

Campus Master 2551

The first page Ji Feng saw was the first page with the results of the analysis of the kind of drug that the dynasty had injected into those who had been captured, and the results, however, were somewhat alarming.

“See.”

Xiang Yongzhan’s face was grave as he said, “This first one is about the analysis of the drug, this drug of Dynasty’s, even we can only detect the ingredients of the drug with the most professional instruments. According to the experts, it is a drug that works specifically on the human nervous system, and after it enters the human body, it will make one’s nerves extremely sluggish.”

Ji Feng casually asked while looking at it, “Those people are not just dulled nerves, they are all like the living dead, what is this about?”

After seeing the people who had been injected with drugs, if one didn’t look closely, one would even mistake them for dead people, which could be explained by more than just nerves.

However, Xiang Yongzhan shook his head and said, “I don’t know. According to the expert’s analysis, the kind of drug that Dynasty uses is mainly for the nervous system, but why would people be like the living dead? According to the expert’s guess, it should be because after the nervous system is inhibited, the body’s functions also change, which is just like anesthesia.”

Ji Feng slowly nodded, but in his heart, he was still a bit puzzled.

Even if a person’s whole body was paralyzed by the anesthetic, his internal organs were still working normally, his breathing was still going on, and he wasn’t greatly affected.

But that was not the case with those people.

In the results of this analysis and testing is not to see an explanation for this problem, which makes Ji Feng can not help but be secretly a little surprised, even the experts of the military can not analyze what is the cause?

The kingdom’s technology has really reached such a profound level?

After reading the first report, Ji Feng continued to read the second one, but this was not the test report of the drugs, but the test analysis of the skin and flesh of those transformed people, the most typical of which was the test report of Cage.

The more Ji Feng looked at it, the more astonished he was. According to the test data, the materials that made up Cage’s body were all biological products!

They were actually quite similar to human tissues in some ways, and could be said to be quite close!

“I heard from the experts up there that with this level of technology that Dynasty is using to transform the human body, if they continue to develop like this, their transformation of the human body will get deeper and deeper, and one day, I’m afraid that those biochemicals that appear in science fiction movies will really be developed by them!” Xiang Yongzhan said in a deep voice.

Ji Feng then couldn't help but feel a sense of awe in his heart and gave Xiang Yongzhan a stunned look, his brows furrowed.

"These transformers are already so strong now, I really don't know how terrifying it will be if more powerful transformers come out."

Xiang Yongzhan's deep expression was grave: "Those transformers they have no sense of pain, even if they remove some parts from their bodies, in the future if a large scale transformer force really appears, ordinary firearms won't be of any use to them at all, only aeroplanes and cannons will be useful!"

"I don't think so." Ji Feng shook his head.

"What won't?"

Xiang Yongzhan was slightly stunned.

Ji Feng said, "I mean, the dynasty shouldn't develop in the direction of biochemicals."

Xiang Yongzhan was stunned and asked, "How do you know?"

"Intuition!"

Ji Feng said, "But what the experts analyzed isn't impossible, it's better to be careful and on guard!"

In fact, Ji Feng was the one who heard something from the intelligent brain about the development of human body transformation in the Gamma Galaxy, where biochemicals showed signs of being uncontrollable at the end, while transformed humans would not have such a situation.

So if it were Ji Feng, he would also choose to continue to work on the transformers rather than researching any biochemicals.

But he wasn't sure if Dynasty would think the same way, so he could only be careful and wary.

"Look down there again."

Xiang Yongzhan pointed to the information in Ji Feng's hand and said, "It's the analysis on the food of the transformers, you might be even more surprised."

Ji Feng smiled and immediately flipped backwards, and soon, he saw the results of the analysis for the food of the transformers.

"A special new type of energy?!" Ji Feng couldn't help but be stunned after seeing it.

The report said that the food taken by the transformers, which was that bottled liquid, was actually a new type of energy, at least no one had announced that they had discovered or developed this type of energy before this.

Xiang Yongzhan couldn't help but say with emotion, "If I didn't know that those transformers used to be living people, and that the dynasty had abducted many scientists, I would have wondered if the dynasty's technology could have come from an alien planet!"

Ji Feng asked at once, "You think so?"

“Or what?!”

Xiang Yongzhan asked rhetorically, “Don’t you think these things are too unbelievable? Let’s say the most scientifically and technologically advanced country in the world, Rice, how advanced can their current research on the human body be? Can it compare to the dynasty? Is it really possible to develop such advanced technology just by kidnapping some scientists? Just thinking about it makes one feel a little unbelievable.”

Ji Feng was stunned there and thought a lot for a while.

“By the way, there is another sentence at the end of the report that is more important.” Xiang Yongzhan remembered something else and suddenly said, “Take a look, the expert said that the food that these transformers are taking seems to be of the same type of energy source as the energy source on the laser gun .....

Ji Feng was immediately taken aback and immediately flipped to the back, and sure enough, he saw what Xiang Yongzhan had said.

The analysis report showed that it was a new type of energy with characteristics extremely similar to the energy source of the laser gun, which should belong to the same type, but so far it was impossible to determine what kind of substance it was.

“We’ve interrogated Cage, and all the captured captives, but no one knows exactly where the dynasty got its energy source from.” Xiang Yongzhan said, “But what is certain is that this energy is extremely strong, and the food the transformers took should have been weakened and processed.”

Ji Feng nodded slowly, “The technological development of the dynasty is really shocking.”

Xiang Yongzhan was also a little stoned, a glimpse of the whole picture, from the transformed human and this new type of energy, one could see how far the Dynasty’s technology had developed, it was really too shocking.

It was no wonder that both Luo Qiu and Cage had once said that Dynasty was extremely powerful, especially Luo Qiu. Ji Feng recalled that he had mentioned Dynasty in a completely extreme tone of esteem, and even said that outsiders did not understand how powerful Dynasty was at all.

It seems that the dynasty is really powerful to the point of making people have a kind of unimaginable, Ji Feng said in his heart.

Putting down the report, Ji Feng couldn’t help but say, “What does the top intend to do?”

The company’s main goal is to find a solution to the problem. You, on the other hand, since you have the new technology in your hands, you should hurry up and get the laser gun out, so that we can enhance our combat power.”

“Of course I would like to, but .....

Ji Feng shook his head and smiled, “Not to mention that we can’t find a suitable energy source yet, even if we could find one, how fast could it be developed? The dynasty can develop quietly behind closed doors and no one can yet control them, but what about us? The Tengfei Group has only just launched its new chrome alloy, and it’s already led to so much trouble! It’s difficult!”

Xiang Yongzhan opened his mouth and didn't know what to say.

Of course he knew which matter Ji Feng was talking about, recently there had been some whispers from above, and he had also heard that the Wu family was actively communicating with the two major factions in the southeast, and it seemed that they were going to unite with the two major factions in Jiangzhe and Minfu to try to form a siege against the Ji family and deliver a severe blow to the Ji family.

And now, it seems that something has already been done.

If these three factions really join forces, I'm afraid that even if the Ji family is strong, it will still suffer a heavy blow, and will even be bitten by the other side and have a piece of flesh torn off!

If the Ji family doesn't respond properly, it might even cause a chain reaction. As the saying goes, if the wall falls, there's no telling how many people will be fattened if the Ji family falls.

Xiang Yongzhan was also helpless, the situation in the country was like this, he could only hope that the Ji family could carry through, or at least not be greatly injured, otherwise, there was no telling how Ji Feng would choose when the time came, if this affected the development of the laser gun, it would be troublesome.

It was also because of this consideration that the Xiang family agreed to advance Ji Shaolei's marriage contract, but it was not a good thing to say.

"Alright, I'll leave now if there's nothing else." Ji Feng said, "I still have things to do."

"You wait first."

Xiang Yongzhan called out to Ji Feng and said, "There's something else I called you here today."

Ji Feng asked, "What?"

Xiang Yongzhan said, "When the soldiers under me were patrolling the hospital today, they saw two people in suspicious shape who seemed to be coming for your people."

"My men?"

Ji Feng froze and thought for a moment before he understood, "You're talking about Yang Bin, right? Have those two people been caught?"

Yang Bin had not been discharged since he was admitted to the military hospital until now, in fact, his injuries had already healed, but because Yang Feng had bitten the bullet and wanted him dead, Ji Feng also let him stay in the hospital for the time being, and the expenses needed were all paid by Ji Feng.

And now someone came to the door.

"My men didn't move them, they just kept an eye out." Xiang Yongzhan said, "Ji Feng, it's not a solution for you to keep putting people in the hospital, it's a waste of resources, you'd better think of a good way so that your people can walk out openly."

"There is certainly a way, but right now ....."

Ji Feng shook his head and said, "There are too many things going on right now, I really can't spare my hands ..... Let's do this, I'll go and see him first."

I don't know if it's like an appointment, a lot of things came to Ji Feng all at once, the new chrome alloy was coveted, the Wu family wanted to unite the two southeastern factions to besiege the Ji family, and it was said that the second uncle's health wasn't too good, so Ji Feng had to take time to accompany his mother back to take a look.

Moreover, Tong Kai De newly went to Jiangzhe Hang City to take up his post, and Ji Feng promised Tong Lei that he would go to see her.

With so many things crammed together, Ji Feng really didn't have time to deal with anything else, especially with the external pressure the Ji family was facing, and the new chrome alloy thing, and the search for the laser gun energy source, which was a top priority!

Campus Master Chapter 2552

"Sir!"

Seeing Ji Feng, Yang Bin looked a little excited, "You're here, please have a seat."

Ji Feng nodded with a smile, sat down on the chair, surveyed the surroundings and asked with a smile, "How is it, is it okay to live here?"

Yang Bin immediately nodded repeatedly, "It's already very good, if it wasn't for you sir, I would have become a corpse by now, and now I can have a free time here, which I didn't even dare to think about before."

In fact, Yang Bin's stay here was indeed very comfortable, although it was a hospital and there was a pungent smell of medicine, after all, he lived in a separate ward, he could go directly to the hospital canteen when he ate, and he could take his change of clothes and bed linen and so on to the laundry room downstairs and wash them for a small fee.

It could be said that if there were no attachments, it would be quite comfortable to live here.

However, Yang Bin still had some hang-ups in his heart, and he was not one to beat around the bush, so after thanking him twice he said, "Sir, I remember your great kindness, and I know I can't repay it all in my life, but I hope you can let me go away for a while."

"Leave?!"

Ji Feng frowned and asked, "Yang Bin, you're leaving because you want to go to your mother, right?"

He remembered that Yang Bin had once said that before he fled Yang Bin had hidden his mother in a safe place, but what exactly that place was Ji Feng didn't ask, now that Yang Bin was leaving, it was obvious that he wanted to go and get his mother.

"Yes, sir."

Yang Bin nodded and said frankly, "It's been so long since I left and my mother still hasn't heard from me, I'm afraid she's worried badly now, I have to go find her."

Ji Feng said, "Yang Bin, I understand how you feel. It's not impossible for you to go and find your mother, but the problem is ....."

"Sir, I, Yang Bin, swear on my mother's name that I will never run away privately, I can't repay your kindness for the rest of my life ....." Yang Bin said hurriedly.

"Yang Bin, you misunderstood my meaning."

Ji Feng smiled and waved his hand, saying, "It's only natural that you want to go to your mother, how could I possibly stop it? But the problem is, there might be Yang Feng's people outside now, and the Qihe City Bureau of Jibei Province has also listed you as a fugitive suspect, if you go out now, you might fall into Yang Feng's hands, and then, instead of being able to get your mother back, you might even get her involved!"

