpa Tie, you guys should stop criticizing the three children, he has always been an honest child, occasionally make a mistake is understandable well, haha ....."

Ji Shaolei laughed and stirred up the situation.

Master Ji glared at him and said, "You brat, I will not only criticize the little monkey, but also criticize you, how long has it been since you visited me, the old man?"

Ji Shaolei sweat said, "Grandpa, I'm not coming over here ....."

"It's come to smooth me this old man's cigarettes and alcohol to come?" Master Ji laughed and scolded, "How come I have such an unfilial grandson like you!"

"Grandpa, I'm wrong ....." Ji Shaolei repeatedly apologized.

The old man then smiled and waved his hand, saying, "Little monkey, don't stand there, sit down, criticizing you is for your own good ....."

Ji Feng nodded and said, "Old master, I understand."

The atmosphere up to this is considered to ease down, he and Ji Shaolei two people accompanied the old man and iron prison chat, and played two games of chess, near evening, Ji Zhenping is suddenly came, and face some serious, seems to be something.

"Little Feng, you are also here? Just in time, what I'm about to say has something to do with you!"

Ji Zhenping waved his hand to let Ji Feng and Ji Shaolei sit down, he himself also sat in front of Ji Lao, whispered: "Old master, something happened again in the south, more than a dozen old people died, the scene is very tragic ..... to the chief is quite annoyed after knowing, not ready to tolerate it anymore, but he wants to know what you think. "

Campus Master Chapter 2472

Ji Feng could not help but be a little stunned, Ji Zhenping words he understood, but did not know exactly what had happened. Only know that in the south seems to be what happened, there are old people died, and it seems that the scene is tragic, and even alarmed to the chief.

To the chief wants to have what action, but before this, but want to listen to the grandfather's opinion, so let the little uncle come over to ask ..... roughly so, but what is the specific thing, Ji Feng does not know yet.

However, Ji Feng found that when the little uncle finished his words, he saw his grandfather frown imperceptibly, originally because of old age and slightly cloudy eyes, suddenly flashed a cold light.

Ji Feng was greatly surprised!

Because in that instant, he actually felt an unprecedented aura from his grandfather, it seemed to be a killing aura, but more thick, this killing aura even if it was not directed at him, but also let him feel an illusion of a thousand horses.

This makes Ji Feng is very surprised, did not expect the old man is so old, actually still have such aura!

"This is probably the old man commanding the army to conquer and kill half a life, in the battlefield developed a kind of killing aura." Ji Feng secretly thought.

"Little Uncle, you just said that this matter is also related to me?"

Ji Feng asked, "What exactly is the matter? How come a dozen old people died?"

To say that a dozen people died, it was only when he killed a dozen ..... in the northeast in fact, if you add Scarface those gang members, more than a dozen died in his hands.

Besides, Ji Zhenping was talking about the south .....

"Lao-san, is the Vietcong brats picking things up again?" Before Ji Zhenping could say anything, Elder Tie asked.

"Eight `nine not far from ten!" Ji Zhenping said, "Our people arrived after the fact and did not see anyone, but judging from the traces left by the other side, this is exactly the way the Vietnamese have always done it!"

"Vietcong brats, when killed!" Tie Long heard the words, immediately angry beard hair, a pair of eyes glared up, "it seems that year that a war, has not beaten them afraid!"

Ji Zhenping's face was also very unpleasant, but did not rush to speak, but waited for the old man to state his position.

"Where did it happen?" Elder Ji, however, did not look too angry, but asked with a slightly calm voice.

"In the southwest border, it is a small village by the mountains, the majority of the village people rely on the mountains to hunt some game, or pick some medicinal herbs to sell at the market to sustain their lives, the villagers who were killed originally also went to the mountains to hunt, but delayed to return, the village people went to the mountains to find, the result ... .."

Ji Zhenping gritted his teeth and said, "What Chief Xiang means is that we can't let them run wild like this anymore, we have to do something!"

"That's right!"

Elder Ji nodded slightly and said, "As a soldier, you should have such bloodlust! If you can't even protect your own people, then what do you need a soldier for?"

Ji Zhenping was immediately overjoyed, "Old Master, then you mean that you agree with Chief Xiang's idea?"

Master Ji said, "Back then, the Great Ancestor had a saying, 'I will not offend if people do not offend me!'"

Ji Zhenping then understood that the old master was agreeing. It seems that this matter has also made the old man angry, but the old man is used to seeing life and death in his life, so he will not show it so obviously.

He was just about to speak when he heard the old man say: "But remember one thing, no losses! You can't lose the prestige of my China!"

Ji Zhenping immediately nodded and said, "Old master, just rest assured, if I can't even clean up the brats in Vietnam, then I will voluntarily resign!"

"Nonsense!"

Elder Ji but glared at him, "How old are you, still so unruffled!"

Ji Zhenping laughed, but looking at the ruthlessness in his eyes, he knew that this time he was determined to give the Vietcong brats a hard time, and would never just give up!

And, if you really lose the battle, I'm afraid Ji Zhenping can't really get past his own hurdle.

"In addition, also remember, to be reasonable and justifiable, now our external environment in China is not good, do not give people leverage, to make the other party have bitterness can not say, this is the ability!" Elder Ji said again.

"I understand."

Ji Zhenping nodded his head and said.

Master Ji then nodded in satisfaction, and then asked, "You just said that you are going to say this thing is related to the little monkey, and what is it?"

Ji Zhenping looked at Ji Shaolei, who hurriedly said, "Little Uncle, don't look at me like that, I promise not to say anything I hear, I'll keep it in my stomach!"

But Master Ji waved his hand and said, "Brat, don't you want my wine? Go get it yourself!"

"....."

Ji Shaolei dropped his head and went, but did not walk a few steps, his mouth secretly grinned, in fact, he was not interested in listening to what national affairs, compared to the old man's special supply of cigarettes and wine is his favorite.

After Ji Shaolei left, Ji Zhenping then said, "This is the case, this time a dozen old people died, in fact, and the previous or different ....."

“What’s different?” The old man asked.

“Previously, after the Vietcong kids killed our people, either thrown into the river, or the body is there, arrogant and arrogant to the extreme, but this time, but a few people were buried, and buried very hidden, if not the troops to help find, may not be able to find!”

Ji Zhenping said: “And the strangest thing is, after these people were dug up, but found that their bodies have been burnt, but after careful observation and research, but still can see some abnormal conditions, these people’s body wounds are extremely unusual, even our soldiers have never seen, and so the soldiers sent over the photos, after expert analysis, the conclusion is that these people are very unusual, even our soldiers have never seen. The conclusion is that these few civilians are likely to be killed by a weapon that has never appeared before!”

Once these words came out, Ji Feng was slightly stunned and subconsciously asked, “A weapon that has never appeared before? What is it?”

He suddenly realized why the little uncle would say that this matter also has a certain relationship with himself, this never appeared weapon, is it a laser gun?

“What exactly is the weapon, for the time being is unknown.” Ji Zhenping shook his head, “but according to your previous description, I think that the wound is very much like a laser gun left behind, so I intend to let you go take a look, what do you think?”

“No problem!” Ji Feng immediately nodded his head.

Surprisingly, a laser gun appeared again? Ji Feng really wants to go and see, if it is really laser guns, then it means that this matter is not so simple, and the death of those dozen old people may not be just a provocation of the little kids from Vietnam!

Ji Zhenping said, “Then, good, you arrange it, and leave as soon as possible.”

Ji Laozi listened on the side, did not say much, just in his half-open, half-closed eyes, but in contemplation .....

The first thing you need to do is to have a good time.

After all, the old man is old, his energy is certainly not comparable to theirs, but when he left, the old man was exhorting Ji Feng and Ji Zhenping.

“You two remember, dignity and prestige is to fight out, a single modesty and forbearance, can only be exchanged for a moment of peace, but can not be exchanged for long-term peace, will only let some jumping clowns feel that you are weak and can be deceived, will be more and more stomp on the nose!” The old man said.

Ji Zhenping and Ji Feng nodded at the same time, they understood what the old man meant!

Afterwards, several people left the East Sixth Street courtyard.

When they came to the street outside and were ready to get into the car, Ji Zhenping said, “Little Feng, you take my car, let Shao Lei go back first.”

“Got it!”

Ji Shaolei shook his head and said, “I know you guys are discussing national affairs again, I’m very sensible, I definitely won’t disturb you guys, bye!”

Ji Feng then laughed: “Little Uncle, you don’t have to care about him, he still has a few cases of wine that he hasn’t moved out.”

“You brat .....,” Ji Zhenping then pointed at Ji Shaolei and cursed with a laugh.

After joking, Ji Feng followed Ji Zhenping to the car and asked, “Little Uncle, is there something else you haven’t said?”

Ji Zhenping said, “You kid is just resourceful ..... is this, you were assassinated in the Northeast still remember the matter?”

Ji Feng nodded and said, “Remember ah, why?”

“Know what kind of person did it?” Ji Zhenping asked.

“I don’t know.” Ji Feng shook his head and said, “That gunman was hired by someone, but didn’t know exactly who was hiring him .....”

“It’s Dynasty!”

“..... what?”

Ji Feng immediately frowned: “Little Uncle, not mistaken, right? Although the dynasty is powerful, but they are also human, and not God, how can so accurately know that I will be there to clash with the police? And then so accurately arrived at the location to assassinate me?”

Ji Feng was not without the thought of dynasty this possibility, but it was quickly ruled out by him.

“Little Uncle, how did you know that?” Ji Feng asked suspiciously.

“Humph!”

Ji Zhenping coldly snorted, “You think my nephew was assassinated, and it can be left so untouched in my place?”

Ji Feng then understood that the younger uncle must have investigated through his channels, again in secret.

“But ..... that assassin is not a reformer, ah, nor too strong, which is a bit inconsistent with the style of the people of the dynasty, ah?” Ji Feng said.

Dynasty’s people, Ji Feng since he knew there was such an organization, he had never seen the strength too bad, unless it was a peripheral member.

But since the dynasty wanted to kill him, how would it send only a peripheral minion over?

Ji Zhenping said, “To be precise, actually the first assassin you took out was the one from the dynasty! He was a reformer!”

Ji Feng froze for a moment: "The first one?"

He knew which one Little Uncle was talking about, there were a total of two people trying to kill him, one was hidden among that group of riot police, and he ended up snapping his neck directly in a fit of rage, because at that time he knew that there was a second killer hiding in the periphery.

But he did not expect that the first killer was the one from the dynasty!

