

Campus Master 271

Chapter 271

“What did you say?!”

Ji Feng’s words made the two of them, Section Chief Xu and Section Officer Zhang, instantly turn red with anger, especially Section Officer Zhang, who sat up straight at once and roared, raising one foot high and about to smash it towards the coffee table.

Just at this instant, a cold aura flashed in Ji Feng’s eyes, but he did not make a move.

Bang clatter!

The coffee table was smashed by Section Officer Zhang’s foot and shattered the glass, the teacups and teapots on it fell to the ground and shattered, and the tea flowed all over the floor.

“How old are you M? How dare you talk to me like that!” Section Officer Zhang smashed the teacups with one foot, snarling Judiciously, “You don’t even go out and ask around, who in Jiangzhou dares to speak to me like that, Zhang Keran! Not to mention dirtying your coffee table, even if I smashed your office, who would dare to say half a word of disrespect to me?”

The loud noise in the office immediately startled Xiao Changhe and the others who had been standing outside the door in the corridor smoking, they immediately walked in and saw the broken porcelain tiles and the coffee table with a big hole rotten on it, the faces of several people suddenly looked ugly.

“Are you ZF staff or rogue bandits? Why do you have the right to smash our things?!” Xiao Yuxuan’s pretty face turned red with anger and she couldn’t help but rebuke angrily.

Xiao Changhe and Lin Shengping also looked gloomy, they had seen many staff from various departments, but this was the first time they had seen such a wild one like today. Not to mention anything else, just to have a coffee table smashed in one’s own office was like being slapped in the face!

“It’s just a broken coffee table, so I smashed it, what can you do to me? What, you still want to beat me up, huh? Then I’ll wait here, I’d like to see who dares to touch me!” Zhang Ke Ran laughed arrogantly and crossed his legs, sitting on the sofa and strutting his stuff.

But Section Chief Xu frowned slightly, cursing Zhang Ke Ran for his lack of success!

The purpose of their visit today was only to stall Xiao Changhe’s drug company so that they could not send out the goods today, but of course, the seal would definitely be posted for a few more days. In this way, not only did Xiao Changhe break the contract with those hospitals, but at the same time, when they could not wait, they and Zhang Keran then went to slightly anger Xiao Changhe.

I believe that under the anger, once he and Zhang Keran left, Xiao Changhe might even directly tear the seal of the Drug Administration and open the warehouse for shipment. This time, even if he had a hundred mouths, he would not be able to say it clearly. Although the Drug Administration is not a law enforcement agency, the seal also has a legal effect.

If Xiao Changhe tore the seal, he would naturally break the law, and it would be up to the people above him to decide what to do.

However, Zhang Ke Ran was so arrogant now, and did not even bring the topic to the counterfeit and shoddy drugs, and smashed the coffee table of others.

The young man in front of him was at a tender age, so how could he tolerate such provocation? The chief said that even if he were himself, he would not be able to tolerate such a thing.

However, to the surprise of Section Chief Xu, it was as if Ji Feng did not see this scene in front of him, he just smiled slightly, gestured to Xiao Yuxuan and Xiao Changhe and others to sit down, casually lit another cigarette, and only when he had almost smoked, then he slightly sat up straight.

Zhang Ke Ran originally smashed the coffee table just to provoke, but when he saw that Ji Feng didn't react at all, he couldn't help but freeze, was this guy just a guy who was strong on the outside, or did he just talk big?

If Ji Feng didn't answer, Zhang Ke Ran really didn't know how to continue the show, he couldn't pick up something and smash it all over the office, right?

Just as Zhang Ke Ran was dazed, he saw that Ji Feng sat up straight and seemed to be about to speak, he immediately looked over with a provocative gaze, with a smug smile at the corner of his mouth, and looked at Ji Feng in an unbeatable manner.

Seeing his appearance, Ji Feng only faintly shook his head and smiled, and said slowly and methodically: "Finished fuming? Well, now we can settle the score. First, if I remember correctly, this coffee table in front of you is my Uncle Xiao's favorite, it's very sentimental, the value of the coffee table itself, plus the fact that you intimidated me and caused mental damage to Uncle Xiao, it doesn't add up to much, there's two million!"

Zhang Ke Ran jumped up at once, almost shivering with fear: "Bullshit, you're blackmailing people!"

Ji Feng didn't even argue with him, "Whether it's blackmail or not, you'll know. Now for the second account, just now I said that if I hear half a dirty word from your mouth again, you will definitely not live through tomorrow, I always keep my word!"

His voice was plaintive, but everyone present, including Zhang Ke Ran himself, had a feeling that Ji Feng would really do what he said.

Although he didn't know why he felt this way, a chill rose in Zhang Ke Ran's heart, and when Section Chief Xu looked at that calm face, he even had cold sweat on his back and his heart was pounding.

The two of them gradually realized that this young man, could definitely not be Xiao Changhe's employee, an ordinary employee, would never have this kind of aura, much less dare to speak with such a tone of voice.

"Humph! This is a legal society now, talking this big talk, you are not afraid of the wind blowing your tongue!" Zhang Keran snorted coldly. But anyone who was not deaf could hear that he was afraid in his heart.

Xiao Yuxuan even laughed shamefully, "You also have the face of a law?!"

Zhang Ke Ran's face suddenly turned red, and just when he wanted to get angry, he remembered that there was still Ji Feng sitting behind his desk, so he swallowed back the fierce words that had come to his lips.

Ji Feng didn't look at him at all, he turned his head to Xiao Changhe and said, "Uncle Xiao, let me handle this matter today, right?"

Xiao Changhe hesitated for a moment and finally nodded his head. In his heart, however, he could not help but feel a little sad that he was really getting old, and that the world in the future would be a world of young people. Moreover, his daughter had obviously found a stronger boyfriend, so she should not be aggrieved in the future!

At this critical moment of the company's life and death, all Xiao Changhe could think about was this. Perhaps, this is also a manifestation of one's old age.

Once Xiao Yuxuan heard that Ji Feng was going to intervene in this matter, her heart was instantly relieved, and she secretly winked at Ji Feng, her beautiful eyes were filled with affection.

Ji Feng smiled faintly, and then his face returned to blandness as he turned his head to look at Section Chief Xu: "No need to say more nonsense, call the one who instructed you to mess up and tell him that we are now shipping goods, and your seal itself is not legal and we don't need to comply with it. If you want to deal with Uncle Xiao, tell him to come directly to me, remember, I'm only here for him for one afternoon, if he doesn't show up by 7pm the consequences are on his own!"

Ji Feng's steady and indifferent words caused Section Chief Xu and Zhang Keran to stutter in their hearts, and they realized that they seemed to have messed with a tough guy today.

"Of course, you can call here, but you can't leave yet, because you haven't compensated for our coffee table." Ji Feng added.

Section Chief Xu and Zhang Ke Ran's hearts suddenly became jittery, the moment Ji Feng came up and wanted to talk to the person behind them, it was obvious that he didn't put them in his eyes at all. So, what exactly was this young man's origin and how could he be so tough?

One must know that what small businessmen like Xiao Changhe feared the most was the difficulties of their departments, and usually they would ask for connections and spend money to get through, or take the initiative to give up part of their benefits, so that we could all make money together, and only in this way could they survive. However, this young man did not take this set of things into consideration at all, obviously he did not care to share the benefits with other people, how big must he be?

Ji Feng stood up: "This office will be lent to you, remember to call quickly, we don't care about food here!"

After saying that, Ji Feng smiled at Xiao Changhe and said, "Uncle Xiao, let's go out, we can't disturb people!"

Knowing that Ji Feng would interfere, Xiao Changhe's mind relaxed, but his face was still a little ugly.

"Shengping, you come out too, treating guests is to be polite, but if it's treating jackals, it's better to use a hunting rifle!" Xiao Changhe said coldly.

Lin Shengping naturally did not want to stay here, and he was also very uncomfortable with the faces of Section Chief Xu's duo, when he saw that his boss had spoken, he nodded happily and followed him out.

In the office, only Section Chief Xu and Zhang Keran, whose faces were unbearably ugly, were left behind.

"Section Chief Xu, what should we do now?" Zhang Ke Ran was at a bit of a loss for words.

Section Chief Xu's heart cursed, "If you hadn't messed up here, how would things have developed to this point?"

But when he thought about Zhang Ke Ran's status, Chief Xu didn't say anything to complain and could only smile bitterly, "What else can we do, we can only call your sister and brother-in-law and ask them for instructions before deciding what to do."

At the mention of his sister and brother-in-law, Zhang Ke Ran suddenly came to life and said in a panic, "Yes, yes! No matter how big that kid is, he wouldn't dare to fight my brother-in-law! I'll call my brother-in-law right now!"

As he watched Zhang Ke Ran scurry off to make a phone call, Section Chief Xu's heart despised and was somewhat apprehensive. The reason why the duo had come here this time, the mastermind was Zhang Ke Ran's brother-in-law, was because he and Zhang Ke Ran's sister, the duo had seen the huge profits in the drug industry and set up a drug company.

Now they are using the power in their hands to crack down on other drug companies, and the Xiao family has little background, so naturally they are the first target.

Moreover, the cooperation between the Xiao family and the first, second and third hospitals in Jiangzhou had also made Zhang Keran's brother-in-law quite red-eyed, which was why he deliberately chose today, knowing that Xiao Changhe's company was going to ship the goods, which was why he came to seal their warehouse, just to make them breach the contract and thus be released from the contract by those big hospitals.

Of course, it would be better if all the medicines in Xiao's warehouse could be taken away in the name of counterfeit and shoddy medicines. Right now, weren't all those medicines in Zhang Keran's brother-in-law's company some of the medicines confiscated by the Drug Administration?

It was just that what made Section Chief Xu apprehensive was that Zhang Keran's brother-in-law was just the son of a deputy director of the Drug Administration, was he really that much more powerful than that young man who had just come!

Chapter 272

"Uncle Xiao, ship it out directly, don't delay it!" Walking out of the office, Ji Feng said.

"Can we ship now? Those seals" Xiao Changhe frowned slightly.

Ji Feng waved his hand with a smile and said, "Uncle, don't bother with those, shipping first is the important thing, I'll help with the rest, you don't have to worry about it."

Xiao Changhe nodded slightly, he naturally knew that even if it was the court's seal, I'm afraid it wouldn't be a big problem if Ji Feng tore it up. However, for the sake of his own affairs, let Ji Feng go against the law, Xiao Changhe was not willing to do so in any way. He did not want to involve his future son-in-law because of himself.

Seeing Xiao Changhe's doubts, Ji Feng couldn't help but smile, "Uncle, can't you see that the seizure of the warehouse was definitely done by those people on their own, they didn't have any formalities at all, in that case, those seals won't work as they should, so if they're torn up, they'll be torn up, there's no problem!"

"Little Feng, is there really no problem?" Xiao Changhe couldn't help but confirm.

"Don't worry, there's definitely no problem, uncle, I'm not going to send myself to jail, am I?" Ji Feng smiled.

Only then did Xiao Changhe put his heart down and waved his hand, "Shengping, follow the goods list and go ship out. Also, but anyone who is absent from work today, dismiss all of them, no mercy!"

One crisis had made Xiao Changhe see some hidden dangers in the company, especially the gloating of some employees, which made him even more angry. In order to leave a healthy running company for his daughter, Xiao Changhe would never be soft in dealing with it this time!

"Yes, boss!" Lin Shengping immediately answered, but he was secretly surprised in his heart, and wondered what kind of person this young man was, not only did he not even put the people from the Drug Administration in his eyes, even, he even dared to tear the seal of the Drug Administration, and was emboldened to do so, obviously not ordinary.

Xiao Yuxuan looked at Ji Feng, a flash of tenderness in her beautiful eyes, which clearly fell in Lin Shengping's eyes, and he couldn't help but be slightly stunned, and then he couldn't help but have some loss in his heart.

He hurriedly turned away, afraid that he might lose his temper.