Yang Bin suddenly gritted his teeth, "If I'm pushed into a corner, the big deal is to die with them!"

Ji Feng asked, "It's easy for you to die, and even with your skills, it's easy to pull a few people off your back, but have you ever thought about what your mother will do if you die?"

Yang Bin went silent.

Ji Feng said, "Yang Bin, fighting with people to the death is not the best choice, nor is it the way of a smart person, it is good to bring down the enemy while not having damage to yourself!"

"That's not possible!"

Yang Bin couldn't help but shake his head and said, "Sir, you may not be too clear about the Yang family's power in Jibei province, but at least with my abilities, I can't fight them no matter what, so I can only choose to fight for my life."

Ji Feng said, "Just because you can't do it, doesn't mean everyone can't do it."

Yang Bin was stunned at his words, and soon he understood what Ji Feng meant, but just shook his head and said, "Sir, I understand what you mean, but this is my own business, you have already saved my life, and I can't repay you for the kindness you have shown me in my lifetime, so I really can't bother you anymore!"

Ji Feng laughed: "What, have you really decided to go and fight for your life?"

Yang Bin gritted his teeth and said, "If Yang Feng really drives me to desperation, I can only fight for my life with him!"

Ji Feng smiled and asked, "Then if you die, won't my one million dollars be wasted?"

"This ....."

Yang Bin was stunned for a moment and didn't know how to answer.

Ji Feng smiled and said, "You also said, one million, for one life. Technically speaking, your life is now mine, right?"

Yang Bin nodded decisively, "Yes!"

Words spoken count, Yang Bin naturally wouldn't backtrack, he had both respect and gratitude for Ji Feng in his heart, not to mention that he wouldn't cheat on Ji Feng!

"Then since that's the case, aren't you making fun of me by going out to fight for your life now?" Ji Feng asked.

"Sir, I ....."

"If you can trust me, why don't you tell me the address of where your mother is, and I'll have someone go get her, what do you think?" Ji Feng asked.

"Of course I can trust you sir, but ....."

Yang Bin suddenly hesitated a little: "But the Yang family side is the one that will not let me go, I know about Yang Feng's scandal, he will definitely try to put me to death, sooner or later he and I will have to have an end, so ....."

Ji Feng said, "What happens later, will be discussed later. At least now you don't have to fight for your life. Of course, Qihe City is looking for you, but after all, you're still just a suspect, so how about this, I've been rather busy lately, so I'll let you handle this after a while, what do you think?"

"Sir has said this, I, Yang Bin, am not a person who does not know any better, I will do whatever you want!" Yang Bin nodded his head and said.

"Alright then, let's do it!"

Ji Feng smiled faintly, "You tell me where your mother is hiding, I'll take care of the rest, besides, it's not good for you to live here for a long time, I'll find a way to find a suitable shelter for you, I'll send someone to pick you up when the time comes."

Yang Bin nodded heavily, "Yes."

Yang Bin was not a person who was too good at expressing himself, although he was already grateful to Ji Feng beyond words in his heart, he couldn't say it, he could only secretly resolve to repay Ji Feng's kindness to him no matter what!

Pounding Yang Bin's muscle-filled chest, Ji Feng laughed, "Don't worry, there will always be time for revenge."

.....

Xiang Yongzhan was waiting downstairs in the inpatient department and wanted to have a couple of drinks with Ji Feng, but Ji Feng received another phone call from Xiao Yuxuan.

"Ji Feng, just now the Jiangzhou Municipal Bureau called, saying that we falsely reported to the police and arbitrarily controlled active duty soldiers, asking me to go over and explain." Xiao Yuxuan said.

"False alarm?"

Ji Feng's eyes narrowed and he couldn't help but snort coldly, "What a big charge!"

Xiao Yuxuan asked, "Then should I go or not?"

Ji Feng said with a cold smile, "Go straight home after work, and if the police have detention or arrest procedures, just let them come! Otherwise, don't blame us for not cooperating!"

Xiao Yuxuan asked, "Is this alright?!"

Ji Feng said, "The police also have to talk about procedures when handling cases, if there are legal procedures we will of course cooperate, if not, then don't blame us for not giving face!"

Xiao Yuxuan then understood, "I know."

"Well! Don't worry, I'll go back soon and talk about it after we meet." Ji Feng said.

Pop!

Ji Feng hung up the phone heavily, with a chill in his eyes, the Jiangzhou Municipal Bureau really played this hand well enough, they actually had to ask Yuxuan to explain, explain what?!

Ji Feng was now starting to be interested in the Jiangzhou Municipal Bureau's position!

He also wanted to know, let Xiao Yuxuan go to the city bureau to explain, who actually gave this order!

"What, something to get busy with?" Xiang Yongzhan asked.

"Just a little family matter, I have to go home to deal with it, so I can't drink with you." Ji Feng said, "Some other time, some other time you can come to my place, I have a few bottles of good wine stored there all the time."

"Then we have a deal, you can't be stingy then!" Xiang Yongzhan said immediately.

Ji Feng nodded with a smile, patted his shoulder and said, "Let's go."

When he got into the car, the smile on Ji Feng's face faded away, and he couldn't help but say to himself, "Jiangzhou City Bureau ....."

Since Zheng Yuanshan left Jiangzhou to go to South Guangdong and the Jiangzhou Municipal Bureau changed its director, Ji Feng seldom had any dealings with the Jiangzhou Municipal Bureau, and the only place he occasionally had dealings was with Li Ruo Nan, but recently, he had no contact with her.

However, Ji Feng knew that since the arrival of the new director, there had been a major change of blood within the Jiangzhou Municipal Bureau, and many people's jobs had been adjusted.

However, with the last time when Yang Bin was chased and killed and alerted the Jiangzhou police, Ji Feng always felt that the Jiangzhou Municipal Bureau did not seem to be very polite to him.

This is not just because the Jiangzhou Municipal Bureau did not give him face, in fact, Ji Feng does not care too much about face, in this point he is not the same as other gentry, but Ji Feng has this feeling that the Jiangzhou Municipal Bureau, it seems to be intentionally or unintentionally on the opposite side of him.

How to say it .....

If it is said that Ji Feng is unlucky, I am afraid that some people in the Jiangzhou Municipal Bureau will be surprised and happy.

Ji Feng didn't know what was going on, nor did he know when he had offended the people of the city bureau, but he just had this feeling.

Last time, because of Yang Bin's matter, Li Ruonan was forced to suspend all of his duties, and from this, the stance and determination of the leaders of the Municipal Bureau could be seen, which made Ji Feng feel very strange.

And today, the same was true!

When Ji Feng returned home, Xiao Yuxuan had already arrived home and Ji Feng asked, "What's going on, weren't those few people handed over to the park police station? Why did the Jiangzhou Municipal Bureau intervene?"

Xiao Yuxuan couldn't help but shake her head, "I was also wondering, the Jiangzhou Municipal Bureau suddenly called me ..... Could it be because of the identity of those few people that the Park Police Station didn't dare to take over, so it was simply reported and passed on to the Municipal Bureau?"

Xiao Yuxuan, however, did not know, but she guessed correctly.

After the Park Police Station took those four soldiers away, they were originally really thought to be frauds pretending to be soldiers, and one of the young soldiers was even kicked by a policeman because of his tough attitude.

But when the police officers at the police station verified the documents of the four soldiers, they realised that things were in trouble, these guys were actually real soldiers!

They might have arrested the wrong person!

Campus Master Chapter 2553

The arrest of four serving soldiers is definitely a big or small matter.

Even if they did commit a crime, the local authorities would not be able to control them, and if they encounter the kind of officers who are more protective, they might get into big trouble!

A few months ago, there was a news story about a few soldiers who had been drinking and fighting in a certain place and were taken away by the local police, but the same night the soldiers' unit came over in a military vehicle and besieged the police station, beating up the police officers and taking them away.

The local leaders communicated with the troop leaders at the time, but nothing came out of it, and those policemen were beaten for nothing.

So when the people of the park police station knew that these were really soldiers, they immediately knew that something was wrong.

But Tengfei Group is also a key enterprise in the park, they reported to the police, the possibility of lying is not very big, in the middle of what is going on, the police station people are not very clear, but the police station leaders do not dare to easily interrogate those few soldiers, they have no choice but to report the matter to the above, please make the decision.

But the problem was, once they heard that it was this matter, the district somehow chose not to hear about it and reported it instead, and eventually, the matter reached the city bureau.

These situations Xiao Yuxuan naturally does not know, Ji Feng also can not think of a reason, then said: “no matter so much, this matter to where to say, the reason is on our side, I do not believe that the city bureau people can still say the big day to come!”

With Ji Feng’s words, Xiao Yuxuan’s heart immediately gained strength, she gave a light hint and said, “Then I’ll go and cook, what do you want to eat tonight? It’s quite hot, would you like some beer?”

Ji Feng shook his head and said, “Whatever you want to eat, forget the beer.”

He likes to drink, but he is not an alcoholic. He hardly drinks when he is alone, plus there are too many things going on lately, and he is not in the mood.

Knowing that Ji Feng was having a hard time, Xiao Yuxuan did not bother him anymore, but cooked a few delicious dishes, knowing that Ji Feng grew up in the north and liked to eat steamed buns, so she also specially asked Xiao Ying to buy a few steamed buns outside.

But Ji Feng and the others had just settled down to pick up their chopsticks and prepare to eat when the doorbell suddenly rang: “Ding dong~~ding dong ding dong~~”

Bai Zhu immediately stood up and went to the living room to have a look, the lock on the villa’s front door was with a monitor, you could see the situation outside on the monitor in the living room, “Young Ji, it’s a few people in police uniforms, should I open the door?”

Ji Feng and Xiao Yuxuan were both a little surprised, in police uniforms?

“And they’re really here?” Ji Feng frowned.

“Open the door!”

Xiao Yuxuan said. Since people had already come to the door, hiding and not seeing them was never an option, besides she hadn’t done anything wrong, so naturally she wasn’t afraid of the police finding her.

With a snap, Bai Zhu opened the door remotely, and then she saw three people in police uniforms standing at the door, seeing the door open but not seeing anyone behind it, they all seemed to be dumbfounded.

“Please come in, a few people!” Ji Feng said aloud.

“.....”

A few policemen looked at each other before walking in quickly, and when they came to the door of the living room, they saw Ji Feng and Bai Zhu standing there without the slightest intention of letting them in, especially Ji Feng, who was staring straight at them, which made them more or less uncomfortable.

Ji Feng asked indifferently, “A few police comrades have come to the door at this time, do you have any instructions?”

The policeman in charge then choked for a moment and slowly said, "Mr. Ji, Mr. Xiao, we are here on orders from the door, asking Mr. Xiao to come with us to the police station and give a reasonable explanation about the false alarm."

"False alarm?"

Ji Feng frowned and asked, "I don't understand what you mean, when did we make a false alarm?"

The policeman in charge said, "Mr. Ji, I'm not talking about you, it's Ms. Xiao Yuxuan."

Xiao Yuxuan said, "I don't remember when I made a false alarm, have you guys made a mistake?"

The policeman in charge shook his head and said, "Mr. Xiao, we are not mistaken, we have sufficient evidence to show that your group had made a false alarm yesterday, please go back with us to give an explanation."

Ji Feng frowned and asked, "Why do you have to ask her to go there?"

The policeman said, "Because Mr. Xiao is the boss of the Tengfei Group, and according to the victim's report, they had been beaten up at your group, so Mr. Xiao must come back with us."

"Are there any formalities?" Ji Feng asked.

"If you need it, it's always available." The policeman at the head of the group said, "Mr. Xiao, perhaps you don't know how serious this matter is, if the final investigation confirms that the victim's report is true, you may have to face more than just legal trouble."

