

Campus Master 2481

“Bai Zhu.”

Hearing Ji Feng’s deliberately low voice, Bai Zhu immediately jumped down lightly from the tree and said in a low voice, “Young Ji, what have you found? What are those people?”

Ji Feng asked, “Did you see it too?”

Bai Zhu lightly shook her head and said, “No, I just vaguely saw lights and what seemed to be shadows swaying, and I don’t know whether they were people or tree branches”

She was a bit far away, so naturally she couldn’t see clearly what was actually there in that light.

Ji Feng said in a low voice, “Bai Zhu, we may have encountered that gang of bandits, get ready, there may be a fight next!”

Bai Zhu was instantly surprised and asked, “Young Ji, are you talking about the bandits who killed those innocent villagers? How come they are here?”

Ji Feng shook his head and said, “I don’t know. Right now I can’t be sure if this gang is the bandits who killed those innocent villagers or not, but it’s likely that these people are not Chinese, and I can’t understand what they are saying”

He told Bai Zhu in detail about the situation just now, and as a result, Bai Zhu could not help but frown.

“Young Ji, according to you, there must be something odd about these people!” Bai Zhu said, “It’s so late, and they also appeared in the middle of this deep forest for no reason, and they didn’t rest until the latter part of the night Ji Shao, why does it sound so strange!”

“It is very strange!” Ji Feng nodded his head.

“What are these people doing here?” Bai Zhu frowned, “What exactly is their purpose? Also, if they’re really soldiers, then it’s too paralyzing for them to be so strutting around at night with the lights on, aren’t they afraid of exposing their target?”

“That’s what I want to know too!” Ji Feng said.

“Young Ji, why don’t I go over there now and catch a tongue over first and ask about the situation!” Bai Zhu suggested.

“No way!”

Ji Feng said in a deep voice: “They left four people on guard outside, the distance between these four people is not too far, and they are not stationary, but walk from time to time”

It was not difficult to catch one of them without a sound, in fact casually catching any of them, for Ji Feng and Bai Zhu this was really not a difficult task.

But the problem was that once the other three found out that something had happened to one of their companions, or that their companion was missing, it might alert them all.

“Then get all four of those people who are in charge of the vigilance!” Bai Zhu said.

“That’s still a bit reckless.”

Ji Feng slowly shook his head and said thoughtfully, “Think about it, they have a total of five tents, four around them, and one more around the middle of those four, which means that the one in the middle is probably where their boss lives, so the patrolmen in charge of the shift change should be coming out of those four tents at the same time... ..”

When he said this, he saw Bai Zhu’s slightly puzzled look and said, “Oh, this is a basic habit when marching some troops, and it’s also the most scientific, to ensure that everyone is on alert at all times!”

Only then did Bai Zhu slowly nod her head.

Ji Feng then continued, “Bai Zhu, think about it, right now we haven’t figured out their real purpose, we don’t know why they are here, and it’s already late in the night before we rest More importantly, we haven’t finally determined their true identity, this time we absolutely can’t startle the snake!”

Ji Feng’s two eyes flashed with a wise light, he seemed to be saying this to Bai Zhu, but in reality, he was also saying it to himself. He was in the process of this analysis, making his mind and thoughts extra clear.

Bai Zhu nodded slightly: “Not knowing their identities, this is indeed a bit troublesome By the way, what language do they speak?”

Ji Feng then sweated a little: “That I really didn’t hear.”

At that time, that person just rattled off a string of something, but what exactly he said, Ji Feng didn’t understand a word of it.

“However, I guess it should be giving orders or something” Ji Feng analyzed, at that time with the man said so there after, those people put out the lights and then went into the tent to rest.

“Are sure it’s not the language of China?” Bai Zhu asked.

“Can’t be sure!”

Ji Feng shook his head and smiled bitterly, “That’s what I’m most hesitant about.”

If he could be sure that they were not speaking the Chinese language, then Ji Feng was almost certain that these people were definitely not Chinese soldiers, then he would have a bottom in his heart no matter what he did, treating foreigners the same way as he treated his own people, then naturally it would not be the same tactics.

Of course, Ji Feng had actually decided in his mind to a large extent that this group of people should not be Chinese, otherwise, why didn’t those people speak Chinese when they were together?

But on second thought, Ji Feng was a little hesitant.

Because he thought of a possibility – if those people were Chinese themselves, and were also Chinese soldiers, but were on some special mission, so they were using code words when conversing, then it was normal for him not to understand.

If that was the case, once he laid his hands on these people, it would really be a case of the water rushing to the Dragon King Temple and the family not recognising the family!

“Then what should we do?” Bai Zhu asked, “Should we contact Captain Xiang and the others immediately, or

“There’s no rush!”

Ji Feng shook his head and said, “We don’t know what situation Old Xiang is in yet, so we can’t contact him rashly. This way we’ll follow the gang first and see what they’re really up to, and then contact Old Xiang when we’re sure.”

Bai Zhu hesitated, “But if we contact Captain Xiang at that time, will it be too late?”

Ji Feng said, “It’s fine! Could it be that the two of us can’t deal with them?”

In this jungle, with his and Bai Zhu’s skills, these soldiers might not be their opponents as long as it wasn’t a close quarters gun battle!

Bai Zhu also thought so, sneak attacks and secret killings, this was what she was best at.

“Looking at them, they must be resting until at least tomorrow morning, let’s also take the opportunity to rest for a while.” Ji Feng said.

“Mm.”

Bai Zhu nodded her head.

Ji Feng looked around and said, “We can’t pitch our tent down here, it’s not far from those people and it’s easy to be discovered. How about this, let’s go to the tree and sleep there.”

Bai Zhu was stunned, “In a tree?”

Ji Feng nodded, “That’s right, let’s find a big tree

Bai Zhu was then a bit stunned, sleeping in a tree? She really hadn’t tried it before and had no experience in this area!

However, Ji Feng was extraordinarily calm, he first found a big tree, then grabbed the vine that was wrapped around the trunk with one hand, and went up with a few long jerks, and Bai Zhu also followed closely up the tree.

Afterwards, Ji Feng tugged at the vines, found a thicker trunk and wrapped the vines around it, making it as flat as possible. Ji Feng sat on it and tried it out, “Well, it’s flat and safe, and concealed, this is it! Bai Zhu, come!”

Bai Zhu straightened up and saw Ji Feng sitting on that vine, leaning his back against the thick tree trunk, and opened his hand towards him.

In the darkness, Bai Zhu couldn’t see Ji Feng’s expression, but she herself was flustered and her pretty face heated up, but she leaned over as she was told and snuggled into Ji Feng’s arms. In this silent night, the two of them were sitting in the tree, sleeping, and she was still leaning tightly into his arms.

“Sleep.” Ji Feng said tenderly as he wrapped his arms tightly around Bai Zhu from behind.

“..... mmm.” Bai Zhu nodded her head with panic in her heart.

But all the time after a long time, Bai Zhu's breathing was still a little messy, Ji Feng asked in a low voice, "Why aren't you sleeping yet?"

Bai Zhu whispered, "I, I can't sleep."

"Why?" Ji Feng asked with a smile, "Not used to it?"

"No, I just think this is good!" Bai Zhu said with a red face, only Ji Feng did not activate the bio-current at the moment and did not see how delicate she was when she uttered those words.

Ji Feng, however, was slightly stunned, and then he hugged Bai Zhu even tighter, "Bai Zhu, it's aggravating to have you follow me like this."

Bai Zhu, however, said, "Ji Shao, I'm not aggravated at all"

The first thing I want to say is that I have a lot of things to say to Ji Feng, but I don't know what's going on here, but I don't know what to say next, but I have a lot of thoughts in my heart, and a faint sweetness.

Ji Feng likewise has some guilt in his heart, Bai Zhu follows him without asking for anything, but has to often take risks, even in front of others she has to pretend to be just his guard

Ji Feng thought for a long time, could not help but secretly sigh lightly, heart guilt, but when he came back to his senses, but heard the sound of Bai Zhu that even breathing, Bai Zhu unexpectedly unknowingly has fallen asleep.

Stunned, Ji Feng gently kissed Bai Zhu's cheek and also closed his eyes.

Originally, Ji Feng expected that the soldiers would wake up in the morning, but what he didn't expect was that they didn't start to move until mid-morning, when the light spilled down through the jungle branches and leaves.

But Ji Feng found that instead of packing up their things and leaving, those people, after waking up, actually carried out a piece of equipment from the tent that they didn't know what purpose it served and looked for something on the ground.

Ji Feng then couldn't help but frown as he said in a deep voice, "Bai Zhu, you wait here, I'll go over and take a look."

Bai Zhu faintly nodded her head.

Ji Feng skillfully approached the gang and hid behind a big tree and observed for a while, finding that the gang was indeed using that equipment to look for something, and the ground near that tent had been dug up a bit, with some roots exposed.

Ji Feng frowned. But after watching for a while, he did not see any name, during which he also heard those people occasionally have a conversation, but the other side jabbered, but he could not understand a word, only guessed from the expression of the one who was the leader, he might be urging his men, or admonishing them for something.

"What the hell are these guys looking for?!"

Campus Master Chapter 2482

What are these people looking for?

What could there be in this deep mountain forest?

Ji Feng could only return with this doubt after looking for a long time without seeing anything.

“Young Ji, how is it?” As soon as Ji Feng returned, Bai Zhu asked.

“Very strange!”

Ji Feng shook his head and said, “They seem to be looking for something, but what exactly they are looking for is not quite clear.”

Bai Zhu was also wondering, “What can there be in this primeval forest?”

Ji Feng said, “It seems that we can only contact Xiang Yongzhan, this gang should not leave anytime soon, there is not much point for us to keep watching here.”

This gang was looking for something here, and looking at the tent and stuff that hadn't been put away, it was obvious that they didn't intend to leave right away, I'm afraid they were going to spend the night here.

Ji Feng was tempted to grab their tongues and ask them about the situation, but considering the bird language the other party was babbling, he had to give up on that idea.

What could be done even if he grabbed the people over?

He couldn't understand what these people were saying, and if he couldn't understand the language, it would be a waste of time to capture them, but he would also alert the snake.

So, Ji Feng had to pick up the communication device and contact Xiang Yongzhan.

This communication equipment is used within the military and is not something that ordinary troops can be equipped with, so even in the middle of this deep mountain forest, it is still unaffected!

..... In fact, according to Xiang Yongzhan, this communication equipment itself is specially designed for this kind of deep mountains and old forests or the desert Gobi and so on some places where the environment is extremely harsh and cannot be reached by normal social means of communication.

As expected, Ji Feng was soon connected to Xiang Yongzhan.

However, what came through the communication device was not Xiang Yongzhan's voice, but the ear-piercing sound of gunfire: “Da da da da”

Ji Feng immediately frowned and whispered, “Old Xiang! Old Xiang! This is Ji Feng, can you hear me?”

“I hear you!”

Finally, Xiang Yongzhan's voice came over the device.

Ji Feng couldn't help but ask, “What's the sound from your side? Why do I hear gunshots?”

Xiang Yongzhan said, "Hmm! It's the sound of gunshots, there are still a few remaining stubborn elements left, after clearing them out, it's over."

Ji Feng was stunned: "You engaged in a battle with someone? Found the murderers who brutalised those villagers?"

He thought that the gang he was spying on were the culprits who had brutally killed those innocent villagers, but he didn't expect that Xiang Yongzhan had actually found them and even fought with them, and now it looked like the battle was coming to an end.

It seems there are more than just one or two groups of people in this forest!

Xiang Yongzhan said, "It's not clear in a sentence or two now, let's talk about it when I get back By the way, you contacted me, what's the matter?"

Ji Feng said, "I also met a group of soldiers on my side, but I couldn't understand what he said, I suspect that they are not Chinese"

"Wait a minute!"

