

Campus Master 481-482

Chapter 481

“No matter what decision you make, I will support you!”

Originally Xiao Yuxuan was invited by Xiao Sumei to help persuade Ji Feng to let go of his hatred, but after hearing Ji Feng’s words, Xiao Yuxuan instead became Ji Feng’s most staunch supporter.

The suffering that Ji Feng suffered, she could not experience, because since she was young she had parents who loved her, relatives although there were also snobbish people, do not come and go that is, and there were not many sorrowful things happened to her, so that kind of engraved feelings, Xiao Yuxuan can not really understand.

However, she can imagine, if she were Ji Feng, in that kind of an environment, what should she do?

Xiao Yuxuan could not think of any solution, at least, she felt that if she were herself, she would definitely not be able to survive. That kind of situation would really break people.

On the one hand, it was Xiao Sumei’s careful nurturing that gave Ji Feng the greatest care, so that he would not have to endure those hardships alone, but on the other hand, it was also because Ji Feng had an extremely amazing tenacity that allowed him to persevere even under those circumstances, otherwise, there would not be a Ji Feng now.

Ji Feng faintly shook his head and smiled sagely: “Actually, what I have just said are all occasional experiences, from the time I understood, my mother took me to live in Mang Shi County, and it wasn’t that painful. But because of some experiences as a child, I was very out of touch, so I didn’t have many friends in elementary and junior high school, until I got to high school, only then did I count on meeting Lei Zi and Lei Lei ……”

Xiao Yuxuan grabbed his hand and smiled sweetly, “In fact, the experience of hardship is the most valuable wealth in life, people who have not experienced hardship usually do not have too strong a sense of crisis, while you are different, you have an experience that others do not have, and likewise you have a wealth that others do not have.”

“Ji Feng, don’t think so much, still the same, whatever decision you make, I will support you, I believe Lei Lei is the same!” Xiao Yuxuan said softly, “However, before you make a decision, don’t you have to consider your aunt’s feelings first?”

“That’s what’s giving me a headache!” Ji Feng shook his head with a bitter smile, “If my mum is asked to ignore that side, she definitely can’t do it, she is that kind of person, no matter how those people treat her, even though she is angry and pissed off in her heart, but still treats those people as her relatives …… especially her parents! ”

“It’s useless for you to have a headache, this is a problem you can never avoid, a decision has to be made before you can do so.” Xiao Yuxuan said softly.

Ji Feng nodded slightly and was just about to speak when he heard a sound of footsteps, he immediately turned his head to look and saw Tong Lei’s playful figure gradually approaching with a mischievous and footloose smile on her face.

“You girl” Xiao Yuxuan instantly laughed angrily, “Come in quickly!”

Tong Lei immediately spat out her cute little tongue, smiled and quickly walked in, casually closed the door and lightly laughed, “Ji Feng, Sister Yu Xuan, why don’t you guys go down and watch TV?”

Ji Feng laughed, “Didn’t you see that I was rushed up just now? Lei Lei, you’re not also like Yu Xuan, you’ve been entrusted by my mother to come here, are you?”

Tong Lei’s pretty face flushed as she nodded slightly, “Yes, yes” Auntie saw that Sister Yu Xuan hadn’t gone down for so long, she let me come up to take a look”

Ji Feng sighed lightly in his heart, “Mother is also concerned, ah”

He stood up and opened the window, looking at the trees outside where the flowers and leaves had withered in the night, he turned his head and smiled, “It’s better to wait until after the exams”

Xiao Yuxuan and Tong Lei looked at each other, both of them understood that Ji Feng had already loosened up in his heart, but just couldn’t get past that hurdle in his heart yet.

“Then let’s wait until after the exams.” Xiao Yuxuan laughed lightly, stood up and smiled at each other along with Tong Lei, turned and walked out.

Ji Feng looked at the backs of the two girls and shook his head with a smile, “These two naughty guys”

Next, because Ji Feng promised to wait until after the exams, Xiao Su Mei, who understood her son’s feelings, naturally did not mention it again.

But because his mother was here, Ji Feng was no good to continue to stay at home, he did not want to leave an impression of a bad student in front of his mother, he could only drive and take Xiao Yuxuan and Tong Lei, together with him to school.

Although classes have been suspended, but at this juncture near the exam, many students will go to the study room or the library to review their homework, although it is said that sixty points hail, but in reality, it is not so easy to get sixty points.

This is because in any school, there is a certain elimination rate, which means that even if all the students reach the 60th percentile and pass, they may not all pass.

Therefore, for every exam, students attach great importance to it.

Xiao Yuxuan and Tong Lei were no exception. For Xiao Yuxuan, of course, she was most concerned about whether Ji Feng and Tong Lei could pass their exams, and at the same time, she also needed to prepare for her lessons, and at the same time, together with other teachers, she eventually selected a set of exam papers for the exams among several sets of exam papers.

Ji Feng was driving Xiao Yuxuan’s red Volvo, and Xiao Yuxuan and Tong Lei were sitting in the back row, the two women were whispering something.

“Ji Feng, when will that BMW X6 of yours be repaired?” Xiao Yuxuan suddenly asked.

“It might still take a while.” Ji Feng smiled while driving, “It was so badly damaged that many parts need to be returned to the factory for reassembly By the way, why are you suddenly asking about this?”

Xiao Yuxuan laughed: “Because our foreign language department’s exams are a few days earlier than other majors, so one of our department’s classes, decided to hold a wilderness excursion, we may need a car then, my Volvo’s chassis is too low, it may not be able to walk on the wilderness road by then!”

Ji Feng suddenly snorted, “I say, who came up with this idea?”

“It’s the class president of a class I teach What’s the matter, what’s wrong with it?” Xiao Yuxuan asked a little strangely.

Ji Feng snickered, “A field excursion can really think of it, don’t even look at what season it is, the temperature in the wilderness is at least below zero now, and it’s hard to see anything other than some dead wood, what’s good for an excursion?”

“Not really, they said they were going to the eastern reservoir, it’s still warm there!” Xiao Yuxuan said.

Ji Feng frowned slightly and pondered for a moment before he said, “Let’s do this, I’ll go back and look at the exam schedule, if I’m not pressed for time, I’ll borrow a car to accompany you guys By the way, is Lei Lei going too?”

“Sister Yu Xuan is talking about another class, I don’t need to go!” Tong Lei said crisply.

“This outing is not limited in scope, if you sign up, anyone can go.” Xiao Yuxuan explained, “Leilei, your exam schedule is the same as theirs anyway, so why don’t you go too then, just so you can be my companion.”

Ji Feng laughed, “Since it’s an outing, let’s just go together.”

Tong Lei said crisply, “Well, if you both go, then I’ll go too, I want to be with you!”

Ji Feng suddenly smiled faintly, Xiao Yuxuan clutched Tong Lei’s small hand and said softly, “Don’t worry, silly girl, we will always be together!”

“Ding”

Suddenly, a mobile phone rang, Xiao Yuxuan immediately took out her mobile phone, however, when she saw the caller ID, she instantly frowned slightly and put the phone back into her kun bag again with some helplessness.

“Sister Yu Xuan, why didn’t you answer the phone?” Tong Lei couldn’t help but ask.

Xiao Yuxuan said helplessly, “I don’t want to answer is a very annoying guy calling.”

Tong Lei immediately spat out her cute little tongue and asked in a delicate voice, “Sister Yuxuan, is this guy who called trying to woo you? That’s why you don’t want to answer the phone?”

“You girl!” Xiao Yuxuan helplessly gave her a white glance, and subconsciously glanced at Ji Feng who was driving in front of her and said in a low voice, “Don’t talk nonsense, save the little rascal from getting jealous again!”

Ji Feng, who was driving, suddenly winced and couldn't help but hum, "In your eyes, am I that careful?"

Xiao Yuxuan and Tong Lei immediately smiled cheekily and said in unison, "Of course I am!"

Ji Feng instantly sweatdropped and smiled sarcastically, "Yes is right, protecting your own wife, there is nothing to be ashamed of Sister Yuxuan, who is that person who called you?"

Xiao Yuxuan was afraid of Ji Feng's misunderstanding and hurriedly explained, "It's a teacher at the school, who also teaches foreign languages, but not in the same office as me. Before, because he seemed to have something at home and had to transfer his class, the director let me help teach a class to the students for him, and as a result, from then on, he always used the excuse of thanking me and called me from time to time!"

"When was this, how come I didn't know?" Ji Feng asked in amazement.

Xiao Yuxuan said, "At that time, you were still in Yanjing, so I couldn't call you because of this little thing, right?"

"So that's how it is!" Ji Feng immediately shook his head and laughed, "It's been so long, that guy has a persevering spirit!"

"Stop laughing, I'm getting bored to death!" Xiao Yuxuan said helplessly, "Due to the face of my colleagues, I can't say too much, but he keeps pestering, but there's no excessive action, there's really no way"

Ji Feng laughed: "That's right, in the same unit, the head does not see the head, it is indeed difficult to solve."

Tong Lei had an idea next to her, "Sister Yu Xuan, then did you tell him that you already have a boyfriend?"

"Of course I said so, but he said that he was just being an ordinary friend and his usual behaviour was very disciplined, but his meaning was known to me!" Xiao Yuxuan rubbed her temples helplessly and said somewhat bitterly, "I don't even know what to do anymore, if it doesn't work, I'll apply for an office transfer and change my mobile phone number again."

Chapter 482

"But that's not the way to go either!" Tong Lei said, "For those of you who are teachers, aren't you each issued a form that lists the contact information of the school leader and every teacher. Even if you change your number, the teacher will definitely know it. Besides, you're all in the same school, even if you try to hide, you won't be able to!"

Xiao Yuxuan suddenly became even more distressed as she said helplessly, "Then, what should I do then"

"By the way, Sister Yu Xuan, the teacher who is pursuing you, the class he is leading, is it the one that is going to hold a suburban event this time?" Tong Lei suddenly asked.

“That’s right ……” Xiao Yuxuan blurted out, and immediately, she couldn’t help but widen her beautiful eyes and said in surprise, “Lei Lei, do you mean to say that the outing this time was promoted by that teacher?”

Tong Lei shook her head slightly and said, “I don’t know about that, I haven’t met that teacher either …… However, I guess this time for the outing, he will definitely go too, and it’s aimed at you, sister oh!”

Xiao Yuxuan was silent for a moment before saying, “At first I didn’t know he was going either, it was the class president of that class who contacted me about this and told me that the other teachers in the school’s hometown were not in Jiangzhou and would probably go back home very early, so they wanted me to help take charge of leading and managing the students, at least with me around, it would be convenient if anything happened. I think that’s very true, after all, I’m much more familiar with Jiangzhou than they are.”

“That sounds true, but Sister Yu Xuan, the students in that class must have invited other teachers too, that’s why they know that none of those teachers’ hometowns are in Jiangzhou!” Tong Lei held her chin and said, “If that teacher who is pursuing you, knew that you were also going to participate in this outing, I think he would definitely participate!”

Xiao Yuxuan couldn’t help but say, “Then I won’t participate, it’s fine to have a teacher leading the group, this outing will only take two days before and after, and there shouldn’t be any trouble there at the eastern reservoir!”

Before Tong Lei had a chance to speak, Ji Feng, who was sitting in front of the car, laughed, “Go, why not? I’d like to see what kind of character that guy who wants to pursue my wife is, so I’ll take this opportunity to let him know that Yu Xuan is already a famous woman, so that he can die of this heart in the future!”

Looking at Ji Feng’s grimace, Xiao Yuxuan and Tong Lei looked at each other and giggled.

