Chapter 261

Looking at Han Zhong's eye-catching look, Ji Feng immediately laughed: "What did you have in mind?"

Han Zhong heatedly smiled, "Old Ji, you have a total of four packs of cigarettes here, why don't you share two packs with me?"

After all, the value of these two packs of special cigarettes is not just the value of the cigarettes themselves, it represents an extraordinary status and position!

Who knows, Ji Feng but a faint smile: "Two packs is two packs, it just so happens that I also left two packs for myself to smoke, but you can not tell Old Du and Old Zhao those two guys, otherwise if they come to me to ask for it, what will I give them?"

A warm current flowed through Han Zhong's heart, and he barely managed to keep his composure and put the two packs of cigarettes in his pocket, but his slightly trembling hands revealed his inner excitement. Bubble-

Ji Feng just pretended not to see it, just smiled slightly, casually took out another pack of special cigarettes from his pocket that had been opened, handed one to Han Zhong and smiled, "Smoke one first to taste it, just to be clear, if this is fake, you can't blame me!"

Han Zhong was dumbfounded, just by looking at the outer packaging of this Panda Special, he knew that it could never be fake, but he also knew that Ji Feng was actually saying this just to ease his excitement, and he couldn't help but be grateful in his heart.

"Old Ji, give me these two packs of cigarettes and you'll be at a big loss." Han Zhong took a deep puff of his cigarette and said solemnly, "In the future, you are my brother Han Zhong, as long as"

The first thing you need to do is to get a good idea of what you're doing. The actual fact is that you'll be able to get a lot more than just a few of these. Hurry up and finish your cigarette and go to my villa together, you kid hasn't been there once yet, right?"

"Shit!"

Han Zhong couldn't help but burst out a foul mouth, but in his heart, he was quite grateful to Ji Feng, he believed that Ji Feng wouldn't not know the value of these two packs of special offerings, but he gave them to himself without hesitation.

In fact, if these two packs of cigarettes were placed in the hands of ordinary civilians, they would be no different from any other cigarettes, how they were smoked, even if they were good, they would still be harmful.

However, if they were placed in the hands of Han Zhong's father, the effect would be much different.

With just these two packs of cigarettes, it was enough to make others look at Han Zhong's father in a different light, and some people in the group with ulterior motives would definitely be shaken to their core.

What does it mean to be able to get a special supply?

With such a background, who would dare to mess with it easily?

Who would dare to put up a fight in front of someone with a special cigarette supply? Who would dare to put up a front in front of someone who has special cigarettes? Is his status more powerful than the person who has special cigarettes?

The most important thing is that you can't be too sure of what you're doing.

The two packs of cigarettes are certainly not something that Han Zhong's father would smoke on his own, except on extremely important occasions, and he would only take them out, and even then, at such critical times, they can play an unexpected role.

So these two packs of cigarettes are an immeasurable potential wealth, both for Han Zhong's father and for the Han Group, and this gift is just too generous.

No matter what Ji Feng's purpose was, just this gift from him alone was enough to make Han Zhong die. What's more, Han Zhong knew very well that Ji Feng didn't need him to do anything at all.

A person who can carry around a few packs of special cigarettes is not comparable to Han's group? If you want money, you can have it anytime, if you want power without the ability, can you get special supply cigarettes?

Therefore, for Ji Feng's motives, Han Zhong does not doubt in the slightest.

And in fact, Ji Feng also really has no motive. The reason for giving Han Zhong two packs of special supply cigarettes is because he knows what kind of role these two packs of cigarettes will play in Han Zhong's hands, but if they are around Ji Feng, they will at most be treated as ordinary cigarettes to be smoked off.

The latter has the shrewdness of a businessman, but not the mercenary nature of a businessman, so why think so much about it when you are absolutely friends with each other?

Friends, relationships are inherently simple, this has always been Ji Feng's view. For example, between him and Zhang Lei, no matter when Ji Feng was poor in the past, or now when the status and position of both sides have been reversed, the relationship between them remains the same.

Both of them also stopped talking about this matter, and Han Zhong just heatedly smiled, "So what, Old Ji, if you get this kind of cigarettes again in the future, remember to share a few packs with me!"

"Go to hell!"

Ji Feng laughed and cursed: "You think this is cabbage ah, at any time, to tell you the truth, I do not even know the specific origin of these packs of cigarettes, if you did not say this is a special supply of cigarettes, I still do not know"

When he said this, he suddenly remembered something and said hesitantly, "Do you think that Zhou Li and the others would recognize this as a special offer? What I just dispersed to them was also this kind of smoke!"

Han Zhong's mouth opened wide for a long time before he said, "What you usually smoke, is this kind of cigarette, and you dispersed it to others?"

Ji Feng laughed bitterly, "I didn't pay attention to the brand of cigarettes before, and as you know, I usually smoke very little"

"Shit!" Han Zhong burst out, "If you're scattering cigarettes everywhere, why don't you know to scatter them to me? I don't care, give me the pack you opened too!"

After saying that, without waiting for Ji Feng's answer, he directly reached his hand into Ji Feng's pocket and took the cigarettes out beautifully, laughing heatedly, "It can't just be my old man who has face, I have to go out and earn some face too to do that."

Ji Feng burst into tears and laughter.

The two of them casually found a place to eat and then went to Ji Feng's villa. The warm decoration and the fresh environment made Han Zhong envious and he exclaimed that he had to find a girlfriend to do so.

Ji Feng also ignored him, he could see that Han Zhong and Zhang Lei were simply the same temperament, both were maniacs, in this case, it was better to ignore him.

In the afternoon, Han Zhong was ready to leave, saying that he was going to school to look for his girlfriend, so Ji Feng could only send him to the road with tears and laughter, and let him take a taxi.

However, before he left, Han Zhong took away Tong Lei's bareheaded photo with Ji Feng, and according to him, "Shit! That kid Zhou Li got a special cigarette for no reason, how can he not put in some effort? Don't worry, I'll have him get the loaner's permit done this afternoon, and whoever dares to target sister-in-law again in the future, I'll get him killed!"

Ji Feng was tempted to tell him that Zhou Li didn't ask for his cigarettes at that time, but seeing Han Zhong's gnashing of teeth, Ji Feng just laughed dumbly.

After sending Han Zhong away, Ji Feng deliberated for a while and decided to give his second brother a call. The matter of special cigarettes seemed a bit weird.

The first time I received a call from Ji Feng, Ji Shaolei laughed and said, "We two brothers really have a heart to heart, I was just about to call you too, San'er, what's up?"

"You were going to call me too?" Ji Feng smiled faintly, "Second brother, those packs of cigarettes in your car, they're all special offers, huh?"

"Hey! You say this ah, at that time is ready to bring you, but then the result of a busy, also forgot to tell you I say three children, you are not going to give that cigarette to someone, right?" The first thing you need to do is to get a good idea of what you're doing.

"You're too late!" Ji Feng laughed, "Five packs of cigarettes, I smoked one pack for myself, left two packs, and gave the remaining two packs to my friends"

"That's okay, since you know the value of those cigarettes, you definitely won't mess around with them." For Ji Feng, Ji Shaolei is still very assured, right, this kid is not very old, but deal with things old-

fashioned, simply does not look like a twenty-year-old young man, rather like an old fox who has been in the society.

“Second brother, where did you get that cigarette from?” Ji Feng couldn’t help but ask.

“Where else could it be, I stole it from the old man!” Ji Shaolei heatedly smiled and said, “The old master’s health has been getting worse and worse in recent years, so the special care let him quit smoking, but the monthly allotment of cigarettes is still the same, no one smokes them anyway, I took advantage of the fact that the old master and the guards were not paying attention, so I smoothly took two out

Ji Feng listened dumbfounded, and then his heart tightened: “Second brother, grandfather’s health

“Indeed not very optimistic, the old man is old, plus the wounds suffered during the previous war, and then the root of the disease left by the criticism during the turmoil, has never healed, now basically can no longer walk, can only use a wheelchair” mentioned the old man, Ji Shaolei The experts at the military hospital said that this year might be a cold winter, and it’s hard to say whether the old man can survive this winter

The first time I heard this news, Ji Feng’s heart was more or less uncomfortable.

He was thinking about whether his decision to be independent of the family was the right one, and whether he should give the old man a call

“Third child, there’s something else I need to tell you.” Ji Shaolei’s voice pulled Ji Feng’s thoughts back to reality, “Well, how can I put it, your performance in Jiangzhou is quite good, both Eldest Uncle and my father are satisfied, however, there are still some different voices in the family

“Different voices?” Ji Feng couldn’t help but frown.

“Yes, you may not know much about our family, our Ji family, the first line is of course the eldest uncle and his three brothers, the third generation is a few of us, but in addition to the first line, there are the descendants of grandfather’s brothers, our cousins and uncles, they are considered the side line!”

“You mean to say that there are people in the side line who are not happy with me?” Ji Feng immediately understood, since his father and second uncle were satisfied with them, then to say that there was a different voice, it could only be from the side line.

Chapter 262

“Do you mean to say that someone in the side line is not satisfied with me?” Ji Feng immediately understood, since Father and Second Uncle and the others were satisfied, then to say that there was a different voice, it could only be from the side line. Bubble! *.

“That’s right, they think that your fight with Qiao Rong in Jiangzhou was very inappropriate.” Ji Shaolei weighed his words, fearing that if he spoke carelessly, he would provoke Ji Feng into a rage, “This impropriety is mainly three-fold.”

Although Ji Shaolei was careful when he spoke, Ji Feng couldn't help but frown, but he didn't get angry, only the corners of his mouth turned up slightly and a sneer appeared in his eyes as he asked, "In that case, what are the three aspects of impropriety? I'd like to hear about it, huh"

Hearing Ji Feng's smirking voice, Ji Shaolei couldn't help but smile bitterly, he knew more or less about his cousin's character. He knew that the fact that Ji Feng was acting like this meant that he was somewhat angry.

Ji Shaolei laughed, "San'er, forget it, let's not talk about this today, when you're free one day, come to the house, we'll talk about it in detail then, okay?"

Let yourself go to home?

Ji Feng's heart immediately moved, thinking that Second Brother telling himself this should not be his own idea, but Second Uncle's intention. Could it be that Second Uncle wanted to ask himself to do something?

After thinking about it, Ji Feng smiled and said, "It's alright, today happens to be the weekend, second brother, just say what you have to say."

Seeing Ji Feng's insistence, Ji Shaolei had no choice but to say, "It's good, so that you can have a mental preparation in advance. The first is that you are acting against the old man's wishes and are suspected of being somewhat unfilial. After all, the old master once stated that people from the Ji family, are not permitted to take the initiative against the Qiao family, even if they encounter provocation, they must try to endure it if they can Second, it is the questioning of your identity"

"Identity?" Ji Feng was a little puzzled, "What is my identity?"

"You kid you are the first grandson of the eldest family of the Ji family, although you are not yet recognized by many people, but what you represent when you go out is the face of the whole Ji family." Ji Shaolei said, "There are a few people who think that the way you handle things is overly aggressive, well, how can I put it, there is just no poise of the first grandson of the Ji family's long family, for example, that fight you had in Furniture City, they think that there is a better way to handle this matter altogether, but you chose to take matters into your own hands, somewhat degrading yourself!"

"Huh" Ji Feng couldn't help but laugh, he had to say that this was indeed a problem, he indeed hadn't heard of any rumours of a grandson of a family that would personally go and fight with a punk like a wolf, usually a phone call would be made and there would be countless doggies who would come sniffing around to give the other party a hard time.

"There's also your tactics against Qiao Rong, which likewise reveals this problem, you personally took on Tian Guodong and the others, which is likewise inconsistent with your status." Ji Shaolei said, he also had a bit of a headache, these things were actually nothing at all, wasn't it just being young and hot-blooded, just the age of impulsiveness?