Campus Master Chapter 2473

Ji Feng puzzled: "But, at that time, I have ..... I did not find that he was a modified person ah!"

Ji Zhenping said, "He was not transformed to a great extent, only afterwards when the autopsy was performed, it turned out that in his heart area, was implanted with a biological bomb!"

Biological bomb?

That is definitely a modified person, and it is also certain that it is someone from the dynasty!

Ji Zhenping said in a deep voice: "It seems that the dynasty has never given up on your assassination, so this time you have to go to the southwest, you must be careful."

Ji Feng pondered for a while before he said, "Little Uncle, I think this is very strange."

"How so?" Ji Zhenping asked.

"Dynasty hasn't been in my sight for a long time, but how could they be so godlike and know so accurately that I would be in the northeast, on that road, and still in conflict with the police? Even if they put a location tracker on my body, they can't do it, right?" Ji Feng asked.

Ji Zhenping said, "This is the scary part of the dynasty!"

Ji Feng couldn't help but be surprised, even little uncle used the word 'terrifying'?

"I specifically sent someone to interrogate the second assassin you caught, and according to his explanation, he and that assassin from Dynasty actually cooperated on a temporary basis!" Ji Zhenping said, "It was Dynasty's assassin who took the initiative to find him after discovering him, and right on the spot they reached a cooperation!"

Ji Feng was stunned: "They were temporarily cooperating?"

He had some remorse.

Because when he interrogated that second assassin, he also specifically asked whether those two assassins were accomplices, the result of that guy nodded and said yes, Ji Feng also did not ask further questions, but he was not thinking that the two assassins were only temporary cooperation between them, that is, those two assassins were only accomplices when it came to assassinating him!

And before that, the two of them may not have seen each other .....

"Careless!" Ji Feng couldn't help but shake his head and say to himself.

“Your understanding of the dynasty, in fact, is not too deep.” Ji Zhenping said, “The dynasty’s power in China is indeed almost beaten, but that is only the main force, but its peripheral members, but there are still many that have not surfaced. Moreover, we have not caught a single one of the dynasty’s backbone.”

“Who is the king, and which is the young duke, in the end they still have a stronghold in China like the original South Yue that ..... these questions, now we have not yet figured out!” Ji Zhenping said, “The most important thing is, where exactly does the dynasty come from? This is a private hidden organization, or a certain country or a certain number of countries privately built an organization?”

Ji Feng could not help but be silent, these questions, he indeed did not know.

“Just as we investigate these, the dynasty is actually developing secretly.” Ji Zhenping said.

Ji Feng asked, “What do you mean?”

Ji Zhenping said: “According to some intelligence and signs to judge, the dynasty in recent times, the power in China seems to be somewhat resurgent, and this time more covert, according to our intelligence officers spy news, the dynasty in China’s big head, the king, has returned to China, and seems to have achieved certain results!”

Ji Feng said in surprise: “When did he come back?”

Ji Zhenping shook his head: “The exact time is not quite clear, but according to speculation, it should be within this year, and it is likely that it is the most recent!”

“Recently?”

Ji Feng could not help but frown, thinking hard for a while, still could not help but shake his head and said, “No clue .....”

Through past contacts, Ji Feng knew that the king and the little prince were probably people he knew, or had dealt with himself, especially the little prince, who was extraordinarily hateful to himself, and if it was just a mutual hostility, there was no personal grudge then it should not be so.

But who are the king and the little prince, Ji Feng but how do not have a clue.

“No clue, just think slowly and investigate slowly.” Ji Zhenping said, “Now it is certain that the dynasty still has a residual force in Huaxia Ken, and must have made some development, otherwise, the dynasty is not so fast to know that you are in the northeast!”

Ji Feng slowly nodded his head, as if in thought.

“In addition, if we judge based on some of the current situation, perhaps we can come to this conclusion – the dynasty was hit hard before, at least in China’s power was hit hard, and until now has not been how much recovery!”

Ji Zhenping said: “Those days you were in the northeast, but a good time to assassinate, many enemies, and unfamiliar, convenient to do, but the dynasty only sent a fighting force is not too strong to strike, see, the dynasty is afraid that there are not many available people for a while.”

Ji Feng nodded thoughtfully and said, "But this is quite worthy of alarm! This at least indicates that after such a long period of silence, the dynasty's power in China has recovered again, and, with a systematic command!"

Ji Zhenping said, "This should be related to the king's return to China! The boss has returned, so his men naturally have someone to command!"

Ji Feng nodded his head, he agreed with this statement of Ji Zhenping.

"It looks like the work of defending and cleaning up the dynasty will have to be strengthened next." Ji Zhenping said

"Well! The end has emerged, we must start preparing in advance." Ji Feng said.

Ji Zhenping said in a deep voice: "The dynasty's means of controlling people is too ruthless, directly into the human body implanted biological bombs, or after people are transformed, they must rely on the food provided by the dynasty to survive, this direct control over the means of life and death of others, so no one dares to resist, so if the dynasty wants to develop, the speed will be absolutely frighteningly fast!"

Ji Feng could not help but fall into a deep thought, speaking of the transformation of human food, he had really captured a few transformers alive before, and handed over to the military, but did not expect the final really because of the shortage of 'food', the result let those few transformers starve to death .....

I have to say, the dynasty in the control of people, is really terrible!

"Little Feng, next you have to be careful, now the situation has gradually become clear, the king and the young duke hate you so much, maybe when they will strike at you again!" Ji Zhenping reminded.

"I know."

Ji Feng nodded slightly, but his heart was coldly smiling, the king and the young grandson ..... they do not appear is just, as long as they appear again, Ji Feng will definitely not let them escape again!

He must find out what kind of organization this dynasty is and what it really wants!

"Right, there is one more thing you should pay attention to!" Ji Zhenping suddenly said.

"What?"

"In recent years, from time to time in the world, there are some scientists and experts mysteriously disappeared, some people suspect that these people are not captured by the dynasty, otherwise the dynasty's technology would not have developed so frighteningly."

Ji Zhenping said with a grave expression, "Now your Tengfei Group is technologically advanced, if the speculation is true, there is no guarantee that the dynasty will not set its eyes on the experts in the Tengfei Group, this aspect you should also pay high attention!"

He suddenly remembered that once in the car listening to the radio, it seems to hear that what scientists have disappeared again and so on, at that time he had some not so good feeling, but at that time but could not say a so, so did not care too much.

But never thought .....

“I will pay attention!” Ji Feng nodded his head.

“You just be vigilant.”

Ji Zhenping said, “Below, I’ll tell you about some of the circumstances of this trip to the southwest.”

Ji Feng nodded his head and listened carefully.

“Just now at your grandfather’s place, in order not to let your grandfather worry, I did not say too much detail.” Ji Zhenping said, “In fact, those few villagers who were buried, the wounds on their bodies have been tested, that is, the wounds caused by an extremely strong energy, I estimate that it is likely to be caused by a weapon similar to a laser gun.”

This time, Ji Feng was not too surprised, because before he had a guess, he was instead very interested in knowing about the southwest.

Ji Zhenping said: “In recent years, with the rise of China, the rice country and the boundary pong is a bit sitting down, so urge some ambitious things around the constant provocation of China, this bunch of animals is constantly on the ordinary people!”

Ji Feng frowned: “Do we have no countermeasures?”

Ji Zhenping said, “In the past few years, there have been several small-scale confrontations or battles, and the other side has suffered many deaths and injuries, but the deaths are all ordinary soldiers, those ambitious bastards will not personally go to the front line! The country is now in an eventful period and cannot concentrate on teaching these bastards a lesson, so there is no better way now!”

Ji Feng said, “Can’t we assassinate?”

Ji Zhenping shook his head and said, “If it’s so easy to assassinate, do you think these bastards can still live until now?”

Ji Feng then pursed his lips and did not speak.

A moment later, he said, “Maybe ..... I can try!”

Ji Zhenping waved his hand and said, “Let’s talk about it later, first take care of the matter at hand ..... although you are strong, but assassination is different from sparring, you have not undergone professional training, you may not even be as good as an ordinary agent when you really perform assassination!”

Ji Feng still wanted to say something, but Ji Zhenping said, “This time you go to the southwest, will go with the special operations brigade, Xiang Yongzhan will personally lead the team, I have no other requirements for you, as long as you judge as far as possible what weapons the other side actually used, in addition, you promised to the chief of the radium gun, but also as soon as possible to get out.”

Ji Zhenping's mood was heavy and his voice was low, "If there really is a force that has used the laser gun as a conventional weapon, then in the next contest, we don't know how many of our soldiers will be killed or injured, as well as those innocent villagers ..... bastards!"

At the end of the sentence, Ji Zhenping could not help but curse angrily.

Ji Feng opened his mouth, but did not speak, but his heart is already secretly determined, if possible, he really want to go to give those ambitious bastards a 'surprise'!

Campus Master Chapter 2474

"Really, this is just a few days back na, so hasty to leave, now the school is not already closed!"

The living room, Xiao Su Mei while helping her son pack his luggage, while complaining.

It's no wonder that Xiao Su Mei complained. After she heard about Ji Feng's accident in the northeast, she hardly relaxed her nerves and was on tenterhooks all day, asking about Ji Feng's situation as soon as her husband came home.

Later Ji Feng easily came back from the Northeast, but only stayed at home for a few days only, and then to leave!

Xiao Sumei's heart was naturally reluctant.

"I'm just going back to take care of some things, I'll be back soon!" Ji Feng said.

"Humph!"

Xiao Sumei said: "You have so many girlfriends out there, and you still want to come back?"

Ji Feng sweated a little: "Mom, I'm not as bad as you say, right?"

Xiao Su Mei said: "afraid to say, then honestly, you said you provoked so many girls, how can we do in the future yo ....."

Ji Feng laughed bitterly, but this thing his own heart weak, so do not dare to say anything more, can only dry laugh.

Xiao Su Mei also just complained for a while, but still carefully to help his son pack his luggage, and a good deal of instructions, such as a change of clothes in the box of which sandwich, towels and what in which sandwich, she all carefully dictated.

Ji Feng constantly nodded, not half impatient, this time he seemed to be back to a few years ago in Mang Shi County, when he was dependent on his mother, his mother would often so admonished him, at that time, although their days were very bitter, but Ji Feng heart is very warm.

And these years, although their days are better, but with the mother's time is a lot less, and even every time you come back is in a hurry, can not stay much longer to go back.

Seeing his mother's concerned look, Ji Feng suddenly had a sour heart.