“What are you guys laughing at? Is what I said not right?” Ji Feng hummed, “It’s only natural for me to protect my own wife! What’s more, I’ve been busy all this time, so I just took this opportunity to relax.”

Xiao Yuxuan laughed delicately, “You can’t stand it when others just call me a few times? What if both Lailai and I have people courting us?”

Ji Feng hummed, “Then I’ll go and tell the people who are pursuing you that both of you are my girlfriends, so they can die!”

“You’re so domineering!” Tong Lei also couldn’t help but laugh delicately, but her heart was extremely sweet.

Xiao Yuxuan laughed, “Then aren’t you afraid of causing public outrage?”

“What’s there to be afraid of?” Ji Feng bristled and hummed, “From the moment you both agreed to be my girlfriend, I’m already prepared for this, it’s just a few suitors, no need to put it to heart …… By the way, Yu Xuan, that teacher who is pursuing you, what’s his name?”

“Liu Quansheng!”

Xiao Yuxuan immediately said, but soon, she thought of something else and hurriedly said, "Ji Feng, don't mess around, I don't think he's a bad person, he's just a bit annoying."

Ji Feng laughed, "Don't worry, I definitely won't act recklessly, I don't have the habit of bullying people with my power."

Of course he would not easily mess around, not to mention other things, alone just Xiao Yuxuan and Tong Lei are still in school, the two are so beautiful, there must be no shortage of suitors, especially Xiao Yuxuan as a teacher of the United University, do not know how many unmarried male teachers dream girl, if every suitor, Ji Feng has to go up and teach others a hard lesson, he is also busy to death.

And if he really did that, he would certainly be no different from a dude in the eyes of others.

What's more, if he really did that, Xiao Yuxuan would definitely not have many friends at school anymore, who would dare to go and make friends with a dude's woman?

Women don't dare, because they are afraid of being seen by the dude and thus being toyed with. Men dare not even more, if they mess with the dude, they might get revenge.

It's true that Xiao Yuxuan and Tong Lei are his girlfriends, which is not bad, but we can't let the two of them not even have friends because of that, wouldn't that be too lonely?

Ji Feng certainly couldn't do such a thing, and definitely wouldn't be so selfish!

However, excessive things Ji Feng does not touch, but it does not mean that he does not do anything, others have come to pursue their girlfriends, it is always necessary to show their presence, at least it can make some people who are not so broad-minded, do not dare to mess around.

"Ding" Xiao Yuxuan's phone rang again, she immediately took out her phone and looked at it, and put it back with a bitter smile.

"Or is it that teacher called Liu Quansheng?" Tong Lei asked with a smile.

"Yeah, usually when he calls, if I don't answer, he won't call a second time, at most he will send a message stating what's going on, why does he keep calling today?" Xiao Yuxuan felt a little strange.

"Yuxuan, it's better to answer it, maybe there's really something going on!" Ji Feng laughed.

Xiao Yuxuan smiled delicately and asked, "You really want me to answer the phone?"

"You're always going to meet anyway, answering the phone doesn't mean anything" Ji Feng said with a smile, but his mouth was skewed.

This smiling action happened to be seen by Xiao Yuxuan two women, they immediately snickered, this guy also said not to be careful, this little action betrayed him, his heart may be more jealous!

However, for Ji Feng's jealousy, Xiao Yuxuan heart is not the slightest mustard, but more happy, Ji Feng jealous, it means that he cares about himself, in addition, Ji Feng is not really that careful, this is already enough.

"Then I can really pick it up?!" Xiao Yuxuan held the phone and shook it, a cunning smile flashed in her beautiful eyes as she deliberately teased Ji Feng.

"If you don't want to answer it, then you can just not answer it!" Ji Feng said in a serious manner.

The two women burst into petulant laughter, and Ji Feng couldn't help but be a little sarcastic.

"Sister Yu Xuan, pick up the phone, maybe that teacher Liu Quansheng really has something to do!" Tong Lei said softly as she forced herself to hold back her laughter.

"Fine!" Xiao Yuxuan nodded with a smile and picked up the phone, her expression also calmed down as she asked, "Teacher Liu? May I ask what's the matter?"

"..... Oh, my phone was in my bag just now, I didn't hear it" Xiao Yuxuan looked at Tong Lei and helplessly pointed to the phone next to her ear, saying with a muzzle. "He asked me why I didn't answer the phone just now!"

Tong Lei immediately whispered a cheeky smile and said softly to Ji Feng in front of her, "Sister Yu Xuan is calling, you are not allowed to keep your ears open and steal Ting Oh!"

Ji Feng immediately glared at her from the rear view mirror, when did this girl become so naughty too?

However Tong Lei so a talk, Ji Feng's attention was suddenly distracted, plus to concentrate on driving, he really did not hear what Liu Quansheng was saying on the phone, just heard Xiao Yuxuan said: "..... now is not good to say, if there is really nothing at that time, I will participate not me alone, there's also my boyfriend, and a female classmate from another class Well, okay, we'll be in touch when the time comes!"

Pop!

Xiao Yuxuan closed the phone and looked at the rearview mirror with a smirk, she saw from there, Ji Feng's gaze was flashing, she immediately pursed her lips, "Little rascal, did you steal Ting my phone?"

Now both the two women knew that he had some abilities that surpassed normal people, such as a superb memory, an excellent ear, and a very powerful body Therefore, they both knew that Ji Feng must be able to hear the contents of the phone if he concentrated.

Hearing Xiao Yuxuan's question, Ji Feng immediately shook his head: "No no! How could I possibly steal Ting your phone call, I trust you the most!"

"It's true that you trust me, but do you trust others too?" Xiao Yuxuan asked with a smile.

Ji Feng was dumbfounded, he indeed did not trust that teacher named Liu Quansheng very much, strictly speaking, he was very wary.

But of course he wouldn't admit it and said stiffly, "It's enough that I trust you, okay, okay, we're at the school up ahead, get ready to get off!"

The two women immediately whispered and laughed, Ji Feng was embarrassed and a little cautious, this is a rare scene.

Listening to the two girls' cheerful and delightful delicate laughter, Ji Feng couldn't help but feel a little resentful, and said in his heart, "It's just jealousy, what's so funny, if there are other girls pursuing me, you will also be jealous"

Taking a faint deep breath, Ji Feng tried to calm down and concentrate on driving.

However, just as he reached the entrance of the school, he suddenly saw a person who was quickly running from the entrance of the security section, shouting with his mouth, "Teacher Xiao, Teacher Xiao"

Ji Feng was stunned and asked, "Yu Xuan, this man is calling you, right?"

"Oh my god, why is he waiting here?" Xiao Yuxuan helplessly leaned back against the backrest, "This person is Liu Quansheng, when I called just now, I already said that I would wait until the picnic gathering before contacting him, I never thought he would actually be waiting here!"

When Ji Feng heard that it was Liu Qiansheng, he immediately turned his head and looked carefully, and secretly said in his heart, "Selling looks are quite good!"

The name Liu Qiansheng sounded a bit rustic, but this man was tall, with a pair of gold-rimmed glasses, looked very civilized, and looked quite good, if he dressed up a bit and held a leather bag under his armpit, he simply looked like a successful person.

Chapter 483

Liu Quansheng seemed to recognize Xiao Yuxuan's car, and without hesitation, he walked over quickly, with a gentle smile on his face, and said cordially, "Teacher Xiao, you're really diligent for coming so early after classes have been suspended!"

Buzz!

The window of the driver's seat lowered a bit, road out Ji Feng's mouthful of white teeth as well as that warm smile, "Sorry, you've got the wrong person!"

Liu Quansheng was stunned and subconsciously asked, "How, how is it you?"

"You know me?!" Ji Feng asked with a smile. .com

"Don't know!" Liu Quansheng shook his head and said somewhat strangely, "But this car, shouldn't this car be Miss Xiao Yuxuan's car? How come it's you driving don't know what to call it?!"

"Ji Feng!" Ji Feng smiled faintly.

"Sorry, Mr. Ji, it seems that I misidentified the car, I'm really sorry for the disturbance!" Liu Qiansheng said apologetically with a gentle smile on his face. As he spoke, he also moved out of the way and made a gesture of invitation.

Buzz!

Ji Feng raised the car window and drove the car into the campus.

"Strange, this is clearly Xiao Yuxuan's car, how come a man is driving it?" Liu Quansheng looked at the Volvo gradually moving away and couldn't help but mutter somewhat strangely, "Could it be, that young man just now was Xiao Yuxuan's boyfriend?"

Once he thought of the handsome appearance of the young man who was driving just now, Liu Quansheng couldn't help but have a hint of Yin cold in his heart, Xiao Yuxuan is destined to be my girlfriend, what are you, daring to drive her car?!

Liu Quansheng's gentle face was vaguely distorted.

But undeniably, he also had some frustration in his heart, usually for his own appearance, Liu Quansheng is still very confident, although not handsome enough to make Andy Lau, Chow Yun Fat cover his face and walk away, but at least it is also considered graceful, very manly charm.

A thirty-year-old man is the beginning of a mature man's charm, so naturally it will not be bad.

Liu Quansheng has always believed that, apart from his parents giving him a rustic name, he is not inferior to any other man in the slightest, especially when standing in front of some men with big bellies, he is more confident, while some younger than him can only be regarded as hairy boys, which are no threat to him.

But just now, when he saw the young man named Ji Feng driving, Liu Qiansheng had a vague feeling of frustration in his heart, this young man understood that he was quite younger than him, but his eyes swept over, but Liu Qiansheng could not help but tremble in his heart, this is the difference in aura.

Liu Quansheng looked down at himself, poise himself, but, in terms of aura but lost to that young man named Ji Feng

So, how to take Xiao Yuxuan back from that Ji Feng's hands?

"His name is Ji Feng?!"

Liu Quansheng suddenly came back to his senses, rubbing his chin and muttering darkly, "How is the name Ji Feng so familiar, it seems like I've heard it somewhere Right, some time ago the director of the General Office, Qin Yujie, had a conflict, which in turn was found out a lot of problems and ended up in prison. This, one of the students who clashed with Qin Yujie, seems to be named Ji Feng!"

As a teacher, one can still know a general idea about some things in the school, there is no impervious wall in the world, especially some gossip news, which spreads even faster!

"This Ji Feng seems to have a girlfriend, it seems like that conflict, also related to his girlfriend!" Liu Quansheng immediately laughed, not to mention that Ji Feng himself has a girlfriend, just his status as a student alone, certainly also has little to do with Xiao Yuxuan, between students and teachers this is not filming TV, how can it be!

Once he thought of this, Liu Quansheng's heart cheered up and whistled without paying attention to his image, muttering secretly, "I must find an opportunity to investigate and see what relationship this student named Ji Feng has with Xiao Yuxuan!"

For Ji Feng, he was still a bit uneasy.

.....

Looking at Liu Quansheng's figure in the rear view mirror standing at the school gate, Ji Feng couldn't help but smile, "Yu Xuan, this Liu Quansheng looks pretty good!"

“Yeah, looks quite civilized, not like the kind of person who would stalk people!” Tong Lei also nodded her head and said.

Xiao Yuxuan shook her head slightly and said, “People can’t look like people, some people look vicious but actually have a good heart, some people look svelte but do things that make people’s heads hurt!”

“That’s true!” Tong Lei nodded her head in agreement.

Ji Feng, however, swept two more glances at the rear view mirror and found that Liu Qiansheng’s figure had disappeared, thinking that he had left because he hadn’t waited for Xiao Yuxuan.