The most he could do was to be taught a hard lesson, although his father almost didn't break his legs, but others didn't say anything?

The matter has changed a bit when it comes to Ji Feng. Some people were clearly looking for trouble, and there was nothing anyone could do, after all, what they said was not without merit.

“What about the third aspect?” Ji Feng asked again.

Ji Shaolei smiled bitterly and said, “The third aspect”

“Second brother, just say what you have to say.” Ji Feng said indifferently, “What words have I not heard before? Back then, there were even people pointing their noses at me and scolding me, but didn’t I put up with it all the same?”

Hearing him say that, Ji Shaolei was more or less relieved, and he deliberated again before saying, “The last point is that some people doubt your ability.”

“How so?” Ji Feng asked, puzzled.

“That is to say some people think that you have not received a good education over the years and that the surroundings may have affected your thinking to put it simply, that is, they think you may be limited in your ability to be the Ji family’s eldest The first grandson has no problem, but want to take over the whole Ji family in the future, it lacks the leadership ability and ability to handle things!” When Ji Shaolei finished speaking, he couldn’t help but sweat on his forehead, it was really hard for him to express his meaning clearly without saying some overly aggressive words.

Although they did not say anything too sarcastic, the meaning of their words was so clear that even a fool could hear them. Those words Ji Shaolei did not dare to say to Ji Feng, otherwise, he was really afraid that this kid would carry a knife and kill him directly to Yanjing, with Ji Feng’s ruthless methods and fiery temper, he might really do such a thing!

This is also the reason why Ji Zhenguo asked Ji Shaolei to convey this to Ji Feng, after all, it is better to communicate between people of the same age, the purpose is also to let Ji Shaolei comfort Ji Feng well and never act recklessly, now that the old man’s health is getting worse day by day, the Ji family cannot afford to have internal strife.

Who knows, after listening, Ji Feng was silent.

Could it be that this kid was really going to go on a rampage?

Ji Shaolei instantly broke into a cold sweat and panicked, shouting over the phone, “I say, San’er, don’t be reckless, your mouth is on other people’s faces, what they say is out of our hands, it’s not our crime to be angry about such people, don’t you think so?”

“Huh”

Over the phone, came Ji Feng’s faint laughter, “Second brother, you are worrying too much, no matter how impulsive I am, I won’t storm off at the words of some fly-by-night villain.”

“That’s good!” Ji Shaolei couldn’t help but breathe a sigh of relief, then he couldn’t help but laugh when he remembered Ji Feng’s phrase ‘fly-by-night villain’, it really hit the nail on the head, it was only for the sake of competing for the third generation of the family head succession, now that the old man was still alive, he was already waiting, what was this if it wasn’t fly-by-night villainy?

“Second brother, I probably understand what you’re saying, these people won’t be bothered with them for now.” Ji Feng smiled faintly, “What I’m most concerned about now is grandpa’s health, if it’s convenient, should I make a trip to Yanjing?”

“Don’t ever!”

As soon as Ji Feng’s words left his mouth, Ji Shaolei suddenly exclaimed, “Third son, you mustn’t do that, never!”

“Why?” Ji Feng was stunned.

“You kid, you always have to consider the actual situation, right?” Ji Shaolei said, “The old man’s current body absolutely can’t withstand half the excitement anymore, you, the grandson you haven’t seen for more than ten years, returning to the family, do you think the old man will be excited?”

Ji Feng suddenly realized, people are old, big joy and big grief mood swings, is simply a deadly poison, if he suddenly went to Yanjing, maybe it is really similar to what second brother said, in the end what consequences will occur can not be said.

In fact, Ji Feng also knew that if he needed to go to Yanjing, his father would have called him a long time ago.

Ji Feng’s silence made Ji Shaolei think that he was unhappy, so he couldn’t help but explain, “Third son, how about this, I’ll go to Yanjing first to see how the old man’s health is, and when the old man’s health is more stable, I’ll discuss it with uncle and then inform you to go there.

Ji Feng smiled, “Of course, second brother, then it will be hard for you to make the trip.”

Ji Shaolei laughed bitterly, “I don’t have to work hard, as long as you don’t make a mess, I can make a hundred trips!”

The two of them burst out laughing and Ji Feng laughed, “How can I mess up, those people don’t have much to do with me at all, do I have to let their words affect me?”

That family in Yanjing, apart from his own parents and the old man, Ji Feng didn’t care about anyone, being the third generation family head or not for the time being, let’s say right now, how could he be angry and hurt his body just because of those people he didn’t know, babbling a few words?

He was not that stupid!

Although Ji Feng did feel some anger in his heart when he first heard about it from Ji Shaolei, he quickly adjusted his emotions, figured it out, and was relieved.

After hanging up the phone, Ji Feng’s face was stony and his brows were furrowed.

Grandpa’s health was failing!

Ji Feng hugged his arms and walked around the living room, pacing constantly, his fingers tapping his arms gently as thoughts flashed rapidly in his mind.

Although he had never met the old man once, the kind of blood ties that were thicker than water would not be severed in any way. What’s more, although he didn’t know much about the situation at the top, he knew very well how important it was for the Ji family that the old man was alive, and how important it was for his father.

Now, father must be very sad, right? The old man is still alive and some people can't wait, so I'm sure the pressure father is facing right now must not be small, right?

In fact, if father gave up on himself and agreed not to let himself take on the role of the next generation's head of the family, his pressure would definitely be much lessened, but obviously, the fact that second brother Ji Shaolei called this number is enough to say that father won't give up!

Thinking about every time his father called him, although he didn't say much, but the concern in those words, Ji Feng's heart just warmed up.

"I have to find a way to change this situation myself!" Ji Feng secretly gritted his teeth.

There were only two ways to change this situation, firstly, to make the old man healthy and give his father more time to set things up. Secondly, just get rid of all those restless guys!

The second method was obviously impossible, and this idea only flickered in Ji Feng's mind before disappearing.

There was only the first method Suddenly, Ji Feng's heart moved.

"Bio-current!" Ji Feng's eyes suddenly widened, "Since he can use bio-current and make Tian Guodong and Qiao Rong and the others suffer, then, can't he use bio-dots now and make the old man's body gradually recover?!"

Chapter 263

"Bio-current!" Ji Feng's eyes suddenly widened, "Since he could use bio-currents to make Tian Guodong and Qiao Rong and the others suffer, can't he use bio-points now to make the old man's body gradually recover?!"

Once this thought arose, it never lingered and could not be dispelled. Bubble-

Ji Feng wanted to immediately go into his mind and ask the intelligent brain if his guess was correct or not. But on second thought, he was a little apprehensive, what if, what if his guess was wrong?

Ji Feng, who rarely hesitated when it came to things, was a little hesitant this time.

"Ding"

Just when Ji Feng was hesitating, his mobile phone suddenly rang, he immediately took out the phone, but found that it was currently calling.

Ji Feng immediately picked up the phone, "Mom!"

"Little Feng!" Xiao Su Mei, who hadn't heard her son's voice for a long time, looked very excited and asked with concern, "Little Feng, are you doing well in Jiangzhou?"

"Mom, everything is fine with me, you don't have to worry!" Hearing his mother's concerned voice, Ji Feng's heart was warmed, children travel thousands of miles and their mothers worry about them, no matter how far away they are from their mothers, she always cares about them, "Mom, you are doing well in Yanjing, right? Is Dad treating you well?"

“Yes, yes!” Xiao Su Mei was still a little excited, and it took a long time to calm down, “Your father is just too busy, usually busy with work, even when he comes back home, he is still busy, sometimes he can’t even take care of dinner, he rushes off to his office recently.”

Hearing his mother speak with some sighs, Ji Feng immediately frowned. In the past, no matter how hard it was, mother had never sighed, only a vague look of sorrow in her eyes, but now, she actually sighed.

He was immediately moved in his heart and could not help but ask, “Mom, are you being aggrieved in Yanjing? Did dad treat you badly?”

“You child, don’t always be wary of your father.” Xiao Sumei couldn’t help but smile lightly, “It’s nothing, it’s just that recently your father is under a lot of pressure, he may not be able to take care of you when he gets busy, you have to be good yourself in Jiangzhou, you know?”

Ji Feng also smiled, “I know, mum, since dad is so busy, then you take care of him, your body is most important”

“You still need to take care of this? Brat, you’ve really grown up” Xiao Su Mei couldn’t help but laugh and scold.

Ji Feng laughed heatedly, sometimes it was a blessing to be scolded by his mother.

Then, mother and son said some more words of concern, Xiao Su Mei could not help but repeatedly admonish Ji Feng, from clothing, food, housing and transportation to handling people, all of which were taught without fail, Ji Feng listened to the warmth in his heart, naturally he would not be half impatient.

By the time Xiao Sumei hung up the phone, two hours had passed and Ji Feng’s phone was getting a little hot from the beating.

He recharged the phone and immediately, his face became even more gloomy.

Although Xiao Soumei had not said half a word of aggression from the beginning to the end, Ji Feng could hear that his mother was really aggrieved, moreover, this aggression did not come from his father, but from other people!

Although there was no basis for it, Ji Feng could feel it. Moreover, he believed in his own feeling because his mother had never been as excited as she was today, obviously because she had lived a somewhat depressing life in Yanjing and was naturally very excited to be able to talk to her son.

However, she was afraid that her son would be worried, so she just rambled on about some words of concern and was content in her heart.

The moment he thought of this, Ji Feng’s brow furrowed, he could not wait to rush over now, he wanted to see who had eaten the courage of a leopard, even mother dare to bully, really think that I Ji Feng is a kind and simple poor country boy?! Or do you think that I won’t kill anyone?

Ji Feng picked up a cigarette from the coffee table with a blue face, lit one up casually and took a few fierce puffs, before his agitated emotions slowly calmed down.

He took a deep breath, put the cigarette out directly and threw it into the trash, then quickly went upstairs, locked the bedroom door and entered his mind with his consciousness.

“Master, welcome back!” The intelligent brain was the first to come to greet.

Ji Feng nodded slightly and asked directly, “Wisdom Brain, my bio-current can now be gradually input into other people’s bodies, so, apart from causing harm to the other person, can it bring benefits to others?”

The fact that his mother had been aggrieved completely made Ji Feng give up all hesitation, in his heart, nothing was more important than his mother, the information revealed in his mother’s words was just too much, and Ji Feng, after a little association, knew that although his mother was now living a better life, she must not have heard a lot of gossip and even tolerated still being aggrieved in some aspects, otherwise, she would not have been so agitated.

Ji Feng knew very well that her mother had a very strong character, otherwise she would not have left Yanjing with her pregnancy because she knew that her father had another woman before, and subsequently pulled herself up alone and lived a strong life for more than ten years.

How much aggravation should she suffer from having her mother, who had a strong character, put up with her at every turn?

Even for the sake of his mother, Ji Feng absolutely had to find a way to restore the old man’s health and give his father more time. With an artificial intelligence from the Gamma Galaxy living in his own mind, wasn’t there a little solution?

Ji Feng absolutely did not believe it!

“Master, bio-current, is a special energy shared by all living beings” Ji Feng interrupted before the intelligent brain could finish its words.

“Don’t rush to explain these principles first, just say directly, can bio-current save people!” Ji Feng’s tone was a little impatient, and with anger in his heart, he indeed couldn’t do it in a calm manner.

The intelligent brain, however, was not half unhappy, in fact, as an artificial intelligence, it was absolutely loyal to its master and certainly would not have unhappy emotions present.

“Yes!” The Wisdom Brain said concisely and clearly.

Ji Feng was instantly overjoyed, “How?!”

“Master needs to know the characteristics of the bio-current before he can start going about it!” The wise brain said.

“.....”

