

Campus Master 2521

Time passed by.

Ji Feng and Xiang Yongzhan were waiting at the entrance of the air duct, seeing that ten minutes had passed and the soldier in charge of the pursuit had not yet sent back any news, Xiang Yongzhan was somewhat anxious.

However, as the leader of this place, Xiang Yongzhan could only make himself calm, if even he couldn't calm down, then the soldiers below would naturally follow suit.

"Captain Xiang!"

At this time, the captain in charge of the first line of command came over and said, "The entire underground base has been searched, including the warehouse you mentioned, and the overall situation has been mapped out."

Xiang Yongzhan nodded slightly and asked again, "Any other findings?"

The chief shook his head, "Nothing in particular, except that the ammunition depot contained a large number of firearms and weapons, it was unbelievable, this was like a small underground military base!"

The number of weapons in that armoury was really beyond his imagination, there were even some heavy weapons for single combat among them, this was almost as much as the armoury of the army.

"Is there any movement from the Vietcong side?" Xiang Yongzhan asked again.

"Not yet."

The regimental commander shook his head and said, "Our men have been closely monitoring the Vietcong border battalion, and so far they haven't made any movements."

Xiang Yongzhan urged, "Don't be careless. Although our ambush was very sudden, I don't believe it if we say that the Vietnamese border battalion has not received any news. But now they have been holding their troops still, so maybe they are playing some kind of trick, you have to be careful and alert."

That captain nodded and said, "Don't worry, Captain Xiang, the reinforcements from our base are already in place and the warplanes are ready to take off at any time, as long as there is any movement from the Vietcong, we will react at the first time."

Xiang Yongzhan said, "That's good."

And just at this time, that chief was suddenly covering his ears, as if he had received some kind of news – in his ears was a pocket earpiece.

As expected.

A few moments later the captain suddenly raised his head and said, "Captain Xiang, we have just received news that a large number of armed men have appeared in the eastern suburbs and have exchanged fire with my men, our men need reinforcements."

Xiang Yongzhan was immediately stunned, "The eastern suburbs? Isn't that where the gangsters secretly supported by the Vietcong are located?"

The chief nodded and said, "That's where it is."

Xiang Yongzhan immediately said, "Then you should immediately take your men to reinforce them, and leave this side to me."

The regiment commander said, "Then I will take one company and leave the rest of the men to your command."

Xiang Yongzhan said, "One company is too few, bring some more men. Also, we need to find out what the origin of those armed men is first, could it be that the Vietcong have secretly sent troops?"

"Please don't worry, Captain Xiang, I will definitely find out!" That captain saluted.

"Be careful."

Xiang Yongzhan returned the salute.

Time waited for no one, and these warriors understood more than anyone else that soldiers were precious, so they quickly rushed towards the eastern suburbs, leaving Xiang Yongzhan alone in command of this underground base.

He didn't know what had happened outside, and he didn't know if the Vietcong had sent troops, but here they were slow to catch the three transformers who had escaped.

"Ji Feng, can you be sure that the periphery is all under control?" After another moment, Xiang Yongzhan couldn't help but ask.

"Don't worry, it's definitely fine!"

Ji Feng said, "Even if there's still an escape route in this underground base that allows those three transformers to escape, they definitely won't be able to escape the satellite surveillance."

Within a certain radius here are set to be monitored, all of them are within the monitoring of the satellite, there is no need to worry about those people escaping.

"But what if that escape route is long enough?" Xiang Yongzhan said, "For example, this escape tunnel has been built all the way to the territory of Vietnam"

"How big of an undertaking would that be!"

Ji Feng said, "That's not very likely, is it?"

Xiang Yongzhan said, "But there's no denying that such a possibility exists, right?"

Ji Feng couldn't help but shake his head and laugh, saying, "All right! You'd better wait here honestly, right now you're the backbone of all the warriors, don't mess yourself up."

Xiang Yongzhan shook his head and said in a deep voice, "I was worried that if those few people really escaped, it would not only be a matter of losing face, but of not being able to do right by those few dead brothers!"

Time was slipping away as always, during this time, Xiang Yongzhan received a message from the leader who was leading the group, "Captain Xiang, it's clear, the armed men who came to attack, they are from the Golden and Silver Snake mercenary group!"

"Eh?"

Xiang Yongzhan immediately frowned, "This Gold and Silver Snake mercenary group, are they crazy?"

A mercenary group, even the most powerful mercenary group is definitely not a match for a country, not to mention, China is not a small country in Africa where there are wars everywhere, a few mercenary groups can wipe out a country

The so-called gold and silver snake mercenary group if really dare to provoke China, then waiting for them is definitely not a good end!

At this moment, when Ji Feng heard the name Golden and Silver Snake Mercenary Corps, he could not help but frown slightly in his heart.

This name, he had heard of it before.

At the beginning in Jiangzhou, it was a few mercenaries from this Golden and Silver Snake mercenary group that had plans for Xu Yuan, but it just so happened that he was there at the time, so those people did not succeed.

However, Ji Feng did not expect that he would hear the name of the Golden Silver Snake here again.

When he thought about it, he knew that the Golden Silver Snake mercenary group was stationed in the area of the 100,000 mountains, but he never thought that this mercenary group would dare to attack the Chinese army.

"Can you be sure?" Xiang Yongzhan said in a deep voice.

"Positive!"

That leader said, "The other side's firepower is very strong and there are quite a few of them, and they are fighting tenaciously, as if they have gone mad."

Xiang Yongzhan immediately asked, "Are they attacking on their own initiative?"

That captain said, "Yes, it is an active attack, and it has been going on for some time. Captain Xiang, now that we've stabilised, we're going to launch a counter-attack next, that's all!"

"Be careful!"

Xiang Yongzhan could clearly hear the fierce gunfire and even fierce explosions coming from the earpiece, it was clear that the two sides were exchanging fire at the moment, and if they were on the ground at the moment they could clearly hear it!

After ending the call, Xiang Yongzhan could not help but snort coldly, "A small mercenary group, how dare it attack the regular army, it is simply a death wish!"

Ji Feng, however, frowned and said, "There must be a demon when things go wrong! The Golden and Silver Snake Mercenary Corps must have some kind of purpose, otherwise, they would definitely not take the initiative to attack the regular army, especially the regular army which is not weak in combat power!"

Since the Golden and Silver Snake Mercenaries were based in the area of the 100,000 mountains, they were in fact under the nose of the Chinese Border Guards, who might be able to get by if they didn't see eye to eye with them, but if they really angered the Border Guards, all it would take was a warplane to beat the entire mercenary corps!

Xiang Yongzhan nodded slightly and said, "I want to send another company over there!"

Ji Feng, however, always felt that something was wrong, he frowned and said, "It's strange, how could this Golden and Silver Snake Mercenary Corps be so reckless? What are they going to do?"

Xiang Yongzhan said, "We'll know when we catch a few tongues and interrogate them. What I'm most concerned about now is where those three reformers have escaped to!"

Ji Feng couldn't help but ask, "First, ask those few warriors where they have chased them."

Soon, Xiang Yongzhan said, "They are still in the ventilation tunnel, but according to their report, the traces ahead seem to be getting less and less"

Ji Feng immediately frowned: "What do you mean?"

Xiang Yongzhan said, "I suspect that they didn't escape from this ventilation tunnel at all, and I'm afraid that the traces here are just used to cover people's ears, to make a sound, I can't imagine that these reformers can actually play so smoothly."

"In that case, they should still be in this underground base." Ji Feng said thoughtfully.

"But where can they hide?" Xiang Yongzhan said, "We've searched every corner of this base and have warriors guarding every key intersection now, so how did they get past it?"

"Has every corner really been searched?" Ji Feng asked.

Xiang Yongzhan said, "That's right, with so many people searching at the same time, this base would be enough even if it were twice as big."

Ji Feng nodded slowly, pondered for a moment and looked up expressively, "I think I can guess where they are hiding leave some people here to guard, you come with me!"

Xiang Yongzhan immediately asked, "Where are they?"

Ji Feng said as he walked, "In this underground base, if there's one place that hasn't been searched, it must be the weapons depot."

Xiang Yongzhan was stunned, "The weapons depot? That's not right, the weapons store has already been searched, there's not a single person inside, and all the weapons have been packed together with special warriors watching over them."

Ji Feng said, "That's not right. In the weapons store, there is actually a hidden space, unless they can disappear out of thin air, then they must be hiding there"

Xiang Yongzhan was instantly taken aback, "What? There's a space in the weapons store?"

Ji Feng nodded, "That's right! Remember before the explosion happened, I said I would take you to a place, and that's where I was referring to."

Xiang Yongzhan was surprised, "Where exactly is that space? How come so many warriors had gone to the weapons depot before, and none of them found it?"

Ji Feng said, "I only discovered it unintentionally, that space is very hidden, and I don't even know how to open it yet, but I think there would be something very important in there."

Not only did Xiang Yongzhan want to know, Ji Feng also wanted to know what was inside there, that space was even more mysterious than this underground base!

Campus Master Chapter 2522

"This is the place!"

"Here?"

At this moment, Xiang Yongzhan was standing in the ammunition depot, staring at a wall with Ji Feng, his face full of confusion, "What's here? Isn't this just a wall?"

However, Ji Feng was the one with a faint smile on his face, his eyes fell on the wall, looking at the slit if any, and smiled, "Look carefully at this wall, is there anything on it"

"What is there?" Xiang Yongzhan asked somewhat strangely, "Is it a secret room? It's what you call a hidden space?"

"That's right!"

Ji Feng nodded and pointed to the gap in the wall and said, "Look carefully, the light here is not very strong and there is still some dirt on the housing of the bulb, so shining down on the wall will create some faint shadows, and this gap happens to be covered by some of those shadows!"

Xiang Yongzhan immediately blurted out, "Covering people's eyes and ears!"

Ji Feng nodded and smiled, this wall was not made to be very flat, plus there were such some shadows, if one did not look carefully, one would not be able to notice that there was still a door hidden here, especially with a bit of dirt on the light bulb, this was really brilliant, if there was nothing special, who would think to pay attention to the light overhead!

"What could be in here?!" Xiang Yongzheng asked, frowning.

"Just go in and take a look." Ji Feng said.

Xiang Yongzhan said, "I guess it must be something very important, or else something that is detrimental to the people in this base. For example, the stuff that the dynasty uses to control its men is hidden in here."

Ji Feng couldn't help but stare and asked, "What do you mean? What makes you think so?"

Xiang Yongzhan said, "Isn't it obvious at a glance! Judging from the layout of this place, the more familiar people are with it, the less they would notice it. Think about it, would you normally stare at the walls of your own house and study them hard when you have nothing to do?"

Ji Feng couldn't help but be relieved and said, "That's right! This analysis of yours makes a lot of sense."

Xiang Yongzhan said, "In fact, not only that, this ammunition depot was originally filled with weapons, so the people who could get in must have had some authority, not everyone could get in, which means that the person in charge of managing this ammunition depot must have been familiar with the place beyond belief."

Ji Feng nodded thoughtfully, what Xiang Yongzhan said made perfect sense.