“Ding” Just at this time, Xiao Yuxuan’s mobile phone rang again, she immediately took it out, but then a bitter smile appeared on her face again, but still picked up the phone, “Hello, Mr. Liu”

“Teacher Xiao, taking the liberty of calling, I don’t know if I’m intruding?” Liu Quansheng’s voice was magnetic, and he spoke in a subdued manner, appearing to have a personal charm.

“No no, what is it that Teacher Liu wants?” Xiao Yuxuan asked.

“Oh, it’s actually not a big deal, I just want to ask Teacher Xiao, did you lend your car to someone else to drive?!” Liu Quansheng’s voice came over the phone, “It’s like this, I just saw your car in front of the school, I can be sure it’s your car, but the one driving it is a stranger, I just want to ask you so that the car won’t be stolen by someone who still doesn’t know”

The first time I saw you, I was very happy to see you.

Xiao Yuxuan was also stunned when she heard this, and then she said with slight displeasure, “Teacher Liu, thank you, my car was indeed lent to a friend to drive, is there anything else?”

“Uh” no more.” Liu Quansheng was blocked from speaking for a moment, “That’s” beep beep! Duh duh!”

Before he could finish his words, a busy tone came from the phone, and Xiao Yuxuan unexpectedly hung up the phone directly without even saying goodbye.

“This bitch!” Liu Quansheng’s face instantly twisted, gritting his teeth and cursing in a low voice, his chest heaving violently, “Pretending to be noble in front of me? Hmph, when I’ve chased you down, I’ll see how you can still pretend!”

He violently flung his hand, but as a result of the whoosh, the phone was accidentally flung away by him and fell to the ground with a snap, followed by two tumbles and a thud, and fell into the sewer by that incomparable coincidence

Liu Quansheng immediately screamed miserably: “Ah! My souvenir mobile phone” janitor! The janitor! Quickly come and help me retrieve my phone!”

Xiao Yuxuan and the others were naturally unaware of Liu Qiansheng’s decrepitude, in fact, if they knew, they would have clapped their hands in delight.

Originally, Xiao Yuxuan had an average impression of Liu Qiansheng, although she was a bit annoyed by the pestering, she at least did not feel disgusted with Liu Qiansheng as a person.

But just because of that phone call just now, Xiao Yuxuan's impression of Liu Qiansheng had completely changed.

"This is simply a villain!" Xiao Yuxuan said angrily, "It's a waste of time that he still looks like a gentleman in school, but I can't imagine that he is this kind of shameless person, it's really true what I said just now, people can't be seen, people who look like good people are actually full of bad things!"

Tong Lei was also a bit angry, her eyebrows slightly knitted as she said, "What he did was indeed very bad!"

Just now, it was Ji Feng who was driving, Xiao Yuxuan and Tong Lei were hiding in the back row, because of the dark colored protective film on the car window, that's why Liu Quansheng didn't see Xiao Yuxuan and Tong Lei.

It was also because of this that the three of them saw clearly the Xing character of Liu Quansheng as a person.

Just now Liu Qiansheng clearly saw Ji Feng drive his car from outside into the school, he actually called and deliberately said that he was worried about Xiao Yuxuan's car being stolen, and also said that the person driving the car was a stranger! What kind of car thief would steal a car and then send it back to someone? If it was stolen from the school, the car must have gone out, not come in!

As long as anyone with a little bit of brain could definitely think of it, Liu Qiansheng being a university teacher and usually so nimble, he would not think of it?

The first thing you need to do is to get your own name, so how can you be a stranger?

He made this call, on the one hand, he could make an appearance of caring for Xiao Yuxuan – look, I even recognize your car so clearly, am I still not concerned about you?

On the other hand, he can take the opportunity to probe the relationship between Xiao Yuxuan and Ji Feng, if he thinks about it some more, in case Xiao Yuxuan finds out that his car is really missing, if it was just a student's prank, and Xiao Yuxuan gets anxious and calls the police, how should it end?

When the time comes, Liu Quansheng will come out and pretend to be a good guy again!

For such a person, it is strange that Xiao Yuxuan is not annoyed!

But Ji Feng laughed and said, "Forget it, since we know what kind of person he is, just be careful in the future, there is no need to get so angry over this kind of person!"

Ji Feng wasn't angry, he just felt a little funny, Liu Qiansheng's tactics of playing were actually quite good, but his luck wasn't very good, he didn't find out that in fact Xiao Yuxuan and Tong Lei were sitting in the back row, otherwise, I believe he wouldn't have made this phone call.

"This outing, if he's going, I'm definitely not going." Xiao Yuxuan sank her pretty face and said.

Ji Feng laughed, "Then you have to explain to those students in advance, otherwise, when the time comes, people may say that you don't mean what you say, a teacher who loses his trust in front of his students, then you will lose all prestige!"

"I know!" Xiao Yuxuan nodded slightly, her pretty face was still a bit unhappy, that damned Liu Quansheng, to associate Ji Feng with a car thief, where does my family Ji Feng look like a thief, he is much better than many people, especially much better than you Liu Quansheng!

.....

Sending Xiao Yuxuan to the office to get something, then, Ji Feng and drove the two girls, the three went to the library together, he studied several courses, the teacher has underlined the key points, he has not even read, soon to be the examination, it is necessary to review it properly.

"Ding" Just after he arrived at the library, Ji Feng's phone suddenly rang, he couldn't help but smile helplessly, handed the book in his hand to Xiao Yuxuan, then walked out of the library and came to the corridor, took out the phone and saw that it was an unfamiliar number.

"Which one?!" Ji Feng picked up the phone and asked indifferently.

"Elder brother Ji Feng, this is He Hongwei." A voice that slightly surprised Ji Feng came from the phone, "When are you free, come out and sit down?"

Chapter 484

"Mr. He?" Ji Feng was a little surprised, then he laughed, "It's an honor to be invited by Elder Brother He, moreover, since Elder Brother He is new to Jiangzhou, it's time for me, as the host, to do my part as a host, hehe"

He Hongwei did not expect Ji Feng to be so kind, and could not help but laugh: "Older brother is too polite."

Ji Feng laughed: "Then how about this, I'm at school now to review my homework, I'll go back at 6 p.m., Mr. He set the place, I'll go there directly then."

"You're still at school?!" He Hongwei was stunned, then he smiled, "I left school a long time ago, now when I hear the words review homework, I'm really a bit uncomfortable, huh let's do it this way, 7:30 pm, the place is set at the Taste and Fragrance Restaurant on Jinling Road, is that okay?"

"I'll be there on time!" Ji Feng smiled faintly.

After ending the phone call with He Hongwei, Ji Feng thought about it and immediately dialed Han Zhong's number again and said, "Han Zhong, are you at school? Then good, I'll wait for you in front of the fountain garden next to the complex, I have something to discuss with you."

After the appointment was made, Ji Feng hung up the phone and stood in the corridor, walking back and forth in small steps holding his arms, while his mind was thinking quickly.

The cooperation with the He family would enable the Tengfei Pharmaceutical Factory to develop and grow rapidly, although not to the extent of becoming a top-ranked pharmaceutical factory in the country.

However, there is a prerequisite for this: the prescription must be in one's own hands, and at the same time, as the producer, Ji Feng feels that he needs to have an absolute advantage in this regard.

Obviously, He Hongwei's visit this time was definitely not just for the simple purpose of making money.

If it was just to make money, there was absolutely no need for He Hongwei to come to himself, there were too many money-making projects, so why would he need to come and mess with himself, a member of Ji Feng's family?

"What he wants should be the medicine prescription in his own hands!" Ji Feng secretly deliberated, "Or furthermore, he wants to know the source of this prescription in his own hands, or, wants to get the person who developed this prescription"

The first thing you need to do is to get a copy of the prescription. According to normal thinking, there is absolutely no such thing as a super genius in the world, and most of those so-called prodigies and eccentrics are more proficient or obsessed in a certain area.

However, he himself was obviously not that kind of person, which He Hongwei would not fail to see, so what he was scheming for was naturally not difficult to guess.

The fact that Ji Feng was even thinking that He Hongwei might have been probing himself, knowing that his kung fu, in the eyes of outsiders, was almost like appearing out of nowhere, which is absolutely not in line with common sense, and it would be strange if He Hongwei did not suspect!

Of course, perhaps the other party's investigation methods are very covert, that's why he didn't see it, but Ji Feng can do nothing about it, in terms of power, in fact, the He family is only slightly weaker than the Ji family, but there are not a few people who support the He family, want to stop He Hongwei's move from a high level, obviously a little impractical.

If such a person wanted to investigate anyone, I'm afraid he would have already done it on his behalf without even having to say a word.

"We must think of a way to do it!"

Ji Feng hugged his arms and tapped his fingers slightly on his arms, "At least, must have the power of my own as soon as possible"

"Whew-!"

After letting out a long breath, Ji Feng walked into the library's reading room, greeted Xiao Yuxuan and Tong Lei, and left quickly, heading straight for the fountain garden.

When he arrived at the fountain garden, Han Zhong had already arrived and was sitting on the outer steps of the fountain, smiling and gawking at the girls passing back and forth.

He was already slightly fat and his eyes were small, so at this point he squinted again, and his whole person had a sense of joy that people couldn't help but feel, which was really comical.

Ji Feng was dumbfounded and laughed as he quickly walked over.

"I say, this big winter, even the most beauty-loving girls are wearing thick, what can you see?!" Ji Feng smiled and sat down next to him, handing over a cigarette.

Han Zhong took out a lighter and lit the cigarettes for Ji Feng and himself respectively, and said with a heated smile, "You don't understand this, do you? Even in winter, there are plenty of girls who wear skirts don't believe me? Look over there! It's about thirty degrees west of south."

He raised his chin in that direction, and Ji Feng immediately followed his line of sight and was stunned.

It was really as Han Zhong had said, a girl was wearing a pink fur jacket on top that couldn't even cover her belly button, and a black leather skirt on the bottom that couldn't even cover her knees, with her snow-white thighs exposed.

Ji Feng immediately shivered and said with his jaw dropped, "She, isn't she cold? I can feel the cold wind stinging my bones when I look at her dressed like this!"

Han Zhong heatedly laughed, "Girls nowadays, for the love of beauty, they dare to wear anything! It's all very normal, you're seeing less and more."

Ji Feng looked down at himself, black jacket, wearing a not so thin woolen shirt inside, jeans underneath and leather cotton shoes on his feet Even so, when he was about to go out he was still said a few words by his mother, according to the popular words nowadays, that means to be windy not to be warm!

But the girl not far away Ji Feng don't know what to say, the jacket can not cover the navel, the lower body of the leather skirt can not cover the knee

What is she trying to do? The body does not want? Or is this girl a supreme expert who is not afraid of the cold wind at all?!

"Don't look at them dressed like this now, look carefully at her face!" Han Zhong had a bad smile on his face and whispered, "Look at her lips, they are frozen purple, in fact she doesn't know what kind of frozen she is hehehe, what I like the most, is to see these selling women in the street, wearing little and freezing silly, haha"

At the end of the sentence, Han Zhong couldn't help but laugh and his voice got a lot louder, the girl seemed to hear it and gave a fierce glare this way and hurriedly left with quick steps.

"Do you think she's shy from what we said, or is she too frozen to hold on?" Han Zhong asked with a bad smile.

"I think it's both!"

Ji Feng chuckled, he couldn't imagine that Han Zhong had this hobby that bordered on bad taste, he laughed, "Alright, alright, stop looking, I came to you because I have something to discuss with you!"

