

Campus Master 2531

As the youngest of the Ho family, He Hongwei would naturally not let an underground organisation intimidate him, even if it was as powerful as it was!

On the contrary, the Dynasty's assassination campaign against He Hongwei had thoroughly aroused He Hongwei's anger.

"It's not really that big of a deal!"

He Hongwei laughed, "Although Dynasty is scary, it's not enough to scare me. The main reason I asked you to come here today is to tell you my analysis, so that you can also make a reference when dealing with the dynasty. Also, you've kind of done me a big favour before, and I've always wanted to buy you a drink, but we're both too busy, and it's rare that I have the time now."

Ji Feng smiled and nodded, saying, "Drink whenever you want, but a deliberate invitation is not necessary, no need to be so polite."

He Hongwei said, "A yard is a yard, friends are friends, love is love, this has to be divided clearly."

Ji Feng also did not argue with him about this, just clinked a glass with him, but his heart was more or less unsettled, the situation that He Hongwei analyzed with him today really made him a bit surprised.

The king is in Yanjing?

Ji Feng knew the meaning of He Hongwei's words, not necessarily that the king was in Yanjing at this moment, but that the king should be based in Yanjing.

That was surprising enough!

The top person in charge of this underground organisation in China was actually based right in the heart of China?

If this is true, then this person, the King, is really bold, but when one thinks about it, one has to admire the King's cunning, I am afraid that the so-called darkness under the lamp is just like this.

The first thing you can do is to take a look at what you've seen in the southwest and what you already know from Cage's mouth, and Ji Feng's heart can't help but sink.

With something on his mind, Ji Feng was not too happy when he drank, and he even wandered off a bit. He kept letting He Hongwei urge him twice before he put down his glass and said, "Forget it, today is not a good day for drinking, let's just talk, I have something to do after I go back."

He Hongwei nodded and said, "Fine! Today is my treat, you can count it how you want."

Ji Feng laughed, "I'm also thinking of you, you forget that the dynasty is still bent on your life, in case you drink too much, when the time comes, you may not even know that you've been caught by the dynasty's people to reform people, that would be the end."

He Hongwei then couldn't help but have a black face, he He Da Shao was transformed?

Really

At this time, Ji Feng suddenly remembered something and said, "Right, there is something I almost forgot to tell you."

He Hongwei was stunned: "What is it?"

Ji Feng said, "The special effects current produced by the Tengfei Group, there is a product outflow, and the military wants to investigate this matter."

As he spoke, Ji Feng stared at He Hongwei without moving a muscle.

He Hongwei was stunned: "There was an outflow? Ji Feng, when did this happen?"

Ji Feng said, "It was only discovered not long ago, brother Hongwei, this matter has nothing to do with you, right?"

He Hongwei immediately laughed: "Older brother, is this the first day you met me? Although I, He Hongwei, am a businessman, I have not got into the eyes of money, moreover, if the special effects current is to go out, do you think it is that easy?"

After a pause, he added: "Well, to take a step back, even if I really did it, then how much special effects current do you think I have to sell and how much money do I have to make to cover the risks that come with it?"

Ji Feng smiled, "Just as long as it wasn't you who did it."

He Hongwei smiled bitterly and said, "Older brother, I know the seriousness of this matter very well, and I was surprised when you said it, but this matter really wasn't done by me, and I won't explain the excess, if the military wants to investigate, I will definitely cooperate fully."

Ji Feng then smiled and nodded, saying, "That's best."

He Hongwei suddenly said, "But have you thought about it, maybe the problem lies with the people below?"

Ji Feng shook his head with a smile and said, "I won't worry so much about that, let the military look into it, I already have enough on my own, I can't take care of so much."

He Hongwei didn't mind too much, in fact it made him happy that Ji Feng was able to ask him so directly to his face, it would only hurt if Ji Feng didn't say anything on the surface but started to investigate him in private.

However, He Hongwei was secretly surprised in his heart, and he asked in a deep voice, "Older brother, tell me the truth, when you say the special effects current has flowed out, did it flow into the dynasty? Or in the foreign troops?"

Ji Feng said vaguely, "That's probably what it means anyway."

He Hongwei then almost understood, and he nodded heavily, "See, this is the result of the king's years of hard work in China! Knowing full well that this is a felony, yet there are still people helping him with the medicine, and I even wonder if the dynasty's people have been mixed in during one or several stages of the special effects current from production to delivery to the military!"

Ji Feng frowned: "It's not that exaggerated, is it? How come it's like being an agent spy, and Dynasty's people's tentacles are still pervasive?"

He Hongwei said, "Old brother, you really don't believe me! Although I didn't participate in the operation against Dynasty, I have at least dealt with Dynasty, and from the experience I have accumulated in the shopping mall, Dynasty might be even more powerful than I said!"

Speaking here, Xiang Yongzhan added, "Otherwise, how do you think Dynasty's intelligence network came to be, and how did they know so many things so quickly?!"

Ji Feng's eyes then narrowed for a moment and said indifferently, "The bigger the spread, the more cracks will be revealed!"

He Hongwei raised his cup, "I don't know the specifics, but if there's anything, we can sit and discuss it together, okay, let's not talk about that, let's go a"

Before he could finish his words, a sudden ringing of his mobile phone rang.

He Hongwei immediately took his bag over from the chair next to him, took out his phone, glanced at it then picked up the phone, "This is He Hongwei what?!"

His voice was raised steeply by a few points and he seemed surprised.

Ji Feng looked at him in surprise, it looked like He Hongwei seemed to have heard a very surprising news to him over the phone?

"I know, you guys cooperate fully, I'll go there now." He Hongwei said in a deep voice.

"Older brother, there's something going on in the company."

Hanging up the phone, He Hongwei's expression was somewhat gloomy as he said, "Looks like we'll have to end this drink early!"

Ji Feng nodded and said, "If something comes up, you should get busy first, as I said, we have plenty of opportunities to drink."

He Hongwei shook his head and smiled bitterly, saying, "I'm afraid you'll be busy with this thing too."

"What do you mean?"

Ji Feng was a little surprised, "It has something to do with me too?"

He Hongwei nodded and said, "Just now I received a call from the person in charge of the Jiangzhou logistics transfer station, one of the supervisors of the transfer station, had a car accident, the car he was driving collided with a truck, the police have not found any traces of the truck's brakes by now!"

Ji Feng immediately frowned slightly: "Intentional murder?"

There was no trace of brakes, there was no doubt that this was intentional murder, it was obvious that the truck driver was trying to run over that transfer station supervisor!

"Hmm?"

Suddenly, Ji Feng suddenly realized something, he looked at He Hongwei expansively and asked, "What did you just say? One of the supervisors of the Jiangzhou Transfer Station was run over and killed?"

He Hongwei had also reacted long ago at this moment, he nodded and said, "See? Do you think there are such coincidences in this world?"

Ji Feng was also silent.

The special effects current had just been discovered in the underground base of the Southwest Dynasty, and Xiang Yongzhan was about to make up his mind to investigate the matter thoroughly, only to have a supervisor at the Jiangzhou transit station get hit by a truck and die before even a day had passed!

The purpose of the transfer station is to transport the special effects current produced by the Tengfei Group, which is the intermediate link between production and delivery to the military.

In fact, there is no need to ask Ji Feng to know that the supervisor who was killed was, in all probability, in charge of the transportation of the special effects current.

As He Hongwei said, there are no such coincidences in this world!

"Now you know how terrifying the Dynasty's intelligence network is, don't you?" He Hongwei said, "I've experienced it first hand, I've dealt with Dynasty before when I didn't know you yet, back then Dynasty's killers were simply like maggots in the hock, popping up from nowhere, making you defenceless, now, I'm afraid it's similar!"

Ji Feng didn't say anything, he just jerked up, casually picked up the jacket hanging on the coat rack, and took a big step towards the outside.

"You wait for me first, I'll pay the bill." He Hongwei said, while Bai Zhu followed closely behind Ji Feng.

The police are the only ones who can investigate this kind of matter, otherwise you won't be able to find out anything, so it's better to calm down and think about countermeasures first."

Ji Feng said in a deep voice: "I just want to see how powerful the dynasty really is!"

This successive actions of the dynasty, as well as that huge and sophisticated intelligence network, really made Ji Feng feel the pressure, especially He Hongwei's previous analysis, which made Ji Feng think of many, many things, and as a result, even if he was as calm and steady as he was, he was now somewhat unable to sit still.

Don't look at Ji Feng's steps are still calm and steady, but walking up is a big step, the heart is more or less anxious.

But as soon as he reached the entrance of the alleyway, he suddenly saw a man coming from the side, which resulted in Ji Feng stopping suddenly, but the man was unable to avoid the dodge, and hit Ji Feng's body with a bang.

"Don't walk with eyes!"

The man immediately bellowed, "In such a hurry to rush to your next life!"

Ji Feng's eyebrows went up at once, and his heart was quite fired up, yet he was just about to speak when an extremely unexpected look suddenly flashed across his face, and his eyebrows tightened at once.

"It's you?!"

At this moment, the man also gave a startled cry, but then his voice immediately went icy cold:

"Humph!"

Campus Master Chapter 2532

At the entrance of the alley, Ji Feng's brow was furrowed, but his heart was more or less surprised.

He didn't expect that he would actually run into this person here, and in this situation.

"Ji Feng, what's wrong hmm?"

He Hongwei hurriedly came from behind, and before he could finish his words he was suddenly stunned, he also saw the man standing not far from Ji Feng, and a look of surprise could not help but flash across his gaze, but he did not say anything else.

And that person's face became even colder after seeing He Hongwei: "Humph! I thought it was someone! So it's the two young masters that I ran into!"

He Hongwei said indifferently, "I was surprised too, I didn't expect to run into Director Wu here."

The person standing opposite was no other than the second oldest member of the Wu family, Wu Zhengxiang!

Ji Feng had not seen Wu Zhengxiang before, but he had seen his photo, so he immediately recognized him when he first saw him, and that was the reason why he was surprised, because Ji Feng really did not expect to run into Wu Zhengxiang in this situation, and, moreover, there was an unexpected collision between the two of them.

It was obvious that Wu Zhengxiang wasn't in a good mood either, whether it was Ji Feng or He Hongwei, they didn't deal with the Wu family, especially Ji Feng, who was simply the deadly enemy of the Wu family.

"Next time, be careful when you walk, watch the road!" Wu Zhengxiang glanced at Ji Feng and hummed, "Be long-eyed, if the one passing by was not me but a car, what do you think would be the consequence?!"

"Heh!"

Ji Feng shook his head and laughed, saying, "I'll definitely learn my lesson, it's lucky that I just ran into Director Wu this time, but if it was a cow running wildly over, it might have to knock me off my feet!"

Swish!

When Wu Zhengxiang heard this, his face instantly sank, "What did you say?!"

Ji Feng smiled and said, "Just making an assumption, no other meaning, Director Wu don't be overly concerned."

Wu Zhengxiang stared at him with a gloomy face, with an unconcealed anger in his eyes. How could he not hear that Ji Feng's words were clearly sarcastic, just now he had accidentally collided with Ji Feng, and as a result, Ji Feng's body did not move at all, while he was knocked back a few steps and almost did not fall down, and was himself frightened and suffered a dark loss.

Now Ji Feng still dared to say such cool words, even implicitly comparing Wu Zhengxiang to a cow, which was in itself a rather nonchalant statement.

How could Wu Zhengxiang not be annoyed?