Once Xiang Yongzhan heard this, he didn't even wait for Ji Feng to finish before suddenly interrupting him, then a burst of gibberish came from the other end of the phone, the sound was so loud and harsh that Ji Feng couldn't help but frown and hold his listening comprehension away some.

And then, Xiang Yongzhan's voice came over again, "Ji Feng, is that the kind of language you heard just now?"

Only then did Ji Feng understand exactly what the gibberish coming from the earpiece just now was, he immediately nodded and said, "That's right, it's that tone, but it's spoken differently, wait, I'll learn it"

Ji Feng had an extraordinary memory, even though he couldn't understand what those soldiers were saying, he had heard it once and could deaden it in his mind, and now it wasn't difficult to repeat it hard.

"There's no need to learn."

Xiang Yongzhan said in a deep voice, "If that's the tone, then it's right, it's these brutes! Ji Feng, don't make any rash moves now, just keep an eye on them, the rest will wait until I get back, my side will end the battle as fast as possible"

Ji Feng frowned and asked, "What is going on?"

Xiang Yongzhan said, "Long story short, I captured a few captives and briefly interrogated them, they explained that they were not the only squad in this forest, there were other teams scattered in other places, it was this gang that brutally killed those villagers!"

How could this be?!

Ji Feng's face instantly went cold as he glanced coldly in the direction where those soldiers were, and asked with his mouth, "What are they?!"

Xiang Yongzhan snorted coldly, "What else could they be? Vietnamese devils!"

Ji Feng instantly had a cold glint in his eyes and said, "Then, are you going to take them down or finish them off as well when you come?"

Xiang Yongzhan said in a cold voice, "How else can I treat them after brutally killing so many of our ordinary people? Should I still treat them preferentially as foreign friends?"

Ji Feng nodded and said, "I understand. End the battle as soon as possible on your side, I'll give you my coordinates, come over as soon as you can after it's done, I'll take the people down first"

Xiang Yongzhan was instantly startled, "Ji Feng, don't you mess around! These are regular military men, with strict military training and high combat literacy, you and Bai Zhu are two people"

"So you have to be quick!" Ji Feng laughed: "Otherwise, you'll have to come and collect the corpses for those beasts!"

"Ji Feng, you"

"Okay, you take down my coordinates!" Ji Feng gestured for Bai Zhu to look at his locator watch, then told Xiang Yongzhan where he was at the coordinates, and then cut off the communication.

"Young Ji, are we going to attack?" Bai Zhu asked.

"Not an attack!"

Ji Feng shook his head and corrected with a serious expression, "It's to slaughter these brutes!"

As he spoke, his face turned extraordinarily cold, and there was a biting murderous look in his eyes, "Bai Zhu, you give me a sweep and take charge of covering me, today, I'm going to slaughter these beasts with my own hands!"

The dozen villagers in the mountain village were brutally killed and even strafed with automatic weapons at close range, some of their heads were almost beaten into beehive coals.

A few others were even burnt all over!

To use such brutal methods on ordinary villagers, these people were not worthy of being human, without any semblance of humanity!

What he saw and heard in the mountain village all made Ji Feng's heart hold a fire that was so oppressive!

Especially when he was about to leave the mountain village at the end, that old man who had lost his son, that desolate look in his eyes, and that feeling of despair towards life and the future, made Ji Feng's heart have an indescribable unbearable and depressing feeling, and moreover, a kind of anger from the bottom of his heart.

What he saw in the mountain village made him even want to roar out loud in anger!

But he held back, just because Xiang Yongzhan said that according to the information received, those murderers should not have escaped from China yet!

That was enough!

Ji Feng was waiting for this time!

He wanted to catch those inhumane murderers, to make all those beasts pay for what they had done!

Now that he knew that those soldiers not far away who were speaking some kind of bird language were probably involved in the atrocities that brutalized the villagers at that time, or were the accomplices of those people, Ji Feng would finally have found a target to vent his anger on!

“Injustice has a head, debt has a master!”

Ji Feng pulled out the pistol at his waist, moved skillfully to open the safety, retired the magazine and looked at it, then pushed it up again, the bullets loaded: “Bai Zhu, later you will take the lead, but whoever dares to resist will be killed!”

Bai Zhu’s heart ached: “Yes!”

Ji Feng nodded: “Go! Go kill the beasts!”

“Young Ji, the dagger!” Bai Zhu hurriedly handed Ji Feng a dagger, there were too many people on the other side, but the two of them only had two pistols, and eight out of ten bullets were not enough, so in the end they would definitely have to fight close to each other, and a dagger was definitely the king of weapons in physical combat!

“I can’t use it!”

Ji Feng waved his hand and said, “Swat for me!”

Bai Zhu nodded: “Yes!”

The next moment, Ji Feng leaned up towards the group of soldiers, his eyes were filled with a dense killing spirit, his whole body was like a fierce tiger in the jungle that had found its prey, stalking, slowly approaching, looking for an opportunity to strike a fatal blow.

He, who wanted to tear these beasts apart!

Ji Feng leaned up, those soldiers did not notice in the slightest, a killing god in the jungle was approaching them, except for the four soldiers in charge of the guard, the others were busy looking for something, and a few others seemed to be preparing food

“Go to hell and eat!”

Ji Feng said coldly. But he didn’t rush to shoot, but continued to dive, and at this time, he was only a few meters away from one of the outermost soldiers.

Bai Zhu couldn’t help but feel worried in her heart as she watched from afar, and if she could, she even wanted to shout, “Young Ji, don’t go any further!”

However, not only did Ji Feng continue to move forward, he even came to the side of one of the soldiers in charge of the guard.

“Ka-ching!”

Ji Feng suddenly struck out, and with one hand, he directly snapped that soldier’s neck.

The next moment, the moment that soldier fell down, he smoothly took the automatic rifle in that person's hand.

Immediately, Ji Feng's eyes were filled with a murderous spirit as he held the automatic rifle, the black muzzle of the gun aimed at those soldiers who had not yet reacted, and pulled the trigger.

"Ta-da! Ta-da-da"

The closest soldier was blown off his head on the spot, brains and blood flying everywhere, almost half of his entire head knocked off!

Bloody!

Ruthless!

But he wasn't the only unlucky guy, after him, but all the soldiers standing in the field, all of them became the targets of Ji Feng's sudden strafing!

"Ta-da-da"

When Ji Feng dropped the automatic rifle in his hand and rolled on the ground to pick up the second gun, there were even people who had been shot but hadn't fallen yet

It was clear how fast Ji Feng was!

"Ta-da! Da da da da"

For the screams, the shouts of terror, and the scene of blood and flesh flying in the field, Ji Feng turned a deaf ear and a blind eye, just picked up his second gun and pulled the trigger once more.

He would not spare any of these animals, even if they were left alive, he would not let them stay in one piece!

Campus Master Chapter 2483

The automatic rifle exploded with maximum power in Ji Feng's hands.

None of the group of soldiers in the field could dodge it, even though their reactions were quite quick and they were obviously well trained, but compared to Ji Feng's speed, they were too far behind!

There was once a very famous expert who said that the development of technology had actually exceeded the limits of human physical endurance – as far as the current technology was concerned, no one was able to bring out the extreme of technology!

For example, a car, or a piece of equipment, or any other machinery, although a human can control it, but with the human physique, it is simply not able to perform at the limit of these machines, which is why the same racing car, if it is driven by a different driver, there will be different speeds

But even the most physically fit human being is unable to bring out the limits of the current level of technology.

Ji Feng is an exception!

This automatic rifle from an unknown country was undoubtedly brought to an unimaginable extreme speed in Ji Feng's hands!

—Even in the midst of a high-speed strafing, Ji Feng still had time to aim at each and every person, and this alone was enough to appall anyone who played with guns!

Because Ji Feng's eyesight, movements, body coordination, and even the coordination between his body's reaction and his brain's reaction, etc., had all reached a degree of limit that was breathtaking!

It was also because of this kind of strong to almost perverted general physical quality that Ji Feng was able to bring the performance of the automatic rifle to an extremely high level, and this, too, meant that the time had come for those soldiers to be unlucky.

A full dozen soldiers, not to mention resisting, did not even have time to escape before they were pierced by the high-speed bullets, hitting the field with blood and flesh, and the harsh screams continued one after another.

“Hoo~~”

Ji Feng, however, did not show the slightest bit of mercy, not to mention that he did not want to play the game of surrendering a gun without killing, after he finished shooting the bullets of the second rifle in a very short period of time, once again his legs suddenly shot up, his body surged, and he got another rifle in a few ups and downs.

“Ka ka ka~~!”

When Ji Feng once again set up his rifle and aimed that murderous muzzle at the field, the nightmare of those soldiers began once again!

Ta-da~~

Ta-da-da-da-

In the midst of this primeval forest, the sound of gunfire scared an unknown number of birds and animals into flight, but for Ji Feng, it was a hearty vent, a mad revenge!

A dozen innocent people, who were living in poverty, only relying on the mountains for medicine and hunting, and selling them for money at the market to make a living.

Even after killing them, they even set their bodies on fire Even though they were probably hiding some traces, this tactic was so cruel that Ji Feng hated it with a passion!

Now the opportunity has finally come!

Ji Feng held his gun and kept strafing, watching those soldiers in the field struggling on the ground, screaming and wailing, even as one bloody hole after another emerged from their bodies, causing these people to panic to the extreme, but Ji Feng remained unrelenting.

Did these brutes ever think of showing mercy when they brutally killed those villagers?!

“Ta!”

With the sound of a firing pin hitting empty, this shuttle was empty again.

By now, three magazines of bullets had been poured into those soldiers in the field!

When the gunfire suddenly stopped, the entire jungle became silent, the birds and beasts around had long since been scared away, and everyone in this scene had been hit with a thousand holes in their bodies, and there was not even anyone left to struggle and moan.

These people

All of them were killed!

Ji Feng looked cold and incomparable, his eyes were filled with a strong murderous spirit, despite not having half a drop of blood on his body, he gave off a bloodthirsty feeling of a god of killing!

Killing!

It was a killing without any suspense!

When Ji Feng finished off the first soldier on guard and got the automatic rifle in his hand, the killing had already begun!

Even if these men were also well-trained or had a lot of combat experience, when they faced Ji Feng, especially when they faced Ji Feng with a gun, they could only wait to be killed!

Now, this was the result!

There were a dozen soldiers who didn't even have time to resist, and in a very short period of time, they were all blitzed by Ji Feng, not a single one left!

Bai Zhu couldn't help but shake his heart as he watched from the trees behind him, the way Ji Feng launched his ruthlessness and let go of the killings was just too terrifying!

This was simply a small-scale massacre!

Bai Zhu looked at the scene full of blood and corpses and couldn't help but secretly say that those riot police officers were so lucky that only a dozen of them died in the Northeast at that time, they were really lucky to the extreme!

That could only be said that it was because Ji Feng did not have a gun in his hand, and it was daytime, in full view of the public, so Ji Feng was still more or less apprehensive.

If it had been in this kind of scenario

At that time, Ji Feng was nearly crazy, if no one saw it, he was afraid he would have absolutely slaughtered all those people!

"Young Ji is too powerful!" Bai Zhu couldn't help but secretly marvel.

"Pah!"

Casually throwing his rifle to the ground, Ji Feng pulled his pistol out from behind his waist again, he didn't even look at those corpses on the ground, but walked step by step towards the five tents at the back of that field.

His gaze was like lightning as he coldly shouted, "I know that there are still living people in the tents, if you don't want to die, I advise you to come out yourselves, if you are caught out by me hum!"

"....."

There was no response.

Ji Feng's eyes then couldn't help but flash a cold light, the expression on his face was even colder, he could be sure that there were still people hiding inside this tent, moreover, he even knew exactly where the other party was hiding.