"Now, we'll just wait for those two to call their backstage." A cold light flashed in Ji Feng's eyes, the actions of that Zhang Ke Ran made him absolutely intolerable. When the real mastermind came, the score would have to be settled together!

.....

The company is still limited to a few hospitals and private clinics in a small Wanjiang district, but the profits are already so lucrative, so how can he not be happy?

However, Huang Qidong was still a little unsatisfied and anxious. Jiangzhou was so big, and there were no less than a few thousand hospitals plus private clinics, so how much medicine would be consumed each day?

A mere profit of 600,000 to 700,000 is no longer enough for Huang Qidong to feel satisfied. If he could establish partnerships with all the hospitals and clinics in Jiangzhou, how much money would he make in a year?

It would be an astronomical figure!

When he thought of this, Huang Qidong's heart felt like a cat scratching, itching like crazy, seeing a large amount of money just slipping away from his eyes, it was strange that he was not anxious.

Moreover, there was another reason why he was a bit anxious. Most of the drugs that Huang Qidong's drug company dealt with were purchased from the Drug Administration at the lowest prices, many of which were confiscated as counterfeit drugs in the first place, and it was because of this that Huang Qidong was able to make such a large profit, otherwise, with a company that had just been established for a month in Russia and did not have much business, how could it make a profit of 600,000 to 700,000 a month?

It was because of this connection that he was able to get the drugs at low prices and sell them to hospitals and clinics, pocketing most of the profits.

The company's main business is to provide a wide range of products and services to the public.

If you want to expand your business and expand your business, you have to at least have a guarantee on the supply of goods.

But many of the pharmaceutical companies themselves are not that good to work with. Huang Qidong's company does not have sufficient strength and good sales channels, so many large pharmaceutical companies naturally will not choose to work with him, even if his old man is the deputy director of the Drug Administration, the same cannot be said.

You know, but which of the big factories do not have backgrounds and connections? People may not eat Huang Qidong's set. The drugs produced by those small manufacturers may not be able to sell well because they are not well-known enough, so he does not dare to buy them rashly.

In this way, Huang Qidong is somewhat strained in terms of the supply of goods. Not only that, but even the sales channels are also extremely restricted, which annoys him to no end.

Whether it was a big hospital or a small clinic, as long as they were not new, they basically had their own stable supply channels. If there were no concessions in terms of price, these hospitals and clinics would rarely accept new suppliers hastily, after all, medicines were not necessary for anything else.

Especially those large hospitals, many of their cooperation with them are extremely strong, or said to have a very strong background of drug companies, like Huang Qidong just a month old company want to insert, it is as difficult as the sky.

Even if people will eat a little bit of goods for the sake of his old man, the quantity will definitely not be much, and most of them are of a face-saving nature, just this once, as a favor, the rest, we can only say sorry!

Under such circumstances, it would be strange if Huang Qidong was not annoyed!

In such a situation, Huang Qidong would not be angry, but he listened to his wife's advice and made a decision – to do a no-brainer!

The so-called "no-brainer" is to use Huang Qidong's old man's authority to seize some small drug companies and confiscate drugs on various excuses, without going through the official approval and formal process of the Drug Administration, but just privately borrowing the name of the Drug

Administration to get hold of the drugs and then sell them to hospitals and clinics that have already made good connections.

The first thing is to get the money, as for the future development of things, then we can talk about it later, big deal, after doing a period of time to earn money and then quit, the money is real.

I didn't expect that following this method would work out quite well. Some small drug companies simply don't dare to resist, and even if they know they're losing out, they can only spend money to smooth things over, and at least half of the drugs won't be recovered in the end.

The companies were not big, but they had at least a few tens of millions of dollars, and the losses were within their reach.

These drugs became Huang Qidong's source of supply.

In this way, in just a few days, he had more than 100,000 yuan of income, which is much better than the method of buying drugs from the Drug Administration at low prices.

Having tasted the sweetness, Huang Qidong was emboldened and ready to continue expanding his war chest.

This time, he targeted a drug company called Changhe.

Huang Qidong found that this Changhe drug company is also a small drug company with assets of tens of millions, but has a partnership with the three major hospitals in Jiangzhou, and the monthly supply volume is extremely stable.

Moreover, he also saw an opportunity in it. If he could break the partnership between Changhe Pharmaceutical Company and the three hospitals, he could take advantage of the situation and enter.

Huang Qidong immediately discussed this matter with his father, but as a result, Huang Qidong's father found out upon investigation that the company had no background whatsoever.

Apparently, it was only by coincidence that the company had established a partnership with the three major hospitals.

It had money and channels, but no power and no background.

Wouldn't such a company be the perfect target for bullying? It was a fat lamb waiting to be slaughtered!

Huang Qidong did not hesitate and immediately sent someone to repeat the same trick.

At this moment, Huang Qidong is in a hotel, drinking happily with a few young men. With nearly a million dollars in the bank in just over a month, he has invited some of his usual friends to eat, drink and be merry, and he wants to take the opportunity to find out if there is any possibility of further business expansion.

If he could hook up with a major hospital, his monthly profits would at least double!

"Young Qiu, come on, let's have a go!" Huang Qidong lifted his cup and clinked it with a somewhat pale youth, smiling, "Young Qiu, I heard that you attended a banquet hosted by Li Weidong last time? How was it, tell us about it?"

This Qiu Shao seemed to be the highest status person at this table, and once Huang Qidong's words came out, everyone else looked at him with the appearance of listening attentively.

Qiu Shao was pleased with himself, he slowly put down his cup and laughed, "Actually, there is nothing to tell, the banquet is just the most ordinary banquet, however, what happened during the banquet is very exciting!"

"Oh?" Everyone was intrigued, "If Young Qiu says it was exciting, then it must have been quite exciting!"

"That's right, that banquet, invited all the dignitaries in Jiangzhou, among them the highest status, must be the young master of the Yanjing Qiao family, Qiao Gakai" Qiu Shao couldn't help but tsk twice, told what happened at that time in a graphic way.

When he said that Qiao Gakai and four other people were actually beaten to the ground like dead dogs by the two brothers Ji Shao Lei, everyone couldn't help but be surprised beyond measure.

That was the Qiao family, no matter how powerful Ji Shaolei was, could he still compete with the youngest members of the Yanjing family?

These people were basically some relatively low level second generation ancestors, so naturally they didn't know the inside story, let alone the fact that the Ji family was far from being comparable to the Qiao family in Yanjing!

"Ding!"

Suddenly, Huang Qidong's phone rang, and Qiu Shao was suddenly interrupted and became a little upset.

Huang Qidong gave an apologetic smile and hung up the phone.

But not a moment later, the phone rang again, and he impatiently picked up the phone, "What is it that you have to say now?!"

However, as he listened to the caller, his face changed and he couldn't help but be furious, "What? They still dare to ship the goods even though they have a seal on it? ***, they have eaten their heart and leopard's guts? What? You want me to go there personally? Good! Very good!"

Chapter 273

Huang Qidong hung up the phone viciously and cursed through gritted teeth, "Seeking death!"

Some of the people at the table couldn't help but be stunned, Qiu Shao was just in the middle of a conversation, only to be interrupted by Huang Qidong's phone call, he was quite upset, he couldn't help but ask, "What's going on?"

"A small drug company, the original warehouse was sealed, I don't know where a guy came from who didn't know whether to live or die, but tore up the seal of the Drug Administration, openly shipped." Huang Qidong grunted twice. "The other side even threatened to send me over there, saying they want to settle accounts with me! A broken coffee table, actually want me to pay two million!"

Everyone was instantly happy, not happy, but being angry and laughing.

These people, although they were not the top gentry in Jiangzhou, they were at least considered to be the middle class gentry, right?

Everyone had a good idea of some of the things they had done to each other, and these people were clear about Huang Qidong's identity. Obviously, Huang Qidong was the first to know that the other party had torn up the seal, and this matter obviously had nothing to do with Huang Qidong.

These people had heard about what Huang Qidong had done recently, and although some of them were not ashamed of it, after all, Huang Qidong was also a member of their circle.

What do these gentry care about?

It's all about women, money and face!

Now Huang Qidong wanted to make money, but he didn't give any face and openly tore the seal of the Drug Administration, which was undoubtedly a slap in the face, and a loud slap at that!

Everyone could not help but feel the same sense of hatred, this time it was Huang Qidong's face that was hit, so next time, it might be theirs!

"Qidong, why don't we go over there together and see which bastard is so daring as to tear even the seal of the Drug Administration!" A gentry said with a smirk.

Qiu Shao considered for a moment and also nodded slightly, saying, "That's right, let's go over together and take a look, MD, there's still someone in Jiangzhou who dares to be so reckless, does he think he's Li Weidong and Ji Shaolei?"

"Right, Qiu Shao is right, let alone a bastard who doesn't know where he comes from, even if Li Weidong and Ji Shaolei came, they would more or less have to give us some face, right?" A second generation ancestor said disdainfully, he stood up with gusto and slapped the table, looking very pugnacious in taste.

Qiu Shao gave him a contemptuous look, saying, "You are not afraid to speak, your old man is just a small deputy director of the Land Bureau, even if your old man met Li Weidong and Ji Shaolei, he would have to nod and bow, and might even be unable to speak, what are you, why should they give you face?"

However, although his heart despised, but Qiu Shao did not say it, this is a face, in this circle, the most first thing to learn, is to control to hide their emotions.

And at this time, several other people have also called out, must give that bastard who doesn't know the sky is high a hard lesson!

A few people had just had some wine, and it was the time when the wine was on top of them. Huang Qidong was agitated by these people, and he instantly came into a temper.

Bang!

He slapped his hand on the table and shouted, "Good! Let's go over together, I want to see which bastard is it that dares to find trouble with our Jiangzhou gongzi!"

These six or seven people immediately walked out of the hotel in a raging manner, got into their respective cars, and headed straight for the Changhe Drug Company under the leadership of Huang Qidong.

And not long after driving, Huang Qidong received a phone call from his father, “Xiao Dong, what’s going on with you, just now your wife called me here, how come your brother-in-law and Section Chief Xu were stopped at a small drug company? The other party is also demanding compensation from them?”

Huang Qidong immediately told the story, and when he said that the other party had gone so far as to have the company tear up the seal and simply shipped the goods regardless of the order from the Drug Administration, Huang Qidong’s father became furious.

“It’s simply lawless!” Huang Qidong’s father snorted coldly, “You’re heading there now, right? I’ll give you the approval from my side immediately and have your wife send it over to you to completely seal that company!”

Huang Qidong didn’t take it seriously at all and laughed: “Dad, don’t go to all this trouble, there’s no need for any approval for a small company like that, I’ll just go there.

“Qiu Shao? Is it Qiu Pengfei, the son of Deputy District Chief Qiu?” Huang Qidong’s father immediately asked.

“Apart from him, who else in Jiangzhou is qualified for me to call him Young Qiu?” Huang Qidong laughed, “This time you should be relieved, right?”

“Don’t worry, don’t worry, with Young Qiu around, they won’t be able to make any waves this time!” Huang Qidong’s father burst out laughing, “Then go over there first, if you need the approval, just call me, I’ll have it ready for you at any time snap! Don’t make a scene, I’m on the phone!”

Huang Qidong suddenly laughed out loud, “I say, old man, you’re not messing around with your secretary again, are you? I’m telling you, it’s okay to have fun, but don’t be like Clinton, don’t be ruined by a Lewinsky, I’m still counting on you to back me up in the future!”

“Bastard, I’m your old man, can’t you treat me with a little respect?” Huang Qidong’s father roared lowly, but there was little anger in his tone.

“Come on you, why didn’t you think you were my old man when you were lying on top of Yinping” Huang Qidong retorted without the slightest thought.

“You” Huang Qidong’s father could not say anything for a moment.

“Oh, old man, just kidding, don’t be angry, I’m driving, I’ll hang up first.” Huang Qidong laughed heatedly and hung up the phone, but with a disdainful smile on his face, “Old pervert!”