After all, one still needs to understand the principles before one can go about doing it, Ji Feng was a little embarrassed, he smiled apologetically, “Sorry, Wisdom Brain, my attitude was a little bad just now, I hope you don’t mind.”

The intelligent brain didn't have any half-hearted mood swings and said, "The master's will is an order to the intelligent brain, the master doesn't need to apologize."

Even though he was dealing with an artificial intelligence, Ji Feng was still a little apologetic. When he thought about it, if there was no intelligent brain, he would still be a poor boy who was worthless, and it was really wrong of him to be angry at it just now.

Once he thought of this, Ji Feng's tone was much softer: "Wise Brain, then tell me, how should I use bio-current to save people?"

In the past, all Ji Feng had focused on was how he should use bio-currents to beat people up, and had never thought about saving people. After all, he was an agent, so if he was always thinking about saving people, why would he be called an agent? It would be better to just call it a doctor!

The intelligent brain explained: "Master, bio-current is the energy common to all cell structured organisms. Of course, the bio-current produced in this way is too weak and can only meet the basic needs of the human body's activities."

Ji Feng nodded slightly, this point had been explained in detail by the intelligent brain when he was first introduced to bio-currents.

"The reason why the bio-current in the master's body is dozens of times more than an ordinary person is because the master insists on practicing body building exercises, the cells produce bio-current dozens of times faster than an ordinary person, plus the master's body is also absorbing energy from the outside world and converting it into bio-current at the same time, which is the reason for the current result!" The intelligent brain said.

"I already know all of this." Ji Feng nodded and said, "So, how do I use bio-current to save people?"

"Since human cells can produce bio-current, the human body naturally needs bio-current as well." The first is when the target's body has been injured by a virus or the physical body itself. In the second case, the target's body starts to function less well. And in both cases, there is one thing in common, and that is that the bio-current produced by their body cells is no longer sufficient to meet the normal needs of the body!"

"That's indeed the case!" Ji Feng instantly brightened up, what was originally very complicated had become so simple and enlightening after the Wise Brain explained it.

However, Ji Feng didn't know that even if Ji Feng's words were heard by others, he definitely wouldn't have such an enlightened feeling as he did, because others didn't have such a deep understanding of bio-current as he did, and even, there were probably not even a few people who had heard the four words bio-current.

"So, if I want to save someone, I only need to replenish the bio-current of the rescued target's body, and that's it?" Ji Feng asked excitedly.

"Master, just this is not enough." The intelligent brain said, "According to the master, this can only solve the immediate problem, because although the bio-current in the rescued target's body has been replenished, the body functions have not been restored. Therefore, the best way to save the target is to activate the bio-current in the target's cells, so that the cells can be rejuvenated and can absorb external

energy. In this way, a balance of energy flow can be achieved to maintain the long-term functioning of the body!”

Ji Feng froze as he listened, and it was only after a long time that he said numbly, “Holy shit, according to you, as long as there is still energy in the outside world, this person will be able to live forever?”

“Of course not.” The intelligent brain was always straightforward, “After the cells are reactivated, the body functions normally again. But in the process of functioning, the body will still suffer from attrition, only this attrition is lower than normal, and when it reaches a certain level, it can no longer use this method. The human body will also age with it and gradually grow old.”

Only after a long time did Ji Feng let out a long breath, fists and palms clashing, his face full of joy, “Just use this method! Smart brain, I really love you!”

“Master, according to the program, there is no such emotion as love set in the Smart Brain’s database!” The Wise Brain still had the same calm tone as always.

“F*ck!” Ji Feng couldn’t help but roll his eyes, but in his heart, he was wildly happy, otherwise, he wouldn’t have exploded in foul language.

Old man, it’s saved!

Chapter 264

Having received a positive reply from the intelligent brain, Ji Feng was simply surprised and almost jumped up. As long as the bio-current was fed into the old man’s body to activate the bio-current within his cells, thus forming an extremely stable cycle, according to Ji Feng’s estimation, the old man would be able to live for at least ten more years.

What a terrifying figure!

One must know that at the old man’s age, living even one more day would be a miracle, let alone ten years! And this was only a conservative estimate, if Ji Feng operated well, I was afraid he would live longer.

Now that the principle was known, then the key question left was the operation.

How to input bio-currents into the old man’s body, activate the bio-currents within the cells, and allow these bio-currents to flow naturally in the body and absorb energy from the outside world to reach a stable balance.

Balance is the most perfect.

So far, the bio-currents he had used were either used on his own body, such as on his eyes, to achieve the effect of seeing through, or on his fists and feet, to make his attacks more terrifying.

Either that, or it was fed into people like Qiao Rong and Tian Guodong, wreaking havoc on their cells and causing them to suffer.

As for saving people, Ji Feng had really never experienced it before, and even more so, he didn't even know how to input bio-currents. You know, the purpose of inputting bio-current into a person's body was to save them, which was different from inputting bio-current into Qiao Rong and the others, which was to harm them.

This saving and harming are two completely opposite ways, and the results are the opposite of each other.

Ji Feng couldn't help but ask, "Intelligent Brain, what should I do to activate the bio-current within the cells of the target being saved?"

"Resonance!" The intelligent brain immediately said, "Whether it's bio-current or any form of energy, there are actually fluctuations, and the bio-current in each person's body doesn't want to have the same fluctuation frequency, in order to activate the bio-current in the rescued target's body, the master needs to adjust the fluctuation of the bio-current in his own body to be the same as the fluctuation of the bio-current in the rescued target's body, so that resonance can be formed, thus activating the bio-current in the other person's body. thus activating the bio-current in the other person's body."

"Resonance!"

Ji Feng's eyes lit up, this was indeed the case, about resonance or something, he had already learned about it in physics in secondary school, only that he had not explored it in depth, but Ji Feng was still not unfamiliar with this concept.

By producing resonance, it would cause resonance, and as long as the operation was reasonable, it would naturally activate the bio-current in the old man's body.

Knowing the principle of salvation and how to go about it, Ji Feng was in a good mood for a while and could not help but smile, "Wise Brain, it's really my luck to have met you."

The wise brain said, "Serving the master is the only meaning of the wise brain's existence."

Ji Feng couldn't help but feel great emotion, if he hadn't met Wise Brain, what would his life be like now?

Suddenly, Ji Feng thought of something else and couldn't help but ask, "Wise Brain, how long will this bio-current resonance treatment take, roughly?"

He had to know the detailed data and make a reasonable plan so that he could treat the old man.

One had to know that the status of the old man was such that no one else was allowed to just go and treat him, and any information about the old man's physical condition, that would cause strict concern from the senior management, because the old man was not just him, his existence represented a big faction, and no one dared to take it lightly.

So Ji Feng had to have a good idea of what to do before he could decide exactly how to go about it.

It may not be difficult to save the old man, but if you want to not alert others, it will be really difficult, not to mention whether it will be discovered by others, even if it is only known by the old man himself, I am afraid that when the time comes, it will be difficult to explain oneself.

A poor boy, who is only in his first year of university, can cure an old man whose life is in danger? Moreover, before this, many experts were at their wits' end, but you, a poor boy, had succeeded, and a poor boy who had never studied medicine before?

There is a shortage of everything in this world, but there is no shortage of smart people.

Ji Feng didn't want his secret to be discovered and thus like a white mouse, to be caught and studied, if that was really the case, it would be worse than death.

The existence of the intelligent brain in Ji Feng's head, in particular, would be even more important not to let anyone know, otherwise, even the old man, I'm afraid, could not protect him. Because at the very least, the first thing some people have to do is to prevent this artificial intelligence in his head from straying abroad, and the second thing is to think about how to protect him and how to make use of it for research

Ji Feng's brain was spinning fast when he heard the intelligent brain say, "Master, it depends on the physical condition of the rescued target to make an accurate judgment."

"In that case" Ji Feng couldn't help but frown slightly, if that was the case, then he would have to meet with the old man before he could start making plans.

"It seems that I can only wait for news from the second brother, at the very least, I hope that the old man's health can be stabilized, even if the situation is as bad as it is, as long as it can be stabilized and no great sadness or joy occurs, I will have a chance to see the old man myself." Ji Feng secretly thought, he was even a little bit regretting now why he had not gone to see the old master earlier.

Now that the problem of treatment had been solved, Ji Feng couldn't help but breathe a sigh of relief as he began to think again about the phone call Ji Shaolei had made to him today.

The side line is not convinced!

Ji Feng couldn't help but grunt twice in his heart, and the aggravation his mother had suffered, these accounts would have to be settled sooner or later.

However, before settling the score, Ji Feng still felt that he should give them a note first and ignore those people for the time being, because before he had that strength, Ji Feng was unable to settle the score with them.

The only thing that Ji Feng can take to the table now is his status as the first grandson of the Ji family, but people are coming for him, so naturally this status is not very useful.

The other thing is Ji Feng's physical skills.

However, violence alone could not solve the problem, unless Ji Feng could destroy the whole world with one hand, and mastering that kind of inhuman strength, he could indeed set all problems at rest.

But unfortunately, not to mention him, even in the information records of the intelligent brain, there had never been such a bullish figure appearing, and who was he to generate this delusion, a person who had practiced bodybuilding for less than two years?!

Since neither of these two advantages could be decisive, Ji Feng had to find other ways to make all those gossips shut their stinking mouths!

Ji Feng thought carefully, there were two ways to shut them up, the first was to lead the family to glory, in this way, those questioning voices would naturally disappear without a trace. However, he was still just a student, so how could he have the chance to lead the family?

Then, there was only the second way left – to start his own business and form his own power!

Shut them up completely with his own practical actions, with a powerful advantage that others simply cannot stop!

From the current perspective, this second method was the only one that worked, and, moreover, it was the easiest.

Because, Ji Feng possessed an advantage that no one else had – alien technology!

As of now, Ji Feng had a huge amount of alien technology at his disposal, from weaponry, to mechanical knowledge, no matter which one of these things was taken out, it would shock the world and drive everyone crazy.

But these technologies were indeed a little too shocking, and Ji Feng did not intend to be targeted as soon as he started, to be inconspicuous, he needed a technology that was both effective and low-profile.

Ji Feng carefully recalled those knowledge he had, and sifted through them to find the ones that were currently more feasible.

However, after thinking about it for half a day, but most of the alien technologies he had had were related to the battlefield or secret agents, and simply could not be used as a starting technology.

As for the light curtain that he had always been more interested in, but because his communication and network technology was not yet finished, he simply could not make it now, and even if he had mastered this knowledge, he could not make it without equipment as well.

Ji Feng couldn't help but frown slightly, it was really easier said than done, once he really wanted to start a business, he couldn't really find anything suitable for a while.

Ji Feng decided to withdraw from his mind first, if he just thought hard like this, he might not be able to come up with anything, so he might as well go with the flow.

Returning to reality, Ji Feng immediately looked at the time and surprisingly, it was already after four in the afternoon.

"Time really does fly!" Ji Feng shook his head with a smile, got up from the bed and walked out of the bedroom.

He came into the living room and felt that there was nothing to do for a while, so he simply turned on the TV, intending to watch some random programmes and relax.

Ji Feng was very interested in the history of the past, and just as he tried to watch it with his heart, he couldn't help but frown at once.

After a dozen seconds of playback, there was a flood of commercials, which made Ji Feng's scalp explode and made him want to smash the remote control on the TV directly.

After changing several channels in a row, it was either that noisy and chaotic program or commercials, and when he could not stand it anymore, Ji Feng finally pressed the switch on the remote control.

"XXX weight loss, fifteen days to see results, ineffective refund"

Just as he said this, the TV finally turned off.

"Weight loss?"

Ji Feng, however, froze, and then jerked up, repeating once again, "Weight loss?!"

