

## Campus Master Chapter 2741 -

“Yes, us!” Fan Jianyuan nodded his head, and without waiting for Ji Feng to continue asking, he took the initiative to say, “In that base, there are dozens of people who are undergoing the same transformation and training as me, all of them are Asian faces, there are Boundary Pontiffs, there are Chinese, and there are also Kree, all of them have faces very close to Chinese!”

From Ji Feng’s stern look, Fan Jianyuan already knew how he should cooperate, and if he was not honest, he actually knew what would happen to him without Ji Feng saying much.

Therefore, he didn’t even wait for Ji Feng to ask a question and took the initiative to answer.

However, Ji Feng did not have the time to pay attention to Fan Jian Yuan’s attitude problem, much less the leisure to praise him. At this moment, Ji Feng frowned, it really looked as different as he had guessed, in the dynasty, there was no telling how many people were like Fan Jian Yuan, just in his one base there were dozens of people, so, what about in the other bases?

“You just said that there were the latest modifications in the base?” Ji Feng asked again.

“Yes.”

Fan Jianyuan said, “As soon as I heard that it was possible to leave the base, I immediately raised my hand because I was really suffocating in the base ..... although I knew that even after I got out, it would be impossible for me to get out of the dynasty’s control because I had a biological bomb inside me and the dynasty’s people could decide at any time whether I live or death, but I still want to leave the base and come outside to have a look.”

Ji Feng asked, “What kind of transformation did you receive?”

Fan Jianyuan said, “It’s a transformation that combines high technology and the ancient martial arts of China, which is .....

“Swish!”

Before he finished his words, he saw Ji Feng’s eyebrows abruptly tighten, while a cold light suddenly flashed in his eyes, “What did you say?!”

Fan Jianyuan immediately sensed something bad, and his voice came to a screeching halt.

Ji Feng’s cold face and a cold glint in his eyes: “I asked you, what did you just say about transformation?!”

“..... is a transformation that combines the high technology of the dynasty with the ancient martial arts of Huaxia.” Fan Jianyuan was a little hesitant, he didn’t know what was wrong with his answer.

“Humph!”

At once, Ji Feng snorted coldly and his face instantly turned icy cold!

Sure enough!

It’s finally here!

At this moment, Ji Feng’s expression was icy cold, but his heart could not help but be flooded with waves of shock and astonishment. He did not expect that this day had really come!

The kingdom had really combined high technology and ancient martial arts!

“Shameless scum!”

Ji Feng couldn’t help but grit his teeth, in fact, ever since the previous fight with the Qiao family involved the Xuan Yin Sect, Ji Feng had received news that someone from the Xuan Yin Sect had joined the Dynasty, and later on, he had even heard that there were martial arts experts working for the Dynasty, seemingly organizing people specifically to study the possibility of combining the ancient martial arts of China with the Dynasty’s transformers.

Later, when he destroyed that underground base of the Dynasty in the southwest, he caught Cage, one of the main people in charge, and through his confession, Ji Feng learned even more deeply that the Dynasty was conducting research in this area, and that Luo Qiu, who had escaped, was a martial arts master and was helping the Dynasty with its research.

Ever since then, Ji Feng had no small amount of pressure.

Because he was too aware of the power of Chinese ancient martial arts, especially those martial arts masters who had entered the Xiantian realm, even if some of the most elite special forces were to face them, I’m afraid a squad might not be able to capture a Xiantian master, and might even suffer heavy casualties!

Not to mention the monsters created by combining the ancient martial arts of China with the high technology of the dynasty!

That was truly a real monster!

“So, you’re the one who received that latest transformation?!” Ji Feng stared at Fan Jianyuan and asked in a deep voice.

“Yes.”

Fan Jianyuan nodded and said, “After the transformation, I found that my whole being was different, and as I studied the ancient Chinese martial arts under an adult, my body ..... became more and more like a normal person, and I practiced harder... ..”

“The person who taught you martial arts, what was his name?” Ji Feng asked in a deep voice.

“Lord Luo Qiu!” Fan Jianyuan said.

“It really is him!” Ji Feng couldn’t help but sneer, when he fought with Fan Jianyuan before, he vaguely felt that Fan Jianyuan’s attack stance seemed to have some familiarity, but it had a plausible appearance, so Ji Feng didn’t think of it in terms of Luo Qiu.

But then once Fan Jianyuan said that he had received the latest technological modifications from Dynasty, combining Dynasty's high technology with Chinese ancient martial arts, this immediately reminded Ji Feng of Kage and also of the fleeing Luo Qiu.

As a result, when he asked, as expected, it was really Luo Qiu who was in charge of training them.

"You just said that the more you train, the closer your body is to an ordinary person?" Ji Feng asked.

"No." Fan Jianyuan shook his head.

"Hmm?"

Ji Feng frowned and said in a cold voice, "Didn't you just say that? What, could it be that you really want to go and try what it's like to be sliced up for an experiment?!"

When Fan Jianyuan heard that, he couldn't help but feel a surge of anger, however, seeing Ji Feng's ice-cold eyes, his exuberant fire instantly went out and disappeared without a trace.

"..... is not an ordinary person, but a normal person." Fan Jianyuan was suffocated, and finally managed to explain before Ji Feng's expression gradually turned cold.

"Say it in detail!" Ji Feng said in a deep voice.

"Ordinary people, without much strength ..... When I say normal people, I mean physically appearing to become normal .....,," Fan Jianyuan explained with some difficulty.

Ji Feng frowned, but in his heart, he probably understood what Fan Jianyuan meant, he was saying that with the cultivation of ancient martial arts, his body was no longer as ugly as that of a reformed person, but gradually transformed to a normal person, but even though he looked like a normal person, he possessed a very strong strength, not an ordinary person.

This made Ji Feng secretly shocked, in that case, ancient martial arts could actually make those ugly transformed people gradually change?

"Are all the transformed people practicing ancient martial arts?" Ji Feng asked.

"I don't know."

Fan Jianyuan shook his head and said, "Before I left the base, I was the only one undergoing training, the others ..... were still undergoing transformation."

Ji Feng couldn't help but ponder.

Everyone else was undergoing reformation, which meant that many, many Fan Jianyuan might appear in the future, and perhaps even, someone stronger than Fan Jianyuan and more difficult to deal with!

If that's the case .....

"You go on." Ji Feng temporarily suppressed this heart shock in his heart and waved his hand and said.

Then, Fan Jianyuan began to give another account.

However, as he narrated, Ji Feng was more and more alarmed the more he listened, the dynasty was too powerful and too large, because according to Fan Jianyuan, he had until now, surprisingly, still didn't know exactly which base he was in at that time, whether he went in or left, he was in a coma.

Moreover, when he was still in England before he was transformed, but when he last woke up again, he was still in England, but he deduced from the climate and some soil features in the base at that time that it was not actually within the boundaries of England.

This meant that Dynasty had transported Fan Jianyuan from England to the base while he was in a coma. When he finished his training, he knocked him out again and then sent him back to England .....

To be able to transport a large living person to and from the base so easily and without alerting outsiders, this strength alone is enough to say how powerful the Ming Dynasty is.

What's more, there was not just one Fan Jianyuan in the base, there were many, many others who had been captured by the dynasty in the same way!

..... could make such a big move all over the world, yet no one noticed, just to do this is not something that an ordinary power can do, so you can imagine how big and powerful the dynasty really is!

"So you came to China just to infiltrate?" Ji Feng asked.

"No."

Fan Jianyuan shook his head and said, "I came to China to cooperate with the organization's activities and expansion in China, because for a long time, the head of China's work has made the organization somewhat dissatisfied, moreover, the organization's forces in China have been hit hard and their vitality has been greatly damaged, so the organization sent me here to assist the head of China and also to supervise him! "

Ji Feng immediately asked, "Who is the head of China Xia?!"

Fan Jianyuan said, "I don't know his real name, and I haven't seen his real face, I only know that the people of the organization call him Master Wang."

Master Wang!

Ji Feng's eyes flashed with a brilliant light, this was the right number.

The King's Master was the supreme head of the dynasty in China, Qiao Rong and Qiao Gakai of the Qiao family, were both under the King's command, and at that time, Ji Feng had even fought the King head-on, a top expert!

However, with the Chinese military striking hard, the dynasty's power in China had indeed been hit hard, and according to intelligence, for a long time, the dynasty's activities in China had been much curtailed, and none of the organisation's power had been restored yet.

Under such circumstances, it was understandable that the dynasty was dissatisfied with the king.

"You don't know who the King is, so how do you contact him?!" Ji Feng asked in a deep voice.

“Through the newspaper, or through the organisation relaying it!” Fan Jianyuan said.

“Newspaper?!”

Ji Feng frowned, and then sneered, “Heh! It’s really strange that your dynasty, with such an advanced level of technology, still uses such ancient means?”

Fan Jianyuan said, “The older it is, the more useful it is, and it can also serve as a secrecy.”

Ji Feng was instantly silent.

Indeed, sometimes some ancient things were, on the contrary, more reassuring to use than the current tools. For example, the most convenient network nowadays had a big loophole in the military, and some extremely powerful hackers could completely invade the other party’s server through the network and steal some confidential information, or even know the secrets of the other party’s marching formation!

So, at times, radio, which has often been retired from the stage of time, has become the most secure means of communication!

Like now, for example, who would have thought that the members of the dynasty’s organisation are still using newspaper messages to communicate with each other?!

## Campus Master Chapter 2742 -

Fan Jianyuan’s explanation gave Ji Feng a deep sense of alarm.

The kingdom’s methods were simply too complicated and changeable, and it was fortunate that the state had stepped in, otherwise, it would be a nightmare to stop or defeat the dynasty just by relying on individuals alone.

“When you came to China this time, besides assisting the king, do you have other tasks?” Ji Feng asked.

“There’s also spying on him!” Fan Jianyuan said, “The organization found out that the king seems to have signs of submissiveness towards the orders given by the organization, so they sent me to spy on him.”

“You’ve already said that.” Ji Feng said in a deep voice, “What I’m asking about is the other mission!”

Fan Jianyuan was silent.

“What, not willing to say?” Ji Feng frowned, “Don’t tell me that you don’t have any other missions. The robbery at the International Convention and Exhibition Center, doesn’t it have anything to do with you?”

“..... has something to do with it.” Fan Jianyuan hesitated for a moment, but still admitted, “This robbery was an order from the king to cooperate!”

“Why did the king organize this robbery?!” Ji Feng immediately asked. In his heart, he said, “I never thought that the jewellery robbery at the convention centre was related to the king, something he hadn’t thought of before.

“The king said that this jewellery exhibition was attended by some famous merchants from all over the world, so if a big event was staged here, it would definitely cause a shock, and at the same time, it would cause a big impact on China and make the top echelons of China passive, so that the attention of China would be shifted to this robbery and less attention would be paid to the dynasty.”

When Ji Feng smiled, he couldn’t help but snort coldly, “Humph! It’s really a good plan, but isn’t the king a bit whimsical, how can a robbery case divert all eyes to it? Do you think everyone else is a fool?”

There was more than just one department in China, and investigating a jewellery robbery did not require all departments to be involved; a case, even a big one that shook the world, would pale into insignificance compared to national security.

Therefore, the top brass of China would definitely put the internal and external threats first, so the top brass would never give up on the pursuit of the dynasty!

Fan Jianyuan immediately said, “That’s what I think too.”

Ji Feng immediately glanced at him and did not say anything.

Fan Jianyuan said, “Really. I think that Master Wang isn’t actually doing this just to discredit China, he has other purposes.”

“Oh?”

Ji Feng sneered, “Then tell me, what other purposes does the king have?”

Fan Jianyuan said, “When I was here, Lord Luo Qiu told me that the king showed some signs of being masculine and submissive to the organization’s orders, and in order to restrict him, the organization has now started to tighten the funding for the king’s activities as well as those of his men in China, and the king is actually doing this to raise funds!”

When Ji Feng heard this, a cold light flashed in his eyes: “Raising funds? That’s ridiculous! In order to raise funds, you can kill people recklessly? You can just .....

He gritted his teeth and didn’t say any more.

Because he knew that with the dynasty’s style of action, the jewel robbery was really nothing, to know that the dynasty could freely capture people to do such cruel and perverted things as human transformation, what could killing a few people be considered?

I’m afraid that in the process of transforming people, accidental death is a common thing, after all, it is to replace the flesh and bones of the human body, this is absolutely a big project, if there are no accidents is strange.

However, Ji Feng knew this, yet he still could not accept it somewhat.

It was too cruel!

Just to raise funds, to put it bluntly, for the sake of money, the king could kill so recklessly, simply not taking other people’s lives seriously.

“Those bandits are all your people?!” Ji Feng asked.

“No, those people are all mercenaries that Master Wang hired from abroad.” Fan Jianyuan said, “I was in charge of receiving them, but they didn’t know me either, they just knew I was there.”

Ji Feng didn’t move, but in his heart, he had quietly compared what Fan Jianyuan said with the conclusions reached by the military and police investigations, and it was proven that Fan Jianyuan at least wasn’t telling lies in this matter. In particular, he said that those mercenaries knew that he was at the scene.

Because at that time, Ji Feng had seen with his own eyes that the boss of those bandits was caught by him, and as a result, the other mercenaries even vaguely wanted to make a move, that clearly meant that there was another mastermind, and they might have foreseen this possibility before this, so they had made arrangements long ago, or it was another mastermind who was at the scene and was secretly in command.

This suspicion was also confirmed from Fan Jianyuan’s mouth, and it was indeed he who was secretly in command at that time.

“If it was a jewellery robbery, then why did you shoot me again?!” Ji Feng did not ask if it was Fan Jianyuan who fired the gun, but directly asked why he was shot at.

Because ever since he found out that Fan Jianyuan had that pocket pistol, Ji Feng was completely sure that it was Fan Jianyuan who shot him!

“.....”

Hearing this question from Ji Feng, Fan Jianyuan couldn’t help but hesitate a little, especially when he saw Ji Feng’s cold eyes, which made him even more stressed.

“Say!”

Ji Feng’s voice was not loud, just a faint word, yet in Fan Jianyuan’s ears, there was a feeling of heavy drums beating loudly.

He immediately said, “It was arranged by the king!”

“Bullshit!”

Ji Feng immediately bellowed, “You still dare to be slick with me now? The king arranged this? How did he know that I would go to the convention centre? And how did he know that I would be there at the time of the robbery?!”

Fan Jianyuan was busy saying, “No ..... he didn’t ask me to shoot you at the convention centre, but before I came to Jiangzhou, the king ordered me to find an opportunity to kill you!”

“Hmm?!”

Ji Feng instantly narrowed his eyes, “Kill me?!”

Fan Jianyuan nodded and said, “That’s right, the king said that you are the organization’s great enemy in life and death, a big problem in the heart, if I could get rid of you, it would be like getting rid of a big pest for the organization ..... I took advantage of the chaos that day, and it just so happened that I was behind you, so I wanted to take that opportunity to ..... to kill you.”

“Heh!”

Ji Feng snorted: “It’s really hard for you, it hasn’t been a short time since you returned to Jiangzhou, right? Holding back until that time to make your move didn’t suffocate you, did it?”

Fan Jianyuan’s face turned red at the comment, but he didn’t dare to argue, nor could he.

王爷 .....

Ji Feng repeatedly recited this name in his heart, but his eyes were getting colder and colder, giving Fan Jianyuan an unpleasant feeling.

It looks like the king hates himself to the bone then!

Ji Feng secretly coldly hummed, so to speak, at the time in Rice, that shot of his own, I’m afraid, had caused a lot of damage to the little prince, carefully counted, the little prince in his own hands was really destroyed, it is no wonder that the king would hate himself so much.

But in a flash, Ji Feng put all this aside.

So what if the prince hated himself? Why did he not want to capture the king himself?

Since that was the case, then let’s see who has a bit more luck next and who can have the last laugh!

“Is there anything else to say?” Ji Feng asked again.

Fan Jianyuan then began to continue to give an honest account, because his psychological defences had completely collapsed, not to mention his dignity and backbone, so Fan Jianyuan seemed to have a feeling of breaking his jar, and told all he knew in detail, and even this was for over an hour.

By the time Fan finished, Ji Feng’s phone was already sounding the low battery alarm.

He picked up the phone and looked at it, glanced at Fan Jian Yuan again and said, “Is that all? Is there anything else to say?”

Fan Jianyuan said, “That’s all I can think of for now.”

Ji Feng narrowed his eyes and said coldly, “Fan Jianyuan, you’d better think of some more, the military will be here soon, if you give the same old explanation later, without something new, then I’m afraid your life won’t be too easy!”

Fan Jian Yuan immediately said sharply, “You promised me that if I said so, I wouldn’t be treated badly!”

“What more VIP treatment do you want?!”

Ji Feng sneered, "The military is already doing you justice by not letting you be sent to be sliced and studied for the time being, you still want to be released?!"

Fan Jianyuan then couldn't help but choke. Of course he knew that with his status, now that he had been caught, he naturally would not be released easily, but as long as one is human, there is always a little extravagant hope in one's heart, but seeing Ji Feng's cold face, Fan Jian Yuan could only forcefully suppress the extravagant hope in his heart and cooperate honestly.

"Buzz~"

Just at this moment, Ji Feng's mobile phone suddenly vibrated, he looked at it and said, "Fan Jianyuan, you don't have much time to think about it, the people from the military who are specifically responsible for dealing with you, have arrived ....."

As he spoke, he glanced at Fan Jianyuan, whose face had already changed colour, turned around and walked out of the room, picking up the phone, "Little Uncle, have you arrived?"

Ji Feng met his younger uncle in the office of a chief of the Jiangzhou military district, with Ji Zhenping's current rank and weight, he came here at least to be received personally by a leader of considerable weight in the military district, only because he came with a secret mission this time, so he didn't make too much noise, the Jiangzhou military district was just a chief who stepped in.

After a brief greeting, the military chief smiled and said, "You guys chat, if you need anything, just inform the soldiers standing guard outside directly."

Ji Zhenping was not too polite, and his military style of competence made him say immediately after saluting and shaking hands with the military chief, "Little Feng, are you sure that the person you arrested is from Dynasty?"

After hearing Ji Feng's report, Ji Zhenping almost didn't say a word, and after a brief communication and coordination, he immediately rushed over with his men without stopping, but now the first thing to determine was whether the one captured was a reformer or not!

Ji Feng nodded and said, "One hundred percent sure, he is a reformer, and, moreover, one that has never appeared before, a rather advanced reformer!"

"Oh?"

Ji Zhenping asked, "A reformer that has never appeared before?"

## Campus Master Chapter 2743 -

Ji Feng nodded slowly, then took out his phone and said, "Little Uncle, just take a look at this."

"What is this?"

Ji Zhenping asked suspiciously, and just as his words fell, Ji Feng's conversation with Fan Jianyuan came from his phone, "This is ....."

"This is the video from when I interrogated Fan Jianyuan!" Ji Feng said.

"I'll take a look."

Once Ji Zhenping heard this, he immediately picked up the phone.

A moment later, Ji Zhenping's expression changed, and he asked with a grave expression, "Little Feng, is this true?"

If the video was true, the nature of this would be really serious, because it meant that the dynasty's strength would be enhanced once again, and more importantly, from now on, the reformers would be defenceless.

Especially when Fan Jian Yuan said that the more he practiced ancient martial arts, the closer his body became to normal and, moreover, the stronger he became, this could really shock even Ji Zhen Ping!

Even the army has been emphasising the need to increase the warrior's ability to fight alone, not only in terms of equipment and weapons, but also in terms of physical ability and skills, as well as in all aspects of close-quarters combat.

That is why there are still a large number of martial arts masters working as instructors in the army, and this is to enhance the warrior's ability to fight alone.

But it is conceivable that even if the warriors in the army practise with martial arts masters, it is extremely limited, for a number of reasons.

On the other hand, the martial arts taught by instructors are basically suitable for most people to learn, so few people can learn the instructor's skills, and even if they do, they are very few fighters, and such fighters are precious even in the special forces.

However, the dynasty has no such restrictions!

The physical quality and strength of the dynasty's reformers were already very perverse, even if the special forces' warriors were to face those reformers, they would be no match for the reformers if they did not use weapons, not to mention the ordinary warriors.

And now, those transformers have even practiced martial arts .....

If this goes on, it's hard to imagine what the consequences will be!

It's no wonder that Ji Zhenping was so shocked when he saw the video, because it meant that the dynasty had gone from being a huge threat to being a formidable enemy!

"The person is now being held in the interrogation room, and I've finished interrogating them." Ji Feng said.

"Go!"

Without saying a word, Ji Zhenping casually picked up his military cap and headed out, and Ji Feng immediately followed in a big no.

With the person sent by that military chief following them, they naturally had unhindered access here, not to mention that just with Ji Zhenping's uniform and shoulder epaulettes, no one dared to come up and question them, unless they had to show their documents or do certain checks when walking to certain posts or gates. But with that little soldier following, and with that warrant from the head of the military district, none of this was a problem.

The two soon arrived at the interrogation room and met Fan Jianyuan.

At this moment, Fan Jianyuan was still in a coma, but Ji Feng knew his strength, so naturally he would not let him stay awake, so when he went out to greet Ji Zhenping, he had already knocked Fan Jianyuan out once again!

"This is ....."

When Ji Zhenping saw that one of Fan Jianyuan's hands was drooping and there were some broken pieces of metal on the ground, he couldn't help but frown.

Ji Feng said, "This guy is quite powerful, these things can't restrain him at all, he can easily break it off."

Ji Zhenping nodded slowly, but his expression became even more grave.

He knew very well that everything in this interrogation room was actually specially made, including these handcuffs, which had some rare elements added to them, making the metal tougher and more durable, far from being comparable to the handcuffs used by ordinary police officers, but he didn't expect that this person could easily break them.

Just from that alone, it was enough to see how strong he really was.

"Well~"

Ji Feng slapped the back of Fan Jianyuan's neck, and the latter's body stiffened and shook violently for a few seconds before his eyes suddenly opened with a swish.