There were two of them!

These two people were hiding inside the two tents.

Ji Feng didn't shoot immediately, he just walked forward step by step, these two should be the last survivors, even if Ji Feng wanted to kill them, he would say so after interrogation.

What's more, after the previous killings, the hostility and anger in Ji Feng's heart had finally dissipated quite a bit, otherwise, these two remaining beasts who were still hiding would have been taken out by him long ago with one shot.

—The two remaining animals were still hiding, otherwise they would have been killed by one shot.

Ji Feng's line of sight had long since passed through the tent and saw the two men hiding in separate tents!

Both of them were wearing camouflage uniforms, only one of them was also wearing glasses, but they weren't sunglasses, they looked as if they were nearsighted, and the man was also about forty years old, with a hint of fright, he didn't look much like a soldier.

As for the other man, he was young and had a pugnacious air about him, and in his hand was a grenade, and in the other hand was a pistol, and he was crouching there with a ruthless look on his face.

"Humph!"

Ji Feng couldn't help but secretly snort coldly, this man should be the leader of this squad, or rather their boss and head, this man was originally in that tent in the middle with the man wearing glasses, but after hearing the gunshots, the two of them hurriedly dodged away and entered the tents on both sides respectively.

This man was not slow to react, he must have known that if there was an attack, the enemy would think that the middle tent must be occupied by the leader, and would definitely search the middle tent first.

So this person went into the next tent the moment the gunshots rang out, so that when the enemy searched the middle tent, he could take advantage of the opportunity to escape

Ji Feng sneered in his heart.

And at the same time, the soldier who was in the tent was panicking in his heart, was at the same time judging what exactly was coming from outside, was it the soldiers of China who had come to retaliate?

Listen to the words just now, that is indeed the Chinese language

“Whew~!”

He was thinking sharply when he suddenly heard a strange sound and turned his head to see that the tent had been picked open and a young man with a murderous look on his face was staring coldly at him.

Subconsciously, the man was horrified and he raised his hand to fire, but before he could pull the trigger, he heard a ‘bang’ and the gun in his hand fell to the ground.

“Ah...!”

The man shouted strangely and was about to throw a grenade, but before he could raise his hand, his wrist was snapped by Ji Feng with a violent force.

Ka-ching!

The man’s wrist was actually broken off!

A white bone, directly piercing the flesh, was actually exposed just like that, while his hand, with only a layer of flesh attached, was drooping below, the scene was enough to make one’s scalp tingle.

“.....”

“Ah...!”

A wretched and incomparable scream rang out in the silent jungle, enough to show how much pain the owner of the voice was in!

“Ahhh!”

This miserable scream, however, also caused a low shriek to be let out from next door.

Ji Feng glanced at the next door, but ignored it, instead he directly raised his hand and placed the muzzle of his gun against the soldier’s head, saying coldly, “If you scream one more time, I’ll shoot you now!”

“.....”

In a flash, that voice came to an abrupt halt!

Ji Feng then slowly nodded his head and said in a cold voice, “It seems that you can understand my words, you are a Chinese?”

The man then realised that he had been fooled, he immediately shut up and didn’t say a word, no matter how Ji Feng asked him he didn’t answer, only the pain in his hand as if he was gouging out his flesh with a knife made his body tremble in pain.

Ji Feng nodded: “Tough guy! Very good! I like to meet tough guys like you, just the right kind of guy to lay a hand on!”

That soldier's body trembled in pain, his forehead was already covered with cold sweat, but it was as if he hadn't heard Ji Feng's words, he just kept struggling.

Ji Feng shook his head and said, "Alright, don't struggle, you won't find a chance, it's better to take your feet back, otherwise, I don't mind breaking both of your legs as well!"

"....."

Campus Master Chapter 2484

The man's body just stiffened, but immediately he struggled again, his mouth let out a low roar of pain, but did not dare to shout, because the gun of Ji Feng's pistol was right in front of him!

When Ji Feng saw this, he could not help but sneer, this person is still pretending?

In fact, from the moment this person heard the gunshot and immediately hid in the tent, Ji Feng knew that this guy was definitely not an honest person honest person would definitely not be able to do that kind of brutal killing of ordinary people, this thing only animals can do it!

And when Ji Feng saw this person's face, he was instantly more certain that this person was definitely not a good person.

Sharp-tongued, cunning, odd-looking, and distinctly different from the Chinese, even though they were also yellow and Asian, but if they stood with the Chinese, one could tell at a glance how different there was in between!

He is like a clown!

Even

Ji Feng instantly associated himself with a lot.

Southeast Asian natives!

Ji Feng thought of the one that happened in Southeast Asia many years ago, a bloody massacre against the Chinese diaspora, or even against all Chinese people!

In that massacre, which was outrageous and unbearable, it was those local indigenous people, who were jealous of the wealth that the Chinese had achieved after their hard work, and also because of various other reasons, including the secret instigation of some countries, which made these indigenous people extraordinarily jealous of the Chinese.

Finally, they began to rob the Chinese of their wealth, and at the same time used the most brutal means to kill the Chinese!

Although in the aftermath, many, many news, many, many truths were blocked and the news was regulated, anyone who lived through that massacre will never forget exactly what happened to the Chinese during that riot, and exactly how they were treated!

And now, more than ten years later, some of the photos taken by foreigners during the massacre back then have only been secretly disclosed little by little, and they still dare not disclose them openly, but

can only be quietly circulated on the internet or in the private collection of memories of some experts and scholars.

Ji Feng once saw it once, but just that once, it made his body tingle, his hands and feet go cold, and his whole body felt as if he had fallen into hell with fear!

It was unbearable!

Ji Feng could only use these four words to describe that image, the Chinese people were treated worse than animals!

If the most vicious insults between people were to threaten to skin and strip each other, they were all true in that image.

But the Chinese had never provoked anyone, they were relying on their own hands and hard work to earn their wealth by growing rubber, weaving and so on.

But in the end, not only was this wealth mercilessly plundered, even their lives, their families, were likewise plundered, their wives and daughters were qiangjian, and they themselves were brutally killed

Seeing this man in front of him, Ji Feng subconsciously thought of these!

They are all the same sharp-tongued, they all have the same cunning, sinister gaze, they are all the same beastly, committing the acts of brutes!

Then think about those innocent villagers who were brutally killed, Ji Feng's heart subconsciously rose up with a murderous spirit so strong that it was extreme!

He stared at this beast, and the killing intent in his heart was so strong that it even made him a bit unable to hold back!

"Hoo~~!"

Ji Feng stared at him for a while before he coldly said, "I really want to kill you beast alive right now! Let you also have a taste of the pain that our Chinese people have suffered!"

The man didn't seem to hear, he just wailed in pain, his body kept twitching, while he was still desperately shrinking his arm, because the bone had pushed out and pierced the flesh, blood was flowing, he was afraid he would die from blood loss!

Ji Feng just stared at him coldly, watching him struggle: "If you can, you can continue to pretend, as long as you pretend that you can't understand my words, you won't be able to get saved It doesn't matter, I have plenty of time, let's play slowly and see who can beat who!"

The fact that this beast is still pretending is really disgusting and disgusting to the extreme, he really wants to tear this beast with his own hands right now!

However, Ji Feng could only hold back!

Because right now, there were only these two living people left, and if the other one didn't look like a soldier, then it was possible that he really wasn't a soldier. This also meant that the real soldier might

just be this one person in front of him, then he could possibly know a lot of things, such as their military deployment and so on.

So Ji Feng couldn't kill him!

However, not killing him did not mean that he could treat him well. Ji Feng had never said anything about treating prisoners well, and he had already endured it by not killing this beast.

How could he possibly treat him well? He was already extraordinarily kind if he didn't torture this beast to death!

In fact, sometimes Ji Feng thought about it, but also really want to abuse and kill this beast, no live mouth, no live mouth, anyway, Xiang Yongzhan there has taken prisoners but in the end, Ji Feng still endured.

He smiled coldly and just stared at the guy, not stopping this person from pretending here at all: "Keep pretending, if you really have the courage, use your hand that can barely move, pull out the saber on your inner thigh and then wipe your neck directly yourself!"

"....."

The man's body stiffened again.

Ji Feng sneered, "Don't dare? Afraid to die, or don't want to die?"

The man didn't say anything, but just trembled in pain – this was not something he was pretending, but really incomparable pain!

If anyone else had had their wrist broken, even the white bones would have come out, and they would not have been able to do anything at all.

But when it comes to wiping his own neck

The actual fact is that he doesn't dare!

No one wants to die, who wants to kill themselves when they are well?

The same is true of the other two, so he pretended not to hear Ji Feng's words, and could only grit his teeth and endure the sharp pain coming from both arms at the same time, his mind quickly spinning, thinking of countermeasures to get out.

Now he did not have no chance at all, because there was another person lurking in the shadows, and the key now depended on whether that person had the guts.

Besides, he still had a weapon on himself, his legs weren't broken, and he could escape if he was allowed to stand up!

"Yo-ho, the eyes are still spinning?"

Suddenly, a cold laugh from Ji Feng interrupted his thoughts, while the message conveyed by Ji Feng's words was such that he couldn't help but be shocked, "It seems that the hand is still too light!"

This person was immediately shocked, from Ji Feng's tone of voice it sounded like he was actually going to deal with himself again?

However, before he could react, he suddenly saw Ji Feng grab his other arm again, and then, only to see Ji Feng suddenly smiling faintly at him.

"....."

"LOL!" A sound.

In the next moment, an unprecedented drilling pain instantly came out from his other arm, which in turn instantly spread throughout his body, causing him to suffer to the extreme, and his eyes rolled over, almost about to faint.

But at that moment, Ji Feng raised his hand and slapped him across the face: "Slap!"

In a flash, the man was as if he had been electrocuted, his eyes suddenly opened wide, his body trembled violently, his mouth was even more open, but no sound came out, the whole person could hardly breathe.

"You want to pass out without my consent? Really abominable!" Ji Feng smiled slightly, the power of bio-current, is not so good to enjoy!

"....."

At this moment, this Vietcong soldier only finally realized what kind of person he had fallen into the hands of!

This man was simply a demon, cold, cruel and inhuman!

"Take your time and enjoy it!"

Seeing this guy's pained expression, Ji Feng smiled coldly, "After brutally killing so many Chinese people, you want to pass out so easily? It's just a dream!"

The man did not react to Ji Feng's words because he was already in enough pain at the moment, the pain was so unbearable that he did not have the energy to think about anything else.

However, fear rose up in his heart, he finally knew why Ji Feng had treated him so badly, this demon was really here for revenge!

At this moment, but he couldn't help but have a hint of regret in his heart, if he hadn't brutally killed those Chinese people at that time, would he still be suffering so much now?

"Ah...!"

Suddenly, a shriek came from the other tent.

And then only a bang was heard, and a man was seen flying over and hitting the ground heavily, unable to stop himself from screaming in agony!

Bai Zhu walked over quickly and said, "Young Ji, there's another guy here, he tried to escape and I caught him back!"

Ji Feng nodded slightly and glanced at the guy, it was the guy with glasses who was hiding in the tent next to him, he coldly snorted, "Tell him to take off his outer clothes and shoes and tie them up!"

Bai Zhu immediately nodded, "Yes!"

The guy with glasses did not dare to resist in the slightest, and honestly followed Bai Zhu's instructions. He did not seem to understand Chinese, but he could read Bai Zhu's hand signals.

At this point, the whole group of soldiers was wiped out!

Apart from the two guys who were captured, everyone else was killed on the spot!

But this was not the end of the story, Ji Feng would not let that soldier go so easily, he had more tricks up his sleeve!