Finally, in the mother's admonition, Ji Feng hugged her, and only then left, but in the car, his heart is a kind of indescribable melancholy, but this is never before the feeling.

Ji Feng went directly to a military airport located in the suburbs of Yanjing and flew to Jiangzhou on a military plane.

After arriving in Jiangzhou, he first went home, and Tong Lei and Xiao Yuxuan slightly get together. This time in the northeast accident, Ji Feng did not know if there is any wind to their ears, but they have not asked, so Ji Feng did not say, just dutiful to accompany them.

“Little rascal, be careful outside, don’t be in danger again.” At the time of leaving, Xiao Yuxuan but suddenly admonished.

“You all know?” Ji Feng was stunned and asked.

“You have such a big thing in the northeast, how can we not know? Xiao Yuxuan angrily said.

“Then why didn’t you guys ask?” Ji Feng was a bit strange.

Xiao Yuxuan organized Ji Feng’s clothes for him before saying, “It’s good that you came back safely, the process in between, I don’t want to know.”

Because that would make her feel worried.

Tong Lei likewise nodded slightly: “Ji Feng, when you want to take risks, think more about me and Sister Yu Xuan! We are waiting for you at home!”

Listening to Tong Lei’s words that contain the purest feelings, the softest part of Ji Feng’s heart was touched once again, and he immediately hugged the two women tightly: “Lei Lei, Yu Xuan, thank you.”

Xiao Yuxuan and Tong Lei gentle smile.

Only after the three separated, Xiao Yuxuan took Bai Zhu’s hand again and admonished, “Bai Zhu, from the time we step out of the gate, Lei Lei and I will leave him in your hands, you have to take care of him!”

Bai Zhu blushed, a panicked look flashed subconsciously in her eyes, and nodded in a panic: “Don’t worry, I will take good care of Ji Shao!”

Xiao Yuxuan glanced at Ji Feng, if anything, before saying, “All right, hurry up and go!”

Waiting until Ji Feng left with Bai Zhu, Xiao Yuxuan turned her head to look at Tong Lei, but saw that the latter was also looking at her, the two looked at each other, Tong Lei pursed her lips and smiled lightly, but Xiao Yuxuan gave a petulant grunt and said: “Lei Lei, you are so spoiled him ah?”

Tong Lei pursed her lips and said, “I spoiled him?”

Xiao Yuxuan angrily said, “My grandma, you still haven’t realized ah? If you hadn’t spoiled him, he would have dared to go out and attract butterflies everywhere?”

Tong Lei laughed lightly: “Then you are not also to thank me ah?”

Xiao Yuxuan suddenly thought of something and couldn’t help but blush her pretty face, and suddenly stopped talking.

“Giggle .....” Tong Lei was instantly happy and couldn’t help but laugh.

“You girl .....”

Seeing the usual almost rarely such cheerful child Lei are laughing into this look, Xiao Yuxuan suddenly is shy and angry, reach out to scratch child Lei, the two suddenly laugh together.

After a while, Xiao Yuxuan said, “Say! I am a bee or a butterfly?”

Tong Lei laughed: “Sister Yuxuan, you think too much.”

Xiao Yuxuan then hated: “I did not think too much, it is you this girl learned bad to .....”

Of course she knew what Tong Lei was laughing at, in fact she also realized that she said the wrong thing, if Tong Lei spoiled Ji Feng, so that he is outside to attract butterflies, then if so, she herself is not also belong to Ji Feng to attract butterflies?

The two joked for a while before Tong Lei said, “Sister Yu Xuan, in fact, of course I can see that the relationship between Bai Zhu and Ji Feng seems to be unusual, but he himself does not say, if I go to ask him, but some bad.”

Xiao Yuxuan helplessly covered her head and sighed, “It’s over, with you so dominant great grandmother, it seems that our family that little rascal will be more and more reckless I’m afraid.”

Tong Lei then whispered, “He won’t!”

“Why?”

Xiao Yuxuan was surprised and asked, “Are you so sure?”

Tong Lei said, “I believe in him.”

Xiao Yuxuan immediately just froze, looking at the deep and calm child Lei, did not speak for a while, child Lei’s words caused some feelings of Xiao Yuxuan, she thought of a lot.

At the same time, Ji Feng has gone straight to the Jiangzhou military district. Xiang Yongzhan was already waiting for him with the special operations brigade.

“Old brother, I didn’t expect this just separated in the northeast, but actually in the blink of an eye, we are fighting side by side again!” Seeing Ji Feng, Xiang Yongzhan said excitedly.

Ji Feng’s strength, to Yongzhan is too clear, this guy’s terrifying hands, in the northeast has once again been verified, especially when to Yongzhan learned the details, almost did not drop his jaw in shock.

Ji Feng asked: “Are you ready?”

Xiang Yongzhan waved his hand: “Don’t worry, everything is ready.”

Afterwards, Xiang Yongzhan took the special operations brigade onto a small transport plane, Ji Feng and Bai Zhu also followed behind and got on the plane, looking at the special operations brigade that sat in two rows, a stern atmosphere, Ji Feng secretly nodded his head.

These people are out, he does not believe that the kid of Vietnam can still play any tricks!

In the airport and did not delay for a long time, the plane began to take off, and after the plane flew smoothly, Ji Feng asked, "Old Xiang, tell us the details."

When it comes to business, Xiang Yongzhan's expression became serious: "Older brother, go to the front cabin to talk."

Ji Feng nodded, he understood that this is for confidentiality reasons, the cabin is not convenient to discuss some issues with confidentiality, so he also did not let Bai Zhu follow, but alone and Xiang Yongzhan went to the front cabin.

"We are going to Xinma this time, located between Vietnam and the 100,000 mountains, the tragedy occurred in a mountain village below Xinma, that is, in the 100,000 mountains." Xiang Yongzhan said, "We have to go through the hundred thousand mountains and enter the country of Vietnam, according to intelligence, on the other side of the hundred thousand mountains, there is the military station of Vietnam!"

Ji Feng asked, "Then what is your mission?"

Xiang Yongzhan said, "This is confidential and cannot be told for the time being. What I can tell you is that this time the operation code name – revenge!"

"Revenge?!"

Ji Feng instantly understood, this code name alone is enough to explain the problem, Xiang Yongzhan they go over this time, should be to retaliate for the tragedy created by the Vietcong in the mountain village.

But how exactly to act, who is the target of revenge, because it is confidential, so Xiang Yongzhan did not say, Ji Feng naturally will not ask more.

"Then when we reach the destination, do we act together, or do we split up?" Ji Feng asked again.

"First together, then separate."

Xiang Yongzhan said, "I can't say much now, I'll tell you when we get to the place. Now, I'll tell you about the rest of the situation."

Ji Feng nodded and said, "Go ahead."

Xiang Yongzhan said, "This place, Xinma, is a place where many ethnic minorities live, and because of the border with Vietnam, so there are many Vietnamese here, and even include some other countries in Southeast Asia will also come here, this place mixed, especially in the border area, some violent crime is more than very much!"

Ji Feng nodded slightly and said, "Speaking of which, it's like a trivial zone?"

Xiang Yongzhan said: "Almost this is the meaning, but in the new horse downtown, or will not be so bad, but in the periphery on ..... after all, some people if they commit a crime, as long as the border line over there, our side of the police have no way to catch people, this is also the root of the security problem! "

Ji Feng nodded slightly, the new horse this place he had heard, it is said that this place is quite chaotic, daytime is fine, once at night, here is almost a criminal paradise, what violent crime, smuggling, drug trafficking and so on some criminal activities almost everywhere.

The Chinese side has made great efforts to rectify the situation, but it is very difficult to cure.

Ji Feng remembered that he once watched a TV series, which is based on the background of the New Malaysia police to combat crime.

You can imagine how chaotic New Malaysia has become!

“Chinese people here are very bullied?” Ji Feng suddenly asked another question.

“Very bullied!”

Xiang Yongzhan nodded slightly, his face was not too good.

Campus Master Chapter 2475

“Are the Chinese people here being bullied?” Ji Feng suddenly asked again.

“Very much bullied!”

Xiang Yongzhan nodded slightly, his face not looking too good.

As a soldier, the last thing he could see was the people of his country being bullied by foreigners, so naturally, Xiang Yongzhan was not happy.

Ji Feng frowned and asked, “Why? Isn’t Xinma the territory of China? Chinese people should be strong here!”

Xiang Yongzhan said, “Because our country has weapons control and the common people do not have weapons in their hands, while those who have roamed over from some countries like Vietnam almost have weapons in their hands, once there is a conflict, naturally it is our common people who will suffer.”

Ji Feng nodded for a change, but his brow was furrowed even tighter.

Xiang Yongzhan added: “There is another reason, our common people live here, they all have families and homes, no one wants to clash with those desperadoes, so if they encounter anything, they usually have to hold their breath.”

Ji Feng frowned and said, “Hasn’t any solution been thought of to solve this problem?”

Xiang Yongzhan said, “Why not! Do you know how many foreign bandits have been executed by firing squad alone over the years? But they can’t be stopped at all! If we were to use thunderbolts, yet we have to consider the international impact and the reaction of Vietnam and some neighboring countries, so in recent years the urban areas of New Malaysia can only expand as much as possible in the direction of the country!”

Ji Feng snorted coldly, “How can such problems be completely solved just by relying on the officials? There are some things that require violence to be used to counter violence, that is the most effective way!”

Xiang Yongzhan gave him an astonished look, "It seems that you don't know nothing about the local situation, do you?"

Ji Feng asked, "How so?"

Xiang Yongzhan said, "What you said about countering violence with violence, in fact, it's not that the above hasn't considered it, in New Malaysia, there are two relatively large gang organizations, and one of them has a backbone of members who are almost all some veterans, understand?"

Ji Feng was suddenly dumbfounded and said, "So that's how it is."

Using veterans to form a gang, and using the methods of the underworld to cure those bandits who had roamed over from abroad, this was using violence to counter violence, which was a good way.

Ji Feng asked again, "What about the other gang?"

"The other ....."

Xiang Yongzhan said, "The other gang is formed by people from Vietnam, and there are often clashes between the two gangs, because this is not in the territory of Vietnam, so the gangs from Vietnam are unscrupulous and dare to use any means, and even some ordinary people are affected, so even though there are checks and balances in the underworld, the ordinary people are still bullied."

Ji Feng nodded and didn't say anything else.