"Ji Feng, you'd better be careful what you say, even if Ji Zhenhua comes, you can't talk to me like that!" Wu Zhengxiang said in a cold voice.

"That's right!"

Ji Feng smiled and nodded, saying, "My dad definitely wouldn't talk to you like that!"

He Hongwei instantly basked and laughed in his heart, it was really the first time he had seen Ji Feng being so sarcastic, but he had to say that Ji Feng's sarcasm really left people with no way to refute it.

Wu Zhengxiang's face was suddenly cold again, Ji Feng's words were not warm, but the meaning in those words made Wu Zhengxiang have a kind of violent anger.

Ji Zhenhua wouldn't talk to him like that is not bothered to talk to him like that, or is it that he, Wu Zhengxiang, can only debate with Ji Feng a few times and is not even worthy of talking to Ji Zhenhua?

Wu Zhengxiang coldly stared at Ji Feng, his heart was extraordinarily angry. At this time, he could even understand how Wu Zhiyong felt when he faced Ji Feng, this little brat of the Ji family was too wild and his mouth was so powerful that he didn't know what to say to refute him!

"Humph!"

In the end, Wu Zhengxiang could only coldly snort and coldly said, "Ji Feng, let me give you a piece of advice, young man, it's best to behave with some restraint and not to be too wild, or else you might not end up in a good place!"

Ji Feng nodded slightly and smiled noncommittally, "I remember Director Wu's advice. In addition, I also have a piece of advice for Director Wu, when people get older, it's better to be more careful when walking, otherwise, if you unintentionally step on a watermelon rind and slip on the road, you may die!"

"....."

Wu Zhengxiang's face turned a little blue with anger, he stared fiercely at Ji Feng, but Ji Feng still faced him with a smile, not showing any anger at all.

After a moment, Wu Zhengxiang turned around and left, no longer saying half a word more to Ji Feng.

Looking at Wu Zhengxiang's defeat, He Hongwei's face could not help but reveal a smile, and his heart was extremely happy, laughing, "Ji Feng, powerful!"

Ji Feng shook his head and said, "There's nothing awesome or not, those who insult others, people always insult them."

It is true that he was at fault for today's incident, because he left in a hurry and did not wait to confirm if someone was passing by the entrance of the alley before coming out, but to say that Wu Zhengxiang was also at fault for this matter, but the latter directly put the blame on him, and even spoke not politely.

Since that was the case, Ji Feng naturally would not be polite with him.

He Hongwei was so pleased with himself that he couldn't help but laugh, "Wu Zhengxiang must be furious, I'm afraid he won't be able to eat tonight! There are not many people in Yanjing who dare to talk to him like that, not to mention that you are technically a generation younger than him, so he definitely can't swallow this!"

Ji Feng shook his head and said, "I'm not even close to him, so how can I be a generation younger than him?"

He Hongwei couldn't help but laugh: "I didn't expect you to be sarcastic, but you can really piss people off, I've seen it today."

Ji Feng, however, did not take this as a skill, in fact, if Wu Zhengxiang had not been so overbearing, he would not even have done this kind of verbal argument with him.

But since Wu Zhengxiang was so overbearing, then he naturally wouldn't back down, and with the grudge between them, there was no need for so much hypocritical pretence.

However, when he thought about it carefully Ji Feng shook his head a bit, he really didn't know if he had a clash in his life with the Wu family, first he had clashed with Wu Zhiyong Wu Zhihe, two of the third generation of the Wu family before, several major figures of the third generation of the Wu family had almost all crossed paths with him, and then he had a head-on clash with the second generation of the Wu family.

First it was Wu Zhengxin and now it's Wu Zhengxiang

Just thinking about it Ji Feng couldn't help but shake his head, if he ever got into conflict with Wu Zhengmin again, then almost the entire Wu family would have had a head-on conflict with him!

"Alright, brother Hongwei, let's stop here." Ji Feng said, "You must be going to Jiangzhou too, so let's meet in Jiangzhou."

"Let's go together, there's no need to be in such a hurry." He Hongwei suggested.

Ji Feng shook his head and said, "I have some other things to do."

He Hongwei didn't pursue what the matter was, he just nodded and said, "Alright then, let's meet up in Jiangzhou!"

Ji Feng said goodbye to He Hongwei and was ready to take Bai Zhu and take a taxi away, when He Hongwei saw this he asked, "Where are you going, let me arrange for someone to take you back first."

Ji Feng looked at He Hongwei's guards who had already brought the car over, he was just about to speak, but his eyes suddenly flickered, and then he frowned, "Hmm?!"

"What's wrong?" He Hongwei asked.

Ji Feng frowned, his gaze fixed on a sedan, and asked, "Brother Hongwei, can you see the person in the car clearly?"

He Hongwei immediately followed Ji Feng's gaze and saw that at the entrance of another alleyway, a sedan slowly started up and drove towards this side.

He could only see from the side front that the driver was a young man. He couldn't help but ask: "What's wrong with the person in the car, do you know him?"

Ji Feng didn't say anything, he just stared at the car.

Seeing him like this, He Hongwei immediately became somewhat curious and stared at the sedan as well, but he didn't have Ji Feng's eyesight and couldn't see anything other than the license plate of the sedan and the driver.

However, Ji Feng was staring intently at the sedan, with a thoughtful look in his eyes.

"Ji Feng, who is in that car?" Seeing this, He Hongwei couldn't help but ask.

"Maybe it's my eyes." Ji Feng said, but his gaze was still fixed on the sedan.

He Hongwei was even more surprised, Ji Feng's words were obviously tongue-in-cheek, if it was really his eyes that were blurry, why was he still staring at the car all the time?

But since Ji Feng was not willing to say, He Hongwei did not ask any more questions. He wanted to let Ji Feng and Bai Zhu get into the car and arrange for a guard to take them back, but instead he saw the car drive straight over, and when it was almost in front of them, it slowed down and drove past them at an extremely slow speed.

He waited until the car was far away before Ji Feng withdrew his gaze, but his furrowed brows were not stretched.

"Brother Hongwei, you've recently gone to Germany, right?" Ji Feng suddenly asked.

"Yes."

He Hongwei nodded and said, "I've only been back for a few days, what's wrong?"

Ji Feng immediately asked, "Then you don't know too much about some of the recent situation in Yanjing?"

He Hongwei said, "I haven't been in Germany for very long, so if it's something important, I might still know something about it."

Ji Feng then smiled and nodded, saying, "Then we can find some time some day and have a good exchange. All right, let's just say goodbye here."

He Hongwei said, "I'll have someone send you guys off."

Ji Feng, however, waved his hand and laughed, "It's alright, the people of the dynasty are holding their breath for your life now, so I won't follow and add to the mess, I'll just take a taxi myself."

He Hongwei persuaded twice more, but Ji Feng insisted on taking a taxi to go, so He Hongwei could only give up, but he waited for Ji Feng to get into a taxi before he also got in and left.

"Bai Zhu, did you get a clear look just now?" As soon as he got into the taxi, Ji Feng's brow furrowed once again as he pondered for a while and suddenly asked.

"Saw it clearly."

Bai Zhu nodded and said, "The one sitting in the car is"

"Go back and talk."

Bai Zhu was interrupted by Ji Feng before she could finish her words, she nodded knowingly and didn't say anything.

Ji Feng, however, leaned back against the backrest and fell into deep thought.

How could he be here?

Moreover, just now, as the car had been slowing down when it passed in front of him, Ji Feng could be sure that the person in the car had also seen him...

Campus Master Chapter 2533

When Ji Feng and Bai Zhu returned home, his father, Ji Zhenhua, was still busy with work and had not returned, and only his mother was home alone.

According to his mother, Xiao Sumei, except for meals and sleep, which are Ji Zhenhua's own time, at all other times Ji Zhenhua's mind is filled with work.

There was no choice, the country was too big and there was too much going on.

Even though Ji Zhenhua has not yet moved up to the next level, everyone knows that a trend has actually formed within the party and that Ji Zhenhua's momentum has been established, only that it still needs time to be tested.

The actual fact is that this is no longer the main consideration of Ji Zhenhua, the country and work, is what he considers the most, to say completely indifferent to fame and fortune this may be a little false, but to Ji Zhenhua this point, his mind is certainly not ordinary people can understand and imagine.

Xiao Sumei was very happy to see her son back, and pulled him to talk endlessly.

After a while, Xiao Sumei seemed to remember something, but had the feeling of wanting to say something, and seemed to be a bit hesitant.

Seeing this, Ji Feng could not help but ask: "Mom, do you have something to do?"

Xiao Su Mei said, "There's nothing wrong either."

Ji Feng then smiled, "Mom, I'm not a child anymore, you can't hide this from me, just say what's going on, while I'm still in Yanjing, I'll help you solve the matter first before I leave."

For his mother, Ji Feng really knew her too well, mother and son had been living together for more than ten years, how could he not know what kind of personality his mother had?

Since his mother was a bit hesitant now, it meant that what she was going to say was probably some kind of difficulty, so Ji Feng made up his mind to help his mother solve the problem first, because he guessed that she had not encountered some kind of trouble that was not easy to solve.

Hearing her son say this, Xiao Su Mei then said, "It's like this, yesterday I received a phone call from your second uncle"

When she said this, she paused and first looked at her son's expression, because she knew very well how disgusted Ji Feng was with those people and things in the Xiao family estate, in fact not only Ji Feng, but even she herself was equally so.

However, after noticing that Ji Feng's face looked as normal and there was nothing different, Xiao Su Mei then continued, "Your second uncle said that your grandmother's health has been a bit bad recently, so mum is planning to go back in the next two days."

"Oh!"

Ji Feng didn't have much of a reaction after hearing this, but just nodded and said, "Okay. When you have made the arrangements, I will accompany you back together."

Xiao Su Mei's heart was immediately happy when she heard that, "Really?!"

"Of course I won't lie to you!"

Ji Feng laughed: "However, I have to tell you well in advance, I will only go to second uncle's house, I won't go back to the Xiao family estate, moreover, I don't have time for this one or two days, can I go back in a few days?"

Xiao Su Mei nodded happily and said, "Yes, yes! Anyway, it's not urgent for a day or two, besides, your grandparents are also living with your second uncle, this time mum is also going directly to your second uncle's house, not going back to the Xiao Family Village son, you can accompany mum back together, mum doesn't know how happy she is!"

Seeing his mother's happy look, Ji Feng couldn't help but feel more or less guilty in his heart, because the last time he went back to Mang Shi County, when he arrived at Xiao Jia Zhuang, Ji Feng always had a kind of anger and resentment in his heart, after all, those encounters he suffered as a child, so he really couldn't raise half a liking for the place Xiao Jia Zhuang.

Not to mention that once he arrived at the Xiao Family Village, every blade of grass and tree there seemed to be a constant reminder of how he had been bullied and insulted back then.

It was for this reason that Ji Feng had always acted indifferently there, which was not a deliberate act on his part, but a true reflection of his heart.

The fact is that the way he acted at that time was a bit difficult for his mother, after all, she also had parents, blood is thicker than water, she could not just ignore them as if they were not there.

“Mom, I actually figured it out after I came back from Mang Shi County last time.” Ji Feng sat beside his mother and smiled, “Back then, Grandpa was in the way, so he kicked us out, but Grandma’s heart was good, and Second Uncle, who was also an honest man, treated us well at first.”