"Go ahead!" As soon as we got to the business, Han Zhong's face immediately turned serious, and his entire aura immediately changed.

Ji Feng pondered for a moment before saying, "This matter is a bit complicated to say the least, simply put, it's because I have a special effect medicine prescription in my hand, so someone wants to seek our cooperation, however, this person is a bit big."

"Is it a special effect prescription for a weight loss pill?" Han Zhong asked.

"It's not a diet pill, it's another special effect medicine" Ji Feng briefly introduced the efficacy of the special effect current, and looking at Han Zhong's dumbfounded look, he laughed: "Don't be shocked yet, there are things to say later! "

Han Zhong snapped back to his senses and looked at Ji Feng in shock, shaking his head, "Ji Feng, do you know what what you just said represents? If this kind of drug could really be produced, the sales would be frightening to death!"

Ji Feng laughed: "Of course it can be produced, I myself had drummed up a few pills before, and the results were quite good" Hear me out first."

After a slight pause, Ji Feng continued, "We'll talk about the prescription later, what I'm going to say now is the identity of this collaborator, he is the third generation leader of the He family in Yanjing, He Hongwei, the youngest of the He family"

"He family? He Hongwei?!"

Han Zhong was instantly shocked and blurted out, "Bad, being targeted by such a behemoth, we will definitely be eaten with no bones left in our faces! I know a bit about the He family, the Tian Yao Group, one of the top three groups in China, is controlled by He Hong Wei! Even the smallest subsidiary of the group is easily enough to swallow up my family's Han Group, not to mention our little pharmaceutical factory!"

Ji Feng laughed, "He is indeed very powerful, however, he wouldn't dare to swallow our factory."

"Why?!" Han Zhong was stunned, and then it dawned on him, "Right, your uncle is the secretary of the Jiangzhou Municipal Committee, don't look at the face of the Buddha, although the He family is very powerful, they always have to give some face"

Just said here, Han Zhong suddenly reacted, he looked at Ji Feng strangely, "That's not right either, in business matters, it's not as simple as giving or not giving face, how are you so sure that He Hongwei won't lay a hand on us?"

"Because I'm a member of the Ji family!" Ji Feng laughed.

"Of course I know this, you are the nephew of Ji Zhenguo, the secretary of the municipal party committee" is not right!" Han Zhong suddenly widened his eyes and his voice trembled a bit, "I, I said, you can't tell me that you and your uncle, both have relations with the Ji family in Yanjing!"

Ji Feng laughed: "And I won't hide it from you, my father's name is Ji Zhenhua!"

"..... me, holy shit!" After standing dumbfounded for a long time, Han Zhong stammered.

Ji Feng laughed: "It doesn't really matter what my identity is, the key issue is that I called you here today, mainly because I'm going to meet with He Hongwei in the evening, we'll go together then, you have a mental preparation first, and you'll still be in charge of the negotiations later!"

"Wait a minute, my head is a bit dizzy!" Han Zhong rubbed his temples, what Ji Feng said really shocked him too much, he had to digest it for a while

Chapter 485

Ji Feng's words really caused an extremely strong shock to Han Zhong, and he was still in a bit of a trance until he sat in the car going to the Taste and Fragrance Residence Hotel on Jinling Road. .com

The original Han Zhong guessed the relationship between Ji Feng and Jiangzhou Municipal Party Secretary Ji Zhenguo, and heard him admit it himself, which was already shocking enough, but how could he dare to link the Ji family in Jiangzhou with the Ji family in Yanjing, that was just too subversive!

It was as if his surname was Han, and nowadays a big figure in Yanjing who often appears on the TV news also has the same surname, but when people met him, they would at most associate him with the Han Group, but would never associate him with the big figure in Yanjing.

Because the difference between the two sides was too great!

What kind of family was the Ji family in Yanjing? Power overshadowed the sky, and when people from the family went out, even the lords of the party had to give some face!

Ordinary people might not even be able to come into contact with it, but being in the Han Group in Jiangzhou, they still had access to some information from the upper echelons and naturally knew how powerful the Ji family really was.

No wonder Ji Feng dared to say that He Hongwei didn't dare to swallow the Tengfei Pharmaceutical Factory, it turned out that he had the Ji family as his backing!

"Ji Feng, Boss Ji, you've hidden me from the world, I've thought and thought, but I never thought that you would actually be a member of the Ji family in Yanjing, and a future TZ!

Ji Feng waved his hand and laughed: "What TZ or not TZ are just joking words, now the Ji family is the Ji family and I am me, unless we encounter any big trouble, I am still not connected to the Ji family under normal circumstances. The main thing we need to do now is to get a clear picture of He Hongwei's bottom line, so we can plan before we move!"

"That's right!"

Since Ji Feng did not want to talk much on the topic of the family, Han Zhong naturally did not say much, he nodded and said, "This little pharmaceutical factory of ours, He Hongwei certainly does not see eye to eye, I guess what he wants, should be that prescription in your hands"

"Don't even think about the prescription!" Ji Feng said decisively, "Cooperation is fine, even handing over all the operation rights to him is fine, but the prescription must definitely be kept in our own hands, this point must never be shaken in a short period of time!"

Han Zhong smiled, "Then I have a bottom, when the time comes for negotiations, I will go and talk to He Hongwei's hand, as for the above, to what extent can we cooperate with He Hongwei, it is up to you to decide."

Ji Feng nodded slightly, this division of labour was very reasonable, and Han Zhong was very accurate about his position, so naturally he had little reason to disagree.

"Right, there's another point that needs to be taken seriously!" Han Zhong suddenly thought of something and immediately said, "Security, the security aspect must be taken care of! Since your prescription is so important and precious, there must be quite a few people who would hit on it, and if the security aspect can't keep up, it will definitely leave us scrambling."

Ji Feng smiled and nodded, "I already have someone in mind for security, I will take care of this aspect, don't worry!"

"That's good!" Han Zhong then let out a sigh of relief and laughed, "In fact, many people who fail in business are planted in the security aspect, for example, that Han Group of ours, we don't know how many business spies will be uncovered from the employees every year, a little inattentive, business secrets may be stolen, it's simply unthinkable then!"

"How about Old Du?" Ji Feng suddenly asked.

"Who?!" Han Zhong didn't react somewhat and couldn't help but ask: "You're talking about"

"Du Shaofeng!" Ji Feng laughed, "This guy should be qualified enough if he is in charge of the security measures of the pharmaceutical factory, right?"

Swish!

Han Zhong instantly lit up, fists and palms clashing as Season exclaimed, "Good! This is good! Not only is that boy Lao Du a good fighter, but the most crucial point is that he is affectionate and knows how to advance and retreat, and the most crucial issue is that he is not as naive as he looks, so he is definitely the most suitable candidate!"

"You think it's good too?" Ji Feng asked with a smile, "Then it's him!"

Han Zhong immediately nodded, "Good, of course he's the best, Ji Feng, go talk to him about this matter, I'm sure he'll agree. Moreover, brothers doing business together makes everyone happy in their hearts, why not drag Zhao Kai and Zhang Lei along with you"

Before he finished his words, Ji Feng was dumbfounded, dragging Zhao Kai here is still reliable, but if Zhang Lei is dragged here as well, Hey, it's strange that Tong Kade won't find himself fighting for his life!

By the way, he doesn't need to find himself fighting for his life, just take Lei Lei back and be dumbfounded himself.

"What's the matter, what's the problem?!" Seeing Ji Feng's face full of odd expressions, Han Zhong couldn't help but ask.

Ji Feng laughed bitterly, "You kid should not think much about it, especially Lei Zi there, you should not say so to tell you, Lei Zi's family, also from Yanjing, surnamed Tong!"

"....." Han Zhong opened his mouth wide, and only after a long time did he grit his teeth and say, "You're all a bunch of TZDs, why do you all pretend to be ordinary people to go to some university? TZDs are all supposed to have three wives and four concubines at the age of fifteen. The TZDs are supposed to go abroad at eighteen and come back at twenty to reign supreme or be a messy dude, so why do a few of you have to ruin the poor image of TZDs in my mind!"

Ji Feng suddenly laughed out loud, "You kid"

Han Zhong also laughed along with him, but in his heart he was wondering what kind of scene it would be if Du Shaofeng also came over, well, Zhao Kai too?

In fact, in Ji Feng's mind, the most suitable candidate for the head of the security department was not Du Shaofeng, but the mercenary Yi Xingchen, who had previously teamed up with him in the Jardine House robbery incident and performed extremely well.

During that operation, Yi Xingchen's performance was extremely stunning. All four of them had extremely rich combat experience and also had the habit of acting in unison, which was definitely not something that ordinary people could match.

Du Shaofeng was indeed very powerful, perhaps if they fought head to head, Yi Xingchen might not even be his opponent, however, if it was a fight to the death, I am afraid that two Du Shaofeng were not Yi Xingchen's opponents, the one who died in the end must be Du Shaofeng!

Only, what made Ji Feng extremely helpless was that the four Yi Xingchen had supposedly set up a security company and were said to have good business, so he thought that he would definitely not stoop to come to his own little pharmaceutical factory and take charge of any security department.

"If we can poach those four people, it will definitely be like a tiger with wings" Ji Feng couldn't help but feel some regret in his heart, if he had talked to Yi Xingchen four people frankly and unfairly

This thought just flashed in his mind, he could not help but slightly shake his head, at first that situation, both sides do not know each other's situation, simply can not easily reveal their identity, especially when the islanders are involved, it is even more important not to reveal their identity.

God knows if the islanders were involved with certain people in the country!

For the last Jardine House incident, Ji Feng had always had doubts in his mind, only, he knew that this matter had little to do with him, so he had not been concerned about it, but that did not mean that he did not know anything.

Island, Black Dragon Society

The actual fact is that you can find a lot of people who have been in the business for a long time. If he went to take care of it now, someone might even say he was meddling, which would really make people cry and laugh at that time.

"Right, Ji Feng, there's something I've been wanting to tell you, but every time I see you, I give it a miss" Han Zhong deliberated for a moment before saying, "That deputy director of the pharmaceutical

plant, Yang Yu, stays at the pharmaceutical plant and spends all day doing nothing I'm not complaining, but I think, you've wasted him!"

After looking at Ji Feng's reaction and finding that there was not the slightest difference on Ji Feng's face, Han Zhong only continued, "What I mean is that if you let Yang Yu stay in the pharmaceutical factory all the time, he might just be wasted for the rest of his life, but if you let him play to his strengths and go fight in the computer industry, he will definitely be a sharp knife, and no matter how difficult the computer industry is, he can help you punch through!"

"This person, is definitely a real computer expert!" Han Zhong made a summary.

Ji Feng laughed: "He's a computer expert, I've known about this for a long time, but I just haven't been able to free up my hands, don't worry, the computer industry, in the future, is also our development direction. But rice has to be eaten one bite at a time, and the road has to be taken one step at a time, if you go too fast, you might fall"

The actual fact is that you can't help but shake your head and laugh: "I just said it, you're not a stupid person, how could you let such a talent go unused, dare I say it's a long time ago!"

Ji Feng laughed, "First, we'll meet He Hongwei at the Flavor and Fragrance Residence, then we'll talk about other things!"

Han Zhong then nodded slightly and stopped talking.

An hour later, Ji Feng and the two of them arrived at Jinling Road and saw the LED light signboard of the Flavor and Fragrance Residence from afar.

"There it is!" Han Zhong pointed, "This place is really hard to find!"

