After the police left, Ji Feng let Bai Zhu go to rest at ease, but he himself was lying on the bed with his eyes closed, but he could not sleep.

In fact, Ji Feng could have argued the case, or even taken the surveillance video to report the police officers for brutal law enforcement, but he didn't pursue it, not because he was kind, but because there was no need for it now.

They are just lapdogs who work for others. To argue with these people would distract him and waste his time.

It was not too late to settle some scores later.

The most important thing now was to get rid of those who were bent on dealing with him!

But this succession of events has made Ji Feng realize that his original methods and strategies must be adjusted to some extent, because he is now facing more than just those in the officialdom.

The officialdom, the business world, the black `doors, and the powerful government officials are all his enemies, and it can be said that he is facing an almost all-round threat.

In the official arena, the three major factions have joined forces in targeting his family, and perhaps underneath the undercurrents, there are deeper hidden characters, and these people may secretly strike when necessary to bring down the Ji family, and everyone can say that they are encroaching on and dividing up the Ji family's interests.

In the business world, how many large groups in Jiangsu and Zhejiang have ties with the officialdom? I'm afraid there are too many to count!

These rich businessmen and tycoons in the business world, they also have huge energy, and these people, it seems, are implicitly targeting Tong Kai De and other officials in the Ji family line, forcing them to struggle!

There are likewise people in the underworld, and the Song family seems to be the leading boss in the Jiangzhe underworld, whose energy naturally goes without saying.

There is also the so-called Five Young Men of Jiangsu and Zhejiang

These people can use any kind of means against him, for example, tonight, I'm afraid that for some people it's just a matter of a phone call, and there are police officers who come over in a rage to check the room.

Perhaps, tomorrow, it could be the murderous killers of the road who come again!

In this piece of land in Jiangsu and Zhejiang, the energy of the other side is just too huge, it can be said that this is definitely an extremely huge power group, it is not too much to say so!

Now Ji Feng was finally able to understand why he often heard his second brother say that the local vassals were often more powerful than some of the families in Yanjing, and the reason for this was that

these vassals were so huge in their local operations that they almost had a horizontal presence in the official market and the mall, and their methods were endless.

If the local vassals were to go to Yanjing, they might not mean anything in front of the Yanjing families, but if they were to be entrenched at the local level, it would be like a monster with thorns all over its body!

Now that he was in Jiangsu and Zhejiang, he was facing such a beast, and one that was extremely powerful and always thinking of attacking him!

So, he had to make some adjustments.

Ji Feng was thinking calmly, he had to do everything he could to pull out the thorns of this beast one by one, and finally stab it hard, to bleed it dry!

The midnight pondering had given Ji Feng a general idea in his heart, and the news he received early in the morning immediately afterwards lifted his spirits even more.

Yi Xingchen and Zhao Kai were here!

Along with them, there was Yao Zhijian, an expert sniper!

If they added another Guo Tao, at least in terms of force, Ji Feng no longer needed to fear anyone, no matter if the other party was a gang or some black's godfather!

However, Ji Feng did not let Yi Xingchen and the others come over, instead he let them find their own place to stay, he just let Zhao Kai come over, there were some things that needed to be discussed.

After listening to him tell the whole story, Zhao Kai couldn't help but say, "I think, I have two ways to go, first, start with the enterprises, investigate the problems of these enterprises, and then follow the vine, in the end, we can definitely involve the big tiger! Second, also follow our approach in the Northeast, start with the black's gang!"

Ji Feng nodded slowly, as if he was thinking.

"Only, if we start with the black `gang, then we must have enough power to operate, like in the northeast when there are troops that can be mobilized, but here" Zhao Kai's inquiring eyes looked at Ji Feng, but the latter shook his head.

"Now is different from when we were in the northeast, here there are just a few of us, the troops can't be mobilized for now." Ji Feng said.

The Ji family didn't have any deep pockets in Jiangzhe, and there weren't many forces in the shadows, so mobilising the troops would definitely alert the other side.

Zhao Kai said, "Then will have to start with the business sector, now there are only a few enterprises in China that are not fishy, it's just the size of the problem, find a way to find out the problem!"

"Difficult!"

Ji Feng shook his head: "As an outsider, it's not easy to find out what's wrong with a large group of companies."

Zhao Kai said in a deep voice: "Then we'll start with the executives of the business!"

"Hmm?" Ji Feng didn't quite understand.

"Ji Feng, you give me a few competent people, I'll do this!" Zhao Kai said in a deep voice, "Don't worry about how I do it, I will definitely find out the problem in the shortest possible time!"

Ji Feng immediately understood Zhao Kai's meaning, he was going to use unseen means to target the executives of the enterprise, "These executives must know something fishy, it's a way to start with them. However, this method is not safe, for example, the East City Group, assuming that the East City Group has problems or is involved in power and money transactions, but we do not know, this kind of transaction is between who and who, rashly strike, is not appropriate."

Zhao Kai said, "That's why I said, I'll take care of this matter!"

Even if something went wrong, Zhao Kai would bear the burden alone and would not be able to involve Ji Feng.

Ji Feng then furrowed his brow and pondered.

Seeing this, Zhao Kai couldn't help but say, "Ji Feng, now we are facing as if we are an iron pass general power group, with our current strength, we can say that a needle can't be inserted into the water, only by forcibly breaking the barriers and breaking the surface with a point, so that we can open up the situation!"

A soldier will die for his own good!

Zhao Kai didn't care what would happen to him, just because Ji Feng ran thousands of miles and saved his father, Zhao Kai was willing to go and do anything for Ji Feng.

"No way!"

Ji Feng shook his head and said without hesitation, "This idea is something you should dismiss before it's too late, all right"

Before he could finish his words, he heard the phone ring.

Ji Feng took out his phone and found that it was Han Zhen calling, and he immediately picked up.

"Young Ji, we've run into some trouble." As soon as the phone was connected, he heard Han Zhen say.

"Slow down, tell us clearly what's going on and where you guys are?" Ji Feng smiled and immediately frowned.

"Today, Lei Lei and I accompanied my aunt to the mall, but we bumped over a piece of porcelain at the entrance, and they said it was an antique and asked us to compensate for one million", Han Zhen hurriedly told what had happened and gave the address.

"You guys don't clash with each other first, I'll be there soon!" Ji Feng said, already standing up and walking towards the outside, while waving a hand to Zhao Kai to indicate him to follow.

The place where it happened was in the square at the entrance of a shopping mall. As soon as Ji Feng arrived at the place, he could see many stalls from afar, including those selling clothes, miscellaneous items, and a piece of porcelain.

Just near one of the stalls selling porcelain, a group of people were gathered around not knowing what they were doing, and someone was vaguely arguing inside.

Ji Feng immediately walked over and squeezed through the crowd to take a look inside, and indeed he saw the three children's mothers standing together, with two men talking about something opposite them.

He saw that Tong Lei had a cold pretty face, Han Zhen was extra alert, while Tong's mother was furious and sullen.

"One million, not a penny less!"

A bald man in his thirties, with a face full of flesh, looked extremely vicious: "This vase was handed down from the Ming Dynasty, if it had been put up for auction it could have been sold for a million and two, now I only want one million from you, which is already very reasonable!"

"You are clearly banging on the porcelain!" The child's mother said angrily, "One million? You're blackmailing me!"

"Blackmail?"

The bald man grunted, "If I wanted to extort you, I would have asked for 10 million! Cut the crap, hurry up and pay up, I'm still waiting for business!"

The people around them staggered at the words and murmured.

"A million dollars, how dare he ask for it, is that really an antique?"

"Antique my ass!"

One of the people next to him said disdainfully, "It's all poor quality porcelain, can't you see, some of the porcelain shapes are not very regular, that's the scrap of the porcelain factory, they use it to sell cheap."

"Then how dare they ask for a million?" Someone next to me asked.

"Blackmail!"

The man seemed to be familiar with these people and said in a low voice: "You don't know, these people are hooligans of the Golden Dragon Gang, they often do this kind of blackmailing bad things, you just came and didn't see it, just now I saw it with my own eyes, that bald head saw some people passing by, he deliberately moved the vase to the side, which let the lady touch it."

"The Golden Dragon Gang?"

"No, I heard that the Golden Dragon Gang is backed by the Song family, Song Jinlong you all know, right?"

“So it’s the Golden Dragon Gang, no wonder, they dare to blackmail in broad daylight like that!”

“Yes, it’s also that lady’s bad luck, how come she let these hooligans set her sights on her, it’s really

The other people heard the words, can’t help but are a little shocked, looking at the three children’s mother’s gaze, can’t help but bring some sympathy, unexpectedly by the Golden Dragon Gang’s hooligans to target, this is really unlucky ah.

And at this time, the crowd of Ji Feng is heard to understand, this is really injustice, ah, here actually ran into the Song family, the Golden Dragon Gang this Song Jinlong, is Song Mingyuan’s old son, is also the Golden Dragon Gang’s godfather.

And listening to the onlookers talk, this Golden Dragon Gang’s reputation is obviously also bad to a certain extent, but the more this is the case, instead, the more no one dares to mess with it, and even more no one dares to come out and testify.

Don’t look at what that man said just now, but Ji Feng could guarantee that if he were to come out and testify, he would definitely turn his head and run.

So, Ji Feng dismissed the idea and walked straight over!

He originally hadn’t planned to touch the Golden Dragon Gang this early, but now since the other party had provoked his family there was nothing more to be said!

Campus Master Chapter 2583

Ji Feng and Guo Tao were still meeting in the suburbs, however, this time Bai Zhu was not following them, but was on guard at a distance.

Now that Guo Tao’s identity was still hidden, I was afraid that the other party did not yet know that Ji Feng had brought a few people to Hangzhou, which was very advantageous for Ji Feng.

“Boss, the situation has basically been mapped out.”

Ji Feng didn’t use his car, but got into a car rented by Guo Tao, and after getting in and sitting down, Guo Tao said with a vague hint of excitement, “President Su of the East Sea Group has provided me with a very important situation, here is the information.”

As he spoke, Guo Tao took out a piece of information and handed it to Ji Feng, who flipped through it, which was mostly the personal data of some officials in Jiangsu and Zhejiang, including some famous rich businessmen.

When Guo Tao saw that Ji Feng’s gaze mainly rested on the list of those rich businessmen, he explained, “Mr. Su said that the businessmen on this list are all connected to the officials above, and they are still very close to each other.”

Ji Feng then understood that the so-called very close relationship actually meant, to put it bluntly, that there was collusion between them, or that they were wearing the same trousers.

“Very good!”

Ji Feng was satisfied to see this list and praised, “Old Guo, well done.”