Yu Yinping is no one else, it is Huang Qidong’s wife, and originally Yu Yinping is just a small staff of the Drug Administration, not very pretty, but very sexy, and Huang Qidong’s father Huang Zhengfa had a relationship.

Later, due to the gossip in the unit, Huang Zhengfa dismissed Yu Yinping, but he did not want to let go of such a beautiful woman, so he came up with an idea to introduce Yu Yinping to his own son.

He had known about Yu Yinping's affair with Huang Qidong's father for a long time, and the three of them knew each other very well.

But Huang Qidong did not refuse, because he could not wait to have no one to control him. Moreover, since the old man had done this kind of thing, he had to be more defensive towards him, right?

It was precisely because of this that Huang Qidong began to make money, keeping a dozen women outside, including some minor stars. This is one of the reasons why he is so desperate for money, to keep women, you have to spend money.

Moreover, with the support of his old man Huang Zhengfa, he has become even more reckless.

It's mutually beneficial, to put it mildly!

The reason for this is that the company's business is not just about the company's business.

.....

Meanwhile, at Changhe Pharmaceutical Company, Lin Shengping came to the general manager's office to report on the shipment like Xiao Changhe. Because Xiao Changhe's office was occupied by two people, Section Chief Xu and Zhang Keran, so they could only stay in this general manager's office.

"Boss, a total of thirteen hospitals have sent their medicines, and they have all signed for them, and the middle is instant, no problems!" Lin Shengping said, "Only, those two people seemed to have heard that we were shipping and spoke out to stop it, but I ignored them."

Xiao Changhe nodded slightly and said, "You did the right thing, don't pay any attention to them, I'll take care of anything that happens, you go about your business!"

Lin Shengping's gaze subconsciously swept over Xiao Yuxuan and Ji Feng's faces, a complex look flashed in his eyes, he nodded slightly and turned to leave the office.

Ji Feng glanced at him faintly, as if he was thinking, but didn't say anything.

Xiao Yuxuan gave a delicate hum, "These people are really reckless too, they don't even have the approval, they dare to just seal people's warehouses, what's the difference between doing so and bandits?"

Xiao Changhe sighed lightly and did not say anything. This kind of thing probably happened every day, only that some endured it and some resisted but to no avail.

If Ji Feng had not been present today, Xiao Changhe believed that he would not have torn the seal and shipped out the goods, and what was waiting for him then would have been the cancellation of the contract by those hospitals, a drastic shrinkage of his company's business, and even the drugs in the warehouse might have been confiscated. It would be a huge loss.

In his spare time just now, Xiao Changhe also tried to call his connections in the Drug Administration, but almost everyone was not answering the phone, only one person answered the phone, but once he heard that it was this matter, he immediately found an excuse, snorted and hung up the phone.

The relationships that Xiao Changhe had built up in the past were now surprisingly none of them could be used, which made him clearly see the state of the world, and at the same time, he also knew how big the trouble was this time.

Suddenly, a rush of footsteps came from outside the door, Lin Shengping hurriedly knocked on the door and walked in with quick steps, "Boss, that Section Chief Xu just now said that by tearing the seal, we are violating the law, and the person he called will be here soon."

Xiao Changhe nodded slightly and smiled, "Shengping, don't be anxious, the seal was torn by me, it has nothing to do with any of you, just do your own thing, that's enough!"

Lin Shengping couldn't help but feel a little ashamed, nodding slightly, he said, "Then I'll go and pacify the staff underneath, the company can't be in chaos!"

Watching Lin Shengping walk out of the office, Ji Feng suddenly asked, "Uncle Xiao, this Manager Lin, how is his ability?"

Chapter 274

Xiao Changhe was stunned: "Manager Lin? He's very capable, and is himself a graduate of a well-known university with a master's degree in business administration, he used to work in a multinational company for three years, and also spent some time in a state-owned enterprise, only to leave because he was uncomfortable with what some people were doing."

"So, he's pretty good at it!" Ji Feng couldn't help but slightly nod his head.

"Yes, in the past, this drug company of mine could only do business with some small clinics in Jiangzhou, as well as the surrounding suburban hospitals and countryside clinics, and it was only since Manager Lin came that the company's business began to expand into the urban areas of Jiangzhou, and in the two years since Manager Lin came, the company's business has more than quadrupled." Xiao Changhe still had some admiration for Lin Shengping, in the past he had worked hard for over twenty years and the company's total business was only around ten million dollars a year, but now, it was forty to fifty million dollars a year.

Moreover, this did not take into account the three major hospitals that had just established a partnership, otherwise, the annual business volume would have been at least over a hundred million.

With a total business of over a hundred million, the company's profit would have to be at least around twenty million, which is really a staggering figure.

But in reality, compared to those big companies, this could only be considered as a small fuss. But to Xiao Changhe, this was already very satisfying.

He used to work so hard just to make life better for his wife and children, but now he wants to make the company last, hoping that when he retires, he can leave his daughter a healthy and running company.

"Xiao Feng, why do you suddenly remember to ask this?" Xiao Changhe asked at once as his heart stirred.

Ji Feng shook his head slightly and smiled, "It's nothing, because I also studied economics, so I'm more interested in Manager Lin, and I hope I can ask him for some advice later."

"So that's the case, then you should really ask Manager Lin for advice sometime, he might give you a lot of help!" Xiao Changhe smiled faintly and said.

In Xiao Changhe's heart, the company would be left to his daughter sooner or later, and Lin Shengping was not a bad person, so if possible, he would also like him to stay in the company for a long time, so it was not a bad thing for Ji Feng to get acquainted with Lin Shengping in advance.

Ji Feng smiled and nodded, "Then we have to wait until Manager Lin is not busy."

Xiao Yuxuan, however, gave Ji Feng a thoughtful look, but seeing that he was talking to his father with great interest, she didn't say anything. However, it was obvious from her slightly knitted brows that she obviously had something in mind.

While the three of them were talking and laughing in the general manager's office over here, it was a very different scene in Xiao Changhe's office with Section Chief Xu and Zhang Keran.

Section Chief Xu was sitting on the sofa constantly smoking with his brow furrowed, while Zhang Keran was constantly walking back and forth with a face full of impatience.

"Section Chief Xu, why do you think my brother-in-law hasn't come yet, he wouldn't be afraid to come, would he?" Zhang Ke Ran asked with some worry, ever since he saw Ji Feng's ice-cold eyes and the way he didn't put them in his eyes in the slightest, it made Zhang Ke Ran's heart apprehensive.

"Does it mean that Ji Feng is really something big?" Zhang Ke Ran couldn't help but mutter in his heart, once this thought arose, it could never be eradicated, constantly reverberating in his mind, making him more and more worried.

But he didn't dare to call his brother-in-law Huang Qidong to urge him on, Huang Qidong had never treated him, his attitude was never good, if it wasn't for his sister's protection, how could he, a person who didn't even graduate from high school, become a staff member of the Drug Administration? And looking to take up a leadership position?

So Zhang Ke Ran could only be here in a dry hurry, but there was nothing he could do.

Section Chief Xu was a little dizzy from him walking back and forth, and couldn't help but say, "Ke Ran, if you're really anxious, why don't you just give your sister a call and ask her?"

"Good idea!" Zhang Ke Ran's eyes instantly lit up, "I'll call right now."

He hurriedly took out his mobile phone and dialed his sister Yu Yinping's number, "Hey, sister, has brother-in-law come yet? It's just me and Section Chief Xu over here, there's no way we can stop people from shipping!"

A shrill voice came over the phone, "Ke Ran, don't worry, your brother-in-law has already gone and will be here soon, just stare at ease, no matter how arrogant the other party is, once your brother-in-law goes, he will be allowed to pipe down and lie down."

“But, there is a guy here who seems to have a lot of power” Zhang Ke Ran said with some uncertainty, “will brother-in-law be unable to overpower him?”

“What comes from a lot of people, do not worry, I have investigated that company, there is no background whatsoever, even if someone helps, it will not be any big shot.” Yu Jinping said on the phone, “What’s more, this time there’s also Qiu Shao following along with your brother-in-law, even if that person is big, how can he be bigger than Qiu Shao?”

“Qiu Shao? Is that brother-in-law’s deputy district chief’s son friend, Qiu Pengfei?” Zhang Ke Ran’s spirits were lifted, “Good, good! Then there’s nothing to fear this time, not many people in Jiangzhou dare to mess with Young Qiu!”

When he hung up the phone, Zhang Ke Ran was full of excitement, “Section Chief Xu, my brother-in-law is here with Qiu Shao, this time we don’t have to worry.”

Section Chief Xu also couldn’t help but feel slightly relieved, but seeing Zhang Ke Ran’s face, he couldn’t help but despise it in his heart. I’m afraid no one in the entire Drug Administration didn’t know that this kid came in through nepotism, and he himself was a total straw man who knew how to bully people all day long, and when he met someone a little tougher, he was so scared that he didn’t know he was weak.

The first time she hooked up with Deputy Director Huang Zhengfa, she was seen many times, and the rumors spread in the bureau, and then she had no choice but to resign, but she turned out to be Huang Zhengfa’s daughter-in-law.

This thing has become the talk of the town again, so anyone who knows about this matter, mentioning the two siblings of Zhang Keran, none of them can look up to it.

But because of Huang Zhengfa’s power, no one dares to say anything openly.

The first thing you need to do is to sit down on the sofa and sneer, but Zhang Ke Ran is so excited that he sat down on the sofa and handed a cigarette to Section Chief Xu, saying with a face full of excitement, “My sister just loves me, don’t look at us as just cousins, but our feelings are even closer than our own siblings.”

“Yes, it’s really enviable.” Section Chief Xu laughed, but in his heart he said, “The hell with envy, if I had a cousin like that, I’m afraid I wouldn’t have the face to see anyone.

“Section Chief Xu, this time along with my brother-in-law, there is also Qiu Pengfei, Qiu Shao!” Zhang Ke Ran grinned, “It seems that this time, we have a lot of commission!”

At the mention of money, a genuine smile finally appeared on Section Chief Xu’s face.

In fact, Section Chief Xu was not very willing to come out this time, but when faced with the benefits, he could not help but be moved. This year, he was almost fifty years old, and he saw that he would be retiring in a few years, and he was still a deputy section chief, so the power* in his heart had faded.

But when faced with money, he could not help but be moved.

At this moment, Zhang Keran’s phone suddenly rang, he picked it up and took a look, and immediately exclaimed in surprise: “It’s my brother-in-law!”

He hurriedly picked up the phone, "Brother-in-law, this is Ke-Ran ah..... good, Section Chief Xu and I will go pick you up right now."

After hanging up the phone, Zhang Ke Ran immediately said, "Section Chief Xu, my brother-in-law and young Qiu and the others are here, let's go to the entrance to greet them!"

Facing the deputy director's son, Section Chief Xu didn't dare to take on more of a stance, he hurriedly got up, "Then let's go quickly!"

.....

Huang Qidong and Qiu Pengfei and the others got out of the car in front of an office building, Zhang Keran and Section Chief Xu had already walked over by this time and hurriedly greeted them, "Young Huang, Young Qiu!"

Huang Qidong only nodded slightly, Qiu Pengfei didn't even nod and didn't even look at Zhang Keran and the two of them, but they didn't dare to have the slightest displeasure.

"Brother-in-law, that company is right up there." Zhang Ke Ran said, "The people inside are so arrogant that they don't even put brother-in-law in their eyes!"

Section Chief Xu, however, cautiously reminded, "Huang Shao, Qiu Shao, there's a young man up there who seems to have some origins, you two"

"What bullshit leader, let's go, I'd like to see, which family's son is it, how dare he be so arrogant in Jiangzhou!" Huang Qidong waved his hand with a face full of disdain and led the way towards the office building.

.....

"Bang!"

The door of the office was pushed open and Lin Shengping ran in somewhat panicked, "Boss, a group of people suddenly came outside and are rushing into the company in an aggressive manner."

Xiao Changhe frowned at once, but Ji Feng smiled lightly, "It seems that the right person has come."