When Fan Jianyuan saw that it was Ji Feng, he seemed to suddenly remember his situation and suddenly his face changed slightly for a few times, but he didn't say a word.

"Did you sleep comfortably?" Ji Feng asked.

"....."

Facing this humiliation from Ji Feng, Fan Jianyuan could only choose to be silent, otherwise what else could he say? Could he say, "I'm not sleeping, but I've been made unconscious by you ....." that could only be more humiliating.

Ji Zhenping stared at Fan Jianyuan carefully and asked in a deep voice, "Are you a reformer?"

Fan Jianyuan opened his mouth for a moment before saying, "I'm a super soldier!"

Transformer, this name was too much for him, hearing this name made him feel as if he was a monster, which was why he insisted on using the organization's name, Super Soldier.

Ji Zhenping nodded slowly, he naturally would not argue with Fan Jianyuan on this issue, he just said, "What you said before is true?"

"Yes."

Fan Jianyuan said.

Ji Zhenping asked in a deep voice, "Do you have anything else to add?"

Fan Jianyuan glanced at Ji Feng and said, "He promised me that he would guarantee my treatment ....."

"Don't you steal the concept!"

Ji Feng directly interrupted him and coldly snorted, "I just said that if you didn't say anything, you would be sent for slicing research in eight out of ten`nine cases, and if you cooperated, you might end up differently, but I didn't say that I would definitely guarantee your treatment."

Fan Jianyuan's face suddenly changed at his words and he said angrily, "You lied to me?"

"He didn't lie to you!"

Ji Zhenping said, "It's true that he doesn't have the power to decide whether you live or die and what happens to you, but I do have that power."

Fan Jianyuan froze for a moment, and then he reacted and immediately said, "Then you assure me that I have cooperated fully ....."

Ji Zhenping said, "If you can really guarantee that you will fully cooperate with us, I can guarantee that you will not be treated too badly!"

Fan Jianyuan instantly said without hesitation, "I can guarantee it."

"But I want to make an ugly statement up front!"

Ji Zhenping said, "The guarantee of your treatment I mentioned does not include letting you go! You should understand what your own status is, and you should also be clear about what you have done, so many people died at the Jiangzhou Jewellery Fair, they cannot die in vain, and you should not continue to live happily!"

Fan Jianyuan then froze.

Ji Zhenping, however, ignored his reaction and said, "Of course, you can also choose not to cooperate, that's fine, I will hand you over to other departments, but in that case, I won't guarantee how you will be treated."

"....."

Fan Jianyuan asked with difficulty, "I want to know, what is the best condition you can guarantee me?"

Ji Zhenping said, "This, depends on your level of cooperation, I have already told you my bottom line, next, what kind of treatment you can get will depend on your performance. If you can cooperate with us in capturing the king, then your guilt can be mitigated by at least a large margin, and if you can take credit for destroying the dynasty, it is not impossible to consider giving you better treatment!"

When Fan Jianyuan heard this, he was not the least bit happy, he just gave a smile that was more embarrassing than crying and nodded slowly.

Catching the king?

Fan Jianyuan laughed bitterly in his heart, was the king really that easy to catch? Even the organization internally can only put restrictions on the king and send people to monitor him, they don't dare to move him easily, let alone you guys?

As for destroying the dynasty .....

Fan Jianyuan simply ignored this statement, as it was simply impossible to achieve.

"It seems that you are not too happy about it?" Ji Zhenping frowned.

"No."

Fan Jianyuan said bitterly, "You guys simply don't understand how powerful the dynasty really is, all I've seen is just the tip of the iceberg and it already makes me feel deeply scared, you guys want to destroy the dynasty ....."

He slowly shook his head and did not continue.

Ji Zhenping nodded, and did not debate with him, but said, "Whether it can be done or not, this is our business, all you have to do is just cooperate."

Fan Jian Yuan could only nod, but in his heart he could not help but wail, it seemed that in this life, I was afraid that I would have no hope of freedom.

Next, Ji Zhenping prepared to take Fan Jian Yuan back to Yanjing.

"Fan Jianyuan, bear with me, I may have to condescend to you a little!" Ji Feng said.

"..... What do you want?" Fan Jianyuan had an unpleasant feeling.

"You're too strong, I'm a bit unsure about letting you go like this, so I have to do a little measure on you!" Ji Feng said.

Fan Jianyuan's eyes widened at once and he said, rather alarmed, "You promised me ....."

"Poof~"

In the next moment, a splash of blood splattered on Fan Jianyuan's wrist, and he abruptly stiffened his body, "Well ....."

His hamstring, raw, was picked by Ji Feng.

However, he didn't show too much pain and there wasn't much blood flowing out of his wrist, but the panic in Fan Jianyuan's heart was unstoppable.

"Pffffff!"

Another three consecutive strokes, when Ji Feng put away the dagger he was carrying, Fan Jian Yuan's limbs had all been nullified!

Looking at Fan Jianyuan's shocked and angry gaze, Ji Feng sneered, "These few strokes are considered to collect some interest for those people you killed first!"

"....."

In a state filled with horror and anger, Fan Jianyuan was sent to the plane.

Ji Feng said, "Little Uncle, I suspect that this guy should not be telling the whole truth, moreover, he knows how to contact the king, can't we take advantage of this opportunity ....."

Ji Zhenping nodded and said, "Don't worry, all these problems will be solved and are under consideration, what I want to tell you now is another matter."

## Campus Master Chapter 2744 -

Ji Feng looked at Ji Zhenping and asked, "Little Uncle, what else is going on?"

"This matter ....."

Ji Zhenping seemed a little hesitant and pondered for a moment before he said, "The matter of Xiang Yongzhan leading a team to fight abroad, you know about it, right?"

"Know!" Ji Feng nodded his head.

Of course he knew about this matter, because the vast majority of the bandits in the robbery case at the jewellery exhibition at the Jiangzhou International Convention and Exhibition Center were mercenaries, these people were all affiliated with a mercenary group outside of China, they were vicious, and their methods were ruthless, they didn't even blink when they killed people, that is, they, shot and killed people recklessly at the convention centre!

The brutal behaviour of these mercenaries shocked the whole of China, and even caused a lot of shock internationally, and made the military and the top brass furious.

So, the military decided to strike back strongly! So Xiang Yongzhan set off with his team, and all he had to do was to strike straight at the yellow dragon and strike hard against that mercenary group.

"Little Uncle, is it that Xiang Yongzhan's operation is not going well?" Ji Feng realised something and couldn't help but ask. Although it was said that Xiang Yongzhan had not set off for long, but, this kind of retaliatory operation was heavy on swiftness, after all, it was an offshore operation, if the action was not fast enough, maybe certain hostile forces would play tricks in the middle.

So it is reasonable to say that if the operation went well, Xiang Yongzhan should probably be back by now, but there is no news from Xiang Yongzhan yet, so Ji Feng guessed that perhaps Xiang Yongzhan had encountered some difficulties during the operation.

Ji Zhenping nodded slowly and said, "There are difficulties, after all, it is the first time that the Chinese army has gone out of the country and fought outside the country, there are too many unpredictable difficulties and dangers, however, Xiang Yongzhan is very good, and the operation is still going well."

Ji Feng's spirit immediately shook, "So, that mercenary group was exterminated?"

However, Ji Zhenping shook his head and said, "No."

"Then ....."

"The nature of these mercenaries dictates that they won't all gather in the same place at the same time, and when the operation to Yong War took place, some of these mercenaries weren't there, which, among others, included the leader of the mercenary group." Ji Zhenping said.

"That is to say, Xiang Yongzhan failed to do all the work in this battle, there was a leak?" Ji Feng frowned and said.

"That's right!"

Ji Zhenping nodded and said, "A small number of these mercenaries were out on a mission at the time and were not at their garrison."

Ji Feng immediately asked, "Can't we continue to hunt them down?"

"Of course the chase should continue!"

Ji Zhenping said, "However, it would be somewhat inappropriate to go after them with Xiang Yongzhan's team again."

Ji Feng nodded, indeed, the special warfare brigade led by Xiang Yongzhan was one of the few most elite special forces in China, and special forces for a country's army were among the forces that reacted quickly and dealt with crises and difficult tasks, always using special forces to chase and kill those mercenaries was a bit too big for their own good.

"In fact, this battle commanded by Xiang Yongzhan is already a heavy punch, and has completely served to deter those curmudgeons, so there's no need to continue!"

Ji Zhenping said, "Besides, the symbolic significance of this battle is more important than the actual battle results achieved."

"Eh?"

Ji Feng was slightly stunned.

Ji Zhenping said, "How many years has it been, the Chinese army has not even come out to have a cross-country operation!"

When Ji Feng smiled, he instantly understood, and was coolly enlightened.

That's right!

Ever since the founding of the country, except for those few battles where they were bullied at the doorstep and had to take action, China's army had almost never gone out of the country, and compared to Rice, a superpower that was almost equivalent to the world's police, China's army seemed to be too weak.

So much so that, in the eyes of many people, China is also weak and bullyable. Any dog or cat can molest China a few times, harass us and play hooligans, but we can do nothing but protest and protest again.

Even if we do take action, it is in the dark and cannot be brought out in the open.

This time, for example, a small mercenary group dared to provoke China, armed robbery and wanton killing at such a major event in China, not putting China in its eyes at all.

At this time, I don't know how many people and countries are waiting to see the joke of China, and even some small countries are jumping up and down even more, in this situation, China must show its sword, and that mercenary group, but it gives China a perfect opportunity.

Although almost every mercenary group has the shadow of a certain country behind it, at least on the surface no one can say anything, because in this matter, China occupies the height of moral righteousness.

And so, for the first time, China's army, led by Xiang Yongzhan, stepped out of the country!

Although there was certainly a high degree of secrecy during the operation, when Xiang Yongzhan gave the order, the special operations brigade bravely swooped down on that mercenary group's compound and struck hard, ending with the annihilation of a large part of it, it also meant that China made a strong appearance in the world!

And that, that's what counts!

"Well done Xiang Yongzhan!" Even with Ji Feng's composure, the thought of this made his blood boil, even though he was still a young man, he naturally had the bloodlust of a young man and the same fervour of his peers.

When he heard this news at this time, he was naturally very excited.

"It's just a pity that the leader of the mercenary group was allowed to get away." Ji Feng was more or less regretful, "If we could have wiped out that mercenary group in one battle, that would have been perfect!"

"It's normal for accidents to occur during battles, the opportunity to fight is fleeting, the enemy won't wait for you to annihilate them!" Ji Zhenping looked at it lightly, back then in the self-defence counter-attack war, there were many such accidents, he had long looked at it lightly, "It's just that the problem lies in this group of missed fish."

Ji Feng suddenly faintly stared, "What do you mean?"

Ji Zhenping said, "Actually, there are two problems now, firstly, there are people who don't want to see the rise of China, so Xiang Yongzhan and the others will have no less trouble on their way back, and they might even be in danger! Secondly, there is this group of fish that have slipped through the net. According to the intelligence, the leader of that mercenary group, after learning that his mercenary group was destroyed, threatened to take the most brutal revenge on China!"

"Humph!"

Ji Feng sneered, "It's a joke, cruel retaliation? Aren't they afraid of being blocked again and wiping them all out at once?!"

"They're afraid!"

Ji Zhenping said, "So, they chose a safe place so that China's army could definitely not reach them, much less make another surprise attack on them!"

Ji Feng frowned slightly, "A safe place? Rice? Or Kepong? Or ....."

"Treasure Island!"

Ji Zhenping said.

Ji Feng froze for a moment, and then he couldn't help but be stunned: "Treasure Island? These sons of bitches ..... they really know how to choose places!"

The two sides were able to open up the air to each other, which was already an agreement reached only after the top brass had made great efforts, as for sending troops to round up those bandits .....

The actual fact is that it's not even necessary to think about it, it's absolutely impossible!

What makes Ji Feng a bit annoyed is that there is obviously some reason why these people chose to go to Treasure Island, there are some people on Treasure Island itself who are closer to Kepong, they can't wait to see the jokes of China, so these people are afraid that they will support those humongous bandits.

At the same time, what is more important is that Treasure Island is just such a short distance from the mainland, and in knowing that those humongous bandits are right next to them, but hard enough not to be able to do anything to them, instead they might even take the so-called 'cruel revenge' on China, which is really a bit nauseating.

At this time, Ji Feng suddenly understood why Little Uncle would say that it was not realistic to continue to let Xiang Yongzhan and the others go after those humongous bandits, it was certainly not realistic for the mainland's special forces to go to Treasure Island to conduct military operations!

It's like two neighbours who have a problem in their hearts, or even a disagreement between them, but you have to go and pick a fight on their turf with a chopper, which is obviously impossible.

"These sons of bitches, they don't want to go to these places, but they want to go to Treasure Island, they really have no fear!" Ji Feng laughed coldly.

"It's obvious!"

Ji Zhenping said, "I'm afraid that they are going to Treasure Island for the convenience of their actions, since they want to retaliate against us, they have to do something. As for whether they have any other purposes, it is unknown for the time being."

Ji Feng frowned and said, "Little Uncle, then the top is just going to watch and do nothing?"

Ji Zhenping shook his head and said, "What we can do is very limited."

"But ....."

"That's why I happened to think of you." Ji Zhenping said.

"Me?"

Ji Feng was a bit puzzled, "What can I do?"

Ji Zhenping said, "Because by your side, there are mercenaries, and if you want to deal with those humongous bandits, there is nothing better than mercenaries!"

Ji Feng immediately dawned on him, "Little Uncle, you mean to say that you want to hire people to deal with those leaking fish?"

"That's right." Ji Zhenping nodded his head.

"This is a good solution, but ....." Ji Feng hesitated, "But Yi Xingchen and the others have long since stopped working as mercenaries, and if they enter Treasure Island, won't they attract the attention of the relevant authorities on Treasure Island?"

"Not to let them go, but to let them introduce a few reliable mercenary groups!" Ji Zhenping said, "Let the mercenaries do the job, even if the whole world knows that we hired them, no one else can say anything!"

## Campus Master Chapter 2745 -

"That's no problem!"

Ji Feng immediately nodded and said, Yi Xingchen used to be the leader of a mercenary group, so he naturally knew people from other mercenary groups as well, and he definitely knew better than a layman which mercenary group had real material and which one was just a vain name!

What's more, I'm afraid that Yi Xingchen's knowledge of these mercenary groups is no worse than China's intelligence department, especially as to whether there are shadows of other countries behind those mercenary groups, I believe Yi Xingchen must be very clear about all of them, and Ji Feng had heard him mention them before, so it would definitely not be a problem to let Yi Xingchen introduce a few mercenary groups.

"Little Uncle, won't the Treasure Island side say anything about letting mercenaries go against those humongous bandits?" Ji Feng asked.

“What can they say?”

Ji Zhenping said, “With so many humongous bandits suddenly pouring into Treasure Island, isn’t there any threat to the local security and society? Most of those mercenaries are tigers and wolves who are licking blood from the mouth of a sword, so how could they be peaceful? Now that we have hired people to exterminate those humongous bandits, what can the authorities on Treasure Island say?”

Ji Feng said, “But there are always exceptions to everything, especially, there is very much a group of people with bad intentions in Treasure Island .....

“Those people will not be short-sighted to such an extent, they should not protect those humongous bandits even if they are against the mainland.” Ji Zhenping said.

“But ..... what if they really do?” Ji Feng asked.

“Then what’s left for them to fear?” Ji Zhenping asked rhetorically.

Ji Feng froze, and then he smiled.

Yes, if certain people were so short-sighted as to secretly support those bandits who were a huge threat to the local area of Treasure Island just for the sake of opposing the mainland, then these people would simply oppose for the sake of opposing, without the slightest idea of right and wrong.

What is there to fear from such people? They are not destined for the long run!

“Little Uncle, don’t worry, I’ll contact Yi Xingchen later.” Ji Feng said, “As for those humongous bandits, no matter how crazy they are, they can’t always withstand a mercenary group’s siege.”

“You can’t be careless!”

Ji Zhenping reminded, “The so-called trapped beast is still fighting, the more cautious you are at this time, it is the wounded beast that is the most terrifying. Therefore, you have to ask your people to introduce a mercenary group that is overly strong.”

Ji Feng immediately said, “That’s fine, if one mercenary group doesn’t work, then two, if two doesn’t work then three! Until these bastards are eliminated!”

The behaviour of those humongous bandits at the convention centre made Ji Feng feel a surge of anger even now when he thought about it. In the eyes of those people, it seemed that other people’s lives were like straw and mustard, and they killed whenever they wanted to in order to achieve their goals, just like killing a chicken and slaughtering a sheep, which was inhumane.

In Ji Feng’s view, the kind of ferocity of these brigands was not even less than that of a dynasty!

Even if it were possible, Ji Feng would like to personally lead a team to exterminate these bastards! When he thought that Xiang Yongzhan could lead his team for 10,000 miles and fight cross-country with a heavy hand, wiping out most of the bandits in one fell swoop, Ji Feng couldn’t help but feel his blood boiling!

However, the reality was that it was not allowed, so Ji Feng could only do his best to exterminate the bandits through other means!

Ji Zhenping patted him on the shoulder and said, “Kid, work hard, the country is now in an eventful period, many people do not want to see the rise of China, so they try every possible way to cause trouble, or even to besiege us, at this time, a breakthrough in any direction is of great significance. Tengfei Group’s products, now have a certain market in the world, to seize this opportunity, to expand the influence as much as possible, at least, do not let people say that China is a place full of demons when they mention it!”

Ji Feng could not help but nod at his words and said, “Little Uncle, don’t worry, I dare not say much about anything else, the products of the Tengfei Group will definitely open up the international market completely!”

He did not promise any grand words, but, in his heart, he was secretly deciding that one day, he would make sure that wherever there were people in this world, there would be products from the Tengfei Group.

And with the products, the influence of China!

That, too, was just one of his goals!

“Alright, go back, it’s better to ask this kind of thing face to face.” Ji Zhenping said.

“Then I’ll bring him over directly and let him talk to you face to face.” Ji Feng said.

“That’s fine.” Ji Zhenping nodded his head.

.....

“Ji Feng isn’t here?”

Standing at the villa’s front door, looking at the tightly closed iron gate, Li Ruonan’s face was a little pale. The door was tightly closed and there was no response even when the doorbell was pressed, it looked like no one should be at home.

Li Ruonan could not help but purse her lips and stood hesitantly at the door.

Her heart had an indescribable complex feeling, especially when she thought of the way Ji Feng looked at her when he was leaving, full of disappointment and helplessness, Li Ruonan’s heart felt as if something had grabbed her, and it hurt unbearably.

Ji Feng, it must be very hard in his heart, right?

If she could do it all over again, Li Ruo Nan would never say those words again, let alone say anything to arrest Ji Feng.

But now, it was all too late.

She just hurried back to the city bureau and reported to the leaders about what happened near the airport, and then, regardless of how the leaders dealt with it, she hurriedly came to Ji Feng.

In fact, she didn't know why she came to find Ji Feng, or, for that matter, what she was looking for in Ji Feng.

She came to explain to him that she said those things just because she was angry?

But why was she angry?

Li Ruonan couldn't answer, she herself knew very well that she was angry because she felt that Ji Feng was taking personal revenge on Fan Jianyuan and was bullying others.

But what about this in Ji Feng's view? Could it be that he thought she was taking sides with Fan Jianyuan?

Even though she didn't know what to say, Li Ruo Nan still came, and she didn't know what to say in excess, she just wished she could say sorry to Ji Feng herself, but now, Ji Feng didn't seem to give her that chance.

Li Ruonan hesitated, and after hesitating for a while, she still took out her mobile phone and dialed Ji Feng's number, she secretly decided in her heart that she had to apologise whether Ji Feng was still angry or not.

"Sorry, the number you have dialed is not in the service area ....."

However, the voice coming from the phone, as always, made Li Ruonan's heart feel even harder. In fact, after coming out of the police station, Li Ruonan had called Ji Feng several times along the way, but she had never been able to get through.

She felt that Ji Feng must not want to answer his own calls.

After biting her lip, Li Ruo Nan dialed another number and soon the call was answered, and a charming voice came from the phone: "Ruo Nan? Why did you suddenly remember to call me?"

"Yu Xuan ....."

Li Ruo Nan hesitated for a moment before finally saying, "I have something to find Ji Feng, but now I can't find him, do you know where he is?"

At the other end of the phone, Xiao Yuxuan couldn't help but faintly froze at his words and said, "Can't find him? Then you can call his phone number."

"I did, but the voice prompt kept saying that it was not in the service area, so that's why I asked if you knew where he was, or if he had another phone number?" Li Ruonan said.

"Can't reach him? That's strange!" Xiao Yuxuan said, "He only has that one number, and no matter what situation he encounters, he will keep it open, how come now ....." you wait, I will call again."

"Mm."

Li Ruonan nodded.

However a moment later, Xiao Yuxuan's call came: "Ruo Nan, I can't get through either, but I called Bai Zhu's phone, Ji Feng is in the military area right now, it's not convenient to answer the phone, why don't you call again some time later?"

"This ....."

"Are you looking for him for something urgent?" Hearing Li Ruonan's hesitation, Xiao Yuxuan couldn't help but say, "If you have an urgent matter, I'll let Bai Zhu go find him."

"Ah! No need no need."

Li Ruonan hurriedly said, "It's not a big deal for me to find him, it's just about the case of the convention centre, yes, it's about that case, I want to talk to him, since I can't find him now, then I'll talk to him tomorrow."

Xiao Yuxuan was relieved to hear her say this and said, "That's fine. Ruo Nan, I find that you're so focused on your work, it's not good."

Li Ruonan's cheeks flushed as she heard this and said, "Don't laugh at me."

"I'm not laughing at you, I'm concerned about you as a friend!" Xiao Yuxuan laughed lightly, "Let's do this, we haven't seen each other for a long time, let's get together someday when we have time."

"Hmm. Okay." Li Ruonan nodded absentmindedly.

"That's all for now then, I still have some things on my hands, keep in touch." Xiao Yuxuan smiled lightly.

"Okay, you get busy first then."

"Bye bye ....."