So, when Xiang Yongzhan arrived with his men a few hours later, the scene he saw made all the soldiers of the Special Combat Brigade couldn't help but be shocked and stunned!

"This"

Even Xiang Yongzhan couldn't help but look at the spot in astonishment, eyeing the dozen corpses with blood and flesh scattered all over the place, "Ji Feng, did you do all this?!"

Ji Feng said, "Just slaughtered a few beasts, what's the fuss?!"

The other warriors, including Cui Guangming, looked at Ji Feng with changed eyes.

Campus Master Chapter 2485

Xiang Yongzhan even laughed bitterly and shook his head, "Didn't I tell you to wait for me to come and then do it, you"

He just couldn't say anymore.

This there was still a need for him to bring people back? Ji Feng just with Bai Zhu two people will be this detachment ended, but is not like him, took a full day to exterminate two detachments, and Ji Feng a comparison, they all these people combined is not as useful as Ji Feng and Bai Zhu two!

"I was just waiting for you to come back!" Ji Feng said.

"Eh?"

Xiang Yongzhan was just stunned.

Ji Feng said, "If I wasn't waiting for you guys to come back, I would have killed this bastard a long time ago!"

He pointed at the Vietcong soldier whose two arms he had broken raw and who had long since died of pain, and sneered, "This guy is tough as nails, I'm having a good time abusing him!"

Xiang Yongzhan: "....."

When he saw the appearance of this Vietcong soldier, he was instantly speechless.

He could only see that both of this Vietcong soldier's arms were broken and both legs were tied together by a belt, making it impossible for him to escape and he could only struggle on the ground, wailing and moaning in pain.

However, it was not known whether it was because he had been tortured too hard or because the Vietcong soldier himself was not able to do it, at this moment he looked extremely miserable, his face and body were covered with mud and dirt, and there was a strong look of fear and despair in his eyes, his whole person looked weak to the extreme!

This man had been tortured for more than half his life!

Xiang Yongzhan couldn't help but look stunned: "He"

Ji Feng said, "This man is the head of this squad, I saw that he was very tough, so I respected him and let him maintain the dignity of a soldier, so I didn't interrogate him, but let him fully prove how tough he was!"

Xiang Yongzhan: "....."

The corners of the others' mouths were even twitching, maintaining the dignity of a soldier?

Is there such a thing as maintaining it?

Just by looking at the way that man was being tortured, I'm afraid that in his mind at this moment, a shot to him would be better than being tortured in such pain now!

In fact, that Vietcong soldier was practically crying when he heard this.

He cursed in his heart, "Respect me?"

..... Is this the fucking way you respect me by torturing me to the point of passing out several times and not being able to die from the pain?

You really do respect me yo!

If he could, he truthfully stood up and viciously pooh-poohed Ji Feng a few times, but he couldn't, much less dare!

He believed that if he dared to treat Ji Feng that way, what awaited him next would definitely be ten times more painful than this, and I'm afraid it's not an exaggeration to say that the pain was unbearable.

In his heart, Ji Feng is so cold, cruel and bloodthirsty

"There's another one over here!" Ji Feng, however, did not know what image he had in the mind of this Vietcong soldier and just pointed to the captive wearing glasses next to him.

In fact, even if he knew he wouldn't mind, he would even feel proud, to be able to make these brutes hate and fear themselves so much, this is definitely a great achievement!

Xiang Yongzhan frowned and said, "Who is this one again?"

Ji Feng said, "I don't know, this was also with them, I saw that this guy didn't look like a soldier, and his status seemed to be not low, he was actually able to live in the middle tent, so I arrested him as well."

“Not of low status?” Xiang Yongzhan was stunned, “What was his status?”

“If you ask me, who am I going to ask?”

Ji Feng spread his hands, “If I could understand what they were saying, do you think I would still be here foolishly waiting for you to come back and wait for hours?”

Xiang Yongzhan: “.....”

“Alright, I’ll leave the person to you, grab the interrogation!” Ji Feng casually lifted up the Vietcong soldier, then flung his hand and threw him to the two warriors with a thud, not caring about the Vietcong soldier’s painful screams.

“When I found them earlier, I saw that they seemed to be looking for something, there is still equipment used to search over there, later on you also have someone check it” Ji Feng gave a quick overview of the situation here, and added. “By the way, you have someone here who understands Vietnamese, right?”

Cui Guangming immediately said, “Mr. Ji, please don’t worry, I live here all year round and know Vietnamese!”

Ji Feng then smiled, not caring about Cui Guangming’s incomparably skillful blurting out of the words ‘Mr. Ji’, but said, “That’s best, then you will interrogate him immediately, and if he doesn’t cooperate, come and call me!”

“Okay!” Cui Guangming nodded his head. At this time, his tone and attitude was much better than before he left. It was obvious that the scene in front of him had definitely given Cui Guangming a great shock.

Two men, two pistols, had exterminated a small detachment of the other side. And judging from the situation at the scene, these Vietcong didn’t even put up half a fight, they were all slaughtered like that!

Were the Vietcong all fools or slow-moving zombies, just standing there and letting the two of them blitz them?

This was a miracle!

Cui Guangming realised that he had somewhat underestimated Ji Feng before, Ji Feng was definitely much more powerful than he had imagined!

The army was a place that worshipped the strong, and the fact that Ji Feng was so tough naturally earned Cui Guangming’s respect, not to mention that this ruthlessness of Ji Feng against the Vietcong brats nevertheless gave Cui Guangming respect, and could even be said to have taken a big bite out of him!

Afterwards, Cui Guangming led the men to interrogate the two men, and also brought the few captives brought back by the Special Combat Brigade to the tent together.

“Ji Feng, you brat is really ruthless!” By this time, Xiang Yongzhan had already made a cursory sweep around, but the scene he saw in his sight was one that he still couldn’t help but stumble over, “A full

dozen people, and there are only two alive, ah, and another one has been tortured by you to the point that he's only half alive

Ji Feng sneered, "If it wasn't for the fact that I couldn't understand his language, do you think that half of his life could have remained?"

Xiang Yongzhan then nodded slowly, he understood Ji Feng's feelings, especially when he thought of those innocent civilians who were slaughtered, he hated to go and slaughter those beasts immediately.

"Older brother, hate is hate, but sometimes you can't be so hard on your hands, if you take a few more prisoners, it will actually be beneficial during the negotiations!" Xiang Yongzhan reminded.

"It can't be helped, I can't help it!"

Ji Feng slowly shook his head and said, "As soon as I saw that bastard's sharp-tongued, treacherous, cruel and sinister look, I remembered that massacre of the Chinese people back then

At that time, I wanted to kill this son of a bitch immediately! For these beasts, I really"

Xiang Yongzhan immediately understood what incident Ji Feng was talking about, he shook his head: "Older brother, don't mention this matter again, what happened back then, there will definitely be a score to settle!"

Ji Feng glanced at him, "What, you, Captain Xiang, also want to exercise press control?"

Xiang Yongzhan shook his head with a bitter smile, "Older brother, that incident back then was indeed hateful, but how do you know that the military didn't retaliate in private?"

Ji Feng said, "I only know that this kind of hatred should never be forgotten no matter how many years have passed, and I must take revenge when I have the chance!"

Xiang Yongzhan nodded, "Of course! Even if anyone has forgotten, our military will definitely not forget!"

Now that's like words!

Ji Feng slowly nodded without speaking.

"Actually, ah, to say that I hate, I should hate those brutes more than proposed!" Xiang Yongzhan sighed lightly and said, "Let me reveal a piece of information to you, in fact, among so many compatriots who died back then, quite a few of them were our intelligence officers and agents, they were all killed alive or tortured alive to protect the local Chinese people!"

Ji Feng nodded slightly, of course he knew this, no matter if they were agents or intelligence officers, they were all serving the country, in fact, in a strict sense they were all considered soldiers, just soldiers who fought on different fronts.

As soldiers, they would naturally not stand by and watch their compatriots being slaughtered outside, and when those brutes raised their butchers' knives, they would naturally go to protect their compatriots without a second thought!

“At that time, there was a cousin of mine who was a bit older than me, at that time he had only joined the intelligence department not long ago, and was the one our family focused on training, but he also died at the hands of those animals in that massacre, in order to protect the compatriots being massacred!”

Xiang Yongzhan said, his words extraordinarily light.

Ji Feng was instantly stunned, “Your cousin also died in that atrocity?!”

“Yes. His father and my father were cousins,” Xiang Yongzhan said.

“So that’s how it is.” Ji Feng immediately understood that this cousin of Xiang Yongzhan should be one of the sons of the side line of the Xiang family, but as a military family, the Xiang family actually did not have that strict distinction between the side line and the full line, so that cousin of Xiang Yongzhan must have been highly valued at that time as well.

Xiang Yongzhan said: “Think about it, even he died there, how tragic do you think it would have been at that time? Wouldn’t our family have hated it? Wouldn’t I have hated it? Is there really no hate up there?”

Ji Feng nodded and didn’t say anything, in fact he understood a lot from Xiang Yongzhan’s words.

“It’s just that because of the country’s strategy, this kind of revenge can’t be carried out openly and honestly, but in private, do you think we’re really indifferent?” Xiang Yongzheng said.

“But the culprit is the one who is not being punished!” Ji Feng said.

“.....”

Xiang Yongzhan just choked: “The culprit is the leader of their country, how can they retaliate?”

Ji Feng blurted out, “Assassination, just do it directly!”

Xiang Yongzhan couldn’t help but laugh bitterly, “It’s not that easy, old brother, do you think it’s really that easy to assassinate a person?”

Ji Feng said, “I really don’t think it’s that hard! With the strength of our intelligence department and the military, can’t we still arrange a route of attack and retreat?”

Xiang Yongzhan said, “Of course all these can be arranged, but what about execution? Who will carry it out? Those people have an unknown number of bodyguards around them, security is very strict, it’s very difficult to get close, how can they be assassinated?”

“If you can arrange the attack and retreat routes, then” Ji Feng paused for a moment and snapped, “I’ll execute it!”

“What?!”

Campus Master Chapter 2486

“If you can arrange an attack and retreat route, then” Ji Feng paused for a moment and snapped, “I’ll execute it!”

“What?!”

Xiang Yongzhan was stunned by Ji Feng’s words, and immediately he shook his head loudly, “No, this will definitely not work!”

Ji Feng asked, “Why not?”

Xiang Yongzhan said, “This is absolutely not okay! You are here to carry out this is a nine-death job, when the time comes, if something really goes wrong, then do you think the country will recognize you or not recognize you?”

Some missions, once started, the person carrying out the mission may already be equal to ‘dead’, even if the mission fails, the state will never admit to having sent it, this is politics, can not let the other side catch a handle, then so, the person carrying out the mission may die without a burial place, and even after death can not The people who are on the mission may die without a burial place, and even after they die, they cannot return to their hometown!

But what is Ji Feng’s status?

If he goes to carry out the mission, if the mission really fails, it would be good if Ji Feng can escape, but what if he can’t? What if he died in another country?

What would happen then?

Should the state recognize Ji Feng’s identity or not?

There are other issues involved in the middle, which can’t be explained in just one or two sentences, but they are definitely very sensitive issues, so Xiang Yongzhan is resolutely not agreeing to let Ji Feng go on this mission.

“Older brother, this topic you’re talking about, that’s all for later, maybe there might really be this mission sent down in the future, but definitely not now!” Xiang Yongzhan was really afraid that Ji Feng would run off to that country in Southeast Asia in a fit of rage to assassinate the leader of that country, so he hurriedly advised.

“Right now, our main task is to take revenge!” Xiang Yongzhan said, “Moreover, we also need to find out what purpose this gang of people has infiltrated into our China, and what kind of people they are This is the most important task at the moment!”

“Don’t worry!”