Guo Tao said, "This is all because of the strong support from Mr. Su, otherwise, it would not have been easy to get such a detailed list, I did a cursory check on the way here, there are several enterprises among them, which were once even investigated and dealt with, and the leaders responsible for dealing with them are the ones who are closely related to them on this. If it wasn't for this information given by Mr. Su, we would never have thought that they were in cahoots!"

When Guo Tao looked into this at the time, he was also very stunned.

For example, this was a trading enterprise in which the daughter of a leader of Hangzhou City had a large share, but looking at the news on the internet, it was surprising that this city leader had investigated and dealt with this enterprise half a year ago.

If one took a look at this news at first glance, anyone would think that this enterprise had probably offended this leader, but who would have thought that they were in fact in cahoots themselves?

"A blindfold!"

Ji Feng sneered: "Using this method to set aside the relationship with oneself, but in fact privately are in collusion, yet will not make people suspect"

He couldn't help but shake his head, the officials in China can really have great wisdom!

They can think of ways that you never thought of or even could not think of, to their personal benefit, in this regard, they simply put human wisdom, the old ancestors left behind the art of war strategy are used to the extreme, but very few officials cause for the people's lives to bother even a little bit more brain!

This is the characteristic of Chinese officials! This is their strength!

"With this information, we can act in a targeted manner." Ji Feng said, "I have to thank Mr. Su for this time."

"Well!"

Guo Tao agreed with Ji Feng's words, "When our operation is successful, we can find an opportunity to go and thank General Su specifically later."

Ji Feng smiled, but did not answer the question.

Guo Tao didn't pay attention either, but said, "Boss, besides this list, Mr. Su also gave me an important situation."

"Oh?"

Ji Feng immediately asked, "What's the situation?"

Guo Tao said, "It's about the Golden Dragon Gang It's that Song Mingyuan, one of the five young men of Jiangsu and Zhejiang, and their family's gang."

The Golden Dragon Gang?

Ji Feng smiled and immediately became interested, he was about to think of a way to pry into the Golden Dragon Gang, Guo Tao's side had already inquired about it, which was right up their alley.

"The leader of the Golden Dragon Gang is named Song Jinlong, a native of Jiangsu and Zhejiang, who was imprisoned for seriously injuring people when he was young. After he was released from prison, he started to get involved in the scrap recycling industry, but instead of doing business by proper means, he used violent means to threaten and beat people, and soon dominated the market."

Guo Tao introduced, "Through this industry, Song Jinlong could be said to have made a fortune, and soon made a fortune!"

"The scrap recycling industry is, indeed, very lucrative!" Ji Feng nodded his head.

Before the economic crisis, the scrap recycling industry could even be said to be a profitable industry, although it might sound a bit unpleasant to be called 'rag collectors', but in reality, the profits of this industry were so big that laymen could not even imagine it.

The profits of this industry are even bigger especially in the early days. In the past, when Ji Feng was in Mang Shi County, he had come into contact with this industry, when he and his mother were dependent on each other, his mother for a period of time relied on collecting scrap to sell money to support him.

At that time in Mang Shi County several recycling scrap sites, each site owner in just a few years time became a millionaire, you know, more than a decade ago more than a million, can be far from the money can be compared to now, and this, but also in a small county, you can imagine how profitable the scrap recycling industry was at that time!

The orphanage that Wang Xin and Wang Hu both grew up in, the old director was relying on scrap collecting to open a kiosk to support so many children.

So for this industry, Ji Feng was still very familiar with it.

"You go on!" Ji Feng said.

"Mm."

Guo Tao nodded and said, "This Song Jinlong, after he made his fortune, but did not follow the right path, because he himself made his fortune by violent means, so he was most afraid of others using violent means against him as well, so even when he got rich, he did not give up violence, instead he relied more on it, he raised a gang of thugs to specifically target his competitors. There was once someone who was crippled alive for competing with him, and even General Su said that Song Jinlong probably had a human life on his hands when he was young!"

Ji Feng listened and pondered, from Guo Tao's description he was able to approximately see the character of this person Song Jinlong, greedy, domineering, ferocious and vicious

"Later on, the bigger Song Jinlong became, he started to get involved in other industries, he also took violent means, but the business became too big, and he had more and more thugs under him, and later on, there was the Golden Dragon Gang." Guo Tao said.

"So, the Golden Dragon Gang was only there to help Song Jinlong fight his competitors? Then can this be considered a gang? It's just an organization of fighters, right?" Ji Feng asked.

“That was only in the beginning, later on the Golden Dragon Gang also had its own business, and Song Jinlong had money, the top also got on the line, the Golden Dragon Gang started to do other businesses, Song Jinlong later opened a trading company, under which there are still a dozen car 4s shops!”

Guo Tao said, “But, Mr. Su revealed, in fact, although these 4s shops are very profitable, but may not be Song Jinlong’s main source of economy, his main money-making channels now, one is the various businesses of the Golden Dragon Group, and the second, is the car smuggling business of the Golden Dragon Gang!”

Ji Feng was stunned, “Car smuggling?”

Guo Tao nodded and said, “Mm. Mr. Su said that a large part of the 4s shops under the Golden Dragon Group were actually illegal businesses, that is, selling smuggled cars!”

Ji Feng instantly caught the point keenly and immediately asked, “Can you be sure?”

“Can!”

Guo Tao nodded his head.

Ji Feng immediately asked again, “Then, do you know how they operate?”

Guo Tao nodded and said, “This point was also mentioned by Mr. Su, Song Jinlong’s original trading company, although it had changed its legal person, everyone knew that it was actually his property, and that legal person was just a stand-in. Song Jinlong first shipped in the smuggled cars through that trading company, and then, sent them to the 4s shops under the Golden Dragon Group for refitting, but of course, we can’t rule out that they also have a secret repair shop or refitting point, and when the cars are packed up, then they are sold through the channels of the Golden Dragon Gang! By and large, that should be it.”

“Should?” Ji Feng frowned.

“These are all what Mr. Su said, but I haven’t had time to check the specifics yet, so I’m rushing to inform you first.” Guo Tao said.

Ji Feng nodded slowly, it was already very good that Guo Tao could understand so much in such a short period of time.

He mused, “In other words, the one most worth keeping an eye on now is Song Jinlong!”

Song Jinlong was involved in the triad’s society, smuggling, and power and money deals with the top – Song Jinlong’s business was so big that if there was no one above him to cover him, even if he had ten lives, he would have been shot a hundred times already!

So obviously, someone up there must be sheltering him and acting as his umbrella!

But there is no doubt that no matter who is behind him and shielding him, it is 100% certain that he has been carrying out criminal activities, and all his actions, involve major crimes!

As long as he can be caught with conclusive evidence of his crimes, no matter who it is, no one will be able to say anything at that time!

Once Song Jinlong falls, how many people will be involved, I'm afraid even Song Jinlong himself doesn't know!

"Old Guo, you'll have to work hard next, keep an eye on the Golden Dragon Gang, and do everything you can to find out about the Golden Dragon Gang's smuggling channels, as well as their refitting points, it's best to find out the sales channels as well." Ji Feng said in a deep voice.

"I'll do my best!" Guo Tao said without hesitation.

"Old Guo, this time we really have to fight to get it done." Ji Feng said in a deep voice, "Right now I am at a loss, the Golden Dragon Gang is a perfect entry point, as long as we can seize this, we will have a chance to turn defeat into victory, understand?"

Seeing the solemnity of Ji Feng's words, Guo Tao immediately nodded heavily and said, "Boss, please rest assured, I will do my best!"

Ji Feng nodded, "Then I'll be counting on you!"

Guo Tao thought for a moment and said, "Boss, I may need some manpower, it will take time for me alone to find out, and it will be difficult to trace if there are not enough people"

Ji Feng shook his head and said, "There are no manpower, just a few of us."

"Then ask for Su's help again?" Guo Tao suggested, "Although the East Sea Gang is not as strong as the Golden Dragon Gang, but after all, it is also the local snake in Hangzhou, so it would be easy to investigate something, if we can obtain the help of General Su, we will definitely be able to catch the Golden Dragon Gang's handle in the shortest time, and even grasp the conclusive evidence!"

"But"

Speaking here, Guo Tao hesitated, "This favor is too big, I'm afraid that you need to personally go out and talk to General Manager Su, you see"

I go to find Su Yayun?

.....

Campus Master Chapter 2584

Hearing Guo Tao's suggestion, Ji Feng couldn't help but hesitate a little.

Go to Su Yayun

Ji Feng always had some squirms in his heart, remembering what happened that night, he was a little hesitant because he didn't know how to face Su Yayun.

That day, did Su Yayun know or not?

Ji Feng was not sure, so he was very unsure in his heart.

"Su Yayun's place, I don't want to go see her for now." Ji Feng said vaguely and asked, "Is there any other way?"

“Boss, as you know, the Golden Dragon Gang must be doing quite a covert job of smuggling cars, and there must be an umbrella above it, so if you don’t have enough manpower, or enough accurate intelligence, it’s hard to get evidence.” Guo Tao said.

He didn’t ask Ji Feng why he didn’t want to see Su Yayun, if Ji Feng wanted to talk about it he would definitely tell him, if Ji Feng didn’t want to talk about it, he as a subordinate would definitely not ask more questions.

In this respect, he was very much like Liu Zejun. If it was Yi Xingchen here, he would have been able to communicate with Ji Feng as an equal and would have discussed it in depth.

Ji Feng nodded slowly and said, “Then ……”

“By the way.”

Guo Tao suddenly remembered something and shook his head, “Boss, if you don’t want to look for General Manager Su, then we can go to General Manager Zhou of Shengshi Group.”

Ji Feng frowned, “Looking for Fei Fei Zhou?”

“Yes.”

Guo Tao said, “Boss, I remember that you have a good relationship with General Manager Zhou, and I have inquired this time that the Zhou family is also very powerful in Jiangsu and Zhejiang, so I believe she will definitely be able to help us.”

Last time when Ji Yuwen, the eldest lady of the Treasure Island Bamboo Association Gang, went to Jiangsu and Zhejiang, she was set upon by the Kepong Yamaguchi Group and the Jiangsu and Zhejiang Dragon Tiger Gang, and at that time, Fei Fei Zhou was also implicated in it and almost suffered from a pool of fish, but as a result, she didn’t think that Xu, the General Manager of Xiao’s Pharmaceutical Factory, was the one who had a great grudge against the Dragon Tiger Gang.

So, Ji Feng took action to destroy the Dragon Tiger Gang together with the East China Sea Gang, and even captured the leader of the gang, Xu Long, alive, and saved Ji YuYi and Zhou FeiFei.

