

Campus Master Chapter 2771 -

“Ji Feng, what exactly is that little black stone? I see that you don’t generally value it, could it be some kind of treasure?!”

After returning to the ship, the warship continued to depart, they naturally couldn’t delay here for too long, no one knew when the pursuers would catch up behind them. If it wasn’t for the fact that Bao Weisheng and the others were really arrogant and their words were full of insults, they definitely wouldn’t have delayed for such a long time.

And as soon as they set off, Xiang Yongzhan couldn’t help but ask. Ji Feng’s performance on the yacht was enough to show the importance of this black stone, but what exactly it was, Xiang Yongzhan still didn’t know.

Ji Feng looked up and looked outside, and Xiang Yongzhan immediately understood and turned his head to a soldier beside him and said, “Go and guard the entrance, no one is allowed to come in at will without my permission!”

“Yes!”

The soldier nodded and quickly went out.

At this time, Ji Feng picked up the black stone and said, “Old Xiang, if I tell you that this is by far the most suitable kind of ore I know of as an energy source for laser guns, do you think it’s important?”

“What?!”

Xiang Yongzhan was shocked and stunned to the core when he heard this, “Ji Feng, what are you saying?”

Ji Feng pointed at the stone in his hand and said in a deep voice, “This thing, is the Alpha Ore that I’ve been asking you guys to look for before!”

Xiang Yongzhan simply had a sudden feeling of ecstasy when he heard this, and even this excitement came so suddenly that it gave him an illusion of unreality: “Ji Feng, are you sure you’re not mistaken? This thing is really the Alpha Ore?!”

Ji Feng nodded his head and said, “That’s right! It is the Alpha Ore!”

“Holy shit!”

Xiang Yongzhan let out a low roar and burst out a foul mouth, but he didn’t know whether it was an emotion or an angry curse, but it was obvious that he was really incomparably excited to hear this news at this moment!

With the Alpha Ore, it was possible to manufacture the laser gun, at least the problem of the energy source was solved. And Ji Feng had said that the only problem that was bothering him now was the energy source!

So, this meant that the only obstacle to making a laser gun was now gone!

Xiang Yongzhan forced himself to hold back that huge excitement in his heart and asked, “Older brother, do you mean that you can now manufacture a laser gun at any time?!”

Ji Feng said, “As long as there is a sufficient energy source, of course there is no problem!”

A great joy instantly hit Xiang Yongzhan, he had seen with his own eyes how powerful the laser gun was! He also remembered that Ji Feng had once said that if there was a suitable energy source, Ji Feng could even create a laser gun!

A laser cannon!

What kind of power was that?

It was so easy and casual to take down two warplanes before, so easy and casual that those two warplanes didn’t even have a chance to drop their bombs, it was simply more incredible than the scenes in the movies!

That, however, was the nuclear energy that Ji Feng used as the energy source, and had to wrap the laser cannon in layers of protective isolation material when it was used.

If there was a suitable energy source, once the weapon was produced, how terrifyingly powerful would it be?

Imagine if the soldiers of the special operations brigade had one of these laser guns in their hands, and the whole brigade was equipped with a few of those laser cannons they could definitely walk across the street!

If they had these weapons, why would the special operations brigade be in such a mess?

Thinking of the excitement, Xiang Yongzhan’s voice trembled a bit: “Ji Feng, then when will you be able to manufacture laser guns and laser cannons?!”

Ji Feng couldn’t help but glance at him and poured a pot of cold water on his head: “Old Xiang, you’re confused, aren’t you? We’ve only just gotten such a small piece of alpha ore now, you think we’ve gotten a mine!”

Xiang Yongzhan was stunned on the spot: “.....”

Only then did he realise that they had only just found the Alpha Ore, they were still a long way away from making energy sources in large quantities!

Alpha ore!

Xiang Yongzhan immediately asked, “So, you were just asking after the origin of this ore, actually”

Ji Feng nodded and said, “Otherwise, do you think I have nothing better to do than to ask about the origin of a stone? It just didn’t occur to me that Bao Weisheng was really a character with a keen eye, at that time I was only slightly out of shape, he realized that there was something wrong in the middle, and as a result he bit the bullet and didn’t know the origin of this thing!”

Xiang Yongzhan was instantly anxious: "So, he has an idea about this ore too?!"

"The idea is definitely there, but he definitely doesn't know what this thing is for, just from the way I acted, he thinks it should be something good."

Ji Feng said in a deep voice, "And it's certain that when he goes back he will definitely find a way to get another batch of ore to test."

Xiang Yongzhan immediately asked, "Then if he detects the potency of the alpha ore, what will we do then?"

Ji Feng smiled faintly and said, "Do you think that laser guns are that easy to make?"

Xiang Yongzhan asked, "What do you mean?"

Ji Feng said, "If the alpha ore is not treated with a special process, it is at most just an ordinary ore with radioactivity, as long as he does not master the process of treating alpha ore, it is just a piece of stone to him, it is of no use, what does he need it for?!"

Xiang Yongzhan immediately asked, "What if they had mastered the process of processing Alpha Ore? Don't forget, the Bao family is involved in many industries, including the energy industry."

Ji Feng immediately said, "Then he can also make laser guns!"

Just kidding!

Was the processing process of Alpha Ore really that easy to master? So far, apart from Dynasty, Ji Feng really didn't know who had mastered this process, and even if it was Dynasty, he might not really have mastered it, otherwise, the laser guns Dynasty made shouldn't just use that extremely unstable energy source, but should be alpha ore instead!

In other words, no one in this world should have mastered this processing process yet, and naturally the Bao Clan likewise couldn't!

"Then, next, we have to find a way to find out where this ore came from, and then try to get the ore!"

Xiang Yongzhan said in a deep voice, "And we have to be quick, otherwise, that bad seed Bao Weisheng is sure to cause trouble!"

"Yes!"

Ji Feng nodded and said, "So when we get back to China, I'm going to make a trip to Treasure Island, and then you can find a way to secretly inquire about this through other channels as well."

Xiang Yongzhan immediately asked, "You're going to Treasure Island?"

Ji Feng nodded and said, "I have to go there personally!"

The Alpha Ore was too important, and just because Bao Weisheng didn't know it didn't mean he wouldn't have bad intentions. Therefore, Ji Feng had to make a trip to Treasure Island as soon as possible.

Xiang Yongzhan nodded silently, and secretly decided in his heart that when he returned, he must do everything he could to find out the source of that Alpha Ore through various channels, and also get the ore as soon as possible!

It was not appropriate to talk about this topic, even on the ship, to prevent information from leaking out, so after a short conversation, neither of them mentioned this matter again.

The ore, on the other hand, was put together with the defective laser cannon by Ji Feng, which was the safest way.

The warship sped off!

When warplanes appeared in the sky whistling past, Xiang Yongzhan stood up abruptly, Chinese warplanes!

The air force was coming!

When they entered the Treasure Island Strait, the news was received from above, but the air force was used to search against all odds, and now, they had finally converged!

"It's back!"

"At last, I didn't die in a foreign country, I'm back!"

All the members of the special battle brigade stood up in excitement, they had experienced many vicious battles, but never once would they be in such a mess as this one, not dying under the opponent's gun, but on the way back, facing those steel monsters made up of warships' cannons, they were in a mess to the extreme.

And now, they had finally seen their country's fighters, which meant that the days of being hunted down because of their inferior equipment were finally over!

Even Xiang Yongzhan pursed his lips vigorously, looking up at the warplanes circling and whistling in the sky, with a vague look of excitement in his eyes, clenching his fists.

About twenty minutes later, a louder whirring sound came from the sky.

"Look! Our planes!"

"It's a formation of warplanes!"

In the sky, surprisingly, eight warplanes appeared at once, forming a formation, whistling across the sky and turning back again, circling around and around!

Xiang Yongzhan said in a deep voice, "Our comrades in arms, escorting us!"

There were cheers all round the ship, including from those warriors who had been badly wounded, and they were all thrilled!

"Look ahead, a warship is coming!" Just at this moment, a warrior shouted out loud.

The crowd immediately looked, and sure enough, they saw a warship appear in front of them, gradually growing larger in their line of sight, and soon, it was clear that it was a small formation, which should be a fleet of Chinese coastal frigates!

But the next scene made all the soldiers of the special battle brigade couldn't help but get excited.

Only to see the opposite fleet lined up in order, coming head-on, and just as the two sides were about to meet, all the ships suddenly sounded their sirens!

“Woo-...”

With a long blast of the steam whistle, they then noticed that on all the ships, clear naval warriors stood on the deck, lined up in a neat line, and every single warrior, in unison, did the same action.

Salute!

On every ship, every warrior, in this way, was expressing their respect for the Special Warfare Brigade warriors.

It was they, who had fought over long distances and across borders, who had wiped out half of the mercenary corps that dared to provoke China in one fell swoop, in the absence of the right time, the right place and the right people, who had beaten the might of China, beaten the prestige of the country and defended the dignity of China!

They were the ones who, in the face of many attacks and harassment from the enemy, still preferred to die rather than surrender, showing those clowns the backbone of the Chinese people and the bloodiness of the Chinese soldiers!

They deserve respect!

The military salute, the uniforms blowing in the sea breeze, formed a most beautiful scenery!

The soldiers of the Special Operations Brigade were already in tears!

Campus Master Chapter 2772 -

All the soldiers of the Special Combat Brigade, all pursed their lips vigorously, tears had long since blurred their vision, this kind of scene, gave them a great impact, this kind of respect from their comrades, made them feel that what they had given was worth it!

Even those warriors who were seriously wounded had to insist on standing up trembling with the support of their comrades, struggling to hold their heads high.

They had to let their comrades know that out there, they hadn't disgraced their country, let alone these comrades!

“Woo~~!”

The steam whistle sounded long, seemingly expressing the best respect and reverence for these soldiers, for these comrades of the Special Combat Brigade who were born into death for the dignity of the country!

Ji Feng was standing on the deck, watching this scene, and he couldn't help but feel his blood boiling.

Military spirit is available!

“All members of the Special Combat Brigade, all of you! To the comrades, salute!” Xiang Yongzhan's roar caused all the soldiers of the Special Combat Brigade to tense up even more, stand straight, and return a military salute in unison!

“Sound the horn!”

Xiang Yongzhan bellowed.

“Woo-!” The warship that had been captured by the Special Combat Brigade similarly sounded its horn, which was a return salute.

The two sides finally rendezvoused, and the soldiers of the Special Combat Brigade, led by Xiang Yongzhan, boarded a destroyer, while the prisoners on that small warship were all escorted onto another warship, and the small warship was replaced with the Chinese navy!

The captain of the destroyer came over to greet them personally, and after meeting them he saluted before saying, “Captain Xiang, our seaplane is on its way and will be here soon, you guys take a short rest first!”

Xiang Yongzhan nodded and said, “Thank you.”

“Captain Xiang is too irritating, we are ashamed to be late!” That captain said with a bitter smile.

In fact, he naturally wasn't late, but when he knew that the Special Warfare Brigade was actually trapped right in the southern waters, he was filled with shock, but when he knew that the Chinese navy had been unable to get through and had watched hard as the Special Warfare Brigade was besieged on his doorstep, he was naturally even more ashamed as a navy man.

Of course, these things he had only just heard about, Xiang Yongzhan just when the siege, but he did not know, which needs to be kept secret.

But also as a navy, the southern sea fleet, that is also a sequence of them, he is naturally ashamed.

He waved his hand to Yongzhan and did not make any more courtesy, he certainly knew the difficulties of the navy, and this was not the time to talk about it, so that captain did not bother them much, especially focusing on arranging for people to check a few seriously injured people first.

“Report, Filipino and Vietnamese warships spotted ahead!”

Just then, a soldier exclaimed.

Ji Feng smiled faintly, “Looks like they're coming after us, they're just coming too slowly.”

Xiang Yongzhan smiled, “They're not coming slowly, they're just scared of being beaten!”

Those two cannons from Ji Feng would definitely have knocked the guts out of them, these two countries had purchased extremely advanced warplanes from Rice in order to prove their military might and to confront China, each one costing astronomical amounts, but with two easy cannons from Ji Feng, the two warplanes became two fireballs, it was enough to knock them to the bone!

The next time you go after them, you'll have to think twice!

Ji Feng shook his head and laughed, perhaps this was really the case, but the naval forces of the Philippines and Vietnam were unaware that it was actually hard to say whether the laser cannon could still be fired at that time, and even if it could, Ji Feng would not dare to use it, but they were obviously scared of being beaten, and not even a single plane came afterwards!

I didn't expect it to be warships catching up with them now!

It seems they thought that while the planes were not able to withstand the fight, this warship was leathery and durable, but they were the ones who had already rendezvoused with the Chinese navy.

"Captain, the Filipino warship has sent a signal, claiming that they are chasing the pirates and have evidence that the pirates' ship is on our side, asking us to hand over the warship and the pirates!"

"Bullshit!"

The captain's face turned cold: "Go and tell them that our Chinese navy is on an urgent mission, and if they dare to interfere with us again, they will suffer all the consequences!"

"Yes!"

"Son of a bitch! We still haven't settled the score with them for besieging our special operations brigade, and they still want to come over and ask for their warships? What a dream!" The captain cursed angrily.

Ji Feng and Xiang Yongzhan couldn't help but smile slightly as they watched, this captain was also a fiery temper, however, it was because of soldiers like this that China was not weak and could grow stronger and stronger!

In the end, the Philippine and Vietnamese warships retreated.

Perhaps they did not expect the Chinese Navy to be so tough, and they did not dare to act rashly in the face of a small formation of Chinese Navy, so they could only watch as the Chinese Navy returned!

Halfway back, the seaplane arrived and then picked up the Special Warfare Brigade's soldiers directly and took them to the Straits Base. The wounded were first arranged into the base's military hospital, while the rest of the team, on the other hand, were flown straight to Jiangzhou, where someone sent from above was waiting for them.

The news of the Special Operations Brigade's return was not kept secret, so as soon as the Brigade disembarked, the news spread and immediately afterwards, the whole of China was abuzz with excitement.

The Special Warfare Brigade had returned!

It was such a simple piece of news, but it spread throughout the whole of China as if it had grown wings, and all those who fervently hoped that the country would become strong were cheering.

Although China had not yet truly risen to power, it had demonstrated its full vigour and determination, its ability and confidence to uphold the dignity of the nation!

What made China even more boisterous was the fact that the Special Warfare Brigade had not only returned, but that it had captured a warship and taken a number of prisoners back!

This is even more exciting!

"Good job, Special Warfare Brigade! Well done!"

"I worship you! I've decided, I'm going to join the army, I'm going to be a special forces soldier, and I'm going to kill those Vietcong and Filipino punks!"

"....."

The internet was even more abuzz, and almost all the portals, used four words as the headline of the news – Raising the prestige of our country!

Although, the Special Warfare Brigade was later chased in a very bad way, despite being besieged right at its doorstep and almost wiped out, it was undeniable that this was almost the first time, apart from the volunteer brigade, that China had sent troops to fight outside its borders, just to punish those who dared to provoke China by giving them a thunderous blow!

And, the Special Warfare Brigade came back after all the hardships it went through!

This shows even more the combat power of this special forces unit, which naturally makes people feel more shocked and admired!

Although almost no one knew that the return of the Special Operations Brigade had a great deal to do with Ji Feng's help in saving the day, it was enough for the public to know that the Special Operations Brigade had returned!

However, compared to the boisterous China, some countries were a bit furious.

When they learned that the Special Operations Group had returned to China, the Philippines and Vietnam were simply slapped in the face, especially when two of their warplanes were shot down.

In their anger, the Philippine navy, which was on a military exercise, approached China's oil drilling platform in the southern waters indefinitely, trying to cause trouble.

The Vietnamese navy also scattered in search of Chinese fishing boats, trying to retaliate and get back the lost face.

This time, however, China's fleet arrived in the southern waters, and this time, China took its strongest stance ever, and without saying a word, it directly took up a battle formation and raced towards the other side's warships as fast as possible.

Faced with China's assertiveness, the Philippines and Vietnam, who were short of breath, were somewhat overwhelmed.

In particular, when China announced that it would reconsider its economic and trade cooperation, the two countries were immediately softened – nowadays, with the rapid rise of China, China's economy is developing at an increasingly fast pace, and has even become the largest trading partner of Vietnam, if China really makes economic moves, they cannot afford the consequences! They could not afford it!

So, the navies of both countries had no choice but to retreat!

But unlike these two furious countries, there were other countries that were shocked!

What really shocked them was the footage captured by the Philippine warplanes and sent back to China.

In that footage, the deck of the warship just emitted a bright light, instantly turning a warplane into a ball of fire, that kind of scene was too shocking!

Rice.

“Gentlemen, if this footage is true, then I think we are in trouble.”

The person who spoke, was the deputy minister of defence of Rice, “In this video, the Chinese seem to have used an extremely advanced weapon that we don't know about, and frankly, when I first saw the footage, I thought I was watching the latest Hollywood science fiction movie! This kind of weapon, it's almost as if it's only found in science fiction movies!”

“But after analysis by the technical department, it was proven that the footage was real, which means that – China really does have extremely advanced and terrifying weapons that we don't know about!”

At this statement, everyone could not help but be in an uproar.

“How is this possible! Mr. Vice Minister, what is this, an electromagnetic rail gun, or a laser weapon?! As far as I know, we don't even have such advanced weapons in Rice, right? How could China possibly possess it?!”

“China has still made a lot of progress in recent years, developing rapidly, maybe they have already developed such advanced weapons ahead of us!”

“Just kidding, what else does China have that surpasses ours apart from the fact that its territory is larger and its population is larger than ours!”

“Then how can this video be explained?!”

“.....”

The banter came to a screeching halt.

Yes, they didn't admit that China was powerful and that they could produce more advanced and powerful weapons than Rice, but how could this video be explained?

In fact, everyone knew in their hearts that this must be a new weapon from China, because even Rice did not have one, so naturally China could not have learnt it from others, they must have developed it themselves, and moreover, this weapon was so powerful and terrifying!

China, is it really going to rise?

Campus Master Chapter 2773 -

When the footage of the downed fighter jet went viral, it shocked not only Rice, but also KAI-PON!

In particular, when KAI Peng saw the footage, almost every general in the military who had access to these secrets was shocked!

“This, this is

“Damn it, is this real? How could the Chinese have developed such a powerful weapon? This must be a fake!” Some generals were dead set against believing that China had surpassed Kepong in terms of weaponry!

These words were echoed by many people and spoke the minds of many others.

There was a time when China's weapons technology surpassed that of Kepong?

You know, even though there are no nuclear weapons in Kepong now, just a few large industrial groups such as the Lingxia Group are enough to make Kepong a military power!

This is because ever since World War II, Kepong has been frantically learning and absorbing, and has been preparing for the country's return to the world.

Someone once said that if Kepong ever broke through the peace pact, then the several mega industrial groups within Kepong could definitely arm Kepong from head to toe in the shortest possible time!

And the weapons used to arm them were definitely not ordinary or outdated weapons, but the most advanced weapons and equipment!

That's why Kepong has been so confident and contemptuous of China over the years – in terms of economy, Kepong has left China behind, and in terms of industry, China can't even catch up with Kepong with its bare feet. This is only possible if Kepong is standing still!

With the economy and industry as the foundation, coupled with the fact that the Kepong people are buying resources all over the world, including acquiring some mineral deposits and even entering the energy systems of other small countries, etc., at this time, with strong enough force, how could Kepong be afraid of China?

Therefore, for so many years, Kepong has always held a contemptuous attitude towards China, completely despising it and believing that if there was a war, Kepong could definitely defeat China's army!

This kind of thinking is the mainstream of the top brass in Kepong, almost a consensus!

However, the theme of the international community now is peace and development, so although Kepong has repeatedly provoked China, China has always been tolerant, which is also for the long-term

development of China, but this is seen by Kepong as China's weakness, so the Kepong people have become even more aggressive!

Especially in recent years, with the rapid rise of China, a huge power was about to stand up in the east of the world, which made the rice country and the kai pong feel a great threat, so the kai pong began to provoke frantically, to contain China from all sides, hoping to slow down the rise of China!

Even if a war did break out because of the provocations of Kepong, they were not afraid because they were convinced that China could not win, especially at sea, and that China's navy was still far from adequate!

But now, the appearance of this video has caused the senior management of KAI Peng to break out in a cold sweat at once.

"How could China have such a powerful weapon?"

"What kind of weapon is this?!"

Watching the video of the powerful light penetrating the warplane, which was made of the most advanced materials, and turning it into a ball of fire in an instant as if it was made of paper mache, was unbelievable!

If it had been an anti-aircraft gun or an anti-control weapon that had hit the fighter and exploded, turning it into a fireball, that would have been a better explanation.

But now, it was just a pillar of light, no explosion, no other noise, but the power was so terrifying that it was like a stick hitting a piece of bean curd, and with a single blow, the bean curd was smashed to pieces!

But that warplane was not tofu! It was a warplane made of the most advanced materials!

A pair of eyes stared at the repeated video, some could not help but clench their fists, while others looked grave.

"Gentlemen!"

A man with a moustache and glasses walked up to the conference table and said in a deep voice, "This video has conclusively shown that China has definitely mastered this advanced weapon! We, are in trouble!"

The others all looked grave, and the atmosphere in the conference room was extraordinarily heavy.

For everyone knew that what was frightening was not this weapon, which was still unknown, but the technology it contained and what it represented!

Now this technology is only being used to create weapons for defence and control, but who can be sure that China is not applying this technology in other weapons fields?

If this weapon was used on Chinese warplanes, what other country's warplanes would be able to avoid this terrifying beam of light alone? Can they fight it?

What other technology has China mastered?

That is what is so terrifying!

"I implore you all, at all costs, to find out exactly what kind of weapon this is, and also to find the source of the weapon!"

"Surely, gentlemen, send the Empire's most talented people to China, we must not allow China to truly rise!"

Moustache said with a grave expression.

A man in military uniform below immediately said, "Please rest assured, Mr. Prime Minister, I have long since arranged for people to be in China, and all of them are the most competent!"

The moustache man nodded and said, "Gentlemen, work hard, if China rises and surpasses the Empire, then the Empire will not stand a chance from now on!"

Meanwhile, but all the countries that had received the news were as shocked as Kepong.

Ever since the Special Warfare Brigade destroyed that mercenary group in one fell swoop, whether or not the Special Warfare Brigade could return home safely had become the focus of many people's attention, and many countries were also paying attention, even though it didn't tell the whole story, it could also show some of China's comprehensive strength from one side!

This will also determine their next attitude and strategy towards China!

So, when the footage was circulated, several countries got it afterwards, and all those who had seen it were shocked beyond belief!

Because this kind of weapon had never appeared in the world before, and only in some science fiction movies or comics, some concepts of this kind of weapon would appear, such as future laser weapons, high energy weapons, or even laser weapons and so on.

But that is still just a concept, and God knows how many more years it will take to realise it.

Yet, China now has them! And, as soon as this weapon appeared, it showed a power so powerful that it made people's heads spin!

The Philippines, Vietnam, San

I don't know how many countries are shocked by this!

To exaggerate, with the safe return of the special operations brigade, and with the circulation of the footage taken by the warplanes, the whole world was shocked and abuzz!

.....

"Kid, you did a good job!"

Jiangzhou Military Region, military camp site.

When Ji Feng returned with Xiang Yongzhan, Ji Zhenping, who had been waiting here, first asked Xiang Yongzhan something about the situation and then told him to settle down, after which, Ji Zhenping heavily patted Ji Feng's shoulder.

"Good job!"

Ji Zhenping didn't mince words of appreciation, "You deserve the first credit for the Special Operations Brigade being able to come back!"

Ji Feng laughed: "Little Uncle, how about it, I haven't disgraced you, right? If I said I would bring them back, I can definitely bring them back!"

"No disgrace, no disgrace!"

Ji Zhenping said repeatedly, because he was so excited, he couldn't help but take out a packet of cigarettes and light one for himself first, then handed one to Ji Feng, but then he also wanted to light it for Ji Feng, who hurriedly excused himself.

"Little Feng, this time, you deserve it!" Ji Zhenping said, "Little Uncle can't award you in any other way for now, but, on behalf of me personally only, I'd like to express my gratitude to you!"

"..... Okay!"

Ji Feng hesitated slightly, then smiled and nodded his head in agreement.

Ji Zhenping, however, was still very excited, the safe return of the special combat brigade was really too significant. Because this was the first time that China had sent special forces to fight outside its borders in an open and honest manner, to combat forces that dared to provoke China, this was a huge progress!

Compared to the past, when they would only protest, or send letters to other countries to severely punish the culprits, but in the end, nothing was done, this action is a great boost to the country's prestige!

This will affect many people's judgment of China's overall strength, and the image of China's rise and inviolability of dignity will be officially and clearly known to the world through this action!

In this operation, Ji Feng played a vital role, and as a soldier, Ji Zhenping must thank him!

"Little Feng, you're a good man, I'm proud of you as a brother-in-law!" Ji Zhenping took two deep puffs of his cigarette, but it was still hard to hide the excitement in his eyes, "Chief Xiang Jiefang has already called, he asked me to say thank you, because there are still many things to deal with, he can't come to Jiangzhou for the time being, but he said that when we meet, he will thank you in person!"

Xiang Jiefang's thanks to Ji Feng was, on the one hand, because it was entirely because of Ji Feng that the Special Operations Brigade was able to come back, and this was something that was clear to Xiang Jiefang. It could be said that if it wasn't for Ji Feng, this time not only would the special operations brigade not be able to return, but more importantly, China would be disgraced and it would take a long time to establish prestige and majesty in the international arena!

On the other hand, it was because of Xiang Yongzheng.

If Xiang Yongzhan died outside, the grief in Xiang Jiefang's heart could be imagined.

Now that Ji Feng has saved the special operations brigade and also saved Xiang Yongzhan, for both public and private reasons, Xiang Jiefang is extremely grateful to Ji Feng.

Ji Feng faintly smiled, he went to save the special operations brigade, not for the sake of Xiang Jiefang's gratitude. However, when Xiang Jiefang thanked him, he did so respectfully, because he deserved it, and he had actually taken a great risk by going this time!

"In addition, Chief Xiang also said that your engagement with him could be postponed if you wished." Ji Zhenping added.

"Deferral?!"

Campus Master Chapter 2774 -

"Delayed?!"

Ji Feng was slightly stunned, then he laughed and said, "Little Uncle, I was just about to tell you about this"

He was only slightly stunned, but quickly reacted to what matter Xiang Jiefang was talking about. His agreement with Xiang Jiefang was apparently the deadline for him to manufacture the laser gun, originally they had agreed on a year, but now almost half a year had passed, presumably because Xiang Jiefang knew that he had encountered difficulties when he saw that he hadn't made any movements by now.

After all, Ji Feng had asked Xiang Yongzhan and the military to help him find the alpha ore, which Xiang Jiefang knew, and he also knew that the ore was used to make the energy source for the laser gun, so Xiang Jiefang probably thought that he would not be able to complete the agreement within a year.

And now that he had done such a great job, he offered to delay the agreement.

But how could Ji Feng delay the time? Even without the alpha ore, he would definitely develop a nuclear energy reactor that could be suitable as an energy source in the remaining six months.

Although Ji Feng's starting point was not to expect anything in return for saving Xiang Yongzhan, this was after all a great favor to Xiang Jiefang, and Ji Feng naturally would not use it up at this time.

Perhaps one day in the future, he would need the help of Xiang Jiefang!

"Say what?!"

Ji Zhenping asked, "It's something you agreed with Chief Xiang, right?"

Ji Feng nodded and said, "That's right. However, it's not about extending the appointment, but about the energy source" Little Uncle, I've found the Alpha Ore!"

"What?!"

Ji Zhenping was delighted at the sound of his words and hurriedly asked, "When in found it? Where is the location?"

Ji Feng said, "It was just today that I found it, however, there was some trouble!"

"Today?!"

Ji Zhenping was stunned at his words, hadn't they just returned today? How did they have time to find the ore?

Ji Feng then explained the matter in detail and said, "Now, as long as we find a way to figure out where this ore comes from, we will have a chance to get a large quantity of it, and as long as we have the ore, I can manufacture the laser gun anytime!"

"In that case, things are really a bit troublesome!"

Ji Zhenping smiled and did not have to frown slightly, no wonder Ji Feng would say that things were troublesome, this actually involved the Treasure Island. If it was in the mainland, no matter which family's people found the Alpha Ore, there were ways to get it over, the big deal was to exchange benefits and not let them lose out.

Alpha ore is a completely strategic material that the country absolutely has to get its hands on.

But the problem is that it involves the Bao family of Bao Island, which is a bit difficult to do.

Even if the state is strong, it cannot reach out to Bao Island!

Of course, the bilateral situation and the various forces were complicated, and the situation was very sensitive now, so if the Bao family was in the middle of it, things would really be difficult.

Ji Zhenping pondered for a moment and said in a deep voice, "No matter what, the Alpha ore must be obtained, and on the Bao family's side, think of another way, if it is not possible, let the people on the island put pressure on the Bao family!"

"The people of the island?!" Ji Feng was a bit puzzled.

"In Bao Island, there are also people who are inclined towards us, the rapid development of China over the years is all there for all to see, some people can see the direction of our development and our future potential!" Ji Zhenping explained.

Ji Feng then understood that although there were some forces on the Treasure Island that were pro-Beijing Peng and Rice, and these forces were big, but no matter how much they propagandised, some people's eyes were discerning.

Even though there are still problems and shortcomings in China, and there are many dark sides, the rapid development of China over the years and the huge potential of China cannot be denied. In fact, there are many people on the island who have made their fortunes through economic and trade relations with the mainland, and there are not a few of them!

It can be said that a part of the economy of Treasure Island is now inseparable from the Mainland.

"But I'm afraid it's not enough for these people to put pressure on the Bao family alone?" Ji Feng asked.

"Our people, meaning the top brass of Treasure Island!" Ji Zhenping said, "In addition, if it's not enough, then activate some of our arrangements!"

"Arrangements?!" Ji Feng was stunned.

Ji Zhenping nodded and said, "That's right, since the Alpha Ore has been discovered, it's imperative to get it! I have this matter in mind, turn around and have Xiang Yongzhan make a report that he believes in, we will have our own considerations!"

Ji Feng was a bit suspicious, what did Little Uncle mean by the arrangement?

But when he asked again, Ji Zhenping didn't explain too much, so he had to stop and said, "Little Uncle, I actually plan to go to Treasure Island by myself."

Ji Zhenping asked, "You're going?"

Ji Feng nodded and said, "Well, I'm going. I know the most about Alpha Ore and I have to go and see it for myself to be sure."

Ji Zhenping asked, "Can't you wait for the ore to be delivered to you while you're in Jiangzhou?"

Ji Feng faintly shook his head and said, "There are some ores that are not suitable for energy sources, and there are other considerations involved that cannot be seen from the back of the house, you have to be there in person to take a look."

"But you are going to Treasure Island, you are not familiar with the place, plus you have a grudge against the Bao family, how can you guarantee the safety aspect?" Ji Zhenping asked.

"My safety, the Bao family can't threaten it yet!" Ji Feng smiled.

"Let's talk about this later."

Ji Zhenping didn't agree immediately, Ji Feng might not understand the situation within Treasure Island, but he knew very well that if Ji Feng had a grudge against the Bao family, the Bao family would definitely retaliate, and, with Ji Feng's character, there was no guarantee that something wouldn't happen when he arrived on Treasure Island!

All these situations had to be carefully considered.

"Going out for a few days, you're also tired, I'll have someone send you back to rest first, remember to call your dad to report a safe trip!" Ji Zhenping said.

Right now he still had a lot of things to deal with, the return of the special operations brigade, the impact it would have, and the situation Ji Feng had provided regarding the Alpha Ore, all of these needed to be dealt with as soon as possible, so he would be busy for the next few days and would not have time to greet Ji Feng.

Ji Feng nodded, having been away for a few days, he also missed Lei Lei and Yu Xuan and the girls, so he didn't stay much longer, first he got his mobile phone and some equipment from Little Uncle, then he

instructed Little Uncle about the destruction procedure of that defective laser cannon, then he went back in one of the military vehicles sent by Ji Zhenping.

On the way back, however, Ji Feng was the first one to dial his father, Ji Zhenhua's phone number.

"Dad, it's me."

As soon as the call was answered, Ji Feng said, "I'm back."

Ji Zhenhua's voice was as gentle and unhurried as ever: "It's good that you're back! I'm relieved that you're back."

Ji Feng then smiled, although his father didn't quite express some of his emotions, he was able to feel them. When he came back, his father was relieved, then before that, his father had naturally been carrying his heart!

"Little Feng, you have done very well!"

Ji Zhenhua was very pleased, although outsiders didn't know the role Ji Feng played in this, but he was clear about it, when the first time Xiang Yongzhan reported to the top, Ji Zhenhua knew, "Your grandfather's place, I've also spoken about it, he sent you a message."

Ji Feng immediately asked, "What words?"

Ji Zhenhua said, "Your grandfather asked me to convey to you that with you, the Ji family, there is a successor!"

That was a very high comment!

Ji Feng couldn't help but say, "Grandpa is really overpraised, in fact, this also has an element of luck, I didn't expect things to develop in this way"

"The fact that you were able to do it proves your ability!" Ji Zhenhua laughed twice, obviously very cheerful, nothing would make a father happier than seeing his son grow up, "Work hard, don't slack off and don't be complacent."

"Mmm!"

Ji Feng nodded heavily.

Ji Zhenhua then smiled and complimented him twice, and hung up the phone without further ado.

After ending the call, Ji Feng put away his phone while slightly closing his eyes. He didn't feel complacent because of his grandfather's praise, because he knew that his grandfather's promise of being on top of the world within ten years had only just begun.

At the very least, the Tengfei Group must first become an international mega giant before he can do more and better!

When she returned home, Tong Lei was meeting with the head of a design company at a cafe near the villa area to discuss some designs for the school and some other matters.