He immediately turned on the TV again, but that ad for weight loss had already passed and was replaced by another ad for some kind of brain idiot, Ji Feng shook his head slightly and turned the TV off again, but his heart was alive.

"Weight loss, weight loss" Ji Feng repeated over and over again, and gradually an idea came to his mind, "If there really was a special medicine that did not hurt the body but could have a significant weight loss effect, would it sell very well?"

But Ji Feng knows that most of the so-called weight loss pills nowadays are outrageously fake, and many of them, even if they have an effect, contain hormones and other things, which is really devastating.

In the Gamma Galaxy, however, there is a slimming pill with extremely simple ingredients, but the effect is very obvious, and this medicine does not have any side effects, and most importantly, the effect is extremely fast!

Chapter 265

Disguise, as a super agent, is a skill that must be mastered skilfully and is only one of countless and complex skills. Skills such as etiquette, social interaction and other aspects were all necessary to master.

Fortunately, Ji Feng had already mastered the basic skill of disguise before he had even started practising the second set of moves, and although he had rarely had the chance to practice it, it was undeniable that this skill was one of the most interesting ones to him.

It was a test of intelligence and courage to constantly change identities, to move from one situation to another, and even to manoeuvre between forces. Because he had watched too many hero movies, Ji Feng naturally had the urge to be a hero in his heart.

But as he grew older, that urge gradually disappeared, but the memories of the past still existed in his mind and had not been forgotten.

Therefore, Ji Feng was extremely interested in all the skills in the disguise.

The weight loss advertisement on the TV suddenly reminded Ji Feng of something, namely a slimming drug specifically for agents in the Gamma Galaxy era – TFM53!

For the sake of memory, this medicine is usually referred to as slimming pill 53!

This drug was mainly developed for agents, especially for male agents.

You know, a man, no matter how soft and skinny his body is, naturally needs to master a certain level of self-protection to become a competent super agent. Of course, there are also many agents who themselves have an extremely specific purpose from the very beginning and may need to infiltrate for several years or even a dozen years, some even for decades.

Such agents, naturally, do not need to have any skills in terms of force, and even to prevent exposure, all traces of the agent are deliberately eliminated, and without orders, such agents themselves will continue to live in disguise.

There were many such agents who might not receive a single order in their lifetime.

But Ji Feng was not too familiar with the way such agents worked; all he was familiar with was the knowledge he had learnt, the various skills that were used against super agents.

Unlike other agents, the characters that super agents executed, generally had a very short cycle, which was why they needed various disguises with various other skills.

Sometimes, it is a necessity for a male to dress up as a female.

However, there are simply too many areas where a male trying to dress up as a female might be exposed, starting with the body.

Although humans in the Gamma era have improved their genes and various other objective conditions, a man's tall stature is very difficult to change, except by some cruel methods, but such methods, are not suitable for super agents.

Therefore, when necessary, a male super-agent who wants to disguise himself as a woman needs an external aid.

—That is, the slimming pill 53!

This drug, which burns off excess fat in the human body in the shortest possible time, makes the body slim down quickly and forms a drug deposit in the body that can stop the regeneration of excess fat for a long time.

In this way, slimming down becomes extremely easy.

And most importantly, Pill 53 does not cause any harm to the body, it just burns the excess fat and the energy from this burning, is converted into bio-currents and stored in the body. So in effect, taking Pill 53 will not weaken the super agent's power, but will instead enable him or her to explode with unexpected power at critical moments.

The only downside is that a man who has taken the slimming pill will become so thin that he will look almost indistinguishable from a woman, and then, with a little disguise, he will be able to pass himself off as a real man.

If you want to regain your original sturdy and fit body, all you need to do is to take another medicine with the exact opposite composition of No. 53, which will gradually neutralize the precipitating drug of No. 53, thus gradually restoring your original body.

This kind of No. 53 medicine is so much better than those XX diet pills, diet teas and other things on the market nowadays, at least one of the advantages alone is enough to put all the diet products on the market nowadays to shame to death.

Pill 53, not only is it harmless to the human body, but it will also make it healthier!

If you add to that the advantage that Pill 53 works fast, then I'm afraid there is no other diet pill that can compare to it, right now.

"I'm afraid that I'm the only one who has this idea of using pill 53 to make a weight loss pill?" Ji Feng rubbed his chin and couldn't help but shake his head with a smile.

In the Gamma Galaxy era, people's genes had mostly been improved, and there would rarely be super obese or thin-bodied people, basically they were all well-proportioned and healthy. So Ji Feng had never heard the intelligent brain say that there would be any diet pills or anything like that in the Gamma Galaxy.

Moreover, Medicine 53 was confidential and not accessible to ordinary people, even if someone wanted to use it for a weight loss pill, they wouldn't have that opportunity.

"Looks like, if one wants to use the knowledge learned in the training system, one has to properly combine it with the actual situation of modern society, otherwise, it might be a joke!" Ji Feng couldn't help but secretly think, one is the Gamma Galaxy and the other is Earth, these are two very different worlds, many habits are naturally different as well.

"However, the ingredients needed for the 53rd medicine, I don't know if there are any on Earth or not." Ji Feng thought about it and immediately ran upstairs to open his computer and downloaded a complete list of drug ingredients from the internet for easy reference.

Ji Feng carefully recalled the ingredients about the No. 53 slimming medicine and compared them with the ingredients he downloaded online.

Luckily, all of them were commonly used ingredients!

Ji Feng couldn't help but breathe a sigh of relief, it would have been a joke if he had been foolish enough to conceive of what a wonderful prospect he had if he had found out that the ingredients of the No. 53 medicine were all unique to the shape.

"It seems that alien technology and earth technology, there are many places on the common!" Ji Feng smiled faintly, in that case, there was no need to worry that the knowledge could not be used. After all, he had learned a huge amount of knowledge in the training system, and if it could not be turned into a realistic product, it would really be of little use.

Now that he was sure that his plan was feasible, the next step was to think about how to implement it in concrete terms.

For this piece of medicine, the state has explicit regulations, which seem to be more strictly managed, and if a private person wants to do this piece, all kinds of documents and licenses are required, or at least complete. There are also various joints that need to be sorted out, as well as some other considerations that Ji Feng is not familiar with.

In this regard, Ji Feng, who had never had any experience in starting a business, could be said to be in the dark.

So now he was in a situation where he had empty skills, but no access to the door.

In fact, Ji Feng knew very well that if he went directly to his second brother, he would be able to get all the licenses and other things easily, but Ji Feng did not want to do that, as there were already people gossiping before he could rely on the family to do anything.

If this then went to the second brother, I'm afraid the yin and yang words will be even more, as long as there is a little way, Ji Feng will not go to the second brother and second uncle to help.

If it does not work Ji Feng mused, the big deal, not to do 53 diet pills is, since his mind has so much knowledge, as long as the quiet mind to slowly think, is not afraid to think of a good idea?

Ji Feng is not in a hurry for the time being, it's not too late to familiarize yourself with the situation first. What's more, the most urgent task now is to learn to skillfully control the bio-current in your body so that you can treat the old man when the time comes.

It was not the first time that Ji Feng had inputted bio-current into other people's bodies, but the first few times he had done so had been harmful, and there was no need to consider fluctuations or frequencies, but treating the old man was different, not only did he have to input bio-current, but he also had to grasp the degree of input, and at the same time, he had to feel the fluctuation frequency of the bio-current in the old man's body.

Without sufficient control of the bio-current, even if he knew the frequency of the bio-current in the old man's body, he would not dare to input it.

"I hope I can skillfully control the bio-current before the old master's physical condition stabilizes!" Ji Feng couldn't help but say secretly, "It's a cold winter this year"

It is still somewhat hard to say whether the old man can survive this year's winter This news really makes Ji Feng's mood a little heavy, what he is most worried about is that before he has time to go to Yanjing, the old man's health condition will start to deteriorate, this is the situation he is most unwilling to see, because at that time, even if he has the power of the heavens, there is nothing he can do.

Sitting on the sofa, Ji Feng slightly closed his eyes and tried to feel the fluctuating frequency of the bio-current in his body

When Ji Feng opened his eyes again, the first thing that caught his eyes were two somewhat worried and delicate faces, none other than Xiao Yuxuan and Tong Lei.

"Hmm? Why are you guys back so soon?" Ji Feng was stunned and couldn't help but ask.

The two women looked at each other, both quite puzzled, and Xiao Yuxuan couldn't help but ask worriedly, "Ji Feng, are you alright? Is it still early? It's almost eight o'clock already!"

“So late?” Ji Feng was stunned, then he hurriedly lifted his hand and looked at his watch, which was indeed a quarter of an hour short of eight o’clock. He turned his head again to look at the sky outside, it was already dark.

“Ji Feng, what are you up to just now? Why didn’t you even notice that we were back?” Tong Lei’s pretty face was written with worry, “Also, you looked so scary just now, your breathing was unstable if anything, and sometimes you were breathing rapidly. If you don’t wake up, my sister and I will have to take you to the hospital.”

Unstable breathing?

Ji Feng immediately understood that it was caused by the fact that he was practising controlling the fluctuating frequency of bio-currents, however, it was impossible to explain these things clearly for a while, so he snorted and just said that he had accidentally fallen asleep while sitting.

Xiao Yuxuan and Tong Lei frowned slightly at the same time, naturally they would not believe Ji Feng’s words, who had ever seen such unstable breathing after falling asleep? Even if they were having a nightmare, it wouldn’t change so much, right?

But Ji Feng was not willing to say, so they could not continue to ask.

It was Ji Feng who suddenly remembered something and he asked, “Right, Yu Xuan, since your family owns a pharmaceutical company, you should be familiar with this piece of medicine and health care products, right?”

Chapter 266

“Medicines and health products?” Xiao Yuxuan asked suspiciously, “Why did you suddenly remember to ask about these?”

Ji Feng smiled, “I have a prescription that has special effects in weight loss, so I plan to invest in this area, but I’m not very familiar with this piece, so I had to ask you to inquire about it!”

“You have a prescription for weight loss?” Xiao Yuxuan was even more puzzled, “Where did you get the prescription from? How come I’ve never heard of it before?”

Tong Lei also looked at Ji Feng with a puzzled gaze, where did he get any weight loss prescriptions?

Ji Feng was stunned, that was a question, where did the prescription come from?

“Well the exact source, just think of it as something I researched, won’t it be okay?” Ji Feng snorted, “You guys can rest assured that there is absolutely no problem with the origin of this prescription, at least I can guarantee that there is absolutely no other prescription on earth that is the same as mine.

“And on Earth?” Xiao Yuxuan couldn’t help but purse her lips and laugh lightly, saying in an angry voice, “Did you get this prescription from an alien? Speak with such a big mouth!”

“You don’t say, it’s really from aliens!” Ji Feng laughed heatedly.

“Virtuous!” Xiao Yuxuan and Tong Lei gave him a blank look at the same time, “If you see an alien, remember to say hello to him for us, or take a picture to show us!”

Ji Feng laughed, “Fine, now the alien lives in my head, when I have time I’ll call him out and meet with you guys!”

“Come on, don’t be weird.” Xiao Yuxuan lightly laughed and gave him a white look. She could tell that Ji Feng did not seem to want to talk about the source of the prescription, and since that was the case, they naturally would not ask more questions.

If Ji Feng wanted to tell them, he would have told them long ago, and since he wasn’t telling them now, it proved that there should be something unspeakable or something that he couldn’t know.

Ji Feng couldn’t help but touch his nose, he smiled heatedly and muttered in his heart, he was telling the truth, how come no one believed it. He really wanted to tell Yu Xuan and Lei Lei that he really had an alien AI in his head. But after much hesitation, he still didn’t explain it seriously, so he let them hear it as a joke, after all, so they wouldn’t worry along with it.