After closing the line, Li Ruonan couldn't help but purse her lips, her heart had a hint of indescribable feeling, somehow, when she heard Xiao Yuxuan's soft light laugh, she couldn't help but imagine the kind of casualness and warmth Xiao Yuxuan had when talking about Ji Feng.

When she couldn't find Ji Feng herself, didn't she have to call Xiao Yuxuan?

And yet Xiao Yuxuan had countless ways to find him!

But herself .....

The actual fact is that you can't be sure that you're going to be able to find the right person in time, even if you have something to do with it, right?

The moment I thought of this, Li Ruo Nan couldn't help but feel bad.

However, at this time, Ji Feng was at the gate of the military area and got into the car, while lifting the blocked mobile phone, before having to enter the military restricted area, communication tools naturally cannot be carried, even just as soon as they enter the important area, the mobile phone will be blocked, except for the special communication tools of the military, other communication tools cannot be used.

“Master, go to the Tengfei Group.” Ji Feng said, at the same time, he casually dialed Bai Zhu’s number, “Hey, Bai Zhu, what’s the situation with Qin Feiyu?”

## Campus Master Chapter 2746 -

“Qin Feiyu’s throat is injured and his cervical vertebrae are misaligned, the doctor said that if it gets a little more serious, Qin Feiyu’s bones might break completely, and he might die on the spot then, or be in a wheelchair for the rest of his life!” Bai Zhu said.

Even though Ji Feng had long known that Qin Feiyu was not lightly injured, when he heard the news, he still couldn’t help but curse angrily, “Son of a bitch Fan Jianyuan!”

With Qin Feiyu’s strength, he almost lost his life at Fan Jianyuan’s hands in just a few moments, which showed how ruthless Fan Jianyuan was.

Bai Zhu said, “It’s lucky that Fan Jian Yuan didn’t dare to move his gun for fear of making too much noise, otherwise, Qin Feiyu would have been dead by now!”

If Fan Jian Yuan hadn’t chosen to kill Qin Feiyu with his bare hands instead of saying a few harsh words, Qin Feiyu would have been killed by now.

Ji Feng coldly snorted, “Fan Jianyuan was too confident in his own strength and didn’t know we were following behind, otherwise, with his ruthlessness he would have chosen to use the dagger directly instead of trying to break Qin Feiyu’s neck with his bare hands!”

Bai Zhu couldn’t help but nod silently.

Ji Feng said, “Bai Zhu, you must be doubly careful in future operations, never be careless, now that reformers can reach this point, who knows how many more people like Fan Jianyuan are out there, if you encounter them, you must strike them dead on the spot, or else we will be the ones to suffer.”

“Mm, I remember.” Bai Zhu nodded.

“Alright, tell Qin Feiyu to turn around and I’ll go see him when I can find the time, so he can recuperate at ease.” Ji Feng said, “You come back.”

“Yes.” Bai Zhu nodded.

“By the way, Old Yi has left, right?” Ji Feng asked.

“Captain Yi has already left.” Bai Zhu said, “But he left someone here to protect Qin Feiyu.”

“Hmm, that’s good.” Ji Feng nodded his head.

When he hung up the phone, Ji Feng suddenly saw that taxi driver’s stunned expression, and he couldn’t help but smile slightly, it looked like the conversation between himself and Bai Zhu had scared this driver master quite a bit.

When he came to Tengfei Group, Ji Feng first went to Xiao Yuxuan’s office, only to learn that Li Ruonan had approached him.

“Your phone couldn’t be reached, and she ended up calling me here, saying that she wanted to talk to you about the case of the Exhibition Centre.” Xiao Yuxuan said.

“I know.” Ji Feng nodded his head.

Xiao Yuxuan, however, looked at him with some suspicion and said, “Ji Feng, why do I see that you seem a bit distracted, is there something wrong?”

In the company or in public, she had always called Ji Feng by his first name, and only at home or when it was just the two of them, she would playfully call Ji Feng a little rascal.

Ji Feng just shook his head at his words and said, “It’s nothing, it’s just that something came up today.”

In reality things were naturally not as simple as he said, he was actually distracted only because he knew that of course Li Ruonan could not be looking for him for something as simple as talking to him about the convention centre case, I’m afraid, it was still about Fan Jianyuan’s matter.

So Ji Feng put it behind him straight away after listening to it and didn’t take it to heart at all.

Now that Fan Jianyuan had been confirmed to be a reformer, and a most advanced reformer at that, it was useless for anyone to intercede at this time.

In fact, the moment he brought Fan Jianyuan to the Jiangzhou Military Region, even he could not backtrack if he wanted to, as the state has always attached great importance to dynastic matters.

After staying in Xiao Yuxuan’s office for a short time, Ji Feng went to the security department, Xiao Yuxuan still had a lot of work to do, while he had to find Yi Xingchen as soon as possible to ask about the situation, those humongous bandits had actually run to the treasure island and threatened to take brutal revenge against China, which made him a bit hot.

If he didn’t give these people some colour, they would only jump around more and more happily, in which case, I am afraid that other forces would also follow suit, if this goes on, where is the majesty of China?

Ji Feng, as a Chinese, would not feel comfortable seeing such a situation.

When he came to the security department, Yi Xingchen was talking to someone about something, and when he saw Ji Feng come in he just nodded his head.

After listening for a while, Ji Feng understood what Yi Xingchen was doing. It turned out that he was listening to the report of the operation, mainly what materials were consumed, how much money was used and so on.

The person in charge of the report was the special financial coordinator of the security department, so the report was extremely clear, and Ji Feng was nodding his head as he listened.

When Yi Xingchen finished, he couldn’t help but shake his head and said, “Boss, next time you encounter something like this, can you just let us on?”

Ji Feng smiled and asked, “What do you mean?”

Yi Xingchen said, "As you heard just now, we didn't do anything this time, we just sent the people to the hospital and took care of cleaning up the scene at the same time, but we ended up consuming a lot of fuel, and some other supplies, which is almost worth a single operation. Instead of that, it would have been better for us to do it directly and save a trip for nothing."

Ji Feng was slightly stunned, then he smiled dumbly, "What, your idle hands are itching?"

Yi Xingchen laughed: "I've been a bit idle lately, look at me, haven't I put on a lot of weight compared to when I first came to the company, if I stay so idle, I'm going to get fat!"

Ji Feng couldn't help but chuckle: "Bullshit! No action means nothing big is happening, which is a good sign, haven't you had enough of the daily gunfire? Besides, you call that being blessed?"

The whole battle team, every time Ji Feng used them he would find that their strength had improved again, this was obviously due to insisting on practicing aerobics, Yi Xingchen was even more so, and his temperament was more deep and introspective, the original kind of sharpness and recklessness had gradually disappeared.

Ji Feng was sure that now Yi Xingchen's strength had definitely improved drastically compared to when he first came to the company!

However, this guy complained about being too idle, saying that he was going to be blessed was a lie, in fact, I'm afraid this is the real thing because he couldn't resist trying out his own body and strength!

Ji Feng laughed: "Don't rush first, if there is an action you will definitely not be missing, if you are really panicking with idleness, then practice more, I have a brother who will be back soon, if you are itching to practice at that time, you can ask him to practice."

Yi Xing Chen asked at once, "Oh? Your brother?"

"The one you've met is Zhang Lei."

Ji Feng laughed, "But I have to remind you, this brother of mine is quite strong, and he has definitely improved again during this period of time, so you won't be able to plant yourself when the time comes!"

Yi Xing Chen instantly laughed, "Boss, you don't have to protect your shortcomings when the time comes!"

Ji Feng instantly smiled, it looked like Yi Xingchen was confident, but he didn't think Yi Xingchen could beat Zhang Lei, on the one hand, he taught Zhang Lei by hand, and this guy was very talented in martial arts training, he learned it as soon as he could, and his strength was improving rapidly.

When Ji Feng talked to him on the phone some time ago, Zhang Lei was still bragging to him that he was going to have a couple of moves with him when he came back, so it was clear that Zhang Lei was also quite confident in his own strength.

Thinking of this Ji Feng suddenly had a thought in his heart, this was an opportunity!

Now that Zhang Lei has graduated, but looking at his family's intentions, it seems that there is no urgency to urge him to work or enter the career path, so it seems that perhaps Tong Kai De is not too insistent on this matter.

If so, then Zhang Lei this time back, if you can make Yi Xingchen convinced, perhaps, you can consider letting Zhang Lei take over the war team ..... at least, but also let Zhang Lei first establish prestige, and then not to start another cooker also have enough bottom and experience!

The heart thinking about this matter, Ji Feng is to talk to Yi Xingchen about the matter of mercenary corps.

"It's no problem!"

Yi Xingchen immediately nodded and said, "There are many such mercenary regiments, some of them have no roots, so their funding is limited, and they have to rely on themselves in everything, the members all have enough combat experience, there are many such mercenary regiments, as long as you pay, this kind of work is definitely no problem!"

Ji Feng asked, "Can you pull the strings?"

Yi Xingchen nodded and smiled, "Of course you can, and you don't even have to go in person, you just need to communicate with the other party online."

Ji Feng nodded, pondered for a moment and said, "Then how about this, you go with, go and meet with the head of the military and help them make contact."

Yi Xingchen immediately agreed with alacrity.

Afterwards, Ji Feng immediately took Yi Xingchen and rushed to the military compound again, to settle this matter first while his younger uncle was still in Jiangzhou. For Ji Feng, the thought of those humongous bandits being on Treasure Island and still bouncing around made him uncomfortable.

There were already enough clowns bouncing around China, the Philippines, Vietnam, and Kepong, etc. These were all countries that couldn't do anything to them for a while, but a few mercenaries who had done something wrong and actually spoke out, that was looking for death!

The two mercenary groups quoted their own prices, but Yi Xing Chen gave them a price based on his experience, and it didn't take long for the two mercenary groups to agree.

This matter was determined, and only then did Ji Feng feel relieved, the rest of the matters were in a hurry, such as how to continue interrogating Fan Jianyuan, how to get Fan Jianyuan to cooperate against the king and the dynasty, with the military's hand, naturally, there was no need for Ji Feng to intervene again.

Ji Feng only reminded his younger uncle, Ji Zhenping, that the king was a top expert, and that the most elite troops must be deployed and the most elaborate arrangements must be made before there was any chance of a successful capture.

And this, however, depended on whether the king was in the country or not!

After doing this, Ji Feng returned his attention to his own business, seeing that a few months had already passed since the one-year period, the development of the laser gun, must also be speeded up.

## Campus Master Chapter 2747 -

In the blink of an eye, two days had passed.

This day, just after breakfast, Ji Feng was ready to go to the United University to consult that old professor who was an authority on nuclear physics, but he unexpectedly received a call from his younger uncle Ji Zhenping.

“Little Uncle, something wrong?” Ji Feng asked, “Has the interrogation come to a head? Or are you ready to make a move?”

Because it was over the phone, he didn't say it too bluntly, but the meaning Ji Zhenping definitely understood.

However, Ji Zhenping's answer was more than a little surprising to Ji Feng.

Ji Zhenping said, “Little Feng, you come to the military district immediately, come immediately, be quick!”

Ji Feng was slightly stunned, and then said, “Yes! I'm on my way!”

Pop!

Ji Zhenping then hung up the phone.

Ji Feng couldn't help but frown, listening to his younger uncle's tone, it seemed that the situation was a bit urgent, was something wrong? Or did something go wrong with the biological bomb inside Fan Jian Yuan's body?

He guessed that it was probably Fan Jian Yuan who was in trouble, even though he had already treated the biological bomb in Fan Jian Yuan's body before he left, and as long as he waited until the military district's surgical experts arrived and then operated on Fan Jian Yuan to remove the biological bomb, Fan Jian Yuan's life and death would no longer be under his own control.

But having said that, Fan Jian Yuan is not a normal person after all, but a reformed person, and his body cannot be viewed in a normal way, so anything can go wrong with Fan Jian Yuan.

Just look at those former reformers, some of whom were caught and starved to death alive because they had no food, and all sorts of other ways to die, and you can see how unstable a reformed person can be.

With these thoughts in mind, Ji Feng called up Bai Zhu and prepared to go there, but before he could go out, he received a phone call from Li Ruonan.

Looking at the name on the caller ID, Ji Feng couldn't help but frown slightly.

Li Ruonan .....

He sighed lightly in his heart, shook his head slightly, and then hung up the phone. Since it has come to this point, there is no need to talk about it anymore, the previous right and wrong, who is right and who is wrong, there is no point in talking about it now, since this is the case, then Ji Feng does not want to get involved anymore, it is better to just be ordinary friends in the future!

However, even if we were to be ordinary friends, Ji Feng needed a buffer. Just two days ago, Li Ruo Nan's words about arresting him were still echoing in his ears, and Ji Feng was more or less uncomfortable in his heart.

Li Ruonan's defense of Fan Jianyuan as if an old mother hen was protecting her son really made Ji Feng's heart a little chilly!

“Ding~~!”

However, not even a minute after Ji Feng hung up the phone, his phone rang again, and when he looked at the caller ID, it was still Li RuoNan calling.

Ji Feng frowned and hung up the phone again.

However, a few moments later the phone rang again, and the ringing sound seemed to symbolise Li Ruo Nan's determination not to give up until she got through.

Ji Feng had no choice but to pick up the phone, “Hello, Ruo Nan.”

There was a silence on the phone, with only the sound of a slight exhale coming from it.

Ji Feng asked, “Ruo Nan, is there something you want to see me about?”

“I'm sorry!”

Finally, Li Ruo Nan said.

Ji Feng was stunned, then he smiled, “Is that what you're calling to say to me? It's okay, things just need to be said.”

However, at the other end of the phone, Li Ruo Nan was biting her lip with a complicated expression.

She seemed to be able to hear the kind of loss and feigned strength in Ji Feng's heart from his laughter, and she knew that she had really broken Ji Feng's heart.

“Ji Feng, I'm sorry, I shouldn't have treated you that way, I was actually suspecting Fan Jianyuan, just .....

“No need to explain, it's really okay.”

Ji Feng interrupted Li Ruonan's words and smiled, “Isn't the matter resolved now? As long as the final result is good, won't it be?”

Li Ruonan then couldn't say anything.

Ji Feng asked, “Is there anything else?”

Li Ruo'nan was silent.

Ji Feng then laughed: "Don't have any psychological burden, we will still be friends in the future, it's just a little misunderstanding, the misunderstanding is cleared up, isn't it? Okay, I have things to do here, so I won't talk to you anymore, bye."

"Ji Feng!"

He was just about to hang up the phone when Li Ruonan's voice abruptly raised a few points, "Don't hang up yet ..... have you really forgiven me?"

Ji Feng laughed, "Of course!"

"Then why didn't you answer my call just now?" Li Ruonan asked.

"....."

Ji Feng froze for a moment, he didn't expect Li Ruo Nan was really not very confusing, he couldn't help but laugh: "Didn't I say, I'm in a hurry, before Yu Xuan relayed to me that you wanted to talk to me about the case of the convention centre, this matter is not urgent, I have urgent matters on hand, wait until I'm done, okay?"

Li Ruonan said, "Ji Feng, I know you must already hate me in your heart, don't you?"

Ji Feng said helplessly, "Ruo Nan, I've never thought about hating or not hating, I really have something urgent, let's talk about it later, okay?"

Younger uncle called to ask himself to go over immediately, it was still unknown what the matter was, if it was really Fan Jianyuan who had a problem or the biological bomb in his body was out of control, then it was indeed urgent and perhaps troublesome.

Therefore, now Ji Feng did not have that much time to waste, he had to consider all possibilities.

Hearing Ji Feng say this, Li Ruonan went silent.

"Let's do this first." When Ji Feng finished speaking, he then hung up the phone, "Bai Zhu, go to the military district."

"Yes."

Bai Zhu nodded, and as soon as she stepped on the accelerator, the car leapt out.

Almost without a moment's delay, he arrived at the military district, where Ji Feng met his little uncle under the leadership of a young soldier, and as soon as he met him he immediately asked, "Little Uncle, what's wrong? Is there something wrong with Fan Jianyuan?"

"It's not Fan Jianyuan!"

Ji Zhenping said, "However, the surgical experts from the military hospital have already arrived, and once everything is ready, they can immediately operate on Fan Jianyuan and remove that biological bomb from his body."

Ji Feng immediately let out a sigh of relief at his words, it was good that it wasn't Fan Jianyuan who had a problem, because he really couldn't say that he knew too much about transformers, the only thing he could rely on was his perspective eye, but perspective eye didn't mean everything, he could 'see', but if it was a serious problem, he might not be able to solve it.

"It's no problem to do the surgery, I can control that biological bomb!" Ji Feng said.

"That's good."

Ji Zhenping nodded and said, "Let's put this matter aside for now, I asked you to come for another matter."

Ji Feng immediately asked, "What is it?"

"Something has happened to Xiang Yongzhan!" Ji Zhenping said.

"..... What?"

Ji Feng couldn't help but freeze for a moment at his words, and when he realized it, he immediately asked, "Something has happened to Xiang Yongzhan? Little Uncle, what happened to him? Didn't you say that the mission was completed successfully? How come ....."

Two days ago, Little Uncle had said that Xiang Yongzhan had led a heavy attack and wiped out most of the members of that mercenary group in one fell swoop, causing quite a stir internationally, so how come it had only been two days and Xiang Yongzhan had an accident instead?

"After the mission, he has led the team back, but the road was not very peaceful, there were hidden dangers everywhere, along the way he encountered no less than dozens of sneak attacks! They were all unidentified armed men, but which country sent these people, and who was behind them, everyone knew it by heart!"

Ji Zhenping sank his face and said through clenched teeth, "Some people just can't see our China rising!"

Ji Feng then couldn't help but frown, he knew that Xiang Yongzhan would definitely be in a lot of trouble this time around, but he didn't expect that Xiang Yongzhan would encounter so much trouble!

"Then he is now ....."

"Xiang Yongzhan is also good!" Ji Zhenping said, "With the secret help of our people, even though he was surrounded and intercepted, he led his team to rout the sneak attackers time and again, and even a few armed bandits were completely wiped out by the special operations brigade!"

Ji Feng couldn't help but shake in spirit at his words.

"Just so chase all the way, their weapons and ammunition consumption more and more quickly, the enemy also more and more, while we in the secret supply, but has not been able to keep up with their consumption speed, already the team began to appear wounded, the marching speed is much slower, the vicious battle is also more and more! Xiang Yongzhan considered again and again, decided to abandon the original route and take the water route instead!"

"Take the water route?!"

Ji Feng didn't quite understand the meaning of this.

Ji Zhenping nodded and said, "That's right, take the water route! The originally arranged route was to take the land route through the Middle East, which is chaotic but we have some roots there, but as the consumption accelerated, Xiang Yongzhan said that if they continued to go this way, I'm afraid they wouldn't be able to last there, so he decided to take the water route, which is a bit of a detour, but it will avoid a lot of attacks!"

Only then did Ji Feng understand why Little Uncle's tone was heavy when he said the words take the water route, so that was the case.

"After urgent consultation, the top agreed to the request to Yongzhan and did everything they could to assist them!" Ji Zhenping said, "When I came from Yanjing, they had already embarked on the waterway, but only the person in charge of the specific command knew exactly where they had arrived."

Ji Feng nodded, when marching to war, the route was naturally of paramount importance, it was definitely a secret among secrets, I'm afraid no one else knew about it except for the person directly in charge.

"If that's the case, then why do you say that something happened to Xiang Yongzhan?" Ji Feng asked, "Could it be that Xiang Yongzhan also encountered an attack on the waterway?"

"I just received news that Xiang Yongzhan and the others encountered pirates at sea, and at the same time, the Philippines and Vietnam announced a live-fire military exercise at sea in the southern waters almost one after the other!" Ji Zhenping said.

"Doggone it!"

When Ji Feng heard this, he couldn't help but be furious, his face was gloomy and fire almost spurted out of his eyes, "What do they mean by this? A live-fire military exercise? And suddenly announce it? Is this to block Xiang Yongzhan's way back and strangle him to death at sea?!"

## Campus Master Chapter 2748 -

If Xiang Yongzhan wants to take the water route, he is undoubtedly going to enter China from the southern waters, but at this time the Philippines and Vietnam have announced military exercises, and they have done so suddenly and ..... with live ammunition!

The wolfish ambitions of these two countries are clearly revealed!

They are clearly trying to stop Xiang Yongzheng and the others from returning to China, and this is to block all their ways in!

What's more, Xiang Yongzhan and his men had encountered pirates at sea!

But judging from the dozens of attacks they had encountered along the way, which had put the Special Operations Brigade under pressure, there was no doubt that these were definitely not ordinary pirates, but in all probability, they were the regular naval forces of a certain country or even a few countries pretending to be pirates!

To let Xiang Yongzhan and the others fight with their regular navy at sea is like asking them to die!

"Malicious intentions!"

Ji Feng couldn't help but grit his teeth, on the land route, they desperately consumed Xiang Yongzhan and the others, forcing them to abandon their original route and choose to take the sea route, yet now, they are starting to make moves again .....

"Little uncle, how come this Vietnam and the Philippines are so energetic?!" Ji Feng couldn't help but frown and said with a sullen face, "Xiang Yongzhan and the others should be going to Africa, right? How come no matter where they go, the hands of Vietnam and the Philippines are able to reach over?"

"You're thinking wrong!"

Ji Zhenping shook his head and said, "Over there, it's not Vietnam and the Philippines that have their hands out, their hands aren't that long!"

Ji Feng frowned and said, "That's ....."

Ji Zhenping said in a deep voice: "Among them, the shadow of Rice is not missing, and I'm afraid that the people of Kepong should also be counted as a part!"

"So that's how it is!" Ji Feng nodded with a sullen face.

It was no wonder, Rice, a country jokingly called the world's policeman, had military bases in many important strategic locations around the world, and to put it bluntly, Rice's power could extend to almost most corners of the world!

If it was Rice that was secretly pulling the strings, then what happened to Xiang Yongzhan and the others would not be difficult to understand!