Ji Feng's eyebrows immediately furrowed, "You're threatening us?!"

The policeman at the head immediately shook his head and said, "Don't misunderstand, I'm just stating the facts."

Ji Feng stared at him for a while before asking in a deep voice, "Who sent you?!"

"This is my duty, it's within my duty!" The policeman in charge said, "As for who sent me, it doesn't matter."

However, Ji Feng's stern gaze was staring at him, but he couldn't help but feel a little hairy in his heart, of course he knew who Ji Feng was, and even more so, he knew what relationship Ji Feng had with the Tengfei Group, but this matter was explained from above, and he couldn't do nothing.

If he offended Ji Feng, he might be unlucky in the future, but if he offended his superior, he would be unlucky now, and he certainly knew what choice was in his best interest.

Therefore, he could only choose to bring Xiao Yuxuan back.

"Good!"

Xiao Yuxuan nodded slowly, "I will go with you, however, I need to see the formalities, otherwise, you will definitely know the consequences!"

The policeman at the head of the group was suddenly relieved and said, "No problem, it's just a routine enquiry and investigation, not to control your freedom, the formalities will definitely be laid out in an understandable manner."

Ji Feng glanced at him, "So, if it's detention or something like that, the formalities won't be understood?"

The policeman in charge choked for a moment, "Of course not, the formalities are definitely all there, and they are all reasonable and legal."

Ji Feng smiled noncommittally and did not say anything.

So, before the four of them could finish their meal, they followed these three policemen and left.

Since it was not a detention or arrest, but just a routine enquiry, Xiao Yuxuan had every right to take her own car, so she and Ji Feng sat on the BMW x6 and followed the police car that led the way in front of them, heading straight for the Jiangzhou Municipal Bureau.

When they arrived at the city bureau, the person in charge of receiving them was a middle-aged policeman, around fifty years old, with a smiling face, which seemed very different from the image of a serious policeman that many people had.

"Come, a few of you please sit down."

The middle-aged policeman said smilingly, "First, let me introduce myself, my name is Ma Yuan, I am the deputy director of the municipal bureau, and I invited Mr. Xiao to come here today, because those few soldiers reported you for beating up soldiers ....."

"Chief Ma!"

Before Ma Yuan could finish his words, he was instantly interrupted by Xiao Yuxuan: "Chief Ma, I think you're mistaken! Those few people falsely passed military orders and went to Tengfei Group to extort money, and after we detected them, we called the police to arrest them, I don't know how it turned out that they were the informants and reported us for beating up soldiers instead?!"

When Xiao Yuxuan interrupted her unceremoniously, Ma Yuan did not get angry, instead he smiled gently and said, "Mr. Xiao, don't be anxious first, listen to my explanation slowly. This matter is indeed just like what Mr. Xiao said, and the comrades from the police station below have also reported this situation."

"Then why did Chief Ma still say that they were the informants, how come we have become the party at fault instead?" Xiao Yuxuan said with a cold pretty face.

"That's right!"

Ma Yuan nodded and said, "The notice from the police station was indeed reported as such, but there is one thing that Mr. Xiao should know, those few people are not liars, they are real soldiers, active duty soldiers!"

Xiao Yuxuan's eyebrows knitted, "Director Ma, I don't understand what you mean, are they soldiers, why must I know?!"

Ma Yuan said, "Because according to my understanding, those few soldiers had already shown you their documents when they were doing business with your group, yet you still insisted on smearing them as fake soldiers ....."

"Director Ma!"

Xiao Yuxuan's voice steeply raised a few points and once again interrupted Ma Yuan, "Let me state two points first, firstly, may I ask if Chief Ma knows what exactly those few so-called military personnel you claim to be doing when they went to Tengfei Group?! If you knew, then I'm sure you wouldn't be saying that now. Secondly, what is the evidence for saying that we insist on slandering them as fake soldiers? Chief Ma, those who are police officers say that evidence is important, I think that Chief Ma should understand this better than ordinary police officers, right?"

Ma Yuan was immediately choked for a moment, and opened his mouth just to speak, before he was interrupted by Xiao Yuxuan again.

"I think that Chief Ma might as well understand these two issues clearly first, and then come back to hold me responsible, and if there is anything that I need to take responsibility for at that time, I will definitely not shirk!" Xiao Yuxuan said.

Ma Yuan was choked by Xiao Yuxuan's several words in a row, originally prepared to say a sentence did not come out, this makes him can not help but have a new understanding of Xiao Yuxuan, no wonder can master so big group, this woman is really not simple, not only eloquent, but also very clear mind, actually put him a bit unable to answer.

However, Ma Yuan was already an old man, he smiled and asked, "Then, may I ask Mr. Xiao, what exactly did those soldiers go to do when they went to Tengfei Group?"

Xiao Yuxuan was just about to speak, but suddenly she heard Ji Feng speak, "Director Ma, let me correct you, it's a few fake soldiers!"

Ma Yuan instantly choked again, glanced at Ji Feng, and couldn't help but be bored in his heart.

Campus Master Chapter 2554

"Mr. Ji, the fact is that those few are not fake soldiers, they are active duty soldiers." Ma Yuan explained.

"I don't believe it!"

Ji Feng said indifferently, "None of us believe it!"

Xiao Yuxuan said, "Chief Ma, it's not that I doubt your police's ability to do the job, but I have to remind you that for those few people's identities shouldn't you verify them carefully? Frankly speaking, I don't think they are soldiers!"

Ma Yuan said, "But they are solidly military, and they are still active soldiers with public duties."

Xiao Yuxuan couldn't help but shake her head and said, "Then I would really have to express my surprise. If they are really active duty soldiers, then my view of the military really has to change completely."

Ma Yuan said, "That's exactly why we asked you to come here today, we want to understand that those few soldiers were visiting your group ....."

Just as Ma Yuan's words reached this point, he was once again interrupted by Xiao Yuxuan: "Director Ma, let me correct myself, those few people who went to the Tengfei Group were not there to pay a visit, they were there to extort money!"

"....."

Ma Yuan was interrupted one after another, his heart was more or less tired, and said, "Chief Xiao, please pay attention to your wording, the matter is still under investigation now."

Xiao Yuxuan looked straight at Ma Yuan and said nonchalantly, "Precisely because the matter is still under investigation, I think Director Ma should be more rigorous in his speech, shouldn't he? I believe that Director Ma is experienced and will definitely not make such low-level mistakes!"

What a smart woman Xiao Yuxuan was!

From the beginning of the conversation until now, she had long sensed that Ma Yuan seemed to be sitting with his buttocks a bit crooked, and was intentionally or unintentionally favouring those few soldiers.

Since this was the case, then Xiao Yuxuan would naturally not be polite to him anymore!

Ma Yuan was choked again, but he couldn't find anything to say to refute, and his heart was so tired that he could only say, "That's of course. What should be done and what needs to be done, our police naturally have procedures, so don't worry about it, Mr. Xiao, please tell us what happened after those soldiers arrived at the Tengfei Group?"

Xiao Yuxuan said, "As I said, they falsely passed on military orders, making us believe that they were there on the orders of the head of the military district, to describe our group's new chrome alloy as strategic materials, and at the same time, ordered us to immediately hand over the technical process of the new chrome alloy, but when I asked them for the orders from above, they could not produce them, if this is not extortion, what is it? What is this if not extortion?"

Director Ma frowned and said, "Mr. Xiao, don't be too quick to jump to conclusions before the matter is investigated clearly, there might be some misunderstanding in between, perhaps, they really do have the order, they just can't show it to you due to the need for confidentiality ....."

"I think this is pure nonsense!"

Xiao Yuxuan said nonchalantly, "What do they care about us out of the need for secrecy?! I'm not a soldier, even the biggest chiefs don't have the power to give orders to me, what's more, my Tengfei Group is not a state-owned enterprise, but a private industry, how the military is willing to keep secrets is out of our hands, but what we have is not something that can be taken away with the touch of anyone's lips!"

Ma Yuan was continuously put on the spot, and the original smiling expression on his face gradually disappeared, and his expression gradually became serious as he said, "Mr. Xiao, please note that we are now understanding the situation, not listening to your complaints."

Xiao Yuxuan's eyebrows knitted slightly, but she did not say anything.

Ma Yuan asked again, "General Xiao, what you have said is going to be recorded, so you should now consider clearly whether what you have said is true."

Xiao Yuxuan said, "There is no need to think about it."

Ma Yuan nodded and said, "Well then, now I have a few more questions to ask you. First of all, in what way did those few soldiers enter the Tengfei Group?"

Xiao Yuxuan frowned slightly, her heart was a little surprised, she couldn't figure out Ma Yuan's intention of asking this, so she slightly looked sideways at Ji Feng, but she heard Ma Yuan suddenly raise his voice and said, "General Xiao, please answer my question."

"Director Ma, is this an interrogation?"

Ji Feng suddenly asked, "Those policemen who brought us here said that if we needed any formalities, they could do it, so now we need a document to prove that we did cooperate with the police investigation, and I hope that the municipal bureau will keep its word and give us a document to prove it."

Ma Yuan couldn't help but frown at once: "A proof document?"

This was really new!

Ma Yuan had been a police officer for so many years and had handled many cases, so of course, he had also issued supporting documents, but this was the first time he had encountered such a matter where he had to issue a certificate even for an investigation and enquiry.

However, it was reasonable for Ji Feng to ask for this!

Ma Yuan nodded heavily: "No problem, when the investigation is finished, I will give you a certificate ....."

"No!"

Ji Feng shook his head and said, "I want it now, otherwise, it doesn't make sense for us to cooperate with the police investigation ..... Of course, you can detain us or precisely summon us, it's fine! But I'm afraid it's a bit difficult to get us to cooperate voluntarily!"

Ma Yuan's face instantly sank, gritting his teeth and wanting to get angry, but seemed to think of something and eventually held back.

"Fine! The proof can be given to you!"

Ma Yuan sank his face and glanced at the young policeman who was taking notes, gesturing for him to give a proof, and only then said, "Please continue to answer the questions!"

Ji Feng said, "Let's wait until we get the proof."

Ma Yuan's face then turned gloomy once again, but seeing Ji Feng's smiling expression, he knew that if they didn't do what Ji Feng said today, I was afraid that they would really shrug it off and leave, after all, there was no charge or reason for them to stay now.

"You guys wait!"

Ma Yuan held back his anger, stood up, took a pen from the young policeman who was taking notes, brushed it on the paper, then turned around and walked out of the room, not long after, Ma Yuan came back and casually put that paper on the table, "Take a look, this is the proof I gave you guys!"

Ji Feng picked it up and looked at it, and then put it on the table.

At this time, Ma Yuan asked, "Well, Chief Xiao, can you answer the question now?"

Xiao Yuxuan said, "There's never anything I can't answer."

"....."

Ma Yuan gritted his teeth and secretly said, "Then you're still pushing back, amusing me, huh?"

"Those few people were posing as soldiers to enter the Tengfei Group, we have a cooperative relationship with the military itself, so we have always been very enthusiastic about the soldiers, but these few people have bad intentions, they falsely passed on military orders and committed extortion against us!" Xiao Yuxuan said, "Chief Ma should interrogate them!"

Ma Yuan said, "I don't need you to tell me what to do. Mr. Xiao, according to our understanding, the facts do not match what you said, they are not fake soldiers, but active soldiers, yet they were beaten up at Tengfei Group, and most importantly, you have false alarm!"

Xiao Yuxuan said, "I don't care if they are soldiers or not, all I know is that they can't take out orders, but they want us to hand over the technical process of the new chrome alloy, which is extortion!"