Xiang Yongzhan sighed lightly and said, "This kind of thing is the most helpless, the relationship between countries is very complicated, unless one can completely beat the Vietcong into fear, so that they don't dare to offend China, let alone bully the Chinese! Otherwise, none of this situation will be fundamentally alleviated, which is why many people in Xinma have left in recent years ....."

Ji Feng listened, not saying much, but his heart was uncomfortable.

I didn't expect that Chinese people would still be so bullied in Chinese territory.

As the two chatted idly, the plane arrived near Xinma and landed at a border force station not too far away from Xinma, and after that, they took a helicopter and landed near a mountain forest.

"Captain Xiang, the village where the tragedy occurred is about two kilometres ahead, but it's all mountainous and not easily accessible, so we'll have to walk there." The man who spoke was a captain company commander of a border unit near Xinma, named Cui Guangming.

"Then we'll walk across!" Xiang Yongzhan nodded his head and said.

Under the leadership of that captain company commander, the group entered the mountains, the two kilometre mountain road was really no obstacle for the soldiers of the special combat brigade, and it didn't take long for them to reach a small mountain village located in the mountains.

This was an ethnic minority village, and the buildings in the village all carried the unique style of ethnic minorities, only that when Ji Feng and the others entered the village, the place had a deadly feeling, and even when some villagers saw them, they looked at them with incomparable vigilance, then turned around and ran.

Cui Guangming said in a somewhat low voice, "That tragic case a few days ago scared the villagers in this village, in the past when we passed by on patrol, they were never afraid and would even enthusiastically offer food ....."

Xiang Yongzhan's face then turned a few shades darker, he didn't say anything more, he just coldly said, "No matter who did this, those beasts will definitely not end up well!"

At this moment, the warriors of the Special Combat Brigade had already been put on alert, and two warriors had already gone far ahead and entered the mountain forest to take charge of the front post. Behind and on both sides there were likewise warriors on guard.

Xiang Yongzhan asked in a deep voice, "Have you found out who did it?"

Cui Guangming shook his head and said, "Not yet, there are no obvious clues at the moment."

"Is it the Vietcong brats?" Xiang Yongzhan asked.

"I'm not sure."

Cui Guangming said, "We have found Vietcong brats brutalising our people before, but they were taken out without escaping, but that was only deep in the mountains and forests, and only two villagers were killed, probably because they inadvertently broke through the Vietcong brats infiltrating our territory, and that's why they were silenced, but this time... But this time... a dozen of them!"

Xiang Yongzhan's face turned a few more shades darker.

Ji Feng suddenly opened his mouth and asked, "Where are the bodies of those villagers?"

Cui Guangming said, "In the village's main fortress, because these villagers have special customs, they didn't allow us to take the corpses away, so we had to temporarily send warriors to guard them, while taking photos and reporting them."

Ji Feng said, "I want to go see those villagers' corpses first!"

"This ....."

Cui Guangming then looked towards Xiang Yongzhan, Ji Feng was not wearing a uniform and did not seem to be a soldier, plus there was a white pearl next to him, which made Cui Guangming wonder if he should listen to his orders.

Xiang Yongzhan knew that Ji Feng had also come with a mission this time, so he nodded slightly.

Afterwards, under Cui Guangming's leadership, Ji Feng and his party arrived at the 'Zhengzhai' as Cui Guangming called it. According to Cui Guangming's introduction, this was what the locals called it, which was actually a building similar to an ancestral hall and had a status similar to that of an ancestral hall in the village, except that it was more rudimentary than many ancestral halls.

"Bai Zhu, you wait outside first?" Ji Feng said.

"No need."

Bai Zhu shook her head slightly and said, "It doesn't matter what kind of scene it is, it won't affect me."

Ji Feng then nodded, he knew that Bai Zhu was used to seeing scenes of dead people, so he didn't say anything more and followed Cui Guangming into the main fortress and saw the dozen of villagers' corpses.

However, even though Bai Zhu was used to seeing dead people, he couldn't help but blush at the sight of the dozen corpses at this moment.

Ji Feng even frowned fiercely!

A dozen of corpses were just laid out on the ground, side by side, with only a layer of tarpaulin-like stuff covering them. As the two soldiers in charge of guarding them lifted the layer, the corpses were revealed in front of several people.

"Bastards!"

When Xiang Yongzhan saw this scene, he couldn't help but curse angrily, "Son of a bitch, bastard!"

A cold aura also flashed instantly in Ji Feng's eyes!

The majority of the dozen corpses on the ground were covered with bullet holes, a few of them even had bullet holes all over their faces, and their heads had turned into beehive coals!

It was as if someone was holding a submachine gun at them, and each of them had taken at least one bullet in their bodies!

It was like someone was holding a submachine gun and shooting at them.

Treating a dozen ordinary civilians with such cruelty?

Xiang Yongzhan's face was so gloomy that water was almost dripping out of it, his teeth were clenched, and looking at his clenched fists, he could not wait to immediately find out the murderer and kill him on the spot!

Ji Feng did not lose his temper too much, but his gloomy face and the cold light in his eyes fully illustrated how angry he was in his heart at this moment, he had seen many scenes of death, and even many people had died in his hands.

But to use such a method against these unarmed villagers, this was a massacre!

It was unbearable!

"Bastards!" Ji Feng was silent for a moment before he finally couldn't help but curse out.

"You guys are looking at a few corpses ....." Cui Guangming, however, had already seen these corpses more than once, so he didn't react much now, but pointed to the ones next to the most, "These corpses have injuries are very strange!"

Ji Feng looked over in the direction he pointed, and saw that these corpses were already charred and black, and their bodies were in a curled up position.

"This was burned by fire."

Xiang Yongzhan said, "The key is the injuries on these people ..... Ji Feng look carefully, the injuries on these bodies, is there anything strange about them?"

Ji Feng sunken his face and stared at one of the corpses, carefully surveying it, but after a few moments, he couldn't help but frown, a meaningful look of surprise on his face.

"This wound ....." Ji Feng stared at the corpse carefully and squatted down, he found that the wound of the person was really unusual.

"See?"

Xiang Yongzhan said, "This wound is particularly strange!"

Ji Feng nodded slowly and said, "It's very strange!"

The wound was indeed very strange, in the chest of this corpse, there was only a very small and tiny wound, which was only about the thickness of two matches.

But perhaps because the corpse was burnt and curled up, the wound could be seen to be deep and penetrating to the inside of the corpse, and if one looked closely one could see that if the corpse was lying flat, then the wound was circular!

"Look, this is the shape and depth of the wound detected with the instrument!"

Xiang Yongzhan handed over a photo: "This wound, which penetrated this man's body, is a standard round shape, and there is no damage to the inner wall of the wound, it's almost as if such a small hole existed in his body itself! It's bizarre!"

"Look, this is the shape and depth of the wound detected with the instrument!"

Xiang Yongzhan handed over a photo: "This wound, which penetrated this man's body, is standard round, and there is not the slightest damage to the inner wall of the wound, it's almost as if such a small hole existed in his body itself! It's bizarre!"

Bai Zhu casually picked it up and gave it a brief glance before handing it to Ji Feng: "Young Ji."

Ji Feng didn't turn around, he just took the photo with his backhand and brought it to his eyes to look at it.

He only saw that the photo showed a long circular hole that looked as if it was the inside of a tube, and although the tube appeared to have some curvature, the analysis results on the white space left next to the photo showed that the wound was the same size in terms of wound area from the beginning to the end.

"According to the expert's analysis, if the corpse hadn't been badly deformed because it was burnt, this wound would definitely be in the shape of a tube." Xiang Yongzhan said from the side.

"Hmm. I saw it." Ji Feng faintly nodded his head.

In fact, what he saw with both eyes was even clearer than the instrumental detection on this photo, because he had urged the bio-current to act on his eyes, and he could see everything inside this corpse clearly.

If we put aside the issue that the corpse was burnt and the wound was deformed, Ji Feng could see at a glance that the wound was a long and thin shape, and the inner wall of the wound was very smooth, almost no different from the inside of some tubes.

And what struck Ji Feng the most was that the wound was actually very deep, passing through the chest of the corpse and penetrating all the way to the back of the corpse.

The point was that the inside of this wound was actually burnt too, and it seemed to be burnt even more than the surface of the corpse!

This was strange, although the corpse was charred, because the area of the wound was exceptionally small, it was impossible for the flame to burn inside no matter how strong it was, much less leave such a regular wound.

“Phew~~!”

Ji Feng stood up and shifted his gaze to several other charred corpses, carefully looking at them for a while, even one of them Ji Feng carefully looked at the front and back before he ended his examination and had the charred corpses covered with tarpaulins.

Then, Ji Feng’s gaze fell on some other corpses.

“According to the inspection, there are no other injuries on these corpses, only bullet holes, and many of these bullets have hit the vital points.” Cui Guangming introduced beside him.

“I’ll take another look.”

Ji Feng nodded and said.

Cui Guangming was right, even after looking at all of them with his penetrating eyes, Ji Feng didn’t find any other injuries on these corpses, they were all bullet holes, and the vast majority of them had been fatally shot by bullets that had penetrated the front chest and then hit the internal organs.

“You guys are experts when it comes to firearms, seeing these corpses, are you able to speculate on the scene at that time?” Ji Feng turned his head and asked.

“Too detailed scene analysis department came out, just from the bullet holes on these corpses, and the flesh around the wounds, at that time these villagers must have been shot at close range, and with a very powerful automatic rifle for strafing.” Cui Guangming said, “We also found the shell casings and slugs they left behind at the scene, all of which were automatic rifles, a standard weapon!”

Ji Feng frowned and asked, “It’s a Vietcong-made weapon?”

Cui Guangming shook his head and said, “Not just from Vietnam, but also from Kepong, the Philippines, etc. The weapons were very mixed, as if soldiers from several countries had killed these villagers together!”

Xiang Yongzhan couldn't help but sneer at his words, "It's just a cover-up!"

Ji Feng nodded, I'm afraid that the other side used the standard weapons from so many countries just to keep people from catching them, but the fact that they all used standard weapons said something.

These people were doing this just to cover their ears!

Ji Feng looked back at the corpses again and nodded thoughtfully, "Alright, I've finished looking at them, let's go out."

When he came outside, Xiang Yongzhan couldn't help but ask: "What about it, did you see anything?"

Ji Feng shook his head and said, "No, the wounds on those burnt corpses are strange but I can't tell anything, I'm also confused now."

Xiang Yongzhan couldn't help but be a little disappointed, originally he was expecting Ji Feng to be able to see something after he arrived, or it would be best if he could immediately tell what kind of weapon had killed these villagers.