He turned his head to Xiao Changhe and said, "Uncle, I'll go out and take a look first."

Xiao Changhe said, "It's better for us to go over together, after all, I'm the boss of the company, I can't always hide behind."

Ji Feng pondered slightly for a moment and nodded his head in agreement.

At this moment, Huang Qidong, together with Qiu Pengfei and the others, were standing at the company's reception desk and grunted openly at the receptionist, "You have two minutes to call your boss out."

That receptionist was a little overwhelmed with fear, and Huang Qidong suddenly bellowed, "Get over there now!"

"Ah!"

The receptionist shrieked in shock and ran away quickly in a panic.

Looking at the receptionist's frightened and panicked back, everyone burst out laughing, especially Zhang Keran, who laughed even louder, before he had been aggrieved since Ji Feng had arrived, not to mention that people did not put him in their eyes at all and did not even pour him a cup of tea, which made him very angry.

Now that he saw the other party's wretched appearance, he felt very relieved and returned to that wild and unaware look.

The staff of Changhe Pharmaceutical Company, however, were all nervous and retreated inside, none of them daring to come out to stop them. Even the two security guards at the entrance did not dare to say a word, and they pretended not to see it.

Seeing this scene, Huang Qidong and the others burst into laughter, so happy!

This is what they should be like when they are gentry. If everyone dared to ignore them, how humiliating would it be for them?

Chapter 275

The receptionist panicked and ran in the direction of the office, almost bumping head-on into the four Xiao Changhe who were coming out of the office, she panicked and ahhed and hurriedly stopped, but her body was swayed a few times and was pulled by Ji Feng's quick eyes and hands, which did not fall.

Xiao Changhe said unhappily, "What does it look like to panic, it's just a few people, it's not like they're wolves or tigers, what's so scary?"

He certainly knew why this receptionist was so panicked, just now Huang Qidong's arrogant voice there at the reception desk, he heard it clearly in his office, and was very unhappy in his heart.

Especially seeing this receptionist's panicked appearance made Xiao Changhe feel how the problems in the company were all exposed today, and they were all on the frowning side, which made him more or less lose face in front of Ji Feng.

"Yes, sorry boss." That receptionist said in a panic.

Xiao Changhe waved his hand helplessly, "Forget it, you go and get busy."

He was not a snobbish boss, and seeing that this receptionist was so frightened that his face turned a bit white, he couldn't say any more.

Who knows, but that receptionist didn't dare to go back at all, she just bowed her head, but her feet didn't move anywhere.

"That's just it, you can follow us!" Xiao Changhe was also helpless, it was indeed more convenient for a girl to be a receptionist, but she was also a bit too timid.

No matter what kind of business one was doing, there would always be conflicts and disputes, and it was not uncommon to see people causing trouble, so such a timid receptionist would definitely not work. Xiao Changhe secretly thought, it seems that it is time to change the reception.

Although he seldom dismissed staff for trivial reasons, but in business, he could not keep idle people, because the company was not a charity after all.

That receptionist also knew that he had made a mistake, so he honestly followed behind Xiao Changhe and Ji Feng.

When Xiao Yuxuan saw how frightened she was, she was a bit intolerant and said in a low voice, "You don't need to be afraid of them, could they still eat you up? If you are always like this, what company will want you?"

The girl seemed to be terrified, her body was trembling slightly, and her voice was even lowered pitifully: "I, I'm just afraid"

"You are like this, but there is no way to be a receptionist, because maybe you will encounter the same thing in the future, and what should you do?" Xiao Yuxuan still patiently enlightened, "As long as you follow the company's bylaws, if there is something you can't handle, come and relay it to your leader, this is actually very simple, don't be afraid!"

That girl whispered, "But that Huang Gongzi is very scary, one of my sisters was taken by him in the past, and they ended up giving to my sister because she didn't comply"

Swish!

Ji Feng suddenly stopped in his tracks, he turned his head and asked in a deep voice: "What did you just say?"

That receptionist was instantly startled and lowered his head, not daring to speak.

Ji Feng couldn't help but be a little impatient, he frowned and said, "You just said you were afraid of that Huang Gongzi, I'm not Huang Gongzi, am I? Why are you so scared? If you have something to say, just say it!"

"Ji Feng, why use such a heavy tone of voice!" Xiao Yuxuan gave him an angry white glance, "Let's do it this way, later on when things are over here, I'll ask this little girl alone."

"That's it!" Ji Feng's mood instantly became very bad, this receptionist just now in the words, revealed extraordinary information, Ji Feng has a bad guess, this receptionist's good sister, I'm afraid that the downfall will not be much wonderful

This bad guess is also one of the reasons for his bad mood.

He or she is just a student now, to manage or not to manage?

This thought only flashed through Ji Feng's mind before he made up his mind, because he asked himself a question in his heart – if his mother encountered such a thing, would she care?

The answer was obvious, so why would he not care if he followed his mother's teachings?

But there was one more thing to do before that, and that was to sort out the Long River Drug Company's troubles first. He had to go and meet the 'big man' who had dared to seal up someone's warehouse at will, to see how much power he had and how far he could go.

Of course, he also had to meet that Huang Gongzi, who should also be a big shot, otherwise, how could the young girl at the reception desk be scared like this after just one look at Huang Gongzi?

“Where’s your boss, why isn’t he coming yet, I think this company doesn’t want to open anymore”

At least twenty steps away from the company’s reception desk, Ji Feng heard that arrogant roar, this voice was familiar, it was none other than Zhang Keran who still owed two million!

“Zhang Ke Ran, the two million you owe, when are you going to pay it back?” Ji Feng coldly snorted and walked over alongside Xiao Changhe, “What are you shouting for here, don’t you know that this will affect the order of our company?”

“You” Zhang Ke Ran took a look at Ji Feng coming, he couldn’t help but winced, and couldn’t even say a word below!

“You’re the owner of the company?” When Huang Qidong saw that Ji Feng had scared this cheap brother-in-law of his into this state as soon as he arrived, his face sank and he gave Zhang Keran a fierce glare before looking at Ji Feng again.

“You’re in charge?” Ji Feng asked indifferently.

Huang Qidong was instantly furious, he had never been asked a question back when he asked others, this was simply not taking him squarely in his eyes.

“I’m the main person, so what?!” Huang Qidong said in an unkind tone as he held out three fingers, “I’ll give you three ways out”

Before he could finish his words, he was interrupted by Ji Feng.

“Since you are the one in charge, let’s settle the score.” Ji Feng’s flat voice, but extremely penetrating, instantly silenced Huang Qidong’s voice, causing him to choke, unable to catch his breath, and almost choking.

“First of all, without any approval or formalities, you have arbitrarily sealed our company’s warehouse, which has caused an extremely bad impact on our company’s reputation, as well as a very serious harm to the spirit of our employees, which, we will have a lawyer’s letter sent to your unit, or a summons from the court!”

Ji Feng simply ignored Huang Qidong’s reddened face as he continued, “Secondly, your unit’s staff member, Zhang Ke Ran, maliciously smashed our boss’s favourite coffee table, causing great stress to his spirit, plus the value of the coffee table, a total of two million dollars in compensation, which will likewise be sent to your unit in the form of a lawyer’s letter or a court summons. ”

After saying all this, without paying any attention to the dumbfounded looks of the group of people opposite, as well as the employees of the company, and the strange gazes, Ji Feng smiled faintly, looking breezy and light-hearted.

At the same time, Ji Feng held out three fingers: “I’ll give you three ways out. First, remove your illegal seal, apologise publicly to our company, and make due compensation, and we can leave the matter alone. Second, continue to be bent on going on, but of course, we will take our own way to get justice. Thirdly” you can get the hell out of here immediately and be prepared to meet our first demand!”

“MD! You seek death!” Huang Qidong instantly roared in anger, ah bared, if he didn’t see Ji Feng’s tall figure, he almost wanted to pounce on him and tear Ji Feng alive.

He had just said three ways, only to be interrupted by Ji Feng, while the other party had instead returned his three ways, this was simply a slap back without mercy, and a loud one at that!

“Kid, you’re asking for it!” Zhang Ke Ran was also barking from the side, “Do you know who these people are?”

“I haven’t asked for advice yet, but I heard that one of them is Duke Huang, I wonder which one it is?” Ji Feng asked indifferently.

“Humph!”

Compared to his previous wretched appearance, the current Zhang Ke Ran had a much stronger bottom, he looked at Huang Qidong and said proudly, “Kid, listen up, this is my brother-in-law, Huang Qidong, the Huang Gongzi you are talking about!”

“So you are Huang Gongzi!” Ji Feng gave him a deep look, “I’ve really heard a lot about you, what a powerful Huang Gongzi!”

“Kid, if you know you’re afraid, then hurry up and get lost, don’t act like a big head of garlic here!” Zhang Ke Ran said disdainfully, not hearing the mocking implication in Ji Feng’s words in the slightest.

Zhang Ke Ran didn’t even see the pale face and the cold sweat on his forehead of the young Qiu, Qiu Peng Fei, who was next to him, not to mention his slightly trembling legs, just screaming there.

When Zhang Keran introduced himself, Huang Qidong was also arrogant, he coldly snorted, “Kid, let me tell you directly, I have my eye on this company, seeing that you are so hard-headed, you are considered to have some backbone, how about this, I will offer one million, it is considered to buy your company.”

“If my guess is good this one million you should indeed pay, but not to me!” Ji Feng’s face sank as he shook his head slightly, “Now, get your asses back out there and remember to follow our first point.”

“Kid, do you know who I am?” Huang Qidong asked with a gloomy face, “My father is the head of the Drug Administration, if I leave now, tomorrow your company will be investigated”

“Don’t talk nonsense here, even if your old man comes, you still have to roll back.” Ji Feng waved his hand impatiently, “Remember to take your seal away!”

Huang Qidong froze, he originally thought that the other party would be scared out of his mind when he knew his identity, but he didn’t expect that people didn’t care about his identity at all.

When he saw that Ji Feng was still so arrogant, he said openly, “Kid, I think you don’t know how to write the word “death”! Do you know who this is? This is Qiu Shao, the grandson of the vice mayor of Wanjiang District, Qiu Pengfei”

Zhang Keran was introducing himself in an unbeatable manner when he was abruptly interrupted by an angry roar.

“Bastard, shut up!”

Qiu Pengfei suddenly shouted angrily, not knowing whether he was angry or frightened, shaking all over, he turned around and slapped Zhang Keran's face fiercely, "What kind of person is I, do I need you to introduce me?!"

Zhang Keran was slapped to the ground, his face full of shock and disbelief, "Young Qiu, how do you"

Before he could finish his words, he was interrupted by the roar of the furious Qiu Pengfei: "MD! If you dare to say another word, I'll kill you alive!"

After he finished fuming, he turned around and the anger on his face unexpectedly changed instantly into a flattering smile as he nodded his head and came to Ji Feng: "Ji, Young Ji!"

In a flash, everyone present was dumbfounded, except for Ji Feng and Xiao Changhe's father and daughter!

Chapter 276

"Ji Shao?!"

Looking at Qiu Pengfei's careful, fawning smile, everyone froze, especially Huang Qidong and the others, who couldn't believe their eyes.

What did they see?

Qiu Pengfei, who had always been above the eyes and had his nose to the sky in their circle of gentry, the grandson of the deputy mayor of Wanjiang District, was standing fawningly in front of that young man and addressing him as 'Ji Shao'?

Subconsciously, many people rubbed their eyes in order to ascertain whether they had lost their eyesight or whether they had misheard.

But the scene in front of them told them in a tangible way that it was real, that they hadn't seen wrong, let alone heard wrong. Qiu Shao was now standing in front of that young man with a flattering smile on his face and a hint of hope in his eyes, as if hoping that the young man would respond to him with a word.

-This was just too subversive!

Almost everyone seemed to be dreaming, not believing what they were seeing, the deputy district chief of Wanjiang District, when put outside the city, that was almost equivalent to the deputy mayor of a city, how could the deputy mayor's son have to fawn so much like a young man of unknown origin?