Ma Yuan was just about to speak when he heard Ji Feng say, "If Director Ma doesn't know how much the new chrome alloy is worth, he can go and find out."

"Without coming up with an order, not to mention a few soldiers, even if Director Ma himself goes, we will treat it as a criminal and twist it to the police station!" Ji Feng smiled faintly.

Ma Yuan's face instantly darkened.

"Chief Ma, is there anything else you want to ask?" Xiao Yuxuan asked.

Ma Yuan took a deep breath and said in a deep voice, "Since you guys are saying that they falsely passed military orders, do you have any evidence? It can't be whatever you guys say it is!"

Xiao Yuxuan said, "Of course there is evidence, if Director Ma needs it, I can always have someone send the surveillance video over."

Ma Yuan frowned and asked, "You have CCTV footage?"

Xiao Yuxuan nodded and said, "Of course. Although the Tengfei Group is not big, there is no guarantee that there won't be some evil-minded villains coveting it, so in order to prevent such a situation, we certainly have to be prepared."

Ma Yuan was immediately furious, of course he could hear the meaning beyond Xiao Yuxuan's words, who was this mischievous villain ..... talking about?

"Then you will send someone to send the evidence over!" Ma Yuan said.

"As long as Director Ma can stay up, we have no problem!" Ji Feng smiled faintly, "Chief Ma, is there anything else?"

"..... There's nothing." Ma Yuan said.

Ji Feng and Xiao Yuxuan left, the so-called false alarm didn't cause any effect on them, and even, Ma Yuan was completely at a disadvantage in the process of fighting with them.

Looking at Ji Feng's back, Ma Yuan gritted his teeth with a dark face, these two people didn't give him any face today, he had long heard that Ji Feng was arrogant, but once he saw him today, he really appreciated it.

"Just wait, you guys will suffer!" Ma Yuan grunted.

However, Ma Yuan did not know that Ji Feng did not put him in his eyes at all, even though he could barely lift his head this time, but this was just a pawn, what Ji Feng really cared about, was the people behind this matter.

The military, the two southeastern factions, the Wu family .....

The company's main business is to provide a wide range of products and services to the public.

Arriving at the car park, several people got into the car.

"Tick tock ....."

Suddenly a sharp horn sound came, Bai Zhu immediately slammed on the brakes, Ji Feng frowned and turned his head to look, he saw a black Audi A8 cutting across from the front.

"Hmm?"

Ji Feng raised his eyebrows, he found that the person sitting in the car there was no one else, but Li RuoNan, the driver was a man of about thirty years old, at the moment this man was talking to Li RuoNan about something, full of smiles, looking somewhat intimate.

Li RuoNan has a boyfriend?

Campus Master Chapter 2555

Watching the Audi A8 drive out of the gate of the city bureau, Ji Feng only slowly withdrew his gaze, he pursed his lips and looked out.

However, Xiao Yuxuan could not help but frown slightly: "How did that person drive!"

That black Audi A8 was cutting straight across, completely ignoring traffic rules, or else with Bai Zhu's car skills how could he not have braked sharply.

Bai Zhu said, "I feel like the car in front of me did it on purpose."

Xiao Yuxuan was stunned: "On purpose? What kind of person is driving the car, and what have we done to offend the other party?"

Bai Zhu shook her head and said while pushing the gear handle into forward gear, "I don't know, but the person driving was a man, and I wrote down his license plate number!"

Although Bai Zhu was also surprised, her reaction was quick, she paid attention to the Audi A8 just after the sharp braking and saw through the Audi's reversing mirror that the man sitting in the driver's seat was a man in a suit, but because it was just a flash, Bai Zhu didn't get a good look at the other party.

"Sister Yu Xuan, do you want me to check out this car?" Little Shadow, who was sitting on the passenger seat, released her hand that was already behind her waist holding the handle of her gun, but her eyes were a little angry.

"Forget it."

Xiao Yuxuan shook her head and said, "No need to fuss over such a trivial matter, Bai Zhu, let's go back."

Bai Zhu nodded and drove the car.

From the beginning to the end, Ji Feng didn't say anything, he just sat in the car and looked outside, although Xiao Yuxuan felt a little strange, but she didn't care too much.

But she was unaware that at this moment, in the black Audi A8 that had already left, a conversation about them was also taking place.

"Jianyuan, just now you ....." Li Ruonan frowned a little.

"Sorry, it's been a long time since I drove, my hands are a bit raw." The man known as Jianyuan smiled, "Luckily there was no accident either, next is to pay some attention."

"Then you have to be careful, the traffic conditions in Jiangzhou are very complicated, or else you'd better let me drive instead?" Li Ruonan said.

"That won't do!"

Jian Yuan laughed, "Places with complicated traffic conditions are the best places to hone your driving skills."

Li Ruonan was even more uneasy when she heard this, honing her driving skills on this kind of road with complicated traffic conditions might cause a traffic accident, she was busy saying, "Jian Yuan, you can't think like that, we are fine sitting in the car, we might not be injured even in a traffic accident, but the pedestrians outside they don't have anything to protect them, this is how you treat other people's lives Irresponsible ....."

"Fine, fine!"

Jian Yuan was said to laugh bitterly: "I know I'm wrong, can't I? You, are still as righteous as before!"

Li Ruonan said, "I'm a police officer, of course I can't just watch you break the rules and pretend I didn't see it, otherwise what's the point of wearing this police uniform?"

Jian Yuan shook his head and laughed bitterly, "I think this is my life, I'll marry you and be under your control for the rest of my life!"

Li Ruonan's face heated up and she looked out of the car, not answering.

When Jian Yuan saw this kind of performance, the corner of his mouth could not help but pull up a slight curve.

And at this time, Li Ruonan looked out of the car, but there was a complex look in her gaze, as if she was remembering something.

.....

After returning home, Ji Feng first made a phone call to his younger uncle Ji Zhenping and told him about those few soldiers.

Ji Zhenping couldn't help but sneer after hearing this, "Let them go, I'll see whose orders they can come up with!"

Ji Feng said, "Little Uncle, I reckon they should really have been ordered to come here, only that they didn't dare to come up with orders, or their superiors had given them only verbal orders."

If there was no one to instruct them, just a few soldiers, how bold would they be to come and extort the technical process of the new chrome alloy? Besides, if no one had directed them, how would they have known that someone was going to classify the new chrome alloy as a national strategic material?

So there must be someone behind them!

Ji Zhenping said, "I do hope that someone really gave them the order!"

Hearing the cold intent contained in Ji Zhenping's words, Ji Feng couldn't help but ask, "Little Uncle, within this military, who is actually up to something, do you have a good idea of who is up to something?"

"Don't worry, I know all these things." Ji Zhenping said, "The key to the problem now is not here, but at the local level, understand?"

"I know about the problems at the local level, but the political department of the military ....."

"The political department doesn't represent the whole army!"

Ji Zhenping said, "In this matter, as long as Chief Xiang and a few other masters do not take a stand, things will not be too problematic!"

Ji Feng immediately understood.

The people from the Political Department had given the order, this should just be some people who had eyes for the new chrome alloy and wanted to keep it for themselves, or wanted to classify the new chrome alloy as a strategic material as a way to add some merit to themselves.

To put it bluntly, this is a way for someone to get promoted and get rich!

However, the Political Department was only a department in the army, and the one who could really decide on this matter was Chief Xiang and a few other old masters in the army.

Although Ji Zhenping did not say exactly which old masters, it was clear that there would be no one else other than those few old men who held high prestige in the military.

Although the Xiang family could be considered the number one family in the military, it could not overshadow the sky with one hand, so the attitude of those few old men was also crucial.

But these aspects of the work naturally have Ji Zhenping to do, and since he can remind Ji Feng, it is obvious that he has already thought it through.

Ji Feng was more or less at ease.

“Kid, you have to buck up during this period of time, now that it’s several families joining forces, the pressure from the central to the local level is not small, and your dad is under a lot of pressure.” Ji Zhenping reminded, “You should also be careful in dealing with it, don’t be impulsive, now your second uncle is also busy enough over in Jiangzhou, you should not add to his mess.”

Ji Feng immediately heard some sensitive situation from Ji Zhenping’s words, he immediately asked in a low voice, “Little Uncle, they really joined forces?”

Ji Zhenping said, “Do you think if it were the usual situation, like the one you just described, you and that girl would have been called to the city bureau to explain the situation?”

“This is someone starting to push behind the scenes, someone behind the scenes!” Ji Feng blurted out.

“It’s good that you understand.” Ji Zhenping said, “The situation is tense and not very clear right now, so you should think more when you encounter things and not be reckless.”

“I understand.” Ji Feng nodded thoughtfully.

“Alright, that’s it. If there’s anything, contact in time!” Ji Zhenping said.

“Mm.”

Ji Feng nodded and said, “See you later, little uncle.”

Hanging up the phone, Ji Feng, however, did not immediately put down the phone, he wanted to call his father, he knew that his father must be under a lot of pressure at this time, Little Uncle said that even Second Uncle was busy enough on this side of Jiangzhou, it seemed that Second Uncle should be curating in Jiangzhou, it could be seen that this time the three brothers were also on a tight schedule.

It was evident how much pressure was on his father.

But Ji Feng eventually put down the phone again, he had already called twice before, but each time he called his father did not say anything, never looked like he was on cloud nine, just instructed him to do his own thing, and thought it would be the same after this call.

So Ji Feng thought about it and gave up. He decided that instead of just calling to comfort his father now, he should take some practical action.

So, let's follow the previously thought out plan to break the game and start!

So Ji Feng's life returned to normal once again, except that he was already pushing and planning in his heart over and over again.

Once he decided to do something, he would definitely consider it carefully and think about how to teach those who were secretly reaching out to the Ji family and the Tengfei Group a hard lesson!

If they don't move, they will have to hit each other so hard that they can't breathe!

The next morning, Ji Feng went to the Tengfei Group with Xiao Yuxuan. He first found Yi Xingchen and asked him to pick a few reliable people, told them the address where Yang Bin's mother was, and Guo Tao personally took someone to bring Yang Bin's mother back.

Afterwards, Ji Feng called Zhao Kai over again. He was facing great difficulties nowadays, and the only one he could really discuss was Zhao Kai.

"Kai Zi, I've decided to do something!" After Ji Feng told him what had happened, he couldn't help but say in a deep voice, "Being passive and beaten is not my character, I have to do something to break this situation!"

"It's not impossible to break the situation, as long as you find the right method." Zhao Kai pushed his glasses, an imperceptible look of excitement flashed from his eyes, such was his character, the more he encountered such a big event, the more calm he was, but in his heart he was excited instead.

Ji Feng nodded and said, "Tell me about it."

Zhao Kai said, "First of all, we need to analyze the current situation, I'm not sure what the situation is at the top, but from what you've said, we can generally see that nowadays, several parties are joining forces to target the Ji family, and there are also people who are fishing in the water."

Ji Feng nodded slightly, which was similar to his analysis.

"Don't worry about the ones muddling through the water for now, let's solve the main problem first." Zhao Kai said, "According to your idea, to break one of them, I think that's correct." Zhao Kai said, "Now all the problems are happening around the new chrome alloy, and now that the technical process of chrome alloy is in our hands, we have the absolute initiative!"

"So what?" Ji Feng asked.

"By taking the initiative, we have much more room for manoeuvre." Zhao Kai said, "Ji Feng, I think that those people joining forces may not necessarily be trying to bring down the Ji family."

"Oh?"

Ji Feng raised his eyebrows, "How do you say this?"