Because if, as those experts had speculated, there was a powerful new weapon that had appeared, that meant that if they confronted someone with these weapons in the future, they were afraid that they would have to suffer a big loss, and might not even be able to defend themselves at all!

At the same time, if they could tell what kind of weapon it was, they might be able to trace it through the intelligence agencies, and might be able to find out exactly who did it, and then they could avenge the death of these innocent villagers, so that they would not die in vain!

But now Ji Feng was unable to give him an answer, which made Xiang Yongzhan a little disappointed.

"Alright, let's go out first." Xiang Yongzhan nodded, the smell here was more or less pungent, and seeing the bodies of these innocent villagers being killed lying here and there was nothing they could do about it made him somewhat uncomfortable.

"I want to go to the scene where these people were killed and take a look!" Ji Feng said, "I want to see where they were buried, and the scene in a big way."

"Where are you going to do?" Xiang Yongzhan asked, "If you want to see the scene, I have photos here, as well as the results of the analysis of many traces of the scene ....."

"These things in your hands won't be of much help to me." Ji Feng shook his head, "Well, you can bring me the trace analysis results to take a look."

Xiang Yongzhan then beckoned to a soldier, who took out a stack of photos from his handbag.

Xiang Yongzhan said, "Including the traces of the scene, as well as the situation around the buried site and so on, at that time, the military conducted a detailed search and took photos after getting the news, the photos are all here, as well as the analysis results, you can take a closer look, it might be helpful to you."

Ji Feng took the photos and looked at them carefully, he looked at each photo very carefully, sometimes he would even stare at a photo for a few minutes, even ten minutes!

It was only after an hour or so that Ji Feng returned the photos to Xiang Yongzhan and said, "I still want to go to the scene and take a look."

Xiang Yongzhan said, "Alright then, since you insist, then we'll go there!"

Cui Guangming said, "But the scene is a full two hours away from here in the mountains, if we go now, we may not be able to make it back before dark ....."

"Then we'll camp outside!" Xiang Yongzhan said, this is really not a difficult thing for the special combat brigade.

"Yes!"

Cui Guangming immediately nodded and said, "Then I will go and prepare food and water."

Only after Cui Guangming left did Xiang Yongzhan lower his voice and ask, "Ji Feng, you keep insisting on going to the scene to take a look, did you see something?"

Ji Feng glanced at him and couldn't help but say, "You're a shrewd fellow, you can't hide anything from me!"

Xiang Yongzhan instantly came to life and was busy asking, "What, did you really find out something? Quickly tell me what's going on ....."

"Tell it here?" Ji Feng asked.

"..... Then let's wait until later." Xiang Yongzhan paused for a moment, "So, you were reluctant to say it just now because Company Commander Cui was there?"

"What I'm about to say, it's best to keep it a secret!" Ji Feng said in a deep voice.

Xiang Yongzhan then realised the seriousness of the problem, he nodded and said, "I understand."

Very quickly, Cui Guangming fetched water and food and told all the warriors to take them with them, as these warriors were here on a mission themselves, so they could almost be said to be fully armed and could just set off without having to prepare at all.

Only when they were leaving the village, an old man from this small mountain village cautiously came up and asked about the investigation, with a sad and desolate look on his face, trying to beg the government to do something for them, which made Ji Feng look with a frown ..... not because he was impatient, but because he was very uncomfortable in his heart, especially after Cui Guangming had introduced the situation.

According to Cui Guangming's introduction, among those dozen corpses, one of the corpses was this old man's son, because of the hard living conditions in the mountain village, this old man's old partner died early in the year due to a serious illness, and only such a son was left, now even this only son of his was killed, the old man seemed to have lost his hope in life all of a sudden.

I heard that since the villagers were found, every day the old man would come to ask if the killer had been caught and if the government would do anything for them.

Although he had received repeated assurances, the old man came to ask every day as if he had fallen into a spell.

When Ji Feng listened to this, there was an indescribable hardness in his heart. This kind of tragedy that made people lose hope all of a sudden had, I am afraid, broken this old man.

It could not help but give one a feeling of desolation.

Especially when they left the presence and entered the mountains, after turning back and still being able to see that old man standing at the entrance of the village looking at them, Ji Feng could not help but curse, "Bastard!"

Xiang Yongzhan even gritted his teeth and said, "Motherfucker! No matter who did it, as long as I catch him, I will definitely torture him to death alive!"

With a strong sense of hatred, the group headed deeper into the forest.

The two-hour mountain road was not too far, but the road was rugged, and there were still some wild animals in the forest, there might be poisonous insects under their feet, and there might be poisonous snakes in the trees, so the walking speed was not fast, but even so, Ji Feng and the others only took an hour or so to reach their destination.

This made Cui Guangming astonished, they are often patrolling the border, they are used to walking on mountain roads, it would take them nearly two hours to get there, but the soldiers of the special combat brigade were even faster than them, even Bai Zhu, a girl, was so fast!

Suppressing the surprise in his heart, Cui Guangming said, "Here, ahead is the scene."

Campus Master Chapter 2477

Following the direction of Cui Guangming's finger, Ji Feng saw the scene.

It was a dense forest.

Next to one of the big trees, on the ground was a big pit with freshly dug up dirt next to it, and some of the vines and vegetation around it showed signs of trampling.

"It was in this pit that we found the burnt bodies, the others were not here, they were still some way ahead." Cui Guangming described.

"Hmm."

Ji Feng nodded his head and surveyed everything around him.

A moment later, he said, "Where were the other corpses found, let's go over and take a look."

Cui Guangming nodded and said, "Follow me, it's not too far."

The group followed Cui Guangming for a while longer and came to another site, which was similar to the place where the corpses were found before, except that there was no big pit.

Ji Feng carefully surveyed it for a while, but he couldn't help but frown.

Xiang Yongzhan immediately asked, "What's wrong?"

Ji Feng shook his head and said, "This is not the first scene."

Cui Guangming was stunned, "It can't be? This is where we found the shell casings, look at that big tree in front of us, there are still bullet holes in it, we also found bullets in it, the ground is covered in blood, obviously those villagers were shot here!"

Xiang Yongzhan also said, "Ji Feng, a criminal investigation expert from the police has already come to see it before, this is indeed the first crime scene ....."

"No."

Ji Feng said with great certainty, "This is definitely not the first scene!"

"But ....."

"Although I don't know why those villagers were killed here, but this is definitely not the real scene!" Ji Feng shook his head, "Perhaps, those villagers were indeed shot here, but those burnt corpses, they were definitely not killed here!"

Cui Guangming asked with some suspicion, "How do you know that?"

Ji Feng said, "I naturally have my reasons ..... Old Xiang, have your men scatter around and be on the lookout for some traces that someone has trampled on!"

Xiang Yongzhan frowned and said, "Are you sure?"

Ji Feng nodded and said, "Sure."

"But this mountain forest is so big, it's not that simple to find some traces." Cui Guangming was a bit skeptical, "Besides, when we came to look for these villagers, our warriors had all been here before, so if there are traces around, then there is nothing strange ....."

Ji Feng said, "Just go and look for it, I naturally have my intentions."

Xiang Yongzhan said, "Do as Ji Feng says!"

Cui Guangming then stopped talking, only he was somewhat questioning Ji Feng's decision, the famous special combat brigade came here just to look for traces?

"Bai Zhu, let's look around too." Ji Feng said.

"Yes!"

Bai Zhu faintly nodded his head.

Xiang Yongzhan walked over and said in a low voice, "Older brother, what kind of traces are you looking for? What exactly did you find, can't you tell us?"

Ji Feng slowly shook his head and said, "I'm not sure yet, I'll tell you when I'm sure."

Xiang Yongzhan had no choice but to order someone to look for it.

However, the mountain forest was too big, and the soldiers of the Special Combat Brigade did find some traces, but in the end it was confirmed that they were left by the soldiers who were responsible for helping to find the people at that time, and there was nothing special about them, so they could only continue searching again.

It was not too late for them to get here, but the trees in the forest were so tall that the dense canopy blocked the light, making it very dark down there, which made the search even more difficult.

At this time, Xiang Yongzhan said, "Ji Feng, it's already late, we need to camp early."

Ji Feng nodded, "Then let's do this for now, tomorrow if you have time, bring someone with me to look for ....."

Xiang Yongzhan shook his head, "Not tomorrow. I still have to search for the murderer."

Ji Feng nodded slightly and said, "Then tomorrow the two of us, Bai Zhu and I, will just look, you should be careful when you move."

"Buzz~~!"

Just then, the communication device on Xiang Yongzhan's waist suddenly vibrated, he immediately put on the headset and asked, "This is the first captain, what's the situation?"

Just a moment later, Xiang Yongzhan said in a deep voice, "Order – take you as the centre, all gather, I'll be right there."

After giving the order, Xiang Yongzhan said to Ji Feng, "Older brother, the communication soldiers received a message from above, they searched for a suspicious signal, right in the forest, and suspect that it might be the murderer of those villagers, now I need to rush over there immediately ....."

Ji Feng nodded and said, "Go, be careful!"

Xiang Yongzhan said, "Don't worry, this time I'm here to take someone's life!"

Cui Guangming then frowned a little, glanced at Ji Feng and asked, "Captain Xiang, should the two of them ..... leave their warriors behind to protect them?"

Xiang Yongzhan waved his hand, "No, we'll just go straight over."

Just kidding, with Ji Feng's skills he still needed the protection of others? If someone really wants to harm him, it's not really clear who will end up harming whom!

Ji Feng smiled and didn't say anything more, but Cui Guangming glanced at them as he was leaving.

Bai Zhu then frowned with some dissatisfaction and wanted to say something but was stopped by Ji Feng.

"Young Ji, I think that Cui is treating us like a burden!" Bai Zhu said unhappily, "Why don't you say anything."

"We're all in it for the job!"

Ji Feng said, "Besides, Captain Cui and the others are stationed near the border and have to patrol every day, so it's hard enough, it's normal to have a bit of a temper."

Bai Zhu then stopped talking, she didn't care what these people were like, all she cared about was Ji Feng.

"Let's go, let's keep looking!" Ji Feng said, "You just follow me, keep the communication open!"

"Yes!"

Bai Zhu nodded slightly, because it was late in the day, so Bai Zhu drew her pistol and had the safety on after loading the bullets, ready to deal with unexpected accidents.