"Then, even Kage doesn't know about this secret room, so the person in charge of managing the ammunition depot will know even less. I'm afraid that Luo Qiu is the only one who knows about the existence of such a secret room!" Xiang Yongzhan said, "Then what do you think is worth defending against even your own people?"

Ji Feng nodded slightly and said, "That's pretty much it, but what's really inside is clear once you go in and take a look."

Xiang Yongzhan frowned, "But how do we get in?"

There was only one door on this wall to be strict actually only extremely small slits could be seen, but how this door opened, they had no idea.

Ji Feng also frowned a little, he also did not know where to open the door from.

In fact it wasn't just a matter of opening the door, but most importantly, he couldn't even see what was actually inside this secret room, even if he used his penetrating eyes to look inside, he could only see a few metres behind the door and no further in, it seemed that his vision was somewhat affected.

This surprised him a little, as he hadn't encountered this situation very often, what was behind this door?

"Could it have been opened from the control room?" Xiang Yongzhan suddenly asked.

"I don't think so."

Ji Feng shook his head and said thoughtfully, "This kind of place that is kept secret from his own people, Luo Qiu certainly wouldn't be so relieved to leave it to someone else to control, I speculate that there is either a special key on this door that Luo Qiu alone keeps, or, there is a unique way to open the door!"

Xiang Yongzhan said, "But even if there is a key, Luo Qiu is nowhere to be found, where are we going to find it?"

Ji Feng didn't say anything, but pondered.

Xiang Yongzhan couldn't help but say, "The biggest fear is that behind this door is not actually a secret room, but a secret escape route, if that's the case, those three transformers must have already escaped!"

Ji Feng was stunned, an escape tunnel?!

"..... Perhaps, this is really an escape passage!" Ji Feng said in a slow tone.

"It really is?!"

Xiang Yongzhan was suddenly astonished and immediately asked, "Can you be sure? How do you know?"

If it was really an escape route, then there was no doubt that those three transformers must have run away, then the possibility of catching them again was almost non-existent

Xiang Yongzhan's face then changed a little, if those bastards had really escaped, wouldn't the few warriors that were killed have died for nothing?

Ji Feng shook his head, "I'm just speculating. Since Luo Qiu has so many places to keep secrets from his subordinates, it's possible that he left an escape route for himself."

Xiang Yongzhan was instantly furious, he gritted his teeth and bellowed, "Everyone listen to the order, search this ammunition depot all over carefully, don't let go of every corner, see if there is something fishy in that nook and cranny, organs, search every weapon rack carefully, maybe a screw on it is a switch... .."

With Xiang Yongzhan's order, all the soldiers who followed him began to search, the weapons here had been categorized and guarded by special people, so it was much easier to search.

However, when Ji Feng heard the word 'organ', his heart suddenly fluttered.

Since there is no place to insert the key on the door, it means that there must be another way to open the door, but Luo Qiu certainly will not feel comfortable to let others know the existence of this place, then

The actual fact is that you can find a lot of people who are not able to find out about this.

Just

What method could it be?

Ji Feng looked around, his gaze slowly sweeping over every corner of this armory, but found nothing.

"Could it be that my speculation is wrong?" Ji Feng frowned, "Is Luo Qiu more intelligent than I thought, or, in itself, is my speculation in the wrong direction?"

In the end, Ji Feng's gaze turned back to the doorway, looking at the doorway that was hidden by the shadows, he couldn't help but frown.

"Hmm?!"

Suddenly, Ji Feng looked up expansively, his gaze fell on top of the light on the ceiling, squinting his eyes for a while, and then, he suddenly smiled, "Old Xiang, I might have found a way to open the door, so be careful."

Xiang Yongzhan was instantly overjoyed, "Really? All alert!"

Clap!

At once, all the warriors aimed their guns at the hidden door, while Xiang Yongzhan turned his expectant gaze towards Ji Feng.

At this time, Ji Feng took two steps forward and his whole body suddenly rose up, stepping on a weapon rack with one foot, his hand could just reach the lamp on it.

Immediately afterwards, he grabbed the casing of the lamp and twisted it hard.

The next moment, there was a sudden buzzing sound, and a small door, which could only accommodate at most one adult, appeared on the wall as if a piece of it was suddenly missing!

"It's open!"

Xiang Yongzhan was overjoyed and said, "Good job, old brother! I'll definitely treat you to a drink after we catch the man!"

Ji Feng smiled and said, "Let's wait until we catch the man. However, I guess you really have to buy this drink Look at the ground!"

"Footprints!"

Xiang Yongzhan's eyes suddenly narrowed, his face steeply gloomy, because he saw that on this ground, there were a total of five rows of footprints, which meant that those who passed by here were at least a total of five people, while those who escaped were three reformers, so what were the remaining two people?

Xiang Yongzhan couldn't help but grit his teeth and waved his hand, "Go!"

Ji Feng reminded loudly, "Be careful of the ambush inside!"

But Xiang Yongzhan was the first to take the lead, gritting his teeth and saying, "If they have the guts, they can ambush us despite it!"

With that, those warriors also entered in a fishtail, except for a few people left behind to keep watch, Ji Feng was instead the last to enter, but he didn't rush to follow, instead, he was looking around, because after entering this small door, there wasn't just one passage, there were some spaces around it.

"Hmm?!"

Ji Feng's gaze fell on the ground at one side, where there was a square trace, "It seems that a square box or some other square object was once put here, and the trace is still new"

Ji Feng instantly narrowed his eyes for a moment, this thing was probably taken away by the three transformers who escaped!

“Hum~!”

Suddenly a dull sound came from behind, Ji Feng jerked back, but saw that the small door on the wall suddenly closed, he suddenly realized why the door was still closed after those few people escaped, it turned out that the door could be closed automatically.

However, what exactly did the few people who escaped take with them?

Without saying a word, Ji Feng drew his legs and gave chase.

The narrower the passage was, the more it could only allow one person to pass, so you can imagine that the chase would not be too fast, but it was difficult for Ji Feng, so he quickly caught up with Xiang Yongzhan, but he did not stop, but continued at full speed.

The result was that Ji Feng unexpectedly found that the passage was a bit surprisingly long, at least a few kilometres long, which was a bit amazing, a few kilometres long underground passage, this is definitely a not small project.

But thinking about that underground base, Ji Feng was relieved, even that base could be built, let alone an underground passage?

“Ta-da-da”

Suddenly, a faint sound of gunfire came over, Ji Feng frowned, he instantly understood with a little thought, “This is where the Vietcong and those who have roamed here are gathering? This is the outskirts of Xinma City?!”

He couldn't help but sneer, “It seems that you guys are really in cahoots, since that's the case, this time we'll kill you all!”

Campus Master Chapter 2523

In a settlement not too far from New Madrid, gunfire was heard and fighting was raging!

The battle was between the Chinese border guards and a mixed group of armed men, some in civilian clothes and others in camouflage uniforms, but in a different style from the Chinese camouflage uniforms.

However, anyone familiar with the military could see at a glance that at the moment the Chinese border guards had the complete upper hand.

Within this area of less than two kilometres, the Chinese border guards had gradually formed an encirclement, encircling the militants, and this encirclement was gradually shrinking.

Although the difference in firepower between the two sides was not great, the Chinese border guards were very methodical in their co-ordination, working in groups of several and covering each other, which was enough to increase their combat power by a large margin given the lack of heavy weapons on both sides.

Gradually, the Chinese border guards began to press the armed men into fighting.

It was in this situation that Ji Feng arrived at the underground where the two sides were fighting. He kept walking for several kilometres in that underground passage, and finally Ji Feng found that he seemed to have arrived inside a building.

At the end of this passage, there was a flight of steps. Ji Feng went up the steps and stopped at the topmost platform. He looked carefully, and after making sure that there were no cameras here, he then used his perspective eyes to look outside with confidence.

At the end of the steps was a door with a combination lock on it. Ji Feng did not rush to open the door, but first used his Perspective Eye to observe the situation outside, and he found that there was something else outside the door, which was a set of cabinets with a lot of miscellaneous items on them.

And behind the cabinets was a room, and there was no one inside the room at the moment.

Ji Feng looked down and ascertained that someone had indeed walked past here and that the footsteps were messy, but there was no doubt that these were indeed the footprints of those few transformers from before, and tracking them was not much of a challenge for Ji Feng.

But the question was, now that there was no doubt that those few reformers had left the passage and had gone out, could they have run away?

Ji Feng raised his hand and looked at the time, it was not long before the explosion occurred in the control room of that underground base, and he had used his fastest speed to chase after them without catching up with those people, how could they have run so fast?

“They must not have run far!”

Ji Feng was sure in his heart that unless these people had grown wings and flown, otherwise they were definitely still around here!

Because before these people escaped, they also went to one of the ventilation openings of the underground base, deliberately leaving traces to divert their attention, then these people wouldn't have had much time to really use to escape.

After straightening out his thoughts, Ji Feng became more calm. His eyes were fixed on the combination lock, finding out the keys with traces on them one by one, then after silently calculating in his mind, he started to try to enter the code, but when he raised his hand, he hesitated again.

But when he raised his hand, he hesitated. By observing Ji Feng, he found that the password had four digits, so it was not difficult to find out the password, but Ji Feng was not sure if there would be an alarm if he entered the wrong password!

Ji Feng was convinced that those people must be nearby and they did not have enough time to run far away, so if this combination lock carried an alarm, then it would undoubtedly alert the other party.

But if you don't try it, you'll be locked in here and won't be able to get out at all

“There's nothing to be afraid of!”

Ji Feng clenched his teeth, if it really doesn't work the big deal is to violently break this coded door!

Determined, Ji Feng immediately tried a set of passwords quickly, but there was no movement, the password was wrong.

“Fortunately! Good luck!”

Ji Feng secretly said, at least there was no alarm. But this was real luck, if this password door really had an alarm, it would definitely alert the people outside and he would have no choice but to find a way to break the password door, but maybe the other party had already escaped in the process.

Now that he didn't have to worry about the alarm, he was even more daring, so he was ready to try all the code combinations as fast as he could, but as soon as he reached the third set of codes, he heard a crunching sound and the door opened.

This time it was really lucky!

Ji Feng couldn't help but say it again in his heart, then he opened the door and came to the cabinet. The owner of this room had obviously used the cabinet as a disguise to block the access door, so the cabinet must be able to move.

Following this line of thought, Ji Feng first pushed the cabinet, but found that it was very heavy, he didn't dare to push too hard to avoid making a sound, so he looked up and down, and soon found a handle in one corner of the cabinet, and with a gentle pull, the cabinet slid slightly.

“So that's it!”

Ji Feng instantly understood that this cabinet came with a slide underneath, so this cabinet was not pushed open but slid.

He quietly slid the cabinet aside and then quickly dodged out, but he didn't rush to recover the cabinet's position, instead he came to the door of the room and used his perspective eye to observe it again, but it was this look that made his eyes light up.

Outside the room appeared to be the living room, and in that living room were several people packing up their things, and among them were people carrying machine guns on their bodies.

Three of them were the three reformers who had escaped from the underground base.

“Finally, we caught you guys!” Ji Feng snorted coldly.

Although it hadn't been long since these people had escaped, the whole process had been extraordinarily tense. It might be an exaggeration to say that they had been tracked down only after they had been stripped down and caught the traces, but it would never be too much to say that they had fought for their wits!