Ji Zhenping added: "According to intelligence, this time, I'm afraid it's not just Rice that's interfering, but it seems that Kepong has also made a move ..... hum! They have a tacit agreement with each other! A bunch of wolves and ambitious things!"

Ji Zhenping was extremely angry in his heart, some countries led by Rice, tried every possible way to suppress China and prevent its rise, even using any means to do so!

It is a pity that China has been weak for a hundred years, although it has had decades of rapid development after opening up, it is still a long way from those developed countries in terms of its heritage and comprehensive national power, especially when there are still countries such as Rice and Kepong outside, and already countries such as the dogs raised by Rice – the Philippines – are constantly bouncing around, making China's external environment extremely dangerous.

As a result, China's power abroad is very limited.

This is why the special operations brigade led by Xiang Yongzhan has repeatedly been in danger abroad, but the country can only try to provide assistance by all means, but cannot directly dispatch the most powerful force to open the way for them.

It's not that they don't want to, but they can't!

In fact, the special operations brigade led by Xiang Yongzhan is actually the first step for China to show its power and muscle abroad, so it is not really unexpected for them to be in such danger.

It was just that, as a soldier, but seeing this kind of situation, no one would be comfortable.

Ji Zhenping had a strong character, so naturally he was even more uncomfortable!

“Little Uncle, then how did the top respond?” Ji Feng asked with a frown, “Is it just going to stand by and watch the Philippines and Vietnam bounce around like this, and watch Xiang Yongzhan fall into a desperate situation?”

“Of course not!”

Ji Zhenping said, “We have already dispatched the Southern Fleet to rush to our aid urgently, and at the same time will announce that live fire exercises will also be carried out in the southern waters.”

Ji Feng suddenly looked astonished, the country could go this far, he did not expect it.

Also in the same sea area, at the same time as other countries announced the implementation of military exercises, they also announced live-fire exercises, this was not just tit-for-tat, it could even be said to have set up a showdown!

Both sides are conducting live-fire exercises, and if one of them does not go well, it is possible that this could turn into a war!

And this is a demonstration of China’s strongest attitude – if you dare to lay hands on our troops, then war will break out!

“Does this work?” Ji Feng asked with a frown.

You know, every time countries like the Philippines and Vietnam popped up in the past, what China took was basically a protest, which had long since spoiled them, making them think that China was just a silver bullet, not useful in appearance!

Now that China has taken such a tough stance, they may not be so scared and concerned. Maybe they will think that China is just bluffing, not daring to make a real move.

If they really thought so, then if they really did take action against Xiang Yongzhan and the others, then even if China was still furious and really wanted to break out into war, it would already be too late.

Ji Zhenping naturally understood this, and he said, “This will only serve a temporary purpose, unless war really has to break out, otherwise, as long as the navies of these two countries do not retreat, Xiang Yongzhan and the others will not be able to return, and behind them, there are pirates .....

If it really is just ordinary pirates, Ji Zhenping is actually not so worried, the key problem is, those pirates, may not be real pirates!

Xiang Yongzhan they are all elite, but a fierce tiger can not stand up to a pack of wolves, with supplies and physical strength constantly depleted, Xiang Yongzhan they may not be able to last much longer!

“What should we do then?” Ji Feng asked.

“There’s no other way .....,” Ji Zhenping said in a deep voice, “We can only send someone to rescue them!”

“Rescue?”

Ji Feng was stunned: “How to rescue?”

Even the navy couldn’t get through, how could the others be rescued? Could the air force be sent over, or could the navy’s seaplanes be used?

Ji Zhenping said slowly, “We can only send a small group of troops and find a way to sneak over to give support to Xiang Yongzhan and the others first, and then find a way to come back. The most urgent task now is to provide them with supplies, although the situation reported from Xiang Yongzhan is not too bad, but, no one knows what will happen next .....

Ji Feng slowly nodded and said, “This is a feasible solution, however, since both Vietnam and the Philippines are doing military exercises in the southern waters, then in fact in secret they will definitely tightly block that area of the sea, trying to sneak through, I’m afraid it won’t be easy.”

Ji Zhenping was silent, as a soldier, how could he not know the difficulties in the middle, if it was on land, it would be fine, even if the blockade was tight, there would always be negligence, people could always sneak through.

But now it was at sea, and one could not swim across in the sea, could one? Unless it was frogmen, but how would they carry supplies?

“For now, we can only send submarines!” Ji Zhenping said.

“Why did we have to make everyone know about the operation in the first place!” Helplessly, Ji Feng couldn’t help but say, “Since it’s a surprise attack, let’s not let the news slip!”

“Little Feng, don’t panic!” Ji Zhenping frowned, “Now is not the time to complain!”

When Ji Feng smiled, he was instantly astonished, he immediately realised that there was a problem with the direction of his thinking, now was indeed not the time to complain, instead, he should think of a way to get Xiang Yongzhan and the others back!

Ji Zhenping said, “This kind of transnational military operation, wanting to keep it strictly secret that is almost impossible, after all, our country’s power outside is too weak, yet, this operation has to be done, so, from the beginning of the operation, it was already expected to end up like this.”

There was a pause before he slowly said, “Even ....., worse endings than this had been predicted! But, no matter how bad the ending is, it has to be done, we have to use practical actions to tell the world that China, will not be left to be slaughtered and humiliated, those days are gone!”

Ji Feng smiled and couldn’t help but stand in awe!

He understood what Little Uncle meant, before he set off for the war, I’m afraid that everyone in the military who knew about this operation had already predicted the worst possible outcome – a total annihilation!

But even so, the military made the decision, and Xiang Yongzhan still accepted the mission.

Even if he had to die, he had to let those people know that if they dare to trample on the dignity of China, the Chinese soldiers would dare to fight you to the death.

This is what a soldier should do!

This made Ji Feng's blood boil in his heart, but at the same time, he couldn't help but feel a sense of respect, respect for Chief General Xiang – Xiang Yongzhan was leading the operation, and he, who was the old man and Chief General, certainly couldn't possibly be unaware of this, and without his nod, the people below him definitely wouldn't dare to take the decision to approve such an operation.

So, this means that Xiang Jiefang actually knew that the worst consequence of his son leading this military operation would be his death in a foreign country, and he might not even be able to recover his body .....

He nodded his head in agreement and approved the operation, knowing full well that this was likely to be the consequence!

This not only does not mean that Xiang Jiefang has a heart of stone, but rather proves that as the chief, he is worthy of this position and he is worthy of the common people who provide for him!

Ji Feng's heart stirred, pursed his lips, and a brilliant light flashed in his eyes.

"Little Uncle, I'll go!" Ji Feng suddenly said.

"..... what?" Ji Zhenping was stunned and subconsciously asked.

"I said, the task of saving Xiang Yongzhan, leave it to me!" Ji Feng said, "Yes, I'll do it!" He seemed to be affirming himself, and seemed to be cheering himself up and strengthening his confidence.

"You go?!"

Ji Zhenping's voice, however, steeply raised a few points, and looked at Ji Feng in consternation.

However, Ji Feng was nodding firmly, "That's right, I'll go!"

## Campus Master Chapter 2749 -

"You go?!"

Ji Zhenping's voice was however steeply raised by a few points, and he looked at Ji Feng in consternation.

However, Ji Feng was nodding firmly, "That's right, I'm going!"

Ji Zhenping's eyebrows slowly furrowed as he looked at Ji Feng and asked in a deep voice, "Little Feng, do you know what you are saying?"

Ji Feng nodded his head and said, "I know."

"Then do you know how risky it will be to go to rescue Xiang Yongzhan this time?" Seeing Ji Feng's reaction, Ji Zhenping's brow furrowed even tighter as he said in a deep voice, "Even if we send regular troops to rescue them, if we can't get them back before Xiang Yongzhan runs out of ammunition, it won't help, do you understand?"

Ji Feng nodded very calmly and said, "Little Uncle, I understand all that you have said. And I also know that since the other side has sent out a regular army, the combat strength is definitely not comparable to ordinary people, this time going, it is likely to be a life of nine deaths ....."

"Since you know this, then you still ask to go to the rescue?" Ji Zhenping interrupted him at once and asked.

"Otherwise, who will go?" Ji Feng asked.

Ji Zhenping was suddenly stunned by the question, and he then said, "Who's going? Do you think that there is no one in the tangled China, that you have to be an outsider who is not even a soldier to carry your head and fight for your life?"

No one knew better than Ji Zhenping and some other high-ranking military generals just how dangerous it was to go to rescue Xiang Yongzhan this time.

Yes, Ji Feng's strength is indeed strong, but no matter how strong a person is, when he is facing an army, his strength can't play any role, at most, he can only pull a few more back, that's all.

This is just like during the war period, the Chinese martial arts industry has produced many heroes and heroines, have participated in the war, fighting for their lives and killing the kiddies in Kepong.

Ji Zhenping once heard Master Tie say that at that time there were some top super masters who could really fly over the walls, and if the strength of those people were to be told now, I'm afraid people who heard it would think they were watching a movie or listening to a magic ghost story, but in reality, back then, I don't know how many of the top masters in the martial arts world had taken action.

But what happened?

Even the most elite fighters on the other side would never be able to get past those masters!

But the problem was that they were regular armies, they were about military tactics, about advanced and powerful weapons, they were not going to fight one-on-one with those martial arts masters!

In the rain of bullets, those martial arts masters were killed and wounded in large numbers, and some were even beaten to a pulp, with holes all over their bodies!

Some of the remaining masters had no choice but to take shelter and wait for an opportunity to assassinate the officers of the Kepong army.

As a result, the masters were almost lost, while the army of Kepong remained strong!

Some people later came to understand, and they chose to also enter the army and lead it to fight to the death against the army of Kepong, and later on, Marshal Xu, who opened the country, was an example.

Others chose to be beside generals with extraordinary commanding abilities, protecting those generals so that those generals could fight the Bebongs even more without fear.

From this it can be imagined that in front of an army, an expert single-handedly is nothing at all, you can't always kill an army by yourself!

Of course Ji Zhenping knew that Ji Feng was strong, and not just generally strong, but what could even greater personal strength count for in front of an army?

"Little monkey, don't mess around, this matter is not something you can get involved in!" Ji Zhenping said, "I know your heart is good and you want to save Xiang Yongzhan, we all want to save, but the best thing to do now is for everyone to do the right thing, and that's already helping!"

"Little Uncle ....."

Ji Feng shook his head gently and smiled, "I know what I'm talking about, and I certainly know exactly what kind of dangerous situation I'm going to face if I go, but ....."

He smiled and said, "Did Xiang Yongzheng know what he might be facing before he set out?"

Ji Zhenping frowned and said, "Of course he knew ..... line, I know what you want to say, don't you just want to say that he knew the situation but still resolutely went, and you can do the same, right?"

Ji Feng nodded and smiled, "Is there any difference between me and him?"

He did think so, Xiang Yongzhan still decided to lead a team on a mission even though he knew that he would probably never return, for the sake of, just to show the world that China was not something that anyone could come and bully a few times if they wanted to, and that anyone could sweep China's face away if they wanted to!

And in order to be able to give those people the strongest deterrent, Xiang Yongzhan almost chose to die together!

Under such circumstances, no one would be indifferent, and Ji Feng was likewise no exception!

At the same time, Ji Feng also recalled that before Xiang Yongzhan was about to leave, he himself said to him that he would buy him a drink when he returned, Xiang Yongzhan only smiled and nodded at that time, but did not say anything, obviously he had already prepared for the worst at that time.

What Xiang Yongzhan could do, Ji Feng could do likewise!

Ji Zhenping shook his head and said: "It's not whether there's a difference, the point is, it won't help if you go, if the military can't break through the blockade of the Philippines and Vietnam, you'll only be sending death, at most, you'll just add some more credits to people's credit books, or even, maybe people don't even know who you are, at that time in their eyes... ..you'll just be a corpse in their eyes!"

"That's not necessarily true!"

Ji Feng slowly shook his head, "Little Uncle, once before, Xiang Yongzhan led a team out on a mission and ended up being trapped on an isolated island, do you still remember this incident?"

Ji Zhenping knew what Ji Feng wanted to say as soon as he heard it, he nodded, "Of course I remember, that time you led the people to save the special combat brigade back, this matter, you did a beautiful job! However, the situation is different now, at that time, you were only facing reformers and a group of armed elements, while now you are facing a regular army!"

The difference between armed elements and the regular army is not a little bit, the two are almost incomparable!

Ji Feng shook his head and said, "Actually, the situation then was no different from now, Little Uncle, I am confident that I will be able to save the special combat brigade, you have to trust me!"

Ji Zhenping asked, "How will you save it?"

Ji Feng said in a deep voice: "I have my own way, Little Uncle, you must believe me!"

But Ji Zhenping couldn't help but slowly shake his head and sighed softly, "Little Feng, I understand your feelings, if you were a soldier, I would be proud to have a soldier like you! And definitely will agree to your request for war, but ....."

"I am a soldier!"

Ji Feng grinned, "Little Uncle, have you forgotten? I'm a special advisor to the military, this is the status given to me by Chief Xiang himself!"

"Bullshit!"

Ji Zhenping grunted, how could he not know how this special advisor of Ji Feng came about, it was at that time when Ji Feng had stirred up a storm in the Northeast, and Xiang Jiefang had pressed for him to close the door, and that was why he was given such an identity!

This identity was also given in exchange for Ji Feng's promise to make a laser gun within a year, so technically speaking, he wasn't a soldier at all!

"Alright, there's no need to say anything, I don't agree with this matter." Ji Zhenping said.

"Little Uncle!"

Seeing how he couldn't talk Ji Zhenping out of it, Ji Feng couldn't help but say, "It's fine if you don't let me go, then I'll ask you a question, as long as you can answer me, I'll never mention this matter again!"

Ji Zhenping looked at him and asked, "What question?"

Ji Feng said, "Just with your current preparations and setup, how sure are you that you can get Xiang Yongzhan and the others back?!"

Ji Zhenping was silent and did not answer.

In fact, he didn't have any certainty! Although he was not in charge of this matter, he knew everything about all the arrangements, and the first thing he had to do if he wanted to save the special operations brigade led by Xiang Yongzhan was to break through the blockade lines of the Philippines and Vietnam!

However, how easy would it be to get through the blockade line?

Although the Philippines and Vietnam are not as powerful as they claim, breaking through the blockade would probably lead to war!

Naturally, China is not afraid of these two clowns, but behind them are the hungry wolves of Kepong and the tigers of Rice!

These two countries were the ones that threatened China the most, and were also the reason why China could not really use force on a large scale.

“Not too sure, are you?”

Seeing Ji Zhenping’s reaction, without him answering Ji Feng already knew, otherwise, Little Uncle wouldn’t have had this expression, “Then if there was one more of me on top of your actions, wouldn’t the certainty be greater?”

Ji Zhenping slowly shook his head and said, “It’s too dangerous! Little Feng, it’s too dangerous!”

Ji Feng smiled and said, “I’m just as dangerous in Jiangzhou, the Dynasty’s assassins might pop out and give me a shot at some point, so how different is that from me going into action?”

Then without waiting for Ji Zhenping to speak, Ji Feng immediately added, “Little Uncle, I promise you that I will definitely not affect your rescue operation, I will use my own methods to rescue, as long as you can provide me with a little convenience, is that okay?”

Ji Zhenping was just about to say something when Ji Feng suddenly added, “If you don’t agree, then I’ll act on my own!”

“Brat, you’ve learned to threaten me?!” Ji Zhenping gave a glare.

“Little Uncle, I really want to do something, otherwise, I can’t have any peace in my heart.” Ji Feng said, “Let me go, okay?”

## Campus Master Chapter 2750 -

In the end, Ji Zhenping did not agree to Ji Feng’s request either.

Even though he was not responsible for taking the lead, Ji Zhenping did not dare to make this decision lightly, because he knew better than anyone how dangerous this operation was!

To put it bluntly, it could be a life of nine deaths, and perhaps Ji Feng would not be able to return once he was there!

Even if Ji Zhenping was Ji Feng’s own brother-in-law, he did not dare to make a decision lightly.

The first thing you can do is to look at Ji Feng’s gleaming eyes, but Ji Zhenping’s heart is not without some pride, his own nephew is not a coward, is a good man with a commitment and blood, this is the character that the children of the Ji family should have, as a soldier, Ji Zhenping likes this kind of person the most.

But .....

The first of these is the first grandson of the Ji family, so even if Ji Zhenping agrees in his heart, he can’t say yes now.

Therefore, Ji Zhenping could only sigh lightly in secret and said, “Little Feng, it’s useless for you to talk to me about this matter, going to Yanjing, as long as the old man and your father agree, there will be no problem on my side!”

Ji Feng instantly asked, “Really?!”

Ji Zhenping said, “Do I need to lie to you?!”

Ji Feng immediately smiled at his words, “Little Uncle, thank you! You just get ready in advance, I’ll go to Yanjing immediately .....

No, I’ll call my dad directly, then you arrange for me to sail immediately!”

“Wait until you get your dad’s permission!” Ji Zhenping said, “There’s also the old man there, you must also give your nod before you do!”

Ji Feng laughed, “Don’t worry, they will definitely agree!”

Ji Zhenping hummed and didn’t say anything. In fact, in his heart, he didn’t hold much hope for this, because he felt that even if the old man and big brother agreed, his sister-in-law would definitely not agree, and in the end, Ji Feng still couldn’t go.

“I’m going to call!”

Ji Feng, however, did not have so many worries, and dropping these words, he immediately walked out of the room and went out to call his father.

However, before making the call, Ji Feng was deliberating slightly for a moment. He had to think about what to tell his father, after all, this operation was not a child’s play, it was really dangerous!

Although Ji Feng himself was confident, it did not mean that others were equally confident in him, because the fact that he had an alien intelligent brain in his head was unknown to anyone but himself.

After a few minutes of contemplation, Ji Feng dialed his father’s personal mobile phone.

“Little Feng, what’s wrong?” When he answered the phone, Ji Zhenhua’s gentle voice came out.

“Dad, I’ve seen little uncle.”

Ji Feng said, “I also know about Xiang Yongzhan’s matter.”

Knowing his son like a father, Ji Zhenhua asked as soon as he heard it, “Then you must have had some idea when you called, right?”

“Mm.”

Ji Feng didn't hide anything and said directly, "I want to apply to participate in the rescue mission of Xiang Yongzhan, and little uncle has already agreed to it, but he said he wants to consult you and grandpa!"

"Rescue Xiang Yongzhan?"

Ji Zhenhua looked slightly surprised, as if he hadn't expected his son to call over because of this matter.

Ji Feng nodded and said, "Mm! What Xiang Yongzhan did is worthy of the word hero, I think, I should go rescue him!"

Hearing Ji Feng's words, Ji Zhenhua did not answer immediately. Ji Feng waited patiently, he knew that his father must be thinking, weighing, or even, most likely, hesitating.

Ji Feng didn't say anything more, let alone take the opportunity to tell his father his thoughts and any great righteousness, because he knew that his father must understand all these truths and must have considered them more thoroughly than he did.

The only thing Ji Feng could do now was to see if his father would agree in the end.

"Little Feng, have you thought about it?"

Only after a while did Ji Zhenhua ask.

Ji Feng immediately nodded and said, "Ready, Dad, I'm confident that I can get Xiang Yongzhan and the others back! Moreover, I am also prepared for all the possible consequences ....."

Ji Zhenhua listened and was silent for a while longer before saying, "Little Feng, you've grown up, since you've made a decision, then go for it!"

"Dad, you agree?!"

Ji Feng was stunned, he knew he should be able to convince his father, but how could he have expected his father to agree so quickly, which made him more or less surprised.

Ji Zhenhua said, "You are already an adult, you deserve to have your own ideas and thinking, and you should also have your own decision. Son, I am very pleased that you have made this decision, you are a good man!"

"....."

A warm current flowed through Ji Feng's chest and instantly spread throughout his body, his nose was a little sour, but his heart was warm, it was a complex emotion, but more than that, it was a touching feeling brought about by a father's relief at his son's success.

It turned out that his father, who had not always taught him much, was so relieved.

Taking a deep breath, Ji Feng said, "Dad, don't worry, I'll definitely come back safely! Moreover, I will definitely be able to get Xiang Yongzhan and the Special Operations Brigade back!"

"As long as you did your best, that's enough!" Ji Zhenhua said with relief.

"Mm."

Ji Feng nodded his head heavily. After a slight pause to calm down slightly, he added, "Dad, don't tell my mum about this first, otherwise, I'm afraid she'll stop me."

Ji Zhenhua laughed twice and said, "I'll talk to your mother there, and also your grandfather's place, you should not alarm him!"

"Mm."

Ji Feng nodded, the old man was old, it was indeed inappropriate to alarm him again.

"Dad, do you have anything else?" Ji Feng asked.

"Son ..... protect yourself!" Ji Zhenping paused for a while before he said.

"I know." Ji Feng nodded heavily.

Ji Zhenping then smiled gratefully before hanging up the phone. From his laughter, one could hear that although he was extremely worried about his son's safety, he was also very relieved.

His son had grown up!

There is nothing that makes a father feel more relieved and emotional than seeing this.

After hanging up the phone, Ji Feng couldn't help but purse his lips and stood in place for a while before he turned around and entered the room.

"Little Uncle, my father has agreed!" Looking at Ji Zhenping's stunned expression, Ji Feng couldn't help but grin.

"Agreed?!"

Ji Zhenping was stunned, "Bring me the phone, I'll call your dad!"

Just kidding, this was big brother's only child, so he just let it out, and so quickly?

Even if Ji Zhenping had thought that his elder brother might agree, he had never thought that it would be so fast.

Ji Feng smiled and handed over the phone, "Little Uncle, I didn't lie to you!"

Ji Zhenping glanced at him and dialed his elder brother Ji Zhenhua's phone number, and as soon as he said this, he heard Ji Zhenhua say, "When a child grows up, he must have his own path!"

Ji Zhenping could not say anything at once, and in the end, he could only say, "You are even more ruthless than I am ....."

When Ji Zhenping hung up the phone, he saw Ji Feng's bright smile, he said in a good-natured way, "You kid just know to add to my mess, all right, since your father has agreed, then I will not stop you, but first of all, you are not the main force this time, you can only play on the side .....