Seeing Xiang Yongzhan’s nervous look, Ji Feng smiled: “This is just a proposal from me, it’s up to you whether you agree or not.”

Only then did Xiang Yongzhan put his mind at ease: “That’s good!”

Ji Feng said, “You don’t have to worry, even if I have to do anything else, I will definitely help those villagers in the mountain village to take revenge first, and by the way, if possible, assist you in your mission, the rest will come later!”

The tragic death of those dozen villagers had kept a fire bottled up in Ji Feng’s heart.

Even though he had already slaughtered a dozen Vietcong brats, it was still far from enough, because there were still Vietcong squads present in these deep forests, and he must slaughter all of them!

“In fact, the cruelty of the Vietcong brats is no worse than the natives of that country!” Xiang Yongzhan said, “Did General Ji ever tell you the details of that self-defense counterattack war back then?”

“No!”

Ji Feng shook his head.

Xiang Yongzhan said, “I’ve heard people talk about it, and I’ve also read some of the internal files of the army, and to put it mildly, it really makes one’s scalp tingle a bit.”

“Oh?”

Ji Feng was then a bit surprised: “Makes your scalp tingle too, tell me about it?”

Xiang Yongzhan said, “In fact, that time was also similar to the situation now, the Vietcong repeatedly provoked and even brutally killed our people you should know all this.”

Ji Feng nodded slightly, indeed, the vast majority of people knew what was going on in that war back then, and, with it, Tai Zu’s phrase, ‘Children don’t listen, it’s time for a spanking’, spread throughout the world.

“But you certainly don’t know how cruel the Vietcong were!” Xiang Yongzhan said, “There was a time when they were almost to the point of being a universal army, specifically attacking our logistics, like supply convoys, like field hospitals and so on, especially the field hospitals!”

Speaking of this, Xiang Yongzhan couldn’t help but grit his teeth and said, “I once saw a picture of one of our field hospitals being attacked by the Vietcong, however, they were the ones who didn’t even spare the women and the wounded, there was a female nurse who was spoiled and then brutally killed, even her stomach was cut open ”

Xiang Yongzhan waved his hand, he can’t even say anymore.

Ji Feng frowned, in fact, even if Xiang Yongzhan did not say further, he was able to imagine the scene at that time.

Xiang Yongzhan said, “I’m not saying this to inspire your hatred, I just want to show that the Vietcong themselves are very cruel, and it’s fortunate that their country was not strong back then, otherwise, I’m afraid they would have been even more cruel than the Kepong people!”

Ji Feng said, “Whether they are cruel or not has little to do with us, as long as they don’t come to provoke us!”

Xiang Yongzhan said, “But the problem is, now they have already come to provoke us, and the dozen villagers who were brutally killed in the mountain village are the best testimony to that!”

Ji Feng said, “Then let’s screw them to death!”

Xiang Yongzhan said, “That’s right, they dare to massacre our villagers, then screw them to death! Return to them ten times and a hundred times what these beasts have put on our people’s heads!”

Ji Feng said, "Since that's the case, then that country in Southeast Asia, let's put it aside for now!"

Xiang Yongzhan then nodded his head, he said all this to actually get Ji Feng to give up on assassinating the leaders of that country first and focus on the Vietnamese first, because the cruelty of the Vietnamese is indeed no worse than the natives of that country!

"However, that country I will go there sooner or later!" Ji Feng, however, said in his heart.

"Report Captain!"

A soldier quickly ran over and lowered his voice: "Captain, a few captives have confessed, but there are still two others who refuse to confess!"

Xiang Yongzhan frowned, "Oh? Who refuses to confess?"

The soldier said, "One is a captive we brought here, and the other is the wounded captive that Mr. Ji captured, he said he was a Vietcong and since he was a captive, he had to be treated preferentially"

"Go over and take a look!" Ji Feng said in a deep voice, "I want to see just how hard that bastard's bones are!"

"Go!"

Xiang Yongzhan quickly followed.

The two of them arrived at one of the tents one after another, and saw that the guy who had two arms broken by Ji Feng was sitting on the ground with his teeth gritted, weak as hell, but not saying a word.

When he saw Ji Feng enter, a look of panic flashed abruptly in his eyes.

Ji Feng glanced at him, then looked at the few warriors next to him, and Cui Guangming was sulking.

"Bring all the captives to this tent!" Ji Feng said in a deep voice.

"Do as Mr Ji ordered!" Xiang Yongzhan said.

"Yes!"

Several warriors went out and soon, they brought all the other four captives over, one of them was the man with glasses, who was instead full of panic and looked very timid.

Ji Feng put his hands behind his back, scanned a week over their faces and said, "Can anyone understand my words?"

Cui Guangming said, "Mr. Ji, if you speak more slowly, most of them can understand, and many of the Vietnamese people can understand Chinese."

"Very good!"

Ji Feng nodded slightly, "I will ask a question, if you answer honestly, you will live, if not, I will let you know what will happen! Now I ask you, where are you from?"

Cui Guangming and the others were all a little surprised, this question was too simple, wasn't it? And they all knew that these people were from Vietnam, so why were they still asking?

However, out of the shock Ji Feng had brought earlier, they didn't say anything even though they had doubts in their minds.

However, no one answered even such a simple question.

Xiang Yongzhan then frowned, "Didn't I say someone had recruited?"

"Never mind!"

Ji Feng smiled faintly and pulled out a pistol from a soldier's waist, loaded the bullet and casually pointed it at one of the captives, "One more chance for you, say, where are you from!"

The captive saw the gun pointed at him and his face changed dramatically in fear, but it seemed that he was concerned about the others next to him, he opened his mouth, but still did not speak.

"Boom!"

Ji Feng fired directly, and instantly shot off the man's head!

Wow~!

Everyone was taken aback, including Xiang Yongzhan, who didn't expect Ji Feng to actually shoot, and to shoot his head off with a single shot, splattering blood everywhere!

Those few remaining captives were even more shocked, the pain of this happening in front of them with their companion being done away with was just too shocking and impactful!

"Now, who is willing to answer me?" Ji Feng asked, and at the same time, he aimed his gun at the second person.

"#@#%\$"

The man was instantly terrified to the point of panic, his mouth gibbering out something.

Cui Guangming was busy saying, "He said, he's willing to talk, he's willing to cooperate."

Ji Feng nodded and pointed the gun at the others again, "What about you guys? Is anyone unwilling to talk?"

Everyone nodded, except the guy who was caught by Ji Feng, and the one wearing glasses.

Ji Feng glanced at them and didn't say anything, he just said, "Take these two out and continue the interrogation, just leave the rest of these two to me"

So, the two captives who nodded repeatedly that they were willing to cooperate were taken out, and the remaining two, were kept by Ji Feng, who smiled faintly, "It seems that the torture you had before wasn't enough! Then, I'll play with you again!"

The injured guy rattled off another string of words, and his expression seemed to be very excited.

Cui Guangming said, "He said that he was a Vietcong, and now that he's a prisoner, he doesn't deserve to be treated like this either"

"Break his legs!"

Ji Feng said bluntly, "Also, use a saber to cut his hamstrings off! Hey! This is a primeval forest, since you are a prisoner, you will be released, but I am curious to know, with both arms broken and hamstrings picked, how will you go back?"

The man's face instantly changed drastically and he rattled off something sharply.

Ji Feng, however, waved his hand and said coldly, "Execute!"

The two soldiers were about to step forward, and the man was so frightened that he struggled to get back, but how could he possibly escape when he was tied up? He could only shout something out of his mouth in anxiety

"Mr. Ji, he's willing to talk!" Cui Guangming said busily.

"Bastard!"

Ji Feng coldly snorted and turned his head, "Everyone go out, I'll just stay with Captain Xiang for interrogation!"

Campus Master Chapter 2487

"Bastard!"

Ji Feng snorted coldly and turned his head, "Everyone go out, Captain Xiang and I will just stay behind for interrogation!"

This time, no one dared to question Ji Feng's words again, whether it was the soldiers of the Special Combat Brigade or Captain Company Commander Cui Guangming, they all hurriedly went out.

They had seen Ji Feng's ruthless tactics through those dozen corpses before, and the sudden and huge shock of Ji Feng directly blowing off a guy's head with a single shot in front of everyone just now made them even more aware of Ji Feng's tactics.

What's more, Xiang Yongzhan had said that he would do what Ji Feng had told him to do, so how dare they have any further doubts?

In fact, the most important thing was that this small detachment of Vietcong was completely exterminated by Ji Feng and Bai Zhu, if it wasn't for Ji Feng, they were afraid that they wouldn't even know where the shadow of this detachment was by now!

Therefore, Cui Guangming and the soldiers of the Special Combat Brigade all quickly retreated without waiting for a sign to Yongzhan.

Only Ji Feng, Bai Zhu and Xiang Yongzhan were left in the tent.

Xiang Yongzhan then looked at Bai Zhu slightly hesitantly and said, "Bai Zhu, do you want to"

"There is nothing to not!" Xiang Yongzhan's words were not even finished before he was interrupted by Ji Feng, "Bai Zhu will represent me."

"....."

Xiang Yongzhan then had a bad smile and looked at Ji Feng and nodded, "OK! How you say so!"

Ji Feng hummed and ignored him.

How could Ji Feng not see that Xiang Yongzhan was deliberately scamming him? But it wasn't like he needed to deliberately hide his relationship with Bai Zhu, so what if he admitted it openly and honestly?

If you need to be careful at home, it would only hurt Bai Zhu's heart if you had to hide outside as well.

So Ji Feng said directly, "Old Xiang, this person is fine if you don't take him back, right?"

Xiang Yongzhan was stunned: "What do you mean?"

Ji Feng said, "I mean, a small leader like this, if he dies the top won't hold you responsible, right?"

Xiang Yongzhan smiled and said, "You want to kill him? Older brother, so heavy on killing?"

Ji Feng then shook his head, "What an answer to a question!"

As he spoke, he lifted the Vietcong soldier and threw him to the ground, "Old Xiang, hold him up and make him sit up straight!"

Xiang Yongzhan was a bit puzzled, but did as Ji Feng said, "Older brother, what exactly are you going to do?"

Killing someone and making them sit up before killing them?

In the midst of Xiang Yongzhan's confusion, the man was terrified to the extreme; in fact, although he couldn't speak Chinese, he could barely understand it, so he knew that the conversation between Ji Feng and Xiang Yongzhan was about killing him.

This scared the hell out of him.

He hadn't expected these two Chinese people to really want to kill him, which made him die, scared to death and screaming in shock.

"Tell him to shut up, what the hell is he saying in gibberish!" Ji Feng snorted coldly.

"Swish!"

Bai Zhu directly pulled out a dagger and placed it against the man's neck, "If you dare to speak half a word of nonsense again, watch out for your dog's life!"

"....."

The man's shrieking came to an abrupt halt, his lips trembling, with an unspeakable look of panic in his eyes, and a hint of pleading, as if he was begging Ji Feng and the others not to kill him.

Ji Feng glanced at him and casually asked: "At that time when you killed those innocent people of ours, was there someone who begged you like that too? There should have been, right? Many of them were shot at close range, so you should be able to see their fearful and pleading eyes at that time when you had no use in letting them go?"

"....."

The man's face suddenly changed at his words, an unspeakable panic pervaded his whole body, and he didn't know whether it was because of fear or extreme pain, his body shook very badly, and cold sweat was on his forehead.

Ji Feng urged the bio-current and imprinted a palm on the other man's head, no longer giving him the chance to speak at all.

"Ah...!"

The man saw Ji Feng's palm pressing down towards him, and immediately opened his mouth wide to scream in alarm, but as Ji Feng's palm pressed down, his voice gradually diminished.

Seeing this scene, Xiang Yongzhan could not help but be slightly stunned for a moment, and then reacted, "Ji Feng, are you trying to use that move?"