“Medicines and health care products, in fact, are said together with in many times.” Xiao Yuxuan pulled Tong Lei to sit on either side of Ji Feng and said softly, “Since I rarely care about things in the company, I don’t really know, besides, if you really have a prescription in your hand, you shouldn’t look for my father.”

“Why?” Ji Feng was stunned.

“Silly!” Xiao Yuxuan slapped him on the head and laughed lightly, “My dad’s drug company, which is the main business, doesn’t care about production, the prescription you have in your hand, you should find a drug company to cooperate with!”

Ji Feng smiled faintly, “Then which pharmaceutical company do you think I should find to cooperate with?”

“Which pharmaceutical company?” Xiao Yuxuan was stunned, and then hesitated, “Yes, which pharmaceutical factory is better?”

Ji Feng laughed, “It’s not appropriate for me to find which pharmaceutical company, because we have neither channels nor any credentials right now, and it couldn’t be easier for some big pharmaceutical companies to swallow us.”

Xiao Yuxuan nodded slightly and said softly, “This is indeed a problem, the bigger the factory, the more shady it must be, if you don’t have any credentials for the prescription in your hands, indeed you can’t work with them, otherwise, the prescription will be swallowed by them and we won’t be able to say anything.”

Usually when it comes to such things, Tong Lei rarely speaks, but this time, she suddenly spoke up, “Ji Feng, I think you can ask Uncle Xiao for help in this matter!”

Ji Feng and Xiao Yuxuan were stunned at the same time, and Ji Feng smiled and asked, “How?”

Seeing the strange gaze of the two of them, Tong Lei suddenly blushed and her voice couldn’t help but lower, “Why are you guys looking at me like that, I, I just want to give Ji Feng some advice!”

Ji Feng laughed, his heart warmed, with Tong Lei's cool nature, if it wasn't about herself, I'm afraid she wouldn't care.

"Lei Lei, say it, your idea must be good." Ji Feng said encouragingly.

"Yes, Rei Rei is ice-cold and smart, her idea must be good." Xiao Yuxuan got up and came to Tong Lei's side, took Tong Lei's small hand and said, "Lei Lei, tell us your idea."

Seeing the duo's encouragement, Tong Lei then said softly, "I think that since Uncle Xiao runs a pharmaceutical company, he must have cooperation with pharmaceutical companies. We can ask Uncle Xiao to help us inquire if there are any pharmaceutical companies that are having difficulties operating or want to change hands, we can take them over and develop and produce them ourselves, or we can cooperate with Uncle Xiao directly."

Ji Feng and Xiao Yuxuan instantly lit up, this was indeed a good idea!

"Because the previous pharmaceutical factory must have been well documented, it was just difficult to operate, or there was some other reason thus it could not operate, for us, on the other hand, it is not too big a problem." The first thing that you need to do is to have a prescription in Ji Feng's hand that really stands out!"

Ji Feng laughed: "Don't worry, didn't I just say that this prescription of mine is definitely the first and only one on earth. And the effect is definitely very obvious as well, very few other types of weight loss pills can compare to it."

"Then it's no problem, I believe that once I talk to Uncle Xiao, he will definitely have an idea!" Tong Lei smiled sweetly.

Ji Feng instantly laughed and went up and hugged Tong Lei, giving her a fierce kiss on her delicate pretty face, "Lei Lei is really a female Zhuge!"

"Not at all! Just know how to talk nonsense!" Tong Lei shyly pushed away Ji Feng's face and laughed lightly, "I just made a suggestion, but I have to trouble sister and Uncle Xiao with the rest!"

Xiao Yuxuan felt that something was wrong as soon as she saw it, she hurriedly sat away a bit, "I, I'll go and put the water in the bath first, you guys can talk first!"

After saying that she didn't wait for the two of them to reply, she hurriedly ran upstairs.

Looking at Xiao Yuxuan's back that hurriedly fled, Ji Feng and Tong Lei looked at each other with a smile, both with some bad smiles.

Ji Feng tenderly kissed Tong Lei on her pretty face, "Lei Lei, thank you."

Tong Lei pursed her lips and didn't say anything. In fact, she didn't know what she should say, should she say, "You're welcome, it's my duty to help you find a woman?"

Or perhaps to say, What are you polite for, I'm just setting you up because I see you two sneaking around so hard!

All these answers are too far-fetched.

And with Tong Lei's character, it was obviously impossible to joke with Ji Feng like that, so it was enough for her to just purse her lips and laugh lightly, not saying anything.

Seemingly sensing the contradiction in Tong Lei's heart, Ji Feng hugged her tightly, and neither of them spoke, just quietly listening to each other's heartbeats as their hearts grew closer and closer.

It was only after a long time that Tong Lei said, "Apart from Sister Yu Xuan, don't look for another woman in the future!"

Ji Feng suddenly froze for a moment and shook his head before he was sure that he had heard correctly.

"What's that look on your face!" Tong Lei was instantly furious and gave Ji Feng a fierce pinch on his waist, making him grimace and scream in pain before letting go.

In fact, even if Tong Lei used all her strength, she might not be able to make Ji Feng feel the pain, not to mention that Tong Lei didn't let go of it either. Ji Feng deliberately made this appearance in order to match Tong Lei and let out some of the aggression in her heart.

No girl would be willing to share a man with someone else, more so, whether it was Tong Lei or Xiao Yuxuan, neither with their posture, nor with their status and origin, could they possibly share the same man with another woman openly.

However, they did so, which is enough to show their sincerity towards themselves, so how could Ji Feng not be moved?

Looking at Tong Lei's puffed up little mouth, she looked so cute that Ji Feng couldn't help but thump his heart and slowly leaned up with his big mouth.

Tong Lei's pretty face was scarlet and her eyes were full of shame, but she didn't dodge, but closed her eyes slightly. However, the long eyelashes kept fluttering, revealing her inner tension and shyness, and at the same time some anticipation.

Ji Feng's mouth, finally, touched Tong Lei's soft and delicate seductive red lips, and a sultry scent came to his nose, refreshing his heart, so that Ji Feng could no longer hold back and kissed directly, his tongue chasing Tong Lei's lilac tongue, constantly wandering

"Mmm!"

The actual fact is that you can't be sure that you're going to be able to get a good deal on your own.

While Ji Feng kissed Tong Lei, one hand didn't stay idle, constantly roaming back and forth on Tong Lei's exquisite figure that was bumpy and orderly, feeling the amazing elasticity

The two of them were so happy that they were almost dripping blood, and their hearts were so nervous that they were like deer in the headlights, almost jumping out of their chests

When the two of them were immersed in this tender love, Xiao Yuxuan was standing at the entrance of the stairs on the first floor, her pretty face slightly red, her beautiful eyes full of laughter as she looked at the two of them.

She had already put the water on and had wanted to come and ask Tong Lei and Ji Feng to take a bath, but when she saw this situation, not only did she not make a sound, she instead smiled and watched from the sidelines.

Moreover, not knowing what was going on, her heart amazingly did not feel half jealous, but only felt very happy.

Perhaps it was because love to the extreme was also happiness to the extreme.

However, Tong Lei had just opened her eyes shyly when her afterglow glanced at Xiao Yuxuan at the entrance of the staircase, she immediately gave a shy ah, panicked and pushed Ji Feng away, her pretty face was red all the way to the roots of her ears.

Ji Feng was stunned, his big hand squeezed on Tong Lei's soft and elastic waist, "What's wrong?"

"Sister is watching from above!" Tong Lei shyly did not dare to raise her head, her voice was like a mosquito, if not for Ji Feng's excellent ear, he would not have been able to hear clearly what she was saying.

Ji Feng immediately looked up, but saw Xiao Yuxuan standing at the entrance of the stairs, holding the wooden railing with both hands and a flirtatious smile on her face.

Seeing Ji Feng looking over, Xiao Yuxuan blinked her beautiful eyes proactively and giggled, "You guys don't need to mind me, go on."

After saying that, she turned around at once, and then turned back to wink her beautiful eyes at the two of them, giggling, "The water has been put on, if you guys don't feel comfortable enough on the sofa, well, it's not bad in the bath!"

While Tong Lei was immediately ashamed, Ji Feng could not help but secretly say, "This demon!"

Chapter 267

Because the next day was Sunday, so early in the morning Tong Lei got up early and asked Ji Feng to go with Xiao Yuxuan to find Xiao Changhe and inquire about the pharmaceutical factory.

Ji Feng was touched in his heart, in his impression, he had never been so attentive to anything, this was the first time, which was enough to see Tong Lei's true feelings for him.

Xiao Yuxuan's heart was also slightly moved. If it were her, would she still be so concerned about her boyfriend when she knew he had another woman?

If you think about it, even if you cared, I'm afraid you'd still have anger in your heart, so naturally you definitely wouldn't be so positive.

The reason why Tong Lei would do this is because she loves Ji Feng and loves him to the extreme.

She is still not as deep as Tong Lei's love for Ji Feng!

Xiao Yuxuan couldn't help but sigh softly in her heart and became even more loving towards Tong Lei, not to mention that she didn't have any half-hearted desire to compete with Tong Lei for favor. In fact, Xiao Yuxuan also knew very well, I'm afraid that no matter who else it was, when they saw that Tong Lei

loved Ji Feng so deeply, they would definitely not be jealous because of the strong affection between Tong Lei and Ji Feng.

Because no one has this qualification!

Seeing the calmness of Ji Feng with a hint of imperceptible touch, a hint of tenderness rose in Xiao Yuxuan's heart, she must love Ji Feng more than Tong Lei to do so, because Ji Feng was with himself at the risk of Tong Lei's fury and possibly leaving him in anger.

This was enough to see how much Ji Feng really meant to himself!

"Sister, don't worry, sister will definitely try to help him." Xiao Yuxuan took Tong Lei's small hand and said softly. Although her tone was soft, there was a hint of unquestionable firmness in her words; even Tong Lei could go to such great lengths to help Ji Feng, so why couldn't he?

This is not a comparison, let alone jealousy, but a heartfelt feeling of emotion.

"With this word from sister, I'm relieved." Tong Lei smiled sweetly, a girl's mind is more delicate, she naturally could clearly feel the change in Xiao Yuxuan's heart, and her heart was overjoyed.

The fact that Xiao Yuxuan could say this meant that Ji Feng did not see her wrong, and the concessions she made were likewise not in vain, at the very least, Sister Yuxuan was worthy of Ji Feng's love for her.

The exchange between the two girls seemed somewhat unintelligible to Ji Feng, however, he could also feel that something seemed off between the two girls, as if they were even more intimate than yesterday.

The feelings between girls are really so fickle? Ji Feng was puzzled and couldn't help but shake his head slightly with a smile and stop thinking about it.

He laughed, "Lei Lei, what are you planning today?"

Xiao Yuxuan's home, Tong Lei naturally can not go, to know, Xiao Changhe couple have known that Ji Feng is Xiao Yuxuan's boyfriend, in the eyes of their two elders, Ji Feng is equal to half a son-in-law-to-be.

This prospective son-in-law went to meet the two elders and even brought a girlfriend with him, what does this look like?

The girl's head was tilted in thought as she nibbled on her soft, onion-white fingers, which looked so cute that one could not help but want to nibble on it and take it in one's arms for a bit of loving.

"I'd like to go to the library's audio-visual room and find some German tutorials." Tong Lei thought about it and couldn't help but say.

"German?" Ji Feng couldn't help but be a little surprised, "Lei Lei, didn't you learn English? Why did you remember to learn German again?"

"Leilei, you want to take German as your second foreign language?" Xiao Yuxuan understood what was going on, and she couldn't help but praise her, "Leilei is really working hard, our foreign language

department only started to divide into major and optional languages in sophomore year, and you're already preparing for a second foreign language?"