From this perspective, both Zhou Fei Fei and Ji Yu Yi owed Ji Feng a considerable favour. Moreover, it seemed that Ji Feng had a good personal relationship with Fei Fei Zhou.

Now if he went to Zhou Fei Fei, I believe she would help.

Ji Feng couldn’t help but shake his head and smile at his words, “That’s right, the Zhou family is indeed very powerful in Jiangsu and Zhejiang, but don’t you forget that Zhou Fei Fei’s younger brother, Zhou Shilin, is also one of the five young men of Jiangsu and Zhejiang, and what we are dealing with now is also one of the five young men of Jiangsu and Zhejiang, do you think it’s appropriate to look for Zhou Fei Fei?”

Guo Tao was stunned, this hadn’t occurred to him.

Ji Feng added: “Besides, Zhou Shilin could almost be said to have been sent to prison by me, do you think we can still go after Zhou Fei Fei?”

“.....”

Guo Tao then couldn't help but smile bitterly, "I didn't think about that."

In fact, Guo Tao mainly saw that Zhou Fei Fei and Ji Feng had a good relationship and ended up overlooking this point, after all, even after Zhou Shilin was sent to prison, Ji Feng and Zhou Fei Fei's relationship seemed to be okay, so Guo Tao subconsciously forgot that there was such a thing.

"Boss, are you worried that not only will Fei Fei Zhou not help us by then, but he will also make trouble out of it?" Guo Tao asked.

"It's not appropriate to find her!"

Ji Feng didn't answer positively, he just mused, "Think again, is there any other way."

In fact, Ji Feng wasn't worried that Zhou Fei Fei would make trouble out of it when the time came. Although he wouldn't trust Zhou Fei Fei as unreservedly as he did his real own people, he knew through his contact with her that she wasn't that kind of person, and if he went to her, she should help.

However, Ji Feng didn't want her to get involved for no reason too. This time it didn't seem like anything yet, but in reality it was very dangerous, so why should he let Zhou Fei Fei get involved?

"Think about it again." Ji Feng said, "I'll take this information back first and look at it before deciding."

"Understood." Guo Tao nodded his head.

Ji Feng got down from the car and Guo Tao drove off by himself first.

About ten minutes later, Bai Zhu received a call from Ji Feng and then drove over to pick him up. From afar, he could see two cars trailing behind the BMW x6, obviously people who were following them.

"No one else is following, right?" Getting into the car, Ji Feng asked.

"No one was found!"

Bai Zhu shook her head, her eyebrows slightly knitted, and said, "However, those two cars are following very close and it's also obvious that they don't seem to be afraid of discovery at all."

Ji Feng sneered, "They're thinking that we can't do anything to them! There's no fear!"

Bai Zhu looked cold: "Do you want me to go teach them a lesson?!"

Ji Feng waved his hand, "Forget it, it's better to let them follow, let them be arrogant for a while now, then we can talk about it later."

Bai Zhu was more or less reluctant, no one wanted to just stand by and watch people watching them all the time, it was like having no personal freedom at all, especially when the other party was so arrogant!

"Let's go pick up Kaizi first, then go back to the hotel!" Ji Feng said.

About an hour later, they returned to the hotel where they had checked in, and Ji Feng told them about his communication with Guo Tao, not realising that Zhao Kai also agreed with Guo Tao's proposal and told Ji Feng to go and find Su Yayun.

Ji Feng mused, "Let's do this, I'll finish reading the information first and then talk about it."

In reality, he still hadn't made up his mind in his heart.

If nothing had happened that night, even if he had an average relationship with Su Yayun, he would have gone to her for help, counting that he owed a favour and would just pay it back later.

After all, in this unfamiliar place, Ji Feng wouldn't deliberately try to be a hero.

But the problem is, Su Yayun is Xu Yuan's sister-in-law, and he's not sure if Su Yayun knows about what happened that night he really doesn't know how to go about meeting her!

So, Ji Feng first avoided the question and then carefully looked through the information Guo Tao brought back.

He read it over and over three or four times, memorized every word in the information in his mind and sorted out the relationships, and basically had a certain degree of understanding of the top brass in Hangzhou and Jiangsu and Zhejiang, and grasped a lot of things.

It was only at noon that Ji Feng took out his lighter and burned the information, then poured the ashes into the toilet and flushed it all away. Su Yayun was obviously using her heart to provide him with this information, which could be seen from the clear organization and detailed information on that information, so of course Ji Feng had to be careful not to bring trouble to Su Yayun.

At this time, Zhao Kai raised the previous question again.

"Ji Feng, I have carefully considered this for a long time, and I think that it would be more appropriate to go to Su Yayun. Although I don't know this person, I think the fact that she can provide you with this information proves that she is willing to help."

Zhao Kai said, "As of now, if you don't have any other power in your hands, asking Su Yayun for help is the most appropriate and effective. She is the local snake here, and she certainly knows more about the situation here than any outsider, and she has enough power in her hands In fact, you understand all of this, and although I don't know what you are worried about, I hope you will consider my suggestion carefully."

Ji Feng deliberated for a moment before saying, "How about this, you guys go rest for a while, I'll make a phone call and I'll decide after we've had lunch."

Zhao Kai had to nod his head, all he could do was to come up with ideas, but it was Ji Feng's decision whether to adopt them or not.

After Bai Zhu and Zhao Kai went out, Ji Feng dialed Tong Kai De's phone number: "Uncle Tong, is it convenient for you to talk over there?"

As soon as Tong Kaide heard it, he knew that Ji Feng had something important to say to him. He was reading the newspaper in his office and immediately stood up, locked the office door and went to the window before saying, "Go ahead, I'm listening."

Ji Feng could not help but frown at his words, could it be that there was someone on the side of Tong Kai De?

In fact, Tong Kai De is worried that his office is bugged or some recording device, in Hangzhou City Hall, there are almost no people around him, and any means the other side can make out, so he must be extra careful.

“Uncle Tong, you told me about the East City Group before, but after careful consideration, I still plan not to move the East City Group, I can’t move it now with my ability.”

Ji Feng said, “After investigation, I plan to start with the Golden Dragon Gang!”

“What?”

Who knew that Tong Kai De’s voice lifted a few points after hearing that, “Are you sure?”

Ji Feng nodded his head and said, “Mm! I’ve already decided, I’ll start with the Golden Dragon Gang! Uncle Tong, I now have accurate information that proves that people from the Golden Dragon Gang are smuggling, which involves the 4s shops under Song Jinlong, and the trading company, as long as I can get hold of the exact time of their smuggling, I can wipe them out!”

“Ugh!”

However, instead of having any happy emotions after hearing this, Tong Kai De even sighed.

Ji Feng immediately asked, “Uncle Tong, what’s wrong? Is there something wrong?”

Tong Kai De said: “Not really, in fact, the situation you said I have already grasped before, to say the least, this is also the best line of investigation, but the reason I did not tell you, because, although this line of investigation is good, but is also the most dangerous, those people are desperate people ah, one is not careful, can be

The Golden Dragon Gang, that is a black ` gang, although Tong Kai De is not afraid, but also know the ferocity of these people, especially Song Jin Long’s past experience he has learned, naturally know what kind of character this person is.

That’s why Tong Kai De didn’t mention the Golden Dragon Gang to Ji Feng, because he was afraid that if he rashly went to mess with it, there would be no one to protect him in this part of Jiangsu and Zhejiang, and if something happened then, how would he explain to his old friend Ji Zhenhua?

If Ji Zhenhua’s only son was left here, he would have no face to go back to see Ji Zhenhua!

That’s why Tong Kai De deliberately told Ji Feng that there was something wrong with the East City Group and asked him to check it out. Although this line was difficult to investigate, it was not too dangerous and with a few people protecting Ji Feng, nothing too much could go wrong.

Who would have thought that Ji Feng himself had investigated Song Jinlong’s head and, it seemed, was ready to make a move!

Campus Master Chapter 2585

Only then did Ji Feng realise that it turned out that Tong Kai De had also been eyeing the Golden Dragon Group for a long time, only that he had not told himself out of the idea of protecting himself back.

“Little Feng, what you’re doing is a bit reckless, it’s taking a risk!” Tong Kai De reminded him and said, “Come to my place this evening and we will discuss it!”

“Uncle Tong, I have it in my heart.” Ji Feng said, “Right now I’ve only just decided, when I find out what’s going on, I’ll see you again.”

Now Ji Feng’s every move was being watched, so was Tong Kaide, so on the phone Tong Kaide spoke with extra caution, since he had decided to deal with Golden Dragon Group, then Ji Feng should try to have less contact with Tong Kaide for the time being.

The actual fact is that you can’t be sure of what you’re doing, but you’ll have to decide what to do, so for the time being he doesn’t plan to go to Tong Kai De’s place.

Hearing Ji Feng say this, Tong Kade understood Ji Feng’s determination, he frowned and said: “Little Feng, if you really want to do this, then it is not impossible, but you must keep in touch with me at all times, do not be reckless, not to mention that you can’t just lead people up on your own in the heat of the moment..... remember? ”

Ji Feng nodded and smiled, “Don’t worry Uncle Tong, I remember.”

“Well!”

Tong Caid then nodded his head and said, “Keep in touch.”

After closing the line, Tong Kai De couldn’t help but let out a light sigh, secretly saying, ashamed, he hadn’t opened up the situation after coming to Jiangsu and Zhejiang for so long, instead, Ji Feng had more impetus than him.

However, in his heart, he was also a bit worried, afraid that Ji Feng’s youthfulness, after coming to Jiangzhe and being suppressed so much, would provoke him to be aggressive and thus do something inappropriate under impulse.

But Tong Kai De was also somewhat looking forward to it, he also wanted to see how far Ji Feng could actually go!

At the same time, Ji Feng was determined, he dialed Guo Tao’s phone number: “Old Guo, I am not convenient to go to see Su Yayun, you go on my behalf.”

A conversation with Tong Kai De made Ji Feng understand that the other party was really too strong, at least in this mu of Jiangsu and Zhejiang, they were very strong ground snakes, so strong that even Tong Kai De had to be cautious and cautious again, and did not even dare to make a move easily.

Since this was the case, then Ji Feng could only resort to other forces.

Therefore, he intended to seek Su Yayun’s help.

“I represent?!”

Guo Tao was a little hesitant and asked, “Boss, is it appropriate for me to represent you?”

Ji Feng smiled, “It’s alright, just let you go on another trip and just bring the words to the table, see what Su Yayun means, if she agrees, I’ll communicate with her.”

Guo Tao was then relieved and immediately agreed: "Okay then, I'll go over there now"

.....

"Bastard!"