And now, at last, they had seen them!

Now that they've seen them, they're not going to get away again!

The cold light in Ji Feng's eyes flashed as he slowly put his hand on the handle of the door and was just about to open it when he heard someone speak outside.

“Move quickly, Lord Luo Gnarly is still waiting!” The man who spoke was a man in camouflage, “Take everything Lord Luo Qiu needs with you, don’t leave anything behind!”

“Vietcong words!”

Ji Feng’s eyes narrowed, it was the Vietnamese again, and it was obvious that they had come here to get something on Luo Qiu’s orders, Ji Feng suddenly remembered the square trail in the underground base, that was obviously something they had taken away.

“What’s the situation outside?” A reformer asked.

“The Chinese border guards are attacking hard, when we came, Lord Luo Qiu had already sent support over, the Vietcong border battalion couldn’t move because there were Chinese watching, but it sent out a mercenary regiment.” A man in camouflage uniform said, “So we have to be quick!”

Several people then stopped talking and quickly equipped their weapons on their bodies. Ji Feng analyzed that they should have just arrived here as well, and they were afraid that they would leave when they got their weapons.

Ji Feng stared for a while, after making sure that there was no one else in that living room other than these few people, he then slowly unscrewed the door lock and suddenly rushed out.

“Ah...!”

“Someone!”

The other party suddenly saw Ji Feng rushing over and immediately shouted, two of them in camouflage uniforms reacted the fastest, they immediately had to shoot, but Ji Feng’s speed was unimaginably fast, before they could turn their guns around, Ji Feng had already arrived in front of them.

“Bang Bang Bang”

Ji Feng instantly threw a few punches and directly knocked them all to the ground, especially the three reformers, who had little ability to resist. Ji Feng then realized that these reformers seemed to have a weak constitution, which he knew was because they had been destroyed by the bio-current before.

He couldn’t help but give a cold snort, it seems that these few people were able to escape to this place with such a fast speed, they had also put in their best efforts!

“Da da da da” Hearing the loud gunfire outside, Ji Feng quickly threw all these people back into the passage with one hand, as well as the bag they were carrying, which was what Ji Feng was most interested in.

Ji Feng first swept a glance, then he casually picked up a large backpack, unzipped it, and saw that inside was a small silver and white suitcase, only this still had a password on it and could not be opened easily.

However, this was difficult for him, with his penetrating eyes a small suitcase was not an obstacle at all, so Ji Feng just swept a glance, but it was this glance that made him frown and a brilliant light flashed in his eyes.

“It’s a laser gun again!”

Inside this box, there was actually another laser gun, only this laser gun was disassembled, besides that, there were several brick-like black things inside this box, and Ji Feng could tell at a glance that it was the energy source used by the laser guns made by the dynasty!

Ji Feng took a look at the size of this box and couldn't help but secretly say, "It seems that this box should be what they took in the passage, no wonder Luo Qiu had already escaped, yet he still went to the trouble of preferring to expose his relationship with the Golden and Silver Snake Mercenaries, and even pay a great sacrifice to take this thing, it turns out that here is an unused laser gun!"

From this, it was presumed that Dynasty had not yet reached the level of mass production in the manufacture of laser guns, only that the standard had improved compared to the one Ji Feng had seen in Rice.

But this was already remarkable!

Technically speaking, this was a technology that would only appear many, many years later, and it was still a technology of the Gamma Galaxy, but the Dynasty had actually developed it, and although the performance was still unstable and still considered a defective product, it would be enough to shock the world if it was made public!

Ji Feng even once again can't help but think, Dynasty's technology, is really those scientists kidnapped from all over the world to work together to research?

Or

The technology of the dynasty is really a joint research of those scientists kidnapped from all over the world?

Sometimes Ji Feng even wondered if Dynasty also had an intelligent brain like himself, otherwise, how to explain the technology of the Gamma Galaxy appearing in Dynasty?

Slightly shaking his head and putting these thoughts aside for now, Ji Feng turned his attention back to the remaining bags, what was in them?!

Campus Master Chapter 2524

Including the three transformers who had escaped, there were five people here, and apart from their weapons, they were carrying a total of four luggage bags.

One of the bags had already been opened by Ji Feng and contained an unused laser gun and a few spare energy sources, so what was in the remaining three bags?

Ji Feng first swept a glance, but could not help but be slightly stunned that the remaining three luggage bags contained the same kind of things. He casually pulled one of the bags open, and inside was still a small suitcase, and Ji Feng found that inside this suitcase were actually three bottles neatly arranged.

Each of these three bottles was slightly larger than a wine bottle, and the bottles were sealed and filled with a slightly cloudy, light greenish liquid.

"What is this stuff!?" Ji Feng couldn't help but frown.

These few people had to take it with them when they were fleeing for their lives, and Luo Qiu had even gone to such great lengths to take these things away after escaping, so there was no doubt that this thing must be very important.

But what exactly this liquid was, Ji Feng did not recognise, and was even somewhat unsure.

He couldn't even make any headway at all!

In order to find out what this liquid was, he could only wait until he went back and underwent a special test to find out.

Ji Feng first grouped the things together, and only then did he look at the five men.

Three of the transformers were already familiar faces, while the one who had been blown up in the underground base was the one who had been injured, but of course, it was technically the transformer who had exploded himself.

As for the other two guys in camouflage uniforms, Ji Feng had never seen them before, but from their facial features it was clear that these two people should not be from China.

Ji Feng couldn't help thinking that maybe it wasn't a problem within the Border Guard, but that these two people had infiltrated the underground base from this secret passage and saved these three reformers!

"Stomp, stomp, stomp"

At this moment, a rush of footsteps came, and Xiang Yongzhan arrived with his men.

As soon as he saw Ji Feng, Xiang Yongzhan couldn't help but say in an urgent voice: "Ji Feng, what's the situation The people have been captured?"

As he spoke, Xiang Yongzhan had already come to the front, he yanked up a reformer and looked at it carefully, then his face showed a look of excitement and said, "That's right, it's these bastards!"

Ji Feng smiled and said, "When I arrived, these few people were packing up their things and preparing to escape."

Xiang Yongzhan, however, looked at the two men in camouflage uniforms and asked with a frown, "What are these two people?"

Ji Feng shook his head and said, "I'm not sure, they should be from Dynasty. I stopped by and looked at the traces in the passage when I came, it should be one of the two of them sneaking into the underground base and rescuing these three reformers."

"Son of a bitch!"

Xiang Yongzhan snorted coldly and stared at the two guys in camouflage uniforms for a moment before saying in a cold voice, "These two are either from the Vietnam Border Guard Battalion or the Golden and Silver Snake Mercenaries, look at their hands, they obviously play with guns a lot!"

Ji Feng nodded slightly, he was thinking the same thing.

“What’s this?”

Xiang Yongzhan saw the several luggage bags again and asked, “Is this what they’re taking with them?”

Ji Feng nodded, “The bag in front of you is a new laser gun, and these remaining three bags are unknown liquids.”

“Liquid?!”

Xiang Yongzhan froze, he casually unzipped the luggage bag, but saw the luggage with the combination lock on it.

Immediately, Ji Feng’s heart fluttered and said, “I briefly interrogated these guys before they passed out, but before I could ask more questions, they passed out

He neglected to mention that he could see clearly what all things were inside this box through his penetrating eyes, but Xiang Yongzhan could not, so he immediately rounded up for himself, otherwise there was really no way to explain how he knew what was inside without opening the box!

Xiang Yongzhan immediately asked, “What liquid is so important that they didn’t forget to bring it with them when they were running for their lives?”

Ji Feng mused, “That’s something we can only find out if we interrogate them. However, I suspect that they don’t know exactly what it is either, think about it, even this escape route is only known to Luo Gnarly, even Cage doesn’t know about it, so what is in here, is it something that a few ordinary transformers can know about?”

Xiang Yongzhan nodded and said, “Older brother, let’s not worry about what’s in the box right now, can you interrogate them first and find out where Luo Qiu is now.”

Nothing is as important as catching Luo Qiu now, this is definitely an important person in the dynasty, at least he must know more than Cage, as a ‘military officer’ Luo Qiu, he definitely has very important information in his hands.

To interrogate on the spot was certainly not a problem, however, Ji Feng was the one who reminded, “Old Xiang, you know my interrogation methods, let these warriors recuse themselves first!”

Xiang Yongzhan knew that Ji Feng’s interrogation method was to use neurotoxins to interrogate, so it was better for fewer people to know, so he immediately nodded and said, “You guys go outside first to scout and stand guard, and report back in time if you find anything!”

After all the soldiers had gone out, Ji Feng grabbed one of the guys in camouflage uniform and slapped him hard.

“Slap!”

This was a slap that immediately made the man shiver and made him wake up with a start, but what he saw in his eyes were two strangers.

He just wanted to scream, but was hit on the top of his head by Ji Feng’s slap, and in a flash, his two eyes glared, and his whole person shook a few times, and his eyes met became a little dazed.

Ji Feng knew that this person spoke Vietnamese, so he also asked directly in Vietnamese, "I ask you, what are you?"

The man said blankly, "My name is Ruan Susin, I am the leader of the Golden and Silver Snake Mercenary Regiment's reconnaissance squad"

Ji Feng and Xiang Yongzhan immediately looked at each other, they were really from the Golden and Silver Snake Mercenary Regiment.

"Are you here on the orders of Luo Qiu?" Ji Feng asked again.

"Yes."

"What did Luo Qiu tell you to come for?" Ji Feng asked. People who had been poisoned with neurotoxins could only ask and answer at most, so Ji Feng was not in a hurry.

"Lord Luo Qiu asked us to rescue the three adults in the base and take away a few things at the same time."

"Do you know what they are?" Ji Feng asked.

"It's four boxes."

"Then do you know what's in the boxes?" Ji Feng asked in a deep voice.

"I don't know."

Ji Feng couldn't help but frown: "Really don't know?"

Ruan Susin replied blankly, "It was ordered down by Lord Luo Qiu, we just acted according to Lord Luo Qiu's orders."

Sure enough!

Ji Feng couldn't help but secretly say in his heart, he had expected this, even Kage didn't know something, how could they possibly know it?

"Then where are you going to take this thing to?" Ji Feng asked again.

"Bring it to the headquarters of the Golden and Silver Snake Mercenary Regiment and hand it over to the chief."

Ji Feng smiled and immediately asked, "Then where is your headquarters? Where is the regimental leader?"

Ruan Susin said an address, and Xiang Yongzhan could not help but frown at his words, "It's already within the territory of Vietnam, and it's not very close to here."

Ji Feng, however, was not very surprised as he asked, "Then where is Luo Qiu?"

Ruan Susin said, "I don't know."

Ji Feng asked, "Isn't he with your chief?"

Ruan Susin said, "I don't know."

After several don't knows in a row, Ji Feng couldn't help but frown and asked, "Did Luo Qiu personally give you the order?"

Ruan Su Xin said, "Yes. Lord Luo Qiu told us the way to enter the passage via webcam"

Ji Feng then stopped asking, apparently this Ruan Susin didn't know much either, he hadn't even met Luo Qiu face to face, he only received the order from Luo Qiu through the internet, so naturally he didn't know where Luo Qiu was at the moment.