At this time, Ji Feng's movement was completely unaffected, under the effect of the bio-current, everything in the vicinity was clear as day, which allowed him to continue searching for the traces he wanted to see very easily.

Time was running out fast.

In the blink of an eye, they searched for another half an hour, but still with no results. The surrounding area was silent, with only insects and some birds and animals chirping from time to time, which in this forest was surprisingly creepy.

Bai Zhu subconsciously followed Ji Feng closely, looking alert.

Ji Feng couldn't help but bask in the fact that Bai Zhu was also scared?

"Young Ji, what exactly are we looking for?" Bai Zhu asked in a small voice, "Should I turn on the torch?"

"No, you just follow me, I'll find it!" Ji Feng said.

"Then what are we looking for?"

Bai Zhu asked suspiciously, they had been wandering around in the forest for a long time, yet they never knew what they were looking for.

"Hmm?!"

Ji Feng suddenly stopped, looked at a direction, and walked over quickly.

Bai Zhu immediately followed.

Ji Feng arrived in front of a large tree, touched his finger to the trunk and smiled, "This is it, found it!"

Bai Zhu was stunned, "Found it? What is it?"

Ji Feng said, "A small hole."

"Huh?"

Bai Zhu faintly froze, not responding for a moment, "A, a small hole?"

Ji Feng nodded, "That's right!"

He stared at the thick tree trunk and a brilliant light flashed in his eyes, "That's true!"

Bai Zhu became even more confused, she wanted to ask, but she vaguely saw that Ji Feng was moving around, seemingly observing something, she had to swallow the words back into her stomach, when Ji Feng finished his work, he would give her the answer.

In fact, at this moment, Ji Feng was already busy, he looked around, in fact, he just wanted to find some more traces.

“Those villagers were killed here ..... why?” Ji Feng couldn’t help but frown and ponder to himself, “This is just a forest, what’s so special about it?”

“Or is it that those villagers came here to collect medicine and hunt, and happened to inadvertently come across bandits from another country who had infiltrated into the territory of China, and that’s why they were exterminated?” Ji Feng frowned darkly.

Guessing at the possibilities, but Ji Feng was not sure what exactly caused those villagers to be killed, and they were killed here in the unpopulated jungle.

Suddenly, Ji Feng seemed to remember something: “Wait!”

He frowned, turned around and asked, “Bai Zhu, you’ve seen all those photos in Xiang Yongzhan’s hand, right?”

Bai Zhu nodded and said, “I’ve read them.”

Ji Feng asked, “Then do you remember, when those villagers were killed, from which direction did the bullets in their bodies hit them? Was it from the front, or from behind?”

“This .....

Bai Zhu was stunned, “Young Ji, I really haven’t paid attention to this.”

Ji Feng said, “I didn’t pay attention to it either ..... After all, I’m not a professional forensic scientist, I didn’t notice this detail, unfortunately!”

Bai Zhu said, “If Ji Shao wants to know, he can ask Captain Xiang, he has the report in his hands, he must know.”

“Can’t go and contact him now!” Ji Feng, however, shook his head and said, “He’s on the move now, if we contact him, we might alert the enemy, and then we might put Old Xiang and the others in danger, it’s better to wait for him to take the initiative to contact us!”

Bai Zhu nodded slightly, she was not an ordinary girl, of course she understood this.

“Young Ji, so what do we do now?” Bai Zhu asked.

“There’s no rush, let’s observe again.” Ji Feng said.

Bai Zhu couldn’t help but ask, “Observe? Observe what? Young Ji, there are all big trees here, do you see anything?”

Although Bai Zhu's eyesight was not as good as Ji Feng's, when she activated the bio-current, she could hazily see that the surrounding area was all jungle, except for some very strange trees and some plants that she couldn't name, there was nothing special ah.

How come Ji Shao looked like he had found some kind of treasure instead?

What was there here?

What exactly did Ji Shao mean by a small hole?

Campus Master Chapter 2478

In a dense jungle in the 100,000 mountains, Ji Feng and Bai Zhu were groping in the darkness of the night.

In fact, if I were to be more precise, it would be Bai Zhu who was groping alone, while Ji Feng was leaning against a large tree and watching carefully.

Bai Zhu was very strange and did not understand what exactly Ji Feng was observing, but she was afraid of disturbing him, so after asking several times but getting no answer, she did not dare to ask more questions.

The only thing that Bai Zhu could see in the haze was that Ji Feng was leaning forward against a large tree and seemed to be touching something with his hand.

"Hiss ....."

Suddenly, Ji Feng also sucked his nose vigorously a few times, as if he was sniffing something.

Bai Zhu became even more strange, what was the odd smell here?

She also followed and sniffed carefully, but did not smell any strange smell, only some smell unique to the jungle wafted to her nose, but it was nothing unusual, there was this smell all the way from that small mountain village.

"Bai Zhu, come over here and look!" Just at that moment, Ji Feng suddenly said something.

"Yes!"

Bai Zhu hurriedly nodded, took two steps forward to Ji Feng and asked, "Young Ji, what's wrong? Did you find something?"

Ji Feng said without turning his head back, "Go around behind the tree and turn on the torch to shine it on the trunk."

Although Bai Zhu was very strange in his heart, he did as Ji Feng instructed.

The tree was not small and the trunk was thick, almost two people had to be able to hug it. After Bai Zhu went around the back of the tree, even her figure disappeared completely.

Bai Zhu came behind the tree and switched on the torch she carried and shone it along the trunk, she looked and found that the tree was nothing unusual, this kind of tree was considered small in the jungle, there were many thicker ones than this.

“The light is a bit further up!” Ji Feng’s voice suddenly came out.

“Mm!”

Bai Zhu hurriedly followed the instructions and lifted the light upwards some.

“Further down!”

“No, it’s too far down, lift it up some more, and slow it down.” Ji Feng said, “It’s probably at about the same height as my chest.”

“Understood!”

Bai Zhu nodded and shone the light on the tree trunk and started to move the light slowly.

Suddenly, Ji Feng said, “Don’t move, this is the place!”

At this time, a surprising scene appeared – in front of Ji Feng, a beam of light shone through the tree trunk and shone straight on his chest.

This beam of light was not too thick, probably as thick as a few matches, and at first glance it did not look unusual.

But the problem was that the beam of light was coming from inside the trunk of a tree!

In fact, this beam of light was the one emanating from the torch in Bai Zhu’s hand, for there was a small, straight hole in this tree trunk that went right through the entire trunk!

However, because the torch’s light was too diffuse, it wasn’t too obvious, but Ji Feng could see it clearly.

“Sure enough!”

Ji Feng’s gaze was fixed on that small hole, the cold light in his eyes flickered, and after he observed it carefully, he couldn’t help but wrinkle his brows.

At this time, Bai Zhu asked from behind the tree trunk, “Young Ji, is it ready?”

Ji Feng slowly nodded his head and said, “Yes, come back.”

Only then did Bai Zhu walk out from behind the tree, but asked in a strange manner, “Young Ji, what did you find?”

Ji Feng was silent for a moment before he said, “I found ..... something that isn’t too good.”

“Hmm?”

Bai Zhu couldn’t help but be stunned.

Ji Feng pointed to the small hole in the tree and said to Bai Zhu, “Turn on your torch and follow my hand to shine it.”

Bai Zhu hurriedly turned on her torch again and shone the light on Ji Feng’s hand, following the movement, and eventually, she found that the light shone on the trunk of the tree in front of her, and probably just above the height of a normal adult man’s stomach, there was a small hole!

“Young Ji, what you were looking at just now, was this little hole?” Bai Zhu asked in amazement.

“That’s right!”

Ji Feng faintly nodded, “That’s it!”

Bai Zhu was then even more amazed, “But ..... what’s so special about this little hole?”

Ji Feng asked, “What do you think?”

Bai Zhu looked at it for a while before saying thoughtfully, “It seems like there is something strange. How could there be a small hole in this big, well-lived tree that is so dense, and the hole seems to be very deep? Could it be eaten by worms?”

Ji Feng shook his head: “It doesn’t even matter if it’s eaten by bugs, I’m not talking about this ..... you take a closer look and see if there’s anything special about this little hole!”

“Special .....?” Bai Zhu hesitated for a moment, then moved closer to the big tree and looked carefully for a while, soon she said in surprise, “Young Ji, around this small hole, there seems to be burn marks!”

“What else?” Ji Feng asked.

“It’s as if someone used a red-hot iron bar raw \*\*\*\* into the tree trunk .....” Bai Zhu said in surprise, “That’s not right, usually only bamboo can be penetrated by this method, and not all bamboo can be used with This process can be used to process it, it must also be cut down before it can be processed, but this tree .....”

Bai Zhu also sensed that something was wrong: “Young Ji, what’s going on?”

“Laser gun!”

Ji Feng said in a deep voice: “This is a super strong energy hitting the trunk of the tree leaving traces, that is, left after the laser gun has been fired!”

Bai Zhu’s face suddenly changed, “A laser gun? Young Ji, didn’t you say that no one has developed a laser gun yet? How come .....”

“I was wrong.”

Ji Feng said in a deep voice: “It seems that the laser gun has already been developed by someone, and it has also been put into practical application!”

Bai Zhu asked, “Young Ji, just how strong is this laser gun?”

“How strong?”

Ji Feng thought for a moment and said, “It depends on the energy source of the laser gun, and how strong the trigger and the converter can actually emit when they work together!”

Bai Zhu said, “Then how strong is the laser gun that left this very rush?”

Ji Feng said in a deep voice: “At least stronger than all the single-armed firearms now!”

“Even a long-range sniper rifle can’t compare?” Bai Zhu asked.

“I don’t know much about long-range sniper rifles ....., so I can’t compare them for now!” Ji Feng shook his head and said, “However, at least a normal sniper rifle is definitely not comparable to this laser rifle!”

“If even a long-range sniper rifle can’t compare to this laser rifle, then it’s too scary!” Bai Zhu said.

The long-range sniper rifle, Bai Zhu was aware of it, this sniper rifle used special ammunition that was so powerful that it could even penetrate the armoured steel plates of some light tanks at a certain range, so it could be seen how powerful this sniper rifle really was!

If the laser rifle was more powerful than even this sniper rifle, wouldn’t that mean that even when facing a tank, it could be easily taken out with the laser rifle?

This is comparable to, or even more powerful than, a man-portable rocket launcher!

This is really too terrifying!

Ji Feng said in a deep voice: “Bai Zhu, you are in charge of the guard, I have to take another look!”