The moment Ji Feng heard that he immediately felt something was wrong, he immediately asked, "Little Uncle, your army action, what can I follow to play next?"

Ji Zhenping said, "Where's all that nonsense! You do what I arrange ....."

"Little Uncle, if we go by your arrangement like this, am I going to save people, or am I going to travel?" Ji Feng couldn't help but laugh bitterly, "How about this Little Uncle, I don't need anything, as long as you tell me Xiang Yongzhan's location of them, I'll figure it out myself! If I need help, I'll definitely say so, how's that?!"

Ji Zhenping glared at him, "You'll figure it out yourself? What can you do in this vast ocean? Do you want to swim across?!"

Ji Feng thought for a moment and said, "Little Uncle, I have my own way! I just need to know how long Xiang Yongzhan and the others can still hold on?"

Seeing that Ji Feng didn't want to say, Ji Zhenping didn't press further, anyway, he had already made up his mind that if Ji Feng took the risk of trying to charge ahead, it would definitely not work.

This kind of military operation, personal force is really not worth mentioning, one more of him or one less of him has almost no effect on the situation, Ji Feng has not participated in several military operations, he simply does not know the power, if he is allowed to act so recklessly, he might lose his little life if he is not careful.

At that time, how would he explain to his elder brother and sister-in-law?

"Based on the current situation, they can hold out for a week at most, or even less. If those so-called pirates increase their troops, I'm afraid they can only last three to five days at most!" Ji Zhenping said.

"That short?"

Ji Feng couldn't help but flinch, he didn't expect the situation to have deteriorated to this extent!

Ji Zhenping nodded with a gloomy expression and said, "That's why we have to rescue them at the fastest speed, I believe all the major military regions have moved by now, let's just hope, we move fast enough!"

Ji Feng smiled and nodded silently, not saying anything else, but he expressed his urgency with practical actions.

"Little Uncle, please arrange a car for me and send me to Union University immediately!"

"What's the point of going there?" Ji Zhenping asked, "Don't you want to go home and make arrangements first?"

"There's no need to make arrangements at home!"

Ji Feng shook his head, a strong confidence shining in his eyes, and said, "I will definitely be able to come back, and with Xiang Yongzheng and the Special Combat Brigade!"

"Right now, I'm going to United University to prepare for a safe return!"

Ji Zhenping nodded silently and sent a car to take him as Ji Feng had requested.

On the way, Ji Feng was making one phone call after another, "Yu Xuan, immediately help me prepare a batch of special effects current, I have an urgent need!"

"Han Zhong, I'll send you a list later, immediately send someone to procure some things according to the list, be quick!"

## Campus Master Chapter 2751 -

When Ji Feng set off, he didn't tell anyone at home, including Xiao Yuxuan and Tong Lei.

The fact that he didn't say anything didn't mean that he was irresponsible, but that he had complete confidence and knew that he would be able to come back!

He had never even thought about what he would do if he couldn't come back. Because this time, he said to himself in his heart, there were no ifs, he had to come back, and he had to get Xiang Yongzhan back too!

This was not only his strong confidence, but also a habit he had developed during his long training in the training space of his wise brain.

Before doing anything, as long as one had a strong belief in one's heart, one would not retreat midway, let alone hesitate before and after, which was the root of success!

The only way to get back is to hold the belief that you will definitely be able to come back, so that you can break through and maybe overachieve.

Because .....

Ji Feng also felt the pressure!

As Ji Zhenping said that, this time, is not a joke, moreover, is not a place for personal force to show off heroes.

In a battle between two armies, personal force can actually hardly play any role. It is only at a critical moment that it can make the difference. However, in this hot-weapon era, in the midst of a hail of bullets, God knows when that critical moment will actually occur!

"Little Uncle, take Fan Jianyuan back to Yanjing without fear and wait for my good news!" Before he set off, Ji Feng said with a smile.

"It's good to have confidence, but always be careful!" Ji Zhenping patted his shoulder with a strong appreciation in his eyes, this was not only the care of an uncle for his nephew, but also the appreciation of a soldier for a hot-blooded man like Ji Feng.

“Don’t worry!”

Ji Feng smiled faintly.

Ji Zhenping said, “You can fly directly from here to the southern sea, there will be someone there to meet you, now that the military operation has started, all the supplies and equipment you need have been transported over, when you arrive you can receive them directly!”

“Mm.”

Ji Feng nodded, didn’t say anything more and got on the plane straight away with his bag on his back.

This was the first time Ji Feng had asked his little uncle to arrange a special plane for him, because time was extremely tight on this trip, and if he stayed one more day, Xiang Yongzhan might be in more danger, so he had to hurry as much as possible.

At the same time, some of the things he was carrying also had to be on a special plane.

As the plane quickly took off and passed through the clouds, Ji Zhenping couldn’t help but clench his fist and secretly said in his heart, this time Ji Feng and Xiang Yongzhan would be fine if they succeeded, but if ..... anything really happened to them, Vietnam and the Philippines, they would have to wait for the most violent retaliation from China!

.....

The first time the company was in a position to take on a new business, the company was able to take on a new business.

The first thing you need to do is to get to the south of the country, and then you will see the people who came to greet him.

“Prepare a small boat for me, or a small sailboard of the kind with a hook for towing will do.” Ji Feng said, “Also, seal up all the supplies I need, and it’s best to keep them out of the water if you can.”

“A small boat? ..... spinnaker?”

The person in charge of receiving Ji Feng couldn’t help but stare, “Chief, you’re .....”

Ji Feng waved his hand and said, “Don’t ask so many questions, just do as I say. Now take me on board immediately and get to the closest place to the target as fast as you can!”

The man was shocked by this thunderous style of Ji Feng’s, and then he said in a panic, “Chief, taking a boat is too slow, let’s just take a seaplane.”

Ji Feng immediately nodded and said, “Good then, then land the plane in the most forward sea area you can reach, remember, the closer to the target the better, if you can cross the other side’s blockade and land directly next to the target ..... forget it, let’s go!”

He couldn’t help but shake his head to stop the conversation before he finished his words, if this seaplane could land near Xiang Yongzhan and the others, then why would they need to be rescued?

Obviously it was because the blockade of Vietnam and the Philippines was so tight that the plane was afraid it wouldn’t be able to fly over.

As Ji Feng’s order was given quickly, the people on this side started to get busy quickly. Their task was to cooperate with Ji Feng as much as possible, and the orders they received were to follow Ji Feng’s orders as long as they did not violate the principles, so they acted quickly.

When Ji Feng got on the seaplane again, it was only half a day before he set off from Jiangzhou.

“Drip~drip~”

Ji Feng sat on the plane, holding a miniature computer in his hand, his hand constantly scratching on the screen, looking at the small red dots one after another on there, as well as the red line, and frowning.

This was the current power map of this sea.

Those red dots represented the alert points set up by the Philippines and Vietnam on the surface of the sea, while those red lines represented the blockade lines set up by these two countries on the surface of the sea, and beyond those red lines, behind them was the range of their military exercises.

Then, when Ji Feng’s gaze fell on a few of the green areas, his brow furrowed even more.

The green areas outside the red lines represented China’s naval deployment, while the green areas inside, as well as the flashing green dots, represented the coordinates of the location where Xiang Yongzhan had once appeared, and where he was likely to be now!

In order to prevent being tracked and bugged, Xiang Yongzhan did not keep in touch with Yanjing at all times, but every once in a while, so in the interval between contacts, even the military hierarchy did not know their exact location. If their location is determined, a single missile could take care of them all!

What Ji Feng was concerned about now was the scope of this red line.

It was too wide!

The red line was so wide that it could no longer be described as a blockade line, it was a blockade cordon!

According to the scale on the map, this cordon is really quite astonishing, so it can be seen that the Philippines and Vietnam have definitely put in a lot of money this time!

It is no wonder that the Chinese navy has been slow to break through, in terms of strength and equipment, these two countries have an absolute advantage!

Although China has not yet launched its full force, the mobilization of troops is not something that can be done overnight, even if the fleet is assembled, it will take some time, in this time, I am afraid that Xiang Yongzhan has been destroyed eight times!

“This is premeditated!” Ji Feng narrowed his eyes and said in a cold voice, “Raising a tiger is a problem!”

Neither the Philippines nor Vietnam were military powers, yet, in recent years they had constantly provoked China and kept bouncing around, but because of this, they had always maintained a large number of troops in the direction of targeting China, as a result, now, when they moved in, they had steeply caught China off guard!

Although China had a defensive force before, it was only a symbolic one, and now there was a considerable gap between the military strength of the two countries.

As a result, it gave the other side a time lag!

I am afraid that the Philippines and Vietnam have also seized this point, so they dare to be so tough, otherwise, even if they have the support of Rice behind them, they definitely do not dare to do so.

Because everyone knows that for the special operations brigade led by Xiang Yongzhan, China must be saved, they dare to block it like this, this is a playful provocation, to provoke the rhythm of war!

They don't have the guts to play!

But now because of this time gap, they used the military exercise as an excuse to temporarily block China's navy, and before China's main fleet arrived, it was logical for the so-called 'pirates' to exterminate the special battle brigade led by Xiang Yongzhan!

This makes Ji Feng look cold, for these two clowns, China is repeatedly tolerated, I'm afraid no one thought that in the end, but feed the tiger for the trouble, let them seize such an opportunity!

If we don't bring back the Special Operations Group, then China will really lose face in the international arena this time!

The troops that were sent out to take revenge, only to not be able to return at all, were caught up and exterminated at their doorstep ..... Then even if they had taken revenge, how much of a deterrent would it be? What is the face of China?

The actual fact is that you can find a lot of people who are not able to get a good deal on a lot of things.

I believe that if word of the matter spreads, there will certainly be such voices raised.

And the aim of certain countries was precisely to make China lose face internationally, so that the effect they wanted would be achieved!

"Dream on!"

Ji Feng gritted his teeth and sneered, "This time, I'll let you steal the chicken and lose the rice! I want to see how you can still jump around when your so-called warships turn into a sea of fire! How can you still blockade!"

"Beep~beep~"

At this moment, Ji Feng's mobile phone suddenly rang, he immediately looked aghast, this was the internal encrypted satellite phone given to him by his little uncle before his departure, obviously, this should be a call from his little uncle or a high level of the military.

He immediately picked up the phone, and it was indeed his younger uncle Ji Zhenping calling.

"Little Feng, let me tell you a message, the Rice fleet in Asia is out and is rushing towards the southern waters, a big war may break out there at any time, you have to be careful!" Ji Zhenping said.

"The rice people are bullying people too much!" Ji Feng smiled and was instantly furious!

## Campus Master Chapter 2752 -

"Little Feng, I have news for you, the Rice fleet in Asia is out and is rushing towards the southern waters, a big war could break out there at any time, you have to be careful!" Ji Zhenping said.

"The rice people are deceiving people too much!" Ji Feng smiled and was instantly furious!

Vietnam and the Philippines had come out to intercept Xiang Yongzhan and the special warfare brigade, angering China, causing China to similarly deploy troops and dispatch a fleet to the southern waters, while existing warships patrolling and on duty in the southern waters were closing in on each other step by step, yet at this very moment, Rice had blatantly sent out a fleet, which was clearly blatantly backing up the Philippines and Vietnam!

What's more, when the Chinese fleet is on its way here, the Rice fleet is deployed, what does this mean?

"The Mi nation is trying to corner China!"

Ji Zhenping said in a deep voice: "So, the situation is almost on the verge of a frenzy now, after you get there, you have to be careful in everything, if you can ....."

Speaking here Ji Zhenping paused, seemingly with some hesitation and indecision, only after a moment did he say, "If you can, don't take risks with your own body!"

Ji Feng was silent.

He was certainly clear about how the situation was here.

Right now, China's fleet was rushing this way, but Rice had blatantly sent out its Asian fleet at exactly this time, without a doubt, it was trying to push China into a corner!

Wouldn't you rather have a war than save the special operations brigade? Well, now I'll add some more weight to it and see if you have the guts to save your troops in front of my Asian fleet!

If China still decides to save its troops, it will be facing the fleets of three countries, namely the Philippines, Vietnam and Rice.

But now with the addition of a powerful giant, the Asian Fleet of Rice, how could China fight? Even if we had to fight for our lives, we would not be able to do so!

If we choose to rescue them, we may be asking for our own death!

But if we don't, what will happen to China's prestige and face in the world?

How can such a country be an ideal partner if it does not even dare to save its own army? Those countries that were originally friendly with China will reconsider their relationship with China, while those countries that wanted to ally with China or were closer to China will think twice!

To save or not to save, it is a very difficult choice!

It's a dilemma!

This is a dilemma! Rice is trying to use this method to push China into a corner and force it to make a choice. But is this choice so easy to make?

I believe that no matter what choice the top brass of China makes, they will end up losing a lot!

That was Rice's aim!

That's why Ji Feng was so angry after hearing this news, thinking that the Mi nation was bullying too much. In fact, Mi nation was not bullying anymore, but was clearly looking for something to do, just to humiliate China!

But China has no choice, it is in a passive position!

"Little Uncle, has a decision already been made up there?" After a long moment of silence, forcing down the anger in his heart, Ji Feng asked.

From Ji Zhenping's words, Ji Feng heard some different meanings – war could break out there at any time, doesn't this mean that the top management of China is afraid that they have already made an intentional decision.

Ji Zhenping said, "There are already a few old masters who have taken a stand, preferring to break out into war, even if it means that a fleet will be destroyed, we absolutely can't fall down the prestige of our China, let alone lose our dignity!"

"Good!"

Ji Feng couldn't help but shout out.

"Besides, your grandfather has spoken." Ji Zhenping said.

"What did grandpa say?" Ji Feng immediately asked.

"The old man didn't say much, he only said one thing ....." Ji Zhenping said, "If people offend me, I will offend them!"

"....."

The moment he heard these words, Ji Feng couldn't help but feel a stirring of his heart and soul.

In a trance, he seemed to be able to imagine the kind of bland look that the old man had when he said those words, but it was as if he could see the astounding killing that his grandfather had hidden in that bland look, as well as the kind of old marshal who, although he was already dying, still held his head high and did not hesitate to fight to the death to maintain his dignity!

If people offend me, I will offend them!

Ji Feng's heart was boiling with blood and he couldn't help but clench his fists.

"Now that you know, the situation could deteriorate extremely at any time, and it's not impossible for war to break out, so you must be careful yourself." Ji Zhenping admonished, he knew that if he asked Ji Feng to come back now, it would be impossible, the boy would never agree, so he would just have to tell Ji Feng about the current situation and tell him to be careful.

Ji Feng nodded and said, "Little Uncle, don't worry, I know what to do!"

In his heart, he also said to himself, "If people offend me, I will offend them!"

Ji Zhenping didn't know how much this kid actually listened to his words, but he wasn't a mother-in-law either, since he was reminded of it, he didn't say anything more, the situation was extremely tense at the moment, and he had a lot of things on his hands, so without saying two words, he also hung up the phone.

Putting away the phone, Ji Feng sat silently in his seat, his expression did not look too excited, but his heart was stirred up.

"How much longer before we arrive?" A moment later, Ji Feng withdrew his thoughts and asked the little soldier next to him.

"Report chief, if there are no accidents, it will probably take about two hours." The little soldier immediately replied, "But the situation in front of us is tense now, if we encounter an interception ....."

"I see."

Ji Feng smiled and nodded, as for whether or not he would encounter an interception, it was not too serious for him!

He slightly closed his eyes and began to ponder.

The distribution of the forces on this sea was now in his mind, and the location where Xiang Yongzhan had last appeared was also in his mind, so all he had to do now was to consider how he should act.

After a few moments, Ji Feng picked up the microcomputer again and brought up a map with many black dots on it. This is the map of this sea area, but if you look at the maps circulating in the market outside, the black dots on this map look very strange.

In fact, these dots were all small islands on the surface of the sea, but they had never appeared on the circulated maps.

Ji Feng's eyes moved back and forth over these black dots, looking at the scale marked on them and projecting where Xiang Yongzheng was likely to appear.

According to his estimation, if Xiang Yongzhan couldn't hold on anymore, then I'm afraid the most likely place for him to go would be close to the island for temporary recuperation and hiding.

So, Ji Feng began to look up information on all the islands in that vicinity .....

At this moment, the eyes of the world are almost all focused on the southern waters of China, especially on the southern archipelago, because here, the largest military confrontation in recent years has taken place, and even, most likely, the largest sea war in decades will occur next!

What's more, Rice and China are involved, and China is the main protagonist!

One of them is the most powerful country in the world, with a leading position in both technology and military, and a powerful military force that makes many countries around the world feel alert and afraid.

The other, however, is an ancient civilised country that has risen rapidly in recent years, and in recent years, China has shown great potential and considerable power.

Now, these two countries are facing each other and, with China cornered, all countries are looking at China and wondering what it will do.

At this time, the already stormy southern waters are now rippling again, and it is already monstrous!

This kind of thing cannot be concealed and, moreover, China has never wanted to hide it, so when the news spread, it soon led to widespread discussions, whether on the internet or television, or various other media, all discussing and showing solidarity with China.

On the internet, some people even cursed Rice's bullying and shamelessness, but there were also many who felt sad and resentful because China's national power was too weak.

Some even speculated that this time, I am afraid that China will have to back down again. Something like this has happened more than once or twice, and China has backed down every time, and I am afraid that this time will be no exception.

This is a speculation that many people do not want to believe, but when they think of the past, they have to believe that the possibility is too great.

I wonder how many people feel humiliated in their hearts!

The sadness that China could not even save its own troops made an unknown number of young people unable to resist cursing angrily, yet there was nothing they could do about it.

At this very moment, however, a news item appeared that shook everyone's spirit.

A news item was broadcast on national television, showing an old man with white hair, but with a glowing spirit, wearing what appeared to be an odd-looking military uniform, visiting a military region.

Although this old man looks very old and hunched over, and his thin body seems unable to hold up the straight uniform, he has an aura that cannot be concealed!

Some people who are familiar with history could not help but shake their spirits at the sight of this image. The uniform worn by this old man was the old uniform of the Chinese army before it was changed, and this was the uniform worn by the old generals at the ranking ceremony back then!

The news report also revealed the identity of the old man – the only remaining founding father of the country, the once highly decorated Ji Lao!

When the not-so-bright but clear words of Master Ji spread across the country through countless TVs and loudspeakers, everyone could not help but feel their blood boil and clench their fists!

"We defeated the invaders after a tenacious battle, and despite the price in blood, we won the independence and dignity of our nation! Our volunteers, with the dauntless spirit of dying together, once created a glorious battle in which a single regiment hardened itself to snipe a Rice division and, ultimately, beat the Rice back to their homeland!"

"It has been proven that, no matter before, now or in the future, our army is an iron-blooded lion that dares to sacrifice and can fight! We do not wish for war, but, we will never fear it!"

## **Campus Master Chapter 2753 -**

The old man's voice was not high, but everyone heard an unparalleled aura in these words.

Courageous, never fearful!

This did not know how many people's blood boiled, and some even had red eyes.

After so many years, someone in China had finally made such a resounding sound that shook the whole world!

However, there were even some people who heard something different from it – the old man used several words in a row with a heavy tone in his speech, paid the price in blood, dared to sacrifice, could fight, and would never be afraid .....

These words, full of momentum, seemed to express more clearly the kind of resounding and boldness of the old man!

This, too, represents the attitude of China's top brass.

These words of the old man did not only cause a shock at home, but even internationally, too!

No one expected China's reaction to be so strong and forceful.

Especially those hostile countries, who knew the situation at the top of China even better, so they understood even better what the old man who spoke represented in China.

These resounding words from the old man's mouth seem to represent a declaration by China to the whole world!

China is not afraid of war, even at the cost of blood!

Tough, yet full of power!

It was frightening to the heart.

Right after the old man's speech, at a decision-making meeting within the military, the chief minister, Xiang Jiefang, and the chief made separate speeches, stating clearly that this time, China would never back down.

In particular, Xiang Jiefang's words made clear the attitude of the top brass.

"This time, the action is not because of a particular person, let alone because of a mere incident. This matter is about dignity, to fight or not to fight!"

"China's dignity is not to be trampled on!"

.....

"Chief, we're almost there."

The young soldier's soft reminder caused Ji Feng to slowly open his eyes and retrieve his thoughts from his contemplation.

He looked outside through the window, but he could only see the clouds below and nothing beyond that, he couldn't help but ask, "Where are we?"

The little soldier said, "To our most forward base, further on is the range of the exercise of the Philippines and Vietnam, we can't go over there."

Ji Feng nodded, and then he felt the plane start to descend, and when it passed through the clouds, he saw the warships below, as well as an island. Ji Feng immediately knew what position he was in according to his memory.

The person who came to greet Ji Feng was a middle ranking officer who explained, "Chief, I'm sorry, because the situation is tight and everyone is on strict guard, so ....."

Ji Feng waved his hand and said, "You're too kind, I'm not a chief, I'm just a junior soldier."

That officer naturally would not treat Ji Feng as a junior soldier, how could he be a junior soldier when he was emphatically ordered from above to protect his safety as much as possible?

However, there was not much he could do now, after all, no one knew when war would break out, so being able to find the time to receive Ji Feng was already squeezing in time.

Ji Feng naturally understood this situation, so as soon as he got his luggage, he said, "Are all the things I want ready?"

The officer nodded and said, "Ready, in addition to a small assault boat, I don't know if you ....."

Ji Feng said, "There is no need for a submachine boat, I just need a small sampan."

Saying that, he looked at the time, then looked out into the distance again and said, "Alright, you guys don't need to accompany me, I'll set off here, you guys just cover for me if necessary!"

"Leaving now?"

The officer was stunned, "It's still early, will it ....."

Ji Feng shook his head, "It's fine, the sampan travels slowly, by the time I reach their exercise range, it will be dark ..... that's it, you guys keep an eye out for my signal."

"Yes!"

The officer said immediately.

Ji Feng didn't say anything more, he changed into a swimmer's gear, took the sampan and other supplies and equipment, and was ready to go.