Song Mingyuan kicked over the coffee table and grimaced, "What the hell is he! I haven't had the time to clean him up yet, and he's bullying me instead! I think he wants to die!"

Just a moment ago, Song Mingyuan received a message from a hall master of the Golden Dragon Gang, saying that a junior under him had been beaten up, and only after he investigated did he realize that the matter involved Vice Mayor Tong Kai De, which was no small matter, and that hall master hurriedly told Song Mingyuan about it.

At the same time, Song Mingyuan also received news from those people who were responsible for following Ji Feng, confirming that Ji Feng had indeed beaten up one of the Golden Dragon Gang's junior brothers in the square.

Song Mingyuan was instantly annoyed, he hadn't even gone to clean up Ji Feng, who had thought that Ji Feng had provoked him first!

As for the original story, Song Mingyuan didn't ask for details, and he didn't want to ask more, in short, it was Ji Feng who had beaten up their Golden Dragon Gang's man and swept their face, if he did nothing, that bastard Ji Feng would still think he was afraid!

"I was going to keep you for a few more days, but since you're so eager to find death, then I'll make it happen for you!" Song Mingyuan said in a cold voice.

Seeing Su Yayun once again, Guo Tao clearly felt that she seemed a bit different, and this difference became even more obvious after he said that Ji Feng was going to talk to her.

Guo Tao was secretly a little strange in his heart, but didn't think much about it, he just asked, "General Su, do you see"

Su Yayun's mood was complicated, she had already investigated what Ji Feng had encountered and knew that this time Ji Feng was in no small amount of trouble, that's why she tried her best to help and gathered a lot of very detailed information and gave it to Guo Tao. But this time, Ji Feng unexpectedly wanted to talk to her, which made her unable to help but feel a panic in her heart at once.

This feeling of panic was something she had rarely had in how many years.

Su Yayun subconsciously wanted to refuse, but the words were swallowed back at her mouth, she was already doing her best to help before, but now she refused to talk to Ji Feng, the contrast was too big.

Therefore, Su Yayun did not hastily refuse, but asked, "Mr. Guo, I wonder if Mr. Ji wants to talk to me, is there any plan?"

Guo Tao nodded and said, "That's right. Mr Su, what our boss means is that this time he hopes that he can use Mr Su's strength."

Su Yayun was then a little surprised that Ji Feng was here to seek her help?

He was such a proud person would come to beg her?

Su Yayun immediately realized that Ji Feng must have encountered a very difficult problem, and I'm afraid it was far more than just the troubles that she had learned about.

"Good!"

Not knowing what was going on, Su Yayun thought of the way Ji Feng was suppressing the pride in his heart to beg, and she suddenly had a softness in her heart and nodded, "Give my phone number to your boss."

Guo Tao nodded, and sent Su Yayun's number to Ji Feng via SMS.

Holding the phone, Ji Feng dialed the number without the slightest hesitation, since he had already decided, he would no longer drag his feet and hesitate, this was not his character.

"Hello?"

The phone went through and a vaguely flirtatious voice came from inside, even without meeting Ji Feng could imagine what Su Yayun looked like on the other end of the phone.

Ji Feng took a deep breath to calm himself down and said, "Mr. Su, this is Ji Feng, thank you very much for the help you provided before, the information is very detailed, thank you very much."

Su Yayun smiled and said, "Mr. Ji, you don't have to be polite, speaking of which, I our East China Sea Gang still owes Mr. Ji a favor, it's only right and proper to help this little favor."

Ji Feng then smiled, before the call he hesitated again and again, but when the two really spoke, instead suddenly felt not so difficult.

"It's just that I have to trouble Mr. Su one more time. Although it's a bit presumptuous, but only Mr. Su can help me now!" Ji Feng said with deliberation, "I want to find out the exact time the Golden Dragon Gang smuggled cars, the people who handled them, the channels and so on all the links, especially the whereabouts of the key people, more to keep an eye on, but all these need manpower and also need to be familiar with the local environment"

When I said this, Ji Feng squatted, "Therefore, I would like to ask Mr. Su to help me with this favor."

Su Yayun couldn't help but be a little surprised when she heard this, what was Ji Feng trying to do? Could it be that he wanted to take on the Golden Dragon Gang? And still wanted to take on the Golden Dragon Gang's line of car smuggling?

"Mr. Ji, is this something you want to reconsider?" Su Yayun said hesitantly.

"Oh? Why?" Ji Feng asked.

"The Golden Dragon Gang is doing quite a covert job in this area and has dedicated competent manpower to ensure security, so I'm afraid it would be difficult to strike!" Su Yayun said.

Ji Feng said, "Mr. Su, I won't let your people take any risks, I only need information, accurate and specific information, someone will do the work, it will definitely not cause you any losses, moreover, after the matter is completed, I will have heavy thanks!"

Su Ya Yun couldn't help but frown at his words, and didn't know what was wrong, suddenly her heart got a little angry and said, "I'm doing you a favor because the East China Sea Gang owes you a favor, not because of your reward!"

Ji Feng immediately laughed and said, "Sorry, it was a slip of the tongue, please forgive me, but I am sincere, even if you are willing to help without compensation, you can't let your brothers work for nothing, not to mention that the emperor is not short of hungry soldiers!"

Su Yayun was silent, after a moment she said, "Mr. Ji, this favor is not impossible to help, but I still advise you to think carefully, as far as I know, the Golden Dragon Gang has a group of gunmen, and all of them are experts, they are responsible for protecting the car smuggling line, if you do not have enough manpower, may not be their opponent!"

Ji Feng was not surprised, this was all within his expectation, the car smuggling was such a big deal, the Golden Dragon Gang must have taken care of the top and bottom, but since it was a black`dao, it was natural to prevent others from eating the black and so on, so it made sense to have gunmen to protect.

"Mr. Su, you only need to provide the information, the rest will not be a concern for you." Ji Feng said.

"..... That's fine."

Su Yayun said, "When do you want the information?"

Ji Feng said, "It depends on you, when you can get the situation or can find evidence of their smuggling, I'll ask for it!"

Su Yayun nodded slightly and said, "Okay, I'll let you know when I find it."

"Chief Su, thanks."

Ji Feng nodded, he knew that with Su Yayun's position, she must be taking some risks in doing this, the Golden Dragon Gang was far more powerful than the East Sea Gang, once things were exposed, it would definitely be a huge trouble for both Su Yayun and the East Sea Gang.

Su Yayun said, "So that's it then?"

Ji Feng nodded, "Good."

"Then, bye." Su Yayun hung up the phone.

After hanging up the phone, she sat there as if she was in deep thought, with a complicated gaze in her eyes.

It was only after a while that she realised that Guo Tao was still sitting opposite her, and her heart suddenly panicked, but on the surface she remained unmoved and asked, "Mr. Guo, Mr. Ji and I have already talked, do you still need anything?"

This was an expulsion order, and of course Guo Tao could hear it, so he got up and said goodbye.

Su Yayun didn't make any courtesy to him either, and only owed him a little.

After Guo Tao left, Su Yayun fell into deep thought again, and after a long time, she suddenly picked up a pen and wrote down two words heavily on the paper.

— Ji Feng!

“Tic-tac-toe

At the same time, Ji Feng, who had just finished talking to Su Yayun on the phone, was the one who suddenly heard a sharp car horn, and then heard Bai Zhu exclaim, “Young Ji, sit tight!”

Boom!

Campus Master Chapter 2586

“BOOM—!”

There was a loud sound that shook people’s scalps.

He saw a truck brushed against Ji Feng’s car and crashed heavily into a power pole by the roadside, breaking it off, but the truck was unrelenting in its impetus and only stopped when it hit the guardrail on the roadside.

Ji Feng would not panic, but was frowning and asked in a deep voice, “What happened?”

Bai Zhu sank her pretty face and said angrily, “Just now that truck was crashing over towards us!”

Just now Ji Feng was on the phone and didn’t pay attention, but Bai Zhu clearly saw that a truck was speeding from the opposite side, because she saw that the speed of the truck was too fast, so Bai Zhu slowed down and prepared to meet the car carefully, but who knew that when the truck was only a few meters away from them, it suddenly turned around and crashed straight towards them.

At the same time, instead of slowing down, she stepped on the accelerator, and the powerful explosive power of the engine came out.

And the BMW x6 was only a few centimeters away from the truck at its closest point!

“The other side did it on purpose!” Bai Zhu gasped.

“You sit here and don’t move, don’t turn off the car, I’ll go down and take a look.” Ji Feng sulked and pushed open the car door and got out of the car without waiting for Bai Zhu’s answer.

At this moment, the truck had already turned off, because the impact was too violent, the right side of the front of the car passenger position has been deeply dented, the driver inside lying on the steering wheel, also do not know whether dead or alive.

Ji Feng swept inside the cab, and after careful observation found that the driver was still alive and in okay condition, he did not go forward but retreated, and after getting into the car he immediately said, “Bai Zhu, go to the front and find a public phone booth!”

Bai Zhu nodded, Hangzhou was like Jiangzhou, public facilities were complete, there was a public phone booth more than a hundred meters away, Bai Zhu stopped the car next to the phone booth, Ji Feng got

out of the car and manipulated his hands in his pockets, picked up the microphone through his clothes and dialed the police and emergency number.

Seeing this scene, Bai Zhu's pretty face immediately sank: "Young Ji, the other party is targeting us?"

Ji Feng said, "We can't rule out this possibility!"

Being in a dangerous situation, one has to be careful everywhere, Ji Feng naturally would not give leave the slightest evidence, even if this car accident was not caused by him, he still had to be careful.

The incident of the police procession in the hotel last time had already made him wary.

"Buzz~! Buzz!"

Just then, Ji Feng's mobile phone vibrated twice and then came a ringtone, the call was from an unfamiliar number, but it was a local mobile phone number in Hangzhou.

Ji Feng picked up the phone, "Who is it?"

"Yoo-hoo, still alive?" To Ji Feng's surprise, a teasing voice came from the phone, "What a surprise, it seems you're really lucky!"

"Thanks for your concern, my life has always been very big, no spirits and monsters can kill me!" Ji Feng said indifferently, "It's you, hiding your head, which way are you a brat again?"

"Humph! Still tough-mouthed!"

The other party sneered and said, "Do you really think you'll be fine because you're lucky? Mr. Ji, although Hangzhou is not as developed as Jiangzhou, it is still a very developed city, and the traffic here is very complicated, so there might be a traffic accident or something like that at any time, and it's not uncommon for a lot of people to die!"

Ji Feng said indifferently, "But the one who died now seems to be one of your people!"

As he spoke, he looked around without a trace, but apart from the surveillance from the rear, he didn't find anyone else watching him, which meant that the other party wasn't watching him from somewhere, but had gotten the information from somewhere.