Ji Feng did not say anything.

Bai Zhu then hurriedly glanced at Ji Feng, a little ashamed and flustered in her heart, but seeing that Ji Feng did not react, she then faintly put her heart down.

In fact, Xiang Yongzhan originally did not know that Ji Feng could use bio-current to simulate the trick of becoming a neurotoxin, but because when Bai Zhu first started following Ji Feng, she would report a lot of information to Xiang Yongzhan, and as a result, it made a lot of things about Ji Feng not a secret in front of Xiang Yongzhan.

In fact, the first time Bai Zhu had seen Ji Feng use this method was on that island outside the East China Sea, when Xiang Yongzhan was in danger and asked Ji Feng for help, and Ji Feng had used this method more than once to interrogate which militants after he swam armed to the island, and he even captured a few reformers alive that time.

So now that Xiang Yongzhan knew what method Ji Feng wanted to use, Ji Feng wasn't surprised.

He just stared at the Vietcong soldier and saw his eyes gradually become confused, then his pupils started to dilate and his eyes lost focus, he checked slightly again and said, "Alright, let someone who understands Vietcong come in, it's time for interrogation."

Xiang Yongzhan did not feel much surprise, nodded his head and was just about to ask Cui Guangming to come in, but then he heard Ji Feng suddenly say, "Just have someone interrogated directly, don't say anything extra."

Xiang Yongzhan then couldn't help but choke, nodded bitterly and turned around to call Cui Guangming in.

"This is him."

Cui Guangming was startled when he saw the appearance of that Vietcong soldier.

Xiang Yongzhan said, "Captain Cui, this man has been hypnotized, now he is in a confused state about everything, you should hurry up and interrogate him."

"Hypnosis?"

Cui Guangming was surprised, of course he had heard of hypnosis, but “Hypnosis is actually so amazing?”

It was really possible to hypnotize a good person to the point where he knew nothing about the outside world and had no reaction? This is simply comparable to the witchcraft of Miaojiang!

The next time Cui Guangming interrogated him, he was even more shocked, this man was simply too cooperative, answering whatever he was asked, without a single hesitation or pause.

“Wait a minute!”

Seeing that Cui Guangming’s expression was getting more and more odd, and the questions he asked were not what Ji Feng wanted to know, Ji Feng said, “Company Commander Cui, ask him who actually killed those villagers!”

Cui Guangming nodded his head and asked the question.

Soon after, he turned his head to, “Mr. Ji, he said that those villagers were indeed killed by his subordinates.”

Sure enough, it was these brutes!

Ji Feng’s face then turned gloomy as he said in a cold voice, “Why did you kill them?!”

This time without waiting for Cui Guangming to relay the question, that Vietcong soldier rattled off a string of words, and Cui Guangming said, “Mr. Ji, he said that those Chinese people saw what they shouldn’t have seen, so they had to die!”

A cold light flashed in Ji Feng’s eyes at once, and he said in a cold voice: “Captain Cui, I hope you can translate truthfully, and don’t add oil and vinegar in the middle, or lack in the translation!”

Cui Guangming was immediately a little embarrassed, “I just he cursed too hard, so”

Just now that Vietnamese soldier said not ‘those Chinese people’, but used an insulting only word, but as a Chinese, Cui Guangming naturally could not translate it directly.

Xiang Yongzhan said, “Whatever he cursed, he will return it tenfold and a hundredfold in the future, now, translate it truthfully!”

Cui Guangming then hurriedly nodded his head, “Yes!”

Only then did Ji Feng say, “Go on! You ask him again what those villagers actually saw that they shouldn’t have seen!”

“Because they saw Lord Luo Qiu” When Cui Guangming translated over the words, Ji Feng couldn’t help but frown.

“You ask him what this Lord Luo Gnarled is!” Ji Feng said in a deep voice.

“Lord Luo Qiu is Lord Luo Qiu.”

“.....”

Ji Feng then frowned, and after a moment of slight contemplation, he changed the way he asked the question, "Company Commander Cui, ask him, apart from those villagers who were killed by guns, there are several villagers whose bodies were all burnt, how did they die!"

However, when Cui Guangming relayed the question and translated the man's answer, Ji Feng couldn't help but be taken aback.

"They were killed by the weapons Lord Luo Qiu brought with him!" The man replied.

"Luo Qiu!"

Ji Feng's brow furrowed, it was related to this man again, "Ask him, what kind of weapon did Luo Qiu bring?"

"I don't know, it's a very powerful weapon!"

"Bullshit!"

Xiang Yongzhan couldn't help but curse out.

Ji Feng said, "So, where exactly is this Lord Luo Qiu now?"

"Lord Luo Qiu is at the base near Xinma with Lord Cage, waiting for news."

"Xinma, the base, Kage"

Ji Feng sharply noted these three key pieces of information and asked in a deep voice, "What news are they waiting for?"

"..... is waiting for the search information from all our squads!"

"Searching for what?!"

Even Xiang Yongzhan was starting to get a little impatient with this way of asking one question and answering another, and couldn't help but ask in a deep voice, with some fire starting to creep into his voice.

Who knows, the man's answer made Xiang Yongzhan even more furious: "..... don't know."

"Don't know?!"

Xiang Yongzhan was instantly furious: "Are you fucking playing with me? I'll shoot you, you son of a bitch"

Ji Feng frowned: "Old Xiang, what are you bothering with a fool?!"

Xiang Yongzhan reacted instantly and became somewhat speechless: "....."

Ji Feng said, "If he really acts like a normal person, and when you ask him something, he spouts off, do you dare to believe what he says?"

Xiang Yongzhan couldn't help but think about it.

Ji Feng then said, "Captain Cui, go ahead and ask him if he doesn't know what he's searching for, then why is he still staying here?"

Cui Guangming then nodded and relayed the question.

"Lord Luo Qiu gave us a device to mark that location and report back to Lord Luo Qiu and Lord Cage whenever the device sounds an alarm."

"Oh?"

Ji Feng instantly thought of the device!

Campus Master Chapter 2488

Ji Feng remembered that the reason why these guys had set up camp here was that they were looking for something. Just this morning, he had also seen a few Vietcong soldiers dragging a piece of equipment of some sort, searching for something.

Now that he thought about it, the piece of equipment they were dragging would be the one this guy was talking about, the one given to them by the guy named Luo Qiu!

"Ask him if anyone among all their squads has ever found it?" Ji Feng said.

"No."

"Why did you come here to look for it?" Ji Feng asked again.

"..... don't know. It was Lord Luo Qiu's order."

"How did you contact Luo Qiu?" Ji Feng asked in a deep voice, asking so far, he knew that he wouldn't be able to get any more useful information from this guy, so he wasn't going to ask any more questions, just to get the contact information between them.

Soon, Ji Feng got from this person the way they contacted the man named Luo Qiu, and to Ji Feng's surprise, the Vietcong soldiers actually also used special communication equipment from the military to communicate, only that their set of equipment was imported from Rice.

After asking these questions, Ji Feng had basically asked almost everything he wanted to know, and the Vietnamese soldier could not answer the rest.

So the next step was to start asking questions to Yong Zhan.

"Captain Cui, you asked how many squads they had in total, how they were all connected to each other, and what their respective positions were now!" Xiang Yongzhan was more concerned about the combat aspect, "especially, whether they are regular troops of the Vietcong, or whether they come from the wild."

"Also, where exactly did that Luo Qiu come from, and what exactly is their relationship with this man!" Xiang Yongzhan asked all the questions he wanted to know in one breath.

"I'm asking you"

Cui Guangming then began to relay Xiang Yongzhan's question.

Although this Vietnamese soldier could understand Chinese, looking at his state at the moment, he might not be able to understand so accurately, so many questions needed to be repeated by Cui Guangming in Vietnamese again.

Soon, Xiang Yongzhan also got the answer he wanted.

“Captain Xiang, he said that they are the regular army of the Vietcong, the troops stationed near the border line, and they came out with a total of more than 500 people.”

Cui Guangming said, “He didn’t know exactly what that Luo Qiu was, it was an order from their officer and they were just responsible for carrying it out. It was their officer who called that man Lord Luo Qiu, so they followed suit.”

“Over five hundred people!”

Xiang Yongzhan was taken aback, “Good man! These bastards really dare, actually coming out with a small battalion at once?!”

They were stationed at the border to ensure the safety of the border, but now the Vietcong had flooded in a small battalion and they hadn’t even noticed it, this was a serious dereliction of duty!

“Captain Xiang, I must report this matter immediately, they are from the border battalion, yet they have invaded our territory!” Cui Guangming gritted his teeth and said, “We can’t just let them off the hook!”

“That’s your authority!” Xiang Yongzhan nodded and said.

Cui Guangming nodded, and then immediately took out his communication equipment and reported to the top.

The Vietnamese border battalion had invaded China with a full 500 men, this could almost be seen as war, if both sides were tough and wanted to fight, even if just one soldier ran over, there could be a fight.

Just as Cui Guangming went to report for instructions, Xiang Yongzhan whispered, “Older brother, it looks like we’ll have a fight on our hands this time, how about it, dare you join me in fucking him up!”

Ji Feng said, “I don’t dare.”

Xiang Yongzhan: “.....”

Ji Feng said, “I have other things to do, to solve these Vietcong soldiers, you guys alone can do it.”

Xiang Yongzhan shook his head and said, “Older brother, although I have confidence in the combat power of the special combat brigade, but this time we came with just these people, but the other side has more than 500 people, and they are also from the border defense battalion, their combat power is not bad, if you don’t participate, I really have some uncertainty.”

Ji Feng shook his head and said, “In a battle of this scale, even if there is one more of me, it won’t make much difference, moreover, once we do it on our side, there is a good chance that Luo Qiong on the New Horse side will get the news and may escape, I have to catch him!”

Xiang Yongzhan said, "Fighting in the mountains and forests, more than 500 people can't all be deployed, we still have a good chance of winning against them, and as long as the battle is quick, it shouldn't take much time."

Ji Feng then couldn't help but frown and ponder.

Xiang Yongzhan said, "Just now you also heard this son of a bitch say that they will only contact what's called Luo Qiu after they find something, so there's not much chance of exposure, besides, we can also make a more detailed battle plan, and with Cui Guangming, who understands Vietnamese, there will definitely be no surprises."

Ji Feng said, "It's better to wait for Captain Cui to finish his report and see what the top means."

It wasn't that he didn't want to take part in the battle, it was just that he really wanted to capture that guy called Luo Qiu, because he had a strong suspicion that that guy probably had something to do with the dynasty, or, this person might have a laser gun in his hands!

Capturing this guy would make it possible to find out exactly who was producing the laser guns, and to find out exactly what they were looking for.

It shouldn't be a difficult task to exterminate the Vietcong's army, with the Chinese border guards around, although the Vietcong army had always claimed that they could easily defeat the Chinese army, but in reality, how strong the Vietcong army was in battle, Ji Feng had already seen from these Vietcong soldiers.

"It's already getting late." Xiang Yongzhan said, "Even if the troops are to be sent from above, I'm afraid they won't arrive until tomorrow morning. At that time, how can you guarantee that there won't be villagers going up the mountain to collect medicine who will encounter these Vietcong beasts and be slaughtered? You mustn't forget that there are not just one or two mountain villages in this big mountain."

Ji Feng then frowned for a moment.

Xiang Yongzhan said, "Think of those villagers who were brutally killed!"

Ji Feng clenched his teeth and glared, "No need to say it, I'll do it! Not for anything else, just for those villagers who were brutally killed!"

"Good!"

Xiang Yongzhan was instantly overjoyed, with Ji Feng, a guy who was so strong that he was almost perverted, participating, not to mention that there were more than five hundred Vietcong brats, even if there were these people again, he would still have full confidence!