Ji Feng’s mood was a little heavy, this small hole in the tree trunk in front of him made him realise that his previous judgement might have been wrong, the laser gun he brought back from Rice might not be the only one, there must be other laser guns in this world, and even, the power might be more powerful than the one he brought back.

At least, the laser gun he brought back from Rice was technically only a defective product that could not be fired several times.

If the user was unlucky, it might not even fire once before blowing up. Once the energy source of the laser gun blew up, the power was not as simple as an ordinary firearm blowing up its chamber, it would be an absolute disaster for the user!

What Ji Feng wanted to know was what level the laser gun that had left this trail had reached, but he had no way of judging this, so he could only ask the intelligent brain.

Ji Feng stood in front of the big tree and concentrated his spirit to enter the wise brain space.

“Master.” Wisdom Brain’s round body was still floating around in this space, and when it saw Ji Feng enter, it immediately welcomed him.

“Wise Brain, I remember you once said that you were not only able to collect information from the outside world, but you could also explore the outside environment and things, right?” Ji Feng asked directly.

“Yes, master.” The wise brain shook its body as if it was nodding.

Ji Feng didn’t pay attention to this increasingly humane action of the wise brain, but immediately said, “Then, at this moment there is a trace in the outside world that needs to be explored and analyzed by you .....”

The intelligent brain said, “Okay, master.”

With the help of Ji Feng's sight, the wise brain 'saw' the small hole in the tree trunk, and at this moment, Ji Feng only felt that the bio-current in his body began to be urged, which was obviously borrowed by the wise brain.

"This is the trace left by the laser gun!" Wise Brain said.

"Sure enough!"

Even though he was all but certain in his mind, Ji Feng couldn't help but feel a thud in his heart when he heard the words of the intelligent brain, it was really a laser gun!

Ji Feng immediately asked, "Can you determine what type of laser gun left the traces?"

The intelligent brain said, "This needs to be analyzed."

Ji Feng asked, "How to analyze?"

The intelligent brain said, "Please wait for ten minutes, master!"

Ji Feng nodded, ten minutes wasn't that long, it didn't matter if he waited. As long as we could analyze the details of the laser gun that left this trace, not to mention waiting for ten minutes, even if we waited for ten hours.

The intelligent brain had always been rigorous and accurate, and after ten minutes, the results of the intelligent brain's calculations came out, and it said, "Master, according to the analysis of the surrounding radioactive substances and the traces left by the laser gun, this is a trace of damage caused by a first generation laser gun!"

Ji Feng was stunned, "A first-generation laser gun?"

The intelligent brain shook its body and said, "Yes, master."

"This is just the traces left by the first generation laser gun?" Ji Feng couldn't help but make sure once again.

"Yes, master. However, this laser gun that left traces didn't reach the average damage level of the first generation laser guns." The intelligent brain added.

"What?!" Ji Feng was stunned.

Campus Master Chapter 2479

"Wise Brain, do you mean to say that this laser gun is not even up to the level of the first generation of laser guns in the Gamma Galaxy?" Ji Feng asked in amazement.

"Yes, master." The intelligent brain replied.

Ji Feng was then amazed, looking at the power of this laser gun was not small, according to what the intelligent brain meant, the laser gun that left traces was clearly a laser gun that was not perfect enough, saying that the defective product might be a bit exaggerated, but the power was definitely not enough.

“But this destructive strength .....” Ji Feng paused for a moment, then did not speak again, because he suddenly reacted, the power of the laser gun is far from ordinary firearms can be compared, even if it is a defective laser gun, it can definitely beat ordinary firearms, even if it is Even a defective laser gun can definitely beat ordinary firearms, even a powerful sniper rifle!

Therefore, even if the power of this laser gun is not as powerful as the average of the first generation of laser guns in the Gamma system, its destructive power is definitely not comparable to ordinary weapons.

It is understandable then to have such destructive power.

It’s just that the first generation laser gun ..... is not even close.

Ji Feng was immediately in a much lighter mood, he had previously thought that since the other party had already put the laser gun into practical application, he believed that the other party’s laser gun must already be a finished product with stable performance and great power, which made him feel a great pressure.

But now, it seemed that the laser gun still had flaws!

The pressure on Ji Feng was much less, otherwise, if someone was really equipped with a qualified laser gun, then not to mention him and the special combat brigade coming over, even if another army came, I was afraid that there would still be a lot of deaths and injuries.

At least, in Ji Feng’s impression, there is really nothing in the army’s equipment that can stop the laser gun’s attack, no matter whether it is bulletproof vests, water-textured protective clothing, or even armoured steel plates, they cannot stop the powerful laser gun!

And if the other side had mass-produced this kind of laser gun and obviously did not have good intentions towards China, it would be an absolute disaster for the warriors of China!

But now Ji Feng was slightly relieved that the laser gun was not that powerful, since it was not even comparable to the first generation, it was even less of a match for the second generation!

But soon, Ji Feng couldn’t help but frown again, because he remembered something – up to now, he had the technology to make a laser gun, but no energy source!

Trouble!

Ji Feng couldn’t help but rub his brow, if we talk about technology, not to mention the second generation of laser guns, even if it was the third or fourth generation, it was definitely not any problem for him.

But the problem was, right now, he couldn’t even manufacture the first generation!

Energy source .....

This was a big problem!

If he didn’t have the energy source, he would only be able to stare at it with two empty eyes, which made Ji Feng feel vaguely anxious and even a bit anxious in his heart.

“Intelligent brain, can you analyze if there is any difference between this laser gun that left traces, and the one we saw before?” Ji Feng asked, “Could it be like the first laser gun, imperfect in structure, dangerous and so on?”

“No.” The intelligent brain said.

“Why?” Ji Feng asked.

“Master, there is no basis for comparison.” Wisdom Brain said back.

Ji Feng then understood, this laser gun Wisdom Brain did not ‘see’, it only saw the damage marks left by this laser gun, which could not be compared.

In fact, this reasoning Ji Feng also understood, it was like seeing a bullet hole in a tree trunk, perhaps it was possible to detect through technical means what kind of bullet this was fired from the gun, also it was possible to detect how much energy the bullet contained at that time, but to say what the gun that fired this bullet actually looked like, how well the structure was designed, was impossible to detect from these traces.

“Phew~!”

Ji Feng took a deep breath and slowly calmed down, he knew he was a bit anxious, if he continued to rush, he might have to mess up.

“It seems that the appearance of this laser gun is bringing a lot of pressure to oneself!” Ji Feng secretly said to himself, “There’s nothing to worry about, even if the other side mass-produced the laser gun, what can they do? As long as one waits until one finds the energy source, one can produce qualified second generation laser guns at any time!”

Ji Feng was already determined, it was just the appearance of the laser gun that gave him a sense of urgency, but he soon calmed down and asked some more questions about the laser gun and the energy source before exiting the intelligent brain space.

“Bai Zhu.”

Ji Feng said to Bai Zhu who was on guard, “Make a note of this place, mark it, and let’s continue on!”

Bai Zhu nodded and was about to go and mark it, but then he heard Ji Feng say, “Make concealed marks, don’t let anyone find out!”

“Yes!”

Bai Zhu nodded and said.

As an assassin, Bai Zhu naturally had her special method of marking, especially in this dense jungle, it was too easy to be undetected.

After Bai Zhu finished marking, Ji Feng led her to continue walking forward, the sky was getting darker and darker, and by now it was completely dark, although it wasn’t that you couldn’t see with your hands, but it was extremely distracting to your vision, so Bai Zhu shot up her torch.

“Look! Over here!”

After walking a short distance, Ji Feng found another trace left by a laser gun, this was also a small hole and it still hit the trunk of a tree.

Ji Feng looked at the traces on the ground and murmured, "This should be those villagers who inadvertently saw the murderer and that's why they were chased, look at the traces of the trampling on the ground, some of the steps span a lot between them, this should be left by someone running wildly!"

Bai Zhu nodded slightly, trace science actually did not only exist in forensics and criminal investigation, it could also be used for killers, so Bai Zhu could also understand it.

It's just that Bai Zhu didn't expect Ji Feng to be able to see it with a sweeping glance, and this was even with a flash of light, which made her amazed, the longer she spent with Ji Feng, the more she was able to perceive his magic!

As instructed by Ji Feng, Bai Zhu made another mark here, yet the duo continued on their way.

Next, they found a few more marks, but they weren't as obvious as the previous ones, but they still didn't escape Ji Feng's eyes.

"Young Ji, we've already gone a long way, if we go any further, I'm afraid we won't be able to find us when Captain Xiang and the others return!" Bai Zhu said.

"It's alright!"

Ji Feng said, "There's no signal on our mobile phones and military communication equipment, let's explore further ahead."

Bai Zhu hesitantly said, "Ji Shao, we'd better rest first, on the way out Yu Xuan and Lei Lei both instructed me to take care of your body, your injuries are only good ....."

Xiao Yuxuan and Tong Lei both already knew about Ji Feng's injury, just that in front of Ji Feng, they were never mentioned, and never showed sadness and worry, just to keep Ji Feng from being distracted.

However, in private, they instructed Bai Zhu to take good care of Ji Feng.

Bai Zhu also did not want Ji Feng to be tired, not to mention that Ji Feng had suffered a gunshot wound and lost a lot of blood before, so I'm afraid his body has not yet fully recovered, and today he rushed for such a long time on the mountain, so he should not hurt his energy.

Ji Feng smiled and said, "Don't worry, I'm fine. Are you tired?"

Bai Zhu shook her head, "I'm not tired, but you ....."

"Okay then, let's walk a little further ahead, as soon as we find the place where those villagers started fleeing, we'll stop, okay?" Ji Feng said gently.

"That's ..... okay." Bai Zhu had to nod her head.

"Don't worry, we should be very close." Seeing that Bai Zhu was still worried, Ji Feng couldn't help but smile, "Think about it, although those villagers often go into the mountains, they are only ordinary people after all, if they encounter danger in the mountains, how far can they escape even if they try their best to escape?"

“Maybe they would escape a long way!” Bai Zhu said.

“It won’t!”

Ji Feng shook his head and said, “Since they were all killed, that means they can’t outrun the murderer, and the murderer has weapons, so they will definitely not allow those villagers to escape too far..... go, I believe it shouldn’t be far.”

Bai Zhu had no choice but to accompany him as they continued on their way.

However, they walked a long way again, yet they could still see traces on the ground. Bai Zhu raised her hand to look at her watch, but it was already late at night, and she just wanted to advise Ji Feng to stop and rest, but then she suddenly saw Ji Feng stop.