She had been busy with this for some time recently, and, as she had put a lot of energy into it, Ji Feng was happy to see her so busy, which was what she liked doing the most.

If you like someone, it doesn't mean you have to let her give up her dreams for herself. Ji Feng hopes that every woman around her will do what she likes to do, and that's the best outcome.

After Tong Lei finished meeting the head of the design company, the two of them returned home and warmed up while discussing school matters. Tong Lei talked through her vision, and Ji Feng gave some suggestions. Tong Lei thought about it and quickly went to revise her proposal.

Ji Feng couldn't help but smile bitterly and shake his head as he watched. Rei Rei was already not talking much, and when he got busy, he was even more left out.

He had no choice but to accompany Tong Lei after dinner, she went back to work, Ji Feng raised his hand and looked at the time, then went to the company.

When he came to the company, he found that Xiao Yuxuan was also busy with the documents, so Ji Feng said, "You go ahead and get busy, I'll go sit at Han Zhong's place and have a cigarette instantly."

"You'd better not go, he's busy now too!" Xiao Yuxuan said, "Besides, it's not appropriate for you to go to his place for a smoke."

"Why?!"

Ji Feng asked with a smile, "Is smoking banned at his place too?"

The office of Tengfei Group is a no-smoking place, and Ji Feng naturally did not want others to smoke second-hand, so every time he came, he either went to Han Zhong's office to smoke with that guy, or he went to the security department to find Yi Xingchen and a few of them, so how come he still can't smoke now?

"He ah Wang Jun came, I just came back, the two are still there to make out with each other, you go not to disturb people!" Xiao Yuxuan gave him a white look.

Campus Master Chapter 2775 -

"He ah Wang Jun came, I just came back, the two people are still there to make out, you go not to disturb people!" Xiao Yuxuan gave him a white look.

"Wang Jun is here?"

Ji Feng was stunned, then said, "It seems that Han Zhong is still very charming!"

Xiao Yuxuan was a bit puzzled and asked, "What do you mean?!"

Ji Feng said, "It should be business hours now, right? Wang Jun also has a job, I remember that he seems to be doing something right seems to be doing planning, then it is reasonable to say that it should be very busy during working hours, but yet he ran over to find Han Zhong, so it can be seen that they are now in a very good relationship, honey in oil ah!"

Xiao Yuxuan immediately gave him a white glance and snapped, "You, you still don't allow people to have a good relationship, do you?"

Ji Feng laughed, "Of course not, it's just that how come I didn't see that Han Zhong was so charming?!"

He had to admit that Han Zhong was very talented and gifted in business, but these things might not be attractive to many women, which was evident from the fact that Han Zhong had never had a girlfriend before, so when he heard the news that Wang Jun had come to see Han Zhong again, and that the two of them were still flirting in the office, he couldn't help but tease.

"Just nonsense!"

Xiao Yuxuan couldn't help but say, "Everyone has their own merits, Han Zhong is not bad, maybe for Wang Jun, she likes Han Zhong's type?"

Ji Feng nodded and smiled, "That's true."

Xiao Yuxuan added: "Besides, how do you know that it must be Wang Jun who took the initiative to find Han Zhong, and not Han Zhong who missed Wang Jun and asked her to come?"

"It won't be!"

Ji Feng shook his head and laughed: "At this point, you don't know Han Zhong very well, he would never take the initiative to let Wang Jun come over during office hours! If he misses Wang Jun, he might take the time to find her, but, with his character, he definitely won't delay his work because of his own personal matters, this is not Han Zhong's style!"

Xiao Yuxuan thought about it, and it was really like that. Han Zhong's character was really like that, although he might seem a bit unreliable in his usual cheeky manner, in reality, Han Zhong was absolutely extraordinarily serious in his work and worked very hard, otherwise, with his age in his twenties, how could he be able to support the operation of the Tengfei Group?

Xiao Yuxuan herself acted as the boss, and she knew better than anyone how much work Han Zhong did every day!

"In that case, Wang Jun really does like Han Zhong a lot!" Xiao Yuxuan pursed her lips and laughed, "It seems like it won't be too long before we can drink Han Zhong's wedding wine!"

"Maybe."

Ji Feng smiled, but did not pick up this conversation again, because, through Han Zhong he could not help but associate himself, especially in front of Xiao Yuxuan, he was even worse off, after all, so far, he could not give Xiao Yuxuan a wedding!

Xiao Yuxuan, once she saw his expression, naturally knew what he was thinking, and did not have to shake her head and smile, this guy was thinking nonsense again.

As a woman, it is certainly false to say that she is not looking forward to a wedding of her own, Xiao Yuxuan also has this desire, but she is after all no longer a twenty year old girl, looking at things a little more mature, so she knows that sometimes a romantic wedding, but does not mean a happy marriage.

Very often, a lifetime of happiness does not depend on a wedding to sustain it, especially now in her and Ji Feng's situation, it is more important than a wedding that Ji Feng always has her in his heart.

But deep down, Xiao Yuxuan naturally still hoped that she could walk into the hall with Ji Feng in a straightforward manner, but she knew that this was impossible, so she wouldn't think too much about it.

As long as Ji Feng always loved her and the two of them were together, they were already happier than many families, so what else could they ask for?

After staying at Xiao Yuxuan's place for a short time, Ji Feng was driven away by Xiao Yuxuan on the grounds that his presence here was affecting his work, which made Ji Feng laugh bitterly. In fact, it was Ji Feng who sat beside Xiao Yuxuan and was very unfaithful, catching her a moment to kiss her little mouth and a moment to look at her with bad eyes, which made her really unable to concentrate on her work and had to drive him away.

So, Ji Feng had to go to Yi Xingchen's place, first asking about the group's security work, and then chatting with him for a while.

Time passed quickly, and in a flash it was time to leave work.

Ji Feng raised his hand to look at the time and said, "Alright, you go on with your work, I won't bother you."

He found that if there was nothing important going on, he was like a redundant person in the Tengfei Group and would disturb the normal work of whoever he went to. Seeing that it was about to be time for the end of the day, Ji Feng simply decided to go to Han Zhong's place to have a look.

The first thing that I wanted to do was to knock on the door, but when he lifted his hand, he suddenly realized that at this time, Han Zhong and Wang Jun were inside, and they were not doing anything bad, right?

So, he turned his head sideways and put his ear close to the office door to listen for any movement inside first. If there was any special 'movement', then he would not bother Han Zhong today.

After listening carefully, he found that there was no special sound inside, but there was a faint sound of talking, accompanied by light laughter, and Ji Feng didn't bother to listen to what they were actually saying, so he knew that these two people were not doing anything bad inside, so he knocked on the door.

"Knock knock knock!"

"Please come in!"

Han Zhong's voice came from inside.

Ji Feng pushed the door open and walked in, smiling, "Chief Han, busy?"

"Ji Feng?!"

When Han Zhong saw that it was actually Ji Feng who came in, a smile appeared on his face, "When did you come back? Why are you here all of a sudden?"

He only knew that Ji Feng had gone out of town for something in the past few days, but he didn't know exactly where he had gone, and he didn't even know how many days he had been there.

Ji Feng smiled and said, "Of course I came back after things were done. Wang Jun is also here!"

"Well, hello."

Wang Jun was sitting right next to Han Zhong and nodded to Ji Feng with a faint smile at his words, looking very elegant.

Ji Feng laughed: "Han Zhong, this is your fault, how can you let someone beautiful come over to you, you should go to her, how about this, tomorrow you take a day off, keep Wang Jun company line, this is settled!"

Han Zhong: "....."

Wang Jun is also slightly red, panic, said: "Ji Feng you misunderstood, I am here to give him something, not specifically to find him."

Ji Feng harrumphed, "Understand, very understandable."

Wang Jun's pretty face reddened.

Han Zhong, however, shook his head and smiled, he knew that Ji Feng was flirting with him, with how busy the group was now, even if Ji Feng allowed it, he wouldn't give himself a holiday, right now there was already a formal contract to be signed with German's Westgate, not to mention that there was now the development and application of the new chrome alloy, it was one batch of things after another, and every single thing was important, how could he get away!

Han Zhong said, "Ji Feng, you're just in time, I was planning to discuss the development of the alloy with you when you return, do you have time tonight, let's talk together?"

Ji Feng waved his hand and said, "It's better not to, you'd better keep your girlfriend company today, we'll talk about the alloy later, there's no hurry."

Han Zhong couldn't help but be a bit stunned, there was no rush about the alloy?

"Alright, I came to see you, you guys continue chatting!" Ji Feng smiled and waved his hand, "Let's go."

"Hey"

Han Zhong opened his mouth, but did not know what to say, he even suspected that this guy Ji Feng came here to see his own joke, this guy

Wang Jun, however, said softly next to him, "Han Zhong, am I delaying your work?"

Han Zhong smiled and waved his hand, saying, "Which is not the case, no!"

"Then I just heard you say something about alloys" Wang Jun said, "I didn't know you were so busy, I'm really sorry."

"I've said it, it's fine!" Han Zhong said with a smile, "You still need to apologize with me?!"

"Well then how about this, today I'll accompany you to work overtime to make up for all the work I've missed, I'm not good at anything else but I can help you look at documents and such, that shouldn't be a problem!" Wang Jun winked playfully and said.

"Overtime?!"

Han Zhong smiled at that and said, "Of course it's no problem, but you always need to fill up your stomach before working overtime! Let's go, I'll take you to eat first, and then we'll come together for overtime!"

Wang Jun smiled and nodded his head.

When he returned to Xiao Yuxuan's office, he found that she was still working with her head buried, Ji Feng couldn't help but shake his head and said, "Still busy, it's time to get off work!"

"There are still a few documents here, I'll get off work once I'm done with them!" Xiao Yuxuan said back without raising her head.

"No, when it's time to get off work, get off work immediately!"

Ji Feng walked over and unceremoniously put the computer in front of Xiao Yuxuan on standby, and ignoring Xiao Yuxuan's protest, he closed the file she was working on directly and then locked it towards the drawer, pulling her hand and heading out.

"Nasty!"

Xiao Yuxuan pouted, "I'm still a bit short of finishing that document."

Ji Feng said, "Then we'll do it tomorrow! Don't do anything today, come home with me!"

Xiao Yuxuan worked very hard, but Ji Feng didn't want her to be buried in work all day, in that case, even if she was physically well, there would always be times when she was mentally exhausted.

Being pulled by Ji Feng's hand, Xiao Yuxuan had no choice but to follow him, but her heart was extraordinarily sweet, this kind of dominance and concern of Ji Feng made her feel the happiness of being a little woman.

"You, always so overbearing!" All the way to the car, Xiao Ying sat in the driver's seat, Xiao Yuxuan and Ji Feng sat in the back seat, before she pouted.

"That's because you're too incapable of taking care of yourself, how can you do that!" Ji Feng said.

Xiao Yuxuan then laughed petulantly, usually at home it was her and Lei Lei who took care of Ji Feng, now she was talking as if Ji Feng was taking care of them!

"By the way, does Jun Wang often come to the company to look for Han Zhong?" Ji Feng suddenly asked.

"Not very often either, what's wrong?" Xiao Yuxuan asked.

“Nothing, just a casual question.” Ji Feng shook his head.

Campus Master Chapter 2776 -

Night was falling.

With a smile on his face, Han Zhong stood at the entrance of the staircase and smoked a cigarette beautifully.

After all, the Tengfei Group, from its inception until now, can be said to be supported by Ji Feng, Xiao Yuxuan and Han Zhong, among which Xu Yuan and others also worked extremely hard, but it was the three of them who were in charge of the whole group and controlled the overall situation.

The hardships involved can be imagined.

From the very beginning of the business, when he was tired, Han Zhong would smoke a cigarette to take a break and then go back to work, while Xiao Yuxuan was used to drinking coffee, and it was because of their efforts that the Tengfei Group was able to get on track as quickly as possible.

Otherwise, even with the best products, it would not be easy to get on track so quickly if the management and personnel were not up to scratch.

However, what makes Han Zhong feel good in his heart at the moment is not because he can smoke a cigarette while he is busy, but because he has a very, very good girlfriend.

Especially this evening, because he had work to do, Han Zhong did not have much time to go to dinner, but Wang Jun took the initiative to propose ordering takeaway, the two of them ate three boxed meals, but Wang Jun did not complain at all.

This makes Han Zhong very satisfied, he is most afraid of his girlfriend is too heavy pettiness, a girl can be petulant, but not too heavy pettiness, and a good heart, filial piety parents, other is not too important, this is Han Zhong's hope and requirements for his girlfriend.

After all, people cannot be without flaws, and Han Zhong knows that he has quite a few, so he only hopes that his girlfriend can do these few most basic things, and the rest, he can tolerate.

Wang Jun did a good job obviously, making him very satisfied, beautiful and moving, elegant, and so virtuous, which really made Han Zhong beautiful to his heart!

He was in a happy mood, Han Zhong extinguished his cigarette and wanted to light it up again, but his mind suddenly remembered that Wang Jun had once advised him to smoke less and not to disregard his body, so Han Zhong couldn't help but grin happily and put the cigarette away again.

With a heated smile, he straightened his clothes and turned around to go to his office.

Wang Jun was already waiting for him in his office at the moment, so Han Zhong pushed open the office door and walked in, and then as soon as he entered, the scene in front of him made him freeze.

He saw Wang Jun sitting in front of his desk, holding a stack of documents in his hand, flipping through them quickly, extremely fast.

Han Zhong couldn't help but ask, “Junjun, what are you looking at?”

Wang Jun immediately smiled sweetly, casually put the documents down, pursed her lips and smiled: “Not looking at anything ah, just want to see what work you are busy with today, I want to help you organize it beforehand, so that you will not be too busy later!”

“Is that so!”

Han Zhong laughed, “You're underestimating your boyfriend, just a few documents aren't enough to keep me busy! When Tengfei Group was first established two years ago, it was really a mess, the daily documents piled up higher than a mountain Right, you are not a planner, can you read these documents?”

Wang Jun immediately couldn't help but give him a white glance, snapped: “Underestimate people ah! I'm at least a graduate of a famous university, okay? Even if I'm a planner, I can still do this small thing like organizing documents, right?”

“Yes, yes, yes!”

Han Zhong nodded and laughed, “I'm wrong, I'm wrong, our Jun Jun is a piece of cake when it comes to handling these documents!”

Wang Jun grunted and snapped, “Stop it! It's useless for you to kiss ass, I'm already angry!”

Han Zhong heard this and said, “Really? That's not good, how about this, in order to make amends to you, I've decided to give you a kiss as a way of expressing my apology”

Saying that, Han Zhong laughed heatedly and pounced on him.

“Nasty, don't!”

Wang Jun daintily laughed and blocked it, but it was a feeling of wanting to resist, and eventually Han Zhong found the opportunity to give her a kiss on her cheeks, causing Wang Jun to give him a blank look.

After the frolic, Han Zhong returned to his seat and flipped through the files, more or less surprised, because the files on the table were all well organised by Wang Jun, what files should be put in what position, which files are of the same type, Wang Jun had already sorted them out.

He couldn't help but laugh, “Junjun, you're really a good helper, you're making me want you to come to my side to help me!”

“Nice try!”

Wang Jun gave him a white look and said, “If you want me to help you, the price is not low!”

Han Zhong laughed.

But Wang Jun glanced at the papers on the table, then asked, “Hey, do you really want me to come over and help you?”

"Of course I do!" Han Zhong replied without hesitation, "But you can only think about it!"

"Why?!" Wang Jun was a little puzzled.

Han Zhong said, "After all, I am the general manager of the group, if I transfer you to my side, if people know about our relationship, they will definitely say that I am faking public service to help myself, which is not good."

Wang Jun asked, "Are you still afraid of people gossiping? I see that Mr. Xiao trusts you a lot."

Han Zhong nodded and said, "She does trust me, but the more trust she gives me, the more I can't betray that trust."

A look of disappointment flashed across Wang Jun's eyes, and after a moment's thought, she added, "Does your company forbid office romance?"

"No!"

Han Zhong said, "Our company is very humane, as long as anything is raised by employees, as long as it is reasonable, we will adopt it, and sometimes, office romance can promote work efficiency, so it is not prohibited in our company!"

Wang Jun snapped, "Then what are you afraid of? Good! I see, as the boss of the Tengfei Group, you must have a lot of young girls who like you and want to jump on you, you're afraid that I'll get in your way around you, aren't you?"

"Where are you thinking!"

Han Zhong couldn't help but laugh bitterly: "Look at my appearance, only you can look at me, who else would want to look at me!"

Wang Jun hummed, "You're saying that I have a poor eye!"

Han Zhong instantly laughed, "Of course not, I'm complimenting you for not being from the Appearance Association and not judging people by their appearance!"

"That's more like it!"

Wang Jun was then satisfied with his answer, after a pause, he added: "Hey, how about this, since you're afraid of bad influence, then I'll come over every day after work to help you organize your files and give you a hand, so we won't have to take time to go out on dates, do you think it's good?!"

"Of course it's good!"

Han Zhong smiled at that, this is the best, he is exactly what he wants, "but this will be too hard for you, you have to work during the day, and after work you have to come over to help me organize the files"

Wang Jun said, "I like this."

Han Zhong instantly grinned and nodded his head, "Then good, then you can come over after work every day."

In his heart, he had made up his mind that he would only let Wang Jun watch from the side, so he would not make her work too hard.

Wang Jun said, "Then you can wait and see how your work efficiency goes to the next level!"

Han Zhong hemmed and hawed with joy.

However, he did not notice that Wang Jun's gaze glanced over those documents on the table, but he was slightly relieved, a complicated and hard to understand look flashed in his eyes, and then a smiling look again.

This night, Han Zhong worked overtime until late, Wang Jun has been accompanying beside, when Han Zhong is tired, Wang Jun will accompany him to talk, and then take the opportunity to help him organize the documents, which makes Han Zhong happy really can not close his mouth all night!

.....

Back home Ji Feng, but a night of spring.

The softness of Tong Lei and Xiao Yuxuan almost made Ji Feng's bones melt.

The two women were unable to withstand the torment of Ji Feng, so Ji Feng could only smile and guide them to continue practicing gymnastics, making the two women blush and shy.

The next morning, Ji Feng habitually got up early, but took the initiative to go to the kitchen and cooked a breakfast for the family.

This time when he went to rescue Xiang Yongzhan and the special operations brigade, although it seemed to go smoothly and there were only some minor twists and turns in the middle, it touched Ji Feng's heart in some way.

He saw with his own eyes that Xiang Yongzhan and the others were ready to die in battle and did not have the slightest fear, and the situation at that time was indeed very dangerous. Ji Feng was thinking that if Xiang Yongzhan did not have such a wealth of combat experience and such a high level of combat literacy, then not only would the special operations brigade have been wiped out, but I'm afraid that even he would have had to ride in.

Therefore, Ji Feng could not help but feel guilty in his heart.

The fact that Tong Lei and Xiao Yuxuan knew nothing about their own adventure, how sad would they be if something really went wrong with them?

Although Ji Feng had a reason for having to go, he was ashamed of them.

So, Ji Feng's breakfast was made with great care, although it was only a small expression of his heart, but it was better than doing nothing at all.

This was evident from the smiles that covered Tong Lei and Xiao Yuxuan's pretty faces and the sweetness in their beautiful eyes, they were happy!

Ji Feng only stayed at home for two days, and by noon on the third day, a phone call from his younger uncle, Ji Zhenping, made him set off on a plane to Yanjing.

And before he got on the plane, Ji Feng couldn't make it to the company, so he called Han Zhong directly and told him to wait until later to discuss anything, and that as long as the general direction remained the same, he could discuss all the other minor issues with Xiao Yuxuan.

At the same time, he urged Han Zhong not to work too hard when he was working.

Han Zhong hedged and laughed, "I can sing through my work now, it's comfortable to have a beautiful girl with me!"

"Bullshit!"

Ji Feng laughed: "Could people Wang Jun still not even go to work and come over to keep you company every day!"

Han Zhong heatedly laughed: "I still have to go to work, but she can come after work, help me organize my documents, chat with me, it's very enjoyable!"

Ji Feng was dumbfounded and laughed, saying, "Then you can continue to enjoy yourself, and contact me in time if there is anything!"

After closing the line, Ji Feng couldn't help but shake his head and smile, Han Zhong, this guy, is now getting rich!

Suddenly, Ji Feng seemed to remember something, his eyebrows frowned slightly, what did Han Zhong say just now? Wang Jun was helping him organize the documents?

Campus Master Chapter 2777 -

When he came to Yanjing again, Ji Feng was treated extremely well.

As soon as he stepped off the plane, he saw Xiang Yongzhan standing at the exit waving at him, "Older brother, this way!"

Ji Feng couldn't help but be slightly stunned, his arrival in Yanjing was informed to him by his younger uncle Ji Zhenping, how did Xiang Yongzhan know about it?

"Old Xiang, you're here specifically to pick me up!?" After leaving the airport, Ji Feng couldn't help but ask.

"Otherwise, you think I have nothing to do and turn into running here to hang out, huh?!" Xiang Yongzhan said, "I knew you were coming to Yanjing today, and I also knew which flight you were on, so I came over early to wait for you."

"How did you know that?!" Ji Feng asked.

Xiang Yongzhan said, "Of course I knew from General Ji! Older brother, you're in Yanjing, so I'll be the driver for this."

Saying that, Xiang Yongzhan made a gesture of invitation.

Bai Zhu, who was following Ji Feng, couldn't help but look at Ji Feng, the driver's position was hers, but this Xiang Yongzhan was grabbing to be the driver, wasn't it a bit not good?

After all, in the past, Xiang Yongzhan was considered Bai Zhu's captain, even though Bai Zhu was also forced to join the special combat brigade.

"Why are you suddenly so enthusiastic?!"

Ji Feng, however, looked at Xiang Yongzhan with a smirk and said, "If you're not interested in anything, you're not a traitor, say it, what are you looking for me for?!"

Xiang Yongzhan was furious, "What, do I have to have something to come to you? I said you really forget it, simply put, you definitely need a driver in these two days, and when you go to some departments of the military, you definitely need someone to guide the way, right? I'll do this driver, you are not very convenient it!"

Ji Feng thought about it and nodded, "That's true."

Xiang Yongzhan immediately said, "Then hurry up and go, where are you going, I'll send you there first!"

"Home!"

Ji Feng was not polite either, he directly followed Xiang Yongzhan outside and got into a military SUV.

As for Xiang Yongzhan, he was extremely diligent and enthusiastic, so much so that people couldn't tell that he was the brigade leader of the special operations brigade at all, instead they thought he was Ji Feng's junior soldier.

In fact, this was also a way for Xiang Yongzhan to express his gratitude to Ji Feng.

He knew that such a little action would definitely not be able to express his gratitude to Ji Feng, but this time when Ji Feng came to Yanjing, he had something to do and he had to deal with the military departments, and he happened to have just finished his mission now and was sort of taking a short break, so he had nothing to do, so he was naturally happy to be Ji Feng's driver.

"Old Xiang, what did you just say, I'm going to the military's department?" Ji Feng suddenly asked as the car was driving down the road.

"Yes, why, General Ji didn't tell you?!" Xiang Yongzhan asked.

Ji Feng slowly shook his head and said, "No."

He still didn't know what his little uncle had called him to do, and Ji Zhenping hadn't said what it was about on the phone, only that he should come to Yanjing as soon as possible, and now it seemed that eight out of ten times it should be about military matters.

Was it the matter of the Alpha Ore or something else?

Xiang Yongzhan said, "It's my father and a few other chiefs who want to see you, what exactly is it, I'm not very clear, I've been resting since I finished my debriefing back in Yanjing, what exactly are the chiefs seeing you for, you should know after you go."

Ji Feng nodded slightly, Xiang Yongzhan's trip could be described as a life of nine deaths, the top naturally could not disregard his merits, it was normal to take a few days off to rest.

And if it is about something important that should not be known to Xiang Yongzhan, I believe that Chief Xiang should not tell him, even if Xiang Yongzhan is his son, this is not possible, because this is a matter of principle.

Ji Feng at home is also the same, how the movement above, maybe father Ji Zhenhua will point him a couple of words, but if it is involved in specific things, especially some important confidential events, Ji Zhenhua will not reveal a word to him. At the level of Ji Zhenhua and Xiang Jiefang, their principles are both extremely strong.

Then again, if their principles weren't strong, they wouldn't be in the position they are now, even if they had a strong background, a person without principles wouldn't gain the trust of others!

Although he knew that several heads of the military wanted to see him, Ji Feng went home first, Ji Zhenhua was still busy in his unit, and his mother, Xiao Su Mei, still went to a certain charity, which made Ji Feng shake his head and laugh.

In fact, if you want to put on a show, you only need to make a certain gesture on a few important occasions, there is absolutely no need to go to charity so often.

The reason why her mother, Xiao Soumei, is so keen on charity has to do with her personality on the one hand, but on the other hand, it is also because of her early experiences of poverty, which makes her empathise with the underprivileged and understand their suffering most profoundly, which is the main reason.

So Ji Feng was very supportive of her mother's approach and would give her some money from time to time, as a way of doing what she could.

In the evening, the house came alive. Today, Ji Zhenhua knew that his son had returned and, in a rare move, did not work overtime but returned home from work on time, and his mother had also returned early.

Ji Feng peeked at his mother's expression and found that she didn't seem to know about his trip to rescue the special operations brigade, which made him secretly relieved that his father didn't seem to have sold himself out, otherwise, he would have heard his mother's complaints again by now.

After dinner, Ji Zhenhua called Ji Feng into the study and briefly talked about some things outside. Although Ji Zhenhua did not praise Ji Feng again, there was a very obvious look of relief between that look and words.

The son has grown up!

It was Xiao Sumei who couldn't help but complain when she heard that Ji Feng was going to be busy again first thing in the morning, her husband and son were busier than one another, and although Xiao Sumei felt relieved and proud of them, as a woman, she always wanted them all around her.

Especially for Ji Feng, Xiao Sumei hoped that he would come to Yanjing.

In response, Ji Feng just rubbed his nose and laughed, but didn't say anything, which made Xiao Su Mei glare at him, but had no other choice.

The next morning, Ji Feng got up early and went to the courtyard on East Sixth Street. The old man was old and did not sleep very well, he tended to get up very early and today was no exception.

However, Ji Feng did hear from his father last night that when he had just returned two days ago, grandfather received the news and was so happy that he even broke the rules and drank two glasses of wine in the evening, then said several good words in a row.

It was true!

As soon as he saw Ji Feng, the old man smiled and pointed to the chess board under the acacia tree and said, "Little monkey, come over and play a game of chess with me!"

Ji Feng laughed, "Then I won't show any mercy!"

"Brat, did I ask you to show mercy?" The old man scolded with a laugh, "Hurry up and sit down, don't dawdle!"

"Okay!"

Ji Feng laughed and sat down, but his eyes fell on the old man's head full of white hair, he couldn't help but subconsciously purse his lips, the old man was getting older, it was a day by day change, every time he came, he seemed to find that the old man had aged a bit more.

The time is running out!

The pace is still too slow, we must continue to speed up.

After staying at the old man's place for a short time, Ji Feng got up and left. By the time he walked out of the hutong, Xiang Yongzhan had already parked his car at the entrance of the hutong and was waiting.

"Where to?!" As soon as he got into the car, Xiang Yongzhan asked.

"Let's go directly to the General Staff." Ji Feng said. Younger uncle Ji Zhenping had already called him earlier and said he was waiting for him in his office.

"If we go to the General Staff, Bai Zhu shouldn't be able to enter the office, right?" Xiang Yongzhan said.

"I'll just wait in the car." Bai Zhu said.

Ji Feng shook his head and said, "Bai Zhu will follow me!"

Xiang Yongzhan couldn't help but stare at his words, and then laughed, "You're a bull, I can't compete."

The reason is that Ji Feng is too important, and the weapon technology he possesses is too important, so no one would take this little thing seriously!

But, this guy is really good to Bai Zhu! The fact that Ji Feng is sincere for his heart is not comparable to those young men of the world who change women like clothes.

This is something that Xiang Yongzhan really admires.

When he arrived at the General Staff, the soldiers at the entrance had already been notified, so they just registered according to the regulations and then let him go. However, what Ji Feng did not expect was that when he brought Bai Zhu to his little uncle's office, he was shocked to find that there were five or six people sitting in the office.

Moreover, every single one of them was not low in rank!

Chief Minister Xiang Jiefang was likewise listed, and together with several other people, was looking at him with a smile.

"Yo! Our great meritorious minister is here, come, come, come, have a seat!" Xiang Jiefang smilingly stood up and said.

"Greetings, chiefs!"

Ji Feng first nodded his head in greeting before looking at his younger uncle Ji Zhenping.

Ji Zhenping said, "Little Feng, there are two main matters for you to come here today, one is about that new type of weapon you used in the rescue of the special combat brigade, and the second is about the matter you mentioned about the ore. Today, General Director Xiang and several other generals are waiting for you here!"

Ji Feng then understood that it looked like the salvaged laser cannon he had used on the warship had likewise received attention.

However, he did not know how urgent these generals really were in their hearts.

Whether it was the discovery of the Alpha Ore or the new weapon that Ji Feng had used on the warship, both had given the military brass a great surprise.

The discovery of the Alpha Ore meant that the manufacture of a laser gun could already be put on the agenda, and was not just a vision or a goal. And the power of that new weapon made the military brass simply ecstatic!

Campus Master Chapter 2778 -

Warplanes!

That was two warplanes! It was so easily shot down by Ji Feng, and he only fired two shots No, strictly speaking, it was only two pillars of light that turned the two warplanes into two fireballs!

Even though the military brass had already heard Xiang Yongzhan's personal account before, it was in no way as shocking as seeing the live footage with your own eyes!

Because at that time, he thought he might not be able to escape, and in order to leave evidence, he ordered his men to record the battle scene, in the hope that he could find it when he searched for it at home later, so that even if he died in battle, at least the top brass could at least produce evidence in the encounter with the Philippines and Vietnam.

However, the development of things completely exceeded Xiang Yongzhan's expectations, Ji Feng just used an odd weapon, so lightly, the other party's two warplanes down, at that time, that scene, really gave people too big shock.

It was precisely because of Xiang Yongzhan's action in a fit of rage that the shocking scene was preserved and the military hierarchy was able to see it with their own eyes.

Shocking!

The top brass could not find any other words to describe it except shocking!

Whatever this new weapon was, its terrifying power was too shocking.

There were no explosions, no ear-splitting sounds when the weapons were fired, just two blinding pillars of light, and that was all.

After the shock, what this image brought to the military brass was a strong surprise.

What kind of weapon is this?

It was so terrifying, so powerful that one could not believe it!

Such a small weapon could even shoot down a warplane, and it could be operated by just one person. Moreover, from what Xiang Yongzhan said in his report, it seems that at first that weapon was still being carried by Ji Feng out of the cabin which means that that new type of weapon could be completely operated and carried by a single soldier!

Imagine, if in future wars, China's warriors carried this kind of single combat weapon and had a laser gun, an incredibly powerful small weapon, then in the battlefield, wouldn't they be able to sweep through?

At the thought of this, the excitement of the military top brass was really imaginable, so anyone who knew about this matter, the top brass of the military immediately sat up!

So there was this scene today, where everyone was sitting here, waiting for Ji Feng.

In fact, if it wasn't for the fact that Ji Feng had also just returned from combat, they all really wanted to call Ji Feng back that day just after hearing the report from Xiang Yongzhan, so they had come here early in the morning after having a good intention to easily endure until today, and there were two acute generals among them, who even asked Ji Zhenping over and over again, asking when exactly Ji Feng would be able to come.

Now when they saw Ji Feng, they were all excited, but because of their status and the presence of Ji Zhenping, they could only bear with them bitterly and let Ji Zhenping ask the questions first.

“Little Feng, Chief General Xiang and several generals have been waiting for you for a long time, hurry up and introduce the situation!” Ji Zhenping said with a smile, a good and pleased look on his face, this was his nephew, having achieved such impressive results, he felt proud in his heart and his face was shining!

“Okay!”

Ji Feng nodded and was just about to speak, but he was interrupted by Xiang Jiefang.

Xiang Jiefang said, “This is not urgent first, little fellow, sit down and talk slowly first!”

As he spoke, Xiang Jiefang actually got up and went to Ji Zhenping’s desk, personally made a cup of tea and handed it to Ji Feng.

“Thank you.”

Ji Feng hurriedly said, as the Chief General was able to personally pour water for him, this in itself was a gesture, he carried the cup and placed it on the table next to him, he did not rush to speak, but deliberated for a moment before saying, “Chief General Xiang, generals, actually things are not as optimistic as we thought!”

“How”

As soon as Ji Feng opened his mouth, he threw a pot of cold water on those present, a general who was more impatient sat up and just wanted to open his mouth to ask, but was interrupted by Xiang Jiefang, “Old Zhang, listen to Ji Feng finish his words first!”

Several other generals were also staring straight at Ji Feng, fearing that he would say something bad.

The laser gun and that new type of weapon, this is not to be missed!

Ji Feng smiled and said, “It’s like this, in fact, whether it’s a laser gun or a laser cannon which is the kind of new weapon I used on the ship before, in fact, technically they are the same kind of weapon, only the size of the size is different.”

The laser cannon he had made before was actually just an enlarged version of the laser gun, just with enhanced power and a larger energy source than the laser gun’s, but nothing else.

“What about now, the shape design, and the structure of the weapon, the principle and various other issues have almost all been solved, it’s not much of a problem, at most, it’s just a matter of refining it later, or improving it after the test.”

Ji Feng carefully weighed his words, hoping that he could make sense, but without being credulous: “But right now, both of these two weapons, are facing one of the biggest problems, and that is the energy source!”

“As I said a long time ago, the biggest problem now is the energy source, if there is no suitable energy source, the weapon, even if it is forcibly made, has great hazards and hidden dangers, because if I cannot find an energy source, I will have to use a reactor as the energy source, however, this energy source is radioactive and will cause no small damage to the body of the person using the weapon damage, and even if it is protected by an isolation layer, it is not a permanent solution.”