Xiao Su Mei nodded and said, “Yes, your grandfather was a good man. I don’t want to talk about him. However, your grandmother is very caring for mum, and your second uncle as well. In fact, ah, your other uncles and aunts are not so desperate, they just have some snobbery, and that is also because they are afraid of being poor all these years”

“Mom! That’s a bit bullying of you!” Not waiting for Xiao Su Mei to finish, Ji Feng couldn’t help but laugh, “Even if I am your son again, you can’t coax me like this, ah, yes, the conditions of the second uncle’s family were bad at that time, but what about the first uncle? There’s also little aunt”

“You child!”

Xiao Su Mei was torn apart by Ji Feng’s words, and immediately glared at him in anger.

Ji Feng laughed, “Mom! Actually, how can I say this, I mean, these few years have passed, I’m actually not angry in my heart anymore, and when I think carefully about the beginning, it’s not really that incomprehensible.”

Xiao Su Mei then said, “I’m glad that you can think like this, Xiao Feng, one can’t always hold on to hatred and never forget it. If you don’t like it, just be less frequent in the future, but we’re all family after all, right?”

Ji Feng nodded and said, “That’s right, mum, you’re right, I’ve written it all down.”

“It’s not enough to just write it down, you have to learn to understand.” Xiao Su Mei said, “Little Feng, in the future, whether you get along with your own family or with outsiders, don’t hold too much grudges, you have to be grateful, understand?”

“Okay! I’ll learn to understand!” Ji Feng smiled and nodded, and with another heated smile, said, “Mom, I find that your theory level is much higher now, ah, you should go become a professor to be the most suitable”

“Brat, just know poor mouth!”

Xiao Su Mei scolded with a smile.

Despite knowing that the supervisor of the Jiangzhou logistics transfer station had been murdered and had things to do at hand, Ji Feng did not rush back, but waited with Bai Zhu until he accompanied his mother to dinner in the evening, and waited for his father, Ji Zhenhua, to return, and the father and son had another long chat before he left.

Ji Feng went to find his younger uncle Ji Zhenping first, he had some things to ask Ji Zhenping for advice.

“Brat, still not resting at this late hour, what’s the matter?” Ji Zhenping asked, saying that, he brought Ji Feng to the study and gestured for him to sit down.

“Little Uncle, I have something I want to ask you.” Ji Feng sat down on the single sofa.

“Oh?”

Ji Zhenping was a little surprised, he casually picked up a cigarette from the table, lit one for himself and handed it to Ji Feng, “You came over so late just to ask something? Tell me, what kind of things do you want to ask about?”

Ji Feng likewise lit a cigarette and said, “I had dinner with He Hongwei today, and he said something to me that I felt had some truth to it, so I wanted to talk to you about it.”

He quickly recounted all those words that He Hongwei had said, although they were not the original words, the meaning was not out of place.

Ji Zhenping listened quietly and waited until Ji Feng had finished before he said, “Actually, we have also noticed this situation you mentioned, and there has been such an analysis from above for a long time, believing that the king is likely to be in Yanjing, as the dynasty’s forces first appeared in Yanjing.”

When Ji Feng heard this, he was a little surprised, and was busy asking, “You guys also speculate this way? Did you find anything then?”

Ji Zhenping shook his head and said, “There is not much to be gained. The military and intelligence departments, including the police, have also mapped Yanjing, but the harvest is not great, but some small fish and shrimps have been caught.”

Ji Feng smiled and was more or less disappointed.

“The king is very cunning, according to the intelligence from many aspects, this person should be the top person in charge of the dynasty in China, since the dynasty dares to put him in charge of such a large area, it means that this person’s identity should be extremely hidden and hard to find out.”

Ji Zhenping said, “This situation you provided is also important, the He family’s kid this is a clue, we can check it out.”

Ji Feng nodded, the identity of the king was indeed very difficult to find out, not only because this person ran a huge force in China, but also, the king was a top expert!

It was difficult for ordinary people to catch the king even if they found his trail, and it was naturally even more difficult to find out his identity.

“Even if it’s difficult, we still have to investigate!”

Ji Zhenping said in a deep voice, “The dynasty has now become one of the major threats to our country, if we let it go on like this, it will definitely become a major problem in the heart in the future, there are even some faint hints of something like this now, so we must fight it before it’s too late!”

The emergence of the laser gun has attracted the attention and vigilance of the entire top echelons of the Chinese military, with the laser gun, there might be other high-tech weapons, China itself is not a small distance behind people in terms of technology, if the dynasty develops more high-tech weapons, then China will be completely caught in a passive position!

Ji Feng nodded slowly and suddenly said, "By the way, Little Uncle, just when I came out from dinner with He Hongwei, I unexpectedly met two people."

"Who?" Ji Zhenping asked, "Which two?"

"One was Wu Zhengxiang." Ji Feng said, "I even had a little conflict with him, but it passed quickly."

He smiled and told them about the previous collision with Wu Zhengxiang.

Ji Zhenping hummed, "This Wu family's second son, is that all he's got? The way I see it, the old man of the Wu family's prestige is almost lost to the three brothers!"

Ji Feng did not comment on this, but only said, "But apart from Wu Zhengxiang, I also met a person whose appearance I find strange! Well how can I put it, it's just a very strange feeling anyway."

Ji Zhenping looked at Ji Feng and asked, "Who is it?"

Campus Master Chapter 2534

"Wang Wengao!"

"Who!?"

Ji Zhenping asked, surprised at the words, "Wang Wengao?"

Ji Feng nodded his head and said, "Mm. It's Wang Wengao. Although he was sitting in the car and through the dark tinted windows, I could see clearly that the person in the car was Wang Wengao without a doubt!"

At that time, Ji Feng had already seen Wang Wengao when he saw the car, although he had only met Wang Wengao once, and not for a long time, but Ji Feng's appearance of Wang Wengao would not be forgotten.

"Wang Wengao"

Ji Zhenping couldn't help but frown slightly and said, "What's he doing there?"

Ji Feng shook his head and said, "I don't know. I just saw him in the car inadvertently, but looking at the scene he should have gotten into the car after coming out of that hutong, so he should have gone to that hutong as well."

"Did he say anything?" Ji Zhenping asked.

"No. He didn't even get out of the car."

Ji Feng shook his head and said, "But I feel like he should have seen me because the car slowed down a lot when it passed in front of us, and I could see Wang Wengao looking my way."

Ji Zhenping immediately asked, "Then apart from that, did he make any other moves?"

Ji Feng thought back carefully for a moment and shook his head, "No."

"Well."

Ji Zhenping nodded and said, "I know, I'll send someone to check that alleyway later to see what's inside. However, you should also pay some attention in general, beware of safety."

Ji Feng immediately understood the subtext of his little uncle's words and couldn't help but ask, "Little uncle, do you suspect that Wang Wengao is following me?"

"Not really."

Ji Zhenping shook his head and said, "If Wang Wengao wanted to follow you, I'm afraid he wouldn't be stupid enough to do it himself and deliberately pass in front of you. As you said just now, he should have come out of that alleyway, so I reckon he must have gone on some errand."

Noticing that Little Uncle didn't seem to be paying too much attention to Wang Wengao, Ji Feng couldn't help but say, "Little Uncle, I always felt that Wang Wengao was a bit strange, whether it was the time he appeared there or the way he looked, I always had a strange feeling that I couldn't tell."

Wang Wengao appeared at the mouth of the hutong at that time, although Ji Feng could not say exactly where strange, but his heart was vaguely always a kind of not quite right feeling.

"Can it not be weird?!"

Ji Zhenping shook his head and smiled, saying, "You had beaten his son more than once, hit his wife hard, and even ended up sending his wife to a special prison, so how could he treat you like a normal person? I'm afraid you've got a self-importance in your own heart first when you're facing him."

Ji Feng frowned slightly, was that so?

He suddenly asked, "Little Uncle, after Qiao Rong was sent to the special prison, how did Wang Wengao behave?"

This so-called special prison was actually a prison that belonged to the joint jurisdiction of the military and the local authorities, and it held some more sensitive prisoners or some more difficult criminals.

Qiao Rong had a very close relationship with the dynasty, especially with the king, and seemed to have some kind of private connection, and even she herself had received a certain degree of reformation, so it was naturally impossible for the military to keep her in an ordinary prison.

However, Ji Feng was aware that after several interrogations of Qiao Rong, the military did not have very satisfactory results, and it seemed that Qiao Rong did not know much.

Ji Feng was instead more concerned about Wang Wengao's situation.

"What else could he have shown?"

Ji Zhenping said, "After Qiao Rong was arrested, the Qiao family was scattered, originally there was still an empty shelf, but now even this empty shelf no longer exists, of course Wang Wengao can only run around and ask for connections everywhere to try to rescue Qiao Rong."

Ji Feng immediately asked, "And then what?"

Ji Zhenping shook his head and smiled, saying, "Of course nothing can come of it! Not to mention Qiao Rong's sensitive identity, even if Qiao Rong was just an ordinary criminal, it was not something that Wang Wengao could rescue. To say the least, this is also Qiao Rong and the Qiao family's own doing."

Ji Feng was stunned: "What does that mean?"

"Isn't that clear, Wang Wengao is a member of the Qiao family, and who doesn't know what kind of status the entire Yanjing family has?"

Ji Zhenping smiled and said, "The Qiao family is a bunch of vapid people, how many of them can look up to Wang Wengao? If Wang Wengao's son, Qiao Gakai, hadn't been more protective of his old man, I'm afraid Wang Wengao's position in the Qiao family would have been worse than that of a janitor. Think about it, even the Qiao family's own people look down on Wang Wengao, how many outsiders can look up to him?"

Ji Feng nodded, he agreed with his little uncle's statement, even his own people looked down on him, outsiders naturally didn't have to say much.

"So what, Wang Wengao doesn't have many friends apart from some colleagues in his work unit, and they are all of comparable status to him, he has almost no friends in the officialdom."

Ji Zhenping said, "Not to mention that the Qiao family is in trouble, those who usually have dealings with the Qiao family are now afraid to avoid them, who will still have dealings with them? Wang Wengao has been running around, but has had little success. I don't know if it's because he was discouraged by the fact that he ran into walls everywhere that he quit his job after Qiao Rong was imprisoned."

Ji Feng immediately asked, "What about now? What is Wang Wengao doing now?"

Ji Zhenping shook his head and said, "Now I wouldn't know, I'm still busy with things in the army, where would I have the time and energy to take care of him!"

"Then"

Ji Feng hesitantly said, "Little Uncle, in Qiao Rong's case, does it mean that Wang Wengao is not half involved?"

"What involvement can he have!" Ji Zhenping shook his head and said, "His position in the Qiao family is just like that, and from what people say, the couple is not getting along, that's why Wang Wengao often goes abroad on business trips.

"That's not easy to say." Ji Feng said, "Maybe all these appearances are deliberately made by Wang Wengao and Qiao Rong to cover their ears and confuse outsiders? In that case, Wang Wengao would be a fish out of water!"

"There is no such possibility!"

Ji Zhenping shook his head and said, "After the incident with Qiao Rong, the military conducted a very careful investigation into Wang Wengao.

"This Wang Wengao is that clean?!"

Ji Feng listened and could not help but reveal a thoughtful expression, "Little Uncle, don't you find it strange? I've met Wang Wengao, this person is very elegant and counted as a talent, can he be in the Qiao family, and he's not holding back at all?"

He had had a face-to-face with Wang Wengao and had had a conversation.

Ji Feng found that Wang Wengao, as a person, was indeed very refined and poised, at least on the surface. Especially when one reaches middle age, the manners of a mature man, as well as Wang Wengao's personal charm are extremely dazzling, even if the two sides are on different sides, Ji Feng has to admit that if one is simply speaking on a personal basis, Wang Wengao is definitely a young woman killer!