"I'll send you to the nearest place!"

The officer said. Even though the sampan was specially made and had an adequate booster, this was in rough seas, and it was unimaginable to rely solely on the sampan.

Ji Feng didn't refuse at his words, and then he boarded a speedboat and headed quickly in the direction of the military exercises of Vietnam and the Philippines.

On the surface of the sea, the seemingly close distances actually all took a short time if they actually walked, and Ji Feng just sat on the boat with almost no extra movements in order to save his energy.

Sometimes, the slightest bit of physical strength in an operation can determine the ultimate life or death, and Ji Feng, who is extremely proficient in this, naturally won't waste half of his physical strength.

At the edge of the range of the Philippine and Vietnamese military exercises, Ji Feng got off the boat, and after that, he dived into the water. The supplies and equipment he carried were wrapped up in special water avoidance, while pulling the sampan and moving forward quietly.

As soon as he entered the water, Ji Feng felt the difference. The set of swimming equipment he had on him was indeed quite good, and he hardly needed to move much in the water. When he was going downstream, he only needed to follow the direction of the current and give a slight push to move forward quickly.

Even with the sampan and supplies still pulled behind him, it didn't affect his speed too much, and even if he exerted his full strength, his speed was far faster than usual, even faster than in the scenario simulated in the training space of his intelligent brain.

This made Ji Feng feel more confident about the trip.

Thus, for the rest of the journey, Ji Feng only needed to adjust his posture and range of movement from time to time according to the direction of the current, and he could easily move forward.

By the time it was getting late in the evening, Ji Feng could already see the one warship.

Those were the naval vessels of the Yue Kingdom!

After taking a look at the ugly flags on the warships, Ji Feng couldn't help but snort coldly, a cold light flashed in his eyes as he secretly said, "One day sooner or later, I will definitely sink all these warships!"

With that, he dived into the water and left quietly.

In this way, Ji Feng first passed through the range of Vietnam's military exercises, and then passed through the range of the Philippine military exercises, and by the time he reached the area of the sea where Xiang Yongzhan was, a whole night had already passed.

And during this whole night, he would send signals to Xiang Yongzhan from time to time, hoping to contact him, but there was no response all the time, which made Ji Feng's heart have more or less a bad premonition.

Because the signal he sent out could be transmitted via satellite, and the communicator was also special for the military and was not yet popular among the troops in general, it was extremely powerful, as long as Xiang Yongzhan had the same communicator on him, then he would definitely be able to receive the signal.

However, Xiang Yongzhan never replied.

This seemed ..... to indicate something.

Ji Feng was silent.

If something had really happened to Xiang Yongzhan ..... he pursed his lips, felt the raging seawater, and had no choice but to first go to a small island nearby and temporarily stop to rest and recover his strength.

“Drip~drip~”

After getting on the island, Ji Feng first cautiously scouted the surroundings to confirm that it was indeed different from the description in the information, just a reef island, not suitable for hiding, and only then did he rest at ease.

However, he had only just closed his eyes when a beep came steeply from his communicator.

Ji Feng snapped open his eyes, took out his communicator and saw a line of numbers, he was instantly shaken, this was Xiang Yongzhan's code and also a coded message, Xiang Yongzhan had replied to him!

It seemed that last night, Xiang Yongzhan must have received the signal he sent out, perhaps because it was inconvenient, so he did not reply to him, but now there was no doubt that Xiang Yongzhan was still alive, and this was evident from the signal code he replied.

Ji Feng immediately sent out the signal again, even though he only got the method of contacting these things when he set off from Jiangzhou, at this moment he was already well versed in them.

When he received Xiang Yongzhan's reply again, Ji Feng understood something.

Xiang Yongzhan was still alive, but the situation was not good right now, and he was currently hiding in a place with his special operations brigade. The specific place Xiang Yongzhan did not say, but Xiang Yongzhan was a simple explanation of why he did not reply at night, because the enemy had various means of detection such as electronic detection, which could easily be detected.

And at night because of the poor visibility, and at the same time they lacked powerful detection equipment, once the enemy detected and then launched a surprise attack, they would not be able to escape.

But daytime is different, as they have good visibility and their targets are small enough to move at any time, so they are not afraid of being detected by the enemy. For so far, at least, it was only the 'pirates' who were after them, and no regular troops from Vietnam or the Philippines were directly involved.

Although, that group of so-called pirates, their combat power and other aspects are not inferior to the regular army in any way, but at least, they do not have enough heavy equipment, such as fighter planes and bombers and so on.

As long as the difference in equipment is not too far, Xiang Yongzhan is not afraid of those pirates at all, even if many people in the special combat brigade have been wounded, he is also not afraid.

Even if the pirates were really the regular army of some countries in disguise, but in front of the special battle brigade, they would not have the upper hand.

A wounded special battle brigade is still a special battle brigade!

After a brief exchange between Ji Feng and Xiang Yongzhan, the communication between the two sides was interrupted again. Without saying a word, Ji Feng headed directly towards the coordinates given by Xiang Yongzhan.

Despite carrying various equipment such as a compass, Ji Feng could hardly use it, and with his extremely good sense of direction, he was moving as fast as he could through the water, he had to meet Xiang Yongzhan as soon as possible, although this guy said it was easy, but Ji Feng knew that their situation at the moment was definitely not too good.

So, Ji Feng had to get the supplies to them first as soon as possible, maybe if he arrived one more second, he could possibly save one more life!

After another long dive, finally, Ji Feng approached the coordinates given by Xiang Yongzhan.

“Boom boom boom~”

Suddenly, a violent explosion reached Ji Feng's ears, and he raised his eyes to see three pillars of water that seemed to be rushing to the sky. Looking at that direction, it was the direction of the coordinates given by Xiang Yongzhan!

He instantly changed his face.

Could it be that ..... Xiang Yongzhan was detected because he was communicating with himself, and as a result .....

## Campus Master Chapter 2754 -

In the distance, that huge column of water rushing up into the sky caused Ji Feng's eyes to freeze!

Because the direction in which the water column was rushing up was exactly the direction he was going forward, and there, too, was the direction in which the location coordinates provided by Xiang Yongzhan were located!

Ji Feng's heart immediately thumped, bad!

He first guessed that maybe the communication between him and Xiang Yongzhan had been detected, so someone had attacked the area where Xiang Yongzhan was!

Or maybe there was something else going on!

But whether there was anything else going on or not, Ji Feng wasn't sure, so he could only swim as fast as he could in the direction where that explosion came from!

The sampan provided by the military was also excellent, the engine sound in the water was extremely low, but the power was quite strong and the speed was extremely fast!

However, the sea was so vast and unfocused that it didn't seem very far away, but only when he was actually in it could he appreciate the vastness and boundlessness.

"Boom~"

"Boom boom!"

Suddenly, there was another violent explosion, and Ji Feng's gaze suddenly froze, this time, he still did not see clearly what was going on, but the next moment, the sea instantly rushed up several huge water pillars, the white water pillars were indescribably thick, it was almost as if they were going to rush to the sky, it was shocking!

This violent explosion after explosion made Ji Feng's face change!

He double-checked and found that the direction of the explosion was in the direction of the location coordinates Xiang Yongzhan had told him ..... At this time he was finally sure that this was someone taking aim at Xiang Yongzhan and the special operations brigade!

Just look at that terrifying explosion, it was like a big earthquake, even Ji Feng was so far away, he could feel the waves of the sea suddenly became ferocious ..... that huge explosion was simply going to trigger a tsunami in general!

In such a huge explosion, how can anyone survive?

"Son of a bitch!"

Ji Feng couldn't help but curse angrily, looking jealous, at the same time, he desperately rushed towards the direction of the explosion, he wanted to confirm if Xiang Yongzhan had really been attacked, what the hell was going on here?!

"Drip drip drip drip~~"

Ji Feng was marching frantically, but he suddenly received a signal, he immediately took out his communication tool to take a look, and a look of joy immediately appeared in his eyes, along with relief.

It was a signal from Xiang Yongzhan, telling him that the communication had been detected, and that the place where he was originally hiding had been raided, telling Ji Feng not to go over there for the time being, and to wait for news from him again .....

Xiang Yongzhan is still alive!

When Ji Feng saw this message, he was relieved, it seems that Xiang Yongzhan is still very experienced in combat, in this kind of surprise attack, can even survive! Perhaps, Xiang Yongzhan had already anticipated it!

Now that he was sure that Xiang Yongzhan was still alive, Ji Feng's heart could finally be put down, and at the same time, he also had the leisure to observe those water pillars ..... In fact, at this time, those water pillars had already fallen back, but the after-effects of this series of terrifying big explosions had just reached this side!

"Grrrr!"

The huge waves brought by the aftermath of the explosion pounded so fiercely that they almost knocked Ji Feng off the sampan. He cursed angrily and simply slid into the water with the rush of the huge waves, circled around under the sampan and rolled up again, which not only saved his energy but also reduced the impact of the huge waves on his body.

Don't think for a moment that the waves are all water and don't have much impact, in fact, they are sometimes far more powerful than a truck crash.

If the sampan wasn't specially made, I'm afraid just one huge wave would have been enough to smash the sampan to pieces!

When he got on the sampan again, Ji Feng raised his eyes to look, and vaguely, he finally saw that there were some moving objects on the far side of the sea, which seemed to be ships ..... Obviously, the big explosion just now, I'm afraid, was caused by these ships.

The only thing is that because the distance is too far, Ji Feng can't see clearly where these ships come from, let alone whether they are flying flags, but there is no doubt that these ships are definitely enemies, not friends!

Perhaps it was because he thought that the continuous explosions were enough to extinguish the special operations brigade, so the ships did not fire again and the sea gradually calmed down.

A few moments later, Ji Feng received another signal from Xiang Yongzhan and re-agreed on a meeting coordinate, and then the two cut off contact.

In such a situation, one had to be careful in every move, as anything could happen here. And, after the cut-off, they had to improvise on how to act, without any plan to follow, except for the ultimate goal – to meet up.

This is why there is a saying that military orders are not followed on the battlefield, because the situation on the battlefield is really fast changing and no one knows what will happen next, especially on the vast ocean.

Therefore, Ji Feng, with twelve thousand caution and prudence, began to rush towards their newly agreed coordinates.

Along the way, he kept the sampan pressed as far below the surface of the water as possible, while his entire body was also submerged in the water, with only his head exposed to breathe outside, only in this way could he minimise the target and reduce the possibility of exposure.

How far the navy's technology had developed now, Ji Feng did not know, but what was certain was that there was definitely some high-tech equipment that he did not know about, the functions of which might have exceeded people's imagination.

For example, this set of swimming equipment he was wearing and this sampan beside him, with these two items alone, he could cross the vast ocean, if in the past, if he said it out loud, it would be treated as a fantasy or simply as a joke.

But now, it was a fact.

So, would the other party's ship have any high-tech detection and reconnaissance equipment, Ji Feng felt that it was very likely, otherwise why did Xiang Yongzhan draw an attack from the other party just after he had not communicated with him for a long time?

Since this was the case, Ji Feng naturally had to prevent the other side from having any observation equipment on the sea surface, although in this vast sea, he was alone, a sampan, the target was really too small to be detected, even with the most advanced telescope or detection equipment nowadays, it would be impossible to detect him at a long distance or in the air.

Unless, of course, it was the kind of seaplane that could fly close to the water, or even stop on the water, but so far, apart from having seen fighter-bombers and so on within the range of the military exercises in the Philippines and Vietnam, he had not seen any planes after that range.

But in his operations, Ji Feng always tries to be as cautious and careful as possible.

Perhaps it was because of his caution that he encountered few more problems in the next few hours, and the big, shocking explosion did not happen again.

The only thing was, Ji Feng saw the speedboat that roared across the sea, cutting through a wave, and he also saw clearly the people on that speedboat, all armed but not wearing uniform, dressed casually, and there were no signs on the speedboat either.

Pirates!

Ji Feng immediately understood that these people were pirates, and then he also understood the whole situation – Vietnam and the Philippines had blocked this sea area, claiming military exercises to the outside world, but in fact it was to block Xiang Yongzhan's way to them, and perhaps, in turning around and returning, I am afraid that all the way back had also been blocked.

And within this area, it was left to the so-called 'pirates' to take care of the special operations brigade.

In this way, even if China is furious afterwards, there will be no evidence to prove that it was the Philippines or Vietnam that killed Xiang Yongzheng and destroyed the special operations brigade.

I'm afraid this is their calculation, and why they are here for the military exercise, but not taking action themselves.

If they had used the navy to strike directly, the special operations brigade, no matter how powerful, would never have been able to hide.

In this vast sea, the special forces will not be able to use their fighting power, especially in the face of the navy's strong ships and cannons, they will only be slaughtered!

"What a good plan!"

Ji Feng gritted his teeth, there was humiliation in his heart, more hatred and suffocation: "One day, there will be no more naval forces of other countries on this vast sea ..... these broken ships, I will smash them all for you sooner or later!"

.....

The first thing you need to do is to find the ship.

Finally, according to the guidance of the equipment on the set, Ji Feng approached the coordinates that Xiang Yongzhan said, but found that there was nothing there!

Ji Feng's brow couldn't help but frown, what happened?

How could Xiang Yongzhan have asked him out to the surface of the sea? Did it mean that they were all in the submarine? Or .....

The first thing you can do is to take a look at the sea, but you don't find anything different. It seems that Xiang Yongzhan really did ask him out to this place where there is nothing!

So, where was Xiang Yongzhan?

After thinking about it, he was ready to take out his communication equipment and send a signal to Xiang Yongzhan to ask, even his heart had some vague bad feeling, could this be a trap?

"Drip drip drip ....."

Just at this time, before Ji Feng could send a signal to Xiang Yongzhan, he received a signal first, or from Xiang Yongzhan, but it said, let Ji Feng change to another place.

Ji Feng looked at the coordinates given by Xiang Yongzhan and then turned his head to the right and saw a black dot in the distance. A map of the sea immediately appeared in his mind. There was indeed a small island near here, with jungle on it, because the island was small and of little value, so no one had ever set foot here.

It seemed that Xiang Yongzhan should be hiding on that island.

So, Ji Feng swam across again, and since the distance wasn't too far, it didn't take him too long to arrive near the island.

However, what was in front of him made him freeze in place .....

## Campus Master Chapter 2755 -

Dilapidated, wrecked!

This was the only thing that Ji Feng could see after seeing this island!

The island wasn't very big, and from afar, the trees on it were falling to the east and west, some of them were even broken into several pieces, and the tangled branches and leaves were all over the island to the nearby sea.

Looking at the scene, it seemed that a storm had just swept over the island not long ago, wrecking the island.

As he got closer to the island, he saw a large number of dead fish floating in the sea near the island, some of which were even torn up.

Looking at the island, the ground was almost unrecognisable and the rocks were scattered in a messy manner.

Where was this island that no one had ever set foot on before in the vast ocean?

If people didn't know about this scene, I'm afraid they would think that this was a place that had been swept by the ghosts back in the day ..... It was so wretched that Ji Feng couldn't believe that this was still the island that was described in the information.

However, what made Ji Feng feel even more gloomy was that as he got closer to the island, he smelled a smell that was different from the rest – the smell of nitrous smoke!

Compared to the salty smell of the nearby sea, the smell of nitrous smoke here was obvious enough!

Looking at the wreckage on the island, Ji Feng already had a vague idea of what had happened – if he was right, this place had been bombed just a short while ago!

I just didn't know whether it had been bombed by artillery shells from the warships or by bombers .....

But whichever it was, it wasn't good news, because, since it was able to attract the enemy's bombing, it meant that Xiang Yongzhan and the others had probably appeared near this island, but now looking at the wreckage on this island, Ji Feng's heart couldn't help but sink.

Suddenly, his nose twitched. He smelled a smell of being burnt!

Ji Feng quickly approached the island, yet he then saw that in the jungle that had been blown in a wretched manner long ago, there were still burning fires, only because the sea breeze was blowing in another direction, so he didn't see the smoke at first, but now, the situation on this island was even clearer to him, and his expression was yet more grave.

"Hmm?!"

Suddenly, Ji Feng's eyes narrowed slightly.

He seemed to see a bright light flash twice in the jungle, but it was extremely fast and disappeared in the blink of an eye.

Ji Feng's eyebrows immediately furrowed as he pressed both the sampan and himself under the surface of the water and stared carefully at the island, trying to confirm whether he had really seen something just now, or if it was just a spark from an avalanche of fire burning in the jungle!

"Swish swish!"

Two more strokes.

Ji Feng's eyes suddenly lit up, there was actually someone on top of the island!

And most importantly, one long and one short, this was a signal that only the military would use!

Could it be that Xiang Yongzhan and the others were on this island?

Although there was some expectation in his heart, Ji Feng did not rush, the more he came to the front, the more he had to be calm, many things often break down at the last step, Ji Feng naturally would not make such a mistake.

He waited patiently.

"Swish swish!"

This time, Ji Feng finally confirmed that it was a light signal, only that what the other party used seemed not to be a light, but more like sunlight reflected from a mirror.

But Ji Feng is still not in a hurry to move, because he knows very well, he came all the way over to hide very well, only at first glance just now to see the island's tragic situation slightly movement, but may not really be exposed, this may be the enemy's trap may not be.

However, he had his own way ..... he slowly moved forward, until he came to the edge of the island under a large broken tree, only the roots of the tree thicker than an adult arm bare ` exposed, all the way to the sea, as for the trunk and crown, long ago has been blown to pieces, scattered on the sea, some floating, some are already scattered scattered.

This provided the best cover for Ji Feng, who first tied the sampan to the thick roots of the tree and then, after making sure that no one was around, he quietly went up to the island.

Even if there were really people on the island, it would not be difficult for Ji Feng if he wanted not to alert the other party.

Only, because he had to watch carefully, whether it was behind the messy rocks around, or near the broken trees, or on the canopy of those big trees that were spared, there could be people hiding, so Ji Feng didn't move very fast, and carefully approached the place where there was a bright light flashing just now along the way.

There was no one there!

When Ji Feng reached the location where the bright light appeared, there was no one here, only trees burning and crackling with fire.

At this time, Ji Feng had already activated the bio-current at full power and applied it to his eyes, sweeping his gaze around.

Ji Feng did not move and quietly went around.

Swish!

When Ji Feng finally saw the man's face, his face changed abruptly and a brilliant light flashed in his eyes – a Chinese!

This person who was lying on the ground and was in charge of the guard was definitely a Chinese!

Moreover, Ji Feng also knew this person, he just didn't know his name, but it was certain that this person was definitely a soldier of the Special Combat Brigade, he had also watched these people practicing aerobics back then .....

It really is them!

The original tight frown of Ji Feng finally slowly relaxed some, no matter what, he finally found the special combat brigade! Although, the process was a bit tortuous.

Zhang Jiaquan pursed his lips and gritted his teeth, letting the searing heat wave come over him, and the burning fire nearby, even though it was still some distance away, still roasted him all over because the fire was too strong.

He was not saying a word, holding his sniper rifle in both hands, watching the sea through the gaps in the branches and leaves, even though he was not the only sentry point, but he dared not be the least bit careless, because his ability to spot the enemy in time could be a matter of life and death for the whole brigade!

What's more, one of his comrades, although on guard in the canopy of a large tree not very far ahead of him, had a good view of the sea, but as it was closer to the burning jungle and the fire was more intense, one naturally suffered more by staying there, and he could not guarantee that his comrade would not be affected by the fire, so he had to be more cautious and careful.

In case an enemy came and he didn't spot it, then maybe their whole brigade would die here!

“Pop!”

Suddenly, Zhang Jiaquan felt someone patting his shoulder ..... In a flash, his entire body instantly tensed up, even every sweat hair on his body stood up, and his entire body even turned his head abruptly as if someone had stepped on his tail.

A man was crouching next to him.

“.....”

Zhang Jiaquan was simply as if he had seen a ghost, his entire person was in an intense to extreme shock, and in that instant, he could not even speak.

However, the instincts that long term training makes a good special soldier develop made Zhang Jiaquan react instantly, he subconsciously was about to turn his gun around, but was grabbed by the man's wrist.

“I'm Ji Feng, I'm here to save you, take me to see your captain!” Ji Feng said.

Chinese .....

Zhang Jiaquan was slightly dumbfounded, then he reacted, and he finally recognized who the man in front of him really was: “Ji, Ji ..... Chief!”

Ji Feng nodded slightly and said, “Quickly take me to see your captain, where is he?”

Now was not the time for gossip, every minute was extremely valuable.

Zhang Jiaquan finally understood that this person in front of him was really Ji Feng, he immediately stood up and said, “Chief, our captain is on the other side of the island, I'll take you to him!”

With that, he cupped his face with one hand and let out an extremely realistic bird call from his mouth, “Chirp .....”

And then he said, “Chief, please follow me.”

Ji Feng nodded his head.

On the next road, Zhang Jiaquan kept making bird calls, and Ji Feng likewise saw that there were seven or eight guard points along the road, and all of them were extremely hidden, and if he didn't use his translucent eyes, it was almost difficult to detect them.

It has to be said that although the special operations brigade was forced to this point today and was in such a mess, there was a reason for that, but the special operations brigade's own combat strength and various wilderness survival abilities, that was really strong to the extreme!

However, when Ji Feng saw Xiang Yongzhan, he was still shaken for a moment.

At this moment, Xiang Yongzhan was covered in filth, and more importantly, beside him, a group of people were lying on the ground, all with extremely obvious wounds, all of them were wounded, some of them were even badly injured.

Xiang Yongzhan was guarding them!

“..... Ji Feng!” When Xiang Yongzhan saw Ji Feng, it was a long time before he said, “Thanks, brother!”

“What's polite, you should!” Ji Feng smiled and said.

“.....”

Xiang Yongzhan did not say anything more, but in reality he was aware that this was not something that should be done for Ji Feng, no one knew better than him what it meant for Ji Feng to come here from the country, and no one knew better than him how dangerous it really was.

It could be said that Ji Feng was laying down his life to save him!

Moreover, this was not the first time!