But the only person who could have gotten the information in such a timely fashion was, I'm afraid, the mastermind of this crash!

This was not an accidental car accident, but someone trying to do away with him!

Ji Feng's words angered the other party, only to hear this person sneer: "Ji Feng, don't be too wild, you are hiding, but if this kind of thing happens in front of the city government guest house, guess if our vice mayor's wife can hide? Oh yeah, there's her baby daughter, the very pretty girl, tsk, she's really watery looking, I want to look at her"

"All right!"

The other party did not finish, Ji Feng interrupted him, although Ji Feng's voice was calm, but the cold light that flashed in his eyes, was a killing machine: "I will not say anything harsh, I only tell you, today this matter I take note, you better pray now, do not let me find you!"

After saying that, Ji Feng was about to hang up the phone, but suddenly he heard the other party say, "Threatening me? Haha! How funny! Since you're so confident, then I'll give you a chance to find me, well, there's an abandoned paper mill in the southwest suburbs of Hangzhou, I'll be waiting for you there, if you want to take revenge, you can come to me but don't dare to come!"

Pop!

The other party hung up the phone.

Ji Feng's face was calm as he put away the phone and said, "Bai Zhu, an abandoned paper mill in the southwest suburbs, rush over there now!"

Bai Zhu was stunned, "Now? Young Ji, is this a trap for the other side? We'd better be careful"

"Rush over there!"

Ji Feng said, "Set off immediately!"

Bai Zhu pursed her lips and had to nod, pulled out the map of the southwest suburbs from the navigation, looked up the destination and started the car.

Ji Feng didn't make any explanation, nor did he hesitate half-heartedly, he just picked up his phone and called Tong Lei: "Lei Lei, don't go anywhere for the next few days, just stay in the guest house and wait for me to come back."

"Mm."

Tong Lei didn't ask why, because she knew that everything Ji Feng did was for her own good, and right now, Ji Feng was probably out there alone enduring the storm!

.....

"Young master, will he go?"

Inside a villa next to the West Lake in Hangzhou, a slate-haired man of about forty years old asked with a smile. This man was not very tall, but extremely strong-looking, wearing a business suit, and even wearing a pricey watch on his hand, he seemed to be a business elite.

And sitting opposite him was none other than the young master of the Golden Dragon Gang, Song Mingyuan.

At this moment, Song Mingyuan had a confident smile on his face, and when he heard the words of the plate head, he raised his hand and pointed his finger, seeming to have a taste of pointing at the mountain.

"He will definitely be there! This person is arrogant, thinks he is from Yanjing thinks he is very impressive, today's car accident, in his opinion must be the biggest provocation to him, plus your threat, he will definitely be furious and will definitely go to the paper mill!"

Song Mingyuan smiled confidently, originally he hadn't wanted to clean up Ji Feng so quickly because Hu Yujin had said that he would wait until the situation above became clear before making his move, but Ji Feng's arrogant behavior had angered Song Mingyuan.

Ji Feng had no qualms about severely beating his Golden Dragon Gang's disciples, which, in Song Mingyuan's opinion, was a slap in the face.

Don't look at Ji Feng as a young master from a powerful family in Yanjing, but this is Jiangsu and Zhejiang, this is Hangzhou! Here, in front of him, Song Mingyuan, he had to coil even if he was a dragon, and he had to lie down even if he was a tiger!

"Ji Feng, so what if you are the Crown Prince? Today, when I say I'll clean you up, I'll clean you up! Not even with a joke!" Song Mingyuan sneered, disdainfully brushed his mouth, what bullshit prince, haven't you heard that a strong dragon can't suppress a snake on the ground! What's more, Ji Feng was a half-dead dragon who was about to have his nest terminated, and he still wanted to fight him?

He was looking for death!

"Have you made all the arrangements?" Song Mingyuan asked.

"Don't worry, Young Master, it's all arranged. But" Slab Head was a little hesitant, "Young Master, do you think he'll bring helpers with him? If it were me, if I were to suddenly encounter something like this, I wouldn't be able to go alone, I would definitely need a few people just in case!"

Song Mingyuan smiled faintly, "So what if he brings helpers? You can't send a few more men, wouldn't a few more guns be enough?"

The plate head immediately said, "Then I'll call and send more men!"

"Remember, arrange for the person responsible for calling the police, make sure you get the timing right, don't call the police in a hurry on his side before that guy has even made his move, if it doesn't work this time, it will alert the guy, got it?" Song Mingyuan admonished.

"Young master, don't worry, I will definitely arrange it properly!" The plate head immediately said, "When the fight over there is almost over, the police will arrive just in time to catch them in flagrante delicto, if a person can die, or if there are serious injuries" Hey, that kid can just wait for his jail time to be over!"

"Good!"

Song Mingyuan nodded with satisfaction and said, "Then, I'll wait for your good news!"

.....

Bai Zhu drove the car, following the route indicated by the navigator, but not at a fast speed, and her face was even vaguely worried.

She felt that Ji Feng seemed to have been overwhelmed by anger and was a little too presumptuous.

Going there in such a hurry would easily fall into the other side's trap, and if they had ambushed someone, they would just go there now and dive in head first.

Although Ji Feng looks calm now, Bai Zhu is not sure if he is angry, if he is, then the more he says, the more useless it is, but it will have the opposite effect.

But so past, Bai Zhu is how to be uneasy, she thought about it, secretly took out the phone

“Put the phone away!”

Suddenly, Ji Feng’s voice rang out from the back, Bai Zhu’s action suddenly stiffened, “Ji young you reconsider, this may be a trap, you think about why the other party wants to do so”

Ji Feng said indifferently, “Don’t worry, I have a number in my heart. Even if this is a trap, I still have to go, since the other party is going to set up a trap, they will definitely leave something behind!”

“But”

Bai Zhu opened her mouth, but she wanted to say something, but in the end, she could only give up, thinking, if it’s really a trap when we arrive, the big deal is that she will protect Ji Shao with her life and leave!

Campus Master Chapter 2587

The southwestern suburbs of Hangzhou.

Originally this was an old industrial area, and since the reform and opening up, many development zones have sprung up, and this is one of them. However, with the rapid development of the economy and the city, some of the original enterprises were eliminated in just a dozen or even a few years because they could not keep up with the rhythm of the times.

So this old industrial area has been gradually abandoned, and the abandoned paper mill is a typical example.

The paper mill was so polluted that the effluent contained a lot of toxins and caused serious pollution to the surrounding water, and even a third of the people in a nearby village suffered from various strange diseases.

Because of the outcry, the government ordered the paper mill to introduce sewage treatment equipment, but the cost of dealing with the pollution was a large part of the business’s profits, so the business owner moved the business out of the area and went to a small city in the north to continue the operation.

As a result, the old factory building of the paper mill was left behind and gradually fell into disuse.

All this information was found by Ji Feng from the internet using his mobile phone, but what he focused on was the environment around this paper mill, as well as the structure of the factory and the layout of the factory.

But unfortunately, there was no information about this on the internet, because the paper mill was abandoned a few years ago, so a lot of information about the mill area could not be found on the internet.

Ji Feng could not help but frown slightly, although he was not afraid of the other party playing tricks, but at least what should be understood should still be understood, but now he knew nothing about the situation of the paper mill, it could be said that he was in the dark, which made his heart a few more points of caution.

Knowing the surroundings is the first thing to do after arriving at an unfamiliar place, and Ji Feng has long made it a habit, but now he has to be more vigilant.

Gradually, the paper mill appeared in sight and Ji Feng said in a deep voice, "Bai Zhu, don't go in yet, circle around the mill first!"

Since we couldn't find out the layout of the paper mill, we had to observe carefully from outside first.

After circling around the factory, Ji Feng carefully observed and roughly memorized the layout of the factory.

"Hmm?"

Suddenly, Ji Feng frowned.

He narrowed his eyes as he scanned the surroundings and said in a deep voice, "Bai Zhu, stay outside later, I'll go in by myself."

Bai Zhu was stunned at his words and busily said, "Young Ji, this won't work, who knows what's inside if you go in alone, in case"

"There is no eventuality, you have to stay outside." Ji Feng said, "Someone is watching us outside!"

"Where?" Bai Zhu was startled.

"Just ahead on the right, I haven't seen exactly where it is." Ji Feng said in a deep voice, "But someone is definitely watching us, you'll be responsible for taking care of the person watching, we'll work together from the inside!"

Just a moment ago, Ji Feng suddenly felt a feeling of being watched, this is a gut feeling that only comes from being secretly watched, even roughly in what direction Ji Feng could feel, but to say exactly where it was, Ji Feng did not see it, but there is no doubt that the other party must be hiding nearby.

"Be careful, don't let the other party find out when you get close, it might be a hidden sniper." Ji Feng reminded.

"Mm!"

Bai Zhu nodded, snipers are not scary, as long as you sneak carefully and get out of the other party's shooting range, the sniper rifle in the other party's hand won't play any role.

After driving a circle around the paper mill, Ji Feng got out of the car, he paid close attention to everything around him, especially the person who was watching in the dark, if the other party lured him here to use the sniper gun, it was really bad to defend against.

However, Ji Feng didn't feel a killing machine in this person's body, but he didn't let his guard down and steadily entered the paper mill.

The paper mill had long been deserted, and the guard post was naturally empty, except that the electric telescopic door was rusted open, and there were several lines of wheel marks on the ground, indicating that someone had been here recently, and there was more than one car.

–There was someone inside!

All the surroundings were in full view, and Ji Feng entered the paper mill.

There was no one in the steel plate room on the left, on the right was an empty playground with a basketball hoop, a ping pong table, and the four big words Staff Canteen were written on the upper floor at the back, and again there was no one there.

So, the people must be in the production workshops behind!

From a distance, he could still see the staff dormitory, but it was too far away and the rutted tracks did not extend backwards, so Ji Feng walked straight towards the production workshop.

There are several doors in the production workshop, Ji Feng chose the nearest one, pulled open the door and walked in, only to see that it was pitch black inside, except for the sunlight that could shine in some from the doorway, there was surprisingly not a single ray of light, and all the windows were blocked with something black

Ji Feng instantly frowned and slowly stepped into the workshop.

“Whew!”

Just at this moment, Ji Feng suddenly heard movement, he slightly sideways, he saw two people surprisingly appeared from the doorway and quickly closed the door: “Pah!”

The entire workshop was instantly plunged into darkness.

“Ta-da!” The sound.

In the darkness of the workshop, the blinding light that appeared so suddenly was so strong that an ordinary person would not be able to see for more than ten seconds.

“Whoosh!”

A cracking sound rang out, and the next moment, a knife was suddenly seen slashing towards Ji Feng from the right side.