Xiang Jiefang and the others all did not have a slight nod, this was something they were naturally aware of, back then Ji Feng had talked about this issue.

“Then where to find the energy source? Isn’t it the kind of alpha ore that Captain Xiang mentioned that would make a suitable energy source?” The other general asked somewhat eagerly.

“That’s right.”

Ji Feng nodded and said, “Alpha ore, it’s the most suitable for an energy source that I know of at the moment, and, now the good news is that we’ve found alpha ore, or at least a sample of it!”

Xiang Jiefang immediately asked, “That means that as long as this ore is available, both of the weapons you mentioned can be manufactured?”

Ji Feng nodded and said, “Theoretically speaking, that’s true. Of course, after the ore is extracted, it has to go through a series of processing, purification and so on, but that’s not a problem at all for the current level of industrial technology!”

The current industrial technology?

This statement made both Xiang Jiefang and several generals feel a bit awkward, yet they didn’t care, and were soon drawn to the content of Ji Feng’s words.

“This ore, is it the same kind that the people from the Bao family in Bao Island got?” Xiang Jiefang asked again.

“Yes!”

Ji Feng nodded and said, “The purity of that kind of ore is particularly high, now we just need to find out the source of that kind of ore and then find a way to get our hands on it, and the manufacturing of weapons can start immediately!”

Swish!

This affirmative answer from Ji Feng immediately made everyone, including Xiang Jiefang, couldn’t help but have their eyes light up, and their faces couldn’t help but show joy.

Even though they were the ones who already knew this answer, hearing the affirmative answer from Ji Feng’s mouth still made them very excited.

“Then find a way to figure out the source of the ore!” A general said, “Even if it costs more, it’s worth it!”

The others also nodded, indeed, if paying some price could get that kind of alpha ore, it was really something that they could not ask for.

“Chiefs, I’m afraid this matter is not that simple, the people of the Bao family will not cooperate!” At this time, Xiang Yongzhan spoke up.

“I know what you said, the people of the Bao family, who are also Chinese, have insulted the mainland many times, not to mention that when the special operations brigade reached a huge crisis early, they

even had to rush to the southern waters to watch the hilarity, this is simply gloating and throwing stones at the well, such people, should be beaten!"

A general said in a cold voice, his face very unpleasant.

This kind of behaviour by the Bao family had crossed the bottom line, but on the other hand, it was likely to represent the views of a portion of the people of Bao Island, which was too bad.

"Therefore, I've decided to make a trip to Bao Island myself." Ji Feng said.

"You're going?"

The general was stunned and then said, "Ji Feng, Treasure Island is not like the mainland, the situation there is much more complicated and chaotic, you have just formed a grudge with the Bao family, there might be unexpected dangers when the time comes"

"I see they dare!"

Another general snorted coldly and sulked, saying, "And turn over the sky?! If the people of the Bao Clan dare to do anything to Ji Feng, Laozi will do whatever it takes to bring them down and have his entire Bao Clan wiped out!"

This general had a cold face and his body emitted a murderous aura that made even Ji Feng flinch. Those who could sit in this position were not simple people, especially, Ji Feng knew that almost all of the current top brass had participated in the self-defence counter-attack war back then, and had fought and killed from the battlefield for real, far from some people who only relied on their mouths to fight.

And Ji Feng also believes that even though they are on the mainland, if they really want to target the Bao family with determination, then even if they are protected by the authorities on Treasure Island, they will definitely make the Bao family shed their skin, and even break their bones is possible!

However, when it comes to the Bao family, Ji Feng is not yet as close to an enemy as he could be.

He smiled and explained the reason why he was going to Bao's Island, of which he did not go into detail about how to screen and select the Alpha ore, but only used layman's language for the several generals to understand clearly.

After listening, several generals were silent for a moment.

"Go!"

Xiang Jiefang said in a deep voice, "Ji Feng, since you have to go, it will have to be hard on you one more time, but you can rest assured that if the Bao family's people dare to do anything to you, we will definitely not sit back and do nothing!"

Campus Master Chapter 2779 -

The conversation with the few generals did not last too long, as they had already known this information from Xiang Yongzhan's report before, and were now coming over to hear a definite answer from Ji Feng. Now that the answer was given, they were naturally overwhelmed with excitement, but they didn't have much time to stay here any longer.

The special operations brigade had returned safely, but too many things had happened on the way.

For the sake of secrecy, China did not inform any country, not even the authorities of the country where that mercenary group was based, because one of the countries where the mercenary group was stationed must have had dealings with the local power figures, and if they did, the news would surely leak out.

And this, however, was something that needed to go after. Imagine if another country's army had entered China without greeting it and had started a war within the country, this would definitely be seen as a provocation, and it is the same now.

Of course, this is not the main thing, because the country where the mercenaries are stationed is very chaotic, with a lot of mountain tops and various power groups fighting for each other, so there is no rules to speak of, so the next step is just to give some compensation and an explanation, after all, China's troops are not aimed at them this time, but at the arrogant mercenaries.

But beyond that, there was still a lot to be done.

The special operations brigade on their way back home, the forces involved in the attack on them, the Philippines and Vietnam who conducted the military exercise, and the covert actions of certain people, these, China will not just forget!

The army and the economy are the mainstays of the settlement of accounts, while the economy is the responsibility of a special department, the army has to be discussed and arranged by the generals, which is an extremely complicated task.

He stayed behind after several generals left, and called Ji Feng into an office alone, without even allowing Ji Zhenping or Xiang Yongzhan to follow.

"Chief General Xiang, you are looking for me for something else?!" Ji Feng asked.

"Don't worry, it's definitely not to urge you to manufacture a laser gun!" Xiang Jiefang smiled and said, "It's still almost half a year before our agreement, it's still early. Besides, you're already doing very well!"

"Thank you, Chief Xiang for the compliment!" Ji Feng nodded his head and accepted it frankly.

Because he did his own best, and even if he didn't find the Alpha Ore, he was able to guarantee that he would be able to manufacture the laser gun within the agreed deadline of one year, just that it was obviously less stable in terms of stability than the energy source made from the Alpha Ore.

He was not accustomed to the kind of hypocritical people who squirm on the surface but are full of bad intentions behind the scenes.

"Ji Feng, what I called you here today is not about this matter." Xiang Jiefang said.

Ji Feng nodded and didn't answer, he knew Xiang Jiefang must have something else to say next.

As expected!

Only to hear Xiang Jiefang say, "Now I called you here, purely for personal matters, you risked great danger to save Xiang Yongzhan and save the Special Combat Brigade back, this is for me to thank you from the bottom of my heart."

Ji Feng was busy saying, "Chief Xiang is too irritating, I am friends with Xiang Yongzhan, then naturally I will not stand by and watch his life in danger and do nothing about it, and, this matter is something I am sure of in my heart, so you must not be too irritating."

But Xiang Jiefang shook his head and said, "I don't know whether you are sure or not, but the result I saw was that you also risked a great deal, even going so far as to bring along a half-finished weapon that was extremely harmful to your own body, to save my son back, and for that, I would like to say thank you!"

Although Ji Feng said he was sure of himself, however, Xiang Jiefang, who had been a soldier for most of his life and had personally led troops into battle, naturally knew better than anyone else just how great the danger was for a man with his equipment, armed and swimming across that distance, which could be discovered by the Philippine and Vietnamese navies at any time!

You have to know that if Ji Feng had died at sea at that time, neither the Philippines nor the Vietnam would have admitted it, they were on a military exercise, it was already a military alert area, when Ji Feng got there, even if he took out all the evidence, these two wolfish countries would definitely have a lot to say.

The risks involved were well known to the heart of Liberation.

Besides, was Ji Feng really sure?

The fact is that the two wolves are not really sure what to do.

So, this favor is really too big.

Ji Feng repeatedly excused himself, but Xiang Jiefang said, "Ji Feng, I'm not the chief now, I'm just a father, for you to save my son, I express my gratitude to you, if you excused yourself again, then it would be difficult for me to do."

Ji Feng laughed bitterly, "But you are also making it difficult for me to do this now!"

Xiang Jiefang waved his hand and said, "Don't squirm, this is what you deserve and what I should do, there's nothing wrong with it and you don't need to be difficult."

Ji Feng could then only smile bitterly.

Xiang Jiefang said again, "Today, this thank you is just a slight expression of my feelings, this favor of yours, I'll take it down."

Ji Feng could only practice excusing himself, and Xiang Jiefang didn't care about him and didn't say anything more, he had to say thank you, but of course, this thank you couldn't mean anything, he owed this favor and had to pay it back with practical actions!

But these words to liberation naturally will not say out, there are some things, heart know just, when Ji Feng needs, he will naturally pay back.

"In addition, the matter of you going to Treasure Island, since you have to go before you can, then I will not stop it, you can go with confidence and boldness, if the Bao family or certain people in Treasure Island want to do anything to you, we are your strongest backing!" Xiang Jiefang said in a deep voice.

Ji Feng nodded, he knew that Xiang Jiefang was giving him an assurance. With this assurance, he could go to Treasure Island completely fearlessly, even though he was not afraid of the Bao family at all.

The two did not chat for too long, and Xiang Jiefang likewise did not have much time to waste, so Ji Feng quickly offered his farewell.

After separating from Xiang Jiefang, Ji Feng went back to Little Uncle's place, where Bai Zhu was still waiting.

"Kid, you're awesome!"

Seeing Ji Feng come back, Ji Zhenping couldn't help but smile and say, giving a thumbs up, "Awesome!"

Ji Feng shook his head and said with a smile, "It's nothing."

"This is still called nothing! You probably still don't know what it means that Chief Xiang personally poured water for you today in front of so many people, right?" Ji Zhenping asked with a smile.

"I understand!" Ji Feng nodded and laughed.

Ji Zhenping then couldn't help but say, "That's why I said you're awesome, what many people in our family failed to do, but it turned out that you easily did it, in this regard, I even have to admire you!"

Although this was just a seemingly ordinary gesture, but with Xiang Jiefang's status, it had a different meaning when placed on an occasion like today.

This is an act that tells everyone here that he thinks highly of Ji Feng!

And again, given his status, plus the fact that Ji Feng had saved the Special Operations Brigade and Xiang Yongzhan, it was naturally clear to everyone here that this meant that Xiang Jiefang was sending a signal outwards – he owed Ji Feng a huge favour, and Ji Feng held a high position in his heart!

This was no ordinary thing!

This was almost like openly showing Ji Feng's support to the outside world!

Imagine, with Xiang Jiefang's support, who else would dare to do anything to Ji Feng? Ji Feng could simply walk around without any obstacle!

With only the support of the Ji family, Ji Feng might not be so smooth, because there were still people who did not deal with the Ji family who would target him, but with the support of Xiang Jiefang, who else would dare to target Ji Feng in a particularly excessive manner? That would almost be like facing the revenge of both the Ji family and the Xiang family at the same time!

The mere thought of it was enough to make some people tremble with fear!

Ji Feng shook his head and laughed, "It's not that serious."

"It's not that serious?!"

Ji Zhenping said, "This is still just for you personally, do you know how important this favour owed to you by Xiang Jiefang is to your father?!"

Ji Feng faintly froze, he hadn't thought of this point.

Ji Zhenping said, "Kid, if your dad wants to continue to make great strides, wants to step to the top, he must have the support of the military, otherwise, everything is empty talk! Now you know how important that is to your dad, right?!"

Ji Feng couldn't help but be dumbfounded.

Indeed, China is all about power from the barrel of a gun, if you don't have the support of the military, if you want to step up to the top, it's completely impossible, it's not even certain if you can sit firmly in the position of a central bigwig, without a foundation, if others want to move you, it's not that difficult!

This public statement to Jiefang can almost be said to be an extremely strong support to Ji Zhenhua!

Ji Zhenping patted Ji Feng's shoulder and said with a smile on his face, "Kid, you've done something that you couldn't do with the amount of resources you've used, impressive!"

Ji Feng just smiled, he hadn't thought of this level before he went to save Xiang Yongzhan, this was also considered an unexpected pleasure.

What Ji Feng wanted most was Xiang Yongzhan's support for him in the future, because next, he would still have an endless variety of weapons to launch, and more industrial products, and this, was the key factor for the Tengfei Group to be able to step into the international arena and become an international giant, but all these sensitive things needed the strong support of the military.

"Go home, and spend more time with your parents before you leave." Ji Zhenping said with a smile.

Ji Feng nodded and took Bai Zhu out of Ji Zhenping's office, but he didn't have to go far before he saw Xiang Yongzhan standing in the corridor laughingly waiting to be the driver.

This guy was really bored with nothing to do!

Ji Feng shook his head and smiled, but he didn't refuse.

"Ding"

He just sat in the car, but his phone suddenly rang, he picked up the phone and took a look, not having a slight faze, it was her?

Campus Master Chapter 2780 -

The call was unexpectedly from Ji YuHye!

This made Ji Feng feel more or less surprised, because he had not contacted Ji YuHye for a long time since he had returned from Rice last time, but unexpectedly she suddenly called now.

It was not that he wanted to put up a fight or deliberately hang Ji Yuqing out to dry, but before he answered the phone, he wanted to think about what Ji Yuqing might be calling about and how he should answer then.

After all

There had been quite a few misunderstandings between him and Ji Yuqing, and although it was said that all the misunderstandings were later cleared up and did not superficially affect their relationship much, their relationship was now more or less fractured and they were no longer considered good friends like they used to be.

A few moments later, Ji Feng picked up the phone.

"Yu Yi, why did you want to call me?" Answering the phone, Ji Feng said with a smile.

"It seems like you don't consider me a friend!"

Ji YuYi said, "It should be normal for friends to call to say hello to each other, right?"

Ji Feng instantly laughed, "Don't get me wrong, I was just a bit surprised to receive your call out of the blue, I should have called you, but I'm usually too busy, and as a result, I didn't have the time to do so, so I forgot about it."

Ji YuYi then couldn't help but laugh lightly twice, obviously Ji Feng's answer satisfied her. Although she also knew that Ji Feng's words were actually just polite words, how could Ji Feng not even have the time to make a phone call after he had left from Rice for so long?

Obviously, it was because of the misunderstanding last time, which had made things more or less rusty between the two.

Ji YuYi knew it clearly in her heart, but would not say it out loud, because she knew that she was actually the one who had wronged Ji Feng for what happened last time. Although it was Ah De who betrayed Ji Feng, she, as the first lady of the Chuk Yuen Gang, could hardly be blamed for it, after all, Ah De was her subordinate.

"Ji Feng, how are you doing lately?" Ji Yuhui asked in a soft voice.

"Not bad."

Ji Feng smiled, "Still running around just like before, definitely not as comfortable as you, Missy."

Hearing Ji Feng's jibe, Ji Yuhui couldn't help but say, "You, you didn't like to tease people like that in the past, now you've learnt something bad!"

Ji Feng chuckled and said, "Really? Maybe I learned it from the bad guys, I can't help it, there's no good guys around!"

Ji YuYi then laughed.

These few simple jokes were what brought the relationship between the two of them slightly closer, or at least, the rustiness and a hint of awkwardness that they had just felt washed away quite a bit.

“YuYi, you’re not calling me just to chat with me, are you?” After joking around, Ji Feng couldn’t help but ask with a smile.

“Not really.”

Ji Yuqing said, “It’s mainly because I suddenly remembered you after hearing news about you again recently, so I gave you a call.”

In fact, it was not that Ji Yuqing suddenly thought of him. When she was in Rice, Ji Feng had almost single-handedly beaten the entire New York Dao into silence, and his fierceness and terror had left too deep an impression on Ji Yuqing.

Ji Feng’s real strength, his toughness, was not something that Ji Yuqing knew too much about. But just by the kind of toughness that Ji Feng had displayed at that time, it had already made Ji Yuqing’s heart startled.

I am afraid that no one would want to be an enemy of such a strong and terrifying man, and for Ji Yuyeh, if the Chuk Yuen Gang could have such a strong friend, it would really be a great help!

So ever since she returned to Treasure Island, Ji Yuqing had been thinking about what she could do to repair her relationship with Ji Feng. She had thought of many ways, such as taking the initiative to give Ji Feng a call, or using the excuse of discussing business to come to the Mainland to meet with him, etc. But later, all these methods were rejected by her. But later, all these methods were dismissed by her.

Because she was too embarrassed to meet Ji Feng!

At the beginning in Rice, because of Ah Tak’s leak, Ji Feng almost faced a chase from the entire New York Dao. Later on, she also had an argument with Ji Feng because he suspected that it was someone from the Chuk Yuen Gang who had leaked the information, and their relationship almost came to a standstill.

Under such circumstances, how could Ji Yuhui have the heart to call Ji Feng?

No matter how domineering Ji Yuhui was, she was still just a girl, so she was naturally too embarrassed to say these things explicitly.

“Oh?! Heard any news from me?” Ji Feng asked with a smile.

“I heard that you had a conflict with Bao Weisheng of the Bao family at sea?” Ji Yuhui asked.

“How did you know that?!” Ji Feng couldn’t help but be slightly stunned, at that time at sea except for the Special Combat Brigade was Bao Weisheng’s side, could it be that Bao Weisheng himself would still go around spreading the news of being beaten up like a dead dog by himself?

“The news came out from one of Bao Weisheng’s bodyguards, and because of this news, that bodyguard disappeared the next day.” Ji Yuhui said.

Ji Feng was suddenly dumbfounded, but then his brow furrowed, that bodyguard had disappeared?

Could it be that he was killed by Bao Weisheng because of this big mouth declaration thing?

“If my guess is right, that bodyguard is probably no longer in this world now.” In the next moment, Ji YuYi’s words confirmed Ji Feng’s guess, but he couldn’t help but be flabbergasted.

Bao Weisheng, how ruthless!

Just because his scandal had been publicised, he had killed someone? Moreover, it was his own bodyguard who had been killed?

“There is such a thing.”

Ji Feng nodded and said, “I just didn’t expect that Bao Weisheng would be so ruthless!”

Ji Yuhui couldn’t help but be shocked at once, “Is this true?! You really gave Bao Weisheng a severe beating?”

“That’s what he asked for!”

Ji Feng brought the events of that time over in one sentence and asked, “Bao Weisheng killed someone just like that, didn’t anyone hold him responsible? Nothing happened?!”

Ji Yuhui said, “That’s because you don’t know Bao Weisheng, this man is known throughout the whole of Treasure Island for his ruthlessness! Moreover, even if everyone knows that the bodyguard’s disappearance is inextricably linked to Bao Weisheng, there is no evidence, and the bodyguard has not been seen alive, so who can do anything about Bao Weisheng?”

Ji Feng couldn’t help but sneer, “If you do more than what is right, you will kill yourself! One day he’ll get what’s coming to him!”

Ji YuYi could not help but shake her head, but did not answer because she felt that Ji Feng’s view was a bit too subjective. Ji Feng did not understand the situation on Treasure Island, let alone how powerful the Bao family was on Treasure Island.

Even if he could really find conclusive evidence to prove that Bao Weisheng had indeed killed someone or was the mastermind of the murder case, he would definitely have a way to get out of it.

“Ji Feng, you’d better pay attention to your own safety during this period of time, I’ve received news that the Bao family is extraordinarily annoyed because of Bao Weisheng’s beating, Bao Weisheng is even contacting mercenaries, I don’t think I need to say much about what he’s going to do, right?”

Ji Yuhui said, “You should pay attention, this person Bao Weisheng is really capable of doing anything!”

Ji Feng smiled coldly when he heard that, “It seems that he really didn’t scare me!”

At the beginning on the boat, Bao Weisheng had made a bold statement, and even even when he was pointed at gunpoint, he actually dared to threaten the special operations brigade in turn, saying that with

the strength of the Bao family, by then all the mercenary corps in the world would be hunting them down

Now, he's starting to use that against himself!

"So, has any mercenary corps taken up the job now?!" Ji Feng asked.

"That's unknown, I just heard that this matter is related to you, so I kept an eye on it, but this kind of thing, Bao Weisheng will definitely keep it a secret, who he's dealing with and whether he's sure, it's hard to find out all this information."

Ji Yuet said, "Anyway, you are definitely right to be more careful yourself, Bao Weisheng is an extraordinarily dignified person, now that he thinks he has lost face, he will definitely retaliate at all costs, with the wealth of the Bao family, someone will definitely take up the job!"

The mercenary corps nowadays are extremely powerful and, for money, those people would dare to take on any job. Even if the mercenary corps didn't dare to take it, there were definitely killers who would take the job.

If he was targeted by those top international killers, Ji Feng was afraid that he would be in danger.

The first time I heard this, I didn't get too excited or disdainful, I just said indifferently, "Just take it, people die for money, birds die for food!"

"Ji Feng, don't take it lightly, if a top international assassin really takes the job, it will be really dangerous then!" Hearing Ji Feng's breezy tone, Ji Yuqing couldn't help but remind again.

"It's okay, doesn't Bao Weisheng want to kill me? It's just as well, I'm going to Bao Island in the next day or two, and I'll take the initiative to send it to my door!" Ji Feng said with a smile.

"What?!"

Ji YuYi was stunned, "You're coming to Treasure Island? You actually want to come to Treasure Island at this time? You"

Ji Feng laughed, "I'm not even nervous, why are you excited! Don't worry, if Bao Weisheng wants to kill me, it won't be that easy!"

"..... Who's excited!"

Ji YuYi angered before saying, "Ji Feng, I know you have a great reach, but how can a person's body be strong enough to withstand bullets?!"

Ji Feng said, "When I was in New York, the situation I faced was much more dangerous than now, right?"

Ji Yuhui was at a loss for words.

Whether it was when he took out dozens of gangsters in one night, or when he brought his relatives, fought in a bloody battle on a long street, killing the whole street in a river of blood, it was a most drenching outburst of personal force against modern hot weapons!

In New York, Ji Feng had truly interpreted what strength means!

Campus Master Chapter 2781 -

"So when are you coming to Treasure Island?!" Ji YuYi asked, however as soon as she finished asking she hurriedly said, "Don't misunderstand, I'm just asking casually, if it's inconvenient to say it's okay, just pretend I didn't ask!"

In fact, as soon as Ji YuYi asked she regretted it, she instantly remembered the incident when she was in New York and Ade had leaked the information, at that time Ji Feng had trusted herself and only then told herself a lot of things without hiding anything, however, Ade had spread the news and as a result, Ji Feng was put in an extremely passive situation.

At that time, if it wasn't for that hearty outburst from Ji Feng, I'm afraid that by now, Ji Feng would have been buried in Rice!

So now when Ji YuYing just asked, she suddenly remembered that if Bao Weisheng also learned of Ji Feng's whereabouts, or if there were mercenaries and assassins looking for Ji Feng on Treasure Island, then she wouldn't be able to tell when the time came.

When Ji Feng smiled, she couldn't help but shake her head and said, "It's probably just a day or two, it hasn't been decided yet."

Somehow, when Ji YuYi heard Ji Feng tell her the truth, her heart was relieved instead, because Ji Feng answered her so thoughtlessly, obviously he didn't have much wariness towards her, which was a sign that he still trusted her.

"Then when you come to Treasure Island, make sure to come and find me, I'll be on Treasure Island for a while and won't be going out." Ji Yuqing said, "I'll be the host and give you a reception when the time comes."

"No problem, it's not uncommon to trouble you when you go to Treasure Island!" Ji Feng laughed.

Ji Yuhui said, "I was afraid you wouldn't bother me!"

Ji Feng laughed, "How is it possible that I won't look for you when I go to Treasure Island, unless you don't treat me as a friend anymore!"

Ji YuYi was busy saying, "You're still saying that, it's me who's afraid that you won't treat me as a friend anymore!"

Ji Feng then couldn't help but laugh, and Ji Yuhui paused for a moment and laughed too. But at the other end of the phone, Ji Feng could not see that Ji Yuhui's pretty face was slightly red. The tone of her voice just now was like a flirtation, but fortunately it was only a phone call, so Ji YuHye was blushing but pretending to be calm!

At this time, if the people of the Chuk Yuen Gang knew that their Missy would have such a little daughterly gesture, I am afraid their jaws would fall off in shock.

"That'll be all for now then, bye!" Slightly calmed down, Ji Yuet Ching hurriedly hung up the phone.

"Beep beep"

Listening to the busy tone on the phone, Ji Feng was slightly stunned as he shook his head and put the phone away.

Turning his head, but seeing Bai Zhu's pair of beautiful eyes looking at him, Ji Feng smiled and said, "It's Ji YuYi, she heard something and called over to tell me on purpose."

"Mm."

Bai Zhu nodded slightly, but the smile in those beautiful eyes was a riot's reveal of her heart.

Ji Feng then couldn't help but shake his head and lose his smile, he knew that Bai Zhu was sitting next to him and must have heard some of his conversation with Ji YuYi just now, but, apparently, she had misunderstood.

Now that Xiang Yongzhan was sitting in front driving, Ji Feng couldn't really explain.

"Ji Feng, what did I hear you say just now, it seems like someone is trying to do you a disservice?!" At this time, Xiang Yongzhan suddenly asked. He didn't hear Ji YuYi's voice, but from what Ji Feng was saying, he could roughly deduce their conversation.

"It's Bao Weisheng, after he went back one of his bodyguards told what happened at sea and ended up disappearing, most likely by Bao Weisheng."

Ji Feng said, "That friend of mine received news that Bao Weisheng is now contacting mercenary groups to take revenge."

Xiang Yongzhan smiled coldly at his words, "I think he really must not die suffocating! He had already let him off the hook at sea at that time, but now he is still excited to take revenge instead?"

Ji Feng laughed and said, "If it were me, I would definitely want to retaliate too, it's normal."

With Bao Weisheng's origin, I think he should have never suffered any losses, and I'm afraid no one even dared to say a few serious words to him on Treasure Island, but this time at sea he was the one who suffered such a big loss, and he definitely wanted to retaliate.

"Just because of his behaviour, if I hadn't considered the repercussions afterwards, I would have wanted to shoot him at that time, how dare he retaliate!" Xiang Yongzhan said in a cold voice.

"That was only from our point of view that we found his behaviour hateful!"

Ji Feng was very open-minded, he said, "But from Bao Weisheng's point of view, he hates mainlanders, he thinks we have no quality, and all sorts of other vices, I'm afraid he's ashamed to be with us in his heart, but he can't change the fact that he's also a Chinese, so he loathes us, and is even hostile to us!"

Xiang Yongzhan was even angrier: "What, does that mean you can insult us at will? As soon as you hear that the special operations brigade is in danger, you can't wait to go and see what's going on. What is this? Schadenfreude or falling down on the well? How can people like that look down on us? And they're ashamed to be with us, what a load of crap!"

"Maybe that's what he thinks!" Ji Feng laughed, "Moreover, I'm afraid that he has a large group of people who see things the same way in Treasure Island with this kind of perception!"

"....."

Xiang Yongzhan then fell silent.

Because he also knew that what Bao Weisheng said was actually not all wrong. Although Bao Weisheng's words were mostly insulting, but, putting that aside, just talking about the quality of the people around him, it really needs to be improved, not to mention comparing with those developed countries, just comparing with some relatively more developed domestic cities alone makes people can't help but frown.

"Then you go to Treasure Island this time I see, I'd better send two people with you, or simply I'll bring people with you directly!" Xiang Yongzhan said, "If Bao Weisheng dares to do anything wrong, I definitely won't spare him lightly this time!"

"Over on Treasure Island, even if you bring the entire special operations brigade there, what can you do?!" Ji Feng shook his head and lost his smile, "If you bring people over there, can they not know your identity? I'm afraid that some people's nerves will be tense as soon as we get to the island!"

Xiang Yongzhan then couldn't help but feel a bit helpless and said, "Then send a few people whose identities are not disclosed to the public to accompany you over, you definitely can't go over alone anyway!"

If Ji Feng went to Treasure Island alone, if Bao Weisheng really did something without knowing the sky was high, there would really be no way to end it then.

Even if the Bao family was exterminated, what would change?

"Don't worry!"

Ji Feng laughed, "I hadn't planned to go alone, searching for ores in such a big place, I definitely can't do it alone."

Xiang Yongzhan immediately asked, "Then who are you going to take with you?!"

Ji Feng said, "I'm still thinking about it."

If he was just going to Treasure Island, it didn't matter if he went alone, but if he was going to search for the Alpha Ore, he alone wouldn't be enough, he had to have helpers to do so.

As for who to take with him, Ji Feng hadn't thought about it yet, but there was no doubt that Bao Weisheng wasn't even on his mind, and how could the so-called revenge of Bao Weisheng make him fear or be like a great enemy? Bao Weisheng wasn't qualified enough for that!

"That's right!"

At this moment, Xiang Yongzhan suddenly remembered something and said, "Ji Feng, there's something I have to remind you, after you go to Treasure Island, be more careful, according to reliable information, the mercenary group that was destroyed this time, there are some remnants that went to Treasure Island and became the guests of certain people!"

Ji Feng frowned: "By certain people, what kind of people are you referring to?!"

Ji Feng knew that the remnants of that mercenary group had gone to Treasure Island, but he hadn't thought that those people had become the guests of others. A group of bereaved dogs, who could they be?

Xiang Yongzhan sneered and said, "What else could it be, of course it's those people who are hostile to the mainland, who clamour every day to be near Kepong and Rice, and who are also the top brass of Treasure Island!"

Ji Feng then understood that this was certain forces that were extremely hostile to the mainland, but whenever they were not in opposition to the mainland, they pulled in, but whenever they were close to the mainland, they suppressed them, or just created rumors to smear them, etc.

"I'm thinking that if you go over there this time, your identity will definitely not be able to be concealed from some people, and then maybe some people will take advantage of this opportunity to make waves, and by then you will have to face more than just a Bao Weisheng!" Xiang Yongzhan said.

Ji Feng nodded and said, "It's fine, the soldiers will come and go, the water will come and go! But, I definitely have to go to Treasure Island!"

He had to get the Alpha Ore, it wasn't just to develop the laser gun, but it was also related to many of Ji Feng's next plans.

Whether the Tengfei Group could really take off and lay a solid foundation, the development of laser guns and small laser cannons was extremely crucial.

Ji Feng only stayed in Yanjing for two days, and then he returned to Jiangzhou.

On the day he returned to Jiangzhou, he gave Zhang Lei a call, "Lei Zi, I'm going to Treasure Island, it might be exciting, want to go and have some fun?!"

Once Zhang Lei, who was far away in the northeast, heard this, he simply said, "I'll pack my luggage and go to the airport."

With that, he hung up the phone.

Ji Feng then shook his head and smiled, then he thought about it and took out the phone but put it down again.

Bai Zhu asked, "Young Ji, is it just the three of us going?"

Ji Feng said, "Originally I wanted to bring Qin Feiyu with me, he is good at sneaking and this is the right time to bring out his strengths, but he is still injured, so let him recuperate in peace."

Qin Feiyu was a big name in the assassin world, the Flying Fish, when it came to sneaking as well as acting in the shadows, I am afraid that only Bai Zhu could surpass him around, but Bai Zhu had to stay by his side, in this way, it was most appropriate to have Qin Feiyu in the shadows, but with Qin Feiyu's current condition he definitely could not go.

"Young Ji, bring a few more people with you, that way I can protect you in the shadows!" Bai Zhu said softly, the situation provided by Ji YuYing and Xiang Yongzhan made Bai Zhu couldn't help but be a little worried.

"Don't worry, it's fine!"

Ji Feng shook his head and after a moment of deliberation, he said, "Then take Liu Zejun and Yao Zhijian with you again."

Bai Zhu said, "Young Ji, we have another expert here, how come you gave it a miss?"

An expert?

Ji Feng was stunned, "Who is it?!"

Campus Master Chapter 2782 -

Bai Zhu said, "Ji Shao, you've forgotten ah, you saved a rather powerful expert before and even picked up his mother to settle down"

"Yang Bin?!"

When Bai Zhu said so, Ji Feng immediately knew who she was talking about, which made him flinch, it was true, Yang Bin was an expert, Yang Bin, who came from an ancient martial arts sect, himself was not just an external martial artist, Yang Bin's internal strength was also quite strong, even if an ordinary expert faced him, there was absolutely no chance of winning!

If it wasn't because Yang Bin's strength was too strong, I'm afraid that his father, who didn't treat him well, wouldn't have let him be his brother's fighter, his tool.

"Young Ji, Yang Bin has no place to go even if he stays here, there is Yang Feng watching him outside, if you leave, maybe Yang Feng will do something!" Bai Zhu said, "Now that Qin Feiyu is injured, wouldn't it be just right to let Yang Bin take over?"

"Mm!"

Ji Feng nodded slightly, "What you said makes sense, let's go, let's go find Yang Bin!"

It was true that Yang Bin had nothing to do when he stayed in Jiangzhou, and Yang Bin had also told him more than once that he wanted to follow him and do something, but it was just that considering that Yang Bin was still wanted by Jibei Province, plus there was nothing urgent, so Ji Feng had not agreed to it.

And now, it was a suitable opportunity.

The dormitory that Yang Bin is living in is a house that Ji Feng asked Han Zhong to arrange for him at Tengfei Group, because the dormitory that Tengfei Group's employees live in is not the same as those of other factories.

This is also the philosophy that Ji Feng advocates to make sure that the best treatment is given to the staff, Xiao Yuxuan and Han Zhong also share this idea, so much so that there have been cases where some employees who originally had some difficulties and overcrowding in their families would rather live in the staff dormitory than go back.

This is something that Ji Feng is proud of and proud of!

Yang Bin lived on an upper floor of a building located in the middle of the dormitory area, and the two of them lived in a two-bedroom building, which was not very large, but it was enough for the two of them to live in.

More importantly, the reason for placing Yang Bin and his mother and son in the Tengfei Group's staff dormitory was more for the purpose of protecting their safety.

The reason is that Ji Feng is not sure if the arrogant Yang Feng will do the same thing again by sending the police to arrest Yang Bin across the province, that young Feng is very reckless!