But how could such a person willingly join the Qiao family and live a stifling life for so many years?

Ji Zhenping laughed: "You're being too subjective, aren't you? You feel bad about Qiao Rong and that's why you think Wang Wengao has lost out, but how do you know that Wang Wengao also feels bad about Qiao Rong when he looks at her? Besides, only he knows whether he is holding back or not. Maybe there are real feelings between him and Qiao Rong, so he doesn't care about anything else, that could make sense."

"Yes, that can make sense." Ji Feng nodded, "But then again, didn't you also say just now that you heard that the couple had some emotional discord isn't that inconsistent?"

"Then what do you mean?" Ji Zhenping asked.

"Anyway, I just think it's strange."

Ji Feng said, "Actually, I've had this doubt since a long time ago, you said Wang Wengao is a talented man, what exactly is he trying to do when he joins the Qiao family?"

The first time I saw him, I thought he was going to be a good person.

Money?

Women?

Power and status?

It seemed that none of these things could be associated with Wang Wengao, which was really strange!

"It is a bit strange." Ji Zhenping nodded, "But ah, Xiao Feng, your thoughts are a bit radical, not everyone likes money, women, power and status, there are always people with different pursuits than others."

Ji Feng thought about it, but it was true.

Not everyone in this world is in pursuit of material enjoyment, he laughed, "If that's the case, then Qiao Rong has really found a perfect husband."

Ji Zhenping shook his head, "Even if that Wang Wengao is a perfect husband, he was still brought down by Qiao Rong. If she knew how to cherish it, how would she have come to this point."

Ji Feng smiled, Qiao Rong was a thin-skinned and ungrateful person by nature, which could be seen from Wang Wengao's position in the Qiao family. If Qiao Rong really defended Wang Wengao that much, why would even some of the juniors in the Qiao family dare to cross their noses at Wang Wengao?

I really don't know how honorable Qiao Rong's face can be if Wang Wengao has no status like that!

Through the introduction of the younger uncle, Ji Feng was more or less relieved, it seemed that Wang Wengao really didn't have any suspicions, but I don't know what was going on, but that strange feeling in Ji Feng's heart still lingered, but he couldn't say anything specific about it.

It was late at night, so Ji Feng didn't bother his younger uncle any more, he just proposed to take a plane to Jiangzhou, because Bai Zhu was carrying weapons on his body, he would definitely not be able to pass the security check by doing a civil airliner, so he hoped he could take a military plane there.

Ji Zhenping checked and said, "It just so happens that there is a flight early tomorrow morning, so you can take this one."

Ji Feng nodded and didn't have to be polite to Ji Zhenping, then he got up and left.

Campus Master Chapter 2535

Early the next morning, Ji Feng and Bai Zhu boarded a military plane bound for the Jiangzhou Military Region.

Ji Feng sat in his seat with his eyes closed, his mother's nagging seemed to be floating in his ears, and he could not help but reveal a smile at the corner of his mouth.

But soon, the smile at the corner of Ji Feng's mouth disappeared because he thought again of his chat with his younger uncle Ji Zhenping last night. Even after midnight time, something was still vaguely wrong in his heart, he couldn't say exactly, but it just didn't feel right, and he didn't know why!

Ji Feng was not a character who liked to give up easily, and he was well aware that his keen intuition was actually accurate most of the time.

So Ji Feng pondered again, he sorted out his enmity with Qiao Rong and the conflict with the Qiao family from beginning to end, hoping that he could find an answer to his doubts.

But after thinking about it for half a day, Ji Feng could not figure out only one thing.

"How can a perfect man like Wang Wengao be so miserable in the Qiao family?" Ji Feng was puzzled, he had come into positive contact with Wang Wengao, this person was naturally not intellectually or verbally challenged, and was even more organized than himself when communicating with people.

This kind of person, when socialising with people, would make people feel good about themselves, so how could they think so lowly of him?

And why is that?

Ji Feng opened his eyes slightly and moved his body, he felt as if he had walked into a dead end because he couldn't think of a reason.

But now, since he had nothing to do, Ji Feng intended to study it. He wanted to communicate with Bai Zhu, but since there were other soldiers on the plane, he didn't say anything and just thought about it quietly in his mind.

After Ji Feng thought about it, he planned to change his mind.

"If, say, one were Wang Wengao, what would one do?" Ji Feng asked himself in his mind as he decided to put himself in Wang Wengao's shoes and think about it.

But as a result, he found that if he were Wang Wengao, he certainly wouldn't have lived such a stifling life.

If it was true that he and Qiao Rong had been so deeply attached to each other before that they couldn't be separated, and could even care less about joining the Qiao family, then of course it would be understandable.

But everyone in the Qiao family looked down on him, so why didn't he use some method to prove himself?

Moreover, it seemed that later on, there were problems with his relationship with Qiao Rong, so what was the point of him continuing to stay in the Qiao family?

"In the end, is this Wang Wengao too indifferent to fame and fortune and doesn't care about what others think of him or his reputation, or does he have some other purpose behind being so stoic?" Ji Feng secretly pondered, and in the end he realized that if it were him, he would definitely not be so indifferent.

Perhaps, this was the gap between himself and Wang Wengao?

Ji Feng felt that if Wang Wengao was really so light-hearted, then he was really a man worthy of admiration, but not many people could achieve this.

"Right!"

Suddenly, Ji Feng remembered something, he snapped open his eyes and frowned: "The alleyway where Wang Wengao appeared, could it be the place where Wu Zhengxiang appeared?!"

He sat up straight all of a sudden, a net heavy look flashed in his eyes, this guess, it's not impossible!

It was really because the appearance of Wu Zhengxiang and Wang Wengao was too much of a coincidence, and the two left almost around the same time, and both left from the same direction, could it be that there was really some connection between these two people?

Ji Feng unconsciously rubbed his chin, but his brain was spinning rapidly.

The two of them have a very deep relationship with themselves, of which the Qiao family has collapsed, the Wu family has also suffered considerable losses because of themselves, and now Wu Zhengxin is still being held in the detention center, and Wu Zhiyong is eager to put himself to death immediately.

If this is the case could it be that Wang Wengao and Wu Zhengxiang have come together or that Wang Wengao has joined forces with the Wu family?

But as soon as this thought flashed in his mind, Ji Feng immediately dismissed it.

Wang Wengao had lost the shelter of the Qiao family and had offended the Ji family, so now he could only be considered a dog in distress. Even if the Ji family would not put him in their eyes, he would still look like a disaster to outsiders.

The fact that Wang Wengao might have defected to the Wu family is quite possible, but I'm afraid that even Wang Wengao himself doesn't believe that he has joined forces with the Wu family, right?

The first thing you need to do is to be careful, because you don't know anything about Wang Wengao's character, his methods or his abilities.

The first thing you need to do is to be careful.

The plane landed in the military airport of Jiangzhou military district, and Ji Feng didn't even need to run much further, he got off the plane and met Xiang Yongzhan who came to greet him.

However, Xiang Yongzhan's face was not too good, and after receiving Ji Feng, he did not have time to exchange pleasantries before saying, "Older brother, have you heard? People were hit and killed!"

Ji Feng nodded and said, "I heard about it from He Hongwei."

Xiang Yongzhan sank his face and said in a low voice, "There are no traces of the truck's brakes at the scene, it's obviously a deliberate murder, this is someone trying to silence him!"

Ji Feng asked, "Can you be sure that the special effects current flowed out of that supervisor's hands?"

Xiang Yongzhan nodded and said in a cold voice: "It has been investigated, accidents often happen at the transfer station, either today the medicine is wet with water, or tomorrow the medicine is spilled while loading, anyway, problems occur every few days, but all these problems are suppressed by that supervisor"

Ji Feng smiled and immediately frowned, asking, "What about the station manager of the transfer station, what does he do for food?"

Xiang Yongzhan said, "This you will have to ask He Hongwei, the station chief is his man, I just have people at the transit station under control now, there is still a lot of review work yet to be done."

Ji Feng couldn't help but be stunned at his words, "You've got everyone at the transit station under control? Including the people from the Tengfei Group?"

"Right."

Xiang Yongzhan said, "Before the matter of the outflow of goods is investigated clearly, everyone is a suspect, including that dead supervisor, this matter will definitely not work unless it is investigated clearly!"

This is the special effects current, if the Tengfei Group develops other better drugs in the future, then what secrecy will there be then?

Leakage of secrets, this is a very serious matter in itself, Xiang Yongzhan must find out clearly.

Ji Feng thought for a moment before saying: "Old Xiang, this matter is investigated, but don't make people panic. Isn't it a bit of a big deal to do like you did?"

"Hmph."

Xiang Yongzhan shook his head and said, "I don't dare to be careless anymore, you know how cunning Dynasty's people are, I even suspect that this time, that supervisor was suddenly hit by a car and killed, could it be that Dynasty deliberately played such a trick to divert our attention, but in fact is secretly making some kind of name."

Ji Feng shook his head and laughed: "What kind of name could they be up to? Can they still loot the transit station? Don't forget, there are soldiers stationed there!"

Xiang Yongzhan said, "I'm just using an analogy. If it turns out that one of the employees of the Tengfei Group is involved, I will definitely inform you in advance, but the person cannot be spared."

"You've said that, what else can I say?" Ji Feng shook his head and smiled, saying, "Then take your time to investigate, I need to go back to the Tengfei Group first, there are some situations I don't understand yet."

"No problem, I have information about this car accident here, I'll have someone send a copy to you later." Xiang Yongzhan said, "Also when you get to Tengfei Group, also convey my meaning, if it's a general matter forget it, but this matter"

Ji Feng waved his hand with a smile and said, "All right, no need to explain."

Afterwards, Xiang Yongzhan then had someone send Ji Feng a copy of the information about the car accident, Ji Feng closed it after a few pages of cursory flipping, and asked, "By the way, what was the last thing that was being handled over in the southwest?"

When they were in the southwest, they just took care of the main work, but the sweeping up afterwards was not involved.

Xiang Yongzhan said, "Basically it's all pretty much carried out, the dynasty's people have little room to bounce around, only that Golden and Silver Snake mercenary group was not taken out, they withdrew to the territory of Vietnam, and the border guards are not good at doing anything."

Ji Feng nodded his head, pondering.

The two leaders of the Golden and Silver Snake Mercenaries were caught in this battle, and one of them explained that two months ago, they had infiltrated into China to take on a senior executive of the Tengfei Group, but they never returned afterwards... .."

Ji Feng knew what Xiang Yongzhan was talking about as soon as he heard it, he nodded and said, "It's already been taken care of."

He roughly told the matter once.

When Xiang Yongzhan smiled, he looked a bit grave and said in a deep voice, "Older brother, it seems that Dynasty might have set its eyes on you and the Tengfei Group, so I think you'd better be careful."

Ji Feng faintly nodded his head.

After reminding Ji Feng, Xiang Yongzhan added, "Another thing, can those few policemen be released? The Qihe City side has urged them many times in a row."

Ji Feng knew he was talking about the policemen from Jibei Province, who had been detained by him and Li Ruonan and had been held in the military camp.

"Let it go." Ji Feng nodded and said, "I have too many things on my hands right now, and I don't have time to pay attention to them."

"Then I'll let them go!" Xiang Yongzhan laughed, "You kid are really, why do you have to make things so difficult for people?"

"You shouldn't underestimate them!"