"However, it must wait until I finish interrogating these captives!" Ji Feng said.

"No problem, this brute has already finished interrogating, it's useless to keep it." Xiang Yongzhan directly pulled out his pistol, pointed it at the head of that Vietcong soldier and pulled the trigger without hesitation.

"Boom!"

The man's head was directly blown off!

Cui Guangming, who was reporting to the top, was instantly shocked!

Xiang Yongzhan sneered, "Son of a bitch, brutally killing our civilians, letting you live is an insult to this military uniform on my body!"

Then, he said, "Wait, I'll go and bring the other few captives over."

Ji Feng then couldn't help but smile, that's right!

Treating these beasts if there was still talk of preferential treatment for prisoners, then there would be no point in Xiang Yongzhan coming on this trip.

Soon, Xiang Yongzhan brought the rest of the prisoners over, and Ji Feng's gaze immediately fell on the guy wearing glasses, and he could tell that this guy should not be a soldier.

This guy had a fearful face, his eyes were averted and his body was shaking, he was obviously scared to death.

"Captain Xiang, I've already reported to the top, and they told us not to act rashly and said they would ask for instructions as soon as possible." Cui Guangming walked over and said in a low voice.

"We'll talk about this later, you act as a translator again!" Xiang Yongzhan pointed at the guy wearing glasses.

Ji Feng asked in a cold voice, "What are you?!"

"He's an electronic engineer at a factory in Xinma City, hired by someone to debug equipment" Cui Guangming translated the man's shivering reply, "He said he didn't know anything, he just received a sum of money"

"Is that so?"

Ji Feng asked with a frown, "In that case, you were also present when this gang of brutes brutally killed our common people?"

The man immediately shook his head frantically.

"He said he wasn't there, at that time those villagers turned and ran after seeing that, once they had guns, then these soldiers chased after them" He ran slower and was more scared, he was at the end, he just heard the gunshots and didn't know anything."

"Bullshit!"

Xiang Yongzhan sneered and gave a wink to a soldier under him, "Pull it out and shoot it!"

When the engineer heard that, he was so scared that his legs went limp, and if it wasn't for the two soldiers holding him up, he would have gone limp on the ground.

As he was being held up by the two soldiers, the engineer screamed in fear and struggled desperately, but how could he be a match for the two Special Chief soldiers and was directly ruled unable to move.

“Boom! Boom!”

The sound of gunfire came from outside the tent, and a moment later, a soldier walked in and whispered something in Xiang Yongzhan’s ear, who nodded and said, “Just shoot them. Keep interrogating these two!”

At this time, the two remaining prisoners were so scared and limp that they didn’t dare to be dishonest at all.

However, their answers were a little disappointing to both Ji Feng and Xiang Yongzhan, because they were the same as the answers given by the Vietcong soldier who had been crushed before, and they could not even answer some of the questions.

Obviously these were just two minions, so Xiang Yongzhan didn’t bother to pay attention to them and directly waved his hand, “Pull them out and kill them!”

When they invaded Chinese territory and killed Chinese villagers, I’m afraid they didn’t expect that retribution would come so quickly and cruelly!

But at this time, Ji Feng asked, “Old Xiang, did that engineer really get killed?”

Xiang Yongzhan said, “Of course not, just shot him in the scalp and he fainted in shock, but still didn’t change his mind, guess it’s really an ordinary engineer.”

Ji Feng nodded and said, “Just to be on the safe side, I’ll try again.”

As a result, Ji Feng got pretty much the same answer after employing the neurotoxin, the only difference was that this person had witnessed those villagers being brutally killed, and, he had followed the chase!

So, Ji Feng immediately increased the amount of neurotoxin, and this man became a complete idiot!

Campus Master Chapter 2489

Ji Feng and Xiang Yongzhan’s revenge, however, had only just begun.

Once all the prisoners had been dealt with, Xiang Yongzhan gathered all the warriors of the Special Combat Brigade and prepared to set off.

Cui Guangming was busy saying, “Captain Xiang, the top told us to wait for orders

Xiang Yongzhan said, “The special combat brigade has the right to fight independently! If there is any responsibility, just put it on me directly, I will bear all the consequences!”

Cui Guangming immediately did not know what to say.

Xiang Yongzhan said, “Cui company commander, we need to rely on your help next, these communication equipment you take with you, if you encounter someone from the other side contact on the road, you are responsible for stabilizing them.”

“This” Cui Guangming then had some difficulty.

“It’s better for me to do it.” Ji Feng said.

“What?”

Xiang Yongzhan and Cui Guangming both couldn't help but be stunned for a moment and looked at Ji Feng somewhat strangely, “Older brother, you don't know Vietnamese, you”

“Vietnamese isn't that difficult, after listening to it for so long, you can always learn some.” Ji Feng smiled and said.

“Just kidding!”

Xiang Yongzhan shook his head: “You've only been listening for how long, when the time comes, if you reveal a flaw in your answer, it will be a lost cause, and we won't be able to catch Luo Qiu”

“Please don't worry, Captain Xiang, I won't mess up!” Ji Feng said.

“.....”

At once, both Xiang Yongzhan and Cui Guangming stopped speaking and looked at him in consternation at the same time. This was because the words Ji Feng had just said were actually spoken in Vietnamese.

Cui Guangming, in particular, could hardly conceal the shock on his face, “This Mr. Ji, you can speak Vietnamese?”

Xiang Yongzhan was astonished, “What? Company Commander Cui, is he really speaking Vietnamese?”

Cui Guangming nodded his head repeatedly, “That's right! It's exactly the same as the accent of the captives!”

Xiang Yongzhan then looked at Ji Feng in astonishment, “Older brother, you”

Ji Feng smiled, “How about it, Captain Cui, with my current level of Vietnamese, it's not a problem to muddle through, right?”

Cui Guangming said, “Of course! Of course!”

Ji Feng said, “Next we will exchange words to make me more proficient, you just need to follow, you don't need to participate in this operation, is that okay?”

Cui Guangming said, “..... no problem.”

Ji Feng then smiled and looked at Xiang Yongzhan, saying, “Old Xiang, we set off?”

Xiang Yongzhan was then surprised badly, he really didn't know why Ji Feng could suddenly speak Vietnamese, but this was definitely a surprise, with Ji Feng around, Cui Guangming wouldn't have to disobey orders and it would be much easier to act.

What's more, there were some things that needed to be kept secret from Cui Guangming, so this next concern was a lot less.

“Let's go!”

Xiang Yongzhan fiercely waved his hand!

And so, the nightmare of the Vietnam Border Battalion began.

With Xiang Yongzhan and Ji Feng teaming up, they were able to use their intentions and Ji Feng posed as a Vietnam Border Battalion squad to make contact with the other teams, and after feeling out where the other team was, they suddenly launched a surprise attack. These people, who were divided into a squad of around twenty people, were not even good enough in front of the strong combination of the Special Operations Brigade and Ji Feng.

Hardly any of the squads could last more than five minutes, and without even sending out an alarm, they were all taken out!

As a result, Ji Feng didn't have much time for them to fight, instead they wasted the vast majority of their time on the road!

When the night had passed, the last Vietcong Border Battalion squad also died at the hands of Ji Feng and the Special Operations Brigade, and an almost one-sided massacre, so to speak, ended!

At this point, more than 500 people from the Vietcong Border Guard Battalion were almost slaughtered, and those who were lucky enough not to be killed were also taken prisoner! Those who were lucky enough not to be killed were taken prisoner and hung from trees by special techniques.

All the soldiers of the special battle brigade had a look of excitement on their faces, they had seldom experienced such an easy and uneventful battle, the other side had more than 500 people, if they were normally facing each other in the wilderness, even if their special battle brigade was strong, they would definitely struggle to fight, and there would definitely be a lot of casualties.

But now, they had taken out the majority of their opponents with zero casualties, and the rest were all captured alive, not a single one escaped, this was unbelievable!

But compared to the excitement of the Special Combat Brigade's warriors, Xiang Yongzhan was shocked and full of doubts.

The more he came into contact with Ji Feng, the more surprised and puzzled he became.

This guy was simply too strong and perverse!

What's more, at night, they were all rushing in the dark and Ji Feng took the initiative to lead the way, but as a result, he walked as if he was walking on smooth ground, and his speed was not even affected in the slightest.

Not only that, he also turned back frequently to tell them where to go, where there were vines and crooked trees simply more useful than if they were wearing night vision!

Could it be that Ji Feng's eyes were born with night vision?

Really can't figure it out!

When Cui Guangming received an order from above the next morning that the troops had entered the mountain forest and asked them to cooperate, instead Cui Guangming simply said, "The enemy army has been completely wiped out!"

The shocked end didn't respond for a while.

“Old Xiang, troops are precious, it’s time to go to Xinma!” Ji Feng said, “We still need your people to work hard, just the two of us, Bai Zhu and I, don’t have enough manpower!”

“What’s the point!”

Xiang Yongzhan said, “This in itself should be something we should do as soldiers, having you, an outsider, do this is already enough of a nuisance for us!”

Ji Feng laughed: “What outsider! I’m not a Chinese, am I?”

Xiang Yongzhan laughed, “Alright, no need to be polite between the two of us, let’s go, to Xinma!”

Afterwards, apart from Cui Guangming who went to report to his superiors and bring people to press those captives back, the others first changed into civilian clothes as fast as they could before taking the car outside the mountain village and heading straight to Xinma City.

.....

Xinma.

This city, the border between China and Vietnam, is the most border city, because in recent years, Vietnam and other countries roaming over the murderers to do evil, making the Chinese people living in this city more and more bullying.

When Ji Feng and Xiang Yongzhan entered the city, the first thing they felt was the desolation of the place.

Even on the streets, there were not many people, and all that came and went were vehicles, or people in a hurry.

Some of the people loitering on the streets were not Chinese, but could be seen at a glance, not just one or two, but in groups, looking no different from those hooligans and gangsters in China.

Ji Feng knew that these people were the culprits for the bullying of the Chinese people!

He couldn’t help but snort coldly and said through clenched teeth, “Old Xiang, when this is done, it’s time to clean this place up!”

Xiang Yongzhan said, “In my Special Combat Brigade, there are plenty of iron brooms, it’s too easy to sweep this rubbish!”

Ji Feng said, “This is not the key, the main thing is some gangs supported by Vietnam and other countries, and black and evil forces, these are the main targets to be cleaned up!”

Xiang Yongzhan said, “Don’t worry, they won’t be able to bounce around for much longer! With those captives in hand, the state will definitely make a move!”

Ji Feng then nodded, this time the Vietcong border battalion actually had over five hundred people invading Chinese territory, this was definitely a storm of no small magnitude, no matter if the Vietcong dared to admit it, China would make a move!

“How far away is their base from here?” Ji Feng asked.

“Out of the city, about twenty kilometres or so.” Xiang Yongzhan looked at the map and said, “It’s getting close, we can reach it in half an hour at most!”

“Good!”

Ji Feng nodded and said, “I want to see, this Lord Luo Qiu, just how big he is!”

Xiang Yongzhan’s face was also a bit grim: “Who is this Lord Luo Qiu, and how did he get such a powerful weapon?”

Ji Feng shook his head and said, “These are questions that we can only find out after we capture the person!”

In fact, what Ji Feng wanted to know was much more than these questions, he wanted to know exactly where the weapon in Luo Qiu’s hand came from, and also where it actually came from, and more importantly, what exactly was the relationship between them and the Yue Kingdom!

If this Luo Qiu really came from the dynasty, did it mean that the dynasty could already influence the army of the Yue Kingdom?

With these questions in mind, Ji Feng and the others gradually approached the base.

The base was actually a complex of buildings, which was almost in the territory of the Yue Kingdom. Here, all the people living here were villains and criminals who had fled from other countries, and since China would not take them in, many of them gathered here.