And living in the staff dormitory area of the Tengfei Group, no matter who wants to come in, it's not that easy, even if it's the local police in Jiangzhou, they have to have legal procedures to come in, not to mention the police from other places!

This was the best arrangement Ji Feng could make, after all, he couldn't send people to protect Yang Bin all day long.

"Sir! Miss Bai?!"

When Yang Bin opened the door and saw Ji Feng and Bai Zhu standing outside the door, he couldn't help but look surprised, "Sir, come in quickly!"

Ji Feng smiled and said, "Auntie is home, right?"

Yang Bin scratched his head and said, "No, she went down to have a chat with someone!"

Ji Feng smiled and nodded, it was hard for people to adapt to the environment and life in faraway places when they were older because there was a big difference in both living habits and language, etc., it was much better to have someone to talk to instead!

"Sir, do you have something?!" Yang Bin took the gift he brought from Ji Feng's hand, then couldn't help but ask.

"Yes there is something, since auntie is not at home then I will say it clearly, I need you to go with me to a place, it will probably take a few days, or longer, and it will probably be a bit dangerous"

"Sir, I'll go!"

Before Ji Feng had finished speaking, Yang Bin blurted out without even thinking: "No matter where sir tells me to go, I'll go!"

Yang Bin didn't hesitate in the slightest, Ji Feng's kindness to him made him willing to risk his life for Ji Feng.

"There's no rush!"

Ji Feng waved his hand and said, "I won't leave until tomorrow, so you should discuss it with your aunt first today."

Yang Bin said, "There's no need to discuss it, my mother definitely agrees. Sir, please make sure you let me follow, I"

He said in a deep voice, "If you don't agree, then I will follow you every inch of the way now!"

Bai Zhu's eyebrows knitted, "Yang Bin, that's too much! Are you threatening Young Master?"

Yang Bin's face changed and he hurriedly had to explain that he didn't have this in mind, he just wanted to repay Ji Feng, he didn't mean anything else.

Ji Feng waved his hand and laughed: "Yang Bin is also well-intentioned Yang Bin, listen to me, discuss with auntie first, I know what you want, but you have to find a way to make auntie feel at ease, otherwise, even if you go with me, you definitely can't concentrate on things, then it would be better not to go instead, right? Isn't that right?"

Yang Bin nodded and said, "Sir, I understand, then I will go to you first thing in the morning."

It was only when Ji Feng and Bai Zhu left that Yang Bin couldn't help but wave his fist, "Great, I finally have a chance to work for you!"

"Bai Zhu, just now you were deliberately scaring Yang Bin, right?" When he got downstairs, Ji Feng asked with a smile.

"I just saw that he was too excited and didn't have the steadiness he had before, so I wanted to remind him." Bai Zhu said, her pretty face slightly red. Before, Yang Bin was very steady and tough, which made him suitable for stalking.

But just now, Yang Bin's performance was a little disappointing to Bai Zhu, so if he got excited so easily, it wouldn't be appropriate!

Ji Feng said, "Yang Bin used to live a too depressing life, now that he's in a better mood, he's naturally a bit more spontaneous, but he's still quite calm and steady in general."

Bai Zhu nodded, but in her heart, she secretly decided to observe Yang Bin properly, she was the one who reminded Ji Feng to use Yang Bin, if Yang Bin was not suitable, then naturally she could not be blamed.

Even if Ji Feng didn't blame her, she still had to think about Ji Feng's safety!

Since he had arrived at the company, Ji Feng took Bai Zhu to Xiao Yuxuan's place, but it turned out that Xiao Yuxuan was busy and was having a meeting with several senior executives for the signing of a cooperation agreement with German Siemens next week.

So, it was not good for Ji Feng to disturb her – in fact, even if Ji Feng went, Xiao Yuxuan would not pay attention to him, so Ji Feng had to go to Han Zhong's place, because the specific procedures he was responsible for were different, so Han Zhong did not attend the meeting hosted by Xiao Yuxuan, but was in his office preparing for other work.

"Ji Feng, why did you suddenly come over at this time?" When Han Zhong saw Ji Feng, he couldn't help but be slightly stunned.

"I happened to come to the company for something, so I stopped by." Ji Feng smiled, "To sign an agreement with Ximen, right?!"

"Well, it's set!"

Han Zhong nodded and said, "They say that German people are archaic, but I think it's better to say that they are strict, they won't miss any clause in the contract and will check it carefully. This is not the case, I have to verify all the items again at the end, otherwise, it will be a shame when the time comes!"

Ji Feng said, "That's why when it comes to industry, such as cars, the first thing that comes to everyone's mind is German quality, but no one ever says Chinese quality!"

Han Zhong nodded and said, "Yes, this months-long negotiation with Germany really showed me how strict the Germans are, and I have to admit that the Germans really have a lot of merits that we need to learn from!"

Ji Feng laughed: "To have this understanding is in itself a kind of progress, take your time, many things can't be changed overnight!"

"Time is not on my side!"

Han Zhong couldn't help but say, "I really want to ship our 3d TV sets to the world right away, if we wait another year, I'm afraid we can't really compete with those big companies."

Ji Feng asked, "What do you mean?"

Han Zhong went to the newspaper rack and took a newspaper and handed it to Ji Feng, saying, "Take a look, just yesterday, Kerry Four Star Group announced that they have made great strides in the research and development of LCD screens and have successfully applied 3d technology to all categories of their displays!"

Ji Feng immediately frowned at his words, "So soon?!"

"Yes! Scary fast!"

Han Zhong said, "If this news is true, then that means we have at most half a year to go! I'm afraid that when we first launched the 3d TV set, I'm afraid that several large electronics groups such as the Four Star Group are already working on the research and development of 3d TV sets, and with their deep pockets, as long as there's a technological breakthrough, then the next step could be fast!"

These large groups are too deep, they have all kinds of top talents, whether from design, or research and development, or marketing and so on, have long had a set of mature and very good process, and also have very good talents, as long as their technicians breakthrough, then the next is almost a one-stop process.

"Six months at the most!"

Han Zhong said: "I asked our company's experts, according to his understanding, to four star group's technical reserves and accumulation, at the latest at the latest only a year's time, they can do the final debugging and testing, and after that, it will be a large-scale listing, by that time, our 3d TV market, will certainly be a huge impact! "

Ji Feng laughed: "So, this half year's time left for us to grab the market, should be enough, right?"

Han Zhong gritted his teeth and said, "It's enough! We can't compare to those large groups in other aspects, but when it comes to 3d TV sets, we're not afraid of anyone, and when it comes to technology and impact, we're no worse than anyone else!"

"It's good to have confidence!" Ji Feng smiled, "Don't worry, as long as we don't have any problems ourselves, in terms of technology, other companies won't be able to surpass us!"

"But right now, our company's technical staff is not yet capable of researching and developing on their own, just those techniques you gave them, they haven't even eaten through them yet!" Han Zhong couldn't help but shake his head and laugh bitterly.

Campus Master Chapter 2783 -

Ji Feng laughed: "It's okay for the technicians not to eat through it for the time being, give them enough time because our base is too poor! However, just because the technicians can't develop independently for the time being, it doesn't mean we don't have new technology!"

With that, he pointed at himself.

Hearing this, Han Zhong's face instantly beamed with joy as he asked, "What, you've got another technology developed?"

Ji Feng smiled and said, "Sort of. I dare not say anything else, but there is at least one thing that can be guaranteed, within a few years, no other company will be able to surpass us in terms of technology, and it will all be technology that is quite a bit ahead, that's enough, right?!"

"Really?!"

Han Zhong looked at Ji Feng in surprise and asked, "Ji Feng, if you tell me now that you are joking, then I will fight you today!"

Ji Feng laughed and said, "I told you a long time ago to run the business without worrying, you don't have to worry about the technology at all, you wouldn't forget, would you?"

Han Zhong couldn't help but breathe a sigh of relief and said, "That's good! Ji Feng, as long as the technology can be guaranteed, then I dare say that no one will be able to steal us the market away."

In this era, technology is king!

Or in other words, nowadays, in this era, technology is king!

There are ways to make up for a product's shape, function and design, and it is easy to correct them, but technology is unique and cannot be imitated.

As long as the technology is leading, then Han Zhong is confident that no matter which company he dares to compete with Besides, the two sides are not even on the same level of technology, so it can be said that there is no competition, so let's wait until those companies can produce products at the same level!

This is like in the domestic 3d television set, now the domestic only Tengfei Group can produce, any other company can only watch Tengfei Group a lot of money, can only watch the 3d television crazy sale, want to imitate can not, shape and design you can copy, but, let the picture in 3d stereoscopic form in front of the audience, this how to imitate?

This is the effect of technological and scientific advancement! This is the effect of technological and scientific leadership, which has ensured that 3D TV sets are selling like hot cakes!

By the same token, it has been a few years since the Kang source slimming powder was introduced, but the sales are getting higher and higher every year, especially abroad, and there is no product that can match the effect of Kang source slimming powder, let alone surpass it!

The leading technology is the core and fundamental!

Now with Ji Feng's guarantee and technical assurance, Han Zhong is confident that even in the international market, Tengfei Group will definitely sell like crazy!

As the two chatted, Ji Feng casually sat down on the sofa next to him, but as soon as he sat down, he couldn't help but move his nose and sniff twice.

"What's sniffing?!" Han Zhong asked.

"This sofa I know, David Wang has been here, right?" Ji Feng asked with a smile, "There's a perfume smell on this sofa, I haven't smelled it in your place before."

Han Zhong then laughed heatedly, "Yeah, she came in the morning, today she happened to be off so she came over to look for me, but saw that I was busy so she left again."

Looking at Han Zhong's face of happiness and reminiscence, Ji Feng couldn't help but smile badly and said, "Han Zhong, I think you're doing something bad, aren't you?"

"I pooh!"

Han Zhong instantly knew what Ji Feng was talking about, he said, "How is that possible!"

Ji Feng stared at him with a smirk and asked, "Really?!"

"..... Okay."

Han Zhong blushed and said, "Just pressed on the sofa and kissed for a while."

In his mind, he couldn't help but recall the intimate scene when he pressed Wang Jun on the sofa and kissed and touched him again in the morning when Wang Jun came.

The first thing he wanted to do was to scam Han Zhong by smelling the perfume on the sofa, but he didn't expect the kid to confess straight away, and the kid actually blushed!

But this also shows from the side, when it comes to men and women matters, Han Zhong is still very simple.

The first time I saw Han Zhong's face was about to turn black, Ji Feng stopped laughing and waved his hand: "Okay, okay, I'm just kidding! So what, what do you think about Wang Jun?"

Han Zhong hummed: "What about what?!"

"Of course it's this person, what do you think?!" Ji Feng asked, "You gave me a compliment last time on the phone, and said something about her coming over every day to help you sort out your files, right?"

"Yes!"

Han Zhong nodded and said, "It's the same now, except that I'm going to sign a contract with the Ximen Group in the next two days and I'm too busy with work, so she sometimes comes over during the day to help me sort out the papers!"

Ji Feng laughed, "It seems that Wang Jun really cares for you, I say, since she treats you so well, you should cherish it."

Han Zhong immediately nodded and said, "Of course I know this, to Wang Jun I am ready to run to get married!"

Smiling slightly and nodding, Ji Feng said, "Then I think this way, since Wang Jun still has to come over every day to help you sort out the documents, it would be better to let him come to work in the company, just specifically as your assistant, so isn't it two birds with one stone?"

"That's not good."

Han Zhong shook his head and said, "Before Wang Jun also mentioned it, but I think, this is not good influence, so I did not agree."

Ji Feng asked, "You're afraid that people will think you're not standing up for yourself, right? It's not a big deal! How about this, since you think it's not good to transfer Wang Jun to your side, then simply let her go to the general office, as a deputy manager, specifically responsible for you, so it won't work!"

"This"

"Don't do this and that! It's settled!"

Ji Feng said: "Anyway, now the comprehensive office also need someone to be responsible for assisting you, always keep changing people instead of too good, why not let Wang Jun come over, so that it is fixed that she is responsible for you, and cooperate with each other also have more tacit understanding, is not this more conducive to work?"

At that, Ji Feng stood up without saying a word, picked up the phone on the desk and handed it to Han Zhong.

“What for?!” Han Zhong asked.

“What do you mean, call Wang Jun!” Ji Feng said, “People have mentioned it to you, you still don’t take the initiative to show it, silly you!”

“But

Han Zhong still wanted to speak, Ji Feng directly shoved the phone into his hand: “Call now! The matter is settled, I’ll go talk to Yuxuan right now!”

After saying that, Ji Feng directly got up and left.

“Hey me” Han Zhong reached out his hand to call Ji Feng, but Ji Feng was already out of his office and the door slammed shut with a bang.

So, Han Zhong followed Ji Feng’s wishes and called Wang Jun with joy.

.....

Outside the door, just after leaving Han Zhong’s office, the smile on Ji Feng’s face gradually disappeared, he even frowned slightly, with a trace of thoughtfulness in his eyes, and strided to Xiao Yuxuan’s office.

Because Xiao Yuxuan was still in a meeting, the office door was locked, so Ji Feng didn’t go in, but turned to Bai Zhu and said, “Bai Zhu, you’ve met Wang Jun, right?”

Bai Zhu nodded: “I’ve seen her.”

Ji Feng immediately asked, “Then what do you think, what about this Wang Jun?”

Bai Zhu smiled, couldn’t help but froze, didn’t understand what Ji Feng meant for a moment, just said, “I think it’s okay ah, the person is quite pretty, and also talk very decent”

Ji Feng nodded slightly, then suddenly asked again, “Then what do you think of Han Zhong? I mean, if you were just an ordinary person, and you didn’t know that Han Zhong was the general manager of the Tengfei Group and had shares in this situation, would you look at Han Zhong?”

“Ah?!”

Bai Zhu smiled and couldn’t help but be a little stunned.

Ji Feng also realized that he had asked a bit too abruptly, he smiled and waved his hand, saying, “Forget it, maybe I’m overthinking it a bit, and I also hope it’s really my mind that’s too complicated Let’s go, let’s go back.”

Bai Zhu was puzzled and didn’t know what Ji Feng meant by saying these words all of a sudden, but she wasn’t a very curious person by nature, so she didn’t ask.

However, Ji Feng had just walked a few steps when he stopped again.

“Young Ji, what’s wrong?” Bai Zhu hurriedly asked.

“Nothing.” Ji Feng shook his head and said, “I’m thinking about something and it’s a bit hard to make a decision.”

“Do you need me to do anything?” Bai Zhu asked.

“No, it’s just a small thing!” Ji Feng shook his head and smiled, and in the end, he said, “Alright, let’s go back.”

Bai Zhu just nodded silently, she could see a trace of indecision in Ji Feng’s eyes, which made her more or less surprised, because she had followed Ji Feng for so long, but rarely would she see him hesitate.

.....

The first thing you need to do is to get a good idea of what you want to do.

After ending the call with Yang Bin, Ji Feng thought about it and called Zhao Kai, saying, “Kai Zi, come to my place now, I have something to discuss with you.”

“Then I’ll come over right away.” Zhao Kai said immediately.

“Well, be safe on the way, or you can come directly in the company’s car!” Ji Feng admonished.

“Don’t worry, I’ll pay attention.” Zhao Kai said.

Ji Feng nodded and hung up the phone. And then, he leaned back on the sofa, slightly squinting his eyes and thinking carefully.

Zhao Kai came quickly, it only took him less than an hour to arrive, and as soon as he sat down, he asked, “What’s wrong, you said something on the phone, what is it?”

Ji Feng, however, did not answer immediately, but pondered for a moment before saying, “Kai Zi, is there anyone you can trust around you now?”

Zhao Kai froze, then nodded his head and said, “Yes! What do I need to do?!”

As soon as he heard Ji Feng ask this, he knew that there must be something to be done and he needed to use someone.

Ji Feng paused before saying, “Kai Zi, there’s something I’m a little hesitant about, so help me with advice and ideas.”

Campus Master Chapter 2784 -

Zhao Kai could not help but slightly froze, listening to Ji Feng’s tone, seems to be encountered with something difficult?

"It's like this, Han Zhong is dating a girlfriend named Wang Jun, you know about this, right?" Ji Feng asked.

"I know." Zhao Kai nodded his head. The fact that Han Zhong had a girlfriend was not a secret in the whole company, let alone him as a good brother, so naturally he was the first few to know the news.

Moreover, when visiting the jewellery exhibition at the International Convention and Exhibition Centre, Han Zhong had taken Wang Jun with him and we had all met at that time.

Zhao Kai asked, "Is there some conflict between Han Zhong and Wang Jun?"

"No."

Ji Feng shook his head, if there was just a conflict, it was all minor, how could two people in a relationship not have conflicts, it was normal, "It's about Wang Jun's situation. In the last few days, Wang Jun has been coming to the company to help Han Zhong with his documents, you know this too, right?"

Zhao Kai was stunned: "There is this thing? I really didn't know about this, what's wrong?"

Ji Feng pondered for a moment before saying, "It's not so much what happened, but I think, with Wang Jun's current status, if she helps Han Zhong with the documents, will it be a bit"

Zhao Kai immediately understood Ji Feng's meaning, he asked: "You mean, Wang Jun is not yet a company person, help Han Zhong handle documents, it is easy to access some confidential documents of the company, which is somewhat inappropriate?"

"That's what I mean!"

Ji Feng nodded and said, "So after discussing with Han Zhong, I decided to let Wang Jun come to the company and be the deputy manager of the general office, specifically responsible for Han Zhong, which is actually Han Zhong's full-time assistant."

Zhao Kai immediately said, "Well! This is a good idea! In this way, Wang Jun will be able to help Han Zhong with his documents."

"But things don't end here." Ji Feng, however, slowly shook his head and said, "Maybe I'm also being paranoid, but, I wonder if we should first make sure that there's nothing wrong with Wang Jun's identity before"

"You mean to investigate Wang Jun?!" Zhao Kai asked at once.

"That's roughly what I mean, only I can't decide yet, that's why I want you to help me with advice!" Ji Feng nodded his head and said.

The company's main purpose is to help Han Zhong to handle the documents, and not just to make her famous.

However, after Ji Feng said so, Zhao Kai really had an idea in his mind.

He deliberately said, "Ji Feng, do you suspect Wang Jun's identity and her real purpose of approaching Han Zhong?"

Ji Feng shook his head and said, "It's not suspicion, I just think it's necessary to make sure, so that the two of them together, we also feel at ease, right?"

In fact, Ji Feng is not suspicious of Wang Jun, because Wang Jun gave him a very good impression of a girl, generous, and beautiful, and very decent speech. But I don't know what's wrong, Ji Feng always feels a little twisted in his heart, but exactly what is twisted, he can't say.

"Kai Zi, what do you think of my idea?" Ji Feng asked.

"It's necessary!"

Zhao Kai immediately said, "Even if we are responsible for Han Zhong's attitude, we should check Wang Jun's identity for me he came from, if there is really no problem, then naturally all is happy, but if Wang Jun really has a problem, we can also tell Han Zhong in time, so that he has a psychological preparation!"

The first thing you need to do is to find out if there is anything wrong with your girlfriend, and then you can go behind her back to investigate her, and as a brother, it sounds a bit unethical. "

After saying this, Zhao Kai was also silent.

He slowly nodded and said, "If it were me, knowing about this, I would also be uncomfortable."

Ji Feng then smiled, "Alright, with you saying that, I can make up my mind."

"Then"

"No more checking!" Ji Feng waved his hand and said, "Even if we do investigate, we should let Han Zhong do it, and we should leave this matter alone."

"But if David Wang really has a problem, then what?" Zhao Kai asked. In an international metropolis like Jiangzhou, business is extremely developed, and there is hardly any difference with foreign countries, and likewise, the commercial espionage that is prevalent abroad is also common here, and is not an uncommon thing.

In fact, it is not just Jiangzhou, there are many commercial spies from foreign countries or other companies in China, the most famous of which is the case of commercial spying on Chinese iron ore.

Every year, China imports an astronomical amount of iron ore from abroad to support its rapidly growing industry.

Because of the successful operation of a certain foreign commercial spy, coupled with the carelessness of certain Chinese steel giants, several major Chinese steel conglomerates, in just a dozen years, have lost hundreds of billions of rice daggers, and just thinking about this figure makes one's scalp tingle!

What is even more shocking is that several of the main commercial spies are still Chinese, but they have already joined other nationalities!

But that's what made the judicial investigation and trial after the case so detrimental and obstructive!

This shows how frightening commercial espionage can be, when it matters, it can really break a person's bones, or even hurt them badly!

If Wang Jun really has a problem and is a commercial spy, then it would be really terrible for the Tengfei Group. Kang Yuan slimming powder, 3d TV sets, and especially the special effects current with the military, as well as the new chrome alloy newly launched by the Tengfei Group, if the formula for any of these things leaked out, it would be a sky-high loss!

"If she really has a problem"

Ji Feng was silent for a moment, and a flash of determination passed through his eyes, "Then I'll admit it! I'll remind Han Zhong!"

Zhao Kai immediately asked, "Just admitting it won't do, if she really has a problem, in case she steals the formula of a certain product, this is really too big a loss for us! Moreover, I'm afraid that the blow to Han Zhong would be even greater then!"

"Steal a formula?" Ji Feng was slightly stunned, "You think it's possible that Jun Wang is a commercial spy?!"

"Aren't you the one who suspects her of having problems, then besides commercial espionage," said here, Zhao Kai suddenly froze, he realized that he seemed to be not understanding Ji Feng's meaning.

"Commercial espionage" is not without this possibility!" Ji Feng said, "Of course, I would prefer that she really is not a problem at all!"

In fact, what he was thinking before was not the problem of commercial espionage, there are too many sensitive things in the Tengfei Group, there are too many things that make people's eyes water, it is not necessarily just people from other companies who want to come and steal the formula, some of these things, even certain countries will be moved by them.

"Of course we hope that David Wang will be fine, so that we can all be happy, but this is not a matter of being afraid of one thing, just in case!" Zhao Kai said.

"Kai, this is the end of the matter!"

Ji Feng nodded and said in a deep voice, "I'll find a chance to remind Han Zhong and forget about it."

Zhao Kai couldn't help but ask: "Then Wang Jun there"

"Let her go, let's pretend that what we said today was never said!" Ji Feng said, there was a slight pause before he said, "I don't want to lose a good brother!"

"....."

Zhao Kai silently nodded his head, he could understand Ji Feng's feelings. But what about the formula? There were so many other trade secrets, what about them?

Ji Feng patted Zhao Kai's shoulder and said, "Don't worry about the formula, no one else can steal it. As for the trade secrets" it's fine, as long as the formula is there, as long as there is technology, no one will be able to bring down the Tengfei Group!"

Compared to a friend, none of this matters!

If one were to compare Han Zhong with some business secrets, or with half of the Tengfei Group, Ji Feng would definitely choose to have Han Zhong and give up half of the Tengfei Group!

Only that he couldn't give up the entire Tengfei Group because it was the basis for him to realise his dream and fulfil his promise to his grandfather.

Ji Feng also believed that even if Wang Jun really had problems, she would never be able to steal the entire Tengfei Group.

This, then, was enough!

"In fact, you've already made a decision in your heart and just asked me to come over to talk to you, right?" Zhao Kai couldn't help but ask.

"Sort of!"

Ji Feng nodded and smiled, "In fact, from the beginning, I really thought about checking up on Wang Jun, but the idea just flashed through my mind, and then I dismissed it, if for my own brother's girlfriend, and without even a greeting, then what else can't be done?"

Some bottom line, Ji Feng was not willing to break through!

Zhao Kai then laughed: "Or else, it's better for me to check, after all, it's also for the safety of the company"

"No way!"

Ji Feng shook his head and said, "Kai Zi, let's say now, although you are specifically responsible for investigating and gathering intelligence, however, there are some bottom lines that cannot be touched, understand?!"

Zhao Kai smiled when he heard that and nodded his head, saying, "Cheng! I'll listen to you!"

Ji Feng nodded and smiled and said, "OK, this matter is just like that, just pretend it never happened" Just in time, I'm going on a trip tomorrow, let's have a good drink tonight, it's also been a long time since we drank together!"

The first thing that I want to do is to make sure that I have a good idea of how much I can drink.

Ji Feng couldn't help but laugh, this guy was afraid, there was a time when several people were drinking happily and ended up drinking until midnight, the only one who could still sit at a table was Ji Feng.

Zhang Lei and Du Shaofeng got up early the next day because they were in pretty good health, but Zhao Kai and Han Zhong were so tuckered out that they didn't get up until the next afternoon.

The two of them laughed and talked, as if what had just happened had never happened.

Zhao Kai, however, pursed his lips and thought about it.

Campus Master Chapter 2785 -

Early the next morning, Ji Feng and his group of six arrived at the airport early to check in and prepare to fly to Treasure Island.

Ji Feng, Bai Zhu, Zhang Lei, Yang Bin, plus Liu Zejun and Yao Zhijian, who were temporarily transferred from the Security Department, made up a powerful six-person line-up.

Whether it was the strong and powerful expert on the front, Liu Zejun who was good at sneaking around, or the top level sniper Yao Zhijian, all of them were experts without exception!

This line-up of six was also Ji Feng's bottom line for this trip to Treasure Island.

Zhang Lei arrived last night, when Ji Feng and Zhao Kai were still drinking, Zhang Lei rushed over, and as a result, the three of them sat down and mingled some more.

The only thing is, this time Zhao Kai is not afraid to let go of the amount of drink, in Ji Feng needless to say, know has been several years, Zhao Kai has never seen him drunk, which ah is Zhang Lei, that is almost a wine as water to drink goods, especially when drinking white wine, look at Zhang Lei that drinking attitude, people who do not know really think that his cup is filled with water!

So, Zhao Kai was very wise to stop and say goodbye early. And because Ji Feng and Zhang Lei had something to do the next day, they didn't drink too much, let alone persuade Zhao Kai to drink again.

The six people, divided into two groups, Liu Ze-jun, Yao Zhijian and Yang Bin in the front and Ji Feng, Zhang Lei and Bai Zhu in the back, although they were all wearing casual clothes, but the aura of their bodies alone was enough to attract a lot of attention.

What's more, the murderous aura on Liu Zejun and Yao Zhijian, as well as the tall Zhang Lei and Ji Feng, plus the gallant Bai Zhu, were even more striking.

Yet what was even more stunning was Bai Zhu who was in a tight-fitting suit, white trench coat, black sunglasses and short hair yet full of dashing posture.

The six people walked past, Ji Feng and the others' dragon walk and Bai Zhu's gallant posture drew a burst of amazement and secret awe.

In this regard, Ji Feng did not care, although he did not want to be in the limelight, but he would not deliberately control his posture and pace when walking just for the sake of other people's gaze.

The people who came and went around, Ji Feng and the others walked through, but they looked much better than the models on the catwalk, they carried a kind of awe-inspiring aura that made people scared!

The luggage that several people brought was not much, but also the most basic change of clothes, in fact, because this time out do not know how long to go, several people did not bring many things, more luggage is just a burden.

If something were to happen, it might be a problem to carry luggage with you.

After checking in smoothly and going through the security check, several people arrived at the lounge and sat down. Yao Zhijian could not help but shake from side to side, look at his hands and said helplessly, "Flying is really uncomfortable, my baby is not with me, always upset."

His baby is his special sniper rifle, which he wipes down every day.

Yao Zhijian has four sniper rifles, one light and one heavy, in addition to the two he keeps in reserve.

The sniper rifle is a special gun that he wipes very carefully every day, and Guo Tao once laughed that Yao Zhijian would never need to find a woman in his life, as he spends all his time looking after his own gun.

This shows the attitude of Yao Zhijian towards his gun.

Now, because he had to do the flight, he could not carry any dangerous goods, and naturally the sniper rifle could not be carried, which made Yao Zhijian feel very uncomfortable and uncomfortable.

Ji Feng smiled and said, "Don't worry, your baby will definitely not have any problems, in two days at most, it will be delivered to you!"

Yao Zhijian, however, couldn't help but tsk his mouth, "It's going to take two more days"

"That's fast enough, don't forget where we're going, if it's in the mainland, you can just drive with it!" Ji Feng laughed. Yao Zhijian's sniper rifle wanted to be transported to Baodao, it all had to be done by the military through a special route, and it couldn't be discovered by the Baodao authorities, otherwise, naturally, it wouldn't take so long.

"..... That's true!" Yao Zhijian had no choice but to accept the reality, but couldn't help but mutter, "But without my baby around, I'm always a little uneasy, it feels like something is going to happen!"

"I don't think something is going to happen, but something is going to happen to your mouth!" Liu Zejun grunted.

"Hehehe."

Yao Zhijian just hemmed and hawed, if it was in the past, he would definitely have to fight with Liu Zejun, but now that Yao Zhijian was also mature, he was not as belligerent as before.

As the announcement came from the airport, they started boarding the plane, and when the strong pushback came, the plane shot into the clouds!

.....

Treasure Island.

Northern City.

Inside an upscale estate villa, Ji Yuqing was giving herself a simple touch-up, and she had already changed her clothes twice, finally choosing a casual outfit that she usually liked the most, and looked in the mirror again, finding nothing that didn't fit, before she went downstairs satisfied.

And after that, Ji YuYing instructed her bodyguard at home, "Tell the gang master that I am going to the airport to receive an honoured guest, and I may visit him at noon."

"Yes!"

The bodyguard immediately nodded his head and replied with a respectful tone.

Ji Yuqing nodded slightly and then left the door, followed by a few bodyguards.

Once she got into a Bentley car, a black Mercedes Benz drove ahead of her, followed by a Mercedes Benz business car, both of which were occupied by her bodyguards.

Despite the large population of Treasure Island, it was not congested and the motorcade soon arrived at the airport. Ji Yuhui looked at the time and then at the flight information, it would be about half an hour before the flight Ji Feng was taking arrived.

"Missy, why don't we go to the VIP lounge first and wait?" The bodyguard beside her suggested.

"No, just stay here." Ji Yuqing said.

"But there are too many people here, it's a security risk!" The bodyguard whispered.

"Joke, if anyone would dare to lay a hand on me, Maggie Kee, at the airport, then there would be no need for our Chuk Yuen Gang to exist." At once, Ji Yuet-jen said, "It's settled."

"Yes!"

The bodyguard immediately responded.

After the plane landed, the passengers came out one after another, during which Ji Yuqing shifted her gaze several times, but she saw a few tall, imposing young men walking, but none of them was Ji Feng.

Suddenly, Ji Yuqing's gaze flickered.

Only to see that at the exit passage, a young man wearing sunglasses, with an overcoat on his left arm and an extraordinary air of dignity striding out was none other than Ji Feng!

Bai Zhu followed closely by Ji Feng's side, with a touch of joy in her beautiful eyes.

The trench coat on Ji Feng's arm was hers, but because it was a little hot on the plane, Bai Zhu took it off, but Ji Feng took the initiative to pick it up.

This made Bai Zhu feel that Ji Feng was also like other boyfriends, that was a natural intimacy.

Bai Zhu's heart was a little sweet, and her beautiful eyes were filled with a joy that could not be concealed, but with her sunglasses on, outsiders could not see it.

In Ji YuYi's eyes, it was Ji Feng and Bai Zhu walking out side by side, one with an extraordinary bearing and the other with a valiant posture, making it difficult for people not to notice.

This reminded Ji Yuqing of the time when she was in New York, when Ji Feng was able to chill the entire New York black `doors with his own strength and had to bow down.

"Here!"

Ji YuYi waved to Ji Feng and Bai Zhu, with a smile on her face, and took off her sunglasses.

Ji Feng waved with a smile and walked out quickly with Bai Zhu in tow.

Ji YuYi looked at Ji Feng and her beautiful eyes could not help but flash a strange colour as she pursed her lips, "Ji Feng, I didn't expect that you would really come to Treasure Island at this juncture!"

Ji Feng laughed: "It's not like Treasure Island is a dragon's den, it's a part of China itself, what's stopping me from coming?!"

"That's not something to say!" Ji YuYi smiled bitterly at that, Ji Feng was really straightforward, but as open as Treasure Island was, it was still a bit sensitive when it came to such issues, "A place like the airport, it's better to be careful with what you say!"

"Heh!"

Ji Feng laughed and didn't say anything else.

Ji YuYi then asked, "Are you two the only ones who came? You didn't bring anyone with you?"

"Brought!" Ji Feng said.

"Where?" Ji Yuhui asked casually.

"Right behind you!" Ji Feng said with a smile.

Ji YuYi turned around expressively, but what she saw was only her own bodyguard, and other than that she didn't see anyone else behind her. She couldn't help but laugh lightly, "You're really joking"

Ji Feng said, "I'm talking about behind your bodyguard, take a look further back!"

Ji YuYi smiled and took a few more glances into the distance, and with this look, she could not help but stare.

She could only see that on the periphery of her bodyguards, there was a young man standing in several different directions, while these several people were standing together, but in a semi-circle, exactly enclosing her and her bodyguards.

Ji Yueting was instantly shocked, when did they stand there? Moreover, her bodyguards did not even notice that they were surrounded by others!

At this time, Ji YuYi also recognized that the few people Ji Feng had brought with him were the travelers whose aura she had detected earlier, but she did not expect that they had already set their eyes on her as soon as she came out

The first time a connoisseur makes a move, he or she will know if there is one.

Ji Feng's men had shocked Ji Yuqing's heart with just one appearance, and she realised that the saying that there are no weak soldiers under a strong general is not just a saying!

The more she looked at her bodyguards and then at the men Ji Feng had brought with him, the more shocked she became! Because these bodyguards around her were already quite good within the gang itself, but in front of Ji Feng's men, they were so unbearable!

Like wolves and tigers!

This word couldn't help but flash through Ji Yuhui's mind!

Campus Master Chapter 2786 -

When a connoisseur strikes, he knows what he's got!

Although Ji Feng had only brought four men with him, these four men were better than all the bodyguards she had brought with her in the eyes of Ji Yuhui!