Ji Feng hummed and said, "That magistrate in Jibei Province is very powerful, and also I have to wait and see if I can keep the person he is going after in the end"

Xiang Yongzhan was instantly amused: "Mouthing off, what bullshit!"

Campus Master Chapter 2536

For that Yang Feng from Jibei Province, Xiang Yongzhan had also known about him.

Although this person does have some background and is considered to be a top government official in Jibei Province, but to say that Yang Feng actually wants to compete with Ji Feng, and even wants to play the donkey to see what happens, Xiang Yongzhan still can't help but have a tan.

This is a bit comical!

It's not that the strength of the two sides is comparable, Ji Feng will definitely be able to win Yang Feng, after all, there are not no examples of the weak winning over the strong, two years ago, a certain son of Yanjing in a western province, was played by a few local government officials to find the north, finally ashamed back to the capital, not to mention, even almost involved in the family elders.

At that time, a big brother from the family's faction was so angry that he openly rebuked the son, which caused quite a stir in Yanjing.

So it's not that there aren't capable people down here, there are also capable and smart young men.

However, to say that Yang Feng wanted to compete with Ji Feng, Xiang Yongzhan still felt that it was a bit unreliable, he felt that Yang Feng was too wild.

He felt that Yang Feng was a bit too crazy. Is Ji Feng the kind of boy who has his nose in the air and no one in the sky but has a vain appearance?

It was a bit difficult to win against Ji Feng with weakness.

And it wasn't even difficult in general!

Xiang Yongzhan shook his head and laughed, just treating what Ji Feng said as a joke, and after laughing it off, he said, "Ji Feng, then I can let people go."

Ji Feng nodded and said, "The people should be released. However, these people have been living here for nothing for so long, isn't it a bit too cheap for them to just pat themselves on the back and leave?"

Xiang Yongzhan gave a hearty laugh, "You are right, our military expenses are all limited too, besides, these are also taxes paid by the common people, why should we give some scum free food and shelter?"

"Isn't it still simple?!"

Ji Feng had a bad smile on his face, "Turn around and have someone make a list out and send it to the Qihe City Bureau of Jibei Province to see how they should handle this matter."

The first thing you need to do is to get a good idea of what you're doing, and you can't help but shake your head and laugh: "I really didn't expect you to be bad, you're actually wilting and wilting."

"Got!"

Ji Feng raised his hand and interrupted Xiang Yongzhan's words, humming: "Since you are so reluctant, then forget it, just pretend that I did not say this matter."

Xiang Yongzhan shook his head and said, "That won't do. You let a few people stay with me for such a long time with one word, so of course I have to get some compensation!"

Both of them were instantly happy.

"By the way"

Ji Feng suddenly remembered something and said, "Old Xiang, there is another thing that I need to trouble you with."

Xiang Yongzhan asked, "What is it?"

Ji Feng said deliberately, "It's like this, I'm somewhat interested in this person Wang Wengao, if it's convenient for you, you might as well find out about this person for me!"

"Wang Wengao?"

Xiang Yongzhan was stunned, for a moment he didn't even remember who Wang Wengao was: "Who is it?"

Ji Feng said, "It's someone from the Qiao family, Qiao Rong's husband."

"So it's him!"

Xiang Yongzhan was suddenly enlightened and tapped his head, finally remembering. He was always in the army and didn't care too much about local affairs, and the Qiao family itself didn't catch Xiang Yongzhan's eye. If it wasn't for Qiao Rong's connection with the dynasty, Xiang Yongzhan wouldn't have the slightest interest in her, let alone her husband, Wang Wengao.

The Xiang family had no grudges against the Qiao family, and even less with Wang Wengao, so when Ji Feng mentioned it at first, Xiang Yongzhan didn't even react for a moment.

"It's this person." Ji Feng said, "Find out about him for me, I'm very interested."

Because when he was in Yanjing, Ji Feng felt that his younger uncle didn't seem to pay too much attention to this, he was a little uneasy because the vague feeling of wrongness in his heart hadn't completely disappeared, so he simply asked Xiang Yongzhan to help him look into it.

"When it comes to the words of this person Wang Wengao, his situation has already been checked."

Xiang Yongzhan said, "I remember that it was last year or the year before last that the top had already started an investigation into Wang Wengao, and at that time Qiao Rong had just shown the first signs of having ties to the dynasty. ..."

Speaking here, Xiang Yongzhan immediately said, "Wait a minute, I'll go check the information, I seem to remember that there was an investigation result on Wang Wengao."

Ji Feng was surprised and asked, "You actually remember such an important situation so vaguely?"

The Red Arrow Brigade handled this matter, okay? Do you think I need to be that concerned? As long as I get the briefing, that's all that matters!"

The fact that the Red Arrow Brigade and the Special Warfare Brigade belonged to the same military special forces, but there was still a difference between the two, since this was handled by the Red Arrow Brigade, it was reasonable for Xiang Yongzhan not to ask more questions, but of course there would be a briefing sent to him in the end.

The company's main business is to provide a wide range of products and services to the market.

Soon, Xiang Yongzhan personally took a copy of the information and handed it to Ji Feng, along with a flash drive: "All the information about Wang Wengao is here, the flash drive contains electronic information, but I don't think it means much for you to take this."

Ji Feng was stunned: "Why?"

Xiang Yongzhan said, "I thought back, this person Wang Wengao is quite clean, he doesn't know anything about what Qiao Rong has done, let alone the dynasty."

Ji Feng shook his head and said, "There's such a close relationship between Qiao Rong and the dynasty, especially since it's related to the king, I just don't believe Wang Wengao didn't know anything at all, it's a bit unreasonable."

"That's because you don't know that the relationship between Wang Wengao and Qiao Rong has been fractured, they are two separate individuals, Qiao Rong committed a crime, although Wang Wengao is suspected, but it doesn't mean that he is necessarily in trouble."

Xiang Yongzhan said, "All right, the information is here, just read it yourself."

Ji Feng took the information and shook it, smiling, "Then that's it for today, you still have things to do, I won't hold you up."

Xiang Yongzhan didn't bother to be polite with him, he just sent someone to drive him and Bai Zhu back.

.....

Ji Feng didn't go home, but went straight to the headquarters of the Tengfei Group. He called Xiao Yuxuan, only to learn that they were all at the company, even Tong Lei, who didn't hold any position in the Tengfei Group, was also there.

When they saw Ji Feng and Bai Zhu return, Xiao Yuxuan and Tong Lei were obviously relieved. Although they had received a call from Ji Feng long ago reporting that they were safe, they had been a little worried in their hearts, after all, what had happened in the southwest could not be hidden from the Tong family, and Tong Lei naturally knew about it.

The two women were very happy to see Ji Feng at this moment. But at the moment, both Han Zhong and Zhao Kai were there, so it was not good to be overly affectionate.

"Ji Feng, you came back at the right time, now the employees of the transfer station are all held by the military" Han Zhong did not finish his words, he heard Ji Feng say, "I know all the things, I came from the military division."

"Then" Han Zhong immediately asked, "What exactly is the situation? I asked the head of the military, they said they were just following orders, but what exactly is going on is not said."

"It's someone who is eating out of the bag!"

Ji Feng said, "Special effect currents were found on the dynasty's transformers."

Han Zhong was immediately taken aback, "Huh?"

Zhao Kai asked, "So, the military suspects that the problem lies in the transit station?"

Ji Feng shook his head and said, "It's not a suspicion, and it's basically certain that the problem lies in the transit station. You guys have received the news, right? One of the supervisors at the transit station had a car accident and was hit by a truck and killed."

"Got the message." Han Zhong nodded and said, "We wanted to send someone to check out the situation, but we found that the place had been taken over by the military and our people couldn't get in."

"The problem is with the supervisor who was run over?" Zhao Kai asked.

"Eight out of ten `nine, I guess."

Ji Feng nodded and told him everything he knew, and instructed, "Right, you guys send someone to inform the families of those detained employees and tell them that the detention is only temporary, that the military won't do anything to them, and that they can come back as long as the matter is investigated clearly."

Han Zhong nodded and said, "I'm on my way."

"Wait."

Xiao Yuxuan, however, suddenly stopped Han Zhong, pondered for a moment and said, "Let me see, the ones who had problems should only be individual employees, but other employees should not be frightened because of this, I think we should give some compensation to those employees, and when we

notify the employees' families, we can explain this, and when the investigation into the matter is over, there will be a certain amount of compensation for them, so that they can rest assured.”

After dealing with the matter of the employees being detained, Ji Feng then intended to find out about the recent situation of the Tengfei Group, especially the development of the new chrome alloy and the promotion of the 3d TV set, Ji Feng attached even more importance to it.

Whether or not the 3d television set can be promoted is an important step in whether or not the Tengfei Group can truly cross over into the international market, while the new chrome alloy is naturally needless to say.

According to Han Zhong's introduction, the promotion of 3d TV sets is currently underway, and the negotiations with the German Westgate Group have already entered a substantive stage, and as long as the distribution of benefits and subsequent cooperation conditions therein are negotiated, it will be possible to officially enter the international market.

“It's the new chrome alloy, on the other hand, that's a bit troublesome.” When mentioning the development of the alloy, Han Zhong could not help but frown a little.

Ji Feng immediately asked, “What's the problem?”

Han Zhong said, “There is no problem in developing it, technically there is Professor Yu and the experts of the group, the technical strength is enough. However, there is some trouble with promotion.”

Ji Feng asked, “What kind of trouble?!”

Campus Master Chapter 2537

Han Zhong said, “It was probably not more than a few days after the press conference for the chrome alloy, and to put it mildly, this was before you left, and the Group's Outreach Department received a notice from the military asking us to stop promoting the new chrome alloy for the time being.”

“The notice was given before I left?” Ji Feng couldn't help but frown and asked, “How come I didn't know?”

“Because at that time, we weren't ready to promote it either, we were just in the middle of further research and planning for the chrome alloy, plus something happened in the Northeast, so we didn't tell you about it.” Han Zhong explained.

At the moment, for the Tengfei Group, the focus was on the 3d TV set and Kang Yuan Slim Powder, especially the 3d TV set, which was definitely the top priority of the Tengfei Group's work at the moment.

According to Han Zhong and Xiao Yuxuan's plan, the 3d TV will become a series, a brand, and even become the main product in the home appliance industry of the Tengfei Group, and also be able to drive other products.

They don't just want to launch a 3d TV set and make a fortune and then forget about it, any leader with vision would not do this kind of one-shot deal.

Xiao Yuxuan is planning to take 3d TV sets as the leading product, and in the future, mainly make 3d TV sets, but the group will also organise the biggest scientific research force to research other home appliances series, and eventually make a leading home appliance company!

At that time, the Tengfei Group will have two pillar industries: pharmaceuticals and home appliances.

In this way, the Group can go from walking on one leg to running on two, which will be of immeasurable significance to the Group's future development.

"You also said before that the promotion and application of the new chrome alloy can be done without any rush first, and that the foundation should be laid firmly first." Xiao Yuxuan said, "So after discussing with General Manager Han, I decided to focus on 3d TV sets and Kang Yuan slimming powder for the time being."

"Well!"

Ji Feng smiled and nodded slightly. Indeed, he had said that.

Now the first product under the Tengfei Group, Kang Yuan Slim Powder, was already in its second generation, and its packaging had taken on a diversified stance, with bottles of liquid, bags of powder granules, large and small packages, everything, which was enough to meet the needs of any kind of customer.