Zhao Kai said, "First of all, even if the new chrome alloy is really designated as a strategic material, it won't hurt the entire Ji family, at most it's just an opportunity for rapid development lost, big deal, what can we do if we give up the new chrome alloy at that time?"

Ji Feng's eyes lit up as he thought of something, "You continue."

Campus Master Chapter 2556

"Since I can think of it, it doesn't make sense that those who have bad intentions can't think of it."

Zhao Kai said, "Even if they push for the new chrome alloy to become a strategic material, they have greatly offended the Ji family, then all they have to face may be the Ji family's retaliation, and I am afraid that in the end it is all a bit more than worth the loss, but why would they still do it?"

Ji Feng nodded thoughtfully and said, "Tell me about it."

Zhao Kai said, "The reason lies in the fact that I'm afraid they're not just after the new chrome alloy when they do this! Rather, they are after the Ji family! Because they know how valuable the new chrome alloy really is, and if they push for it to become a strategic material, they will definitely be countered by the Ji family, but with multiple parties joining forces, the Ji family might make some kind of faint move, or with a mix-up, someone can fish in the water!"

Ji Feng's eyes narrowed slightly.

"The so-called mistake in the middle of a busy day, it's possible that in the heat of the moment the Ji family will make some kind of mistake, and for those people, this is the opportunity!"

Zhao Kai calmly analyzed, "Taking a step back, even if the Ji family didn't make any faint moves and took every step to finally block the ambitions of certain people, how valuable is the new chrome alloy? How many people would be worried about the Ji family continuing to rise strongly?"

Ji Feng slowly nodded, what Zhao Kai said made sense, the other party's aim was not just the new chrome alloy, I'm afraid.

The Ji family, that was their ultimate goal!

"Let's assume again, if the Ji Family finally couldn't withstand the pressure of the joint efforts of many parties and was forced to give up the new chrome alloy, preserving the Ji Family's existing vitality and strength, then, with the loss of the new chrome alloy, how long would it take for the Tengfei Group to rise?"

Zhao Kai said, "I've heard that like those big factions that are more important in the economic field, they have been operating in the economic field for decades or even longer, and they seem to have groups with over a hundred billion dollars under them! What's the Tengfei Group compared to those behemoths? By then, the Ji family will still be lame in the economic field."

"That's what they're thinking!"

Ji Feng sunken his face and nodded slowly, "Whether the idea of promoting the new chrome alloy as a strategic material can be realized or not, there is nothing to lose for those people, if the Ji family resists, they might just fish in the water to find an opportunity to deal a fatal blow to the Ji family, if the Ji family doesn't resist, but it's like watching an opportunity to rise strongly in the economic field just disappear from sight!"

Zhao Kai nodded, "That's what I think, because I don't know too much about what's going on at the top, so maybe my analysis will be a little off, but from what you've said so far, I think that should be the case."

"Not too much wrong!"

Ji Feng said with a sullen face, "Your analysis is probably right, and it might be what those people have in mind!"

Ji Feng finally understood why every time he called his father, he urged him to do his own thing and not to ask too many questions about the rest, it seemed that his father was afraid that he had seen through the subtleties of this a long time ago, right?

Those people really calculated beautifully, whether they succeed or not, in the end they will not lose anything, only the Ji family will be damaged.

Those people were already invincible right from the start!

However, Ji Feng did not want to be so passive.

"Then, how do you think we should break this situation?" Ji Feng asked.

"Break it down individually!" Zhao Kai said.

"Eh?!"

Ji Feng immediately raised an eyebrow, Zhao Kai's idea was surprisingly coincidental with his, "How to break it down individually?"

When Zhao Kai smiled, he couldn't help but shake his head and laugh bitterly, "You're making it difficult for me, I don't know any of those people, I don't know exactly what to do."

Ji Feng then nodded with a smile and said, "I was the one who was too anxious."

To be honest, Zhao Kai didn't even know who the other party really was yet, so how could he get along with the strategy to deal with it?

Zhao Kai said, "Actually, it's not that hard to say, first of all, we need to know who is actually playing tricks in the dark, then we can attack each other, if we want to deter those people instead of making a big fuss, then we can just find out the most powerful one and extinguish his prestige, then the rest of them will definitely be afraid."

"However, if you want to wipe out the other side, then you should start with the weakest one first!"

Zhao Kai said, "From the weakest to the strongest, exterminate them one by one, so that you can still maintain your strength when you finally face the strongest one from the other side, and also give the other side a great psychological shock. It's up to you how you want to do it."

Ji Feng couldn't help but smile, this kid Zhao Kai entered the Tengfei Group, this is really the right step.

The situation that was originally like a fog was made clear by Zhao Kai in just a few words, from the original cluelessness to the current random choice.

"Now, it's up to you to choose." Zhao Kai said.

"If you were to choose, what would you choose to do?" Ji Feng asked.

"I can't say!"

Zhao Kai shook his head, "First I have to assess my strength and also look at the future arrangements before I arrange a plan."

Ji Feng then nodded thoughtfully and smiled, "I understand."

The conversation with Zhao Kai gave Ji Feng a feeling of clarity, and he quickly had a rough idea in his head, "Kai, I will provide you with a list in a few days, so you should probably keep an eye on things in this area."

Zhao Kai nodded: "Understood."

.....

Each one of them!

This was the plan that Ji Feng had finally settled on.

Facing the siege of multiple parties joining forces, when one's strength was not enough to fight these people at the same time, striking them down one by one was the ultimate and wisest choice.

Even his father was under so much pressure, so of course Ji Feng would not be so arrogant as to think that he alone could stand up to the two major factions in the southeast plus an immensely powerful Wu family.

Then drag them out one by one and see what they are all about!

"The two major factions in the southeast ....."

Ji Feng secretly mused, "These are two local vassals! Neither is a simple little power either! However, compared to the Wu family, you guys are more or less inferior, I'm afraid, so it'll have to be you guys."

Who told them to come over here and stick their nose in, trying to fish in troubled waters to reap benefits from it!

Is it really that easy to take advantage of the Ji family?

"Southeast?"

Ji Feng remembered something and suddenly frowned, "Isn't the area around Jiangsu and Zhejiang the He family's sphere of influence?!"

Ji Feng remembered that He Hongwei had contacted the Zhou family in Hangzhou, Jiangsu and Zhejiang many times, wanting to bring the Zhou family under his banner, but Zhou Fei Fei was obviously reluctant, but she had said that the He family had been tossing around Jiangsu and Zhejiang for the past few years.

"Something to do with the He family?" Ji Feng secretly frowned, and eventually he decided to ask He Hongwei.

"Elder brother Ji?!"

When he suddenly received a call from Ji Feng, He Hongwei was a little surprised but quite enthusiastic: "Why did you remember to call me suddenly? Is there something going on?"

Ji Feng smiled and said, "There are some things I want to ask Brother Hongwei, is it convenient to talk now?"

He Hongwei was slightly stunned, "Older brother, just say what you have to say."

"Alright then, I'll just say it."

Ji Feng didn't intend to beat around the bush with He Hongwei either, this matter was related to the future rise and fall of the family, he had to treat it carefully, "Brother Hongwei, recently I've run into some trouble, two families in the southeast have ganged up on me, you've heard about it, right?"

He Hongwei nodded, "Yes, why, do you need help, old brother?"

Ji Feng smiled, "I can manage for now. However, I heard that brother Hongwei is more active in the area of Jiangsu and Zhejiang?"

"That's right. The market in the area of Jiangsu and Zhejiang is very large, and the concentration of wealth has formed a certain commercial scale ....." He Hongwei replied casually, but just as he said this he suddenly realized something and asked, "Older brother, what do you mean by that? "

Ji Feng laughed: "People are bullying me, if I don't do anything and just go along with it, isn't that too weak? But to do something, I remembered that you often move around Jiangsu and Zhejiang, don't have any misunderstanding then."

He Hongwei immediately understood Ji Feng's meaning, and he immediately smiled: "Older brother, I understand what you mean, although the market in Jiangsu and Zhejiang is very close to my heart, but most of them are just cooperative relations with that side, only a very few are my own industries, if there is really any misunderstanding at that time, it will be fine after talking about it."

When Ji Feng smiled, he smiled faintly, "So that's the case, then I'm relieved."

He Hongwei naturally understood Ji Feng's meaning and he asked, "Older brother, are you trying to fight back? Let me remind you, you may not be too clear about what the situation is in the area of Jiangsu and Zhejiang right now, I think you'd better get a careful understanding first and not make any rash moves."

“Oh? Is there anything else to say in this?” Ji Feng asked.

“There is a lot of wealth concentrated in the area of Jiangsu and Zhejiang, business is extremely developed, there are more than one or two large groups with tens of billions or hundreds of billions of dollars alone, they are strong!” He Hongwei said in a double entendre.

“Powerful?”

Ji Feng mulled over He Hongwei’s words and nodded, “I know, thanks for the reminder, Brother Hongwei.”

He Hongwei laughed, “I was just saying that casually, I know your strength and means, I believe you’ll be fine, I’m just waiting to drink your celebration wine!”

“Lend me your good advice!” Ji Feng smiled, but his heart understood a lot, it was obvious that this time the matter had nothing to do with the He family, from He Hongwei’s words we could learn that the He family must have a certain amount of land in Jiangsu and Zhejiang, but not much, but exactly how much I’m afraid no one outside was too clear, as for He Hongwei that was naturally even more impossible to say.

Who would be foolish to say to the public, where where is our family’s territory ..... that is silly!

However, He Hongwei and many enterprises and officials around Jiangsu and Zhejiang should have very close ties, whether it is a partnership or some other form, this time to complete the idea of each attack, it is possible to let He Hongwei help.

But Ji Feng didn’t mention it now, and just hung up after exchanging a few more pleasantries.

Campus Master Chapter 2557

“Old Yi, there’s one more thing for you to do!” Tengfei Group, Ji Feng came to the office of Yi Xingchen in the Security Department.

Yi Xingchen immediately stood up, “Boss, you say.”

“Send a few people to Jiangzhe!”

Ji Feng said in a deep voice: “Don’t send ex-soldiers, just have the mercenaries under you go directly, I want you to ask for some information for me, and have people who can mix with all three religions and nine streams to do it.”

Yi Xingchen thought about it and immediately nodded, saying, “No problem, just leave it to Guo Tao, it’s most appropriate to leave it to him for things like snooping.”

Ji Feng shook his head and said, “He can’t do it alone, we need to send a few more.”

Yi Xingchen was slightly surprised, “Boss, is there going to be a big move?”

Ji Feng nodded and said, “Not necessarily, let’s get the information right first and talk about the rest later.”

Yi Xingchen immediately said, "No problem, I'll arrange it. As long as it's about the three religions and nine streams, I can guarantee that I can get the information clear."

Only then did Ji Feng nodded his head.

Afterwards, Ji Feng took Bai Zhu and drove to Tengfei Network.

When they saw Ji Feng arrive, Wang Xin and the others were surprised and pleasantly surprised, but Ji Feng didn't have much time to exchange pleasantries with them, instead, he directly called Wang Xin and Yang Yu to his office.

"Wang Xin, can you find a way to get some information about Jiangzhe?" Ji Feng asked.

"Information on what?" Wang Xin asked.

"Boss, we can only collect information through the internet, if it goes beyond the scope of the internet, then our ability may not be able to reach it." Yang Yu reminded.

Ji Feng smiled, "Don't worry, what I'm going to hand over to you guys is about the network, invading some computers and collecting some useful information, and not letting anyone find out yet, can you do that?"

Speaking of the network, Yang Yu and Wang Xin were both immediately confident.