In fact, Ji Yuhui's feelings were not the deepest, it was her bodyguards who were really in awe.

The murderous aura emanating from Liu Zejun's and Yao Zhi's fitness, as well as Yang Bin's toughness, made these bodyguards' hearts flinch. Especially, before they could react, these few men had blocked off all their retreats and surrounded them, which from a bodyguard's point of view, was simply impossible!

No bodyguard would let anyone block off his own retreat because it would mean that if anything happened, the person he was protecting would have no way out!

That's why every professional bodyguard has received the strictest professional training in this area, yet even so, they were still blocked from retreating, so you can imagine how strong these people really are!

This made their hearts flutter!

What made them feel even more uneasy was the tall young man with a bad smile on his face. Although he didn't look too strong or particularly tough, I don't know why, but when they saw him, the bodyguards could not help but feel uneasy from the bottom of their hearts!

It was as if a fierce beast was standing next to them, making people's hearts shiver!

Zhang Lei blinked at Ji YuYing's two bodyguards and said, "You two, nice clothes on you, is this a uniform?"

The two bodyguards nodded at the same time, but did not say anything, they did not know what to say, this young man looked bad, but always gave off a scary feeling.

However, Zhang Lei did not know that he had become a flood of beasts in the minds of these bodyguards, instead he looked at the clothes on these bodyguards with interest.

The bodyguards brought by Ji YuYi all wore clothes of uniform colour and style, and these people appeared to have a very imposing appearance once they appeared.

Well, it was very racy!

As Zhang Lei watched, he couldn't help but nod slightly and secretly commented in his heart, this was the authentic black's gang with a strict system, look at them, even the uniforms of their bodyguards were uniform.

In this regard, Zhang Lei felt that what Ji Feng had done was far from enough, his Tengfei Group, apart from the uniforms of the security guards and frontline workshop workers, everyone else wore very casual, even the Tengfei Group's war team, which did not have unified uniforms and did not attract enough attention when pulled out.

However, Zhang Lei's side was commenting on Ji Yuhui's bodyguards, which made the two bodyguards squirm, being stared at by Zhang Lei always made them feel like they were being targeted by a beast.

"Lei Zi, what are you looking at, let's go!"

It was only when Ji Feng called out to Zhang Lei that Zhang Lei walked over with a smile on his face, and the two bodyguards couldn't help but let out a sigh of relief, thinking to themselves that this guy didn't look like much, so why was he so squirmy!

Naturally, Ji Feng did not know what was going through Ji Yuqing's bodyguards' minds, and he likewise had no intention of giving Ji Yuqing a hard time, just because on the plane, Ji Feng had told Zhang Lei and the others all about the situation on this side of Treasure Island, especially about the fact that there were not only the remnants of that mercenary group over here, but also Bao Weisheng of the Bao family who was afraid that he would hate to eat his flesh.

So, Zhang Lei and the others were on alert, and once they left the airport, they naturally raised their guard and went on alert, but they didn't expect that this would put so much pressure on Ji Yuet's bodyguards!

"This time, we're going to have to trouble you, Yu Ying." As a few people walked outside, Ji Feng couldn't help but say.

"When you say that, you're not treating me as a friend!" Ji YuYi said, "If this is called trouble, then I really don't know what else is not trouble!"

Ji Feng then nodded with a smile and said, "Well then, I won't say any more polite words, a few of us are very well off, we just need a place to stay for the time being, well, if you can, then help us find another person who is more familiar with the customs and traditions of Treasure Island to be our guide"

"A place to stay has been arranged long ago, and you will be guaranteed to be satisfied!" Ji Yuhui said, "As for a guide who is familiar with the customs and traditions of Treasure Island isn't right in front of your eyes!"

“You?”

Ji Feng faintly stared.

Ji Yuqing nodded and asked, “What, am I not suitable?”

“Of course not!” Ji Feng shook his head with a smile and said, “Only, would it be a little too that for you to be our guide If those little brothers of yours knew about this, just the look in their eyes would be enough to kill us a thousand times over!”

“Giggle

Ji YuYi smiled at her words, her beautiful eyes twinkling as she said, “Ji Feng, I really didn’t expect that you would learn to be humorous too! This is really out of my expectation!”

Ji Feng: “.....”

“Well!”

Ji YuYi put her hands behind her back and interlocked her fingers on her arse, looking happy, and said, “Anyway, I don’t have anything to do right now, so I’ll be a guide for you guys as a way to pass the time myself! And

She winked her beautiful eyes and said, “Wouldn’t it be better to have me around if anything comes up in Treasure Island?!”

“That’s true!”

Ji Feng couldn’t help but smile and nod at his words and said, “But, YuYi, as a friend, I appreciate you making this arrangement, it’s very considerate, but it’s because we’re friends that I don’t want you to be our guide, understand?”

Ji Yuqing blinked and shook her head, “I don’t understand.”

Ji Feng shook his head and smiled, saying, “You understand, there are still some situations you told me about, so how could you not understand!”

He didn’t want Ji Yuhui to be his guide, not because he was afraid of owing her favours, if you counted strictly, it was Ji Yuhui who owed him favours. The reason why Ji Feng refused Ji Yuqing was actually because he did not want to drag Ji Yuqing into it.

The Bao family has a lot of influence on the island, and if we are talking about financial power, I am afraid that the Bao family is even slightly stronger than the Bamboo Alliance.

The Bao family is involved in a wide range of industries, from real estate, energy, electronics, medicine and many more, including even arms!

The assets of the Bao family are comparable to those of the Hongda International Group of Companies, another internationally renowned electronics company on the island, whose main industry is a brand that almost no one is unaware of – the richest man on the island and the number one mobile phone manufacturer on the island!

From this, we can see how powerful the Bao family really is!

To compete with such a family, Ji Feng did not want to bring Ji Yuqing into it, because at that time, even if Ji Yuqing’s back was the Chuk Yuen Gang, it would definitely not do her any good.

You know, although Ji Yuet-jen’s father is the head of the Bamboo Alliance Gang and is the leading boss, this is not their own family’s gang, it’s just that her father is now the boss, but there is no doubt that there will be no less people who covet this leading position!

Not to mention, in addition to the Bao family, Ji Feng also has a mission, that is to find the right time to do away with the remnants of that mercenary group, otherwise, keeping this group of people is definitely a scourge, or a hidden danger!

These two groups of people were not easy to deal with, otherwise, Ji Feng would not have called Zhang Lei back from the northeast, and brought along Liu Zejun and Yao Zhijian, two experts with extremely rich combat experience!

Although Ji YuYi did not know that Ji Feng was still going to take action against the remnants of those mercenary regiments, but the Bao family was targeting Ji Feng and the mainland’s special operations brigade, and even protested to the mainland’s top brass about it, which she knew.

“Ji Feng, to say that is not treating me as a friend!” Ji Yuhui said. She didn’t care what Ji Feng was going to do, but at least, she knew what she was going to do.

“I’m doing this for your own good!” Ji Feng said.

“What’s for my own good, don’t I know myself?!” Ji YuYi hummed and said, “Ji Feng, if you’re a man then don’t be so abrasive, one word, make it happen, if not you don’t want to live in the house I’ve arranged, simply get out straight away, in future we’ll go our separate ways, we’re not even friends anymore, what else do you say!”

Ji Feng: “.....”

Zhang Lei and the others also almost dropped their jaws in shock, is this the elegant Ji YuYi from earlier? This is the Missy of the Chuk Yuen Gang?!

Ji Yuhui was stunned by several people staring at her, but instead of being half embarrassed, she slightly held her head up at Ji Feng and said, “What are you looking at, just waiting for your words!”

“..... Okay!”

Ji Feng couldn’t help but smile: “Then it’s settled, if there’s any problem, you can pull out in time when the time comes, is that okay?”

Ji YuYi immediately smiled faintly, “It’s a deal!”

Ji Feng then smiled, at this time Ji Yuhui was back to her elegant look, but the scene just now, on the contrary, made Ji Feng quite astonished.

As the eldest lady of the Chuk Yuen Gang, the kind of dominance that Ji Yuhui had was really an aura!

“Let’s go, let’s show you where you live!” Ji Yuhui cocked her head and said.

Ji Feng smiled and nodded, waving his hand to Liu Zejun and the others, “Let’s go.”

Ji YuYi had brought three cars with her, including a Mercedes-Benz business car, which Yang Bin’s few people could fit in perfectly. Ji YuYi, on the other hand, invited Ji Feng to ride in the Bentley she had.

However, before Ji Feng could get into the car, Zhang Lei suddenly said, “So what, brother hasn’t been in a Bentley yet, why don’t I feel it too?”

Ji Feng then shook his head and laughed, this guy

Campus Master Chapter 2787 -

“Ji Feng, this is the place prepared for you to stay, see if it’s still satisfactory?”

When a few people got out of the car, Ji YuYi smiled coquettishly and stood in front of a house, smiling as she asked.

Ji Feng and Zhang Lei also got out of the car at the same time, but when they saw the house behind Ji Yuhui, they couldn’t help but freeze for a moment, and Zhang Lei even asked, “Miss Ji, is this all you’ve prepared for us?!”

“Of course!”

Ji Yuhui smiled and nodded, saying, “Although this is an old house from decades ago, it was built when the army retreated back at that time and is extremely strong and solid.”

Behind her was a four-storey building, but the problem was that the span of the building was so big that it didn’t look like a place to live, but rather like an office building!

The walls on the outside of this house were of that mottled off-white colour, and with that old-fashioned styling, one look at the house showed that it had a lot of history.

“Yu Ying, I see that there doesn’t seem to be much people in this house?” Ji Feng asked.

“That’s right, this house is now vacant and unoccupied.” Ji YuYi said, “But don’t worry, it has all the facilities inside, and after my father bought it from a general, he spent some money to renovate the inside, only the outside was left untouched.”

Ji Feng said, “The house is nice, but a house this big, just a few of us, wouldn’t it be too extravagant?!”

Ji YuYi pursed her lips and smiled lightly, “Then if you want, I can also give you guys a cook and a housekeeper to take care of you.”

“That’s not what I meant!”

Ji Feng shook his head and laughed, “I mean, it’s too much of a waste for just a few of us to live in such a building, so if you can, it’s better to help us arrange for a slightly smaller place.”

But Ji YuYi laughed, “Ji Feng, you’re so boring! If you don’t live in a big place, you have to live in a small place, I really don’t know how you think”

Ji Feng just laughed, he could feel the kindness released by Ji Yuhui, he could accept it, but not too much.

“Well, it seems I have to get to the point before I do!”

Seeing Ji Feng’s smiling face but not saying anything, Ji Yuhui knew that if he didn’t explain, Ji Feng was afraid that he wouldn’t stay here.

Ji YuYi said, “You guys come with me first, I’ll show you around first, if you still don’t feel right by then, it’s not too late to excuse yourselves, right?”

Saying that, she cocked her head and walked straight towards the house.

Ji Feng and Zhang Lei glanced at each other, and Ji Feng said, “Let’s go, go over and take a look.”

Several people followed Ji YuYi to the house, however, as soon as they got closer, Ji Feng’s face couldn’t help but change slightly, why did this house look a bit special?

From the looks of it, there was little difference between this house and those old houses that used to be built decades ago, all with mottled walls and old shapes, with a strong sense of the times.

However, it was only when he got closer that Ji Feng suddenly noticed that the shape of the house seemed slightly odd, there seemed to be a few small square openings in the walls, and there were a few bay windows that didn’t seem to be arranged in a very reasonable position.

“The house is a bit odd!” Zhang Lei leaned closer to Ji Feng and whispered, “Crazy, I heard that these old houses from decades ago are usually heavier with Yin Qi over time, and you might even encounter one or two beautiful female ghosts”

“Good, then you can wait and see if any female ghosts come looking for you!” Ji Feng laughed.

“Ji Feng, let me introduce to you!”

At this time, Ji YuYi smiled and said, “Do you know why I brought you all here? That’s because when the retreating army built this building, they actually considered that one day your army would attack, so when they built it, they built it in the direction that war might happen at any time!”

Ji Feng was surprised when he heard that, “What do you mean?!”

Ji YuYi said, “It means that this is not just a building, but a camp built according to military standards! In here, there is only one way to enter the building, but there are several ways to retreat. There are at least seven dark forts here, and four sentry points. On top of that, underneath this building, there are three more hidden passages”

Speaking here, she looked at Ji Feng with a smile and said, “I think that this should be more to your liking, and if you live in here, at least in terms of security, you will be much safer and won’t have to be on guard against someone coming at all times!”

Ji Feng and Zhang Lei both couldn't help but be surprised, they really didn't expect that this old house in front of them, which didn't look very impressive, would have so many arrangements.

Sentry points, concealed forts, and concealed passageways This was not any old house, it was clearly a small military fortress!

"How about it, after listening to my introduction, are you guys still satisfied?!" Ji YuYi's pair of beautiful eyes looked at Ji Feng and asked with a smile.

"Satisfied! Very satisfied!"

Ji Feng smiled and nodded his head, saying, "YuYi, you have a heart!"

Living in such a house, the security was definitely safer than living in a hotel or a villa.

In this house, the sentry point could be used as a sniper point, definitely two uses in one. And the concealed fortress and the concealed passage, that's not to mention!

Just now, just as Ji YuYing was introducing it, Yao ZhiJian and Liu ZeJun's eyes lit up.

This kind of militarised building was simply right up their alley, they hadn't come across this kind of almost mini fortress-like building in a long time.

Here, they were absolutely confident that as long as the other side didn't use helicopters or just descend from the sky to attack from the roof, they could almost make it impossible for the other side to get close to the house at all, let alone storm it, which would be almost impossible!

In this house, with just a few of them, there was no way they could get close to the house, not to mention the Bao family, even if mercenaries came, they would never get close!

This was it!

Ji Feng had already made his decision when he saw their reaction.

"Yu Ying, thanks. This is a really good arrangement you've made!" Ji Feng said.

"Don't be in a hurry to thank me yet!"

Ji YuYi, however, smiled playfully, cocked her head and said, "At least take a stroll around the whole building with me first, after seeing it as a whole!"

Ji Feng laughed, "It seems you are very confident!"

Ji YuYi said, "Of course! To put it mildly, when my father originally bought this house, I didn't feel the slightest interest in it, thinking it was of little use other than as a souvenir, but putting you guys in it makes me feel that it's the most appropriate and perfect arrangement I've ever made!"

Ji Feng's men were all like wolves and tigers, something that Ji Yujie had already experienced first-hand.

Only when people like Ji Feng's men lived there could they bring out the solid side of the military compound.

This is an arrangement that Ji YuYing is proud of. If Ji Feng had offended the Bao family, if he was on the mainland, he would not have to worry too much, he would only need to guard against the Bao family's petty tactics, such as hiring assassins to assassinate Ji Feng, etc. But now that Ji Feng is on Treasure Island, this is a completely different story!

The means and energy of the Bao family in Bao Island is really extraordinary. If the Bao family wants to move someone, unless the other party is also a heavyweight giant, there is no way they can escape!

Even if Ji Feng is a tz from over there, but this is Treasure Island, the Bao family itself is a bit of a hater over there, and is very close to Rice and Kepong, often preaching some ugly things about the mainland, saying some pro Rice and Kepong things, and doing what they do!

This also means that the Bao family may not put the Ji family in their eyes when the time comes, and even though they know that the Ji family is not to be messed with, they will not be too scrupulous and fearful.

You know, in this society, it's just too easy to get someone into trouble, there are simply more ways than one can think of!

The most important thing is that you can do anything. When the time comes, even if the Ji family pursues the matter, what can be done? Without proof that the Bao family did it, what could they do even if they suspected it again?

Therefore, it was with this in mind that Ji YuYi thought about how to arrange for Ji Feng and the others. When she thought of Ji Feng, she could not help but think of the kind of pugnacity Ji Feng had in Rice, and she could not help but think of the shocking tactics Ji Feng had used when they first met in Hangzhou, Jiangsu and Zhejiang.

When Ji YuYi had a flash of light in her mind, she thought of this old military camp that her father had bought but never lived in, and it would be the most suitable place to put Ji Feng and the others.

Now when she saw the satisfied look on Ji Feng's and the others' faces, Ji YuYi was very happy and comfortable in her heart.

"This is the main door, it was originally a metal door, but my father thought it was too heavy, so it was replaced with an alloy door, but it's certainly no worse than a metal door in terms of sturdiness!" As she entered the house, Ji YuYi pointed at the door of the room and said.

Ji Feng nodded, but what he was looking at was not the door, but the structure and arrangement inside the house. He found that there was nothing out of the ordinary about the door, but after entering the house, the kind of staggered arrangement on both sides, as well as the several pillars distributed on both sides of the living room, were all very special.

"You can hide people behind these pillars, in fact, this is nothing, look at the front, where only three or four people can pass at most at the same time, but is the only front doorway of the whole house, think about it, if this place is guarded, who can get in?!" Ji YuYi said as she walked.

Ji Feng smiled and nodded, but his gaze could not help but look at Ji Yuhui a few more times. At this time, Ji Yuhui's aura was full and she seemed to have a kind of commanding presence, especially when

she was talking about the arrangement of personnel and guarding the passages, she had a big sister's style!

She was worthy of being the first lady of the Chuk Yuen Gang!

Campus Master Chapter 2788 -

Ji Feng and the others stayed in the old house provided by Ji YuYi.

In fact, Ji Feng didn't think it was any old house, just by the design and construction of the house, it was like a small military fortress!

A dark fortress, a sentry point, a sniper point, underground tunnels, and even a small artillery battery – anything that could be used in a military context, this old house had everything!

If a small war were to take place, a small team would be enough to hold off the enemy!

Especially, after entering the house, Ji Feng realized that this house was really worthy of being built by the army that retreated to Treasure Island at that time, and the construction inside was even more organized.

What's more, there was even a weapons area inside, and even a weapons rack!

However, when Ji Feng and the others came here, they hadn't even brought a single bullet with them, and now even if they lived here, they didn't have any weapons available!

"If someone attacks tonight, then we'll have to rely on these fists to fight people in the flesh!" Zhang Lei said with a heated laugh.

Ji Feng laughed at his words, "If someone really attacks today, then we'll have to check it out when we get back!"

They had just arrived on Treasure Island and had come through regular channels, there were no problems with entry and formalities, if an enemy knew about it so quickly, either, certain people in the Treasure Island authorities had gotten wind of it and deliberately wanted their lives and wanted to stir up relations between the two sides.

Either that, or someone on the mainland had leaked the news!

Zhang Lei said in a low voice: "Don't be careless, it's not like this kind of thing hasn't happened before! You've heard about the Min Fu Province fleet, right?"

Ji Feng nodded and said, "I have it in my heart."

He knew what Zhang Lei was talking about, it was a high ranking officer of a coastal fleet in Min Fu Province at that time, he and his son, were seduced by a beautiful snake in Bao Island and all went rogue. The two sides had a very tense relationship, and the officer of the fleet told the beautiful snake all about the deployment of the Chinese military forces.

At that time, it was also because that guy in Bao Island who claimed to be a descendant of the Kepong people was too arrogant and had a hot head, and actually claimed during the reporter's interview that he was not afraid according to it because he knew all about the military deployment on this side, and also took the map and pointed it out to the reporter.

This incident, the senior immediately knew that there must be an internal problem, secret investigation identified the target, so a certain military heavyweight general, in the name of inspection came to the fleet, but on the spot to take people down!

However, even so, it took a lot of time and materials to readjust the military deployment.

Although the people in power on Treasure Island were now relatively neutral and not too obviously inclined, there was still a very large part of Treasure Island that was still close to Kepong and Rice, and had been jumping up and down, trying their best to provoke China. But anything that can make relations between the two sides bad, they are willing to do, and are happy to do so, even adding fuel to the fire!

And some so-called experts and scholars from the Treasure Island, and some celebrities, are even distorting some facts and telling bullshit things to insult China.

Now that they've come to Treasure Island, this is definitely a pretty good time for some people, and if they really want to do something crooked, then it's definitely the best idea to hit on them!

This kind of thing, Yang Bin and Liu Zejun Yao Zhijian could not understand, but, Zhang Lei and Ji Feng, they had access to some things at the top and knew the situation and some movements from above, so they were extra vigilant and had taken all these situations into consideration long ago.

Ji Feng couldn't help but secretly nod his head, although this guy Zhang Lei is very jumpy and big-headed, but he is smarter than anyone, some things he doesn't know, just usually don't care.

Although he still seems to have a big personality, he has become much more thoughtful.

"Pack up first, get everyone together later and walk through the whole building with me, don't leave every corner behind." Ji Feng said.

Zhang Lei nodded and said, "Crazy, is there no problem with Ji Yuqing?"

Ji Feng asked, "What do you mean?"

Zhang Lei said in a deep voice: "No matter what, she is after all the first lady of the Chuk Yuen Gang, but the attitude of the Chuk Yuen Gang is ambiguous regarding the relationship between the two sides, and the situation on Treasure Island is inseparable from a gang like the Chuk Yuen Gang, which"

The situation in Treasure Island is indeed too serious, and it can be said that the situation in Treasure Island has a great relationship with such large economic groups as the Chuk Yuen Gang, Hongda International, and the Fuji Group, as well as the black `gangs, almost every faction has its own economic interests behind it.

In other words, a powerful gang like the Chuk Yuen Gang can go straight to the top of Treasure Island!

If the faction supported by the Chuk Yuen Gang is not very friendly to the mainland, then although Ji Feng is friends with Ji Yu Yi, there are interests involved and something might go wrong!

“Just be careful in everything anyway.” Ji Feng said, “But then again, Ji Yuhui is still a good person, at least, she herself shouldn’t harm us.”

“You’re sure?!” Zhang Lei asked.

“Well!”

Ji Feng nodded and said, “Back in Rice, she helped me quite a bit.”

Strictly speaking, although there were some misunderstandings between him and Ji Yuhui back in Rice, when he thought about it later, he couldn’t really blame Ji Yuhui for these things, given her character, she was probably really blinded by Ah De and Ah Bo as well.

Even though she wanted to take sides when dealing with Ah Teck later, it was understandable when she thought about it. Although Ah Teck had indeed done something wrong, she had grown up with Ah Teck as a childhood friend, so her friendship was still more or less there, and it was perfectly understandable for her to want to take sides.

It was precisely because of these considerations that Ji Feng did not take it personally with Ji Yuqing, otherwise, their relationship would not have eased up by now!

Zhang Lei suddenly asked, “Crazy, do you think Ji Yuhui might have taken a fancy to you?!”

Ji Feng froze and then laughed, “Bullshit! It’s just a good relationship, what do you mean you fancy or not!”

Zhang Lei said, “Crazy, but I have to remind you, this kind of thing must be careful for you!”

Ji Feng nodded and smiled, “Don’t worry, I know some things in my heart!”

Zhang Lei didn’t say much, he knew that Ji Feng must know better than he did, so he just nodded slightly and said, “Let’s go, go for a spin.”

Afterwards, together with Zhang Lei, Ji Feng took Liu Zejun and the others through this old house a few times, making sure that he hadn’t left every corner behind, especially the several sniper points and the roof of the building, which Ji Feng looked at carefully again and again.

“Crazy, this house is really beautiful!”

Zhang Lei looked around and said, “Only four people are needed, once these few sniper points are occupied and another one is arranged on the roof, even if the other side comes with a hundred or ten people they are all dead!”

He nodded slightly, and Ji Feng said, “Yes. Not to mention four people, two experts like Yao Zhijian would be enough, two sniper rifles, enough to withstand dozens of people, even more people would be pressured to lift their heads, to break through this place, unless it is the army that comes!”

Yao Zhijian scratched his head and said, “So what, boss, but we don’t have any weapons right now!”

Ji Feng laughed, “Don’t worry, the weapons will be here soon, when the time comes ……”

“Zee-!”

Before Ji Feng had finished his words, a roar of an engine was heard, followed by a shrill sound produced by the tyres rubbing violently against the ground in the front yard.

Ji Feng and the others happened to be standing on the roof of the building, and when they turned their heads to look, they saw a black off-road vehicle driving in the courtyard downstairs, and they couldn’t help but be a little curious as to who would be here at this time.

The next moment, they saw the door of that SUV being opened and a person jumped down from the driver’s seat, Ji Feng and the others couldn’t help but be stunned.

Ji YuYi?

The person who jumped down from the car was surprisingly Ji Yuhui!

Moreover, at this moment, Ji Yuhui was wearing jeans and a white shirt with the sleeves pulled up, and her long hair was tied up in a ponytail behind her head, a striking but eye-catching contrast to her previous elegant appearance with her long hair coiled.

When she got out of the car, Ji YuYing looked up and saw Ji Feng and the others standing on the roof, she beckoned and said, “Come down, I have something to show you!”

Ji Feng then shook his head and smiled, leading Zhang Lei and the others to quickly step down and come to the courtyard, Ji Feng smiled and asked, “YuYi, why are you back again? And …… still so dressed up?!”

Ji YuYi stretched out her hand, shook it from side to side and asked, “Doesn’t it look good dressed like this?”

Ji Feng and the others but nodded their heads at the same time, good looking!

Although this outfit was very different from her usual image, it really looked good and was no less elegant than her previous image of falling down and gracefulness!

With her tall figure and long, slender legs, the jeans she wore were even tighter and outlined her devilish figure, while the white shirt with the collar buttoned open was very sexy.

At this time, Ji YuYing was definitely a gorgeous and sexy fashionable city girl!

Seeing the reaction of Ji Feng and the others, Ji Yu Yi couldn’t help but smile sweetly and said, “Don’t all stand still, come and carry the stuff!”

Ji Feng asked suspiciously, “What kind of stuff?!”

“Good stuff!”

Ji Yuhui laughed, “And they must be all things you need urgently!”

Urgently needed?!

Ji Feng and the others became even more puzzled, but Ji Yuhui came to the back of the car, opened the trunk, nudged her mouth and said, "See for yourself!"

"This is"

When Ji Feng and the others came to the back of the car, what they saw was one long parcel after another, which looked like bags used to hold fishing gear, except that it was a canvas bag, and it didn't look like it should be for fishing gear.

Ji YuYi pursed her lips and said, "Open it yourself and take a look!"

He immediately raised his eyebrows and looked at Ji Yuhui in astonishment, "Weapons?"

Campus Master Chapter 2789 -

The long parcel looked very textured, and only once it was in his hand did he realize how heavy it was, and more importantly, once it was in his hand, Ji Feng immediately felt the hardness of what was inside the parcel, rather just by touching it that way, he immediately knew what it was.

A weapon!

And if there was no surprise, it should be a long spear inside!

Ji Feng glanced at Ji YuYi who was smiling and casually picked up the parcel, finding that the parcel was tied with two canvas straps, he immediately untied it and lifted the canvas bag with three or two strokes, and immediately, a long gun, which had been polished extremely well, was revealed!

"A sniper rifle!"

Yao Zhijian immediately exclaimed, with surprise in his eyes, "This is a precision sniper rifle?"

He then took two steps forward and took it from Ji Feng's hand, repeatedly looking at it a few times before finally nodding his head and confirming, "Yes, this is the precision one, it should be made in Tsarist Russia!"

Ji Feng then couldn't help but look at Ji YuYi, waiting for her explanation.

Ji Yuhui smiled and said, "Knowing that you must not have brought any weapons with you, it just so happens that I still have some idle and useless ones on hand, so I have simply sent them to you."

With a slight nod, Ji Feng said, "Thank you!"

He naturally knew in his heart that this was not something idle and useless, just by looking at the polished barrel of the gun, he knew that this must be the effect of regular maintenance. How could a gun like this be idle and useless?

The fact that the sniper rifle was even sent to her was already very meaningful.

If it was an ordinary relationship, it wouldn't give you such an important weapon!

The fact is that even in Rice, weapons like this are strictly controlled and every gun has to have a clear flow, let alone in Treasure Island where guns are strictly prohibited.

Seeing Ji Feng's solemn look of gratitude, Ji YuYi could not help but smile charmingly and said, "There is no need to say such polite words between us, right? Besides, it's quite embarrassing to say that originally I wanted to get a few more heavy sniper rifles, but my abilities are limited and I've thought of a lot of ways but I don't have a clue, so I can only send these weapons here first!"

Ji Feng shook his head and laughed, "YuYi, that's already a big help."

Heavy sniper rifles are not that easy to get!

This kind of weapon, which is only used in the military, may flow into the outside world, but it is definitely not easy to get. The company's main business is to provide a wide range of products and services to the international community.

I think even this sniper rifle in front of me is very precious within the Chuk Yuen Gang.

Even this sniper rifle is very precious within the Chuk Yuen Gang, so it's already very generous of her to send it to us.

"All the weapons here!?" Zhang Lei asked as he casually picked up a canvas bag.

"All of them, take them out and count them, see if you can use them, if not I'll bring them back!" Kee said with a smile as she paced a couple of steps with the fingers of both hands in the pockets of her jeans.

"What are you still standing around for, get to work!" Ji Feng waved his hand and laughed.

"Okay!"

At once, Liu Zejun and Yao Zhijian took the lead and started to count up, they first carried all the weapons to the house, and then only then did they start counting.

"Sniper rifles, two of them." Liu Zejun said, pointing at Yao Zhijian, "Xiao Yao, you keep one as a backup?!"

"One rod is enough!"

Yao Zhijian quickly assembled a sniper rifle, put on the bracket, and installed the sight, looked at it carefully, and lightly pulled the trigger, listened carefully to the sound of the firing pin hitting, nodded in satisfaction, and said, "This rifle should usually be well maintained, the performance is okay, it's enough for a short time!"

He was a connoisseur of playing with guns, as soon as he got his hands on it, he could feel the information of the firearm to eight`nine, basically there would not be much error.

Ji Feng nodded and said, "Then you can use one, and the other one as a backup! Take an inventory of all the other weapons!"

Liu Zejun nodded and together with Yao Zhijian, they started to count the other weapons. Ji Feng and the two of them were the only ones present who were proficient in firearms, Bai Zhu was also proficient, but she was only Ji Feng's personal guard now, so no matter what she had to do first was to protect Ji Feng, so she did not participate.

Zhang Lei and Yang Bin did not know much about this, Zhang Lei was better, he had access to the gun, but because there were a lot of parts in the bag, which needed to be assembled, Zhang Lei could not. Yang Bin was even worse, he was simply in the dark about it.

However, Liu Zejun and Yao Zhijian's speed was frighteningly fast. A canvas bag came into their hands, from cleaning the parts to assembling it, then pressing the bullets into the magazine, then loading the bullets, and in between, it was simply dazzling.

Ji YuYing looked at couldn't help but be secretly amazed, Ji Feng's men really are crouching tigers hiding dragons, just by looking at Liu Zejun and Yao Zhijian's speed in assembling their firearms, one could tell that they were definitely experts in using guns, and then think of the time before at the airport when they had surrounded their own bodyguards without a sound

The fact that they were strong in their own right, yet so proficient with firearms, such people are simply of the special forces level!

Ji YuYi suddenly thought of Ji Feng's identity, her heart suddenly moved, with Ji Feng's identity, he came to Treasure Island, I'm afraid it's not uncommon for him to have a few special soldiers around him!

Moreover, just by looking at the aura of these men of Ji Feng, they really had a kind of iron-blooded coldness and competence. She could not help but secretly guess that perhaps, these men beside Ji Feng might really be the kind of super special forces specially cultivated in the Mainland, or perhaps they were the big inner masters of those very mysterious guard regiments in Yanjing!

Naturally, Ji YuYi did not know that Liu Zejun and Yao Zhijian were not masters of the inner circle, but they came from a mercenary background and had a tough aura about them, and more importantly, since they had joined the TengFei Group, they had started practising aerobics and their strength had improved by leaps and bounds.

As a matter of fact, Ji YuYing naturally didn't know that if she were to judge purely by his physical strength, the guy with a bad smile on his face, leaning against a chair and smoking, was even more terrifying than the super special forces soldier in her eyes!

Moreover, next to him was Bai Zhu, who was not as strong as Zhang Lei but was proficient in firearms and assassination, and Yang Bin, an expert in ancient martial arts

If she knew this, she would be absolutely speechless with shock!

"YuYi, seeing as it's almost time for dinner, let me treat you to dinner!" Ji Feng looked at Liu Zejun and Yao Zhijian as they were taking a quick inventory of their weapons, he smiled and said to Ji Yuhui.

"What, you came to Treasure Island and you want your treat?!" Ji Yuhui said, "As agreed, I'll be the host today and treat you to the special dishes of Treasure Island!"

"I"

"Alright, it's decided!" Without waiting for Ji Feng to say anything, Ji Yuhui waved her hand and cocked her head, "Pack up and let's go!"

Ji Feng nodded with a smile and had to say, "Alright!"

Because they came by plane, Ji Feng and the others traveled without even a car, the public transportation in Bao Island is very developed, but for Ji Feng and the others, it was a bit inconvenient.

—For example, if there was any action, they could not travel with their weapons on the bus or the light rail, and when the bus was crowded, people would probably know what they were carrying!

In response to this, Ji Yu-yi likewise waved her delicate hand and said, "These two SUVs are useless in my place, so you can use this one for the time being!"

A seven-seater SUV was enough to use, but Ji Feng naturally knew that this car would not be useless at Ji YuYi's place, and it was obvious that this was also Ji YuYi taking care of them.

In this regard, Ji Feng took it all to heart and didn't say anything, there were some things that didn't depend on just saying thank you, just like when he saved Xiang Yongzhan, the latter would rarely say much thanks to him on his lips, but in reality, everything that Xiang Yongzhan did expressed his gratitude.

"In fact, there are many things that are unique to Treasure Island, some of which are very similar to Min Fu Province, and the customs of the two places are also very similar, for example, we both worship A-Ma and have the same rituals at certain festivals, but apart from that, Treasure Island has many other specialties, and today we will go to a local native cuisine restaurant!"

Ji YuYi was like a tour guide, driving the car while introducing it.

Ji Feng, however, frowned slightly and said, "Of course it's good to go for specialties, but have you invited someone else?"