How could this be possible?

Everyone's heart was filled with the words, "It's really impossible, it's just too hard to understand!"

However, Huang Qidong and the others, after being shocked, their hearts suddenly thumped and their hearts kept sinking, this time, it was over!

Huang Qidong suddenly remembered what Zhang Keran said, that young man, seems to be a big head Even Qiu Pengfei has to fawn over others, how small can a small head be?

The first time I thought about what I said to Ji Feng, and that attitude, and then I thought about sending Zhang Keran and Xu Section Chief here to cause trouble a bone chilling feeling rose from the bottom of Huang Qidong's heart, the colour of his face was fading little by little, and within a few moments, he was already pale, his body strength seemed to be instantly drained away.

Zhang Keran and Section Chief Xu, at this moment, also realised what was going on. Both of them stared at the scene in front of them at the same time, their eyes wide with disbelief and their hearts overwhelmed with fear.

How could this happen? How could this happen?

At this moment, Zhang Keran only knew to look at Ji Feng dumbfoundedly. Although he had felt before that Ji Feng was not a small person, he never thought that Qiu Pengfei, who was already unattainable in his eyes, would be so cautious and fawning in front of Ji Feng!

You know, usually when Zhang Keran was facing Qiu Pengfei, when he greeted the latter, it was considered a greeting for people to look at him, but now

The head of the Xu section is even more trembling in his heart, he originally felt that this young man Ji Feng was very uncomplicated, but money blinded him, making him comfort himself in his mind that Huang Qidong must be more energetic than this young man.

But now it looked like he realised how wrong he had been.

What made Section Chief Xu feel even more frightened was that he still had a few years to go before he could retire, but now he had offended such a powerful person. If they were to settle accounts with him, not to mention whether he could retire in peace, the things he had done and the benefits he had received over the years would be enough to send him to prison for the rest of his life!

The few gentry who had followed Huang Qidong along had all reacted by now, and while their hearts were in shock, they were all thinking about whether they could leave. If they had known that such a person was waiting for them here, they would never have come even if they had been given ten more guts!

However, when they saw that young man's calm face and then looked at the flattering Qiu Pengfei, their legs seemed to be a thousand pounds heavy, and they could not take half a step.

As for those employees of Changhe Pharmaceutical Company, they were even more shocked, before they even thought that the company was going to be finished, but now they realized that there was such a person beside the boss, it was really too powerful!

And some employees who were previously gloating in their hearts about the company's dissatisfaction could not help but drum in their hearts at this time

The company's main business is to provide a wide range of services and services to the public.

"You know me?" Ji Feng asked indifferently. He didn't care what kind of young man the other party was, and what kind of grandson he was, today's matter, he must settle it, and that Huang Qidong, he would

definitely not let go, not for any other reason, faintly just because of those few words spoken by that little girl at the reception desk just now, he had to ask a good question about this matter.

“Yes yes, Ji Shao may not remember little brother too well” Hearing Ji Feng talking to him, Qiu Pengfei was instantly full of joy, “It’s like this, when little brother attended the welcome banquet held by Li Weidong Li Shao, my little brother happened to see the scene of Ji Shao’s great power, so I was very impressed”

“Welcome banquet?” Ji Feng understood after a little contemplation, he said, “What you’re talking about, is that banquet that Li Weidong held at the Linjiang Club?”

“Yes, yes!” Qiu Pengfei called in a panic, “At that time, young Ji was here with General Manager Ji.”

Ji Feng then confirmed that it was indeed him and his second brother who had gone to that banquet together at that time, and that he had later sent Qiao Gakai and five other people to the hospital and later to prison.

In Ji Feng’s impression, there were quite a lot of people attending the banquet at that time, and his attention was focused on Qiao Gakai and the others, so naturally he didn’t notice that this Qiu Pengfei in front of him was among them, and in fact even if he had noticed, he didn’t know who Qiu Pengfei was at that time.

“I do remember.” Ji Feng looked at him indifferently, “So, you’re here this time for”

Qiu Pengfei’s cold sweat immediately sprang up again, he only thought of getting close to Ji Feng, but forgot that he had come as a helper to Huang Qidong, thinking of what Ji Feng had just said, Qiu Pengfei’s heart suddenly trembled with courage.

“That what, Ji Shao, dare not hide it from you, my little brother came this time really because he was compelled by Huang Qidong, so he came to help him out” Qiu Pengfei still decided to give an honest account, after all, even if he wanted to hide it, he couldn’t say it, so he might as well be frank. “However, if my little brother knew that young Ji was also here, I wouldn’t have come to give him a helping hand even if I was beaten to death!”

The moment these words came out, Huang Qidong’s face instantly turned a few shades paler, while several other gentry, likewise heart trembled, yes, himself and others are here to help, if this Ji Shao pursue the matter

Earlier at the wine table, wasn’t Qiu Pengfei still bragging about the experience of attending the banquet that day? And wasn’t the person who made the big splash, the one whose surname was Ji

It turned out that this young man in front of him, whom Qiu Pengfei called Ji Shao, was

These few gentry stared dead in the eyes, their bodies were covered in cold sweat, and their intestines were turning blue with regret, how could they be so lucky and so bold, who could they not mess with, but the top gentry of Jiangzhou?

These few gentry had the heart to slam their heads against the wall.

“Hehe” Ji Feng gave a non-committal smile and didn’t say anything.

But Qiu Pengfei, who had been watching Ji Feng’s expression, was relieved that Ji Feng didn’t get angry, that was a good sign.

He immediately said, “Young Ji, I know the rules, it’s my fault that I came here today, so let’s do it this way, if Young Ji has any requests, just put them forward, I will do my best. In addition, in order to make amends to Ji Shao, junior brother will set up a table and head of wine, publicly pour wine for Ji Shao and make amends!”

Ji Feng couldn’t help but smile, this Qiu Pengfei was really a resourceful person, he knew full well that it was impossible for him to set up a peace head wine, yet he still said it, undoubtedly a very good guy.

The so-called He Tou wine was originally a rule on the road, where one party admitted their mistake and set out the He Tou wine, pouring wine for the other party and openly admitting their mistake, which on the one hand is the attitude of the other party and is very dignified, on the other hand, at the wine table, the party who admitted their mistake must meet the conditions proposed by the other party.

Later on, this rule gradually spread and became popular among some gentry. Ji Feng had heard Zhang Lei talk about this rule before, so he knew it.

But naturally, he could not accept Qiu Pengfei’s peace head drink, because in the eyes of outsiders, their status was not equal at all, and Qiu Pengfei might have forced himself to pose for the peace head drink. Moreover, Ji Feng wouldn’t go after those formalities of face, all he had to do was to meet Huang Qidong, the ‘big man’, for a while.

“There’s no need for a peace head drink.” Ji Feng smiled faintly and waved his hand, “If you can do one thing for me, I will pretend that nothing has happened today, and maybe we can even be friends in the future, what do you think?”

“Many thanks, Young Ji!” Qiu Pengfei was overjoyed and said with a pat on his chest, “If there’s anything you want, just give me a command, as long as my little brother can do it, I definitely won’t be half-hearted!”

Qiu Pengfei was not stupid, if he could complete this matter for Ji Feng, he might be able to make a relationship with Ji Feng, so that today’s bad thing would become a good thing, I think even the old man of his own family would be very surprised.

The other few gentry looked at Qiu Pengfei enviously, how did he hook up with young Ji in this turn of events?

A man who was a few years older than himself and called himself junior in front of him, Ji Feng couldn’t help but get chills and almost goosebumps all over his body, but he couldn’t say anything.

“Before we get into things, let’s talk about Huang Qidong.” Ji Feng pointed at Huang Qidong, who was shaking and was already pale, “His father is the deputy director of the Drug Administration?”

Qiu Pengfei was a delicate mind, once he heard this, he immediately understood what Ji Feng wanted to do, and immediately nodded, “That’s right, Huang Qidong’s father, Huang Zhengfa, is the deputy director of the Wanjiang District Drug Supervision Bureau.”

“Your father is the deputy district chief of Wanjiang District?” Ji Feng asked again.

“Yes.” Qiu Pengfei immediately nodded, where could he let Ji Feng continue and immediately said loudly, “Young Ji, what happened today happened in my father’s district, and Huang Qidong’s father is an official in my father’s district, I feel ashamed that such a thing happened, but I also know that it is every citizen’s duty to obey the law and fight against lawless elements, so I will immediately report this to the relevant authorities!”

Without waiting for Ji Feng and the others to speak, Qiu Pengfei immediately took out his phone and dialed the disciplinary committee’s reporting number in front of everyone: “Is this the reporting hotline? I want to report the deputy director of the Drug Administration, Huang Zhengfa, and his son, Huang Qidong

There was a thump!

Qiu Pengfei’s words had not yet finished, Huang Qidong’s body trembled, and he fell limp on the ground, no longer having any strength.

–This time, it was really the end!

Chapter 277

Huang Qidong’s body was shaking with fear, but he could not muster half the strength, and could only go limp, his face untouched.

However, when Qiu Pengfei finished his phone call, he came to Ji Feng and said, “Ji Shao, I have reported it and also reported to the police that someone was causing trouble and committing murder at the Changhe Drug Company

Boom!

As soon as he heard these words, Huang Qidong immediately felt as if five thunderstorms had hit him, and his whole body shook violently!

Immediately, he didn’t know where he got the strength from and suddenly stood up all of a sudden, fiercely kneeling in front of Ji Feng and giving himself a fierce slap: “Pa!”

Although this slap hit Huang Qidong’s face, both Section Chief Xu and Zhang Ke Ran couldn’t help but feel the corners of their eyes jumping and also felt their faces burning, as if this slap was likewise hitting their faces.

“Young Ji! I’m not human, I shouldn’t have hit Changhe Drug Company, Ji Shao, please give me another chance, I won’t dare to do it again” Huang Qidong was so remorseful in his heart that his intestines turned blue, why did he have to be so greedy, who should he mess with but Changhe Drug Company!

He wouldn’t dare let anyone investigate him, or else just the things he did in the past would have been enough to put him through jail, even to the point of eating peanuts!

The two of them naturally looked even worse as they came up and fell on their knees in front of Ji Feng, slapping themselves twice at the same time and begging with their mouths.

Ji Feng didn't even look at them and said to Qiu Pengfei indifferently, "It looks like we still need to ask you guys to do us a favour, we can't let them interfere with the normal order of the company here."

Qiu Pengfei nodded at once and said, "Young Ji, I know what to do!"

He immediately turned his head to glare at the few gentry who were still dazed and yelled, "You bastards, what are you still standing there for, hurry up and help!"

Only then did those few gentry wake up with a start, and they all responded, rushing forward to help and set Huang Qidong and the three of them away.

From a distance, Qiu Pengfei's roar could still be heard, "**** all keep a closer eye on me, these people are all suspects now, if you let them escape, I'll see how you can explain to and whoever!"

Outside, he didn't dare mention Ji Feng's name, otherwise, others would think that this was Ji Feng bullying others and deliberately framing Huang Qidong and the others. What's more, even if Qiu Pengfei wanted to mention Ji Feng, he didn't even know his name up to now!

After Qiu Pengfei and the others went out, Ji Feng turned his head to Xiao Changhe and smiled, "Uncle Xiao, I don't know much about company matters, so I won't interfere!"

Xiao Changhe nodded slightly and said, "Well, it seems that the company needs to be managed properly."

Through this incident today, it could be seen that the Changhe Pharmaceutical Company still had some flaws, more or less, in its management, and the biggest flaw, and the most obvious one, was in the employees.

The quality of these employees is generally not very high, and some of them are not in the company at all, otherwise, they would not show gloating expressions just after something happened to the company.

At the same time, Xiao Changhe had a lot of emotions in his heart. Although he knew that with Ji Feng's status, it would be very easy to settle this matter, he never expected that, apart from that Huang Qidong who didn't know whether to live or die, the other gentry wouldn't even dare to refute Ji Feng's words, especially when Qiu Pengfei recognized Ji Feng, the situation was immediately reversed in a shocking way.