Ji Feng instantly smiled faintly, and when he looked in the car, he saw four young people standing at the entrance of the Flavour and Fragrance House, and the one in the lead, who could it be if not He Hongwei?

"Go over there!" Ji Feng smiled, then pivoted the steering wheel and hurried over towards the Flavour and Fragrance House.

However, at this moment, his eyebrows suddenly furrowed, there was a black car that was rattling towards the Flavor and Fragrance House, and the most noticeable thing was that the black car was going against traffic!

In an extremely busy commercial street like Jinling Road, not to mention that there was a car going against the traffic, even if there were a few more cars going against the traffic, it would not be conspicuous, because here, even late at night, there was still a lot of traffic, shuttle, there were too many people and cars.

However, this car did not escape Ji Feng's eyes, and he could also see that the person driving in this black car was definitely a driving expert!

"Ee?!" Han Zhong also noticed that something was wrong, and he said in surprise, "How did that car go against traffic?"

Ji Feng's pupils suddenly contracted and he shouted angrily, "Damn it! That car is heading for He Hongwei!"

Chapter 486

Boom boom!

The roar of the engine suddenly sounded, Ji Feng's eyes widened in anger and he shouted, "Sit tight!"

Han Zhong immediately tensed up and held on to the backrest, shouting, "I said Ji Feng, don't go crazy, I'm seasick!"

Ji Feng didn't care whether he was seasick or not, he directly stepped on the accelerator and ran towards the Taste and Fragrance House at a very fast speed.

At the same time, his head stuck out of the car window and shouted violently, "He Hongwei, back off immediately!"

He Hongwei, who was standing at the entrance of the Taste and Fragrance House, was stunned and did not react for a moment.

Looking at the black car rushing towards him, He Hongwei and the few people around him were frozen in place. Only the other two bodyguard-like men, unable to react, blocked He Hongwei as much as they could.

"Idiots!"

Ji Feng cursed angrily, and at this moment, it was too late to do anything else as he drove straight towards the black car that was about to reach the entrance of the Flavour and Fragrance House and rammed it head-on.

Bang...!

The two cars crashed into each other without any reservation, and Han Zhong's arms went limp, and he screamed out in agony, and passed out. The black car on the other side of the road was knocked over and rolled over several times on the road, without moving!

"Shit! Shit!"

Ji Feng gritted his teeth and cursed twice, even though he was as calm as a mountain, he still broke out in a cold sweat, he quickly checked Han Zhong's condition and found that he had only fainted and had not suffered any serious injuries, at most he was only strangled by the seat belt.

Only then did Ji Feng let out a sigh of relief and hurriedly pushed open the car door and stepped down. His legs lashed out and his whole body was like a snake swimming away, gliding against the ground and arriving at the overturned black car in lightning speed.

He quickly pulled open the door and reached out to pull the people inside out, only to see that the two people inside, whose faces were covered in blood and who had long since passed out, were not responding at all. One of them had a revolver in his hand, and this was a foreigner!

Looking at the driver who was driving, he was actually strapped with detonators, and fortunately, the car had just crashed and had not detonated!

He kicked the revolver away and quickly pulled the driver to the side, and smashed his head with a fierce punch, ensuring that he would not be able to wake up in a short time.

But he didn't dare to relax in the slightest, and quickly checked inside the black car, surprisingly finding quite a few more weapons, submachine guns, and a guitar case which he carefully opened, and inside was a sniper rifle that hadn't even been assembled yet!

"Two maniacs!" Ji Feng cursed, but his face was Yin Yin's scary face.

Ji Feng could tell at a glance that these two people were professional killers at first glance, whether it was the weapons they were equipped with, or the positions and actions these two did, it was enough to show that these two people were definitely professional killers.

"Hoo!" Ji Feng jerked his head up, glanced at He Hongwei who was still standing at the entrance of the Flavor and Fragrance Residence not far away, and yelled, "What are you still standing there for?! Hurry up and come over here!"

Only then did He Hongwei and the others react and panicked as they pushed aside the two bodyguards in front of them and walked over with big steps.

"Mr. He, you" A bodyguard hurriedly stopped him and was just about to speak when he was interrupted by He Hongwei's angry roar, "Go away, Elder Brother Ji even dared to stand there and did it to save me, can't I just go! Am I more honourable than him?!"

The bodyguard stiffened and stopped, but was pushed aside by He Hongwei, who walked over in stride.

"Elder brother Ji!" He Hongwei quickly ran up to him and was about to shake Ji Feng's hand to express his gratitude.

"If you want them to wake up at any moment and finish us all off, then you should take my hand!" Ji Feng sneered without looking back.

He Hongwei instantly withdrew his hand and shook his head, laughing, "That's better!"

"Do you know these two people?" Ji Feng asked, pointing at the two people on the ground.

He Hongwei frowned slightly, looked down carefully, shook his head and said, "Don't recognize"

Ji Feng hummed and circled around the black car twice, carefully checking every part of the car, because the car was overturned, thoroughly instead, it was even better to check.

Until it was confirmed that there were no more dangerous devices in the car, Ji Feng then let out a long breath, he gritted his teeth and asked, "He Da Shao, do you think these two bastards are trying to harm you, or me?!"

It wasn't that Ji Feng was a hot-blooded person and liked to do what was right, but that he had to go and save He Hongwei.

If He Hongwei died in Jiangzhou, and in the process of meeting him, at that time, no matter what, the Ji family and the He family would no longer have any room for détente, the He family would definitely retaliate frantically, at that time the He family would not be reasonable, the future head of the He family was dead, what else did they have to worry about, the big deal was that the net would be broken!

So strictly speaking, if these two killers succeeded, they would not only harm He Hongwei, but also harm Ji Feng and the whole Ji family!

That's why Ji Feng saved He Hongwei despite everything, even going so far as to crash the car!

He Hongwei looked at the two people on the ground whose faces were already covered in blood and whose faces were barely recognizable, and his face changed, turning blue and white for a while.

"This is an attempt to harm both of us!" After a long time, He Hongwei snorted coldly and a few words burst out between his teeth, "This matter, it must be the work of the king's men!"

The King?!

Ji Feng's mouth immediately turned up and he sneered, "What an arrogant name! An arrogant person too, to dare to call him the King's Master!"

"Who's the king?!" Ji Feng suddenly turned his head and asked.

He Hongwei, however, suddenly came back to his senses and shook his head, "I'm talking nonsense, what I'm saying is that the King of Hell has sent someone to claim his life Elder brother Ji, I'm really thankful to you today, if you hadn't sacrificed your life to save me, I would have gone to meet the King of Hell by now... ..I owe you a life!"

Ji Feng gave him a meaningful glance and directly turned around and walked towards his Volvo.

After the violent impact just now, the front end of the Volvo had already been deeply caved in, and even the bumper had been dented, which looked very tragic.

However, Ji Feng did not care how the car was hit, he directly pulled open the door from the passenger seat, helped Han Zhong to sit upright, grabbed his wrist and slowly inputted bio-current.

"Shit!"

Han Zhong had just woken up and the first thing he said was a curse through clenched teeth, and then he moaned in pain, "My bones are broken, right?"

Ji Feng laughed, "The bones are not broken, but the skin Rou must have suffered a bit, nothing serious, hurry up and get down, the car is no longer safe!"

The car that has been hit may not be like the one in the Hollywood blockbuster, where the car is going to explode when it hits or overturns, but it is equally unsafe for a short period of time.

The reason is that no one can guarantee that after the car has overturned, the fuel tank will not leak, and if there is a slight spark, the explosion may still happen.

As soon as Han Zhong heard this, he ran down in a panic, and with that lively look, where did he look like he had been injured?

But just as he reached the ground, he bared his teeth in pain and cursed: "Shit! It hurts like hell, my boobs, they're strangled by the seat belt"

"Go to hell!" Ji Feng instantly cursed with laughter, lifted his leg and gave him a kick, laughing, "You're not a woman, what do you need boobs for?!"

Han Zhong hemmed and hawed, then he embarrassed his face again and kept rubbing his chest as he asked in annoyance, "Who is the guy driving across the street?"

"A killer!" Ji Feng said indifferently.

"Kill" Han Zhong immediately shrank in fear, that word 'hand' could not be said out loud. If they offended a killer or offended a killer organization, they would not be able to save their lives even if they had money!

"Young Master He!" Ji Feng shouted.

He Hongwei immediately walked over, his face was still ugly, but it was much better than the kind of annoyance he had just felt, "Elder brother Ji, what's the matter?"

"How do you plan to settle the matter today?" Ji Feng asked.

He Hongwei said without hesitation, "Leave it to the police, solve it through normal procedures, I must find out everything about this matter!"

Ji Feng nodded noncommittally and said, "Then let's do it according to Young Master He's wishes."

After this kind of incident, there was no atmosphere to talk about anything else. This kind of sudden accident made both of them lose their interest to continue talking.

Ji Feng took out a packet of cigarettes and handed them to He Hongwei and Han Zhong respectively. The three of them lit up and stood in front of the overturned black car, swallowing the clouds and smoking.

After a few moments of deliberation, Ji Feng suddenly said, "Han Zhong, my wallet seems to have disappeared, you go to the car and look for it!"

Han Zhong nodded his head with understanding and said, "Okay!"

Only Ji Feng and He Hongwei were left in the scene, and several of He Hongwei's bodyguards, who were already very good guards, were on alert at the outer perimeter, and with this kind of thing happening, their vigilance was at its highest.

"Brother He, now it's just the two of us, tell me, who the hell is the king" you don't bullshit me about the king being the king of Yan!" Ji Feng directly blocked He Hongwei's mouth and hummed: "If the king of hell wants to send his men, it will be to send black and white changeless or life-seeking brats, don't take others as fools!"

The cold light in Ji Feng's eyes flashed and he sneered, "Young master He, I have sacrificed my life to save you!"

He Hongwei was silent for a while before he shook his head and laughed: "Elder brother Ji, you are forcing me to" Actually, the name King, indeed, is not Master Yan, it is a code name. As for what

exactly is going on, it won't do you any good to know now I suspect that the reason why today's incident happened is because I once inquired about the king and disagreed with him!"

Ji Feng instantly raised his eyebrows, "Codename?!"

He Hongwei, however, did not want to say more, he looked at Ji Feng sincerely and said seriously, "Elder brother Ji, I swear on my personality as He Hongwei, I am not saying anything, but it is actually for your own good, when you reach a certain level of strength, you will definitely come into contact with the king, or his (her) men, but right now, knowing too much is really not good for you!"

Ji Feng was secretly shocked in his heart, but his mouth laughed: "Why doesn't the king just call him the emperor?"

"Maybe it's bad taste!" He Hongwei laughed bitterly.

Ji Feng was suddenly dumbfounded, but his heart was full of doubts!

Chapter 487

"The King" Ji Feng couldn't help but grimace and said, "The person who came up with this name, one can tell there's not much culture in it, what's not good to call it, it has to be called the King! Why doesn't he call it Old Buddha?!"

"Maybe it could be!" He Hongwei nodded and smiled, "Until now, no one has known the King's X'ing old brother, stop thinking of setting me up, when it's time to say it, I will definitely say it, but now that you know it, it really won't do you any half good!"

"Maybe!" Ji Feng stretched his hand and gave a non-committal smile.

He Hongwei said, "Older brother, although I, He Hongwei, am now a businessman, I know better than anyone the principle of paying back debts, by rights you saved my life, it's like I owe you, I deserve to pay you back! But that's precisely why I can't say anything more, because that's not helping you, it's hurting you!"

Ji Feng raised his eyebrows and said, "In that case, I won't ask."