Ji YuYi was stunned and asked, "What do you mean?!"

Ji Feng said, "There are two cars that have been following us for a long time, I don't think he came here in admiration, knowing that you, Miss Ji, are gorgeous, and came here specifically to show his love, right?!"

Ji YuYi immediately pursed her lips and laughed, "Ji Feng, this is the first time I know you are so poisonous! Don't worry, the two cars behind me are my bodyguards!"

Ji Feng asked, "If they are bodyguards, why are they following so far away?"

Usually if they were bodyguards, they would follow close up, even if they were a little further away, but definitely not this far away!

Ji Yueting snapped, "It's not because of you guys! If your people weren't so powerful that they all lost their confidence, they wouldn't have followed so far away!"

Ji Feng couldn't help but laugh dumbly, he hadn't done it on purpose before, it was just that Zhang Lei and the others were more wary once he arrived on Treasure Island at first.

But in reality, he was unaware of how much pressure Zhang Lei and the others' actions had put on Ji YuYing's bodyguards.

"Missy is Missy, when she goes out her bodyguards are never far away!" Ji Feng teased with a smile.

"You're still talking!"

Ji YuYi snapped, "Actually, I don't want to bring my bodyguard, but the Bamboo Alliance Gang has too many enemies, so if I don't bring my bodyguard, something might happen"

Ji Feng was stunned, "The Bamboo United Gang has enemies in Treasure Island too?!"

Campus Master Chapter 2790 -

Ji YuYing said, "Even a country as powerful as Rice has enemies, not to mention the Chuk Yuen Gang!"

Ji Feng nodded and smiled, "That's true!"

The Bamboo Alliance Gang was indeed powerful in Treasure Island, and its sphere of influence had not just been limited to Treasure Island many years ago, even in the whole world, there were members of the Bamboo Alliance Gang.

It is only true that, as Ji Yu-yung said, even the strongest people will have enemies.

"In Treasure Island, apart from the Chuk Yuen Gang, there are two other bigger gangs, the Four Seas Alliance and the Brotherhood, both of which are rivals of the Chuk Yuen Gang, and there have been many scuffles, so to say the least, they are also considered enemies!" Ji Yuqing said.

"I have heard of some of them."

Ji Feng nodded, Ji Feng had heard of both the Four Seas Alliance and the Brotherhood, strictly speaking, the history of the Bamboo Alliance should be the longest, the Four Seas Alliance was originally just a small gang similar to the Bamboo Alliance, but in recent years it had risen rapidly.

The Brotherhood, on the other hand, was said to have been formed by a few ex-servicemen who had retired to Treasure Island at the time, and their lives were not necessarily as satisfactory as they were made out to be. Many of them had problems making a living and had very serious conflicts with the local people of Treasure Island at the time.

In order to secure their own interests, some of the ex-servicemen of the time joined together to form the Brotherhood.

Only, any gang that develops later is certainly no longer so righteous, and this includes the Brotherhood, especially in these last ten years or so, the Brotherhood has grown even more rapidly, but in terms of reputation is rather bad.

"Let's not talk about that!"

Ji Yuhui shook her head and said, "Come on, let's go to dinner, I'll make the arrangements!"

She then made a few phone calls and soon a few cars came over, the same three cars that Ji Yueting had arranged to pick them up from the airport earlier.

Ji Yueting told the driver of a place and the motorcade started off.

In the car, however, Ji Yuhui took out a folder from the passenger's locker and handed it over.

"What's this?!" Ji Feng took it and asked casually.

"Something you need!" Ji YuYi pursed her lips and smiled.

Ji Feng opened the folder with some suspicion, and on the first page, he saw four big words catch his eyes, Bao's family!

He immediately asked, "Is this the information on the Bao family?!"

Ji Yuqing nodded and said, "Hmm. I think that since you've come to Treasure Island and happen to have had problems with the Bao Clan before, it's better to know about it."

Ji Feng smiled and nodded, saying, "Thank you. YuYi, you really do have a heart."

Ji YuYi smiled sweetly, "It was just an order to go down, it was all gathered by the people below, I didn't do anything."

Ji Feng smiled, despite what Ji YuYi said, he knew that it was not difficult to gather information about the Bao family, the key was that Ji YuYi had taken everything into consideration and was so meticulous, this was what Ji Feng needed to be thankful for.

After driving for about half an hour or so, the car entered the city, passing through a short section of traffic jam, and then they arrived at a shopping street.

"This has some of the more authentic specialties of Treasure Island, and it's guaranteed to be not quite the same as what you'll get elsewhere." Ji Yuetian smiled and said, "Let's go, I've already booked a table, must be rather crowded today, and it's not good to leave the boss empty for too long."

"You Miss Ji is eating, how dare the boss not reserve a seat for you?!" Ji Feng flirted with a smile.

"Don't come!"

Ji YuYi rolled her eyes and said, "Not everyone knows my status, OK! Besides, it's just a meal, why make the whole world know?"

Ji Feng laughed.

At this moment, a bodyguard following beside him said, "Our Missy is usually very low-key and never goes out to bully people just because of her status, she is very polite to everyone!"

Ji Feng then smiled and glanced at him, but he saw that bodyguard slightly blushing, he couldn't help but dumbly laugh, he really didn't expect that Ji YuYing still had a high status in the hearts of these men of hers.

However, from the bodyguard's words, it could be heard that Ji Yuhui's usual style was still very good, at least like the kind of scenes in movies where a black `gangster's daughter would go out and the gods and ghosts would retreat, and all the common people would be scared and back off.

The first thing you need to do is to get a good idea of what you are getting into.

A few people walked in, and Ji Yuet-jen led them to a rustic-looking restaurant. Saying it was a restaurant, one could actually tell just by looking at the door that it was not small in scale, except that the name of this restaurant was simply – Little Diner!

Seeing that Ji Feng was looking up at the signboard, Ji YuYing said, "This is a very famous diner in North City, specializing in some special dishes, there are a lot of practices that used to be native dishes from decades ago, there are almost rarely some modern ingredients, it's very authentic to eat"

The actual fact is that a lot of the time a shop is not luxuriously decorated is not the most important thing, whether it looks upscale or not is not the main factor, the characteristics, this is the focus of a shop can survive.

It's the character of the shop that is the key to its survival. And from the customers who come and go, it is clear how good the business of the shop really is.

A few people were chatting as they walked inside, and just then, a man in a suit saw them and hurried over, saying, "Ms Ji, you're here."

Nodding her head, Ji Yuqing said, "Manager Liu, is the private room I booked ready?"

"It's ready, it's just that" Manager Liu was slightly embarrassed.

"Just what?!" Ji Yuhui asked.

"Ms. Ji, don't be angry if I say so." Manager Liu looked very embarrassed and said hesitantly, "A guest" asked for that private room."

"What did you say?!"

Ji Yuqing's eyebrows knitted up at the sound of her words.

Manager Liu said in a panic, "Don't be angry, Ms. Ji, no matter how much you spend today, the bill is all free."

Ji Yuqing said, "I don't need this much money! Manager Liu, we have known each other for more than a day or two, I had already booked a private room before, but you gave it to someone else, do you have to give me an explanation for this matter?"

Manager Liu hurriedly explained, "Ms. Ji you must not be angry, it's really that guest" we have to receive."

"Oh?!"

Ji Yuhui frowned at him and said, "So, I am not obliged to receive it?"

Manager Liu scrambled to explain, "Of course not"

"Manager Liu, I don't care what kind of guests you are receiving, I only know that you have to give me a reasonable explanation for this matter, today I am going to invite an honoured guest, but you are putting up such an oops for me"

When she said this, her originally charming and attractive face was cold.

Although Ji Yuqing treated ordinary people kindly, this did not mean that she was easy to bully. If others really bullied her, she definitely wouldn't mind showing her power!

With a difficult look on his face, Manager Liu hesitated for a moment before saying, "Ms. Ji, to be honest with you, the people who came today are from the Chuk Yuen Gang, and they directly said they wanted the best private room, I" wouldn't dare to refuse!"

Ji Yuhui was stunned, "People from the Chuk Yuen Gang?!"

Manager Liu nodded with a bitter smile, "Yes. Otherwise, how could I have given the private room you booked to someone else?!"

Ji YuYing frowned at him and kept looking at Manager Liu until she was uncomfortable before she asked, "Who is the person who came to ask for a private room, who is from the Chuk Yuen Gang?!"

"YuYing!"

At this time, Ji Feng was the one who spoke, he stepped forward and said, "YuYi, I think we should change places, just find a random place to eat, it's better to talk about things here" later!"

However, Ji YuYi shook her head, she knew that Ji Feng had advised her because he did not want her to get into conflict with other people because of him, especially if the other party was from the Chuk Yuen Gang.

However, for Ji Yuqing, this was something that had to be resolved.

She turned her head to that Manager Liu and said, "Take me to see who the people who robbed my private room are from the Chuk Yuen Gang!"

Manager Liu was horrified at the words and said in a panic, "Ms Ji, you" this won't do!"

Ji Yu Ying abruptly stopped and turned her head to look at him and said seriously, "Manager Liu, although the people of the Chuk Yuen Gang are domineering, they are not bastards!"

Manager Lau hurriedly said, "They're really from the Chuk Yuen Gang!"

Ji Yueting said, "If this is true, then from now on, they are not!"

Manager Liu was stunned, and before he could understand what was going on, he saw that Ji Yueting was already walking forward again, so he had to follow quickly while persuading Ji Yueting, fearing that she might cause trouble.

Although he knew that Ji Yuet had to be a good person, he couldn't make a scene against the Chuk Yuen Gang, and if he made a scene in his shop, he would be the one to suffer in the end!

"Hmph!"

Zhang Lei shook his head and laughed, saying, "Crazy, it looks like this Chuk Yuen Gang is also a mixed bag of good and bad people, no different from other gangs' sects, just a bit bigger. You have to be careful with your contact with Ji YuYi!"

Ji Feng nodded but did not say anything, but followed in stride.

Zhang Lei couldn't help but shake his head, he could see that there was really something between Ji Feng and Ji Yuhui.

But there was nothing he could do about it, but Zhang Lei wasn't too worried, after all, Ji Yuhui was a Bao Islander, and she was also the first lady of the Chuk Yuen Gang. With Ji Feng's status, it was impossible to develop too much with Ji Yuhui, whether through official channels or in a private way.

Being friends is fine, but if it's anything else the two of them are not on the same level!

Besides, Zhang Lei can still have to keep watch for his sister!

Campus Master Chapter 2791 -

With a sullen face, Ji YuYi ignored the restaurant manager Liu's bitter words of encouragement and marched forward.

Ji Feng then followed, and as if walking around, he saw the entire layout of the restaurant, which had three floors in total.

It is a sun room made entirely of various kinds of glass, with small bridges and water, flowers and plants flourishing in between, and even a fish pond and a small garden.

If one did not know that this was a private room in a restaurant, one would think that one was in some paradise.

However, at the moment, the atmosphere here was not as relaxed as that of a paradise.

As Ji Yuwen stood at the door, not saying a word, the bodyguard next to her took the initiative to knock on the door: "Knock, knock!"

At the same time, several other bodyguards immediately scattered and stood around, and there were even two bodyguards standing in front of Ji Yuhui, surrounding her.

Ji Feng frowned slightly as he noticed that the glass was actually all of a single-sided light-transmitting glass, which meant that the people in the compartment could clearly see outside, while they could not see inside the compartment.

This also meant that when they came outside the private room, the people inside had actually seen them, but no one came to open the door Ji Yuet Ching was the first lady of the Chuk Yuen Gang, and if the people in the private room were really heavyweights of the Chuk Yuen Gang, then naturally they could not have not known Ji Yuet Ching.

Moreover, it was evident from the actions of Ji Yuet-ying's bodyguard, who seemed to be very wary!

Zhang Lei likewise realised the problem, and with a brilliant flash in his eyes, he exchanged a glance with Ji Feng, then made a gesture to Yang Bin and Liu Zejun and the others.

Liu Zejun and the others immediately understood and moved slightly closer to Ji Feng.

Bai Zhu, on the other hand, was the first to stand on Ji Feng's side, his gaze alert.

Ji Feng, however, couldn't help but look at it and secretly nod his head, Zhang Lei, really practiced it, just as soon as he noticed that something was wrong, Zhang Lei's first thought was not other than to command Liu Zejun and others to respond.

And most importantly, Zhang Lei's demeanor was not abnormal in any way, but rather very calm, looking almost as if he had come on holiday.

This kind of aura is usually referred to as the poise of a great general!

Ji Feng couldn't help but consider in his heart if it was time to let Zhang Lei take over the battle team!

Northeast of the black `do, Zhang Lei has long been integrated almost, even if there is no treasure island this thing, Zhang Lei will also return to Jiangzhou, before Ji Feng also joked with Yi Xingchen, said that a good brother of his is coming back, the strength is good, Yi Xingchen also want to spar with Zhang Lei to spar

The current Zhang Lei, in Ji Feng's opinion is more atmospheric than Yi Xingchen!

Perhaps now compared to Yi Xingchen, the only thing Zhang Lei lacks is combat experience, and on this point, Zhang Lei's progress is exceptionally fast!

These thoughts flashed through his mind, but Ji Feng's brow was slightly furrowed because a few moments had passed since the bodyguard knocked on the door, but there was no movement coming from inside the private room, nor did anyone even make a sound to ask, let alone come to open the door.

"Ms. Ji, look at this" Manager Liu was very nervous beside him, he naturally knew that this private room could be seen from the inside. If she insisted on going in, the other party would definitely not be willing to give up.

However, as if she had not heard, Ji Yuqing just gave the bodyguard a glance. The bodyguard immediately understood and went forward to knock on the door again, "Knock, knock!"

Taking this opportunity, Ji Feng secretly activated the bio-current on his eyes, and his gaze instantly penetrated the glass of the private room and saw the scene inside.

In the middle of the flowers, there was a rectangular log table, surrounded by four long wooden chairs, which looked like the original atmosphere of a farmhouse.

However, at the moment, there were four people sitting next to the log table, two men and two women, surrounded by bodyguards, standing in several different corners, with their hands in the hem of their clothes, as if they were preparing to take weapons. The men and women, however, were laughing and joking to themselves as if they had never heard the knock.

“Knock again!”

Seeing that the door of the private room did not open, Ji Yuhui’s face sank and her voice took on an angry tone – she often came here when she invited important guests, so how could she not know that this private room could be seen from the inside?

If that was the case, how could the people inside not see her?

But now the other party was hesitant to open the door, so it was clear that they did not take her seriously!

Just because of this, it was absolutely impossible for Ji Yuqing to just leave, and it was absolutely impossible to just let it go!

“Yuk-Yin!”

Ji YuYi’s bodyguard was about to knock on the door again, but was stopped by Ji Feng, who looked at Ji YuYi and said, “No need to knock, the person inside won’t open it!”

“Why?!”

Ji YuYi looked at him and asked.

Ji Feng said, “Because they can’t hear it at all!”

Ji Yuhui was stunned and asked, “What do you mean?!”

Couldn’t hear, were the people inside the private room deaf, or was it because some of these people deliberately pretended not to hear?

A bodyguard next to her whispered, “Miss, could it be that the people in the private room are just junior brothers of the gang and don’t know you, that’s why they are so

“If they were just juniors, when they saw us people coming to knock on the door, they would have been unable to hold back their anger to come over and scream!” Ji Yuhui sank her face.

Although she was young, it didn’t mean she didn’t have a brain.

In fact, when she knocked on the door for the first time but no one came to open it, Ji Yuhui already knew that the door would not be opened. Moreover, the people sitting in this private room were definitely not just some small-time gangsters, they were definitely people with some weight in the Chuk Yuen Gang!

“There are two men and two women inside, one of them is a woman about thirty-seven or eight years old, dressed gorgeously, with her head coiffed, well cheekbones slightly high, lips a little thin, single eyelids

Ji Feng, however, described the looks of the people inside the private room, and looking at Ji Yuhui’s steeply changed face, he continued, “She spoke the most with the middle-aged man across the room, the other two men and women should be juniors or sitting with them

Ji YuYi looked at him in shock and asked, “Ji Feng, are you sure? How do you know that?!”

Ji Feng smiled and said, “Saw it!”

Naturally, Ji YuYi did not believe it, through the glass of the private room, the outside could definitely not see the inside, unless Ji Feng had grown a pair of see-through eyes, but that was obviously impossible, so Ji YuYi believed that Ji Feng must have seen it through some special channel, or some special high-tech equipment.

Just think about Ji Feng’s identity, it would be a simple matter for him to bring some high-tech equipment with him when he came to Treasure Island this time. Perhaps certain high-tech devices had the ability to image even through glass, and this was how Ji Feng knew what the people inside looked like!

However, Ji YuYi would never have thought that Ji Feng did not need any high-tech equipment at all, because he really had a pair of penetrating eyes!

However, these were all side issues, because for Ji Yuhui, what Ji Feng had just described to her about the middle-aged woman’s looks was what she was most concerned about.

She asked, “Ji Feng, the woman you said was thirty-seven or eighteen years old, did she have a mole growing in front of the heel of her nose below her left eye?”

“It appears to have one!”

Ji Feng’s gaze swept over and nodded, “Well, there really is, I didn’t pay attention to it just now hmm? There seems to be a scar on the left side of her forehead? Can’t see it too clearly

“Hmph!”

However, before she could finish her words, she saw Ji Yuhui’s face change abruptly, and then she coldly snorted, “It really is her! bitch!”

Ji Feng was stunned and glanced at each other with Zhang Lei, both seeing the look of astonishment in each other’s eyes.

Bitch?!

This name

As a woman, and very elegant, had Ji Yuhui ever seen such foul words come out of her mouth? Don’t think for a second that Maggie Kee is a gangster, just like that movie about the little girl in Bowland

Street who opens her mouth and shuts her mouth, but the bigger the gang, the more formalised it is, and the more cultivated the top brass is!

This can be seen in the way we deal with her.

But now, she was foul-mouthed and looked so angry, so you can imagine how much she disliked the woman in the private room!

“YuYi, is this that woman you are?” Ji Feng was surprised, according to reason, Ji Yuhui was the eldest lady of the Chuk Yuen Gang, with this kind of status, what other woman in the gang dared to offend her? And make her hate it so much?

Hating someone actually meant being helpless against that person from a certain side, otherwise it wouldn't be hate, but outright revenge!

A woman who could render Ji Yuet-jen helpless?

“She?”

Ji Yueting sneered and said, “Didn't I say it, just a bitch!”

Then, her face turned cold, “No need to knock, just smash the door open for me!”

Manager Liu was startled by her words and was just about to say something when Ji Yuwen turned her head abruptly and said, “Manager Liu, there's nothing for you here today, I'm responsible for all the smashed things and delayed business!”

“But”

“Smash it for me!” Ji Yuhui said in a cold voice.

“There's no need to smash it!” Ji Feng, however, immediately stopped Ji Yuqing's bodyguards and nudged his mouth, “People are coming out!”

“Pop!”

The next moment, the door of the private room was opened and a bodyguard-like person came out and said, “Everyone, our madam invites you in.”

With a cold look on her face, Ji Yuqing said, “Let her out, I booked this private room, she's taking over the room, what kind of person is she!”

The bodyguard said, “Our madam said, please go in, don't make a scene outside to make people think you are uncultured!”

At once, a cold light flashed in Ji Yueting's beautiful eyes, “What did you say?!”

Campus Master Chapter 2792 -

The bodyguard said, “Our madam said, please go inside and don't make a scene outside to make people think you are uncultured!”

At once, a cold light flashed in Ji Yueting's beautiful eyes, “What did you say?!”

Swish!

As soon as Ji Yueting's words fell, one of the bodyguards beside her steeply stepped forward and instantly threw a punch while shouting, “Unrestrained!”

“Boom~!”

The bodyguard standing in the private room, however, was not slow to react, and the moment Ji YuYing's bodyguard had just made his move, he had already made a blocking move – perhaps from the moment he said those words, he knew that he would definitely make a move next.

After a single move, neither of them had any advantage, and when the bodyguard was about to make another move, he suddenly heard a woman's voice from inside the compartment: “What's going on? What's all this noise outside!”

When she heard this voice, her eyebrows knitted tighter and her face became even more gloomy, she turned her head to look at her bodyguard and said, “You don't have the strength to eat, do you?”

Her bodyguard instantly blushed, then he gritted his teeth, let out a low bellow and once again pounced towards the one in the private room.

However, at this moment, the bodyguard in the private room stretched out his hand and put it on the wrist of the bodyguard, then flicked it, surprisingly, using a four-two paddle like a thousand jin, he flicked the fist of her bodyguard to the side, however, the direction he flicked it was next to where Maggie Ji was!

He hurriedly tried to withdraw his fist, but he was being guided by his opponent's force and his stance was too old to retract.

Not only him, but also the bodyguards around her were unable to react at all because they were too close together. No one expected Ji Yuqing's bodyguard to suddenly attack Ji Yuqing even if he was only guided to hit him, but that was his fist after all!

The bodyguard in the private room had a flash of triumph in his eyes, a youngster, just leaning on Missy, actually dared to make a move with him, simply did not know how to live or die!

This time he was going to teach the other party a lesson, not only to make this youngster understand what respect for the elderly meant, but even to make Ji Yu-yi lose face, so that only then would Madam be happy.

As these thoughts flashed through his mind, the corners of this bodyguard's mouth were pulled up in an arc – snap!

The next moment, only a crunching sound was heard. Immediately, this bodyguard only felt a huge force suddenly come from his hand, which was like a mountain torrent that was simply unstoppable, causing his whole body to shake and his feet to go weak.

A look of astonishment flashed across this bodyguard's eyes, what terrifying strength!

However, when he saw Ji Yuhui and the bodyguard beside her, his face instantly changed – only to see Ji Yuhui standing there unscathed, not even slightly affected, while her bodyguard, too, stood stunned beside her, staring blankly at his own hand... ..

Beside Ji Yueting, a tall young man frowned and said disdainfully with his hands behind his back, “What I hate most in my life is this kind of people who take advantage of people at will just because they have some kung fu, I didn't expect to meet another one here today, what a pisser!”

It was naturally Zhang Lei who made the move.

Not long after he had fallen in love with Shen Jingyi, he had met the son of another ancient martial arts family, the Tan family, with whom he had a marriage contract, and at that time, that Tan had humiliated Zhang Lei by virtue of his high martial arts skills.

Therefore, what Zhang Lei was most disgusted with was this kind of guy who used to tease others just because he had some kung fu or some capital.

The bouncer in the private room was stunned, and only then did he understand that it was this young man who had just made the move and brought the situation to a head.

And he didn't even see clearly how the young man had struck, he was involuntarily pushed back several steps by the strong force, so you can imagine how strong this young man was!

Was this Ji Yuet's bodyguard?

However, at this time, Ji Yuhui's face was gloomy to the extreme, and the cold light in her beautiful eyes flashed, what that guy had in mind just now, anyone who was not blind could see that he was just a bodyguard, yet he dared to put his mind on her!

Ji Feng, on the other hand, was curious, the people inside were obviously from the Chuk Yuen Gang, but who was the other party that dared to treat Ji Yu Ying like that?

If there was no nod from the master, that bodyguard might not have dared to do anything to Ji Yuqing. Obviously, the bodyguard had done so just now because of the intention of someone inside the private room.

“Arrest them and deal with them according to the gang rules!” Ji Yuet said in a single word, her voice cold.

The action of that bodyguard on the other side had made Ji Yueting really angry.

Two of them had already reached behind their waists, they were ready to move their weapons!

“Yo~”

Just then, a voice came out from the private room, followed by a sound of footsteps, but it was the people in the private room who came out, it was the woman in her thirties and seventies, and the two young people, a man and a woman. Ji Feng looked up, but saw the middle-aged man in the private room sitting there motionless, still drinking tea by himself, without the slightest intention of coming out.

Once the woman came out, with a smiling look on her face, she swept her gaze around and said, “What's going on? Yu Ying, what brings you here?”

Ji Yueting stared at her coldly and said, “I should be asking you that! I booked a private room, what are you doing here?!”

“You booked a private room?”

The woman laughed and said, “I really don't know about this It seems like it's time for this shop to close down, the person in charge can't even speak clearly!”

The manager Liu, who had not dared to speak, was terrified at the moment, and he said in a panic: “Madam, you can't do this, I wanted to say something at that time, but you didn't give me the chance to speak!”

“How dare you!”

At this moment, a bodyguard shouted, “So it's our lady's fault?”

The cold sweat on Manager Liu's back sprang up, and he shook his head desperately, “I definitely didn't mean it Ms. Ji, this madam, I”

He was on the verge of tears, he was really innocent in this matter! However, the other party was from the Chuk Yuen Gang, he could not afford to mess with them even if he was beaten to death!

She knew what was going on in her heart, so her beautiful eyes just stared coldly at the woman and said, “Chen Wan, it looks like you want to have some fun?”

The woman named Chen Wan smiled at her words, but the smiling expression on her face remained unchanged, she just said, “Jade Youth, in any way, I am your senior, if you follow the seniority, you should call me “Little Mother”, don't be so capricious, otherwise, people will think that all of us from the Bamboo Gang are so uncultured... ..”

“Chen Wan!”

Ji Yuwen's voice steeped a few notches higher, her eyes dripping with anger, “There are things I don't want to say, and you shouldn't force me to, or else you'll be the one looking bad instead of me! Now, you get out of here immediately, or else”

Chen Wan smiled at her words but laughed and said, “Yu Ying, do you have to ask me to call your father now so that you don't make a scene?!”

“You”

Ji Yuhui was furious, staring at Chen Wan and then at the two people beside her, nodding heavily, “Chen Wan, you started this war, then we'll see!”

Chen Wan smiled, “Yu Ying, don't be capricious”

“Hmph!”

Ji Yuhui did not give her a chance to speak, snorted coldly, turned around and walked away.

Once she left like that, her bodyguards would naturally follow closely, but Chen Wan's gaze turned to Ji Feng and the others, looked at them and smiled slightly, "Are you all friends of YuYi?"

Ji Feng smiled and nodded.

Chen Wan said, "YuYi has been spoiled by her father since she was young, so later on, you guys should advise her more and not let her do anything stupid. Also, when I came here today, I did not know that this private room was booked by her."

Ji Feng nodded and said, "I will convey this to her."

Chen Wan nodded slightly, turned around and went into the private room, but did not give them another glance.

Snap!

The door of the private room was closed again, and only Ji Feng and the others were left outside. Zhang Lei rubbed his chin and said, "Crazy, this woman is very arrogant!"

"And very shrewd too!" Ji Feng said.

"Yeah, Ji Yuhui doesn't seem to be a match at all in front of her!" Zhang Lei said, "What did she say just now? She's Ji Yuqing's little mother? Then wouldn't she be the wife of the head of the Chuk Yuen Gang?!"

"I think so!"

Ji Feng nodded, he had read the information of the Bamboo Alliance Gang before and also generally understood that the wife of the leader of the Bamboo Alliance Gang, was called Chen Wan, but in the information she was only mentioned in passing and did not focus on the description, but now Ji Feng seemed that this leader's wife was not simple.

No matter from the time Ji Yuhui came here to the time she left, in between, that gang leader's wife Chen Wan had always been in control of the whole situation and completely dominated the upper hand!

However, although Ji Yuhui was angry, she was very sensible and when she saw that she did not have the upper hand in this matter, she left decisively, cutting off Chen Wan's chance to continue to gain the upper hand!

Ji Feng couldn't help but shake his head, it seems that there are many contradictions within the Chuk Yuen Gang, the first lady and the young mother are so much at odds with each other! It seems that where there are people, there is strife, and there are competing interests!

However, these matters had little to do with Ji Feng, so he only lamented for a moment before rushing off to chase after Ji YuYi.

When he arrived outside the restaurant, he saw Ji Yuhui standing by the car in the car park, holding her arms, obviously waiting for him.

"What did she say to you?" Seeing Ji Feng coming over, Ji Yuhui asked.

"How do you know she will definitely talk to me?!" Ji Feng asked with a smile.

Campus Master Chapter 2793 -

"What did she say to you?" Seeing Ji Feng coming over, Ji Yuhui asked.

"How do you know she will definitely talk to me?!" Ji Feng asked with a smile.

"This woman is very shrewd, she could tell right away that you are not from the Chuk Yuen Gang, so you must be my friends, and she is a person who will not let go of any opportunity to corrupt me!" Ji Yuhui sneered, "She's doing this just to make me lose my mind in a fit of rage and do something uncool!"

Ji Feng couldn't help but laugh, "You really do know her!"

Ji YuYi sneered, "If I didn't know her, I'm afraid I would have been eaten to the bone by her by now!"

Ji Feng couldn't help but be slightly stunned at his words, he didn't expect that there was such a deep hatred between Ji Yuhui and that woman called Chen Wan, only that woman was Ji Yuhui's young mother, and the conflict between them

"Ji Feng, I'm really sorry, I wanted to give you guys a reception today, but I didn't expect something like this to happen, and it made you guys unpleasant too!" Ji YuYi said apologetically, "Let's change places again!"

"It's alright!"

Ji Feng shook his head and said, "There are always people with the wrong faces, just asking something I shouldn't ask, that woman called Chen Wan is your little mother, how come there's such a deep conflict between you guys?!"

When Ji Yuhui smiled, her face sank abruptly, she pursed her lips, a look of hatred in her eyes, and said, "This woman"

She suddenly shut her mouth and just shook her head and said, "Forget it, let's not talk about that, let's get in the car, I'll take you to another place!"

Ji Feng nodded, since Ji YuYi didn't want to talk about it, he naturally wouldn't ask any further questions, he wasn't a gossipy person in the first place, besides this was obviously Ji YuYi's family matter, so he couldn't ask any further questions.

Afterwards, Ji Yuqing let Ji Feng and Zhang Lei get into her Bentley, while Liu Zejun and the others took the other two cars, and when Ji Yuqing gave the order, the driver started the car.

However, this time, Ji YuYi asked Zhang Lei to sit in the passenger seat, while she sat in the back row, together with Ji Feng.

The car slowly started, yet at this moment, Ji Yuhui suddenly said, "Raise the privacy `glass!"

“Yes, Missy!” The driver responded.

“Hum~”

With a slight sound, a piece of glass unexpectedly rose up in the middle of the Bentley, quickly separating the back row, tightly and without the slightest gap.

Ji YuYi said, “This car is specially customized, the hidden `privacy glass inside the car can’t even be pierced by bullets!”

Ji Feng nodded and smiled, he had also heard of this kind of car, just that he had never seen it before, and of all the people he knew around him, only He Hongwei’s car was the best, but there was no such hidden `privacy glass in He Hongwei’s car either.

“Does it feel too extravagant?!” Ji Yuhui asked.

“No.”

Ji Feng shook his head and smiled, saying, “Everyone has different preferences, I guess!”

Ji Yuhui said, “If I could, I would like to be like other girls and ride a bicycle once in a while, or drive a motorbike as well, riding in such a car might be a symbol of status and position to many people, but to me, this car is like a cage, making me almost breathless!”

Ji Feng nodded thoughtfully, Missy of the Chuk Yuen Gang, this status might have given Ji Yu Yi a halo, at least in the Treasure Island, the Chuk Yuen Gang was still quite influential. However, when one gains something, one also loses a lot.

Those celebrities, for example, have gained scenery and glory, but they have lost their private space for themselves and are in the spotlight all the time, without any semblance of personal freedom.

“And yet I have to ride in this kind of car!”

Ji YuYi’s beautiful eyes suddenly flashed with a stern look as she said, “Ever since I can remember, I have been kidnapped four times, assassinated twice, and in several crises, and in the last two years it has become more and more frequent, that’s why my father had this car custom-made for me!”

Ji Feng was stunned: “Assassination? Kidnapping?”

“Surprised, are you?”

Ji YuYi laughed twice in a self-deprecating manner, “A black`gang’s Miss Thousand, the eldest sister of these murderers and robbers, yet she was treated like this instead! Isn’t that ironic?”

Ji Feng, however, frowned slightly, but did not say anything, it was obvious that Ji YuYi was extremely angry now and wanted to talk, he just had to listen.

“You just asked me why there was such a deep conflict with that bitch?” Ji Yueting suddenly asked.

“I was just asking casually, so if it’s not convenient to say, forget it.” Ji Feng waved his hand with a smile.

“There’s actually nothing bad to say, it’s just that it’s not convenient for outsiders to know.” Ji YuYi said, “That’s why I asked the driver to raise the hidden `private glass.”

Ji Feng could not help but be dumbfounded.

Ji Yuqing said, “Actually you must have thought that between me and that bitch, it was a family conflict, right? In fact, if it was just a family conflict, I wouldn’t even care about her, much less bother to fight with her!”

Ji Feng asked, “Then”

“I suspect that my mother’s death has nothing to do with her!” Ji YuYi suddenly said.

“What?!” Ji Feng was stunned, then he couldn’t help but frown slightly and said, “YuYi, are you telling the truth?!”

“Don’t believe it?!” Ji YuYi asked.

Ji Feng shook his head and said, “Not really, I just didn’t expect”

Before he finished, he heard Ji Yuhui say, “If you knew the relationship between her and my mother, you would not believe it even more She and my mother are sworn sisters!”

Ji Feng was stunned again.

Ji YuYi said in a cold voice: “You don’t know anything about the past, but one thing you must understand is that whoever gets the most benefit from my mother’s death is the most suspicious!”

Ji Feng nodded at once, indeed, no matter among anything, as long as there is something fishy, whoever gets the most benefit is the most suspicious, at least the vast majority of the time, of course, it does not exclude someone deliberately framing or something like that.

“Ji Feng, I beg you something!” Ji YuYi interrupted Ji Feng’s thoughts.

“What?” Ji Feng asked.

“Do you know any high-level doctors or forensic doctors?” Ji YuYi asked, “The kind that hasn’t been seen on Treasure Island, the less people know the better!”

“What are you looking for a forensic doctor for?!” Ji Feng asked.