“Young Ji, what’s wrong?” Bai Zhu busily asked.

“We might have taken the wrong road!” Ji Feng laughed bitterly, “Look, there are no traces ahead.”

Bai Zhu shone his torch over and indeed found that the traces in front were getting fainter and fainter, and there were no more further ahead.

Ji Feng said helplessly, “This trace, I’m afraid, was left by those warriors who searched the mountain, we need to go back and find the place with the most traces, and then go in another direction .....”

“Young Ji .....”

“Hmm?!”

Bai Zhu just wanted to speak, but Ji Feng suddenly frowned, then he covered the torch in Bai Zhu’s hand and whispered, “Bai Zhu, extinguish the light!”

Bai Zhu heard this and immediately turned off the torch in an extremely tacit manner, his expression immediately became alert and asked, “Ji Shao .....”

Ji Feng whispered, “Keep your voice down, I just saw a bright light flashing in front of me.”

“Bright light?”

Bai Zhu whispered, “Could it be the light from my torch that shone on something and reflected back?”

Ji Feng shook his head and said, “It shouldn’t be!”

Ji Feng did see the white light, although the white light was just a flash, he caught it keenly, it was definitely not a reflected light, because he saw the light move with his own eyes.

“There’s someone over there!”

Ji Feng lowered his voice and said, “Bai Zhu, go to the tree immediately, I’ll go over and take a look!”

Bai Zhu was busy saying, “Young Ji, I’ll go with you .....”

“No way!”

Ji Feng shook his head, "The darkness here doesn't affect my vision, but you can't, I'm just going to check out the situation and will be back soon."

Bai Zhu still wanted to say something, Ji Feng said, "You stay in the dark, you can still improvise, if something really happens, you in time for my ambush!"

Campus Master Chapter 2480

"No!"

Ji Feng shook his head, "The darkness here doesn't affect my vision, but not you, I'm just going to check out the situation and will be back soon."

When Bai Zhu still wanted to say something else, Ji Feng said, "You stay in the dark, you can still improvise, and if anything really happens, you'll be my ambush!"

Bai Zhu stopped talking at once.

Of course she knew very well how different it would be if there was someone to take over from no one in the middle of an operation, and moreover, in the middle of such a dark jungle!

Therefore, when Ji Feng said so, she could only nod her head.

However, Bai Zhu still had some doubts and said in a low voice, "Young Ji, in the middle of this deep jungle, and at night, how can there be people out there?"

Ji Feng said, "That's why it's suspicious!"

Bai Zhu asked in a low voice, "Could it be Captain Xiang and the others?"

From the time they received the news from Xiang Yongzhan, they hadn't received any news from him until now, so it was impossible for him to leave the two of them in the deep forest.

But Ji Feng shook his head and said, "I don't think so!"

Although it was in the middle of this deep forest, it had little effect on Ji Feng.

Ji Feng clearly remembered that he and Xiang Yongzhan had gone in two different directions, and they had been gone for such a long time that even if Xiang Yongzhan completed his mission or did not complete it and turned back, the possibility of running into each other here was very slim, so to speak, almost non-existent.

So Ji Feng was extremely alert and lowered his voice and said, "Bai Zhu, don't say so much now, no matter who the other party is, I'll go over and take a look and it will be clear, you go up the tree now immediately, remember, hide yourself well, don't let anyone find out!"

Bai Zhu immediately nodded his head and said, "Yes!"

And then, Ji Feng patted Bai Zhu's little hand, turned around and hurried away, disappearing into the dark jungle and disappearing in the blink of an eye!

Since Ji Feng had already made a decision, Bai Zhu would go through with it without any compromise, so as soon as Ji Feng left, she quickly followed him.

Ji Feng had already run forward a long distance.

Ji Feng had been staring closely ahead, especially in the direction where he had seen the bright light just now, but to his surprise, he had been running for ten minutes, but there was still no movement at all ahead, and as for that bright light that he had seen before, it had never reappeared.

“Could it really be that he was hallucinating?” Ji Feng couldn’t help but frown, and his speed also slowed down. He fully activated the bio-current on his eyes and began to scan the surroundings, but found nothing unusual.

Ji Feng couldn’t help but shake his head, this was surrounded by big trees and his vision would be blocked, he couldn’t see much at all, but he was convinced that what he saw before shouldn’t be an illusion, it was a bright light!

“Eh?!”

Suddenly, Ji Feng’s eyes narrowed sharply and he turned his head abruptly.

Another bright light flashed by!

Moreover, this time the bright light was so obvious that it was as if someone had swept around the jungle with a torch.

“That’s right!”

Ji Feng secretly said, and then he no longer had the slightest hesitation and ran straight in the direction where the bright light had flashed.

He didn’t run with all his might just now in order to track the light, but his speed was already quite fast, and Bai Zhu’s vision would be affected if he didn’t turn on his torch in the dark jungle, so his speed was naturally not as fast as his.

Now Bai Zhu was able to keep up, obviously he had worked very hard!

Finally, Ji Feng slowly stopped, he leaned behind a big tree and looked sideways ahead, he could already see that in the jungle ahead, there were shadows and bright lights, there seemed to be people walking, but the distance was too far, it was hard to see clearly what they were doing!

But this already made Ji Feng very excited!

No matter what these people were doing, at least Ji Feng had found them, the bright light he saw before was not an illusion, there were really people in this jungle!

Ji Feng made a gesture at Bai Zhu, then took out his mobile phone and flashed it twice.

Bai Zhu immediately understood, she also stopped not far from Ji Feng, then chose a large tree that was still in a suitable position and height, a few long leaps and jumped directly up, eight to a branch, body a backward flip, unexpectedly directly flipped up the tree!

In the darkness of the night, Bai Zhu was like a dexterous jungle spirit, disappearing into the dense canopy in the blink of an eye, silently!

I believe that even if someone came under this tree at this time, they would never realise that there was a person hiding right above their head, and it could be a beautiful but murderous-looking female demon!

Only when he saw that Bai Zhu was well hidden did Ji Feng put his mind at ease, and then he packed his mobile phone and everything else, and then drew his pistol from the back of his waist and slowly approached the place of the bright light!

Ji Feng was very alert!

Because he could be sure that the place with the bright flashing light in the jungle in front of him was not a single person, although the distance was still a bit too far to see too clearly, but just from the shadows, he could tell that there should be several or even more people there.

Then Ji Feng could then subsequently determine that the other party should not be Xiang Yongzhan and the others!

If it was Xiang Yongzhan and the others, once they had set up camp in the jungle and were strutting around so much, it meant that they had definitely completed their mission.

—Otherwise, what other special forces would have exposed themselves so recklessly before completing their mission, and that too with the enemy right here in the jungle?

That's not bravery, that's stupidity!

Xiang Yongzhan naturally could not make such a stupid mistake, so Ji Feng was sure that the people in front of him were definitely not Xiang Yongzhan and his special operations brigade.

If it wasn't Xiang Yongzhan, then who could it be?

Who would come to the primeval forest of this hundred thousand mountains in the middle of the night, and still stay awake late at night, still with the lights on not knowing what they are working on .....

The actual fact is that you can't get a good deal on your own.

The fact is that the people of the world are not only the best, they are also the best.

With Ji Feng's slow approach, the scene at that light, let him roughly see some, but when he looked clearly, but can not help but stunned, can even be said to be a little surprised!

Ji Feng found that at that light in front of him, there were a dozen of people, not knowing what they were doing.

What really surprised Ji Feng was that these dozen of people were all wearing camouflage uniforms and seemed to be soldiers, moreover, they were all holding weapons in their hands, and in the hands of a few of them, they were also holding long guns, only because the distance was still a bit far, so Ji Feng couldn't see clearly whether they were submachine guns or rifles!

However, judging from the approximate length, that should be a rifle!

Ji Feng suddenly remembered the dozen or so innocent villagers who had been killed, the vast majority of whom had been killed by bullets, and according to the analysis, it seemed that they were also automatic weapons .....

Ji Feng's eyes then couldn't help but narrow, and carefully moved a little closer, while going around from behind a tree, and this time, the scene in front of him suddenly fell completely into his eyes!

"This is ....."

He suddenly noticed that it was a not-so-small field, with at least four or five lights being hung from the surrounding trees, the lights were bright, and there were people with torches, scanning the surroundings from time to time, looking alert and careful!

The curiosity in Ji Feng's heart grew even stronger, what the hell are these people absolutely doing?

In the middle of this silent and deserted primeval forest, they were all so alert, which was obviously enough to tell us something .....

The more alert they were, the more it meant that these people were definitely not doing anything good, they had a weak heart and were doing something unspeakable!

But what exactly are they doing?

When Ji Feng squinted and continued to look, he found that at the end of those people were a few tents, and not just any tents, they looked as if they were marching tents, which further verified the suspicion that these people were soldiers!

"Could these people be Huaxia soldiers?" Ji Feng took a look at the camouflage uniforms they were wearing and felt that they didn't look a bit like it, and looking at the way these people were behaving, they didn't look like Chinese either, they were a bit sneaky.

"Could it be that ....."

A fine aura flashed in Ji Feng's eyes, "These are the Vietcong brats? Are they the ones who killed those innocent villagers?!"

Ji Feng wanted to get a little closer to see clearly.

Now that he was in the dark and the other side was in the light, he could observe from a comfortable position as long as he must test the other side's sentries.

However, just at this time Ji Feng suddenly heard a sound of talking from the front: "@#%\$% ....."

Ji Feng was stunned: "Which language is this?"

But the next moment, I saw the lights in front of me suddenly snapped .....

all out, and the front was suddenly plunged into darkness!

Ji Feng's reaction speed was so fast that just the moment he saw the lights go out in front of him, he rolled on the ground and hid behind a big tree!

One's eyesight was actually much better in the dark than when there was light.

He had just leaned in very close, so if the other party found him, it would be somewhat troublesome.

Besides, he wasn't sure if the other party had suddenly extinguished the light because they had sensed his approach, because he hadn't understood what the other party had said just now!

However, even if the other party extinguished the lights, it did not have the slightest effect on Ji Feng, after he activated the bio-current, the other party could hide nothing!

"One, two ..... five!"

Ji Feng finally saw clearly that the other side had a total of five tents, and he also realized that the reason why those people turned out the lights was because they were going to rest!

"....."

Ji Feng did not have the slightest carelessness, still hiding behind the big tree, until the other side all entered the tent, leaving only four people on guard outside, he then slowly backed up .....