Even, according to what Ji Feng has learned, Xu Yuan even proposed to make Kang Yuan slimming powder as a gift, and this is real without any side effects to the human body, even if you strengthen the exercise, and then with Kang Yuan slimming powder, people's physique will have a considerable improvement.

Not only that, Xu Yuan also encouraged the salesmen of the pharmaceutical plant to try to broaden their sales channels, for example, they could get a certain company to give out Kang Yuan slimming powder as a benefit, and every time there was a new sale of a similar kind, even if it was just a one-off, the salesmen would get a very high commission.

So the entire Xiao Pharmaceutical Factory staff have a high work ethic, Kang Yuan slimming powder also with the good reputation and results built up over the past few years, steadily occupying the top position in the weight loss products market, and is unshakable.

In addition to the fact that nowadays, Kang Yuan slimming powder has already gone to the world, especially in Western countries more obese people, sales are naturally needless to say, a hot.

It can be said that Kang Yuan slimming powder has completely formed a stable product, as well as a stable sales network.

One leg of the Tengfei Group is already firmly in place.

It was for this reason that Ji Feng proposed the strategy of establishing the group's second retreat, which was the 3d television set.

Only the sales of 3d TV sets are equally hot, but after all, not everyone likes them, so the promotion and sales of this product are much slower and harder than Kang Yuan slimming powder, after all, for many people, the novelty of home appliances is not in the first place, the quality is the most important.

Ji Feng then worried that Han Zhong and Xiao Yuxuan would be anxious, so he focused on urging them to be steady and not to rush.

Up to now, the 3d TV set is still being promoted, and it hasn't even gone to the international market yet, that's the difficulty.

"Well, I know all about Kang Yuan Slim Powder and the 3d TV set." Ji Feng nodded and said, "You have done very well on these two products, even somewhat beyond my expectation."

Xiao Yuxuan couldn't help but purse her lips and smile.

Han Zhong, however, laughed: "The main thing is that the products are excellent, otherwise even if we were more capable, the group would not be able to develop so fast."

These two products, the Kang Yuan slimming powder and the 3-D TV set, would make Han Zhong secretly marvel every time he thought about them, and the main reason why the development speed of the Tengfei Group was so fast was actually the superior products.

Just ask, how many companies in this world can launch products that will make people so rushed?

With these two products alone, anyone sitting in his position would be able to achieve what he has today, as long as that person is not a fool.

This is also the reason why Han Zhong always cautioned himself to abstain from pride and complacency, because the light of the products was so dazzling that there was no chance for him to be complacent ah.

Ji Feng didn't care about this, but asked, "Then let's put aside Kang Yuan slimming powder and 3D TV sets now, and talk about the new chrome alloy."

Han Zhong and Xiao Yuxuan both perked up.

Ji Feng asked, "The notice issued by the military is still there, right? Bring it to me and take a look."

Han Zhong immediately said, "The notice is sitting in my office, I'm going to get it"

But before he could finish his sentence he heard Xiao Yuxuan say, "No need, I have it here too."

At this time several people were in Xiao Yuxuan's office, she casually pulled open the drawer, took out a piece of printed paper and handed it to Ji Feng, said, "This is it, take a look."

Ji Feng took the notice, and after just a quick glance, he couldn't help but frown and said in consternation, "The Political Department? How come this notice was issued by the Political Department?"

Only to see that at the bottom of the printed paper, there was a bright red official seal, which belonged to the Political Department of the military.

This immediately made Ji Feng a bit strange, since when could the Political Department also be in charge of the promotion of this new chrome alloy, the Tengfei Group is not a military industry, besides, even if it is the military, usually should not be issued by the Political Department!

Xiao Yuxuan nodded her head: "Yes, I also feel a bit puzzled."

It was normal to say that this notice was given, after all, the performance of the new chrome alloy was really too perverted, there was no reason for the top not to pay attention to it.

But the Political Department is responsible for the political and ideological work of the troops, how come it is still related to chrome alloy?

Ji Feng temporarily suppressed the curiosity in his heart and carefully read the notice, only to see that it was written that in view of the amazing performance of the new chrome alloy developed by the Tengfei Group and its strategic significance, the Tengfei Group was requested to temporarily stop the promotion of the product and wait for a follow-up notice.

“Inexplicable!”

Ji Feng finished reading it and couldn't help but hum, casually throwing that notice onto the table and snorting, “It's simply uninformed!”

Han Zhong asked, “Ji Feng, you've read this notice too, we”

“Who sent this notice?” Ji Feng interrupted him and suddenly asked.

“It was sent by the Political Department of the Jiangzhou Military Division, but it was the Political Department of the Yanjing Military Region that gave the order.” Xiao Yuxuan said.

“From the Jiangzhou Military Sub-district?”

Ji Feng smiled, pondered for a moment, and couldn't help but shake his head and sneer, “Really don't know what's going on!”

Han Zhong hesitantly said, “Ji Feng, then we”

Ji Feng said, “Ignore them, what orders are these! This is a private business practice, it has nothing to do with them, who are they to give us an order?”

Han Zhong busily said, “But the person who sent the notice said that the new chrome alloy belongs to the national strategic materials, so let's not make any rash moves.”

Ji Feng couldn't help but chuckle when he heard that and said, “Then according to what they said, we have worked so hard to develop the new chrome alloy and it has become a strategic material in a flash? Who made the decision? Who was notified? Did we agree?”

Han Zhong was then a little stunned.

Xiao Yuxuan and Tong Lei also couldn't help but glance at each other, both looking at each other somewhat, not expecting Ji Feng's reaction to this notice to be so strong, seemingly not intending to carry out the orders on this notice at all!

“Ji Feng, this isn't very good, is it?” Zhao Kai said, “No matter what, since this is an order issued by the military, it should always be taken seriously”

“There's nothing wrong with it!”

Ji Feng waved his hand and said, "You guys should leave this matter alone, do what you have to do, Lei Zi is already busy in the northeast, I didn't have time to talk to you guys the other day, next you can send someone to contact with the Yao family in the northeast, the Yao family is still quite influential in the industrial field, be prepared to enter the industrial field!"

Han Zhong couldn't help but be refreshed at his words, "The Northeast Yao family?"

Ji Feng nodded and said, "That's right."

Xiao Yuxuan asked, "Which specific aspect of cooperation?"

Ji Feng said, "The specifics have not been discussed yet, just a general intention, you can contact them first."

Xiao Yuxuan then understood, at least cooperation with the Yao family was very possible, she nodded and said, "Then I will arrange it as soon as possible when I turn around."

"Dangling"

Suddenly, the phone on the desk rang, Xiao Yuxuan casually picked up the phone and asked, "What is it?"

"Mr. Xiao, Mr. Luo is here again, yelling that he has to see you."

"He's here again? Tell him I'm not in." Xiao Yuxuan said.

"I've told him so, but he just won't go." The voice on the phone said, looking helpless.

Xiao Yuxuan then couldn't help but frown, and after a pause, he said, "Then tell him to come up and have someone bring him directly to my parlour."

After hanging up the phone, she couldn't help but shake her head lightly, looking a little helpless.

Ji Feng asked, "What's wrong? Who's here?"

Xiao Yuxuan said, "Luo Guangrong, that first-tier agent of Kang Yuan Slim Powder in Black Province."

Ji Feng frowned, he immediately knew who Xiao Yuxuan was talking about, and couldn't help but ask: "The one who, because of that incident in the northeast, didn't settle with us for the payment, didn't want the deposit either, and took down all the Kang Yuan slimming powder within his agency's range as the general agent in Black Province?"

Campus Master Chapter 2538

The company's main agent in Black Province is Luo Guangrong, Tengfei Group's Kang Yuan slimming powder, because he was once a big fat person, but after taking Kang Yuan slimming powder, the effect was immediate, so he suddenly had a lot of confidence, after working hard, became the general agent of Kang Yuan slimming powder in Black Province.

However, when Qiu San, the emperor of Northeast China's Black Province, let the wind out to drive the Tengfei Group out of business, Luo Guangrong responded positively and took the Tengfei Group's

products off the shelves in the shortest possible time, and even had more than 10 million in unsettled payments with the Tengfei Group.

However, after the Chen family collapsed and the matter in the Northeast was completely resolved, the Tengfei Group was planning to pursue Luo Guangrong's responsibility.

To this end, the legal department of the Tengfei Group had even prepared the complaint and finished compiling all the evidence collected, waiting for Xiao Yuxuan to give the order to sue Luo Guangrong.

However, Xiao Yuxuan had to wait for Ji Feng's return, because she was not too sure about the situation in the Northeast and had to ask Ji Feng before she could make a decision.

However, before she had the chance to ask, this Luo Guangrong came again.

And this was, for the fourth time, his visit to the Tengfei Group.

"Let's go over together and take a look."

Hearing that it was Luo Guangrong who had come, Ji Feng stood up, casually grabbed the notice from the military on the table, crumpled it into a ball and threw it into the trash.

Xiao Yuxuan couldn't help but be stunned: "Ji Feng, this"

This is a notice from the military, and Ji Feng just casually threw it away as rubbish, isn't this a bit too much?

Because the world's impression of the military are strict rules, means ruthless, not meticulous to put it bluntly, Han Zhong even if he dares to compete with the police, but also not too willing to confront the military.

But Ji Feng just waved his hand and said, "It's okay. They have no control over us, let them go directly to the Jiangzhou city government if there are any problems. I'll take care of it, you guys can work at ease."

Even with Ji Feng's reassurance, Han Zhong was still a bit uncertain and couldn't help but ask, "Is it really okay?"

Ji Feng said, "It's fine!"

Seeing such a firm answer from Ji Feng, it was only then that Han Zhong put his heart down somewhat.

Originally, he had some dilemma in his heart, the notice issued by the military made him in a dilemma, you say that according to the notice, the Tengfei Group can only develop new chrome alloy, but can not promote the product, is this not just input but not output?

No company can afford to spend money on research and development of new products in order to create more profits!

But if we don't implement this in case the military pursues it, God knows what kind of crime it will be.

The new chrome alloy is a strategic national material!

Now there is Ji Feng to step in, then Han Zhong is a lot more at ease.

However, after walking out of Xiao Yuxuan's office, Zhao Kai was deliberately a few steps behind, walking alongside Ji Feng and asked in a low voice, "Boss, is it really okay?"

Ji Feng then gave him a surprised look.

Zhao Kai pushed his glasses and said, "In a company, it's better to be more formal, whether it's addressing or anything else, follow the formalities!"

Ji Feng laughed, "There is no need to be so polite between us."

Zhao Kai, however, shook his head and said, "I'm not here for fun."

The reason why he came to Tengfei Group was to demonstrate his ability and make some achievements to prove himself, but more importantly, he wanted to assist Ji Feng to make a career, if he was joking around all day, he wouldn't be able to achieve anything big, so he might as well not come.

So after arriving at Tengfei Group, Zhao Kai began to formally enter the state after a period of familiarization, especially in the company, he definitely addressed everyone by their official positions, including Ji Feng and Han Zhong, and naturally to Xiao Yuxuan, not to mention.

Ji Feng also knew Zhao Kai's temper, so he didn't insist any further and just shook his head and smiled.

When he came to the parlour, Luo Guangrong also arrived on his heels.

"Mr. Xiao, Mr. Han!"

As soon as he entered, Luo Guangrong was still standing at the door and already extended his hand to shake hands with Han Zhong, but Han Zhong only smiled and nodded, even if he had greeted him, which made Luo Guangrong a bit embarrassed.

As for Xiao Yuxuan, Luo Guangrong was also too embarrassed to shake hands with her, and could only stand at the door and smile awkwardly.