Seeing Ji Feng's expression He Hongwei knew that the other party would definitely not give up in peace, in fact, He Hongwei was equally annoyed in his heart, before this assassination, he had received a warning from others.

However, at that time, he just shook his head and laughed, it was simply a joke, threatening the He family's people? Was the other party out of his mind?

Yet when He Hongwei learnt some of the other party's background, he finally took it seriously, he couldn't help but be scandalised.

It was precisely for this reason that he had brought so many bodyguards with him when he came to Jiangzhou this time, and they were all excellent retired soldiers from the army, but to think that the other party still dared to make a move so blatantly!

The cold light in He Hongwei's eyes flashed, and after a moment of deliberation, he suddenly asked, "Older brother, this time we agreed to meet at the Taste and Fragrance Residence, who else knows about it besides you two?"

Ji Feng was stunned, and immediately shook his mobile phone, "And it knows!"

He Hongwei then stopped talking, because he already understood that the problem was on his side.

In fact when you think about it, it was also true, although Ji Feng had now gradually become more and more powerful in the Ji family, but, for the power of the Ji family, he had not yet come into contact with it, and had not offended the king, so naturally he would not be thought of.

Only himself, once and now doing some things that seem to be offending certain people

Ji Feng smiled and said in a low voice: "What there is around people who have problems, more trouble than others, young master He, I think you should wait for the police to come and go with them, you alone"

He Hongwei suddenly laughed out loud: "Old brother, I have a number in my heart, they still don't dare to be so blatant as to attack me directly, at least they have to pull a scapegoat like today to do so" Besides, if they want to kill me directly, they have the opportunity to do it to me at any time. "

Ji Feng shrugged his shoulders and laughed: "I'm just slightly reminding you, to listen or not to listen, that's none of my business!"

He Hongwei couldn't help but laugh: "Older brother, being so careful, it's not like you!"

"You know what kind of Xing character I have?" Ji Feng hummed.

He Hongwei laughed, "Old brother, let these two bastards spoil the mood today, let's get together again some other day, I'll take note of old brother's saving grace today, I, He Hongwei!"

Seeing that Ji Feng didn't seem to be excited about the conversation, He Hongwei also forked off the topic directly.

Ji Feng also smiled and nodded his head, casually put out his cigarette and walked towards the overturned black car with big strides, He Hongwei looked stunned and then quickly followed.

"Elder brother Ji, are there any more questions?" He Hongwei asked, slightly cautiously.

"I suddenly remembered that I heard that in general professional killers like this will have one or two poison pills like sugar pills in their mouths, and once they fail in their mission, they will simply bite into the pills and commit suicide!" Ji Feng reached out and lifted up one of the foreigners among those two killers, broke open his mouth and examined it carefully, while saying, "Young Master He, I don't know if there is any danger here now, I advise you to stand a little farther away!"

He Hongwei was stunned for a moment, then nodded without the slightest pretense and quickly took a few steps back.

“Ding” At this time, He Hongwei’s mobile phone also suddenly rang, and Ji Feng vaguely heard that He Hongwei seemed to be saying something to the phone about it being no big deal, just a false alarm or something like that.

Ji Feng then understood that it should be someone from the He family calling, thinking that they already knew what had happened to He Hongwei here, and he knew without saying much that it must be a few of He Hongwei’s bodyguards making a report to the top.

But Ji Feng did not want to ask more about this, he directly tore off a piece of cloth from the seat cover of the car seat next to him and stuffed it directly into the mouth of the foreign assassin, so that even if he woke up, he would definitely not be able to bite the poison in his mouth.

Only after doing this did Ji Feng casually push the foreign assassin aside and was about to check on the driver who had also fainted.

However, just at this time, the corner of Ji Feng’s eyes seemed to have glanced at something, and he was stunned, turning his gaze back again to look at the foreign assassin.

However, when he looked clearly at what was in his line of sight, he instantly widened his eyes and subconsciously muttered to, “This, what kind of monster is this?!”

It turned out that because the car had just overturned making the two killers injured and unconscious, after Ji Feng stuffed the chair cover into the foreign killer’s mouth, he just threw it again so casually, and the foreign killer’s body twisted up strangely, lying on the ground in a weird position.

This was not what surprised Ji Feng, what shocked him the most was the foreign killer’s body!

The man was lying on the ground, his legs were flabby and weak, and his head was hanging down on the ground, but his waist was high and bulging, especially when his shirt was hanging down, revealing the furry waist that looked like a black bear.

This man’s waist, high bow, a vertebrae actually raw protruded from the waist, and under the light of the street lamp, the colour of that bone was actually gray-white!

The cold sweat on Ji Feng’s forehead instantly came down, he took a deep breath and slowly stretched out his hand and gently knocked twice on that bone.

Dang! Dang!

Two crunching sounds suddenly came out metallic!

“The spine of metal” Ji Feng’s forehead was cold and sweaty, his scalp was a little fried, and his back was even chilled. In his mind, the first thing that came to mind was a word – Wolverine!

“This bastard can’t be the kind of character played in the movie, right?” Ji Feng looked at the foreigner with a metal spine in front of him in a daze, and for a moment, he didn’t even know how to react.

“It’s okay”

After a moment, Ji Feng couldn't help but let out another sigh of relief, this foreigner in front of him was not like Wolverine in the movie, who had a recovery ability so terrifying that it was perverted. This killer in front of me, also gets injured, and when he is injured, it is not that easy to heal!

"He Hongwei, He Hongwei!" Ji Feng shouted twice.

He Hongwei had finished his phone call by now and immediately walked over quickly, asking in a deep voice, "Older brother, what's going on?"

Ji Feng pointed at the foreigner who was lying on the ground in an odd position and sneered, "Is this what you call Master Wang's men? Take a look for yourself!"

"Swish!"

As soon as He Hongwei turned around, his face instantly changed and he lost his voice, "It really is humph, so it's a monster!"

Ji Feng instantly sneered, "That so-called king you're talking about is also such a monster? Or is it"

He Hongwei couldn't help but shake his head and said, "Elder brother Ji, I believe you can also see that this matter is really not that simple, don't ask too many questions now, you will definitely know later!"

"Whatever!" Ji Feng said indifferently, then, his face snapped and he said in a deep voice, "Back off immediately!"

"What?!" He Hongwei did not react for a moment.

Ji Feng immediately roared, "Back up!"

He Hongwei instantly reacted, but he was only an ordinary person after all, and his reaction was not that agile.

"Piece of shit!" Ji Feng cursed, turned around, swung his leg, and gave a spinning back kick that landed squarely on the small of He Hongwei's abdomen.

"Ugh!"

He Hongwei let out a muffled cry, and in the next moment, his entire body instantly flew out.

Bang!

He Hongwei just fell onto the ground on the far side, rolling on the ground for five or six metres continuously, his whole body was thrown into a dizzy state and his mind was dizzy.

A few bodyguards were shocked and just wanted to rush over, when they saw Ji Feng's legs fiercely launch himself and his body surged, dashing towards the far side in a lightning-like manner, and immediately plunged to the ground in a flash.

All this happened in a flash of lightning, before those few bodyguards could rush over to protect He Hongwei, they suddenly heard a 'boom! There was a loud bang in the sky!

The whole street was illuminated, and a huge ball of fire shot up into the sky. Everyone's looked at each other in horror, and it turned out that the black car, which had been knocked over by Ji Feng, suddenly exploded violently, and the whole car instantly split into pieces.

A moment later, a huge ball of fire descended from the sky and hit the ground with a bang, with flames splashing everywhere.

Everyone was dumbfounded at the scene, especially He Hongwei and his few bodyguards, who were even more stunned.

They all knew very well that if Ji Feng had not directly kicked He Hongwei away just now, he would have been buried in the sea of fire by now.

"To put a bomb in the car, how ruthless" He Hongwei's face changed and he cursed through clenched teeth, "Bastard!"

Ji Feng was lying on the ground, looking at the car that had been blown apart, with chills running through his heart.

Others might not know, but Ji Feng knew very well that there was no bomb in the car, absolutely not!

Because before this, he had already checked the car carefully, and apart from some weapons, he did not find anything else, so it was impossible for the bomb to be in the car.

Besides, he had heard very clearly that the real bomb was actually hidden inside that 'Wolverine's' body!

"I sh*t!"

Ji Feng froze and cursed, "This is the real human bomb!"

Chapter 488

The violent sound of the explosion had already startled those pedestrians on the street, although it was already night time, but for Jiangzhou, the night life had not even really started yet, and many of the pedestrians who were shopping had not even really left yet, especially for the most prosperous Jinling Road in Jiangzhou.

Therefore, the loud boom of the car explosion, as well as the sky-rocketing fire, made many pedestrians horrified, but the curiosity could not subside and they all stood by the street, watching from afar.

Ji Feng looked at the blazing fire that was still burning, and a chill went up in his heart. It wasn't that he was terrified of the scene of the car explosion, but because of the way it was done, one couldn't help but twitch in one's heart.

This was simply a suicide attack!

Ji Feng took a deep breath, which barely calmed him down. He could now vaguely deduce the other party's plan of action, first driving up to the Taste and Fragrance Residence, if he could use the car to directly run He Hongwei to death, then there would be no need to bother.

If you can't run it over, use a pistol because the sniper rifle is not assembled, so Ji Feng directly ruled out the other party's intention to use the sniper rifle to kill He Hongwei.

In this hazy night, even with the light shining, trying to aim is not an easy task, even if Ji Feng had been trained a thousand times in the super agent training system, he would not be able to be so precise.

Once a shot misses or fails to kill him directly, He Hongwei's bodyguard will definitely be alerted and it will be much harder to assassinate him then.

However, if the car was used to hit him, even if there were more people in front of him, it wouldn't have much effect.

If you can't kill him, you can use your pistol to fire a few more shots, and then He Hongwei will definitely be dead.

With this plan, no matter what kind of contingency happens, there is no way to stop He Hongwei from being killed! It was an extremely simple, but effective plan.

It was only that the other side did not anticipate that Ji Feng would appear at the time of their action and, in a crazy way that no one could have imagined, would save He Hongwei.

Ji Feng's crazy move not only saved He Hongwei, but also took the two killers by surprise and ended up passing out directly on impact, thus exposing their identities.

Especially the 'Wolverine'-like humanoid monster with his metal-made spine, which left Ji Feng stunned and dumbfounded.

In this situation, Ji Feng didn't know whether it was because he had accidentally touched some switch or for some other reason, anyway, the end result was that the bomb inside that 'Wolverine' suddenly activated, and after Ji Feng kicked He Hongwei away, he had just plopped down on the ground when the bomb exploded

"This kind of attack, it's just too crazy!" Ji Feng couldn't help but shake his head slightly, he slowly took two steps forward and was just about to approach the exploding car when he suddenly heard another boom called.

Boom...!

An earth-shattering explosion caused Ji Feng to jerk instinctively to the ground, and through the blinding firelight, Ji Feng keenly discovered that this time the one that exploded was actually one of Wolverine's lower legs

He muttered, dumbfounded, "This monster's body, in the end how many bombs are loaded?!"

Looking at the driver again, Ji Feng was immediately even more stunned, at this time he could no longer find any trace of that driver, the latter had already been blown into pieces Rou, just spilling miserably onto the street.

"This, this is really" He Hongwei staggered to his feet, looking at the violent explosion, gritting his teeth and saying, "Damn it! The king's people have gone so far as to plant evidence against me and frame the Ji family in order to this is two lives!"