Huang Qidong, who had been so proud of himself, was about to become a prisoner, and Zhang Kehlan and Section Chief Xu, too, ended up in the same situation.

From the beginning to the end, Ji Feng only asked Qiu Pengfei a few questions and made him take the initiative to take on the task of dealing with Huang Qidong. How could Xiao Changhe not feel emotion in his heart when he was used to seeing those people who were so proud of the small amount of power in their hands that they even forgot their own surnames?

At this time, General Manager Lin Shengping and the other employees then came back to their senses and whispered about it.

They all knew Xiao Yuxuan, the boss's daughter, who was also their first lady. However, none of them knew Ji Feng. In the eyes of these employees, Ji Feng was too young, as young as a student, but this was only from age alone.

In fact, at first glance, no one could even tell that Ji Feng was still a student, especially with his sturdy figure and his steady temperament, it was easy for people to overlook his age and couldn't help but feel a sense of awe rising in their hearts.

"Could it be that this young man, is Missy's boyfriend?" These employees could not help but secretly speculate in their hearts, if that was the case, it seemed that Changhe Pharmaceutical Company was going to be prosperous, ah, to know that just now, that Huang Qidong was claiming to be the son of the Deputy Director of the Drug Administration, and as a result, this young man even dared not to put him in his eyes, just to be recognized by a person, and as a result, Huang Qidong turned out to be in a mess.

What was the identity of this young man, Ji?

The curiosity of the company's employees burst into flames and they whispered about it.

Lin Shengping's heart was something else, he looked at Ji Feng with a complicated expression, and then looked at the happy tenderness in Xiao Yuxuan's eyes, he only felt as if something had been lost in his heart, although a little lost, but not sad.

Xiao Changhe, however, had a sullen face and looked at those employees, "Since you are all here, it saves us from convening again, let's have an impromptu on-site meeting!"

Everyone couldn't help but stare, why did Xiao Changhe suddenly convene an on-site meeting at this time?

Only Ji Feng and Lin Shengping, as well as Xiao Yuxuan, were the only ones who vaguely understood why Xiao Changhe had suddenly decided to hold a meeting. Through today's incident, it could be seen that the quality of some employees was really too poor, and such people must not be able to stay in the company.

Xiao Changhe also did not find a chair to sit down, but just stood in the doorway and said in a deep voice: "Honestly, I am very disappointed with everyone's performance today."

Xiao Changhe opened his mouth with one sentence and made these employees couldn't help but be a little surprised, but there were also many who were faint in their hearts and a little ashamed.

"Today, but anyone who has left work without permission, please turn in your resignation report within three days, according to the contract, it is considered that the company dismisses you, so two more months' salary will be paid to you." Xiao Changhe's second sentence immediately made these employees jolt, but they could not say anything, their boss wanted to dismiss them, and according to the contract, they could only accept it helplessly.

Of course, many of them also regretted in their hearts, why did they trifle with it before?

Anyone could see now that Changhe Pharmaceutical Company would definitely have a great future in the future, so it was all their fault for not taking advantage of it.

Next, Xiao Changhe announced a series of personnel appointments, and Ji Feng just listened to the side and studied carefully.

Since he had decided to start his own business, he naturally had to learn about it properly. Xiao Changhe definitely had his strengths if he could develop his company from nothing to where it was now.

When all these things were finished, Ji Feng saw that Qiu Pengfei was cautiously coming in through the main entrance.

Ji Feng gestured to him, and Duan Pengfei immediately understood, smiled faintly, and waited at the door. At this time, several other gentry also came over, and then talked in a low voice with Duan Pengfei at the door, stealing a glance at Ji Feng from time to time.

It was obvious that the focus of their conversation was Ji Feng.

These gentry couldn't help but be thankful that they hadn't been too rampant when they came here before, otherwise, I'm afraid that they wouldn't end up much better now.

Ji Feng, however, ignored these people, since Duan Pengfei and the others had returned, it proved that the law enforcement agencies had taken Huang Qidong and the three people away, and Ji Feng believed that Duan Pengfei would definitely not be negligent in this matter, and he was quite relieved.

When Xiao Changhe finished the meeting, he left it to the personnel department to handle, he turned his head and smiled: "Little Feng, waiting anxiously, right?"

Ji Feng smiled faintly, "Following Uncle Xiao's study, I'd like to study a little longer!"

"You brat!" Xiao Changhe couldn't help but smile as well, his mood gradually improved as things were resolved, "Little Feng, you wait outside with Yu Xuan for a while, I still have some documents to deal with on my side, I always need to hand over things today!"

Ji Feng nodded slightly, he happened to have something to do as well.

"Yu Xuan!" Ji Feng winked at Xiao Yuxuan, the latter instantly understood, turned around and pulled the receptionist who had been afraid to speak, and smiled, "Come, let's go inside!"

Ji Feng's face suddenly turned gloomy, what this receptionist said made Ji Feng annoyed, what was wrong with her good sister?

Thinking of some possibilities, Ji Feng couldn't help but hate Huang Qidong even more.

Seeing that all the people had left, Ji Feng waved to Qiu Pengfei.

Qiu Pengfei instantly lit up, he did all these things, but wasn't it just to get in touch with Ji Feng, now Ji Feng waved to him, undoubtedly he had him in his sights.

"Young Ji, what are your orders?" Qiu Pengfei was very polite and took out a cigarette and handed one to Ji Feng, hurriedly lighting it for him.

"You're older than me, just call me Ji Feng directly from now on!" The company is in Wanjiang District, Qiu Pengfei will take care of it more or less, as the saying goes, a county official is better than the current administrator, this truth is clear to Ji Feng.

The company's name is "Qiu Pengfei" and he grinned, "How can I do that? I'll call you Ji Shao."

Ji Feng also stopped insisting and smiled, "Do you have a business card, give me one!"

Qiu Pengfei was overjoyed, Ji Feng was obviously going to exchange contact information with him, so he hurriedly took out his business card.

When Ji Feng took a look, he couldn't help but laugh dumbly: "Consultant of Feiteng Trading Company?"

He knew that there were rules in the country that the immediate family members of officials could not engage in business, so he thought this company was Qiu Pengfei's, but it was just a different form.

Qiu Pengfei smiled a little awkwardly, "Just a way to make a living, huh?"

Chapter 278

Qiu Pengfei's words were vague, a mere snort and a passing comment.

Of course Ji Feng wouldn't bother with him about this and smiled, "You've worked hard today, and at Huang Qidong's place, make sure you follow the law strictly."

"Don't worry, I will definitely convey your words to my old man." Qiu Pengfei said immediately.

Ji Feng couldn't help but laugh dumbly, this guy was good at following the snake, he only told Qiu Pengfei, but the latter brought up his old man, which indirectly turned into a conversation between Ji Feng and Qiu Pengfei's old man, the subtlety of which could only be understood but not spoken.

"OK, but I should still have some things to do with Huang Qidong here, I still need you to wait here for a while." Ji Feng didn't count on this.

Qiu Pengfei immediately said, "You're busy, you're busy, I have nothing to do anyway, there's no problem waiting for as long as it takes."

Just kidding, ordinary people didn't even want such an opportunity, so how could he refuse? To be able to do one thing for Ji Feng and draw some relations closer, he wasn't stupid and naturally wouldn't refuse.

Ji Feng looked around and Lin Shengping, who was next to him, immediately said, "How about this, a few of you please go to the parlour and wait for a while."

Qiu Pengfei immediately went off happily, not without some courtesy.

At this point, everyone left, but of course, those who had been dismissed were still inevitably whispering, but no one dared to write their discontent on their faces, and even if there were pricks, they definitely did not dare to say anything more. On the one hand because they were in a deficit, on the other hand everyone stole a glance at Ji Feng who was standing at the door, who dared to be arrogant in front of him?

In a moment, the general manager Lin Shengping was left at the door, as well as Ji Feng who had nothing to do.

“Young Ji, right, why don’t we also go to the meeting room first and wait, it’s not a good influence to stand at the door like this now.” Lin Shengping suddenly opened his mouth and said.

Ji Feng smiled thoughtfully and nodded, saying, “That’s right.”

“Oh, please, young Ji!” Lin Shengping made an inviting gesture, gesturing for Ji Feng to follow.

“Manager Lin, don’t call me Ji Shao, just call me Ji Feng directly!” Ji Feng said slightly politely, but the corner of his mouth held a meaningful smile, as if he had thought of something.

“That’s fine, I’ll trust you for once and call you Ji Feng.” Lin Shengping smiled faintly and slowed down his steps, looking at his expression, it seemed that he was deliberating his words.

Ji Feng wasn’t in a hurry, he simply took out a cigarette from his pocket and handed one to Lin Shengping.

“Oh, don’t dare to, I’ll do it myself!” Lin Shengping, seeing that Ji Feng was about to light his cigarette, took a step back and smiled politely as he took out the lighter, lit it himself and took a beautiful drag, looking very comfortable.

Seeing this, Ji Feng smiled faintly and also lit a cigarette for himself, accompanying Lin Shengping to smoke it together.

He believed that Lin Shengping should want to say something to himself, and the content of his speech, he could about guess who it was related to, just what attitude Lin Shengping would take to say this matter, Ji Feng was not yet sure.

But now it seemed that at least Lin Shengping’s attitude would be friendly!

“I had spent a few years in both foreign and state-owned enterprises, and have been in this circle since I graduated.” Lin Shengping didn’t seem to have the authority and image of a general manager at this moment, as he took a slight step back and leaned his body against the wall of the corridor.

Ji Feng gently puffed on his cigarette, but didn’t say anything, just listened quietly, Lin Shengping naturally couldn’t only have these words to say.

“Ji Feng, you probably don’t know which university I graduated from, do you?” Lin Shengping suddenly asked.

“It’s true that I don’t know.” Ji Feng laughed, but in his heart he had a guess.

“Yu Xuan and I are alumni.” Lin Shengping also smiled, “Only, I was her senior, and once again, I went back to school to attend the alumni meeting of our class, and I met Yu Xuan then.”

Sure enough!

Ji Feng smiled faintly, but didn’t say anything.

“Don’t misunderstand, I definitely don’t have any malicious intent when I say this today.” Lin Shengping explained his actions, “At that time, I met Yu Xuan, but she was surrounded by too many people and also already had a boyfriend, so I hehe!”

“You came to Changhe Drug Company for Yu Xuan as well?” Ji Feng asked.

“Not really, at least here, the boss treats me very well and gives me a lot of room to play, I’m happy to stay here!” Lin Shengping laughed, then shook his head and said, “Unfortunately, in this piece of land of ours, just having the ability and room to play is not enough.”

Ji Feng smiled faintly and did not say anything, just listened quietly.

“Through today’s incident we can see how right I am!” Lin Shengping’s heart seemed a bit melancholy, “No matter how strong one’s ability is, it won’t play any role in front of a seal from someone

“Such are the conditions of the country!” Ji Feng said with a smile, “There is nothing you or I can do to change it.”

“So yeah, precisely because I see this clearly, I have not said anything, and even, rarely contacted Yu Xuan.” Lin Shengping chuckled, “But now it’s different, seeing her with you, she’s happy and you have this ability to protect her, I’m very relieved.”

Ji Feng smiled faintly, but didn’t know what to say. In fact, it was inappropriate for him to say anything right now.

“If Yu Xuan wasn’t so pretty, I would definitely go after her, but she’s just too pretty, and with my ability, I’m afraid I wouldn’t be able to protect her even if I had to fight for my life, so instead of that, I naturally wouldn’t go and mess with her!” Lin Shengping extinguished his cigarette and threw it in the bin, and extended his hand to Ji Feng, “I hope you will treat Yu Xuan well in the future, I will pray for you!”

Ji Feng had a little more appreciation for Lin Shengping in his heart, he also extended his hand and shook it with Lin Shengping’s, “Many thanks!”