"Boss, I don't dare to guarantee anything else, but to say something on the internet, there should be no problem!" Yang Yu said with confidence.

Ji Feng looked at Wang Xin again, and the latter immediately said, "Boss, whatever information you want to gather, just say it."

Ji Feng smiled, "Very well."

Leaving Tengfei Network, Ji Feng took out his mobile phone and dialed another number, "Feiyu, move, go to Jiangzhe, get familiar with the terrain first."

That evening, Zhao Kai came to the house to discuss the next thing with Ji Feng.

He didn't know too much about what was going on at the top, and how the family was arranged, and Ji Feng likewise didn't know, so he had to rely on his own strength to do something now, and the only people who could help him directly now were Zhao Kai, especially in terms of action plans and so on.

Originally, Zhang Lei was also very smart, but he was not good at this kind of analysis and making plans, and besides, he was still in the northeast, so Ji Feng called Zhao Kai to come.

"Boss, there are still loopholes in your arrangement."

As expected, after listening to Ji Feng's arrangement, Zhao Kai immediately raised his doubts, "The people you are arranging now can only reach people in the lower middle class of society at most, even after they arrive in Jiangzhe, they may not be able to understand the information from above, moreover, many things cannot be done by relying on the internet only."

Ji Feng nodded and said, "I have other arrangements, and I will personally go to Jiangzhe to deal with the matters above."

Zhao Kai was stunned, "You're going to Jiangzhe in person? Boss, I'm afraid that's not a good idea, there are many people who know about your identity, and there are also many people who know you, if you show up in Jiangzhe, I'm afraid it will attract some people's attention."

Ji Feng smiled, "I have the right reason to go over there, don't forget, Lei Lei has gone to Hangzhou, what's wrong with me going to my own girlfriend and visiting my future old husband?"

Zhao Kai pondered for a while, but still couldn't help but shake his head, "I still think that this is a bit inappropriate, can you send someone over there and not go yourself?"

Ji Feng shook his head and said, "It's not impossible to send people over, but they may not be able to touch on the core issues, there are some things that I must personally go over to do. Moreover, whether the other party is vigilant or not is not really too important, the key is to find something practically useful and find the right opportunity!"

Zhao Kai asked, "Then when do you plan to go over there?"

Ji Feng said, "In a few days, I have to go back home first."

He had already promised his mother that he would go back to Mang Shi County in the next few days, his second uncle Xiao Guoqing was not in very good health, no matter what, he was also a nephew, so he always had to go back and take a look. Besides, his second uncle had been good to him and his mother in the past.

Zhao Kai pondered for a moment and said, "Then let's keep in communication at all times and contact each other in time if there are things."

Ji Feng nodded and said, "I'll leave things to the few of you over here, make sure nothing goes wrong."

The most important thing they should do now was not to make any mistakes.

As long as they didn't make any faint moves, it would be difficult for the other side to take advantage of it. Even if they were red-eyed and couldn't restrain the greed in their hearts to come over, they would end up like those few soldiers, rolling away in the dust, and might even end up in jail.

But if his own side made a mistake first, then I'm afraid he would be caught out.

Zhao Kai certainly understood this, and he nodded, "Don't worry."

Afterwards, Ji Feng went to Xiao Yuxuan's office. He had wanted to give a shout out to his second brother, Ji Shaolei, and ask him to help him check out the news from Jiangsu and Zhejiang, but when he thought that he had to prepare things for his wedding recently, and he also had to straighten out the relationship between the two sides and so on, it was enough to keep him busy, so Ji Feng put off the idea.

The first thing you need to do is to go to Mang Shi County, Xiao Yuxuan is more or less reluctant, but she also knows that Ji Feng can't always be with her, so she quickly gathered her emotions and asked, "If you go, what should we do about the police?"

Ji Feng said, "Don't care about him."

"Don't care?"

Xiao Yuxuan was a little surprised, "But those few soldiers, they ....."

"Don't care what will happen to them, anyway, we have already sent the surveillance footage to the police, and all the facts have been stated clearly, just see what the police will do with it." Ji Feng said, "Don't care about them now, wait for the police's results to come out, then we can talk!"

Xiao Yuxuan then understood somewhat, "Are you planning to catch the police in the act?"

Ji Feng said, "There are some people who don't seem to be able to live up to this police uniform they're wearing, their asses are sitting crooked and their hearts are not right. Since that's the case, then I'll pick this skin off them! And those few soldiers!"

That evening, Ji Feng received his mother Xiao Sumei at the airport, who had arrived from Yanjing. After resting overnight in Jiangzhou, Ji Feng drove to Mang Shi County with Xiao Sumei early the next morning.

The first thing you need to do is to take a look at the website.

On the road also Ji Feng and Bai Zhu took turns driving, although for them even if they drive the whole way is not talking about fatigue driving, so do so just to not let mother worry.

While the car was speeding on the highway, Zheng Yuanshan, who was far away in South Guangdong, was frowning, holding the phone in his hand, a coldness flashed in his eyes, "Those people, they really did test Ji Feng in Jiangzhou."

The phone call was from one of Zheng Yuanshan's old subordinates in the Jiangzhou Municipal Bureau, who specifically reported the news about the Tengfei Group, which Zheng Yuanshan had a detailed understanding of.

"Ma Yuan ....."

Zheng Yuanshan mulled over this name for a while before he couldn't help but shake his head and laugh uncontrollably, "Who would have thought that a person who was so low-profile at the beginning and was seen by everyone as a good old boy, could actually not help himself now! It seems that the benefits given by those people are really tempting!"

After two cold laughs, Zheng Yuanshan asked again, "Then what did the Jiangzhou Municipal Bureau decide?"

A man's voice came over the phone, "Not sure, this matter was handled by Gao Changcai and Ma Yuan, no one outside knew what was going on, if I hadn't seen Ji Feng and General Manager Xiao of the Tengfei Group go out when I was about to leave work, I wouldn't have known what was going on!"

Zheng Yuanshan smiled, "Good job on keeping the secret."

He said this with a strong sense of irony.

“Zheng Hall may not know, since you left, Jiangzhou City Bureau is considered to have changed the sky, the arrival of Secretary Chen, Gao Changcai was adjusted to the deputy director division of work, the division of work are very important, from then on he is dead to Secretary Chen, immediately spoke out to suggest the adjustment of the division of work of many people in the City Bureau... ..”

Although the person on the phone didn't make it too clear, how knowledgeable was Zheng Yuanshan? He knew what was going on as soon as he heard it. As the saying goes, once a son of God, a minister, after Chen Kui's arrival, of course he had to adjust the work of people below him and promote those who were close to him.

This was normal.

It is even normal for Chen Kui to deliberately erase the traces left by Zheng Yuanshan in the Jiangzhou Municipal Bureau, no matter what Zheng Yuanshan's relationship with Chen Kui is in private.

“I know the matter, Director Chen is also a quite capable person, he can definitely lead you to achieve more and better results, you have to do a good job!” Zheng Yuanshan said.

“..... Yes!”

The voice on the phone was somewhat helpless, “Hall Zheng, I remember what you said.”

Zheng Yuanshan nodded, but he couldn't say much, after all, his status was here!

He suddenly remembered something else and immediately asked, “By the way, where is Li Ruonan, what does she think about this matter?”

“Captain Li?”

The person on the phone couldn't help but smile bitterly, “Captain Li is not in charge of this now, she's too busy falling in love these days, besides, she's a vice captain of the CID, she's not good enough to be a deputy director!”

Zheng Yuanshan was a bit surprised: “Oh? That girl is in love? With whom?”

“Who knows?”

The voice said, “I heard it's a guy who came back from abroad and has been courting Captain Li recently.”

Zheng Yuanshan then laughed, “Heh! I didn't expect that girl to fall in love so suddenly! All right, I know about this, you can work at ease!”

Campus Master Chapter 2558

“Ma Yuan ..... Chen Kui .....”

Hanging up the phone, Zheng Yuanshan sat in his office frowning and whispering to himself, “These two are the ones I've lost sight of!”

Zheng Yuanshan really could not have imagined that the first one to jump out was actually Ma Yuan.

Who would have thought that Ma Yuan, who was almost seen as a good old boy and even a wimp in the Jiangzhou Municipal Bureau, would be the first to jump out, and that there would be such a big change!

Zheng Yuanshan had to admit that he had really misread his own eyes at first.

However, to be able to make Ma Yuan jump out so desperately, even going so far as to go head to head with Ji Feng and Xiao Yuxuan, one would think that some people must have promised him extremely substantial benefits, rewards that were generous enough to make him grit his teeth and gamble a lot.

Zheng Yuanshan couldn't help but shake his head and sneer in his heart. Ma Yuan was so intent on the lucrative rewards that he was spurred on by the tempting benefits that he was red-eyed and black-hearted, but he didn't know if he had ever thought that he might just be a pawn for others, and might not even carry enough weight to be a pawn.

Some people may just intend to use him to test Ji Feng, to test how deep the water is in the Tengfei Group first.

"This man, when he sees profit, his eyes turn red, his heart turns black, and he doesn't care to consider so much!" Zheng Yuanshan couldn't help but shake his head with emotion, this Ma Yuan's transformation really made him feel a lot of emotions.

Zheng Yuanshan was not even that surprised that Chen Kui had changed, because when Zheng Yuanshan first met Chen Kui, he could see that this man had a lot of ambition, or at least was a restless person.

And sure enough!

After many years had passed, now he was sitting on the throne of the Jiangzhou Municipal Bureau, but was restless again.

"But I wonder why Secretary Ji just agreed to Chen Kui sitting in that position?" Zheng Yuanshan shook his head, he had never been able to figure this out, but now, he seemed to have a vague sense of it.

The importance of the Jiangzhou Municipal Bureau Chief, that was beyond doubt, and the significance of such a powerful organ to the city leaders, was likewise extremely important, being able to keep such a powerful organ under control was an important sign to show a senior city official's control over the entire city.

At least, that is what many people would think.

But what Ji Zhenguo did at that time was out of the expectation of many people who did not understand why he did not put one of his own people in that position. At that time, when Qian Hongda visited Ji Zhenguo in Jiangzhou, he had asked the same question, although the question was not very direct, but what was expressed was this meaning.

How they talked about it was not clear to Zheng Yuanshan, but later when he was chatting with Qian Hongda, the latter had talked about this matter, using the words 'politically enlightened' and 'far-reaching in intent'.

Now Zheng Yuanshan had a vague feeling about it.

“The ignorant are fearless!” Zheng Yuanshan shook his head and smiled, picked up the phone and dialed out again, “Old leader, it’s me ..... I was planning to talk to you about Xiao Feng’s matter .....

Anhui East Province, Mang Shi County.

Once again set foot in this small county, Ji Feng has a very different mentality and feeling from the previous visit, even if here because of the backwardness of economic development, the quality of the people is not high, making this place even in the county is very dirty, especially on both sides of the road, one does not pay attention to see a pile of feces, or a pile of rubbish.

But Ji Feng feels very close to this place, this is where he has lived for more than ten years, although most of the memories left here are not very pleasant, but the acquaintance with Tong Lei, and the life and death relationship with Zhang Lei, also began here, as well as the mother and son dependent on each other, also here .....

Of course, the most important thing is that it was here that Ji Feng also met the wise brain!

If it wasn’t for the wise brain, then he really wouldn’t be anything now!

Since the last time Grandpa was sick and Ji Feng and his mother went back to Xiao Jia Zhuang to cure the old man, Ji Feng had Zhang Lei find a way to arrange for his second uncle’s family to come to the county, and also found an easier job for his second aunt and mother, and let the two children go to school in the county – basically everything the rural people wanted, they helped Xiao Guoqing out.