Ji Feng, however, carefully looked at this Luo Guangrong, he found that this person was not too fat, not very tall, could only be said to be slightly blessed, I think this should be the result of taking Kang Yuan slimming powder.

"Mr. Luo, please have a seat." Xiao Yuxuan didn't give Luo Guangrong much embarrassment, instead, she politely pointed to the sofa.

"Thank you, Mr. Xiao, thank you."

Luo Guangrong nodded practically and thanked him in a panic.

After taking his seat, a receptionist poured Luo Guangrong a glass of water and placed it in front of him, and he also rose slightly in a panic to thank him, looking very restrained.

"Mr. Luo, you are a busy man, so we won't delay you, let's get to the point, you are here for this time," Han Zhong asked with a smile.

"Mr. Han, don't be sarcastic."

Luo Guangrong shook his head with a bitter smile and said, "Mr. Xiao, Mr. Han, I know that I did something wrong last time, I am here today to apologize to you both once again, for the loss I caused to the Tengfei Group, I am willing to do my best to compensate, but that agent's qualification"

The company's main business is to provide a wide range of products and services to the public."

Luo Guangrong's face was embarrassed and he smiled bitterly, "Yes, yes, I know I'm not doing things properly, but I had no choice. How can an honest businessman dare to fight with them?"

Han Zhong shook his head and said, "Mr. Luo, I understand what you said, but I can only say I'm sorry."

"Mr. Han"

Luo Guangrong was somewhat undeterred and couldn't help but say, "I really want to continue working with our group, so I'd like to ask Mr. Han to give it another chance."

Han Zhong didn't say anything, he just looked at Ji Feng.

"General Luo."

Xiao Yuxuan spoke up, "Actually, I understand your feelings, and frankly speaking, before that incident happened, the cooperation between us was still very pleasant."

Luo Guangrong instantly felt hopeful at his words and nodded his head repeatedly, "Yes, yes, what Mr. Xiao said is extremely true."

"But"

Xiao Yuxuan frowned and gently shook her head, saying, "General Luo, in fact, when it comes to that matter, it can also be said that our Tengfei Group dragged you into it, because Han Yang and Qiu San came after us, and we never blamed you in this matter."

Hearing this Luo Guangrong suddenly felt only warmth in his heart, this gorgeous and beautiful General Manager Xiao, not only was she good looking, but she was also really good at looking out for people and didn't have any frame

"But the problem is, Mr. Luo, you have gone too far in some things." Xiao Yuxuan said, "First of all, our two families have signed a formal contract, and are not playing child's play, but you are not even half a greeting, you directly took our products off the shelves, and directly said that you will not cooperate again in the future you are doing too much."

This is where Xiao Yuxuan is most angry, not that Luo Guangrong still has more than ten million in payments for goods before breaking off cooperation, each agent has to pay a deposit, Luo Guangrong was paying twenty-five million, so Xiao Yuxuan is not afraid of loss.

Luo Guangrong was afraid of Qiu San, which was understandable, we were all ordinary people, who dared to fight with a triad boss?

So Xiao Yuxuan doesn't blame Luo Guangrong for taking Kang Yuan slimming powder off the shelves, nor does she blame him for threatening not to cooperate with the Tengfei Group in the future, as people do, to avoid bad luck, this is a common human feeling.

But the problem is, both sides have been working together for such a long time, but Luo Guangrong just took the product off the shelves, without even giving any greetings, and even, when he knew that Qiu San was targeting the Tengfei Group, he did not even give even a word of warning.

This is an extremely bad betrayal!

It could be said that Luo Guangrong had sold out the Tengfei Group through and through!

This was what Xiao Yuxuan could not tolerate, and she was furious.

Xiao Yuxuan's words made Luo Guangrong extremely embarrassed, his face turned red and he didn't know what to say for a while.

However, Luo Guangrong also knew that Xiao Yuxuan actually said this is actually already giving him face, this is also Xiao Yuxuan's connotation is good, otherwise if it were another person, I'm afraid that he would have already said his nose is not a nose, face is not a face.

"Mr. Xiao, this is something" Luo Guangrong was embarrassed, but he wanted to say something but couldn't.

"General Luo, I have said everything that should be said, things can only be like this." Xiao Yuxuan gently shook her head and said, "For the rest of the matter, let's follow the contract."

"Can't Mr. Xiao give me another chance?" Luo Guangrong asked with a bitter smile.

Xiao Yuxuan asked, "But how can I dare to believe that General Luo won't sell out the Tengfei Group once again?"

"This"

Luo Guangrong was speechless, originally he had credibility on Tengfei Group's side, but this credibility was destroyed by himself, so what could he do to make others believe?

Xiao Yuxuan stood up and said, "Mr. Luo, that's it. You settle the money owed for the goods, the deposit will be deducted in part as agreed in the contract, and the rest will all be returned to you."

Luo Guangrong could only nod his head, "General Xiao, thank you."

He knew that Xiao Yuxuan had already done this in a benevolent manner, because according to the contractual agreement, with his actions, these deposits actually did not need to be refunded, and the more than ten million dollars of the payment for goods had to be settled.

But Xiao Yuxuan wanted to return the deposit to him, I think it was because Xiao Yuxuan knew that he was also affected by the Tengfei Group, so this was the compensation for him, right?

Luo Guangrong's heart was incomparably remorseful and he wanted to give himself a slap in the face

Campus Master Chapter 2539

Luo Guangrong walked away.

His face was ashamed, and his heart was full of gratitude.

Xiao Yuxuan's actions were so benevolent that he had nothing to say, and even the whole set of words he had prepared before coming here, he could no longer say even one word!

What's more, according to Xiao Yuxuan's approach, he could get more than ten million yuan of deposit, which the Tengfei Group could reasonably not give him, especially with his approach, it was only natural for the Tengfei Group to pursue his responsibility.

Therefore, Luo Guangrong could only leave with mixed emotions in the end.

Standing in front of the window, Ji Feng watched Luo Guangrong get into a black Mercedes Benz car in the courtyard and leave, he couldn't help but smile slightly and said, "Yuxuan, you're giving away more than ten million with one mouthful!"

Xiao Yuxuan shook her head lightly with a cicada: "Letting the agents pay the deposit is also just a kind of constraint on them, but the group cannot just focus on this money. Besides, in the end this matter is also because the Tengfei Group has dragged him into it, it's not that he can't understand doing that, it's just that he's gone too far."

If Tengfei Group hadn't developed a new chrome alloy, causing Han Yang's greed, Luo Guangrong wouldn't have been pressured by Qiu San, and naturally there wouldn't have been these things later, and they would definitely still be working happily together now.

It's just that after receiving the persecution, Luo Guangrong was going too far and completely sold out the Tengfei Group.

Tengfei Group can understand what Luo Guangrong did and is willing to compensate for the losses he suffered, but it is definitely not willing to work with such an agent who can sell himself out at any time.

"I'm relieved that you can think this way." Ji Feng smiled and nodded his head.

"What, you think I'll get into the eyes of money?" Xiao Yuxuan gave him a blank look and said, "I'm at least the boss of a group that controls billions of assets, would I lose my principles just for ten million or so?"

Ji Feng just laughed.

In fact, what he was most worried about was that Xiao Yuxuan's vision was not broad enough, because a girl was always a little less bold than a man in many cases.

But what Ji Feng didn't expect was that Xiao Yuxuan's boldness now seemed to be more atmospheric than Han Zhong's, and also more delicate in doing things, which could be seen through the conversation with Luo Guangrong just now.

This is something that Ji Feng did not anticipate beforehand.

Leaving aside the means and business operation ability, this kind of verve alone is extraordinarily important.

So Ji Feng is really impressed with Xiao Yuxuan, she is indeed much more mature and atmospheric than before.

Xiao Yuxuan pursed her lips and said, "You ah, or the old eyes to see people, this is not good, wait, in the future I will still surprise you more."

Ji Feng couldn't help but smile at once and said, "That's best."

Ji Feng was not involved in the specific affairs of the Tengfei Group, he only urged Xiao Yuxuan to be a little more careful in choosing the agents in the Northeast, and it would be better to refer to Zhang Lei's opinion.

As Zhang Lei was now in the Northeast, the Northeast's underworld was definitely in turmoil after the fall of Qiu San, but this was not what Ji Feng was willing to see, and he also had some other plans, so Zhang Lei took the initiative to stay in the Black Province and integrate the Northeast's underworld.

The most important thing is that the Northeast borders with Tsarist Russia and has a well-developed trade, so if the triads there are not well controlled, they will definitely cause a lot of trouble and will bring certain problems to the future layout.

And now, although Zhang Lei has not been in the northeast for long, but it seems to have opened up some situation, specific questions Ji Feng has not yet had time to ask him, before the two only in the phone briefly communicated.

But there is no doubt that the one who knows the situation in the northeast best belongs to Zhang Lei.

Xiao Yuxuan nodded slightly: "I know. However, if you just leave Zhang Lei in the Northeast, won't Shen Jingyi be alone? It's also very difficult for Lei Lei to see her big brother, have you ever thought about changing someone over?"

Ji Feng slowly shook his head, "I've considered this, but I'm not sure about replacing him with someone else. Moreover, there are not enough people now, and there is no one like Zhang Lei who also has enough big picture and brains, so at this stage, we can only let him stay over there."

In fact, Ji Feng had not thought about this problem, but he really did not have many people available to him now, just Yi Xingchen and Zhang Lei and others.

However, Yi Xingchen and the others had to take control of the battle team, which was the main fighting force under him, and often a lot of things depended on Yi Xingchen to take the battle team to solve, so he could not leave.

As for the others, they were all unsuitable as well, so Ji Feng thought about it and eventually found that only Zhang Lei was the most suitable.

"Let's have someone replace Zhang Lei later when we have a suitable candidate." Ji Feng shook his head, "As for Shen Jingyi I am also planning to talk to Zhang Lei about this issue, to see if she is willing to go to the Northeast"

“You’re letting someone a girl from the south go to Black Province?” Xiao Yuxuan couldn’t help but shake her head helplessly and said, “How could she possibly adapt to it!”

Ji Feng laughed, “Then it’s up to them to decide for themselves. Or, do you have any good ideas?”

Xiao Yuxuan shook her head, “I’m just making a suggestion, how can I have any ideas!”

Regarding what Ji Feng had done, if Xiao Yuxuan felt that something was not appropriate, she would not directly say that what Ji Feng had done was bad here or not there, she would only mention it very euphemistically.

This is how smart she is, a man who is really capable needs a virtuous helper, not a woman who thinks she is pointing fingers all day long.

And then, a few people talked about the development and promotion of the new chrome alloy.

Ji Feng said, “You guys just follow the plan, I’ll take care of the rest.”

Later that evening, Ji Feng called his little uncle, the notice issued by the Political Department was somewhat inexplicable, he first had to find out what was going on and then think of countermeasures.

“Little Uncle, when did Tengfei Group’s new chrome alloy become a national strategic material, who ordered this?” Ji Feng asked, “I didn’t even hear a whisper of it beforehand, now it’s baffling me!”

“It’s just someone mentioning it, it’s certain people whose minds are alive and seeing the performance of the new chrome alloy, they’re sitting on it a bit.” Ji Zhenping said, “However, it didn’t go through and was eventually blocked back.”

“Blocked back?”

Ji Feng immediately felt a little strange: “Since you blocked it back, then why did the Tengfei Group still receive a notice?”

Ji Zhenping was stunned, “What?”