Foreign language students don't usually study just one language, there is a rule at Union University that after their second year, foreign language students can take an optional foreign language as a second foreign language in addition to their major.

The optional foreign language will also be included in the final examination, although it does not account for as much as the first foreign language, but it is still more important.

Tong Lei smiled sweetly: "Not really! I just think German is actually quite widely used, and the English tutorials at school are a bit slow, so I might as well take advantage of this time to learn one more foreign language, so it's a bit of a foundation in advance!"

For Tong Lei's idea, Ji Feng would naturally give his support without hesitation, although he didn't know much about German, let alone where exactly German was widely used, but that didn't stop him from supporting Tong Lei.

"No problem, I'll send you to school first." Ji Feng smiled faintly.

"No need to send it, I can just take the bus myself, it's only a few stops away, it's very close!" Tong Lei smiled sweetly and shook her head slightly.

"How can that work!" Ji Feng immediately shook his head, "Our Lei Lei is so pretty, taking the bus will definitely attract perverts, I don't trust you to take the bus to school alone."

"Screw you, just know how to talk nonsense!" Tong Lei couldn't help but be a little shy, but her heart was sweet, Ji Feng's concern and compliment made her very sweet.

Xiao Yuxuan's pretty face also revealed a smile, she took Tong Lei's small hand and smiled, "It's a deal, Lei Lei, make sure he gives you a lift, it's not too safe on the bus, it's too late to be wary in case you suffer a loss, come on, let's go make breakfast!"

"Mmm!"

Tong Lei softly let out a nasal sound, also did not continue to insist, are a family, do not need to be so polite.

Looking at Xiao Yuxuan and Tong Lei walking hand in hand into the kitchen, Ji Feng couldn't help but froze a little, it seemed that the two of them were getting better and better, how come he couldn't understand it a little, what was going on?

I don't know if it was because the breakfast was made by the two women, but Ji Feng only felt that today's breakfast was particularly delicious, especially the soy milk that the two women made themselves, and Ji Feng drank two big cups of it in a row, making the two women's beautiful eyes smile into a crescent moon.

On the way to send Tong Lei to school, Ji Feng received a call from Zhou Li, the deputy head of the school's security team, who called to inform Ji Feng that both Tong Lei's and his roommate permits had been completed and that Ji Feng could go pick them up at any time.

Ji Feng happened to be on his way, and after dropping Tong Lei off at the library, he went straight to the security section at the entrance of the school and got his borrower's card from Zhou Li.

This time when he saw Ji Feng again, Zhou Li looked even more enthusiastic, as if he was an old friend who had already had a relationship for many years.

Not only Zhou Li, but even the other members of the escort team were also very enthusiastic about Ji Feng, not at all unfamiliar with him.

In his heart, Ji Feng realized that it must have been the few special cigarettes he had inadvertently dispersed last time that were recognized by Zhou Li and the others, otherwise, they would never have been so enthusiastic, after all, the two sides had not yet interacted to that extent.

The actual fact is that you can find a lot of people in the world who have been in the business for a long time. The school has such an exquisite figure as Zhou Li, who may be able to play a big role in the future. Ji Feng naturally also acted very familiar, which made Zhou Li and the escorts feel very dignified, and also felt that Ji Feng did not have any attitude, as long as they did not annoy him, or very good to talk.

The status of a person who could casually distribute special cigarettes to others naturally speaks for itself. They would not be surprised if Ji Feng behaved indifferently, after all, the grandsons of those high-ranking families were not very good at getting along.

And when Ji Feng was so enthusiastic, they were naturally even happier.

Although Zhou Li and these people were still students in the ivory tower, as long as there were people, there would be strife of interests, and they were used to seeing this, so they were naturally more mature than ordinary students.

They knew very well that there were definitely not a few students who graduated from famous universities who were not doing well, and it would naturally do them no harm to be able to get on good terms with Ji Feng.

Ji Feng was also happy to chat with them more, although he didn't usually socialise much, but in the Super Agent training system, social training was one of them, and he naturally used it with ease. Coupled with the fact that Ji Feng had often suffered blank stares in the past, and in his constant stoicism, he was much more stable than the average person of his age, and naturally showed more poise when talking to Zhou Li and the others.

Xiao Yuxuan nodded secretly as she watched from the sidelines. In her opinion, Ji Feng was a natural superior, whether it was his hands, heart, or tactics, he was all superior. Like other people at Ji Feng's age, they were either arrogant and arrogant second-worlders, or ordinary students, or, somewhat inferior.

It is indeed very rare to find someone as gentle and elegant as Ji Feng, but with a maturity beyond his own age.

What kind of hardships does a person from a poor family have to go through to grow up to this point?

Thinking of this, Xiao Yuxuan could not help but feel a pang of heartache.

“In the future, I will never let you suffer so much again, perhaps I can’t help you in other places, but I will definitely take care of your life and get along well with Lei Lei so that you won’t have any worries!” The softest place in Xiao Yuxuan’s heart was touched.

Leaving the school, Ji Feng and Xiao Yuxuan drove together straight to the Xiao family.

On the way, Xiao Yuxuan kept silent, which made Ji Feng feel more or less strange, and he couldn’t help but ask, “Yuxuan, you don’t seem to be in a high spirits?”

Xiao Yuxuan shook her head slightly and turned her head, she looked at Ji Feng’s well-defined and rigid face and couldn’t help but say, “Husband, no matter what happens in the future, I won’t leave you.”

Ji Feng, who was driving, shivered violently and almost failed to hold the steering wheel.

He looked at Xiao Yuxuan in surprise, “Yuxuan, are you alright? What did you call me just now?!”

Just now, Xiao Yuxuan seemed to call him husband?

From the time the two of them had established their relationship until now, it seemed like Xiao Yuxuan had never called him that, which made Ji Feng rejoice in his heart while he couldn’t help but be a little worried, because Xiao Yuxuan was flirtatious and charming on the surface, but her bones were actually still very traditional, and she would rarely reveal her truest emotions.

Xiao Yuxuan immediately gave him a white look and pouted, “What, you don’t want me to call you that? Then I won’t call you that in the future!”

“Call! Of course I’ll scream!” Ji Feng immediately said, “Husband Well, I like this name very much, but, just calling me by name inevitably seems a bit too dry, since I’m called husband, why don’t we really try something between husband and wife one day? I hear it feels great!”

“Little rascal, all you do is think about those things all day long, what exactly is in your head!” Xiao Yuxuan pouted at once.

“Hahahaha” Ji Feng immediately laughed out loud, and until the car disappeared at the end of the road, the sound of the two of them laughing happily remained in the air.

Chapter 268

Before deciding to go to Xiao’s house, Xiao Yuxuan made a phone call to her family to give advance notice.

The person who answered the phone was Xiao’s mother, who was overjoyed to learn that Ji Feng was also coming.

The two old men were extremely satisfied with Ji Feng, their son-in-law-to-be, who comes from a family but does not have the pomp and circumstance of a family’s son. Later, the two old men listened to Xiao Yuxuan’s introduction of Ji Feng’s upbringing and were immediately overwhelmed with emotion.

It is said that poor people’s children become a family early, and Ji Feng is a typical example of this.

For such an outstanding son-in-law-to-be, the two elders naturally couldn't be more satisfied, so early in the morning, Xiao's mother woke up and went to the vegetable market to buy food, so as to prepare a sumptuous lunch for Ji Feng and her daughter.

In response to his wife's enthusiasm, Xiao Changhe, who was mellow by nature, just watched with a smile on his face, and if he saw that his wife was too busy for him, he followed along beside her to give a hand.

"Old Xiao, help me clean this fish." Mother Xiao handed the fish she had just bought to her husband, "Remember to be careful not to break the guts, otherwise the whole fish will be too bitter to eat, Xuan Xuan and Xiao Feng are still officially coming to the house for the first time, we can't let them eat bitter fish!"

"Good, don't worry, it's not like you don't know my cooking skills, huh" Xiao Changhe smiled and couldn't help but shake his head slightly as he took the fish from his wife's hand.

Xiao Changhe used to work in a restaurant when he was young and followed the master chef, so he had some attainments in cooking, and generally the more difficult food, Xiao's mother would leave it to him to handle.

"It's not often that you get a chance to show off your cooking skills, why don't you cook today's meal and I'll give you a hand?" Xiao's mother said with a smile.

Xiao Changhe smiled and nodded, "That's fine, I'll do it."

The old couple talked in a slow voice as they handled the various foods.

Looking at his wife's busy figure and her slightly graying temples, Xiao Changhe smiled, his daughter had grown up and it was time for her to get married

Moreover, the prospective son-in-law was still a nice young man, Xiao Changhe was satisfied in his heart, but he felt that he and his wife were really old.

The lady's eyebrows could still show the delicate shadow of that year.

"The years have not been kind to us!" Xiao Changhe couldn't help but lament, "In the blink of an eye, his daughter already has a boyfriend"

"What, feel old?" Xiao's mother asked with a smile.

"Oh, old is old, anyway, in the future, I have a daughter to be filial and a son-in-law who is not bad, so I have nothing to worry about." Xiao Changhe laughed mellowly, "If I were to really worry, there would only be the company left, after so many years of work, it's time to hand it over to my daughter."

After decades of hard work and hardship, Xiao Changhe's heart would inevitably feel a little empty when he thought that he was growing old and would one day hand over the company to his daughter.

"You, you just can't stay idle." Xiao's mother complained, "You've been working hard for this family for years, it's time to take a break."

Xiao Changhe smiled mellowly, but did not answer the question.

Xiao mother was about to say something else when the doorbell rang, her eyes immediately lit up, "It must be Xuan Xuan and Xiao Feng coming, I'll go and open the door, old man, you hurry up and deal with it!"

Ji Feng should have come to the Xiao family a long time ago, it was just the first time he officially came to the house, so naturally he wouldn't come empty handed, so Ji Feng drove around to a nearby supermarket again and bought some gifts.

"Hello auntie, Yu Xuan and I came to see you!" Ji Feng said to Mother Xiao with a smile on his face.

"Good! Good!" Mother Xiao couldn't stop smiling, wiped her hands on her apron and was about to pick up the things in Ji Feng's hand, "You kid, just come here, what else do you need to carry, come in."

"Auntie, it's better for me to do it." Of course Ji Feng couldn't let Mother Xiao carry the things, he smilingly carried the gifts into the Xiao family's villa, only to find Xiao Changhe busy in the kitchen.

"Dad, you're cooking today?" Xiao Yuxuan smilingly ran to the kitchen, grabbed Xiao Changhe's neck and said as if pampered, "I like eating dad's pickled fish the most, today I'm blessed with a mouthful!"

"You girl, Xiao Feng is still here and you have no sense of decency, go and keep Xiao Feng company in the living room, daddy will be finished here!" Xiao Changhe doted on his daughter, otherwise, he wouldn't have agreed to her affair with He Dong in the first place because of her insistence.

Fortunately, his daughter had come to her senses, otherwise, Xiao Changhe would really not be at ease for the rest of his life.

Xiao Yuxuan naturally knew how much her father loved her, she smiled cheekily and said, "It's alright, he talks very little and doesn't need company, I'd better stay with daddy, I haven't seen him for many days!"

At this time, Xiao's mother also walked in and scolded with a smile, "You girl, hurry up and go out to talk with Xiao Feng, let him sit there alone, how uncomfortable he is!"

Xiao Yuxuan spat out her tongue and quickly ran out.

Ji Feng was really not uncomfortable, with his nature, no matter where he was, he could be as steady as a mountain, even if he came to his future father-in-law and mother-in-law's house, the same was true.

At this moment, he was looking at several paintings hanging on the wall of the Xiao family villa. One was the famous Eight Stallions, although it was only eight horses, it had the momentum of ten thousand horses galloping, and hanging in the living room, it had a kind of inspiring mood.