“I want another autopsy for my mother!” Ji YuYi gritted her shell teeth and said in a cold voice.

“An autopsy?!”

Ji Feng couldn’t help but be stunned, then he reacted and asked, “YuYi, I’m a bit confused, you want to do an autopsy on your mother, then when did your mother die?!”

Ji Yuhui said, "Over eight years ago!" She knew what Ji Feng was thinking, shook her head and said, "I am not asking the forensic pathologist to do an autopsy on my mother directly, but I want to examine my mother's ashes Ji Feng, I know you must have access to someone, and you can also surely send someone to Treasure Island unnoticed, I hope you can do me this favor, for the sake of a friend For the sake of friends, okay?"

Ji Feng then couldn't help but frown and said, "YuYi, it's definitely fine to help, but, I'm a bit confused from what I'm hearing, if it's convenient, can you tell me what's going on, I can also help you analyse it!"

Ji YuYing was silent for a moment before she nodded and said, "In the past, I was very rebellious because my father was always busy with the gang's affairs, and he didn't care about my mother's poor health, and once my mother was sent to the hospital for resuscitation, but he took the gang's patriarch and went to negotiate with the Brotherhood. ...so I hated him!"

"Later, when my mother's health gradually improved, I went to Rice to continue my education, and it was that bitch Chen Wan who was looking after my mother at that time!" Speaking here, Ji YuYi's eyes flashed with hatred, "But what I didn't expect was that in just less than half a year, my mother suddenly went!"

Ji Feng asked, "What was the reason for that?!"

Ji YuYi said, "What they told me at the time was sudden internal organ failure, it was sudden and said that it was because I hadn't thoroughly recuperated before At that time, I didn't think too much about it at all because I was too sad, and, after my mum went, people from the gang came one after another to offer condolences, and I didn't have time to think about it that much"

The first time I thought of what happened eight years ago, Ji Yuhui's charming face was vaguely distorted, and her teeth were almost bitten off!

Ji Feng frowned and asked, "Then how did you later suspect"

"When my mother was later buried, I intended to find out in detail the causes and consequences of my mother's death, because when I went to Rice, my mother's body had recovered well and there was Chen Wan around to take care of her specifically, how could her internal organs suddenly fail?! So I first went to those doctors who resuscitated my mother at that time!"

Ji YuYi said, "But what I didn't expect was that the doctors who were in charge of resuscitation at that time had resigned and the whole family had emigrated from Treasure Island, saying that they had emigrated to Canada, but when I went there according to the address I found, I realized that that address was simply a fake, there was no such door number on that street!"

When Ji Feng heard this, he instantly understood, no wonder Ji Yu Ying was suspicious of her mother's death, her mother had only died not long ago, the doctor responsible for resuscitation had disappeared, and the whole family was missing Anyone else would be suspicious!

"However, before I could find out the whereabouts of that doctor, and before I could find out the cause of my mother's death, Chen Wan was even about to get married to my father!" Ji Yuet Yin sneered, "Their reasons were ridiculous enough to make people laugh, saying that the gang couldn't do without the gang leader's wife, and some of the patriarchs, too, praised Chen Wan, saying that she was very helpful to my dad and straightened out a lot of things"

"A lot more happened behind this, Chen Wan also started to meddle in the affairs of the gang, I couldn't see it and started to perform my duties too! Apart from that there are many, many more things that can't be finished in a few words!"

At this point, Ji YuYi looked at Ji Feng and asked, "Now you should understand why I suspected that my mother's death was fishy, right?!"

Ji Feng silently nodded his head and said, "Totally understand!"

Campus Master Chapter 2794 -

Speaking here, Ji YuYi looked at Ji Feng and asked, "Now you should understand why I suspect that my mother's death is fishy, right?!"

Ji Feng nodded silently and said, "Totally understand!"

It was true that Ji YuYi's suspicion of Chen Wan was not completely unwarranted! If it had been Ji Feng, he would have been suspicious too, and the first person he would have suspected would have been Chen Wan!

If it was only Ji Yuqing's mother's health that had suddenly deteriorated, it might have been difficult for Ji Yuqing to accept, but she might not have been suspicious, but if it was coupled with the fact that Chen Wan had suddenly risen to the top and become her young mother, it would have made Ji Yuqing suspicious.

However, what really made her suspicious was the disappearance of the doctor responsible for rescuing her mother.

Each of these things seemed slightly unusual, but if one thought about it, it would make sense!

But if you think about it, this is the perfect chain of evidence that proves beyond doubt that her mother's sudden death from internal organ failure was a sinister conspiracy!

There are no such thing as coincidences in this world!

A very famous philosopher once said that almost all coincidences are the result of man-made factors! The result of this coincidence may not exactly match the original intention of the human factors involved, but it has produced a series of changes.

What happened to Ji Yu-yi's mother was no coincidence!

In fact, if one were more inclined, one could almost confirm that the death of her mother was the result of a conspiracy between Chen Wan, who was in charge of her care, and the attending doctor who was responsible for her resuscitation, in which Chen Wan might have been innocent, but the attending doctor was definitely involved, and that doctor definitely played a dishonourable role!

Because the doctor is the last resort!

No matter what other people had done, no matter how many interests were involved or how much foul play was involved, in the end, all they wanted was for Ji YuYing's mother to die, and the one who could play a role in this matter was the doctor in charge of resuscitation!

Objectively speaking, even if one were to take a step back, this attending doctor was definitely responsible and highly suspect!

But then again, was Chen Wan really not at all suspicious?

This is obviously a joke!

If Chen Wan was really specifically responsible for taking care of Ji YuYi's mother, then if there was something fishy in the middle, would she not know about it?

"Ji Feng, I want you to help me!"

Ji YuYi's beautiful eyes looked at Ji Feng and said, "I know you can definitely find an expert in this field, this is very important to me, I can't let my mother die unjustly like this! Count me as begging you!"

"It's not that serious!"

Ji Feng waved his hand and said, "I'll definitely be willing to help if I can, but it's a bit of a hassle to transfer someone from the mainland, and there's a certain amount of risk, aren't there any local forensic doctors of a high standard on Treasure Island?"

Ji Yuhui said, "Of course there are. But, I don't trust them!"

Ji Feng froze, then asked, "Are you worried that other forensic pathologists have also been bought and paid for, or"

"You don't understand the power of the Chuk Yuen Gang in Treasure Island!" Ji Yuhui shook her head and said, "These gangs` secretly have some underhanded tactics that no one can resist! Moreover, with Chen Wan's hand gradually reaching out to the gang over the past few years, her eyes can now be said to be all over the entire Chuk Yuen Gang, so if I make any moves in Treasure Island, I'm afraid I won't be able to hide it from her eyes!"

Ji Feng frowned and said, "Is it that serious? Don't you have your own inner circle?!"

"Then do you think it's really a coincidence that this time I just booked a place in the restaurant, only to have Chen Wan take it up before me?" Ji Yuhui asked.

"Could it be that" Ji Feng frowned slightly, "Could it be that she is spying on you?!"

"Whether or not she was spying on me, that I'm not quite sure, anyway, I didn't find any evidence. But I'm afraid that every move I make in Treasure Island can't escape her eyes!" Ji Yuhui said, "Do you know why I put up the hidden `private glass'?"

Ji Feng glanced thoughtfully at the driver driving in front of him, Zhang Lei was chatting idly with the driver because he couldn't hear what they were saying in the back row

"Do you think the person next to you has a problem?!" Ji Feng asked.

"Otherwise, how do you think Chen Wan knew so quickly when I had just booked a place before?" Ji YuYi sneered, "Even if there were her people in every corner of the entire Treasure Island, she couldn't have known about the hotel I booked privately that quickly, right?!"

Ji Feng couldn't help but nod, it was obvious that it was indeed someone around Ji Yuqing that had gone wrong!

"Who is it?!" Ji Feng asked in a low voice.

"If I knew who it was, do you think what happened today would still have happened?" Ji Yuhui said, "I've looked into it more than once, but nothing has ever come of it, and I didn't dare to investigate too deeply for fear of alerting the other side"

"Then why not hire someone from the outside, why use them when you know there is something wrong with the people around you!" Ji Feng asked.

"Because I'm the first lady of the Chuk Yuen Gang!"

Ji YuYing rubbed her brow, sighed lightly and said, "It's not that I haven't hired people from outside, but it turned out to be troublesome, if I hired people from the Treasure Island, they would follow me within a few days at most, their family members would be harassed or followed, under such circumstances, how could they let go of their hands and follow me?"

Ji Feng asked, "What about the people outside of Treasure Island?!"

Ji YuYi said, "I also invited them, but Chen Wan made a condition that if I invited people from outside, then I could no longer interfere with the affairs of the gang, her reasoning was that the secrets of the gang could not be made known to outsiders" is simply ridiculous, and not many people were born into the Chuk Yuen gang, they weren't all outsiders before?!"

Ji Feng nodded and said, "Yeah, so you didn't fight for it?"

Ji Yuhui said, "It's just that there are some people in the gang who are speaking for Chen Wan, and"

She pursed her lips, a complex and hard to understand look flashed in her eyes, there was hatred, irritation and a touch of" hate, "And my dad also agrees with her!"

Ji Feng then couldn't help but be stunned, the reason Ji YuYi came down in defeat was because of this? He did not expect that Ji Yuhui's father would not support his daughter!

At this moment, Ji Feng finally understood why Ji Yuqing's eyes were so complicated just now, perhaps, she still harboured resentment and hatred towards her own father in her heart!

"Now you understand, right?!"

A self-deprecating sneer flashed across the corner of Ji Yuet's mouth as she said, "Apart from you, I really don't know who I should go to for help now!"

Thinking that she was the grand lady of the Chuk Yuen Gang, to outsiders she could be said to be calling the shots, and her power was so huge that it was unimaginable, but in reality she could hardly move an inch in Treasure Island!

Ji Feng deliberated for a moment, nodded and said, “Yu Ying, it’s not really difficult to find a forensic doctor for you, or you can just take a trip to the mainland with your mother’s ashes, it will just take a little time at most, nothing cumbersome.”

To find a forensic pathologist, this was too easy for Ji Feng, it could be said to be a breeze to find a powerful forensic pathologist within the police system.

Even if one wanted to find a specialized medical expert, that would be easy!

“Thank you!” Ji Yuqing said softly.

“It’s a small thing, no need to be polite!” Ji Feng waved his hand and said, “By the way, did you not think about taking your mother’s ashes to another place to be tested before?”

“Thought about it! But I can’t!”

Ji YuYi said, “Because before that, if I did that, I would undoubtedly be telling the other side what I was thinking and knowing that there was something wrong with the people around me, and before I had some power, I would probably be asking for my own death if I did that!”

Ji Feng said, “That’s why you’re thinking of asking me to find someone to come over?!”

“Mm!”

Ji YuYi nodded and said, “In fact, I only want to test it now, on the one hand, because I found someone I can trust to help me!”

As she spoke, her pair of beautiful eyes looked at Ji Feng, clearly meaning that Ji Feng was the person she could trust.

Ji Feng then smiled faintly, but did not speak, instead waiting for Ji YuYi to continue.

“On the other hand, it is because I now also hold a certain amount of power!” Ji Yuhui’s face cooled down, “Now, it’s not like anyone can just move me if they want to!”

“Oh?!”

Ji Feng raised his eyebrows, a little surprised.

Ji YuYi said, “Since I can’t fight the other side in Treasure Island, then, I’ll choose to go abroad, such as Rice!”

Ji Feng immediately understood that this was Ji Yuhui’s intention to grasp the power of the Chuk Yuen Gang abroad as a way to strengthen herself. Thinking about her performance in New York, Ji Feng could not help but secretly nod his head, seeing that Ji Yuhui’s control over the power of the Chuk Yuen Gang in New York was still very strong!

“Treasure Island’s economic development has almost come to a halt now, and the three major gangs’ factions have also been greatly affected, so at this time, overseas power and wealth is extraordinarily important.” Ji Yuqing sneered, “These days, whoever has the money has the power of speech.”

“Dangerous too!” Ji Feng laughed.

“That’s right, I’ve been assassinated and kidnapped one after another these past few years, obviously some people are worried that I hold the power and wealth of the Chuk Yuen Gang overseas but they don’t dare to blatantly deal with me, even though I might have their people on my side, but so what?!”

When she said this, Ji YuYing slightly held her head up, like a high and proud swan, but also with a domineering aura!

Ji Feng couldn’t help but smile slightly, it seemed that the exercise in these few years had made Ji Yuhui but a big sister style, but more than that, it was a wisdom.

“Dingling” Just at this moment, Ji Yuhui’s phone suddenly rang, she picked up the phone and looked at it, her eyebrows couldn’t help but frown, but she still picked up the phone, only the tone of her voice was not too good.

A moment later, Ji YuYi hung up the phone, but looked at Ji Feng and said, “Ji Feng, my father wants to see you!”

Campus Master Chapter 2795 -

“Your father wants to see me?!”

Ji Feng couldn’t help but be surprised.

Ji YuYi nodded and said, “That’s right, the phone call just now was from him, he knows you’ve come to Treasure Island and wants to meet you.”

Because she did not have a good opinion of her own father, when Ji Yuhui mentioned her father when she spoke, she also mostly used ‘he’ instead.

The only thing that puzzled Ji Feng was that he had not come to Treasure Island for the sake of the Chuk Yuen Gang, and if he was not friends with Ji Yuhui, he would not even have anything to do with the Chuk Yuen Gang when he came to Treasure Island, but now, why did Ji Lihai want to see himself?

Ji Lihai!

The leader of the Treasure Island Bamboo Alliance Gang, Ji Yuet-yeung’s father, and one of the most powerful people in Treasure Island, at least, in the eyes of the people of Treasure Island, Ji Lihai is probably more powerful than many of the top-level bigwigs because the scale and influence of the Pearl Curtain is just too big, and it can be said to be closely related to the lives of the common people!

However, Ji Lihai wanted to see himself, which was something that made Ji Feng very strange.

“How did your father know I was coming to Treasure Island?!” Many thoughts flashed through his mind, and after a moment, Ji Feng couldn’t help but ask.

“Does that even need to be said?!”

Ji YuYi sneered, “If it wasn’t that bitch who said it, then it must be that my side isn’t just one or two people with bad mouths, I’m afraid, there are other people’s eyes and ears in this!”

The matter of Ji Feng’s arrival on Treasure Island was not something she had told anyone except for her and the bodyguards around her, but now that Ji Lihai kept calling her directly on her mobile phone and calling out Ji Feng’s name in one breath, anyone who was not a fool would definitely understand what was going on!

“That’s not what I meant!”

Ji Feng slowly shook his head and said, “I mean, does your dad know who I am?!”

Ji YuYi said, “If he didn’t know, he wouldn’t have said he wanted to see you!”

Knowing her own father, if it was just her average friend, Ji Lihai wouldn’t even be interested in seeing him, let alone, he wouldn’t!

I’m afraid Ji Lihai is more concerned with profit and status than her daughter!

And of course, that bitch Chen Wan!

Ji Feng then couldn’t help but slowly frown and said, “In that case, your little mother

“That’s a bitch!”

Before Ji Feng could finish his words, he was interrupted by Ji YuYi, “Nominally she’s my little mother, but in reality she’s no different from a bitch in my eyes!”

Ji Feng then couldn’t help but freeze for a moment.

“..... This is so true?!” Since Ji YuYi was so repulsed by Chen Wan, Ji Feng just ignored the name calling and asked instead.

“You think that someone is investigating you?!” Ji YuYi immediately understood what Ji Feng was thinking.

“How else can you explain that your dad can call out my name in one breath and clearly knows my identity?” Ji Feng asked.

“It must be that bitch who did it!”

Ji YuYi said coldly, “It must be because she hadn’t seen a few of you and knew that you were close to me, so she was secretly investigating your identities!”

Ji Feng nodded thoughtfully, although he still didn’t know exactly what was going on, but now it seemed that was the only explanation.

Only, Ji Feng could not help but be surprised by such high efficiency of the other Chuk Yuen Gang, investigating his identity’s origin in such a short period of time, this was not something that ordinary people could do!

“Do you want to go?!” Seeing Ji Feng frowning and pondering, Ji Yuhui asked.

“Since your father invited me, I definitely want to go!” Ji Feng said with a smile, in fact, if he was simply coming to Treasure Island as a friend, even if Ji Lihai did not invite him, Ji Feng should still go to see Ji Yuoyi’s father.

After all, if we look at Ji YuHye’s side, Ji LiHai was considered an elder, so it was only natural to go to a friend’s place to see his elder!

However, when Ji YuYi heard Ji Feng’s reply, she was silent for a moment before saying, “I won’t stop you if you go, but I have to remind you that he is not a good speaker and is very arrogant, I hate him a lot! You’d better be mentally prepared!”

Ji Feng couldn’t help but freeze at his words, then he smiled and nodded, saying, “Don’t worry, it’s just a polite visit, there should be no problem!”

This trip should be considered his first courtesy visit, even if Ji Lihai was arrogant, he couldn’t possibly do anything to him.

Ji YuYi nodded and said, “Alright then, let’s go eat first and then go see him!”

Ji Feng was stunned, “You still have to eat before you go? Isn’t that a bit impolite?”

Ji YuYi’s face was unpleasant as she said, “What’s the hurry? Go see him first before eating, I’m afraid I won’t have the appetite to eat again!”

Ji Feng then couldn’t help but be stunned.

He had not expected that Ji Yuhui would have such a strong opinion of her father, and this could not even be described as having an opinion anymore, just like what Ji Yuhui had said before, she was hating Ji Lihai!

Since Ji YuYi was not willing to go see Ji Lihai so soon, Ji Feng could not insist, so he could only follow her to dinner first. However, after eating, Ji Feng was planning to let Liu Zejun and the others go back first.

“Sir, then your safety” Yang Bin said hesitantly.

“Don’t worry, there’s nothing to worry about!” Ji Feng smiled and patted his shoulder.

“Crazy, it’s better to let them all follow along, after all, they are unfamiliar here, it’s always better to be more careful!” Zhang Lei, however, was a little more cautious than before.

Ji YuYi said, “Ji Feng, let them follow.”

Ji Feng couldn’t help but frown and asked, “What, there’s still danger for me to go this time?!”

Ji Yuhui said, "I'm afraid this is exactly what some people want to see!"

Ji Feng then understood, he nodded and said, "Well then, in that case, let's go together."

Originally, he thought that for this courtesy visit, it would be enough for him, Bai Zhu and Zhang Lei to go, while Yang Bin, Liu Zejun and Yao Zhijian would go back to the old house first, and there should not be any danger in visiting Ji Lihai.

However, Ji YuYi's words made Ji Feng wary.

Perhaps, by now, I am afraid that quite a few people already know that he has come to Treasure Island. Everyone else might be a little bit better off, but I am afraid that the Bao family will not be so polite!

The place where Ji Lihai lived was located in a seaside manor in the northern city of Treasure Island. Just as soon as he entered the manor, Ji Feng could tell that the size of the manor should not be small, and there were a few partial rooms at the entrance, and there were two young men wearing uniform suits inside, and looking at their walking posture, they should also be practitioners.

As the two men at the entrance greeted Ji Yuqing respectfully, the next remark from one of them was the one that instantly pissed off Ji Yuqing.

"Eldest Miss, the Master wants you to meet him at the Servcorp Mansion!"

"What?!"

Ji Yuhui's face instantly turned cold, her beautiful eyes glared as she said in a cold voice, "What does this mean?!"

The man hurriedly said, "This is what the master ordered."

Ji YuYi gave him a cold look and was annoyed, "Why didn't you say so earlier?"

She had even brought Ji Feng to her doorstep before telling her that she was actually going to the Servcorp Mansion instead of coming here

"This I don't know." The man said with difficulty.

"Humph!"

Ji Yuhui snorted coldly and said, "Then tell him that if he wants to see my friend, he should go to my place, I am waiting for him at home and will definitely not break his word like he did!"

"....."

The man could only look at Ji Yueting with a bitter face, but he did not dare to answer. Letting the gang leader personally go to meet someone?

However, Ji Yuqing didn't say much at all, after saying this she directly raised the car window glass and said in a deep voice, "Go back!"

"Yes!"

The driver nodded, then picked up the intercom to convey the order to the drivers of the other two cars, after which the convoy began to return.

Inside the Bentley, Ji Feng frowned and said, "YuYi, isn't it a bit inappropriate for us to leave just like that?!"

"There's nothing wrong with it!"

Ji YuYi said, "What he told me on the phone before was to come here to meet him, but now that he left on his own, it's his responsibility, you're already giving him face by coming to meet him, there's no reason to have to chase him!"

Ji Feng then couldn't help but smile bitterly, although the words were like that, Ji Lihai was after all Ji Yuoyi's father, and they were still living in the old house of the Chu Lian Gang, so it was reasonable to pay a visit to Ji Lihai.

It would have been fine if Ji Lihai did not know he was coming before, but now, he was the one who had to go.

"Ding Ding"

At this moment, Ji YuYi's phone suddenly rang, she picked up the phone and looked at it, she couldn't help but frown slightly, Ji Feng's gaze swept over and saw that the caller ID on that screen was a call from Ji Lihai, because on it, the word Gang Master was displayed!

Just by this title alone, one could tell the relationship between Ji YuYi and Ji LiHai!

"..... That's your problem!" There was no telling what Ji Lihai had said on the phone, but Ji Yuqing looked indifferent, "Now, we're going back, come over yourself if you want to see my friend!"

"Pah!"

After saying that, Ji Yuhui directly hung up the phone.

Ji Feng wanted to say something, but in the end, he could only shake his head, it was hard for outsiders to interfere in such family matters, and he couldn't sort it out.

Afterwards, Ji YuYi had her driver drive back to her residence, which was a small villa.

However, just as they reached the entrance of the villa, they saw a black Bentley sedan parked at the entrance. Ji Yuhui could not help but frown: "He's really here!"

Ji Feng immediately understood that the person in this car should be Ji Lihai!

As expected, when he saw them, the window of the Bentley in front of him came down, revealing the face of a middle-aged man, and when Ji Feng got out of the car, he was about to go up to greet them, but he heard Ji Lihai say, "Mr. Ji? Is it okay to come up for a chat?"

Ji Feng was slightly stunned, not expecting that Ji Lihai didn't intend to go in, but wanted him to go to the car!

“Of course no problem!”

Ji Feng nodded and smiled, only, he felt a kind of indifference from that polite smile of Ji Lihai, which seemed to have some vague rejection, as if it was telling Ji Feng that he seemed unwelcome in Ji Lihai's heart!

Campus Master Chapter 2796 -

“Of course it's no problem!”

Ji Feng nodded and smiled, only, he felt a kind of indifference and seemed to have some vague rejection from that polite smile of Ji Lihai, which seemed to tell Ji Feng that he seemed unwelcome in Ji Lihai's heart!

However, as soon as Ji Feng raised his foot, Ji YuYi suddenly took two steps forward to block in front of him, looked at Ji Lihai who was sitting in the car and said, “Ji Feng is my friend, what are you talking to him about that I can't listen to?!”

Ji Lihai's face sank as he said, “YuYi, don't be capricious and nonsensical! There are some words that are between men, you go in first!”

Ji Yuhui smiled coldly at her words and said, “What matters between men, if you have something to say, say it in front of me, otherwise, we don't have time for company! My friend is also very busy”

“You go in first!”

Without waiting for Ji YuHui to finish, Ji LiHai interrupted her and said in a deep voice, “YuHui, don't be so ignorant!”

Ji YuHui sneered, “I don't know what to do? Did you think I didn't know what you were going to say to Ji Feng? Although you are the gang leader, they are my friends, please don't forget that!”

Ji Lihai's eyebrows then furrowed, Ji Yuhui was a little angry with him for contradicting him like that.

“YuYi, you go in first.”

Ji Feng spoke up, he nodded and smiled at Ji Yuhui and said, “I'll talk to your father, it's fine.”

Ji YuYi frowned, yet she was more or less uneasy in her heart.

She might not know everything about what kind of person her father was, but at least, she knew some of Ji Lihai's habits very well.

If Ji Lihai simply wanted to see Ji Feng, he would not have played so many tricks, and he would not have even got out of the car to talk to Ji Feng here.

—The most important thing is that if you want to see Ji Feng, you should get out of the car and talk to Ji Feng.

So it was clear that Ji Lihai was definitely not here to welcome Ji Feng.

Since Ji YuYi could see this, then she would naturally not let Ji Lihai talk to Ji Feng alone!

“Ji Feng, you”

“Don't worry, it's fine, are you still afraid of what your father will do to me?!” Ji Feng smiled and waved his hand, interrupting her words.

“Then well, if there's anything you can call me anytime!” Ji YuYi said.

Ji Feng smiled and said, “No problem!”

Only then did Ji YuYi nod slowly, then looked at Ji Lihai again and said, “Gang master, they are my friends, I don't want any damage to my friends, otherwise, I won't just let it go!”

After saying that, Ji Yuethai turned around and walked away.

When Ji Lihai saw this scene, he could not help but narrow his eyes slightly, and looked deeply at Ji Feng again, a very obscure look flashed through his eyes.

“Lei Zi, Bai Zhu, you guys go over there too!” Ji Feng turned his head and said to Zhang Lei and Bai Zhu.

“No problem?!” Zhang Lei asked in a low voice, his gaze glancing over the Bentley that Ji Lihai was riding in, he couldn't see the car clearly, he could only see Ji Lihai's head revealed by the window lowered, which made him a little less than at ease.

Ji Feng waved his hand and said, “No problem, you all go over!”

Zhang Lei gave Ji Feng a look before nodding and taking Bai Zhu and Liu Zejun and the others into Ji YuYi's villa, leaving Ji Feng alone outside, along with Ji Lihai sitting in the car!

Ji Feng slowly turned around and said, “Mr. Ji, I wonder what you want to talk to me about?”

Ji Lihai, however, said indifferently, “Get in the car first.”

Ji Feng stood there without moving, only looking at Ji Lihai with a smile on his face.

Ji Lihai asked, “What, are you afraid of what I'll do to you?”

There was some anger in his tone, but more than that it was as if there was a kind of laughter, but it was ridicule?

Ji Feng could not help but feel that Ji Lihai's tone was not quite right and smelled wrong, but he just shook his head and smiled, saying, “I am not afraid of this, but I am afraid that if the two of us get too close, your bodyguard will not think that I have any intentions, and it will not be good if any misunderstanding arises then.”

Ji Lihai's eyes suddenly stared and gave Ji Feng a deep look, only to find that Ji Feng still had a smile on his face, as if that was just a joking remark. However, Ji Lihai knew better than anyone that Ji Feng's words just now were soft with a sting in them!

What do you mean by getting too close to him and fearing that he might have some intention

The actual fact is that you can find a lot of people who are not able to get a lot of money from the internet.

It's really a newborn calf that isn't afraid of a tiger!

Ji Lihai coldly snorted in his heart and said, "My bodyguard won't be this bold or this blind, come up!"

Ji Feng smiled and nodded, walked around the car from the front and pulled open the door to sit in the back seat of the Bentley, sitting right next to Ji Lihai.

In fact, he knew in his heart that Ji Lihai's words were a double entendre, on the one hand, he was reminding his bodyguard, but on the other hand, he was also telling himself that if he really wanted to do anything, it would be too insensitive!

For the subtext in Ji Lihai's words Ji Feng did not care, sitting next to Ji Lihai, he said with a smile, "Mr. Ji is so busy with his work, I think he came all the way here, he should have something important to say to me, right?!"

"It is very important!"

Ji Lihai nodded and said, "At least, it's important to me, the Bamboo Federation!"

Ji Feng immediately nodded his head and said, "Then I'm all ears!"

Ji Lihai said, "Well! Mr. Ji Xiao"

"You'd better just call me Ji Feng!" Ji Feng smiled and interrupted Ji Lihai's words, Mr. Ji Xiao? How did this title sound a bit awkward, at least Ji Feng had never been called that before.

"Heh!"

The corner of Ji Lihai's mouth twitched as he glanced at Ji Feng, but his heart was slightly displeased. With his status, calling Ji Feng "Little Sir" was already giving Ji Feng face, but he didn't expect that Ji Feng wouldn't even want the face he gave out?

The bodyguard in the car also looked at Ji Feng, who is this guy? He seemed to be a bit insensitive!

"Ji Feng!"

Ji Lihai called Ji Feng's name, but his expression was a bit playful, "Are you here in Treasure Island this time for public or private purposes?"

"Both, strictly speaking it should be both public and private!" Ji Feng said with a smile, his expression unchanged, only feeling that the way Ji Lihai spoke and the tone of his voice were a bit awkward, making him more or less uncomfortable.

"Both? In that case, you have half an official identity when you come to Treasure Island this time?!" Ji Lihai asked.

"That's not true, I'm just me, there's no official or private identity." Ji Feng smiled, "Coming to Treasure Island is also a mix of public and private by the way, in fact it's all private if you count it strictly."

"However, your identity determines that your affairs cannot be absolutely private, am I right?" Kirito Sea.

"....."

Ji Feng smiled and didn't say anything.

Ji Lihai's body was leaning against the backrest, and he was holding a walking stick or to be precise, a civilization stick, only to see both his hands propped up on the oval handle of the civilization stick, his fingers gently tapping the back of his other hand.

This is a kind of condescending feeling!

Ji Feng shook his head slightly in his heart, it looked like Ji Lihai was not taking his status seriously at all, this was probably because Ji Lihai was used to being the leading boss of the Chuk Yuen gang, and was also extremely powerful in Treasure Island, and had a sense of superiority over people from the mainland.

In this regard, Ji Feng only shook his head secretly, but did not say anything.

However, if he didn't say anything, in Ji Lihai's opinion, Ji Feng was left speechless by the question, so he sat up slightly straighter and tapped his fingers on the civilization stick twice before saying, "Ji Feng, since you are a friend of Yu Yiyi, I have some things I will say."

Ji Feng immediately nodded his head and said, "Of course, please say what you have to say!"

Ji Lihai said, "Well! This child, YuYi, has been rebellious since she was young, and sometimes she doesn't listen to me, but any parent always wants the best for their child, this, you can understand, right?"

"I can understand, pity the parents' hearts!" Ji Feng nodded his head and smiled.

"Totally right!"

Ji Lihai said, "Therefore, as a father, I hope that Yu Yiyi can live a carefree life in the future without any trouble, and I don't want her to be involved in some right and wrong, especially in some complicated situations! Do you, understand what I mean?"

How could Ji Feng not understand?

Ji Lihai was telling Ji Feng very plainly that he did not want Ji YuYi to be involved in some right and wrong between the Mainland and Treasure Island.

Nodding with a slight smile, the corner of Ji Feng's mouth pulled up a slight curve as he glanced at Ji Lihai and said, "Mr. Ji, I understand what you mean."

"Then, you know what to do?!" Ji Lihai asked.

"..... know!" Ji Feng nodded his head, the smile on his face still not diminished in the slightest.

“That’s good!”

Ji Lihai nodded and said, “Also, I heard that the place you are living in now is an old house?!”

Ji Feng then smiled, “Don’t worry, I know what to do!”

“Well!”

Ji Lihai nodded, he was still very satisfied with this kind of knowledge of Ji Feng, but he was only satisfied, after saying this, he didn’t say anything else.

When Ji Feng saw this, he naturally knew what he should do.

He smiled and said, “Mr. Ji, if you don’t have anything else, then I’ll take my leave first.”

“Well!”

Ji Lihai, however, didn’t even nod his head, just glanced at him with his eyes and gave a umph out of his nose, as a response to him.

The smile on Ji Feng’s face remained unchanged in the slightest, he pushed open the car door, got out of the car, and closed the door for Ji Li Hai again But anything that should be done in terms of etiquette, Ji Feng did it flawlessly!

“By the way!”

However, just at this time, the car window glass was lowered again, Ji Lihai looked at Ji Feng and said, “To give you a warning, your people over there, you can’t eat over here, moreover, don’t think how your identity is, or else, you are going to suffer a big loss!”

Campus Master Chapter 2797 -

“That’s right!”

However, just at that moment, the window glass was lowered again, and Ji Lihai glanced at Ji Feng and said, “Let me give you a warning, you people over there, you can’t eat over here, and even more so, don’t think how your identity is, or else you are going to suffer a big loss!”

Ji Feng smiled, and his eyes suddenly narrowed slightly.

Obviously, Ji Lihai was not reminding him in a kind way, but rather there was a kind of warning in it, and even, most likely, a kind of mockery.

Only apparently Ji Lihai, because of his age or status, would not say it as bluntly as the common citizen In fact, it was blunt enough!

Ji Feng looked at Ji Lihai and smiled faintly, not saying anything.

The reason why he was so polite to Ji Lihai before was not because Ji Lihai was the head of the Bamboo United Gang, frankly speaking, Ji Lihai’s status was not really put in Ji Feng’s eyes. Even if the Bamboo United Gang was incredibly powerful on Treasure Island, that wouldn’t put much pressure on Ji Feng.

The situation on Treasure Island is too rotten, otherwise, which person in power would allow such a force to exist?

So, in fact, the Juk Luen Gang is no different from the White Hand Party in Rice and the black gangs in Saudi Arabia and Russia. And, strictly speaking, the Juk Luen Gang is nowhere near as big as the White Hand, which is an internationally renowned mega gang.

Even the Chinese gangs that are not particularly well developed in foreign countries, the Green Gang, are better than the Chuk Yuen Gang!

Ji Feng wasn’t even afraid of the White Hand Party, so how could he be afraid of the Chuk Yuen Gang?

He was polite to Ji Lihai only because the other party was Ji Yuhui’s father, he was friends with Ji Yuhui and had to give at least the minimum respect to Ji Yuhui’s father.

But

The first thing you need to do is to be able to take the right side of the face and give it to the other side with a smile.

Therefore, Ji Feng also just smiled, and did not say anything else.

“Young man, remember these words of mine!” Ji Lihai glanced at Ji Feng and said, “Remember your own promise as well!”

“Heh!”

The corners of Ji Feng’s mouth twitched slightly and he laughed.