He couldn't help but say in a hateful voice, "This Luo Qiu, he's so cunning!"

Ji Feng nodded slightly, he agreed with this statement of Xiang Yongzhan. He had dealt with Luo Qiu head-on, so he knew better than anyone else how cunning he was, this man was definitely a very difficult and quite dangerous character!

"Should we ask these three reformers again?" Xiang Yongzhan asked.

"There's no need to ask them!"

Ji Feng shook his head and said, "If they knew the inside story, how could they still die guarding the underground base? They would have escaped from this passage long ago!"

Xiang Yongzhan, however, was very reluctant and gritted his teeth, "I didn't expect to chase them all the way here, but there's still no sign of Luo Qiu."

Ji Feng mused, "This man is very cunning, I'm afraid that even the head of the Golden and Silver Snake Mercenaries may not know his whereabouts, unless one can take these few boxes and blend into the Golden and Silver Snake Mercenaries, which might still have a slight possibility."

Xiang Yongzhan shook his head and said, "This method won't work."

Ji Feng asked, "Oh? Why?"

Xiang Yongzhan said, "You may not know much about the mercenary corps, it is a very exclusive small group, and there is a strict hierarchy, those soldiers below who are directly engaged in combat, they are not qualified to participate in important matters such as the decision making of the mercenary corps."

Ji Feng nodded, this was well understood.

Xiang Yongzhan added: "But the problem is, even if you mix in and hand the box to the top, then there's nothing more for you to do, when the time comes, whether the top brass of the mercenary corps goes directly to deliver it to Luo Qiu, or whether Luo Qiu himself goes to get it, no one can say. Besides, since you want to blend in, you must be posing as someone from the mercenary corps, so you always have to return to the team, right?"

Ji Feng then slowly nodded his head and said, "That indeed won't work."

After blending in, he definitely had to return to his team, but to which team? When would Luo Qiu come? These were all uncertainties!

What's more, it wasn't even easy to blend in with the mercenary group itself!

It's not as easy as you think!

"It seems that we can only take care of the matter at hand first too!" Ji Feng pointed outside and said, "Old Xiang, there is a fierce battle going on outside, it seems that the people from the Golden and Silver Snake Mercenaries are still stubbornly resisting, let's give them a shot from behind?"

"Old me is having no place to vent my fire!" A fierce look immediately appeared on Xiang Yongzhan's face.

Campus Master Chapter 2525

With the addition of Xiang Yongzhan and Ji Feng and the others, and the sudden attack from behind, the Vietnamese-supported gang, as well as the people from the Golden and Silver Snake Mercenaries, were immediately taken by surprise.

Although there were not many people on Ji Feng's side, they attacked suddenly and fired from behind, suddenly catching the other side off guard.

The battle, which was about to end, sped up and before long, the Vietcong and the Golden and Silver Snake mercenaries were completely overwhelmed and began to retreat.

But the Chinese border guards had already formed an encirclement and would not give them any chance to flee, so they either surrendered or were killed on the spot!

According to the count afterwards, the Vietcong gang leaders were also killed in the battle, and only a few escaped like dogs in distress.

After all, although this was a Vietcong gang settlement with not many good people, there were still ordinary people living here anyway, and even if they were all Vietcong, the Chinese border guards could not drive them to extinction. Some of those who fled took advantage of the confusion to escape into the homes of those ordinary people, and then slipped away again quietly.

Although the Chinese border guards knew about this afterwards, they didn't say anything.

The Vietnamese gangs were no longer here, at least not in the short term, so it was time for the Chinese gangs in Xinma to take revenge.

After clearing the battlefield and cleaning up, some of the soldiers went back first with the captives, while Xiang Yongzheng and Ji Feng led the men back to the dynasty's underground base along that passage.

Afterwards, Ji Feng carefully searched the entire underground base, and only after making sure that there was nothing missing or negligent did he, together with the other soldiers, load the safes, the boxes and all the other items that were obtained later, onto the trucks and prepare to move them back.

By this time, reinforcements from the Chinese border guards had also arrived, surrounding the underground base and protecting it tightly, while bomb experts came over and began to defuse the bombs in the underground base.

Just when everything was going smoothly, Xiang Yongzhan was in a difficult situation.

“Older brother, what should we do with these people?” Looking at the people who looked like a corpse, Xiang Yongzhan could not help but touch his head, some difficult in order to.

These people are all unconscious, only a trace of very weak breathing, if you do not listen carefully can not hear.

No one knew why they were like this, and how long they would live.

“How about we take them to hospital first?” The leader in command of the group suggested.

“With so many people here, how can the hospital in Xinma City possibly finish receiving them?” Hearing this, Xiang Yongzhan could not help but shake his head and said, “Besides, God knows how they got into the state they are in now, if the process of moving them around affects their state, will it make them die?”

“This”

That chief also hesitated.

Xiang Yongzhan had to look at Ji Feng and said helplessly, “Older brother, do you have any good ideas on this matter?”

Ji Feng also shook his head with a bitter smile and spread his hands, “I’m not a doctor, what good solution can I have? But I think that since the reinforcements have arrived, it would be better to let these people stay here and then ask the big hospital in Xinma City to send doctors with equipment to come and do a general examination on these people first.”

“That’s a good idea!”

Xiang Yongzhan nodded, “I can’t think of any good solutions now, so it seems that’s all we can do.”

Ji Feng stared at those people for a while, then suddenly his heart moved and he said, “Either that, there is another way to try, but it is a bit risky.”

“Oh?”

Xiang Yongzhan immediately asked, “What method?”

Ji Feng said, “Feeding these people special effect currents directly to stimulate their potential, this is the most direct way.”

The special effects current didn’t do much harm to the human body, it would just stimulate some of the human body’s potential, it could barely be considered an early overdraft, but it wasn’t serious.

When Xiang Yongzhan smiled, he couldn’t help but say, “But what if after the stimulation of the special effect current, instead of awakening them, their little lives are directly lost?”

Ji Feng stretched his hands, “Then we can only follow the first method.”

Xiang Yongzhan said, "The key now is that we don't know exactly who these people are, and if they are innocent civilians captured by the dynasty, then it wouldn't be good to rashly mess with them. Let's just do what you said and ask the doctor to come over and examine them first!"

In the end, Xiang Yongzhan still adopted Ji Feng's first suggestion.

After the decision was made, several people stopped staying here, too many things had happened this night and needed to be sorted out.

Only, when he was about to leave the warehouse, Ji Feng turned back to look at the rows of nudes lying on the shelves, looking at them there motionless as if they were dead, he always felt a bit weird.

"It's dawn?!"

When he got out of the underground base, he found that the sky was already hazy, and I was afraid that in another hour or two, it would be completely light.

Xiang Yongzhan laughed, "This night has been really fulfilling!"

The first thing you can do is to take a look at the actual situation.

"Go back!"

Ji Feng said, "I still have some things to ask Cage, I hope the neurotoxin hasn't completely turned him into an idiot."

The rows of nudes of men and women in that warehouse made Ji Feng very curious.

Xiang Yongzhan nodded and bellowed, "Take all those bastards to the car!"

He was referring to the three reformers who had escaped and the two mercenaries from the Golden and Silver Snake Mercenaries who had saved them, especially one of the mercenaries, whom Xiang Yongzhan hated to the core, this was the man who had killed several warriors and had also blown up the control room, leaving much of the information of this underground base destroyed.

Even the death of this person alive could not make Xiang Yongzhan completely relieved, so he did not let the troops take these people away with the other prisoners, but kept them in the base, he wanted to personally take these people back and bring them to the graves of the few soldiers who were killed

The car drove off, Ji Feng couldn't help but look back again in the direction of the Vietcong, and couldn't help but give a cold laugh.

This time, I'm afraid the Vietcong will definitely be shivering in pain.

The loss of three regiments, in this era this is definitely a fiasco, and it is definitely a heavy casualty!

Not only that, there were also the gangs supported by the Vietcong, the dynasty's bases and so on all being uprooted, this was also not a small casualty, this time, it should be considered a painful lesson for the Vietcong, right?

"Humph!"

Ji Feng coldly snorted.

The fact proved that Ji Feng's prediction was correct.

The loss of three regiments was too big for anyone to cover up. In fact, at that time, there were only a total of five regiments of Vietcong's border battalion stationed in different directions, and they were all the elite troops of Vietcong, and even the Vietcong had once claimed in recent years that their elite troops could beat the Chinese army without a fight!

And now, five regiments of border battalions were eaten up by three regiments at once, which was no longer a wound to the bones, but a blow to the head!

This was why, with the Chinese border guards watching, the two remaining Vietcong regiments watched their own troops being annihilated, but did not dare to rescue them, let alone retaliate!

This also made Ji Feng and his men's operation this night go slightly smoother.

"Humph! Retaliation?!"

Xiang Yongzhan shook his head and said, "You don't understand, the political situation in Vietnam is in chaos now, the chief officer of this border battalion may not really be afraid, only that his first consideration may not be rescue, but to die to keep the remaining two regiments, he is worried that if he sends any more troops out, they will also be eaten up by us!"

Ji Feng frowned, "So they're okay with losing three regiments for nothing like that? The top won't hold them responsible?"

"All right? You're kidding!"

Xiang Yongzhan couldn't help but snicker, "How many troops does Vietnam have in total? Three regiments, that's enough to make them shiver in pain. But which is more cost effective for them, losing three regiments or losing their entire army?"

Ji Feng was speechless, bureaucracy, it was the same in any country.

"Besides, I reckon the Vietcong is afraid that when they see that we're getting real, they'll have a drum in their hearts." Xiang Yongzhan said.

"They're not being cheap!"

Ji Feng couldn't help but shake his head and sun himself, this was just like back then, the Vietcong kept provoking, only to have China move for real and advance directly to a place just a few dozen kilometres away from their capital, beating them to the punch, and at once they were honestly submissive.

And now this!

"Just wait, let them bounce around, sooner or later they will be given another hard lesson!" Xiang Yongzhan said in a cold voice.

Ji Feng didn't say anything, but he agreed with this in his heart, sooner or later, the Vietcong would be taught a hard lesson, so that those people would never dare to brutalise the people of China again so easily!

Ji Feng thought again of the dozen or so villagers from the mountain villages who had been innocently brutalised, who had they offended?

As soon as Ji Feng entered the camp, he saw Bai Zhu standing at the entrance with her feet crossed looking out, her pretty face full of anxiety, her short hair was even a bit messy from the morning breeze.

When she saw Ji Feng jumping down from the car, she ran towards him without saying a word, jumping into Ji Feng's arms and wrapping her arms tightly around his neck.

"Young Ji, you've finally come back!" Just a simple sentence, then Bai Zhu stopped talking and just tightly wrapped his arms around Ji Feng's neck.

However, Ji Feng felt a strong sense of concern and warmth from these words, and even, he could clearly feel Bai Zhu's slightly trembling body.

Obviously, Bai Zhu was aware that he had gone to war and had been worried all night.

"I'm fine, I've made you worry."