So this time Ji Feng rushed straight to Xiao Guoqing’s home. When they arranged for a place to live in the city, it was Ji Feng who paid for it, but Xiao Guoqing said he was not used to living in that kind of building, so Ji Feng also bought a farmhouse on the edge of the city.

Of course, said farmhouse compound, in fact, just at the edge of the county, with the palm of Mang Shi County, even walking from the east end to the west end of the place is less than an hour, living in the edge of the city naturally there is nothing inconvenient, but also very clean!

“What’s wrong with second uncle’s health?” All this way Ji Feng was thinking about going to Jiangzhe, and only when he was almost at his second uncle’s house did he remember to ask.

“Your second uncle has some problems with his back.”

Xiao Su Mei said, “This time, I let you come over because you are the nephew, mother-uncle and mother-uncle, besides mother is the biggest uncle, you deserve to come and visit, and for another, you can also help your second uncle look at his waist.”

Ji Feng nodded and smiled, “OK! I’ll try my best anyway.”

Seeing that her son no longer had the same attitude of revulsion at the mention of his grandma’s relatives, Xiao Su Mei’s heart was much lighter.

The next thing Ji Feng learned was that the second uncle was not very capable. After coming to the county, the second aunt rented a storefront at the edge of town and opened a small supermarket ..... which was actually a convenience store and earned a decent income.

The second uncle is still doing his old job, recruiting a few workers to continue to do masonry, but he has become a small head, the more the development of the past two years, still become a small contractor with dozens of nearly a hundred men, the annual income is also in the millions of up and down, the days are quite prosperous.

These are all Xiao Su Mei usually know when talking to the second brother on the phone, the heart is also really happy for the second brother, but listen to the second brother said other brothers and sisters is also some eyes red, and even the words seem to have some other meaning.

The company's main business is to provide a wide range of products and services to the market.

Xiao Su Mei looked at him and could only shake her head helplessly.

The car arrived at the entrance of Xiao Guoqing's house, and Ji Feng saw that the original courtyard gate of his second uncle's house had been replaced with two large iron gates.

Obviously, the second uncle's family is living a really good life, not only have all the houses been renovated, the gate is magnificent, private cars are also available ..... In fact, Ji Feng thought, in such a small county, how long can it take to drive the whole county a dozen townships all over again? Here still need to buy a car?

The actual fact is that you can find a lot of people who are not able to get a good deal on a lot of things.

When he entered the living room, Ji Feng saw Xiao Guoqing reclining on the sofa in the living room, wanting to get up but having much difficulty moving, looking difficult for, so he hurriedly stopped him.

After a few people exchanged pleasantries, Xiao Su Mei hurriedly said, "Second brother, let Xiao Feng take a look at your back, it's hard for you to feel this way."

Xiao Guoqing said with a bitter smile, "It's not just uncomfortable, I can't even take care of myself right now, Su Mei, you don't know how many hospitals I've been to, but the doctors say there's no good solution, sigh ....."

Ji Feng said, "Second uncle, this should be a problem of your lumbar spine, you side, I will help you massage."

Xiao Guoqing hurriedly turned slightly sideways with the help of his wife, and Ji Feng then pressed his hand on his waist, in fact when he entered the house just now Ji Feng had already seen Xiao Guoqing's condition, he also used his perspective eye to see it and knew what it was. So once he got his hand on it, he started to activate the bio-current to help Xiao Guoqing comb through his meridians.

"Hiss...!"

Xiao Guoqing instantly sucked in a breath of cold air.

His wife hurriedly asked, "I say, are you in a lot of pain?"

Xiao Guoqing, however, hurriedly waved his hand, only to look at Ji Feng with a stunned expression; he was certainly not in pain, but shocked in his heart. The very moment Ji Feng's hand pressed on his waist, he just felt a warm current rising from his waist and slowly flowing through his body.

If it was said that when Ji Feng was treating the old man before, Xiao Guoqing had only seen how powerful Ji Feng was, but at this moment, he was experiencing Ji Feng's miracle first hand, so he was naturally extraordinarily shocked.

Ji Feng, however, did not show anything and appeared normal, repeatedly massaging Xiao Guoqing for about half an hour before he let go of his hand and said, "There's nothing serious, it's just a blockage in the meridians, I've already helped second uncle unblock it, I'll consolidate it tomorrow, then rest for a while and he'll be fully recovered."

"Really?" Xiao Guoqing hurriedly asked, perhaps too excited, he sat up at once, "Ee? I... I can't believe I'm not in pain anymore?! I'm better?!"

"Is that true?" Xiao Su Mei and Xiao Guoqing's wife were also overjoyed to see this, this was an immediate effect.

"Walking is no problem now, but don't exercise strenuously, you need to rest for a while before you can do it." Ji Feng smiled and said.

"Good, good, it's already very good!" Xiao Guoqing really didn't expect Ji Feng's technique to be so miraculous, this is more than a miracle doctor, "Xiao Feng, second uncle really wants to thank you properly."

"Second uncle, don't be polite, we're all family." Ji Feng laughed.

"That's right, what Little Feng said is right."

Second aunt immediately said, "Just you still want to thank Little Feng? What are you thanking him for? Your family is still the one that Little Feng helped you set up!"

Xiao Guoqing immediately blushed, yes, it was all thanks to Ji Feng that he had gotten to where he was today? What could he do to thank Ji Feng?

Xiao Su Mei said, "Second sister-in-law, that's not right, we're a family, where's the need for so much preoccupation?"

"That's right, we're all family. We are family, we don't talk about family." Xiao Guoqing said with a smile.

His wife was naturally delighted, but she had to say something polite, otherwise she would be ungrateful. In fact, she did not know that in Ji Feng's heart, if he did not care about his second uncle, that would be ungrateful!

"Right, second brother, haven't you picked up mum and dad? Where are they?" Xiao Su Mei suddenly asked.

"This ....."

However, once she asked this, the faces of both Xiao Guoqing and his family were a little unnatural.

Campus Master Chapter 2559

"By the way second brother, didn't you pick up both Mom and Dad? Where are they?" Xiao Su Mei suddenly asked.

“This .....

However, as soon as she asked this, Xiao Guoqing’s two faces were a little unnatural, and the two looked at each other as if they were communicating something with their eyes.

The first thing you need to do is to take a look at your second brother and sister-in-law and you will know that there must be something going on. Is something wrong?”

Xiao Guoqing smiled awkwardly and waved his hand, “Su Mei, don’t worry, nothing is wrong, it’s just that ..... father and mother are not at home right now.”

Xiao Sumei immediately asked: “Then where did they go?”

“They .....

“Second brother you don’t lie to me!” Xiao Guoqing was interrupted by Xiao Sumei as soon as he spoke, “I came back this time, one, because I heard that your health was not good, so I brought Xiao Feng to see you, and two, because I thought that my parents were getting old, so I came back to see them, and if I didn’t see my parents, I wouldn’t leave!”

Although the old father had gone too far in the past and made her and Ji Feng suffer too much, but no matter what, that was still the old father, if not for him where would she be? The old man’s life was not like the old days, so Xiao Sumei’s resentment gradually faded.

The last time she returned home, her mother wiped her tears and pulled herself away from him.

It’s not like she wants her parents to apologize to her first, she has to have this face.

The reason for this visit was to see her parents, but when she saw her second brother, Xiao Guoqing, behaving like this, she instinctively realised that something was going on, so she said something in a hurry.

Xiao Guoqing’s face turned red and he became anxious: “Su Mei, do you think I am abusing my parents? Do you think your second brother is that kind of heartless person?”

Xiao Su Mei immediately asked, “Then where did father and mother go? Second brother, what happened, tell me quickly!”

“This .....

Xiao Guoqing was a little hesitant, his face was also a little difficult, opened his mouth but did not know what to say.

Ji Feng listened next to him and took out a cigarette from his pocket and handed one to his second uncle, but was slapped aside by Xiao Su Mei.

Ji Feng then couldn’t help but shrink his head, well, the old mother was angry!

“Second uncle, you know what kind of temper my mother has, can’t you just say what’s going on?” Ji Feng said helplessly.

“It’s not that I don’t say it, it’s that what .....

“Aiya, it’s better for me to say it!”

Second aunt took over and said, “Su Mei ah, it’s not that your second brother won’t tell you, but this matter, alas, it’s embarrassing to talk about it!”

There was indeed something wrong!

Xiao Su Mei was immediately shocked and asked in a panic, “Second sister-in-law, what is going on? Is it father and mother’s health .....

Second aunt hurriedly said, “Su Mei, don’t be anxious, it’s not their health, otherwise we would have told you already?”

Xiao Su Mei then put her heart down slightly, thinking that it was true, if it was parents’ health problems, then there was no reason for second brother and sister-in-law not to inform themselves, so it must be something else?

“Ugh!”

Second aunt sighed and said, “When it comes to this, your second brother will definitely count me out again and say that I’m complaining. But I’m not really complaining, Su Mei, it’s just that you asked, so I’ll tell you about it.”

Xiao Su Mei nodded and said, “Second sister-in-law, you tell me.”

Second aunt said, “This matter also starts from the last time you and Xiao Feng left. Xiao Feng is a kind and righteous boy, he brought us all to the city, bought us a house and found a job for your second brother.

Ji Feng smiled and waved his hand, “Auntie, if you keep talking like that, I can’t even stay here anymore, I’m leaving!”

Xiao Su Mei also couldn’t help but say, “Second sister-in-law, we have said that we are a family, so there is no need to say polite words, just tell us what is going on.”

Second aunt nodded and said, “Thanks to Xiao Feng, our life is better. Your second brother and I thought that our parents were getting old, and father was very sick and almost died. ”

Xiao Su Mei nodded slightly, she knew about this, she had heard about it when she talked to her second brother on the phone.

“But who would have thought that this trouble would start right after dad and mom came to the city!” The second aunt seemed to be full of resentment when she mentioned it, “After dad and mom came, several other families started gossiping somehow, they said that the reason our life was better was because dad and mom had given us all their life savings .....

The reason why we are doing well is because our parents have given us all their life savings .” Speaking of this, second aunt couldn’t help but smile bitterly, “Su Mei, you know our family’s situation, we are all old people who farm, even if we work hard all our lives, how much money can we earn? Even if our parents had not given us a penny, and we had to pay them back, even if they had given us all the money

without eating or drinking for the rest of our lives, how much could we have? Don't you think that's a bit offensive?"

Xiao Su Mei nodded slowly, and the anxious look on her face faded away, she knew what it was probably about as soon as she heard it, it was obvious that the 'other few sons' that second sister-in-law was referring to were the other few siblings.

It was this kind of mess again!

It was no wonder that Second Brother was reluctant to talk about it, it was indeed a shame to make a scene about such things, especially since Second Brother's instinctive and straightforward character seemed even more reluctant to mention it.

"Second sister-in-law, you go on." Xiao Su Mei said.

"Originally, your second brother and I planned to explain to them, but who knew that they wouldn't believe it at all."

Second Aunt said, "Later on, Old Fifth proposed that he wanted to join us in the contract work, but you know what the men in Old Fifth's family are like, so your Second Brother didn't agree. At this time, other people also offered to take part in the work, and even father followed suit!"

"Su Mei, you also know that the contracting of work is not something that can be done by just a few people, there are many things involved.

At this time, Xiao Guoqing couldn't help himself and complained, "I told father this, but he said that I had no conscience, that I didn't know how to take care of my siblings when I was well off, and I don't know what they told father, but as a result, father and mother looked at me unfavourably, and even some time ago, father directly moved back to the Xiao family estate."