“Next, do you still plan to stay at Changhe Pharmaceutical Company?” Ji Feng asked with a smile, he heard a kind of depression in Lin Shengping’s words, as if he wanted to leave. However, now that Xiao Changhe was gradually getting older, of course he needed a strong helper to help him, and if Lin Shengping left because of himself and Xiao Yuxuan, it was obviously a bit too much for Ji Feng.

“Why should I leave?” Lin Shengping laughed, “The original company didn’t have any background, the two of us, the boss and I, struggled hard to get this situation now, now that the company has such a deep background, why would I leave, wouldn’t that be silly?”

After saying that, Lin Shengping laughed.

Ji Feng was also dumbfounded to laugh, this Lin Shengping, was a wonderful person.

“Let’s be friends in the future!” Ji Feng smiled faintly and extended his hand here.

“I’m honoured!” Lin Shengping also extended his hand and shook it with Ji Feng, “Ji Feng, there’s no need to let Yu Xuan know about what I said just now, what do you think?”

“It depends!” Ji Feng smiled faintly.

Lin Shengping instantly became anxious, “How can it depend on the situation! Ji Feng, if Yu Xuan finds out, then I really don’t have the face to stay in the company

Ji Feng laughed, "Don't worry, I will respect your opinion."

Only then did Lin Shengping let out a sigh of relief and nodded his head slightly.

Ji Feng handed him another cigarette, and the two of them lit it up and got into other topics, and for a while they had a pleasant conversation. But Ji Feng knows very well that it is absolutely impossible for Lin Shengping to completely forget about Yu Xuan in his heart, in fact, no matter who is replaced, it is also impossible to forget all at once.

That's why Lin Shengping was afraid that Yu Xuan would know what he had said, but Ji Feng didn't mind because he knew that Lin Shengping had actually put it down in his heart and was learning to gradually forget.

So, why couldn't Ji Feng have the tolerance for others?

What's more, Lin Shengping didn't seem to be a bad person, so why should he hold a grudge over this point? Everyone has the right to like other people, and this is something that no one can stop!

The most crucial issue is that Lin Shengping is very self-aware and very good at being a human being, and it is actually not bad to have such a friend.

The two were talking when Xiao Yuxuan, with an ugly face, came out of the office with that receptionist.

Seeing that Ji Feng and Lin Shengping were talking happily, Xiao Yuxuan's face could not help but slightly ease up a bit as she walked over and said softly, "Ji Feng, this matter still needs to be done by you!"

Ji Feng instantly realized the seriousness of the matter, his sword eyebrows rose and he asked in a deep voice, "The matter is serious?"

"Beastly!" Xiao Yuxuan cursed indignantly.

Ji Feng then nodded slightly and said in a gentle manner to the receptionist whose eyes were a bit red and swollen, "Little girl, please go to the meeting room and call Qiu Pengfei and the others over, okay?"

That receptionist immediately nodded and pretended to turn around and went to the parlour.

"What's going on?!" Ji Feng's face immediately sank as he asked.

Xiao Yuxuan said angrily, "What else could be going on? This little girl and one of her little sisters used to work as a receptionist in a company, but they were inadvertently taken in by that bastard Huang Qidong, both little girls came from the countryside and were honest, so naturally they didn't dare to get involved with Huang Qidong easily. reception once received a call from that little sister of hers, saying that she had been arrested by Huang Qidong and subsequently could not be traced!"

"Didn't call the police afterwards?" Ji Feng's face was incomparably gloomy.

"She's a young girl from the countryside, what could she do if she called the police? One didn't have any evidence, two didn't have the guts to speak up, in the end, it could only be left unresolved." Xiao Yuxuan sighed lightly, "Later on, that little girl's parents came to make trouble, and as a result, someone warned them, the little girl's parents refused, and as a result, they were beaten up and given some money, the little girl's parents had to leave helplessly."

"It's really worse than beasts!" Ji Feng's face was blue and his heart was incomparably angry.

"Young Ji!" Qiu Pengfei and the others quickly walked over, "May I ask what young Ji's orders are?"

"A task for you!" In his rage, Ji Feng stopped talking nonsense, "According to my understanding, a little girl was made to disappear by Huang Qidong, I don't care what method you use, pry Huang Qidong's mouth open, make him tell the whereabouts of that little girl, and at the same time find out how many other sinful deeds Huang Qidong has, can you do it?"

Even though he knew that there was little chance that the little girl was still alive, Ji Feng still held on to a sliver of hope, that was a life after all!

"Don't worry, Ji Shao, I will definitely do it in the shortest possible time!" Qiu Pengfei said immediately.

Qiu Pengfei knew very well that this matter was not only arranged by Ji Feng, because Ji Zhenguo, the secretary of the municipal party committee, would probably know about it at any time, and if it was not done properly, the consequences could be very serious.

"After you find out, call me anytime!" Ji Feng's voice was low, but his words were decisive: "No matter who is involved, find out for me!"

Chapter 279

No wonder Ji Feng was so angry, a small second generation ancestor, who merely had his eyes on a girl, dared to let her whereabouts still unknown, life and death unknown?

It was really lawless!

The company's main business is to provide a wide range of services and services to the public, including the provision of services to the public and the provision of services to the public. The same as Huang Qidong, simply take the fate of others not seriously?

Ji Feng knew that his own ability was limited, and all these second generation ancestors were too widely involved, so he couldn't manage that much, but since he ran into it today, if he didn't care, not to mention his conscience, even if his mother found out later, she would definitely break his legs!

Therefore, the matter of that little girl, Ji Feng will definitely be in charge to the end, no matter who is involved, he will have to find out the other party, can not say that to punish the evil, but at least to let his conscience to live.

If you don't have that ability, it's just as well, but now that you have the ability, you naturally can't just sit back and do nothing!

Ji Feng, however, did not notice that the decisive manner in which he said these words made his entire person exude an intimidating aura, especially the pair of calm eyes with a touch of anger hidden in their depths, which made people not dare to look at them.

"Don't worry, I know what to do, if this matter is not even done properly, I won't have the face to continue to mix in the future!" Qiu Pengfei immediately patted his chest and assured him.

Ji Feng nodded slightly: "If you do things beautifully, I'll treat you to a drink later."

“Then I’ll remember, hehehe!” Qiu Pengfei immediately hit the snake and smiled heatedly.

“Of course you should remember.” Ji Feng smiled faintly, “I won’t keep you, call me anytime!”

Qiu Pengfei immediately said goodbye, and several other gentry did not forget to say hello to Ji Feng before they left, saying, “See you later, young Ji.”

Although they were not as lucky as Qiu Pengfei to get to know Ji Feng, and even seeing that Qiu Pengfei was about to become Ji Feng’s man, this made them envious. However, these people also knew that their performance just now was not good enough, they did not recognise Ji Feng in the first place, not to mention reacting in a timely manner, and it would be heavenly lucky if Ji Feng could not pursue them now.

However, seeing Qiu Pengfei’s relationship with Ji Feng getting closer and closer, they naturally had envy in their hearts, so they also had their own methods, they couldn’t leave their contact information, but at least they had to leave some impression in Ji Feng’s heart, right?

So when they were leaving, each of them greeted Ji Feng in different ways, in order to make a deeper impression on Ji Feng.

At the same time, these people secretly decided that it seemed to be time to get on good terms with Qiu Shao even more, he was about to hug the thigh of the Ji family, a thigh that, even if they pulled off a leg hair, would be thicker than their waists!

When the few gentry all left, Ji Feng then let out a slight sigh, he believed that Qiu Pengfei would get things done, and would do so in the shortest possible time.

In fact, with Ji Feng’s composure, even if he was angry in his heart, he would never be furious when there were outsiders around, although he was furious just now, on the one hand, because he was indeed too angry in his heart, on the other hand, he also wanted to take the opportunity to warn Qiu Pengfei and these gentry.

Never do such beastly things, who dares to do it, once they are discovered by themselves, they will definitely not end up better than Huang Qidong!

He believed that even if Qiu Pengfei and the others did not understand, they would know that if they were found out, they would not be able to get away with anything bad!

The next person, Lin Shengping, was looking at Ji Feng with interest, and when Ji Feng’s gaze appeared, he couldn’t help but return a meaningful smile.

The corners of Ji Feng’s mouth also twitched and he couldn’t help but smile as well, he knew that Lin Shengping had read his own meaning, this was indeed a smart man, and it was also fortunate that he didn’t have second thoughts, otherwise, it couldn’t have been easier for him to be noble, after all, Uncle Xiao couldn’t keep an eye on the company every minute of the day.

“This is a talent, fortunately he wasn’t driven away by his own presence!” Ji Feng was glad in his heart that a love rival could likewise become a friend, not to mention, Lin Shengping was not an enemy.

“By the way, you guys haven’t eaten yet, right?” Lin Shengping suddenly thought of it, “There is a restaurant around here that does a pretty good pickled fish, I’ll treat you today, why don’t you go together?”

Ji Feng looked at the time, it was already 3pm, he shook his head and smiled, “Forget it, it’s already this time, I’m afraid there’s no more food in the restaurant.”

After thinking about it, Lin Shengping nodded, “Then it’s better to order fast food, because of the morning’s events, most of the company’s employees haven’t eaten yet.”

He immediately arranged for someone to order fast food, and Ji Feng and Xiao Yuxuan went to the parlour to wait for Xiao Changhe to finish the matter before going home together.

When it was time to eat, Ji Feng just simply ate some, after all, he had eaten quite a lot at Xiao’s house before, so he wasn’t too hungry.

At this time, the little girl from the receptionist knocked on the door and walked in, she was carrying a teapot and poured water for Ji Feng and the three of them respectively. When she arrived in front of Ji Feng, the little girl whispered, “Ji, Mr. Ji, thank you!”

Ji Feng couldn’t help but smile slightly and said, “No need to be polite, someone steps on the road if it’s not level, but it’s you, when you do things in the future, you don’t have to be so timid, those from the countryside won’t be inferior, it’s no big deal.”

“Mmm! Thank you, I’ll remember!” The little girl nodded vigorously, her face flushed red and very excited.

When the little girl walked out, Xiao Yuxuan couldn’t help but tease, “You’re quite good at encouraging people!”

“Because I also come from the countryside and have been bullied by powerful and noble children, I know her mentality!” Ji Feng smiled faintly and no longer continued on this topic, he suddenly asked, “Manager Lin, there’s something I want to ask you about, you have a wider range of contacts, do you know where there are pharmaceutical factories that are struggling to operate, or are interested in changing hands?”

Looking for a cooperative partnership, or for a pharmaceutical factory with difficult operations, was the main purpose of Ji Feng’s visit to Xiao Changhe today, but in the middle of it, because of Huang Qidong’s matter, so there was no time to mention it, and now that Lin Shengping was here, it was the same.

Lin Shengping, who was eating, couldn’t help but be stunned: “A pharmaceutical factory that is having trouble operating? That’s a lot of them. In the past, when the management was not regulated, there were too many small pharmaceutical factories everywhere. Now the country is gradually becoming stricter, although many pharmaceutical factories have gone through formal procedures, but after all, this is an era where the big fish eat the small fish, those small pharmaceutical factories can’t continue to operate, and many of them have closed down in the past few years.”

Ji Feng couldn’t help but smile slightly, “In that case, if I want to acquire a pharmaceutical factory, isn’t it very easy?”

“It’s indeed easy, especially for some private pharmaceutical factories, which have long since become a burden that those owners are eager to get rid of early.” Lin Shengping couldn’t help but look at Ji Feng in amazement, “You, what did you just say? You want to buy the pharmaceutical factory?”

Ji Feng laughed, “What, no?”

“Yes, it’s fine, I just didn’t think of it!” Lin Shengping laughed, in his opinion, Ji Feng must be the son of a certain family, otherwise he wouldn’t have made Huang Qidong and the others afraid like that.

Such a person, suddenly saying that he wanted to acquire the pharmaceutical factory, he was more or less unresponsive.