The cold light in his eyes, "From now on, my goal has changed, I will use my life's energy to eradicate the dynasty and finish off the king! I will not die with you"!

At this time, Ji Feng, who was not far away, was moved in his heart and secretly said, "Dynasty? The king?!"

According to his analysis, the dynasty that He Hongwei was talking about should be an organization, and the king might be the head of the organization or an important person in it. The most crucial point, and the one that shocked Ji Feng the most, was that according to He Hongwei's tone, the so-called dynasty was absolutely huge to an extremely terrifying level, so that He Hongwei, who was the youngest of the He family, had to say the words of immortality, so you can imagine how huge this organization really was!

However, this time Ji Feng did not ask more questions, he knew that even if he asked, He Hongwei would not say anything, so it was better to pretend that he did not know anything.

But Ji Feng's heart, but deadly remember the two names dynasty and king, because they represent, let He family also helpless a huge force, even if Ji Feng do not want to remember can not.

"Dynasty King!" Ji Feng secretly mused, these two names, or not, like himself, represent an organization and a person respectively?

Maybe maybe the second brother knows too!

Ji Feng secretly said, what exactly is the origin of this dynasty, how come even the He family, which calls the shots in China, can't do anything about it? Could it be that this dynasty was really that powerful?

Ji Feng's heart was filled with doubts, but his face was getting calmer and calmer.

He believed what He Hongwei said, that as his strength grew, one day he would meet that so-called dynasty, or rather, he would come into contact with the power of that organisation. Ji Feng had a bad premonition that when the time came, there might be an extremely fierce battle between him and that so-called dynasty before him and that so-called king.

This kind of premonition is very odd, in the past Ji Feng but never believed in premonitions, but today he believes it, and is convinced.

A man who could use a monster like 'Wolverine' as his henchman to stop him, what else could he not do?

The Chinese people's habit of watching the hustle and bustle really makes people laugh and cry, they don't even look at what time it is, you know, not all hustle and bustle can be watched, just like today, this kind of hustle and bustle is extremely dangerous, it's not possible to say that there will be a car on the debris is blown away, then if it wants to hurt people, it's really more than simple.

"Oooooooooooooooooo-!" In the distance faintly came the sound of sirens, Ji Feng could not help but shake his head bitterly smiled, whether in reality or in film and television works, the police will always come out to clean up the battlefield, other than that, they have no other use!

Just like this time, if he waited for the police to save his life, even if He Hongwei had ten lives, he would have lost them long ago!

However, apart from cleaning up the battlefield, these policemen were quite qualified to do the closing and escorting work. Ji Feng slowly took a few steps back and arrived in front of He Hongwei, who had already stood up but was still in shock.

He laughed: "Young Master He, it seems that your intention of handing them over to the police to be dealt with is going to be in vain, those two killers had bombs planted in their bodies, by now their bodies had long since been blown apart, even that Wolverine had been blown into Rou mud, however, if you look carefully, you might still be able to find a bone"

He Hongwei sank his face and frowned as he asked, "Wolverine?"

"Never seen the X-Men?" Ji Feng asked with a smile, "One of the main characters in it, named Wolverine, has alloy bones all over his body, and sharp claws"

He Hongwei faintly shook his head and said, "I never watch those fake movies!"

Ji Feng smiled faintly and did not say anything more, but he was able to see that He Hongwei's heart was suppressing a majestic anger, obviously, the behavior of these two killers today had completely angered He Hongwei.

In this regard, Ji Feng did not have the slightest opinion, he wanted to see through this matter, this so-called dynasty and that king, what kind of monsters their men are, today saw the 'Wolverine', maybe in the future will see other more powerful monsters.

He was even thinking maliciously that there wouldn't be a Tyrannosaurus or an alien or some other kind of henchmen, right?

The scene became silent for a while, except for the burning cars after the explosion, which were crackling and emitting dazzling fire, so that people could only watch from afar, but did not dare to get halfway close.

Ji Feng took out his phone and dialed his second uncle Ji Zhenguo's number: "Second uncle, I have encountered an urgent incident"

He quickly told the situation he encountered, and finally, he said with a gloomy expression, "Second uncle, the explosion has left this place a very messy place, and it is estimated that there is no trace of anything" Okay, then I will leave first, you send someone to deal with it!"

In the phone, second uncle Ji Zhenguo instructed Ji Feng to leave the scene immediately, first to protect their own safety is most important.

Anyway, there was nothing left at the scene, and the He family already knew that the one who really wanted to harm He Hongwei was not from the Ji family, and even if He Hongwei died later, it would not have the slightest relationship with the Ji family, so of course Ji Feng would not care.

"Young master He, sorry, I have something on my side and need to go first!" Ji Feng said with a smile.

He Hongwei also knew that it was obviously unrealistic to have Ji Feng here to protect himself, so he nodded and smiled, "Elder brother Ji, let's sit together some day!"

Ji Feng smiled and nodded, and then, together with Han Zhong, who had been in shock, turned around and left.

Although the red Volvo was hit badly, it did not hurt the engine, and the car drove the same, with Ji Feng still acting as the driver and Han Zhong sitting in the passenger seat in shock, his face full of disbelief.

In fact, it seemed that the reason why Ji Feng left so easily was because he had just made that phone call to his second uncle. On the phone Ji Feng could hear that Second Uncle was not even the slightest bit surprised when he heard the words 'dynasty' and 'king'.

This, on the other hand, surprised Ji Feng.

He decided that he would go to, Second Uncle and ask for an explanation!

Chapter 489

Second Uncle knew about dynasties and kings, or at least, he must have heard of them before!

Ji Feng trusted his own judgment, otherwise, when Second Uncle heard these two words, even if he was calm, he would have to show some surprise!

But second uncle was calm and steady, which made Ji Feng couldn't help but be suspicious. Just to ~

This so-called dynasty and king, what the hell is this thing? Is it really like what one guessed, that the dynasty is an organization, while the king is a responsible one? Or is it a leader in a dynasty?

Driving the Volvo that had been hit with a deep dent in the front end, Ji Feng did not dare to go home, but sent Han Zhong to a place where it was easier to take a taxi, and watched him get into a taxi and leave, before Ji Feng drove fast and headed straight for his second uncle's house.

The sky had already darkened before he reached his house, and even tiny snowflakes were faintly falling down, adding a touch of silence to the already very cold weather.

But Ji Feng's mood was very heavy. In the past, the so-called killers and mysterious stoppers were only seen in movies or in the movies, but now, he had actually seen it with his own eyes, right in Jiangzhou, right in front of him, a monster with metal bones and black hairy skin!

This time, Ji Feng suddenly realized that this world was not as peaceful as he had imagined, or at least, there were still many strange things, and the monster he saw today was one of them.

When Ji Feng arrived at the family compound of the municipal party committee, the snow outside had gradually gotten heavier. Ji Feng parked his car at the roadside, tightened his jacket and walked in with big steps.

Although the guards at the entrance of the family home already knew Ji Feng, when they saw him coming, they let him register as usual before letting him go.

It was very difficult for these guards to do so. If they strictly followed the rules and stopped people without passes or people they didn't know, they might offend some leader's relatives, and when the leader said one word, they might be disciplined.

But if they don't follow the rules, it's like a set-up, maybe if someone comes to the leader's house and casually mentions it, they will still be disciplined, which is simply not pleasing to both ends and a dilemma.

Therefore, when Ji Feng saw these guards, all of them were very respectful and filled out the registration form as required before entering the family courtyard.

This time, the person who opened the door for Ji Feng was not the second brother, Ji Shaolei, but the second aunt.

"Little Feng is here!" The second aunt was very enthusiastic, usually the three children were not around, and the second boy was alone in Jiangzhou, and he could not be seen all day, the second aunt usually stayed at home alone, and when she saw Ji Feng arrive, she naturally loved him very much.

Not only is Ji Feng handsome, but he is also very stable at a young age, so he is loved by Mr. and Mrs. Ji Zhenguo.

If he were to come home every day, it would kill him for the fun-loving and unpredictable Ji Shaolei!

"Second Aunt!" Ji Feng greeted with a polite smile, no matter how good the relationship was, his manners would never be lost.

"You kid, hurry up and come in, look at this snow you've fallen, clean it up quickly!" Second Aunt said enthusiastically, and then, with some surprise, she asked, "Little Feng, why have you suddenly come over at this time? Is there something going on?"

For many things, Second Aunt was not very clear.

Naturally, Ji Feng couldn't bear to tell her, such a quiet and peaceful life was the most suitable for her, and so was her mother, so Ji Feng naturally wouldn't add to their worries.

He just smiled and said, "There is a little matter, but it's just a small matter, second uncle is at home, right?"

"He's waiting for you in the study!" When Second Aunt heard that there was nothing important, she was immediately relieved and smiled, "Take off your coat, I'll clean it up for you, and you can go find your Second Uncle!"

Ji Feng's heart was warm and he smiled, "Thank you, Second Aunt!"

"You kid, why are you still polite with second aunt?!" Second Aunt smiled and took Ji Feng's jacket, . u just arrived~

Ji Feng went straight to the study, and when he pushed open the door, he saw that Second Uncle was looking at a piece with a serious face.

When he saw Ji Feng come in, Ji Zhenguo said, "What are you waiting for? Hurry up and come in!"

Ji Feng immediately smiled heatedly and said, "Second Uncle, are you still busy at this late hour?"

"It's not about what just happened!" Ji Zhenguo put down the piece in his hand and said, "Little Feng, you did a good job today, otherwise, we and the He family would definitely have had a violent conflict,

which is not good for the country and the people! However, although your out point was good, the way it was done was too drastic, if compared between the conflict with the He family, and your safety, we would not hesitate to choose your safety!”

Ji Feng laughed: “I also just couldn’t react in the heat of the moment, just that car is some second uncle, later you send a car to take me back, otherwise, my mother and Yu Xuan they must be worried to death!”

Ji Zhenguo nodded slightly and said, “Don’t worry, I’ll call her from your mother.”

Ji Feng pulled out a chair and sat down opposite his second uncle, he pondered for a moment before he couldn’t help but ask, “Second uncle, can you tell me, what exactly are the dynasty and the king, it sounds as if He Hongwei is very scornful of these two names, moreover, the He family doesn’t seem to be their rivals!”

Ji Zhenguo, however, did not answer his question immediately, but asked, “Little Feng, that prescription of yours, how did it come about?”

“How did it come about”

Ji Feng couldn’t help but hesitate a little, not knowing how to answer.

“Can’t say it to the public, can you?!” Ji Zhenguo smiled faintly and said, “Just like the source of your prescription, whether it’s the dynasty or the king, the same cannot be said to the public!”

“Actually,....., it’s not that I can’t say it, it’s just that if I say it, second uncle will definitely find it a bit unbelievable, so I won’t say it either.” Ji Feng said somewhat vaguely, in front of the second uncle, he did not want to lie, but moreover did not want to tell the truth, in the end, he could only pass by so vaguely.

However, Ji Zhenguo said, “Little Feng, you have asked the boy from the He family, right?”

Ji Feng nodded and said, “I asked, but he didn’t tell me, second uncle, I want to know information about the dynasty and the king!”

“Simply put, the Dynasty is an organization hidden in the darkness, it is said to have existed before the war of resistance, but no one knows whether their headquarters is in China or not, even the country’s intelligence department has done their best to detect them, but they have only found out their periphery, but they know nothing about their most specific information!”