Looking for death!

Ji Feng shouted coldly in his heart, his feet suddenly gave a lurch, and in that blink of an eye his body stepped back half a metre, and swish – the machete fell short, and actually cut down almost against Ji Feng’s face.

The next moment, Ji Feng’s fist had already blasted out.

“Boom!”

With a muffled sound, Ji Feng’s fist ruthlessly blasted the man’s body, his fist heavily blasted the man’s chest, making a strange sound that made people’s teeth sore.

“.....”

The man’s mouth suddenly opened wide, a pair of eyes protruded out, and an unparalleled sharp pain instantly spread throughout his body, making him unable to scream out even if he wanted to, and his entire body instantly flew out.

But the moment the man flew backwards, Ji Feng steeply turned his palm into a knife and slashed at the man’s wrist, snatching his machete away.

The process was complicated to say the least, but in reality it was only a split second before the sudden stabbing was over and the attacker was knocked unconscious by Ji Feng’s punch, and the knife fell into Ji Feng’s hands.

At the same time, a cracking sound likewise rang out from Ji Feng’s left side, and this time Ji Feng didn’t even dodge turned around, bent over, and swung his leg!

“Pop!”

Ji Feng hit the assailant’s face with a vicious whip kick.

The attacker’s ear door was smacked and he only felt an instant buzzing in his head, and before he could scream out in misery, his whole body flew straight across the room.

One punch, one kick.

The two attackers who suddenly appeared were knocked out, without even walking up to Ji Feng!

Ji Feng held a knife in one hand and his gaze was ice-cold.

The strong lights in the darkness were indeed great killers for ordinary people, but for Ji Feng, they were at most just a little surprising to him, but could not play any role!

What’s more, those strong lights were only the high beam of the car, not special searchlights, and they were still far from being able to affect him. Right opposite Ji Feng, several cars were lined up side by side, each with someone in the driver’s seat, and the strong lights that burst in just now were their headlights on.

At this time, it seemed that the people in the cars and those hidden behind them had not expected Ji Feng to be so tough, and that he could make such a sharp counterattack even under such circumstances.

Ji Feng carried his sword and walked forward in big strides, being passive and waiting for the enemy to attack was never his style, taking the initiative was the right thing to do!

“Go! Do him!” At this moment, only a voice rang out from behind the car, “There seems to be a woman with him, remember, save that woman for Laozi!”

“Hula~”

As the voice fell, a group of people suddenly rushed out from behind the car, there were 20 to 30 of them, and each of them had a machete in their hands, some of them even had a steel pipe.

The fierce light in Ji Feng’s eyes rose up as he shouted, “Send you to hell!”

In a flash, his feet suddenly shot up and he suddenly rushed forward like a cannonball.

His hand rose and his sword fell!

“Poof...!” In a single glance, Ji Feng’s machete wiped through a man’s neck, until Ji Feng’s body was overtaken, and only then did a line of blood suddenly spurt out from that man’s neck.

“Ah...”

At this time, a guy next to that person was using the light to see clearly what his companion looked like, he was instantly horrified to the extreme, only to feel a coldness rushing steeply to his head and flowing to all his limbs!

..... only saw his companion, his entire neck was actually severed, only the back of his head was attached to a layer of flesh, making the head not fall completely from the neck, drooping over his body.

And the man’s body was still trembling violently, as if he was still conscious

It was horrible!

But the next moment, the man’s shrieking came to an abrupt end, because Ji Feng had already gone around the guy whose neck had been cut off, and with a backhanded slash, the knife was stabbed through the man’s mouth that was shrieking.

Stick the knife in and pull it across!

“Poof!”

The man’s head was instantly severed in half, and blood spilled wildly!

In an instant, the two men were killed instantly!

But because this happened so quickly, none of the others had even reacted yet, and they were still shouting and rushing towards Ji Feng, holding up their machetes to exterminate him.

The strong streaks of light made Ji Feng’s figure a little blurred, and made the others ignore the fact that their two companions were instantly done in by Ji Feng, which also deprived them of their last chance to escape, and provoked Ji Feng’s hostility and killing intent!

Campus Master Chapter 2588

One slash and one chop took out two people, Ji Feng didn’t show the slightest bit of mercy, let alone pause, at this moment, the skills he had learned in the training space of the intelligent brain were brought into play to the limit, facing the twenty-odd people who were raging and coming back, instead of retreating, he directly charged forward.

“Poof!”

“Pfft

In a flash the sound of machetes slashing at people’s bodies rose and fell, a sound that was not loud but made one’s scalp explode!

What was even more bizarre was that none of the people who were hit by Ji Feng's slashes were able to let out a scream, all of them were killed with a single slash.

A massacre!

This was a completely one-sided massacre!

These people did not have the slightest bit of resistance in front of Ji Feng!

Ji Feng's speed was so fast that these people couldn't even imagine it. When they found that they didn't even know where to cut when they raised their knives, they realised how difficult Ji Feng was, and only then did they know to observe, yet this observation made some people so scared that they even lost their souls!

Blood!

There was blood everywhere, corpses all around!

Some of them were covering their necks with their hands, but blood was still gushing out from their fingers, some of them seemed to be trying to cover their wounds with their hands, but they couldn't lift their hands – even their necks had been severed, so how could they lift their hands?

Some of the bodies that had fallen to the ground were still twitching, as if their life had not been completely cut off.

That was because these people had been cut through the vitals with machetes so fast that they still seemed to be conscious, but their lives were already draining away fast.

“Poof-!”

Just as the man was in a slight daze, he only felt a cold flash of light in front of his eyes, then he noticed a spinning of the sky, and the next moment, his head fell off!

A slash

Beheaded!

At this moment, Ji Feng, straddling between these killers, but like a fierce tiger rushing into a flock of sheep, killing became the main theme!

This scene, however, fell in the eyes of the leader who was still waiting for the result behind the car, but this scene that seemed like hell in front of him filled his heart with chills in an instant, his body was as cold as if he had fallen into an ice cellar, his hands and feet were cold and weak!

But everyone who saw this scene was terrified!

From the time those twenty-odd people rushed out to now, it had only been a few minutes, maybe two minutes, maybe even just a minute, and surprisingly, a large part of them had died, and there were just a few people who could still stand, seemingly not realizing what was happening in front of them, and were still dancing wildly with their machetes to hack Ji Feng to death.

But they couldn't even keep up with Ji Feng's shadow!

“How, how could”

The leader was so scared that his body was cold and his lips were trembling, he subconsciously turned around and was about to run, but just as he turned around he realized that there was actually a wall behind him, and he, however, was weak in the arms and legs!

“Poof!”

When Ji Feng slashed the last man on the ground, none of the twenty or so people present could stand up anymore.

At this time, Ji Feng’s gaze, fell on a few people behind the car.

“Big, big, big brother”

“Go!”

That leader shouted in panic, not caring about his own little brother, and pulled his legs to flee.

But at that very moment, only a black shadow suddenly flew past.

“Boom!” The leader’s head was instantly hit, and his already weak arms and legs fell to the ground with a thud as something rolled bony to the ground next to him.

He subconsciously gave it a hand, but felt a slickness in his hand, and when he saw what it was, he was so scared that his sweat stood up.

“Ah...!”

That thing, surprisingly, was a human head, and the slippery patch he touched was blood!

“Today, none of you will be able to leave!” Ji Feng’s cold voice, which fell on the ears of the others, was as if it came from hell, causing them to tremble uncontrollably.

“Big, big brother, this, this is, this is all, this is all a misunderstanding,” that leader was terrified to the extreme.

“Since it’s a misunderstanding, let’s go to hell to clear it up!” Ji Feng walked over step by step.

“Don’t, don’t come over”

The leader, seeing that Ji Feng was still approaching, shouted in terror.

Seeing Ji Feng approaching again, he was terrified, but at this time, the hostility in his heart was also stirred up, and he didn’t know where he got the courage to shout fiercely, “Brothers, come with me, we’re all dead anyway, do him and we’ll live!”

These people in the black ‘doors’ were already brutal, and it was not uncommon for them to see bloody scenes like hacking people up.

Despite the weakness of their hands and feet, they still rushed towards Ji Feng with their knives.

“Pfft! Pffffff!”

However, in front of Ji Feng, these people were unable to even put up half a fight, and all of them fell down in the blink of an eye.

Looking at the leader again, he was already pulling his legs up and running, he didn't even think about resisting

Ji Feng sneered and threw the knife out with his hand upside down.

"Poof!" The knife hit the man squarely in the calf, the man screamed miserably and fell to the ground, but could not care less about the severe pain in his calf, struggling to get up, and not forgetting to look back at Ji Feng.

At this time, he was really scared.

Ji Feng was too terrifying, he had never seen such a terrifying person in all his years in the jianghu, which made him instantly scared out of his wits, unable to raise any courage to resist.

But before he could get up, Ji Feng had already reached him and stepped on his face, stomping him to the ground, and the latter immediately shouted in terror, "Big brother, spare my life! I was wrong"

"Say! Why do you want to kill me?!" Ji Feng asked coldly.

"No! We didn't try to kill you, ah" the man let out another miserable cry, but it was Ji Feng's foot on his face that twisted so violently that it almost didn't twist the flesh on his face, "We really didn't try to kill you, the hall master instructed just for us to cut you up, preferably to let you kill a person or two when you resist"

Ji Feng's eyes narrowed and he gave a cold snort.

The man thought Ji Feng was angry and immediately shouted in panic: "I, what I said is true, our hall master said that he told us to control you after you killed someone and we would withdraw when the police were about to arrive, the rest we don't know anything ah"

He didn't know, but Ji Feng was the one who already understood everything.

This is really a trap for the other side, cut him up, let him kill someone when he resists, then when the police come and catch him red-handed, then just one crime of killing will be enough to put him in jail!

This trap wasn't very clever, but it was extraordinarily effective!

If he hadn't been so strong, he would have fallen into the trap today!

"Who should I kill?" Ji Feng asked coldly.

"Kill, kill those few," the man panicked and pointed his finger at the corpses of the group of people who had originally rushed out and said in a panic, "There are two guys in there who don't listen very well... .."

He took this opportunity to prepare for Ji Feng to kill them, and even if Ji Feng couldn't beat them, he had prepared a backhand to let the other junior brothers take advantage of the chaos to scrap these two first.

But who would have thought that Ji Feng's skills would be so terrifying that he would do away with them all, and, moreover, with such a bruising intensity!

This man was immediately terrified!

When Ji Feng heard that, a cold light flashed in his eyes and he said coldly, "You guys really deserve to die!"

Since these people don't take other people's lives seriously, then they deserve to die even more!