One of the biggest gangs in New Malaysia, the one supported by Viet Nam, was situated here.

“We can’t get too close!” Xiang Yongzhan said, “Our target is too big and conspicuous, and it will easily alert the other side.”

“Then let’s stop here.”

Ji Feng said, “Move as originally planned!”

Xiang Yongzhan nodded and said, “Order, combat begins, take cover!”

At once, all the soldiers of the Special Combat Brigade, one after another, camouflaged their vehicles with their unique equipment, and then they hid themselves near the vehicles, not too far from the road.

At this time, Ji Feng took out the communication device used by the Vietcong to communicate and started to contact Luo Qiu.

“Hm?!”

A long drawn out nasal voice came from the other end, which could be heard as a man’s voice.

Ji Feng immediately said, “Lord Luo Qiu, the device rang, the engineer is sure that we are finding what Lord Luo Qiu needs.”

“What?”

At this time, another man's voice suddenly came out of the earpiece, speaking in English, "Where are you?"

Ji Feng, however, still said in Vietnamese, "My coordinates are"

He said a coordinate, which was the coordinate of the first Vietcong border battalion squad he encountered.

"You guys guard there, we'll go there immediately!"

"Yes!"

When he heard the voice coming from the earpiece, the corner of Ji Feng's mouth pulled up in a curve, I'm waiting for you guys!

Ending the call, Ji Feng smiled and said, "Fortunately, I went to Rice before, otherwise I wouldn't have understood that rushed English!"

Xiang Yongzhan asked, "How was it?"

Ji Feng said, "They're coming over here, from the tone of the other party, there should be more than just one person, get ready!"

Xiang Yongzhan sneered, "I'm afraid they won't come, if they do, they won't leave!"

Ji Feng, however, looked serious and reminded, "Old Xiang, don't be careless, the other party has very powerful weapons in their hands, listen to my signal before you let your people do it then! Otherwise"

Campus Master Chapter 2490

Xiang Yongzhan sneered, "I'm afraid they won't come, and if they do, they won't be able to leave!"

Ji Feng, however, looked serious and reminded, "Old Xiang, don't be careless, the other side has very powerful weapons in their hands, listen to my signal before you let your men do it then! Otherwise"

Xiang Yongzhan said, "Don't worry, as a senior captain, I will definitely be responsible for my own brothers."

He knew exactly what Ji Feng's reminder meant, there was no longer any doubt that the other party must have quite powerful weapons in their hands.

Those few burnt bodies of the villagers were enough to explain everything.

Ji Feng said: "Don't be careless! I don't know exactly what the other party's weapon is now, nor do I know what it looks like, so don't let go of anything suspicious when the time comes!"

Xiang Yongzhan bared his teeth, "Just relax!"

Ji Feng then nodded and didn't say anything else. I believe that Xiang Yongzhan will definitely have a number in his mind, although usually Xiang Yongzhan looks big and bold, but in reality this guy is also a thick outside and thin inside.

Ji Feng pondered for a moment, and when he saw that no one had come yet, he casually picked up the map from beside Xiang Yongzhan again and looked at it carefully.

“Are you sure that this road is the only road to Xinma City?” Ji Feng asked.

“That’s right, this is the only road!” Xiang Yongzhan said.

“But if it’s to the primeval forest in the Hundred Thousand Mountains, is there any other road to take?” Ji Feng asked again.

“No!”

Xiang Yongzhan said, “Unless the other party doesn’t go to Xinma City, but takes a detour of dozens or hundreds of kilometres to go around from Xinma City and sneak directly into the Hundred Thousand Mountains from the border line.”

Ji Feng frowned and said, “Oh? There’s still this road?”

Xiang Yongzhan nodded and said, “Otherwise, how do you think those bastards from the Vietcong border battalion came over? If they passed through Xinma City in a big way, couldn’t our people have found out?”

Ji Feng said, “But in that case, do you think that guy called Luo Qiu would have used the same method to bypass Xinma City in order to hide his tracks?”

Xiang Yongzhan said, “No!”

As he spoke, he pointed to the map in front of Ji Feng and said, “See, this base they are at is only a few dozen kilometres away from Xinma City, which is completely within the patrol monitoring range of our border troops. If they want to sneak into the primeval forest from this vicinity, they definitely cannot escape our monitoring!”

Ji Feng frowned, “Then is it possible for them to enter from somewhere else?”

“There is also this possibility!”

Xiang Yongzhan said, “However, if you look at it, if the other party wants to enter the Hundred Thousand Mountains without our surveillance, they would have to enter the territory of Vietnam first and then take a detour, which means that the other party would have to retreat at least dozens and hundreds of kilometres one after another and then take a detour of dozens of kilometres Older brother, do you think this adds up to fully more than two hundred kilometres, is it that easy to travel?”

Ji Feng nodded and said, “I’m afraid they can’t afford to delay.”

Over five hundred soldiers from the Vietnamese border battalion had infiltrated into China’s territory, which in itself was already a great risk to take.

One more day of delay in China would increase the risk of them being discovered.

If these people were not too stupid, they would have grabbed as much time as they could.

So according to Xiang Yongzhan's judgment, if Luo Qiu wanted to make it to the Hundred Thousand Mountains, this road was the only one that was a must.

"Here it comes!"

Xiang Yongzhan saw a coded signal from one of the sentries disguised at the very front, and immediately whispered.

Ji Feng immediately looked up and saw several vehicles driving along the road, the front of which was a jeep with a few people standing on the pedals outside, and one could vaguely see that these people were wearing vests or simply no tops, looking very tough.

Xiang Yongzhan lowered his voice and shouted into the microphone, "Take your positions, prepare for battle!"

However, Ji Feng suddenly raised his hand, "Old Xiang wait for a moment, don't rush!"

Xiang Yongzhan frowned and said, "What's wrong?"

Ji Feng said, "Something is not quite right!"

"How is it not right?"

"Look!"

Ji Feng pointed at the people on that jeep and said in a deep voice, "They can all send the Vietnamese border battalion directly when they are looking for something, but now that they have found something, how come the ones who come out are all hangers-on instead?"

Xiang Yongzhan was stunned: "Hangers-on?"

Ji Feng said, "Look carefully, these people are definitely not soldiers, they don't have the aura of a soldier in them, they look like complete punks who are looking for trouble all day If that Luo Qiu's men are all such guys, then this is just a bunch of rabble-rousers, there is no need to be in such a hurry."

Xiang Yongzhan instantly understood: "You mean to say that this is the other side sent out to scout the way?"

Ji Feng shook his head, "I don't know, maybe they're not related to that Luo Qiu guy at all!"

As he watched the cars drive closer and closer, Xiang Yongzhan's face began to look grave: "Older brother, can you be sure? If your judgment is wrong and Luo Qiu is really in this convoy, then when this person reaches the primeval forest, everything will be revealed, and then it might be a chicken-and-egg situation!"

Ji Feng was silent and did not reply.

Seeing that the caravan was getting closer and closer, Xiang Yongzhan gradually became a bit anxious in his heart: "Older brother!"

Ji Feng gritted his teeth, "Keep waiting! I firmly believe this should not be!"

Xiang Yongzhan said sharply, "Just because these people are all punks?"

“Just on the basis of this!” Ji Feng said.

“Isn’t this a bit childish?” Xiang Yongzhan said, “Is there any other basis to be quick, they’re already on their heels!”

Ji Feng, however, shook his head, he indeed had no other basis, just based on his own observation, already his own intuition to reach a judgment, but he believed in his own intuition.

But Xiang Yongzhan was a bit impatient, he took the pistol and raised his hand to shoot, but was held down by Ji Feng: “Don’t move!”

“Older brother, you

“I’ll take the blame if something goes wrong!” Ji Feng said.

“.....”

Xiang Yongzhan sighed, but could only comply with Ji Feng, watching the convoy getting closer and closer, he hurriedly picked up the binoculars and stared at the convoy carefully, until the convoy whistled past the road, heading further and further towards Xinma City, only then did Xiang Yongzhan slowly put down the binoculars and looked at Ji Feng with a complicated expression.

Ji Feng was staring at the motorcade and didn’t turn his head back only the corner of his eye glanced at Xiang Yongzhan’s attitude and asked, “What’s wrong?”

Xiang Yongzhan said, “They really don’t seem to be a group of Luo Qiu and the others.”

Ji Feng, in turn, was somewhat curious and asked, “Oh? How did you come to this conclusion?”

Xiang Yongzhan said, “Because one of these guys I know is one of the leaders of that gang that the Vietnamese secretly support, I’ve seen his picture!”

Before coming here, Xiang Yongzhan had put in some effort and carefully learned some intelligence about New Ma City.

“And

Xiang Yongzhan nudged his mouth, “There’s another convoy coming from behind.”

Ji Feng immediately turned his head to look, only to see that another convoy had indeed come in front of him, but this time, instead of jeeps, there were two off-road vehicles, as well as a black sedan. And, all the car windows were raised, not knowing whether it was because the road was too dusty or because the people in the cars didn’t want people to see what was inside.

“I’m afraid this time.” Ji Feng took out the Vietnamese communication device and started contacting Luo Qiu, “Lord Luo Qiu, have you set off yet? I just received a message back from the sentry that it seems that there are Chinese troops entering the mountain.”

“What?!”

The other party was a little surprised, “The Chinese are moving so fast?”

Ji Feng said, "Yes, Lord Luo Qiu, and I have also received news that it seems that there are also Chinese police preparing for martial law in Xinma City, are you going through Xinma City?"

"Martial law?"

When the other party heard that, he couldn't help but snort coldly, "Police martial law, that's pretty scary! What can the Chinese police do?"

As long as it wasn't military martial law, there was nothing to be afraid of.

In fact, even if it was military martial law, as long as there weren't too many of them, then there was nothing to fear!

Ji Feng said sharply, "So, Lord Luo Qiu, is it really Xinma City that you've gone?"

"Don't worry, I'm already on my way, I'll be in Xinma City soon, moreover, I've also sent someone ahead to clear the way, there won't be any problems!" The other party said, "Now your task is to keep an eye on what you find, don't expose yourself, let alone have the Chinese find out anything unusual, got it?"

"Understood, Lord Luo Qiu!"

Ji Feng smiled faintly, "Be more careful on your way here, oh!"

The other party said, "That's all."

With that, the communication was cut off. Ji Feng, however, looked at the off-road convoy that was getting closer and closer, a bright smile appeared on his face, "Old Xiang, it looks like this convoy is it, prepare for battle."

This conversation was all carried out by Ji Feng in Vietnamese, with that fluent and skilful look, those who didn't know would think he had lived in Vietnam for many years, which made Xiang Yongzheng both surprised and puzzled.

However, when it came to fighting, Xiang Yongzhan instantly put everything else behind him and shouted down to Mai, "Prepare for battle!"

"Prepare for battle!"

"Weapons ready, bullets loaded!"

As Xiang Yongzhan's order was given, one by one other orders were relayed down by the group's leaders, while Ji Feng and Xiang Yongzhan were lying on the side of the road, staring at the convoy that was almost at their heels.

At this time, Ji Feng could obviously detect that the convoy had suddenly started to speed up, and Xiang Yongzhan frowned: "It was discovered?"

Ji Feng shook his head, "On the contrary, this is the opposite, it is certain that this is Luo Gnarly's convoy!"

Xiang Yongzhan was suddenly dumbfounded.

Ji Feng patted him on the shoulder and said, "Wait for my signal!"

After saying that, Ji Feng's entire body suddenly rushed towards the road like a cheetah full of strength and explosive power, while he had already thrown out the grenade he had already prepared in his hand.

"Boom~!"

With a loud sound, the grenade exploded in front of the convoy.