“Then, can you trouble Manager Lin to help collect some lists of pharmaceutical companies that are having difficulties in their operations?” Ji Feng asked with a smile.

Who knew that Lin Shengping was shaking his head.

“This matter ah, you still need to seek help from the boss, those pharmaceutical factories are contacted by the boss, I am only responsible for the company’s operation, but the source of goods is all in the boss’s hands.” Lin Shengping laughed.

Ji Feng immediately understood, Lin Shengping contacted, mostly hospitals and clinics and some sales channels, while the source of goods was in the hands of Xiao Changhe, which was good.

“What is it that you want my help with?”

As the three of them were talking, Xiao Changhe pushed open the door of the parlour and walked in, his face full of red and smiling as he asked. Obviously, he was naturally very happy that today’s matter had been resolved smoothly, and that it had basically eliminated similar troubles in the future.

Ji Feng immediately told Xiao Changhe about his desire to acquire a pharmaceutical factory: “The pharmaceutical factory doesn’t need to be very big, and the instruments don’t need to be very advanced, but there is one thing, I want to acquire it wholly, even if it is a joint venture in the end, I must have a controlling stake, of course, it is naturally better if it can be wholly acquired!”

On the one hand, Ji Feng needed a pharmaceutical factory with complete procedures, it did not matter if it had sales channels, but at least it should be managed in a standardized manner and have complete legal procedures. Moreover, he also needs absolute control, only then can he ensure that his prescriptions will not be leaked.

Although this prescription in his hands is only the initial introductory product, the 53 slimming pill, is the real ultimate slimming pill, and there are many other medicines that are far too much better than the weight loss pill. But if he couldn’t even keep the prescriptions for the diet pills, who was he to keep the better ones?

“You want to acquire a pharmaceutical factory?” Xiao Changhe was slightly surprised at once, wasn’t Ji Feng still a student?

But on second thought, Xiao Changhe didn’t say anything, with Ji Feng’s status, wouldn’t it be convenient for him to do whatever he wanted?

But, Xiao Changhe's heart is a little uncomfortable, this Ji Feng looks stable and powerful, but, he is now about to buy the pharmaceutical factory how does it always feel like some kind of second generation?

Could it be that it's just that Ji Feng hides it better? Xiao Changhe frowned slightly.

Ji Feng also saw that Xiao Changhe seemed to have doubts, he only smiled slightly, and did not explain more, after all, there is Lin Shengping in, many things are not convenient to say.

Chapter 280

When the company's business was finished, it was already after 5 p.m., and lunch was not ready, so Xiao Changhe invited Ji Feng home to have dinner with him.

Although doubts arose in Xiao Changhe's mind that Ji Feng might perhaps really be a second-worlder, only better concealed, Xiao Changhe did not show it, but only made up his mind to get in touch with Ji Feng more often so that he could observe him up close.

Xiao Changhe only had one daughter, so naturally he would not easily hand him over to someone he did not know.

Moreover, out of courtesy, Xiao Changhe would also invite Ji Feng to his home for dinner.

Only, as a man, Xiao Changhe acted more subtle.

"Ji Feng, just do what my father says." Xiao Yuxuan looked at Ji Feng with some expectation, of course she hoped that Ji Feng would go to the house more often, at least to leave a good impression on her parents.

"Then I'll bother Uncle Xiao and Auntie!" Ji Feng smiled slightly, but it was clear in his heart that Xiao Yuxuan's invitation to himself was indeed sincere, but Xiao Changhe, perhaps, had another purpose.

Only Ji Feng didn't mind, because no matter how suspicious Xiao Changhe was, he should be, if it were Ji Feng, he would definitely do the same, this was after all about his daughter's happiness, and Xiao Changhe deserved to be more cautious.

Therefore, Ji Feng did not say anything, as long as Xiao Changhe knew what he intended to do, he would naturally understand that he was definitely not just playing around, let alone being feverish, but had a reason for doing so.

After instructing Lin Shengping to take some precautions, Xiao Changhe and the three of them drove back to the Xiao family villa.

Sitting in the car, Ji Feng couldn't help but ask, "Uncle Xiao, among those pharmaceutical companies you have contacted, are there any that are eager to change hands?"

Xiao Changhe did not answer immediately, but was silent for a moment before asking, "Little Feng, why do you want to acquire a pharmaceutical factory?"

Ji Feng immediately understood that Xiao Changhe was formally cross-examining, and he could not help but laugh: "Uncle Xiao, I know what you are worried about, don't worry, I am definitely not a momentary fever, but really and truly want to do something. Well there are some things in my family that cannot be explained in a few words, simply put, it is that I need to make some achievements to prove my ability so that I can be recognised by the family."

"In addition, the reason why I chose to do this piece of medicine is mainly because I have a prescription in my hand, and once this prescription is made into a finished product, with a little bit of operation, it will definitely cause a great reaction." Ji Feng smiled faintly, "Uncle Xiao, I think Yu Xuan may have already told you and Auntie about my origins, right? I wasn't born a gentry's son, so I'm definitely sincere to Yu Xuan, and I definitely won't act irrationally like some gentry's."

Only then did Xiao Yuxuan come back to her senses, it turned out that her father was questioning Ji Feng, she immediately said, "Dad, Ji Feng is different from other gentry brothers, every penny he spends now is earned by himself, it has nothing to do with the Ji family. Oh, by the way, this car he is driving now was instead given to him by his second brother!"

Only then did Xiao Changhe remember that his daughter had indeed told herself about Ji Feng's origins and some of the events that led to his identification with the Ji family, only that her daughter didn't know very well, so she was very vague about it.

But there is no doubt that Ji Feng did come from a poor background, and his steadiness and shrewdness must have been honed in that poor life. Xiao Changhe, who came from a poor background himself, certainly understands how the days of poverty can sharpen people.

When he thought of this, Xiao Changhe was relieved. Just as Ji Feng said, he chose to do the business of medicine, firstly, because he was given a prescription, and secondly, because he wanted to prove himself to his family.

Although he didn't know what kind of life it was like for those big families, Xiao Changhe could imagine that it was indeed not that easy for a person from a poor background to suddenly acknowledge his ancestors and be recognised.

Xiao Changhe suddenly no longer had a trace of mustiness in his heart, because whether what Ji Feng said was true or not would naturally be revealed later, what he was curious about now was what kind of prescription was in Ji Feng's hand, how could it make him have such great confidence?

"Little Feng, Uncle Xiao had some misunderstandings about you before, don't take offense!" Xiao Changhe laughed.

Ji Feng immediately laughed: "Misunderstanding is also inevitable, frankly speaking, although this identity of mine has saved me a lot of trouble, it has also invariably added to other people's misunderstanding of me, after all, it's a gentry, what can I do that's serious? What can I do?"

"You are very open-minded!" Xiao Changhe couldn't help but laugh as well.

Xiao Yuxuan secretly spat out her cute little tongue, seeing that her father and Ji Feng were back together again, with no more hard feelings in her heart, she was naturally the happiest one.

“Xiao Feng, what exactly is the remedy you have mastered, how come it makes you so confident?” Xiao Changhe finally couldn’t help himself and asked out loud. Those who were in the pharmaceutical business always had a special preference for prescriptions, and Xiao Changhe was no exception.

Ji Feng laughed: “A weight loss pill, and a weight loss pill that is 100 percent effective, and, without any side effects on the human body.”

“Oh?!” Xiao Changhe’s eyes instantly lit up, “There’s actually this kind of medicine?”

Ten drugs, nine poisons, there is almost no drug that is not harmless to the human body, this is already a consensus whether in the academic world or in the folklore, now Ji Feng unexpectedly said that this diet pill is absolutely harmless to the human body, can not help but make Xiao Changhe a little surprised.

Judging from Ji Feng’s composure, he shouldn’t have said it easily if he wasn’t sure, and now that he said it, this proved that it was likely to be true.

“Uncle Xiao, there is a saying that ten medicines are nine times more poisonous, so everyone probably thinks that all medicines are harmful to the human body, only that there are greater and lesser dangers.” Ji Feng drove, with his memory, since he had walked once, he didn’t need Xiao Changhe to point the way again, “However, if the ingredients in the medicine that might be harmful to the human body are removed, but at the same time the original medicinal properties of the pill are retained, wouldn’t that be harmless to the human body?”

“Removing harmful ingredients?” Xiao Changhe was even more amazed, and he couldn’t help but ask, “Can this be done with the current technology?”

Xiao Changhe made pills and naturally knew more than others in this area, and as far as he knew, there was really no technology that could completely remove the harmful ingredients from medicines.

“It’s true that the current technology can’t do it” Ji Feng chuckled and forked off the topic, “However, when the diet pill is made, our publicity will certainly not focus on whether it’s harmful to the human body, but rather on the diet pill’s effect, one hundred percent effective, this is the gimmick!”

The current technology is unable to do so, but the technology of the Gamma Galaxy era, it is much easier to do so, only, Ji Feng can not explain clearly to others, so he has long thought, the focus of publicity, on the effect of the diet pill, rather than the harmfulness.

“Well, if it really works, it would be great.” Xiao Changhe nodded and said, as for whether it was really removing the harmful ingredients in the medicine, he didn’t pursue it too much, after all, what even a technologically advanced country like Rice couldn’t do, Ji Feng naturally could do even less, as long as he didn’t make fake medicine, Xiao Changhe wouldn’t pursue it.

What’s more, nowadays, some diet pills or diet health products and the like, after eating them, some do have some effect, but they will bounce back later, while some, directly have no effect at all.

Nowadays, in order to lose weight, you have to supplement it with other means, so in Xiao Changhe’s opinion, if this prescription of Ji Feng’s really has an effect, it can be done.

“Uncle Xiao, I only have the prescription in my hands and nothing else, so I want to take over a poorly-run pharmaceutical factory, and I still need Uncle Xiao to help me with the matchmaking.” Looking at

the slightly more cars on the road, Ji Feng slowed the car down, "Uncle Xiao has been doing medicine for so many years, he should have a wide range of contacts, he must know more people than I do!"

"Yes, dad, Ji Feng just came to Jiangzhou and doesn't want to rely on his family, he hardly knows anyone, if you don't help him, no one will help him!" Xiao Yuxuan hurriedly spoke up for Ji Feng.

Xiao Changhe couldn't help but laugh dumbly, "You girl, you haven't even married out yet, and you're so eager to help him?"

Ji Feng and Xiao Yuxuan blushed at the same time, and Xiao Yuxuan even pouted in disbelief, "Dad, what are you talking about!"

"Hahahaha" Xiao Changhe burst out laughing, his daughter and Ji Feng had a stable relationship and Ji Feng was very motivated, how could he be unhappy? Otherwise, he wouldn't have joked about his daughter and Ji Feng.

"To say that there is a company that is having trouble operating, there is really one." After laughing, Xiao Changhe returned to seriousness and spoke about business.

Xiao Yuxuan, however, suddenly remembered something and immediately asked, "Dad, what you're talking about, it wouldn't be Uncle Yang, right?"

"That's him!"

Xiao Changhe nodded, "Xiao Feng, I have a friend who runs a pharmaceutical factory. His factory is well-equipped, the workers are all veterans, and the formalities and such are all complete, only that in recent years his health has gradually failed, and the factory management is a bit chaotic, so the business has been declining year by year, and he thought of changing hands."

"If you really want to take over, I can introduce you." Xiao Changhe said, "However, that old Yang person is very attached to the factory and may put forward quite a few conditions."

Ji Feng laughed, "It's only right to raise conditions, business is all about talking, you can sit down and talk about any conditions you have."

Xiao Changhe nodded appreciatively, "Alright then, since you are willing to talk, then I will contact him now."

Xiao Changhe took out his phone and called that friend of his. Ji Feng couldn't help but feel that the effect was very different when things were done in different ways.

What he was at a loss to do, when it came to Xiao Changhe, he knew quite a few drug factory owners.

This idea of Lei Lei's, it's really good! Ji Feng couldn't help but smile faintly.