"Big, big brother, this is all what the Hall Master ordered, we are also following orders." The man said hurriedly, "Please let me go"

"Let you go?"

Ji Feng sneered, "Just now you said for me to keep the woman by my side for you? What do you plan to what?"

The man was so scared that his sweat hair stood up when he heard that, "I"

He had heard the hall master say that there was a beautiful woman by Ji Feng's side, so he was moved to keep that woman for a good time and give it to his brothers after he had had enough fun, he had promised

But this, how could he dare to say this to Ji Feng?

Besides, Ji Feng has not seen any woman around him. Right, it's outside in the car

Suddenly he reacted, the brothers outside should have called the police, and he could definitely be saved as long as he could delay for a while.

So he hurriedly begged for help, "Big, big brother, please"

"What gang are you from? What's your hall master's name?" Ji Feng, however, did not listen to his plea at all and asked coldly. This person did not say, how could he not guess what the other party wanted to do by leaving the white pearl?

For this alone, they all deserved to die!

"Speak!" Ji Feng shouted coldly.

"Zhu Gang! Our hall master's name is Zhu Gang! It's the Golden Dragon Gang's" the man hurriedly shouted and answered quickly, he was extraordinarily honest at this time. In fact, in his heart, he was expecting Ji Feng to ask him a few more questions so that he could stall for time.

Golden Dragon Gang!

Zhu Gang!

And Song Jinlong and Song Mingyuan!

It really was this gang! A murderous look flashed across Ji Feng's eyes and his face was icy cold!

"Where is your Hall Master now?" Ji Feng asked in a cold voice.

"No, I don't know."

The man's heart tightened, afraid of Ji Feng's anger, he hurriedly said, "But our Hall Master said for me to call him when I'm done, why don't I call him now?"

He tried hard to see Ji Feng's reaction, but with his head being stepped on by Ji Feng, he couldn't move, and his heart was beating a drum.

Immediately afterwards, his heart sank to the bottom.

I only heard Ji Feng say coldly, "No need, you'd better go down and keep your little brothers company!"

The man was scared out of his wits when he heard that and immediately shouted in terror, "No! Brother don't, don't kill me, let me do whatever you want, I can help you as an undercover agent"

"Thanks!"

Ji Feng smiled coldly: "But I have undercover agents, I don't need you! Go to hell and repent!"

"Ah...!"

The man still wanted to say something else, but his voice came to an abrupt end, he, alive, was trampled to death by Ji Feng!

Campus Master Chapter 2589

By now, all the hitmen in the entire paper mill workshop were dead on the spot, none of them escaped from Ji Feng's hands!

Including the leader!

Even when that man pleaded to be his undercover agent at the end, Ji Feng was still not moved in the slightest.

This person, deserved to die!

It wasn't that he didn't need an undercover agent, but that this person was absolutely unreliable!

Now that this man was able to betray his Hall Master and the Golden Dragon Gang without hesitation, then he could sell him out when he got back!

Ji Feng wouldn't take that risk for someone who was two-faced and had wanted to hit on Bai Zhu's idea.

This person had to die!

In such matters, Ji Feng certainly wouldn't be soft-hearted because of such a person!

But it didn't end there, Ji Feng used a special method to clean up all traces of himself from the scene before he walked out of the workshop, but not from the front, instead he went around to the place he had agreed with Bai Zhu beforehand.

"Young Ji!"

When he saw Ji Feng come out, Bai Zhu immediately had a happy face, obviously relieved, and hurriedly greeted him, "Ji Shao, are you alright?"

Ji Feng shook his head and said, "It's them who are not okay!"

Only then did Bai Zhu feel relieved.

Ji Feng asked, "Have all the people watching outside been settled?"

Bai Zhu nodded and said, "They've all been sorted out, the people following behind have all been arranged, there was still one guy hiding behind the chimney on the roof, which I sorted out."

"Very good!"

Ji Feng nodded with satisfaction, just getting rid of the traces wasn't enough, the person responsible for the surveillance had to be taken care of as well, "Let's go!"

The guy who was hiding behind the chimney was the one who was going to be responsible for calling the police when he and the factory's fighters got into a fight, this person also deserved to die, so Ji Feng naturally wouldn't feel sorry for him.

"Young Ji, where do we go next?" Bai Zhu asked. They had no roots in Jiangsu and Zhejiang, they didn't even have a place to land, so they had no idea where to go next.

"Back to the hotel!"

Ji Feng said, "Make some preparations, maybe there will be police officers coming to ask questions."

No matter how much he cleaned up the traces, there was no doubt that his car had come near the paper mill, and besides, Song Mingyuan must have known that he had done it, so no matter how he hid it, the police would suspect him.

All he had eliminated was the evidence.

Therefore, he had to make some preparations, otherwise, if he was really caught in, even if there was no evidence, I was afraid that the other side would have many ways to fix him.

Under such circumstances, one must not expect impartial law enforcement from the police, that would be an idea only for fools.

Although Ji Feng's murderous spirit was biting, he was not overwhelmed by anger as Bai Zhu had feared, nor was he the so-called raging for red.

He would consider every step he was going to take very carefully.

What happened today, however, was because the other party had gone so far as to threaten him with his family, something he could never allow, but anger did not mean impulsiveness.

On the contrary, this could be the beginning of a breakthrough!

"A tiger is being bullied by a dog!" Ji Feng sat in the car and couldn't help but shake his head with a smile.

"Young Ji, why do you say that?" Bai Zhu asked.

“I think when I first came to Hangzhou, I also dealt with this Song Mingyuan, but at that time, although Song Mingyuan was arrogant, he knew my identity and took a raw slap but didn’t dare to say a word, but now, he treats me like a plaything in his hands and can knead me as much as he wants!”

Ji Feng shook his head and smiled, but there was no trace of laughter in his eyes, instead, they were filled with an icy look, “Obviously, he is thinking that the Ji family might be about to fall and he will no longer have anything to fear, the reason he did so much, I am afraid he still remembers that slap at the beginning!”

Bai Zhu said in a cold voice: “At first you just gave him a slap, but next time, I’ll give him a shot!”

Ji Feng smiled, “There will be that day, and it won’t be too far away!”

Song Mingyuan’s arrogance was rather like the arrogance of a villain, but for him, it was undoubtedly a wake-up call, making him understand once again that in fact, family background is always just an aid, what he can really rely on is his own strength.

Only when he is truly strong can he be invincible!

And now, he was going to rely on his own strength to solve his family’s problems and break the situation!

Although it was the Wu family and other three major factions joining forces now, and he couldn’t intervene in political matters, he could at least do something on the side to share some of the burden for his father and the family!

“We’ll see!” Ji Feng secretly said.

.....

“Bang!”

Once again, the coffee table in the living room suffered.

Song Mingyuan kicked the coffee table over and turned blue with anger, “Old Zhu, what did you say?! Say it again!”

The slate-faced man standing opposite Song Mingyuan also looked ugly and said in a deep voice: “Young master, just now my men have gone to the scene and seen that the men I sent are all dead, none of them have escaped! The workshop of the paper mill was covered in blood, the smell of blood rushed to the nose, and the person responsible for calling the police, who was also wiped on the neck, died right next to the chimney on the roof of the paper mill’s canteen

“That’s enough!”

Song Mingyuan roared, “Stop saying that! What a glorious thing is it?! So many people died but not even a hair of Ji Feng was left behind, and you still have the nerve to say that?!”

The plate-faced man’s face instantly turned red with embarrassment.

In fact, he was also incomparably shocked, he had sent a full thirty men, but all of them had died, and according to the little brother who came back, no one used a gun at the scene, and all of those dead brothers had knife wounds on their bodies.

And

Almost all of them were killed with a single stab!

Except for the leader's ponyboy whose head was smashed by something, the others, almost all of them, were stabbed in the vital parts, and all of them only had one stab!

Neck, chest, head

The slab head couldn't help but get chills down his spine as he listened!

He could even imagine the scene at that time, the person who did it at that time, must be a master, and still ruthless, when the action is incomparably harsh, one slash at a time!

"Young master, how could that Ji Feng be so terrifying?!" Platehead asked in extreme shock.

"He's formidable my ass!"

Song Mingyuan couldn't help but sneer and said angrily, "He's a well-bred fop, how powerful can he be? I think it must be that he has helpers on his side, those men of yours were taken out by his helpers!"

To say that Ji Feng had kung fu, Song Mingyuan might believe it, like he had learned a few moves from some good fighters in the gang, but to say that Ji Feng could be powerful to what what extent, that was just bullshit!

It must be that Ji Feng still had people around him who were secretly protecting him, like the grandson of a big family like him, he might have an expert escort.

"Doggone those few people responsible for tracking are simply idiots!" Song Mingyuan couldn't help but curse angrily, "They followed him for so long, but they didn't even notice that Ji Feng had someone protecting him by his side!"

"Young master, since the other party is an expert, he certainly won't let anyone find out easily." Platehead said, he certainly couldn't say that Song Mingyuan's arrangement wasn't reasonable enough.

"Humph!"

Song Mingyuan took out his mobile phone and dialed a number, and said under his breath, "I'd like to see what kind of expert Ji Feng has by his side, as long as I know, I'll get him killed, no, I'll kill him alive!"

Saying that, he put the handset of his mobile phone next to his ear, but to his surprise, the phone was unanswered.

"What's going on?"

Song Mingyuan was immediately a little annoyed, everything he had to do was not going well, he originally wanted to set up a trap for Ji Feng to get into, to count him out, even if it couldn't kill Ji Feng,

but at least he could be sentenced to a few years in prison, or even a heavy sentence was not impossible.

But who would have thought that Ji Feng would not only be fine, but that 20 to 30 of his men would die instead?

This is not to mention, the key is that so many brothers died, this is not a small matter, just the settlement fee is a considerable amount of expenditure. Of course, to Song Mingyuan, money was a small matter, the Golden Dragon Gang had turned over more money than they could count over the years, but if the rest of the gang knew about this, it would be a great blow to Song Mingyuan's prestige.

The master's son was so stupid as to do such a thing, this was like a tiger's father and a dog's son!

This made Song Mingyuan extraordinarily annoyed.

And now, those guys who were responsible for following Ji Feng, their phone calls went unanswered again, which made Song Mingyuan even more annoyed.

Just at this time, a man came outside with hurried steps, knocked sharply on the door, then came in and whispered a few words in Slab Inch's ear.

"What!?"

As if he had heard some shocking news, Slab Inch Head looked at Song Mingyuan in astonishment.

Seeing this, Song Mingyuan immediately said, "What are you looking at me for! What the hell is wrong, say it!"