No thanks for a great kindness! Xiang Yongzhan didn't say any more words of thanks, he just took this deeply to heart and turned to ask: "Where are the supplies you brought? Now I have several seriously injured people on my side who urgently need medicine, and we don't have enough special effects current on us."

Ji Feng smiled and said, "Don't worry, it's all ready to go!"

Next, Ji Feng first led the men to take out some of the supplies, especially the medicines, and gave treatment to some of the wounded first, and it was only at this time that Ji Feng learned about the situation of the special combat brigade.

"Ji Feng, you shouldn't have come, this time, we might not be able to go back!" Xiang Yongzhan said in a deep voice.

## Campus Master Chapter 2756 -

In this critical situation Ji Feng could sacrifice his life to come to the rescue, and Xiang Yongzhan was grateful in his heart, but again, he didn't want the person who came to be Ji Feng, because whoever came this time, as long as the country didn't send the navy to fight directly, would probably die here!

It would be too bad if Ji Feng died here, and Xiang Yongzhan would also have a bad conscience.

"What's the point of talking about this now? We're all here even if we shouldn't be here, so let's not talk about this!" Ji Feng smiled, "Let's just talk about the current situation first!"

Xiang Yongzhan nodded, he was not a mother-in-law by nature, and now was not the time to be indecisive, so naturally he would not be indecisive.

Taking advantage of the gap when the soldier was dressing and treating the wounded, Xiang Yongzhan said, "This time is very troublesome!"

Ji Feng wasn't surprised, if they hadn't encountered a great deal of trouble, how could Xiang Yongzhan and the Special Combat Brigade be hiding on such an island?

"There were no surprises all the way there, but on the way back, we were attacked many times, and although almost all the incoming enemies were wiped out, there were too many enemies and we were greatly depleted."

Xiang Yongzhan's face was not too good, the strong fighting force of the Special Combat Brigade had been hard pressed and dragged down by those stragglers, which made him angry and helpless. Being in a foreign country, even the supplies were not very smooth, and the wounded were not treated and treated in time, otherwise, there would not have been so many seriously wounded!

In fact, some of the seriously wounded were completely worn out like this, and this is where Xiang Yongzhan was helpless.

"Then I abandoned the original plan of action and route, took the alternate route and went by water, then I met the pirates, fought a few times, each side had damage, but because we didn't have enough firepower, we lost a bit more!"

Xiang Yongzhan said, "As a result, we caught up with the military exercises of the Philippines and Vietnam again, so I had to retreat here!"

On the way back, if there were only pirates, Xiang Yongzhan wasn't too nervous, even if the damage was bigger before, it wasn't something that would kill him.

The reason why the special battle brigade has such a high status in the military is not just because the special battle brigade has a high rank and good treatment, but because the people in the brigade have real skills.

Although the pirates have some small gunboats and so on, but Xiang Yongzhan and the special combat brigade is not without a chance to eliminate them, but just need time to maneuver with them.

When it comes to fighting in the water, the Special Warfare Brigade is also not bad at all.

But then the pirates suddenly added a small warship, which instantly unbalanced the power of the two sides, and the gap was infinitely widened.

The difference was infinitely widened. No matter how powerful a man was, he could not defeat a steel monster.

So Xiang Yongzhan knew that it was time to retreat.

However, at this time he came across the military exercises of the Philippines and Vietnam, and he immediately realised that these two countries were obviously involved, and were trying to block him out of these waters!

Xiang Yongzhan realised that he was in trouble, so he made a quick decision to try to hide while sending an emergency distress signal to his country.

However, soon after they sent the distress signal, the place where they were staying was bombarded by the ships' guns!

The roar of the warship's guns almost swept away the island where they had landed, a scene that sent a chill down the backs of Xiang Yongzhan and the others who had just left the island.

Fortunately, they decided that the island was not suitable for hiding, so they chose to leave. If they had left a little later, I am afraid that they would have been blown to pieces by the artillery, and I am afraid that they would not even be able to find their bones!

Xiang Yongzhan then realised that the signal he had sent out might have been detected or leaked, which made his heart sink continuously.

To test this suspicion, he sent his men across to another island, sent a signal to China, and then swam back as fast as he could.

Xiang Yongzhan knew what he was up against!

“Then this island .....?” Ji Feng frowned.

“This island was also bombed, or the same way, first lure the other side to bomb it once, and then we only come up, so at least we can ensure that in a short period of time, it will not attract the other side’s attention!” Xiang Yongzhan said, but his expression was icy cold, “I just didn’t expect you to come!”

For Ji Feng to come directly to the island by touch, Xiang Yongzhan was not surprised at all, with Ji Feng’s ability, even if it was more exaggerated he could still accept it!

Ji Feng slowly nodded his head, Xiang Yongzhan was indeed very good at commanding combat and improvising, etc. This was evident from the combat power and combat quality of the special combat brigade he led.

The reason why they are in such a situation right now has nothing to do with their combat prowess or command, it is entirely due to the fact that there is no aspect of timing, location, and people on his side, which is not something that can be fought against by human power, not a crime of war!

“So what are you going to do next?!” Ji Feng asked.

“Unless a warship comes directly, otherwise, we can’t escape!” Xiang Yongzhan shook his head, in this vast ocean, they only had a few small boats, and with a blockade in front of them and pursuers behind them, how could they get away?

“If our warships could just drive here, then I wouldn’t have to come!” Ji Feng said, “Say something reliable!”

“..... If I had a reliable solution, why would I need to hide here?!” Xiang Yongzhan said, “But you, since you came to save us, you don’t have a plan of action, or you don’t have anything to prepare?”

Ji Feng slowly shook his head and said, “I did prepare, but I couldn’t bring so many people, there are too many seriously injured people here!”

Of course he was prepared before coming here, he even thought that in the end, if there was no way out, he wanted to tie everyone with a string of rope and swim back directly, as long as they crossed the range of the military exercises of those two countries, the Chinese navy would be able to meet them!

For this reason, he had brought a large amount of swimming equipment, enough for everyone!

Perhaps to others, this solution was a complete fantasy, swimming across the vast ocean, it was a joke! However, for Ji Feng, it was very feasible, and just because others couldn’t do it, didn’t mean he couldn’t do it either.

But when he saw the situation of the special operations brigade, he immediately gave up this idea, his preparation was a bit redundant, not that this solution was not good, but there were too many seriously injured people, even if they were given swimming equipment and taken across, they simply did not have the strength to lift their hands, how could they swim across such a long distance?

Moreover, there are too many uncertainties in the process of swimming, such as heavy winds and waves, attacks by dangerous fish in the sea, and the irritation caused by the cold seawater, so that the severely injured will not suffer from internal organ failure and other sudden illnesses?

All these problems have to be taken into account, and they are all very likely to happen!

After considering all of them, Ji Feng knew that his original solution wouldn’t work, so, without extra equipment, he didn’t have too good a solution for the time being!

Xiang Yongzhan gritted his teeth, “It seems that there’s only one last solution to use!”

Ji Feng asked, “What solution?”

Xiang Yongzhan turned his head to look in another direction and said in a deep voice, “Go to Treasure Island!”

Ji Feng was stunned, “What? Go where?”

“To Treasure Island!”

Xiang Yongzhan said in a deep voice, “Now there is no way to pass in front of us, Vietnam and the Philippines are having military exercises, if we go over there, we will definitely be stopped by them, and we may even be turned over to the pirates, that is also a dead end, instead of that, then why not turn around and go to Treasure Island, this way even if there is danger on the way, it will only be from pirate attacks... ..”

“Wait a minute!”

Before he could finish Ji Feng interrupted him and said, “You’re not mistaken, are you? Do you know what kind of identity you are? Going to Treasure Island? You’re going to Treasure Island in the capacity of the Chinese Special Warfare Brigade?”

What a load of crap!

Even though everyone knew that China and Treasure Island were Chinese of one ancestor, because of political differences and various reasons, it was absolutely impossible for Treasure Island to allow Xiang Yongzhan and the others to enter.

It was not even as realistic as forcing their way through the military exercise areas of the Philippines and Vietnam!

However, Xiang Yongzhan nodded his head very seriously and said, “That’s right, go to Treasure Island! We can’t wait any longer, the other side’s encirclement is getting smaller and smaller, if we wait any longer we will definitely die, since we are both dying, why do I have to die in the hands of those devils?”

Ji Feng frowned: “But if we go to Treasure Island, do you think the other side will agree?”

Xiang Yongzhan said, “Let the country negotiate with that side, at least our side should move first!”

“If .....

Ji Feng said, “I mean if, Treasure Island agrees to our entry, but only if you all have to lay down your weapons and become prisoners first, what are you going to do?”

Xiang Yongzhan was silent.

Getting a soldier to lay down his arms and become a prisoner was really going to be harder than even killing him! Not to mention a man of Xiang Yongzhan’s fierce nature!

It was almost impossible to get him to become a prisoner!

As expected, Xiang Yongzhan was silent for a moment, and then looked at Ji Feng and said, “As I said earlier, it’s death on both sides, so I’m willing to choose a better way to die!”

Ji Feng frowned and asked, “What do you mean?”

Xiang Yongzhan said in a deep voice, “I want to go to Treasure Island! But not as a prisoner, if the Treasure Island side does not agree, I will not enter Treasure Island, but I will fight those motherfuckers to the death in the strait, even if I die, I will take a few more on my back! If the Treasure Island thinks that everyone is Chinese, they might send their navy, or at least, they can exterminate those so-called son of a bitch pirates!”

“As for me ..... dying has nothing to fear!”

## Campus Master Chapter 2757 -

The words spoken by Xiang Yongzhan were powerful and full of bravado.

However, Ji Feng did not answer the words, and only shook his head slightly.

“What, do you have other ideas?!” When Xiang Yongzhan saw Ji Feng shake his head, he couldn’t help but ask.

“Not for now!”

Ji Feng shook his head and said, “However, I think this idea of yours ..... has some gambling luck in it. Think about it, it’s not even certain if we can enter the Treasure Island Strait, so how can we fight the enemy to the death there!?”

It’s not easy to enter the Treasure Island Strait!

From where they were now, it was at least a thousand kilometres to Baodao, such a long distance, and with so many wounded in the special operations brigade, how could they cross? Do they have to swim across? It would be better to go directly to China, as the distance would be much closer!

Even if they could reach the strait, what would they do to fight the pirates? They would have to fight with their artillery with submachine guns, right?

“I’ve thought about this idea many times, it’s the only way I can think of, and it’s a feasible one! Right now there are Filipino and Vietnamese navies in front of us in a military exercise, in effect they are intercepting us, and there are pirates behind us, these people must all think that we are caught in a siege and absolutely can’t get away, so they definitely won’t expect us to turn around and go to Treasure Island!”

Xiang Yongzhan said, “If this method doesn’t work either, then now we really just have to wait for death.”

Surprise!

If everything was expected, there would be no need to fight the battle, and this was the reason why they were in such a situation.

Therefore, Xiang Yongzhan definitely did the opposite, since they all thought that the special operations brigade had fallen into their encirclement, then, Xiang Yongzhan would not follow their ideas!

Although going to Treasure Island is tantamount to making a big detour, and there may even be countless hardships and dangers, but at least, this can jump out of the other side’s encirclement, and, even if one ends up dying in Treasure Island, it is still considered to be dying on one’s own country’s land, and it is not like dying in a foreign country!

Ji Feng pondered for a moment, slowly nodded his head and said, “Now it seems that perhaps, this solution of yours is also the only feasible one, unless our navy can fight over in the shortest possible time!”

But that was clearly impossible.

Not to mention China’s fear of provoking a war, just in terms of combat power alone, China’s navy does not necessarily have the strength to fight over, the Philippines and Vietnam are a bit better, but do not forget that the Asian fleet of the Rice Nation has also moved, if against the Rice Nation, one has to admit that there is indeed a gap between the Chinese navy in terms of equipment and the combat experience of warriors and combat education.

Since waiting for help would not work, seeking self-help became the only way.

But the gap between the two sides was too great, the other side had strong ships and cannons, and although the special battle brigade was strong, it was only a land force and did not have too powerful weapons and equipment, even if they wanted to fight for their lives, they lacked sufficient weapons.

The only way out was to leave!

To put it more harshly, to flee!

“In that case, you agree with this solution?” Xiang Yongzhan asked.

“I agree, but there is a problem .....” Ji Feng looked at him and asked, “How do we get to Treasure Island?”

“Capture the ship!”

Xiang Yongzhan said at once.

Ji Feng frowned, "Capture whose ship?"

"Those pirates'!"

Xiang Yongzhan said in a deep voice: "Find a way to draw those pirates over, they have a pretty good ship, as long as we can capture it, we can go through the other side's encirclement in a big way and enter the strait of Treasure Island!"

"Capture the ship?"

Ji Feng shook his head and said, "How to capture it?!"

If he wanted to take the ship from the pirates, I'm afraid people would think he was joking if he said that, unless he could directly parachute onto the ship and launch a surprise attack, otherwise, how could he take it?

Xiang Yongzhan said in a deep voice, "I have my own way!"

It could be seen that he had already thought about this route over and over again, and had considered it very maturely, so he had any details at his fingertips.

However, for the capture of the ship, Ji Feng is still a little less optimistic, first of all, want to approach the pirate's ship itself is already difficult, especially in this vast sea, no one knows when the pirate's ship appears in what place, how to capture?

Even if we know where the pirates' ships are, how do we get close?

Xiang Yongzhan said, "We can only rely on a surprise attack!"

Ji Feng asked, "How?"

"First send a signal to lure the pirates over, then we immediately leave here, see the right moment, rush over with a speedboat and take the ship by force!" Xiang Yongzhan said in a deep voice.

"That's too big a sacrifice, right?" Ji Feng frowned slightly, using a speedboat to charge, this is usually the first landing force to do, the sacrifice is big and scary, but right now the special combat brigade only has how many people? If you use this method, you may not even get to the front of the others before they are all blitzed!

Even, if the pirates' combat skills were even higher, perhaps a single shell could take care of the entire special battle brigade.

Ji Feng felt that this solution was somewhat unworkable.

Xiang Yongzhan, however, gritted his teeth and said, "I will personally lead the charge! I believe in my soldiers!"

Ji Feng shook his head and said, "You're still gambling on your luck!"

"Now that things have come to this point, it's just a matter of seeing if luck is on my side or not!" Xiang Yongzhan grinned, "This kind of ending, every one of us has predicted it, it's nothing to be afraid of."

Ji Feng was slightly stunned, and then he saw that not only Xiang Yongzhan, including the other warriors standing next to Xiang Yongzhan, and even those warriors who had been wounded, there was not the slightest bit of fear or dread visible on their faces, and when Xiang Yongzhan talked about betting on luck, those warriors even showed a smile.

It looked like they had really expected the current ending and had simply stopped taking life and death seriously!

"If you're going to die left and right, you always have to die like a soldier!" Xiang Yongzheng said.

"....."

There was something inexplicably touching in Ji Feng's heart. These soldiers, they may not have extraordinary intelligence, they do not have the great wisdom to be able to strategize, and they do not have the usual abilities like superheroes in movies and comics, but at this moment, they have a fearlessness, a great verve!

It was because of their ordinariness that their calmness in talking about life and death, even knowing that they might be dying but still smiling, touched the hearts of people the most.

Ji Feng looked at them and a feeling of respect rose in his heart.

"I'll go!"

Ji Feng said with a soft sigh in his heart.

Xiang Yongzhan was stunned and asked, "What did you say?"

Ji Feng said, "The matter of capturing the ship, just leave it to me, I'll be responsible for capturing the ship, but, how to attract the pirates over, this I can't do, I need to rely on you guys!"

Xiang Yongzhan was a bit stunned when he heard that, "Ji Feng, are you really willing to take the ship?"

Ji Feng said, "I've come, if you guys fail to capture the ship, can I still leave? Then why don't I do it myself, so ..... I have some peace of mind instead!"

He wanted to say that if he took the ship himself, he might have a better chance of success, but the words were swallowed back in his mouth, for if he said that, he was afraid that it would discourage these warriors.

However, Xiang Yongzhan was overjoyed at his words, others might not know, but he knew exactly what kind of strength Ji Feng had!

Although he didn't know if Ji Feng could succeed in capturing the ship, he was sure that if there was anyone among the people present who could have the greatest success rate in the shortest time, apart from Ji Feng, there was absolutely no second person to think of!

"It's settled!"

Ji Feng said, "Hurry up, while it's still early in the day, hurry up and lure the boat over!"

Xiang Yongzhan nodded, looked at Ji Feng and said seriously, "Older brother, no matter if today's matter can be accomplished or not, I owe you my life! In the future, but whenever you need ....."

"All right, all right!"

Ji Feng waved his hand and impatiently interrupted him, saying, "When did you learn to be so mother-in-law, and soldiers ..... hurry up, we don't have much time left!"

Even from a distance, he could clearly feel the burning heat from the blaze in the jungle, and I'm afraid it wouldn't take long for the fire to reach them, and then there would really be nowhere to hide on the whole island.

The first thing I'd like to say is that I'll have someone send out a signal to lure the pirates' ships over, so you can observe first and see where it's most convenient to do it, to be as hidden as possible and to take the least amount of time!

Ji Feng frowned and asked, "What, where are the pirates' ships docked, and still under your control?"

Xiang Yongzhan gave a heated laugh and said, "Do you really think I've been pouting and fleeing with my head in my hands these past few days? According to my observations, the pirates are coming from the southwest, they should have landing points in that direction, or at least a base, and their ships have come from that direction every time."

"And I've tried it more than once, on the biggest pirate ship, the maximum range of the guns is about fifteen kilometres, they haven't fired missiles, torpedoes were fired twice, but we dodged them both, based on these attacks, the pirates are more likely to use artillery, this should be related to the amount of ammunition they carry, this time if we lure them over They should still be using artillery in eight out of ten` nine cases, so look within this range and see where it would be more appropriate to strike!"

"OK!"

Ji Feng looked at him and was surprised: "You really didn't just take a beating these two days! You've been observing very carefully!"

Xiang Yongzhan said in a good-natured manner, "No matter how bad I am, I still have the basic combat literacy, right? I know my enemy and myself, I know this, right?"

## Campus Master Chapter 2758 -

Xiang Yongzhan said he was poor, of course, this is self-effacing words, in fact, can in such a crisis, but also observed so carefully, all the characteristics of the pirates clearly, and open mouth, if this is still poor, then I am afraid there are not many people excellent.

It's just that Xiang Yongzhan is obviously indignant that he has fallen to this state, but there is nothing he can do about it, so he can only tease himself a little.

Dwelling on this topic would only waste time, so Ji Feng only flirted with him twice, and then said, "Since that's the case, then get ready to do it!"

"Wait a minute, you definitely can't do it alone." Xiang Yongzhan said, "I'll bring a few people along with you!"

"..... is fine!"

Ji Feng nodded his head and agreed after a slight consideration.

If he really wanted to take over the ship, relying on him alone would definitely be a bit troublesome. Although he didn't know the rules on the ship, he thought that each person on the ship should have their own division of labor and would be distributed in different locations, for example, some people might be on the deck, some in the cabin, and some in the wheel crew .....

Even if Ji Feng's speed was fast, it would be absolutely impossible to take the ship without alerting anyone.

Then, once the pirates are alerted, by the time those pirates see that the situation is out of control, God knows what choices they will make, knowing that those pirates may not be real pirates, according to previous speculation, those pirates may well be the navy of a certain country pretending to be pirates!

So, I'm afraid that soldiers will be a bit more rigid when they do things.

In case someone detonated the explosives, or after sending back the signal, other ships on the other side fired directly at that ship, preferring to sink it rather than let them snatch it away, then it would be troublesome then!

Next, Xiang Yongzhan began to select the men for the mission, as there were seriously wounded men, and more than one, so someone had to stay behind to look after these seriously wounded men. At the same time, it was not possible for all of them to go on the mission, because if the mission failed, someone had to stay behind .....

So, after Xiang Yongzhan's selection, a total of ten people were selected to participate in this operation, while those who were not selected looked equally calm, they did not feel happy because they had escaped this dangerous mission for the time being, or frustrated because they were not selected.

Because in such a dangerous environment, no matter whether they stay or carry out the mission, they have to try their best to fight and kill!

"There are twelve of us in total, divided into three groups of four each!"

Xiang Yongzhan said, "After boarding the ship, we have to control three places respectively, the engine room, the fire control room, and the ammunition store! These three areas must be controlled as soon as they come on board, as for the others, they can be put off for a while!"

These three areas were the most important areas on the ship, and whether or not they could control the engine room would depend on whether or not they could successfully control the ship. The fire control room, that goes without saying, as long as they mastered the firepower on the ship, even if they were discovered, they would be able to fight with the other side with the ship, even if they ended up dying in battle, at least they would be able to kill a few more bastards!

The reason for controlling the ammunition depot was to prevent the other side from jumping to their death and detonating the ammunition depot, then the whole ship would be destroyed and they would all be buried at the bottom of the sea!

All those present were elite special forces soldiers who had been through a hundred battles, as long as the mission was arranged, there was no need to say much at all, so when Xiang Yongzhan finished speaking, he looked at Ji Feng.

“Anytime you want to start!”

Ji Feng nodded, he was ready to act at any time and had also been prepared for a long time.

Xiang Yongzhan then said, “Good then, next we will first lure the other side’s ships over, the boarding of the ships will depend on you!”

To seize a warship by force was not just a matter of words.

Not to mention that the height of the ship’s side from the water was enough to make most people despair, let alone boarding the ship and grabbing it by force, let alone climbing up first!

What’s more, the other side will not just watch you climb up, from time to time patrols, as well as all kinds of surveillance, are now all in place, want to climb up without being discovered, simply unimaginable!

If anyone could climb up there successfully, it would be Ji Feng!

Ji Feng didn’t say anything, he simply nodded and said, “Let’s lure the boat over first!”

Xiang Yongzhan nodded, turned his head and said, “Tell Mountain Eagle to send another signal!”