Ji Zhenguo shook his head slightly and said, “According to the traces investigated, some people speculate that it seems that the Second World War and some other wars, especially the internal wars of some small countries in Africa in recent years, all have the shadow of this organization, Dynasty, in them”

“This” Ji Feng was really shocked, this is really too shocking, with the power of the entire Chinese intelligence department, it is surprising that they can’t find out the specific information of the other side, this organization is also really a bit too scary.

“So, what is the King again? Is it also an organisation?” Ji Feng asked again.

“The king should be a person, and in the dynasty, he should have a high status” Ji Zhenguo said, “For this king, different regions call him different names, we call him the king here, but in foreign countries, especially in Europe, he is called the lord”

“Only, to our dismay, so far we don’t know whether this so-called king is one person or a collective term for several people!”

Ji Zhenguo couldn’t help but shake his head and sighed softly, “But according to speculation, this king’s lord should just be a title, and it doesn’t specifically refer to a particular person.

Since the dynasty has existed since before World War II, even if the king was just an infant at that time, I believe he would be a dying man by now, and may even have died long ago! Therefore, the name, the King’s Master, should just be a code name for a certain type of person, for example, a name for someone in this organization who specializes in intelligence, or a type of person who is responsible for other jobs!”

Ji Feng’s heart was filled with shock as he subconsciously nodded and asked again, “So, what kind of things does this dynasty mainly do?”

Thinking about the monster like ‘Wolverine’ that he saw this evening, Ji Feng’s heart was vaguely a bit chilly, he subconsciously remembered some cruel organization that experimented on that living person, or some mad scientist or some other characters, if that was really the case, it was simply inexcusable!

The first thing that we can do is to find out what’s going on. At least, I don’t know. However, one thing is certain, this organisation is frantically amassing resources, money, and other technologies with absolute advantages, etc. Anything that can generate profit is their target! It is almost the same everywhere in the world.

What’s more, it is said that the dynasty has gathered a large number of very powerful scientists and experts of all kinds, whose research projects span countless fields, with investments all over the world, and all using different names, so that even if a country wanted to set out to eradicate the dynasty, it would not know where to start, after all, they are simply too deeply infiltrated. The name Dynasty has almost become a taboo!”

“This, this is too crazy, right?!” Ji Feng was filled with a shocked expression, and only after a long time did he ask, “So, the people of the dynasty, why do they want to do this? Want to rule the world? This isn’t a movie, where are all the people who want to rule the world”

Chapter 490

“Ruling the world?”

When Ji Zhenguo heard this, he couldn’t help but laugh, he shook his head noncommittally and said, “I don’t know if the dynasty can rule the world, but there is one thing I am sure of, if the dynasty wants to mess up the world pattern and make the world economy collapse, it might just be a flip of the hand!”

The corners of Ji Feng’s eyes suddenly jumped wildly a few times and asked in surprise, “Then what exactly do they want?!”

Just after the question was asked, Ji Feng couldn't help but smile sarcastically, if Second Uncle knew what the dynasty was really up to, he would probably have taken action already, where would he be as passive as he is now?

"I'm not too sure what they want, however, according to my understanding, the He family was preparing to have hands on the mining industry in Africa some time ago, and seems to have had a conflict with the dynasty, I think today's assassination should be related to this matter!" Ji Zhenguo mused, "And our Ji family, should have suffered a completely unwarranted disaster."

Ji Feng nodded slightly and smiled, "If that's really the case, then it would be a lot easier for me."

Ji Zhenguo, however, did not agree with this idea of his and said seriously, "You are a bit lax in thinking this way, it is still necessary to prevent disasters before they happen. Of course, although the dynasty is powerful, after all, it only belongs to an organisation in the darkness, they definitely don't dare to fight against a country head on, so it's fine to stay alert enough, there's absolutely no need to worry too much!"

"I understand!"

Ji Feng nodded and suddenly remembered something else and couldn't help but ask, "Second Uncle, if I saved He Hongwei today, won't I directly offend the dynasty? Will they take any measures against our Ji family?"

Ji Zhenguo could not help but smile, he did not answer Ji Feng's question, but asked with a smile, "Little Feng, before answering this question of yours, I do have a question for you. If you had already known about the existence of the dynasty before, and if you knew today that the people who were going to assassinate He Hongwei were sent by the dynasty, would you still save He Hongwei?"

"Will!"

Ji Feng blurted out and said categorically, "If they kill He Hongwei, even if there won't be a violent conflict between the He family and the Ji family, at least a tit-for-tat is certain, and it will definitely cause us great trouble then! Even if the dynasty retaliates, that will be a matter for later, at least this matter happened under my nose, I definitely can't just sit back and watch!"

"Since you understand all that, why do you still ask?" Ji Zhenguo asked with a smile.

Ji Feng was stunned, and then he smiled a little embarrassed, "What second uncle said was, indeed I was too worried!"

In fact, Ji Feng had indeed worried a little too much.

The first time he came into contact with such a mysterious organization as Dynasty, and such a mysterious figure as the King, especially the other party's ruthless methods and bizarre metal spine, had all deeply shocked Ji Feng.

The previous Ji Feng, all living in a small county like Mang Shi, at most there were some landlubbers and hooligans, not even a gang, where had he heard of any organization hidden in the darkness?!

It has to be said that the breadth of one's eyes can indeed determine one's mindset.

At this moment, Ji Feng was affected by his eyesight, and for the first time, he heard that there was actually an organization hidden in the dark world that actually penetrated all over the world, and could even directly influence the world's economic system and pattern, it was simply too shocking!

However, when Ji Feng remembered that a similar organisation or family had actually existed in this world for a long time, he would no longer be so shocked and his mind would be much smoother.

It was like what second uncle Ji Zhenguo said, no matter how huge the energy of this organization was, it could not compete with the power of a country, of course, the country mentioned here was a stable country, if it was a small country in Africa that was in violent turmoil, a mercenary group could overthrow the government of a small African country, that kind of country, naturally, could not compete with an organization with huge energy!

Once it explodes, it will shake the heavens and the earth, and no matter what organization it is, it will not be able to shake it head-on, otherwise, it will be the end of that organization!

In fact, when Ji Feng occasionally checked the internet, he once overheard information about a foreign family called the Rothschild family, whose power was so huge that it was simply astonishing.

But even so, the Rothschild family could only be integrated into society, into the whole world, not above the whole world!

The same goes for this dynastic organisation. No matter how terrifying this organisation is in the dark world and how much it calls the shots, they do not dare to take on China head-on. What's more, even if this organisation did have the ability to collapse the world economy, they would still have to consider whether they could afford the world's retaliation once the world economy collapsed!

So even if they had the ability, they would not dare to take it lightly.

Therefore, if this organisation wanted to deal with the He family, they could only use such despicable means as assassination, trying to provoke a fight between the He family and the Ji family, but taking a step back, this was the most powerful indication of their lack of power!

In fact, according to Ji Feng's speculation, the reason why those so-called organisations were so feared was actually just because they were better hidden, kept hidden in the dark world so that no one could find any trace of them, more or less coming and going without a trace.

If they dared to surface, not to mention anything else, the attack from the He family alone would be enough to make them anxious!

The clown hiding in the darkness is just a clown, perhaps this clown has some surprising energy, but no matter what time it is, the other party will always be a clown, this fact cannot be changed.

Seeing Ji Feng's expression gradually change, Ji Zhenguo couldn't help but smile slightly, he asked Ji Feng to come over, in fact, the main purpose is to want him to know, no matter how powerful the power in the darkness is, as long as the right actions are done, there is nothing to be afraid of!

"Second Uncle, I understand what you mean!" Ji Feng snapped his head up and smiled, "The dynasty may be powerful, but there is no need to fear them, soldiers will come and go, in the land of China, they may not be able to take much advantage!"

Ji Zhenguo nodded with a satisfied smile and said, "Good, as long as you understand this point, then everything is not a problem either."

Ji Feng smiled and nodded, but in his heart he was still vaguely worried, only this worry was not because that dynasty organization was too mysterious and huge, what he was worried about was that 'Wolverine' that he saw today!

It's really to replace a person's spine with metal.

The fact that the spinal column replacement technology is a great problem all over the world is shocking, but I can't believe that the dynasty organization has already done it and done it so successfully!

Ji Feng also remembered what Second Uncle had said, that the Dynasty Organization had a large number of scientists This Dynasty, shouldn't it be a perverted scientific research institution?

Having resolved part of the doubts in his mind, Ji Feng then politely refused to stay with his second aunt and got up to say goodbye and left.

Before Ji Feng left, Ji Zhenguo had already called Xiao Su Mei and told her that there was a problem with Ji Feng's car, but that Ji Feng was safe.

Although Xiao Sumei was worried, but with Ji Zhenguo's intercession, she could not reprimand her son, she could only say a few polite words and hung up the phone.

After thinking about it, Ji Feng still didn't ask his second uncle to send a car to take him, after all, the Volvo also needs to be repaired, it can't always be left here. And now the car is not affected by driving, when the time comes, you can walk home instead, and save yourself the trouble of second uncle's driver.

Driving the Volvo that had been hit and almost completely deformed, Ji Feng leisurely headed for home.

When the villa was already in sight, Ji Feng couldn't help but be stunned. He found that on the balcony on the first floor, there was a figure shadowed by the light, seemingly raising his eyes to look out.

It was Tong Lei!

Even without activating the bio-current, Ji Feng instantly recognised who this figure really was, and he couldn't help but feel warm in his heart, the direction that Tong Lei was looking out was exactly the road leading to the villa from outside, she was waiting for herself to return home!

This clear and beautiful girl was like a little wife waiting for her husband to come home at this moment.

"What a silly girl!" Ji Feng couldn't help but shake his head slightly, but the corners of his mouth had a smile that he couldn't hide, Tong Lei's actions made his heart extremely warm.

Ji Feng immediately increased his speed slightly, as soon as he reached the villa door, the gate was opened and a delicate figure quickly ran over, Ji Feng had just parked his car and stepped out of the car when this figure immediately jumped into his arms.

“Little rascal, you’ve finally come back, you’ve worried us to death!” Xiao Yuxuan’s Wu Nong soft words rang softly in Ji Feng’s ears, soft and sweet, but at the same time with a strong worry, so that Ji Feng couldn’t help but hug her tightly.

“I’m fine here, aren’t I? Don’t worry about it!” Ji Feng wrapped his arm around Xiao Yuxuan, stroked her long, silky hair, and laughed in a low voice: “Today is mainly about saving people, but your car is in a bad way, the whole front end of it is almost deflated!”

“You have to pay for my car!” Xiao Yuxuan pouted, seeing that Ji Feng was really alright, her mood cheered up again.

“Oh” Ji Feng was just about to speak when he heard footsteps coming, both of them were a little embarrassed and took a step backwards to separate, only to see Tong Lei was walking out with Xiao Su Mei, walking quickly.

“Ji Feng, are you alright?” Tong Lei asked with concern.

Ji Feng smiled, “Of course I’m fine, didn’t second uncle call to explain, it’s so cold outside, hurry up and go inside!”

Xiao Sumei couldn’t help but ask, “Little Feng, what exactly did you do today? Since receiving your second uncle’s call, Yu Xuan and Lei Lei were so worried that they didn’t even eat dinner and have been waiting for you to come back!”

These two silly girls

Ji Feng was touched in his heart, but his mouth was smiling: “It’s nothing, just going to an appointment, but I ran into a little trouble on the way, but now it’s fine!”

“It’s good that it’s okay, it’s good that it’s okay!” Xiao Su Mei said repeatedly. Next to her, Xiao Yuxuan and Tong Lei also nodded their heads, which made Ji Feng feel guilty.