At this moment, Bai Zhu was no longer the ruthless female assassin, nor was he the valiant and cool personal guard, he was a little woman full of worry looking forward to her man's early return

Campus Master Chapter 2526

The warmth of Bai Zhu made Ji Feng's fatigue from a night of fighting instantly sweep away, so he didn't take the advice of one of the Border Guard officers to let him go and rest, but came to the interrogation room again with Xiang Yongzhan.

This time Bai Zhu, however, did not go to rest alone again. Just because of her momentary negligence before, as a result, Ji Feng sneaked out and actually fought with others all night long before she knew about it, now she did not dare to be careless anymore and followed Ji Feng every inch of the way.

The city of Xinma is relatively better than the mainland, but after all, it is close to the three areas of chaos, which is more or less chaotic than Jiangzhou, and Ji Feng has just led people to destroy a dynasty's underground base, which may lead to retaliation.

Of course, no one would dare to retaliate in this military camp, nor could they. What Bai Zhu was really worried about was that Ji Feng would leave the military camp again on a whim.

Seeing Bai Zhu's insistence, Ji Feng had no choice but to let her follow along to the interrogation room.

However, as soon as he arrived at the interrogation room, Ji Feng was instantly surprised.

"Damn it, you untrustworthy yellow-skinned monkeys, you said you would give me freedom if I answered the questions honestly shamelessly!"

"Let go of me and let the damned yellow-skinned monkey come to me"

Before he even entered the room, he only heard a roar of anger coming from inside, and it was shouted in English.

Ji Feng was stunned: "This is Cage's voice!"

Xiang Yongzhan was also a little surprised, he looked at Ji Feng in surprise and asked in a low voice, “Ji Feng, this is Cage shouting? What’s going on, didn’t they say he would turn into an idiot?”

Ji Feng couldn’t help but shake his head and said, “Who knows what’s going on.”

The duo hurriedly pushed open the door and walked into the interrogation room.

As soon as they entered, they immediately found that, indeed, Cage was tied up on that iron frame, and the clothes on him had been put on, but they were not so neat and looked a bit messy.

And most importantly, at this moment, Cage was roaring in anger, with a look of rage in his eyes.

As soon as he saw Ji Feng and Xiang Yongzhan and the others enter, Cage became even more furious as he yelled, “Damn it, how dare you come! Let me go now!”

Ji Feng and Xiang Yongzhan were both taken aback at the same time, this was amazing, how did Cage return to normal again?

Both of them looked at each other, their hearts were puzzled.

Ji Feng even frowned at Cage and looked him up and down carefully before he frowned and asked, “Cage, do you still recognize me?”

“Hmph!”

When Cage saw Ji Feng, fire almost spurted out of his eyes and he cursed angrily, “Shameless yellow-skinned monkey, you don’t keep your words, how dare you deceive me! Now you let me go immediately, or else

Ji Feng, however, did not listen to what he said below, but stared at him with great surprise, at this moment Ji Feng could already confirm that Cage had really returned to normal!

“It’s really strange!”

Ji Feng was a little surprised in his heart, it was really the first time he had seen someone who had been hit by neurotoxin and was still able to recover so quickly, seemingly without any after-effects at all.

He pondered for a moment and immediately activated the bio-current to act on his eyes, activating his penetrating eyes to stare at Cage and take a closer look.

At this time, Xiang Yongzhan, on the other hand, asked the soldier in charge of the guard next to him, asking, “When did he wake up?”

The soldier replied, “Report chief, the prisoner woke up about two hours ago, there are specific recorded times and videos on here here, waking up at 4am.”

Xiang Yongzhan could not help but tsk his mouth, “He woke up like this?”

The soldier nodded and said, “Yes, he woke up shouting and screaming, so I immediately reported it to the head of the unit and heard the head who understood English say that he was screaming to get out!”

“Get out? Wait for it!” Xiang Yongzhan snorted coldly.

If he wasn't a reformer, or if he didn't have a murder on his body, or if he hadn't brutally killed the people of China, he might have been treated lightly.

But now he not only had the blood of Chinese people on his hands, but he was also a reformer, and he still wanted to go out?

It was simply a fool's errand!

"So that's how it is!" At this time, Ji Feng suddenly spoke up.

"You see the situation?" Xiang Yongzhan immediately asked.

Ji Feng slowly nodded and said, "I see, this guy's body is very different from a normal human's because it's been modified, and even compared to other modified humans, it's still very different, so the neurotoxin won't have that strong an effect on him."

Cage's body was almost all synthetic, and although it was said that up to now, we still didn't know what kind of material the flesh and skin on his body was made of, there was no doubt that it was very different from human muscles.

Therefore, the neurotoxin that Ji Feng had injected into him before could only work on the nerves in his brain, while his body still shared away a large portion of the neurotoxin, and because of this, Cage's poisoning was not that deep, plus his brain all seemed to have been strengthened, so he was able to recover so quickly.

Xiang Yongzhan stroked his chin and tsked, "It's really just one sentence, this guy is a monster, you can't look at him the same way you look at a normal person, right?"

Ji Feng nodded and smiled, "You could say that."

Kage did not turn into an idiot, which was unexpected but not a bad thing, at least a clear-headed Kage was much more useful than an idiot.

Only, Ji Feng was somewhat in awe of the amazing level of technology of the dynasty that could turn an ordinary person into this, it was something one could not even think of not being in awe of.

Xiang Yongzhan then couldn't help but laugh, "Then in that case, not many of Dynasty's people are normal, I even wonder if that boss of theirs, KING, has also received this kind of transformation."

"....."

In a flash, Cage's roaring voice came to an abrupt halt as he looked at Xiang Yongzhan and Ji Feng in consternation, with a touch of shock and confusion in his eyes.

Just now, he seemed to have heard this Chinese man say KING?

He immediately shook his head vigorously, and only then did he remember that this seemed to be what he had told them, yes, it was what he had said, but this bunch of yellow-skinned monkeys were the ones who did not keep their promise to release themselves, shameless yellow-skinned monkeys!

Ji Feng immediately noticed the situation, he coldly snorted and said, "Cage, how does it taste?"

Cage was about to curse angrily, but Ji Feng's eyes were cold and he shouted, "If you dare to curse again, you will know the consequences!"

"....."

Cage's mouth was open, but he didn't dare to curse out loud.

He had already had a horrible experience before, and after waking up he was surprised that he couldn't recall at all what had actually happened after he had passed out, but he had a vague feeling that he didn't seem to be in a pure coma, as if he had done something else, and this feeling scared him a little.

Seeing that Cage had become honest, Ji Feng then coldly snorted and said, "Cage, let me ask you, in the warehouse of that underground base of yours, why were there so many naked people? Why are they lying motionless on the shelves and not reacting to the outside world?"

Cage didn't say a word.

Ji Feng's eyes were cold: "If you don't tell me, I will have to send you to the laboratory and let those scientists conduct scientific research on you."

Cage was instantly furious and he yelled, "Damn it, you're still going to lie to me! I won't trust you anymore!"

"If you tell the truth honestly, perhaps you will be treated with a certain degree of preference, but if you don't, then you will definitely end up in a miserable situation, your choice!" Ji Feng raised his hand and looked at his watch, "I only give you one minute to decide!"

"....."

Cage was furious, he really wanted to tear this yellow-skinned monkey apart if he could, but apparently reality made him just bow his head, after this man gave in once, the second and third time seemed to be much easier and even turned out to be a matter of course.

So Cage could only answer honestly, "Those people were captured from China and the surrounding countries, and the organisation wanted to transform them into super soldiers."

Ji Feng frowned, "That means transforming people, right?"

Cage said sullenly, "Yes."

In his heart, he was actually reluctant to bring up the term reformer, preferring to call himself a super soldier, but there was obviously not much point in arguing with Ji Feng about this now.

Ji Feng asked in a cold voice, "Then how come they are all moving like plants? Why are they on that shelf?"

"That's where the goods are stored." Cage said, "The goods will all be injected with a drug after they are captured, and then they will become like that"

"Goods?"

Ji Feng could not help but frown at his words and sneered, "You call those people goods? Then have you ever thought that when you were arrested, those people who arrested you also called you the same thing?!"

Cage then stopped talking, obviously because Ji Feng had hit a sore spot with him.

After a few minutes, Ji Feng understood the situation clearly, it turned out that after these people were injected with a certain drug, they would fall into a state of near fake death, almost indistinguishable from dead people if they didn't look closely. This way they would be quiet and tossed about however they wanted.

When a certain number of people were captured, they would all be sent away, received by special people and then transferred to where Cage didn't know, but in the end these people would definitely be transformed.

But it was the Golden and Silver Serpents who were responsible for receiving and transferring these people at this base.

This was how a large portion of the Dynasty's reformed people came to be.

When Ji Feng learned this, he couldn't help but understand that no wonder Dynasty was such a tightly-knit organization, yet they still had to implant biological bombs into everyone's body, so it turned out that a lot of people were captured in this way before joining Dynasty.

This method of controlling people is simple and straightforward yet quite effective, to control you first, as to when you can return to your heart, the dynasty must have other methods.

Ji Feng couldn't help but be secretly amazed, if the dynasty continued to develop like this, it would definitely grow incredibly fast, and no one would dare to betray.

This organization is really chilling to the heart!

Campus Master Chapter 2527

Once again, Cage was disappointed.

He answered Ji Feng's questions honestly, but in the end, he still did not get Ji Feng's understanding. With the blood of the Chinese people on his hands, not to mention the fact that the top would definitely not agree, Ji Feng would likewise not let him go.

However, there was still a need to keep this Cage, so for the time being, Ji Feng did not do anything to him.

Of course, from Cage's mouth, he also got some useful information.

For example, they knew that the drug that was injected into people was in the warehouse of the underground base, but of course it had all been brought back now, and although there was no antidote, the drug could be sent to the research lab for analysis and research, and the antidote could definitely be found.

In addition, Ji Feng also learned from Cage that the mysterious liquid he got from those boxes was actually produced by a plant they had gone to great lengths to find this time, to be precise, it was the juice contained in the roots of this plant.

According to Cage, this liquid was extremely adhesive and tough, and if used to transform the human body, it could drastically improve the physique of the transformed person, even exponentially.

This is all a bit frightening!

Xiang Yongzhan first ordered people to summarise all this information, including the items obtained from the underground base, which were also summarised and classified.

However, when Xiang Yongzhan saw the list of items, his face was somewhat unsightly.

“What’s wrong?” Ji Feng asked.

“Do you know what exactly was in those safes we saw in the warehouse?” Xiang Yongzhan asked.

Ji Feng immediately asked, “The safes were opened? What was inside?”

In fact, he had already known what was there, but he just couldn’t be the one to say it first.

“It’s some antique paintings and calligraphy, and a lot of valuable treasures, some of which are even national treasures!” Xiang Yongzhan’s face was ugly as he pointed to the list in his hand and said in a cold voice, “All these things, they scavenged them from China, and someone even gave them the green light to actually bring them out of the country!”

Ji Feng, however, was not the least bit surprised, he had long looked through the safe and knew that inside were some antique paintings and calligraphy, as well as jadeite and jade stones, etc. Although he did not know much about antique paintings and calligraphy, those jadeite and jade stones alone were definitely worth a lot of money.

Only, if these relics were all treasures, they naturally could not be taken out of the country, but now they were in the underground base, and that was enough to explain the problem.