The other is a painting of a fierce tiger descending from a mountain. The fierce tiger on it is as vivid as life, and the kind of aura of a king is indeed a secret admiration.

"It seems that when Yu Xuan's father was young, he must have had great ambitions!" Ji Feng secretly thought, from the painting to the person, through these two paintings one could see that Xiao Changhe should have struggled with ambition in the beginning, before he created such a company with his bare hands.

For people who struggled, Ji Feng always admired them more.

“What are you looking at?” Xiao Yuxuan asked with a smile as she came behind Ji Feng at some point.

Ji Feng pointed at the wall and smiled, “These two paintings are very imposing, no wonder uncle was able to create a company of no small size.”

Xiao Yuxuan nodded and said, “Yes, my father likes these two paintings the most, he often said that in order to succeed, not only do you need to have the grandeur of the king of a hundred animals, but you also need to have the spirit of a stallion that dares to struggle and endure hardship.”

“What does a steed have to do with struggling and suffering?” Ji Feng was a little confused, the aura of a king, this was good to understand, but, usually when talking about suffering, didn’t they use the old ox as a metaphor?

Xiao Yuxuan gave him a white glance and pouted, “You ah haven’t you ever heard, whether it is a good running stallion or not, as long as the master doesn’t pull the reins, even if it is one running to death, it will never stop, this is its spirit!”

Ji Feng suddenly dawned on him, this was something he had heard of, you could often see it on TV, in ancient times, in situations like the hundreds of miles expedition, many times the horses would be run to death.

“That’s a long insight!” Ji Feng smiled faintly.

Xiao Yuxuan gave him a blank look and couldn’t help but say again, “Little rascal, I want to hire a nanny for my parents, what do you think?”

“Of course it’s good!” Ji Feng immediately nodded and said approvingly, “Uncle and aunt are gradually getting older, and you can’t be home every day, it’s time to need a nanny to take care of the two elders.”

“Yes.” Xiao Yuxuan’s nose was a little sour, “I just saw today that my mum’s temples are a little gray and the wrinkles on her face have increased, and my dad’s waist is gradually getting a little rickety they’re all getting old.”

Watching their children grow up gradually is the most joyful thing for parents. However, watching their parents grow old gradually is the most heartbreaking thing for their children.

Ji Feng patted Xiao Yuxuan’s small hand, but his heart could not help but think of his parents.

My father had been working all day long, so I guess his hair was going grey, right? If it wasn’t for the fact that he had to dye his hair black often because he had to pay attention to his image and not give the impression of being dying, I’m afraid that he would be able to see white hair now.

And mother, how much she suffered in the past in order to bring herself up

Ji Feng shook his head slightly and smiled, “Then hire a nanny, but discuss it with aunts and uncles beforehand.”

“Well, we’ll talk about it later at dinner!” Xiao Yuxuan suddenly smiled flirtatiously, Ji Feng was able to understand her, which made anything make her happy.

Soon, Xiao Changhe and his wife made the meal, Xiao Changhe's handicraft was indeed good, the taste was all pure, no wonder Xiao Yuxuan said that Xiao Changhe had once worked in a restaurant.

During the meal, Xiao Yuxuan brought up the matter of hiring a nanny.

Xiao Changhe deliberated for a moment and nodded, "Then let's hire one, your mother is too old, indeed she can't work too hard."

Xiao's mother didn't object either, being older did make her feel a bit overwhelmed.

"Dang!"

As a few people were talking, Xiao Changhe's mobile phone suddenly rang, he smiled, "It's from the company, there might be something going on."

Both Mother Xiao and Xiao Yuxuan seemed to have gotten used to Xiao Changhe's busy schedule, both shook their heads helplessly and gestured for Ji Feng to continue eating, Xiao Yuxuan even gently gave Ji Feng a dish.

"What? The Drug Administration sealed off our warehouse?! Why?" Xiao Changhe's voice suddenly got louder, "Don't we all have formal approvals and perfect procedures? And there are also certificates and shipping documents issued by the manufacturer, how come it was sealed just like that?!"

Ji Feng, who was eating, was stunned and stopped moving at the same time to look at Xiao Changhe.

The person on the phone didn't know what he had said to Xiao Changhe, causing him to turn red with anger: "This is outrageous, for no reason, not even a reason, why should they seal our warehouse? What an outrage!"

.....

"Don't make any moves for now, I'll be right there!" Xiao Changhe said and hung up the phone, "Xiao Feng, you guys eat first, I have to go out for something."

Xiao's mother immediately asked, "Is there something wrong with the company?"

Xiao Changhe nodded and said as he packed up his things, "A call came from the company just now, people from the Drug Administration suddenly came to the company and sealed the company's drug warehouse. There were more than a dozen hospitals that needed goods today, but now that they've been sealed, it's too late to deliver."

"Sealed the warehouse? What's the reason?" Ji Feng asked with a frown.

Xiao Changhe shook his head, "It was said that a report was received that there were counterfeit and substandard medicines in our company, and they had to be sealed first and then inspected!"

"Ridiculous!" Ji Feng snorted coldly.

Chapter 269

Although Ji Feng does not know the process of the Drug Administration, but Ji Feng is very clear, just based on a report will be a drug company's warehouse seizure, which is absurd.

What's more, it's ridiculous to talk about seizing first and investigating later!

The actual fact is that you can find a lot of people who are not able to get a lot of money to spend on their own. The prerequisite for this is to conduct a thorough investigation, otherwise, where would one get enough evidence?

However, the Jiangzhou Drug Regulatory Bureau seized the product first and investigated it later!

This kind of behavior is so bad that it makes people's jaws drop!

Ji Feng's face suddenly turned gloomy, and he really wanted to curse, what kind of bullshit reason was this?

"Ridiculous as hell!" Ji Feng couldn't help but snort coldly. If the person who gave this order had either been kicked in the head by a donkey or had something else to hide.

Xiao Changhe also laughed bitterly, this reason was given but most importantly, it was still his delivery contract with those dozen hospitals in Jiangzhou.

These dozen hospitals are basically relatively large hospitals, which also include three large public hospitals that Ji Shaolei later introduced to him.

If the delivery was late, not only would he have to pay for it, but the other party even had the right to cancel the contract at any time.

Moreover, if anything went wrong in the meantime, such as a lack of a certain medicine that led to any problems with the patients, the company might even be implicated.

This is not something that can be explained in just a few words. The time is still so tight, originally in the morning has been sent to more than a dozen hospitals, in the afternoon there are still half of the hospitals to send, but now there is such a problem, this is really let Xiao Changhe anxious.

Ji Feng stood up at once and said, "Uncle, how about this, we can eat whenever we want anyway, now since the company has an urgent matter, it's better for me to accompany you."

Xiao Changhe was just about to refuse when Xiao Yuxuan hurriedly said, "Yes, dad, Ji Feng and I will accompany you, maybe we can even help, if you go alone, it will be too late to find someone to discuss it with when the time comes."

Xiao's mother also followed, "Yes old man, it's better to let the two children go with you, there are more people who can also help you out."

Xiao Changhe was too late to say more, and when he saw that all three insisted on Ji Feng and Xiao Yuxuan going over, he also nodded his head.

Time was urgent, and Xiao Changhe couldn't afford to be polite to Ji Feng, so he said directly, "Xiao Feng, you and Yuxuan go drive, we'll rush over now and see what's going on."

Ji Feng smiled and nodded and went to the courtyard to drive.

Xiao Yuxuan took her father's arm and said softly in a comforting voice, "Dad, don't worry, let's go and have a look, things will be clear, when the time comes, we can figure out how to solve it. It's useless for you to be anxious now, you can only dry up the fire, but it won't solve the problem."

Xiao Changhe's originally gloomy face could not help but reveal a smile: "Girl, daddy does not want to let the company be ruined in my hands when I am old, daddy wants to leave you a healthy and smoothly developing company, in this way, even if you arrive at the Ji family in the future, you will not say that you will have no status."

Xiao Yuxuan was touched beyond words in her heart, she knew that her father had always been extremely concerned about herself, but she did not expect that her father had already been thinking about her future for a long time.

"Dad, don't worry, with Ji Feng around, the company will definitely be fine!" Xiao Yuxuan said firmly.

"I'm afraid that even Xiao Feng may not work this time!" Xiao Changhe was somewhat less optimistic as he said, "Girl, think about it, to be able to make the Drug Administration give such a ridiculous reason, it's obviously definitely not just as simple as someone reporting it ah. If there were no powerful people behind the scenes, how would the Drug Administration dare to seize our company's warehouse so rashly?"

Over the years, Xiao Changhe had made a lot of connections in the Drug Administration and the Health Bureau. Although the positions of those people might not be very high, they were all people who could say something and had real power in their hands.

In business, it is all about connections and relationships, so Xiao Changhe naturally would not disregard this aspect.

But now, this kind of thing had suddenly happened to the company, and apart from the company staff calling to report just now, he had not received a single phone call, did this not explain the problem?

However, these words could not be said explicitly, but Xiao Changhe believed that his daughter was intelligent and could naturally understand what he meant.

Xiao Yuxuan was slightly stunned and did quickly understand her father's meaning, but she was not much worried.

To say that there were powerful figures in Jiangzhou, who was more powerful than Ji Feng?

What's more, if there were really powerful figures behind the scenes, why would they want to deal with a small company whose assets were only a few tens of millions?

Xiao Changhe was concerned because he was concerned, but Xiao Yuxuan was able to make a more calm judgement because her confidence in Ji Feng made her not too worried.

"Dad, I guess that there is indeed someone who is up to no good in this, but who exactly, I think, should not be an important person either!" Xiao Yuxuan said softly, "What exactly is the situation, we can't guess here, why don't we just go to the company and take a look, dad, and you can ask around with your acquaintances, then we'll know what's going on!"

“Yes, girl, you’ve really grown up.” Xiao Changhe smiled gratefully, from his daughter’s clear analysis alone, he could see that she was not only clear-headed and calm, but also did not panic when things happened, and even turned around and comforted him as a father.

Xiao Changhe was delighted to see his daughter’s growth.

While father and daughter were talking, Ji Feng quickly drove the car over, with Xiao Yuxuan sitting in the passenger seat and Xiao Changhe in the back.

Ji Feng smiled as he drove, “Uncle, you don’t need to rush, it’s not clear what’s going on yet, it’s not too late to wait and ask before making a decision.”

Xiao Changhe smiled faintly, “You really said a piece with Xuan Xuan.”

Ji Feng laughed at once, but Xiao Yuxuan’s pretty face was slightly red, not expecting her father to tease her as well. However, seeing that her father was no longer so on fire and anxious, Xiao Yuxuan was also much more relieved.

Xiao Changhe’s drug company was located near the West Fourth Ring Road in Jiangzhou, and the distance from the Xiao family to the company was not too far.

Ji Feng had just exited the lift and entered the floor of the drug company when he saw a number of employees gathered around and were whispering about something.

Once they saw that Xiao Changhe had arrived, those employees instantly quieted down and all looked at him blearily with complicated eyes.

Some of the employees wanted to see if Xiao Changhe had a solution to the problem, as the wages here were not bad and they could not afford to leave.

But there were others, who were with the mentality of watching a joke, wanting to see how Xiao Changhe was unlucky, and this could be seen in their eyes.

There was another part of the staff who were whispering, wondering if Xiao Changhe had offended someone he shouldn’t mess with, and as a result, he was retaliated by people using this method.

“What are they all looking at, don’t they have to work?” Before Xiao Changhe’s father and daughter could speak, Ji Feng’s cold voice rang out, “The warehouse was sealed, but it’s just a problem with the logistics system, does it have a lot to do with you people?”