“It’s like this, I just came back today and I heard that someone gave a notice to the Tengfei Group,” Ji Feng told the story, “I’m calling you to ask what’s going on here.”

“Humph!”

Ji Zhenping couldn’t help but snort coldly after hearing this, “This is a private act of some people, or this is just a private act of a certain unit, it seems that some people still don’t die.”

“Little Uncle, do you mean to say that there are people who originally hit on the idea of the new chrome alloy?” Ji Feng asked.

“Who doesn’t have red eyes when they see the benefits?” Ji Zhenping said, “Ever since the launch of the new chrome alloy, it is unknown how many people have secretly agitated for this alloy to be listed as a national strategic material, and there are even people who propose that it should be directly listed as a controlled material!”

Ji Feng smiled coldly as he heard this, “Controlled materials? They really dare to think!”

The so-called controlled materials are those that are particularly important and can be said to be the most important of strategic materials, and they must be controlled by the state, even state-owned enterprises cannot produce them at will, let alone sell them

The new chrome alloy is a strategic material, and if the group wants to produce chrome alloy in the future, it will have to listen to the arrangements from above.

“Don’t worry, this is just wishful thinking on the part of some people.” Ji Zhenping said, “Although the new chrome alloy has excellent performance, but the application areas and so on are not clear yet, the top will not make a decision easily.”

“Then if it is eventually proven that this new chrome alloy can be applied to various fields, is it really going to be classified as a strategic material?” Ji Feng hurriedly asked.

“That wouldn’t be the case.”

Ji Zhenping said, “But the military will definitely make contact with you, and when the time comes, it will depend on how you negotiate exactly how to cooperate.”

Ji Feng asked, “Then the matter of strategic supplies”

Ji Zhenping said, “You don’t need to worry about this matter, the state will naturally not be unreasonable, if some random new technology is developed and the state turns the new technology into the state’s with a paper notice, isn’t that taking it by force?”

Hearing Little Uncle say this, Ji Feng’s heart was at ease.

As long as the state didn’t take it by force, then he didn’t have anything to worry about. As for the nasty things in some people’s hearts, Ji Feng wouldn’t be afraid of them!

“Little Uncle, who all proposed that the new chrome alloy be ring-fenced as a strategic material?” Ji Feng asked.

“There are all kinds of people, there are a few who are closer to the Wu family, and there are also those from the southeast”

“Southeast?”

Ji Feng thought for a moment and asked, “Is it South Guangdong?”

Ji Zhenping said, “It’s the Min Fu Province side, and Jiangsu and Zhejiang”

Ji Feng could not help but be astonished by what he heard, these two factions, those are extremely huge factions, extremely strong, even each faction has someone on top ranking among the giants, absolutely huge factions!

I didn’t expect that these two factions would have eyes for the new chrome alloy!

“Little Uncle, what do they mean?” Ji Feng asked in a deep voice.

Ji Zhenping said, "All kinds of thoughts, I guess, political achievements, interests, and the obvious upward momentum of the family over the past few years, with their strength expanding too quickly, I'm afraid it has caused some people to be wary."

Ji Feng was immediately stunned: "Then"

In that case, will the Ji family encounter the joint suppression of other factions?

If that was the case, then I'm afraid the pressure on my father would be unprecedented!

Campus Master Chapter 2540

Ji Zhenping said, "You don't need to think so much for the time being, just think about it, if someone from above approaches you about cooperation, how to talk about it and to what extent, you must have a good idea."

Ji Feng nodded and said, "Little Uncle, I understand what you mean."

He knew that what Little Uncle meant was that when negotiating with the people above, he had to grasp the degree of it, but how to grasp this degree was also a problem, and it was not easy to grasp it correctly.

The first thing you need to do is to make sure that you have the right amount of money for the country.

Ji Feng smiled and nodded, saying, "Don't worry little uncle, do you think I'm the kind of person who gets into the eyes of money? However, although I can make appropriate concessions, I'm afraid that it wouldn't be appropriate if I were to hold back too much."

If we talk about cooperation, he can make some concessions on the price, it doesn't matter, just like that Luo Guangrong, in itself, if he just acted according to the contract, not only would he not get a single cent, in the end, if the Tengfei Group sued, he would definitely have to take out another ten million yuan to compensate the Tengfei Group for the goods.

But in the end, Xiao Yuxuan didn't ask him for a single cent, and even returned the deposit of more than ten million to him!

Even Xiao Yuxuan was able to be so atmospheric, he was naturally more so than ever.

Only, this concession depends on the specific aspect, if the top wants the process and technology of the new chrome alloy at the outset, then Ji Feng will not agree to it, atmosphere, boldness, and foolishness are essentially different.

Even if you want to contribute to the country again, you always need a charter.

"You just have it in your mind."

Ji Zhenping but did not say anything to Ji Feng's idea, after all, he on the one hand is a soldier, naturally want to save money for the country as much as possible, but also to make the country prosperous as soon as possible, but also can not for this reason directly deprive others of the fruits of their labor, not to mention that this person is still his nephew?

"So what should I do with this notice I received?" Finally Ji Feng asked.

“Since the order was given by the Political Department, let them find you to talk to.” Ji Zhenping said, “It’s out of my side’s hands.”

“I understand.”

Ji Feng smiled faintly when he heard that.

After ending the call with Ji Zhenping, Ji Feng put down the phone and the smile on his face faded away.

The few important pieces of information revealed in the words of his younger uncle made Ji Feng’s mood a little heavy, and he felt some pressure in his heart more or less.

If the Wu family could honestly watch the development of the Tengfei Group, the sun would come out of the west, for which Ji Feng had already prepared.

However, what Ji Feng did not expect was that the two major factions in the southeast would also take action?

If that was the case, then the pressure on the Ji family would be unprecedented, and the pressure on his father, I’m afraid, would be even greater, because the entire Ji family now falls almost on his shoulders!

“But how come he didn’t tell me about it when I was in Yanjing?” Ji Feng couldn’t help but secretly shake his head, as far as politics and upper level matters were concerned, his father had always rarely talked to himself about them, and even if he did, he would only casually mention a few things, but would definitely not say too much.

Ji Feng also does not know if this is his father’s desire to make himself enlightened or if he is worried that he has not grown up yet and it is not good to know too much pressure.

But in any case, now Ji Feng can more or less understand the huge pressure brought by these two huge factions.

In fact, Ji Feng has long understood that nowadays, China has long since ceased to be the era of strongmen, and even more so, it is not the case that a particular family can have the say, almost every faction and no family will be constrained to some extent.

This is a good thing, and it is best for the common people.

But it also means that no one family or faction is dominant. Everyone is evenly matched and not very different, so if two or even several factions join forces, even if it is just a few bigwigs from one faction to another, it will put a lot of pressure on the other faction.

It’s not as simple as one plus one equals two, two parties joining forces means that the energy of both sides are exerted together, that’s what really covers the sky, so huge that one can barely breathe and suffocate!

Ji Feng decided to give his father a call, regardless of whether the two factions in the southeast had really joined forces, at least at this time, he wanted to help his father share some of the pressure.

When Ji Feng called, Ji Zhenping was in his office packing documents, he had put some documents that needed to be read and approved in his briefcase and was ready to go home from work.

Today, he had only worked a little over an hour, which was extremely rare in the eyes of a secretary. Since becoming Ji Zhenping's secretary, he had rarely even seen Ji Zhenping go home from work before eight o'clock. Sometimes even Ji Zhenping would work until eleven or twelve o'clock at night and then have a snack in the office before going home.

Of course, there are many times when Ji Zhenping goes home and has dinner before coming back to work

Minister Ji seemed a bit unusual today, but the secretary would not say much, but immediately arranged for a car and had the driver take the minister home.

Sitting in the car, Ji Zhenhua lowered the window a bit and then lit a cigarette.

The more calm you are at every big event!

This is Ji Zhenhua's greatest characteristic, the more urgent things are or when something big is about to happen, Ji Zhenhua is instead more calm and sensible than ever, his mind is extraordinarily clear.

And at this time, he will slightly let himself relax a bit and not let his nerves get too tense, and today is no exception.

In fact, over the years, Ji Zhenhua has encountered so many crises that he has lost track of them, but the higher the position he holds, the more pressure he is under, instead of the calmness and ease of movement that he used to have, because he is carrying the expectations of many people on his shoulders.

So it is all the more important for Ji Zhenhua to relax, and not just for his own sake.

And now, the storm is approaching once again, but Ji Zhenhua is aware that this time the storm is not too big, but not too small, if it is really not handled well, it may turn into a monstrous wave, but if it is handled well, it may only stir up a few waves.

The key depends on how it is handled, and, very importantly, on how the son's side is handled.

But Ji Zhenhua was not planning to put any pressure on his son, how this matter was handled was completely at Ji Feng's disposal, just like the old man's trust in him, he had the same absolute trust in Ji Feng, and Ji Feng needed this opportunity!

"Buzz~~!"

The phone vibrated, and when Ji Zhenhua saw the picture of his son displayed on the screen of his phone, a smile could not help but appear on his originally majestic and composed face.

As soon as he picked up the phone, he heard Ji Feng's voice come through, "Dad, it's me."

Ji Zhenhua said, "Why are you calling at this time, is there something wrong?"

Ji Feng deliberated for a moment before asking, "Dad, will the promotion of Tengfei Group's new chrome alloy bring trouble to the family?"

Ji Zhenhua laughed, "Why do you ask that? Have you heard something?"

Ji Feng nodded and said, "Well, I just called Little Uncle, and the military sent me a notice, so I asked Little Uncle what the situation was, and then I heard Little Uncle say that there seemed to be some kind of action over in the southeast?"

Ji Zhenhua said, "This is a normal situation, you don't need to be stirred up."

Ji Feng couldn't help but be slightly stunned, how could this be so easy and casual when his father said it was really just a normal situation?

He asked, "Dad, do I need to do anything on my side?"

After a slight pause he immediately added, "I want to do something for you."

When Ji Zhenhua heard this, his heart was instantly full and the smile on his face was much more cheerful as he said, "Son, I'm already happy that you have this heart dad, but this matter is not something so special, just do your thing without worry."

Ji Feng thought about it and said, "If we need the cooperation of the Tengfei Group, then whether it's on the special effects current or on the new chrome alloy, we can"

However before he could finish his words he was interrupted by Ji Zhenhua, only to hear Ji Zhenhua say, "Little Feng, you must remember that before doing something, you must first be clear about how much capital you have, this is the same as doing business, how much capital you have and whether you can afford to lose money, this is what you must consider."

Ji Feng didn't understand what his father meant for a while, but he heard his father say again, "Secondly, you have to understand that what you can take out to threaten others means something to yourself, if you don't understand this, what you may end up getting is just an ending where neither side can achieve what they want."

"Neither side?"

"Exactly!"

Ji Zhenhua said, "Do what you need to do, it's stronger than anything, it's the most powerful and the right thing to do!"

Ji Feng's heart suddenly felt a sense of clarity, his father's words seemed to have lifted the confusion in his heart and made him much more awake.

He knew that whether or not the two major factions in the southeast had really joined forces, at least, his father had a clear idea of what was going on, and he might not be of any help in this fight.

However, in this matter, there is another black hand that Ji Feng simply cannot ignore – the Wu family!

This family, which could almost be said to be the Ji family's sworn enemy, had undoubtedly played some kind of dishonourable role in this, and Ji Feng had a fire in his heart, and was furious.

Therefore, Ji Feng decided that he still had to do something, and he had to make it so that no one else could get a grip on him.