The dynasty’s power within China was surprisingly large!

Xiang Yongzhan’s face was cold as he said in a deep voice, “This matter absolutely cannot be left like this, we are fighting to the death outside to fight the dynasty, but those fat-headed pig-heads are doing such a thing, it’s simply them bastards!”

As the eldest son of the Xiang family, Xiang Yongzhan, however, had no regard for his status, leading the special combat brigade to fight everywhere, in order to give those who had ill intentions towards China a hard blow, to beat them up and hurt them, and even put them in extreme danger several times, but he didn’t care at all.

But there were some people who did such things behind the scenes, which made Xiang Yongzheng extraordinarily angry!

Ji Feng, however, said in a deep voice: “Old Xiang, don’t get angry yet, to really talk about it, I actually have something here that might annoy you more.”

Xiang Yongzhan frowned and asked, "What is it? Ji Feng, do you know something?"

Ji Feng said, "It's something I found out inadvertently You should take a look at this first before you say anything."

As he spoke, he took out a small bottle from his pocket and handed it over.

Xiang Yongzhan took the bottle with some suspicion and asked, "What is this?"

Ji Feng said, "You should open it first and see what's inside."

Xiang Yongzhan was then a little surprised, a small bottle was just a small bottle, but Ji Feng seemed to attach great importance to it, was there really something important inside?

Afterwards, Xiang Yongzhan unscrewed the cap and took a look inside the bottle, however, with such a casual glance, Xiang Yongzhan's face changed abruptly, a touch of gravity steeply surfaced on his face, and his eyes were even more shrewd: "This is special effect current?!"

Ji Feng slowly nodded and said, "That's right, this is the special effect current under the Tengfei Group, if I remember correctly, this drug was specially signed by the Tengfei Group and the military with a contract and confidentiality agreement, exclusively for the military, not even in circulation in the market, and there are very strict procedures in transportation and management, right?"

Xiang Yongzhan nodded and said, "Yes, why? By the way, this bottle is not what we normally use, how come the special effects current is packed inside this kind of bottle, where did you get it?"

Almost every soldier in the military had special effects current with them, so Xiang Yongzhan was familiar with this medicine, but right now this bottle was completely different from the bottle used for the special effects current in their hands.

Ji Feng said, "What do you think if I tell you that I got this from the hands of a reformer?"

Swish!

A sharp aura flashed in Xiang Yongzhan's eyes, "What?!"

Ji Feng said, "In the underground base, after I went in with someone posing as a Vietcong soldier, I found out then that one of the transformers had been injured."

Xiang Yongzheng nodded and said, "That I know."

Ji Feng said, "But what you don't know is that when I found those transformers in the control room, the other three transformers were planning to feed the injured one with special effects electricity."

Xiang Yongzheng's face clouded over and his voice trailed off as he said, "That means that those few transformers knew what it was and knew what effect this drug could have, and it wasn't something they picked up from one of our warriors during the melee, right?"

Without waiting for Ji Feng to answer, Xiang Yongzhan gave the answer himself, "That's definitely the case. Even if someone of our warriors had left behind the special effect current during the battle, those few reformers wouldn't have had the time to pick it up, and even if they did, they wouldn't have had the need to change another bottle, much less know what it was"

Speaking of this, a flash of anger flashed across Xiang Yongzhan's face, "They got it from somewhere else!"

Ji Feng spread his hands, "I told you, this might make you even more annoyed!"

Xiang Yongzhan nodded slowly and said, "Don't ask too much about this matter, I'll definitely give you an explanation!"

Ji Feng smiled and didn't say anything. In fact, he was also very angry in his heart.

This matter was obviously a result of someone within China colluding with the dynasty and secretly giving this special effects current to the dynasty, but these people had never thought that the dynasty was so close to Bebon and might even have an even closer relationship, the dynasty was eyeing China, and countries like Bebon and Rice were trying to suppress China's rise by all means... ..

They're out there fighting for their lives against the dynasty, fighting against other countries, but some people are using this as an opportunity to get rich!

Bastards who eat the inside out!

"Ji Feng, don't tell anyone about this matter and keep it quiet." Xiang Yongzhan lowered his voice and said, "This time I want to see who has the guts to do this, as long as I find out, I will make him regret it for ten lifetimes!"

"Let's find out first!" Ji Feng said.

He had no intention to interfere in this matter, there were many people who had access to the special effects current, but most of them were from the military, other than He Hongwei's Tianyao Group and some people from the Tengfei Group, the only thing Ji Feng could investigate was the Tengfei Group, so he didn't investigate anything and left everything to Xiang Yongzhan.

This is rather more convenient.

"I'll give him a shout out from He Hongwei." Ji Feng said.

"No need!"

Xiang Yongzhan shook his head and said, "We'll talk to him after we've investigated."

Ji Feng frowned, "You suspect him?"

Xiang Yongzhan said, "It's not that I suspect him, but to prevent word from leaking out from him, besides, before the matter is investigated clearly, anyone is suspect, including me! So if you're not sure, you can also secretly check me out!"

Ji Feng then smiled, knowing that the discovery of those antique paintings and calligraphy, coupled with this special effects current, had completely enraged Xiang Yongzhan.

The news of what had happened around Xinma City soon spread, after all, the fierce battle overnight, the commotion was too great, and even the Chinese side had previously sent out a warplane and shot down a helicopter, it was something that could not be hidden from anyone.

Besides, there is no telling how many eyes are watching every move made by China.

So the battle that took place on the border soon reached the ears of many people, and at once, many people were shaken by it.

The first to bear the brunt was naturally one of the two parties involved, the Vietcong!

Three regiments of the elite border battalion were wiped out one after another, and two of them were even wiped out in one night, while the Chinese side suffered almost no losses, and the casualties were almost negligible!

The nature of this was so serious that it was almost like a blow to the head of the Vietcong, hitting the Vietcong military and high command with a feeling of dizziness!

The loss of three regiments was not so bad as to break the bones, but the huge disparity in combat power that was revealed really shook the Vietnamese military and high command!

The disparity in combat power between the two sides was so great that many people were secretly shocked, especially those who had arrogantly thought that the Vietnamese army was only stronger than China's. They were even more shocked by this blow to their eyes and bodies!

It was only at this moment that they were suddenly awakened to the fact that the Chinese army was so strong in combat!

They realised that even with the backing of countries such as Rice, once the Chinese army got into action, it would be so strong!

Of course, it is not that some of the Vietnamese military hawks did not want to retaliate, but when they learnt that a large number of prisoners were in China's hands, and that there were even definite handles in China's hands as well, they were a bit scared.

It was not only the Vietcong that was shaken, some of the neighbouring countries were even more surprised to receive the news that after so many years without a war, China was still so strong!

Campus Master Chapter 2528

The battle that took place near New Madrid was a shock to many countries!

Although it was a small battle, involving only a few regiments and an ambush in the dark, without even the use of heavy weapons, the more it showed the quality of the soldiers.

If heavy weapons had been used, it would not have been possible to see the quality of the fighters on both sides, it would have been a competition of technology and national power.

Therefore, this kind of small-scale battle is more shocking.

But anyone who knows a little bit about the military understands this, China's technological level and national power is there, while the soldiers' combat quality is an uncertain factor, which has made many countries look at it, including Rice and Kepong and some other countries that are very concerned about China.

The Vietcong, on the other hand, was instantly dumbfounded, and with the loss of a full three regiments of elite troops, they didn't dare to make the next move!

When Ji Feng learnt of this situation, he was already in Yanjing.

Ji Feng had come to give a report to Xiang Jiefang, accompanied by Xiang Yongzhan. A lot of things had happened during this trip to the southwest, and there were some situations that Ji Feng had to make a personal explanation of.

For example, he had chased Luo Qiu single-handedly, so he became the only person who had fought Luo Qiu head-on and had a conversation with him, and the authorities attached great importance to this person, so they needed to know something from Ji Feng.

At the same time, Ji Feng also had a lot of questions that he needed to reflect to the top.

But to Ji Feng's surprise, Jiefang also invited Ji Zhenping to come and listen to Ji Feng's and Xiang Yongzhan's report together – although Xiang Yongzhan and Ji Zhenping are both in control of a special force, their ranks are quite different, and it is only right that Xiang Yongzhan report to Ji Zhenping.

Ji Feng gave a detailed report of what he knew and recorded it, and he also highlighted the issue of the dynasty's system and structure.

The information is enough to show that the dynasty is not just a powerful underground organization, but that it has a terrifying and complete management system, which is too alarming.

Therefore, to the liberation more focused on asking about this aspect of the situation, and also listen to Ji Feng and Xiang Yongzhan's analysis with an open mind, he attaches more importance to this issue even than to the laser gun!

Ji Zhenping, on the other hand, was more concerned about the level of technology in the dynasty, and the source of the technology.

He frowned and asked, "Where exactly did Dynasty's technology come from?!"

Ji Feng spread his hands, "Even Kage doesn't know this question, and I'm afraid one would have to be at the level of Luo Qiu or the King to know, and I doubt they might even know."

Ji Zhenping immediately heard Ji Feng's unintended meaning, and he could not help but ask, "What, you think that the source of Dynasty's technology does not come from those scientists that Dynasty has kidnapped?"

Ji Feng shook his head and said, "I don't know, and I can't say."

In fact, Ji Feng did think so, he did not think that Dynasty's technology came from those kidnapped scientists, of course, although these scientists might all be internationally famous, or almost the top and most authoritative experts in a certain field, their wisdom and profound knowledge that was naturally needless to say.

But there is one question that Ji Feng is very puzzled about –

Even if these abducted scientists had unparalleled intelligence and were able to develop some inventions that people did not even dare to think about, how could they develop the technology of the Gamma system, that is, the first generation of laser guns?

Is there really such a coincidence in this world?

Or is it that when the technology on Earth developed to a certain extent, it went the same way as the Gamma Galaxy development? Is this an inevitable development of intelligent life in the universe?

This question, Ji Feng has no way to answer, but he has a greater inclination in his heart, and also has a guess that belongs to himself.

“There are two immediate priorities now, firstly, to find a way to find out about the members of the dynasty and their traces, especially the backbone members of the dynasty!”

Xiang Jiefang lightly clasped his right index finger on the table and said in a deep voice, “Secondly, it is to find out the source of the dynasty’s technology! These two points are especially important!”

The source of technology is the basis and foundation of the dynasty’s survival, while the composition of the dynasty’s backbone members is the key to the dynasty’s operation, as long as these two points are grasped, it is tantamount to grasping the dynasty’s lifeline!

Xiang Jiefang had a sharp gaze, and immediately saw the crux of the problem.

Xiang Yongzhan immediately exclaimed, “Please rest assured, Chief, I will definitely find a way to investigate this!”

In the army, Xiang Yongzhan had always addressed Xiang Jiefang as Chief, there was no father and son here!

But Xiang Jiefang said, “Your main duty is to lead the troops well! The investigation can follow the orders of your superiors, but you can’t delay your proper work because of it.”

Xiang Yongzhan nodded, he knew that this was his father’s character, so he didn’t say anything more.

Ji Zhenping, however, looked at Ji Feng, a smile appearing on his face, and said, “Brat, why don’t you take a stand?”

“Me?”