Because of his long-term training, it made Ji Feng unconsciously carry a bit of irresistible majesty when he spoke, and the employees who looked at him immediately froze, and then they looked towards Xiao Changhe, as if they wanted to know, who this young man who suddenly spoke was.

When he saw Ji Feng speak, Xiao Changhe was stunned, but then he secretly nodded, no matter what the reason was for the warehouse to be closed, first of all, the order in the company could not be disrupted.

Xiao Changhe lightly said: “His words, is what I am going to say, those who want to stay, continue to go back to work, other things in the company, you do not need to worry, at the moment, as long as you finish your own job, it is enough!”

Those employees suddenly murmured, it seemed that this young man had a very low status in Xiao Changhe's mind.

However, the employees went to work honestly, after all, they didn't want to lose money because of their mistakes before they got their pay.

At this time, a young woman came over, "Boss, there are two staff from the Drug Administration waiting for you in the office, saying that if you come, they will ask you to come over."

"Where is Shengping?" Xiao Changhe asked.

The woman replied, "General Lin is accompanying those two staff members."

Xiao Changhe immediately frowned tightly and said in a deep voice, "I know, you go ahead and get busy!"

Lin Shengping, was the general manager hired by the company, the same person who had called Xiao Changhe earlier. In Xiao Changhe's absence, it was naturally Lin Shengping who held the highest position in the company, and it was only right that he should accompany the two staff members of the Drug Administration.

"Let's go over there, I'd like to see what they can say!" Xiao Changhe sank his face and walked towards his office.

"Ji Feng" Xiao Yuxuan looked at Ji Feng with some worry.

"Don't worry, it's fine!" Ji Feng smiled faintly and gave a comforting look to Xiao Yuxuan.

In reality, Ji Feng was secretly worried in his heart, what he feared most was that there were really counterfeit and shoddy medicines in Xiao Changhe's warehouse, in that case, although he could likewise use his second uncle's relationship to get Xiao Changhe exempted from punishment, it was still an unknown whether his second uncle could tolerate such a thing.

What's more, even Ji Feng himself may not be able to tolerate such a thing.

Counterfeit and shoddy medicines, that was going to kill people!

However, if Xiao Changhe's warehouse did not contain counterfeit and shoddy medicines, then this matter would have to be discussed properly!

Chapter 270

When the three of them arrived at the office, Xiao Changhe found a man in his thirties who was accompanying two people who were talking. ()

Those two men, one about forty or fifty years old and the other in his twenties, were an old man and a young man.

When Ji Feng entered, the old man and the young man were leaning crookedly on the sofa, smoking a cigarette with their mouths, with their feet resting on the coffee table in front of the sofa, swallowing

clouds and exhaling fog so comfortably, while the man in his thirties could only make amends next to him.

Once they saw this situation, the faces of the three Ji Feng sank, these two were the staff left here by the Drug Administration? What kind of place did they think this was?

“Boss!” The man in his thirties stood up as soon as he saw Xiao Changhe.

Xiao Changhe held back his anger and asked, “Shengping, what’s going on here? Who are they?”

This man in his thirties was the general manager of the company, Lin Shengping.

Hearing Xiao Changhe’s unpleasant question, a bitter smile appeared on Lin Shengping’s face as he hurriedly gave Xiao Changhe a dark wink and laughed, “Boss, these two are comrades from the Drug Administration, this is Section Chief Xu and this is Section Officer Zhang!”

The middle-aged man was Section Chief Xu and the young man was Section Officer Zhang, neither of their positions were very high, but their stance was outrageous. When Lin Shengping introduced them, the two of them didn’t even bow, but only nodded slightly, as if they had greeted Xiao Changhe.

That look of the duo made Xiao Changhe’s eyebrows furrowed tightly, if not for their status, he really wanted to call someone to blow these two people out right now.

“I wonder if the two leaders have come to my company, do you have any instructions?” Xiao Changhe slowly walked behind his desk, sat down on a chair and asked indifferently. Although he was very calm and steady in his tone and could not see anything different, but anyone who had a heart could hear that he was speaking with a sneer.

However, that section chief Xu and Zhang did not understand, and when they heard Xiao Changhe call them leaders, the two of them split their mouths wide open and laughed, but their mouths were not even half modest.

Especially that section member Zhang, laughing even louder, when his eyes swept from Xiao Yuxuan, suddenly a flash of amazement flashed in his eyes, his eyes suddenly widened, even forgot to laugh, just stared blankly at Xiao Yuxuan, forgetting all about it.

A glint flashed in the eyes of Ji Feng and Xiao Changhe at the same time, Xiao Changhe was incomparably disgusted and angry, while Ji Feng, however, was undisguisedly cold.

“Boss Xiao, let’s get right to the point, we received a report that someone said your drug company was dealing in counterfeit and shoddy drugs, so we came to seize your warehouse, and until the investigation is clear, you can’t have a single grain of medicine flowing into the market!” Section Chief Xu’s composure was obviously better than Section Chief Zhang’s, after all, he was older and knew the priorities.

Xiao Changhe frowned slightly and said in a deep voice, “Section Chief Xu, I’m afraid it’s a bit inappropriate for you to do this? Based on the report alone, you are seizing our company’s warehouse without any evidence, is this in accordance with the rules?”

“Oh, if there was really no evidence, we naturally wouldn’t have come!” Section Chief Xu smiled indifferently, “Boss Xiao, we are on official duty, please cooperate with us, go with us to open the

warehouse and carry out sampling and inspection, and only when the results come out can we decide whether or not to open the warehouse for you!”

“So, what evidence do you have, can you let me have a look at it?” Xiao Changhe asked in a deep voice, “I ask myself that I would never do that kind of thing to lose my heart, and I am not afraid of anyone reporting it. However, today is the time for shipments in our company, if we delay, we will be in breach of contract, I hope you two can be accommodating, sampling and inspection will continue, but after the inspection, let us send the goods to our customers first, if our company is really found to be dealing with counterfeit and shoddy medicines, we are willing to accept any punishment at that time!”

“Humph! That won’t do!” Before Section Chief Xu could say anything, that Section Chief Zhang grunted, “If all the medicines in your warehouse are counterfeit and shoddy, once you are allowed to deliver them, how many counterfeit and shoddy medicines will have to flow into the market? Even if not all of them are counterfeit and shoddy medicines, if there really are any of them, you take advantage of the delivery to bring them out, why are we still investigating?”

Whew!

Xiao Changhe’s hand jerked up high, and he held back a few times before he finally resisted slapping his slap on the table, but his eyes were already filled with anger.

“Section Chief Xu, Section Officer Zhang, what you are doing is not in line with either reason or law!” Xiao Changhe said, “What do you two intend to do, give me a clear statement, or let me have a clear idea.”

It was simply absurd, even a gentle and elegant person like Xiao Changhe could not help but slap the table.

Imagine a person with a little power in his hands, just suspecting that someone is guilty, and then directly seizing someone’s home, not even giving them a place to live, and even calling it an investigation?

“Oh, Boss Xiao is joking, what we just said is already clear, Boss Xiao wants to get the matter resolved as soon as possible, so please cooperate with our investigation!” Section Chief Xu was like an old fox, full of smiling faces, but speaking without moving in the slightest.

Xiao Changhe was furious: “If you want to seize our company’s warehouse, you have to produce the normal procedures? If there is a formal approval, I will concede this time, but if not, I will definitely file a complaint against you for abusing your power and interfering with the normal operation of our company. I warn you, all losses caused by our company during this period will be the responsibility of the two of you!”

“Oh, the approval document is naturally there, but we don’t have it with us now, as long as Boss Xiao cooperates with our investigation and returns to the bureau, Boss Xiao will naturally see it.” Section Chief Xu said smilingly, “Of course, the most important thing now is to investigate clearly whether there are counterfeit and shoddy medicines in your warehouse or not, and if so, how many?!”

“Joke!”

Section Officer Zhang sneered and interjected, "What, you are dealing in counterfeit and shoddy products and now you are justified? Let me tell you, the approval document is not there, and what we say is the approval document!"

Section Chief Xu's face suddenly changed, and in his heart he cursed Section Chief Zhang for being a stupid pig, but the words had already been said, so he had to hurry to remedy the situation.

Section Chief Xu said smilingly, "Oh, we, Little Zhang, are joking, since we dare to come and seize your warehouse, naturally we have the approval."

"Section Chief Xu, don't you think you are bullying people too much by doing this?" Xiao Changhe asked with a gloomy face, he looked at the time, it was already after 1pm, if they couldn't deliver the medicines to those dozen hospitals before 5pm, they would be considered in breach of contract.

"Bullying people?!" Section Chief Zhang immediately had shouted, "Just bullying you guys, what's wrong?"

Section Chief Xu, however, also brushed his mouth indifferently, "Boss Xiao, please pay attention to what you say, we are conducting normal official business, it is completely reasonable and legal, it is best not to carry resistance."

Xiao Changhe suddenly turned blue with anger and dropped a sentence, "I'll see what other tricks you can come up with!"

But Section Chief Xu smiled conspiratorially, "Boss Xiao, you can't talk nonsense! I repeat, this is normal official business, reasonable and legal!"

Xiao Changhe didn't even want to pay attention to him and walked out of the office directly. Lin Shengping hurriedly followed behind and walked out together.

Ji Feng gave a wink to Xiao Yuxuan, asking her to follow him and leave as well. The lustful eyes of that section officer Zhang made Ji Feng frown slightly, so he obviously couldn't let Xiao Yuxuan stay here anymore.

In fact, Ji Feng saw very clearly that the crux of the matter did not lie with Section Chief Xu and Section Officer Zhang, but with the information revealed in their words.

The last name Xu is the section chief, and his level of speech is completely incomparable to that Zhang who doesn't know the sky is high. The two of them are simply one above the other, but there is no doubt that they have the same objective, that is, to seize the drug company's warehouse.

From their words, it was obvious that they were directed by someone else to seize the drug company's warehouse. Otherwise, how could a small section member dare to be so arrogant and say something like 'I'll bully you, what's wrong with that'!

Seeing Xiao Yuxuan walking out, Section Officer Zhang's gaze followed her almost all the way to the door, before he fondly withdrew it.

Ji Feng frowned slightly and lit up a cigarette, slowly smoking it. He couldn't help but grunt coldly in his heart, this kind of person

“Kid, why are you smoking by yourself, can’t you see that there are two of us over here? The words of that section member Zhang had just left his mouth when he suddenly saw Ji Feng’s cold, glittering eyes glaring at him.

Ji Feng stared at him and said word by word: “Listen to me carefully, if I ever hear half a dirty word from your stinking mouth again, you will definitely not live to see the next day!”

Ji Feng already had a regal aura about him, plus after he possessed strong force, he gradually developed a kind of authority of a superior person, and the words he said were extremely frightening.

That section member Zhang had never seen such a terrifying look in Ji Feng’s eyes, those eyes were like a demon king from hell, staring at him.

All of a sudden, a coldness rose rapidly from his tailbone and instantly exploded all over his body, Section Officer Zhang was like falling into an ice cellar, only feeling his hands and feet were cold and his lips were shivering!

Not only him, but also Xu, the section chief next to him, also had a sudden shock in his heart, this young man had such cold eyes!

Ji Feng withdrew his gaze and slowly came to sit on the boss chair behind his desk, leisurely smoking a cigarette.

He lifted his gaze slightly and said indifferently, “Put your hooves down from the coffee table and wipe the dirty areas on it for me bit by bit!”

Although his tone was flat, it had an unquestionable meaning.

If it was Xiao Yuxuan who was here, she would have seen at a glance that Ji Feng was angry.

Moreover, it was not for any other reason, it was because that section member Zhang was unscrupulously ogling her with his lustful eyes that had made Ji Feng angry.

When Ji Feng gets angry, it’s not that fun!