The head of the board hesitated for a moment before saying, "Young master, just now we received news that the traffic police department had dealt with two traffic accidents on the road not too far from the abandoned paper mill Two small cars were involved in a car accident, one crashed into a tree and the other broke through the guardrail and plunged headlong into a ditch. The person in the car died on the spot!"

Song Mingyuan didn't understand what it meant for a moment and asked, "What does this have to do with us?"

The plate head said, "The two cars that were in trouble seem to be the ones you sent."

"What are you talking about?!"

When Song Mingyuan heard this, he exploded, he looked at the plate inch head in shock and asked, "You're not mistaken?"

Slab Inch Head said, "I just received the news here too, I don't know exactly what's going on yet, but based on the license plate number, it seems to be the one you sent"

"Go! Go over and take a look!" Song Mingyuan couldn't sit still any longer.

"Yes!"

Platehead nodded.

However, when they arrived at the scene of the crash, Song Mingyuan was frozen when he saw the two cars.

These were indeed the two cars that he had sent to follow Ji Feng, when he had sent someone to 'greet' Ji Feng on the first day he arrived in Hangzhou, it was these two cars that he had sent at that time.

And now

The two cars, however, were almost all crashed and scrapped!

Campus Master Chapter 2590

The scene, it was horrific!

Both cars were crashed to near ruin, and the road even had puddles and puddles of blood that had long since solidified, showing that someone had been seriously injured here.

Song Mingyuan looked at all this, his face was blue and he asked in a deep voice, "Zhu Gang, where are the people, are they all dead?"

This slab-headed man was no other than one of the Golden Dragon Gang's hall masters, Zhu Gang!

This was the same man who had sent someone to set up a trap at the paper mill not far away, ready to lure Ji Feng into it, only that he had not counted on Ji Feng.

At this moment, when he heard Song Mingyuan's question, he nodded and said, "The news I received should be that all the people in the car are dead, young master, wait a moment, I'll go ask the traffic police."

In fact, there was no need for him to ask, when Song Mingyuan and he arrived, naturally the head of the traffic police at the scene rushed over to greet them, "Young Master Song, General Zhu, why have you come over?"

Zhu Gang immediately said, "Team Li, it's like this, we received information that the two cars involved in the accident at the scene seemed to be our company's cars, so we came over to see what happened. How about team Li, the people who were involved in the accident, are they really all dead?"

The traffic police officer known as Li nodded and said, "Well, they're all dead, a total of four people, none of them survived! Mr. Song, Mr. Zhu, does this car belong to your company?"

"Yes!"

Song Mingyuan gritted his teeth and said in a deep voice.

Zhu Gang immediately asked, "Team Li, where did those people's bodies get transported to?"

Team Li said, "First transported to the hospital morgue, our department doesn't have a place to store the bodies, then notify the families, and when the accident identification results come out, the bodies will be handed back to the families of the deceased!"

Song Mingyuan's face turned blue and he said angrily, "Murder! This is murder! This is not a fucking traffic accident at all, it must be Ji Feng's people who killed them, fuck his third aunt's Li team, you survey the scene carefully, this must not be a traffic accident, this is murder!"

The name of Ji Feng cannot be said casually, if it is publicized to all, it might be a bit troublesome for them.

Song Mingyuan also knew that he had lost his tongue, but in his heart he was sure that this must be what he thought. 20 to 30 of his buddies had just been killed by Ji Feng's men at the paper mill, and now the man responsible for following Ji Feng had also died.

How can there be such a coincidence?

However, Team Li couldn't help but be taken aback by what he heard and immediately asked, "Young Song, you're saying that this is murder? Do you have any evidence?"

Song Mingyuan grunted, "If I had evidence, why would I ask you to investigate carefully? If I say it's murder, then it must be murder, do I have enough to play around with you here?"

He knew the power of Song Mingyuan and the Song family in Jiangsu and Zhejiang, and if he crossed swords with Song Mingyuan today, he might not be able to keep his future and his position, but if Song Mingyuan wanted to retaliate against him, I was afraid that his family would suffer along with him.

So Li just smiled and didn't say anything.

The company is also used to being arrogant, and is somewhat dissatisfied with what Li just said, so he pretended not to see Li being defeated, and did not come out to round up the situation.

"Then what"

He coughed lightly and said, "Young Song, I'll go on to my work, call me if there's anything."

Looking at Li's back, Song Mingyuan couldn't help but curse angrily, "Bastard! How dare you doubt my words? If it's not one of our own, it won't work. Old Zhu, this is murder, the police must intervene, call our own people over. Ji Feng, are you going to fight me to the death?"

When he said the last two words, he couldn't help but let out a low roar!

He was really furious in his heart!

All the ambush brothers in the paper mill had been killed, none of them had escaped, and here too

This adds up to more than 30 lives!

The people around him are so ruthless and cruel!

Who the hell is the triad society?

Zhu Gang hurriedly said, "Young master, that's not the way to say it, these few people, they just died in a car accident, it has nothing to do with Ji Feng."

Song Mingyuan immediately said angrily, "Nonsense! Old Zhu, how do you conclude that it has nothing to do with Ji Feng? Do you think there is such a coincidence? It's simply bullshit!"

“Young master, these are the people who died in the car accident!” Zhu Gang said meaningfully.

“You

Song Mingyuan was instantly furious, but just as he was about to say something, he suddenly reacted and frowned: “Old Zhu, you mean to say that

Zhu Gang nodded and said, “Young master, not only the people here were killed in a car accident, even the paper mill side, also has nothing to do with you, and I have even less to do with them, is that they both have conflicts, as a result of dog bites dog

Song Mingyuan immediately understood, Zhu Gang meant to say that it was best not to involve him in this matter, otherwise it would be a blow to his prestige in the gang.

“But then, won’t the plan to use the police to clean up Ji Feng fall through?” Song Mingyuan asked reluctantly, originally planning to have a handful of people die to get Ji Feng arrested, but now that more than thirty people have died, there is no way to catch Ji Feng instead?

“It’s more or less troublesome.”

Zhu Gang said, “However, Young Master, if you use the police, you may not have that much trouble, it’s normal for the police to look for suspects in murder cases.”

Song Mingyuan asked at once, “This will get Ji Feng arrested?”

Zhu Gang shook his head and said, “I’m afraid I can’t. At most, I can only call him out for questioning, unless I can find any tangible evidence. But I think that since it wasn’t Ji Feng who did it, I’m afraid it would be difficult to find evidence. But since he is a suspect, the police have the right to detain him for twenty-four hours

Song Mingyuan clenched his teeth, “Let’s do it!”

As he spoke he turned around and said to a personal bodyguard beside him, “Chen Fei, go and invite Bureau Liu to my villa, tell him I want to treat him to dinner!”

At Song Mingyuan’s side, a handsome young man nodded, “Yes, Young Master.”

Song Mingyuan’s hatred could be described as gnashing his teeth, even if he could only detain Ji Feng for twenty-four hours, that would still be good.

Right now, Song Mingyuan could not wait to destroy Ji Feng immediately, if he did not know that killing Ji Feng now would be too much of a problem, he would have been able to resist.

“Young master’s decision is correct, even if we can’t capture Ji Feng, but at least we should know where he is now, it’s most appropriate to let the police find him.” Zhu Gang said.

“Humph! Unless he burrows into the ground, as long as he’s in Hangzhou, I’ll be able to find him out!” Song Mingyuan sneered.

Looking at the two cars that were almost scrapped, Song Mingyuan couldn’t help but curse angrily, “Damn his third aunt! This is not a good idea! The bumper fell off after a random crash, so it’s strange that the cars weren’t scrapped! Shit!”

Song Mingyuan was furious and cursed, annoyed to the extreme.

.....

Ji Feng's prediction came true.

Less than three hours after it happened, he met the police at the hotel.

"Mr. Ji, there is a case that needs your assistance in the investigation, please come with us!" The police officer leading the team said.

"Oh? What case?" Ji Feng asked indifferently.

"You'll know when you go, come with us!" The policeman said with a taut face.

Ji Feng then glanced at Bai Zhu and saw that she had a worried look on her face, so he couldn't help but smile slightly and gave her a wink, signaling Bai Zhu to follow what he had planned before.

At this time, the police officer leading the team, however, also aimed his gaze at Bai Zhu: "This young lady, what is your relationship with him?"

Ji Feng said indifferently, "What relationship do you need to ask about?"

The policeman glared at Ji Feng and turned his head to Bai Zhu again, "Please answer my question."

"Friend!"

Bai Zhu said, "What's the matter, what's the problem?"

The policeman said, "Please come with us as well, we also have something we need you to assist with the investigation."

Ji Feng's eyes narrowed slightly at once, and his eyes gave this policeman an icy glance, but he didn't say anything, just to see what tricks they could play!

Instead, Bai Zhu said in a cold voice: "It's not impossible to go with you to assist in the investigation, but, I'm staying at a friend's house now, so I must say hello to her first."

The policeman nodded and said, "Yes, may I ask where your friend lives? What is her name?"

"Her name is Tong Lei, her father is Tong Kai De, the vice mayor of Hangzhou, she lives in the city government guest house, I am temporarily borrowing her place." Bai Zhu said.

"....."

The policeman then froze, and after a moment of hesitation, he said, "Wait a moment."

Immediately after that the policeman went out, apparently to consult some people or to confirm Bai Zhu's claim, a moment later he came back, nodded and said, "In that case, you don't have to go, but I have to remind you that this person is very dangerous, you'd better stay away from him in the future."

Bai Zhu suddenly had a cold glint in her eyes, "Whether he is dangerous or not, I don't need you to remind me! Just do your job, don't talk too much!"

Being reprimanded and taunted by Bai Zhu, the policeman's face turned red and he vaguely wanted to get angry, but in the end he held back and coldly snorted, "Take him away!"

Then, Ji Feng was taken away.

Bai Zhu's eyebrows knitted tightly and a murderous intent loomed in her eyes.

When he came to the police station, Ji Feng was directly sent to the interrogation room, and was not handcuffed and shackled. A police officer said, "Hand over the mobile phone and other communication tools you have with you, and take out your valuables, we will keep them for you!"

Ji Feng smiled faintly and spread his hands, "I don't have anything with me except this outfit."

The policeman was stunned, there weren't many people who didn't even carry a mobile phone these days, but he didn't ask more questions, and then he locked Ji Feng up alone, and then, there was no one left to ask.

And at this time, the big murder case at the paper mill also spread all over the Jiangzhe Dao.

Although the police and the Golden Dragon Gang are deliberately blocking the news, but such a big thing can't be hidden from people, more than thirty people were killed, and I heard that most of them were killed with a single stab, apparently by a top expert, which made many people shocked