Ji Feng said, “I’m only thinking about getting the laser gun manufactured in a hurry, the dynasty’s technology is indeed terrifying, but as long as I can overpower them in terms of technology, then they won’t be that terrifying anymore!”

Xiang Jiefang agreed with him and nodded his head, “Well! Ji Feng is right, this is more important than anything else! Ji Feng, you’ve seen how fast the dynasty’s technology is really developing, and that’s scary, so you’ve got your work cut out for you.”

Ji Feng nodded, “Please don’t worry, Chief Xiang, the year I promised will only be advanced, not delayed by a second! Moreover, I have already gained a lot of experience and insight after studying Dynasty’s

laser gun, so as soon as my laser gun is manufactured, I can guarantee that it will be much better than Dynasty's laser gun!"

"Then, I'll be waiting for good news!" Xiang Jiefang nodded his head and said.

"You kid, you have a big mouth." Ji Zhenping, however, shook his head and smiled before saying, "Alright, you two go out first, and remember to keep it a secret."

Ji Feng nodded, while Xiang Yongzhan saluted and faced Xiang Jiefang and Ji Zhenping respectively, before they walked out.

Walking out of the General Staff building, Ji Feng looked at the uniformed soldiers that came and went not walking by, and couldn't help but say, "In the past, I just saw that these people were handsome in their uniforms, but in fact, after following a few battles, I realized that this uniform is actually a responsibility when worn on the body."

Xiang Yongzhan looked at Ji Feng in surprise and asked, "You really think so?"

Ji Feng said, "In fact, they could have chosen other occupations and lived just as well, and probably some of them would have lived a good life. The same goes for those soldiers who died in the 100,000 mountains, they didn't get much money, but they were fighting the enemy with their lives."

He said, "Everyone has the word responsibility, but the soldiers are more direct, especially when the people don't know how much the soldiers have done."

Ji Feng slowly nodded, and after a moment of silence, he suddenly said, "I have an idea, I plan to have the Tengfei Group set aside a piece to set up a foundation, a part of which should be geared towards those fallen or disabled soldiers."

Xiang Yongzhan said in a deep voice: "Ji Feng, if you really make it happen, I will salute you!"

Ji Feng said, "The salute will be exempted, in the future if there are any retired soldiers in the special combat brigade, or if there are any good seedlings in the army, just be hidden from me. Well, I'm not tapping the wall, it's kind of booking in advance!"

The first thing you can do is to get a new one.

Ji Feng hummed: "I'm a stingy person?"

I'm going to leave Beijing soon, so many of my brothers died in the southwest, I have to go to their homes personally, when I come back, I'll tell you the rest of the situation. You communicate it."

Ji Feng nodded and said, "Then I'll see you in Jiangzhou."

Xiang Yongzhan said, "See you in Jiangzhou!"

Ji Feng originally wanted to wait for his younger uncle to go back together, but when he looked at the time he found that it was still early before he got off work, so he planned to go home first by himself, and he didn't know if his mum had gotten wind of it, if she knew that he had gone to the southwest to fight in the war, she would definitely be worried again.

As for his dad

He was worried, and I'm afraid he would only express it implicitly.

However, just as Ji Feng arrived at the courtyard, he received a call from He Hongwei inviting him to go out and sit down.

And then, Ji Feng first went to the front building to pick up Bai Zhu, and then took a taxi to the place he had agreed with He Hongwei.

Only when he arrived at the place did Ji Feng realise that the place He Hongwei had booked was actually in a hutong, one of the courtyards was a restaurant, of course, the price of this restaurant was cheap, in Yanjing, a place where every inch of land is gold, there were only a dozen private rooms in such a large area of the courtyard, so one could imagine how high its consumption level was.

"Brother Hongwei, I'm a bit uncomfortable eating here!" Ji Feng teased.

"It's just a home-cooked meal."

He Hongwei laughed, "The owner here knows me, so there's no minimum spending limit, mainly because it's quieter and easier to talk here."

Ji Feng then smiled and nodded, but in his heart he was puzzling, wondering what was so inconvenient for He Hongwei to talk about that he had to come to this 'convenient place to talk' to himself?

Campus Master Chapter 2529

Led by He Hongwei, the two of them were laughing and joking as they walked towards a private room. At this time, they saw a slightly blessed middle-aged man walk over quickly, and when he was still a few meters away, he extended his hand and said with a smile on his face, "It's an honour for the small shop to have you here, Mr. He."

He Hongwei laughed and said, "If this place is considered a small shop, then what should we call the restaurants outside?"

The middle-aged man waved his hand with a smile and said, "Young Master He has flattered you, flattered you!"

He Hongwei smiled and said, "Old Li, it's not good to be too modest."

The middle-aged man then smiled and waved his hand repeatedly, before asking, "Right, Younger He, this gentleman is"

"Let me introduce you."

He Hongwei said with a smile, "This is my good friend, Ji Feng."

A faint look of surprise flashed across the middle-aged man's face when he heard that, then he was all smiles and said enthusiastically, "So it's Ji Shao! I've heard of your name more than once before, it's like a thunderclap, I didn't expect to know until I met you today."

Ji Feng couldn't help but smile slightly, this middle-aged man's mouth could really speak flowers, this man was obviously an extremely smooth person in dealing with things, he waved his hand and said, "You're welcome."

Perhaps seeing that Ji Feng's reaction was not too enthusiastic, He Hongwei then said, "Ji Feng, you may not know yet, this is Old Li, Li Xinyol, who is also the owner of this shop, we are considered old friends for many years."

Ji Feng raised his eyebrows slightly, Li Xinyol, this was a relatively rare surname, however, Ji Feng was paying more attention to the meaning of He Hongwei's words – an old friend with him for many years?

"Mr. Li, how are you?" Ji Feng nodded slightly in greeting.

"Just being polite."

Li Xinyol waved his hand repeatedly and said, "I would like to ask for more attention from Ji Shao in the future, so what, the private room is ready, please come inside."

Ji Feng smiled and didn't say anything more, he could see that this Li Xinyol could be considered to be very clever, for this kind of person Ji Feng didn't have any ill feeling, but after all, it was the first time we met, so we couldn't talk about any good feeling.

Led by Lixinol, the two of them walked towards the private box.

"Hmm?"

Just then, Ji Feng only saw a person walking past the entrance of the alleyway, he suddenly frowned and stopped, slightly turning sideways and looking back for a few moments.

He Hongwei asked, "Ji Feng, what's wrong? What are you looking at?"

Ji Feng looked carefully, but the mouth of the alleyway was only a few cars parked there, other than that there was nothing, he thought about it and immediately turned around and walked out, until he reached the mouth of the alleyway which was where he stopped, then stood on the side of the road and looked left and right, but found nothing.

"Young Ji."

Bai Zhu followed up as fast as he could and whispered, "Is there a situation?"

Ji Feng slowly shook his head, "There shouldn't be any."

And in the courtyard He Hongwei and Li Xinyol looked at each other, both of them felt very strange and hurriedly chased after them, and they saw Ji Feng standing there looking left and right.

"Ji Feng, did you see something?" He Hongwei asked.

"It's not good to say."

Ji Feng slowly shook his head with a thoughtful look on his face and said, "It seems like I saw someone I knew just now, but when I came out I couldn't see it."

He Hongwei asked, "Could it be that your eyes were mistaken? The entrance to this hutong is so narrow that a person can walk past it in a few steps, and you are so far away, it's normal to be blurry-eyed."

Ji Feng shook his head and said, "No, I clearly saw someone walk past here just now, but when I came over, I didn't see anyone on foot."

He Hongwei laughed, "That's normal, this road is a hutong not too far apart, maybe the person you saw turned into some hutong, right, who exactly did you see?"

He also noticed that Ji Feng's reaction was somewhat strong, if he just saw a general acquaintance, he certainly wouldn't have turned around and still chased out to take a look.

Ji Feng shook his head and said, "Maybe I really saw the wrong person! Let's go, let's go in."

He Hongwei didn't care, and with a smile on his face, he walked into the quadrangle with Ji Feng. At this time, Li Xinyol hurriedly led the way in front, leading them towards the private room.

But in fact, Ji Feng was muttering in his heart, because he knew better than anyone that although this alleyway was a bit deep, the distance was not enough to affect his vision, and he would not have the possibility of blurred vision at all, he was sure that he must have seen someone he knew just now.

Moreover, the other party's figure also looked like someone who was somewhat familiar, but definitely not someone close to him, which was why Ji Feng was paying this much attention.

"Right Mr. Li, are there people living in the hutongs around here?" Ji Feng asked casually.

Li Xinyol nodded and said, "The vast majority of them have people living in them, but there are also a few restaurants, like mine, which are usually only occupied during the day, and only on duty at night."

Ji Feng nodded thoughtfully.

When he entered the box, Ji Feng was a little surprised again, because this was said to be a box, but in fact it was just like a small suite, which was separated into a large room, don't look at the outside of this courtyard looked a little shabby, and looked out of place with the buildings in the metropolis, but in fact the room inside was decorated in a very modern way.

Although it was not opulent, it at least looked warm and welcoming, which was completely different from the luxurious but cold feeling of those big hotels outside.

Seeing Ji Feng sizing it up, He Hongwei smiled, "Actually, when Hong Qiang wanted to have a club, he thought of having a similar one, but the old man in the family didn't agree, so he had to choose somewhere else."

Lixinyol said, "That's because the second youngest was unwilling to compete with me and was deliberately making me."

He Hongwei waved his hand and said, "Hongqiang that's just a small fight, it can't be on stage, Old Li, today it's just the three of us, you just watch the arrangements."

Li Xinyol nodded and said, "Good! Then I'll make the arrangements today!"

He then retreated.

It wasn't long before a few waiters came up with the dishes, so it was obvious that this was not an impromptu arrangement by Li Xinyol, but one that had been made long ago, just waiting for them to be seated.

Bai Zhu sat next to Ji Feng, quietly drinking his tea, and He Hongwei was already used to it, so he didn't mind that Bai Zhu was right at his heels and said, "Ji Feng, I invited you out today, actually there's something I want to ask you."

"Oh?"

Ji Feng asked, "What's the matter?"

He Hongwei didn't speak in a hurry, but raised his wine glass and clinked a glass with Ji Feng before saying, "I heard that this time you and Xiang Yongzhan went to the southwest and even fought hard with Dynasty?!"

Ji Feng heard this matter come out from He Hongwei's mouth, but he was not the least bit surprised, this matter might be top secret to many people, but He Hongwei was definitely not included in it, "Dynasty is indeed very strong, but it mainly taught the Vietnamese a lesson."

He Hongwei snorted, "Just clowns who don't know the sky is high, dare to provoke, beat them up hard and they'll be honest, but it's the dynasty, be wary."

Ji Feng nodded, the dynasty was powerful, the more he knew about it the more he could appreciate it.

"I was attacked once again a few days ago!" He Hongwei suddenly said.

"Hmm?!"

Ji Feng couldn't help but be stunned.

He Hongwei lowered his voice and said, "I went to Germany some time ago, one of the companies over at the Tianyao Group had contract negotiations for the purchase of machine tools, so I led a team there, but on the way back, just after leaving the airport highway, my car was involved in a car accident."

Ji Feng frowned: "A car accident?"