The special battle brigade had soldiers who had specially brought their communicators with them to the nearby island, the purpose of which was to prevent the signals from being detected by the enemy and then carrying out long-range artillery strikes, that soldier codenamed Mountain Eagle also immediately changed his location every time he sent out a signal, because it wouldn’t take long for his original location to be bombarded by an overwhelming barrage of shells next!

This was the reason why Xiang Yongzhan had told Ji Feng several coordinates in a row, but when Ji Feng arrived, he was nowhere to be seen, not because Xiang Yongzhan had tricked him, but to deliberately move the enemy away!

And now, Mountain Eagle was to signal again to lure the enemy ships over.

So, in order to be able to draw the biggest one of those pirates’ warships over, Mountain Eagle sent several times in a row, and all of them used emergency signals.

“The others get ready, next Ji Feng will board the ship first, once we receive his signal, everyone must rush up in the shortest possible time, whether we can break out of the enemy’s encirclement will depend on this action!” Xiang Yongzhan said in a deep voice.

“Yes!”

All the soldiers answered at the same time, neatly and uniformly.

Ji Feng nodded secretly as he watched, even though he had fallen into such a dangerous situation, the spirit of these people was still there, and they were all full of fighting spirit, this alone was something that few troops could achieve nowadays.

The time passed, and everyone looked serious, waiting was the most torturous, because no one knew, which ship would come this time, let alone how many people would come, and this time, they could only wait passively.

“Here it comes!” A warrior suddenly called out.

Finally, after a full half hour had passed, a few white dots suddenly appeared on the sea, and soon the dots quickly enlarged, and two ships, clearly appeared on the sea.

Xiang Yongzhan’s heart sank: “How come there are two ships here?”

Before, only one ship had come, when they first started to chase them, three ships were deployed at the same time, but at other times there was only one ship.

How could this be fought?

Two ships taking them at the same time, don’t even have to think about it, it’s no different from looking for death!

“Let’s wait and see!” Ji Feng said with an unchanged expression. Since it was a passive plan, there were a lot of variables, and anything could happen.

Xiang Yongzhan said nothing with a sullen face, now he could only take one step and see what happened.

“Boom boom boom~~”

Suddenly, with the sound of a huge explosion, several columns of water shot up into the sky, the two warships opened fire, and the direction they struck was exactly where Mountain Eagle was before, only that after the signal was sent, Mountain Eagle had already moved away, so the pirates were doomed to do nothing, instead giving Ji Feng and the others the opportunity.

Ji Feng immediately said, “I’ll go over first, you guys wait for my signal.”

Xiang Yongzhan’s heart jumped at once: “You want to go alone? That won’t do, the situation isn’t right now!”

With two warships coming together, Ji Feng wouldn’t be able to do it even if he was powerful, that steel monster was simply not humanly possible to resist!

Ji Feng shook his head and said, “I’ll go and take a look first, I won’t take it lightly!”

Xiang Yongzhan, however, strongly disagreed, even if he went, he couldn’t let Ji Feng take this risk rashly, “Ji Feng, wait a little longer, if it really doesn’t work, try again, or I’ll lead the team on!”

“Look, the other warship is moving!” A small warrior suddenly said.

The others immediately looked and saw that one of the warships had slowly turned around and seemed to be leaving.

Xiang Yongzhan said at once, "Good! Looks like they're used to pouncing too, so this time they'll just take a few routine shots and plan to return!"

Ji Feng hummed and said, "Don't get too happy yet, what if the two warships go back together? Don't forget that we are going to capture the ship!"

Xiang Yongzhan: "....."

However, it seemed that luck was really on their side this time, after those two warships fired a barrage of shells at that small island and blew up that reef island, one of the warships started to turn back while the remaining one, however, sailed towards this side.

"This one's on patrol!" Xiang Yongzhan said in a deep voice.

"Are you sure it's a patrol and not that you've spotted us?" Ji Feng asked.

Xiang Yongzhan slowly shook his head, he was not sure about this, so Ji Feng said, "Just in case, all leave the island and dive into the water!"

After thinking about it, Xiang Yongzhan agreed to Ji Feng's suggestion.

"Boom boom~~"

However, no one had expected that just shortly after they had gone into the water, the warship had also arrived nearby and actually opened fire on the island they were on.

Since they were only there as a precaution, they were not very far away, but ended up experiencing first-hand what it was like to be bombarded by that terrifying artillery.

Even though the artillery was only hitting the island, it still felt like the ground was shaking and the waves were so high that it was like a big tsunami!

Xiang Yongzhan couldn't help but feel fear in his heart, it was lucky that he had listened to Ji Feng's advice, otherwise they would have been blown to pieces by now, right?

"Hmm? Where's Ji Feng?"

Xiang Yongzhan turned his head to see that Ji Feng, who was originally diving not far from him, was nowhere to be found.

Bad!

Xiang Yongzhan's heart thudded, Ji Feng had probably gone to seize the boat!

Ji Feng had indeed gone to seize the boat!

## Campus Master Chapter 2759 -

Ever since the pirate's ship had sailed towards the island they were on, Ji Feng had realised that Xiang Yongzheng's strategy might have failed.

It wasn't that attracting the enemy's ships had failed, but that it didn't match the original vision.

Obviously, Xiang Yongzhan's strategy of 'crying wolf' could tease the other side once or twice, but after more times, the other side would not fall for it anymore.

If the opponent was a real pirate, perhaps he could continue to maneuver, but since it was a certain country's navy pretending to be a pirate, the opponent's combat education and so on must be very unusual – Ji Feng would never underestimate the opponent, especially if the opponent had weapons that were too powerful than theirs, he would be more careful.

The other side, having failed to pounce time and again, would certainly be muttering in their hearts, and might even realise that this was a diversionary ploy by Xiang Yongzhan.

Then, it is not difficult to understand the behavior of this warship.

..... Since you want to play, let's play with you. Didn't you want us to fight that island? We fought it! But after the fight, naturally, we have to settle the score with you guys, we can't let you play around with it again and again!

The pirates could naturally surmise that Xiang Yongzheng and his men were hiding on a nearby island, not far from where the signal was.

So, now that this island was attacked, it was not difficult to understand.

Ji Feng was diving fast in the cold seawater, and as these thoughts flashed through his mind, he became more and more certain that these so-called pirates were definitely the navy of a certain country, and that their combat quality was really extraordinary, definitely not comparable to those rabble of pirates!

This is a regular army!

The warship is several kilometres away from the island, there are reefs nearby, the warship does not dare to come over, and, since they suspect that Xiang Yongzhan is on the island, the warship can not come over, to prevent the enemy from suddenly boarding, this defense they must still have.

However, the people on board the ship would never have thought that someone would actually try to take their ship from them in the vast ocean, and that they were already approaching them quickly.

A distance of several kilometres might not be too far on land, but in the sea, especially for those who swam unaided, it was far enough.

Yet Ji Feng didn't feel too much hardship, this swimmer's equipment was really a big help, allowing him to almost catch up with some fish when he swam forward at full speed.

"Boom boom~~"

Another round of shells landed on the island, the explosions were deafening and the waves were huge.

Obviously, these pirates were determined that Xiang Yongzhan and the others were on this island, so even though they could see the island in flames, they still bombarded it several rounds in a row, which was simply abusive!

And at this time for Ji Feng, the pirates' warship, but is already close at hand!

"It must be successful!"

He also realized that the pirates had already figured out their ploy, and if they didn't succeed in capturing the ship this time, then I'm afraid they would really die without a burial place next, and they wouldn't even have the capital to fight for their lives!

He really hoped that Ji Feng could board the ship as fast as Superman and kill all those pirates, but that was obviously impossible, so Xiang Yongzhan could only keep a close eye on that warship, hoping to see some clues!

This, was their only chance!

"Hoo~"

Just then, Xiang Yongzhan suddenly saw from afar that someone from that warship seemed to have flown off the side of the ship ..... No, that person had been thrown off!

Ji Feng had succeeded!

Xiang Yongzhan suddenly had a surge of wild joy in his heart, Ji Feng had managed to get up there!

He immediately shouted, "Action team, take cover ..... and charge over with me!"

The others also saw this scene, and they knew that this must be the signal Ji Feng had sent them, a kind of ecstasy, mixed with anger, made them all exert their unprecedented strength at this moment and swim towards the ship frantically!

At this moment the speedboat was useless, sitting on the speedboat and rushing could only be a living target, instead they were wearing the swimming equipment that Ji Feng had brought with him, making them even swifter!

"Pop!" With a snap, they only saw the large string of rubber ladders tied with ropes being thrown down from the side of the boat and hanging down into the water, which made Xiang Yongzhan and the others even more certain that Ji Feng had succeeded!

However, the distance of several kilometres in the sea was still too long for them, and they could only watch as body after body was thrown down from the boat, but were hard pressed to get there immediately.

The moment they climbed aboard and jumped onto the deck, what they saw before their eyes made them all freeze for a moment.

They saw that the entire deck was empty, just like a ghost ship. .... As far as the overlook pavilion was concerned, there was not even half a person. They immediately reacted that the people up here should have all been taken care of by Ji Feng.

Xiang Yongzhan roared low: "Act according to the plan, quick!"

At once, the eleven men exploded into their most powerful fighting strength – as soon as their feet had a place to land, they had regained the toughness and ferocity of being land-based special forces soldiers!

.....

"Poof~"

With a flash of cold light, Ji Feng's dagger slashed through the neck of a man with a flowered turban, and before the blood offering could spill out, Ji Feng kicked him off!

By now, there was no one left standing in the entire communication room!

Looking at Ji Feng again, apart from being slightly out of breath, he didn't even look any different!

"Stomp stomp stomp ....."

As a sound of footsteps came, Ji Feng immediately turned slightly sideways and hid behind the door, as those footsteps walked in, he suddenly rushed out and the dagger in his hand was as fast as lightning, instantly smearing the incoming person's neck.

Xiang Yongzhan's eyes instantly widened and his whole body instinctively tried to back up, but the speed of that dagger was too fast for him to make a half-hearted reaction, and he could only watch as the dagger wiped across his neck .....

"Hmm?!"

The next moment, Xiang Yongzhan noticed that the other party's movements had stopped before he looked abruptly and found that the one who had made the move was actually Ji Feng!

Ji Feng said, "Coming up? Next time don't be so loud when you run, or you won't know how you'll die!"

"....."

This really wronged Xiang Yongzhan, he was already the smallest movement, and also already the fastest speed, but when he met Ji Feng, he was really completely useless, just that moment just now, if it wasn't for Ji Feng's timely retention of his hand, now he was afraid that he would have become a corpse.

"You already knew it was me?!" Xiang Yongzhan asked through clenched teeth.

"I only saw it when the dagger was about to cut your artery!" Ji Feng said.

"....."

Pervert!

Xiang Yongzhan couldn't help but mutter in his heart, this guy was really strong and somewhat perverted, so fast just now, it could be said that it was a lightning bolt, he could still distinguish who he was .....

It's also fortunate that Ji Feng could tell, otherwise ..... Xiang Yongzhan subconsciously touched his neck and felt his body stiffen a bit.

What a non-human!

Xiang Yongzhan muttered again in his heart.

"How's the situation?" Ji Feng asked.

"The turbine group and the ammunition depot have been controlled, the fire control room ....." He couldn't help but glance at Ji Feng when he said this, and subconsciously touched his neck again, in fact, when he led his men to the fire control room, the place was already full of corpses, the whole fire control room There was no one left to breathe, so of course it was all under control!

"Seeing that the other places were under control, I planned to come here, but I didn't expect to almost die at your hands!" Xiang Yongzhan laughed bitterly.

"Didn't I put it under control!"

Ji Feng gave him a whack and said, "Alright, hurry up and clean up, we need to leave as soon as possible, we may not have much time!"

Xiang Yongzhan immediately asked, "How?"

Ji Feng pointed to a corpse on the ground and said in a deep voice, "I'm still late, when I came in just now, I saw him talking to someone, I don't know who, I think we might have been exposed, we have to leave quickly!"

Xiang Yongzhan looked at the communication devices, nodded slowly and said, "I'm going to make arrangements, if the rotating crew dare disobey me, I'll break their legs!"

Whether the warship could run and how fast it could run, the people in the wheel crew were very important.

So after coming up, the whole warship's people didn't escape, but only the people from the wheel crew Ji Feng didn't move, now Xiang Yongzhan had sent people to control all of them.

"Buzz~~"

As the warship vibrated twice, it began to move slowly.

Next, everyone in the special operations brigade got on board, but all those who were not injured were assigned to various departments, not asking them to be able to operate the equipment precisely, but at least, they could all read English and had no problem at all with basic operations, so that if they encountered an unexpected situation, they could completely cope.

This made Ji Feng secretly nod his head, it is also fortunate that it is the special combat brigade, these soldiers are all elites, not only strong, but also in many areas such as foreign languages and computers, otherwise, if it were ordinary soldiers coming over, I am afraid that they may not know the foreign languages on the equipment, then even if they seize the ship, whether they can drive it away is a problem!

And now, although the process was a bit convoluted, they were at least on board anyway!

"Set a course, target, Treasure Island!" Xiang Yongzhan gave the order.

Although they weren't in the Navy, the Special Combat Brigade wasn't ignorant of warships, and there were still people among them who could operate them, which made Ji Feng breathe a sigh of relief.

"Older brother!"

When he finished his work, Xiang Yongzhan arrived on the deck and saw that Ji Feng was propping his hands on the guardrail, looking at the sea and wondering what he was thinking.

Ji Feng turned his head and asked, "Have you found out clearly who these pirates are?"

Speaking of this, Xiang Yongzhan's face instantly sank as he nodded, "Found out, these motherfuckers ..... are all Filipinos! The other one on the warship that left was Vietnamese ..... These motherfuckers are not pirates at all, they are simply the regular naval forces of Vietnam and the Philippines!"

## Campus Master Chapter 2760 -

The pirates were the soldiers from the Philippines and Vietnam pretending to be pirates!

Although he had already guessed it, he was still very angry when he got the confirmation from those rotating crew members at this moment.

Ji Feng, however, was much more at peace with himself. Both the Philippines and Vietnam had gone out of their way to use military exercises as an excuse to block the Chinese navy from picking up Xiang Yongzhan and the others, so how unusual could it be to send the navy to impersonate pirates?

However, he knew that Xiang Yongzhan's anger was not because the naval forces of the Philippines and Vietnam were pretending to be pirates to hunt them down, but because, even though he knew the situation, he could do nothing but eat this dumb loss!

Even the state could only protest against this, so what could they do?

In their current situation, they were lucky to get out, so what could they do about revenge?

"The day will come when we can settle the score together!" Ji Feng patted Xiang Yongzhan's shoulder and said, "The most important thing now is to get through the other side's encirclement first!"

"Well!"

Xiang Yongzhan nodded and replied in a muffled voice. What else could be done but to flee?

He was really depressed in his heart, thinking that he had carried out countless missions since he joined the army, not to say that every mission had been done beautifully, but at least there had never been a time when he would be as depressed as this time, not to mention the loss of troops, but he had arrived at his doorstep, only to be stopped by these two jumping clowns from the Philippines and Vietnam.

It was a shame for him that they were being bombarded like dogs in a house these days!

It was a shame that he didn't know when he would be able to get his revenge back, let alone when he would have the chance to wash it away, which made Xiang Yongzhan even more furious!

"No matter what, Ji Feng, I have to thank you this time!" Xiang Yongzhan let out a long breath, as if he wanted to spit out all the depression and unhappiness in his heart.

"As I said, there's no need to say more of these words!" Ji Feng waved his hand.

Xiang Yongzhan nodded silently and did not say anything else, the favor he owed to Ji Feng could not be expressed by just a word of thanks, he said before that he owed Ji Feng a life, this was not even an exaggeration, it was not even enough.

Because what Ji Feng had saved was the lives of all the members of the special operations brigade he was leading!

Maybe this time they couldn't escape, they would be discovered halfway, they might be chased by the other side's navy, they would be sunk ..... but, compared to hiding on the island before, they now had the ability to fight back, which meant that they at least had the chance to die with dignity in battle!

How important dignity really is to a soldier, outsiders would not understand!

And this opportunity was given to them by Ji Feng!

Therefore, Xiang Yongzhan's gratitude to Ji Feng really came from his bones.

However, at the same time, he also had a deep shock in his heart, because in his opinion, this was simply an impossible task, but in Ji Feng's hands, it was accomplished with ease.

In this windy and rough sea, with only a swimmers' equipment, he was able to board a warship, even though it was only a small warship, but it was still enough to shock people.

After boarding the warship, Ji Feng rampaged alone and killed seven people, not only did he use the fastest speed to control the situation on the ship, but he himself did not suffer even a single injury!

Compared to Ji Feng, the most elite special forces soldiers of the special operations brigade were like primary school students! You can't experience this kind of shock without experiencing it first hand!

Sometimes Xiang Yongzhan wondered if Ji Feng was an alien hiding on Earth, this guy's strength was just too perverted.

In fact, I'm afraid Xiang Yongzhan would never have thought that although Ji Feng wasn't an alien, he had a real alien artificial intelligence in his head!

"Chief, there's movement in the communication room!" A warrior's voice startled Ji Feng and Xiang Yongzheng.

When they arrived at the communication room, they saw a warrior say, "Second Chief, the base this warship belongs to has sent a signal asking about the status of the mission, what should I answer?"

Xiang Yongzhan immediately glanced at Ji Feng, but also saw Ji Feng's frown slightly, they both knew that if the answer was not good, then it would definitely be exposed.

"Hold off on answering!" Just as Xiang Yongzhan was frowning, Ji Feng suddenly said, "Keep silent, charge in the direction of Treasure Island at full speed, as fast as you can!"

"....."

The soldier looked at Xiang Yongzhan, seemingly waiting for his order.

Xiang Yongzhan said at once, "Ji Feng's order is my meaning, follow the order and carry it out!"

"Yes!"

The soldier immediately answered loudly.

When he got out of the communication room, Xiang Yongzhan couldn't help but say in a deep voice, "Ji Feng, I'm afraid a big battle is inevitable next, if there's a chance, you'd better leave ....."

"Not enough confidence, huh?"

Ji Feng looked at him, turned his head and smiled, and said, "Let's escape first."

It was too early to say anything, if Ji Feng really wanted to go back, he could equally all go back now, how he came, it was not too difficult for him at all.

But now that the situation had just improved, he naturally could not leave at this time.

Before he came here he had told his younger uncle Ji Zhenping that this time, he would definitely get the special operations brigade back, and he still had full confidence in it now.

The most important thing now was to see just how long it would take for those pirates to react!

If they react quickly enough, then, as Xiang Yongzhan said, I'm afraid there will be a fierce battle. But if they are slow to react .....

The next moment was the hardest.

The captives on the ship's rotating crew, under the supervision of blackened guns, began to work hard, especially when a special forces soldier killed two captives who tried to resist, without even blinking an eye, which finally made the captives understand that even if they were captives now, they were still pirates, and this group of Chinese special forces soldiers would not treat them well under international conventions! The Chinese special forces were not going to treat them well under international conventions!

So the men had to pull out all the stops, push the ship to its maximum speed and start a wild ride! Otherwise, they would have been met with the cold spikes of the Special Forces!

The Fijian and Vietnamese countries' arrogance had already filled the hearts of the special forces soldiers with anger, especially when they had all the skills, but they could only keep running away in front of the other side's iron ships and cannons, which made them hold their anger. No one could bear the humiliation of being shat on!

Time was passing quickly, the ship was racing at great speed, painting a white wave trail on the sea, but it could not calm Xiang Yongzhan and Ji Feng's hearts.

According to the intelligence, they were about to approach the 'pirates' base. To jump out of the other side's encirclement, this was a must-go route, from which the sinister intentions of the Philippines and Vietnam could also be seen, and on this must-go route, they sent people to pose as pirates, obviously to drive them to extinction.

"If there is a chance, we must bring down this base!" Looking at a lush island from afar, Xiang Yongzhan's face was grim; this was the base of those pirates, but according to the intelligence, it was actually a naval base of the Yue Kingdom.

"There will be a chance!" Ji Feng said.

"I hope it will wait until that day!" Xiang Yongzheng sighed lightly. It was not even certain if he could go back alive this time, and even if he did, but to beat this place, then at least China's navy would have to be strong to a certain extent, but now it seems that .....

"Something's going on!"

Suddenly, a warship rushed out from near the island and came straight this way, as if the other side also realized that the situation was not right!

Ji Feng said in a deep voice: "Calm down, send a signal to the other side, say that we have received an urgent order!"

Xiang Yongzhan nodded and immediately passed on the order.

With that, they all left the deck, not because they were afraid of the other side firing, but their dress would be easily exposed if the other side saw them.

On the whole ship, everyone could not help but stare and hold their breath.

This was the most critical moment, if the other side pursued them or opened fire directly, then they would probably all be killed here.

"We should be able to fool the other side!" Ji Feng said in a deep voice.

"So sure?" Xiang Yongzhan asked.

"Of course!"

A brilliant light flashed in Ji Feng's eyes and he said with a clear mind, "They are not of one mind!"

Xiang Yongzhan understood at once, these pirates, were two groups of people, from Vietnam and the Philippines respectively, and because of this, they definitely could not be of one mind, and both sides could not know quickly about each other's orders from the top, and miscommunication would delay time, and this, was the best time for them to escape!

The other side is not sure if they can be fooled by such a simple lie.

"Chief, the other side asked, what urgent order, asked why we disrupted the plan!" The special forces soldier in charge of communications received the message and hurriedly said.

"Tell the other party, military secret, no authorization, no comment!" Ji Feng said in a deep voice.

"..... Yes!"

Ji Feng said in a deep voice as he stood in the communication room with his hands behind his back and looked outside. His body exuded an extremely calm and steady aura, as if he had an extremely powerful aura, causing the team members, who were originally slightly flustered, to gradually all calm down.

It seemed that Ji Feng was more like a supreme commander than he was, calm and atmospheric, with his face unchanged even when he saw the other side's warships still rushing towards them, but he still did not move.

The manners of Ji Feng made Xiang Yongzhan secretly admire him, but immediately, his attention was focused on the warship in the distance, would the other side believe it, and could this excuse bluff the other side?