Second aunt immediately said, "Father even left word when he was leaving, saying that when we agreed, they would come back again, otherwise, even if they died in the Xiao Family Village, they would not let us care."

Xiao Su Mei heard this and felt very uncomfortable, she couldn't help but sigh and asked, "Then what is Mother's opinion?"

Xiao Guoqing said, "What opinion can Mother, an old woman who can't even read or write, have? In fact, she also wants to involve others. But it's not that I'm eating alone, they're just not cut out for it!"

Xiao Su Mei's eyebrows knitted slightly: "Then don't let them get involved! Although we don't have any buildings with dozens of storeys, no matter how tall they are, the quality must be up to scratch!"

Although Xiao Su Mei did not know anything about engineering, her eyesight was extremely broad, and she was often able to come into contact with things that many people did not know about, and she often heard about some tofu-dreg projects, and even things that resulted in heavy deaths and injuries happened from time to time. Therefore, Xiao Su Mei attached great importance to the quality of the project and specifically urged Xiao Guoqing to do so.

Xiao Guoqing said, "Su Mei, don't worry about this, your second brother is working with conscience and earning money with conscience."

“That’s good.”

Xiao Su Mei was relieved, she also knew that her second brother was an honest man, not bad in nature, and it was not a big construction company, just a small engineering team, there was no harm.

Xiao Guoqing and his family complained for a while and said nothing more. Second aunt was busy preparing the meal, while Xiao Guoqing talked about some of his other siblings and also about some new things happening in Mang Shi County.

“Su Mei, father and mother are there .....”

“I’ll go see them tomorrow.” Xiao Su Mei said.

“Then if dad and mom bring up the matter of participation, you can’t spit it out easily.” Xiao Guoqing said, “It’s really not that I’m not willing to help, it’s really because none of them are material for this, even if I have to take out some money every year I’m willing, my parents there I’m also willing to raise alone, and I don’t want a single mu of the family land! Moreover, apart from the oldest three, several other families are still living OK .....”

“Second brother, I have a measure.” Xiao Su Mei said.

Xiao Guoqing was only slightly relieved, but couldn’t help but sigh, other families’ siblings could all get along well, but how come their old Xiao family was in this mess!

In the past, when the family was poor, the eldest and his siblings were doing well, but when the old man was sick, they didn’t even ask him, let alone help him, and now when they saw that he was making money from the project, they all came around like sharks who had smelled something fishy, and even encouraged his parents to force him.

“Then I’ll go back with you tomorrow and see if I can get my parents back.” Xiao Guoqing said, saying he couldn’t help but shake his head again, “I’ve gone to pick them up three or four times, but every time I’ve been chopped up and counted .....”

“Tomorrow I will go and talk to them.” Xiao Su Mei said, she was also a little angry in her heart, these people’s behavior, more or less unbecoming.

Campus Master Chapter 2560

That night, Ji Feng and the others rested at second uncle Xiao Guoqing’s house.

However, Ji Feng did not rush off to bed, but waited until his mother had finished washing up and returned.

When Xiao Su Mei saw her son waiting at the door, she couldn’t help shaking her head and smiling, asking, “Little Feng, why aren’t you going to bed yet, what are you doing here?”

Ji Feng touched his nose and said, “So what ..... mum, how are you going to talk to grandparents when you go to see them tomorrow?”

Xiao Su Mei said, “I knew it, you must be waiting here for this matter.”

She had raised Ji Feng since he was a child, and she knew what he wanted when he opened his mouth.

The first time I saw you, I knew you'd be here.

"Care a little ....."

Xiao Su Mei hummed, how could she not guess what Ji Feng wanted? She couldn't help but ask: "Then how do you think, mum should talk to them?"

The first thing you need to do is to talk about family matters. You and grandparents haven't seen each other for a while, so you must miss them too.

Xiao Soumei asked, "What about other than chatting about family matters?"

"Other than that ..... then I don't know." Ji Feng shook his head and said.

"Brat!"

Xiao Su Mei then couldn't help but laugh and scold, "Are you worried that mum will make blind promises to them when she goes back?"

Ji Feng laughed heatedly and didn't say anything, sort of acquiescing.

In fact, Ji Feng was really worried that when mum saw those brothers and sisters after arriving at Xiao Jia Zhuang, and then saw grandmother wipe her tears, her heart would be soft and promise everything, that would be troublesome.

If those are normal relatives, not to mention whether they are capable or not, even if they are not capable, Ji Feng is happy to arrange a good job for them, even if it is to give them the agency of Kang Yuan slimming powder or 3D TV, there is no problem.

It is only right to take care of one's relatives, who makes China itself a humane society?

But the problem is, how many of these so-called relatives treat them with sincerity and truly treat them as family, just like other people's relatives?

The lessons and impressions given to Ji Feng from the past were too deep, and although he had stopped counting and figured it out, deep down he really couldn't treat them as family!

Ji Feng could forgive his grandparents, that was because they were his mother's parents, this was an unchangeable fact, he didn't want to make his mother sad, and he could also understand that feeling of shame that comes from being a parent who sees that his daughter has had a child with some man.

I'm afraid that if it were anyone else, they'd be angry and lose face. It's just that the way one treats one's daughter and grandson when things are settled must vary from person to person, because not everyone puts face above life like Grandpa, and not everyone is as cold-hearted as he is!

But exasperation was a certainty.

So Ji Feng was able to understand their two elders after thinking differently, but several other aunts and uncles, Ji Feng really ..... did not know what to say to describe it.

At least up to now, Ji Feng if he had a choice, definitely not willing to get involved with them in any way!

Seeing her son's appearance, how could Xiao Sumei not know what her son was thinking, and she couldn't help but let out a soft sigh, also very helpless. Those siblings were really too unlikeable, but .....

"Mom, don't be upset, in fact, I don't let you promise them, on the other hand, it's for their own good." Ji Feng said.

"You brat, doing thought work for mum?" Xiao Su Mei said.

Ji Feng laughed, "I'm telling the truth, mum, you sit down first."

He helped Xiao Sumei to sit down before saying, "Mom, let's not talk about anything else, just from the perspective of an onlooker, my great uncle and others, are they really career material? Even if I give them part of the business of the Tengfei Group, will they really be able to do a good job?"

Xiao Su Mei was dumbfounded, she was hard pressed to know what to say to these questions from her son.

Ji Feng said, "Mom, you also heard second uncle say that several other families are doing okay, that means it's not hard, I think this kind of life is the best for them now instead, if we really give them a fortune, I'm afraid it will still harm them, don't you think?"

Xiao Su Mei sighed lightly, "Mom knows what you mean, it's getting late, go get some rest."

Ji Feng gave an eep.

The next day when they got up early, second aunt had already made breakfast, after eating, the group drove to the Xiao family estate.

Because Xiao Guoqing had already called several other siblings yesterday, so when Ji Feng and his group arrived at the Xiao Family Village, they saw a young man standing at the entrance of the village waiting, and as soon as he saw the car coming he immediately greeted him and greeted him with a smile.

"Second uncle, second aunt, little aunt ..... this is cousin Ji Feng, right?"

"Yuan gong, where is your father and them?" Xiao Guoqing asked as he sat in the car.

"They're all at grandma's house." The young man who was called Yuan Gou said, "Knowing that you were coming, I purposely waited here."

Xiao Guoqing said, "Su Mei, you don't know him yet, this is big brother's child, called Yuan Gou."

Xiao Su Mei was stunned, "This is Yuan Gong? He's grown so much?"

Xiao Yuanzhu immediately called out to his little aunt and smiled, "I haven't seen him for many years, of course my little aunt doesn't recognise me."

Xiao Su Mei hurriedly said, "Don't stand down there, hurry up and come up, this child, he has really grown up in a flash, he doesn't even recognize me ....."

Xiao Yuanzhi is not polite, pull open the car door and sat up, very enthusiastic and Xiao Su Mei on chatting up.

The first thing you need to do is to get a good idea of what you are getting into.

However, Ji Feng did not move a muscle, it seems that among those children who bullied him back then, there was this first cousin, but after all, so many years had passed, Ji Feng was right to forget about the past.

On the way, Xiao Yuanzhi also said a few words to Ji Feng from time to time, and Ji Feng only responded politely, without the slightest arrogance, let alone indifference, and did a good job of being polite.

But, it was only a courtesy!

Just as Xiao Yuan Gao came to greet him, there were people passing by from time to time on the road, and when they saw that it was Xiao Su Mei who had returned, they couldn't help but reveal envious expressions.

Since the last incident, everyone in the entire Xiao family knew that Xiao Su Mei had made great achievements outside the home, and that Xiao Guoqing was now doing quite well in the county, so those who had originally dared to ridicule and sarcasm the old Xiao family to their faces could now only say a few sour words behind their backs, but they did not dare to go too far.

They still remember the ruthlessness of the bodyguards Xiao Su Mei brought with her last time.

The Xiao family estate is very small, and it only took a few minutes to drive from the village entrance to the old lady's house. When several people got out of the car, they realized that there were quite a few people in the courtyard, and when Ji Feng took a glance, he found that all the people he had seen on his last visit were there, and even more young people and children, probably the children of several families.

Of course, Ji Feng also saw a drunken looking third uncle, Xiao Guoqiang, who never leaves the house without a drink, and was indeed a bit high on alcohol again.

Xiao Sumei and Ji Feng's arrival undoubtedly added to the lively atmosphere in the courtyard, regardless of what other people thought, but at least the old lady was genuinely happy, pulling her youngest daughter to shush and ask questions, and pulling Ji Feng to ask a lot of questions.

As for the old man who was sitting in the hall next to the eight immortals table, he did not come out.

After exchanging pleasantries, a half-grown boy brought out stools from the house and asked Xiao Sumei and the others to sit down, as there were trees in the yard anyway and the weather was not hot in the morning, but cool.

Xiao Sumei wanted to go to the hall to see her father, but the old lady pulled her away.

"Leave that old man alone, he thinks he's right about everything, pulling a face for whoever he wants to see!" The old lady huffed, "If he doesn't come out, you should ignore him, he still doesn't know he's wrong, he's lived a long life for nothing!"

If it wasn't for this old man, you wouldn't have suffered so much all these years. In the end, it's a good thing you're doing well, otherwise I wouldn't even be able to go to my coffin."

"Mother, the past is in the past, so don't mention it!" Xiao Su Mei hastened to comfort her.

“Yes, Mother, Su Mei is right, the past is in the past, so why mention it?” The others also persuaded one after another.

Ji Feng looked on coldly, the corners of his mouth with a smile if anything, these people’s persuasion was genuine, but I’m afraid it wasn’t because they were worried about the old lady being sad, but that going over old scores would turn their mother’s and their own hearts against them, right?

The old lady only complained a couple of times under the persuasion of the people, and then she stopped talking, but then she looked at the old man in the hall, but he stood up and turned around and went to the inner room, thinking that he couldn’t listen anymore, knowing that he was in the wrong, but he couldn’t pull his face down and come out, so he had to go to the inner room.

Ji Feng pretended not to see, just leisurely took out a cigarette and smoked, anyway, he came today only to accompany his mother to visit relatives, but to say that relatives, here in addition to second uncle, he really do not know which relatives .....

The first time I came here, it was a far cry from the first time I came here, so I’m afraid I don’t believe them if I say they don’t have an agenda.

As expected, as we chatted, some people talked about life, and then some people began to complain about the hard times of their own families, and explicitly and implicitly said that the Lao Er family’s days were better, and so on.

“Su Mei, are you thirsty? Just in time, I have home-made canned crispy pears at home, I’ll take you to try them?” Finally, the wife of the eldest Xiao Guoliang was the first to sit down.