He Hongwei nodded: "That's right! And the most important thing is that the other party in this car accident, instead of being unharmed after it happened, directly got out of the car and pulled open my door, he was going to make a move on me."

Ji Feng asked, "What happened afterwards?"

"Before he could make a move, he was pointed at the head by my guard with that gun!" He Hongwei said, "Originally I wanted to send him to the police station, but when my guards subdued him, they found out that he was a reformer! His body seems to be a bit different from ordinary people."

"Dynasty!"

Ji Feng blurted out.

He Hongwei nodded, "That's right, it's a dynasty!"

Ji Feng frowned and asked, "How did the dynasty suddenly attack you? Is it still the same as before, sent by the king?"

But He Hongwei shook his head and said, "I can't be sure, because my problems with the king are all in the past, and with the dynasty's power in China being hit hard in the last year or two, I can't find anyone even if I want to start a conflict with them."

Ji Feng immediately asked, "What about the reformer who was going to lay a hand on you? Won't we know everything if we interrogate him directly?"

He Hongwei said, "That's exactly where my headache lies, that reformer is dead."

"Dead?!"

Ji Feng couldn't help but be stunned.

He Hongwei's expression sank as he slowly nodded and said, "Shortly after being subdued, his body suddenly exploded and as a result, two or three of my guards were injured by the blast, and one of them was seriously injured!"

A biological bomb!

Ji Feng immediately understood what was going on, it was the biological bomb inside that transformer that had exploded.

He Hongwei said with a sullen face, "The ones sent by the dynasty should be dead soldiers, creating a car accident didn't get rid of me, so they switched to a human's bomb, they are treating me as a thorn in their side!"

Ji Feng frowned, "Have you told the top about this?"

He Hongwei nodded and said, "I did."

Ji Feng said, "Then you came to me today, and for"

He Hongwei said, "I think there's something fishy about me being attacked, since the dynasty's power has been hit hard, I hardly have much conflict with the dynasty anymore, and even if there is, it's probably because inadvertently the Tianyao Group has harmed the dynasty's interests, but I personally don't know where they are even if I want to find trouble with the dynasty."

Ji Feng nodded thoughtfully and did not speak.

He Hongwei added: "But even so I was attacked, and I felt strange, so afterwards I carefully ran through all the business of the Sky Shine Group this last year, and found no signs related to Dynasty, from which I came up with a guess."

Ji Feng asked, "What?"

Campus Master Chapter 2530

He Hongwei said, "On my side, there are most likely people from the dynasty!"

Ji Feng immediately frowned, "What?!"

He Hongwei, however, looked calm and just said calmly, "Or, the king is near me!"

“You’re kidding, right?” Ji Feng whispered, “How could the king be near you?”

“Why is it impossible?!” He Hongwei asked.

“Because

Ji Feng suddenly didn’t know what to say, because he hadn’t thought about this possibility at all before, that the king would be near He Hongwei?

Ji Feng couldn’t help but ask, “Why would you think that?”

He Hongwei said, “It’s just a feeling I have, a gut feeling, of course you can see it as me talking nonsense, but I just have this feeling, whether it’s the king or not, there must be someone from the dynasty around me!”

“But

Ji Feng always felt that there was something not quite plausible about this, and he deliberated for a while before asking, “But why would the king be by your side? And why would he keep staring at you? What exactly did you do?”

Ji Feng was really strange, in the past, when the dynasty targeted He Hongwei, and even when the king sent people to assassinate He Hongwei, it was because he was leading the Tianyao Group in impacting the dynasty’s industries and was having trouble with the dynasty on many projects, blocking people’s wealth was like killing their parents, so of course the king wanted to get rid of him.

But now, since He Hongwei said that he had no dealings with Dynasty for a long time recently, why did Dynasty still want to deal with He Hongwei?

What exactly did this guy do that made the dynasty gnash its teeth, did he plow the ancestral grave of the king, or did he borrow a few hundred million from the king and not pay it back?

Ji Feng was puzzled!

He Hongwei shook his head and said, “I can’t figure it out either. And it’s been a long time since the dynasty made another move on me, and this time it was done out of the blue.”

Ji Feng spread his hands, “That’s not the end of it! Are you thinking too much?”

He Hongwei thought about it and said, “How can I put it, I actually thought about this for several days, I thought about the grudge with Dynasty from beginning to end, but in the end I couldn’t come up with any clue, then I suddenly remembered a possibility.”

Ji Feng asked, “What possibility?”

He Hongwei said, “I was thinking that since I couldn’t make sense of it for a while now, I might find something by changing my thinking.”

“Well!”

Ji Feng nodded, “You’re already changing your mind, so what did you think of?”

He Hongwei said, "After this idea, I simply do not think about other things, just from the matter that I was in a car accident to think about, why I was in a car accident? It was because the dynasty wanted me dead, so they sent a reformer to assassinate me. So how did Dynasty's people know what time I got on the plane from Germany and what time I arrived in Yanjing?"

Ji Feng raised his eyebrows but didn't say anything because he knew that He Hongwei wasn't asking him, it was just a way of thinking for He Hongwei.

As expected, He Hongwei didn't even want Ji Feng to answer, so he said, "Because of my status, my whereabouts have always been very confidential, unless I have to attend any activities of a public nature, or outside of commuting in the company, but in this case it's all very safe, there's no need to make it so tense."

Ji Feng nodded and said, "You go on, then what?"

He Hongwei said, "This time when I went to Germany, my whereabouts were likewise kept secret, and the only people in Yanjing who knew I was back, apart from my family, were the two people I absolutely trusted, both of whom were my personal bodyguards, in fact it would be fine to say they were brothers. Apart from them, none of them knew the exact time of my arrival in Yanjing!"

"But I was still so coincidentally attacked!"

He Hongwei's expression was calm, and he was analysing everything that had happened to him in the most calm and objective manner: "What does this tell us?"

Ji Feng pondered for a moment and asked, "Can you really be sure that no outsiders know about your whereabouts?"

He Hongwei nodded, "I'm 100 percent sure! You have seen the original guard beside me, they are all retired from the guard corps, do you think they would not do a good job of keeping secrets?"

Ji Feng then fell silent, it was natural to say nothing more about the quality of the people in the guard corps, as guards specializing in protecting important leaders, they all received the most rigorous training.

He Hongwei said, "I don't believe that Dynasty's people are all that godly, they know everyone's whereabouts exactly, I also don't believe that the king's power would be so great that someone would be on me as soon as I got off the plane, and then the king would send someone over to assassinate me This kind of efficiency is also too scary some."

Ji Feng said, "So you think you have someone from the dynasty on your side?"

He Hongwei lit a cigarette and took two puffs before asking, "Don't you think these reasons are enough?"

Ji Feng nodded and said, "It's enough."

In fact, Ji Feng had somewhat agreed with He Hongwei's words in his heart, because he himself had once had doubts in this regard, were the people of the dynasty all gods, how could they grasp his whereabouts so accurately?

This question used to baffle him too, he simply could not understand it.

But then, after learning how powerful the dynasty was, Ji Feng also wondered if perhaps the dynasty was really powerful to the extent that its eyes were all over the place.

Now He Hongwei raised this question again, causing the original doubts in Ji Feng's mind to surface again at once.

"You're not sure about the people around you, that's why you asked me out to this place?" Ji Feng asked, "Is this place necessarily safe? You didn't come here to lure a snake out of a hole, did you?"

"I don't know who exactly is the dynasty on my side and who has problems." He Hongwei said, "So I can only move first, if someone on my side really has a problem, then when I move, he will definitely move, and only then will I be able to pull him out."

Ji Feng asked, "You've made all the arrangements?"

He Hongwei shook his head and said, "No. Although I have quite a few people on hand that I can use, I don't dare to use them casually right now."

Ji Feng couldn't help but be stunned, "You didn't make any arrangements? Then you still dare to come here?"

If things were really as He Hongwei had guessed, and the king was now holding back his desire for his life, then he might not be safe from assassination if he came here now, which was not a small risk.

He Hongwei laughed, "We can't just waste food because of choking, can we? The king wants my life, but it's not that easy! I, He Hongwei, wouldn't be so intimidated, otherwise I would have been scared to death! Besides, with you here, what do I have to be afraid of?!"

Ji Feng's face instantly darkened, "Dare I say, you called me to come here to be your bodyguard?"

He Hongwei then laughed, and Ji Feng couldn't help but shake his head and sun himself.

"Seriously."

He Hongwei flicked his cigarette ash and said, "What I just said is just a possibility, but it's really not a small possibility! Also, if there's no one from the dynasty by my side, that only leaves the second possibility I mentioned, that the king is nearby."

Ji Feng deliberated for a moment and asked, "Brother Hongwei, when you say nearby, where do you mean?"

"Yanjing!"

He Hongwei said categorically, "If it's not the first possibility, then I'm almost certain that the king is in Yanjing!"

When Ji Feng heard this, that originally stretched brow tightened once again, and he said in a deep voice: "Tell us what you think, and why do you say that?"

He Hongwei said, "It's very simple, you and I both know very well what Yanjing is, if the dynasty wants to grow the dynasty's power here and achieve any intelligence at all, then there must be a strong figure who is painstakingly operating here, and this can't be done overnight. So I presume that the king is probably in Yanjing, and I'm afraid that he has been operating here for quite some time!"

Ji Feng suddenly woke up like a dream and looked at He Hongwei in astonishment.

"What, what's wrong with my analysis?" Seeing Ji Feng's stunned expression, He Hongwei couldn't help but ask.

"No."

Ji Feng shook his head and said, "It's just that your statement surprised me a bit, before, I didn't seem to think in that direction. The idea that the king is in Yanjing you is really a bit surprising."

He Hongwei said, "I am just analyzing the problem from my point of view, it is just normal that we see things from different perspectives. But in my opinion, this person, Master Wang, is extremely capable and definitely a cunning old fox, if this person has been operating in China for many years, he can definitely operate a very terrifying intelligence network!"

"Not just an intelligence network!" Ji Feng said.

"What?" He Hongwei was stunned.

"It's nothing."

Ji Feng shook his head and said, "Some situations are classified and I can't reveal too much to you, but if your speculation is true, then I can tell you that what Master Wang is running in China is not just a huge intelligence network!"

He Hongwei immediately realised what was going on and asked, "The secrets you're talking about are related to your trip to the southwest this time?"

Ji Feng smiled, "Too much!"

He Hongwei then waved his hand with a smile and said, "Just a little curious, I understand this rule. However, I'm just curious, you kid went to the southwest, how come you're playing so big?"

Ji Feng pointed at him at once, and He Hongwei couldn't help but shake his head and smile, "OK! Let's not talk about that, let's change the subject, how about it, do you think it's alright here?"

"Not bad!" Ji Feng nodded, this courtyard was really quite clean, if the air in Yanjing wasn't too harsh, it would be nice to live in a place like this for health.

"Old Li is a more trustworthy person." He Hongwei said.

Ji Feng laughed, "Just be careful yourself anyway."

He Hongwei grunted, with a touch of coldness on his face, and said in a deep voice: "Three assassinations, it seems that the dynasty really thinks that I am a soft persimmon that can be pinched any way they want, this account, I will settle it with them!"