This condescending attitude of Ji Lihai, repeatedly looking down on him, made Ji Feng feel more or less disgusted in his heart, in fact, Ji Lihai didn’t look very old, at most around fifty, and perhaps because of good maintenance, his long-term pampering made him not look old, he looked in his forties.

However, in front of Ji Feng he seemed to be acting like an elder if he really thought of himself as an elder, but what he was doing was clearly not treating Ji Feng as a junior!

This is also because Ji Lihai is Ji YuYi’s father, if another person spoke to him like this, he would not even shrug it off and turn around and leave!

However, when Ji Feng’s attitude was seen in Ji Lihai’s eyes, the latter could not help but sink slightly and his eyes became more hostile. As the leader of the Chuk Yuen Gang, he had always been a man of his word, and no one had ever dared to deal with him with this kind of attitude or perfunctorily, this was simply a kind of contempt!

Ji Lihai gave him a deep look before he raised the car window.

The engine started, the car turned around in front and drove away quickly.

As he watched the Bentley steadily drive away, far away, the smile on Ji Feng's face remained the same, but he just couldn't help but shake his head slightly.

"Ji Feng!"

Not long after, Ji YuYi walked out of the villa with quick steps, took a few steps to Ji Feng and asked, "What did he talk to you about just now?!"

Her eyes were carefully glancing at Ji Feng's face, as if she wanted to get an answer from Ji Feng's face.

Ji Feng smiled, "It's nothing, your father just talked to me about you."

"Me?!"

Ji YuYi froze and asked, "Talked about me what?!"

Ji Feng laughed, "He said that you were very well behaved as a child, just that your personality has been a bit rebellious since you grew up, but that he loves and cares for you as always, and"

"Nonsense!"

Ji Feng was interrupted by Ji YuYi before she could finish her sentence, and she immediately snorted, "Since when did he say such things? The sun has really come out of the west! For as long as I can remember, he has only been a very vague shadow in my mind, and the fatherly love that children from other families can enjoy is just a joke in my case!"

What kind of a man her own father was, Ji Yuhui knew best.

To say that Ji Lihai had no feelings for her at all might be a bit much, and Ji would not think so, but to say that Ji Lihai would treat his own children like any other father under the sun, then Ji would really have to stifle a sneer.

"In his heart, what he cares most about is his career and future, as for the rest, to him that can all be sacrificed!" Ji Yuhui sneered.

"It's true!"

Ji Feng said, "I can tell that he should be very concerned about you."

However, Ji Yuhui was not so easily fooled, she looked at Ji Feng and asked, "Even if it's true, then why is he telling you this for no reason?! He came all the way over just to tell you this?!"

"Not really!"

Ji Feng shook his head and laughed, "Actually, he's only saying this to remind me not to get you involved in some trouble, that's one thing. And secondly, it's because he came to take a look at me."

"To see you?!" Ji Yueting said, "To see what you're up to!"

"To see if I'm a bad person!" Ji Feng laughed, "It seems that he is still very concerned about the friends you are dating, which means that he is still very hung up on you in his heart!"

"..... Is that really all he told you?!" Ji Yuhui was a little suspicious.

"What else do you think?!" Ji Feng laughed: "What do you think there is that he had to say to me alone?"

"Humph!"

Ji Yuhui, however, snorted coldly and said, "Maybe he did just tell you that, but I'm sure you definitely misunderstood what he meant!"

Ji Feng was stunned, "How so?!"

Ji YuYi said, "What you said, he reminded you not to get me involved in some trouble, in fact, what he really wanted to say, I'm afraid, was for you not to get the Chuk Yuen gang involved in your troubles, this person, I see through!"

Ji Feng: "....."

He couldn't help but glance at Ji YuYi in amazement, he really didn't expect that Ji YuYi's vision was so sharp, she really did see through Ji Lihai in one glance!

Indeed, Ji Lihai had said so much to Ji Feng before, again not allowing him to live in that old house and not allowing him to have contact with Ji Yujie In fact, it might be false to say that in this Ji Lihai did not have the slightest concern for Ji Yujie, but Ji Feng was absolutely sure that 99% of the reason Ji Lihai did this was because Ji Lihai felt that his arrival would bring unnecessary trouble to the Chuk Yuen Gang!

This was especially evident in the fact that Ji Lihai asked himself whether his visit to Treasure Island was a business or a personal matter, and with just this one statement, Ji Lihai's true purpose was exposed in the open!

"Ji Feng, no matter what he said to you, you should ignore it, as far as personal matters are concerned, you are my friend, as far as business matters are concerned, you are my guest, no one else from the Chuk Yuen Gang can control you!"

Ji YuHye really knew too well what kind of person her father was, and although she didn't know what Ji LiHai had talked to Ji Feng about, and whether it was really just a few words like Ji Feng had said, there was no doubt that Ji LiHai had definitely come all the way over this time not just for her.

Ji YuHai was afraid that Ji Lihai might have also said something to Ji Feng, only that Ji Feng was not in a good position to tell himself, so that was why she spoke out to block out some of the things that Ji Feng might say next.

"Ji Feng, since you've come to Treasure Island, then your business is my business!" Ji YuYi said, "I don't dare to give you a guarantee for anything else, but if the most basic support can't be provided, then I really won't have the face to see you as a friend!"

"It's not that serious!" Ji Feng waved his hand with a smile and said, "You're thinking too much YuYi, I find that your relationship with your father is really bad, and this speculation of yours already carries some hostility!"

"If he did the right thing himself, why would I be like this?!" Ji YuYi said, "Let's not talk about him, just pretend he hasn't come today, never seen him before, go, go in and have a seat!"

Ji Feng then smiled and nodded his head, and didn't say anything else.

However, no one noticed that shortly after Ji Feng and Ji YuYi entered the villa, the black Bentley car that had already driven away, drove back again and stopped at a corner not very far from the villa.

Inside the car, Ji Lihai furrowed his brow tightly, his expression gloomy for a few moments, and he could not help but let out a cold hum from his nostrils.

Looking at the closed villa door, Ji Lihai's eyes were gloomy and hostile.

"Master, Missy and the others have already gone inside, I'll go and invite her?!" A bodyguard sitting on the passenger seat asked.

"No need!"

Ji Lihai waved his hand and said, "Send someone to watch those few people, pay attention, don't let them notice, watch their every move!"

"Yes!" The bodyguard nodded and answered.

"Also, you go and do one more thing, remember not to let anyone know that the news was leaked by you!" Ji Lihai explained in a low voice a few words.

"..... understand!" The bodyguard nodded his head.

After Ji Lihai finished his explanation, he then coldly snorted, "tz? Hmph! In Treasure Island, there has never been such a thing! Your tz status will only bring trouble to the Chuk Yuen Gang! Keeping you around is even more trouble!"

.....

Meanwhile, Ji Feng, who was chatting with Ji YuYi, was casually finding an excuse to go out for a cigarette, while giving Zhang Lei an imperceptible wink, and the two of them came outside.

"What's wrong?!" Zhang Lei asked in a low voice.

"Things have changed, prepare to use option number two." Ji Feng said in a low voice.

Zhang Lei immediately had a cold light in his eyes and said in a deep voice, "Is it Ji Lihai who told you something?!"

Campus Master Chapter 2798 -

"Things have changed, prepare to use option number two." Ji Feng said in a low voice.

Zhang Lei immediately had a cold light in his eyes and said in a deep voice, "Is it Ji Lihai who told you something?!"

In fact, before coming here, they had no concrete plan, because they didn't understand the situation on this side of Treasure Island in the slightest, and they simply didn't know where to start before they understood the situation, so they planned to take one step and see what happened.

However, although they did not have a concrete plan, they had generally decided on a few options, in order to be psychologically prepared in case there were any unexpected incidents, which was also specifically instructed and requested by Xiang Jiefang. If there was no plan at all, Xiang Jiefang would not have been comfortable with them coming over.

Therefore, after a brief discussion, Ji Feng and his team had prepared several plans, which took into account various aspects and possibilities such as housing and transportation as well as operations, although they did not include contents for specific operations, but they had considered some possibilities outside of operations.

Now that they were staying in the old house provided by Ji YuYing, they had already planned to follow this plan, but now Ji Feng suddenly told him that he was going to change the plan, so some of the details of this would have to be modified, for example, how to meet with the people there, how to hand over weapons, all these might have to be changed in terms of location and method... ..

Obviously, this was what Ji Lihai had said to Ji Feng.

"Ji Lihai doesn't welcome us?!" Zhang Lei asked in a deep voice as he probably understood the reason after a brief thought.

"Mm."

Ji Feng nodded, in fact, Ji Lihai was not only unwelcome, he simply rejected their arrival and looked down on them, but these things Ji Feng did not say to Zhang Lei, because he knew that although this guy was a lot more calm and steady than before, he was actually still a fiery temper.

Even so, Zhang Lei shook once he heard this he couldn't help but frown and said, "So, Ji Lihai is trying to drive us out of that old house?!"

Ji Feng nodded and said, "You could say that!"

"Grrrr!"

Zhang Lei immediately let out a cold laugh and said, "What the hell! Does he really think that we just want to live in his old house?! If you weren't bad at pushing back, we would have stayed in the hotel by now and eaten absolutely comfortably, and why would we have to run to the restaurant to eat but still be robbed of our seats?!"

Ji Feng waved his hand with a smile and said, "Let's not talk about that, it's an indisputable fact that we are now living in someone else's house."

"Then just move out!"

Zhang Lei said, "We've only just put our luggage down, it's easy to move out!"

Ji Feng shook his head, "You can't be so direct, don't cause embarrassment to Ji YuYi because of us. If this matter causes another conflict between Ji Yuqing and her father, it would be even worse."

"That's true!" Zhang Lei nodded and said, "No matter what, Ji Yuqing is not a bad person, and she's quite decent at what she does."

"In this way, you can arrange for someone to give me a call later", Ji Feng pondered for a moment and made a decision and arrangement.

Ji Feng returned to the living room and found that Ji Yuhui was chatting nicely with Bai Zhu, Ji Feng could not help but smile slightly, although Bai Zhu usually did not talk much when she was with him, she was actually a very shrewd person, and could totally chat with Ji Yuhui, you know, Bai Zhu used to be the head of Dynasty's Xixia branch!

Soon afterwards Zhang Lei also came back, and he smiled, "Missy, the environment around your villa is really nice!"

Ji Yuqing said, "You went to look around?"

"Looked." Zhang Lei nodded and smiled, "It's very nice, especially because the surrounding area is very quiet, there's no sense of that noisy and noisy clutter at all, it must be very comfortable to live here."

"If Mr Zhang likes it so much, you can totally buy a set near here ah, and come and stay over here if you have time, just as a relaxing holiday." Ji Yuqing pursed her lips and smiled.

"Sweat! Forget about holiday, I'm a person who likes to have a good time, if I were to live here a lot, I'd still be a bit uncomfortable instead"

"Ding"

The two were chatting when Ji Feng's mobile phone suddenly rang, he said sorry, then got up and answered the phone, "This is Ji Feng"

A moment later, he changed his expression, "What?"

His voice was not small, Ji YuYi and the others in the living room heard it, Bai Zhu even stood up with a worried miso, but just in time to see Ji Feng glancing over, she was slightly stunned and seemed to understand something, the worried look on her face slowed down a lot.

Very quickly, I only heard Ji Feng say, "I know" and hung up the phone.

When he walked into the living room, Ji Feng's eyebrows were still slightly furrowed as he looked at Ji YuYi and said, "YuYi, I'm sorry, things have changed a bit on my end, I may have to leave next."

Ji YuYi was stunned, "Leave?!"

Ji Feng nodded and said, "That's right, it's not convenient to say exactly what it is, but we do have to leave now."

"It's alright, I'll send a car to drive you", Ji YuYi said immediately.

"No, you don't understand what I mean." Ji Feng waved his hand and said, "What I said, was to leave completely, to move out of that old house you provided, and to still not have too close a relationship for the time being"

"Ji Feng, what do you mean by that?!" Ji Yuhui's face changed.

"Don't misunderstand, this is the meaning from above." Ji Feng pointed in a certain direction, "I came to Treasure Island, half of it is actually for business, so"

Only then did Ji Yuhui's face clear up a little, since it wasn't that Ji Feng didn't want to deal with her, but that there were orders from above, then she naturally wouldn't blame Ji Feng anymore.

"Is it about the Bao family? Or is it because I'm from the Chuk Yuen Gang?!" Ji Yuhui, however, could not help but ask.

"Neither, but because of a new mission." Ji Feng said, "Anyway, I'm only moving out of that house of yours, it's not like I'm leaving Bao Island within the last few days I'm definitely not going to leave, we can still be in touch at any time then!"

"That's fine."

Ji YuYing nodded and said, "Since it's a mission, then I won't keep you anymore, but you have to promise me that if you run into any trouble, you must find me at the first opportunity, otherwise, we won't be friends anymore!"

Ji Feng nodded and smiled, "Don't worry, when the time comes, even if you're not willing to help!"

Ji YuYi then laughed, "That's more like it!"

Ji Feng then laughed, but in his heart he couldn't help but secretly shake his head. In fact, he didn't want to use this method to deceive Ji YuYi, but with those words from Ji Lihai, he could only do so.

In fact, if Ji Lihai had not objected, Ji Feng could have accepted Ji Yuoyi's help openly. But now, he had to consider Ji Lihai's attitude.

No matter how unfriendly Ji Lihai was to them, Ji Feng could only leave, even if he was annoyed and angry in his heart, after all, his coming to Treasure Island did bring some trouble to the Chuk Yuen Gang At the very least, that house was Ji Lihai's.

So although Ji Feng secretly shook his head at Ji Lihai's attitude, he didn't say anything.

Having decided to leave, Ji Feng acted immediately.

He first had Ji YuYi sent to that old house, packed his luggage, and prepared to leave.

"Ji Feng, aren't you taking the weapons with you too?" When Ji YuYi saw that Ji Feng did not mean to bring weapons, she could not help but ask.

“There are already arrangements for everything over there.” Ji Feng smiled, “And now it is arranged for us to stay in a hotel, so of course it is impossible to bring weapons.”

Ji Yuhui frowned and said, “But if you guys don’t bring weapons, how can your safety be guaranteed?!”

She was aware that Ji Feng had offended the Bao family, and also, there were some international mercenaries who also seemed to be hostile to the people over there, which if they were to know that Ji Feng was coming, God knows what they would do?!

Ji Feng laughed: “Safe?! If there are really bad guys coming, we might not know who will be the unlucky ones when the time comes!”

Ji YuYi was stunned, then she smiled, that was true, how scary Ji Feng’s strength was, Ji YuYi had experienced it first hand, on the spot in New York, so ferocious black’s gangs couldn’t even take him, instead they were scared by him, if there wasn’t enough strength, who could do it?

At the entrance of the old house, Ji Feng extended his hand to Ji YuYi and said, “YuYi, thank you.”

Ji YuYi gathered her hair, revealing those crystal ears, “I didn’t help with anything, so you don’t have to be polite.”

Ji Feng smiled and nodded, but in his heart he understood that Ji YuYi had actually helped a lot, at least her attitude said it all, if it wasn’t for Ji Lihai, I’m afraid their first day in Treasure Island would have been a bit troublesome.

Although, it might be even more troublesome now, but that was not the intention of Ji Yueting, she had already helped a lot.

“That’s it, be in touch often.” Ji Feng waved his hand at her, and didn’t say thank you again, just keep some things in mind.

“Do you really not need me to send it?” Ji Yuhui asked.

“No, it’s not good if the top knows about it instead.” Ji Feng smiled and said.

Ji YuYi nodded understandingly and said, “Well then, in that case I won’t see you off, be safe and take care.”

Ji Feng smiled and nodded, then Yang Bin hailed two taxis in succession and Ji Feng and the others got in with their luggage and left quickly.

Watching the taxis disappear into the rolling traffic, Ji YuYi pursed her lips and smiled before she left.

“Master, just find a star hotel on a busy road and drop us off.” Getting into the car, Ji Feng admonished.

“No problem.”

The taxi driver skillfully sent them to a big hotel on a very busy street, entered this star hotel called Yuntian Hotel, opened two presidential suites and settled down, Ji Feng’s sat on the sofa and looked at the rolling traffic outside through the huge floor-to-ceiling window, his brow frowned slightly.

He knew that things were in trouble, and maybe, tonight would be a difficult night!

Campus Master Chapter 2799 -

Ji Feng hoped that his worries were superfluous, after all, it had only been a day since they arrived on Treasure Island, technically less than a day, just a day, and even if someone wanted to make a move on them, I’m afraid they wouldn’t have acted rashly if they didn’t know the news in advance to set up.

However, this was only Ji Feng’s hope.

The biggest fear was that someone had really known the news in advance and had already made certain arrangements for their arrival.

If people from the mainland entered the island, it would not be that easy to conceal it from the authorities, especially with the status of Ji Feng and the others, it would be almost impossible to conceal it!

So Ji Feng was almost certain that when he was applying to enter Treasure Island, I’m afraid that the news had already gotten out!

And now the problem was just that it was impossible to determine when the other side would act and who would be responsible for doing it but that was all!

“Lei Zi.”

Ji Feng waved his hand and called Zhang Lei over.

Zhang Lei, who was sitting on the sofa watching TV, immediately walked over with a few steps and asked, “What’s wrong?”

Ji Feng said in a deep voice, “Nothing exactly, just that there might be trouble tonight, so you should be more careful with them.”

Zhang Lei frowned and asked, “What, have you received the news?!”

Ji Feng shook his head and said, “The news is not really there, just a feeling.”

Zhang Lei nodded silently and said, “There is some trouble. We don’t have to be afraid of one thing, we do have to be careful now that we have bare hands.”

Although Zhang Lei didn’t know much about the situation on the island, he had heard that it was much more chaotic than the mainland, especially when it came to weapons, even in the mainland, no matter how arrogant and chaotic it was, guns were definitely a taboo.

But on Treasure Island, it was not difficult to obtain weapons, which was evident from the fact that Ji Yu-yi had pulled in so many weapons directly for them in his car.

That was the most problematic part!

Because they had come by plane, not to mention the guns, there was no way to bring over even a single piece of metal wire, so if someone really attacked, it would be really troublesome.

“When will the weapons arrive?” Zhang Lei couldn’t help but ask.

“At least tomorrow!” Ji Feng said, it wasn’t easy to get the weapons over, although there were special channels from above, but to get them to them, it would take time.

Zhang Lei frowned and asked, “Can’t we speed it up?!”

Ji Feng shook his head and said, “Speeding up would be fine, but if we expose some people as a result, it would be more than worth it.”

“Then it’s a bit of a problem!” Zhang Lei couldn’t help but rub his head.

Without weapons, they would have to rely on a pair of fists to fight people, and if they messed up, they might actually have to fight for their lives!

Ji Feng said, “So get ready now, just in case!”

That was all that could be done now.

Zhang Lei nodded and didn’t say anything, none of them had any resentment towards Ji Lihai, it was a matter of love if they were willing to lend them a house to live in, it was also a matter of nature if they weren’t, they had never wanted to take advantage of the Chuk Yuen gang in any way.

However, now that they had been temporarily evicted and had found a hotel at random, without even exploring the surrounding terrain and environment, it was a bit tricky.

It was precisely for this reason that Ji Feng had instructed the taxi driver to find a hotel located on a busy road, with the aim of making those people with bad intentions not dare to make a big show of it.

But that was all they could do now!

When Liu Zejun and Yao Zhijian and the others found out about it, their expressions couldn’t help but be alert.

“I’ll go around the hotel!”

Liu Zejun said with a taut face.

Yao Zhijian, however, rubbed his hands together and couldn’t help but say, “What am I going to do then? It seems that we can only prepare for close combat.”

What he was best at playing with was a gun, but there were obviously no guns for him to play with now, so he would have to prepare to work with his fists, just like the others.

Yang Bin thought about it and said, “I’ll go out and take a look too.”

Ji Feng didn’t ask what they were going to do, he just said to Bai Zhu and Zhang Lei, “Take turns on night duty tonight, be careful.”

Zhang Lei nodded and said, “It’s to be on night duty, I’ll do it, a night without sleep is nothing to me.”

Bai Zhu did not say anything, for her night duty was not the most important thing, Ji Feng’s safety was the most important thing, Bai Zhu first had to ensure Ji Feng’s safety before she could talk about anything else.

Ji Feng walked to the huge floor-to-ceiling window, stuck his pockets in, his eyes slightly narrowed, even without intelligence he could predict that the next few days would definitely not be calm, even if there were no surprises tonight, then there would definitely be unexpected things happening next.

Only, it was tonight that would be the hardest to get through!

Even if they are unarmed, it doesn’t mean they are just fat sheep to be slaughtered, tonight, we will see who comes to die!

.....

Night falls.

The night in Baodao is obviously much better than that in Jiangzhou, because when you stand in front of the floor-to-ceiling windows and look out, you can clearly see the stars in the sky, which you don’t see almost once a year in Jiangzhou.

However, Bai Zhu and the others were not in a happy mood because of the starry sky, because nightfall meant that the crisis was further away from them.

In fact, Bai Zhu’s fears were not in the slightest.

Inside a manor on Treasure Island, Bao Weisheng was looking at the housekeeper with glowing eyes and an uplifted expression, asking, “Is what you said true? Ji Feng has really come to Treasure Island?!”

“It’s true, young master, this news is absolutely reliable, news has come from above, someone on the road has also let the wind out, and after my investigation, I am sure that Ji Feng is on the island!” Bao Weisheng’s butler was a middle-aged man around fifty years old, dressed very formally, and the man looked very shrewd.

He knew Bao Weisheng’s mind very well, the last time he returned from the sea, Bao Weisheng, with all his wounds, was furious and subsequently wanted him to commission international mercenaries, as well as assassin organisations, to deal with Ji Feng and Xiang Yongzhan on the mainland.

Although Bao Weisheng did not say exactly what had happened to him, the news was not concealed at the time, and one of Bao Weisheng’s bodyguards spoke out about the situation, which also made Bao Weisheng lose face.

Although the bodyguard was later disposed of, the news could not be concealed and the housekeeper naturally knew all about it.

Therefore, Bao Weisheng simply stopped hiding it from the butler, and instead instructed him to keep an eye on the progress of the matter, even to the extent of hiring which assassin, Bao Weisheng had

directly handed over to the butler to do so. For the grudge between Bao Weisheng and Ji Feng, the butler naturally knew all about it.

Now, once he heard that Ji Feng had arrived, the butler immediately got on top of it. After repeatedly confirming, he was finally sure that Ji Feng had arrived on the island and had also figured out where he had landed.

Bao Weisheng's face was extraordinarily gloomy as he said in a cold voice, "Send someone immediately, to welcome this old friend of mine!"

He said the word old friend very heavily, and his eyes were even filled with a gloomy look, he really hated Ji Feng!

The butler nodded and said, "Young master, please don't worry, I will make sure that things are done properly. In fact, even if we don't make a move, Ji Feng will definitely have a bad time."

"Why?!" Bao Weisheng asked.

"Because the news coming from the Dao is even more accurate than the official news!" The butler said.

"Oh?!"

Bao Weisheng instantly looked moved, "There are still people who don't want Ji Feng to be well?!"

The butler nodded, "I think so!"

The official of Treasure Island was definitely better informed than the black`dao, especially in this immigration aspect, naturally, it was even better informed, there was anyone who came and who left, the official was definitely the first to know the news.

However, the news from the Taoist side of Treasure Island is even more ready than the official side, which obviously means that there are still people in the Taoist side who are paying attention to Ji Feng and others, and they are also paying close attention!

Why were the people in the Dao so concerned about Ji Feng?

They naturally wouldn't be obsessed with Ji Feng's charm, let alone having nothing better to do with their food... Obviously, it was someone from the Dao who wanted to move Ji Feng!

"Who sent the news?!" Bao Weisheng immediately asked.

"Don't know yet." The butler shook his head and said, "But the news is accurate, now I have found out the hotel where Ji Feng and the others are staying, and they still just checked in this afternoon, I have already inquired, so far none of them have left the hotel!"

Bao Weisheng's spirit shook when he heard that, "Good! Since they haven't left the hotel, they should never leave, unless they are carried out!"

The butler instantly understood what Bao Weisheng meant and said, "Then I'll send someone over there!"

"Wait a minute!"

Bao Weisheng, however, called out to the butler, and with a sullen face, he said, "Don't come out and find someone to go over, and don't get our men to bring weapons, I'll go over with you!"

The butler hurriedly said, "Young master, you are also going? This"

Bao Weisheng said coldly, "I want to see Ji Feng being carried out with my own eyes!"

"But once the action is taken, it will definitely be chaotic then, and it might be possible," the butler's words were interrupted by Bao Weisheng before he could finish.

"There is nothing to say maybe, I will not enter the hotel, just watch from a distance." Bao Weisheng said, "I want to see with my own eyes that the operation is foolproof, and I want to see with my own eyes that Ji Feng is done for!"

"Young master"

"No need to say more, go and get ready, be quick!" Bao Weisheng gritted his teeth and said, "We must do it tonight!"

"Yes!" The butler nodded and quickly went to prepare.

Inside the living room, only Bao Weisheng was left alone, he picked up a small teapot and took a sip with the teapot's mouth, his eyes were cold as if he could kill people, he coldly muttered to himself, "Ji Feng, I didn't expect you to have the guts to take the initiative to send yourself to the door, this is you asking for death!"

Campus Master Chapter 2800 -

Inside the hotel, Ji Feng was sitting on the living room sofa in the presidential suite, his right hand resting on the armrest of the sofa, playing with a lighter.

The tiny lighter was spinning rapidly in Ji Feng's hand, and only a blurred shadow could be seen, while if one looked carefully one would find that Ji Feng's wrist was hardly moving at all, only his fingers were constantly interlocking and fiddling with the lighter.

At this moment, Ji Feng's gaze seemed to be focused on the television, but in fact, if you look closely, you can see that his gaze was actually unfocused.

At this moment, there was only one thing on his mind, how to find the Alpha Ore!

If he wanted to find the ore, he would have to start with Bao Weisheng, but then he would have to alert Bao Weisheng, and given the feud between them, it would be strange if Bao Weisheng would tell him.

Moreover, not only would Bao Weisheng not tell him, but he would also take revenge, and Ji Feng even suspected that Bao Weisheng had already gotten the information and might have even taken action.

Since the path of getting information from Bao Weisheng was not feasible for the time being, he could only start from the other side – to find the fisherman who had sold the ore to Bao Weisheng and investigate the source of the ore from him!

But this was not an easy task either!

It would be like looking for a needle in a haystack to find out which fisherman Bao Weisheng had met on the day he went to sea!

However, compared to asking Bao Weisheng, this second method was slightly better anyhow.

The lighter in Ji Feng's hand was turning faster and faster, but he couldn't help but sigh in his heart, this matter wanted to be done, it was really a bit difficult.

But

The more difficult it is, the more it can stir up the fighting spirit in his heart.

The more difficult it is, the more it will stimulate his heart.

Then it must be done!

The fact that the Alpha Ore is so important that no words can describe it is too much.

"It will definitely be found!" Ji Feng's eyes narrowed slightly!

"Crazy man, what are you thinking about?!"

At this time, Zhang Lei walked over and sat down next to Ji Feng, "Seeing you frowning slightly, what's wrong?!"

Ji Feng slowly shook his head and said, "Nothing, just thinking about what to do next."

"Don't think about what's next for now, or think about what to do tonight." Zhang Lei said, "Also, there's the issue of accommodation for later!"

Ji Feng nodded silently, how to get over tonight, this was the most urgent task. Ji Feng did not believe that the intelligence department of Bao Island and the Bao family would be so ill-informed, they must have gotten the news by now, it was just a matter of whether they would take action.

But Ji Feng was almost certain that Bao Weisheng had been beaten so badly on the boat, he absolutely couldn't swallow this anger, so he would in all probability

So he would do something.

No one knows what kind of viciousness Bao Weisheng will use!

How many people will be sent, will they be armed, or will there be others who will follow?

Now none of this is known!

The most important thing is the next problem of accommodation. It is not convenient to stay in a hotel, because when the weapons are brought in, it will be too conspicuous inside the hotel, and if there is a police check, or if there is any trouble.

If they come from the Mainland, their identity is already very sensitive, and if weapons are involved, then I am afraid that the Treasure Island authorities will have a reason and excuse, especially those clowns who are already jumping up and down and trying to stir up the relationship between Treasure Island and the Mainland, and I am afraid that they will make a big fuss about it.

What's more, there is no guarantee at all in terms of security when it comes to staying in a hotel. If too much energy is involved in the security aspect, the tracing of the source of the Alpha Ore will undoubtedly be affected when the time comes.

"There must be a place to stay, and a secluded and safe place at that!" Ji Feng said in a deep voice.

"Or else, buy a house in the suburbs?" Zhang Lei laughed: "Anyway, you're not bad with money, a villa can be bought in minutes, no problem, right?"

"Money isn't a problem."

Ji Feng shook his head with a smile and said, "But the problem now is that we still don't know how long we're going to stay here next, where will we have time to buy a house?!"

Zhang Lei laughed, "I do think it's necessary, from my point of view, we may not stay here for a short period of time, just by looking at the way the Chuk Yuen Gang treats us, I think it will take a lot of time to find the Alpha Ore, if we don't have a suitable place to live, I'm afraid it's still unknown if we can go back then!"

Ji Feng said, "Let's talk about it, let's settle the matter at hand first."

Zhang Lei nodded, it was still too early to talk about this, the most important thing now was to get through this night safely, and then after we get the weapons tomorrow, we can discuss with the people above to see where it is more appropriate to live.

"When can we get the weapons tomorrow?!" Zhang Lei asked.

"If there are no surprises, we can get them almost tomorrow evening!" Ji Feng said, this is what Ji Zhenping told him before he came, although Ji Feng didn't know exactly what channel the weapons were shipped through, but at least this time is not wrong, in this kind of thing, the top will certainly not make a mistake.

"Tomorrow evening"

Zhang Lei frowned and said, "So, we might have to stay in the hotel for two more nights?"

Ji Feng nodded and said, "There is that possibility!"

If it was evening before they could get their weapons, then I'm afraid that the temporary arrangement of a place to stay would be a bit rushed, and they would still have to stay in a hotel then.

"That's something to prepare properly for!" Zhang Lei said.

If it was just one night, then a little bit of dealing with it and being careful would be enough, but if it was two nights they couldn't stay awake for two nights, even if they could carry on, however, they couldn't resist someone secretly attacking.

Ji Feng asked, "By the way, where did Old Liu and the others go?!"

Zhang Lei shook his head and said, "I don't know, they just said they went out for a spin, and they don't know where they went."

Ji Feng then nodded slightly, he was still at ease with Liu Zejun and the others, and it was not very late in the day, nothing should have happened.

"Pop!"

Just as he was saying that, the heavy wooden door of the presidential suite was opened, and Liu Zejun and the others walked in one after another.

Zhang Lei said, "You guys came just in time, just now Ji Feng was asking where you guys had gone!"

Yao Zhijian laughed heatedly, "Went out for a spin and got some stuff by the way."

Ji Feng couldn't help but ask, "Oh? What kind of stuff did you get?!"

Swish!

A flash of cold light flashed from Liu Zejun's hand, and a sharp fruit knife appeared in his hand, at the same time, in his other hand he also took out four sharp knives that were only about two fingers wide.

"I have them here too!"

Yao Zhijian laughed heatedly and also took out a few knives from the back of his waist.

Ji Feng couldn't help but be slightly stunned and asked in consternation, "You guys this is where did you get these from?!"

However, just at this time, Yang Bin was a little embarrassed and scratched his head, then he saw his two hands back to the back and fumbled for a few times, then suddenly his hands moved violently.

"Whew~!"

Yang Bin actually took out two extremely sharp fire axes from behind his waist!

These two fire axes were about a metre long, and the heads made of pure metal emitted an eerie cold light. These fire axes, which were specially equipped for emergencies, were more powerful than ordinary axes, especially under the light, Yang Bin had a fire axe in one hand, which looked even more formidable!

Liu Zejun, Yao Zhijian and Yang Bin!

These three guys each had a weapon in their hands, and one was more formidable than the other.

"Boy!"

Zhang Lei was astonished and asked, "Where did you guys get these?"

Yao Zhijian smiled wickedly and said, "Didn't the boss just say that he wanted to prepare for the preparation? So we went around to the hotel's restaurant and kitchen and brought back all the vaguely knives that we used, well, there are still some knives that we didn't get back, so we'll have to make a trip back."

"Then you have this fire axe" Zhang Lei pointed to Yang Bin, "I see the entrance corridor is also just ordinary fire hydrant, did not see the fire axe ah?!"

"I went to the fire main gate!" Yang Bin said, "I see these two axes quite good to use, put there also no one use, so I gave to take back, there are still a few over there, I one-time bad to bring too much, back I go back to the trip, the several axes are taken over!"

"....."

Zhang Lei was really a bit speechless, he really didn't expect that these guys were all like hungry wolves, they directly looted the hotel's restaurant and back kitchen, looking at those knives in Yao Zhijian's hands, there were boning knives, and it seemed that there were also beef knives that specialized in cutting meat?

But while speechless Zhang Lei had to admit that the weapons prepared by these guys were really powerful, these knives could be used every day, I'm afraid they were even sharper and better than some daggers!

And the two fire axes in Yang Bin's hand, those are even two good weapons, if you hold a fire axe in your hand and charge directly into the opponent's crowd, that can simply be said to sweep a thousand armies, killing all!

"Then let's go again!"

Zhang Lei was instantly energized, "These guys you brought are not enough, let's go together!"

"....."

At this moment, they did not know that on the road outside the hotel, several black off-road vehicles were driving rapidly towards the direction of the hotel, and behind them, a luxury business car was following, Bao Weisheng was sitting in the car, his face was gloomy, but his gaze had a touch of urgency in it!

"Are all these people you've found reliable?!" Bao Weisheng asked the butler sitting next to him.
